All Ph.D. students will be required to complete, present, and defend a dissertation that incorporates a topic related to HDNRE, in addition to the participating program. All participating primary programs (Anthropology; Energy and Mineral Engineering; Forest Resources; Geography; Recreation, Park, and Tourism Management; and Rural Sociology) have agreed to incorporate the dual-title program within the student’s dissertation work.

**Student Aid**

Forms of student aid are described in the STUDENT AID section of the *Graduate Bulletin*.

**Primary Programs of Study**

All students (M.S./M.A. and Ph.D.) in the dual-title intercollege graduate degree program in HDNRE are expected to complete the common series of courses (HDNRE 590 – 2 credit minimum for masters students and 3 credit minimum for doctoral students, HDNRE 574, HDNRE 575, and RSOC 555). As well, each student is required to take either ANTH 559 Behavioral Ecology (to be changed to Human Ecology – name change proposal at Department) or FOR 565 GIS-Based Socio-Ecological Landscape Analysis, and one additional course selected in consultation with the student’s graduate committee. All students must complete the required course of study in their primary program. Further, all HDNRE Ph.D. students will be encouraged to assist in teaching at least one course as part of their training and education in the dual-title intercollege graduate degree program.

**Rural Sociology**

**M.S.**
- M.S. – minimum of 30 credits (400, 500, 600 level) plus thesis
- Research Methods (AGEC 525 or its equivalent)
- Statistics – two semester sequence (AG 400 or RSOC 573 or their equivalent)
- Two or more of the following courses for Rural Sociology (RSOC 444, 452, 501, 502, 508, or 516)
- 6 semester credit hours of Thesis Research
- At least 8

**M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).**
- 6 semester credit hours of Thesis Research if a thesis is required.

**Ph.D.**
- Ph.D. – no specified minimum credit requirements plus dissertation
- RSOC 502
- Either RSOC 516 or 517
- Two of the following (includes untaken course from above: RSOC 501, 508, 525, 530, 552, 555, 597A-E)
- Research Methods (AGEC 525 or its equivalent)
- Statistics – two semester sequence (AG 400 or RSOC 573 or their equivalent)
- 9 semester credit hours of Thesis Research
- Comprehensive examinations in four areas (Rural Sociology; Methods/Statistics; two additional areas. These areas of concentration are developed in consultation with major professor and others. One of these areas must be HDNR.)
- A final oral defense of dissertation
- Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
- 9 semester credit hours of Thesis Research

**Forest Resources**

**M.S.**
- M.S. – minimum of 30 credits (400, 500, 600 level) plus thesis
- 12 credits in 400 and 500 level courses appropriate to field of interest
- 6 credits of graduate level statistics
- 2 graduate seminar colloquium credits
- At least 6 and no more than 15 credits of Thesis Research
- At least 18 credits total must consist of 500- or 600-level course series, and only 6 thesis research credits (600) are applicable
- A final oral examination
- M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
- 6 semester credit hours of Thesis Research if a thesis is required.

**Ph.D.**
- Ph.D. – no specified minimum credit requirements plus dissertation
- Candidacy Examination
- 2 credits of 590
- 1 credit FOR 602 credit (Supervised Experience in College Teaching)

The Pennsylvania State University
Satisfy Language or Culture requirement
Comprehensive Examination
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
9 semester credit hours of Thesis Research

Energy and Mineral Engineering

M.S.
M.S. – minimum of 30 credits (24 course credits + 6 credits of Thesis Research)
15 credits representing physical (EGEE 500 - 3 credits) and chemical (EGEE 510 -3 credits) interactions, quantitative skills (EGEE 520 -3 credits), integrative design experience (EGEE 580 – 5 credits), or equivalent substitution in these main programmatic areas, and Colloquium (EGEE 590- 1 credit)
A final oral defense of thesis
Ph.D. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
9 semester credit hours of Thesis Research

Recreation, Park, and Tourism Management

M.S.
M.S. – minimum of 36 credits including thesis
9 credits RPTM core courses (RPTM 501, 527, 545)
Research Methods (RPTM 530)
Statistics – one statistics course at 400 or 500 level
5 credits of RPTM electives
6 semester credit hours of thesis research
A final oral defense of thesis
Ph.D. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
9 semester credit hours of Thesis Research

Anthropology

M.A.
M.A. – minimum of 30 credits (24 course credits + 6 credits of Thesis Research)
12 credits in Anthropology (including ANTH 408 and ANTH 456)
6 credits of graduate level statistics
At least 6, but no more than 15 credits of Thesis Research
At least 18 credits total must consist of 500- or 600- level course series, and only 6 thesis research credits (600) are applicable
A final oral examination
Ph.D. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.

Ph.D.
Ph.D. – The M.A. requirements as noted above (or equivalent)
18 additional graduate level credits
Satisfy foreign language requirement
Comprehensive Examination
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
9 semester credit hours of Thesis Research

Geography

M.S.
M.S. – Thesis option or two-paper option: thesis option minimum of 30 credits, plus thesis; paper option minimum of 35 credits, plus two papers, one of which must be associated with a seminar. Geography 500 and 502, 3 credits of 501, 2 credits of 590, and a minimum of 3 other 500-level seminar credits from the Department required. Proposal defense required of both options; illustrated Paper presentation required at end of 2 nd year.
M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.

Ph.D.
Ph.D. – Geography 500 and 502, 2 credits of 590; no other course or credit requirements, plus dissertation
Ph.D. – Geography 500 and 502, 2 credits of 590; no other course or credit requirements, plus dissertation. Proposal defense a minimum of two weeks before comprehensive exam; final oral defense of dissertation.

Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student’s doctoral committee.

9 semester credit hours of Thesis Research

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

HUMAN DIMENSIONS OF NATURAL RESOURCES AND THE ENVIRONMENT (HDNRE) course list

Last Revised by the Department: Fall Semester 2008

**Degrees Conferred:**
Ph.D., D.Ed., M.Ed.

**The Graduate Faculty**
- John J. Cheslock, Ph.D. (Cornell) Associate Professor of Higher Education
- Michael Dooris, Ph.D. (Penn State) Affiliate Associate Professor of Education
- Dorothy H. Evensen, Ph.D. (NYU) Professor of Education
- Roger L. Geiger, Ph.D. (Michigan) Distinguished Professor of Education
- Robert M. Hendrickson, Ed.D. (Indiana) Professor of Education
- Beverly Lindsay, Ph.D. (American) Professor of Education
- Leticia Osagueria, Ph.D. (UCLA) Assistant Professor of Education
- David M. Póst, Ph.D. (Chicago) Professor of Education
- Roger L. Williams, D.Ed. (Penn State) Affiliate Associate Professor of Education
- Liang Zhang, Ph.D. (Cornell) Associate Professor of Higher Education

The graduate program in Higher Education has as its goal the preparation of individuals who will pursue careers and exert leadership in postsecondary education as administrators, faculty, or researchers in the nation's colleges and universities and in a variety of public and private agencies and associations in the United States and other nations. With emphasis on the systematic study of higher education, the program builds on the scholarly and scientific disciplines offered throughout the University and applies these studies to the professional functions and responsibilities that its graduates will assume, and to the knowledge of the field of higher education. The program is concerned with four broad areas of higher education study and with three areas of special emphasis: academic programs and evaluation, organization and administration, and perspectives on higher education policy and practice.

With mounting awareness of the changes occurring in various academic and professional fields, of the need for higher education reform, and of the need for improved articulation among the various levels of education, higher education faculty cooperates with other departments of the University to offer a number of courses and seminars for graduate students interested in pursuing a minor in higher education.

**Admission Requirements**

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by the graduate program and authorized by the dean of the Graduate School, such as the Miller Analogies Test (MAT), are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the **GENERAL INFORMATION section** of the Graduate Bulletin.

APPLICATION DEADLINE: Candidates may enter the program at the beginning of the fall or spring semester, or the summer session. To allow sufficient time for processing applications, required information must be received by January 1 for international applicants and those wishing to be considered for Graduate Fellowships, or February 1 for all other applicants. Those wishing consideration for the spring semester should submit materials by September 15. Applicants should contact the program office for additional application materials.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**Joint Degree Program between The Pennsylvania State University Dickinson School of Law (J.D.) and the Higher Education Program (M.Ed., D.Ed., Ph.D.)**

Joint Degree Program. The Pennsylvania State University Dickinson School of Law (DSL) and the Higher Education (HI ED) Program are offering a joint degree program leading to a Juris Doctor (J.D.); and a Master of Education (M.Ed.), a Doctor of Education (D.Ed.), or a Doctor of Philosophy (Ph.D.), in Higher Education.

**Admission Requirements**

The number of openings in the joint degree J.D./M.Ed., D.Ed., or Ph.D. program will be limited to students with an outstanding academic record who have successfully completed two semesters at the Dickinson School of Law.

Applicants to the joint degree program:
1. must have been admitted to the Dickinson School of Law
2. should have successfully completed two semesters of course work at the Dickinson School of Law with a grade-point average of 3.0
3. must submit two letters of recommendation from the Dickinson School of Law faculty
4. must submit a career statement

Note: Students are eligible to start taking courses in the HI ED program after successfully completing two semesters of law school work.

**College-Specific Admission Requirements**

**DSL:** A bachelor's or equivalent degree from an accredited college is a prerequisite for admission; however, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral and written communication skills before entering law school. The following are required of applicants: a completed application form for DSL; submission of the results of the law school admission test (LSAT); completion of an LSDAS report; a one-page personal statement; employment records since high school; and two letters of recommendation.

**HI ED:** The following are required of all applicants: a completed application form to HI ED; submission of the results of the Graduate Record Examination (GRE), Miller Analogies Test (MAT), or LSAT; an official undergraduate transcript or transcripts; a personal statement; employment records since high school; and four letters of recommendation.

All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the Test of English as a Second Language (TOEFL) and submit the results of that test with the application for admission. A TOEFL score of 550 on the paper test or a score of 213 on the computer-based test, or 80 points on the new Internet-based test with a minimum of 23 points on the new speaking portion; or the International English Language Testing System (IELTS) with a minimum composite score of 6.5 is required for admission.

**Residency**

Students will normally spend four semesters in residence at DSL and as many additional semesters in residence as needed to complete the additional requirements for the pertinent HI ED degree. Ph.D. candidates must arrange the sequence of semesters to ensure that they are in residence as full-time students in the HI ED program for at least two consecutive semesters (Fall-Spring or Spring-Fall) excluding summer in a single twelve-month period. D.Ed. candidates must take at least 90 credits, of which at least 30 credits must be earned at the University Park campus.

The Pennsylvania State University
Liaisons

The department and faculty liaisons for DSL shall be the Associate Dean for Academic Affairs and the student advisor will be the Associate Dean for Academic Affairs or such other faculty member(s) as may be designated by the Dean. The liaison for HI ED shall be the Professor-in-Charge (PIC) or such faculty member(s) as may be designated by the PIC.

PRESCRIBED COURSES

DSL: All students in the J.D. program are required to take the first-year curriculum in DSL. In the second or third year, students must take CORE 934 (Professional Responsibility).

The fall curriculum for the first year consists of the following courses:

CORE COURSES (CORE)
900. Civil Procedure (4)
910. Criminal Law (3)
912. Legal Analysis, Research & Writing I (3)
925. Torts (4)

The spring curriculum of the first year consists of the following courses:

One 3-credit Elective

CORE COURSES (CORE)
903. Constitutional Law (3)
905. Contracts (4)
914. Legal Analysis, Research & Writing II (3)
920. Property (4)

HI ED: All students pursing a Ph.D. must satisfy the following minimum requirements:

Core Courses: 18 credits

HIGHER EDUCATION (HI ED)
548. Curriculums in Higher Education (2-3)
552. Administration in Higher Education (3)
556. Higher Education Students and Clientele (3)
562. Organizational Theory and Higher Education (3)

Research Requirements: 12 credits

Statistics through Multivariate Analysis:
AG 400(4) and R SOC 573(3) or STAT 500(3) and STAT 501(3)

Research Requirements:

Advanced Skills: 9 credits

Specialization in Higher Education: 12 credits

Minor or General Studies Grouping: 15 credits (minimum)

PROPOSAL WRITING

HI ED 594 (Research Topics) (minimum of 3 credits; maximum of 9)

Ph.D. DISSERTATION (non-credit; for continuous registration after completion of coursework and Oral Comprehensive Exam)

HI ED 601 (full time) or HI ED 611 (part time)

All students pursuing a D.Ed. must satisfy the following minimum requirements:

Core Courses: 18 credits

HIGHER EDUCATION (HI ED)
548. Curriculums in Higher Education (2-3)
552. Administration in Higher Education (3)
556. Higher Education Students and Clientele (3)
562. Organizational Theory and Higher Education (3)

Research Requirements: 12 credits

Statistics through Multivariate Analysis:
AG 400(4) and R SOC 573(3) or STAT 500(3) and STAT 501(3)

Research Requirements:

Specialization in Higher Education: 12 credits

Minor or General Studies Grouping: 15 credits (minimum)

INTERNSHIP

HI ED 595 (9 credits optional based on previous experience in higher education administration)

VI. D.Ed. THESIS RESEARCH

HI ED 594 (Research Topics) (minimum of 3 credits; maximum of 9)

DISSERTATION (minimum of 15 credits)

HI ED 600 (thesis research) or HI ED 610 (Thesis Research Off-Campus)

Students pursuing the M.Ed. must satisfy the following requirements: (30 credits for degree)

- Higher Education Courses (15 credits minimum; HI ED 545 (Higher Education in the U.S.) is required).
- Research methods (3 credits)
- Minor field or General Studies Grouping (6 credits)
- Master’s Paper (3 credits)
- HI ED 596 (Independent Study)
INTERPROGRAM TRANSFER OF CREDITS

DSL: A maximum of twelve credits for HI ED course work may be transferred for credit toward the J.D. degree at DSL. Students must obtain a grade satisfactory to DSL for the course work to be credited towards the J.D. degree. The following HI ED program may qualify for credit in DSL: (1) HI ED 545 (Higher Education in the United States); (2) HI ED 552 (Administration in Higher Education); (3) HI ED 560 (Legal Issues in Higher Education); (4) HI ED 546 (College Teaching) and (5) HI ED 587 (Education Policy and Politics).

HI ED: What courses may be credited will be determined by the student’s degree program. Normally a maximum of twelve credits of DSL course work will be counted for credit for the minimum requirements for a master’s degree, subject to approval by the student’s advisory committee. Normally, a maximum of 30 credits from a master’s degree program will be counted for credit for the minimum requirements for a Ph.D. or D.Ed. degree.

Sequence
The sequence of courses will be determined by the students and their advisors.

Recommended Program of Study and Advising
All students in the program will have two advisors, one from DSL and one from HI ED. Periodic interaction between the two advisors will be encouraged. A program of study will be developed for each student, taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year but some are offered every two or three years. Advisors will have available a list of projected relevant courses or educational experiences in order to work with the student on an individualized program of study. The standard committee structure will apply to the HI ED programs.

Tuition
Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable graduate tuition to cover the HI ED degree program. DSL tuition will be paid for the semesters in which the student is registered for DSL courses, and graduate tuition will be paid for the semesters in which the student is registered for graduate courses. A student may take up to one course (3 credit hours) per semester in the program where the student is not primarily registered without any change in tuition, but must pay additional tuition to the program that the student is not primarily registered if he or she wishes to take additional course work pursuant to that program during the semester.

Financial Aid and Assistantships
Decisions on financial aid and assistantships will be made by each school according to that school’s procedures. Generally, assistantships and financial aid granted by HI ED will not apply to time spent at DSL.

Fulfillment of Degree Requirements and Graduation
All courses in one program that will count towards meeting the requirements of the other must be completed before the awarding of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to HI ED program requirements for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the HI ED degree program committee (in such cases, the committee should consider whether the credits afforded such work will be subject to the twelve credit maximum for interprogram transfers). A DSL faculty member must be a member of the committee.

If for some reason the student cannot complete the requirements of the J.D., the student will still be allowed to count DSL courses already taken toward the pertinent HI ED degree, even if he or she is no longer in the joint degree program.

Course Descriptions
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Wilson J. Mises, Ph.D. (Brown) Professor of History
Mark Munn, Ph.D. (Bryn Mawr) Professor of History, and Classics and Ancient Mediterranean Studies
Mark E. Neely, Jr., Ph.D. (Yale) McCabe Greer Professor of the Era of the American Civil War
On-Cha Ng, Ph.D. (Hawaii) Professor of History and Asian Studies
Carol Reardon, Ph.D. (Kentucky) Professor of History
Matthew Restall, Ph.D. (California, Los Angeles) Professor of History
A. G. Roeber, Ph.D. (Brown) Professor of History
Anne Carver Rose, Ph.D. (Yale) Professor of History and Jewish Studies
Paul Lawrence Rose, Ph.D. (Sorbonne) Professor of History and Jewish Studies
Gonzalo Rubio, Ph.D. (JHU) Associate Professor of History, and Classics and Ancient Mediterranean Studies
Janina Safran, Ph.D. (Harvard) Associate Professor of History
Kathryn Salzer, Ph.D. (Toronto) Assistant Professor of History
Gregory Smits, Ph.D. (Southern California) Associate Professor of History
Catherine Wanner, Ph.D. (Columbia) Associate Professor of History
Nan E. Woodruff, Ph.D. (Tennessee) Professor of History

Graduate instruction at the master's degree level is offered in the following areas of history: the Ancient Mediterranean; Medieval, Early Modern, and Modern Europe; including Great Britain and Russia; the United States; including colonial and African American history; the Middle East; East and South Asian; and Latin America. In addition, graduate instruction is offered in such comparative or topical areas as Military History, Women's History, History of Religion, Jewish History, and the History of Science.

Doctoral programs ordinarily are limited to American, Ancient, Medieval, Early Modern British and European, Modern European, and East Asian History; as well as comparative studies in the History of War and Society; Women's History; the History of Industry, Agriculture, and Society; the History of Science and Technology; and the History of Religion. Prospective doctoral candidates are invited to contact the graduate officer about the current availability of any of these or other areas before applying.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants to the doctoral program must hold or be near completion of the master's degree (or its equivalent); all others will be considered for admission to the master's program, even if it is their ultimate intention to pursue a doctoral degree at Penn State.

To be considered for admission, applicants must submit transcripts that show (1) substantial course work in history with a minimum grade-point average of 3.50 (on a 4.0 scale) in all undergraduate history courses, (2) a minimum junior/senior GPA in all courses of 3.50 (3) at least three semesters of college-level work in a foreign language (additional language training appropriate to the fields in which the applicant proposes to work may also be required for admission) and (4) where applicable, a minimum GPA of 3.50 for all graduate work previously undertaken. Each applicant must submit the scores of the Graduate Record Examination (GRE) taken within five years previous to the date of application; the general examination scores are mandatory, the history examination is optional. Students with scores of 650 or better in each of the verbal, quantitative, and analytic sections of the general examination will be given preference in admission. Applicants from abroad whose native language is not English must submit the scores of TOEFL to the Graduate School; admission to the history program normally requires a score of 600 or better.

The Department of History further requires all applicants to submit directly to the department a statement of intent outlining their proposed fields of study and career goals, as well as a sample of their written work (undergraduate history thesis, master's thesis, seminar paper or equivalent research paper) as evidence of their historical research and writing skills. Three letters of recommendation are required; it is strongly preferred that at least two of them be from historians.

Master's Degree Requirements
(1) Candidates for the M.A. degree must earn a minimum of 33 credits of graduate-level work, of which 18 credits will be in the student's major area and 6 credits each in two other areas, one of which may be in another discipline. Three credits in History 592 (Proseminar) in the student's major area of historical study, or in a related field if no Proseminar exists in the major area. (2) Reading proficiency in at least one foreign language must be demonstrated no later than the third semester.

The Pennsylvania State University
The Pennsylvania State University

Graduate Bulletin Archive - 2013 2012 - 2013

than the beginning of the second year of residence. (3) Students electing to write a master’s thesis will take 6 credits of thesis research as part of the 18 credits in their program, and will be given an oral examination on the thesis and topics related to the thesis. Students offering a master’s paper in lieu of a thesis will be given an oral examination based on the master’s paper and any part of the student’s course and seminar work in history related to the paper.

Doctoral Degree Requirements

History 592 (Proseminar in the major field or related field) is the only course required of all Ph.D. candidates. The remainder of a student’s doctoral program, including foreign language requirements, will be determined by the doctoral committee. In order to be admitted to doctoral candidacy, students must submit a historiographical essay in the proposed research field and pass an oral examination (the candidacy examination) on the essay and on possible dissertation topics suggested by the essay. After completing all course work, doctoral candidates must pass written and oral examinations in the research field, a primary area of specialization, and two additional areas (one of which may be outside the discipline of history). Upon completion of the doctoral dissertation, the candidate must pass a final oral examination (the dissertation defense) to earn the degree.

Other Relevant Information

The department's graduate officer, who supervises the overall graduate program in history and maintains student records, will assign newly admitted graduate students advisors on the basis of each student's field of interest. Advisors provide assistance in planning courses of study, guidance in choosing thesis and dissertation topics, direction in conducting research, and career counseling. Students who serve as graduate assistants will be given a variety of experiences as they assist different professors, ranging from paper-grading and administering exams, to preparing and delivering occasional lectures, to conducting review or discussion sections for large lecture courses. Advanced doctoral students may hold lectureships while working on their dissertations; lectures have instructional responsibility for one or two sections of an undergraduate course in their area of specialization.

Student Aid

In addition to the fellowships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

JAMES HAMILTON HARTZELL AND LUCREIA IRVINE BOYD HARTZELL HISTORY AWARD
A $200 to $300 award made annually to a graduate student in a department of History whose field of interest is Pennsylvania history.

JAMES LANDING FELLOWSHIP AND THE WARREN HASSLER FELLOWSHIP FOR STUDY IN THE CIVIL WAR
Each fellowship is available each year to doctoral candidates who are working on their dissertations. The award consists of a stipend that the successful candidate one semester of release time for research and writing. No tuition waiver is offered if offered.

HILL FELLOWSHIPS FOR STUDY IN HISTORY
Awarded annually by the Department of History to doctoral candidates who are working on their dissertations. The amount of the award varies, but it generally supports one semester free of duties.

EDWIN ERLE SPARKS FELLOWSHIP IN THE HUMANITIES
One fellowship is available each year to doctoral candidates in the Department of History who are working on their dissertations.

MARK AND LUCY MACMILLAN STITZER AWARD
Awarded by the Department of History each year to support graduate student travel for the purpose of research. The number and value of these awards depend on the quality of proposals received, the level of funding required by each meritorious project, and the funds available in the endowment. Preference is given to request for doctoral dissertation research.

THE E-TU ZEN SUN AWARD FOR OUTSTANDING TEACHING BY A GRADUATE ASSISTANT
One award is made each year to recognize excellence in teaching by a History graduate assistant in the conduct of discussion sections, review sessions, or lecture presentations. The value of the award varies depending on funds available, but it is normally about $500.

Dual-Title Graduate Degree in History and Asian Studies

Graduate students with research and educational interests in international education may apply to the History/Asian Studies Degree Program. The goal of the dual-title degree in History and Asian Studies is to provide advanced graduate students from History to acquire the knowledge and skills of their major area of specialization in History while at the same time gaining the perspective of Asian Studies.

In order to prepare graduate students for the competitive job market, this program provides them with a solid disciplinary foundation that will allow them to compete for the best jobs in their field. For such students the dual-title Ph.D. in Asian Studies will add value to their degree and their status as candidates. It will produce excellent historians who are experts in Asian Studies as well. The dual-title degree in History and Asian Studies will build curricular bridges beyond the student’s major field so as to provide a unique training regime for the global scholar.

Additional details of the dual degree program are available in separate documentation and from the Asian Studies Program (see http://asian.la.psu.edu/graduate.shtml).

Admission Requirements

For admission to the dual-title Ph.D. degree under this program, a student must first apply and be admitted to the History graduate program. Once accepted into the History program, the student can apply to the Admissions Committee of the Asian Studies. The Asian Studies admissions committee reviews applications and recommends students for admission to the Asian Studies program to the Graduate School. There are no specific requirements for admissions into the dual-title program beyond the requirements of the Graduate School and History, though applicants interested in the program should make that known clearly on their applications and include remarks in their essays that explain their training, interests, and career goals in an area of Asian Studies.

Each applicant must submit the scores of the Graduate Record Examinations (GRE) taken within five years previous to the date of application; the general examination scores are mandatory, the history examination is optional. Students with scores of 650 or better in each of the verbal, quantitative, and analytic sections of the general examination will be given preference in admission.

General Graduate School requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements

To qualify for an Asian Studies degree, students must satisfy the requirements of the History program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Asian Studies committee. Within this framework, final course selection is determined by the student, their Asian Studies advisor, and their History program advisor.

Upon a student’s acceptance by the Asian Studies Admissions Committee, the student will be assigned an Asian Studies academic advisor in consultation with the Asian Studies chair. As students develop specific scholarly interests, they may request that a different Asian Studies faculty member serve as their advisor. The student and advisor will discuss a program of study that is appropriate for the student’s professional objectives and that is in accord with the policies of The Graduate School, the History department, and the Asian Studies program.

Requirements for the History/Asian Studies Ph.D.

The doctoral degree in History and Asian Studies is awarded only to students who are admitted to the History doctoral program and admitted to the dual-title degree in Asian Studies. The minimum course requirements for the dual-title Ph.D. degree in History and Asian Studies are as follows:

- History 592 and History 593 (proseminars in historical methods and research)
- For students entering with a B.A. degree, a two-year sequence of these courses is required, for a total of four courses
- For students entering with an M.A. degree, a one-year sequence of these courses is required, for a total of two courses
- 15 credits of Asian-related coursework at the 400 or 500 level. At least 6 of these 15 credits will be from ASIA 501 and 502 (the required proseminars to complete the Asian Studies). As many as 6 may come from History, as approved by the student's doctoral advisor and the ASP Director of Graduate Studies. The remaining credits can be taken in ASIA or in any other department other than History.
Graduate Bulletin Archive - 2013 2012 - 2013

Particular courses may satisfy both the History requirements and those of the Asian Studies program. Final course selection is determined by the student in consultation with their dual-title program advisors and their major program advisors. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

**Dual-Title Graduate Degree in History and Classics and Ancient Mediterranean Studies**

This dual-title degree program will increase the intellectual rigor, breadth, and depth of graduate work in history through immersion in the disciplinary fields covered by the Department of Classics and Ancient Mediterranean Studies: the philology and literature of ancient Mediterranean languages; the history and material cultures of those societies.

This dual-title program will thus provide a context in which history graduate students will learn how to synthesize knowledge within and across traditional disciplinary boundaries. In addition, this dual-title degree program will provide qualified history graduate students opportunities for instructional training encouraging an interdisciplinary approach to teaching.

The primary advantages of this dual-title program include the intellectual and academic advantages and benefits of interdisciplinary study, as well as the enhancement of the reputation of the history department through an innovative program, leading to recruitment of highly qualified history graduate students, and an improved placement of doctoral graduates in the highly-competitive field of ancient history.

**Admission Requirements**

Students must first be admitted to the graduate program of the Department of History; only after admittance by the Department of History will history graduate students be eligible to apply for graduate study in the dual-title program. An admissions committee of CAMS faculty will review applications for graduate study in the CAMS dual-title program. The dual-title program will follow the timetable and admissions requirements of the Department of History.

Applicants to this dual-title degree program should have a junior/senior cumulative average of at least a 3.30 (on a 4.00 scale) and appropriate academic preparation. Preference will be given to those candidates whose undergraduate record demonstrates expertise in ancient Mediterranean studies (history; literature; archaeology) as well as proficiency to the 12th credit level in one or more ancient languages. Where applicable, a minimum GPA of 3.30 (on a 4.00 scale) is required for graduate work previously undertaken. Prospective students seeking admission to this dual-title degree program are required to write a statement of purpose that addresses the ways in which their research and profession goals will reflect an interest in interdisciplinary research in history and the disciplines and fields included in the CAMS dual-title program.

**Degree Requirements**

This dual-title degree will have requirements in addition to those for graduate degrees in History. Those requirements include additional course work in ancient languages, reading knowledge of one ancient language; Ph.D. candidates will fulfill a requirement of reading knowledge of two ancient languages or of one ancient language and one modern foreign language. Students must acquire and demonstrate reading proficiency in those modern foreign languages (e.g., French, German, Italian) appropriate to their research interests, as identified in consultation with their dual-title master's and/or doctoral committee.

**Ph.D. Degree**

6 required credits in CAMS: CAMS 592: CAMS Proseminar; CAMS 593: Research Seminar 6 required credits in 500-level History seminars (e.g., History 502, 503, 504, 505). Students electing to complete a thesis must enroll for 6 credits at the 600-level. Students electing to submit research papers (see the next paragraph), in lieu of a thesis, must enroll for additional 500-level credits to fulfill the Graduate Faculty requirement of 18 credits at the 500-level or above. 9 additional credits in 500 or 400-level work in CAMS courses.

**Communications and English Competency Requirements**

The student will fulfill the English Competency requirements specified by the History department. Master's students will fulfill a requirement of reading knowledge of one ancient language; Ph.D. candidates will fulfill a requirement of reading knowledge of two ancient languages or of one ancient language and one modern foreign language.

**Candidacy**

In order to be admitted to doctoral candidacy in this dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the History and CAMS dual-title programs: A Ph.D. candidate must pass the comprehensive examination, a dissertation, and a final oral exam. The comprehensive examination will be taken on completion of at least 18 credits of acceptable graduate work at Penn State and must be taken by the third semester of full-time study in this doctoral program. A single candidacy examination will contain elements of History and the participating program (CAMS). Following successful passage of the candidacy exam, a program plan will be submitted to the Departments of History and the participating program after consultation with members of the student's doctoral committee.

**Committee Composition**

For the dual-title M.A., the student's dual-title master's committee will include, at a minimum, one CAMS faculty member. For the dual-title Ph.D., one CAMS faculty member, at a minimum, will be a member of the dual-title doctoral committee. The chair of the committee may represent both the History and the CAMS dual-title programs. Graduate Faculty requirements stipulate that a minimum of four graduate faculty must constitute a doctoral committee of which at least two members of the doctoral committee must be from the major program and at least one member must be the outside member. The outside member of the doctoral committee of a dual-title student must have no budgetary connection either to History or to CAMS.

**Comprehensive Exams**

Dual-title students must successfully pass a comprehensive examination, as required by History. The comprehensive examination must take place in either spring or summer at the end of the student's third year (if entering as a master's/Ph.D. student) or in either spring or summer of the second year (if entering as a Ph.D. only student); dual-title students may receive an additional one or two semesters of coursework prior to taking the examination only by petition from the student's dual-title doctoral committee and the written approval of the participating program's Director of Graduate Studies. The comprehensive examination must reflect the dual-title content or the History and CAMS dual-title programs. The participating program faculty on the student's dual-title doctoral committee will be responsible for determining the content of the comprehensive examination covering CAMS topics. The comprehensive exam will be written and oral components. The CAMS portion of this examination will focus on those CAMS-related fields the student has studied as well as the topic of the proposed Ph.D. The comprehensive examination will therefore cover the research field, as well as the other historical fields, ancient languages, and research techniques the student has studied.

**Dissertation**

A dissertation on a CAMS-related topic is required of students in this dual-title degree program. The CAMS topic of the dissertation will be approved by the student's...
dual-title doctoral committee.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

RAFFY LUQUIS, Program Coordinator
Penn State Harrisburg
W314 Olmsted Building
777 W. Harrisburg Pike
Middletown, PA 17057-4898
717-948-6730
E-mail: orl100@psu.edu

Degrees Conferred:
M.Ed.

The Graduate Faculty
- Raffy R. Luquis, Ph.D. (Arkansas) Associate Professor of Health Education
- William D. Milheim, Ph.D. (Kent State) Professor of Education
- Samuel W. Monismith, D.Ed. (Penn State) Associate Professor of Health Education

The Health Education program emphasizes behavioral and organizational strategies to plan, implement, and evaluate interventions that enable individuals, groups and communities to achieve personal, environmental, and social health. It complements other professional fields such as education, nutrition, physical therapy, occupational therapy, dental hygiene, nursing, health care administration, and preventive psychology.

The program follows a professional development focus, as many of the students are employed in the broad areas of disease prevention and health promotion and are pursuing graduate study on a part-time basis. The M.Ed. is a professional degree emphasizing applied research.

The program requires a research-based culminating experience. The faculty has a broad range of interests, including health promotion, family systems, teaching and training methods, violence and substance abuse prevention and control, and multicultural health issues.

A minimum of 30 graduate credits is required for the completion of the degree. A 3 credit research-based culminating writing experience is required. The program requires students to complete 21 credits in Prescribed Core courses and 9 credits in Elective courses.

Admission Requirements
Students must have a baccalaureate degree from an accredited college or university, an overall minimum undergraduate grade-point average of 2.50 and a junior/senior GPA of 3.00 (on a 4.00 scale) for admission into the program. Students are also required to submit:
- A completed application form with application fee;
- Two copies of an official transcript from an accredited, college-level university;
- Supplementary application.

An application is available on the Web at www.hbg.psu.edu or by calling 717-948-6250.

Degree Requirements
A minimum of 30 graduate credits is required for the completion of the degree. A 3-credit research-based culminating experience is required. The program has a required core of courses totalling 18 credits as follows:

Prescribed Core Courses: 21 credits
- HLHED 415 Planning and Development of Health Education Programs (3)
- HLHED 456 Advanced Techniques in School and Community Health Education (3)
- EDUC 440 Education Statistics and Measurement (3) or EDPSY 400 Introduction to Statistics in Educational Research (3)
- HLHED 552 Current Health Education Issues (3)
- HLHED 553 Multicultural Health Issues (3)
- EDUC 586 Educational Research Design (3) or HLHED 530 Research Techniques in Health Education (3)
- Culminating Experience: HLHED 591 Culminating Health Education Seminar (3) or HLHED 587 Master's Project (3)

Elective Courses: 9 credits
A minimum of 12 credits is to be selected from the following HLHED courses: HLHED 420, 421, 443, 497, 501, 516, 590, 596, or 597.

Students also may select electives from suitable courses in Psychology, Community Psychology and Social Change, Education, Training and Development, or Health Administration programs. Note that 6 credits must be at the 500 level. Please contact the program office for further information about electives.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Horticulture (HORT)

Program Home Page
RICHARD P. MARINI, Head of the Department
102 Tyson Building
814-865-2571

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty
- Richard N. Arteca, Ph.D. (Washington State) Professor of Horticultural Physiology
- Rick Bates, Ph.D. (Virginia Tech) Associate Professor of Ornamental Horticulture
- Robert D. Berghage, Ph.D. (Michigan State) Associate Professor of Horticulture
- Kathleen B. Brown (formerly Eversen), Ph.D. (Florida) Professor of Postharvest Physiology
- Robert M. Grassweiler, Ph.D. (Ohio State) Professor of Tree Fruit
- David Decoteau, Ph.D. (UMass) Professor of Horticulture
- David M. Eissenstat, Ph.D. (Utah) Professor of Woody Plant Physiology
- Majid R. Foolad, Ph.D. (California, Davis) Professor of Plant Genetics
- Mark J. Guiltnan, Ph.D. (California, Irvine) Professor of Plant Molecular Biology
- Charles W. Heuser, Ph.D. (Rutgers) Professor of Horticultural Physiology
- Kathleen Kelley, Ph.D. (Michigan State) Associate Professor of Consumer Horticulture
- Roger T. Koide, Ph.D. (California, Berkeley) Professor of Horticultural Ecology
- William J. Lamont, Jr. Ph.D. (Cornell) Professor of Vegetable Crops
- Jona Cooper Lynch, Ph.D. (California, Davis) Professor of Plant Nutrition
- Richard P. Marini, Ph.D. (Virginia Tech) Professor of Horticulture; Department Head
- Michael D. Orzolek, Ph.D. (Maryland) Professor of Vegetable Crops
- Elsa Sanchez, Ph.D. (Washington State) Associate Professor of Horticultural Systems Management
- James C. Sellmer, Ph.D. (Wisconsin, Madison) Associate Professor of Ornamental Horticulture
- Dan T. Stearns, M.S. (North Carolina State) Professor of Landscape Contracting

Students may specialize in crop production and marketing, integrated crop management, plant genetics and breeding, horticultural plant physiology, postharvest physiology, plant molecular biology and biotechnology, and horticultural ecology.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of the graduate program officer, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students must have completed all college-level courses with passing grades. Prerequisites for admission vary according to the area of specialization, but basic courses in physical sciences, mathematics, biological sciences, communication skills, and social sciences and humanities are required. Students who lack prerequisite courses may be admitted but are required to make up deficiencies without degree credit.

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of the graduate program officer, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 2.75 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students.

See hortweb.cas.psu.edu/academic/gradprog.html for the most current Admission requirements.

Master's Degree Requirements
All M.S. degree candidates must complete at least one graduate course in biometry, at least 2 credits of resident or extension education (HORT 596 or HORT 602), and two seminars (HORT 590). A thesis is required for the M.S. degree.

Doctoral Degree Requirements
The communication requirement for the Ph.D. degree may be satisfied by completing at least 6 graduate credits in an area of communications skills approved by the student's advisory committee.

All Ph.D. candidates must present at least three seminars (HORT 590) for credit and complete at least two graduate courses in statistics or statistical applications. Ph.D. students must take 2 credits of resident or extension education (HORT 596 or HORT 602).

The candidacy examination must be taken within six months after beginning residency.

Within one semester after passing the candidacy examination, the student's doctoral committee, with the thesis advisor in charge, will have the program planning meeting. The purposes of this meeting are to (1) determine the student's strengths and weaknesses in pertinent subject matter areas; (2) guide the student in developing a plan of study; and (3) review and discuss the proposed thesis research.

The comprehensive examination, composed of both written and oral parts, will be given when, in the student's and advisor's opinion, the student is ready for the examination, and when the communication requirements and essentially all courses have been completed.

After the thesis is completed and all other requirements for the Ph.D. have been met, the dean of the Graduate School will schedule the final examination. Normally, three months must elapse between the comprehensive and the final examinations. A major part of the examination will be an oral defense of the thesis.

Student Aid
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin. Students who wish to compete for fellowships should be sure that their application materials are complete by January 15 for entry the following fall semester. Students with a 2.75 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students.

See hortweb.cas.psu.edu/academic/gradprog.html for the most current Admission requirements.

WALTER THOMAS MEMORIAL SCHOLARSHIP
Available to students studying the nutrition of horticultural crops; stipend equivalent to a half-time assistantship. Apply through the Department of Horticulture.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

HORTICULTURE (HORT) course list

The Pennsylvania State University
Human Resources and Employment Relations (HRER)

Graduate Bulletin Archive - 2013

Degree Conferred:
- M.S. in Human Resources and Employment Relations
- Master of Professional Studies in Human Resources and Employment Relations (MPS HRER)
- Integrated B.S. in Labor and Employment Relations and M.S. in Human Resources and Employment Relations (LRHRER)
- Integrated B.S. in Spanish and M.S. in Human Resources and Employment Relations (SPHRER)

The Graduate Faculty
- Mark S. Anner, Ph.D. (Cornell) Associate Professor of Labor Studies and Employment Relations, and Political Science
- Sarah Damaske, Ph.D. (NYU) Assistant Professor of Labor Studies and Employment Relations
- Alan Derickson, Ph.D. (California, San Francisco) Professor of Labor Studies and Employment Relations, and History
- Elaine Farndale, Ph.D. (Cranfield, UK) Assistant Professor of Labor Studies and Employment Relations
- Dennis Gouran, Ph.D. (Iowa) Professor of Speech Communication and Labor Studies and Employment Relations
- Tommy Hogan, Ph.D. (UMUC) Professor of Practice of Labor Studies and Employment Relations
- Helen Liu, Ph.D. (Cornell) Assistant Professor of Labor Studies and Employment Relations
- Sumita Raghuram, Ph.D. (Minnesota) Associate Professor of Labor Studies and Employment Relations
- Paul Whitehead, J.D. (Harvard) Professor of Practice of Labor Studies and Employment Relations
- Weichun Zhu, Ph.D. (Nebraska) Assistant Professor of Labor Studies and Employment Relations

The master of science degree in Human Resources and Employment Relations (HRER) is a two-year program designed for students anticipating careers in some aspect of labor and human resources or labor-management relations. The program has the following objectives:

- provide students with an understanding of the roles employers, employees, employee organizations, and public policy makers play in the employment relationship;
- familiarize students with the complex personal and organizational issues inherent in the employment relationship;
- prepare students to systematically analyze complex issues and evaluate research results in the process of administering labor and human resource systems;
- prepare students for advanced graduate or professional training beyond the master's degree;
- prepare students for employment as practitioners in the field.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) or the Graduate Management Admission Test (GMAT) are required. Applicants with a 3.00 junior/senior grade-point average (on a 4.00 scale) will be considered for admission. Applicants must have three letters of recommendation sent from people who can assess adequately their likelihood of completing the graduate program.

Students are expected to have completed successfully an undergraduate statistics course plus a minimum of 12 undergraduate credits in the social sciences as part of their baccalaureate degree.

Degree Requirements

THESIS OPTION:
The HRER thesis option is intended for students anticipating additional graduate education beyond the master's degree. It requires 36 credits, including a minimum of 30 at the 400 and 500 level, and a minimum of 6 600-level thesis credits. For the degree, an overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's thesis should reflect the chosen emphasis.

RESEARCH PAPER OPTION:
The HRER research paper option is intended for students expecting to enter the labor market upon completion of the master's degree. It requires a minimum of 37 credits at the 400 and 500 level, and a minimum of 6 600-level thesis credits. For the degree, an overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's research paper should reflect the chosen emphasis.

Student Aid
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Course Requirements

Core Courses (22 credits)
HRER 501, HRER 502, HRER 504, HRER 505, HRER 512, HRER 513, HRER 516
Required course are offered once per academic year and elective courses at least once every two academic years.

Emphasis Courses (6 credits)
An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Students select an emphasis in consultation with their master's advisory committee.

Elective Courses (3-9 credits)
With the faculty adviser's approval, a student selects at least 3 or more elective credits, depending on the chosen option. Examples of suitable elective courses are: HRER 500, HRER 505, HRER 538, HRER 594, HRER 595, HRER 596, HRER 597, HRER 599; LER 411, LER 401, LER 444, LER 458Y; ECON 412, ECON 436W, ECON 571; EDDL 565, EDDL 574; HIST (LER) 555; MGMT 321, MGMT 523, MGMT 548; PSYCH 484, PSYCH 485, PSY 522; SOC 455, SOC 456, SOC 555

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
PAUL F. CLARK, Professor in charge

The MPS in Human Resources and Employment Relations (HRER) is a 33 credit program of study for professionals working in human resources/employment relations or considering a career in some aspect of human resources and employment relations. The program will prepare students to:

- understand the roles that employers, employees, employee organizations and unions, and public policy makers play in the employment relationship;
- analyze the complex personal, legal, and organizational issues inherent in the employment relationship;
- understand the ethical dimensions of human resource and employment relations;
- analyze complex issues and evaluate research results in the process of administering labor and human resource systems;
- understand the changing nature of the HRER field, including the impact of the globalization of private and public organizations and the growing importance of diversity in the workforce. It will culminate in a capstone class in which students will demonstrate their understanding of the curriculum and apply it to their professional areas of interest. Upon completion of the MPS HRER, students will be equipped to work as professionals in human resource management, employment relations, and general management with private employers, unions, government agencies, and non-profit organizations.

Students pursuing the MPS in HRER would be required to complete a concentration designed to provide the student an opportunity to develop expertise in a specific area of human resources and employment relations. The focused coursework should make the degree more relevant to potential students and add value to the degree from the student’s perspective.

Students will choose and complete one concentration which will include six credits beyond the 24 required credits. Double counting six required credits, including the Research Project, the concentration would be 12 credits of coursework in a particular area of HRER. Three additional elective credits chosen from LER, HRER, or WFED courses must also be completed. Students will be required to complete the capstone project in their area of concentration. (For example, students choosing the Benefits and Compensation concentration would be required to complete a capstone project that focused on some aspect of benefits and compensation).

Degree Requirements

PRESCRIBED COURSES: 24 credits

HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER)

501. Labor and Employment Law (3)
504. Seminar in Industrial Relations (3)
505. Seminar in Human Resources (3)
800. International Context of HRER (3)
802. Organizations in the Workplace (3)
816. Labor Market Analysis (3)
836. Diversity in the Workplace (3)
894. Research Project (3)

AREAS OF CONCENTRATION (student must complete one)

--Benefits and Compensation
  LER 424 Employment Compensation (3)
  LER 425 Employment Benefits (3)

--Employment and Labor Law
  LER 401 Law of Labor-Management Relations (3)
  HRER 811 Labor and Employment Law II (3)

--Labor and Collective Bargaining
  LER 401 Law of Labor-Management Relations (3)
  LER 435 Labor Relations in the Public Sector (3)

--Staffing, Training, and Development
  LER 426 Staffing and Training (3) or WF ED 471 Training in Industry and Business (3)
  WF ED 573 Needs Assessment for Industrial Trainers (3)

ELECTIVE COURSES: 9 credits

Select 6 credits in area of concentration.
Select an additional 3 credit course from LER, HRER, or WF ED courses listed below.

LABOR AND EMPLOYMENT RELATIONS (LER)

401. Law of Labor-Management Relations (3)
424. Employment Compensation (3)
425. Employment Benefits (3)
426. Staffing and Training (3)
435. Labor Relations in the Public Sector (3)
444. Occupational Safety, Policy and Practices (3)
445Y. Politics of Affirmative Action (3)
480. Human Resources Ethics (3)
464. Communication Skills for Leaders in Groups and Organizations (3)
472. Work-Life Practices and Policies (3)

HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER)

811. Labor and Employment Law II (3)

WORKFORCE EDUCATION ADN DEVELOPMENT (WF ED)

471. Training in Industry and Business (3)
573. Needs Assessment for Industrial Trainers (3)

3. Admission Requirements

In order to enter the MPS in HRER, applicants must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the graduate program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall application. Applicants who are still completing their baccalaureate requirements at the time of application may be admitted to the Graduate School graduate program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program. Students who do not have a GPA of 3.0 will be considered on a case-by-case basis depending on the quality of their overall degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the Graduate School program.

Admissions decisions for the program are based on the quality of the applicant's credentials. The decisions are based on a review of the complete application portfolio. During the admission process, students who are better suited for another graduate level program will be encouraged to apply to the appropriate program. Applicants to the MPS HRER should submit the following materials:

The Pennsylvania State University
The Pennsylvania State University

Graduate Bulletin Archive - 2013

- Penn State graduate degree application form and application fee;
- World Campus program application;
- A 2-3 page essay articulating career and educational goals that demonstrates the applicant's written communication skills. Documentation of a minimum of two years of full-time work and a resume should be attached as a supplement;
- Three letters of recommendation that attest to the applicant's readiness for graduate study and document the requisite minimum of two years of work experience;
- Official transcript(s) of all institutions attended;

TOEFL score, if applicable. A TOEFL score of 550 on the paper test, a score of 213 on the computer-based test, or 80 points on the new Internet-based test with a minimum of 19 points on the new speaking portion is required for admission.

A minimum composite score of 6.5 on the IELTS test is required for admission.

Graduate Record Examination (GRE) scores are not required.

4. Recommended Sequence of Courses

Most adult students will participate in the online program on a part-time basis because of full-time professional responsibilities. The typical student course load is expected to be one course or two courses each semester (fall, spring, and possibly summer). Below, we illustrate one course per semester program. The sequence of courses may change and additional courses may be scheduled per semester depending on enrollment and demand. Course development will focus on one area of concentration creating one path through the degree. Additional courses for other areas of concentration will be added as enrollments increase to support a broader curriculum.

Year one: 9 Credits

HRER 501(3): Labor and Employment Law (fall)
HRER 504(3): Seminar in Industrial Relations (spring)
HRER 505(3): Seminar in Human Resources (summer)

Year two: 9 Credits

HRER 800(3): International Context of HRER (fall)
HRER 802(3): Organizations in the Workplace (spring)
HRER 836(3): Diversity in the Workplace (summer)

Year three: 9 credits

Electives for concentration

Electives (3): Labor Market Analysis (fall)
Electives (3): (spring)
Electives (3): (summer)

Year four: 6 credits

ELECTIVES (6 credits)

HRER 894 Research Project (Can be offered fall, spring, and summer depending on demand.)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Integrated B.S. in Labor and Employment Relations and M.S. in Human Resources and Employment Relations (LRHRER)

PROFESSOR PAUL F. CLARK, Head

The integrated LER B.S. and HRER M.S. is a five-year program designed for academically talented baccalaureate students to obtain both the B.S. and the M.S. degrees in LER and HRER with five years of study. Students will develop expertise in the human resources and labor relations fields beyond the B.S. degree. The undergraduate curriculum educates students about (1) the roles of employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship (3) and how to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for more individualized, focused learning in a concentrated sub-area of the HRER field. The program culminates with an M.S. research paper. Upon completion of the integrated degree, students will enter the workforce with advanced knowledge and expertise gained from conducting and analyzing empirical work and participating in seminar-style classes.

Bachelor of Science

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

GENERAL EDUCATION: 45 credits

(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

FIRST-YEAR SEMINAR:
(Include in ELECTIVES or GENERAL EDUCATION course selection)

UNITED STATES CULTURES AND INTERNATIONAL CULTURES:
(Include in ELECTIVES or GENERAL EDUCATION course selection)

WRITING ACROSS THE CURRICULUM:
(Include in REQUIREMENTS FOR THE MAJOR)

ELECTIVES: 18 credits

REQUIREMENTS FOR THE MAJOR: 98-99 credits

[12 credits may be double counted, 6 must be at the 500 level]

B.S. REQUIREMENTS: 62-63 credits

(This includes 10 credits of General Education courses)

COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 36-37 credits

PRESCRIBED COURSES: (16 credits)

(Some courses in this category have prerequisites that are not included in the major)
LER 100 GS(3), LER 312(4) (Sem: 3-8)
ECON 002 GS(3), ECON 315 GS(3), PSYCH 281 GS(3) (Sem: 1-8)

ADDITIONAL COURSES: (13 credits)

(Some courses in this category have prerequisites that are not included in the major)
LER 201 GS(3) or LER 401(3) (Sem: 3-8)
SCM 200(4) or STAT 200 GS(4) (Sem: 3-8)
LER 136 US(3) or WMNST 136 US(3) or LER 400 IL(3) (Sem: 5-8)
LER 458Y US(3) or HIST 458Y US(3) or LER 414W(3) (Sem: 5-8)

SUPPORTING COURSES AND RELATED AREAS: (33-34 credits)

The Pennsylvania State University
Integrated B.S. in Spanish and M.S. in Human Resources and Employment Relations (SPHRER)

The integrated Spanish B.S. and HRER M.S. is a five-year program designed for highly qualified and motivated students seeking employment within a culturally diverse workplace. Students will develop basic skills in speaking, understanding, reading, and writing Spanish. Students will gain familiarity with Hispanic cultures through literature and the University's international education program, if they choose to have that experience. Students also will learn about (1) the roles that employers, employees, employee organizations, and public policy makers play in the employment relationship; (2) the complex personal and organizational issues inherent in the employment relationship; and (3) how to systematically analyze those complex issues and evaluate research relevant to those analyses.

For the B.S./M.S. degree in Integrated Spanish B.S. and Human Resources and Employment Relations M.S., a minimum of 154 credits is required. Twelve graduate level credits can apply to both undergraduate and graduate degrees; six of these must be at the 500 level. Students can complete the B.S. in Spanish and not advance to the M.S. HRER degree if they desire.

Bachelor of Science

Scheduling Recommendation by Semester Standing given like (Sem: 1–2)

GENERAL EDUCATION: 45 credits
(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

FIRST-YEAR SEMINAR:
(Excluding those in ELECTIVES or GENERAL EDUCATION course selection)

UNITED STATES CULTURES AND INTERNATIONAL CULTURES:
(Excluding those in ELECTIVES or GENERAL EDUCATION course selection)

WRITING ACROSS THE CURRICULUM:

814-865-5757
kh3@psu.edu

Degree Conferred:
Ph.D., M.S.

The Graduate Faculty
- William P. Andrew, Ph.D. (Penn State) Associate Professor of Hotel, Restaurant, and Institutional Finance
- Albert Bartlett, Ph.D. (Penn State) Associate Professor of Hospitality Management
- Peter Bordi, Ph.D. (Penn State) Associate Professor of Hospitality Management
- Martha Conklin, Ph.D. (New York) Associate Professor of Hospitality Management
- David Cranage, Ph.D. (Penn State) Assistant Professor of Hospitality Management
- Anna Mattila, Ph.D. (Cornell) Associate Professor of Hospitality Management
- Daniel Mount, Ph.D. (U.S. International U) Associate Professor of Hospitality Management
- Karthik Namasiavayan, Ph.D. (Cornell) Assistant Professor of Hospitality Management
- John O’Neill, Ph.D. (Rhode Island) Assistant Professor of Hospitality Management
- Arun Upneja, Ph.D. (U of Houston) Associate Professor of Hospitality Management
- Hubert B. Van Hoof, Ph.D. (Arizona State) Professor of Hospitality Management

The Hotel, Restaurant, and Institutional Management M.S. and Ph.D. degree programs are designed to prepare individuals for research and educational roles in the hospitality industry. The programs offer advanced graduate research training for students who desire to become educators, researchers, and knowledge-based professionals in the hospitality field. Student’s individualized programs are designed to ensure they will have a mastery of the scope of knowledge covering the entire spectrum of hospitality management as well as the ability the complete significant research in a specific hospitality area.

Students in the program may elect the dual-title degree program in Operations Research for the Ph.D. and M.S. degrees. (See also Operations Research.)

Admission Requirements
Entry into the program requires a baccalaureate degree from a regionally accredited institution as well as a minimum of one to two years of work experience in the hospitality industry.

Scores for the Graduate Record Examinations (GRE), Graduate Management Aptitude Test (GMAT), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) will be considered for admission. Exceptions to this minimum average are sometimes made for students with special backgrounds, abilities, interests, and circumstances. Students are expected to have managerial competency in accounting, marketing, economics, human resource management, management information systems, and computer technology prior to entry into the program. Deficiencies in any of these areas must be made up in the first year that the student is enrolled (and will not be counted toward the program’s 36-credit requirement).

Master’s Degree (M.S.) Requirements
The master’s degree program is designed to help students develop solid graduate-level research skills within a focused hospitality research area. Each student must complete a core of 12 credits of Methods Courses to include HRIM 503, STAT 500, and 6 credits of Methods Courses. In addition, students must take a minimum of 3 credits of HRIM 590 Colloquium. Students also complete a minimum of 15 credits of concentration area course work that is custom tailored to the student’s hospitality research interests and academic and professional background.

A master’s thesis is required of all students. The thesis is based on original empirical research. A master’s committee of three persons who oversee the master’s thesis is appointed for each candidate. This committee gives the final master’s exam, which is an oral defense of the master’s thesis.

Doctoral Degree Requirements
The doctoral program is an advanced graduate research program designed for students who want to become educators, researchers, and knowledge-based professionals in the hospitality field. Students’ programs are individualized to ensure in addition to a mastery of the scope of knowledge in hospitality management they will also have the ability to complete significant research in a focused hospitality management area. In addition to satisfying the requirements of the Graduate School, a student must complete the following courses prior to scheduling the Ph.D. comprehensive examination: HRIM 585, HRIM 586, HRIM 590 (total of 3 credits), 12 credits of quantitative and statistical analysis, 18 credits in an HRIM concentration area, and 12 credits from an outside supporting area.

The language or communication requirement for the Ph.D. can be fulfilled by (1) demonstrating proficiency in an approved foreign language, or (2) demonstrating proficiency in computer programming, or (3) completing a minor. The demonstration of proficiency is determined by an HRIM faculty committee.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Craig Welsh, M.F.A. (Marywood) Associate Professor of Humanities and Communications
- Matthew T. Wilson, Ph.D. (Rutgers) Professor of Humanities and English
- Samuel Winch, Ph.D. (Indiana) Associate Professor of Humanities and Communications
- David Witwer, Ph.D. (Brown) Associate Professor of History and Humanities

This program is interdisciplinary, emphasizing critical theories and interpretive approaches that transcend disciplinary boundaries as well as providing advanced study within various humanities disciplines. These include art history, communications, history, literature, music history, philosophy, and writing. The program offers small classes, individualized advising, and assistance in developing advanced analytical, synthetic, and interpretive skills. It accommodates both part- and full-time students.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. In addition, applicants must have studied in two humanities disciplines (usually a major in one area and some course work in another). Exceptions may be made for those with special backgrounds or abilities who are committed to advanced interdisciplinary study. All applicants must submit the following items: an application form and fee; two copies of official transcripts from all colleges/universities attended; a letter explaining personal or career goals and reasons for wishing to enroll in the program; two letters of reference (preferably from previous professors or others familiar with the applicant's intellectual/creative work or interests); and a writing sample (an academic paper; if this is not available, consult the graduate coordinator for an alternative).

Students applying for fellowships or assistantships must submit scores from the Graduate Record Examinations (GRE) or similar examination by January 15. An admissions committee often interviews applicants in person or by telephone. Applications are reviewed on a rolling basis.

Degree Requirements

All students must complete 30 credits, 18 of which must be at the 500 level, achieve a 3.00 grade-point average, and successfully complete an interdisciplinary master's production (academic thesis or creative production with academic essay). Students work with their faculty advisers and supervisory committees to select courses in accordance with their individual interests.

Courses required of all students include HUM 500, a foundation course in research methods; HUM 560, a capstone course in interdisciplinary theory and research; and HUM 580, the master's production. (See course titles and descriptions in this section.) Recommended courses include HUM 525 Studies in Aesthetics, and HUM 535 Topics in Cultural and Intellectual History, both multidisciplinary courses, covering the content of various disciplines form the perspective of one discipline. To acquire breadth in the humanities, students must take at least one course in each of three disciplines: single-discipline courses are available as HUM 515 Seminar (repeatable for credit). Other courses in particular disciplines are available at the 400 level. Other available 500-level courses are listed in this section. Students planning to teach in a junior or community college may arrange a teaching internship (HUM 550), subject to appropriate preparation and approval by both the program and the community college.

A full-time student can expect to complete the program in four semesters, a part-time student in six or more semesters. Students are expected to complete all requirements for the degree within six years, although the deadline may be extended at the discretion of the graduate coordinator in accordance with policies approved by the Graduate Council.

Required Courses

HUMANITIES (HUM)

500. RESEARCH METHODS AND SCHOLARLY INQUIRY IN THE HUMANITIES (3)
560. INTERRELATIONS IN THE HUMANITIES (3)
580. MASTER'S PRODUCTION (1-6)

Recommended Courses

HUMANITIES (HUM)

525. STUDIES IN AESTHETICS (3)
535. TOPICS IN CULTURAL AND INTELLECTUAL HISTORY (3 per semester, maximum of 9)

Other Courses

HUMANITIES (HUM)

502. ENGLISH COMPOSITION STUDIES (3)
515. SEMINAR (3 per semester, maximum of 9)
Unit A. Art History (3)
Unit B. History, (3)
Unit C. Literature (3)
Unit D. Music History and Analysis (3)
Unit E. Philosophy (3)
Unit F. Communications (3)
Unit G. Writing (3)
530. SEMINAR IN COMPARATIVE ARTS (3 per semester, maximum of 9)
550. JUNIOR COLLEGE TEACHING INTERNSHIP (3)
590. COLLOQUIUM (1-3)
596. INDIVIDUAL STUDIES (1-9)
597. SPECIAL TOPICS (1-9)

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Deborah J. Medeiros, Ph.D. (Purdue) Associate Professor of Industrial Engineering
- David A. Nembeh, Ph.D. (Michigan) Associate Professor of Industrial Engineering; Harold and Inge Marcus Career Professor
- Harriet Black Nembeh, Ph.D. (Michigan) Associate Professor of Industrial Engineering; Bashore Career Professor
- Vittal Prabhu, Ph.D. (Wisconsin) Professor of Industrial Engineering
- An Ravi Ravindran, Ph.D. (Berkeley) Professor of Industrial Engineering
- Ling Rothrock, Ph.D. (Georgia Tech) Associate Professor of Industrial Engineering
- Vinayak Shrivastava, Ph.D. (Stanford) Associate Professor of Industrial Engineering
- Timothy W. Simpson, Ph.D. (Georgia Tech) Professor of Industrial Engineering and Mechanical Engineering
- Soudar R. Tirupatikumara (Kumara), Ph.D. (Purdue) Allen E. Pearce/Allen M. Pearce Chaired Professor; Distinguished Professor of Industrial Engineering
- Vittal Prabhu, Ph.D. (Wisconsin) Professor of Industrial Engineering
- Richard A. Wysk, Ph.D. (Purdue) Leonhard Chair in Engineering; Professor of Industrial Engineering
- David A. Nembhard, Ph.D. (Michigan) Associate Professor of Industrial Engineering
- A. Ravi Ravindran, Ph.D. (Berkeley) Professor of Industrial Engineering
- Ling Rothrock, Ph.D. (Georgia Tech) Associate Professor of Industrial Engineering
- Vinayak Shrivastava, Ph.D. (Stanford) Associate Professor of Industrial Engineering
- Timothy W. Simpson, Ph.D. (Georgia Tech) Professor of Industrial Engineering and Mechanical Engineering
- Soudar R. Tirupatikumara (Kumara), Ph.D. (Purdue) Allen E. Pearce/Allen M. Pearce Chaired Professor; Distinguished Professor of Industrial Engineering
- Jose A. Ventura, Ph.D. (Florida) Professor of Industrial Engineering
- Robert C. Voigt, Ph.D. (Wisconsin) P.E. Professor of Industrial Engineering
- Richard A. Wysk, Ph.D. (Purdue) Leonhard Chair in Engineering; Professor of Industrial Engineering
- Tao Yao, Ph.D. (Stanford) Associate Professor of Industrial Engineering

Graduate study and research are conducted in manufacturing process, information engineering operations research-management science, production engineering, process design, systems engineering, human factors, ergonomics, quality engineering, and robotics.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission, at the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted into the program, an applicant must have received a baccalaureate degree from a regionally accredited institution. Graduates in engineering, physical sciences, and mathematics who present a 3.00 grade-point average will be considered for admission. For all international students whose native language is not English, scores from the Test of English as a Foreign Language (TOEFL) are required with a minimum score of 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the Internet-based test required for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements

Three degrees are offered: Master of Engineering (M.Eng.), Master of Science (M.S.), and the Doctor of Philosophy (Ph.D.).

The M.Eng. is a professional degree program aimed at preparing students with a breadth of technical and managerial skills to make significant immediate contributions in an industrial setting. The degree requirements include 27 credits of course work, one credit of I E 590 (Colloquium), and a scholarly paper for which two credits of I E 596 (Individual Studies) must be taken. Of the 27 credits of required course work, at least 18 must be prefixed I E, and at least 15 must be at the 500 level. Of the 15 credits at the 500 level, at least 12 must be in I E courses. The scholarly paper must demonstrate comprehensive and in-depth knowledge of a topic in industrial engineering, and it should be suitable for submission for publication in a refereed journal as approved by the committee.

The M.S. degree program is intended for students to gain advanced knowledge for research, analysis, and design in industrial engineering. The degree requirements include 24 credits of course work and two I E 590 (Colloquium) credits. Of the 24 credits of required course work, at least 15 must be prefixed I E, and at least 12 must be at the 500 level. Of the 12 credits at the 500 level, at least nine must be I E courses. A thesis is required, for which six credits of I E 600 or I E 610 must be taken.

For the M.Eng. and M.S. degrees, area options are available in Human Factors/Ergonomics Engineering, Manufacturing Engineering and Quality Engineering. M. Eng. and M. S. dual-title degree programs in Industrial Engineering and Operations Research are also offered.

The Ph.D. program emphasizes scholarly research, and prepares students for research and development careers in industry, government, and academia. Students may be admitted to candidacy after passing a written examination. The Ph.D. is awarded upon completion of a program of advanced study that includes a minimum period of residence, passing the English proficiency and comprehensive examinations, completing a satisfactory dissertation, and passing the final oral examination. The degree requirements consist of 45 credits of course work and four I E 590 (Colloquium) credits. Of the 45 credits of required course work, at least 30 must be prefixed I E, and at least 30 must be at the 500 level. Nine credits must be from outside the Department and must include a six-credit sequence, with at least three credits at the 500 level. A Ph.D. dual-title degree program in Industrial Engineering and Operations Research is also available.

Continuous registration is required for all graduate students until the paper, thesis, or dissertation is approved.

Master of Engineering (M.Eng.) Degree - Human Factors/Ergonomics Engineering Option

To receive the M.Eng. degree in Industrial Engineering with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 30 credits beyond the bachelor's degree: 27 credits of course work, 1 credit of colloquium, and 2 credits of individual studies leading to a scholarly paper, as required for the M.Eng. degree in Industrial Engineering.

The 30 credits for the Option in Human Factors/Ergonomics Engineering must include the following:

- 1. Experimental Design (3 credits)
- 2. Introduction to Human Factors/Ergonomics (3 credits)
- 3. Human Factors/Ergonomics Laboratory (3 credits)
- 4. Human Factors/Ergonomics Research Methods (3 credits)
- 5. Human Factors/Ergonomics in Industrial Engineering (3 credits)
- 6. Human Factors/Ergonomics in Product Design (3 credits)
- 7. Human Factors/Ergonomics in Service Design (3 credits)
- 8. Human Factors/Ergonomics in Work Design (3 credits)
- 9. Human Factors/Ergonomics in Work Environment (3 credits)
- 10. Human Factors/Ergonomics in Safety (3 credits)
- 11. Human Factors/Ergonomics in Health (3 credits)
- 12. Human Factors/Ergonomics in Management (3 credits)
- 13. Human Factors/Ergonomics in Policy (3 credits)
- 14. Human Factors/Ergonomics in Ethics (3 credits)
- 15. Human Factors/Ergonomics in Law (3 credits)
- 16. Human Factors/Ergonomics in Society (3 credits)
- 17. Human Factors/Ergonomics in Technology (3 credits)
- 18. Human Factors/Ergonomics in Environment (3 credits)
- 19. Human Factors/Ergonomics in Economy (3 credits)
- 20. Human Factors/Ergonomics in Politics (3 credits)
- 21. Human Factors/Ergonomics in Religion (3 credits)
- 22. Human Factors/Ergonomics in Science (3 credits)
- 23. Human Factors/Ergonomics in Art (3 credits)
- 24. Human Factors/Ergonomics in Music (3 credits)
- 25. Human Factors/Ergonomics in Dance (3 credits)
- 26. Human Factors/Ergonomics in Theatre (3 credits)
- 27. Human Factors/Ergonomics in Film (3 credits)
- 28. Human Factors/Ergonomics in Television (3 credits)
- 29. Human Factors/Ergonomics in Radio (3 credits)
- 30. Human Factors/Ergonomics in Print (3 credits)

The Pennsylvania State University
I. EXPERIMENTAL DESIGN (3 CREDITS)

INDUSTRIAL ENGINEERING (IE)
511. Experimental Design in Engineering

II. ELECTIVES

1. Human Factors - Any three courses from the following list: (9 credits)

   INDUSTRIAL ENGINEERING (IE)
   552. Mechanics of the Musculoskeletal System
   553. Engineering of Human Work
   558. Engineering of Cognitive Work

   Any of these courses may be substituted by other suitable IE 500-level courses, subject to the approval of the IME Graduate Faculty.

2. Industrial Engineering (6 credits)

   Any two IE courses approved for graduate credit.

3. Any three courses from the following list; at least one course must be at the 500 level. (9 credits)

   BIOENGINEERING (BIOE)
   507. Biomedical Signal Processing

   INDUSTRIAL HEALTH AND SAFETY (I H S)
   445. Industrial Hygiene & Toxicology
   447. Industrial Hygiene Measurements
   450. Environmental Health & Safety
   470 Analytical Methods for System Safety

   KINESIOLOGY (KENES)
   565. Neurophysiological Basis of MOvement
   574. Modeling in Biomechanics
   578. Physiology & Mechanical Behavior of Skeletal Tissues
   579. Advanced Biomechanics of Human Motion

   PSYCHOLOGY (PSYCH)
   453. Sensation & Perception
   456. Advanced Cognitive Psychology
   458. Visual Cognition
   462. Physiological Psychology

III. Colloquium (1 credit)

   IE 590. Colloquium (or 1 credit of OR 590)

IV. Individual Studies (2 credits)

   IE 596 Individual Studies

MASTER OF ENGINEERING (M.Eng.) DEGREE - MANUFACTURING ENGINEERING OPTION

To receive the M.Eng. degree in Industrial Engineering with an Option in Manufacturing Engineering, a student must complete at least 30 credits beyond the bachelor's degree: 27 credits of course work, 1 credit of colloquium, and 2 credits of individual studies leading to a scholarly paper, as required for the M.Eng. degree in Industrial Engineering.

The 30 credits required for the Option in Manufacturing Engineering must include the following:

I. CORE REQUIREMENT

   INDUSTRIAL ENGINEERING (IE) (9 credits)
   511. Experimental Design in Engineering
   550. Manufacturing Systems
   582. Information Technology for Industrial & Manufacturing Engineering

II. ELECTIVES

   1. Students must take at least one course from each of the following four groups; at least two courses must be at the 500 level.

   a. Materials and Manufacturing Processes
      INDUSTRIAL ENGINEERING (IE)
      428. Metal Casting
      438. Metal Cutting Principles & Practices
      518. Materials, Forming Processes & Quality
      528. Metal Cutting Theory
      538. Experimental Investigation in Materials Processing
      561. Weld Design
      580. Analysis of Machining Precision

   b. Process, Assembly and Product Engineering
      INDUSTRIAL ENGINEERING (IE)
      464. Assembly of Printed Circuit Boards
      563. Computer-Aided Design for Manufacturing
      576. Computer-Aided Tolerancing in Design & Manufacturing
      579. Designing Product Families

   c. Manufacturing Productivity and Quality
      INDUSTRIAL ENGINEERING (IE)
      402. Advanced Engineering Economy
      456. Industrial Robot Applications

THE PENNSYLVANIA STATE UNIVERSITY
2. Any two I E or non-I E courses approved for graduate credit. See “IME List of Approved Non-I E Courses--All Options” (attached) (6 credits)

III. Colloquium (1 credit)
I E 590 Colloquium (or 1 credit of O R 590)

IV. Individual Studies (2 credits)
I E 596 Individual Studies

Master of Engineering (M.Eng.) Degree - Quality Engineering Option

To receive the M.Eng. degree in Industrial Engineering with an Option in Quality Engineering, a student must complete at least 30 credits beyond the bachelor's degree: 27 credits of course work, 1 credit of colloquium, and 2 credits of individual studies leading to a scholarly paper, as required for the M.Eng. degree in Industrial Engineering.

I. CORE REQUIREMENT

INDUSTRIAL ENGINEERING (I E)
511. Experimental Design in Engineering

II. ELECTIVES

1. Any three courses from the following list: (9 credits)

INDUSTRIAL ENGINEERING (I E)
532. Reliability Engineering
566. Quality Control
576. Computer-Aided Tolerancing in Design and Manufacturing
583. Response Surface Methodology and Process Optimization
584. Time Series Control and Process Adjustment

2. Any one course from the following list: (3 credits)

STATISTICS (STAT)
500. Applied Statistics
505. Applied Multivariate Statistical Analysis
506. Sampling Theory and Methods
511. Regression Analysis and Modeling
512. Design and Analysis of Experiments

3. Any two I E courses from the following list; of which at least one course must be at the 500 level. (6 credits)

INDUSTRIAL ENGINEERING (I E)
454. Applied Decision Analysis
468. Optimization Modeling and Methods
505. Linear Programming
516. Applied Stochastic Processes
519. Dynamic Programming
520. Multiple Criteria Optimization
521. Nonlinear Programming

4. Any two I E or non-I E courses approved for graduate credit. See “IME List Of Approved No-I E Courses-All Options” (attached). (6 credits)

III. Colloquium (1 credit)
I E 590 Colloquium (or 1 credit of O R 590)

IV. Individual Studies (2 credits)
I E 596 Individual Studies

*IME List of Approved Non-I E Courses - All Options
(The material covered in a course already taken should not be duplicated.)
500 LEVEL: Any courses, subject to approval by the Graduate Program Coordinator
400 LEVEL:
BIOE 419
CMPEN 362, CMPSC 431W, CMPSC 456, CMPSC 468
E MCH 461
ENGR 411, ENGR 407
FD SC 430

MATSE 425, MATSE 450
M I S 431, M I S 479W
MKTG 437
PHIL/S T S 432 (for students interested in health systems)
PSYCH 413, PSYCH 456, PSYCH 458, PSYCH 462
SCM 450W, SCM 430, SCM 435
STAT 460, STAT 464
W P 416

Other Relevant Information
Students in this program may elect the dual-title degree program in Operations Research for the Ph.D. and M.S. degrees.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following award typically has been available to graduate students in this program:

HAROLD & INGE MARCUS GRADUATE FELLOWSHIPS--Consideration for these fellowships shall be given to all students exhibiting academic excellence who have been admitted to Penn State as candidates for a graduate degree in the Department of Industrial and Manufacturing Engineering, College of Engineering.

BENJAMIN W. NIEBEL MANUFACTURING FELLOWSHIP
Consideration for this fellowship shall be given to all students exhibiting academic excellence who have been admitted to Penn State as candidates for a graduate degree in the Department of Industrial and Manufacturing Engineering, College of Engineering.

Courses
Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Catharine Ross, Ph.D., (Nutrition, HHD)
- Wtold Rybka, M.D., (Medicine, CoM)
- Todd Schell, Ph.D., (Microbiology and Immunology, CoM)
- Robert A. Schlegel, Ph.D., (Biochemistry and Molecular Biology, ECoS)
- Anthony Schmitt, Ph.D., (Veterinary and Biomedical Sciences, College of AgSci)
- Shao-Cong Sun, Ph.D., (Microbiology and Immunology, CoM)
- Michael Teng, Ph.D., (Biochemistry and Molecular Biology, ECoS)
- Satvir S. Tevethia, Ph.D., (Microbiology and Immunology, CoM)
- Emmy Truckenmiller, Ph.D., (Microbiology and Immunology, CoM)
- Na Xiong, Ph.D., (Veterinary and Biomedical Sciences, College of AgSci)

The Intercollege Graduate Program in Immunology and Infectious Diseases (IGDP in I&ID) prepares graduates for diverse opportunities in academic institutions, pharmaceutical companies, private research foundations, governmental research and regulatory programs. The program includes faculty from 12 departments in the College of Agricultural Sciences, Health and Human Development and Eberly College of Science at the University Park campus and the College of Medicine at the Penn State Milton S. Hershey Medical Center. The IGDP in I&ID is also supported by the Huck Institutes of Life Sciences which provides shared research facilities and sophisticated equipment for state-of-the-art research applications. Doctoral students not only explore new conceptual connections, but also engage in active group learning experiences and explore a variety of potential career opportunities before graduation. Two unique aspects are (1) optional dual mentors will expose students to complementary viewpoints and encourage students to pursue problems at the interface between traditional disciplines, and (2) an optional internship will provide a mechanism for students to obtain practical experience in future professional settings.

General Admission Requirements

M.S. or Ph.D. degrees
Application deadline is January 10 for priority consideration.
1. Completed official Penn State Graduate School application
2. Paid nonrefundable application fee
3. Two official transcripts from each institution attended
4. Application for a U.S. visa (International applicants only)
5. Graduate Record Examinations (GRE) general test
6. Three letters of recommendation
7. Statement of goals that pertain to the life sciences
8. All international applicants whose first language is not English or who have not received a baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) and submit the results of that test with the application for admission. A TOEFL score of 550 on the paper test, a score of 213 on the computer-based test, or 80 points on the new Internet-based test with a minimum of 23 points on the speaking portion; or the International English Language Testing System (IELTS) module with a minimum composite score of 6.5 is required for admission.
9. Students must have completed a bachelor's degree at an accredited college or university and have a minimum of a 3.0/4.0 junior/senior undergraduate grade-point average.

Program Requirements

M.S. or Ph.D. degrees
Students are expected to have a foundation and basic knowledge in immunology, infectious diseases, molecular biology, cell biology, biochemistry, and virology. Required courses are designed to fulfill this aspect of the training. The courses offered at the Hershey and University Park Campuses are interchangeable and fulfill requirements on both campuses. All students receive A-F grades except for rotations, internships and research credits for which students will receive R (satisfactory/passing) or F (unsatisfactory/failing).

General coursework required for both M.S. and Ph.D. Students
IBIOS 590 COLLOQUIUM (2 credits) All students are required to enroll for 4 credits of colloquium.
IBIOS 591 ETHICS IN THE LIFE SCIENCES (1 credit)
Ph.D. Degree Requirements

Ph.D. students must have a minimum of 30 credits and a 3.0 overall GPA through out the program. IBIOS 595 (Internship) and 596 (Rotations) credits all count toward the 30 credits. 18 credits need to be in the major at the 500-600 level. Up to 6 IBIOS 600 credits may be A-F graded and 12 credits need to be in the major at the 400-500 level. Additional course work is left to the discretion of the student and advisor.

Grade Point Average/Unsatisfactory Scholarship:

Students are required to have a minimum grade-point average of 3.0 through out the course of their training. Furthermore, the student must have a 3.0 to take the doctoral candidacy, the comprehensive and final oral examinations. One or more failing grades (F) or a cumulative grade-point average below 3.0 may be considered evidence of unsatisfactory scholarship and be grounds for dismissal from the program.

English Competence:

A candidate for the degree of Doctor of Philosophy is required to demonstrate high-level competence in the use of the English language, including reading, writing, and speaking, as part of the language and communication requirements for the Ph.D. This will be assessed for both domestic and international students as part of the candidacy exam, which includes a reading and original writing component. Should deficiencies be identified at the candidacy examination, students will be directed into appropriate remedial activities, including additional English and communication courses. Competence must be formally attested by the program before the comprehensive examination is scheduled. (International students should note that passage of the minimal TOEFL requirement does not demonstrate the level of competence expected of a Ph.D. from Penn State.)

Besides coursework, research, and teaching, IGDP in I&ID doctoral students participate in the following:

Candidacy Exam:

This exam should be taken by the end or during the student’s third semester in the I&ID Program. The student will be assigned two scientific papers from the primary literature to read and analyze for approximately one month. The papers will be selected based upon the students' background and coursework. The analysis should involve exploring the relevant literature as well as the fundamental issues in immunology, infectious diseases, biochemistry, molecular biology, and related disciplines as well as the students' ability to integrate this understanding to effectively evaluate experimental design, results, and the conclusions drawn. In the event that the student does not pass this exam, the student's committee will make a recommendation as to whether to offer another opportunity or to terminate the student's enrollment in the program.

Doctoral Committee:

Upon successful completion of the Candidacy Examination, the student in consultation with the mentors will, as soon as possible, select a doctoral committee. The committee will consist of both mentors, one additional member of the IGDP in I&ID and one faculty member who is not a member of the IGDP department. This committee is responsible for supervising the academic program and monitoring the progress of the student towards his/her degree. It is the charge of this committee to assure that the student carries out a substantial piece of independent research and presents it as a dissertation. Doctoral Committee Composition is based on the Graduate Degree Programs Bulletin published by the Graduate School (refer to http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=degreeReq1) regarding Doctoral Committees and requires:

- 4 person minimum of approved PSU Graduate Faculty.
- 2 members must be inside the major and 1 member must be outside the major. Note - the outside member must be member of the approved PSU Graduate Faculty. The outside member for intercollege graduate programs may be outside the major but committee membership must have representation from more than one department.
- The outside member associated with PSU may be added as a special member (beyond the 4 members of the approved PSU Graduate Faculty) upon recommendation of the head of the program and approval of the graduate dean.
- Have committee chair or one of the co-chairs be a member of the approved PSU Graduate Faculty. Typically it's the faculty advisor.
- The doctoral candidate and three committee members must be physically present for the comprehensive exam and defense. No more than one person may be present via telephone. Telephone or video conference arrangements must be approved by the Dean of the Graduate School.
- Need approval of 2/3 of the committee members for passing comprehensive exam and defense dissertation.

The Pennsylvania State University
Comprehensive Examination:
Evaluation via the Doctoral Committee to determine the feasibility of proposed research and the preparedness of the student. Students must be registered for classes (typically IBIOS 600) the semester they take this exam.

Students must present their thesis in accordance with the Penn State guidelines as described in the THESIS GUIDE Requirements for the Preparation of Master's and Doctoral Theses. Current copies may be obtained from the following Web site: http://www.gradsch.psu.edu/current/thesis/guide.html

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degree Conferred:
M.I.A.

The Graduate Faculty

- David Blandford, Ph.D. (Manchester) Professor of Agricultural Economics
- William Butler, LL.D. (London) John Edward Fowler Distinguished Professor of Law
- Dennis C. Jett, Ph.D. (Witwatersrand) Professor of International Affairs
- John A. Kelmelis, Ph.D. (Penn State) Professor of International Affairs
- Fayl L. Leverett, Ph.D. (Princeton) Professor of International Affairs
- Jill Findeis, Ph.D. (Washington State) Professor of Agricultural, Environmental and Regional Economics and Demography
- C. Gregory Knight, Ph.D. (Minnesota) Professor of Geography
- Gerald LeTendre, Ph.D. (Stanford) Associate Professor of Educational Theory and Policy
- Quan Li, Ph.D. (Florida State) Associate Professor of Political Science
- Tiyanjana Maluwa, Ph.D. (Cambridge) Professor of Law
- Denis F. Simon, Ph.D. (California, Berkeley) Professor of International Affairs
- John Nichols, Ph.D. (Minnesota) Professor of Communications and Associate Dean for Graduate Studies and Research
- Eileen Trauth, Ph.D. (Pittsburgh) Professor of Information Sciences and Technology
- Quan Li, Ph.D. (Florida State) Associate Professor of Political Science
- John A. Kelmelis, Ph.D. (Penn State) Professor of International Affairs
- Dennis C. Jett, Ph.D. (Witwatersrand) John Edward Fowler Distinguished Professor of Law
- Tiyanjana Maluwa, Ph.D. (Cambridge) Professor of Law
- Quan Li, Ph.D. (Florida State) Associate Professor of Political Science

The School of International Affairs (SIA) is designed to prepare students for occupations involving public service, private enterprise, nonprofit organizations, and international organizations worldwide. The Master’s in International Affairs (MIA) degree program will provide students with a substantial knowledge base in international systems, institutions, issues and history and the advanced analytical tools and cross-cultural skills and competencies necessary for these occupations. Students will work closely with faculty to design a curriculum around their core course work, which incorporates a functional or regional theme and provides the opportunity to apply and enhance the core knowledge component with a thematically based set of graduate courses from across Penn State’s existing graduate and professional curriculum.

Admission Requirements

Admission to the MIA degree program will require: (i) a bachelor’s degree from a U.S. regionally accredited institution or (ii) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.

International applicants whose native language is not English will submit a satisfactory TOEFL or IELTS score from a test taken within two years of application. A satisfactory TOEFL score is 550 or above on the paper test, 213 or above on the computer-based test or 80 or above on the new internet-based test (with a minimum of 20 points on the new speaking portion). A satisfactory IELTS score is a minimum composite score of 6.5. If the applicant’s qualifying degree is from a country where English is the native language and the degree is from an institution where English is the language of instruction, the applicant may apply for an exemption from these requirements.

Admissions will be based on a review of all submitted materials and spaces will be offered to the best qualified applicants, taking into account academic achievement, relevant work experience and other indices of aptitude for advanced study in international affairs.

Master's Degree Requirements

The M.I.A. will consist of 400, 500 and 800 level courses which were either created for the program or are pre-existing across the graduate curriculum. The program will require six courses which are designed to establish a base of knowledge in key subject areas which reflect the basic mission of the SIA. These courses will form the core curriculum for the M.I.A. This core curriculum is designed to provide students with a basic foundation in international systems, institutions, issues and history and the advanced analytical tools and cross-cultural skills and competencies necessary for these occupations. Students will work closely with faculty to design a curriculum around their core course work, which incorporates a functional or regional theme and provides the opportunity to apply and enhance the core knowledge component with a thematically based set of graduate courses from across Penn State’s existing graduate and professional curriculum.

Joint Degree Program between The Pennsylvania State University Dickinson School of Law (J.D.) and the School of International Affairs (M.I.A.)

Joint Degree Program:
The Dickinson School of Law (DSL) and the School of International Affairs (SIA) are offering a joint degree program that will enable a student to complete in four academic years both a Juris Doctor degree (J.D.) and a Master’s in International Affairs (M.I.A.). A J.D./M.I.A. graduate will have the education and skills background to practice law in the United States, to work in an international context and to assume a leadership role in international affairs. The student will complete a minimum of 109 credits including eleven required law courses, two of which involve skills training, and seven required international affairs courses, one of which involves either an internship or a master’s paper.

Admission Requirements

Students applying to the joint degree program must be admitted separately into both DSL and SIA. Students must first be admitted into the law school and will always complete their first two semesters in law before commencing the M.I.A. component. Credits earned towards an M.I.A. prior to entry into DSL will be applied toward the M.I.A. program.
Graduate Bulletin Archive – 2013

not be credited towards the J.D.

College Specific Admission Requirements

DSL: The DSL admissions process considers academic transcripts, leadership activities, community activities, work experience, personal background, letters of recommendation, the personal statement, LSAT scores and the LSAT writing sample. An admissions committee identifies candidates who are academically prepared for law study and who will contribute to the promotion of diversity and excellence in the student body and the legal profession. There is no standard prescribed undergraduate curriculum. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals. Upon the student’s request, the LSAT may replace the GRE for joint degree admissions purposes.

SIA: The following are required of M.I.A. applicants: (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. There is no standard prescribed undergraduate curriculum. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals. Upon the student’s request, the LSAT may replace the GRE for joint degree admissions purposes.

International applicants who are applying to the Joint Degree program, and who do not qualify for the English exemption, must provide a satisfactory English test score. Joint degree applicants will be required to achieve a minimum TOEFL score of 575 on the paper test, 230 on the computer-based test or 88 on the internet-based test (with a minimum speaking score of 20); a minimum of 6.5 on the IELTS will also be acceptable.

Residency

A typical J.D./M.I.A. joint degree student will be in residence at DSL for six semesters and at SIA for two semesters.

Liaisons

The respective liaisons for DSL and SIA shall be as follows: the department and faculty liaisons for DSL shall be the Associate Dean for Academic Affairs and the student adviser will be the Associate Dean for Academic Affairs or such other faculty member(s) as may be designated by the Dean. The liaison for SIA shall be the Director or such faculty member(s) as may be designated by the Director.

Interprogram Transfer of Credits

DSL: A maximum of twelve credits of M.I.A. course work may be transferred for credit toward the J.D. degree at DSL. Courses eligible for cross-counting towards the J.D. and M.I.A. include the courses on the M.I.A. Electives list (Appendix A-31) and any other courses taken as M.I.A. electives with the express written permission of the M.I.A. and J.D. advisers. Students must obtain a grade satisfactory to DSL for the course work to be credited towards the J.D. degree.

SIA: A maximum of twelve credits of M.I.A. course work may be transferred for credit toward the J.D. degree at DSL. Because of the interdisciplinary nature of the M.I.A. degree, courses taken in DSL as a part of the elective component of the M.I.A. automatically count towards the M.I.A. Courses eligible for cross-counting towards the J.D. and M.I.A. include the courses on the M.I.A. Electives list (Appendix A-31) and any other courses taken as M.I.A. electives with the express written permission of the M.I.A. and J.D. advisers.

Sequence

The sequence of courses will be determined by the students and their advisers. However, students are required to complete the first year of the DSL program before beginning the M.I.A. program. It is expected that most joint degree students will complete the first two semesters of the M.I.A. consecutively in either the first or second year after completion of the first year of the J.D. degree.

Recommended Program of Study and Advising

All students in the program will have two advisers, one from DSL and one from SIA. Periodic interaction between the two advisers will be encouraged. A program of study will be developed for each student, taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year but some are offered every two or three years. Advisers will have available a list of projected relevant courses or educational experiences in order to work with the student on an individualized program of study. The standard committee structure will apply to the SIA programs.

Tuition

Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable SIA tuition to cover the M.I.A. degree program. The DSL tuition will be paid for the semesters that the student is in residence at DSL, and the SIA tuition will be paid for the semesters that the student is in residence there. A student may take up to one course (3 credit hours) per semester in the school where the student is not in residence without any change in tuition, but must pay additional tuition to the non-residential program if he or she wishes to take additional course work at that campus during that semester.

Financial Aid and Assistantships

Decisions on financial aid and assistantships will be made by each school according to that school’s procedures.

Fulfillment of Degree Requirements and Graduation

A student in the program may complete the requirements for one of the degrees and be awarded that degree prior to completing all the requirements for the other degree; provided, however, that the student shall have successfully completed at least two semesters of work towards the other degree. All courses in one program that will count towards meeting the requirements of the other must be completed before the awarding of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the inter-program transfer of credits.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Integrative Biosciences Graduate Faculty

- Raj Acharya, Ph.D. (Minnesota) Professor of Computer Science and Engineering
- Hiroshi Akashi, Ph.D. (Chicago) Assistant Professor of Biology
- John Albert, Ph.D. (Duke) Assistant Professor of Physics
- Naomi Altman, Ph.D. (Stanford) Associate Professor of Statistics
- Sarah Asmann, Ph.D. (Stanford) Professor of Biology
- Maria Bewley, Ph.D. (University of Leeds) Assistant Professor of Biochemistry
- Le Bao, Ph.D. Assistant Professor of Statistics
- Judith Bond, Ph.D. (Rutgers) Professor and Chair, Biochemistry and Molecular Biology
- John Carlson, Ph.D. (Illinois) Professor of Molecular Genetics; Director, Schatz Center for Free Molecular Genetics
- Laura Carre, Ph.D. (Stanford Reserve) Assistant Professor of Biochemistry and Molecular Biology
- Francesca Chiaramonte, Ph.D. (Minnesota) Associate Professor of Statistics
- Keith Cheng, M.D., Ph.D. (NYU, U Washington) Professor of Pathology; Adjunct Professor of Biochemistry and Molecular Biology
- Stephan Chora, Ph.D. (Vrije U of Brussels, Belgium) Associate Professor of Maize Genetics
- Michael Chorney, Ph.D. (Cornell, Sloan Kettering Cancer Center) Professor of Microbiology
- Daniel Cosgrove, Ph.D. (Stanford) Professor of Biology
- Claude de Pamphilis, Ph.D. (Georgia) Associate Professor of Biology
- Cheng Dong, Ph.D. (Columbia) Distinguished Professor of Bioengineering
- Nina Fedoroff, Ph.D. (Rice) Willaman Professor of Life Sciences; Director, Biotechnology Institute
- Gregory Ferry, Ph.D. (Illinois) Stanley Person Professor of Molecular Biology
- John Flanagan, Ph.D. (Tennessee) Professor of Biochemistry and Molecular Biology
- Majid R. Foolad, Ph.D. (California, Davis) Professor of Plant Genetics
- David Geiser, Ph.D. (Georgia) Associate Professor of Plant Pathology
- Channe Gowda, Ph.D. (Mysore, India) Professor of Biochemistry and Molecular Biology
- Mark Guiltinan, Ph.D. (California, Irvine) Professor of Plant Molecular Biology; Director, Endowed Program in the Molecular Biology of Cocoa
- Ross Hardison, Ph.D. (Iowa) Professor of Biochemistry
- Terry J. Hartman, Ph.D., M.P.H., (Minnesota; Harvard School of Public Health) Assistant Professor of Nutrition
- S. Blair Hedges, Ph.D. (Maryland) Professor of Biology
- Heather Hines, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of Biology and Entomology
- Peter Hudson, F.R.S. (UK) Willaman Professor of Biology
- Reka Albert, Ph.D. (Vanderbilt) Evan Pugh Professor; Chair of Cellular and Molecular Physiology
- Byron Jones, Ph.D. (Arizona) Professor of Biobehavioral Health and Pharmacology
- Seogchun Kang, Ph.D. (Wisconsin) Associate Professor of Plant Pathology
- Tehluu Kao, Ph.D. (Yale) Professor of Biochemistry and Molecular Biology
- Kathryn LaNoe, Ph.D. (Yale) Professor of Cellular and Molecular Physiology
- Arthur Lesk, Ph.D. (Princeton) Professor of Biochemistry and Molecular Biology
- Jin Li, Ph.D. (Shanghai) Associate Professor of Statistics
- Qunhua Li, Ph.D. Assistant Professor of Statistics
- Bernard M. Lindsay, Ph.D. (Washington) Willaman Professor and Head of Statistics
- Shaun Mahony, Ph.D. (National Centre for Biomedical Engineering Science) Assistant Professor of Biochemistry and Molecular Biology
- George Makhatadze, Ph.D. (Moscow Physico-Technical Institute) Professor of Biology
- Kelvin Makova, Ph.D. (Texas Tech) Assistant Professor of Biology
- Costas Maranas, Ph.D. (Princeton) Professor of Chemical Engineering
- Timothy McNells, Ph.D. (Yale) Assistant Professor of Plant Pathology
- Wesley C. Miller, Ph.D. (Washington, D.C.) Professor of Biology and Computer Science and Engineering
- Kathleen Mulder, Ph.D. (SUNY, Buffalo) Professor of Pharmacology
- Masatoshi Nei, Ph.D. (Kyoto University, Japan) Evan Pugh Professor of Biology
- Antonovska, Ph.D. (Texas Tech) Assistant Professor of Biochemistry and Molecular Biology
- Karl M. Newell, Ph.D. (Illinois) Professor of Kinesiology and Biobehavioral Health
- Randan Patterson, Ph.D. Assistant Professor of Biology
- Anthony Pegg, Ph.D. (Cambridge) Evan Pugh Professor of Cellular and Molecular Physiology, and Pharmacology; J. Lloyd Huck Professor of Cell and Molecular Biology
- B. Franklin Pugh, Ph.D. (Wisconsin, Madison) Associate Professor of Biochemistry and Molecular Biology
- W. Brian Reeves, M.D. (Thomas Jefferson) Staff Physician
- Marylyn D. Ritchie, Ph.D. (Vanderbilt) Director, Center for Systems Genomics; Associate Professor of Biochemistry and Molecular Biology
- Dan Robertson, Ph.D. (California, Riverside) Associate Professor of Pharmacology
- Marilyn Roossinck, Ph.D. (Colorado School of Medicine) Professor of Plant Pathology and Biology
- Ira Roson, Ph.D. (Johns Hopkins) Associate Professor of Biochemistry and Molecular Biology
- James Rosenberger, Ph.D. (Cornell) Professor of Statistics
- Stephen Schaeffer, Ph.D. (Georgia) Associate Professor of Biology
- Cara-Lynne Schenbruch, Ph.D. (Seton Hall) Professor of Biochemistry and Molecular Biology
- Stephan Schuster, Ph.D. (University of Munich) Professor of Biochemistry and Molecular Biology
- Coooudavil Shashikant, Ph.D. (Osmania University, India) Associate Professor of Molecular and Developmental Biology
- Mark Shriver, Ph.D. (U of Texas Health Science Center) Associate Professor of Anthropology
- Thomas Spratt, Ph.D. (Chicago) Associate Professor of Biochemistry
- Jack Vanden Heuvel, Ph.D. (Wisconsin) Professor of Molecular Toxicology
- David A. Vandenburgh, Ph.D. (Penn State) Associate Professor of Biobehavioral Health
- George Vogler, Ph.D. (Cornell, Boulder) Professor of Biobehavioral Health
- Kent Vrana, Ph.D. (Louisiana State) Medical Center Professor and Chair of Pharmacology
- James Wang, Ph.D. (Stanford) Associate Professor of Information Sciences and Technology
- Kenneth Weiss, Ph.D. (Michigan) Evan Pugh Professor of Anthropology and Genetics

Calling upon the expertise of more than seventy faculty members representing twenty-seven different departments among eight different colleges between two different campuses, the Integrative Biosciences (IBIOS) Graduate Program offers a unique opportunity to learn about and work in multiple disciplines. This graduate program is a component of the Huck Institutes of the Life Sciences and is supported by modern telecommunications facilities and equipment. Doctoral students not only explore new conceptual connections, but also engage in active group learning experiences and explore a variety of potential career opportunities before graduation. Two unique aspects are (1) dual mentors who will expose students to complementary viewpoints and encourage students to
The program offers the following areas of research emphasis (called options): Bioinformatics and Genomics, and Chemical Biology.

General Admission Requirements
Faculty begin reviewing applications December 1.

1. Completed official Penn State Graduate School application
2. Paid nonrefundable application fee ($45 U.S.)
3. Two official transcripts from each institution attended
4. Completed Integrative Biosciences Graduate Degree Program application
5. Application for a U.S. visa (International applicants only)
6. Graduate Record Examinations (GRE) general test
7. Three letters of recommendation
8. Statement of goals that pertains to the life sciences
9. All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) examination. A minimum TOEFL score of 600 on the paper test, 250 on the computer-based test, or 100 (including 23 on the speaking component) on the Internet-based test is required.
10. Students must have completed a bachelor's degree at an accredited college or university and have a minimum of a 3.0/4.0 junior/senior undergraduate grade-point average.

Prescribed (Required) Courses:

1. Foundation of basic knowledge in molecular biology, cell biology, biochemistry, and computational methods in the life sciences. The IBIOS Graduate Program expects at least 6 credits (or the equivalent) in one or more of these disciplines, taken either as an undergraduate or as a part of the graduate curriculum. The specific courses are left to the discretion of each option.
2. IBIOS 590 COLLOQUIUM (4 credits, 2 per semester during any of the first four semesters in residence), a monthly colloquium that will present life science topics of general interest to all faculty and graduate students in the Huck Institutes of the Life Sciences.
3. IBIOS 591 ETHICS IN LIFE SCIENCES (1 credit), an examination of integrity and misconduct in life sciences research, including issues of data collection, publication, authorship, and peer review.
4. IBIOS 595 INTERNSHIP (optional, 1 credit), an external work assignment relevant to individual research or career goals. (Register for IBIOS 595 in 520 Thomas Building)
5. IBIOS 596 INDIVIDUAL STUDIES: Laboratory Rotations (1-3 credits per semester, depending upon option)
6. IBIOS 600 THESIS RESEARCH (variable credits)
7. IBIOS 601 Ph.D. DISSERTATION FULL-TIME (0 credits)
8. IBIOS 602 SUPERVISED EXPERIENCE IN COLLEGE TEACHING (1 credit each semester), two semesters or the equivalent is required after the first year in residence. International Fellows must pass an English proficiency exam before teaching.

The Graduate School requires all graduate students to maintain a 3.0 grade-point average. Individual options may require a higher GPA.

Students must present their thesis in accordance with the Penn State guidelines as described in the THESIS GUIDE Requirements for the Preparation of Master's and Doctoral Theses. Current copies may be obtained from the web site www.gradsch.psu.edu/current/thesisguide or the Thesis Office, 115 Kern Building, University Park, PA 16802; 814-865-5448.

Elective courses. Student may select any 400- to 500-level courses pending approval by the Faculty Mentor and the Option Director - available elective courses vary from year to year.

BIOINFORMATICS AND GENOMICS (BG) OPTION

College of Medicine (Hershey)
Prescribed (Required) Courses:

- IBIOS stable number Genomics (3 credits), currently offered as 598B, a special topics course. Videoconferenced between UP and COM
- GEN 520. Genetics (Offered at COM and now planned to be videoconferenced between COM and UP.)
- BCHM 502. Biological Chemistry (3 credits)
- IBIOS 591. Ethics (1 credit)
- IBIOS 590. Colloquium (1 credit)
- IBIOS 590. Colloquium (1 credit)
- IBIOS 590. Colloquium (1 credit)

Electives: Choose at least three credits from courses that support the chosen thesis research.

University Park
Prescribed (Required) Courses:

- IBIOS stable number Genomics (3 credits), currently offered as 598B, Bioinformatics I - BIOL 597F, CSE/STAT 598 (3 credits)
- IBIOS 591. Ethics (1 credit)
- IBIOS 590. Colloquium (1 credit)
- IBIOS 590. Colloquium (1 credit)

Electives. Choose at least three credits from the following courses.

- BIOL 597F, CSE 598F, STAT 597F Bioinformatics II
- GEN 520. Genetics (Offered at COM and now planned to be videoconferenced between COM and UP.)
- STAT 597D. Genometrics
- BIOL 497D. Practical Bioinformatics
- BIOL 497G/597G. Computer Programming in C: Biological Applications
- BIOL 505. Statistical Methods in Evolutionary Genetics
- B M B 597C. Computers for biochemists and molecular biologists
- CSE 598E, STAT 597E. Data Mining
- IBIOS 597G, HORT 597A, and AGRO 597G. Plant Genomics
- BMMB 597A or BMMB 501. Core Concepts in Biomolecular Science

See also BIOENGINEERING

CHEMICAL BIOLOGY (CB) OPTION

Prescribed (Required) Courses:

- Graduate level courses in biochemistry or molecular biology (6 credits, 3 per semester of the first year)
- Chemical Biology elective (6 credits, 3 per semester of the first year)

M.B.A.

The Graduate Faculty -- Penn State Erie, The Behrend College
- Kerry A. Adzima, Ph.D. (West Virginia) Assistant Professor of Economics
- Athotech V. Deshmukh, Ph.D. (Memphis) IMBA Program Chair; Professor of Accounting and Management Information Systems
- Greg Filbeck, D.B.A. (Kentucky) Professor of Finance, Samuel Patton Black III Chair in Insurance and Risk Management
- Sanjay Kumar, Ph.D. (Texas, Dallas) Assistant Professor of Management
- Diane H. Parente, Ph.D. (SUNY, Buffalo) Breene Professor of Management
- Mary Beth Pinto, Ph.D. (Pittsburgh) Breene Professor of Marketing
- Matthew Swinarski, Ph.D. (SUNY, Buffalo) Associate Professor of Management Information Systems
- Jessica Zhao, Ph.D. (SUNY, Buffalo) Associate Professor of Finance

The Graduate Faculty -- Penn State Great Valley, School of Graduate Professional Studies
- John Mason, Ph.D. (Michigan State) Associate Professor of Management
- Denise Potosky, Ph.D. (Rutgers) Associate Professor of Management
- Walter Wang, Ph.D. (Louisiana State) Associate Professor of Marketing

The Graduate Faculty -- Penn State Harrisburg, The Capital College
- Thomas Buttross, Ph.D. (Mississippi) Associate Professor of Accounting
- Rekha Culpan, Ph.D. (NYU) Professor of Management and International Business
- Patrick Cusatis, Ph.D. (Penn State) Associate Professor of Finance
- Janet Duck, Ph.D. (Penn State) Assistant Professor of Management
- David A. Morand, Ph.D. (Cornell) Professor of Management
- Jeff Tsai, Ph.D. Professor of Economics
- Walter Wang, Ph.D. (Louisiana State) Associate Professor of Marketing
- Richard Young, Ph.D. (Penn State) Professor of Supply Chain Management

The Graduate Faculty -- The Smeal College of Business
- Robert P. Crum, D.B.A. (Kentucky) Associate Professor of Accounting
- Edward Ketz, Ph.D. (Virginia Tech) Associate Professor of Accounting
- Chris Muscarella, Ph.D. (Purdue) Professor of Finance
- Thomas Buttross, Ph.D. (Mississippi) Associate Professor of Accounting
- Patrick Cusatis, Ph.D. (Penn State) Associate Professor of Finance
- Janet Duck, Ph.D. (Penn State) Assistant Professor of Management
- David A. Morand, Ph.D. (Cornell) Professor of Management
- Jeff Tsai, Ph.D. Professor of Economics
- Walter Wang, Ph.D. (Louisiana State) Associate Professor of Marketing
- Richard Young, Ph.D. (Penn State) Professor of Supply Chain Management

The Penn State Intercollege Master of Business Administration (iMBA) is an online degree program of Penn State Erie, The Behrend College; Penn State Great Valley, The School of Graduate Professional Studies; Penn State Harrisburg; and Smeal College of Business, Penn State University Park. The iMBA curriculum emphasizes cross-functional organizational thinking; focuses on business planning and strategy; closely follows the quality guidelines for accreditation of AACSB (American Assembly of Collegiate Schools of Business); the accrediting body affiliated with The International Association for Management Education; and uses cutting-edge instructional technology to transcend issues of time and space, and to support effective teaching and learning.

Within the context of these goals, the iMBA curriculum was developed around four core business areas and six themes. The core business areas include: Financial Reporting, Analysis, and Markets; Domestic and Global Economic Environments; Human Behavior in Organizations; Creation and Distribution of Goods and Services.

The themes were derived from values and concepts found in high performing organizations: Leadership; Strategic Planning; Customer and Market; Information and Analysis; Human Resources; Process Management.

These business areas and themes are integrated at the course level. Students apply knowledge developed in these areas to multidimensional problems and issues throughout the program, which includes two required one-week culminating or capstone residential experiences.

Admission Requirements

Admission is granted only to candidates who demonstrate high promise of success for graduate work. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants are required to take the Graduate Management Admission Test (GMAT). Applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English, must take the TOEFL (Test of English as a Foreign Language).

Admissions decisions are based on a review of a complete admission portfolio, including an application, a statement of intent, a current resume, official transcripts from each undergraduate and graduate institution attended, two letters of recommendation, and GMAT scores. An applicant's credentials are compared to the standards set by other candidates in the current application pool. Please see http://www.worldcampus.psu.edu/IMBA for additional program information.

Applicants must have completed the following prerequisites or the equivalent before they may matriculate: Quantitative Analysis (e.g., QUANT 310), Business Statistics (e.g., STAT 200), Business Calculus (e.g., MATH 195), Accounting (e.g., ACCTG 211), Microeconomics (e.g., ECON 002) and Macroeconomics (e.g., ECON 004). Applicants who have developed relevant knowledge and skills in one or more of these areas through work experiences may demonstrate their proficiency through the application portfolio. A working knowledge of the Microsoft Office suite is required.

Master's Degree Requirements

The IMBA degree requires 48 credits distributed across the following courses: IMBA 501, IMBA 502, IMBA 513, IMBA 515, IMBA 516, IMBA 517, IMBA 521, IMBA 522, IMBA 523, IMBA 530, IMBA 531, IMBA 543, IMBA 544, IMBA 550, IMBA 560, IMBA 561, IMBA 562, IMBA 573, and IMBA 574. Attendance at the two one-week Residency Experiences is mandatory. Following the IMBA course schedule, which involves completing credits over eight consecutive terms, a part-time student can complete the program in two years (see http://www.worldcampus.psu.edu/pub/imba/afs_sched.shtml).

Other Relevant Information

The IMBA is an online graduate degree program delivered via World Campus (http://www.worldcampus.psu.edu). Students progress through the program in cohorts. They must be computer literate and have immediate, ready, and reliable access to a computer and the Internet. Although not all aspects of the course are delivered via electronic media, Internet access is required to successfully complete the course.
Courses

Term One

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
501. Markets, Industry Analysis, and Business Strategy (3)
502. Financial and Accounting Tools (3)

Term Two

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
513. Data Analysis Resource Module (2)
515. Accounting for External Reporting (2)
516. Organizational Behavior and Performance (2)

Term Three

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
521. Strategic Analysis (2)
522. Financial Management (2)
523. Organizational Development, Intervention and Change (2)
Residency Experience I (required)

Term Four

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
517. Corporate Governance (2)
531. Project Management (2)
543. Accounting for Internal Decision Making (2)

Term Five

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
530. Marketing in a Global Environment (3)
544. Managing Human Resources (3)

Term Six

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
550. Corporate Information Strategy (3)
560. Corporate Innovative Strategies (3)

Term Seven

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
561. Global Operations and Supply Chain Management (3)
562. Global Business Management (3)

Term Eight

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (iMBA)
573. Strategic Planning (3)
574. Strategic Financial Decisions (3)
Residency Experience II (required)

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Agricultural Biosecurity and Food Defense Option
Walter R. McVey, Jr., M.S. (West Virginia) Senior Project Manager in VBSC
Catherine Cuter, Ph.D. (Clemson) Associate Professor of Food Science
Fred Gildow, Ph.D. (Cornell) Professor of Plant Pathology
Gretchen Kulda, Ph.D. (California) Associate Professor of Plant Pathology
Seogchan Kang, Ph.D. (Wisconsin) Professor of Plant Pathology

Computer and Network Security Option
Raj Acharya, Ph.D. (Minnesota/Mayo Grad School of Med) Professor of Computer Science and Engineering
Piotr Berman, Ph.D. (MIT) Associate Professor of Computer Science and Engineering
Guohong Cao Ph.D. (Ohio State) Professor of Computer Science and Engineering
Trent Jaeger, Ph.D. (Michigan) Associate Professor of Computer Science and Engineering
George Kasidts, Ph.D. (California, Berkeley) Professor of Computer Science and Engineering, and Electrical Engineering
Thomas La Porta, Ph.D. (Columbia) Distinguished Professor of Computer Science and Engineering
Yanxi Liu, Ph.D. (Massachusetts) Associate Professor of Computer Science and Engineering
John Metzner. (NYU) Professor of Computer Science and Engineering, and Electrical Engineering
Patrick McNelly, Ph.D. (Michigan) Professor of Computer Science and Engineering
Sofya Raskhodnikova, Ph.D. (MIT) Assistant Professor of Computer Science and Engineering
Anand Sivasubramaniam Ph.D. (Georgia Tech) Professor of Computer Science and Engineering
Aylin Yener, Ph.D. (Rutgers) Professor of Electrical Engineering
Sencun Zhu, Ph.D. (George Mason) Associate Professor of Computer Science and Engineering, and Information Sciences and Technology

Geospatial Intelligence Option
Todd Bacastow, Ph.D. (Penn State) Professor of Practice for Geospatial Intelligence
Mark Carson, Ph.D. (South Carolina) Associate Professor of Geography
Peter Guth, Ph.D. (Penn State) Visiting Professor of Geography
David Hall, Ph.D. (Penn State) Dean, College of Information Sciences and Technology; Professor of Information Sciences and Technology
Jay Parrish, Ph.D. (Penn State) Senior Lecturer

Homeland Security (Base Program)
Thomas Arminko (U.S. Naval War College) Instructor in Homeland Security
Peter Forster (Penn State) Senior Lecturer in Information Sciences and Technology
Jeremy Plant (Virginia) Professor of Public Administration and Public Policy
Paul Thompson, J.D. (Georgetown) Senior Lecturer in Homeland Security and Public Affairs

Information Security and Forensics Option
Guoray Cai, Ph.D. (Pittsburgh) Associate Professor of Information Sciences and Technology, Geography, and Computer Science and Engineering
Chao-Hsin Chu, Ph.D. (Penn State) Professor of Information Sciences and Technology, and Management Science
Peter Forster (Penn State) Senior Lecturer in Information Sciences and Technology
Dongwon Lee, Ph.D. (UCLA) Associate Professor of Information Sciences and Technology, and Computer Science and Engineering
Peng Liu, Ph.D. (George Mason) Professor of Information Sciences and Technology, and Computer Science and Engineering
Prasenjit Mitra, Ph.D. (Stanford) Associate Professor of Information Sciences and Technology, and Computer Science and Engineering
Irene Petrick, Ph.D. (Penn State) Professor of Practice in Information Sciences and Technology
Gerald M. Santoro, Ph.D. (Penn State) Assistant Professor of Information Sciences and Technology, and Communication Arts and Sciences
Robin G. Qiu, Ph.D. (Penn State) Assistant Professor of Information Science

Public Health Preparedness Option
Vernon M. Chinchilli, Ph.D. (North Carolina) Distinguished Professor of Public Health Sciences
Eugene J. Langerich, V.M.D., M.S. (Pennsylvania) Professor of Public Health Sciences
Craig Meyers, Ph.D., (UCLA) Professor of Microbiology and Immunology
Zhengmin Qian, M.D., Ph.D. (Rutgers) Assistant Professor of Public Health Sciences

Program Description

The interdisciplinary Master of Professional Studies in Homeland Security (MPS-HSL) degree program is designed to prepare professionals and develop leaders for the field of homeland security by providing exceptional graduate education. The curriculum is delivered in a distance education format through the Penn State World Campus in order to accommodate the needs and careers of professionals who are already active in homeland security and public health, or those interested in transitioning into the field. The program provides enrollees with an integrated, cross-functional curriculum that is focused on a set of unified educational goals in order to help them understand and manage the complexities of homeland security in a global environment. Students select from one of six disciplines of study: homeland security; public health preparedness; geospatial intelligence; computer and network security; information security and forensics; and agricultural biosecurity and food defense. The participating academic units for this collaborative program are: Penn State Harrisburg, the College of Medicine, the College of the Liberal Arts, the College of Earth and Mineral Sciences, the College of Information Sciences and Technology, Penn State Great Valley School of Graduate Professional Studies, the College of Engineering, and the College of Agricultural Sciences.

General Admission Requirements

Educational Background
An applicant must hold either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.

Core Application Packet

- Statement of purpose

The Pennsylvania State University
Listed below are the courses required/suggested for the option:

HLS/CRIM 805: 
0205 Buckout Laboratory, University Park; 814 863 7232; kuldau@psu.edu
with the following educational goals and objectives:
- Homeland security.

Core Curriculum
- HLS/PHIL 803:
  Regardless of field of specialization, or chosen discipline for graduate study, all professionals in the program will participate in a Unifying Core Curriculum
- Homeland security refers to the unifying core for the vast global network of organizations and institutions that are involved in the efforts to secure society.

Prescribed Courses
- Agricultural Biosecurity and Food Defense Option
  a capstone project on a topic related to homeland security and defense (XXX 594 - Research Topics).

Course Enrollment before Formal Acceptance
- If a student wishes to enroll in a course (s) while he/she completes the application process, the student can do so by contacting Adult Learner Enrollment Services at 800-252-3592.
- Students who have completed an application and have already been accepted to the program will be given preference for course enrollment.
- All other students will be enrolled in courses on a first-come, first-served basis depending on availability.

Financial Aid
- World Campus students who are enrolled in a degree program and meet all other federal student aid eligibility requirements may be eligible for federal aid programs. Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for student aid.

Degree Requirements
- The Master of Professional Studies in Homeland Security program requires a minimum of 33 credits, 24 of which must be earned at Penn State. Up to 10 graduate credits may be transferred in from a regionally accredited institution (as is permissible by Graduate Council policy); if the full 10 credits are transferred, the student must complete an additional 9 core credits.
- At least 18 credits must be courses at the 500 level and above, of which 6 credits must be in 500-level courses. Students are expected to maintain a B (3.0) or better average in academic courses to be retained in the program.
- Each student must take a core curriculum consisting of HLS/PDM 801, HLS/PHIL 803, and HLS/CRIM 805. Students will also take 12 credits of prescribed courses for the specialized option. There are 6 elective credits of elective that are chosen from an approved list in consultation with the student’s advisor. The list of electives is maintained by the Option Director and is provided to the students in the option. Finally, each degree candidate must complete a capstone project on a topic related to homeland security and defense (XXX 594 - Research Topics).

Graduate Bulletin Archive - 2013
- 2012 - 2013

Vita or résumé
- Three letters of recommendation
- Two official transcripts from each institution attended
- Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) score, if applicable
- Application fee

Statement of Purpose and Curriculum Vitae
- A statement of professional experience and goals (up to 500 words) and the candidate’s vita or résumé must accompany the application.

Letters of Recommendation
- The individuals writing letters should be familiar with you and comfortable discussing your professional and/or academic strengths and accomplishments.
- The Admissions Committee prefers that all letters be written within the last six months and reference the applicant’s current career goals and/or ability to perform graduate level study.
- A person choosing to submit a letter of reference will do this through the online application process and either select our pre-formatted template or upload his/her own letter.

GPA Requirements
- Your grade-point average is interpreted by the Admissions Committee in the context of a completed application. Some options may require a minimum GPA.

GRE Requirements
- The Graduate Record Examination may be required by some options.

TOEFL
- The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test.
- Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5. Specific graduate programs may have more stringent requirements.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Other Considerations
- Special backgrounds, abilities, and interests related to homeland security are desirable.

Course Enrollment before Formal Acceptance
- If a student wishes to enroll in a course (s) while he/she completes the application process, the student can do so by contacting Adult Learner Enrollment Services at 800-252-3592.
- Students who have completed an application and have already been accepted to the program will be given preference for course enrollment.
- All other students will be enrolled in courses on a first-come, first-served basis depending on availability.

Financial Aid
- World Campus students who are enrolled in a degree program and meet all other federal student aid eligibility requirements may be eligible for federal aid programs. Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for student aid.

Degree Requirements
- The Master of Professional Studies in Homeland Security program requires a minimum of 33 credits, 24 of which must be earned at Penn State. Up to 10 graduate credits may be transferred in from a regionally accredited institution (as is permissible by Graduate Council policy); if the full 10 credits are transferred, the student must complete an additional 9 core credits. At least 18 credits must be courses at the 500 level and above, of which 6 credits must be in 500-level courses. Students are expected to maintain a B (3.0) or better average in academic courses to be retained in the program.
- Each student must take a core curriculum consisting of HLS/PDM 801, HLS/PHIL 803, and HLS/CRIM 805. Students will also take 12 credits of prescribed courses for the specialized option. There are 6 elective credits of elective that are chosen from an approved list in consultation with the student’s advisor. The list of electives is maintained by the Option Director and is provided to the students in the option. Finally, each degree candidate must complete a capstone project on a topic related to homeland security and defense (XXX 594 - Research Topics).

Prescribed Courses
- Homeland security refers to the unifying core for the vast global network of organizations and institutions that are involved in the efforts to secure society. Regardless of field of specialization, or chosen discipline for graduate study, all professionals in the program will participate in a Unifying Core Curriculum with the following educational goals and objectives:
  - Understand major policies and legislation that shapes homeland security in a globalized society.
  - Become familiar with organizations that play a key role in the implementation of homeland security policies and administration, and recognize the interactions among them.
  - Understand the way in which a person or group responds to a set of conditions so as to prevent and respond to incidents and catastrophic events when needed.
  - Recognize the impact that catastrophic events, both natural and man-made, have on society and the domestic and global economy.
  - Identify and assess potential threats, vulnerabilities, and consequences.
  - Apply leadership skills and principles that are necessary for producing and acting on information of value within a collaborative setting.
  - Communicate effectively in the context of particular institutional cultures.
  - Use, conduct, and interpret research and data effectively in decision-making.
  - Practice ethics and integrity as a foundation for analytical debate and conclusion.
  - Develop an appreciation of the cultural, social, psychological, political, and legal aspects of terrorism and counterterrorism.

The Core Curriculum consists of the following three courses:
- HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3) Foundation for understanding homeland security history, the development of homeland security policies and organizations, and current management approaches.
- HLS/PHIL 803: Homeland Security: Social and Ethical Issues (3) This course examines the social, political, legal, and ethical issues that arise in the context of homeland security.
- HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3) Provides an overview of the domestic and global issues related to homeland security.

Listed below are the courses required/suggested for the option:

Agricultural Biosecurity and Food Defense Option
- Director: Gretchen Kuldau, Ph.D. (California) Associate Professor of Plant Pathology
- 0205 Buckout Laboratory, University Park; 814 863 7232; kuldau@psu.edu

Core Curriculum

The Pennsylvania State University
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
AGBIO 520*: Agricultural Biosecurity: Protecting a Key Infrastructure (3)
AGBIO 521: Food Defense: Prevention Planning For Food Processors (3)
AGBIO 801: Veterinary Infectious Disease Diagnostic and Surveillance Systems (3)
AGBIO 802: Plant Protection: Responding to Introductions of Threatening Pest and Pathogens (3)

Courses with an asterisk (*) found in other Options

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
AGBIO 594: Agricultural Biosecurityand Food Defense - Capstone Experience (3)

Computer and Network Security Option

Director: Patrick McDaniel, Ph.D. (Michigan) Associate Professor of Computer Science and Engineering
960A Information Sciences and Technology Building; 814-863-3599; adm12@psu.edu

Core Curriculum
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
CSE 514: Computer Networks (3)
CSE 543*: Introduction to Computer and Network Security (3)
CSE 546: Cryptography (3)
EE 581: Information Theory (3)

Courses with an asterisk (*) found in other Options

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
CSE 594: Research Topics (3)

Geospatial Intelligence Option

Director: Todd Bacastow, Ph.D. (Penn State) Professor of Practice for Geospatial Intelligence
2217 Earth and Engineering Sciences Building, University Park; 814-863-0049; bacastow@psu.edu

Core Curriculum
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
GEOG 882: Geographic Foundations of Geospatial Intelligence (3)
GEOG 883*: Remote Sensing for the Geospatial Intelligence Professional (3)
GEOG 884: Geographic Information Systems for the Geospatial Intelligence Professional (3)
GEOG 885: Advanced Analytic Methods for Geospatial Intelligence (3)

Courses with an asterisk (*) found in other Options

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
GEOG 594A: Research Topics: Analytic Experience in Geospatial Intelligence (1)
GEOG 594B: Research Topics: Geospatial Intelligence Capstone Experience (2)

Homeland Security (Base Program)

Director: Dr. Jeremy F. Plant, Professor of Public Administration and Public Policy, School of Public Affairs; Interim Program Chair, IMPS-Homeland Security
W160 Olmsted Building, Penn State Harrisburg; 717-948-6045; jfp2@psu.edu

Core Curriculum
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
P ADM 401: Foundations of Homeland Security (3)
P ADM 404: Homeland Security and Defense in Practice (3)
P ADM 802: Collaboration and Organization: Multifaceted Approaches to Homeland Security (3)
P ADM 803*: Strategic Planning and Organizational Imperatives in Homeland Security and Defense (3)

Courses with an asterisk (*) found in other Option

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
P ADM 594: Research Topics (3)

Information Security and Forensics Option

Director: Peter Forster, Ph.D. (Penn State) Senior Lecturer of Information Sciences and Technology, and Management Science
101N Information Sciences and Technology Building, University Park; 814-863-8304; pkf1@psu.edu

Core Curriculum
HLS/P ADM: Homeland Security Administration: Policies and Programs (3)
HLS/PHIL: Homeland Security: Social and Ethical Issues (3)
Prescribed Courses
IN SC 561: Web Security and Privacy (3)
IST 454: Computer and Cyber Forensics (3)
IST 515: Information Security and Assurance (3)
IST 554*: Network Management and Security

Courses with an asterisk (*) found in other Options

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
IST 594: Research Topics

Public Health Preparedness Option
Director: Eugene J. Lengerix, V.M.D., M.S., Professor, Public Health Sciences, Penn State College of Medicine, MC H070; 500 University Drive; Hershey, Pennsylvania; 717-531-6066; PHP_Programs@psu.edu

Core Curriculum
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/CRIM 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
PHP 410: Public Health Preparedness for Disaster and Bioterrorism Emergencies I (3)
PHP 510: Public Health Preparedness for Disaster and Bioterrorism Emergencies II (3)
PHP 527*: Public Health Evaluation of Disasters and Bioterrorism (3)
PHP 530: Critical Infrastructure Protection of Health Care Delivery Systems (3)

Courses with an asterisk (*) found in other Options

Electives
Choose 9 credits from an approved elective list in consultation with advisor. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
PHP 594: Research Topics (3)

JAMES A. NEMES, Professor and Interim Director of Academic Affairs
School of Graduate Professional Studies
30 East Swedesford Road
Malvern, PA 19355
610-648-3335

Degree Conferred:
M.S. in Information Science

The Graduate Faculty

- Adrian Barb, Ph.D. (University of Missouri) Assistant Professor of Information Science
- Joanna Defranco, Ph.D. (New Jersey Institute of Technology) Assistant Professor of Software Engineering
- Nil H. Ergin, Ph.D. (University of Missouri-Rolla) Assistant Professor of Systems Engineering
- Kathryn Jablakow, Ph.D. (Ohio State) Associate Professor of Mechanical Engineering
- Phillip A. Laplante, Ph.D. (Stevens Institute of Tech) P.E. Associate Professor of Software Engineering
- John I. McCool, Ph.D. (Temple) Distinguished Professor of Systems Engineering
- Colin J. Neill, Ph.D. (Wales) Director of Engineering Programs and Associate Professor of Software and Systems Engineering
- James A. Nemes, D.Sc. (George Washington University) Professor and Interim Director of Academic Affairs
- Michael J. Piovoso, Ph.D. (Delaware) Professor of Electrical Engineering
- Robin G. Qiu, Ph.D. (Penn State) Associate Professor of Information Science
- Sally S. Richmond, M.S.I.S. (Penn State) Lecturer in Information Science
- David W. Russell, Ph.D. (CNAA, London) Professor of Electrical Engineering
- Raghvinder Sangwan, Ph.D. (Temple) Associate Professor of Software Engineering
- Kaialam Satyamurthy, Ph.D. (Clemson) Assistant Professor of Engineering and Management
- Shamsnaz Virani, Ph.D. (Alabama) Assistant Professor of Systems Engineering

The graduate program in Information Science is designed to enable students to contribute to the development, implementation, and utilization of information technologies by providing a balance of theory and practice. Students gain insight in the role and management of emerging information technologies to gain competitive advantage.

Admission Requirements

Students who have a baccalaureate degree in information systems, information science or other quantitative, scientific, or business discipline and those with experience in information technology will be considered for admission to the program. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students should have earned at least a 3.00 junior/senior average (on a 4.00 scale) in their baccalaureate program. Although not required, scores from the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT) will be considered by the admissions committee if submitted. If the admissions committee determines an area of weakness or insufficient baccalaureate preparation, the student may be required to take one or both pre-program requirement courses (IST 441 and SWENG 400). Pre-program requirements do not count toward the 33-credit program total. Scores from the Test of English as a Foreign Language (TOEFL) are required of international applicants at the time of application. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 119 on the speaking section for the internet-based test. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Program Requirements

The requirement for the degree is 33 credits, consisting of 18 credits of required core courses (IN SC 431, IN SC 521, IN SC 525, IN SC 526, INF SY 560, INF SY 563), 12 credits approved electives, selected with the assistance of a graduate adviser, followed by an integrative capstone course, which includes a master’s paper (IN SC 539). A grade-point average of at least 3.0 must be achieved, with at least 18 credits at the 500 level. Students lacking adequate preparation may be required to take one or both of the pre-program requirement courses (IST 441 and SWENG 400). Pre-program requirements do not count toward the 33-credit program total.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Program

Operating under the auspices of the School of Business Administration, Penn State Harrisburg’s master's degree program in information systems is designed to meet the rapidly increasing need for technically grounded, upper-level information resources managers within business organizations. With the exception of a small percentage of students who are full-time, the students served by the M.S.I.S. program are employees of area businesses, state and local governments, and not-for-profit organizations who study on a part-time basis. In order to accommodate both full- and part-time students, courses are primarily offered in the evening.

The two-fold nature of the program requires a manager to have competence both in information technology and in management theory; therefore, the curriculum combines the highly technical content of information science with the managerial emphasis of information systems. Unlike computer science programs, which tend to focus on computer hardware and architecture, this program is organized around applied computer-based activities, the development of communication skills, and managerial principles.

Students may elect to take one of two options in the program: Information Systems in Health Care Management and Delivery, or Information Systems in the Life Sciences. Each of these options requires a total of 36 credits. Alternatively, students can earn the degree without notation of an option; the total credits required for the degree under this choice are 30 credits.

Admission Requirements

Applicants to the program must hold a baccalaureate degree in any field from a regionally accredited, college-level institution. Students who apply for the option in Life Sciences must hold a baccalaureate degree in life sciences or a related field from a regionally accredited college-level institution. Decisions are based primarily on undergraduate junior-senior grade-point average and the Graduate Management Admissions Test (GMAT) scores. (Please visit www.gmac.com for more information on the GMAT). Postbaccalaureate course work, professional experience, and the statements provided in the application are also taken into account.

Students are also required to submit the following:

- a completed application form with application fee
- two copies of official transcripts from all colleges or universities attended
- official scores from the GMAT test (the test must have been taken within the past five years);
- letters of recommendation (optional);
- supplemental application;
- test of English as a Foreign Language (TOEFL) (www.toefl.org) must be taken by applicants for whom English is not their first language or whose language of instruction was not English. Submit the results of that test with the application for admission. A TOEFL score of 550 (paper-based test) or 213 (computer-based test) or higher is required for admission.
- all students with international credentials must submit transcripts to Educational Credential evaluators, Inc. (ECE) for a "course by course" academic evaluation of transcripts and degree. An ECE application can be obtained on the web at: www.ece.org.

Application Dates

Candidates may enter the program at the beginning of the fall, spring, or summer session. To allow time for applications to be processed, all information, including GMAT score, must be received by Enrollment Services no later than July 18 for admission to the fall semester, November 18 for admission to the spring semester, and April 18 for admission to the summer session.

Applicants from outside the United States must follow the early admission dates in order to allow the necessary clearances and paperwork to be processed in time.

Entry Requirements

Analytic Skills Requirement: Prior to enrolling in their M.S.I.S. course work, students are required to demonstrate competence in Analytic skills. This requirement may be demonstrated by: (1) satisfactory completion of college-level courses in calculus and statistics proficiency examination approved by the M.S.I.S. program. This requirement must be taken during the first semester or summer session of the student's matriculation and completed with a grade of C or better.

Credit by Examination: Interested students should obtain a Credit by Examination form from Enrollment Services and should consult with the M.S.I.S. Program to schedule the exam and obtain a list of suggested preparatory materials.

Computer Skills Requirement: Students are required to demonstrate proficiency in the use of Microcomputer Applications. This requirement can be satisfied through completion of a college-level microcomputer applications course within the past five years with a grade of B or higher or by documented significant computer-related work experience. If this requirement has not been met prior to admission, a college-level microcomputer course such as M I S 103 or CM PSC 203--Microcomputers in Business--is required. Course work must be taken during the first semester or summer session of the student's matriculation and completed with a grade of B or higher.

Communication Skills Requirement: Successful completion of the M.S.I.S. program requires the ability to think clearly and to write and speak persuasively. Part of this requirement can be met by obtaining a score of "4" or more on the Graduate Management Admission Test (GMAT), Analytical Writing Assessment (AWA). If this score is not achieved, students must satisfy this requirement through additional course work in writing skills or other work developed in consultation with the M.S.I.S. Program. This requirement must be satisfied during the first semester or summer session of the student's matriculation and completed with a grade of B or higher. The speech component of this requirement is satisfied through individual and group presentations in courses in the M.S.I.S. Program.
Pre-Program Requirement: The Pre-program requirement provides a basic foundation in theory, tools and techniques required for the management of profit and non-profit organizations. It also provides a basic understanding of applications of financial accounting, the creation and distribution of goods and services, and how people relate to others in various organizations, helping to merge two related disciplines: business and information systems. Students who have completed the appropriate pre-program courses previously must have completed the courses with a grade of B or higher within seven years prior to admission, or through equivalent graduate course work completed with a B or higher within seven years prior to admission or college level course work validated by recent work experience. Students who have not met these tests of relevancy, grade or currency, prior to admission to the program must take these courses at the graduate level and early in Program. Students choosing an option in life sciences are required to have a baccalaureate degree in life sciences or a related field.

Pre-Program Requirement: 9 credits ACCT 501, BUS 505, MGMT 511, BUSEC 502

Degree Requirements
The M.S.I.S. program requires, excluding prerequisite requirements, 30-36 credits of course work at the graduate level (500-level or higher). Options require 36 credits.

These are distributed over three groups of courses: Prescribed Courses, Additional Courses, and Electives.

M.S.I.S. Degree Program

Master of Science in Information Systems

Pre-Program Courses
ACCT 501. Financial Analysis (3)
BUS 505. Data Analysis for Business Decisions (2)
BUSEC 502. Prices, Markets, and Competitive Strategy (2)
MGMT 511. Organizational Behavior (2)

Prescribed Courses
INFSY 535. Object-Oriented Design and Program Development (3)
INFSY 540. Information Technology and Knowledge Management (3)
INFSY 554. Master's Project (3)

Additional Courses (choose 15 credits)
INFSY 543. Electronic Commerce (3)
or
INFSY 550. Strategic Information Systems (3)
or
INFSY 587. Global Information Technology (3)
INFSY 545. Program, Data, and File Structures (3)
INFSY 547. WEB Enabled Technologies (3)
INFSY 555. Data Management (3)
INFSY 556. Data Warehousing (3)
INFSY 560. Data Communications Systems and Networks (3)
INFSY 562. Network Protocols (3)
or
INFSY 563. Network Security Management (3)

or
INFSY 564. Mobile Computing (3)
INFSY 565. Intelligent Systems (3)
INFSY 566. Data Mining and Knowledge Discovery (3)
INFSY 570. Software Engineering in the Analysis and Design of Information Systems (3)
INFSY 575. Seminar in Information Technology Management (3) (as approved for major by Program)
INFSY 597. Special Topics (3)

Electives (6 credits)

Elective courses allow students to select additional elective courses of interest. Six credits of elective courses should be taken from 500-level courses offered by Penn State Harrisburg’s School of Business Administration.

M.S.I.S. Degree with Options

Information Systems in Health Care Management and Delivery Option

Pre-Program Courses
ACCT 501. Financial Statement Analysis (3)
BUS 505. Data Analysis for Business Decisions (2)
BUSEC 502. Prices, Markets, and Competitive Strategy (2)
MGMT 511. Organizational Behavior (2)

Prescribed Courses
INFSY 535. Object-Oriented Design and Program Development (3)
INFSY 540. Information Technology and Knowledge Management (3)
INFSY 554. Master's Project (3)

Additional Courses
INFSY 555. Data Management (3)
INFSY 556. Data Warehousing (3)
INFSY 560. Data Communications Systems and Networks (3)
INFSY 565. Intelligent Systems (3)
INFSY 566. Data Mining and Knowledge Discovery (3)

Option Courses
H ADM 539. Health Systems Organizations (3)
INFSY 585. Advanced Applications in Medical Informatics (3)

Select 6 credits from:
H ADM 540. Health Administrative Policy Formulation (3)
H ADM 541. Health Economics (3)
H ADM 542. Health Care Politics (3)
H ADM 543. Long-Term Care Administration (3)
H ADM 548. Health Care Quality (3)
H ADM 551. Health Care Law (3)
H ADM 552. Health Delivery Systems: managed care (3)
HES 570. Health Economics (3)
INFSY 575. Seminar in Information Technology Management (3) (as approved for option by Program)
INFSY 597. Special Topics (3) (as approved for option by Program)

The Pennsylvania State University
Information Systems in Life Sciences Option

Prerequisite
A baccalaureate degree in a life sciences field

Pre-Program Courses
ACCT 501. Financial Analysis (3)
BUS 505. Data Analysis for Business Decisions (2)
BUS 601. Prices, Markets, and Competitive Strategy (2)
MNGMT 511. Organizational Behavior (2)

Prescribed Courses
INFS 535. Object-Oriented Design and Program Development (3)
INFS 540. Information Technology and Knowledge Management (3)
INFS 544. Master's Project (3)

Additional Courses
INFS 555. Data Management (3)
INFS 556. Data Warehousing (3)
INFS 560. Data Communications Systems and Networks (3)
INFS 565. Intelligent Systems (3)
INFS 566. Data Mining and Knowledge Discovery (3)

Option Courses
INFS 576. Technology and Life Sciences (3)

Select 9 credits from:
BUSAD 534. Ethical Dimensions of Management in the Biotechnology and Health Industry (3)
BUSAD 583. Future of the Biotechnology and Health Industry: Strategic Implications (3)
INFS 575. Seminar in Information Technology Management (3) (as approved for option by Program)
INFS 597. Special Topics (3) (as approved for option by Program)
S T S 589. Ethics and Values in Science and Technology (3)
SWENG 552. Bioinformatics (3)

Students electing an option in the M.S.I.S. program must complete a total of 36 credits in the major to obtain the degree.

A minimum 3.0 grade-point average is required before a student is awarded an M.S. degree in Information Systems.

All course work must be completed within six years, or seven consecutive summers of matriculation.

Transfer Credits
Up to 10 transfer credits may be applied toward the degree. However, credits used to complete a previous graduate degree may not be applied. These courses must have been taken within the past five years, appear on a graduate transcript, and have been passed with a B grade or higher. It must be the opinion of the reviewing faculty that these courses are equivalent in quality to those offered at Penn State Harrisburg. Credit will not be given for any class used to complete a previous degree.

Course Substitutions
Because some students enter the Program with advanced knowledge in one or more subject areas, up to six credits in prescribed or additional courses may be replaced with more advanced graduate courses in the same subject area. Except for INFS 554, which must be taken at the College, INFSY prescribed and additional courses, in cases where there is equivalent knowledge, must be replaced with more advanced courses in the same field. Substitutions are based on a minimum of six credits of advanced undergraduate course work in an area of concentration or credits earned in an equivalent graduate-level program at a regionally accredited, college-level institution. These courses must have been completed within the past five years and have earned a grade of B or better. Substituted courses must be replaced with other advanced graduate courses in the field for which the substitute is the foundation/prerequisite. Substitutions are based on past academic performance. An examination cannot be used for earned graduate course credit.

Grade-Point Average and Time Limit
A 3.00 (out of 4.00) minimum grade-point average is required FOR THE AWARD OF THE M.S.I.S. degree. All course work must be completed within six years, or seven consecutive summers of matriculation.

Financial Aid
There are a limited number of scholarships, fellowships, and research grants available, as well as several graduate assistantships. For more information on these, contact Penn State Harrisburg's School of Business Administration.

Many students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To find other options available to you, contact one of the following offices: Financial Aid Office, 717-948-6307 or Enrollment Services, 717-948-6250.

Graduate School Assistantships
Full time graduate students who are interested in an assistantship should contact the graduate program coordinator. Students must be nominated for an assistantship by their program coordinator.

Students applying for an assistantship should submit scores from the Graduate Management Admissions Test (GMAT), or similar examinations by January 30.

CONCURRENT DEGREE OFFERINGS WITH THE DICKINSON SCHOOL OF LAW

Penn State Harrisburg, School of Business Administration
The Dickinson School of Law

Degrees Conferred:
J.D. (Dickinson)
M.B.A. (Penn State Harrisburg)
M.S.I.S. (Penn State Harrisburg)

Concurrent Degree Programs
The Dickinson School of Law and the School of Business Administration of Penn State Harrisburg offer cooperative programs leading to the degrees of Juris Doctor (J.D.) to be granted by the Dickinson School of Law, and either the Master of Business Administration (M.B.A.) or Master of Science in Information Systems (M.S.I.S.) to be granted by Penn State Harrisburg. These concurrent degree opportunities facilitate the completion of both a law degree and a professional degree in business or information systems. The programs are designed primarily for location-bound students who enter law school with an undergraduate degree in business, information systems or related fields.

Admission Requirements
The concurrent programs require that the student first be admitted to the Dickinson School of Law. Subsequently, the student is recommended for and applies for admission to the graduate school for the Penn State Harrisburg M.B.A. program or M.S.I.S. program.

The following are required for applicants:

**The Dickinson School of Law: Completed Law School application; Law School Admission Test (LSAT) score; Law School Data Assembly Service (LSDAS) report; one page personal statement; employment record since high school; two letters of recommendation.**

**M.B.A. And M.S.I.S. Programs: Completed Graduate School application; Graduate Management Admission Test (GMAT); letter of recommendation from the associate dean of the Dickinson School of Law; evidence of proficiency in analytic skills through college-level calculus and statistics demonstrated either by completion of courses or successful completion of a mathematics proficiency examination approved by the program; evidence of proficiency in microcomputer applications skills; proficiency in writing evidenced by a score of "4" or higher on the writing assessment portion of the GMAT; proficiency in entry-level financial accounting as demonstrated by completion of college-level course work; completion of a set of pre-program business core requirements demonstrated by completion of a minimum of six credits of advanced undergraduate work in each core area. Each course must have been completed with a grade of B or higher within seven years prior to admission to the M.B.A. or M.S.I.S. program. The School of Business Administration will review the applicant's transcripts for acceptability of the courses.**

No courses from the M.B.A program or M.S.I.S. program may count toward the J.D. program until the student is matriculated at The Dickinson School of Law. However, graduate-level courses taken in either in the M.B.A. or M.S.I.S. program at Penn State Harrisburg or at another graduate-level institution may be applied to the M.B.A. or M.S.I.S. in accordance with the transfer policies of the Graduate School.

**Transfer of Credits**

For those students meeting the entry and pre-program requirements of the M.B.A. and M.S.I.S. programs, 30 additional credits are required. Nine credits of course work at the Dickinson School of Law may be transferred toward the M.B.A. or the M.S.I.S. degrees, subject to program approval. Students must obtain a grade satisfactory to the M.B.A. and M.S.I.S. program in order for the credits to be transferable. Nine credits of M.B.A. or M.S.I.S. courses may be transferred for credit toward the J.D. degree at the Dickinson School of Law, subject to the approval of the school of law.

**Advising of Students**

All students in the concurrent program have two advisers, one in the School of Business Administration and one from the faculty at the Dickinson School of Law. Because the concurrent program is designed to be taken in synchrony with the objective that both degrees will be earned simultaneously, students who do not demonstrate progress toward completion of both degrees may be denied continuation in the concurrent program. Such a decision will rest jointly with the faculties of the M.B.A. or M.S.I.S. program and the J.D. program.

**Tuition**

The Dickinson School Of Law and Penn State Harrisburg will each charge their own tuition to students in the J.D./M.B.A. and J.D./M.S.I.S. programs.

**Additional Information**

For more information and the latest updates on the concurrent programs, call the law school at 717-240-5207 or 800-840-1122, or visit the Web sites at: http://www.dsl.psu.edu http://www.hbg.psu.edu

**CONCURRENT DEGREE OFFERINGS WITH THE PENN STATE COLLEGE OF MEDICINE, THE DEPARTMENT OF PHARMACOLOGY**

Penn State Harrisburg, School of Business Administration
The Penn State College of Medicine, The Department of Pharmacology

**Degrees Conferred:**
Ph.D. (College of Medicine)
M.B.A. or M.S.I.S. (Penn State Harrisburg)

**Concurrent Degree Programs**

The Penn State College of Medicine, Department of Pharmacology, and The School of Business Administration of Penn State Harrisburg offer cooperative programs leading to the degrees of Doctor Of Philosophy (Ph.D.) to be granted by the Penn State College of Medicine, and either the Master of Business Administration (M.B.A.) or Master of Science in Information Systems (M.S.I.S.) to be granted by Penn State Harrisburg. These concurrent degree opportunities facilitate the completion of both a pharmacology doctorate and a professional degree in business administration or information systems. The programs are designed primarily for students interested in pursuing a career involving high-quality independent research and positions of management responsibility within the pharmaceutical community.

**Admission Requirements:**

The concurrent programs require that the student first be admitted to the pharmacology program. Subsequently, the student is recommended for and applies for admission to the graduate school for the Penn State Harrisburg M.B.A. or M.S.I.S. program.

The following are required for applicants:

**Pharmacology:** Completed application; Graduate Record Examination (GRE) Score; A bachelor's degree reflecting a reasonable background in zoology or biology, mathematics and chemistry; a minimum junior/senior grade point average of 3.00 and with appropriate course backgrounds; two letters of recommendation; a curriculum vitae; a description of career goals. Reading knowledge of one or two foreign languages is recommended.

**M.B.A. and M.S.I.S. Programs:** Completed Graduate School application; Graduate Management Admission Test (GMAT) score; letter of recommendation from the department chair of the pharmacology department; evidence of proficiency in analytic skills through college-level calculus and statistics demonstrated either by completion of courses or successful completion of a mathematics proficiency examination approved by the program; evidence of proficiency in microcomputer applications skills; proficiency in writing evidenced by a score of "4" or higher on the writing assessment portion of the GMAT; proficiency in entry-level financial accounting as demonstrated by completion of college-level course work; completion of a set of pre-program business core requirements demonstrated by completion of a minimum of six credits of advanced undergraduate work in each core area. Each course must have been completed with a grade of B or higher within seven years prior to admission to the M.B.A. or M.S.I.S. program. The School of Business Administration will review the applicant's transcripts for acceptability of the courses.**

No courses from the M.B.A program or M.S.I.S. program may count toward the Ph.D. until the student is admitted to the Pharmacology Program. However, graduate-level courses taken in either in the M.B.A. or M.S.I.S. program at Penn State Harrisburg or at another graduate-level institution may be applied to the M.B.A. or M.S.I.S. in accordance with the transfer policies of the Graduate School.

It is anticipated that most students in the concurrent programs will require additional graduate credits in order to satisfy the entry and pre-program requirements of the J.D. program administration. Nine credits of course work in pharmacology may be transferred toward the M.B.A. or M.S.I.S. Students must obtain a grade satisfactory to the program in order for the credits to be transferable. Nine credits of M.B.A. or M.S.I.S. course work may be transferred for credit toward the Ph.D. degree, subject to the approval of the department of pharmacology.

All students in the concurrent program have two advisers, one in the School of Business Administration and one from the faculty in the department of Pharmacology. Because the concurrent program is designed to be taken in synchrony with the objective that both degrees will be earned simultaneously, students who do not demonstrate progress toward completion of both degrees may be denied continuation in the concurrent program. Such a decision will rest jointly with the faculties of the M.B.A. or M.S.I.S. and the Ph.D. programs.
The Course Matrix

For more information and the latest updates on the concurrent programs, call the department of pharmacology at 717-531-8285 or visit the Web sites at:
http://www.hmc.psu/pharmacology_program.index.html
http://www.hbg.psu.edu

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., D.Ed., M.S., M.Ed.

The Graduate Faculty

- Alison A. Carr-Chellman, Ph.D. (Indiana) Professor of Education
- Roy B. Clariana, Ed.D. (Memphis) Professor of Education
- Simon R. Hooper, Ph.D. (Penn State) Associate Professor of Education
- Susan M. Land, Ph.D. (Florida State) Associate Professor of Education
- Doris Lee, Ph.D. (Texas) Professor of Education
- Orrin Murray, Ph.D. (Michigan) Assistant Professor of Education
- Kyle L. Peck, Ph.D. (Colorado) Professor of Education
- Priya Sharma, Ph.D. (Georgia) Associate Professor of Education
- Heather Zimmerman, Ph.D. (Washington) Assistant Professor of Education

This program provides advanced professional preparation in the development of effective, efficient instructional materials and the use of technology in educational settings. Skill and knowledge in the fields of educational psychology, instructional design, computer technologies, development of educational materials, and evaluation of educational outcomes combine to prepare graduates for a variety of roles and professional environments. Graduates are employed by corporate, agency, and military training departments; entrepreneurial consulting companies; public school districts; community college learning resource centers; and colleges and universities. The program offers an M.S. degree for students who will continue into the Ph.D. program and a career in higher education, and two options within the M.Ed., Instructional Systems Design and Educational Technology.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) (for master's or doctorate) or Miller Analogies Test (for master's), transcripts, letters of reference, application letter, and writing assignment are required for admission.

Master's Degree Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. For the M.S. degree, EDPSY 400 or its equivalent is prerequisite. M.Ed. and M.S. candidates are expected to complete the following courses: INSYS 415, INSYS 521, INSYS 522, INSYS 525 or INSYS 527, four INSYS emphasis courses, and 6 credits of professional orientation in Educational Psychology, Educational Leadership, Workforce Education and Development, and/or Adult Education. Other courses may be substituted with approval from the candidate's adviser. The Leadership in Technology Integration emphasis requires INSYS 471 instead of INSYS 521.

The M.S. degree requires: as core courses INSYS 415 and EDPSY 421; as required courses INSYS 575 or EDPSY 475, and 6 credits of INSYS 600/610; and a master's thesis.

The M.Ed. Instructional Systems Design option requires: as core courses INSYS 415, INSYS 521, INSYS 522, and INSYS 525; as required courses INSYS 527, and EDPSY 421; and a master's project paper, internship and paper, or design apprenticeship.

The M.Ed. with an Educational Technology option requires: as core courses INSYS 415 and EDPSY 421; as required courses AEE 521 or STAT 500; EDTEC 448, EDTEC 561, EDTEC 562; EDTEC 566 or EDTEC 566; and EDTEC 567; and a master's paper documenting the effectiveness of a technology-related intervention in an educational setting.

Doctoral Degree Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. In addition to those requirements for a master's degree, D.Ed. and Ph.D. candidates are expected to complete the following courses: EDPSY 421, two doctoral CORE courses (INSYS 581, INSYS 583, or INSYS 586), 12 credits of Instructional Systems emphasis courses, and a 15-credit minor or supporting field. The Ph.D. candidate is expected to complete four research design courses covering both quantitative and qualitative methods. The communication requirement must be satisfied by completing one course in applied statistics, and either one course in advanced statistics or one course in advanced qualitative data analysis. The Ph.D. candidate is also expected to complete a research apprenticeship working directly with a faculty member.

The D.Ed. candidate is expected to complete two research design courses, choosing from experimental, qualitative, or survey research design, and a 9- to 15-credit internship.

As part of the candidacy exam, candidates are required to prepare residency plans indicating how they will be professionally immersed during their residency period. This plan is then reviewed again prior to graduation.

Candidates for doctoral degrees in Learning, Design, and Technology must take a minimum of 15 credits approved in advance by the professor in charge of the Learning, Design, and Technology program.

Student Aid

A limited number of graduate assistantships are available to students in this program. These and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 699. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

814-863-7420; thb2@psu.edu

Edwin Rajotte, Co-Program Coordinator, Professor, Entomology
508 Agricultural Sciences and Industries Building
814-863-6461; egrajotte@psu.edu

Degrees Conferred

Students electing this degree program through participating programs will earn a degree with a dual-title at the Master’s or Ph.D. level. Students receive a degree that lists their major program and International Agriculture and Development (INTAD).

The International Agriculture and Development (INTAD) program is offered through the Departments of Agricultural and Extension Education, Agricultural Economics and Rural Sociology, and Entomology. The dual title degree enables qualified students from the CAS and other select programs at Penn State to combine their major degree with an internationally focused program of study to gain global competency skills and techniques for application of their discipline in a global environment.

The Graduate Faculty

David Abler, Ph.D. (Chicago) Professor of Agricultural, Environmental, and Regional Economics and Demography

Theodore R. Alter, Ph.D. (Michigan State) Professor of Agricultural, Environmental, and Regional Economics

Paul A. Backman, Ph.D. (California, Davis) Professor of Biological Control, Plant Diseases, Agrosecurity, and Sustainable Agriculture

Mark A. Brennan, Ph. D. (Penn State) Associate Professor of Leadership Development

Thomas H. Bruening, Ph.D. (Iowa State) Associate Professor of Agricultural and Extension Education

James G. Beierlein, Ph.D. (Purdue) Professor of Agricultural Economics

Alessandro Bonanno, Ph.D. (Connecticut) Assistant Professor of Agricultural Economics

Jill L. Finnemore, Ph.D. (Washington State) Distinguished Professor of Agricultural, Environmental and Regional Economics and Demography

James C. Finley, Ph.D. (Penn State) Professor of Forest Resources

Leland Glenna, Ph.D. (Missouri) Assistant Professor of Rural Sociology and Science, Technology and Society

Stephan J. Goetz, Ph.D. (Michigan State) Director of Northeast Regional Center for Rural Development, Professor of Agricultural and Regional Economics

Patrice D. Ingram, Ph. D. (Western Michigan) Professor of Agricultural and Extension Education

Michael G. Jacobson, Ph. D. (North Carolina State) Associate Professor of Forest Resources

Leif Jensen, Ph.D. (Wisconsin) Professor of Rural Sociology and Demography

Matt Kaplan, Ph.D. (CUNY) Professor of Agricultural and Extension Education

John Kelmelis, Ph. D. (Penn State) Professor, School of International Affairs

Flynt L. Leverett, Ph.D. (Princeton) Professor, School of International Affairs

Albert E. Luolff, Ph.D. (Penn State) Professor of Rural Sociology

James McCarthy, Ph. D. (California, Berkeley) Associate Professor of Geography

Anouk Pauwels-Campillo, Ph.D. (Cornell) Assistant Professor of Rural Sociology

Esther Prins, Ph.D. (Cornell) Assistant Professor of Adult Education

Edwin Rajotte, Ph.D. (Rutgers) Professor of Entomology and IPM Coordinator

Rama Radhakrishna, Ph.D. (Penn State) Professor of Agricultural and Extension Education

Carolyn E. Sachs, Ph. D. (Kentucky) Professor of Rural Sociology and Women's Studies, Head of Women's Studies Department

Denis Simon, Ph.D. (California, Berkeley) Professor, School of International Affairs

Ann R. Tickamyer, Ph.D. (North Carolina) Professor of Rural Sociology

Jack Watson, Ph.D. (Arizona) Professor of Soil Science

Karl S. Zimmerer, Ph.D. (California, Berkeley) Head of the Department; Professor of Geography, College of Earth and Mineral Sciences

The INTAD Graduate dual-title degree program is administered by the INTAD Academic Program Management Committee. The committee maintains the curricular, grading, and other academic policies of the dual-title program, and recommends changes to the Graduate School Academic Program Committee. The committee's composition changes biannually, and includes members from both the College of Agricultural Sciences and the College of Earth and Mineral Sciences, and the graduate program chairpersons of the participating programs.

Admission Requirements

To pursue the INTAD dual-title offering, a student must first apply to and be admitted to one of the participating graduate degree programs and the Graduate School at Penn State. Upon acceptance into the major program, the student can apply to the INTAD dual-title program. The student will submit an application to the INTAD Academic Program Committee. The application will include a written personal statement indicating the career goals they hope to accomplish by earning a dual-title degree.

Further information about the admissions process will be posted on agsci.psu.edu/international. Requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

To qualify for the INTAD dual-title degree, students must satisfy the requirements of the graduate program in which they are enrolled. In addition, they must satisfy the minimum requirements of the INTAD dual-title degree specified here.

Graduates of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

Master’s Degree:

Course Requirements

Students are required to complete a minimum of 12 INTAD course credits (400, 500, or 800) for a dual-title Master's degree. Nine credits will be from the core curriculum, which includes a 3-credit seminar course, the International Agricultural Development Seminar (INTAD 820), and two courses from the Departments of Agricultural Economics/Rural Sociology and Agricultural and Extension Education. The remaining three credits must be taken as internship or applied courses/independent studies with international development content.

Final course selection is determined by the students, their major program advisors and their INTAD advisors. Such advisors will discuss with the student a program of study that meets the student's career goals and that is in accord with the policies of the Graduate Council and the INTAD dual-title program. Some courses may satisfy both the major graduate program requirements and those of the INTAD dual-title program. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits...
Thesis
Students pursuing a Master of Science (M.S.) degree that requires a master's thesis, in addition to the 12 credits specified above, must write the thesis on a topic that reflects both the graduate program in their primary degree and the dual-title offering in INTAD. Thesis research credits (SUBJ 600) must be taken in the major program.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Ph.D. Degree:
Students admitted to the doctoral INTAD dual-title offering must exhibit high research competence, including ability to identify, conceptualize, and execute a significant research project that makes a significant addition to the body of knowledge in the field. Students also should be fluent in reading, writing, and speaking English.

Course Requirements
Students are required to complete a minimum of 18 INTAD credits for a dual-title Ph.D. degree. Nine credits will be from the core curriculum, which includes a 3-credit seminar course, the International Agricultural Development Seminar (INTAD 820), and two courses from the Departments of Agricultural Economics/Rural Sociology and Agricultural and Extension Education. The remaining 9 credits must be taken from among INTAD electives. In addition, they will be encouraged to pursue proficiency in a language other than English, as appropriate.

Final course selection is determined by the students, their major program advisors and their INTAD advisors. Such advisors will discuss with the student a program of study that meets the student’s career goals and that is in accord with the policies of the Graduate Council and the INTAD dual-title program. Some courses may satisfy both the major graduate program requirements and those of the INTAD dual-title program. The 18 required credits must be at the 500-level or above. Permission from a student’s academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. A student who is registered for at least nine credits is considered to be engaged in full-time academic work for the semester.

Candidacy
Candidacy procedures will be based on the procedures of the major department and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student’s advisor in consultation with the INTAD program coordinators.

Committee Composition
The doctoral committee of a Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both the Major Program and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official “outside member” also must be appointed to the committee.

Comprehensive Exam
At the end of their coursework, students must complete a comprehensive examination that follows the guidelines established by the primary program and reflecting both their primary program and the dual-title degree curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the exam and the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive evaluation.

Dissertation and Dissertation Defense
Doctoral students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both their primary program and the INTAD dual-title program. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Financial Aid
Graduate Assistantships and other forms of student aid are described in the Student Aid section of the Graduate Bulletin. A limited number of Research Assistantships are also available through the CAS.

Graduate courses carry numbers from 500 to 599 and 800 o 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but may do not meet requirements for an advanced degree.

Industrial Relations and Human Resources (IRHR)

Program Home Page

The Pennsylvania State University
PAUL F. CLARK, Head
133 Willard Building
814-865-5425

Degree Conferred:
M.S. in Industrial Relations and Human Resources

The Graduate Faculty
- Mark S. Anner, Ph.D. (Cornell) Assistant Professor of Labor Studies and Industrial Relations, and Political Science
- Forrest S. Briscoe, Ph.D. (MIT) Assistant Professor of Labor Studies and Industrial Relations
- Paul F. Clark, Ph.D. (Pittsburgh) Professor of Labor Studies and Industrial Relations
- Alex Colvin, Ph.D. (Cornell) Assistant Professor of Labor Studies and Industrial Relations
- Alan Derickson, Ph.D. (California, San Francisco) Professor of Labor Studies and Industrial Relations, and History
- Robert Drago, Ph.D. (Massachusetts, Amherst) Professor of Labor Studies and Industrial Relations, and Women’s Studies
- Ronald L. Filipelli, Ph.D. (Penn State) Professor of Labor Studies and Industrial Relations
- Dennis D. Gouran, Ph.D. (Iowa) Professor of Speech Communication and Labor Studies and Industrial Relations
- Sumita Raghuram, Ph.D. (Minnesota) Associate Professor of Labor Studies and Industrial Relations
- Jackie Krasas Rogers, Ph.D. (USC) Associate Professor of Labor Studies and Industrial Relations, Sociology, and Women’s Studies
- James B. Stewart, Ph.D. (Notre Dame) Professor of Labor Studies and Industrial Relations
- Mark Wardell, Ph.D. (Missouri) Associate Professor of Labor Studies and Industrial Relations

The master of science degree in Industrial Relations and Human Resources (IRHR) is a two-year program designed for students anticipating careers in some aspect of labor and human resources or labor-management relations. The program has the following objectives:

- provide students with an understanding of the roles employers, employees, employee organizations, and public policy makers play in the employment relationship;
- familiarize students with the complex personal and organizational issues inherent in the employment relationship;
- prepare students to systematically analyze complex issues and evaluate research results in the process of administering labor and human resource systems;
- prepare students for advanced graduate or professional training beyond the master's degree;
- prepare students for employment as practitioners in the field.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) or the Graduate Management Admission Test (GMAT) are required. Applicants with a 3.00 junior/senior grade-point average (on a 4.00 scale) will be considered for admission. Applicants must have three letters of recommendation sent from people who can assess adequately their likelihood of completing the graduate program.

Students are expected to have completed successfully an undergraduate statistics course plus a minimum of 12 undergraduate credits in the social sciences as part of their baccalaureate degree.

Degree Requirements

THESIS OPTION: The IRHR thesis option is intended for students anticipating additional graduate education beyond the master's degree. It requires 36 credits, including a minimum of 30 at the 400 and 500 level, and a minimum of 6 600-level thesis credits. For the degree, an overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's thesis should reflect the chosen emphasis.

RESEARCH PAPER OPTION: The IRHR research paper option is intended for students expecting to enter the labor market upon completion of the master's degree. It requires a minimum of 37 credits at the 400 and 500 level. For the degree, and overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's research paper should reflect the chosen emphasis.

Student Aid
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Course Requirements

Core Courses (22 credits)
IRHR 501, IRHR 502, IRHR 504, IRHR 505, IRHR 512, IRHR 513, IRHR 516
Required courses are offered once per academic year and elective courses at least once every two academic years.

Emphasis Courses (6 credits)
An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Students select an emphasis in consultation with their faculty's advisory committee.

Elective Courses (3-9 credits)
With the faculty advisor's approval, a student selects at least 3 or more elective credits, depending on the chosen option. Examples of suitable elective courses are: LIR 411, LIR 401, LIR 444, LIR 458Y; IRHR 500, IRHR 525, IRHR 536, IRHR 594, IRHR 595, IRHR 596, IRHR 597, IRHR 599; ECON 412, ECON 436, ECON 571; EDLDR 565, EDLDR 574; HIST (L R) 555; MGM 321, MGM 523, MGM 548; PSYCH 484, PSYCH 485, PSY 522; SOC 455, SOC 456, SOC 555.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

INTEGRAL SERVICES AND HUMAN RESOURCES (IRHR) course list

Integrated B.S. in Labor and Industrial Relations and M.S. in Industrial Relations and Human Resources (LRIRHR)

PROFESSOR PAUL F. CLARK, Head

The integrated B.S. in Labor and Industrial Relations and M.S. in Industrial Relations and Human Resources is a five-year program designed for academically talented baccalaureate students to obtain both the B.S. and the M.S. degrees in LIR and IRHR with five years of study. Students will develop expertise in the human resources and labor relations fields beyond the B.S. degree. The undergraduate curriculum educates students about (1) the roles of employers, employees, employee organizations and public policy makers play in the employment relationship; (2) the complex personal and organizational issues inherent in the employment relationship (3) and how to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides extensive research training in the industrial relations and human resources field. Students are expected to have completed successfully an undergraduate statistics course plus a minimum of 12 undergraduate credits in the social sciences as part of their baccalaureate degree.

The Pennsylvania State University
Bachelor of Science
Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

GENERAL EDUCATION: 45 credits
(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

FIRST-YEAR SEMINAR: (Included in ELECTIVES or GENERAL EDUCATION course selection)

UNITED STATES CULTURES AND INTERNATIONAL CULTURES: (Included in ELECTIVES or GENERAL EDUCATION course selection)

WRITING ACROSS THE CURRICULUM: (Included in REQUIREMENTS FOR THE MAJOR)

ELECTIVES: 18 credits

REQUIREMENTS FOR THE MAJOR: 98-99 credits
[12 credits may be double counted, 6 must be at the 500 level]

B.S. REQUIREMENTS: 62-63 credits
(This includes 10 credits of General Education courses)

COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 36-37 credits

PRESCRIBED COURSES: (16 credits)
(Some courses in this category have prerequisites that are not included in the major)
L I R 100 GS(3), L I R 312(4) (Sem: 3-8)
ECON 002 GS(3), ECON 315 GS(3), PSYCH 281 GS(3) (Sem: 1-8)

ADDITIONAL COURSES: (13 credits)
(Some courses in this category have prerequisites that are not included in the major)
L I R 201 GS(3) or L I R 401(3) (Sem: 3-8)
SCM 200(4) or STAT 200 GG(4) (Sem: 3-8)
L I R 136 US(3) or WMNST 136 GS(3) or L I R 400 IL(3) (Sem: 5-8)
L I R 458Y US(3) or HIST 458Y US(3) or L I R 414W(3) (Sem: 5-8)

SUPPORTING COURSES AND RELATED AREAS: (33-34 credits)
(L I R courses that are used in the Additional Courses category may not be double counted to satisfy this requirement. Some courses in this category have prerequisites that are not included in the major.)
Select 15-21 credits from appropriate L I R courses, at least 9 must be at the 400 level (only 3 credits of L I R 495 or 3 credits of L I R 496 may be used to satisfy this requirement) (Sem: 5-8)

Select 12-19 credits from the department list in consultation with an adviser, at least 6 credits must be at the 400 level, 3 each from 3 categories:

1. ECON 342 GS(3), ECON 370 GS(3), ECON 412(3), ECON 436(3), ECON 445(3) (Sem: 5-8)
2. MGMT 100(3), MGMT 321(3), MGMT 331(3), MGMT 341(3), MGMT 424(3) (Sem: 3-8)
4. PSYCH 482(3), PSYCH 484(3), PSYCH 485(3) (Sem: 5-8)
5. SOC 119 GS(3), SOC 409 US(3), SOC 444(3), SOC 454(3), SOC 456(3) (Sem: 3-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

M.S. REQUIREMENTS: 36 credits
[12 credits may be double counted, 6 must be at the 500 level]

PRESCRIBED COURSES: (21 credits)
IRHR 501(3), IRHR 502(3), IRHR 504(3), IRHR 505(3), IRHR 512(3)*, IRHR 513(3)*, IRHR 516(3)
*or other statistics course approved in advance by graduate director
**or other methods course approved in advance by graduate director

ADDITIONAL COURSES: (15 credits)
Select 15 credits from the following list in consultation with adviser (only 6 credits may be at the 400 level).

Emphasis Courses (6 credits)
An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Select 6 credits from the M.S. prescribed or additional courses in consultation with their adviser.

Masters Research Paper or a Masters Thesis (6 credits)
Students must complete either a Masters Research Paper or a Masters Thesis. Students choosing the Thesis option must complete 6 thesis credits (IRHR 600). These credits can be counted towards the 15 credits required from the M.S. Additional Courses section above.

INDUSTRIAL RELATIONS AND HUMAN RESOURCES (IRHR) course list
LABOR AND INDUSTRIAL RELATIONS (L I R) course list

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Integrated B.S. in Spanish and M.S. in Industrial Relations and Human Resources (SPIRHR)
http://lsir.la.psu.edu/gshms/integratedspanishirhrbsms.htm

The integrated Spanish B.S. and IRHR M.S. is a five-year program designed for highly qualified and motivated students seeking employment within a culturally diverse workplace. Students will develop basic skills in speaking, understanding, reading, and writing Spanish. Students will gain familiarity with Hispanic cultures through literature and the University’s international education program, if they choose to have that experience. Students also will learn about (1) the roles that employers, employees, employee organizations, and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, and (3) how to systematically analyze those complex issues and evaluate research relevant to those analyses.

For the B.S./M.S. degree in Integrated Spanish B.S. and Industrial Relations and Human Resources M.S., a minimum of 154 credits is required. Twelve graduate level credits can apply to both undergraduate and graduate degrees; six of these must be at the 500 level. Students can complete the B.S. in Spanish and not advance to the M.S. IRHR degree if they desire.

Bachelor of Science
Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

GENERAL EDUCATION: 45 credits
(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)
FIRST-YEAR SEMINAR:
(Included in ELECTIVES or GENERAL EDUCATION course selection)

UNITED STATES CULTURES AND INTERNATIONAL CULTURES:
(Included in ELECTIVES or GENERAL EDUCATION course selection)

WRITING ACROSS THE CURRICULUM:
(Included in REQUIREMENTS FOR THE MAJOR)

ELECTIVES: 18 credits

REQUIREMENTS FOR THE MAJOR: 101 credits
(This includes 10 credits of General Education courses: 6 credits of GS courses; 4 credits of GQ courses.)

PRESCRIBED COURSES: (27 credits)
[Some courses in this category have prerequisites that are not included in the major]
SPAN 100(3), SPAN 120(3), SPAN 200(3), SPAN 253(3), SPAN 305(3) (Sem: 1-6)
SPAN 300W(3), SPAN 410(3), SPAN 412(3), SPAN 414(3) (Sem: 5-8)

- John P. Laplante, Ph.D. (Penn State) Associate Professor of Software Engineering
- John I. McCool, Ph.D. (Temple) Distinguished Professor of Systems Engineering
- Colin Neil, Ph.D. (Wales, United Kingdom) Associate Professor of Software Engineering
- John R. Washington, Division Head and Professor of Mechanical Engineering
- Michael J. Piovoso, Ph.D. (Delaware) Professor of Electrical Engineering
- Robin G. Qiu, Ph.D. (Penn State) Associate Professor of Information Science
- David W. Rusie, Ph.D. (Council for National Academic Awards, United Kingdom) Professor of Electrical Engineering
- Raghvinder S. Sangwan, Ph.D. (Temple) Associate Professor of Information Science
- Kalaisamy Satyamurthy, Ph.D. (Clemson) Assistant Professor of Information Science

Program Description

The Master of Science in Information Sciences and Technology is an interdisciplinary degree program that focuses on the theoretical, application-oriented, and educational issues facing a digital, global economy. The program is designed to build an understanding of how information and technology fundamentally impact (and are impacted by) people, organizations, and the world community. Topical areas within IST span a broad range including: human-computer interaction, computational techniques, applications (e.g., bio-informatics and geospatial information systems), societal issues (such as digital divide issues), user issues (e.g., computer-aided cognition), and information systems design and development providing exposure and grounding in many of the aspects of the information sciences. The program is especially attractive to students interested in gaining state-of-the-art understanding of information technology and its use as a solution in multiple venues.

The Master of Professional Studies in Information Sciences (also referred to as Master in Information Sciences as an abbreviated program name) is an innovative program that targets professionals and organizational leaders who wish to seek a professional education and training program that can (1) empower them to assume greater responsibilities related to information sciences and information technologies, and/or (2) assist them in transitioning into a career that aligns with career science and information technology challenges. The purpose of the proposed professional master program is to produce professionals and organizational leaders who not only can select and draw upon the necessary foundations within the information sciences and information technology areas, test the applicability of these foundations for addressing a given issue, and apply results to the world of technological trends and environmental factors that organizations must address in the changing global economy.

Admission Requirements

Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants are required to submit scores from the general portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT), three letters of reference, and a one-three page personal statement of relevant experience and goal. In addition, Ph.D. and M.S. program applicants must submit a current resume, a statement of research interests, and a sample of applicant’s writing (e.g., technical paper, etc.). The GRE or GMAT requirement may be waived for applicants to the Professional Master Program if the student has five or more years of relevant information science and technology working experience.

Because the program is multidisciplinary in nature, students from many different disciplines may be acceptable for entry into the program. A bachelor’s degree in (e.g., engineering and science), while not necessary for admission, is helpful in the successful completion of the degree. It is expected that students will have a basic level of competency in statistics as well as computer and information technology (related work experience can be used to demonstrate such competency). A student may be accepted into the program with "provisional status" for no more than one year while work is completed to meet these expectations.

It is expected that the successful applicant will have an overall grade point average of 3.00 (on a 4.00 scale) or higher for his or her undergraduate study (and/or graduate-level study). However, accomplishments demonstrated through work experience and recommendation letters from the applicant’s academic adviser or employer will also play an important role in making the admission decision. The most qualified applicants will be accepted into the program until all spaces for new students are filled.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 22 may be considered for provisional admission, whereas completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

Doctoral Degree Requirements

The doctoral degree requirements include the general requirements of the Graduate Council as listed under the Doctoral Degree Requirements. To complete a Ph.D. degree, students must in their first semester take the 6-credit introduction to interdisciplinary research methods (IST 501), one of the three foundations courses (IST 510, IST 520, IST 530), and one credit of graduate colloquium (IST 590). In their second semester, students must take the remaining two foundations courses and a second credit of graduate colloquium. In addition to these first-year requirements, doctoral students must complete 12 credits of research methodology courses selected to introduce or amplify methods relevant to their doctoral research agenda, and 12 credits of specialization courses, also selected to reinforce their research training.

In addition, all candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both verbally and in writing commensurate with the requirement of scholarly and professional work. The candidacy examination will be used as an occasion to assess English proficiency and plan for remediation (including additional courses, mentoring, or experiences) for all students. A brief critical literature review in three
complementary research areas will be included as part of the candidacy assessment process. The foreign language and communication requirement may be fulfilled through company assignment (assessed through courses taken) or a minimum of 9 credits of 500-level statistics courses. Students must have completed 18 graduate credits before taking the candidacy exam and must complete the candidacy exam within three semesters. Students must pass the Ph.D. comprehensive examination after completion of most of the course work, usually at the end of the student's second year in the program. A research-based dissertation must be completed under the direction of the Ph.D. committee, with the student submitting a dissertation proposal and defending that proposal in the defense examination.

General guidance of a doctoral candidate is the responsibility of a doctoral committee consisting of four or more active members of the Graduate Faculty, which includes at least two faculty members in the major field. The dissertation adviser must be a member of the doctoral committee. The dissertation adviser usually serves as chair, but this is not required. If the candidate is also pursuing a dual-title field of study, a co-chair representing the dual-title field must be appointed.

At least one regular member of the doctoral committee must represent a field outside the candidate's major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the "Outside Field Member." In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Additionally, in order to avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation adviser's primary appointment is held (i.e., the adviser's administrative home; in the case of tenure-line faculty, this is the individual's tenure home). This committee member is referred to as the "Outside Unit Member." In the case of co-advisers, the Outside Unit Member must be from outside the administrative home(s) of both co-advisers. In some cases, an individual may have a primary appointment outside the administrative home of the student's dissertation adviser and also represent a field outside the student's major field of study; in such cases, the same individual may serve as both the Outside Field Member and the Outside Unit Member.

M.S. Degree Requirements

The M.S. in Information Sciences and Technology requires a minimum of 30 credits at the 400 level or above, with at least 18 credits at the 500 level or above; 27 of the 30 credits must be earned at University Park. These credits are distributed among the following requirements:

**Core Courses (9 credits)**. All candidates are expected to develop a broad understanding of the core constructs of people, information, technology, and the significant interactions among those elements by choosing 3 from the following: IST 501, IST 511 or IST 512, IST 521 or IST 522, IST 531 or IST 532.

**Specialization Courses (12-15 credits)**. In consultation with his/her advisor, a candidate is expected to choose courses in one or more areas customized to support the thesis or project requirement. In addition to advanced courses in IST, a support area could be in law, business, education, engineering, the liberal arts, science, or any area that is linked to the information sciences. Students pursuing the thesis option must take 12 credits of specialization courses; those pursuing the project option must take 15 credits.

**Research Methods (3 credits)**. All candidates must develop a basic understanding of the research methods utilized in the information sciences, by taking at least one research methods course offered in IST or elsewhere. The focus of the course must be on the methods being learned rather than application of some method to a research topic.

**Thesis or Project (3-6 credits)**. Students may choose a thesis or project option. Students who choose the thesis option must write a thesis and register for 6 credits of IST 500. The thesis should focus on a well-defined problem relevant to the information sciences. Students who choose the project option must complete a project and register for 3 credits of IST 594. The project is to be a focused piece of technical work that applies the student's expertise and knowledge base, and that is documented and presented as a research paper. The student must present the thesis or project in a public presentation and successfully defend the thesis/project to the adviser and committee.

**Language and Communication**. All candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both orally and in writing commensurate with the requirement of professional work. The foreign language and communication requirement may be fulfilled through demonstrating computer language proficiency (assessed through courses taken).

M.P.S. Degree Requirements

The Master of Professional Studies degree in Information Sciences program requires a minimum of 33 credits, 24 of which must be earned at Penn State. Up to 9 graduate credits may be transferred in from an accredited institution (as is permissible by the Graduate School). At least 18 credits must be courses at the 500 level and above. A student will first take 9-credits of core courses. The student will then take 12 credits of prescribed courses for the base program or the Information Assurance and Decision Support (IADS) Option. The remaining 9 course credits of electives are chosen in consultation with the student's advisor. Lastly, the student must complete a master project guided by the student's adviser. A student can choose to be in the Base Program or in the IADS Option. These credits are distributed among the following requirements:

**Core Courses (9 credits)**. The core of the Master in Information Sciences program consists of four courses -- IST 552 (or INF SY 540), IST 554, IST 562, and IST 594 -- for a total of 12 credits. These courses represent the core technical foundations to study Information Sciences and Technology.

**The Base Program (12 credits of prescribed courses and 9 credits of electives)**. The base program consists of four prescribed (required) courses, IST 516, IST 521 (or IST 522), IST 532 (or IST 531) and IST 564 and 9 credits of elective courses, in addition to the 9-credit core and three-credit capstone course. It is designed for students who do not have a special interest in mind. The elective courses are chosen in consultation with the student's advisor. Hence, it offers the flexibility that enables the student to build an in-depth knowledge and skills about information sciences tailored to his/her interests and background. Students from Harrisburg region can also select courses from Harrisburg Campus to fulfill the prescribed courses (by substitution) and 9 credits of electives.

**Information Assurance and Decision Support (IADS) Option (12 credits of prescribed courses and 9 credits of electives)**. The IADS option consists of four prescribed (required) courses, IST 515, IST 555, IST/STAT 557, and IST 885, and 9 credits of elective courses, in addition to the 9-credit core and three-credit capstone course. These courses enable the student to focus on developing knowledge and skills for information analysis, information assurance and decision support including theories, techniques, and applications of data mining, data fusion, information search, information security, and intelligent resource allocation. Students who prefer more flexibility in time and location can take the online courses, offered through World Campus as meeting elective requirements.

**Master Project (3 credits)**. The project requires all students in the Master in Information Sciences program to focus on a well-defined issue or problem relevant to the information sciences and technology. The student will submit a project proposal to his/her faculty advisor for approval. Upon completion of the project, the student will share or present the project results at a final presentation as a component of IST 594.

**Language and Communication**. All candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both orally and in writing commensurate with the requirement of professional work. The foreign language and communication requirement may be fulfilled through demonstrating computer language proficiency (assessed through courses taken).

**Courses**

Graduate courses carry numbers from 500 to 699 or 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- George F. Salvaterra, Ph.D. (Penn State) Affiliate Assistant Professor of Kinesiology
- Wayne J. Sebastianelli, M.D. (Rochester) Professor of Orthopaedics and Rehabilitation
- Neil A. Sharkey, Ph.D. (California, Davis) Professor of Kinesiology
- Semyon M. Slobounov, Ph.D. (Illinois) Professor of Kinesiology
- Kenneth L. Swaigen, Ph.D. (Ohio) Assistant Professor of Kinesiology
- Richard L. Tutwiler, Ph.D. (Penn State) Affiliate Associate Professor of Kinesiology
- Nancy J. Williams, Sc.D. (Boston U) Professor of Kinesiology
- Karl M. Newell, Ph.D. (North Texas State) Affiliate Associate Professor of Exercise and Sport Science
- Vladimir M. Zatsiorsky, Ph.D. (Central Institute of Physical Culture, Moscow) Professor of Kinesiology

The graduate programs in Kinesiology are research oriented and are designed to meet the specific goals and interests of the student. The primary goal of the overall program is to provide students the opportunity to study in depth one area of specialization and to develop necessary research skills to enhance their professional competence. The master's program is designed to prepare students for future graduate study, while the doctoral program is directed toward careers in research and in teaching at the advanced undergraduate and graduate levels in colleges and universities. Six areas of study are available at both the master's and doctoral levels: (1) athletic training and sports medicine, (2) biomechanics, (3) exercise physiology, (4) history and philosophy of sport, (5) motor control, and (6) psychology of movement and sport. Several well-equipped research facilities are available to support graduate study, including the Biomechanics Laboratory, Motor Behavior Laboratory, and Noll Physiological Research Center.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Scores from the Graduate Record Examinations (GRE) are required for admission. The minimum requirements for admission to the master's program include a 3.00 junior/senior grade-point average (on a 4.00 scale), satisfactory recommendations, a total of 1000 or higher on the verbal and quantitative sections of the GRE, and appropriate background courses in physical, biological, behavioral, and/or social science, depending on the intended area of specialization. Candidates from majors other than exercise and sport science/physical education are welcome to apply. In addition, doctoral applicants are expected to meet more stringent admission standards, including documented research capabilities (e.g., from an M.S. degree). Experience is highly desirable. Admission is highly competitive and the best-qualified students will be admitted subject to space availability and compatibility of the student with the department's research mission.

Master's Degree Requirements

All master's candidates are required to complete a research methods course and an acceptable statistics course; show proficiency in the English language; and write a thesis. In addition, each specialization may require specific courses. All specializations require a minimum of 30 credits.

Doctoral Degree Requirements

A program to meet the individual needs of each student is planned with the adviser in consultation with the doctoral committee members. Students should elect at least 15 credits from courses within the department and at least 6 credits from courses outside the department. It is expected that the depth of knowledge in each area of study comes from independent study and research experiences, in addition to the dissertation, which are under the direction of the faculty. Specific required courses include the Colloquium and Proseminar.

Student Aid

Graduate assistantships that are available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

M.S.

Graduate Faculty

- Timothy K. Cooper, D.V.M. (Illinois), Ph.D. (Johns Hopkins), Assistant Professor of Comparative Medicine and Pathology
- Xuwen Peng, D.V.M. (Huazhong Agricultural U), Ph.D. (Penn State) Associate Professor of Comparative Medicine
- Ronald P. Wilson, V.M.D. (Pennsylvania), M.S. (Penn State) Professor and Chair of Comparative Medicine

All students entering the program must have completed a professional degree program in veterinary medicine and must hold the degree of D.V.M., V.M.D., or equivalent. This program is only offered at the Penn State College of Medicine, Milton S. Hershey Medical Center.

The Department of Comparative Medicine is a basic science, academic department of the College of Medicine. It is concerned with the range of variation of normal and abnormal structure, function, and behavior in a variety of species of animals used for teaching, testing, and research. Its faculty, staff, and students work in a multidisciplinary and collaborative fashion with all other departments in the college to advance the research mission.

Graduate study in laboratory animal medicine consists of advanced training in biology, medicine and methodology pertinent to animal-based research, and the development of scholarship and research capabilities within the specialty. The general plan is one that provides a broad, basic foundation upon which the individual can build a career in teaching and research and/or in the professional direction of research animal facilities. To earn the Master's degree, each student must complete at least 30 credits of coursework at the 500 or 600 levels.

The curriculum of this training program includes:

First Year:

COMPARATIVE MEDICINE (C MED)
501. Biology and Care of Laboratory Animals (3)
503. Laboratory Animal Genetics (3)
507. Techniques of Laboratory Animal Experimentation (3)
515. Experimental Surgery of Laboratory Animals (3)
530. Diseases of Laboratory Animals I (3)
531. Diseases of Laboratory Animals II (3)
535. Comparative Pathology (3)
590. Colloquium (1 credit per semester)
596. Independent Studies (1-3)
600. Research project for M.S. thesis (6-9)

BIOMEDICAL SCIENCES (BMS)
591. Ethics in the Life Sciences (1)

*Courses offered every other year on an alternating basis; thus students entering program on even numbered years will take during second year.

Second Year:

COMPARATIVE MEDICINE (C MED)
590. Colloquium (1 credit/semester)
596. Independent Studies (up to 9 credits) for non-thesis option
600. Research project for M.S. thesis (6-9)

Students may, with the approval of the Program Director, enroll in graduate level courses offered at the Penn State College of Medicine, Penn State Harrisburg, University Park, or Penn State’s World Campus.

Thesis Research: The submission and defense of a thesis based on an original hypothesis-driven research project is required. A minimum of 9 credits of thesis research (CMED 600) are required (a maximum of 6 credits may receive a quality grade).

Non-thesis Option: A non-thesis option may be elected by the student but must be approved in writing by the Program Director. A scholarly paper on a topic relevant to the fields of laboratory animal medicine or laboratory animal science must be written and presented. Up to 9 credits of independent study (CMED 596) may be earned for this work.

Last Revised by the Department: Spring Semester 2012

Blue Sheet Item #: 40-07-022
Review Date: 06/12/2012

The Pennsylvania State University
Degrees Conferred

Students electing this degree program through participating programs earn a degree with a dual-title at the Ph.D. level, i.e., Ph.D. in (graduate program name) and Language Science.

The following graduate programs offer dual degrees in Language Science: German and Psychology.

The Graduate Faculty

Marc Authier (University of Southern California) Associate Professor of French and Linguistics
*Philip Baldi (University of Rochester), Professor of Linguistics and Classics
*Paola Dussias (University of Arizona) Associate Professor of Spanish, Psychology and Linguistics
*Henry Gerfen (University of Arizona) Associate Professor of Spanish and Linguistics
*Carrin Jackson (University of Wisconsin) Assistant Professor of German and Linguistics
*Judith Kroll (Brandeis University) Distinguished Professor of Psychology, Linguistics, and Women's Studies
*Ping Li (Leiden University) Professor of Psychology and Linguistics
*John Lipski (University of Alberta) Edwin Erle Sparks Professor of Spanish and Linguistics
*Elina Mainela-Arnold (University of Wisconsin) Assistant Professor of Communication Sciences and Disorders and Linguistics
*Carol A. Miller (University of Pennsylvania) Associate Professor of Communication Sciences and Disorders and Linguistics
*Maya Misra (Tufts University) Assistant Professor of Communication Sciences and Disorders and Linguistics
*B. Richard Page (University of Wisconsin) Associate Professor of German and Linguistics
Lisa Reeder-Mudditt (University of Ottawa) Associate Professor of French and Linguistics
Aaron Rubin (Harvard University) Assistant Professor of Classics and Ancient Mediterranean Studies, Jewish Studies and Linguistics
Gonzalo Rubio (Johns Hopkins), Associate Professor of Classics and Ancient Mediterranean Studies and Linguistics
*Nuria Sagarra (University of Illinois) Assistant Professor of Spanish Linguistics and Applied Linguistics
*Robert Schrauf (Case Western Reserve University), Associate Professor of Applied Linguistics
*Susan Strauss (University of California Los Angeles), Associate Professor of Applied Linguistics and Asian Studies
*Janet van Heij (University of Amsterdam) Visiting Professor of Psychology and Linguistics
*Daniel Weiss (Harvard University) Assistant Professor of Psychology and Linguistics

* Member of Center for Language Science

Program Objectives of the Dual-Title Degree in Language Science

A dual-title degree program in participating programs and Language Science will prepare students to combine the theoretical and methodological approaches of several disciplines in order to contribute to research in the rapidly growing area of Language Science. This inherently interdisciplinary field draws on linguistics, psychology, speech-language pathology, and cognitive neuroscience, as well as other disciplines, to address both basic and applied research questions in such areas as first and second language acquisition, developmental and acquired language disorders, literacy, and language pedagogy. Dual-title degree students will receive interdisciplinary training that will enable them to communicate and collaborate productively with a wide range of colleagues across traditional discipline boundaries. Such training will open up new employment opportunities for students and give them the tools to foster a thriving interdisciplinary culture in their own future students. The dual-title program will facilitate the formation of a cross-disciplinary network of peers for participating students as part of their professional development.

The dual-title degree program will not duplicate other degree programs in the University.

Admission Requirements

To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through one of the participating graduate degree programs (see Appendix E for admissions requirements of potential participating programs). Upon admission to one of the above programs and with a recommendation from a Language Science program faculty member in that department, the student’s application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Doctoral Degree Requirements

The dual-title Ph.D. degree in Language Science will have the following requirements.

Course work (21 credits of 500-level courses)
6 credits, Proseminar in the Language Science of Bilingualism (LING 521), Proseminar in Professional Issues in Language Science (LING 522)
3 credits, Research methods/statistics in Language Science (such as LING 525, PSY 507, PSY 508)
3 credits in theoretical linguistics (students will choose between LING 500 or LING 504)
3 credits, Cognitive Neuroscience or Psycholinguistics (such as PSY/LING 520, PSY 511)
6 credits, Research internships (students will choose one course among the following: CS&D 596, GER 596, LING 596, PSY 596, SPAN 596)

Language Science Research Meetings

Students must participate in weekly Language Science Research meetings each semester in residence.

Foreign Language and English Competency Requirements

The student will fulfill the language requirement specified by the participating department through which the student is admitted to the dual-title degree program.

Candidacy Examination

In order to be admitted to doctoral candidacy in the dual-title degree program, students will take a candidacy examination that is administered by the primary program. However, the dual-title degree student may require an additional semester or more to fulfill requirements for the primary program and dual-title program; therefore, the candidacy examination may be delayed. In addition, the student will be required to present a portfolio of work in Language Science to their committee. Such a portfolio would include a statement of the student's interdisciplinary research interests, a plan of future study, and samples of writing that indicate the student’s work in Language Science. The candidacy examination committee will be composed of faculty from the primary program, as well as at least one faculty member affiliated with Language Science. The designated Language Science faculty member may be appointed in the student’s primary program, but he or she may also hold a formal appointment with Linguistics. The Language Science member will participate in constructing and grading candidacy examination questions in the area of Language Science.

Doctoral Committee Composition

Graduate Bulletin Archive - 2013
A doctoral committee consisting of at least four members of the Graduate Faculty must be appointed and will include a representative of the Language Science dual-title program. In addition, an official “outside member” must be appointed as one of the four members. The student’s doctoral committee will include faculty from the primary program as well as faculty from Language Science. Faculty members who hold appointments in both the primary program and Language Science may serve in a combined role.

Comprehensive Examination
The student's doctoral committee will include faculty from the primary program as well as faculty from Language Science. Faculty members who hold appointments in both the primary program and Language Science may serve in a combined role. The Language Science representative(s) will help to insure that the field of Language Science is integrated into the comprehensive examination.

Dissertation

Linguistics Minor
The doctoral minor provides interested students with an opportunity to complete a program of scientific study focused on the nature, structure, and use of human language. The minor is designed to cover the foundations of the discipline of linguistics by reviewing fundamental core areas such as phonology and syntax. Course work is also available in many additional areas of linguistics such as semantics, morphology, language variation, historical linguistics, and discourse analysis.

The minor requires a minimum of 15 credits, 6 of which must be at the 500 level. Nine credits are prescribed in syntax (LING 402), phonology (LING 404), and a general introduction to linguistics (LING 401), although a linguistics course at the 500 level may be substituted for LING 401 with the approval of the director of the program in Linguistics.

Student Aid
Most students will be funded through their primary departments, and will be considered for graduate assistantships according to the procedures of those departments. The Center for Language Science currently has two graduate assistantships for which dual-title degree students will be eligible.

Degree Conferred:
- M.L.A., M.S., M.S. Dual-title Degree with Human Dimensions of Natural Resources and the Environment (HDNRE)

The Graduate Faculty
- Peter J. Aeschbacher, M.Arch., M.U.P. (UCLA) Associate Professor of Landscape Architecture
- C. Timothy Baird, M.L.A. (Pennsylvania) Associate Professor of Landscape Architecture
- Maillika Bose, Ph.D. (Wisconsin) Associate Professor of Landscape Architecture
- Sean Burkholder, M.L.A. (Harvard), Assistant Professor of Landscape Architecture
- C. Andrew Cole, Ph.D. (Southern Illinois) Associate Professor of Landscape Architecture and Ecology
- Stuart Echols, Ph.D. (Virginia Tech) Associate Professor of Landscape Architecture
- Kelleyann Foster, M.L.A. (Massachusetts) Associate Professor of Landscape Architecture
- Larry Gorenflo, Ph.D. (UCSB) Associate Professor of Landscape Architecture
- Ronald E. Henderson, M.L.A. (Pennsylvania) Professor of Landscape Architecture and Asian Studies; Chair in Integrative Design
- Timothy P. Johnson, M.L.A. (Ohio State) Associate Professor of Landscape Architecture
- Gary B. Kesler, M.L.A (Harvard), Associate Dean Undergraduate Studies, College of Arts and Architecture and Associate Professor of Landscape Architecture
- Barry W. Kew, M.L.A. (Virginia) Assistant Professor of Landscape Architecture
- Neil P. Korostoff, M.L.A. (Pennsylvania) Associate Professor of Landscape Architecture
- Timothy M. Murtha, Ph.D. (Penn State) Associate Professor of Landscape Architecture
- Brian A. Orland, M.L.A. (Arizona), Professor of Landscape Architecture
- M. Eliza Pennypacker, M.L.A. (Virginia) Professor of Landscape Architecture
- Cecilia Rusnak, M.A. (Iowa) Associate Professor of Landscape Architecture
- Boni Szczygiel, M.L.A. (Penn State) Associate Professor of Landscape Architecture
- Ken Tammenga, M.P.L. (Queen's) Professor of Landscape Architecture
- Thomas C. Yahner, M.L.A. (Penn State) Associate Professor of Landscape Architecture

M.L.A. in Landscape Architecture (Professional Degree)
The M.L.A. in Landscape Architecture program is an accredited professional degree program focused on preparation to practice landscape architecture for students who hold a bachelor's degree in another field.

M.S. in Landscape Architecture (Research Degree)
The M.S. in Landscape Architecture program is a research focused degree program designed to offer students graduate level research inquiry into landscape architecture for students who hold a bachelor's degree.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted to the program, applicants must be able to meet the following requirements:
- For admission to the M.L.A. in Landscape Architecture applicants must have completed a bachelor's degree from any discipline prior to entry into the M.L.A. program.
- For admission to the M.S. in Landscape Architecture, applicants must have completed a bachelor's degree in Landscape Architecture or a closely related discipline (e.g., geography, ecology, and anthropology).

All submissions for admission must include:
1. A graduate school application; applicants must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.
2. Evidence of creativity (portfolio or other), evidence of analytical ability (research paper or other), and an essay explaining why the individual seeks to study landscape architecture at Penn State
3. Official undergraduate transcript
4. GRE scores
5. TOEFL scores (see below)
6. 3 letters of recommendation

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination, are required for admission. At the discretion of the program, a student may be admitted provisionally for graduate study without these scores.

Students with a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 on the paper-based test or a total score of 100 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

M.L.A. in Landscape Architecture Degree Requirements
The M.L.A. in Landscape Architecture curriculum requires completion of 49 credits of graduate work at the 400-level and above, including a minimum of 44 credits at the 500-level and above. In addition, to fulfill the requirements of professional accreditation, students must undertake 34 credits of prerequisite classes.

Requirements for professional accreditation:

**LANDSCAPE ARCHITECTURE (LARCH)**
- 251. Design Visualization and Graphics I (3)
- 241. Vegetation Ecology and Landscape Design (3)
- 246. History of Landscape Architecture (3)
- 205. History of Landscape Architecture (3)
- 256. History of Landscape Architecture (3)
- 231. Introduction to Design Implementation (3)
- 241. Vegetation Ecology and Landscape Design (3)
- 251. Design Visualization and Graphics I (3)

The Pennsylvania State University
The Pennsylvania State University

Graduate Bulletin Archive - 2013 2012 - 2013

272. Landscape Architecture Field Trip (1)
331. Landscape Architectural Design Implementation III (3)
332. Landscape Architectural Design Implementation II (3)
341. Plants, People and Place: Plants in Landscape Architectural Design (3)
361W. Historic Issues in Landscape Architecture (3)
382. Professional Practice (3)
431. Landscape Architectural Design Implementation I (3)

Core Requirements for the Graduate Degree:

LANDSCAPE ARCHITECTURE (LARCH)
414. Design and Theory V: Advanced Landscape Architectural Design (10)
502. Intellectual History and Theory of Landscape Architecture (3)
510. Graduate Seminar in Landscape Architecture (3)
515. Design and Theory I - Introduction (5)
520. Design and Theory II (5)
530. Design and Theory III (5)
540. Design and Theory IV (5)
550. Graduate Studio IV (7)
590. Colloquium (6)

M.S. in Landscape Architecture Degree Requirements

The core curriculum is a two-year research-focused 40-credit minimum program including a minimum of 18 credits at the 500-level and above. Students are required to take graduate level coursework, including graduate seminars (12 credits), graduate colloquium (4 credits), research design (3 credits), and a course in quantitative/qualitative analysis (3 credits minimum). Students must also complete a M.S. thesis.

Core graduate requirements:

LANDSCAPE ARCHITECTURE (LARCH)
501. Research Writing in Landscape Architecture (3)
502. Intellectual History and Theory of Landscape Architecture (3)
510. Graduate Seminar (12)
590. Graduate Colloquium (4)
600. Thesis Research (1-15)

The student and the student's adviser, subject to the approval of the departmental Graduate Program Committee, determine specific course requirements.

Option 1: M.S. in Landscape Architecture (Community and Urban Design)

The Community and Urban Design (CUD) Option provides students with in-depth inquiry into the theory and practice of community-based and urban design that responds to trends related to urban growth and change, the rise of the non-profit sector in community governance, and poverty and environmental degradation in urbanized and urbanizing areas. The intent of the CUD Option is to introduce students to theory, methods, and research surrounding specific topics in CUD. Students undertake hands-on design work and research as well as coursework in methods and computer applications, planning and policy, and ethics and society.

The CUD Option offers a topical curricular "track" within the M.S. in Landscape Architecture program. The core degree requirements for the CUD Option are the same as for the M.S.: 40 credits, comprising seminars, electives, design, and research, but focuses student core seminars and methods on CUD specific courses. Twenty-four credits of the following coursework must be completed for the CUD option:

- Depth and Hands-on Experience in Design and Research Inquiry
- 3 credits in Methods and Computer Applications
- 3 credits in Community and Urban Design in Planning
- 3 credits in Ethics and Society

Additional CUD-oriented breadth electives are recommended, but optional, within the remaining elective credits required in the M.S. in Landscape Architecture.

Students are expected to complete the requirements of the M.S. in Landscape Architecture with CUD option in four semesters.

Option 2: M.S. in Landscape Architecture (Watershed Stewardship)

The pedagogic foundation of the Graduate Option in Watershed Stewardship is the integration of depth, breadth, and experience for each student. From their undergraduate background students will bring a focus which will be enhanced via graduate level coursework in their field. They will also be required to take graduate courses in watershed-related disciplines outside of their own major. Students must complete a minimum of 2 credits of FOR 591A and FOR 591B Watershed Stewardship Graduate Seminar sections focused on watershed stewardship in their first year, and at least 8 credits of FOR 570 and FOR 571 Watershed Stewardship sections for the Keystone Project during their second year.

Students in the Graduate Option in Watershed Stewardship will be required to take a minimum of 9 credits of elective course work to ensure breadth of training in essential watershed stewardship subjects. Three credits of 400- or 500-level course work will be required from each of the following three subject categories: (1) Water Resources Sciences, (2) Social Science, Public Policy, or Economics, and (3) Humanities.

Dual-Titled Graduate Degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment

Graduate students with research and educational interests in landscape architecture or a closely related discipline (e.g., architecture, geography, ecology, anthropology, etc.) may apply to the M.S. degree in Landscape Architecture/Human Dimensions of Natural Resources and the Environment Program. The goal of the dual-title degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment program is to enable graduate students to understand the knowledge and skills of their major area of specialization in Landscape Architecture, while at the same time gaining the perspective and methods of Human Dimensions of Natural Resources and the Environment.

This dual-title graduate degree program does not duplicate any other degree program at the University.

Admission Requirements

For admission to the dual-title degree under this program, a student must first apply and be admitted to Penn State’s Graduate School as well as to the Landscape Architecture graduate program (M.S. degree in Landscape Architecture). Once accepted into the Landscape Architecture program, the student can apply to the Admissions Committee of Human Dimensions of Natural Resources and the Environment. The Human Dimensions of Natural Resources and the Environment admissions committee reviews applications and recommends students for admission to the dual-title degree program to The Graduate School.

In addition to the admission requirements for the Landscape Architecture M.S. degree program, the Human Dimensions of Natural Resources and the Environment program also requires a minimum baccalaureate Jr/Sr grade-point average of 3.0 on a 4.0 scale.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the Landscape Architecture program in which they are primarily enrolled. In
addition, they must satisfy the requirements described below, as established by the Human Dimensions of Natural Resources and the Environment committee. Within this framework, final course selection is determined by the student, the Human Dimensions of Natural Resources and the Environment adviser, and the Landscape Architecture program adviser.

Upon a student’s acceptance by the Human Dimensions of Natural Resources and the Environment admissions committee, the student will be assigned a Human Dimensions of Natural Resources and the Environment academic adviser in consultation with the Human Dimensions of Natural Resources and the Environment chair. As students develop specific scholarly interests, they may request that a different Human Dimensions of Natural Resources and the Environment faculty member serve as their adviser. The student and adviser will discuss a program of study that is appropriate for the student’s professional objectives and that is in accord with the policies of The Graduate School, the Landscape Architecture program and the Human Dimensions of Natural Resources and the Environment Program.

Requirements for Landscape Architecture and Human Dimensions of Natural Resources and the Environment

Master’s degree

The Master of Science degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment is awarded only to students who are admitted to the Landscape Architecture Master of Science degree program and then admitted to the dual-title degree in Human Dimensions of Natural Resources and the Environment.

The HDNRE program requires:

A candidate for the dual-title intercollege M.S. in HDNRE must complete 17 credit hours of HDNRE coursework beyond the bachelor’s degree in addition to curricular requirements for the masters’ degree in the student’s primary program. The HDNRE requirement includes four common courses in the HDNRE curriculum – i.e., HDNRE 590 Colloquium (2 credits), HDNRE 574 Integrated Perspectives in Human Dimensions of Natural Resources and the Environment, HDNRE 575 Ethical Issues in Human Dimensions of Natural Resources and the Environment, and R SOC 555 Human Dimensions of Natural Resources. In addition, each HDNRE student will take either ANTH 559 Human Ecology or FOR 565 GIS-Based Socio-Ecological Landscape Analysis, and one additional course selected in consultation with the student’s graduate committee. The HDNRE Colloquium must be taken in each of the first two semesters of enrollment in the dual-title intercollege degree program. In addition, 6 semester credit hours of Thesis Research (in Landscape Architecture) are required.

A thesis committee for the dual-title M.S. degree will consist of two graduate faculty members from Landscape Architecture and one graduate faculty member from the Human Dimensions of Natural Resources and the Environment Program. The thesis topic itself will be an integration of both Landscape Architecture and HDNRE.

Candidates for the dual-title Master of Science degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment will also be required to pass a final defense covering the general field of Landscape Architecture and Human Dimensions of Natural Resources and the Environment Program, with emphasis on the student’s area of specialization. The defense is to be administered by the student’s thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate major program requirements and those of the dual-title program. Final course selection is determined by the students in consultation with their dual-title program advisers and their major program advisers.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degree Conferred:
M.L.D.

The Graduate Faculty
- Janice L. Drechsnel, Ph.D. (Wayne State) Professor of Health Policy and Administration
- Janet M. Duck, Ph.D. (Penn State) Assistant Professor of Management and Organization
- Kathryn Jablonsky, Ph.D. (Ohio State) Associate Professor of Engineering
- Barrie E. Litzy, Ph.D. (Drexel) Associate Professor of Management and Organization
- Denise Potoskey, Ph.D. (Rutgers) Associate Professor of Management and Organization
- John T. Powell, Ph.D. (SUNY, Binghamton) Professor of Management and Organization
- Eric W. Stein, Ph.D. (Pennsylvania) Associate Professor of Management Science and Information Systems

The Penn State Great Valley Master of Leadership Development (MLD) program is a 36-credit interdisciplinary professional program that blends the social and behavioral sciences with ethical studies to develop outstanding organizational and community leaders. As part of the School's Management Division, the program is accredited under the specialized accreditation received from the Association to Advance Collegiate Schools of Business International (AACSB). The program is designed to meet the educational needs of professionals at the middle to senior levels of management. Note that the focus of this program is different from that of the MBA offered by the School: While the MBA program provides an overview of leadership, the purpose of the MLD program is to provide an in-depth analysis of the theory and practice of authentic transformational leadership by providing an environment in which faculty and students can have a complete and open collaboration on what constitutes exemplary leadership. The MLD curriculum emphasizes strategic leadership and the creation of wealth in organizations, balancing financial measures of performance with learning and growth, and customer and external process perspectives. The program builds on the mid- and high-level managerial and administrative experience of students in order to achieve its goal of promoting positive change in individuals, teams, organizations, and communities.

The program provides training in leadership-relevant research, and some students continue on to pursue a doctoral degree. Required research may be conducted in Penn State Great Valley's Library and Computer Center, which provide local research support as well as access to the library and computer resources of the entire Penn State system.

The MLD program is geared primarily toward the needs of part-time students who are employed full-time. Courses in the program, which are offered at Great Valley, are scheduled for the convenience of adult learners, mainly in the evening or on Saturdays.

Admission Requirements

Admission is granted only to candidates who demonstrate high promise of success for graduate work. Requirements listed here are in addition to the Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

An undergraduate and/or graduate GPA of at least 3.0 on a 4.0 scale is required for admission. It is strongly preferred that applicants present at least five years of related professional work experience.

All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) and receive a minimum of 570 (paper score), or 230 (electronic score), or 80 points on the new Internet-based test with a minimum of 23 points on the speaking portion; or the International English Language Testing System (IELTS) with a minimum composite score of 6.5 for admission and submit the results of that test with the application for admission.

Admission decisions are based on a review of the applicant's professional and academic accomplishments as presented in the Admissions Dossier and the quality of the applicant's credentials in relation to those of other applicants who meet the requirements for admission. A complete Admissions Dossier includes the following:

- Online application and non-refundable application fee;
- Current resume, preferably indicating at least five years of related work experience;
- Two official transcripts from each regionally-accredited college or university attended, (both undergraduate and graduate), with credit conditions equivalent to those required by Penn State; or a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution;
- Completion of two 300-word leadership essay questions developed by the faculty to assess an applicant's logical reasoning and writing skills;
- Two confidential evaluation forms/letters of endorsement from executives or community leaders detailing their evaluation of the applicant's leadership ability and potential.

Application Filing Dates: Penn State Great Valley's MLD program has a rolling admissions policy. Students may be admitted and enroll in classes in early September or early January. More detailed information about the application process and the application requirements may be found at http://www.sgps.psu.edu/prospective/academicprograms/leadership/mld/admission.ashx.

Degree Requirements

Thirty-six (36) credits are required to complete the MLD degree. A series of leadership cornerstone (12 credits) and leadership competency courses (9 credits) are required to provide all MLD students with a common body of knowledge. Leadership Context courses (12 credits) and a Capstone course (3 credits) round out the program.

Leadership Cornerstone courses (12 credits) provide a foundation for leadership development studies. They include: LEAD 501 (Leadership Across the Lifespan), BUSAD 555/LEAD 555 (Full-Range Leadership Development), BUSAD 556/LEAD 556 (Diversity Leadership), and LEAD 557 (Leadership Models and Methods).

Leadership Competency courses (9 credits) build a foundation for effective leadership communication, creativity/innovation, and moral development. They include: LEAD 561 (Dynamic Communication in Leadership Contexts), [MGMT 573 (Corporate Innovation Strategies or SYSEN 550 (Creativity, Innovation, and Change) or BUSAD/LEAD 519 (Developing Creative High Performance Organizations)], and [BUSAD 534 (Ethical Dimensions of Management in the Biotechnology and Health Industry) or PHIL 597 (Ethical Dimensions of Leadership) or BUSAD 576 (Ethical Issues in Information Technology)].

Leadership Context courses (12 credits) provide an overview of the situations in which leadership processes are embedded. They include: LEAD 562 (Strategic Leadership), [BUSAD 551 (Business Environment) or BUSAD 530 (Biotechnology and Health Industry Overview)], and a choice of 2 context-specific electives (6 credits).

All students must complete a capstone course that provides students with an opportunity to enact what they have learned in their course work in the context of promoting positive change in their community, LEAD 582 (Social Entrepreneurship and Community Leadership).

Student Aid

The Pennsylvania State University
Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- **BUSINESS ADMINISTRATION (BUSAD) courses**
- **INTERNATIONAL BUSINESS (IB) courses**
- **LEADERSHIP (LEAD) courses**
- **MANAGEMENT (MGMT) courses**
- **SYSTEMS ENGINEERING (SYSEN) courses**

Last Revised by the Department: Spring Semester 2010

Blue Sheet Item #: 38-06-138

Review Date: 04/13/2010

Date last updated by Publications: 8/21/09
The Master of Education degree in Literacy Education consists of 42 credits that prepare candidates for the Pennsylvania Reading Specialist Certification. The M.Ed. Program in Literacy Education has five important admission requirements.

First, candidates must have achieved an overall junior/senior grade point average of 3.00 or higher. For candidates applying for admission who have completed credits beyond the baccalaureate degree, we will evaluate the last (approximately) 60 credits completed.

Second, candidates must submit two letters of recommendation. These letters must be from former professors or professionals who can attest to the academic ability and potential of the candidate.

Third, candidates must submit a 200-300 word personal statement that addresses their career goals and reasons for pursuing a graduate degree.

Fourth, candidates must have a valid Pennsylvania Teaching Certificate and present evidence that they have completed a course in the methods of teaching reading such as EDUC 320 (Methods in Teaching Beginning Readers) or 321 (Methods in Teaching Intermediate and Advanced Readers) with a grade of C or better.

Fifth, candidates must submit test scores from one of the following: Graduate Record Examination, Miller Analogies Test, or Praxis examinations completed for certification.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 60 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Retention
Candidates must maintain a minimum 3.00 grade point average, satisfactorily complete all required key assessments, attain a grade of "C" or better in all required core courses. Candidates who do not make satisfactory progress will be notified in writing noting the specific deficiencies and requesting that they meet with the program coordinator to develop a remediation plan. Failure to meet or to satisfactorily complete the remediation plan will result in termination from the program.

All persons enrolled in Teacher Education Programs at Penn State Harrisburg are expected to demonstrate the professional dispositions that are aligned with the unit’s vision statement. The faculty shall evaluate the approved dispositions demonstrated by the candidates in class and during field experiences. Candidates may be rated as exemplary, acceptable, or unacceptable. Candidates are expected to attain acceptable or exemplary ratings in order to graduate.

Degree Requirements
The Master of Education degree in Literacy Education consists of 42 credits that prepare candidates for the Pennsylvania Reading Specialist Certification (K-12). The degree requirements for the Master of Education in Literacy Education includes 36 credits in foundational, pedagogical, and advanced theoretical work in reading, writing and educational research design and a 6 credit capstone clinical practicum for a total of 42 credits. A minimum grade-point average of 3.00 for work done at the University and acceptable or higher ratings on the professional dispositions are required for graduation.

Prescribed Core Course Requirements (39 Credits)

EDUCATION (EDUC)
422. Literature for Children and Adolescents (3)
425. Literacy Assessment (3)
452. Teaching Writing (3)
466. Foundations of Teaching English as a Second Language (3)
471. Best Practices in Literacy (3)
477. Teaching Struggling Readers and Writers (3)
561. Psychology of Reading (3)
562. Diagnostic Evaluation of Reading Problems (3)
563. Advanced Methods of Teaching Reading (3)
564. Reading Clinic (6)
565. Literacy Leadership (3)
586. Educational Research Designs (3)
Electives

(Choose 3 credits from the following)

Students can choose either one of two electives in the program. Both elective courses (ENGL 409 or EDUC 432) require specialized study in the teaching of writing. ENGL 409 (taken concurrently with EDUC 452) will allow the student to complete a writing fellowship with the Capital Area Writing Project. Or, EDUC 432 allows for the in-depth study of writing through children's literature.

EDUC 432 Children's Literature in the Writing Curriculum (3)
ENGL 409 Composition Theory and Practice for Teachers (3)

Transfer Credits

Subject to the limitations given below, a maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master's degree. However, credits earned to complete a previous master's degree, whether at Penn State or elsewhere, may not be applied to a second master's degree program at Penn State. The student should distinguish carefully between the transferability of credit and its applicability in a particular degree program. Approval to apply any transferred credits toward a degree program must be granted by the student's academic adviser, the program head or graduate officer, and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School of Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university. Pass-fail grades are not transferable to an advanced degree program unless the “Pass” can be substantiated by the former institution as having at least B quality.

A maximum of 15 graduate credits taken as a nondegree student prior to admission to a graduate degree program may be applied to a graduate program, with departmental approval. The credits must have been earned within five years preceding entry into the degree program.

Forms for transfer of credit can be obtained from the graduate program office.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit courses below the 400 level in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Mechanical Engineering (M E)

KAREN A. THOLE, Head of the Department of Mechanical and Nuclear Engineering
137 Reber Building
814-865-2519

Degrees Conferred:
- Ph.D., M.S.
- Integrated B.S. and M.S. in Mechanical Engineering

The Graduate Faculty
- Ashok D. Belegundu, Ph.D. (Iowa) Professor of Mechanical Engineering
- André L. Boehman, Ph.D. (Stanford) Professor of Fuel Science, and Materials Science and Engineering
- Jeness G. Brassier, Ph.D. (Stanford) Professor of Mechanical Engineering, and Mathematics
- Jack S. Brenizer, Ph.D. (Penn State) Professor of Mechanical and Nuclear Engineering
- Seara N. Brennan, Ph.D. (Illinois, Urbana-Champaign) Associate Professor of Mechanical Engineering
- Liming Chang, Ph.D. (Illinois) Professor of Mechanical Engineering
- Fan-Bill Cheung, Ph.D. (Notre Dame) Professor of Mechanical Engineering
- John M. Cimbala, Ph.D. (Cal Tech) Professor of Mechanical Engineering
- Edward C. De Meter, Ph.D. (Virginia Tech) Professor of Mechanical Engineering and Industrial Engineering
- Hosam Fathy, Ph.D. (Michigan) Assistant Professor of Mechanical Engineering
- Mois I. Haque, Ph.D. (Illinois) Professor of Mechanical Engineering
- John B. Haworth, Ph.D. (Cornell) Professor of Mechanical Engineering
- Jun (Tony) Huang, Ph.D. (California, Los Angeles) Associate Professor of Engineering Science and Mechanics
- Kathryn Jablonski, Ph.D. (Ohio State) Associate Professor of Mechanical Engineering (Great Valley)
- Seungjin Kim, Ph.D. (Purdue) Associate Professor of Mechanical and Nuclear Engineering
- Anil K. Kulkarni, Ph.D. (Brown) Professor of Mechanical Engineering
- John S. Lamancusa, Ph.D (Wisconsin, Madison) P.E. Professor of Mechanical Engineering
- A. Scott Lewis, Ph.D. (Penn State) Research Associate, Applied Research Laboratory
- Thomas A. Littlejohn, Ph.D. (Princeton) Professor of Mechanical Engineering
- Bruce Logan, Ph.D. (California, Berkeley) Kappe Professor of Environmental Engineering
- Lyle N. Long, Ph.D. (George Washington) Distinguished Professor of Aerospace Engineering
- Eric R. Marsh, Ph.D. (MIT) Professor of Mechanical Engineering
- Matthew M. Mench, Ph.D. (Penn State) Associate Professor of Mechanical Engineering
- Panagiotsi Michaleris, Ph.D. (Illinois, Urbana-Champaign) Associate Professor of Mechanical Engineering
- Timothy F. Miller, Ph.D. (Penn State) Senior Research Associate, Applied Research Laboratory
- Eric M. Mockensturm, Ph.D. (California, Berkeley) Associate Professor of Mechanical Engineering
- Jason Moore, Ph.D. (Michigan) Assistant Professor of Mechanical Engineering
- Ylenia G. Nannas, Ph.D. (Penn State) Associate Professor of Mechanical Engineering
- Matthew B. Parkinson, Ph.D. (Michigan) Associate Professor of SEDTAPP; Assistant Professor of Mechanical Engineering
- Eric G. Paterson, Ph.D. (Iowa) Senior Research Associate, Applied Research Laboratory
- Laura L. Pauley, Ph.D. (Stanford) P.E. Professor of Mechanical Engineering
- Horacio Perez-Blanco, Ph.D. (Illinois, Urbana-Champaign) Professor of Mechanical Engineering
- Stephen J. Piazza, Ph.D. (Northwestern) Associate Professor of Kinesiology, Bioengineering, and Mechanical Engineering
- Christopher D. Rahn, Ph.D. (California, Berkeley) Professor of Mechanical Engineering
- Asok Ray, Ph.D. (Northeastern) P.E. Distinguished Professor of Mechanical Engineering
- Dominica C. Santavicca, Ph.D. (Princeton) Professor of Mechanical Engineering
- John S. Santoro, Ph.D. (Boston College) George L. Guillet Professor of Mechanical Engineering
- Gary S. Settles, Ph.D. (Princeton) Distinguished Professor of Mechanical Engineering
- H. Joseph Sommer III, Ph.D. (Illinois, Urbana-Champaign) Professor of Mechanical Engineering
- Jelena Srebric, Ph.D. (MIT) Adjunct Professor of Mechanical Engineering; Professor of Architectural Engineering
- Qita Talmage, Ph.D. (Illinois, Urbana-Champaign) Professor of Mechanical Engineering
- Karen A. Thole, Ph.D. (Texas, Austin) Professor of Mechanical Engineering
- Stefan T. Thyrell, Ph.D. (North Carolina State) Professor of Mechanical Engineering
- Martin W. Tretiach, Ph.D. (Michigan Tech) Professor of Mechanical Engineering
- Stephen R. Turner, Ph.D. (Wisconsin) Professor of Mechanical Engineering
- Adrij van Duin, Ph.D. (Delft U of Tech, The Netherlands) Associate Professor of Mechanical Engineering
- Christopher Wang, Ph.D. (Iowa) Diefenderfer Chair W Mechanical Engineering
- Donghai Wang, Ph.D. (Tulane) Assistant Professor of Mechanical Engineering
- Qian Wang, Ph.D. (Princeton) Assistant Professor of Mechanical Engineering
- David N. Worsley, Ph.D. (MIT) Harold and Inge Marcus Dean of Engineering; Professor of Mechanical Engineering
- John Wyngaard, Ph.D. (Penn State) Professor of Meteorology, Geo-Environmental Engineering, and Mechanical Engineering
- Savas Yavuzkurt, Ph.D. (Stanford) Professor of Mechanical Engineering
- Richard A. Yetter, Ph.D. (Princeton) Professor of Mechanical Engineering

Graduate programs and research facilities are available in combustion, heat transfer, fluid mechanics, energy storage, dynamic system analysis, robotics, mechanical design, energy systems biology, biomedical applications, and micro-nano applications. Air pollution control, automotive safety, tribology, designing for noise control and for reliability also provide many research and design opportunities.

Admission Requirements

To maintain a high quality program, it is important that our students are also of a caliber to succeed. As such, the admission requirements for the students enrolling in the online program will be different from those of our on-campus students. Online students will only be accepted into the program with approval from the Department’s Admissions Committee. Within the Department, the ME Admissions Committee (made up of ME Graduate Faculty) will provide recommendations to the Professor-in-Charge of Graduate Studies on accepting students to the MSME degree program. It is expected that students have a Bachelor of Science degree in an acceptable engineering field from an ABET accredited institution. Admission decisions will also be based upon relevant work experience and recommendation letters.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a
Degree Requirements

The M.S. degree program is designed for students to gain advanced knowledge for research, analysis, and design in mechanical engineering. Resident students pursuing an M.S. degree may choose one of two options: completion of 24 course credits and the submission of a thesis (6 credits) to the Graduate School, or 30 course credits and the submission of a scholarly paper to the department. The M.S. degree program is also offered on-line in which only the 30 course credits and the submission of a scholarly paper is permitted. The requirements for the M.S. M.E degree program are:

1. Minimum of 30 course credits at the 400 level or higher, of which 20 course credits must be earned at Penn State. Note that 2 additional credits are required by enrolling in the M E 590 Colloquium but these 2 additional credits do not count toward the 30 course credits. The required course credits must be completed with a grade point average of 3.00 or higher.

2. All students must successfully complete two credits of M E 590 Colloquium preferably in their first two semesters in the program. These two colloquium credits do not count toward the 30 course credits in Requirement 1 above.

3. At least 18 credits in 500- and 600-level courses.

4. A minimum of 12 credits in 400- and 500-level courses in Mechanical Engineering, excluding M E 410, 440W, 441W, 442W, 443W, 450, and any other required undergraduate courses. M E 596 cannot be used to fulfill this requirement.

5. The MSME requires three credits of mathematics. These credits must be taken from the following group of courses: E MCH 524A, E MCH 524B, M E 512, M E 550, and all 400- and 500-level MATH courses (MATH 4XX, MATH 5XX) except MATH 419, 427, 428, 435, 451, 455, 456, 461, 470, 471, 475, 475W, 482 and 484. Courses with a specific focus on numerical analysis will not count toward the mathematics requirement.

6. A thesis or paper must be presented to meet the specific requirement of the culminating experience type selected; the paper may take the form of a doctoral research proposal if agreed upon in advance by the student and the graduate adviser. Online students seeking an MSME degree will only be permitted to write a paper.

7. Preparatory course(s) required for teaching assistants (such as ENGR 888), remedial courses, and any courses required in our undergraduate program are not counted toward degree requirements.

CULMINATING EXPERIENCE OPTION A - M.S. THESIS
Candidate registers for a minimum of six credits of M E 600 or M E 610 and submits a thesis following the procedures specified by the Graduate School. This program will consist of at least 24 course credits of which 18 credits must be at the 500 level (not including M E 596), and six thesis credits. At least 12 credits must be 400- or 500-level Mechanical Engineering courses.

CULMINATING EXPERIENCE OPTION B - M.S. PAPER
Candidate registers for 30 course credits of which 18 credits must be at the 500 level. A maximum of three credits of M E 596 can be counted in the total of 30 credits. At least 12 credits must be 400- or 500-level Mechanical Engineering courses. Candidates write a paper on a topic mutually agreed upon by the adviser suitable for publication in a professional journal or presentation at a national or international conference.

The Ph.D. program emphasizes scholarly research and helps students prepare for research and related careers in industry, government, and academia. Students are admitted to candidacy after passing written and oral examinations. The Ph.D. program is quite flexible, with minimal formal requirements. The Ph.D. is awarded upon completion of a program of advanced study that includes a minimum period of residence, a satisfactory dissertation, and the passing of comprehensive and final oral examinations as determined by the student's doctoral committee.

Generally, a Ph.D. student must have 30 credits above a master's degree before taking the comprehensive examination.

Integrated B.S. and M.S. in Mechanical Engineering

A limited number of undergraduate students in the B.S M.E program will be considered for admission to the integrated undergraduate/graduate program leading to the B.S. M.E and the M.S. M.E degrees. Students with a junior standing in the B.S. M.E degree program may be admitted to the integrated B.S.M.E./M.S.M.E. program, following a positive review of an application specific to this program by the faculty committee on graduate admissions. Students must have attained a GPA of at least 3.0. Students admitted to the integrated program must maintain a GPA in all classes used toward the M.S. M.E degree of at least 3.0.

Student Aid

Graduate students are supported by a variety of government and industry fellowships, traineeships, and research and teaching assistantships. Stipends vary depending on the source. Competition for support is extremely keen; however, outstanding students are considered for attractive offers of support, including various fellowships specifically for new students in the College of Engineering. By completing the department’s application for financial assistance, you will automatically be considered for a graduate assistantship. To receive full consideration for financial aid, all application materials should be submitted by December 15.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

MECHANICAL ENGINEERING (M.E) course list

Last Revised by the Department: Spring Semester 2013
Blue Sheet Item #: 41-07-005
Review Date: 06/11/2013
Faculty updated: 5/24/13
The Intercollege Graduate Program in Molecular Toxicology (IGDP in MT) prepares graduates for diverse opportunities in academic institutions, pharmaceutical companies, private research foundations, governmental research, and regulatory programs. The program includes faculty from eight departments in the College of Agricultural Sciences, Health and Human Development and Eberly College of Science at the University Park campus and the College of Medicine at the Penn State Milton S. Hershey Medical Center. The IGDP in MT is also supported by the Huck Institutes of Life Sciences, which provides modern telecommunications facilities and sophisticated equipment for state-of-the-art research applications. Doctoral students not only explore new conceptual connections, but also engage in active group-learning experiences and explore a variety of potential career opportunities before graduation. Two unique aspects are (1) optional dual mentors will expose students to complementary viewpoints and encourage students to pursue problems at the interface between traditional disciplines, and (2) an optional internship will provide a mechanism for students to obtain "real world" experience in future careers. Language of instruction is English, whether or not they hold a teaching assistantship, will be required to take the TOEFL (Test of English as a Second Language) and submit the results of that test with the application for admission. A TOEFL score of 550 on the paper test, a score of 213 on the computer-based test, or 80 points on the internet-based test with a minimum of 3 points on the speaking portion is required for admission.

Students must have completed a bachelor's degree at an accredited college or university and have a minimum of a 3.0/4.0 junior/senior undergraduate grade-point average.

Additional English Requirement for International Students (both M.S. and Ph.D.)

International applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English, whether or not they hold a teaching assistantship, will be required to take the AEOCP (American English Oral Communicative Proficiency Test) prior to entering the classroom. The AEOCP is given at the beginning of fall and spring semesters. All international students are required to preregister for this test. This test is administered at the University Park campus, thus students from the Hershey campus are required to take the test at the University Park campus. Below is the course of action for the score ranges:

- Greater than 250 approved for teaching and the ESL (English as a Second Language) requirement will be satisfied.
- 230-249 required to schedule and pass ESL 118G.
- 200-229 required to pass ESL 117G*. These students will not be permitted to teach in a classroom situation, and may instead be assigned to grading.
The Pennsylvania State University

Graduate Bulletin Archive - 2013 2012 - 2013

Program Requirements

M.S. or Ph.D. degrees

1. Foundation of basic knowledge in molecular biology, cell biology, biochemistry, and molecular toxicology. The IGDP in MT requires at least 9 credits in one or more of these disciplines, taken either as an undergraduate or as a part of the graduate curriculum. The following courses are required for respective campuses.

University Park students

BIOCHEMISTRY AND MOLECULAR BIOLOGY (B M B)
400. MOLECULAR BIOLOGY OF THE GENE (3 credits)
VETERINARY AND BIOMEDICAL SCIENCES (V B S)
433. MOLECULAR AND CELLULAR TOXICOLOGY (3 credits)
VETERINARY SCIENCE (V S C)
V S C/IBIOS 530. REGULATION OF GENE EXPRESSION (3 credits)

Hershey Medical Center Students

CELL AND MOLECULAR BIOLOGY (C M B I O)
502. CORE BIOCHEMISTRY (3 credits)
503. MOLECULAR BIOLOGY (3 credits)

PHARMACOLOGY (P H A R M)
520. PRINCIPLES OF DRUG ACTION (2 credits)

In addition to these required courses, electives must also be taken to fulfill the required number of academic credits for either an M.S. or Ph.D. degrees.

1. IBIOS 570 MOLECULAR TOXICOLOGY SEMINAR (2 credits, 1 per semester during any of the first four semesters in residence), a monthly colloquium that will present molecular toxicology topics of general interest to all faculty and graduate students in the IGDP in MT.
2. IBIOS 570. COLLOQUIUM (2 credits) All students are required to enroll for 4 credits of Colloquium. Students typically take this course in the fall and spring semesters of their first year. In Colloquium, students are introduced to the course topics: contemporary and future importance in the life sciences. A particular focus is placed on topics where science is likely to impact on society (and society on science). Topics are drawn from the area introduced by the speaker and can span the entire spectrum from basic research to the social, legal, moral and ethical implications of the science. A significant challenge in Colloquium is to organize and coordinate a presentation using contemporary presentation software, such as PowerPoint, in an environment in which part of the audience is present at a remote site. Students are required to attend the lectures and the dinner following the lectures. Students also participate in the group presentations during discussion sessions and submit written reports. Reports may be submitted to the co-chairs of the IGDP who may add them to the student's permanent record. Students receive A-F quality grades.
3. IBIOS 591. ETHICS IN THE LIFE SCIENCES (1 credit) Usually taken the fall semester of their second year, students exam integrity and misconduct in life sciences research, including issues of data collection, publication, authorship, and peer review. Students receive A-F quality grades.
4. IBIOS 595. INTERNSHIP (1 credit, optional) For students interested in exploring academic, government, legal, medical, or business corporate approaches to research. This is an external work assignment relevant to individual research or career goals. Students receive an R (satisfactory/passing) or U (unsatisfactory/failing). Only R credits are counted for credit totals. Students typically participate in an internship the summer of their first or second year. Contacts, positions, applications, course registration, course requirements, and grading are processed through the Eberly College of Science Cooperative Education Program (814-865-5000). Additional credits of IBIOS 595 are at the expense of the student. Interested graduate students are to discuss the opportunity with the IGDP in MT chair and/or their faculty adviser.
5. IBIOS 596. INDEPENDENT STUDIES: LABORATORY ROTATIONS (1-3 credits per semester) For students exploring potential Ph.D. projects and faculty advisers. Students receive a R (satisfactory/passing) or F (unsatisfactory/failing). Only R credits are counted for credit totals.
6. IBIOS 597 (optional, variable credits) SPECIAL TOPICS
7. IBIOS 600. THESIS RESEARCH (1-9 per semester) For students who have been matched with a faculty adviser AND have not taken/passed their comprehensive exams. Students may receive A-F grades or R/F grades at any time. By the time a student passes his/her comprehensive exam, up to 12 credits worth of IBIOS 600 may have the A-F quality grade.
8. IBIOS 601. THESIS PREPARATION (0 per semester) For those students who passed their comprehensive exams. This course appears on the transcript but does not have any associated with it.
9. V B S C 602/IBIOS 602. SUPERVISED EXPERIENCE IN COLLEGE TEACHING (1 credit, optional) All students are strongly encouraged to enroll for 1 credit (or the equivalent) of Supervised Experience in College Teaching before the beginning of their third year. Students typically take this course during the fall semester of their second year. To encourage teaching experience in toxicological sciences, students will be encouraged to enroll in V B S C 602 for supervised experience in college teaching for a toxicology-related courses (V S C 433, V S C 430, E R M 431). As an alternative, after consulting with their respective adviser, students may elect to enroll in IBIOS 602. Teaching at Hershey is arranged by the co-chairs of the IGDP and co-director of graduate education for the IBIOS program. Students receive A-F grades on their transcripts but these grades are not computed in with the overall GPA. International fellows must pass an English proficiency exam before any teaching duties are assigned.
10. The Graduate School requires all graduate students to maintain a 3.0 grade-point average.

M.S. Degree Requirements

Masters students must have a minimum of 30 credits and a 3.0 overall grade-point average. For a master’s thesis option, up to 6 IBIOS 600 credits may be A-F graded. Eighteen (18) credits must be at the 500 to 600 level, and a minimum of 12 credits need to be in the major at the 400 to 600 level (excluding IBIOS 600) and the student selects a thesis committee (upon consultation with faculty adviser) and a thesis advisor, and defends his/her work. If pursuing a master’s nontuition option, the student must have a first-author manuscript (based on his/her research) that has been either accepted and/or published in a peer reviewed journal. Additionally, for a master’s nontuition option, 18 credits need to be in the major at the 500 level. The manuscript is given to at least the faculty adviser and the IGDP Chair for evaluation. IBIOS 595 (Internship) and 596 (Rotations) credits count toward the 30 credits. However, the 602 (Teaching) optional credits do not count toward the 30 credits. All IGDP in Molecular Toxicology graduate students must successfully take the following list of required courses and/or electives during the first two years of their graduate education. If all course credits and requirements are met, students do not have to be registered for classes while writing and/or defending his/her work.

Students must present their thesis in accordance with the Penn State guidelines as described in the THESIS GUIDE Requirements for the Preparation of Master’s and Doctoral Theses. Current copies may be obtained from the Thesis Information Web site. For more information, contact the Thesis Office, 115 Kern Building, University Park, PA 16802; 814-865-5448.

**Ph.D. Degree Requirements**

Ph.D. students must have a minimum of 30 credits and a 3.0 overall grade-point average. For a master's thesis option, up to 6 IBIOS 600 credits may be A-F graded and 12 credits need to be in the major at the 400 to 600 level (excluding IBIOS 600). The course requirements are essentially the same as those required for the M.S. degree listed above, with some discretion left to the student and adviser.

**Grade-Point Average/Unsatisfactory Scholarship**

Students are required to maintain an overall 3.0 GPA throughout the program, and, in particular, must have a 3.0 to take the doctoral candidacy, the comprehensive examination, and the final oral examination. One or more failing grades or a cumulative grade-point average below 3.0 may be considered evidence of unsatisfactory scholarship and may be grounds for dismissal from the IGDP in MT.

**English competence**

A candidate for the degree of Doctor of Philosophy for the IGDP in MT is required to demonstrate a high-level competence in the use of the English language, including reading, writing, and speaking, as part of the language and communication requirements for the Ph.D. Programs are expected to establish mechanisms for assessing and improving competence of both domestic and international students. Toward this goal, all students must participate in the IBIOS 590 colloquium, which includes assessment of reading, original writing and speaking skills. International students must also demonstrate proficiency of the English language as part of the Additional English Requirement for teaching described above. During the course work prior to the candidacy examination, candidates will be assessed for communicative competence in reading, writing, and speaking English. Should a higher level of competence be required, the candidate will be advised to take the appropriate course. International students are advised that the passage of the minimum TOEFL requirements does not demonstrate the level of competence required for completion of the Ph.D. program. English competence must be demonstrated before the doctoral comprehensive examination is scheduled. Besides course work, research, and teaching, IGDP Molecular Toxicology doctoral students participate in the following:

**Candidacy Exam**

The Candidacy Exam is uniquely designed for each student. The exam should be taken by the end or during the student's third semester in the Integrative Biosciences graduate program. The student will be assigned a scientific paper from the biochemical literature to read and analyze. The paper will be selected based upon the student's background and course work. The analysis should involve exploring the relevant literature as well as the fundamental issues in toxicology, biochemistry, and biology. The student will be given ten days to write a three-page single-spaced review. At the same time the paper is assigned a meeting of the committee should be arranged for a sixty- to ninety-minute oral exam by the committee to review the written assignment and discuss other issues. The committee meeting shall be within twenty-one days of the original assignment of the paper. The student is not required to make a formal oral presentation, but should have overheads of the data for discussion purposes. The student should be able to integrate knowledge about chemical and biological aspects of the paper and understand and evaluate the experimental design, rationale, results, and the authors' interpretation of their work. In the event that the student does not pass this exam, the student's committee will make a recommendation as to whether to offer another opportunity or to terminate the student's enrollment in the program.

**Comprehensive Examination**

Evaluation via the Doctoral Committee to determine the feasibility of proposed research and the preparedness of the student. Students must be registered for classes (typically IBIOS 600) the semester they take this exam.

**Doctoral Committee**

Upon successful completion of the Candidacy Examination, the student in consultation with the advisor will, as soon as possible, select a doctoral committee. The committee will consist of the advisor, two members of the IGDP in MT and up to two faculty members who are not a member of the IGDP in MT. If the student has selected the option of having dual advisors, then both of the advisors will be on the doctoral committee, along with two members of the IGDP in MT and one faculty member who is not a member of the IGDP in MT. If the faculty members from the IGDP in MT on the committee are also members of the same department, the one faculty member who is not a member of the IGDP in MT must be from a different department. This committee is responsible for supervising the academic program and monitoring the progress of the student towards his/her degree. Doctoral thesis committee composition is based on the Graduate Degree Programs Bulletin prepared by the Graduate School regarding [Doctoral Committees](http://www.gradschool.psu.edu/committees) and requires:

- Four-person minimum of approved Penn State Graduate Faculty.
- Two members must be inside the major and one member must be outside the major. Note: The outside member must be member of the approved Penn State Graduate Faculty. The outside member for intercollege graduate programs may be inside the major but committee membership must have representation from more than one department.
- A person not affiliated with Penn State may be added as a special member (beyond the four members of the approved Penn State Graduate Faculty) upon recommendation of the head of the program and approval of the graduate dean.
- Have committee chair or one of the co-chairs be a member of the approved Penn State Graduate Faculty. Typically it’s the faculty adviser.
- The doctoral candidate and three committee members must be physically present for the comprehensive exam and defense. No more than one person may be present via telephone. Telephone or video conference arrangements must be approved by the Dean of the Graduate School.
- Need approval of two-thirds of the committee members for passing comprehensive exam and defense dissertation.

**Ph.D. Defense**

Evaluation via the Doctoral Committee of the thesis research. Students must present their thesis in accordance with the Penn State guidelines as described in the THESIS GUIDE Requirements for the Preparation of Master’s and Doctoral Theses. Current copies may be obtained from the Thesis Information Web site. For more information, contact the Thesis Office, 115 Kern Building, University Park, PA 16802; 814-865-5448.

**Courses**

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Matthew Jackson, Ph.D. (Indiana) Associate Professor of Communications
- Krishna Jayarao, Ph.D. (Indiana) Associate Professor of Communications
- Matthew Jordan, Ph.D. (Claremont) Assistant Professor of Communications
- Ann Marie Major, Ph.D. (Southern Illinois) Associate Professor of Communications
- Matthew P. McAllister, Ph.D. (Illinois) Professor of Communications
- John S. Nichols, Ph.D. (Minnesota) Professor Emeritus of Communications
- Mary Beth Oliver, Ph.D. (Wisconsin) Distinguished Professor of Communications
- Anthony A. Olorunniwo, Ph.D. (Howard) Associate Professor of Communications
- Patrick R. Parsons, Ph.D. (Minnesota) Don Davis Professor in Ethics
- Robert D. Richards, J.D. (American) John and Ann Curley Professor of First Amendment Studies
- Fumi Ria, Ph.D. (Florida) Professor of Communications
- Michelle Rodríguez-Colocino, Ph.D. (Pittsburgh) Assistant Professor of Communications
- Amit M. Schejter, Ph.D. (Rutgers) Associate Professor of Communications
- Jennifer Boyce, Ph.D. (Stanford) Professor of Communications
- Michael Schmierebach, Ph.D. (Wisconsin) Assistant Professor of Communications
- Fuyuan Shen, Ph.D. (North Carolina, Chapel Hill) Associate Professor of Communication
- Robert D. Sherman, M.F.A. (Ohio) Associate Professor of Communication
- Susan M. Strohm, Ph.D. (Minnesota) Assistant Professor of Communications
- S. Shyam Sundar, Ph.D. (Stanford) Distinguished Professor of Communications and Communication Arts and Sciences
- Richard D. Taylor, J.D. (New York) Palmer Chair of Telecommunications Studies and Law
- Bu Zhong, Ph.D. (Maryland) Assistant Professor of Communications

Doctoral Degree Requirements

The Ph.D. Program in Mass Communications is administered by the College of Communications. All students seeking admission to the program are required to submit Graduate Record Examination scores, transcripts of all previous undergraduate and graduate work, and three letters of recommendation from individuals qualified to comment on their ability to perform successfully at the doctoral level. Students whose native language is not English must present a minimum TOEFL score of 550 (paper-based test), a score of 213 on the computer-based test, or a score of 80 on the internet-based test to be considered for admission. In most cases, applicants are required to submit a formal statement indicating what they expect to achieve and how their educational background qualifies them for doctoral-level study in mass communications. Admission decisions are made by the college admissions committee.

Requirements listed above are in addition to general Graduate School requirements listed in the GENERAL INFORMATION section of the Graduate Bulletin. Students admitted to the doctoral program must complete a candidacy examination. For students with a master's degree or equivalent, this examination ordinarily will occur before the student has completed 10 credits of doctoral-level work. For individuals admitted with only a baccalaureate degree and no graduate-level work, the candidacy examination will be administered after 30 credits and before 40 credits of graduate-level work, have been completed. The committee designated to conduct the examination will determine whether the student's knowledge of mass communications is adequate for doctoral-level study, specify what deficiencies, if any, must be removed, and pass judgment on a proposed plan of study.

The program requirements include both semesters of the Mass Communications Proseminar (COMM 501.1 and COMM 501.2), a foundation course and other courses selected by the student, with committee approval, that collectively constitute a coherent sequence appropriate to the advanced study of mass communications. Students are expected to take a minimum of 20 credits in communications-related courses. No more than 6 credits can be taken as independent study credits. Students also are required to take at least one course in research methods approved by the doctoral committee. Upon completion of the course work approved for the plan of study, the candidate will take a comprehensive examination. Following the comprehensive examination, doctoral candidates schedule a dissertation proposal meeting at which the research plan for their dissertation is reviewed and approved by their committee. Upon completion of the dissertation, doctoral candidates present a final oral defense of their dissertations before their committees.

The communication and foreign language requirement for the Ph.D. degree may be satisfied by intermediate knowledge of one foreign language or by an equivalent research skill relevant to the student's field of study.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Pin Xu, Ph.D. (California, Berkeley) Professor of Mathematics
- Ae Ja Yee, Ph.D. (Korea Advanced Inst of Sci and Tech) Associate Professor of Mathematics
- Yuri G. Zarhin, Ph.D. (Leningrad State) Professor of Mathematics
- Ludmil Zikatanov, Ph.D. (Sofia) Professor of Mathematics

Graduate courses in all the principal branches of mathematics are offered regularly each year. The department is prepared to direct research in a variety of fields, including various branches of analysis, algebra, topology, number theory, applied analysis, and mathematical logic and foundations.

Admission Requirements

Scores from the Graduate Record Examinations Aptitude Test (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted to the Ph.D., D.Ed., or M.A. program without undergraduate deficiency, an applicant should have completed at least 18 credits in mathematics at the advanced undergraduate level (400 series or their equivalents). The undergraduate student is urged to take at least 6 credits in foundations of analysis (MATH 401), 6 in modern algebra (MATH 435 and MATH 436), and 3 in topology (MATH 429) or their equivalents. These courses are essential preparation for the graduate program, and if they are taken after admission, a maximum of 6 credits may be counted toward an advanced degree.

Students with a 3.00 junior/senior average and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students.

Students applying to the graduate program in mathematics for whom English is not their native language are required to have a score of at least 550 (paper-based test), 213 (computer-based test), or a total score of 80, with a score of 19 on the speaking section (Internet-based test), on the Test of English as a Foreign Language (TOEFL) examination. The results of this examination must be submitted along with other requested items before the application deadline date.

The Pennsylvania State University
Master's Degree Requirements

For the M.A. degree the department offers two options: (1) the thesis option requires 12 credits of approved 500-series course in mathematics, 6 to 9 credits of thesis, sufficient credits in approved 400- or 500-series courses to make a total of 30 credits, and a final oral examination based on the thesis and general course material; and (2) the nonthesis option requires 18 credits of 500-series courses in mathematics, sufficient credits in approved 400- or 500-series courses to make a total of 30 credits, and a term paper on an approved topic in mathematics. No final examination is given in this option. Under this option a student may also elect to take a minor in applied mathematics (9 credits with at least 6 at the 500 level) and may use these credits toward the necessary 30 credits. For both options, a grade of A or B is required in all courses.

To be admitted to the M.Ed. program without undergraduate deficiency, an applicant should have completed at least 15 credits in mathematics at the intermediate level beyond calculus. The M.Ed. program does not require any 500-series courses, but the student is encouraged to select some at this level. Special courses have been instituted for the training of teachers. Among these are MATH 470 and MATH 471. These are acceptable to satisfy credit requirements only for the M.Ed. degree.

Doctoral Degree Requirements

All doctoral students are required to take three qualifying examinations. Two of these examinations must be completed prior to the beginning of the student's second year of graduate study, and the third prior to the beginning of the third year. The qualifying examinations are in the areas of analysis, algebra, and topology/geometry.

The qualifying examinations are given twice a year--after the end of the spring semester and before the beginning of the fall semester. Basic, one-year sequences are offered in each subject annually to help students prepare for the examinations. Typically, an entering Ph.D. student takes two of the basic sequences in the first year and the third basic sequence in the second year of study, and takes the qualifying examinations in the spring after completing the corresponding courses. If an examination is failed, the student must take it again. Students who fail a qualifying examination in a given subject twice may not continue in the Ph.D. program.

Entering Ph.D. students may take one or more of the qualifying examinations on arrival in August without penalty. If they fail a pre-entrance exam, they still have two more opportunities to pass it. Entering Ph.D. students are advised to take at least two basic sequences (in the subjects they did not pass qualifying exams in on arrival) and the subsequent qualifying exams in the first year of graduate study.

After passing all three qualifying exams, students are expected to select a thesis adviser and form a doctoral committee. The committee administers the comprehensive exam (no later than the end of the seventh semester of study) and offers counsel of the student as his research progresses.

Other Relevant Information

Students in this program may elect the dual-title degree program in Operations Research for the Ph.D. degree. (See also Operations Research.) Further information about the graduate program in Mathematics may be found at the following website: www.math.psu.edu/grad

Student Aid

Graduate assistantships available through this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty
- James Adair, Ph.D. Professor of Materials Science and Engineering
- Dinesh K. Agrawal, Ph.D. Professor of Materials
- David L. Allara, Ph.D. Professor of Materials Science and Chemistry
- Harry L. Alcocir, Ph.D. Evan Pugh Professor of Chemistry
- Maurice F. Amateau, Ph.D. Professor of Engineering Science and Mechanics
- S. Ashok, Ph.D. Professor of Engineering Science
- John V. Badding, Ph.D. Assistant Professor of Chemistry
- Andrei R. Badzian, Ph.D. Professor of Materials
- Charles Bakis, Ph.D. Associate Professor of Engineering Science and Mechanics
- Jayanth R. Banavar, Ph.D. Professor of Physics
- Athan Baratta, Ph.D. Professor of Nuclear Engineering
- Uma Beleugundu, Ph.D. Research Associate in Materials
- Amar S. Bhalla, Ph.D. Professor of Materials and Electrical Engineering
- William R. Bitter, Ph.D. Professor Emeritus of Metallurgy
- Paul R. Blankenhorn, Ph.D. Professor of Wood Technology
- Andre L. Boehman, Ph.D. Associate Professor of Fuel Science
- Susan L. Brantley, Ph.D. Associate Professor of Geosciences
- Paul W. Brown, Ph.D. Professor of Materials Science and Engineering
- Wenyi Gao, Ph.D. Professor of Mathematics, and Materials Research
- Gary L. Catchen, Ph.D. Professor of Nuclear Engineering
- Moses H. W. Chan, Ph.D. Evan Pugh Professor of Physics
- Subhash Chandler, Ph.D. Professor of Mineral Processing
- Long-Qing Chen, Ph.D. Professor of Materials Science and Engineering
- Ralph Colby, Ph.D. Professor of Materials Science and Engineering
- Milton W. Cole, Ph.D. Distinguished Professor of Physics
- Lance Collins, Ph.D. Professor of Chemical Engineering
- Robert W. Collins, Ph.D. Professor of Physics and Materials Research
- Joseph C. Conway, Jr., Ph.D. Professor of Engineering Science and Mechanics
- Vincent Crespi, Ph.D. Professor of Physics
- L. Eric Cross, Ph.D. Evan Pugh Professor Emeritus of Electrical Engineering
- Paul H. Cutler, Ph.D. Professor Emeritus of Physics
- Makunda B. Das, Ph.D. Professor Emeritus of Electrical Engineering
- Tarasankar DebRoy, Ph.D. Professor of Materials Science and Engineering
- Elizabeth Dickey, Ph.D. Assistant Professor of Materials Science and Engineering
- Renee D. Diehl, Ph.D. Professor of Physics
- Joseph P. Dougherty, Ph.D. Associate Professor of Materials and Electrical Engineering
- Rigby D. Engel, Ph.D. Professor of Engineering Science and Mechanics
- Wolfgang E. Ernst, Ph.D. Professor of Physics and Chemistry
- Kristen A. Fichthorn, Ph.D. Professor of Chemical Engineering and Physics
- Stephen J. Fonash, Ph.D. Kunkle Chair; Professor of Engineering Science
- Barbara J. Garrison, Ph.D. Shapiro Professor of Chemistry
- Richard A. Grauman, Ph.D. Brush Chair; Professor of Materials
- Venkataraman Gopalan, Ph.D. Assistant Professor of Materials Science and Engineering
- Eark K. Graham, Jr., Ph.D. Professor of Geosciences
- Daryl L. Green, Ph.D. Professor of Ceramic Science and Engineering
- Michael K. Grutzeck, Ph.D. Professor of Materials
- Ruyan Guo, Ph.D. Associate Professor of Electrical Engineering
- Ian R. Harrison, Ph.D. Professor of Polymer Science
- Donald Heaney, Ph.D. Research Associate in Materials
- John R. Hellmann, Ph.D. Associate Professor of Ceramic Science and Engineering
- Peter R. Howell, Ph.D. Professor of Metals Science and Engineering
- Thomas N. Jackson, Ph.D. Professor of Electrical Engineering
- Gerald G. Johnson, Ph.D. Associate Professor Emeritus of Computer Science and Engineering
- Sridhar Komarneni, Ph.D. Professor of Clay Mineralogy
- Iam-Choo Khoo, Ph.D. Professor of Electrical Engineering
- Donald A. Koss, Ph.D. Professor of Metals Science and Engineering
- Sanat Kumar, Ph.D. Professor of Materials Science and Engineering
- Kenneth K. Kuo, Ph.D. Distinguished Professor of Mechanical Engineering
- Peter Labosky, Ph.D. Professor of Wood Science and Technology
- Akhlesh Lakhtakia, Ph.D. Professor of Engineering Science and Mechanics
- Michael Lanagan, Ph.D. Associate Professor of Materials Science and Engineering
- George A. Lesieutre, Ph.D. Professor of Aerospace Engineering
- Qi Li, Ph.D. Associate Professor of Physics
- Ying Liu, Ph.D. Associate Professor of Physics
- Zhi-Kiu Liu, Ph.D. Assistant Professor of Materials Science and Engineering
- Diby D. Macdonald, Ph.D. Professor of Materials Science and Engineering
- Thomas E. Mallouk, Ph.D. DuPont Professor of Materials Chemistry
- Harvey Manbeck, Ph.D. Distinguished Professor of Agricultural Engineering
- Evangelos Manias, Ph.D. Virginia and Philip L. Walker Faculty Fellow; Assistant Professor of Materials Science and Engineering
- William D. Mark, Professor of Mechanical Engineering; Senior Scientist
- Theresa S. Mayer, Associate Professor of Electrical Engineering
- Julian D. Maynard, Jr., Distinguished Professor of Physics
- Russell F. Messier, Professor of Engineering Science and Mechanics
- Gary L. Messing, Professor of Ceramic Science and Engineering; Head, Materials Science and Engineering

- Nicholas Winograd, Ph.D. Evan Pugh Professor of Chemistry
- Christopher R. Wronski, Ph.D. Leonard Professor of Electrical Engineering
- Xiaoxing Xi, Ph.D. Associate Professor of Physics
- Qiming Zhang, Ph.D. Professor of Electrical Engineering
- Gregory R. Ziegler, Ph.D. Associate Professor of Food Science

The aim of the intercollege program in Materials is to provide an opportunity for students interested in the structure, properties, and behavior of solid materials to obtain an integrated program of courses encompassing both the necessary fundamentals of chemistry, physics, and mathematics and their technological and engineering applications.

The program is designed to encourage graduate study and research that cut across the traditional engineering disciplines and scientific inquiry related to materials. Faculty members associated with the program come from several colleges and many research centers at the University.

In order to maintain focus for the selection of core courses and for the administration of the comprehensive examination, formal options have been established (i.e., Materials Science and Materials Engineering). These options differ in the specification of core courses and in the focus of the research. Other program requirements are common for the two options.

**Admission Requirements**

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the graduate school, are required but not required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Entering students should hold a bachelor's degree in chemistry, physics, mathematics, geological science, engineering, ceramics, or metallurgy, or in a closely related field that will have included in it mathematics at least through integral calculus and a minimum of one year of physics and one year of chemistry. Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. Exceptions to the 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. The applicant should be interested specifically in an interdisciplinary program of study and research.

**Master's Degree Requirements**

The program for the M.S. degree must include a total of 30 credits as outlined in the GENERAL INFORMATION section of the Graduate Bulletin. The candidate must prepare a thesis proposal and list of courses for approval by the program faculty constituting the student's M.S. committee. A thesis describing original work performed by the student shall be written and defended before the M.S. committee.

**Doctoral Degree Requirements**

Acceptance into the Ph.D. program is based on the student's performance on the Ph.D. candidacy exam administered by a rotating committee of program faculty. The examination is designed to evaluate the student's potential for original and successful Ph.D. research and is composed of a written proposal and oral presentation. Detailed plans for thesis research and course work consistent with the student's declared option are to be presented to the Ph.D. committee following successful completion of the candidacy exam, and the student is to present periodic progress reports to the committee until the thesis is defended. Near the end of formal course work, each student will take a comprehensive exam. The examination consists of a written part administered by a rotating committee of program faculty, based on specific areas of knowledge depending on the chosen option, and an oral part, administered by the candidacy exam committee, that will emphasize an understanding of both fundamentals and the student's area of specialization. At the culmination of the Ph.D. research experience, each candidate must write a thesis, present it to his/her Ph.D. committee, and defend it at a public, oral presentation, followed by an examination by the committee. All candidates must demonstrate proficiency in English in both written and oral form, which is established formally in an examination by the committee. All candidates must demonstrate proficiency in English in both written and oral form, which is established formally in an examination by the committee. All candidates must demonstrate proficiency in English in both written and oral form, which is established formally in an examination by the committee.

**Other Relevant Information**

Seminars are offered on various materials topics under the course listing MATL 590 Colloquium, and students are encouraged to enroll in these courses or to take them as seminar courses offered by other departments. The program offers instruction on special topics under the designation MATL 597, or students may explore such areas individually under a faculty member's supervision, receiving credit under the designation MATL 596.

The research on various aspects of the solid state may be conducted in the Intercollege Materials Research Laboratory, Applied Research Laboratory, or appropriate departments in the Colleges of Earth and Mineral Sciences, Engineering, or Science. A wide variety of experimental facilities for materials research are available.

**Student Aid**

Assistance is provided by the program office in identifying and applying for fellowships and scholarships from internal and external sources, and in

The Pennsylvania State University
facilitating linkages with faculty and units that can offer support in the form of graduate assistantships for research in specific topical areas. These and other types of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

The Pennsylvania State University
The Pennsylvania State University

Recognized degree-granting institution.

Upon approval by the doctoral committee and the graduate program coordinator, a student with an M. S. degree from another U.S. institution or officially recognized committee. A student with a M. S. degree from Penn State can use the 500-level credits earned during his or her M. S. study to fulfill the course requirements.

Doctoral Degree Requirements

The Intercollege Graduate Degree Program in Materials Science and Engineering offers comprehensive graduate education in the fundamentals of materials science (synthesis-structure-property-performance relationships). Faculty have interests in many research areas including biomaterials, ceramics, composites and hybrids, computational materials science, electronic and photonic materials, materials chemistry and physics, metals, nanostructured and nanoscale materials, piezoelectrics and ferroelectrics, polymers and soft materials. Students may choose to study across the major themes of materials today including materials in energy applications, nanotechnology, materials in medicine, materials in communications, materials for sensor applications, structural materials, etc., by using a combination of MATSE courses and a myriad of materials-related courses offered in the science and engineering departments at Penn State.

Admission Requirements

Scores for the Graduate Record Examinations (GRE) are required for admission, though this requirement may be waived at the discretion of the departmental graduate admission committee. The best-qualified applicants will be accepted up to the number of spaces available for new students. The degree requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Master's Degree Requirements

The graduate program for the M.S. degree must include a total of at least 30 credits. Subject to the approval of the graduate program coordinator, a maximum of 10 credits of high-quality graduate work done at a regionally accredited U.S. institution may be applied toward the requirements for the master's degree. A minimum of 6 research credits (MATSE 600) is required. The minimum number of formal course credits (excluding seminar MATSE 590) required is 18 for all students at the 500-level or higher. The instructional program includes three required graduate core courses in materials including Thermodynamics of Materials (MATSE 501), Kinetics of Materials Processes (MATSE 503) and Principles of Crystal Chemistry (MATSE 512).

Doctoral Degree Requirements

The general requirements are based upon a period of residence, the writing of a satisfactory thesis and its acceptance by the doctoral committee and the Graduate School, and the passing of the comprehensive examination. A doctoral program consists of a combination of courses, seminars, and research that fulfills the minimum requirements of the Graduate School and is approved by the doctoral committee for each individual student. A master's degree is not a prerequisite for the doctorate. However, the first year of graduate study leading to the Ph.D. may be the same as that provided for the M.S. degree.

Acceptance into the Ph.D. program is based on the student's performance on the Ph.D. candidacy exam, which is administered by a graduate candidacy exam committee of the department. Although there is no specified requirement by the graduate school for the number of course credits for a Ph.D. degree, the department requires a minimum of 18 credits of 500-level courses for completing a doctoral degree. The instructional program includes three required graduate core courses in materials including Thermodynamics of Materials (MATSE 501), Kinetics of Materials Processes (MATSE 503) and Principles of Crystal Chemistry (MATSE 512). Additional specific courses are determined by the student and the adviser in consultation with the student's doctoral committee. A student with a M.S. degree from Penn State can use the 500-level credits earned during his or her M.S. study to fulfill the course requirements.

Upon approval by the doctoral committee and the graduate program coordinator, a student with an M.S. degree from another U.S. institution or officially recognized degree-granting institution.

Scholarship and Research Integrity: The Office of the Vice President for Research/Office of Research Protections requires that all candidates for advanced degrees complete training in Scholarship and Research Integrity (SARI). The SARI requirements include completion of an online Responsible Conduct of Research training program and a 1 credit Professional Development course (MATSE 582).

M. S. Requirements (Summary)-Minimum total credits: 30; minimum research credits: 6; minimum formal graduate-level course credits (500-level or higher): 18; minimum 500-level credits: 12; required graduate core course credits: 9; professional development course credits: 1; minimum credits in the major: 12; seminar: 2 credits per year; minimum GPA: 3.00.

The Office of the Vice President for Research/Office of Research Protections requires that all candidates for advanced degrees complete training in Scholarship and Research Integrity (SARI). The SARI requirements include completion of an online Responsible Conduct of Research training program and a 1 credit Professional Development course (MATSE 582).

Comprehensive exam: Progress report and thesis proposal (no more than 20 pages in length) provided to the student's doctoral committee. An oral presentation is given to the research committee, followed by questions on the written and oral presentations.

The Pennsylvania State University
Seminar: 2 credits of MATSE 590 per year. After the comprehensive exam is passed, students should register to audit MATSE 590.
- Minimum GPA: 3.0
- Thesis: A written thesis and an oral defense administered by the doctoral committee

Student Aid

Top graduate applicants will be automatically nominated for a number of graduate fellowships and top-up awards in the department, including the University Graduate Fellowship as well as several industry-sponsored assistantships. Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Richard Sherman, M.F.A. (Ohio) Associate Professor of Communications
- Susan M. Strohm, Ph.D. (Minnesota) Assistant Professor of Communications
- S. Shyam Sundar, Ph.D. (Stanford) Distinguished Professor of Communications, and Communication Arts and Sciences
- Richard D. Taylor, J.D. (New York) Palmer Chair of Telecommunications Studies and Law
- Bu Zhong, Ph.D. (Maryland) Assistant Professor of Communications

The master's degree in Media Studies is an academic program that involves students in the systematic study of media. The objective of the course of study is to enable students to achieve a comprehensive understanding of the systems, networks, cultures, and information associated with media. The program prepares students for doctoral study in communications and for professional positions in business and government requiring a comprehensive understanding of the historical, social, and political implications of the media. This program helps prepare students to organize research projects, critically evaluate research reports, and directly influence media practices by the application of research findings.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. Students with a 3.00 junior/senior grade-point average are eligible for admission. Three letters of recommendation are required. Applicants must also submit an autobiographical statement indicating the nature of the applicant's interest in Media Studies, reasons for wanting to do graduate work, and future aspirations relating to the field of mass communications. Experience shows that most applicants hold a bachelor's degree in a field of the liberal arts or the social and behavioral sciences, including journalism and mass communications. However, this does not preclude applicants with other backgrounds, abilities, and interests such as those whose undergraduate training may have been in a scientific or technical field. In every case, the applicant should explain in the autobiographical statement how his or her undergraduate education relates to the decision to seek admission to graduate study in mass communications.

Program of Study

The M.A. program seeks to integrate two areas of inquiry and analysis. The "Critical Studies" area centers on the expressive, creative, and linguistic dimensions of media as cultural processes. The "Political Studies" area focuses primarily on the political and economic dimensions of national and international communications systems and processes. The student is encouraged to combine courses from these and possibly other areas into a coherent package of course work culminating in a thesis.

Degree Requirements

For the M.A. degree, candidates must complete a one-course research core by taking either COMM 506 (quantitative research methods) or COMM 511 (qualitative research methods). The remaining credits are selected by the student in consultation with the adviser from the graduate courses listed in this section. Candidates must complete a minimum of 36 credits, including 6 for the thesis (COMM 600). At least 18 credits must be at the 500 level. Course work offered by outside departments of the College of Communications may be scheduled as part of the student's program with prior approval of the student's academic committee. In some cases, students may be required to take additional credits in order to make up deficiencies in undergraduate course work. Students are required to schedule three separate, formal meetings with their advisers and the academic committees for (1) discussion and approval of the general program plan, (2) the thesis proposal, and (3) the defense of the thesis. In most cases, satisfactory completion of course work and thesis requires two
Integrated B.A./M.A. in Media Studies

The College of Communications offers academically qualified students enrolled in a bachelor of arts program in the College of Communications the opportunity to earn both the B.A. and the M.A. upon completion of five years of study. The Integrated Undergraduate-Graduate Program in Media Studies would facilitate the advanced study of communications research and thesis development through a carefully organized selection of undergraduate courses, graduate seminars and directed research projects. The program would accelerate and enhance undergraduate students’ appreciation for graduate level scholarship by involving them in the seminars, research activities, and the scholarly discourse of the college’s community of master’s- and doctoral-level scholars.

For the IUG Media Studies B.A./M.A. degree, a minimum of 120 credits is required for the B.A. and 36 credits for the M.A. Twelve graduate-level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these must be at the 500 level.

If for any reason a student admitted to the B.A./M.A. program is unable to complete the requirements for the master of arts degree program in Media Studies, the student will be permitted to receive the B.A. degree, assuming all degree requirements have been satisfactorily completed.

Application Process and Admissions Requirements

Applicants must complete 6 credits from the following lists of courses with a minimum GPA of 3.5 in order to be admitted: 3 credits from COMM 100, COMM 150, COMM 180, COMM 320, or COMM 370 and 3 credits from COMM 205, COMM 250, COMM 381, COMM 401, COMM 403, COMM 304, COMM 405, COMM 407, COMM 408, COMM 409, COMM 410, COMM 411, COMM 413W, COMM 417, COMM 418, COMM 419, COMM 451, COMM 452, COMM 453, COMM 454, COMM 455, COMM 484, or COMM 485. The minimum overall GPA required of applicants is 3.2. Admission to the program is based on the evaluation of the student’s transcript, examples of completed writing and research projects, a narrative statement of objectives, and two letters of support from faculty with whom they have worked. One faculty member must be from the College of Communications. Students are expected to apply after completing 60 credits but before the completion of 100 credits. Candidates are expected to present records of outstanding scholarly achievement to qualify.

Applicants will be reviewed by the appropriate subset of members of the Graduate Committee of the college.

Applicants to the Integrated program:

1. Must be enrolled in a B.A. program in the College of Communications.
2. Must have completed 60 credits of the undergraduate degree program. (It is recommended that students apply prior to completing 100 credits.)
3. Must provide a narrative statement of objectives and two letters of endorsement from faculty with whom they have worked. One faculty member must be from the College of Communications.
4. Must present an approved plan of study in the application process.

Program of Study

The Integrated B.A./M.A. degree in Media Studies is an academic program that involves students in the systematic study of media. The objective of the course of study is to enable students to achieve a comprehensive understanding of the systems, networks, cultures, and information associated with media. The program prepares students for doctoral study in communications and for professional positions in business and government requiring a comprehensive understanding of the historical, social, and political implications of the media. This program helps prepare students to organize research projects, critically evaluate research reports, and directly influence media practices by the application of research findings. The program is specifically not intended for advanced professional education.

Undergraduate tuition rates will apply as long as the student is in undergraduate status, unless the student receives financial support, such as an assistantship requiring the payment of graduate tuition.

Degree Requirements

For the IUG Media Studies M.A. degree, a minimum of 120 credits is required for the B.A. and 36 credits for the M.A. At least 18 of the required 36 credits must be at the 500 level. Twelve graduate-level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these double-counted credits must be at the 500 level. A minimum of 12 credits of course work, as opposed to research credits, must be completed in Communications. COMM 515 and COMM 506 or COMM 511 are required. IUG students will prepare a thesis proposal in consultation with their advisers and are required to present the final thesis in a formal oral defense meeting to a committee of at least three members of graduate faculty, two of whom must be members of the college faculty. It is encouraged that one member of the committee be from outside the college.

Student Aid

Graduate assistantships and other forms of student aid available to students in this program are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
The Graduate Faculty

- David M. Babb, Ph.D. (Penn State) Research Associate/Assistant Professor of Meteorology and John A. Dutton e-Education Institute
- Peter R. Bannon, Ph.D. (Colorado) Professor of Meteorology
- William H. Brune, Ph.D. (Johns Hopkins) Professor of Meteorology
- Marcelo Chamecki, Ph.D. (Johns Hopkins) Assistant Professor of Meteorology
- Eugene Clothiaux, Ph.D. (Brown) Associate Professor of Meteorology
- Kenneth J. Davis, Ph.D. (Colorado) Associate Professor of Meteorology
- Jenni L. Evans, Ph.D. (Monash) Professor of Meteorology
- Steven B. Feldstein, Ph.D. (Penn State) Senior Scientist
- Carlos E. Fujita, Ph.D. (MIT) Assistant Professor of Climate Dynamics in Meteorology
- Jose D. Fuentes, Ph.D. (Guelph) Professor of Meteorology
- Lee M. Grenc, Ph.D. (Emory, McGill) Senior Lecturer in Meteorology
- Jerry Y. Harrington, Ph.D. (Colorado State) Associate Professor of Meteorology
- Sue Ellen Haupt, Ph.D. (Michigan) Senior Scientist/Professor of Atmospheric and Oceanic Physics-ARL and Meteorology
- Scott A. Isard, Ph.D. (Indiana) Professor of Aerobiology in Plant Pathology and Meteorology
- Timothy J. Kane, Ph.D. (Illinois, Urbana-Champaign) Professor of Electrical Engineering and Adjunct Professor of Meteorology
- Andrew Kleit, Ph.D. (Yale) Professor of Meteorology
- Sukyoung Lee, Ph.D. (Princeton) Professor of Meteorology
- Michael E. Mann, Ph.D. (Yale) Professor of Meteorology and Geosciences
- Paul Markowski, Ph.D. (Ohio) Assistant Professor of Meteorology
- Raymond G. Najjar, Ph.D. (Princeton) Associate Professor of Meteorology
- Jon M. Neese, Ph.D. (Penn State) Senior Lecturer in Meteorology
- Scott J. Richardson, Ph.D. (Ohio) Senior Research Associate of Meteorology
- Yvette Pamela Richardson, Ph.D. (Ohio) Assistant Professor of Meteorology
- Hampton N. Shirer, Ph.D. (Penn State) Associate Professor of Meteorology
- David R. Staufier, Ph.D. (Penn State) Senior Research Associate and Associate Professor of Meteorology
- Anne M. Thompson, Ph.D. (Bryn Mawr) Professor of Meteorology
- Johannes Verlinde, Ph.D. (Colorado State) Associate Professor of Meteorology
- Joshua M. Wuman, Ph.D. (MIT) Adjunct Professor of Meteorology
- George S. Young, Ph.D. (Colorado State) Professor of Meteorology and Geo-Environmental Engineering
- Fuqing Zhang, Ph.D. (North Carolina State) Professor of Meteorology and Statistics

The Graduate Faculty of Meteorology (METEO) at The Pennsylvania State University is comprised of distinguished scholars dedicated to advancing the understanding of atmospheric science and its applications. The faculty members bring a wealth of expertise to the program, covering a broad spectrum of research areas, from atmospheric dynamics to climate change, and from renewable energy to air quality. Their collective work is reflected in numerous publications, grants, and contributions to the global scientific community.

Admission Requirements

The Meteorology program is open to all students with a baccalaureate degree and a strong interest in the atmospheric sciences. A degree in meteorology, science, mathematics, or engineering provides a particularly good background, although the department has had some students with arts and humanities degrees (such as Art History) who have done well. The minimum course requirements for admission are mathematics at least through differential equations and at least one year of calculus-based physics. Scores from the Graduate Record Examinations (GRE) are required for the evaluation of all applicants. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the program, the departmental admission committee considers courses taken, grade-point average, three letters of recommendation, GRE scores, professional experience, and English proficiency. Rather than setting rigid standards in each category, the committee examines the overall record as a whole. The best-qualified applicants are accepted up to the number of spaces that are available for new students.

Generally, additional mathematics and physics beyond the minimum requirements listed above, as well as courses in statistics, chemistry, and computer programming, will strengthen the student's application. Courses in meteorology are not required for admission. Most students admitted to the graduate program have GPA's of 3.50 or higher; particularly good grades in the sciences are desirable. Three recommendations are solicited from persons familiar with the student's academic competence, and the student is required to write a letter summarizing interests and goals. The General Test package containing the Mathematical Reasoning Test of the GRE is required of all applicants. A verbal and quantitative combined score of 1200 or greater is typical for the department's students.

All international applicants must submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT).

International applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires taking the Penn State American English Oral Communicative Proficiency Test (AEOCPT) upon first enrollment and, if necessary, remedial course work (ESL 115G, ESL 117G, and/or ESL 118G). The minimum composite score for the IELTS is 6.5.

International applicants who have received a baccalaureate or masters degree from a college, university, or institution in any of the following countries are exempt from the TOEFL requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, or Wales.

Note: All international students, with the exceptions just noted, who matriculate in our program must take the Penn State American English Oral
Master of Science (M.S.) Degree Requirements

The M.S. degree is offered with thesis or research paper options, both requiring 34 credits.

For both options, a core curriculum is required that is composed of METEO 520 (3 credits), 521 (3 credits), 531 (3 credits), 533 (3 credits), 580 (1 credit), 590 (1 credit/semester; minimum or 2 credits) and 591 (1 credit) that is supplemented by 6 elective credits from 500-level Meteorology courses, for a total of 22 credits.

All students must take a minimum of 12 additional elective credits for a total of 30 credits, which are distributed as follows. Students in the M.S. thesis option must select 6 additional credits from 400- and 500-level course work in Meteorology or related disciplines, and 6 quality-graded credits of METEO 600 (quality-graded credits count toward the grade-point average). Students in the M.S. paper option must select 6 of the additional credits from 400- and 500-level course work in Meteorology or related disciplines if not used as electives above. METEO 600 credits cannot be used to fulfill any portion of these additional required M.S. course options.

All M.S. students defend their thesis or paper in a public presentation that is evaluated by, and must be approved by, the students' committee. A minimum of three signatures is required for a M.S. thesis, including the thesis adviser and the department head or program chair.

M.S. Minor

For a minor in Meteorology, an M.S. student must select 6 credits of 500-level Meteorology courses in a course plan approved by the department.

Doctor of Philosophy (Ph.D.) Degree Requirements

Studies for the Ph.D. degree are designed to accommodate the interests and capabilities of the candidate, and they are overseen by a doctoral committee, which also administers comprehensive and final oral examinations. Before being admitted to Ph.D. candidacy, a student must have the academic support of a faculty member and the student must pass the Ph.D. candidacy examination that is typically offered once each year. The exam must be taken within one year of being admitted to the program. If a student does not pass the exam on their first attempt, then a second attempt is allowed at the time the student completes a M.S. degree in our graduate program.

A student must take METEO 591 (1 credit) the first semester it is available upon matriculating in the program. METEO 580 (1 credit) must be taken prior to the department's competency exam in written technical English. METEO 580 and METEO 591 will be waived as required classes if a student has taken them or equivalent courses before matriculating in the Ph.D. program. A minimum of 6 elective credits from METEO 500-level (other than METEO 501, 520, 521, 531, 533, 580, 590, 591) or RELATED DISCIPLINE 400- or 500-level courses must be taken that do not count toward any other degree requirement and initiated by the semester in which the comprehensive exam is passed. One credit of METEO 590 is required each semester until the comprehensive exam is passed. A student must pass the department's competency exam in written and spoken technical English before being admitted to the comprehensive exam. There are no minimal credit requirements for quality-graded METEO 600 (research credits whose grades count toward the grade-point average); students may earn up to 12 quality-graded METEO 600 credits. The student is expected to master the material in the M.S. core courses (METEO 520, 521, 531, and 533), but need not take those courses for credit.

Dual-Title Graduate Degree in Astrobiology (ABIOI)

Students interested in the emerging field of Astrobiology may wish to obtain a Dual-Title Graduate Degree in Astrobiology and Meteorology. The pursuit of this dual title entails additional course work beyond the degree requirements set forth here (see the Graduate Bulletin http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=A&program=grad_abiol.htm for further details concerning these courses and other program requirements), as well as the participation of at least one Astrobiology program faculty member on the dissertation committee. The Astrobiology representative, who assists with the selection of courses, may be the adviser and have an appointment in Meteorology. The Ph.D. candidacy exam for dual-title students will be administered by Meteorology but with a component of it from the Astrobiology representative, or others related to this dual-title graduate degree, that assesses their potential in the field of Astrobiology. The field of Astrobiology will also be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of Astrobiology is required. A public oral presentation of the dissertation is required.

Ph.D. Minor

For a minor in Meteorology, Ph.D. students should select 15 credits of 500-level Meteorology courses in a course plan approved by the department.

Other Relevant Information

The program differentiates between instruction and research topics appropriate for M.S. students seeking positions of advanced responsibility in government or industry, those appropriate for M.S. students anticipating further study, and those appropriate for Ph.D. candidates who will work in advanced research laboratories or academic institutions.

Student Aid

Graduate assistantships available through this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. Most graduate students are supported with teaching or research assistantships.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered below 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

METEOROLOGY (METEO) course list

NOTE: Courses in the use of X-ray diffraction, electron microscopy, and spectroscopy in meteorological studies are listed under MATERIALS SCIENCE.

Integrated B.S./M.S. Program in Meteorology

The Department of Meteorology offers an integrated B.S./M.S. program, also called the Integrated Undergraduate-Graduate (IUG) program, that is designed to allow academically superior students to obtain both the B.S. and the M.S. degree in Meteorology in five years of study. In order to complete the program in five years, students interested in the IUG program in Meteorology must apply for admission to the Graduate School and the IUG program by the end of their junior year.

During the first three years, the student will follow the course scheduling of one of the options in the B.S. degree, normally the Atmospheric Sciences or the General Option (see the Undergraduate Bulletin). Students who intend to enter the IUG program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG Program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.S. advising committees appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected B.S. Meteorology Option, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their theses or papers that are designed to meet the requirements of the M.S. degree in Meteorology. During the fifth year, IUG students take courses fulfilling the departmental M.S. degree requirements and complete their M.S. theses or papers. Typical scheduling plans for students pursuing the General or Atmospheric Sciences Options are given on the departmental Web site http://www.met.psu.edu. If a plan similar to one of these plans is followed, then the student will have completed all requirements for the B.S. in Meteorology by the end of the fourth year. If, for some reason, a student cannot continue in the integrated program, then this student will be able to receive the undergraduate degree upon completion of all of the B.S. requirements. Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student receives financial support, for example, via an assistantship requiring the payment of graduate tuition.

The Pennsylvania State University
IUG Program Admission Requirements

Students who wish to complete the IUG program in Meteorology should apply for admission to both the Graduate School and the IUG program by no later than the end of their junior year. In this case, successful students will be admitted formally into the graduate program in Meteorology just prior to their senior year, if their progress has been satisfactory. Admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the Associate Head of the Department of Meteorology graduate program, who will determine the necessary criteria for all applicants. These criteria include the setting of the minimum required scores on the GRE and minimum cumulative GPA for consideration, the receipt of recommendation letters from three faculty and a letter of support from the department head, and the identification of an adviser who is willing to oversee the student’s research project. Evidence of significant research potential must be provided in the application.

IUG Program Degree Requirements

The total degree requirements are as follows: The new program will fulfill the present rigorous requirements of the existing M.S. Program. In particular, all IUG students must defend their theses or papers, as do all M.S. students, in a public presentation toward the end of their graduate program.

**B.S. Degree Portion:**

- **TOTAL B.S. REQUIREMENTS:** 121 credits (12 double-counted with the M.S. Requirements)
- **General Education:** 45 credits, 24 of which are included in the REQUIREMENTS FOR THE MAJOR

**Requirements for the Major (All Options):** 75 credits

- **Prescribed Courses:** 56 credits
- **Additional Courses:** 19 credits

**Requirements for the General Option:** 18-19 credits

**M.S. Degree Portion:**

- **TOTAL M.S. REQUIREMENTS:** 34 credits (12 double-counted with the B.S. Requirements)

**Prescribed Courses:** METEO 520, 521, 531, 533, 580, 590, 591 (16 credits)

**Additional Courses:** 18 credits

- 6 credits of 500-level course work
- 6 credits of 400- or 500-level course work
- 6 credits of METEO 600 (thesis option)
- or 6 credits of 400- or 500-level course work (paper option)

The Pennsylvania State University
The Intercollege Graduate Program in Molecular Medicine (IGDP in MM) prepares graduates for diverse opportunities in academic institutions, pharmaceutical companies, private research foundations, governmental research and regulatory programs. The program includes faculty from 14 academic units in the College of Agricultural Sciences and Eberly College of Science at the University Park campus and the College of Medicine at the Penn State Milton S. Hershey Medical Center. The IGDP in MM is also supported by the Huck Institutes of Life Sciences which provides modern telecommunications facilities and state-of-the-art research applications. Doctoral students not only explore new conceptual connections, but also engage in active group learning experiences and explore a variety of potential career opportunities before graduation. Two unique aspects are (1) optional dual mentors and (2) a variety of potential career opportunities.
will expose students to complementary viewpoints and encourage students to pursue problems at the interface between traditional disciplines, and (2) an optional internship will provide a mechanism for students to obtain practical experience in future professional settings.

**General Admission Requirements**

**Ph.D. degrees**

Application deadline is December 1 for priority consideration.

1. Completed official Penn State Graduate School application for the IGDP in Molecular Medicine
2. Paid nonrefundable application fee
3. Two official transcripts from each institution attended
4. Application for a U.S. visa (international applicants only)
5. Graduate Record Examinations (GRE) general test
6. Three letters of recommendation
7. Statement of goals that pertains to the life sciences
8. All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) examination. A minimum TOEFL score of 550 on the paper test, a score of 213 on the computer-based test, or a score of 80 on the internet-based test is required.
9. Students must have completed a bachelor's degree at an accredited college or university and have a minimum of a 3.0/4.0 junior/senior undergraduate grade-point average.

**Program Requirements**

**Ph.D. degrees**

1. Foundation of basic knowledge in cancer biology, toxicology, immunology, infectious diseases, molecular biology, cell biology, biochemistry. The IGDP in MM requires at least 9 credits in one or more of these disciplines. Students may request a waiver of a required if they have taken the specific course as an undergraduate or a similar course at another institution. The request will be made in writing to the campus curriculum committee after consultation with the co-chair. The following courses are to fulfill this requirement.

**University Park**

**BIOCHEMISTRY AND MOLECULAR BIOLOGY (B M B)**
464. Molecular Medicine (3 credits)

**BIOCHEMISTRY, MICROBIOLOGY & MOLECULAR BIOLOGY (BMMB)**
501. Biochemistry & Molecular Biology (5 credits)

**INTEGRATIVE BIOSCIENCES (IBIOS)**
VBS/IBIOS 511. Molecular Immunology (2 credits)
590. Colloquium (1 credit)
591. Ethics in Life Sciences (1 credit)
596. Independent Studies: 3 Laboratory Rotations (1 credit)

**Penn State Hershey**

**COLLEGE OF MEDICINE CORE CURRICULUM**

**BIOMEDICAL SCIENCE (BMS)**
501. Regulation of Cellular and Systemic Energy Metabolism (3 credits)
502. Cell and Systems Biology (3 credits)
503. Flow of Cellular Information (3 credits)

**Molecular Medicine Core Curriculum**

**INTEGRATIVE BIOSCIENCES (IBIOS)**
590. Colloquium (1 credit)
591. Ethics in Life Sciences (1 credit)
596 Independent Studies: 3 Laboratory Rotations (1 credit)

**Electives**

Five additional credits from the College of Medicine Selective Courses

To augment the core sequences of courses, students and their research committees will formulate an individualized advanced curriculum. Additionally, opportunities to participate in an internship (IBIOS 595) or supervised college teaching experiences (IBIOS 602/VBS 602) are available. Interested graduate students are to discuss the opportunity with a MM IGDP Co-Chair and/or their faculty advisor.

**IBIOS 595. INTERNSHIP (1 credit).** For students interested in exploring academic, government, medical, law, or business corporate approaches to research. This is an external work assignment relevant to individual research or career goals. Interested graduate students are to discuss the opportunity with the IGDP in MM co-chair and/or their faculty advisor.

**IBIOS 602/VBS 602. SUPERVISED EXPERIENCE IN COLLEGE TEACHING (1 credit).** All students are strongly encouraged to enroll for 1 credit (or the equivalent) of Supervised Experience in College Teaching before the beginning of their third year. International fellows from non-English speaking countries must pass an English proficiency exam before any teaching duties are assigned.

**M.S. Degree Requirements**

Although the graduate program in Molecular Medicine generally gives admission to students who seek the Ph.D. degree, on occasion, the program may allow candidates to pursue the Master of Science (M.S.) degree. This degree can also serve as an alternative for students who do not proceed to the Ph.D. for any number of reasons. It should be noted that an M.S. degree is not required for entry into the Ph.D. program of the Molecular Medicine IGDP. Masters students must have a minimum of 30 credits and a 3.0 overall GPA. IBIOS 595 (Internship), 596 (Rotations), and 602 (Teaching) credits all count toward the 30 credits. 18 credits need to be in the major at the 500-600 level.

**Student Aid**

Graduate assistantships available in this program and other forms of student aid are described in the STUDENT AID section of the **Graduate Bulletin**. Under normal circumstances, all students admitted and continuing in good standing are provided with graduate assistantship support from University sources, research grants, or fellowships. Financial support is usually not provided for work toward a M.S. degree.

**Courses**

Graduate courses carry numbers from 500-599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

For course descriptions see the corresponding URLs.

[INTEGRATED BIOSCIENCES (IBIOS) course list](#)
[BIOCHEMISTRY, MICROBIOLOGY & MOLECULAR BIOLOGY (BMMB) course list](#)

The Pennsylvania State University
Master of Professional Studies in Community and Economic Development (MPS CEDEV)

The Master of Professional Studies in Community and Economic Development (MPS CEDEV) is a 30-credit terminal master's degree program that emphasizes an interdisciplinary approach to community and economic development. The program balances theory and practice. Courses taught in MPS CEDEV use a blend of Web technology, print, and other media to provide an effective balance of flexibility and interaction. Individuals who currently work with, or are interested in working with communities, community organizations and stakeholders, or on a range of community and economic development issues at the state or national levels would benefit from this program. The MPS CEDEV program requires the completion of seven core courses (21 credits) in which students learn and apply sociological and economic concepts to issues in community and economic development. The courses offer examples and opportunities to apply these concepts to real issues facing communities and rural regions. Two of the core courses (6 credits) emphasize statistical methods and tools and techniques useful to practitioners in community and economic development. Students then can take from 3 to 6 credits of elective coursework to focus on their particular interests within community and economic development, or to work toward additional certifications. All students are required to complete a project, paper or internship (3 to 6 credits) that integrates theory and practice.

Instruction in the MPS CEDEV program emphasizes key themes that include economic planning and development; municipal finance, land use and population change; community structure, organization and process; leadership; tools and techniques in community development; community decision-making and capacity building. Students also may complete 12 credits in the core and a professional paper and earn a Post-baccalaureate Certificate in Community and Economic Development.

Degree Requirements

The professional Master's degree requires 30 credits including a final integrative assessment/experience. All students complete the required MPS CEDEV core program of community and economic development courses, statistics, and methods. The MPS CEDEV courses consist of CEDEV 430, CEDEV 452, CEDEV 500, CEDEV 505, and CEDEV 509. The statistics, methods, and techniques requirement includes STAT 500 (or the equivalent) and CEDEV 575. CEDEV 576 is an optional summer institute focusing on applications and practices for community and economic development. An integrative paper, project, or internship is required where the student demonstrates the capability to integrate and apply concepts, principles, analytical techniques and interpretation skills learned in the program to a real problem faced by a community or community organization. Choice of electives will be based on a plan of study worked out between the student and faculty adviser. There is no foreign language requirement for the degree, however, students planning to work in multi-cultural or international settings are encouraged to gain competency in an appropriate language(s). A total of 18 credits must be 500 level or higher, with at least 6 credits of 500-level course work. This Graduate School requirement is met through the required courses and the project, internship or paper credits.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Lisa Jenkins, Ph.D. (Michigan) Instructor in Music
- Richard Kennedy, M.Mus. (Indiana) Professor of Music
- Christopher Kiver, D.Mus.A. (Michigan) Associate Professor of Music
- Anthony Leach, Ph.D. (Penn State) Professor of Music and Music Education
- Mark Lusk, M.Mus. (Eastman) Professor of Music
- James Lyon, M.Mus. (West Texas) Professor of Music
- Eric J. McKay, Ph.D. (Michigan) Associate Professor of Music
- Robert Nairn, Dipl.Mus. (Berlin Musikschule) Professor of Music
- Joanne Rutkowski, Ph.D. (SUNY, Buffalo) Professor of Music Education
- Mary Saunders, M.A. (Middlebury College/Sorbonne, Paris) Professor of Music
- Naomi Seidman, D.Mus.A. (Texas, Austin) Assistant Professor of Music
- Timothy Shafter, D.Mus.A. (Indiana) Professor of Music
- Stephen H. Smith, D.Mus.A. (Eastman) Professor of Music
- Norman Spivey, D.Mus.A. (Michigan) Professor of Music
- David Stambler, D.Mus.A. (Maryland) Associate Professor of Music
- Marica Tacconi, Ph.D. (Yale) Professor of Music
- Darrin H. Thornton, Ph.D. (Penn State) Assistant Professor of Music Education
- Lisa Thornton, Ph.D. (Missouri) Associate Professor of Music Education
- Jennifer Trost, M.Mus. (Michigan State) Associate Professor of Music
- M. Daniel Yoder, M.Mus. (Idaho) Professor of Music
- Charles Youmans, Ph.D. (Duke) Associate Professor of Music
- Max Zorin, D.Mus.A. (Eastman) Associate Professor of Music

Admission Requirements

In addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin, the School of Music requires the completion of a recognized baccalaureate degree in music or music education, with a junior/senior grade-point average of 2.80 or higher (on a 4.00 scale), but admission to the Doctor of Musical Arts (D.M.A.) requires a grade point average of 3.00. Admission to the M.Mus. program requires an audition or the submission of compositions, or a list of works studied in preparation for conducting (depending on the specific degree); admission to the M.M.E. program requires the completion of 12-15 credits in music education methods at the undergraduate level and successful teaching or student teaching experience; admission to the Ph.D. requires an interview, submission of videotapes of teaching or conducting, scores from the Miller Analogies Test, and a portfolio of requested documents; admission to the M.A. program requires scores from the Graduate Record Examinations (GRE General Test), and evidence of scholarly writing on a musical topic. Information on additional requirements for entrance to the various degree programs can be obtained from the School of Music office. Admission to the D.M.A. (major in piano performance) requires an audition in person or by video recording of an extensive memorized program; students admitted to this program must perform musically at least at the level required to complete the degree Master of Music at Penn State, and must show potential ability to perform professionally. Additional requirements include an interview in person or by interactive video to assess language skills in addition to the University's requirement of specific performance on the TOEFL (550 on the paper test, 213 on the computer-based test, or 80 points on the new Internet test with a minimum of 20 on the new speaking portion) or alternatively, the International English Language Testing System (IELTS) with a minimum of 6.5.

Master's Degree Requirements

The School of Music offers three master's degrees; the Master of Arts, the Master of Music Education, and the Master of Music.

The Master of Arts in Music offers three tracks, in Music Theory (32 credits), Musicology (32 credits), and Music Theory and History (34 credits). All three tracks provide an interdisciplinary approach to the field of music scholarship, a hallmark of our program, and all tracks require a thesis. The track in Music Theory offers preparation in current modes of research and analysis from a music theoretical perspective. The track in Musicology emphasizes the development of a broad knowledge of music of all periods and, at the same time, cultivates one or more areas of specialization. The track in Music Theory and History provides greater breadth by integrating theoretical analytical, and historical approaches to musical styles and works. A reading knowledge of German or another appropriate language must be demonstrated before thesis credit may be scheduled. In the Master of Arts degree program, at least 18 credits must be at the 500 level or higher, and a comprehensive examination is required.

The Master of Music Education degree provides the opportunity for advanced study in music, music learning and teaching, and teaching as reflective practice.
The program requires one full-time year of residency at the University Park campus, and is designed to be completed in one academic year plus two summer semesters. Fulfillment of degree requirements includes successful completion of 30 credits of course work that includes a final action research project and resultant substantial article-length paper, followed by an oral presentation focusing on the candidate's projects and course work. This presentation, including questions posed by the faculty committee, serves as the final comprehensive examination. (Twenty credits must be earned at the University Park campus and 18 credits must be at the 500-level or higher, with at least 6 credits at the 500 level.)

The Master of Music degree (36 credits) offers four majors: Performance, Composition/Theory, Conducting, Pedagogy and Performance (piano and voice tracks). The M.Mus. in Performance offers three separate curricula with areas of emphasis in Voice, Keyboard, or Orchestral Instruments. Depending on the area of emphasis, a recital, a composition project, or a conducting project is required. For the M.Mus. in Performance with emphasis in voice or keyboard, a master's recital is required, in addition to either a master's paper or lecture-recital. For the M.Mus. in Performance (orchestral instruments), a master's recital is required. For the M.Mus. in Composition/Theory, a composition project and a master's paper are required. The M.Mus. in Conducting offers three areas of emphasis: Orchestral, Choral, or Band/Wind Ensemble. A performance project and a master's paper are required. For the M.Mus. in Pedagogy and Performance, a master's recital is required, in addition to either a master's paper or lecture-recital. In the Master of Music degree program, at least 18 credits must be at the 500 level or higher, with at least 6 credits at the 500 level, and a comprehensive examination is required.

**Doctoral Degree Requirements: Ph.D. in Music Education**

The Ph.D. in Music Education is designed to provide opportunities for the highest level of scholarly study in the processes of teaching and learning music. Candidates are expected to develop and test new knowledge in the field of music education while preparing themselves for positions in higher education or other leadership roles within the profession. A candidacy exam, a doctoral thesis, and comprehensive written and oral examinations are required.

**Doctoral Degree Requirements: D.M.A. major in Piano Performance**

The Doctor of Musical Arts is offered with a major in Piano Performance. Four semesters in residence are required. The degree is designed to provide students with a thorough background of preparation and experience in professional-level performance and in the literature of the instrument, while becoming sufficiently knowledgeable about the discipline of music as a whole, in order to teach at the collegiate or university level. This background knowledge would include, but not be limited to, music theory, analysis, and history. Sixty credits are required beyond the Master of Music: if an exceptional student is admitted before completion of a prior Master of Music degree, the student will complete a total of 30 credits in categories equivalent to those required for the M.Mus., in addition to the 60 required for the D.M.A. A candidacy examination will follow upon two semesters completed in residence. Minimum course requirements (post-Master's degree) include sixteen credits (four semesters at 4 credits/semester) of Keyboard 580J applied music instruction; 10 credits of advanced ensembles; 10 credits of literature and pedagogy in the major area; and 18 credits in the broader discipline of music. The comprehensive examination will occur upon the completion of course work, before the final recital. The culminating experience of the D.M.A. degree is public performance: three memorized solo recitals are required (the final recital is prepared independently), and two recitals of chamber music. Although no written thesis is required, a lecture-recital is required, with a pre-approved monograph text.

**Other Relevant Information**

The School of Music sponsors many musical ensembles, and candidates for performance degrees are required to participate in positions of responsibility. All candidates for degrees are expected to be in residence for a minimum of two semesters, except that D.M.A. candidates must be in residence for at least four semesters.

The School of Music is a regionally accredited institutional member of the National Association of Schools of Music.

**Student Aid**

Graduate assistantships available to students in this program and other forms of student aid are described in the [STUDENT AID](#) section of the [Graduate Bulletin](#).

**Music: Integrated Undergraduate-Graduate Degrees**

The School of Music offers two Integrated Undergraduate-Graduate degree programs: one that combine the B.A. in Music with the M.A. in Music, and one that combines the B.M. in performance with the M.A. in Music. This enables a select number of students to further their research interests at the undergraduate and graduate levels. By the end of the five-year program students receive two degrees, a B.A. in Music and an M.A. in Music, or a B.M. in Performance and an M.A. in Music. Candidates for these Integrated Undergraduate-Graduate degrees must demonstrate a high level of aptitude and achievement in academic core courses and be highly motivated to pursue research projects with faculty.

Modeled after a similar program in the Schreyer Honors College, this IUG program enables gifted music students to double count credits in two degree programs. As a result they will have developed a research focus during their fourth and fifth years, which will help them prepare for entry into doctoral programs at other institutions. For further information about the two Integrated Undergraduate-Graduate degree programs, including application procedures and degree requirements, see the [School of Music Web site](#) and click on the "Prospective Students" link.

**MUSIC COURSES**

Individualized instruction is offered in six categories covering eighteen instruments:

- **Brass (BRASS)**
  - Trumpet, french horn, trombone, euphonium, tuba
- **Keyboard (KEYBD)**
  - Piano, organ
- **Strings (STRNG)**
  - Violin, viola, violoncello, double bass
- **Woodwinds (WWNDS)**
  - Flute, oboe, clarinet, bassoon, saxophone
- **Percussion (PERCN)**
- **Voice (VOICE)**

Instruction is offered for each instrument in three different modes: Secondary for 1 credit, Secondary for 2 credits, and Performance for 4 credits. The Performance mode is available only to M.Mus. (Performance) students in their major areas. All other students take Secondary for 1 or 2 credits.

Applied music fees are required for individual instruction: $175 per instrument for a 1-credit course, $250 per instrument for a 2-, 3-, or 4-credit course. A complete list can be obtained from the School of Music office.

**MUSIC (MUSIC)**

- *503. CONCERT CHOIR (1 per semester, maximum of 4)*
- *504. CHAMBER SINGERS (1 per semester, maximum of 4)*
- *505. SYMPHONIC WIND ENSEMBLE (1 per semester, maximum of 4)*
- *506. SYMPHONIC BAND (1 per semester, maximum of 4)*
Course Descriptions

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

- Kevin D. Alloway, Ph.D. (Indiana) Professor of Neural and Behavioral Sciences
- Anna Andreou, Ph.D. (Rutgers) Associate Professor of Molecular Toxicology
- Alistair J. Barber, Ph.D. (Open University, Milton Keynes, UK) Assistant Professor of Ophthalmology, and Cellular and Molecular Physiology
- Colin Barnstable, Ph.D. (Wolfson College, Oxford, UK) Professor and Chair, Neural and Behavioral Sciences
- Paul Bartell, Ph.D. (Virginia) Assistant Professor of Avian Biology
- Sheni Berenbaum, Ph.D. (California, Berkeley) Professor of Psychology
- Melvin L. Billingsley, Ph.D. (Georgia) Professor of Pharmacology
- Edward O. Bixler, Ph.D. (New Mexico) Professor of Psychiatry; Vice Chair of Research
- Robert H. Bonneau, Ph.D. (Penn State) Professor of Microbiology and Immunology
- Douglas Cavenger, Ph.D. (Georgia) Professor and Head of Biology
- Sonia Cavagni, Ph.D. (Duke) Assistant Professor of Biobehavioral Health
- John Collins, Ph.D. (Cambridge) Professor of Physics
- James R. Connor, Ph.D. (California, Berkeley) Distinguished Professor and Vice Chair of Neurosurgery
- Rebecca Corwin, Ph.D. (Chicago) Associate Professor of Psychology
- Nancy Dennis, Ph.D. (Catholic U of America) Assistant Professor of Psychology
- Min Ding, Ph.D. (Pennsylvania; Ph.D. (Ohio State) Associate Professor of Marketing
- Barry R. Dworkin, Ph.D. (Rockefeller) Professor of Neural and Behavioral Sciences
- John Ellis, Ph.D. (Rochester) Professor of Psychiatry and Pharmacology; Director, Molecular Neuropharmacology Laboratory
- Paul J. Edlinger, Ph.D. (Texas Christian) Professor of Neurology
- Andrew G. Ewing, Ph.D. (Indiana) Professor of Chemistry, and Neural and Behavioral Sciences; J. Lloyd Huck Chair in Natural Sciences
- Jidong Fang, M.D./Ph.D. (CUNY) Associate Professor of Psychiatry
- William M. Freeman, Ph.D. (Wake Forest) Associate Professor of Pharmacology
- Thomas W. Gardner, M.D. (Thomas Jefferson) Professor of Ophthalmology, and Cellular and Molecular Physiology
- Charles Geier, Ph.D. (Pittsburgh) Assistant Professor of Human Development
- Rick Gilmore, Ph.D. (Carnegie Mellon) Associate Professor of Psychology
- Santhosh Girirajan, Ph.D. (Medical College of Virginia, Virginia Commonwealth U) Assistant Professor of Biochemistry and Molecular Biology, and Anthropology
- Bruce Gluckman, Ph.D. (Pennsylvania) Associate Professor of Engineering Science and Mechanics, and Neurosurgery; Associate Director, Penn State Center for Neural Engineering
- Jinger Gottschall, Ph.D. (Colorado) Assistant Professor of Kinesiology
- Patrick S. Gripp, Ph.D. (Rutgers) Associate Professor of Neural and Behavioral Sciences
- Andras Hajnal, M.D., Ph.D. (Pecs U Medical School, Hungary) Assistant Professor of Neural and Behavioral Sciences
- Kyung-An Han, Ph.D. Associate Professor of Biology
- Frank Hillary, Ph.D. (Drexel) Assistant Professor of Psychology
- Xuewei Huang, M.D. (Beijing Medical U) Assistant Professor of Neurology
- Dezhe Jin, Ph.D. Assistant Professor of Physics
- Byron C. Jones, Ph.D. (Arizona) Professor of Biobehavioral Health and Pharmacology
- Unnoh Kim, Ph.D. (Duke) Associate Professor of Neurosurgery
- Laura Klein, Ph.D. (University of Michigan) Ann Arbor, Michigan Professor of Biology, Biochemistry and Molecular Biology
- Robert Lewandoski, Ph.D. (SUNY, Stony Brook) Professor of Pharmacology
- Aimin Liu, Ph.D. (NYU Medical Center) Assistant Professor of Biology
- David X. Liu, Ph.D. (CUNY) Assistant Professor of Neural and Behavioral Sciences
- Lyle N. Long, D.Sc. (George Washington) Distinguished Professor of Aerospace Engineering and Mathematics
- Richard B. Mallman, Ph.D. (North Carolina) Professor of Pharmacology; Distinguished Senior Scholar in Pharmacology and Neurology
- Patricia J. McLaughlin, Ph.D. (Penn State, Harrisburg) Professor of Neural and Behavioral Sciences
- Robert J. Milner, Ph.D. (Rockefeller) Professor of Neural and Behavioral Sciences; Co-Director, Graduate Program in Neuroscience
- Gregory Moore, M.D. (Wayne State School of Med), Ph.D. (MIT) Professor of Psychiatry, and Neural and Behavioral Sciences; Director, Behavioral Neuroimaging Research Division
- Ralph Norgren, Ph.D. (Michigan) Professor of Neural and Behavioral Sciences
- Richard W. Ordway, Ph.D. (UMass Medical School) Professor of Biology; Chair, Intercollege Graduate Degree Program in Genetics
- Ann Ouyang, M.B. (London) Professor of Medicine
- Charles Palmer, M.D. (U of Cape Town, South Africa) Professor of Pediatrics
- Randen Patterson, Ph.D. (Maryland) Assistant Professor of Biology
- Blaise Peterson, Ph.D. (U of Washington) Associate Professor of Cellular and Molecular Physiology
- Thomas G. Pritchard, Ph.D. (Delaware) Associate Professor of Neural and Behavioral Sciences
- Chester A. Ray, Ph.D. (Georgia) Professor of Medicine and Cellular and Molecular Physiology
- William Ray, Ph.D. (Vanderbilt) Professor of Psychology
- Frank Ritter, Ph.D. (Carnegie Mellon) Associate Professor of Information Sciences and Technology
- Victor J. Ruiz-Velasco, Ph.D. (Tulane) Assistant Professor of Anesthesiology
- Robert L. Sainburg, Ph.D. (Rutgers) Associate Professor of Kinesiology and Neurology; Co-Director, Graduate Program in Neuroscience
- Russell C. Scaduto, Jr., Ph.D. (Indiana) Associate Professor of Cellular and Molecular Physiology
- Cara-Lynne Schengrund, Ph.D. (Seton Hall) Professor of Biochemistry and Molecular Biology
- K. Suzanne Scherf, Ph.D. (Rutgers) Associate Professor of Biology
- Steven Schiff, M.D., Ph.D. (Duke) Brush Chair Professor of Engineering; Professor of Neurosurgery, and Engineering Science and Mechanics; Director, Penn State Center for Neural Engineering.
- Zachary Simmons, M.D. (Florida) Professor of Neurology
- Ian A. Simpson, Ph.D. (U of London, England) Professor of Neural and Behavioral Sciences

The Pennsylvania State University
The Pennsylvania State University

Graduate Bulletin Archive - 2013

Graduate Degree Requirements

Qualified applicants generally will be requested to visit Hershey for an interview. Admission is based on evaluation of the undergraduate transcript, GRE scores, undergraduate transcripts; three letters of recommendation; and TOEFL scores (if applicable). The application deadline is February 1 for admission in the following fall.

Admission Requirements

Prospective applicants should have a bachelor's degree in a biological, physical, or behavioral science and are expected to have taken courses in biology, chemistry, physics, and mathematics. Candidates are expected to have a 3.0 (B) grade-point average or better. Neuroscience courses are desirable but not essential. Applicants are evaluated on the basis of their academic record, research experience, and potential for contribution to the field.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit courses below the 400 level with the permission of the department head.

The Language and Communication Requirement is satisfied by a grade of at least 3.0 in NEURO 530. Additional courses may be required in biology, chemistry, physics, or mathematics.

M.S. Degree in Neuroscience

Core or Required Courses: NEURO 511, 520, 521, 522, 523, 530, 597; CMBIO 540; IBIOS 591.

Language and Communication Requirement: Satisfied by a grade of at least 3.0 in NEURO 530

Thesis or Paper Requirement and Course(s)/Credits Required: A research thesis is required.

Student Aid

Graduate research assistantships are provided for qualified doctoral students; full tuition is also provided. All support is continuous for the first year from the Neuroscience program. Support in years two and above, when the student is conducting thesis research, must be acquired from either the basic science department in which the candidate elects to pursue his/her minor or from funds available from the thesis adviser. These funds must be secured by the student in conjunction with his/her adviser.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S., M.Eng.

The Graduate Faculty

- Maria Avramova, Ph.D. (Penn State) Assistant Professor of Nuclear Engineering
- Yousry Y. Azmy, Ph.D. (Illinois, Urbana-Champaign) Adjunct Professor of Nuclear Engineering
- Anthony J. Baratta, Ph.D. (Brown) Professor Emeritus of Nuclear Engineering
- Jack S. Brenizer, Jr., Ph.D. (Penn State) Professor of Mechanical and Nuclear Engineering
- Gary L. Catchen, Ph.D. (Columbia) Professor of Nuclear Engineering
- Fan-Bill Cheung, Ph.D. (Notre Dame) Professor of Mechanical and Nuclear Engineering
- Ward S. Diethorn, Ph.D. (Carnegie Tech) Professor Emeritus of Nuclear Engineering
- Robert M. Edwards, Ph.D. (Penn State) Professor of Nuclear Engineering
- Kostadin N. Ivanov, Ph.D. (Bulgarian Academy of Sciences) Professor of Nuclear Engineering
- Edward S. Kenney, Ph.D. (Penn State) Professor Emeritus of Nuclear Engineering
- Seungjin Kim, Ph.D. (Purdue) Assistant Professor of Mechanical and Nuclear Engineering
- Edward H. Klevans, Ph.D. (Michigan) Professor Emeritus of Nuclear Engineering
- Samuel H. Levine, Ph.D. (Pittsburgh) Professor Emeritus of Nuclear Engineering
- Thomas F. Lin, Senior Research Associate
- Arthur T. Motta, Ph.D. (California, Berkeley) Professor of Nuclear Engineering
- Glen E. Robinson, Ph.D. (Penn State) Professor Emeritus of Nuclear Engineering
- Barry E. Scheetz, Ph.D. (Penn State) Professor of Materials; Senior Scientist, Materials Research Laboratory; Professor of Civil Engineering and Nuclear Engineering
- Kenan Ünlü, Ph.D. (Michigan) Professor of Nuclear Engineering; Director, Radiation Science and Engineering Center

Graduate programs and research facilities are available in thermal-hydraulics, neutronics, computational methods, advanced controls with applications of artificial intelligence, materials, radiation monitoring and effects, fuel management, and radioactive waste management. Application areas include advanced reactor design, safety analysis, radiation instrumentation development, neutron imaging, and plant life extension.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average and with appropriate course backgrounds will be considered for admission. General aptitude GRE test results are required. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

To qualify for admission, an international student must achieve a minimum score on the Test of English as a Foreign Language (TOEFL) of 550 on the paper-based test, 213 on the computer-based test, and 80 on the Internet-based test with a 19 in the speaking section. This requirement is waived if the student's native language is English or if the student received a baccalaureate or master's degree from an institution in which the language of instruction was English. Letters of recommendation and a statement of purpose written by the applicant are also required to complete the application package.

Degree Requirements

The M.Eng. degree is a nonthesis professional master's degree. In the M.Eng. degree program, 30 course credits are required. Twelve of those credits must be in Nuclear Engineering with at least 18 credits at the 500 level. No thesis is required for the M.Eng. degree. Instead, the student must take 3 credits of NUC E 597C Professional Topics in Nuclear Engineering, which represents formal recognition of the student's effort spent on writing a paper about an engineering subject. It must be approved by the adviser, a faculty reader, and the program chair.

The M.S. degree program is designed for students to gain advanced knowledge for research, analysis, and design in nuclear engineering. Student pursuing an M.S. degree must complete 24 course credits and submit an acceptable thesis (6 research credits) to the Graduate School.

Continuous registration is required of all Ph.D. students until the thesis is approved.

The Ph.D. program emphasizes scholarly research and helps students prepare for research and related careers in industry, government, and academe. Students are admitted to candidacy after passing written and oral examinations. The Ph.D. program is quite flexible, with minimal formal requirements. The Ph.D. degree is awarded upon completion of a program of advanced study that includes a minimum period of residence, a satisfactory thesis, and the passing of comprehensive and final oral examinations as determined by the student's doctoral committee.

Generally, a Ph.D. student must have 30 credits above a master's degree before taking a comprehensive examination.

Student Aid

In addition to the fellowships, traineeships, graduate assistanships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

NATIONAL ACADEMY FOR NUCLEAR TRAINING FELLOWSHIPS-Available to graduate students in nuclear engineering; stipend plus tuition.
U.S. DEPARTMENT OF ENERGY-NUCLEAR SCIENCE AND ENGINEERING FELLOWSHIPS-Available to graduate students interested in engineering and engineering support related to nuclear technology; stipend plus tuition.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level will not count. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Ph.D., M.S., M.S.N.

Dual-Title Ph.D. in Nursing and Bioethics (BIOET)

The Graduate Faculty

- Kesha Baptiste-Roberts, Ph.D. (Johns Hopkins) Assistant Professor of Nursing
- Raymond A. Brown, Ph.D. (Maryland) Assistant Professor of Nursing; Associate Dean for Undergraduate Programs and Outreach in Nursing
- Harleah G. Buck, Ph.D. (Southern Florida) Assistant Professor of Nursing
- Mary Beth Clark, Ed.D. (Temple) Assistant Professor of Nursing
- Mona M. Counts, Ph.D. (Texas, Austin) Associate Professor of Nursing; Elouise Ross Eberly Professor of The School of Nursing
- Margaret (Peg) Cushman, Ph.D. (UMass, Boston) Assistant Professor of Nursing
- Donna Fick, Ph.D. (California) Professor of Nursing
- Janet Fogg, Ph.D. (Villanova) Assistant Professor of Nursing; Professor in Charge, Professional Graduate Programs
- Marianne Hillemeier, Ph.D. (Michigan) Associate Professor of Health Policy and Administration, and Nursing Health Policy
- Judith E. Hupcey, Ed.D. (Columbia) Associate Professor of Nursing; Associate Dean for Graduate Education in Nursing
- Lisa A. Killo, Ph.D. (Penn State) Assistant Professor of Nursing; Coordinator, Clinical Nurse Specialist Option
- Ann M. Kolanowski, Ph.D. (New York) Professor of Nursing; Elouise Ross Eberly Professor of The School of Nursing
- Susan Loeb, Ph.D. (Penn State) Associate Professor of Nursing
- Kevin G. Mastran, Ph.D. (Kent State) Assistant Professor of Nursing
- Paula Milone-Nuzzo, Ph.D. (Connecticut) Professor and Dean, School of Nursing
- Janice L. Penrod, Ph.D. (Penn State) Professor of Nursing
- Amy M. Sawyer, Ph.D. (Pennsylvania) Assistant Professor of Nursing
- Carol A. Smith, D.S.N. (Alabama) Associate Professor of Nursing
- Elizabeth J. Susman, Ph.D. (Penn State) Jean Phillips Shibley Professor of Biobehavioral Health; Professor of Nursing
- Patricia Sweeney, Ph.D. (Penn State) Assistant Professor of Nursing; Director, Nurse Practitioner Program

The graduate programs emphasize productive scholarship and research in the development of nursing knowledge and the translation of knowledge into practice. Advanced study is in human health and development throughout the life span, and in nursing's role in providing health services to individuals, families, and communities.

The Ph.D. program and the dual-title Ph.D. program in nursing and bioethics prepares nurse scientists and clinical scholars to provide leadership in nursing education, practice and research. Individualized curricula prepare nursing graduates to assume positions as faculty, advanced clinicians, clinical researchers and leadership positions in community, governmental, or institutional settings.

The M.S. degree program with a major in nursing prepares nurse scientists and clinical scholars who plan to complete a Ph.D. in nursing or dual-title Ph.D. in nursing and bioethics.

The M.S.N. degree in Nursing consists of a base program with two emphasis areas and six options. The Base Program emphasis areas are: Clinical Trials Research or Community Health Policy and Management. The options include: Clinical Nurse Specialist, Family Nurse Practitioner, Adult Gerontology Primary Care Nurse Practitioner, Adult Gerontology Acute Care Nurse Practitioner, Nurse Administrator, and Nurse Educator.

The master's degree program in Nursing is accredited by the National League for Nursing Accrediting Commission and the Commission on Collegiate Nursing Education.

The Clinical Trials Research emphasis area enables the student to acquire advanced knowledge of clinical trials research methods, data management and analysis, and ethical considerations. The program is designed to prepare graduates for a variety of roles in clinical trials research, including coordinators, educators, or consultants. The curriculum will assist graduates in preparing for national certification as a clinical research professional.

The Community Health Policy and Management area emphasis enables the student to acquire advanced knowledge of management principles, epidemiology, public health, and health care economics. This program is designed to prepare graduates for leadership roles in community and public health nursing. The curriculum will assist graduates in preparing for national certification as an advanced public health nurse.

The Nurse Practitioner option is designed to help prepare the professional nurse to function in an expanded nursing role providing direct care to specific groups of clients in a variety of health care settings. Since that practice is inherently interdisciplinary in nature, advanced knowledge and research from nursing is combined with knowledge from science, medicine, and related disciplines. The Nurse Practitioner may also function in supervisory, consultative, education, and research roles.

The Clinical Nurse Specialist option prepares advanced practice nurses in Adult Gerontology or Community Health to plan, implement, and evaluate care in a variety of settings. They function in direct care, supervisory, consultative, education, and research roles serving individuals, families, and communities.

The Nurse Administrator option enables the student to acquire advanced knowledge of organizational leadership, health policy, and evidence-based health care delivery. The program is designed to prepare students for leadership and administrative roles in a variety of health care settings.

The Nurse Educator option enables the student to acquire advanced knowledge of evidence-based teaching and learning principles, curriculum development, and evaluative techniques. The program is designed to prepare educators in a variety of academic and health care settings.

Admission Requirements for M.S., M.S.N. and Ph.D. Programs

1. For admission to the Nursing program, an applicant must hold either (1) a bachelor's degree in Nursing from a U.S. regionally accredited institution or (2) a postsecondary degree in Nursing that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. Students entering the doctoral program via the traditional post-master's route must have earned a master's degree with a major in nursing from a program accredited by a national accrediting agency for nursing. Well-qualified doctoral applicants with a baccalaureate degree in nursing and master's degree in a related discipline (e.g., public health) will be evaluated individually to assess the need for prerequisite master's-level course work in nursing for doctoral program admission.

2. Applicants must submit transcripts of all previous course work from institutions of higher learning. For M.S.N. applicants, a cumulative grade-point average of 3.3 (on a 4.0 scale) for junior/senior baccalaureate degree is expected with a B or better in all science and nursing courses. For M.S. applicants, a cumulative grade-point average of 3.5 (on a 4.0 scale) for junior/senior baccalaureate degree is expected with a B or better in all science and nursing courses. College chemistry and statistics are also required. For doctoral applicants, a cumulative grade-point average 3.5 (on a 4.0 scale) for master's and subsequent course work is expected.

3. Two letters of reference are required for the M.S.N. degree program and three letters of reference are required for the M.S. and Ph.D. degree programs. The letters should be solicited from professional colleagues who can attest to the applicant's ability.

4. All applicants must submit a statement of purpose. In addition, M.S. and Ph.D. degree applicants must also submit a published or unpublished scientific paper, thesis, or other scholarly writing sample and a complete curriculum vitae.

5. GRE scores are required for admission to the M.S. and Ph.D. programs. GRE scores are not required for the M.S.N. applicants, but if the scores are submitted to Penn State they will be reviewed as part of the application.

The Pennsylvania State University
The Pennsylvania State University

Graduate Bulletin Archive - 2013 2012 - 2013

6. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirements who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

7. Applicants to the M.S.N. options offered online via the World Campus must hold a current license to practice professional nursing in at least one U.S. state. All other applicants to the M.S. and M.S.N. degree programs must hold a current Pennsylvania license to practice professional nursing. Applicants to the Ph.D. degree program must be licensed to practice professional nursing in at least one state or in a foreign country.

8. Applicants to the Adult Gerontology Acute Care Nurse Practitioner Option are required to have two years of acute care hospital experience.

9. Applicants to the M.S.N. degree program are encouraged to discuss program options with the faculty; however, an interview is not required. Doctoral (M.S. - Ph.D. and Ph.D.) applicants will be contacted by the School of Nursing to schedule a required interview (either in person or via telephone).

M.S. and M.S.N. Degree Requirements

A core of courses including nursing issues, theory, and research is required of all master's students. Candidates in M.S. degree program (M.S. - Ph.D.) are required to complete a minimum of 43 credits to be awarded a M.S. degree. The Clinical Nurse Specialist option must earn a minimum of 41-42 credits. Family Nurse Practitioner option, the requirement is a minimum of 45 credits, Adult Gerontology Primary Care Nurse Practitioner, is a minimum of 41-44 credits, Adult Gerontology Acute Care Nurse Practitioner, is a minimum of 43 credits, Nurse Administrator is a minimum of 43 credits, and Nurse Educator is a minimum of 47 credits. Students in M.S.N. degree program must complete a thesis or a scholarly paper for 3 credits.

Ph.D. Degree Requirements

Students must enter the program directly from a B.S. in nursing (receiving a M.S. degree en route to the Ph.D.) or following completion of a Master's degree (nursing or non-nursing). A dual-title Ph.D. degree in nursing and bioethics and a minor in nursing are also available.

Students entering with a M.S. degree in nursing will complete a minimum of 41-50 credits. In addition to coursework, all students are required to complete a series of examinations, Candidacy, Comprehensive (written and oral components); Dissertation Proposal Defense; and Final Oral Examination. Students also are required to fulfill a residency requirement. This entails being registered as a full-time student (9 credits minimum) engaged in academic work over the course of two semesters within a twelve-month period (summer sessions are not included).

Candidacy Examination: All students must satisfactorily complete the candidacy examination, which is designed to confirm the student's mastery of basic nursing theory and research methods. For students entering the doctoral program with a master's degree, the candidacy examination must be taken at the end of the first year of full-time study or the equivalent. Students who fail the examination on the first attempt may repeat it once. Students who fail the examination the second time are terminated from the program.

Comprehensive Examination: The comprehensive examination is designed to test the student's mastery of and ability to synthesize and integrate the theoretical basis for nursing science, advanced research methods and the chosen specialty area. This examination is taken upon completion of all course work. Students who fail the examination on the first attempt may repeat it once. Students who fail the examination the second time are terminated from the program.

PhD competency: All students are assessed for deficiencies in reading, writing and speaking of English during the core nursing courses prior to the comprehensive examination. Students who fail the examination on the first attempt may repeat it once. Students who fail the examination the second time are terminated from the program.

Communication and Language Requirement: A foreign language will not be required. However, all students are required to be computer literate in word processing and use of statistical packages, as determined by their dissertation committee, and will be assessed for communication skills during core nursing courses.

Dissertation: Each student is required to conduct an original and independent research project which, adds to nursing's body of knowledge, and to communicate the research report in a written dissertation. A written dissertation proposal is required and must be approved at a proposal hearing by a majority vote of the student's dissertation committee. A majority vote is also required for approval of the completed written dissertation at the final oral defense.

Dual-Title Ph.D. in Bioethics Degree Requirements

Nursing Ph.D. students may pursue additional training in bioethics through the dual-title Ph.D. program in Bioethics. To qualify for the dual-title degree, students must meet the degree requirements of the Nursing Ph.D. program. In addition, they must satisfy the requirements described below, as established by the Bioethics program committee. Within this framework, final course selection is determined by the student, their Nursing advisor and their Bioethics program advisor.

Additional coursework: The dual-title Ph.D. in Nursing and Bioethics requires a minimum of 2 credits of coursework beyond the requirements for the Ph.D. in Nursing (16 credits of the 18 Bioethics credits are part of the current degree requirements in Nursing), as follows:

- Seven required credits (BIOET 501, BIOET 502, and BIOET 590), plus at least three additional BIOET credits at the 500 level. These credits can be applied to the 9 credits of specialty coursework for the Nursing Ph.D.
- Eight additional credits from a list of approved electives at the 400 or 500 level, at least two of which must be at the 500 level (many of the available electives that students may wish to take are 3-credit courses, so 9 additional credits may be a more typical number for most students). The list of elective courses will be maintained by the Director of the Bioethics Graduate Program in consultation with the Bioethics Program Committee. (The Nursing Science Core constitutes seven of these elective credits).

Candidacy: In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by Nursing; a single candidacy examination will be administered that includes assessment of both Nursing and Bioethics. At least one member of the candidacy committee must come from the Bioethics program. Unless the Associate Dean for Graduate Education in the School of Nursing and the Director of the Bioethics Program agree to waive the requirement, this person should not be a member of the Nursing faculty.

Comprehensive Exam: The faculty member (or members) affiliated with the Bioethics Program will be responsible for administering a portion of the comprehensive exam that will require the student to demonstrate an understanding of various theoretical and methodological approaches to bioethics, and an ability to apply these issues and problems in the clinical environment. The exam may also include a problem-solving component where appropriate, where appropriate, practical problems in the clinical environment.

Dissertation and dissertation defense: A dissertation on a bioethics-related topic or with a substantial bioethics component is required of students in the dual-title Ph.D. program. The bioethics-related topic of the dissertation or the bioethics component will be approved by the student’s committee.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, funding typically has been available to graduate students in this program:

- U.S. PUBLIC HEALTH SERVICE TRAINEE-SHIPS IN NURSING

Open to selected registered nurse, full-time students in nursing; stipend may be available plus tuition. Apply to Associate Dean for Graduate Education, School of Nursing.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:

Ph.D., M.S.

The Graduate Faculty

- Craig R. Baumrucker, Ph.D. (Purdue) Professor of Animal Nutrition and Physiology
- Cheston M. Berlin, Jr., M.D. (Harvard) University Professor of Pediatrics and Pharmacology
- Leann Lipsy Birch, Ph.D. (Michigan) Distinguished Professor of Human Development and Family Studies
- Dorothy A. Blair, Ph.D. (Cornell) Assistant Professor of Nutritional Sciences
- J. Lynne Brown, Ph.D. (MIT) Associate Professor of Food Science
- James R. Connor, Ph.D. (California, Berkeley) Professor of Neuroscience and Anatomy
- Rebecca L. Conwin, Ph.D., R.D. (Chicago) Associate Professor of Nutritional Sciences
- Terry D. Etherton, Ph.D. (Minnesota) Distinguished Professor of Animal Nutrition
- Gary J. Fosmire, Ph.D. (California, Berkeley) Associate Professor Emeritus of Nutritional Sciences
- Michael S. Frank, Ph.D. (North Carolina) Professor of Nutrition Science and Physiology
- Andras Hajnal, M.D., Ph.D. (Univ Medical School Pecs, Hungary) Associate Professor of Neural/Behavioral Sciences
- Okhee Han, Ph.D. (North Carolina) Assistant Professor of Nutritional Sciences
- Terry J. Hartman, Ph.D., R.D. (Minnesota) Professor of Nutritional Sciences
- Kevin J. Harvatine, Ph.D. (Cornell) Assistant Professor of Nutritional Physiology
- Leonard S. Jefferson, Jr., Ph.D. (Vanderbilt) Professor and Head, Department of Cellular and Molecular Physiology; Associate Dean for Research and Graduate Studies
- Gordon L. Jensen, M.D., Ph.D. (Cornell) Professor and Department Head of Nutritional Sciences, Professor of Medicine, Hershey School of Medicine
- Brian C. Jones, Ph.D. (Arizona) Professor of Biobehavioral Health
- Shannon L. Kelleher, Ph.D. (California, Davis) Assistant Professor of Nutritional Sciences
- Kathleen L. Keller, Ph.D. (Rutgers) Assistant Professor of Nutritional Sciences and Food Science
- Katarzyna (Kasia) Kordas, Ph.D. (Johns Hopkins) Assistant Professor of Nutritional Sciences
- Penny M. Kris-Etherton, Ph.D., R.D., R.D. (Minnesota) Distinguished Professor of Nutritional Sciences
- Barbara Lohse, Ph.D., R.D. (Wisconsin, Madison) Associate Professor of Nutritional Sciences
- Andrea M. Mastro, Ph.D. (Penn State) Professor of Microbiology and Cell Biology
- Edward W. Mills, Ph.D. (Purdue) Associate Professor of Dairy and Animal Science
- Laura E. Murray-Kolb, Ph.D. (Penn State) Assistant Professor of Nutritional Sciences
- Sharon M. (Shelly) Nickols-Richardson, Ph.D., R.D. (Georgia) Professor of Nutritional Sciences
- Jill Patterson, Ph.D. (Wisconsin, Madison) Assistant Professor of Nutritional Sciences
- Jeffrey Peters, Ph.D. (California, Davis) Associate Professor of Veterinary Science
- Claudia K. Probst, Ph.D. (Oregon) Associate Professor of Nutritional Sciences
- K. Sandeep Prabhu, Ph.D. (Mysore, India) Associate Professor of Veterinary and Biomedical Sciences
- Connie J. Rogers, Ph.D. (Pittsburgh) Assistant Professor of Nutritional Sciences
- Barbara A. Roehl, Ph.D. (Cornell) Associate Professor of Veterinary Science
- A. Catharine Ross, Ph.D. (Cornell) Dorothy Foehr Huck Chair and Professor of Nutritional Sciences
- Ian Simpson, Ph.D. (University College, London) Professor of Nutrition and Anatom
- Daniel L. R. Smith, Ph.D. (Illinois, Champaign-Urbana) Professor of Food Science
- Jack Vanden Heuvel, Ph.D. (Wisconsin, Madison) Associate Professor of Veterinary Science
- Regina Vasilatos-Younken, Ph.D. (Penn State) Professor of Poultry Science
- Sherry M. Wilt, Ph.D. (North Carolina, Chapel Hill) Associate Professor of Biobehavioral Health
- Nancy I. Williams, Sc.D. (Boston) Associate Professor of Kinesiology

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from the Medical College Admission Test (MCAT), are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the General Bulletin.

College graduates with an undergraduate degree in nutrition, animal sciences, food science, dietetics, or a related biological or social science will be considered for admission. Applicants should have a minimum grade-point average of 3.00 (on a 4.00 scale), an acceptable score on the GRE (an average quantitative and verbal score above the fiftieth percentile), and three supporting recommendations. Exceptions may be made for students with special backgrounds, achievements, and interests. When openings are limited, the best-qualified candidates are given priority.

The basic expectations for admission from undergraduate studies include 6 credits in chemistry (organic and inorganic); 3 credits each in physiology, biochemistry, and nutrition; and physics, calculus, and analytical chemistry for some research areas in nutrition science and social science for public health and community nutrition. Students with more than 9 credits of deficiency and a superior record may be admitted as provisional students until they qualify for consideration for regular degree status. Deficiencies are expected to be made up with a 3.00 grade-point average or better within the first two semesters.

Master's Degree Requirements

The graduate program in Nutritional Sciences offers the M.S. degree with an emphasis in basic nutritional sciences, applied human nutrition, or nutrition in public health.

The M.S. degree requires 30 credits of course work, including 6 credits in research (NUTR 600). The M.S. degree with an emphasis on nutrition in public health includes a 4-credit field experience (NUTR 553).

Doctoral Degree Requirements

Students are admitted on a provisional basis pending satisfactory completion of the candidacy examination designed to assess the student's potential and academic preparation for doctoral study. Candidacy examinations must be scheduled by students with a master's degree after they have completed 10
credits in doctoral work but before the end of the second semester following admission to the graduate program. The candidacy examination is administered and evaluated by the Graduate Candidacy Committee.

Communication and Language Requirement: Doctoral students must demonstrate competency in spoken English as judged by the program faculty and in technical writing by completion of ENGL 418 with a grade of B or better. Students also must complete satisfactorily 2 to 3 credits at the 400 or 500 level from any one of the following areas: (1) college teaching; (2) logic or philosophy of science; (3) foreign language; or (4) computer science. There are no specific course requirements; however, the academic program is developed by the student in consultation with his or her adviser to develop doctoral-level competence in nutrition and one or more supporting areas. Students are expected to participate in a colloquium each semester and enroll in a seminar on a regular basis.

Nutritional Sciences Option within the IBIOS program: This option in Nutritional Sciences is proposed to promote excellence in graduate education in nutritional sciences by capitalizing on the expertise existing within the biological, biomedical, behavioral, and social sciences at Penn State. Students can choose an area of focus within this option that emphasizes biomolecular nutrition, human nutrient requirements, or ingestive behavior and nutrition intervention. The educational goal of this option is to create a stimulating and diverse environment in which students will develop the critical thinking skills needed to tackle complex issues in nutrition. Students will be expected to develop a foundation of basic knowledge in molecular biology, cell biology, biochemistry and computational methodology. In addition, students are required to complete 2 credits of IBIOS 590. Students are required to complete a course in professional developmental ethics. All students are required to assist in teaching/resident instruction for at least two semesters during their degree program.

Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the Student Aid section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Operations Research (O R)

Program Home Page
SUSAN H. XU, Chair of the Committee on Operations Research
335 Beam Building
814-865-0531

Degrees Conferred:

Students electing this option through participating programs earn a degree with a dual title at both the Ph.D. and the M.S., M.A., or M.Eng. levels, i.e., Ph.D. in (graduate program name) and Operations Research, or M.S., M.A., or M.Eng. in (graduate program name) and Operations Research.

The following graduate programs offer dual degrees in Operations Research: Agricultural, Environmental and Regional Economics; Agricultural and Biological Engineering; Animal Science; Business Administration; Civil Engineering; Chemical Engineering; Computer Science and Engineering; Electrical Engineering; Economics; Educational Leadership; Energy and Mineral Engineering; Entomology; Forest Resources; Geography; Geosciences; Hotel, Restaurant and Institutional Management; Industrial Engineering; Mathematics; Mechanical Engineering; Statistics; and Workforce Education and Development.

The Graduate Faculty

- William P. Andrew, Ph.D. (Penn State) Associate Professor of Hotel, Restaurant, and Institutional Management
- Steven E. Arnold, Ph.D. (Stanford) Professor of Statistics
- R. Barton, Ph.D. (Cornell) Professor of Industrial Engineering
- Tom M. Cavalier, Ph.D. (Virginia Tech) Professor of Industrial Engineering
- M. Chertkov, Ph.D. (Princeton) Professor of Statistical Mechanics
- Kalyan Chatterjee, Ph.D. (Harvard) Distinguished Professor of Management Science and Information Systems
- David P. Christy, Ph.D. (Georgia) Associate Professor of Management Science and Information Systems
- N. Edward Coulson, Ph.D. (California, San Diego) Associate Professor of Computer Science
- Lily (Ageliki) Eleftheriadou, Ph.D. (Polytechnic U, Brooklyn) Associate Professor of Civil Engineering
- Turgay Ertekin, Ph.D. (Penn State) Professor of Petroleum and Natural Gas Engineering
- J. Christian Findley, Ph.D. (Washington State) Professor of Agricultural Economics
- Duncan K. H. Fong, Ph.D. (Purdue) Professor of Management Science and Information Systems
- Natarajan Gautham (North Carolina) Associate Professor of Industrial Engineering
- Vikash V. Gayah, Ph.D. (California, Berkeley) Assistant Professor of Civil Engineering
- Catherine Harmonosky, Ph.D. (Purdue) Associate Professor of Industrial Engineering
- Terry P. Harrison, Ph.D. (Tennessee) Professor of Supply Chain and Information Systems
- Paul H. Heinemann, Ph.D. (Florida) Associate Professor of Agricultural Engineering
- George B. Kleindorfer, Ph.D. (Carnegie Mellon) Professor of Management Science and Information Systems
- Joseph M. Lambert, Ph.D. (Purdue) Associate Professor of Computer Science
- Holly S. Lewis, Ph.D. (South Carolina) Associate Professor of Management Science and Information Systems
- Gary L. Lilien, D.E.S. (California) Distinguished Research Professor of Management Science
- Costas Maranas (Princeton) Associate Professor of Chemical Engineering
- Joan McLeod, Ph.D. (Temple) Associate Professor of Industrial Engineering
- Elise D. Miller-Hooks, Ph.D. (Texas, Austin) Assistant Professor of Civil Engineering
- Jan M. Mutumsany, Ph.D. (Purdue) Professor of Mechanical Engineering
- David Passmore, Ph.D. (Minnesota) Professor of Education
- Raja V. Ramani, Ph.D. (Penn State) P.E. Professor of Mining Engineering
- A. Ravindran (Berkeley) Professor of Industrial Engineering
- William J. Rothwell, Ph.D. (Illinois) Professor of Education
- Michael Saunders, Ph.D. (Georgia) Associate Professor of Entomology
- James S. Shortle, Ph.D. (Iowa State) Associate Professor of Agricultural Economics
- Timothy W. Sotirou, Ph.D. (Georgia Tech) Associate Professor of Mechanical Engineering and Industrial Engineering
- Spiro Stefanou, Ph.D. (California State) Professor of Agricultural Economics
- Jeffrey A. Terza, Ph.D. (U of Pittsburgh) Associate Professor of Economics
- Leonid V. Vasnersteh, Ph.D. (Moscow State) Professor of Mathematics
- Jose A. Ventura, Ph.D. (Florida) Professor of Industrial Engineering
- P. N. Walker, Ph.D. (Massachusetts) P.E. Professor of Agricultural Engineering
- Robert D. Weaver, Ph.D. (Wisconsin) Professor of Agricultural Economics
- Anthony V. Williams, Ph.D. (Michigan State) Associate Professor of Geography
- Susan H. Xu, Ph.D. (Rensselaer) Associate Professor of Management Science and Information Systems

The Operations Research dual-title degree program option is administered by an Operations Research committee, which is responsible for management of the program. The committee maintains program definition, identifies faculty and courses appropriate to the option, and recommends policy and procedures for its operation to the dean of the Graduate School. This dual-title degree program is offered as an option through graduate major programs in eight colleges. The option enables students from diverse graduate programs to attain and be identified with the tools, techniques, and methodology of operations research, while maintaining a close association with areas of application. Operations research is the analysis—usually involving mathematical treatment—of a process, problem, or operation to determine its purpose and effectiveness and to gain maximum efficiency. To pursue a dual-title degree under this program option the student must apply to the Graduate School and register through one of the approved graduate programs.

Admission Requirements

Scores from the Graduate Record Examination (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements listed in the GENERAL INFORMATION section of the Graduate Bulletin

For the M.S., M.A., M.Eng. dual-title degree in Operations Research, in addition to those prescribed by the graduate major program, prerequisites for acceptance to the program without deficiency include the following or their equivalent: MATH 140, MATH 141, MATH 220, COMPSC 101; and 3 credits of probability and statistics.

For the Ph.D. dual-title degree in Operations Research, in addition to those prescribed by the graduate major program, prerequisites for acceptance to the program without deficiency include the following or their equivalent: MATH 401, MATH 436; COMPSC 101; and 3 credits of probability and statistics.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the graduate major programs in which they are enrolled, in addition to the minimum requirements, or their equivalent, in the Operations Research program. Students must enroll in OR 590 Colloquium for at least 1 credit in each year enrolled in the program and in residence.

For the M.S. or M.A. dual-title degree in Operations Research, the minimum requirements are: 6 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes of the areas of statistical methods and stochastic processes. 3 credits in optimization, including at least 3 credits in linear programming; 3 credits in computational methods; and 3 credits in applications/specialization. Application courses are those that involve problem solving through the use of decision methods. A minimum of 9 credits must be in the 500 series. Particular courses may satisfy both the graduate major program requirements and those in the Operations Research program.

The Pennsylvania State University
A thesis may be required, the supervisor of which must be a member of the graduate faculty recommended by the chair of the program granting the degree and approved by the Operations Research committee as qualified to supervise thesis work in operations research. A paper or report may be written in lieu of the M.S. or M.A. thesis upon approval of the student’s graduate major program. An M.Eng. student or a student selecting the paper or report must take an additional 6 credits in the Operations Research program. It is the prerogative of the graduate major program to assign these credits to one or more of the following categories: stochastic/statistical methods, optimization, computational methods, or applications.

The minimum requirements for the Ph.D. dual-title degree in Operations Research are: 9 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes; 9 credits in optimization, including a minimum of 3 credits in linear programming; 6 credits in computational methods, including a minimum of 3 credits in simulation; and 12 credits in applications/specialization. A minimum of 18 credits must be in the 500 series, and particular courses may satisfy both the graduate major program requirements and those in the Operations Research program.

A Ph.D. minor program in Operations Research is available for doctoral students who find it advantageous to include advanced quantitative methods of systems analysis in their programs of study and have been approved to do so by their doctoral committees. To qualify for a minor in Operations Research, students must satisfy the requirements of their graduate major programs, meet the same prerequisites as the M.S. dual-title degree, and meet the following minimum requirements: 6 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes; 6 credits in optimization; and 3 credits in computational methods. A minimum of 6 credits must be taken at the 500 level.

The doctoral committee for a Ph.D. dual-title degree student is recommended by the graduate major program granting the degree. The chair and at least two members of a doctoral committee must be members of the graduate faculty and approved by the Operations Research committee as qualified to supervise doctoral theses in operations research. The Operations Research committee is responsible for administering an examination in operations research that constitutes a portion of the comprehensive examination administered to the doctoral students in the program option, as well as to the candidate who chooses operations research as a minor field.

The Graduate Faculty

- Beverly A. Cigler, Ph.D. (Penn State) Professor of Public Policy and Administration
- Cynthia Massie Mara, Ph.D. (Virginia Tech) Associate Professor of Health Care Administration and Policy
- Gokturk Morcol, Ph.D. (Virginia Polytechnic Institute and State University) Associate Professor of Public Administration
- Jeremy F. Plant, Ph.D. (Virginia) Professor of Public Policy and Administration
- Bing Ran, Ph.D. (Waterloo) Assistant Professor of Public Administration
- Odd J. Stalebrink, Ph.D. (George Mason) Associate Professor of Public Administration
- Triparnaa Vasavada, Ph.D. (SUNY-Albany) Assistant Professor of Public Administration
- James T. Ziegenfuss, Jr., Ph.D. (Pennsylvania/Wharton) Professor of Management and Health Care Systems

MPA Program

The Master of Public Administration (MPA) program is intended for those with career interests in public management, health and human services, government, and other public service and nonprofit organizations. The curriculum blends theoretical and applied concepts and assures "real-world" experiences for the novice administrator. In addition, it requires that students devote attention to general professional development. The MPA program is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA).

FULL-TIME OR PART-TIME--Students may begin the program in any semester. Three courses (or 9 credits) per semester are considered a normal course load for full-time students. Part-time students typically take one or two 3-credit courses each semester and one or two courses during the summer session to maintain steady progress toward the degree. The program, including an internship in a public agency or nonprofit organization for those without three years of managerial, supervisory, or professional experience, requires eighteen to twenty-four months of full-time study, or three to five years on a part-time basis.

Admission Requirements

Applicants must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the graduate program. Applicants who are still completing their baccalaureate requirements at the time of application may be admitted to the Graduate School conditional on the awarding of the baccalaureate degree.

Admission to the MPA program is based on clear suitability for the program as demonstrated by the application as a whole, including the following: a completed application with the application fee; evidence of a bachelor's degree from a regionally accredited college; a statement of career and educational goals; a successful undergraduate record with a grade-point average of 3.00 (either as the cumulative GPA or for the last 60 hours of relevant course work); satisfactory scores on the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), or Law School Admission Test (LSAT) if the GPA is less than 3.0; and three references willing to provide recommendations.

Degree Requirements

The MPA degree program requires 36 graduate credits—18 in core courses, 15 in electives, and 3 for the research project. Up to 6 credits of 400-level courses may be taken as electives, with the approval of an advisor. In addition, a 3-credit internship is required of students who do not have at least two years of full-time relevant work experience that consists of supervisory, managerial, or professional work. The internship is waived for students with this experience before they enter the program or who gain it during the program.

REQUIRED CORE COURSES (18 credits)
P ADM 500, P ADM 502, P ADM 503, P ADM 505, P ADM 506, P ADM 510

ELECTIVE CONCENTRATION AREA (15 credits)

With the faculty advisor's approval, a student selects 15 credits of electives from the courses list. Students also have the option of taking elective courses from one of the following concentrations: Government Administration, Health Care Management and Policy, Human Resources Management, Information Resource Management, Policy Analysis, and Criminal Justice, as well as the general Public Administration degree.

RESEARCH PROJECT--P ADM 594

INTERNSHIP IN PUBLIC ADMINISTRATION--P ADM 595 (if required)

Ph.D. Program

The Doctor of Philosophy in Public Administration provides a broad-based academic program combining conceptual foundations with research and analytical skills. The goal of the program is to educate professionals with the ability to create and apply knowledge through teaching, research, consulting, and management.

Graduates of the program work in such occupations as:

- university or college professor
- president of community hospital
- senior positions in state and federal government
- senior training officer national executive development institute
- health care consultant
- president, non-profit organization

The Program retains the traditional requirements of the Ph.D. degree—advanced coursework, comprehensive examinations, residency, a research dissertation, final oral examination, and standards of excellence--in a program that allows students to combine study and work. Students may pursue the program on a full- or part-time basis. The emphasis is placed in critical thinking, research, writing, and mastery of a broad body of literature. In the emerging "information age," public administrators are both producers and consumers of research. The roles of administrator and scholar are increasingly blurred, as scientific reasoning and data gathering increasingly permeates public managerial decision making. Creating and accessing knowledge that is useful to address organizational and policy issues is increasingly important.

The Pennsylvania State University
Application for Admission

To assure course availability and maximize progress, applicants should carefully consider when to apply to the Program and begin study. In general, students should plan to begin taking P ADM 570 (Scope and Methods of Public Administration) and other doctoral seminars during the Fall Semester.

The following information should also help applicants decide when to apply to the Program:

Fall Admission:
- Applicants for fellowships and assistantships must complete and submit materials by January 30.
- Applicants who must take one or more prerequisite courses typically should apply by October 31. This will enable them to take the necessary prerequisite courses during the Spring Semester and/or Summer Term and begin doctoral seminars the next Fall. If in doubt about the need for prerequisites, an applicant should meet the October 31 deadline.
- Students who are not required to take prerequisite courses may submit their application materials by October 31 or March 15. However, we encourage students to apply at the earliest possible date.

The Program Coordinator can answer individual applicant questions about application and entrance dates.

Admission Requirements

Applicants for the Doctor of Philosophy in Public Administration should hold a master's degree in public administration, public policy, or a related field such as business, economics, political science, or sociology. Applicants with master's degrees in other fields also will be considered. Students may be required to take additional courses after admission to the program to make up for any deficiencies.

A student must have taken the following graduate courses as program prerequisites or co-requisites: Public Organization and Management (P ADM 500), Introduction to Public Policy Analysis (P ADM 507), Research Methods (P ADM 503), and Organization Behavior (P ADM 510).

In addition, most applicants should have five years of relevant professional work experience.

Students are required to submit the following:
- a completed application, with the application fee
- two official transcripts of all undergraduate and graduate course work scores from the Graduate Record Exam (GRE), with official verification
- three letters of reference attesting to both academic and professional capabilities (at least two of the three letters should be from academic sources, such as prior professors or academic advisors)
- a letter of approximately 500 words outlining significant work experience, career goals, and academic objectives
- a recent personal vita
- a substantial academic paper written for a previous graduate course (e.g., seminar paper)

Interviews: The Admissions Committee interviews individuals whose application material indicates they qualify for entry into the Program. These interviews may be face-to-face or by telephone. Interviews help assure a good fit between individual interests and the Program.

International Students

Application deadlines: International student application materials must meet the following deadlines:

January 30 for Fall, September 30 for Spring, February 28 for Summer.*

*Applications received after the deadlines will be processed for the following semester.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

Students progress through the following phases and take the required courses indicated as part of their study for the Ph.D.

Precandidacy and Provisional Admission—Applicants who do not have necessary background, but otherwise meet the criteria for admission may be admitted provisionally and must (1) make up any deficiencies in graduate courses in public administration noted in the letter of acceptance, (2) complete P ADM 570 (Scope and Methods), P ADM 575 (Research Design), and at least one course from the P ADM 571, P ADM 572, P ADM 573, and P ADM 574 seminar series, with an average of 3.5 or better, and (3) pass a candidacy exam. Students who make up deficiencies are considered to be provisionally admitted into the program. A student may remain in this temporary classification for a period of no longer than two semesters following admission. Upon successful completion of the requisite courses noted in the letter (with a 3.5 grade point average), the student will be removed from provisional status and be regularly enrolled. It is to be emphasized that the provisional condition must be met before a student reaches an academic benchmark (doctoral candidacy, comprehensive, and final oral examination). A student will not be permitted to graduate with a provisional status remaining on his or her record.

Comprehensive Examination—Candidates take additional course work to prepare for comprehensive examinations in three subfields of study, complete a period of residency, and write the Ph.D. dissertation. The three formal subfields of specialization are: organization theory and behavior, policy analysis and governance, and public management. Additional subfields of study, such as Health Care Management and Policy, Criminal Justice, Management Information Systems, and Training and Development may be selected with the approval of the student's doctoral committee.

Residency—A period of two consecutive semesters of concentrated study and research as a full-time student—9 credits per semester.

The Dissertation

Under guidance from the dissertation committee, the candidate prepares a detailed research proposal that serves as the basis for the written dissertation. The writing and defense of this original contribution to the theory of public administration is the capstone to the Ph.D. program.

Grade Point Average and Time Limit

Part-time students can complete the program in approximately seven to eight years of continuous study. Full time students may complete the Program in four to five years. Students must have a 3.50 grade-point average to graduate.

Financial Aid

There are a limited number of scholarships, fellowships, and research grants available, as well as graduate assistantships. Many students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To find other options available to you, contact the Financial Aid Office at 717-948-6307.

The Pennsylvania State University
Degrees Conferred:

J.D./M.P.A.

The Dickinson School of Law of The Pennsylvania State University and the School of Public Affairs of Penn State Harrisburg, the Capital College, offer a cooperative program leading to the degrees of Juris Doctor, to be granted by Dickinson, and Master of Public Administration, to be granted by Penn State Harrisburg.

Admission Requirements

In order to be admitted to the program, students must first be admitted to The Dickinson School of Law under its regular admission procedures. Dickinson need not forward applications of all DSL admittees who have expressed interest in the MPA program and can withhold support for some admittees until they have demonstrated proficiency in their legal studies and a capacity for dual degree study. Penn State Harrisburg will make independent admissions decisions as to all dual degree applicants.

The Dickinson Admissions Office requires: application forms for DSL and PSH Graduate School, the Law School Admission Test (LSAT), a completed LSDAS report, a one-page personal statement, employment record since high school, and two recommendations.

The Penn State Harrisburg Admissions Office requires: completed applications (Graduate School and MPA), with the application fee; evidence of either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution; a statement of career and educational goals; a successful undergraduate record with a grade-point average of 3.0 (either as the cumulative GPA or for the last 60 hours of relevant course work); satisfactory scores on the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), or Law School Admission Test (LSAT) if junior–senior or cumulative GPA is less than 3.0); and three names of references willing to provide recommendations.

Degree Requirements

To be eligible to earn the Juris Doctor degree, a candidate must: earn credit for 88 semester hours of course work, have a cumulative average of at least 70.00, complete all required courses (currently totaling 41 semester hours) plus at least one seminar, and complete six semesters in residence.

The MPA degree program requires 36 graduate credits—18 in core courses, 15 in electives, and 3 for the Research Project. A maximum of 9 credits for Dickinson School of Law course work may be transferred for credit toward the MPA degree at Penn State Harrisburg, subject to Harrisburg’s approval based on relevance to the MPA program. A maximum of 9 credits for MPA course work with a grade of B or better may be transferred for credit toward the J.D. degree at Dickinson. Courses for which such credit may be applied shall be subject to approval by the Dickinson faculty.

It is anticipated that students will complete a minimum of 79 credits from Dickinson and 27 credits (not including the internship) from Penn State Harrisburg in order to earn the J.D. and M.P.A. degrees. A student in the program, however, may obtain either degree prior to completing all requirements for the other degree. Students must earn at least a 3.0 grade-point average to be eligible for the M.P.A. degree.

Program Home Page

Robert A. Cherry, Medical Director, Penn State Shock Trauma Center; Chief, Section of Trauma and Critical Care, Penn State Milton S. Hershey Medical Center
College of Medicine, C1524
717-531-6866

Degrees Conferred:
M.H.S., Master of Homeland Security (Penn State University Park)

The Graduate Faculty

- Robert A. Cherry, M.D. (Columbia) Assistant Professor of Surgery
- Elizabeth Carney, DVM (Iowa State) Assistant Professor of Comparative Medicine
- Peter K. Forster, Ph.D. (Penn State) Instructor of Political Science
- Kevin P. Furlong, Ph.D. (Utah) Professor of Geosciences
- Jim Holliman, M.D. (Washington) Professor of Emergency Medicine
- Gretchen A. Kildau, Ph.D. (California) Assistant Professor of Plant Pathology
- Eugene J. Lengnerich VMD, MS (U of Penn), Associate Professor of Health Evaluation Sciences
- Craig Meyers, Ph.D. (UCLA) Professor of Microbiology and Immunology
- Kevin R. Murphy, Ph.D. (Penn State) Professor and Head of Psychology
- Roxanne Parrott, Ph.D. (Penn State) Professor of Communication Arts and Sciences and Health Policy Administration
- Zhengmin Qian, M.D., Ph.D. (Rutgers) Assistant Professor of Health Evaluation Services

The M.H.S. in Public Health Preparedness is designed to provide both science and nonscience postbaccalaureate students with broad training in public health preparedness as it relates to issues surrounding homeland security. The curriculum will be delivered in a distance education format to accommodate the needs and schedules of professionals who are already working in this field and wish to transition into the field of homeland security. The program’s target audience may include federal, state, and local public health officials, public affairs administrators, emergency management professionals, health care professionals, first responders, criminal justice and law enforcement personnel, military staff, and members of corporate security.

Graduates of the program will have a fundamental understanding of disaster communication, the principles of hazard analysis and incident management with respect to chemical, biological, radiological, and nuclear incidents, disaster planning and coordination, agricultural safety and security, critical infrastructure protection, and the political, legal, psychological and social aspects of terrorism.

Admission Requirements

The objective of the admissions process is to identify and admit qualified graduate students who have the capacity, motivation and intellect to protect and serve local, state, and national interests with respect to the occurrence of or threat of a natural disaster or terrorist attack.

Qualified candidates will have a baccalaureate degree from a regionally accredited institution and are expected to have a 3.0 or higher undergraduate grade point average on a 4.0 scale. Scores on the General Test of the Graduate Record Examination (GRE) are generally required for all applicants. GRE requirements may be waived in selected cases for those with advanced degrees who have demonstrated the ability to perform graduate level work and have submitted scores for comparison on comparable standardized tests, such as the GMAT, MCAT, or LSAT. A statement of professional experience and goals (up to 500 words) and the candidate’s CV must accompany the application. Three letters of recommendation that attest to the applicant’s readiness for graduate study are also required.

Applicants whose native language is not English must provide evidence of proficiency in English with a minimum TOEFL score of 550 (paper-based test) or 220 (computer-based test). Special backgrounds, abilities, and interests related to homeland security are desirable. Students will be required to possess a suitably configured personal computer and Internet connections.

Transfer Credit

A maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master’s degree. However, credits earned to complete a previous master’s degree, whether at Penn State or elsewhere, may not be applied to a second master’s degree program at Penn State. Approval to apply any transferred credits toward a degree program must be granted by the student’s academic adviser, the program head or graduate officer, and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School of Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university. Pass-fail grades are not transferable to an advanced degree program unless the “Pass” can be substantiated by the former institution as having at least B quality.

Funding Sources

World Campus students who are enrolled in a degree program and meet all other federal student aid eligibility requirements may be eligible for federal aid programs. Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for student aid.

Other Financing Options

- **Tuition Assistance Programs:** Students should check with their employer on the availability of tuition assistance programs to help cover graduate school costs.
- **Veterans Programs:** Veterans enrolled in degree programs may be eligible for reimbursement when they successfully complete a World Campus course. Students should contact their local Office of Veterans Programs, or Penn State’s Office of Veteran’s Programs.
- **Alternative Loans:** World Campus students who need to explore additional financing options are encouraged to review the following private educational lenders:
  - Collassist
- **TERI Continuing Education Loans--for World Campus students who are non-degree or taking continuing education units (CEUs)**
- **World Campus Student Fund:** This scholarship is funded annually by World Campus staff members and students who understand that financial aid is not always available to distance learners--and when it is, the financial aid requirements are often difficult to meet. All scholarship monies awarded will be deposited directly into the recipients’ student accounts at Penn State.
- **Trustee Scholarship Program:** Eligible students demonstrating financial need as determined by the Free Application for Federal Student Aid (FAFSA) will be contacted.

Degree Requirements

To be awarded a Master of Homeland Security degree in Public Health Preparedness, the student must successfully earn a total of 30 credit hours, of which at least 18 must be in 500-level courses. Students are expected to maintain a B (3.0) or better average in academic courses to be retained in the program. Each candidate must complete a project report on a topic related to public health preparedness in homeland security.

Faculty Advisers

All graduate students will be assigned a faculty adviser to encourage and mentor students in their educational pursuits, and to provide students with advice on research projects and career opportunities. Interactive communication is available through telephone sessions and video conferencing. On-site campus visits are encouraged, but not required.

The Pennsylvania State University
Library Resources

The Penn State University Libraries provide an extraordinary array of collections and services to students who participate in classes through the World Campus. Students will have a Penn State Access Account that will allow them to access the online catalog, databases, digital library projects, and the growing number of full-text resources. The Libraries are able to service requests to scan print documents and deliver PDF documents at no charge through the University network. Students can also utilize the "ASK" reference service, which allows students to seek assistance through phone, e-mail, or synchronous online chats. Materials not owned by Penn State can be obtained through Interlibrary Loan services. ILLIAD, a service available through the Libraries' Web site, allows students to make and track their interlibrary loan requests without the need for an intermediary. The Libraries also operate an Electronic Reserves service that allows faculty members to make electronic materials available to students enrolled in a particular course. Students are always welcome to contact one of the Libraries' subject specialists for personalized assistance with their information needs.

PRESCRIBED COURSES: 27 credits

**HOMELAND SECURITY (HLS)**

410. Public Health Preparedness for Disaster and Bioterrorism Emergencies I (3)
510. Public Health Preparedness for Disaster and Bioterrorism Emergencies II (3)
520. Agricultural Biosecurity (3)
527. Public Health Evaluation of Disasters and Bioterrorism (3)
530. Critical Infrastructure Protection of Health Care Delivery Systems (3)
553. Disaster Communication (3)
558. Disaster Communication (3)
594. Research Project (3)

**GEOSCIENCES (GEOSC)**

402Y. Natural Disasters (3)

**POLITICAL SCIENCE (PL SC)**

439. The Politics of Terrorism (3)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

GEOSCIENCES (GEOSC) course list
HOMELAND SECURITY (HLS) course list
POLITICAL SCIENCE (PL SC) course list

Date last reviewed by Publications: 01/08/08
Last Revised by the Department: Fall Semester 2008
Blue Sheet Item #: 36-07-011
Review Date: 6/17/08
A candidacy examination is given to students entering the Ph.D. program and after they complete at least twelve hours of postbaccalaureate course work. Additional coursework may be required if competence in statistics is lacking. This may require that additional course work be taken. Competence in statistics is equivalent to those learned in STAT 501 and STAT 502. The candidacy examination committee and the doctoral committee will assess the student's background and needs before undertaking.

Assessment of technical writing and oral communication skills is made. The candidate may be required to improve these skills through formal course work or other means.

An average of 3.00 for work done at the University is required.

Doctoral Degree Requirements

The graduate program in Pathobiology is designed to provide flexibility in graduate work while providing opportunities to study immunology, microbiology, nutrition, biochemistry, virology, veterinary pathology, physiology, or toxicology, usually as related to problems seen in domestic animals and humans. Graduate instruction is directed by graduate faculty members from the Department of Veterinary Science and related units including dairy and animal science, biochemistry, biology, biophysics, immunology, nutrition, physiology, zoology, and others. The Ph.D. program is designed for completion in three to four academic years. Doctoral candidates usually complete certain required courses and obtain laboratory experience before selecting an area of specialization and completing an original research problem, including the defense of the Ph.D. dissertation.

The graduate program provides facilities for departmental research including laboratories in the Agricultural Sciences and Industries Building, Henning Building, Poultry Disease Laboratory, Animal Diagnostic Laboratory, Centralized Biological Laboratory, and Environmental Resources Research Institute. Opportunities to utilize specialized research equipment exist in other related facilities. The University has an extensive, modern library. A large University computer center and consultation service are available.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants with a 3.00 or better grade-point average (on a 4.00 scale) in undergraduate science courses and appropriate course backgrounds will be considered for admission. Applicants should have a baccalaureate degree in biological science or a degree as a graduate veterinarian or equivalent. Undergraduate preparation should include biology, chemistry, physics, mathematics through calculus, and preferably biostatistics and biochemistry.

Master's Degree Requirements

A minimum of 30 graduate credits is required for the M.S. degree, of which 18 credits must be taken in 500- and 600-level courses. Satisfactory completion of the following courses or their equivalent is required of all degree candidates: statistics, 3 credits; biochemistry or molecular and cell biology (usually chosen from B M B 400, B M B 401, B M B 402, B M B 437, and BMMB 514), 6 credits; and pathology (V SC 520), 3 credits. All graduate students are required to complete one semester of VB SC 590 Colloquium each year as well as 8 credits from a list of courses.

Pathobiology requires no program-specific qualifying examinations, and there is no communication/language requirement for the M.S. degree. A thesis is required of all candidates for the M.S. degree.

Doctoral Degree Requirements

The doctor of philosophy degree places a strong emphasis on research. It is conferred in recognition of the capacity to carry out independent research and the attainment of a high level of scholarship. General requirements for the doctorate specify a minimum period of residence, the passing of candidacy, comprehensive and final oral examinations, and the writing of a satisfactory dissertation. The particular combination of courses, seminars, individual study, and research that constitutes an individual student's program is arranged by the doctoral committee and should include the courses that have been designated in the Pathobiology graduate curriculum, subject to the general policies of the Graduate School.

The Graduate School requires no specified number of courses for the attainment of the doctorate. However, the Pathobiology graduate program requires that all graduate students complete the course requirements outlined. A total of 21 graduate credits is required for the Ph.D. degree. A minimum grade-point average of 3.00 for work done at the University is required.

There are formal communications requirements for the Ph.D. degree in Pathobiology which are required by the Graduate School. The doctoral committee will assess the technical writing and oral communication skills of the candidate and may require that formal course work or other means to improve these skills be undertaken.

The graduate program requires that each graduate student have 3 credits in statistics. However, Ph.D. candidates are expected to have statistical skills equivalent to those learned in STAT 501 and STAT 502. The candidacy examination committee and the doctoral committee will assess the student's competence in statistics and may require that additional course work be taken.

A candidacy examination is given to students entering the Ph.D. program and after they complete at least twelve hours of postbaccalaureate course work.
After being admitted to candidacy, each doctoral candidate is guided by a doctoral committee consisting of four or more members of the graduate faculty. At least one member and preferably two are from other departments. These committees are appointed through the Office of Graduate Student Programs, upon recommendation of the department head, after the student is admitted to candidacy.

Other Relevant Information

After a student has been admitted to graduate study in the department, an adviser will be appointed by the program director. This person may be a member of the eventual M.S. committee or someone else assigned the responsibility for directing the student’s scheduling of course work. In the case of a doctoral candidate, the person may be a member of the eventual doctoral committee or someone else designated the responsibility for directing the student’s scheduling of course work. The adviser is also responsible for initiating the scheduling of the candidacy examination.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Carol S. Weisman, Ph.D. (Johns Hopkins) Distinguished Professor of Public Health Sciences and OB/GYN
Jennifer T. Weinberg, Ph.D. (Iowa) Assistant Professor of Public Health Sciences
Linda A. Wray, Ph.D. (U Southern California) Associate Professor of Biobehavioral Health
Chuntao Wu, M.D., Ph.D. (SUNY Albany, North China Coal Medical College) Assistant Professor of Public Health Sciences
Rongliang Wu, Ph.D. (U Washington) Professor of Public Health Sciences and Statistics
Roger T. Anderson, Ph.D. (Johns Hopkins) Professor of Public Health Sciences; Chief, Health Services Research Division
Kwangmi Ahn, Ph.D. (SUNY Stony Brook) Assistant Professor of Public Health Sciences

The Master of Public Health (M.P.H.) Program includes graduate-level course work in five core areas of knowledge – health services administration, biostatistics, epidemiology, social and behavioral sciences, and environmental health sciences – and provides knowledge and insight required in the interpretation and utilization of health related research in public health practice. Students learn population-based health research methods, methods for evaluating and improving health care practices, and first-hand real-world working experience in the practice of public health.

The M.P.H. degree can lead to careers in a wide variety of fields and settings, including academic health centers; the health insurance industry; health services networks; local, state, and federal government agencies; and the pharmaceutical industry.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

M.P.H. Degree Requirements

Each student must complete a total of 47 credits of graduate level course work, the majority of which are 500 level courses, specifically:

- 26 credits in prescribed courses, with a 6 credit Public Health Practice Internship,
- 18 credits in elective courses, plus
- 3 research credits.

Prescribed Courses: 26 credits

PHS 500(1), PHS 504(3), PHS 520(3), PHS 536(3), PHS 542(3), PHS 550(3), PHS 571(3) or HPA 520, PHS 595(6), PHS 801(1)

Required Research Courses: 3 credits

PHS 594(3)

Additional Courses: 18 credits

Degrees Conferred:
Ph.D., M.A.

The Graduate Faculty

- Robert Bernasconi, Ph.D. (Sussex U) Edwin Erle Sparks Professor of Philosophy
- Brady Bowman, Ph.D. (Freie Universität Berlin) Assistant Professor of Philosophy
- John P. Christman, Ph.D. (Illinois, Chicago) Professor of Philosophy, Political Science, and Women's Studies
- Vincent M. Colapietro, Ph.D. (Marquette) Liberal Arts Research Professor of Philosophy
- Véronique M. Foli, Ph.D. (Boston College) Professor of Philosophy
- Kathryn Gines, Ph.D. (Memphis) Assistant Professor of Philosophy
- Emily R. Grosholz, Ph.D. (Yale) Liberal Arts Research Professor of Philosophy and African American Studies; Fellow of the Institute for the Arts and Humanities
- Irene E. Harvey, Ph.D. (York) Associate Professor of Philosophy and Women's Studies
- Leonard Lawlor, Ph.D. (SUNY at Stony Brook) Edwin Erle Sparks Professor of Philosophy
- Christopher P. Long, Ph.D. (New School, New York) Professor of Philosophy and Classics; Associate Dean for Undergraduate Studies, College of the Liberal Arts
- Jonathan H. Marks, M.A., B.C.L. (Oxford) Associate Professor of Bioethics, Humanities, Law, and Philosophy
- Evelyn B. Pluchar-Moravetz, Ph.D. (Michigan) Professor of Philosophy
- Dennis J. Schmidt, Ph.D. (Boston College) Liberal Arts Research Professor of Philosophy, German, and Comparative Literature
- Shannon Sullivan, Ph.D. (Vanderbilt) Head; Professor of Philosophy, Women's Studies, and African American Studies
- Paul C. Taylor, Ph.D. (Rutgers) Associate Professor of Philosophy; Head, Department of African American Studies
- Nancy Tuana, Ph.D. (California, Santa Barbara) DuPont/Class of '49 Professor of Philosophy and Women's Studies; Director, Rock Ethics Institute

Graduate education in the Penn State Department of Philosophy is characterized by a focus on, and commitment to, the history of philosophy, conceived as a basis for study in diverse areas of special interest. In addition, the graduate program includes special emphases on both contemporary Continental philosophy (including phenomenology, existentialism, hermeneutics, social theory, and postmodernism) and Classical American philosophy (including transcendentalism, semiotics, pragmatism, and contemporary cultural issues). All students' programs are arranged to facilitate preparation in the systematic fields of their interests, such as aesthetics, ethics, political philosophy, metaphysics, philosophy of religion, epistemology, philosophy of science, and mathematical logic, and there is a provision for directed research, collaboration, and in-depth consultation by students with member of the faculty.

Interdisciplinary study is also possible across the humanities, the social sciences, the arts, the natural sciences, and interdisciplinary programs such as Women’s Studies, Classics and Ancient Mediterranean Studies, and Science Technology, and Society. The Philosophy department offers students the opportunity to earn a dual-title doctoral degree in Philosophy and Women's Studies. Doctoral minors are available in social thought and in literary theory, criticism, and aesthetics. Study abroad is possible as well, through exchange programs or individual arrangements with leading departments of philosophy.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Undergraduate preparation is advisable.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities, and interests.

Degree Requirements

The department may waive the requirement of a thesis for an M.A. candidate. The foreign language requirement for the Ph.D. degree is satisfied by passing department translation examinations in two languages other than English, and by completing a course in philosophy in one of the these languages. The logic requirement for the Ph.D. degree is satisfied by passing a department logic examination.

Student Aid

Every student admitted to the department's Ph.D. program receives full assistantship or fellowship funding (stipend and tuition waiver) for five years (assuming reasonable progress). In addition to the many fellowships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the department awards annually an Edwin Erle Sparks Fellowship in the Humanities. In the last several years, Philosophy graduate students have received numerous external national and international fellowships and awards (such as DADD, Fulbright, Javits, Mellon). Many Philosophy graduate students have received assistantship support for interdisciplinary teaching assignments in programs such as American Studies, Classics and Ancient Mediterranean Studies, Religious Studies, and Women's Studies.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Vernon M. Chinchilli, V.M.D. (Pennsylvania) Professor of Public Health Sciences

The Master's Program in Public Health Sciences includes graduate-level course work in biostatistics, epidemiology, and health services research, and provides knowledge and insight required in health related research. Students learn population-based methods for planning, executing, analyzing, and disseminating research results, and methods for evaluating and improving health care practices.

Admission Requirements
Prospective applicants for this program should have at least a bachelor's degree in a biological, physical, or behavioral science. Please see the program Web page for specific program application requirements.

Master's Degree Requirements

Each student in Public Health Sciences is expected to acquire breadth of knowledge in the disciplines of Biostatistics, Epidemiology and Health Services Research, and skills in the areas of experimental design, data collection and quantitative analysis. The PHS Master of Science degree can lead to careers in a wide variety of fields and settings, including academic health centers; the health insurance industry; health services networks; local, state, and federal government agencies; and the pharmaceutical industry. Each student must complete at least 30 credits at the 500 level or higher. Each student must submit an original Master's thesis according to the guidelines outlined by the Graduate School.

Prescribed Courses: 16 credits

PHS 500(1), PHS 520(3), PHS 521(3), PHS 535(3), PHS 550(3), PHS 551(3)

Additional Courses: 11 credits

Research Courses: 3 credits

PHS 594(3)

Thesis Research: 6 credits

PHS 600 (6)

Courses in Health Policy and Administration (HPA) and Statistics (STAT) may be taken as elective courses and will be considered on an individual basis in consultation with the student's academic adviser. Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. Each student must register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Daniel R. Hagen, Ph.D. (Illinois) Professor of Animal Science
- William O. Hancock, Ph.D. (Washington) Associate Professor of Bioengineering
- Leonard S. Jefferson, Jr., Ph.D. (Vanderbilt) Evan Pugh Professor of Physiology and Chair, Cellular and Molecular Physiology
- Vandana Kahlia, Ph.D. (Pittsburgh) Assistant Professor of Veterinary and Biomedical Sciences
- Sreenivas Kanugula, Ph.D. (Hyderabad) Associate Professor of Cellular and Molecular Physiology
- Gordon L. Kaufman, M.D. (Michigan) Professor of Surgery and Cellular and Molecular Physiology
- Mary Kennaett, D.V.M., Ph.D. (Missouri, Columbia) Associate Professor of Veterinary Science and Biomedical Sciences
- W. Larry Kenney, Ph.D. (Penn State) Professor of Physiology and Kinesiology
- Ronald S. Kessler, Ph.D. (Florida) Research Professor of Animal Nutrition/Physiology
- Gary J. Killian, Ph.D. (Penn State) Distinguished Professor of Reproductive Physiology
- Susan W. Kline, Ph.D. (Penn State) Associate Professor of Cellular and Molecular Physiology
- Donna H. Korzick, Ph.D. (Penn State) Associate Professor of Kinesiology and Physiology
- Charles H. Lang, Ph.D. (Hahnemann) Distinguished Professor and Vice Chair of Cellular and Molecular Physiology, and Surgery
- Kathryn A. Lashley, Ph.D. (Penn State) Distinguished Professor of Physiology and Kinesiology
- Roland M. Leach, Jr., Ph.D. (Cornell) Walther H. Ott Professor in Avian Biology
- Richard S. Legro, M.D. (Mount Sinai) Professor of Obstetrics and Gynecology
- Ira L. Lipow, Ph.D. (California, San Diego) Professor and Head, Bioengineering
- Christopher J. Lynch, Ph.D. (Northeastern) Professor of Cellular and Molecular Physiology
- James H. Maedgen, Ph.D. (Vermont) Professor of Biology
- Magdi M. Mashaly, Ph.D. (Wisconsin) Associate Professor of Poultry Science
- Robert B. Mitchell, Ph.D. (Penn State) Professor of Biology
- Jon Overley, Ph.D. Assistant Professor of Reproductive Physiology and Kinesiology
- James A. Pawelczyk, Ph.D. (North Texas) Associate Professor of Physiology and Kinesiology
- Anthony E. Pegg, Ph.D. (Cambridge) Evan Pugh Professor of Cellular and Molecular Physiology and Pharmacology; J. Lloyd Hick Professor of Cell and Molecular Biology
- Blaise Peterson, Ph.D. (Washington) Associate Professor of Cellular and Molecular Physiology
- Lisa S. Portz, MD. (Northwestern) Assistant Professor of Surgery and Cellular and Molecular Physiology
- David N. Proctor, Ph.D. (Kent State) Associate Professor of Kinesiology and Physiology
- Stephen R. Rannels, Ph.D. (Penn State) Associate Professor of Cellular and Molecular Physiology
- Chester A. Ray, Ph.D. (Georgia) Professor of Medicine, and Cellular and Molecular Physiology
- Gavin Robertson, Ph.D. (California) Associate Professor of Pharmacology, Pathology, and Dermatology
- Barbara J. Rolls, Ph.D. (Cambridge, England) Professor and Guthrie Chair in Nutrition
- Surojit Sarkar, Ph.D. (Pittsburgh) Assistant Professor of Veterinary and Biomedical Sciences
- Russell C. Scadden, Jr., Ph.D. (Indiana) Associate Professor of Cellular and Molecular Physiology
- Lisa M. Shantz, Ph.D. (Johns Hopkins) Associate Professor of Cellular and Molecular Physiology
- Neil A. Sharkey, Ph.D. (California, Davis) Professor of Kinesiology, Orthopaedics, and Rehabilitation
- Cooduvalli S. Shankaran, Ph.D. (Hyderabad, India) Associate Professor of Molecular and Developmental Biology
- Jeffrey S. Shenberger, MD (Penn State Hershey) Associate Professor of Pediatrics and Cellular and Molecular Physiology
- Yuguang (Roger) Shi, Ph.D. (Australian National University & UC-Davis) Associate Professor of Cellular and Molecular Physiology
- Ian Simpson, Ph.D. (London) Professor of Neuro and Behavioral Sciences and Cellular and Molecular Physiology
- Jill P. Smith, M.D. (Florida) Professor of Medicine, Division of Gastroenterology
- Diane M. Thiboutot, MD. (Penn State Hershey) Professor of Dermatology
- James Ulman, Ph.D. (Delaware, Newark) Distinguished Professor of Chemical Engineering and Bioengineering
- Thomas C. Vary, Ph.D. (Penn State) Distinguished Professor of Cellular and Molecular Physiology
- Regina Vasilatos-Youken, Ph.D. (Penn State) Professor of Endocrine Physiology and Nutrition
- Nancy J. Williams, Sc.D. (Boston) Associate Professor of Kinesiology
- Jiye Zhu, Ph.D. (Dartmouth) Associate Professor of Cellular and Molecular Physiology

This is an intercollege program designed to enable students to obtain an integrated series of courses encompassing both the fundamentals of physiology and advanced training in a specialized area. Courses can be taken either at the College of Medicine at University Park campus.

Graduate instruction in physiology is under the direction of the program committee, composed of graduate faculty from several departments at University Park—incorporating the teaching of cell biology, biochemistry, general biology, histology, microanatomy, physiology, and nutrition, as well as the Department of Cellular and Molecular Physiology at the College of Medicine. The master's program, including courses, laboratory experience, and original research, is designed for completion in approximately two years, while the doctoral degree requires approximately five years.

The Pennsylvania State University
Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements
Deficiencies in chemistry, biological science, mathematics (through a second course in calculus), and physics must be made up early in the student's graduate program. All candidates must complete a general basic laboratory course in physiology (combined cellular, mammalian, and comparative) before choosing an area of specialization. Possible areas of specialization are cardiovascular and respiratory physiology; cellular and subcellular physiology; comparative physiology; environmental physiology; exercise physiology; physiology of nutrition and metabolism; neurophysiology; renal physiology; and reproductive physiology. The graduate committee shall be appropriately represented by members of the physiology program committee and those of the area of specialization who shall have the responsibility and jurisdiction for determining the course program and research acceptable in satisfying degree requirements. The nonthesis option is available for the M.S. degree on a limited basis.

The communication and foreign language requirement for the Ph.D. degree may be satisfied by one of several options including intermediate knowledge of one foreign language.

Other Relevant Information
The following courses, among others, are available for physiology majors, and their descriptions may be found under the offerings of several departments: AGRO 545; AN SC 420, AN SC 423, AN SC 431W, AN SC 502, AN SC 514, AN SC 515; B M B 400, B M B 401, B M B 402, B M B 437; BIOE 402, BIOE 501, BIOE 502, BIOE 503, BIOE 504, BIOE 505, BIOE 506, BIOE 507, BIOE 552, BIOE 553, BIOE 560, BIOL 409, BIOL 428, BIOL 437, BIOL 445, BIOL 446, BIOL 461, BIOL 462, BIOL 463, BIOL 464, BIOL 465, BIOL 473, BIOL 476, BIOL 477, BIOL 479, BIOL 529, BIOL 530, BIOL 531, BIOL 532, BIOL 533, BIOL 534, BIOL 535, BIOL 536, BIOL 539, BIOL 544, BIOL 550; CMBIO 412; EPBIO 400, EDPSY 400, EDPSY 406, EDPSY 450, EDPSY 506, EDPSY 507; KINES 456, KINES 457, KINES 484, KINES 530, KINES 555, KINES 556, KINES 577, KINES 587; MICRB 400, MICRB 410, MICRB 412; NUC E 405, NUC E 420; NURS 503; NUTR 452, NUTR 515, NUTR 516, NUTR 582; PHSIO 503, PHSIO 506, PHSIO 507; PHYS 400, PHYS 402, PHYS 420; PTYSC 415, PTYSC 455; PSYCH 453, PSYCH 464, PSYCH 466, PSYCH 527; STAT 460, STAT 462, STAT 464, STAT 500, STAT 501, STAT 502, STAT 503, STAT 505; V SC 405, V SC 420.

The following courses are offered at the College of Medicine: ANAT 503, ANAT 505, ANAT 510, ANAT 512, ANAT 515, ANAT 535, ANAT 542, ANAT 543, ANAT 544, ANAT 545, ANAT 550; BCHM 505, BCHM 523, BCHM 528, BCHM 551, BCHM 553; L A M 501, L A M 503, L A M 507, L A M 510, L A M 515; MICRO 552, MICRO 554, MICRO 555, MICRO 559; NEURO 509, NEURO 510, NEURO 515, NEURO 526, NEURO 527, NEURO 528, NEURO 550; PHARM 505, PHARM 511, PHARM 515, PHARM 520, PHARM 540, PHARM 550. Descriptions of these courses can be found under the designated program.

Physiology Minor
The objective of the doctoral minor in Physiology is to augment the training of doctoral students with a coordinated group of courses that provide an integrated perspective of physiology from the molecular to the organismal level. It is expected that most students pursuing the minor will be graduate degree candidates in basic biological sciences, health sciences, or bioengineering.

The graduate minor in Physiology requires the following. (1) BIOL 472. If the student took a one-semester, upper-level undergraduate mammalian physiology course as an undergraduate, then this requirement may be waived with approval by the chair of the Physiology program. (2) PHSIO 571 and PHSIO 572. If these courses are required for the major, then substitute an equal number of credits in 500-level Physiology elective courses. (3) A 3-credit, 500-level Physiology elective course. (4) Select additional credits from 500-level Physiology courses or a relevant 400- or 500-level course so that the total course credits for the minor is 15. These 15 credits cannot include course work that is used to fulfill requirements in the student's major. (5) Elective courses for the minor must be approved by the chair of the Physiology program. For a list of suggested courses, see "Other Relevant Information" in the Physiology section of this bulletin. (6) Students must earn a grade of C or better in each course in the minor and maintain an overall average of 3.00 in the minor. (7) One member of the doctoral committee must be a faculty member in the Intercollege Graduate Degree Program in Physiology.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

MRS. A. ROBERT NOLL GRADUATE FELLOWSHIP IN APPLIED PHYSIOLOGY
For graduate research in applied physiology, especially in environmental or exercise physiology; stipend variable.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
The Pennsylvania State University

Required courses include PHYS 517, PHYS 525, PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561, PHYS 562, and a first-year seminar.

Ph.D. program:
Doctoral Degree Requirements
by the department. A thesis or term paper must be submitted and accepted.

M.Ed. program:
At least 18 credits in physics are required, of which up to 6 credits may be for research. Six additional nonresearch science credits (which may be in physics) and a 6-credit minor in a field of professional education also must be included. A thesis or examination for either option.

M.S. program:
Required courses include PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561. There are two options. Thesis option: The thesis must be based on at least 6 credits of PHYS 600 and must conform to Graduate School regulations. Nonthesis option: An additional 6 credits of 500-level physics courses beyond the required ones must be taken, and a short paper must be submitted to, and accepted by, the department. There is no degree examination for either option.

Admission and study programs for the M.Ed. degree are handled on an individual basis.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School Requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

A bachelor's degree in physics or an allied field is required for admission to the M.S., and Ph.D. programs. Students with a 2.50 or higher junior/senior grade-point average (on a 4.00 scale) in physics and mathematics will be considered, and the best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 2.50 GPA may be made for students with special backgrounds, abilities, and interests. Exceptions may also be made for applicants for doctoral programs who have completed master’s degrees at other institutions.

Admission and study programs for the M.Ed. degree are handled on an individual basis.

Master’s Degree Requirements
M.S. program: Required courses include PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561, or PHYS 410. There are two options. Thesis option: The thesis must be based on at least 6 credits of PHYS 600 and must conform to Graduate School regulations. Nonthesis option: An additional 6 credits of 500-level physics courses beyond the required ones must be taken, and a short paper must be submitted to, and accepted by, the department. There is no degree examination for either option.

M.Ed. program: At least 18 credits in physics are required, of which up to 6 credits may be for research. Six additional nonresearch science credits (which may be in physics) and a 6-credit minor in a field of professional education also must be included. A thesis or term paper must be submitted and accepted by the department.

Doctoral Degree Requirements
Ph.D. program: Required courses include PHYS 517, PHYS 525, PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561, PHYS 562, and a first-year seminar.
series. Courses required beyond these depend on the Ph.D. option. Students take at least four additional 3-credit, 500-level physics courses.

A candidacy examination is given at the end of the first year, a comprehensive examination approximately two years after the candidacy examination, and a final thesis defense takes place after the completion of the thesis. There is no departmental foreign language requirement, although a reading knowledge of one foreign language may be needed in some areas of research.

**Student Aid**

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the [STUDENT AID](#) section of the [Graduate Bulletin](#), the following awards typically have been available to graduate students in this program:

**HOMER F. BRADDOCK GRADUATE FELLOWSHIPS** Available to exceptional Ph.D. candidates in several departments of the Eberly College of Science. They carry stipends of $3,500 to $7,500 per year for each of the first three years.

**WHEELER P. DAVEY MEMORIAL FELLOWSHIPS** Carry stipend of variable amount and are available to a limited number of qualified graduate students in the Eberly College of Science.

**DAVID C. DUNCAN GRADUATE FELLOWSHIPS** Available to first- and second-year graduate students in physics and carry a stipend of approximately $2,000 per year for each of the first two years.

**Frymoyer Scholarship**

**W. DONALD MILLER GRADUATE FELLOWSHIP**

**DAVID H. RANK MEMORIAL PHYSICS AWARD**

**THE NELLIE AND OSCAR L. ROBERTS FELLOWSHIPS** Available to graduate students majoring in the physical sciences and in biochemistry and molecular biology. Each award is for $4,000 per year for one or two years.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

[PHYSICS (PHYS) course list](#)
The purpose of the graduate program in Political Science is to train professional political scientists who intend to pursue careers in research, teaching, and public service. The department offers programs leading to the M.A. and Ph.D. degrees. The programs are designed to enable students to acquire both methodological sophistication and substantive knowledge in a variety of fields.

The graduate program in Political Science encourages the study of a variety of substantive concerns, methodological approaches, and research skills. Among the department’s special areas of strength are United States politics and political behavior (legislative politics, public opinion and voting, parties and interest groups, and judicial process); political and social theory; international relations and peace science; and the politics of western and eastern Europe, Latin America, and South Asia; international conflict; international political economy; democratization; social movements; political culture; gender and politics. A dual-degree program with Women's Studies is also available.

Admission Requirements

Entrance to the Political Science graduate program occurs in the fall semester. Applications must be received by the department not later than January 15 for fall admission. However, the department will begin accepting applications as of September 1.

The Department of Political Science requires M.A. and Ph.D. program applicants to submit transcripts, Graduate Record Examinations (GRE) scores (verbal, quantitative, and analytical), a statement of career plans and proposed emphasis in political science, at least three letters of recommendation from persons familiar with the applicant’s academic performance, and a writing sample demonstrating research and/or analytical skills.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test.

The dual-degree program with Women's Studies is also available.

Master's Degree Requirements

Depending on the student's previous methodological training, 30 credits of course work, including an essay, are required for a master's degree. The course work includes a methodological core of 9 credits (PL SC 501, 502, and 503); 12 credits in a primary field (including the survey seminar in the field); 6 credits in a secondary field; and 3 credits for the M.A. essay. Students also take a seminar on teaching and professional development in political science. There are no language requirements for the degree. Every master's candidate is required to pass an examination of their master's essay.

In the case of transfer students, a maximum of 10 credits earned in an advanced degree program at another university or in another department at Penn State will count toward the 30-credit requirement.

Doctoral Degree Requirements

The Department of Political Science requires a minimum total of 60 post baccalaureate credits for the Ph.D. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement. At least 45 credits, exclusive of the dissertation, must be in political science.
Dual-Title Graduate Degree in Political Science and Asian Studies

Graduate students with research and educational interests in international education may apply to the Political Science/Asian Studies Degree Program. The goal of the dual-title degree Political Science and Asian Studies is to enable graduate students from Political Science to acquire the knowledge and skills of their major area of specialization in Political Science while at the same time gaining the perspective of Asian Studies.

In order to provide graduate students for the competitive job market, this program provides them with a solid disciplinary foundation that will allow them to compete for the best jobs in their field. For such students the dual-title Ph.D. in Asian Studies will add value to their degree and their status as candidates. It will produce excellent political scientists who are experts in Asian Studies as well. The dual-title degree Political Science and Asian Studies will build curricular bridges beyond the student’s major field so as to provide a unique training regime for the global scholar.

Admission Requirements

For admission to the Dual-Title Ph.D. degree, a student must first apply and be admitted to the Political Science graduate program. After admission to the Political Science graduate program, a student must then apply for admission to the Asian Studies Program. The Asian Studies admissions committee reviews applications and recommends student for admission to the Asian Studies program to the Graduate School. Applicants should have a junior/senior cumulative average of at least 3.00 (on a 4.00 scale) and appropriate course background. Students already in their first and second years of the Political Science graduate program may also apply to the dual-title program.

In addition to the requirements of the Graduate School and Political Science, applicants interested in the dual-title program should also make their interest in the dual-degree program known clearly on their applications and include remarks in their statement of purpose that address the ways in which their research and professional goals reflect an interest in interdisciplinary and Asian Studies-related research.

Degree Requirements

To qualify for an Asian Studies degree, students must satisfy the requirements of the Political Science program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Asian Studies committee. Within this framework, final course selection is determined by the student, their Asian Studies advisor, and their Political Science program advisor.

Upon a student's acceptance by the Asian Studies admissions committee, the student will be assigned an Asian Studies academic advisor in consultation with their Political Science advisor. As students develop specific scholarly interests, they may request that a different Asian Studies faculty member serve as their advisor. The student and advisor will discuss a program of study that is appropriate for the student's professional objectives and that is in accord with the policies of The Graduate School, the Political Science department and the Asian Studies program.

Requirements for the Political Science/Asian Studies Ph.D.

The doctoral degree in Political Science and Asian Studies is awarded only to students who are admitted to the Political Science doctoral program and admitted to the dual-title Ph.D. degree in Asian Studies. The minimum course requirements for the dual-title Ph.D. degree in Political Science and Asian Studies are as follows:

- A minimum total of 60 postbaccalaureate credits. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement.
- At least 45 credits, exclusive of dissertation, must be in political science.
- Course work in two major fields (the first of which is Political Science) and one minor field (in a regular political science subfield).
- Course work in Political Science subfields, and ASIA 501 and 502.
- Completion of two, 1.5 credit seminars on teaching, writing, and professional development in political science.
- Completion of introductory field seminars appropriate to one’s three fields of study.
- Completion of two, 1.5 credit seminars on teaching, writing, and professional development in political science.
- Completion of 15 credits of Asia-related coursework at the 400 or 500 level. At least 6 of these 15 credits will be from ASIA 501 and 502. As many as 6 may come from Political Science, as approved by the student’s advisor and the Asian Studies Program director of graduate studies. The remaining 3 credits can be taken in ASIA or in any department other than Political Science.
- All skills proficiency is one Asian Language AND two years’ college study (or equivalent knowledge) of another Asian language or alternative proficiency appropriate to the student’s field.

Particular courses may satisfy both the Political Science requirements and those of the Asian Studies program. Final course selection is determined by the student in consultation with their dual-title program advisors and their major program advisors.

Dual-Title Graduate Degree in Political Science and African Studies

Political Science doctoral students, who have research and educational interests in comparative policy analyses, environmental change and livelihood systems, socio-economic and political change, and other aspects of African Studies may apply to the Dual-Title Doctoral Degree Program in Political Science and African Studies. The goal of the program is to enable graduate students from Political Science to complement their knowledge and skills in a major area of specialization in Political Science with in-depth knowledge of prevailing theories on and problem-solving approaches to thematic, regional, or national issues pertaining to African development and change.

The Dual-Title Doctoral Degree Program provides interested Political Science doctoral students with a multidisciplinary approach that enhances their analytical capabilities for addressing key issues in African development and adds value to their Political Science degree by increasing their competitiveness in the job market. The well-rounded, regional specialist who graduates from this program, is likely to be employed in an international setting. The program, therefore, enhances the reputation of the Political Science department, the College of the Liberal Arts, and Penn State.

Admission Requirements

Students must apply and be admitted to the graduate program in Political Science and The Graduate School before they can apply for admission to the dual-title degree program. Applicants interested in the dual-title degree program may make their interest in the program known clearly on their applications to Political Science and include remarks in their statement of purpose that address the ways in which their research and professional goals in political science reflect an interest in African Studies-related research.

To be enrolled in the Dual-Title Doctoral Degree Program in African Studies, a student must submit a letter of application and transcript, which will be reviewed by an African Studies Admissions Committee. An applicant must have a minimum grade point average of 3.0 (on a 4 point scale) to be considered for enrollment in the dual-title degree program. Students must apply for enrollment into the dual-title degree program in African Studies prior to obtaining candidacy in Political Science.

General Graduate Council requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements
To qualify for the dual-title degree, students must satisfy the requirements of the Political Science program in which they are primarily enrolled. In addition, they must also satisfy the requirements described below, as established by the African Studies Program. Final course selection is determined by the student in consultation with the Political Science and African Studies academic advisors.

Upon acceptance by the African Studies admissions committee, the student will be assigned an African Studies academic advisor in consultation with the African Studies director and the African Studies admissions committee.

As a student develops specific scholarly interests, s/he may request a different African Studies advisor from the one assigned by the African Studies admissions committee. The student and Political Science and African Studies academic advisors are to establish a program of study that is appropriate for the student’s professional objectives and that is in accordance with the policies of the Graduate Council, the Political Science graduate program and the African Studies Program.

Requirements for the Political Science-African Studies Ph.D.

The Ph.D. in Political Science and African Studies is awarded to students who are admitted to the Political Science doctoral program and admitted subsequently into the dual-title degree in African Studies. The minimum course requirements for the dual-title Ph.D. degree in Political Science and African Studies are as follows.

- A minimum of 60 post-baccalaureate credits. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement. At least 45 credits, exclusive of dissertation research credits, must be in Political Science.
- Completion of coursework in two major fields (the first of which is a Political Science subfield as detailed in the Political Science graduate handbook, and the second of which is in African Studies) and one minor field (in a regular Political Science subfield).
- Completion of the designated core of courses in methodology (PL SC 501, 502, and 503).
- Completion of two 1.5-credit seminars on teaching, writing, and professional development in Political Science.
- Completion of introductory field seminars appropriate to one’s two political science fields of study.
- AFR 501 (3)
- 15 credits of Africa-related coursework at the 400 or 500-level; minimum of 3 of these credits must be taken from a list of courses maintained by the African Studies program chair.
- As many as 6 of the 15 credits may come from Political Science, as approved by the student’s Political Science and African Studies Program academic advisors.
  - The remaining credits can be taken in AFR or in any department other than Political Science. Of these, no more than 6 credits may be taken at the 400-level and no more than 3 combined credits may come from 596 and 599 listings.
  - Communication and foreign language requirements, which will be determined by the student, the Political Science and African Studies Program advisors in accordance with the existing Political Science language requirements.

Language Requirement

The language requirement for a student in the Dual-Title Doctoral Degree Program will be determined by the student and the Political Science and African Studies Program advisors in accordance with the existing Political Science language requirements. The Political Science Foreign Language/Research Skills Competency requirement, contained in the Political Science Graduate Handbook, indicates that Doctoral students must satisfy one of the following four options to demonstrate proficiency in foreign language and/or research skills:

1) Reading proficiency and translation skills in two foreign languages. Proficiency is certified by the School of Languages and Literatures at Penn State. The School’s website details the procedures that students must follow to obtain certification (see http://sll.la.psu.edu/langprof.htm).
2) Superior command of one foreign language. Superior command is defined as the ability to use the language to conduct field research abroad. This may include the ability to live and work in the relevant foreign country; the ability to converse with librarians, government officials, and other gatekeepers of documents and information; and the ability to conduct interviews with citizens or officials. There is no single test or criterion for demonstrating superior command of a foreign language. Rather, the student must provide to the doctoral committee letters from language instructors, faculty who have conducted fieldwork in the language in question, and similar documents so that its members can determine if the language skill is sufficient given the student’s specialization and subfield.
3) Reading and translation proficiency in one foreign language plus a grade of B or higher in an advanced statistics course (i.e., material beyond that covered in PL SC 503) which has been approved by the student’s doctoral advisor and the Director of Graduate Studies.
4) A statistical methods specialization consisting of three advanced statistics courses (each covering material beyond what is covered in PL SC 503). Students must receive a grade of B or higher in each class. The selection of courses must be approved by the student’s doctoral advisor and the Director of Graduate Studies. These advanced courses may overlap with the advanced courses used if methodology is chosen as the student’s first or second minor field.

Candidacy Exam

The dual-title degree will be guided by the Candidacy Exam procedure of the Political Science graduate program. The candidacy exam for the dual-title degree may be given after at least 18 post-baccalaureate credits have been earned in graduate courses; it must be taken within three semesters (summer sessions do not count) of entry into the Political Science graduate program. There will be a single candidacy examination, containing elements of both Political Science and African Studies.

The candidacy examination committee for the dual-title degree will be composed of graduate faculty from Political Science and at least one graduate faculty member from African Studies Program. The designated dual-title faculty member may be appointed from Political Science if that person holds a formal appointment with the African Studies program.

Committee Composition

The doctoral committee of a dual-title doctoral degree student must include a minimum of four Graduate Faculty members, i.e., the chair and at least three additional members. The committee must include at least one member of the African Studies graduate faculty.

If the chair of the committee representing Political Science is not also a member of the graduate faculty in African Studies, the member of the committee representing African Studies should be appointed as co-chair.

Comprehensive Exam

After completing all course work, doctoral candidates for the dual-title doctoral degree in Political Science and African Studies must pass a comprehensive examination that includes written and oral components. Written components will be administered on a candidate’s major Political Science subfield and African Studies. The African Studies representative on the student’s doctoral committee will develop questions for and participate in the evaluation of the comprehensive examination. The African Studies component of the exam will be based on the student’s thematic, national or regional area of interest and specialization in African Studies.

Dissertation and Dissertation Defense

Upon completion of the doctoral dissertation, the candidate must pass a final oral examination (the dissertation defense) to earn the Ph.D. degree. Students enrolled in the dual-title program are required to write and orally defend a dissertation on a topic that reflects their original research and education in Political Science and African Studies.

Other Relevant Information

Penn State is a member of the Committee on Institutional Cooperation (CIC), an association of the Big Ten universities and the University of Chicago. The CIC sponsors many programs and scholarships, which provides doctoral-level students with an opportunity to study at another CIC university. In addition to participating in CIC programs, the department sponsors attendance at the ICPSR Summer program at the University of Michigan.

Student Aid

The Pennsylvania State University
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

- Charles T. Anderson, Ph.D. (Stanford) Assistant Professor of Biology
- Richard N. Arneca, Ph.D. (Washington State) Professor of Horticultural Physiology
- Sarah M. Assmann, Ph.D. (Stanford) Waller Professor of Biology
- Michael Axtell, Ph.D. (California, Berkeley) Associate Professor of Biology
- Robert D. Berghage, Ph.D. (Michigan State) Associate Professor of Horticulture
- Andrew G. Vlachonas, Ph.D. (Rochester) Professor of Chemistry
- Kathleen M. Brown, Ph.D. (Florida) Professor of Postharvest Physiology
- Nicole R. Brown, Ph.D. (Virginia Tech) Associate Professor of Wood Science
- Andrew J. Carpenter, Ph.D. (California, Irvine) Professor of Biology
- Consuelo DeMoraes, Ph.D. (Georgia) Professor of Entomology
- Claude DePamphilis, Ph.D. (Georgia) Professor of Biology
- David M. Eissenstat, Ph.D. (Utah State) Professor of Woody Plant Physiology
- James E. Foland, Ph.D. (California, Davis) Professor of Plant Genetics
- John H. Golbeck, Ph.D. (Indiana) Professor of Biochemistry and Biophysics
- Ying Gu, Ph.D. (California, Riverside) Assistant Professor of Biochemistry and Molecular Biology
- Mark J. Guiltinan, Ph.D. (California, Irvine) Professor of Plant Molecular Biology
- David Huff, Ph.D. (California, Davis) Associate Professor of Turfgrass Breeding and Genetics
- Seogchan Kang, Ph.D. (Wisconsin) Professor of Plant Pathology
- Teh-hui Kao, Ph.D. (Yale) Professor of Biochemistry and Molecular Biology
- Roger Koide, Ph.D. (California, Berkeley) Professor of Horticultural Ecology
- Dawn S. Luthe, Ph.D. (Wisconsin--Madison) Professor of Plant Stress Biology
- Jonathan P. Lynch, Ph.D. (California, Davis) Professor of Plant Nutrition
- Hong Ma, Ph.D. (MIT) Distinguished Professor of Biology
- Timothy McNellis, Ph.D. (Yale) Associate Professor of Plant Pathology
- Mark C. Mescher, Ph.D. (Georgia) Assistant Professor of Entomology
- Greg N. Monshausen, Ph.D. (Bonn) Assistant Professor of Biology
- Christopher A. Mullin, Ph.D. (Cornell) Professor of Entomology
- B. Tracy Nixon, Ph.D. (MIT) Professor of Biochemistry and Molecular Biology
- Andrew G. Stegnerson, Ph.D. (Michigan) Professor of Biology
- Ming Tien, Ph.D. (Michigan) Professor of Biochemistry and Molecular Biology
- James Tumlinson, Ph.D. (Mississippi State) Ralph O. Mumma Professor of Entomology
- Yingong Yang, Ph.D. (Florida) Associate Professor of Plant Pathology

The Intercollege Graduate Degree Program in Plant Biology includes faculty from nine departments in the College of Agricultural Sciences, College of Engineering, and Eberly College of Science. Each student becomes associated with the adviser's department, which may provide financial support, research facilities, and office space. Applicants are encouraged to explore opportunities by contacting faculty who may be prospective advisors.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) Aptitude Test (verbal, quantitative, analytical) are required for admission. At the discretion of the graduate program officers, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course background will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces available for new students. Students entering this program should have had a strong foundation in the biological sciences, including biochemistry, general physics, and college mathematics through calculus. Students with limited deficiencies may be admitted but must make up their deficiencies concurrently with their graduate studies. B.S.-level applicants with good academic records who have had strong training in plant biology and related courses, including research experience, are generally admitted directly into the Ph.D. program and bypass the M.S. degree.

Master's Degree Requirements

Candidates for the M.S. must take a written diagnostic examination during the first academic year in the program. The functions of this test are to (1) determine the areas of expertise and deficiency in the student's academic preparation and (2) serve as an early screening system to eliminate students with too great an academic deficiency to continue in the program.

As part of the core courses for any degree in the Plant Biology program, all students must enroll in the two tutorial courses, PLBIO 512 and PLBIO 513, and an ethics course, IBIOS 591. Students are presented with advanced lectures in various areas of plant biology and must prepare approximately three written solutions to problems per semester. This dossier of papers constitutes the written diagnostic examination for the M.S. degree and is also used for evaluation of English writing competency. At the end of the respective semesters, the faculty coordinator will present a summary and evaluation of the student's progress to the Candidacy Examination Committee. The committee will then decide if the student has passed the written diagnostic examination and satisfied English writing competency.

All M.S. degree candidates will be required to complete 30 credits of course work. In addition to the courses mentioned previously, students must include two biochemistry courses, 1 credit of colloquium (PLBIO 590), and at least 6 credits of thesis research (PLBIO 600 or PLBIO 610) in their program and they must complete a thesis. Upon recommendation of the advisory committee, equivalent courses taken at another university may be substituted for the above requirements.

The Pennsylvania State University
Doctoral Degree Requirements

Students in the Ph.D. program must successfully pass the candidacy, comprehensive, and final examinations required by the Graduate School. One of the main goals of the candidacy examination is to determine the potential of a student to successfully obtain a Ph.D. degree and is intended to be a vigorous test of a student’s abilities, prior to the major investment in time and effort necessary to pass the comprehensive examination.

As in the M.S. program, students enrolled in the Ph.D. program must pass a written English competency evaluation based on the dossier of papers written for PLBIO 512 and PLBIO 513. This evaluation is done at the end of the student’s first year. The oral candidacy examination is based on two of the papers, jointly chosen by the student and the Candidacy Examination Committee, and must be passed by the end of the student’s third semester.

Ph.D. candidates must complete the core courses required for the M.S. plus three 2-credit courses dealing with theory and techniques of plant ecophysiology, plant cell biology, and plant molecular biology (PLBIO 514, PLBIO 515, PLBIO 516) and 2 credits of colloquium (PLBIO 590). Upon recommendation of the candidacy committee, equivalent courses taken at another university may be substituted for some of the above requirements. Based on the results of the candidacy examinations, the major professor and the student's advisory committee will determine other course requirements.

Other Relevant Information

The following courses are some of the courses available for Plant Biology majors, in addition to the required courses. Their descriptions may be found under the offerings of several departments: AGRO 517, AGRO 518; BIOL 407, BIOL 431, BIOL 441, BIOL 448, BIOL 510, BIOL 513; BMMB 514, BMMB 520, BMMB 525; HORT 402W, HORT 407, HORT 412W, HORT 420, HORT 440W, HORT 444, HORT 445, HORT 517, HORT 520; PPATH 405, PPATH 516, PPATH 543; any course offered by the Plant Biology program.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. In most participating departments, Plant Biology applicants are eligible for departmental teaching or research assistantships, and other assistantships supported by grant funds of individual faculty who make these award decisions.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Fred Gildow, Head of the Department of Plant Pathology
212 Buckhout Laboratory
814-865-7448

Degrees Conferred:

Ph.D., M.S.

The Graduate Faculty

- Paul A. Backman, Ph.D. (California) Professor of Plant Pathology
- David M. Beyer, Ph.D. (Penn State) Professor of Plant Pathology
- Barbara J. Christ, Ph.D. (British Columbia) Senior Associate Dean; Professor of Plant Pathology
- Donald D. Davis, Ph.D. (Penn State) Professor of Plant Pathology
- David M. Geiser, Ph.D. (Georgia) Professor of Plant Pathology
- Frederick E. Gildow, Ph.D. (Cornell) Department Head; Professor of Plant Pathology
- Beth K. Gugino, Ph.D. (Penn State) Assistant Professor of Plant Pathology
- John M. Halbrendt, Ph.D. (Missouri) Associate Professor of Plant Pathology
- Scott A. Isard, Ph.D. (Indiana) Professor of Aerobiology
- Maria del Mar Jimenez Gasco, Ph.D. (Cordoba, Spain) Assistant Professor of Plant Pathology
- Seogchan Kang, Ph.D. (Wisconsin) Professor of Plant Pathology
- Gretchen A. Kuldau, Ph.D. (California) Associate Professor of Plant Pathology
- Timothy W. McNellis, Ph.D. (Yale) Associate Professor of Plant Pathology
- Gary W. Moorman, Ph.D. (North Carolina State) Professor of Plant Pathology
- C. Peter Romaine, Ph.D. (Cornell) Professor of Plant Pathology
- Marilyn Roossinck, Ph.D. (Colorado School of Medicine) Professor of Plant Pathology and Biology
- Daniel J. Reise, Ph.D. (Illinois) Professor of Plant Pathology
- Wakar Uddin, Ph.D. (Georgia) Associate Professor of Plant Pathology
- Yinong Yang, Ph.D. (Florida) Associate Professor of Plant Pathology

Plant pathology is the study of disease in plants and concerns the dynamic interaction between the plant, the causal agent (bacteria, fungi, viruses, nematodes, etc.), and their environments. A student prepares for a professional career in research, teaching, extension, or industry through advanced studies of the principles of plant infection, the physiology of disease in plants, the ecology of root diseases, the nature and inheritance of disease resistance in plants, epidemiology, ecology and physiology of air pollution injury to plants, or plant disease control by biological or chemical means. A student also may specialize in the nature and control of the diseases of forest trees, agronomic or horticultural crops, and commercial mushrooms. Advanced studies in molecular systematics of fungi and applied mycology, related to the production of the commercial mushroom, also may be taken. Modern, well-equipped laboratories, controlled environment facilities and greenhouses, and well-developed field research areas are available for graduate study.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students scoring in the fiftieth percentile or above on each section of the GRE will be given preference. The best-qualified applicants will be accepted up to the number of spaces and advisers that are available for new students. Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Students are expected to have a strong foundation in biological and physical sciences. Generally, students with B.S. degrees in biology, microbiology, plant science, molecular biology, or biochemistry are well prepared.

Degree Requirements

M.S. DEGREE

The master of science degree program in Plant Pathology leads students either to the development of special proficiencies in Plant Pathology, which will allow the individual to directly enter a professional career, or to the development of a basic knowledge of the discipline, allowing for advancement to the Ph.D. degree. M.S. degree students will be introduced to the broad aspects of the field of plant disease and the diseases they incite; diseases of current and classical importance affecting a wide range of crop plants; a variety of techniques used to isolate, characterize, and identify causal agents of plant disease; and an appreciation for the relationship between plant pathology and other biological and physical sciences.

Required Courses for the M.S. Degree are: PPATH 405, 416, 417, 425, 502, and 590. Candidates are required to take a minimum of 6 additional credits of advanced undergraduate courses numbered between 400 and 499. A student also may specialize in the nature and control of the diseases of forest trees, agronomic or horticultural crops, and commercial mushrooms. Advanced studies in molecular systematics of fungi and applied mycology, related to the production of the commercial mushroom, also may be taken. Modern, well-equipped laboratories, controlled environment facilities and greenhouses, and well-developed field research areas are available for graduate study.

Candidates for the M.S. degree in Plant Pathology must present a thesis to their graduate advisory committee.

Ph.D. DEGREE

Students earning a Ph.D. degree from Penn State should have a thorough understanding of the complex interaction between the pathogen and its host. They should know how representative pathogens are dispersed and enter hosts and how the environment mediates these processes. They should understand the role that the pathogen, host genes, and metabolic products play in pathogenesis. They must be aware of the mechanisms the host has to defend itself and how these are breached by a successful pathogen. They must know the parameters involved in disease development and with this knowledge be able to apply measures of control.

Candidates for the Ph.D. degree in Plant Pathology are required to have an M.S. in plant pathology or a closely related field, or equivalent educational background. In addition, all students must enroll in PPATH 505 and other courses tailored to the individual by the candidate's doctoral advisory committee. Ph.D. candidates must prepare a thesis and present seminars in the departmental colloquium (PPATH 590), through which English communication skills will be evaluated. During their studies, Ph.D. students will have an opportunity to assist in teaching a disciplinary subject.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Dual-Title Graduate Degree in Plant Pathology (PPATH) and International Agriculture and Development (INTAD)

Graduate students with research and educational interests in international education may apply to the Plant Pathology/INTAD Dual-Title Degree Program. The goal of the dual-title degree Plant Pathology and INTAD graduate program is to enable graduate students from Plant Pathology to acquire the knowledge and skills of their primary area of specialization in Plant Pathology, while at the same time gaining the perspective and methods needed for work in the international agriculture. Graduate study in this program seeks to prepare students to assume leadership roles in science, science education, outreach, and project management anywhere in the world. Students are required to write research proposals and expected to write grants to support their research activities, reflecting the dual-title degree. As part of their professional development presentations, publication of research articles and active participation in professional societies is expected. Emphasis is placed upon the professional development of the student. Students are able to specialize in the research program areas of plant-microbe interactions, plant disease biology and epidemiology, environmental microbiology, mycology, plant virology, mushroom biology, genomics and disease management. At the same time they will acquire a broad perspective about how to apply their research findings in the context of the broader international community. Thus, the dual-title will allow students to master their field of specialization from an international perspective so that they can compare practices and outcomes between countries and regions.

Admission Requirements

For admission to the dual-title doctoral degree under this program, a student must first apply and be admitted to the Plant Pathology graduate program. Once accepted into the Plant Pathology program, the student can then submit an application to the INTAD Academic Program Committee for the dual-title degree program. The application consists of a written personal statement indicating the career goals that a student hopes to accomplish by earning a dual-title PPATH/INTAD degree. Requirements listed here are in addition to the admission requirements for the Plant Pathology graduate program.

Degree Requirements

To qualify for this dual-title degree, students must satisfy the requirements of the Plant Pathology program. In addition, they must satisfy the requirements described below, determined by the student, the INTAD advisor, and the Plant Pathology program advisor.

Degree Requirements for PPATH/INTAD Dual-Title M.S.

The master’s in Plant Pathology and INTAD is a dual-title degree awarded only to students who are admitted to the Plant Pathology master’s program and admitted to the dual-title degree in INTAD and who complete all requirements for the degrees. In addition to the requirements of the Plant Pathology degree, dual-title degree students must:

Course Requirements

Complete a minimum of 12 INTAD course credits (400, 500, or 800 level) as follows:

- 9 credits from the core curriculum:
  - Program Design and Delivery (AEE 450, 3 credits)
  - Leadership Development (CEDEV/R SOC/AEE 505, 3 credits, on-line)
  - International Agricultural Development Seminar (INTAD 820, 3 credits)

- 3 credits of internship or applied courses/independent studies with international development content

Thesis

Write a master's thesis on a topic that reflects both the graduate program in plant pathology and the dual-title offering in INTAD. Thesis research credits (SUBJ 600) must be taken in the major program.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Candidates for the dual-title master's degree in Plant Pathology and INTAD will also be required to pass a final oral examination covering the general field of plant pathology and INTAD, with emphasis on the student's area of specialization. The oral exam is to be administered by the student's thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate primary program requirements and those of the INTAD program. Final course selection is determined by the students in consultation with their INTAD advisors and their Plant Pathology program advisors. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. Students and advisors should maintain the INTAD Master's Degree Plan of Study, which must be submitted to the INTAD program office two months before the student files the "Intent to Graduate" via eLion.

Degree Requirements for PPATH/INTAD Dual-Title Ph.D.

The doctoral degree in Plant Pathology and INTAD is a dual-title degree awarded only to students who are admitted to the Plant Pathology doctoral program and admitted to the dual-title degree in INTAD and who complete all requirements for the degrees. The minimum requirements for the dual-title Ph.D. degree in PPATH/INTAD, in addition to the Plant Pathology requirements, are as follows.

Course Requirements

Students must complete a minimum of 18 INTAD course credits with study in the following categories:

- 9 credits from the core curriculum
- International Agricultural Development Seminar (INTAD 820, 3 credits)
- International Rural Social Change (R SOC 517, 3 credits)
- Sociology of Agriculture (R SOC 508, 3 credits) or Human Dimensions of Natural Resources (R SOC 555, 3 credits)
- 9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course. Particular courses may satisfy both the Plant Pathology Department requirements and those in the INTAD program. Final course selection is determined by the student in consultation with the INTAD advisor and the Plant Pathology program advisors.

Grades of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. degree are required to take the INTAD 820 International Agricultural Development Seminar a second time.

Candidacy

Candidacy procedures will be based on the procedures of Plant Pathology and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student’s Plant Pathology advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of the Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program.
Comprehensive Exam

At the end of the coursework, candidates for the dual-title doctoral degree in Plant Pathology and INTAD will be required to pass an oral comprehensive examination based on their dissertation proposal and area of specialization in plant pathology, while reflecting their dual-title curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the comprehensive exam and the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive examination.

Dissertation and Dissertation Defense

Ph.D. students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both Plant Pathology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

INTAD course list

Last Revised by the Department: Spring Semester 2012
Blue Sheet Item #: 40-05-080
Review Date: 02/21/2012
Faculty updated: 7/31/12
Project Management (PRMGT)

JEFFREY PINTO, Program Chair
Penn State Erie, The Behrend College
Station Road
Erie, PA 16563

The Master of Project Management (MPM) is a 30-credit graduate degree program that emphasizes all aspects of project management theory and practice. The MPM is interdisciplinary and utilizes problem-based learning as well as a combination of face-to-face and Web-based instructional methods to transcend time and space, and to support effective teaching and learning. The key themes of the MPM include: planning, cost, and value management; project control; human issues in project management; strategic issues in project management; and commercial and procurement law as it relates to project management.

Degree Requirements

Students complete eight required courses (24 credits) in which they apply course concepts to project management scenarios through the use of cases, simulations or actual situations in their employing organizations. The required corpuses are:

MANAGEMENT (MANGT)

510. Project Management (3)
515. Cost and Value Management (3)
520. Planning and Resource Management (3)
525. Commercial Law and Project Management (3)
531. Organizations (3)
535. Interpersonal and Group Behavior (3)
540. Strategy; Corporate, Business, and Project (3)
575. Management of Projects (3)
596. Independent Studies (6)

In addition, students take 6 credits of elective courses. Electives may include additional program-approved courses or an applied research project focusing on some aspect of project management completed as an independent study. All students must attend a minimum of one on-site residency experience for two to three days in order to complete the graduation requirements of the program. Attendance at additional annual residency events is encouraged but optional.

Admission Requirements

Only candidates who demonstrate high promise of success for graduate work are admitted to the MPM program. All applicants must have received a regionally accredited institution a baccalaureate degree earned under residence and credit conditions that are deemed substantially equivalent to those currently required by Penn State. Admission decisions are based on undergraduate grade-point average, Graduate Management Admission Test (GMAT) scores, and a personal essay.

Applicants must achieve a minimum GMAT score of 450. When this score is added to the applicant’s undergraduate grade-point average, multiplied by 200, the total must be at least 1,050 in order to meet minimum requirements for admission to the MPM program. Either the applicant's cumulative undergraduate grade-point average or the junior/senior grade-point average can be used for this calculation. Applicants must also demonstrate proficiency in writing by obtaining at least a 4.0 on the analytical writing assessment portion of the GMAT, or by earning a grade of B or higher in a college English composition course. The MPM program emphasizes application of course concepts to actual project management opportunities and problems. Therefore, students who currently are, or previously were, employed as project managers or project team members will derive the greatest benefit from the program. All applicants must provide evidence of sufficient current or previous work experience that will enable them to successfully complete course assignments requiring the application of course concepts to real project management situations. This evidence may be provided in either the form of three letters of recommendation from individuals who know the applicant in a professional capacity or through nomination to participate in the program by an appropriate official within the applicant’s employing organization. Those who write letters of recommendation or submit nominations on behalf of the candidate will be asked to attest to the nominee’s suitability for the program of study considering factors such as the applicant’s length of employment, level and areas of work responsibility, personal qualities, career goals, maturity of purpose, and program requirements to apply course concepts to work-related issues. Applicants are encouraged to consult with the program chair concerning the suitability of their work experiences in relationship to program requirements.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All students must be computer literate and have ready and reliable access to a computer and the Internet to successfully complete the MPM program. They must know how to use word processing software, log on to an Internet provider, and use e-mail. Additionally, MPM students will use Microsoft Office in their coursework that will require they have a working knowledge of Microsoft Office programs such as Word, Excel, Power Point, and Access. Access to fax facilities may be needed as an additional form of communications between student and instructor or between students.

Course Scheduling Considerations

The recommended maximum course load is 6 credits per semester for students working full-time. MANGT 510 must be taken in the first semester of study and is a prerequisite or co-requisite for all other courses in the program. MANGT 575, Management of Projects, is a problem-based capstone course that integrates the themes necessary to appreciate the overall challenge of project management. The course includes a final, integrative and comprehensive project based on the identification and analysis of real project management problems from the students’ work organizations. This written assignment requires the integration of theory from previous courses along with significant library and literature searches to analyze and propose solutions to these problems. MANGT 575 must be taken following completion of at least 18 credits. No more than one of the required courses may be taken concurrently with MANGT 575.

- Michael Wenger, Ph.D. (Binghamton) Associate Professor of Psychology
- Stephen Wilson, Ph.D. (Pittsburgh) Assistant Professor of Psychology

The Graduate Program is characterized by highly individualized study leading to the Ph.D. degree. Emphasis is placed on research, teaching, and professional career development. Each student is associated with one of the six program areas offered in the department: Clinical (including Child Clinical; Cognitive; Developmental; Psychobiology; Industrial/Organizational; and Social. An individual's particular pattern of interests dictates in part the course of study followed. Within all areas, research is an integral part of study; usually, the research is empirical in focus, but it may be applied or basic, depending on the problem of interest.

The department has laboratories, computer facilities, darkroom, and shop, and students have access to the large resources of the University, which include excellent computation facilities and a large open-stack library. Opportunities for practicum experience are available; e.g., clinical students find practicum in local mental health centers, while industrial students find placement in appropriate business or industrial settings.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) verbal and quantitative portions are required; scores from the Miller Analogies Test (MAT) are optional. All applicants who were psychology majors as undergraduates should provide scores from the advanced psychology (subject) GRE test. Applicants with superior undergraduate (particularly junior and senior years) or graduate grade-point averages will be considered for admission. Although a major in psychology is not required, applicants should have a broad undergraduate background that includes 12 credits in psychology. Undergraduate study in psychology should include a course in statistics and a psychological methodology course. Requirements listed above are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Master's Degree Requirements

The psychology department does not have a graduate program designed for students seeking only the master's degree. A master's thesis, or the department's equivalent (an acceptable published journal article), is required for advancement to candidacy for the Ph.D. degree in Psychology. Usually, but not always, the
The Pennsylvania State University

Graduate Bulletin Archive - 2013
2012 - 2013

master's thesis centers on an empirical research topic. The typical thesis involves a literature review, data collection, analysis, and discussion. A master's degree is not awarded unless a thesis is submitted to the Graduate School. Students must successfully propose a thesis study by the end of the second year and have a successfully defended a thesis by the end of their third year in the program.

**Doctoral Degree Requirements**

All students in their first year of residency must satisfactorily complete the department's English proficiency requirement (PSY 501).

Students must complete (within their first 60 graduate credits for students without previous graduate credit) 6 departmentally approved graduate credits in statistics with a grade of B or better. Students must complete 18 credits in a suitably selected major area: majors usually are defined by one of the six program areas noted above. In addition to the major area credits, students must complete a minimum of 12 credits outside the major area. Two options exist for completing these 12 credits: (1) completing four courses in APA-recommended breadth areas, or (2) completing course work in a particular area of expertise outside the major. Some areas may have additional recommended or required courses as well. The Ph.D. comprehensive examination must be taken by the time 70 graduate credits are earned, or prior to the student's fourth year in residency, whichever comes first. The department has no foreign language requirement.

**Applied Linguistics Option**

The program offers an option in Applied Linguistics which includes 18 credits in APLNG/LING offered in the Linguistics and Applied Language Studies program. Underpinning the option is the synthesis of knowledge related to how language is acquired, understood, and spoken by children and adults who use one or more languages.

**Other Relevant Information**

The Department of Psychology makes every effort to recruit and train minority psychologists. Support for minority students is coordinated by the department, the Graduate School Minority Graduate Scholars Award Program, and the American Psychological Association Minority Fellowship Program. In addition, the department often has funded minority students through minority training programs and special minority research programs.

**Student Aid**

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**Dual-Title Graduate Degree in Psychology and Language Science**

Graduate students with research and educational interests in Psychology and Language Science may apply to Psychology and Language Science PH.D. Program. The goal of the dual-title degree Psychology and language Science graduate program is to enable graduate students from Psychology to acquire the knowledge and skills of their major area of specialization in Psychology, while at the same time gaining the perspective and methods of the Language Sciences.

**Admission Requirements**

To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through the Psychology Department (see below for admission requirements for the Graduate Program in Psychology). Upon admission to the Psychology Program and with a recommendation from a Language Science program faculty member in the Department of Psychology, the student's application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

**Admission Requirements for Incoming Graduate Students in Psychology**

Most incoming graduate students have earned an undergraduate degree in psychology. In some cases, students from other majors are also admitted, but it is expected that applicants will have a background in psychology before applying. Graduate Record Exam (GRE) is required; however, the subject exam is not required. The TOEFL exam is required for international students except for those applicants who have received a baccalaureate or a master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States and Wales. All international students will be required to take the English Proficiency Exam upon arrival at the Penn State campus. Students are asked to complete a departmental application form, write a statement of purpose, and include a writing sample in the application materials.

**Requirements for the Dual-Title Ph.D. Degree in Psychology and Language Science**

Two Language Science proseminar courses (Ling 521 and Ling 522; 6 credits). One 3 credit research internship with a Language Science faculty mentor from an outside area. The 3 credit internship required by the Psychology program may satisfy both the Psychology requirement and the Language Science requirement (for 6 total credits of internship to be completed with two faculty members from the Language Science program). Students will choose one course among the following: CSD 596, GER 596, LING 596, PSY 596, SPAN 596.

Final course selection is determined by the student in consultation with their dual-title program advisors and their major program advisors. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

Degree Conferred:

M.M.M.

Penn State’s Master of Manufacturing Management (M.M.M.) degree is offered by the Quality and Manufacturing Management (QMM) program. The degree is conferred by both the College of Engineering and the Smeal College of Business. This interdisciplinary graduate program is designed to prepare students for careers in manufacturing, consulting, services, and operations. The program is offered on a full-time basis only and requires nine months of continuous study during a normal academic year. An appropriate internship experience is a precondition for entrance to the program if the applicant does not have sufficient work experience to waive the internship requirement. Students take 32 credits of work in eleven core courses.

The program develops future executives who possess in-depth, relevant manufacturing knowledge bridging engineering and management. Graduates are afforded a life-changing experience that provides them with a unique set of engineering, business, and quality skills combined with a suite of communication skills critical to management success. Students fuse Six Sigma certification with corporate social responsibility and emotional intelligence to become well-rounded leaders. MMM students develop business plans and analyze and predict corporate financial performance in a global marketplace. They emerge from Penn State as international leaders understanding the fundamentals of materials and processes and project confidence in product and manufacturing system design.

Admission Requirements

The program draws its students from two groups: practicing professionals from industry and individuals who have graduated from, or are currently enrolled in, a business administration, science, or engineering program. Applicants who expect to graduate with a B.S. in engineering, science, or business administration may apply for admission to the program in their senior year.

All applicants must submit scores from the GRE or the GMAT. International students must also submit TOEFL scores. However, the TOEFL requirement is waived for international students who have successfully completed undergraduate work in an American college or university. The average grade-point average is 3.0; the average GRE score is 1100 on the verbal and quantitative sections and 4.0 on the analytical section. The average GMAT score is 580.

All applicants must have taken the prerequisite mathematics, computer science, and statistics courses or equivalents prior to starting the program. Applicants cannot register until they have completed these courses. For a listing of the prerequisite courses, visit www.mmmdegree.psu.edu.

Degree Requirements

The M.M.M. degree requires 32 credits of graduate work on a full-time basis. The courses are as follows: QMM 491 or QMM 492; QMM 552, QMM 561, QMM 562, QMM 581, QMM 582, QMM 593, QMM 851, QMM 871, QMM 872, and QMM 891.

In some instances, course changes are being considered and prospective students should consult with the M.M.M. degree program to determine what new requirements might be in effect. The program co-directors are authorized to make suitable substitutions in the above curriculum in consultation with the faculty steering committee.

Student Aid

A limited number of partial scholarships are available for students in the program.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

QUALITY AND MANUFACTURING MANAGEMENT (QMM) course list

Only students enrolled in the M.M.M. degree program may take the 500- and 800-level courses.

DATE LAST REVIEWED BY GRADUATE SCHOOL: 5/24/04
Last updated by Publications: 8/20/09
The Graduate Faculty

- Kathryn J. Brasier, Ph.D. (Wisconsin–Madison) Assistant Professor of Rural Sociology
- Gretchen T. Cornwell, Ph.D. (Penn State) Assistant Professor of Rural Sociology
- Leland L. Glenna, Ph.D. (Missouri) Assistant Professor of Rural Sociology, and Science, Technology, and Society
- Clare Hinrichs, Ph.D. (Cornell) Associate Professor of Rural Sociology
- Leif J. Jensen, Ph.D. (Wisconsin) Professor of Rural Sociology
- Albert E. Luloff, Ph.D. (Penn State) Professor of Rural Sociology
- Diane K. McLaughlin, Ph.D. (Penn State) Associate Professor of Rural Sociology
- Anouk Patel-Campillo, Ph.D. (Cornell) Assistant Professor of Rural Sociology
- Carolyn E. Sachs, Ph.D. (Kentucky) Professor of Rural Sociology
- Joan S. Thomson, Ph.D. (Wisconsin) Professor of Agricultural Communications
- Ann R. Tickamyer, Ph.D. (North Carolina, Chapel Hill) Professor of Rural Sociology
- James Van Horn, Ph.D. (Ohio State) Professor of Rural Sociology
- Fern K. Willits, Ph.D. (Penn State) Distinguished Professor of Rural Sociology

All degree programs emphasize a comprehensive understanding of the various facets of societal organization pertinent to the rural sector. While breadth is encouraged, areas of special interest and research include rural social change, community structure, population, rural community development, the structure of agriculture, natural resources, and the environment.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Prerequisites for the master's program include 3 credits in rural sociology or sociology, and additional credits in either field. If the entering student does not have these prerequisites, they must be made up at the University during the early part of the master's program.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements

There is no foreign language requirement for the Ph.D. degree; the student is expected to substitute such courses and instruction necessary to generate superior capabilities of inquiry into an analysis of basic and/or applied rural sociological problems.

Student Aid

Graduate assistanships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

RURAL SOCIOLOGY (R SOC) course list

Dual-Title Degree in Rural Sociology (R SOC) and International Agriculture and Development (INTAD)

Graduate students with research and educational experiences in rural sociology may apply to the Rural Sociology/INTAD Dual-Title Master's Degree Program. The goal of the dual-title degree R SOC/INTAD degree program is to enable graduate students from R SOC to acquire the knowledge and skills of their major area of specialization in R SOC, while at the same time gaining the perspective and methods needed to work internationally. Graduate study in this program seeks to prepare students to assume leadership roles in professions in international agriculture and development requiring state-of-the-art methodological training, as well as of conceptual expertise in rural sociology and in one or more of R SOC's four signature areas: (1) agriculture and food systems, (2) community and international development, (3) natural resources and environment, (4) rural social demography.

This dual-title graduate degree program does not duplicate any other degree program at the University.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the Rural Sociology program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, determined by the student, their INTAD advisor, and their Rural Sociology program advisor.

Degree Requirements for R SOC/INTAD Dual Title M.S.

The Master's in Rural Sociology and INTAD is a dual-title degree awarded to students who are admitted to the Rural Sociology master's program and admitted to the dual-title degree in INTAD. In addition to the requirements of the Rural Sociology degree, dual-title degree students must:

Courses

Complete a minimum of 12 INTAD course credits (400, 500, or 800 level) as follows:

- 9 credits from the core curriculum:
  - Program Design and Delivery (AEE 450, 3 credits)
  - Leadership Development (CEDEV/R SOC/AEE 565, 3 credits, on-line)
  - International Agricultural Development Seminar (INTAD 820, 3 credits)
Master's Thesis & Final Oral Examination

Write a master's thesis on a topic that reflects both the graduate program in Rural Sociology and the dual-title offering in INTAD.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Candidates for the dual-title master's degree in R SOC and INTAD will also be required to pass a masters’ thesis defense covering the general field of Rural Sociology and INTAD, with emphasis on the student’s area of specialization. The oral exam is to be administered by the student’s thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate major program requirements and those of the INTAD program. Students and advisors should maintain the INTAD Master's Degree Plan of Study, which must be submitted to the INTAD program office two months before the student files the “Intent to Graduate” via eLion.

Degree Requirements for R SOC/INTAD Dual-Title Ph.D.

The doctoral degree in R SOC and INTAD is a dual-title degree awarded only to students who are admitted to the R SOC doctoral program and admitted to the dual-title degree in INTAD. The minimum course requirements for the dual-title Ph.D. degree in R SOC and INTAD, in addition to the R SOC requirements, are as follows.

Courses

Students must complete a minimum of 18 INTAD course credits with study in the following categories:

- 9 credits from the core curriculum, which includes:
  - International Agricultural Development Seminar (INTAD 820, 3 credits)
  - International Rural Social Change (R SOC 517, 3 credits)
  - Sociology of Agriculture (R SOC 508, 3 credits)
  - OR
  - Human Dimensions of Natural Resources (R SOC 555, 3 credits)

- 9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Courses totaling a minimum of 18 credits must be taken at the 500-level or above; particular courses may satisfy both the R SOC requirements and those in the INTAD program. Final course selection is determined by the student in consultation with their INTAD advisors and their major program advisors. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

Graduates of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

Candidacy

Candidacy procedures will be based on the procedures of the major department and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of a Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both the Major Program and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official "outside member" also must be appointed to the committee.

Comprehensive Exam

Each Ph.D. candidate must pass a comprehensive (combined written and oral) examination in rural sociology, research methods and statistics, and two or more chosen areas of specialization. It is expected that one of these areas will be INTAD. A separate comprehensive examination is not required by the INTAD program, but the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive examination.

Doctoral Thesis & Final Oral Examination

Ph.D. students enrolled in the dual-title degree program are required to write a doctoral thesis on a topic that reflects their original research and education in both Rural Sociology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. Upon completion of the student's doctoral thesis, a final oral examination is scheduled. The exam is administered by the student’s doctoral committee and focuses on the student’s thesis research. A public oral presentation of the dissertation is also required.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

- Christine Buzinde, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of Recreation, Park, and Tourism Management
- Linda L. Caldwell, Ph.D. (Maryland) Professor of Recreation, Park, and Tourism Management
- Garry Chick, Ph.D. (Pittsburgh) Professor of Recreation, Park, and Tourism Management
- John Dattilo, Ph.D. (Illinois, Urbana-Champaign) Professor of Recreation, Park, and Tourism Management
- Shawna Doerksen, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of Recreation, Park, and Tourism Management
- Alan R. Graefe, Ph.D. (Texas A&M) Associate Professor of Recreation, Park, and Tourism Management
- Ben D. Hickerson, Ph.D. (North Carolina State) Assistant Professor of Recreation, Park, and Tourism Management
- Deborah L. Kerstetter, Ph.D. (Penn State) Professor of Recreation, Park, and Tourism Management
- Andrew J. Mowen, Ph.D. (Penn State) Associate Professor of Recreation, Park, and Tourism Management
- George Vahoviak, Ph.D. (Penn State) Affiliate Associate Professor of Recreation, Park, and Tourism Management; Program Director, Shaver's Creek Center
- Careen Yarnal, Ph.D. (Penn State) Associate Professor of Recreation, Park, and Tourism Management
- Harry C. Zinn, Ph.D. (Colorado State) Associate Professor of Recreation, Park, and Tourism Management

The graduate program is designed to prepare students for administrative, supervisory, research, and teaching positions in public and private recreation and park systems, in colleges and universities, in voluntary agencies and institutions, and in commercial ventures. The program is oriented to meet the specific needs and research interests of the candidate. Students may pursue interests in the community, including public park and recreation systems, voluntary agencies, and private commercial enterprises; tourism; institution and community-oriented therapeutic settings concerned with many different disabilities and utilizing a variety of activity modalities; park planning, resource management, interpretive services, outdoor education, and outdoor recreation services.

Admission Requirements

Scores from the Graduate Record Examination (GRE) are required for admission to the master's and doctoral programs. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the graduate program, a bachelor's or master's degree is required. Candidates from majors other than recreation and parks are welcome to apply; however, additional course work is required. Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. All students must write a thesis.

Degree Requirements

The master's program is designed for students who wish to continue their studies at the doctoral level at Penn State. Students who wish to pursue a Ph.D. degree but do not have an M.S. degree will complete a thesis and earn a master's degree in the process of working toward the doctorate. The M.S. program requires a minimum of 30 graduate credits and a 3.00 (B) grade-point average for graduation. The master's degree must be completed within eight years from matriculation as a degree candidate.

The doctoral program builds on the master's program to achieve depth in scholarship and research. Students who have not completed a data-based thesis as part of their master's degree will be required to do so during the first three semesters as a doctoral student. The general requirements of the degree, sequentially, are (1) course work, (2) candidacy examination by the third semester, “*” (3) comprehensive examination (written and oral), (4) thesis proposal presentation, and (5) final defense of thesis. Between the candidacy examination and completion of the degree program, a Ph.D. candidate must have attended Penn State in residence a minimum of two semesters over a twelve-month period. (This may include the semester in which the candidacy exam is taken.) Students have a limit of eight years after candidacy to complete the doctoral program. A 3.00 (B) average is required for graduation.

Prerequisites for graduate students who do not have an undergraduate degree in RPTM typically range from 3 to 9 credits, depending on the student's background and experience. Prerequisites for incoming graduate students with undergraduate majors in RPTM range from 0 to 6 credits. Incoming graduate students with undergraduate degrees in Recreation, Park, and Tourism Management from Penn State are assumed to have met all prerequisite requirements. The graduate program director determines prerequisites for all incoming students.

*The master's thesis and oral defense may be used for the candidacy examination for continuing students.

Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

RECREATION, PARK AND TOURISM MANAGEMENT (RPTM) course list

DATE LAST REVIEWED BY THE GRADUATE SCHOOL: 5/21/04
Last Revised by the Department: Summer Session 2007
Blue Sheet Item #: 35-07-448
Review Date: 6/12/07

The Pennsylvania State University
Russian and Comparative Literature

B. RICHARD PAGE, Associate Professor of German and Linguistics; Head, Department of Germanic and Slavic Languages and Literatures
427 Burrowes Building
814-865-5481

CAROLINE D. ECKHARDT, Head, Department of Comparative Literature
427 Burrowes Building
814-863-0589

Degree Conferred:
M.A. in Russian and Comparative Literature

The Department of Germanic and Slavic Languages and Literatures and the Department of Comparative Literature offer a joint master's degree in Russian and Comparative Literature. The program enables students to concentrate in Russian literature at the graduate level while having the advantages of a comparative context. Students completing this M.A. will acquire an in-depth understanding of Russian literature and culture and will be proficient in Russian and one other foreign language. Graduates should be prepared for service with the U.S. government or an international corporation, or to continue graduate study either in Russian or comparative literature.

Admission Requirements
Requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Students with appropriate course backgrounds and a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission. Scores from the Graduate Record Examination (GRE) are required. It is expected that students entering this degree program will have proficiency in Russian language and will have completed the B.A. in Russian or Comparative Literature. Students in other humanistic fields such as philosophy or history who have studied some literature and are proficient in Russian are welcome to apply.

Master's Degree Requirements
Candidates for the M.A. degree must earn a minimum of 33 credits of which at least 18 must be at the 500 level. Required courses in Russian include RUS 530 (Seminar in Nineteenth-Century Russian Literature), RUS 525 (Pushkin), and RUS 560 (History of the Russian Language) or RUS 542 (Seminar in Russian Literature in the Twentieth Century) plus an additional 6 credits. Required courses in comparative literature include CMLIT 501 plus an additional 12 credits in comparative literature. Also required are an additional 3 credits in Russian, comparative literature, or another approved area; passing of a proficiency examination in Russian; demonstration of reading knowledge of one other foreign language; and the completion of an acceptable M.A. paper.

Student Aid
A number of teaching assistantships are available in the Departments of Comparative Literature and Germanic and Slavic Languages and Literatures for students taking advanced degrees in these disciplines. There is also a graduate assistant position for an editorial assistant. See also the fellowships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin.

JAMES C. DIPIERNA, Program Coordinator

105 CEDAR Building
814-863-2405
jcd12@psu.edu

Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty

- Teresa Clark, Ph.D. (Michigan State) Assistant Professor of Education
- JAMES C. DIPIERNA, Ph.D. (Wisconsin) Associate Professor of Education
- Robert L. Hale, Ph.D. (Nebraska) Professor of Education
- Diane K. McLaughlin, Ph.D. (Penn State) Professor of Rural Sociology and Demography
- Bonnie J. F. Meyer, Ph.D. (Cornell) Professor of Educational Psychology
- Barbara A. Schaefer, Ph.D. (Pennsylvania) Associate Professor of Education
- Beverly J. Vandiver, Ph.D. (Ball State) Associate Professor of Education
- Shirley A. Woika, Ph.D. (Penn State) Associate Professor of Education

This intercollege program is based primarily on courses in educational psychology, psychology, and special education. In addition, courses are often drawn from counselor education, human development and family studies, educational theory and policy, educational administration, and curriculum and instruction. The objective is to develop a psychologist capable of providing health care who is interested in and knowledgeable about education and psychology in the school setting. The school psychologist must utilize professional skill and knowledge about children and youth to make contributions that are meaningful to and utilized by teachers, other school personnel, and parents. The development of competencies needed by a fully qualified school psychologist requires at least the education represented by a doctoral degree.

Practicum facilities, in addition to those in nearby public schools, include the Center for Educational Diagnosis and Remediation, the School Psychology Clinic, the Communication Disorders Clinic, the Reading Center, and the Psychology Clinic. Facilities for work with children are also available through other academic units, as well as through assistantship assignments.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Only those students who anticipate a doctoral degree will be admitted. Students are selected within the limitations of program facilities. Priority is given to applicants with work experience with children.

An undergraduate major emphasizing work in psychology and/or education is preferred, but students with fewer than 20 upper-division credits in psychology, educational psychology, or special education may be admitted with limited deficiencies to be fulfilled concurrently with their graduate work. Requirements for admission include a minimum of one-third of graduate credits of A quality; undergraduate GPA of B or higher; satisfactory recommendations from two or more professors, preferably psychologists; and a score of 1000 or higher on the two general sections or a score of 1500 or higher, including a verbal or an advanced test, of the Graduate Record Examination. Exceptions may be made for students with special backgrounds, abilities, and interests.

Master's Degree Requirements

Students entering the program with a bachelor's degree complete the M.S. as prescribed by the Graduate School.

Students qualifying for a certificate to practice in the schools must meet standards specified by the Pennsylvania Department of Education. These include, but are not limited to, a master's degree, about 60 graduate credits, practicum experiences, and successful completion of precertification tests.

Doctoral Degree Requirements

Students may be admitted with a master's degree from school psychology programs from other institutions or from related programs in this or other universities. The doctoral program includes a precertification research requirement; the core program described here (which qualifies the candidate for a school psychology certificate); a special proficiency of 6 to 18 credits; an internship; and a dissertation.

Students completing the School Psychology Core Program will have courses in the biological bases of behavior, the cognitive bases of behavior, the social bases of behavior, personality theory or abnormal psychology, human development, professional ethics and standards, research design and methodology, statistics, psychometrics, counseling theory, educational foundations, educational administration, the education of exceptional children, and curriculum.

Other Relevant Information

The program has been accredited by the American Psychological Association, the National Commission for Accreditation in Teacher Education (NASP), and the Pennsylvania Department of Education.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
M.P.S., S.C.M.

The Graduate Faculty
- Norman A. Aggon, M.B.A. (James Madison) Instructor of Operations and Supply Chain Management; Assistant Department Chair
- Francis (Frank) L. Cheleko, M.M.M. (Penn State) Instructor of Operations and Supply Chain Management
- Gary L. Gittings, Ph.D. (Penn State) Instructor of Supply Chain Management
- Daniel Guide, Ph.D. (Georgia) Associate Professor of Operations and Supply Chain Management
- Tania D. Harrison, Ph.D. (Tennessee) Professor of Supply Chain and Information Systems
- C. John Langley, Ph.D. (Penn State) Clinical Professor of Supply Chain Management
- Douglas J. Thoma, Ph.D. (Georgia Tech) Associate Professor of Supply Chain Management
- Evelyn A. Thomchick, Ph.D. (Clemson) Associate Professor of Supply Chain Management
- John E. Tyworth, Ph.D. (Oregon) Professor of Supply Chain Management

The Master of Professional Studies in Supply Chain Management (MPS/SCM) is awarded to students who demonstrate mastery of the knowledge, problem-solving competencies, and leadership skills that are critical to leading business transformation through integrated supply chain planning and execution. The program emphasizes problem-based learning coupled with integrative, collaborative learning experiences to develop the requisite knowledge, skills, and abilities for effective supply chain management. Instruction is delivered on line and in a short course at an on- or off-campus location, so that working professionals will complete the degree as part-time students working largely or entirely, off campus.

Admission Requirements
Students applying to the professional MPS/SCM degree program must be admitted by both the MPS/SCM program and the Graduate School at The Pennsylvania State University. The Graduate School requires applicants to have earned a baccalaureate degree from a regionally accredited institution earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants whose first language is not English or who have received a baccalaureate or master's degree from an institution in which the language of instruction is not English must take either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) module and submit the results of that test with the application for admission. The TOEFL test is offered in different formats depending on location. A score of at least 600 on the paper-based TOEFL or 250 on the computer-based TOEFL must be attained. A minimum total score of 80, along with a minimum score of 23 on the speaking portion, is required for the Internet-based test (iBT). Information about the TOEFL can be obtained by writing to the Educational Testing Service, Box 6155, Princeton, NJ 08541-6155 or visiting their web site at www.toefl.org. Alternatively, a minimum composite score of 6.5 on the IELTS test is required for admission. Information about the IELTS can be obtained by contacting IELTS International, 100 East Corson Street, Suite 200, Pasadena, CA 91103 or visiting their Web site at www.ielts.org.

Additionally, the graduate program in Supply Chain Management requires:
- A completed application for graduate study, including Graduate School application fee
- A current resume, along with a statement of professional experience and goals. This statement of approximately two pages must describe the applicant’s professional goals, experience, and responsibilities. The statement must also indicate why the applicant is applying to the professional MPS/SCM program at Penn State
- One letter of recommendation relevant to the applicant’s professional capabilities, such as preferably from the employee’s immediate supervisor, which should address the applicant’s readiness for graduate study
- Official transcripts from all completed graduate and undergraduate coursework
- An undergraduate GPA of at least 3.0, or grade average of “B” or better in graduate courses completed since the first bachelor's degree, with at least 6 credits of graduate courses completed to qualify under this option
- Official Graduate School Admission Test scores reported directly from the testing center to Penn State

A committee consisting of three SC&IS Department faculty meet once annually to review applications and identify applicants qualified for admission. Admissions decisions are based on a review of a complete admission portfolio, including an application, the statement of professional experience and goals, a current resume, official transcripts from each undergraduate and graduate institution attended, the letter of recommendation, and GMAT scores. An applicant’s credentials are compared to the standards set by other candidates in the current application pool. Approved applicants are admitted in time to enroll for the fall semester offerings that begin in early August.

Degree Requirements
Students earn the professional MPS/SCM degree by successfully completing 30 graduate credits in supply chain management courses and a high-quality professional paper as a culminating experience. All MPS/SCM credits must be earned in courses at the 500 level or above, including at least 6 credits at the 500 level. The professional paper demonstrates the student’s ability to apply advanced supply chain management knowledge to a supply chain-related problem or situation in a way that makes a substantial contribution to the student’s professional development. The program requires a cumulative grade point average of at least 3.0 and no course grade below a C. All requirements for the professional MPS/SCM degree, including acceptance of the professional paper, must be met within four years of admission to degree status. Students are expected to make continuous progress toward the degree. Leaves of absence, however, may be granted under exceptional circumstances on a case-by-case basis.

A maximum of 10 credits of high-quality graduate work completed at other accredited institutions may be applied toward the requirements for the professional MPS/SCM degree. However, credits earned to complete a previously completed professional or academic postbaccalaureate degree, whether at Penn State or elsewhere, may not be applied to a second postbaccalaureate degree program at Penn State. Approval to apply any transferred credits toward a degree program must be granted by the student’s academic advisor or program and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university.

JOHN ICELAND, Head of the Department of Sociology, Crime, Law, and Justice
211 Oswald Tower
814-865-8260

Degrees Conferred:
M.A., Ph.D.

The Graduate Faculty

- Duane Alwin, Ph.D. (Wisconsin) Distinguished Professor of Sociology, Demography, and Human Development and Family Studies
- Paul Amato, Ph.D. (James Cook, Australia) Professor of Sociology and Demography
- Roy L. Austin, Ph.D. (Washington) Associate Professor of Sociology and Justice
- Allan A. Block, Ph.D. (California, Los Angeles) Professor of Crime, Law, and Justice, and Jewish Studies
- Anna Breitmeir Emmeritus Professor Emeritus of Sociology, Human Development, and Demography
- Richard Bord, Ph.D. (Iowa) Professor Emeritus of Sociology
- Lori Bunting, Ph.D. (Ohio State) Assistant Professor of Crime, Law, and Justice
- Frank Clemente, Ph.D. (Pennsylvania) Professor of Sociology
- Stephen R. Couch, Ph.D. (SUNY) Professor of Sociology
- Gordon F. De Jong, Ph.D. (Kentucky) Distinguished Professor of Sociology and Demography; Director, Graduate Program in Demography
- James Eisenstein, Ph.D. (Yale) Professor Emeritus of Political Science and Crime, Law, and Justice
- Richard Felson, Ph.D. (Indiana) Professor of Crime, Law, and Justice, and Sociology
- Roger Finke, Ph.D. (Washington) Professor of Sociology and Religious Studies
- Glenn Firebaugh, Ph.D. (Indiana) Professor of Sociology and Demography
- Michelle Frisco, Ph.D. (Texas) Assistant Professor of Sociology and Demography
- Emily Greenman, Ph.D. (Michigan) Assistant Professor of Sociology
- Melissa Hardy, Ph.D. (Indiana) Distinguished Professor of Human Development and Family Studies, Sociology, and Demography
- Michael Hout, Ph.D. (Illinois) Distinguished Professor of Speech Communication, Crime, Law, and Justice
- Julie Horney, Ph.D. (California, San Diego) Professor of Crime, Law, and Justice; Graduate Officer
- Craig Humphrey, Ph.D. (Brown) Professor Emeritus of Sociology
- John Iceland Distinguished Professor Emeritus of Sociology and Demography
- David R. Johnson, Ph.D. (Vanderbilt) Professor of Sociology, and Human Development and Family Studies; Director, Survey Research Center
- Kurt Johnson, Ph.D. (Nebraska) Research Associate, Social Science Research Institute
- Michael P. Johnson, Ph.D. (Michigan) Professor Emeritus of Sociology, Women's Studies, and African and African American Studies
- Valarie King, Ph.D. (Pennsylvania) Associate Professor of Sociology, Demography, and Human Development and Family Studies
- John H. Kramer, Ph.D. (Iowa) Professor of Sociology, and Crime, Law, and Justice
- David Kreager, Ph.D. (Washington) Assistant Professor of Crime, Law, and Justice
- Nancy S. Landale, Ph.D. (Washington) Professor of Sociology and Demography
- Barrett A. Lee, Ph.D. (Washington) Professor of Sociology and Demography
- Dennis Mackenzie, Ph.D. (Penn State) Professor of Crime, Law, and Justice
- Molly Martin, Ph.D. (Wisconsin) Assistant Professor of Sociology and Demography
- Michael Massoglia, Ph.D. (Minnesota) Assistant Professor of Crime, Law, and Justice
- Jennifer Matkovich, Ph.D. (Pennsylvania) Associate Professor of Administration of Justice
- Stephen Matthews, Ph.D. (Wales) Associate Professor of Sociology, Anthropology, and Demography
- John D. McCarthy, Ph.D. (Oregon) Professor of Sociology
- Frank Pelletier, Ph.D. (Vanderbilt) Professor Emeritus of Sociology
- R. Salvador Oropeza, Ph.D. (Washington) Professor of Sociology and Demography
- D. Wayne Osgood, Ph.D. (Colorado) Professor of Crime, Law, and Justice, and Sociology
- William Pavett, Ph.D. (South Dakota) Rear Emeritus of Crime, Law, and Justice
- Evelyn Patterson, Ph.D. (Pennsylvania) Assistant Professor of Crime, Law, and Justice, Sociology, and Demography
- Roland Pellegrin, Ph.D. (North Carolina) Professor Emeritus of Sociology
- Eric Plutzer, Ph.D. (Washington-St. Louis) Associate Professor of Political Science and Sociology
- Suet-Ling Pong, Ph.D. (Chicago) Associate Professor of Education and Sociology
- Richard Ritti, Ph.D. (Cornell) Professor Emeritus of Sociology, Law, and Justice
- R. Barry Ruback, Ph.D. (Pittsburgh) Professor of Crime, Law, and Justice, and Sociology
- Eric Silver, Ph.D. (SUNY, Albany) Associate Professor of Crime, Law, and Justice, Sociology, and Demography
- Geoffrey B. Speiser, Ph.D. (Northwestern) Professor of Human Development, Sociology, and Social Psychology
- Jeremy Staff, Ph.D. (Minnesota) Associate Professor of Crime, Law, and Justice
- Derrell J. Steffensmeier, Ph.D. (Iowa) Professor of Sociology and Crime, Law, and Justice
- Catia T. Stokes, Ph.D. (Kentucky) Professor of Rural Sociology, Sociology, and Demography
- Marylee C. Taylor, Ph.D. (Pennsylvania) Professor Emeritus of Sociology, and Demography
- George Theodorson, Ph.D. (Cornell) Professor Emeritus of Sociology
- Kevin J. A. Thomas, Ph.D., (Pennsylvania) Assistant Professor of African and African American Studies, Sociology, and Demography
- Jenny Trinitapoli, Ph.D. (Texas) Assistant Professor of Sociology, Demography, and Religious Studies
- Jeffery T. Ulmer, Ph.D. (Penn State) Associate Professor of Crime, Law, and Justice
- Jennifer Van Hook, Ph.D. (Texas) Associate Professor of Sociology
- Edward Walsh, Ph.D. (Michigan) Professor Emeritus of Crime, Law, and Justice
- Susan Welch, Ph.D. (Illinois) Professor of Political Science and Crime, Law, and Justice

The graduate program in Sociology offers advanced education for students who intend to pursue academic careers in sociology or who aspire to nonacademic research positions. The M.A. and Ph.D. programs provide training in general social theory, research methodology, statistics, and a number of traditional and developing substantive specialties. In consultation with faculty advisers, students select two specialties that are among the department's strengths, such as classical and contemporary theory; community and environment; demography; family, life course, and aging; quantitative methods; social psychology; and stratification and social change.

Alternate specialty areas not listed above may be selected as the major or the minor, with the approval of the graduate committee. Students may elect to pursue a dual-title degree in Sociology and Demography. For details, refer to the Demography program description. A separate Ph.D. program in Crime, Law, and Justice is also housed within the department. Please see the CLJ program description for details.

All students who intend to pursue doctoral work are expected to earn an M.A. degree in their normal progress to the Ph.D.

Course work outside the department is encouraged. Areas of study related to sociology, such as rural sociology, geography, economics, business administration, statistics, cultural anthropology, political science, and human development and family studies are available at the University.

Special department-related research and training facilities include on-site computer laboratories and the Social Science Research Center, the Population Research Institute, the Center for Research on Crime and Justice, and the Pennsylvania Commission on Sentencing. Additional University facilities used by sociology faculty and graduate students include the Computation Center (containing information about the extensive databases provided through the Inter-University Consortium for Political and Social Research) and the Gerontology Center.

The Pennsylvania State University
Admission Requirements
Applications will be accepted through January 1 for fall admission the following year. Selection is based on undergraduate grades (and where applicable, record of previous graduate work); letters of recommendation; statement of purpose; a sample of written work, such as a term paper; and Graduate Record ExaminationS (GRE) verbal and quantitative scores. The best-qualified applicants will be accepted up to the number of spaces available. Students with limited prior training in sociology may be accepted, with the provision that they make up background deficiencies in the early part of their graduate program.

Degree Requirements
Required courses for the M.A. include a two-semester proseminar, one seminar each in research methods and social theory, and two seminars in social statistics. Students complete an M.A. thesis during their second year of the program.

A candidacy examination is required of all students seeking the Ph.D. This evaluation by the departmental Graduate Committee is based on the student’s seminar papers, research proposal, and record of course performance and on faculty assessments of the student’s ability to complete a high-quality Ph.D. program. For those admitted to the Ph.D. candidacy, a lab in teaching sociology is required, along with substantive courses in the student’s major and minor areas of concentration. A comprehensive examination must be passed before the period of intensive dissertation research begins.

The Department of Sociology has no formal foreign language or communication requirement. However, students are encouraged to pursue additional training in statistics, computer science, foreign language, technical writing, specialized methods, or specialized theory that will further dissertation and career plans.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, teaching assistantships support many students admitted to the program. Research assistantships also are available to qualified students through individual faculty members' grants and contracts. A number of federal agencies also offer fellowships for graduate study in sociology.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

R. C. STEHOUWER, Chair of the Graduate Program in Soil Science
417 Agricultural Sciences & Industries Building
814-863-7640

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

- Douglas B. Beegle, Ph.D. (Penn State) Professor of Agronomy
- Mary Ann Bruns, Ph.D. (Michigan) Assistant Professor of Soil Microbial Ecology
- Ray B. Bryant, Ph.D. (Purdue) Adjunct Professor of Soil Science
- Edward J. Cikojsz, Ph.D. (Wisconsin) Professor of Soil Genesis and Morphology
- Rick L. Day, Ph.D. (Penn State) Associate Professor of Science and Environmental Information Systems
- Jerzy Dec, Ph.D. (Warsaw, Poland) Research Associate
- Curtis J. Dell, Ph.D. (Kent State) Adjunct Assistant Professor of Soil Science
- Patrick J. Drohan, Ph.D. (Penn State) Assistant Professor of Pedology
- Joost W. Duker, Ph.D. (Ohio State) Associate Professor of Soil Management and Applied Soil Physics
- William E. Easterling, Ph.D. (UNC, Chapel Hill) Professor of Geography and Agronomy
- Daniel D. Fritton, Ph.D. (Iowa State) Professor of Soil Physics
- Peter J. A. Kleinman, Ph.D. (Cornell) Adjunct Assistant Professor of Environmental Soil Chemistry
- Sridhar Komarapalli, Ph.D. (Wisconsin) Professor of Clay Mineralogy
- Hangsheng Lin, Ph.D. (Texas A&M) Associate Professor of Hydrogeology/Soil Hydrology
- Barry P. Ogle, Ph.D. (Rutgers) Adjunct Professor of Environmental Soil Chemistry
- Andrew S. McNitt, Ph.D. (Penn State) Associate Professor of Turfgrass Science
- Gary W. Petersen, Ph.D. (Wisconsin) Distinguished Professor of Soil and Land Resources
- Andrew S. Rogowski, Ph.D. (Iowa State) Adjunct Professor of Soil Science
- Maxim J. Schössberg, Ph.D. (Georgia) Assistant Professor of Turfgrass Nutrition and Soil Fertility
- Andrew N. Sharpley, Ph.D. (Massey, New Zealand) Adjunct Professor of Soil Science
- Richard C. Stehouwer, Ph.D. (Ohio State) Assistant Professor of Environmental Soil Science
- David M. Sylvia, Ph.D. (Cornell) Professor of Soil Microbiology
- John E. (Jack) Watson, Ph.D. (Arizona) Professor of Soil Science
- Ann M. Wolf, Ph.D. (Penn State) Affiliate Assistant Professor of Soil Science

The Soil Science program is administered in the Department of Crop and Soil Sciences, College of Agricultural Sciences. Each student will be associated with an adviser who may provide financial support, research facilities, and/or office space. Applicants are encouraged to explore, study, and research opportunities by contacting faculty who may be prospective advisers.

This program provides opportunities for candidates interested in soil and related water resources to become a professional leader and an independent scholar. Faculty in this program are competent to prepare candidates in the subfields of Soil Science including: soil genesis, soil classification, soil morphology, soil mapping, soil physics, soil chemistry, soil mineralogy, soil microbiology, soil fertility, soil conservation, geographic information systems, computer mapping, watershed analysis, soil hydrology, soil and water management, resource inventory and assessment, remote sensing, land evaluation, land waste disposal, and land management.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination, are required for admission. At the discretion of the graduate standards committee, a student may be admitted provisionally for graduate study in the program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Prerequisites for major work in Soil Science vary with the area of specialization and the degree sought, but courses in chemistry, mathematics, physics, geology, basic and applied biological sciences, and English communication skills are required. Applicants for the M.S. degree should have a baccalaureate degree including 76 credits of basic and applied natural sciences. Admission to the Ph.D. program usually requires an M.S. or equivalent degree with a minimum cumulative point average of 3.25 (on a 4.00 scale). Applicants for the Ph.D. program will be evaluated on the quality of work completed in all previous degree programs. Students who lack some of the prerequisite courses may be admitted but are required to take these courses without degree credit. The best-qualified applicants will be accepted up to the number of spaces available for new students.

Master's Degree Requirements

In addition to the general requirements for the M.S. degree as defined by the Graduate School, the department requires 12 credits of 400- or 500-level formal courses in the major field of which 6 must be 500-level. Participation in at least one colloquium course each semester is required and students must complete at least 1 credit of colloquium (SOILS 590), as well as 1 credit of Teaching Experience (SOILS 620). An advisory committee will be appointed for each student and additional courses and requirements may be determined by this advisory committee.

A thesis based on field or laboratory research is required for the M.S. degree. M.S. candidates must pass a final examination.

Doctoral Degree Requirements

Beyond the general requirements for the Ph.D. defined by the Graduate School, the department has a number of specific requirements regarding course level and distribution that are defined in the departmental publication "Graduate Degrees in Soil Science." While a minimum number of courses for the degree is not specified, the doctoral advisory committee has the responsibility of specifying courses and credits essential for the education and development of the candidate. Students are expected to be educated in depth in a specific subfield of Soil Science and to have a perspective of the general field. Normally, 55 to 60 credits in formal course work beyond the B.S. degree are required.

Doctoral candidates are required to participate regularly in a departmental colloquium and to register for at least 2 credits of Colloquium (SOILS 590) during the Ph.D. program. A teaching experience, consisting of two separate semesters, is also required of all Ph.D. students.

The communication and foreign language requirement for the Ph.D. degree may be met either by demonstrating a knowledge of at least one foreign language or by completing at least 6 credits of course work in an area of English communications approved by the student’s advisory committee.

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisers from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student’s Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student’s doctoral committee should include faculty from the major program of study and also faculty with expertise in biogeochemistry. The field of biogeochemistry should be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of...
**Other Relevant Information**

Every student has a close professional relationship with his or her faculty adviser. While research that is done for the thesis will be on subjects that fall within the ongoing research program of the adviser, students are encouraged to propose research projects that are of interest to them. For the most part, all costs relative to the research program will be covered by the department. The department encourages professional development of students through participation in meetings of relevant professional societies and organizations.

**Student Aid**

Graduate assistantships and other forms of student aid are described in the [STUDENT AID](#) section of the Graduate Bulletin.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Spanish (SPAN)

Program Home Page

HENRY J. GERFEN, Head of the Department of Spanish, Italian, and Portuguese
237 Burrowes Building
814-865-4252

Degrees Conferred:
Ph.D., M.A.
Dual-Title Graduate Degree in Spanish and Language Science

The Graduate Faculty

- Mary E. Barnard, Ph.D. (Michigan) Associate Professor of Spanish and Comparative Literature
- William R. Blue, Ph.D. (Penn State) Professor of Spanish
- Paola G. Dussias, Ph.D. (Arizona) Associate Professor of Spanish, Linguistics, and Psychology
- Nicolas Fernandez-Medina, Ph.D. (Stanford) Assistant Professor of Spanish
- Henry J. Gerfen, Ph.D. (Arizona) Associate Professor of Linguistics and Spanish Linguistics
- Marie Speicher, Ph.D. (Penn State) Senior Lecturer in Spanish
- Julia Cuervo Hewitt, Ph.D. (Vanderbilt) Associate Professor of Spanish and Portuguese
- James P. Lantolf, Ph.D. (Penn State) Professor of Spanish and Applied Linguistics
- John M. Lipski, Ph.D. (Alberta) Edwin Erle Sparks Professor of Spanish
- Matthew Marr, Ph.D. (Virginia) Assistant Professor of Spanish
- Guadalupe Martí-Perla, Ph.D. (Washington) Assistant Professor of Spanish
- Sophia McClennen, Ph.D. (Duke) Associate Professor of Comparative Literature, Spanish, and Women's Studies
- John Ochoa, Ph.D. (Yale) Associate Professor of Spanish and Comparative Literature
- Laurence E. Prescott, Ph.D. (Indiana) Associate Professor of Spanish and African/African American Studies
- Sherry Roush, Ph.D. (Yale) Associate Professor of Italian
- Nuria Sagarrà, Ph.D. (Illinois) Assistant Professor of Spanish and Applied Linguistics
- Maria R. Trugilo, Ph.D. (Yale) Associate Professor of Italian

The program offers M.A. options in literature and linguistics, as well as doctoral emphasis in either of these two areas.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required of all students educated (high school and college) in the continental United States. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The minimum requirement for admission normally will be 24 credits of post intermediate work in Spanish language and literature.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements

A candidate for the M.A. degree must take a minimum of 30 credits at the graduate level including 6 credits in a related minor field. An M.A. essay and a comprehensive written examination also are required. The M.A. degree (or equivalent) is normally a prerequisite to doctoral candidacy.

For the Ph.D. degree, a student must complete at least 60 credits (including M.A. credits) of graduate-level work, including a 15-credit minor. Other requirements include (1) a doctoral candidacy examination and written area examinations; (2) reading knowledge of two foreign languages or a comprehensive knowledge of one foreign language; and (3) a doctoral dissertation.

Dual-Title Graduate Degree in Spanish and Language Science

Graduate students with research and educational interests in Spanish may apply to the Spanish and Language Science Dual-Title Degree Program. The goal of the dual-title Spanish and Language Science is to enable graduate students from Spanish to acquire the knowledge and skills of their major area of specialization in Linguistics while at the same time gaining depth and methodological expertise in the areas associated with the language sciences.

Admission Requirements

To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through the Department of Spanish, Italian, and Portuguese (see above for admission requirements for the Graduate Program in Spanish). Upon admission to the Spanish Program and with a recommendation from a Language Science program faculty member in the Department of Spanish, Italian and Portuguese, the student’s application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Requirements for the Dual-Title Ph.D. Degree in Spanish and Language Science

The doctoral degree in Spanish and Language Science is awarded only to students who are admitted to the Spanish doctoral program and admitted to the dual-title degree in Language Science. The minimum course requirements for the dual-title Ph.D. degree in the Spanish and Language Science, in addition to the Spanish Program requirements, are described below.

Spanish/Language Science Proposed Requirements

Total number of required credits: 60

The minimum course requirements for the dual-title Ph.D. degree in Spanish and Language Science, in addition to the Spanish Program requirements, are as follows:

- Language Science proseminar courses (LING 521 and LING 522; 6 credits)
- Research Methods/Statistics (LING 525 or equivalent; 3 credits)
- Theoretical Linguistics (LING 500 or LING 504; 3 credits)
- Cognitive Neuroscience or Psycholinguistics (LING/PSY 520, PSY 511 or equivalent; 3 credits)
- Research internships with two different Language Science faculty mentors (CSD 596, GER 596, LING 596, PSY 596, SPAN 596; 6 credits)

Particular courses may satisfy both the Spanish requirements and those in the Language Science program. Final course selection is determined by the student in consultation with the dual-title program advisors and the major program advisors. Students who already hold a master’s degree from another institution may petition to have equivalent course credits accepted.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

The Pennsylvania State University
The department awards annually an Edwin Erle Sparks Fellowship in the Humanities. In the past several years, graduate students have received external NSF fellowships and awards such as Doctoral Dissertation Research Improvement grants.

**Courses**

*SPAN 001G. ELEMENTARY SPANISH FOR GRADUATE STUDENTS (3)
*SPAN 002G. ELEMENTARY SPANISH FOR GRADUATE STUDENTS (3)

*No graduate credit given for this course.

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**SPANISH (SPAN) course list**

Date last updated by Publications: 9/15/09
Communication Arts and Sciences (CAS)

The Graduate Faculty
- Deborah F. Atwater, Ph.D. (SUNY, Buffalo) Associate Professor Emerita of Communication Arts and Sciences and African and African American Studies
- Thomas W. Benson, Ph.D. (Cornell) Edwin Erle Sparks Professor of Rhetoric
- Stephen H. Browne, Ph.D. (Wisconsin) Professor of Communication Arts and Sciences
- J. Louis Campbell III, Ph.D. (Minnesota) Associate Professor of Speech Communication
- James P. Dillard, Ph.D. (Michigan State) Professor of Communication Arts and Sciences
- Rosa Eberly, Ph.D. (Penn State) Associate Professor of Communication Arts and Sciences, and English
- Jeremy Engels, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of Communication Arts and Sciences
- Dennis S. Gurian, Ph.D. (Iowa) Professor of Communication Arts and Sciences, and Labor Studies and Industrial Relations
- Michael L. Hecht, Ph.D. (Illinois) Professor of Communication Arts and Sciences, and Crime, Law, and Justice
- J. Michael Hogan, Ph.D. (Wisconsin) Professor of Communication Arts and Sciences
- Lisa S. Hogan, Ph.D. (Indiana) Lecturer in Communication Arts and Sciences, and Women's Studies
- Christopher L. Johnstone, Ph.D. (Wisconsin) Associate Professor of Communication Arts and Sciences
- Tony M. Lentz, Ph.D. (Michigan) Assistant Professor of Communication Arts and Sciences
- Wayne J. McMillen, Ph.D. (Penn State) Associate Professor of Communication Arts and Sciences
- Michelle Miller-Day, Ph.D. (Arizona State) Associate Professor of Communication Arts and Sciences
- Mary K. Mino, Ph.D. (Penn State) Associate Professor of Communication Arts and Sciences
- Jon F. Nussbaum, Ph.D. (Indiana) Professor of Communication Arts and Sciences
- Mary Beth Oliver, Ph.D. (Wisconsin) Professor of Communication Arts and Sciences
- Ronnie L. Parrott, Ph.D. (Arizona) Professor of Communication Arts and Sciences
- Rachel A. Smith, Ph.D. (Michigan State) Assistant Professor of Communication Arts and Sciences
- Denise Solomon, Ph.D. (Northwestern) Professor of Communication Arts and Sciences
- Judith L. Stephens, Ph.D. (Kent State) Professor of Humanities and Theatre
- S. Shyam Sundar, Ph.D. (Stanford) Distinguished Professor of Communications, and Communication Arts and Sciences
- Jane Sutton, Ph.D. (Colorado) Associate Professor of Communication Arts and Sciences
- Molly Wertheimer, Ph.D. (Penn State) Professor of Communication Arts and Sciences
- Nancy J. Wyatt, Ph.D. (Penn State) Associate Professor Emerita of Communication Arts and Sciences, and Women's Studies

Students may specialize in communication theory (communication sciences) or rhetoric (communication arts).

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The minimum undergraduate preparation is 12 credits in communication studies/speech communication. Students who cannot meet this requirement in full may be admitted but must make up their deficiencies without credit toward the graduate degree.

Additionally, students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. A student must have completed the master's degree before being admitted as a doctoral candidate.

Master's Degree Requirements
Students pursuing the M.A. degree in Communication Arts and Sciences must schedule a review of their program of courses during the first year of residence and receive approval by a duly constituted advisory committee.

A total of 30 credits, including 6 for the master's thesis and at least 12 other 500-level credits, is required. Candidates must schedule a proposal meeting in which their research plan for their thesis is approved by their committee. They are also required to present an oral defense before their committee.

Although typically encouraged, students in unique circumstances may apply to complete a nonthesis track. Students must apply in advance for acceptance in the nonthesis track and additional course credits will be required, among other differences from the thesis track.

Doctoral Degree Requirements
The communication and foreign language requirement for the Ph.D. degree may be satisfied by options selected from designated areas including, but not restricted to, foreign languages. Doctoral candidates must schedule a candidacy evaluation during their first year. Following completion of the language requirement and all courses from the program of study, doctoral candidates must take a comprehensive examination to determine their mastery and competence in the discipline of communication. After successful completion of the written and oral component of the comprehensive exam, doctoral candidates must schedule a proposal meeting at which the research plan for their dissertation is approved by their committee. Doctoral candidates must present a final oral defense of their dissertation before their committee.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

EDWIN ERLE SPARKS FELLOWSHIPS IN THE HUMANITIES (8)

Available to beginning and continuing graduate students in one of the following graduate programs: Communication Arts and Sciences, Comparative Literature, English, French, German, History, Linguistics, Philosophy, and Spanish; stipend $15,340 plus waiver of tuition. Apply to department before February 1.

Dual-Title Ph.D. in Bioethics (BIOET)
Degree Conferred Students electing to pursue this program will earn a degree with a dual-title at the Ph.D. level, i.e. Ph.D. in CAS and Bioethics.

Admission Requirements
Dual-title bioethics graduate students will first be admitted to their primary programs in accordance with the requirements stipulated by the Graduate School and the primary program. They will then be admitted to graduate study in the Bioethics program by an admissions committee consisting of faculty affiliated with the Bioethics program. Applicants should have a junior/senior cumulative average of at least 3.0 (on a 4.0 scale) and an appropriate background in undergraduate coursework. Prospective dual-title students will write a statement of purpose that addresses the ways in which their research and professional
goals reflect an interest in interdisciplinary bioethics research. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the CAS program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Bioethics program committee. Within this framework, final course selection is determined by the student, their CAS and Bioethics advisors.

Additional Required Coursework
Seven required credits (BIOET 501, BIOET 502, and BIOET 590). At least three additional BIOET credits at the 500 level.

Eight additional credits from a list of approved electives at the 400 and 500 level, with at least two credits at the 500 level.

Courses Available to Fulfill Requirements

**BIOETHICS Courses (BIOET)**
501. PERSPECTIVES AND METHODS IN BIOETHICS (3)
502. PERSPECTIVES IN MACRO-BIOETICS (3)
503. ETHICS AND THE RESPONSIBLE CONDUCT OF BIOMEDICAL RESEARCH (3)
590. BIOETHICS COLLOQUIUM (1)
594. RESEARCH TOPICS (1-15)
595. INTERNSHIP (1-3)
596. INDEPENDENT STUDY (1-9)
597. SPECIAL TOPICS IN BIOETHICS (1-9)

**Elective Courses**
The list of elective courses will be maintained by the Director of the Bioethics Graduate Program in consultation with the Bioethics Program Committee. The list currently includes the following courses:

- ANTH/Biol 460 Human Genetics (3)
- ANTH+BIOL 460H HUMAN GENETICS (4)
- ANTH 471H BIOLOGY. EVOLUTION AND SOCIETY (3)
- BB H 501 BIOBEHAVIORAL SYSTEMS IN HEALTH AND DEVELOPMENT: THEORY AND PROCESSES (3)

**Candidacy**
In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the CAS program. During the candidacy process, the student will also be assessed for candidacy to the Bioethics program, and at least one member of the candidacy committee must come from the Bioethics program. Faculty members who hold appointments in both programs may serve in a combined role.

**Committee Composition**
In accordance with the Graduate Council's requirements, the doctoral committee shall contain at least four members. At least one of the committee members must be a faculty-member affiliated with the Bioethics Program, but graduate students are encouraged to have a second committee member so qualified. Faculty members who hold appointments in both programs may serve in a combined role. The faculty member representing the Bioethics Program must be designated as co-chair of the committee. The Bioethics Program representative(s) will be expected to participate in constructing and grading comprehensive examination questions that cover the secondary area of study. The outside member will be appointed in accordance with the Graduate School's Graduate Student Procedures. The Graduate Council's current policy is that the Outside Member cannot have more than a 25% budgetary connection with either the graduate major program or the dual-title degree program.

**Comprehensive Exam**
The faculty member (or members) affiliated with the Bioethics Program will be responsible for administering a portion of the comprehensive exam that will require the student to demonstrate an understanding of various theoretical and methodological approaches to bioethics, and an ability to apply them to issues and problems (including, where appropriate, practical problems) in their primary field.

The Pennsylvania State University
Dissertation and dissertation defense

A dissertation on a bioethics-related topic or with a substantial bioethics component is required of students in the dual-title Ph.D. program. The bioethics-related topic of the dissertation or the bioethics component will be approved by the student's committee.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty
- Elizabeth Benedek-Wood, Ph.D. (Penn State) Assistant Professor of Education
- Douglas Dexter, Ph.D. (Penn State) Assistant Professor of Education
- Katie Hoffman, Ph.D. (Penn State) Assistant Professor of Education
- Charles A. Hughes, Ph.D. (Florida) Professor of Special Education
- Richard M. Kubina, Jr., Ph.D. (Ohio State) Professor of Education
- David Lee, Ph.D. (Purdue) Associate Professor of Special Education
- Linda Mason, Ph.D. (Maryland) Associate Professor of Special Education
- James K. McAfee, Ph.D. (Georgia State) Associate Professor of Special Education
- Kathleen M. McKinnon, Ph.D. (Pittsburgh) Associate Professor of Education
- David McNaughton, Ph.D. (Penn State) Professor of Education
- Paul L. Morgan, Ph.D. (Vanderbilt) Associate Professor of Education
- Paul J. Riccomini, Ph.D. (Penn State) Associate Professor of Education
- Kathy L. Ruhl, Ph.D. (Florida) Professor of Special Education
- Frank R. Ruch, Ph.D. (Washington U) Professor of Special Education
- Mary Catherine Scheeler, Ph.D. (Penn State) Associate Professor of Education
- Pamela S. Wolfe, Ph.D. (Virginia) Associate Professor of Special Education

Exceptional children are those who deviate so far from average in physical, intellectual, emotional, or social characteristics that they require highly specialized instruction and related services. The purpose of the M.Ed. program in Special Education is to prepare teachers of exceptional children. M.Ed. students are trained in behavior management and instructional design, implementation, and evaluation appropriate for effective work with children and youth who qualify for services for mental or physical disabilities at all age levels and degrees of severity. The purpose of the M.S. and Ph.D. programs is to prepare researchers and college and university teachers in areas encompassing the education of the children and youth who qualify for services for mental or physical disabilities. The former program is professional in nature; the latter two, academic.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) (verbal and quantitative) are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Highest admission priorities are given to applicants who possess certification in special education or elementary education. Applicants for master's and doctoral programs must present evidence of superior academic achievement, complete a personal statement, present GRE verbal and quantitative test scores, and provide professional references. Minimum GPA for master's and doctoral applicants are, respectively, 3.00 for M.Ed. and M.S., and 3.50 for Ph.D. Minimum GRE test scores of master's and doctoral applicants, respectively, are (verbal and quantitative combined): 800 for M.Ed., 900 for M.S., and 1000 for Ph.D. Applicants for doctoral study must have had at least three years of relevant experience with special-needs children or youth. Applicants from foreign countries whose first language is not English must submit TOEFL (Test of English as a Foreign Language) scores. Exceptions to the admissions criteria may be made only for highly qualified students with special backgrounds, abilities, and interests.

Master's Degree Requirements
Prerequisites for the M.Ed. program include 26 credits basic to the education of exceptional children (courses comparable to SPLED 401, SPLED 425, SPLED 454, and SPLED 495E). Of the 30 credits required for the M.Ed. degree, 6 must be taken from fields outside of special education; at least 18 must be taken in special education; and 18 credits must be taken at the 500 level. SPLED 411, SPLED 412, and SPLED 573 are required along with two practica: SPLED 595A and SPLED 595B. M.Ed. students must submit a master's paper. M.Ed. students must submit a master's paper and meet all of the eligibility criteria for Pennsylvania certification at the completion of their programs.

Of the 30 credits required for the M.S. degree, 6 must be taken from one discipline outside of education; 18 must be taken in special education; and 18 must be taken at the 500 level or above. SPLED 573 and EDPSY 400 are required as are 6 credits of thesis research, SPLED 600. M.S. students must submit a master's thesis and pass a comprehensive examination. All requirements for either the M.Ed. or the M.S. degree must be met within six years or a period spanning seven consecutive summers.

Doctoral Degree Requirements
The communication and foreign language requirement for the Ph.D. degree is prescribed by each student's committee. The requirements include the successful completion of a philosophy of science course (e.g., PHIL 421) and additional language and communication abilities such as foreign language competence, computer programming skills, expertise with alternative communication systems, research publication, etc. Minimum requirements for the Ph.D. degree include 24 credits of research methods; 18 credits in a cognate area such as psychology, sociology, or child development; and 36 credits in education. The student also must enroll in SPLED 500 each semester prior to successful completion of the comprehensive examinations. A candidacy examination is required no later than the second semester of full-time study; written and oral comprehensive examinations are required following the satisfactory completion of the language requirement. A student is required to complete the program within seven years from the date of acceptance as a candidate.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following award typically has been available to graduate students in this program:

U.S. OFFICE OF EDUCATION ASSISTANTSHIPS OR TRAINEESHIPS IN SPECIAL EDUCATION. Open to graduate students being prepared as leadership personnel in special education; stipend varies, depending on conditions of existing grants. Other graduate assistantships also may be available. Apply to the Graduate Admissions Committee, 227 CEDAR Building.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- M.A.
- Ph.D.

Integrated B.S. in Statistics and Master of Applied Statistics (M.A.S.)

The Graduate Faculty

- Michael G. Akritas, Ph.D. (Wisconsin) Professor of Statistics
- Naomi S. Altman, Ph.D. (Stanford) Associate Professor of Statistics
- Charles E. Antle, Ph.D. (North Carolina State) Professor Emeritus of Statistics
- Steven F. Arnold, Ph.D. (Stanford) Professor of Statistics
- Guttu Jogesh Babu, Ph.D. (ISI-Calcutta, India) Professor of Statistics
- Jesse L. Barlow, Ph.D. (Northwestern) Professor of Computer Science and Engineering, and Statistics
- Otmar N. Bjerkestd, Ph.D. (Oslo, Norway) Professor of Biology, Entomology, and Statistics
- Marilyn T. Boswell, Ph.D. (California, Riverside) Associate Professor Emeritus of Statistics
- Francesca Chiaromonte, Ph.D. (Minnesota) Associate Professor of Statistics and Public Health Sciences
- Vernon M. Chinchilli, Ph.D. (North Carolina) Distinguished Professor of Biostatistics and Statistics
- Munkuk Chow, Ph.D. (Cornell) Associate Professor of Statistics; Senior Research Associate
- Linda M. Collins, Ph.D. (USC) Professor of Human Development and Family Studies, and Statistics
- Enrique del Castillo, Ph.D. (Arizona State) Associate Professor of Industrial Engineering and Statistics
- Massoud Denker, Ph.D. (Nürnberg) Professor of Mathematics
- Eric D. Feigelson, Ph.D. (Harvard) Professor of Astronomy and Astrophysics
- Duncan Fong, Ph.D. (Purdue) Professor of Marketing and Statistics
- John Fricks, Ph.D. (North Carolina) Assistant Professor of Statistics
- Debashis Ghosh, Ph.D. (Washington) Associate Professor of Statistics and Public Health Sciences
- Muruli Haran, Ph.D. (Minnesota) Assistant Professor of Statistics
- William L. Harkness, Ph.D. (Michigan) State Professor Emeritus of Statistics
- Thomas P. Hettmansperger, Ph.D. (Iowa) Professor Emeritus of Statistics
- Robert A. Hultquist, Ph.D. (Oklahoma State) Professor Emeritus of Statistics
- David R. Hunter, Ph.D. (Michigan) Associate Professor of Statistics
- Bing Li, Ph.D. (Chicago) Professor of Statistics
- Jia Li, Ph.D. (Stanford) Associate Professor of Statistics and Computer Science and Engineering
- Runze Li, Ph.D. (North Carolina) Professor of Statistics
- John C. Liechty, Ph.D. (Cambridge) Associate Professor of Marketing and Statistics
- Dennis K. Lin. Ph.D. (Wake的技术) University Distinguished Professor of Statistics and Supply Chain Management
- Bruce G. Lindsay, Ph.D. (North Carolina) Willaman Professor of Statistics
- David T. Mauger, Ph.D. (Michigan) Associate Professor of Public Health Sciences and Statistics
- Raymond D. Sc. (Michigan) Distinguished Professor Emeritus of Mathematical Statistics
- Donald St. P. Richards, Ph.D. (UWI) Professor of Statistics
- James P. Rekers, Ph.D. (Cornell) Professor of Statistics
- Thomas A. Ryan, Jr., Ph.D. (Cornell) Associate Professor Emeritus of Statistics
- Joseph L. Schafer, Ph.D. (Harvard) Associate Professor of Statistics
- Michele L. Shafer, Ph.D. (Penn State) Associate Professor of Public Health Sciences and Statistics
- Damla Sentürk, Ph.D. (California, Davis) Assistant Professor of Statistics
- Dennis L. J. Lim, Ph.D. (Penn State) Assistant Professor of Statistics; Research Associate
- Laura B. Simon, Ph.D. (Penn State) Lecturer in Statistics
- Aleksandra B. Slavkovic, Ph.D. (Carnegie Mellon) Assistant Professor of Statistics
- Lisa C. Strauss, Ph.D. (Penn State) Assistant Professor of Statistics; Research Associate
- Arkady A. Tempelman, D.Sc. (Vilnius, Lithuania) Professor of Statistics and Mathematics
- Rongling Wu, Ph.D. (U of Washington) Professor of Public Health Sciences and Statistics
- Yinghui Wu, Ph.D. (North Carolina State) Professor of Meteorology and Statistics
- Yu Zhang, Ph.D. (Southern California) Assistant Professor of Statistics
- Zhizhao Zhao, Ph.D. (Chicago) Assistant Professor of Statistics

Graduate instruction and research opportunities are available in most areas of statistics and probability, including linear models, nonparametric statistics, robustness, statistical computing, analysis of count data, multivariate analysis, experimental design, reliability, stochastic processes and probability (applied and theoretical), distribution theory, statistical ecology, and biometrics.

Graduate students can gain practical experience in the application of statistical methodology through participation in the department's statistical consulting center and collaborative research activities. In addition, collaborative projects with other departments provide longer term experience and support for selected students. Most students gain valuable teaching experience by assisting in the teaching and grading of courses. In addition, Ph.D. candidates with proper qualifications can receive support for teaching undergraduate courses.

The Master of Applied Statistics (M.A.S.) program is a professional degree designed to provide training in statistics focused on developing data analysis skills, and exploration of all core areas of applied statistics, without going deeply into the mathematical statistics foundations. It aims to provide its graduates with broad knowledge in a wide range of statistical application areas.

The Doctor of Philosophy (Ph.D.), Master of Arts (M.A.), and Master of Science (M.S.) degrees in Statistics are designed for advanced studies in applied and theoretical statistics. Special emphasis is one biostatistics, statistical ecology, environmental statistics, genomics, biometrics and statistical computation. The M.S. degree is appropriate preparation for the department's Ph.D. degree.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. Entering graduate students in statistics for whom English is not the first language are required to take the TOEFL (Test of English as a Foreign Language) examination. The results of this examination must be received by the Department of Statistics at least six months prior to the requested date of admission to the Graduate School and must pass the PSU test of spoken English in the first year of the program. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the Internet-based test (iBT). Applicants with lower scores may be considered for provisional admission.

While applications from all students (including those who already have done graduate work) are reviewed, completion of a standard calculus sequence is regarded as a prerequisite. Students with a 3.00 or better junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. Students hoping to earn a Ph.D. in statistics may apply directly to the Ph.D. program without need for a master's degree.

The Pennsylvania State University
Degree Requirements

Professional Master of Applied Statistics Requirements

For the M.A.S. degree, a minimum of 30 credits and a minimum grade-point average of 3.0 are required for graduation. Of the 30 credits, 24 must be courses from the Statistics department and 21 must be at the 500 level. The candidate must complete 6 credits in applied statistics (STAT 501, STAT 502), 6 credits in mathematical statistics (STAT 414, STAT 415) and 3 credits in statistical consulting (STAT 580-581). For all M.A.S. students, the Stat 581 course will have a comprehensive written project report required as part of the course, which serves as the culminating experience. To complete the remaining credit requirements, a candidate can select 9-12 credits from the following applied statistics courses: STAT 494, STAT 490, STAT 500, STAT 503, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, and STAT 510. In addition, students with suitable backgrounds may choose up to 6 credits from a departmental list of additional courses with approval from their adviser.

Master of Arts and Master of Science Degree Requirements

For the M.A. and M.S. degrees, a candidate must complete at least 30 credits, including at least 27 at the 500 or 600 level; 21 of the 27 500-level credits must be formal course work from the department of Statistics. A candidate must complete 6 credits in applied statistics (STAT 511, STAT 512), 6 credits in mathematical statistics (STAT 513, STAT 514), 3 credits in stochastic processes (STAT 515) and 3 credits in statistical consulting (STAT 580-581). The student must also pass a written master's qualifying examination taken at the end of the first year. Finally, an M.A. candidate must submit an acceptable master's paper to the department, and an M.S. candidate must submit a thesis.

Doctoral Degree Requirements

In addition to the course requirements for the M.A. and M.S. degrees given above, a Ph.D. candidate in Statistics must complete further courses in linear models (STAT 551), asymptotic tools (STAT 553), statistical inference (STAT 561), and advanced probability (STAT 517), as well as 15 credits of electives taken from STAT 518, STAT 544, STAT 545, STAT 552, STAT 562, STAT 564, STAT 565, and STAT 572, or other courses suggested by the Ph.D. committee and approved by the Graduate Studies Committee. The student also must pass a written Ph.D. qualifying exam, typically during the second year, and a comprehensive exam given at the end of the third year. The comprehensive exam will have a written component, whose content will be determined and administered by the student's Ph.D. graduate committee, and an oral component, which includes the presentation of a thesis research proposal. The candidate then must submit an acceptable Ph.D. thesis and defend it.

The Ph.D. in Statistics offers options in Biometrics, Biostatistics, Environmental Statistics, and Genometrics. The course and the examination requirements remain the same under these options, however, the candidate must take 15 credits from a list of courses identified by the option.

Minor in Statistics Requirements

The Department of Statistics has three possible options for a Graduate Minor in Statistics:

- **Option 1**: STAT/MATH 414-415 and at least three 500-level courses from the department.
- **Option 2**: Five or more courses totaling 15 credits at the 500-level from the department. Stat 464 may also count toward the 15 credits.
- **Option 3**: Four 500-level courses totaling 12 credits from the department and one additional course of 3 credits approved by the department head or graduate studies chairman.

Please note: STAT 500 will not be counted toward the Graduate Minor in Statistics under any option.

For all options, a 3.5 GPA is required in the courses to be counted toward the minor. Completion of one of the options listed above, with the specified grade-point average, and the signature on the Graduate Minor Program form (www.stat.psu.edu/grad/degrees/Minor/Graduate_Minor_Application_Form.pdf) constitutes approval of the Minor in Statistics. The candidate must indicate the wish to have a Graduate Minor in Statistics when the diploma card is filed and indicate the semester the Ph.D. degree is expected.

Other Relevant Information

Students in the Statistics program may elect the dual-title degree program option in Operations Research for the Ph.D. and M.S. degrees. (See also Operations Research.)

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the [STUDENT AID](#) section of the Graduate Bulletin. GRE scores are required for consideration for assistantships.

Integrated B.S. in Statistics and Master of Applied Statistics (M.A.S.)

The Integrated Undergraduate-Graduate (IUG) degree with B.S. in Statistics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career-oriented students to obtain training in statistics focused on developing data analysis skills and exploration of core areas of applied statistics at the undergraduate and graduate levels. The M.A.S. degree is a professional master's degree that emphasizes applications and does not provide as much training in the mathematical and statistical theory. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analyst. Research divisions in the pharmaceutical industry, quality control and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data-intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

Application Process

The number of openings in the integrated B.S./M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

- Must be enrolled in the Statistics B.S. program.
- Must have completed at least 60 credits of the undergraduate degree program, including the two courses: STAT 414 and STAT 415 and the students must apply to the program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of the department's undergraduate program committee.
- Must be accepted into the M.A.S. program in Statistics.

For the IUG B.S./M.A.S. degree, 120 credits are required for the B.S. and 30 credits for the M.A.S. The following twelve graduate-level credits (number of credits in parentheses) can apply to both B.S. and M.A.S. degrees; six of these are at the 500 level:

**STATISTICS (STAT)**

- 414. Introduction to Probability Theory (3)
- 415. Introduction to Mathematical Statistics (3)
- 501. Regression Methods (3)
- 502. Analysis of Variance and Design of Experiments (3)

Assuming all requirements for the B.S. are completed, students in the program can complete the B.S. degree and not advance to the M.A.S. Degree if they desire.

Degree Requirements
IUG Statistics B.S. prescribed Statistics courses (25 credits)

STATISTICS (STAT)
220. Basic Statistics (3)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
416. Stochastic Modeling (3)
464. Applied Nonparametric Statistics (3)
470. Problem Solving and Communication in Applied Statistics (3)
480. Introduction to Statistical Analysis System (SAS) (1)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

Note that students in IUG Statistics B.S. take STAT 501 and STAT 502 instead of STAT 460 and STAT 462 for the regular Statistics B.S.

IUG Statistics M.A.S. requirement (30 credits)

STATISTICS (STAT)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)
580. Statistical Consulting Practicum (2)
581. Statistical Consulting Practicum II (1)

Electives (15 credits)
Select from STAT 503, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, STAT 510 and the departmental list of additional courses for the M.A.S. degree with the approval of the adviser.

** For all students in the M.A.S. program, the STAT 581 courses will have a comprehensive written project report required as part of the course, which serves as the culminating experience.

Integrated B.A./B.S. in Mathematics and Master of Applied Statistics (M.A.S.)

The Integrated Undergraduate-Graduate (IUG) degree with B.A./B.S. in Mathematics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career oriented students to obtain training in statistics focused on developing data analysis skills, and exploration of core areas of applied statistics at the graduate levels in addition to an undergraduate degree in Mathematics. The M.A.S. degree is a professional masters degree that emphasizes applications. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analysts. Research divisions in the pharmaceutical industry, quality control, and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

Application Process

The number of openings in the integrated B.A./B.S. in Mathematics and M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

- Must be enrolled in the Mathematics B.A./B.S. program.
- Must have completed at least 60 credits of the undergraduate degree program including the two courses: STAT 414 and STAT 415 and the students must apply to the integrated program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of Mathematics Department's undergraduate program committee. Two additional recommendation letters must be sent to the M.A.S. admissions committee.
- Must submit the GRE to the M.A.S. admissions committee.
- Must apply to the M.A.S. program in Statistics.

For the IUG B.A./B.S. in Mathematics and M.A.S. degree, 120 credits are required for the B.A./B.S. and 30 credits for the M.A.S. The following twelve graduate level credits (number of credits in parentheses) can apply to both B.A./B.S. and M.A.S. degrees, six of these are at the 500 level:

STATISTICS (STAT)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

Electives:

Assuming all requirements for the B.A./B.S. in Mathematics are completed, students in the program can complete the B.A./B.S. degree and not advance to the M.A.S. degree if they desire.

Degree Requirements

IUG Math B.A./B.S. students must fulfill the Math B.A./B.S. requirement while counting these prescribed Statistics courses (15 credits)

STATISTICS (STAT)
220. Basic Statistics (3)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

IUG M.A.S. Requirements (30 credits)

STATISTICS (STAT)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)
580. Statistical Consulting Practicum (2)
581. Statistical Consulting Practicum II (1)

Electives: (15 credits)
Select from STAT 464, STAT 503, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, STAT 510 and the departmental list of additional courses for the M.A.S. program with the approval of the adviser.

For the IUG B.A./B.S. in Mathematics and M.A.S. degree, the four courses: STAT 414, STAT 415, STAT 501 and STAT 502 can apply to both the B.A./B.S. and M.A.S. degrees.

*Can be waived for students with an equivalent course, e.g., STAT 250 or STAT 301.

** For all students in the M.A.S. program, the STAT 581 course will have a comprehensive written project report required as part of the course, which serves as the culminating experience.
Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Graduate Faculty

- Adrian Barb, Ph.D. (University of Missouri) Assistant Professor of Information Science
- JoAnna DeFranco, Ph.D. (New Jersey Institute of Technology) Assistant Professor of Information Science
- Nil H. Ergin, Ph.D. (University of Missouri-Rolla) Assistant Professor of Systems Engineering
- Kathryn Jablouk, Ph.D. (Ohio State) Associate Professor of Mechanical Engineering
- Phillip Laplante, Ph.D. (Stevens Institute of Tech) P.E. Associate Professor of Software Engineering
- John I. McCool, Ph.D. (Temple) Distinguished Professor of Industrial and Manufacturing Engineering
- Colin J. Neill, Ph.D. (Wales) Associate Division Head and Professor of Software Engineering
- James A. Nemes, D.Sc. (George Washington University) Professor and Division Head
- Michael J. Piovoso, Ph.D. (Delaware) Professor of Electrical Engineering
- Robin G. Qui, Ph.D. (Penn State) Associate Professor of Information Science
- David W. Russell, Ph.D. (CNAA, London) Professor of Electrical Engineering
- Raghvinder Sangwan, Ph.D. (Temple) Associate Professor of Software Engineering
- Kailasam Satyamurthy, Ph.D. (Clemson) Assistant Professor of Engineering and Management

This professional master's degree program, available at Penn State Great Valley, focuses on various aspects of software engineering. The primary goal of the program is to prepare students to develop the next generation of software products and services for consumers, industry, and government. The curriculum includes comprehensive, intensive coverage of modern software concepts and techniques, and emphasizes a holistic approach, encompassing financial, legal, and presales issues; technical concepts; software design techniques; methods; and project management.

The program is constituted by four, 9-credit modules of study. Each module is designed for in-depth coverage of a specific area of study (e.g., modern software methods, algorithms, information science). Two of the modules are required; one centers on professional, skill-based topics such as software project management or business communications, and includes the option to select a professional paper or the advanced software studio. The second required module comprises 9 credits of advanced software engineering course work. Graduate instruction is under the direction of a faculty committee.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The Master of Software Engineering (M SE) program is designed for students with technical backgrounds. Admission will be granted if the applicant has the necessary program prerequisites and a faculty member in the student's interest area agrees to serve as adviser. Candidates lacking in a modern programming language can meet that requirement by scheduling the 400-level software engineering studio. Scores from the Graduate Record Examinations (GRE) are not an entrance requirement unless the applicant has a junior/senior grade-point average below 3.00 (on a 4.00 scale).

Students with a 3.00 junior/senior average in an appropriate technical degree program will be considered for admission. The best-qualified applicants will be accepted. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. Entering graduate students for whom English is not their first language are required to have a score of at least 550 on the TOEFL (Test of English as a Foreign Language).

Program Requirements

All candidates must complete two required 9-credit core modules, for a total core curriculum of 18 credits, and two other 9-credit modules. At least 15 credits of selected courses must be at the 500 level.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Kailasam Satyamurthy, Ph.D. (Clemson) Assistant Professor of Engineering and Management

This professional master's degree program, available at Penn State Great Valley, deals with the various aspects of systems engineering. The primary goal of the program is to prepare engineers to develop the next generation of engineering products, systems, and services for industry and government.

The curriculum integrates the traditional engineering disciplines in a synergistic manner. Course work includes four 9-credit modules of study with each module designed for in-depth coverage of a specific area of study (e.g., systems and control, robotics). Two of the four modules, the Skill-Based module and the Systems Engineering module, are required and constitute an 18-credit core. To complete the program, students choose an additional 18 credits of electives in two modules of professional interest. As part of the 18-credit core curriculum, students who are nearing the end of their program complete a capstone research experience. Graduate instruction is under the direction of an interdisciplinary faculty committee and the departments participating in the program. The graduate faculty consists of members who have teaching and research interests in the area of systems engineering. Maximum flexibility is maintained by the program in an effort to meet both the professional needs of the individual students and academic quality standards.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The M.Eng. in Systems Engineering program is designed for students with backgrounds in science or engineering. Admission will be granted if the applicant has the necessary program prerequisites and a faculty member in the student's interest area agrees to serve as adviser. Normal admission requirements include mathematics through differential equations. Scores from the Graduate Record Examinations (GRE) are not an entrance requirement unless the junior/senior grade-point average is below 3.00 (on a 4.00 scale). There is no foreign language requirement.

Students with a 3.00 junior/senior GPA in an appropriate technical degree program will be considered for admission. The best-qualified applicants will be accepted. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities, and interests. Entering graduate students for whom English is not their first language are required to have a score of at least 550 (paper) or 213 (computer) on the Test of English as a Foreign Language (TOEFL).

Degree Requirements

All candidates must take two required 9-credit core modules for a total core curriculum of 18 credits and two other 9-credit elective modules. At least 15 credits of selected courses must be at the 500 level.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Teaching and Curriculum (T & C)

Program Home Page

DENISE G. MEISTER, Coordinator of the Graduate Program in Teaching and Curriculum
Penn State Harrisburg
Middletown, PA 17057
717-948-6213

Degree Conferral:
M.Ed.

The Master of Education in Teaching and Curriculum is designed to enhance the skills of teachers for public and private schools. The program focuses on three essential components: curriculum, instruction, and assessment—those that contribute to the organization's philosophy of learning. The Teaching and Curriculum program is unified by its vision of critical thinking, democracy, diversity, lifelong learning, nurturance, and scholarship. Courses are designed to reflect the standards of the National Council for Accreditation of Teacher Education (NCATE) and the National Board for Professional Teaching Standards (NBPTS). The program is offered at Penn State Harrisburg and other selected Penn State campuses.

Specifically, the goals of the program are to develop in students (1) the ability to communicate effectively either with school-age students and their parents or with co-workers and/or clients; (2) the ability to conduct an instructional program that provides a sound intellectual and emotional climate for learning; (3) competence in a variety of teaching methods and in the utilization of materials and content appropriate for an effective instructional program; (4) the ability to interpret and to evaluate educational literature and research; and (5) the ability to describe and to evaluate major issues and current trends in instructional curriculum practice and development.

Certification programs are also in the areas of early childhood education, English as a second language, and principaship.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The M.Ed. Program in Teaching and Curriculum has four important admission requirements.

First, candidates must have achieved an overall junior/senior grade point average of 3.00 or higher. For candidates applying for admission who have completed credits beyond the baccalaureate degree, we will evaluate the last (approximately) 60 credits completed.

Second, candidates must submit two letters of recommendation. These letters must be from former professors or professionals who can attest to the academic ability and potential of the candidate.

Third, candidates must submit a 200-300 word personal statement that addresses their career goals and reasons for pursuing a graduate degree.

Fourth, candidates must submit test scores from one of the following: Graduate Record Examination, Miller Analogies Test, or Praxis examinations completed for certification.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Retention

Candidates must maintain a minimum 3.00 grade point average in courses approved by the program, satisfactorily complete all required key assessments, attain a grade "C" or better in all required core courses. Candidates who do not make satisfactory progress will be notified in writing noting the specific deficiencies and requesting that they meet with the program coordinator to develop a remediation plan. Failure to meet or to satisfactorily complete the remediation plan will result in termination from the program.

In compliance with the National Council for the Accreditation of Teacher Education (NCATE) requirements, all persons enrolled in Teacher Education Programs at Penn State Harrisburg are expected to demonstrate the professional dispositions that are aligned with the unit's vision statement. The faculty shall evaluate the approved dispositions demonstrated by the candidates in class and during field experiences. Candidates may be rated as exemplary, acceptable, or unacceptable. Candidates are expected to attain acceptable or exemplary ratings in order to graduate.

Degree Requirements

The Master of Education Degree in Teaching and Curriculum provides students with two alternatives to meet the required culminating or capstone experience: (1) course work with a master's project (EDUC 587) or (2) course work that includes a capstone course (EDUC 591). Students may complete the degree requirements for either of the two alternatives with the approval of their advisor.

A total of 30 credits must be completed: 18 credits in core courses and 12 credits in electives. At least 18 credits must be at the 500 level or higher. A minimum grade-point average of 3.00 for work done at the University and acceptable or higher ratings on the professional dispositions are required for graduation.

Prescribed Core Course Requirements (18 credits)

Learning Theory: EDUC 520(3)
Curriculum Development and Instructional Design: EDUC 506(3) or EDUC 403(3) (Early Childhood only)
Educational Assessment: EDUC 539(3) or EDUC 404(3) (Early Childhood only)
Educational Foundations: EDUC 505(3)
Educational Research Design: EDUC 586(3)
Culminating Course: EDUC 587 Master's Project or EDUC 591 Education Seminar

Electives

Students are required to take up to 12-15 credits of elective course work. Students may take all of those credits in education or, with the approval of their adviser, select up to 9 credits of electives in a field other than education.

Options

Language Arts Option: The goal of the language arts option is to provide students an in depth understanding of how research in theory in the language arts are related to language acquisition and growth; the knowledge and skills necessary for conducting informal assessments in the language arts and required to
implement a variety of instructional procedures for the language arts; and an awareness of the role that literature can have in an effective language arts program at any level.

Mathematics Education Option: The objective of the mathematics education option is to provide courses that will emphasize current research and curriculum shifts related to the teaching of mathematics in K - 12 classrooms. This option requires completion of four EDMTH courses (a total of 12 credits): EDMTH 441, 442, 443, 444 in addition to the other program requirements.

Transfer Credits

Subject to the limitations given below, a maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master's degree. However, credits earned to complete a previous master’s degree, whether at Penn State or elsewhere, may not be applied to a second master’s degree program at Penn State. The student should distinguish carefully between the transferability of credit and its applicability in a particular degree program. Approval to apply any transferred credits toward a degree program must be granted by the student's academic adviser, the program head or graduate officer, and the Graduate School. Transferred academic work must have been completed within five years prior to the date of the first degree registration at the Graduate School of Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university. Pass-fail grades can be substantiated by the former institution as having at least B quality.

A maximum of 15 graduate credits taken as a nondegree student prior to admission to a graduate degree program may be applied to a graduate program, with departmental approval. The credits must have been earned within five years preceding entry into the degree program.

Forms for transfer of credit can be obtained from the graduate program office.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit courses below the 400 level in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Fuyuan Shen, Ph.D. (North Carolina, Chapel Hill) Associate Professor of Communications
- Susan S. Sheehan, Ph.D. (Ohio) Associate Professor of Communications
- Susan M. Strohm, Ph.D. (Minnesota) Assistant Professor of Communications
- S. Shyam Sundar, Ph.D. (Stanford) Distinguished Professor of Communications, and Communication Arts and Sciences
- Richard D. Taylor, J.D. (New York) Palmer Chair of Telecommunications Studies and Law
- Bu Zhong, Ph.D. (Maryland) Assistant Professor of Communications

The M.A. in Telecommunications Studies program offers a systematic approach to understanding the globalization of information technologies and the convergence of electronic media and telecommunications. It includes history, technology, policy, economics, industrial structures, and e-commerce issues. The program is for both recent undergraduates in communications and related fields, as well as for individuals currently associated with the media information and telecommunications industries wishing to advance themselves professionally. Applicants without an undergraduate degree or professional connection to the field may be required to acquire a basic background as a condition of admission, based on a case-by-case evaluation.

Admission Requirements

Scores for the Graduate Record Examinations (GRE) are required for admission. All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the Test of English as a Foreign Language (TOEFL) and submit the results of that test with the application for admission. The minimum TOEFL admittance score is 600. Applicants with an undergraduate 3.00 junior/senior grade-point average (on a 4.00 scale) are eligible for admission. Also required are three letters of recommendation and an autobiographical statement of 750 to 1,000 words indicating the nature of the applicant's interest in undertaking graduate study in telecommunications.

Program of Study

The M.A. in Telecommunications Studies program is a one-calendar year, 30-credit program that requires a 3-credit master's paper. A student must enter the program in the fall semester.

Degree Requirements

Candidates must complete a minimum of 30 credits (including master's paper preparation): no more than 9 credits at the 400 level and no more than 6 credits in independent study (in addition to 3 credits researching and writing a master's paper). Candidates must complete a 9-credit core. The remaining credits are selected by the student in consultation with the adviser. Course work offered by departments outside the College of Communications may be scheduled as part of the student's program with prior approval of the student's academic committee. A candidate must maintain 3.00 grade-point average and complete a significant research paper (master's paper) under the direction of a faculty adviser. This paper shall be reviewed and approved by a faculty committee of at least three members. Students are required to schedule three separate, formal meetings with their advisers and academic committees for (1) discussion and approval of the general program plan, (2) the paper proposal, and (3) a formal presentation and defense of the paper at the final meeting of the student's advisory committee.

Student Aid

Graduate assistantship and other forms of student aid available to students in the program are described in the STUDENT AID section of the Graduate Bulletin.

Courses

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Steve Thorne, Ph.D. (California, Berkeley) Assistant Professor of Applied Linguistics

The master's program in English as a Second Language is designed to provide professional development for teachers and administrators in English as a second or foreign language. The program is problem focused, integrating theory and practice from the fields of applied linguistics and teaching English as a second language to address issues of second language acquisition/teaching and program development, with special focus on English in a wide range of both domestic and international contexts. Requirements include 36 credit hours, a master's paper, and a teaching portfolio.

Completion of this degree program does not automatically provide teacher certification in the Commonwealth of Pennsylvania. Further information on teaching certification is available from the College of Education. Students who desire to continue their studies in ESL at Penn State may be admitted to the Ph.D. program in Applied Linguistics through the program in Linguistics and Applied Language Studies.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants whose native language is not English must take the TOEFL examination and attain a score greater than 600. All applicants are also required to arrange for three letters of reference to be submitted along with a one- to two-page statement of the applicant's goals and professional objectives.

Degree Requirements

The M.A. in TESL requires 36 credits, of which 18 credits must consist of 500-level courses. In lieu of a thesis, students must prepare a master's paper and compile a teaching portfolio. The following courses are required: APLNG 484, APLNG 493, APLNG 591, APLNG 595; 9 credits of electives from the following APLNG courses: APLNG 410, APLNG 482W, APLNG 572, APLNG 573, APLNG 581, APLNG 583, APLNG 593, APLNG 597; and 6 credits of approved electives.

Student Aid

Graduate Assistantships that may be available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Faculty Emeriti

- Douglas N. Cook, M.A. (Stanford) Professor Emeritus of Theatre
- Charles Firmin, M.F.A. (Penn State) Associate Professor Emeritus of Theatre
- Anne A. Gibson, M.F.A. (Carnegie Mellon) Professor Emerita of Theatre
- Helen A. Manfull, Ph.D. (Minnesota) Professor Emerita of Theatre
- Douglas R. Marmee, M.F.A. (Brandeis) Associate Professor Emeritus of Theatre

The master of fine arts degree program in Theatre pursues the following objectives: (1) to assist each student in acquiring discriminating taste and critical judgment in theatre; (2) to help each student attain skills and proficiencies in theatre; (3) to provide the training, discipline, and opportunities essential to the development of a professional ability in at least one area of theatre; and (4) to prepare each student for an active career in academic and/or professional theatre or other areas within the entertainment industry.

Facilities include the Playhouse, a 450-seat proscenium theatre; the Pavilion, a 249-seat thrust theatre; a 150-seat proscenium theatre in the heart of downtown State College; theatre production studios for scenic, property, and costume preparation; two computer-assisted design laboratories; a lighting laboratory; a sound and media studio; and rehearsal and dance studios.

Admission Requirements

Graduate Record Examination (GRE) scores, or comparable examination scores, are not required for admission to the School of Theatre. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Requirements for admission to the M.F.A. program are (1) a broad undergraduate preparation in theatre, including 3 credits each in acting, directing, stagecraft, and theatre history; and 6 credits of dramatic literature; (2) 12 credits in related subject areas such as communications, oral interpretation, art, business, music, and dance; and (3) submission of a vita and at least three letters of recommendation.

Additional requirements for M.F.A. candidates are (1) submission of evidence of professional potential in the proposed area of specialization-auditions, prompt books, portfolios, manuscripts, and other appropriate presentations-to the applicable study program(s) by arrangement with the department; and (2) a personal interview to be arranged by the student.

Master of Fine Arts Degree Requirements

The program entails specialized professional training in one of the following areas: acting, directing, scene design, costume design, costuming, lighting design, and technical direction. Six semesters in residence are normally required to complete the minimum 60-credit degree.

Students are evaluated on a semester-by-semester basis on academic progress, creative achievement, and professional potential. The M.F.A. is a professional degree and is granted by the Graduate Faculty on the basis of academic and creative excellence over and above the fulfillment of requirements. Satisfactory academic progress does not guarantee continuance in the program, nor does continuance in the program imply the automatic granting of a degree. M.F.A. candidates are required to participate in the School of Theatre productions in positions of responsibility. Additionally, each student must complete a committee-approved monograph project in the area of specialization. An international residency is required and is funded by the school.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

WILLIAM D. MILHEIM, Coordinator
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057
717-948-6215

Degree Conferred:
M.Ed.

The Graduate Faculty

Doris Lee, Ph.D. (U of Texas) Professor of Instructional Systems
Margaret Lohman, Ph.D. (Ohio State) Associate Professor of Training and Development
Jo Tyler, Ed.D. (Columbia) Associate Professor of Training and Development
William D. Milheim, Ph.D. (Kent State) Professor of Education

The master of education degree program in Training and Development at Penn State Harrisburg helps students prepare for professional careers in training and development in diverse organizational settings, including business and industry, government, and health care. Graduates of the Training and Development Program frequently assume positions such as trainers, instructional designers, program evaluators, performance analysts, career development specialists, and organization developers.

The overarching goal of the Training and Development Program is to help students develop the ability to assess and improve employee learning and performance. Accordingly, specific goals of the program include developing the ability to: analyze employee performance; design a broad range of performance improvement interventions, with particular emphasis on the design, development, and delivery of training programs; evaluate training and development programs; facilitate work group discussions and group processes; translate training and development theory into practice; and critically evaluate research in training and development.

Admission Requirements

An applicant must hold a baccalaureate degree in any field from a regionally accredited, college-level institution. Admission decisions are based primarily on an applicant's junior/senior cumulative grade-point average and career-goal statement. Additional information pertaining to any postbaccalaureate course work and professional experience are considered. The best-qualified applicants will be accepted up to the number of spaces available for new students.

Applicants with low grade-point averages may be required to take the Graduate Record Examinations (GRE) or take 9 credits of course work recommended by a program faculty member and maintain a GPA of 8 or higher in order to be reconsidered.

Students are required to submit the following:

- A completed application with the application fee
- Two copies of official transcripts from all colleges/universities attended
- A brief career-goal statement

International Students

All applicants whose first language is not English or who have not received a baccalaureate degree from an institution in which the language of instruction is English must take the Test of English as a Foreign Language (TOEFL; www.toefl.org).

The test must be passed with a score of 550 (paper-based test) or 213 (computer-based test) or higher.

All students with international credentials must submit transcripts to Educational Credential Evaluators, Inc. (ECE) for a "Course by Course" academic evaluation of transcripts and degree. An ECE application can be obtained at www.ece.org.

Application Deadlines

Candidates may enter the program at the beginning of fall or spring semester, or the summer session. Application deadline dates for U.S. students and international students are posted on the Training and Development program website. (http://www.hbg.psu.edu/hbg/programs/gradprog/trdev.html)

Please note: Each graduate program reserves the right to set earlier deadlines than those noted above.

Degree Requirements

Students may enter the Training and Development program from a variety of backgrounds and enroll in courses to help them develop competencies in training and development. Coursework includes both required and elective courses in training and development as well as electives from outside the program. Students select one of two areas of professional practice, training or human resource development, as a focus for their electives in the training and development program. Courses are scheduled to accommodate part- and full-time students.

There are two options in the program; the Paper option requires the completion of a master's paper (TRDEV 587) and a total of 36 credits (excluding an internship if one is needed); the Non-Paper option does not require a master's paper, but does require Research Designs Applied to Training (TRDEV 588) and an extra elective in Training and Development for a total of 39 credits (excluding an internship if one is needed). For both the Paper and Non-Paper options, at least half of the total credits must be earned in 500-level courses.

Both options require successful completion of Instructional Methods in Training and Development (TRDEV 418), Foundations in Training and Development (TRDEV 460), Performance Analysis (TRDEV 465), Systematic Instructional Design (TRDEV 518), Technology in Training (TRDEV 531), and Educational Research Design (EDUC 586).

Prescribed (Required) Courses:

- TRDEV 418: Instructional Methods in Training & Development (3 credits)
- TRDEV 460: Foundations in Training & Development (3 credits)
- TRDEV 465: Performance Analysis (3 credits)
- TRDEV 518: Systematic Instructional Design (3 credits)
- TRDEV 531: Technology in Training (3 credits)
- EDUC 586: Educational Research and Design (3 credits)

Additional Courses

The Pennsylvania State University
A. From Training and Development courses, select three courses for the Paper option or four courses for the Non-Paper option:

- TRDEV 421: Presentation Skills for New Trainers (3 credits)
- TRDEV 432: Video Production for Training (3 credits)
- TRDEV 470: HRD Tools and Techniques (3 credits)
- TRDEV 475: Career and Succession Management (3 credits)
- TRDEV 505: Project Management (3 credits)
- TRDEV 507: Program Evaluation (3 credits)
- TRDEV 520: Learning Styles and Theories for Trainers (3 credits)
- TRDEV 532: Web-Based Training (3 credits)
- TRDEV 533: Distance Learning in Training (3 credits)
- TRDEV 565: Implementing Training and HRD Programs ( credits)
- TRDEV 583: Issues in Training & Development (3 credits)
- TRDEV 596: Individual Studies (1-3 credits)
- TRDEV 597: Special Topics (3 credits)

B. Select two three-credit courses at the 400/500 level from programs outside Training and Development. The two courses should assist you in preparing for professional roles and responsibilities in training and development. The following courses are highly recommended:

- BE SC 408: Group Facilitation and Leadership Skills (3 credits)
- BE SC 468: Industrial Psychology (3 credits)
- P ADM 510 or MNGMT 510: Organizational Behavior (3 credits)

Required Experience:
One of the following:

A. Holds or has held a position in training and development successfully for six months or more. Submit request for waiver for approval.

B. TRDEV 595 Internship (3 credits which are not counted in the 36 credit or 39 credit requirement)

Capstone Requirement:
Choose one of the following options:

A. TRDEV 588: Research Designs Applied to Training (3 credits - plus one additional 3-credit elective)

B. TRDEV 587: Master's Paper (3 credits)

Transfer Credits and Course Substitutions
A maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master's degree in Training and Development. Approval to apply any transferred credits toward a degree program must be granted by the student's academic adviser and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript. Credits earned toward a previously completed postbaccalaureate professional degree program (law, medicine, etc.) are not transferable. However, up to 10 credits can be transferred from a professional degree program if the degree has not been conferred.

A maximum of 15 credits earned as a special nondegree student at Penn State University may be applied to the Training and Development program, with departmental approval. The credits must have been earned within five years preceding entry into the program.

Grade-point Average and Time Limit
A 3.00 (out of 4.00) minimum grade-point average is required to graduate from the program. All course work must be completed within eight years.

Financial Aid
There are a limited number of scholarships, fellowships, and research grants available, as well as graduate assistantships. Many students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To find other options available to you, contact the Financial Aid Office at 717-948-6307.

Courses
Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not be used to meet graduate degree requirements. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Master of Professional Studies in Turfgrass Management

ANDREW S. MCNITT, In Charge of Master of Professional Studies in Turfgrass Management Graduate Program
445 ASI Building
814-863-1368, asm4@psu.edu

The Graduate Faculty
- David R. Huff, Ph.D. (California, Davis) Professor of Turfgrass Breeding, Department of Crop and Soil Sciences
- Andrew S. McNitt, Ph.D. (Penn State) Assistant Professor of Soil Science, Department of Crop and Soil Sciences
- Maxim J. Schlossberg, Ph.D. (Georgia) Associate Professor of Turfgrass Nutrition and Soil Fertility, Department of Crop and Soil Sciences
- J. Turgeon, Ph.D. (Michigan State) Professor of Turfgrass Management, Department of Crop and Soil Sciences
- Wakar Uddin, Ph.D. (Georgia) Associate Professor of Plant Pathology, Department of Plant Pathology

The Master of Professional Studies in Turfgrass Management (MPS-TM) is a 30-credit terminal master’s degree program that emphasizes a systems approach to turfgrass management. The program balances theory and practice. Courses taught in MPS-TM use Web-based lessons, quizzes, exams, and team projects and exercises to provide a balance between individualized study and interactive learning. Individuals who currently work as managers of turfgrass facilities, including golf courses and professional sports complexes, would benefit from this program. The MPS-TM program requires the completion of four core courses in which students learn to apply scientific concepts to fundamental problems encountered in the management of complex turfgrass ecosystems. Additionally, a capstone individual studies in turfgrass management course is a project that integrates theory and practice in addressing real problems encountered in turfgrass facility management.

Degree Requirements
The professional master’s degree requires 30 credits including a final integrative project. All students complete the required MPS-TM core program of turfgrass courses. The MPS-TM turfgrass courses consist of TURF 850 (Turfgrass Physiology), AGRO 851 (Applied Plant Population Biology), TURF 852 (Turfgrass Health Management), TURF/P/PATH 853 (Turfgrass Science Literature), and AGRO 596 (Individual Studies in Agronomy). An integrative project is required in which the student demonstrates the capability to integrate and apply concepts, principles, analytical techniques, and interpretation skills learned in the program to a real problem faced in turfgrass facility management. In consultation with their advisor, students also take an additional 15 credits of elective coursework to focus on their particular interest within turfgrass facility management. A total of 18 credits must be 500-level or higher, with at least 6 credits of 500-level coursework; this Graduate School requirement is met through the required courses, the project, and at least one 500-level elective course.

List of required courses in proposed program*
AGRO 596 (3) Individual Studies in Agronomy. Used by students to work with an advisor on their capstone project.
AGRO 851 Applied Plant Population Biology (3). Lectures and exercises designed to develop student competency in plant selection to promote ecological diversity and genetically superior plants.
TURF 850 Turfgrass Physiology (3). Lectures, reading assignments, and exercises designed to develop student competency in plant physiology as it relates to turfgrass management strategies.
TURF 852 Turfgrass Health Management (3). Lectures and exercises designed to develop student competency in solving turfgrass pest problems, as well as disease resistance in turfgrasses.
TURF/P/PATH 853 (3). Interpreting Turfgrass Science Literature (3). Introduction to turfgrass research publications, interpretation of the data, and discussion of the significance of the results.

*See Appendix B for elective courses

Admissions Requirements
Applicants must submit a letter of professional introduction in which they describe their professional experiences and education, delineate their career goals, and discuss how the MPS-TM program will enable them to meet their objectives. Applicants must also provide three letters of reference and recommendation. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Scores from Graduate Record Examination (GRE), or from a comparable substitute examination accepted by a graduate program are required for admission; however, exceptions may be considered on a case-by-case basis. The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL/IELTS. The forms of financial aid noted in the bulletin available to residential graduate students are not available to students studying via the World Campus, e.g., assistantships, fellowships. The other common form of financial aid is loans.

Transfer Credits
If students have successfully completed courses from another institution that are equivalent to the elective turfgrass courses (TURF 425, 434, 435, and 436) with grades of B or better, these can be applied toward satisfying the MPS-TM degree requirements. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School, must be equivalent to “B” quality (grades of B- are not transferable) on Penn State’s grading system, and must appear on an official graduate transcript.

Student Aid
Students in this program may receive financial assistance from their workplace or bear the cost of the degree personally. Other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin http://www.psu.edu/bulletins/whitebook/gradregs.htm. The forms of financial aid noted in the bulletin available to residential graduate students are not available to students studying via the World Campus, e.g., assistantships, fellowships. The other common form of financial aid is loans.

Typical Schedule
Flexibility is a key principle of the design of this program. Each course will be offered once each academic year. Sequencing of courses is determined by the semester the student begins the program. Students and their advisor will develop a plan of study upon completion of the second course taken in the program or the end of the first year, whichever occurs sooner. Many students may take three or four courses per year while others may only take one or two. Because of this, the time to degree will average three years and one semester. The typical schedule for offering the required MPS-TM courses is shown in Table 1.

Table 1. MPS-TM REQUIREMENTS (30 credits)

REQUIRED COURSES (12 credits)
### Strategy A–Seminars and discussions: CSS offers departmental seminars during Fall and Spring Semesters. Topics that are relevant to MPS-TM students will be made available for students to view using appropriate technology. We then would offer chat-room time and threaded discussion opportunities for the students to interact with each other and with the presenter and/or a faculty facilitator. Faculty and graduate students in the program will be invited to participate in the discussions. We will explore the use of real-time teleconferencing for students to join the seminars, but the geographical (time zone) differences may make it difficult for students to participate in the discussions. However, we would provide opportunities for interaction among students and faculty outside of direct instruction (1); offers students a chance to interact with each other on the topic (2); provides broader exposure to and socialization to the field and to related scientific disciplines (3); encourages interaction among students with student led discussions (4); and increases student identification with Penn State (7) by giving students the opportunity to discuss topics with faculty and graduate students in the other two graduate programs in the department (i.e., Agronomy, Soil Science). It also will increase student awareness of the department and the breadth of its substantive expertise. We expect that at least one seminar per semester will be made available in this way and we expect all students currently enrolled in the program to take part in one of these seminar/discussion opportunities each academic year. Strategy A will be phased in during year 1 of the new program.

### Strategy B–Student seminar or discussion of their capstone project in the program: An important part of socialization and sharing of information is student-led seminars and discussions. Each student in the program will be required to offer a seminar and/or to lead a discussion about their capstone project or related experiences. As the student moves through the program, they will present the project prior to the seminar/discussion. The student will work with their faculty advisor and the MPS-TM program coordinator to define the content of the seminar and/or discussion questions. The faculty advisor and the MPS-TM program coordinator will provide support to the student during the seminar and/or discussion. This will give other students an opportunity to become familiar with the requirements of the integrative experience as well as allowing for sharing of the experiences of the student completing the program. We will evaluate the feasibility of video conferencing for those students interested in giving a formal seminar, and recording the presentation for distribution to students and others unable to participate in real-time. Alternatively to video conferencing include a threaded discussion format based on the written document, and/or specific times for students and faculty to visit a chat room for a guided discussion led by the student. Strategy B contributes to residency elements 1, 2, 4, 6 and 7. Strategy B offers an opportunity for interaction between students and faculty outside the course context (1); encourages interaction among students with student led discussions (2); provides students an opportunity to explore substantive or socialization issues in the field (4); allows students to contribute their own insights, knowledge and expertise and to share with their colleagues outside the program, the department, college and university (6); and increases identification with Penn State through participation in university-sponsored discussions (7). This strategy will be phased in as the first cohorts of students in MPS-TM complete their programs.

### Strategy C–Informal discussions: An online ‘coffee room’ will be set up as a space for informal discussions among students and faculty. Topics may be proposed by students and faculty. A threaded discussion format will be used, although the ‘coffee room’ also will be available for chat rooms for a particular meeting or discussion group. Participation will be voluntary and we expect different students and faculty to take part depending on the topics. Strategy C fulfills residency elements 1, 2, 4, 6 and 7. Informal student interaction with faculty is encouraged (1), as is interaction among students (2). The topics are likely to include issues of socialization in the field and practical application of course content and so will contribute to residency element (4). The discussions and interactions will allow students to build networks, shaping their knowledge of applications in the field and providing ideas for applied research. Thus, these discussions will enable students to contribute to the program, college and university (6). Participation will increase identification with Penn State (7). Strategy C will be phased in during year 1 of the program.

### Strategy D–Students as experts: The CSS department has an established undergraduate major in Turfgrass Science (TS) that has important conceptual and practical applications to MPS-TM. We plan to provide opportunities for MPS-TM students to participate as experts in the field of video conferencing. Students will be given a chance to share their expertise with peers and faculty in the program. This is the integrative experience in the program and will be a required element for completion of the program. As part of this, the student will post the presentation and the full project report prior to the seminar/discussion. The student will work with their faculty advisor and the MPS-TM program coordinator to define the content of the seminar and/or discussion questions. The faculty advisor and the MPS-TM program coordinator will provide support to the student during the seminar and/or discussion. Strategy D contributes to residency elements 1, 2, 4, 6 and 7. The participation will increase identification with Penn State (7). Students will be encouraged to participate in one such video conference per year in the program.

### Strategy E–Students as mentors: MPS-TM students will be asked to serve as mentors in two capacities. First, ‘senior students’ will be asked to serve as mentors to new students in the MPS-TM program. This will include providing advice, responding to questions that new students in the program might have, and helping new students to navigate the somewhat less-structured world of online courses (where there is no formal class meeting time). Since many students are already practitioners, these mentoring relationships should help build networks among students on which they can draw for their professional careers, not just in the program context. Second, MPS-TM students will be asked if they would be interested in volunteering to mentor one or two undergraduate students in the TS program. This provides MPS-TM students with experience in mentoring and providing leadership to those with less knowledge and experience. We plan to select students who have had previous experiences of the undergraduate students to have a practitioner to whom they can turn with substantive/career-related questions. Strategy E contributes to residency elements 2, 4, 5, 6 and 7. This strategy encourages interaction among students (2), provides a socialization/professionalization experience guided by faculty (4), it provides a student perspective on the program and courses in terms of advising (5), allows students in MPS-TM to provide support to new students in their program. In addition, we would plan to invite new students to participate in the Institute prior to taking their first course. We also would invite alumni to attend and to participate in organizing/presenting some of the sessions. Student and alumni mentors could then meet those students who are mentored. Opportunities for advising sessions on coursework and an introduction to the program would be included for students new to the program. Times also would be available for students to set up meetings with their academic advisors to discuss their integrative experience. Some sessions in the Institute may be made available to those unable to attend in person. The Annual Institute...
contributes to all of the elements of residency. The institute provides opportunities for face-to-face interaction among faculty and students (1); among students (2); will increase access to information and instructional resources of the program, department and University (3); offer opportunities for socialization to the field (4); provide face-to-face academic and program advising (5); enable students to contribute by helping to organize sessions and use their expertise (6); and a visit to University Park is generally always a good way to increase identification with Penn State (7). We view the Institute as an important element of the program, and will work to develop funding mechanisms to assist students and alumni in covering the costs of travel to and living expenses while visiting Penn State. We expect to offer the first institute during the second fall following the approval of the MPS-TM program.

Strategy G: Academic advising and support services. Academic advising is provided initially by the Graduate Program Coordinator who is a tenure-line faculty member in the program. Students will be encouraged to identify a permanent faculty advisor as soon as possible in the program and will work through a proposed schedule of courses and a tentative timeline within the first year. This process will be facilitated by the Graduate Program Coordinator. Advising is conducted by email and phone. Once a faculty advisor is identified, the student can seek advice from the faculty advisor, the Graduate Program Coordinator, or from other faculty and students in the program. Advising also will be available through an online advising ‘coffee room,’ the Annual Institute, and the use of senior students in MPS-TM as mentors/peer advisors. Materials providing specific information on program requirements, the unique aspects and responsibilities of participating in an online program, identifying a faculty advisor and committee, and the integrative experience are being developed and will be available on the program website. Support for MPS-TM will be provided by a staff assistant in CSS and through initial contact with World Campus personnel/advisors. Students will apply for admission directly to the MPS-TM program in the academic department. Strategy G meets residency elements 1, 3, 4 and 5.

Strategy H: MPS TM program website. We view the MPS-TM program website as an essential element in creating a ‘home and identity’ for the MPS-TM program. The website will contain the typical elements of an educational program with information on application guidelines, course offerings, requirements for the degree, information on faculty in the program, and links to broader Penn State resources. We also propose to develop elements of the website that will provide opportunities for interaction (formal and informal), program and course review and evaluation, professional networking, and building program identity. Interaction linked through the website would be the opportunities to participate in organized chat rooms or threaded discussions related to the departmental or student seminars or discussion (Strategies A and B) informal discussion chat-rooms and threaded discussions (Strategy C), and the ‘coffee room’ (Strategy C, E and F). The ‘coffee room’ also can be used for course review and evaluation where access would be restricted to students in a particular course and the faculty peer evaluator of the course. One page on the website would include links to professional organizations, nationally and within states, that provide training and conferences for practitioners and researchers in topics related to community and economic development. We plan to identify these through searches, but also by the organizations in which our students and alumni participate. This site also will include a link to a discussion area about insights obtained from student/faculty/alumni participation in particular conferences. Another element would be a restricted access site that includes information on current and former students in MPS-TM. This would include information on current positions, locations, and areas of expertise of the students and alumni; lists of the capstone projects completed by the students with links to electronic copies, and a map showing locations of current and former students. We view this information as building identity with the program and Penn State and encouraging continued participation in the program by alumni. This alumni/student/faculty space would include access to chat rooms, threaded discussions, and coffee rooms on organized topics and informal discussion topics introduced by members. The website contributes to all elements of residency. It offers opportunities for interaction among faculty and students (1), interaction among students and among students and alumni (2), provides access to information and instructional resources (3), increases exposure to substantive issues in the field and to professional networks and experiences (4), provides access to advising information and support services (5), offers a means for students and alumni to stay connected with the program and contribute substantively both formally and informally (6), and creates a location and reason for continuing active participation in and identification with the Penn State community. We plan to develop a new website for the MPS-TM program and to phase in various elements within the first three years of the program.

Ultimately, we would like to employ all of the above strategies to increase participation and interaction available to alumni of the MPS-TM program. The alumni of this program are practitioners in the field or work in related areas and can provide an invaluable resource to current graduate and future undergraduate students, the program, and Penn State. We would hope to use the ‘friends of Penn State’ accounts to provide access to the web sites and associated activities. Recent efforts by the Penn State Alumni Association and University Libraries to offer some restricted access to library resources to members of the Alumni Association also will increase the benefits to alumni of retaining their contact and interaction with the program and with Penn State. The special interaction elements related to community and economic development offered to alumni and students should increase the attractiveness to alumni of staying involved.

Another element would be a virtual coffee room for informal discussions with and among students. We will maintain alumni and former student lists. As we develop the program website, we will consider an electronic newsletter for alumni and a special alumni page on the website.

Wildlife and Fisheries Science (W F S)

Program Home Page.

MICIAL G. MESSINA, Director of the School of Forest Resources and Professor of Forest Resources
121 Forest Resources Building
814-863-7093

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

- Victoria Braithwaite-Read, D.Phil. (Oxford) Professor of Fisheries and Biology
- Margaret C. Brittingham, Ph.D. (Wisconsin) Professor of Wildlife Resources
- Hunter Carrick, Ph.D. (Michigan) Associate Professor of Aquatic Biology
- Duane R. Diefenbach, Ph.D. (Georgia) Adjunct Professor of Wildlife Ecology; Leader--Wildlife, PaCFWRU
- C. Paolo Ferreri, Ph.D. (Michigan State) Associate Professor of Fisheries Management
- Matt Marshall, Ph.D. (Georgia) Adjunct Assistant Professor of Wildlife Conservation
- Susan E. Parks, Ph.D. (MIT & Woods Hole Oceanographic Inst) Assistant Professor of Acoustics and Ecology
- Gary J. San Julian, Ph.D. (Colorado State) Professor of Wildlife Resources
- Charles Schaad, Ph.D. (McGill) Assistant Professor of Wildlife Technology
- Jay R. Stauffer, Jr., Ph.D. (Virginia Tech) Distinguished Professor of Ichthyology
- Walter M. Tizkowski, Ph.D. (Massachusetts) Associate Professor of Wildlife Science
- Tyler Wagner, Ph.D. (Michigan State) Adjunct Assistant Professor of Fisheries Eclogy; Assistant Unit Leader, PACFWRU
- Richard H. Yahner, Ph.D. (Ohio) Professor of Wildlife Conservation

Programs are designed to give students an understanding of the biology and management of terrestrial or aquatic wildlife species and their environments, and include training in fish and wildlife ecology, nutrition, physiology, behavior, and pathology of wildlife species; study of successional stages, land use, and management of various habitats and their impact on fish and wildlife populations; population dynamics and manipulation of animal numbers; and studies of recreational, aesthetic, and socioeconomic values of fish and wildlife. Most programs of study are strengthened by including appropriate courses offered by related departments.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. A student may be admitted provisionally without GRE scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Application materials should be submitted before February by those who want to begin in summer or fall. For admission, an applicant should have at least a 2.75 grade point average, a 3.00 junior/senior average, and courses that are basic to the individual's field of specialization. Ordinarily these include 12 credits in communication, 12 credits in social sciences and humanities, 10 credits in quantification including calculus and statistics, 8 credits in chemistry and/or physics, 8 credits in biological sciences, and 18 credits in fish, wildlife, forestry, or related courses. Three reference reports (forms supplied on request), a brief statement describing the applicant's academic goals, career interests, and special qualifications are required. The best-qualified applicants will be accepted up to the number of spaces available. Exceptions to admission requirements may be made for students with special backgrounds, abilities, and interests.

Admission to the Ph.D. program in Wildlife and Fisheries Science requires a master's degree in wildlife and fisheries science or a closely related field, or a bachelor's degree with a minimum grade-point average of 3.30 and demonstrated research ability.

Master's Degree Requirements

M.S.: In addition to Graduate School requirements, 6 credits of statistics and 2 credits of colloquium are required.

Doctoral Degree Requirements

Doctoral students would normally emphasize either wildlife or fisheries in their course selection. Course work shall include at least 15 graduate credits beyond those required for an M.S. in Wildlife and Fisheries Science. At least 9 of these credits must include courses at the 500 level with a Wildlife and Fisheries Science designation.

An international communications or cultural requirement is required for the Ph.D. degree. This requirement may be satisfied by demonstrating competence in one foreign language equivalent to passing two or three college-level courses. It also may be met by two courses in one or two contemporary foreign cultures. With approval of the doctoral committee, a student may petition the Graduate Faculty of the school for waiver of the international communications or culture requirement.

Students must pass the candidacy examination during their first year of residence and a comprehensive examination which is given after all course requirements have been completed. The final examination is oral; all doctoral students are required to present a public seminar on their dissertation prior to the final examination.

Watershed Stewardship Option

The Graduate Option in Watershed Stewardship is intended to provide enhanced educational opportunities for students with an interest in water resources management who are enrolled in a graduate degree program within Wildlife and Fisheries Science. The objective of the Graduate Option in Watershed Stewardship is to enable students to facilitate team-oriented, community-based watershed management planning directed at water resources problems encountered in Pennsylvania communities, especially nonpoint source water pollution. The Graduate Option in Watershed Stewardship requires 22 credits of graduate course work: 12 credits of breadth courses, 2 credits of Watershed Stewardship Seminar courses (FOR 591A and 591B or LARCH 510.2), and 8 credits of Watershed Stewardship Practicum I and II courses (FOR 570 and FOR 571 or LARCH 540.2 and LARCH 550.2). One credit of FOR 591 would count as a colloquium course toward degree requirements, but at least 1 additional credit of FOR 590 is required. Breadth courses will consist of three graduate credits of course work from each of four subject matter areas: (1) water resources science, (2) social science, public policy and economics, (3) humanities, and (4) communications and design. In the watershed stewardship practicum courses students work in teams with community, government and business leaders to analyze and understand natural resources problems and creatively synthesize appropriate solutions in the form of a written watershed management plan.

A representative pattern of scheduling for the Graduate Option in Watershed Stewardship in addition to a student's other degree requirements might be:

First Year:

Fall Semester
- Breadth electives--6 credits
- FOR 591A or LARCH 510.2
- Watershed Stewardship Seminar--2 credits
- Issues Colloquium--1 credit

Spring Semester
- Breadth electives--6 credits
- FOR 591B or LARCH 510.2
- Watershed Colloquium--1 credit

The Pennsylvania State University
Second Year:

**Fall Semester**
- FOR 570 or LARCH 540.2, 3 credits
- Keystone Project

**Spring Semester**
- FOR 571 or LARCH 550.2, 5 credits
- Keystone Project

A list of acceptable breadth courses from each discipline is provided in the Graduate Option in Watershed Stewardship Handbook. Students will be allowed to petition to the Center for Watershed Stewardship to substitute higher level or equivalent courses in a major field to suit their specific backgrounds and goals. Courses taken for the Graduate Option in Watershed Stewardship may be used to satisfy the equivalent (400- or 500-level) degree requirements with concurrence of their adviser and graduate committee. The graduate committee for a student enrolled in the Option in Watershed Stewardship must include a faculty representative from the Center for Watershed Stewardship.

Students enrolled in M.S. or Ph.D. degree programs within Wildlife and Fisheries Sciences may apply to participate in the Graduate Option in Watershed Stewardship.

**Other Relevant Information**

Each entering student receives individual guidance from an adviser, and later from his or her committee, in designing a program of studies and research based on his or her own interests. The student is responsible for conforming to all requirements summarized in the "Graduate Studies Handbook" of the School of Forest Resources, and for completing the degree program within a reasonable time, i.e., two years for a master's degree and three years for a Ph.D.

**Student Aid**

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the [STUDENT AID](#) section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

- **Forest Resources: Jesse Rossetter Rapp Memorial Scholarship**
- **Available to graduate students in the School of Forest Resources who are not holding assistantships as graduate students. Apply to the School of Forest Resources' Scholarships, Loans, and Awards Committee.**

Rogers M. Latham Memorial Award

Awarded to outstanding graduate students specializing in wildlife or fisheries after at least one semester in residence.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

[WILDLIFE AND FISHERIES SCIENCE (W FS) course list](#)

See also Forest Resources.

**Joint Degree Programs between The Pennsylvania State University Dickinson School of Law (J.D.) and the School of Forest Resources (M.S., Ph.D.)**

The Pennsylvania State University Dickinson School of Law (DSL) and the School of Forest Resources (SFR) offer coordinated programs of studies leading to the degrees of Juris Doctor (J.D.) and a Master of Science (M.S.), or a Doctor of Philosophy (Ph.D.) in Wildlife and Fisheries Science. The SFR programs are interdisciplinary.

Admissions. In order to be admitted to the program, students may a) first be admitted and enrolled in either SFR or DSL, and be subsequently admitted to the other program, or b) be admitted to the joint degree program prior to commencing studies at Pennsylvania State University. Credits earned in the SFR program before admission to DSL cannot, however, be credited to the J.D. degree. Each program will make a separate admission decision. Students admitted to both programs will be admitted as joint degree candidates. Applications for transfer into the joint degree program from another law school or forestry/natural resources program at University will be considered on a case-by-case basis.

**Admission Requirements**

Dickinson School of Law (DSL). A bachelor's or equivalent degree from an accredited college is a prerequisite for admission. However, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral, and written communications skills before entering law school. The following are required of applicants: a completed application for DSL, taking of the Law School Admissions Test (LSAT); completion of an LSDAS report; a one-page personal statement; employment record since high school; and two recommendations. There is no prescribed undergraduate curriculum, and, because of the diversity of programs in the School, professional preparation may vary considerably. As a guide, SFR suggests having 8 credit hours in chemistry and/or physics; 12 in calculus, statistics, and/or computer science; 8 in biology, botany, and/or zoology; 12 in writing and speaking; 12 in economics, social sciences, and/or humanities; and 18 in forest science, wildlife and fisheries science, and/or wood products. Completed applications showing that a candidate is qualified for admission will be forwarded to potential faculty advisors in SFR, and admission of otherwise qualified candidates will depend upon the willingness of a faculty member to act as an adviser. Applicants are advised to contact potential advisers before applying and should contact the SFR liaison (the Goddard Chair), as well as the SFR Assistant Director of Graduate Studies, to identify potential advisers.

Admission to the Ph.D. program requires evidence of research ability, e.g., a master's degree thesis, paper, or equivalent publication and a grade point average of 3.3 or higher in graduate studies work, exclusive of thesis and special problem courses. Baccalaureate degree students graduating from an honors program with a required thesis, or who have authored a refereed publication, may be considered for admittance without a master's degree.

Residency: For master's programs, 5 semesters' residence is required at the Law School and 3 semesters' residence at the SFR at University Park, although additional time may be required to complete the M.S. thesis requirements. For Ph.D. programs, the same minimum number of semesters will be required, as well as the additional time required to complete additional course work and a dissertation. In addition, Ph.D. candidates must arrange the sequence of semesters such that they are in residence at University Park as a full time student for at least two semesters in a single 12-month period. Although a student will normally take all courses at the campus where the student is in residence, a student may take up to one course (three credit hours) per semester at the campus where the student is not in residence. A Ph.D. joint degree student in residence at DSL will be considered to be "registered" at University Park for the purpose of satisfying any requirement of continuous registration and/or benchmarking in the Ph.D. program.

Liaisons: The respective liaisons for DSL and SFR shall be as follows: The Department and Faculty liaison for DSL shall be the Associate Dean for Academic Affairs and the student adviser will be the Director of the Agricultural Law Center or such other faculty member(s) as may be designated by the Dean. The liaison for SFR for the Joint Degree Program and the student contact for inquiries regarding the Joint Degree Program shall be the then current holder of the Maurice K. Goddard Chair in Forestry and Environmental Resources Conservation, or the Director of SFR when there is no current appointee to the Goddard Chair.

**Interprogram Transfer of Credits**

J.D. A maximum of 12 credits for SFR course work may be transferred for credit toward the J.D. degree at DSL. Students must obtain a grade satisfactory to
DSL for the course work to be credited toward the J.D. degree. What courses may qualify for credit shall be determined by the DSL liaison. Because of the interdisciplinary nature of many SFR degrees, courses from other Departments and Colleges are credited towards an SFR degree with the approval of the SFR committee (e.g. courses in Economics, Agricultural Economics, Agricultural and Extension, Agronomy, Entomology, Geosciences, Landscape Architecture, Leisure Studies, Meteorology, Plant Pathology, Soil Science, EPC) and credits of these courses will be treated as SFR courses (i.e. may be credited to the DSL program with DSL approval, subject to the 12-credit limit).

SFR Degrees: The SFR programs are interdisciplinary programs and typically credits from other Departments and Colleges may be credited. What courses may be credited will be determined by the student's SFR committee. Normally, a maximum of 12 credits of DSL course work will be counted for credit toward the minimum requirements for an SFR Master's degree, subject to approval by the student's SFR committee.

Sequence. The sequence of courses will be determined by the students and their advisers. Generally, however, students will complete the first year of the DSL program before beginning the SFR program. Thereafter, students may concurrently enroll in courses in the DSL and SFR programs, provided that they abide by the requirements of each program. The ordinary expectation will be that students will spend entire semesters at one location or the other.

Recommended Program of Study and Advising. All students in the program will have two advisers, one from DSL and one from SFR (the committee chair). Periodic interaction between the two advisers will be encouraged. A program of study will be developed for each student taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year, but some are offered every two or three years. Advisers will have available a list of projected relevant offerings in order to work with the student on an individualized program of study. The standard committee structure will apply to the SFR programs.

Tuition. Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable SFR tuition to cover the SFR degree program. The DSL tuition will be paid for the semesters that the student is in residence at DSL and the SFR tuition will be paid for the semesters that the student is in residence at University Park. A student may take up to one course (3 credit hours) per semester at the campus where the student is not residence without, any change in tuition, but must pay additional tuition to the nonresidential campus if he or she wishes to take additional course work at that campus during that semester.*

Financial Aid and Assistantships. Decisions on financial aid and assistantships will be made by each school according to that school's procedures. Generally, SFR assistantships and financial aid will not apply to time spent at DSL.

Fulfillment of Degree Requirements and Graduation. A student in the program may complete the requirements for one of the degrees and be awarded that degree prior to completing all the requirements for the other degree, provided, however, that the student shall have successfully completed at least two semesters of work towards the other degree. All courses in one program that will count toward meeting the requirements of the other program must be completed before award of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to SFR's requirement for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the SFR committee (in such cases, the committee should consider whether credits afforded such work will be subject to the 12-credit maximum for interprogram transfers described in paragraph 6(b) and the DSL faculty member should be a member of the committee).

*After taking comprehensive examinations, a Ph.D. student must pay tuition for all courses taken at any campus where the Ph.D. student is not registered.

Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty

- Rose Baker, Ph.D. (Penn State) Assistant Professor of Education
- Robert W. Clark, Ph.D. (Penn State) Associate Professor of Education
- Wesley E. Donahue, Ph.D. (Penn State) Associate Professor of Management Development
- Edgar I. Farmer, D.Ed. (Penn State) Professor of Education
- Kenneth C. Gray, Ed.D. (Virginia Tech) Professor Emeritus of Education
- Judith A. Kolb, Ph.D. (U of Denver) Associate Professor of Education
- David L. Passmore, Ph.D. (Minnesota) Professor of Education
- Cynthia Pellock, Ph.D. (Penn State) Associate Professor of Education
- William J. Rothwell, Ph.D. (Illinois) Professor of Education
- Mark Threeton, Ph.D. (Penn State) Assistant Professor of Education
- Richard A. Walter, Ph.D. (Penn State) Associate Professor of Education

The general focus of the program is preparation for entry into professional positions within the broadly conceived field of workforce education and development, including human resource development in industry, secondary and postsecondary technical education, and employability programs for special populations. Emphases within the program include: training and development/human resources, leadership/administration, school-to-work, and postsecondary technical and community college leadership.

Admission Requirements

Admission to graduate programs in Workforce Education and Development (WF ED) is based on the faculty's evaluation of a candidate's prior undergraduate and graduate work, relevant prior work experience including military service, and career goals. A minimum undergraduate GPA of 2.50 is required for admission to the master's degree program. A GPA of 3.00 in prior graduate course work is required for admission to the doctoral program.

Degree Requirements

Master's Degrees Requirements

M.Ed. and M.S. degrees are offered in Workforce Education and Development, both of which require a minimum of 30 credits beyond the baccalaureate degree. M.S. candidates must complete a master's thesis or paper. Candidates for the M.Ed. degree must complete a written comprehensive examination.

Doctoral Degrees Requirements

The Ph.D. degree is offered in Workforce Education and Development. Two or more years of prior full-time work experience that is relevant to WF ED is an important consideration in evaluating applications for the doctoral program. Students are admitted only for the fall semester. Beginning students are not formally granted candidate status for a doctoral degree until successfully completing the candidacy exam given in the spring semester. Please see WF ED Web site for further details.

Student Aid

A limited number of graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Women's Studies (WMNST)

Program Home Page
CAROLYN SACHS, Head, Department of Women's Studies
LORI GINZBERG, Graduate Officer

Degrees Conferred
Students electing this program through participating departments will earn a degree with a dual title at both the Ph.D. and M.A./M.S. levels, i.e., Ph.D. in (graduate program name) and Women's Studies, or M.A./M.S. in (graduate program name) and Women's Studies.

The following graduate programs offer dual degrees in Women's Studies: Adult Education, Curriculum and Instruction, English, French, Geography, History, Philosophy, Political Science, Psychology, and Rural Sociology.

The Graduate Faculty
Women's Studies-affiliated faculty include individuals with budgeted appointments in Women's Studies and individuals with courtesy joint appointments. The following faculty members have budgeted and courtesy joint appointments in Women's Studies:

- Micaela Amato, M.F.A. (Colorado) Professor of Art and Women's Studies
- Lee Ann Banaszak, Ph.D. (Washington U) Associate Professor of Political Science and Women's Studies
- Winifred Becker, Ph.D. (Penn State) Associate Professor of Science, Technology, and Society, and Women's Studies
- Robin Becker, Ph.D. (Boston) Associate Professor of English and Women's Studies
- John P. Christman, Ph.D. (Illinois) Associate Professor of Philosophy and Women's Studies
- Christine Clark-Evans, Ph.D. (Bryn Mawr) Associate Professor of French, Women's Studies and African and African American Studies
- Deborah Clarke, Ph.D. (Yale) Associate Professor of English and Women's Studies
- Mary De Jong, Ph.D. (S. Carolina) Associate Professor of English and Women's Studies
- Lorraine Dowler, Ph.D. (Syracuse) Associate Professor of Geography and Women's Studies
- Robert Drago, Ph.D. (UMass) Professor of Labor Studies and Industrial Relations and Women's Studies
- Yvonne Gaudelius, Ph.D. (Penn State) Associate Professor of Art Education and Women's Studies
- Lori Ginzberg, Ph.D. (Yale) Associate Professor of History and Women's Studies
- Cheryl Glenn, Ph.D. (Ohio) Associate Professor of English and Women's Studies
- Marina Gonick, Ph.D. (Toronto) Assistant Professor of Curriculum and Instruction, and Women's Studies
- Amy Greenberg, Ph.D. (Harvard) Associate Professor of History and Women's Studies
- Irene Harvey, Ph.D. (York) Associate Professor of Philosophy and Women's Studies
- Lisa Hogan, Ph.D. (Indiana) Senior Lecturer in Communication Arts and Sciences, and Women's Studies
- Charlotte Higgin, M.F.A. (Colorado) Associate Professor of English and Women's Studies
- Kathryn E. Hood, Ph.D. (Temple) Associate Professor of Human Development and Women's Studies
- Patricia Jothlin, Ph.D. (Memphis) Associate Professor of Anthropology and Women's Studies
- Jane Juffer, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of English and Women's Studies
- Julie Kasdorf, Ph.D. (NYU) Associate Professor of English and Women's Studies
- Claire Katz, Ph.D. (Memphis) Associate Professor of Philosophy, Jewish Studies, and Women's Studies
- Karen Keifer-Boyd, Ph.D. (Oregon) Associate Professor of Art Education and Women's Studies
- Patricia Koch, Ph.D. (Penn State) Associate Professor of Biobehavioral Health and Women's Studies
- Josephine Koehn, Ph.D. (Yale) Assistant Professor of English and Women's Studies
- Margaret Lyday, Ph.D. (Catholic U of America) Associate Professor of English and Women's Studies
- Janet Lyon, Ph.D. (Virginia) Associate Professor of English and Women's Studies
- Christiane Makward, Ph.D. (Chicago) Associate Professor of Art and Women's Studies
- Sally Mansfield, Ph.D. (Penn State) Professor of Women's Studies
- Sophia McGinnity, Ph.D. (Duke) Associate Professor of Comparative Literature, Spanish, and Women's Studies
- Susan McGinnity, Ph.D. (Princeton) Associate Professor of Art and Women's Studies
- Sally McMurtry, Ph.D. (Cornell) Professor of American History and Women's Studies
- Benedicte Monicat, Ph.D. (Maryland) Associate Professor of French and Women's Studies
- Cecilia Novero, Ph.D. (Ohio) Assistant Professor of German, Comparative Literature, and Women's Studies
- Stacy Rogers, Ph.D. (Ohio State) Associate Professor of Sociology, Crime, Law, and Justice, and Women's Studies
- Carolyn Sachs, Ph.D. (Kentucky) Professor of Rural Sociology and Women's Studies
- Carol Shapiro, Ph.D. (Princeton) Professors of Economics, and Women's Studies
- Stephanie Shields, Ph.D. (Penn State) Professor of Psychology and Women's Studies
- Sandra Spanier, Ph.D. (Penn State) Associate Professor of English and Women's Studies
- Stephanie Spring, Ph.D. (U of British Columbia) Assistant Professor of Art Education and Women's Studies
- Susan Squier, Ph.D. (Stanford) Professor of English and Women's Studies
- Stephanie Sullivan, Ph.D. Assistant Professor of Philosophy and Women's Studies
- Nancy Tuana, Ph.D. (California) DuPont/Class of 1949 Professor in Ethics; Professor of Philosophy and Women's Studies; Director, Rock Ethics Institute; Interim Head, Department of Philosophy
- Cassandra Veney, Ph.D. (Missouri) Assistant Professor of Women's Studies, and African and African American Studies
- Therese K. Vescio, Ph.D. (Kansas) Assistant Professor of Psychology and Women's Studies
- Aaronette M. White, Ph.D. (Washington U) Assistant Professor of Women's Studies, and African and African American Studies
- Linda Woodbridge, Ph.D. (UCLA) Professor of English and Women's Studies
- Linda Way, Ph.D. (Southern California) Assistant Professor of Biobehavioral Health and Women's Studies
- Melissa Wright, Ph.D. (Johns Hopkins) Assistant Professor of Geography and Women's Studies

Dual-title degrees grounded both in Women's Studies and a given discipline will acknowledge and foster scholarly work across disciplines. A dual-title degree program increases the intellectual rigor and breadth of graduate work through immersion of candidates in Women's Studies and their discipline. The dual-title degree will also provide a context in which students can learn to synthesize knowledge within and across disciplinary boundaries. In addition, a dual-title degree program provides students with an opportunity for increased work within a pedagogical framework that also encourages an interdisciplinary approach to teaching.

The primary advantages of dual-title degrees include the intellectual and academic advantages of interdisciplinary, strengthening the reputation of individual programs/departments through innovative degree programs, increased recruitment of quality graduate students, and improved placement of doctoral graduates.

The dual-title degree programs do not duplicate other degree programs in the University.

Admission Requirements
In addition to the admission requirements set forth by the Graduate School and the cooperating department, students will be admitted to graduate study in Women's Studies through Women's Studies-affiliated faculty. The Women's Studies committee of Women's Studies-affiliated faculty. The Women's Studies committee of Women's Studies-affiliated faculty.

Degree Requirements
The Pennsylvania State University
The dual-title degree will have requirements above those for the graduate minor, which currently requires 9 credit hours for the M.A./M.S. and 15 credit hours for the Ph.D. The requirements for the dual-title degree include increased course work, additional components to the comprehensive exams at the doctoral level, and the completion of women's studies related theses at both the master's and doctoral level. Degree requirements for dual-title degrees in Political Science, French, History, English, Education, Geography, Curriculum and Instruction, and Philosophy will be added to the Women's Studies Graduate Handbook.

**Master's Degree**
9 required credits (WMNST 501, WMNST 502, WMNST 507)
3 additional credits of Women's Studies course work
Thesis on a Women's Studies-related topic, or another 3 additional credits of Women's Studies course work and a master's essay will be approved by the student's committee

**Ph.D. Degree**
9 required credits (WMNST 501, WMNST 502, WMNST 507)
9 additional credits of Women's Studies course work (at least 6 of these should be at the 500 level)
Comprehensive examination in Women's Studies and the disciplinary field
Dissertation on a Women's Studies-related topic will be approved by the student's committee

**Foreign Language and English Competency Requirements**
The student will fulfill the language requirement specified by the cooperating department through which the student is admitted to the dual-title degree program.

**Candidacy**
In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the cooperating department. In addition, the student will be required to present a portfolio of work in Women's Studies to their committee. Such a portfolio would include a statement of the student's interdisciplinary research interests, a program plan, and samples of writing that indicate the student's work in Women's Studies.

**Committee Composition**
For a dual-title M.A./M.S., the recommended student's committee will include at least one Women's Studies-affiliated faculty member.
For a dual-title Ph.D., 2 out of 4 members of the committee will be Women's Studies-affiliated faculty members.

**Comprehensive Exams**
The Women's Studies affiliated faculty members on the student's committee are responsible for administering a comprehensive examination in Women's Studies that constitutes a portion of the student's comprehensive exams. The women's studies portion of the exam will focus on the following areas: feminist theory, feminist methodology, global feminism, and feminist studies in the student's discipline.

**Dissertation**
A dissertation on a women's studies topic is required of students in the dual-title degree program. The women's studies-related topic of the dissertation will be approved by the student's committee.

**Women's Studies Minor**
An interdisciplinary dual-degree graduate minor is available, administered by the Women's Studies program. Each student's major and minor is planned by the student and the Women's Studies graduate adviser in consultation with the student's graduate adviser in his or her major field.

Master's Minor Requirements: Master's-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 3 additional credits in Women's Studies, chosen in consultation with the Women's Studies graduate adviser.

Doctoral Minor Requirements: Doctoral-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 9 additional credits of Women's Studies course work (at least 6 of which should be at the 500 level), chosen in consultation with the Women's Studies graduate adviser.

9 credits required credits of Women's Studies courses for master's level
15 credits required credits of Women's Studies courses for doctoral level
The above credits are in addition to the requirements for the student's major. Six credits consist of required courses in feminist theory (3) and feminist methodology (3). The remaining credits may include a combination of WMNST 400- and 500-level courses, as well as special topics courses (numbered 497 and 597) and independent/individual studies (496 and 596).

Prescribed courses (6 credits): WMNST 507 Feminist Theory; WMNST 501 Feminist Perspectives on Research and Teaching
Additional courses (a minimum of 3 credits at the 500 level)

**Student Aid**
Graduate assistantships available to students in this program and other forms of student aid are described in the [STUDENT AID section of the Graduate Bulletin.](#)

Degree Conferred:
M.Ed.

The Graduate Faculty
- Connie D. Baggett, Ph.D. (Penn State) Associate Professor of Agricultural and Extension Education
- Blannie E. Bowen, Ph.D. (Ohio State) Professor of Agricultural and Extension Education
- Cathy F. Bowen, Ph.D. (Ohio State) Professor of Agricultural and Extension Education
- Mark A. Brennan, Ph.D. (Penn State) Associate Professor of Agricultural and Extension Education
- Marilyn Corbin, Ph.D. (Kansas State) Professor of Agricultural and Extension Education
- John C. Ewing, Ph.D. (Ohio State) Assistant Professor of Agricultural and Extension Education
- Daniel D. Foster, Ph.D. (Ohio State) Assistant Professor of Agricultural and Extension Education
- Tracy S. Hoover, Ph.D. (Penn State) Professor of Agricultural and Extension Education
- Patresees O. Ingram, Ed.D. (Western Michigan) Professor of Agricultural and Extension Education
- Matthew S. Kaplan, Ph.D. (CUNY) Professor of Agricultural and Extension Education
- Claudia C. Mincemoyer, Ph.D. (Penn State) Professor of Agricultural and Extension Education
- Daniel F. Perkins, Ph.D. (Michigan State) Professor of Agricultural and Extension Education
- Jan F. Scholl, Ph.D. (Iowa State) Associate Professor of Agricultural and Extension Education
- Nicole S. Webster, Ph.D. (Michigan State) Associate Professor of Agricultural and Extension Education
- Edgar E. Yoder, Ph.D. (Ohio State) Professor of Agricultural and Extension Education

The curriculum prepares students to assume leadership roles in education and human service organizations whose goals are to support and enhance the well-being of youth and families within community settings. Through this graduate program, students will: (1) design, implement, and evaluate educational programs for youth and families; (2) interpret relevant research in youth and family education; and (3) apply research and problem-solving strategies to increase professional effectiveness.

Admission Requirements
Applicants whose junior/senior grade-point average is below 3.00 on a 4.00 scale for their baccalaureate degree are required to submit Graduate Record Examinations (GRE) scores. The program is tailored to students with baccalaureate degrees in family and consumer science, youth development, or other disciplines closely related to the human sciences.

Degree Requirements
For the M.Ed., a minimum of 30 credits is required, including a 3-credit professional paper or thesis. The paper or thesis is defended in a one-hour oral examination. The graduate program is organized around the following themes: youth and family education, community-based education, and research. Students have the flexibility to focus their programs in areas of professional interest within youth and family education.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Graduate Minors

A graduate minor may be taken in one of the approved graduate degree programs offered at Penn State. However, some formal graduate minors have been approved by the Graduate Council, such as the minors listed on this page. A minor at the graduate level must represent curriculum and study that reflect graduate-level concepts and scholarship, with a preponderance of courses at the 500 level.

A student seeking a minor must have the approval of the student's major program of study, the minor program, and the Graduate School. A student may not pursue more than three minors at one time. If a student pursues more than one minor, each minor must have a separate group of courses to support it (i.e., none of the courses may be used concurrently).

A doctoral minor consists of no fewer than 15 graduate credits of integrated or articulated work in one field related to, but different from, that of the major with a preponderance of courses at the 500 level; however, at a minimum, 6 credits must be at the 500 level. Official requests to add a minor to a doctoral candidate's academic record must be submitted to Graduate Enrollment Services prior to establishing the doctoral committee and prior to scheduling the comprehensive examination. For more information regarding minors, please see the following web pages.

---For doctoral students:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm

---For Ph.D. candidates:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=degreeReq2

---For D.Ed. candidates:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=degreeReq3

A master's minor consists of no fewer than 6 credits of integrated or articulated work in one field related to, but different from, that of the major; however, at a minimum, 3 credits must be at the 500 level. Official requests to add a master's minor to a student's academic record must be submitted to Graduate Enrollment Services at least one semester prior to the semester the student intends to graduate.

Updated: 12/14/11
Bioinformatics

The interdisciplinary graduate minor in Bioinformatics is administered by the Engineering Division at Penn State Great Valley and requires 15 graduate credits. The minor offers an opportunity for graduate students in all Penn State colleges and majors to pursue a focused set of graduate courses and gain core competency and experience in informatics, statistics, and ethics as they relate to the field of biotechnology. Students complete a 9-credit core curriculum of SYSEN 509 Biostatistics, SWENG 552 Bioinformatics, and S T S 589 Ethics and Values in Science and Technology. Students then build upon the core by selecting 6 credits of electives focusing on database design concepts, data mining, and genetic algorithms. Nine of the 15 credits in this minor may be applied toward the student’s major program of graduate study. Students seeking admission to the Bioinformatics minor without appropriate prerequisite courses may be required to complete preparatory courses that are not applicable to either their major or minor program of study. Additional information and application materials maybe found at www.gv.psu.edu/bioinformatics.

Computational Science

The Department of Aerospace Engineering administers this interdisciplinary minor. Each student's program is planned by the student and a designated computational science adviser, in consultation with the graduate adviser in the student's major field.

The minor offers an opportunity for students in all colleges and majors to pursue a focused set of courses that emphasize computational science. The minor requires 9 credits in computational science courses for a master's degree and 15 credits for a doctoral minor. All students must take at least one of these: AERSP 424, CMPSC 450, NUC E 530, or CSE 557 and at least one of these: MATH 523, MATH/CSE 550, STAT 500, or STAT/IST 557. The additional credits will be chosen from a list of approved courses on the CSCI Web site [www.csci.psu.edu](http://www.csci.psu.edu). In addition, for the Masters Minor and Ph.D. Minor the students can use at most 6 and 9 credits, respectively, from (or cross-listed with) their home department.

More information can be found on the CSCI Web site: [http://www.csci.psu.edu](http://www.csci.psu.edu).

Gerontology

The interdisciplinary graduate minor in Gerontology is administered by a committee of faculty appointed by the Gerontology Center Advisory Board. The committee members represent diverse programs within the University. Students admitted to the minor will develop a course of study that includes both prescribed course work and additional course work suited to the student's interests. The minor course of study will be developed jointly by the student, the student's academic adviser, and one member of the graduate minor gerontology committee. Contact the Gerontology Center (S-105 Henderson) for information regarding the committee membership.

The minor requires a minimum of 10 credits of the master's level and 15 credits at the doctoral level, 10 of which are prescribed. The prescribed courses are: BIOL 409 Biology of Aging (3); HD FS/PSYCH 445 Development throughout Adulthood (3); HD FS 590 Gerontology Colloquium (1); and SOC 435/HD FS 434 or SOC 535 (3). Doctoral students must select a minimum of 5 additional credits from among the following courses: ADTED 460, 505, CN ED 415, EDPSY 527, HD FS 446, 447, 579, H P A 442, KINES 481, 482, NURS 464, 500, SOC 535, and gerontology-related special topics courses (SUBJ 497, 597) or independent studies (SUBJ 496, 596).

Latin American Studies

The Latin American Studies graduate minor is administered by the Latin American Studies committee. The minor offers students the ability to study the region of Latin America from an interdisciplinary perspective and is open to students from across the University. It is housed in three departments: History; Comparative Literature; and Spanish, Italian and Portuguese. Graduate students from across the University are encouraged to participate. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student, the student’s doctoral adviser, and an adviser designated by the Latin American Studies committee. Any change in the plan must be approved by both advisers. A minimum of 15 credits must be completed, with a minimum of 6 credits at the 500-level. Per graduate school regulations for the minor, a representative of the minor will participate on the student’s doctoral committee.

Latina and Latino Studies

The Latina and Latino Studies graduate minor is an interdisciplinary minor that will be administered by a faculty committee appointed by the dean of Liberal Arts and made up of faculty in English, Comparative Literature, Spanish, and other appropriate disciplines. Graduate students from across the university are encouraged to participate. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student, the student’s doctoral adviser, and an adviser designated by the Latina and Latino Studies committee. Any change in the plan must be approved by both advisers.

A minimum of 15 credits must be completed. Per graduate school regulations for the minor, a representative of the minor will participate on the student’s doctoral committee. This representative may be a member of the Latina and Latino Studies committee or any other faculty member approved by that committee.

Literary Theory, Criticism, and Aesthetics

This is an interdisciplinary doctoral minor that is administered by two designated advisers, one from the Department of Comparative Literature and one from the Department of Philosophy. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student and the two advisers, in consultation with the student’s doctoral adviser in his or her major field. Any change in the plan must be approved by all of the advisers. A minimum of 15 credits must be selected from among the following courses (including at least 3 credits each in comparative literature and philosophy, chosen from the asterisked courses): ART H 410, CMLIT 502*, 503*, 580, ENGL 581, 582, 583, FR 571, GER 591, PHIL 413, 414*, 516*, 581, 582, SPAN 587, SPCOM 503, 505, 507, or THEA 503, 504. Note 1: 3 credits of SUBJ 596 in one of the nine subject areas indicated may be substituted for one of the non-asterisked 3-credit courses. Note 2: A student majoring in one of the nine subject areas may not include any courses in that field as part of the minor. Appropriate courses may be substituted.

Linguistics

The doctoral minor provides interested students with an opportunity to complete a program of scientific study focused on the nature, structure, and use of human language. The minor is designed to cover the foundations of the discipline of linguistics by reviewing fundamental core areas such as phonology and syntax. Course work is also available in many additional areas of linguistics such as semantics, morphology, language variation, historical linguistics, and discourse analysis.

The minor requires a minimum of 15 credits, 6 of which must be at the 500 level. Nine credits are prescribed in syntax (LING 400), phonology (LING 404), and a general introduction to linguistics (LING 401), although a linguistics course at the 500 level may be substituted for LING 401 with the approval of the director of the program in Linguistics.

Medieval Studies

The graduate minor in Medieval Studies offers graduate students in the humanities an interdisciplinary field of study in an important era in European development. The minor provides students with a broader historical and cultural background for their major discipline. Graduate status is required for admission to the minor.

The graduate minor in Medieval Studies requires 9 credits of course work (of which 3 credits are at the 500 level) for a master's candidate and 15 credits of course work (of which 6 credits are at the 500 level) for a doctoral candidate; the courses will be selected in consultation with an adviser for the minor, who will normally be a member of the Liberal Arts Medieval Studies Committee; and with the chair of the student's graduate committee. The courses for the minor will be chosen from at least two of the following areas outside the students' area of specialization: arts; history; literature and language; medieval studies; philosophy and religious studies; and other areas as available. The sequence of the courses will be determined by the student's major department.

Religious Studies

This is a graduate minor administered by the Religious Studies program leading to a minor at the master's or doctoral level. Each student's course of study would be planned jointly by the student and an adviser selected from the Religious Studies faculty, in consultation with the student's adviser in his or her major field.

The minor requires a minimum of 9 credits of Religious Studies courses for a master's degree and 15 credits for a doctorate. These credits are in addition to the requirements for a student's major. Three credits consist of a required course, Research in Religious Studies (RL ST/HIST 565). Students would select among 500-level Religious Studies course to fulfill the remaining requirements. These include: RL ST 532, 536, 539, 596, RL ST/HIST 510, 560, 561, 562, 563, 564.

With the consent of a student's adviser, the student may elect to take a 500-level course in a field closely related to Religious Studies that may help to satisfy the minor's requirements. This may not be in the student's major field.

Science, Technology, and Society

This interdisciplinary graduate minor is administered by the Science, Technology, and Society Program. Each student's program will be planned by the student and designated S T S graduate adviser, in consultation with the graduate adviser in the student's major field.

The goal of the graduate minor in Science, Technology, and Society is to complement graduate and professional students' major programs through study of the interactions among science, technology, and society. More specific objectives are to promote scholarship in the humanities and social sciences concerning the social and ethical dimensions of science and technology; to inform those training in the scientific and technical professions about the social and ethical dimensions of their professional practice; and to develop research and rhetorical skills used in shaping public discourses about, and public policies regulating, science and technology.

The minor requires 9 credits in S T S courses for a master's and 15 credits for a doctoral minor. Six credits consist of S T S 589 Ethics and Values in Science and Technology and S T S 591 Research and Writing in S T S. The remaining credits may include 400- and 500-level, special topics (S T S 497 and 597), and independent study (S T S 496 and 596) courses.

Second Language Acquisition

This interdepartmental doctoral minor draws upon the opportunities that various departments offer to study the processes of language acquisition and pedagogy, and to conduct research in these fields. Developments in the theories of language acquisition, the practices in language instruction, and the technical innovations provide a wide range of resources for secondary specializations in second language acquisition theory. The minor provides an official credential for doctoral students who complete an organized program of study.

The minor requires a minimum of 15 credits at the 400, 500, or 600 levels (beyond credits used for degree requirements in the student's field of study), consisting of one or two methodology courses totaling 3 credits and 12 additional credits selected from an interdepartmental list of eligible courses, with approval both by the student’s doctoral committee in his or her major field, and by the person in charge of the minor. A maximum of 6 credits may be taken at the 400 level, and no more than 3 credits of 602 may count toward the minor. Courses in at least two departments must be included. Further, students must complete at least two semesters’ experience in supervised teaching of either a foreign language or ESL, or alternative equivalent practicum if approved by the doctoral committee and the person in charge of the Minor.

In general, students whose major field of study in the Ph.D. is a concentration in foreign language acquisition or ESL are not eligible for this minor, as their field of specialization already includes this area. However, students in English as a Second Language may do the minor with a focus on foreign language acquisition or a student with a specialty area in forced language acquisition may complete the minor with a specialty area in English as a Second Language.

Social Thought

The purpose of the Social Thought minor is to enable graduate students in a variety of fields to study theories of society across conventional disciplinary boundaries. The minor enables qualified students to enrich their own chosen fields of study with readings and discoveries from other, contiguous fields. The minor requires at least 15 credits of courses with social thought content. These are courses taught by STP Affiliated Faculty or those approved by the STP Advisory Committee. Those 15 credits must include the following: at least 9 credits of courses from outside the student’s major discipline and SOCTH 501 -- Introduction to Social Thought. In addition, at least one member of the student’s dissertation committee must be an STP Affiliated Faculty and preferably be from outside the student’s major discipline.

Women's Studies

This interdisciplinary dual degree graduate minor is administered by the Women's Studies program. Each student's major and minor is planned by the student and the Women's Studies graduate adviser in consultation with the student's graduate adviser in his or her major field.

MASTER'S REQUIREMENTS: Master's-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 3 additional credits in Women's Studies, chosen in consultation with the Women's Studies graduate adviser.

DOCTORAL REQUIREMENTS: Doctoral-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 9 additional credits of Women's Studies course work (at least 6 of which should be at the 500 level), chosen in consultation with the Women's Studies graduate adviser.

The minor requires a minimum of 9 credits of Women's Studies courses for a master's degree and 15 credits for a doctorate. These credits are in addition to the requirements for the student's major. Six credits consist of required course in feminist theory (3) and feminist methodology (3). The remaining credits may include a combination of WMNST 400- and 500-level courses, as well as special topics courses (numbered 497 and 597) and independent/individual studies (496 and 596).

Prescribed courses (6 credits): WMNST 507 Feminist Theory; WMNST 501 Feminist Perspectives on Research and Teaching. Additional courses (a minimum of 3 credits at the 500 level).
Postbaccalaureate and Graduate Credit Certificate Programs

Postbaccalaureate and graduate credit certificate programs are innovations that reflect emerging academic areas, and may be supplements or enhancements to existing degree programs. These credit certificate programs are designed to foster development of an area of specialty or competency within a discipline and flexibility is essential to accommodate the parameters of the discipline as well as the educational needs of the students. The programs consist of a sequence, pattern, or group of courses developed, supervised, and evaluated by the faculty members of the academic unit offering the program.
Addiction Studies

Postbaccalaureate Credit Certificate Program

Dr. Richard Hazler
331 Cedar Building
University Park, PA 16802
Phone: 814-863-2415
Fax: 814-863-7750
E-mail: rjh29@psu.edu

The postbaccalaureate certificate in Addiction Studies has emerged in response to the growing need among counselors, educators, nurses, clergy, other helping professionals, and individuals working directly in chemical dependency treatment and prevention settings. It is designed to enhance an individual's understanding of clients or students who are experiencing addiction, who may be at risk to experience addiction, or who are affected by somebody else's addiction. Students may opt for either the treatment track or the prevention track. All students must take four 3-credit core courses (12 credits total), as well as one additional 3-credit course for the Prevention track or two additional 3-credit courses for the Treatment track.

Admission Requirements

All applicants must have a baccalaureate degree from a regionally accredited undergraduate institution whose credit conditions are substantially equivalent to Penn State. Students whose baccalaureate degree is not in a field substantially similar to counseling (e.g., psychology, rehabilitation services, human services, human development and family studies) and/or without substantive work experience in either the addictions field or the field of counseling must take CN ED 403 as a prerequisite prior to being admitted to the certificate program.

PRESCRIBED COURSES

COUNSELOR EDUCATION (CN ED)

- 401. Foundations of Chemical Dependency Counseling (3)
- 416. Interpersonal Relationships and Alcohol and Other Drugs Dependency (3)
- 420. Chemical Dependency: Youth at Risk (3)
- 840. Trends and Issues in Addiction Counseling (3)

ADDITIONAL COURSES -- TREATMENT TRACK

COUNSELOR EDUCATION (CN ED)

- 541. Counseling Addicted Clients (3)
- 542. Dual Diagnosis (3)

ADDITIONAL COURSES -- PREVENTION TRACK

COUNSELOR EDUCATION (CN ED)

- 843. Prevention (3)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

COUNSELOR EDUCATION (CN ED) course list

Effective Date: Summer Session 2009
Expiration Date: Spring Semester 2014
Last Revised by the Department: Summer Session 2009

Review Date: 08/24/2010

The Pennsylvania State University
Adult Gerontology Acute Care Nurse Practitioner

Graduate Credit Certificate Program

Patricia Sweeney Ph.D, C.R.N.P., F.N.P., B.C.
203 Health and Human Development East
University Park, PA 16802
Telephone: 814-863-2211
Fax: 814-863-2925
E-Mail: pxs29@psu.edu

The purpose of the Adult Gerontology Acute Care Nurse Practitioner certificate is to prepare individuals with a Master’s degree in Nursing seeking additional certification as an Adult Gerontology Acute Care Nurse Practitioner. The curriculum includes the didactic and clinical courses required for application of the NP role and required for certification. The program of study is variable and may require a total of 31 credits. Up to 9 credits may be waived based on evaluation of transcripts and prior course completion.

Admission Requirements:

Applicants are required to have a Master’s degree in nursing from a NLNAC- or CCNE-accredited institution. In addition, undergraduate chemistry and statistics are required. Students need to submit two recommendations and official transcripts from all undergraduate and graduate programs. Applicants are required to have two years of experience as an RN in an acute care/hospital setting.

Required Courses

NURSING (NURS)

860. Adult Gerontology Acute Care Nurse Practitioner Role I (3)
861. Adult Gerontology Acute Care Nurse Practitioner Role II (3)
862. Adult Gerontology Acute Care Nurse Practitioner Practicum I (4)
863. Adult Gerontology Acute Care Nurse Practitioner Practicum II (4)
864. Adult Gerontology Acute Care Nurse Practitioner Integrative Practicum (6)
865. Pharmacology for Acute Care Nurse Practitioners (1)
866. Health Assessment of the Adult Gerontology Population in Acute Care (1)

Additional Coursework*

502. Advanced Health Assessment of Adult Populations (3)
503. Pathophysiology (3)
504. Pharmacologic Therapy (3)

*Any or all of these courses may be waived based on the certificate program chair’s evaluation of transcripts and prior courses completed.

Effective Semester: Fall 2012
Expiration Semester: Summer 2017

Agricultural Biosecurity and Food Defense

Graduate Credit Certificate Program

Gretchen A. Kuldau
321 Buckhout Laboratory
Department of Plant Pathology and Environmental Microbiology
Penn State University
University Park, PA 16802
Telephone: 814-863-7232
Fax: 814-863-7217
email: kuldau@psu.edu

This 12-credit graduate certificate program is designed to provide students with broad training in the field of agricultural biosecurity. Courses cover animal and plant health, and food defense aspects of agricultural biosecurity and food defense. Content is both theoretical and applied but with an emphasis on practical application of knowledge gained. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option for those who desire advanced graduate training but do not require the full Master’s degree program. It is also ideal for students who wish to move into the degree program once all admissions requirements are fulfilled (e.g., GRE); however, successful completion of a certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

ADMISSION REQUIREMENTS

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution, and must have a 3.0 or higher undergraduate grade point average. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

COURSES

AGRICULTURAL BIOSECURITY AND FOOD DEFENSE (AGBIO)

520. Agricultural Biosecurity (3)
521. Food Defense (3)
801. Veterinary Infectious Disease Diagnostic and Surveillance Systems (3)
802. Plant Protection (3)

Effective Date: Fall Semester 2012

The Pennsylvania State University
Applied Behavior Analysis

Graduate Credit Certificate Program

Dr. David Lee
226 Cedar Building
Telephone: 814-865-3567
email: davidlee@psu.edu

This program is intended for those who seek advanced knowledge in the field of applied behavior analysis. The 18-credit curriculum is specifically designed to prepare students to sit for the BCBA certification examination sponsored by the Behavior Analyst Certification Board. After completing the program, students will be able to:

1. Describe the basic principles of behavior and how those principles relate to community/classroom situations with clients.
2. Develop procedures to determine the purpose of aberrant behavior for an individual, determine if targeted behaviors warrant intervention, and monitor the effects of interventions.
3. Develop interventions based on the purpose of aberrant behavior.
4. Develop instructional programs to teach new behaviors that are functional in school and community settings.

ADMISSION REQUIREMENTS:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

PRESCRIBED COURSES

SPECIAL EDUCATION (SPLED)

503A. Applied Behavior Analysis for Special Education: Basic Principles I (4)
503B. Applied Behavior Analysis for Special Education: Basic Principles II (4)
503C. Applied Behavior Analysis for Special Education: Extended Applications I (4)
503D. Applied Behavior Analysis for Special Education: Extended Applications II (3)
511. Ethical Considerations for Special Education Populations (3)

Effective: Fall Semester 2012
Expiration: Spring Semester 2017
Blue Sheet Item #: 41-02-065
Review Date: 10/02/2012
The graduate certificate in Applied Statistics helps quantitative professionals in a variety of fields become knowledgeable and skillful in applied statistics. The certificate was designed specifically for researchers working with statistical data who wish to advance their careers, and for those who seek career changes. The certificate is offered through Penn State's World Campus. Students earn the certificate by completing 12 credits of instructor-led online course work. Two 3-credit courses are required, and the remaining 6 credits are selected from a list of electives. Students who successfully complete the certificate earn 12 academic credits and receive the graduate certificate in Applied Statistics. Students subsequently admitted to the Department of Statistic's professional Master of Applied Statistics degree program may count up to 15 credits of certificate courses toward the M.A.S. degree.

**Admission Requirements**
An applicant must have received, from a regionally accredited institution, a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants from countries in which English is not the primary language must earn TOEFL scores of at least 550 for the paper test or 213 for the computer-based test.

**Admission Procedures**
 Students interested in applying for admission to the Graduate Certificate in Applied Statistics program should go to the World Campus web site: [http://www.worldcampus.psu.edu/AppliedStatisticsCertificate_Admissions.shtml](http://www.worldcampus.psu.edu/AppliedStatisticsCertificate_Admissions.shtml)

**PRESCRIBED COURSES**

**STATISTICS (STAT)**
- 500. Applied Statistics (3)
- 501. Regression Methods (3)

**ELECTIVES**
Choose at least 6 credits from:

**STATISTICS (STAT)**
- 414. Introduction to Probability Theory (3)
- 415. Introduction to Mathematical Statistics (3)
- 480. "Introduction to SAS (1)
- 481. Intermediate SAS for Data Management (1)
- 482. "Advanced Topics in SAS (1)
- 502. Analysis of Variance and Design of Experiments (3)
- 503. Design of Experiments (3)
- 504. Analysis of Discrete Data (3)
- 505. Applied Multivariate Statistical Analysis (3)
- 506. Sampling Theory and Methods (3)
- 507. Epidemiologic Research Methods (3)
- 509. Design and Analysis of Clinical Trials (3)
- 510. Applied Time Series Analysis (3)

* Note: credits cannot be taken for both 483 and 480-482.

**GEOGRAPHY (GEOG)**
- 483. Problem-Solving with GIS (3)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**Effective Date:** Fall Semester 2011  
**Expiration Date:** Fall Semester 2016

Educating Individuals with Autism

Postbaccalaureate Credit Certificate Program

Dr. Pamela Wolfe
212A Cedar Building
University Park, PA 16802
Telephone: 814-863-8002
Fax: 814-865-7066
email: psw7@psu.edu

The focus of this postbaccalaureate certificate program is to provide comprehensive, evidence-based information on creating effective educational programming for individuals with autism spectrum disorders. After completing the 12-credit program, students will be able to assess individuals with autism spectrum disorders to effectively provide instruction; develop strategies to enhance social, behavioral, communication, and academic gains; strengthen professional skills to work with families; and develop professional competencies to work with other educators and personnel in related disciplines.

For admission into this program, applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Required Courses:
- SPLED 461 Autism: Issues and Concerns (3)
- SPLED 462 Autism and Applied Behavior Analysis (3)
- SPLED 463 Communication and Social Competence (3)

Children's Literature

Graduate Credit Certificate Program

Daniel D. Hade
265 Chambers Building
Telephone: 814-865-2215
email: ddh2@psu.edu

The goal of the program is to provide students with an in-depth background in the theories and genres of literature for children and youth while also considering pedagogical (broadly construed) and cultural implications. Students are required to take LL ED 502, Studies in Literature for Children, as their initial course in the program as a foundation to the various orientations to the study of children's literature. Students may then choose a minimum of four additional courses in areas such as picture books, fantasy literature, myth and folklore, cultural and social issues, and research approaches for a total of 15 credits. The program does not lead to any initial teacher certification, but may assist students with recertification. Students should check with their specific state departments of education for regulations regarding recertification.

Admission Requirements:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

PRESCRIBED COURSE:

LANGUAGE AND LITERACY EDUCATION (LL ED)

502. Studies in Literature for Children (3)

ADDITIONAL COURSES:

Select four courses from the following:

462. The Art of the Picture Book (3)
465. Fantasy Literature for Children (3)
561. Cultural Pluralism in Children's and Adolescent Literature (3)
563. Myths and Folklore in Children's Literature (3)
568. Doing Research in Children's Literature (3)

Effective: Fall Semester 2012
Expiration: Spring Semester 2017

Heritage and Museum Practice

Graduate Credit Certificate Program

Simon J. Bronner, Ph.D.
Penn State Harrisburg
American Studies Program
777 West Harrisburg Pike
Middletown, PA 17057
Telephone: 717-948-6201
Fax: 717-948-6724
email: amstd@psu.edu

This 15-credit graduate certificate program offered at Penn State Harrisburg provides students with knowledge of practices in the heritage and museum sector, which includes historical and heritage societies, art galleries, archives and record management programs, educational institutions, cultural and governmental agencies, preservation and cultural resource management groups, and media production companies. A goal of the program is to enable students to conceptualize, deliver, and manage effective heritage and museum projects. The Heritage and Museum Practice certificate is awarded for successful completion of 9 credits of prescribed courses plus 6 credits of electives from an approved list of courses. Students must earn a grade of B or above in each course that counts toward the certificate program.

Admission Requirements:

An applicant must hold either a baccalaureate degree from a regionally accredited U.S. institution or a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

A candidate in the certificate program may also become a candidate in the Master of Arts in American Studies, Master of Arts in Humanities, or Master of Arts in Public Administration degree programs if the candidate is admitted to one of these graduate degree programs; however, successful completion of the certificate program neither implies nor guarantees admission to any graduate degree program at Penn State. Students enrolled in any of these degree programs may apply credits earned toward the certificate as elective credits with program approval. Up to 15 credits of coursework taken in nondegree status can count towards a graduate degree.

GPA REQUIREMENT

Applicants are expected to have 2.75 GPA or above in the last two years of undergraduate work in American Studies, history, art, architecture, anthropology, folklore, management, communications, or fields related to museum and heritage practice.

PRESCRIBED COURSES (9 credits)

AMERICAN STUDIES (AM ST)
480. MUSEUM STUDIES (3) or 482. PUBLIC HERITAGE (3)
550. SEMINAR IN PUBLIC HERITAGE (3)

ADDITIONAL COURSES (6 credits)

In addition to the 9 credits of prescribed coursework, students must select 6 credits from the following list of 500-level elective courses.

AMERICAN STUDIES (AM ST)
530. TOPICS IN FOLKLORE (3)
531. MATERIAL CULTURE AND FOLKLIFE (3)
575. MUSEUM INTERNSHIP (3)
551. SEMINAR IN LOCAL AND REGIONAL STUDIES (3)
570. TOPICS IN AMERICAN ART (1 - 6 per semester)
592. FIELD EXPERIENCE IN AMERICAN STUDIES (3)

PUBLIC ADMINISTRATION (P ADM)
500. PUBLIC ORGANIZATION AND MANAGEMENT (3)
505. HUMAN RESOURCES IN THE PUBLIC AND NONPROFIT SECTORS (3)
516. STRATEGIC PLANNING (3)
517. NONPROFIT ORGANIZATIONS: HISTORY AND EVOLUTION (3)
518. NONPROFIT ORGANIZATIONS: MANAGEMENT AND LEADERSHIP (3)
519. NONPROFIT ORGANIZATIONS: RESOURCE DEVELOPMENT AND MANAGEMENT (3)

The Pennsylvania State University
Clinical Research

Graduate Credit Certificate Program

Thomas A. Lloyd, Ph.D., Professor and Division Chief, Epidemiology
Mardi Sawyer, BS
Public Health Sciences, A210
Penn State College of Medicine
600 Centerview Drive, PO Box 855
Hershey, PA 17033-0855
Phone: 717-531-1286
Fax: 717-531-3922
E-mail: mds21@psu.edu

In the current medical climate, there is a growing need for academic clinicians and health care professionals who are trained in clinical research. Unfortunately, there are few programs that offer the didactic preparation for the unique requirements of a clinical researcher.

The primary goal of this program is to provide a formal, structured program that will prepare certificate candidates to pursue a successful career in clinical research. The curriculum includes courses in biostatistics, epidemiology, clinical trials, decision and cost-effectiveness analysis, outcomes measurement, quality management, health care economics and policy, scientific communication, and SAS statistical analysis computing. The 15 credit hour program offers courses on weekday evenings, enabling the student to continue clinical or employment activities. Certificate candidates will be able to complete the 15 credit hour requirement in 2 semesters.

Admission Requirements

The successful applicant must have completed a medical, nursing, or baccalaureate degree from a regionally accredited institution. Fellows and junior faculty members with current appointments at the Penn State College of Medicine, as well as nursing graduates and public health personnel, are target candidates for the certificate program.

COURSES

Core (6 prescribed credits)

PUBLIC HEALTH SCIENCES (PHS)

520. Principles of Biostatistics (3)
550. Principles of Epidemiology (3)

In addition to the 6 credits of required core coursework, students must select an additional 9 credits from the following list of electives:

PUBLIC HEALTH SCIENCES (PHS)

500. Research Ethics (1)
511. Methods in Translational Research (1)
518. Scientific Communications (1)
519. Patient Oriented Research (1)
535. Quality of Care Measurement (3)
536. Health Survey Research Methods (3)
551. Advanced Epidemiological Methods (3)
580. Clinical Trials Design Analysis (3)
581. Clinical Trials Case Studies (1)
801. Data Management (1)

Community and Economic Development

Graduate Credit Certificate Program
Dr. Diane McLaughlin
Department of Agricultural Economics and Rural Sociology
110-C Armsby Building
University Park, PA 16802
Phone: 814-863-8626
Fax: 814-865-3746
Email: dkk@psu.edu

The Graduate Certificate program in Community and Economic Development helps students prepare to confront the multidimensional challenges faced by community development practitioners. The main objective of the certificate program is to educate professionals who will assume leadership roles in helping establish and maintain viable communities. Recipients of the certificate will become deeply involved in assisting localities with a variety of issues, including: developing new organizations and new industries; growth management; protecting the environment; revitalizing downtown areas; enhancing the local quality of life; assisting educational, social, health, and human service systems; and developing vital infrastructure—short, working with communities to help them shape their own futures.

The certificate program teaches the theory, skills, and tools that allow practitioners to address the important issues in community and economic development. The certificate program emphasizes topical problems, drawing from the experiences of both students and the faculty. Students in Community and Economic Development gain a broad understanding of the dynamics of communities and their social, economic, and political systems. With this training, graduates have a wide range of career opportunities in an expanding job market. Some work for local or regional governments, industrial development authorities and chambers of commerce, major corporations, nongovernmental organizations, or consulting firms. Others may work for development authorities, housing authorities, planning commissions, or environmental planning and development agencies.

Program Requirements
The Graduate Certificate in Community and Economic Development (CEDEV Certificate) requires 15 credits, consisting of five 3-credit courses. The CEDEV Graduate Certificate is designed to build a basic level of knowledge and skills required for practitioners to address the important issues in community and economic development. Admission to the certificate requires applicants to provide evidence of completion of a baccalaureate degree from a regionally accredited institution.

The certificate program is primarily for professionals in the field who wish to expand their existing knowledge and for those who wish to learn about community and economic development, including those working in or interested in dealing with the variety of development issues in America's towns, boroughs, small cities and rural areas. All courses are delivered online through the Penn State World Campus.

The five required courses introduce students to the field and cover the topics of principles of community and economic development, leadership, community structure, capacity and processes, local economic development, planning, population, land use and municipal finance, and the methods and techniques of effective community and economic development. Courses in the certificate program are required courses in the master's degree program in Community and Economic Development and can be transferred into the master's program for qualified applicants.

Admission Requirements
Students with a 3.00 average (on a 4.00 scale) for the most recent two years of college/university education, or with an advanced degree, and with appropriate course or experiential backgrounds will be considered for admission. To complete an application for the graduate certificate in Community and Economic Development, please visit:

COURSES

COMMUNITY AND ECONOMIC DEVELOPMENT (CEDEV)

- 430. Principles of Economic Development Planning (3)
- 452. Rural Organization (3)
- 500. Principles of Community and Economic Development and Leadership (3)
- 509. Population, Land Use and Municipal Finance (3)
- 575. Methods and Techniques for Community and Economic Development (3)

Program is jointly offered by Penn State's World Campus and the Department of Agricultural Economics and Rural Sociology, College of Agricultural Science.

The Pennsylvania State University
Computer and Network Security

Postbaccalaureate Credit Certificate Program

Patrick McDaniel
360-A Information Sciences & Technology Building
Phone: 814-863-3599
Fax: 814-865-3176
E-mail: mcdaniel@cse.psu.edu

The goal of this certificate program is to prepare security analysts and researchers to develop and apply advanced security needs of enterprise and personal environments. To be awarded the Certificate in Computer and Network Security, students must successfully complete 12 credits of course work including CSE 543, and three of the following courses: CMPSC 443, CSE 544, CSE 545, or CSE 546.

Admission Requirements

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country which it operates. The successful applicant will possess a baccalaureate degree in computer science, computer engineering, or a closely aligned field and is generally expected to have a minimum GPA of 3.0. International students must satisfy the Graduate School's English language requirement. Professional experience will be taken into consideration for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

GRE scores are not required for nondegree graduate students. Individuals who wish to apply to the graduate degree program in Computer Science & Engineering must submit a graduate-degree application for admission, along with all of the required supporting documentation, including GRE scores; successful completion of the certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

COMPUTER SCIENCE (CMPSC)

- 443. Introduction to Computer & Network Security (3)

COMPUTER SCIENCE AND ENGINEERING (CSE)

- 543. Computer & Network Security (3)
- 544. System Security (3)
- 545. Network Security (3)
- 546. Cryptography (3)

To be awarded the Certificate in Computer and Network Security, students must successfully complete CSE 543, and three (3) of the following courses: CMPSC 443, CSE 544, CSE 545, or CSE 546. All courses must be completed with an average GPA of 3.0; students may not earn a grade of less than B- in any single course.

Corporate Finance

Graduate Credit Certificate Program

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone 610-725-5343
Fax 610-725-5224
Email sjp14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in corporate finance.

The program is designed to provide preparation for individuals who work or aspire to work in the corporate finance field as financial analysts, credit managers, investor relations officers, treasurers, controllers, or in related positions in the treasury department or controller's office of an organization, investment banking firms, and commercial lending, or in the area of mergers and acquisitions.

The curriculum focuses on a set of knowledge and skills in financial analysis and reporting, financial modeling and valuation, and capital structure. Course work emphasizes the development of competencies in building pro forma financial statements, company valuation, advanced capital budgeting based on a real options approach, and understanding of 10K reports, as well as mergers and acquisitions, internal control and planning, and decision making under uncertainty. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master's degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master's degree program, as well as for professionals who already hold a master's degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With program adviser approval, all four courses in the certificate program may be applied to the master's degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-725-5224 or email gradmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, certificate courses completed with a B or better will be “transferred” into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate program in corporate finance requires a total of four courses (12 graduate credits). Three of the courses are required (ACCTG 512, BUSAD 526, and FIN 531), and the fourth course is an elective selected from a list of three courses (ACCTG 524 or BUSAD 528 or FIN 532). Students completing each of the four courses with a grade of B or better will be eligible to receive a graduate certificate. All courses are 3 graduate credits.

Prescribed Courses (9 credits)

Accounting (ACCTG)

512. Financial Accounting Theory and Reporting Problems (3 credits)

Business Administration (BUSAD)

526. Current Issues in Corporate Finance (3 credits)

Finance (FIN)

531. Financial Management (3 credits)

Elective Courses (Choose 1 from the following 3 courses) (3 credits)

Accounting (ACCTG)

524. Managerial Accounting (3 credits)

Business Administration (BUSAD)

528. Mergers and Acquisitions (3 credits)

Finance (FIN)

532. Financial Decision Processes (3 credits)

http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective.
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Fall Semester 2011
Expiration Date: Summer Session 2016
Last reviewed by the Department: Summer Session 2011
Blue Sheet Item #: 40-03-101
Review Date: 11/08/2011
The Graduate Certificate Program in Data Mining (DM) empowers professionals with knowledge and skills regarding the discovery and the synthesis of information and knowledge for supporting decision makings. Students will learn the foundations of information sciences, databases, knowledge management and data mining from 3 required courses (9 credits). Through 2 additional elective courses (6 credits), students can learn the theory and the practice on topics ranging from network security, information retrieval, advanced data mining, to intelligent agents. The graduate certificate program provides an excellent advanced education opportunity not only for those professionals from corporations, military, and other government agencies who desire career advancement but also for those who may be interested in a professional master program. Up to 15 credits of coursework taken in non-degree status can count towards a graduate degree (e.g., MPS in Information Sciences).

Admission Requirements:
Both students of a graduate degree program (e.g., Master of Professional Studies) and non-degree graduate students can be awarded the graduate certificate after they complete the course requirement of the program.

Applicants for non-degree graduate students must have received, from an accredited institution, a baccalaureate degree equivalent to those required by Penn State. International students must hold the equivalent of an American four-year baccalaureate degree. GRE scores are not required for non-degree graduate students.

A bachelor’s degree in a related area (e.g., engineering and science), while not required, is helpful in the successful completion of the certificate. It is expected that students will have a basic level of competency in computer language and information technology (related work experience can be used to demonstrate such competency).

International students must satisfy the Graduate School's English language requirement.

LIST OF COURSES INCLUDED IN THE CERTIFICATE PROGRAM:

Required Courses (9 credits):
- IST 562. Theoretical Foundations of Information Sciences (3 cr.)
- IST 552. Data and Knowledge Management (3 cr.)
- IST/STAT 557. Data Mining I (3 cr.)

Elective Courses (6 credits)
Choose two courses from the following courses or other courses approved by the College of Information Sciences and Technology:
- IST 516. Web and Internet Information Retrieval (3 cr.)
- IST 554. Network Management and Security (3 cr.)
- IST 555. Intelligent Agents and Distributed Decision Making (3 cr.)

Penn State's Dietetic Internship Program is a postbaccalaureate, general, supervised practice program. Students who have completed a baccalaureate degree and hold a valid Verification Statement from a Didactic Program in Dietetics (DPD) may submit an application for consideration. The internship program is structured according to the Accreditation Council for Education in Nutrition and Dietetics (ACEND) 2012 Eligibility Requirements and Accreditation Standards. Students are required to complete 15 graduate-level credits earning a grade of "B" or better. Upon completion of the program, students are eligible to take the Registration Examination for Dietitians administered by the Commission on Dietetic Registration.

E-mail: gwk1@psu.edu

The certificate in Distance Education is a postbaccalaureate program designed for educators and trainers who want to expand their knowledge and build competencies in the field of distance education. The certificate program consists of 12 credits of course work in Adult Education (ADTED) of which 6 credits must be at the 500 level. The goal of the program is to assist the students in learning the latest trends, issues, and applications within the field of distance education while experiencing them firsthand as a student.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants must submit the following materials:

- A one-page resume
- A statement describing professional goals, experiences, and responsibilities (2 page maximum)
- One letter of recommendation
- Official transcripts from all undergraduate and graduate programs previously attended

List of Courses Included in the Certificate:

- ADTED 460: Introduction to Adult Education
- ADTED 470: Introduction to Distance Education
- ADTED 531: Course Design and Development in Distance Education
- ADTED 532: Research and Evaluation in Distance Education

Effective Date: Spring Semester 2012

Enterprise Architecture

Graduate Credit Certificate Program

Michael McNeese
Associate Dean for Research and Graduate Programs
mdm25@psu.edu
814-865-6170

The certificate in Enterprise Architecture (EA) is designed to provide an introduction to EA and increase the knowledge of professionals seeking advanced leadership roles within an organization. EA strives to align the enterprise information systems and technology with business strategy and goals to enable the most effective use of technology to both support and grow an organization. All candidates are required to complete nine (9) credits.

The certificate program is an attractive option not only for those who desire advanced education and do not wish a full Master's Degree program, but also for students who might wish to take a certificate to determine if they are interested in a complete graduate degree program in Enterprise Architecture. Up to 15 credits of Penn State coursework taken in non-degree status can count towards a graduate degree in EA, but completion of the coursework neither implies nor guarantees admission to a graduate degree program at Penn State.

To be awarded the certificate, students must successfully complete 9 credits of graduate course work including EA 871, EA 872 and one of the following courses: EA 873, MANGT 510.

Admission Requirements

For admission to The Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

For admission to the certificate, a 2.75 GPA, either overall or from the last 60 credits, is needed. A 3.0 GPA must be obtained in order to successfully complete the certificate. GRE scores are not required. Individuals who wish to apply to the master of professional studies degree program in Enterprise Architecture must submit a separate application for degree admission, along with all of the required supporting documentation.

Required Courses (6 credits)
EA 871 Enterprise Architecture Foundations I (3)
EA 872 Enterprise Architecture Foundations II (3)

Elective Courses (Select 3 credits)
EA 873 Enterprise Modeling (3)
MANGT 510 Project Management (3)

This 15-credit certificate program prepares educators and instructional design professionals who want to advance their skills in the design, development, and implementation of technology-based learning experiences. The 6-credit core prepares professionals in the use of instructional design principles to select and use appropriate educational technologies to meet learning goals. The remaining 9 credits of study can be used to develop integration skills with additional technologies or to acquire skills that prepare candidates to address issues that are encountered by technology integration leaders.

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (post secondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

**Core Courses** (required courses for all candidates, 6 credits)
EDTEC 440: Educational Technology Integration (3 credits)
INSYS 415: Systematic Instructional Development (3 credits).

**Candidates must complete three additional courses from the following list.** (9 credits)
EDTEC 448: Using the Internet in the Classroom (3 credits).
EDTEC 449: Using Video in the Classroom (3 credits).
EDTEC 461: Designing Computer Networks for Education (3 credits).
EDTEC 462: Coordinating Technology Use in Education (3 credits).

English as a Second Language (ESL) Program Specialist and Leadership

Postbaccalaureate Credit Certificate Program

Karin Sprow Forté, D.Ed.
Penn State Harrisburg
777 West Harrisburg Pike
W331 Olmsted
Middletown, PA 17057
Phone: 717-948-6295
Fax: 717-948-6209
E-mail: kms588@psu.edu

The primary goal of the ESL Specialist and Leadership Certificate Program, a U.S. Department of Education, Office of English Language Acquisition (OELA), National Professional Development grant-funded program, is to prepare mainstream PreK-12 teachers to work effectively with English Language Learners (ELLs), their families, and communities. The curriculum includes: (1) legal, historical, and socio-cultural background and history of ELLs in the U.S.; (2) linguistics; (3) language acquisition; (4) ESL curricular, instructional, and assessment strategies and best practices; and (5) ESL instructional leadership, action research, and advocacy with ELL populations. The curriculum focuses on helping PreK-12 teachers do the following: (1) become ESL instructional leaders by learning, understanding, and incorporating curricular, instructional, and assessment strategies specifically tailored for ELLs; (2) learn to develop and implement ESL action research projects within their own classrooms; and (3) develop cultural competence, engage in active outreach, and become advocates for ELLs. Candidates are required to take all five courses (15 credits) in sequence.

An additional 1-credit field experience internship is required by the Pennsylvania Department of Education (PDE) to apply for the PDE ESL Program Specialist Certificate. Students who wish to apply for the PDE certificate must take the 1-credit internship along with the final course in the postbaccalaureate credit certificate program.

ADMISSION REQUIREMENTS

An entering candidate must hold either (1) a baccalaureate degree in education or a similar field from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree in education or a similar field that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. S/he must possess proof of valid teaching/instructional certification from the Pennsylvania Department of Education (PDE) or, in case of those transferring from other states, be in the process of obtaining certification as a highly qualified teacher. When applying for admission online applicants must submit a formal transcript with their previous higher education coursework, as well as proof of teacher certification. At a minimum, a GPA of 3.0 is expected at the baccalaureate level.

List of Courses Included in the Certificate:

EDUC 466: Foundations of Teaching English as a Second Language
EDUC 467: English Language Structure for English as a Second Language
EDUC 468: Language Acquisition for English as a Second Language
EDUC 469: Teaching Methods and Assessment of English as a Second Language
EDUC 475: ESL Leadership, Research and Advocacy

Effective Date: Summer Session 2012

E-mail: sms20@psu.edu

The certificate in Family Literacy, based on a multidisciplinary approach to literacy instruction involving both adult educators and early childhood education and family literacy specialists, is intended for location-bound students who work in a variety of literacy-related settings, both formal and informal. These settings include public schools and preschools (teachers, teaching assistants, reading specialists), organizations such as Head Start and grant-funded family literacy programs. The goal of the certificate is to build the capacity of the field to provide high-quality, research-based instruction and program development in family literacy. The certificate consists of a 12-credit program delivered online through the World Campus. The program objectives include strengthening program effectiveness through developing an understanding of staff roles and responsibilities as part of a collaborative family literacy team and supporting a learner-centered approach to delivering program services.

Admission Requirements
Students must have a baccalaureate degree to enroll.

PREScribed COURSES

ADULT Education (ADTED)

- 456. Introduction to Family Literacy (3)
- 457. Adult Literacy (3)
- 458. Early Literacy Development (3)
- 459. Interactive Literacy: Parents and Children (3)

The purpose of the Family Nurse Practitioner certificate is to prepare individuals with a Master’s degree in Nursing seeking additional certification as a Family Nurse Practitioner. The curriculum includes the didactic and clinical courses required for application of the NP role and required for certification. The program of study is variable and may require a total of 33 credits. Some credits may be waived based on evaluation of transcripts and prior course completion.

Admission Requirements:
Applicants are required to have a Master's degree in nursing from a NLNAC or CCNE accredited institution. In addition, undergraduate chemistry and statistics are required. Students need to submit two recommendations and official transcripts from all undergraduate and graduate programs.

List of Courses Included in the Certificate:
NURS 502(3), NURS 502A(1), NURS 503(3), NURS 504(3), NURS 870(3), NURS 871(3), NURS 872(3), NURS 873(4), NURS 874(6), NURS 875(2), NURS 876(2)

Financial Risk Management

Graduate Credit Certificate Program

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone 610-725-5343
Fax 610-725-5224
Email sip14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in financial risk management.

Financial risk management involves identifying and quantifying risk exposure and controlling the risk exposure. This certificate program is designed to help prepare individuals to manage financial risk, including credit risk, market risk, interest rate risk, currency risk, and inflation risks using financial derivative instruments such as forwards, futures, swaps, and options. Course work emphasizes the development of competencies in the valuation of financial derivatives, fixed income securities, and quantitative methods in finance. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

The program is ideal for individuals who wish to develop and expand their analytical, technical, evaluative, and communication skills and expertise in this particular area of finance. Individuals working or aspiring to work as financial risk managers and in related positions focusing on the area of derivatives and managing risk in organizations, including insurance companies, commercial and retail banks, asset management firms, and regulatory agencies, will find the program particularly valuable.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master's degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master's degree program, as well as for professionals who already hold a master's degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the credit. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate program may be applied to the master's degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email gvadmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a nondegree basis, certificate courses completed with a B or better will be "transferred" into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate in financial risk management requires a total of four courses (12 graduate credits). Three of the courses are required (FIN 531, FIN 513, and BUSAD 525), and the fourth course is an elective selected from a list of two (BUSAD 527 or FIN 505). Students completing each of the four courses with a grade of B or better will be eligible to receive a graduate certificate. All courses are 3 graduate credits.

Prescribed Courses (9 credits)

Business Administration (BUSAD)

525. Quantitative Methods in Finance (3 credits)

Finance (FIN)

513. Speculative Markets (3 credits)
531. Financial Management (3 credits)

Elective Course: Choose one course from the following two (3 credits)

Business Administration (BUSAD)

527. Fixed Income Securities (3 credits)

Finance (FIN)

505. Multinational Managerial Finance (3 credits)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Financial Modeling

Graduate Credit Certificate Program

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley

Fax 610-725-5224
Email sjp14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in financial modeling.

Financial models are an integral part of nearly all major business decisions. This certificate program is designed to help students enhance their ability to analyze business problems and create reliable financial models. The curriculum focuses on the application of corporate finance theory and principles to valuation and financial decision making and assists students in developing proficiency in financial model building and in advanced capital budgeting analysis based on a real options approach. Course work emphasizes the development of competencies in Monte Carlo simulation, econometrics, and decision analysis under uncertainty. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

The program assists in preparing individuals to work in positions as financial analysts, financial managers, budget heads, risk analysts, business planners, financial controllers, financial advisers, and corporate strategists.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master’s degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master’s degree program, as well as for professionals who already hold a master’s degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those of the master of business administration program. Applicants must have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master’s degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant’s credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With program adviser approval, all four courses in the certificate program may be applied to the master’s degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master’s degree program must formally be admitted to the master’s degree program. Admission into the master’s degree program is a separate step and is not guaranteed. Interested students should consult with the Great Valley Admissions Office (telephone 610-648-3242 or email gvardmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master’s degree program and enrolls on a degree basis, certificate courses completed with a B or better will be “transferred” into the program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate program in financial modeling includes a total of four required courses (FIN 531, BUSAD 526, FIN 532, and BUSAD 525) for a total of 12 graduate credits. Students must complete each course with a grade of B or better to receive a graduate certificate. All courses are 3 credits.

Prescribed Courses (12 credits)

Business Administration (BUSAD)
525. Quantitative Methods in Finance (3 credits)
526. Current Issues in Corporate Finance (3 credits)

Finance (FIN)
531. Financial Management (3 credits)
532. Financial Decision Processes (3 credits)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Credits below the 400 level may not. The Postbaccalaureate Certificate Program in Geographic Information Systems (GIS) helps professionals in a variety of fields become knowledgeable and skillful users of geographic information systems. The program was designed specifically for experienced GIS practitioners who lack formal education in geography and GIS and wish to advance their careers, and for those who seek to make career changes. The program is offered through Penn State’s World Campus. Students earn the certificate by completing four instructor-led online courses -- three required and one elective. Students who successfully complete the program earn 11 academic credits (2 credits for the first course, 3 credits each for the rest). Students subsequently admitted to the Department of Geography’s Master of GIS degree program may count up to 15 credits of certificate program courses toward the MGIS degree.

Admission Requirements

Applicants must have received, from a regionally accredited institution, a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants from countries in which English is not the primary language must earn TOEFL scores of at least 550 for the paper test or 213 for the computer-based test.

PRESCRIBED COURSES

GEOGRAPHY (GEOG)
- 482. The Nature of Geographic Information (2)
- 483. Problem-Solving with GIS (3)
- 484. GIS Database Development (3)

ELECTIVES

Choose at least 3 credits from:

GEOGRAPHY (GEOG)
- 485. GIS Programming and Customization (3)
- 486. Cartography and Visualization (3)
- 487. Environmental Applications of GIS (3)
- 488. Acquiring and Integrating Geospatial Data (3)

Graduate courses carry numbers from 500 to 599 - 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. The Geospatial Intelligence certificate promotes sound theory, methodologies, techniques, ethics, and best practices in the professional application of geospatial intelligence. The program is for working geospatial intelligence professionals with more than two years of experience who are only able to participate part-time and at a distance, while maintaining full-time professional responsibilities. The curriculum integrates the geospatial information science and intelligence disciplines in a synergistic manner. All courses are instructor-led and online. Students devote approximately eight to twelve hours per week to each course. Although assignments are due weekly, students are free to study at their convenience. The program is well suited for the geospatial intelligence professional serving outside the continental US. All candidates are required to take the 3-credit foundations course, 6-credits of geospatial information science and technology courses, a 3-credit course in a geospatial intelligence area of the student’s interest, and a minimum of 1-credit of capstone work. Half of the credits must be at the 500- level or above.

Admission Requirements:
An applicant for the graduate certificate must have received, from a regionally accredited institution, a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. An entering student must have worked, anticipates working, or completed in a satisfactory manner course work in an area related to national security, law enforcement, or business. The student must be admitted to the: (1) Penn State’s Graduate School, (2) World Campus, and (3) Department of Geography. To apply, the student completes a single online application that provides the necessary information to each organization. In addition to completing the online application, transcripts must be submitted to the program by surface mail. The Geospatial Intelligence Program Admissions Committee reviews and ranks applications as they are received.

Prescribed Courses
GEOGRAPHY (GEOG)
483. Problem Solving with GIS (3)
882. Geographic Foundations of Geospatial Intelligence (3)

or

883. Remote Sensing for the Geospatial Intelligence Professional (3)

The Pennsylvania State University
Geriatric Nursing Education

Graduate Credit Certificate Program

Dr. Ann Kolanowski
School of Nursing
106 Health and Human Development East
Phone: 814-863-9901
Fax: 814-865-6625
E-mail: amk20@psu.edu

In conjunction with the Hartford Center of Geriatric Nursing Excellence, the Penn State School of Nursing offers a Geriatric Nursing Education Graduate Certificate program. The primary goal of the program is to prepare individuals with a current Master's degree in Nursing or a related health discipline to teach geriatric content at both the Associate and Baccalaureate degree levels. The curriculum includes 6 credits (two 3 credit courses) of didactic content in gerontology and 6 credits (two 3 credit courses) of didactic content in education. All four courses will be delivered using distance technology, and are currently available through the World Campus.

The Geriatric Nursing Education certificate program consists of four graduate-level courses (12 credits).

Admission Requirements

Applicants must hold a Master's degree in nursing or a related health discipline from a U.S. regionally accredited institution, or a Master's degree that is equivalent to a U.S. Master's degree from an officially recognized degree-granting international institution. The credit conditions for the Masters degree must be substantially equivalent to those required by Penn State’s Master's degree programs in nursing or related health disciplines. Copies of all undergraduate and graduate degree transcripts must accompany the application.

Prior to an applicant's admission, transcripts are evaluated by the Director of the Hartford Center in collaboration with the admissions committee to ascertain the applicant's potential for successful completion of the core nursing courses. A recommendation regarding admission is discussed with the Associate Dean for Graduate Education prior to making an offer of admission to this certificate program.

PRESCRIBED COURSES

NURSING (NURS)
522. Comprehensive Assessment of the Older Adult (3)
523. Interventions for Common Health Problems of the Older Adult (3)

ADULT EDUCATION (ADTED)
460. Introduction to Adult Education (3) AND

Health Sector Management

Graduate Credit Certificate Program

Dr. Janice L. Dreachslin
The School of Graduate Professional Studies
Penn State Great Valley
30 E. Swedesford Road
Malvern, PA 19355
Phone 610-648-3269
Fax 610-725-5224
E-Mail jdl13@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) Graduate Certificate program in Health Sector Management.

The program is designed to provide preparation for individuals who work or aspire to work in the health sector as administrators, managers, physicians, nurses, pharmaceutical representatives and scientists, and other health sector professionals. The program is designed to respond to the needs of professionals in health care provider organizations, third-party payors, biopharmaceutical organizations, and other organizations whose business is focused on the health sector including information technology, medical devices, benefits management, clinical research organizations, and consulting firms.

The curriculum emphasizes development of the knowledge, skills, and abilities necessary to understand and influence the dynamics of the health sector's business environment. The curriculum's broad focus considers business issues from the vantage points of multiple stakeholders to prepare students with a comprehensive understanding of the health sector. The program is designed to help students build a distinctive competence in health sector management that is relevant not only to managers and professionals employed by payor and provider organizations but also for those employed by biopharmaceutical, medical device, information technology, and other organizations that comprise the health sector. Required course work emphasizes the key dimensions of policy, financing, and organization in the health sector; critical analysis of current issues that health sector organizations face; as well as legal and ethical dimensions of decision making in the health sector. The cost, quality, access paradigm serves as an over-arching framework for study of current issues in the health sector including commercialization of biopharmaceuticals, information technology (IT) solutions, marketing, regulation, and quality improvement.

Content is grounded in research and best demonstrated practice and is both theoretical and applied, with an emphasis on practical application of knowledge gained.

This certificate program is attractive to individuals who desire advanced education in health sector management but who do not wish to pursue a master's degree at this time, as well as those interested in pursuing specialized knowledge of health sector management concurrent with a graduate degree program.

With program approval, the courses in this graduate certificate program may be applied to the Master of Business Administration program at Great Valley or, in the case of two courses in the certificate program (BUSAD 530 and BUSAD 534), to the Master of Leadership Development (MLD) program. This graduate certificate program also is valuable for individuals who already hold a master's degree and wish to update or expand their knowledge and skills.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.

Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average. Applicants holding a master's degree or doctoral degree should have attained at least a cumulative grade point average of 3.0 (B) in previous graduate work. Professional experience will be taken into consideration for admission.

Applicants should submit an online nondegree certificate application, available at http://www.gradsch.psu.edu/portal/gateway.html and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current resume, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants.

Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate may be applied to the Great Valley MBA, and two courses (BUSAD 530 and BUSAD 534) may be applied to the Great Valley Master of Leadership Development program.

- Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email cvadmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to a master's degree program and enrolls on a degree basis, certificate courses completed with a grade of B or better will be "transferred" into the program. Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

- Students who are already enrolled at Penn State in a master's degree program must make a new, separate online application to the certificate program. Certificate program courses will only apply to their master's program with adviser approval. Courses applied to the student's master's degree program must be completed with a grade of "B" or better.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission.

Curriculum

The graduate certificate program in health sector management requires a total of four 3-credit courses (12 graduate credits) as outlined below. One course is required (BUSAD 530), and three courses are electives selected from a list of four courses (BUSAD 534, 578, 835; H P A 836). Students completing each of the four 3-credit courses with a grade of B or better will be eligible to receive a graduate certificate.

Required Course (3 credits)

Business Administration (BUSAD)

530. Biotechnology and Health Industry Overview

Elective Courses (9 credits) (Choose 3 from the following 4 courses):

Business Administration (BUSAD)

534. Ethical Dimensions of Management in the Biotechnology and Health Industries
578. Managing Business Processes
835. Commercialization of Biopharmaceuticals
Health Policy and Administration (H P A)

836. Health Law

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Spring Semester 2012
Expiration Date: Fall Semester 2016

Human Resources and Employment Relations (HRER)

Graduate Credit Certificate Program
Dr. Paul F Clark
003 Keller Building
University Park, PA 16802
Telephone: (814)865-5425
Fax: (814)867-4169
E-Mail: pfc2@psu.edu

The program is designed for professionals who desire further education in the specialized field of Human Resources and Employment Relations (HRER) without completing a full master's degree. Many professionals and recent graduates believe they need further education beyond their bachelor's degree for personal and professional development and to compete effectively in the labor market for HRER practitioners. The certificate program provides flexibility for working professionals and advanced knowledge in the rapidly changing field of HRER in many areas, including: dispute management and resolution, workplace diversity, work and family, trends in human resources, and technology and the workplace. Upon successful completion of the certificate program, students may opt to apply for the master's degree in HRER.

Students must complete 9 credits.

Admission Requirements:
Admission to the program does not assume former knowledge of the field of HRER. An applicant must have received a valid bachelor's degree from a regionally accredited institution and have two years of full-time professional work experience. The following documentation must be submitted for evaluation prior to admission:

- A valid transcript demonstrating graduation from a baccalaureate degree program
- A one-page statement of purpose, focusing on educational and professional objectives
- A resume

List of Courses Included in the Certificate:

HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER)

504. Seminar in Employment Relations (3)
505. Seminar in Human Resources (3)

Select One Elective from the Course List below:

500. Topics in Comparative Industrial Relations (3)
501. Labor and Employment Law (3)
502. Organizations in the Workplace (3)
512. Research Methods in Human Resources and Employment Relations I (3)
513. Research Methods in Human Resources and Employment Relations II (3)
516. Labor Market Analysis (3)
536. Diversity in the Workplace (3)

Homeland Security and Defense

Graduate Credit Certificate Program
Dr. Jeremy Plant
Penn State Harrisburg
School of Public Affairs
Middletown, PA 17057
Phone: 717-948-6045
E-mail: jfp2@psu.edu

This 12-credit graduate certificate program is designed to provide students interested in the subject with a certificate to demonstrate knowledge of the Homeland Security and Defense system. Students will learn about the major legislation shaping homeland security policy, the interaction of key actors needed for successful homeland security and defense, and applications to the Commonwealth of Pennsylvania.

The certificate program is an attractive option for those who desire advanced education but do not wish a full Master's Degree program. It is also an attractive option for students who might wish to take a certificate to determine if they are interested in a complete degree program. For students in the i-MPS in Homeland Security, this would provide an additional credential. Finally, this certificate features classes that could serve as electives for current students at Penn State.

The curriculum consists of four required courses: P ADM 401 (Foundations of Homeland Security), P ADM 404 (Homeland Security and Defense in Practice), P ADM 802 (Collaboration and Integration: Multifaceted Approaches to Homeland Security), P ADM 803 (Strategic Planning and Organizational Imperatives in Homeland Defense and Security).

Admission Requirements
Applicants must present a baccalaureate degree from an accredited institution and must have a 3.0 or higher undergraduate grade point average.

PRESCRIBED COURSES:
12 credits

PUBLIC ADMINISTRATION (P ADM)

- 401. Introduction to Homeland Security (3)
- 404. Homeland Security and Defense in Practice (3)
- 802. Multifaceted Approaches to Homeland Security (3)
- 803. Strategic Planning and Organizational Imperatives in Homeland Defense and Security (3)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

E-mail: axr32@psu.edu

Individuals involved in the design and development of products for human use will find the program content immediately applicable to their job. With an emphasis on the application of user engineering design principles, the tools and methods to assess and enhance quality and productivity for both consumers and employees are provided. Applications include medical devices, consumer products, military systems, software design and the workplace. The program is comprised of three courses from the Penn State curriculum. These courses provide students with both a breadth and depth in their exposure to user engineering tools and principles.

Admission Requirements

An applicant must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. Graduates in engineering, physical sciences, and mathematics who present a 3.0 grade-point average will be considered for admission. International students must satisfy the Graduate School's English language requirement. Professional experience will be taken into consideration for admission. Exceptions to the minimum 3.0 grade-point average may be made for students with special backgrounds, abilities, and interests.

GRE scores are not required for nondegree graduate students. Individuals who wish to apply to the graduate degree program in Industrial Engineering must submit an application for admission, along with all of the required supporting documentation, including GRE scores. Completion of a graduate credit certificate at Penn State does not imply or guarantee admission to a graduate degree program.

PRESCRIBED COURSES (9 credits)

INDUSTRIAL ENGINEERING (I E)

- 479. Human Centered Product Design and Innovation (3)
- 553. Engineering of Human Work (3)
- 558. Engineering of Cognitive Work (3)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Information Systems Security

**Postbaccalaureate Credit Certificate Program**

Lead Certificate Chair:
Michael McNeese
Associate Dean for Research and Graduate Programs
mdm25@psu.edu
814-865-6170

This postbaccalaureate certificate program is designed to provide students or professionals with both a breadth and depth of training in information security. The certificate will enable those completing the program to market to academic institutions, government, and technology-based businesses.

Student will be exposed to principles, models, tools, and applications in information security that specifically focus on network security, security and risk management, digital forensics, crisis and disaster management, and web security and privacy. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option not only for those who desire advanced education but do not wish a full Master's Degree program, but also for students who might wish to take a certificate to determine if they are interested in a complete post-baccalaureate degree program in Information Sciences and Technology (IST). Up to 15 credits of coursework taken in non-degree status can count towards a graduate degree in IST.

To be awarded the Certificate, students must successfully complete 15 credits of graduate course work including IST 554, IST 515, and three of the following courses: IST 451, IST 454, IST 456, or IN SC 561.

**Admission Requirements**

An applicant must have received, from an accredited institution, a baccalaureate degree equivalent to those required by Penn State. A bachelor's degree in a related area (e.g., engineering and science), while not necessary for admission, is helpful in the successful completion of the certificate. It is expected that students will have a basic level of competency in computer language and information technology (related work experience can be used to demonstrate such competency). International students must satisfy the Graduate School's English language requirement.

GRE scores are not required for nondegree graduate students. Individuals who wish to apply to the graduate degree program in Information Sciences and Technology must submit an application for admission, along with all of the required supporting documentation, including GRE scores.

**Required Courses (6 credits)**

- IST 515. Information Security and Assurance (3 cr.)
- IST 554. Network Management and Security (3 cr.)

**Elective Courses** (Select 9 credits from the following courses or other courses as approved by the College)

- IST 451. Network Security (3 cr.)
- IST 454. Computer and Cyber Forensics (3 cr.)
- IST 456. Security and Risk Management (3 cr.)
- IST 564. Crisis, Disaster, and Risk Management (3 cr.)
- IN SC 561. Web Security and Privacy (3 cr.)

E-mail: jjc36@psu.edu

The primary goal of the program is to improve the skills of institutional researchers on college and university campuses. The curriculum includes research design, assessment and evaluation, and the integration of strategic planning with institutional finance. All candidates are required to take 18 credits of coursework (21 credits if Intro Statistics is needed).

Admission Requirements

An applicant must have received, from an accredited institution, a baccalaureate degree earned under resident and credit conditions substantially equivalent to those required by Penn State. Students are expected to have knowledge of introductory statistics. Students without a background in statistics will enroll in a statistics course online before commencing their coursework in the certificate program.

Investment Management

Graduate Credit Certificate Program

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone 610-725-5343
Fax 610-725-5224
Email sip14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in investment management.

The curriculum focuses on essential knowledge and skills in investment management related to financial markets; security valuation; portfolio theory and practices, including portfolio valuation and optimum portfolio allocation; fixed income markets and equity markets; and risk and return. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

The program is designed to help prepare students for positions in investment management including portfolio manager, investment adviser, and mutual fund manager, wealth manager, financial planner, private banking adviser, and mutual fund analyst. Individuals working or aspiring to work in the areas of specialized commodity funds, hedge funds, investment advice, performance evaluation, quantitative analysis in the money management sector, mutual funds, and pension funds will find this program valuable.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master's degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master’s degree program, as well as for professionals who already hold a master’s degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate program may be applied to the master’s degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email gvadmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, certificate courses completed with a B or better will be “transferred” into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate program in investment management requires a total of four courses (12 graduate credits). Three of the courses are required (FIN 531, FIN 506, and BUSAD 585), and the fourth course is an elective selected from a list of two courses (BUSAD 527 or FIN 508). Students completing each of the four courses with a grade of B or better will be eligible to receive a graduate certificate. All courses are 3 credits.

Prescribed Courses (9 credits)

Business Administration (BUSAD)

585. Research in Security Valuation (3 credits)

Finance (FIN)

506. Portfolio Theory and Policy (3 credits)
531. Financial Management (3 credits)

Elective Course: Choose one course from the following two (3 credits)

Business Administration (BUSAD)

527. Fixed Income Securities (3 credits)

Finance (FIN)

508. Analysis of Financial Markets (3 credits)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Fall Semester 2011

The Pennsylvania State University
Leadership in Elementary Science Teaching

Graduate Credit Certificate Program

Dr. Ravi Koul
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Telephone: 610-468-5250
Fax: 610-725-5253
E-mail: rxk141@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four course (12-credit) Post-Baccalaureate Certificate program in Leadership in Elementary Science Teaching which is designed for teachers who wish to improve their knowledge concerning the nature of science, science content, and science teaching.

Certificate program courses have been selected from the master of education program in Curriculum and Instruction emphasizing Science Education and are regularly offered at Penn State Great Valley. All science content courses in the program are designed to comply with Pennsylvania State Standards and were developed in collaboration with scientists at Penn State. They are designed to help teachers grasp essential science concepts and principles (related to physical, life, and environmental science) and to become more comfortable in teaching science. Science teaching courses promote better understanding of the nature, content, and process of science and the basic principles of science teaching, science process skills, inquiry, and assessment. Course participants develop both knowledge and leadership skills in enhancing the quality of student learning experiences. The research course is designed to help participants learn how to read, interpret, and conduct research. Through discussion, classroom activities, and hands-on projects, course participants can learn the process of qualitative and quantitative methods of inquiry and apply this knowledge to enhance the teaching and learning of science teaching in schools.

Four 3-credit courses are required (for total of 12 credits). Students complete one required Science Content course (3 credits), and one required Research course (3 credits) which may be selected from a choice of two. Students also select two Science Teaching courses (6 credits) from a selection of Science Education (SCIED) course offerings based on their backgrounds and interests. All course content in the certificate program provides a balanced mix of theory, research, and practical application in the topics. Students who complete the program with at least a 3.0 (B) average receive the Post-Baccalaureate Certificate in Leadership in Elementary Science Teaching.

Admission Requirements:

Individuals wishing to enroll in this post-baccalaureate certificate program must have a requisite combination of education and classroom teaching experience. They must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. They also should hold a minimum of an Instructional I Certification. Individuals who do not hold the Instructional I Certification should contact an adviser about enrollment options.

Applicants should complete and submit the online nondegree application and application fee and will enroll on a nondegree basis. For more information about how to apply on a nondegree basis, refer to http://grs.sch.psu.edu/prospective/apply.html. The program may be started in the fall, spring, or summer semesters.

The courses in this post-baccalaureate certificate program are applicable to the master's degree program in Curriculum and Instruction offered through the School.

Students who wish to have the certificate courses applied to the master's degree program in Curriculum and Instruction must be formally admitted to the master's degree program. Note that admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (610-648-3242) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, the certificate program courses completed with a grade of "B" or better will be "transferred" into the program.

Penn State's Graduate School permits up to 15 credits of course work taken on a nondegree basis to be applied to a graduate degree. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

Required Courses (12 Credits):

A. Science Content Course: Required (3 credits)

SCIENCE EDUCATION (SCIED)
457. Environmental Science Education

B. Research Course: Required (3 credits) - Choose one of the following two:

CURRICULUM AND INSTRUCTION (C I)
501. Teacher as Inquirer
400. Introduction to Research Literature

C. Two Science Teaching Courses (6 credits). Choose two of the following three or from other departmental offerings of 500-level graduate science education teaching courses:

SCIENCE EDUCATION (SCIED)
410. Using Technology to Enhance Science Teaching (3 credits)
551. History, Philosophy, and Sociology of Science and Science Teaching (3 credits)
559. Analysis of Instruction in Elementary Science Education (3 credits)

EFFECTIVE DATE: Summer Session 2009
EXPIRATION DATE: Spring Semester 2014

Last Revised by the Department: Fall Semester 2009
Blue Sheet Item#: 37-07-071
Review Date: 6/16/09

The Pennsylvania State University
The School of Graduate Professional Studies offers a three-course (9-credit) Graduate Certificate program in Literacy Strategies Across Content and Cultures. This program is designed for K-12 teachers of all disciplines and focuses on strategies for encouraging effective reading, writing, speaking, and thinking while teaching new concepts and linking prior knowledge. Attention is given to how culture and gender inform and influence learning and how to use these differences to enhance the learning experience.

In each content area, teachers will develop specific approaches to helping K-12 students learn to read better, write expressively, speak effectively, and think critically within and across content areas. The courses that comprise this certificate program have been selected from the graduate program in Curriculum and Instruction with an emphasis in Literacy and are regularly offered at Penn State Great Valley. Course content provides a balanced mix of theory, research and practical application in the topics. Students who complete the program with at least a 3.0 (B) average receive the Graduate Certificate in Literacy Strategies Across Content and Cultures.

**Admission Requirements**

Individuals wishing to enroll in this graduate certificate program must have a requisite combination of education and classroom teaching experience. They must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. They also should hold an Instructional I Certification. Individuals who do not hold the Instructional I Certification should contact an adviser about enrollment options.

Applicants should submit an online nondegree application and fee and, upon approval, will enroll in course work on a nondegree basis. For more information about how to apply on a nondegree basis, refer to [http://gradsch.psu.edu/prospective/apply.html](http://gradsch.psu.edu/prospective/apply.html). The program may be started in the fall, spring, or summer semesters.

With adviser approval, all three courses in the certificate program may be applied to the master’s degree program offered through the School of Curriculum and Instruction.

Certificate program students who wish to have the certificate courses applied to the master’s degree program must formally be admitted to the master’s degree program. Note that admission into the master’s degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (610-648-3242) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master’s degree program and enrolls on a degree basis, certificate courses completed with a “B” or better will be “transferred” into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

**Required Courses (6 credits)**

**LANGUAGE AND LITERACY EDUCATION (LL ED)**

501. Teaching Writing in Elementary and Secondary Schools (3 cr.)
541. Adolescent and Children's Literature Related to Ethnic and Social Issues (3 cr.)

**Elective Course: Choose one course from the following two (3 credits)**

**LANGUAGE AND LITERACY EDUCATION (LL ED)**

450. Content Area Reading (3 cr.)
500. The Reading and Writing Classroom (3 cr.)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirement when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Long-Term Care Administration and Policy

Graduate Credit Certificate Program

Dr. Steven A. Peterson
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4898
Phone: 717-948-6154
Fax: 717-948-6484
email: sap12@psu.edu

The Health Administration program at Penn State Harrisburg offers a Long-Term Care Administration and Policy graduate credit certificate program. This certificate program is designed for working long-term care administrators, professionals, and policy makers in for-profit, not-for-profit, and public organizations who need more knowledge and skills in long-term care administration and policy, as well as in long-term care systems and their relationship to and integration with health-care systems. Persons completing the program will receive a transcript notation attesting to their accomplishment.

The Long-Term Care Administration and Policy graduate credit certificate program consists of four Health Administration (H ADM) graduate-level courses (12 credits).

Admission Requirements

Applicants for the certificate program must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Additionally, applicants must have at least three years of professional experience.

All prospective graduate credit certificate students must apply using the Graduate School’s certificate application. Copies of all undergraduate and graduate degree transcripts must accompany the application.

Applicants admitted into the certificate program must have a master's degree or a 3.0 grade-point average in the last two years of undergraduate work. This requirement may be waived in exceptional circumstances. All courses must be taken for a letter grade. A 3.0 grade-point average in the certificate program courses is needed for the awarding of the certificate, and only grades of C or better will be counted toward the certificate.

If an applicant to the certificate program already holds a graduate degree in health care administration or a related field and has taken graduate courses that duplicate the content of courses in the certificate program, he or she may substitute other H ADM courses for those redundant courses with the prior approval of the person in charge.

PRESCRIBED COURSES

HEALTH ADMINISTRATION (H ADM)

- 542. Health Politics and Policy (3)
- 543. Long-Term Care Administration and Policy (3)
- 545. Health Financial Management (3)

ELECTIVE COURSES (select one)

HEALTH ADMINISTRATION (H ADM)

- 539. Health Systems Organization (3)
- 551. Health Care Law (3)
- 552. Health Delivery Systems: Managed Care (3)

Effective Date: Summer Session 2012
Expiration Date: Spring Semester 2017

Blue Sheet Item #: 41-04-149
Review Date: 1/15/2013

The Pennsylvania State University
Adult Education in the Health and Medical Professions

Graduate Credit Certificate Program

Dr. Elizabeth Tisdell
Dr. Edward W. Taylor
W330 Olmsted, Penn State Harrisburg
Phone: 717-948-6640
Fax: 717-948-6640
E-mail: ejt11@psu.edu; ewt1@psu.edu

The primary goal of the Graduate Certificate in Adult Education in the Health and Medical Professions is to assist medical/health professionals in increasing their knowledge and competence in educating adult learners in medical education/health science settings.

The objectives are to promote: awareness of how learning theory informs practice; effective methods for teaching adults; development of a reflective practice; understanding of program/instructional design.

Candidates are required to take 12 graduate credits, including the 9-credit core of three required classes and one other advisor-approved 3-credit graduate course related to the candidate’s specific area of interest. The required classes, in which assignments will relate to health/medical education issues, are:

ADTED 460: Introduction to Adult Education
ADTED 501: Foundations of Medical Education
ADTED 505: Teaching of Adults

The 3-credit graduate elective will be related to the candidate’s specific interest in medical/health education.

ADMISSION REQUIREMENTS

U.S. applicants must have a baccalaureate degree from a regionally accredited institution. International applicants must have a tertiary (post secondary) degree that is deemed comparable to a four-year U.S. bachelor’s degree. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Additionally, all international applicants must meet the Graduate School’s English proficiency requirements.

Applicants must submit the following materials:
* A one-page resume
* A statement describing professional goals, experience, and responsibilities (2 pages maximum)
* One letter of recommendation
* Official transcripts for all undergraduate and graduate programs previously attended.

LIST OF COURSES INCLUDED IN THE CERTIFICATE

The three required classes include the following and assumes that the candidate would relate a part of their papers or assignments to the areas of health or medical education:

ADTED 460: Introduction to Adult Education
ADTED 501: Foundations of Medical Education
ADTED 505: Teaching of Adults

The 3-credit graduate elective will be related to the candidate’s particular interest related to health or medical education, and could include other graduate courses in the Adult Education Program or another related area.

Effective Date: Summer Session 2010
Expiration Date: Spring Semester 2015

Nonprofit Administration

Graduate Credit Certificate Program

Dr. Triparna Vasavada
School of Public Affairs
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4898
Telephone: 717-948-6363
Fax: 717-948-6320
email: tbv1@psu.edu

The graduate credit certificate program in Nonprofit Administration is offered by the graduate program in Public Administration at Penn State Harrisburg. The certificate is designed for administrators and professionals in government and not-for-profit organizations who need to acquire additional knowledge and skills in the following areas:

- Management of nonprofit organizations and leadership
- In-depth understanding of nonprofit organizations' evolution, current operation, and future direction
- Understanding of finance, taxation, and competition that affect an organization's future
- Working in the nonprofit sector

Admission Requirements

1. An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.
2. Applicants must have a GPA of 3.0 in the last two years of undergraduate work.
3. Applicant must have at least two years of managerial or administrative experience in the nonprofit sector.

Participants will apply to the program by completing the online Graduate School certificate application, including payment of the application fee, and will earn the certificate upon successful completion of the three required courses and one elective course (12 credits). All courses must be taken for a letter grade with at least a 3.0 average maintained; no grades below a C will be counted toward the certificate.

If a student who is already enrolled in a graduate degree program wishes to enroll in this graduate credit certificate program as well, he/she must do so by completing the online certificate application and paying the application fee.

Students who are already enrolled in the Public Administration degree program at Penn State Harrisburg must complete a “Notice of Intent” form as well in order to enroll in the certificate program. These students can choose elective courses for their MPA degree program in accordance with the requirements of the certificate program in order to earn the certificate in Nonprofit Administration.

The certificate program consists of four graduate courses (12 credits). All courses must be at the 500 level. Students are required to take three required courses and one elective course of their choice.

PRESCRIBED COURSES

PUBLIC ADMINISTRATION (P ADM)

- 517. Nonprofit Organizations: History and Evolution (3)
- 518. Nonprofit Organizations: Management and Leadership (3)
- 519. Nonprofit Organizations: Resource Development and Management (3)

Elective Courses: (choose one)

Students are required to take one elective 3-credit course. Students are free to choose any 3-credit course at the 500 level that is relevant to their interest. Following is the suggested list of courses from which students can choose.

PUBLIC ADMINISTRATION (P ADM)

- 510. Organization
- 514. Public Organization and Managerial Consultation
- 516. Strategic Planning
- 522. Government Financial Management
- 523. Governmental and Nonprofit Accounting
- 550. Program Planning and Evaluation

Effective Date: Summer Session 2012
Expiration Date: Spring Semester 2017
Last Revised by the Department: Fall Semester 2012

Policy Analysis and Evaluation

Graduate Credit Certificate Program

Dr. Goktug Morcol
School of Public Affairs
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4898
Phone: 717-948-6126
Fax: 717-948-6320
email: gmorcol@psu.edu

The primary goal of the program is to prepare policy analysts and policy/program evaluation specialists who work for governments and not-for-profit organizations for professional analytical tasks. The 12-credit curriculum is designed to educate students in multiple aspects of the policy analysis and evaluation profession: general concepts in the policy analytic literature, decision making, planning, program evaluation, and issues in a public policy area of the student’s choice. The credits earned for the certificate may be applied toward a Master of Public Administration (MPA) degree in Public Administration at Penn State Harrisburg. However, successful completion of the certificate neither implies nor guarantees admission to a graduate degree program at Penn State. To successfully complete the certificate program a student must maintain 3.0 cumulative grade-point average; no course with a grade of lower than a C will count toward the certificate.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students who are already enrolled in the MPA program at Penn State Harrisburg and wish to enroll in the certificate program must complete the online Graduate School certificate application and pay the application fee just as any other certificate applicant would. They should also complete the Notice of Intent form and submit it to the program administration.

Prerequisite

PUBLIC ADMINISTRATION (P ADM)

- 503. Research Methods (3)

Prescribed Courses

PUBLIC ADMINISTRATION (P ADM)

- 507. Introduction to Public Policy Analysis (3)
- 535. Policy Analysis and Planning (3)
- 550. Policy and Program Evaluation (3)

Elective Course

One graduate-level 3-credit course in a substantive public policy area of student’s choice (e.g., health care, criminal justice, economic development, transportation, national security, welfare, education, environmental policy). Students must consult with and obtain the consent of the program coordinator when selecting this elective course.

Project Management

Graduate Credit Certificate Program

Dr. Jeffrey K. Pinto, Professor of Management
Sam and Irene Black School of Business
Penn State Erie, The Behrend College
5091 Station Road
Erie, PA 16563-1400
Fax: 814-898-6223
E-mail: jkp4@psu.edu

Delivering complex projects on time and under budget is a daily challenge for most corporations. More organizations now use project-based methods to accomplish these tasks, resulting in increased demand for project managers. The online Graduate Certificate in Project Management is an interdisciplinary, 12-credit program that uses problem-based learning to provide a strong foundation in project management theory and practice. The program is offered by the AACSB Accredited Sam and Irene Black School of Business and Penn State is a Project Management Institute (PMI®) Registered Education Provider (R.E.P), making this certificate a well-respected credential. In addition to being an excellent stand-alone credential, all of the courses in the Graduate Certificate in Project Management can be applied toward the Master of Project Management degree program also offered through Penn State’s World Campus. Approval to apply nondegree graduate credits toward a degree program must be granted by the student's academic adviser, the program head or graduate officer, and the Graduate School. A maximum of 15 credits earned as a nondegree student may be applied to a degree program.

Admission Requirements

Only candidates who demonstrate high promise of success for graduate work are admitted to the program. All applicants must have received from a regionally accredited institution a baccalaureate degree earned under residence and credit conditions that are deemed substantially equivalent to those currently required by Penn State. Admission decisions are based on undergraduate grade-point average, Graduate Management Admission Test (GMAT) scores, and a personal essay.

Applicants must achieve a minimum GMAT score of 450. When this score is added to the applicant’s undergraduate grade-point average, multiplied by 200, the total must be at least 1,050 in order to meet minimum requirements for admission to the MPM program. Either the applicant's cumulative undergraduate grade-point average or the junior/senior grade-point average can be used for this calculation. Applicants must also demonstrate proficiency in writing by obtaining at least a 4.0 on the analytical writing assessment portion of the GMAT, or by earning a grade of B or higher in a college English composition course. The MPM program emphasizes application of course concepts to actual project management opportunities and problems. Therefore, students who currently are, or previously were, employed as project managers or project team members will derive the greatest benefit from the program. All applicants must provide evidence of sufficient current or previous work experience that will enable them to successfully complete course assignments requiring the application of course concepts to real project management situations. This evidence may be provided in either the form of three letters of recommendation from individuals who know the applicant in a professional capacity or through nomination to participate in the program by an appropriate official within the applicant's employing organization. Those who write letters of recommendation or submit nominations on behalf of the candidate will be asked to attest to the nominee’s suitability for the program of study considering factors such as the applicant's length of employment, level and areas of work responsibility, personal qualities, career goals, maturity of purpose, and program requirements to apply course concepts to work-related issues. Applicants are encouraged to consult with the program chair concerning the suitability of their work experiences in relationship to program requirements.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All students must be computer literate and have ready and reliable access to a computer and the Internet to successfully complete the MPM program. They must know how to use word processing software, log on to an Internet provider, and use e-mail. Additionally, MPM students will use Microsoft Office in their coursework that will require they have a working knowledge of Microsoft Office programs such as Word, Excel, Power Point, and Access. Access to fax facilities may be needed as an additional form of communication between student and instructor or between students.

COURSES

Students complete MANGT 510, Project Management (3), in their first semester of study and three additional courses from the following list for a total of 12 credits.

MANAGEMENT (MANGT)

- 515. Cost and Value Management (3)
- 520. Planning and Resource Management (3)
- 525. Commercial and Procurement (3)
- 531. Organizations (3)
- 535. Interpersonal and Group Behavior (3)
- 540. Strategy: Corporate, Business and Project (3)

MANGT 515 through 540 may be taken either concurrently or subsequently with MANGT 510.

The certificate program in Public Budgeting and Financial Management is offered by the graduate program in Public Administration at Penn State Harrisburg.

The purpose of this certificate is to provide administrators and professionals in government and not-for-profit organizations an opportunity to acquire knowledge and skills in the following areas:

- fiscal and governmental aspects of budgeting and financial management
- development of organizational budgets
- governmental and not-for-profit accounting

Participants earn a certificate in Public Budgeting and Financial Management from Penn State Harrisburg upon successful completion of the three required courses (9 credits); all courses must be taken for a letter grade with at least a 3.0 average maintained, and no course with a grade of lower than C will count toward the certificate.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

An applicant must also have at least two years of managerial or administrative experience in a governmental or not-for-profit organization.

Participants will apply for the program by submitting a completed Graduate School certificate application and application fee.

PREScribed Courses

PUBLIC ADMINISTRATION (P ADM)

- 502. Governmental Fiscal Decision-Making (3)
- 522. Government Financial Management (3)
- 523. Governmental and Not-for-Profit Accounting (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Public Health

Graduate Credit Certificate Program

Roger T. Anderson, Ph.D., Professor, Public Health Sciences; Chief, Division of Health Services Research; Director, Penn State Master of Public Health (MPH) Program

Penn State College of Medicine
Department of Public Health Sciences
A210 - 600 Centerview Drive
Suite 2200
Hershey, PA 17033
Telephone: 717-531-1502
Fax: 717-531-4399
E-Mail: mphprogram@phs.psu.edu

The purpose of the graduate certificate in Public Health is to provide students with foundational graduate-level coursework in public health. The five-course, 15-credit curriculum can be completed in two semesters. All coursework will be at the 500-level or above. Certificate coursework may be transferable to the Penn State Master of Public Health (MPH) graduate degree program should a student wish to continue public health training at the graduate level. Upon completion of the Public Health certificate, students will be able to:

1. Demonstrate their knowledge in the five core areas of public health, which include biostatistics, environmental health sciences, epidemiology, health services administration, and social and behavioral sciences.
2. Apply their knowledge and skills to solving public health problems.

Admission Requirements:

Applicants must meet the following admissions standards:

- An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.
- The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.
- International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants must submit the following items with their application for admission to the Public Health certificate program:

- One official transcript from each institution of higher education attended.
- Resume/CV
- Statement of Purpose or Rationale for seeking a Graduate Certificate in Public Health
- Two letters of recommendation

Admission decisions are made by a faculty committee and are based on the quality of the applicant’s professional and academic accomplishments. Upon approval, certificate program students will enroll in coursework on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

All five courses in the certificate program may be applied to the Penn State Master of Public Health (MPH) degree program. Students must earn a grade of B or better for a course to be applied to the MPH degree program. Certificate program students who wish to have the certificate courses applied to the Penn State MPH degree program must formally apply and be admitted to the Penn State MPH degree program. Admission into the Penn State MPH degree program is a separate step and is not guaranteed. Students who are interested in the Penn State MPH degree program should contact the program at 717-531-1502 or mphprogram@phs.psu.edu, or visit www.mphprogram.psu.edu. Once a certificate program student is admitted to the Penn State MPH degree program and enrolls on a degree basis, certificate courses completed with a B or better will be "transferred" into the program.

List of Courses Included in the Certificate:

PUBLIC HEALTH (PHS)

504. Behavioral Health Intervention Strategies (3) or BB H 504: Behavioral Health Intervention Strategies (3)
520. Principles of Biostatistics (3)
542. Environmental Health Sciences (3)
550. Principles of Epidemiology (3)
571. Health Services Organization and Delivery (3) or H P A 520. Introduction to U.S. Health Services Organizations and Delivery (3)

This graduate certificate program is designed to provide non-science students with broad training in the field of public health preparedness. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option for those who desire advanced graduate training but do not require the full Master Degree program. It is also ideal for students who wish to move into the degree program once all admissions requirements are fulfilled (e.g., GRE).

The curriculum consists of Public Health Preparedness for Disaster and Bioterrorism Emergencies I and II (PHP 410 and PHP 510; 6 credits), Public Health Evaluation of Disasters and Bioterrorism (PHP 527; 3 credits), and Critical Infrastructure Protection of Health Care Delivery systems (PHP 530; 3 credits).

ADMISSION REQUIREMENTS

All applicants must have received from a regionally accredited institution a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. All applicants are expected to have a 3.0 or higher undergraduate grade point average. Applicants whose native language is not English must provide evidence of proficiency in English with a minimum TOEFL score of 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Three letters of recommendation are required. Special backgrounds, abilities, and interests related to homeland security are desirable.

COURSES

PUBLIC HEALTH (PHP)

PHP 410. Public Health Preparedness for Disaster and Bioterrorism Emergencies I (3)
PHP 510. Public Health Preparedness for Disaster and Bioterrorism Emergencies II (3)
PHP 527. Public Health Evaluation of Disasters and Bioterrorism (3)

Public Sector Human Resources Management

Graduate Credit Certificate Program

Dr. Bing Ran
School of Public Affairs
Penn State Harrisburg
777 W. Harrisburg Pike
Middletown, PA 17057-4898
Phone: 717-948-6057
Fax: 717-948-6320
email: bur12@psu.edu

The graduate credit certificate program in Public Sector Human Resources Management is offered by the Public Administration program at Penn State Harrisburg.

The certificate is designed for administrators and other professionals in government and not-for-profit organizations who need to acquire additional knowledge and skills in the following areas:

- personnel/human resource management
- labor relations
- problem solving
- planning
- management of organizational change and development

The certificate program in Public Sector Human Resources Management requires taking four courses (12 credits) -- two required and two elective courses.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A Graduate School certificate application must be completed and submitted with copies of all undergraduate degree transcripts.

Successful applicants typically have a 3.0 grade-point average in the last two years of undergraduate work.

Applicants who have graduate degrees in public administration or a related field, and who have taken graduate courses that duplicate the content of courses in the certificate program, may substitute other P ADM courses for those courses with the prior approval of the person in charge. Graduate transcripts, course syllabus, and course projects/term papers will be needed for this evaluation process. Some certificate courses may be used toward completion of the master's degrees in Public Administration and in Health Administration but completion of a certificate neither implies nor guarantees acceptance into a graduate degree program at Penn State.

PRESCRIBED COURSES

PUBLIC ADMINISTRATION (P ADM)

*505. Personnel Management: Public and Nonprofit Sectors (3)
510. Organizational Behavior (3)

*Note: MNGMT 505 may be substituted for these courses.

ELECTIVE COURSES (select two)

PUBLIC ADMINISTRATION (P ADM)

511. Organizational Change and Development (3)
512. Issues in Human Resources (3)
514. Public Organization and Managerial Consultation (3)
515. Labor Management Relations (3)
516. Strategic Planning (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Supply Chain Management

Graduate Credit Certificate Program

Dr. John E. Tyworth
454B Business Building
University Park, PA 16802
Telephone: 814-865-1866
Fax: 814-863-7067
E-mail: jet@psu.edu

The primary goal of the program is to prepare supply chain professionals to manage value-creating supply chain networks that modern business enterprises employ to acquire, produce, and deliver goods and services on a global scale. Students learn how to analyze and manage core business processes including sourcing and procuring raw materials, supplies and components and planning and fulfilling customer demand. All candidates are required to complete with a passing grade the three prescribed 800-level, 4-credit courses to earn the certificate.

Admission Requirements

The curriculum is designed for working supply chain management professionals. Accordingly, successful applicants will normally have, before the start of their first semester, at least two years’ post baccalaureate work experience in supply chain management or a closely allied field.

An applicant must have received, from a regionally accredited institution, a baccalaureate degree under residence with credit conditions substantially equivalent to those required by Penn State. Additionally, the applicant’s baccalaureate degree should be in business, engineering, economics, information sciences, or a related field and the applicant should have completed a college-level course in microeconomic principles.

To assure a smooth transition into the curriculum prospective students should have Microsoft Office Excel skills, knowledge of business statistics, and an understanding of basic accounting and microeconomic terms and principles.

Required Courses

SUPPLY CHAIN MANAGEMENT (SCM)

- 800. Supply Chain Management (4)
- 810. Transportation and Distribution (4)
- 820. Strategic Procurement (4)

Effective Date: Summer Session 2011
Expiration Date: Spring Semester 2016
Last Revised by the Department: Fall Semester 2011
Blue Sheet Item #: 40-04-200
Review Date: 01/10/2012
The School of Graduate Professional Studies at Penn State Great Valley offers a four course (12-credit) Graduate Certificate program in Sustainable Management Practices. The primary goal of this certificate program is to prepare individuals to design, implement, and evaluate new or existing sustainable practices in their organizations. Sustainability in this context refers to the operational policies and practices that seek to maximize not only the economic, but also the social (employees, community) and environmental (physical) outcomes of an organization.

Twenty-first century organizations interested in competitive advantage and long-term survival must implement sustainable management practices into their firms' core operations. The courses required in this certificate program will ground students in the complex social, economic, political, technological, cultural, and demographic trends that influence organizational stakeholders. Students will be introduced to decision models that account for the interconnected nature of all organizational systems, and learn to build mutually beneficial alliances and partnerships with all relevant stakeholders.

The curriculum is designed to address concepts relevant to issues of sustainable management (products/services/organizations) and organizational sector (public, non-profit, private). The certificate program will develop students' critical capacities for reflection and action based upon a systems thinking framework, with respect to the social, environmental, and organizational sustainability challenges facing business leaders. Curriculum highlights pertinent research and practices from the fields of accounting, finance, economics, marketing, and operations to introduce students to value creation strategies inherent in sustainable tools and techniques. Course content is designed to provide a balanced mix of theory, research, and practical application in the topics.

This certificate program is attractive to individuals who desire advanced education in sustainable management practices but who do not wish to pursue a master's degree at this time, as well as those interested in pursuing specialized knowledge of sustainable management practices concurrent with a graduate degree program. With program approval, the courses in the certificate program may be applied to the Master of Business Administration degree program. This graduate certificate program also is valuable for individuals who already hold a master's degree and wish to update or expand their knowledge and skills.

**Admission Requirements**

Individuals wishing to enroll in this graduate certificate program must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international and are expected to have achieved a 3.0 (B) or higher undergraduate grade point average. Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 (B) in previous graduate work. Professional experience will be taken into consideration for admission.

Applicants should submit an online nondegree certificate application, available at http://www.gradsch.psu.edu/portalgateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current resume, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate program may be applied to the Master of Business Administration degree program at Penn State Great Valley.

- Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email gvidmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to a master's degree program and enrolls on a degree basis, certificate courses completed with a grade of B or better will be "transferred" into the program. Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

  - Students who are already enrolled at Penn State in a master's degree program must make a new, separate online application to the certificate program. Certificate program courses will only apply to their master's program with adviser approval. Courses applied to the student's master's degree program must be completed with a grade of "B" or better.

**International Applicants**

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

**Curriculum**

The graduate certificate program in sustainable management practices requires a total of four 3-credit courses (12 graduate credits). One of the courses is required (BUSAD 802), and three courses are electives selected from a list of five courses (BUSAD 582, BUSAD 809, BUSAD 824, BUSAD 879, and SYSEN 507). Students completing each of the four 3-credit courses with a grade of B or better will be eligible to receive a graduate certificate.

**Prescribed Course (3 credits)**

**Business Administration (BUSAD)**

802. Cornerstones of Sustainability (3 credits)

**E elective Courses (9 credits) (Choose 3 from the following 5 courses)**

**Business Administration (BUSAD)**

582. Social Entrepreneurship and Community Leadership (3 credits)

809. Triple Bottom Line Accounting (3 credits)

824. Finance and Investment for Sustainable Growth (3 credits)

879. Sustainable Products and Service Development (3 credits)

**Systems Engineering (SYSEN)**

507. Systems Thinking (3 credits)
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Spring Semester 2012
Expiration Date: Fall Semester 2016

E-Mail: sah4@psu.edu

The Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL) is designed for candidates holding a baccalaureate degree with little or no previous experience teaching adult English language learners either in the US or abroad. Candidates are required to take four 3-credit graduate level courses that contain integrated practical field experiences that enable candidates to gain essential knowledge, skills, and dispositions for teaching adult English language learners in diverse contexts throughout the world.

Admission Requirements
Candidates must have received either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution with a minimum GPA of 3.0 on a 4.0 scale.
International candidates must have a minimum TOEFL score of 600 (paper-based), 250 (computer-based), or 100 (internet-based) with a 23 on the oral section.

List of Courses Included in the Certificate:
APPLIED LINGUISTICS (APLNG)
802 FOCUS ON ENGLISH: TEACHING FORM, MEANING & USE (3)
804 FOCUS ON LEARNERS: IDENTITY, COMMUNITY & LANGUAGE LEARNING (3)
806 FOCUS ON CLASSROOMS: PLANNING & SUPPORTING LANGUAGE LEARNING (3)
808 FOCUS ON INSTRUCTION: TEACHING & ASSESSING LANGUAGE LEARNING (3)

Capstone experience: Professional e-portfolio that draws upon aspects of course work that demonstrate achievement of all program goals and can be used when applying for teaching positions around the world.

The Pennsylvania State University
Workplace Learning and Performance Improvement Design

Graduate Credit Certificate Program

Dr. Doris Lee
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone: 610-725-5250
Fax: 610-725-5253
E-mail: ydl1@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four course (12 credit) Graduate Certificate program in Workplace Learning and Performance Improvement Design. The primary goal of this certificate program is to provide professionals with the knowledge and skills needed to successfully create learning and performance improvement initiatives/interventions in their organizations.

The courses in the program have been selected from the graduate program in Instructional Systems and focus on essential knowledge, critical thinking skills, and effective problem-solving strategies as they relate to the design, development, implementation, and evaluation of learning and performance improvement solutions in corporate, educational, and nonprofit organizations. These courses are taught at the graduate level, and content provides a balanced mix of theory, research, and practical application in the topics. Students who complete the program with at least a 3.0 (B) average receive the Graduate Certificate in Workplace Learning and Performance Improvement.

Admission Requirements:

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants should complete and submit the online nondegree application and application fee and will enroll on a nondegree basis. For more information about how to apply on a nondegree basis, refer to http://gradsch.psu.edu/prospective/apply.html. The program may be started in the fall, spring, or summer semesters.

The courses in this graduate certificate program are applicable to the master's degree program in Instructional Systems offered through the School. Certificate Program students who wish to have the certificate courses applied to the master's degree program in Instructional Systems must be formally admitted to the master's degree program. Note that admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (610-648-3242) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, the certificate program courses completed with a grade of "B" or better will be "transferred" into the program.

Penn State's Graduate School permits up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

Required Courses (12 Credits)

INSTRUCTIONAL SYSTEMS (INSYS)

415. Systematic Instructional Design (3 credits)
521. Instructional Systems Analysis (3 credits)
551. Performance Technology (3 credits)
553. Managing and Consulting for Instructional Development (3 credits)

This Writing Instruction Specialist Certificate is a 15-credit program designed to serve the continuing educational and professional development needs of educators and other professionals in writing and writing instruction. The program is grounded in ongoing changes in theory and instructional practices in writing, and changes in the requirements for continued education and professional development of teachers. Completion of the program will prepare professionals to provide specialized assistance in composition and to serve as a resource on writing pedagogy. Students must earn a B or higher in each course that counts toward the certificate program.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree or a Master of Arts degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

To be considered for admission into the certificate program, applicants must have a master’s degree or a 3.0 grade-point average in the last two years of undergraduate work. This requirement may be waived in exceptional circumstances.

PRESCRIBED COURSES

ENGLISH (ENGL)
- 409. Composition Theory and Practice for Teachers (3 credits)
- 507. English Composition Studies (3 credits)
- 553. Literacy Studies (3 credits)
- 584. Studies in Rhetoric (3 credits)

EDUCATION (EDUC)

Fax: 814-865-7066
e-mail: rjh29@psu.edu

Description of the Certificate Program Including Purpose, Objectives, and Total Number of Credits Required:

The purpose of this program is to provide a current knowledge and skills base to those working with children and adolescents experiencing family problems, addiction, depression, sexuality, suicide, and numerous other concerns. The plan of study is composed of 15 credits to be completed within three years (four required 3-credit courses and one 3-credit elective). Applicants with a master’s degree or higher in counseling, psychology, social work, marriage and family, or a clearly related degree that will qualify them to perform professional counseling duties can use this professional development certificate to strengthen their professional credentials. Applicants holding a baccalaureate degree from a regionally accredited undergraduate institution as their highest degree may use this certificate to support their work setting (e.g., teaching, college student affairs, human resources, personnel work), but it will not qualify them to perform professional counseling duties.

Admission Requirements:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants seeking admission into the Providing Services to Youth At Risk Certificate Program must complete the Graduate School Certificate Application (indicate “certificate” in the Graduate Degree Sought Area) and pay the application fee. This certificate is not a formal part of a graduate degree program at Penn State and does not presume admission to such a program. The web-based Graduate School Certificate Application is available at: http://www.gradsch.psu.edu/prospective/apply.html.

PRESCRIBED COURSES: 12 credits

COUNSELOR EDUCATION (CN ED)

- 422. Foundations of Addictions Counseling (3)
- 430. Couples and Family Counseling (3)
- 431. Counseling and Teaching Youth at Risk (3)
- 432. Ethical, Legal, and Professional Issues in Counseling (3)

ELECTIVE COURSES: 3 credits

Three (3) elective credits that emphasize work with youth at risk are required. Courses must be selected in consultation with a program adviser.

Effective Date: Summer Session 2012
Expiration Date: Spring Semester 2017
