Faculty linked: 8/14/14
Communication Sciences and Disorders (CSD)

The Program
The goals of the program in Communication Sciences and Disorders are to train professionals to conduct research and be consumers of research in communication sciences and disorders and to prepare competent professionals to habilitate and rehabilitate individuals who have speech, language, and/or hearing problems. The program also serves to provide students in other curricula at Penn State with orientation toward and information about communication sciences and disorders.

Facilities for student training and research include in-house clinical therapy and diagnostic services, laboratories in speech science and audiology, and affiliated schools and clinics. The program enjoys academic, research, and clinical relationships with a number of related programs at Penn State and draws upon academic work from related areas as part of the graduate training in communication sciences and disorders. Preparation is given for school and professional certifications and licensure. The CSD academic program is accredited by the Council of Academic Affairs of the American Speech-Language-Hearing Association. Master's-level graduate study requires a full-time externship experience, ordinarily occurring during the final semester of study.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Approximately 35 credits are required for admission, distributed among speech pathology, audiology, speech science, education, and psychology, and including a course in statistics. Students entering without an undergraduate degree in CSD will be required to take additional make-up work.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Usually students earn a master's degree in communication sciences and disorders prior to being considered for doctoral study, although persons with master's degrees in other fields will be considered for a doctoral program.

Master's Degree Requirements
The master's degrees require a minimum of 50 graduate credits beyond admission standards. Students usually earn 55 to 65 credits to complete a degree, over four semesters and a summer of study.

There is a nonthesis option for the Master of Science degree, requiring a paper and additional course credits in lieu of a thesis. The master's program of study provides course work and practicum for advanced and/or professional-level licensure.

Doctoral Degree Requirements
The Doctor of Philosophy degree normally requires a master's degree in communication sciences and disorders or a related field, plus a minimum of two years of advanced study, and presentation and oral defense of a research-based dissertation.

The communication and foreign language requirement is a minimum of 6 credits of statistics beyond the first course, plus 9 credits selected from among statistics, technical writing, computer science, research design, or a foreign language.

Two research exercises, one of which is used for doctoral candidacy evaluation early in the doctoral program, are required prior to the dissertation. Comprehensive written examinations in the areas of a student's interest and an optional minor field examination, plus an oral examination prior to dissertation, are required.

Details of a student's doctoral program are determined by the doctoral committee.

Dual-Title Ph.D. Degree in Communication Sciences and Disorders and Language Science
Graduate students with research and educational interests in language science may apply to the Communication Sciences and Disorders and Language Science Degree Program. The goal of the dual-title degree in Communication Sciences and Disorders and Language Science is to enable graduate students from Communication Sciences and Disorders to acquire the knowledge and skills of their major program of specialization in Communication Sciences and Disorders, while at the same time gaining the perspective of the various disciplines contributing to the study of language science.

Admission Requirements
For admission to the dual-title degree under this program, a student must first apply and be admitted to the Communication Sciences and Disorders graduate program and the Graduate School. Students considered for admission to the doctoral program have a Masters program GPA above 3.0/4.0, outstanding letters of recommendation, a written statement of scholarly interests and goals, and have completed the GRE. New graduate students in Communication Sciences and Disorders will receive information about the Language Science dual-title program, and may discuss their interest with one or more Language Science faculty in the Department of Communication Sciences and Disorders, in order to obtain a recommendation for admission to the Language Science program. Once accepted into the Communication Sciences and Disorders program, and with a recommendation from a Language Science program faculty member in that department, the student may apply to the dual-title Ph.D. program in Communication Sciences and Disorders and Language Science by submitting a letter describing the student's interest in the program. The student's letter will be forwarded to the program director in Linguistics Program, and the center's faculty member within the Center for Language Science. All applicants are selected for admission based on the recommendation of this committee. The student will be admitted to the dual-title degree program in Language Science. The admission requirements of the Language Science dual-title Ph.D. program are that the student must meet the admission requirements of the Graduate School and the major department. The admission requirements of the doctoral program in Communication Sciences and Disorders listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the Communication Sciences and Disorders program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Language Sciences program committee. Within this framework, final course selection is determined by the student and their Communication Sciences and Disorders program advisor.

The doctoral degree in Communication Sciences and Disorders and Language Sciences is awarded only to students who are admitted to the Communication Sciences and Disorders doctoral program and admitted to the dual-title degree in Language Science. The minimum requirements for the dual-title Ph.D. degree in Communication Sciences and Disorders and Language, in addition to the Communication Sciences and Disorders requirements are as follows:

Course Work: 21 credits of 500-level courses

- 6 credits: LING 521 Proseminar in the Language Science of Bilingualism
- LING 522 Proseminar in Professional Issues in Language Science

Research Methods/Statistics in Language Science:
- LING 525 Experimental Research Methods in Psycholinguistics
- PSY 507 Analysis of Psychological Data I
- PSY 508 Analysis of Psychological Data II

3 credits in Theoretical Linguistics
- LING 500 Syntax II
- LING 504 Phonology II

3 credits in Cognitive Neuroscience or Psycholinguistics
- LING 520 Seminar in Psycholinguistics
- PSY 511 Seminar in Contemporary Psychology
- PSY 520 Seminar in Psycholinguistics

3 credits in Cognitive Neuroscience or Psycholinguistics
- LING 520 Seminar in Psycholinguistics

6 credits in Research Internships
These internships will provide experience in the conduct of research; at least one internship must be with a mentor other than the student’s dissertation advisor. (Students will choose one course among the following CSD 596, GER 596, LING 596, PSY 596, SPAN 596).

Particular courses may satisfy both the Communication Sciences and Disorders requirements and those in the Language Science dual-title program. Final course selection is determined by the student in consultation with their doctoral advisor and committee. In most cases, the number of total credits earned by a dual-title student will be from 6-12 more than those normally earned by a student in Communication Sciences and Disorders. Some courses which meet Language Science requirements (e.g., theoretical linguistics, neuroscience, psycholinguistics) may also fulfill the Communication Sciences and Disorders requirements for a related area outside the department; however, dual-title students are not required to count any particular Language Science requirement as their outside area. Dual-title students who choose an outside content area not related to Language Science will require more time to complete their program.

Students are expected to participate in weekly Language Science Research meeting each semester in residence.

**Student Aid**

Student Aid Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the [STUDENT AID](#) section of the *Graduate Bulletin*.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**COMMUNICATION SCIENCES AND DISORDERS (CSD) course list**

Last Revised by the Department: Spring Semester 2010
Blue Sheet Item #: 38-07-006
Review Date: 06/22/2010
Faculty linked: 6/5/14

The Pennsylvania State University
Computer Science and Engineering (CSE)

RAJ ACHARYA, Head of the Department
111 Information Sciences and Technology Building
814-865-9505

Degrees Conferred:
Ph.D., M.S., M.Eng.

The Graduate Faculty

The Program

The department offers courses and is prepared to direct research in a variety of subfields of computer science and engineering, including VLSI, computer architecture, parallel/distributed processors and processing, multiprocessors, interconnection networks, pattern recognition and image processing, performance evaluation, reliability, fault tolerance, theory of computation, computer systems, numerical analysis and optimization, programming methodology, and analysis of algorithms. Research and instruction are supported by extensive computing facilities within the University's Information Technology Services and by the computer laboratories operated by the department.

For information about areas of specialization, laboratory and research facilities, fellowships assistantships, and other sources of financial assistance, please refer to our Web site: www.cse.psu.edu.

Admission Requirements

All applicants must provide a one-page statement of purpose and scores from the Graduate Record Examinations (GRE) Aptitude Test (verbal, quantitative, and analytical). A subject test in the GRE is not required, but the subject test in Computer Science is recommended. Those students seeking an assistantship in Computer Science and Engineering ARE REQUIRED to submit a Test of Spoken English (TSE) or the TOEFL IBT. A score of 26 on the speaking section of the TOEFL IBT is equivalent to passing the TSE. A lower score would require remedial English as a Second Language courses. For score reporting for TOEFL and TSE, our institution code is 2660 and our department code is 78.

English Proficiency--The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the Internet-based test. The minimum composite score for the IELTS is 6.5. Specific graduate programs may have more stringent requirements.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Specific graduate programs may require all international applicants to submit a TOEFL or IELTS score, regardless of their academic background and country of origin.

Information about the TOEFL can be obtained by writing to the Educational Testing Service, Box 6155, Princeton, NJ 08541-6155 or visiting its website at www.toefl.org. Local administration at University Park campus of the TOEFL is handled by the IECP. Information about the IELTS can be obtained by contacting IELTS International, 100 East Corson Street, Suite 200, Pasadena, CA 91103 or visiting its website at www.ielts.org.

Master's Degree Requirements

Candidates for the master's degree must satisfactorily complete the requirements of the Graduate School. In addition, all students are expected to have completed appropriate courses in computer architecture and machine organization, data structures and analysis of algorithms, programming languages, operating systems, and logical design/switching theory or theory of automata. Students who do not meet background requirements will be required to take the appropriate 400-level courses to prepare them for the 500-level courses. At most, 3 credits of background course work can be used to satisfy the degree requirements except as specified for the MEng degree. Students admitted to the M.S. program will not be permitted to switch to the M. Eng. program at a later time, except under extenuating circumstances.

Master of Science students must take 15 credits of courses numbered CSE 500 through 589, including a minimum of 9 credits of breadth courses taken from the department's Graduate Handbook in Computer Science and Engineering. An additional 9 credits of 400-level courses and above (excluding independent studies courses and ENGR 588) are required (see Handbook). This include at least 1, and at most 2, credits of CSE 590 (Colloquium). Students must complete and defend an M.S. thesis (6 credits of CSE 600). The total degree requirement is 30 credits.

Master of Engineering students must take CMPSC 465 either (CMPSC 443 and CMPSC 431W) or (CMPEN 431 and CMPEN 472) and one 500 level CSE course during the first semester (fall), then 12 credits of 500 level courses during the second (spring) semester, then CSE 820 and CSE 594 online during the summer. The total degree requirements is 30 credits.

Doctoral Degree Requirements

The doctoral degree requirements include the general requirements of the Graduate School as listed under Doctoral Degree Requirements. Furthermore, students applying for and gaining admittance to the Ph.D. program will not be permitted to switch to the master's program at a later date, except under extenuating circumstances. To qualify for a Ph.D. degree, each student must take 27 credits of courses with numbers CSE 500-589 or CSE 598, and 21 additional credits of 400-level and above courses. The 21 additional credits must include at least 3 credits of CSE 590 (colloquium), with a maximum of 3 credits of CSE 590 being counted toward the total of 48 minimum credits. A maximum of 3 credits of X96 may also be counted. A student must pass the Ph.D. candidacy examination by the third regular semester after entering the program (see Handbook). Students must pass the Ph.D. comprehensive examination after completion of most of the course work, and the English competency and communication requirements. A thesis must be completed under the direction of a Ph.D. committee and the results must be successfully defended in the thesis defense examination.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Clinical and Translational Sciences (CTS)

Heads:
GAIL D. THOMAS, Ph.D.
H047 Medicine, Hershey Medical Center
717-531-0003 x287087

JAMES PAWELCZYSK, Ph.D.
107 Noll Lab, University Park
814-865-3453

Degree conferred:
Students electing to pursue this program through participating departments will earn a degree with a dual-title at the Ph.D. level, i.e., Ph.D. in [major program name] and Clinical and Translational Sciences.

The Graduate Faculty

The Program

The College of Medicine provides academic leadership of the CTS dual-title graduate degree program. It is administered jointly on the University Park and Hershey campuses through the College of Health and Human Development and the College of Medicine, respectively, in conjunction with Penn State's Clinical and Translational Science Institute (CTSI) and in coordination with the student's primary graduate program. The CTSI Education and Training Internal Advisory Committee, which includes representatives from colleges and departments participating in the CTSI, maintains the program's definition and goals, identifies faculty and courses relevant to the CTS dual-title graduate degree program, and recommends policies and procedures for the program's operation.

The dual-title graduate degree program in CTS is designed to provide students with the aptitudes and skills necessary to expand research in their major field of study to impact clinical medicine and public health. The dual-title graduate degree program will provide opportunities to synthesize expertise across disciplinary boundaries and to evaluate the effectiveness of research to create improved clinical and/or health outcomes. This program enhances the training in the major field of study by providing value-added skill sets in patient-oriented, epidemiological, behavioral, outcomes and health services research that transitions scientific findings from the laboratory to the clinical setting to best practices in the community. Clinical and translational sciences are expanding, with career paths in academic, medical and industrial settings.

Because the dual-title Ph.D. complements the primary program of study, CTS program representation must be included at all phases of graduate study, including the candidacy exam, comprehensive exam, and dissertation defense.

Admission Requirements

Dual-title CTS program graduate students must first be admitted to their major program as specified by requirements of the Graduate Council and the major program. They become eligible for the dual-title graduate degree program during their first year of study in the major area of study. Admission to the dual-title graduate degree program should be made prior to completing the candidacy exam in the major area.

An admissions committee comprised of faculty affiliated with the CTS dual-title graduate degree program will evaluate students. Applicants must have a graduate GPA of at least 3.5 in an area that relates to clinical and translational sciences. Applicants will be required to provide a statement of purpose that addresses the ways their research and professional goals will be enhanced by interdisciplinary research.

Degree Requirements

General requirements for the dual-title Ph.D. in [major program name] and Clinical and Translational Sciences are listed below:

- CTS 590 (1) Seminar in Clinical and Translational Sciences (two semesters)
- CTS 595 (1-6) Clinical Research Internship or BMS 571 (1-3) Graduate Clinical Rotation (6 credits)
- 18 additional credits from a list of approved electives in the following areas:
  - Statistics (3 credits)
  - Epidemiology (3 credits)
  - Bioinformatics (3 credits)
  - Experimental design and interpretation (3 credits)
  - The regulatory environment (3 credits)
  - Scientific communication (3 credits)

The choice of CTS electives may be proposed by the student, subject to approval by the student's academic advisers from the primary and CTS programs. They should complement the student's work in the major prior to completing the candidacy exam in the major area.

Language Competency Requirement

Students will fulfill any language requirement specified by the major department through which the student is admitted. There is no additional language requirement for the CTS dual-title graduate degree program.

Candidacy Requirement

Typically, candidates to the program will be accepted during their first year of study. In some circumstances candidates may be considered during the second year. To be admitted to the CTS dual-title graduate degree program students must meet the Ph.D. candidacy requirements in both their major area of study and the dual-title area. The candidacy exam will include both elements. Because students must first be admitted to a major program of study before they may apply to and be considered for admission into a dual-title degree program, dual-title Ph.D. students may require an additional semester to fulfill requirements of both areas of study and, therefore, the candidacy examination may be delayed one semester beyond the normal period, which is defined as “after at least 18 credits have been earned in graduate courses beyond the baccalaureate and within three semesters of entry into the doctoral program.” At least one member of the candidacy committee will be a member of the CTS dual-title degree program faculty. Faculty members who hold appointments in both programs may serve in a combined role.

Committee Composition

The Pennsylvania State University
In accordance with Graduate Council requirements, the doctoral committee shall contain at least four members of the Graduate Faculty, including the student’s dissertation adviser. Students shall be encouraged to include clinical faculty on the graduate committee. The committee shall include at least two individuals who are faculty members in the major program area, at least one faculty member who is affiliated with the CTS dual-title Ph.D. program, and at least one member whose field of study is different from the candidate’s major field of study. This committee member is referred to as the “Outside Field Member.” A member of the student’s committee who is affiliated with the CTS graduate program and who is outside of the major program area may serve in a combined role as an Outside Field Member.

To avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation adviser’s primary appointment is held. This committee member is referred to as the “Outside Unit Member.”

A member of the student’s committee who is outside the student’s major field of study and has a primary appointment outside the administrative home of the dissertation adviser(s) may serve as both the Outside Field Member and Outside Unit Member.

The doctoral committee shall be chaired by a member of the Graduate Faculty in the primary area of study and a faculty member of the CTS dual-title graduate degree program. In most cases, the same individual (e.g., dissertation adviser) is a member of the Graduate Faculty in both the major and dual-title fields, and in such cases may serve as sole chair. If the committee chair does not serve in this combined role, a faculty member representing the CTS dual-title graduate degree program must be designated a co-chair of the committee. A retired or emeritus faculty member may chair the doctoral committee if he/she was officially appointed and began (co)chairing the committee prior to retirement, and has the continuing approval of the department head or program chair in the primary area and dual-title field.

Comprehensive Exam
Faculty member(s) affiliated with the CTS dual-title graduate degree program will be fully integrated in the student’s comprehensive exam, as well as the final oral examination (dissertation defense). They will participate in constructing and evaluating comprehensive examination questions that cover the secondary area of study.

The comprehensive exam will require the student to demonstrate an understanding of the methods of translational sciences and an ability to apply them to problems in the student’s major field of study. When appropriate, the student will be expected to demonstrate a working knowledge of methods to evaluate and compare the outcomes of his/her research to related approaches already in existence.

Dissertation
A dissertation in the primary field with a substantial component of clinical and translational research is required of all students in the CTS dual-title graduate degree program. This component will be approved in advance by the student’s committee.

Student Aid
When available, graduate research assistantships will be available to students in this program.

Demography (DEMOG)

Program Home Page,

STEPHEN A. MATTHEWS, In Charge
601 Oswald Tower
814-865-0486
demography@pop.psu.edu

Degrees Conferred:
Students electing this option through participating programs will earn a degree with a dual title at both the Ph.D. and M.A. levels, i.e., Ph.D. in (graduate program name) and Demography, or M.A. or M.S. in (graduate program name) and Demography.

The following graduate programs offer dual degrees in Demography: M.A. and Ph.D. in Sociology and Demography; M.A. and Ph.D. in Economics and Demography; M.A. and Ph.D. in Anthropology and Demography; M.S. and Ph.D. in Rural Sociology and Demography; M.S. and Ph.D. in Human Development and Family Studies, and Demography; M.S. and Ph.D. in Agricultural, Environmental, and Regional Economics, and Demography; M.S. and Ph.D. in Health Policy and Administration.

The Graduate Faculty

The Program
The Demography dual-title degree program option is administered by the Demography Program Committee, which is responsible for management of the program. The committee maintains program definition, identifies faculty and courses appropriate to the option, and recommends policies and procedures for its operation to the dean of the Graduate School. This dual-title degree program is offered as an option to graduate major programs in three colleges: Agricultural Sciences, Health and Human Development, and the Liberal Arts. The option enables students from diverse graduate programs to attain and be identified with the content, techniques, methodology, and policy implications of demography, while maintaining a close association with areas of application. Through demography, students study (1) the size, composition, and distribution of the population; (2) changes in these characteristics; (3) the processes that determine these changes—fertility, migration, and mortality; and (4) their social, economic, and cultural causes and consequences. To pursue a dual-title degree under this program option, the student must apply to the Graduate School and be admitted to one of the following graduate programs: Agricultural Economics, Health Policy and Administration, Anthropology, Economics, Human Development and Family Studies, Rural Sociology, or Sociology.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Primary admission requirements for the dual-degree M.A., M.S., or Ph.D. program are established by the participating graduate program and a positive recommendation by a Demography faculty member in that graduate program. All application materials should be submitted by January 2. Applicants should have a junior/senior cumulative grade-point average of well above 3.00 (on a 4.00 scale) and appropriate courses in statistics and in the social science department to which they are applying. The application should include three letters of reference and a statement describing and explaining the applicant's interest in demography and goals during and after graduate study. TOEFL scores are required of all students for whom English is a second language.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the graduate program in which they are enrolled, including the communication/foreign language requirements, if any. In addition, they must satisfy the minimum requirements in the Demography option described here, as established by the Demography Program Committee. Within this framework, final course selection is determined by students and their degree committees. All dual-title degree candidates who are in residence must enroll in DEMOG 590 for 1 credit each year in residence.

Master's Degree: For the M.A. and M.S. degree with the Demography option, 12 course credits are required in addition to the colloquium credit or credits. A minimum of 3 credits is required in each of the following areas: (1) disciplinary perspective courses; (2) demographic methods courses (SOC 573 is required of all candidates); (3) seminars in demographic processes; (4) seminars in population studies. See a complete course list on theprogram home page.

Particular courses may satisfy both the graduate major program requirements and those of the Demography option. The thesis supervisor must be a member of the graduate faculty selected by the chair or the graduate officer of the program granting the degree and a member of the Demography faculty.

Ph.D. Degree: For the Ph.D. degree with the Demography option, a minimum of 24 credits is required in addition to the colloquium credits. For students entering with a master's degree from another institution, equivalent course credits may be accepted. The following minimum number of credits is required in each curriculum category: 3 credits of disciplinary perspective courses; 6 credits of demographic methods courses; SGC 573 is required of all candidates; 6 credits of seminars in demographic processes; 3 credits of seminars in population studies; and 6 credits of electives. Final course selection is determined in consultation with the doctoral committee.

The doctoral committee is recommended by the graduate major program granting the degree. A four-member committee is required for a dual-title degree program. The chair and at least one additional member of the doctoral committee must be members of the graduate faculty in Demography. The Demography faculty members on the student’s committee are responsible for administering an examination in demography that constitutes a portion of the comprehensive examination of the doctoral student in the program option. A dissertation on a demographic-related topic is required of students in the dual-title degree program.

Other Relevant Information
A Ph.D. minor in Demography is available for doctoral students in graduate programs other than the dual-title participating programs who find it advantageous to include demographic content, methods, and policy analysis in their program of study. The student's doctoral committee must approve the choice of this minor, and one member of the doctoral committee must be from the Demography faculty.

To qualify for a minor in Demography, students must satisfy the requirements of their graduate major program and take at least 15 credits in demography in addition to colloquium credits. A minimum of at least 3 credits each in (1) disciplinary perspective, (2) demographic methods courses (SOC 573 is required of all candidates), (3) seminars in demographic processes, and (4) seminars in population studies is required. Students must enroll in DEMOG 590 for 1 credit during each year enrolled in the program and in residence.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically has been available to graduate students in this program:
Affiliated departments and The Population Research Institute Assistantships, and the NICHD Traineeship awards

Courses

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

grad_info_ee@enrgr.psu.edu

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program
The general areas of graduate research in Electrical Engineering are electromagnetics and optics; electronics and photonics; communications, computers, networking, and signal processing; and control and power systems. Specializations available within these areas include microwaves, antennas, and propagation; electro-optics and nonlinear optics; remote sensing and space systems; materials and devices; circuits and networks; VLSI; communications; networking; signal and image processing; computer vision and pattern recognition; control systems; and power systems.

For information about areas of specialization, laboratory and research facilities, fellowships, assistantships, and other sources of financial assistance, write directly to the Graduate Program Coordinator, Department of Electrical Engineering, 121 Electrical Engineering East, University Park, PA 16802-2705, or review the Web pages at www.ee.psu.edu.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Applicants are required to submit scores from the general portions of the Graduate Record Examinations, three letters of reference, and a personal statement of relevant experience and goals, a resume, undergraduate transcripts, and a supplemental application.

Master of Science Degree Requirements
The Master of Science requirements include the general requirements of the Graduate School as listed under Master's Degree Requirements in the Graduate Bulletin. Specific course requirements: (1) Thesis option--24 course credits, including a broad selection of 500-level courses, 2 colloquium credits, 6 thesis credits, and a satisfactory thesis; (2) Paper option--30 course credits, including a broad selection of 500-level courses, 2 colloquium credits, 2 paper credits, and a satisfactory paper.

Doctoral Degree Requirements
The Doctor of Philosophy requirements include the general requirements of the Graduate School as listed under Doctoral Degree Requirements in the Graduate Bulletin. Specific requirements: The communication requirement is met by adequacy in both spoken and written English. The candidacy examination consists of both written and oral parts; the oral comprehensive examination is preceded by the writing of a thesis proposal. The program requires a minimum of 39 course credits and 2 colloquium credits beyond the B.S. degree.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

- PAUL F. ANDERSON GRADUATE FELLOWSHIP
- MELVIN P. BLOOM MEMORIAL GRADUATE FELLOWSHIP
- LUTHER B. AND PATRICIA A. BROWN GRADUATE FELLOWSHIP
- JOSEPH R. AND JANICE M. MONKOWSKI GRADUATE FELLOWSHIP
- JAMES R. AND BARBARA R. PALMER FELLOWSHIP
- BESS L. AND MYLAN R. WATKINS GRADUATE FELLOWSHIP
- SOCIETY OF PENN STATE ELECTRICAL ENGINEERS (SPSEE) GRADUATE FELLOWSHIP
- PONTANO FAMILY SCHOLARSHIP IN ELECTRICAL ENGINEERING

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

### Degrees Conferred:

M.Eng., M.S.

### The Graduate Faculty

#### M.Eng. (E E)

**Admission Requirements**

A prospective graduate student in Electrical Engineering at Penn State Harrisburg must fulfill the admission requirements as set forth by the Graduate School, and have a bachelor of science degree in electrical engineering or its equivalent from an institution that is accredited by the Accreditation Board of Engineering and Technology (ABET). An undergraduate cumulative grade-point average of 3.0 or better on a 4.0 scale is required for admission. Exceptions to this will be based on professional experience and other factors such as GRE scores. In addition, a student who does not meet the overall 3.0 grade-point average may be considered for admission if the student has a 3.0 junior/senior grade-point average. Up to 15 credits earned in three semesters or fewer, as a special nondegree student, may be applied toward the master's degree. Those applying for admission as a master of engineering candidate without an electrical engineering degree may be admitted with the stipulation that deficiencies in background, if any, will be remedied early in the program and that these courses will be in addition to the required number of credits for the degree.

Applicants should submit the following:

- a graduate online application with the application fee;
- official copies of undergraduate transcripts;
- test scores from the Graduate Record Examinations (GRE) (preferable, but not required);
- three (3) letters of reference, especially those from faculty who can evaluate academic potential;
- a personal statement of technical interest, goals, and experience.

Test scores from the Graduate Record Examination (GRE) are required ONLY for those applicants indicating interest in an assistantship.

**Degree Requirements**

A total of 33 credits is required for a Master of Engineering degree, of which at least 24 must be taken through Penn State Harrisburg engineering graduate programs. Up to 9 credits of graduate work may be transferred from other institutions provided (a) credits are suitable for the particular engineering discipline, and (b) students have earned a grade of B or better. At least 18 credits must be at the 500 level, which includes 3 credits of ENGR 594. Generally, students enrolled in the program for the Master of Engineering degree in Electrical Engineering must earn 12 credits in the required core courses (i.e., courses with the E E prefix).

Master of Engineering Paper: A candidate for the master of engineering degree in Electrical Engineering must write a scholarly report or engineering paper and defend it before three faculty members. The paper is intended to be a relatively short document compared with a thesis. A published paper may be used to meet this requirement. The paper should be written according to the standards set for an IEEE publication.

The engineering paper may be initiated by taking the 1-credit ENGR 594 course. This should be done approximately halfway through the program. Once the proposal is approved and the work well under way, the student should register for ENGR 594 with his/her paper adviser. Work will proceed as planned under the direction of the paper adviser, though changes may be made with the consent of the master's paper committee.

Up to 9 credits of graduate work may be transferred from other institutions provided (a) credits are suitable for the particular engineering discipline, and (b) students have earned a grade of B or better.

Students must have a 3.00 grade-point average in both prescribed and supporting courses approved by the program to graduate. Students pursue the program on a part-time basis. A student can complete the program within two years, based on completion of two courses a semester.

#### M.S. (E ENG)

**Admission Requirements**

Admission into the Master of Science (M.S.) Electrical Engineering program will be granted only to candidates who demonstrate high potential for success in graduate studies.

Applicants should have undergraduate degrees in engineering or technology-related fields from an accredited university and must meet the admission requirements as set by Penn State's Graduate School. An applicant must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.

An undergraduate cumulative grade-point average of 3.0 or better on a 4.0 scale, and scores from the GRE are required for admission.

Applicants should submit the following:

- a completed Graduate School online application with the application fee;
- official copies of undergraduate transcripts;
- three (3) letters of professional recommendations from individuals who can evaluate the applicant's potential;
- a personal statement of technical interest, goals, and experience;
- test scores from the Graduate Record Examination (GRE); and
- statement of interest in graduate assistantship, if desired.

**Degree Requirements**

All graduate students in Electrical Engineering are required to adhere to the requirements of the Graduate School, as found in the Graduate Degree Programs Bulletin. The requirements of the Graduate School, however, are minimum requirements and the policies, procedures, and regulations listed below are additional and more specific for graduate students pursuing the MS in Electrical Engineering degree. Advisers will call pertinent regulations to the attention of the graduate students as necessary.
their advisees, but it should be understood that it is the student's personal responsibility to see that all requirements are satisfied.

The MSEE program at Penn State Harrisburg is structured into two areas of concentration to fully take advantage of the specialty areas represented in the E E graduate faculty. The areas are Electronics - Electromagnetics - Optics (EEO) and Systems. The program requires 31 credits, including 24 course credits with at least 15 credits at the 500 level, one colloquium credit, and 6 thesis credits (600-level). All students are required to take a 500-level analysis course (EMCH 524A) in addition to prescribed courses in one of the two concentration areas. The prescribed courses are intended to establish the fundamentals of the technical areas. To incorporate some breadth into the program, students are required to take at least one course in the second concentration area. A maximum of three 400-level courses (9 credits) may be taken for the MSEE degree.

Original research, usually requiring at least two semesters of work (nominal 6 credits), is expected for a thesis. The work should be an in-depth investigation intended to extend the state of knowledge in some specialty area.

The E E program has established a six-year time limit for completion of the M.S. degree. Any extension beyond six years requires the approval of the E E program Graduate Faculty.

The student must maintain a minimum grade point average (GPA) of 3.00 or better on a 4.00 scale in 500- and 400-level courses listed on his/her Plan of Study.

Penn State Harrisburg’s MSEE program is distinct and independent of the MSEE program offered at the University Park campus.

**English Proficiency**—The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5. Specific graduate programs may have more stringent requirements.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Completed International Application material must be submitted by the following deadlines: May 31 for the fall semester; September 30 for the spring semester; February 28 for the summer session. Applications received after these deadlines will be processed for the following semester.

**PLEASE NOTE:** Each graduate program reserves the right to set earlier deadlines than those noted above.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

For course information specific to the Electrical Engineering M.S. and M.Eng. programs at Penn State Harrisburg, refer to the [program home page](#).

Last Revised by the Department: Summer Session 2010

Blue Sheet Item #: 38-05-149

Review Date: 02/23/2010

Faculty linked: 8/14/14

The Pennsylvania State University
Business Administration, Executive Master of (exMBA)

The Executive MBA program is a cohort program with a class of approximately forty students moving in lockstep through the program. Classes are taught primarily on the weekends in the Philadelphia area, complemented with several residence weeks on the University Park campus. The time required to complete the program is twenty-two months.

Admission Requirements

Please refer to the requirements listed in the Admission Requirements section of the full-time MBA program at University Park. Applicants to the Executive MBA program should have considerable work experience, typically ten years or more.

Master's Degree Requirements

Please refer to the requirements listed in the Master's Degree Requirements section of the full-time MBA program at University Park.
The Master of Professional Studies (M.P.S.) Engineering Management degree program is a graduate professional degree program that integrates engineering with business and management principles. The program provides engineers with business and management perspectives and enhances their capabilities in the management of major projects, business initiatives, policies, and other activities in both the public and private sectors. Furthermore, it highlights the importance of technology strategy and intellectual properties management, and offers an environment for personal and professional networking that could hold significant future dividend.

The program is offered at Penn State Harrisburg as a partnership between the School of Engineering, Engineering, and Technology and the School of Business Administration, which is accredited at the undergraduate and graduate levels by AASCB International—the Association to Advance Collegiate Schools of Business International.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Admission into the Master of Professional Studies program will be granted only to candidates who demonstrate high potential for success in graduate studies.

Applicants should have undergraduate degrees in engineering or technology from an accredited university and are expected to have completed undergraduate course work in calculus and economics.

An undergraduate cumulative grade-point average of 3.0 or better on a 4.0 scale, and scores from the Graduate Management Admission Test (GMAT) are required for admission. Students demonstrating high potential but failing to meet the minimum GMAT score requirements may be considered on the basis of professional accomplishments and other criteria that may predict success in the program.

Applicants should submit the following:
---a graduate online application with the application fee
---official copies of undergraduate transcripts
---three (3) letters of reference, especially from faculty who can evaluate academic potential
---a personal statement of technical interest, goals, and experience
---test scores from the Graduate Management Admission Test (GMAT)
---test scores from the Graduate Record Examination (GRE) are required for those indicating interest in an assistantship

English Proficiency—The language of instruction at Penn State is English. All international applicants whose first language is not English or who have not received baccalaureate or master’s degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) and submit the results of that test with the application for admission. Departments and programs may have more stringent requirements and may require all international applicants to submit a TOEFL or IELTS score regardless of their academic background. A TOEFL score of at least 550 (paper-based test), 213 (computer-based test) or a total score of 80 on the Internet-based test (iBT), with a minimum of 19 points on the speaking section, is required for admission. Graduate programs may require a higher score. The International English Language Testing System has been approved by the Graduate Council as an alternative exam to the TOEFL for international students applying to Penn State. A minimum composite score of 6.5 on the IELTS test is required for admission.

Degree Requirements
All graduate students in Engineering Management are required to adhere to the requirements of the Graduate School, as listed in the Graduate Degree Programs Bulletin. The requirements of the Graduate School, however, are minimum requirements and the policies, procedures, and regulations listed below are additional and more specific for graduates students pursuing the M.P.S. degree in Engineering Management. Advisers will call pertinent regulations to the attention of their advisees, but it should be understood that it is the student’s personal responsibility to see that all requirements listed are satisfied.

The M.P.S. in Engineering Management is a 34-credit graduate program that integrates engineering with business and management principles. The multidisciplinary, broadly based M.P.S. program provides engineers with business and management perspectives to enhance capabilities in management of large projects. All M.P.S. students are required to take eight core courses (21 credits) focusing on economic analysis, communication and teamwork, management processes, corporate finance, energy and the environment, and engineering analysis. The curriculum requires the completion of two free electives (6 credits) in any of the engineering disciplines, and a culminating experience through a three-course sequence (7 credits) on strategic management of new ventures and innovations. Of the 34 credits required for the degree, 31 must be earned in 500-level graduate courses.

Courses
Please refer to the graduate program home page for a complete list of available courses.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet
some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Environmental Pollution Control (E P C)

Degrees Conferred:
M.S., M.E.P.C. (Penn State Harrisburg, Penn State University Park)

The Graduate Faculty--Penn State Harrisburg

The Program

This intercollege master's degree program, available at Penn State Harrisburg and Penn State University Park, deals with the various aspects of air, land, and water pollution control. Graduate instruction is under the direction of an interdisciplinary faculty committee and the departments participating in the program. The EPC faculty have teaching and research interests in the area of environmental pollution control, and where projects are being funded, support opportunities may be available. Currently, faculty from sixteen departments in four colleges are participating in the program at University Park and faculty from four graduate programs participate at Penn State Harrisburg. A student is affiliated with one of these departments on the basis of his/her specific area of interest and is advised by an EPC faculty member in that department. Maximum flexibility is maintained by the program in an effort to meet both the needs of the individual student and the pollution control activity in which he/she wants to participate.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The EPC program is designed for students with backgrounds in science or engineering. Admission will be granted if the applicant has the necessary program prerequisites and a faculty member in the student's interest area agrees to serve as adviser. Normal admission requirements include mathematics through integral calculus plus two courses each in both general chemistry and physics.

Students with a 3.00 junior/senior average and with appropriate backgrounds in mathematics and science will be considered for admission. The best-qualified applicants will be admitted up to the number of places that are available for new students. Applicants to the Environmental Pollution Control program are required to provide a statement of objectives, three letters of recommendation, and scores from the Graduate Record Examination (GRE) Aptitude Test (verbal, quantitative, analytical) to complete the admission process. Entering graduate students for whom English is not their first language are required to have a score of at least 560 on the TOEFL (Test of English as a Foreign Language) examination. There is no foreign language requirement.

Degree Requirements

All candidates are required to take a core course in each of four environmental areas--air, water, solid waste, hazardous waste management, and policy/risk--and 1 credit of the E P C 590 seminar for a minimum core requirement of 12 credits. All but 6 of the total 30 credits required must be selected from a recommended course list. If the option to prepare a thesis is selected (M.S. only), students must schedule at least 12 credits at the 500 level, take at least 6 credits of 600-level thesis research in their thesis adviser's academic department, and write a thesis on an area concerned with environmental pollution. Only 6 credits of 600-level course work may count toward the 30-credit minimum degree requirement. Students who select the nonthesis option must schedule at least 18 credits at the 500 level, which may include 1 credit of E P C 590 and a maximum of 3 paper-writing credits. The M.E.P.C. E P C degree require submission of a scholarly master's paper.

Watershed Stewardship Option

The Graduate Option in Watershed Stewardship is a graduate option intended to provide enhanced educational opportunities for students with an interest in water resources management who are enrolled in a graduate degree program within Environmental Pollution Control at the University Park campus. The objective of the Graduate Option in Watershed Stewardship is to educate students to facilitate team-oriented, community-based watershed management planning directed at natural resources conservation and environmental problems encountered in Pennsylvania communities, especially non-point source water pollution. The Graduate Option in Watershed Stewardship requires 22 credits of graduate coursework: 12 credits of breadth courses, 2 credits of Watershed Stewardship Seminar courses (FOR 591A and FOR 591B or LARCH 510.2), and 8 credits of Watershed Stewardship Practicum I and II courses (FOR 570 and FOR 571 or LARCH 540.2 and LARCH 550.2). Breadth courses will consist of three graduate credits of coursework from each of four subject matter areas: 1) water resources science, 2) social science, public policy and economics, 3) humanities, and 4) communications and design. In the watershed stewardship practicum courses students work in teams with community, government, and business leaders to analyze and understand natural resources and environmental pollution problems and creatively synthesize appropriate solutions in the form of a written watershed management plan.

A representative pattern of scheduling for the Graduate Option in Watershed Stewardship in addition to a student's other degree requirements might be:

First Year:

Fall Semester
Breadth electives: 76 credits
FOR 591A or LARCH 510.2
Watershed Stewardship issues
Colloquium, 1 credit

Spring Semester
Breadth electives: 76 credits
FOR 591B or LARCH 510.2
Watershed Stewardship
Planning Colloquium, 1 credit

Second Year:

Fall Semester
FOR 570 or LARCH 540.2, 3 credits
Keystone Project

Spring Semester
FOR 571 or LARCH 550.2, 5 credits
Keystone Project

A list of acceptable breadth courses from each category is provided in the Graduate Option in Watershed Stewardship Handbook. Students will be allowed to petition to the Center for Watershed Stewardship to substitute higher level or equivalent courses in a major field to suit their specific backgrounds and goals.

Courses taken for the Graduate Option in Watershed Stewardship may be used to satisfy other EPC degree requirements with concurrence of their adviser and graduate committee and only if such courses are approved EPC core requirements or are on the currently approved list of additional 400- and 500-level
course for the EPC major. The graduate committee for a student enrolled in the Option in Watershed Stewardship must include a faculty representative from the Center for Watershed Stewardship.

Students enrolled in M.E.P.C. or M.S. degree program within Environmental Pollution Control may apply to participate in the Graduate Option in Watershed Stewardship. EPC students may prepare their thesis or paper on a topic related to their watershed management plan, but the thesis or paper must reflect independent thought and scholarly effort above and beyond the requirements of FOR 570 and FOR 571 or LARCH 540.2 and LARCH 550.2.

**Student Aid**

Graduate assistantships available to students in this program and other forms of student aid are described in the [STUDENT AID](#) section of the Graduate Bulletin.

**ENVIRONMENTAL POLLUTION CONTROL (EPC)**

590. COLLOQUIUM (1)

EPC Concurrent degree offering with the Penn State Dickinson School of Law

Penn State Harrisburg School of Science, Engineering, and Technology

Penn State Dickinson School of Law

**Degrees Conferred:**

J.D. (Dickinson) M.E.P.C., M.S. (Penn State Harrisburg)

**Degrees**

The Penn State Dickinson School of Law and the Intercollege Graduate Program in Environmental Pollution Control (EPC) offer a coordinated program leading to the degrees of Juris Doctor (J.D.) and Master of Environmental Pollution Control (M.E.P.C.), or Master of Science in EPC (M.S.).

The EPC programs are interdisciplinary, dealing with all aspects of controlling air, water, and solid waste pollution and disposal. The master of engineering degree is designed for those with an undergraduate degree in engineering, while the master of environmental pollution control degree is for those with science or nontechnical backgrounds. The master of science degree is intended for those students who wish to intensively pursue a research area as part of their master's degree work.

**Admission to the Program**

In order to be admitted to the program, students must first be admitted to Dickinson under its regular admission procedures. Students are admitted to begin classes in the fall only. Dickinson will screen potential program candidates, and need not forward applications of all Dickinson admittees who have expressed an interest in the EPC programs. Dickinson can withhold support for some admittees until they have demonstrated proficiency in their legal studies and a capacity for dual-degree study. The EPC program at Penn State Harrisburg will make an independent admission decision as to all dual-degree applicants.

**Admission Requirements**

**Dickinson**

A bachelor's or equivalent degree from an accredited college is a prerequisite for admission. However, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral and written communication skills before entering law school. The following are required of applicants: complete application form for Dickinson; taking of the Law School Admission Test (LSAT); completion of an LSDAS report; a one-page personal statement; employment record since high school; two recommendations.

**EPC**

A bachelor's degree in engineering from an accredited program is required for the Master of Engineering degree program. For the Environmental Pollution Control program, a bachelor's degree is required, including courses in mathematics through integral calculus and two courses each in both general physics and chemistry. If the applicant has not had experience with aspects of environmental engineering or science, completion of ENVE 397 Introduction to Environmental Engineering and Science or CE 297B Water Pollution Control is strongly suggested prior to the start of the graduate course work in the program. A completed Graduate School application form also is required.

**Sequence**

Students complete the first year of the J.D. program before beginning the EPC program. (While students might take courses in the EPC program prior to enrollment at Dickinson, credit for those courses may not count toward the J.D. degree.) Thereafter, students may concurrently enroll in courses in the J.D. and the EPC programs provided that they abide by the requirements of each program.

**Interprogram Transfer of Credits**

**J.D.**

A maximum of 12 credits for EPC course work may be transferred for credit toward the J.D. degree at Dickinson. Courses for which such credit may be applied shall be subject to approval by the Dickinson faculty. Students must obtain a grade satisfactory to Dickinson for the course work to be credited toward the J.D. degree.

**M.E.P.C.**

A maximum of 12 credits of Dickinson course work may be counted for credit toward this degree, subject to EPC approval based on the relevance to the MEPC degree program. No course work at Dickinson may be used to satisfy the master's paper requirement of the MEPC degree program. However, a member of the Penn State graduate faculty from Dickinson may be designated as a reader for the master's project.

**M.S. in EPC**

A maximum of 8 credits of Dickinson course work may be counted for credit toward this degree, subject to EPC approval based on relevance to the degree program. No course work at Dickinson may be used to satisfy the master's paper requirement of the M.Eng. degree program or the thesis requirement of the M.S. degree. However, a member of Penn State graduate faculty from Dickinson may be designated as a reader for the master's project.

**Recommended Program of Study and Advising**

All students in the program have two advisers, one from Dickinson and one from EPC (Penn State Harrisburg). Periodic interaction between the two advisers is encouraged. A program of study is developed for each student, taking into account the fact that some courses at both locations are offered on a rotating basis. Many courses are offered every year, but some are offered every two or three years. Advisers will have available a list of projected relevant offerings in order to work with the student on an individualized program of study.

**Tuition**

Students will be charged the applicable Dickinson tuition to cover the J.D. program and graduate tuition on a per credit (in-state) rate of the EPC courses.

**Graduation**

The Pennsylvania State University
A student in the program may complete the requirements for one of the degrees, and be awarded that degree, prior to completing all the requirements for the other degree. All courses in one program that will count toward meeting the requirements of the other program must be completed before awarding the first degree.
Introduction

The flexibility and strength in fundamentals of the Engineering Science curriculum provides an opportunity for Engineering Science undergraduate students to participate in the ESM Integrated Undergraduate Graduate (IUG) program. Application for IUG status may be made in the fifth or subsequent semesters. The IUG program promotes the interchange of ideas across all branches of the scientific and engineering disciplines from both a theoretical and experimental perspective. Students in the composite degree program are expected to pursue interdisciplinary studies in areas that encompass nano- and...
Joint M.D./Ph.D. Program in Engineering Science and Mechanics (M.D./Ph.D., ESMCH)

Admission Requirements

All students must process an application via the American Medical College Application Service and be accepted for admission by the M.D./Ph.D. admissions committee. Admission to the program requires a minimum GPA of 3.5 and a Medical College Admission Test (MCAT) score of 32. Exceptions to the minimum requirements may be made for students with special backgrounds, abilities, and interests. Applicants will be accepted up to the number of places available for new students. Applicants must successfully complete Years M1 and M2 and Step 1 of the United States Medical Licensing Examination (USMLE) before entering the graduate degree program. All requirements for the Ph.D. degree must be completed prior to Year M3 of medical studies.

Students must apply to the Graduate School for admission to the graduate program. For admission to the Graduate School, an applicant must hold either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. International applicants must hold the equivalent of an American four-year baccalaureate degree. Only those students with backgrounds in the mathematical sciences, mathematics, and engineering who present a 3.5 grade-point average, will be considered for admission. Exceptions to the minimum 3.5 grade-point average may be made for students with special backgrounds, abilities, and interests. Applicants will be accepted up to the number of places available for new students.

Scores from the Graduate Record Examination (GRE) are required for admission. At the discretion of the Graduate Officer, a student may be granted provisional admission pending receipt of acceptable GRE scores.

International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System). The minimum composite score for the IELTS is 6.5. The minimum score accepted for the internet-based test (iBT) is 80 (total), with a 19 on the speaking section. Applicants with an iBT speaking score between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency and, if necessary, remedial course work.

International applicants who have received a baccalaureate or a graduate degree from a college/university/institution in the following countries are exempt from the TOEFL/IELTS requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All program-specific documents for admission (e.g., transcripts, letters of recommendation, etc.) must be submitted by all applicants.

Degree Requirements

The Joint M.D./Ph.D. Program in Engineering Science and Mechanics (M.D./Ph.D., ESMCH) will form the basis for an interdisciplinary, transformational program that will educate a new generation of Physician Engineering Scientists, working at the frontiers of clinical and translational research. This Joint M.D. Program responds to the national call to expedite the incorporation of clinical and translational research into improved healthcare. Students in the Joint M.D./Ph.D. Program in Engineering Science and Mechanics will complete 4 years of medical studies (designated years M1 through M4) in the Medical School, College of Medicine, and 3 or more years of Graduate Study (designated years G1 through G3 or GX) in the Engineering Science and Mechanics (ESM) Department.

After successful completion of the first 2 years of medical school, including all required rotations and Step 1 of the United States Medical Licensing Examination (USMLE), the candidate will apply for admission to the Ph.D. program in Engineering Science and Mechanics.

Students will complete all requirements for the Ph.D. Degree in Engineering Science and Mechanics, including SARI (Scholarship and Research Integrity) training for the Responsible Conduct of Research (RCR) that must be met by students admitted to the program with either a baccalaureate or a master’s degree, with the following exceptions:

- students admitted to the program with a baccalaureate degree will be allowed to double count 14 professional credits (24% of the total graduate credits) toward graduate course credit for the Ph.D. degree; and,
- students admitted to the program with a master’s degree will be allowed to double count 7 professional credits (21% of the total graduate credits) toward graduate course credit for the Ph.D. degree.

A minimum grade-point average of 3.00 for work done at the University is required for doctoral candidacy, admission to the Comprehensive Examination, the Final Oral Examination, and for graduation. It should be noted that passage of the Final Oral Examination is necessary but it is not sufficient for award of the degree; the dissertation must be accepted, as the ultimate step.

Students will complete all requirements for the M.D. Degree that must be met by students admitted to the program with either a baccalaureate or master’s degree, with the following exceptions:

- baccalaureate degree holders will be allowed to double count 10 research credits (E SC 600/E MCH 610) toward professional credits for the M.D. degree; and,
- master’s degree holders will be allowed to double count 5 research credits (E SC 600/E MCH 610) applied to the Ph.D. ESMCH degree toward professional credits for the M.D. degree.

Students may take the Candidacy Examination after completing 18 credits of approved graduate course work.

- master’s degree holders admitted to the Joint M.D./Ph.D. program may take the Candidacy Examination in the Spring Semester of Year G1, but no later than the Fall Semester of G2.
- baccalaureate degree holders admitted to the Joint M.D./Ph.D. program may take the Candidacy Examination within 3 semesters of entry into the Ph.D. program (expected to be the Fall Semester of G2).

Upon successfully completing the Candidacy Examination, students should appoint their doctoral committee.

The Comprehensive Examination may be taken in a semester following the Candidacy Examination. The Comprehensive Examination must be completed at least one semester prior to submission of the dissertation.

Students must prepare and submit a scholarly dissertation that demonstrates comprehensive and in-depth knowledge of a topic in Engineering Science and Mechanics. The contents and conclusions of the dissertation must be defended at the time of the Final Oral Examination. The scholarly research should be suitable for submission for publication in a refereed journal as approved by the student’s advisor(s). Normally, the Final Oral Examination may not be scheduled until at least three months after the Comprehensive Examination.

Following completion of the Ph.D. dissertation, students will return to medical school to complete Years M3 and M4 of the professional M.D. degree.

Other Relevant Information

Continuous registration is required for all students until the thesis or engineering report is approved.

Student Aid

Research and Teaching Assistantships (half time) are granted to a majority of graduate students in good academic standing. Financial support is ordinarily limited to three semesters for full-time master’s degree students, and six semesters for full-time Ph.D. students.

In addition to the fellowships, traineeships, graduate assistantships, or other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

- THEODORE HOLDEN THOMAS, JR., MEMORIAL SCHOLARSHIP—Available to undergraduate or graduate students who display outstanding ability and have entry in the Department of Engineering Science and Mechanics. Apply to the Department of Engineering Science and Mechanics, 212 Earth-Engineering Sciences Building. Deadline is February 1.

The Pennsylvania State University
DR. RICHARD LLORENS GRADUATE AWARD IN ENGINEERING SCIENCE AND MECHANICS - Provides recognition and financial assistance to graduate students pursuing a degree in Engineering Science and Mechanics who have achieved academic excellence. Apply to the Department of Engineering Science and Mechanics, 211 Earth-Engineering Sciences Building. Deadline is February 1.

RICHARD P. MCNITT SCHOLARSHIP IN ENGINEERING SCIENCE AND MECHANICS - Available to undergraduate or graduate students enrolled in the Department of Engineering Science and Mechanics who have achieved superior academic records or who manifest promise of outstanding academic success. Apply to the Department of Engineering Science and Mechanics, 212 Earth-Engineering Sciences Building. Deadline is February 1.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

ENGINEERING MECHANICS (E MCH) course list
ENGINEERING SCIENCE (E SC) course list

Review Date: 06/12/2012
Faculty linked: 6/9/14
Engineering Science (E SC)

The Graduate Faculty, Penn State Harrisburg

The Program
A program leading to the degree of Master of Engineering with a major in Engineering Science is offered at Penn State Harrisburg. The program is designed to provide a broad, advanced education in the engineering sciences with some specialization permitted in the area of the student's major interest. It is offered specifically to permit practicing engineers to pursue advanced studies through evening classes while in full-time employment in industry in the area. Courses offered for the program are all established and authorized by the resident departments at the University Park campus.

Admission Requirements
Scores from the graduate Record Examinations (GRE) are not required for students holding baccalaureate degrees from accredited U.S. educational institutions. At the discretion of a graduate program, students may be admitted for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements state in the GENERAL INFORMATION section of the Graduate Bulletin.

Students may be admitted to the program from a wide variety of disciplines. Students applying for admission are expected to have completed the following core courses: (1) physics through modern physics; (2) mathematics through differential equations; (3) one course in engineering thermodynamics; (4) one course in electrical circuits; (5) basic courses in engineering statics, dynamics, and strength of materials; and (6) computer programming. Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

English Proficiency—The language of instruction at Penn State is English. All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) and submit the results of that test with the application for admission. Departments and programs may have more stringent requirements and may require all international applicants to submit a TOEFL or IELTS score regardless of their academic background. A TOEFL score of at least 550 (paper-based test), 213 (computer-based test) or a total score of 80 on the Internet-based test (iBT), with a minimum of 19 points on the speaking section, is required for admission. Graduate programs may require a higher score. The International English Language Testing System (IELTS) module provides an exam to test four mandatory skill areas: listening, reading, writing and speaking. All four modules are equally weighted in the evaluation process. The International English Language Testing System has been approved by the Graduate Council as an alternative exam to the TOEFL for international students applying to Penn State. A minimum composite score of 6.5 on the IELTS test is required for admission.

Completed International Application material must be submitted by the following deadlines: May 31 for the fall semester; September 30 for the spring semester; February 28 for the summer session. Applications received after these deadlines will be processed for the following semester.

Applicants should submit the following:
—A graduate online application with the application fee;
—Official copies of undergraduate transcripts;
—Three (3) letters of reference, especially those from faculty who can evaluate academic potential;
—A personal statement of technical interest, goals, and experience.

NOTE: Test scores from the Graduate Record Examination (GRE) are required ONLY for those applicants indicating interest in an assistantship.

Degree Requirements
The credit requirements in this major will be satisfied by an appropriate combination of core courses and elective courses. The core courses include offerings in mathematics and in several branches of engineering that have been selected because of their general character and breadth of applicability to all fields of engineering. A minimum of 30 credits is required, of which at least 18 must be at the 500 level. Of the 30 credits, 6 credits of mathematics and a scholarly written report (3 credits) must be completed.

This program should be distinguished from the graduate program in Engineering Science at University Park campus, which offers the M.S. degree.

Other Relevant Information
More details regarding admission requirements are available from the directors of the graduate centers offering the program.

Student Aid
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Degree Conferred:
M.P.S.

The Graduate Faculty

Master of Professional Studies in Enterprise Architecture Program Description

The Master of Professional Studies Program in Enterprise Architecture (MPS/EA) is a unique program designed for professionals aspiring to advance to roles with enterprise wide scope and authority, such as that embodied by an enterprise architect. The MPS/EA provides a comprehensive educational experience in the principles and practice of Enterprise Architecture (EA) and integrates both business and enterprise technical knowledge. The program includes courses in project management, enterprise architecture, cost and value management, organizations, business and project strategy, enterprise modeling, the layers of the enterprise information technology architecture, enterprise architecture case studies, scholarship in enterprise architecture, and leadership, governance and change for enterprise architecture.

Admission Requirements

Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Applicants must hold either (1) a baccalaureate degree from a nationally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a nationally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in which it operates.

Since the program is multidisciplinary in nature, students from many disciplines may be acceptable for entry into the program. The most qualified applicants will be accepted in the program until all available spaces for new students are filled.

Consideration for admission into the program will be granted to individuals who meet one of the following sets of criteria:

- An approved baccalaureate degree with a minimum grade point average of 2.75 or above, (on a 4.00 scale) a minimum of five years of relevant work experience, three letters of reference, and a one-three page personal statement of relevant experience and goals.
- An approved baccalaureate degree with a minimum of a 3.00 (on a 4.00 scale) grade point average, a minimum of two years of relevant work experience, three letters of reference, and a one-three page personal statement of relevant experience and goals.
- A graduate degree, a minimum of one year of relevant work experience, three letters of reference, and a one-three page personal statement of relevant experience and goals.
- An approved baccalaureate degree, successful completion of three courses in the program with a minimum of a 3.50 (on a 4.00 scale) grade point average as a non-degree graduate student, at least two years of relevant work experience, and a one-three page personal statement of relevant experience and goals.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

MPS/EA Degree Requirements

The Master of Professional Studies in Enterprise Architecture (MPS/EA) program requires a minimum of 36 credits. At least 18 credits must be courses at the 500-level and above (with at least 6 credits of 500-level). A student will take 30 credits of required courses. The remaining 6 course credits of electives are selected from a list of approved courses. The courses will be delivered online through the World Campus.

Required Courses (30 credits)

Elective Courses (6 credits)

Elective courses are available in
Supply Chain - MIS 404(3), SCM 800(4), SCM 810(4), SCM 820(4)
Enterprise Integration - IST 420(3), IST 421(3), IST 423(3)
Security - IN SC 561(3), IST 454(3), IST 554(3)
Project Management - MANGT 520(3), MANGT 535(3)
Independent Studies - IST 596(1-3)

Language and Communication. All candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both orally and in writing commensurate with the requirement of professional work.

Pattern of Course Scheduling for MPS/EA program

The program is highly flexible and is designed to meet the different needs of students and organizations. The courses will be delivered online through the World Campus. With online delivery, the professional master program can easily fit into the work schedule of professionals from around the globe.

Degree Conferred:
M.Ed.

The Graduate Faculty

The Program
The M.Ed. in Earth Sciences program is designed for secondary science teachers who seek to enrich their knowledge and practice through rigorous courses and individual projects supervised by Penn State faculty members. Combining graduate courses from academic departments in Penn State’s College of Earth and Mineral Sciences, College of Education, and Eberly College of Science, the curriculum will prepare teachers to help students in grades 7 through 12 master educational objectives related to Earth and space science, as specified in National Science Education Standards (National Academy of Sciences, 1996). To accommodate working teachers who are only able to study part-time and at a distance, courses will be offered online through Penn State’s World Campus. Fall, Spring, and Summer semester offerings will be available. Students will be granted licenses to use the courseware modules developed for the M.Ed. in Earth Sciences program in their secondary classrooms.

Admission Requirements
The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a masters degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British west Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, The United States, and Wales.

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Students may initially enroll in M.Ed. in Earth Sciences classes as non-degree graduate students. Up to 15 credits earned in non-degree status may be counted toward the M.Ed. in Earth Sciences degree.

Master's Degree Requirements
The M.Ed. in Earth Sciences degree is conferred upon students who earn a minimum of 30 credits while maintaining an average grade of 3.0 or better in all course work, including at least 18 credits at the 500 level or above (with at least 6 credits at the 500 level), and who complete a quality culminating individual project in consultation with a graduate adviser. Students will have the opportunity to participate in face-to-face field experiences or workshops at University Park or other locations during Summer sessions.

Student Aid
Graduate assistantships are not available. Financial aid opportunities for part-time students who participate through the World Campus are discussed at http://worldcampus.psu.edu/StudentServices_Paying.shtml.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

E-mail: dme9@psu.edu, jep32@psu.edu, mwr1@psu.edu

**Degrees Conferred:**
Ph.D., M.S.

**The Graduate Faculty**

**The Program**
This intercollege program emphasizes the properties of ecosystems by focusing attention on interactions of single organisms, populations, and communities with their environment. It is designed to give students a basic understanding of ecological theory and hypothesis testing and is complementary to other environmental programs that emphasize the human role in ecosystems.

The program is administered by a committee drawn from faculty members in several departments and colleges of the University. This committee and its chair are appointed by the dean of the Graduate School. The instructional staff is composed of participating faculty in those departments offering graduate courses in fields closely allied to ecology.

The advisory committee is selected by the candidate and his/her adviser and approved by the Graduate School. The committee has the responsibility for determining the course program and research acceptable in satisfying degree requirements.

Four options for specialization are offered: Quantitative Ecology, Microbial Ecology, Conservation Biology and Physiological Ecology. Students are not required to select an option. The quantitative ecology option includes mathematical and statistical modeling and applications of statistics to experimental design and data analysis. The microbial ecology option includes basic aquatic and soil microbial ecology and applications to recycling of materials and release of genetically engineered organisms. The conservation biology option is concerned with problems of maintaining the rapidly disappearing diversity of organisms and their habitats, and the global reservoir of genetic diversity that these organisms represent. The physiological ecology option is concerned primarily with the function and performance of organisms in their environment. Each option entails extra course requirements plus a thesis directed by an ecology faculty member in the option. Additional information can be obtained from the option coordinators.

**Admission Requirements**
Scores from the Grade Record Examination (GRE), including verbal, quantitative, and advanced biology test, are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Candidates should have a strong science background, including chemistry through organic chemistry, mathematics through calculus, physics, and biology. A limited number of such courses can be made up while the student is pursuing graduate student.

Students with a background in another discipline that has potential value to original ecological work will be seriously considered. A junior/senior grade-point average of 3.00 or better (on a 4.00 scale) is required.

Students are strongly urged to choose their research interests and initiate communication with the relevant faculty member(s) before applying for admission. A student will not be admitted without the commitment of a faculty member to serve as the student's research adviser. Teaching and research assistantships are available only through the student's faculty adviser.

The top sheet (white copy) of the application and application fee are to be sent to the Graduate School. The applicant should forward the following directly to the program chair: (1) pink copy of the application; (2) three or more letters of recommendation regarding the student's academic and professional promise; (3) a concise one-page statement describing the student's goals both within the program and in professional life; and (4) GRE scores (general test and the subject test in biology) Specific inquiries about the Ecology Program may be directed to the program chair. Applications should be submitted by February 1 for summer or fall semester admission.

**Master's Degree Requirements**
In addition to Graduate School requirements, the instructional program includes two graduate core courses in ecology (one each in two of the three core areas: population ecology, community/ecosystem ecology, and physiological ecology), an advanced 3-credit statistic course, two credits of colloquium, a minimum of six thesis credits, breadth courses selected by the student in consultation with the research adviser and research committee, and a thesis research project directed by the student's adviser. A nonthesis option is available for the M.S. degree, at the adviser's discretion.

**Doctoral Degree Requirements**
In addition to Graduate School requirements, the instructional program includes three graduate core courses in ecology (one each in three core areas: population ecology, community/ecosystem ecology, and physiological ecology), two advanced 3-credit statistics courses, 4 credits of colloquium, breadth courses selected by the student in consultation with the research adviser and research committee, a minimum of 15 thesis credits, and a thesis research project directed by the student's adviser.

The communication and foreign language requirement for the Ph.D. degree may be satisfied by strong performance in two semesters of one foreign language or the equivalent. Both the candidacy and comprehensive examinations will be written and oral.

**Biogeochemistry Dual-Title Degree Program**
Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisers from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student's Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student's doctoral committee should include faculty from the major program of study and also faculty with expertise in biogeochemistry. The field of biogeochemistry should be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.

**Watershed Stewardship Option**
The Graduate Option in Watershed Stewardship is intended to provide enhanced educational opportunities for students with an interest in water resources management who are enrolled in the Intercollege Graduate Degree Program in Ecology at the University Park campus. The objective of the Graduate Option in
Watershed Stewardship is to educate students to facilitate team-oriented, community-based watershed management planning directed at natural resources conservation and environmental problems encountered in Pennsylvania communities, especially non-point source water pollution. The Graduate Option in Watershed Stewardship requires 22 credits of graduate course work: 12 credits of breadth courses, 2 credits of Watershed Stewardship Seminar courses (FOR 591A and FOR 591B or LARCH 510.2), and 8 credits of Watershed Stewardship Practicum I and II courses (FOR 570 and FOR 571 or LARCH 540.2 and LARCH 550.2). Breadth courses will consist of three graduate credits of course work from each of four subject matter areas: (1) water resources science, (2) social science, public policy and economics, (3) humanities, and (4) communications and design. In the watershed stewardship practicum courses, students work in teams with community, government, and business leaders to analyze and understand natural resources and ecological issues and creatively synthesize appropriate solutions in the form of a written watershed management plan.

Other Relevant Information
Detailed descriptions of courses now available for students majoring in ecology may be found under the offerings of several ecologically oriented departments.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

econgrad@psu.edu

**Degrees Conferred:**  
Ph.D., M.A.

**The Graduate Faculty**

**Admission Requirements**

Requirements listed here are in addition to general Graduate School requirements stated in the General Information section of the Graduate Bulletin.

Graduate study in Economics relies heavily on abstract mathematics. It is recommended that, at a minimum, applicants should have taken mathematics up through multivariate calculus.

We require that applicants take the 3-part general aptitude GRE. In judging applicants, we try to take into account that different applicants expend different amounts of effort in preparing for the GRE and that there are systematic differences among applicants from different countries. We require that the GRE be taken within 5 years prior to applying to our Ph.D. program. (Institution Code: 2660; Department Code: 1801)

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. (Institution code: 2660; Department code: 84)

International applicants who have received a bachelor’s or a graduate degree from a college/university in any of the following countries are exempt from the TOEFL/IELTS requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

We place considerable weight on, and require three (3) letters of recommendation. Letters should be from people who know you well and who are familiar with graduate programs in Economics at leading universities. The most valuable letters are from people who can credibly compare you to others who have succeeded in such programs.

Highly successful Ph.D. students in Economics display a wide variety of research skills, including creativity. The questions we ask on the application are intended to elicit information about those skills. Also, if you have completed a paper that displays such skills, upload it via the GRADS online application system.

**Requirements for Graduate Degrees**

The Ph.D. - The Ph.D. program has 3 main parts taken in sequence: the core, subfields (of specialization), and the dissertation. Most students take 5 years to complete the program. Occasionally, but rarely, a student finishes in 4 years.

The Core - The core consists of 2 semesters of course work: a 2-semester sequence in microeconomic theory, a 2-semester sequence in econometrics, and a course in mathematics for economists followed by an intensive single-semester in macroeconomic theory. At the beginning of the third semester, students are required to take two 3-hour candidacy exams: one in microeconomics and one in macroeconomics. Students who fail an exam on their first attempt are allowed to take the exam a second time. Competence in econometrics must be demonstrated through satisfactory completion of the coursework. Students with prior graduate training may, however, obtain permission to skip some of the coursework in the core and take the candidacy exams earlier than the 3rd semester.

Subfields - Students must demonstrate competence in 3 subfields. Competence in a subfield is usually demonstrated by completing 6 credits in the subfield with no grade lower than a B.

The department offers the following subfields: development economics, econometrics, game theory, industrial organization, international economics, and macroeconomics.

With the permission of the student’s advisor and the Director of Graduate Studies, a student may take a subfield in another department. For instance, students have taken subfield courses in Demography, Political Science, and Statistics.

The Pennsylvania State University
3rd-year paper requirement must be completed before spring semester of 3rd year

Comprehensive exam (dissertation proposal defense) must be completed before fall semester of 4th year

Empirical Methods Course I & II -- (ECON 512A & ECON 512B) In their second year, all students must enroll in ECON 512A Empirical Methods in Economics I (1 credit offered in the fall.) This course introduces students to computational methods used to numerically solve and simulate economic models and program econometric estimators. Also, all students in their second year must enroll in ECON 512B Empirical Methods in Economics II (2 credits offered in the spring semester.) This course is a continuation of ECON 512A covering the modern computational methods used in both theoretical and empirical research in economics. Students will be required to work on a small project involving data analysis.

3rd-Year Paper - Students must complete a paper by the end of their 5th semester, the spring semester of their 3rd year. The paper must be approved by a 3-person faculty committee. The paper must contain original research and must be written in a form suitable for submission to a journal.

Dissertation Research - Most dissertations consist of several essays, each of which has the substance and quality of a journal article. However, a dissertation which has the substance and quality of a single major article in a leading journal is also acceptable. The comprehensive exam (dissertation proposal defense) must be completed before fall semester of 4th year. The student will spend the 4th year and the beginning of the 5th year completing the dissertation and will use the summer after the 4th year and the beginning of the 5th year in preparation for the job market.

Dual-Titled Graduate Degree Programs - Occasionally students construct a dual-title graduate degree program. One such program is Economics and Demography. Another is Economics and Operations Research. Details may be obtained by clicking the links above or from the Graduate Director.

Good Standing. A student must remain in "good standing" while in the program. This means following the course sequence outlined above, maintaining a GPA of at least 3.0 and completing the candidacy, third-year paper and comprehensive exam requirements on time.

The M.A.
The M.A. degree in economics may be earned by (a) satisfactorily completing at least 24 credits of appropriate graduate course work, together with a master's dissertation for which 6 credits is granted, and passing a final oral examination; or (b) by satisfactorily completing 30 credits of appropriate course work, presenting a master's essay for which no graduate credit may be granted, and passing a final oral examination. The master's essay option, which most students elect, includes preparation of a paper which is written under the supervision of a faculty member. Under either option, at least 18 credit hours must be in approved graduate courses.

The department does not admit students who seek an M.A. as a terminal degree.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Educational Leadership (EDLDR)

Program Home Page
DANA MITRA, Director of Graduate Studies
302A Rackley Building
814-863-7020

Degrees Conferred:
Ph.D., D.Ed., M.Ed.

The Graduate Faculty

The Program

Graduate work in the Educational Leadership program encompasses two major career paths. The first path focuses on those who want to engage in a wide variety of leadership roles within and directly affecting schools and districts. These roles include, but are not limited to teacher leadership, instructional leadership, principal leadership, and district-level leadership. This path may also lead to certification and/or letters of endorsement in supervision, the principalship or the superintendent/ship. The second path focuses on those who want to exercise leadership roles in educational policy arenas and/or engage in educational research. Possible roles include: intermediate unit officials, state and federal agency administrators and staff, professors of educational administration, and research and development personnel. The principalship certification is also available at Penn State Harrisburg. The teacher leadership path and principal certification may also be pursued in the online M.Ed.

The M.Ed. in Educational Leadership is designed for students who wish to pursue leadership positions in educational organizations.

Admission Requirements

Scores from the Miller Analogies Test (MAT), the School Leadership Examination (SLE), and the Graduate Record Examinations (GRE) scores or Graduate Management Admissions Test (GMAT), may be substituted. At the discretion of a graduate program, a student may be admitted provisionally. Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The Educational Leadership program requires all graduate program applicants to submit three reference letters, official copies of undergraduate and graduate transcripts, a short review of a professional journal article of the applicant's choosing (along with a copy of the actual article), a brief personal statement of intent, and a current resume or CV. Applicants must present evidence of at least a 3.0 grade-point average in the last two years of undergraduate work. A grade-point average of 3.50 in prior graduate work is required of those desiring admission to enter a doctoral program. The best-qualified students will be accepted up to the number of spaces available. Special backgrounds and experiences may allow for conditional admission to those not meeting stated criteria.

More details concerning the degree and certification programs are available on the program web page.

All students interested in pursuing degrees or certification in EDLDR must be admitted to both the Graduate School and the academic program. Students entering the on-line degree must register through the World Campus for their first class. The requirements listed below are in addition to the general Graduate Council requirements as stated in the GENERAL INFORMATION section of the Graduate Bulletin. Scores from the Miller Analogies Test (MAT), the Graduate Record Examinations (GRE), or some other pertinent standardized test are not required for admission to professional degree programs in Educational Leadership, and this includes the online M.Ed in Educational Leadership.

We anticipate that the on-line M.Ed. in Educational Leadership will attract a small number of international students as well as those in the United States. In accordance with Graduate Council requirements "The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with exceptions noted below.

The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test or a total score of 80 with a 19 on the speaking section for the internet-based test.

Complete details concerning the TOEFL/IELTS requirements are available ATP://waterspout/index.cfm/prospective-students/requirements/.

The Educational Leadership Admission Committee, on a rolling basis, will review all applications. Admission decisions are made using all of these data listed above.

Master's Degree and Certification Requirements

All candidates for the M.Ed. degree will complete a minimum of 30 credits. Certification for various public school administrative positions requires additional graduate work beyond the master's degree and such requirements as specified on the program web page.

M.Ed. students also must complete a capstone project as described below.

The M.Ed. in Educational Leadership is a 30-credit M.Ed. program. The three designated emphases for this M.Ed. are Teacher Leadership, School Leadership, or a "General" M.Ed.

<table>
<thead>
<tr>
<th>Teacher Leadership</th>
<th>School Leadership</th>
<th>General M.Ed.</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDLDR 540 Technology Applications in Educational Leadership (3 cr)</td>
<td>EDLDR 540 Technical Applications in Leadership (3 cr)</td>
<td>18 credits of Educational Leadership coursework required, with a total of 30 credits, inclusive of EDLDR 521. 18 of the 30 credits must be at the 500 or above level. Students may select their 18 credits of EDLDR courses from the following: EDLDR 480, 521, 530, 540</td>
</tr>
</tbody>
</table>

The Pennsylvania State University
This emphasis is created and defined through the interaction of student and adviser based on the student’s career path.

The final courses in all three emphases (EDLDR 894A, EDLDR 595 and EDLDR 521) are project-based courses that represent the culmination of academic work toward the M.Ed. degree. Course requirements involve the development of a final capstone project focused on evaluation, analysis, or application of concepts first introduced and developed over the course of the student’s M.Ed. program. The project should be planned in coordination with an EDLDR faculty member who agrees to serve as the student’s adviser for this project and must reflect an appropriate degree of graduate-level scholarship, as determined by the adviser.

**Doctoral Degree Requirements**

Candidates for the D.Ed. degree are required to spend at least one semester and one summer session consecutively in full-time residence during a twelve-month period. Ph.D. candidates are strongly encouraged to spend two academic years in residence, but must spend at least two consecutive semesters in residence. D.Ed. candidates may satisfy the residence requirement in another manner consistent with Graduate Council policy, including attendance at the day-long seminars offered weekly every other academic year. Candidates for all degrees are required to combine work in the social sciences and humanities with the specialization in Educational Leadership.

Expectations of candidates for both the D.Ed. and Ph.D. are high in the field of research competence and require the ability to identify and conceptualize a research problem for the thesis. The D.Ed. is more appropriate for those with career goals in administration and policy making. The Ph.D. is more appropriate for those with career goals in research and scholarship.

After the doctoral student has been admitted to a doctoral program and has completed 40 to 45 hours beyond the bachelor’s degree, his or her name is submitted by the adviser to the EDLDR faculty, who examine student’s academic record and potential for future success in completing the degree. Students are either passed to candidacy or required to take further course work. After a student is admitted to candidacy for the doctoral degree, he or she will take the comprehensive written examination. As part of the process, the student, in consultation with an adviser, must form a doctoral committee to monitor the final phase of the degree program. This committee consists of faculty members who assist in assessing the student’s progress, guide the construction of a dissertation proposal, and, later, provide input during the execution of the research and participate in the final oral examination of the student’s dissertation. The committee consists of a minimum of four members of the Graduate Faculty. At least two committee members must be members of the Educational Leadership faculty with one member being from an area outside the major (e.g., Outside Field Member). The chair of the committee must be an EDLDR faculty member, and the adviser of the dissertation must be a member of the committee. The Graduate Bulletin states “...the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation/performance adviser’s primary appointment is held (i.e., the adviser’s administrative home,...).” This “Outside Unit Member” may be the same as the Outside Field Member.

**Other Relevant Information**

American Indian students participate in a special administrator preparation program. Foreign students can work on research topics in their home nations.

**Student Aid**

Graduate assistantships available to students in this program and other forms of student aid are described in the [STUDENT AID](#) section of the [Graduate Bulletin](#).

edpsy@psu.edu

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program

The graduate program in Educational Psychology focuses on the study of learning, instruction, and measurement across the life span. The learning and instruction emphasis applies the study of cognitive psychology to research on learning and instruction in applied settings like schools. The course of study provides a strong foundation in psychological theory, principles related to instructional applications, and quantitative methodology. The measurement emphasis applies cognitive psychology and theories of measurement to test design, instrument construction, scale analysis, and measurement theory. The Educational Psychology program emphasizes the use of rigorous quantitative methodology in the scientific study of learning, instruction, and measurement in applied settings. Typically this program prepares individuals for professions in universities, research institutions, government agencies, and industry. Individuals interested in more clinical applications of psychology, such as counseling psychology or school psychology should contact those specific graduate programs in the University.

Admission Requirements

Applications are required to submit scores from the Graduate Record Examinations (GRE) verbal, quantitative, and analytic writing. Successful applicants typically score above 500 on both Verbal and Quantitative on the GRE, or above 153 on Verbal and above 144 on the Quantitative sections of the revised GRE. Typically applicants have at least a 3.0 junior/senior grade-point average (on a 4.0 point scale) and broad undergraduate background including college level mathematics. Exceptions may be made for students with special backgrounds, abilities, and interests. Applicants with a master's degree will be required to show strong performance in their graduate program. Applicants will also supply letters of reference and a written statement of their professional goals. The requirements specified here are in addition to the Graduate Council requirements stated in the Graduate Bulletin.

Admission requirements for international students include proof of English language proficiency. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Master's Degree Requirements

Students in the master's degree program are required to take 30 credits, including core courses EDPSY 421, 450, 475 and 505. The 30 credits must be at the 400 level or higher, and at least 18 of those credits must be at the 500 level or higher. Students will also take at least one foundational course in educational theory, philosophy, or individual differences. The remaining credits will be taken in a way to develop the student's area of specialization, in consultation with the student's adviser. The program offers two pathways, M.S. with a thesis, and an M.S. without a thesis. Students wishing to go on to the Ph.D. are required to complete the M.S. with thesis.

Doctoral Degree Requirements

Students in the doctoral degree program will select a major emphasis in either educational psychology or measurement. Students in the doctoral program must complete the core courses as listed in the master's program. All students must also have at least one advanced-level course in learning and measurement. Students will also have three courses spread across the foundational areas of educational theory and history, philosophy, and individual differences. Students must pass a candidacy examination to enter into the doctoral program, assessing their mastery of the content in the core courses. Students must also pass a comprehensive examination assessing their areas of specialization near the end of their doctoral studies. Students are also expected to develop and defend a theoretically based scholarly research proposal that will become their dissertation project. The doctoral program culminates in the production of and defense of the student's dissertation that is expected to be a publishable quality independent research study. All of these requirements are specified in more detail in the student handbook and/or the Graduate Council's doctoral degree requirements. (http://bulletins.psu.edu/graduate/degreerequirements/degreeReq).

Doctoral Minor

At the doctoral level, a minor is also possible in EDPSY. Like all doctoral minors, it requires at least 15 credits of work within the program; the specific requirements for the doctoral minor in Educational Psychology are EDPSY 421, EDPSY 450, and EDPSY 505, plus at least two other courses in EDPSY, in consultation with the minor adviser. The minor adviser should be a member of the Graduate Faculty and should be appointed to the student's doctoral committee as early as possible. Anyone interested in the minor should talk to a faculty member in EDPSY.

Student Aid

All applicants are considered for Graduate Assistantships that are available in the program. Typically these assistantships provide tuition waiver plus a stipend.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Engineering Design (EDSGN)

http://www.seeapp.psu.edu/design

SVEN G. BILEN, Head of the School of Engineering Design, Technology, and Professional Programs
213 Hammond Building
814-865-7569

Degrees Conferred:
M.S., M.Eng.

The Graduate Faculty
Sven G. Bilen, Ph.D. (Michigan), P.E. Associate Professor of Engineering Design, Electrical Engineering, and Aerospace Engineering
Richard F. Devon, Ph.D. (California, Berkeley) Professor of Engineering Design
Kathryn Jablouk, Ph.D. (Ohio State) Associate Professor of Mechanical Engineering
Guil E. Okudan Kremer, Ph.D. (Missouri - Rolla) Professor of Engineering Design and Industrial Engineering
Scarlott Miller, Ph.D. (Illinois, Urbana - Champaign) Assistant Professor of Engineering Design and Industrial Engineering
Sandeep Purao, Ph.D. (Wisconsin - Milwaukee) Professor of Information Sciences and Technology
Conrad Tucker, Ph.D. (Illinois, Urbana - Champaign) Assistant Professor of Engineering Design and Industrial Engineering
Matthew B. Parkinson, Ph.D. (Michigan) Associate Professor of Engineering Design and Mechanical Engineering
Timothy W. Simpson, Ph.D. (Georgia Tech) Professor of Industrial Engineering and Mechanical Engineering

Students may specialize in Engineering Product Design, Systems Design and Data-Driven Design. Engineering Product Design addresses the identification of consumer preferences and requirements, the evaluation of existing products and product families, and the development of innovative designs. Systems Design examines the role components play within systems and the optimization of systems as a whole. This includes defining and developing a variety of systems that satisfy user requirements. Data-Driven Design focuses on using data to motivate and inform design decisions and assess current product performance.

Admission Requirements
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates a bachelor’s degree from a U.S. regionally accredited institution or a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.

Applicants with at least a 3.00 junior/senior grade-point average (on a 4.00 scale) and appropriate course backgrounds may be considered for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

All applicants must provide the department with official transcripts of all their previous course work (in duplicate); international applicants must submit official transcripts, degrees, and diploma certificates in both English and their native language. Photocopies will not be accepted. Applicants must also submit scores from the GRE® revised General Test (verbal reasoning, quantitative reasoning, and analytical writing), a statement of objectives, resume, and three letters of recommendation.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants for fall admission who wish to be considered for financial aid should complete the application process prior to DECEMBER 15 of the preceding year.

Degree Requirements
Master of Science (M.S.) Degree Requirements. The M.S. degree is an academic degree, which is strongly oriented toward research. To receive the Master of Science degree in Engineering Design, a student must complete at least 32 credits beyond the baccalaureate degree. At least 18 credits in the 500 and 600 series, combined, must be included in the program. A minimum of 12 credits in course work (400 and 500 series), as contrasted with research, must be completed in the major program. A thesis is required and at least 6 credits of thesis research (EDSGN 600/610) must be included in the program.

REQUIREMENTS FOR THE PROGRAM - 32 credits
A minimum of 32 graduate credits is required as follows: focus area elective courses (12 cr.), general electives (6 cr.), engineering design studio (6 cr.), engineering design portfolio (1 cr.), colloquium (1 cr.), thesis research (6 cr.)

Students must take the following 8 credits: EDSGN 581 (3), EDSGN 582 (3), EDSGN 585 (1), EDSGN 590 (1)

Students must select a minimum of 12 credits of focus area electives from: EDSGN 401 (3), EDSGN 479 (3), EDSGN 547 (3), EDSGN 548 (3), EDSGN 549 (3), EDSGN 558 (3), EDSGN 559 (3)

Students must select 6 credits of general electives from: I E 418 (3), I E 460 (3), I E 470 (3), I E 520 (3), I E 557 (3), I E 563 (3), IST 413 (3), IST 520 (3); IST 521 (3); M E 561 (3), M E 565 (3); MANGT 510 (3); SYSEN 550 (3), SYSEN 555 (3) or from a list of approved courses maintained by the program

Students must take 6 credits of EDSGN 600/610

The M.S. in Engineering Design requires the completion of an M.S. thesis and the Engineering Design Portfolio.

Master of Engineering (M.Eng.) Degree Requirements
The M.Eng. degree is a non-thesis professional master’s degree that provides training for advanced professional practice. To receive the Master of Engineering degree in Engineering Design, a student must complete at least 32 credits beyond the baccalaureate degree, and a scholarly report based on an independent studies course (EDSGN 596), or a domestic (ENGR 595A) or international (ENGR 595I) internship experience, and an engineering design portfolio (ENGR 595). A minimum of 18 credits must be in the 500 series.

REQUIREMENTS FOR THE PROGRAM - 32 credits
A minimum of 32 graduate credits is required as follows: focus area elective courses (12 cr.), general electives (9 cr.), engineering design studio (6 cr.), engineering design portfolio (1 cr.), colloquium (1 cr.), independent studies (3 cr) or domestic or international internship (3 cr)

Students must take the following 8 credits: EDSGN 581 (3), EDSGN 582 (3), EDSGN 585 (1), EDSGN 590 (1)

Students must select a minimum of 12 credits of focus area electives from: EDSGN 401 (3), EDSGN 479 (3), EDSGN 547 (3), EDSGN 548 (3), EDSGN 549 (3), EDSGN 558 (3), EDSGN 559 (3), EDSGN 560.
Students must select 9 credits of general electives from: I E 418 (3), I E 460 (3), I E 470 (3), I E 520 (3), I E 557 (3), I E 563 (3), IST 413 (3), IST 520 (3), IST 521 (3), M E 561 (3), M E 565 (3), MANGT 510 (3), SYSEN 550 (3), SYSEN 555 (3) or from a list of approved courses maintained by the program. Students must take EDSGN 596 (3), or ENGR 595A (3), or ENGR 595I (3).

The M.Eng. in Engineering Design requires the completion of a scholarly paper and the Engineering Design Portfolio.

Other Relevant Information

All graduate students must participate in Scholarship and Research Integrity (SARI) training by completing the online University module offered through the Office of Research Protections (ORP) during their first year of study and 5 hours of discussion-based training. To satisfy the 5-hour discipline-specific discussion-based training, SEDTAPP will provide 2 hours of training as part of their colloquium; the remaining 3 hours of training can be satisfied through College or ORP offerings. These requirements must be met before graduation.

Student Aid

Graduate assistantships and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. International students must take AEOCPT and score between 250 and 300 in order to begin a teaching assistantship; students who require remediation may be assigned a teaching assistantship only after addressing the deficiencies identified by the test.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Educational Theory and Policy (EDTHP)

Program Home Page,
DANA MITRA, Director of Graduate Studies
302A Rackley Building
814-863-7020
EDTHP@psu.edu

Degrees Conferred:
Ph.D., M.A.

The Graduate Faculty

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Students with a 2.75 grade-point average will be considered for admission to the master's program, and with a 3.00 grade-point average at the master's level for the Ph.D. program. Exceptions to the minimum grade-point average may be made for students with special backgrounds, abilities, and interests.

Master's Degree Requirements
Candidates who seek an M.A. in Educational Theory and Policy shall complete programs that will include studies in social theory, policy, and planning or in the social sciences or humanities. A thesis is required.

Doctoral Degree Requirements
Candidates who seek a Ph.D. in Educational Theory and Policy shall complete programs that will include studies in social theory, policy, and planning, or in the social sciences or humanities.

All doctoral students must pass a written candidacy examination after nine to eighteen hours of study.

Candidates for the Ph.D. degree are required to complete a minimum of two consecutive semesters in residence during an academic year.

The communication and foreign language requirements for the Ph.D. degree may be satisfied by options selected from foreign languages, statistics, computer science, logic, or other research methodologies deemed acceptable by the candidate's doctoral committee.

At the end of the program of study, each student must take a written and oral comprehensive examination that will cover the student's major areas of study.

Other Relevant Information
Upon admission, each student will be assigned to a faculty adviser whose specialization best coincides with the student's background or academic interest. For the master's degree, the adviser and student together will plan the program of study. For doctoral students, the adviser and student will plan the early aspects of study, but an interdisciplinary committee will be formed, soon after the student is admitted to candidacy, to supervise completion of a program of study.

Student Aid
Graduate assistantships available to doctoral students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Joint Degree Program between The Pennsylvania State University Dickinson School of Law (J.D.) and the Educational Theory And Policy Program (M.A., & Ph.D.)

Joint Degree Program: The Pennsylvania State University Dickinson School of Law (DSL) and the Educational Theory and Policy (EDTHP) Program are offering a joint degree program leading to a Juris Doctor (J.D.), and a Master of Arts (M.A.), or a Doctor of Philosophy (Ph.D) in Educational Theory and Policy.

Admission Requirements
The number of openings in the joint degree J.D./M.A. or Ph.D. program will be limited to students with an outstanding academic record who have successfully completed two semesters at the Dickinson School of Law.

Applicants to the joint degree program:
1. must have been admitted to the Dickinson School of Law
2. should have successfully completed two semesters of course work at the Dickinson School of Law with a grade-point average of 3.0
3. must submit two letters of recommendation from the Dickinson School of Law faculty
4. must submit a career statement

Note: Students are eligible to start taking courses in the EDTHP program after successfully completing two semesters of law school work.

College-Specific Admission Requirements
DSL: A bachelor's or equivalent degree from an accredited college is a prerequisite for admission; however, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral and written communication skills before entering law school. The following are required of applicants: a completed application form for DSL; submission of the results of the law school admission test (LSAT); completion of an LSDAS report; a one-page personal statement; employment records since high school; and two letters of recommendation.

EDTHP: The following are required of all applicants: a completed application form to EDTHP; submission of the results of the Graduate Record Examination (GRE), or LSAT; an official undergraduate transcript or transcripts; a personal statement; employment records since high school; and three letters of recommendation.

The best qualified students will be accepted for admission into the doctoral programs up to the number of spaces available. Students with a 2.75 grade-point-average (GPA) will be considered to the master's program, and with a 3.0 GPA at the master's level for the Ph.D. program. Exceptions to the...
Students will normally spend four semesters in residence at DSL and as many additional semesters in residence as needed to complete the 6 credits. All students are required to take the first-year curriculum in DSL. In the second or third year, students must take CORE 934 (Professional Responsibility). What courses may be credited will be determined by the student's degree program. Normally a maximum of twelve credits of DSL course work will be allowed.

INTERPROGRAM TRANSFER OF CREDITS

EDTHP: A minimum of 36 credits is required for the M.A. in EDTHP. At least 27 credits must be at the 400-level. Students who take advantage of this option will need to do additional work beyond the 400-level requirements and should make arrangements with the instructor ahead of time.

Ph.D. requirements

EDTHP 500 Proseminar
Research Methods (12 credits)
EDTHP/EDLDR/HI ED 586: Research Design
EDTHP/EDLDR/HI ED 586: Qualitative Methods
Research Courses: 6 credits

These are research method courses specifically related to the student’s thesis.

Theory Foundations: 12 credits*

Four theory-based 500-level EDTHP courses are required. At least one course must be a 500-level EDTHP course in the area of history or philosophy of education (e.g., EDTHP 533, 536, 540, or 541), and another must be a 500-level EDTHP course in the area of sociology or demography of education (e.g., EDTHP 516, 557, or 597 classes such as Sociology of Education or Sociology of Adolescence). After a student has consulted with his or her advisor, one 400-level course may be substituted for EITHER one 500-level Theory course OR one 500-level Policy course, depending on the nature of the 400-level course. Students who take advantage of this option will need to do additional work beyond the 400-level requirements and should make arrangements with the instructor ahead of time.

Policy Foundations: 12 credits*

EDTHP/EDLDR/HI ED 587: Policy and Politics

In addition, three 500-level EDTHP courses in educational policy (e.g., EDTHP 516, 518, 520, 527, or 597 classes such as Comparative Analysis of Education Policy) are required. After a student has consulted with his or her advisor, one 400-level course may be substituted for EITHER one 500-level Theory course OR one 500-level Policy course, depending on the nature of the 400-level course. Students who take advantage of this option will need to do additional work beyond the 400-level requirements and should make arrangements with the instructor ahead of time.

*Note: Some EDTHP courses may be counted as either a Theory course or a Policy course, but they may not be double-counted.

Other: 21 credits

These include credits for minor or dual-title requirements, electives, and thesis research. A maximum of 9 professional credits and 15 academic transfer credits may be counted.

EDTHP independent study courses (EDTHP 596) will be counted only as electives unless the student consults with his or her advisor and then petitions the EDTHP faculty.

Other: 21 credits

These include credits for minor or dual-title requirements, electives, and thesis research. A maximum of 9 professional credits and 15 academic transfer credits may be counted.

EDTHP independent study courses (EDTHP 596) will be counted only as electives unless the student consults with his or her advisor and then petitions the EDTHP faculty.

The sequence of courses will be determined by the students and their advisors.

Recommended Program of Study and Advising: All students in the program will have two advisors, one from DSL and one from EDTHP. Periodic interaction between the two advisors will be encouraged. A program of study will be developed for each student, taking into account the fact that some courses are offered on a rotating or intermittent basis. Many courses are offered every year but some are offered every two or three years. Advisors will have available a

The Pennsylvania State University
list of projected relevant courses or educational experiences in order to work with the student on an individualized program of study. The standard committee structure will apply to the EDTHP programs.

**Tuition:** Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable graduate tuition to cover the EDLDR degree program. DSL tuition will be paid for the semesters in which the student is registered for DSL courses, and graduate tuition will be paid for the semesters in which the student is registered for graduate courses. A student may take up to one course (3 credit hours) per semester in the program where the student is not primarily registered without any change in tuition, but must pay additional tuition to the program that the student is not primarily registered if he or she wishes to take additional course work pursuant to that program during the semester.

**Financial Aid and Assistantships:** Decisions on financial aid and assistantships will be made by each school according to that school’s procedures.

**Fulfillment of Degree Requirements and Graduation:** All courses in one program that will count toward meeting the requirements of the other program must be completed before the awarding of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to EDTHP program requirements for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the EDTHP degree program committee (in such cases, the committee should consider whether the credits afforded such work will be subject to the twelve credit maximum for interprogram transfers). A DSL faculty member must be a member of the committee).

If for some reason the student cannot complete the requirements of the J.D., the student will still be allowed to count DSL courses already taken toward the pertinent EDTHP degree, even if he or she is no longer in the joint degree program.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

DATE LAST REVIEWED BY GRADUATE SCHOOL: 04/12/04
Last Revised by the Department: Fall Semester 2007
Blue Sheet Item #: 35-07-431
Review Date: 6/12/07
Faculty linked: 6/9/14

The Pennsylvania State University
The John and Willie Leone Family Department of Energy and Mineral Engineering provides a vertically integrated approach to research and education in all aspects of the energy and mineral industries, including scientific and engineering issues, health and safety, and maintenance of high environmental standards. The department's mission is to forge an intellectual and scientific cohesiveness in energy and mineral resource technology. This objective is achieved by exploiting the natural synergy between the exploration, extraction, processing, and utilization of energy and mineral resources so as to cater to the emerging needs of society.

The department offers advanced degrees in Energy and Mineral Engineering (M.S. and Ph.D.). The department has overall requirements for the M.S., and Ph.D. degrees with specific requirements associated with each program. The department also offers integrated undergraduate-graduate (IGU) degree programs that combine the M.S. in Energy and Mineral Engineering with each of the five B.S. degree programs: Energy Business and Finance; Energy Engineering; Environmental Systems Engineering; Mining Engineering; and Petroleum and Natural Gas Engineering.

The Energy and Mineral Engineering (EME) program is a single graduate program with a focus on the production of energy and minerals in an economic, safe and efficient manner. The program provides flexible education of students in energy and mineral sciences and engineering, with focus on both non-renewable and renewable resource and energy industries. The program is designed to resolve the sometimes competing goals of flexible education of requisite breadth while still providing in-depth study; both the Ph.D. and M.S. programs are required to show a focused curriculum that combines the requisite rigor with flexibility in a rapidly changing field of endeavor. Participating students take core program and required option courses and additional courses from a broad array of courses to meet the total credit requirements. Students are not required to choose an option. However, a student who desires disciplinary identity may choose from among the five available options: petroleum and natural gas engineering, mining and mineral process engineering, environmental health and safety engineering, fuel science, and energy management and policy.

**Admission Requirements**

Scores for the Graduate Record Examinations (GRE) are required for admission, though this may be waived at the discretion of the Energy and Mineral Engineering graduate program. The best-qualified applicants will be accepted by the Energy and Mineral Engineering graduate program up to the number of spaces available for new students. At the discretion of the Energy and Mineral Engineering graduate program, a student may be granted provisional admission. Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Admission to the Energy and Mineral Engineering graduate program in the John and Willie Leone Family Department of Energy and Mineral Engineering is competitive. Entering students must hold a bachelor's degree in a science or engineering discipline unless they are on the Integrated Undergraduate-Graduate (IGU) program. Students with 3.00 or better (out of 4.00) junior/senior cumulative grade-point averages and appropriate course backgrounds will be considered for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. Undergraduate students from the John and Willie Leone Family Department of Energy and Mineral Engineering with sixth semester standing, minimum grade-point average of 3.5, and excellent faculty recommendations may be admitted for a five-year B.S./M.S. integrated undergraduate-graduate (IGU) degree.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5. Specific graduate programs may have more stringent requirements. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British west Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, The United States, and Wales.

Letters of recommendation and an applicant's statement of purpose are also required.

**Master's Degree Requirements**

The M.S. degree program in Energy and Mineral Engineering is designed for students to gain advanced knowledge for research, analysis, and design in Energy and Mineral Engineering. Students pursuing an M.S. degree will be required to complete 24 course credits and submit a thesis (6 credits) to the Graduate Council. Described courses are EME 500(3), EME 580(3), EME 590(1), and EME 600(6); an additional 17 credits of electives are required (for options, 12 of these elective credits are prescribed). Graduate committees in the Energy and Mineral Engineering graduate program play an important role in formulating individual course and research schedules. At least 18 of the total course credits must be at the 500 level or above.

**Doctoral Degree Requirements**

The Ph.D. program in Energy and Mineral Engineering emphasizes scholarly research and help students prepare for research and related careers in industry, government, and academia. Acceptance into the Ph.D. degree program in Energy and Mineral Engineering is based on the student's performance on the Ph.D. candidacy examination administered by the faculty of the EME graduate program. A comprehensive examination is required of all Ph.D. candidates and should be taken after substantial completion of course work. The comprehensive examination is the responsibility of the candidate's doctoral committee and administered according to the rules specified by the Graduate Council. The Ph.D. program in Energy and Mineral Engineering is quite flexible, with minimum formal requirements. A minimum of 12 post-M.S. course credits and 12 research credits are required. At least 18 of these course credits for the graduate program must be at the 500 level or above. For students entering the program with an M.S. degree, 500-level or above courses already taken either at Penn State or

The Pennsylvania State University
Integrated Undergraduate-Graduate (IUG) Degree Requirements

Integrated B.S. in Energy Business and Finance and M.S. in Energy and Mineral Engineering

The integrated undergraduate-graduate (IUG) program between the Energy Business and Finance undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused EBF undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. The IUG admission and degree requirements are shown below.

Integrated B.S. in Energy Engineering and M.S. in Energy and Mineral Engineering

The integrated undergraduate-graduate (IUG) program between the Energy Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused ENENG undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. The IUG admission and degree requirements are shown below.

Integrated B.S. in Environmental Systems Engineering and M.S. in Energy and Mineral Engineering

The integrated undergraduate-graduate (IUG) program between the Environmental Systems Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused ENVSE undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. The IUG admission and degree requirements are shown below.

Integrated B.S. in Mining Engineering and M.S. in Energy and Mineral Engineering

The integrated undergraduate-graduate (IUG) program between the Mining Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused MNGE undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. The IUG admission and degree requirements are shown below.

Integrated B.S. in Petroleum and Natural Gas Engineering and M.S. in Energy and Mineral Engineering

The integrated undergraduate-graduate (IUG) program between the Petroleum and Natural Gas Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused PNGE undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. The IUG admission and degree requirements are shown below.

Admission Requirements

Undergraduate students from the John and Willie Leone Family Department of Energy and Mineral Engineering with sixth semester standing and minimum grade-point average of 3.5 who wish to complete the Integrated B.S./M.S. program may apply to the Graduate School and the EME IUG program before the end of their junior year. Three faculty letters of recommendation are required. A statement of purpose and a plan of study covering the five year period, prepared in consultation with an adviser, and approved by the program officers of the B.S. major and the EME graduate program must accompany the application. The plan should be presented in person to the undergraduate and graduate program officers prior to being admitted into the program. Graduate Record Examination (GRE) scores may be submitted by IUG applicants but are not required. The application will be reviewed by the Admissions Committee of the EME Graduate program and acted upon by the EME Graduate Program Officer.

Degree Requirements

The degree requirements will be in accordance with the approved requirements of the respective undergraduate degree program (i.e. energy business and finance, environmental systems engineering, mining engineering, petroleum and natural gas engineering) and the energy and mineral engineering graduate program. However, 12 of the 500-level credits required for the master's degree may be applied to both undergraduate and graduate degree programs. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

Requirements

Once admitted into the IUG program, students are bound by the same guidelines, credit requirements, and program procedures as all other students in the Energy and Mineral Engineering graduate program. As many as 12 of the credits required for the master's degree may be applied to both the B.S. and the M.S. degrees. A minimum of 6 credits counted for both the B.S. and M.S. degrees must be at the 500 level. The table below shows which course credits will be double-counted as substitutes for both the B.S. and M.S. as applicable. To meet the number of 500 or above credit requirements, students will be advised to take the graduate courses and use them to substitute for the undergraduate courses.

Other Relevant Information

All graduate students are expected to attend general Department seminars. Graduate students may be asked to contribute to the instructional programs of the Department by assisting with undergraduate laboratory and lecture courses.

Degrees Conferred:
- Ph.D., M.A., M.F.A.
- Integrated Undergraduate-Graduate (B.A./M.A.) Degree in English
- Dual-Title Graduate Degree in English and African American and Diaspora Studies

The Graduate Faculty

The Programs
Candidates for the M.A., M.F.A., and Ph.D. in English may choose from a variety of courses in English literature and language, rhetoric and composition, and theory/cultural studies. The M.F.A. in English helps prepare candidates for professional careers as writers of fiction, poetry, or nonfiction, or for careers in academia.

The department offers a strong college-level teacher-training program, and most graduate students in English have the opportunity to serve as teaching assistants. Students usually begin by teaching basic composition courses, but there are opportunities for advanced students to teach courses in business writing, technical writing, fiction writing, poetry writing, literature, and humanities, and to serve as tutors in the Writing Center.

Admission Requirements
Requirements listed in this section are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test; or a minimum composite score of 6.5 on the IELTS.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants should have a junior/senior grade-point average of 3.50 (on a 4.00 scale), although exceptions may be made for students with special backgrounds, abilities, and interests. Scores from the Graduate Record Examinations (GRE) Aptitude Tests (verbal and quantitative) are required for admission. Applicants must also submit three letters of recommendation, a writing sample indicating their ability to do analytical or original work, and a statement of their professional goals.

For admission, M.A. students should have strong backgrounds in English courses: 18 credits beyond freshman composition are a minimum, but the department prefers at least 24 credits.

For admission into the M.F.A. program, students must have a baccalaureate degree (with substantial work in English), a portfolio of publishable student writing, and the intention to pursue a career as a professional writer.

To be considered for the doctoral program, students must have completed an M.A. in English, M.F.A. or its equivalent. The records of potential students should indicate promise of superior work in doctoral study.

Master's Degree Requirements
Candidates for the M.A. take at least 30 credits of course work. M.A. candidates must fulfill the language requirement in one foreign language. All master's candidates are required to take ENGL 501, one course in literary or rhetorical theory, two courses in periods prior to 1800, and two courses in periods after 1800. Students are also required to complete a Writing Project that will demonstrate mastery of the field.

For admission into the M.F.A. program, students must have a baccalaureate degree (with substantial work in English), a portfolio of publishable student writing, and the intention to pursue a career as a professional writer.

M.F.A. candidates are required to take 42 credits, distributed as follows:

- 3 credits ENGL 501
- 12 credits in ENGL 512, ENGL 513, or ENGL 515, at least 9 of which must be in the student's area of specialization (ENGL 512, 513, and 515 can be repeated for credit)
- 12 credits in ENGL 596 for the final project, or at least 6 credits of ENGL 596 and 6 credits of English Department graduate seminars
- 3 credits in electives (400 or 500-level courses)
- 12 credits in literature at the 500 level
- Candidates will complete a book-length manuscript of publishable quality in their area of specialization.

Doctoral Degree Requirements
The Ph.D. degree does not require a specific number of credits although all candidates are required to have completed English 501 (or the equivalent), one course in rhetoric or theory, two courses in periods before 1800, and two in periods after 1800. With the help of departmental graduate advisers, students select a program of seminars or reading courses. To complete their programs, students must show reading proficiency in one foreign language, pass Ph.D. candidacy and written comprehensive examinations, and write and defend a doctoral dissertation.

Integrated Undergraduate-Graduate (B.A./M.A.) Program
The English B.A./M.A. Integrated Undergraduate Degree Program (ENGL IUG) is a five-year program designed for highly qualified and motivated students seeking to improve their writing skills significantly. The integrated B.A./M.A. degree offers talented undergraduates a chance to acquire both a B.A. in English and an M.A. in English in five years of study. The first two years of undergraduate coursework include the University General Education and Liberal Arts requirements in addition to introductory coursework in the English major. During their 5th or 6th semester and beyond, students will begin graduate studies in their fourth year. In the third year, students are expected to take upper-level course work in English in literature, rhetoric, or creative writing. In the fourth year, students will complete the capstone course for the English major, English 487W, and enroll exclusively in 400-level and graduate level courses in creative writing. The fifth and final year of the integrated program consists entirely of graduate level seminars. The program culminates with a concentration in creative writing, technical writing, fiction writing, poetry writing, literature, and humanities, and to serve as tutors in the Writing Center.

The Pennsylvania State University
Integrated Undergraduate-Graduate (IUG) Degree Requirements

The BA in English requires a minimum of 123 credits, with 36 of those credits required for the English major—3 credits of English 200, 3 credits of English 201, 3 credits of English 221, 18 credits of English 300 level or above, 3 credits of pre-1800 300 level or above, 3 credits of post-1800 race, ethnic, or minority literatures 300 level or above, 3 credits of English 487W, senior seminar.

The B.A./M.A. consists of these 36 English credits of the B.A., plus an additional 24 English credits of M.A. work distributed as follows: 12 credits of English 512, 513, or 515. English 512, 513, and 515 can be repeated for credit. In addition, students will take 6 credits of a graduate-level literature and 6 credits of M.A. Master's paper, 596, to support work on a major project that will be the centerpiece of each student's culminating Master's paper. In the Master's paper, students receiving an M.A. in English with a creative writing concentration will append their Master's paper with a bibliographic essay referencing primary and/or secondary sources generated by their research for the paper. The essay can discuss the range of research modalities, including contextual background in the work itself as well as contemporary and historic literature that has influenced the style and form of the Master's paper. Sources consulted for contextual background can include library and database materials, historical research; oral history, interviews, and other bibliographic tools. 12 credits, 6 at the 400 level (412/413/415) and 6 at the 500 level (512/513/515), will be double counted between the B.A. and the M.A. The IUG B.A./M.A. consists of a total of 60 English credits.

A minimum of 141 credits is required to complete the IUG B.A./M.A. in English.

Time of Admission to the Program

Students shall be admitted to the English IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of an undergraduate degree, as specified in the proposed IUG plan of study.

Application to the English IUG would typically occur in the junior year after a student has completed 60 credits, enrolled in the English major, and completed two English courses in creative writing.

Admission Requirements

Admission to the integrated B.A./M.A. program will be based on the submission of a portfolio of creative work and a plan of study to the department’s Director of Graduate Studies and the Director of the B.A./M.A. program. Applications typically will be filed during the 5th or 6th semesters of study, and applicants must have achieved a minimum of 60 credits and a 3.3 overall GPA and 3.6 GPA in English to begin the program. The English Director of Graduate Studies will ensure that the applicant meets the minimum credit and GPA requirements for the program. The Director of the B.A./M.A. program will evaluate the quality of the student's creative work and the applicant's plan for fulfilling the requirements of the M.A. in English. The Director of the B.A./M.A. program, in consultation with the Creative Writing faculty, will have final approval for what constitutes an acceptable level of creative work and an acceptable plan for the completion of the M.A.

The application procedure requires submission of the following:

A. Support Letters from Faculty and Administrators (addressed to the department’s Director of Graduate Studies and the Director of the B.A./M.A. program)
B. A Personal Statement
C. Portfolio of Creative Work
D. A Plan of Study
E. A transcript and degree audit printed from E-lion
F. A current resume or curriculum vita

A copy of the completed on-line Graduate School Application (GRE scores are not required).

Plan of Study and Advising

Prior to the application process, students should communicate their intent to enroll in the IUG to the English B.A. adviser and the Director of the B.A./M.A. program. The Director of the B.A./M.A. will help each student identify an appropriate series of English courses to properly prepare each student for the 500-level M.A. workshops and 500-level literature courses.

Students will be expected to maintain a minimum overall GPA of 3.3 for all undergraduate coursework and a GPA of 3.6 in English (ENGL) courses throughout the IUG program of study. Failure to do so will result in the student being advised that he/she must regain a GPA of 3.3 within one semester. If the GPA is not 3.3 or higher, the student will be dropped from the IUG program.

Each student enrolled in the B.A./M.A. will meet at the beginning of each term with the Director of the B.A./M.A. to discuss his or her progress through the M.A. degree and to make sure that he or she is following the plan established upon his or her admission to the B.A./M.A. program.

If the student decides not to continue on in the IUG, the student may, contingent on fulfilling all other requirements for the BA in English, graduate with a B.A. in English.

The IUG B.A./M.A. consists of a total of 60 English credits. A minimum of 141 credits is required to complete the IUG B.A./M.A. in English.

Reduced Course Load

6 credits of 400-level English courses and 6 credits of 500-level English courses will be double counted in the IUG.

Tuition Charges

Undergraduate tuition rates will apply as long as the student is an undergraduate; unless the student receives a graduate assistantship that would require payment of assistantship-rate graduate tuition.

Dual-Title Graduate Degree in English and African American and Diaspora Studies

Admission Requirements

In addition to the admission requirements set forth by the Graduate Council and the Department of English, students will be admitted to the dual-title graduate degree program in African American and Diaspora Studies by an admissions committee of African American and Diaspora Studies faculty. Students can apply to the dual-title degree program in one of two ways: first, they can apply to the dual-title program when they apply to Penn State's English Department, following that department's admission requirements and writing a statement of purpose that addresses how the student's research and professional goals intersect with the objectives of the dual-title graduate degree program in English and African American and Diaspora Studies. Second, students who are already enrolled in the English Department can apply directly for admission to the dual-title degree before their admission to candidacy. General Graduate Council requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

GPA and GRE Requirements

Applicants entering with only an undergraduate degree should have a junior/senior cumulative average of at least 3.00 (on a 4.00 scale), and, where applicable, a minimum GPA of 3.50 for all graduate work previously undertaken. Exceptions to the minimum GPA requirement may be made for students with special backgrounds, abilities, and interests. Each applicant must submit the scores of the Graduate Record Examination (GRE) taken within five years.
Graduate Bulletin Archive - 2015

previous to the date of application.

Ph.D. Degree In addition to the English Department requirements listed above, the minimum course requirements for this dual-title Ph.D. degree are as follows: 15 credits of coursework related to African American and Diaspora Studies, all at the 500 level or above. Of these 15 credits, 9 must come from the required core course sequence in African American Studies, which comprises the following courses:

AFRICAN AMERICAN AND DIASPORA STUDIES (AF AM)

501. Seminar in African American and Diaspora Studies (3)

502. Blacks in the African Diaspora (3)

503. Sexual and Gender Politics (3)

Students must also take 6 elective credits, all of which must come either from the list below or otherwise have the prior approval of African American Studies supervising faculty. Over time, additional courses may be added to the list of acceptable electives. The director of graduate studies in the Department of African American Studies will maintain a comprehensive list of approved courses. A maximum of ten (10) credits of high-quality graduate work done at a regionally accredited U.S. institution or an officially recognized degree-granting international institution may be applied toward the requirements for a master's or doctoral degree. However, credits earned to complete a previous master's degree, whether at Penn State or elsewhere, may not be applied to a second master's or doctoral degree at Penn State.

AFR 501. Key Issues in African Studies (3)
ENGL 565, Period Studies in African-American Literature (3)
ENGL 566, Genre Studies in African-American Literature (3)
ENGL 567, Thematic Studies in African-American Literature (3)
ENGL 568, Gender Issues in African-American Literature (3)
HIST 547, Slavery in the Americas (3)
HIST 549, Topics in African-American History (3)
HIST 551, The African American Freedom Struggle in the Twentieth Century (3)
HIST 572, Race and Empire in the Americas, Caribbean & Pacific (3)
PHIL 539, Critical Philosophy of Race (3)

Foreign Language Requirements

As required by the Department of English, students must demonstrate reading proficiency in at least one foreign language no later than the third semester of residency (not including summer semester).

Candidacy

The dual-title field must be fully integrated into the candidacy exam for the doctoral program. In addition, candidates for the dual-title Ph.D. in African American Studies will be required to present to their committee a portfolio of work in African American and Diaspora Studies which includes a statement of the student's interdisciplinary research interests, a program plan, and samples of writing that indicate the student's interest in questions taken up by scholars of African American Studies.

Doctoral Committee Composition

For the dual-title Ph.D. degree, at least one member of the doctoral committee must be a member of the African American and Diaspora Studies graduate faculty. The doctoral committee for a dual-title doctoral degree student must include a minimum of four faculty members, i.e., a chair and at least three additional members, all of whom must be members of the Graduate Faculty, and one of which must be on the Graduate Faculty in the Department of African American and Diaspora Studies. If the chair is not in the Department of African American and Diaspora Studies, then the committee member representing African American and Diaspora Studies must be appointed as co-chair. At least one regular member of the doctoral committee must represent a field outside the candidate's major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Field Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member. Additionally, in order to avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation adviser's primary appointment is held (i.e., the adviser's administrative home; in the case of tenure-line faculty, this is the individual's tenure home). This committee member is referred to as the “Outside Unit Member.” In the case of co-advisers, the Outside Unit Member must be from outside the administrative home(s) of both co-advisers. In some cases, an individual may have a primary appointment outside the administrative home of the student’s dissertation adviser and also represent a field outside the student's major field of study; in such cases, the same individual may serve as both the Outside Field Member and the Outside Unit Member.

Comprehensive Exams

The African American and Diaspora Studies graduate faculty member on the student's committee is responsible for developing and administering the African American and Diaspora Studies portion of the student's comprehensive exams. The exam must incorporate written and oral components in African American and Diaspora Studies based on the student's thematic or regional area of interest and specialization in African American and Diaspora Studies. The African American and Diaspora Studies portion of the exam will include the following components: broad history of the field, contemporary theory and debates, and either sexual and gender politics or a topic related to the student's specific area of interest.

Dissertation

The candidate must complete a dissertation and pass a final oral defense of that dissertation on a topic that reflects their original research and education in both the English and African American and Diaspora Studies in order to earn the dual-title Ph.D. degree.

Student Aid for English Graduate Students

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the Graduate Bulletin, the following awards typically have been available to graduate students in English graduate programs:

EDWIN ERLE SPARKS FELLOWSHIPS IN THE HUMANITIES (8)

Available to beginning and continuing graduate students in one of the following graduate programs: Comparative Literature, English, French, German, History, Linguistics, Philosophy, Spanish, and Speech Communication; stipend $12,560 plus waiver of tuition. Apply to department before February 1.

KATEY LEHMAN FELLOWSHIP

Provides approximately $13,000 plus tuition for a year's study in poetry or fiction writing leading toward the B.A./M.A. in English or the M.F.A. in English. The Lehman Fellow will teach one course during the fellowship year. Fellowship holders are eligible for graduate assistantships with a similar stipend and tuition grant during the second year of study.

WILMA EBBITT AWARD

Funding to support research in rhetoric. Number and amount of awards to be determined.

The Pennsylvania State University
BEN EUWEMA MEMORIAL SCHOLARSHIP
Travel funding for graduate degree candidates; consideration will be given to all currently enrolled graduate students in English. Preference will be given to students at the Ph.D. thesis stage, particularly those who need to travel to complete their research; number of awards and amount of each will be determined each year.

FOLGER INSTITUTE FELLOWSHIPS
Penn State is a member of the Folger Institute of Renaissance and Eighteenth-Century Studies. Graduate students in English are eligible for Folger Institute Fellowship to study in seminars and workshops at the Folger Library, Washington, D.C.

PHILIP YOUNG MEMORIAL AWARD
Funding to support research in American Literature. Number and amount of awards will be determined.

Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

M.E.M.

The Graduate Faculty

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. The Master of Engineering Management is developed for students with a background in engineering or science. Applicants with a four year undergraduate degree in engineering, mathematics, physics, computer science, or a related discipline will be considered. Test scores from the GMAT or GRE exams are not required, but will be considered by the admissions committee if submitted. Jr/Sr GPA of 3.0 or better on a 4.0 scale is required. Students must have three years or more work experience in an engineering or engineering-related position. Applicants must submit a letter of reference, and a one page personal statement of relevant experience and goals.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 19 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements
All students in the Master of Engineering Management program must complete a minimum of 33 credits. The courses must include the required core courses of 18 credits:

ENGMT 501: Engineering Management Science (3)
ENGMT 510: Economics and Financial Studies for Engineers (3)
SYSEN 505: Technical Project Management (3)
SYSEN 536: Decision and Risk Analysis in Engineering (3)
SYSEN 550: Creativity and Problem Solving I (3)
SYSEN 552: Creativity and Problem Solving II (3)
as well as the capstone course:
ENGMT 539: Engineering Management Strategy (3)

Student Aid
Graduate Assistantships available to students in the program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

The Graduate Faculty

The Program

Students in Entomology represent a range of experiences and interests, with varied backgrounds from biology, chemistry, zoology, entomology, meteorology, ecology and botany programs to name a few. You will find an exceptional faculty that offer an unequalled range of research expertise and breadth within our focus areas. The strength of our research resides in four main program themes: Chemical Ecology, Ecological Applications, Disease Biology and Ecology, and Pollinator Biology and Ecology. Many opportunities are available for study abroad experiences from which students return with a new perspective that enhances their studies and research. The Entomology Department participates in a number of dual-degree programs including Comparative and International Education (CI ED), Human Dimensions of Natural Resources and the Environment (HDNRE), International Agriculture and Development (INTAD) and Operations Research (OR). Additional specialization is available to students conducting research with insects in intercollege degree programs in ecology, genetics and plant biology.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission a student should have a strong background in biological sciences. Courses in chemistry through organic, physics, mathematics through calculus, statistics, and computer application are recommended.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5.

Master’s Degree Requirements

The Master of Science degree in Entomology is an intermediate degree leading toward the development of special knowledge in entomology. It provides training for prospective doctoral candidates. A minimum of 30 credits (400 and 500 level) is required, with at least 20 credits earned in residence. At least 18 credits in the 500 and 600 series must be included in the program. A minimum of 12 credits in coursework (400 and 500) must be completed in the major program.

The program requires all students to take ENT 432, ENT 518, ENT 522, ENT 530 (2 credits), 3 credits of 400- to 500-level ENT course, and 3 credits of statistics (i.e., STAT 501, 502, 541, AG 400, or equivalent). Additional courses may be selected by the student in consultation with his/her graduate committee. Each Master’s student is expected to serve as a teaching assistant for 3 credits. Each student must present the results of thesis research at a departmental seminar, and the student may register for 1 credit of ENT 590 that semester. A thesis equivalent to 6 credits (ENT 600) is required. A final oral examination covering the general field of entomology, with emphasis in the student’s area of specialization, is required by the department. This is to be administered by the student’s committee. A favorable vote of a two-thirds majority is necessary for passing.

Committees for master’s degree candidates should be formed during the first semester, and are suggested jointly by the student and advisor, with approval by the Department Head. Masters committees have a minimum of three members. One of these should be from another degree program, particularly if the student plans to minor in that area. Adjunct faculty members cannot constitute a majority of the committee. The student and committee shall meet early in the process to plan the student’s program and approve a thesis project.

The Thesis Guide is available electronically, visit www.etd.psu.edu.

Doctoral Degree Requirements

The degree of doctor of philosophy signifies high scholastic achievement and demonstrated capability in independent research. Although there is no formal credit requirement at the Ph.D. level, five academic years of full time graduate work beyond the bachelor’s degree are normally required. Some of the work may be completed off campus or on a part-time basis, but between the time of acceptance as a candidate and completing the degree requirements the student must spend two academic sessions in residence within a twelve-month period. The program requires all students to take ENT 432, ENT 518, ENT 522, ENT 530 (4 credits) and 3 credits of 400- or 500-level ENT course. Other course requirements are dependent on the student’s program of study. Each Ph.D. student is expected to serve as a teaching assistant for 6 credits. The results of the dissertation research must be presented at a departmental seminar. In addition, students must take an oral and final oral examination. Students commencing a doctoral program may have a provisional committee appointed as soon as the advisor is selected. Students are not formally admitted to the doctoral candidacy until they have passed a candidacy examination. A favorable vote by two-thirds of the Candidacy Committee members is necessary for acceptance of a candidate.

The official doctoral committee is approved by the Department Head and is appointed by the Graduate Dean through the office of Graduate Enrollment Services after the student has passed the candidacy exam. Doctoral committees for students in the entomology program include at least three members from the department, at least one member from a related field outside Entomology, and a total of no fewer than four members; five members are recommended. Typically, committee members are chosen in consultation with the advisor. If the student has a formal minor, a representative of the minor field must be on the committee.

The student and committee should meet early in the degree process to plan the student’s Ph.D. program and approve a thesis project. A student may change advisor or committee members without prejudice. The doctoral committee guides and monitors the student’s progress, administers the comprehensive and final oral examinations, and evaluates the dissertation.

A candidate for the degree of Doctor of Philosophy is required to demonstrate high-level competency in the use of the English language, including reading, writing, and speaking, as part of the language and communication requirements for the Ph.D. Entomology assesses and works to improve competency of both domestic and international students. Assessments to evaluate competency prior to the candidacy exam include pieces of original writing required as part of ENT 522 (Professional Development). Oral communication competency is evaluated during the candidacy examination. Students needing assistance are directed to appropriate remedial activities. (International students should note that passage of the minimal TOEFL or IELTS requirement does not demonstrate the level of competency expected of a Ph.D. from Penn State.)

There is no foreign language requirement for the Ph.D. degree. However, depending on the nature of the thesis research and with the advice and consent of the Doctoral Committee, competency in a foreign language may be required as a part of the doctoral studies of certain students.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.
Dual-Title Graduate Degree in Entomology (ENT) and International Agriculture and Development (INTAD)

Graduate students with research and educational interests in international education may apply to the Entomology/INTAD Dual-Titles Degree Program. The goal of the dual-title degree Entomology and INTAD graduate program is to enable graduate students from Entomology to acquire the knowledge and skills of their primary area of specialization in Entomology, while at the same time gaining the perspective and methods needed for work in the international agriculture. Graduate study in this program seeks to prepare students to assume leadership roles in science, science education, outreach, and project management anywhere in the world. Students are required to write research proposals and expected to write grants to support their research activities, reflecting the dual-title degree. As part of their professional development presentations, publication of research articles and active participation in professional societies is expected. Emphasis is placed upon the professional development of the student. Students are able to specialize in these research program areas of chemical ecology, disease ecology and biology, pollinator ecology and biology, ecology, genomics and pest management. Additional specialization is available to students performing research with insects in the inter-college degree programs in genetics, ecology, and plant biology. At the same time they will acquire a broad perspective about how to apply their research findings in the context of the broader international community. Thus, the dual-title allows students to master their field of specialization from an international perspective so that they can compare practices and outcomes between countries and regions. This dual-title graduate degree program does not duplicate any other degree program at the University.

Admission Requirements

For admission to the dual-title doctoral degree under this program, a student must first apply and be admitted to the Entomology graduate program. Once accepted into the Entomology program, the student can then submit an application to the INTAD Academic Program Committee for the dual-title degree program. The application consists of a written personal statement indicating the career goals that a student hopes to accomplish by earning a dual-title ENT/INTAD degree. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission a student should have a strong background in biological sciences. Courses in chemistry through organic, physics, mathematics through calculus, statistics, and computer application are recommended. The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean, and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the Entomology program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, determined by the student, their INTAD advisor, and their Entomology program advisor.

Degree Requirements for ENT/INTAD Dual-Title M.S.

The master's in Entomology and INTAD is a dual-title degree awarded only to students who are admitted to the Entomology master's program and admitted to the dual-title degree in INTAD. In addition to the requirements of the Entomology degree, dual-title degree students must:

Course Requirements

Complete a minimum of 12 INTAD course credits (400, 500 or 800 level) as follows:

9 credits from the core curriculum:

- Program Design and Delivery (AEE 450, 3 credits)
- Leadership Development (CEDEV/R SOC 505, 3 credits, on-line)
- International Agricultural Development Seminar (INTAD 820, 3 credits)

3 credits of internship or applied courses/ independent studies with international development content

Thesis

Write a master's thesis on a topic that reflects both the graduate program in entomology and the dual-title offering in INTAD. Thesis research credits (SUBJ 800) must be taken in the major program.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Candidates for the dual-title master's degree in Entomology and INTAD will also be required to pass a final oral examination covering the general field of entomology and INTAD, with emphasis on the student's area of specialization. The oral exam is to be administered by the student's thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate primary program requirements and those of the INTAD program. Final course selection is determined by the students in consultation with their INTAD advisors and their Entomology program advisors. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. Students and advisors should maintain the INTAD Master's Degree Plan of Study, which must be submitted to the INTAD program office two months before the student files the "Intent to Graduate" via eLion.

Degree Requirements for ENT/INTAD Dual-Title Ph.D.

The doctoral degree in Entomology and INTAD is a dual-title degree awarded only to students who are admitted to the Entomology doctoral program and admitted to the dual-title degree in INTAD. The minimum course requirements for the dual-title Ph.D. degree in ENT/INTAD, in addition to the Entomology requirements, are as follows.

Course Requirements

Students must complete a minimum of 18 INTAD course credits with study in the following categories:

9 credits from the core curriculum

- International Agricultural Development Seminar (INTAD 820, 3 credits)
- International Rural Development Seminar (R SOC 517, 3 credits)
- Sociology of Agriculture (R SOC 508, 3 credits) or Human Dimensions of Natural Resources (R SOC 555, 3 credits)

9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. Particular courses may satisfy both the Entomology Department requirements and those in the INTAD program. Final course selection is determined by the student in consultation with their INTAD advisors and their Entomology program advisors. Students who already hold a master's degree from another
Graduate Bulletins Archive - 2015 2014 - 2015

Graduates of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 920 International Agricultural Development Seminar a second time.

Candidacy

Candidacy procedures will be based on the procedures of the major department and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student's advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of a Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair, and at least three additional members who must be members of the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both the Major Program and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official "outside member" also must be appointed to the committee.

Comprehensive Exam

At the end of the coursework, candidates for the dual-title doctoral degree in Entomology and INTAD will be required to pass an oral comprehensive examination based on their thesis proposal and area of specialization in entomology, while reflecting their dual-title curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the exam and the INTAD representative on the student's doctoral committee must have input into the development of and participation in the evaluation of the comprehensive examination.

Dissertation and Dissertation Defense

Ph.D. students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both Entomology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Dual-Title Graduate Degree in Entomology (ENT) and Comparative and International Education (CI ED)

Graduate students from Entomology to acquire the knowledge and skill of their primary area of specialization. The dual-title degree in Entomology and CI ED graduate program is to enable graduate students from Entomology to attain admission to the Entomology/CI ED Dual-Title Degree Program. The goal of the dual-title degree Entomology and CI ED graduate program is to achieve the dual-title degree in Entomology and CI ED graduate program.

Ph.D. students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both Entomology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Admission Requirements

For admission to the dual-title degree program, a student must first apply and be admitted to the Entomology graduate program. Once accepted into the Entomology program, the student can apply to the Admissions Committee on the Comparative and International Education program. The CI ED admissions committee reviews applications and recommends students for admission to the dual-title degree program to the Graduate School. Scores from the Graduate Record Examinations (GRE) are required for admission. In addition, students are to provide a written personal statement indicating the career goals they hope to accomplish by earning a dual-title Entomology/CI ED degree. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the Entomology program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the dual-title program committee. Within this framework, final course selection is determined by the student, their CI ED adviser, and their Entomology Program adviser.

Requirements for Entomology/CI ED Dual-Title M.S.

The master's in Entomology and CI ED is a dual-title degree awarded only to students who are admitted to the Entomology master's program and admitted to the dual-title degree in CI ED. In addition to the requirements for the Entomology degree, dual-title students must:

- Complete a minimum of 12 CI ED credits with study in the following curriculum categories:
  - 3 credits, CI ED Proseminar (CI ED 500)
  - 6 credits, advanced comparative and international education content courses
  - 3 credits, advanced or focused comparative and international education content courses

- Write a master's thesis on a topic that reflects both the dual-title program in Entomology and the dual-title offering in Comparative and International Education.

The thesis committee for the dual-title M.S. degree will consist of two graduate faculty members from Entomology and one graduate faculty member from CI ED.

Requirements for the Entomology/CI ED Dual-Title Ph.D.

The doctoral degree in Entomology and CI ED is a dual-title degree awarded only to students who are admitted to the Entomology doctoral program and admitted to the dual-title degree in CI ED. The minimum course requirements for the dual-title Ph.D. degree in Entomology and CI ED, in addition to the Entomology Department requirements, are as follows:

- Complete a minimum of 27 graduate credits
- 3 credits of Proseminar in Comparative and International Education (CI ED 500);
Graduate Bulletin Archive - 2015

Ph.D. Minor in CI ED

A Ph.D. (or D.Ed.) minor program in Comparative and International Education is available to doctoral students who find it desirable to include the perspectives and methodologies of Comparative and International Education in the Entomology program and have been approved to do so by their major program advisers. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

Ph.D. Minor in O R

The Pennsylvania State University

A Ph.D. minor program in Operations Research is available to doctoral students who find it advantageous to include advanced quantitative methods of analysis in their programs of study and have been approved to do so by their doctoral committees. To qualify for a minor in Comparative and International Education, students must satisfy the requirements of the Entomology Department, and meet the following minimum requirements:

- 3 credits in the Proseminar in Comparative and International Educations (CI ED 500);
- 3 credits in a Comparative and International Education course;
- 9 credits in Comparative and International Education content courses (or advanced courses) or in courses with comparative or international content outside the College of Education.

Dual-Title Graduate Degree in Entomology (ENT) and Operations Research (O R)

Graduate students with research and educational interests in operations research may apply to the Entomology/O R Dual-Titl Degree Program. The goal of the dual-title degree program is to enable graduate students from Entomology to acquire the knowledge and skill of their primary area of specialization in Entomology, while at the same time attain and be identified with the tools, techniques, and methodology of operations research. Operations research involves the application of mathematical analysis--usually involving mathematical treatment--of a process, problem, or operation to determine its purpose and effectiveness and to gain maximum efficiency. Graduate Dual-Titl degree program in Entomology and O R study in this program seeks to prepare students to assume leadership roles in science, science education, outreach, and project management anywhere in the world. Students are required to write research proposals and expected to write grants to support their research activities, reflecting their dual-title to see. As part of their professional development, presentations, publication of research articles, and active participation in professional societies is expected. Emphasis is placed upon the professional development of the student. Students are able to specialize in the research program areas of chemical ecology, disease ecology and biology, pollinator ecology and conservation, or entomology, genomics and pest management. Additional specialization is available to students performing research with insects in the inter-college degree programs in genetics, ecology, and plant biology. At the same time they will acquire a broad perspective about how to apply their research findings in the context of operations research. Thus, the dual-title will allow students to master their field of specialization from an operations research perspective.

This dual-title graduate degree program does not duplicate any other degree program at the University.

Admission Requirements

For admission to the dual-title degree under this program, a student must first apply and be admitted to the Entomology graduate program. Once accepted into the Entomology program, the student can apply to the Admissions Committee of the Operations Research program. The O R admissions committee reviews applications and recommends students for admission to the graduate program. Students are required to assume leadership roles in science, science education, outreach, and project management anywhere in the world. Students are required to write research proposals and expected to write grants to support their research activities, reflecting their dual-title to see. As part of their professional development, presentations, publication of research articles, and active participation in professional societies is expected. Emphasis is placed upon the professional development of the student. Students are able to specialize in the research program areas of chemical ecology, disease ecology and biology, pollinator ecology and conservation, or entomology, genomics and pest management. Additional specialization is available to students performing research with insects in the inter-college degree programs in genetics, ecology, and plant biology. At the same time they will acquire a broad perspective about how to apply their research findings in the context of operations research. Thus, the dual-title will allow students to master their field of specialization from an operations research perspective.

Degree Requirements

To qualify for a dual-title degree, students must satisfy the requirements of the Entomology program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the O R program. Within this framework, final course selection is determined by the student, their O R adviser, and their Entomology program adviser.

Requirements for Entomology/O R Dual-Title M.S.

For the M.S. dual-title degree in Operations Research, the minimum requirements are:

- 6 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes;
- 3 credits in optimization, including a minimum of 3 credits in linear programming;
- 3 credits in computational methods;
- 3 credits in applications/specialization

Students must enroll in O R 590 Colloquium for at least 1 credit in each year enrolled in the program and in residence. A minimum of 9 credits must be in the 500 series.

Particular courses may satisfy both the graduate major program requirements and those in the Operations Research program.

A thesis may be required, the supervisor of which must be a member of the graduate faculty recommended by the chair of the program granting the degree and approved by the Operations Research committee as qualified to supervise thesis work in operations research. A paper or report may be written in lieu of the M.S. or M.A. thesis upon approval of the student’s graduate major program. It is the prerogative of the graduate major program to assign these credits to one or more of the following categories: stochastic/statistical methods, optimization, computational methods, or applications.

Requirements for the Entomology/O R Dual-Titl Ph.D.

For the Ph.D. dual-title degree in Operations Research, the minimum requirements are:

- 9 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes;
- 9 credits in optimization, including a minimum of 3 credits in linear programming;
- 6 credits in computational methods, including a minimum of 3 credits in simulation;
- 12 credits in applications/specialization

Students must enroll in O R 590 Colloquium for at least 1 credit in each year enrolled in the program and in residence. A minimum of 18 credits must be in the 500 series.

The doctoral committee for an Entomology-Operations Research Ph.D. dual-title degree student is recommended by the Entomology program. The chair and at least two members of a doctoral committee must be members of the graduate faculty and approved by the Operations Research committee as qualified to supervise doctoral theses in operations research. The Operations Research committee is responsible for administering an examination in operations research that constitutes a portion of the comprehensive examination administered to the doctoral students in the program option, as well as to the candidate who chooses operations research as a minor field.

Ph.D. Minor in O R

A Ph.D. minor program in Operations Research is available for doctoral students who find it advantageous to include advanced quantitative methods of analysis in their programs of study and have been approved to do so by their doctoral committees. To qualify for a minor in Operations Research, students must satisfy the requirements of their graduate major programs, meet the same prerequisites as the M.S. dual-title degree, and meet the following minimum requirements:

The Pennsylvania State University
6 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes;
6 credits in optimization
3 credits in computational methods
A minimum of 6 credits must be taken at the 500 level.

The doctoral committee for an Entomology-Operations Research Ph.D. dual-title degree student is recommended by the Entomology program. The chair and at least two members of a doctoral committee must be members of the graduate faculty and approved by the Operations Research committee as qualified to supervise doctoral theses in operations research. The Operations Research committee is responsible for administering an examination in operations research that constitutes a portion of the comprehensive examination administered to the doctoral students in the program option, as well as to the candidate who chooses operations research as a minor field.

Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S., M.Eng.

The Graduate Faculty

This specialty prepares students for careers in the design of treatment facilities, environmental monitoring, process development for water quality control, industrial waste treatment, management of hazardous and toxic substances, monitoring and management of environmental quality, air pollution control, and water resource systems.

Admission Requirements

The requirements listed here are in addition to the general requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Candidates should possess a baccalaureate degree from a regionally accredited institution. Students in engineering, physical sciences, or mathematics with a 3.00 grade-point average (on a 4.00 scale) may be considered for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with specific background, abilities, and interests. Students without a recognized baccalaureate degree would be admitted on a provisional basis pending successful completion of entrance requirements (completed concurrently with degree requirements).

U.S. applicants will upload official copies of their transcripts, a statement of objectives, and three references for letters of recommendation when applying to the program. If admitted, applicants will be required to provide the Graduate School with OFFICIAL COPIES of transcripts of all their previous course work. In addition, all applicants must submit scores from the General Graduate Record Examinations Aptitude Test (verbal, quantitative, and analytical). For the M.Eng. degree, the GRE requirements will be honored for students who have graduated with a degree from the College of Engineering at The Pennsylvania State University with a cumulative grade-point average of greater than 3.30.

International applicants will upload official copies of their transcripts, a statement of objectives, and three references for letters of recommendation when applying to the program. If admitted, applicants will be required to provide the Graduate School with OFFICIAL transcripts (or attested copies), degree, and diploma certificates in both English and native language. Photocopies will NOT be accepted. All international applicants whose native language is not English must submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System). The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum composite score for the IELTS is 6.5. International applicants who have received a baccalaureate or master’s degree from a college, university, or institution in a country where English is not the native language are exempt from the TOEFL requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, or Wales.

Application Deadlines

M.Eng.: Complete applications including required supplementary materials (e.g., official transcripts, reference letters) should be submitted by March 15th of the calendar year for admission in Fall semester. International students are strongly encouraged to submit complete applications early to allow sufficient time for visa processing.

M.S. and Ph.D.: Complete applications including required supplementary materials (e.g., official transcripts, reference letters) should be submitted by September 15th for admission in Spring semester and by December 15th for admission in Fall semester. International students are strongly encouraged to submit complete applications early to allow sufficient time for visa processing.

Degree Requirements

Three degrees are offered: Master of Engineering (M.Eng.), Master of Science (M.S.), and the Doctor of Philosophy (Ph.D.).

The M.Eng. degree is a non-thesis professional master’s degree. The program provides training for advanced professional practice. A minimum of 31 graduate credits (400 level and above) of course work are required. At least 18 credits must be earned in graduate courses (500 level). At least 12 credits must be earned in courses with the CE prefix. At least 20 credits must be earned at an established graduate campus of the University. All students are required to take CE 535 Integrated Project Management for Civil Engineering to fulfill the requirement for a culminating experience. Specific core courses are also required. All students are required to take the 1-credit CE 590 Colloquium and complete all requirements for Scholarship and Research Integrity (SARI) training. The M.Eng. degree is designed as a two-semester master’s degree program and students are required to start their degree in the Fall semester. The preferred plan of study is as follows:

- Fall semester: Fifteen credits of course work plus one credit of CE 590
- Winter semester: Fifteen credits of course work, including CE 535

The M.S. degree program is strongly oriented toward research. A thesis is required, and at least 6 credits of thesis research (C E 600 or 610) must be included in the candidate’s academic course plan. A minimum of 31 graduate credits (400-level and above) are required, of which 20 must be earned at an established graduate campus of the University. A minimum of 24 credits of course work are required. A minimum of 12 credits of course work (400 and 500 level) must be completed in the major (courses prefixed C E). At least 18 credits in the 500 and 600 levels, combined, must be included in the program. Specific core courses are also required. All students are required to take the 1-credit CE 590 Colloquium and complete all requirements for Scholarship and Research Integrity (SARI) training. Students are not permitted to count audited credits toward the minimum credits required for the degree.

For the Ph.D. degree, a minimum of 21 credits of graduate course work (400 level and above) is required beyond the M.S. degree, or 15 credits beyond the M.S. in Environmental Engineering from Penn State. Specific core courses are also required. All students are required to take the 1-credit CE 590 Colloquium and complete all requirements for Scholarship and Research Integrity (SARI) training. Students are not permitted to count audited credits toward the minimum credits required for the degree. A candidate for the Ph.D. degree must pass the English proficiency and candidacy examinations, prepare and defend the thesis proposal as part of the oral comprehensive examination, and pass the final oral examination (thesis defense). Prior to completion of the Ph.D. program, the candidate must spend at least two consecutive semesters as a registered full-time student.

Continuous registration is required for all M.S. and Ph.D. graduate students until the thesis (M.S.) or dissertation (Ph.D.) has been approved or course requirements have been satisfied (M.Eng.). See also Civil Engineering.

Biogeochemistry Dual-Title Degree Program

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual-Title Program are required to have two advisers from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the
field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student’s Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student’s doctoral committee should include faculty from the major program of study and also faculty with expertise in biogeochemistry. The field of biogeochemistry should be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.

Student Aid

Graduate assistantships and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. International applicants who wish to be considered for a teaching assistantship must present an acceptable score (250-300 or 55-60) on the Test of Spoken English (TSE). The TSE can be taken in many countries, or at Penn State after arrival. The Department offers a number of graduate fellowships.

Middletown, PA 17057-4898

Degree Conferred:
M.Eng.

The Graduate Faculty

The Program

This program, offered at the Harrisburg campus, is intended for the engineer who wishes to pursue, either full-time or part-time, further training in the environmental field with a focus toward understanding the theory behind the design of environmental systems. Prospective students who do not have an undergraduate engineering degree, but rather hold a baccalaureate degree in a related scientific field (such as chemistry, microbiology, environmental science) may be admitted to the program but may need to take several prerequisite undergraduate engineering courses. This degree program builds on the Civil Engineering undergraduate program and complements the Environmental Pollution Control graduate programs (M.E.P.C. and M.S. in EPC) offered by the same faculty.

A variety of civil and environmental engineering courses are regularly offered, as well as specialty courses in environmental policy, other engineering areas, computer science, and other policy-related areas.

Admission Requirements

Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants are strongly encouraged to present an undergraduate degree in engineering from an ABET-accredited program. ABET (www.abet.org) is the accrediting body for engineering programs. However, those who possess an undergraduate degree in a related scientific field or unaccredited engineering program may be considered for admission; those students will need to take additional engineering courses at the undergraduate level in order to be adequately prepared. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

All students are expected to have an undergraduate junior/senior grade-point average of 3.0 on a 4.0-point system. Exceptions to this minimum may be made for students with special backgrounds or abilities, or other qualifications.

All applicants must provide two copies of all official transcripts of all their previous course work. In addition, applicants must supply a statement of objectives and three letters of recommendation.

All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

International applicants should be aware that processing of transcripts and other application-related information may take considerable time. While this program has a rolling admissions procedure, applicants must ensure that materials arrive at least three months prior to the start of the semester they first intend to begin studies. In addition, students who wish to be considered for a fellowship must submit their materials no later than January 30th.

Degree Requirements

A minimum of 30 credits is required for the degree. Courses in the degree program may be taken at the 400 or 500 level, but a minimum of 18 credits must be at the 500 level.

ENVIRONMENTAL ENGINEERING FOUNDATION (3 credits)

All candidates are required to take core courses that provide a foundation and context for pursuing and successfully completing a master’s program in environmental engineering. The following are the required core courses.

EPC 590. Colloquium (1 cr)
ENVE 591. Research Methods in Environmental Engineering (1 cr)
C E 592. Environmental Engineering and Science Topics (1 cr)

CULMINATING EXPERIENCE (3 credits)

ENVE 594. Master’s Paper Research (3 cr)

This program does require that all students complete a scholarly master’s paper. The seminar and the paper count toward the 500-level requirement. It is expected that students will upload their master’s papers to be available publically via ScholarSphere: https://scholarsphere.psu.edu/.

ELECTIVE COURSES (24 credits)

In addition to the requirements listed above, students must take one course (or 3 credits per course) in each of the following five core areas of environmental engineering theory and design, and environmental policy: Chemistry, Process Engineering, Biology, Water Resources; and Environmental Policy. Students must take at least one course from each core area (as shown in the table below) for a total of 15-16 credits. All courses are 3 credits except for C E 475.

The remaining 8 or 9 credits may be used by the student to specialize in an area of environmental engineering by taking classes offered not only by the Environmental Engineering Program but also from Mechanical Engineering and Civil Engineering. (E.g., C E 578 - “Groundwater Remediation”; see links to lists under “Courses,” below.) In addition, certain courses from the Schools of Business and Public Administration may be approved on a course-by-course basis.

| Core 1 (Chemistry) | C E 475 - Environmental Water Chemistry (4 cr) or C E 570 - Aquatic Chemistry |

The Pennsylvania State University
<table>
<thead>
<tr>
<th>Core 2</th>
<th>ENVE 411 - Water Supply and Pollution Control or ENVE 550 - Chemical Fate &amp; Transport or C E 571 - Physical-Chemical Treatment or C E 572 - Biological Treatment Processes or C E 577 - Treatment Plant Design</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core 3</td>
<td>ENVE 540 - Environmental Biodegradation and Bioremediation or C E 572 - Biological Treatment Process or C E 579 - Envir. Pollution Microbiology</td>
</tr>
<tr>
<td>Core 4</td>
<td>ENVE 415 - Hydrology or C E 561 - Surface Water Hydrology or C E 462 - Open-Channel Hydraulics or C E 555 - Groundwater Hydrology or C E 580 - Hydrodynamic Mixing Processes</td>
</tr>
<tr>
<td>Core 5</td>
<td>ENVE 460 - Environmental Law or ENVE 569 - Risk Assessment or P ADM 531 - Environmental Policy</td>
</tr>
</tbody>
</table>

NOTE: C E 572 is listed as approved for both Cores 2 and 3. Once the course is successfully completed, the course may count for one of the two core areas. An additional course is required in either Core 2 or 3, depending on the student’s interest.

Course that meet the core area requirements include, but are not limited to, the courses in the table above. Courses that deviate from this tabulated list will require pre-approval from the student’s adviser. If these courses were taken to meet degree requirements for a baccalaureate degree, they cannot be counted toward the graduate degree.

**Courses**

Graduate courses carry numbers from 500 to 5699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Programs
Graduate work leading to the M.S. and Ph.D. degrees in Food Science is directed toward a multidisciplinary and integrated approach to teaching and research relevant to processing and manufacture of value-added foods from agricultural commodities. Through integration of the disciplines of chemistry, microbiology, engineering, and nutrition, students learn to ensure that consumers can make healthful choices from an abundant supply of affordable, safe, nutritious, and appealing foods.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission to the program. Exceptions may be made for students with special backgrounds, abilities, and interests.

Best preparation for graduate work would be the completion of an undergraduate degree in food science, biochemistry, microbiology, or other related areas. The undergraduate program must include calculus, organic chemistry, microbiology, and general physics. Students may be admitted with deficiencies but are required to make them up without degree credit.

Students are generally admitted directly to a master's program unless they have previously earned an M.S. degree in food science or an appropriate related area; in such cases, admission can be made directly to the doctoral program by approval of the graduate program committee.

Master's Degree Requirements
The requirements for the M.S. program are detailed in the Department of Food Science's "Graduate Program Handbook." Minimum course requirements for the M.S. degree are as follows:
Fundamentals of Food Science (FD SC 500), 4 credits; Research Methods in Food Science (FD SC 501), 2 credits; Supervised Experience in College Teaching (FD SC 602), 1 credit; Statistics (STAT 500 or equivalent); Biochemistry (B M B 401 or equivalent); research (FD SC 600), 6 credits.

Doctoral Degree Requirements
The requirements for the Ph.D. program are detailed in the Department of Food Science's "Graduate Program Handbook." Minimum course requirements for the Ph.D. degree are as follows: FD SC 500 Fundamentals of Food Science, 4 credits; FD SC 501 Research Methods in Food Science, 2 credits; FD SC 602 Supervised Experience in College Teaching, 2 credits; STAT 500 or equivalent, B M B 401 or equivalent.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degree Conferred:
Master of Finance (M.Fin.)

The Graduate Faculty

The Program

The Master of Finance (M.Fin.) program offered by the School of Graduate Professionals at Penn State Great Valley is a graduate degree program designed for intensive and focused study in finance. As part of the School's Management Division, the program is included under the specialized professional accreditation received from the Association to Advance Collegiate Schools of Business International (AACSB). Students enroll in the program as a cohort and proceed through courses together in a prescribed sequence. Classes are taught in a schedule convenient for working professionals who have demanding time commitments. The time required to complete the program is fifteen months.

The program provides an advanced and specialized graduate education in finance for individuals with career interests as finance professionals in financial management, or investment management. The curriculum reflects a balanced combination of advanced financial theory and practical business applications. Major emerging concepts and practices in the finance field are introduced and discussed throughout the program. The program is designed to help graduates to become proficient in technical and analytical skills in finance and to develop expertise in financial problem solving and financial decision-making preparing them to advance their finance careers in organizations such as investment and commercial banking firms, mutual funds, other financial firms, non-financial businesses, consulting firms, government agencies and non-profit organizations. In addition, students will find a substantial number of courses in the M.Fin. program to be helpful in preparing for tests required for various professional certifications in finance, such as the Chartered Financial Analyst (CFA).

Admission Requirements

Requirements listed here are in addition to the Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales. For admission to the Graduate School, U.S. applicants must have received, from a regionally accredited institution, a bachelor's degree with requirements substantially equivalent to those at Penn State. Penn State is accredited by the Middle States Association of Colleges and Schools.) International applicants must have a tertiary (postsecondary) degree that is deemed comparable to a four-year U.S. bachelor's degree to apply for admission. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants should:
1. Have a 3.0 or better (on a 4.0 scale) junior/senior grade-point average.
2. Submit a completed online application.
3. Submit a GMAT or GRE score. Applicants holding an MBA, JD, Ph.D., CPA, or CFA or doctoral degree are not required to submit standardized test scores.
4. Submit a statement of intent or career path objective (one page).
5. Submit two confidential evaluation form letters.
6. Submit two official transcripts from all post-secondary institutions attended.
7. Submit a current resume.
8. Submit a visa application document if they are in the U.S. on a student or work visa.
9. Complete an admissions interview (by telephone or in person).

Admission decisions are based on the quality of the applicant's credentials and an interview in relation to those of other applicants who meet the requirements for admission outlined above.

Application Filing Dates: Applications to the Penn State Great Valley's Master of Finance program are reviewed on a rolling basis. New students are admitted to a cohort and begin their studies in early January.

Pre-Program Requirements:

Applicants are expected to have a working knowledge of a spreadsheet program, financial management, statistics and microeconomics. These pre-program requirements may be satisfied with academic work prior to matriculation in the M.Fin. program through college-level course credits in the following areas:

1. Financial Management/Corporate Finance: Topics include time value of money, basic theories of bond and stock valuation, capital budgeting, capital asset pricing model, market efficiency, and capital structure
2. Introductory Business Statistics: Topics include probability theory, sampling, inference, quality assurance, regression, forecasting, and simulation
3. Microeconomics: Topics include allocation of resources and distribution of income with in various market structures

The professor-in-charge of the Master of Finance program will examine academic transcripts of each applicant to determine if and how pre-program requirements are met. If a requirement is not met, the deficiency must be corrected through earned credit.

Degree Requirements:

The Pennsylvania State University
Thirty (30) credits are required to complete the M.Fin. degree. The course work includes six required core courses (18 credit hours) which provide a body of knowledge in finance; three elective courses (9 credit hours) designed to help students develop additional expertise in corporate finance or investments; and a capstone course (3 credit hours) which provides a culminating experience for students.

The required courses provide a quantitative and analytical foundation in finance. They include:

**CORE COURSES:**
- ACCTG 512 Financial Accounting Theory and Reporting Problems
- BUSAD 525 Quantitative Methods in Finance
- BUSAD 526 Current Issues in Corporate Finance
- FIN 505 Multinational Managerial Finance
- FIN 508 Analysis of Financial Markets
- FIN 513 Speculative Markets

The required capstone course, BUSAD 585 Research in Security Valuation, provides a culminating experience for students to develop their analytical ability, their synthesis of material, and their ability to identify strategies that enhance value creation, building upon their knowledge acquired from the core courses.

The electives allow students to focus in a selected field of finance such as corporate financial management or investment management. The exact elective courses to be offered for a cohort will be determined by the professor-in-charge based on polls taken from each cohort class and on consultation with the faculty who are teaching elective courses.

Students may enroll in the Master of Finance program at the Great Valley Campus, taking courses in a face-to-face and blended format. Or students may enroll in the online Master of Finance program. A one-week residency at Great Valley is required as part of the online program.

**Student Aid**
There are a limited number of scholarships, fellowships, and graduate assistantships available. For more information on these, contact the Financial Aid Office at Penn State Great Valley via email at studentaid@gv.psu.edu or visit the website at [http://www.sgps.psu.edu/prospective/tuition/financial_aid/default.aspx](http://www.sgps.psu.edu/prospective/tuition/financial_aid/default.aspx).

**Courses**
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Review Date: 12/15/06
Faculty linked: 8/14/14

The Pennsylvania State University
Science/Business, Integrated Five-Year Program

Degree Conferred:
B.S./M.B.A. Degrees

This special program is a cooperative effort between the Eberly College of Science and the Smeal College of Business. The program will provide an opportunity for students to combine and accelerate an undergraduate program in the basic sciences with a graduate program in business administration. Students admitted to this program will have the opportunity to earn a B.S. degree in General Science from the Eberly College of Science and an M.B.A. in Business Administration from the Smeal College in a total of five years. The first three years of study will include courses that satisfy the undergraduate science and General Education components of the program, and the last two years will satisfy the graduate business components of the program.

Initial program admission decisions are made jointly by the Eberly College of Science and the Smeal College of Business. The decision to extend an invitation to join the program as an undergraduate is reached through a multi-step process. First, applicants meeting all program criteria will be initially reviewed. Then a limited number of top candidates will be selected for on campus interviews by representatives of the Eberly College of Science and the Smeal College of Business. Successful interviewees will be offered admission to the accelerated program.

During the third year of the program, students formally apply to the MBA program in the Smeal College of Business. Applications are reviewed against the same criteria used for all MBA applicants, including undergraduate record, GMAT scores and related work experience. Successful candidates will gain admission into the MBA program for their fourth year of study. Students will then earn their B.S. degree during the first year of M.B.A. course work, and earn their M.B.A. degree at the end of their second year of graduate study. In addition to the regular fall and spring semester course work, program students are expected to earn credit during summer session through Cooperative Education experiences and participate in the MBA internship program.

This program seeks to combine an undergraduate program with graduate study in a professional school, and it proposes to attract and select excellent students with defined career goals. It is important to note that students in this program will have completed at least 112 undergraduate credits before entering the MBA component of the program. They will satisfy all of Penn State's undergraduate General Education requirements and will complete the science course requirements that a General Science student with the General option does. The main elements that are different for students in the accelerated program as compared with regular four-year General Science major (General option) are that in the accelerated program students use elective credits for summer Co-op experiences and for 12 transfer credits from their first year of MBA studies. These 12 credits will be "double counted" on both the undergraduate and graduate transcripts. Accelerated students also will have an opportunity to take special "bridge" courses including 1- and 2-credit seminar classes that will focus on traversing the boundaries among science, technology, and business.

DATE LAST REVIEWED: 3/18/03
Forest Resources (FOR R)

The Graduate Faculty

The Programs

The Doctor of Philosophy and the Master of Science degree programs are oriented toward research, education, and scientific technology in the professions of forest products and forestry.

Faculty expertise, laboratories, and outdoor facilities are available to support specialization in a variety of fields. Possibilities for specialization are indicated in part by the courses listed under wood products, forestry, and wildlife and fisheries, and by related courses in agricultural economics, agronomy, animal nutrition, biology, business administration, chemical engineering, computer science, ecology, economics, entomology, environmental pollution control, environmental resource management, genetics, horticulture, industrial engineering, landscape architecture, meteorology, physiology, plant pathology, polymer sciences, recreation and parks, regional planning, or statistics.

Students in this program may elect the dual-degree program option in Operations Research for the Ph.D. and M.S. degrees. (See also Operations Research.)

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. A student may be admitted provisionally without GRE scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Application materials should be submitted before February by those who want to begin in summer or fall. For admission, an applicant should have at least a 2.75 grade-point average, a 3.00 junior/senior average (on a 4.00 scale), and courses that are basic to the individual's field of specialization. Ordinarily, these include 12 credits in communication; 12 credits in social sciences and humanities; 10 credits in quantification, including calculus and statistics; 8 credits in chemistry and/or physics; 8 credits in biological sciences; and 18 credits in forest products, forestry, fish, wildlife, or related courses. Three reference letters and a brief statement describing the applicant's academic goals, career interests, and special qualifications are required. The best-qualified applicants will be accepted up to the number of spaces available. Exceptions to admission requirements may be made for students with special backgrounds, abilities, and interests.

Admission to the Ph.D. program in Forest Resources requires a master's degree in Forest Resources or a closely related field, or a bachelor's degree with a minimum grade-point average of 3.30 and demonstrated research ability.

Master's Degree Requirements

M.S.: In addition to Graduate School requirements, 6 credits of statistics and 2 credits of colloquium are required.

Doctoral Degree Requirements

An international communications or cultural requirement is required for the Ph.D. degree. This requirement may be satisfied by demonstrating competence in one foreign language equivalent to passing two or three college-level courses. It also may be met by two courses in one or two contemporary foreign cultures. With approval of the doctoral committee, a student may petition the graduate faculty of the school for waiver of the international communications or culture requirement.

Postbaccalaureate course work will include courses specified for the M.S. degree plus 2 credits of colloquium. The entire program of courses tailored to the student’s objectives is subject to approval of the student's committee.

The comprehensive examination will consist of an oral and written portion, the written coming first. Copies of the student’s thesis research proposal should be provided to the committee before the comprehensive examination.

WATERSHED STEWARDSHIP OPTION

The Graduate Option in Watershed Stewardship is a graduate option intended to provide enhanced educational opportunities for students with an interest in water resources management who are enrolled in a graduate degree program within Forest Resources. The objective of the Graduate Option in Watershed Stewardship is to educate students to facilitate team-oriented, community-based watershed management planning directed at water resources problems encountered in Pennsylvania communities, especially non-point source water pollution. The Graduate Option in Watershed Stewardship requires 22 credits of graduate course work: 12 credits of breadth courses, 2 credits of Watershed Stewardship Seminar courses (FOR 591A and FOR 591B or LARCH 510.2), and 8 credits of Watershed Stewardship Practicum I and II courses (FOR 570 and FOR 571, or LARCH 540.2 and LARCH 550.2). Breadth courses will consist of 3 graduate credits of course work from each of four subject matter areas: (1) water resources science, (2) social science, public policy and economics, (3) humanities, and (4) communications and design. In the watershed stewardship practicum course students work in teams with community, government, and business leaders to analyze and understand natural resources problems and creatively synthesize appropriate solutions in the form of a written watershed management plan.

A representative pattern of scheduling for the Graduate Option in Watershed Stewardship in addition to a student's other degree requirements is:

First Year:

**Fall Semester**
- Breadth electives--6 credits
- FOR 591A or LARCH 510.2, Watershed Stewardship Issues
- Colloquium--1 credit

**Spring Semester**
- Breadth electives--6 credits

Second Year:

**Fall Semester**
- FOR 570 or LARCH 540.2--3 credits
- Keystone Project

**Spring Semester**
- FOR 571 or LARCH 550.2--5 credits

The Pennsylvania State University
A list of acceptable breadth courses from each category is provided in the Graduate Option in Watershed Stewardship Handbook. Students will be allowed to petition to the Center for Watershed Stewardship to substitute higher level or equivalent courses in a major field to suit their specific backgrounds and goals. Courses taken for the Graduate Option in Watershed Stewardship may be used to satisfy other equivalent (400- or 500-level) degree requirements with concurrence of adviser and graduate committee. The graduate committee for a student enrolled in the Option in Watershed Stewardship must include a faculty representative from the Center for Watershed Stewardship.

Students enrolled in M.S., or Ph.D. degree programs within the School of Forest Resources and other participating programs may apply to participate in the Graduate Option in Watershed Stewardship.

Other Relevant Information
Each entering student receives individual guidance from an adviser, and later from his or her committee, in designing a program of studies and research based on his or her own interests. The student is responsible for conforming to all requirements summarized in the “Graduate Studies Handbook” of the School of Forest Resources, and for completing the degree program within a reasonable time, i.e., two years for a master's degree or three years for a Ph.D.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the Student Aid section of the Graduate Bulletin, the following award typically has been available to graduate students in this program:

FOREST RESOURCES: JESSE ROSSITER RAPP MEMORIAL SCHOLARSHIP
--Available to graduate students. Apply to the School of Forest Resources’ Scholarships, Loans, and Awards Committee.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate requirements upon approval by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

FORESTRY (FOR) course list
See also Wildlife and Fisheries Science.

WOOD PRODUCTS (WP) course list

Joint Degree Programs between The Pennsylvania State University Dickinson School of Law (J.D.) and the School of Forest Resources (M.S., Ph.D.)

Joint Degree Program. The Pennsylvania State University Dickinson School of Law (DSL) and the School of Forest Resources (SFR) will offer coordinated programs of studies leading to the degrees of Juris Doctor (J.D.) and a Master of Science (M.S.), or a Doctor of Philosophy (Ph.D.) in Forest Resources or Wildlife and Fisheries Sciences. The SFR programs are interdisciplinary.

Admissions. In order to be admitted to the program, students may a) first be admitted and enrolled in either SFR or DSL, and be subsequently admitted to the other program; or b) be admitted to the joint degree program prior to commencing studies at Pennsylvania State University. Credits earned in the SFR program before admission to DSL cannot, however, be credited to the J.D. degree. Each program will make a separate admission decision. Students admitted to both programs will be admitted as joint degree candidates. Applications for transfer into the joint degree program from another law school or forestry/natural resources program at another University will be considered on a case-by-case basis.

Admission Requirements
DSL. A bachelor's or equivalent degree from an accredited college is a prerequisite for admission. However, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral, and written communications skills before entering law school. The following are required of applicants: a completed application form for DSL; taking of the Law School Admissions Test (LSAT); completion of an LSDAS report; a one-page personal statement; employment record since high school; and two recommendations.

School of Forest Resources: A Bachelor's or equivalent degree from a regionally accredited college is a prerequisite for admission to a master's degree program, with a cumulative grade point average of 2.75 and junior-senior average of 3.0, based on a maximum 4.0 system. The following are also required of applicants to the joint degree program: taking of the Graduate Record Examination (GRE) or the LSAT; an official undergraduate transcript or transcripts; a personal statement; employment record since high school; and three recommendations. There is no prescribed undergraduate curriculum, and, because of the diversity of programs in the School, professional preparation may vary considerably. As a guide, SFR suggests having 8 credit hours in chemistry and/or physics; 12 in calculus, statistics, and/or computer science; 8 in biology, botany, and/or zoology; 12 in writing and speaking; 12 in economics, social sciences, and/or humanities; and 18 in science, wildlife and fisheries science, and/or wood products. Completed applications showing that a candidate is qualified for admission will be forwarded to potential faculty advisers in DSL, and admission of otherwise qualified candidates will depend upon the willingness of a faculty member to act as an adviser. Applicants are advised to contact potential advisers before applying and should contact the DSL liaison (the Goddard Chair), as well as the SFR Assistant Director of Graduate Studies, to identify potential advisers.

Admission to the Ph.D. program requires evidence of research ability, e.g., a master's degree thesis, paper, or equivalent publication and a grade point average of 3.3 or higher in graduate studies work, exclusive of thesis and special problem courses. Baccalaureate degree students graduating from an honors program with a required thesis, or who have authored a refereed publication, may be considered for admittance without a master's degree.

Residency: For master's programs, 5 semesters' residence is required at the Law School and 3 semesters' residence at the SFR at University Park, although additional residency may be required to complete the M.S. degree requirements. For Ph.D. programs, the same minimum number of semesters will be required, as well as the additional time as required to complete additional course work and a dissertation. In addition, Ph.D. candidates must arrange the sequence of semesters such that they are in residence at University Park as a full time student for at least two semesters in a single 12-month period. Although a student will normally take all courses at the campus where the student is in residence, a student may take up to one course (three credit hours) per semester at the campus where the student is not in residence. A Ph.D. joint degree student in residence at DSL will be considered to be "registered" at University Park for the purpose of satisfying any requirement of continuous registration and/or benchmarking in the Ph.D. program.

Liaisons: The respective liaisons for DSL and SFR shall be as follows: The Department and Faculty liaison for DSL shall be the Associate Dean for Academic Affairs and the student adviser will be the Director of the Law Center for such other faculty matters as may be designated by the Dean. The liaison for SFR for the Joint Degree Program and the student contact for inquiries regarding the Joint Degree Program shall be the current holder of the Maurice K. Goddard Chair in Forestry and Environmental Resources Conservation, or the Director of SFR when there is no current appointee to the Goddard Chair.

Interprogram Transfer of Credits
J.D. A maximum of 12 credits for SFR course work may be transferred for credit toward the J.D. degree at DSL. Students must obtain a grade satisfactory to DSL for the course work to be credited toward the J.D. degree. What courses may qualify for credit shall be determined by the DSL liaison. Because of the interdisciplinary nature of many SFR degrees, courses from other Departments and Colleges are credited towards an SFR degree with the approval of the SFR committee (e.g. courses in Economics, Agricultural Economics, Agricultural and Extension, Agronomy, Entomology, Geosciences, Landscape Architecture, Leisure Studies, Meteorology, Plant Pathology, Soil Science, EPC) and credits of these courses will be treated as SFR courses (i.e. may be credited to the DSL program with DSL approval, subject to the 12-credit limit).

The Pennsylvania State University
SFR Degrees: The SFR programs are interdisciplinary programs and typically credits from other Departments and Colleges may be credited. What courses may be credited will be determined by the student's SFR committee. Normally, a maximum of 12 credits of DSL course work will be counted for credit toward the minimum requirements for an SFR Master's degree, subject to approval by the student's SFR committee.

Sequence. The sequence of courses will be determined by the students and their advisers. Generally, however, students will complete the first year of the DSL program before beginning the SFR program. Thereafter, students may concurrently enroll in courses in the DSL and SFR programs, provided that they abide by the requirements of each program. The ordinary expectation will be that students will spend entire semesters at one location or the other.

Recommended Program of Study and Advising. All students in the program will have two advisers, one from DSL and one from SFR (the committee chair). Periodic interaction between the two advisers will be encouraged. A program of study will be developed for each student taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year, but some are offered every two or three years. Advisers will have available a list of projected relevant offerings in order to work with the student on an individualized program of study. The standard committee structure will apply to the SFR programs.

Tuition. Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable SFR tuition to cover the SFR degree program. The DSL tuition will be paid for the semesters that the student is in residence at DSL and the SFR tuition will be paid for the semesters that the student is in residence at University Park. A student may take up to one course (3 credit hours) per semester at the campus where the student is not residence without, any change in tuition, but must pay additional tuition to the nonresidential campus if he or she wishes to take additional course work at that campus during that semester.*

Financial Aid and Assistantships. Decisions on financial aid and assistantships will be made by each school according to that school's procedures. Generally, SFR assistantships and financial aid will not apply to time spent at DSL.

Fulfillment of Degree Requirements and Graduation. A student in the program may complete the requirements for one of the degrees and be awarded that degree prior to completing all the requirements for the other degree, provided, however, that the student shall have successfully completed at least two semesters of work towards the other degree. All courses in one program that will count toward meeting the requirements of the other program must be completed before award of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to SFR's requirement for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the SFR committee (in such cases, the committee should consider whether credits afforded such work will be subject to the 12-credit maximum for interprogram transfers described in paragraph 6(b) and the DSL faculty member should be a member of the committee).

*After taking comprehensive examinations, a Ph.D. student must pay tuition for all courses taken at any campus where the Ph.D. student is not registered.
This program offers training in French literature and civilization.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are generally required of all students educated (high school and college) in the continental United States. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Minimum qualifications for admission to the program typically include a B.A. in French or the equivalent, a minimum of 3.20 grade-point average (on a 4.0 scale), and the ability to speak and write in both French and English (a speech sample demonstrating the applicant's ability to speak extemporaneously and coherently about his/her study and career goals in French for anglophones, in English for francophones, and in French and English for speakers of other foreign languages is required). A written text on a literary or cultural topic also must be submitted. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.20 GPA may be made for students with special backgrounds, abilities, and interests.

Master's Degree Requirements
Candidates for the master’s degree in French complete a minimum of eleven 3-credit graduate-level courses, plus a master's paper or a minimum of ten 3-credit courses, plus a thesis. A reading knowledge of a second foreign language plus oral and written examinations also are required. All candidates take FR 571 French Literacy Theory and Criticism (3), FR 502 Introduction to French Linguistics (3), FR 580 Approaches to French Civilization (3), FR 581 Theory and Techniques of Teaching French (1-6), FR 501A Pro-Seminar in French Studies I (1.5), and FR 501B Pro-Seminar in French Studies II (1.5). In addition to the six required courses designated here, all candidates take six 3-credit courses in French and Francophone Studies. The M.A. degree (or equivalent) is normally a prerequisite to doctoral candidacy.

Candidates for the Women's Studies and French dual-title master's degree complete a minimum 33 credits plus a master's paper. All candidates take FR 501A Pro-Seminar in French Studies I (1.5), FR 501B Pro-Seminar in French Studies II (1.5), FR 502 Introduction to French (3), FR 571 French Literary Theory and Criticism (3), FR 580 Approaches to French Civilization (3), FR 581 Theory and Techniques of Teaching French (1-6), WMNST 501 Feminist Perspectives in Research and Teaching (3), WMNST 502 Global Feminism (3), WMNST 507 Feminist Theory (3), and 9 credits in literature (6 of those credits in Women's Studies-approved courses).

Doctoral Degree Requirements
The Ph.D. degree prepares candidates for careers in teaching and research at the college or university level. Between 33 and 36 credits beyond the M.A. in French (or equivalent) is required in graduate course work. Credits must be distributed in one of two areas of specialization: civilization or literature.

Doctoral candidates must demonstrate either an advanced knowledge of one foreign language other than French or a reading ability of two foreign languages other than French (equivalent to the 12-credit level). All doctoral students must pass a candidacy examination, a comprehensive written and oral examination, and a final oral defense.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

MITCHELL M. HOLLAND, Chair
Program Office: 107 Whitmore Laboratory
814-863-6758

Degree Conferred:
Master of Professional Studies in Forensic Science

The Graduate Faculty

The Program
The Master of Professional Studies (MPS) in Forensic Science is an inter-college degree program housed in the Eberly College of Science and includes ties with Departments of Anthropology, Biochemistry and Molecular Biology, Chemistry, Entomology, Psychology, and Sociology. The program is offered by Penn State graduate faculty members, with enrichment by mentors from the academic faculty, public crime laboratories, and private forensic laboratories. The curriculum is designed to provide students with innovative, hands-on, and multidisciplinary learning approaches to educate and train them in crime scene investigation, the science behind forensics, courtroom proceedings, and the ethical and social issues that they will be exposed to when they join the forensic community. In addition, the program will develop teamwork and communication skills, which will be important when working actual cases in a crime laboratory.

Admission Requirements and the Application Process
Applications will be considered in accordance with the requirements of the Graduate School as described in the GENERAL INFORMATION section of the Graduate Bulletin. The Masters degree in Forensic Science is appropriate for students with a baccalaureate degree in the biological sciences, chemistry, or a related field of study. Applicants are required to have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in their undergraduate degree. The GRE’s are required, with a score of 1100 (old system) or 306 (new system) to be competitive. In addition, each applicant is asked to provide a personal statement of interests and objectives, a statement of their definition of the word “ethics” and two letters of reference. Letters of reference can be submitted by the student’s undergraduate advisor, research advisor, and/or an instructor for an upper level course taken as part of their major. An applicant may be asked to go through an interview process conducted by members of the forensic science faculty. Admission to the program is based upon a thorough review of all applicant qualifications, and the best-qualified applicants will be accepted up to the number of spaces available for new students.

Applicants are referred to the program web site for guidance on how to submit their applications, the deadline for submitting applications, and when decisions on acceptance into the program will be announced: www.forensics.psu.edu.

Degree Requirements

Chemistry Emphasis
A minimum of 41 credits are required for completion of the program, with at least 19 credits from courses at the 500 and 800-level, and at least 6 credits at the 500 level. Students are required to take 27 credits from the core courses listed below and 11 additional credits of Chemistry coursework. Elective credits are from courses which are determined based on interest and career track. FRNSC 801 will serve as the capstone experience for completion of the MPS in Forensic Science.

Biology Emphasis
A minimum of 42 credits are required for completion of the program, with at least 20 credits from courses at the 500 and 800-level, and at least 6 credits at the 500 level. Students are required to take 27 credits from the core courses listed below and 12 additional credits of Biology coursework. Elective credits are from courses which are determined based on interest and career track. FRNSC 801 will serve as the capstone experience for completion of the MPS in Forensic Science.

Core Courses (27 credits)

FORENSIC SCIENCE (FRNSC)
- 400. Courtroom Proceedings and Testimony (1)
- 410. A Scientific Approach to Crime Scene Investigation (2)
- 411. Criminalistics: Trace and Impression Evidence (3)
- 413. Criminalistics: Biology (3)
- 415W. Laboratory in Crime Scene Investigation (2)
- 475. Forensic Science Seminar (1)
- 532. Drug Chemistry and Toxicology (3)
- 541. Forensic Seminar Series (1)
- 561. Ethics in Forensic Science (1)
- 801. Criminalistics III (4)
- 894. Research Projects in Forensic Science (6)

ADDITIONAL COURSES (11-12 credits)

Forensic Chemistry Emphasis (11):
CHEM 425 – Chromatography and Electrochemistry (3)
CHEM 500 – Seminar in Chemistry (1)
FRNSC 427W – Forensic Chemistry (4)
FRNSC 831 – Forensic Chemistry II (3)

Forensic Biology Emphasis (12):
BMB 400 – Molecular Biology of the Gene (3)
BMMB 590 – Colloquium (1)
FRNSC 421W – Forensic Molecular Biology (4)
FRNSC 821 – Forensic Molecular Biology II (4)

Electives (Select at least 3 credits)
Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Geodesign (GEODZ)

**Program Home Page**
RON HENDERSON, FASLA, Head
121 Stuckeman Family Building
814-865-9511

**Degree Conferred:**
M.P.S. in Geodesign

**The Graduate Faculty**

**The Program**

Geodesign is a rapidly emerging and powerful approach to spatial problem-solving that requires the synthesis of geographic knowledge and scientific data with the best practices of environmental design. Graduates from the Master in Professional Studies (M.P.S.) in Geodesign program will be prepared to take leadership roles in addressing complex environmental design problems in settings ranging from urban design to conservation planning.

The M.P.S. in Geodesign program's goal is to provide practicing professionals with an advanced skill set in geodesign. They will learn to capitalize on the power of spatial knowledge and evolving technologies, identify opportunities that emerge to better inform the design, understand their relevance to particular situations and assist communities in designing alternative futures based on a unique process that brings all this information into focus.

The M.P.S. in Geodesign program is intended specifically for professionals who are able to participate principally on a part-time basis and at a distance. It is offered exclusively through the World Campus.

**Admission Requirements**

Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted to the program, applicants must be able to meet the following requirements:

1. A completed online Graduate School application and payment of the application fee.
2. Personal statement of background and interest in the program, including an outline of possible topic for the individual capstone project (maximum 3 pages).
3. Official undergraduate transcript
4. TOEFL scores (see below)
5. Three (3) letters of recommendation

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination, will be considered, but are not required for admission.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Students with a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test or a total score of 80 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

**Student Aid**

Graduate assistantships are not available. Financial aid opportunities for part-time students who participate through the World Campus are discussed at: http://www.worldcampus.psu.edu/tuition-and-financial-aid/financial-aid.

**Degree Requirements**

Students earn the M.P.S. in Geodesign degree by successfully completing a minimum 35 credits of course work, including a supervised individual study project. Course requirements include a minimum of 18 credits at the 500 level or above, with a minimum of 6 credits at the 500 level. Note that because most of the available elective courses are worth 3 credits, many students are likely to take at least 36 credits (9 elective credits) to complete their degree program. The individual study capstone project is the culminating experience for the graduate degree and requires the student to apply the geodesign framework to a real-world challenge, of his/her choosing, in order to demonstrate aptitude in analytic, design and collaborative skills. For most students the project will culminate in a formal public presentation, attended by the student's adviser, who is member of the graduate faculty at Penn State. If the adviser is unable to attend, the department will send a representative from the graduate faculty. The presentation will take place at an appropriate professional conference, approved in consultation with the project adviser. Typically the presentation will be at an annual conference (at the national, regional or state level) of professional organizations, such as the American Planning Association, American Society of Landscape Architects, the Urban and Regional Information Systems Association, ESRI User Conferences, or other suitable professional organization-affiliated venues. The final venue selection will be one that is mutually agreeable between the student and adviser as to location and appropriate level of professional rigor. Alternatively, students who will be unable to attend a conference, or have other professional objectives, may work with their adviser to get approval to write and submit a project report as an article for an appropriate peer-reviewed journal. The student will provide the adviser with the article, who will in turn recommend final submission to the journal. This will provide an alternative path to successfully complete the culminating experience. Presentations and papers are preceded by dress rehearsals that are open to all students in the program through Web and audio conferencing. As part of his or her individual studies, every student is expected to contribute a formal peer review of one other student's rehearsal.

An Advisory Board consisting of accomplished design, geography and planning professionals in government and industry, as well as Penn State faculty members in a variety of disciplines, guides the ongoing development of the curriculum. Based on taking courses on a part-time basis and at a distance, the curriculum will take at a minimum two-and-a-half years to complete.

**Prescribed Courses:**

GEODESIGN (GEODZ)

511. Geodesign History, Theory, Principles (3)
822. GeoDesign Models I: Evaluation and Decision (3)
824. GeoDesign Models II: Process and Impact (3)
826. GeoDesign Models III: Representation and Change (3)
842: Geodesign Studio I: Rural/Regional Challenges (6)
852: Geodesign Studio II: Urban/District-scale Challenges (6)
596A: Individual Studies-Geodesign Capstone Project Proposal and Peer Review (3)
596B: Individual Studies-Geodesign Capstone Project Dissemination (3)

Electives:
In addition to the 27 required credits specified above, students must select three courses (at least 8 credits) of GEOG courses at the 400 level or higher; courses must be approved in advance by the student's adviser. A list of acceptable electives is maintained by the program office.
The Dual-Title Doctoral Degree Program in African Studies aims to enable graduate students from Geography to complement their knowledge and skills in a major area of geographic specialization with in-depth knowledge of prevailing theories and problem-solving approaches to thematic analyses, environmental change, livelihood systems, socio-economic and political change, and other aspects of African development. Students interested in this program may apply to the program and must have or must acquire a broad competence in physical geography, human geography, environment and society, GIScience, and analysis methods (qualitative or quantitative).

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission, as well as a personal statement. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course work in geography or a related discipline will be considered for admission to the M.S. program or to the five-year PhD program. Applicants with master’s degrees from high-quality graduate programs in geography will be considered for admission to the four-year doctoral program. The best-qualified applicants will be admitted up to the number of places that are available for new students. All students must have or must acquire a broad competence in physical geography, human geography, environment and society, GIScience, and analysis methods (qualitative or quantitative).

Baccalaureate students must earn a master’s degree before they will be considered for admission to the doctoral program.

Master's Degree Requirements

The M.S. degree may be earned by completing a thesis or two papers. The thesis option requires completion of at least 30 graduate credits. If the two-paper option is elected, the candidate must earn 35 credits of graduate-level work. The master's papers are usually expanded versions of course or seminar papers that are of sufficiently high quality that they can be submitted to scholarly journals. At least one of the papers offered to fulfill the M.S. papers requirement must have been written in connection with a departmental course or seminar.

All M.S. students are required to enroll in GEOG 500 Introduction to Geographic Research (3 credits), GEOG 502 Research Scholarship in Geography (3 credits), and at least 3 credits of GEOG 501A, B, C, or D Research Perspectives (1 credit each) during their first year of residence. All M.S. students are required to complete at least one seminar at the 500 level. Supporting courses are chosen in consultation with an entrance committee (in year one) or the adviser (in subsequent years).

Doctoral Degree Requirements

There are three paths to a Ph.D. One is a five-year Ph.D. with M.S. degree, which is available to students who enter Penn State Geography’s graduate program without a master’s degree. These students are on an accelerated schedule and earn an M.S. along the way to the Ph.D. The second is a four-year Ph.D., which is available to those students who have already received a master’s degree in another program either at Penn State or at another university. The third is an M.S.-to-Ph.D. path, which is available to Penn State Geography M.S. students who decide either to continue into the Ph.D. program after they have started their master’s program, or to return for the Ph.D. after having graduated with the M.S. Students on this path are not accelerated and therefore will usually require two years to earn the master’s and four years to earn the doctorate.

There is no fixed number of credits; courses are prescribed according to the student's prior experience and academic goals. The Graduate School's communication and foreign language requirement for the Ph.D. degree shall be satisfied in a manner approved by the candidate's doctoral committee. All doctoral students are required to enroll in GEOG 500 Introduction to Geographic Research (3 credits) and GEOG 502 Research Scholarship in Geography (3 credits) during their first year of residence.

Dual-Title Graduate Degree in African Studies

Geography doctoral students – who are already in the program and who have research and scholarly interests in comparative, sub-regional, national and thematic analyses, environmental change, livelihood systems, socio-economic and political change, and other aspects of African development – may apply to the Dual-Title Doctoral Degree Program in African Studies. The goal of the dual-title program is to enable graduate students from Geography to complement their knowledge and skills in a major area of geographic specialization with in-depth knowledge of prevailing theories and problem-solving approaches to thematic, regional, or national issues pertaining to African Studies. The dual-title degree program will provide interested Geography doctoral students with a multidisciplinary approach that will enhance their analytical capabilities for addressing key issues in African development and broad aspects of livelihood change. It thereby will add value to their Geography degree and increase their competitiveness in the job market. The well-rounded, regional specialist who graduates from the program is likely to be employed in an international setting. The program has the potential, therefore, to enhance the reputation of the Geography Department, the College of Earth and Mineral Sciences, the College of the Liberal Arts, and Penn State.

Admission Requirements

Students must apply and be admitted to the graduate program in Geography and The Graduate School before they can apply for admission to the dual-title degree program. Applicants interested in the dual-title degree program may make their interest in the program known clearly on their applications to Geography and include remarks in their statement of purpose that address the ways in which their research and professional goals in Geography reflect an interest in African Studies-related research.
To be enrolled in the Dual-Titled Doctoral Degree Program in African Studies, a student must submit a letter of application and transcript, which will be reviewed by the African Studies Admissions Committee. Students must apply for enrollment into the dual-title degree program in African Studies prior to taking their candidacy examination.

General Graduate School admission requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

**Academic Advisors and Course Selection**

To qualify for the dual-title degree, students must satisfy the requirements of the Geography graduate program. In addition, they must satisfy the requirements as described below, as established by the African Studies Program. Within this framework, final course selection is determined by the student in consultation with the Geography and African Studies academic advisors.

Upon acceptance into the dual-title degree program by the African Studies admissions committee, the student will be assigned an African Studies academic advisor in consultation with the African Studies director and the African Studies admissions committee. As a student develops specific scholarly interests, s/he may request a different African Studies advisor from the one assigned by the African Studies admissions committee. The student and the Geography and African Studies academic advisors will establish a program of study that is appropriate for the student’s professional objectives and that is in accordance with the policies of the Graduate Council, the Geography graduate program, and the African Studies dual-title graduate degree program.

**Requirements for the Geography-African Studies Ph.D.**

The Dual-Titled Doctoral Degree in Geography and African Studies is awarded only to students who are admitted to the Geography doctoral program and admitted to the dual-title degree program in African Studies. The minimum course requirements for the Dual-Titled Ph.D. degree in Geography and African Studies are as follows:

- Completion of all course work and other requirements for the Geography Ph.D.
- 18 credits of Africar-related coursework at the 400-, 500-, or 800-level, of which the following are required: AFR 501 (3) and a minimum of 6 credits from AAAS 530 (3), AFR 532 (3), AFR 534 (3), AFR 536 (3), AFR 537 (3), and SOC/AFR 527 (3)
- As many as 6 of the 18 credits may come from 400-, 500-, or 800-level Geography courses, as approved by the student’s Geography and African Studies Program advisor
- The remaining credits can be taken in AFR or in any department other than Geography; of these, no more than 6 credits may be taken at the 400-level and no more than 3 combined credits may come from AFR and GEOG 596 and 599
- Communication and foreign language requirements will be determined by the student and the Geography and African Studies advisors in accordance with the existing Geography language requirements.

The choice of electives in African Studies is to be proposed by the student and is subject to approval by the Geography and African Studies academic advisors. The suite of selected courses should have an integrated, intellectual thrust that probes a thematic, national, or regional issue and that complements the student’s specialty in Geography.

**Language Requirement**

The language requirement for a student in the dual-title doctoral degree program will be determined by the student and the Geography and African Studies Program advisors in accordance with the existing Geography language requirements.

**Candidacy Exam**

The Candidacy Exam in Geography is an oral exam designed to help students to “...think analytically and critically in their field of expertise and to understand and apply ideas from other fields of geography to their research domain” (Geography Graduate Student Handbook 2011-2012, p. 30). The format of the candidacy exam for the dual-title degree student will be unchanged from the existing Geography candidacy exam and will be guided directly by the requirements outlined in the Geography Graduate Student Handbook. The only difference from the Geography candidacy exam will be an explicit African studies component.

**Doctoral Committee Composition**

The doctoral committee of a Ph.D. dual-title doctoral degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty. The committee must include at least one member of the African Studies graduate faculty. If the chair of the committee representing Geography is not also a member of the graduate faculty in African Studies, then the member of the committee representing African Studies must be appointed as Co-Chair.

**Comprehensive Exam**

After completing all course work, doctoral candidates for the dual-title doctoral degree in Geography and African Studies must pass a comprehensive examination that includes written and oral components. Written components will be administered on a candidate’s major Geography subfields and on African Studies. The African Studies representative on the student’s doctoral committee will develop questions for and participate in the evaluation of the oral component of the comprehensive examination. The African Studies component of the exam will be based on the student’s thematic, national, or regional area of interest and specialization in African Studies.

**Dissertation and Dissertation Defense**

Ph.D. students enrolled in the dual-title degree program are required to write a dissertation on a topic that reflects their education and research interest in Geography and African Studies. Upon completion of the doctoral dissertation, the candidate must pass a final oral examination (the dissertation defense) to earn the degree.

**Other Relevant Information**

Penn State’s graduate program in Geography works with incoming students to design programs tailored to their specific interests and needs. Thus there are few formal requirements and a maximum of opportunities for students to pursue their own interests under the guidance of the faculty. Each student’s work is supervised by his or her academic adviser and by a committee consisting of two additional members of the graduate faculty for M.S. students and three or four additional members for doctoral students.

**Student Aid**

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

**Courses**

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Ph.D., M.S.
- Integrated B.S/M.S. Program in Geosciences

The Graduate Faculty

M.S. and Ph.D. Degrees

The Department of Geosciences offers M.S. and Ph.D. degree programs that provide students with a broad background in any of the major areas of geological sciences and intensive research experiences culminating in the preparation of a formal thesis. The goal of the programs is to prepare students for scientific careers in academia, government, or industry. A wide range of faculty interests and exceptional laboratory and other support facilities provide an extensive variety of areas of specialization in which students may choose their course work and research topics, which include: aqueous geochemistry, chemistry and physics of rocks and mineral, geodynamics, global change and earth history, sedimentary geology and paleobiology, solid earth and applied geophysics, surficial processes. A complete listing can be found at www.geosc.psu.edu.

The research of faculty and students is facilitated through: the Biogeochemical Research Initiative for Education (BRIE, an NSF-sponsored graduate program in microbiol biogeochemistry), the Petroleum Geosystems Initiative (an industry-sponsored, team-based M.S. program) linking the Department of Geosciences and the Department of Energy and Geo-Environmental Engineering and the Penn State Astrobiology Research Center (PSARC, an NSF-sponsored interdisciplinary program in the origin and evolution of life in the universe, aimed at understanding the connections between the environment and the biota on Earth, especially during the stages of its evolution) as well as the Environment Institute of the College of Earth and Mineral Sciences, including the Earth System Science Center, and the Center for Environmental Chemistry and Geochemistry.

In addition to extensive computing and supercomputing facilities developed in association with the Earth System Science Center, students have access to a wealth of analytical, experimental, and field equipment. State-of-the-art analytical equipment is maintained by the department and the Material Characterization Laboratory. The Department of Geography and the Office for Remote Sensing of Environmental Resources have remote sensing facilities.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are normally required for admission. Exceptions must be approved by the department.

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission, applicants generally are expected to have a bachelor's degree in some branch of the natural or physical sciences, engineering, or mathematics. An applicant also is expected to have completed standard introductory courses in geosciences, chemistry, physics, and mathematics through integral calculus, plus 15 credits of intermediate-level work in one or a combination of these subjects. Greater than minimal preparation in chemistry, geology, biology, mathematics, or physics may be required for particular subdisciplines. Applicants who have taken somewhat less than the indicated minimum in these subjects may be admitted but must make up their deficiencies concurrently with their graduate studies.

Students with special backgrounds, abilities, and interests whose undergraduate grade-point average in courses pertinent to geosciences is below a 3.00 (on a 4.00 scale) will be considered for admission only when there are strong indications that a 3.00 average can be maintained at the graduate level.

Students are admitted both to the M.S. and Ph.D. degree programs. A student may work toward a Ph.D. degree without first earning a master's degree. If this option is desired, the student must arrange the scheduling of a candidacy evaluation no later than the end of the third semester of residence at Penn State.

Faculty Advisers

Upon arrival, students will be advised initially by a committee appointed by the associate head for Graduate program and Research. The committee in turn will designate an interim adviser. Before the end of the first academic year of residence, the student is expected to develop specific academic and research interests so that an appropriate permanent academic adviser and research supervisor may be chosen. The academic adviser and research supervisor are usually the same person, except when the research supervisor is not a member of the geosciences graduate faculty. In such a case, a geosciences program family member serves as the academic adviser.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. In addition, several graduate fellowships are available for students within the Department of Geosciences.

Programs of study are planned to require no more than two years for the M.S. degree and three additional years, or five years total, for the Ph.D. degree. A student transferring to the department with the M.S. degree should plan on four additional years. Financial support from teaching or research assistantships or from fellowships is available to students in good standing, but not awarded beyond these limits except in unusual cases.

Common Degree Requirements

All graduate students in geosciences, including both M.S. and Ph.D. students, are expected to acquire breadth of knowledge in the geosciences, a fundamental and advanced knowledge of their subdiscipline, and skills in the areas of data collection and quantitative analysis. Toward that end, all graduate students must select one of the approved courses in each of the following areas: (1) Geosciences Breadth -- 3-4 credits; (2) Disciplinary Fundamentals -- 3-4 credits; (3) Data Gathering -- 3-4 credits; and (4) Quantitative Analysis -- 3-4 credits.

Prescribed courses (3 credits): GEOC 500 (3)

Additional Courses

Data Gathering and Interpretation: Select 3 credits from GEOSC 410(3), GEOSC 413W(3), GEOSC 483(3), GEOSC 508(3), GEOSC 558(4), GEOSC 565(3), GEOSC 572(1-2)

Quantitative Analysis: Select 3 credits from E MCH 524A(3), GEOSC 514(3), GEOSC 560(3), GEOSC 561(4), MNG 557(3-6), P N G 425(3); GEOSC 597(3) (either Multivariate Analyses in Geosciences OR Data Analysis in the Earth Sciences)

The Pennsylvania State University
A current list of approved courses is maintained by the Department's Graduate Program Office in room 507 Deike Building. The list of approved courses may be modified by approval of the Department's Graduate Program Committee.

Additional Master's Degree Requirements

Master's degree students are required to take 30 graduate credits, which include at least 18 credits at the 500 to 600 level. The 12 to 16 common degree credits described above satisfy the Graduate School minimum of at least 12 credits in course work in the major program.

As part of the M.S. program, each student is required to complete a thesis. The thesis must be defended in an oral examination administered by an M.S. committee.

Additional Doctoral Degree Requirements

Admission to Ph.D. candidacy is determined by an oral examination before a candidacy committee. Preparation and defense of two research proposals will serve as one means of assessing the student's ability. At least one of these proposals should represent original work by the student, but the other may be an actual thesis proposal and involve limited initial input from the adviser or others.

Course work in addition to the common degree requirements described above will be selected by the student in consultation with his/her committee. The comprehensive examination is both oral and written. It is administered by the doctoral committee after the student has essentially completed course work and after a foreign language requirement (if required by the committee) is fulfilled. A final oral defense of the thesis is required.

Biogeochemistry Dual-Title Degree Program

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisers from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student's Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student's doctoral committee should include faculty from the major program and also faculty with expertise in biogeochemistry. The field of biogeochemistry should be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.

Integrated B.S./M.S. Program in Geosciences

The Department of Geosciences offers an integrated B.S./MS. Program that is designed to allow academically superior students to obtain both the B.S. and the M.S. degree in Geosciences within 5 years of study. Students who wish to complete the Integrated B.S./M.S. Program in Geosciences must apply for admission to the Graduate School and the Integrated B.S./M.S. program by the end of their junior year.

During the first three years, the student follows the course scheduling of one of the options in Geosciences (see Undergraduate Degree Program Bulletin); however, if a student intends to enter the Integrated B.S./M.S. program, he/she would be encouraged to take, wherever appropriate, upper level classes. By the end of the junior year, the student normally would apply for admission to the program. A decision of acceptance would be made prior to the beginning of the senior year and a M.S. Advising Committee would be appointed. During the senior year, the student would follow the scheduling of the B.S. Geosciences option he/she has selected, with an emphasis on completing 500-level coursework wherever appropriate. During the senior year, the student will start work on a thesis designed to meet the departmental requirements of a M.S. Thesis. During the fifth year, the student will take courses fulfilling the departmental M.S. degree requirements and complete the M.S. Thesis. Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student receives financial support, for example, an assistantship requiring the payment of graduate tuition.

Admission Requirements

Students who wish to complete the Integrated B.S./M.S. Program in Geosciences must apply for admission to the Graduate School and the Integrated B.S./M.S. program at the by the end of their junior year. Typical test scores of students admitted to the Geosciences Graduate Program are: GPA 3.5, and GRE’s Verbal 570, and Quantitative 700. Three letters of recommendation by faculty members for admission to graduate studies are required. The applications are reviewed by the Admissions Committee of the Geosciences Graduate Program and acted upon by the Associate Head for Graduate Programs.

Requirements

B.S. Degree Portion: Total B.S. Requirements - 121 Credits
(For details on courses see the Undergraduate Degree Programs Bulletin.)

General Education: 45 Credits

18 of these are included in the REQUIREMENTS FOR THE MAJOR

Requirements for the Major - 94 Credits

Common Requirements for all options - 61 Credits

Prescribed Courses - 61 credits

Additional Courses - 3 Credits

Additional Geosciences Courses - 15 Credits

Supporting Courses and Related Areas - 15 Credits

M.S. Portion: Total M.S. Requirements - 30 Credits

Prescribed Courses: GEOSC 501(1), GEOSC 600(1-15)

Additional Courses - 9 credits

Disciplinary Fundamentals: Select 3 credits from GEOSC 479, GEOSC 481, GEOSC 489, GEOSC 519, GEOSC 533, GEOSC 548, GEOSC 585

Data Gathering: Select 3 credits from GEOC 413W, GEOC 483, GEOC 558, GEOC 565, GEOC 572

Additional Geosciences Courses at the 400 and 500 level - 6 Credits

Supporting Areas: 6 Credits of Graduate course work.

These courses should be related to the thesis work of the student.

If a student has accumulated more than 121 Credits as an undergraduate student, 9 credits of 400- or 500-level class credits can be transferred to the MS program, provided these courses were not used to fulfill BS requirements.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
NOTE: GEOSC 439, GEOSC 470W, GEOSC 472A, GEOSC 472B includes from one to several field trips for which an additional charge will be made.

Unit A.
(MATSC) POWDER X-RAY DIFFRACTION (1) Compound identification, lattice parameter measurement, and other applications of the powder diffraction method.

Unit B.
(MATSC) TRANSMISSION ELECTRON MICROSCOPY (1) Principles and practice of transmission electron microscope operation. Students undertake individual projects.

Unit C.
(MATSC) SPECTROSCOPY (1) Emission spectrographic analysis of powders and atomic absorption analysis of solutions.

Unit D.
(MATSC) ELECTRON MICROPROBE ANALYSIS (1) Qualitative and quantitative elemental analysis of microvolumes within solids. Emphasis on individual student projects.

Unit E.
(MATSC) SCANNING ELECTRON MICROSCOPY (1) Principles and practice of scanning electron microscope operation. Students undertake individual projects.

Unit G.
(MATSC) ANALYTICAL ELECTRON MICROSCOPY (1) Modern analytical electron microscope techniques: scanning transmission electron microscopy; electron energy loss spectroscopy; energy dispersive analysis of X-rays. Prerequisite: MATSC (GEOSC) 511B.
The Pennsylvania State University

German (GER)

Program Home Page

B. RICHARD PAGE, Head of the Department
427 Burrowes Building
814-865-5481

Degree Conferred:
Ph.D., M.A.,
Dual-Title Ph.D. Degree in German and Language Science

The Graduate Faculty

Programs of study with major emphasis upon literature, culture, linguistics, or applied linguistics lead to advanced degrees.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are desirable. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Minimum qualifications for admission include 30 undergraduate credits in German beyond the intermediate level. Provision is made, however, for admission with limited deficiencies. Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. Requirements for admission to the M.Ed. degree program include 18 credits in education and related psychology. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Master's Degree Requirements

The M.A. in German is designed to offer students a general foundation in German culture, language, linguistics, and literature. After completing a small set of core requirements, students may pursue their individual interests from among the courses offered by faculty who specialize in German Applied Linguistics, Culture, Linguistics, and Literature. The M.A. degree requires a minimum of 36 credits and is designed as a terminal degree.

The following courses are required for the M.A. degree:

- German 510: Introduction to Literary Criticism and Its Application
- German 511: The Teaching of College German
- German 513, 514 or 515: German Phonetics and Phonology, German Syntax, or Introduction to German Linguistics or Introduction to German Applied Linguistics

Practical experience in supervised teaching is required for all graduate degrees. Students who wish to earn a Master's Degree must write a research paper of between thirty and fifty pages on a topic defined in conjunction with a faculty adviser. The research paper should demonstrate mastery of primary and secondary literature, interpretative skills, and academic prose in both German and English. A one-hour oral defense of the paper shall be scheduled two weeks after its formal submission to the adviser. A committee consisting of faculty adviser and two other members of the German program selected by the M.A. candidate shall evaluate the student's knowledge of the subject matter.

Doctoral Degree Requirements

For the Ph.D., a student must complete at least 66 credits (including M.A. credits) of graduate-level work. GER 510, 511, and 513, 514 or 515 are required of all students. Other requirements include: (1) demonstrated reading knowledge of one foreign language in addition to German and English, (2) successful passing of the comprehensive examination with written and oral components, and (3) completed doctoral dissertation. Options are offered in German Literature and Culture and in German Applied Linguistics; see the student handbook for details.

Dual-Title Graduate Degree in German and Language Science

Graduate students with research and educational interests in German and Language Science may apply to German and Language Science Ph.D. Graduate Program. The goal of the dual-title degree German and Language Science graduate program is to enable graduate students from German to acquire the knowledge and skills of their major area of specialization in German, while at the same time gaining the perspective and methods of the Language Sciences.

Admission Requirements

To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through the Department of Germanic and Slavic Languages and Literatures (see below for admission requirements for the Graduate Program in German). Upon admission to the Graduate Program and with a recommendation from a Language Science program faculty member in the Department of Germanic and Slavic Languages and Literatures, the student’s application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Requirements for the Dual-Title Ph.D. Degree in German and Language Science

The doctoral degree in German and Language Science is awarded only to students who are admitted to the German doctoral program and admitted to the dual-title degree program in Language Science. The minimum course requirements for the dual-title Ph.D. degree in German and Language Science, in addition to the German Program requirements, are as follows:

- Language Science proseminar courses (LING 521 and LING 522; 6 credits).
- Research Methods/Statistics (LING 525 or equivalent; 3 credits).
- Theoretical Linguistics (LING 500 or LING 504; 3 credits).
- Cognitive Neuroscience or Psycholinguistics (LING/PSY 520, PSY 511 or equivalent; 3 credits).
- Research internships with two different Language Science faculty mentors (CSD 596, GER 596, LING 596, PSY 596, SPAN 596; 6 credits).

Particular courses may satisfy both the German requirements and those in the Language Science program. Final course selection is determined by the student in consultation with the dual-title program advisors and the major program advisors. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

EXCHANGE FELLOWSHIPS AT CHRISTIAN ALBRECHTS UNIVERSITÄT, KIEL, AND THE PHILLIPS UNIVERSITÄT, MARBURG--Available to graduate students in the...
German and other fields for a full academic year. Students must have a good command of German.

WALTER EDWIN THOMPSON AND DR. REGINA BLOCK THOMPSON SCHOLARSHIP FUND--Thompson Fellowships are available each year for graduate students in the Department of Germanic and Slavic Literatures and Languages. These fellowships can be awarded in addition to other grants or stipends.

Courses

*GER 001G. ELEMENTARY GERMAN FOR GRADUATE STUDENTS (3) Designed for students preparing to satisfy language requirements for advanced degrees.
*GER 002G. ELEMENTARY GERMAN FOR GRADUATE STUDENTS (3) Continuation of GER 001G, with opportunity for reading in special fields.
*No graduate credit is given for this course.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Geographic Information Systems (GIS)

Program Home Page

Department of Geography, via World Campus

Degrees Conferred:
M.G.I.S.

The Graduate Faculty

The Program

The Master of Geographic Information Systems (M.G.I.S.) degree is awarded to students who demonstrate mastery of the technical competencies and leadership skills required to design, manage, and use geographic information technologies successfully in a wide range of professional fields. The MGIS program is intended specifically for working professionals who are able to participate only on a part-time basis and at a distance. It is offered exclusively through World Campus. The MGIS complements, but does not replace, the Department of Geography's more research-focused Master of Science program, which is offered at the University Park campus. Students who wish to pursue the Ph.D. in Geography should apply for admission to the residential M.S. program.

Admission Requirements

Students who wish to pursue the M.G.I.S. degree must be admitted both to the MGIS program and to Penn State's Graduate School. The Graduate School requires applicants to possess any baccalaureate degree from a regionally accredited institution earned under residence and credit conditions substantially equivalent to those required by Penn State. A basic proficiency in English is also required. Minimum TOEFL scores are 550 for the paper test or 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Additional requirements imposed by the Department of Geography include:

- Statement of professional experience and goals including documentation of a minimum two years of professional experience, preferably (but not necessarily) related to geographic information technologies. A résumé may be attached as a supplement, but the statement itself should be an essay (two to three pages) that demonstrates the applicant's verbal communication skills;
- Three letters of recommendation that attest to the applicant's readiness for graduate study and that he or she has the requisite minimum of two years of professional experience;
- Two official transcripts from each post-secondary institution attended, including the institution that conferred the applicant's baccalaureate degree (and any graduate degrees, if applicable). Applicants are expected to have earned a grade-point average of 3.0 (or equivalent) or better during their final two years of undergraduate work;
- Official Graduate Records Examinations (GRE) score reported directly from the testing center to Penn State. GRE scores are required; however, this requirement may be waived under certain circumstances. Please contact the graduate program directly.

A committee consisting of at least three Geography faculty members, including one faculty member not currently participating in the MGIS program, will meet twice annually to screen applicants and identify applicants qualified for admission. Three cohorts of approximately twelve students each will be admitted during three annual admissions cycles. Applicants who are only able to participate part-time and at a distance while maintaining full-time professional responsibilities (and who are therefore effectively excluded from participation in the department’s resident program) will be preferred. The best-qualified applicants will be admitted up to the number of spaces that are available for new students.

Prior to admission in the MGIS program, students may enroll in MGIS courses as nondegree graduate students. Nondegree graduate students who are subsequently admitted to the MGIS program may count up to 15 credits of course work accumulated in nondegree status toward the M.G.I.S. degree. Applicants for nondegree graduate status must submit transcripts that confirm they have received a baccalaureate degree from an accredited institution under regionally equivalent conditions substantially equivalent to those required by Penn State. Admission as a nondegree student neither guarantees nor implies subsequent admission to the MGIS degree program. Changing from nondegree status to regular graduate status requires a new admission application.

By Graduate School rules, a maximum of 10 credits of high-quality graduate work completed at a regionally accredited institution may be applied toward the requirements for the M.G.I.S. degree. However, credits earned to complete a previous master's degree, whether at Penn State or elsewhere, may not be applied to a second master's degree program at Penn State. Approval to apply any transferred credits toward a degree program must be granted by the student’s academic advisor or program and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School of Penn State, must be of at least B quality, and must appear on an official graduate transcript of an accredited university.

Degree Requirements

Students earn the M.G.I.S. degree by successfully completing 35 credits of course work, including a supervised independent project. Course requirements include a minimum of 18 credits at the 500 level or above, 6 to 9 credits of which are earned through individual studies (GEOG 596). Students are encouraged to create and maintain personal e-portfolios that chronicle their achievements in the program, outline long-term professional development strategies, and foster meaningful interactions among students and faculty members. The independent project demonstrates the student's ability to apply advanced knowledge and skills related to geographic information systems in a way that makes a substantial contribution to his or her professional work. For most students, the project culminates in a formal public presentation, attended by a member of the graduate faculty associated with the MGIS program, which takes place at an appropriate professional conference (such as annual conferences of the Urban and Regional Information Systems Association, the American Congress on Surveying and Mapping, or ESRI). It is also required that the student submit a written report of project aims and outcomes for publication in adviser-approved peer-reviewed journals. Presentations and papers are preceded by dress rehearsals that are open to all students in the program through Web and audio conferencing. As part of his or her individual studies, every student is expected to contribute a formal peer review of one other student’s rehearsal.

An Advisory Board consisting of accomplished GIS professionals in government and industry, as well as Penn State faculty members in a variety of disciplines who specialize in geographic information science and technology, guides the ongoing development of the MGIS curriculum. Designed for students who are able to participate only on a part-time basis and at a distance, the curriculum is spread over three years; however, students who are able to manage heavier course loads may complete the program in a shorter period of time. Courses are offered five times annually, with two partially-overlapping 10-week terms in Fall and Spring semesters and one 10-week term each Summer. First-year courses are designed to help students develop the information literacy and technical competencies they need to become knowledgeable and skilled users of desktop geographic information technologies. Second-year courses prepare students for leadership in their organizations with regard to the design, specification, and management of complex geographic information infrastructures. During the third year, students complete electives and an independent study project by which they demonstrate a substantive contribution to their organization as well as the ability to communicate their contribution.
to a professional audience. Students who successfully complete the Penn State MGIS satisfy the minimum educational achievement required for professional certification by the Geographic Information Systems Certification Institute (www.gisci.org).

Student Aid

Graduate assistantships are not available. Financial aid opportunities for part-time students who participate through the World Campus are discussed at http://worldcampus.psu.edu/StudentServices_FinancialAidOffice.shtml.

PRESCRIBED COURSES

MASTER OF GEOGRAPHIC INFORMATION SYSTEMS

GEOGRAPHY (GEOG)

- 482. The Nature of Geographic Information (2)
  OR

  - 864. Professionalism in GIS&T (2)
  - 483. Problem-Solving with GIS (3)
  - 484. GIS Database Development (3)
  - 583. Geospatial System Analysis and Design (3)
  - 584. Geospatial Technology Project Management (3)
  - 586. Geographical Information Analysis (3)
  - 596. Individual Studies (3)

In lieu of specified prescribed and elective courses, MGIS students may elect to substitute those for courses that comprise an option. There are two option choices: Geospatial Intelligence Option (14 credits) and Geodesign Option (9 credits).

GEOSPATIAL INTELLIGENCE OPTION

In lieu of 8 credits of prescribed introductory courses (GEOG 482 or 864 + 483 + 484) plus 6 additional elective credits, MGIS students may substitute 14 credits associated with courses that comprise the Geospatial Intelligence Option. This option is designed for current or aspiring practitioners in government agencies, businesses, and non-governmental organizations that rely on insights produced through skillful, knowledgeable, and conscientious analysis of diverse geo-referenced data to plan for emergencies, to coordinate responses to natural and human induced disasters, to enforce the law, and to plan and conduct military operations.

GEOGRAPHY (GEOG)

- 882. Geographic Foundations of Geospatial Intelligence (3)
- 883. Remote Sensing for the Geospatial Intelligence Professional (3)
- 884. Geographic Information Systems for the Geospatial Intelligence Professional (3)
- 885. Advanced Analytic Methods in Geospatial Intelligence (3)
- 889. Seminar in Geospatial Intelligence (2)

GEODESIGN OPTION

In lieu of 3 credits of a prescribed introductory course (GEOG 484) plus 6 additional elective credits, MGIS students may substitute 9 credits associated with courses that comprise the Geodesign Option. This option is designed for current or aspiring professionals in government agencies, businesses, and non-profit organizations who see limitations in current regional and urban planning and design approaches, and who seek a foundation in geospatially-based design through investigating the methods and collaborative nature of the Geodesign process.

GEODESIGN (GEODZ)

511. Geodesign History, Theory, Principles (3)

GEOGRAPHY (GEOG)

487. Environmental Applications of GIS (3)
865. Cloud and Server GIS (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Program

Recognizing that the national health care system is in a period of reform and redesign, the program emphasis involves design/redesign in a 36-credit curriculum. Based on eight core courses defined as the foundation of administration in health care, the degree is designed for part-time professional students already engaged in health administration careers. The mission of the program is to further student knowledge and skills in a continuous learning cycle. Students are expected not only to know the existing health system, but are to develop a capability for design consistent with demands of access to care, management, and control of costs and quality of care delivery.

Part-time students may start the program at the beginning of any semester. They usually take one or two 3-credit courses each semester. Students may also take one or two courses during the summer session to maintain steady progress toward the degree. All Health Administration courses are available during the evening for the convenience of part-time students. A student may complete the M.H.A. on a part-time basis in about two to four years.

Admission Requirements

Undergraduate degrees in any major are acceptable for admission. Applicants must have either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants who are still completing their baccalaureate requirements at the time of the application may be admitted to the Graduate School conditional on the awarding of the baccalaureate degree.

Admission to the MHA program is based on clear suitability for the MHA program as demonstrated by the application as a whole, to include:

- a completed online Graduate School application and payment of the application fee,
- evidence of a bachelor's degree from an regionally accredited college as outlined above;
- a statement of career and educational goals;
- a successful undergraduate record with a minimum grade-point average of 3.00 (with particular attention given to the last two years of undergraduate work);
- satisfactory scores on the Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT) are required if the GPA is less than 3.00 (typically, applicants who have scores of 1,000 or higher on the GRE and are admitted to the program tend to be successful in the program);
- three years of work experience; and
- names of three references willing to provide recommendations.

The GPA requirement may be relaxed if the student has professional experience or other strong evidence suggesting likely success in the MHA program. Some applicants may be admitted on a provisional basis; the condition for removal of provisional status is obtaining a grade-point average of 3.00 in 15 credits of approved courses within two semesters.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral Language for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Program Requirements

The degree requires a total of 36 credits, with a minimum of 33 credits at the 500-level, including a 3-credit capstone course (faculty-supervised paper); up to 3 credits of 400-level work may be included in the electives. An overall 3.00 (B) grade-point average must be earned in all coursework.

REQUIRED COURSES: 24 credits
H ADM 539, H ADM 540, H ADM 541, H ADM 542, H ADM 545, P ADM 503, P ADM 506, P ADM 510

ELECTIVES: 9 credits
H ADM 543, H ADM 546, H ADM 548, H ADM 551, H ADM 552, H ADM 597, P ADM 505, P ADM 511, P ADM 512, P ADM 514, P ADM 515, P ADM 516, P ADM 520

CAPSTONE COURSE (FACULTY-SUPERVISSED PAPER): 3 credits
H ADM 594

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

HEALTH ADMINISTRATION (H ADM) course list

Last Revised by the Department: Fall Semester 2013
Review Date: 11/19/2013
Faculty linked: 8/14/14

The Pennsylvania State University
The graduate degrees in the Department of Health Policy and Administration focus on management, policy, and research in health services, with particular attention to the recurrent problems of cost, quality, and access to health services.

The doctoral program (Ph.D.) is designed to provide advanced knowledge and skills in health services research, with an emphasis track in health policy and economics, health care organizations or population health and demography. The doctorate in H PA prepares students to become independent health services researchers in academic and nonacademic settings.

The Master of Science (M.S.) degree in Health Policy and Administration provides a solid foundation of knowledge and skills in health services research. The M.S. in H PA prepares students for further graduate study toward a doctorate in health services research or related fields or for research and analytic work in academic and nonacademic health services research settings.

The professional Master of Health Administration (M.H.A.) program prepares students for the complexities they will face in managing organizations that plan, finance and deliver health care. The curriculum emphasizes strategic decision-making, financial management, communication and detailed aspects of the U.S. health care system. These include health law, epidemiology, health insurance, government health-financing programs, ethics, managed care, long-term care, health care technology, marketing, and strategic planning for health services.

The integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) program allows qualified undergraduate students to earn both degrees in five calendar years of full time academic study. Students completing an integrated B.S./M.H.A. are prepared to advance quickly to positions of leadership in health care organizations.

The M.B.A. program of the Smeal College of Business and the Department of Health Policy and Administration of the College of Health and Human Development offer a concurrent degree program. The M.B.A./M.H.A. graduate will be well-grounded in both business and health management and prepared for positions in hospitals, nursing homes, managed care and health insurance organizations, health care consulting, and pharmaceutical companies, as well as for helping businesses in all sectors understand the unique features of the health care system.

Doctoral Admission and Degree Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Satisfactory scores from either the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) are required for admission; the GRE is preferred. A junior/senior grade-point average of 3.00 or better (on a 4.00 scale) and a well-considered statement of experience and career goals are major criteria for admission. Some work experience in health services is preferred, but not required.

The H PA doctoral curriculum includes study in three substantive areas: (1) core courses in health services organization, delivery, finance and policy; (2) core courses in health services research methods and statistics, and (3) courses and a doctoral thesis in an emphasis track approved by the doctoral committee.

M.S. Admission and Degree Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Satisfactory scores from either the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) are required for admission; the GRE is preferred. A junior/senior grade-point average of 3.00 or better (on a 4.00 scale) and a well-considered statement of experience and career goals are major criteria for admission. Some work experience in health services is preferred, but not required.

The M.S. curriculum in H PA includes study in three substantive areas: (1) a core set of courses in health services organization, delivery, finance, and policy; (2) courses in health services research methods and statistics, and (3) courses and a master's thesis approved by the thesis advisor. At least 15 credits of the program must be completed in H PA departmental course offerings at the 400- and 500-level. At least 18 credits of the degree must be in 500- and 600-level courses. A 6-credits master's thesis must be completed as part of the degree requirement.

M.H.A. Admission and Degree Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Satisfactory scores from either the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) are required for admission; the GRE is preferred. This requirement will be waived for applicants with five or more years of relevant work experience. A junior/senior grade-point average of 3.00 or better (on a 4.00 scale), a relevant personal statement and three letters of recommendation are necessary. Some work experience in health care is preferred, but not required.

The program can be completed on a full-time basis in 21 months or on a part-time basis or with the aid of technology through the World Campus in 28 months. Requirements for the completion of the M.H.A., include 49 credits with at least 39 credits at the 500-or 800-level. Included in the 49 credits is a residency in a health care setting and a capstone course to demonstrate evidence of analytical ability and synthesis of material.

Integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) Admission and Degree Requirements

The following credentials will be considered for admission:

- A demonstrated ability to communicate effectively, an advanced level of maturity, and high motivation to pursue a career in the health care field
- Academic references
- Successful completion of 60 undergraduate credits having maintained a cumulative GPA of 3.4 or better

Students admitted to the B.S. in Health Policy and Administration/M.H.A. are able to earn both the B.S. and M.H.A. in five calendar years of full-time academic study.

M.B.A./M.H.A. Concurrent Degree Program Admission and Degree Requirements

Students may apply to be admitted to either the M.H.A. or the M.B.A. program initially. During the initial year in either graduate program, students may apply to complete the concurrent degree program and must meet admission requirements for the other program. See the M.H.A. and M.B.A. degree program descriptions for further admission requirements of each program.

Graduate Bulletin Archive - 2015

The Pennsylvania State University
Students complete 88 credits associated with both the M.H.A. and M.B.A. degrees. Included within the required credits is a 10-week integrated residency during a summer. The time required to complete the M.B.A./M.H.A. can be as much as 34 months.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

### Human Development and Family Studies (HD FS)

**Program Home Page**

**DOUGLAS M. TETI, Department Head, Human Development and Family Studies**

**EVA LEFKOWITZ, Professor in Charge of Graduate Programs in Human Development and Family Studies**

315 Health and Human Development East Building

814-863-8000

#### Degrees Conferred:

Ph.D., M.S. (A master's degree is offered only to persons interested in studying for a doctorate.)

#### The Graduate Faculty

#### The Program

This interdisciplinary program is one of the graduate programs of the College of Health and Human Development. It is administered through the Department of Human Development and Family Studies. The Human Development and Family Studies graduate program is designed to educate students about research, theory, and methodology related to the study of individuals and families across diverse populations and diverse settings. There is a strong interest in the ways in which social institutions and settings such as day care facilities, schools, neighborhoods, and social policy institutions facilitate (or inhibit) opportunities for development and change for individuals and families. Understanding the characteristics and conditions that place individuals or families at risk for developing problems, designing effective prevention program to address those risks, and mounting rigorous evaluations of such programs is a growing emphasis in the program. All students, regardless of substantive area, are encouraged to develop strong skills in research methods, a hallmark of our graduate training. Through course work and apprenticeship experiences, students develop an understanding of the program's multidisciplinary life span/life course, and applied orientation. As student's progress through the program, they are expected to develop specialized expertise in two of more of the department's areas of concentration: individual development, family studies, intervention research, and research methods. Further specialization is possible in adult development and aging, biological bases of behavior, child and adolescent development, cognitive development and functioning, family relationships, integrative theories of human development, interpersonal relationships, and social-emotional development and change.

#### Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the **GENERAL INFORMATION** section of the Graduate Bulletin.

Entering students should have at least 6 credits in the biological and physical sciences; 12 in the social sciences and, depending upon proposed area of emphasis, basic courses in sociology, psychology, and economics; and 6 in developmental and family studies. Students not meeting these requirements may be admitted with limited deficiencies to be made up concurrently with their graduate work.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission for fall semester only. Early application is required, and a special application to HD FS must be completed; additional information can be obtained from the professor in charge of Graduate Recruitment and Interdisciplinary Training. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

#### Degree Requirements

Entering students take three required 3-credit courses (Life Span Development, Family Studies, and Intervention Research), four required 3-credit methods courses in Research Methods and Statistics, and 2 credits of a professional development seminar during the first two years. Over time, course work becomes increasingly specialized and tailored to the student's individual interests. Yearly Plans of Study developed in consultation with the student's adviser specify course work and apprenticeship experience directed at the student's emerging scholarly and career interests. For the master's degree, in addition to the required courses, students take 9 credits in their substantive field and 6 credits of thesis research. For the doctorate, in addition to the required courses, students must take a total of 12 credits in their substantive field, 6 methodology elective credits, and 6 credits of thesis research.

#### Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the **STUDENT AID** section of the Graduate Bulletin.

#### Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**HUMAN DEVELOPMENT AND FAMILY STUDIES (HD FS) course list**

DATE LAST REVIEWED BY GRADUATE SCHOOL: 5/21/04

Faculty linked: 6/20/14; Department head updated 7/30/14
Human Dimensions of Natural Resources and the Environment (HDNRE)

Co-Chairs, Department of Agricultural Economics and Rural Sociology and Department of Geography

Degrees Conferred:
Students electing the dual-title intercollege program in HDNRE through participating majors may earn a degree with dual-title at both the Ph.D. and M.S./M.A. levels, i.e., Ph.D. in (graduate program name) and Human Dimensions of Natural Resources and the Environment, or M.S./M.A. in (graduate program name) and Human Dimensions of Natural Resources and the Environment.

The following graduate programs offer dual-title degrees in HDNRE: M.A. and Ph.D. in Anthropology and HDNRE; M.S. and Ph.D. in Energy and Mineral Engineering and HDNRE; M.S. and Ph.D. in Forest Resources and HDNRE; M.S. and Ph.D. in Geography and HDNRE; M.S. and Ph.D. in Recreation, Park and Tourism Management and HDNRE; and M.S. and Ph.D. in Rural Sociology and HDNRE.

The Graduate Faculty

The Program
The HDNRE dual-title intercollege degree program is administered by the HDNRE Program Committee. The committee maintains program definition, identifies appropriate faculty and courses, and recommends policies and procedures for its operation. This dual-title intercollege degree program is offered through graduate major programs in four colleges: Agricultural Sciences, Earth and Mineral Sciences, Health and Human Development, and the Liberal Arts. HDNRE enables students to attain and be identified with the content, techniques, applications, methods, and policy implications of an interdisciplinary focus on Human Dimensions of Natural Resources and the Environment, while maintaining a close association with areas of application.

Through participation in HDNRE, student programs of study will emphasize integrated, multidisciplinary approaches designed for improving their understanding about and management of natural resources. Areas of study will reflect the faculty advisor's home department and disciplinary thrust. To pursue a dual-title intercollege degree under this program, the student must first apply and be admitted through one of the existing graduate programs that offers the dual-title degree in HDNRE (Anthropology; Energy and Mineral Engineering; Forest Resources; Geography; Recreation, Park, and Tourism Management; or Rural Sociology).

Admission Requirements
HDNRE requirements include: (1) a minimum baccalaureate Jr/Sr grade point average of 3.0 out of a 4.0 scale; (2) a statement of professional goals, natural resource management philosophy, and reasons for applying to the program; and (3) three letters of reference from individuals capable of evaluating the applicant's potential for graduate work in interdisciplinary natural resource management. TOEFL scores are required of all students for whom English is a second language.

The language of instruction at Penn State is English. All international applicants whose first language is not English or who have not received a baccalaureate or master's degree from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System) and submit the results of that test with the application for admission. A TOEFL score of 550 on the paper test, a score of 213 on the computer-based test, or 80 points on the new Internet-based Test with a minimum of 20 points on the speaking portion; or the IELTS module with a minimum composite score of 6.5 is required for admission.

Degree Requirements
To qualify for a dual-title intercollege degree, students must satisfy the requirements of the major program in which they are enrolled, including the communication/foreign language requirements, if any. In addition, they must satisfy the minimum requirements in the HDNRE dual-title intercollege program described here. Final course selection is determined by the student and her/his respective graduate committee. All dual-title intercollege degree candidates must enroll in HDNRE 590 in each of their first two semesters.

M.S./M.A. Degree: A candidate for the dual-title intercollege M.S./M.A. in HDNRE must complete 17 credit hours of HDNRE coursework beyond the bachelor's degree in addition to curricular requirements for the masters degree in the student's primary program. The HDNRE requirement includes four common courses in the HDNRE curriculum – i.e., HDNRE 590 Colloquium (two credits), HDNRE 574 Integrated Perspectives in Human Dimensions of Natural Resources and the Environment, HDNRE 575 Ethical Issues in Human Dimensions of Natural Resources and the Environment, and RSOC 555 Human Dimensions of Natural Resources. In addition, each HDNRE student will take either ANTH 559 Behavioral Ecology (to be changed to Human Ecology – name change proposal at Department) or FORS 565 GIS-Based Socio-Ecological Landscape Analysis, and one additional course selected in consultation with the student's graduate committee. The HDNRE Colloquium must be taken in each of the first two semesters of enrollment in the dual-title intercollege degree program. In addition, 6 semester credit hours of Thesis Research (in the student's home graduate degree program) are required if the candidate is writing a thesis. Particular courses may satisfy both the graduate major program requirements and those of the HDNRE dual-title intercollege program. All courses must be approved by the student's M.S./M.A. committee.

The thesis supervisor and chair of the student's graduate committee shall be a member of the student's major program, and a member of the dual-title program. All members of the committee must hold Graduate Faculty status or secure the same before serving on the committee.

The culminating experience (e.g., thesis, scholarly paper, project) must incorporate an HDNRE interest together with the primary field of study. All students are also required to successfully complete an oral defense of the M.S./M.A. project completed as part of the master's requirements if required by the participating program.

Ph.D. Degree: A candidate for the dual-title intercollege HDNRE Ph.D. must complete, in addition to curricular requirements for the doctoral degree in the student's primary program, a minimum of 18 credit hours of HDNRE coursework. This includes the required courses for the HDNRE M.S./M.A. program. The HDNRE Colloquium must be taken each of the first two semesters of enrollment in the dual-title intercollege degree program. In addition, 9 semester credit hours of Thesis Research (either in the home department or in HDNRE) are required. Particular courses may satisfy both the graduate major program requirements and those of the HDNRE program. If an HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary course work must be selected, with the approval of the student's doctoral committee. As well, a continuing doctoral candidate must take 3 credits of HDNRE 590 (each student must enroll the first two semesters and then once more prior to graduation).

All Ph.D. students will be required to complete, present, and defend a dissertation that incorporates a topic related to HDNRE, in addition to the participating program.

All participating primary programs (Anthropology; Energy and Mineral Engineering; Forest Resources; Geography; Recreation, Park, and Tourism Management; and Rural Sociology) have agreed to incorporate the dual-title program within the student's dissertation work.

Student Aid
Forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Primary Programs of Study
All students (M.S./M.A. and Ph.D.) in the dual-title intercollege graduate degree program in HDNRE are expected to complete the common series of courses (HDNRE 590 – 2 credit minimum for masters students and 3 credit minimum for doctoral students, HDNRE 574, HDNRE 575, and RSOC 555). As well, each student is required to take either ANTH 559 or FORS 565 and one additional course selected in consultation with the student's graduate committee. All

The Pennsylvania State University
students must complete the required course of study in their primary program. Further, all HDNRE Ph.D. students will be encouraged to assist in teaching at least one course as part of their training and education in the dual-title intercollege graduate degree program.

**Rural Sociology**

**M.S.**
- M.S. – minimum of 30 credits (400, 500, 600 level) plus thesis
- Research Methods (AGEC 525 or its equivalent)
- Statistics – two semester sequence (AG 400 or RSOC 573 or their equivalent)
- Two or more of the following courses for Rural Sociology (RSOC 444, 452, 501, 502, 508, or 516)
- 6 semester credit hours of Thesis Research
- A final oral defense of thesis
- M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
- 6 semester credit hours of Thesis Research if a thesis is required.

**Ph.D.**
- Ph.D. – no specified minimum credit requirements plus dissertation
- RSOC 502
- Either RSOC 516 or 517
- Two of the following (includes untaken course from above; RSOC 501, 508, 525, 530, 552, 555, 597A-E)
- Research Methods (AGEC 525 or its equivalent)
- Statistics – two semester sequence (AG 400 or RSOC 573 or their equivalent)
- Comprehensive examinations in four areas (Rural Sociology; Methods/Statistics; two additional areas. These areas of concentration are developed in consultation with major professor and others. One of these areas must be HDNR.)
- A final oral defense of dissertation
- Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
- 9 semester credit hours of Thesis Research

**Forest Resources**

**M.S.**
- M.S. – minimum of 30 credits (400, 500, 600 level) plus thesis
- 12 credits in 400 and 500 level courses appropriate to field of interest
- 6 credits of graduate level statistics
- 2 graduate seminar colloquium credits
- 12 at least 6 and no more than 15 credits of Thesis Research
- At least 18 credits total must consist of 500- or 600-level course series, and only 6 thesis research credits (600) are applicable
- A final oral examination
- M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
- 6 semester credit hours of Thesis Research if a thesis is required.

**Ph.D.**
- Ph.D. – no specified minimum credit requirements plus dissertation
- Candidacy Examination
- 2 credits of 590
- 1 credit FOR 602 credit (Supervised Experience in College Teaching)
- Satisfy Language or Culture requirement
- Comprehensive Examination
- A final oral defense of dissertation
- Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
- 9 semester credit hours of Thesis Research

**Energy and Mineral Engineering**

**M.S.**
- M.S. – minimum of 30 credits (24 course credits + 6 credits of Thesis Research)
- 15 credits representing physical (EGEE 500 – 3 credits) and chemical (EGEE 510 – 3 credits) interactions, quantitative skills (EGEE 520 – 3 credits), integrative design experience (EGEE 580 – 5 credits), or equivalent substitution in these main programmatic areas, and Colloquium (EGEE 590 - 1 credit)
- A final oral defense of thesis
- M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
- 6 semester credit hours of Thesis Research if a thesis is required.
- Ph.D. – minimum of 15 credits of 500-level courses plus dissertation
- Candidacy examination
- Comprehensive examination
- A final oral defense of dissertation
- Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
- 9 semester credit hours of Thesis Research

**Recreation, Park, and Tourism Management**

**M.S.**
- M.S. – minimum of 36 credits including thesis
- 9 credits RPTM core courses (RPTM 501, 527, 545)
- Research Methods (RPTM 530)
- Statistics – one statistics course at 400 or 500 level
- 5 credits of RPTM electives
- 6 semester credit hours of thesis research
- A final oral defense of thesis
- M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
- 6 semester credit hours of Thesis Research if a thesis is required.
Ph.D. – no specified minimum number of credits plus dissertation
12 credits RPTM core courses (RPTM 501, 527, 545, 597)
Research Methods (RPTM 533 plus a qualitative methods course)
Candidacy and comprehensive examination
Statistics – three statistics courses beyond master’s coursework
6 credits of RPTM electives
Dissertation research (no specified minimum of credit hours)
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student’s doctoral committee.
9 semester credit hours of Thesis Research

Anthropology
M.A.
M.A. – minimum of 30 credits (24 course credits + 6 credits of Thesis Research)
12 credits in Anthropology (including ANTH 408 and ANTH 456)
6 credits of graduate level statistics
At least 6, but no more than 15 credits of Thesis Research
At least 18 credits total must consist of 500- or 600- level course series, and only 6 thesis research credits (600) are applicable
A final oral examination
M.A. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.

Ph.D.
Ph.D. – The M.A. requirements as noted above (or equivalent)
18 additional graduate level credits
Satisfy foreign language requirement
Comprehensive Examination
A final oral defense of dissertation
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student's doctoral committee.
9 semester credit hours of Thesis Research

Geography
M.S.
M.S. – Thesis option or two-paper option: thesis option minimum of 30 credits, plus thesis; paper option minimum of 35 credits, plus two papers, one of which must be associated with a seminar. Geography 500 and 502, 3 credits of 501, 2 credits of 590, and a minimum of 3 other 500-level seminar credits from the Department required. Proposal defense required of both options;
Illustrated Paper presentation required at end of 2 nd year.
M.S. – 17 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course).
6 semester credit hours of Thesis Research if a thesis is required.

Ph.D.
Ph.D. – Geography 500 and 502, 2 credits of 590; no other course or credit requirements, plus dissertation
Proposal defense a minimum of two weeks before comprehensive exam; final oral defense of dissertation.
Ph.D. – 18 credits in HDNRE program (HDNRE 590, HDNRE 574, HDNRE 575, RSOC 555; either ANTH 559 or FORS 565; plus one course). If a HDNRE M.S./M.A. student continues into the HDNRE Ph.D. program, 15 credits of interdisciplinary courses must be selected with the approval of the student’s doctoral committee.
9 semester credit hours of Thesis Research

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

HUMAN DIMENSIONS OF NATURAL RESOURCES AND THE ENVIRONMENT (HDNRE) course list

Degrees Conferred:
Ph.D., D.Ed., M.Ed., M.S.

The Graduate Faculty

- Philip J. Burlingame, Ph.D. (Pittsburgh) Affiliate Professor of Education
- John J. Cheslock, Ph.D. (Cornell) Associate Professor of Education
- Michael Dooris, Ph.D. (Penn State) Affiliate Associate Professor of Education
- Andrea L. Dowhower, Ph.D. (Ohio) Affiliate Professor of Education
- Dorothy E. Evenson, Ph.D. (NYU) Professor of Education
- Roger L. Geiger, Ph.D. (Michigan) Distinguished Professor of Education
- Betty J. Harper, Ph.D. (Penn State) Affiliate Professor of Education
- Robert M. Hendrickson, Ed.D. (Indiana) Professor of Education
- Kathy S. Jackson, Ph.D. (Texas A&M) Affiliate Professor of Education
- Stanley E. Latta, D.Ed. (Penn State) Affiliate Professor of Education
- Beverly Lindsay, Ph.D. (American) Professor of Education
- Frederick D. Lomis, Ph.D. (Penn State) Associate Professor of Education
- Margaret A. Lorah, D.Ed. (Penn State) Affiliate Assistant Professor of Education
- Daniel S. Merson, Ph.D. (Penn State) Assistant Professor of Education
- Leticia Oseguera, Ph.D. (UCLA) Assistant Professor of Education
- Janet K. Schuilenberg, Ph.D. (Penn State) Affiliate Assistant Professor of Education
- Damon Sims, J.D. (Indiana) Affiliate Associate Professor of Education
- Robert J. Williams, D.Ed. (Penn State) Affiliate Associate Professor of Education
- Liang Zhang, Ph.D. (Cornell) Associate Professor of Education

The graduate program in Higher Education has as its goal the preparation of individuals who will pursue careers and exert leadership in postsecondary education as administrators, faculty, or researchers in the nation's colleges and universities and in a variety of public and private agencies and associations in the United States and other nations. With emphasis on the systematic study of higher education, the program builds on the scholarly and scientific disciplines offered throughout the University and applies these studies to the professional functions and responsibilities that its graduates will assume, and to the knowledge of the field of higher education.

The Higher Education program offers the Ph.D. and D.Ed. at the doctoral level, the M.S. and M.Ed. at the master's level, and a minor in Higher Education in residence at the University Park campus. The Higher Education program also offers the M.Ed

With mounting awareness of the changes occurring in various academic and professional fields, of the need for higher education reform, and of the need for improved articulation among the various levels of education, higher education faculty cooperates with other departments of the University on research projects, assistantships, internships, and professional development experiences.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by the graduate program and authorized by the dean of the Graduate School, such as the Miller Analogies Test (MAT), are required for admission. At the discretion of the head of the graduate program, an applicant may be admitted without these scores. Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

All applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with 18 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of designated English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

NOTE: Candidates for all degrees must apply and be accepted before they are considered to be degree seeking.

APPLICATION DEADLINE: Candidates to the M.Ed., D.Ed., and Ph.D. may enter the program at the beginning of the fall or spring semester, or the summer session. The M.S. program only admits students for the fall semester. Applicants should see the program web page for a list of application materials required for each program of study and specific application deadlines.

Below are the general requirements for the degree offered in the Higher Education program. Please see the program web page for more specific information.

Ph.D. Degree Requirements. All students pursuing a Ph.D. must satisfy the following minimum requirements:

Core Courses (15 credits)

- 548. Curriculums in Higher Education (2-3)
- 552. Administration in Higher Education (3)
- 554. History of American Higher Education (3)
- 556. Higher Education Students and Clientele (3)
- 562. Organizational Theory and Higher Education (3)

Research Requirements: 12 credits

- 586. Qualitative Methods in Educational Research (3)

Students choose the remaining research credits with approval of adviser (e.g., ED PSY 406 Applied Statistical Inference for the Behavioral Sciences, ED PSY 505 Statistical Applications in Educational Research, STAT 500 Applied Statistics, STAT 501 Regression Methods, R SOC 573 Methods of Survey Data Analysis)

Advanced Research Skills: 9 credits (To be determined in consultation with student’s adviser)

Specialization in Higher Education (additional 12 credits of Higher Education coursework) Minor (number of credits determined by the minor area or 15 credits...
Specific D.Ed. Degree Requirements. All students pursuing a D.Ed. must satisfy the following minimum requirements:

Core Courses (15 credits)

HIGHER EDUCATION (HI ED)
- HI ED 548. Curriculums in Higher Education (2-3)
- HI ED 552. Administration in Higher Education (3)
- HI ED 554. History of American Higher Education (3)
- HI ED 556. Higher Education Students and Clientele (3)
- HI ED 562. Organizational Theory and Higher Education (3)

Research Requirements: 12 credits
- HI ED 585. Research Design: Implications for Decisions in Higher Education
- HI ED 586. Qualitative Methods in Educational Research

Specialization in Higher Education (additional 12 credits of Higher Education coursework)

Minor or General Studies Grouping (15 credits minimum)

Internship (9 credits optional based on previous experience in higher education administration)

Dissertation Proposal Preparation

Dissertation (minimum of 15 credits): HI ED 600 or HI ED 610

Specific M.S. Requirements (43 credits required). All students pursuing a M.S. must satisfy the following minimum requirements:

Higher Education Courses (9 credits Prescribed):
- HI ED 545. Foundations of Higher Education and Student Affairs (3)
- HI ED 552. Administration in Higher Education (3)
- HI ED 560. Legal issues in Higher Education and Student Affairs (3)

Student-Focused Courses (12 credits Prescribed):
- HI ED 556. Higher Education Students and Clientele (3)
- HI ED 505. College Student Development (3)
- HI ED 507. Social Justice and Helping Skills for Student Affairs Professionals (3)
- CNED 501. Counseling Theory and Method (3)

Research Courses (9 credits):
- HI ED 586. Qualitative Methods in Educational Research (3)

Experiential Learning (6 credits Prescribed):
- HI ED 595. Internship in Higher Education (1-9)

Electives (3 credits):
- Students can choose from an array of courses in the College of Education (e.g., HI ED 554, The History of American Higher Education; HI ED 548, Curriculums in Higher Education; HI ED 807, Foundations of Academic Advising).

Culminating Experience (4 credits Prescribed):
- HI ED 596. Individual Studies (1-9)

Specific M.Ed. Requirements (for both the residential degree and online degree, 30 credits required). All students pursuing a M.Ed. must satisfy the following minimum requirements:

HIGHER EDUCATION (HI ED)
- HI ED 490. Professional Seminar in Higher Education (prescribed) (3)
- HI ED 545. Foundations of Higher Education and Student Affairs (prescribed) (3)

One research course (prescribed) from:
- HI ED 801. Foundations of Institutional Research (3)
- HI ED 504. Research and Assessment in Student Affairs (3)
- HI ED 560. Legal issues in Higher Education and Student Affairs (3)

Courses in an Emphasis Area in Higher Education (9 credits)

Students will have the opportunity to choose an emphasis area (administration, student engagement, or institutional research), to tailor a program of study to fit an intended career path, in consultation with their advisor. If the emphasis area does not fit the student’s intended career path, students may design their program of study from electives offered in Higher Education or other relevant areas in the College of Education. Students not having experience in higher education are encouraged to secure an internship in the area of professional practice.

The courses below are listed as recommended courses within a defined emphasis area. However, other Penn State online courses may be substituted with approval of the student’s advisor.

Administration Emphasis (Choose 9 credits from the following)
- HI ED 548. Curriculums in Higher Education (2-3)
- HI ED 552. Administration in Higher Education (3)
- HI ED 560. Legal Issues in Higher Education and Student Affairs (3)
- HI ED 810. Planning and Resource Management in Higher Education (3)

Student Engagement Emphasis (Choose 9 credits from the following)
- HI ED 546. College Teaching (2-3)
- HI ED 556. Higher Education Students and Clientele (3)
- HI ED 840. Assessing Student Outcomes and Evaluating Programs (3)
- HI ED 807. Foundations of Academic (3)

Institutional Research Emphasis (Choose 9 credits from the following)
- HI ED 810. Planning and Resource Management in Higher Education (3)
- HI ED 830. Designing Institutional Research Studies (3)
- HI ED 840. Assessing Student Outcomes and Evaluating Programs (3)
- HI ED 850. Analyzing Faculty Workload, Performance and Compensation (3)
- HI ED 860. Conducting Enrollment Management Studies (3)
Internship Elective:
995. Internship in Higher Education (1-9)

Additional Elective Courses in Higher Education (9 credits)
M.Ed. in Higher Education students will have the opportunity to design their program of study by choosing from a list of elective HI ED courses’ including the option for an internship (HI ED 995) Internship in Higher Education. The additional elective courses will be chosen in consultation with the student’s advisor.

Culminating Experience in Higher Education (3 credits)
996. Individual Studies (prescribed) (1-9)

Joint Degree Program between The Pennsylvania State University Dickinson School of Law (J.D.) and the Higher Education Program (M.Ed., M.S., D.Ed., Ph.D.)

Admission to the Joint J.D./M.Ed. Degree

The number of openings in the joint degree J.D./M.Ed. (residential degree only), M.S., D.Ed., or Ph.D. program will be limited to students with an outstanding academic record who have successfully completed two semesters at the Dickinson School of Law.

Applicants to the joint degree program:
1. must have been admitted to the Dickinson School of Law
2. should have successfully completed two semesters of course work at the Dickinson School of Law with a grade-point average of 3.0
3. must submit two letters of recommendation from the Dickinson School of Law faculty
4. must submit a career statement

Note: Students are eligible to start taking courses in the HI ED program after successfully completing two semesters of law school work.

College-Specific Admission Requirements

DSL: A bachelor’s or equivalent degree from an accredited college is a prerequisite for admission; however, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral and written communication skills before entering law school. The following are required of applicants: a completed application form for DSL; submission of the results of the law school admission test (LSAT); completion of an LSDAS report; a one-page personal statement; employment records since high school; and two letters of recommendation.

HI ED: The following are required of all applicants: a completed Graduate School application and payment of the application fee; submission of the results of the Graduate Record Examination (GRE), Miller Analogies Test (MAT), or LSAT; an official undergraduate transcript or transcripts; a personal statement; a resume; and four letters of recommendation.

All applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Residency

Students will normally spend four semesters in residence at DSL and as many additional semesters in residence as needed to complete the additional requirements for the pertinent HI ED degree. Ph.D. candidates must arrange the sequence of semesters to ensure that they are in residence as full-time students in the HI ED program for at least two consecutive semesters (Fall-Spring or Spring-Fall) excluding summer in a single twelve-month period. D.Ed. candidates must take at least 90 credits, of which at least 30 credits must be earned at the University Park campus.

Liaisons

The department and faculty liaisons for DSL shall be the Associate Dean for Academic Affairs and the student advisor will be the Associate Dean for Academic Affairs or such other faculty member(s) as may be designated by the Dean. The liaison for HI ED shall be the Professor-in-Charge (PIC) or such faculty member(s) as may be designated by the PIC.

Degree Requirements

DSL: All students in the J.D. program are required to take the first-year curriculum in DSL. In the second or third year, students must take CORE 934 (Professional Responsibility).

HI ED: All students pursuing a Ph.D. must satisfy the following minimum requirements:

Core Courses: 15 credits

Higher Education (HI ED)
548. Curriculums in Higher Education (2-3)
552. Administration in Higher Education (3)
554. History of American Higher Education (3)
556. Higher Education Students and Clientele (3)
562. Organizational Theory and Higher Education (3)

Research Requirements: 12 credits

Higher Education (HI ED)
585. Research Design: Implications for Decisions in Higher Education (3)
586. Qualitative Methods in Educational Research (3)

Students choose the remaining research credits with approval of adviser (e.g., ED PSY 406 Applied Statistical Inference for the Behavioral Sciences, ED PSY 505 Statistical Applications in Educational Research, STAT 500 Applied Statistics, STAT 501 Regression Methods, R SOC 573 Methods of Survey Data Analysis)

Advanced Research Skills: 9 credits (To be determined in consultation with student’s adviser)

Specialization in Higher Education: 12 credits

Cognate Minor: 15 credits (minimum)

Proposal Writing

HI ED 594. (Research Topics) (minimum of 3 credits; maximum of 9)

The Pennsylvania State University
All students pursuing a D.Ed. must satisfy the following minimum requirements:

**Core Courses:** 18 credits

**Specialization in Higher Education: 12 credits**

**Minor or General Studies Grouping:** 15 credits (minimum)

**Internship**

HI ED 595 (9 credits optional based on previous experience in higher education administration)

**D.Ed. Thesis Research**

HI ED 594 (Research Topics) (minimum of 3 credits; maximum of 9)

**Dissertation** (minimum of 15 credits)

HI ED 600 (thesis research) or HI ED 610 (Thesis Research Off-Campus)

**Students pursuing the M.Ed. must satisfy the following requirements:**

**HIGHER EDUCATION (HI ED)**

490. Professional Seminar in Higher Education (Prescribed) (3)

545. Foundations of Higher Education and Student Affairs (Prescribed) (3)

One research course (Prescribed) from:

801. Foundations of Institutional Research (3)

504. Research and Assessment in Student Affairs (3)

**Courses in an Emphasis Area in Higher Education (9 credits)**

Students will have the opportunity to choose an emphasis area (administration, student engagement, or institutional research), to tailor a program of study to fit an intended career path, in consultation with their advisor. If the emphasis area does not fit the student’s intended career path, students may design their program of study from electives offered in Higher Education or other relevant areas in the College of Education. Students not having experience in higher education are encouraged to secure an internship in the area of professional practice.

The courses below are listed as recommended courses within a defined emphasis area. However, other Penn State online courses may be substituted with approval of the student’s advisor.

**HIGHER EDUCATION (HI ED)**

**Administration Emphasis (Choose 9 credits from the following)**

548. Curricula in Higher Education (3)

552. Administration in Higher Education (3)

560. Legal Issues in Higher Education and Student Affairs (3)

810. Planning and Resource Management in Higher Education (3)

**Student Engagement Emphasis (Choose 9 credits from the following)**

546. College Teaching (3)

556. Higher Education Students and Clientele (3)

840. Assessing Student Outcomes and Evaluating Programs (3)

807. Foundations of Academic (3)

**Institutional Research Emphasis (Choose 9 credits from the following)**

810. Planning and Resource Management in Higher Education (3)

830. Designing Institutional Research Studies (3)

840. Assessing Student Outcomes and Evaluating Programs (3)

850. Analyzing Faculty Workload, Performance and Compensation (3)

860. Conducting Enrollment Management Studies (3)

**Internship Elective:**

595. Internship in Higher Education

**Additional Elective Courses in Higher Education (9 credits)**

M.Ed. in Higher Education students will have the opportunity to design their program of study by choosing from a list of elective HI ED courses including the option for an internship (HI ED 595 Internship in Higher Education). The additional elective courses will be chosen in consultation with the student’s advisor.

**Culminating Experience in Higher Education (3 credits)**

596. Individual Studies (Prescribed) (3)

**HI ED:** All Students pursuing the M.S. must satisfy the following requirements: *Higher Education Courses (9 credits Prescribed):*

**HIGHER EDUCATION (HI ED)**

545. Foundations of Higher Education and Student Affairs (3)

552. Administration in Higher Education (3)

560. Legal Issues in Higher Education and Student Affairs (3)

**Student-Focused Courses (12 credits Prescribed):**

556. Higher Education Students and Clientele (3)

505. College Student Development (3)

507. Social Justice and Helping Skills for Student Affairs Professionals (3)

CN ED 501. Counseling Theory and Method (3)
Research Courses (9 credits):
504. Research and Assessment in Student Affairs (3)
Two additional courses from:
ED PSY 400. Introduction to Statistics in Educational Research (3)
ED PSY 406. Applied Statistical Inference for the Behavioral Sciences (3)
HI ED 586. Qualitative Methods in Educational Research (3)

Experiential Learning (6 credits Prescribed):
HI ED 595. Internship in Higher Education (1-9)

Electives (3 credits):
Students can choose from an array of courses in the College of Education (e.g., HI ED 554, The History of American Higher Education; HI ED 548, Curriculums in Higher Education; HI ED 807, Foundations of Academic Advising).

Culminating Experience (4 credits Prescribed):
HI ED 596. Individual Studies (1-9)

Interprogram Transfer of Credits

DSL: A maximum of twelve credits for HI ED course work may be transferred for credit toward the J.D. degree at DSL. Students must obtain a grade satisfactory to DSL for the course work to be credited towards the J.D. degree. The following HI ED program may qualify for credit in DSL: (1) HI ED 545 (Higher Education in the United States); (2) HI ED 552 (Administration in Higher Education); (3) HI ED 560 (Legal Issues in Higher Education); (4) HI ED 546 (College Teaching) and (5) HI ED 587 (Education Policy and Politics).

HI ED: What courses may be credited will be determined by the student's degree program. Normally a maximum of twelve credits of DSL course work will be counted for credit for the minimum requirements for a master's degree, subject to approval by the student's advisory committee. Normally, a maximum of 30 credits from a master's degree program will be counted for credit for the minimum requirements for a Ph.D. or D.Ed. degree.

Sequence
The sequence of courses will be determined by the students and their advisors.

Recommended Program of Study and Advising
All students in the program will have two advisors, one from DSL and one from HI ED. Periodic interaction between the two advisors will be encouraged. A program of study will be developed for each student, taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year but some are offered every two or three years. Advisors will have available a list of projected relevant courses or educational experiences in order to work with the student on an individualized program of study. The standard committee structure will apply to the HI ED programs.

Tuition
Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable graduate tuition to cover the HI ED degree program. DSL tuition will be paid for the semesters in which the student is registered for DSL courses, and graduate tuition will be paid for the semesters in which the student is registered for graduate courses. A student may take up to one course (3 credit hours) per semester in the program where the student is not primarily registered without any change in tuition, but must pay additional tuition to the program that the student is not primarily registered if he or she wishes to take additional course work pursuant to that program during the semester.

Financial Aid and Assistantships
Decisions on financial aid and assistantships will be made by each school according to that school's procedures. Generally, assistantships and financial aid granted by HI ED will not apply to time spent at DSL.

Fulfillment of Degree Requirements and Graduation
All courses in one program that will count towards meeting the requirements of the other must be completed before the awarding of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to HI ED program requirements for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the HI ED degree program committee (in such cases, the committee should consider whether the credits afforded such work will be subject to the twelve credit maximum for interprogram transfers). A DSL faculty member must be a member of the committee.

If for some reason the student cannot complete the requirements of the J.D., the student will still be allowed to count DSL courses already taken toward the pertinent HI ED degree, even if he or she is no longer in the joint degree program.

Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Graduate Faculty

The Program

Graduate instruction at the master's and doctoral degree level is offered in the following areas: United States (19th and 20th century), Europe (Ancient, Medieval, Early Modern and Modern), Africa (General, Regional and Cultural Studies), Asia (Ancient, Late Imperial and 20th century), Latin America (Colonial and Modern). Only students focusing their course of study on the department's four primary areas of strength (Latin America, Early Modern Global, 19th-century United States, and Late Imperial and Republican China) are admitted into the graduate program. Courses in all other areas are offered on a regular basis and encouraged as secondary areas of focus.

Admission Requirements

Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Bulletin.

Applicants to the doctoral program must hold or be near completion of the master's degree (or its equivalent); all others will be considered for admission to the master's program, even if it is their ultimate intention to pursue a doctoral degree at Penn State.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

To be considered for admission, applicants must submit a completed online Graduate School application and payment of the application fee. In addition, applicants must submit transcripts that show (1) substantial coursework in history, (2) a minimum GPA of 3.50 (on a 4.0 scale), (3) at least three semesters of college-level work in a foreign language (additional language training appropriate to the fields in which the applicant proposes to work may also be required for admission) and (4) where applicable, a minimum GPA of 3.50 for all graduate work previously undertaken. Each applicant must submit the scores of the Graduate Record Examination (GRE) taken within five years previous to the date of application; the general examination scores are mandatory, the history examination is optional. Successful applicants typically have minimum scores of 160 (or 650 old scoring) on the verbal and quantitative sections, and 5.0 on the analytical writing section of the general examination.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 100 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

The Department of History further requires all applicants to submit directly to the department a statement of intent outlining their proposed fields of study and career goals, as well as a sample of their written work (undergraduate history thesis, master's thesis, seminar paper or equivalent research paper) as evidence of their historical research and writing skills. Three letters of recommendation are required; it is strongly preferred that at least two of them be from historians.

Integrated Undergraduate-Graduate Bachelor/Master's Degree Admission Requirements

In addition to all the admission requirements noted above (excepting the TOEFL), admission to the History IUG will be based upon students' having:

1. completed at least one 400-level history course in a primary area of interest (with a B grade or higher) and attained a minimum GPA of 3.5 in all courses.
2. completed at least 60 credits (but no more than 100 credits).
3. submitted a proposed program plan directly to the Department of History's Director of Graduate Studies prior to the fall application deadline.

Admission will be based on application to and acceptance by the Graduate School and the Department of History (in consultation with the Department of History graduate admissions committee).

Master's Degree Requirements

(1) Candidates for the M.A. degree must earn a minimum of 36 credits of coursework that can be counted towards a graduate degree, of which 12 credits will be in the student's primary area and 6 credits each in two secondary areas. At least 30 credits must be at the 500 level, with no more than 6 credits of HIST 596. The only required course is HIST 500 - Theory, Method and the Practice of History. Coursework offered by outside departments may be scheduled as part of the student's program with approval of the student's academic committee and the Director of Graduate Studies. In some cases, students may be required to take additional credits in order to make up deficiencies in foreign language skills and/or undergraduate coursework.

(2) Reading proficiency in at least one foreign language must be demonstrated no later than the beginning of the second year of residence.

(3) Students are required to convene two separate, formal meetings with their advisers and master's committees: Committee Formation Meeting and the Master's oral examination. The convening of the student's master's committee must take place no later than the end of the first master's year in the program. Every student should, in consultation with the permanent adviser, select at least two other members of the graduate faculty to serve on their master's committee (for a minimum total of three faculty members). There must be faculty representation of each of the students' two fields (selected from the department's list of officially recognized fields). At this first meeting there should be a discussion and approval of the general program plan (seminars, courses and other requirements).

The Pennsylvania State University
(4) Students must hold a Master’s oral examination. The examination consists of an oral defense of two research papers written while in the M.A. program in two department-defined fields of study (e.g., 19th century US and Modern Europe). The research papers must be of a length, substance, and quality that the committee deems to be of journal article-caliber. Students must submit the papers to the committee a minimum of two weeks prior to the oral examinations; the papers then must be orally presented and successfully defended before the committee in the M.A. examination.

**Integrated Undergraduate-Graduate Bachelor/Master’s Degree Requirements**

Similar to the requirements for the Master’s degree noted above, the History IUG will be based upon the following:

1. Students for the IUG M.A. degree must complete 123 credits for the B.A. degree (and meet all the B.A. History requirements) as well as the 36 credits for the M.A. degree. Of these credits, 12 credits may be ‘double counted’ to both the credit totals (with at least 6 of the 12 credits at the 500 level).
2. History IUG students should compose their committee and convene a committee meeting with all members present in the semester immediately following admission to the IUG (typically the sixth semester). At this first meeting there should be a discussion and approval of the general program plan (seminars, courses and other requirements)
3. History IUG students must hold a Master’s oral examination. The examination consists of an oral defense of two research papers written while in the M.A. program in two department-defined fields of study (e.g., 19th century U.S. and Modern Europe). The research papers must be of a length, substance, and quality that the committee deems to be of journal article-caliber. Students must submit the papers to the committee a minimum of two weeks prior to the oral examinations; the papers then must be orally presented and successfully defended before the committee in the M.A. examination.

**Doctoral Degree Requirements**

1. CREDIT & COURSE REQUIREMENTS: Candidates for the Ph.D. degree in History must complete at least 27 credits of graduate-level work at the 500-600 level (with no more than one HIST 596 per academic year), of which 12 credits will be in the student's primary area and 6 credits each in two secondary areas. The only required course is HIST 500 - Theory, Method and the Practice of History. The remainder of a student's doctoral program, including foreign language requirements, should be determined in consultation with the doctoral committee. Coursework offered by outside departments may be scheduled as part of the student's program with approval of the student's doctoral committee and the Director of Graduate Studies.

2. FOREIGN LANGUAGE REQUIREMENTS: Reading proficiency in at least one foreign language must be demonstrated no later than the third semester of residency (not including summer semester).

3. ENGLISH COMPETENCE: A candidate for the degree of Doctor of Philosophy in History is required to demonstrate high-level competence in the use of the English language, including reading, writing, and speaking. At the end of the first year of enrollment all students who are non-native speakers of English must successfully complete a writing proficiency test administered by the Director of Graduate Studies. In addition to this requirement, the Director of Graduate Studies will solicit evaluations from their advisor(s) and seminar instructors in order to identify any deficiencies. Students with any identified deficiencies will be directed into appropriate remedial activities. The deficiencies must be met before the candidacy examination. Competence must be formally attested by the program before the student’s comprehensive examination is scheduled. (International students should note that passage of the minimal TOEFL or IELTS requirement does not demonstrate the level of competence expected of a Ph.D. from Penn State.)

4. COMMITTEE COMPOSITION: By the end of the first master’s year in the program, every student should, in consultation with the permanent advisor, select at least two other members of the graduate faculty to serve on their doctoral committee. Doctoral committees typically have no fewer than four members: four professors whose seminars a student has taken (or will take) and a fifth additional (or outside) member. At least one regular member of the doctoral committee must represent a field outside the candidate’s major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Field Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Additionally, at least one regular member of the doctoral committee must have a primary appointment in an administrative unit outside the primary appointment from the administrative home of the student’s dissertation advisor (e.g., for tenure-line faculty, the tenure home) in order to avoid the potential for conflicts of interest. This committee member is referred to as the “Outside Unit Member.” In some cases, an individual may have a primary appointment outside the administrative home of the student’s dissertation advisor and also represent a field outside the student’s major field of study; in such cases, the individual may serve as both the Outside Field Member and the Outside Unit Member.

Only those faculty who have been approved by and graduated from the Graduate School as members of the Graduate Faculty in History can serve as representatives of the three primary and secondary fields on any doctoral committee. The list of Graduate Faculty can be found in the Graduate School Bulletin online on the Graduate School’s Graduate Faculty list. For students who have been admitted to a dual-title degree partner program it is recommended that one member of the committee have their primary graduate faculty affiliation (their “home appointment”) in the dual-title partner program (Women’s Studies, Asian Studies or Classics and Ancient Mediterranean Studies).

5. CANDIDACY: The candidacy examination may be taken after the completion of at least 18 credits of acceptable graduate work at Penn State and must be taken by the third semester of full-time study in the graduate program. Following successful passage of the candidacy exam, a program plan will be submitted to the Departments of History and the participating program after consultation with members of the student’s doctoral committee.

6. FORMAL MEETINGS: Students are required to convene two separate, formal meetings with their advisers and doctoral committees for: 1) a discussion and approval of the general program plan (seminars, courses and other requirements) and 2) their Ph.D. comprehensive examinations.

7. DOCTORAL DISSERTATION DEFENSE: Upon the researching, writing, and completion of the doctoral dissertation, the candidate must pass a doctoral examination (i.e., dissertation defense).

**Other Relevant Information**

The Director of Graduate Studies, who supervises the overall graduate program in history and maintains student records, will assign newly admitted students to a dissertation advisor and to a permanent adviser. In the first semester, the dissertation advisor will assign a student to seminars and courses that will provide an opportunity to pursue a broad interest. In the second semester, the dissertation advisor will finalize the student’s program with approval of the student’s doctoral committee and the Director of Graduate Studies.

The department also recommends that students engage in a significant research activity, such as publication, that demonstrates their competence in the academic area they are pursuing. The research activity should be in an area that is of interest to the advisor and the advisor should provide guidance and support in the development of the research activity. The research activity should be completed prior to the dissertation defense.

**Student Aid**

In addition to the fellowships, graduate assistantships, and other forms of financial aid described in the Student Aid section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

**JAMES HAMILTON HARTZELL AND LUCRETIA IRVINE BOYD HARTZELL HISTORY AWARD**
A $200 to $300 award made annually to a graduate student in the Department of History whose field of interest is Pennsylvania history.

**JAMES LANDING FELLOWSHIP ADN THE WARREN HASSLER FELLOWSHIP FOR STUDY IN THE CIVIL WAR**
Each fellowship is available each year to doctoral candidates who are working on their dissertations. The award consists of a stipend that earns the successful candidate one semester of release time for research and writing. No tuition waiver is offered.

**HILL FELLOWSHIPS FOR STUDY IN HISTORY**
Awarded by the Department of History each year to doctoral candidates who are working on their dissertations. The amount of the award varies, but it generally supports one semester free of duties.

**EDWIN ERLE SPARKS FELLOWSHIP IN THE HUMANITIES**
One fellowship is available each year to doctoral candidates in the Department of History who are working on their dissertations.

**MARK AND LUCY MACMILLAN STITZER AWARD**
Awarded by the Department of History each year to support graduate student travel for the purpose of research. The number and value of these awards depends on the quality of proposals received, the level of funding required by each meritorious project, and the funds available in the endowment. Preference is given to requests for doctoral dissertation research.

The Pennsylvania State University
Dual-Title Graduate Degree in History and Asian Studies

Graduate students with research and educational interests in international education may apply to the History/Asian Studies Degree Program. The goal of the dual-title degree History and Asian Studies is to enable graduate students from History to acquire the knowledge and skills of their major area of specialization in History while at the same time gaining the perspective of Asian Studies.

In order to prepare graduate students for the competitive job market, this program provides them with a solid disciplinary foundation that will allow them to compete for the best jobs in their field. For such students the dual-title Ph.D. in Asian Studies will add value to their degree and their status as candidates. It will produce excellent historians who are experts in Asian Studies as well. The dual-title degree in History and Asian Studies will build curricular bridges beyond the student’s major field so as to provide a unique training regime for the global scholar.

Additional details of the dual degree program are available in separate documentation and from the Asian Studies Program (see http://asian.la.psu.edu/graduate.shtml).

Admission Requirements

In addition to the admission requirements set forth by the Graduate School and the Department of History, students will be admitted to the dual-title degree program in Asian Studies by an admissions committee of Asian Studies faculty. Students can apply to the dual-title program in one of two ways. First, they can apply to the dual-title program when they apply to Penn State’s History Department, following that department’s admission requirements and writing a statement of purpose that addresses the ways in which their scholarly interests reflect an interest in interdisciplinary and work on Asia. Second, students who are already enrolled in the History Department can apply directly for admission to the dual-title degree before their admission to candidacy; application requirements are available on the Asian Studies Program website.

General Graduate School requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Ph.D. Degree Requirements

The doctoral degree in History and Asian Studies is awarded only to students who are admitted to the History doctoral program and admitted to the dual-title degree in Asian Studies. The minimum course requirements for the dual-title Ph.D. degree in History and Asian Studies are as follows:

- HIST 592 (Pre-Modern China) and HIST 581 (Late Imperial and Modern China)
- ASA 501 and 502 (the required seminar sequence in Asian Studies)
- An additional three credits in an Asia-related course (400-level and above) in Asian Studies or in any department other than History.

Foreign Language and English Competency Requirements

All-skills proficiency in one Asian language and two years’ college study (or equivalent knowledge) of another Asian language or alternative proficiency appropriate to the student’s field.

Committee Composition

For a dual-title Ph.D., a minimum of two members of the committee will be members of the Graduate Faculty in Asian Studies.

Candidacy

In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the History department. In addition, the student will be required to present a portfolio of work in Asian Studies to their committee. Such a portfolio would minimally include a statement of the student’s interdisciplinary research interests and a program plan.

Comprehensive Exams

The Asian Studies affiliated faculty members on the student’s committee are responsible for ensuring that Asian Studies content constitutes a portion of the student’s comprehensive exams. The Asian Studies’ content will focus on the following areas: theory, methodology, transnationalism, and interdisciplinary material related to the student’s discipline.

Dissertation

A dissertation on an Asian Studies’ topic approved in advance by the student’s committee must be written by students in the dual-title degree program and orally defended to the student’s doctoral committee.

Dual-Title Graduate Degree in History and Classics and Ancient Mediterranean Studies

This dual-title degree program will increase the intellectual rigor, breadth, and depth of graduate work in history through immersion in the disciplinary fields covered by the Department of Classics and Ancient Mediterranean Studies: the philology and literature of ancient Mediterranean languages; the history and material cultures of those societies.

This dual-title program will thus provide a context in which history graduate students will learn how to synthesize knowledge within and across traditional disciplinary boundaries. In addition, this dual-title degree program will provide qualified history graduate students opportunities for instructional training and encouraging an interdisciplinary approach to teaching.

The primary advantages of this dual-title program include the intellectual and academic advantages and benefits of interdisciplinary study, as well as the enhancement of the reputation of the history department through an innovative program, leading to recruitment of highly qualified history graduate students, and an improved placement of doctoral graduates in the highly-competitive field of ancient history.

Admission Requirements

In addition to the admission requirements set forth by the Graduate School and the Department of History, an admissions committee of CAMS faculty will admit students to the dual-title degree program in CAMS. Students can apply to the dual-title program in one of two ways. First, they can apply to the dual-title program when they apply to Penn State’s History Department, following that department’s admission requirements and writing a statement of purpose that addresses the ways in which their scholarly interests reflect an interest in interdisciplinary and graduate work in history through immersion in the disciplinary fields covered by the Department of Classics and Ancient Mediterranean Studies: the philology and literature of ancient Mediterranean languages; the history and material cultures of those societies. Second, students who are already enrolled in the History Department can apply directly for admission to the dual-title degree before their admission to candidacy.

General Graduate School requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements

M.A. Degree

In addition to the History Department requirements listed above, students in the M.A. degree must take 9 credits of coursework in CAMS including: CAMS 592 (CAMS Proseminar) and CAMS 593 (Research Seminar). Students must complete 3 additional credits of Women’s Studies coursework. Students must complete a master’s paper on a CAMS-related topic approved by the student’s committee.

The Pennsylvania State University
Graduate Bulletin Archive - 2015

Ph.D. Degree

In addition to the History Department requirements listed above, students in the dual-title doctoral degree must take CAMS 592 (CAMS Proseminar) and CAMS 593 (Research Seminar). An additional 9 credits (a minimum of 6 should be at the 500-level) in CAMS or courses relevant to the student’s research interests. Students must attain 1) a reading knowledge of a second ancient language--proficiency to be demonstrated through 400/500 level coursework in that language as instructed by CAMS language faculty--or competence, demonstrated in coursework or field study as approved by the student’s dual-title doctoral committee, 2) facility in a research technique in a technical field relevant to the dual-title program: e.g., archaeology, art history, anthropology, historical linguistics, literary studies and analysis.

Committee Composition

For a dual-title Ph.D., a minimum of two members of the committee will be members of the Graduate Faculty in Classics and Ancient Mediterranean Studies.

Foreign Language and English Competency Requirements

Master’s students will fulfill a requirement of reading knowledge of one ancient language; Ph.D. candidates will fulfill a requirement of reading knowledge of two ancient languages or of one ancient language and competence in a research technique. Language proficiency will be demonstrated through 400/500 level work in the languages concerned, as instructed by CAMS faculty. Students will be expected to acquire and demonstrate reading proficiency in those modern foreign languages (e.g., but not exclusively, French, German, Italian) appropriate to their research interests, as identified in consultation with their dual-title master’s and/or doctoral committee.

Candidacy and Comprehensive Exams

Dual-title students must successfully pass a comprehensive examination, as required by History. A representative of the CAMS program will serve on the student’s doctoral committee, and who will ensure appropriate CAMS content in the student’s comprehensive examinations and in the dissertation.

Dissertation

A dissertation on a CAMS topic approved in advance by the student’s doctoral committee must be written by students in this dual-title degree program and orally defended to the student’s doctoral committee.

Dual-Title Graduate Degree in History and Women's Studies

Dual-title degrees in History and Women’s Studies foster interdisciplinary scholarly work that is grounded in historical study, research, and teaching. A dual-title program will enhance the intellectual rigor and breadth of graduate work through core courses in feminist theory and methodologies; by exposure to a range of interdisciplinary approaches to scholarship that focuses on the intersections of gender, sexuality, race, ethnicity, nation, and citizenship; and by offering students a pedagogical framework that encourages an interdisciplinary approach to teaching.

Admission Requirements

In addition to the admission requirements set forth by the Graduate School and the Department of History, students will be admitted to the dual-title degree program in Women’s Studies by an admissions committee of Women’s Studies faculty. Students can apply to the dual-title program in one of two ways. First, they can apply to the dual-title program when they apply to Penn State's History Department, following that department’s admission requirements and writing a statement of purpose that addresses the ways in which their scholarly interests reflect an interest in interdisciplinary and feminist work. Second, students who are already enrolled in the History Department can apply directly for admission to the dual-title degree before their admission to candidacy; application requirements are available on the Women’s Studies website.

General Graduate School requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

M.A. Degree

In addition to the History Department requirements listed above, students in the dual-title M.A. degree must take 9 credits in Women’s Studies core courses (WMNST 501: Feminist Perspectives in Research and Teaching (3 credits); WMNST 507: Feminist Theory (3 credits); and WMNST 597: Special Topics in Women’s Studies). Students also must complete 3 additional credits of Women’s Studies course work chosen in consultation with the Women’s Studies Graduate Officer.

Ph.D. Degree

In addition to the History Department requirements listed above, students in the dual-title M.A. degree must take 9 credits in Women’s Studies core courses (WMNST 501, WMNST 507, and WMNST 597) as well as 9 credits of Women’s Studies elective courses (at least 6 credits at the 500-level) chosen in consultation with the Women’s Studies graduate officer.

Foreign Language and English Competency Requirements

The student will fulfill the language requirement specified by the cooperating department through which the student is admitted to the dual-title degree program.

Committee Composition

For a dual-title M.A. or Ph.D., a minimum of two members of the committee will be members of the Graduate Faculty in Women’s Studies.

Candidacy

In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the History department. In addition, the student will be required to present a portfolio of work in Women’s Studies to their committee. Such a portfolio would include a statement of the student's interdisciplinary research interests, a program plan, and samples of writing that indicate the student's work in Women’s Studies.

Comprehensive Exams

The Women’s Studies affiliated faculty members on the student’s committee are responsible for ensuring that Women’s Studies content constitutes a portion of the student’s comprehensive exams. The Women Studies’ content will focus on the following areas: feminist theory, feminist methodology, global feminism, and feminist studies.

Dissertation

A dissertation on a Women’s Studies topic approved in advance by the student’s committee must be written by students in the dual-title degree program and orally defended to the student’s doctoral committee.

Dual-Title Graduate Degree in History and African American and Diaspora Studies

Admission Requirements

In addition to the admission requirements set forth by the Graduate Council and the Department of History, students will be admitted to the dual-title degree program in African American and Diaspora Studies by an admissions committee of African American and Diaspora Studies faculty. Students can apply to the dual-title program in one of two ways. First, they can apply to the dual-title program when they apply to Penn State’s History Department, following that department’s admission requirements and writing a statement of purpose that addresses how the student’s research and professional goals intersect...
with the objectives of the dual-title graduate degree program in History and African American and Diaspora Studies. Second, students who are already enrolled in the History Department can apply directly for admission to the dual-title degree before their admission to candidacy. General Graduate Council requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

GPA and GRE Requirements
Applicants entering with only an undergraduate degree should have a junior/senior cumulative average of at least 3.00 (on a 4.00 scale), and, where applicable, a minimum GPA of 3.50 for all graduate work previously undertaken. Exceptions to the minimum GPA requirement may be made for students with special backgrounds, abilities, and interests. Each applicant must submit the scores of the Graduate Record Examination (GRE) taken within five years previous to the date of application.

Ph.D. Degree
In addition to the History Department requirements listed above, the minimum course requirements for this dual-title Ph.D. degree are as follows:

15 credits of coursework related to African American and Diaspora Studies, all at the 500 level or above. Of these 15 credits, 9 must come from the required core course sequence in African American and Diaspora Studies, which comprises the following courses:

AFR 501. Key Issues in African Studies (3)
ENGL 566. Period Studies in African-American Literature (3)
ENGL 568. Gender Studies in African-American Literature (3)
ENGL 569. Thematic Studies in African-American Literature (3)
ENGL 597. Race and Empire in the Americas, Caribbean & Pacific (3)
HIST 537. African American History (3)
HIST 538. The African American Freedom Struggle in the Twentieth Century (3)
HIST 572. Race and Empire in the Americas, Caribbean & Pacific (3)
PHIL 593. Critical Philosophy of Race (3)

Foreign Language Requirements
As required by the Department of History, students must demonstrate reading proficiency in at least one foreign language no later than the third semester of residency (not including summer semester).

Candidacy
The dual-title field must be fully integrated into the candidacy exam for the doctoral program. In addition, candidates for the dual-title Ph.D. in African American and Diaspora Studies will be required to present to their committee a portfolio of work in African American and Diaspora Studies which includes a statement of the student’s interdisciplinary research interests, a program plan, and samples of writing that indicate the student’s interest in questions taken up by scholars of African American and Diaspora Studies.

Doctoral Committee Composition
For the dual-title Ph.D. degree, at least one member of the committee must be a member of the African American and Diaspora Studies graduate faculty. The doctoral committee for a dual-title doctoral degree student must include a minimum of four faculty members, i.e., a chair and at least three additional members, all of whom must be members of the Graduate Faculty, and one of which must be on the Graduate Faculty in the Department of African American Studies. If the chair is not faculty in African American Studies, then the committee member representing African American Studies must be appointed as co-chair.

At least one regular member of the doctoral committee must represent a field outside the candidate’s major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Field Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Additionally, in order to avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the candidate’s major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Unit Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Comprehensive Exams
The African American and Diaspora Studies graduate faculty member on the student’s committee is responsible for developing and administering the African American and Diaspora Studies portion of the student’s comprehensive exams. The exam must incorporate written and oral components in African American and Diaspora Studies based on the student’s thematic or regional area of interest and specialization in African American and Diaspora Studies. The African American and Diaspora Studies portion of the exam will include the following components: broad history of the field, contemporary theory and debates, and either sexual and gender politics or a topic related to the student’s specific area of interest.

Dissertation
The candidate must complete a dissertation and pass a final oral defense of that dissertation on a topic that reflects their original research and education in both the History and African American and Diaspora Studies in order to earn the dual-title Ph.D. degree.

Student Aid
Graduate assistantships are available to students in this program and other forms of student aid are described in the STUDENT AID section above.

Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
M.Ed.

The Graduate Faculty

The Program
The Health Education program emphasizes behavioral and organizational strategies to plan, implement, and evaluate interventions that enable individuals, groups and communities to achieve personal, environmental, and social health. It complements other professional fields such as education, nutrition, physical therapy, occupational therapy, dental hygiene, nursing, health care administration, and preventive psychology.

The program follows a professional development focus, as many of the students are employed in the broad areas of disease prevention and health promotion and are pursuing graduate study on a part-time basis. The M.Ed. is a professional degree emphasizing applied research.

The program requires a research-based culminating experience. The faculty has a broad range of interests, including health promotion, family systems, teaching and training methods, violence and substance abuse prevention and control, and multicultural health issues.

A minimum of 30 graduate credits is required for the completion of the degree. A 3 credit research-based culminating writing experience is required. The program requires students to complete 21 credits in Prescribed Core courses and 9 credits in Elective courses.

Admission Requirements
Students must have a baccalaureate degree from an accredited college or university, an overall minimum undergraduate grade-point average of 2.50 and a junior/senior GPA of 3.00 (on a 4.00 scale) for admission into the program. Students are also required to submit:

- A completed application form with application fee;
- Two copies of an official transcript from an accredited, college-level university;
- Supplementary application.

An application is available on the Web at www.hbg.psu.edu or by calling 717-948-6250.

Degree Requirements
A minimum of 30 graduate credits is required for the completion of the degree. A 3 credit research-based culminating experience is required. The program has a required core of courses totalling 18 credits as follows:

Prescribed Core Courses: 21 credits
- HLHED 415 Planning and Development of Health Education Programs (3)
- HLHED 456 Advanced Techniques in School and Community Health Education (3)
- EDUC 440 Education Statistics and Measurement (3) or EDPSY 400 Introduction to Statistics in Educational Research (3)
- HLHED 552 Current Health Education Issues (3)
- HLHED 553 Multicultural Health Issues (3)
- EDUC 586 Educational Research Design (3) or HLHED 530 Research Techniques in Health Education (3)
- Culminating Experience: HLHED 591 Culminating Health Education Seminar (3) or HLHED 587 Master's Project (3)

Elective Courses: 9 credits
A minimum of 12 credits is to be selected from the following HLHED courses: HLHED 420, 421, 443, 497, 501, 516, 590, 596, or 597.

Students also may select electives from suitable courses in Psychology, Community Psychology and Social Change, Education, Training and Development, or Health Administration programs. Note that 6 credits must be at the 500 level. Please contact the program office for further information about electives.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

Students may specialize in crop production and marketing, integrated crop management, plant genetics and breeding, horticultural plant physiology, postharvest physiology, plant molecular biology and biotechnology, and horticultural ecology.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of the graduate program officer, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Prerequisites for admission vary according to the area of specialization, but basic courses in physical sciences, mathematics, biological sciences, communication skills, and social sciences and humanities are required. Students who lack prerequisite courses may be admitted but are required to make up deficiencies without degree credit.

Students with a 2.75 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students.

See hortweb.cas.psu.edu/academic/gradprog.html for the most current Admission requirements.

Master's Degree Requirements

All M.S. degree candidates must complete at least one graduate course in biometry, at least 2 credits of resident or extension education (HORT 596 or HORT 602), and two seminars (HORT 590). A thesis is required for the M.S. degree.

Doctoral Degree Requirements

The communication requirement for the Ph.D. degree may be satisfied by completing at least 6 graduate credits in an area of communications skills approved by the student's advisory committee.

All Ph.D. candidates must present at least three seminars (HORT 590) for credit and complete at least two graduate courses in statistics or statistical applications. Ph.D. students must take 2 credits of resident or extension education (HORT 596 or HORT 602).

The candidacy examination must be taken within six months after beginning residency.

Within one semester after passing the candidacy examination, the student's doctoral committee, with the thesis adviser in charge, will have the program planning meeting. The purposes of this meeting are to (1) determine the student’s strengths and weaknesses in pertinent subject matter areas; (2) guide the student in developing a plan of study; and (3) review and discuss the proposed thesis research.

The comprehensive examination, composed of both written and oral parts, will be given when, in the student's and adviser's opinion, the student is ready for the examination, and when the communication requirements and essentially all courses have been completed.

After the thesis is completed and all other requirements for the Ph.D. have been met, the dean of the Graduate School will schedule the final examination. Normally, three months must elapse between the comprehensive and the final examinations. A major part of the examination will be an oral defense of the thesis.

Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin. Students who wish to compete for fellowships should be sure that their application materials are complete by January 15 for entry the following fall semester. The following award typically has been available to graduate students in this program:

WALTER THOMAS MEMORIAL SCHOLARSHIP
Available to students studying the nutrition of horticultural crops; stipend equivalent to a half-time assistantship. Apply through the Department of Horticulture.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Human Resources and Employment Relations (HRER)

Program Home Page

PAUL F. CLARK, Head
003 Keller Building
814-865-5425

Degree Conferred:
- M.S. in Human Resources and Employment Relations
- M.P.S. in Human Resources and Employment Relations
- Integrated B.S. in Labor and Employment Relations and M.S. in Human Resources and Employment Relations
- Integrated B.S. in Spanish and M.S. in Human Resources and Employment Relations (SPHRER)
- Integrated B.S. in Labor and Employment Relations and M.P.S in Human Resources and Employment Relations

The Graduate Faculty

Master of Science in Human Resources and Employment Relations

The Master of Science (M.S.) degree in Human Resources and Employment Relations (HRER) is a two-year program designed for students anticipating careers in some aspect of labor and human resources or labor-management relations. The program has the following objectives:

- provide students with an understanding of the roles employers, employees, employee organizations, and public policy makers play in the employment relationship;
- familiarize students with the complex personal and organizational issues inherent in the employment relationship;
- prepare students to systematically analyze complex issues and evaluate research results in the process of administering labor and human resource systems;
- prepare students for advanced graduate or professional training beyond the master's degree;
- prepare students for employment as practitioners in the field.

Admission Requirements

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (post-secondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants to the MS HRER program:

- Must complete the Penn State Graduate degree application and submit the application fee
- Must submit a 2-3 page essay articulating career and educational goals that demonstrates the applicant's written communication skills.
- Must submit scores from the Graduate Record Examinations (GRE) or the Graduate Management Admission Test (GMAT)
- Must submit Official transcript(s) of all institutions attended. Applicants with a 3.00 junior/senior grade-point average (on a 4.00 scale) will be considered for admission.
- The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.
  - International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.
- Must submit three letters of recommendation sent from people who can assess adequately their likelihood of completing the graduate program.
- Must have completed successfully an undergraduate statistics course plus a minimum of 12 undergraduate credits in the social sciences as part of their baccalaureate degree.

Degree Requirements

Total Required Credits for the MS: 37 credits at the 400 level or higher; at least 18 must be at the 500 or 800 level, with at least 6 must be at the 500 level.

Core Courses (22 credits)

Required course are offered once per academic year and elective courses at least once every two academic years.

Emphasis Courses (6 credits)

An emphasis is an area of study related to a particular aspect or domain of human resources and human resources. Students select an emphasis in consultation with their master's advisory committee.

Elective Courses (3-9 credits)

With the faculty adviser's approval, a student selects at least 3 or more elective credits, depending on the chosen option. Examples of suitable elective courses are: HRER 500, HRER 535, HRER 536, HRER 594, HRER 595, HRER 596, HRER 599; LER 411, LER 401, LER 444, LER 458Y, ECON 412, ECON 436W, ECON 571; EDLDR 565, EDLDR 574; HIST (LER) 555; MGMT 521, MGMT 523, MGMT 548; PSYCH 484, PSYCH 485, PSYCH 522; SOC 455, SOC 456, SOC 555.

THESIS OPTION:
The HRER thesis option is intended for students anticipating additional graduate education beyond the master's degree. It requires 37 credits, including a minimum of 30 at the 400 and 500 level, and a minimum of 6 600-level thesis credits. For the degree, an overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's thesis should reflect the chosen emphasis.

RESEARCH PAPER OPTION:
The HRER research paper option is intended for students expecting to enter the labor market upon completion of the master's degree. It requires a minimum of 37 credits at the 400 and 500 level. For the degree, overall 3.00 (B) grade-point average must be earned in the 400- and 500-level work and a grade of B or above must be earned in all 500-level courses. At least 6 credits must emphasize a particular aspect of employment relations. A student's research paper should reflect the chosen emphasis.

Graduate courses carry numbers from 599 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit
The MPS in Human Resources and Employment Relations (HRER) is a 33 credit program of study for professionals working in human resources/employment relations or considering a career in some aspect of human resources and employment relations. The program will prepare students to:

- understand the roles that employers, employees, employee organizations and unions, and public policy makers play in the employment relationship;
- analyze the complex personal, legal, and organizational issues inherent in the employment relationship;
- understand the ethical dimensions of human resource and employment relations;
- analyze complex issues and evaluate research results in the process of administering labor and human resource systems;

Courses include the study of employment law, labor and employment relations, human resources, workplace organization, labor markets, ethics, and the employment relationship, recruiting/selection, compensation and benefits, workforce development, and diversity in the workplace.

The program highlights the changing nature of the HRER field, including the impact of the globalization of private and public organizations and the growing importance of diversity in the workforce. It culminates in a capstone class in which students will demonstrate their understanding of the curriculum and apply it to their professional areas of interest. Upon completion of the MPS HRER, students will be equipped to work as professionals in human resource management, employment relations, and general management with private employers, unions, government agencies, and non-profit organizations.

Students pursuing the MPS in HRER are required to complete a concentration designed to provide the student an opportunity to develop expertise in a specific area of human resources and employment relations. The focused coursework should make the degree more relevant to potential students and add value to the degree from the student's perspective.

Students will choose and complete one concentration which will include 6 credits beyond the 24 required course credits. Double counting 6 required credits, including the Research Project, the concentration would be 12 credits of coursework in a particular area of HRER. An additional 3 elective credits chosen from LER, HRER, or WF ED courses must also be completed. Students will be required to complete the capstone project in their area of concentration. (For example, students choosing the Benefits and Compensation concentration would be required to complete a capstone project that focused on some aspect of benefits and compensation).

Admission Requirements

In order to enter the MPS in HRER, applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants who do not have a GPA of at least 3.0 will be considered on a case-by-case basis depending on the quality of their overall application. Applicants who are still completing their baccalaureate requirements at the time of application may be admitted to the Graduate School provisionally, based on the awarding of the baccalaureate degree. Students are also expected to have a minimum of two years of full-time work experience prior to admission.

Admissions decisions for the program are based on the quality of the applicant's credentials. The decisions are based on a review of the complete application portfolio. During the admission process, students who are better suited for another graduate level program will be encouraged to apply to the appropriate program. Applicants to the MPS HRER must submit the following materials:

- Penn State graduate degree application form and application fee;
- A 2-3 page essay articulating career and educational goals that demonstrates the applicant's written communication skills. Documentation of a minimum of two years of full-time work and a resume should be attached as a supplement;
- Three letters of recommendation that attest to the applicant's readiness for graduate study and document the minimum of two years of work experience;
- The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 90 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.
- International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Graduate Record Examination (GRE) scores are not required.

Degree Requirements

Total Required Credits for the M.P.S.: 33 credits at the 400 level or higher; at least 18 credits must be at the 500 or 800 level, with at least 6 credits at the 500 level

**PRESCRIBED COURSES:** 24 credits

**HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER)**
501. Labor and Employment Law (3 credits)
504. Seminar in Industrial Relations (3 credits)
505. Seminar in Human Resources (3 credits)
800. International Context of HRER (3 credits)
802. Organizations in the Workplace (3 credits)
816. Labor Market Analysis (3 credits)
825. Strategic Business Tools for HRER Professionals (3 credits)
836. Diversity in the Workplace (3 credits)
894. Research Topics (3 credits)

**AREAS OF CONCENTRATION (student must complete one)**

---Benefits and Compensation
LER 424. Employment Compensation (3 credits)
LER 425. Employment Benefits (3 credits)

---Employment and Labor Law
LER 401. Law of Labor-Management Relations (3 credits)
HRER 811. Labor and Employment Law II (3 credits)

--Labor and Collective Bargaining
LER 401. Law of Labor-Management Relations (3 credits)
LER 435. Labor Relations in the Public Sector (3 credits)

--Staffing, Training, and Development
LER 426 Staffing and Training (3) or WF ED 471 Training in Industry and Business (3 credits)
WF ED 573 Needs Assessment for Industrial Trainers (3 credits)

**ELECTIVE COURSES:** 9 credits

The Pennsylvania State University
Integrated B.S. in Labor and Employment Relations and M.S. in Human Resources and Employment Relations

The integrated LER B.S. and HRER M.S. is a five-year program designed for academically talented baccalaureate students to obtain both the B.S. and the M.S. degrees in LER and HRER with five years of study. Students will develop expertise in the human resources and labor relations fields beyond the B.S. degree. The undergraduate curriculum educates students about (1) the roles of employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship (3) and how to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for more individualized, focused learning in a concentrated sub-area of the HRER field. The program culminates with an M.S. research paper. Upon completion of the integrated degree, students will enter the workforce with advanced knowledge and expertise gained from conducting and analyzing empirical work and participating in seminar-style classes.

Admission Requirements

The number of openings in the integrated B.S./M.S. program will be limited to undergraduates with strong academic records. Applicants to the integrated program:

1. must be enrolled in the LER B.S. program;
2. must complete the Penn State graduate degree application form and pay the application fee;
3. shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;
4. should have an overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in the major;
5. must obtain letters of recommendation from the chairs of the Department’s undergraduate and graduate committees, and
6. must submit a writing sample, 2 transcripts, 1 letter of recommendation (in addition to those from the chairs of the Department’s undergraduate and graduate committees), and a career statement.

No GRE or GMAT scores are required for admission to the program.

Degree Requirements

M.S. REQUIREMENTS: 36* credits at the 400 level or higher; 18 credits must be at the 500 or 800 level, with at least 6 at the 500 level (*12 credits may be double counted; at least 6 must be at the 500 level)

*The M.S. degree requirement for the 1-credit course HRER 510 is waived for students accepted into this IUG degree program, as HRER 510 is intended to familiarize new students with the field and the department; it is anticipated that these IUG students already will have this foundation.

PRESCRIBED COURSES: (21 credits)

**or other statistics course approved in advance by graduate director

***or other methods course approved in advance by graduate director

ADDITIONAL COURSES: (15 credits)
Select 15 credits from the following list in consultation with adviser (a maximum of 6 credits may be at the 400 level).

Emphasis Courses (6 credits)
An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Select 6 credits from the M.S. prescribed or additional courses in consultation with their adviser.

Masters Research Paper or a Masters Thesis (6 credits)
Students must complete either a Masters Research Paper or a Masters Thesis. Students choosing the Thesis option must complete 6 thesis research credits (HRER 600). These credits can be counted towards the 15 credits required from the M.S. Additional Courses section above.

HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER) course list
LABOR AND EMPLOYMENT RELATIONS (LER) course list

Integrated B.S. in Spanish and M.S. in Human Resources and Employment Relations

The integrated Spanish B.S. and HRER M.S. is a five-year program designed for highly qualified and motivated students seeking employment within a culturally diverse workplace. Students will develop basic skills in speaking, understanding, reading, and writing Spanish. Students will gain familiarity with Hispanic cultures through literature and the University’s international education program, if they choose to have that experience. Students also will learn about (1) the roles that employers, employees, employee organizations, and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, and (3) how to systematically analyze those complex issues and evaluate research relevant to those analyses.

For the B.S./M.S. degree in Integrated Spanish B.S. and Human Resources and Employment Relations M.S., a minimum of 154 credits is required. Twelve credits (400 level or above) can apply to both undergraduate and graduate degrees; at least 6 of these must be at the 500 level. Students can complete the B.S. in Spanish and not advance to the M.S. HRER degree if they desire.

Admission Requirements

The number of openings in the integrated B.S./M.S. program will be limited to undergraduates with strong academic records. Applicants to the integrated program:

1. must be enrolled in the Spanish B.S. program;
2. must complete the Penn State graduate degree application form, and pay the application fee;
3. shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study.

No GRE or GMAT scores are required for admission to the program.

The Pennsylvania State University
Degree Requirements

M.S. REQUIREMENTS: 37 credits at the 400 level or higher; 18 credits must be at the 500 or 800 level, with at least 6 at the 500 level

PRESCRIBED COURSES: (22 credits)
HRER 501(3), HRER 502(3), HRER 503(3), HRER 509(3), HRER 510(1), HRER 512(3)*, HRER 513(3)**, HRER 516(3)
*or other statistics course approved in advance by graduate director
**or other methods course approved in advance by graduate director

ADDITIONAL COURSES: (15 credits)
Select 15 credits from the following list in consultation with adviser (a maximum of 6 credits may be at the 400 level)

Emphasis Courses (6 credits)
An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Select 6 credits from the M.S. prescribed or additional courses in consultation with their adviser.

Master's Research Paper or a Master's Thesis (6 credits)
Students must complete either a Master's Research Paper or a Master's Thesis. Students choosing the Thesis option must complete 6 thesis research credits (HRER 600). These credits can be counted towards the 15 credits required from the M.S. Additional Courses section above.

Admission Requirements

Admissions decisions for the B.S. /M.P.S. program are based on the quality of the applicant's credentials. The decisions are made after a review of the complete application portfolio. The integrated B.S. /M.P.S. program will be limited to highly talented undergraduates. Applicants to the integrated program must:

- must be enrolled in the LER B.S. program;
- must complete the Penn State graduate degree application and pay the application fee;
- shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;
- must have an overall GPA of 3.4 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.6 in the major;
- must submit 2 letters of recommendation from current or previous Penn State instructors and 1 additional letter of recommendation (should be professional or academic);
- must submit a writing sample, a resume, and 2-3 page essay articulating career and educational goals that demonstrates the applicant’s written communication skills;
- must present an approved plan of study (to be determined in consultation with the student’s undergraduate adviser and the Graduate Director, and to be signed by both); and
- must possess the equivalent of two years of full-time work experience prior to admission.

No GRE or GMAT scores are required for admission to the program.

Degree Requirements

The M.P.S. requires 33 credits at the 400 level or higher; at least 18 credits must be at the 500 or 800 level, with at least 6 credits at the 500 level.
Nine (9) of 33 credits can be double counted for B.S. and M.P.S. At least 6 of these must be at the 500 or 800 level.

Prescribed Courses (24 credits)

Human Resources and Employment Relations (HRER)
- 501. Labor and Employment Law (3 credits)
- 504. Seminar in Industrial Relations (3 credits)
- 505. Seminar in Human Resources (3 credits)
- 800. International Context of HRER (3 credits)
- 802. Organizations in the Workplace (3 credits)
- 816. Labor Market Analysis (3 credits)
- or
- 825. Strategic Business Tools for HRER Professionals (3 credits)
- 836. Diversity in the Workplace (3 credits)
- 894. Research Project (3 credits)

Areas of Concentration (one required)

Benefits and Compensation
- LER 424. Employment Compensation (3 credits)
- LER 425. Employment Benefits (3 credits)

Employment and Labor Law

The Pennsylvania State University
LER 401. Law of Labor-Management Relations (3 credits)
LER 811. Labor and Employment Law II (3 credits)

**Labor and Collective Bargaining**
- LER 401. Law of Labor-Management Relations (3 credits)
- LER 435. Labor Relations in the Public Sector (3 credits)

**Staffing, Training, and Development**
- LER 426. Staffing and Training (3 credits) or WF ED 471 Training in Industry and Business (3 credits)
- WF ED 573. Needs Assessment for Industrial Trainers (3 credits)

**Elective Courses (9 credits)**
Select 6 credits in area of concentration.
Select an additional 3-credit course from the following list of LER, HRER, and WF ED courses.

**Labor and Employee Relations (LER)**
- LER 401. Law of Labor-Management Relations (3 credits)
- LER 424. Employment Compensation (3 credits)
- LER 425. Employment Benefits (3 credits)
- LER 426. Staffing and Training (3 credits)
- LER 435. Labor Relations in the Public Sector (3 credits)
- LER 444. Occupational Health: Policy and Practice (3 credits)
- LER 445Y. Politics of Affirmative Action (3 credits)
- LER 460. Human Resource Ethics (3 credits)
- LER 464. Communication Skills for Leaders in Groups and Organizations (3 credits)
- LER 465. Collective Decision Making (3 credits)
- LER 472. Work-Life Practices and Policies (3 credits)

**Human Resources and Employee Relations (HRER)**
- HRER 811. Labor and Employment Law II (3 credits)
- HRER 816. Labor Market Analysis (3 credits)
- HRER 825. Strategic Business Tools for HRER Professionals (3 credits)

**Workforce Education and Development (WF ED)**
- WF ED 471. Training in Industry and Business (3 credits)
- WF ED 573. Needs Assessment for Industrial Trainers (3 credits)

**Student Aid**
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the [STUDENT AID](#) section of the [Graduate Bulletin](#).

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degree Conferred:
Ph.D., M.S.

The Graduate Faculty

The Programs

The Hotel, Restaurant, and Institutional Management M.S. and Ph.D. degree programs are designed to prepare individuals for research and educational roles in the hospitality industry. The programs offer advanced graduate research training for students who desire to become educators, researchers, and knowledge-based professionals in the hospitality field. Students' individualized programs are designed to ensure they will have a mastery of the scope of knowledge covering the entire spectrum of hospitality management as well as the ability to complete significant research in a specific hospitality area.

Students in the program may elect the dual-title degree program in Operations Research for the Ph.D. and M.S. degrees. (See also Operations Research.)

Admission Requirements

Entry into the program requires a baccalaureate degree from a regionally accredited institution as well as a minimum of one to two years of work experience in the hospitality industry.

Scores for the Graduate Record Examinations (GRE), Graduate Management Aptitude Test (GMAT), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) will be considered for admission. Exceptions to this minimum average are sometimes made for students with special backgrounds, abilities, interests, and circumstances. Students are expected to have managerial competency in accounting, marketing, economics, human resource management, management information systems, and computer technology prior to entry into the program. Deficiencies in any of these areas must be made up in the first year that the student is enrolled (and will not be counted toward the program's 36-credit requirement).

Master's Degree (M.S.) Requirements

The master's degree program is designed to help students develop solid graduate-level research skills within a focused hospitality research area. Each student must complete a core of 12 credits of Methods Courses to include HRIM 503, STAT 500, and 6 credits of Methods Courses. In addition, students must take a minimum of 3 credits of HRIM 590 Colloquium. Students also complete a minimum of 15 credits of concentration area course work that is custom tailored to the student's hospitality research interests and academic and professional background.

A master's thesis is required of all students. The thesis is based on original empirical research. A master's committee of three persons who oversee the master's thesis is appointed for each candidate. This committee gives the final master's exam, which is an oral defense of the master's thesis.

Doctoral Degree Requirements

The doctoral program is an advanced graduate research program designed for students who want to become educators, researchers, and knowledge-based professionals in the hospitality field. Students' programs are individualized to ensure in addition to a mastery of the scope of knowledge in hospitality management they will also have the ability to complete significant research in a focused hospitality management area. In addition to satisfying the requirements of the Graduate School, a student must complete the following courses prior to scheduling the Ph.D. comprehensive examination: HRIM 585, HRIM 586, HRIM 590 (total of 3 credits), 12 credits of quantitative and statistical analysis, 18 credits in an HRIM concentration area, and 12 credits from an outside supporting area.

The language or communication requirement for the Ph.D. can be fulfilled by (1) demonstrating proficiency in an approved foreign language, or (2) demonstrating proficiency in computer programming, or (3) completing a minor. The demonstration of proficiency is determined by an HRIM faculty committee.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Program

This program is interdisciplinary, emphasizing critical theories and interpretive approaches that transcend disciplinary boundaries as well as providing advanced study within various humanities disciplines. These include art history, communications, history, literature, music history, philosophy, and writing. The program offers small classes, individualized advising, and assistance in developing advanced analytical, synthetic, and interpretive skills. It accommodates both part- and full-time students.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. In addition, applicants must have earned at least a 3.00 grade-point average in their junior and senior years and have studied in two humanities disciplines (usually a major in one area and some course work in another). Exceptions may be made for those with special backgrounds or abilities who are committed to advanced interdisciplinary study. All applicants must submit the following items: an application form and fee; two copies of official transcripts from all colleges/universities attended; a letter explaining personal or career goals and reasons for wishing to enroll in the program; two letters of reference (preferably from previous professors or others familiar with the applicant's intellectual/creative work or interests); and a writing sample (an academic paper; if this is not available, consult the graduate coordinator for an alternative).

Students applying for fellowships or assistantships must submit scores from the Graduate Record Examinations (GRE) or similar examination by January 15. An admissions committee often interviews applicants in person or by telephone. Applications are reviewed on a rolling basis.

Degree Requirements

All students must complete 30 credits, 18 of which must be at the 500 level, achieve a 3.00 grade-point average, and successfully complete an interdisciplinary master's production (academic thesis or creative production with academic essay). Students work with their faculty advisers and supervisory committees to select courses in accordance with their individual interests. Courses required of all students include HUM 500, a foundation course in research methods; HUM 560, a capstone course in interdisciplinary theory and research; and HUM 580, the master's production. (See course titles and descriptions in this section.) Recommended courses include HUM 525 Studies in Aesthetics, and HUM 535 Topics in Cultural and Intellectual History, both multidisciplinary courses, covering the content of various disciplines form the perspective of one discipline. To acquire breadth in the humanities, students must take at least one course in each of two disciplines; single-discipline courses are available as HUM 515 Seminar (repeatable for credit). Other courses in particular disciplines are available at the 400 level. Other available 500-level courses are listed in this section. Students planning to teach in a junior or community college may arrange a teaching internship (HUM 550), subject to appropriate preparation and approval by both the program and the community college.

A full-time student can expect to complete the program in four semesters, a part-time student in six or more semesters. Students are expected to complete all requirements for the degree within six years, although the deadline may be extended at the discretion of the graduate coordinator in accordance with policies approved by Graduate Council.

Required Courses

HUMANITIES (HUM)
500. RESEARCH METHODS AND SCHOLARLY INQUIRY IN THE HUMANITIES (3)
560. INTERRELATIONS IN THE HUMANITIES (3)
580. MASTER'S PRODUCTION (1-6)

Recommended Courses

HUMANITIES (HUM)
525. STUDIES IN AESTHETICS (3)
535. TOPICS IN CULTURAL AND INTELLECTUAL HISTORY (3 per semester, maximum of 9)

Other Courses

ENGL 502. THEORY ADN TEACHING OF COMPOSITION (3)
HUM 515. SEMINAR (3 per semester, maximum of 9)
Unit A. Art History (3)
Unit B. History (3)
Unit C. Literature (3)
Unit D. Music History and Analysis (3)
Unit E. Philosophy (3)
Unit F. Communications (3)
Unit G. Writing (3)
HUM 530. SEMINAR IN COMPARATIVE ARTS (3 per semester, maximum of 9)
HUM 550. JUNIOR COLLEGE TEACHING INTERNSHIP (3)
HUM 590. COLLOQUIUM (1-3)
HUM 596. INDIVIDUAL STUDIES (1-9)
HUM 597. SPECIAL TOPICS (1-9)

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit
these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Industrial Engineering (I E)

Program Home Page.

PAUL M. GRIFFIN, Head of the Harold and Inge Marcus Department of Industrial and Manufacturing Engineering
310 Leonhard Building
814-865-7601

Degrees Conferred:
M.S., Ph.D.

The Graduate Faculty

Graduate study and research are conducted in manufacturing process, information engineering operations research-management science, production engineering, process design, systems engineering, human factors, ergonomics, quality engineering, and robotics.

Admission Requirements

Scores from the Graduate Record Examination (GRE) are required for admission. To be admitted into the program, an applicant must have received a baccalaureate degree from a regionally accredited institution. Graduates in engineering, physical sciences, and mathematics who present a 3.00 grade-point average will be considered for admission.

All international applicants must submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum composite score for the IELTS is 6.5.

International applicants who have received a baccalaureate or Master’s degree from a college, university, or institution in any of the following countries are exempt from the TOEFL requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, or Wales.

Degree Requirements

Two degrees are offered: Master of Science (M.S.) with thesis and non-thesis tracks and the Doctor of Philosophy (Ph.D.).

The M.S. degree program is intended for students to gain advanced knowledge for research, analysis, and design in industrial engineering. The M.S. degree is offered with thesis or research paper tracks, both requiring 32 credits. The M.S. degree with thesis track requires 24 credits of coursework and two credits of I E 590 (Colloquium). Out of the 24 credits of coursework, at least 15 must be I E courses, and at least 12 must be at the 500 level. Of the 12 credits at the 500 level, at least nine must be I E courses. A thesis is required, for which six credits of I E 600 or I E 610 must be taken. The M.S. degree with non-thesis track requires 27 credits of coursework, two credits of I E 590 (Colloquium). Out of the 27 credits of coursework, at least 18 must be I E courses, and at least 18 must be at the 500 level. Of the 18 credits at the 500 level, at least fifteen must be I E courses. A scholarly paper is required for the MS degree with non-thesis track for which three credits of I E 596 must be taken. For both tracks, a core curriculum is required that is composed of I E 565 (Linear Programming) (3 credits) and I E 511 (Experimental Design in Engineering) (3 credits), which all the students must satisfy. The thesis must demonstrate comprehensive and in-depth knowledge of a topic in industrial engineering, and it should be suitable for submission for publication in a refereed journal as approved by the committee. The paper should demonstrate the ability of the student to integrate and apply concepts and techniques learnt in the courses to solve an engineering problem.

The students seeking the Master of Science degree in Industrial Engineering with non-thesis track are expected to start their degree in the Fall semester of every year and complete their degree including all the required coursework and three credits of research resulting in a paper and graduate by the end of the second semester. Students who cannot complete their research paper by this summer can graduate after the summer. The plan of study is as follows:

Fall semester: Twelve credits of course work, one credit of colloquium and one credit of research (I E 596).
Spring semester: Twelve credits of colloquium, one credit of colloquium and one credit of research (I E 596).

For the M.S. degree, area options are available in Human Factors/Ergonomics Engineering, Manufacturing Engineering and Quality Engineering. M. S. dual-title degree program in Industrial Engineering and Operations Research is also offered.

The Ph.D. program emphasizes scholarly research, and prepares students for research and development careers in industry, government, and academia. Students are admitted to candidacy after passing a written examination. The Ph.D. is awarded upon completion of a program of advanced study that includes a minimum period of residence, passing the English proficiency and comprehensive examinations, completing a satisfactory dissertation, and passing the final oral examination. The degree requirements consist of 45 credits of course work and four I E 590 (Colloquium) credits. Of the 45 credits of required course work, 36 must be prefixed I E, and at least 30 must be at the 500 level. Nine credits must be from outside the Department and must include a six-credit sequence, with at least six credits at the 500 level. A Ph.D. dual-title degree program in Industrial Engineering and Operations Research is also available.

Continuous registration is required for all graduate students until the paper, thesis, or dissertation is approved.

Master of Science (M.S.) Degree with thesis and non-thesis tracks- Human Factors/Ergonomics Engineering Option

To receive the M.S degree in Industrial Engineering with thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor's degree: 24 credits of course work, 2 credit of colloquium, and 6 credits of research leading to a thesis, as required for the M.S. degree in Industrial Engineering with thesis track. To receive the M.S degree in Industrial Engineering with non-thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor's degree: 27 credits of course work, 2 credit of colloquium, and 3 credits of research leading to a scholarly paper, as required for the M.S. degree in Industrial Engineering with non-thesis track.

The course credits for the Option in Human Factors/Ergonomics Engineering must include the following:

All the following three courses: (9 credits)
I E 549 Design Decision Making
I E 553 Engineering of Human Work
I E 558 Engineering of Cognitive Work

Master of Science (M.S.) Degree with thesis and non-thesis tracks - Manufacturing Engineering Option

To receive the M.S degree in Industrial Engineering with thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor's degree: 24 credits of course work, 2 credit of colloquium, and 6 credits of research leading to a thesis, as required for the M.S. degree in Industrial Engineering with thesis track. To receive the M.S degree in Industrial Engineering with non-thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor's degree: 27 credits of course work, 2 credit of colloquium, and 3 credits of research leading to a scholarly paper, as required for the M.S. degree in Industrial Engineering with non-thesis track.

The course credits for the Option in Manufacturing Engineering must include the following:

All the following three courses: (9 credits)
I E 528 Metal Cutting Theory
Master of Science (M.S.) Degree with thesis and non-thesis tracks- Quality Engineering Option

To receive the M.S degree in Industrial Engineering with thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor’s degree: 24 credits of course work, 2 credit of colloquium, and 6 credits of research leading to a thesis, as required for the M.S. degree in Industrial Engineering with thesis track. To receive the M.S degree in Industrial Engineering with non-thesis track and with an Option in Human Factors/Ergonomics Engineering, a student must complete at least 32 credits beyond the bachelor’s degree: 27 credits of course work, 2 credit of colloquium, and 3 credits of research leading to a scholarly paper, as required for the M.S. degree in Industrial Engineering with non-thesis track.

The course credits for the Option in Quality Engineering must include the following:

All the following three courses (9 credits)
I E 555 Statistical Process Monitoring and Analysis
I E 566 Quality Control
I E 583 Response Surface Methodology and Process Optimization

Other Relevant Information

Students in this program may elect the dual-title degree program in Operations Research for the Ph.D. and M.S. degrees.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the Student Aid section of the Graduate Bulletin, the following award typically has been available to graduate students in this program:

HAROLD & INGE MARCUS GRADUATE FELLOWSHIPS--Consideration for these fellowships shall be given to all students exhibiting academic excellence who have been admitted to Penn State as candidates for a graduate degree in the Department of Industrial and Manufacturing Engineering, College of Engineering.

BENJAMIN W. NIEBEL MANUFACTURING FELLOWSHIP
Consideration for this fellowship shall be given to all students exhibiting academic excellence who have been admitted to Penn State as candidates for a graduate degree in the Department of Industrial and Manufacturing Engineering, College of Engineering.

Courses

Graduate courses carry numbers from 500 to 699. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

INDUSTRIAL ENGINEERING (I E) course list

Joint Degree Program between The Pennsylvania State University Dickinson School of Law (J.D.) and the School of International Affairs (M.I.A.)

Joint Degree Program:
The Dickinson School of Law (DSL) and the School of International Affairs (SIA) are offering a joint degree program that will enable a student to complete in four academic years both a Juris Doctor degree (J.D.) and a Master's in International Affairs (M.I.A.). A J.D./M.I.A. graduate will have the education and skills background to practice law in the United States, to work in an international context and to assume a leadership role in international affairs. The student will complete a minimum of 109 credits including eleven required law courses, two of which involve skills training, and seven required international affairs courses, one of which involves either an internship or a master's paper.

Admission Requirements
Students applying to the joint degree program must be admitted separately into both DSL and SIA. Students must first be admitted into the law school and
The DSL admissions process considers academic transcripts, leadership activities, community activities, work experience, personal background, letters of recommendation, the personal statement, LSAT scores and the LSAT writing sample. An admissions committee identifies candidates who are academically prepared for law school and who will contribute to the promotion of diversity and excellence in the student body and the legal profession. There is no standard prescribed undergraduate curriculum. The following are required of J.D. degree applicants: a completed application form, an LSAT score, an LSDAS report, a one-page personal statement and two letters of recommendation.

SIA: The following are required of M.I.A. applicants: (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. There is no standard prescribed undergraduate curriculum. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals. Upon the student’s request, the LSAT may replace the GRE for joint degree admissions purposes.

International applicants are required to submit English proficiency test scores, unless they are from one of the countries listed as “exempt” on The Graduate School's English Proficiency page:

- If the applicant is required to submit TOEFL or IELTS scores, he/she must have the minimum scores listed below, in order to be considered for admission:
  - A minimum score of 6.5 on the IELTS
  - A minimum TOEFL score of -
    550 from the Paper-based test, or
  80 from the Internet-based test (applicants with a score of 19 or higher on the speaking sub-section will be considered for admission, though a score of 23 or higher is desirable)

Residency
A typical J.D./M.I.A. joint degree student will be in residence at DSL for six semesters and at SIA for two semesters.

Liaisons
The respective liaisons for DSL and SIA shall be as follows: the department and faculty liaisons for DSL shall be the Associate Dean for Academic Affairs and the student adviser shall be the Associate Dean for Academic Affairs or such other faculty member(s) as may be designated by the Dean. The liaison for SIA shall be the Director or such faculty member(s) as may be designated by the Director.

Interprogram Transfer of Credits

DSL: A maximum of twelve credits of M.I.A. course work may be transferred for credit toward the J.D. degree at DSL. Courses eligible for cross-counting towards the J.D. and M.I.A. include the courses on the M.I.A. Electives list and any other courses taken as M.I.A. electives with the express written permission of the M.I.A. and J.D. advisers. Students must obtain a grade satisfactory to DSL for the course work to be credited towards the J.D. degree.

SIA: A maximum of twelve credits of M.I.A. course work may be transferred for credit toward the J.D. degree at DSL. Because of the interdisciplinary nature of the M.I.A. degree, courses taken in DSL as a part of the elective component of the M.I.A. automatically count towards the M.I.A. Courses eligible for cross-counting towards the J.D. and M.I.A. include the courses on the M.I.A. Electives list and any other courses taken as M.I.A. electives with the express written permission of the M.I.A. and J.D. advisers.

Sequence
The sequence of courses will be determined by the students and their advisers. However, students are required to complete the first year of the DSL program before beginning the M.I.A. program. It is expected that most joint degree students will complete the first two semesters of the M.I.A. consecutively in either the first or second year after completion of the first year of the J.D. degree.

Recommended Program of Study and Advising
All students in the program will have two advisers, one from DSL and one from SIA. Periodic interaction between the two advisers will be encouraged. A program of study will be developed for each student, taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year but some are offered every two or three years. Advisers will have available a list of projected relevant courses or educational experiences in order to work with the student on an individualized program of study. The standard committee structure will apply to the SIA programs.

Tuition
Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable SIA tuition to cover the M.I.A. degree program. The DSL tuition will be paid for the semesters that the student is in residence at DSL, and the SIA tuition will be paid for the semesters that the student is in residence there. A student may take up to one course (3 credit hours) per semester in the school where the student is not in residence without any change in tuition, but must pay additional tuition to the non-residential program if he or she wishes to take additional course work at that campus during that semester.

Financial Aid and Assistantships
Decisions on financial aid and assistantships will be made by each school according to that school’s procedures.

Fulfillment of Degree Requirements and Graduation
A student in the program may complete the requirements for one of the degrees and be awarded that degree prior to completing all the requirements for the other degree; provided, however, that the student shall have successfully completed at least two semesters of work towards the other degree. All courses in one program that will count towards meeting the requirements of the other must be completed before the awarding of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the inter-program transfer of credits.

Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in International Politics and Masters in International Affairs (M.I.A.)
The integrated undergraduate-graduate (IUG) degree program (B.A. in International Politics/M.I.A. in International Affairs) will provide an opportunity for strong students in International Politics to complete a master’s degree with 5 total years of study.

The demand for graduate training in international affairs will grow significantly in the near future along with the burgeoning requirements for international knowledge and professional experience in commerce, humanitarian service, and public affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations.

The IUG degree in International Affairs and International Politics is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs’ existing collaborations and interactions with the College of the Liberal Arts.

The Pennsylvania State University
### Admission Requirements

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferment of the undergraduate degree, as specified in the proposed IUG plan of study.

Specific requirements:

1. Must be enrolled in the International Politics B.A. program.
2. Must apply to and be accepted without reservation into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of the undergraduate program/department.

### M.I.A. Requirements for the Integrated B.A./M.I.A.

The M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 credits at the 400 level or higher, at least 18 of which are from six core courses consisting of INTAF 801(3), 802(3), 803(3), 804(3), 805(3) and INTAF 590(3). The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either: (i) a master's paper; or (ii) a supervised internship placement. If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master's paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows: (i) four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale); (ii) native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or (iii) performance on a proficiency evaluation sufficient to equal four semesters of language learning; for this purpose, either Penn State's proficiency certification process or another pre-approved proficiency assessment may be used. Language study does not provide credits towards the degree.

The Pennsylvania State University
Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in Political Science and Masters in International Affairs (M.I.A.)

The integrated undergraduate-graduate (IUG) degree program (B.A. in Political Science/M.I.A. in International Affairs) will provide an opportunity for strong students in Political Science to complete a master’s degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Masters in International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

The IUG degree in International Affairs and Political Science is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs’ existing collaborations and interactions with the College of the Liberal Arts.

Admission Requirements

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferment of the undergraduate degree, as specified in the proposed IUG plan of study. Specific requirements:

1. Must be enrolled in the Political Science B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application. All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of Political Science.

M.I.A. Requirements for the Integrated B.A./M.I.A.

M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 credits at the 400 level or higher, at least 18 of which are from six core courses consisting of INTAF 801(3), 802(3), 803(3), 804(3), 805(3) and INTAF 590(3). The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either: (i) a master’s paper; or (ii) a supervised internship placement. If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master’s paper will involve integrating and showing mastery of the subject matter of the student’s curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows: (i) four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale); (ii) native acquisition, as shown by the candidate’s personal history and approved by the SIA faculty; or (iii) performance on a proficiency evaluation sufficient to equal four semesters of language learning; for this purpose, either Penn State’s proficiency certification process or another pre-approved proficiency assessment may be used. Language study does not provide credits towards the degree.

M.I.A Degree

Core Courses (18)

INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3)

Electives (21)

Course choices are from a pre-approved list in the SIA, or by SIA faculty approved substitution

Capstone (3)

Master’s Paper (INTAF 594) or Internship (INTAF 595)

Total Degree Credits (42)

Integrated B.A./M.I.A. Degree

Core Courses (18)

INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3)

Electives (21)

The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3).

Capstone (3)

Master’s Paper (INTAF 594) or Internship (INTAF 595)

Total Degree Credits (42)

Sample Program of Study

A typical sequence of coursework for a student in the IUG program would appear as follows:

Year One: Political Science

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PL SC 001; PL SC 014 or PL SC 003</td>
<td></td>
</tr>
</tbody>
</table>

Year Two: Political Science

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PL SC 003 or PL SC 020; 400-level course</td>
<td></td>
</tr>
</tbody>
</table>

Year Three: Political Science

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>400-level PL SC class; PL SC 007 or PL SC 017; related course</td>
<td></td>
</tr>
</tbody>
</table>

The Pennsylvania State University
Year Four:  Fall Semester
INTAF 801, INTAF 802 and INTAF 803 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may be taken.

Spring Semester
INTAF 804, INTAF 805 and INTAF 590 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may also be taken.

Year Five:  24 credits
The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3).

Tuition Charges, Grant-in-Aid and Assistantships
Students admitted to the School of International Affairs through the IUG with Political Science may be considered to receive financial assistance.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

INTERNATIONAL AFFAIRS (INTAF) course list
Last Revised by the Department: Fall Semester 2013
Blue Sheet Item #: 42-03-103; 42-03-104
Review Date: 11/19/2013
Faculty linked: 6/20/14
Accounting (IACCT)
School of Business Administration, Penn State Harrisburg
Dr. Thomas Buttross, Accounting Program Coordinator
School of Business Administration
E355 Olmsted Building
717-948-6145
Degree Conferred: Master of Professional Accounting

Admissions Requirements
In addition to the general Graduate Council admissions requirements listed in the General Information section of the Graduate Bulletin, the following requirements will also be in place.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Students who apply for admission should have coursework substantially equivalent to an undergraduate degree in Business (or a business discipline) from Penn State University. If the undergraduate major is not Accounting, an applicant should have completed the following minimum core of accounting coursework (or its equivalent): ACCTG211, ACCTG310, ACCTG340, ACCTG403, ACCTG471, ACCTG472, and FIN 301.

Students should have a grade point average of at least 3.0 (on a 4.0 scale) in their final 60 credits of undergraduate coursework, both overall as well as in Accounting courses. Students must submit scores from the Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE). The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements
Students must complete a minimum of 30 credit hours of instruction; all credits must be earned in 400 level, 500 level, or 800 level courses. A minimum of 21 credits at the 500- or 800-level is required, of which at least 9 credits must be earned in 500-level courses. Students must complete the following courses:

ACCT 572 Financial Reporting I
PADM 523 Governmental and Nonprofit Accounting
ACCT 550 Professional Responsibilities and Ethics
ACCT 532 Accounting Information and Decision Systems
ACCTG 881 Financial Statement Analysis or ACCT 561 Financial Statement Analysis I
ACCT 804 Advanced Topics in Taxation or ACCT 510 Business Tax Planning Theory and Practice
ACCT 504 Auditing Theory and Practice
BLAW 444 Advanced UCC and Commercial Transactions
ACCT 545 Strategic Cost Management
ACCTG 803 Forensic Accounting and Litigation Support
ACCTG 803 will be the capstone course for the program, integrating materials learned in the other program courses.

Courses
Graduate courses carry numbers from 500 to 699 or 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Accreditation and Certification
The Master of Professional Accounting program requirements are designed to allow a student who has completed an undergraduate degree in Accounting (or equivalent) to satisfy the current educational requirements for CPA licensure in Pennsylvania and most if not all other states.

*note: The degree to which Texas is willing to accept on-line courses is uncertain, and they require applicants to select an ethics course from a pre-approved list. FL, KS, NJ, and WV all require 6 credit hours of Business Law, so students who desire licensure in those states must have a 3 credit undergraduate course in Business Law to complement the graduate course contemplated in this program. Students with an undergraduate degree in business are assumed to meet this requirement.

- John Mason, Ph.D. (Michigan State) Associate Professor of Management
- Denise Potosky, Ph.D. (Rutgers) Associate Professor of Management
- Walter Wang, Ph.D. (Louisiana State) Associate Professor of Marketing

The Graduate Faculty -- Penn State Harrisburg, The Capital College
- Thomas Buttross, Ph.D. (Mississippi) Associate Professor of Accounting
- Relif Culp, Ph.D. (NYU) Professor of Management and International Business
- Patrick Cusatis, Ph.D. (Penn State) Associate Professor of Finance
- Janet M. Duck, Ph.D. (Penn State) Assistant Professor of Management
- David A. Morand, Ph.D. (Cornell) Professor of Management
- Jeff Tsai, Ph.D. Professor of Economics
- Walter Wang, Ph.D. (Louisiana State) Associate Professor of Marketing
- Richard Young, Ph.D. (Penn State) Professor of Supply Chain Management

The Graduate Faculty -- The Smeal College of Business
- Robert P. Crum, D.B.A. (Kentucky) Associate Professor of Accounting
- Edward Ketz, Ph.D. (Virginia Tech) Associate Professor of Accounting
- Chris Muscarella, Ph.D. (Purdue) Professor of Finance

The Penn State Intercollege Master of Business Administration (IMBA) is an online degree program of Penn State Erie, The Behrend College; Penn State Great Valley, The School of Graduate Professional Studies; Penn State Harrisburg; and Smeal College of Business, Penn State University Park. The IMBA curriculum emphasizes cross-functional organizational thinking; focuses on business planning and strategy; closely follows the quality guidelines for accreditation of AACSB (American Assembly of Collegiate Schools of Business), the accrediting body affiliated with The International Association for Management Education; and uses cutting-edge instructional technology to transcend issues of time and space, and to support effective teaching and learning.

Within the context of these goals, the IMBA curriculum was developed around four core business areas and six themes. The core business areas include: Financial Reporting, Analysis, and Markets; Domestic and Global Economic Environments; Human Behavior in Organizations; Creation and Distribution of Goods and Services.

The themes were derived from values and concepts found in high performing organizations: Leadership; Strategic Planning; Customer and Market; Information Analysis; Human Resources; Process Management.

These business areas and themes are integrated at the course level. Students apply knowledge developed in these areas to multidimensional problems and issues throughout the program, which includes two required one-week culminating or capstone residential experiences.

Admission Requirements

Admission is granted only to candidates who demonstrate high promise of success for graduate work. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Applicants are required to take the Graduate Management Admission Test (GMAT). Applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English, must take the TOEFL (Test of English as a Foreign Language).

Admissions decisions are based on a review of a complete admission portfolio, including an application, a statement of intent, a current resume, official transcripts from each undergraduate and graduate institution attended, two letters of recommendation, and GMAT scores. An applicant's credentials are compared to the standards set by other candidates in the current application pool. Please see http://www.worldcampus.psu.edu/imba/ for additional program information.

Applicants must have completed the following prerequisites or the equivalent before they may matriculate: Quantitative Analysis (e.g., QUANT 310), Business Statistics (e.g., STAT 200 or MSIS 200), Accounting (e.g., ACCTG 211), Microeconomics (e.g., ECON 002) and Macroeconomics (e.g., ECON 004). Applicants who have developed relevant knowledge and skills in one or more of these areas through work experiences may demonstrate their proficiency through the application portfolio. A working knowledge of the Microsoft Office suite is required.

Master's Degree Requirements

The IMBA degree requires 48 credits distributed across the following courses: IMBA 501, IMBA 502, IMBA 513, IMBA 515, IMBA 516, IMBA 517, IMBA 521, IMBA 522, IMBA 523, IMBA 530, IMBA 531, IMBA 543, IMBA 544, IMBA 550, IMBA 560, IMBA 561, IMBA 562, IMBA 573, and IMBA 574. Attendance at the two one-week Residency Experiences is mandatory. Following the IMBA course schedule, which involves completing credits over eight consecutive terms, a part-time student can complete the program in two years (see http://www.worldcampus.psu.edu/pub/imba/afs_sched.shtml).

Other Relevant Information

The IMBA is an online graduate degree program delivered via World Campus (http://www.worldcampus.psu.edu). Students progress through the program in cohorts. They must be computer literate and have immediate, ready, and reliable access to a computer and the Internet. Although not all aspects of the course are delivered via electronic media, Internet access is required to successfully complete the course of study. The Pennsylvania State University
Courses

Term One

INTERCOLLEGE MASTER OF BUSINESS ADMINISTRATION (IMBA)
501. Markets, Industry Analysis, and Business Strategy (3)
502. Financial and Accounting Tools (3)

Term Two

Program Description

The intercollege Master of Professional Studies in Homeland Security (MPS-HLS) degree program is designed to prepare professionals and develop leaders for the field of homeland security by providing exceptional graduate education that includes an integrated curriculum, expert faculty, and student interaction. The curriculum is delivered in a distance education format through the Penn State World Campus in order to accommodate the needs and careers of professionals who are already active in homeland security and public health, or those interested in transitioning into the field. The program is comprised of courses from several Penn State colleges and delivered via distance education through the Penn State World Campus to accommodate the needs and careers of professionals who are already active in homeland security and related fields of civil security, or those interested in transitioning into the field. The program provides select graduate students with an integrated, cross-disciplinary curriculum that is focused on a set of unified educational goals to help them understand and manage the complexities of homeland security in a global environment. Within the degree program and in addition to its common core curriculum, students choose the base program or one of four options: public health preparedness; geospatial intelligence; information security and forensics; and agricultural biosecurity and food defense. The participating academic units for this collaborative program are: Penn State Harrisburg; the College of Medicine (in collaboration with the Milton S. Hershey Medical Center); the College of the Liberal Arts; the College of Earth and Mineral Sciences, the College of Information Sciences and Technology, and the College of Agricultural Sciences.

General Admission Requirements

Educational Background
An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Core Application Packet
- Completed online Graduate School application and payment of nonrefundable application fee
- Statement of purpose
- Vita or résumé
- Three letters of recommendation
- Two official transcripts from each institution attended
- Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) score, if applicable

Statement of Purpose and Curriculum Vitae
A statement of professional experience and goals (up to 500 words) and the candidate's vita or résumé must accompany the application.

Letters of Recommendation
- The individuals writing letters should be familiar with you and comfortable discussing your professional and/or academic strengths and accomplishments.

The Pennsylvania State University

- The Admissions Committee prefers that all letters be written within the last six months and reference the applicant’s current career goals and/or ability to perform graduate level study.
- A person choosing to submit a letter of reference will do this through the online application process and either select our pre-formatted template or upload his/her own letter.

GPA Requirements
Your grade-point average is interpreted by the Admissions Committee in the context of a completed application. Some options may require a minimum GPA.

GRE Requirements
The Graduate Record Examination may be required by some options.

TOEFL
The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with IBT speaking scores between 16 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Other Considerations
Special backgrounds, abilities, and interests related to homeland security are desirable.

Financial Aid
World Campus students who are enrolled in a degree program and meet all other federal student aid eligibility requirements may be eligible for federal aid programs. Students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for student aid.

Degree Requirements
The Master of Professional Studies in Homeland Security program requires a minimum of 33 credits, 24 of which must be earned at Penn State. Up to 10 graduate credits may be transferred in from a regionally accredited institute if they are permitted by Graduate Council policy; if the full 10 credits are transferred, the minimum total number of credits in the degree program will be 34. At least 18 credits must be courses at the 500 level and above, of which 6 credits must be in 500-level courses. Students are expected to maintain a B (3.0) or better average in academic courses to be retained in the program.

Graduate Council policy requires that student must have a GPA of 3.0 or above in order to graduate from the program. Each student will take a 9 credit-core curriculum consisting of HLS/PADM 801, HLS/PHIL 803, and HLS/PL SC 805, as well as of a non-credit Orientation Course. Students will also take 12 credits of prescribed courses for the specialized option. There are 9 elective credits that are chosen from an approved list in consultation with the student’s academic adviser. The list of electives is maintained by the Option Director and is provided to the students in the option. Finally, each degree candidate must complete a capstone project on a topic related to homeland security and defense (HLS/AGBIO/GEOG/IST/PHP 594 - Research Topics).

Prescribed Courses
Homeland security refers to the unifying core for the vast global network of organizations and institutions that are involved in the efforts to secure society. Regardless of field of specialization, or chosen discipline for graduate study, all professionals in the program will participate in a Unifying Core Curriculum with the following educational goals and objectives:
- Understand major policies and legislation that shapes homeland security in a globalized society.
- Become familiar with organizations that play a key role in the implementation of homeland security policies and administration, and recognize the interactions among them.
- Understand the way in which a person or group responds to a set of conditions so as to prevent and respond to incidents and catastrophic events when needed.
- Recognize the impact that catastrophic events, both natural and man-made, have on society and the domestic and global economy.
- Identify and assess potential threats, vulnerabilities, and consequences.
- Apply leadership skills and principles that are necessary for producing and acting on information of value within a collaborative setting.
- Communicate effectively in the context of particular institutional cultures.
- Use, conduct, and interpret research and data effectively in decision-making.
- Practice ethics and integrity as a foundation for analytical debate and conclusion.
- Develop an appreciation of the cultural, social, psychological, political, and legal aspects of terrorism and counterterrorism.

The Core Curriculum consists of the following four courses:

HLS/ADM 801: Homeland Security Administration: Policies and Programs (3) Foundation for understanding homeland security history, the development of homeland security policies and organizations, and current management approaches.

HLS/PHIL 803: Homeland Security: Social and Ethical Issues (3) This course examines the social, political, legal, and ethical issues that arise in the context of homeland security.

HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3) Provides an overview of the domestic and global issues related to homeland security.

Listed are the courses required/suggested for the Base Program and for the Options:

Homeland Security (Base Program)
Director: Dr. Alexander Siedschlag, Ph.D. (Univ Munich, Germany) Professor of Homeland Security and Public Health Preparedness, School of Public Affairs; Program Chair, iMPS-Homeland Security, W160 Olmsted Building, Penn State Harrisburg; 717-948-4326; aus50@psu.edu

Core Curriculum
HLS/ADM 801: Homeland Security Administration: Policies and Programs (3) Foundation for understanding homeland security history, the development of homeland security policies and organizations, and current management approaches.

HLS/PHIL 803: Homeland Security: Social and Ethical Issues (3)

HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
P ADM 401: Foundations of Homeland Security (3)
P ADM 404: Homeland Security and Defense in Practice (3)
P ADM 802: Collaboration and Integration: Multifaceted Approaches to Homeland Security (3)
P ADM 803: Strategic Planning and Organizational Imperatives in Homeland Security and Defense (3)

Electives
Choose 9 credits from an approved elective list in consultation with adviser. The list of electives is maintained by the Base Program Director and is provided to the students in the base program.

Capstone Experience
P ADM 594: Research Topics (3)

The Pennsylvania State University
Agricultural Biosecurity and Food Defense Option
Director: Gretchen Kuldau, Ph.D. (California) Associate Professor of Plant Pathology
0205 Buckout Laboratory, University Park; 814 863 7232; kuldau@psu.edu

Core Curriculum
HLS ORIENTATION: Orientation course (non-credit)
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
AGBIO 520: Agricultural Biosecurity: Protecting a Key Infrastructure (3)
AGBIO 521: Food Defense: Prevention Planning For Food Processors (3)
AGBIO 801: Veterinary Infectious Disease Diagnostic and Surveillance Systems (3)
AGBIO 802: Plant Protection: Responding to Introductions of Threatening Pest and Pathogens (3)

Electives
Choose 9 credits from an approved elective list in consultation with adviser. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
AGBIO 594: Agricultural Biosecurity and Food Defense - Capstone Experience (3)

Geospatial Intelligence Option
Director: Gregory Thomas, Ph.D. (Indiana University of PA), Professor of Practice for Geospatial Intelligence, 2217 Earth and Engineering Sciences Building, University Park; (814) 867-1471; gat5@psu.edu

Core Curriculum
HLS ORIENTATION: Orientation course (non-credit)
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
GEOG 882: Geographic Foundations of Geospatial Intelligence (3)
GEOG 483: Problem Solving with GIS (3)
GEOG 480: Exploring Imagery and Elevation Data in GIS Applications (3)
GEOG 885: Advanced Analytic Methods for Geospatial Intelligence (3)

Electives
Choose 9 credits from an approved elective list in consultation with adviser. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
GEOG 594A: Research Topics: Analytic Experience in Geospatial Intelligence (1)
GEOG 594B: Research Topics: Geospatial Intelligence Capstone Experience (2)

Information Security and Forensics Option
Director: Peter Forster, Ph.D. (Penn State) Senior Lecturer of Information Sciences and Technology, and Management Science
101N Information Sciences and Technology Building, University Park; 814-863-8304; pkf1@psu.edu

Core Curriculum
HLS ORIENTATION: Orientation course (non-credit)
HLS 801/P ADM: Homeland Security Administration: Policies and Programs (3)
HLS 803/PHIL: Homeland Security: Social and Ethical Issues (3)
HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
IST 454: Computer and Cyber Forensics (3)
IST 456: Information Security Management (3)
IST 815: Information Security and Assurance (3)
IST 554: Network Management and Security

Electives
Choose 9 credits from an approved elective list in consultation with adviser. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
IST 594: Research Topics

Public Health Preparedness Option
Director: Eugene J. Lengerich, V.M.D., M.S., Professor, Public Health Sciences, Penn State College of Medicine, MC H070; 500 University Drive; Hershey, Pennsylvania; 717-531-6066; PHP_Programs@psu.edu

Core Curriculum
HLS ORIENTATION: Orientation course (non-credit)
HLS/P ADM 801: Homeland Security Administration: Policies and Programs (3)
HLS/P/PHIL 803: Homeland Security: Social and Ethical Issues (3)
HLS/PL SC 805: Violence, Threats, Terror, and Insurgency (3)

Prescribed Courses
PHP 410: Public Health Preparedness for Disaster and Bioterrorism Emergencies I (3)
PHP 510: Public Health Preparedness for Disaster and Bioterrorism Emergencies II (3)
PHP 527: Public Health Evaluation of Disasters and Bioterrorism (3)
PHP 530: Critical Infrastructure Protection of Health Care Delivery Systems (3)

Electives
Choose 9 credits from an approved elective list in consultation with adviser. The list of electives is maintained by the Option Director and is provided to the students in the option.

Capstone Experience
PHP 594: Research Topics (3)

Degree Conferred:
M.S. in Information Science

The Graduate Faculty

The Program
The graduate program in Information Science is designed to enable students to contribute to the development, implementation, and utilization of information technologies by providing a balance of theory and practice. Students gain insight in the role and management of emerging information technologies to gain competitive advantage.

Admission Requirements
Students who have a baccalaureate degree in information systems, information science or other quantitative, scientific, or business discipline and those with experience in information technology will be considered for admission to the program. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students should have earned at least a 3.00 junior/senior average (on a 4.00 scale) in their baccalaureate program. Although not required, scores from the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT) will be considered by the admissions committee if submitted. If the admissions committee determines an area of weakness or insufficient baccalaureate preparation, the student may be required to take one or both pre-program requirement courses (IST 441 and SWENG 400). Pre-program requirements do not count toward the 33-credit program total. Scores from the Test of English as a Foreign Language (TOEFL) are required of international applicants at the time of application. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 119 on the speaking section for the internet-based test. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Program Requirements
The requirement for the degree is 33 credits, consisting of 18 credits of required core courses (IN SC 431, IN SC 521, IN SC 525, IN SC 526, INFSY 560, INFSY 563), 12 credits approved electives, selected with the assistance of a graduate adviser, followed by an integrative capstone course, which includes a master’s paper (IN SC 539). A grade-point average of at least 3.0 must be achieved, with at least 18 credits at the 500 level. Students lacking adequate preparation may be required to take one or both of the pre-program requirement courses (IST 441 and SWENG 400). Pre-program requirements do not count toward the 33-credit program total.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

M.S.

The Graduate Faculty

The Program

Operating under the auspices of the School of Business Administration, Penn State Harrisburg’s master’s degree program in information systems is designed to meet the rapidly increasing need for technically grounded, upper-level information resources managers within business organizations. With the exception of a small percentage of students who are full-time, the students served by the M.S.I.S. program are employees of area businesses, state and local governments, and not-for-profit organizations who study on a part-time basis. In order to accommodate both full- and part-time students, courses are primarily offered in the evening.

The two-fold nature of the program requires a manager to have competence both in information technology and in management theory; therefore, the curriculum combines the highly technical content of information science with the managerial emphasis of information systems. Unlike computer science programs, which tend to focus on computer hardware and architecture, this program is organized around applied computer-based activities, the development of communication skills, and managerial principles.

Students may elect to take one of two options in the program: Information Systems in Health Care Management and Delivery, or Information Systems in the Life Sciences. Each of these options requires a total of 36 credits. Alternatively, students can earn the degree without notation of an option; the total credits required for the degree under this choice are 30 credits.

Admission Requirements

Applicants to the program must hold a baccalaureate degree in any field from a regionally accredited, college-level institution. Students who apply for the option in Life Sciences must hold a baccalaureate degree in life sciences or a related field from a regionally accredited college-level institution. Decisions are based primarily on undergraduate junior-senior grade-point average and the Graduate Management Admissions Test (GMAT) scores. (Please visit www.gmac.com for more information on the GMAT). Postbaccalaureate course work, professional experience, and the statements provided in the application are also taken into account.

Students are also required to submit the following:

- a completed application form with application fee
- two copies of official transcripts from all colleges or universities attended;
- official scores from the GMAT test (the test must have been taken within the past five years);
- letters of recommendation (optional);
- supplemental application;

An application is available on the web at www.hbg.psu.edu or by calling 717-948-6250.

The Test of English as a Foreign Language (TOEFL) (www.toefl.org) must be taken by applicants for whom English is not their first language or whose language of instruction was not English. Submit the results of that test with the application for admission. A TOEFL score of 550 (paper-based test) or 213 (computer-based test) or higher is required for admission.

Application Dates

Candidates may enter the program at the beginning of the fall, spring, or summer session. To allow time for applications to be processed, all information, including GMAT score, must be received by Enrollment Services no later than July 18 for admission to the fall semester, November 18 for admission to the spring semester, and April 18 for admission to the summer session.

Applicants from outside the United States must follow the early admission dates in order to allow the necessary clearances and paperwork to be processed in time.

Entry Requirements

Analytic Skills Requirement: Prior to enrolling in their M.S.I.S. course work, students are required to demonstrate competence in Analytic skills. This requirement may be demonstrated by: (1) satisfactory completion of college-level courses in calculus and statistics such as QUANT 310 or MATH 110 plus STAT 200 or (2) successful completion of a calculus and statistics proficiency examination approved by the M.S.I.S. program. This requirement must be taken either during the first semester or summer session of the student’s matriculation and completed with a grade of C or better.

Credit by Examination: Interested students should obtain a Credit by Examination form from Enrollment Services and should consult with the M.S.I.S. Program to schedule the exam and obtain a list of suggested preparatory materials.

Computer Skills Requirement: Students are required to demonstrate proficiency in the use of Microcomputer Applications. This requirement can be satisfied through completion of a college-level microcomputer applications course within the past five years with a grade of B or higher or by documented significant computer-related work experience. If this requirement has not been met prior to admission, a college-level microcomputer course such as M I S 103 or CMPSC 203--Microcomputers in Business--is required. Course work must be taken either during the first semester or summer session of the student’s matriculation and completed with a grade of B or higher.

Communication Skills Requirement: Successful completion of the M.S.I.S. program requires the ability to think clearly and to write and speak persuasively. Part of this requirement can be met by obtaining a score of “4” or more on the Graduate Management Admission Test (GMAT) Analytical Writing Assessment (AWA). If this score is not achieved, students must satisfy this requirement through additional course work in writing skills or other work developed in consultation with the M.S.I.S. Program. This requirement must be satisfied during the first semester or summer session of the student’s matriculation and completed with a grade of B or higher. The speech component of this requirement is satisfied through individual and group presentations in courses in the M.S.I.S. Program.
Pre-Program Requirement: The Pre-program requirement provides a basic foundation in theory, tools and techniques required for the management of profit and non-profit organizations. It also provides a basic understanding of applications of financial accounting, the creation and distribution of goods and services, and how people relate to others in various organizations, helping to merge two related disciplines: business and information systems. Students who have completed the appropriate pre-program courses previously must have completed the courses with a grade of B or higher within seven years prior to admission, or through equivalent graduate course work completed with a B or higher within seven years prior to admission or college level course work validated by recent work experience. Students who have not met these tests of relevancy, grade or currency, prior to admission to the program must take these courses at the graduate level and early in Program. Students choosing an option in life sciences are required to have a baccalaureate degree in life sciences or a related field.

Pre-Program Requirement: 9 credits
ACCT 501, BUS 505, MGMT 511, BUSEC 502

Degree Requirements
The M.S.I.S. program requires, excluding prerequisite requirements, 30-36 credits of course work at the graduate level (500-level or higher). Options require 36 credits.

These are distributed over three groups of courses: Prescribed Courses, Additional Courses, and Electives.

M.S.I.S. Degree Program

Master of Science in Information Systems

Pre-Program Courses
ACCT 501. Financial Analysis (3)
BUS 505. Data Analysis for Business Decisions (2)
BUSEC 502. Prices, Markets, and Competitive Strategy (2)
MGMT 511. Organizational Behavior (2)

Prescribed Courses
INFSY 535. Object-Oriented Design and Program Development (3)
INFSY 540. Information Technology and Knowledge Management (3)
INFSY 554. Master's Project (3)

Additional Courses (choose 15 credits)
INFSY 543. Electronic Commerce (3)
or
INFSY 550. Strategic Information Systems (3)
or
INFSY 587. Global Information Technology (3)
INFSY 545. Program, Data, and File Structures (3)
INFSY 547. WEB Enabled Technologies (3)
INFSY 555. Data Management (3)
INFSY 556. Data Warehousing (3)
INFSY 560. Data Communications Systems and Networks (3)
INFSY 562. Network Protocols (3)
or
INFSY 563. Network Security Management (3)
or
INFSY 564. Mobile computing (3)
INFSY 565. Intelligent Systems (3)
INFSY 566. Data Mining and Knowledge Discovery (3)
INFSY 570. Software Engineering in the Analysis and Design of Information Systems (3)
INFSY 575. Seminar in Information Technology Management (3) (as approved for major by Program)
INFSY 597. Special Topics (3)

Electives (6 credits)

Elective courses allow students to select additional elective courses of interest. Six credits of elective courses should be taken from 500-level courses offered by Penn State Harrisburg's School of Business Administration.

M.S.I.S. Degree with Options

Information Systems in Health Care Management and Delivery Option

Pre-Program Courses
ACCT 501. Financial Statement Analysis (3)
BUS 505: Data Analysis for Business Decisions (2)
BUSEC 502. Prices, Markets, and Competitive Strategy (2)
MGMT 511. Organizational Behavior (2)

Prescribed Courses
INFSY 535. Object-Oriented Design and Program Development (3)
INFSY 540. Information Technology and Knowledge Management (3)
INFSY 554. Master's Project (3)

Additional Courses
INFSY 555. Data Management (3)
INFSY 556. Data Warehousing (3)
INFSY 560. Data Communications Systems and Networks (3)
INFSY 565. Intelligent Systems (3)
INFSY 566. Data Mining and Knowledge Discovery (3)

Option Courses
H ADM 539. Health Systems Organizations (3)
INFSY 585. Advanced Applications in Medical Informatics (3)

Select 6 credits from:
H ADM 540. Health Administrative Policy Formulation (3)
H ADM 541. Health Economics (3)
H ADM 542. Health Care Politics (3)
H ADM 543. Long-Term Care Administration (3)
H ADM 548. Health Care Quality (3)
H ADM 551. Health Care Law (3)
H ADM 552. Health Delivery Systems: managed care (3)
HES 570. Health Economics (3)
INFSY 575. Seminar in Information Technology Management (3) (as approved for option by Program)
INFSY 597. Special Topics (3) (as approved for option by Program)

The Pennsylvania State University
The Pennsylvania State University

Information Systems in Life Sciences Option

Prerequisite
A baccalaureate degree in a life sciences field

Pre-Program Courses
ACCT 501. Financial Analysis (3)
BUS 505. Data Analysis for Business Decisions (2)
BUS 502. Prices, Markets, and Competitive Strategy (2)
MNGMT 511. Organizational Behavior (2)

Prescribed Courses
INFSY 535. Object-Oriented Design and Program Development (3)
INFSY 540. Information Technology and Knowledge Management (3)
INFSY 554. Master's Project (3)

Additional Courses
INFSY 555. Data Management (3)
INFSY 556. Data Warehousing (3)
INFSY 560. Data Communications Systems and Networks (3)
INFSY 565. Intelligent Systems (3)
INFSY 566. Data Mining and Knowledge Discovery (3)

Option Courses
INFSY 578. Technology and Life Sciences (3)

Select 9 credits from:
BUSAD 583. Future of the Biotechnology and Health Industry (3)
INFSY 575. Seminar in Information Technology Management (3) (as approved for option by Program)
INFSY 597. Special Topics (3) (as approved for option by Program)
S T S 589. Ethics and Values in Science and Technology (3)
SWENG 552. Bioinformatics (3)

Students electing an option in the M.S.I.S. program must complete a total of 36 credits in the major to obtain the degree.

A minimum 3.00 grade-point average is required before a student is awarded an M.S. degree in Information Systems.

All course work must be completed within six years, or seven consecutive summers of matriculation.

Transfer Credits
Up to 10 transfer credits may be applied toward the degree. However, credits used to complete a previous graduate degree may not be applied. These courses must have been taken within the past five years, appear on a graduate transcript, and have been passed with a B grade or higher. It must be the opinion of the reviewing faculty that these courses are equivalent in quality to those offered at Penn State Harrisburg. Credit will not be given for any class used to complete a previous degree.

Course Substitutions
Because some students enter the Program with advanced knowledge in one or more subject areas, up to six credits in prescribed or additional courses may be replaced with more advanced graduate courses in the same subject area. However, for INFSY 554, which must be taken at the College, INFSY prescribed and additional courses, in cases where there is equivalent knowledge, must be replaced with more advanced courses in the same field. Substitutions are based on a minimum of six credits of advanced undergraduate course work in an area of concentration or credits earned in an equivalent graduate-level program at a regionally accredited, college-level institution. These courses must have been completed within the past five years and have earned a grade of B or better. Substituted courses must be replaced with other advanced graduate courses in the field for which the substitute is the foundation/prerequisite. Substitutions are based on past academic performance. An examination cannot be used for earned graduate course credit.

Grade-Point Average and Time Limit
A 3.00 (out of 4.00) minimum grade-point average is required FOR THE AWARD OF THE M.S.I.S. degree. All course work must be completed within six years, or seven consecutive summers of matriculation.

Financial Aid
There are a limited number of scholarships, fellowships, and research grants available, as well as several graduate assistantships. For more information on these, contact Penn State Harrisburg's School of Business Administration.

Many students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To find other options available to you, contact one of the following offices: Financial Aid Office, 717-948-6307 or Enrollment Services, 717-948-6250.

Graduate School Assistantships
Full time graduate students who are interested in an assistantship should contact the graduate program coordinator. Students must be nominated for an assistantship by their program coordinator.

Students applying for an assistantship should submit scores from the Graduate Management Admissions Test (GMAT), or similar examinations by January 30.

CONCURRENT DEGREE OFFERINGS WITH THE DICKINSON SCHOOL OF LAW

Penn State Harrisburg, School of Business Administration
The Dickinson School of Law

Degrees Conferred
J.D. (Dickinson)
M.B.A. (Penn State Harrisburg)
M.S.I.S. (Penn State Harrisburg)

Concurrent Degree Programs
The Dickinson School of Law and the School of Business Administration of Penn State Harrisburg offer cooperative programs leading to the degrees of Juris Doctor (J.D.) to be granted by the Dickinson School of Law, and either the Master of Business Administration (M.B.A.) or Master of Science in Information Systems (M.S.I.S.) to be granted by Penn State Harrisburg. These concurrent degree opportunities facilitate the completion of both a law degree and a professional degree in business or information systems. The programs are designed primarily for location-bound students who enter law school with an undergraduate degree in business, information systems or related fields.

Admission Requirements
The concurrent programs require that the student first be admitted to the Dickinson School of Law. Subsequently, the student is recommended for and
The following are required for applicants:

**The Dickinson School of Law:** Completed Law School application; Law School Admission Test (LSAT) score; Law School Data Assembly Service (LSDAS) report; one page personal statement; employment record since high school; two letters of recommendation.

**M.B.A. And M.S.I.S. Programs:** Completed Graduate School application; Graduate Management Admission Test (GMAT); letter of recommendation from the associate dean of the Dickinson School of Law; evidence of proficiency in analytic skills through college-level calculus and statistics demonstrated either by completion of courses or successful completion of a mathematics proficiency examination approved by the program; evidence of proficiency in microcomputer applications skills; proficiency in writing evidenced by a score of "4" or higher on the writing assessment portion of the GMAT; proficiency in entry-level financial accounting as demonstrated by completion of college-level course work; completion of a set of pre-program business core requirements demonstrated by completion of a minimum of six credits of advanced undergraduate work in each core area. Each course must have been completed with a grade of B or higher within seven years prior to admission to the M.B.A. or M.S.I.S. program. The School of Business Administration will review the applicant's transcripts for acceptability of the courses.

No courses from the M.B.A program or M.S.I.S. program may count toward the J.D. program until the student is matriculated at The Dickinson School of Law. However, graduate-level courses taken in either the M.B.A. or M.S.I.S. program at Penn State Harrisburg or at another graduate-level institution may be applied to the M.B.A. or M.S.I.S. in accordance with the transfer policies of the Graduate School.

**Transfer of Credits**

For those students meeting the entry and pre-program requirements of the M.B.A. and M.S.I.S. programs, 30 additional credits are required. Nine credits of course work at the Dickinson School of Law may be transferred toward the M.B.A. or the M.S.I.S. degrees, subject to program approval. Students must obtain a grade satisfactory to the M.B.A. and M.S.I.S. program in order for the credits to be transferable. Nine credits of M.B.A. or M.S.I.S. courses may be transferred for credit toward the J.D. degree at the Dickinson School of Law, subject to the approval of the school of law.

**Advising of Students**

All students in the concurrent program have two advisers, one in the School of Business Administration and one from the faculty at the Dickinson School of Law. Because the concurrent program is designed to be taken in synchrony with the objective that both degrees will be earned simultaneously, students who do not demonstrate progress toward completion of both degrees may be denied continuation in the concurrent program. Such a decision will rest jointly with the faculties of the M.B.A. or M.S.I.S. program and the J.D. program.

**Tuition**

The Dickinson School of Law and Penn State Harrisburg will each charge their own tuition to students in the J.D./M.B.A. and J.D./M.S.I.S. programs.

**Additional Information**

For more information and the latest updates on the concurrent programs, call the law school at 717-240-5207 or 800-840-1122, or visit the Web sites at: http://www.dsl.psu.edu http://www.hbg.psu.edu

**CONCURRENT DEGREE OFFERINGS WITH THE PENN STATE COLLEGE OF MEDICINE, BIOMEDICAL SCIENCES GRADUATE PROGRAM**

Penn State Harrisburg, School of Business Administration
The Penn State College of Medicine, Biomedical Sciences Graduate Program

**Degrees Conferred**

Ph.D. (of College of Medicine)
M.B.A. or M.S.I.S. (Penn State Harrisburg)

**Concurrent Degree Programs**

The Penn State College of Medicine, Biomedical Sciences Graduate Program, and the School of Business Administration of Penn State Harrisburg offer cooperative programs leading to the degrees of Doctor of Philosophy (Ph.D.) to be granted by the Penn State College of Medicine, and either the Master of Business Administration (M.B.A.) or Master of Science in Information Systems (M.S.I.S.), to be granted by Penn State Harrisburg. These concurrent degree programs facilitate the completion of both a pharmacology doctorate and a professional degree in business administration or information systems. The programs are designed primarily for students interested in pursuing a career involving high-quality independent research and positions of management responsibility within the pharmaceutical community.

**Admission Requirements**

The concurrent programs require that the student first be admitted to the biomedical sciences program. Subsequently, the student is recommended for and applies for admission to the graduate school for the Penn State Harrisburg M.B.A. or M.S.I.S. program.

The following are required for applicants:

**Biomedical Sciences:** Completed application; Graduate Record Examination (GRE) Score; A bachelor's degree reflecting a reasonable background in zoology or biology, mathematics and chemistry; a minimum junior/senior grade point average of 3.00 and with appropriate course backgrounds; two letters of recommendation; a curriculum vitae; a description of career goals. Reading knowledge of one or two foreign languages is recommended.

**M.B.A. and M.S.I.S. Programs:** Completed Graduate School application; Graduate Management Admission Test (GMAT) score; letter of recommendation from the department chair of the biomedical sciences program; evidence of proficiency in analytic skills through college-level calculus and statistics demonstrated either by completion of courses or successful completion of a mathematics proficiency examination approved by the program; evidence of proficiency in microcomputer applications skills; proficiency in writing evidenced by a score of "4" or higher on the writing assessment portion of the GMAT; proficiency in entry-level financial accounting as demonstrated by completion of college-level course work; completion of a set of pre-program business core requirements demonstrated by completion of a minimum of six credits of advanced undergraduate work in each core area. Each course must have been completed with a grade of B or higher within seven years prior to admission to the M.B.A. or M.S.I.S. program. The School of Business Administration will review the applicant's transcripts for acceptability of the courses.

No courses from the M.B.A program or M.S.I.S. program may count toward the Ph.D. until the student is admitted to the biomedical sciences program. However, graduate-level courses taken in either in the M.B.A. or M.S.I.S. program at Penn State Harrisburg or at another graduate-level institution may be applied to the M.B.A. or M.S.I.S. in accordance with the transfer policies of the Graduate School.

It is anticipated that most students in the concurrent programs will require additional graduate credits in order to satisfy the entry and pre-program requirements in business administration. Nine credits of course work in biomedical sciences may be transferred toward the M.B.A. or M.S.I.S. Students must obtain a grade satisfactory to the program in order for the credits to be transferable. Nine credits of M.B.A. or M.S.I.S. course work may be transferred for credit toward the Ph.D. degree, subject to the approval of the Biomedical Sciences Graduate Program.

All students in the concurrent program have two advisers, one in the School of Business Administration and one from the faculty in the Biomedical Sciences Graduate Program. Because the concurrent program is designed to be taken in synchrony with the objective that both degrees will be earned simultaneously, students must not be constrained to complete both degrees. No courses may be denied continuation in the concurrent program. Such a decision will rest jointly with the faculties of the M.B.A. or M.S.I.S. and the Ph.D. programs.

**The Course Matrix**

The Pennsylvania State University
For more information and the latest updates on the concurrent programs, call the Biomedical Sciences Graduate Program at 717-531-1045 or visit the websites at:
http://www2.med.psu.edu/prospective-students
http://www.hbg.psu.edu

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty

The Program
This program provides advanced professional preparation in the development of effective, efficient instructional materials and the use of technology to support learning in a variety of educational settings. The program of study applies skill and knowledge from the fields of the learning sciences, instructional design, computer technologies, and research methodologies to study educational designs and their effect on learning. Graduates are employed as instructional designers by corporate, agency, and military training departments; entrepreneurial consulting companies; public school districts; museums, nature centers, and other informal learning settings; community college learning resource centers; and colleges and universities.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) (for master’s or doctorate) or Miller Analogies Test (for master’s), transcripts, letters of reference, application letter, and writing assignment are required for admission.

Requests to waive the GRE requirement may be submitted by applicants for the M.Ed. who have successfully completed coursework for the Postbaccalaureate Certificate in Educational Technology Integration with a GPA greater than 3.5. However, GRE scores will be required to apply to the doctoral program.

Master's Degree Requirements
Students in the M.S. degree program are required to complete a minimum of 36 approved credits including: 9 credits of LDT core (LDT 415, LDT 467, and LDT 527, or equivalent) as well as 12 credits of courses chosen in consultation with an adviser. These courses can be chosen from, but are not limited to, LDT 401, LDT 433, LDT 440, LDT 449, LDT 505, LDT 550, LDT 581, LDT 586, LDT 587, or LDT 832. In addition, M.S. students will take 6 credits of research methods courses with adviser approval, which can include, but are not limited to, STAT 500, STAT 500, ATE 550, LDT 574, LDT 575, LDT 576, LDT 545, EDPSY 406, EDPSY 475, and EDPSY 505. M.S. students will also be required to enroll in 3 credits of LDT 594 to conduct their research project, and 6 credits of LDT 600/610 to write and produce a master’s thesis.

Students in the M.Ed. program are required to complete a program of a minimum of 30 approved credits including the 9-credit LDT core (LDT 415, LDT 467, and LDT 527, or equivalent) as well as 21 credits of professional application courses chosen in consultation with an adviser. These courses can be chosen from, but are not limited to, LDT 401, LDT 433, LDT 440, LDT 449, LDT 505, LDT 550, LDT 581, LDT 586, LDT 587, or LDT 832. All students will compile a portfolio as they move through the courses, and this portfolio will be presented to the adviser as the capstone experience (students do not need to enroll in any additional courses to complete the capstone experience).

For both M.S. and M.Ed. students, at least 18 credits must be taken at the 500 level or above, with at least 6 credits at the 500 level.

Doctoral Degree Requirements
Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Credit and course requirements: Candidates for the Ph.D. in LDT must complete a set of core competencies in instructional design, learning sciences and technology, research methodology, and research apprenticeship. Doctoral candidates must complete a minimum of 30 LDT credits to include 9 credits of LDT doctoral core courses, 9 credits of LDT 594, and at least 12 credits of 500-level graduate LDT courses based on competency selection. LDT doctoral core courses include LDT 527, LDT 581, and LDT 583. Core competencies are represented by a number of courses including (but not limited to) LDT 505, LDT 550, LDT 551, LDT 586, LDT 544, LDT 545, LDT 549, LDT 574, LDT 575, LDT 576, and LDT 832. As an example, a doctoral candidate interested in the instructional design core competency might be advised to take LDT 550, LDT 551, LDT 549, and LDT 832, while a candidate interested in learning sciences and technology might be advised into LDT 505, LDT 574, LDT 575, and LDT 544. The 12 credits of core competencies referenced earlier plus additional coursework for the doctoral program will be determined in consultation with the doctoral committee. All Ph.D. candidates must also complete a communication requirement consisting of one course in applied statistics, and either one course in advanced statistics or one course in advanced qualitative analysis. Coursework offered by outside departments may be scheduled as part of the student’s program with approval of the student’s doctoral committee and the Director of Graduate Studies.

To complete the residency requirements as defined by Graduate Council, the Ph.D candidate must spend at least two consecutive semesters enrolled as a full-time student at the University Park campus.

Doctoral exams and committees: The candidacy exam is recommended to be taken early in a student’s program, after a minimum of 18 credits of post-baccalaureate work, and within three semesters (not including summers and assuming full-time study) of entry into the doctoral program. Students must submit an application to take the candidacy exam, and the LDT faculty must approve the application. In order to complete the candidacy exam, students must be registered either full- or part-time during the semester in which it is completed and show no deferred or failing grades in courses related to the degree program on their graduate transcript.

Prior to the comprehensive exam, the student, in consultation with his or her adviser, will convene a doctoral committee that consists of at least four members of the graduate faculty. The committee must comprise at least two LDT faculty members (including the thesis adviser), one outside field member, and one outside unit member. In cases where the outside field member and outside unit member are the same person, the fourth member may be either a minor adviser or a third LDT faculty member. Additional information about doctoral committees is available in the Graduate Bulletin.

After the completion of all coursework, the doctoral student must complete a comprehensive examination. All doctoral candidates must produce and write a doctoral dissertation and hold a final oral examination in defense of the dissertation.

Student Aid
A limited number of graduate assistantships are available to students in this program. These and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 699. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in
order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred

Students electing this degree program through participating programs will earn a degree with a dual-title at the Master's or Ph.D. level. Students receive a degree that lists their major program and International Agriculture and Development (INTAD).

The International Agriculture and Development (INTAD) program is offered through the Departments of Agricultural and Extension Education, Agricultural Economics and Rural Sociology, and Entomology. The dual title degree enables qualified students from the CAS and other select programs at Penn State to combine their major degree with an internationally focused program of study to gain global competency skills and techniques for application of their discipline in a global environment.

The Graduate Faculty

The Program

The INTAD Graduate dual-title degree program is administered by the INTAD- Academic Program Management Committee. The committee maintains the curriculum, identifies courses appropriate for the program, and develops and recommends policy and procedures for the program's operation to the dean of the College of Agricultural Sciences and the dean of the Graduate School. Faculty members of the INTAD Graduate program also serve on the student graduate committee for students who chose to do the dual-title program. This dual-title program enables students to learn about international agriculture while maintaining a close association with their primary area of interest in their home department.

Admission Requirements

To pursue the INTAD dual-title offering, a student must first apply to and be admitted to one of the participating graduate degree programs and the Graduate School at Penn State. Upon acceptance into the major program, the student can apply to the INTAD dual-title program. The student will submit an application to the INTAD Academic Program Committee. The application will include a written personal statement indicating the career goals they hope to accomplish by earning a dual-title degree.

Further information about the admissions process will be posted on asci.psu.edu/international. Requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

To qualify for the INTAD dual-title degree, students must satisfy the requirements of the graduate program in which they are enrolled. In addition, they must satisfy the minimum requirements of the INTAD dual-title degree specified here.

Graduates of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

Master's Degree:

Course Requirements

Students are required to complete a minimum of 12 INTAD course credits (400, 500, or 800) for a dual-title Master's degree. Nine credits will be from the core curriculum, which includes a 3-credit seminar course, the International Agricultural Development Seminar (INTAD 820), and two courses from the Departments of Agricultural Economics/Rural Sociology and Agricultural and Extension Education. The remaining three credits must be taken as internship or applied courses/independent studies with international development content.

Final course selection is determined by the students, their major program advisors and their INTAD advisors. Such advisors will discuss with the student a program of study that meets the student's career goals and that is in accord with the policies of the Graduate Council and the INTAD dual-title program. Some courses may satisfy both the major graduate program requirements and those of the INTAD dual-title program. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. A student who is registered for at least nine credits is considered to be engaged in full-time academic work for the semester.

Thesis

Students pursuing a Master of Science (M.S.) degree that requires a master's thesis, in addition to the 12 credits specified above, must write the thesis on a topic that reflects both the graduate program in their primary degree and the dual-title offering in INTAD. Thesis research credits (SUBJ 800) must be taken in the major program.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Ph.D. Degree

The Pennsylvania State University
Students admitted to the doctoral INTAD dual-title offering must exhibit high research competence, including ability to identify, conceptualize, and execute a significant research project that makes a significant addition to the body of knowledge in the field. Students also should be fluent in reading, writing, and speaking English.

Course Requirements

Students are required to complete a minimum of 18 INTAD credits for a dual-title Ph.D. degree. Nine credits will be from the core curriculum, which includes a 3-credit seminar course, the International Agricultural Development Seminar (INTAD 820), and two courses from the Departments of Agricultural Economics/Rural Sociology and Agricultural and Extension Education. The remaining 9 credits must be taken from among INTAD electives. In addition, they will be encouraged to pursue proficiency in a language other than English, as appropriate.

Final course selection is determined by the students, their major program advisors and their INTAD advisors. Such advisors will discuss with the student a program of study that meets the student's career goals and that is in accord with the policies of the Graduate Council and the INTAD dual-title program. Some courses may satisfy both the major graduate program requirements and those of the INTAD dual-title program. The 18 required credits must be at the 500-level or above. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. A student who is registered for at least nine credits is considered to be engaged in full-time academic work for the semester.

Candidacy

Candidacy procedures will be based on the procedures of the major department and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student's advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of a Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both the Major Program and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official "outside member" also must be appointed to the committee.

Comprehensive Exam

At the end of their coursework, students must complete a comprehensive examination that follows the guidelines established by the primary program and reflecting both their primary program and the dual-title degree curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the exam and the INTAD representative on the student's doctoral committee must have input into the development of and participate in the evaluation of the comprehensive evaluation.

Dissertation and Dissertation Defense

Doctoral students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both their primary program and the INTAD dual-title program. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Financial Aid

Graduate Assistantships and other forms of student aid are described in the Student Aid section of the Graduate Bulletin. A limited number of Research Assistantships are also available through the CAS.

Graduate courses carry numbers from 500 to 599 and 800 o 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but may do not meet requirements for an advanced degree.

Degree Conferred
Ph.D., M.S., M.P.S. in Information Sciences

The Graduate Faculty

Program Description
The Doctor of Philosophy degree in Information Sciences and Technology offers advanced graduate education for students contemplating careers in academic teaching and research, or research in a non-academic setting. The program is interdisciplinary in nature and expects scholarship at the highest level exhibiting depth of competency in at least one of the core areas of the Information Sciences and Technology and an understanding of the integration of the critical constructs that drive the field: people, information, and technology.

The Master of Science in Information Sciences and Technology is an interdisciplinary degree program that focuses on the theoretical, application-oriented, and educational issues facing a global digital economy. The program is designed to build an understanding of how information and technology fundamentally impact (and are impacted by) people, organizations, and the world community. Topical areas within IST span a broad range including: human computer interaction, computational techniques, applications (e.g., bio-informatics and geographical information systems), societal issues (such as digital divide issues), user issues (e.g., computer-aided cognition), and information and knowledge design and development providing exposure and grounding in many of the aspects of the information sciences. The program is especially attractive to students interested in gaining state-of-the-art understanding of information technology and its use as a solution in multiple venues.

The Master of Professional Studies in Information Sciences (MPS-IS) is an innovative program that targets professionals and organizational leaders who wish to seek a professional education and training program. The purpose of the professional master program is to produce professionals and organizational leaders who not only can select and draw upon the necessary foundations within the information sciences and information technology areas, test the applicability of these foundations for addressing a given issue, and apply resulted solutions, but also can be aware of the multitude of technological trends and environmental factors that organizations must address in the changing global economy.

The MPS-IS equips students to be able to:

1. Understand and analyze the profound information and technological changes sweeping the world;
2. Meet the challenges by developing innovative solutions using the foundations of information sciences and technology;
3. Have a clear advantage in today’s highly competitive and dynamic environment by continuously learning new trends, issues and innovations.

Admission Requirements
Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants to the Professional Master Program are required to submit scores from the general portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT), three letters of reference, and a one-page personal statement of relevant experience and goal. The GRE or GMAT requirement may be waived for applicants to the Professional Master Program if the student has five or more years of relevant information sciences and technology working experience. Applicants to the Ph.D. and M.S. programs are required to submit scores from the general portions of the Graduate Record Examinations (GRE), three letters of reference, a current resume (to include present position and any publications), one-page statement of research background and goals related to pursuing an advanced degree and career in IST (also briefly discuss your personal motivation for obtaining a Ph.D. or M.S.), a sample of applicant’s writing (e.g., technical paper, etc.).

Because the program is interdisciplinary in nature, students from many different disciplines may be acceptable for entry into the program. A bachelor’s degree in a related area (e.g., engineering and science), while not necessary for admission, is helpful in the successful completion of the degree. It is expected that students will have a basic level of competency in statistics as well as computer and information technology (related work experience can be used to demonstrate such competency). A student may be accepted into the program with "provisional status" for no more than one year while work is completed to meet these expectations.

It is expected that the successful applicant will have an overall grade point average of 3.00 (on a 4.00 scale) or higher for his or her undergraduate study (and/or graduate-level study). However, accomplishments demonstrated through work experience and recommendation letters from the applicant’s academic adviser or employer will also play an important role in making the admission decision. The most qualified applicants will be accepted into the program until all spaces for new students are filled.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which will be considered for remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

DEGREE REQUIREMENTS

Doctoral Degree Requirements
The doctoral degree requirements include the general requirements of the Graduate Council as listed under the Doctoral Degree Requirements. To complete a Ph.D. degree, students must in their first semester take the 6-credit introduction to interdisciplinary research methods (IST 501), one of the three foundations courses (IST 510, IST 520, IST 530), and one credit of graduate colloquium (IST 590). In their second semester, students must take the remaining two foundations courses and a second credit of graduate colloquium.

The Pennsylvania State University
In addition to these first-year requirements, doctoral students must complete 12 credits of research methodology courses selected to introduce or amplify methods relevant to their doctoral research agenda, and 12 credits of specialization courses, also selected to reinforce their research training.

In addition, all candidates must be competent in English language and must have demonstrated skills in the communication of ideas both orally and in writing, commensurate with the requirement of scholarly and professional work. The candidacy examination will be used as an occasion to assess English proficiency and plan for remediation (including additional courses, mentoring, or experiences) for all students. A brief critical literature review in three complementary areas will be included as part of the candidacy assessment process. The foreign language and communication requirement may be fulfilled through demonstrating computer language proficiency (assessed through courses taken) or a minimum of 9 credits of 500-level statistics courses. Students must have completed 18 graduate credits before taking the candidacy exam and must complete the candidacy exam within three semesters.

Students must pass the Ph.D. comprehensive examination after completion of most of the course work, usually at the end of the student’s second year in the program. A research-based dissertation must be completed under the direction of the Ph.D. committee, with the student submitting a dissertation proposal and defending that proposal in the defense examination.

General guidance of a doctoral candidate is the responsibility of a doctoral committee consisting of four or more active members of the Graduate Faculty, which includes at least two faculty members in the major field. The dissertation adviser must be a member of the doctoral committee. The dissertation adviser usually serves as chair, but this is not required. If the candidate is also pursuing a dual-title degree of study, the co-chair representing the dual-title field must be appointed.

At least one regular member of the doctoral committee must represent a field outside the candidate’s major field of study in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Field Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Additionally, in order to avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation adviser’s primary appointment is held (i.e., the adviser’s administrative home; in the case of tenure-line faculty, this is the individual’s tenure home). This committee member is referred to as the “Outside Unit Member.” In the case of co-advisers, the Outside Unit Member must be from outside the administrative home(s) of both co-advisers. In some cases, an individual may have a primary appointment outside the administrative home of the student’s dissertation adviser and also represent a field outside the student’s major field of study; in such cases, the same individual may serve as both the Outside Field Member and the Outside Unit Member.

M.S. Degree Requirements

The M.S. in Information Sciences and Technology requires a minimum of 30 credits at the 400 level or above, with at least 18 credits at the 500 level or above; 27 of the 30 credits must be earned at University Park. These credits are distributed among the following requirements:

- **Core Courses (6 credits).** All candidates are expected to develop a broad understanding of the core constructs of people, information, technology, and the significant interactions among those elements by taking IST 504 and IST 505.
- **Specialization Courses (12 credits).** In consultation with his/her advisor, a candidate is expected to choose courses in one or more areas customized to support the scholarly paper. In addition to advanced courses in IST, a support area could be in law, business, education, engineering, the liberal arts, science, or any area that is linked to the information sciences.

- **Research Methods (6 credits).** All candidates must develop a basic understanding of the research methods utilized in the information sciences, by taking at least two research methods courses offered in IST or elsewhere. The focus of the course must be on the methods being learned rather than application of some method to a research topic.

- **Thesis or Scholarly paper (6 credits).** Students may choose a thesis or scholarly paper option. Students who choose the thesis option must write a thesis, orally defend the thesis, and register for 6 credits of IST 594. The thesis should focus on a well-defined problem relevant to the information sciences. Students who choose the scholarly paper option must complete a scholarly paper and register for 6 credits of IST 594. The scholarly paper is to be a focused piece of technical work that applies the student’s expertise and knowledge base, and that is documented and presented as a scholarly paper report.

- **Language and Communication.** All candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both orally and in writing commensurate with the requirement of professional work. The foreign language and communication requirement may be fulfilled through demonstrating computer language proficiency (assessed through courses taken).

M.P.S. Degree Requirements

The MPS-IS program requires a minimum of 33 credits, 24 of which must be earned at Penn State. Up to 9 graduate credits may be transferred in from a regionally accredited institution (as is permissible by the Graduate School). At least 18 credits must be courses at the 500 level and above. A student will first take 9-credits of core courses. The student will then take 12 credits of prescribed courses for the base program or the Cybersecurity and Information Assurance Option. An additional 9 credits are elective courses. Lastly, the student must complete a master project guided by the student’s adviser. A student can choose to be in the Base Program or in the Cybersecurity and Information Assurance (CIA) Option. These credits are distributed among the following requirements and reflected by completion of 3 credits of IST 594.

- **Core Courses (9 credits).** The core of the MPS-IS consists of three courses -- IST 852 or INFSY 540, IST 554, and IST 816. These courses represent the core technical foundations to study Information Sciences and Technology.

  - **The Base Program (12 credits of prescribed courses and 9 credits of electives).** The base program consists of four prescribed (required) courses - IST 815, IST 555, IST 456, and IST 885, and 9 credits of elective courses selected from - IST 451, 454, 564, or IN SC 561 or other courses from a list of approved electives that is maintained by the head of the graduate program and is available from the program office, in addition to the 9-credit core and 3-credit capstone course. This is designed for students who do not have a special interest in mind. The elective courses are chosen in consultation with the student’s adviser. Hence, it offers the flexibility that enables the student to build an in-depth knowledge and skills about information sciences tailored to his/her interests and background. Students from Harrisburg region can also select courses from Penn State Harrisburg to fulfill the prescribed courses (by substitution) and 9 credits of electives.

  - **Cybersecurity and Information Assurance (CIA) Option (12 credits of prescribed courses and 9 credits of electives).** The CIA option consists of four prescribed (required) courses - IST 815, IST 522, IST 532 or IST 531 and IST 564 and 9 credits of elective courses, in addition to the 9-credit core and 3-credit capstone course. It is designed for students who do not have a special interest in mind. The elective courses are chosen in consultation with the student’s adviser. Hence, it offers the flexibility that enables the student to build an in-depth knowledge and skills about information sciences tailored to his/her interests and background. Students from Harrisburg region can also select courses from Penn State Harrisburg to fulfill the prescribed courses (by substitution) and 9 credits of electives.

- **Master Project (3 credits).** The project requires all students in the MPS-IS to focus on a well-defined issue or problem relevant to the information sciences and technology. The student will submit a project proposal to his/her faculty adviser for approval. Upon completion of the project, the student will share or present the project results at a final presentation as a component of IST 594.

- **Language and Communication.** All candidates must be competent in the English language and must have demonstrated skills in the communication of ideas both orally and in writing commensurate with the requirement of professional work. The foreign language and communication requirement may be fulfilled through demonstrating computer language proficiency (assessed through courses taken).

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

814-865-1163
kinesgrad@psu.edu

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Programs

The graduate programs in Kinesiology are research oriented and are designed to meet the specific goals and interests of the student. The primary goal of the overall program is to provide students the opportunity to study in depth one area of specialization and to develop necessary research skills to enhance their professional competence. The master's program is designed to prepare students for future graduate study, while the doctoral program is directed toward careers in research and in teaching at the advanced undergraduate and graduate levels in colleges and universities. Six areas of study are available at both the master's and doctoral levels: (1) athletic training and sports medicine, (2) biomechanics, (3) exercise physiology, (4) history and philosophy of sport, (5) motor control, and (6) psychology of movement and sport. Several well-equipped research facilities are available to support graduate study, including the Biomechanics Laboratory, Motor Behavior Laboratory, and Noll Physiological Research Center.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Scores from the Graduate Record Examinations (GRE) are required for admission. The minimum requirements for admission to the master's program include a 3.00 junior/senior grade-point average (on a 4.00 scale), satisfactory recommendations, a total of 1000 or higher on the verbal and quantitative sections of the GRE, and appropriate background courses in physical, biological, behavioral, and/or social science, depending on the intended area of specialization. Candidates from majors other than exercise and sport science/physical education are welcome to apply. In addition, doctoral applicants are expected to meet more stringent admission standards, including documented research capabilities (e.g., from an M.S. degree). Experience is highly desirable. Admission is highly competitive and the best-qualified students will be admitted subject to space availability and compatibility of the student with the department's research mission.

Master's Degree Requirements

All master's candidates are required to complete a research methods course and an acceptable statistics course; show proficiency in the English language; and write a thesis. In addition, each specialization may require specific courses. All specializations require a minimum of 30 credits.

Doctoral Degree Requirements

A program to meet the individual needs of each student is planned with the adviser in consultation with the doctoral committee members. Students should elect at least 15 credits from courses within the department and at least 6 credits from courses outside the department. It is expected that the depth of knowledge in each area of study comes from independent study and research experiences, in addition to the dissertation, which are under the direction of the faculty. Specific required courses include the Colloquium and Proseminar.

Student Aid

Graduate assistantships that are available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Program

All students entering the program must have completed a professional degree program in veterinary medicine and must hold the degree of D.V.M., V.M.D., or equivalent. This program is only offered at the Penn State College of Medicine, Milton S. Hershey Medical Center.

The Department of Comparative Medicine is a basic science, academic department of the College of Medicine. It is concerned with the range of variation of normal and abnormal structure, function, and behavior in a variety of species of animals used for teaching, testing, and research. Its faculty, staff, and students work in a multidisciplinary and collaborative fashion with all other departments in the college to advance the research mission.

Graduate study in laboratory animal medicine consists of advanced training in biology, medicine and methodology pertinent to animal-based research, and the development of scholarship and research capabilities within the specialty. The general plan is one that provides a broad, basic foundation upon which the individual can build a career in teaching and research and/or in the professional direction of research animal facilities. To earn the Master's degree, each student must complete at least 30 credits of coursework at the 500 or 600 levels.

The curriculum of this training program includes:

First Year:

**COMPARATIVE MEDICINE (C MED)**

501. Biology and Care of Laboratory Animals (3)
503. * Laboratory Animal Genetics (3)
507. * Techniques of Laboratory Animal Experimentation (3)
515. Experimental Surgery of Laboratory Animals (3)
530. Diseases of Laboratory Animals I (3)
531. Diseases of Laboratory Animals II (3)
535. * Comparative Pathology (3)
590. Colloquium (1 credit per semester)
596. Independent Studies (1-3)
600. (3)

**BIOMEDICAL SCIENCES (BMS)**

591. Ethics in the Life Sciences (1)

*Courses offered every other year on an alternating basis; thus students entering program on even numbered years will take during second year.

Second Year:

**COMPARATIVE MEDICINE (C MED)**

590. Colloquium (1 credit/semester)
596. Independent Studies (up to 9 credits) for non-thesis option
600. Research project for M.S. thesis (6-9)

Students may, with the approval of the Program Director, enroll in graduate level courses offered at the Penn State College of Medicine, Penn State Harrisburg, University Park, or Penn State's World Campus.

**Thesis Research:** The submission and defense of a thesis based on an original hypothesis-driven research project is required. A minimum of 9 credits of thesis research (CMED 600) are required (a maximum of 6 credits may receive a quality grade).

**Non-thesis Option:** A non-thesis option may be elected by the student but must be approved in writing by the Program Director. A scholarly paper on a topic relevant to the fields of laboratory animal medicine or laboratory animal science must be written and presented. Up to 9 credits of independent study (CMED 596) may be earned for this work.

Last Revised by the Department: Spring Semester 2012

Faculty linked: 8/14/14
Language Science

Program in Linguistics
323 Weaver Building
814-863-7891

Degrees Conferred
Students electing this degree program through participating programs earn a degree with a dual-title at the Ph.D. level, i.e., Ph.D. in (graduate program name) and Language Science.

The following graduate programs offer dual degrees in Language Science: German and Psychology.

The Graduate Faculty

Program Objectives of the Dual-Title Degree in Language Science
A dual-title degree program in participating programs and Language Science will prepare students to combine the theoretical and methodological approaches of several disciplines in order to contribute to research in the rapidly growing area of Language Science. This inherently interdisciplinary field draws on linguistics, psychology, speech-language pathology, and cognitive neuroscience, as well as other disciplines, to address both basic and applied research questions in such areas as first and second language acquisition, developmental and acquired language disorders, literacy, and language pedagogy. Dual-title degree students will receive interdisciplinary training that will enable them to communicate and collaborate productively with a wide range of colleagues across traditional discipline boundaries. Such training will open up new employment opportunities for students and give them the tools to foster a thriving interdisciplinary culture in their own future students. The dual-title program will facilitate the formation of a cross-disciplinary network of peers for participating students as part of their professional development.

The dual-title degree program will not duplicate other degree programs in the University.

Admission Requirements
To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through one of the participating graduate degree programs (see Appendix E for admissions requirements of potential participating programs). Upon admission to one of the above programs and with a recommendation from a Language Science program faculty member in that department, the student’s application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Doctoral Degree Requirements
The dual-title Ph.D. degree in Language Science will have the following requirements.

Course work (21 credits of 500-level courses)
6 credits, Proseminar in the Language Science of Bilingualism (LING 521), Proseminar in Professional Issues in Language Science (LING 522)
3 credits, Research methods/statistics in Language Science (such as LING 525, PSY 507, PSY 508)
3 credits in theoretical linguistics (students will choose between LING 500 or LING 504)
3 credits, Cognitive Neuroscience or Psycholinguistics (such as PSY/LING 520, PSY 511)
6 credits, Research internships (students will choose one course among the following; CSD 596, GER 596, LING 596, PSY 596, SPAN 596)

Language Science Research Meetings
Students must participate in weekly Language Science Research meetings each semester in residence.

Foreign Language and English Competency Requirements
The student will fulfill the language requirement specified by the participating department through which the student is admitted to the dual-title degree program.

Candidacy Examination
In order to be admitted to doctoral candidacy in the dual-title degree program, students will take a candidacy examination that is administered by the primary program. However, the dual-title degree student may require an additional semester or more to fulfill requirements for the primary program and dual-title program; therefore, the candidacy examination may be delayed. In addition, the student will be required to present a portfolio of work in Language Science to their committee. Such a portfolio would include a statement of the student’s interdisciplinary research interests, a plan of future study, and samples of writing that indicate the student’s work in Language Science. The candidacy examination committee will be composed of faculty from the primary program, as well as at least one faculty member affiliated with Language Science. The designated Language Science faculty member may be appointed in the student’s primary program, but he or she may also hold a formal appointment with Linguistics. The Language Science member will participate in constructing and grading candidacy examination questions in the area of Language Science.

Doctoral Committee Composition
A doctoral committee consisting of at least four members of the Graduate Faculty must be appointed and will include a representative of the Language Science dual-title program. In addition, an official “outside member” must be appointed as one of the four members. The student’s doctoral committee will include faculty from the primary program as well as faculty from Language Science. Faculty members who hold appointments in both the primary program and Language Science may serve in a combined role.

Comprehensive Examination
The student’s doctoral committee will include faculty from the primary program as well as faculty from Language Science. Faculty members who hold appointments in both the primary program and Language Science may serve in a combined role. The Language Science representative(s) will help to insure that the field of Language Science is integrated into the comprehensive examination.

Dissertation

Linguistics Minor
The doctoral minor provides interested students with an opportunity to complete a program of scientific study focused on the nature, structure, and use of human language. The minor is designed to cover the foundations of the discipline of linguistics by reviewing fundamental core areas such as phonology and...
The minor requires a minimum of 15 credits, 6 of which must be at the 500 level. Nine credits are prescribed in syntax (LING 402), phonology (LING 404), and a general introduction to linguistics (LING 401), although a linguistics course at the 500 level may be substituted for LING 401 with the approval of the director of the program in Linguistics.

**Student Aid**
Most students will be funded through their primary departments, and will be considered for graduate assistantships according to the procedures of those departments. The Center for Language Science currently has two graduate assistantships for which dual-title degree students will be eligible.
Landscape Architecture (LARCH)

Program Home Page
RONALD E. HENDERSON, ASLA, Department Head
121 Stuckeman Family Building
814-865-9511

Degree Conferred:
- M.L.A., M.S., M.S. Dual-title Degree with Human Dimensions of Natural Resources and the Environment (HDNRE)

The Graduate Faculty

The Programs

M.L.A. in Landscape Architecture (Professional Degree)
The M.L.A. in Landscape Architecture program is an accredited professional degree program focused on preparation to practice landscape architecture for students who hold a bachelor's degree in another field.

M.S. in Landscape Architecture (Research Degree)
The M.S. in Landscape Architecture program is a research focused degree program designed to offer students graduate level research inquiry into landscape architecture for students who hold a bachelor's degree.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted to the program, applicants must be able to meet the following requirements:

- For admission to the M.L.A. in Landscape Architecture applicants must have completed a bachelor's degree from any discipline prior to entry into the M.L.A. program.
- For admission to the M.S. in Landscape Architecture, applicants must have completed a bachelor's degree in Landscape Architecture or a closely related discipline (e.g., geography, ecology, and anthropology).

All submissions for admission must include:

1. A graduate school application; applicants must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.
2. Evidence of creativity (portfolio or other), evidence of analytical ability (research paper or other), and an essay explaining why the individual seeks to study landscape architecture at Penn State
3. Official undergraduate transcript
4. GRE scores
5. TOEFL scores (see below)
6. 3 letters of recommendation

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination, are required for admission. At the discretion of the program, a student may be admitted provisionally for graduate study without these scores.

Students with a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 600 for the paper-based test or a total score of 100 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 8.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

M.L.A. in Landscape Architecture Degree Requirements
The M.L.A. in Landscape Architecture curriculum requires completion of 49 credits of graduate work at the 400-level and above, including a minimum of 44 credits at the 500-level and above. In addition, to fulfill the requirements of professional accreditation, students must undertake 34 credits of prerequisite classes.

Requirements for professional accreditation:

LANDSCAPE ARCHITECTURE (LARCH)
060. History of Landscape Architecture (3)
065. Built Environment and Culture (3)
231. Introduction to Design Implementation (3)
241. Vegetation Ecology and Landscape Design (3)
251. Design Visualization and Graphics I (3)
272. Landscape Architecture Field Trip (1)
331. Landscape Architectural Design Implementation III (3)
332. Landscape Architectural Design Implementation II (3)
341. Plants, People and Place: Plants in Landscape Architectural Design (3)
361W. Historic Issues in Landscape Architecture (3)
382. Professional Practice (3)
431. Landscape Architectural Design Implementation I (3)

Core Requirements for the Graduate Degree:

LANDSCAPE ARCHITECTURE (LARCH)
414. Design and Theory V: Advanced Landscape Architectural Design (10)
502. Intellectual History and Theory of Landscape Architecture (3)
M.S. in Landscape Architecture Degree Requirements

The core curriculum is a two-year research-focused 40-credit minimum program including a minimum of 18 credits at the 500-level and above. Students are required to take graduate level coursework, including graduate seminars (12 credits), graduate colloquium (4 credits), research design (3 credits), and a course in quantitative/qualitative analysis (3 credits minimum). Students must also complete a M.S. thesis.

Core graduate requirements:
- **LANDSCAPE ARCHITECTURE (LARCH)**
  - 501. Research Writing in Landscape Architecture (3)
  - 502. Intellectual History and Theory of Landscape Architecture (3)
  - 510. Graduate Seminar (3)
  - 590. Graduate Colloquium (4)
  - 600. Thesis Research (1-15)

The student and the student's adviser, subject to the approval of the departmental Graduate Program Committee, determine specific course requirements.

**Option 1: M.S. in Landscape Architecture (Community and Urban Design)**

The Community and Urban Design (CUD) Option provides students with in-depth inquiry into the theory and practice of community-based and urban design that responds to trends related to urban growth and the rise of the non-profit sector in community governance, and poverty and environmental degradation in urbanized and urbanizing areas. The intent of the CUD Option is to introduce students to theory, methods, and research surrounding specific topics in CUD. Students undertake hands-on design work and research as well as coursework in methods and computer applications, planning and policy, and ethics and society.

The CUD Option offers a topical curricular "track" within the M.S. in Landscape Architecture program. The core degree requirements for the CUD Option are the same as for the M.S.: 40 credits, comprising seminars, electives, design, and research, but focuses student core seminars and methods on CUD specific courses. Twenty-four credits of the following coursework must be completed for the CUD option:

- Depth and Hands-on Experience in Design and Research Inquiry
  - 9 credits of broadening coursework are required in the following subject areas:
    - 3 credits in Methods and Computer Applications
    - 3 credits in Community and Urban Design in Planning
    - 3 credits in Ethics and Society

Additional CUD-oriented breadth electives are recommended, but optional, within the remaining elective credits required in the M.S. in Landscape Architecture.

Students are expected to complete the requirements of the M.S. in Landscape Architecture with CUD in four semesters.

**Option 2: M.S.in Landscape Architecture (Watershed Stewardship)**

The pedagogic foundation of the Graduate Option in Watershed Stewardship is the integration of depth, breadth, and experience for each student. From their undergraduate background students will bring a focus which will be enhanced via graduate level coursework in their field. They will also be required to take graduate courses in watershed-related disciplines outside their own major: the breadth requirements. And through community focused experience of at least 8 credits of Keystone Projects (FOR 570 and FOR 571) and at least 2 credits of seminars (LARCH 510 or FOR 591A and FOR 591B), students will be challenged to analyze and understand watersheds and creatively synthesize community-appropriate solutions.

The degree requirements for Graduate Option in Watershed Stewardship are the same as those for the Master of Science in Landscape Architecture degree program with the addition of a minimum of 2 credits of FOR 591A and FOR 591B Watershed Stewardship Graduate Seminar sections focused on watershed stewardship in their first year, and at least 8 credits of FOR 570 and FOR 571 Watershed Stewardship sections for the Keystone Project in their second year.

Students in the Graduate Option in Watershed Stewardship will be required to take a minimum of 9 credits of elective coursework to ensure breadth of training in essential watershed stewardship subjects. Three credits of 400- or 500-level course work will be required from each of the following three subject categories: (1) Water Resources Sciences, (2) Social Science, Public Policy, or Economics, and (3) Humanities.

**Dual-Title Graduate Degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment**

Graduate students with research and educational interests in landscape architecture or a closely related discipline (e.g., architecture, geography, ecology, anthropology, etc.) may apply to the M.S. degree in Landscape Architecture/Human Dimensions of Natural Resources and the Environment Program. The goal of the dual-title degree Landscape Architecture and Human Dimensions of Natural Resources and the Environment graduate program is to enable graduate students from Landscape Architecture to acquire the knowledge and skills of their major area of specialization in Landscape Architecture, while at the same time gaining the perspective and methods of Human Dimensions of Natural Resources and the Environment.

This dual-title graduate degree program does not duplicate any other degree program at the University.

**Admission Requirements**

For admission to the dual-title degree under this program, a student must first apply and be admitted to Penn State's Graduate School as well as to the Landscape Architecture graduate program (M.S. degree in Landscape Architecture). Once accepted into the Landscape Architecture program, the student can apply to the Admissions Committee of Human Dimensions of Natural Resources and the Environment Program. The Human Dimensions of Natural Resources and the Environment admissions committee reviews applications and recommends students for admission to the dual-title degree program to the Graduate School.

In addition to the admission requirements for the Landscape Architecture M.S. degree program, the Human Dimensions of Natural Resources and the Environment Program also requires a minimum baccalaureate Jr/Sr grade-point average of 3.0 on a 4.0 scale.

**Degree Requirements**

To qualify for a dual-title degree, students must satisfy the requirements of the Landscape Architecture program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Human Dimensions of Natural Resources and the Environment committee. Within this framework, final course selection is determined by the student, the Human Dimensions of Natural Resources and the Environment adviser, and the Landscape Architecture program adviser.

Upon a student's acceptance by the Human Dimensions of Natural Resources and the Environment admissions committee, the student will be assigned a Human Dimensions of Natural Resources and the Environment academic adviser in consultation with the Human Dimensions of Natural Resources and the Environment chair. As students develop specific scholarly interests, they may request that a different Human Dimensions of Natural Resources and the Environment faculty member serve as their adviser. The student and adviser will discuss a program of study that is appropriate for the student's professional objectives and that is in accord with the policies of The Graduate School, the Landscape Architecture program and the Human Dimensions of Natural Resources and the Environment Program.

**Requirements for Landscape Architecture and Human Dimensions of Natural Resources and the Environment Master's degree**

The Pennsylvania State University
The Master of Science degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment is awarded only to students who are admitted to the Landscape Architecture Master of Science degree program and then admitted to the dual-title degree in Human Dimensions of Natural Resources and the Environment.

The HDNRE program requires:
A candidate for the dual-title intercollege M.S. in HDNRE must complete 17 credit hours of HDNRE coursework beyond the bachelor's degree in addition to curricular requirements for the masters' degree in the student's primary program. The HDNRE requirement includes four common courses in the HDNRE curriculum – i.e., HDNRE 590 Colloquium (2 credits), HDNRE 574 Integrated Perspectives in Human Dimensions of Natural Resources and the Environment, HDNRE 575 Ethical Issues in Human Dimensions of Natural Resources and the Environment, and R SOC 555 Human Dimensions of Natural Resources. In addition, each HDNRE student will take either ANTH 559 Human Ecology or FOR 565 GIS-Based Socio-Ecological Landscape Analysis, and one additional course selected in consultation with the student's graduate committee. The HDNRE Colloquium must be taken in each of the first two semesters of enrollment in the dual-title intercollege degree program. In addition, 6 semester credit hours of Thesis Research (in Landscape Architecture) are required.

A thesis committee for the dual-title M.S. degree will consist of two graduate faculty members from Landscape Architecture and one graduate faculty member from the Human Dimensions of Natural Resources and the Environment Program. The thesis topic itself will be an integration of both Landscape Architecture and HDNRE.

Candidates for the dual-title Master of Science degree in Landscape Architecture and Human Dimensions of Natural Resources and the Environment will also be required to pass a final defense covering the general field of Landscape Architecture and Human Dimensions of Natural Resources and the Environment Program, with emphasis on the student's area of specialization. The defense is to be administered by the student's thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate major program requirements and those of the dual-title program. Final course selection is determined by the students in consultation with their dual-title program advisers and their major program advisers.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Graduate Faculty

The Program

The Penn State Great Valley Master of Leadership Development (MLD) program is a 36-credit interdisciplinary professional program that blends the social and behavioral sciences with ethical studies to develop outstanding organizational and community leaders. As part of the School's Management Division, the program is accredited under the specialized accreditation received from the Association to Advance Collegiate Schools of Business International (AACSB). The program is designed to meet the educational needs of professionals at the middle to senior levels of management. Note that the focus of this program is different from that of the MBA offered by the School: While the MBA program provides an overview of leadership, the purpose of the MLD program is to provide an in-depth analysis of the theory and practice of authentic transformational leadership by providing an environment in which faculty and students can have a complete and open collaboration on what constitutes exemplary leadership. The MLD curriculum emphasizes strategic leadership and the creation of wealth in organizations, balancing financial measure of performance with learning and growth, and customer and external process perspectives. The program builds on the mid- and high-level managerial and administrative experience of students in order to achieve its goal of promoting positive change in individuals, teams, organizations, and communities.

The program provides training in leadership-relevant research, and some students continue on to pursue a doctoral degree. Required research may be conducted in Penn State Great Valley’s Library and Computer Center, which provide local research support as well as access to the library and computer resources of the entire Penn State system.

The MLD program is geared primarily toward the needs of part-time students who are employed full-time. Courses in the program, which are offered at Great Valley, are scheduled for the convenience of adult learners, mainly in the evening or on Saturdays.

Admission Requirements

Admission is granted only to candidates who demonstrate high promise of success for graduate work. Requirements listed here are in addition to the Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

An undergraduate and/or graduate GPA of at least 3.0 on a 4.0 scale is required for admission. It is strongly preferred that applicants present at least five years of related professional work experience.

All international applicants whose first language is not English or who have not received baccalaureate or master's degrees from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) and receive a minimum of 570 (paper score), or 230 (electronic score), or 80 points on the new Internet-based test with a minimum of 23 points on the speaking portion; or the International English Language Testing System (IELTS) with a minimum composite score of 6.5 for admission and submit the results of that test with the application for admission.

Admission decisions are based on a review of the applicant’s professional and academic accomplishments as presented in the Admissions Dossier and the quality of the applicant's credentials in relation to those of other applicants who meet the requirements for admission. A complete Admissions Dossier includes the following:

- Online application and non-refundable application fee;
- Current resume, preferably indicating at least five years of related work experience;
- Two official transcripts from each regionally-accredited college or university attended, (both undergraduate and graduate), with credit conditions equivalent to those required by Penn State; or a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution;
- Completion of two 300-word leadership essay questions developed by the faculty to assess an applicant’s logical reasoning and writing skills;
- Two confidential evaluation forms/letters of endorsement from executives or community leaders detailing their evaluation of the applicant’s leadership ability and potential.

Application Filing Dates: Penn State Great Valley's MLD program has a rolling admissions policy. Students may be admitted and enroll in classes in early September or early January. More detailed information about the program may be found at http://www.sgps.psu.edu/prospective/academicprograms/leadership/mld.admission.ashx. More detailed information about the application process and the application requirements may be found at http://www.sgps.psu.edu/prospective/academicprograms/leadership/mld.admission.ashx.

Degree Requirements

Thirty-six (36) credits are required to complete the MLD degree. A series of leadership cornerstone (12 credits) and leadership competency courses (9 credits) are required to provide all MLD students with a common body of knowledge. Leadership Context courses (12 credits) and a Capstone course (3 credits) round out the program.

Leadership Cornerstone courses (12 credits) provide a foundation for leadership development studies. They include: LEAD 561 (Dynamic Communication in Leadership Contexts), MGMT 573 (Corporate Innovation Strategies or SYSEN 550 (Creativity, Innovation, and Change) or BUSAD/LEAD 519 (Developing Creative High Performance Organizations)), and [BUSAD 534 (Ethical Dimensions of Management in the Biotechnology and Health Industry) or PHIL 597 (Ethical Dimensions of Leadership) or BUSAD 576 (Ethical Issues in Information Technology)].

Leadership Competency courses (9 credits) build a foundation for effective leadership communication, creativity/innovation, and moral development. They include: LEAD 561 (Dynamic Communication in Leadership Contexts), MGMT 573 (Corporate Innovation Strategies or SYSEN 550 (Creativity, Innovation, and Change) or BUSAD/LEAD 519 (Developing Creative High Performance Organizations)), and [BUSAD 534 (Ethical Dimensions of Management in the Biotechnology and Health Industry) or PHIL 597 (Ethical Dimensions of Leadership) or BUSAD 576 (Ethical Issues in Information Technology)].

Leadership Context courses (12 credits) provide an overview of the situations in which leadership processes are embedded. They include: LEAD 562 (Strategic
Leadership), [BUSAD 551 (Business Environment) or BUSAD 530 (Biotechnology and Health Industry Overview)], and a choice of 2 context-specific electives (6 credits).

All students must complete a capstone course that provides students with an opportunity to enact what they have learned in their course work in the context of promoting positive change in their community, LEAD 582 (Social Entrepreneurship and Community Leadership).

**Student Aid**

There are a limited number of scholarships, fellowships, and graduate assistantships available. For more information on these, contact the Financial Aid Office at Penn State Great Valley.

Most students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To learn more about payment options for students who receive employer tuition reimbursement benefits, or for more information on other payment options that may be available to you, contact the Great Valley Financial Aid Office, 610-648-3311.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**BUSINESS ADMINISTRATION (BUSAD) courses**

**INTERNATIONAL BUSINESS (IB) courses**

**LEADERSHIP (LEAD) courses**

**MANAGEMENT (MGMT) courses**

**SYSTEMS ENGINEERING (SYSEN) courses**

Literacy Education (LEDUC)

Program Home Page
LAURA ROY, Program Coordinator
Penn State Harrisburg
Middletown, PA 17057
717-948-6213

Degree Conferred:
M.Ed.

The Graduate Faculty

The Program
The Master of Education in Literacy Education at Penn State Harrisburg is designed to provide full-time and part-time graduate students with a focused program of study in the field of reading education. The program is aligned with the standards of the Pennsylvania Department of Education. Following successful completion of the program, students are eligible to take the Praxis examination for certification as a reading specialist (K-12). Specifically, the goals of the program are to develop in students: (1) specialized, in-depth knowledge about the teaching of reading and writing; (2) the clinical skills necessary for diagnosing and intervening with reading disabled students; (3) the ability to interpret and to evaluate literacy research; (4) the leadership skills necessary to support the professional practices in a K-12 setting; (5) provide rigorous offerings aligned with the standards of the International Reading Association (IRA) and the National Council for the Accreditation of Teacher Education (NCATE); and (6) prepare students for the complexities they will face as reading specialists in schools serving the K-12 population.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Admission
The M.Ed. Program in Literacy Education has five important admission requirements.

First, candidates must have achieved an overall junior/senior grade point average of 3.00 or higher. For candidates applying for admission who have completed credits beyond the baccalaureate degree, we will evaluate the last (approximately) 60 credits completed.

Second, candidates must submit two letters of recommendation. These letters must be from former professors or professionals who can attest to the academic ability and potential of the candidate.

Third, candidates must submit a 200-300 word personal statement that addresses their career goals and reasons for pursuing a graduate degree.

Fourth, candidates must have a valid Pennsylvania Teaching Certificate and present evidence that they have completed a course in the methods of teaching reading such as EDUC 320 (Methods in Teaching Beginning Readers) or 321 (Methods in Teaching Intermediate and Advanced Readers) with a grade of C or better.

Fifth, candidates must submit test scores from one of the following: Graduate Record Examination, Miller Analogies Test, or Praxis examinations completed for certification.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Retention
Candidates must maintain a minimum 3.00 grade point average, satisfactorily complete all required key assessments, attain a grade of "C" or better in all required core courses. Candidates who do not make satisfactory progress will be notified in writing noting the specific deficiencies and requesting that they meet with the program coordinator to develop a remediation plan. Failure to meet or to satisfactorily complete the remediation plan will result in termination from the program.

All persons enrolled in Teacher Education Programs at Penn State Harrisburg are expected to demonstrate the professional dispositions that are aligned with the unit's vision statement. The faculty shall evaluate the approved dispositions demonstrated by the candidates in class and during field experiences. Candidates may be rated as exemplary, acceptable, or unacceptable. Candidates are expected to attain acceptable or exemplary ratings in order to graduate.

Degree Requirements
The Master of Education degree in Literacy Education consists of 42 credits that prepare candidates for the Pennsylvania Reading Specialist Certification (K-12). The degree requirements for the Master of Education in Literacy Education includes 36 credits in foundational, pedagogical, and advanced theoretical work in reading, writing and educational research design and a 6 credit capstone clinical practicum for a total of 42 credits. A minimum grade-point average of 3.00 for work done at the University and acceptable or higher ratings on the professional dispositions are required for graduation.

Prescribed Core Course Requirements (39 Credits)
EDUCATION (EDUC)
422. Literature for Children and Adolescents (3)
425. Literacy Assessment (3)
452. Teaching Writing (3)
466. Foundations of Teaching English as a Second Language (3)
471. Best Practices in Literacy (3)
477. Teaching Struggling Readers and Writers (3)
561. Psychology of Reading (3)

The Pennsylvania State University
Electives

(Choose 3 credits from the following)

Students can choose either one of two electives in the program. Both elective courses (ENGL 409 or EDUC 432) require specialized study in the teaching of writing. ENGL 409 (taken concurrently with EDUC 452) will allow the student to complete a writing fellowship with the Capital Area Writing Project. Or, EDUC 432 allows for the in-depth study of writing through children’s literature.

EDUC 432 Children’s Literature in the Writing Curriculum (3)
ENGL 409 Composition Theory and Practice for Teachers (3)

Transfer Credits

Subject to the limitations given below, a maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master's degree. However, credits earned to complete a previous master’s degree, whether at Penn State or elsewhere, may not be applied to a second master’s degree program at Penn State. The student should distinguish carefully between the transferability of credit and its applicability in a particular degree program. Approval to apply any transferred credits toward a degree program must be granted by the student’s academic adviser, the program head or graduate officer, and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School of Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university. Pass-fail grades are not transferable to an advanced degree program unless the “Pass” can be substantiated by the former institution as having at least B quality.

A maximum of 15 graduate credits taken as a nondegree student prior to admission to a graduate degree program may be applied to a graduate program, with departmental approval. The credits must have been earned within five years preceding entry into the degree program.

Forms for transfer of credit can be obtained from the graduate program office.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit courses below the 400 level in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Labor and Global Workers' Rights

MARK S. ANNER, Professor in charge

Degree Conferred:
- Master of Professional Studies (M.P.S.)

The Graduate Faculty
- Mark S. Anner, Ph.D. (Cornell) Associate Professor of Labor and Employment Relations, and Political Science
- Paul F. Clark, Ph.D. (Pittsburgh) Professor of Labor and Employment Relations
- Sarah Damaske, Ph.D. (NYU) Assistant Professor of Labor and Employment Relations
- Alan Dirschon, Ph.D. (California, San Francisco) Professor of Labor and Employment Relations, and History
- Niki Dickerson von Lockette, Ph.D. (Michigan) Associate Professor of Labor and Employment Relations, and Sociology.
- Ryan Lamare, Ph.D. (Cornell) Assistant Professor of Labor and Employment Relations
- Helen Liu, Ph.D. (Cornell) Assistant Professor of Labor and Employment Relations
- Paul Whitehead, J.D. (Harvard) Professor of Practice of Labor and Employment Relations

Labor and Global Workers’ Rights is a 30-credit Master of Professional Studies (M.P.S.) program of study for professionals working in the area of global labor and workers’ rights issues who would like to continue or pursue a career working on global labor and worker rights with a national or international labor union or a related organization, such as a labor research institute.

Admission Requirements:
Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students who do not have a GPA of 3.0 or higher will be considered on a case-by-case basis depending on the quality of their overall application. Applicants who are still completing their baccalaureate/postsecondary requirements at the time of application may be admitted to the Graduate School provisionally based on the awarding of the baccalaureate degree. Students are also expected to have a minimum of three years of full-time work experience in some area related to labor unions or worker-oriented research/employment for admission. Exceptions may be made by the program chair.

Admissions decisions for the program are based on the quality of the applicant’s credentials as determined by a review of the complete application portfolio. During the admission process, students who seem better suited for a different graduate program will be encouraged to apply to the appropriate program. Applicants to the MPS in LGWR must submit the following materials:
- Completed online Penn State Graduate School graduate degree application and payment of the application fee;
- A 2-3 page essay articulating career and educational goals that demonstrates the applicant’s written communication skills. Documentation of a minimum of three years of full-time work and a resume should be attached as a supplement;
- Three letters of recommendation that attest to the applicant’s readiness for graduate study and document the requisite minimum of three years of work experience;
- Two official transcript(s) of all institutions attended;
- Because the language of instruction at Penn State is English, international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.
- International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following countries: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Graduate Record Examination (GRE) scores are not required.

Degree Requirements
Total Required Credits for the MPS: 30 credits at the 400-level or higher; at least 18 credits must be at the 500 or 800 level, with at least 6 credits at the 500 level. A culminating experience is required (3 credits of LGWR 894 are included in the 30 total required credits).

Prescribed Courses: 21 credits
HRER 500. Topics in Comparative Industrial Relations (3)
HRER 513. Research Methods in Human Resources and Employment Relations II (3)
LER 475H. Labor in the Global Economy: U.S. and South African Perspectives (3)
LGWR 510. International Labor Law (3)
LGWR 520. Global Workers’ Rights (3)
LGWR 895. Internship (3) [strongly recommended]; or LGWR 596: Individual Studies (3) or other 3 credit course approved in advance by the program chair.
LGWR 894. Capstone Experience (3)

Elective Courses: Take 9 credits from the following list,
HIST 556. Social Movements in the Twentieth-Century US (3)
HRER 504. Seminar in Employment Relations (3)
HRER 512. Research Methods in Human Resources and Employment Relations I (3)
HRER 516. Labor Market Analysis (3)
HRER 536. Diversity in the Workplace (3)
LER 435. Labor Relations in the Public Sector (3)
LER 437. Workplace Dispute Resolution (3)
LER 458Y. History of Work in America (3)

Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Lasted Revised by the Department: Spring Semester 2014
Blue Sheet Item #: 42-06
Review Date: 04/08/2014

The Pennsylvania State University
Mechanical Engineering (M E)

KAREN A. THOLE, Head of the Department of Mechanical and Nuclear Engineering
137 Reber Building
814-865-2519

Degrees Conferred:
- Ph.D., M.S.
- Integrated B.S. and M.S. in Mechanical Engineering

The Graduate Faculty

The Programs

Graduate programs and research facilities are available in combustion, heat transfer, fluid mechanics, energy storage, dynamic system analysis, robotics, mechanical design, energy systems, biomedical applications, and micro-nano applications. Air pollution control, automotive safety, tribology, designing for noise control and for reliability also provide many research and design opportunities.

Admission Requirements

To maintain a high quality program, it is important that our students are also of a caliber to succeed. As such, the admission requirements for the students enrolling in the online program will not differ from those of our resident students. Online students will only be accepted into the program with approval from the Department’s Admissions Committee. Within the Department, the ME Admissions Committee (made up of ME Graduate Faculty) will provide recommendations to the Professor-in-Charge of Graduate Studies on accepting students to the MSME degree program. It is expected that students have a Bachelor of Science degree in a suitable engineering field from an ABET accredited institution. Admission decisions will also be based upon relevant work experience and recommendation letters.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Degree Requirements

The M.S. degree program is designed for students to gain advanced knowledge for research, analysis, and design in mechanical engineering. Resident students pursuing an M.S. degree may choose one of two options: completion of 24 course credits and the submission of a thesis (6 credits) to the Graduate School, or 30 course credits and the submission of a scholarly paper to the department. The M.S. degree program is also offered on-line in which only the 30 course credits and the submission of a scholarly paper is permitted. The requirements for the M.S. M.E degree program are:

1. Minimum of 30 course credits at the 400 level or higher, of which 20 course credits must be earned at Penn State. Note that 2 additional credits are required by enrolling in the M E 590 Colloquium but these 2 additional credits do not count toward the 30 course credits. The required course credits must be completed with a grade point average of 3.00 or higher.

2. All students must successfully complete two credits of M E 590 Colloquium preferably in their first two semesters in the program. These two colloquium credits do not count toward the 30 course credits in Requirement 1 above.

3. At least 18 credits in 500- and 600-level courses.

4. A minimum of 12 credits in 400- and 500-level courses in Mechanical Engineering, excluding M E 410, 440W, 441W, 442W, 443W, 450, and any other required undergraduate courses. M E 596 cannot be used to fulfill this requirement.

5. The MSME requires three credits of mathematics. These credits must be taken from the following group of courses: E MCH 524A, E MCH 524B, M E 512, M E 550, and all 400- and 500-level MATH courses (MATH 4XX, MATH 5XX) except MATH 419, 427, 428, 435, 451, 455, 456, 461, 470, 471, 475, 475W, 482 and 484. Courses with a specific focus on numerical analysis will not count toward the mathematics requirement.

6. A thesis or paper must be presented to meet the specific requirement of the culminating experience type selected; the paper may take the form of a doctoral research proposal if agreed upon in advance by the student and the graduate adviser. Online students seeking an MSME degree will only be permitted to write a paper.

7. Preparatory course(s) required for teaching assistants (such as ENGR 888), remedial courses, and any courses required in our undergraduate program are not counted toward degree requirements.

CULMINATING EXPERIENCE OPTION A - M.S. THESIS
Candidate registers for a minimum of six credits of M E 600 or M E 610 and submits a thesis following the procedures specified by the Graduate School. This program will consist of at least 24 course credits of which 18 credits must be at the 500 level (not including M E 596), and six thesis credits. At least 12 credits must be 400- or 500-level Mechanical Engineering courses.

CULMINATING EXPERIENCE OPTION B - M.S. PAPER
Candidate registers for 30 course credits of which 18 credits must be at the 500 level. A maximum of three credits of M E 596 can be counted in the total of 30 credits. At least 12 credits must be 400- or 500-level Mechanical Engineering courses. Candidates write a paper on a topic mutually agreed upon by the adviser suitable for publication in a professional journal or presentation at a national or international conference.

The Ph.D. program emphasizes scholarly research and helps students prepare for research and related careers in industry, government, and academia. Students are admitted to candidacy after passing written and oral examinations. The Ph.D. program is quite flexible, with minimal formal requirements. The Ph.D. is awarded upon completion of a program of advanced study that includes a minimum period of residence, a satisfactory dissertation, and the passing of comprehensive and final oral examinations as determined by the student’s doctoral committee.

Generally, a Ph.D. student must have 30 credits above a master's degree before taking the comprehensive examination.

The Pennsylvania State University
**Integrated B.S. and M.S. in Mechanical Engineering**

A limited number of undergraduate students in the B.S M.E program will be considered for admission to the integrated undergraduate/graduate program leading to the B.S. M.E and the M.S. M.E degrees. Students with a junior standing in the B.S. M.E degree program may be admitted to the integrated B.S.M.E./M.S.M.E. program, following a positive review of an application specific to this program by the faculty committee on graduate admissions. Students must have attained a GPA of at least 3.0. Students admitted to the integrated program must maintain a GPA in all classes used toward the M.S. M.E degree of at least 3.0.

**Student Aid**

Graduate students are supported by a variety of government and industry fellowships, traineeships, and research and teaching assistantships. Stipends vary depending on the source. Competition for support is extremely keen; however, outstanding students are considered for attractive offers of support, including various fellowships specifically for new students in the College of Engineering. By completing the department’s application for financial assistance, you will automatically be considered for a graduate assistantship. To receive full consideration for financial aid, all application materials should be submitted by December 15.

**Courses**

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

814-865-3070; commgpo@psu.edu

Degree Conferred:
Ph.D.

The Graduate Faculty

Doctoral Degree Requirements

The Ph.D. Program in Mass Communications is administered by the College of Communications. All students seeking admission to the program are required to submit Graduate Record Examination scores, transcripts of all previous undergraduate and graduate work, and three letters of recommendation from individuals qualified to comment on their ability to perform successfully at the doctoral level. Students whose native language is not English must present a minimum TOEFL score of 600 to be considered for admission. In most cases, a completed master's degree is required for admission to the program. In addition, applicants are required to submit a formal statement indicating what they expect to achieve and how their educational background qualifies them for doctoral-level study in mass communications. Admission decisions are made by the college admissions committee.

Requirements listed above are in addition to general Graduate School requirements listed in the GENERAL INFORMATION section of the Graduate Bulletin.

Students admitted to the doctoral program must complete a candidacy examination. For students with a master's degree or equivalent, this examination ordinarily will occur before the student has completed 10 credits of doctoral-level work. For individuals admitted with only a baccalaureate degree and no graduate-level work, the candidacy examination will be administered after 30 credits and before 40 credits of graduate-level work, have been completed.

The committee designated to conduct the examination will determine whether the student's knowledge of mass communications is adequate for doctoral-level study, specify what deficiencies, if any, must be removed, and pass judgment on a proposed plan of study.

The program requirements include both semesters of the Mass Communications Proseminar (COMM 501.1 and COMM 501.2), a foundation course and other courses selected by the student, with committee approval, that collectively constitute a coherent sequence appropriate to the advanced study of mass communications. Students are expected to take a minimum of 20 credits in communications-related courses. No more than 6 credits can be taken as independent study credits. Students also are required to take at least one course in research methods approved by the doctoral committee. Upon completion of the course work approved for the plan of study, the candidate will take a comprehensive examination. Following the comprehensive examination, doctoral candidates schedule a dissertation proposal meeting at which the research plan for their dissertation is reviewed and approved by their committee. Upon completion of the dissertation, doctoral candidates present a final oral defense of their dissertations before their committees.

The communication and foreign language requirement for the Ph.D. degree may be satisfied by intermediate knowledge of one foreign language or by an equivalent research skill relevant to the student's field of study.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

SVETLANA KATOK, In Charge of Graduate Programs in Mathematics
104D McAllister Building
814-865-7529
gradstudies@math.psu.edu

Degrees Conferred:

The Graduate Faculty

Graduate courses in all the principal branches of mathematics are offered regularly each year. The department is prepared to direct research in a variety of fields, including various branches of analysis, algebra, topology, number theory, applied analysis, and mathematical logic and foundations.

Admission Requirements

Scores from the Graduate Record Examinations Aptitude Test (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

To be admitted to the Ph.D., D.Ed., or M.A. program without undergraduate deficiency, an applicant should have completed at least 18 credits in mathematics at the advanced undergraduate level (400 series or their equivalents). The undergraduate student is urged to take at least 6 credits in foundations of analysis (MATH 401), 6 in modern algebra (MATH 435 and MATH 436), and 3 in topology (MATH 429) or their equivalents. These courses are essential preparation for the graduate program, and if they are taken after admission, a maximum of 6 credits may be counted toward an advanced degree.

Students with a 3.00 junior/senior average and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students.

Students applying to the graduate program in mathematics for whom English is not their native language are required to have a score of at least 550 (paper-based test), 213 (computer-based test), or a total score of 80, with a score of 19 on the speaking section (Internet-based test), on the Test of English as a Foreign Language (TOEFL) examination. The results of this examination must be submitted along with other requested items before the application deadline date.

Master's Degree Requirements

For the M.A. degree the department offers two options: (1) the thesis option requires 12 credits of approved 500-series course in mathematics, 6 to 9 credits of thesis, sufficient credits in approved 400- or 500-series courses to make a total of 30 credits, and a final oral examination based on the thesis and general course material; and (2) the nonthesis option requires 18 credits of 500-series courses in mathematics, sufficient credits in approved 400- or 500-series courses to make a total of 30 credits, and a term paper on an approved topic in mathematics. No final examination is given in this option. Under this option a student may also elect to take a minor in applied mathematics (9 credits with at least 6 at the 500 level) and may use these credits toward the necessary 30 credits. For both options, a grade of A or B is required in all courses.

To be admitted to the M.Ed. program without undergraduate deficiency, an applicant should have completed at least 15 credits in mathematics at the intermediate level beyond calculus. The M.Ed. program does not require any 500-series courses, but the student is encouraged to select some at this level. Special courses have been instituted for the training of teachers. Among these are MATH 470 and MATH 471. These are acceptable to satisfy credit requirements only for the M.Ed. degree.

Doctoral Degree Requirements

All doctoral students are required to take three qualifying examinations. Two of these examinations must be completed prior to the beginning of the student's second year of graduate study, and the third prior to the beginning of the third year. The qualifying examinations are in the areas of analysis, algebra, and topology/geometry.

The qualifying examinations are given twice a year--after the end of the spring semester and before the beginning of the fall semester. Basic, one-year sequences are offered in each subject annually to help students prepare for the examinations. Typically, an entering Ph.D. student takes two of the basic sequences in the first year and the third basic sequence in the second year of study, and takes the qualifying examinations in the spring after completing the corresponding courses. If an examination is failed, the student must take it again. Students who fail a qualifying examination in a given subject twice may not continue in the Ph.D. program.

Entering Ph.D. students may take one or more of the qualifying examinations on arrival in August without penalty. If they fail a pre-entrance exam, they still have two more opportunities to pass it. Entering Ph.D. students are advised to take at least two basic sequences (in the subjects they did not pass qualifying exams in on arrival) and the subsequent qualifying exams in the first year of graduate study.

After passing all three qualifying exams, students are expected to select a thesis adviser and form a doctoral committee. The committee administers the comprehensive exam (no later than the end of the seventh semester of study) and offers counsel of the student as his research progresses.

Other Relevant Information

Students in this program may elect the dual-title degree program in Operations Research for the Ph.D. degree. (See also Operations Research.)

Further information about the graduate program in Mathematics may be found at the following website: www.math.psu.edu/grad.

Student Aid

Graduate assistantships available through this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

- Evangelos Manias, Ph.D. Virginia and Philip L. Walker Faculty Fellow; Assistant Professor of Materials Science and Engineering
- William D. Mark, Professor of Mechanical Engineering; Senior Scientist
- Theresa S. Mayer, Associate Professor of Electrical Engineering
- Julian D. Maynard, Jr., Distinguished Professor of Physics
- Russell F. Messier, Professor of Engineering Science and Mechanics
- Gary L. Messing, Professor of Ceramic Science and Engineering; Head, Materials Science and Engineering
- Suzanne E. Mohney, Ph.D. Associate Professor of Materials Science and Engineering
- Arthur M. T. Motta, Ph.D. Associate Professor of Nuclear Engineering
- Karl T. Mueller, Ph.D. Associate Professor of Chemistry
- Michael J. Natan, Ph.D. Professor of Chemistry
- Robert N. Pangborn, Ph.D. Professor of Engineering Mechanics; Associate Dean
- Carlo Pantano, Ph.D. Distinguished Professor of Materials Science and Engineering; Director, Materials Research Institute
- Seung-Eek Park, Ph.D. Professor of Materials

The Pennsylvania State University
The intercollege program in Materials Science and Engineering provides an opportunity for the student interested in the structure, properties, and behavior of solid materials to obtain an integrated program of courses encompassing both the necessary fundamentals of chemistry, physics, and mathematics and their technological and engineering applications.

The program is designed to encourage graduate study and research that cut across the traditional engineering disciplines and scientific inquiry related to materials. Faculty members associated with the program come from several colleges and many research centers at the University.

In order to maintain focus for the selection of core courses and for the administration of the comprehensive examination, formal options have been established (i.e., Materials Science and Materials Engineering). These options differ in the specification of core courses and in the focus of the research. Other program requirements are common for the two options.

**Admission Requirements**

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the graduate dean of the Graduate School, are recommended but not required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Entering students should hold a bachelor's degree in chemistry, physics, mathematics, geological science, engineering, ceramics, or metallurgy, or in a closely related field that will have included in it mathematics at least through integral calculus and a minimum of one year of physics and one year of chemistry. Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. Exceptions to the 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. The applicant should be interested specifically in an interdisciplinary program of study and research.

**Master's Degree Requirements**

The program for the M.S. degree must include a total of 30 credits as outlined in the GENERAL INFORMATION section of the Graduate Bulletin. The candidate must prepare a thesis proposal and list of courses for approval by the program faculty constituting the student's M.S. committee. A thesis describing original work performed by the student shall be written and defended before the M.S. committee.

**Doctoral Degree Requirements**

Acceptance into the Ph.D. program is based on the student's performance on the Ph.D. candidacy exam administered by a rotating committee of program faculty. The examination is designed to evaluate the student's potential for original and successful Ph.D. research and is composed of a written proposal and oral presentation. Detailed plans for thesis research and course work consistent with the student's declared option are to be presented to the Ph.D. committee following successful completion of the candidacy exam, and the student is to present periodic progress reports to the committee until the thesis is defended. Near the end of the period of formal course work, each student will take a comprehensive exam. The examination consists of a written part administered by a rotating committee of program faculty, based on specific areas of knowledge depending on the chosen option, and an oral part, administered by the candidate and Ph.D. committee, that will emphasize an understanding of both fundamentals and the student's area of specialization. At the culmination of the Ph.D. research experience, each candidate must write a thesis, present it to his/her Ph.D. committee, and defend it at a public, oral presentation, followed by an examination by the committee. All candidates must demonstrate proficiency in English in both written and oral form, which is established formally in conjunction with the candidacy exam.

**Other Relevant Information**

Seminar series are offered on various materials topics under the course listing MATL 590 Colloquium, and students are encouraged to enroll in these courses or to take their place in seminar courses offered by other departments. The program offers instruction on special topics under the designation MATL 597, or students may explore such areas individually under a faculty member's supervision, receiving credit under the designation MATL 596.

The research on various aspects of the solid state may be conducted in the Intercollege Materials Research Laboratory, Applied Research Laboratory, or appropriate departments in the Colleges of Earth and Mineral Sciences, Engineering, or Science. A wide variety of experimental facilities for materials research are available.

**Student Aid**

Assistance is provided by the program office in identifying and applying for fellowships and scholarships from internal and external sources, and in

SUZANNE MOHNEY, Chair, Intercollege Graduate Degree Program in Materials Science and Engineering; Professor of Materials Science and Engineering
101 Steidle Building
814-867-4792

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program

The Intercollege Graduate Degree Program in Materials Science and Engineering offers comprehensive graduate education in the fundamentals of materials science (synthesis-structure-property-performance relationships). Faculty have interests in many research areas including biomaterials, ceramics, composites and hybrids, computational materials science, electronic and photonic materials, materials chemistry and physics, metals, nanostructured and nanoscale materials, piezoelectrics and ferroelectrics, polymers and soft materials. Students may choose to study across the major themes of materials today including materials in energy applications, nanotechnology, materials in medicine, materials in communications, materials for sensor applications, structural materials, etc., by using a combination of MATSE courses and a myriad of materials-related courses offered in the science and engineering departments at Penn State.

Admission Requirements

Scores for the Graduate Record Examinations (GRE) are required for admission, though this requirement may be waived at the discretion of the departmental graduate admission committee. The best-qualified applicants will be accepted up to the number of spaces available for new students. The degree requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Master's Degree Requirements

The graduate program for the M.S. degree must include a total of at least 30 credits. Subject to the approval of the graduate program coordinator, a maximum of 10 credits of high-quality graduate work done at a regionally accredited U.S. institution may be applied toward the requirements for the master's degree. A minimum of 6 research credits (MATSE 600) is required. The minimum number of formal course credits (excluding seminar MATSE 590) required is 18 for all students at the 500-level or higher. The instructional program includes three required graduate core courses in materials including Thermodynamics of Materials (MATSE 501), Kinetics of Materials Processes (MATSE 503) and Principles of Crystal Chemistry (MATSE 512).

Doctoral Degree Requirements

The general requirements are based upon a period of residence, the writing of a satisfactory thesis and its acceptance by the doctoral committee and the Graduate School, and the passing of the comprehensive examination. A doctoral program consists of a combination of courses, seminars, and research that fulfills the minimum requirements of the Graduate School and is approved by the doctoral committee for each individual student. A master's degree is not a prerequisite for the doctorate. However, the first year of graduate study leading to the Ph.D. may be the same as that provided for the M.S. degree.

Acceptance into the Ph.D. program is based on the student's performance on the Ph.D. candidacy exam, which is administered by a graduate candidacy exam committee of the department. Although there is no specified requirement by the graduate school for the number of course credits for a Ph.D. degree, the department requires a minimum of 18 credits of 500-level courses for completing a doctoral degree. The instructional program includes three required graduate core courses in materials including Thermodynamics of Materials (MATSE 501), Kinetics of Materials Processes (MATSE 503) and Principles of Crystal Chemistry (MATSE 512). Additional specific courses are determined by the student and the adviser in consultation with the student's doctoral committee. A student with a M.S. degree from Penn State can use the 500-level credits earned during his or her M.S. study to fulfill the course requirements. Upon approval by the doctoral committee and the graduate program coordinator, a student with an M.S. degree from another U.S. institution or officially recognized degree-granting institution.

Student Aid

Top graduate applicants will be automatically nominated for a number of graduate fellowships and top-up awards in the department, including the University Graduate Fellowship as well as several industry-sponsored assistantships. Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Molecular, Cellular and Integrative Biosciences (MCIBS)

The Graduate Faculty

- Raj Acharya, Ph.D. (Minnesota) Professor of Computer Science and Engineering
- Latvan Albert, Ph.D. (Notre Dame) Associate Professor of Biochemistry and Molecular Biology
- Rikh Albert, Ph.D. (Notre Dame) Assistant Professor of Physics
- Naomi Altman, Ph.D. (Stanford) Associate Professor of Statistics
- Sarah Ades, Ph.D. (MIT) Associate Professor of Biochemistry and Molecular Biology
- Charles Anderson, Ph.D. (Stanford) Assistant Professor of Biology
- Raquel Assis, Ph.D. (Michigan) Assistant Professor of Biology
- Sarah Assmann, Ph.D. (Stanford) Professor of Biology
- Craig Baumrucker, Ph.D. (Purdue) Professor of Animal Nutrition/Physiology
- Arthur Berg, Ph.D. (California, San Diego) Assistant Professor of Public Health Sciences and Statistics
- Philip Bevilacqua, Ph.D. (Rochester) Professor of Chemistry
- Ottar Binnsland, Ph.D. (Oslo) Professor Entomology
- David Blizard, Ph.D. (University of Wales) Senior Research Associate
- John Brown, Ph.D. (Virginia) Assistant Professor of Biochemistry and Molecular Biology
- Craig Cameron, Ph.D. (Case Western) Berg Professor of Biochemistry and Molecular Biology
- Margherita Cantorna, Ph.D. (Wisconsin, Madison) Professor of Molecular Immunology
- John Carlson, Ph.D. (Illinois) Professor of Molecular Genetics; Petz Center for Tree Molecular Genetics
- Laura Carrel, Ph.D. (Stanford Reserve) Assistant Professor of Biochemistry and Molecular Biology
- Isabella Cafladori, Ph.D. (Stirling, UK) Assistant Professor of Biology
- Douglas Cavener, Ph.D. (Georgia) Professor and Department Head of Biology
- Gong Chen, Ph.D. (Shanghai) Professor of Biology
- Keith Cheng, M.D.; Ph.D. (NYU, U Washington) Professor of Pathology; Adjunct Professor of Biochemistry and Molecular Biology
- Francesca Chiaramonte, Ph.D. (Minnesota) Associate Professor of Statistics
- Surinder Chopra, Ph.D. (Vrije U of Brussels, Belgium) Associate Professor of Maize Genetics
- Barbara Christ, Ph.D. (British Columbia) Professor of Plant Pathology
- Daniel Cosgrove, Ph.D. (Stanford) Professor of Biology
- Diana Cox-Foster, Ph.D. (Illinois) Professor of Entomology
- Liwang Cui, Ph.D. (Kentucky) Professor of Entomology
- Michael Delsting, Ph.D. (Michigan) Assistant Professor of Biology
- Claude de Pamphilis, Ph.D. (Georgia) Associate Professor of Biology
- Francisco Diaz, Ph.D. (Wisconsin, Madison) Assistant Professor of Reproductive Biology
- Su Min Sohn, B.S. (University of Novi Sad Medical School, Serbia) Associate Professor of Pediatrics and Biochemistry and Molecular Biology
- Patrick Drew, Ph.D. (Brandeis) Assistant Professor of Neural Engineering
- Edward Dudley, Ph.D. (Wisconsin, Madison) CASIDA Development Professor of Food Science
- Robert Eckhardt, Ph.D. (Michigan) Professor of Developmental Genetics and Evolutionary Morphology
- Gregory Ferry, Ph.D. (Illinois) Stanley Person Professor of Molecular Biology
- Michael F. Foilad, Ph.D. (California, Davis) Professor of Plant Genetics
- Katherine Freeman, Ph.D. (Indiana) Professor of Geosciences
- David Geiser, Ph.D. (Georgia) Associate Professor of Plant Pathology
- Gayle Green, Ph.D. (Penn State) Professor of Biochemistry and Molecular Biology
- Debashis Ghosh, Ph.D. (Washington) Professor of Statistics
- David Gilmore, Ph.D. (Cornell) Professor of Molecular and Cell Biology
- Senthosh Giri, Ph.D. (Michigan) Assistant Professor of Biochemistry and Molecular Biology
- Adam Glyk, Ph.D. (Yale) Associate Professor of Veterinary Science
- Christina Grozinger, Ph.D. (Harvard) Professor of Entomology
- Ying Gu, Ph.D. (California, Riverside) Assistant Professor of Biochemistry and Molecular Biology
- Mark Guilbault, Ph.D. (California, Irvine) Professor of Plant Molecular Biology; Director, Endowed Program in the Molecular Biology of Cocoa
- William Hancock, Ph.D. (Washington) Professor of Bioengineering
- Pam Hankey, Ph.D. (George Washington) Professor of Veterinary Science
- Wendy Hanna-Rose, Ph.D. (Harvard) Associate Professor of Biochemistry and Molecular Biology
- Ross Hardison, Ph.D. (Iowa) Professor of Biochemistry
- Eric Harvill, Ph.D. (California, Los Angeles) Professor of Microbiology and Infectious Disease
- S. Blair Hedges, Ph.D. (Maryland) Professor of Biology
- Heather Hines, Ph.D. (Illinois, Urbana-Champaign) Assistant Professor of Biology and Entomology
- Vasant Honavar, Ph.D. (Wisconsin—Madison) Professor and Frymoyer Chair, Information Sciences and Technology
- Kelli Hooper, Ph.D. (California, Davis) Professor of Entomology
- Jun (Tony) Huang, Ph.D. (California, Los Angeles) Associate Professor of Engineering Science and Mechanics
- Peter Hudson, F.R.S. (UK) Williams Professor of Biology; Director, Huck Institutes of the Life Sciences
- David Huff, Ph.D. (California, Davis) Professor of Entomology
- Timothy Jegla, Ph.D. (Washing University School of Medicine, St. Louis) Assistant Professor of Biology
- Alan Johnson, Ph.D. Professor of Reproductive Biology; Walter H. Ott Professor in Avian Biology
- Vandana Kalia, Ph.D. (Pittsburgh) Assistant Professor of Veterinary Science
- Helen Kamb, Ph.D. (Oregon) Assistant Professor of Biobehavioral Health
- Seogchang Kang, Ph.D. (Wisconsin) Associate Professor of Plant Pathology
- Sagaka Kanjilal, Ph.D. (Penn State and Calcutta University) Associate Professor of Pharmacology and Experimental and Biomedical Sciences
- Vinc K. K. Ph.D. (Penn State) Professor of Veterinary and Biomedical Sciences
- Fumiko Kawasaki, Ph.D. (Okayama University, Kawasaki Medical School, Japan) Assistant Professor of Biology
- Kenneth Keler, Ph.D. (MIT) Associate Professor of Biochemistry and Molecular Biology
- Mary Kennett, Ph.D. (University of Missouri, Columbia) Professor of Veterinary and Biomedical Sciences; Director, Animal Resource Program
- George Kesidis, Ph.D. (California, Berkeley) Professor of Computer Science Engineering
- Dan Kifer, Ph.D. (Cornell) Assistant Professor of Computer Science Engineering
- Girish Kirmanjekwara, Ph.D. (Penn State) Assistant Professor of Veterinary and Biomedical Sciences
- Alexey Kozihevnikov, Ph.D. (Yale) Assistant Professor of Physics and Psychology
- Matam (Vijay) Kumar, Ph.D. (Central Food Technological Research Institute, India) Assistant Professor of Nutritional Sciences and Medicine
- Zhi-Chun Lai, Ph.D. (Albert Einstein College of Medicine) Professor of Biology and Biochemistry & Molecular Biology
- Todd Lajunesse, Ph.D. (California, Santa Barbara) Associate Professor of Biology

The Pennsylvania State University
The Intercollege Graduate Degree Program (IGDP) in Molecular, Cellular, and Integrative Biosciences (MCIBS) is designed to prepare researchers across an array of specializations in the biological sciences that share an emphasis on trans-disciplinary training, an approach that considers the whole organism and spans subsequent training of the next generation of researchers for academic, industrial, non-profit foundation, government, and other research entities in the biomedical sciences. Researchers will be trained across a wide range of specializations in the biological sciences that share the goal to elucidate mechanisms of action at the molecular, cellular, and organismal level, including disease.

The program currently offers educational and research emphasis areas in Cell and Developmental Biology; Immunology and Infectious Disease; Molecular and Biomedical Sciences. Researchers will be trained across a wide range of specializations in the biological sciences that share the goal to elucidate mechanisms of action at the molecular, cellular, and organismal level, including disease.

biochemistry and molecular biology of cellular processes; ethics; and current research topics related to the diverse pathological mechanisms that underlie disease etiologies in humans and animals. In addition, students take specialized courses associated with one of the above programmatic emphasis areas or the option, as well as elective courses that complement and support their research interests and foci.

Calling upon the expertise of an extensive list of life science research faculty members representing an array of different departments across multiple colleges, the IGDP in MCIBS offers a unique opportunity to learn about and work in multiple bioscience disciplines. The MCIBS graduate program is supported by modern telecommunications facilities and equipment, and students not only explore new conceptual connections at the frontiers of research, but also engage in active group learning experiences and explore a variety of potential career opportunities before graduation.

General Admission Requirements

Review of completed applications begins December 1 of each year. Applicants to the Ph.D. program only are considered for admission. Required application materials include:

1. Completed official Penn State Graduate School application (online).
2. Paid, nonrefundable application fee (see Requirements for Graduate Admission for current fee).
3. Two official transcripts from each institution attended.
4. Application for a U.S. visa (international applicants only).
5. Graduate Record Examination (GRE) General Test; successful applicants generally have scores above the 75th percentile for each of the verbal, quantitative, and analytical writing sections.
6. Names and contact information, including business email addresses, for three references.
7. Statement of goals that pertain to the life sciences including motivation for pursuing a research doctorate; research experience and interests; and professional goals. The statement should include biological problems that are of interest to the applicant and how the applicant’s past experiences have prepared him or her to pursue this research.
8. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 575 for the paper-based test, or a total score of 90 with a 21 on the speaking section for the Internet-based test. Applicants with iBT speaking scores between 15 and 20 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) with attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.
9. An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Successful applicants generally will have completed coursework in biochemistry, molecular and/or cell biology, physics, chemistry (organic and inorganic), and calculus with a minimum 3.5/4.0 Jr./Sr. undergraduate grade point average.

Degree Requirements

1. Core Curriculum (Required of all Students in MCIBS):

Core Required Courses:

<table>
<thead>
<tr>
<th>First Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCIBS 590 Colloquium (2 cr)</td>
<td>2</td>
</tr>
<tr>
<td>MCIBS 591 Ethics in the Life Sciences (1 cr)</td>
<td>1</td>
</tr>
<tr>
<td>BIOL 593* Experiential Teaching in Biology (2 cr)</td>
<td>2</td>
</tr>
<tr>
<td>MCIBS 596 Individual Studies (for Research Rotations) (1 cr)</td>
<td>1</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>After First Semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCIBS 592 Current Research Seminars (2 cr)</td>
</tr>
<tr>
<td>MCIBS 600 Thesis Research</td>
</tr>
<tr>
<td>MCIBS 601 Ph.D. Dissertation (post-Comprehensive only)</td>
</tr>
<tr>
<td>Total Required Core Credits</td>
</tr>
</tbody>
</table>

*Students in the BG Option are not required to complete BIOL 593 during their first semester, but are required to complete this course prior to undertaking the required semester of TA experience (see additional requirement below). [Note to curricular reviewers: a course proposal to establish this permanent course number (BIOL 593) has been submitted in the Course Submission and Consultation System (CSCS); the course has been offered as a special topics course pre-approval and positive feedback.]

2. Emphasis Areas: The IGDP in MCIBS offers curricular/research specializations in the following Emphasis Areas:

- Cell and Developmental Biology
- Immunology and Infectious Disease
- Molecular and Evolutionary Genetics
- Molecular Medicine
- Molecular Toxicology

Specialized Courses and Research for Emphasis Areas: To complete an emphasis any of the areas listed above, students take a minimum of 9 credits of specialized coursework, in addition to the required Core and Additional courses (indicated above and below, respectively), and conduct original research associated with the respective Emphasis Area. Specialized courses for each Emphasis Area are listed on the IGDP in MCIBS website [program URL to be inserted once the website has been finalized. Note to curricular reviewers: Appendix B contains a general outline of the curricular information specific to each Emphasis Area that will appear on the website].

3. Bioinformatics and Genomics (BG) Option: The IGDP in MCIBS also offers an option in Bioinformatics and Genomics. In addition to the Core required courses described above, to complete an Option in Bioinformatics and Genomics, students must take a minimum of prescribed coursework and conduct original research associated with Bioinformatics and Genomics. Prescribed courses for the BG Option for students at University Park and in the College of Medicine are listed in #4 below.

The Pennsylvania State University
Students admitted to the BG option will be tested for their knowledge in STAT 500-Applied Statistics (3 credits), BIOL 405-Molecular Evolution (3 credits) and BMIB 852-Applied Bioinformatics (2 credits). Those found deficient will be required to register for these courses (UP) or equivalent courses (HY) during the first 18 months in the program.

4. Additional Course Requirements:

"Base" Program (All Emphasis Areas):
MCIBS/BIO/BMIB/VB SC 503 Critical Elements of Genetics and Molecular and Cellular Biology (4 credits)
(taken the first semester in the program)

Quantitative Foundation Course (> 3 credits): 400- or 500-level courses in a quantitative area such as statistics, genetics, bioinformatics, etc. (e.g., STAT 501 Regression Methods; STAT 502 Analysis of Variance and Design of Experiments; STAT 503 Design of Experiments; Population Genetics; etc. - See emphasis area course lists for specific suggestions [program URL to be inserted once the website has been finalized]).

Prescribed Base Program Credits: 7

Specialized Courses - To complete an emphasis in any of the areas listed above, students take a minimum of 9 credits of specialized coursework in the respective Emphasis Area. Specialized courses for each Emphasis Area are listed on the IGDP in MCIBS web site [program URL to be inserted once the website has been finalized. Note to curricular reviewers: Appendix B contains a general outline of the curricular information specific to each Emphasis Area that will appear on the website].

Specialized Course Credits: 9

Total Additional Credits: 16

MINIMUM TOTAL COURSE CREDITS
(CORE PLUS ADDITIONAL): 24

Option in Bioinformatics and Genomics (Prescribed Option-Specific Courses):
IBIOS/BMIB 551. Genomics (3 credits)
IBIOS 541. Critical Analysis of Bioinformatics and Genomics Research Topics (1 credit per offering; 2 credits required) IBIOS/BIO/STAT 555. Statistical Analysis of Genomics Data (3 credits)
IBIOS/BMIB 554. Foundations in Data Driven Life Sciences (3 credits)

Prescribed Option-Specific Credits: 11

Elective Courses - In addition to the above prescribed courses, students electing the BG Option in MCIBS must take > 5 credits of 400- or 500-level elective courses relevant to their research and career interests from an extensive list (see the BG Graduate Student Handbook) contingent upon approval in advance by their adviser and doctoral committee, in consultation with the BG Option Director. Available elective courses may vary from year to year.

Elective Course Credits: 5

Total Additional Credits: 16

MINIMUM TOTAL COURSE CREDITS
(CORE PLUS ADDITIONAL): 24

5. Teaching Experience - All graduate students in MCIBS are required to have one semester of teaching experience by serving as a teaching assistant (TA) in an undergraduate course (400-level or lower) in a bioscience-related field. Teaching assistant opportunities are arranged in consultation with the adviser and program chair.

M.S.-specific Degree Requirements

Master’s students must take a minimum of 30 credits (24 of core, specialized/prescribed, and elective courses for the selected Emphasis Area or Option, as described above, plus at least 6 credits of MCIBS 600, Thesis Research). At least 18 credits in 500- and 600-level courses combined must be included in the program. A minimum of 24 credits in course work (400, 500, and 800 series), as contrasted with research, must be completed in the major program.

Master’s student must complete at least 6 credits of thesis research (MCIBS 600), and up to 6 of the MCIBS 600 credits may be assigned a quality grade (A-F). In consultation with the adviser, the student must select a thesis committee of at least three members, including the adviser, write a thesis, and defend the thesis. The final master’s thesis that is accepted by the student’s thesis committee must be submitted as an eTD to and approved by the Graduate School. If all course credits and requirements are met, a student does not need to be registered for classes while writing and/or defending his/her thesis. Students must present their thesis in accordance with Graduate Council and Graduate School guidelines as described in the THESIS GUIDE: Requirements for the Preparation of Master's Theses and Doctoral Dissertations.

Ph.D.-specific Degree Requirements

Coursework:
Ph.D. students must take a minimum of 24 credits of core, specialized/prescribed courses, and electives for the selected Emphasis Area or Option, as described above. At least 18 credits in 500- and 600-level courses combined must be included in the program. A minimum of 24 credits in course work (400, 500, and 800 series), as contrasted with research (MCIBS 600), must be completed in the major program. Additional course work is left to the discretion of the student and adviser.

English Competence:
Candidates for all doctoral degrees are required to demonstrate high-level competence in the use of the English language, including reading, writing, and speaking, as part of the language and communication requirements for the doctorate. This will be assessed for both domestic and international students as part of the candidacy exam, which includes a reading and original writing component. Should deficiencies be identified at the candidacy examination, students will be required to complete remedial activities, including additional English and communication courses. Competence must be formally attested by the program before the doctoral candidate’s comprehensive examination is scheduled. (Note: Passage of the minimal TOEFL or IELTS requirement does not demonstrate the level of competence expected of a doctoral degree candidate and for conferral of a doctorate from Penn State.)

Candidacy Exam:
All Ph.D. students in the IGDP in MCIBS must take a candidacy exam no later than the fall semester of the second year. The purpose of the exam is to ensure that students have mastered the core concepts necessary to proceed further towards the Ph.D. The exam consists of both written and oral components, and is based primarily on the students’ ability to critically read, understand, and communicate the key findings of a current research paper selected from the literature.

Doctoral Committee:
Upon successful completion of the Candidacy Examination, the student in consultation with his/her adviser will, as soon as possible, select a doctoral committee. The committee must meet Graduate Council guidelines for the composition of doctoral committees. This committee is responsible for supervising the academic program and monitoring the progress of the student towards his/her degree. It is the charge of this committee to assure that the student carries out a substantial piece of independent research and presents it as a dissertation.

Comprehensive Examination:
The Comprehensive Examination is administered and evaluated by the entire Doctoral Committee when the student has completed substantially all required coursework, and is intended to determine the feasibility of the student’s proposed research and the preparedness of the student to embark on his/her dissertation research. Students must be registered for classes (typically MCIBS 600) the semester they take this exam. The examination will consist of a...
written research proposal using an NRSA or NSF format, based upon the student’s proposed dissertation research, and an oral presentation of the proposed research. The proposal must include a timeline for the completion of the work that will be considered in the feasibility of the work.

**Dissertation:**

All Ph.D. candidates must conduct original research and prepare a dissertation that makes a significant contribution of new knowledge, is presented in a scholarly manner, and demonstrates an ability on the part of the candidate to do independent research of high quality. The contents and conclusions of the dissertation must be defended at the time of the final oral examination.

Students must present their dissertation in accordance with Graduate Council and Graduate School guidelines as described in the [Thesis Guide](#). **Requirements for the Preparation of Master's Theses and Doctoral Dissertations.**

**Final Oral Examination:**

The final examination of the doctoral candidate is an oral examination administered and evaluated by the entire doctoral committee. It consists of an oral presentation of the dissertation by the candidate and a period of questions and responses. These will relate in large part to the dissertation, but may cover the candidate's entire program of study, because a major purpose of the examination is also to assess the general scholarly attainments of the candidate. The portion of the examination in which the dissertation is presented is open to the University community and the public; therefore, it is expected that the examination will take place at University Park or the Hershey campus.

Information regarding Graduate Council requirements for the Ph.D., including the establishment of a doctoral committee; candidacy, comprehensive, and final oral examinations; and submission of a dissertation of original research in the field can be found in the [Graduate Degree Programs Bulletin](#). **Additional Requirements:**

All MCIBS graduate students must maintain a cumulative grade-point average of > 3.0 to remain in good academic standing. Furthermore, the Ph.D. student must have a 3.0 to take the doctoral candidacy, the comprehensive and the final oral examinations. One or more failing grades (F) or a cumulative grade-point average below 3.0 will be considered evidence of unsatisfactory scholarship and may be grounds for dismissal from the program.

**Courses:**

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Last Revised by the Department: Summer Session 2014

Blue Sheet Item #: 42-07-000

Review Date: 6/10/2014

Faculty updated: 9/18/14

The Pennsylvania State University
Media Studies (MEDIA)

The Pennsylvania State University

Integrated B.A./M.A. in Media Studies

The Program

The master's degree in Media Studies is an academic program that involves students in the systematic study of media. The objective of the course of study is to enable students to achieve a comprehensive understanding of the systems, networks, cultures, and information associated with media. The program prepares students for doctoral study in communications and for professional positions in business and government requiring a comprehensive understanding of the historical, social, and political implications of the media. This program helps prepare students to organize research projects, critically evaluate research reports, and directly influence media practices by the application of research findings.

Admission Requirements

Applications will be reviewed by the appropriate subset of members of the Graduate Committee of the college. from faculty with whom they have worked. One faculty member must be from the College of Communications. Students are expected to apply after evaluation of the student's transcript, examples of completed writing and research projects, a narrative statement of objectives, and two letters of support.

The College of Communications offers academically qualified students enrolled in a bachelor of arts program in the College of Communications the opportunity to earn both the B.A. and the M.A. upon completion of five years of study. The Integrated Undergraduate-Graduate Program in Media Studies would facilitate the advanced study of communications research and thesis development through a carefully organized selection of undergraduate courses, graduate seminars and directed research projects. The program would accelerate and enhance undergraduate students' appreciation for graduate level scholarship by involving them in the seminars, research activities, and the scholarly discourse of the college's community of master's- and doctoral-level scholars.

For the IUG Media Studies B.A./M.A. degree, a minimum of 120 credits is required for the B.A. and 36 credits for the M.A. Twelve graduate-level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these must be at the 500 level. If for any reason a student admitted to the B.A./M.A. program is unable to complete the requirements for the master of arts degree program in Media Studies, the student will be permitted to receive the B.A. degree, assuming all degree requirements have been satisfactorily completed.

Integrated B.A./M.A. in Media Studies

Degree Conferred:

- M.A.
- Integrated B.A./M.A. in Media Studies

Applicants to the Integrated program

- Must present an approved plan of study in the application process.
- Must provide a narrative statement of objectives and two letters of endorsement from faculty with whom they have worked. One faculty member must be from the College of Communications.
- Must present an approved plan of study in the application process.

Program of Study

The Pennsylvania State University
The Integrated B.A./M.A. degree in Media Studies is an academic program that involves students in the systematic study of media. The objective of the course of study is to enable students to achieve a comprehensive understanding of the systems, networks, cultures, and information associated with media. The program prepares students for doctoral study in communications and for professional positions in business and government requiring a comprehensive understanding of the historical, social, and political implications of the media. This program helps prepare students to organize research projects, critically evaluate research reports, and directly influence media practices by the application of research findings. The program is specifically not intended for advanced professional education.

Undergraduate tuition rates will apply as long as the student is in undergraduate status, unless the student receives financial support, such as an assistantship requiring the payment of graduate tuition.

Degree Requirements
For the IUG Media Studies M.A. degree, a minimum of 120 credits is required for the B.A. and 36 credits for the M.A. At least 18 of the required 36 credits must be at the 500 level. Twelve graduate-level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these double-counted credits must be at the 500 level. A minimum of 12 credits of coursework, as opposed to research credits, must be completed in Communications. COMM 515 and COMM 506 or COMM 511 are required. IUG students will prepare a thesis proposal in consultation with their advisers and are required to present the final thesis in a formal oral defense meeting to a committee of at least three members of graduate faculty, two of whom must be members of the college faculty. It is encouraged that one member of the committee be from outside the college.

Student Aid
Graduate assistantships and other forms of student aid available to students in this program are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Meteorology (METEO)

Program Home Page
DAVID J. STENSRUD, Head of the Department
503 Walker Building
814-863-7714
grad-admissions@meteo.psu.edu

Degrees Conferred:
- Ph.D., M.S.
- Integrated B.S./M.S. Program in Meteorology

The Graduate Faculty

The graduate program embraces topics that span atmospheric processes from those of the planetary boundary layer to those of the upper atmosphere, that encompass phenomena with molecular to planetary dimensions, and that range from practical to theoretical significance. The program develops and integrates approaches based on observational, computational and analytical techniques.

The major interests of the faculty and graduate students center on (1) analysis, modeling, and prediction of the evolution of synoptic-scale, or mesoscale weather systems, particularly those of significant impact on human activities; (2) observation and theoretical study of processes related to transmission of radiation through the atmosphere, including remote sensing through use of electromagnetic or acoustic systems; (3) laboratory, and theoretical study of trace gases, particulates, and clouds and their consequences for air quality and climate; and (4) observation and theoretical study of atmospheric physics on a variety of scales, including phenomena of weather and climate, boundary layer physics, turbulence, convective systems, and severe storms; (5) weather risk.

The department encourages interdisciplinary studies and is expanding its programs in biometeorology, climate dynamics, atmospheric pollution prediction, atmospheric carbon cycling, forecast reliability and verification, mathematical study of fluid dynamical systems, and integrated atmosphere-ocean studies. The department is affiliated with the Earth and Environmental Sciences Institute, which conducts studies in Earth system science, including climate, large-scale dynamics, oceanography, and regional assessments.

For the M.S. program, a minimum of 34 credits is required. For the Ph.D. program, a minimum of 8 course credits and 1 credit/semester of METEO 590 until passage of the comprehensive exam.

Admission Requirements

The Meteorology program is open to all students with a baccalaureate degree and a strong interest in the atmospheric sciences. A degree in meteorology, science, mathematics, or engineering provides a particularly good background, although the department has had some students with arts and humanities degrees (such as Art History) who have done well. The minimum course requirements for admission are mathematics at least through differential equations and at least one year of calculus-based physics. Scores from the Graduate Record Examinations (GRE) are required for the evaluation of all applicants. Requirements listed here are in addition to general graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the program, the departmental admission committee considers courses taken, grade-point average, three letters of recommendation, GRE scores, professional experience, and English proficiency. Rather than setting rigid standards in each category, the committee examines the overall record as a whole. The best-qualified applicants are accepted up to the number of spaces that are available for new students.

Generally, additional mathematics and physics beyond the minimum requirements listed above, as well as courses in statistics, chemistry, and computer programming, will strengthen the student's application. Courses in meteorology are not required for admission. Most students admitted to the graduate program have GPA's of 3.50 or higher; particularly good grades in the sciences are desirable. Three recommendations are solicited from persons familiar with the student's academic competence, and the student is required to write a letter summarizing interests and goals. The General Test package containing the Mathematical Reasoning Test of the GRE is required of all applicants. A verbal and quantitative combined score of 1200 or greater is typical for the department's students.

All international applicants must submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT).

International applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires taking the Pennsylvania State American English Oral Communicative Proficiency Test (AEOCPT) upon first enrollment and, if necessary, remedial course work (ESL 115G, ESL 117G, and/or ESL 118G). The minimum composite score for the IELTS is 6.5.

International applicants who have received a baccalaureate or masters degree from a college, university, or institution in any of the following countries are exempt from the TOEFL requirement: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, or Wales.

Note: All international students, with the exceptions just noted, who matriculate in our program must take the Pennsylvania State American English Oral Communicative Proficiency Test (AEOCPT) upon first enrollment. A score below 250 on the AEOCPT leads to student enrollment in ESL 115G, ESL 117G, and/or ESL 118G, as necessary. For more information regarding the AEOCPT see http://apling.la.psu.edu/academicPrograms/ita_whatisAEOCPT.php

Master of Science (M.S.) Degree Requirements

The M.S. degree is offered with thesis or research paper options, both requiring 34 credits.

For both options, a core curriculum is required that is composed of METEO 520 (3 credits), 521 (3 credits), 531 (3 credits), 533 (3 credits), 580 (1 credit), 590 (1 credit/semester; minimum of 2 credits) and 591 (1 credit) that is supplemented by 6 elective credits from 500-level Meteorology courses, for a total of 22 credits.

All students must take a minimum of 12 additional elective credits for a total of 30 credits, which are distributed as follows. Students in the M.S. thesis option must select 6 additional credits from 400- and 500-level course work in Meteorology or related disciplines, and 6 quality-rated credits of METEO 650 (quarter-time toward the graduate point average). Students in the M.S. paper option must select 6 of the additional credits from 400- and 500-level course work in Meteorology or related disciplines if not used as electives above. METEO 600 credits cannot be used to fulfill any portion of these additional paper-option credits.

All M.S. students defend their thesis or paper in a public presentation that is evaluated by, and must be approved by, the students' committee. A minimum of three signatures is required for a M.S. thesis, including the thesis adviser and the department head or program chair.

M.S. Minor

For a minor in Meteorology, an M.S. student must select 6 credits of 500-level Meteorology courses in a course plan approved by the department.

Doctor of Philosophy (Ph.D.) Degree Requirements

Studies for the Ph.D. degree are designed to accommodate the interests and capabilities of the candidate, and they are overseen by a doctoral committee, which also administers comprehensive and final oral examinations. Before being admitted to Ph.D. candidacy, a student must have the academic support of a...
The Pennsylvania State University

Faculty member and the student must pass the Ph.D. candidacy examination that is typically offered once each year. The exam must be taken within one year of being admitted to the program. If a student does not pass the exam on their first attempt, then a second attempt is allowed at the time the student completes a M.S. degree in our graduate program.

A student must take METEO 591 (1 credit) the first semester it is available upon matriculating in the program. METEO 580 (1 credit) must be taken prior to the department's competency exam in written and spoken technical English. METEO 580 and METEO 591 will be waived as required classes if a student has taken them or equivalent courses before matriculating in the Ph.D. program. A minimum of 6 elective credits from METEO 500-level (other than METEO 501, 520, 521, 531, 533, 580, 590, 591) or RELATED DISCIPLINE 400- or 500-level courses must be taken that do not count toward any other degree requirement and finished by the semester in which the comprehensive exam is passed. One credit of METEO 590 is required each semester until the comprehensive exam is passed. A student must pass the department’s competency exam in written and spoken technical English before being admitted to the comprehensive exam. There are no minimal credit requirements for quality-graded METEO 600 (research credits whose grades count toward the grade-point average); students may earn up to 12 quality-graded METEO 600 credits. The student is expected to master the material in the M.S. core courses (METEO 520, 521, 531, and 533), but need not take those courses for credit.

**Dual-Title Graduate Degree in Astrobiology (ABIOI)**

Students interested in the emerging field of Astrobiology may wish to obtain a Dual-Title Graduate Degree in Astrobiology and Meteorology. The pursuit of this dual title entails additional course work beyond the degree requirements set forth here (see the Graduate Bulletin, Astrobiology, for further details concerning their course and other program requirements), as well as the participation of at least one Astrobiology program faculty member on the dissertation committee. The Astrobiology representative, who assists with the selection of courses, may be the adviser and have an appointment in Meteorology. The Ph.D. candidacy exam for dual-title students will be administered by Meteorology but with a component of it from the Astrobiology representative, or others related to this dual-title graduate degree, that assesses their potential in the field of Astrobiology. The field of Astrobiology will also be integrated into the comprehensive examination. A Ph.D. dissertation that contributes fundamentally to the field of Astrobiology is required. A public oral presentation of the dissertation is required.

Ph.D. Minor

For a minor in Meteorology, Ph.D. students should select 15 credits of 500-level Meteorology courses in a course plan approved by the department.

**Other Relevant Information**

The program differentiates between instruction and research topics appropriate for M.S. students seeking positions of advanced responsibility in government or industry, those appropriate for M.S. students anticipating further study, and those appropriate for Ph.D. candidates who will work in advanced research laboratories or academic institutions.

**Student Aid**

Graduate assistantships available through this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. Most graduate students are supported with teaching or research assistantships.

**Courses**

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**METEOROLOGY (METEO) course list**

**NOTE:** Courses in the use of X-ray diffraction, electron microscopy, and spectroscopy in meteorological studies are listed under MATERIALS SCIENCE.

**Integrated B.S./M.S. Program in Meteorology**

The Department of Meteorology offers an integrated B.S./M.S. program, also called the Integrated Undergraduate-Graduate (IUG) program, that is designed to allow academically superior students to obtain both the B.S. and the M.S. degree in Meteorology in five years of study. In order to complete the program in five years, students interested in the IUG program in Meteorology must apply for admission to the Graduate School and the IUG program by the end of their junior year.

During the first three years, the student will follow the course scheduling of one of the options in the B.S. degree, normally the Atmospheric Sciences or the General Option (see the Undergraduate Bulletin). Students who intend to enter the IUG program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG Program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.S. advising committees appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected B.S. Meteorology Option, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their theses or papers that are designed to meet the requirements of the M.S. degree in Meteorology. During the fifth year, IUG students take courses fulfilling the departmental M.S. degree requirements and complete their M.S. theses or papers. Typical scheduling plans for students pursuing the General or Atmospheric Sciences Options are given on the departmental Web site http://www.met.psu.edu. If a plan similar to one of these plans is followed, then the student will have completed all requirements for the B.S. in Meteorology by the end of the fourth year. If, for some reason, a student cannot complete the integrated program, the student will be able to receive the undergraduate degree upon completion of all of the B.S. requirements. Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student receives financial support, for example, via an assistantship requiring the payment of graduate tuition.

**IUG Program Admission Requirements**

Students who wish to complete the IUG program in Meteorology should apply for admission to both the Graduate School and the IUG program by no later than the end of their junior year. In this case, successful students will be admitted formally into the graduate program in Meteorology just prior to their senior year. If their program has been satisfactory, admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the Associate Head of the Department of Meteorology graduate program, who will determine the necessary criteria for all applicants. These criteria include the setting of the minimum required scores on the GRE and minimum cumulative GPA for consideration, the receipt of recommendation letters from three faculty and a letter of support from the department head, and the identification of an adviser who is willing to oversee the student's research project. Evidence of significant research potential must be provided in the application.

**IUG Program Degree Requirements**

The total degree requirements are as follows: The new program will fulfill the present rigorous requirements of the existing M.S. Program. In particular, all IUG students must defend their theses or papers, as do all M.S. students, in a public presentation toward the end of their graduate program.

**B.S. Degree Portion:**

- **TOTAL B.S. REQUIREMENTS: 121 credits (12 double-counted with the M.S. Requirements)**

**General Education:** 45 credits, 24 of which are included in the REQUIREMENTS FOR THE MAJOR

**Requirements for the Major (All Options): 75 credits**

- **Prescribed Courses:** 56 credits
- **Additional Courses:** 19 credits

**Requirements for the General Option:** 18-19 credits

**M.S. Degree Portion:**
TOTAL M.S. REQUIREMENTS: 34 credits (12 double-counted with the B.S. Requirements)

Prescribed Courses: METEO 520, 521, 531, 533, 580, 590, 591 (16 credits)

Additional Courses: 18 credits

- 6 credits of 500-level course work
- 6 credits of 400- or 500-level course work
- 6 credits of METEO 600 (thesis option)
- or 6 credits of 400- or 500-level course work (paper option)

Last Revised by the Department: Fall Semester 2010
Blue Sheet Item #: 39-03-107
Review Date: 11/9/2010
Faculty linked: 6/20/14
Admission Requirements

In addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin, the School of Music requires the completion of a recognized baccalaureate degree in music or music education, with a junior/senior grade-point average of 2.80 or higher (on a 4.00 scale), but admission to the D.M.A. requires a grade point average of 3.00. Admission to the M.Mus. program requires an audition or the submission of compositions, or a list of works studied in preparation for conducting (depending on the specific degree); admission to the M.M.E. program requires the completion of 12-15 credits in music education methods at the undergraduate level and successful teaching or student teaching experience; admission to the Ph.D. requires an interview, submission of videotapes of teaching or conducting, scores from the Miller Analogies Test, and a portfolio of requested documents; admission to the M.A. program requires scores from the Graduate Record Examinations (GRE General Test), and evidence of scholarly writing on a musical topic. Information on additional requirements for entrance to the various degree programs can be obtained from the School of Music office. Admission to the B.A. degree program requires an audition; admission to the M.M.E. program requires an audition in person or by video recording of an extensive memorized program; students admitted to this program must perform musically at least at the level required to complete the degree Master of Music at Penn State, and must show potential ability to perform professionally. Additional requirements include an interview in person or by interactive video to assess language skills in addition to the University's requirement of specific performance on the TOEFL (550 on the paper test, 213 on the computer-based test, or 80 points on the new Internet test with a minimum of 20 on the new speaking portion) or alternatively, the International English Language Testing System (IELTS) with a minimum of 6.5.

Master's Degree Requirements

The School of Music offers three master's degrees; the Master of Arts, the Master of Music Education, and the Master of Music.

The Master of Arts in Music offers three tracks, in Music Theory (32 credits), Musicology (32 credits), and Music Theory and History (34 credits). All three tracks provide an interdisciplinary approach to the field of music scholarship, a hallmark of our program, and all tracks require a thesis. The track in Music Theory offers preparation in current methods of research and analysis from a music theoretical perspective. The track in Musicology emphasizes the development of a broad knowledge of music of all periods and, at the same time, cultivates one or more areas of specialization. The track in Music Theory and History provides greater breadth by integrating theoretical analytical, and historical approaches to musical styles and works. A reading knowledge of German or another appropriate language must be demonstrated before thesis credit may be scheduled. In the Master of Arts degree program, at least 18 credits must be at the 500 level or higher, and a comprehensive examination is required.

The Master of Music Education degree provides the opportunity for advanced study in music, music learning and teaching, and teaching as reflective practice. The program requires one full-time year of residency at the University Park campus, and is designed to be completed in one academic year plus two summer semesters. Fulfillment of degree requirements includes successful completion of 30 credits of course work that includes a final action research project and resultant substantial article-length paper, followed by an oral presentation focusing on the candidate's projects and course work. This presentation, including questions posed by the faculty committee, serves as the final comprehensive examination. (Twenty credits must be earned at the University Park campus and 18 credits must be at the 500-level or higher, with at least 6 credits at the 500 level.)

The Master of Music degree (36 credits) offers four majors: Performance, Composition/Theory, Conducting, Pedagogy and Performance (piano and voice tracks). The M.Mus. in Performance offers three separate curricula with areas of emphasis in Voice, Keyboard, or Orchestral Instruments. Depending on the area of emphasis, a recital, a composition project, or a conducting project is required. For the M.Mus. in Performance with emphasis in voice or keyboard, a master's recital is required, in addition to either a master's paper or lecture-recital. For the M.Mus. in Performance (orchestral instruments), a master's recital is required. For the M.Mus. in Composition/Theory, a composition project and a master's paper are required. The M.Mus. in Conducting offers three areas of emphasis: Orchestral, Choral, or Band/Wind Ensemble. A performance project and a master's paper are required. For the M.Mus. in Pedagogy and Performance, a master's recital is required, in addition to either a master's paper or lecture-recital. In the Master of Music degree program, at least 18 credits must be at the 500 level or higher, with at least 6 credits at the 500 level, and a comprehensive examination is required.

Doctoral Degree Requirements: Ph.D. in Music Education

The Ph.D. in Music Education is designed to provide opportunities for the highest level of scholarly study in the processes of teaching and learning music. Candidates are expected to develop and test new knowledge in the field of music education while preparing themselves for positions in higher education or other leadership roles within the profession. A candidacy exam, a doctoral thesis, and comprehensive written and oral examinations are required.

Doctoral Degree Requirements: D.M.A. major in Piano Performance

The Doctor of Musical Arts is offered with a major in Piano Performance. Four semesters in residence are required. The degree is designed to provide students with a thorough background of preparation and experience in professional-level performance and in the literature of the instrument, while becoming sufficiently knowledgeable about the discipline of music as a whole, in order to teach at the collegiate or university level. This background knowledge would include, but not be limited to, music theory, analysis, and history. Sixty credits are required beyond the Master of Music; if an exceptional student is admitted before completion of a prior Master of Music degree, the student will complete a total of 30 credits in categories equivalent to those required for the M.Mus., in addition to the 60 required for the D.M.A. A candidacy examination will follow upon two semesters completed in residence. Minimum course requirements (post-Master's degree) include sixteen credits (four semesters at 4 credits/semester) of Keyboard 580J applied music instruction; four credits of advanced ensembles; 10 credits of literature and pedagogy in the major area; and 18 credits in the broader discipline of music. The comprehensive examination will occur upon the completion of course work, before the final recital. The culminating experience of the D.M.A. degree is public performance: three memorized solo recitals are required (the final recital is prepared independently), and two recitals of chamber music. Although no written thesis is required, a lecture-recital is required, with a pre-approved monograph text.
The School of Music sponsors many musical ensembles, and candidates for performance degrees are required to participate in positions of responsibility. All candidates for degrees are expected to be in residence for a minimum of two semesters, except that D.M.A. candidates must be in residence for at least four semesters.

The School of Music is an accredited institutional member of the National Association of Schools of Music.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Music: Integrated Undergraduate-Graduate Degrees

The School of Music offers two Integrated Undergraduate-Graduate degree programs: one that combine the B.A. in Music with the M.A. in Music, and one that combines the B.M. in performance with the M.A. in Music. This enables a select number of students to further their research interests at the undergraduate and graduate levels. By the end of the five-year program students receive two degrees, a B.A. in Music and an M.A. in Music, or a B.M. in Performance and an M.A. in Music.

Candidates for these Integrated Undergraduate-Graduate degrees must demonstrate a high level of aptitude and achievement in academic core courses and be highly motivated to pursue research projects with faculty.

Modeled after a similar program in the Schreyer Honors College, this IUG program enables gifted music students to double count credits in two degree programs. As a result they will have developed a research focus during their fourth and fifth years, which will help them prepare for entry into doctoral programs at other institutions.

For further information about the two Integrated Undergraduate-Graduate degree programs, including application procedures and degree requirements, see the School of Music website and click on the "Prospective Students" link.

MUSIC COURSES

Individualized instruction is offered in six categories covering eighteen instruments:

- **Brass (BRASS)**: Trumpet, french horn, trombone, euphonium, tuba
- **Keyboard (KEYBD)**: Piano, organ
- **Strings (STRNG)**: Violin, viola, violoncello, double bass
- **Woodwinds (WWNDS)**: Flute, oboe, clarinet, bassoon, saxophone
- **Percussion (PERCN)**
- **Voice (VOICE)**

Instruction is offered for each instrument in three different modes: Secondary for 1 credit, Secondary for 2 credits, and Performance for 4 credits.

The Performance mode is available only to M.Mus. (Performance) students in their major areas. All other students take Secondary for 1 or 2 credits.

Applied music fees are required for individual instruction: $175 per instrument for a 1-credit course, $250 per instrument for a 2-, 3-, or 4-credit course. A complete list can be obtained from the School of Music office.

**MUSIC (MUSIC)**

- *503. CONCERT CHOIR (1 per semester, maximum of 4)
- *504. CHAMBER SINGERS (1 per semester, maximum of 4)
- *505. SYMPHONIC WIND ENSEMBLE (1 per semester, maximum of 4)
- *506. SYMPHONIC BAND (1 per semester, maximum of 4)
- *507. PHILHARMONIC ORCHESTRA (1 per semester, maximum of 4)
- *508. CHAMBER ORCHESTRA (1 per semester, maximum of 4)
- *509. CENTRE DIMENSIONS (1 per semester, maximum of 4)
- *510. BRASS CHOIR (1 per semester, maximum of 4)
- *511. PERCUSSION ENSEMBLE (1 per semester, maximum of 4)
- *520. CHAMBER MUSIC FOR STRINGS (1-4)
- *521. CHAMBER MUSIC FOR WOODWINDS (1-4)
- *522. CHAMBER MUSIC FOR BRASS (1-4)
- *523. SONATA DUOS (1)
- 560. CHORAL CONDUCTING (2-4 per semester, maximum of 16)
- 561. ORCHESTRAL CONDUCTING (2-4 per semester, maximum of 8)
- 562. BAND/WIND ENSEMBLE CONDUCTING (2-4 per semester, maximum of 16)
- **565. STUDIO AND RECITAL ACCOMPANIMENT (1)

*Admission by audition.

**Course may be scheduled only after consultation with the director of the School of Music.

Course Descriptions

Primary courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program

The Neuroscience graduate program is an interdepartmental program within the College of Medicine. The goal of the program is to provide academic and research training leading to the Ph.D. or M.S. degree in Neuroscience. Graduates are prepared for future careers in academic research, teaching, industry or government service. Doctoral students are expected to graduate with the following competencies: (1) the conceptual and technical skills necessary to conduct a research project in an area of neuroscience; (2) a broad general knowledge of neuroscience and detailed knowledge of one or more specialized areas; (3) the ability to appraise scientific evidence; (4) effective oral and written communication skills; (5) a commitment to professional responsibilities and adherence to ethical principles; and (6) an understanding of the external structures that govern biomedical research and the career pathways available to graduates. These competencies are delivered and/or assessed through formal course work (required and elective courses), candidacy and comprehensive examinations, mentored laboratory research, public presentations, publication of research papers, and defense of a written dissertation.

Although the program focuses on doctoral education; the M.S. degree in Neuroscience can be granted to students who request it. Master's students are expected to complete the same course requirements as doctoral students and to write a research thesis.

Admission Requirements

Prospective applicants should have a bachelor's degree in a biological, physical, or behavioral science and are expected to have taken courses in biology, chemistry, physics, and mathematics. Candidates are expected to have a 3.0 (B) grade-point average or better. Neuroscience courses are desirable but not essential and research experience is an advantage. The General Test of the Graduate Record Examinations (GRE), or a comparable substitute examination accepted by a graduate program and authorized by the dean of the graduate school, is required for all applicants. Foreign applicants whose native language is not English must provide evidence of proficiency in English with a minimum Test of English as a Foreign Language (TOEFL) score of 550 on the paper test or 213 on the computer-based test.

A complete application should include: completed application form with personal statement of purpose; GRE scores; undergraduate transcripts; three letters of recommendation; and TOEFL scores (if applicable).

The application deadline is February 1 for admission in the following fall.

Qualified applicants generally will be requested to visit Hershey for an interview. Admission is based on evaluation of the undergraduate transcript, GRE scores, personal statement of purpose, letters of recommendation and performance on interview.

Graduate Degree Requirements

Ph.D. degree in Neuroscience

During the first year of study, Ph.D. candidates in neurosciences receive a broad education in the breadth of neuroscience through three core neuroscience courses covering cellular and molecular neuroscience (which includes developmental neuroscience and neuropharmacology), systems neuroscience, and neuroanatomy. Students must also demonstrate competency in biostatistics. This requirement is satisfied by passing the course HES 515 or another similar course with the approval of the program director. This requirement may be waived with the approval of the program director for students who can demonstrate prior course work in biostatistics. In addition, 3 credits of elective courses offered at Penn State; course selection for this elective is with the approval of the program director.

The Language and Communication Requirement is satisfied by a grade of at least 3.0 in NEURO 530.

A research thesis and thesis defense are required.

M.S. Degree in Neuroscience

Core or Required Courses: NEURO 511, 520, 521, 522, 523, 530, 597; CBMIO 540; IBIOS 591.

Language and Communication Requirement: Satisfied by a grade of at least 3.0 in NEURO 530

Thesis or Paper Requirement and Course(s)/Credits Required: A research thesis is required.

Student Aid

Graduate research assistantships are provided for qualified doctoral students; full tuition is also provided. All support is continuous for the first year from the Neuroscience program. Support in years two and above, when the student is conducting thesis research, must be acquired from either the basic science department in which the candidate elects to pursue his/her minor or from funds available from the thesis adviser. These funds must be secured by the student in conjunction with his/her adviser.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

NEUROSCIENCE (NEURO) course list

The Pennsylvania State University
Nuclear Engineering (NUC E)

Program Home Page.
ARTHUR T. MOTTA, Chair of Nuclear Engineering
138 Reber Building
814-863-6384

Degrees Conferred:
Ph.D., M.S., M.Eng.

The Graduate Faculty

The Programs
Graduate programs and research facilities are available in thermal-hydraulics, neutronics, computational methods, advanced controls with applications of artificial intelligence, materials, radiation monitoring and effects, fuel management, and radioactive waste management. Application areas include advanced reactor design, safety analysis, radiation instrumentation development, neutron imaging, and plant life extension.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average and with appropriate course backgrounds will be considered for admission. General aptitude GRE test results are required. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

To qualify for admission, an international student must achieve a minimum score on the Test of English as a Foreign Language (TOEFL) of 550 on the paper-based test, 213 on the computer-based test, and 80 on the Internet-based test with a 19 in the speaking section. This requirement is waived if the student's native language is English or if the student received a baccalaureate or master's degree from an institution in which the language of instruction was English. Letters of recommendation and a statement of purpose written by the applicant are also required to complete the application package.

Degree Requirements
The M.Eng. degree is a nonthesis professional master's degree. In the M.Eng. degree program, 30 course credits are required. Twelve of those credits must be in Nuclear Engineering with at least 18 credits at the 500 level. No thesis is required for the M.Eng. degree. Instead, the student must take 3 credits of NUC E 597C Professional Topics in Nuclear Engineering, which represents formal recognition of the student's effort spent on writing a paper about an engineering subject. It must be approved by the adviser, a faculty reader, and the program chair.

The M.S. degree program is designed for students to gain advanced knowledge for research, analysis, and design in nuclear engineering. Student pursuing an M.S. degree must complete 24 course credits and submit an acceptable thesis (6 research credits) to the Graduate School.

Continuous registration is required of all Ph.D. students until the thesis is approved.

The Ph.D. program emphasizes scholarly research and helps students prepare for research and related careers in industry, government, and academia. Students are admitted to candidacy after passing written and oral examinations. The Ph.D. program is quite flexible, with minimal formal requirements. The Ph.D. degree is awarded upon completion of a program of advanced study that includes a minimum period of residence, a satisfactory thesis, and the passing of comprehensive and final oral examinations as determined by the student's doctoral committee.

Generally, a Ph.D. student must have 30 credits above a master's degree before taking a comprehensive examination.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

NATIONAL ACADEMY FOR NUCLEAR TRAINING FELLOWSHIPS-Available to graduate students in nuclear engineering; stipend plus tuition.

U.S. DEPARTMENT OF ENERGY-NUCLEAR SCIENCE AND ENGINEERING FELLOWSHIPS-Available to graduate students interested in engineering and engineering support related to nuclear technology; stipend plus tuition.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level will not count. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

NUCLEAR ENGINEERING (NUC E) course list

Last reviewed by Graduate School: 5/6/04
Faculty linked: 6/27/14

The Pennsylvania State University
The Graduate Faculty

The Programs

The graduate programs emphasize productive scholarship and research in the development of nursing knowledge and the translation of knowledge into practice. Advanced study is in human health and development throughout the life span, and in nursing's role in providing health services to individuals, families, and communities.

The Ph.D. program and the dual-title Ph.D. program in nursing and bioethics prepares nurse scientists to provide leadership in nursing education, practice and research. Individualized curricula prepare nursing graduates to assume positions as faculty, researchers and leaders in educational, community, governmental, or institutional settings.

The D.N.P. degree program prepares nurse administrators and advanced practice nurses to assume leadership roles in practice settings in the community, governmental agencies, or healthcare institutions.

The M.S. degree program with a major in nursing prepares nurse scientists and clinical scholars who plan to complete a Ph.D. in nursing or dual-title Ph.D. in nursing and bioethics.

The M.S.N. degree in Nursing consists of a base program and six options. The options include: Clinical Nurse Specialist, Family Nurse Practitioner, Adult Gerontology Primary Care Nurse Practitioner, Adult Gerontology Acute Care Nurse Practitioner, Nurse Administrator, and Nurse Educator.

The M.S., M.S.N., and D.N.P. degree programs in Nursing are accredited by the Accreditation Commission for Education in Nursing and the Commission on Collegiate Nursing Education.

The Nurse Practitioner options are designed to help prepare the professional nurse to function in an expanded nursing role providing direct care to specific groups of clients in a variety of health care settings. Since that practice is inherently interdisciplinary in nature, advanced knowledge and research from nursing is combined with knowledge from science, medicine, and related disciplines. The Nurse Practitioner may also function in supervisory, consultative, education, and research roles.

The Clinical Nurse Specialist option prepares advanced practice nurses in Adult Gerontology or Community Health to plan, implement, and evaluate care in a variety of settings. They function in direct care, supervisory, consultative, education, and research roles serving individuals, families, and communities.

The Nurse Administrator option enables the student to acquire advanced knowledge of organizational leadership, health policy, and evidence-based health care delivery. The program is designed to prepare students for leadership and administrative roles in a variety of health care settings.

The Nurse Educator option enables the student to acquire advanced knowledge of evidence-based teaching and learning principles, curriculum development, and evaluative techniques. The program is designed to prepare students for educator roles in a variety of academic and health care settings.

Admission Requirements for M.S., M.S.N., D.N.P., and Ph.D. Programs

1. For admission to the Nursing program, an applicant must hold either (1) a bachelor's degree in Nursing from a U.S. regionally accredited institution or (2) a postsecondary degree in Nursing that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. Students entering the doctoral program via the traditional post-master's route must have earned a master's degree with a major in nursing from a program accredited by a national accrediting agency for nursing. Well-qualified Ph.D. applicants with a baccalaureate degree in nursing and master's degree in a related discipline (e.g., public health) will be evaluated individually to assess the need for prerequisite master's-level coursework in nursing for doctoral program admission.

2. Applicants must submit transcripts of all previous course work from institutions of higher learning. For M.S.N. applicants, a cumulative grade-point average of 3.3 (on a 4.0 scale) for the baccalaureate degree is expected with a B or better in all science and nursing courses. For M.S. applicants, a cumulative grade-point average of 3.5 (on a 4.0 scale) for the baccalaureate degree is expected with a B or better in all science and nursing courses. College chemistry and statistics are also required (chemistry is not required for the nurse administrator option). B.S. to D.N.P. applicants are expected to have a cumulative undergraduate grade-point average of 3.5 (on a 4.0 scale). For masters to Ph.D. or D.N.P. applicants, a cumulative grade-point average 3.5 (on a 4.0 scale) for master's and subsequent course work is expected.

3. Two letters of reference are required for the M.S.N. degree program and three letters of reference are required for the M.S., D.N.P., and Ph.D. degree programs. The letters should be solicited from professional colleagues and faculty who can attest to the applicant's ability.

4. All applicants must submit a statement of purpose. In addition, M.S., D.N.P., and Ph.D. degree applicants must also submit a published or unpublished scientific paper, thesis, or other scholarly writing sample and a complete curriculum vitae.

5. GRE scores are required for admission to the M.S., D.N.P., and Ph.D. programs. GRE scores are not required for the M.S.N. applicants, but if the scores are submitted to Penn State they will be reviewed as part of the application.

6. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 100 with a 25 on the speaking section for the Internet-based test (iBT). The minimum acceptable score for the IELTS is 7. International applicants are exempt from the TOEFL/IELTS requirements who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (excluding Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

7. Applicants to the M.S.N. options and D.N.P. degree offered online via the World Campus must hold a current license to practice professional nursing in at least one U.S. state. All other applicants to the M.S. and M.S.N. degree programs must hold a current Pennsylvania license to practice professional nursing. Applicants to the Ph.D. degree program must be licensed to practice professional nursing in at least one state or in a foreign country.

8. Applicants to the Adult Gerontology Acute Care Nurse Practitioner Option are required to have two years of acute care hospital experience.

9. Applicants to the Ph.D. and D.N.P. applicants must meet the following requirements: A cumulative grade-point average of 3.5 (on a 4.0 scale). For master's to Ph.D. applicants, a cumulative grade-point average 3.5 (on a 4.0 scale) for master's and subsequent course work is expected.

M.S. and M.S.N. Degree Requirements

The Pennsylvania State University
A core of courses including nursing issues, theory, and research is required of all master's students. Candidates in M.S. degree program (M.S. - Ph.D.) are required to complete a minimum of 30 credits to be awarded the degree. The Clinical Nurse Specialist option must earn a minimum of 41-42 credits. Family Nurse Practitioner option, the requirement is a minimum of 45 credits. Adult Gerontology Primary Care Nurse Practitioner, is a minimum of 41-44 credits, Adult Gerontology Acute Care Nurse Practitioner, is a minimum of 43 credits, Nurse Administrator is a minimum of 37 credits, and Nurse Educator is a minimum of 37 credits. Students in M.S.N. to D.N.P. must complete a capstone project, which demonstrates the application of theory and research to a clinical problem based on review of literature and research utilization for that problem. Students in the M.S. degree program may choose to do either a thesis for 6 credits or develop an application for a pre-doctoral fellowship.

D.N.P. Degree Requirements

Students may enter the program directly from a B.S. in nursing or following completion of a Master's degree in nursing. For the B.S. in nursing to the D.N.P. for nurse administrators, a core of master's courses including nursing issues, theory, and research is required. A minimum of 61 credits, 1000 hours of practicum time, and a capstone project is required. The master's in nursing to D.N.P. program requires a minimum of 30 post-masters credits completed at Pennsylvania State University. The curriculum is individualized based on previous coursework and number of practicum hours completed during the master's program. A maximum of 600 practicum hours from the previous master's program will be accepted to fulfill to 1000 hours of required practicum hours. For both entry options, students are required to participate in 3 intensives offered at the University Park or Hershey Medical Center campus. For full-time students, the first intensive is August of semester I for M.S.N. to D.N.P. and semester III for B.S. to D.N.P. students. Intensive II is the beginning of the subsequent semester, intensive III is at the end of the second semester II for M.S.N. to D.N.P. and semester IV for B.S. to D.N.P. students. In addition to coursework, all students are required to complete a series of three benchmarks, Candidacy; Comprehensive; and A Final Oral Presentation.

D.N.P. Doctoral Committee Composition: The doctoral committee will consist of the student's academic adviser, the Capstone course (NURS 835) instructor, and a third member of the graduate faculty, all from the graduate program in Nursing. The academic adviser will be the chair of the committee.

Candidacy Examination: All students must satisfactorily complete the candidacy examination, which is designed to evaluate the student's past performance and potential for successfully completing the program. Candidacy typically occurs during the 2nd intensive, which follows completion of one semester of full-time study for the M.S.N. to D.N.P. student and after three semesters of full-time study for the B.S. to D.N.P. student. Students who fail the examination on the first attempt may repeat it once.

Comprehensives: Comprehensives mark the student's progression into their capstone project. This occurs during the 3rd intensive, when students present their capstone project proposal. Comprehensives need to be successfully completed prior to the submission of the proposal for human subjects' review or carrying out the capstone project. A student who does not pass an examination may repeat it once.

Final Oral Presentation: Upon completion of the project, the Final Oral Presentation is scheduled. Students are required to present the project for approval by their doctoral committee. The Associate Dean for Graduate Education will sign off on the final paper, following completion of the paper during NURS 835 and the student's passing of the oral presentation. Students who fail the examination on the first attempt may repeat it once. The student's final paper will be made publically available through ScholarSphere: https://scholarsphere.psu.edu/.

Ph.D. Degree Requirements

Students may enter the program directly from a B.S. in nursing (receiving a M.S. degree en route to the Ph.D.) or following completion of a Master's degree (nursing or non-nursing). A dual-title Ph.D. degree in nursing and bioethics and a minor in nursing are also available. Students entering with a M.S. degree in nursing will complete a minimum of 41-50 credits. In addition to coursework, all students are required to complete a series of examinations, Candidacy; Comprehensives (written and oral components); Dissertation Proposal Defense; and Final Oral Examination. Students also are required to fulfill a residency requirement. This entails being registered as a full-time student (9 credits minimum) engaged in academic work over the courses of two semesters within a twelve-month period (summer sessions are not included).

Candidacy Examination: All students must satisfactorily complete the candidacy examination, which is designed to confirm the student's mastery of basic nursing theory and research methods. For students entering a doctoral program with a master's degree, the candidacy examination must be taken at the end of the first year of full-time study or the equivalent. Students who fail the examination on the first attempt may repeat it once. Students who fail the examination the second time are terminated from the program.

Comprehensive Examination: The comprehensive examination is designed to test the student's mastery of and ability to synthesize and integrate the theoretical basis for nursing science, advanced research methods and the chosen specialty area. This examination is taken upon completion of all course work. Students who fail the examination on the first attempt may repeat it once. Students who fail the examination the second time are terminated from the program.

English Competency: All students will be assessed for deficiencies in reading, writing and speaking of English during the core nursing courses prior to the candidacy examination; should remedial work be necessary, the student will be directed to the appropriate sources. International students will be advised that the passage of the minimal TOEFL or IELTS requirement does not demonstrate the level of competence expected of a Ph.D. in Nursing.

Communication and Language Requirement: A foreign language will not be required. However, all students are required to be computer literate in word processing and use of statistical packages, as determined by their doctoral committee, and will be assessed for communication skills during core nursing courses.

Dissertation: Each student is required to conduct an original and independent research project which, adds to nursing's body of knowledge, and to communicate the research report in a written dissertation. A written dissertation proposal is required and must be approved at a proposal hearing by a majority vote of the student's dissertation committee. A majority vote is also required for approval of the completed written doctoral at the final oral defense.

Dual-Title Ph.D. in Bioethics Degree Requirements

Nursing Ph.D. students may pursue additional training in bioethics through the dual-title Ph.D. program in Bioethics. To qualify for the dual-title degree, students must satisfy the requirements of the Nursing Ph.D. program. In addition, all students are required to complete the requirements described below, as established by the Bioethics program committee. Within this framework, final course selection is determined by the student, their Nursing advisor and their Bioethics program advisor.

Additional coursework

The dual-title Ph.D. in Nursing and Bioethics requires a minimum of 2 credits of coursework beyond the requirements for the Ph.D. in Nursing (16 credits of the 18 Bioethics core coursework are accepted towards this degree requirement). Students may choose from the following:

- Seven required credits (BIOET 501, BIOET 502, and BIOET 590), plus at least three additional BIOET credits at the 500 level. These credits can be applied to the 9 credits of specialty coursework for the Nursing Ph.D.
- Eight additional credits from a list of approved electives at the 400 or 500 level, at least two of which must be at the 500 level (many of the available electives that students may wish to take are 3-credit courses, so 9 additional credits may be a more typical number for most students). The list of elective courses will be maintained by the Director of the Biethics Graduate Program in consultation with the Bioethics Program Committee. (The Nursing Science core constitutes seven of these elective credits).

Candidacy: In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by Nursing; a single candidacy examination will be administered that includes assessment of both Nursing and Bioethics. At least one member of the candidacy committee must come from the Bioethics program. Unless the Dean for Graduate Education in the College of Nursing and the Director of the Bioethics Program agree to waive the requirement, this person should not be a member of the Nursing faculty.

Comprehensive exam: The faculty member (or members) affiliated with the Bioethics Program will be responsible for administering a portion of the comprehensive exam that will require the student to demonstrate an understanding of various theoretical and methodological approaches to bioethics, and an ability to apply them to issues and problems (including, where appropriate, practical problems) in their nursing.

Dissertation and dissertation defense: A dissertation on a bioethics-related topic or with a substantial bioethics component is required of students in the dual-title Ph.D. program. The bioethics-related topic of the dissertation or the bioethics component will be approved by the student's doctoral committee.

Student Aid

The Pennsylvania State University
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

U.S. PUBLIC HEALTH SERVICE TRAINEESHIPS IN NURSING
Open to selected registered nurse, full-time students in nursing; stipend may be available plus tuition. Apply to Associate Dean for Graduate Education, College of Nursing.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

NURSING (NURS) course list

Last Revised by the Department: Spring Semester 2014
Blue Sheet Item #: 42-07
Review Date: 06/10/2014
Faculty linked: 6/27/14
Nutritional Sciences (NUTR)

Program Home Page,

GORDON JENSEN, Head of the Department of Nutritional Sciences
SHANNON KELLEHER, Professor-in-Charge of Graduate Program in Nutrition
110 Chandler Laboratory
814-863-9680

Degrees Conferred:
Ph.D., M.S.
Dual-Title Ph.D. (Nutritional Sciences and Clinical and Translational Sciences)

The Graduate Faculty

The Program

Graduates are prepared for careers in basic and applied research in nutrition and in college teaching. The course of study is planned to meet the professional objectives of the individual student. Students may emphasize molecular and cellular nutritional sciences, nutritional biochemistry, applied human nutrition, applied animal nutrition, nutrition education, and nutrition in public health. Supporting courses are available in biochemistry, physiology, genetics, microbiology, biophysics, food science, health policy and administration, human development and family studies, anthropology, sociology, psychology, public health sciences, and statistics.

Current research emphasizes minerals, vitamin A, lipid metabolism, metabolic disorders, nutrition and behavior, nutrition education strategies, evaluation of dietary intake and nutritional status, nutrition policy and health promotion and disease prevention across the life cycle.

Facilities include well-equipped nutrition science laboratories with animal facilities supervised by a University laboratory animal resource staff. The Diet Assessment Center and the metabolic kitchens serve as laboratories for students in community nutrition, nutrition education, and metabolic nutrition.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from the Medical College Admission Test (MCAT), are required for admission. At the discretion of a graduate program, the GRE or other test scores may be waived for an individual on a case-by-case basis. Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the General Bulletin.

College graduates with an undergraduate degree in nutrition, animal sciences, food science, dietetics, or a related biological or social science will be considered for admission. For admission to the Graduate School, an applicant must possess a baccalaureate degree from an accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants should have a minimum grade-point average of 3.00 (on a 4.00 scale), an acceptable score on the GRE (an average quantitative and verbal score above the fiftieth percentile), and three supporting recommendations. Exceptions may be made for students with special backgrounds, abilities, and interests. When openings are limited, the best-qualified candidates are given priority.

The basic expectations for admission from undergraduate studies include 6 credits in chemistry (organic and inorganic); 3 credits each in physiology, biochemistry, and nutrition; and physics, calculus, and analytical chemistry for some research areas in nutrition science and social science for public health and community nutrition. Students with more than 9 credits of deficiency and a superior record may be admitted to the graduate degree program with provisional status. Deficiencies are expected to be made up with a 3.00 grade-point average or better within the first two semesters.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Master's Degree Requirements

The graduate program in Nutritional Sciences offers the M.S. degree with an emphasis in basic nutritional sciences, applied human nutrition, or nutrition in public health.

The M.S. degree requires 30 credits of course work, including 6 credits in research (NUTR 600). The M.S. degree with an emphasis on nutrition in public health includes a 4-credit field experience (NUTR 555).

Doctoral Degree Requirements

Students must pass a candidacy examination designed to assess the student's potential and academic preparation for doctoral study. Candidacy examinations must be scheduled by students with a master's degree after they have completed 10 credits in doctoral work but before the end of the second semester following admission to the graduate program. The candidacy examination is administered and evaluated by the Graduate Candidacy Committee. Students must pass a comprehensive examination, the specific format and content of which is determined in consultation with the comprehensive examination committee. Each student will have a doctoral committee comprised of graduate faculty internal and external to the Graduate Program in Nutritional Sciences. Successful defense of a research project and written dissertation, along with a final oral examination in Nutritional Sciences is required.

Communication and Language Requirement: Doctoral students must demonstrate competency in spoken English as judged by the program faculty and in technical writing by completion of ENGL 418 with a grade of B or better. Students also must complete satisfactorily 2 to 3 credits at the 400 or 500 level from any one of the following areas: (1) college teaching; (2) logic or philosophy of science; (3) foreign language; or (4) computer science. There are no specific course requirements; however, the academic program is developed by the student in consultation with his or her adviser to develop doctoral-level competence in nutrition and one or more supporting areas. Students are expected to participate in a colloquium each semester and enroll in a seminar on a regular basis.

Dual-Title Ph.D. Degree in Nutritional Sciences and Clinical and Translational Sciences: Doctoral students with research and educational interests in clinical and translational science may apply for the Dual-Title Ph.D. Degree in Nutritional Sciences and Clinical and Translational Sciences following admission to the Graduate School and Nutritional Sciences and prior to taking the candidacy examination in Nutritional Sciences. An advisory committee comprised of faculty affiliated with the dual-title program will evaluate applicants. Applicants must have a graduate GPA of at least 3.5 in a research area related to human health. Prospective dual-title program students will write a statement of purpose that addresses the ways in which their research and professional goals will be enhanced by an interdisciplinary course of study in clinical and translational sciences.

The Pennsylvania State University
This dual-title degree program emphasizes interdisciplinary scholarship at the interface of basic sciences, clinical sciences and human health. Students in the dual-title program are required to have two advisors from separate disciplines: one individual serving as the primary mentor in the Graduate Program in Nutritional Sciences and another individual serving as the secondary mentor in an area covered by the dual-title program who is a member of the Clinical and Translational Sciences faculty. The Dual-Title Ph.D. Degree in Nutritional Sciences and Clinical and Translational Sciences requires the completion of 18 credits of coursework. Coursework from an approved list of courses is required and covers the areas of epidemiology, bioinformatics, experimental design and interpretation, statistics, regulatory environment and scientific communication. Approximately 12 credits of coursework may overlap with required elective courses of the Graduate Program in Nutritional Sciences. For students in the dual-title program, the candidacy examination will include content from both the Graduate Program in Nutritional Sciences and the Clinical and Translational Sciences programs and will be completed before the end of the second year of graduate study. The student’s doctoral committee will include faculty from the major program of study and faculty with expertise in clinical and translational science. The fields of nutritional sciences and clinical and translational sciences will be integrated in the student’s comprehensive examination. All students are required to conduct dissertation research that contributes fundamentally to the fields of nutritional science and clinical/translational sciences.

### Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the [STUDENT AID](#) section of the [Graduate Bulletin](#).

### Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

[STUDENT AID](#) section of the [Graduate Bulletin](#)

Last Revised by the Department: Fall Semester 2013

Review Date: 11/19/2013

Faculty linked: 6/27/14
Degrees Conferred:
Students electing this option through participating programs earn a degree with a dual title at both the Ph.D. and the M.S., M.A., or M.Eng. levels, i.e., Ph.D. in (graduate program name) and Operations Research, or M.S., M.A., or M.Eng. in (graduate program name) and Operations Research.

The following graduate programs offer dual degrees in Operations Research: Agricultural, Environmental and Regional Economics; Agricultural and Biological Engineering; Animal Science; Business Administration; Civil Engineering; Chemical Engineering; Computer Science and Engineering; Electrical Engineering; Economics; Educational Leadership; Energy and Mineral Engineering; Entomology; Forest Resources; Geography; Geosciences; Hotel, Restaurant and Institutional Management; Industrial Engineering; Mathematics; Mechanical Engineering; Statistics; and Workforce Education and Development.

The Graduate Faculty

The Program
The Operations Research dual-title degree program option is administered by an Operations Research committee, which is responsible for management of the program. The committee maintains program and course content; identifies faculty; and recommends policies, procedures, and examination content for its operation to the dean of the Graduate School. This dual-title degree program is offered as an option through graduate major programs in eight colleges. The option enables students from diverse graduate programs to attain and be identified with the tools, techniques, and methodology of operations research, while maintaining a close association with areas of application. Operations research is the analysis—usually involving mathematical treatment—of a process, problem, or operation to determine its purpose and effectiveness and to gain maximum efficiency. To pursue a dual-title degree under this program option the student must apply to the Graduate School and register through one of the approved graduate programs.

Admission Requirements
Scores from the Graduate Record Examination (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student, may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements listed in the GENERAL INFORMATION section of the Graduate Bulletin.

For the M.S., M.A., M.Eng. dual-title degree in Operations Research, in addition to those prescribed by the graduate major program, prerequisites for acceptance to the program without deficiency include the following or their equivalent: MATH 140, MATH 141, MATH 220; CMPSC 101; and 3 credits of probability and statistics.

For the Ph.D. dual-title degree in Operations Research, in addition to those prescribed by the graduate major program, prerequisites for acceptance to the program without deficiency include the following or their equivalent: MATH 401, MATH 436; CMPSC 101; and 3 credits of probability and statistics.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the graduate major programs in which they are enrolled, in addition to the minimum requirements, or their equivalent, in the Operations Research program. Students must enroll in O R 590 Colloquium for at least 1 credit in each year enrolled in the program and in residence.

For the M.S. or M.A. dual-title degree in Operations Research, the minimum requirements are: 6 credits in stochastic/statistical methods, including a minimum of 3 credits in linear programming; 3 credits in computational methods; and 3 credits in applications/specialization. (Application courses are those that involve problem solving through the use of decision methods.) A minimum of 9 credits must be in the 500 series. Particular courses may satisfy both the graduate major program requirements and those in the Operations Research program.

A thesis may be required, the supervisor of which must be a member of the graduate faculty recommended by the chair of the program granting the degree and approved by the Operations Research committee as qualified to supervise thesis work in operations research. A paper or report may be written in lieu of the M.S. or M.A. thesis upon approval of the student's graduate major program. An M.Eng. student or a student selecting the paper or report must take an additional 6 credits in the Operations Research program. It is the prerogative of the graduate major program to assign these credits to one or more of the following categories: stochastic/statistical methods, optimization, computational methods, or applications.

The minimum requirements for the Ph.D. dual-title degree in Operations Research are: 9 credits in stochastic/statistical methods, including a minimum of 3 credits in linear programming; 6 credits in computational methods; including a minimum of 3 credits in simulation; and 12 credits in applications/specialization. A minimum of 18 credits must be in the 500 series, and particular courses may satisfy both the graduate major program requirements and those in the Operations Research program.

A Ph.D. minor program in Operations Research is available for doctoral students who find it advantageous to include advanced quantitative methods of systems analysis in their programs of study and have been approved to do so by their doctoral committees. To qualify for a minor in Operations Research, students must satisfy the requirements of their graduate major programs, meet the same prerequisites as the M.S. dual-title degree, and meet the following minimum requirements: 6 credits in stochastic/statistical methods, including a minimum of 3 credits in each of the areas of statistical methods and stochastic processes; 6 credits in optimization; and 3 credits in computational methods. A minimum of 6 credits must be taken at the 500 level.

The doctoral committee for a Ph.D. dual-title degree student is recommended by the graduate major program granting the degree. The chair and at least two members of a doctoral committee must be members of the graduate faculty and approved by the Operations Research committee as qualified to supervise doctoral theses in operations research. The Operations Research committee is responsible for administering an examination in operations research that constitutes a portion of the comprehensive examination administered to the doctoral students in the program option, as well as to the candidate who chooses operations research as a minor field.

Master of Professional Studies (M.P.S.)

The Graduate Faculty

The Program

The MPS in Organization Development and Change (MPS-OD&C) is an online 33-credit program of study designed for professionals working primarily in organization change and workforce development related careers.

The program will highlight the changing nature of the field of Organization Development, including the impact of the globalization of private and public organizations and the growing importance of organization change and development in the workforce. It will culminate in a field-based project course in which students will demonstrate their understanding of the curriculum and apply it to their professional areas of interest. Students will be expected to complete an organization development-related project and are encouraged to solicit project ideas from a work-related environment to ensure that the problems or opportunities for students are grounded in the reality of organization development.

Upon completion of the MPS-OD&C degree, students will be equipped to work as professionals in corporate development, talent management, workforce development, performance improvement, training and development, and with private employers, government agencies, and non-profit organizations.

Thirty-three (33) credits are required to complete the MPS-OD&C degree program. The course work includes nine prescribed 3-credit courses (27 credit hours), which provide a strategic body of knowledge in assessment, diagnosis, feedback, and marketing of organization development, process consultation, appreciative inquiry, and facilitation of groups and teams; one elective course (3 credit hours) designed to allow students to develop additional expertise in related areas of professional interest and in consultation with their advisors; and one capstone course (3 credit hours), which provides a culminating experience for students to demonstrate their knowledge, understanding, theoretical framework, and practical application of Organization Development and Change, building upon their knowledge acquired from the curriculum.

Admission Requirements

Requirements listed here are in addition to the Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses. The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants to the MPS-OD&C must submit the following materials:

- Penn State graduate degree application form and application fee
- World Campus program application
- A statement of career and educational goals including documentation of a minimum of two years of related full-time work. The statement should be an essay (2-3 pages in length) that demonstrates the applicant's written communication skills. A resume should be attached as a supplement.
- Three letters of recommendation that attest to the applicant’s readiness for graduate study and that he or she has the requisite minimum of two years of work experience
- Official transcript(s) of all institutions attended
- TOEFL score, if applicable

Admissions decisions for the program are based on the quality of the applicant’s credentials. The decisions are based on a review of the complete application portfolio. During the admission process, students who appear to be better suited for another graduate level program will be encouraged to apply to the appropriate program. Graduate Record Examination (GRE) scores are not required.

Degree Requirements

The MPS in OD&C is conferred upon students who earn a minimum of 33 credits of coursework while maintaining a grade-point average of 3.0 or better in all course work, including at least 18 credits at the 500-level or above (with at least 6 credits at the 500-level), and who complete a quality culminating field-based project course in consultation with a graduate adviser. The program curriculum includes nine prescribed courses (27 credits), which provide a strategic body of knowledge in assessment, diagnosis, feedback, and marketing of organization development, process consultation, appreciative inquiry, and facilitation of groups and teams; one elective course (3 credit hours) designed to allow students to develop additional expertise in related areas of professional interest and in consultation with their advisors; and one required field-based project course (3 credit hours), which provides a culminating experience for students to demonstrate their knowledge, understanding, theoretical framework, and practical application of Organization Development and Change, building upon their knowledge acquired from the curriculum.

Required Courses

- WF ED 572 Organization Development for Trainers
- TRDEV 565 Implementing Training and Development Programs
- WF ED 582 Assessing and Feeding Back Data: Organizational Diagnosis
- WF ED 578 Process Consultation
- WF ED 894 Appraisal Consulting
- WF ED 585 Appraising Organization Development and Consulting
- WF ED 881 Marketing Organization Development and Consulting
- WF ED 880 Facilitating Groups and Teams
- WF ED 405 Project Management for Professionals
- WF ED 595A Field Based Project in Industrial Training

Substitutions for the above required courses, either with resident-instruction courses, alternate online courses, or courses from other institutions, will be considered on a case-by-case basis, and must be petitioned and approved by the Program Chair, with input from the student's graduate adviser.

The Pennsylvania State University
Elective courses can be taken at any time during degree progression. Students will need to obtain prior approval from their academic adviser before taking any 400- or 500-level graduate courses to fulfill the elective requirements. Students may also be able to transfer credits into the program, in consultation with their academic adviser. An extensive variety of elective courses are available; the most current list is maintained on the program’s website.

Culminating Experience
Students will take WF ED 595A, Field Based Project in Industrial Training, and complete an organization development and change related capstone project as a culminating experience.

Student Aid
Graduate assistantships are currently not available. Financial aid opportunities for part-time students with the World Campus are discussed at http://www.worldcampus.psu.edu/tuition-and-financial-aid/financial-aid

Graduate-Level Courses
A minimum of 30 credits of coursework at the 400 level or higher is required, of which at least 18 credits must be at the 500-level and above, with a minimum of 6 credits of 500-level course work. A significant culminating or “capstone” experience or other mechanism to demonstrate evidence of analytical ability and synthesis of material is required. These may typically include, but are not limited to, a paper, an internship, an exhibition, a production, a comprehensive examination, or a capstone course. The specific form of the culminating experience is determined by the assigned faculty in the Workforce Education and Development program.

Degrees Conferred:
M.P.A., Ph.D.

The Graduate Faculty

MPA Program

The Master of Public Administration (MPA) program is intended for those with career interests in public management, health and human services, government, and other public service and nonprofit organizations. The curriculum blends theoretical and applied concepts and assures "real-world" experiences for the novice administrator. In addition, it requires that students devote attention to general professional development. The MPA program is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA).

FULL-TIME OR PART-TIME--Students may begin the program in any semester. Three courses (or 9 credits) per semester are considered a normal course load for full-time students. Part-time students typically take one or two 3-credit courses each semester and one or two courses during the summer session to maintain steady progress toward the degree. The program, including an internship in a public agency or nonprofit organization for those without three years of managerial, supervisory, or professional experience, requires eighteen to twenty-four months of full-time study, or three to five years on a part-time basis.

Admission Requirements

Applicants must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution prior to starting the program. Applicants who are still completing their baccalaureate requirements at the time of application may be admitted to the Graduate School conditional on the awarding of the baccalaureate degree.

Admission to the MPA program is based on clear suitability for the program as demonstrated by the application as a whole, including the following: a completed application with the application fee; evidence of a bachelor's degree from a regionally accredited college; a statement of career and educational goals; a successful undergraduate record with a grade-point average of 3.00 (either as the cumulative GPA or for the last 60 hours of relevant course work); satisfactory scores on the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), or Law School Admission Test (LSAT) if the GPA is less than 3.0; and three references willing to provide recommendations.

Degree Requirements

The MPA degree program requires 36 graduate credits—18 in core courses, 15 in electives, and 3 for the research project. Up to 6 credits of 400-level courses may be taken as electives, with the approval of an adviser. In addition, a 3-credit internship is required of students who do not have at least two years of full-time relevant work experience that consists of supervisory, managerial, or professional work. The internship is waived for students with this experience before they enter the program or who gain it during the program.

REQUIRED CORE COURSES (18 credits)
P ADM 500, P ADM 502, P ADM 503, P ADM 505, P ADM 507, P ADM 510

ELECTIVE CONCENTRATION AREA (15 credits)

With the faculty adviser's approval, a student selects 15 credits of electives from the courses list. Students also have the option of taking elective courses from one of the following concentrations: Government Administration, Health Care Management and Policy, Human Resources Management, Policy Analysis, and Criminal Justice, as well as the general Public Administration degree.

RESEARCH PROJECT--P ADM 594

INTERNSHIP IN PUBLIC ADMINISTRATION--P ADM 595 (if required)

Ph.D. Program

The mission of the PhD program in Public Administration is to provide advanced graduate education in theory and research in the field to prepare students for academic, research, and advanced professional careers in public administration.

Each student is expected to graduate with:

1. Research experience working with public administration faculty
2. Experience in presentation of scholarly papers and posters at national and regional conferences
3. Experience in developing, authoring, or co-authoring with a faculty member, and submitting at least one article for a refereed publication
4. Teaching experience at the college/university level

Application and Requirements for Admission

Individuals with superior academic records and a strong interest in careers emphasizing research and scholarship are encouraged to apply to the program. The program typically admits a Ph.D. cohort of full-time students to begin each fall semester.

Admission to the Ph.D. program is based on the applicant's undergraduate and graduate academic records, standardized test scores, letters of reference, and the compatibility of their backgrounds and interests with those of the program faculty members, as expressed in the applicant's statement of goals and research interests. All applicants must have completed a master's degree. A completed master of public administration (MPA) degree is a preferred admissions requirement, but students with master's degrees in related areas (political science, public policy, economics, sociology, anthropology, social work, business management, and health administration, for example) and Juris Doctorate degrees (law) will also be considered.

Application Deadlines: All application materials must be completed and received on or before January 15 of each year for an application to be considered for the fall semester of the following academic year. This single application deadline is adopted to ensure that applications are reviewed uniformly and the decisions to grant assistantships are made in a timely fashion. Students admitted to the program will start in the fall semester as a cohort.

Application Package: A complete application must include:

The Pennsylvania State University

1. A completed online Graduate School application
2. Payment of a non-refundable application fee
3. Official Graduate Record Examination scores (verbal, quantitative, and analytical) taken within the five years prior to the date of application
4. A resume that includes work experience, volunteer activities, academic and professional honors, honorary societies, extracurricular activities, offices held, any publications and other significant activities
5. A statement of goals and research interests, including evidence of research aptitude and interest as well as "fit" with the faculty interests in the PhD program at Penn State Harrisburg. The candidate should make the case why this Ph.D. program at Penn State Harrisburg would be a good fit for him/her
6. A writing sample that reflects the applicant’s background in conducting academic research and potential to conduct academic research in the future
7. At least three letters of recommendation, preferably from faculty members who can comment upon the applicant’s potential as a doctoral student
8. Two official transcripts from each undergraduate degree-granting college or university and post-graduate college or university the applicant attended

International Students: The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT).

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Funding and Financial Aid

All applicants will be considered for financial aid. Qualified students will be supported with 9-month merit-based research or teaching assistantships. While these are not guaranteed, funding opportunities may also be available for admitted students during the summer semesters. Such opportunities may include, but are not limited to, teaching and involvement in faculty-sponsored research. Students may also apply for other financial aid programs through the University’s financial aid office.

In addition, the program faculty may admit the program qualified full-time students who will finance their educations with scholarships from sources outside Penn State or with personal funds. These sources may include foreign governments that fund international students for PhD studies in the United States and other funding agencies, such as Fulbright commissions.

Degree Requirements

Students progress through the following phases and take the required courses indicated as part of their study for the Ph.D. A student must successfully complete the prerequisite courses specified by the program to make up for deficiencies, if any exist. After these courses, a student must take five 3-credit foundation courses, four 3-credit research methods courses, and five 3-credit specialization area courses. In addition to these 42 course credits, students must take a minimum of 18 research credits as PADM 600 (or an equivalent combination of PADM 600 and PADM 601, as approved in advance by the head of the doctoral committee in compliance with Graduate Council policy regarding SUBJ 601). Students are also required to pass a candidacy examination and a comprehensive examination and to prepare and defend a dissertation.

Prerequisite courses and provisional admission: Applicants who do not have necessary background, but otherwise meet the criteria for admission may be admitted provisionally and must make up any deficiencies in graduate courses in public administration noted in the letter of acceptance. Students who must make up deficiencies are considered to be provisionally admitted into the program.

Provisionally admitted students are required to take some or all of the following prerequisite courses: PADM 500 (Public Organization and Management), PADM 502 (Introduction to Public Policy Analysis), and PADM 510 (Organizational Behavior). The program faculty members, the coordinator of the PhD program, makes the decisions on which prerequisite courses each student should be required to take.

A student may remain in this temporary classification for a period of no longer than two semesters following admission. Upon successful completion of the prerequisite courses noted in the letter (with at least a 3.5 grade-point average), the student will be removed from provisional status and be regularly enrolled. The provisional status must be removed before a student takes his/her candidacy exam.

Foundations of public administration: All the students in the program will be required to take the following foundational courses in the first year of their studies and before they are eligible to take the candidacy examination.

PADM 500. Public Organization and Management (3 credits)
PADM 502. Introduction to Public Policy Analysis (3 credits)
PADM 510. Organizational Behavior (3 credits)

Specialization area courses: In consultation with the student’s advisor and doctoral committee, each doctoral student will develop a specialization of 15 credits. The specialization can include courses in the fields of education, law, business, policy, and public administration. The specialization area courses must be approved by the student’s doctoral committee. At least one course must be in each of the following areas: public administration, public policy, and public management.

Students are required to take four 3-credit research methods courses. The following research methods courses are required for all Public Administration PhD students:

PADM 503. Research Methods (3 credits)
PADM 575. Advanced Research Design (3 credits)

Students also select two in-depth 3-credit research methods courses based on their research interests (quantitative, qualitative, or mixed methods), suitability of the courses in preparing students for their dissertation studies, and the availability of the courses.

Students may find suitable courses in the PhD program in Public Administration or other graduate programs at Penn State. These two in-depth methods courses should be approved in advance by the student’s doctoral committee. A student’s committee may also allow him/her to take in-depth methods courses that are offered by other universities or research institutions, if the equivalent courses cannot be found within Penn State, if the equivalency of these courses to 3-credit graduate-level courses offered at Penn State can be verified by Graduate Enrollment Services, and if the costs of these courses can be covered by the student or another arrangement can be made to cover the costs.

Candidacy examination: Only students who complete the required courses in the Foundations of Public Administration successfully, with a minimum 3.5 GPA, may take the candidacy examination. The candidacy examination will cover topics about the intellectual history and enduring questions in the field. Many of these subjects are covered in the required foundational doctoral courses; they include such topics as public administration and democratic theory, public organizations and management, and constitutional and legal foundations. The exam is written and graded by the Public Administration graduate faculty.

Comprehensive Examination: Upon the completion of the specialization courses and research methods courses successfully, with a minimum 3.5 GPA, a doctoral candidate takes a written comprehensive examination. Comprehensive examinations are administered by the student’s doctoral committee. In comprehensive examinations students are tested about the contents of their specialization areas and they will be required to propose a research design on a relevant topic.

Dissertation: After passing the comprehensive examination, a student must work with his or her advisor and doctoral committee to develop a full dissertation proposal within three months of the exam. Once the doctoral committee approves the full proposal, dissertation research can begin. Students will be required to conduct their dissertation research and write and defend their dissertations in accordance with Graduate Council policy and as agreed on by their doctoral committees.

Residency: A period of two consecutive semesters of concentrated study and research as a full-time doctoral student—9 credits per semester.

Grade Point Average and Time Limit
Full-time students are expected to finish the program in four to five years. Graduate Council policy requires that a student must complete the program within eight years after passing the candidacy examination. The PhD Program in Public Administration requires that students have at least a 3.50 grade-point average in order to graduate.

PUBLIC ADMINISTRATION (P ADM) course list
PUBLIC ADMINISTRATION, JURIS DOCTOR AND MASTER OF PUBLIC ADMINISTRATION (J.D./M.P.A.)

JEREMY F. PLANT, Program Coordinator
Penn State Harrisburg
777 W. Harrisburg Pike
Middletown, PA 17057-4898
717-948-6050
www.hbg.psu.edu

Degrees Conferred:
J.D./M.P.A.
The Dickinson School of Law of The Pennsylvania State University and the School of Public Affairs of Penn State Harrisburg, the Capital College, offer a cooperative program leading to the degrees of Juris Doctor, to be granted by Dickinson, and Master of Public Administration, to be granted by Penn State Harrisburg.

Admission Requirements
In order to be admitted to the program, students must first be admitted to The Dickinson School of Law under its regular admission procedures. Dickinson need not forward applications of all DSL admittees who have expressed interest in the MPA program and can withhold support for some admittees until they have demonstrated proficiency in their legal studies and a capacity for dual degree study. Penn State Harrisburg will make independent admissions decisions as to all dual degree applicants.

The Dickinson Admissions Office requires: application forms for DSL and PSH Graduate School, the Law School Admission Test (LSAT), a completed LSDAS report, a one-page personal statement, employment record since high school, and two recommendations.

The Penn State Harrisburg Admissions Office requires: completed applications (Graduate School and MPA), with the application fee; evidence of either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution; a statement of career and educational goals; a successful undergraduate record with a grade-point average of 3.0 (either as the cumulative GPA or for the last 60 hours of relevant course work); satisfactory scores on the Graduate Record

The Pennsylvania State University
Degree Requirements

To be eligible to earn the Juris Doctor degree, a candidate must: earn credit for 88 semester hours of course work, have a cumulative average of at least 70.00, complete all required courses (currently totaling 41 semester hours) plus at least one seminar, and complete six semesters in residence.

The MPA degree program requires 36 graduate credits—18 in core courses, 15 in electives, and 3 for the Research Project.

A maximum of 9 credits for Dickinson School of Law course work may be transferred for credit toward the MPA degree at Penn State Harrisburg, subject to Harrisburg’s approval based on relevance to the MPA program.

A maximum of 9 credits for MPA course work with a grade of B or better may be transferred for credit toward the J.D. degree at Dickinson. Courses for which such credit may be applied shall be subject to approval by the Dickinson faculty.

It is anticipated that students will complete a minimum of 79 credits from Dickinson and 27 credits (not including the internship) from Penn State Harrisburg in order to earn the J.D. and M.P.A. degrees. A student in the program, however, may obtain either degree prior to completing all requirements for the other degree. Students must earn at least a 3.0 grade-point average to be eligible for the M.P.A. degree.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Pathobiology (PATHB)

Program Home Page.

ANTHONY SCHMITT, Director, Pathobiology Graduate Program
115 Henning Building
Phone: 814-863-6781
E-mail: aps13@psu.edu

Degrees Conferred:
Ph.D., M.S.
Dual-Title Ph.D. (Pathobiology and Clinical and Translational Sciences)

The Graduate Faculty

The Program

The graduate program in Pathobiology is designed to provide flexibility in graduate work while providing opportunities to study immunology, microbiology, nutrition, biochemistry, virology, veterinary pathology, physiology, or toxicology, usually as related to problems seen in human, domestic animal, and wildlife health.

Graduate instruction is directed by graduate faculty members from the Department of Veterinary Science and related units with research interests in animal science, biochemistry, biology, biophysics, immunology, nutrition, physiology, zoology, and others. The Ph.D. program is designed for completion in three to four academic years. Doctoral candidates usually complete certain required courses and obtain laboratory experience before selecting an area of specialization and completing an original research problem, including the defense of the Ph.D. dissertation.

Requirements listed here are in addition to general Graduate Council requirements stated in the Academic Information and Procedures and Degree Requirements sections of the Graduate Bulletin.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by Pathobiology and authorized by the dean of the Graduate School, are required for admission. At the discretion of Pathobiology, a student may be admitted for graduate study in a program without these scores.

Applicants with a 3.0 or better grade-point average (on a 4.00 scale) in undergraduate science courses and appropriate course backgrounds will be considered for admission. Applicants should have a baccalaureate degree in a biology, science-related field, or a degree as a graduate veterinarian or equivalent. Undergraduate preparation should include biology, chemistry, physics, mathematics through calculus, and preferably biostatistics and biochemistry.

Master's Degree Requirements

A minimum of 30 credits of coursework at the 400 level or higher is required for the M.S. degree, of which at least 18 credits must be taken in 500- and 600-level courses.

Satisfactory completion of the following courses or their equivalent is required of all M.S. degree candidates: Statistics, 3 credits; Biochemistry or molecular and cell biology, 3 credits (usually chosen from B M B 400, and BMB 501) VB SC 520, Pathobiology, 3 credits.

All Pathobiology students are required to complete one semester of VB SC 590 Colloquium each year as well as 8 elective credits from a list of courses that is maintained by the Pathobiology program office.

Pathobiology requires no program-specific qualifying examinations, and there is no communication/language requirement for the M.S.

A thesis is required of all candidates for the M.S. degree, including 6 credits of VB SC 600.

Doctoral Degree Requirements

The doctor of philosophy degree places a strong emphasis on research. It is conferred in recognition of the capacity to carry out independent research and the attainment of a high level of scholarship. General requirements for the doctorate specify a minimum period of residence (two semesters, excluding summer sessions, within a 12-month period), the passing of candidacy, comprehensive and final oral examinations, and the writing of a satisfactory dissertation. The particular combination of courses, seminars, individual study, and research that constitutes an individual student’s program is arranged by the doctoral committee and should include the courses that have been designated in the Pathobiology graduate curriculum.

http://vbs.psu.edu/graduateprograms/pathobiology/curriculum, subject to the general policies of Graduate Council.

The Pathobiology graduate program requires a total of 21 credits of coursework at the 400-level or higher for the Ph.D. degree. A minimum grade-point average of 3.00 for work done at the University is required.

There are formal communications requirements for the Ph.D. degree in Pathobiology that are required by Graduate Council. The doctoral committee will assess the technical writing and oral communication skills of the candidate and may require that formal course work or other means to improve these skills be undertaken.

The graduate program in Pathobiology requires that each graduate student have 3 credits in statistics. Ph.D. candidates in Pathobiology additionally are expected to have statistical skills equivalent to those learned in STAT 501 and STAT 502. Ub addutuibm the candidacy examination committee and the doctoral committee may require that additional course work in statistics be taken if deficiencies are noted.

A candidacy examination is given to students entering the Ph.D. program and after they complete at least 18 credits of post-baccalaureate course work.

After being admitted to candidacy, each doctoral candidate is guided by a doctoral committee consisting of four or more members of the graduate faculty as specified by the Graduate School. These committees are appointed through the Office of Graduate Enrolment Services, upon recommendation of the department head, after the student is admitted to candidacy.

Clinical and Translational Sciences Dual-Title Degree Program

Doctoral students with research and educational interests in clinical and translational science may apply for the Dual-Title PhD Degree in Pathobiology and Clinical and Translational Sciences (CTS) following admission to the Graduate School and Pathobiology and prior to taking the candidacy examination in Pathobiology (end of the third semester). An admissions committee comprised of faculty affiliated with the dual-title program will evaluate applicants. Applicants must have a graduate GPA of at least 3.3 in each of Pathobiology and CTS. Prospective dual-title program students must submit a statement of purpose that addresses the ways in which their research and professional goals will be enhanced by an interdisciplinary course of study in clinical and translational sciences.

This dual-title degree program emphasizes interdisciplinary scholarship at the interface of basic sciences, clinical sciences and human health. Students in the dual-title program are required to have two advisers from separate disciplines: one individual serving as the primary mentor in the Graduate Program in Pathobiology and another individual serving as the secondary mentor in an area covered by the dual-title program who is a member of the CTS faculty. The dual-title PhD degree in Pathobiology and CTS requires the completion of 18 credits of coursework, in addition to the completion of all requirements for the Pathobiology Ph.D. degree program. Coursework from an approved list of courses is required and covers the areas of epidemiology, bioinformatics, experimental design and interpretation, statistics, regulatory environment and scientific communication. A current list of approved coursework will be maintained by the CTS program head and will be available in the CTS program office and/or on the CTS website. Up to 6 credits of coursework may be
double-counted as elective courses to meet the requirements for the Ph.D. in Pathobiology. For students in the dual-title program, the candidacy examination will include content from both the Graduate Program in Pathobiology and the CTS programs and will be completed with the other Pathobiology students in the third semester. The student's doctoral committee will include faculty from Pathobiology and faculty with expertise in clinical and translational science. The fields of Pathobiology and CTS will be integrated in the student’s comprehensive examination. All dual-title students are required to conduct dissertation research that contributes fundamentally to the fields of Pathobiology and CTS.

Other Relevant Information

After a student has been admitted to graduate study in the department, an adviser will be appointed by the program director. This person may be a member of the eventual M.S. committee or someone else assigned the responsibility for directing the student’s scheduling of course work. In the case of a doctoral candidate, the person may be a member of the eventual doctoral committee or someone else designated the responsibility for directing the student’s scheduling of course work. The adviser is also responsible for initiating the scheduling of the candidacy examination.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

VETERINARY SCIENCE (V SC) course list

Public Health (PH)

Program Home Page.

VERNON M. CHINCHILLI Chair of the Department of Public Health Sciences
College of Medicine, Penn State Milton S. Hershey Medical Center
Hershey, PA 17033
717-531-7178

Degree Conferred:
M.P.H.

The Graduate Faculty

The Program

The Master of Public Health (M.P.H.) in Public Health program is a professional degree program that builds knowledge and skills in the five core areas of public health: biostatistics, environmental health sciences, epidemiology, health services administration, and social and behavioral sciences. In addition, the M.P.H. in Public Health program advances expertise in community and behavioral health, epidemiology and biostatistics, and health systems organization and policy. The M.P.H. degree leads to careers in a wide variety of fields and settings, including local, state, and federal government agencies; health care settings; health insurance industry; health services networks; nonprofits; and the pharmaceutical industry.

Admission Requirements

Admission to the Penn State MPH Program is granted jointly by the MPH Program and the Graduate School at Penn State.

For admission to the MPH Program, applicants must submit:

- Completed online Graduate School application with nonrefundable application fee
- Resume or curriculum vitae
- Statement of purpose
- Two letters of recommendation
- Two official transcripts from all colleges and universities attended
- Official scores from one of the following standardized tests taken within the past five years; Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), Medical College Admission Test (MCAT), or Law School Admission Test (LSAT)

Standardized Test Requirement Waiver 1: This requirement is waived for applicants who have an advanced degree beyond the baccalaureate.

Standardized Test Requirement Waiver 2: This requirement may be waived for applicants who, prior to submitting the application for admission, have successfully completed (with a grade of B or better in each course):

- At least one 3-credit graduate-level course in biostatistics; AND
- At least one 3-credit graduate-level course in epidemiology; AND
- At least one 3-credit graduate-level course in the social and behavioral sciences or health services administration core areas of public health

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral Language) or the IELTS (International English Language Testing System). The minimum acceptable score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guvana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

M.P.H. Degree Requirements

MPH students must complete a total of 45 credits of graduate level course work, the majority of which are 500 level courses, specifically:

- 27 credits in prescribed courses, including:
  - 21 credits of core classroom-based courses
  - 3 credit practicum experience
  - 3 credit capstone

- 18 credits in elective courses

The capstone course provides the students with the knowledge and skills to design, carry out, and present a scholarly public health project based upon competencies gained in previous courses. Topics include defining a scholarly project, selecting a topic and project type, describing the problem, reviewing the literature, identifying project methodology, presenting project results, ethics and scholarly work, writing and critiquing scholarly work, and creating and delivering a poster presentation.

Prescribed Courses: 27 credits

PHS 501(3), PHS 504(3) or BB H 504(3), PHS 520(3), PHS 536(3), PHS 542(3), PHS 550(3), PHS 571(3) or H P A 520, PHS 894(3), PHS 895A(3).

Additional Courses: 18 credits

The 18 credits of electives may be selected from a list of approved courses that is maintained by the graduate program office. Multiple tracks of specialization are available. Please visit www.mphprogram.psu.edu to learn more about the approved elective courses and available tracks.

Degrees Conferred:
Ph.D., M.A.

The Graduate Faculty

The Programs
Graduate education in the Penn State Department of Philosophy is characterized by a focus on, and commitment to, the history of philosophy, conceived as a basis for study in diverse areas of special interest. In addition, the graduate program includes special emphases on both contemporary Continental philosophy (including phenomenology, existentialism, hermeneutics, social theory, and postmodernism) and Classical American philosophy (including transcendentalism, semiotics, pragmatism, and contemporary cultural issues). All students' programs are arranged to facilitate preparation in the systematic fields of their interests, such as aesthetics, ethics, political philosophy, metaphysics, philosophy of religion, epistemology, philosophy of science, and mathematical logic, and there is a provision for directed research, collaboration, and in-depth consultation by students with member of the faculty.

Interdisciplinary study is also possible across the humanities, the social sciences, the arts, the natural sciences, and interdisciplinary programs such as Women's Studies, Classics and Ancient Mediterranean Studies, and Science Technology, and Society. The Philosophy department offers students the opportunity to earn a dual-title doctoral degree in Philosophy and Women's Studies. Doctoral minors are available in social thought and in literary theory, criticism, and aesthetics. Study abroad is possible as well, through exchange programs or individual arrangements with leading departments of philosophy.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Undergraduate preparation is advisable.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities, and interests.

Degree Requirements
The department may waive the requirement of a thesis for an M.A. candidate. The foreign language requirement for the Ph.D. degree is satisfied by passing department translation examinations in two languages other than English, and by completing a course in philosophy in one of these languages. The logic requirement for the Ph.D. degree is satisfied by passing a department logic examination.

Student Aid
Every student admitted to the department's Ph.D. program receives full assistantship or fellowship funding (stipend and tuition waiver) for five years (assuming reasonable progress). In addition to the many fellowships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the department awards annually an Edwin Erle Sparks Fellowship in the Humanities. In the last several years, Philosophy graduate students have received numerous external national and international fellowships and awards (such as DADD, Fulbright, Javits, Mellon). Many Philosophy graduate students have received assistantship support for interdisciplinary teaching assignments in programs such as American Studies, Classics and Ancient Mediterranean Studies, Religious Studies, and Women's Studies.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Graduate Faculty

The Program

The Master's Program in Public Health Sciences includes graduate-level course work in biostatistics, epidemiology, and health services research, and provides knowledge and insight required in health related research. Students learn population-based methods for planning, executing, analyzing, and disseminating research results, and methods for evaluating and improving health care practices.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Prospective applicants for this program should have at least a bachelor's degree in a biological, physical, or behavioral science. Please see the program web page for specific program application requirements.

Master's Degree Requirements

Each student in Public Health Sciences is expected to acquire breadth of knowledge in the disciplines of Biostatistics, Epidemiology and Health Services Research, and skills in the areas of experimental design, data collection and quantitative analysis. The PHS Master of Science degree can lead to careers in a wide variety of fields and settings, including academic health centers; the health insurance industry; health services networks; local, state, and federal government agencies; and the pharmaceutical industry. Each student must complete at least 30 credits at the 500 level or higher. Each student must submit an original Master's thesis according to the guidelines outlined by the Graduate School.

Prescribed Courses: 16 credits
PHS 500(1), PHS 520(3), PHS 521(3), PHS 536(3), PHS 550(3), PHS 551(3)

Additional Courses: 11 credits

Research Courses: 3 credits
PHS 594(3)

Thesis Research: 6 credits
PHS 600 (6)

Courses in Health Policy and Administration (HPA) and Statistics (STAT) may be taken as elective courses and will be considered on an individual basis in consultation with the student's academic adviser.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Penn State University Park
814-865-5679
Fax: 814-865-4602

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program
This is an intercollegiate program designed to enable students to obtain an integrated series of courses encompassing both the fundamentals of physiology and advanced training in a specialized area. Courses can be taken either at the College of Medicine at University Park campus.

Graduate instruction in physiology is under the direction of the program committee, composed of graduate faculty from several departments at University Park— including the areas of animal science, biochemistry, bioengineering, biology, kinesiology, microbiology, and nutrition, as well as the Department of Cellular and Molecular Physiology at the College of Medicine. The master's program, including courses, laboratory experience, and original research, is designed for completion in approximately two years, while the doctoral degree requires approximately five years.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements
Deficiencies in chemistry, biological science, mathematics (through a second course in calculus), and physics must be made up early in the student's graduate program. All candidates must complete a general basic laboratory course in physiology (combined cellular, mammalian, and comparative) before choosing an area of specialization. Possible areas of specialization are cardiovascular and respiratory physiology; cellular and subcellular physiology; comparative physiology; environmental physiology; exercise physiology; physiology of nutrition and metabolism; neurophysiology; renal physiology; and reproductive physiology. The graduate committee shall be appropriately represented by members of the physiology program committee and those of the area of specialization who shall have the responsibility and jurisdiction for determining the course program and research acceptable in satisfying degree requirements. The nonthesis option is available for the M.S. degree on a limited basis.

The communication and foreign language requirement for the Ph.D. degree may be satisfied by one of several options including intermediate knowledge of one foreign language.

Other Relevant Information
The following courses, among others, are available for physiology majors, and their descriptions may be found under the offerings of several departments: AGRO 545; AN SC 420, AN SC 423, AN SC 431W, AN SC 502, AN SC 514, AN SC 515; B M B 400, B M B 401, B M B 402, B M B 437; BIOE 501, BIOE 502, BIOE 503, BIOE 504, BIOE 505, BIOE 506, BIOE 507; BIOE 552, BIOE 553, BIOE 570; BIOL 409; BIOL 428, BIOL 429, BIOL 437, BIOL 445; BIOL 456, BIOL 457, BIOL 472, BIOL 473, BIOL 477, BIOL 479, BIOL 536, BIOL 539, BIOL 544, BIOL 550; CMPSC 412; EDPSY 400, EDPSY 406, EDPSY 450, EDPSY 506, EDPSY 507; KINES 456, KINES 457, KINES 484, KINES 530, KINES 565, KINES 567, KINES 577, KINES 587; MICRB 400, MICRB 401, MICRB 410, MICRB 412; NUC E 405, NUC E 420; NURS 503; NUTR 452, NUTR 454, NUTR 515, NUTR 581; PSYCH 453, PSYCH 506, PSYCH 507; PHYS 400, PHYS 402, PHYS 420, PTYSY 424, PTYSY 433; PSYCH 450, PSYCH 453, PSYCH 454, PSYCH 462, PSY 527; STAT 400, STAT 401, STAT 402, STAT 404, STAT 408, STAT 500, STAT 501, STAT 502, STAT 503, STAT 505; V SC 405, V SC 420.

The following courses are offered at the College of Medicine: ANAT 503, ANAT 505, ANAT 510, ANAT 512, ANAT 515, ANAT 520, ANAT 525, ANAT 542, ANAT 543, ANAT 544, ANAT 545, ANAT 550; BCHEM 505, BCHEM 523, BCHEM 528, BCHEM 551, BCHEM 553; L A M 501, L A M 503, L A M 507, L A M 510, L A M 515; MICRO 522, MICRO 554, MICRO 555, MICRO 559, NEURO 509, NEURO 510, NEURO 515, NEURO 526, NEURO 527, NEURO 528, NEURO 550; PHARM 505, PHARM 511, PHARM 515, PHARM 520, PHARM 540, PHARM 550. Descriptions of these courses can be found under the designated program.

Physiology Minor
The objective of the doctoral minor in Physiology is to augment the training of doctoral students with a coordinated group of courses that provide an integrated education in physiology from the molecular to the organismal level. It is expected that most students pursuing the minor will be graduate degree candidates in basic biological sciences, health sciences, or bioengineering.

The graduate minor in Physiology requires the following. (1) BIOL 472. If the student took a one-semester, upper-level undergraduate mammalian physiology course as an undergraduate, then this requirement may be waived with approval by the chair of the Physiology program. (2) PHSIO 571 and PHSIO 572. If these courses are required for the major, then substitute an equal number of credits in 500-level Physiology elective courses. (3) A 3-credit, 500-level Physiology elective course. (4) Select additional credits from 500-level Physiology courses or a relevant 400- or 500-level course so that the total course credits for the minor is 15. These 15 credits cannot include course work that is used to fulfill requirements in the student’s major. (5) Elective courses for the minor must be approved by the chair of the Physiology program. For a list of suggested courses, see “Other Relevant Information” in the Physiology section of this bulletin. (6) Students must earn a grade of C or better in each course and maintain an overall average of 3.00 in the minor. (7) One member of the doctoral committee must be a faculty member in the Intercollege Graduate Degree Program in Physiology.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

MRS. A. ROBERT NOLL GRADUATE FELLOWSHIP IN APPLIED PHYSIOLOGY
For graduate research in applied physiology, especially in environmental or exercise physiology; stipend variable.

Graduate course numbers range from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit The Pennsylvania State University
these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

DATE LAST REVIEWED BY GRADUATE SCHOOL: 5/27/04
UCA Revision #1: 9/1/06
Faculty linked: 6/27/14
Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty

The Programs
Graduate instruction and research opportunities are available in atomic and molecular physics, laser physics, experimental and theoretical condensed matter and materials physics, surface physics, low-temperature physics, statistical physics, acoustics, nuclear physics, experimental and theoretical particle physics, quantum field theory, general relativity, cosmology and relativistic astrophysics and quantum gravity. Work in some areas is conducted in cooperation with the Materials Research Institute, the Applied Research Laboratory, and other interdisciplinary research facilities.

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School Requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

A bachelor's degree in physics or an allied field is required for admission to the M.S., and Ph.D. programs. Students with a 2.50 or higher junior/senior grade-point average (on a 4.00 scale) in physics and mathematics will be considered, and the best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 2.50 GPA may be made for students with special backgrounds, abilities, and interests. Exceptions may also be made for applicants for doctoral programs who have completed master's degrees at other institutions.

Admission and study programs for the M.Ed. degree are handled on an individual basis.

Master's Degree Requirements
M.S. program: Required courses include PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561, or PHYS 410. There are two options. Thesis option: The thesis must be based on at least 6 credits of PHYS 600 and must conform to Graduate School regulations. Nonthesis option: An additional 6 credits of 500-level physics courses beyond the required ones must be taken, and a short paper must be submitted to, and accepted by, the department. There is no degree examination for either option.

M.Ed. program: At least 18 credits in physics are required, of which up to 6 credits may be for research. Six additional nonresearch science credits (which may be in physics) and a 6-credit minor in a field of professional education also must be included. A thesis or term paper must be submitted and accepted by the department.

Doctoral Degree Requirements
Ph.D. program: Required courses include PHYS 517, PHYS 525, PHYS 530, PHYS 557, PHYS 559 (2 credits), PHYS 561, PHYS 562, and a first-year seminar series. Courses required beyond these depend on the Ph.D. option. Students take at least four additional 3-credit, 500-level physics courses.

A candidacy examination is given at the end of the first year, a comprehensive examination approximately two years after the candidacy examination, and a final thesis defense takes place after the completion of the thesis. There is no departmental foreign language requirement, although a reading knowledge of one foreign language may be needed in some areas of research.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

HOMER F. BRADDOCK GRADUATE FELLOWSHIPS Available to exceptional Ph.D. candidates in several departments of the Eberly College of Science. They carry stipends of $3,500 to $7,500 per year for each of the first three years.

WHEELER P. DAVEY MEMORIAL FELLOWSHIPS Carry stipend of variable amount and are available to a limited number of qualified graduate students in the Eberly College of Science.

DAVID C. DUNCAN GRADUATE FELLOWSHIPS Available to first- and second-year graduate students in physics and carry a stipend of approximately $2,000 per year for each of the first two years.

FRYMOYER SCHOLARSHIP

W. DONALD MILLER GRADUATE FELLOWSHIP

DAVID H. RANK MEMORIAL PHYSICS AWARD

THE NELLIE AND OSCAR L. ROBERTS FELLOWSHIPS Available to graduate students majoring in the physical sciences and in biochemistry and molecular biology. Each award is for $4,000 per year for one or two years.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

PHYSICS (PHYS) course list
The Program

The purpose of the graduate program in Political Science is to train professional political scientists who intend to pursue careers in research, teaching, and public service. The department offers programs leading to the M.A. and Ph.D. degrees. The programs are designed to enable students to acquire both methodological sophistication and substantive knowledge in a variety of fields.

The graduate program in Political Science encourages the study of a variety of substantive concerns, methodological approaches, and research skills. Among the department's special areas of strength are United States politics and political behavior (legislative politics, public opinion and voting, parties and interest groups, and judicial process); political and social theory; international relations and peace science; and the politics of western and eastern Europe, Latin America, and South Asia; international conflict; international political economy; democratization; social movements; political culture; gender and politics. A dual-degree program with Women's Studies is also available.

Admission Requirements

Entrance to the Political Science graduate program occurs in the fall semester. Applications must be received by the department not later than January 15 for fall admission. However, the department will begin accepting applications as of September 1.

The Department of Political Science requires M.A. and Ph.D. program applicants to submit transcripts, Graduate Record Examinations (GRE) scores (verbal, quantitative, and analytical), a statement of career plans and proposed emphasis in political science, at least three letters of recommendation from persons familiar with the applicant's academic performance, and a writing sample demonstrating research and/or analytical skills.

The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for IELTS is 6.5. Specific graduate programs may have more stringent requirements.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Students can be admitted to the master's program or, after passing a Ph.D. candidacy exam, can be admitted to the Ph.D. program with a master's degree.

Master's Degree Requirements

Depending on the student's previous methodological training, 30 credits of course work, including an essay, are required for a master's degree. The course work includes a methodological core of 9 credits (PL SC 501, 502, and 503); 12 credits in a primary field (including the survey seminar in the field); 6 credits in a secondary field; and 3 credits for the M.A. essay. Students also take a seminar on teaching and professional development in political science. There are no language requirements for the degree. Every master's candidate is required to pass an examination of their master's essay.

In the case of transfer students, a maximum of 10 credits earned in an advanced degree program at another university or in another department at Penn State will count toward the 30-credit requirement.

Doctoral Degree Requirements

The Department of Political Science requires a minimum total of 60 post baccalaureate credits for the Ph.D. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement.

In the case of transfer students, a maximum of 30 credits earned in an advanced degree program at another university or in another department at Penn State will count toward the 60-credit requirement.

The department requires that a student complete the designated "core" courses in methodology (PL SC 501, 502, and 503) and a seminar on teaching and professional development in political science. Ph.D. degree candidates must present three fields for the purposes of comprehensive examinations. The major and one of the minor fields must be selected from the department's recognized fields, and one of the minor fields may be outside political science. The major field requires a minimum of 15 credits; each minor field requires a minimum of 9 credits.

The communication and foreign language requirement for the Ph.D. may be satisfied by advanced course work and competence developed in foreign languages, statistics, or other research methods.

Dual-Title Graduate Degree in Political Science and Asian Studies

Graduate students with research and educational interests in international education may apply to the Political Science/Asian Studies Degree Program. The goal of the dual-title degree Political Science and Asian Studies is to enable graduate students from Political Science to acquire the knowledge and skills of their major area of specialization in Political Science while at the same time gaining the perspective of Asian Studies.

In order to prepare graduate students for the competitive job market, this program provides them with a solid disciplinary foundation that will allow them to compete for the best jobs in their field. For such students the dual-title Ph.D. in Asian Studies will add value to their degree and their status as candidates. It will produce excellent political scientists who are experts in Asian Studies as well. The dual-title degree Political Science and Asian Studies will build curricular bridges beyond the student's major field so as to provide a unique training regime for the global scholar.
Additional details of the dual degree program are available in separate documentation and from the Asian Studies Program (see http://asian.la.psu.edu/graduate.shtml).

**Admission Requirements**

For admission to the Dual-Title Ph.D. degree, a student must first apply and be admitted to the Political Science graduate program. After admission to the Political Science graduate program, a student must then apply for admission to the Asian Studies Program. The Asian Studies admissions committee reviews applications and recommends student for admission to the Asian Studies program to the Graduate School. Applicants should have a junior/senior cumulative average of at least 3.00 (on a 4.00 scale) and appropriate course background. Students already in their first and second years of the Political Science graduate program may also apply to the dual-title program.

In addition to the requirements of the Graduate School and Political Science, applicants interested in the dual-title program should also make their interest in the dual-degree program known clearly on their applications and include remarks in their statement of purpose that address the ways in which their research and professional goals reflect an interest in interdisciplinary and Asian Studies-related research.

General Graduate School requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

**Degree Requirements**

To qualify for an Asian Studies degree, students must satisfy the requirements of the Political Science program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Asian Studies committee. Within this framework, final course selection is determined by the student, their Asian Studies advisor, and their Political Science program advisor.

Upon a student’s acceptance by the Asian Studies admissions committee, the student will be assigned an Asian Studies academic advisor in consultation with the Asian Studies chair. As students develop specific scholarly interests, they may request that a different Asian Studies faculty member serve as their adviser. The student and adviser will discuss a program of study that is appropriate for the student’s professional objectives and that is in accord with the policies of the Graduate School, the Political Science department and the Asian Studies program.

**Requirements for the Political Science/Asian Studies Ph.D.**

The doctoral degree in Political Science and Asian Studies is awarded only to students who are admitted to the Political Science doctoral program and admitted to the dual-title Ph.D. degree in Asian Studies. The minimum course requirements for the dual-title Ph.D. degree in Political Science and Asian Studies are as follows:

- A minimum total of 60 post-baccalaureate credits. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement.
- At least 45 credits, exclusive of dissertation research, must be in Political Science.
- Completion of course work in two major fields (the first of which is a Political Science subfield as detailed in the Political Science graduate handbook, and the second of which is Asia-related) and one minor field (in a regular political science subfield).
- Completion of the designated core of courses in methodology (PL SC 501, 502, and 503).
- Completion of at least 5 credits of writing, and professional development in political science.
- Completion of introductory field seminars appropriate to one’s three fields of study.
- 15 credits of Asia-related coursework at the 400 or 500 level. At least 6 of these 15 credits will be from ASIA 501 and 502. As many as 6 may come from Political Science, as approved by the student’s doctoral advisor and the Asian Studies Program director of graduate studies. The remaining 3 credits can be taken in ASIA or in any department other than Political Science.
- All-skills proficiency is one Asian Language AND two years’ college study (or equivalent knowledge) of another Asian language OR alternative proficiency appropriate to the student’s field.

Particular courses may satisfy both the Political Science requirements and those of the Political Science/Asian Studies Ph.D. program. Final course selection is determined by the student in consultation with their dual-title program advisors and their major program advisors.

**Dual-Title Graduate Degree in Political Science and African Studies**

Political Science doctoral students, who have research and educational interests in comparative policy analyses, environmental change and livelihood systems, socio-economic and political change, and other aspects of African Studies may apply to the Dual-Title Doctoral Degree Program in Political Science and African Studies. The goal of the program is to enable graduate students from Political Science to complement their knowledge and skills in a major area of specialization in Political Science with in-depth knowledge of prevailing theories on and problem-solving approaches to thematic, regional, or national issues pertaining to African development and change.

The Dual-Title Doctoral Degree Program provides interested Political Science doctoral students with a multidisciplinary approach that enhances their analytical capabilities for addressing key issues in African development and adds value to their Political Science degree by increasing their competitiveness in the job market. The well-rounded, regional specialist who graduates from this program, is likely to be employed in an international setting. The program, therefore, enhances the reputation of the Political Science department, the College of the Liberal Arts, and Penn State.

**Admission Requirements**

Students must apply and be admitted to the graduate program in Political Science and The Graduate School before they can apply for admission to the dual-title degree program. Applicants interested in the dual-title degree program may make their interest in the program known clearly on their applications to Political Science and include remarks in their statement of purpose that address the ways in which their research and professional goals reflect an interest in African Studies-related research.

To be enrolled in the Dual-Title Doctoral Degree Program in African Studies, a student must submit a letter of application and transcript, which will be reviewed by an African Studies Admissions Committee. An applicant must have a minimum grade point average of 3.0 (on a 4 point scale) to be considered for enrollment in the dual-title degree program. Students must apply for enrollment into the dual-title degree program in African Studies prior to obtaining candidacy in Political Science.

General Graduate Council requirements are stated in the GENERAL INFORMATION section of the Graduate Bulletin.

**Degree Requirements**

To qualify for the dual-title degree, students must satisfy the requirements of the Political Science program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Asian Studies Program. Final course selection is determined by the student in consultation with their political science advisor.

Upon acceptance by the Asian Studies admissions committee, the student will be assigned an African Studies academic advisor in consultation with the African Studies director and the African Studies admissions committee.

As a student develops specific scholarly interests, s/he may request that a different African Studies advisor from the one assigned by the African Studies admissions committee. The student and Political Science and African Studies academic advisors are to establish a program of study that is appropriate for the student’s professional objectives and that is in accordance with the policies of the Graduate Council, the Political Science graduate program and the African Studies Program.

**Requirements for the Political Science/African Studies Ph.D.**

The Ph.D. in Political Science and African Studies is awarded to students who are admitted to the Political Science doctoral program and admitted subsequently into the dual-title degree in African Studies. The minimum course requirements for the dual-title Ph.D. degree in Political Science and African Studies are as follows:

- A minimum of 60 post-baccalaureate credits. Course work accepted for the M.A. in Political Science will count toward the 60-credit requirement. At least 45 credits, exclusive of dissertation research credits, must be in Political Science.
- Completion of coursework in two major fields (the first of which is a Political Science subfield as detailed in the Political Science graduate handbook, and...
the second of which is in African Studies) and one minor field (in a regular Political Science subfield).

- Completion of the designated core of courses in methodology (PL SC 501, 502, and 503).
- Completion of two 1.5-credit seminars on teaching, writing, and professional development in Political Science.
- Completion of introductory field seminars appropriate to one’s two political science fields of study.
- AFR 501 (3)
- 15 credits of Africa-related coursework at the 400 or 500-level; minimum of 3 of these credits must be taken from a list of courses maintained by the African Studies program chair.
- As many as 6 of the 15 credits may come from Political Science, as approved by the student’s Political Science and African Studies Program academic advisors.
- The remaining credits can be taken in AFR or in any other department other than Political Science. Of these, no more than 6 credits may be taken at the 400-level and no more than 3 combined credits may come from 596 and 599 listings.
- Communication and foreign language requirements, which will be determined by the student, the Political Science and African Studies Program advisors in accordance with the existing Political Science language requirements.

Language Requirement

The language requirement for a student in the Dual-Title Doctoral Degree Program will be determined by the student and the Political Science and African Studies Program advisors in accordance with the existing Political Science language requirements. The Political Science Foreign Language/Research Skills Competency requirement, contained in the Political Science Graduate Handbook, indicates that Doctoral students must satisfy one of the following four options to demonstrate proficiency in foreign language and/or research skills:

1) Reading proficiency and translation skills in two foreign languages. Proficiency is certified by the School of Languages and Literatures at Penn State. The School’s website details the procedures that students must follow to obtain certification (see http://sll.la.psu.edu/langprof.htm).

2) Superior command of one foreign language. Superior command is defined as the ability to use the language to conduct field research abroad. This may include the ability to live and work in the relevant foreign country; the ability to converse with librarians, government officials, and other gatekeepers of documents and information; and the ability to conduct interviews with citizens or officials. There is no single test or criterion for demonstrating superior command of a foreign language. Rather, the student must provide to the doctoral committee letters from language instructors, faculty who have conducted fieldwork in the language in question, and similar documents so that its members can determine if the language skill is sufficient given the student’s specialization and subfield.

3) Reading and translation proficiency in one foreign language plus a grade of B or higher in an advanced statistics course (i.e., material beyond that covered in PL SC 503) which has been approved by the student’s doctoral advisor and the Director of Graduate Studies.

4) A statistical methods specialization consisting of three advanced statistics courses (each covering material beyond what is covered in PL SC 503). Students must receive a grade of B or higher in each class. The selection of courses must be approved by the student’s doctoral advisor and the Director of Graduate Studies. These advanced courses may overlap with the advanced courses used if methodology is chosen as the student’s first or second minor field.

Candidacy Exam

The dual-title degree will be guided by the Candidacy Exam procedure of the Political Science graduate program. The candidacy exam for the dual-title degree may be given after at least 18 post-baccalaureate credits have been earned in graduate courses; it must be taken within three semesters (summer sessions do not count) of entry into the Political Science graduate program. There will be a single candidacy examination, containing elements of both Political Science and African Studies.

The candidacy examination committee for the dual-title degree will be composed of graduate faculty from Political Science and at least one graduate faculty member from the African Studies Program. The designated dual-title faculty member may be appointed from Political Science if that person holds a formal appointment with the African Studies program.

Committee Composition

The doctoral committee of a dual-title doctoral degree student must include a minimum of four Graduate Faculty members, i.e., the chair and at least three additional members. The committee must include at least one member of the African Studies graduate faculty.

If the chair of the committee representing Political Science is not also a member of the graduate faculty in African Studies, the member of the committee representing African Studies should be appointed as co-chair.

Comprehensive Exam

After completing all course work, doctoral candidates for the dual-title doctoral degree in Political Science and African Studies must pass a comprehensive examination that includes written and oral components. Written components will be administered on a candidate’s major Political Science subfield and African Studies. The African Studies representative on the student’s doctoral committee will develop questions for and participate in the evaluation of the comprehensive examination. The African Studies component of the exam will be based on the student’s thematic, national or regional area of interest and specialization in African Studies.

Dissertation and Dissertation Defense

Upon completion of the doctoral dissertation, the candidate must pass a final oral examination (the dissertation defense) to earn the Ph.D. degree. Students enrolled in the dual-title program are required to write and orally defend a dissertation on a topic that reflects their original research and education in Political Science and African Studies.

Other Relevant Information

Penn State is a member of the Committee on Institutional Cooperation (CIC), an association of the Big Ten universities and the University of Chicago. The CIC sponsors the Traveling Scholars program, which provides doctoral-level students with an opportunity to study at another CIC university. In addition to participating in CIC programs, the department sponsors attendance at the ICPSR Summer program at the University of Michigan.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program

The Intercollege Graduate Degree Program in Plant Biology includes faculty from nine departments in the College of Agricultural Sciences, College of Engineering, and Eberly College of Science. Each student becomes associated with the adviser’s department, which may provide financial support, research facilities, and office space. Applicants are encouraged to explore opportunities by contacting faculty who may be prospective advisers.

The objective of this program is to educate and train plant biologists using the most modern techniques available today. Graduates from this program have gone on to a diverse range of careers, including positions in colleges and universities, research institutes, industry, and government. Research interests of the program faculty span the breadth of scientific areas ranging from molecular, cell, and evolutionary biology, biochemistry, biophysics, genetics, and functional genomics to whole-plant physiology and ecology. Student training includes a comprehensive set of team-taught courses that reflect this breadth of scientific approaches.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) Aptitude Test (verbal, quantitative, analytical) are required for admission. At the discretion of the graduate program officers, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and with appropriate course background will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces available for new students. Students entering this program should have had a strong foundation in the biological sciences, including biochemistry, general physics, and college mathematics through calculus. Students with limited deficiencies may be admitted but must make up their deficiencies concurrently with their graduate studies. B.S.-level applicants with good academic records who have had strong training in plant biology and related courses, including research experience, are generally admitted directly into the Ph.D. program and bypass the M.S. degree.

Master's Degree Requirements

Candidates for the M.S. must take a written diagnostic examination during the first academic year in the program. The functions of this test are to (1) determine the areas of expertise and deficiency in the student’s academic preparation and (2) serve as an early screening system to eliminate students with too great an academic deficiency to continue in the program.

As part of the core courses for any degree in the Plant Biology program, all students must enroll in the two tutorial courses, PLBIO 512 and PLBIO 513, and an ethics course, IBIOS 591. Students are presented with advanced lectures in various areas of plant biology and must prepare approximately three written solutions to problems per semester. This dossier of papers constitutes the written diagnostic examination for the M.S. degree and is also used for evaluation of English writing competency. At the end of the respective semesters, the faculty coordinator will present a summary and evaluation of the student’s progress to the Candidacy Examination Committee. The committee will then decide if the student has passed the written diagnostic examination and satisfied English writing competency.

All M.S. degree candidates will be required to complete 30 credits of course work. In addition to the courses mentioned previously, students must include two biochemistry courses, 1 credit of colloquium (PLBIO 590), and at least 6 credits of thesis research (PLBIO 600 or PLBIO 810) in their program and they must complete a thesis. Upon recommendation of the advisory committee, equivalent courses taken at another university may be substituted for the above requirements.

Doctoral Degree Requirements

Students in the Ph.D. program must successfully pass the candidacy, comprehensive, and final examinations required by the Graduate School. One of the main goals of the candidacy examination is to determine the potential of a student to successfully obtain a Ph.D. degree and is intended to be a vigorous test of a student’s abilities, prior to the major investment in time and effort necessary to pass the comprehensive examination.

As in the M.S. program, students enrolled in the Ph.D. program must pass a written English competency evaluation based on the dossier of papers written for PLBIO 512 and PLBIO 513. This evaluation is done at the end of the student’s first year. The oral candidacy examination is based on two of the papers, jointly chosen by the student and the Candidacy Examination Committee, and must be passed by the end of the student’s third semester.

Ph.D. candidates must complete the core courses required for the M.S. plus three 2-credit courses dealing with theory and techniques of plant ecophysiology, plant cell biology, and plant molecular biology (PLBIO 514, PLBIO 515, PLBIO 516) and 2 credits of colloquium (PLBIO 590). Upon recommendation of the candidacy committee, equivalent courses taken at another university may be substituted for some of the above requirements. Based on the results of the candidacy examinations, the major professor and the student’s advisory committee will determine other course requirements.

Other Relevant Information

The following courses are some of the courses available for Plant Biology majors, in addition to the required courses. Their descriptions may be found under the offerings of several departments: AGRO 517, AGRO 518; BIOL 407, BIOL 431, BIOL 441, BIOL 448, BIOL 510, BIOL 513; BMMB 514, BMBB 520, BMMB 525; HORT 402W, HORT 407, HORT 412W, HORT 420, HORT 440W, HORT 444, HORT 445, HORT 517, HORT 520; PPATH 405, PPATH 516, PPATH 543; any course offered by the Plant Biology program.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the Student Aid section of the Graduate Bulletin. In most participating departments, Plant Biology applicants are eligible for departmental teaching or research assistantships, and other assistantships supported by grant funds of individual faculty who make these award decisions.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet

The Pennsylvania State University
some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Master of Professional Studies in Psychology of Leadership at Work

The MPS degree in Psychology of Leadership at Work is a 33-credit program of study for individuals who are in the early and middle stages of their organizational careers, currently in or aspiring to managerial positions. The content of the program will be appropriate for such individuals employed in a wide range of functional specialties and industry sectors, including public agencies.

The MPS degree in Psychology of Leadership at Work examines the nature and role of leadership across varied organizational settings. Leadership is broadly defined as the process of influencing others (individually or collectively) in organizational settings. Program content rather exposes the student to a broad range of psychological theory, research, and application related to leading others in work organizations of all types. Courses address how effective leadership can enhance the motivation and performance of individual employees and work teams and are designed to facilitate the solving of complex human issues within diverse organizational settings.

Admission Requirements

Educational Background
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Students who do not have a GPA of at least 3.0 will be considered on a case-by-case basis depending on the quality of their overall application. Applicants who are still completing their baccalaureate requirements at the time of application may be admitted to the Graduate School provisionally, pending the awarding of the baccalaureate degree. Students are also expected to have a minimum of two years of full-time work experience prior to admission.

Language of Instruction
The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Core Application Packet

- Completed official online Graduate School application and payment of nonrefundable application fee.
- Statement of purpose: a 2-3 page essay articulating career and educational goals that demonstrates the student’s written communication skills.
- A current vita or resume.
- Three letters of recommendation that attest to the student’s readiness for graduate study and document the requisite minimum of two years of work experience. Letters must be submitted through the online application. Within the online application you will be asked to enter the names and email addresses of three individuals who will be providing your recommendation. Those individuals will receive a note via email asking them to complete a brief form that will serve as your recommendation. Please inform all recommenders they must submit the form in order for your application to be complete.
- Two official transcripts from each institution attended.

Degree Requirements

Total required credits for the MPS: 33 credits at the 400 level or higher; at least 27 must be at the 500 level or higher, with at least 6 at the 500 level.

Required courses: (9 credits, plus the 3-credit capstone course described below)
- PSY 532. Psychological Foundations of Leadership
- PSY 533. Ethics and Leadership: Psychological and Social Processes
- PSY 539. Foundations of Behavior, Motivation, and Attitudes at Work

Supportive (elective) courses: (15 credits)
- LEAD 555. Full Range Leadership Development
- PSY 811. Global and Cross-Cultural Leadership
- PSY 812. Group Leadership and Effective Decision Making
- PSY 813. Leadership for Creativity and Innovation
- Either PSY 814. Psychology of Leading Work Groups and Teams or LEAD 556 - Diversity Leadership
- PSY 815. Psychology of Servant and Authentic Leadership
- PSY 816. Dysfunctional Leadership
- PSY 817. Psychology of Shared and Collective Leadership

Electives Courses: (6 credits)
- CAS 404. Conflict Resolution and Negotiation
- LER 464/OLEAD 464. Communication Skills for Leaders in Groups and Organizations
- MGMT 507. Positive Organizational Behavior and Wellbeing

The Pennsylvania State University
Culminating Experience: (3 credits)

PSY 894. Capstone Experience

The culminating experience provides students with an opportunity to apply their knowledge of the psychological theories and principles concerning leadership to an applied research project. The choice of research project topic and exact form (e.g., conceptual analysis, review of multiple cases in an organization) will be mutually determined by the instructor and each student. A written paper based on the applied project is required and must contain project description, analysis, and interpretation of its findings, as well as a review of relevant published literature.

Course Substitutions/Financial Aid

Course Substitutions
Substitutions for the above prescribed courses, either with resident-education courses, alternate online courses, or courses from other institutions, will be considered on a case-by-case basis within Graduate Council policy, and must be petitioned and approved in advance by the program administrator, with input from the student’s adviser.

Student Aid
Financial aid opportunities for part-time students who participate through the World Campus are described at http://worldcampus.psu.edu/StudentServices_Paying.shtml

Last Revised by the Department: Summer Session 2014

Plant Pathology (PPATH)

Program Home Page
Fred Gildow, Head of the Department of Plant Pathology
212 Buckhout Laboratory
814-865-7448

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty
- Paul A. Backman, Ph.D. (California) Professor of Plant Pathology
- David M. Beyer, Ph.D. (Penn State) Professor of Plant Pathology
- Barbara J. Christ, Ph.D. (British Columbia) Senior Associate Dean; Professor of Plant Pathology
- Donald D. Davis, Ph.D. (Penn State) Professor of Plant Pathology
- David M. Geiser, Ph.D. (Georgia) Professor of Plant Pathology
- Frederick E. Gildow, Ph.D. (Cornell) Department Head; Professor of Plant Pathology
- Beth K. Gugino, Ph.D. (Penn State) Assistant Professor of Plant Pathology
- John M. Halbrendt, Ph.D. (Missouri) Associate Professor of Plant Pathology
- Scott A. Isard, Ph.D. (Indiana) Professor of Aerobiology
- Maria del Mar Jimenez Gasco, Ph.D. (Cordoba, Spain) Assistant Professor of Plant Pathology
- Seogchan Kang, Ph.D. (Wisconsin) Professor of Plant Pathology
- Gretchen A. Kulda, Ph.D. (California) Associate Professor of Plant Pathology
- Timothy W. McNellis, Ph.D. (Yale) Associate Professor of Plant Pathology
- Gary W. Moorman, Ph.D. (North Carolina State) Professor of Plant Pathology
- C. Peter Romaine, Ph.D. (Cornell) Professor of Plant Pathology
- Marilyn Roossinck, Ph.D. (Colorado School of Medicine) Professor of Plant Pathology and Biology
- Daniel J. Royse, Ph.D. (Illinois) Professor of Plant Pathology
- Wakar Uddin, Ph.D. (Georgia) Associate Professor of Plant Pathology
- Yinong Yang, Ph.D. (Florida) Associate Professor of Plant Pathology

The Program
Plant pathology is the study of disease in plants and concerns the dynamic interaction between the plant, the causal agent (bacteria, fungi, viruses, nematodes, etc.), and their environments. A student prepares for a professional career in research, teaching, extension, or industry through advanced studies of the principles of plant infection, the physiology of disease in plants, the ecology of root diseases, the nature and inheritance of disease resistance in plants, epidemiology, ecology and physiology of air pollution injury to plants, or plant disease control by biological or chemical means. A student also may specialize in the nature and control of the diseases of forest trees, agronomic or horticultural crops, and commercial mushrooms. Advanced studies in molecular systematics of fungi and applied mycology, related to the production of the commercial mushroom, also may be taken. Modern, well-equipped laboratories, controlled environment facilities and greenhouses, and well-developed field research areas are available for graduate study.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Students scoring in the fiftieth percentile or above on each section of the GRE will be given preference. The best-qualified applicants will be accepted up to the number of spaces and advisers that are available for new students. Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Students are expected to have a strong foundation in biological and physical sciences. Generally, students with B.S. degrees in biology, microbiology, plant science, molecular biology, or biochemistry are well prepared.

Degree Requirements

M.S. DEGREE
The master of science degree program in Plant Pathology leads students either to the development of special proficiencies in Plant Pathology, which will allow the individual to directly enter a professional career, or to the development of a basic knowledge of the discipline, allowing for advancement to the Ph.D. degree. M.S. degree students will be introduced to the broad aspects of the field of plant pathology, including exposure to the various causal agents of plant disease and the diseases they incite; diseases of current and classical importance affecting a wide range of crop plants; a variety of techniques used to isolate, characterize, and identify causal agents of plant disease; and an appreciation for the relationship between plant pathology and other biological and physical sciences.

Required Courses for the M.S. Degree are: PPATH 405, 416, 417, 425, 502, and 590. Candidates are required to take a minimum of 6 additional credits of Plant Pathology courses from a list provided by the department.

Candidates for the M.S. degree in Plant Pathology must present a thesis to their graduate advisory committee.

Ph.D. DEGREE
Students earning a Ph.D. degree from Penn State should have a thorough understanding of the complex interaction between the pathogen and its host. They should know how representative pathogens are dispersed and enter hosts and how the environment mediates these processes. They should understand the role that the pathogen, host genes, and metabolic products play in pathogenesis. They must be aware of the mechanisms the host has to defend it and how these are breached by a successful pathogen. They must know the parameters involved in disease development and with this knowledge be able to apply measures of control.

Candidates for the Ph.D. degree in Plant Pathology are required to have an M.S. in plant pathology or a closely related field, or equivalent educational background. In addition, all students must enroll in PPATH 505 and other courses tailored to the individual by the candidate’s doctoral advisory committee. Ph.D. candidates must prepare a thesis and present seminars in the departmental colloquium (PPATH 590), through which English communication skills will be evaluated. During their studies, Ph.D. students will have an opportunity to assist in teaching a disciplinary subject.
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

PLANT PATHOLOGY (PPATH) course list

Dual-Title Graduate Degree in Plant Pathology (PPATH) and International Agriculture and Development (INTAD)

Graduate students with research and educational interests in international education may apply to the Plant Pathology/INTAD Dual-Title Degree Program. The goal of the dual-title degree Plant Pathology and INTAD graduate program is to enable graduate students from Plant Pathology to acquire the knowledge and skills of their primary area of specialization in Plant Pathology, while at the same time gaining the perspective and methods needed for work in the international agriculture. Graduate studies in this program seeks to prepare students to assume leadership roles in science, science education, outreach, and project management anywhere in the world. Students are required to write research proposals and expected to write grants to support their research activities, reflecting the dual-title degree. As part of their professional development presentations, publication of research articles and active participation in professional societies is expected. Emphasis is placed upon the professional development of the student. Students are able to specialize in the research program areas of plant-microbe interactions, plant disease biology and epidemiology, environmental microbiology, mycology, plant virology, mushroom biology, genomics and disease management. At the same time they will acquire a broad perspective about how to apply their research findings in the context of the broader international community. Thus, the dual-title will allow students to master their field of specialization from an international perspective so that they can compare practices and outcomes between countries and regions.

Admission Requirements
For admission to the dual-title doctoral degree under this program, a student must first apply and be admitted to the Plant Pathology graduate program. Once accepted into the Plant Pathology program, the student can then submit an application to the INTAD Academic Program Committee for the dual-title degree program. The application consists of a written personal statement indicating the career goals that a student hopes to accomplish by earning a dual-title PPATH/INTAD degree. Requirements listed here are in addition to the admission requirements for the Plant Pathology graduate program.

Degree Requirements
To qualify for this dual-title degree, students must satisfy the requirements of the Plant Pathology program. In addition, they must satisfy the requirements described below, determined by the student, the INTAD advisor, and the Plant Pathology program advisor.

Degree Requirements for PPATH/INTAD Dual-Title M.S.
The master's in Plant Pathology and INTAD is a dual-title degree awarded only to students who are admitted to the Plant Pathology master's program and admitted to the dual-title degree in INTAD and who complete all requirements for the degrees. In addition to the requirements of the Plant Pathology degree, dual-title degree students must:

Course Requirements
Complete a minimum of 12 INTAD course credits (400, 500, or 800 level) as follows:
- 9 credits from the core curriculum:
  - Program Design and Delivery (AEE 450, 3 credits)
  - Leadership Development (CEDEV/R SOC/AEE 505, 3 credits, on-line)
  - International Agricultural Development Seminar (INTAD 820, 3 credits)
- 3 credits of internship or applied courses/independent studies with international development content

Thesis
Write a master's thesis on a topic that reflects both the graduate program in plant pathology and the dual-title offering in INTAD. Thesis research credits (SUBJ 600) must be taken in the major program.

All members of the student's committee for the dual-title master's degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Candidates for the dual-title master's degree in Plant Pathology and INTAD will also be required to pass a final oral examination covering the general field of plant pathology and INTAD, with emphasis on the student's area of specialization. The oral exam is to be administered by the student's thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate program requirements and those of the INTAD program. Final course selection is determined by the students in consultation with their INTAD advisors and their Plant Pathology program advisors. Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course; however, the requirement for 18 credits at the 500-level or above must still be met, in total, across both the major and the dual-title courses of study. Students and advisors should maintain the INTAD Master Degree Plan of Study, which must be submitted to the INTAD program office two months before the student files the "Intent to Graduate" via eLion.

Degree Requirements for PPATH/INTAD Dual-Title Ph.D.
The doctoral degree in Plant Pathology and INTAD is a dual-title degree awarded only to students who are admitted to the Plant Pathology doctoral program and admitted to the dual-title degree in INTAD and who complete all requirements for the degrees. The minimum requirements for the dual-title Ph.D. degree in PPATH/INTAD, in addition to the Plant Pathology requirements, are as follows:

Course Requirements
Students must complete a minimum of 18 INTAD course credits with study in the following categories:
- 9 credits from the core curriculum
- International Agricultural Development Seminar (INTAD 820, 3 credits)
- International Rural Social Change (R SOC 517, 3 credits)
- Sociology of Agriculture (R SOC 508, 3 credits) or Human Dimensions of Natural Resources (R SOC 555, 3 credits)
- 9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Permission from a student's academic advisor, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course. Particular courses may satisfy both the Plant Pathology Department requirements and those in the INTAD program. Final course selection is determined by the student in consultation with the INTAD advisor and the Plant Pathology program advisors.

Graduates of the dual-title INTAD master's degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master's degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master's degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

The Pennsylvania State University
Candidacy

Candidacy procedures will be based on the procedures of Plant Pathology and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student’s Plant Pathology advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of the Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both Plant Pathology and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official “outside field member” also must be appointed to the committee, in accordance with the requirements outlined in the Graduate Bulletin.

Comprehensive Exam

At the end of the coursework, candidates for the dual-title doctoral degree in Plant Pathology and INTAD will be required to pass an oral comprehensive examination based on their dissertation proposal and area of specialization in plant pathology, while reflecting their dual-title curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the comprehensive exam and the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive examination.

Dissertation and Dissertation Defense

Ph.D. students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects their original research and education in both Plant Pathology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. A public oral presentation of the dissertation is required.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

INTAD course list

Review Date: 02/21/2012
Faculty linked: 6/27/14
Project Management (PRMGT)

JEFFREY PINTO, Program Chair
Penn State Erie, The Behrend College
Station Road
Erie, PA 16563

The Graduate Faculty

The Program
The Master of Project Management (MPM) is a 30-credit graduate degree program that emphasizes all aspects of project management theory and practice. The MPM is interdisciplinary and utilizes problem-based learning as well as a combination of face-to-face and Web-based instructional methods to transcend time and space, and to support effective teaching and learning. The key themes of the MPM include: planning, cost, and value management; project control; human issues in project management; strategic issues in project management; and commercial and procurement law as it relates to project management.

Degree Requirements
Students complete eight required courses (24 credits) in which they apply course concepts to project management scenarios through the use of cases, simulations, or assignments in their employing organizations. The required courses are:

MANAGEMENT (MANGT)
510. Project Management (3)
515. Cost and Value Management (3)
520. Planning and Resource Management (3)
525. Commercial Law and Project Management (3)
531. Organizations (3)
535. Interpersonal and Group Behavior (3)
540. Strategy: Corporate, Business, and Project (3)
575. Management of Projects (3)
596. Independent Studies (6)

In addition, students take 6 credits of elective courses. Electives may include additional program-approved courses or an applied research project focusing on some aspect of project management completed as an independent study. All students must attend a minimum of one on-site residency experience for two to three days in order to complete the graduation requirements of the program. Attendance at additional annual residency events is encouraged but optional.

Admission Requirements
Only candidates who demonstrate high promise of success for graduate work are admitted to the MPM program. All applicants must have received from a regionally accredited institution a baccalaureate degree earned under residence and credit conditions that are deemed substantially equivalent to those currently required by Penn State. Admission decisions are based on undergraduate grade-point average, Graduate Management Admission Test (GMAT) scores, and a personal essay.

Applicants must achieve a minimum GMAT score of 450. When this score is added to the applicant's undergraduate grade-point average, multiplied by 200, the total must be at least 1,050 in order to meet minimum requirements for admission to the MPM program. Either the applicant's cumulative undergraduate grade-point average or the junior/senior grade-point average can be used for this calculation. Applicants must also demonstrate proficiency in writing by obtaining at least a 4.0 on the analytical writing assessment portion of the GMAT, or by earning a grade of B or higher in a college English composition course. The MPM program emphasizes application of course concepts to actual project management opportunities and problems. Therefore, students who currently are, or previously were, employed as project managers or project team members will derive the greatest benefit from the program. All applicants must provide evidence of sufficient current or previous work experience that will enable them to successfully complete course assignments requiring the application of course concepts to real project management situations. This evidence may be provided in either the form of three letters of recommendation from individuals who know the applicant in a professional capacity or through nomination to participate in the program by an appropriate official within the applicant's employing organization. Those who write letters of recommendation or submit nominations on behalf of the candidate will be asked to attest to the nominee's suitability for the program of study considering factors such as the applicant's length of employment, level and areas of work responsibility, personal qualities, career goals, maturity of purpose, and program requirements to apply course concepts to work-related issues. Applicants are encouraged to consult with the program chair concerning the suitability of their work experiences in relationship to program requirements. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a master's degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All students must be computer literate and have ready and reliable access to a computer and the Internet to successfully complete the MPM program. They must know how to use word processing software, log on to an Internet provider, and use e-mail. Additionally, MPM students will use Microsoft Office in their coursework that will require they have a working knowledge of Microsoft Office programs such as Word, Excel, PowerPoint, and Access. Access to fax facilities may be needed as an additional form of communications between student and instructor or between students.

Course Scheduling Considerations
The recommended maximum course load is 6 credits per semester for students working full-time. MANGT 510 must be taken in the first semester of study and is a prerequisite or co-requisite for all other courses in the program. MANGT 575, Management of Projects, is a problem-based capstone course that integrates the themes necessary to appreciate the overall challenge of project management. The course includes a final, integrative and comprehensive project based on the identification and analysis of real project management problems from the students' work organizations. This written assignment requires the integration of theory from previous courses along with significant library and literature searches to analyze and propose solutions to these problems. MANGT 575 must be taken following completion of at least 18 credits. No more than one of the required courses may be taken concurrently with MANGT 575.

Psychology (PSY)

Program Home Page

MELVIN M. MARK, Head of the Department
Department office: 111 Moore Building
814-865-9514

Degrees Conferred:
Ph.D., M.S.
Dual-Title Doctoral Degree in Psychology and Language Science

The Graduate Faculty

The Program

The graduate Psychology program is characterized by highly individualized study leading to the Ph.D. degree. Emphasis is placed on research, teaching, and professional career development. Each student is associated with one of the six program areas offered in the department: Clinical (including Child Clinical; Cognitive; Developmental; Psychobiology; Industrial/Organizational; and Social; An individual's particular pattern of interests dictates in part the course of study followed. Within all areas, research is an integral part of study; usually, the research is empirical in focus, but it may be applied or basic, depending on the problem of interest.

The department has laboratories, computer facilities, darkroom, and shop, and students have access to the large resources of the University, which include excellent computing facilities and a large open-stack library. Opportunities for practicum experience are available; e.g., clinical students find practicum in local mental health centers, while industrial students find placement in appropriate business or industrial settings.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) verbal and quantitative portions are required; scores from the Miller Analogies Test (MAT) are optional. All applicants who were psychology majors as undergraduates should provide scores from the advanced psychology (subject) GRE test. Applicants with superior undergraduate (particularly junior and senior years) or graduate grade-point averages will be considered for admission. Although a major in psychology is not required, applicants should have a broad undergraduate background that includes 12 credits in psychology. Undergraduate study in psychology should include a course in statistics and a psychological language science. Requirements listed above are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Master's Degree Requirements

The psychology department does not have a graduate program designed for students seeking only the master's degree. A master's thesis, or the department's equivalent (an acceptable published journal article), is required for advancement to candidacy for the Ph.D. degree in Psychology. Usually, but not always, the master's thesis centers on an empirical research topic. The typical thesis involves a literature review, data collection, analysis, and discussion. A master's degree is not awarded unless a thesis is submitted to the Graduate School. Students must successfully propose a thesis study by the end of the second year and have a successfully defended a thesis by the end of their third year in the program.

Doctoral Degree Requirements

All students in their first year of residency must satisfactorily complete the department's English proficiency requirement (PSY 501).

Students must complete (within their first 60 graduate credits for students without previous graduate credit) 6 departmentally approved graduate credits in statistics with a grade of B or better. Students must complete 18 credits in a suitably selected major area; majors usually are defined by one of the six program areas noted above. In addition to the major area credits, students must complete a minimum of 12 credits outside the major area. Two options exist for completing these 12 credits: (1) completing four courses in APA-recommended breadth areas, or (2) completing course work in a particular area of expertise outside the major. Some areas may have additional recommended or required courses as well. A Ph.D. candidate must be taken by the time 70 graduate credits are earned, or prior to the student's fourth year in residency, whichever comes first. The department has no foreign language requirement.

Applied Linguistics Option

The program offers an option in Applied Linguistics which includes 18 credits in APLNG/LING offered in the Linguistics and Applied Language Studies program. Underpinning the option is the synthesis of knowledge related to how language is acquired, understood, and spoken by children and adults who use one or more languages.

Other Relevant Information

The Department of Psychology makes every effort to recruit and train minority psychologists. Support for minority students is coordinated by the department, the Graduate School Minority Graduate Scholars Award Program, and the American Psychological Association Minority Fellowship Program. In addition, the department often has funded minority students through minority training programs and special minority research programs.

Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Dual-Title Graduate Degree in Psychology and Language Science

Graduate students with research and educational interests in Psychology and Language Science may apply to Psychology and Language Science Ph.D. Program. The goal of the dual-title graduate program is to enable graduate students from Psychology to acquire the knowledge and skills of their major area of specialization in Psychology, while at the same time gaining the perspective and methods of the Language Sciences.

Admission Requirements

Students who are interested in applying for the Dual-Title Degree Program should contact the Graduate School for information on the application process. Graduate students who are interested in pursuing the dual-title degree program must apply to the Graduate School and be admitted through the Psychology Department.
To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through the Psychology Department (see below for admission requirements for the Graduate Program in Psychology). Upon admission to the Psychology Program and with a recommendation from a Language Science program faculty member in the Department of Psychology, the student’s application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Admission Requirements for Incoming Graduate Students in Psychology
Most incoming graduate students have earned an undergraduate degree in psychology. In some cases, students from other majors are also admitted, but it is expected that applicants will have a background in psychology before applying. Graduate Record Exam (GRE) is required; however, the subject exam is not required. The TOEFL exam is required for international students except for those applicants who have received a baccalaureate or a master’s degree from a college university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States and Wales. All international students will be required to take the English Proficiency Exam upon arrival at the Penn State campus. Students are asked to complete a departmental application form, write a statement of purpose, and include a writing sample in the application materials.

Requirements for the Dual-Title Ph.D. Degree in Psychology and Language Science
Two Language Science proseminar courses (Ling 521 and Ling 522; 6 credits). One 3 credit research internship with a Language Science faculty mentor from an outside area. The 3 credit internship required by the Psychology program may satisfy both the Psychology requirement and the Language Science requirement (for 6 total credits of internship to be completed with two faculty members from the Language Science program). Students will choose one course among the following: CSD 596, GER 596, LING 596, PSY 596, SPAN 596.
Final course selection is determined by the student in consultation with their dual-title program advisors and their major program advisors. Students who already hold a master’s degree from another institution may petition to have equivalent course credits accepted.

Quality and Manufacturing Management (QMM)

The Pennsylvania State University

The Program

Penn State’s Master of Manufacturing Management (M.M.M.) degree is offered by the Quality and Manufacturing Management (QMM) program. The degree is conferred by Penn State Erie, The Behrend College, and is administered jointly by the School of Engineering and the Black School of Business. This interdisciplinary graduate program is designed to prepare students for careers in manufacturing, consulting, services, and operations. The program is offered in a full-time format and in a flexible scheduling pattern. Full-time study requires twelve months of continuous study starting in July and ending the following June. The flexible scheduling pattern requires approximately 24 months to complete. An appropriate internship experience is a precondition for entrance to the program if the applicant does not have sufficient work experience to waive the internship requirement. Students take 32 credits of work in 11 core courses.

The program develops future executives who possess in-depth, relevant manufacturing knowledge bridging engineering and management. Graduates are afforded a life-changing experience that provides them with a unique set of engineering, business, and quality skills combined with a suite of communication skills critical to management success. Students fuse Six Sigma certification with corporate social responsibility and emotional intelligence to become well-rounded leaders. QMM students develop business plans and analyze and predict corporate financial performance in a global marketplace. They emerge from Penn State as international leaders understanding the fundamentals of materials and processes and project confidence in product and manufacturing system design.

Admission Requirements

For admission to the Graduate School, applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The program draws its students from two groups: practicing professionals from industry and individuals who have graduated from, or are currently enrolled in, a business administration, science, or engineering program. Applicants who expect to graduate with a baccalaureate in engineering, science, or business administration may apply for admission to the program in their senior year.

All applicants must submit scores from the GRE or the GMAT.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses with attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All applicants must have taken the prerequisite mathematics, computer science, and statistics courses or equivalents prior to starting the program. Applicants cannot register until they have completed these courses.

Degree Requirements

The M.M.M. degree requires 32 credits of course work at the 400 level or higher, on a part- or full-time basis. The courses are as follows (each course is worth 3 credits unless otherwise specified): QMM 491 or QMM 492 (note: both may be required depending on background of the applicant); QMM 552, QMM 561, QMM 562, QMM 581, QMM 582, QMM 593 (1–2 credits), QMM 851, QMM 871, QMM 872, and QMM 891 (1–3 credits).

Student Aid

A limited number of partial scholarships are available for students in the program.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Programs
All degree programs emphasize a comprehensive understanding of the various facets of societal organization pertinent to the rural sector. While breadth is encouraged, areas of special interest and research include rural social change, community structure, population, rural community development, the structure of agriculture, natural resources, and the environment.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.
Prerequisites for the master's program include 3 credits in rural sociology or sociology, and additional credits in either field. If the entering student does not have these prerequisites, they must be made up at the University during the early part of the master's program.
Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements
All students are required to have training in sociological theory, statistics, and research methods.
There is no foreign language requirement for the Ph.D. degree; the student is expected to substitute such courses and instruction necessary to generate superior capabilities of inquiry into an analysis of basic and/or applied rural sociological problems.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

RURAL SOCIOLOGY (R SOC) course list

Dual-Title Degree in Rural Sociology (R SOC) and International Agriculture and Development (INTAD)
Graduate students with research and educational experiences in rural sociology may apply to the Rural Sociology/INTAD Dual-Title Master's Degree Program. The goal of the dual-title degree R SOC/INTAD degree program is to enable graduate students from R SOC to acquire the knowledge and skills of their major area of specialization in R SOC, while at the same time gaining the perspective and methods needed to work internationally. Graduate study in this program seeks to prepare students to assume leadership roles in professions in international agriculture and development requiring state-of-the-art methodological training, as well as of conceptual expertise in rural sociology and in one or more of R SOC’s four signature areas: (1) agriculture and food systems, (2) community and international development, (3) natural resources and environment, (4) rural social demography.
This dual-title graduate degree program does not duplicate any other degree program at the University.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the Rural Sociology program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, determined by the student, their INTAD advisor, and their Rural Sociology program advisor.

Degree Requirements for R SOC/INTAD Dual Title M.S.
The Master's in Rural Sociology and INTAD is a dual-title degree awarded to students who are admitted to the Rural Sociology master's program and admitted to the dual-title degree in INTAD. In addition to the requirements of the Rural Sociology degree, dual-title degree students must:

Courses
Complete a minimum of 12 INTAD course credits (400, 500, or 800 level) as follows:
9 credits from the core curriculum:
• Program Design and Delivery (AEE 450, 3 credits)
• Leadership Development (CEDEV/R SOC/AEE 505, 3 credits, on-line)
• International Agricultural Development Seminar (INTAD 820, 3 credits)
3 credits of internship or applied courses/ independent studies with international development content

Master's Thesis & Final Oral Examination

The Pennsylvania State University
Write a master's thesis on a topic that reflects both the graduate program in Rural Sociology and the dual-title offering in INTAD.

All members of the student’s committee for the dual-title master’s degree will be members of the graduate faculty. The committee must include at least one graduate faculty member from INTAD. A Degree Committee form should be filed upon selection of the committee members and should be approved by the INTAD Academic Program Committee Co-chair.

Candidates for the dual-title master’s degree in R SOC and INTAD will also be required to pass a masters’ thesis defense covering the general field of Rural Sociology and INTAD, with emphasis on the student’s area of specialization. The oral exam is to be administered by the student’s thesis committee. A favorable vote of a two-thirds majority is necessary for passing.

Some courses may satisfy both the graduate major program requirements and those of the INTAD program. Students and advisors should maintain the INTAD Master’s Degree Plan of Study, which must be submitted to the INTAD program office two months before the student files the “Intent to Graduate” via eLion.

Degree Requirements for R SOC/INTAD Dual-Title Ph.D.

The doctoral degree in R SOC and INTAD is a dual-title degree awarded only to students who are admitted to the R SOC doctoral program and admitted to the dual-title degree in INTAD. The minimum course requirements for the dual-title Ph.D. degree in R SOC and INTAD, in addition to the R SOC requirements, are as follows.

Courses

Students must complete a minimum of 18 INTAD course credits with study in the following categories:

9 credits from the core curriculum, which includes:
  - International Agricultural Development Seminar (INTAD 820, 3 credits)
  - International Rural Social Change (R SOC 517, 3 credits)
  - Sociology of Agriculture (R SOC 508, 3 credits)
  - OR
  - Human Dimensions of Natural Resources (R SOC 555, 3 credits)

9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Courses totaling a minimum of 18 credits must be taken at the 500-level or above; particular courses may satisfy both the R SOC requirements and those in the INTAD program. Final course selection is determined by the student in consultation with their INTAD advisors and their major program advisors. Students who already hold a master’s degree from another institution may petition to have equivalent course credits accepted.

Graduates of the dual-title INTAD master’s degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master’s degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master’s degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

Candidacy

Candidacy procedures will be based on the procedures of the major department and will have an international dimension. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student advisor in consultation with the INTAD program coordinators.

Committee Composition

The doctoral committee of a Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both the Major Program and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official “outside member” also must be appointed to the committee.

Comprehensive Exam

Each Ph.D. candidate must pass a comprehensive (combined written and oral) examination in rural sociology, research methods and statistics, and two or more chosen areas of specialization. It is expected that one of these areas will be INTAD. A separate comprehensive examination is not required by the INTAD program, but the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive examination.

Doctoral Thesis & Final Oral Examination

Ph.D. students enrolled in the dual-title degree program are required to write a doctoral thesis on a topic that reflects their original research and education in both Rural Sociology and International Agriculture and Development. The dissertation should contribute to the body of knowledge in international agriculture. Upon completion of the student’s doctoral thesis, a final oral examination is scheduled. The exam is administered by the student’s doctoral committee and focuses on the student’s thesis research. A public oral presentation of the dissertation is also required.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400-499 may be used to meet some graduate degree requirements when taken by graduate students but courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up for deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Sauma Rasupat, Ph.D. (Penn State) Associate Professor of Energy and Mineral Engineering
Tom Richard, Ph.D. (Cornell) Director of Penn State Institutes of Energy and the Environment
Nancy Tuana, Ph.D. (California) Director, Rock Ethics Institute and Director of Philosophy Graduate Studies

Bioenergy Option
John Carroll, Ph.D. (Illinois), Professor of Molecular Genetics
Yongsheh Chen Ph.D. (Lehigh), Assistant Professor of Energy and Mineral Engineering
Daniel Ciollkosz Ph.D. (Cornell), Department of Agricultural and Biological Engineering
Ali Demirci, Ph.D. (Iowa State) Professor of Agricultural and Biological Engineering
Marvin Hart, Ph.D. (Minnesota), Professor of Forage Management
Jude Liu, Ph.D. (Manitoba), Assistant Professor of Agricultural and Biological Engineering
Marc McDill, Ph.D. (Minnesota), Associate Professor of Forest Management
Joe Perez Ph.D. (Delaware), Adjunct Professor of Chemical Engineering
Tom Richard, Ph.D. (Cornell) Professor of Agricultural and Biological Engineering
Gregory Roth, Ph.D. (Penn State), Professor of Agronomy
Andrew Zdiney Ph.D. (MIT), Head and Professor of Chemical Engineering

Wind Energy Option
Kenneth Breitner, Ph.D. (Cambridge) Professor of Aerospace Engineering
George Lesieutre, Ph.D. (UCLA) Professor and Head of Aerospace Engineering
Mark Maughmer, Ph.D. (Illinois) Professor of Aerospace Engineering
Dennis McLauralin, Ph.D. (MIT) Professor of Aerospace Engineering
Philip Morris, Ph.D. (Southampton) Boeing, A.D. Welliver Professor of Aerospace Engineering
Sven Schmitz, Ph.D. (California, Davis), Assistant Professor of Aerospace Engineering

Solar Energy Option
Jeffrey Browson, Ph.D. (Wisconsin) Assistant Professor of Energy and Mineral Engineering; Materials Science and Engineering
David Riley, Ph.D. (Penn State) Associate Professor of Architectural Engineering

Sustainability Management and Policy Option
Jeffrey Browson, Ph.D. (Wisconsin) Assistant Professor of Energy and Mineral Engineering; Materials Science and Engineering
Min Ding, Ph.D. (Penn), Professor of Marketing and Robert G. Schwartz Fellow
Zhen Lei, Ph.D. (Berkeley), Assistant Professor of Energy and Environmental Economics
David Riley, Ph.D. (Penn State), Associate Professor of Architectural Engineering
Anastasia Shcherbakova, Ph.D. (Chicago), Assistant Professor of Energy Economics, Risk & Policy

Program Description
The intercollege RESS professional master’s program (iMPS-RESS) is an online-interdisciplinary master’s degree program designed to prepare professionals in the fields of renewable energy and sustainability systems to lead the world’s transition from an unsustainable, fossil energy economy to a renewable, sustainable basis of operation. For example, attaining an ambitious national goal of 25% of energy from renewable resources by the year 2025 in the U.S. requires a tremendous increase in renewable energy production and use in ways that are sustainable, environmentally sound, and reliable. The iMPS-RESS program is designed to address the critical need for professionals with relevant expertise in renewable energy and sustainability systems.

The curriculum consists of 32 credits, delivered online through the Penn State World Campus. The program provides broad coverage of topics related to renewable energy and sustainability systems while providing in-depth coverage of select topics such as solar, wind, bioenergy, and sustainability management and policy. Students are required to follow a focused curriculum that combines requisite rigor with flexibility appropriate to a rapidly changing field. Students take a number of core program courses that provide an in-depth understanding of the sustainability framework relevant to energy and sustainability systems and, in consultation with their program advisor, select additional courses from a broad array of electives designed to meet their individual learning goals.

Admission Requirements

Educational Background
For admission to the Graduate School, an applicant must hold either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. Academic performance and/or professional experience must be equivalent to that expected for admission to a typical resident-program master’s degree. Applications must include a statement of professional goals, a curriculum vita or resume, and three letters of recommendation. Official records of scores on the Graduate Record Exam (GRE) are also required. However, this requirement may be waived under certain circumstances – please contact the graduate program directly.

Language of Instruction
The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. The minimum composite score for the IELTS is 6.5. International applicants may be exempted by the program director from the TOEFL/IELTS requirement if they have received a baccalaureate or a master’s degree from a college/university/institution utilizing English as the means of instruction, such as those in Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, The Republic of South Africa, Scotland, the United States and Wales.

Core Application Packet

- Statement of Purpose
- A statement of professional experience and goals (up to 500 words)
- Vita or resume
- Three letters of recommendation

The individuals writing letters should be familiar with you and comfortable discussing your professional and/or academic strengths and

The Pennsylvania State University
Students are required to take the following courses:

- **EME 810. Solar Resource Assessment and Economics (3 cr.)**
- **EME 803. Applied Energy Policy (3 cr.)**
- **EME 801. Energy Markets, Policy, and Regulation (3 cr.)**
- **EME 802. Renewable and Sustainable Energy Systems (3 cr.)**

Additional Courses

An additional 18 credits must be selected from the following list of courses. This listing includes 4 Program Options that provide focused instruction in a given aspect of renewable energy and sustainability systems. Detailed information about each option can be found below.

- **Bioenergy Option (12 cr.)**
- **Solar Energy Option (12 cr.)**
- **Sustainability Management and Policy Option (12 cr.)**
- **Wind Energy Option (9 cr.)**

Please note that most of the listed courses are new courses except for a few existing ones for which permissions have been secured. Please see the appendix for the e-mail communications.

**Program Options**

**Bioenergy Option (12 cr.)**

Option Leader: Ali Demirci

Professor, Department of Agricultural and Biological Engineering

College of Agricultural Sciences

231 Agricultural Engineering Building

University Park, PA 16802

814-863-1098

adx29@psu.edu

The Bioenergy Option will create graduates who can lead the development of the rapidly expanding bioenergy industry. Many companies are not able to hire staff with appropriate training to meet their R&D, management, and production needs. As a result, there is a large and unmet need to train professionals at the master’s level with skills in applied science, communication, business, social and industry perspectives for the emerging bio-based economy. Important components of this industry include crop production, harvesting, storage, ecology, genetics, fermentation, engineering, value chain systems modeling, marketing, economics and sociology.

NOTE: A background or courses in calculus, physics, thermodynamics, and plant biology is advised for students interested in this option. Students may contact the Option Leader for additional information.

Students are required to take the following courses:

- **A B E 884. Biomass Energy Systems (3 cr.)**
- **A B E 885. Biomass Harvesting and Logistics (3 cr.)**
- **A B E 888. Conversion Technologies for Bioenergy Production (3 cr.)**
- **FOR 880. Bioenergy Feedstocks (3 cr.)**

**Solar Energy Option (12 cr.)**

Option Leader: Jeffrey Brownson

Assistant Professor, Department of Energy and Mineral Engineering

College of Earth and Mineral Sciences

212 Hosler Building

University Park, PA 16802

814-867-4227

brownson@psu.edu

The Solar Energy Option will create graduates who can lead project and policy development in the solar energy industry. The skills of master’s level solar systems project development include solar resource assessment for selected locales, effective communications to design to maximize the solar economic utility to the client/stakeholders, knowledge of thermal- and electric- derived solar conversion technologies, technical knowledge of design in hybridized solar systems design, and the social and policy context of solar systems project design. Courses in the solar option will have two parallel paths to address either 1) Utility-Industrial solar electric and solar thermal projects (e.g., large-scale solar and industrial processing); or 2) Distributed solar electric and solar thermal projects (e.g., residential and commercial built environment).

NOTE: A background in systems science, engineering, or physics is strongly recommended for students interested in this option. Students may contact the Option Leader for more information.

Students are required to take the following courses:

- **A E 878. Solar Project Development and Finance (3 cr.)**
- **EME 810. Solar Resource Assessment and Economics (3 cr.)**

The Pennsylvania State University
Students select 6 credits from the following courses:

- A E 862. Distributed Energy Planning and Management (3 cr.)
- A E 888. Commercial Solar Electric Systems (3 cr.)
- EME 811. Solar Thermal Energy for Utilities and Industry (3 cr.)
- EME 812. Utility Solar Power and Concentration (3 cr.)

**Sustainability Management and Policy Option (12 cr.)**

Option Leader: Jeffrey Brownson  
Assistant Professor, Department of Energy and Mineral Engineering  
College of Earth and Mineral Sciences  
212 Hosler Building  
University Park, PA 16802  
814-867-4227  
brownson@psu.edu

The Sustainability Management and Policy Option will create graduates who will lead sustainability project planning and policy development, given the systems approach of sustainability in business and government. The demand is already high for graduate leaders with deep understanding of the science of sustainability, combined with systems acumen to assess risk and plan for renewable energy projects, and communication skills to develop new policy implementation. The expanded fields of renewable energy, energy trading, and sustainability systems management dictate that master’s level education be centralized to the science of sustainability, analysis of market and non-market strategies, communication to facilitate energy policy development, and systems thinking approaches to unify the project development approach.

Students are required to take the following courses:

- BA 850. Sustainability Driven Innovation (3 cr.)
- EME 803. Applied Energy Policy (3 cr.)
- EME 805. Renewable Energy and Nonmarket Enterprise (3 cr.)
- EME 807. Technologies for Sustainability Systems (3 cr.)

**Wind Energy Option (9 cr.)**

Option Leader: George Lesieutre  
Department Head, Department of Aerospace Engineering  
College of Engineering  
229 Hammond Building  
University Park, PA 16802  
814-863-0103  
g-lesieutre@psu.edu

The Wind Energy Option will produce graduates who have broad understanding of the wind farm development process, as well as technical depth in turbine technology and the science of properly siting wind turbines. Graduates will be able to: model wind project performance; balance the complexities of permitting, logistics, and the ecological impacts of wind project development; and conduct turbine load and acoustic analyses. They will also understand the limitations of models and will be equipped as leaders for producing advancement in the industry.

NOTE: A background in incompressible fluid mechanics, statics, and dynamics is highly recommended for students interested in this option. Students may contact the Option Leader for more information.

Students are required to take the following courses:

- AERSP 583. Wind Turbine Aerodynamics (3 cr.)
- AERSP 880. Wind Turbine Systems (3 cr.)
- AERSP 886. Engineering of Wind Project Development (3 cr.)

**Substitutions**

Substitutions for the above prescribed courses, either with resident-education courses, alternate online courses, or courses from other institutions, will be considered on a case-by-case basis, and must be petitioned and approved by the Academic Program Chair, with input from the student’s adviser.

**Student Aid**

Financial aid opportunities for part-time students who participate through the World Campus are discussed at [http://worldcampus.psu.edu/StudentServices_Paying.shtml](http://worldcampus.psu.edu/StudentServices_Paying.shtml)

**Courses**

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

debk@psu.edu

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program
The graduate program is designed to prepare students for administrative, supervisory, research, and teaching positions in public and private recreation and park systems, in colleges and universities, in voluntary agencies and institutions, and in commercial ventures. The program is oriented to meet the specific needs and research interests of the candidate. Students may pursue interests in the community, including public park and recreation systems, voluntary agencies, and private commercial enterprises; tourism; institution and community-oriented therapeutic settings concerned with many different disabilities and utilizing a variety of activity modalities; park planning, resource management, interpretive services, outdoor education, and outdoor recreation services.

Admission Requirements
Scores from the Graduate Record Examination (GRE) are required for admission to the master's and doctoral programs. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the graduate program, a bachelor's or master's degree is required. Candidates from majors other than recreation and parks are welcome to apply; however, additional course work is required. Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. All students must write a thesis.

Degree Requirements
The master's program is designed for students who wish to continue their studies at the doctoral level at Penn State. Students who wish to pursue a Ph.D. degree but do not have an M.S. degree will complete a thesis and earn a master's degree in the process of working toward the doctorate.

The M.S. program requires a minimum of 30 graduate credits and a 3.00 (B) grade-point average for graduation. The master's degree must be completed within eight years from matriculation as a degree candidate.

The doctoral program builds on the master's program to achieve depth in scholarship and research. Students who have not completed a data-based thesis as part of their master's degree will be required to do so during the first three semesters as a doctoral student. The general requirements of the degree, sequentially, are (1) course work, (2) candidacy examination by the third semester,* (3) comprehensive examination (written and oral), (4) thesis proposal presentation, and (5) final defense of thesis. Between the candidacy examination and completion of the degree program, a Ph.D. candidate must have attended Penn State in residence a minimum of two semesters over a twelve-month period. (This may include the semester in which the candidacy exam is taken.) Students have a limit of eight years after candidacy to complete the doctoral program. A 3.00 (B) average is required for graduation.

Prerequisites for graduate students who do not have an undergraduate degree in RPTM typically range from 3 to 9 credits, depending on the student's background and experience. Prerequisites for incoming graduate students with undergraduate majors in RPTM range from 0 to 6 credits. Incoming graduate students with undergraduate degrees in Recreation, Park, and Tourism Management from Penn State are assumed to have met all prerequisite requirements. The graduate program director determines prerequisites for all incoming students.

*The master's thesis and oral defense may be used for the candidacy examination for continuing students.

Student Aid
Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
The Graduate Faculty

The Program

The Department of Germanic and Slavic Languages and Literatures and the Department of Comparative Literature offer a joint master's degree in Russian and Comparative Literature. The program enables students to concentrate in Russian literature at the graduate level while having the advantages of a comparative context. Students completing this M.A. will acquire an in-depth understanding of Russian literature and culture and will be proficient in Russian and one other foreign language. Graduates should be prepared for service with the U.S. government or an international corporation, or to continue graduate study either in Russian or comparative literature.

Admission Requirements

Requirements listed here are in addition to the general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin. Students with appropriate course backgrounds and a 3.00 junior/senior average (on a 4.00 scale) will be considered for admission. Scores from the Graduate Record Examination (GRE) are required. It is expected that students entering this degree program will have proficiency in Russian language and will have completed the B.A. in Russian or Comparative Literature. Students in other humanistic fields such as philosophy or history who have studied some literature and are proficient in Russian are welcome to apply.

Master's Degree Requirements

Candidates for the M.A. degree must earn a minimum of 33 credits of which at least 18 must be at the 500 level. Required courses in Russian include RUS 530 (Seminar in Nineteenth-Century Russian Literature), RUS 525 (Pushkin), and RUS 560 (History of the Russian Language) or RUS 542 (Seminar in Russian Literature in the Twentieth Century) plus an additional 6 credits. Required courses in comparative literature include CMLIT 501 plus an additional 12 credits in comparative literature. Also required are an additional 3 credits in Russian, comparative literature, or another approved area; passing of a proficiency examination in Russian; demonstration of reading knowledge of one other foreign language; and the completion of an acceptable M.A. paper.

Student Aid

A number of teaching assistantships are available in the Departments of Comparative Literature and Germanic and Slavic Languages and Literatures for students taking advanced degrees in these disciplines. There is also a graduate assistant position for an editorial assistant. See also the fellowships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin.

The Graduate Faculty

The Program
This intercollege program is based primarily on courses in educational psychology, psychology, and special education. In addition, courses are often drawn from counselor education, human development and family studies, educational theory and policy, educational administration, and curriculum and instruction. The objective is to develop a psychologist capable of providing health care who is interested in and knowledgeable about education and psychology in the school setting. The school psychologist must utilize professional skill and knowledge about children and youth to make contributions that are meaningful to and utilized by teachers, other school personnel, and parents. The development of competencies needed by a fully qualified school psychologist requires at least the education represented by a doctoral degree.

Practicum facilities, in addition to those in nearby public schools, include the Center for Educational Diagnosis and Remediation, the School Psychology Clinic, the Communication Disorders Clinic, the Reading Center, and the Psychology Clinic. Facilities for work with children are also available through other academic units, as well as through assistantship assignments.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Only those students who anticipate a doctoral degree will be admitted. Students are selected within the limitations of program facilities. Priority is given to applicants with work experience with children.

An undergraduate major emphasizing work in psychology and/or education is preferred, but students with fewer than 20 upper-division credits in psychology, educational psychology, or special education may be admitted with limited deficiencies to be fulfilled concurrently with their graduate work.

Requirements for admission include a minimum of one-third of graduate credits of A quality; undergraduate GPA of B or higher; satisfactory recommendations from two or more professors, preferably psychologists; and a score of 1000 or higher on the two general sections or a score of 1500 or higher, including the analytical or an advanced test, of the Graduate Record Examination. Exceptions may be made for students with special backgrounds, abilities, and interests.

Master's Degree Requirements
Students entering the program with a bachelor's degree complete the M.S. as prescribed by the Graduate School.

Students qualifying for a certificate to practice in the schools must meet standards specified by the Pennsylvania Department of Education. These include, but are not limited to, a master's degree, about 60 graduate credits, practicum experiences, and successful completion of precertification tests.

Doctoral Degree Requirements
Students may be admitted with a master's degree from school psychology programs from other institutions or from related programs in this or other universities. The doctoral program includes a predissertation research requirement; the core program described here (which qualifies the candidate for a school psychology certificate); a special proficiency of 6 to 18 credits; an internship; and a dissertation.

Students completing the School Psychology Core Program will have courses in the biological bases of behavior, the cognitive bases of behavior, the social bases of behavior, personality theory or abnormal psychology, human development, professional ethics and standards, research design and methodology, statistics, psychometrics, counseling theory, educational foundations, educational administration, the education of exceptional children, and curriculum.

Other Relevant Information
The program has been accredited by the American Psychological Association, the National Commission for Accreditation in Teacher Education (NASP), and the Pennsylvania Department of Education.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Graduate Faculty

- Norman A. Aggon, M.B.A. (James Madison) Instructor of Operations and Supply Chain Management; Assistant Department Chair
- Francis (Frank) L. Cheleko, M.M.M. (Penn State) Instructor of Operations and Supply Chain Management
- Gary L. Gittings, Ph.D. (Penn State) Instructor of Supply Chain Management
- Daniel Guide, Ph.D. (Georgia) Associate Professor of Operations and Supply Chain Management
- Todd Harrison, Ph.D. (Tennessee) Professor of Supply Chain and Information Systems
- C. John Langley, Ph.D. (Penn State) Clinical Professor of Supply Chain Management
- Douglas J. Thoma, Ph.D. (Georgia Tech) Associate Professor of Supply Chain Management
- Evelyn A. Thomchick, Ph.D. (Clemson) Associate Professor of Supply Chain Management
- John E. Tyworth, Ph.D. (Oregon) Professor of Supply Chain Management

The Master of Professional Studies in Supply Chain Management (MPS/SCM) is awarded to students who demonstrate mastery of the knowledge, problem-solving competencies, and leadership skills that are critical to leading business transformation through integrated supply chain planning and execution. The program emphasizes problem-based learning coupled with integrative, collaborative learning experiences to develop the requisite knowledge, skills, and abilities for effective supply chain management. Instruction is delivered online and in a short course at an on- or off-campus location, so that working professionals will complete the degree as part-time students working largely or entirely, off campus.

Admission Requirements

Students applying to the professional MPS/SCM degree program must be admitted by both the MPS/SCM program and the Graduate School at The Pennsylvania State University. The Graduate School requires applicants to have earned a baccalaureate degree from a regionally accredited institution earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants whose first language is not English or who have received a baccalaureate or master's degree from an institution in which the language of instruction is not English must take either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) module and submit the results of that test with the application for admission. The TOEFL test is offered in different formats depending on location. A score of at least 600 on the paper-based TOEFL or 250 on the computer-based TOEFL must be attained. A minimum total score of 80, along with a minimum score of 23 on the speaking portion, is required for the Internet-based test (iBT). Information about the TOEFL can be obtained by writing to the Educational Testing Service, Box 6155, Princeton, NJ 08541-6155 or visiting their web site at www.toefl.org. Alternatively, a minimum composite score of 6.5 on the IELTS test is required for admission. Information about the IELTS can be obtained by contacting IELTS International, 100 East Corson Street, Suite 200, Pasadena, CA 91103 or visiting their Web site at www.ielts.org.

Additionally, the graduate program in Supply Chain Management requires:
- A completed application for graduate study, including Graduate School application fee
- A current resume, along with a statement of professional experience and goals. This statement of approximately two pages must describe the applicant's professional goals, experience, and responsibilities. The statement must also indicate why the applicant is applying to the professional MPS/SCM program at Penn State
- One letter of recommendation relevant to the applicant’s professional capabilities, such as preferably from the employee's immediate supervisor, which should address the applicant's readiness for graduate study
- Official transcripts from all completed graduate and undergraduate coursework
- An undergraduate GPA of at least 3.0, or grade average of "B" or better in graduate courses completed since the first bachelor's degree, with at least 6 credits of graduate courses completed to qualify under this option
- Official Graduate Management Admission Test scores reported directly from the testing center to Penn State

A committee consisting of three SC&IS Department faculty meet once annually to review applications and identify applicants qualified for admission. Admissions decisions are based on a review of a complete admission portfolio, including an application, the statement of professional experience and goals, a current resume, official transcripts from each undergraduate and graduate institution attended, the letter of recommendation, and GMAT scores. An applicant's credentials are compared to the standards set by other candidates in the current application pool. Approved applicants are admitted in time to enroll for the fall semester offerings that begin in early August.

Degree Requirements

Students earn the professional MPS/SCM degree by successfully completing 30 graduate credits in supply chain management courses and a high-quality professional paper as a culminating experience. All MPS/SCM credits must be earned in courses at the 500 level or above, including at least 6 credits at the 500 level. The professional paper demonstrates the student's ability to apply advanced supply chain management knowledge to a supply chain-related problem or situation in a way that makes a substantial contribution to the student's professional development. The program requires a cumulative grade point average of at least 3.0 and no course grade below a C. All requirements for the professional MPS/SCM degree, including acceptance of the professional paper, must be met within four years of admission to degree status. Students are expected to make continuous progress toward the degree. Leaves of absence, however, may be granted under exceptional circumstances on a case-by-case basis.

A maximum of 10 credits of high-quality graduate work completed at other accredited institutions may be applied toward the requirements for the professional MPS/SCM degree. However, credits earned to complete a previously completed professional or academic postbaccalaureate degree, whether at Penn State or elsewhere, may not be applied to a second postbaccalaureate degree program at Penn State. Approval to apply any transferred credits toward a degree program must be granted by the student's academic adviser and program and the Graduate School. Transferred academic work must have been completed within five years prior to the date of first degree registration at the Graduate School, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university.

Prescribed Courses

SUPPLY CHAIN MANAGEMENT (SCM)
530. Supply Chain Analysis (3)
594. Research Topics (3)
800. Supply Chain Management (4)
Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Sociology (SOC)

Program Home Page

JOHN ICELAND, Head of the Department of Sociology, and Crime, Law, and Justice
211 Oswald Tower
814-863-8260

Degrees Conferred:
M.A., Ph.D.

The Graduate Faculty

The Program
The graduate program in Sociology offers advanced education for students who intend to pursue academic careers in sociology or who aspire to nonacademic research positions.

The M.A. and Ph.D. programs provide training in general social theory, research methodology, statistics, and a number of traditional and developing substantive specialties. In consultation with faculty advisers, students select two specialties that are among the department's strengths, such as classical and contemporary theory; community and environment; demography; family, life course, and aging; quantitative methods; social psychology; and stratification and social change.

Alternate specialty areas not listed above may be selected as the major or the minor, with the approval of the graduate committee. Students may elect to pursue a dual-title degree in Sociology and Demography. For details, refer to the Demography program description. A separate Ph.D. program in Crime, Law, and Justice is also housed within the department. Please see the CLJ program description for details.

All students who intend to pursue doctoral work are expected to earn an M.A. degree in their normal progress to the Ph.D.

Course work outside the department is encouraged. Areas of study related to sociology, such as rural sociology, geography, economics, business administration, statistics, cultural anthropology, political science, and human development and family studies are available at the University.

Special department-related research and training facilities include on-site computer laboratories and the Social Science Research Center, the Population Research Institute, the Center for Research on Crime and Justice, and the Pennsylvania Commission on Sentencing. Additional University facilities used by sociology faculty and graduate students include the Computation Center (containing information about the extensive databases provided through the Inter-University Consortium for Political and Social Research) and the Gerontology Center.

Admission Requirements
Applications will be accepted through January 1 for fall admission the following year. Selection is based on undergraduate grades (and where applicable, record of previous graduate work); letters of recommendation; statement of purpose; a sample of written work, such as a term paper; and Graduate Record ExaminationS (GRE) verbal and quantitative scores. The best-qualified applicants will be accepted up to the number of spaces available. Students with limited prior training in sociology may be accepted, with the provision that they make up background deficiencies in the early part of their graduate program.

Degree Requirements
Required courses for the M.A. include a two-semester proseminar, one seminar each in research methods and social theory, and two seminars in social statistics. Students complete an M.A. thesis during their second year of the program.

A candidacy examination is required of all students seeking the Ph.D. This evaluation by the departmental Graduate Committee is based on the student's seminar papers, research proposal, and record of course performance and on faculty assessments of the student's ability to complete a high-quality Ph.D. program. For those admitted to the Ph.D. candidacy, a lab in teaching sociology is required, along with substantive courses in the student's major and minor areas of concentration. A comprehensive examination must be passed before the period of intensive dissertation research begins.

The Department of Sociology has no formal foreign language or communication requirement. However, students are encouraged to pursue additional training in statistics, computer science, foreign language, technical writing, specialized methods, or specialized theory that will further dissertation and career plans.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, teaching assistantships support many students admitted to the program. Research assistantships also are available to qualified students through individual faculty members' grants and contracts. A number of federal agencies also offer fellowships for graduate study in sociology.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Soil Science (SOILS)

Program Home Page

MICHEAL G. MESSINA, Head of the Department of Ecosystem Science and Management
116 ASI Building
814-865-2025

JOHN E. (JACK) WATSON, Coordinator of the Graduate Program in Soil Science
409 ASI Building
814-863-6714

Degrees Conferred:

Ph.D., M.S.
Dual-Titled Ph.D. (Soil Science and Biogeochemistry)
Dual-Titled Ph.D. (Soil Science and International Agriculture and Development)
Dual-Titled M.S. (Soil Science and International Agriculture and Development)

The Graduate Faculty

- Douglas B. Beegle, Ph.D. (Penn State) Distinguished Professor of Agronomy
- Mary Ann Bruns, Ph.D. (Michigan) Assistant Professor of Soil Microbial Ecology
- Ray B. Bryant, Ph.D. (Purdue) Adjunct Assistant Professor of Soil Science
- Rick L. Day, Ph.D. (Penn State) Associate Professor of Science and Environmental Information Systems
- Jerzy Dec, Ph.D. (Warsaw, Poland) Research Associate
- Curtis J. Dell, Ph.D. (Kent State) Adjunct Assistant Professor of Soil Science
- Patrick J. Drohan, Ph.D. (Penn State) Assistant Professor of Pedology
- Sjoerd W. Duiker, Ph.D. (Ohio State) Associate Professor of Soil Management and Applied Soil Physics
- William E. Easterling, Ph.D. (UNC, Chapel Hill) Professor of Geography and Agronomy
- David M. Eissenstat, Ph.D. (Utah State) Professor of Woody Plant Physiology; Coordinator, Physiological Ecology Option
- Peter J. A. Kleinman, Ph.D. (Cornell) Adjunct Assistant Professor of Soil Science
- Sridhar Komarneni, Ph.D. (Wisconsin) Professor of Clay Minerals
- Hangsheng Lin, Ph.D. (Texas A&M) Associate Professor of Hydropedology/Soil Hydrology
- Carmen Enid Martinez, Ph.D. (Rutgers) Assistant Professor of Environmental Soil Chemistry
- Andrew S. McNitt, Ph.D. (Penn State) Assistant Professor of Turfgrass Science
- Andrew S. Rogowski, Ph.D. (Iowa State) Adjunct Professor of Soil Physics
- Maxim J. Schlossberg, Ph.D. (Georgia) Assistant Professor of Turfgrass Nutrition and Soil Fertility
- Andrew N. Sharpley, Ph.D. (Massey, New Zealand) Adjunct Professor of Soil Science
- Richard C. Stehouwer, Ph.D. (Ohio State) Assistant Professor of Environmental Soil Science
- David M. Sylvia, Ph.D. (Cornell) Professor of Soil Microbiology
- John E. (Jack) Watson, Ph.D. (Arizona) Professor of Soil Science
- Ann M. Wolf, Ph.D. (Penn State) Affiliate Assistant Professor of Soil Science

The Soil Science program is administered in the Department of Ecosystem Science and Management, College of Agricultural Sciences. Each student will be associated with an adviser who may provide financial support, research facilities, and/or office space. Applicants are encouraged to explore, study, and research opportunities by contacting faculty who may be prospective advisers.

This program provides opportunities for candidates interested in soil and related water resources to become a professional leader and an independent scholar. Faculty in this program are competent to prepare candidates in the subfields of Soil Science including: soil genesis, soil classification, soil morphology, soil mapping, soil physics, soil chemistry, soil mineralogy, soil microbiology, soil fertility, soil conservation, geographic information systems, computer mapping, watershed analysis, soil hydrology, soil and water management, resource inventory and assessment, remote sensing, land evaluation, land waste disposal, and land management.

Admission Requirements

Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination, are required for admission. At the discretion of the graduate standards committee, a student may be admitted provisionally for graduate study in the program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Prerequisites for major work in Soil Science vary with the area of specialization and the degree sought, but courses in chemistry, mathematics, physics, geology, basic and applied biological sciences are required.

The language of instruction at Penn State is English. Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Master's Degree Requirements

In addition to the general requirements for the M.S. degree as defined by Graduate Council, (see http://bulletins.psu.edu/graduate/degreerequirements/masters) the department requires 12 credits of 400- or 500-level formal courses in Soil Science of which 6 must be 500-level. Participation in at least one colloquium course each semester is required and students must complete at least 1 credit of colloquium (SOILS 590), as well as 1 credit of Teaching Experience (SOILS 602). An advisory committee will be appointed for each student and additional courses and requirements may be determined by this advisory committee.

A thesis based on field or laboratory research is required for the M.S. degree. M.S. candidates must pass a final examination.

Doctoral Degree Requirements

Beyond the general requirements for the Ph.D. defined by Graduate Council, the department has a number of specific requirements regarding course level and distribution that are defined in the departmental publication "Graduate Degrees in Soil Science." While a minimum number of courses for the degree is not specified, the doctoral committee has the responsibility of specifying courses and credits essential for the education and development of the candidate. Students are expected to be educated in depth in a specific subfield of Soil Science and to have a perspective of the general field. Normally, 55 to 60 credits
Doctoral candidates are required to participate regularly in a departmental colloquium and to register for at least 2 credits of Colloquium (SOILS 590) during the Ph.D. program. A teaching experience, consisting of two separate semesters, is also required of all Ph.D. students.

The communication and foreign language requirement for the Ph.D. degree may be met either by demonstrating a knowledge of at least one foreign language at the intermediate level or by completing at least 6 credits of course work in an area of English communications approved by the student's doctoral committee.

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisors from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student's Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student's doctoral committee should include faculty from both programs. All students must be enrolled in the dual-title program and satisfy the requirements for both programs. Students are expected to complete additional coursework in biogeochemistry as needed for the dual-title program.

The Ph.D. degree in biogeochemistry requires the completion of at least 72 credits of coursework and research credits towards the Ph.D. degree, a Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry, and passing a comprehensive examination administered by the student's doctoral committee.

A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.

Biogeochemistry Dual-Title Degree Program

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisors from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student's Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student's doctoral committee should include faculty from both programs. All students must be enrolled in the dual-title program and satisfy the requirements for both programs. Students are expected to complete additional coursework in biogeochemistry as needed for the dual-title program.

The Ph.D. degree in biogeochemistry requires the completion of at least 72 credits of coursework and research credits towards the Ph.D. degree, a Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry, and passing a comprehensive examination administered by the student's doctoral committee.

A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.

Biogeochemistry Dual-Title Degree Program

Graduate students with research and educational interests in biogeochemistry may apply to the Biogeochemistry Dual-Title Degree Program. Students in the Biogeochemistry Dual Title program are required to have two advisors from separate disciplines: one individual serving as a primary adviser in their major degree program and a secondary adviser in an area within a field covered by the dual-title program and a member of the Biogeochemistry faculty. Additional coursework from an approved list of courses is required. All students must pass a candidacy examination that includes an assessment of their potential in the field of biogeochemistry. A single candidacy examination that includes biogeochemistry will be administered for admission into the student's Ph.D. program, as well as the biogeochemistry dual-title. The structure and timing of this exam will be determined jointly by the dual-title and major program. The student's doctoral committee should include faculty from both programs. All students must be enrolled in the dual-title program and satisfy the requirements for both programs. Students are expected to complete additional coursework in biogeochemistry as needed for the dual-title program.

The Ph.D. degree in biogeochemistry requires the completion of at least 72 credits of coursework and research credits towards the Ph.D. degree, a Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry, and passing a comprehensive examination administered by the student's doctoral committee.

A Ph.D. dissertation that contributes fundamentally to the field of biogeochemistry is required.
The doctoral degree in Soil Science and INTAD is a dual-title degree awarded only to students who are admitted to the Soil Science doctoral program and admitted to the dual-title degree in INTAD and who complete all requirements for the degrees. Students may choose to enroll in the dual-title AGRO/INTAD program with or without a minor. The minimum requirements for the dual-title Ph.D. degree in SOILS/INTAD, in addition to the Soil Science requirements, are as follows:

**Course Requirements**

Students must complete a minimum of 18 INTAD course credits with study in the following categories:

- 9 credits from the core curriculum
  - INTAD 820. International Agricultural Development Seminar (3)
  - R SOC 517. International Rural Social Change (3)
  - R SOC 508. Sociology of Agriculture (3)
  - R SOC 555. Human Dimensions of Natural Resources (3)
- 9 credits from INTAD elective curriculum/courses with international development content/internships/independent study

Note that credits for the INTAD courses listed above may also count toward the SOILS graduate program requirements for the minor or General Studies course requirements. INTAD elective courses may directly overlap with the required SOILS coursework, including (but not limited to) SOILS 502 and ENT 457. The double-counting of credits must be approved by the student’s adviser(s), the head of the SOILS graduate program and the INTAD Co-Chairs.

Permission from a student’s academic adviser, in consultation with the program chair, is required to substitute a 400-level course for a 500-level course. Particular courses may satisfy both Ecosystem Science and Management Department requirements and those in the INTAD program. Final course selection is determined by the student in consultation with the INTAD adviser and the Soil Science program adviser.

Graduates of the dual-title INTAD master’s degree program who wish to pursue an INTAD doctoral degree must re-apply to the INTAD program for admission. INTAD master’s degree credits may be carried over to the doctoral program. Six additional INTAD credits will be required. INTAD master’s degree graduates who pursue an INTAD Ph.D. are required to take the INTAD 820 International Agricultural Development Seminar a second time.

**Candidacy**

Candidacy procedures will be based on the procedures of the Soil Science graduate degree program, but will integrate the fields of Soil Science and International Agriculture and Development. Although not encouraged, the dual-title degree student may require an additional semester or more to fulfill requirements for the dual-title degree program. Therefore, under exceptional circumstances, the candidacy exam may be delayed at the discretion of the student’s Soil Science adviser in consultation with the program coordinators.

**Committee Composition**

The doctoral committee of the Ph.D. dual-title degree student must include a minimum of four faculty members, i.e., the chair and at least three additional members, all of whom must be members of the Graduate Faculty; and the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both Soil Science and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee. An official “outside field member” also must be appointed to the committee, in accordance with the requirements outlined in the Graduate Bulletin.

At least one regular member of the doctoral committee must represent a field outside Soil Science in order to provide a broader range of disciplinary perspectives and expertise. This committee member is referred to as the “Outside Field Member.” In cases where the candidate is also pursuing a dual-title field of study, the dual-title representative to the committee may serve as the Outside Field Member.

Additionally, in order to avoid potential conflicts of interest, the primary appointment of at least one regular member of the doctoral committee must be in an administrative unit that is outside the unit in which the dissertation adviser’s primary appointment is held (i.e., the adviser’s administrative home; in the case of tenure-line faculty, this is the individual’s tenure home). This committee member is referred to as the “Outside Unit Member.” In the case of co-advisers, the Outside Unit Member must be from outside the administrative home(s) of both co-advisers. In some cases, an individual may have a primary appointment outside the administrative home of the student’s dissertation adviser and also represent a field outside the student’s major field of study; in such cases, the same individual may serve as both the Outside Field Member and the Outside Unit Member.

Additionally, the committee must include at least one representative from the INTAD Program faculty. The chair of the committee can be a member of both Soil Science and the INTAD Program faculty. If the chair is not an INTAD Program faculty member, the INTAD representative must be the co-chair of the committee.

**Comprehensive Exam**

At the end of the coursework, candidates for the dual-title doctoral degree in Soil Science and INTAD will be required to pass an oral comprehensive examination based on their dissertation proposal and area of specialization in Soil Science, while reflecting their dual-title curriculum. A separate comprehensive examination is not required by the INTAD program, but international agriculture must be one of the key areas of the comprehensive exam and the INTAD representative on the student’s doctoral committee must have input into the development of and participate in the evaluation of the comprehensive examination.

**Dissertation and Dissertation Defense**

Ph.D. students enrolled in the dual-title degree program are required to write and orally defend a dissertation on a topic that reflects the integration of their original research and education in Soil Science and International Agriculture and Development. In order to satisfy the INTAD dissertation requirement, students may: 1) conduct all or part of their research in an international location, 2) conduct an analysis of a subject in an international context, 3) conduct an analysis of secondary data of international origin, or 4) integrate an international dimension by approval of the INTAD committee member.

Additionally, the dissertation should reflect the student’s technical knowledge, knowledge of and sensitivity to a wide diversity of cultures and backgrounds, and the perspective needed to transfer their knowledge in other cultures, particularly in the developing world. The dissertation should contribute to the body of knowledge in soil science and global agricultural development and have potential application in both U.S. and international contexts. A public oral presentation of the dissertation is required.

**Student Aid**

Graduate assistantships and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

**Courses**

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Ph.D., M.A.
Dual-Title Graduate Degree in Spanish and Language Science

The Graduate Faculty

The program offers M.A. options in literature and linguistics, as well as doctoral emphasis in either of these two areas.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required of all students educated (high school and college) in the continental United States. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The minimum requirement for admission normally will be 24 credits of post intermediate work in Spanish language and literature.

Students with a 3.00 junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

Degree Requirements

A candidate for the M.A. degree must take a minimum of 30 credits at the graduate level including 6 credits in a related minor field. An M.A. essay and a comprehensive written examination also are required. The M.A. degree (or equivalent) is normally a prerequisite to doctoral candidacy.

For the Ph.D. degree, a student must complete at least 60 credits (including M.A. credits) of graduate-level work, including a 15-credit minor. Other requirements include (1) a doctoral candidacy examination and written area examinations; (2) reading knowledge of two foreign languages or a comprehensive knowledge of one foreign language; and (3) a doctoral dissertation.

Dual-Title Graduate Degree in Spanish and Language Science

Graduate students with research and educational interests in Spanish may apply to the Spanish and Language Science Dual-Title Degree Program. The goal of the dual-title Spanish and Language Science is to enable graduate students from Spanish to acquire the knowledge and skills of their major area of specialization in Linguistics while at the same time gaining depth and methodological expertise in the areas associated with the language sciences.

Admission Requirements

To pursue a dual-title degree under this program, the student must first apply to the Graduate School and be admitted through the Department of Spanish, Italian and Portuguese (see above for admission requirements for the Graduate Program in Spanish). Upon admission to the Spanish Program and with a recommendation from a Language Science program faculty member in the Department of Spanish, Italian and Portuguese, the student's application will be forwarded to a committee that will include the Director of the Linguistics Program, one of the Co-Directors of the Center for Language Science, and a third elected faculty member within the Center for Language Science. All three committee members will be affiliated with the Program in Linguistics. Upon the recommendation of this committee, the student will be admitted to the dual-title degree program in Language Science.

Requirements for the Dual-Title Ph.D. Degree in Spanish and Language Science

The doctoral degree in Spanish and Language Science is awarded only to students who are admitted to the Spanish doctoral program and admitted to the dual-title degree in Language Science. The minimum course requirements for the dual-title Ph.D. degree in the Spanish and Language Science, in addition to the Spanish Program requirements, are described below.

Spanish/Language Science Proposed Requirements

Total number of required credits: 60

The minimum course requirements for the dual-title Ph.D. degree in Spanish and Language Science, in addition to the Spanish Program requirements, are as follows:

- Language Science proseminar courses (LING 521 and LING 522; 6 credits)
- Research Methods/Statistics (LING 525 or equivalent; 3 credits)
- Theoretical Linguistics (LING 500 or LING 504; 3 credits)
- Cognitive Neuroscience or Psycholinguistics (LING/PSY 520, PSY 511 or equivalent; 3 credits)
- Research internships with two different Language Science faculty mentors (CSD 596, GER 596, LING 596, PSY 596, SPAN 596; 6 credits)

Particular courses may satisfy both the Spanish requirements and those in the Language Science program. Final course selection is determined by the student in consultation with the dual-title program advisors and the major program advisors. Students who already hold a master's degree from another institution may petition to have equivalent course credits accepted.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

The department awards annually an Edwin Erle Sparks Fellowship in the Humanities. In the past several years, graduate students have received external NSF fellowships and awards such as Doctoral Dissertation Research Improvement grants.

Courses

*SPAN 001G. ELEMENTARY SPANISH FOR GRADUATE STUDENTS (3)
*SPAN 002G. ELEMENTARY SPANISH FOR GRADUATE STUDENTS (3)

*No graduate credit given for this course.
Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

SPANISH (SPAN) course list

Last Revised by the Department: Spring Semester 2010
Blue Sheet Item #: 38-07-010
Review Date: 06/22/2010
Faculty linked: 6/27/14
The Pennsylvania State University

Communication Arts and Sciences (CAS)

Program Home Page
JOHN GASTIL, Head of the Department
240H Sparks Building
814-865-5232

Degrees Conferred:
Ph.D., M.A.

The Graduate Faculty

Students may specialize in communication theory (communication sciences) or rhetoric (communication arts).

Admission Requirements
Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The minimum undergraduate preparation is 12 credits in communication studies/speech communication. Students who cannot meet this requirement in full may be admitted but must make up their deficiencies without credit toward the graduate degree.

Additionally, students with a 3.00 junior/senior grade-point average (on a 4.00 scale) and appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. A student must have completed the master's degree before being admitted as a doctoral candidate.

Master's Degree Requirements
Students pursuing the M.A. degree in Communication Arts and Sciences must schedule a review of their program of courses during the first year of residence and receive approval by a duly constituted advisory committee.

A total of 30 credits, including 6 for the master's thesis and at least 12 other 500-level credits, is required. Candidates must schedule a proposal meeting in which their research plan for their thesis is approved by their committee. They are also required to present an oral defense before their committee.

Although typically discouraged, students in unique circumstances may apply to complete a nonthesis track. Students must apply in advance for acceptance in the nonthesis track and additional course credits will be required, among other differences from the thesis track.

Doctoral Degree Requirements
The communication and foreign language requirement for the Ph.D. degree may be satisfied by options selected from designated areas including, but not restricted to, foreign languages. Doctoral candidates must schedule a candidacy evaluation during their first year. Following completion of the language requirement and all courses from the program of study, doctoral candidates must take a comprehensive examination to determine their mastery and competence in the discipline of communication. After successful completion of the written and oral component of the comprehensive exam, doctoral candidates must schedule a proposal meeting at which the research plan for their dissertation is approved by their committee. Doctoral candidates must present a final oral defense of their dissertation before their committee.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

EDWIN ERLE SPARKS FELLOWSHIPS IN THE HUMANITIES (8)

Available to beginning and continuing graduate students in one of the following graduate programs: Communication Arts and Sciences, Comparative Literature, English, French, German, History, Linguistics, Philosophy, and Spanish; stipend $15,340 plus waiver of tuition. Apply to department before February 1.

Dual-Title Ph.D. in Bioethics (BIOET)

Degree Conferred Students electing to pursue this program will earn a degree with a dual-title at the Ph.D. level, i.e. Ph.D. in CAS and Bioethics.

Admission Requirements
Dual-title bioethics graduate students will first be admitted to their primary programs in accordance with the requirements stipulated by the Graduate School and the primary program. They will then be admitted to graduate study in the Bioethics program by an admissions committee consisting of faculty affiliated with the Bioethics program. Applicants should have a junior/senior cumulative average of at least 3.0 (on a 4.0 scale) and an appropriate background in undergraduate coursework. Prospective dual-title students will write a statement of purpose that addresses the ways in which their research and professional goals reflect an interest in interdisciplinary bioethics research. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Degree Requirements
To qualify for a dual-title degree, students must satisfy the requirements of the CAS program in which they are primarily enrolled. In addition, they must satisfy the requirements described below, as established by the Bioethics program committee. Within this framework, final course selection is determined by the student, their CAS and Bioethics advisors.

Additional required course work
Seven required credits (BIOET 501, BIOET 502, and BIOET 590). At least three additional BIOET credits at the 500 level.

Eight additional credits from a list of approved electives at the 400 and 500 level, with at least two credits at the 500 level.

Courses available to fulfill requirements

BIOET/ETHICS Courses (BIOET)
501. PERSPECTIVES AND METHODS IN BIOETHICS (3)
502. PERSPECTIVES IN MACRO-BIOETICS (3)
503. ETHICS AND THE RESPONSIBLE CONDUCT OF BIOMEDICAL RESEARCH (3)
590. BIOETHICS COLLOQUIUM (1)
594. RESEARCH TOPICS (1-15)

The Pennsylvania State University
Elective Courses

The list of elective courses will be maintained by the Director of the Bioethics Graduate Program in consultation with the Bioethics Program Committee. The list currently includes the following courses:

- ANTH/Biol 460 Human Genetics (3)
- ANTH/Biol 465H Human Genetics (4)
- ANTH 471H Biology, Evolution and Society (3)
- BB H 501 Biobehavioral Systems in Health and Development: Theory and Processes (3)
- BB H 504 Behavioral Health Intervention Strategies (3)
- BB H 551 World Health Promotion (3)
- Bmh 490 Bioethics and Medical Humanities Capstone (3)
- BMb 509 Ethics in Biomedical Science (1)
- CAS 453 Health Communication Theory and Research (3)
- CAS 557 Health Communication (3)
- CAS 562 Qualitative Methods (3)
- Frensc 561 Ethics in Forensic Science (1)
- H adm 539 Health Systems Organization (3)
- H adm 540 Health Administrative Policy Formulation (3)
- H adm 541 Health Economics and Policy (3)
- H adm 542 Health Care Politics and Policy (3)
- H adm 543 Long-Term Care Administration and Policy (3)
- H adm 551 Health Care Law (3)
- H P a 401 (IL) Comparative Health Systems (3)
- H P a 510 Health Services Financing and Policy (3)
- H P a 511 Research Seminar on Health Services Financing and Policy (3)
- H P a 520 Introduction to Health Services Organization and Delivery (3)
- H P a 521 Research Seminar on Health Services Organization and Delivery (3)
- H P a 540 Epidemiological Applications in Health Services Research (3)
- H P a 541 Poverty, Race, Ethnicity and Child Health (3)
- H P a 545 introduction to Health Economics (3)
- H P a 822 Clinical Issues for Health Services Management (3)
- H P a 836 Health Law (3)
- Hlhed 516 Evaluation of Health Education and Promotion Programs (3)
- Hlhed 582 Current Health Education Issues (3)
- Hlhed 583 Multicultural Health Issues (3)
- IBios 591 Ethics in the Life Sciences (1)
- Nurses 464 (US;IL) Dying and Death (3)
- Nurses 501 Issues in Nursing and Health Care (3)
- Nurses 500 Epistemology of Nursing Science (3)
- Nurses 581 Developing Theoretical Constructs Relevant to Nursing (3)
- Nurses 587 Ethics in Nursing Research (1)
- NutriT 1430 (IL) Global Food Strategies: Problems and Prospects for Reducing World Hunger (3)
- Phil 403 Environmental Ethics (3)
- Phil 418 Ethics (3)
- Phil/STs 432: Medical and Health Care Ethics (3)
- Phs 570 Health Economics and Economic Evaluation (3)
- ST S 555 Human Dimensions of Natural Resources (3)
- ST S 589 Ethics and Values in Science and Technology (3)
- Wmnst/bb H 458: Critical Issues in Reproduction (3)

Candidacy

In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the CAS program. During the candidacy process, the student will also be assessed for candidacy to the Bioethics program, and at least one member of the candidacy committee must come from the Bioethics program. Faculty members who hold appointments in both programs may serve in a combined role.

Committee composition

In accordance with the Graduate Council’s requirements, the doctoral committee shall contain at least four members. At least one of the committee members must be a faculty-member affiliated with the Bioethics Program, but graduate students are encouraged to have a second committee member so qualified. Faculty members who hold appointments in both programs may serve in a combined role. If the committee chair does not serve in this combined role, the faculty member representing the Bioethics Program must be designated as co-chair of the committee. The Bioethics program representative(s) will be expected to participate in constructing and grading comprehensive examination questions that cover the secondary area of study. The outside member will be appointed in accordance with the Graduate School’s Graduate Student Committee Procedures. The Graduate Council’s current policy is that the Outside Member cannot have more than a 25% budgetary connection with either the graduate major program or the dual-title degree program.

Comprehensive exam

The faculty member (or members) affiliated with the Bioethics Program will be responsible for administering a portion of the comprehensive exam that will require the student to demonstrate an understanding of various theoretical and methodological approaches to bioethics, and an ability to apply them to issues and problems (including, where appropriate, practical problems) in their primary field.

Dissertation and dissertation defense

A dissertation on a bioethics-related topic or with a substantial bioethics component is required of students in the dual-title Ph.D. program. The bioethics-related topic of the dissertation or the bioethics component will be approved by the student’s committee.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
Special Education (SPLED)

The Program

Exceptional children are those who deviate so far from average in physical, intellectual, emotional, or social characteristics that they require highly specialized instruction and related services. The purpose of the M.Ed. program in Special Education is to prepare educational service providers of exceptional children in advanced training in academic and behavior management strategies. M.Ed. students are trained in behavior management and instructional design, implementation, and evaluation appropriate for effective work with children and youth who qualify for services for intellectual, behavioral, or physical disabilities at all age levels and degrees of severity. The purpose of the M.S. and Ph.D. programs is to prepare researchers and college and university teachers in areas encompassing the education of the children and youth who qualify for services for intellectual, behavioral and/or physical disabilities. The former program is professional in nature; the latter two, academic.

Admission Requirements

Applicants for master's and doctoral programs must present evidence of superior academic achievement, complete a personal statement, and provide professional references. Applications for the M.S. and Ph.D. programs must also present GRE verbal and quantitative test scores. Minimum GPA for master's and doctoral applicants are, respectively, 3.00 for M.Ed. and M.S., and 3.50 for Ph.D. Minimum GRE test scores are (verbal and quantitative combined): 290 for M.S., and 300 for Ph.D. Applicants for doctoral study must have had at least three years of relevant experience with special-needs children or youth. International applicants whose first language is not English must submit TOEFL (Test of English as a Foreign Language) scores. Exceptions to the admissions criteria may be made only for highly qualified students with special backgrounds, abilities, and interests. At the discretion of a graduate program, a student may be admitted provisionally for graduate study in a program without these scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Master's Degree Requirements

Prerequisites for the M.Ed. program include 10 credits basic to the education of exceptional children (courses comparable to SPLED 400, SPLED 403A or 403B, and SPLED 418). M.Ed. candidates are expected to complete the core: SPLED 525, SPLED 573 and SPLED 521 or the equivalent. Of the remaining credits required to complete the degree, at least 21 must be taken in special education and include courses selected by students in conjuction with their adviser. M.Ed. students must submit a master's paper.

M.S. candidates are expected to complete the core: SPLED 573, EDPSY 400, and SPLED 600 (6 credits). Of the remaining 18 credits, 6 must be taken from one discipline outside of education. Students must complete a total of 18 credits in special education; and 18 credits at the 500 level or above. M.S. students must submit a master's thesis and pass a comprehensive examination.

All requirements for either the M.Ed. or the M.S. degree must be met within six years or a period spanning seven consecutive summers.

Doctoral Degree Requirements

The communication and foreign language requirement for the Ph.D. degree is prescribed by each student's committee. Minimum requirements for the Ph.D. degree include 24 credits of research methods; 18 credits in a cognate area such as psychology, sociology, or child development; and 36 credits in education. The student also must enroll in SPLED 500 each semester prior to successful completion of the comprehensive examinations. A candidacy examination is required after the first semester of full-time study; written and oral comprehensive examinations also are required. A student is required to complete the program within seven years from the date of acceptance as a candidate.

Student Aid

In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the STUDENT AID section of the Graduate Bulletin, the following award typically has been available to graduate students in this program:

U.S. OFFICE OF EDUCATION ASSISTANTSHIPS OR TRAINEESHIPS IN SPECIAL EDUCATION. Open to graduate students being prepared as leadership personnel in special education; stipend varies, depending on conditions of existing grants. Other graduate assistantships also may be available. Apply to the Graduate Admissions Committee, 125D CEDAR Building.

Courses

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

SPECIAL EDUCATION (SPLED) course list

Last Revised by the Department: Spring Semester 2015

Blue Sheet Item #: 43-07-000

Review Date: 06/30/2015

Faculty linked: 6/27/14
Degrees Conferred:
- M.A.
- M.S., M.A.
- Ph.D.
- Integrated B.S. in Statistics and Master of Applied Statistics (M.A.S.)

The Graduate Faculty

The Programs
Graduate instruction and research opportunities are available in most areas of statistics and probability, including linear models, nonparametric statistics, robustness, statistical computing, analysis of count data, multivariate analysis, experimental design, reliability, stochastic processes and probability (applied and theoretical), distribution theory, statistical ecology, and biometrics.

Graduate students can gain practical experience in the application of statistical methodology through participation in the department's statistical consulting center and collaborative research activities. In addition, collaborative projects with other departments provide longer term experience and support for selected students. Most students gain valuable teaching experience by assisting in the teaching and grading of courses. In addition, Ph.D. candidates with proper qualifications can receive support for teaching undergraduate courses.

The Master of Applied Statistics (M.A.S.) program is a professional degree designed to provide training in statistics focused on developing data analysis skills, and exploration of all core areas of applied statistics, without going deeply into the mathematical statistics foundations. It aims to provide its graduates with broad knowledge in a wide range of statistical application areas.

The Doctor of Philosophy (Ph.D.), Master of Arts (M.A.), and Master of Science (M.S.) degrees in Statistics are designed for advanced studies in applied and theoretical statistics. Special emphases include biostatistics, statistical ecology, environmental statistics, genometrics, biometrics and statistical computation. The M.S. degree is appropriate preparation for the department's Ph.D. degree.

Admission Requirements
Scores from the Graduate Record Examinations (GRE), or from a comparable substitute examination accepted by a graduate program and authorized by the dean of the Graduate School, are required for admission. Entering graduate students in statistics for whom English is not the first language are required to take the TOEFL (Test of English as a Foreign Language) examination. The results of this examination must be received by the Department of Statistics at least six months prior to the requested date of admission to the Graduate School and must pass the PSU test of spoken English in the first year of the program. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 20 on the speaking section for the Internet-based test (iBT). Applicants with lower scores may be considered for provisional admission.

While applications from all students (including those who already have done graduate work) are reviewed, completion of a standard calculus sequence is regarded as a prerequisite. Students with a 3.00 or better junior/senior average (on a 4.00 scale) and with appropriate course backgrounds will be considered for admission. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. Students hoping to earn a Ph.D. in statistics may apply directly to the Ph.D. program without need for a master's degree.

Degree Requirements

Professional Master of Applied Statistics Requirements
For the M.A.S. degree, a minimum of 30 credits and a minimum grade-point average of 3.0 are required for graduation. Of the 30 credits, 24 must be courses from the Statistics department and 21 must be at the 500 level. The candidate must complete 6 credits in applied statistics (STAT 501, STAT 502), 6 credits in mathematical statistics (STAT 414, STAT 415), and 3 credits in stochastic processes (STAT 552). For all M.A.S. students, the Stat 581 course will have a comprehensive written project report required as part of the course, which serves as the culminating experience. To complete the remaining credit requirements, a candidate can select 9-15 credits from the following applied statistics courses: STAT 464, STAT 480, STAT 500, STAT 503, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, and STAT 510. In addition, students with suitable backgrounds may choose up to 6 credits from a departmental list of additional courses with approval from their adviser.

Master of Arts and Master of Science Degree Requirements
For the M.A. and M.S. degrees, a candidate must complete at least 30 credits, including at least 27 at the 500 level; 21 of the 27 500-level credits must be formal course work from the department of Statistics. A candidate must complete 6 credits in applied statistics (STAT 511, STAT 512), 6 credits in mathematical statistics (STAT 513, STAT 514), 3 credits in stochastic processes (STAT 515), and 3 credits in statistical consulting (STAT 580-581). The student must also pass a written master’s qualifying examination taken at the end of the first year. Finally, an M.A. candidate must submit an acceptable master's paper to the department, and an M.S. candidate must submit a thesis.

Doctoral Degree Requirements
In addition to the course requirements for the M.A. and M.S. degrees given above, a Ph.D. candidate in Statistics must complete further courses in linear models (STAT 551), asymptotic tools (STAT 553), statistical inferences (STAT 551), and advanced probability (STAT 517), as well as 15 credits of electives taken from STAT 518, STAT 544, STAT 545, STAT 552, STAT 562, STAT 564, STAT 565, and STAT 572, or other courses suggested by the Ph.D. committee and approved by the Graduate Studies Committee. The student also must pass a written Ph.D. qualifying exam, typically during the second year, and a comprehensive exam given at the end of the third year. The comprehensive exam will have a written component, whose content will be determined and administered by the student's Ph.D. graduate committee, and an oral component, which includes the presentation of a thesis research proposal. The candidate then must submit an acceptable Ph.D. thesis and defend it.

The Ph.D. in Statistics offers options in Biometrics, Biostatistics, Environmental Statistics, and Genometrics. The course and the examination requirements remain the same under these options, however, the candidate must take 15 credits from a list of courses identified by the option.

Minor in Statistics Requirements

The Pennsylvania State University
The Department of Statistics has three possible options for a Graduate Minor in Statistics:

1. **Option 1:** STAT/MATH 414-415 and at least three 500-level courses from the department.
2. **Option 2:** Five or more courses totaling 15 credits at the 500-level from the department. Stat 464 may also count toward the 15 credits.
3. **Option 3:** Four 500-level courses totaling 12 credits from the department and one additional course of 3 credits approved by the department head or graduate studies chairman.

Please note: STAT 500 will not be counted toward the Graduate Minor in Statistics under any option.

For all options, a 3.5 GPA is required in the courses to be counted toward the minor. Completion of one of the options listed above, with the specified grade-point average, and the signature on the Graduate Minor Program form [www.stat.psu.edu/grad/degrees/Minor/Graduate_Minor_Application_Form.pdf](http://www.stat.psu.edu/grad/degrees/Minor/Graduate_Minor_Application_Form.pdf) constitutes approval of the Minor in Statistics. The candidate must indicate the wish to have a Graduate Minor in Statistics when the diploma card is filed and indicate the semester the Ph.D. degree is expected.

### Other Relevant Information

Students in the Statistics program may elect the dual-title degree program option in Operations Research for the Ph.D. and M.S. degrees. ([See also Operations Research.](#))

### Student Aid

Graduate assistanatships available to students in this program and other forms of student aid are described in the [STUDENT AID](#) section of the Graduate Bulletin. GRE scores are required for consideration for assistantships.

### Integrated B.S. in Statistics and Master of Applied Statistics (M.A.S.)

The Integrated Undergraduate-Graduate (IUG) degree with B.S. in Statistics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career-oriented students to obtain training in statistics focused on developing data analysis skills and exploration of core areas of applied statistics at the undergraduate and graduate levels. The M.A.S. degree is a professional master's degree that emphasizes applications and does not provide as much training in the mathematical and statistical theory. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analyst. Research divisions in the pharmaceutical industry, quality control and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data-intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

### Application Process

The number of openings in the integrated B.S./M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

- Must be enrolled in the Statistics B.S. program.
- Must have completed at least 60 credits of the undergraduate degree program, including the two courses: STAT 414 and STAT 415 and the students must apply to the program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of the department's undergraduate program committee.
- Must be accepted into the M.A.S. program in Statistics.

For the IUG B.S./M.A.S. degree, 120 credits are required for the B.S. and 30 credits for the M.A.S. The following twelve graduate-level credits (number of credits in parentheses) can apply to both B.S. and M.A.S. degrees; six of these are at the 500 level:

**STATISTICS (STAT)**

414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

Assuming all requirements for the B.S. are completed, students in the program can complete the B.S. degree and not advance to the M.A.S. Degree if they desire.

### Degree Requirements

IUG Statistics B.S. prescribed Statistics courses (25 credits)

**STATISTICS (STAT)**

220. Basic Statistics (3)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
416. Stochastic Modeling (3)
464. Applied Nonparametric Statistics (3)
470W. Problem Solving and Communication in Applied Statistics (3)
480. Introduction to Statistical Analysis System (SAS) (1)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

Note that students in IUG Statistics B.S. take STAT 501 and STAT 502 instead of STAT 460 and STAT 462 for the regular Statistics B.S.

**IUG Statistics M.A.S. requirement (30 credits)**

**STATISTICS (STAT)**

414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)
580.** Statistical Consulting Practicum (2)
581.**Statistical Consulting Practicum II (1)

**Electives (15 credits)**

Select from STAT 503, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, STAT 510 and the departmental list of additional courses for the M.A.S program with the approval of the adviser.

**For all students in the M.A.S program, the STAT 581 courses will have a comprehensive written project report required as part of the course, which serves as the culminating experience.**

### Integrated B.A./B.S. in Mathematics and Master of Applied Statistics (M.A.S.)

The Integrated Undergraduate-Graduate (IUG) degree with B.A./B.S. in Mathematics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career oriented students to obtain training in statistics focused on developing data analysis skills, and exploration of core areas of applied statistics at the graduate levels in addition to an undergraduate degree in Mathematics. The M.A.S. degree is a professional masters degree that emphasizes applications. The degree prepares students with interests in mathematics,
computation, and the quantitative aspects of science for careers in industry and government as statistical analysts. Research divisions in the pharmaceutical industry, quality control, and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

Application Process
The number of openings in the integrated B.A./B.S. in Mathematics and M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:
- Must be enrolled in the Mathematics B.A./B.S. program.
- Must have completed at least 60 credits of the undergraduate degree program including the two courses: STAT 414 and STAT 415 and the students must apply to the integrated program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of Mathematics Department's undergraduate program committee. Two additional recommendation letters must be sent to the M.A.S. admissions committee.
- Must submit the GRE to the M.A.S. admissions committee.
- Must apply to the M.A.S. program in Statistics.

For the IUG B.A./B.S. in Mathematics and M.A.S. degree, 120 credits are required for the B.A./B.S. and 30 credits for the M.A.S. The following twelve graduate level credits (number of credits in parentheses) can apply to both B.A./B.S. and M.A.S. degrees, six of these are at the 500 level:

STATISTICS (STAT)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

Assuming all requirements for the B.A./B.S. in Mathematics are completed, students in the program can complete the B.A./B.S. degree and not advance to the M.A.S. degree if they desire.

Degree Requirements
IUG Math B.A./B.S. students must fulfill the Math B.A./B.S. requirement while counting these prescribed Statistics courses (15 credits)

STATISTICS (STAT)
220.* Basic Statistics (3)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)

IUG M.A.S. Requirements (30 credits)

STATISTICS (STAT)
414. Introduction to Probability Theory (3)
415. Introduction to Mathematical Statistics (3)
501. Regression Methods (3)
502. Analysis of Variance and Design of Experiments (3)
580. Statistical Consulting Practicum (2)
581.** Statistical Consulting Practicum II (1)

Electives: (15 credits)
Select from STAT 464, STAT 504, STAT 505, STAT 506, STAT 507, STAT 509, STAT 510 and the departmental list of additional courses for the M.A.S. program with the approval of the adviser.

For the IUG B.A./B.S. in Mathematics and M.A.S. degree, the four courses: STAT 414, STAT 415, STAT 501 and STAT 502 can apply to both the B.A./B.S. and M.A.S. degrees.

*Can be waived for students with an equivalent course, e.g., STAT 250 or STAT 301.

** For all students in the M.A.S. program, the STAT 581 course will have a comprehensive written project report required as part of the course, which serves as the culminating experience.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
The Graduate Faculty

- Adrian Barb, Ph.D. (University of Missouri) Assistant Professor of Information Science
- Joanna DeFrancesco, Ph.D. (New Jersey Institute of Technology) Assistant Professor of Software Engineering
- Mohamad Kassab, Ph.D. (Concordia) Assistant Professor of Software Engineering
- Phillip A. Laplante, Ph.D. (Stevens Institute of Tech) P.E. Associate Professor of Software Engineering
- Colin J. Neill, Ph.D. (Wales) Associate Professor of Software and Systems Engineering; Director of Engineering Programs
- Sally S. Richmond, M.S.I.S. (Penn State) Lecturer in Information Science
- Raghvinder Sangwan, Ph.D. (Temple) Associate Professor of Software Engineering
- Satish M. Sriinivasan, Ph.D. (Nebraska, Omaha) Assistant Professor of Information Science
- Pamela Vercellone-Smith, Ph.D. (Penn State) Assistant Professor of Software Engineering

This professional master's degree program, available at Penn State Great Valley, focuses on various aspects of software engineering. The primary goal of the program is to prepare students to develop the next generation of software products and services for consumers, industry, and government. The curriculum includes comprehensive, intensive coverage of modern software concepts and techniques, and emphasizes a holistic approach, encompassing financial, legal, and presales issues; technical concepts; software design techniques; methods; and project management.

The program is constituted by four, 9-credit modules of study. Each module is designed for in-depth coverage of a specific area of study (e.g., modern software methods, algorithms, information science). Two of the modules are required; one centers on professional, skill-based topics such as software project management or business communications, and includes the option to select a professional paper or the advanced software studio. The second required module comprises 9 credits of advanced software engineering course work. Graduate instruction is under the direction of a faculty committee.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The Master of Software Engineering (M SE) program is designed for students with technical backgrounds. Admission will be granted if the applicant has the necessary program prerequisites and a faculty member in the student's interest area agrees to serve as adviser. Candidates lacking in a modern programming language can meet that requirement by scheduling the 400-level software engineering studio. Scores from the Graduate Record Examinations (GRE) are not an entrance requirement unless the applicant has a junior/senior grade-point average below 3.00 (on a 4.00 scale).

Students with a 3.00 junior/senior average in an appropriate technical degree program will be considered for admission. The best-qualified applicants will be accepted. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests. Entering graduate students for whom English is not their first language are required to have a score of at least 550 on the TOEFL (Test of English as a Foreign Language).

Program Requirements

All candidates must complete two required 9-credit core modules, for a total core curriculum of 18 credits, and two other 9-credit modules. At least 15 credits of selected courses must be at the 500 level.

Student Aid

Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

This professional master's degree program, available at Penn State Great Valley, deals with the various aspects of systems engineering. The primary goal of the program is to prepare engineers to develop the next generation of engineering products, systems, and services for industry and government. The curriculum integrates the traditional engineering disciplines in a synergistic manner. Course work includes four 9-credit modules of study with each module designed for in-depth coverage of a specific area of study (e.g., systems and control, robotics). Two of the four modules, the Skill-Based module and the Systems Engineering module, are required and constitute an 18-credit core. To complete the program, students choose an additional 18 credits of electives in two modules of professional interest. As part of the 18-credit core curriculum, students who are nearing the end of their program complete a capstone research experience. Graduate instruction is under the direction of an interdisciplinary faculty committee and the departments participating in the program. The graduate faculty consists of members who have teaching and research interests in the area of systems engineering. Maximum flexibility is maintained by the program in an effort to meet both the professional needs of the individual students and academic quality standards.

Admission Requirements
Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

The M.Eng. in Systems Engineering program is designed for students with backgrounds in science or engineering. Admission will be granted if the applicant has the necessary program prerequisites and a faculty member in the student's interest area agrees to serve as adviser. Normal admission requirements include mathematics through differential equations. Scores from the Graduate Record Examinations (GRE) are not an entrance requirement unless the junior/senior grade-point average is below 3.00 (on a 4.00 scale). There is no foreign language requirement.

Students with a 3.00 junior/senior GPA in an appropriate technical degree program will be considered for admission. The best-qualified applicants will be accepted. Exceptions to the minimum 3.00 GPA may be made for students with special backgrounds, abilities, and interests. Entering graduate students for whom English is not their first language are required to have a score of at least 550 (paper) or 213 (computer) on the Test of English as a Foreign Language (TOEFL).

Degree Requirements
All candidates must take two required 9-credit core modules for a total core curriculum of 18 credits and two other 9-credit elective modules. At least 15 credits of selected courses must be at the 500 level.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Teaching and Curriculum (T & C)

Program Home Page
DENISE G. MEISTER, Coordinator of the Graduate Program in Teaching and Curriculum
Penn State Harrisburg
Middletown, PA 17057
717-948-6213

Degree Conferred:
M.Ed.

The Graduate Faculty

The Program

The Master of Education in Teaching and Curriculum is designed to enhance the skills of teachers for public and private schools. The program focuses on three essential components: curriculum, instruction, and assessment—that contribute to the organization’s philosophy of learning. The Teaching and Curriculum program is unified by its vision of critical thinking, democracy, diversity, lifelong learning, nurturance, and scholarship. Courses are designed to reflect the standards of the National Council for Accreditation of Teacher Education (NCATE) and the National Board for Professional Teaching Standards (NBPTS). The program is offered at Penn State Harrisburg and other selected Penn State campuses.

Specifically, the goals of the program are to develop in students (1) the ability to communicate effectively either with school-age students and their parents or with co-workers and/or clients; (2) the ability to conduct an instructional program that provides a sound intellectual and emotional climate for learning; (3) competence in a variety of teaching methods and in the utilization of materials and content appropriate for an effective instructional program; (4) the ability to interpret and to evaluate educational literature and research; and (5) the ability to describe and to evaluate major issues and current trends in instructional curriculum practice and development.

Certification programs are also available in the areas of early childhood education, English as a second language, and principalship.

Admission Requirements

Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The M.Ed. Program in Teaching and Curriculum has four important admission requirements.

First, candidates must have achieved an overall junior/senior grade point average of 3.00 or higher. For candidates applying for admission who have completed credits beyond the baccalaureate degree, we will evaluate the last (approximately) 60 credits completed.

Second, candidates must submit two letters of recommendation. These letters must be from former professors or professionals who can attest to the academic ability and potential of the candidate.

Third, candidates must submit a 200-300 word personal statement that addresses their career goals and reasons for pursuing a graduate degree.

Fourth, candidates must submit test scores from one of the following: Graduate Record Examination, Miller Analogies Test, or Praxis examinations completed for certification.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Retention

Candidates must maintain a minimum 3.00 grade point average in courses approved by the program, satisfactorily complete all required key assessments, attain a grade “C” or better in all required core courses. Candidates who do not make satisfactory progress will be notified in writing noting the specific deficiencies and requesting that they meet with the program coordinator to develop a remediation plan. Failure to meet or to satisfactorily complete the remediation plan will result in termination from the program.

In compliance with the National Council for the Accreditation of Teacher Education (NCATE) requirements, all persons enrolled in Teacher Education Programs at Penn State Harrisburg are expected to demonstrate the professional dispositions that are aligned with the unit’s vision statement. The faculty shall evaluate the approved dispositions demonstrated by the candidates in class and during field experiences. Candidates may be rated as exemplary, acceptable, or unacceptable. Candidates are expected to attain acceptable or exemplary ratings in order to graduate.

Degree Requirements

The Master of Education degree in Teaching and Curriculum provides students with two alternatives to meet the required culminating or capstone experience: (1) course work with a master’s project (EDUC 587) or (2) course work that includes a capstone course (EDUC 591). Students may complete the degree requirements for either of the two alternatives with the approval of their adviser.

A total of 30 credits must be completed; 18 credits in core courses and 12 credits in electives. At least 18 credits must be at the 500 level or higher. A minimum grade-point average of 3.00 for work done at the University and acceptable or higher ratings on the professional dispositions are required for graduation.

Prescribed Core Course Requirements (18 credits)

Learning Theory: EDUC 520(3)
Curriculum Development and Instructional Design: EDUC 506(3) or EDUC 403(3) (Early Childhood only)
Educational Assessment: EDUC 539(3) or EDUC 404(3) (Early Childhood only)
Educational Foundations: EDUC 505(3)
Educational Research Designs: EDUC 586(3)
Culminating Course: EDUC 587 Master’s Project or EDUC 591 Education Seminar

The Pennsylvania State University
Electives

Students are required to take up to 12-15 credits of elective course work. Students may take all of those credits in education or, with the approval of their adviser, select up to 9 credits of electives in a field other than education.

Options

**Language Arts Option:** The goal of the language arts option is to provide students an in-depth understanding of how research in theory in the language arts are related to language acquisition and growth; the knowledge and skills necessary for conducting informal assessments in the language arts and required to implement a variety of instructional procedures for the language arts; and an awareness of the role that literature can have in an effective language arts program at any level.

**Mathematics Education Option:** The objective of the mathematics education option is to provide courses that will emphasize current research and curriculum shifts related to the teaching of mathematics in K-12 classrooms. This option requires completion of four EDMTH courses (a total of 12 credits): EDMTH 441, 442, 443, 444 in addition to the other program requirements.

Transfer Credits

Subject to the limitations given below, a maximum of 10 credits of high-quality graduate work done at a regionally accredited institution may be applied toward the requirements for the master's degree. However, credits earned to complete a previous master's degree, whether at Penn State or elsewhere, may not be applied to a second master's degree program at Penn State. The student should distinguish carefully between the transferability of credit and its applicability in a particular degree program. Approval to apply any transferred credits toward a degree program must be granted by the student's academic adviser, the program head or graduate officer, and the Graduate School. Transferred academic work must have been completed within five years prior to the date of the first degree registration at the Graduate School of Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript of an accredited university. Pass-fail grades can be substantiated by the former institution as having at least B quality.

A maximum of 15 graduate credits taken as a nondegree student prior to admission to a graduate degree program may be applied to a graduate program, with departmental approval. The credits must have been earned within five years preceding entry into the degree program.

Forms for transfer of credit can be obtained from the graduate program office.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit courses below the 400 level in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

**EDUCATION (EDUC) course list**

Teaching English as a Second Language (TESL)

Program Home Page
ROBERT W. SCHRAUF, Department Head
240 Sparks Building
814-865-7365

Degree Conferred:
M.A.

The Graduate Faculty

The Program

The M.A. program in Teaching English as a Second Language is designed to provide professional development for teachers and administrators in English as a second or foreign language. The program is problem focused, integrating theory and practice from the fields of applied linguistics and teaching English as a second language to address issues of second language acquisition/teaching and program development, with special focus on English in a wide range of both domestic and international contexts. Requirements include 36 credits total, a M.A. paper, and a teaching e-portfolio. The department offers two paths to the MA/TEL. Students may complete the entire program in residence at University Park or they may pursue a hybrid path to the degree, including 12 credits of 800-level online courses, followed by 24 credits (plus M.A. paper and teaching e-portfolio) in residence at University Park. Students pursuing the residential path to the degree may also take the department’s 800-level online offerings, and these count as electives in their program of study. Completion of this degree program does not automatically provide teacher certification in the Commonwealth of Pennsylvania. Further information on teaching certification is available from the College of Education. Students who desire to continue their studies in ESL at Penn State may apply to the Ph.D. program in Applied Linguistics through the Department of Applied Linguistics.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. Requirements listed here are in addition to general Graduate Council requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State and online is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 600 for the paper-based test, or a total score of 100 with a 23 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 7.0.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All applicants are also required to arrange for three letters of reference to be submitted along with a one- to two-page statement written by the applicant describing the applicant’s goals and professional objectives.

Degree Requirements

The M.A. in TESL requires 36 credits, of which 18 credits must consist of 500-level courses. In lieu of a thesis, students must prepare a M.A. paper and compile a teaching e-portfolio. The following courses are required:

Foundations: 9 credits, including: APLNG 484, APLNG 491, APLNG 493

Professional Core: 6 credits from among the following: APLNG 410, APLNG 412, APLNG 482W, and APLNG 583 [required in the Hybrid Path]

Field Experience: 6 credits, including: APLNG 500, APLNG 595;

Research Methods: 3 credits from among the following courses: APLNG 577, APLNG 581, APLNG 582, APLNG 586, APLNG 592, and APLNG 593

Electives: 12 credits from among the following courses: APLNG 510, APLNG 511, APLNG 512, APLNG 570, APLNG 572, APLNG 575, APLNG 576, APLNG 584, APLNG 587, APLNG 589, APLNG 591, or other courses with approval of the adviser

Residential Path: With guidance from their advisers, students who are enrolled in the Residential Path take 12 credits in electives. Any 500-level 3-credit course not taken as a requirement of Research Methods can be counted as an elective in the resident MA/TEL program.

Resident Path students are allowed to take any or all of the APLNG 800-level courses as electives in any sequence during the MA/TEL program. If 12 credits of APLNG 800-level courses are taken, resident path students are required to take APLNG 583 and, in consultation with their academic advisor, substitute two 500-level electives (6 credits) for appropriate courses listed under Foundations and/or Professional Core.

Hybrid Path: Students who choose to take the hybrid path to the degree will have already taken APLNG 802, APLNG 804, APLNG 806, and APLNG 808 online, and these online courses take the place of the 12 credits of elective courses. Hybrid path students are required to take APLNG 583 and, in consultation with their academic advisers, substitute two 500-level electives (6 credits) for appropriate courses listed under Foundations and/or Professional Core.

Capstone Projects. All students must also complete a M.A. paper and teaching e-portfolio.

Student Aid

Graduate Assistantships that may be available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 899 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

APPLIED LINGUISTICS (APLNG) course list

The Pennsylvania State University
Theatre (THEA)

Program Home Page.

BARRY KUR, Head of the Graduate Program in Theatre
116C Arts Building
814-863-1453

Degree Conferred:
M.F.A.

The Graduate Faculty

The Program
The master of fine arts degree program in Theatre pursues the following objectives: (1) to assist each student in acquiring discriminating taste and critical judgment in theatre; (2) to help each student attain skills and proficiencies in theatre; (3) to provide the training, discipline, and opportunities essential to the development of a professional ability in at least one area of theatre; and (4) to prepare each student for an active career in academic and/or professional theatre or other areas within the entertainment industry.

Facilities include the Playhouse, a 450-seat proscenium theatre; the Pavilion, a 249-seat thrust theatre; a 150-seat proscenium theatre in the heart of downtown State College; theatre production studios for scenic, property, and costume preparation; two computer-assisted design laboratories; a lighting laboratory; a sound and media studio; and rehearsal and dance studios.

Admission Requirements
Graduate Record Examination (GRE) scores, or comparable examination scores, are not required for admission to the School of Theatre. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Requirements for admission to the M.F.A. program are (1) a broad undergraduate preparation in theatre, including 3 credits each in acting, directing, stagecraft, and theatre history; and 6 credits of dramatic literature; (2) 12 credits in related subject areas such as communications, oral interpretation, art, business, music, and dance; and (3) submission of a vita and at least three letters of recommendation.

Additional requirements for M.F.A. candidates are (1) submission of evidence of professional potential in the proposed area of specialization-auditions, prompt books, portfolios, manuscripts, and other appropriate presentations-to the applicable study program(s) by arrangement with the department; and (2) a personal interview to be arranged by the student.

Master of Fine Arts Degree Requirements
The program entails specialized professional training in one of the following areas: acting, directing, scene design, costume design, costuming, lighting design, and technical direction. Six semesters in residence are normally required to complete the minimum 60-credit degree.

Students are evaluated on a semester-by-semester basis on academic progress, creative achievement, and professional potential. The M.F.A. is a professional degree and is granted by the Graduate Faculty on the basis of academic and creative excellence over and above the fulfillment of requirements. Satisfactory academic progress does not guarantee continuance in the program, nor does continuance in the program imply the automatic granting of a degree. M.F.A. candidates are required to participate in the School of Theatre productions in positions of responsibility. Additionally, each student must complete a committee-approved monograph project in the area of specialization. An international residency is required and is funded by the school.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Degree Conferred:
M.Ed.

The Graduate Faculty

The Program
The master of education degree program in Training and Development at Penn State Harrisburg helps students prepare for professional careers in training and development in diverse organizational settings, including business and industry, government, and health care. Graduates of the Training and Development Program frequently assume positions such as trainers, instructional designers, program evaluators, performance analysts, career development specialists, and organization developers.

The overarching goal of the Training and Development Program is to help students develop the ability to assess and improve employee learning and performance. Accordingly, specific goals of the program include developing the ability to: analyze employee performance; design a broad range of performance improvement interventions, with particular emphasis on the design, development, and delivery of training programs; evaluate training and development programs; facilitate work group discussions and group processes; translate training and development theory into practice; and critically evaluate research in training and development.

Admission Requirements
An applicant must hold either (1) a baccalaureate degree in any field from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree in any field that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A baccalaureate degree in any field from a regionally accredited, college-level institution. Admission decisions are based primarily on an applicant's junior/senior cumulative grade-point average and career-goal statement. Additional information pertaining to any postbaccalaureate course work and professional experience are considered. The best-qualified applicants will be accepted up to the number of spaces available for new students.

International applicants are exempt from the TOEFL/IELTS requirement if they have received a baccalaureate or graduate degree from a college, university, or institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States and Wales.

Application Deadlines
Candidates may enter the program at the beginning of fall or spring semester, or the summer session. Application deadline dates for U.S. students and international students are posted on the Training and Development Program website. (http://www.hbg.psu.edu/hbg/programs/gradprog/trdev.html)

Degree Requirements
Students may enter the Training and Development program from a variety of backgrounds and enroll in courses to help them develop competencies in training and development. Coursework includes both required and elective courses in training and development as well as electives from outside the master's program. Students select one of two areas of professional practice, training or human resource development, as a focus for their electives in the training and development program. Courses are scheduled to accommodate part- and full-time students.

Students must choose one of two capstone experiences (see details about each below). The Paper capstone experience requires the completion of a master's paper and a total of 33 credits at the 400 level or higher, with at least 18 credits at the 500 level or higher and a minimum of 6 credits at the 500 level; the Non-Paper capstone experience does not require a master's paper, but does require Research Designs Applied in Training (TRDEV 586) and an additional 3-credit elective in Training and Development for a total of 36 credits at the 400 level or higher, with at least 18 credits at the 500 level or higher and a minimum of 6 credits at the 500 level.

Both options require successful completion of the prescribed courses listed below.

Prescribed (Required) Courses: (21 credits)
TRDEV 460. Foundations in Training & Development (3)
TRDEV 503. Performance Consulting (3)
TRDEV 518. Systematic Instructional Design in Training (3)
TRDEV 520. Learning Styles and Theories for Trainers (3)
TRDEV 531. Technology in Training (3)
TRDEV 561. Facilitation Theories and Practice (3)
EDUC 586. Educational Research and Design (3)
Elective Courses (9-12 credits)

From Training and Development courses, select three courses (9 credits) for the Paper option or four courses (12 credits) for the Non-Paper option:

- TRDEV 505. Project Management (3)
- TRDEV 507. Program Evaluation (3)
- TRDEV 528. Instructional Systems Design Applications (3)
- TRDEV 530. Multiplatform Delivery (3)
- TRDEV 532. Web-Based Training (3)
- TRDEV 537. Technologies in Learning and Development (3)
- TRDEV 563. Strategic and Critical Human Resource Development (3)
- TRDEV 565. Implementing Training and HRD Development Programs (3)
- TRDEV 567. Instructional Leadership Theories and Development (3)
- TRDEV 583. Issues in Training & Development (3)
- TRDEV 590. Colloquium (3)
- TRDEV 596. Individual Studies (1-3)
- TRDEV 597. Special Topics (3)

Required Experience:

Successful completion of an ePortfolio including samples of training and development work from all core courses as well as examples of other professional activities completed during the student’s time in the Training and Development program. These activities should equate to approximately 240 hours of work and will be reviewed by the student’s adviser to determine whether they meet professional experience standards. Students will be required to take TRDEV 595 (Internship) as one of their elective courses if their ePortfolio does not meet the professional experience standards established by the program.

Capstone Requirement (3-6 credits):

Choose one of the following capstone experiences:

A. Master's Paper (3 credits)
   TRDEV 587. Master's Paper (3)
B. Non-Paper Experience (6 credits)
   TRDEV 588. Research Designs Applied in Training (3)
   and
   One additional 3-credit elective as noted above

Transfer Credits and Course Substitutions

A maximum of 10 credits of high-quality graduate work done at a regionally accredited U.S. institution or an officially recognized degree-granting international institution may be applied toward the requirements for the master’s degree in Training and Development. Approval to apply any transferred credits toward a degree program must be granted by the student’s academic adviser and the Graduate School. Transferred academic work must have been completed within five years prior to the date of degree registration at Penn State, must be of at least B quality (grades of B- are not transferable), and must appear on an official graduate transcript. Credits earned toward a previously completed post-baccalaureate professional degree program (law, medicine, etc.) are not transferable. However, up to 10 credits can be transferred from a professional degree program if the degree has not been conferred.

A maximum of 15 credits earned as a nondegree graduate student at Penn State may be applied to the Training and Development program, with departmental approval. The credits must have been earned within five years preceding entry into the program.

Grade-point Average and Time Limit

A 3.00 (out of 4.00) minimum grade-point average is required to graduate from the program. All course work must be completed within eight years of admission to degree status.

Financial Aid

A limited number of scholarships, fellowships, and research grants are available, as well as graduate assistantships. Many students work full-time and take classes part-time. In many cases, employers have a tuition-reimbursement plan paying for partial or full tuition. To find other options available to you, contact the Penn State Harrisburg Financial Aid Office at 717-948-6307.

Courses

Graduate courses carry numbers from 500 to 699 and 800-899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not be used to meet graduate degree requirements. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

EDUCATION (EDUC) course list

Lasted Revised by the Department: Spring Semester 2014
Blue Sheet Item #: 42-06
Review Date: 04/08/2014
Faculty linked: 8/14/14
Master of Professional Studies in Turfgrass Management

ANDREW S. MCNITT, In Charge of Master of Professional Studies in Turfgrass Management Graduate Program
445 ASI Building
814-863-1368, asm4@psu.edu

Degree conferred:
Master of Professional Studies (M.P.S.)

The Graduate Faculty

The Program
The Master of Professional Studies in Turfgrass Management (MPS-TM) is a 30-credit terminal master’s degree program that emphasizes a systems approach to turfgrass management. The program balances theory and practice. Courses taught in MPS-TM use web-based lessons, quizzes, exams, and team projects and exercises to provide a balance between individualized study and interactive learning. Individuals who currently work as managers of turfgrass facilities, including golf courses and professional sports complexes, would benefit from this program. The MPS-TM program requires the completion of four core courses in which students learn to apply scientific concepts to fundamental problems encountered in the management of complex turfgrass ecosystems. Additionally, a capstone individual studies in turfgrass management course is a project that integrates theory and practice in addressing real problems encountered in turfgrass facility management.

Degree Requirements
The professional master’s degree requires 30 credits including a final integrative project. All students complete the required MPS-TM core program of turfgrass courses. The MPS-TM turfgrass courses consist of TURF 850 (Turfgrass Physiology), AGRO 851 (Applied Plant Population Biology), TURF 852 (Turfgrass Health Management), TURF/PPATH 853 (Turfgrass Science Literature), and AGRO 596 (Individual Studies in Agronomy). An integrative project is required in which the student demonstrates the capability to integrate and apply concepts, principles, analytical techniques, and interpretation skills learned in the program to a real problem faced in turfgrass facility management. In consultation with their advisor, students also take an additional 15 credits of elective coursework to focus on their particular interest within turfgrass facility management. A total of 18 credits must be 500-level or higher, with at least 6 credits of 500-level course work; this Graduate School requirement is met through the required courses, the project, and at least one 500-level elective course.

List of required courses in proposed program*

AGRO 596 Individual Studies in Agronomy (3) Used by students to work with an advisor on their capstone project.
AGRO 851 Applied Plant Population Biology (3) Lectures and exercises designed to develop student competency in plant selection to promote ecological diversity and genetically superior plants.
TURF 850 Turfgrass Physiology (3) Lectures, reading assignments, and exercises designed to develop student competency in plant physiology as it relates to turfgrass management strategies.
TURF 852 Turfgrass Health Management (3) Lectures and exercises designed to develop student competency in solving turfgrass pest problems, as well as disease resistance in turfgrasses.
TURF/PPATH 853 Interpreting Turfgrass Science Literature (3) Introduction to turfgrass research publications, interpretation of the data, and discussion of the significance of the results.

*See Appendix B for elective courses

Admission Requirements
Applications must submit a letter of professional introduction in which they describe their professional experiences and education, delineate their career goals, and discuss how the MPS-TM program will enable them to meet their objectives. Applicants must also provide three letters of reference and recommendation. The best-qualified applicants will be accepted up to the number of spaces that are available for new students. Scores from Graduate Record Examination (GRE), or from a comparable substitute examination accepted by a graduate program are required for admission; however, exceptions may be considered on a case-by-case basis. The language of instruction at Penn State is English. International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a master’s degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales. Applicants with IBT speaking scores between 15 and 18 may be considered for provisional admission, which requires an institutional test of English proficiency upon first enrollment and, if necessary, remedial course work. The minimum composite score for the IELTS is 6.5. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Transfer Credits
If students have successfully completed courses from another institution that are equivalent to the elective turfgrass courses (TURF 425, 434, 435, and 436) with grades of B or better, these can be applied toward satisfying the MPS-TM degree requirements. Transferred academic work must have been completed within five years prior to the first registration at the Graduate School, must be equivalent to “B” quality (grades of B- are not transferable) on Penn State’s grading system, and must appear on an official graduate transcript.

Student Aid
Students in this program may receive financial assistance from their workplace or bear the cost of the degree personally. Other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin. The forms of financial aid noted in the bulletin available to residential graduate students are not available to students studying via the World Campus, e.g., assistantships, fellowships. The other common form of financial aid is loans.

Typical Schedule
Flexibility is a key principle of the design of this program. Each course will be offered once each academic year. Sequencing of courses is determined by the semester the student begins the program. Students and their advisor will develop a plan of study upon completion of the second course taken in the program or the end of the first year, whichever occurs sooner. Many students may take three or four courses per year while others may only take one or two. Because of this, the time to degree will average three years and one semester. The typical schedule for offering the required MPS-TM courses is shown in...
Elements of Residency

We propose several strategies to meet the elements of residency in MPS-TM. We describe these strategies and then indicate how each contributes to various elements of residency. Table 2 provides a summary of the program strategies that contribute to each element of residency. These elements will be phased into the program over the first five years the program is in existence. The elements will be evaluated for their effectiveness and modifications made, as necessary, to ensure a quality educational experience. This section is organized by the strategies we plan to use to meet the elements of residency.

Strategy A–Seminars and discussions: CSS offers departmental seminars during Fall and Spring Semesters. Topics that are relevant to MPS-TM students will be made available for students to view using appropriate technology. We then would offer chat-room time and threaded discussion opportunities for the students to discuss the presentation with each other and with the presenter and/or a faculty facilitator. Faculty and graduate students in the program will be invited to participate in the discussions. We will explore the use of real-time teleconferencing for students to join the seminars, but the geographical (time zone) distribution of our students may make this difficult. Strategy A contributes to residency elements 1, 2, 4 and 7. Strategy A provides opportunity for interaction among students and faculty outside of direct instruction (1); offers students a chance to interact with each other on the topic (2); provides broader exposure to and socialization with the field of turfgrass science, horticulture, plant pathology, entomology (4); and it increases student identification with Penn State (7) by giving students the opportunity to discuss topics with faculty and graduate students in the other two graduate programs in the department (i.e., Agronomy, Soil Science). It also will increase student awareness of the department and the breadth of its substantive expertise. We expect that at least one seminar per semester will be made available in this way and we expect all students currently enrolled in the program to take part in one of these seminar/discussion opportunities each academic year. Strategy A will be phased in during the first cohort of the new program.

Strategy B–Student seminar or discussion of their capstone project in the program: An important part of socialization and sharing of information is student-led seminars and discussions. Each student in the program will be required to offer a seminar and/or lead a discussion about their capstone project. This is the integrative experience in the program and will be a required element for completion of the program. As part of this, the student will post the presentation and the full project report prior to the seminar/discussion. The student will work with their faculty advisor and the MPS-TM program coordinator to develop the content of the seminar and discussion questions. The faculty advisor and the MPS-TM program coordinator will provide support to the student during the seminar/discussion. This will give other students an opportunity to become familiar with the requirements of the integrative experience as well as allowing for sharing of the experiences of the student completing the program. We will evaluate the feasibility of video conferencing for those students interested in giving a formal seminar, and recording the presentation for distribution to students and others unable to participate in real-time. Alternatives to video conferencing include a threaded discussion format based on the written document, and/or specific times for students and faculty to visit a chat room for a guided discussion led by the student. Strategy B contributes to residency elements 1, 2, 4, 6 and 7. Strategy B offers an opportunity for interaction between students and faculty outside the course context (1); encourages interaction among students with student-led discussions (2); provides students an opportunity to explore substantive or socialization issues in the field (4); allows students to contribute their own insights, knowledge and expertise to share with others with student and faculty in the program, the department, college and university (6); and increases student identification with Penn State through participation in university-sponsored discussions (7). This strategy will be phased in as the first cohorts of students in MPS-TM complete their programs.

Strategy C: Informal discussions. An online ‘coffee room’ will be set up as a space for informal discussions among students and faculty. Topics may be proposed by students and faculty. A threaded discussion format will be used, although the ‘coffee room’ also will be available for chat rooms for a particular meeting or discussion group. Participation will be voluntary and determined by the topics, Strategy C fulfills residency elements 1, 2, 4, 6 and 7. Informal student interaction with faculty is encouraged (1), as is interaction among students (2). The topics are likely to include issues of socialization in the field and practical application of course content and so will contribute to residency element (4). The discussions and interactions will allow students to contribute their expertise and experiences, shaping faculty knowledge of applications in the field and providing ideas for applied research. Thus, these discussions will enable students to contribute to the program, college and university (6). Participation will increase identification with Penn State (7). Strategy C will be phased in during year 1 of the program.

Strategy D: Students as experts. The CSS department has an established undergraduate major in Turfgrass Science (TS) that has important conceptual and practical overlap with MPS-TM. We plan to provide opportunities for students in MPS-TM to participate as experts in the field or as video conference presenters on certain topics in the undergraduate classes. Again, the practical, real world experiences of MPS-TM students will be invaluable in helping the undergraduates to understand how the information from classes translates into application. This interaction also will provide undergraduate students opportunities to interact with professionals in the field about the nature of their careers, the kinds of tasks they do on a daily basis, and the relevance of course content. Strategy D contributes to residency elements 1, 2, 4, 6 and 7. In developing the undergraduate course presentation, MPS-TM students will work with the faculty member in the course to develop content and instructional strategies thus providing socialization and experience with instruction (1, 4); if a panel is used then MPS-TM students on the panel will need to interact to organize the presentation (2); MPS-TM students would make a clear and strong contribution to the program, college, and university by participating as experts, panel members in undergraduate courses related to their coursework and professional experiences (6). Such participation will increase the identification with Penn State (7). Students will be encouraged to participate in one such activity during their program.

Strategy E: Students as mentors. MPS-TM students will be asked to serve as mentors in two capacities. First, ‘senior students’ will be asked to serve as mentors to new students in the MPS-TM program. This will include providing advice, responding to questions that new students in the program might have, and helping new students to navigate the somewhat less-structured world of online courses (where there is no formal class meeting time). Since many students are already practitioners, these mentoring relationships should help to build networks among students on which they can draw in their professional careers, as just in the program context. Second, MPS-TM students will be asked if they would be interested in volunteering to mentor one or two undergraduate students in the TS program. This provides MPS-TM students with experience in mentoring and providing leadership to those with less knowledge and experience, and it enhances the experiences of the undergraduate students to have a practitioner to whom they can turn with substantive/career-related questions. Strategy E contributes to residency elements 2, 4, 5, 6 and 7. This strategy encourages interaction among students (2), provides a socialization/professionalization experience guided by faculty (4), it provides a student perspective on the program and courses in terms of advising (5), allows students in MPS-TM to maintain their expertise in evaluating faculty, college and university through involvement in undergraduate education (6), and increases student involvement in and identification with Penn State and its programs (7). Strategy E will be phased in during years 2 and 3 of the MPS-TM program and the Turfgrass Science undergraduate program, as feasible.

Strategy F: Annual Turfgrass Management Institute. One element often missing from online programs is face-to-face interaction. We propose to offer an
Annual Institute for one week during the fall Penn State Golf Turf Conference to bring faculty and students together at University Park. The Institute would include substantive topics or short courses that would describe recent developments in different areas of turfgrass science and management, and would provide opportunities for informal discussions and socializing among students and faculty. Because of the costs involved, this will not be a required element, but we will strongly encourage students to participate at least once during their program. In addition, we would plan to invite new students to participate in the Institute prior to taking their first course. We also would invite alumni to attend and to participate in organizing/presenting some of the sessions. Student and alumni mentors could then meet those they are mentoring. Opportunities for advising sessions on coursework and an introduction to the program would be included for students new to the program. Times also would be available for students to set up meetings with their academic advisors to discuss their integrative experience. Some sessions in the Institute may be made available to those unable to attend in person. The Annual Institute contributes to all of the elements of residency. The institute provides opportunities for face-to-face interaction among faculty and students (1); among students (2); will increase access to information and instructional resources of the program, department and University (3); offer opportunities for socialization to the field (4); provide face-to-face academic and program advising (5); enable students to contribute by helping to organize sessions and use their expertise (6); and a visit to University Park is generally always a good way to increase identification with Penn State (7). We view the Institute as an important element of the program, and will work to develop funding mechanisms to assist students and alumni in covering the costs of travel to and living expenses while visiting Penn State. We expect to offer the first institute during the second fall following the approval of the MPS-TM program.

Strategy G: Academic advising and support services. Academic advising is provided initially by the Graduate Program Coordinator who is a tenure-line faculty member in the program. Students will be encouraged to identify a permanent faculty advisor as soon as possible in the program and will work through a proposed schedule of courses and a tentative timeline within the first year. This process will be facilitated by the Graduate Program Coordinator. Advising is conducted by email and phone. Once a faculty advisor is identified, the student can seek advice from the faculty advisor, the Graduate Program Coordinator, or from other faculty and students in the program. Advising also will be available through an online advising ‘coffee room,’ the Annual Institute, and the use of senior students in MPS-TM as mentors/peer advisors. Materials providing specific information on program requirements, the unique aspects and responsibilities of participating in an online program, identifying a faculty advisor and committee, and the integrative experience are being developed and will be available on the program web site. Support for MPS-TM will be provided by a staff assistant in CSS and through initial contact with World Campus personnel/advisors. Students will apply for admission directly to the MPS-TM program in the academic department. Strategy G meets residency elements 1, 3, 4 and 5.

Strategy H: MPS TM program web site. We view the MPS-TM program web site as an essential element in creating a ‘home and identity’ for the MPS-TM program. The web site will contain the typical elements of an educational program with information on application guidelines, course offerings, requirements for the degree, information on faculty in the program, and links to broader Penn State resources. We also propose to develop elements of the web site that will provide opportunities for interaction (formal and informal), program and course review and evaluation, professional networking, and building program identity. Interaction linked through the web site would be the opportunities to participate in organized chat rooms or threaded discussions related to the departmental or student seminars or discussion (Strategies A and B) informal discussion chat-rooms and threaded discussions (Strategy C), and the ‘coffee room.’ The coffee room also can be used for course review and evaluation where access would be restricted to students in a particular course and the faculty peer evaluator of the course. One page on the web site would include links to professional organizations, nationally and within states, that provide training and conferences for practitioners and researchers in topics related to community and economic development. We plan to identify these through searches, but also by the organizations in which our students and alumni participate. This site also will include a link to a discussion area about insights obtained from student/faculty/alumni participation in particular conferences. Another element would be a restricted access site that includes information on former and current students in MPS-TM. This would include information on current positions, locations, and areas of expertise of the students and alumni; lists of the capstone projects completed by the students with links to electronic copies, and a map showing locations of current and former students. We see this information as building identity with the program and Penn State and encouraging continued participation in the program by alumni. This alumni/student/faculty space would include access to chat rooms, threaded discussions, and coffee rooms on organized topics and informal discussion topics introduced by members. The web site contributes to all elements of residency. It offers opportunities for interaction among faculty and students (1), interaction among students and among students and alumni (2), provides access to information and instructional resources (3), increases exposure to substantive issues in the field and to professional networks and experiences (4), provides access to advising information and support services (5), offers a means for students and alumni to stay connected with the program and contribute substantively both formally and informally (6), and creates a location and reason for continuing active participation in and identification with the Penn State community. We plan to develop a new website for the MPS-TM program and to phase in various elements within the first three years of the program. Ultimately, we would like to employ all of the above strategies to increase participation and interaction available to alumni of the MPS-TM program. The alumni of this program are practitioners in the field or work in related areas and can provide an invaluable resource to current graduate and future undergraduate students, the program, and Penn State. We would hope to use the ‘friends of Penn State’ accounts to provide access to the web sites and associated activities. Recent efforts by the Penn State Alumni Association and University Libraries to offer some restricted access to library resources to members of the Alumni Association also will increase the benefits to alumni of retaining their contact and interaction with the program and with Penn State. The special interaction elements related to community and economic development offered to alumni and students should increase the attractiveness to alumni of staying involved.

Another element would be a virtual coffee room for informal discussions with and among students. We will maintain alumni and former student lists. As we develop the program website, we will consider an electronic newsletter for alums and a special alums page on the web site.
Wildlife and Fisheries Science (W F S)

Program Home Page.

MICHAEL G. MESSINA, Director of the School of Forest Resources and Professor of Forest Resources
121 Forest Resources Building
814-863-7093

Degrees Conferred:
Ph.D., M.S.

The Graduate Faculty

The Program

Programs are designed to give students an understanding of the biology and management of terrestrial or aquatic wildlife species and their environments, and include training in fish and wildlife ecology, nutrition, physiology, behavior, and pathology of wildlife species; study of successional stages, land use, and management of various habitats and their impact on fish and wildlife populations; population dynamics and manipulation of animal numbers; and studies of recreational, aesthetic, and socioeconomic values of fish and wildlife. Most programs of study are strengthened by including appropriate courses offered by related departments.

Admission Requirements

Scores from the Graduate Record Examinations (GRE) are required for admission. A student may be admitted provisionally without GRE scores. Requirements listed here are in addition to general Graduate School requirements stated in the GENERAL INFORMATION section of the Graduate Bulletin.

Application materials should be submitted before February by those who want to begin in summer or fall. For admission, an applicant should have at least a 2.75 grade-point average, a 3.00 junior/senior average, and courses that are basic to the individual's field of specialization. Ordinarily these include 12 credits in communication, 12 credits in social sciences and humanities, 10 credits in quantification including calculus and statistics, 8 credits in chemistry and/or physics, 8 credits in biological sciences, and 18 credits in fish, wildlife, forestry, or related courses. Three reference reports (forms supplied upon request), and a brief statement describing the applicant's academic goals, career interests, and special qualifications are required. The best-qualified applicants will be accepted up to the number of spaces available. Exceptions to admission requirements may be made for students with special backgrounds, abilities, and interests.

Admission to the Ph.D. program in Wildlife and Fisheries Science requires a master's degree in wildlife and fisheries science or a closely related field, or a bachelor's degree with a minimum grade-point average of 3.30 and demonstrated research ability.

Master's Degree Requirements

M.S.: In addition to Graduate School requirements, 6 credits of statistics and 2 credits of colloquium are required.

Doctoral Degree Requirements

Doctoral students would normally emphasize either wildlife or fisheries in their course selection. Course work shall include at least 15 graduate credits beyond those required for an M.S. in Wildlife and Fisheries Science. At least 9 of these credits must include courses at the 500 level with a Wildlife and Fisheries Science designation.

An international communications or cultural requirement is required for the Ph.D. degree. This requirement may be satisfied by demonstrating competence in one foreign language equivalent to passing two or three college-level courses. It also may be met by two courses in one or two contemporary foreign cultures. With approval of the doctoral committee, a student may petition the Graduate Faculty of the school for waiver of the international communications or culture requirement.

Students must pass the candidacy examination during their first year of residence and a comprehensive examination which is given after all course requirements have been completed. The final examination is oral; all doctoral students are required to present a public seminar on their dissertation prior to the final examination.

Watershed Stewardship Option

The Graduate Option in Watershed Stewardship is intended to provide enhanced educational opportunities for students with an interest in water resources management who are enrolled in a graduate degree program within Wildlife and Fisheries Science. The objective of the Graduate Option in Watershed Stewardship is to educate students to facilitate team-oriented, community-based watershed management planning directed at water resources problems encountered in Pennsylvania communities, especially nonpoint source water pollution. The Graduate Option in Watershed Stewardship requires 22 credits of graduate course work: 12 credits of breadth courses, 2 credits of Watershed Stewardship Seminar courses (FOR 591A and 591B or LARCH 510.2), and 8 credits of Watershed Stewardship Practicum I and II courses (FOR 570 and FOR 571 or LARCH 540.2 and LARCH 550.2). One credit of FOR 591 would count as a colloquium course toward degree requirements, but at least 1 additional credit of FOR 590 is required. Breadth courses will consist of three graduate credits of course work from each of four subject matter areas: (1) water resources science, (2) social science, public policy and economics, (3) humanities, and (4) communications and design. In the watershed stewardship practicum courses students work in teams with community, government and business leaders to analyze and understand natural resources problems and creatively synthesize appropriate solutions in the form of a written watershed management plan.

A representative pattern of scheduling for the Graduate Option in Watershed Stewardship in addition to a student's other degree requirements might be:

First Year:
Fall Semester
Breadth electives--6 credits
FOR 591A or LARCH 510.2, Watershed Stewardship
Issues Colloquium--1 credit

Spring Semester
Breadth electives--6 credits
FOR 591B or LARCH 510.2, Watershed Colloquium--1 credit

Second Year:
Fall Semester
FOR 570 or LARCH 540.2, 3 credits
Keystone Project
A list of acceptable breadth courses from each discipline is provided in the Graduate Option in Watershed Stewardship Handbook. Students will be allowed to petition to the Center for Watershed Stewardship to substitute higher level or equivalent courses in a major field to suit their specific backgrounds and goals. Courses taken for the Graduate Option in Watershed Stewardship may be used to satisfy other equivalent (400- or 500-level) degree requirements with concurrent approval of the graduate committee. The graduate committee for a student enrolled in the Option in Watershed Stewardship must include a faculty representative from the Center for Watershed Stewardship.

Students enrolled in M.S. or Ph.D. degree programs within Wildlife and Fisheries Sciences may apply to participate in the Graduate Option in Watershed Stewardship.

Other Relevant Information
Each entering student receives individual guidance from an adviser, and later from his or her committee, in designing a program of studies and research based on his or her own interests. The student is responsible for conforming to all requirements summarized in the "Graduate Studies Handbook" of the School of Forest Resources, and for completing the degree program within a reasonable time, i.e., two years for a master’s degree and three years for a Ph.D.

Student Aid
In addition to the fellowships, traineeships, graduate assistantships, and other forms of financial aid described in the Student Aid section of the Graduate Bulletin, the following awards typically have been available to graduate students in this program:

Forest Resources: Jesse Rossiter Rapp Memorial Scholarship Available to graduate students in the School of Forest Resources who are not holding assistantships as graduate students. Apply to the School of Forest Resources. Scholarships, Loans, and Awards Committee.

Roger M. Latham Memorial Award Awarded to outstanding graduate students specializing in wildlife or fisheries after at least one semester in residence.

Courses
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some advanced degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

WILDLIFE AND FISHERIES SCIENCE (W F S) course list

See also Forest Resources.

Joint Degree Programs between The Pennsylvania State University Dickinson School of Law (J.D.) and the School of Forest Resources (M.S., Ph.D.)

Joint Degree Program. The Pennsylvania State University Dickinson School of Law (DSL) and the School of Forest Resources (SFR) will offer coordinated programs of studies leading to the degrees of Juris Doctor (J.D.) and a Master of Science (M.S.), or a Doctor of Philosophy (Ph.D.) in Wildlife and Fisheries Science. The SFR programs are interdisciplinary.

Admissions. In order to be admitted to the program, students may a) first be admitted and enrolled in either SFR or DSL, and be subsequently admitted to the other program, or b) be admitted to the joint degree program prior to commencing studies at Pennsylvania State University. Credits earned in the SFR program before admission to DSL cannot, however, be credited to the J.D. degree. Each program will make a separate admission decision. Students admitted to both programs will be admitted as joint degree candidates. Applications for transfer into the joint degree program from another law school or forestry/natural resources program at another University will be considered on a case-by-case basis.

Admission Requirements
Dickinson School of Law (DSL). A bachelor’s or equivalent degree from an accredited college is a prerequisite for admission. However, there is no standard prescribed undergraduate curriculum. An applicant should have acquired significant oral, and written communications skills before entering law school. The following are required of applicants: a completed application form for DSL; taking of the Law School Admissions Test (LSAT); completion of an LSDAS report; a one-page personal statement; employment record since high school; and two recommendations.

School of Forest Resources: A Bachelor’s or equivalent degree from a regionally accredited college is a prerequisite for admission to a master’s degree program, with a cumulative grade point average of 2.75 and junior-senior average of 3.0, based on a maximum 4.0 system. The following are also required of applicants to the joint degree program: taking of the Graduate Record Examination (GRE) or the LSAT; an official undergraduate transcript or transcripts; a personal statement, employment record since high school; and three recommendations. For the SFR program there is no standard undergraduate curriculum, and because of the diversity of programs in the School, professional preparation may vary considerably. As a guide, SFR suggests having 8 credit hours in chemistry and/or physics; 12 in calculus, statistics, and/or computer science; 8 in biology, botany, and/or zoology; 12 in writing and speaking; 12 in economics, social sciences, and/or humanities; and 18 in forest science, wildlife and fisheries science, and/or wood products. Completed applications showing that a candidate is qualified for admission will be forwarded to potential faculty advisers in SFR, and admission of otherwise qualified candidates will depend upon the willingness of a faculty member to act as an adviser. Applicants are advised to contact potential advisers before applying and should contact the SFR liaison (the Goddard Chair), as well as the SFR Assistant Director of Graduate Studies, to identify potential advisers.

Admission to the Ph.D. program requires evidence of research ability, e.g., a master’s degree thesis, paper, or equivalent publication and a grade point average of 3.3 or higher in graduate study work, exclusive of thesis and special problem courses. Baccalaureate degree students graduating from an honors program with a required thesis, or who have authored a refereed publication, may be considered for admittance without a master’s degree.

Residency: For master’s programs, 5 semesters’ residency is required at the Law School and 3 semesters’ residence at the SFR at University Park, although additional time may be required to complete the M.S. degree requirements. For Ph.D. programs, the same minimum number of semesters will be required, as well as the additional time as required to complete additional course work and a dissertation. In addition, Ph.D. candidates must arrange the sequence of seminars such that they are in residence at University Park as a full time student for at least two semesters in a single 12-month period. Although a student will normally take all courses at the campus where the student is resident, a student may take up to one course (three credit hours) per semester at the campus where the student is not in residence. A Ph.D. joint degree student in residence at DSL will be considered to be "registered" at University Park for the purpose of satisfying any requirement of continuous registration and/or benchmarking. Students graduating from the College of Engineering’s Ph.D. program may apply for the Graduate Option in Watershed Stewardship.
SFR Degrees. The SFR programs are interdisciplinary programs and typically credits from other Departments and Colleges may be credited. What courses may be credited will be determined by the student's SFR committee. Normally, a maximum of 12 credits of DSL course work will be counted for credit toward the minimum requirements for an SFR Master's degree, subject to approval by the student's SFR committee.

Sequence. The sequence of courses will be determined by the students and their advisers. Generally, however, students will complete the first year of the DSL program before beginning the SFR program. Thereafter, students may concurrently enroll in courses in the DSL and SFR programs, provided that they abide by the requirements of each program. The ordinary expectation will be that students will spend entire semesters at one location or the other.

Recommended Program of Study and Advising. All students in the program will have two advisers, one from DSL and one from SFR (the committee chair). Periodic interaction between the two advisers will be encouraged. A program of study will be developed for each student taking into account the fact that some courses at both locations are offered on a rotating or intermittent basis. Many courses are offered every year, but some are offered every two or three years. Advisers will have available a list of projected relevant offerings in order to work with the student on an individualized program of study. The standard committee structure will apply to the SFR programs.

Tuition. Students will be charged the applicable DSL tuition to cover the J.D. program and the applicable SFR tuition to cover the SFR degree program. The DSL tuition will be paid for the semesters that the student is in residence at DSL and the SFR tuition will be paid for the semesters that the student is in residence at University Park. A student may take up to one course (3 credit hours) per semester at the campus where the student is not residence without, any change in tuition, but must pay additional tuition to the nonresidential campus if he or she wishes to take additional course work at that campus during that semester.*

Financial Aid and Assistantships. Decisions on financial aid and assistantships will be made by each school according to that school's procedures. Generally, SFR assistantships and financial aid will not apply to time spent at DSL.

Fulfillment of Degree Requirements and Graduation. A student in the program may complete the requirements for one of the degrees and be awarded that degree prior to completing all the requirements for the other degree, provided, however, that the student shall have successfully completed at least two semesters of work towards the other degree. All courses in one program that will count toward meeting the requirements of the other program must be completed before award of either degree. Students will be required to fulfill all requirements for each degree in order to be awarded that degree, subject to the interprogram transfer of credits. With respect to SFR's requirement for a thesis or paper, work done while at DSL under the supervision of a DSL faculty member may be appropriate for incorporation into the thesis or paper with the approval of the SFR committee (in such cases, the committee should consider whether credits afforded such work will be subject to the 12-credit maximum for interprogram transfers described in paragraph 6(b) and the DSL faculty member should be a member of the committee).

*After taking comprehensive examinations, a Ph.D. student must pay tuition for all courses taken at any campus where the Ph.D. student is not registered.

Workforce Education and Development (WF ED)

Program Home Page.

DAVID PASSMORE, Director of Graduate Studies
301 Keller Building
814-865-2596
WorkforceEdUP@psu.edu

Degrees Conferred:
Ph.D., M.S., M.Ed.

The Graduate Faculty

The Program

The general focus of the program is preparation for entry into professional positions within the broadly conceived field of workforce education and development, including human resource development in industry, secondary and postsecondary technical education, and employability programs for special populations. Emphases within the program include: training and development/human resources, leadership/administration, school-to-work, and postsecondary technical and community college leadership.

Admission Requirements

Admission to graduate programs in Workforce Education and Development (WF ED) is based on the faculty's evaluation of a candidate's prior undergraduate and graduate work, relevant prior work experience including military service, and career goals. A minimum undergraduate GPA of 2.50 is required for admission to the master's degree program. A GPA of 3.00 in prior graduate course work is required for admission to the doctoral program.

Degree Requirements

Master's Degrees Requirements

M.Ed. and M.S. degrees are offered in Workforce Education and Development, both of which require a minimum of 30 credits beyond the baccalaureate degree. M.S. candidates must complete a master's thesis or paper. Candidates for the M.Ed. degree must complete a written comprehensive examination.

Doctoral Degrees Requirements

The Ph.D. degree is offered in Workforce Education and Development. Two or more years of prior full-time work experience that is relevant to WF ED is an important consideration in evaluating applications for the doctoral program. Students are admitted only for the fall semester. Beginning students are not formally granted candidate status for a doctoral degree until successfully completing the candidacy exam given in the spring semester. Please see WF ED Web site for further details.

Student Aid

A limited number of graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Courses

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

WORKFORCE EDUCATION AND DEVELOPMENT (WF ED) course list

The Pennsylvania State University
Women's Studies (WMNST)

Program Home Page.

CAROLYN SACHS, Head, Department of Women's Studies
LISE NELSON, Graduate Officer
133 Willard Building
814-863-4025; fax: 814-863-3578

Degrees Conferred

Students electing this program through participating departments will earn a degree with a dual title at both the Ph.D. and M.A./M.S. levels, i.e., Ph.D. in (graduate program name) and Women's Studies, or M.A./M.S. in (graduate program name) and Women's Studies.

The following graduate programs offer dual degrees in Women's Studies: Art Education, Curriculum and Instruction, English, French, Geography, History, Philosophy, Political Science, Psychology, and Rural Sociology.

The Graduate Faculty

Women's Studies-affiliated faculty include individuals with budgeted appointments in Women's Studies and individuals with courtesy joint appointments.

The Program

Dual-title degrees grounded both in Women's Studies and a given discipline will acknowledge and foster scholarly work across disciplines. A dual-title degree program will increase the intellectual rigor and breadth of graduate work through immersion of candidates in Women's Studies and their discipline. The dual-title degree will also provide a context in which students can learn to synthesize knowledge within and across disciplinary boundaries. In addition, a dual-title degree program provides students with an opportunity for increased work within a pedagogical framework that also encourages an interdisciplinary approach to teaching.

The primary advantages of dual-title degrees include the intellectual and academic advantages of interdisciplinary, strengthening the reputation of individual programs/departments through innovative degree programs, increased recruitment of quality graduate students, and improved placement of doctoral graduates.

The dual-title degree programs do not duplicate other degree programs in the University.

Admission Requirements

In addition to the admission requirements set forth by the Graduate School and the cooperating department, students will be admitted to graduate study in Women's Studies by an admissions committee of Women's Studies-affiliated faculty. The Women's Studies program will follow the timetable and admission requirements of the cooperating department. Applicants should have a junior/senior cumulative average of at least 3.00 (on a 4.00 scale) and appropriate course background should be considered for study. It is required that prospective students seeking admission to a dual-title degree program will write a statement of purpose that addresses the ways in which their research and professional goals will reflect an interest in interdisciplinary and feminist research.

Degree Requirements

The dual-title degree will have requirements above those for the graduate minor, which currently requires 9 credit hours for the M.A./M.S. and 15 credit hours for the Ph.D. The requirements for the dual-title degree include increased course work, additional components to the comprehensive exams at the doctoral level, and the completion of women's studies related theses at both the master's and doctoral level. Degree requirements for dual-title degrees in Political Science, French, History, English, Education, Geography, Curriculum and Instruction, and Philosophy will be added to the Women's Studies Graduate Handbook.

Master's Degree

9 required credits (WMNST 501, WMNST 502, WMNST 507)
3 additional credits of Women's Studies course work
Thesis on a Women's Studies-related topic, or another 3 additional credits of Women's Studies course work and a master's essay will be approved by the student's committee

Ph.D. Degree

9 required credits (WMNST 501, WMNST 502, WMNST 507)
9 additional credits of Women's Studies course work (at least 6 of these should be at the 500 level)
Comprehensive examination in Women's Studies and the disciplinary field
Dissertation on a Women's Studies-related topic will be approved by the student's committee

Foreign Language and English Competency Requirements

The student will fulfill the language requirement specified by the cooperating department through which the student is admitted to the dual-title degree program.

Candidacy

In order to be admitted to doctoral candidacy in the dual-title degree program, students must meet the Ph.D. candidacy requirements specified by the cooperating department. In addition, the student will be required to present a portfolio of work in Women's Studies to their committee. Such a portfolio would include a statement of the student's interdisciplinary research interests, a program plan, and samples of writing that indicate the student's work in Women's Studies.

Committee Composition

For a dual-title M.A./M.S., the recommended student's committee will include at least one Women's Studies-affiliated faculty member.
For a dual-title Ph.D., 2 out of 4 members of the committee will be Women's Studies-affiliated faculty members.

Comprehensive Exams

The Women's Studies affiliated faculty members on the student's committee are responsible for administering a comprehensive examination in Women's Studies that constitutes a portion of the student's comprehensive exams. The women's studies portion of the exam will focus on the following areas: feminist theory, feminist methodology, global feminism, and feminist studies in the student's discipline.

The Pennsylvania State University
Dissertation
A dissertation on a women's studies topic is required of students in the dual-title degree program. The women's studies-related topic of the dissertation will be approved by the student's committee.

Women's Studies Minor
An interdisciplinary dual-degree graduate minor is available, administered by the Women's Studies program. Each student's major and minor is planned by the student and the Women's Studies graduate adviser in consultation with the student's graduate adviser in his or her major field.

Master's Minor Requirements: Master's-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 3 additional credits in Women's Studies, chosen in consultation with the Women's Studies graduate adviser.

Doctoral Minor Requirements: Doctoral-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 9 additional credits of Women's Studies course work (at least 6 of which should be at the 500 level), chosen in consultation with the Women's Studies graduate adviser.

9 credits required credits of Women's Studies courses for master's level
15 credits required credits of Women's Studies courses for doctoral level

The above credits are in addition to the requirements for the student's major. Six credits consist of required courses in feminist theory (3) and feminist methodology (3). The remaining credits may include a combination of WMNST 400- and 500-level courses, as well as special topics courses (numbered 497 and 597) and independent/individual studies (496 and 596).

Prescribed courses (6 credits): WMNST 507 Feminist Theory; WMNST 501 Feminist Perspectives on Research and Teaching
Additional courses (a minimum of 3 credits at the 500 level)

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

M.Ed.

The Graduate Faculty

The Program
The curriculum prepares students to assume leadership roles in education and human service organizations whose goals are to support and enhance the well-being of youth and families within community settings. Through this graduate program, students will: (1) design, implement, and evaluate educational programs for youth and families; (2) interpret relevant research in youth and family education; and (3) apply research and problem-solving strategies to increase professional effectiveness.

Admission Requirements
Applicants whose junior/senior grade-point average is below 3.00 on a 4.00 scale for their baccalaureate degree are required to submit Graduate Record Examinations (GRE) scores. The program is tailored to students with baccalaureate degrees in family and consumer science, youth development, or other disciplines closely related to the human sciences.

Degree Requirements
For the M.Ed., a minimum of 30 credits is required, including a 3-credit professional paper or thesis. The paper or thesis is defended in a one-hour oral examination. The graduate program is organized around the following themes: youth and family education, community-based education, and research. Students have the flexibility to focus their programs in areas of professional interest within youth and family education.

Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the STUDENT AID section of the Graduate Bulletin.

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Graduate Minors

A graduate minor may be taken in one of the approved graduate degree programs offered at Penn State. However, some formal graduate minors have been approved by the Graduate Council, such as the minors listed on this page. A minor at the graduate level must represent curriculum and study that reflect graduate-level concepts and scholarship, with a preponderance of courses at the 500 level.

A student seeking a minor must have the approval of the student’s major program of study, the minor program, and the Graduate School. A student may not pursue more than three minors at one time. If a student pursues more than one minor, each minor must have a separate group of courses to support it (i.e., none of the courses may be used concurrently).

A doctoral minor consists of no fewer than 15 graduate credits of integrated or articulated work in one field related to, but different from, that of the major with a preponderance of courses at the 500 level; however, at a minimum, 6 credits must be at the 500 level. Official requests to add a minor to a doctoral candidate’s academic record must be submitted to Graduate Enrollment Services prior to establishing the doctoral committee and prior to scheduling the comprehensive examination. For more information regarding minors, please see the following web pages.

--- For doctoral students:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm
--- For Ph.D. candidates:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=degreeReq2
--- For D.Ed. candidates:
http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=degreeReq3

A master’s minor consists of no fewer than 6 credits of integrated or articulated work in one field related to, but different from, that of the major; however, at a minimum, 3 credits must be at the 500 level. Official requests to add a master’s minor to a student’s academic record must be submitted to Graduate Enrollment Services at least one semester prior to the semester the student intends to graduate.

Updated: 12/14/11
Computational Science

The Department of Aerospace Engineering administers this interdisciplinary minor. Each student's program is planned by the student and a designated computational science adviser, in consultation with the graduate adviser in the student's major field.

The minor offers an opportunity for students in all colleges and majors to pursue a focused set of courses that emphasize computational science. The minor requires 9 credits in computational science courses for a master's degree and 15 credits for a doctoral minor. All students must take at least one of these: AERSP 424, CMPSC 450, NUC E 530, or CSE 557 and at least one of these: MATH 523, MATH/CSE 550, STAT 500, or STAT/IST 557. The additional credits will be chosen from a list of approved courses on the CSCI Web site (www.csci.psu.edu). In addition, for the Masters Minor and Ph.D. Minor the students can use at most 6 and 9 credits, respectively, from (or cross-listed with) their home department.

More information can be found on the CSCI Web site: http://www.csci.psu.edu.

Electrochemical Science and Engineering Minor

This graduate minor is highly relevant to numerous graduate degree programs associated with energy, materials, and environmental sciences offering a unique set of skills that will benefit graduate students to develop expertise in electrochemical systems that complements their primary focus in batteries, fuel cells, or structural design. The minor will also help expand the students’ knowledge and capabilities in important topics relating to electrochemical and renewable energy fundamentals, devices and systems.

The doctoral minor will consist of no fewer than five 3-credit courses (15 credits) of integrated or articulated work in electrochemical science and engineering, related to but different from that of the major, drawn from the two lists (500-level courses and 400-level courses) below, with a preponderance of courses at the 500 level. A minimum of 6 credits must be at the 500 level for the doctoral minor.

500-level courses:
- EME 541. Electrochemical Science and Engineering Fundamentals
- CHEM 524. Electroanalytical Chemistry
- ESC 501. Solar Cell Devices
- CH E 510/MATSE 510. Surface Characterization of Materials
- CH E 528. Colloidal Forces and Thermodynamics
- MATSE 501. Thermodynamics of Materials
- MATSE 503. Kinetics of Materials Processes

400-level courses:
- EGEE 420. Hydrogen and Fuel Cells
- EGEE 437. Design of Solar Energy Conversion Systems
- EGEE 441. Electrochemical Engineering Fundamentals
- EME 407. Electrochemical Energy Storage
- ESC 455. Electrochemical Methods Engineering and Corrosion Science
- MATSE 421. Corrosion Engineering
- ME 403. Polymer Electrolyte Fuel Cell Engines

The master’s minor will consist of no fewer than two 3-credit courses (6 credits) of integrated or articulated work in electrochemical science and engineering, related to but different from that of the major, drawn from the two lists above. A minimum of 3 credits must be at the 500 level for the master’s minor.

A student enrolled in this graduate minor must receive a grade of B- or better in all minor courses.

Admission Requirements

Any graduate student enrolled at Penn State in a related field of study may be admitted to the Electrochemical Science and Engineering graduate minor.

A representative from the Graduate Faculty in the graduate minor (i.e., a “Minor Field Member”) must be appointed to the doctoral committee of each student enrolled in the doctoral minor in Electrochemical Science and Engineering.

Last Revised by the Department: Summer Session 2014

Blue Sheet Item #: 42-07-000

Review Date: 06/10/2014
The interdisciplinary graduate minor in Gerontology is administered by a committee of faculty appointed by the Gerontology Center Advisory Board. The committee members represent diverse programs within the University. Students admitted to the minor will develop a course of study that includes both prescribed course work and additional course work suited to the student's interests. The minor course of study will be developed jointly by the student, the student's academic adviser, and one member of the graduate minor gerontology committee. Contact the Gerontology Center (S-105 Henderson) for information regarding the committee membership.

The minor requires a minimum of 10 credits of the master's level and 15 credits at the doctoral level, 10 of which are prescribed. The prescribed courses are: BIOL 409 Biology of Aging (3); HD FS/PSYCH 445 Development throughout Adulthood (3); HD FS 590 Gerontology Colloquium (1); and SOC 435/HD FS 434 or SOC 535 (3). Doctoral students must select a minimum of 5 additional credits from among the following courses: ADTED 460, 505, CN ED 415, EDPSY 527, HD FS 446, 447, 579, H P A 442, KINES 481, 482, NURS 464, 500, SOC 535, and gerontology-related special topics courses (SUBJ 497, 597) or independent studies (SUBJ 496, 596).
Latin American Studies

The Latin American Studies graduate minor is administered by the Latin American Studies committee. The minor offers students the ability to study the region of Latin America from an interdisciplinary perspective and is open to students from across the University. It is housed in three departments: History; Comparative Literature; and Spanish, Italian and Portuguese. Graduate students from across the University are encouraged to participate. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student, the student's doctoral adviser, and an adviser designated by the Latin American Studies committee. Any change in the plan must be approved by both advisers. A minimum of 15 credits must be completed, with a minimum of 6 credits at the 500-level. Per graduate school regulations for the minor, a representative of the minor will participate on the student's doctoral committee.

Latina and Latino Studies

The Latina and Latino Studies graduate minor is an interdisciplinary minor that will be administered by a faculty committee appointed by the dean of Liberal Arts and made up of faculty in English, Comparative Literature, Spanish, and other appropriate disciplines. Graduate students from across the university are encouraged to participate. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student, the student's doctoral adviser, and an adviser designated by the Latina and Latino Studies committee. Any change in the plan must be approved by both advisers.

A minimum of 15 credits must be completed. Per graduate school regulations for the minor, a representative of the minor will participate on the student's doctoral committee. This representative may be a member of the Latina and Latino Studies committee or any other faculty member approved by that committee.

Literary Theory, Criticism, and Aesthetics

This is an interdisciplinary doctoral minor that is administered by two designated advisers, one from the Department of Comparative Literature and one from the Department of Philosophy. Students who are admitted to the minor will develop courses of study suited to their special interests. The minor for each student will be planned jointly by the student and the two advisers, in consultation with the student's doctoral adviser in his or her major field. Any change in the plan must be approved by all of the advisers. A minimum of 15 credits must be selected from among the following courses (including at least 3 credits each in comparative literature and philosophy, chosen from the asterisked courses): ART H 410, CMLIT 502*, 503*, 580, ENGL 581, 582, 583, FR 571, GER 591, PHIL 413, 414*, 516*, 581, 582, SPAN 587, SPCOM 503, 505, 507, or THEA 503, 504. Note 1: 3 credits of SUBJ 596 in one of the nine subject areas indicated may be substituted for one of the non-asterisked 3-credit courses. Note 2: A student majoring in one of the nine subject areas may not include any courses in that field as part of the minor. Appropriate courses may be substituted.

Linguistics

The doctoral minor provides interested students with an opportunity to complete a program of scientific study focused on the nature, structure, and use of human language. The minor is designed to cover the foundations of the discipline of linguistics by reviewing fundamental core areas such as phonology and syntax. Course work is also available in many additional areas of linguistics such as semantics, morphology, language variation, historical linguistics, and discourse analysis.

The minor requires a minimum of 15 credits, 6 of which must be at the 500 level. Nine credits are prescribed in syntax (LING 400), phonology (LING 404), and a general introduction to linguistics (LING 401), although a linguistics course at the 500 level may be substituted for LING 401 with the approval of the director of the program in Linguistics.

Medieval Studies

The graduate minor in Medieval Studies offers graduate students in the humanities an interdisciplinary field of study in an important era in European development. The minor provides students with a broader historical and cultural background for their major discipline. Graduate status is required for admission to the minor.

The graduate minor in Medieval Studies requires 9 credits of course work (of which 3 credits are at the 500 level) for a master's candidate and 15 credits of course work (of which 6 credits are at the 500 level) for a doctoral candidate; the courses will be selected in consultation with an adviser for the minor, who will normally be a member of the Liberal Arts Medieval Studies Committee; and with the chair of the student's graduate committee. The courses for the minor will be chosen from at least two of the following areas outside the students' area of specialization: arts; history; literature and language; medieval studies; philosophy and religious studies; and other areas as available. The sequence of the courses will be determined by the student's major department.
Science, Technology, and Society

This interdisciplinary graduate minor is administered by the Science, Technology, and Society Program. Each student's program will be planned by the student and designated S T S graduate adviser, in consultation with the graduate adviser in the student's major field.

The goal of the graduate minor in Science, Technology, and Society is to complement graduate and professional students' major programs through study of the interactions among science, technology, and society. More specific objectives are to promote scholarship in the humanities and social sciences concerning the social and ethical dimensions of science and technology; to inform those training in the scientific and technical professions about the social and ethical dimensions of their professional practice; and to develop research and rhetorical skills used in shaping public discourses about, and public policies regulating, science and technology.

The minor requires 9 credits in S T S courses for a master's and 15 credits for a doctoral minor. Six credits consist of S T S 589 Ethics and Values in Science and Technology and S T S 591 Research and Writing in S T S. The remaining credits may include 400- and 500-level, special topics (S T S 497 and 597), and independent study (S T S 496 and 596) courses.

Second Language Acquisition

This interdepartmental doctoral minor draws upon the opportunities that various departments offer to study the processes of language acquisition and pedagogy, and to conduct research in these fields. Developments in the theories of language acquisition, the practices in language instruction, and the technical innovations provide a wide range of resources for secondary specializations in second language acquisition theory. The minor provides an official credential for doctoral students who complete an organized program of study.

The minor requires a minimum of 15 credits at the 400, 500, or 600 levels (beyond credits used for degree requirements in the student's field of study), consisting of one or two methodology courses totaling 3 credits and 12 additional credits selected from an interdepartmental list of eligible courses, with approval both by the student's doctoral committee in his or her major field, and by the person in charge of the minor. A maximum of 6 credits may be taken at the 400 level, and no more than 3 credits of 602 may count toward the minor. Courses in at least two departments must be included. Further, students must complete at least two semesters' experience in supervised teaching of either a foreign language or ESL, or alternative equivalent practicum if approved by the doctoral committee and the person in charge of the Minor.

In general, students whose major field of study in the Ph.D. is a concentration in foreign language acquisition or ESL are not eligible for this minor, as their field of specialization already includes this area. However, students in English as a Second Language may do the minor with a focus on foreign language acquisition or a student with a specialty area in forced language acquisition may complete the minor with a specialty area in English as a Second Language.

Social Thought

The purpose of the Social Thought minor is to enable graduate students in a variety of fields to study theories of society across conventional disciplinary boundaries. The minor enables qualified students to enrich their own chosen fields of study with readings and discoveries from other, contiguous fields. The minor requires at least 15 credits of courses with social thought content. These are courses taught by STP Affiliated Faculty or those approved by the STP Advisory Committee. Those 15 credits must include the following: at least 9 credits of courses from outside the student’s major discipline and SOTH 501 -- Introduction to Social Thought. In addition, at least one member of the student’s dissertation committee must be an STP Affiliated Faculty and preferably be from outside the student’s major discipline.

Women's Studies

This interdisciplinary dual degree graduate minor is administered by the Women's Studies program. Each student's major and minor is planned by the student and the Women's Studies graduate adviser in consultation with the student's graduate adviser in his or her major field.

**MASTER'S REQUIREMENTS:** Master's-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 3 additional credits in Women's Studies, chosen in consultation with the Women's Studies graduate adviser.

**DOCTORAL REQUIREMENTS:** Doctoral-level dual-title degree students are required to take 9 credits of course work in Women's Studies: WMNST 501 Feminist Perspectives on Research and Teaching (3 credits); WMNST 502 Global Feminism (3 credits); and WMNST 507 Feminist Theory (3 credits). Students also must complete 9 additional credits of Women's Studies course work (at least 6 of which should be at the 500 level), chosen in consultation with the Women's Studies graduate adviser.

The minor requires a minimum of 9 credits of Women's Studies courses for a master's degree and 15 credits for a doctorate. These credits are in addition to the requirements for the student's major. Six credits consist of required course in feminist theory (3) and feminist methodology (3). The remaining credits may include a combination of WMNST 400- and 500-level courses, as well as special topics courses (numbered 497 and 597) and independent/individual studies (496 and 596).

Prescribed courses (6 credits): WMNST 507 Feminist Theory; WMNST 501 Feminist Perspectives on Research and Teaching. Additional courses (a minimum of 3 credits at the 500 level).

Postbaccalaureate and Graduate Credit Certificate Programs

Postbaccalaureate and graduate credit certificate programs are innovations that reflect emerging academic areas, and may be supplements or enhancements to existing degree programs. These credit certificate programs are designed to foster development of an area of specialty or competency within a discipline and flexibility is essential to accommodate the parameters of the discipline as well as the educational needs of the students. The programs consist of a sequence, pattern, or group of courses developed, supervised, and evaluated by the faculty members of the academic unit offering the program.
Adult Basic Education

Graduate Credit Certificate Program

Esther Prins
305B Keller
University Park
Telephone: 814-865-0597
Fax: 814-865-0128
E-mail: esp150@psu.edu

The goal of the program is to build educators’ capacity to provide high-quality, research-based instruction in adult basic education (ABE), especially literacy and numeracy. The program is intended for people who are working, or wish to work, with adults who struggle with reading, writing, math, and/or English language proficiency. ABE instruction typically occurs in adult literacy, family literacy, GED, English as a second language (ESL), or developmental education classes offered by community-based organizations, community colleges, school districts, libraries, and alternative schools, among others. Delivered online through the World Campus, the 12-credit certificate includes three required courses and one elective, which allows students to tailor the program to their specific interests, such as ESL, program planning and administration, distance education, educational technology, adult learning, or other topics.

Admission Requirements:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized, degree-granting institution in the country in which it operates.

List of Courses* Included in the Certificate:

ADTED 460: Introduction to Adult Education (3 credits)
ADTED 560: Teaching Reading to College Students and Adults (3 credits)
ADTED 480: Teaching Math and Numeracy to Adults (3 credits)

Students must choose one 3-credit elective from the following list of courses:

ADTED 470: Introduction to Distance Education (3 credits)
ADTED 505: The Teaching of Adults (3 credits)
ADTED 506: Program Planning in Adult Education (3 credits)
ADTED 507: Research and Evaluation in Adult Education (3 credits)
ADTED 531: Course Design and Development in Distance Education (3 credits)
ADTED 542: Perspectives on Adult Learning Theory (3 credits)
ADTED 575: Administration of Adult Education (3 credits)
LDT 415B: Systematic Instructional Development for Teachers (3 credits)
APLNG 802: Focus on Language: Learning and Teaching Additional Languages (3 credits)
APLNG 804: Focus on Learners: Identity, Community and Language Learning (3 credits)
APLNG 806: Focus on Classrooms: Planning and Supporting Language Learning (3 credits)
APLNG 808: Focus on Instruction: Teaching and Assessing Language Learning (3 credits)

Effective Semester: Fall 2015
Expiration Semester: (maximum of 5 years from effective date) fall 2020

The Pennsylvania State University
Adult Gerontology Acute Care Nurse Practitioner

Graduate Credit Certificate Program
Patricia Sweeney Ph.D, C.R.N.P., F.N.P., B.C.
203 Health and Human Development East
University Park, PA 16802
Telephone: 814-863-2211
Fax: 814-863-2925
E-Mail: pxs29@psu.edu

The purpose of the Adult Gerontology Acute Care Nurse Practitioner certificate is to prepare individuals with a Master’s degree in Nursing seeking additional certification as an Adult Gerontology Acute Care Nurse Practitioner. The curriculum includes the didactic and clinical courses required for application of the NP role and required for certification. The program of study is variable and may require a total of 31 credits. Up to 9 credits may be waived based on evaluation of transcripts and prior course completion.

Admission Requirements:
Applicants are required to have a Master’s degree in nursing from a NLNAC- or CCNE-accredited institution. In addition, undergraduate chemistry and statistics are required. Students need to submit two recommendations and official transcripts from all undergraduate and graduate programs. Applicants are required to have two years of experience as an RN in an acute care/hospital setting.

Required Courses
NURSING (NURS)
860. Adult Gerontology Acute Care Nurse Practitioner Role I (3)
861. Adult Gerontology Acute Care Nurse Practitioner Role II (3)
862. Adult Gerontology Acute Care Nurse Practitioner Practicum I (4)
863. Adult Gerontology Acute Care Nurse Practitioner Practicum II (4)
864. Adult Gerontology Acute Care Nurse Practitioner Integrative Practicum (6)
865. Pharmacology for Acute Care Nurse Practitioners (1)
866. Health Assessment of the Adult Gerontology Population in Acute Care (1)

Additional Coursework*
502. Advanced Health Assessment of Adult Populations (3)
503. Pathophysiology (3)
504. Pharmacologic Therapy (3)

*Any or all of these courses may be waived based on the certificate program chair’s evaluation of transcripts and prior courses completed.

Effective Semester: Fall 2012
Expiration Semester: Summer 2017
Last Revised by the Department: Summer Semester 2012

Agricultural Biosecurity and Food Defense
Graduate Credit Certificate Program
Gretchen A. Kuldau
321 Buckhout Laboratory
Department of Plant Pathology and Environmental Microbiology
Penn State University
University Park, PA 16802
Telephone: 814-863-7232
Fax: 814-863-7217
email: kuldau@psu.edu

This 12-credit graduate certificate program is designed to provide students with broad training in the field of agricultural biosecurity. Courses cover animal and plant health, and food defense aspects of agricultural biosecurity and food defense. Content is both theoretical and applied but with an emphasis on practical application of knowledge gained. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option for those who desire advanced graduate training but do not require the full Master's degree program. It is also ideal for students who wish to move into the degree program once all admissions requirements are fulfilled (e.g., GRE); however, successful completion of a certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

ADMISSION REQUIREMENTS
An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution, and must have a 3.0 or higher undergraduate grade point average. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

COURSES
AGRICULTURAL BIOSECURITY AND FOOD DEFENSE (AGBIO)
520. Agricultural Biosecurity (3)
521. Food Defense (3)
801. Veterinary Infectious Disease Diagnostic and Surveillance Systems (3)
802. Plant Protection (3)

The Pennsylvania State University
Ancient Languages

Postbaccalaureate Credit Certificate Program

Mark Munn, Head, Department of Classics and Ancient Mediterranean Studies
101 Weaver Bldg
University Park, PA 16802
Phone: 814-863-0052
Email: markmunn@psu.edu

Advanced study in classical studies, ancient history, ancient philosophy, biblical studies, Egyptology, or ancient Near Eastern studies requires demonstrable proficiency in one or more ancient languages. The certificate in Ancient Languages, comprising 12 credits, is designed to provide proficiency in at least one ancient language for students who have completed an appropriate undergraduate degree and are planning to pursue graduate work in one of these fields. Training in a second ancient language is offered, and a writing-intensive course in a subject relevant to the student’s interest will strengthen preparation for graduate-level research and writing. A grade of B or better must be earned in each course to satisfy the certificate.

Admission Requirements:
An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. The baccalaureate degree must be in any humanities field that includes at least one year of study in an ancient language.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

List of Courses Included in the Certificate:
Select 9 credits from among the following courses; at least 6 credits must be in one language:

- CAMS 420 Introductory Targumic Aramaic (3)
- CAMS 471 Sumerian (3)
- CAMS 472 Akkadian (3)
- CAMS 481 Introduction to Middle Egyptian & Hieroglyphics (3)
- CAMS 490 Ancient Mediterranean Languages (3-6)
- CAMS 520 Advanced Sumerian (3)
- CAMS 521 Advanced Akkadian (3)
- CAMS 522 Comparative Semitics (3)
- GREEK 401 Introductory Reading in Greek Literature (3-6)
- GREEK 402 Greek Prose Authors (3-6)
- GREEK 405 Greek Historians (3-6)
- GREEK 406 Greek Poetry (3-6)
- GREEK 407 Greek Drama (3-6)
- GREEK 408 Independent Studies (1-18)
- GREEK 409 Greek Seminar (3-9)
- GREEK 410 Greek Mythography (3)
- GREEK 411 Individual Studies (1-9)
- HEBR 405 Advanced Biblical Hebrew (3)
- HEBR 457 Readings in Biblical Hebrew (3)
- HEBR 495 Independent Studies (1-18)
- LATIN 401 Republican Literature (3-12)
- LATIN 402 Augustan Age Literature (3-12)
- LATIN 403 Silver Age Literature (3-12)
- LATIN 404 Medieval Latin Literature (3-6)
- LATIN 405W History of Latin (3)
- LATIN 455 Independent Studies (1-18)
- LATIN 510 Latin Seminar (3-6)
- LATIN 595 Individual Studies (1-9)

Select 3 credits from among the following courses:

- CAMS 400W Comparative Study of the Ancient Mediterranean World (3)
- CAMS 405 Law & Economy in the Ancient Near East (3) – when taught as a writing intensive section
- CAMS 410 Classical Epic (3) – when taught as a writing intensive section
- CAMS 411W Classical Drama (3)
- CAMS 440W Studies in Classical and Ancient Mediterranean Archaeology (3)
- CAMS 450W Languages and Cultures of the Ancient Near East (3) – when taught as a writing intensive section
- CAMS 480W (J ST 480) Greeks and Persians (3) – when taught as a writing intensive section
- CAMS 481 Comparative Greek and Latin Grammar (3)
- CAMS 540W Seminar on Ancient Mediterranean Languages (3-6)
- CAMS 575 Proseminar (3)
- CAMS 579 Research Seminar (3-6)
- CAMS 590 Individual Studies (1-9)

Effective Semester: Fall 2014
Expiration Semester: Summer 2019
Applied Behavior Analysis

Graduate Credit Certificate Program

Dr. David Lee
226 Cedar Building
Telephone: 814-865-3567
email: davidlee@psu.edu

This program is intended for those who seek advanced knowledge in the field of applied behavior analysis. The 18-credit curriculum is specifically designed to prepare students to sit for the BCBA certification examination sponsored by the Behavior Analyst Certification Board. After completing the program, students will be able to:

1. Describe the basic principles of behavior and how those principles relate to community/classroom situations with clients.
2. Develop procedures to determine the purpose of aberrant behavior for an individual, determine if targeted behaviors warrant intervention, and monitor the effects of interventions.
3. Develop interventions based on the purpose of aberrant behavior.
4. Develop instructional programs to teach new behaviors that are functional in school and community settings.

ADMISSION REQUIREMENTS:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

PRESCRIBED COURSES

SPECIAL EDUCATION (SPLED)

503A. Applied Behavior Analysis for Special Education: Basic Principles I (4)
503B. Applied Behavior Analysis for Special Education: Basic Principles II (4)
503C. Applied Behavior Analysis for Special Education: Extended Applications I (4)
503D. Applied Behavior Analysis for Special Education: Extended Applications II (3)
511. Ethical Considerations for Special Education Populations (3)

Effective: Fall Semester 2012
Expiration: Spring Semester 2017
Blue Sheet Item #: 41-02-065

## Applied Statistics

**Graduate Credit Certificate Program**

James L. Rosenberger  
326 Thomas Building  
University Park, PA 16802  
Telephone: 814-865-1340  
Fax: 814-863-7114  
E-mail: jlr@psu.edu

The graduate certificate in Applied Statistics helps quantitative professionals in a variety of fields become knowledgeable and skillful in applied statistics. The certificate was designed specifically for researchers working with statistical data who wish to advance their careers, and for those who seek career changes. The certificate is offered through Penn State's World Campus. Students earn the certificate by completing 12 credits of instructor-led online course work. Two 3-credit courses are required, and the remaining 6 credits are selected from a list of electives. Students who successfully complete the certificate earn 12 academic credits and receive the graduate certificate in Applied Statistics. Students subsequently admitted to the Department of Statistics's professional Master of Applied Statistics degree program may count up to 15 credits of certificate courses toward the M.A.S. degree.

**Admission Requirements**

An applicant must have received, from a regionally accredited institution, a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants from countries in which English is not the primary language must earn TOEFL scores of at least 550 for the paper test or 213 for the computer-based test.

**Admission Procedures**

### PRESCRIBED COURSES

#### STATISTICS (STAT)

- 500. Applied Statistics (3)  
- 501. Regression Methods (3)

### ELECTIVES

Choose at lease 6 credits from:

#### STATISTICS (STAT)

- 414. Introduction to Probability Theory (3)  
- 415. Introduction to Mathematical Statistics (3)  
- 480. Introduction to SAS (1)  
- 481. Intermediate SAS for Data Management (1)  
- 482. Advanced Topics in SAS (1)  
- 483. Statistical Analysis Systems Programming (3)  
- 502. Analysis of Variance and Design of Experiments (3)  
- 503. Design of Experiments (3)  
- 504. Analysis of Discrete Data (3)  
- 505. Applied Multivariate Statistical Analysis (3)  
- 506. Sampling Theory and Methods (3)  
- 507. Epidemiologic Research Methods (3)  
- 509. Design and Analysis of Clinical Trials (3)  
- 510. Applied Time Series Analysis (3)

* Note: credits cannot be taken for both 483 and 480-482.

#### GEOGRAPHY (GEOG)

- 483. Problem-Solving with GIS (3)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Fall Semester 2011  
Expiration Date: Fall Semester 2016  
Last Revised by the Department: Fall Semester 2011  
Blue Sheet Item #: 40-04-184

The Pennsylvania State University
Educating Individuals with Autism

Postbaccalaureate Credit Certificate Program

Dr. Pamela Wolfe
212A Cedar Building
University Park, PA 16802
Telephone: 814-863-8002
Fax: 814-865-7086
email: psw7@psu.edu

The focus of this postbaccalaureate certificate program is to provide comprehensive, evidence-based information on creating effective educational programming for individuals with autism spectrum disorders. After completing the 12-credit program, students will be able to assess individuals with autism spectrum disorders to effectively provide instruction; develop strategies to enhance social, behavioral, communication, and academic gains; strengthen professional skills to work with families; and develop professional competencies to work with other educators and personnel in related disciplines.

For admission into this program, applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Required Courses:

- SPLED 461 Autism: Issues and Concerns (3)
- SPLED 462 Autism and Applied Behavior Analysis (3)
- SPLED 463 Communication and Social Competence (3)
- SPLED 464 Assessment and Curriculum (3)

Effective Semester: Fall Semester 2012

The Pennsylvania State University
Bioenergy

Graduate Credit Certificate Program
Ali Demirci
Department of Agricultural and Biological Engineering
249 Ag Engineering Building
University Park, PA 16802
Phone: 814-863-1098
email: axd29@psu.edu

The graduate certificate in Bioenergy is designed specifically for current and aspiring practitioners who seek advanced skills for growing the bioenergy industry. To accommodate participation by working professionals the program is offered through Penn State's World Campus by Renewable Energy and Sustainability Systems (RESS) graduate program. Bioenergy certificate students earn the certificate and 12 graduate credits by earning a grade of "C" or better in each of four prescribed online courses (note that grade requirements for using these courses in other graduate programs may be different). Students who are subsequently admitted to the RESS degree program may count credits earned in the certificate program toward the RESS degree; successful completion of a certificate program neither implies nor guarantees admission to a graduate degree program.

Admission Requirements:
Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A background in chemistry and thermodynamics is also required.

Required Courses
- ABE 885. Biomass Harvesting and Logistics (3)
- ABE 888. Conversion Technologies for Bioenergy Production (3)
- FOR 880. Bioenergy Feedstocks (3)

Effective Semester: FA 2013

Applied Bioinformatics

Graduate Credit Certificate Program

Istvan Albert, BMB
W237 Millennium Science Center
Telephone: (814) 865-2281
E-mail: iua1@psu.edu

Students will gain an understanding of genomic sequencing and learn how to analyze and interpret genomic data in the context of cellular behavior and activity. Genomic sequencing has an impact on all of the sciences, and access to this new type of information has fundamentally altered biology and it now demands that life scientists become familiar with computational and statistical concepts. The 11-credit curriculum includes 9 credits of core BMMB courses plus 3 credits of STAT. To earn the certificate, students must have achieved a B (3.0) average in all courses, receiving no grade lower than a C in any course.

Admission Requirements:

Applied Bioinformatics is a computationally heavy science that requires both computer and internet access to understand and practice the concepts presented in the coursework. Applicants must have a bachelor’s degree and an eagerness to learn about the latest scientific developments of the genomic era.

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Required Courses

BMMB 551/IBIOS 551, Genomics (3)
BMMB 554/IBIOS 554, Foundations in Data Driven Life Sciences (3)
BMMB 852, Applied Bioinformatics (2)
STAT 555/BIOL 555/IBIOS 555, Statistical Analysis of Genomics Data (3)

Effective Semester: Spring 2015
Expiration Semester: Fall 2019
Business Analytics

Graduate Credit Certificate Program

Brian Cameron
220 Business Building
University Park, PA 16802
E-mail: 814-863-5531
BAN@smeal.psu.edu

Business Analytics (BAN)
The nine-credit graduate certificate program in Business Analytics (BAN) prepares business professionals to explore and analyze large data sets to support data-driven business decisions. The program covers the entire life cycle of a data analytics project using the descriptive/prescriptive/predictive framework for business analytics: descriptive (What happened?), predictive (What will happen?) and prescriptive (What should happen?). Target audiences include business analysts, analytic systems designers and the data scientists who have a focus on problems arising in the contexts of business decision-making. The certificate program builds on basic analytic concepts that professionals are expected to have and provides a practical approach to expanding these analytic skills to perform tasks in various areas of business such as marketing, supply chains, operations, forensics, and risk.

Admission Requirements:
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants should have knowledge or experience in quantitative work such as science, engineering, or business. Applicants from other disciplines will be considered based on prior coursework and experience. Applications must include a statement of professional goals, a curriculum vita or resume, and two letters of recommendation.

Admissions Prerequisite Requirement—STAT 500 (Applied Statistics) or equivalent (as determined by department review) with a grade of B+ or better is a requirement for admissions into the BAN certificate. An equivalent graduate-level statistics course or academic experience (as determined by program review) may be considered. In lieu of an appropriate statistics course, standardized test scores (GMAT or GRE) taken within the last five years will be considered.

Official Transcripts and GPA — submit a copy of an official transcript from each institution attended, regardless of the number of credits or semesters completed. Transcripts not in English must be accompanied by a certified translation. A Grade Point Average (GPA) of 3.00 on a 4.00 scale in the final two years of undergraduate studies or in your most recent graduate degree is required.

English Proficiency – The language of instruction at Penn State is English. All international applicants must take and submit scores for the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS), with some exceptions. Minimum test scores and exceptions are found in the English Proficiency section on the Graduate School Requirements for Graduate Admission website.

PRESCRIBED COURSES (9 credits)
BAN 530. Business Strategies for Data Analytics (3)
BAN 540. Marketing Analytics (3)
BAN 550. Prescriptive Analytics for Business (3)

Expiration Semester: Summer 2020
Children's Literature

Graduate Credit Certificate Program

Daniel D. Hade
265 Chambers Building
Telephone: 814-865-2215
email: ddh2@psu.edu

The goal of the program is to provide students with an in-depth background in the theories and genres of literature for children and youth while also considering pedagogical (broadly construed) and cultural implications. Students are required to take LL ED 502, Studies in Literature for Children, as their initial course in the program as a foundation to the various orientations to the study of children's literature. Students may then choose a minimum of four additional courses in areas such as picture books, fantasy literature, myth and folklore, cultural and social issues, and research approaches for a total of 15 credits. The program does not lead to any initial teacher certification, but may assist students with recertification. Students should check with their specific state departments of education for regulations regarding recertification.

Admission Requirements:

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

PRESCRIBED COURSE:

LANGUAGE AND LITERACY EDUCATION (LL ED)
502. Studies in Literature for Children (3)

ADDITIONAL COURSES:

Select four courses from the following:

462. The Art of the Picture Book (3)
465. Fantasy Literature for Children (3)
561. Cultural Pluralism in Children's and Adolescent Literature (3)
563. Myths and Folklore in Children's Literature (3)
568. Doing Research in Children's Literature (3)

Effective: Fall Semester 2012
Expiration: Spring Semester 2017

Heritage and Museum Practice

Graduate Credit Certificate Program

Simon J. Bronner, Ph.D.
Penn State Harrisburg
American Studies Program
777 West Harrisburg Pike
Middletown, PA 17057
Telephone: 717-948-6201
Fax: 717-948-6724
email: amstd@psu.edu

This 15-credit graduate certificate program offered at Penn State Harrisburg provides students with knowledge of practices in the heritage and museum sector, which includes historical and heritage societies, art galleries, archives and record management programs, educational institutions, cultural and governmental agencies, preservation and cultural resource management groups, and media production companies. A goal of the program is to enable students to conceptualize, deliver, and manage effective heritage and museum projects. The Heritage and Museum Practice certificate is awarded for successful completion of 9 credits of prescribed courses plus 6 credits of electives from an approved list of courses. Students must earn a grade of B or above in each course that counts toward the certificate program.

Admission Requirements:

An applicant must hold either a baccalaureate degree from a regionally accredited U.S. institution or a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

A candidate in the certificate program may also become a candidate in the Master of Arts in American Studies, Master of Arts in Humanities, or Master of Arts in Public Administration degree programs if the candidate is admitted to one of these graduate degree programs; however, successful completion of the certificate program neither implies nor guarantees admission to any graduate degree program at Penn State. Students enrolled in any of these degree programs may apply credits earned toward the certificate as elective credits with program approval. Up to 15 credits of coursework taken in nondegree status can count towards a graduate degree.

GPA REQUIREMENT

Applicants are expected to have 2.75 GPA or above in the last two years of undergraduate work in American Studies, history, art, architecture, anthropology, folklore, management, communications, or fields related to museum and heritage practice.

PRESCRIBED COURSES (9 credits)

AMERICAN STUDIES (AM ST)
480. MUSEUM STUDIES (3)
481. HISTORIC PRESERVATION (3) or 482. PUBLIC HERITAGE (3)
550. SEMINAR IN PUBLIC HERITAGE (3)

ADDITIONAL COURSES (6 credits)

In addition to the 9 credits of prescribed coursework, students must select 6 credits from the following list of 500-level elective courses.

AMERICAN STUDIES (AM ST)
530. TOPICS IN FOLKLORE (3)
531. MATERIAL CULTURE AND FOLKLIFE (3)
575. MUSEUM INTERNSHIP (3)
551. SEMINAR IN LOCAL AND REGIONAL STUDIES (3)
570. TOPICS IN AMERICAN ART (1 - 6 per semester)
592. FIELD EXPERIENCE IN AMERICAN STUDIES (3)

PUBLIC ADMINISTRATION (P ADM)
500. PUBLIC ORGANIZATION AND MANAGEMENT (3)
505. HUMAN RESOURCES IN THE PUBLIC AND NONPROFIT SECTORS (3)
518. NONPROFIT ORGANIZATIONS: MANAGEMENT AND LEADERSHIP (3)
519. NONPROFIT ORGANIZATIONS: RESOURCE DEVELOPMENT AND MANAGEMENT (3)

Fax: 717-531-3922
E-mail: mds21@psu.edu

In the current medical climate, there is a growing need for academic clinicians and health care professionals who are trained in clinical research. Unfortunately, there are few programs that offer the didactic preparation for the unique requirements of a clinical researcher.

The primary goal of this program is to provide a formal, structured program that will prepare certificate candidates to pursue a successful career in clinical research. The curriculum includes courses in biostatistics, epidemiology, clinical trials, decision and cost-effectiveness analysis, outcomes measurement, quality management, health care economics and policy, scientific communication, and SAS statistical analysis computing. The 15 credit hour program offers courses on weekday evenings, enabling the student to continue clinical or employment activities. Certificate candidates will be able to complete the 15 credit hour requirement in 2 semesters.

Admission Requirements

The successful applicant must have completed a medical, nursing, or baccalaureate degree from a regionally accredited institution. Fellows and junior faculty members with current appointments at the Penn State College of Medicine, as well as nursing graduates and public health personnel, are target candidates for the certificate program.

COURSES

Core (6 prescribed credits)

PUBLIC HEALTH SCIENCES (PHS)
520. Principles of Biostatistics (3)
550. Principles of Epidemiology (3)

In addition to the 6 credits of required core coursework, students must select an additional 9 credits from the following list of electives:

PUBLIC HEALTH SCIENCES (PHS)
500. Research Ethics (1)
511. Methods in Translational Research (1)
518. Scientific Communications (1)
519. Patient Oriented Research (1)
535. Quality of Care Measurement (3)
536. Health Survey Research Methods (3)
551. Advanced Epidemiological Methods (3)
580. Clinical Trials Design Analysis (3)
581. Clinical Trials Case Studies (1)
801. Data Management (1)

Blue Sheet Item #: 40-04-185
Review Date: 01/10/2012
The Literacy Leadership postbaccalaureate certificate program is offered by the Teacher Education unit in the School of Behavioral Sciences and Education at Penn State Harrisburg. The primary goal of the program is to prepare K-12 educators (teachers, specialists, and/or administrators) to serve in literacy leadership roles in K-12 educational contexts. The 12-credit curriculum integrates core principles of literacy education that address curricular content, curriculum initiative planning, diverse K-12 students' needs, and leadership development consistent with standards-based professional development and candidate preparation guidelines. Candidates will complete four courses targeted to develop critical perspectives, reading, and writing associated with professional literacy initiatives and leadership skills. Candidates will complete three required courses and select the fourth course from a menu according to individual professional needs. The certificate is designed for educators who need to develop understandings of complexities involving literacy goals among K-12 students and adult educators.

Admission Requirements:
Applicants for the Certificate in Literacy Leadership must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

To be considered for admission into the certificate program, applicants must have a 3.0 grade-point average in the last two years of undergraduate work (or graduate work if applying with a Master’s degree).

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Graduate applicants will be able to complete this program as stand-alone graduate study or in conjunction with Master’s-level studies in the Teaching and Curriculum or Literacy Education graduate programs at Penn State Harrisburg. Undergraduate candidates may apply with a recommendation from a Penn State academic unit but must have a conferred bachelor's degree prior to enrollment into the certificate program.

Candidates will apply to the program by completing the online Graduate School certificate application, including payment of the application fee. Candidates will earn the certificate upon successful completion of the four required courses. All courses must be taken for a letter grade with at least a 3.0 average maintained; no grades below a C will be counted toward the certificate.

List of Courses Included in the Certificate
The following three 3-credit courses are required:

- EDUC 452. Teaching Writing
- EDUC 471. Best Practices in Literacy
- EDUC 565. Literacy Leadership

In addition, each candidate must take one additional 3-credit course from the following list of electives:

- EDUC 477. Teaching Struggling Readers and Writers
- EDUC 432. Children’s Literature and Teaching Writing
- EDUC 466. Foundations of Teaching English as a Second Language
- LL ED 445. Teaching English in Bilingual/Dialectal Education

Community and Economic Development

Graduate Credit Certificate Program

Dr. Diane McLaughlin
Department of Agricultural Economics and Rural Sociology
110-C Armsby Building
University Park, PA 16802
Phone: 814-863-8626
Fax: 814-865-3746
Email: dkk@psu.edu

The Graduate Certificate program in Community and Economic Development helps students prepare to confront the multidimensional challenges faced by community development practitioners. The main objective of the certificate program is to educate professionals who will assume leadership roles in helping establish and maintain viable communities. Recipients of the certificate will become deeply involved in assisting localities with a variety of issues, including: developing new organizations and new industries; growth management; protecting the environment; revitalizing downtown areas; enhancing the local quality of life; assisting educational, social, health, and human service systems; and developing vital infrastructure—in short, working with communities to help them shape their own futures.

The certificate program teaches the theory, skills, and tools that allow practitioners to address the important issues in community and economic development. The certificate program emphasizes topical problems, drawing from the experiences of both students and the faculty. Students in Community and Economic Development gain a broad understanding of the dynamics of communities and their social, economic, and political systems. With this training, graduates have a wide range of career opportunities in an expanding job market. Some work for local or regional governments, industrial development authorities and chambers of commerce, major corporations, nongovernmental organizations, or consulting firms. Others may work for development authorities, housing authorities, planning commissions, or environmental planning and development agencies.

Program Requirements

The Graduate Certificate in Community and Economic Development (CEDEV Certificate) requires 15 credits, consisting of five 3-credit courses. The CEDEV Graduate Certificate is designed to build a basic level of knowledge and skills required for practitioners to address the important issues in community and economic development. Admission to the certificate requires applicants to provide evidence of completion of a baccalaureate degree from a regionally accredited institution.

The certificate program is designed primarily for professionals in the field who wish to expand their existing knowledge and for those who wish to learn about community and economic development, including those working in or interested in dealing with the variety of development issues in America’s towns, boroughs, small cities and rural areas. All courses are delivered online through the Penn State World Campus.

The five required courses introduce students to the field and cover the topics of principles of community and economic development, leadership, community structure, capacity and processes, local economic development, planning, population, land use and municipal finance, and the methods and techniques of effective community and economic development. Courses in the certificate program are required courses in the master’s degree program in Community and Economic Development and can be transferred into the master’s program for qualified applicants.

Admission Requirements

Students with a 3.00 average (on a 4.00 scale) for the most recent two years of college/university education, or with an advanced degree, and with appropriate course or experiential backgrounds will be considered for admission. To complete an application for the graduate certificate in Community and Economic Development, please visit:

COURSES

COMMUNITY AND ECONOMIC DEVELOPMENT (CEDEV)

- 430. Principles of Economic Development Planning (3)
- 452. Rural Organization (3)
- 500. Principles of Community and Economic Development and Leadership (3)
- 509. Population, Land Use and Municipal Finance (3)
- 575. Methods and Techniques for Community and Economic Development (3)

Program is jointly offered by Penn State's World Campus and the Department of Agricultural Economics and Rural Sociology, College of Agricultural Science.

The Pennsylvania State University
Computer and Network Security

Postbaccalaureate Credit Certificate Program

Patrick McDaniel
360-A Information Sciences & Technology Building
Phone: 814-863-3599
Fax: 814-865-3176
E-mail: mcdaniel@cse.psu.edu

The goal of this certificate program is to prepare security analysts and researchers to develop and apply advanced security needs of enterprise and personal environments. To be awarded the Certificate in Computer and Network Security, students must successfully complete 12 credits of course work including CSE 543, and three of the following courses: CMPSC 443, CSE 544, CSE 545, or CSE 546.

Admission Requirements

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country where it operates. The successful applicant will possess a baccalaureate degree in computer science, computer engineering, or a closely aligned field and is generally expected to have a minimum GPA of 3.0. International students must satisfy the Graduate School’s English language requirement. Professional experience will be taken into consideration for admission. Exceptions to the minimum 3.00 grade-point average may be made for students with special backgrounds, abilities, and interests.

GRE scores are not required for nondegree graduate students. Individuals who wish to apply to the graduate degree program in Computer Science & Engineering must submit a graduate-degree application for admission, along with all of the required supporting documentation, including GRE scores; successful completion of the certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

COMPUTER SCIENCE (CMPSC)

- 443. Introduction to Computer & Network Security (3)

COMPUTER SCIENCE AND ENGINEERING (CSE)

- 543. Computer & Network Security (3)
- 544. System Security (3)
- 545. Network Security (3)
- 546. Cryptography (3)

To be awarded the Certificate in Computer and Network Security, students must successfully complete CSE 543, and three (3) of the following courses: CMPSC 443, CSE 544, CSE 545, or CSE 546. All courses must be completed with an average GPA of 3.0; students may not earn a grade of less than B- in any single course.

Effective Date: Summer Session 2009

Graduate Credit Certificate Program

Corporate Finance

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone 610-725-5343
Fax 610-725-5224
Email sjp14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in corporate finance.

The program is designed to provide preparation for individuals who work or aspire to work in the corporate finance field as financial analysts, credit managers, investor relations officers, treasurers, controllers, or in related positions in the treasury department or controller’s office of an organization, investment banking firms, and commercial lending, or in the area of mergers and acquisitions.

The curriculum focuses on a set of knowledge and skills in financial analysis and reporting, financial modeling and valuation, and capital structure. Course work emphasizes the development of competencies in building pro forma financial statements, company valuation, advanced capital budgeting based on a real options approach, and understanding of 10K reports, as well as mergers and acquisitions, internal control and planning, and decision making under uncertainty. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master’s degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master’s degree program, as well as for professionals who already hold a master’s degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master’s degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant’s credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With program adviser approval, all four courses in the certificate program may be applied to the master’s degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master’s degree program must formally be admitted to the master’s degree program. Admission into the master’s degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-725-5324 or email gradmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master’s degree program and enrolls on a degree basis, certificate courses completed with a B or better will be “transferred” into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate program in corporate finance requires a total of four courses (12 graduate credits). Three of the courses are required (ACCTG 512, BUSAD 526, and FIN 531), and the fourth course is an elective selected from a list of three courses (ACCTG 524 or BUSAD 528 or FIN 532). Students completing each of the four courses with a grade of B or better will be eligible to receive a graduate certificate. All courses are 3 graduate credits.

Prescribed Courses (9 credits)

Accounting (ACCTG)

512. Financial Accounting Theory and Reporting Problems (3 credits)

Business Administration (BUSAD)

526. Current Issues in Corporate Finance (3 credits)

Finance (FIN)

531. Financial Management (3 credits)

Elective Courses (Choose 1 from the following 3 courses) (3 credits)

Accounting (ACCTG)

524. Managerial Accounting (3 credits)

Business Administration (BUSAD)

528. Mergers and Acquisitions (3 credits)

Finance (FIN)

532. Financial Decision Processes (3 credits)

- ACCTG course list
- BUSAD course list

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Fall Semester 2011

This graduate certificate program is designed to provide students with an understanding of various computer and information security domains, including access control, network security, information security and risk management, security architecture and design, and secure software development. To be awarded the graduate certificate in Cybersecurity, students must successfully complete 12 credits of course work. Students must complete each course with a grade of C or better and an overall grade-point average of 3.0 in the certificate courses to be awarded the certificate.

ADMISSION REQUIREMENTS

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. The successful applicant will possess a degree in science or engineering or a closely aligned field and is generally expected to have a minimum combined junior/senior grade-point average of 3.0 (B) on a 4.0 scale.

List of Courses Included in the Certificate

CSE 543. Computer Security (3)
INFSY 563. Network Security (3)
IST 454. Computer and Cyber Forensics (3)
SWENG 510. Secure Software Engineering (3)

Effective Semester: Spring 2014

Data Analytics

Graduate Credit Certificate Program

Colin J. Neill, Ph.D.
School of Graduate Professional Studies
30 E. Swedesford Rd.
Malvern, PA 19355

Telephone: 610-725-5285
Fax: 610-648-3377
E-Mail: cjneill@psu.edu

The goal of this graduate certificate program is to prepare students to apply data analytics techniques to large data sets to support data-driven decisions across application domains. To be awarded the Graduate Certificate in Data Analytics, students must successfully complete 15 credits of course work. All courses must be completed with a grade of C or better and a grade-point average of 3.0 to be awarded the certificate.

ADMISSION REQUIREMENTS:

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants with undergraduate degree in a quantitative discipline such as science, engineering, or business may apply. Students from other disciplines will be considered based on prior coursework. Applicants are generally expected to have a minimum combined junior/senior grade-point average of 3.0 (B) on a 4.0 scale.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Required courses (12 credits)
- DAAN 871: Data Visualization for Analytics
- BAN 530: Business Strategies for Big Data
- IN SC 525: Applied Data Mining

Elective courses (Select at least 3 credits; each course listed is worth 3 credits.)
- DAAN 881: Data-driven Decision Making
- BAN 540: Marketing Analytics
- SWENG 545: Data Mining
- DAAN 822: Data Collection & Cleaning

The Graduate Certificate Program in Data Mining (DM) empowers professionals with knowledge and skills regarding the discovery and the synthesis of information and knowledge for supporting decision makings. Students will learn the foundations of information sciences, databases, knowledge management and data mining from 3 required courses (9 credits). Through 2 additional elective courses (6 credits), students can learn the theory and the practice on topics ranging from network security, information retrieval, advanced data mining, to intelligent agents. The graduate certificate program provides an excellent advanced education opportunity not only for those professionals from corporations, military, and other government agencies who desire career advancement but also for those who may be interested in a professional master program. Up to 15 credits of coursework taken in non-degree status can count towards a graduate degree (e.g., MPS in Information Sciences).

Admission Requirements:

Both students of a graduate degree program (e.g., Master of Professional Studies) and non-degree graduate students can be awarded the graduate certificate after they complete the course requirement of the program.

Applicants for non-degree graduate students must have received, from an accredited institution, a baccalaureate degree equivalent to those required by Penn State. International students must hold the equivalent of an American four-year baccalaureate degree. GRE scores are not required for non-degree graduate students.

A bachelor's degree in a related area (e.g., engineering and science), while not required, is helpful in the successful completion of the certificate. It is expected that students will have a basic level of competency in computer language and information technology (related work experience can be used to demonstrate such competency).

International students must satisfy the Graduate School's English language requirement.

LIST OF COURSES INCLUDED IN THE CERTIFICATE PROGRAM:

Required Courses (9 credits):
IST 562. Theoretical Foundations of Information Sciences (3 cr.)
IST 552. Data and Knowledge Management (3 cr.)
IST/STAT 557. Data Mining I (3 cr.)

Elective Courses (6 credits)
Choose two courses from the following courses or other courses approved by the College of Information Sciences and Technology:

IST 516. Web and Internet Information Retrieval (3 cr.)
IST 554. Network Management and Security (3 cr.)
IST 555. Intelligent Agents and Distributed Decision Making (3 cr.)

email: myk2@psu.edu

Penn State's Dietetic Internship Program is a postbaccalaureate, general, supervised practice program. Students who have completed a baccalaureate degree and hold a valid Verification Statement from a Didactic Program in Dietetics (DPD) may submit an application for consideration. The internship program is structured according to the Accreditation Council for Education in Nutrition and Dietetics (ACEND) 2012 Eligibility Requirements and Accreditation Standards. Students are required to complete 15 graduate-level credits earning a grade of "B" or better. Upon completion of the program, students are eligible to take the Registration Examination for Dietitians administered by the Commission on Dietetic Registration.

PRESCRIBED COURSES

NUTRITION (NUTR)

- 595A. Application of Community Nutrition -- Internship (3)
- 595B. Application of Food Service Management -- Internship (3)
- 595C. Application of Basic Clinical Nutrition -- Internship (1)
- 595D. Application of Advanced Clinical Nutrition -- Internship (4)
- 595E. Introduction to Nutrition Research -- Internship (1)
- 595F. Professional Portfolio -- Internship (1)

University Park, PA 16802
Telephone: 814-865-0473
Fax: 814-865-0128
E-mail: gwk1@psu.edu

The certificate in Distance Education is a postbaccalaureate program designed for educators and trainers who want to expand their knowledge and build competencies in the field of distance education. The certificate program consists of 12 credits of course work in Adult Education (ADTED) of which 6 credits must be at the 500 level. The goal of the program is to assist the students in learning the latest trends, issues, and applications within the field of distance education while experiencing them firsthand as a student.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants must submit the following materials:

- A one-page resume
- A statement describing professional goals, experiences, and responsibilities (2 page maximum)
- One letter of recommendation
- Official transcripts from all undergraduate and graduate programs previously attended

List of Courses Included in the Certificate:

- ADTED 460: Introduction to Adult Education
- ADTED 470: Introduction to Distance Education
- ADTED 531: Course Design and Development in Distance Education
- ADTED 532: Research and Evaluation in Distance Education

Effective Date: Spring Semester 2012

Enterprise Architecture

Graduate Credit Certificate Program

Carleen Maitland
Interim Associate Dean for Undergraduate and Graduate Education
cfm12@psu.edu
814-865-3450

The certificate in Enterprise Architecture (EA) is designed to provide an introduction to EA and increase the knowledge of professionals seeking advanced leadership roles within an organization. EA strives to align the enterprise information systems and technology with business strategy and goals to enable the most effective use of technology to both support and grow an organization. All candidates are required to complete nine (9) credits.

The certificate program is an attractive option not only for those who desire advanced education and do not wish a full Master's Degree program, but also for students who might wish to take a certificate to determine if they are interested in a complete graduate degree program in Enterprise Architecture. Up to 15 credits of Penn State coursework taken in non-degree status can count towards a graduate degree in EA, but completion of the coursework neither implies nor guarantees admission to a graduate degree program at Penn State.

To be awarded the certificate, students must successfully complete 9 credits of graduate course work including EA 871, EA 872 and one of the following courses: EA 873, MANGT 510.

Admission Requirements

For admission to The Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

For admission to the certificate, a 2.75 GPA, either overall or from the last 60 credits, is needed. A 3.0 GPA must be obtained in order to successfully complete the certificate. GRE scores are not required. Individuals who wish to apply to the master of professional studies degree program in Enterprise Architecture must submit a separate application for degree admission, along with all of the required supporting documentation.

Required Courses (6 credits)
EA 871 Enterprise Architecture Foundations I (3)
EA 872 Enterprise Architecture Foundations II (3)

Elective Courses (Select 3 credits)
EA 873 Enterprise Modeling (3)
MANGT 510 Project Management (3)

Phone: (814) 865-0472
Fax: (814) 865-0128
Email: davepopp@psu.edu

This 15-credit certificate program prepares educators and instructional design professionals who want to advance their skills in the design, development, and implementation of technology-based learning experiences. The 6-credit core prepares professionals in the use of instructional design principles to select and use appropriate educational technologies to meet learning goals. The remaining 9 credits of study can be used to develop integration skills with additional technologies or to acquire skills that prepare candidates to address issues that are encountered by technology integration leaders.

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (post secondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Core Courses (required courses for all candidates, 6 credits)
EDTEC 440: Educational Technology Integration (3 credits)
INSYS 415: Systematic Instructional Development (3 credits).

Candidates must complete three additional courses from the following list. (9 credits)
EDTEC 448: Using the Internet in the Classroom (3 credits).
EDTEC 449: Using Video in the Classroom (3 credits).
EDTEC 461: Designing Computer Networks for Education (3 credits).
EDTEC 462: Coordinating Technology Use in Education (3 credits).

Earth Science Education

Graduate Credit Certificate Program

Eliza Richardson Marone
2217 Earth and Engineering Sciences
University Park, PA 16802
Phone: 814-863-2507
Email: eur10@psu.edu

The graduate certificate in Earth Science Education is designed to meet the professional needs of practicing secondary science teachers who wish to expand their subject matter knowledge in the Earth sciences, particularly in scientific critical thinking, solid Earth science, plate tectonic theory, Earth surface processes in the Critical Zone, and oceanography. Certificate students earn the graduate certificate and 12 graduate credits by successfully completing each of the four required 3-credit, instructor-led online courses with a grade of C or better. If a student is subsequently admitted to the Penn State M.Ed. in Earth Sciences degree program, he/she may count the 12 certificate credits toward the M.Ed. in Earth Sciences degree; however, successful completion of the certificate neither implies nor guarantees admission into a graduate degree program at Penn State.

ADMISSION REQUIREMENTS

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The student must be admitted to (1) Penn State’s Graduate School, and (2) the graduate certificate in Earth Science Education offered by the Department of Geosciences. To apply, the student completes a single online application that provides the necessary information to each organization. Students interested in applying for admission to the Graduate Certificate in the Earth Science Education program should go to the World Campus web site: http://www.worldcampus.psu.edu/degrees-and-certificates/earth-science-education-certificate/apply. The Earth Science Education Graduate Certificate Program Admissions Committee reviews and ranks applications as they are received.

List of Courses Included in the Certificate:
EARTH 501. Contemporary Controversies in the Earth Sciences (3)
EARTH 520. Plate Tectonics and People: Foundations of Solid Earth Science (3)
EARTH 530. Earth Surface Processes in the Critical Zone (3)
EARTH 540. Essentials of Oceanography for Educators (3)

The Pennsylvania State University
English as a Second Language Program Specialist

Postbaccalaureate Credit Certificate Program

Elizabeth Smolcic
257 Chambers Building
Telephone: 814-867-3199
E-Mail: eas260@psu.edu

The English as a Second Language (ESL) Program Specialist certificate is designed to give teachers the essential knowledge and skills to effectively work with English learners, their families, and their communities in public school (K-12) contexts. Candidates are required to complete with a grade of a C or higher five 3-credit courses that correspond to the ESL Program Specialist K-12 Program Guidelines of the Pennsylvania Department of Education and include 60 hours of integrated field experience. An optional pathway to complete the ESL certificate is an international program in which some of the courses are completed abroad. The program will lead to demonstration of knowledge of the fundamental concepts and teaching practices of English as a Second Language instruction and services to the growing numbers of English learners in public schools. Candidates who wish to obtain certification from the Pennsylvania Department of Education (PDE) in addition to this earning this postbaccalaureate credit certificate from Penn State should consult with Curriculum and Instruction graduate program faculty and advisers to determine the PDE’s current requirements prior to taking coursework for the ESL postbaccalaureate credit certificate.

Admission Requirements:
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

List of Courses included in the Certificate:

- WL ED 400
- WL ED 444
- APLNG 484 OR APLNG 410
- APLNG 493
- WL ED 483

Effective Semester: Summer 2013

English as a Second Language (ESL) Program Specialist and Leadership

Postbaccalaureate Credit Certificate Program

Karin Sprow Forté, D.Ed.
Penn State Harrisburg
777 West Harrisburg Pike
W331 Olmsted
Middletown, PA 17057
Phone: 717-948-6295
Fax: 717-948-6209
E-mail: kms588@psu.edu

The primary goal of the ESL Specialist and Leadership Certificate Program, a U.S. Department of Education, Office of English Language Acquisition (OELA), National Professional Development grant-funded program, is to prepare mainstream PreK-12 teachers to work effectively with English Language Learners (ELLs), their families, and communities. The curriculum includes: (1) legal, historical, and socio-cultural background and history of ELLs in the U.S.; (2) linguistics; (3) language acquisition; (4) ESL curricular, instructional, and assessment strategies and best practices; and (5) ESL instructional leadership, action research, and advocacy with ELL populations. The curriculum focuses on helping PreK-12 teachers do the following: (1) become ESL instructional leaders by learning, understanding, and incorporating curricular, instructional, and assessment strategies specifically tailored for ELLs; (2) learn to develop and implement ESL action research projects within their own classrooms; and (3) develop cultural competence, engage in active outreach, and become advocates for ELLs. Candidates are required to take all five courses (15 credits) in sequence.

An additional 1-credit field experience internship is required by the Pennsylvania Department of Education (PDE) to apply for the PDE ESL Program Specialist Certificate. Students who wish to apply for the PDE certificate must take the 1-credit internship along with the final course in the postbaccalaureate credit certificate program.

ADMISSION REQUIREMENTS

An entering candidate must hold either (1) a baccalaureate degree in education or a similar field from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree in education or a similar field that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. S/he must possess proof of valid teaching/instructional certification from the Pennsylvania Department of Education (PDE) or, in case of those transferring from other states, be in the process of obtaining certification as a highly qualified teacher. When applying for admission online applicants must submit a formal transcript with their previous higher education coursework, as well as proof of teacher certification. At a minimum, a GPA of 3.0 is expected at the baccalaureate level.

List of Courses Included in the Certificate:

EDUC 466: Foundations of Teaching English as a Second Language
EDUC 467: English Language Structure for English as a Second Language
EDUC 468: Language Acquisition for English as a Second Language
EDUC 469: Teaching Methods and Assessment of English as a Second Language
EDUC 475: ESL Leadership, Research and Advocacy

E-mail: sms20@psu.edu

The certificate in Family Literacy, based on a multidisciplinary approach to literacy instruction involving both adult educators and early childhood education and family literacy specialists, is intended for location-bound students who work in a variety of literacy-related settings, both formal and informal. These settings include public schools and preschools (teachers, teaching assistants, reading specialists), organizations such as Head Start and grant-funded family literacy programs. The goal of the certificate is to build the capacity of the field to provide high-quality, research-based instruction and program development in family literacy. The certificate consists of a 12-credit program delivered online through the World Campus. The program objectives include strengthening program effectiveness through developing an understanding of staff roles and responsibilities as part of a collaborative family literacy team and supporting a learner-centered approach to delivering program services.

Admission Requirements
Students must have a baccalaureate degree to enroll.

PRESCRIBED COURSES

ADULT EDUCATION (ADTED)

456. Introduction to Family Literacy (3)

E-Mail: pxs29@psu.edu

The purpose of the Family Nurse Practitioner certificate is to prepare individuals with a Master’s degree in Nursing seeking additional certification as a Family Nurse Practitioner. The curriculum includes the didactic and clinical courses required for application of the NP role and required for certification. The program of study is variable and may require a total of 33 credits. Some credits may be waived based on evaluation of transcripts and prior course completion.

Admission Requirements:
Applicants are required to have a Master’s degree in nursing from a NLNAC or CCNE accredited institution. In addition, undergraduate chemistry and statistics are required. Students need to submit two recommendations and official transcripts from all undergraduate and graduate programs.

List of Courses Included in the Certificate:
NURS 502(3), NURS 502A(1), NURS 503(3), NURS 504(3), NURS 870(3), NURS 871(3), NURS 872(3), NURS 873(4), NURS 874(6), NURS 875(2), NURS 878(2)

Financial Risk Management

Graduate Credit Certificate Program

Dr. Simon Pak
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone 610-725-5343
Fax 610-725-5224
Email sji14@psu.edu

The Finance faculty in the Master of Finance program at the School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) graduate certificate program in financial risk management.

Financial risk management involves identifying and quantifying risk exposure and controlling the risk exposure. This certificate program is designed to help prepare individuals to manage financial risk, including credit risk, market risk, interest rate risk, currency risk, and inflation risks using financial derivative instruments such as forwards, futures, swaps, and options. Course work emphasizes the development of competencies in the valuation of financial derivatives, fixed income securities, and quantitative methods in finance. Content is both theoretical and applied, with an emphasis on practical application of knowledge gained.

The program is ideal for individuals who wish to develop and expand their analytical, technical, evaluative, and communication skills and expertise in this particular area of finance. Individuals working or aspiring to work as financial risk managers and in related positions focusing on the area of derivatives and managing risk in organizations, including insurance companies, commercial and retail banks, asset management firms, and regulatory agencies, will find the program particularly valuable.

This certificate program is an attractive option for individuals who desire advanced education but who do not wish to pursue a master's degree at this time. It is valuable for recent college graduates and others who wish to enroll in courses to determine if they are interested in a complete master's degree program, as well as for professionals who already hold a master's degree and wish to update or expand their knowledge and skills. With program approval, the courses in this graduate certificate program may be applied to the Master of Finance degree program or the Master of Business Administration program at Great Valley.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average and should have satisfactorily completed some course work in Business Statistics, Financial Management/Corporate Finance, and Microeconomics.

Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 in previous graduate work. Professional experience will be taken into consideration for admission. Applicants should submit an online nondegree application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current résumé, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete at least two courses with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate program may be applied to the master's degree program in Finance or the Master of Business Administration program at Great Valley. Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email g.v.admiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, certificate courses completed with a B or better will be "transferred" into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate in financial risk management requires a total of four courses (12 graduate credits). Three of the courses are required (FIN 531, FIN 513, and BUSAD 525), and the fourth course is an elective selected from a list of two (BUSAD 527 or FIN 505). Students completing each of the four courses with a grade of B or better will be eligible to receive a graduate certificate. All courses are 3 graduate credits.

Prescribed Courses (9 credits)

Business Administration (BUSAD)
525. Quantitative Methods in Finance (3 credits)
Finance (FIN)
513. Speculative Markets (3 credits)
531. Financial Management (3 credits)
Elective Course: Choose one course from the following two (3 credits)
Business Administration (BUSAD)
527. Fixed Income Securities (3 credits)
Finance (FIN)
505. Multinational Managerial Finance (3 credits)

Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fills in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Folklore and Ethnography
Simon J. Bronner, Ph.D.
Penn State Harrisburg
American Studies Program
777 West Harrisburg Pike
Middletown, PA 17057
Phone: 717-948-6201
Fax: 717-948-6724
Email: amstd@psu.edu

This 15-credit graduate certificate program offered at Penn State Harrisburg provides students with skills and practices used in projects and institutions of folklore and ethnography, which include field/folk schools and other educational settings, festivals and arts councils, historical and heritage societies, community and cultural organizations and centers, archives and record management programs, governmental agencies, cultural conservation/sustainability groups, and media production companies. The Folklore and Ethnography certificate is awarded for successful completion of 9 credits of prescribed courses plus 6 credits of electives from an approved list of courses. Students must earn a grade of B or above in each course that counts toward the certificate program.

Admission Requirements:
An applicant must hold either a baccalaureate degree from a regionally accredited U.S. institution or a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

A candidate in the certificate program may also become a candidate in the M.A. and Ph.D. in American Studies, M.A. in Communications, or M.A. in Humanities if the candidate meets criteria for admission to the Graduate School and to the graduate program; however, successful completion of the certificate neither implies nor guarantees admission to a graduate program at Penn State. Students enrolled in these or other degree programs may apply credits earned toward the certificate as elective credits with program approval. Students enrolled in doctoral degree programs who desire to include the coursework toward the certificate in their programs are normally limited in their choices of electives to 500-level courses. Doctoral students should check with their program advisers on their program requirements. Up to 15 credits of coursework taken in nondegree status can count towards a graduate degree.

GPA REQUIREMENT
Applicants are expected to have 2.75 GPA or above in the last two years of undergraduate work in folklore, anthropology, sociology, American Studies, ethnic studies, history, communications, or other fields related to folklore and ethnography.

PRESCRIBED COURSES

**AMERICAN STUDIES (AM ST)**

- AM 530. TOPICS IN AMERICAN FOLKLORE (3)
- AM 531. MATERIAL CULTURE AND FOLKLIFE (3)
- AM 540. ETHNOGRAPHY AND SOCIETY (3)

In addition to the 9 credits of prescribed coursework, students must select 6 credits from the following list of elective courses.

**AMERICAN STUDIES (AM ST)**

- AM 422. (RL ST 422) RELIGION AND AMERICAN CULTURE (3 PER SEMESTER, MAXIMUM OF 6)
- AM 439. AMERICAN REGIONAL CULTURES (3-6)
- AM 448. (ANTH 448) ETHNOGRAPHY OF THE UNITED STATES (3)
- AM 480. MUSEUM STUDIES (3)
- AM 481. HISTORIC PRESERVATION (3)
- AM 482. PUBLIC HERITAGE (3)
- AM 483. ORAL HISTORY (3)
- AM 493. (ENGL 493) THE FOLKTALE IN AMERICAN LITERATURE (3)
- AM 550. SEMINAR IN PUBLIC HERITAGE (3)
- AM 551. SEMINAR IN LOCAL AND REGIONAL STUDIES (3)
- AM 592. FIELD EXPERIENCE IN AMERICAN STUDIES (3)
- AM 595. INTERNSHIP (1-12)

Substitution of topical courses and seminars with variable content related to folklore and ethnography for elective credits is possible with approval in advance from the certificate coordinator.

Effective Semester: Summer 2014
Expiration Semester: Spring 2019
The Postbaccalaureate Certificate Program in Geographic Information Systems (GIS) helps professionals in a variety of fields become knowledgeable and skillful users of geographic information systems. The program was designed specifically for experienced GIS practitioners who lack formal education in geography and GIS and wish to advance their careers, and for those who seek to make career changes. The program is offered through Penn State’s World Campus. Students earn the certificate by completing four instructor-led online courses -- three required and one elective. Students who successfully complete the program earn 11 academic credits (2 credits for the first course, 3 credits each for the rest). Students subsequently admitted to the Department of Geography’s Master of GIS degree program may count up to 15 credits of certificate program courses toward the MGIS degree.

Admission Requirements
Applicants must have received, from a regionally accredited institution, a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. Applicants from countries in which English is not the primary language must earn TOEFL scores of at least 550 for the paper test or 213 for the computer-based test.

PRESCRIBED COURSES
GEOGRAPHY (GEOG)
- 482. The Nature of Geographic Information (2)
- 483. Problem-Solving with GIS (3)
- 484. GIS Database Development (3)

ELECTIVES
Choose at least 3 credits from:
GEOGRAPHY (GEOG)
- 485. GIS Programming and Customization (3)
- 486. Cartography and Visualization (3)
- 487. Environmental Applications of GIS (3)
- 488. Acquiring and Integrating Geospatial Data (3)

Graduate courses carry numbers from 500 to 599 - 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
The purpose of the graduate certificate in Geodesign is to provide students with a foundation in geospatially-oriented design through investigating interdisciplinary methods and the collaborative nature of the Geodesign process. This program is for current or aspiring practitioners, from a variety of professional backgrounds, employed in government agencies, businesses, and non-profit organizations, who see limitations in how regional and urban planning and design challenges are currently addressed. The program is designed for professional practitioners who wish to advance their careers, and for those seeking to make career changes, while remaining in their current location or maintaining full-time professional responsibilities. The certificate consists of a five-course, 14-credit curriculum that can be completed in one year and is delivered online through the World Campus. Students must earn a "C" or better in each course that is intended to count toward the certificate.

Admission Requirements:
Individuals wishing to enroll in this graduate certificate program must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average. The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Required:
- GEODZ 511 (3 credits): Geodesign History, Theory, Principles
- GEODZ 822 (3 credits): Geodesign Models: Decision and Evaluation
- GEODZ 824 (3 credits): Geodesign Models: Impact and Process*
- OR
- GEODZ 826 (3 credits): Geodesign Models: Change and Representation*
* Students will take one of these two “Models” courses; placement is dependent on previous experience.

Electives:
In addition to the 9 required credits specified above, students must select at least 5 credits of GEOG courses at the 400 level or higher; courses must be approved in advance by the student's adviser. A list of acceptable electives is maintained by the program office.

Effective Semester: Summer 2013
Expiration Semester: Spring 2018

Geospatial Intelligence Applications

Postbaccalaureate Credit Certificate Program

Todd Bacastow
2217 Earth and Engineering Sciences Building
University Park, PA 16802
Telephone: 814-863-0049
Fax: 814-863-1564
E-mail: bacastow@psu.edu

The graduate credit certificate in Geospatial Intelligence Applications provides a foundation in geospatial intelligence for the aspiring professional who has little or no experience in geography, geographic information systems, and remote sensing. The program addresses the theory, methodologies, techniques, and ethics in the professional application of geospatial intelligence. The curriculum integrates geospatial information science and analytic thinking in a synergistic manner. All candidates must take 11 credits, which includes a 3-credit course in geographic fundamentals of geospatial intelligence, a 2-credit course in the nature of geographic information course and 6 credits of geospatial information science and technology courses.

Admission Requirements
An applicant for the postbaccalaureate certificate must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. An entering student must have worked, anticipates working, or completed in a satisfactory manner course work in an area related to international affairs, national security, law enforcement, or business. The student must be admitted to (1) Penn State’s Graduate School, and (2) the postbaccalaureate credit certificate in Geospatial Intelligence Applications offered by the department of Geography. Students interested in applying for admission to the Graduate Certificate in the Geospatial Intelligence Applications program should go to the World Campus web site:

http://www.worldcampus.psu.edu/degrees-and-certificates/geospatial-intelligence-applications-certificate/apply

The Geospatial Intelligence Program Admissions Committee reviews and ranks applications as they are received.

PRESCRIBED COURSES
GEOGRAPHY (GEOG)

480. Exploring Imagery and Elevation Data in GIS Applications (3)
482. The Nature of Geographic Information (2)
483. Problem-Solving with GIS (3)
882. Geographic Foundations of Geospatial Intelligence (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Spring 2014
Expiration Date: Fall 2018

Last Revised by the Department: Fall Semester 2013
Blue Sheet Item #: 42-02-061
Review Date: 10/08/2013

The Pennsylvania State University
The graduate credit certificate in Geospatial Intelligence Analytics is for geospatial intelligence professionals with experience in Geographic Information Systems and Remote Sensing who are only able to participate part-time and at a distance, while maintaining professional responsibilities. The program promotes sound theory, methodologies, techniques, ethics, and best practices in the professional application of geospatial intelligence. The 13-credit curriculum integrates the geospatial information science and intelligence disciplines in a synergistic manner. The program is well suited for the geospatial intelligence professional serving outside the continental US.

Admission Requirements
An applicant for the graduate certificate must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. An entering student must have worked, anticipates working, or completed in a satisfactory manner course work in an area related to national security, law enforcement, or business. The student must be admitted to (1) Penn State's Graduate School, and (2) the graduate certificate in Geospatial Intelligence Analytics offered by the department of Geography. To apply, the student completes a single online application that provides the necessary information to each organization. Students interested in applying for admission to the Graduate Certificate in the Geospatial Intelligence Analytics program should go to the World Campus web site: http://www.worldcampus.psu.edu/degrees-and-certificates/geospatial-intelligence-certificate/apply. The Geospatial Intelligence Program Admissions Committee reviews and ranks applications as they are received.

PRESCRIBED COURSES
GEOGRAPHY (GEOG)
594A. Culminating Experiences in Geospatial Intelligence (1)
882. Geographic Foundations of Geospatial Intelligence (3)
883. Remote Sensing for the Geospatial Intelligence Professional (3)
884. Geographic Information Systems for the Geospatial Intelligence Professional (3)

ELECTIVES
Choose at least 3 credits from the following list of courses:

GEOGRAPHY (GEOG)
480. Exploring Imagery and Elevation Data in GIS Applications (3)
482. The Nature of Geographic Information (2)
483. Problem Solving with GIS (3)
484. GIS Database Development (3)
485. GIS Programming and Customization (3)
486. Cartography and Visualization (3)
487. Environmental Applications of GIS (3)
488. Acquiring and Integrating Geospatial Data (3)
489. GIS Application Development (3)
583. Geospatial System Analysis and Design (3)
584. Geospatial Technology Project Management (3)
586. Geographical Information Analysis (3)
588. Planning GIS for Emergency Management (2)
861. Map Projections for Geospatial Professionals (1)
862. GPS and GNSS for Geospatial Professionals (3)
863. GIS Mashups for Geospatial Professionals (3)
885. Advanced Analytic Methods in Geospatial Intelligence (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Geriatric Nursing Education

Graduate Credit Certificate Program
Dr. Ann Kolanowski
School of Nursing
106 Health and Human Development East
Phone: 814-863-9901
Fax: 814-865-6625
E-mail: amk20@psu.edu

In conjunction with the Hartford Center of Geriatric Nursing Excellence, the Penn State School of Nursing offers a Geriatric Nursing Education Graduate Certificate program. The primary goal of the program is to prepare individuals with a current Master’s degree in Nursing or a related health discipline to teach geriatric content at both the Associate and Baccalaureate degree levels. The curriculum includes 6 credits (two 3 credit courses) of didactic content in gerontology and 6 credits (two 3 credit courses) of didactic content in education. All four courses will be delivered using distance technology, and are currently available through the World Campus.

The Geriatric Nursing Education certificate program consists of four graduate-level courses (12 credits).

Admission Requirements
Applicants must hold a Master’s degree in nursing or a related health discipline from a U.S. regionally accredited institution, or a Master’s degree that is equivalent to a U.S. Master’s degree from an officially recognized degree-granting international institution. The credit conditions for the Masters degree must be substantially equivalent to those required by Penn State’s Master’s degree programs in nursing or related health disciplines. Copies of all undergraduate and graduate degree transcripts must accompany the application.

Prior to an applicant’s admission, transcripts are evaluated by the Director of the Hartford Center in collaboration with the admissions committee to ascertain the applicant’s potential for successful completion of the core nursing courses. A recommendation regarding admission is discussed with the Associate Dean for Graduate Education prior to making an offer of admission to this certificate program.

PRESCRIBED COURSES

NURSING (NURS)
522. Comprehensive Assessment of the Older Adult (3)
523. Interventions for Common Health Problems of the Older Adult (3)

ADULT EDUCATION (ADTED)
460. Introduction to Adult Education (3) AND
506. Program Planning in Adult Education (3) OR
507. Research and Evaluation in Adult Education (3)

OR

NURSING (NURS)
840. Nursing Education Theories and Strategies (3) AND
841. Assessment and Evaluation in Nursing Education (3) OR
842. Curriculum and Program Development in Nursing Education (3)

To be awarded the Graduate Certificate in Geriatric Nursing Education, students must successfully complete

NURS 522, NURS 523, ADTED 460, and ADTED 506 or ADTED 507

- OR -

NURS 522, NURS 523, NURS 840 and NURS 841 or NURS 842

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The Pennsylvania State University
Health Sector Management

Graduate Credit Certificate Program

Dr. Janice L. Dreachslin
The School of Graduate Professional Studies
Penn State Great Valley
30 E. Swedesford Road
Malvern, PA 19355
Phone 610-648-3269
Fax 610-725-5224
E-Mail jld13@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four-course (12-credit) Graduate Certificate program in Health Sector Management.

The program is designed to provide preparation for individuals who work or aspire to work in the health sector as administrators, managers, physicians, nurses, pharmacists, policy makers, and other health sector professionals. The program is designed to respond to the needs of professionals in health care provider organizations, third-party payors, biopharmaceutical organizations, and other organizations whose business is focused on the health sector including information technology, medical devices, benefits management, clinical research organizations, and consulting firms.

The curriculum emphasizes development of the knowledge, skills, and abilities necessary to understand and influence the dynamics of the health sector's business environment. The curriculum's broad focus considers business issues from the vantage points of multiple stakeholders to prepare students with a comprehensive understanding of the health sector. The program is designed to help students build a distinctive competence in health sector management that is relevant not only to managers and professionals employed by payor and provider organizations but also for those employed by biopharmaceutical, medical device, information technology, and other organizations that comprise the health sector. Required course work emphasizes the key dimensions of policy, financing, and organization in the health sector; critical analysis of current issues that health sector organizations face; as well as legal and ethical dimensions of decision making in the health sector. The cost, quality, access paradigm serves as an over-arching framework for study of current issues in the health sector including commercialization of biopharmaceuticals, information technology (IT) solutions, marketing, regulation, and quality improvement.

Content is grounded in research and best demonstrated practice and is both theoretical and applied, with an emphasis on practical application of knowledge gained.

This certificate program is attractive to individuals who desire advanced education in health sector management but who do not wish to pursue a master's degree at this time and, as well as those interested in pursuing specialized knowledge of health sector management concurrent with a graduate degree program.

With program approval, the courses in this graduate certificate program may be applied to the Master of Business Administration program at Great Valley or, in the case of two courses in the certificate program (BUSAD 530 and BUSAD 534), to the Master of Leadership Development (MLD) program. This graduate certificate program also is valuable for individuals who already hold a master's degree and wish to update or expand their knowledge and skills.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution.

Applicants are expected to have achieved a 3.0 (B) or higher undergraduate grade point average. Applicants holding a master's degree or doctoral degree should have attained at least a cumulative grade point average of 3.0 (B) in previous graduate work. Professional experience will be taken into consideration for admission.

Applicants should submit an online nondegree certificate application, available at http://www.gradsch.psu.edu/portal/gateway.html and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current resume, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate may be applied to the Great Valley MBA, and two courses (BUSAD 530 and BUSAD 534) may be applied to the Great Valley Master of Leadership Development program.

- Certificate program students who wish to have the certificate courses applied to a master's degree program must formally be admitted to the master's degree program. Admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (telephone 610-648-3242 or email gvsmiss@psu.edu) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to a master's degree program and enrolls on a degree basis, certificate courses completed with a grade of B or better will be "transferred" into the program. Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate department.
- Students who are already enrolled at Penn State in a master's degree program must make a new, separate online application to the certificate program. Certificate program courses will only apply to their master's program with adviser approval. Courses applied to the student's master's degree program must be completed with a grade of "B" or better.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission.

Curriculum

The graduate certificate program in health sector management requires a total of four 3-credit courses (12 graduate credits) as outlined below. One course is required (BUSAD 530), and three courses are electives selected from a list of four courses (BUSAD 534, 578; 835; H P A 836). Students completing each of the four 3-credit courses with a grade of B or better will be eligible to receive a graduate certificate.

Required Course (3 credits)

Business Administration (BUSAD)

530. Biotechnology and Health Industry Overview

Elective Courses (9 credits) (Choose 3 from the following 4 courses):

Business Administration (BUSAD)

534. Ethical Dimensions of Management in the Biotechnology and Health Industries
578. Managing Business Processes
835. Commercialization of Biopharmaceuticals
Health Policy and Administration (H P A)
836. Health Law

The Pennsylvania State University
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Human Resources and Employment Relations (HRER)

Graduate Credit Certificate Program

Dr. Paul F Clark
003 Keller Building
University Park, PA 16802
Telephone: (814)865-5425
Fax: (814)867-4169
E-Mail: pfc2@psu.edu

The program is designed for professionals who desire further education in the specialized field of Human Resources and Employment Relations (HRER) without completing a full master's degree. Many professionals and recent graduates believe they need further education beyond their bachelor's degree for personal and professional development and to compete effectively in the labor market for HRER practitioners. The certificate program provides flexibility for working professionals and advanced knowledge in the rapidly changing field of HRER in many areas, including: dispute management and resolution, workplace diversity, work and family, trends in human resources, and technology and the workplace. Upon successful completion of the certificate program, students may opt to apply for the master's degree in HRER.

Students must complete 9 credits.

Admission Requirements:
Admission to the program does not assume former knowledge of the field of HRER. An applicant must have received a valid bachelor's degree from a regionally accredited institution and have two years of full-time professional work experience. The following documentation must be submitted for evaluation prior to admission:

- A valid transcript demonstrating graduation from a baccalaureate degree program
- A one-page statement of purpose, focusing on educational and professional objectives
- A resume

List of Courses Included in the Certificate:

HUMAN RESOURCES AND EMPLOYMENT RELATIONS (HRER)

504. Seminar in Employment Relations (3)
505. Seminar in Human Resources (3)
Select One Elective from the Course List below:

500. Topics in Comparative Industrial Relations (3)
501. Labor and Employment Law (3)
502. Organizations in the Workplace (3)
512. Research Methods in Human Resources and Employment Relations I (3)
513. Research Methods in Human Resources and Employment Relations II (3)
516. Labor Market Analysis (3)
536. Diversity in the Workplace (3)

Human Resource Management (HRMT)

The goal of this graduate certificate program is to prepare students to make managerial decisions that integrate HR strategies and practices with organizational strategy in order to improve business performance. To be awarded the Graduate Certificate in Human Resource Management, students must successfully complete 15 credits of course work. All courses must be completed with a grade of C or better and a grade-point average of 3.0 to be awarded the certificate.

Admission Requirements:

Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. The successful applicant is generally expected to have a minimum combined junior/senior grade-point average of 3.0 (B) on a 4.0 scale.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Required course (3 credits)*

MGMT 541 Human Resource Management

* Students who already have completed a graduate-level course that provides a comprehensive overview of the HR function in organizations and an in-depth examination of the strategic planning and implementation of HRM, as determined in advance by the head of the certificate program, may be permitted to waive this course if completed within five years prior to admission.

Elective courses (12 credits: select one course from each of the following four categories; each course listed is worth 3 credits.)

With advance approval of the head of the certificate program and the instructor, special topics courses and online graduate courses that are particularly relevant to the categories listed below may be used to satisfy certificate requirements.

Category 1: Internal Consulting

ACCTG 524 Managerial Accounting**
BUSAD 523 Prices and Markets
BUSAD 578 Managing Business Processes
HRER 516 Labor Market Analysis
HRER 816 Labor Market Analysis

Category 2: Organizational Development & Change

BUSAD Developing Creative High Performance
519/LEAD 519 Organizations
BUSAD 545 Negotiation Strategies
BUSAD 555/LEAD 555 Full Range Leadership Development
BUSAD 558 Knowledge Management
LEAD 562 Strategic Leadership
MGMT 501 Behavioral Science in Business
MGMT 523 Organizational Change: Theory and Practice

Category 3: Globalization

BUSAD 542 Global Intercultural Management
BUSAD 556/LEAD 556 Diversity Leadership
HRER 800 International and Comparative Employment Relations

Category 4: Current Topics in Human Resources

BUSAD 534 Ethical Dimensions of Management in the
Biotechnology and Health Industry
BUSAD 551 Business, Ethics, and Society
BUSAD 559 Career Management
BUSAD 802 Cornerstone of Sustainability
** This course has prerequisites or requires demonstration of prior preparation in a subject area. Please contact the management division at Penn State Great Valley prior to registering for this course.

Expiration Semester: Spring 2019  

Last Revised by the Department: Fall Semester 2014  
Blue Sheet Item #: 43-03-000  
Review Date: 10/7/2014
This 12-credit graduate certificate program is designed to provide students interested in the subject with a certificate to demonstrate knowledge of the Homeland Security enterprise. Students will learn about the major legislation shaping homeland security policy, the interaction of key actors needed for successful homeland security, and applications to the Commonwealth of Pennsylvania.

The certificate program is an attractive option for those who desire advanced education but do not wish a full Master's Degree program. It is also an attractive option for students who might wish to take a certificate to determine if they are interested in a complete degree program. For students in the intercollege Master of Professional Studies (i-MPS) in Homeland Security, this would provide an additional credential. Finally, this certificate features classes that could serve as electives for current students at Penn State.

The curriculum consists of four required courses: P ADM 401 (Foundations of Homeland Security), P ADM 404 (Homeland Security and Defense in Practice), P ADM 802 (Collaboration and Integration: Multifaceted Approaches to Homeland Security), P ADM 803 (Strategic Planning and Organizational Imperatives in Homeland Defense and Security). Students must have an average grade of B (3.0) or above in order to be awarded the certificate.

Admission Requirements
An applicant must hold either a baccalaureate degree from a regionally accredited U.S. institution or a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants are expected to have a 3.0 or higher GPA in their undergraduate work.

PRESCRIBED COURSES:
12 credits

PUBLIC ADMINISTRATION (P ADM)
- 401. Introduction to Homeland Security (3)
- 404. Homeland Security and Defense in Practice (3)
- 802. Multifaceted Approaches to Homeland Security (3)
- 803. Strategic Planning and Organizational Imperatives in Homeland Defense and Security (3)

E-mail: axr32@psu.edu

Individuals involved in the design and development of products for human use will find the program content immediately applicable to their job. With an emphasis on the application of user engineering design principles, the tools and methods to assess and enhance quality and productivity for both consumers and employees are provided. Applications include medical devices, consumer products, military systems, software design and the workplace. The program is comprised of three courses from the Penn State curriculum. These courses provide students with both a breadth and depth in their exposure to user engineering tools and principles.

Admission Requirements

An applicant must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution. Graduates in engineering, physical sciences, and mathematics who present a 3.0 grade-point average will be considered for admission. International students must satisfy the Graduate School's English language requirement. Professional experience will be taken into consideration for admission. Exceptions to the minimum 3.0 grade-point average may be made for students with special backgrounds, abilities, and interests.

GRE scores are not required for nondegree graduate students. Individuals who wish to apply to the graduate degree program in Industrial Engineering must submit an application for admission, along with all of the required supporting documentation, including GRE scores. Completion of a graduate credit certificate at Penn State does not imply or guarantee admission to a graduate degree program.

PRESCRIBED COURSES (9 credits)

INDUSTRIAL ENGINEERING (I E)

- 479. Human Centered Product Design and Innovation (3)
- 553. Engineering of Human Work (3)
- 558. Engineering of Cognitive Work (3)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

PO Box 855
Hershey, PA 17033-0855
Phone: 717-531-1258
Email: khk2@psu.edu

The primary goal of the certificate is to provide a formal, structured program that allows medical and health care professionals to enhance a successful career in translational science. The curriculum includes courses in 5 specific translational science clusters. Candidates are required to complete 15 credits, including a 10-credit core of required 500-level courses and 5 elective credits at the 500 level. Courses must be selected from the detailed curriculum, or by permission in advance from the certificate director. Courses are available at the Hershey, University Park, and World campuses, enabling the student to continue employment activities. Candidates must obtain a grade of B or better in each course.

Admission Requirements:
For admission to the certificate program, an applicant must hold either:
(1) a baccalaureate degree from a regionally accredited U.S. institution, or
(2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Additionally, all international applicants must meet the Graduate Council English proficiency requirements.

List of Courses Included in the Certificate: 10 credits
PHS 520 (3) or H P A 528 (3) or STAT 500 (3) or STAT 501 (3);
and
PHS 550 (3) or H P A 540 (3) OR STAT 507 (3);

International Human Resources and Employment Relations

Graduate Credit Certificate Program

Antone Aboud
506 Keller Building
University Park, PA 16802
Phone: 814-865-5425
Fax: 814-867-4169
E-mail: aja19@psu.edu

This 12 credit program is designed to provide HR practitioners and those with an interest in global HR business practices with a comprehensive understanding of the law, policy and best practices necessary for effective management of global human resources, employment relations and labor relations responsibilities. All courses must be completed with a grade of C or better and a grade-point average of 3.0 to be awarded the certificate.

ADMISSION REQUIREMENTS

Admission to the certificate program will require: (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

- Applications admitted into the certificate program must have a 3.0 grade-point average in the last two years of undergraduate work. This requirement may be waived in exceptional circumstances;
- All applicants submit an application (including payment of the application fee), resume, and personal statement addressing their reasons for pursuing a certificate in international human resources and employment relations;
- Applicants must have two (2) years of full-time work experience (excludes part-time jobs and internships);
- The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum acceptable composite score of the IELTS is 6.5;
- International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

LIST OF COURSES INCLUDED IN THE CERTIFICATE

LER 403. International Human Resource Studies
HRER 803. Human Resources in Multinational Enterprises
HRER 801. Comparative and International Labor and Employment Law
LER 400. Comparative Employment Relations Systems

Effective Date: Spring Semester 2016
Expiration Date: Summer Session 2021
Institutional Research

Graduate Credit Certificate Program
Frederick D. Loomis, Associate Professor and Coordinator
Center for the Study of Higher Education

Fax: 814-865-8367
E-mail: fdl101@psu.edu

The primary goal of the program is to improve the skills of institutional researchers on college and university campuses. The curriculum includes research design, assessment and evaluation of student and faculty issues, and the integration of strategic planning with institutional finance. All candidates are required to take 15 credits of coursework in Higher Education including HI ED 801: Foundations of Institutional Research, and HI ED 830: Designing Institutional Research Studies. Students may include up to 6 credits in statistics as part of their program of study for the Institutional Research certificate.

Admission Requirements
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students are expected to have prior knowledge of introductory statistics.

PRESCRIBED COURSES

HIGHER EDUCATION (HI ED)
- 801. Foundations of Institutional Research (3)
- 830. Designing Institutional Research Studies (3)

ELECTIVES (select three)

HIGHER EDUCATION (HI ED)
- 552. Administration in Higher Education (3)
- 556. Higher Education Students and Clientele (3)
- 595. Internship in Higher Education (3)
- 596. Individual Studies (3)
- 810. Planning and Resource Management in Higher Education (3)
- 820. Studying Students and Student Affairs Programs (3)
- 840. Assessing Student Outcomes and Evaluating Academic Programs (3)
- 850. Analyzing Faculty Workload, Performance, and Compensation (3)
- 860. Conducting Enrollment Management Studies (3)

STATISTICS (STAT)
- 500. Applied Statistics (3)
- 501. Regression Methods (3)

International Affairs

Graduate Credit Certificate Program

Dr. Tiyanjana Maluwa
Lewis Katz Building
(814) 863-0788
admissions@sia.psu.edu

This program provides students, professionals, and others with an accessible, professional education in the rapidly evolving field of international affairs. The certificate builds career options in international relations, public policy, intelligence, defense policy, military affairs, counterterrorism, diplomacy, international organizations, law enforcement, international business, international law, international education, or economic development.

The 15-credit program offers a unique balance of academic study, hands-on training, and professional development; it includes 12 credits of core courses (9 required and 3 elective credits) and 3 broader elective credits. All courses must be taken for a letter grade with at least a 3.0 grade-point average maintained; no grades below a C will be counted toward the certificate.

Admission Requirements:

Admission to the certificate program will require: (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

All applicants submit an application (including payment of the application fee), two letters of recommendation, and a personal statement addressing their reasons for pursuing a certificate in international affairs and discussing their plans and goals.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

List of Courses Included in the Certificate:

REQUIRED CORE COURSES (9 credits):
INTAF 802 - Foundations of Diplomacy and International Relations Theory
INTAF 804 - Global Cultures and Leadership

ELECTIVE CORE COURSE (Select 3 credits):
INTAF 801 - Actors, Institutions, and Legal Frameworks in International Affairs
INTAF 803 - Multi-sector and Quantitative Analysis
INTAF 590 - International Affairs Colloquium

ADDITIONAL ELECTIVE COURSES (3 credits):
Select 3 INTAF credits at the graduate (500 or 800) level.

A complete list of potential elective courses will be maintained by the head of the certificate program and will be available from the program office. With approval in advance from the adviser, a student may be permitted to use another graduate course to fulfill this elective requirement.

Effective Semester: Fall 2015
Expiration Semester: Spring 2020

The Pennsylvania State University
Principalship

Graduate Credit Certificate Program
Ronald Musoleno, Associate Professor of Education
204B Rackley Building
University Park, PA 16802
Phone: 814-863-5923
Email: rrm18@psu.edu

The goal of the program is to prepare students to apply for principal certification by earning 18 credits in Educational Leadership coursework. Successful completion of coursework required for the iPrin Certificate partially fulfills Pennsylvania Department of Education (PDE) requirements for principal certification. This curriculum has been approved by PDE. Note that some states have reciprocity with Pennsylvania and may recognize completion of course work leading to certification. A U.S. student should check first with their state about reciprocity before applying to the certificate program. International students can enhance their professional credentials by earning the certificate and may be qualified to manage and lead a U.S.-based school overseas. Students must maintain a minimum GPA of 3.0 for courses counting toward the certificate.

Admission Requirements:
For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Required Courses:
EDLR 559 School Improvement (3)
EDLR 560 (C & S 560) Principles of Instructional Supervision (3)
EDLR 568 The Principalship (3)
EDLR 576 The Law and Education (3)
EDLR 579 Financial Management for Schools (3)
EDLR 595A Principal Internship (3)

Information Systems Cybersecurity

Postbaccalaureate Credit Certificate Program

Lead Certificate Chair:
Carleen Maitland
Interim Associate Dean for Undergraduate and Graduate Education
cfm12@psu.edu
814-865-3450

This postbaccalaureate certificate program is designed to provide students with both a breadth and depth of training in information cybersecurity. The certificate will enable those completing the program to market to academic institutions, government, and technology-based businesses.

Students will be exposed to principles, models, tools, and applications in information security that specifically focus on network security, security and risk management, digital forensics, crisis and disaster management, and web security and privacy. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option not only for those who desire advanced education but do not wish a full Master’s degree program, but also for students who might wish to take a certificate to determine if they are interested in a complete postbaccalaureate degree program in Information Sciences and Technology (IST). Up to 15 credits of coursework taken in non-degree status can count toward a graduate degree in IST; however, successful completion of a certificate neither implies nor guarantees acceptance to a graduate degree program at Penn State.

To be awarded the certificate, students must successfully complete 15 credits of course work as detailed below. A 3.0 GPA must be obtained in order to successfully complete the certificate.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A bachelor’s degree in a related area (e.g., engineering and science), while not necessary for admission, is helpful in the successful completion of the certificate. It is expected that students will have a basic level of competency in computer language and information technology (related work experience can be used to demonstrate such competency). International students must satisfy the Graduate Council English proficiency requirement.

GRE scores are not required for nondegree graduate students.

Required Courses (6 credits)

IST 815. Information Security and Assurance (3 cr.)
IST 554. Network Management and Security (3 cr.)

Elective Courses (In addition to the required courses, select 9 credits from the following courses or other courses as approved by the head of the certificate program.)

IST 451. Network Security (3 cr.)
IST 454. Computer and Cyber Forensics (3 cr.)
IST 456. Security and Risk Management (3 cr.)
IST 564. Crisis, Disaster, and Risk Management (3 cr.)
IN SC 581. Web Security and Privacy (3 cr.)

INFORMATION SCIENCES AND TECHNOLOGY (IST) course list

Effective Date: Summer 2014
Expiration Date: Spring 2017
The purpose of this program is to prepare engineers to integrate laser-materials processing into the concurrent design and manufacture of multi-scale components and systems of the future. Its objective is to offer a multidisciplinary curriculum drawing upon the strengths of several engineering departments and the Applied Research Laboratory. To be awarded the Laser-Materials Processing and Laser-Based Manufacturing Certificate, students must successfully complete with a B or higher 12 credits of graduate course work, including E SC 540 and three of the following 3-credit courses: E SC 541, E SC 542, E SC 543, or E SC 544.

Admission Requirements:
Applicants must have received either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Graduates in engineering, the sciences, or medicine who present a 3.0 grade-point average will be considered for admission. Exceptions to the minimum 3.00 GPA may be made for students with professional experience, special backgrounds, abilities, and interests.

International applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

GRE scores are not required for non-degree graduate students. Individuals who wish to apply to the graduate degree program in Engineering Science and Mechanics must submit a separate Graduate School admission application, along with all of the required supporting documentation, including GRE scores. Successful completion of the certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

List of Courses Included in the Certificate:
Required (3 credits):
E SC 540 Laser Optics Fundamentals (3)

Electives (9 credits):
E SC 541 Laser-Materials Interactions (3)
E SC 542 Laser-Integrated Manufacturing (3)
E SC 543 Laser Microprocessing (3)
E SC 544 Laser Laboratory (3)

Literacy Strategies Across Content and Cultures

Graduate Certificate Program

Dr. Ravinder Koul
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone: 610-725-5250
Fax: 610-725-5253
E-mail: rxk141@psu.edu

The School of Graduate Professional Studies offers a three-course (9-credit) Graduate Certificate program in Literacy Strategies Across Content and Cultures. This program is designed for K-12 teachers of all disciplines and focuses on strategies for encouraging effective reading, writing, speaking, and thinking while teaching new concepts and linking prior knowledge. Attention is given to how culture and gender inform and influence learning and how to use these differences to enhance the learning experience.

In each content area, teachers will develop specific approaches to helping K-12 students learn to read better, write expressively, speak effectively, and think critically within and across content areas. The courses that comprise this certificate program have been selected from the graduate program in Curriculum and Instruction with an emphasis in Literacy and are regularly offered at Penn State Great Valley. Course content provides a balanced mix of theory, research and practical application in the topics. Students who complete the program with at least a 3.0 (B) average receive the Graduate Certificate in Literacy Strategies Across Content and Cultures.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must have a requisite combination of education and classroom teaching experience. They must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. They also should hold an Instructional I Certification. Individuals who do not hold the Instructional I Certification should contact an adviser about enrollment options.

Applicants should submit an online nondegree application and fee and, upon approval, will enroll in course work on a nondegree basis. For more information about how to apply on a nondegree basis, refer to http://gradsch.psu.edu/prospective/apply.html. The program may be started in the fall, spring, or summer semesters.

With adviser approval, all three courses in the certificate program may be applied to the master's degree program offered through the School of Curriculum and Instruction.

Certificate program students who wish to have the certificate courses applied to the master's degree program in C I must formally be admitted to the master's degree program. Note that admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (610-648-3242) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, certificate courses completed with a "B" or better will be "transferred" into the program.

Up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree program at Penn State. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

Required Courses (6 credits)

LANGUAGE AND LITERACY EDUCATION (LL ED)

501. Teaching Writing in Elementary and Secondary Schools (3 cr.)
541. Adolescent and Children's Literature Related to Ethnic and Social Issues (3 cr.)

Elective Course: Choose one course from the following two (3 credits)

LANGUAGE AND LITERACY EDUCATION (LL ED)

450. Content Area Reading (3 cr.)
500. The Reading and Writing Classroom (3 cr.)

Graduate courses carry numbers from 500 to 599. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirement when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

LANGUAGE AND LITERACY EDUCATION (LL ED) course list

Effective Date: Summer Session 2009
Expiration Date: Spring Semester 2014

Long-Term Care Administration and Policy

Graduate Credit Certificate Program

Dr. Steven A. Peterson
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4988
Phone: 717-948-6154
Fax: 717-948-6484
email: sap12@psu.edu

The Health Administration program at Penn State Harrisburg offers a Long-Term Care Administration and Policy graduate credit certificate program. This certificate program is designed for working long-term care administrators, professionals, and policy makers in for-profit, not-for-profit, and public organizations who need more knowledge and skills in long-term care administration and policy, as well as in long-term care systems and their relationship to and integration with health-care systems. Persons completing the program will receive a transcript notation attesting to their accomplishment.

The Long-Term Care Administration and Policy graduate credit certificate program consists of four Health Administration (H ADM) graduate-level courses (12 credits).

Admission Requirements

Applicants for the certificate program must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Additionally, applicants must have at least three years of professional experience.

All prospective graduate credit certificate students must apply using the Graduate School’s certificate application. Copies of all undergraduate and graduate degree transcripts must accompany the application.

Applicants admitted into the certificate program must have a master's degree or a 3.0 grade-point average in the last two years of undergraduate work. This requirement may be waived in exceptional circumstances. All courses must be taken for a letter grade. A 3.0 grade-point average in the certificate program courses is needed for the awarding of the certificate, and only grades of C or better will be counted toward the certificate.

If an applicant to the certificate program already holds a graduate degree in health care administration or a related field and has taken graduate courses that duplicate the content of courses in the certificate program, he or she may substitute other H ADM courses for those redundant courses with the prior approval of the person in charge.

PREScribed COURSES

HEALTH ADMINISTRATION (H ADM)

- 542. Health Politics and Policy (3)
- 543. Long-Term Care Administration and Policy (3)
- 545. Health Financial Management (3)

ELECTive COURSES (select one)

HEALTH ADMINISTRATION (H ADM)

- 539. Health Systems Organization (3)
- 551. Health Care Law (3)
- 552. Health Delivery Systems: Managed Care (3)

The Pennsylvania State University
Adult Education in the Health and Medical Professions

Graduate Credit Certificate Program

Dr. Elizabeth Tisdell
Dr. Edward W. Taylor
W330 Olmsted, Penn State Harrisburg
Phone: 717-948-6640
Fax: 717-948-6064
E-mail: ejt11@psu.edu; ewt1@psu.edu

The primary goal of the Graduate Certificate in Adult Education in the Health and Medical Professions is to assist medical/health professionals in increasing their knowledge and competence in educating adult learners in medical education/health science settings.

The objectives are to promote: awareness of how learning theory informs practice; effective methods for teaching adults; development of a reflective practice; understanding of program/instructional design.

Candidates are required to take 12 graduate credits, including the 9-credit core of three required classes and one other advisor-approved 3-credit graduate course related to the candidate’s specific area of interest. The required classes, in which assignments will relate to health/medical education issues, are:

ADTED 460: Introduction to Adult Education
ADTED 501: Foundations of Medical Education
ADTED 505: Teaching of Adults

The 3-credit graduate elective will be related to the candidate’s specific interest in medical/health education.

ADMISSION REQUIREMENTS

U.S. applicants must have a baccalaureate degree from a regionally accredited institution. International applicants must have a tertiary (post secondary) degree that is deemed comparable to a four-year U.S. bachelor’s degree. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Additionally, all international applicants must meet the Graduate School’s English proficiency requirements.

Applicants must submit the following materials:
* A one-page resume
* A statement describing professional goals, experience, and responsibilities (2 pages maximum)
* One letter of recommendation
* Official transcripts for all undergraduate and graduate programs previously attended.

LIST OF COURSES INCLUDED IN THE CERTIFICATE

The three required classes include the following and assumes that the candidate would relate a part of their papers or assignments to the areas of health or medical education:

ADTED 460: Introduction to Adult Education
ADTED 501: Foundations of Medical Education
ADTED 505: Teaching of Adults

The 3-credit graduate elective will be related to the candidate’s particular interest related to health or medical education, and could include other graduate courses in the Adult Education Program or another related area.

The Pennsylvania State University
Nanotechnology Systems and Device Development

Graduate Credit Certificate Program

Victor Pasko
121 Electrical Engineering East
University Park, PA 16802
Phone: 814-865-3467
Email: vpp1@psu.edu

The goal of the program is to prepare students to develop nanotechnology-enabled components, including wearable systems for simultaneously monitoring the medical condition of the wearer and the surrounding environment. The monitored data is transmitted in real time to a local base station (e.g. smartphone) that forwards it to a remote facility for further processing and action decisions. The ultimate purpose of these systems includes medical monitoring for diagnosis of environmentally related diseases, environmental monitoring to warn that the local environment contains allergens or other factors to be avoided. The exact course selection shall be determined in advance by the student and the student’s adviser following the guidelines below. Students shall provide written input to their adviser describing proposed course(s) and how the courses will contribute to the requirements of the certificate. Students must receive a C or better in each course included for the certificate, and must achieve an overall 3.0 GPA for the certificate courses.

Admission Requirements:
An applicant for this graduate certificate must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Ordinarily, an entering student must have completed in a satisfactory manner a minimum of course work in an Engineering or Science discipline that is equivalent to a Penn State major in those areas. Applicants must have a 3.0 or higher undergraduate GPA. International students must satisfy Graduate Council’s English proficiency requirements.

List of Courses Included in the Certificate:
The certificate requires a minimum of 12 credits, as described below. At least 50% of the total number of credits must be taken at the 500 level.

Required:
3 credits from the following list:
- E E 442. Solid State Devices (3)
- E E 441. Semiconductor Integrated Circuit Technology (3)
- E E 542. Semiconductor Devices (3)
- MATSE 413. Solid State materials (3)
- MATSE 510. Surface Characterization of Materials (3)

3 credits from the following list:
- E E 541. Manufacturing Methods in Microelectronics (3)
- E SC 481. Elements of Nano/Micro-electromechanical Systems Processing and Design (3)
- E SC 577. Engineered Thin Films (3)
- MATSE 450/E SC 450. Synthesis and Processing of Electronic and Photonic Materials (3)

At least 2 credits from the following list:
- ENGR 486. Business Opportunities in Engineering (2)
- ENGR 411. Entrepreneurship Business Basics (3)
- ENTR 430. Entrepreneurship and New Product Development (3)

Electives:
The balance of the required credits shall be determined in advance by the student and his/her graduate adviser. Examples of acceptable courses (a current list of potential elective courses will be maintained by and available from the head of the certificate program):
- E E 546. Field-Effect Devices (3)
- E SC 482. Micro-Optoelectromechanical Systems (MOEMS) and Nanophotonics (3)
- E SC 484. Biologically Inspired Nanomaterials (3)
- MATSE. 400 Crystal Chemistry (3)
- MATSE 483/E SC 483. Simulation and Design of Nanostructures (3)
- MATSE 511B. Transmission Electron microscopy (1)
- MATSE 514. Characterization of Materials (3)

email: tbv1@psu.edu

The graduate credit certificate program in Nonprofit Administration is offered by the graduate program in Public Administration at Penn State Harrisburg. The certificate is designed for administrators and professionals in government and not-for-profit organizations who need to acquire additional knowledge and skills in the following areas:

- Management of nonprofit organizations and leadership
- In-depth understanding of nonprofit organizations’ evolution, current operation, and future direction
- Understanding of finance, taxation, and competition that affect an organization’s future
- Working in the nonprofit sector

Admission Requirements

1. An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.
2. Applicants must have a GPA of 3.0 in the last two years of undergraduate work.
3. Applicant must have at least two years of managerial or administrative experience in the nonprofit sector.

Participants will apply to the program by completing the online Graduate School certificate application, including payment of the application fee, and will earn the certificate upon successful completion of the three required courses and one elective course (12 credits). All courses must be taken for a letter grade with at least a 3.0 average maintained; no grades below a C will be counted toward the certificate.

If a student who is already enrolled in a graduate degree program wishes to enroll in this graduate credit certificate program as well, he/she must do so by completing the online certificate application and paying the application fee.

Students who are already enrolled in the Public Administration degree program at Penn State Harrisburg must complete a “Notice of Intent” form as well in order to enroll in the certificate program. These students can choose elective courses for their MPA degree program in accordance with the requirements of the certificate program in order to earn the certificate in Nonprofit Administration.

The certificate program consists of four graduate courses (12 credits). All courses must be at the 500 level. Students are required to take three required courses and one elective course of their choice.

PRESCRIBED COURSES

PUBLIC ADMINISTRATION (P ADM)

- 517. Nonprofit Organizations: History and Evolution (3)
- 518. Nonprofit Organizations: Management and Leadership (3)
- 519. Nonprofit Organizations: Resource Development and Management (3)

Elective Courses: (choose one)

Students are required to take one elective 3-credit course. Students are free to choose any 3-credit course at the 500 level that is relevant to their interest. Following is the suggested list of courses from which students can choose.

PUBLIC ADMINISTRATION (P ADM)

- 510. Organization
- 514. Public Organization and Managerial Consultation
- 516. Strategic Planning
- 522. Government Financial Management
- 523. Governmental and Nonprofit Accounting
- 550. Program Planning and Evaluation

The Pennsylvania State University
Nurse Administrator

Graduate Credit Certificate Program

Dr. Janet Fogg
College of Nursing
203 Health & Human Development East
University Park, PA 16802
Phone: 814-863-2211
Email: jef13@psu.edu

The purpose of the Nurse Administrator graduate credit certificate is to prepare nurses with a baccalaureate or higher degree in Nursing for certification as a nurse administrator. The certificate requires completion of three 3-credit graduate-level nurse administrator didactic courses (9 credits); an optional practicum course (4 credits) is available as well. All courses are delivered using distance technology and are available through the World Campus.

ADMISSION REQUIREMENTS

Applicants must have a current license to practice professional nursing in the United States or a foreign country and hold either 1) a baccalaureate degree in nursing from a U.S. regionally accredited institution, or (2) a tertiary (postsecondary) degree in nursing that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants must submit two copies of all undergraduate and graduate degree transcripts. The undergraduate GPA must be 3.0 or greater; the graduate GPA must be 3.3 or greater.

PRESCRIBED COURSES (9 credits)
NURS 846. Leadership Concepts and Theories for Nurse Administrators (3)

Optional
NURS 848. Synthesis and Application of the Nurse Administrator Role (4)

Effective Semester: Spring 2014
Expiration Semester: Fall 2018
The purpose of the Nurse Educator certificate is to provide nurses with a baccalaureate degree or higher in nursing formal content in nursing education for those who plan to teach in a variety of educational and clinical settings. The certificate requires completion three 3-credit graduate-level nurse educator didactic courses (9 credits); an optional 4-credit nurse educator practicum is available as well. All courses are delivered using distance technology and are available through the World Campus.

ADMISSION REQUIREMENTS

Applicants must have a current license to practice professional nursing in the United States or a foreign country and hold either 1) a baccalaureate degree in nursing from a U.S. regionally accredited institution, or (2) a tertiary (postsecondary) degree in nursing that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

Applicants must submit two copies of all undergraduate and graduate degree transcripts. The undergraduate GPA must be 3.0 or greater; the graduate GPA must be 3.3 or greater.

List of Courses Included in the Certificate

- NURS 840. Nursing Education Theories and Strategies (3)
- NURS 841. Assessment and Evaluation in Nursing Education (3)
- NURS 842. Curriculum and Program Development in Nursing Education (3)

Optional

- NURS 843. Synthesis and Application of the Nurse Educator Role (4)

Effective Semester: Spring 2014

Policy Analysis and Evaluation

Graduate Credit Certificate Program

Dr. Goktug Morcol
School of Public Affairs
Penn State Harrisburg
777 West Harrisburg Pike
Middletown, PA 17057-4898
Phone: 717-948-6126
Fax: 717-948-6320
email: gmorcol@psu.edu

The primary goal of the program is to prepare policy analysts and policy/program evaluation specialists who work for governments and not-for-profit organizations for professional analytical tasks. The 12-credit curriculum is designed to educate students in multiple aspects of the policy analysis and evaluation profession: general concepts in the policy analytic literature, decision making, planning, program evaluation, and issues in a public policy area of the student’s choice. The credits earned for the certificate may be applied toward a Master of Public Administration (MPA) degree in Public Administration at Penn State Harrisburg. However, successful completion of the certificate neither implies nor guarantees admission to a graduate degree program at Penn State. To successfully complete the certificate program a student must maintain 3.0 cumulative grade-point average; no course with a grade of lower than a C will count toward the certificate.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Students who are already enrolled a graduate program at Penn State and wish to enroll in the certificate program must complete the online Graduate School certificate application and pay the application fee just as any other certificate applicant would.

Prerequisite

PUBLIC ADMINISTRATION (P ADM)

- 503. Research Methods (3)

Prescribed Courses

PUBLIC ADMINISTRATION (P ADM)

- 507. Introduction to Public Policy Analysis (3)
- 535. Policy Analysis and Planning (3)
- 550. Policy and Program Evaluation (3)

Elective Course

One graduate-level 3-credit course in a substantive public policy area of student’s choice (e.g., health care, criminal justice, economic development, transportation, national security, welfare, education, environmental policy). Students must consult with and obtain the consent of the program coordinator when selecting this elective course.

Project Management

Graduate Credit Certificate Program

Dr. Jeffrey K. Pinto, Professor of Management
Sam and Irene Black School of Business
Penn State Erie, The Behrend College
5101 Jordan Road
Erie, PA 16563-1400
Fax: 814-898-6223
E-mail: jkp4@psu.edu

Delivering complex projects on time and under budget is a daily challenge for most corporations. More organizations now use project-based methods to accomplish such tasks, resulting in increased demand for project managers. The online Graduate Certificate in Project Management is an interdisciplinary, 12-credit program that uses problem-based learning to provide a strong foundation in project management theory and practice. The program is offered by the AACSB Accredited Sam and Irene Black School of Business and Penn State is a Project Management Institute (PMI)® Registered Education Provider (R.E.P.), making this certificate a well-respected credential. In addition to being an excellent stand-alone credential, all of the courses in the Graduate Certificate in Project Management can be applied toward the Master of Project Management degree program also offered through Penn State’s World Campus; however, successful completion of the certificate neither guarantees nor implies acceptance into any graduate program at Penn State. Approval to apply nondegree graduate credits toward a degree program must be granted by the student's academic adviser, the program head or graduate officer, and the Graduate School. A maximum of 15 credits earned as a nondegree student may be applied to a degree program.

Admission Requirements

Only candidates who demonstrate high promise of success for graduate work are admitted to the program. All applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Admission decisions are based on:

1. Undergraduate grad-point average
2. A personal essay
3. Two submitted letters of recommendation

The applicant’s cumulative undergraduate grade-point average or the junior/senior grade-point average is required to be a 3.0 or better. The MPM program emphasizes application of course concepts to actual project management opportunities and problems. Therefore, students who currently are, or previously were, employed as project managers or project team members will derive the greatest benefit from the program. All applicants must provide evidence of sufficient current or previous work experience that will enable them to successfully complete course assignments requiring the application of course concepts to real project management situations. This evidence may be provided in either the form of two letters of recommendation from individuals who know the applicant in a professional capacity or through nomination to participate in the program by an appropriate official within the applicant’s employing organization. Those who write letters of recommendation or submit nominations on behalf of the candidate will be asked to attest to the nominee’s suitability for the program of study considering factors such as the applicant’s length of employment, level and areas of work responsibility, personal qualities, career goals, maturity of purpose, and program requirements to apply course concepts to work-related issues. Applicants are encouraged to consult with the program chair concerning the suitability of their work experiences in relationship to program requirements.

The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (IBT). The minimum composite score for the IELTS is 6.5. International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

All students must be computer literate and have ready and reliable access to a computer and the Internet to successfully complete the MPM program. They must know how to use word processing software, log on to an Internet provider, and use e-mail. Additionally, MPM students will use Microsoft Office in their coursework that will require they have a working knowledge of Microsoft Office programs such as Word, Excel, Power Point, and Access. Access to fax facilities may be needed as an additional form of communication between student and instructor or between students.

COURSES

Students complete MANGT 510, Project Management (3), in their first semester of study and three additional courses from the following list for a total of 12 credits:

MANAGEMENT (MANGT)

- M515. Cost and Value Management (3)
- M520. Planning and Resource Management (3)
- M525. Commercial and Procurement (3)
- M531. Organizations (3)
- M535. Interpersonal and Group Behavior (3)
- M540. Strategy: Corporate, Business and Project (3)

MANGT 515 through 540 may be taken either concurrently or subsequently with MANGT 510.

Effective Date: Fall Semester 2012
Expiration Date: Spring Semester 2016

email: ojs10@psu.edu

The certificate program in Public Budgeting and Financial Management is offered by the graduate program in Public Administration at Penn State Harrisburg. The purpose of this certificate is to provide administrators and professionals in government and not-for-profit organizations an opportunity to acquire knowledge and skills in the following areas:

- fiscal and governmental aspects of budgeting and financial management
- development of organizational budgets
- governmental and not-for-profit accounting

Participants earn a certificate in Public Budgeting and Financial Management from Penn State Harrisburg upon successful completion of the three required courses (9 credits); all courses must be taken for a letter grade with at least a 3.0 average maintained, and no course with a grade of lower than C will count toward the certificate.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

An applicant must also have at least two years of managerial or administrative experience in a governmental or not-for-profit organization.

Participants will apply for the program by submitting a completed Graduate School certificate application and application fee.

PREScribed Courses

PUBLIC ADMINISTRATION (P ADM)

- 502. Governmental Fiscal Decision-Making (3)
- 522. Government Financial Management (3)
- 523. Governmental and Not-for-Profit Accounting (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Public Health

Graduate Credit Certificate Program

Dr. Wenke Hwang, Lead Certificate Chair and Professor in Charge

Penn State College of Medicine
Department of Public Health Sciences

Email: whwang@phs.psu.edu
Telephone: 717-531-7070

The purpose of the graduate certificate in Public Health is to provide students with foundational graduate-level course work in public health. The five-course, 15-credit curriculum can be completed in two semesters. All course work will be at the 500 level or above. Certificate course work may be transferable to the Penn State Master of Public Health (MPH) graduate degree program should a student wish to continue public health training at the graduate level. Upon completion of the Public Health certificate, students will be able to:

1. Demonstrate their knowledge in the five core areas of public health, which include biostatistics, environmental health sciences, epidemiology, health services administration, and social and behavioral sciences.
2. Apply their knowledge and skills to solving public health problems.

Admission Requirements:

Applicants must meet the following admissions standards:

- An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.
- The language of instruction at Penn State is English. All international applicants must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the Internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.
- International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

Applicants must submit the following items with their application for admission to the Public Health certificate program:

- One official transcript from each institution of higher education attended.
- Resume/CV
- Statement of Purpose or Rationale for seeking a Graduate Certificate in Public Health
- Two letters of recommendation

Admission decisions are made by a faculty committee and are based on the quality of the applicant's professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

All five courses in the certificate program may be applied to the Penn State Master of Public Health (MPH) degree program. Students must earn a grade of B or better for a course to be applied to the MPH degree program. Certificate program students who wish to have the certificate courses applied to the Penn State MPH degree program must formally apply and be admitted to the Penn State MPH degree program. Admission into the Penn State MPH degree program is a separate step and is not guaranteed. Students who are interested in the Penn State MPH degree program should contact the program at 717-531-1502 or mphprogram@phs.psu.edu, or visit www.mphprogram.psu.edu. Once a certificate program student is admitted to the Penn State MPH degree program and enrolls on a degree basis, certificate courses completed with a B or better will be "transferred" into the program.

List of Courses Included in the Certificate:

PUBLIC HEALTH (PHS)

504. Behavioral Health Intervention Strategies (3) or BB H 504: Behavioral Health Intervention Strategies (3)
520. Principles of Biostatistics (3)
542. Environmental Health Sciences (3)
550. Principles of Epidemiology (3)
571. Health Services Organization and Delivery (3) or H P A 520. Introduction to U.S. Health Services Organizations and Delivery (3)

This graduate certificate program is designed to provide non-science students with broad training in the field of public health preparedness. A distance education format is used to accommodate the needs of professionals already active in this area.

The certificate program is an attractive option for those who desire advanced graduate training but do not require the full Master Degree program. It is also ideal for students who wish to move into the degree program once all admissions requirements are fulfilled (e.g., GRE).

The curriculum consists of Public Health Preparedness for Disaster and Bioterrorism Emergencies I and II (PHP 410 and PHP 510; 6 credits), Public Health Evaluation of Disasters and Bioterrorism (PHP 527; 3 credits), and Critical Infrastructure Protection of Health Care Delivery systems (PHP 530; 3 credits).

ADMISSION REQUIREMENTS

All applicants must have received from a regionally accredited institution a baccalaureate degree earned under residence and credit conditions substantially equivalent to those required by Penn State. All applicants are expected to have a 3.0 or higher undergraduate grade point average. Applicants whose native language is not English must provide evidence of proficiency in English with a minimum TOEFL score of 550 for the paper-based test, 213 for the computer-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test. Three letters of recommendation are required. Special backgrounds, abilities, and interests related to homeland security are desirable.

COURSES

PUBLIC HEALTH (PHP)

PHP 410. Public Health Preparedness for Disaster and Bioterrorism Emergencies I (3)
PHP 510. Public Health Preparedness for Disaster and Bioterrorism Emergencies II (3)
PHP 527. Public Health Evaluation of Disasters and Bioterrorism (3)

Public Sector Human Resources Management

Graduate Credit Certificate Program

Dr. Bing Ran
School of Public Affairs
Penn State Harrisburg
777 W. Harrisburg Pike
Middletown, PA 17057-4898
Phone: 717-948-6057
Fax: 717-948-6320
email: bur12@psu.edu

The graduate credit certificate program in Public Sector Human Resources Management is offered by the Public Administration program at Penn State Harrisburg.

The certificate is designed for administrators and other professionals in government and not-for-profit organizations who need to acquire additional knowledge and skills in the following areas:

- personnel/human resource management
- labor relations
- problem solving
- planning
- management of organizational change and development

The certificate program in Public Sector Human Resources Management requires taking four courses (12 credits) -- two required and two elective courses.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A Graduate School certificate application must be completed and submitted with copies of all undergraduate degree transcripts.

Successful applicants typically have a 3.0 grade-point average in the last two years of undergraduate work.

Applicants who have graduate degrees in public administration or a related field, and who have taken graduate courses that duplicate the content of courses in the certificate program, may substitute other P ADM courses for those courses with the prior approval of the person in charge. Graduate transcripts, course syllabus, and course projects/term papers will be needed for this evaluation process. Some certificate courses may be used toward completion of the master's degrees in Public Administration and in Health Administration but completion of a certificate neither implies nor guarantees acceptance into a graduate degree program at Penn State.

PRESCRIBED COURSES

PUBLIC ADMINISTRATION (P ADM)

- *505. Personnel Management: Public and Nonprofit Sectors (3)
- 510. Organizational Behavior (3)

*Note: MNGMT 505 may be substituted for these courses.

ELECTIVE COURSES (select two)

PUBLIC ADMINISTRATION (P ADM)

- 511. Organizational Change and Development (3)
- 512. Issues in Human Resources (3)
- 514. Public Organization and Managerial Consultation (3)
- 515. Labor Management Relations (3)
- 516. Strategic Planning (3)

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

The graduate certificate in Solar Energy is designed for current and aspiring practitioners seeking advanced skills in resource assessment, project development, and system design for solar thermal and solar electric systems. The program is offered by the Department of Energy and Mineral Engineering through Penn State’s World Campus. Certificate students earn the certificate and 12 graduate credits by successfully completing each of four 3-credit, instructor-led online courses with a grade of C or better. Credits earned in this program may be applied to the intercollege Master of Professional Studies in Renewable Energy and Sustainability Systems (iMPS-RESS) program if a student is subsequently admitted to that program and has earned a B- or better in each course; however, successful completion of the certificate neither implies nor guarantees admission into a graduate degree program at Penn State.

ADMISSION REQUIREMENTS

For admission to the Graduate School, an applicant must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. A background in systems science, engineering, or physics is strongly recommended.

The student must be admitted to (1) Penn State’s Graduate School, and (2) the graduate certificate in Solar Energy offered by the Department of Energy and Mineral Engineering. To apply, the student completes a single online application that provides the necessary information to each organization.

Students interested in applying for admission to the Graduate Certificate in Solar Energy should go to the World Campus web site: http://www.worldcampus.psu.edu/degrees-and-certificates/solar-energy-certificate/apply. The Solar Energy Graduate Certificate Program Admissions Committee reviews and ranks applications as they are received.

List of Courses Included in the Certificate:

Required (6 credits):
E M E 810. Solar Resource Assessment and Economics (3)
A E 878. Solar Project Development and Finance (3)

Electives (6 credits):
E M E 811. Solar Thermal Energy for Utilities and Industry (3)
E M E 812. Utility Solar Power and Concentration (3)
A E 862. Distributed Energy Planning and Management (3)
A E 888. Commercial Solar Electric Systems (3)

Effective Semester: Fall 2013
Expiration Semester: Summer 2018
Supply Chain Management

Graduate Credit Certificate Program

Dr. John E. Tyworth
454B Business Building
University Park, PA 16802
Telephone: 814-865-1866
Fax: 814-863-7067
E-mail: jet@psu.edu

The primary goal of the program is to prepare supply chain professionals to manage value-creating supply chain networks that modern business enterprises employ to acquire, produce, and deliver goods and services on a global scale. Students learn how to analyze and manage core business processes including sourcing and procuring raw materials, supplies and components and planning and fulfilling customer demand. All candidates are required to complete with a passing grade the three prescribed 800-level, 4-credit courses to earn the certificate.

Admission Requirements

The curriculum is designed for working supply chain management professionals. Accordingly, successful applicants will normally have, before the start of their first semester, at least two years' post baccalaureate work experience in supply chain management or a closely allied field.

An applicant must have received, from a regionally accredited institution, a baccalaureate degree under residence with credit conditions substantially equivalent to those required by Penn State. Additionally, the applicant's baccalaureate degree should be in business, engineering, economics, information sciences, or a related field and the applicant should have completed a college-level course in microeconomic principles.

To assure a smooth transition into the curriculum prospective students should have Microsoft Office Excel skills, knowledge of business statistics, and an understanding of basic accounting and microeconomic terms and principles.

Required Courses

SUPPLY CHAIN MANAGEMENT (SCM)

- 800, Supply Chain Management (4)
- 810, Transportation and Distribution (4)
- 820, Strategic Procurement (4)

Effective Date: Summer Session 2011

Sustainable Management Practices

Graduate Credit Certificate Program

Dr. Barrie E. Litzky
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Telephone: 610-725-5286
Fax: 610-725-5224
E-mail: bxl26@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four course (12-credit) Graduate Certificate program in Sustainable Management Practices. The primary goal of this certificate program is to prepare individuals to design, implement, and evaluate new or existing sustainable practices in their organizations. Sustainability in this context refers to the operational policies and practices that seek to maximize not only the economic, but also the social (employees, community) and environmental (physical) outcomes of an organization.

Twenty-first century organizations interested in competitive advantage and long-term survival must implement sustainable management practices into their firms' core operations. The courses required in this certificate program will ground students in the complex social, economic, political, technological, cultural, and demographic trends that influence organizational stakeholders. Students will be introduced to decision models that account for the interconnected nature of all organizational systems, and learn to build mutually beneficial alliances and partnerships with all relevant stakeholders.

The curriculum is designed to address concepts relevant to issues of sustainable management (products/services/organizations) and organizational sector (public, non-profit, private). The certificate program will develop students' critical capacities for reflection and action based upon a systems thinking framework, with respect to the social, environmental, and organizational sustainability challenges facing business leaders. Curriculum highlights pertinent research and practices from the fields of accounting, finance, economics, marketing, and operations to introduce students to value creation strategies inherent in sustainable tools and techniques. Course content is designed to provide a balanced mix of theory, research, and practical application in the topics.

This certificate program is attractive to individuals who desire advanced education in sustainable management practices but who do not wish to pursue a master's degree at this time, as well as those interested in pursuing specialized knowledge of sustainable management practices concurrent with a graduate degree program. With program approval, the courses in the certificate program may be applied to the Master of Business Administration degree program. This graduate certificate program also is valuable for individuals who already hold a master's degree and wish to update or expand their knowledge and skills.

Admission Requirements

Individuals wishing to enroll in this graduate certificate program must hold either (1) a bachelor's degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international and are expected to have achieved a 3.0 (B) or higher undergraduate grade point average. Applicants holding a master's degree should have attained at least a cumulative grade point average of 3.0 (B) in previous graduate work. Professional experience will be taken into consideration for admission.

Applicants should submit an online nondegree certificate application, available at http://www.gradsch.psu.edu/portal/gateway.html, and the application fee (payable online), along with supporting credentials. Supporting credentials include two official transcripts from each undergraduate and graduate institution attended, a current resume, and a statement of intent or career objective. Supporting credentials should be sent directly to the Admissions Office at Penn State Great Valley, 30 East Swedesford Road, Malvern, PA 19355.

Admission decisions are made by a faculty committee and are based on the quality of the applicant's credentials in relation to those of other applicants. Evaluation criteria include professional and academic accomplishments. Upon approval, certificate program students will enroll in course work on a nondegree basis. Students must complete each course with a grade of B or better in order to receive the certificate. Note that admission as a nondegree graduate student neither guarantees nor implies subsequent admission to a degree program. Nondegree students are not eligible to receive fellowships or graduate assistantships.

With adviser approval, all four courses in the certificate program may be applied to the Master of Business Administration degree program at Penn State Great Valley.

International Applicants

International applicants should consult with a program adviser prior to applying for admission for more information about admission and enrollment requirements. International applicants must satisfy all Graduate School requirements for admission. The language of instruction at Penn State is English.

Curriculum

The graduate certificate program in sustainable management practices requires a total of four 3-credit courses (12 graduate credits). One of the courses is required (BUSAD 802), and three courses are electives selected from a list of five courses (BUSAD 582, BUSAD 809, BUSAD 824, BUSAD 879, and SYSEN 507). Students completing each of the four 3-credit courses with a grade of B or better will be eligible to receive a graduate certificate.

Prescribed Course (3 credits)

Business Administration (BUSAD)
802. Cornerstones of Sustainability (3 credits)

Elective Courses (9 credits) (Choose 3 from the following 5 courses)

Business Administration (BUSAD)
582. Social Entrepreneurship and Community Leadership (3 credits)
809. Triple Bottom Line Accounting (3 credits)
824. Finance and Investment for Sustainable Growth (3 credits)
879. Sustainable Products and Service Development (3 credits)

Systems Engineering (SYSEN)
507. Systems Thinking (3 credits)
Graduate courses carry numbers from 500 to 599 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Effective Date: Spring Semester 2012

The goal of this graduate certificate program is to prepare students to apply systems engineering principles across the product development or acquisition lifecycle. To be awarded the Graduate Certificate in Systems Engineering, students must successfully complete 12 credits of course work. All courses must be completed with a grade of C or better and a grade-point average of 3.0 to be awarded the certificate.

Admission Requirements:
Applicants must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. The successful applicant will possess a degree in science or engineering or a closely aligned field and is generally expected to have a minimum combined junior/senior grade-point average of 3.0 (B) on a 4.0 scale.

Required courses (9 credits)
SYSEN 520 (3): Systems Engineering
SYSEN 522 (3): Systems Verification Validation & Testing
SWENG 586 (3): Requirements Engineering

Elective courses (Select at least 3 credits; each course listed is worth 3 credits.)
SYSEN 530 (3): Systems Optimization
SYSEN 531 (3): Probability Models and Simulation
SYSEN 533 (3): Deterministic Models and Simulation
SYSEN 536 (3): Decision and Risk Analysis in Engineering
SYSEN 550 (3): Creativity and Problem Solving I

The Pennsylvania State University
Teaching English to Speakers of Other Languages (TESOL)

Graduate Credit Certificate Program

Karen E. Johnson
234 Sparks Building
University Park, PA 16802
Telephone: 814-867-4284
Fax: 814-863-7986
E-Mail: sah4@psu.edu

The Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL) is designed for candidates holding a baccalaureate degree with little or no previous experience teaching adult English language learners either in the US or abroad. Candidates are required to take four 3-credit graduate level courses that contain integrated practical field experiences that enable candidates to gain essential knowledge, skills, and dispositions for teaching adult English language learners in diverse contexts throughout the world.

Admission Requirements

Candidates must have received either (1) a bachelor’s degree from a U.S. regionally accredited institution or (2) a postsecondary degree that is equivalent to a U.S. baccalaureate degree earned from an officially recognized degree-granting international institution with a minimum GPA of 3.0 on a 4.0 scale.

International candidates must have a minimum TOEFL score of 600 (paper-based), 250 (computer-based), or 100 (internet-based) with a 23 on the oral section.

List of Courses Included in the Certificate:

APPLIED LINGUISTICS (APLNG)

802 FOCUS ON ENGLISH: TEACHING FORM, MEANING & USE (3)
804 FOCUS ON LEARNERS: IDENTITY, COMMUNITY & LANGUAGE LEARNING (3)
806 FOCUS ON CLASSROOMS: PLANNING & SUPPORTING LANGUAGE LEARNING (3)
808 FOCUS ON INSTRUCTION: TEACHING & ASSESSING LANGUAGE LEARNING (3)

Capstone experience: Professional e-portfolio that draws upon aspects of course work that demonstrate achievement of all program goals and can be used when applying for teaching positions around the world.

Training and Development

Graduate Credit Certificate Program
Jo A. Tyler
School of Behavioral Sciences and Education
Training and Development Program
777 West Harrisburg Pike
Middletown, Pennsylvania 17057
717-948-6387
E-Mail: jat235@psu.edu

The Training and Development Graduate Certificate program is offered by the Training and Development unit in the School of Behavioral Sciences and Education at Penn State Harrisburg. The primary goal of the program is to prepare professionals from organizations in the for-profit, government, military, and non-profit sectors desiring a foundation in instructional design, human resource/organizational development to enhance their organizational acumen. The 12-credit curriculum integrates core principles of training, human resource/organizational development (HR/OD). Candidates will complete four courses targeted to provide a theoretical foundation and develop critical and practical perspectives associated with the field. Because the field comprises two distinct arenas in which candidates may have an interest, there is one core course requirement, a 3-credit foundations course that bridges these. The remaining three courses (9 credits) can be selected from a broad menu to fully customize the certificate to the candidates’ professional needs within the field—a focus on instructional design, a focus on HR/OD, or an integrated blend of these. The certificate is designed for both current practitioners in the field and those in other organizational roles, such as line management, who seek to extend their capacity to contribute in organizational settings with additional knowledge and skill.

ADMISSION REQUIREMENTS:
Applicants for the Certificate in Training and Development must hold either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. Additionally, all international applicants must meet Graduate Council’s English proficiency requirements. To be considered for admission into the certificate program, applicants must have a 3.0 grade-point average in the last two years of undergraduate work (or graduate work if applying with a master’s degree).

Graduate applicants will be able to complete this program as stand-alone graduate study or in conjunction with studies in the Master of Education in Training and Development degree at Penn State Harrisburg. A candidate in the certificate program also may become a candidate in the M.Ed. in Training and Development if the candidate meets criteria for admission to the Graduate School and the graduate program; however, successful completion of the certificate neither implies nor guarantees admission to any graduate program at Penn State. Undergraduate candidates may apply with a recommendation from a Penn State academic unit but must have a conferred bachelor’s degree prior to enrollment into the certificate program.

Candidates will apply to the program by completing the online Graduate School certificate application, including payment of the application fee. Applicants must submit official transcripts for all undergraduate and graduate programs previously attended.

Candidates will earn the certificate upon successful completion of the four required courses (12 credits). All courses must be taken for a letter grade with at least a 3.0 average maintained; no grades below a C will be counted toward the certificate.

List of Courses Included in the Certificate:

All candidates will complete the following 3-credit course:

- TRDEV 460 Foundations of Training and Development

Each candidate also will complete three additional 3-credit courses, selected in consultation in advance from an adviser, from the following list of electives to tailor the program to his/her professional needs:

- TRDEV 503: Performance Consulting
- TRDEV 518: Systematic Instructional Design in Training
- TRDEV 520: Learning Styles and Learning Theory in Training
- TRDEV 531: Technology in Training
- TRDEV 561: Facilitation Theories and Practice
- TRDEV 505: Project Management in Training and Development
- TRDEV 507: Program Evaluation
- TRDEV 528: Instructional Systems Design Applications
- TRDEV 530: Multiplatform Delivery Skills
- TRDEV 532: Web-Based Training
- TRDEV 537: Technologies in Learning and Development
- TRDEV 563: Strategic and Critical Human Resource Development
- TRDEV 565: Implementing Training and Development Programs
- TRDEV 567: Instructional Leadership Theories and Development

Effective Semester: Fall Semester 2015
Expiration Semester: Spring Semester 2020

The Pennsylvania State University
Wind Energy

Graduate Credit Certificate Program

George Lesieutre, Professor and Head, Department of Aerospace Engineering
225 Hammond Building
University Park, PA 16802
814-865-0065
Email: gal4@engr.psu.edu

This program is designed to provide technical depth in wind-turbine technology and the science of siting turbines. The certificate program is offered in residence by the Department of Aerospace Engineering and also is available for online delivery via Penn State’s World Campus as a subset of the online intercollege Master of Professional Studies program in Renewable Energy and Sustainability Systems (iMPS-RESS). To be awarded the Certificate in Wind Energy, students must successfully complete 9 graduate credits with a grade of “C” or better in three required courses. Students who subsequently are admitted to the iMPS-RESS degree program may count credits earned in the certificate program toward the RESS degree; however, successful completion of this certificate program neither implies nor guarantees admission to a graduate degree program at Penn State.

Admission Requirements:

Applicants must have received either (1) a baccalaureate degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor's degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates. In addition, a background in incompressible fluid mechanics, statics, and dynamics is expected. Professional experience may be taken into consideration for admission.

The student must be admitted to the graduate certificate program in Wind Energy offered by the Department of Aerospace Engineering and to the Graduate School. GRE scores are not required for non-degree graduate students. International students must take and submit scores for the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), with the exceptions noted below. The minimum acceptable score for the TOEFL is 550 for the paper-based test, or a total score of 80 with a 19 on the speaking section for the internet-based test (iBT). Applicants with iBT speaking scores between 15 and 18 may be considered for provisional admission, which requires completion of specified remedial English courses ESL 114G (American Oral English for Academic Purposes) and/or ESL 116G (ESL/Composition for Academic Disciplines) and attainment of a grade of B or higher. The minimum acceptable composite score for the IELTS is 6.5.

International applicants are exempt from the TOEFL/IELTS requirement who have received a baccalaureate or a graduate degree from a college/university/institution in any of the following: Australia, Belize, British Caribbean and British West Indies, Canada (except Quebec), England, Guyana, Republic of Ireland, Liberia, New Zealand, Northern Ireland, Scotland, the United States, and Wales.

List of Courses Included in the Certificate:

AERSP 880. Wind Turbine Systems (3)
AERSP 583. Wind Turbine Aerodynamics (3)
AERSP 886. Engineering of Wind Project Development (3)

Applicants who do not have the necessary background for the above courses will need to take the appropriate prerequisite courses.

Effective Semester: Spring 2014
Expiration Semester: Fall 2018

Last Revised Spring Semester 2014
Blue Sheet Item #: 42-07
Review Date: 06/10/2014
Workplace Learning and Performance Improvement Design

Graduate Credit Certificate Program

Dr. Doris Lee
The School of Graduate Professional Studies
Penn State Great Valley
30 East Swedesford Road
Malvern, PA 19355
Phone: 610-725-5250
Fax: 610-725-5253
E-mail: ydl1@psu.edu

The School of Graduate Professional Studies at Penn State Great Valley offers a four course (12 credit) Graduate Certificate program in Workplace Learning and Performance Improvement Design. The primary goal of this certificate program is to provide professionals with the knowledge and skills needed to successfully create learning and performance improvement initiatives/interventions in their organizations.

The courses in the program have been selected from the graduate program in Instructional Systems and focus on essential knowledge, critical thinking skills, and effective problem-solving strategies as they relate to the design, development, implementation, and evaluation of learning and performance improvement solutions in corporate, educational, and nonprofit organizations. These courses are taught at the graduate level, and content provides a balanced mix of theory, research, and practical application in the topics. Students who complete the program with at least a 3.0 (B) average receive the Graduate Certificate in Workplace Learning and Performance Improvement.

Admission Requirements:

Individuals wishing to enroll in this graduate certificate program must hold a baccalaureate degree from a regionally accredited institution earned under residence and credit considerations substantially equivalent to those required by Penn State. Applicants should complete and submit the online nondegree application and application fee and will enroll on a nondegree basis. For more information about how to apply on a nondegree basis, refer to http://gradsch.psu.edu/prospective/apply.html. The program may be started in the fall, spring, or summer semesters.

The courses in this graduate certificate program are applicable to the master's degree program in Instructional Systems offered through the School. Certificate Program students who wish to have the certificate courses applied to the master's degree program in Instructional Systems must be formally admitted to the master's degree program. Note that admission into the master's degree program is a separate step and is not guaranteed. Interested students should contact the Great Valley Admissions Office (610-648-3242) for more information about how to apply and make a change from nondegree to degree status. Once a certificate program student is admitted to the master's degree program and enrolls on a degree basis, the certificate program courses completed with a grade of "B" or better will be "transferred" into the program.

Penn State's Graduate School permits up to 15 credits of course work taken on a nondegree basis may be applied to a graduate degree. However, admission into a graduate program, and credit toward a graduate degree for specific courses taken on a nondegree basis, is up to the graduate program.

Required Courses (12 Credits)

**INSTRUCTIONAL SYSTEMS (INSYS)**

415. Systematic Instructional Design (3 credits)
521. Instructional Systems Analysis (3 credits)
551. Performance Technology (3 credits)
553. Managing and Consulting for Instructional Development (3 credits)

This Writing Instruction Specialist Certificate is a 15-credit program designed to serve the continuing educational and professional development needs of educators and other professionals in writing and writing instruction. The program is grounded in ongoing changes in theory and instructional practices in writing, and changes in the requirements for continued education and professional development of teachers. Completion of the program will prepare professionals to provide specialized assistance in composition and to serve as a resource on writing pedagogy. Students must earn a B or higher in each course that counts toward the certificate program.

Admission Requirements

An applicant must hold either (1) a baccalaureate degree or a Master of Arts degree from a regionally accredited U.S. institution or (2) a tertiary (postsecondary) degree that is deemed comparable to a four-year bachelor’s degree from a regionally accredited U.S. institution. This degree must be from an officially recognized degree-granting institution in the country in which it operates.

To be considered for admission into the certificate program, applicants must have a master’s degree or a 3.0 grade-point average in the last two years of undergraduate work. This requirement may be waived in exceptional circumstances.
