Using This Bulletin

This bulletin is intended primarily to provide users with Penn State academic information.

To browse the site, use the buttons across the top of the home page. For specific searches, use the search engines on the upper right of the home page or the Site Index (last button in the row across the top of the page).

For course descriptions, click the "University Course Descriptions" button (first on the left on the home page) or use the Course Description Fast Path search engine on the upper right of the home page.

In the bulletin, the word Program refers to an academic program (majors, minors, and special programs). Search for academic program information by program category (associate or baccalaureate: two-year, four or more years), campus, or college with the buttons and links on the home page, or search for specifics with the site search engines.

The University-wide General Education requirements are explained under that heading on the home page.

Links to offices that may be useful to users are under the "Additional Resources" heading on the home page.

At the upper right edge of the home page, you may access searches for Penn State individual and department directories, link to the Penn State home page, or access another Web browser.

The site follows conventional navigation practices, so once in secondary pages, users should be able to click through to find what they want.

ACADEMIC AUTHORITY

The University Faculty Senate has responsibility for and authority over all academic information contained in the Undergraduate Bulletin.

REGULATIONS SUBJECT TO CHANGE

Each step of the educational process, from admission through graduation, requires continuing review and appropriate approval by University officials. The University, therefore, reserves the right to change the requirements and regulations contained in this bulletin and to determine whether a student has satisfactorily met its requirements for admission or graduation, and to reject any applicant for any reason the University determines to be material to the applicant's qualifications to pursue higher education.
Inventions and Patents

Patentable discoveries made by University faculty, staff, and graduate students that involve the use of University funds or facilities are the property of the University. Both undergraduate and graduate students fall within the University staff category whenever they are employed in connection with institutional research projects. Patents, with the inventors sharing in the royalties, are administered in the public interest by The Penn State Research Foundation, a nonprofit organization made up of faculty, alumni, industry representatives, and members of the University Board of Trustees. Royalty income is shared between inventor, the organizational unit, and The Penn State Research Foundation. The Penn State Research Foundation's share is used to foster the advancement of technology transfer and research at the University.
History

For information, see www.psu.edu/ur/about/history.html (Opens New Window)
Authority over Academic Information

The University Faculty Senate has responsibility for and authority over all academic information contained in the Undergraduate Bulletin.
University Phone Numbers

To telephone the administrative headquarters of the University at the University Park campus, dial (or ask the operator for) area code 814 and the desired number. If you do not know the number, call 814-865-4700, Penn State Call Center information. For telephone numbers of other Penn State locations, see Penn State Undergraduate Campuses (Opens New Window). Frequently used University Park campus numbers are:

- Undergraduate Admissions: 814-865-5471
- Graduate Enrollment Services: 814-865-1795
- Registrar's Office: 814-865-6357

Penn State encourages qualified persons with disabilities to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about the physical access provided, please contact the Office for Disability Services, 814-863-1807, in advance of your participation or visit.

STATEMENT OF NONDISCRIMINATION

University is committed to the policy that all persons shall have equal access to programs, facilities, admission, and employment without regard to personal characteristics not related to ability, performance, or qualifications as determined by University policy or by state or federal authorities. The Pennsylvania State University does not discriminate against any person because of age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status. Discrimination or harassment against faculty, staff, or students will not be tolerated at The Pennsylvania State University. Direct all inquiries regarding the nondiscrimination policy to the Affirmative Action Director, The Pennsylvania State University, 328 Boucke Building, University Park PA 16802-2801; tel. 814-865-4700/V, 814-863-1150/TTY.
Board of Trustees

Control of Penn State is vested in a Board of Trustees of thirty-two members. Members ex officio are the Governor of the Commonwealth; the President of the University; the state Secretary of Education; the state Secretary of Agriculture; and the state Secretary of Conservation and Natural Resources. Terms of the other trustees are three years. Six trustees are appointed by the governor, nine are elected by the alumni, six by delegates from county agricultural societies, and six by the board representing business and industry.

For information, including a trustee membership list, see: www.psu.edu/trustees. (Opens New Window)
University Administration

PRESIDENT'S COUNCIL

• GRAHAM B. SPANIER, B.S., M.S., Ph.D., President
• RODNEY A. ERICKSON, B.A., M.A., Ph.D., Executive Vice President and Provost of the University
• PAULA AMMERMAN, Director, Office of the Board of Trustees and Associate Secretary
• CYNTHIA BALDWIN, B.A., M.A., J.D., Vice President and University Counsel
• BLANNIE E. BOWEN, B.S., M.S., Ph.D., Vice Provost for Academic Affairs
• TIMOTHY M. CURLEY, B.S., M.Ed., Director of Intercollegiate Athletics
• RICHARD D. DIUEGENIO, B.A., M.Ed., Ph.D., Special Assistant to the President for Governmental Affairs
• HENRY C. FOLEY, B.S., M.S., Ph.D., Vice President for Research and Dean of the Graduate School
• MADLYN L. HANES, B.A., M.A., Ph.D., Vice President for Commonwealth Campuses
• ALBERT G. HORVATH, B.S., M.B.A. Senior Vice President for Finance and Business/Treasurer
• W. TERRELL JONES, B.A., M.Ed., D.Ed., Vice Provost for Educational Equity
• RODNEY P. KIRSCH, B.A., M.A., Senior Vice President for Development and Alumni Relations
• WILLIAM M. MAHON III, B.A., M.A., Vice President for University Relations
• ROBERT N. PANGBORN, B.S., B.A., M.S., Ph.D., Vice President and Dean for Undergraduate Education
• HAROLD L. PAZ, B.A., M.S., M.D., Senior Vice President for Health Affairs, Dean of the College of Medicine and Chief Executive Officer of Penn State Milton S. Hershey Medical Center
• THOMAS G. POOLE, B.A., M.Div., Ph.D., Vice President for Administration
• DAMON SIMS, B.A., J.D., Vice President for Student Affairs
• CRAIG D. WEIDEMANN, B.A., M.A., Ph.D., Vice President for Outreach

VICE PROVOSTS

• MICHAEL A. ADEWUMI, B.Sc., M.S., Ph.D., Vice Provost for Global Programs
• BLANNIE E. BOWEN, B.S., M.S., Ph.D., Vice Provost for Academic Affairs
• W. TERRELL JONES, B.A., M.Ed., D.Ed., Vice Provost for Educational Equity
• KENNETH F. LEHRMAN III, B.A., M.A., J.D., Ph.D., Vice Provost for Affirmative Action
• KEVIN M. MOROONEY, B.S., Vice Provost for Information Technology

DEANS

• DOUGLAS A. ANDERSON, B.A., M.S., Ph.D., Dean, College of Communications

The Pennsylvania State University
CAMPUS CHANCELLORS AND CENTER OFFICERS

- FRANCIS ACHAMPONG, LL.B., LL.M., LL.M., Ph.D., Chancellor, Penn State Fayette
- LORI J. BECHTEL-WHERRY, B.S., M.S., Ph.D., Chancellor, Penn State Altoona
- DONALD L. BIRX, B.S., M.S., M.B.A., Ph.D., Chancellor, Penn State Erie
- CRAIG EDELBROCK, B.A., Ph.D., Chancellor, Penn State Great Valley School of Graduate Professional Studies
- DAVIE JANE GILMOUR, A.S., B.S., M.S., Ph.D., President, Pennsylvania College of Technology
- DAVID C. GNAGE, B.S., M.S., M.B.A., Ph.D., Chancellor, Penn State Mont Alto
- R. KEITH HILLKIRK, B.A., M.Ed., Ph.D., Chancellor, Penn State Schuykill
- GARY B. KEEFER, B.S., M.S.C.E., Ph.D., Chancellor, Penn State Beaver
- MARY-BETH KROGH-JESPERSEN, B.A., M.S., Ph.D., M.B.A., Chancellor, Penn State Worthington Scranton
- MUKUND S. KULKARNI, B.A., M.A., M.B.A., Ph.D., Chancellor, Penn State Harrisburg
- GARY M. LAWLER, M.S., Ph.D., Chancellor, Penn State Hazleton
- FREDRIC M. LEEDS, A.B., M.A., Ph.D., Chancellor, Penn State Shenango
- ANITA D. McDONALD, B.Ph., M.E., Ph.D., Chancellor, Penn State DuBois
CURTISS E. PORTER, B.A., Ph.D., Chancellor, Penn State Greater Allegheny
JOEL M. RODNEY, B.A., Ph.D., Campus Executive Officer, Penn State York
KAREN WILEY SANDLER, B.A., M.A., Ph.D., Chancellor, Penn State Abington
KEVIN J. G. SNIDER, B.A., M.A., Ph.D., Chancellor, Penn State New Kensington
SUSAN PHILLIPS SPEECE, B.S., M.S., Ed.D., Chancellor, Penn State Berks
ANN M. WILLIAMS, B.A., M.A., Ed.D., Chancellor, Penn State Lehigh Valley
SOPHIA T. WISNIEWSKA, B.A., M.A., Ph.D., Chancellor, Penn State Brandywine

GENERAL AND STAFF OFFICERS

- STEPHEN R. CURLEY, B.S., Budget Officer of the University
- JOSEPH J. DONCSECZ, B.S., M.B.A., Corporate Controller
- LOUISE E. SANDMEYER, B.A., M.A., Executive Director, Planning and Institutional Assessment

ADMINISTRATIVE UNITS

- Academic Advancement Programs
  W. TERRELL JONES, B.A., M.Ed., D.Ed., Vice Provost for Educational Equity; Executive Director
- Division of Undergraduate Studies
  ERIC R. WHITE, A.B., M.S., Ed.D., Executive Director
- Morgan Academic Support Center for Student-Athletes
  RUSSELL B. MUSHINSKY, B.A., M.Ed., Director
- Office of Student Aid
  ANNA M. GRISWOLD, B.A., M.Ed., Assistant Vice President for Undergraduate Education and Executive Director for Student Aid
- Penn State Learning
  R. NEILL JOHNSON, B.A., M.A., Ph.D., Director
- Reserve Officers’ Training Corps
  MICHAEL RUNEY, Lt. Col., U.S. Army, Tri-Service Coordinator
- Schreyer Institute for Teaching Excellence
  ANGELA LINSE, Ph.D., Executive Director and Associate Dean
- Undergraduate Admissions
  ANNE ROHRBACH, Executive Director for Undergraduate Admissions
- University Fellowships Office
  RUTH MENDUM, Ph.D., Director
- University Registrar
  KAREN L. SCHULTZ, B.S., M.B.A., University Registrar

ACADEMIC LEADERSHIP COUNCIL

Council members are: the Dean of the College of Agricultural Sciences; the Dean of the College of Arts and Architecture; the Dean of the College of Communications; the Dean of the College of Earth and Mineral Sciences; the Dean of the College of Education; the Dean of the College of Engineering; the Dean of the College of Health and Human Development; the Dean of the College of the Liberal Arts; the

The Pennsylvania State University
Dean of the Eberly College of Science; the Dean of the Smeal College of Business; the Dean of the Schreyer Honors College; the Senior Vice President for Health Affairs and Dean of the College of Medicine; the Dean of The Dickinson School of Law; the Dean of the School of Information Sciences and Technology; all Campus Chancellors; the Vice President for Commonwealth Campuses; the Dean of the University Libraries; the Vice President for Research and Dean of the Graduate School; the Vice Provost for Academic Affairs; the Vice Provost for Educational Equity; the Vice Provost for Information Technology; the Vice President and Dean for Undergraduate Education; the Vice President for Outreach; the Executive Vice President and Provost.

ADMINISTRATIVE COUNCIL ON UNDERGRADUATE EDUCATION (ACUE)

The Vice President and Dean for Undergraduate Education; the Associate Vice President and Senior Associate Dean for Undergraduate Education; the Assistant or Associate Deans for Instruction or Undergraduate Education in the colleges; the Associate Vice President for Outreach; the University Registrar; the Executive Director for the Division of Undergraduate Studies; the Chair-elect of the University Faculty Senate; and two undergraduate student members representing the University Park Undergraduate Association and the Council of Commonwealth Student Governments.

FINANCE AND BUSINESS STAFF

The Senior Vice President for Finance and Business/Treasurer (Chair); the Corporate Controller; the University Budget Officer; the Associate Treasurer/Director for Financial Management; the Associate Vice President for Finance and Business, Controller, College of Medicine, Penn State Milton S. Hershey Medical Center; the Associate Vice Presidents for Auxiliary Services, Business Services, Finance and Business, Finance and Business Commonwealth Operations, Human Resources, and Physical Plant; the Director of University Police; the Financial Officer; the Administrative Assistants; and the Administrative Fellow.

EMERITI

• BRYCE JORDAN, B.Mus., M.Mus., Ph.D., President Emeritus
• JOAB THOMAS, A.B., M.A., Ph.D., President Emeritus
• JOHN A. BRIGHTON, B.S., M.S., Ph.D., Executive Vice President and Provost Emeritus
• WILLIAM W. ASBURY, B.A., M.A., Vice President Emeritus for Student Affairs
• RICHARD G. CUNNINGHAM, B.S., M.S., Ph.D., P.E., Vice President Emeritus for Research and Graduate Studies

Mission of the University

See www.psu.edu/ur/about/mission.html/ (Opens New Window)
Options for Undergraduate Study

The undergraduate degree programs of the University provide students with opportunities to increase their knowledge and understanding of the world and to grow in their individual skills and capabilities for learning, analyzing, creating, communicating, and forming good judgments. All undergraduate degree programs and courses offered by the colleges and other degree-granting units of the University are under the academic sponsorship of a faculty committed to scholarship and are implemented under the academic policies and student rules established by the University Faculty Senate. They are intended to be flexible in accommodating students interested in learning, whether through traditional or nontraditional offerings, while enrolled on either a part-time or a full-time basis. The degree programs and courses of the colleges and other degree-granting units are offered through resident or distance education. Credit courses are available to degree candidates on University campuses as well as through off-campus credit-granting activities such as internships, practicums, field trips, and foreign studies, as well as via continuing and distance education mechanisms, such as the World Campus. Students not formally admitted to degree candidacy (including provisional and nondegree students) may participate in resident offerings as time and space permit, as well as in continuing and distance education.
University Outreach

Penn State extends the intellectual expertise and resources of the University through teaching, research, and service to address the social, civic, economic, and environmental issues and opportunities of the Commonwealth, nation, and world.

Working closely with its colleges, the University delivers outreach programs and services to support the needs of people throughout Pennsylvania and beyond at convenient times and accessible locations.

For information, see www.outreach.psu.edu (Opens New Window).
Research

Research--in addition to teaching and public service--is a primary mission of the University. A strong research program strengthens both undergraduate and graduate education by building the body of knowledge and experience on which both are based.

For undergraduate instruction, research brings to the classroom enthusiasm, practical experience, and up-to-date laboratory equipment, as well as opportunities for honors thesis topics and participation in research programs. For graduate programs, research furnishes thesis topics, stipend and tuition support, and experienced faculty to train students as the next generation of researchers. Penn State’s national academic reputation depends greatly on research publications and other scholarly activities of the faculty, whose combined teaching, research, and public service efforts are the hallmarks of a major university.

INVENTIONS AND PATENTS---Patentable discoveries made by University faculty, staff, and graduate students that involve the use of University funds or facilities are the property of the University. Both undergraduate and graduate students fall within the University staff category whenever they are employed in connection with institutional research projects. Patents, with the inventors sharing in the royalties, are administered in the public interest by The Penn State Research Foundation, a nonprofit organization made up of faculty, alumni, industry representatives, and members of the University Board of Trustees. Royalty income is shared between inventor, the organizational unit, and The Penn State Research Foundation. The Penn State Research Foundation’s share is used to foster the advancement of technology transfer and research at the University.

For information, see www.research.psu.edu/ (Opens New Window)

For information specific to inventions and patents, see www.research.psu.edu/ipo (Opens New Window)
Colleges and Other Degree-Granting Units

The following University units offer undergraduate majors leading to baccalaureate and associate degrees: Abington College; Altoona College; College of Agricultural Sciences; College of Arts and Architecture; Penn State Erie, The Behrend College; Berks College; Smeal College of Business; Capital College (Penn State Harrisburg); College of Communications; College of Earth and Mineral Sciences; College of Education; College of Engineering; College of Health and Human Development; College of Information Sciences and Technology; College of the Liberal Arts; Eberly College of Science; and University College (which comprises several Penn State campuses). The Pennsylvania College of Technology in Williamsport provides an alternative educational setting in which students may enroll in selected degree programs.

Students who do not want to enroll immediately in one of the colleges or other degree-granting units may enroll in the Division of Undergraduate Studies, typically for one year or slightly more.

Majors leading to baccalaureate degrees are described in this bulletin under buttons for the colleges and other degree-granting units. Information is also accessible on the Internet through www.psu.edu/ (the Penn State homepage) (Opens New Window).
College of Medicine

For information, see http://www.pennstatehershey.org/web/college/home (Opens New Window)
Division of Undergraduate Studies (DUS)

The Division of Undergraduate Studies is an academic unit of the University that offers advising programs at the University Park campus and all other undergraduate locations.

For information, see www.psu.edu/dus/ (Opens New Window)
Schreyer Honors College

For information, see www.scholars.psu.edu/ (Opens New Window)
University Faculty Senate

For information, see www.psu.edu/ufs/ (Opens New Window)
The University Libraries

The University Libraries constitute a major resource for students and researchers in all fields of study. The Libraries, ranked 13th nationally by the Association of Research Libraries, contain more than 4.9 million volumes, 5.2 million microforms, 58,459 serial subscriptions, plus more than 420 databases and 13,700 e-journals—most with full text.

The University Libraries include a central facility and five other libraries at University Park campus, plus libraries at 23 Penn State locations throughout the state, including the Dickinson School of Law and the Milton S. Hershey Center and the Penn State affiliated Pennsylvania College of Technology. At University Park, the Arts and Humanities, Business, Education and Behavioral Sciences, Social Sciences, Maps, Life Sciences, Special Collections, and News and Microforms libraries are maintained in Pattee Library and Paterno Library. Other Libraries at University Park include the Architecture and Landscape Architecture, Earth and Mineral Sciences, Engineering, Law, and Physical and Mathematical Sciences libraries.

In addition Pattee Library houses Course Reserves Services, the Extended Hours Study Area, and Library Services for Persons with Disabilities. The Special Collections Library in Paterno Library includes Historical Collections and Labor Archives, Rare Books and Manuscripts, and the Penn State University Archives.

Among special collections of national importance are those on Arnold Bennett, Kenneth Burke, Jean Giraudoux, John O’Hara, Vance Packard, Joseph Priestley, Conrad Richter; the Allison-Shelley collection of Anglo-Americana-Germanica; and materials on Utopian literature and on Australia. The Historical Collections and Labor Archives contain a wide variety of documentary sources, including the papers of Pennsylvania leaders and businesses and records of labor unions. The most notable of these documents are those of Richard Schweiker, William Scranton, the United Steelworkers of America, and the United Mine Workers of America. The Penn State University Archives house an extensive collection of materials about the University and the surrounding community.

Faculty members may recommend books and other library material purchases by contacting the Libraries directly at www.libraries.psu.edu/answers/buybook.htm or through the faculty member in their department who serves as the library representative. Libraries subject specialists are listed on the Web at http://apps.libraries.psu.edu/selectors/links.cfm(Opens New Window). Faculty at locations other than University Park can also contact their head librarian.

Access to holdings is obtained through The CAT, a computerized catalog, part of the Library Information Access System (LIAS), available on the Web at www.libraries.psu.edu. LIAS is a dynamic, integrated information system that provides electronic access to a great variety of materials in many subject areas.

The Libraries maintain a comprehensive program of general and specialized reference and instructional services. The Libraries’ faculty teach credit courses as
part of the Library Studies Program and offer a variety of topical seminars. Introductory sessions, offered by the Libraries' Instructional Programs, are scheduled on a regular basis to familiarize faculty, students, and other library users with LIAS. Class sessions designed for specific courses can be arranged in the library to help students learn how to find, use, and evaluate relevant books, articles, Web sites, and other information resources. Assistance is available to help design assignments that use library resources to enhance student research skills and critical thinking. Library instruction rooms (hands-on labs or traditional classrooms) can be reserved for on-site instruction in the use of library resources. For information, go to: www.libraries.psu.edu/instruction/ (Opens New Window)

Penn State holds membership in the Association of Research Libraries, the Research Libraries Group, the Consortium for Institutional Cooperation, and the Online Computer Library Center (OCLC). Participation in these organizations provides faculty and students with access to the collections of more than 2,500 libraries across the United States and internationally, including major research libraries. It is the largest research library in Pennsylvania and one of four resource libraries that provide service and collections to all other libraries and citizens of the Commonwealth.

The publication, Guide to the University Libraries, offers additional information on services and programs and is available at Libraries service desks and by calling (814) 863-4240. More information is also available at www.libraries.psu.edu. Students and others are encouraged to attend the annual Libraries Open House, held each fall semester.

Media and Technology Support Services (MediaTech), http://www.medianet.libraries.psu.edu/htbin/wwform/175/wwk770 (Opens New Window)

Services include:

- Consultation for purchase of technology or audiovisual equipment: 814-863-0665
- Equipment scheduling: 814-865-5400, 26 Willard Building; e-mail to mtsseq@psulias.psu.edu
- Preview facilities: Special Services Building, 151 Standing Stone Lane (NOTE: this facility is moving to Wagner Annex, Curtin Rd. Check Web for updates.) and 26 Willard Building
- Program scheduling: University Park, 814-863-3202; other locations, 814-865-6314; e-mail to mtssmed@psulias.psu.edu
- MediaTech Repair and Installation Services: 814-863-4389

Dial Access On-Line provides audio-streamed lectures of selected classes, 24 hours, 7 days a week, for student and faculty review at http://tips.libraries.psu.edu/dialaccess (Opens New Window). With a Penn State access account, lectures of selected courses can be reviewed from any computer, including computers in the ITS labs via the Web. A Web browser, the latest version of the free RealAudio software, and a sound card are needed. For more information, call 814-863-8144.
Another important service of MediaTech is the MediaTech Info Line. This audio information service includes current weather forecasts as provided by the Campus Weather Service, the University Calendar of Events, information on town and campus movies, JOBS—Penn State's employment information service, open house schedules for the Department of Astronomy, and construction barriers on or around the University Park campus. This service may be accessed from any touch-tone telephone at 814-863-1234.

For more information about services available from MediaTech, e-mail to mtssmed@psulias.psu.edu or visit www.libraries.psu.edu/mtss (Opens New Window).

Statement of Basic Academic Admission Policies

Admission to University credit courses or degree candidacy at The Pennsylvania State University is governed by policies established by the University Faculty Senate. Although specific applications of these policies may vary from year to year, from location to location, and from program to program, all University admissions are governed by the following general policies:

1. As an institution of higher education, The Pennsylvania State University is committed to making post-high school education available to all who possess a high school diploma or its equivalent without regard to personal characteristics not related to ability, performance, or qualifications. The Pennsylvania State University does not discriminate against any person because of age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, or veteran status.

2. The primary responsibility of the University is to residents of the Commonwealth of Pennsylvania. Consequently, within limits expressed from time to time by the Board of Trustees of the University, preference shall be given to Pennsylvania residents in the various admissions processes.

3. In order to meet the variety of goals and objectives of the population, the spectrum of offerings is designed to enable persons with a variety of objectives--both degree and nondegree--to receive a higher education. Although access to educational opportunities of the University is open to all, courses offered for credit are available to those holding a high school diploma or its equivalent. Policies governing admission to degree candidacy are established by the University Faculty Senate (with delegation of policies governing admissions to graduate programs to the Graduate Faculty of the University) under a general policy of offering admission to those whose past academic performance indicates a reasonable probability of success.

4. Undergraduate students are admitted to either baccalaureate degree candidacy or associate degree candidacy. To be admitted to degree candidacy, the individual must present an academic performance record that indicates a reasonable probability of his or her success in his or her chosen program. In the case of freshman admission to undergraduate degree candidacy, performance is measured through the high school record and standardized test results. In the case of advanced standing admission, performance is measured either through success in nondegree programs and courses of the University or by success at some other institution of higher education.

5. Within the space available in particular programs and at particular locations, admission shall be offered preferentially to those whose performance record indicates the highest probability of success in the chosen program--with this process continuing until all available spaces are filled. Although exceptions to this policy may be made from time to time (for example, recipients of scholarships with restricting qualifications), these exceptions may be made
only for applicants who meet at least the minimum admission and entrance requirements.

6. If a college or school requires restrictions on its baccalaureate admissions, the priorities or targets established must include provisions to consider qualified students in each of these groups:

- **Admissions Group I**—Freshman Admissions: Applicants who hold a high school diploma or equivalent, who present fewer than 18 semester credits of baccalaureate work (from Penn State or another regionally accredited institution), who meet minimum college or school entrance requirements, and who meet minimum college or school admission standards.

- **Admissions Group II**—The Pennsylvania State University Advanced Standing Admissions: Applicants who (1) request baccalaureate degree re-enrollment, presenting 18 or more semester credits; (2) request a change from Penn State associate degree to baccalaureate degree status, presenting 18 or more applicable semester credits; (3) request a change from Penn State provisional degree to baccalaureate degree status, presenting 18 or more applicable semester credits; or (4) request a change from Penn State nondegree to baccalaureate degree status, presenting 18 or more applicable semester credits. In all advanced standing admissions at Penn State, the student must have a grade-point average of at least 2.00 and must meet the minimum entrance and advanced standing requirements of the college or school. However, a Penn State student who has had an interruption in enrollment of no fewer than four calendar years and whose cumulative grade-point average is less than 2.00 may petition for re-enrollment with academic renewal in accordance with Senate Policy 57-00.

- **Admissions Group III**—Other Advanced Standing Admissions: Applicants who have not been students at Penn State and request baccalaureate degree status at Penn State, presenting 18 or more applicable semester credits from a regionally accredited institution. In all advanced standing admissions, it is understood that the applicant must have a cumulative grade-point average of 2.00 as computed at Penn State and meet the minimum entrance and advanced standing requirements of the college or school. However, a student who has not met the entrance requirements or achieved a cumulative grade-point average of 2.00 (on a 4.00 scale) for all graded courses taken at all institutions previously attended, and who has had a four-calendar-year absence from the institution(s), may apply to enroll in credit courses as a provisional student in accordance with Senate Policy 10-00. An applicant who has had an absence from the institution(s) of fewer than four calendar years, and who has not met the entrance requirements or has achieved a cumulative grade-point average of less than 2.00, may apply to enroll in credit courses as a nondegree student in accordance with Senate Policy 14-00.

- Within these three groups, no special consideration will be given to any group; applicants will be admitted to the college or school on the basis of academic competition (e.g., SAT I scores, grade-point averages, grades
in required courses in the college or other degree-granting unit, and other evidence predictive of baccalaureate degree performance where available, valid, and reliable).

7. To ensure a proper educational mix of students and to further broaden the educational opportunities offered by the University, the University Faculty Senate and the University administration from time to time may authorize various specialized programs. These programs may permit applicants who do not meet the basic qualifications for admission to degree candidacy to be admitted to such candidacy. These programs may also permit, in selected situations, exceptional students who have not earned a high school diploma or its equivalent to enroll in University credit courses. Such specialized programs may include up to 10 percent of the total admissions group for the University in any one year and up to the maximum of 15 percent of the admissions to any geographic location of the University.

8. Within this general policy, the colleges and school of the University, with the concurrence of the University Faculty Senate, may impose certain educational background requirements (Carnegie Units) that must be completed by an individual before being admitted to degree candidacy.
Minimum Requirements for Admission to Degree Candidacy

To be eligible for admission consideration to the University as a degree candidate, either as a beginning student or as a student with advanced standing, an applicant must meet the following minimum requirements:

1. Graduation from an accredited secondary school.
2. Completion of the required units of preparatory work as indicated under the heading of Minimum Secondary School Units Required for Admission Consideration.

A secondary school diploma issued by the Pennsylvania Department of Education, or appropriate authority in another state, may be accepted as equivalent to graduation from an accredited secondary school and as equivalent to the minimum secondary school units required for admission, as indicated under the Minimum Secondary School Units Required for Admission Consideration heading, with the exception of math and foreign language.

The University accepts the definition of a secondary school unit as established by the Carnegie Foundation. A unit represents a year of work in a subject in a preparatory school or secondary school, provided that the work done in that subject is approximately one-fourth of the total amount of work regularly required in a year in the school.

The University reserves the right to deny admission to any applicant for admission for any reason the University determines to be material to the applicant's qualifications to pursue higher education.

Admission to degree candidacy is specified in terms of enrollment in a college or school of the University or in the Division of Undergraduate Studies. Entrance to a major is a subsequent step that normally occurs near the end of the second year of study. Both for admission to a college or school and for entrance to a major, a student must satisfy the requirements of the University, of the particular college or school, and of the major area. In special circumstances, the University may need to further restrict admissions to a college or school and entrance to majors because of space limitations.

Minimum Secondary School Units Required for Admission Consideration

Baccalaureate and Associate Degree Programs

See the minimum number of secondary school units required for admission
consideration to a **baccalaureate degree program** here.

See the minimum number of secondary school units required for admission consideration to an **associate degree program** can be found [here](#).
First-Year Admission

An applicant for admission as a beginning student in the first-year class must meet the minimum requirements for admission to degree candidacy prior to the time of matriculation. All offers of admission are conditional until these requirements have been met.

Each applicant is evaluated on the basis of the high school record and results of the Scholastic Assessment Test (SAT) or American College Test (ACT). This evaluation produces an evaluation index. Admission decisions are made on the basis of a review of the applicant’s evaluation index in relation to the requested area of enrollment (academic program), space availability, the quality of the credentials presented by other applicants, and such other academically relevant information deemed appropriate by the Undergraduate Admissions Office and approved by the Senate Committee on Admission, Records, Scheduling, and Student Aid.

When openings at the requested location or in the requested program of the University are filled, qualified applicants will be offered admission to their alternate choice of program or location or notified of campuses where openings still exist.

COLLEGE ENTRANCE TESTS--Applicants for first-year admission to the University are required to submit scores of the Scholastic Assessment Test (SAT) of the College Entrance Examination Board or the American College Test (ACT). SAT or ACT results of the junior-year testing periods are recommended. Exceptions to the requirement for scholastic assessment test scores will be granted to adult learners who have been out of high school for five or more years or are veterans with four or more years of service. Exceptions to the required courses completed also may be granted. Adults may be requested to submit a statement of personal goals or to participate in an interview.

SELECTION OF THE AREA OF ENROLLMENT--It is necessary for an applicant to indicate one of the academic units of the University in which he or she wants to study. If an applicant is undecided about the choice of an academic unit, he or she may seek enrollment in the Division of Undergraduate Studies.

CHANGING THE AREA OF ENROLLMENT--An applicant who has been admitted to an academic college or unit of the University may not change to another without satisfying entrance requirements of the college or other academic unit of the University to which he or she wants to transfer.

PREVIOUS ATTENDANCE AT ANOTHER COLLEGE--An applicant must state on his or her application whether he or she has ever attended any other college or university. Failure to indicate, at the time of application, previous registration at another college or university may result in refusal or cancellation of admission. An applicant who has attempted fewer than 18 semester credits at another regionally accredited college or university will be considered as a first-year applicant. An applicant who has attempted 18 or more semester credits at another
regionally accredited college or university subsequent to high school graduation will be evaluated as an advanced standing applicant.

OBTAINING AN APPLICATION -- The application for admission is available on the Web. Web applications are preferred. A paper application can be obtained as a PDF on the Web site or by writing to the Undergraduate Admissions Office, The Pennsylvania State University, 201 Shields Building, University Park, PA 16802-1294 (telephone: 814 865-5471), or by contacting an admissions officer at any University undergraduate campus.
Advanced Standing (Transfer) Admission

An applicant who has attended any regionally accredited college or institution on the college level and attempted 18 or more semester credits subsequent to high school graduation may be considered for admission with advanced standing. Attendance at any other institution must be reported at the time of application. Failure to indicate, at the time of application, previous registration at another college or university may result in refusal or cancellation of admission.

An applicant for admission with advanced standing must meet the minimum secondary school requirements for admission to degree candidacy prior to the time of matriculation. Advanced standing applicants are considered for admission on the basis of the applicant's requested academic program, space availability, and the academic quality of their work at the previously attended institution(s). A minimum cumulative grade-point average of at least 2.00 (C) out of 4.00, as computed for Penn State students, is required, although certain areas of study may have additional requirements. In addition, an applicant must be in good academic and nonacademic standing. A student who has not met the entrance requirements or achieved a cumulative grade-point average of 2.00 (on a 4.00 scale) for all graded courses taken at all institutions previously attended, and who has had a four-calendar-year absence from the institution(s), may apply to enroll in credit courses as a provisional student in accordance with Senate Policy 10-00. A student who has had an absence from the institution(s) of fewer than four calendar years, and who has not met the entrance requirements or has achieved a grade-point average of less than 2.00, may apply to enroll in credit courses as a nondegree student in accordance with Senate Policy 14-00.

Advanced standing credits may be awarded for college-level work taken at regionally accredited institutions provided the course grade earned is equivalent to a grade of A, B, or C at this University and the credits are useful to the student's program of study. An academic adviser determines which of the transferable credits are applicable to the program of study at Penn State. Credits are transferred, but grades and grade-point average are not. Advanced standing students enter the University without an average and their average begins with the completion of their first semester of study at Penn State.

Under certain circumstances, the University may need to restrict advanced standing admissions to a particular college or school because of space limitations.

Entrance to a major is an additional step beyond admission to a college or school. It involves additional academic requirements and may be subject to additional restrictions because of space limitations.

APPLICATION PROCEDURE — The application for admission is available on the Web. Web applications are required for advanced standing applicants.
In all cases where work has been taken at other institutions, an official transcript from each place of attendance must be submitted directly to the Undergraduate Admissions Office by the registrar of the institution attended. An applicant currently attending another institution also must provide a schedule of courses in progress or to be completed before enrollment at Penn State, including course name, number, description, and number of credits. The applicant's secondary school record must be submitted directly to the Undergraduate Admissions Office by the secondary school. The Undergraduate Admissions Office may require the applicant to send a catalog showing the courses that he or she has taken at the college previously attended. All credentials become part of the permanent records of the University.

ENTRANCE TO A MAJOR — An advanced standing degree candidate may be admitted to a college or school of the University. To be eligible for entrance to a major, a student must meet the entrance-to-major requirements of the University, of the college or school, and of the program area. Under certain circumstances, further restrictions or exceptions on entrance to majors may be required because of space limitations. Students are expected to work with advisers and to utilize current information about entrance requirements and restrictions when exploring academic program alternatives and making program and course selections.

CHANGING THE AREA OF ENROLLMENT — An applicant who has been admitted to an academic college, school, or major of the University may not change to another without satisfying entrance requirements of the college/school and major to which he or she wants to transfer.
Provisional Students (Degree Seeking)

An applicant seeking to pursue a degree program and holding a high school diploma or its equivalent but without the criteria required for admission as a degree candidate may enroll at the University as a provisional student. A provisional student may enroll in credit courses if the following criteria are met:

1. The student is making satisfactory progress toward admission as a degree candidate. Progress is satisfactory if a student has completed 18 credits with a minimum cumulative grade-point average of 2.00 (on a 4.00 scale). If a student has completed 18 credits with less than a 2.00, then he or she is given a warning. A student who has completed 27 credits with a cumulative grade-point average of less than 2.00 will not be permitted to enroll as a provisional student in any subsequent semester, unless the student has earned more than a 2.0 grade-point average in the most recently completed semester. No student, regardless of cumulative grade-point average, who has completed 36 credits will be permitted to enroll as a provisional student in any subsequent semester.

2. There is space available after degree candidates have been accommodated.

3. The student has not been dropped for unsatisfactory scholarship from any college or university previously attended. If a provisional applicant attended another college or university and attempted 18 or more semester credits within the last four calendar years, the applicant must have at least a 2.0 (on a 4.0 scale) cumulative collegiate average. However, if it has been four or more calendar years since the applicant attended the other college or university and the cumulative grade-point average is less than 2.0, the applicant is eligible for provisional admission consideration.

4. The student has not been dismissed or suspended for nonacademic reasons from any college or university. An applicant not in good standing at another accredited college or university for disciplinary reasons must consult with the director of the Office of Judicial Affairs for admissions clearance.

NOTE: An applicant holding a baccalaureate degree or higher is not eligible to enroll as a provisional student. The applicant is referred to the graduate nondegree program.

OBTAINING AN APPLICATION--The application for admission is available on the Web. Web applications are preferred. A paper application can be obtained by writing to the Undergraduate Admissions Office, The Pennsylvania State University, 201 Shields Building, University Park, PA 16802-1294 (telephone: 814-865-5471), or by contacting an admissions officer at any University campus.

ADMISSION OF PROVISIONAL STUDENT AS A DEGREE CANDIDATE--A provisional student may apply for admission as a baccalaureate degree candidate with advanced standing to a college or school of the University, or to the Division of Undergraduate Studies, upon completion of at least 18 credits with at least a 2.00 cumulative grade-point average. All these credits must be earned at this
University. To be eligible for admission, the provisional student must meet the academic requirements of the University and the college or school that are in effect at the time of application. An applicant who has completed at least the equivalent of two years of baccalaureate degree work before applying for admission as a baccalaureate degree candidate must have the approval of either the dean of the college or school of the University in which enrollment is desired or of the director of the Division of Undergraduate Studies if the student wants to enroll in that division. Under certain circumstances, the University may need to restrict admissions to degree candidacy in a particular college or school because of space limitations. Entrance to a major is an additional step beyond admission to a college or school and further limitations may apply. Provisional students should work with their advisers and utilize current information about college or school and major program academic requirements and restrictions in planning their programs of study toward admission to degree candidacy. After a student is admitted as a degree candidate, the dean of the college or school of enrollment decides which credits earned as a provisional student may be used to fulfill the degree requirements.
Nondegree Students

Any person having received a high school diploma or its equivalent may be permitted to enroll in credit courses (either for credit or audit) at the University. Some of these persons will be classified as nondegree students. A nondegree student who has not been dropped from degree or provisional status by this university or any other college or university for unsatisfactory scholarship will be listed as a nondegree regular student and may enroll in any number of credits not to exceed the typical credit load of a full-time student per semester if criteria 1, 2, and 3 (on the following list) are met.

A nondegree student who has been dropped from degree or provisional status by this university or any other college or university because of unsatisfactory scholarship will be listed as a nondegree conditional student and may enroll in a maximum of 12 credits per semester if criteria 1, 2, 3, and 4 (on the following list) are met.

1. The student has completed the prerequisite for the courses to be scheduled or has obtained permission from the instructor to schedule the course.
2. Space is available after degree candidates and provisional students have been accommodated.
3. The student has not been dismissed or suspended for nonacademic reasons from any college or university. An applicant not in good standing at another college or university for disciplinary reasons must consult the director of the Office of Judicial Affairs for admission clearance.
4. The student has obtained academic advising/counseling from an adviser/counselor designated by the academic unit to which admission, or reinstatement and re-enrollment, is desired.

NOTE: A student must be admitted, or reinstated and re-enrolled, as a degree candidate to apply the credits earned as a nondegree student toward fulfilling the requirements for a degree. The dean of the college or school of enrollment shall decide which credits may be used to fulfill the degree requirements.

OBTAINING AN APPLICATION--A nondegree application can be obtained by contacting the Office of the University Registrar, The Pennsylvania State University, 112 Shields Building, University Park, PA 16802-1292 (telephone: 814-865-6357), or by contacting the Registrar's office at any University location. The form is also available at www.registrar.psu.edu (Opens New Window) on the Web.

ADMISSION OF NONDEGREE STUDENT AS A DEGREE CANDIDATE--A nondegree student may apply for admission as a baccalaureate degree candidate with advanced standing to a college or school of the University, or to the Division of Undergraduate Studies, upon completion of at least 18 credits earned at this University with at least a 2.00 cumulative grade-point average. An applicant who has completed at least the equivalent of two years of baccalaureate degree work before applying for admission as a baccalaureate degree candidate must have the
approval of either the dean of the college or school in which enrollment is desired or of the director of the Division of Undergraduate Studies if the student wants to enroll in that division. To be eligible for degree admission, the nondegree student must meet the academic requirements of the University and the college or school in effect at the time of application. Entrance to a major is an additional step beyond admission. Under certain circumstances, the University may need to restrict admissions to degree candidacy or entrance to particular majors because of space limitations. After a student is admitted as a degree candidate, the dean of the college or school of enrollment decides which credits earned as a nondegree student may be used to fulfill degree requirements.
Re-enrollment

A student who was once admitted and enrolled as a degree candidate and wants to resume study is required to apply for re-enrollment consideration under the conditions specified in Faculty Senate Policy 58-00.

To resume degree candidacy, go to the Office of the University Registrar's Web site, www.registrar.psu.edu (Opens New Window), print off and fill out the Re-enrollment form, and submit it to the campus to which you want to enroll. An application for re-enrollment can also be obtained by writing to the Office of the University Registrar, The Pennsylvania State University, 112 Shields Building, University Park, PA 16802-1292; 814-865-6357, or by contacting the Registrar's Office at any University location. It is recommended that applications be submitted to the Office of the University Registrar at least one month before registration.
Reinstatement

A student who has been dropped from the University because of unsatisfactory scholarship or who has been dismissed from the University for nonacademic reasons is required to be reinstated in order to resume degree candidacy. To initiate a reinstatement request, go to the Office of the Registrar's Web site, www.registrar.psu.edu (Opens New Window), print and fill out the Reinstatement form and Submit it to the campus to which you plan to enroll, or the Office of the University Registrar, The Pennsylvania State University, 112 Shields Building, University Park, PA 16802-1292.
Leave of Absence

A student who is a candidate for an associate or baccalaureate degree may typically apply for a leave of absence for a period not to exceed one year. Under special circumstances, a leave of absence may be approved for a maximum of two years. A student who fulfills the conditions of an approved leave of absence may register upon return without applying for re-enrollment. Once submitted, the leave-time periods are not permitted to be altered. A student is permitted to advance register for the semester in which he or she is returning. An application for leave of absence and additional information can be obtained from the student's college of enrollment and is processed at the college dean's office. The form is also available at www.registrar.psu.edu (Opens New Window) on the Web.

A student who wants to interrupt study at the University to study at another institution during a semester other than the summer may request a leave of absence for this purpose. It is not necessary to obtain a leave of absence if the period of study at another institution will be limited to the summer and the student returns for the fall semester. A student planning to study elsewhere should consult with his or her academic adviser to determine the applicability of such work to the program of study. In addition, the student should contact the Undergraduate Admissions Office to determine if transfer credit is possible. The student should be cognizant of the University regulations on residence requirements and of any special requirements of the particular major. When courses are completed at another institution and an evaluation for possible transfer credit is desired, an official transcript must be submitted directly to the Undergraduate Admissions Office by the registrar of the other institution. An evaluation fee of $10 is required.
Environmental Emphasis Programs

The University offers a wide range of opportunities in undergraduate programs with environmental emphasis. Programs with an emphasis on the natural world include:

- Agriculture (various fields)
- Biology (various fields)
- Earth Sciences
- Environmental Engineering
- Environmental Systems Engineering
- Geography
- Geosciences
- Meteorology

Programs stressing human use of and impact on the natural world are offered individually or jointly by various colleges. Descriptions of individual programs and related courses emphasizing study in environmental areas can be found under these listings:

College of Agricultural Sciences

- Agricultural and Extension Education, Environmental Science option
- Agroecosystems Science
- Environmental and Renewable Resource Economics
- Environmental Resource Management
- Environmental Soil Science
- Forest Science
- Landscape Contracting
- Wildlife and Fisheries Science

Penn State Altoona

- Environmental Studies

College of Arts and Architecture

School of Architecture and Landscape Architecture:

- Architecture
- Landscape Architecture

College of Earth and Mineral Sciences

- Climatology
Earth Sciences
Earth Systems
Energy, Environmental, and Mineral Economics
Environmental Systems Engineering
Geography
Geosciences
Industrial Health and Safety
Materials Science and Engineering
Mining Engineering
Petroleum and Natural Gas Engineering
Watersheds and Water Resources

College of Education

- Environmental Education Teacher Certificate (contact 228 Chambers Building, University Park campus)

College of Engineering

- Aerospace Engineering
- Agricultural and Biological Engineering
- Architectural Engineering "Environmental Option"
- Chemical Engineering
- Civil and Environmental Engineering
- Electrical Engineering
- Engineering Science
- Industrial and Manufacturing Engineering
- Mechanical and Nuclear Engineering
- Science, Technology, and Society

College of Health and Human Development

- Recreation and Park Management

Intercollege Undergraduate Programs

- Environmental Inquiry
- Marine Sciences

The Pennsylvania State University
International Programs

For information about the University Office of Global Programs, see www.international.psu.edu (Opens New Window).
Intercollege Undergraduate Programs

Intercollege undergraduate programs draw on the resources of faculty and courses from several colleges and academic units within the University. Descriptions of these programs can be found under Intercollege Programs in this bulletin.
Reserve Officers' Training Corps

A student may select Reserve Officers' Training in the Army, Navy, Marine Corps, or Air Force. Subject to the specific requirements of the service chosen, the student selects courses in military, naval, or air science. University credit is given for these courses. In accordance with academic rules, a minimum of 6 credits earned in ROTC courses apply toward graduation requirements in any baccalaureate program. Additional ROTC credits may be applied toward graduation according to the policy of the college or degree-granting unit in which the candidate is enrolled. In many programs, the category to which ROTC credit may be applied is clearly stated. In programs where the category is not predetermined, the student's adviser and the student decide which credits the ROTC credits will replace. There is no military service obligation during the first year of the program regardless of scholarship status. Sophomore students have no obligation unless they are on a military scholarship.
Concurrent and Sequential Majors

At the baccalaureate or associate degree level, students may be approved for admission to more than one major under the Concurrent Majors program or the Sequential Majors program. A Concurrent Majors program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. A Sequential Majors program is one in which a student has graduated and then re-enrolls for another major.

Any student requesting more than one major program shall, for each major, meet the same acceptance standards and graduation requirements as met by all other students. Colleges and departments may identify and should publish any combinations of majors that would not be approved for more than one major program. In general, an undergraduate student may not combine a general major with a departmental major within the same college.

See Senate Legislation 60-00, 60-10, 60-20.

Residency Classification for Tuition Purposes

PENNSYLVANIA CLASSIFICATION

A student shall be classified as a Pennsylvania resident for tuition purposes if that student has a Pennsylvania domicile and that student's presence in Pennsylvania is not primarily for educational purposes. Domicile is a person's existing and intended fixed, permanent, and principal place of residence. A student whose presence in the Commonwealth is primarily for educational purposes shall be presumed to be a non-Pennsylvania resident for tuition purposes. The following are considerations that may be used by the University in determining whether a student is a resident for tuition purposes:

1. A student under the age of 21 is presumed to have the domicile of his/her parent(s) or legal guardian(s), unless the student has maintained continuous residence in the Commonwealth for other than educational purposes for a period of at least 12 months immediately prior to his/her initial enrollment at The Pennsylvania State University, and, the student continues to maintain such separate residence.

2. A student who has resided in the Commonwealth for other than educational purposes for at least a period of 12 months immediately preceding his/her initial enrollment at The Pennsylvania State University is presumed to have a Pennsylvania domicile.

3. A student who has not resided continually in Pennsylvania for a period of 12 months immediately preceding his/her initial enrollment at The Pennsylvania State University is presumed to have a non-Pennsylvania domicile.

4. A student requesting to be classified as a Pennsylvania resident for tuition purposes must be a citizen of the United States or a permanent resident. Permanent residents must have received the I-551 stamp approving their permanent resident status. An individual in a nonimmigrant status with the INS is not eligible for classification as a Pennsylvania resident for tuition purposes. Other extraordinary circumstances, which may qualify a student as a Pennsylvania resident for tuition purposes, will be considered on a case-by-case basis.

5. A United States government employee or member of the armed forces who was a resident of Pennsylvania immediately preceding his/her entry into government service and who has continuously maintained Pennsylvania as his/her domicile will be presumed to have a Pennsylvania domicile. Military personnel and their dependents who are assigned to an active duty station in Pennsylvania and who reside in Pennsylvania shall be charged in-state tuition rates.

6. A student receiving a scholarship, guaranteed loan, grant, or other form of financial assistance dependent upon residence in a state other than Pennsylvania is not a Pennsylvania resident for tuition purposes.

The Pennsylvania State University
RECLASSIFICATION AS PENNSYLVANIA RESIDENT

A student requesting reclassification as a Pennsylvania resident for tuition purposes must demonstrate by clear and convincing evidence that his/her domicile is in Pennsylvania, and that his/her presence in Pennsylvania is not primarily for educational purposes. Each request shall be decided individually on the basis of all facts submitted by the petitioner. Accordingly, it is not possible to list a specific combination of factors or set of circumstances which, if met, would ensure reclassification for tuition purposes.

RECLASSIFICATION PROCEDURE

1. A student may challenge his/her residence classification by filing a written petition with the person or committee designated to consider such challenges at the University. Such person or committee shall consider such petition and render a timely decision that shall constitute an exhaustion of administrative remedies.
2. Any reclassification resulting from a student's challenge or appeal shall be effective at the beginning of the semester or session during which the challenge or appeal was filed or at the beginning of the following semester or session. The decision as to which semester or session becomes the effective date shall rest with the person or committee rendering the decision on reclassification.
3. A student who changes his/her place of residence from Pennsylvania to another state is required to give prompt written notice of this change to the University and shall be considered for reclassification as a non-Pennsylvanian for tuition purposes effective with the date of such change.
4. A dependent resident student whose parent(s) or legal guardian(s) move outside of the Commonwealth may remain a Pennsylvania resident for tuition purposes if he/she continues to maintain a separate domicile within the Commonwealth.

NONRESIDENT STUDENT CLASSIFICATION

1. A student is initially classified as a nonresident based on information provided by the student when applying for admission to the University. The initial classification is made as follows:
   1. Undergraduate Student
      1. Penn State Harrisburg — Penn State Harrisburg Academic Services Officer
      2. All other locations — Undergraduate Admissions Office, The Pennsylvania State University, University Park, PA 16804-3000.
   2. Graduate Student
      1. Penn State Harrisburg — Penn State Harrisburg Academic Services
      The Pennsylvania State University
A student may challenge his/her residency classification by filing a written petition as follows:

1. Undergraduate Student
   1. Penn State Harrisburg — Penn State Harrisburg Financial Officer
   2. All other locations — Residency Appeal Officer, University Park

2. Graduate Student
   1. Penn State Harrisburg — Penn State Harrisburg Financial Officer
   2. All other locations — Residency Appeal Officer, University Park

3. Medical Student
   Controller, The Milton S. Hershey Medical Center

The appropriate University official reviews the student's petition and makes a decision.

D. The student may appeal that officer's residency decision to the University Appeals Committee on Residence Classification having representation from the Corporate Controller's Office, Undergraduate Admissions Office, and the Graduate School. The committee's decision on appeal shall be final.

PLEASE NOTE: A page of frequently asked questions concerning residency classification for tuition purposes can be found at [http://www.bursar.psu.edu/faq.cfm](http://www.bursar.psu.edu/faq.cfm) (Opens New Window).
Insurance Protection

For information about student health insurance protection, See: studentaffairs.psu.edu/health/services/insurance (Opens New Window).
Student Financial Aid

For information, see [http://www.psu.edu/studentaid](http://www.psu.edu/studentaid) (Opens New Window).
Academic Year

Penn State's academic year follows an early semester calendar consisting of fall and spring semesters. Under the early semester plan, all fall semester activities, including examinations, are concluded prior to the midwinter holiday recess in December.

The academic year consists of class days and assessment/examination days. Registration, advising, and orientation periods prior to each semester vary in length, according to the requirements for the semester. Dates are shown in the academic calendar on the Registrar's Web site: http://www.registrar.psu.edu/academic_calendar/calendar_index.html (Opens New Window). Typical class periods are either fifty or seventy-five minutes long. The average student enrolls in 12 to 19 credits per semester.

SUMMER SESSIONS--In addition to the two semesters, two six-week summer sessions are offered each summer. Some classes are offered for different enrollment periods during these twelve weeks. The Summer Sessions offer a wide range of courses at all levels. The Summer Schedule of Courses is published by the Registrar's office; the most current information is found by accessing the Registrar's home page at: http://www.registrar.psu.edu (Opens New Window). Information regarding additional summer session activities can be found at http://www.psu.edu/summersession (Opens New Window). The academic calendar can vary at campuses other than University Park. Check the campus Web site you're interested in for specific schedules.
Campuses

Penn State's twenty undergraduate campuses are geographically dispersed throughout the Commonwealth. Each campus offers its own combination of associate and baccalaureate degree programs, described under the links on this page: Penn State Abington; Penn State Altoona; Penn State Beaver; Penn State Berks; Penn State Delaware County; Penn State Erie, The Behrend College; Penn State Fayette, The Eberly Campus; Penn State Greater Allegheny; Penn State Harrisburg; Penn State Hazleton; Penn State Lehigh Valley; Penn State Mont Alto; Penn State New Kensington; Penn State Schuylkill; Penn State Shenango; Penn State University Park; Penn State Wilkes-Barre; Penn State Worthington Scranton; and Penn State York.

More information about the campuses, including student information and campus activities, can be accessed through the Penn State home page: http://www.psu.edu/.
Colleges and Other Degree-Granting Units

The following University units offer undergraduate majors leading to baccalaureate and associate degrees: Abington College; Altoona College; College of Agricultural Sciences; College of Arts and Architecture; Penn State Erie, The Behrend College; Berks College; Smeal College of Business; Capital College; College of Communications; College of Earth and Mineral Sciences; College of Education; College of Engineering; College of Health and Human Development; College of Information Sciences and Technology; College of the Liberal Arts; Eberly College of Science; University College (which comprises several Penn State campuses); and the School of Nursing. The Pennsylvania College of Technology in Williamsport provides an alternative educational setting in which students may enroll in selected degree programs.

Students who do not want to enroll immediately in one of the colleges or other degree-granting units may enroll in the Division of Undergraduate Studies, typically for one year or slightly more.

Majors leading to baccalaureate degrees are described in this bulletin under buttons for the colleges and other degree-granting units. Information is also accessible on the Internet through www.psu.edu (the Penn State home page).
Registration

Dates for advising, registration, and classes are given in the University calendar at http://registrar.psu.edu/academic_calendar/calendar_index.cfm (Opens New Window). Registration information for Continuing Education courses is available from the Continuing Education office at each campus or service area. Students with an active University Access Account register through eLion at http://elion.psu.edu (Opens New Window). Schedules at campuses other than University Park may vary. Check the Web site for the campus you're interested in for specific schedules.
Grading System

CREDITS--Credits are awarded on the semester-hour basis. The distribution of time between class activities and outside preparation varies from course to course; for the average student, however, at least forty hours of work per semester planned and arranged by the University faculty are required to gain 1 credit.

GRADING SYSTEM

- **A, A- (EXCELLENT)** Indicates exceptional achievement.
- **B+, B, B-, C+ (GOOD)** Indicates extensive achievement.
- **C, D (SATISFACTORY)** Indicates acceptable achievement.
- **F (FAILURE)** Indicates inadequate achievement necessitating a repetition of the course to secure credit.

The grades of A, A-, B+, B, B-, C+, C, D, and F indicate a gradation in quality from Excellent to Failure and are assigned the following grade-point equivalents:

**Grade, Grade-Point Equivalent**

- **A, 4.00**
- **A-, 3.67**
- **B+, 3.33**
- **B, 3.00**
- **B-, 2.67**
- **C+, 2.33**
- **C, 2.00**
- **D, 1.00**
- **F, 0**

Grade points are determined by multiplying the grade-point equivalent of the grade earned by the number of credits for the subject, for example, ENGL 015 GWS, 3 credits, with a grade of A (grade-point equivalent 4.00) yields 12 grade points.

For further information, see: [http://www.registrar.psu.edu/grades/grading_system.cfm](http://www.registrar.psu.edu/grades/grading_system.cfm)
Policies and Rules

It is the responsibility of students to be familiar with the rules, regulations, and procedures of the University. Policies and Rules includes information on academic procedures, code of conduct, general University policies, privacy rights of students, and responsibilities for community living. Paper copies of Policies and Rules are available from the information desk in the HUB-Robeson Center and from each college dean's office at University Park campus and the Office of Student Affairs at other campuses. University policies are available online at studentaffairs.psu.edu/judicial.

For academic policies and rules, see http://www.senate.psu.edu/policies.
Requirements for Graduation

To graduate, a candidate must complete the course requirements for the candidate's major and:

1. earn at least a C (2.00) cumulative grade-point average for all courses taken at the University;
2. earn at least a C grade in each major course designated by the major as a C-required course.
Residence Required for Degree

Every candidate for a degree shall earn as a degree candidate at least 36 of the last 60 credits for a baccalaureate degree and at least 18 of the last 30 credits for an associate degree in courses offered by the University or in cooperative degree programs established by formal agreement and approved by the University Faculty Senate.

A candidate for a first baccalaureate degree shall earn the last 60 credits required for that degree within five calendar years. An extension of time shall be granted for intervening military service.

A course schedule, including courses offered by resident education or Continuing Education, is made by each student.

A typical credit load for a full-time student is defined to be from 12 to 19 credits per semester. Students are not permitted to advance register or register in the normal registration period for more than 19 credits. Students are permitted to add courses beyond this maximum 19 credits after consultation with the adviser during the first ten calendar days of the semester.
Planning a Degree Program

Primary responsibility for the successful completion of a degree program lies with the student. The key to meeting this responsibility is personal involvement in academic program planning. To plan a program of study that will best meet individual goals and interests, students must know the requirements and restrictions of the department, college or other degree-granting unit, and the University; know the sources of academic information; work closely with an adviser in examining programs and course requirements and alternatives; and consult the Undergraduate Degree Programs Bulletin.

The University comprises a family of campuses located throughout the Commonwealth (see http://www.psu.edu/ur/cmpcoll.htm (Opens New Window)). For most degree programs, a student may begin his or her studies at any one of the campuses. More than 160 baccalaureate majors, more than 25 associate degree majors, and more than 7,000 undergraduate courses are offered by the University. Clearly, each campus cannot offer every academic program or every course. As a result, admission to several academic programs is restricted, and students selecting these programs may be required to begin their studies at a specified campus. In other cases, admission to certain academic programs must be approved when a first-year student enters the University; transfer into these programs at a later point in a student's career is not possible. For these reasons, it is imperative that a student understand both program and course limitations at the campus of enrollment.

The many programs at Penn State allow varying degrees of flexibility. An early decision to pursue a highly structured program enables the student to complete the program in the optimum length of time by taking the required courses in a sequence that allows the smoothest progression from one level to the next. Even the most regulated programs, however, allow choices within given boundaries. Other programs allow a considerable range of choices in the completion of the requirements. Students should be aware of possible difficulties in transferring from a flexible program to a more highly structured program. Whether a program is highly structured or quite flexible, it is extremely important that the student understand program requirements when enrolling in the University.

Information concerning the University, its academic programs, course offerings, campuses, and academic organization is available from the following sources:

FIRST-YEAR TESTING, CONSULTING, AND ADVISING PROGRAM--First-year students entering Penn State are scheduled, through the Division of Undergraduate Studies, for a comprehensive testing and advising program that provides an overview of the academic opportunities and activities available to students. The First-Year Testing, Consulting, and Advising program also provides individual educational planning interviews in which students may discuss their abilities and interests in terms of Penn State programs.
INFORMATION FOR NEW STUDENTS--The Office for Communication provides first-year students as well as advanced standing and change-of-assignment students at the University Park campus with comprehensive information regarding the essential academic and student development opportunities of the campus and the University in general beginning with a new student's acceptance to a campus and continuing through completion of his/her first semester.

Through programs offered in cooperation with the colleges' academic units and various student service operations, new students are introduced to the intellectual and scholarly expectations of the University, to the skills needed for advanced study and lifelong learning, and to the student development opportunities with academic merit. In addition, this office helps inform students of the required procedures for matriculation and offers a perspective on college life, including practical information about important dates, times, and locations (e.g., arrival day, first day of classes, course drop/add).

During arrival week each semester, new students receive instruction and advice about their courses of study, including help with registration and class schedule adjustments, and they participate in special activities.

ACADEMIC ADVISERS--Each student is assigned a primary academic adviser in his or her college, school, or the Division of Undergraduate Studies. Students can find their adviser's name and contacts information using the Adviser Information application on eLion (http://www.eLion.psu.edu). The adviser is available to help a student plan an academic program, schedule each semester's courses, and provide information about majors. The adviser will also refer a student to other appropriate sources of information.

ACADEMIC ADVISING CENTERS--Academic advising centers are located in every college at University Park and at all other Penn State undergraduate locations. Centers provide advising and information about academic programs. Lists of University Park centers and centers at other locations are available online. University Park: http://www.psu.edu/dus/handbook/upinfo.html; other locations: http://www.psu.edu/dus/handbook/cesinfo2.html.

WEB SITES--Penn State's home page, http://www.psu.edu, provides information on the University and each of its colleges.

SCHEDULE OF COURSES--Course offering and registration information is available on the Web at http://www.registrar.psu.edu. The Schedule of Courses information is updated once each day and provides current information about the courses being offered at all Penn State campuses.
Academic Definitions

The following definitions, referring to degrees, majors, options, minors, and concurrent or sequential majors programs, have been adopted by the University Faculty Senate:

**Associate Degree**--Two-year majors that, with a few exceptions, provide concentrated instruction to prepare graduates for specialized occupational assignments.

**Baccalaureate Degree**--An award signifying a rank or level of educational attainment. Particular types of baccalaureate degrees identify educational programs having common objectives and requirements. Degree programs may provide academic, preprofessional, or professional experiences and preparation. Majors lead to a baccalaureate degree. Each student must select a major within a baccalaureate degree type. If options are offered within a major, a student selects one. The student may also elect to enroll in a minor to supplement the major. Alternatively, the student may seek to enroll in multiple majors within the same type of baccalaureate degree or to enroll in a simultaneous degree program. A baccalaureate program of study shall consist of no less than 120 credits. Students may elect to take courses beyond the minimum requirements of a degree program.

**Major**--A plan of study in a field of concentration within a type of baccalaureate degree. Colleges and other degree-granting units may have common requirements for all of their majors. Each major may have requirements identified in Prescribed, Additional, and Supporting categories of courses.

**Option**--A specialization within a major that should involve at least one-third of the course work credits required for the major, but need not be more than 18 credits. All options within a major must have in common at least one-fourth of the required course work credits in the major. A student can only be enrolled in an option within his/her own major.

**Minor**--A minor is defined as an academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines, with at least 6 but ordinarily not more than half of the credits at the 400 course level. Total requirements are to be specified and generally limited to 18 to 21 credits. Entrance to some minors may require the completion of a number of prerequisites, including courses, portfolios, auditions, or other forms of documentation that are not included in the total requirements for the minor. All courses for a minor require a grade of C or above.

**Concurrent and Sequential Majors Programs**--At the baccalaureate or associate degree level, students may be approved for admission to more than one major under the Concurrent Majors Program. A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same
semester. Concurrent majors must all be at the baccalaureate or associate degree level. Under the Sequential Majors Program, upon graduation from an associate or baccalaureate degree program, a student may apply for re-enrollment in another undergraduate degree program.
Baccalaureate Degrees Granted

Undergraduate majors offered at Penn State lead to one or more of the following baccalaureate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Architectural Engineering (five-year program), Bachelor of Architecture (five-year program), Bachelor of Design, Bachelor of Fine Arts, Bachelor of Humanities, Bachelor of Landscape Architecture (five-year program), Bachelor of Music, Bachelor of Musical Arts, and Bachelor of Philosophy. Not all degrees are offered at every location. Baccalaureate degrees offered at Penn State include both those that are designed to provide an academic (including preprofessional) experience and those that are specifically designed to provide professional preparation. To ensure excellence, all professionally oriented degree majors provide a strong academic base. The Bachelor of Arts degree (with a given major) is an academic degree; the Bachelor of Science degree (with a given major) and the bachelor's degree in any subject area (e.g., Bachelor of Architecture) are professional degrees. The Bachelor of Philosophy degree, described in the Intercollege Undergraduate Programs section of this bulletin, is planned individually and may be designed to serve either academic or professional purposes.

BACHELOR OF ARTS-- See Bachelor of Arts Degree Requirements (Opens New Window).

BACHELOR OF HUMANITIES--Bachelor of Humanities degree majors are required to take 18 credits (referenced below). In addition, students are expected to complete credits required by their college and major.

PRESCRIBED COURSES: 6 credits
I HUM 300W(3) and I HUM 400(3)

SUPPORTING COURSES AND RELATED AREAS: 12 credits
Select 1 course each from four different major/program offerings:
A&A, AMSTD, ART H, C ART, C HIS, C MUS, CAMS, COMM, CMLIT, ENGL, ENLSH, HCOMM, HIST, LIT, MUSIC, PHIL, PHLOS, RL ST, SPCOM, THTRE, or courses from the School of Humanities (Penn State Harrisburg, the Capital College) approved list.

BACHELOR OF PHILOSOPHY--The Bachelor of Philosophy degree is the only one not offered through any college or school but rather on a University-wide basis. This degree allows students to plan their own programs, in conjunction with a faculty preceptor, within the framework of the academic program of the University. A description of this degree is found in the Intercollege Undergraduate Programs section of this bulletin.
WHAT IS GENERAL EDUCATION?

The inclusion of General Education in every degree program reflects Penn State's deep conviction that successful, satisfying lives require a wide range of skills and knowledge. These skills include the ability to reason logically and quantitatively and to communicate effectively; an understanding of the sciences that makes sense of the natural environment; a familiarity with the cultural movements that have shaped societies and their values; and an appreciation for the enduring arts that express, inspire, and continually change these values. General Education, in essence, augments and rounds out the specialized training students receive in their majors and aims to cultivate a knowledgeable, informed, literate human being.

Penn State's General Education program is designed to enable students to:

- acquire knowledge through critical information gathering, including reading and listening, computer-assisted searching, and scientific experimentation and observation;
- analyze and evaluate, where appropriate in a quantitative manner, the acquired knowledge;
- integrate knowledge from a variety of sources and fields;
- make critical judgments in a logical and rational manner;
- develop the skills to maintain health and understand the factors that impinge upon it;
- communicate effectively, both in writing and orally, and using the accepted methods for presentation, organization, and debate particular to their disciplines;
- seek and share knowledge, independently and in collaboration with others;
- gain understanding of international interdependence and cultural diversity and develop consideration for values, lifestyles, and traditions that may differ from their own;
- comprehend the role of aesthetic and creative activities expressing both imagination and experience.

Courses within the structure of General Education become an integral part of the overall educational experience. These courses may be relevant to a major or to an individual's interests. Students are encouraged to consider how a course might be useful to their current interests and goals. An important part of academic planning is working with an academic adviser not only to understand the role of General Education requirements, but also to make sure that course selections complement the academic requirements of a student's specific major.

Components of General Education

The typical baccalaureate Penn State academic program requires the completion of between 120 and 130 credits. The General Education requirements are common to all degree programs and compose about one-third of the course work (45 credits).
All students must also complete a writing-across-the-curriculum course as part of their degree program. For simplicity, those courses are included with the General Education program as described in this bulletin. The course selections are designed to provide students with a well-rounded academic experience within an integrated curriculum that allows for individual flexibility. The components of the program are:

- **Skills courses** that help develop quantitative and communication skills.
- **Studies in the Knowledge Domains of the Arts, Humanities, and the Sciences** (including the Health Sciences, Natural Sciences, and the Social and Behavioral Sciences) that provide a broad overview of the world in which we live.
- **First-Year Seminars** (FYS) that help introduce students to the scholarly community of the University.
- **Writing Intensive** courses of the "Writing Across the Curriculum" component that further enhance writing skills.
- **United States Cultures and International Cultures** that provide opportunities to increase understanding of the relationship between people of different cultures and widen international perspective.

### General Education Requirement Descriptions

#### SKILLS

**Writing / Speaking**

*Courses with the GWS designation satisfy this component.*

It is the objective of these courses to teach students to communicate information clearly and set forth their beliefs persuasively both orally and in writing. In particular, it is expected that students become sufficiently proficient in writing, such that their expository prose meets the expectations of educated readers in both form and style.

**Quantification**

*Courses with the GQ designation satisfy this component*

The objective of the quantification courses is to teach the students to work with numbers so as to measure space, time, mass, forces, and probabilities; to reason quantitatively; and to apply basic mathematical processes to daily work and everyday living.

#### KNOWLEDGE DOMAINS

**Health and Physical Activity**

*Courses with the GHA designation satisfy this component*

Courses in the Health and Physical Activity area focus on the theory and practice of life span wellness and fitness activities, and on the knowledge, attitudes, habits, and skills needed to live well. The courses include such diverse topics as diet,
exercise, stress management, the wise use of leisure time, alcohol consumption and drug use, sexual health awareness, and safety education. Courses may be knowledge-focused (about aspects of the biological, social, and behavioral aspects of healthful living) or practice-focused (emphasize attitudes, habits, and skills needed to engage in healthful living and can include traditional dance, exercise, and sport activity classes) or integrated in any manner.

## Natural Sciences
*Courses with the GN designation satisfy this component*

The Natural Sciences reveal the order, diversity, and beauty of nature and in so doing enable students to develop a greater appreciation of the world around them. These courses help students to understand the nature of science through exposure to the broad divisions of science--physical science, biological science, earth science, and applied natural science. In these courses the students will be taught how to acquire scientific factual information, to use scientific methodology and to develop an appreciation of the natural world. Students should gain an understanding of how scientists reason and how they draw conclusions and think critically.

## Arts
*Courses with the GA designation satisfy this component*

Courses taught in the area of the Arts are expected to help students understand and appreciate some of the more important creative works, traditions, literature, and history of the arts and architecture. General Education Arts courses aim to teach students to recognize the comprehensive role of arts and architecture as an expression of the cultural values of a society and the need to preserve these expressions for the benefit of future generations.

Through the courses in the Arts area, students should recognize aesthetic values as an integral part of society's essential need and gain lifelong benefits through the acquisition and appreciation of arts-related skills. Students should become conversant with the terminology, techniques, attitudes, ideas, and skills that the arts comprise so as to understand how humankind relates to the arts.

## Humanities
*Courses with the GH designation satisfy this component*

Humanistic studies are divided into four categories:

1. (1) literature,
2. (2) history and culture,
3. (3) advanced language, and
4. (4) philosophy.

The study of the Humanities should develop competency in interpretive understanding of the human condition and of the values inherent in it. This interpretive understanding should evolve into the development of insights and a critical evaluation of the meaning of life, in its everyday details as well as in its historical and universal dimensions. Through this development students should acquire knowledge of and concern for the humanistic values that motivate and
inform all humanistic studies.

**Social and Behavioral Sciences**
*Courses with the GS designation satisfy this component*

Social and Behavioral Sciences courses develop students' understanding of the diverse personal, interpersonal, and societal forces that shape people's lives and teach them how to approach these subjects through the concepts, principles, and methods of scientific inquiry. The general goal is a theoretical understanding of the interrelationships of the determinants of the organization of human behavior. These courses are expected to introduce students to the scientific analysis of:

1. (1) the forms, practices, and theories of politics;
2. (2) the nature and operation of economic analysis;
3. (3) the interrelationships of social institutions;
4. (4) the dynamics of individual and group behavior and change; and
5. (5) the processes and functions of human communication.

Through the application of the methodologies of the Social and Behavioral Sciences, students should develop an understanding of the multiple nature of causality in social settings. The Social and Behavioral Sciences require a comprehensive, integrative, empirical, and theoretical view of the social world.

*Note:* Some colleges or majors might require the completion of specific GWS, GQ, GHA, GN, GA, GH, and/or GS courses.

**ADDITIONAL REQUIREMENTS**

**First-Year Seminar**
*Courses with the suffix S, T, or X or PSU abbreviation satisfy this requirement*

The First-Year Seminars (FYS) are designed to engage students in learning, acquaint them with the learning tools and resources available at Penn State and orient them to the scholarly community from the outset of their undergraduate studies in a way that will bridge to later experiences in their chosen majors. In addition, the FYS facilitate students' adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life and introduce them to their responsibilities as members of the University community. The seminars are taught by full-time, regular Penn State faculty and, as the name implies, are conducted in small sections, thus providing opportunities for students to develop relationships with full-time faculty and other students in academic areas of interest to them.

Each baccalaureate student must complete at least 1 credit of the First-Year Seminar. Some colleges may, however, call for the completion of more than 1 credit of the FYS. Students will typically enroll in the FYS offered by the college in which they plan to graduate. If a student changes his/her college of enrollment, it is not necessary to retake the FYS offered by the new college.

Not all seminars are available at all Penn State campuses and some enrollment restrictions apply. Associate degree students are strongly encouraged to complete
the FYS requirement even though they are not required to do so.

NOTE: Beginning with the 2009 summer session, the First-Year Seminar requirement will be replaced by First-Year Engagement requirements for each University Park academic college, each of the nineteen Commonwealth campuses, and the Division of Undergraduate Studies. Students at the University Park campus will be required to complete at least 1 credit of first-year seminar and meet any other first-year requirements specified by their home college. Students at the Commonwealth campuses will be required to complete the first-year experiences specified by their campus. First-year students entering Penn State in summer 2009 and thereafter should consult their enrollment home for these requirements.

United States Cultures
Courses with the US designation satisfy this requirement

A course that fulfills the United States Cultures requirement must strive to increase students' understanding of contemporary United States society. Such a course need not focus exclusively on the present and may concern a historical subject.

Courses with the United States Cultures designation will include two or more of the following components and will include those components in the graded evaluation of student performance:

1. Cultivate student knowledge of issues of social identity such as ethnicity, race, class, religion, gender, physical/mental disability, age, or sexual orientation;
2. Convey to students knowledge of different United States values, traditions, beliefs, and customs;
3. Increase student knowledge of the range of United States cultural achievements and human conditions through time;
4. Increase student knowledge of United States social identities not in isolation, but in relation to one another (for example, the interaction of race or gender with socioeconomic status).

International Cultures
Courses with the IL designation satisfy this requirement

A course that fulfills the International Cultures requirement must strive to increase student knowledge of the variety of international societies and may deal to some extent with U.S. culture in its international connections. It need not focus exclusively on the present and may, indeed, be a historical subject. Courses with the International Cultures designation will do two or more of the following:

1. Cultivate student knowledge of the similarities and differences among international cultures;
2. Convey to students knowledge of other nations' cultural values, traditions, beliefs, and customs;
3. Increase students' knowledge of the range of international cultural achievements and human conditions through time;
4. Increase students' knowledge of nations and cultures not in isolation, but in relation to one another.

**Writing Across the Curriculum**

*Courses with the suffix W, M, X, or Y satisfy this requirement*

Developing the skill to communicate by means of the written word is extremely important. Courses other than General Education English composition courses emphasize the ability of students to write. Colleges and/or departments have established "W" courses in specific programs. Students are required to complete at least 3 credits of writing-intensive courses offered within their major or college of enrollment.

Typically, "W" courses include writing assignments that relate clearly to the course objectives and serve as effective instruments for learning the subject matter of the course. In writing-intensive courses, assignments are designed to help students investigate the course subject matter, gain experience in interpreting data or the results of research, shape writing for a particular audience, or practice the type of writing associated with a given profession or discipline.

Opportunities for students to receive written feedback from the instructor and to apply the instructor's feedback to their future writing are built into the writing courses. A writing-intensive course may also include peer review of written work, tutorial assistance, instructor conferences, group writing projects, the use of writing or learning centers, teaching assistant feedback, and classroom discussions of assigned readings about writing.

Courses that are designed to develop the students' writing competence are identified by the suffix "W, M, X, or Y" in the Undergraduate Bulletin and the Schedule of Courses. Both baccalaureate and associate degree students complete 3 credits in this area.
Program Structure--Baccalaureate and Associate

The Baccalaureate Degree General Education Program

The baccalaureate degree General Education program consists of 45 credits that are distributed among two General Education components: (1) Skills (15 credits) and (2) Knowledge Domains (30 credits) in the Natural Sciences, Arts, Humanities, Social and Behavioral Sciences, and Health and Physical Activity. Every baccalaureate degree student also completes the First-Year Seminar, United States Cultures and International Cultures, and Writing Across the Curriculum requirements.

A restriction is placed on students in majors that are closely linked to the Knowledge Domains of Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences to ensure that they participate in the full breadth of General Education. These students may not use a course in their academic major to satisfy one of the Knowledge Domains requirements. For example, an Economics major may not use an economics course to fulfill his/her social and behavioral sciences requirement. Also, students may not count courses cross-listed with courses in their major to fulfill one of the General Education Knowledge Domain, e.g., a Theatre major may not register for THEA 208 (GA;US;IL)/AAAS 208 (GA;US;IL) and have it count in the Arts requirement.

SKILLS (15 credits)

Writing/Speaking (9 credits)
Courses with the GWS designation satisfy this component.

Quantification (6 credits)
Courses with the GQ designation satisfy this component. (3-6 credits are selected from mathematics, applied mathematics, and statistics; 3 credits may be selected from computer science or symbolic logic.)

KNOWLEDGE DOMAINS (30 credits)

Health and Physical Activity (3 credits)
Courses with the GHA designation satisfy this component.

Natural Sciences (9 credits)
Courses with the GN designation satisfy this component.

Arts (6 credits)
Courses with the GA designation satisfy this component.

Humanities (6 credits)
Courses with the GH designation satisfy this component.

Social and Behavioral Sciences (6 credits)
Courses with the GS designation satisfy this component.

ADDITIONAL REQUIREMENTS

Baccalaureate degree students must complete one First-Year Seminar (S, T, or X suffix, or PSU abbreviation), 3 credits of United States Cultures (US) and 3 credits of International Cultures (IL), and 3 credits of Writing Across the Curriculum (W, M, X, and Y). These requirements may be completed by designated courses that also meet other degree or General Education requirements.

FLEXIBILITY OF THE BACCALAUREATE DEGREE GENERAL EDUCATION REQUIREMENTS

Penn State wants students to use General Education to experiment and explore, to take academic risks, to discover things they did not know before, and to learn to do things they have not done before. To that end, the General Education program extends the concept of flexibility to all aspects of the degree program.

Students may, with the permission of their adviser and dean's representative:

1. substitute a 200- to 499-level course in an area of General Education for a course found on the General Education list. For example, a student may take a 400-level course in history and use it to meet the General Education requirement satisfied by a comparable lower-level history course.

2. substitute a foreign language at the twelfth credit level of proficiency, as measured by the Penn State foreign language offerings, for 3 credits in any of the categories of General Education. Baccalaureate degree students may substitute study in a foreign/second language at the twelfth credit level of proficiency or higher for any three credits in any of the categories of general education only if those three credits are in language study beyond their degree requirements.*

3. substitute a third course in one of the Knowledge Domains areas of Arts, Humanities, or Social and Behavioral Sciences for a second course in one of the other areas. For example, a student might take 3 courses in the Arts, two courses in the Humanities, and only one course in the Social and Behavioral Sciences. This substitution is often referred to as the 9-6-3 sequence, representing the 9 credits, 6 credits, and 3 credits completed in place of the specified 6-6-6.*

4. meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their college dean's office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.

5. meet the First-Year Seminar (FYS) requirement through completion of a FYS course offered by any unit of the University. Thus, a student who successfully completes a FYS course in one college, prior to transferring to another college, will not be required to complete another FYS. However, since there
are various modes of offering a FYS throughout the University, students transferring to a new college may find that a required course that is also a FYS must still be taken.

*Please note: The use of these two substitutions (No. 2 and No. 3 above), either alone or in combination, may not lead to the complete elimination of any area in the skills or knowledge domains categories in the student's General Education program.

* Three credits of United States Cultures (US) and International Cultures (IL), and 3 credits of Writing Across the Curriculum (W, M, X, and Y) may be designated courses that also meet other degree or General Education requirements.

The Associate Degree General Education Program

The associate degree General Education program consists of 21 credits that are distributed among two General Education components: (1) Skills\(6\) credits in courses that develop communicative and quantitative skills; and (2) Knowledge Domains\(12\) credits in the Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences, with an additional 3 credits in any General Education area. Associate degree students have a 3-credit requirement and may choose either a United States Cultures (US) course or an International Cultures (IL) course, and must complete a 3-credit writing intensive course (W). While associate degree students are not required to complete a First-Year Seminar, they are encouraged to participate in such a seminar if the opportunity to do so exists.

A restriction is placed on students in majors that are closely linked to the Knowledge Domains areas of Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences, in order to ensure that they participate in the full breadth of General Education. These students may not use a course in their academic major to satisfy one of the Knowledge Domains area requirements. For example, an Economics major may not use an economics course to fulfill his/her social and behavioral sciences requirement.

SKILLS (6 credits)

Writing/Speaking (3 credits)
Courses with the GWS designation satisfy this component.

Quantification (3 credits)
Courses with the GQ designation satisfy this component. (3 credits are selected from mathematics, applied mathematics, statistics, computer science, or symbolic logic)

KNOWLEDGE DOMAINS (12 credits)

Natural Sciences (3 credits)
Courses with the GN designation satisfy this component.

Arts (3 credits)
Courses with the GA designation satisfy this component.
**Humanities (3 credits)**
Courses with the GH designation satisfy this component.

**Social and Behavioral Sciences (3 credits)**
Courses with the GS designation satisfy this component.

**SKILLS OR KNOWLEDGE DOMAINS (3 credits)**
Any General Education course can be taken to satisfy these 3 credits.

**ADDITIONAL REQUIREMENTS**

Every associate degree student will also complete, as part of his or her additional associate degree requirements, 3 credits of United States Cultures (US) or 3 credits of International Cultures (IL) and 3 credits of Writing Across the Curriculum (M, W, Y, and X) requirements.

**Flexibility of the Associate Degree General Education Requirements**

The General Education program extends the concept of flexibility to all aspects of the degree program. Penn State wants students to use General Education as an opportunity to experiment and explore, to take academic risks, to discover things they did not know before, and to learn to do things they have not done before.

To these ends, students may, with the permission of their adviser and dean's representative:

1. substitute a 200- to 499-level course for an Arts, Humanities, Natural Sciences, or Social and Behavioral Sciences course found on the General Education list. For example, a student may take a 400-level course in history and use it to meet the General Education requirement satisfied by a comparable lower level history course.

2. meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their college dean's office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.

3. Three credits of the required 21 credits of General Education courses are to be selected from any of the following General Education areas: Writing/Speaking, Quantification, Natural Sciences, Arts, Humanities, or Social and Behavioral Sciences.
General Education Course Designations

Courses that appear in this Bulletin with the following designations have been approved for General Education and for additional requirements.

General Education Skills Courses

- GQ--Quantification Courses
- GWS--Writing/Speaking Courses

General Education Knowledge Domains Courses

- GA--Arts Courses
- GH--Humanities Courses
- GHA--Health and Physical Activity Courses
- GN--Natural Sciences Courses
- GS--Social and Behavioral Sciences Courses

ADDITIONAL REQUIREMENTS

United States Cultures and International Cultures Courses

- IL--International Cultures Courses
- US--United States Cultures Courses
- US; IL--United States Cultures and International Cultures Courses
- U--United States Cultures and/or International Cultures and Honors
- Y--United States Cultures and/or International Cultures and Writing Across the Curriculum

First-Year Seminar

- PSU--First-Year Seminar
- S--First-Year Seminar
- T--First-Year Seminar, Honors
- X--Writing Across the Curriculum in a First-Year Seminar

THE BACCALAUREATE DEGREE
GENERAL EDUCATION PROGRAM

The baccalaureate degree General Education program consists of 45 credits that are distributed among two General Education components:

1. (1) Skills (15 credits) and
2. (2) Knowledge Domains (30 credits) in the Natural Sciences, Arts, Humanities, Social and Behavioral Sciences, and Health and Physical Activity. Every baccalaureate degree student also completes the First-Year Seminar, United States Cultures and International Cultures, and Writing Across the Curriculum requirements.

A restriction is placed on students in majors that are closely linked to the Knowledge Domains of Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences to ensure that they participate in the full breadth of General Education. These students may not use a course in their academic major to satisfy one of the Knowledge Domains requirements. For example, an Economics major may not use an economics course to fulfill his/her social and behavioral sciences requirement. Also, students may not count courses cross-listed with courses in their major to fulfill one of the General Education Knowledge Domain, e.g., a Theatre major may not register for THEA 208 (GA;US;IL) / AAAS 208 (GA;US;IL) and have it count in the Arts requirement.

Writing Across the Curriculum (W, M, X, Y) 3 credits**

*NOTE: Beginning with the 2009 summer session, the First-Year Seminar requirement will be replaced by First-Year Engagement requirements for each University Park academic college, each of the nineteen Commonwealth campuses, and the Division of Undergraduate Studies. Students at the University Park campus will be required to complete at least 1 credit of first-year seminar and meet any other first-year requirements specified by their home college. Students at the Commonwealth campuses will be required to complete the first-year experiences specified by their campus. First-year students entering Penn State in summer 2009 and thereafter should consult their enrollment home for these requirements.

**May be completed by designated courses that also meet other degree or General Education requirements.

Flexibility of the Baccalaureate Degree General Education Requirements

Penn State wants students to use General Education to experiment and explore, to take academic risks, to discover things they did not know before, and to learn to do things they have not done before. To that end, the General Education program extends the concept of flexibility to all aspects of the degree program.

Students may, with the permission of their adviser and dean's representative:

1. Substitute a 200- to 499-level course in an area of General Education for a course found on the General Education list. For example, a student may take a 400-level course in history and use it to meet the General Education requirement satisfied by a comparable lower-level history course.

2. Substitute a foreign language at the twelfth credit level of proficiency, as measured by the Penn State foreign language offerings, for 3 credits in any of the categories of General Education. Baccalaureate degree students may substitute study in a foreign/second language at the twelfth credit level of proficiency or higher for any three credits in any of the categories of general education only if those three credits are in language study beyond their degree requirements.*

3. Substitute a third course in one of the Knowledge Domains areas of Arts, Humanities, or Social and Behavioral Sciences for a second course in one of the other areas. For example, a student might take 3 courses in the Arts, two courses in the Humanities, and only one course in the Social and Behavioral Sciences. This substitution is often referred to as the 9-6-3 sequence, representing the 9 credits, 6 credits, and 3 credits completed in place of the specified 6-6-6.*

4. Meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their College Dean's
Office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.

5. Meet the First-Year Seminar (FYS) requirement through completion of a FYS course offered by any unit of the University. Thus, a student who successfully completes a FYS course in one college, prior to transferring to another college, will not be required to complete another FYS. However, since there are various modes of offering a FYS throughout the University, students transferring to a new college may find that a required course that is also a FYS must still be taken.

*The use of these two substitutions (No. 2 and No. 3 above), either alone or in combination, may not lead to the complete elimination of any area in the skills or knowledge domains categories in the student's general education program.
THE ASSOCIATE DEGREE GENERAL EDUCATION PROGRAM

The associate degree General Education program consists of 21 credits that are distributed among two General Education components:

1. (1) Skills: 6 credits in courses that develop communicative and quantitative skills; and
2. (2) Knowledge Domains: 12 credits in the Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences, with an additional 3 credits in any General Education area.

Associate degree students have a 3-credit requirement and may choose either a United States Cultures (US) course or an International Cultures (IL) course, and must complete a 3-credit writing intensive course (W). While associate degree students are not required to complete a First-Year Seminar, they are encouraged to participate in such a seminar if the opportunity to do so exists.

A restriction is placed on students in majors that are closely linked to the Knowledge Domains areas of Natural Sciences, Arts, Humanities, and Social and Behavioral Sciences, in order to ensure that they participate in the full breadth of General Education. These students may not use a course in their academic major to satisfy one of the Knowledge Domains area requirements. For example, an Economics major may not use an economics course to fulfill his/her social and behavioral sciences requirement.

**Flexibility of the Associate Degree General Education Requirements**

The General Education program extends the concept of flexibility to all aspects of the degree program. Penn State wants students to use General Education as an opportunity to experiment and explore, to take academic risks, to discover things they did not know before, and to learn to do things they have not done before.

To these ends, students may, with the permission of their adviser and dean's representative:

1. Substitute a 200- to 499-level course for an Arts, Humanities, Natural Sciences, or Social and Behavioral Sciences course found on the General Education list. For example, a student may take a 400-level course in history and use it to meet the General Education requirement satisfied by a comparable lower level history course.
2. Meet the United States Cultures (US) and International Cultures (IL) requirement through completion of an experiential learning program or practicum (one-semester or year long) approved by their college dean's Office. Approved Penn State Education Abroad Programs may be used to satisfy the International Cultures (IL) requirement.
3. Three credits of the required 21 credits of General Education courses are to be selected from any of the following General Education areas: Writing/Speaking, Quantification, Natural Sciences, Arts, Humanities, or Social and Behavioral Sciences.
Writing/Speaking

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**A S M 391** (B E 391) (GWS)
*Contextual Integration of Communication Skills for the Technical Workplace* (2)
To develop corporate communication skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: Junior level standing in B E or A S M

**A S M 392** (B E 392) (GWS)
*Contextual Integration of Leadership Skills for the Technical Workplace* (2) To develop corporate leadership skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: A S M 391 junior level standing in B E or A S M

**B E 391** (A S M 391) (GWS)
*Contextual Integration of Communication Skills for the Technical Workplace* (2)
To develop corporate communication skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: Junior level standing in B E or A S M

**B E 392** (A S M 392) (GWS)
*Contextual Integration of Leadership Skills for the Technical Workplace* (2) To develop corporate leadership skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: B E 391 junior level standing in B E or A S M

**CAS 100** (GWS)
*Effective Speech* (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.
Effective: Fall 2003

**CAS 100A** (GWS)
*Effective Speech* (3) Principles of communication, implemented through presentation of speeches, with some attention to group discussion and message evaluation.
Effective: Fall 2003

**CAS 100B** (GWS)
*Effective Speech* (3) Principles of communication, implemented through group problem solving, with some attention to formal speaking and message evaluation.
Effective: Fall 2003
**CAS 100C** (GWS)
*Effective Speech* (3) Principles of communication, implemented through analysis and evaluation of messages, with some attention to formal speaking and group discussion.
Effective: Fall 2003

**CAS 100H** (GWS)
*Effective Speech* (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**CAS 100H** (GWS)
*Effective Speech* (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.

**CAS 100S** (GWS)
*Effective Speech* (3) Principles of communication, implemented through presentation of speeches, with some attention to group discussion and message evaluation.
Effective: Fall 2003

**EM SC 100S** (GWS)
*Earth and Mineral Sciences First-Year Seminar* (3) Writing, speaking, and critical thinking skills applied to topics of general interest in Environmental and Materials Science.
Effective: Spring 2001

**ENGL 015** (GWS)
*Rhetoric and Composition* (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 1991
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

**ENGL 015A** (GWS;US)
*Rhetoric and Composition* (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 2005
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

**ENGL 015H** (GWS)
*Rhetoric and Composition* (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

**ENGL 015S** (GWS)
*Rhetoric and Composition* (3) Instruction and practice in writing expository prose
that shows sensitivity to audience and purpose.
Effective: Summer 1999
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

**ENGL 030** (GWS)
**Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Fall 1991

**ENGL 030H** (GWS)
**Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**ENGL 030S** (GWS)
**Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

**ENGL 030T** (GWS)
**Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

**ENGL 202A** (GWS)
**Effective Writing: Writing in the Social Sciences** (3) Instruction in writing persuasive arguments about significant issues in the social sciences. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

**ENGL 202B** (GWS)
**Effective Writing: Writing in the Humanities** (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

**ENGL 202C** (GWS)
**Effective Writing: Technical Writing** (3) Writing for students in scientific and technical disciplines. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

**ENGL 202D** (GWS)
Effective Writing: Business Writing (3) Writing reports and other common forms of business communication. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

ENGL 202H (GWS)
Honors Writing in the Humanities (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

ENGL 202H (GWS)
Honors Writing in the Humanities (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Prerequisite: ENGL 015 or ENGL 030; fourth-semester standing

ESL 015 (GWS)
ESL/Composition for American Academic Communication II (3) For intermediate/advanced level non-native speakers of English to develop strategies for reading and writing American academic discourse.
Effective: Fall 2001
Prerequisite: a grade of C or higher required in ESL 004

LA 101H (GWS)
Honors Rhetoric and Civic Life (4) Within a liberal arts framework and with attention to public discourse--speaking, writing, online communication, and visual presentation--this course instructs students in the arts, practices, and principles of rhetoric.
Effective: Fall 2009
Quantification

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**CMPSC 101 (GQ)**
*Introduction to C++ Programming* (3) Properties of algorithms, languages, and notations for describing algorithms, applications of a procedure-oriented language to problem solving. A student may receive credit for only one of the following courses: CMPSC 101, 200, 201, 202, 121.
*Effective: Fall 2010*
*Prerequisite: 2 entrance units in mathematics*

**CMPSC 121 (GQ)**
*Introduction to Programming Techniques* (3) Design and implementation of algorithms. Structured programming. Problem solving techniques. Introduction to a high-level language, including arrays, procedures, and recursion.
*Effective: Fall 2010*
*Prerequisite: MATH 110 or prerequisite or concurrent MATH 140*

**CMPSC 200 (GQ)**
*Programming for Engineers with MATLAB* (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
*Effective: Spring 2008*
*Prerequisite: MATH 140*

**CMPSC 201 (GQ)**
*Programming for Engineers with C++* (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
*Effective: Spring 2008*
*Prerequisite: MATH 140*

**CMPSC 202 (GQ)**
*Programming for Engineers with FORTRAN* (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
*Effective: Spring 2008*
*Prerequisite: MATH 140*

**CMPSC 203 (GQ)**
*Introduction to Spreadsheets and Databases* (4) Design, use, and programming of spreadsheets and data bases with applications from a range of disciplines.
*Effective: Spring 2008*
*Prerequisite: 2 entrance units in mathematics*

The Pennsylvania State University
CRIMJ 260 (GQ)
Statistical Analysis for the Social Sciences (3) Methods of collection, presentation, and analysis of quantitative data in the social science; procedures, interpretation, and application.
Effective: Spring 2011
Prerequisite: 2 units of High School Algebra and CRIMJ 100 or permission of the program

EDPSY 101 (GQ)
Analysis and Interpretation of Statistical Data in Education (3) An introduction to quantitative methods in educational research emphasizing the interpretation of frequently encountered statistical procedures.
Effective: Summer 1990

MATH 017 (GQ)
Finite Mathematics (3) Introduction to logic, sets, probability.
Effective: Summer 1988
Prerequisite: 2 units of high school mathematics

MATH 018 (GQ)
Elementary Linear Algebra (3) Linear functions; systems of equations; matrices; linear programming.
Effective: Fall 1999
Prerequisite: 2 units of high school mathematics

MATH 021 (GQ)
College Algebra I (3) Quadratic equations; equations in quadratic form; word problems; graphing; algebraic fractions; negative and rational exponents; radicals.
Effective: Summer 2009
Prerequisite: MATH 004 or satisfactory performance on the mathematics FTCAP examination

MATH 022 (GQ)
College Algebra II and Analytic Geometry (3) Relations, functions, graphs; polynomial, rational functions, graphs; word problems; nonlinear inequalities; inverse functions; exponential, logarithmic functions; conic sections; simultaneous equations.
Effective: Summer 2009
Prerequisite: MATH 021 or satisfactory performance on the mathematics FTCAP examination

MATH 026 (GQ)
Plane Trigonometry (3) Trigonometric functions; solutions of triangles; trigonometric equations; identities.
Effective: Summer 2009
Prerequisite: MATH 021 or satisfactory performance on the mathematics FTCAP examination; 1 unit of geometry

MATH 030 (GQ)
Problem Solving (3) Concepts in problem solving; reducing new problems to old
ones; techniques for attacking problems; building mathematical models.
Effective: Spring 1994

**MATH 034** (GQ)
The Mathematics of Money (3) Simple interest, simple discount, compound interest, annuities, investments, retirement plans, taxes, credit cards, and mortgages.
Effective: Summer 2009
Prerequisite: one unit of algebra or MATH 004

**MATH 035** (GQ)
General View of Mathematics (3) Survey of mathematical thought in logic, geometry, combinatorics, and chance.
Effective: Summer 1992

**MATH 036** (GQ)
Insights Into Mathematics (3) Examples of mathematical applications in many areas including voting theory, fair division, apportionment, and Euler and Hamilton circuits.
Effective: Fall 2008
Prerequisite: one unit of algebra or MATH 004

MATH 040 GQ covers all the topics in MATH 004, 021 GQ, 022 GQ, and 026 GQ in one semester, MATH 041 GQ covers the same topics in trigonometry and analytic geometry as MATH 040 GQ. These courses are designed to prepare students for MATH 140 GQ. Students are placed in the appropriate course depending upon the results of the mathematics FTCAP examinations.

**MATH 040** (GQ)
Algebra, Trigonometry, and Analytic Geometry (5) Concepts of algebra; equations; inequalities; functions; graphs; polynomial and rational functions; exponential and logarithmic functions; trigonometry; analytic geometry; complex numbers.
Effective: Summer 2009
Prerequisite: satisfactory performance on the mathematics FTCAP examination

**MATH 041** (GQ)
Trigonometry and Analytic Geometry (3-4) Straight lines; circles; functions and graphs; graphs of polynomial and rational functions; exponential and logarithmic functions; trigonometry; conic sections.
Effective: Spring 2011
Prerequisite: MATH 021 or satisfactory performance on the mathematics FTCAP examination

**MATH 081** (GQ)
Technical Mathematics I (3) Algebraic expressions, equations, systems of equations, trigonometric functions, graphs, solution of triangles, vectors.
Effective: Summer 2009
Prerequisite: MATH 004 or satisfactory performance on the mathematics FTCAP examination

The Pennsylvania State University
MATH 082 (GQ)
**Technical Mathematics II** (3) Exponents, radicals, complex numbers, theory of equations, inequalities, half angle and double angle formulas, inverse trigonometric functions, exponential, logarithm, conic sections.
Effective: Summer 1995
Prerequisite: MATH 081

MATH 083 (GQ)
**Technical Calculus** (4) Limits, derivatives of algebraic functions, implicit differentiation, related rates, applied extrema problems, curve sketching, integration, numerical integration, applications of integration, integration techniques, differential equations.
Effective: Summer 1995
Prerequisite: MATH 082

MATH 110 GQ and MATH 140 GQ, 141 GQ are two sequences that discuss differential and integral calculus. They differ in the areas where calculus is applied. The MATH 110 GQ, 111 GQ sequence includes applications from business: the engineering sciences. A student who wants to change from one sequence to another should consult with the chair of the mathematics department.

MATH 110 (GQ)
**Techniques of Calculus I** (4) Functions, graphs, derivatives, integrals, techniques of differentiation and integration, exponentials, improper integrals, applications. Students may take only one course for credit from MATH 110, 140, 140A, and 140B.
Effective: Summer 2009
Prerequisite: MATH 022 or satisfactory performance on the mathematics FTCAP examination

MATH 111 (GQ)
**Techniques of Calculus II** (2) Analytic geometry, partial differentiation, maxima and minima, differential equations.
Effective: Summer 1988
Prerequisite: MATH 110

MATH 140 (GQ)
**Calculus With Analytic Geometry I** (4) Functions, limits; analytic geometry; derivatives, differentials, applications; integrals, applications. Students may only take one course for credit from MATH 110, 140, 140A, 140B, and 140H.
Effective: Summer 2009
Prerequisite: MATH 022 MATH 026 ; or MATH 040 or MATH 041 or satisfactory performance on the mathematics FTCAP examination

MATH 140A (GQ)
**Calculus, Analytic Geometry, Algebra, and Trigonometry** (6) Review of algebra and trigonometry; analytic geometry; functions; limits; derivatives, differentials, applications; integrals, applications. Students may take only one course for credit from MATH 110, 140, 140A, and 140B.
Effective: Summer 2009
Prerequisite: satisfactory performance on the mathematics FTCAP examination

The Pennsylvania State University
MATH 140B (GQ)
Calculus and Biology I (4) Functions, limits, analytic geometry; derivatives, differentials, applications from biology; integrals, applications from biology. Students may take only one course for credit from MATH 110, 140, 140A, and 140B. Effective: Summer 2009
Prerequisite: MATH 022 MATH 026; or MATH 040 or MATH 041 or satisfactory performance on mathematics FTCAP examination

MATH 140E (GQ)
Calculus with Engineering Applications I (4) Functions; limits; analytic geometry; derivatives; differentials, applications; integrals, applications. Effective: Summer 2009
Prerequisite: MATH 022 MATH 026; or MATH 040 or MATH 041 or satisfactory performance in the mathematics FTCAP examination

MATH 140G (GQ)
Calculus with Earth and Mineral Sciences Applications I (4) Functions, limits, analytic geometry; derivatives, differentials, applications from the earth and mineral sciences; integrals, applications from the earth and mineral sciences. Students may only take one course for credit from MATH 110, 140, 140A, 140B, 140E, and 140G. Effective: Summer 2009
Prerequisite: MATH 022 MATH 026; or MATH 040 or MATH 041 or satisfactory performance on the mathematics FTCAP examination

MATH 140H (GQ)
Honors Calculus with Analytic Geometry I (4) Honors course in functions, limits; analytic geometry; derivatives, differentials, applications; integrals, applications. Students may only take one course for credit from MATH 110, 140, 140A, 140B, and 140H. Effective: Summer 2009
Prerequisite: MATH 022 MATH 026; or MATH 040 or MATH 041 or satisfactory performance on the mathematics FTCAP examination

MATH 141 (GQ)
Calculus with Analytic Geometry II (4) Derivatives, integrals, applications; sequences and series; analytic geometry; polar coordinates. Students may only take one course for credit from MATH 141, 141B, and 141H. Effective: Spring 1996
Prerequisite: MATH 140 MATH 140A MATH 140B or MATH 140H

MATH 141B (GQ)
Calculus and Biology II (4) Derivatives, integrals, applications from biology; sequences and series; analytic geometry; polar coordinates. Students may only take one course for credit from MATH 141 and 141B. Effective: Spring 1996
Prerequisite: MATH 140B

MATH 141E (GQ)
Calculus with Engineering Applications II (4) Integration, applications; sequences and series; parametric equations, application.
Effective: Fall 2001
Prerequisite: MATH 140 MATH 140A MATH 140B or MATH 140E

MATH 141G (GQ)
Calculus with Earth and Mineral Sciences Applications II (4) Derivatives, integrals, applications from the earth and mineral sciences; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141, 141B, 141E, and 141G.
Effective: Summer 2005
Prerequisite: MATH 140 MATH 140A MATH 140B MATH 140E or MATH 140G

MATH 141H (GQ)
Honors Calculus with Analytic Geometry II (4) Honors course in derivatives, integrals, applications; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141, 141B, and 141H.
Effective: Summer 2006
Prerequisite: MATH 140 MATH 140A MATH 140B or MATH 140H

MATH 200 (GQ)
Problem Solving in Mathematics (3) Fundamental concepts of arithmetic and geometry, including problem solving, number systems, and elementary number theory. For elementary and special education teacher certification candidates only. A student who has passed EDMTH 444 may not take MATH 200 for credit.
Effective: Summer 2009

MATH 220 (GQ)
Matrices (2-3) Systems of linear equations; matrix algebra; eigenvalues and eigenvectors; linear systems of differential equations.
Effective: Spring 2009
Prerequisite: MATH 110 MATH 140 or MATH 140H

MATH 220H (GQ)
Honors Matrices (2-3) Honors course in systems of linear equations; matrix algebra; eigenvalues and eigenvectors; linear systems of differential equations.
Effective: Spring 2009
Prerequisite: MATH 110 MATH 140 or MATH 140H

PHIL 012 (GQ)
Symbolic Logic (3) Formal logical structures of propositions and arguments; mechanical tests and proof techniques for logically necessary truth and deductive validity.
Effective: Fall 1998

PSYCH 200 (GQ)
Elementary Statistics in Psychology (4) Frequency distributions and graphs; measures of central tendency and variability; normal probability curve; elementary sampling and reliability; correlations; simple regression equations.
Effective: Spring 2011
Prerequisite: PSYCH 100 ; MATH 021

The Pennsylvania State University
**SCM 200** (GQ)
**Introduction to Statistics for Business** (4) Topics include descriptive statistics, probability distributions, statistical inference, regression and correlation, and forecasting.
Effective: Spring 2011
Prerequisite: MATH 021 or higher or satisfactory score on the mathematics FTCAP examination

**SCM 200H** (GQ)
**Honors Introduction to Statistics for Business** (4) Topics include descriptive statistics, probability distributions, statistical inference, regression and correlation, and forecasting.
Effective: Spring 2011
Prerequisite: MATH 021 or higher or satisfactory score on the mathematics FTCAP examination

**STAT 100** (GQ)
**Statistical Concepts and Reasoning** (3) Introduction to the art and science of decision making in the presence of uncertainty.
Effective: Summer 1988

**STAT 200** (GQ)
**Elementary Statistics** (4) Descriptive statistics, frequency distributions, probability, binomial and normal distributions, statistical inference, linear regression, and correlation.
Effective: Summer 1988
Prerequisite: 2 units in algebra

**STAT 240** (GQ)
**Introduction to Biometry** (3) Statistical analysis, sampling, and experimentation in the agricultural sciences; data collection, descriptive statistics, statistical inference, regression, one factor AOV, probability. Students may take only one course from STAT 200, 220, 240, 250 for credit.
Effective: Spring 2005
Prerequisite: 3 credits in mathematics

**STAT 250** (GQ)
**Introduction to Biostatistics** (3) Statistical analysis and interpretation of data in the biological sciences; probability; distributions; statistical inference for one- and two-sample problems.
Effective: Spring 2001
Prerequisite: 3 credits in mathematics

**STAT 301** (GQ)
**Statistical Analysis I** (3) Probability concepts; nature of statistical methods; elementary distribution and sampling theory; fundamental ideas relative to estimation and testing hypotheses.
Effective: Summer 1988
Prerequisite: 3 credits of calculus
Health and Physical Activity

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**BB H 048** (GHA)
*Values and Health Behavior* (1.5) Examination of issues that impact the social, emotional, and physical well-being of college students through a values and decision-making process.
Effective: Fall 2003

**BB H 101** (GHA)
*Introduction to Biobehavioral Health* (3) Introduction to an interdisciplinary study of health, examining the interaction of biological processes and behavior on health.
Effective: Spring 2000

**BB H 101H** (GHA)
*Introduction to Biobehavioral Health* (3) Introduction to interdisciplinary study of health, examining the interaction of biological processes and behavior on health.
Effective: Summer 1998

**BB H 119** (GHA)
*Behavior, Health, and Disease* (3) Principles of health promotion, disease prevention, and treatment of acute and chronic illness. This course is designed for non-BB H majors.
Effective: Spring 2002

**BB H 143** (GHA)
*Drugs, Behavior, and Health* (3) Health aspects of use and abuse of licit and illicit drugs; related social problems and prevention. Designed for non-BB H majors.
Effective: Spring 2002

**BB H 146** (GHA)
*Introduction to Health and Human Sexuality* (3) An examination of human sexuality as it relates to health.
Effective: Summer 2002

**C E 254** (GHA;US)
*Personal & Occupational Safety* (3) Students will learn about principles of safety in work and personal settings.
Effective: Spring 2008

**CSD 100** (GHA;US)
*Preventing Vocal Abuse, Misuse, and Disorders* (1.5) Principles of the voice mechanisms, preventing vocal abuse, and promoting vocal health across the life span.
Effective: Summer 2005

**CSD 101** (GHA;US)

The Pennsylvania State University
Preventing Hearing Loss (1.5) Assessment, intervention, and prevention of hearing loss caused by loud music and recreational and industrial noise.
Effective: Summer 2005

DANCE 270 (GHA)
Introduction to Bartenieff Fundamentals (3) Physical and theoretical approach to movement: facilitates efficiency, and expression through dynamic alignment, mobility, kinesthetic awareness; reduce physical injuries.
Effective: Spring 2003

FD SC 105 (S T S 105) (GHA)
Food Facts and Fads (3) Impact on society and the individual of modern food technology, food laws, additives, etc.; historical, current, and futuristic aspects.
Effective: Spring 2004

H P A 057 (GHA)
Consumer Choices in Health Care (3) Introduction to consumers' role in health-care decisions, including health benefits, physician and hospital choice, and end-of-life choices.
Effective: Spring 2004

KINES 001 (GHA)
Introduction to Outdoor Pursuits (1.5-3 per semester, maximum of 12)
Introduction to selected outdoor pursuit activities, such as, but not limited to, rock climbing, cross country skiing, backpacking, hiking, orienteering.
Effective: Fall 2008

KINES 004 (GHA)
Principles of Fly Tying and Fly Fishing for Trout (1.5) A course designed to enhance student's knowledge, skill, and performance in fly tying and the sport of fly fishing for trout.
Effective: Fall 2001

KINES 006 (GHA)
Cycling (1.5) A course designed to give students an understanding of and the ability to establish an exercise program involving riding.
Effective: Summer 2003

KINES 008 (GHA)
Competition Casting (1.5) A course designed to enhance student's knowledge, skills, and performance in all forms of casting for sport fishing.
Effective: Fall 2001

KINES 010 (GHA)
Indoor Rock Climbing (1.5) A course designed to provide students with the basic skills, safety, and knowledge of rock climbing.
Effective: Summer 2003

KINES 010A (GHA)
Lead Rock Climbing (1.5) A course designed to provide students with skills, safety, and knowledge of lead rock climbing in a top rope environment.
Effective: Summer 2003
Prerequisite: KINES 010 or with permission of program

**KINES 011** (GHA)
**Basic Downhill Skiing** (1) Students will gain a comprehensive understanding and basic level of proficiency in Downhill Skiing.
Effective: Summer 2004

**KINES 011A** (GHA)
**Intermediate Downhill Skiing** (1) Students will gain a comprehensive understanding and intermediate to advanced level of proficiency in Downhill Skiing.
Effective: Summer 2004

**KINES 012** (GHA)
**Snowboarding** (1) Students will gain a comprehensive understanding and basic level of proficiency in Snowboarding.
Effective: Summer 2004

**KINES 013** (GHA)
**First Aid, Personal Safety, and CPR** (1) A course designed to provide students with the opportunity for Red Cross certification in Community First Aid, Safety, and CPR.
Effective: Fall 2003

**KINES 017** (GHA)
**Ballroom Dance** (1.5) A course designed to provide students with basic dance skills and an understanding and appreciation of ballroom dance.
Effective: Summer 2003

**KINES 017S** (GHA)
**Ballroom Dance** (1.5) A course designed to provide students with basic dance skills and an understanding and appreciation of ballroom dance.
Effective: Fall 2007

**KINES 019** (GHA)
**Jazz Dance** (1.5) A course designed to teach the basic skills of jazz dance and develop a further appreciation of jazz dance.
Effective: Summer 2003

**KINES 020** (GHA)
**Modern Dance** (1.5) A course designed to teach the basic skills of modern dance and to develop a further appreciation of modern dance.
Effective: Summer 2002

**KINES 024** (GHA)
**Introduction to Lifetime Sports** (1.5) Students participate in lifetime sports such as archery, bowling, golf, and at least one racquet and/or winter sport.
Effective: Summer 2002

**KINES 025** (GHA)
**Introduction to Court Sports** (1.5) A course designed to introduce students to various court sports such as tennis, racquetball, handball, squash, and/or
KINES 026 (GHA)
Archery/Indoor & Outdoor (1.5) Course designed to introduce students to Archery/Bowhunting.
Effective: Summer 2003

KINES 027 (GHA)
Badminton I (1.5) The course promotes health, fitness, and enjoyment of the game of badminton.
Effective: Summer 2002

KINES 028 (GHA)
Fencing I (1.5) Kinesiology 028 is designed to give students knowledge of the rules, strategies and skills of the sport of Fencing.
Effective: Summer 2004

KINES 029 (GHA)
Golf I (1-1.5) A course designed to give students an understanding of and a proficiency in golf skills, rules, and etiquette.
Effective: Summer 1999

KINES 029A (GHA)
Golf II (1.5) A course designed to provide a further understanding of and a more advanced proficiency in golf skills, rules and etiquette.
Effective: Summer 2004
Prerequisite: KINES 029 or equivalent

KINES 041 (GHA)
Handball (1.5) A course designed to introduce students to a basic instructional course in the fundamentals of 4-wall handball.
Effective: Spring 2001

KINES 042 (GHA)
Ice Skating--Beginning (1.5) A course of instruction focused on the physical development and knowledge of basic ice skating skills.
Effective: Summer 2002

KINES 042A (GHA)
Ice Skating--Advanced Beginning (1.5) A course of instruction focused on the physical development and knowledge of basic ice skating skills.
Effective: Summer 2002
Prerequisite: KINES 042 or some experience with the activity

KINES 042B (GHA)
Ice Skating--Intermediate/Advanced (1.5) A course of instruction in basic figure skating: field moves, freestyle, choreography, pairs skating, and ice dance.
Effective: Summer 2002
Prerequisite: KINES 042 and/or KINES 042A or equivalent skating experience

KINES 043 (GHA)
**Power Skating** (1.5) A course of instruction in basic power skating specifically designed for ice hockey, applicable to other ice sports. 
Effective: Summer 2002
Prerequisite: KINES 042 or KINES 042A or equivalent skating experience

**KINES 044 (GHA)**

**Racquetball I** (1-1.5) The course promotes health, fitness, and enjoyment of the game of racquetball.
Effective: Spring 2001

**KINES 045 (GHA)**

**NAUI Basic Scuba** (1.5) A course to introduce students to the fundamentals of Scuba diving.
Effective: Summer 2002
Prerequisite: meet NAUI standards and/or by permission of the instructor

**KINES 046 (GHA)**

**Squash I** (1-1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of squash.
Effective: Spring 2001

**KINES 047 (GHA)**

**Beginning Swimming** (1.5) A course designed to give students skills and knowledge necessary to be safe in shallow and deep water.
Effective: Summer 2002

**KINES 047A (GHA)**

**Advanced Beginner Swimming** (1.5) A course designed to give students skills and knowledge necessary to be safe in shallow and deep water.
Effective: Summer 2002
Prerequisite: students should be comfortable in shallow and deep water and be moderately proficient in front crawl elementary backstroke sidestroke and breaststroke

**KINES 047B (GHA)**

**Intermediate Swimming** (1.5) A course designed to teach students a variety of swimming strokes and increase their knowledge of fitness using aquatic activities.
Effective: Summer 2002
Prerequisite: KINES 047A or equivalent skills; students should be safe in deep water and have proficiency in the front crawl elementary backstroke sidestroke and breaststroke

**KINES 048 (GHA)**

**Tennis I** (1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of tennis.
Effective: Spring 2001

**KINES 048A (GHA)**

**Tennis II** (1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of tennis.
Effective: Summer 2004
Prerequisite: KINES 048 or for students who demonstrate reasonable consistency in depth and placement of ground strokes and the serve and who have not had instruction at Penn State.

**KINES 054** (GHA)
**Aikido** (1.5) Students will gain a comprehensive understanding and basic level of proficiency in the Japanese Traditional martial art of Aikido.
Effective: Summer 2003

**KINES 056** (GHA)
**Introduction to Martial Arts** (1.5) A course designed to give students an introduction to martial arts, and the use of martial arts for lifelong fitness.
Effective: Summer 2002

**KINES 057** (GHA)
**Personal Defense** (1.5) A course designed to give students an understanding of and a proficiency in martial arts and self-defense.
Effective: Summer 2004

**KINES 058** (GHA)
**Judo I** (1.5) Kinesiology 058 will help students develop stamina, confidence and discipline, and promote general fitness through the introduction to basic Judo.
Effective: Summer 2003

**KINES 059** (GHA)
**Introduction to Karate** (1.5) A course designed to give students an understanding of and a proficiency in Karate.
Effective: Summer 2003

**KINES 061** (GHA)
**Fitness Theory and Practice** (3) Students will learn about the science of fitness/wellness; evaluate their present fitness levels and create a personal fitness plan.
Effective: Spring 2001

**KINES 061S** (GHA)
**Fitness Theory and Practice** (3) Students will learn about the science of fitness/wellness; evaluate their present fitness levels and create a personal fitness plan.
Effective: Summer 2005

**KINES 062** (GHA)
**Introduction to Cardiovascular Activities** (1.5) A course designed to give students an introduction to various types of cardiovascular training.
Effective: Summer 2002

**KINES 063** (GHA)
**Aerobic Dance** (1.5) A course designed to involve students in daily aerobic activity while teaching the fundamentals of overall health and well-being.
Effective: Summer 2002

**KINES 065** (GHA)
Jogging (1.5) A course designed to give students an understanding of and the ability to establish an exercise program involving jogging.
Effective: Summer 2003

KINES 067 (GHA)
Physical Conditioning (1.5) A course designed to give students an experience with an understanding of vigorous physical training.
Effective: Spring 2001

KINES 068 (GHA)
Strength Training (1.5) Designed to improve students' muscular strength/endurance, teaches students how to develop an effective personal strength/endurance training program for lifelong fitness.
Effective: Summer 2002

KINES 070 (GHA)
Swim Conditioning (1.5) A course designed to provide students an understanding of and proficiency in swimming conditioning.
Effective: Summer 2002
Prerequisite: KINES 047A

KINES 071 (GHA)
Triathlete Training (1.5) A course designed to give students a foundation for skills in cross-training: swimming, cycling, and running.
Effective: Summer 2003

KINES 072 (GHA)
Fitness Walking (1-1.5) A course designed to give students an understanding of and a proficiency in fitness walking.
Effective: Spring 2001

KINES 076 (GHA)
Introduction to Tai Chi Ch'uan (1.5) A course designed to introduce students to Tai Chi Ch'uan, a traditional Chinese system of personal cultivation and self-defense.
Effective: Summer 2004

KINES 077 (GHA)
Yoga 1 (1.5) A course designed to give students an understanding of and proficiency in yoga.
Effective: Summer 2002

KINES 077A (GHA)
Advanced Yoga (1.5) A course designed to expand on a student's fundamental understanding of and proficiency in yoga.
Effective: Summer 2003
Prerequisite: KINES 077

KINES 081 (GHA)
Wellness Theory (3) Focused on preparing and engaging students in the attitudes and behaviors that enhance quality of life and maximize personal potential.
Effective: Summer 2002
**KINES 082** (GHA)  
**Action Methods for Stress Management** (3) Achieving wellness by studying the effects of stressors on systems of the body and effectiveness of activity to relieve stress.  
Effective: Summer 2002

**KINES 083** (GHA)  
**Exercise for Stress Management** (1.5) A course designed to identify the factors that contribute to student stress and develop strategies that will manage these factors. Students who receive credit for KINES 083 will not receive credit for KINES 082.  
Effective: Summer 2002

**KINES 084** (GHA)  
**Fitness for Life** (1.5-2) A course designed to give students an understanding of the fundamental principles of physical fitness. Students who receive credit for KINES 084 shall not receive credit for either KINES 061 or 081.  
Effective: Summer 1999

**KINES 088** (GHA)  
**Varsity Sport Experience** (2) A course designed to promote an active and healthful lifestyle through participation in a varsity sport sanctioned by Penn State.  
Effective: Summer 2004

**KINES 089** (GHA)  
**Student Wilderness Experience** (3) Incoming student wilderness experience. Backpacking and one additional adventure: rock climbing, high ropes course/canoeing. One-day of community service.  
Effective: Summer 2003

**KINES 090** (GHA)  
**Introduction to Team Sports/Indoor** (1-1.5) A course designed to introduce students to indoor team sports.  
Effective: Spring 2001

**KINES 090A** (GHA)  
**Introduction to Team Sports/Indoor - Volleyball** (1.5 per semester/maximum of 99) A course designed to introduce students to the team sport of volleyball.  
Effective: Spring 2004

**KINES 090B** (GHA)  
**Introduction to Team Sports/Indoor - Basketball** (1.5 per semester/maximum of 99) A course designed to introduce students to the team sport of basketball.  
Effective: Spring 2004

**KINES 090C** (GHA)  
**Introduction to Team Sports/Indoor - Team Handball** (1.5 per semester/maximum of 99) A course designed to introduce students to the sport of team handball.  
Effective: Spring 2004
KINES 091A (GHA)  
**Introduction to Team Sports/Outdoor - Soccer** (1.5 per semester) A course designed to introduce students to the outdoor team sport of Soccer.  
Effective: Summer 2004

KINES 091C (GHA)  
**Introduction to Team Sports/Outdoor - Rugby** (1.5 per semester) A course designed to introduce students to the outdoor team sport of Rugby.  
Effective: Summer 2004

KINES 091D (GHA)  
**Introduction to Team Sports/Outdoor-Ultimate Frisbee** (1.5 per semester) A course designed to introduce students to the outdoor team sport of Ultimate Frisbee.  
Effective: Summer 2004

KINES 092 (GHA)  
**Adaptive Physical Education** (1.5) A course designed to give students with medically defined disabilities an opportunity to maximize their physical potential through individualized programs.  
Effective: Summer 2003

KINES 093 (GHA)  
**Masters Activity (Sport)** (1.5 per semester/maximum of 12) A course that introduces students to movement subcultures by providing the knowledge, habits, and skills for activity across the lifespan.  
Effective: Spring 2003  
Prerequisite: successful completion of relevant activity course or permission of the instructor

KINES 096 (GHA)  
**Independent Study in Physical Activity** (.5-3 per semester) This course is designed to meet the needs of students to expand Kinesiology experiences beyond the designed course curriculum.  
Effective: Spring 2006

KINES 096B (GHA)  
**Independent Study in Physical Activity** (0.5) This course is designed for students to work independently with the guidance of a Kinesiology faculty member.  
Effective: Summer 2011 Ending: Summer 2011

KINES 303 (GHA)  
**Emergency Care - First Aid/Safety/AED** (3) Develop skills for First Responder Certification in CPR/AED, First Aid and Safety by American Red Cross or National Safety Council.  
Effective: Fall 2003

NURS 203 (GHA)  
**First Aid and CPR** (3) An introductory first aid course designed to provide the basic knowledge and skills to provide assistance to someone injured/ill.  
Effective: Fall 2008

The Pennsylvania State University
**NUTR 100** (GHA)

**Contemporary Nutrition Concerns** (1.5) Interpretation of nutrition principles in relation to contemporary problems in selecting a diet to promote a healthy lifestyle. Students who have received credit for NUTR 151 or NUTR 251 may not schedule this course.
Effective: Spring 2004

**NUTR 251** (GHA)

**Introductory Principles of Nutrition** (3) The nutrients: food sources and physiological functions as related to human growth and well-being throughout life; current nutrition issues. Students who have passed NUTR 151 may not schedule this course.
Effective: Spring 2004

**S T S 105** (FD SC 105) (GHA)

**Food Facts and Fads** (3) Impact on society and the individual of modern food technology, food laws, additives, etc.; historical, current, and futuristic aspects.
Effective: Spring 2004
Natural Sciences

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

AAA_S_105 (EARTH 105) (GN;IL)
Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, natural resources.
Effective: Summer 2005

AERSP 055 (S T S 055) (GN)
Space Science and Technology (3) The science and technology of space exploration and exploitation; physical principles; research and development; history, space policy, and social implications.
Effective: Spring 1994

AGECO 121 (GN)
Plant Stress: It's Not Easy Being Green (3) The many hazards faced by plants and the dynamic ways that plants respond to these problems are examined.
Effective: Spring 2005

AGECO 122 (METEO 122) (GN)
Atmospheric Environment: Growing in the Wind (3) Dynamic effects of weather on ecosystems and habitation of Earth.
Effective: Summer 2006

AGECO 134 (R SOC 134) (GN)
Sustainable Agriculture Science and Policy (3) The science, socio-economics, and politics of managing food and fiber production systems. Sustainability implications of current practices and future options.
Effective: Spring 2007

AGECO 144 (GN)
Effective: Spring 2010

AN_SC 100 (GN)
Introduction to Animal Industries (3) Students will study the biology, production systems, terminology, and emerging issues of the N. American animal industries.

AN_SC 300 (GN)
Effective: Spring 1998
Prerequisite: BIOL 011 and BIOL 012 or BIOL 110; at least third-semester standing

**ANTH 021 (GN)**
**Introductory Biological Anthropology** (3) The role of human biology and evolution in culture, society, and behavior.
Effective: Spring 2001

**ANTH 022 (GN)**
**Humans as Primates** (3) The biological basis of human behavior within the context of primate biology, behavior, and evolution.
Effective: Spring 2009

**ASTRO 001 (GN)**
**Astronomical Universe** (3) The development of modern understanding of the astronomical universe from planets and stars to galaxies and cosmology. Student who have passed ASTRO 005, ASTRO 006, or ASTRO 010 may not take this course for credit.
Effective: Fall 2009

**ASTRO 001H (GN)**
**Astronomical Universe** (3) The development of modern understanding of the astronomical universe from planets and stars to galaxies and cosmology. Students who have passed ASTRO 005, ASTRO 006, or ASTRO 010 may not take this course for credit.
Effective: Fall 2009

**ASTRO 005 (GN)**
**The Sky and Planets** (3) The development of our modern understanding of the visible sky and planetary systems. Students who have passed ASTRO 001 or ASTRO 010 may not take this course for credit.
Effective: Summer 2008
Prerequisite: Students who have passed ASTRO 001 or ASTRO 010 may not take this course.

**ASTRO 006 (GN)**
**Stars, Galaxies, and the Universe** (3) The development of our modern understanding of stars, galaxies, and the astronomical universe. Students who have passed ASTRO 001 or ASTRO 010 may not take this course for credit.
Effective: Summer 2008
Prerequisite: Students who have passed ASTRO 001 and ASTRO 010 may not take this course.

**ASTRO 010 (GN)**
**Elementary Astronomy** (2) Introductory survey of modern astronomy from planets and stars to galaxies and the universe. Students who have passed ASTRO 001, ASTRO 005, or ASTRO 006 may not take this course for credit. Students may not receive General Education credit for ASTRO 010 unless they also take ASTRO 011.
Effective: Fall 2009

**ASTRO 011 (GN)**
Elementary Astronomy Laboratory (1) Selected experiments and explorations to illustrate major astronomical principles and techniques. Telescopes observations of planets, stars and nebulae. Effective: Fall 2004
Prerequisite: or concurrent: ASTRO 001 or ASTRO 010

ASTRO 120 (GN)
The Big Bang Universe (3) Exploration of cosmology, birth, and ultimate fate of the universe; origin of galaxies, quasars, and dark matter. For non-science majors. Effective: Spring 2002
Prerequisite: ASTRO 001 or ASTRO 010

ASTRO 130 (GN)
Black Holes in the Universe (3) The predicted properties of black holes and the astronomical evidence for their existence are investigated in the context of modern ideas about space, time, and gravity. Effective: Spring 2004
Prerequisite: ASTRO 001 or ASTRO 010

ASTRO 140 (GN)
Life in the Universe (3) The problem of the existence of life beyond Earth is investigated, drawing from recent research in astronomy and other fields. For non-science majors. Effective: Spring 2002
Prerequisite: ASTRO 001 or ASTRO 010

ASTRO 291 (GN)
Astronomical Methods and the Solar System (3) Physical processes and observational techniques in astronomical systems, characteristics of the sun, planets, and moons. Effective: Spring 2002
Prerequisite: PHYS 211

ASTRO 292 (GN)
Astronomy of the Distant Universe (3) Observed properties and astrophysical understanding of stars, stellar evolution, galaxies, the large-scale universe, and cosmology. Effective: Spring 2002
Prerequisite: ASTRO 291

ASTRO 320 (GN)
Observational Astronomy Laboratory (2) Basic observational astronomy techniques introduced through observational exercises, lab experiments, and lectures on relevant statistical techniques. Effective: Spring 2008
Prerequisite: or concurrent: ASTRO 291

B MB 001 (GN)
Understanding the Bases of Human Disease (3) A broad survey of the molecular and cellular factors that contribute to an understanding of selected human diseases.
Effective: Fall 2004

BMB 001S (GN)
Understanding the Bases of Human Disease (3) A broad survey of the molecular and cellular factors that provide an explanation for an understanding of human disease.
Effective: Spring 2001

BISC 001 (GN)
Structure and Function of Organisms (3) An exploration of how cellular structures and processes contribute to life and how life displays unity even in its diversity. Students who have passed BIOL 027, 110, or 141 may not schedule this course.
Effective: Fall 2004

BISC 002 (GN)
Genetics, Ecology, and Evolution (3) The study of how living organisms inherit their traits, how plants and animals evolved, and how they now interact. Students who have passed BIOL 033, 110, 220W, or 222 may not schedule this course.
Effective: Spring 2003

BISC 003 (GN)
Environmental Science (3) Kinds of environments; past and present uses and abuses of natural resources; disposal of human wastes; prospects for the future. Students who have passed BIOL 220 or any other upper-level ecology course in biology may not schedule this course.
Effective: Fall 2003

BISC 004 (GN)
Human Body: Form and Function (3) A general survey of structure and function--from conception, through growth and reproduction, to death. Students who have passed BIOL 129 and 141 may not schedule this course.
Effective: Spring 2002

BIOL 011 (GN)
Introductory Biology I (3) An introduction to fundamental biological topics (including cells, energy transduction, genetics, evolution, organismal structure/function, ecology) for non-majors biology-related fields.
Effective: Fall 2003

BIOL 012 (GN)
Introductory Biology II (1) Laboratory exercises demonstrating principles of biology.
Effective: Summer 1992
Prerequisite: or concurrent: BIOL 011

BIOL 110 (GN)
Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology.
Effective: Fall 2003

BIOL 110H (GN)
Honors Biology: Basic Concepts and Biodiversity (4) Honors study of the evolution of the major groups of organisms including the fundamental concepts of biology.
Effective: Spring 2006

BIOL 110L (GN)
Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology.
Effective: Summer 1994

BIOL 110P (GN)
Biology: Basic Concepts and Biodiversity A study of the evolution of the major groups of organisms including the fundamental concepts of biology.
Effective: Summer 1994

BIOL 110S (GN)
Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology. This course also fulfills the First-Year Seminar requirements.
Effective: Summer 1999

BIOL 120A (GN;US;IL)
Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance.
Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course.
Effective: Spring 2008

BIOL 120B (GN;US)
Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance.
Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course.
Effective: Spring 2008

BIOL 127 (GN)
Introduction to Plant Biology (3) Cellular structure and organization; physiological processes; classification; reproduction and development; relationship of plant groups. Students who have passed BIOL 240W may not schedule this course.
Effective: Spring 2008

BIOL 129 (GN)
Mammalian Anatomy (4) Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course.
Effective: Fall 2003

BIOL 129L (GN)
Mammalian Anatomy (4) Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course.
Effective: Fall 2003
BIOL 129P (GN)
Mammalian Anatomy Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course.
Effective: Fall 1998

BIOL 133 (GN)
Genetics and Evolution of the Human Species (3) Human heredity and evolution, individual and social implications. The course is for non-majors; students who have passed BIOL 222, 230W, B M B 251 or any upper-division biology course may not schedule this course.
Effective: Spring 2008

BIOL 141 (GN)
Introductory Physiology (3) Explanation of the normal structure and function of the animal body, with special emphasis on human body systems. Students who have passed BIOL 472 may not schedule this course.
Effective: Fall 2003

BIOL 155 (GN)
Introduction to the Biology of Aging (3) Examination of human aging from a biological perspective. Population demographics, physiological and pathological changes, and healthy lifestyles are discussed. Students who have passed BIOL 409 may not schedule this course.
Effective: Spring 2008

BIOL 177 (GN)
Biology of Sex (3) Basic structure and function of the human reproductive system. Physiology of gametogenesis, fertilization, contraception, gestation, parturition, lactation, and sexual behavior.
Effective: Spring 2008

BIOL 220M (GN)
Honors Biology: Populations and Communities (4) Honors study of the major physical, chemical, and biological factors constituting environment and their dynamic interaction with organisms forming ecosystems.
Effective: Summer 2005
Prerequisite: BIOL 110

BIOL 220W (GN)
Biology: Populations and Communities (4) A study of the structures and functions of organismic interactions from simple populations to complex ecosystems. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.
Effective: Fall 2004
Prerequisite: BIOL 110

BIOL 230M (GN)
Honors Biology: Molecules and Cells (4) Honors study of cellular phenomena including molecular genetics and metabolic interactions.
Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

**BIOL 230W (GN)**

**Biology: Molecules and Cells** (4) A study of cellular phenomena including molecular genetics and metabolic interactions. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.

Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

**BIOL 240M (GN)**

**Honors Biology: Function and Development of Organisms** (4) Honors study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)

Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

**BIOL 240W (GN)**

**Biology: Function and Development of Organisms** (4) A study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.

Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

**CHEM 001 (GN)**

**Molecular Science** (3) Selected concepts and topics designed to give non-science majors an appreciation for how chemistry impacts everyday life. Students who have received credit for CHEM 003, 101, or 110 may not schedule this course.

Effective: Summer 2007

**CHEM 003 (GN)**

**Molecular Science With Laboratory** (3) Selected concepts and topics designed to give non-science majors an appreciation for how chemistry impacts everyday life. Students who have received credit for CHEM 001, 101, or 110 may not schedule this course.

Effective: Summer 2007

**CHEM 101 (GN)**

**Introductory Chemistry** (2-3) Selected principles and applications of chemistry. Prior study of chemistry is not assumed. Students may take only one course for General Education credit from CHEM 101 or CHEM 110. Students may take only one course for General Education credit from CHEM 101 GN or CHEM 110 GN.

Effective: Fall 2009
Prerequisite: MATH 021; or satisfactory performance on the MATH FTCAP examination--i.e. placement beyond the level of MATH 021
CHEM 106 (GN)
Introductory and General Chemistry (5) Introductory chemistry and chemical principles for students who are required to take additional chemistry, e.g., CHEM 112, but are unprepared for CHEM 110. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: satisfactory performance on the Math FTCAP test--i.e. placement beyond the level of MATH 022; or MATH 022 or MATH 041

CHEM 110 (GN)
Chemical Principles I (3) Basic concepts and quantitative relations. Students may take only one course for General Education credit from CHEM 110 or CHEM 101. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Students may take only one course for General Education credit from CHEM 101 GN or CHEM 110 GN. Effective: Fall 2009
Prerequisite: satisfactory performance on the Chemistry and Math FTCAP tests--i.e. placement beyond the level of CHEM 101 and MATH 022; or CHEM 101 and MATH 022 or MATH 041

CHEM 110H (GN)
Chemical Principles I (3) Basic concepts and quantitative relations. Students may take only one course for General Education credit from CHEM 110 or CHEM 101. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Fall 2011 Ending: Fall 2011Future: Fall 2011
Prerequisite: satisfactory performance on the Chemistry and Math FTCAP tests--i.e. placement beyond the level of CHEM 101 and MATH 022; or CHEM 101 and MATH 022 or MATH 041

CHEM 111 (GN)
Experimental Chemistry I (1) Introduction to quantitative experimentation in chemistry. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: or concurrent: CHEM 110 or CHEM 106

CHEM 112 (GN)
Chemical Principles II (3) Continuation of CHEM 110, including an introduction to the chemistry of the elements. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and
CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B).
Effective: Spring 2009
Prerequisite: CHEM 110 or CHEM 106

**CHEM 112H** (GN)
*Chemical Principles II* (3) Continuation of CHEM 110, including an introduction to the chemistry of the elements. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B).

Prerequisite: CHEM 110 or CHEM 106

**CHEM 113** (GN)
*Experimental Chemistry II* (1) Continuation of CHEM 111, with emphasis on topics related to CHEM 112. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B).

Effective: Summer 2007
Prerequisite: CHEM 111. Prerequisite or concurrent: CHEM 112

**CHEM 113B** (GN)
*Experimental Chemistry II--Bioscience* (1) A continuation of CHEM 111 with emphasis on topics related to CHEM 112 in the context of bioscience. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B).

Effective: Summer 2007
Prerequisite: CHEM 111. Prerequisite or Concurrent: CHEM 112

**CHEM 233** (ENGL 233) (GH;GN)
*Chemistry and Literature* (3) Exploration of key concepts of chemistry, the reciprocal influence of chemistry and literature throughout history, and the relationship of science to society, culture, and values.
Effective: Summer 2007

**ERM 210** (GN)
*Environmental Factors and Their Effect on Your Food Supply* (3) An exploration of how urban environmental problems influence our ability to obtain food and natural resources.
Effective: Spring 2000

**EARTH 002** (GN)
*The Earth System and Global Change* (3) An interdisciplinary introduction to the processes, interactions and evolution of the earth's biosphere, geosphere and hydrosphere.
Effective: Fall 2007

**EARTH 100** (GN)

The Pennsylvania State University
Environment Earth (3) Natural processes and their relationship to anthropogenic influences. General principles of global cycles and the role they play in natural hazards, global warming, ozone depletion, etc.
Effective: Fall 2004

EARTH 101 (GN;US)
Natural Disasters: Hollywood vs. Reality (3) Analysis of the causes and consequences of natural disasters; comparison of popular media portrayal of disasters with perspective from scientific research.
Effective: Summer 2005

EARTH 103 (GN)
Earth in the Future: Predicting Climate Change and Its Impacts Over the Next Century (3) Climate predictions for the coming century are utilized to examine potential impacts on regions, sectors of society, and natural ecosystems.
Effective: Summer 2000

EARTH 105 (AAA S 105) (GN;IL)
Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, and natural resources.
Effective: Summer 2005

EARTH 106 (GN)
The African Continent: Earthquakes, Tectonics and Geology (3) Study of earthquakes and seismic waves to learn about the geology and plate tectonics of the African continent.
Effective: Summer 2007

EARTH 111 (GN;US)
Water: Science and Society (3) Investigation of water behavior and occurrence, its relevance to life, human activities, politics, and society.
Effective: Summer 2006

EARTH 150 (GN)
Dinosaur Extinctions and Other Controversies (3) Dinosaur extinctions and other major and controversial events in the history of life.
Effective: Spring 2004

EARTH 240 (GN)
Coral Reef Systems (4) The geography, geology, biology ecology and chemistry of coral reef ecosystems; threats to reef environments; and techniques for reef surveying and monitoring; with local geologic and distant modern field studies.
Prerequisite: Prerequisite or concurrent: KINES 045 or Nationally Recognized Scube Certification

EGEE 101 (MATSE 101) (GN)
Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
EGEE 101A (MATSE 101A) (GN;IL)  
Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives. 
Effective: Fall 2007

EGEE 101H (GN)  
Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives. 
Effective: Summer 2009

EGEE 102 (GN)  
Energy Conservation for Environmental Protection (3) Exposure to energy efficiency in day-to-day life to save money and energy, and thereby protect the environment. 
Effective: Spring 2000

EGEE 102H (GN)  
Energy Conservation for Environmental Protection (3) Honors level exposure to energy efficiency in day to day life to save money and energy, and thereby protect the environment. 
Effective: Summer 2008

EGEE 110 (GN)  
Safety Science for the Rest of Your Life (3) Survey of applications and technologies associated with safety in our every day life with associated review of scientific principles and economic, social and political impacts. 
Effective: Summer 2005

EGEE 210 (GN)  
Technological Legacy of Pennsylvania Coal (3) Survey of coal technologies with a review of scientific principles and economic, social, and political impacts. 
Effective: Summer 2005

EM SC 121 (GN)  
Minerals and Modern Society (3) Production and use of mineral resources in modern society with an emphasis on the interrelationships and their effect on the Earth system. 
Effective: Summer 1996

EM SC 150 (S T S 150) (GN;IL)  
Out of the Fiery Furnace (3) A history of materials, energy and man, with emphasis on their interrelationships. For nontechnical students. 
Effective: Spring 2006

ENGL 233 (CHEM 233) (GH;GN)  
Chemistry and Literature (3) Exploration of key concepts of chemistry, the reciprocal influence of chemistry and literature through history, and the relationship of science to society, culture, and values.
Effective: Spring 2006

ENT 202 (GN)
The Insect Connection (3) An introduction to the diversity of insects and the ways in which they interact with humans and impact our world.
Effective: Summer 1998

FRNSC 100 (GN)
Introduction to Forensic Science (3) Introduction forensic science.
Effective: Spring 2011

FRNSC 200 (GN)
Introduction to Crime Scene Investigation (3) This course offers an exploration of the science, management, and investigative techniques for the field of crime scene investigation.
Effective: Spring 2010

GEOG 010 (GN)
Physical Geography: An Introduction (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 010H (GN)
Physical Geography: An Introduction (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.

GEOG 010S (GN)
Physical Geography: An Introduction (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 110 (GN)
Climates of the World (3) Introduction to climatology, including principal processes of the global climatic system and their variation over space and time.
Effective: Fall 2004

GEOG 111 (GN)
Biogeography and Global Ecology (3) Distribution of plants and animals on global, regional, and local scales; their causes and significance.
Effective: Fall 2007

GEOG 115 (GN)
Landforms of the World (3) Distribution of the world's landform features and mineral resources; their characteristics, causes, and significance. Practicum includes correlated field trips and laboratory studies.
Effective: Fall 2004

GEOSC 002 (GN)
**Historical Geology** (3) History of the earth and its life; fundamentals of evolution, correlation, and paleogeography; practicum includes field trips, study of geologic maps, geologic problems, and fossils, with emphasis on Appalachian geology. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation.

Effective: Summer 1995

**GEOSC 010** (GN)

**Geology of the National Parks** (3) Introduction to geology, geological change, and environmental hazards, as seen in the National Parks.

Effective: Fall 2003

**GEOSC 020** (GN)

**Planet Earth** (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation.

Effective: Fall 2003

**GEOSC 020L** (GN)

**Planet Earth** (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.)

Effective: Summer 1988

**GEOSC 020P** (GN)

**Planet Earth** (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.)

Effective: Summer 1988

**GEOSC 021** (GN)

**Earth and Life: Origin and Evolution** (3) Introduction to the origin and evolution of life on Earth from the perspective of geologic time and the fossil record. This course contains from one to several field trips for which an additional charge will be made to cover transportation.

Effective: Spring 2002

**GEOSC 040** (GN)

**The Sea Around Us** (3) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography.

Effective: Fall 2003
**GEOSC 040L** (GN)
The Sea Around Us (2) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Summer 2009

**GEOSC 040P** (GN)
The Sea Around Us (1) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Spring 2009

**GEOSC 109H** (GN)
Earthquakes and Society (3) Introduction to earthquakes and seismology, and their relationship to society, including monitoring for nuclear weapons and seismic hazards. Effective: Spring 2007

**GEOSC 110H** (GN)
The Science of Gemstones (3) An exploration of the geological uses of gems and of the physical and chemical properties underlying their brilliance and color. Effective: Summer 2002
Prerequisite: high school chemistry and trigonometry

**GEOSC 111** (GN)
Forensic Geoscience (3) Covers fundamental geoscience concepts such as stratigraphy, mineral and soil identification, seismology, and geochemistry within the context of forensic investigation. Effective: Spring 2008

**HORT 101** (GN)
Horticultural Science (3) Introduction to horticulture with emphasis on plant domestication, morphology, classification, world food crops, commodities, gardens, propagation, and agrochemicals. Effective: Spring 2002

**HORT 150** (GN)
Plants in the Human Context (3) An introduction to the many fascinating and vital relationships between plants and human society. Effective: Summer 2007

**INART 050** (GN)
The Science of Music (3) Waves, physics of sound, hearing, musical scales, musical instruments, and room acoustics. Effective: Summer 2004

**MATSE 081** (GN;IL)
Materials in Today's World (3) A survey of the properties, manufacture, and uses of polymers, ceramics and metals in today's world with emphasis on modern developments and new materials. Effective: Summer 2005

**MATSE 091** (GN)
Polymers, Life and Society (3) An exploration of the science and use of polymer...
materials and their impact on society using a case study approach.
Effective: Summer 2005

**MATSE 101** (EGEE 101) (GN)
**Energy and the Environment** (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

**MATSE 101A** (EGEE 101A) (GN;IL)
**Energy and the Environment** (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

**MATSE 112** (GN)
**Applied Materials Chemistry for Engineers** (3) Chemistry of materials with emphasis on intermolecular forces between atoms, molecules, ions, and dense materials and inorganic and organic physical chemistry. In most majors, this course is not a substitute for CHEM 013 or CHEM 112.
Effective: Spring 2009
Prerequisite: CHEM 110

**METEO 002** (GN)
**Our Changing Atmosphere: Personal and Societal Consequences** (3) A survey of meteorology emphasizing how the nature of our lives, individually/societally, depends upon atmospheric structure, quality, and processes.
Effective: Spring 2003

**METEO 003** (GN)
**Introductory Meteorology** (3) Nontechnical treatment of fundamentals of modern meteorology and the effects of weather and climate. A student who took METEO 002 may take the laboratory part of this course for 1 credit only.
Effective: Spring 2003

**METEO 004** (GN)
**Weather and Risk** (3) Non-technical introduction to the science and historical development of meteorology, and the role of weather forecasting as a tool for risk management by individuals, businesses, and societies.
Effective: Summer 2007

**METEO 005** (GN)
**Severe and Unusual Weather** (3) Non-technical introduction to the physical processes important in the formation of various severe and unusual weather phenomena.
Effective: Summer 2011

**METEO 101** (GN)
**Understanding Weather Forecasting** (3) Fundamental principles of synoptic and physical meteorology, satellite and radar imagery, and data analysis in the setting of mid-latitude weather forecasting.
Effective: Fall 2001

**METEO 122 (AGECO 122) (GN)**

**Atmospheric Environment: Growing in the Wind** (3) Students will learn about the effect of weather on plants, animals, and humans.

Effective: Summer 2006

**MICRB 106 (GN)**

**Elementary Microbiology** (3) Importance of microorganisms in health and disease, agriculture, and industry; descriptive course for students not planning advanced study in microbiology. The combination of MICRB 106 GN and 107 GN must be taken to receive General Education credit in biology. Students must take a combination of MICRB 106 GN and 107 GN to receive General Education credit in biology.

Effective: Spring 2002

Prerequisite: or concurrent: MICRB 106

**MICRB 107 (GN)**

**Elementary Microbiology Laboratory** (1) Selected techniques used to observe, identify and count bacteria; effects of chemical and physical agents on microorganisms. The combination of MICRB 106 GN and 107 GN must be taken to receive General Education credit in biology. Students must take a combination of MICRB 106 GN and 107 GN to receive General Education credit in biology.

Effective: Spring 2002

Prerequisite: or concurrent: MICRB 106

**PHYS 001 (GN)**

**The Science of Physics** (3) Historical development and significance of major concepts, with emphasis on the nature of physics and its role in modern life. (For students in non-mathematical fields.)

Effective: Fall 2004

**PHYS 150 (GN)**

**Technical Physics I** (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.

Effective: Spring 2007

Prerequisite: 1 1/2 units of algebra. Prerequisite or concurrent: MATH 021 or MATH 081

**PHYS 150L (GN)**

**Technical Physics I** (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.

Effective: Summer 1994

**PHYS 150P (GN)**

**Technical Physics I** (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.

Effective: Summer 1994

**PHYS 151 (GN)**

**Technical Physics II** (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2001
Prerequisite: PHYS 150

**PHYS 151L** (GN)

**Technical Physics II** (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2001
Prerequisite: PHYS 150

**PHYS 211** (GN)

**General Physics: Mechanics** (4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton's laws, energy, collisions, and rotation.
Effective: Fall 1999

**PHYS 211H** (GN)

**General Physics: Mechanics** (4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton's laws, energy, collisions, and rotation.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**PHYS 211L** (GN)

**General Physics: Mechanics** (0-4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton's laws, energy, collisions, and rotation. NOTE: UP offers for 0 credits; Altoona offers for 4 credits.
Effective: Fall 2000

**PHYS 211R** (GN)

**General Physics: Mechanics** (4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton's laws, energy, collisions, and rotation.
Effective: Spring 1999

**PHYS 212** (GN)

**General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.
Effective: Fall 1999
Prerequisite: MATH 140 PHYS 211

**PHYS 212H** (GN)

**General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: MATH 140 PHYS 211

**PHYS 212H** (GN)

**General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.
Prerequisite: MATH 140 PHYS 211

**PHYS 212L** (GN)

**General Physics: Electricity and Magnetism** (0-4) Calculus-based study of the basic concepts of electricity and magnetism. NOTE: UP offers for 0 credits; Altoona offers for 4 credits.
Effective: Fall 2000  
Prerequisite: MATH 140 PHYS 211

**PHYS 212R** (GN)  
**General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.  
Effective: Spring 2000  
Prerequisite: MATH 140 PHYS 211

**PHYS 213** (GN)  
**General Physics: Fluids and Thermal Physics** (2) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.  
Effective: Fall 1999  
Prerequisite: MATH 140 PHYS 211

**PHYS 213L** (GN)  
**General Physics: Fluids and Thermal Physics** (0) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.  
Effective: Fall 1999  
Prerequisite: MATH 140 PHYS 211

**PHYS 213R** (GN)  
**General Physics: Fluids and Thermal Physics** (2) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.  
Effective: Fall 1999  
Prerequisite: MATH 140 PHYS 211

**PHYS 214** (GN)  
**General Physics: Wave Motion and Quantum Physics** (2) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.  
Effective: Spring 2004  
Prerequisite: MATH 141 PHYS 211 and PHYS 212

**PHYS 214L** (GN)  
**General Physics: Wave Motion and Quantum Physics** (0) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.  
Effective: Spring 2004  
Prerequisite: MATH 141 PHYS 211 and PHYS 212

**PHYS 214R** (GN)  
**General Physics: Wave Motion and Quantum Physics** (2) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.  
Effective: Spring 2004  
Prerequisite: MATH 141 PHYS 211 and PHYS 212

**PHYS 250** (GN)  
**Introductory Physics I** (4) Selected topics in mechanics, heat, and sound.  
Effective: Fall 2002
Prerequisite: MATH 022 MATH 026 ; or MATH 040 ; or MATH 041 or satisfactory performance on the mathematics proficiency examination

**PHYS 250L** (GN)
*Introductory Physics I* (0-4) Selected topics in mechanics, heat, and sound.
Effective: Spring 2010
Prerequisite: MATH 022 MATH 026 ; or MATH 040 ; or MATH 041 or satisfactory performance on the mathematics proficiency examination

**PHYS 250P** (GN)
*Introductory Physics I* (0) Selected topics in mechanics, heat, and sound.
Effective: Fall 2002
Prerequisite: MATH 022 MATH 026 ; or MATH 040 ; or MATH 041 or satisfactory performance on the mathematics proficiency examination

**PHYS 250R** (GN)
*Introductory Physics I* (4) Selected topics in mechanics, heat, and sound.
Effective: Fall 2002
Prerequisite: MATH 022 MATH 026 ; or MATH 040 ; or MATH 041 or satisfactory performance on the mathematics proficiency examination

**PHYS 251** (GN)
*Introductory Physics II* (4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite: PHYS 250

**PHYS 251L** (GN)
*Introductory Physics II* (0-4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2010
Prerequisite: PHYS 250

**PHYS 251P** (GN)
*Introductory Physics II* (0) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite: PHYS 250

**PHYS 251R** (GN)
*Introductory Physics II* (4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite: PHYS 250

**PPATH 120** (GN)
*The Fungal Jungle: A Mycological Safari From Truffles to Slime Molds* (3)
Students will learn about the world of fungi and the many ways it impacts their lives.
Effective: Spring 2007

**PPATH 300** (GN)
*Horticultural Crop Diseases* (3) Diseases of horticultural crops are examined stressing their cause, diagnosis, control and national and international importance.
Effective: Spring 2008
Prerequisite: 3 credits in a biological science

**R SOC 134 (AGECO 134) (GN)**  
*Sustainable Agriculture Science and Policy* (3) The science, socio-economics, and politics of managing food and fiber production systems. Sustainability implications of current practices and future options.  
Effective: Spring 2007

**S T S 055 (AERSP 055) (GN)**  
*Space Science and Technology* (3) The science and technology of space exploration and exploitation; physical principles; research and development; history, space policy, and social implications.  
Effective: Spring 1994

**S T S 150 (EM SC 150) (GN;IL)**  
*Out of the Fiery Furnace* (3) A history of materials, energy, and humans, with emphasis on their interrelationships. For nontechnical students.  
Effective: Spring 2006

**S T S 201 (GN)**  
*Climate Change, Energy, and Biodiversity* (3) Studies of global warming, energy options, and biodiversity; their interrelations as sciences and as societal issues.  
Effective: Summer 1994

**S T S 201H (GN)**  
*Climate Change, Energy, and Biodiversity* (3) Studies of global warming, energy options, and biodiversity; their interrelations as sciences and as societal issues.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**SC 200 (GN)**  
*Science in Our World: Certainty and Controversy* (3) A science appreciation course, aimed at making non-scientists more informed consumers of science.  
Effective: Summer 2010

**SOILS 071 (GN;IL)**  
*Environmental Sustainability* (3) An introduction to environmental science, exploring sustainable human-environment interactions with examples from environmental soil science.  
Effective: Spring 2007

**SOILS 101 (GN)**  
*Introductory Soil Science* (3) A study of soil properties and processes and relationships to land use, plant growth, environmental quality, and society.  
Effective: Spring 2011

**VB SC 211 (GN)**  
*The Immune System and Disease* (3) Introduction to the immune system that emphasizes the immune response to infection and consequences of a defective immune response.  
Effective: Fall 2007

**W F S 209 (GN)**
Wildlife and Fisheries Conservation (3) Survey of current and historical issues in wildlife and fisheries conservation; emphasis on vertebrate biodiversity, habitat management and protection, and populations.
Effective: Summer 2002
Prerequisite: BIOL 110 or BIOL 240W
Arts

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**A ED 211** (GA)
**Interpreting Art Experience: Social and Behavioral Perspectives** (3) Examination of psychological, cultural, aesthetic, philosophical and educational perspectives on creation and response to art in children, adolescents and adults.
Effective: Summer 2002

**A ED 225** (GA;US)
**Diversity, Pedagogy, and Visual Culture** (3) Issues of diversity in art, education, visual culture, and pedagogy.
Effective: Summer 2005

**A&A 100** (GA;IL)
**Introduction to International Arts** (3) An interdisciplinary, multicultural introduction to the arts of the world.
Effective: Summer 2005

**AAA S 208** (THEA 208) (GA;US;IL)
**Theatre Workshop in Diverse Cultures** (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005

**AM ST 307** (ART H 307) (GA;US)
**American Art** (3) History of art in the English colonies and the United States from the seventeenth century to the present.
Effective: Spring 2008

**ARCH 100** (GA)
**Architecture and Ideas** (3) General introduction to world architecture, emphasizing the relationship between concepts, philosophies, values and ideologies in shaping the built environment.
Effective: Summer 2011

**ARCH 210** (GA)
**Introduction to Architecture and Planning Theories** (3) The course introduces architectural and urban theory by presenting and exploring key concepts through major texts from the Western tradition.
Effective: Spring 2009

**ARCH 211** (GA)
**Contemporary Design and Planning Theories II** (3) Continuation of ARCH 210, with an in-depth analysis and study of significant and current environmental constructs and issues.
Effective: Summer 1995

The Pennsylvania State University
Prerequisite: ARCH 210

ARCH 316 (GA)
Analysis of Human Settlements: Cities (3) Analysis of the interrelated factors which determined and shaped the various types of early cities through the nineteenth century.
Effective: Summer 1989

ART 001 (GA)
Introduction to the Visual Arts (3) Introduction to the media, elements, function, making, and meaning of visual arts today and in diverse historical and cultural contexts.
Effective: Spring 2004

ART 002 (GA)
Interactive Learning and Web-Design (3) Introduce students to research on-line, preparing verbal, visual and other elements for presentation of outcomes and posting them to the Internet.
Effective: Fall 2001

ART 003 (GA)
Visual Images on the Web (3) Introduce students to using visual images for communication on the World Wide Web.
Effective: Fall 2001

ART 010 (GA)
Introduction to Visual Studies (3) Introduction to visual studies; pictorial space and the principles of visual organization.
Effective: Fall 2004

ART 017 (GA)
Introduction to Metal Arts (3) Introduction for non-art majors to fundamental jewelry making and small-scale metalsmithing processes including fabrication, surface treatment, and finishing of metalwork.
Effective: Spring 2004

ART 020 (GA)
Introduction to Drawing (3) Introductory experience in making of art through drawing media; designed for non-majors seeking general overview of studio practice.
Effective: Spring 2004

ART 030 (GA)
Introduction to Sculpture (3) Introduction to sculpture for non-art majors consisting of lectures/basic studio work coordinated to cover broad range of processes.
Effective: Fall 2004

ART 040 (GA)
Introduction to Printmaking (3) Instruction and practice in elementary printmaking and papermaking processes.
Effective: Fall 2004
ART 050 (GA)
Introduction to Painting (3) Introductory experience in making of art through painting media; designed for non-majors seeking a general overview of studio practice.
Effective: Fall 2004

ART 080 (GA)
Introduction to Ceramics (3) Introduction to the concepts and techniques fundamental to the making of pottery and ceramic sculpture.
Effective: Spring 2004

ART 100 (GA)
Concepts and Creation in the Visual Arts (3) A study of the personal and cultural foundations of artistic creation and practice of creative production in the art studio.
Effective: Spring 2004

ART 101 (GA)
Introduction to Web Design (3) A beginning level course in Web Design, with emphasis on designing with standards to assure accessibility and effective communication.
Effective: Spring 2008

ART H 001S (GA)
First-Year Seminar (3) An introduction to the field of art history, through an examination of a selected issue in a seminar setting.
Effective: Fall 2000

ART H 100 (GA;IL)
Introduction to Art (3) An approach to the understanding of art through a critical analysis of selected works of architecture, painting, and sculpture. Students who have passed ART H 110 may not schedule this course.
Effective: Spring 2006

ART H 111 (GA;IL)
Ancient to Medieval Art (3) Survey of Ancient Egyptian, Greek, Roman, Byzantine, Early Medieval, Romanesque, and Gothic art, with an emphasis on sculpture and painting.
Effective: Spring 2006

ART H 111U (GA;IL)
Ancient to Medieval Art (3) Survey of Ancient Egyptian, Greek, Roman, Byzantine, Early Medieval, Romanesque, and Gothic art, with an emphasis on sculpture and painting.

ART H 112 (GA;IL)
Renaissance to Modern Art (3) Survey of Renaissance, Baroque, Rococo, Romantic, Modern, and Contemporary art, with an emphasis on painting, sculpture, and graphic arts.
Effective: Spring 2006
ART H 112U (GA;IL)
Renaissance to Modern Art (3) Survey of Renaissance, Baroque, Rococo, Romantic, Modern, and Contemporary art, with an emphasis on painting, sculpture, and graphic arts.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 120 (GA;IL)
Asian Art and Architecture (3) A selective overview of the art and architecture of India, Southeast Asia, China, Korea, and Japan.
Effective: Summer 2005

ART H 130 (GA;US;IL)
African, Oceanic, and Native American Art (3) A selective overview of the history of African, Oceanic, and Native American art.
Effective: Summer 2005

ART H 140 (GA;IL)
Introduction to Pre-Columbian Art and Architecture (3) This course examines the artistic and architectural production of Pre-Columbian Mesoamerica and the Andes.
Effective: Summer 2011

ART H 201 (GA;IL)
Effective: Spring 2006

ART H 202 (GA;US;IL)
Effective: Spring 2006

ART H 225 (ENGL 225, WMNST 225) (GA;GH)
Sexuality and Modern Visual Culture (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

ART H 301 (GA;IL)
Egyptian and Mesopotamian Art (3) Art of the Ancient Near East, including Egypt, Mesopotamia, and neighboring civilizations.
Effective: Spring 2006

ART H 302 (GA;IL)
Art of the Early Middle Ages (3) A survey of the art of Western Europe from the Early Christian era through the Ottonian Empire, c.300-1050 A.D.
Effective: Spring 2006

ART H 303 (GA;IL)
Italian Renaissance Art (3) The major arts in Italy from the thirteenth century A.D. through the Renaissance; emphasis on sculpture and painting.
Effective: Spring 2006

ART H 303U (GA:IL)
Italian Renaissance Art (3) The major arts in Italy from the thirteenth century A.D. through the Renaissance; emphasis on sculpture and painting.

ART H 304 (GA:IL)
Italian, Spanish, and Spanish Colonial Baroque Art and Architecture (3) A survey of painting, sculpture, and architecture in Italy, Spain, and the Spanish Americas from 1600-1750.
Effective: Fall 2010

ART H 305 (GA:IL)
European Art from 1780-1860 (3) A survey of painting and sculpture in Europe 1780-1860, from the origins of Neoclassicism through Romanticism and Realism.
Effective: Spring 2006

ART H 307 (AM ST 307) (GA:US)
American Art (3) History of art in the English colonies and the United States from the seventeenth century to the present.
Effective: Spring 2008

ART H 311 (GA:IL)
Greek and Roman Art (3) Greek and Roman art, with emphasis on painting and sculpture.
Effective: Spring 2006

ART H 312 (GA:IL)
Romanesque and Gothic Art (3) Survey of the architecture, sculpture, and painting of the Christian church in western Europe from 1000 to 1500.
Effective: Spring 2006

ART H 313 (GA:IL)
Northern Renaissance Art (3) Art in northern Europe in the fifteenth and sixteenth centuries, emphasizing painters such as Van Eyck, Durer, and Bruegel.
Effective: Spring 2006

ART H 314 (GA:IL)
Art in the Age of Rembrandt (3) Dutch and Flemish painting in the seventeenth century.
Effective: Spring 2006

ART H 315 (ASIA 315) (GA:IL)
Architecture and Art of South and Southeast Asia (3) Survey of the architecture/art of South/Southeast Asia (emphasis on India) from the Bronze Age to a globalizing present.
Effective: Summer 2010

ART H 320 (GA:IL)
Chinese Art (3) A general survey of the great periods of Chinese art from the Shang dynasty until the modern period.
Effective: Summer 2005

ART H 325 (GA;IL)
Impressionism to Surrealism (3) A survey of European painting and sculpture from ca. 1850 to ca. 1940.
Effective: Spring 2006

ART H 330 (GA;IL)
Islamic Architecture and Art (3) Survey of the art and architecture of Islamic lands from the late seventh century until the eighteenth century.
Effective: Summer 2005

ART H 335 (GA;IL)
African Art (3) Introduction to the visual arts of Africa, including contemporary African art and the influence of African art outside Africa.
Effective: Summer 2011

ART H 340 (GA;IL)
Japanese Art (3) This course will examine the art and architecture of Japan, its relationship to Chinese art, and its influence on European art.
Effective: Summer 2005

ASIA 315 (ART H 315) (GA;IL)
Architecture and Art of South and Southeast Asia (3) Survey of the architecture/art of South/Southeast Asia (emphasis on India) from the Bronze Age to a globalizing present.
Effective: Summer 2010

BRASS 100J (GA)
Trumpet: Secondary (1 per semester, maximum of 8) Individual instruction in trumpet one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

BRASS 101J (GA)
French Horn: Secondary (1 per semester, maximum of 8) Individual instruction in French horn one-half hour per week. For students who qualify.
Effective: Fall 2004
Prerequisite: permission of instructor

BRASS 102J (GA)
Trombone: Secondary (1 per semester, maximum of 8) Individual instruction in trombone one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

BRASS 103J (GA)
Euphonium: Secondary (1 per semester, maximum of 8) Individual instruction in euphonium/baritone one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 104J** (GA)
**Tuba: Secondary** (1 per semester, maximum of 8) Individual instruction in tuba one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 110J** (GA)
**Trumpet: Secondary** (2 per semester, maximum of 16) Individual instruction in trumpet one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 111J** (GA)
**French Horn: Secondary** (2 per semester, maximum of 16) Individual instruction in French horn one hour per week. For students who qualify.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 112J** (GA)
**Trombone: Secondary** (2 per semester, maximum of 16) Individual instruction in trombone one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 113J** (GA)
**Euphonium: Secondary** (2 per semester, maximum of 16) Individual instruction in euphonium/baritone one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**BRASS 114J** (GA)
**Tuba: Secondary** (2 per semester, maximum of 16) Individual instruction in tuba one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**COMM 150** (GA)
**The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Spring 2007

**COMM 150H** (GA)
**The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Spring 2007

**COMM 150S** (GA)
**The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Fall 2005
**COMM 250** (GA)
*Film History and Theory* (3) Exploration of film theory and criticism in the context of aesthetic, technological, and economic evolution of film history.
Effective: Spring 2004
Prerequisite: COMM 150

**DANCE 100** (GA;US;IL)
*Dance Appreciation* (3) Explore dance as a vital, communicative and performing art, reflecting social values and cultural beliefs.
Effective: Fall 2007

**DANCE 261** (GA)
*Beginning Modern Dance I* (1.5) Introduction to modern dance as an art form; development of dance technique and composition; teaching methods for improvisational skills.
Effective: Spring 2006

**ENGL 050** (GA)
*Introduction to Creative Writing* (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.
Effective: Spring 2001

**ENGL 050H** (GA)
*Introduction to Creative Writing* (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2012

**ENGL 225** (ART H 225, WMNST 225) (GA;GH)
*Sexuality and Modern Visual Culture* (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

**GD 100** (GA)
*Introduction to Graphic Design* (3) A beginning level graphic design course. Instruction touches on the practice, theories, history and processes of the graphic design industry.
Effective: Spring 2006

**INART 001** (GA)
*The Arts* (3) Develop critical perception, knowledge, and judgments through an examination of the basic concepts common among the arts.
Effective: Spring 2006

**INART 003** (GA)
*Reception of the Arts* (3) This course considers how art uses time, space, and
causality to define culture and the human condition.
Effective: Spring 2004

**INART 005 (GA)**
**Performing Arts (3)** Introduction to music, dance, and theatre. Orientation to the aesthetics, theory, and practice of professional performance.
Effective: Spring 2004

**INART 010 (GA)**
**The Popular Arts in America: Mass Media Arts (3)** An introduction to the arts of the mass media with emphasis on how film, radio, television, and the print media influence and reflect society.
Effective: Spring 2004

**INART 015 (GA)**
**The Popular Arts in America: Performing Arts (3)** The development of the performing arts of American popular culture; emphasis on popular music, dance, theatre, and variety arts.
Effective: Spring 2004

**INART 055 (GA)**
**History of Electroacoustic Music (3)** A history of electroacoustic music as a consequence of developments in culture and technology from 1880 to present.
Effective: Spring 2004

**INART 062 (GA;US;IL)**
**West African and African American Arts: from the 1960s to the present (3)** An introduction to West African and African American Arts from the 1960s to the present.
Effective: Summer 2005

**INART 100 (GA)**
**Seminar in Integrative Arts (3)** A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

**INART 100U (GA)**
**Seminar in Integrative Arts (3)** A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**INART 100W (GA)**
**Seminar in Integrative Arts (3)** A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

**INART 110 (GA)**
**The Dramatic Arts in the Mass Media (3)** The place of television-radio-film drama in our culture; relationship with other art forms; standards of evaluation.
INART 115 (GA)

INART 116 (GA;US)
The Popular Arts in America: The History of Rock and Roll-The 1950s (3) This course examines the roots, development, and significance of rock and roll music in its first decade. Effective: Summer 2007

INART 125 (GA;US;IL)
The Popular Arts in America: The History of Rock and Roll - Punk Rock (3) An examination of the roots, development, and significance of punk rock in our culture. Effective: Spring 2011

INART 200 (GA)
The Popular Arts in America: Elvis Presley - The King of Rock and Roll (3) The significance and influence of Elvis Presley as an artist and cultural force focusing on his recordings and major performances. Effective: Spring 2007

INART 205 (GA)
Introducing the Beatles (3) The influence and achievement of the Beatles as artists focusing on their recordings and films as sociocultural artifacts. Effective: Summer 2008

INART 210 (GA)
Integrative Approaches to Computer-Aided Music Composition (3) Interdisciplinary introduction to music composition using software to assist with notation; historical perspectives drawn from art, dance, theater, and literature. Effective: Fall 2004 Prerequisite: MUSIC 008 or instructor permission

INART 236 (GA)
Integrating Music and Animation with Technology (3) An introduction to the theory, design and creation of musical animations. For general students. Effective: Summer 2011

INART 258A (GA)
Fundamentals of Digital Audio (3) A thorough introduction to digital music production technologies, covering fundamentals of how digital musical information is stored, processed and transmitted. Effective: Spring 2011
Prerequisite: MUSIC 008 or concurrent enrollment in either MUSIC 131 or MUSIC 132

**INART 258B (GA)**
**Fundamentals of Digital Audio** (1) A general overview of music technologies current to music educators and performers.
Effective: Summer 2010

**IST 130 (GA)**
**Emerging Technologies in Popular Culture** (3) A survey course that explores emerging technologies used to produce and consume popular cultural artifacts.
Effective: Summer 2009

**KEYBD 100J (GA)**
**Piano: Secondary** (1 per semester, maximum of 8) Individual instruction in piano one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**KEYBD 101J (GA)**
**Organ: Secondary** (1 per semester, maximum of 8) Individual instruction in pipe organ one-half hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**KEYBD 110J (GA)**
**Piano: Secondary** (2 per semester, maximum of 16) Individual instruction in piano one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**KEYBD 111J (GA)**
**Organ: Secondary** (2 per semester, maximum of 16) Individual instruction in pipe organ one hour per week.
Effective: Fall 2004
Prerequisite: permission of instructor

**LARCH 060 (GA;US;IL)**
**History of Design on the Land** (3) A survey of the historical development of outdoor space in relationship to allied arts from early beginnings to this century. Students may take only one course for General Education credit from LARCH 003 GA or 060 GA.
Effective: Fall 2010

**LARCH 065 (GA;US;IL)**
**Built Environment and Culture** (3) Investigates the relationship between socio-cultural practices and the development and organization of contemporary built environments.
Effective: Summer 2005

**MUSIC 004 (GA)**
**Film Music** (3) An introductory examination of music's role in Hollywood narrative

The Pennsylvania State University
film from the classic era (1930s and 1940s) to the present.
Effective: Summer 2009

MUSIC 005 (GA)
An Introduction to Western Music (3) A general survey of art music in western society, highlighting important composers and stylistic developments.
Effective: Spring 2004

MUSIC 005S (GA)
An Introduction to Western Music (3) A general survey of art music in western society, highlighting important composers and stylistic developments.
Effective: Summer 2006

MUSIC 007 (GA;US)
Evolution of Jazz (3) Study of the origins and development of jazz as an art form.
Effective: Summer 2005

MUSIC 008 (GA)
Rudiments of Music (3) Introduction to the elements of music: notation, scales, meter, rhythm, intervals; basic chord structure.
Effective: Fall 2004

MUSIC 009 (GA;IL)
Introduction to World Musics (3) An overview of the music of India, China, Japan, Indonesia, Africa, and the Middle East.
Effective: Summer 2005

MUSIC 050 (GA)
Beginning Piano: Non-Music Major (1) Introduction to the keyboard, notation, chord progressions, transposition, improvisation, and simple accompanying techniques for the non-music major. An additional fee is required for this course.
Effective: Fall 2004

MUSIC 051 (GA)
Intermediate Class Piano: Non-Music Major (1) Instruction in harmonizing melodies, accompanying techniques, improvisation, and repertoire.
Effective: Fall 2004
Prerequisite: MUSIC 050 or placement audition

MUSIC 052 (GA)
Voice Class: Non-Music Major (1) Group study emphasizing development of rudimentary skills and their recreational use in a range of popular and art music.
Effective: Fall 2004

MUSIC 053 (GA)
Class Voice Practicum (1) Voice study in group and individual formats, supervised by in-class lessons and discussions, enhanced by additional individual instruction with pedagogy students.
Effective: Fall 2004
Prerequisite: audition

MUSIC 054 (GA)
Beginning Class Guitar: Non-Music Major (1) Class instruction in guitar for non-music majors.
Effective: Fall 2004

MUSIC 077 (GA)
Philharmonic Orchestra (1 per semester/maximum of 8) Orchestra rehearsal and performance.
Effective: Fall 2004
Prerequisite: audition

MUSIC 078 (GA)
Symphonic Wind Ensemble (1 per semester/maximum of 8) Rehearsal and performance of wind repertoire and concert band literature.
Effective: Fall 2004
Prerequisite: audition

MUSIC 080 (GA)
Symphonic Band (1 per semester/maximum of 8) Rehearsal and performance of symphonic band literature. A select group using standard instrumentation.
Effective: Fall 2004
Prerequisite: audition

MUSIC 081 (GA)
Marching Blue Band (1 per semester/maximum of 4) Rehearsal and performance of appropriate music and maneuvers for football games and related events.
Effective: Fall 2004
Prerequisite: audition

MUSIC 082 (GA)
Concert Band (1 per semester/maximum of 8) Rehearsal and performance of concert band literature.
Effective: Fall 2004
Prerequisite: audition

MUSIC 083 (GA)
Campus Band (1 per semester/maximum of 8) Rehearsal and performance of concert band literature.
Effective: Spring 2002
Prerequisite: audition

MUSIC 084 (GA)
Jazz Ensemble (1 per semester/maximum of 8) Survey and performance of historic and contemporary big band styles.
Effective: Fall 2004
Prerequisite: audition

MUSIC 086 (GA)
Percussion Ensemble (1 per semester/maximum of 8) Study and performance of percussion chamber music in various instrumental combinations, focusing on the classical and contemporary repertoire.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 088** (GA)
**Campus Choir** (1 per semester/maximum of 8) Building skills needed for successful choral singing including vocal production, sight singing, ear training, and music fundamentals.
Effective: Fall 2001

**MUSIC 089** (GA)
**University Choir** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of 100-150 voices.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 090** (GA)
**Glee Club** (1 per semester/maximum of 8) Rehearsal and performance of music composed for male voices from the sixteenth to the twentieth centuries, including sacred and secular compositions.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 091** (GA)
**Oriana Singers** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire for treble voices from the sixteenth to twentieth centuries, including sacred and secular compositions.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 092** (GA)
**Chamber Music for Voices** (1 per semester/maximum of 8) Select groups of singers performing choral chamber music.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 093** (GA;US;IL)
**Essence of Joy** (1 per semester, maximum of 8) Rehearsal and performance of choral repertoire from the African/American tradition.
Effective: Spring 2006
Prerequisite: audition

**MUSIC 094** (GA)
**Women's Chorale** (1 per semester, maximum of 8) Rehearsal and performance of treble choral literature.
Effective: Spring 2004
Prerequisite: audition

**MUSIC 100** (GA)
**Campus Orchestra** (1-10 per semester/maximum of 10) Rehearsal and performance orchestral literature.
Effective: Spring 2011
Prerequisite: audition
MUSIC 103 (GA)
Concert Choir (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of approximately sixty voices.
Effective: Spring 2004
Prerequisite: audition

MUSIC 104 (GA)
Chamber Singers (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of approximately twenty-four voices.
Effective: Spring 2004
Prerequisite: audition

MUSIC 106 (GA)
Early Music Ensemble (1 per semester/maximum of 8) Ensemble for the performance and study of Baroque or early music on instruments of the era.
Effective: Spring 2004
Prerequisite: audition

MUSIC 190 (GA)
Chamber Music for Strings (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily string instruments--string quartets, piano trios, clarinet quintets.
Effective: Spring 2004
Prerequisite: permission of instructor

MUSIC 191 (GA)
Chamber Music for Woodwinds (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily woodwind instruments--woodwind quintets and quartets.
Effective: Spring 2004
Prerequisite: permission of instructor

MUSIC 192 (GA)
Chamber Music for Brass (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily brass instruments--brass quartets and quintets.
Effective: Spring 2004
Prerequisite: permission of instructor

MUSIC 261 (GA;IL)
Survey of Music History I (3) A survey of music history to 1750, with readings, listening, and lecture.
Prerequisite: MUSIC 131 MUSIC 162

MUSIC 262 (GA;IL)
Survey of Music History II (3) A survey of music history from 1750 to the present, with readings, listening, and lecture.
Prerequisite: MUSIC 132 MUSIC 162

**PERCN 100J** (GA)
**Percussion: Secondary** (1 per semester, maximum of 8) Individual instruction in percussion one-half hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**PERCN 110J** (GA)
**Percussion: Secondary** (2 per semester, maximum of 16) Individual instruction in percussion one hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**PHOTO 100** (GA)
**Introduction to Photography** (3) An introduction to the aesthetics, history, and science of photography including practical and critical approaches to the art of photography.
Effective: Spring 2006

**STRNG 100J** (GA)
**Violin: Secondary** (1 per semester, maximum of 8) Individual instruction in violin one-half hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 101J** (GA)
**Viola: Secondary** (1 per semester, maximum of 8) Individual instruction in viola one-half hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 102J** (GA)
**Violoncello: Secondary** (1 per semester, maximum of 8) Individual instruction in violoncello one-half hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 103J** (GA)
**Double Bass: Secondary** (1 per semester, maximum of 8) Individual instruction in double bass one-half hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 110J** (GA)
**Violin: Secondary** (2 per semester, maximum of 16) Individual instruction in violin one hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 111J** (GA)
**Viola: Secondary** (2 per semester, maximum of 16) Individual instruction in viola
one hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 112J (GA)**
**Violoncello: Secondary** (2 per semester, maximum of 16) Individual instruction in violoncello one hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**STRNG 113J (GA)**
**Double Bass: Secondary** (2 per semester, maximum of 16) Individual instruction in double bass one hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

**THEA 080 (GA)**
**Pit Orchestra** (1-3 per semester/maximum of 3) Rehearsal and performance of contemporary and historical musical theatre styles, including operetta and light opera.
Effective: Summer 2008
Prerequisite: audition

**THEA 100 (GA;US;IL)**
**The Art of the Theatre** (3) An experiential survey of all aspects of the living theatre, as presented by a resident company of theatre artists.
Effective: Spring 2006

**THEA 102 (GA)**
**Fundamentals of Acting** (3) Introduction to the art and craft of acting for non-theatre majors.
Effective: Fall 2003

**THEA 105 (GA)**
**Introduction to Theatre** (3) An introduction and overview of the history, craft, and art of the theatre to foster an informed appreciation of theatrical events. This course is an alternate to THEA 100.
Effective: Spring 2003

**THEA 105H (GA)**
**Introduction to Theatre** (3) An introduction and overview of the history, craft, and art of the theatre to foster an informed appreciation of theatrical events. This course is an alternate to THEA 100.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**THEA 107 (GA)**
**Introduction to Dramatic Structure** (3) An introduction to structural analysis in dramatic literature.
Effective: Summer 2011

**THEA 112 (GA)**
**Introduction to Musical Theatre** (3) A survey of music theatre as an art form.
THEA 189 (GA)
Theatre Production Practicum (1 per semester/maximum of 6)* Supervised experience in theatre by crew participation in University theatre productions. For non-theatre students only.
Effective: Spring 2004

THEA 207 (GA;US)
Gender and Theatre (3) A study of theatre and drama literature as formed by issues of gender, race, and ethnic background.
Effective: Summer 2005

THEA 208 (AAA S 208) (GA;US;IL)
Workshop: Theatre in Diverse Cultures (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005

THEA 208S (GA;US;IL)
Workshop: Theatre in Diverse Cultures (3) A performance-oriented class, which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005

THEA 282 (GA)
Production Practicum (3--may repeat once for a total of 6) Introduction to all aspects of theatre production--analysis, design, construction, production, performance--for non-theatre majors.
Effective: Spring 2000

VOICE 100J (GA)
Voice: Secondary (1 per semester, maximum of 8) Individual instruction in voice one-half hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

VOICE 110J (GA)
Voice: Secondary (2 per semester, maximum of 16) Individual instruction in voice one hour per week.
Effective: Spring 2004
Prerequisite: permission of instructor

WMNST 225 (ENGL 225, ART H 225) (GA;GH)
Sexuality and Modern Visual Culture (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

WWNDS 100J (GA)
Flute: Secondary (1 per semester, maximum of 8) Individual instruction in flute one-half hour per week. For both music and non-music majors.

The Pennsylvania State University
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 101J (GA)**
**Oboe: Secondary** (1 per semester, maximum of 8) Individual instruction in oboe one-half hour per week. For both music and non-music students.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 102J (GA)**
**Clarinet: Secondary** (1 per semester, maximum of 8) Individual instruction in clarinet one-half hour per week. For both music and non-music students.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 103J (GA)**
**Bassoon: Secondary** (1 per semester, maximum of 8) Individual instruction in bassoon one-half hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 104J (GA)**
**Saxophone: Secondary** (1 per semester, maximum of 8) Individual instruction in saxophone one-half hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 110J (GA)**
**Flute: Secondary** (2 per semester, maximum of 16) Individual instruction in flute one hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 111J (GA)**
**Oboe: Secondary** (2 per semester, maximum of 16) Individual instruction in oboe one hour per week. For both music and non-music students.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 112J (GA)**
**Clarinet: Secondary** (2 per semester, maximum of 16) Individual instruction in clarinet one hour per week. For both music and non-music students.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 113J (GA)**
**Bassoon: Secondary** (2 per semester, maximum of 16) Individual instruction in bassoon one hour per week. For both music and non-music majors.
Effective: Spring 2004
Prerequisite: permission of instructor

**WWNDS 114J (GA)**
**Saxophone: Secondary** (2 per semester, maximum of 16) Individual instruction in saxophone one hour per week. For both music and non-music majors.

Effective: Spring 2004

Prerequisite: permission of instructor
### Humanities

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

- **AAA S 083S** (GH;US;IL)
  **First-Year Seminar in African and African American Studies** (3) Cultural, philosophical, economic, political, and global dynamics of the Black experience in the United States and the Diaspora.
  Effective: Summer 2005

- **AAA S 083T** (GH;US;IL)
  **First-Year Seminar in African and African American Studies** (3) Cultural, philosophical, economic, political, and global dynamics of the Black experience in the United States and the Diaspora.
  Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

- **AAA S 101** (WMNST 101) (GH;US)
  **The African American Woman** (3) The sociological, historical, and political experiences of African American women, their roles and contributions to society.
  Effective: Summer 2005

- **AAA S 102** (WMNST 102) (GH;IL)
  **Women of Color: Cross-Cultural Perspective** (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.
  Effective: Summer 2005

- **AAA S 145** (RL ST 145) (GH;US;IL)
  **African American Religion** (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.
  Effective: Summer 2005

- **AAA S 146** (RL ST 146) (GH;US)
  **The Life and Thought of Martin Luther King, Jr.** (3) A survey of the civil rights leader including his religious beliefs, intellectual development, and philosophy for social change.
  Effective: Summer 2005

- **AAA S 147** (RL ST 147) (GH;US)
  **The Life and Thought of Malcolm X** (3) The life of Malcolm X/El Hajj Malik El Shabazz (1925-1965) and his social, political, economic, and moral thought.
  Effective: Summer 2005

- **AAA S 150** (GH;IL)

  Effective: Spring 2006
AAA S 191 (HIST 191) (GH;IL)
Early African History (3) Explores important economic and cultural transformations in the making of early African empires from 1 MBC to 1750.
Effective: Summer 2005

AAA S 192 (HIST 192) (GH;IL)
Modern African History (3) Impact of the slave trade, expansion of Islam, colonial conquest, social and cultural transformations, resistance, nationalism, and independence.
Effective: Summer 2005

AAA S 210 (HIST 210) (GH;US)
Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932 (3) The course will explore the context and events that shaped African American life over the period 1896-1932.
Effective: Summer 2005
Prerequisite: AAA S 100 HIST 021

AAA S 211 (HIST 211) (GH;US;IL)
The Emergence and Evolution of the Black Diaspora in the Atlantic World (3) The course will explore the history and role of African and African-descent people in Africa, the Americas, and Europe.
Effective: Summer 2005
Prerequisite: AAA S 100 or HIST 003 or HIST 020 or HIST 021 or HIST 152

AAA S 250 (HIST 250) (GH;IL)
Introduction to the Modern Caribbean (3) A survey course which, explores the historical evolution and emergency of the modern Caribbean.
Effective: Summer 2005

AAS 100 (GH;US)
Introduction to Asian American Studies (3) An introduction to the history, literature, and culture of Asian America.
Effective: Spring 2010

AG 160 (GH)
Introduction into Ethics and Issues in Agriculture (3) The course explores ethical theories, concepts of critical thinking, and major ethical issues related to American agriculture.
Effective: Summer 1999

AM ST 050 (GH)
The Literature and Lore of Mining (3) Experience and values of mining tradition: survey of the literature and lore, including field research.
Effective: Spring 2004

AM ST 083S (GH)
First-Year Seminar in American Studies (3) Critical approaches to the interdisciplinary study of American culture.
Effective: Summer 1999

AM ST 100 (GH;US)
**Introduction to American Studies** (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Spring 2006
Prerequisite: third-semester standing

**AM ST 100U** (GH;US)
**Introduction to American Studies** (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: third-semester standing

**AM ST 100Y** (GH;US)
**Introduction to American Studies** (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Spring 2006
Prerequisite: third-semester standing

**AM ST 103** (GH;US)
**American Masculinities** (3) Introduction to aspects of masculinities and manhood in America.
Effective: Summer 2008

**AM ST 104** (WMNST 104) (GH;US)
**Women and the American Experience** (3) Selected aspects of the role of women in United States history and culture from colonial to modern times.
Effective: Summer 2005

**AM ST 105** (ENGL 105) (GH;US)
**American Popular Culture and Folklife** (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2008

**AM ST 105U** (GH;US)
**American Popular Culture and Folklife** (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**AM ST 140Y** (RL ST 140Y) (GH;US)
**Religion in American Life and Thought** (3) The function, contributions, tensions, and perspectives of religion in American culture.
Effective: Summer 2005

**AM ST 196** (ENGL 196, AMSTD 196) (GH;US)
**Introduction to American Folklore** (3) A basic introduction to verbal and non-verbal folklore stressing the basic procedures of collection, classification, and analysis.
Effective: Summer 2005

**AM ST 301** (GH)
**American Civilization** (3) An interdisciplinary overview of major themes, works,
and events, in American history and culture.
Effective: Fall 2007
Prerequisite: HIST 020 or HIST 021 or 3 credits in American Studies

**APLNG 200 (GH;IL)**
*Introduction to Language, Culture, and Social Interaction* (3) Introduction to the interrelationships among language, culture, and social interaction and their fundamental links to social identities and discourse communities.
Effective: Spring 2009

**ARAB 110 (GH;IL)**
*Arab Language, Cultures, and Current Topics* (3) Fourth-semester Modern Standard Arabic: study of cultures through authentic discourse, texts, film; development of reading, writing, listening, speaking skills.
Effective: Summer 2010
Prerequisite: ARAB 003 or permission of program

**ART H 225 (ENGL 225, WMNST 225) (GA;GH)**
*Sexuality and Modern Visual Culture* (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

**ASIA 004 (CMLIT 004) (GH;IL)**
*Introduction to Asian Literatures* (3) Comparative interpretations of narrative, drama, lyric, and other writings from East Asia and other regions, viewed as world literature.
Effective: Fall 2010

**ASIA 100 (GH;IL)**
*What is Asia?* (3-6 per semester/maximum of 6) An introduction to the history, literatures, politics, and cultures of Asia.
Effective: Fall 2009

**C I 280 (GH)**
*Introduction to Teaching English to English Language Learners* (3) Introductory English language teaching, and pedagogical strategies with English Language Learners.
Effective: Fall 2010
Prerequisite: EDPSY 014

**CAMS 001 (GH)**
*Greek and Roman Literature* (3) Selected readings within a chronological and thematic context of significant and influential masterworks of Greece and Rome.
Effective: Spring 2004

**CAMS 002 (GH;IL)**
*Literature of the Ancient Near East* (3) Reading and study of literary works from the Ancient Near East, especially from Mesopotamia and Ancient Egypt.
Effective: Summer 2005

**CAMS 004 (J ST 004, RL ST 004) (GH;US;IL)**
Jewish and Christian Foundations (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationships to culture.
Effective: Summer 2005

Ancient Mediterranean Civilizations (3) Survey of the history and cultures of ancient Mediterranean civilizations in Mesopotamia, Egypt, Syro-Levant, Anatolia, Greece, and Rome.
Effective: Spring 2008

CAMS 010 (GH;IL)
Mesopotamian Civilization (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia (4,000-331 B.C.E.), in historical context.
Effective: Spring 2006

CAMS 010U (GH;IL)
Mesopotamian Civilization (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia (4,000-331 B.C.E.), in historical context.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 012 (J ST 012, RL ST 012) (GH;IL)
Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Summer 2005

CAMS 012U (J ST 012U, RL ST 012U) (GH;IL)
Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 015 (GH)
Wonders of the Ancient World (3) Overview of ancient world by focusing on the famed "Seven Wonders" and similar achievements from 3000 B.C.E.-1st Century C.E.
Effective: Spring 2003

CAMS 020 (GH)
Egyptian Civilization (3) The culture, history, literature, and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.
Effective: Fall 2005

CAMS 025 (GH;IL)
Greek Civilization (3) The origin and development of the ancient Greek people; their political and social institutions, public and private life.
Effective: Summer 2005

CAMS 025U (GH;IL)
Greek Civilization (3) The origin and development of the ancient Greek people; their political and social institutions, public and private life.
CAMS 033 (GH;IL)  
**Roman Civilization** (3) Origin of the Romans; sociopolitical development; food, homes, education, marriage, family life, amusements, private and public worship.  
Effective: Summer 2005

CAMS 044 (RL ST 044) (GH;IL)  
**Ancient Near Eastern and Egyptian Mythology** (3) Survey of major ancient Mediterranean myths, gods, and goddesses in their cultural contexts; influence on later cultures.  
Effective: Summer 2005

CAMS 045 (GH;IL)  
**Classical Mythology** (3) Introduction to Greek and Roman divinities, heroes and heroines; survey of the major myths and their influence on Western culture.  
Effective: Summer 2005

CAMS 045U (GH;IL)  
**Classical Mythology** (3) Introduction to Greek and Roman divinities, heroes and heroines; survey of the major myths and their influence on Western culture.  
Effective: Fall 2011 Ending: Fall 2011Future: Fall 2011

CAMS 050 (GH)  
**Words: Classical Sources of English Vocabulary** (3) An introduction to English word forms stressing the most frequently occurring Latin and Greek elements and their derivatives.  
Effective: Fall 2004

CAMS 070 (J ST 070, RL ST 070) (GH;IL)  
**Prophecy: The Near East Then and Now** (3) Prophecy in the ancient Near East, the ancient Jewish and Christian traditions, and today.  
Effective: Summer 2007

CAMS 083S (GH;IL)  
**First-Year Seminar in Classics and Ancient Mediterranean Studies** (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.  
Effective: Summer 2005

CAMS 083T (GH;IL)  
**First-Year Seminar in Classics and Ancient Mediterranean Studies** (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.  

CAMS 090 (J ST 090, RL ST 090) (GH;IL)  
**Archaeology of Jerusalem: Past and Present** (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present.  
Effective: Summer 2005

CAMS 100 (HIST 100) (GH;IL)
Ancient Greece (3) Greek world from the earliest Aegean cultures to the death of Alexander the Great and the beginnings of Hellenistic civilization.
Effective: Spring 2006

CAMS 101 (HIST 101) (GH;IL)
The Roman Republic and Empire (3) History of the Roman Republic and Empire from the origins of Rome to the disintegration of the Empire.
Effective: Spring 2006

CAMS 102 (HIST 102, J ST 102, RL ST 102) (GH;IL)
Canaan and Israel in Antiquity (3) Political, social, and intellectual history of the land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages.
Effective: Summer 2005

CAMS 104 (HIST 104) (GH)
Ancient Egypt (3) The history and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.
Effective: Summer 2002

CAMS 105 (GH;IL)
History of the Ancient Near East (3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.
Effective: Summer 2005

CAMS 105U (GH;IL)
History of the Ancient Near East (3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.

CAMS 109Y (GH;IL)
Writing Systems of the World (3) Writing intensive overview of the world's writing systems throughout history.
Effective: Spring 2007

CAMS 110 (J ST 110, RL ST 110) (GH;US;IL)
Hebrew Bible: Old Testament (3) Introduction to the history, literature, and religion of ancient Israel.
Effective: Summer 2005

CAMS 111 (J ST 111, RL ST 111) (GH;IL)
Early Judaism (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism.
Effective: Summer 2005

CAMS 120 (J ST 120, RL ST 120) (GH)

Ancient Egypt (3) The history and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.

The Pennsylvania State University
Effective: Summer 2002

**HIST 105** (GH;IL)
The Byzantine Empire (3) Development of Byzantine civilization from the decline of the Roman Empire to the fall of Constantinople.
Effective: Spring 2006

**HIST 107** (MEDVL 107) (GH;IL)
Medieval Europe (3) Rise and development of the civilization of medieval Europe from the decline of Rome to 1500.
Effective: Spring 2006

**HIST 108** (GH;IL)
The Crusades: Holy War in the Middle Ages (3) The social and political history of medieval religious warfare in Europe and in the Middle East.
Effective: Spring 2006

**HIST 110** (GH;IL)
Nature and History (3) A broad introduction to the history of human relationships with nature throughout the world.
Effective: Summer 2005

**HIST 115** (J ST 115, RL ST 115) (GH;US)
American Jewish History and Culture (3) Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America.
Effective: Summer 2006

**HIST 117** (WMNST 117) (GH;US;IL)
Women in Modern History (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society; cross-cultural comparisons.
Effective: Summer 2005

**HIST 117M** (WMNST 117M) (GH;US;IL)
Women in Modern History (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society; cross-cultural comparisons.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**HIST 119** (GH;IL)
Gender and History (3) Survey of the development of gender roles in Western societies from the prehistoric era to the early modern period.
Effective: Spring 2008

**HIST 121** (J ST 121) (GH;IL)
History of the Holocaust 1933-1945 (3) Historical analysis of holocaust themes.
Effective: Summer 2005

**HIST 122** (S T S 122) (GH)
History of Science I (3) A history of science and culture from Stonehenge to the scientific revolution.
Effective: Spring 2005
HIST 123 (S T S 123) (GH)
History of Science II (3) A history of science and culture from the scientific revolution to the present.
Effective: Spring 2004

HIST 124 (S T S 124) (GH;US;IL)
History of Western Medicine (3) This course explores the history of health, illness, and medicine in western society.
Effective: Summer 2008

HIST 130 (GH;US)
Introduction to the Civil War Era, 1848 through 1877 (3) Survey of causes and consequences of American Civil War, end of Mexican War in 1848 through end of Reconstruction, 1877.
Effective: Spring 2010

HIST 134 (GH;IL)
Introduction to the British Isles, 1400-1800 (3) Survey of the history and cultures of the British Isles from 1400 to 1800.
Effective: Spring 2010

HIST 141 (GH;IL)
Medieval and Modern Russia (3) Introductory survey, including political, social, economic, and cultural development of Kievan, Muscovite, and Imperial Russia.
Effective: Spring 2006

HIST 143 (GH;IL)
History of Fascism and Nazism (3) The study of right-wing totalitarianism in the twentieth century, with special emphasis on Fascist Italy and Nazi Germany.
Effective: Spring 2006

HIST 144 (GH;US;IL)
The World at War: 1939-1945 (3) In-depth study of the origins and conduct of World War II. Political and economic aspects as well as military.
Effective: Spring 2006

HIST 152 (GH;US;IL)
African American History (3) African roots; colonial and revolutionary experiences; slavery and abolitionism; civil war and reconstruction; accommodation and protest; the new militancy.
Effective: Summer 2005

HIST 153 (GH;US)
The Indian in North America (3) A survey of the American Indian from prehistory to the present.
Effective: Summer 2005

HIST 153Y (GH;US)
The Indian in North America (3) A survey of the American Indian from prehistory to the present.
Effective: Summer 2005
HIST 154 (GH;US)
History of Welfare and Poverty in the United States (3) History of care of the impoverished (emphasis on gender, race, nationality, age of poor, and welfare givers), 18th century to present.
Effective: Summer 2005

HIST 155 (GH;US)
American Business History (3) Major developments in the history of business and industry from the colonial period to the present.
Effective: Spring 2006

HIST 173 (GH;IL)
Vietnam in War and Peace (3) Rise of nationalism and communism; origins of conflict; United States involvement; impact on postwar regional and international politics; contemporary Vietnam.
Effective: Spring 2006

HIST 174 (GH;IL)
The History of Traditional East Asia (3) Comparative cultural, institutional, and social history of traditional China and Japan to their contact with the industrialized West.
Effective: Summer 2005

HIST 175 (GH;IL)
The History of Modern East Asia (3) Comparative survey of the internal developments and external relations of China and Japan since their contact with the industrialized West.
Effective: Summer 2005

HIST 176 (GH;IL)
Survey of Indian History (3) Survey of cultural, institutional, and political history from ancient times to the present.
Effective: Summer 2005

HIST 178 (GH;IL)
Latin-American History to 1820 (3) Conquest of the New World, development of colonial institutions, impact on native cultures, and origins of independence movements.
Effective: Summer 2005

HIST 179 (GH;IL)
Latin-American History Since 1820 (3) Origin, political growth, international relations, and economic status of the Latin-American republics, with emphasis upon present-day conditions.
Effective: Summer 2005

HIST 179U (GH;IL)
Latin-American History Since 1820 (3) Origin, political growth, international relations, and economic status of the Latin-American republics, with emphasis upon present-day conditions.
Effective: Fall 2011 Ending: Fall 2011Future: Fall 2011
HIST 180 (CAMS 180) (GH;IL)  
**Ancient Warfare** (3) Historical survey of the evolution of warfare in the ancient Mediterranean region from prehistoric times to the Later Roman Empire.  
Effective: Summer 2006

HIST 181 (GH;IL)  
**Introduction to the Middle East** (3) Origins of Islamic civilization; expansion of Islam; the Ottoman Empire; the Middle East since 1918.  
Effective: Summer 2005

HIST 181U (GH;IL)  
**Introduction to the Middle East** (3) Origins of Islamic civilization; expansion of Islam; the Ottoman Empire; the Middle East since 1918.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 191 (AAA S 191) (GH;IL)  
**Early African History** (3) Explores important economic and cultural transformations in the making of early African empires from 1 MBC to 1750.  
Effective: Summer 2005

HIST 192 (AAA S 192) (GH;IL)  
**Modern African History** (3) Impact of the slave trade, expansion of Islam, colonial conquest, social and cultural transformations, resistance, nationalism, and independence.  
Effective: Summer 2005

HIST 205 (J ST 205) (GH;US)  
**American Antisemitism** (3) The Phenomenon of antisemitism in American history from Peter Stuyvesant to the present.  
Effective: Summer 2011

HIST 210 (AAA S 210) (GH;US)  
**Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932** (3) The course will explore the context and events that shaped African American life over the period 1896-1932.  
Effective: Summer 2005  
Prerequisite: AAA S 100 three credits of American history or permission of the instructor

HIST 211 (AAA S 211) (GH;US;IL)  
**The Emergence and Evolution of the Black Diaspora in the Atlantic World** (3) The course will explore the history and role of African and African-descent people in Africa, the Americas, and Europe.  
Effective: Summer 2005  
Prerequisite: AAA S 100 or HIST 003 or HIST 020 or HIST 021 or HIST 152

HIST 250 (AAA S 250) (GH;IL)  
**Introduction to the Modern Caribbean** (3) A survey course which explores the historical evolution and emergence of the modern Caribbean.  
Effective: Summer 2005
I HUM 150 (GH;IL)
World Mythologies in the Arts (3) Interdisciplinary, cross cultural, historical, and contemporary study of world mythologies as represented in the visual arts, literature, and film.
Effective: Spring 2009

I HUM 311 (GH;IL)
The Western Tradition I (3) From prehistory through the Roman world.
Effective: Summer 2005
Prerequisite: fifth-semester standing

IT 083S (GH;IL)
First-Year Seminar in Italian Literature, Film, and Culture (3) Introduction to the study of Italian literature, film, and culture.
Effective: Summer 2005

IT 083T (GH;IL)
First-Year Seminar in Italian Literature, Film, and Culture (3) Introduction to the study of Italian literature, film, and culture.
Effective: Fall 2011 Ending: Fall 2011
Future: Fall 2011

IT 130 (GH;IL)
Italian Culture and Civilization (3) Italian life from antiquity to the present; literature, film, the arts, and contemporary problems in historical perspective.
Effective: Summer 2005

IT 131 (GH;US)
Italian American Culture and Civilization (3) Italian-American experience from the late 19th century to present. Socio-political issues seen through cinema and through literary and other readings.
Effective: Summer 2005

IT 230 (GH)
Masterpieces of Italian Literature in English Translation (3) Emphasis on works and authors of international importance. Lectures, readings, and written work in English.
Effective: Summer 1995

J ST 004 (CAMS 004, RL ST 004) (GH;US;IL)
Jewish and Christian Foundations (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationship to culture.
Effective: Summer 2005

J ST 010 (HEBR 010) (GH;IL)
Jewish Civilization (3) Life of the Jewish people from biblical times; emphasizing cultural, religious, and institutional developments.
Effective: Summer 2005

J ST 012 (CAMS 012, RL ST 012) (GH;IL)

Effective: Summer 2005

**Modern Judaism (3)** Trends in Jewish life and thought since the French revolution; Judaism's responses to the challenge of modernity.
Effective: Summer 2005

**American Jewish History and Culture (3)** Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America.
Effective: Summer 2006
**JST 120** (CAMS 120, RL ST 120) (GH)

Effective: Spring 2004

**JST 121** (HIST 121) (GH;IL)

**History of the Holocaust 1933-1945** (3) Historical analysis of holocaust themes.
Effective: Summer 2005

**JST 124** (CAMS 124, RL ST 124) (GH;US;IL)

**Early and Medieval Christianity** (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

**JST 131** (CMLIT 110) (GH;US;IL)

**Jewish Literature: An International Perspective** (3) Literature of the Jewish tradition in various cultures and contexts, such as Europe, Israel, Islamic countries, and the Americas.
Effective: Spring 2011

**JST 132** (ENGL 132) (GH;US)

**Introduction to Jewish American Literature** (3) A historical and thematic survey of Jewish Literature of the United States.
Effective: Spring 2009

**JST 133** (CAMS 133, RL ST 133) (GH)

**Archaeology of the Levant and Ancient Israel** (3) Archaeology of the Levant and Ancient Israel to c. 1000 B.C.E.; relationship between archaeological and textual evidence.
Effective: Spring 2004

**JST 134** (CAMS 134, RL ST 134) (GH;IL)

**Archaeology of Biblical Israel** (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

**JST 205** (HIST 205) (GH;US)

**American Antisemitism** (3) The Phenomenon of antisemitism in American history from Peter Stuyvesant to the present.
Effective: Summer 2011

**JST 280** (WMNST 280, RL ST 280) (GH;IL)

**Women and Judaism** (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.
Effective: Fall 2006

**JAPNS 120** (GH;IL)

**Japanese Literature in Its Cultural Context** (3) Japanese literature and film from classical through contemporary times, with attention to changing cultural settings. Taught in English.
Effective: Spring 2010
**JAPNS 121** (GH; IL)
**Japanese Film and New Media** (3) Survey of Japanese film and new media in the twentieth century and beyond, with attention to changing cultural settings. Taught in English.
Effective: Spring 2010

**LING 102** (GH)
**Introduction to Historical Linguistics** (3) How languages change and evolve over time; language families; effects of borrowing and language contact.
Effective: Spring 2002
Prerequisite: LING 010 or LING 100

**LTNST 100** (GH; US)
**Introduction to Latina/o Studies** (3) This course provides an interdisciplinary introduction to the study of Latinas/os in the U.S.
Effective: Summer 2006

**LTNST 226** (ENGL 226) (GH; US; IL)
**Latina and Latino Border Theories** (3) English 226 will constitute a wide-ranging examination of contemporary texts (1960-present) central to the construction of contemporary Latino/a culture.
Effective: Spring 2007

**LTNST 315** (SPAN 315) (GH; US)
**Spanish and Spanish-speakers in the U.S.** (3) In this course, we investigate various aspects of the language(s) and language behaviors of U.S. Latinos.
Effective: Summer 2006

**MEDVL 107** (HIST 107) (GH; IL)
**Medieval Europe** (3) Rise and development of the civilization of medieval Europe from the decline of Rome to 1500.
Effective: Spring 2006

**MEDVL 108** (GH; IL)
**Medieval Civilization** (3) An interdisciplinary introduction to literature, art, and thought of the Middle Ages.
Effective: Spring 2006

**PHIL 001** (GH)
**Basic Problems of Philosophy** (3) Introduction to central philosophical themes, including the mind/body problem, the existence of God, ethical problems, the nature of reality. Students may take only one course for General Education credit from PHIL 001 GH or 004 GH.
Effective: Spring 2000

**PHIL 001H** (GH)
**Basic Problems of Philosophy** (3) Introduction to central philosophical themes, including the mind/body problem, the existence of God, ethical problems, the nature of reality.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
PHIL 002 (GH)
*Philosophy, Politics, and Social Theory* (3) Examines relations between political and social organizations, the justification and limits of the state, and issues concerning individuality and community.
Effective: Fall 2003

PHIL 003 (GH)
*Persons, Moral Values and the Good Life* (3) Major ethical positions and assumptions regarding questions of freedom, choice, obligation, and conflicts in contemporary moral conduct, values, and reasoning.
Effective: Fall 2004

PHIL 005 (GH)
*Philosophy, Art, and Film* (3) Explores relations between images and reality, representation and culture, and beauty and politics through film, artworks, and aesthetic theories.
Effective: Spring 2002

PHIL 006 (CMLIT 006) (GH;IL)
*Philosophy and Literature in Western Culture* (3) Explores fundamental issues of human existence through the traditions of western literature and philosophy.
Effective: Spring 2006

PHIL 007 (GH;IL)
*Asian Philosophy* (3) Introduction to philosophical, moral, and aesthetic teachings of Asian traditions such as Hinduism, Buddhism (including Zen), Taoism, Confucianism, and Shintoism.
Effective: Summer 2005

PHIL 008 (WMNST 008) (GH)
*Philosophy and Feminism* (3) Explores diverse feminist philosophies of culture and knowledge, and examines gender's role in accounts of reality, truth, morality, and justice.
Effective: Spring 2006

PHIL 009 (GH;US)
*Philosophy, Race, and Diversity* (3) Critically examines the significance of race and cultural diversity for, and in, understandings of reality, knowledge, truth, morality, and justice.
Effective: Summer 2005

PHIL 010 (GH)
*Critical Thinking* (3) Discussion of the validity, soundness, and fallacies of everyday language use and reasoning; informal logic; and manipulative arguments and propaganda.
Effective: Fall 2003

PHIL 010S (GH)
*Critical Thinking* (3) Discussion of the validity, soundness, and fallacies of everyday language use and reasoning; informal logic; and manipulative arguments and propaganda.
PHIL 011 (GH)
**Philosophy, Science, and Truth** (3) Examines the philosophical foundations of natural scientific inquiry, knowledge, objectivity, and the relation of scientific truth to common sense.
Effective: Fall 2003

PHIL 013 (GH)

Effective: Fall 2003

PHIL 014 (GH;US)
**Philosophy of Love and Sex** (3) Explores Western theories and attitudes concerning intimacy and examines various ethical issues involving love and sex.
Effective: Summer 2005

PHIL 083S (GH)
**First-Year Seminar in Philosophy** (3) Critical introduction to philosophical issues in ethics, social and political theory, religion, art, metaphysics, and epistemology.
Effective: Summer 1999

PHIL 100 (GH)
**The Meaning of Human Existence** (3) Explores differing views of the significance of human life, the meaning of freedom, and the way to a meaningful life.
Effective: Fall 2003

PHIL 100H (GH)
**The Meaning of Human Existence** (3) Explores differing views of the significance of human life, the meaning of freedom, and the way to a meaningful life.

PHIL 101 (GH)
**Pragmatism and American Philosophy** (3) An introduction to American thought and its relation to American culture, with a focus on the development of pragmatism.
Effective: Fall 2003

PHIL 102 (GH)
**Existentialism and European Philosophy** (3) Introduction to European philosophy and issues of life, death, meaning, and absurdity, with a focus on existentialism and its development.
Effective: Fall 2003

PHIL 103 (GH)
**Introduction to Ethics** (3) Ethical theory about virtue, duty, autonomy, and life quality applied to moral problems, including character, violence, oppression, abortion, and suicide.
Effective: Fall 2003
PHIL 103W (GH)
Introduction to Ethics (3) Ethical theory about virtue, duty, autonomy, and life quality applied to moral problems, including character, violence, oppression, abortion, and suicide.
Effective: Fall 1998
Prerequisite: ENGL 015 or ENGL 030

PHIL 105 (GH)
Introduction to Philosophy of Law and Legal Ethics (3) Historical and contemporary philosophies of law; concepts of responsibility, property, rights, and justice; and ethical issues in legal practice.
Effective: Fall 2003

PHIL 106 (GH)
Introduction to Business Ethics (3) Studies ethical foundations of business and ethical problems in business practices such as advertising, international trade, labor relations, and marketing.
Effective: Fall 2003

PHIL 107 (S T S 107) (GH)
Introduction to Philosophy of Technology (3) The character of technology; its relation to human values; philosophical assumptions in its development; and how it transforms the world.
Effective: Spring 2004

PHIL 108 (GH)
Introduction to Social and Political Philosophy (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.
Effective: Fall 2003

PHIL 108W (GH)
Introduction to Social and Political Philosophy (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.
Effective: Summer 1998
Prerequisite: ENGL 015 or ENGL 030

PHIL 109 (GH)
Introduction to Aesthetics (3) Examines the nature of art and aesthetic experience, art's relation to beauty and truth, and the nature of creativity.
Effective: Fall 2003

PHIL 110 (GH)
Introduction to Philosophy of Science (3) Examines science's assumptions about knowledge and reality, the relation between science and culture, and the nature of scientific progress.
Effective: Fall 2003

PHIL 113 (GH)
Introduction to Philosophy of Literature (3) Examines philosophical ideas in
literature, literary forms in philosophies, style and genre, and relation of philosophy, literature, writing, and culture.
Effective: Fall 2003

**PHIL 113H (GH)**
**Introduction to Philosophy of Literature** (3) Examines philosophical ideas in literature, literary forms in philosophies, style and genre, and relation of philosophy, literature, writing, and culture.

**PHIL 115 (GH)**
**Introduction to Philosophy and Education** (3) Examines the nature and goals of education, the philosophical foundations of educational theories, and their economic, political, and cultural implications.
Effective: Fall 2003

**PHIL 116 (GH)**
**Introduction to Philosophy of Social Science** (3) Examines the philosophical foundations of the social sciences, focusing on issues of methodology, quantification, objectivity, and value-neutrality.
Effective: Fall 2003

**PHIL 118 (GH)**
**Introduction to Environmental Philosophy** (3) Considers the moral status of the environment and applies ethical theory to issues such as preservation, hunger, pollution, and sustainability.
Effective: Fall 2003

**PHIL 119 (GH)**
**Ethical Leadership** (3) Introduction to philosophical theories of ethics and leadership. Uses literary and biographical texts in developing skills of application.
Effective: Summer 2007

**PHIL 122 (GH)**
**Introduction to Philosophy of History** (3) Examines methodological foundations and interpretations of history, the objectivity of history, and the issue of history as design or chance.
Effective: Fall 2003

**PHIL 123 (GH)**
**Introduction to Ethics in Media and Journalism** (3) Studies ethical problems, human values, and politics in differing media forms and the ways media shape such problems and values.
Effective: Fall 2003

**PHIL 124 (GH)**
**Introduction to Philosophy of Religion** (3) Explores the meaning of religious belief and experience, the existence of God, ideas of spirituality, and the question of immortality.
Effective: Fall 2003
Prerequisite: third-semester standing
PHIL 125 (GH)
**Introduction to Theories of Knowledge** (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.
Effective: Fall 2003

PHIL 125W (GH)
**Introduction to Theories of Knowledge** (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.
Effective: Summer 1998
Prerequisite: ENGL 015 or ENGL 030

PHIL 126 (GH)
**Introduction to Metaphysics** (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.
Effective: Fall 2003

PHIL 126H (GH)
**Introduction to Metaphysics** (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.

PHIL 126W (GH)
**Introduction to Metaphysics** (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.
Effective: Summer 1998
Prerequisite: ENGL 015 or ENGL 030

PHIL 127 (GH)
**Introduction to Philosophy of Mind** (3) Problems and concepts of mind and consciousness including mind-brain identification, the nature of subjectivity, identity, and artificial intelligence.
Effective: Fall 2003

PHIL 129 (GH)
**Introduction to Philosophy of Language** (3) Studies the nature of meaning in language, how we acquire language, communication, signs, and language as descriptive of reality.
Effective: Fall 2003

PHIL 132 (RL ST 131) (GH)
**Introduction to Bioethics** (3) Studies questions of ethics in relation to biotechnology research and implementation, genetic engineering, medicine, animal and human rights.
Effective: Fall 2003

PHIL 200 (CAMS 200) (GH)
**Ancient Philosophy** (3) Examines the thought and influence of major Western thinkers from the pre-Socratics to the neo-Platonists, emphasizing Plato and Aristotle.

The Pennsylvania State University
PHIL 201 (GH)
**Medieval Philosophy** (3) Examines the thought and influence of major Western thinkers from the fourth to the fifteenth centuries, emphasizing Augustine and Aquinas.
Effective: Fall 2003

PHIL 202 (GH)
**Modern Philosophy** (3) Examines the thought and influence of major Western thinkers from Descartes to Kant, emphasizing rationalism and empiricism, and critical philosophy.
Effective: Fall 2003

PHIL 203 (GH)
**Nineteenth Century Philosophy** (3) Examines the thought and influence of major Western thinkers from Hegel to Nietzsche, including Marx, Kierkegaard, and Schopenhauer.
Effective: Fall 2003

PHIL 204 (GH)
**Twentieth Century Philosophy** (3) Examines the thought and influence of major Western thinkers of the century, including pragmatists, phenomenologists, existentialists, critical theorists, and feminists.
Effective: Fall 2003

PHIL 208 (GH)
**Contemporary Philosophy** (3) Recent trends in philosophical thought and culture, hybrid philosophies, and the philosophical landscape of the future.
Effective: Fall 2003

PHIL 221 (GH)
**Philosophy of Science** (3) An inquiry into the form and function of concepts, laws, theories, and into the character of scientific explanation and prediction.
Effective: Fall 2003

PHIL 233 (S T S 233) (GH)
**Ethics and the Design of Technology** (3) Ethics and individual and group decision-making in the design of technology including design projects and specific attention to institutional ethics.
Effective: Spring 2004

PHIL 280H (FD SC 280H) (GH)
**Food, Values, and Health** (3) The perceived relationship between food and health, emphasizing the conceptual nature of both; and how values contribute to the relationship.
Effective: Spring 2007

RL ST 001 (GH;US;IL)
**Introduction to World Religions** (3) An historical and comparative survey of the principal beliefs and practices of the world's major religions.
Effective: Summer 2005
Introduction to the Religions of the East (3) Religious experience, thought, patterns of worship, morals, and institutions in relation to culture in Eastern religions.
Effective: Summer 2005

Jewish and Christian Foundations (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationships to culture.
Effective: Summer 2005

Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Summer 2005

Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Ancient Near Eastern and Egyptian Mythology (3) Survey of major ancient Mediterranean myths, gods, and goddesses in their cultural contexts; influence on later cultures.
Effective: Summer 2005

Prophecy: The Near East Then and Now (3) Prophecy in the ancient Near East, the ancient Jewish and Christian traditions, and today.
Effective: Summer 2007

First-Year Seminar in Religious Studies (3) Critical approaches to the dimensions and directions in Religious Studies.
Effective: Summer 1999

Archaeology of Jerusalem: Past and Present (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present.
Effective: Summer 2005

Comparative Religion (3) Comparative or historical analysis of religious factors--worship, theology, ethics, scriptures, etc., in two or more religious traditions.
Effective: Summer 2005

Canaan and Israel in Antiquity (3) Political, social, and intellectual history of the
land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages.
Effective: Summer 2005

**RL ST 103 (GH;US;IL)**
*Introduction to Hinduism* (3) Historical development of Hinduism to the present.
Effective: Summer 2005

**RL ST 104 (GH;US;IL)**
*Introduction to Buddhism* (3) A general survey of the basic doctrine, practice, and historical development of Hinayana and Mahayana Buddhism.
Effective: Summer 2005

**RL ST 105 (GH;US;IL)**
*Buddhism in the Western World* (3) A general survey of the development of Buddhism as a religious tradition in the West, focusing especially on America.
Effective: Summer 2005

**RL ST 106 (GH;IL)**
*Mysticism* (3) A survey of the history, philosophy, and cultural impact of various mystical traditions in relation to world religions.
Effective: Spring 2006

**RL ST 107 (GH;US;IL)**
*Introduction to Islam* (3) Community and message of the early movement; development of authoritative structures and traditions; proliferation of sects; theology and creeds; mysticism.
Effective: Spring 2006

**RL ST 108 (GH;IL)**
*Muhammad and the Qur'an* (3) History of the Qur'an and its interpretation by the early Muslim community; life of Muhammad and his role within Islam.
Effective: Fall 2010

**RL ST 108U (GH;IL)**
*Muhammad and the Qur'an* (3) History of the Qur'an and its interpretation by the early Muslim community; life of Muhammad and his role within Islam.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**RL ST 110 (CAMS 110, J ST 110) (GH;US;IL)**
*Hebrew Bible: Old Testament* (3) Introduction to the history, literature, and religion of ancient Israel.
Effective: Summer 2005

**RL ST 111 (CAMS 111, J ST 111) (GH;IL)**
*Early Judaism* (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism.
Effective: Summer 2005

**RL ST 114 (J ST 114) (GH;US;IL)**
*Modern Judaism* (3) Trends in Jewish life and thought since the French revolution; Judaism's responses to the challenge of modernity.
Effective: Summer 2005
American Jewish History and Culture (3) Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America.
Effective: Summer 2006

Muslims in America (3) This course is a study of Muslims from multiple racial, cultural, and national perspectives; it explores what it means to be a Muslim in America.
Effective: Summer 2010

Effective: Spring 2004

Early and Medieval Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

Modern Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the sixteenth century to the present.
Effective: Summer 1995

The Ethics of Western Religion (3) History of theological-social ethics of the Judaeo-Christian tradition.
Effective: Summer 1995

Introduction to Bioethics (3) Studies questions of ethics in relation to biotechnology research and implementation, genetic engineering, medicine, animal and human rights.
Effective: Spring 2003

Archaeology of the Levant and Ancient Israel (3) Archaeology of the Levant and Ancient Israel to c. 1000 B.C.E.; relationship between archaeological and textual evidence.
Effective: Spring 2004

Archaeology of Biblical Israel (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

Women and Religion (3) Jewish and Christian religious views on womanhood;
thought and lives of important religious women; and feminist understandings of these.

Effective: Spring 2006
Prerequisite: third-semester standing

**RL ST 140Y** (AM ST 140Y) (GH;US)
Religion in American Life and Thought (3) The function, contributions, tensions, and perspectives of religion in American culture.
Effective: Summer 2005

**RL ST 145** (AAA S 145) (GH;US;IL)
African American Religion (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.
Effective: Summer 2005

**RL ST 146** (AAA S 146) (GH;US)
The Life and Thought of Martin Luther King, Jr. (3) A survey of the civil rights leader including his religious beliefs, intellectual development, and philosophy for social change.
Effective: Summer 2005

**RL ST 147** (AAA S 147) (GH;US)
The Life and Thought of Malcolm X (3) The life of Malcolm X/El Hajj Malik El Shabazz (1925-1965) and his social, political, economic, and moral thought.
Effective: Summer 2005

**RL ST 280** (WMNST 280, J ST 280) (GH;IL)
WOMEN AND JUDAISM (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.
Effective: Spring 2006

**RUS 083S** (GH;US;IL)
First-Year Seminar in Russian (3) Russia's cultural past and present.
Effective: Summer 2005

**RUS 083T** (GH;US;IL)
First-Year Seminar in Russian (3) Russia's cultural past and present.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**RUS 100** (GH;IL)
Russian Culture and Civilization (3) The Russian people from the tenth century to present times; their literature, arts, music, science, and philosophy. In English.
Effective: Summer 2005

**RUS 110** (GH;IL)
Russian Folklore (3) Study of byliny, lyrical and historical songs, folktales, drama, ceremonial poetry, chants, charms, proverbs, and mythology of Russia. In English.
Effective: Summer 2005

**RUS 120** (GH;IL)
Theatrical Arts of Russia (3) Survey of Russian dramatic literature, including
plays, operas, ballets, and cinema. In English.

**RUS 143** (GER 143) (GH;IL)
The Culture of Stalinism and Nazism (3) The culture of Stalinist Russia and Nazi Germany in comparative perspective.
Effective: Summer 2005

**STS 100** (GH)
Science, Technology, and Culture (3) A survey of the development and culture of science, technology, and medicine in world history.
Effective: Spring 2011

**STS 100H** (GH)
Science, Technology, and Culture (3) A survey of the development and culture of science, technology, and medicine in world history.

**STS 101** (GH)
Modern Science, Technology, and Human values (3) Relationships of science and technology to human aspirations, values, and arts.
Effective: Spring 1996

**STS 101H** (GH)
Modern Science, Technology, and Human values (3) Relationships of science and technology to human aspirations, values, and arts.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**STS 107** (PHIL 107) (GH)
Introduction to Philosophy of Technology (3) The character of technology; its relation to human values; philosophical assumptions in its development; and how it transforms the world.
Effective: Spring 2004

**STS 122** (HIST 122) (GH)
History of Science I (3) A history of science and culture from Stonehenge to the scientific revolution.
Effective: Spring 2005

**STS 123** (HIST 123) (GH)
History of Science II (3) A history of science and culture from the scientific revolution to the present.
Effective: Spring 2004

**STS 124** (HIST 124) (GH;US;IL)
History of Western Medicine (3) This course explores the history of health, illness, and medicine in western society.
Effective: Summer 2008

**STS 202** (GH;IL)
Introduction to Disability Studies in the Humanities (3) Provides a humanities-based interdisciplinary introduction to Disability Studies.

The Pennsylvania State University
Effective: Summer 2008

**S T S 233** (PHIL 233) (GH)
**Ethics and the Design of Technology** (3) Ethics and individual and group decision-making in the design of technology including design projects and specific attention to institutional ethics.
Effective: Spring 2004

**S T S 235** (GH)
**Science and Religion** (3) This course investigates the relationship between science and religion in multiple cultures.
Effective: Spring 2009
Prerequisite: completion of a basic composition course or the equivalent S T S 100 or S T S 101 or completion of 30 credits of coursework

**SPAN 083S** (GH;IL)
**First-Year Seminar in Hispanic Literatures and Cultures** (3) Introduction to the study of Hispanic literatures and cultures.
Effective: Summer 2005

**SPAN 083T** (GH;IL)
**First-Year Seminar in Hispanic Literatures and Cultures** (3) Introduction to the study of Hispanic literatures and cultures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**SPAN 130** (GH;IL)
**Iberian Civilization** (3) Spanish and Portuguese life from the medieval period to the present; literature, the arts, and contemporary problems in historical perspective.
Effective: Spring 2006

**SPAN 131** (GH;US;IL)
**Ibero-American Civilization** (3) Spanish American and Brazilian life from the Conquest to the present; literature, art, the indigenous heritage, and contemporary problems.
Effective: Summer 2005

**SPAN 131Y** (GH;US;IL)
**Ibero-American Civilization** (3) Spanish American and Brazilian life from the Conquest to the present; literature, art, the indigenous heritage, and contemporary problems.
Effective: Summer 2005

**SPAN 230** (GH)
**Masterpieces of Spanish Literature in English Translation** (3) Study of works and authors of international importance; lectures, readings, and written works in English.
Effective: Spring 2003

**SPAN 231** (GH;IL)
**Masterpieces of Spanish American Literature in English Translation** (3) Emphasis on works and authors of international importance. Lectures, readings,
and written work in English.
Effective: Summer 2005

SPAN 315 (LTNST 315) (GH;US)
Spanish and Spanish-speakers in the U.S. (3) In this course, we investigate various aspects of the language(s) and language behaviors of U.S. Latinos.
Effective: Summer 2006

SPAN 326 (GH;US)
Reading the Border/Lands (3) This course examines representations of the U.S.-Mexico border in relation to the actual geographic space.
Effective: Summer 2011

UKR 100 (GH;IL)
Ukrainian Culture and Civilization (3) Survey of Ukrainian culture and civilization from the Middle Ages to the present.
Effective: Summer 2005

WMNST 003 (GH;US;IL)
Introduction to Women, the Humanities, and the Arts (3) Interdisciplinary consideration of primary works and scholarship pertaining to women in the humanities and the arts.
Effective: Summer 2005

WMNST 008 (PHIL 008) (GH)
Philosophy and Feminism (3) Explores diverse feminist philosophies of culture and knowledge, and examines gender's role in accounts of reality, truth, morality, and justice.
Effective: Spring 2006

WMNST 083S (GH;US;IL)
First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women's Studies.
Effective: Summer 2005

WMNST 083T (GH;US;IL)
First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women's Studies.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

WMNST 101 (AAA S 101) (GH;US)
The African American Woman (3) The sociological, historical and political experiences of African American women, their roles and contributions to society.
Effective: Summer 2005

WMNST 102 (AAA S 102) (GH;IL)
Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.
Effective: Summer 2005

WMNST 104 (AM ST 104) (GH;US)

The Pennsylvania State University
Women and the American Experience (3) Selected aspects of the role of women in United States history and culture from colonial to modern times. Effective: Summer 2005

WMNST 117 (HIST 117) (GH;US;IL)
Women in Modern History (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society. Cross-cultural comparisons. Effective: Summer 2005

WMNST 117M (HIST 117M) (GH;US;IL)

WMNST 137 (RL ST 137) (GH;US;IL)
Women and Religion (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these. Effective: Spring 2006
Prerequisite: third-semester standing

WMNST 194 (ENGL 194) (GH;US;IL)
Women Writers (3) Short stories, novels, poetry, drama, and essays by British, American, and other English-speaking women writers. Effective: Summer 2005

WMNST 225 (ENGL 225, ART H 225) (GA;GH)
Sexuality and Modern Visual Culture (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century. Effective: Summer 2009

WMNST 280 (J ST 280, RL ST 280) (GH;IL)
Women and Judaism (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture. Effective: Fall 2006
Social and Behavioral Sciences

**AAA S 100** (GS;US)
Effective: Summer 2005

**AAA S 110** (GS;IL)
**Introduction to Contemporary Africa** (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.
Effective: Summer 2005

**AAA S 110U** (GS;IL)
**Introduction to Contemporary Africa** (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**AAA S 110U** (GS;IL)
**Introduction to Contemporary Africa** (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.

**AAA S 202** (WMNST 202) (GS;IL)
**Gender Dynamics in Africa** (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories.
Effective: Summer 2005

**AAA S 364** (WMNST 364) (GS;US)
**Black & White Sexuality** (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality.
Effective: Spring 2007

**AEE 201** (GS)
**Interpersonal Skills for Tomorrow's Leaders** (3) Study of concepts of self identity, values and interpersonal relations as related to professional and personal life.
Effective: Summer 2008

**AG BM 101** (GS)
**Economic Principles of Agribusiness Decision Making** (3) Introduction to
economic principles and their application to real world examples of agribusiness management issues.
Effective: Spring 2003

**AN SC 215** (GS)
**Pets in Society** (3) Introduction to the varied roles that companion animals play in human society and their impact on human activity and well-being.
Effective: Spring 2006

**ANTH 001** (GS;US;IL)
**Introductory Anthropology** (3) Prehistoric and traditional peoples and cultures; traditional customs and institutions compared with those of modern society.
Effective: Summer 2005

**ANTH 002** (GS)
**Introduction to Archaeology** (3) Survey of basic approaches used by archaeologists to interpret basic prehistoric human cultural patterns.
Effective: Spring 2000

**ANTH 002H** (GS)
**Introduction to Archaeology** (3) Survey of basic approaches used by archaeologists to interpret basic prehistoric human cultural patterns.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**ANTH 008** (GS;IL)
**Aztecs, Mayas, and Incas** (3) Comparative survey of the development of the pre-Columbian Latin American civilizations.
Effective: Summer 2005

**ANTH 009** (GS;IL)
**Rise of Civilization in the Old World** (3) Evolution of Old World complex societies, especially the first great civilizations of Mesopotamia, Egypt, China, and the Indus Valley.
Effective: Spring 2006

**ANTH 011** (GS;IL)
**Introductory North American Archaeology** (3) Introduction to archaeology of the North American Indians; sites, methods, and results of research interpreted in cultural history.
Effective: Summer 2005

**ANTH 045** (GS;US;IL)
**Cultural Anthropology** (3) Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.
Effective: Summer 2005

**ANTH 045U** (GS;US;IL)
**Cultural Anthropology** (3) Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**ANTH 060** (J ST 060, PL SC 060, SOC 060) (GS;IL)
Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present.
Effective: Summer 2006

ANTH 083S (GS)
First-Year Seminar in Anthropology (3) This seminar introduces students to anthropology as a scientific discipline with ties to other social and natural sciences.
Effective: Summer 1999

ANTH 146 (GS;US)
North American Indians (3) An introduction to the cultures of the indigenous peoples of North America, north of Mexico, and the effect of contact.
Effective: Spring 2006

ANTH 285 (GS;IL)
Culture Contact (3) Survey of changes in indigenous societies following contact with colonial powers.
Effective: Summer 2005
Prerequisite: ANTH 002 ANTH 045

APLNG 083S (GS;US;IL)
First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Summer 2005

APLNG 083T (GS;US;IL)
First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AYFCE 211 (CAS 222, CIVCM 211) (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement.
Effective: Spring 2011

AYFCE 211S (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement.
Effective: Spring 2011

AYFCE 211U (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

B A 100 (GS)
Introduction to Business (3) A comprehensive view of the contemporary environment of business. Effective: Summer 2008

B A 100S (GS)
Introduction to Business (3) A comprehensive view of the contemporary environment of business. Effective: Fall 2009

CAS 083S (GS)
First-Year Seminar in Speech Communication (3) Introduction to major theoretical, critical, research and pedagogical issues in human communication. Effective: Fall 2003

CAS 101 (GS)
Introduction to Human Communication (3) Introduction to major theoretical, critical, research and pedagogical issues in human communication. Effective: Fall 2003

CAS 202 (GS)
Introduction to Communication Theory (3) Survey of human communication studies in relational, interpersonal, group, organization, intercultural, health, technology and communication systems. Effective: Spring 2003

CAS 203 (GS)
Interpersonal Communication (3) Exploration of competent communication and the skills necessary to manage personal and professional relationships. Effective: Fall 2003

CAS 222 (CIVCM 211, YFE 211) (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Fall 2010

CIVCM 211 (CAS 222, AYFCE 211) (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Spring 2011

COMM 100 (GS)

COMM 100S (GS)

The Pennsylvania State University
**COMM 118 (GS)**
**Introduction to Media Effects** (3) Examination of individuals' selection, uses and perceptions of media and the effects of media on individuals' attitudes, beliefs, and behaviors.
Effective: Spring 2007

**COMM 180 (GS)**
**Survey of Electronic Media and Telecommunications** (3) The development of electronic media and telecommunications, emphasizing social, economic, political and global impact.
Effective: Fall 2006

**COMM 190 (GS)**
**Gaming and Interactive Media** (3) Introduction to business and social aspects of interactive media, videogame and simulations industries.
Effective: Summer 2011

**CRIM 012 (CRIMJ 012, SOC 012) (GS)**
**Criminology** (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.
Effective: Spring 2008

**CRIM 012H (SOC 012H) (GS)**
**Criminology** (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**CRIM 012H (SOC 012H) (GS)**
**Criminology** (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.

**CRIM 100 (CRIMJ 100) (GS)**
**Introduction to Criminal Justice** (3) Overview of the criminal justice system, including legal foundations, processing and correction of offenders, extent and types of crime, victims.
Effective: Spring 2008

**CRIMJ 012 (CRIM 012, SOC 012) (GS)**
**Criminology** (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes.
Effective: Spring 2008

**CRIMJ 013 (SOC 013) (GS)**
**Juvenile Delinquency** (3) Juvenile conduct, causes of delinquency, current methods of treatment; organization and function of agencies concerned with...
delinquency.
Effective: Spring 2008

CRIMJ 083S (CRIM 083S) (GS)
First-Year Seminar in Criminal Justice (3) Critical approaches to issues in criminal justice and criminology.
Effective: Spring 2008

CRIMJ 100 (CRIM 100) (GS)
Introduction to Criminal Justice (3) Overview of the criminal justice system, including legal foundations, processing and correction of offenders, extent and types of crime, victims.
Effective: Spring 2008

EBF 200 (GS)
Introduction to Energy and Earth Sciences Economics (3) Resource use decisions and their effect on local, national, and global development.
Effective: Fall 2010

ECON 014 (GS)
Principles of Economics (3) Analysis of the American economy, emphasizing the nature and interrelationships of such groups as consumers, business, governments, labor, and financial institutions. Students who have passed ECON 002 or 004 or are registered in the College of Business Administration may not schedule this course.
Effective: Spring 2003

ECON 083S (GS)
First-Year Seminar in Economics (3) Experiments in microeconomic principles.
Effective: Summer 1999

ECON 102 (GS)
Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution.
Effective: Spring 2011

ECON 102H (GS)
Honors Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution.
Effective: Summer 2011

ECON 102H (GS)
Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2012

ECON 102H (GS)
Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution.
ECON 104 (GS)
**Introductory Macroeconomic Analysis and Policy** (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Spring 2011

ECON 104H (GS)
**Honors Introductory Macroeconomic Analysis and Policy** (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Summer 2011

ECON 104H (GS)
**Introductory Macroeconomic Analysis and Policy** (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ECON 104H (GS)

ECON 302 (GS)
**Intermediate Microeconomic Analysis** (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools. Effective: Spring 2011
Prerequisite: ECON 102

ECON 302H (GS)
**Intermediate Microeconomic Analysis (Honors)** (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools. Effective: Spring 2011
Prerequisite: ECON 102 and MATH 110 or MATH 140

ECON 304 (GS)
**Intermediate Macroeconomic Analysis** (3) Analysis of forces that determine the level of aggregate economic activity. Effective: Spring 2011
Prerequisite: ECON 104

ECON 304H (GS)
**Intermediate Macroeconomic Analysis (Honors)** (3) Analysis of forces that determine the level of aggregate economic activity. Effective: Spring 2011
Prerequisite: ECON 104 and MATH 110 or MATH 140

ECON 315 (GS)
**Labor Economics** (3) Economic analysis of employment, earnings, and the labor market; labor relations; related government policies. Effective: Spring 2011
Prerequisite: ECON 102
ECON 323 (GS)
Public Finance (3) Contemporary fiscal institutions in the United States; public expenditures; public revenues; incidence of major tax types; intergovernmental fiscal relations; public credit.
Effective: Spring 2011
Prerequisite: ECON 102

ECON 333 (GS)
International Economics (3) Why nations trade, barriers to trade, balance of payments adjustment and exchange rate determination, eurocurrency markets, and trade-related institutions.
Effective: Spring 2011
Prerequisite: ECON 102 ECON 104 or ECON 014

ECON 342 (GS)
Industrial Organization (3) Industrial concentration, size, and efficiency of business firms, market structure and performance, competitive behavior, public policy and antitrust issues.
Effective: Spring 2011
Prerequisite: ECON 102

EDPSY 010 (GS)
Individual Differences and Education (3) Relationships between learner differences and physical, cognitive, language, social, and cultural development; emphasis on ethnicity, gender, special needs; schooling implications.
Effective: Spring 2000

EDTHP 115A (GS;US)
Competing Rights: Issues in American Education (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society.
Effective: Spring 2006

EDTHP 115S (GS;US)
Competing Rights: Issues in American Education (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society.
Effective: Spring 2006

EDTHP 200 (GS)
Educational Reform and Public Policy (3) The course uses an interdisciplinary approach to explore the reforms that shape the nation's largest social institutional-public education.
Effective: Summer 2008

EGEE 120 (GS;US;IL)
Oil: International Evolution (3) Survey of the commercial development of the world petroleum industry from various international, historical, business, and cultural perspectives.
Effective: Spring 2006
EGEE 211 (GS;US)
Social Legacy of Pennsylvania Coal (3) Survey of coal technologies with economic, social, and political impacts discussed with historical, cultural, and international perspectives.
Effective: Summer 2005

ENGR 320Y (GS;US;IL)
Design for Global Society (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design.
Prerequisite: ENGL 202

ENVST 100 (GS)
Visions of Nature (3) An interdisciplinary introduction to environmental studies, including perspectives from ethics, economics, public policy, art, literature, history, geology, biology, and ecology.
Effective: Fall 2000

GEOG 020 (GS;US;IL)
Human Geography: An Introduction (3) Spatial perspective on human societies in a modernizing world; regional examples; use of space and environmental resources; elements of geographic planning.
Effective: Summer 2005

GEOG 030 (GS)
Geographic Perspectives on Sustainability and Human-Environment Systems (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.
Effective: Spring 2007 Ending: Fall 2011

GEOG 030 (GS;IL)
Geographic Perspectives on Sustainability and Human-Environment Systems (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.

GEOG 040 (GS;IL)
World Regional Geography (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.
Effective: Summer 2005 Ending: Fall 2011

GEOG 040 (GS;IL)
World Regional Geography (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.

GEOG 120 (GS;US;IL)
Urban Geography: A Global Perspective (3) Introduction to the geography of the world's cities and urban system.
Effective: Spring 2006
Geography of Developing World (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions.
Effective: Spring 2007

GEOG 123U (GS;IL)
Geography of Developing World (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 124 (GS;IL)
Elements of Cultural Geography (3) Locational analysis of changes in non-Western cultures. Problems of plural societies, economic development, population growth, and settlement.
Effective: Summer 2005

GEOG 126 (GS;US;IL)
Economic Geography (3) The location of economic activity at both macro- and micro-regional levels on the earth's surface.
Effective: Spring 2007 Ending: Fall 2011

GEOG 126 (GS;US;IL)
Economic Geography (3) The geographic location and organization of economic activities and outcomes at global, national, regional, and local scales.

GEOG 128 (GS;IL)
Geography of International Affairs (3) Contemporary international affairs in their geographical setting; geographic elements in the development of national power, political groupings, and international disputes.
Effective: Summer 2005

GEOG 130 (GS)
Environment, Power, and Justice (3) This course explores contemporary themes in human-environment relations through the lens of political ecology.
Effective: Spring 2008

GEOG 160 (GS)
Mapping Our Changing World (3) Fundamental concepts of GIS, cartography, remote sensing, and GPS in the context of environmental and social problems.
Effective: Spring 2007

HD FS 129 (GS)
Introduction to Human Development and Family Studies (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle. Student may take only one course for General Education credits from HD FS 129 GS or SOC 030 GS.
Effective: Fall 2004

HD FS 129H (GS)
Introduction to Human Development and Family Studies (3) Introduction to...
psychosocial and family development at all stages of the individual and family life cycle.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**HD FS 129S (GS)**
**Introduction to Human Development and Family Studies** (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Effective: Summer 2006

**HD FS 229 (GS)**
**Infant and Child Development** (3) Theory, research, and methods of social/behavioral/biological sciences related to developmental processes and intervention during infancy and childhood.
Effective: Fall 2004

**HD FS 239 (GS)**
**Adolescent Development** (3) Social, behavioral, and biological development and intervention throughout adolescence.
Effective: Spring 2002

**HD FS 249 (GS)**
**Adult Development and Aging** (3) Physiological, psychological, and social development and intervention from young adulthood through old age.
Effective: Spring 2003

**HD FS 287W (GS;US)**
**Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

**HD FS 287X (GS;US)**
**Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

**HD FS 287Y (GS;US)**
**Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

**HIST 116 (WMNST 116) (GS;US;IL)**
**Family and Sex Roles in Modern History** (3) Historical perspectives on the Western family since 1500: gender roles, marriage, sexuality, child rearing, and old age; emphasis on United States.
Effective: Spring 2006

**HIST 120 (GS;IL)**
**Europe Since 1848** (3) Political, social, and ideological developments; origin and impact of two World Wars; totalitarianism and democracy; changing role in the world.
Effective: Spring 2006
HIST 120U (GS;IL)
Europe Since 1848 (3) Political, social, and ideological developments; origin and impact of two World Wars; totalitarianism and democracy; changing role in the world.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 142 (GS;IL)
History of Communism (3) Marxism; Leninism and evolution of the Soviet Union; formation and development of the Communist bloc; impact of Chinese Communism.
Effective: Spring 2006

HIST 151 (S T S 151) (GS;US)
Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

HIST 151S (S T S 151S) (GS;US)
Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

INSYS 100 (GS;IL)
World Technologies and Learning (3) This course examines the impact of learning technologies from email to online learning on world cultures from a socio-technical perspective.
Effective: Spring 2006

INTAG 100 (GS;IL)
Introduction to International Agriculture (3) Survey of agriculture and food production in developing countries; focus on small traditional farmers, their methods, and socioeconomic environment. (NOTE: Write for a further listing of courses in and related to International Agriculture.)
Effective: Summer 2005 Ending: Summer 2011

INTAG 100 (GS;IL)
Introduction to International Agriculture (3) Ag in developing countries; contemporary crucial issues in global agriculture; emphasizing hunger and food security.
Effective: Fall 2011 Future: Fall 2011

INTST 100 (GS;IL)
Introduction to International Studies (3) An introductory multidisciplinary course designed to familiarize students with critical international issues.
Effective: Summer 2005

INTST 100S (GS;IL)
Introduction to International Studies (3) An introductory multidisciplinary course designed to familiarize students with critical international issues.
IST 110 (GS)
**Information, People and Technology** (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Summer 2005

IST 110H (GS)
**Information, People and Technology** (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 110S (GS)
**Information, People and Technology** (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 110S (GS)
**Information, People and Technology** (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.

JST 060 (ANTH 060, PL SC 060, SOC 060) (GS;IL)
**Society and Cultures in Modern Israel** (3) An introduction to the society and cultures of the State of Israel from 1948 to the present.
Effective: Summer 2006

LER 083S (GS)
**First-Year Seminar in Labor Studies and Employment Relations** (3) Critical approaches to the dimensions and direction in Labor and Employment Relations.
Effective: Spring 2008

LER 100 (GS)
**Employment Relations** (3) Introductory analysis of the employment relationship and of the interrelated interests of managements, workers, unions, and the public.
Effective: Spring 2008

LER 201 (GS)
**Employment Relationship: Law and Policy** (3) An examination of basic legal principles underlying the employment relationship and their social, political, and economic bases.
Effective: Spring 2008

LING 001 (GS;US;IL)
**The Study of Language** (3) A non-technical introduction to the study of human language, and its role in human interaction. Students who have successfully completed LING 100 may not enroll in LING 001.
Effective: Summer 2005

The Pennsylvania State University
LING 083S (GS;US;IL)
1st Year Seminar in Linguistics (3) Non-technical exploration of aspects of human language.
Effective: Summer 2005

LING 100 (GS)
Foundations of Linguistics (3) Systematic study of linguistic structures in a variety of the world’s languages; an overview of language, and its organization.
Effective: Spring 2011

NURS 245 (GS)
Violence and the Impact on Society (3) Interdisciplinary discussion of violence, its perpetrators, victims and its impact on society as well as possible solutions for violence reduction.
Effective: Spring 2010

PL SC 001 (GS)
Introduction to American National Government (3) Introduction to development and nature of American political culture, constitutional/structural arrangements, electoral/policy processes; sources of conflict and consensus.
Effective: Spring 2002

PL SC 001H (GS)
Introduction to American National Government (3) Introduction to development and nature of American political culture, constitutional/structural arrangements, electoral/policy processes; sources of conflict and consensus.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PL SC 001S (GS)
Introduction to American National Government (3) Introduction to development and nature of American political culture, constitutional/structural arrangements, electoral/policy processes; sources of conflict and consensus.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PL SC 003 (GS;IL)
Introduction to Comparative Politics (3) Introduction to study of comparative government and politics: normative/empirical theories; government functions in modern societies; representative structures and processes.
Effective: Fall 2007

PL SC 003U (GS;IL)
Introduction to Comparative Politics (3) Introduction to study of comparative government and politics: normative/empirical theories; government functions in modern societies; representative structures and processes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PL SC 003U (GS;IL)
Introduction to Comparative Politics (3) Introduction to study of comparative government and politics: normative/empirical theories; government functions in modern societies; representative structures and processes.
PL SC 007 (GS)
Contemporary Political Ideologies (3) Critical analysis of contemporary political ideologies such as liberalism, conservatism, socialism, anarchism, fascism, feminism, and environmentalism.
Effective: Fall 2004

PL SC 014 (GS;IL)
International Relations (3) Characteristics of modern nation-states and forces governing their international relations; nationalism; imperialism; diplomacy; current problems of war and peace. Credit will not be given for both this course and INT U 200.
Effective: Fall 2007

PL SC 014U (GS;IL)
International Relations (3) Characteristics of modern nation-states and forces governing their international relations; nationalism; imperialism; diplomacy; current problems of war and peace. Credit will not be given for both this course and INT U 200.

PL SC 017 (GS)
Introduction to Political Theory (3) Introduction to basic issues in political theory through analysis of selected major political thinkers.
Effective: Spring 2003

PL SC 017W (GS)
Introduction to Political Theory (3) Introduction to basic issues in political theory through analysis of selected major political thinkers.
Effective: Spring 2001

PL SC 020 (GS;IL)
Comparative Politics--Western Europe (3) Comparative analysis of political cultures, interest groups, parties, and decision-making processes in principal Western European political systems.
Effective: Fall 2007

PL SC 022 (GS;IL)
Politics of the Developing Areas (3) The impact of colonialism, nationalism, and development policy on the political culture, structure, and transformation of post-colonial regimes.
Effective: Spring 2010

PL SC 060 (ANTH 060, J ST 060, SOC 060) (GS;IL)
Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present.
Effective: Summer 2006

PL SC 083S (GS)
First-Year Seminar in Political Science (3) Exploration of current topics of interest in political science, international relations, and/or political theory.
Effective: Summer 1999
PL SC 083T (J ST 083T) (GS)
First-Year Seminar in Political Science (3) Exploration of current topics of interest in political science, international relations, and/or political theory. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PL SC 110 (GS;US)
Rights in America (3) This course explores the historical and contemporary struggles of particular groups within American society to expand their rights. Effective: Summer 2006

PL SC 123 (GS;US;IL)
Ethnic and Racial Politics (3) Political movements among United States ethnic and racial groups; government policies on race and ethnicity; comparison to other culturally diverse countries. Effective: Fall 2007 Prerequisite: PL SC 001 or PL SC 003

PL SC 130 (GS;US)
American Political Campaigns and Elections (3) Methods and strategies of American political campaigns: polls, political consultants, parties, and the media. Effective: Fall 2007

PL SC 132 (GS;IL)
The Politics of International Intolerance (3) Introductory course emphasizing psychological, historical, and political aspects of global intolerance towards minorities. Effective: Fall 2007

PL SC 135 (S T S 135) (GS)
The Politics of the Ecological Crisis (3) The political implications of the increasing scarcity of many of the world's resources. Effective: Spring 2001

PL SC 140 (GS)
Contemporary Controversies in International Relations (3) Contemporary issues of international security presented rigorously using analytical tools of international relations and political science. Effective: Summer 2009

PL SC 177 (GS)
Politics and Government in Washington DC (1-3) The course centers on a Spring Break trip to Washington DC, with students meeting on campus before and after the trip. Effective: Fall 2007

PSYCH 083S (GS)
First-Year Seminar in Psychology (3) Scientific, societal, and individual implications of contemporary psychological theory. Effective: Spring 2007

PSYCH 083T (GS)

The Pennsylvania State University
First-Year Honors Seminar in Psychology (3) Scientific, societal, and individual implications of contemporary psychological theory.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PSYCH 100 (GS)
Introductory Psychology (3) Introduction to general psychology; principles of human behavior and their applications.
Effective: Spring 2007

PSYCH 100H (GS)
Introductory Psychology (3) Introduction to general psychology; principles of human behavior and their applications.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PSYCH 100H (GS)
Introductory Psychology (3) Introduction to general psychology; principles of human behavior and their applications.

PSYCH 100S (GS)
Introductory Psychology (3) Introduction to general psychology; principles of human behavior and their applications.
Effective: Spring 2007

PSYCH 212 (GS)
Introduction to Developmental Psychology (3) Developmental principles; physical growth; linguistic, intellectual, emotional, and social development from infancy to maturity.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 212H (GS)
Introduction to Developmental Psychology (3) Developmental principles; physical growth; linguistic, intellectual, emotional, and social development from infancy to maturity.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: PSYCH 100

PSYCH 212H (GS)
Introduction to Developmental Psychology (3) Developmental principles; physical growth; linguistic, intellectual, emotional, and social development from infancy to maturity.
Prerequisite: PSYCH 100

PSYCH 221 (GS)
Introduction to Social Psychology (3) Research and theory on topics including interpersonal attraction, aggression, helping, attitudes, attribution, cooperation, competition, and groups, from a psychological perspective.
Effective: Spring 2007
Prerequisite: PSYCH 100
PSYCH 230 (RL ST 236) (GS)
Introduction to Psychologies of Religion (3) Introduction to major Western psychologies of religion (James, Freud, Jung) and to subsequent extensions of and departures from them.
Effective: Spring 2007

PSYCH 231 (GS;US)
Introduction to the Psychology of Gender (3) Psychological study of gender in historical and contemporary perspective. Role of gender in development, self-concept, social relations, and mental health.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 232 (GS;US;IL)
Cross-Cultural Psychology (3) This course examines how ethnic and cultural background influences patterns of human thought and behavior.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 238 (GS)
Introduction to Personality Psychology (3) Past and recent conceptualizations of key issues and root ideas of personality psychology.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 243 (GS)
Introduction to Well-being and Positive Psychology (3) Applying psychological knowledge to develop and maintain effective personal adjustment and well-being and positive social relations.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 244 (GS)
Introduction to the Psychology of Human Factors Engineering (3) Introductory course in engineering/human factors psychology, emphasizing the application of core psychological principles and research to designing products and systems.
Effective: Spring 2009
Prerequisite: PSYCH 100 or 3 credits of GS

PSYCH 253 (GS)
Introduction to Psychology of Perception (3) Survey of human perception and processing of perceptual information, with some reference to animal literature. Emphasizes vision and audition.
Effective: Spring 2007
Prerequisite: PSYCH 100

PSYCH 256 (GS)
Introduction to Cognitive Psychology (3) Introduction to study of such higher mental processes as thinking and reasoning, imagery, concept formation, problem solving, and skilled performance.
Effective: Spring 2007
Prerequisite: PSYCH 100

**PSYCH 260A** (GS)
**Neurological Bases of Human Behavior** (3) An introduction to biopsychology, emphasizing the structure and function of the human brain. Students may take only one course for credit from PSY 203 and PSY 203A.
Effective: Spring 2007
Prerequisite: PSYCH 100

**PSYCH 261** (GS)
**Introduction to Psychology of Learning** (3) A general survey of the learning area, including animal and human experiments, with the applicability of learning principles being discussed.
Effective: Spring 2007
Prerequisite: PSYCH 100

**PSYCH 281** (GS)
**Introduction to Industrial-Organizational Psychology** (3) Personnel selection, training, accident prevention, morale, and organizational behavior.
Effective: Spring 2007
Prerequisite: PSYCH 100

**R SOC 011** (GS;US)
**Introductory Rural Sociology** (3) Basic sociological concepts applied to rural societal institutions and rural communities; causes and consequences of rural social change. Students may take only one course for General Education credit from R SOC 011 GS or SOC 001 GS.
Effective: Spring 2006

**RHS 100** (GS)
**Introduction to Disability Culture** (3) Social and cultural contexts of disability on both a micro and macro levels will be examined.
Effective: Summer 2008 Ending: Summer 2011

**RHS 100** (GS;US;IL)
**Introduction to Disability Culture** (3) Social and cultural contexts of disability on both a micro and macro levels will be examined.
Effective: Fall 2011 Future: Fall 2011

**RL ST 236** (PSYCH 230) (GS)
**Introduction to Psychologies of Religion** (3) Introduction to major Western psychologies of religion (James, Freud, Jung) and to subsequent extensions of and departures from them.
Effective: Spring 2007

**RPTM 120** (GS;US;IL)
**Leisure and Human Behavior** (3) Leisure from historical and contemporary perspectives, including forces shaping leisure behavior, and relationships among leisure, the environment, and social institutions.
Effective: Spring 2010

**S T S 102** (GS)
Science, Technology and Public Policy (3) This course will survey the main issues that relate science and technology to public policy.
Effective: Summer 2010

S T S 135 (PL SC 135) (GS)
The Politics of the Ecological Crisis (3) The political implications of the increasing scarcity of many of the world's resources.
Effective: Spring 2001

S T S 151 (HIST 151) (GS;US)
Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

S T S 151S (HIST 151S) (GS;US)
Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

S T S 200 (GS)
Critical Issues in Science, Technology, and Society (3) An overview of interactions between science, technology, and society from social sciences and humanities perspectives.
Effective: Spring 1995

S T S 200H (GS)
Critical Issues in Science, Technology, and Society (3) An overview of interactions between science, technology, and society from social sciences and humanities perspectives.
Effective: Fall 2011 Ending: Fall 2011Future: Fall 2011

S T S 200S (GS)
Critical Issues in Science, Technology, and Society (3) An overview of interactions between science, technology, and society from social sciences and humanities perspectives.
Effective: Summer 1999

S T S 245 (GS;IL)
Globalization, Technology, and Ethics (3) An investigation of technology and ethics in the globalized world from contemporary, socio-cultural, and historical perspectives.
Effective: Summer 2008

SO SC 001 (GS)
Urbanization (3) An overview of the social sciences, including an interdisciplinary analysis of the urban process.
Effective: Summer 1995

SOC 001 (GS)
Introductory Sociology (3) The nature and characteristics of human societies and
social life. Students may take only one course for General Education credit from SOC 001 GS or R SOC 011 GS.

Effective: Spring 2003

**SOC 001S** (GS)
*Introductory Sociology* (3) The nature and characteristics of human societies and social life.
Effective: Spring 2006

**SOC 001W** (GS)
*Introductory Sociology* (3) The nature and characteristics of human societies and social life.
Effective: Fall 1998

**SOC 003** (GS)
*Introductory Social Psychology* (3) The impact of the social environment on perception, attitudes, and behavior.
Effective: Spring 2003

**SOC 003H** (GS)
*Honors Introduction to Social Psychology* (3) This is an honors course that enables students to learn, apply, and evaluate basic social psychology concepts, theories, and research.
Effective: Summer 2011

**SOC 003H** (GS)
*Introductory Social Psychology* (3) The impact of the social environment on perception, attitudes, and behavior.

**SOC 005** (GS)
*Social Problems* (3) Current social problems such as economic, racial, and gender inequalities; social deviance and crime; population, environmental, energy, and health problems.
Effective: Spring 2003

**SOC 012** (CRIMJ 012, CRIM 012) (GS)
*Criminology* (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes.
Effective: Spring 2008

**SOC 012H** (CRIM 012H) (GS)
*Criminology* (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**SOC 012H** (CRIM 012H) (GS)
*Criminology* (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes.
SOC 013 (CRIMJ 013) (GS)
Juvenile Delinquency (3) Juvenile conduct, causes of delinquency, current methods of treatment; organization and function of agencies concerned with delinquency.
Effective: Spring 2008

SOC 015 (GS)
Urban Sociology (3) City growth and decline; impact of city life on individuals, families, neighborhoods, and government; urban life-styles.
Effective: Summer 1995

SOC 023 (GS)
Population and Policy Issues (3) Local, national, and international population trends; basic techniques of demographic analysis; population problems; implications for public planning and policy.
Effective: Fall 2004

SOC 030 (GS)
Sociology of the Family (3) Family structure and interaction; functions of the family as an institution; cross-cultural comparisons. Students may take only one course for General Education credit from SOC 030 or HD FS 129 GS.
Effective: Spring 2003

SOC 030H (GS)
Sociology of the Family (3) Family structure and interaction; functions of the family as an institution; cross-cultural comparisons.

SOC 055 (GS)
Work in Modern Society (3) The nature of work in varied occupational and organizational settings; current trends and work life in the future.
Effective: Summer 1995

SOC 060 (ANTH 060, J ST 060, PL SC 060) (GS;IL)
Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present.
Effective: Summer 2006

SOC 083S (GS)
First-Year Seminar in Sociology (3) Critical approaches to issues in the structure of society.
Effective: Summer 1999

SOC 083T (GS)
First-Year Seminar in Sociology (3) Critical approaches to issues in the structure of society.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

SOC 110 (WMNST 110) (GS;US)
Sociology of Gender (3) Changing sex role expectations and behavior for men and
women in contemporary society.
Effective: Summer 2005

**SOC 119** (GS;US)
**Race and Ethnic Relations** (4) Historical patterns and current status of racial and ethnic groups; inequality, competition, and conflict; social movements; government policy.
Effective: Summer 2005

**SRA 111** (GS)
**Introduction to Security and Risk Analysis** (3) This introductory course spans areas of security, risk, and analysis covering contexts in government agencies and business organizations.
Effective: Spring 2008

**SRA 111H** (GS)
**Introduction to Security and Risk Analysis** (3) This introductory course spans areas of security, risk, and analysis covering contexts in government agencies and business organizations.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**SUST 200** (GS)
**Foundations of Leadership in Sustainability** (3) Science, ethics, and leadership in social, environmental, and economic sustainability.
Effective: Summer 2011

**WMNST 001** (GS;US;IL)
**Introduction to Women's Studies** (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.
Effective: Summer 2005

**WMNST 001S** (GS;US;IL)
**Introduction to Women's Studies** (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.
Effective: Fall 2009

**WMNST 001U** (GS;US;IL)
**Introduction to Women's Studies** (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.

**WMNST 110 (SOC 110) (GS;US)**
* Sociology of Gender (3) Changing sex role expectations and behavior for men and women in contemporary society.
  Effective: Summer 2005

**WMNST 116 (HIST 116) (GS;US;IL)**
* Family and Sex Roles in Modern History (3) Historical perspectives on the Western family since 1500: gender roles, marriage, sexuality, child rearing, and old age; emphasis on United States.
  Effective: Spring 2006

**WMNST 202 (AAA S 202) (GS;IL)**
* Gender Dynamics in Africa (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories.
  Effective: Summer 2005

**WMNST 364 (AAA S 364) (GS;US)**
* Black & White Sexuality (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality.
  Effective: Spring 2007
United States Cultures and International Cultures

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**A ED 099 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

**A ED 199 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

**A ED 225 (GA;US)**
**Diversity, Pedagogy, and Visual Culture** (3) Issues of diversity in art, education, visual culture, and pedagogy.
Effective: Summer 2005

**A ED 299 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

**A ED 399 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

**A ED 499 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

**A&A 099 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**A&A 100 (GA;IL)**
**Introduction to International Arts** (3) An interdisciplinary, multicultural introduction to the arts of the world.
Effective: Summer 2005

**A&A 199 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**A&A 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**A&A 399** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**A&A 499** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**AAA S 083S** (GH;US;IL)
**First-Year Seminar in African and African American Studies** (3) Cultural, philosophical, economic, political, and global dynamics of the Black experience in the United States and the Diaspora.
Effective: Summer 2005

**AAA S 083T** (GH;US;IL)
**First-Year Seminar in African and African American Studies** (3) Cultural, philosophical, economic, political, and global dynamics of the Black experience in the United States and the Diaspora.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**AAA S 100** (GS;US)
Effective: Summer 2005

**AAA S 101** (WMNST 101) (GH;US)
**The African American Woman** (3) The sociological, historical, and political experiences of African American women, their roles and contributions to society.
Effective: Summer 2005

**AAA S 102** (WMNST 102) (GH;IL)

**Introduction to Islamic Civilization** (3) Islamic history, culture, and religious life c.600-1500 C.E. Effective: Spring 2006

**ARAB 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
ARAB 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 401 (IL)
Advanced Language & Cultures I (3) Fifth-semester Modern Standard Arabic: reading more complex texts, films, further development of conversation, composition skills, Arab cultures, current issues.
Effective: Spring 2008
Prerequisite: ARAB 110 or approval of program

ARAB 402 (IL)
Advanced Language & Cultures II (3) Sixth-semester Modern Standard Arabic: reading more complex texts, films, further development of conversation, composition skills, Arab cultures, current issues.
Effective: Spring 2008
Prerequisite: ARAB 401 or approval of program

ARAB 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARCH 099 (IL)
Foreign Studies--Architecture (1-15) Individual or group instruction conducted in a foreign country.
Effective: Summer 2005

ARCH 199 (IL)
Foreign Studies--Architecture (1-15) Individual or group instruction conducted in a foreign country.
Effective: Summer 2005

ARCH 299 (IL)
Foreign Studies--Architecture (1-15) Individual or group instruction conducted in a foreign country.
Effective: Summer 2005

ARCH 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

ARCH 431A (IL)
Architectural Design V--Foreign Study (6) A studio offered in Rome, Italy, which emphasizes urban planning and architectural design in an urban context. Effective: Summer 2008 Ending: Summer 2011 Prerequisite: ARCH 332

ARCH 431A (IL)
Architectural Design V--Foreign Study (6) A studio offered in Rome, Italy, which emphasizes urban planning and architectural design in an urban context. Effective: Fall 2011 Future: Fall 2011 Prerequisite: Students must earn a C or better in: ARCH 332 and A E 424

ARCH 432A (IL)
Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy. Effective: Summer 2008 Ending: Summer 2011 Prerequisite: ARCH 431

ARCH 432A (IL)
Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy. Effective: Fall 2011 Future: Fall 2011 Prerequisite: Students must earn a C or better in: ARCH 431

ARCH 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006 Prerequisite: seventh-semester standing

ARCH 499A (IL)
Foreign Study--Architectural Design VI (6) Individual or group instruction conducted in a foreign country. Effective: Spring 2007 Prerequisite: ARCH 332 fourth-year standing in the architecture curriculum

ARCH 499B (IL)
Architectural Analysis (3) Comparative study of architectural elements and building types through on-site drawing, recording, measurement, sketching and decomposition activity. Effective: Spring 2009 Ending: Summer 2011 Prerequisite: ARCH 210

ARCH 499B (IL)
Architectural Analysis (3) Comparative study of architectural elements and building types through on-site drawing, recording, measurement, sketching and decomposition activity. Effective: Fall 2011 Future: Fall 2011 Prerequisite: Students must earn a C or better in: ART H 201 and ART H 202
ARCH 499C (IL)
Urban Studies Topics (3) A presentation of the history of Rome through the medium of its maps and walking tours of the city.
Effective: Spring 2009 Ending: Summer 2011
Prerequisite: ARCH 210

ARCH 499C (IL)
Urban Studies Topics (3) A presentation of the history of Rome through the medium of its maps and walking tours of the city.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ART H 201 and ART H 202

ARCH 499D (IL)
Architectural Design and Studio (4) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: seventh-semester standing

ARCH 499E (IL)
Cartography (2) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: seventh-semester standing

ART 122Y (US)
Commentary on Art (3) An introduction to verbal commentary, both oral and written, about art. The development of critical and expressive skills given emphasis.
Effective: Spring 2006

ART 199 (IL)
Foreign Studies--Art (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ART 211 (US)
Introduction to Digital Art and Design Criticism (3) An introduction to the language, aesthetics and cultural impacts of digital art and design in contemporary society.
Effective: Fall 2007

ART 211Y (US)

Effective: Spring 2008
Prerequisite: general psychology or general sociology

**BIOE 444** (MATSE 404) (IL)
**Surfaces and the Biological Response to Materials** (3) Focus is on special properties of surface as an important causative and mediating agent in the biological response to materials.
Effective: Summer 2007
Prerequisite: CHEM 111 CHEM 113

**BIOL 120A** (GN;US;IL)
Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance. Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course. Effective: Spring 2008

**BIOL 120B** (GN;US)
Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance. Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course. Effective: Spring 2008

**BIOL 199** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BIOL 399** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BIOL 499** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BIOL 499A** (IL)
Tropical Field Ecology (3) An intensive introduction to tropical biodiversity to be taught in Belize, Central America. Effective: Summer 2005
Prerequisite: BIOL 220W

**BKLV 099** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BKLV 199** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BKLV 299** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

**BKLV 399** (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**BKLV 499** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**C E 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**C E 254** (GHA;US)
**Personal & Occupational Safety** (3) Students will learn about principles of safety in work and personal settings.
Effective: Spring 2008

**C E 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**C E 399** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**C E 499** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**CAMS 002** (GH;IL)
**Literature of the Ancient Near East** (3) Reading and study of literary works from the Ancient Near East, especially from Mesopotamia and Ancient Egypt.
Effective: Summer 2005

**CAMS 004** (J ST 004, RL ST 004) (GH;US;IL)
**Jewish and Christian Foundations** (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationships to culture.
Effective: Summer 2005

**CAMS 005** (HIST 005) (GH;IL)
**Ancient Mediterranean Civilizations** (3) Survey of the history and cultures of ancient Mediterranean civilizations in Mesopotamia, Egypt, Syro-Levant, Anatolia, Greece, and Rome.
Effective: Spring 2008

**CAMS 010** (GH;IL)
**Mesopotamian Civilization** (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia.
Mesopotamian Civilization (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia (4,000-331 B.C.E.), in historical context.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Summer 2005

Greek Civilization (3) The origin and development of the ancient Greek people; their political and social institutions, public and private life.
Effective: Summer 2005

Roman Civilization (3) Origin of the Romans; sociopolitical development; food, homes, education, marriage, family life, amusements, private and public worship.
Effective: Summer 2005

Ancient Near Eastern and Egyptian Mythology (3) Survey of major ancient Mediterranean myths, gods, and goddesses in their cultural contexts; influence on later cultures.
Effective: Summer 2005

Classical Mythology (3) Introduction to Greek and Roman divinities, heroes and heroines; survey of the major myths and their influence on Western culture.
Effective: Summer 2005

Prophecy: The Near East Then and Now (3) Prophecy in the ancient Near East, the
ancient Jewish and Christian traditions, and today.
Effective: Summer 2007

**CAMS 083S (GH;IL)**
First-Year Seminar in Classics and Ancient Mediterranean Studies (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.
Effective: Summer 2005

**CAMS 083T (GH;IL)**
First-Year Seminar in Classics and Ancient Mediterranean Studies (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.

**CAMS 090 (J ST 090, RL ST 090) (GH;IL)**
Archaeology of Jerusalem: Past and Present (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present.
Effective: Summer 2005

**CAMS 099 (IL)**
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**CAMS 100 (HIST 100) (GH;IL)**
Ancient Greece (3) Greek world from the earliest Aegean cultures to the death of Alexander the Great and the beginnings of Hellenistic civilization.
Effective: Spring 2006

**CAMS 101 (HIST 101) (GH;IL)**
The Roman Republic and Empire (3) History of the Roman Republic and Empire from the origins of Rome to the disintegration of the Empire.
Effective: Spring 2006

**CAMS 102 (HIST 102, J ST 102, RL ST 102) (GH;IL)**
Canaan and Israel in Antiquity (3) Political, social, and intellectual history of the land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages.
Effective: Summer 2005

**CAMS 105 (GH;IL)**
History of the Ancient Near East (3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.
Effective: Summer 2005

**CAMS 105U (GH;IL)**
History of the Ancient Near East m3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.

**CAMS 109Y (GH;IL)**
Writing Systems of the World (3) Writing intensive overview of the world's writing
systems throughout history.
Effective: Spring 2007

**CAMS 110** (J ST 110, RL ST 110) (GH;US;IL)
**Hebrew Bible: Old Testament** (3) Introduction to the history, literature, and religion of ancient Israel.
Effective: Summer 2005

**CAMS 111** (J ST 111, RL ST 111) (GH;IL)
**Early Judaism** (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism.
Effective: Summer 2005

**CAMS 124** (J ST 124, RL ST 124) (GH;US;IL)
**Early and Medieval Christianity** (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

**CAMS 134** (J ST 134, RL ST 134) (GH;IL)
**Archaeology of Biblical Israel** (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

**CAMS 140** (GH;IL)
**Classical Archaeology--Ancient Greece** (3) Literary sources and material evidence for society; culture of the inhabitants of Greece in ancient times.
Effective: Summer 2005

**CAMS 150** (GH;IL)
**Classical Archaeology--Ancient Rome** (3) Literary sources for the development of Roman civilization in relation to the relevant archaeological discoveries.
Effective: Summer 2005

**CAMS 180** (HIST 180) (GH;IL)
**Ancient Warfare** (3) Historical survey of the evolution of warfare in the ancient Mediterranean region from prehistoric times to the Later Roman Empire.
Effective: Summer 2006

**CAMS 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**CAMS 250U** (GH;IL)
**Honors Classics in Literature and Film** (3) This honors course explores the Classical Tradition as it thrives in the literature of later epochs and film.
Effective: Summer 2010

**CAMS 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
CAMS 399 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2005

CAMS 405 (IL)  
**Law & Economy in the Ancient Near East** (3) This course is an overview of the legal and economic texts and institutions in the Ancient Near East.  
Effective: Spring 2009  
Prerequisite: 6 credits in any undergraduate CAMS courses.

CAMS 442 (KINES 442) (IL)  
**Sport in Ancient Greece and Rome** (3) An examination of the continuity of sport in Greek and Roman societies.  
Effective: Spring 2008  
Prerequisite: CAMS 025 CAMS 033 CAMS 140 CAMS 150 CAMS 100 CAMS 101 or KINES 141

CAMS 470 (IL)  
**Languages and Cultures of the Ancient Near East** (3) This course is an overview of the languages and cultures that populated the Ancient Near East.  
Effective: Spring 2009  
Prerequisite: 6 credits in any undergraduate CAMS courses.

CAMS 499 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2005

CAMS 499A (HIST 499A, ANTH 499A) (IL)  
**Archaeology, History, and Culture of Turkey's Aegean Coast** (3) The 2011 study tour will focus on Turkey's western coast, the location of Troy and the Trojan War of the heart of the Greco-Roman and Byzantine empires.  
Effective: Summer 2011 Ending: Summer 2011

CAMS 499B (HIST 499B, ANTH 499B) (IL)  
**Foreign Study** (3) This course is offered as an option for students to earn an additional 3 credits, with the permission of the instructor. The students will be required to write a research paper on an approved topic.  
Effective: Summer 2011 Ending: Summer 2011

CAMS 499C (HIST 499C, ANTH 499C, RL ST 499C) (IL)  
**Excavation, Survey and GIS for Archaeologists** (6) Entails excavation, intensive survey, and an introduction to GIS for archaeologists.  
Effective: Summer 2011 Ending: Summer 2011

CAMS 499D (RL ST 499D, ANTH 499D, HIST 499D) (IL)  
**Israel Dig: Excavation, Conservation, and Public Archaeology** (6) Entails excavation, conservation, and public archaeology involved with the preservation and interpretation of Israel's archaeological sites.
CAMS 499E (HIST 499E, ANTH 499E) (IL)
Study Tour of Jordan: Petra, the Spice Route, Roman Palestine (3) Entails an in-depth seminar with a focus on the archaeology and history of Roman Palestine.
Effective: Summer 2011 Ending: Summer 2011

CAS 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAS 200 (US;IL)
Language, Culture, and Communication (3) Introduction to language, language development, cultural literacy, culture, and intercultural communication.
Effective: Summer 2005

CAS 222 (CIVCM 211, YFE 211) (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement.
Effective: Fall 2010

CAS 271 (US;IL)
Intercultural Communication (3) Introduction to intercultural communication. Focus on topics such as language, identity, prejudice, and intergroup relations on a domestic/ international level.
Effective: Summer 2005

CAS 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAS 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAS 422 (AAA S 422) (US)
Contemporary African American Communication (3) A focused study on the continuities between African and African American culture and communication.
Effective: Summer 2005
Prerequisite: CAS 100

CAS 455 (WMNST 455) (US)
Gender Roles in Communication (3) Explores the literature on gender research in the discipline of human communication.
Effective: Summer 2005
Prerequisite: CAS 202

CAS 471 (US;IL)
Intercultural Communication Theory and Research (3) Intercultural and cross-cultural communication research theory and practice as applied within and across national boundaries.
Effective: Summer 2005
Prerequisite: CAS 271

CAS 499 (IL)
Foreign Studies (1-9) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CED 420 (R SOC 420, WMNST 420) (US;IL)
Women in Developing Countries (3) Analysis of women's work, experiences, and development policies and practices in Africa, Asia, and Latin America.
Effective: Fall 2009
Prerequisite: 5th semester standing or above

CED 450 (IL)
International Development, Renewable Resources, and the Environment (3) Theories of agricultural and economic development, with particular attention to interactions between development, renewable resources, and the environment.
Effective: Fall 2010
Prerequisite: 6 credits in agricultural economics or economics

CED 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

Foreign Study--English (3-6) Studies in English language and/or literature.
Effective: Summer 2005

ENGL 226 (LTNST 226) (GH;US;IL)
Latina and Latino Border Theories (3) English 226 will constitute a wide-ranging examination of contemporary texts (1960-present) central to the construction of contemporary Latino/a culture.
Effective: Spring 2007

ENGL 227 (GH;US;IL)
Introduction to Culture and Sexuality (3) A course addressing the relationships between sexuality, literature, and culture.
Effective: Summer 2009
Prerequisite: ENGL 015 or ENGL 030

ENGL 235 (AAA S 235) (US)
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

ENGL 245 (GH;US)
Introduction to Lesbian and Gay Studies (3) An introduction to the study of sex and (homo)sexual identity across a wide range of disciplines and methodologies.
Effective: Summer 2007

ENGL 299 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ENGL 399 (IL)
Foreign Study--English (3-6) Advanced studies in English language and/or literature.
Effective: Summer 2005
ENGL 426 (LTNST 426) (US)
Chicana and Chicano Cultural Production: Literature, Film, Music (3) An in-depth study of Chicana/Chicano literature, film, and music from the inception of the Chicano Movement (1965-1975) to the present.
Effective: Spring 2007
Prerequisite: 3 credits in English

ENGL 428 (AAS 428) (US)
Asian American Literatures (3 per semester/maximum of 6) A seminar on the literatures and cultures of Asian America, with attention to forms of geographic, historical, and ethnic diversity.
Effective: Summer 2010

ENGL 431 (AM ST 475) (US)
Black American Writers (3 per semester, maximum of 6) A particular genre or historical period in the development of Black American literature.
Effective: Fall 2007
Prerequisite: ENGL 015 or ENGL 030

ENGL 449 (US;IL)
Women Poets (3) Study of major writings by women poets; instructor chooses emphasis, language, and period.
Effective: Fall 2007
Prerequisite: ENGL 002 or ENGL 003 or ENGL 167 or ENGL 194 ; ENGL 015 or ENGL 030

ENGL 461 (US)
The Vernacular Roots of African American Literature (3) The relationship between oral tradition and literary texts and the double consciousness of African American voice in "print."
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

ENGL 462 (WMNST 462) (US)
Reading Black, Reading Feminist (3) Female identity and its construction in textual representations of gender, class, color, and cultural difference in English-language literatures.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

ENGL 463 (US)
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

ENGL 466 (US)
African American Novel I (3) Thematic, structural, and stylistic characteristics of the African American novel from residually oral forms to satiric realism.
Effective: Summer 2005

The Pennsylvania State University
Prerequisite: ENGL 015 or ENGL 030

**ENGL 467** (US)
**African American Novel II** (3) Thematic, stylistic, and structural characteristics of the African American novel from naturalism to modernism and postmodernism.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

**ENGL 468** (US)
**African American Poetry** (3) African American poetry within the contexts of the black oral tradition and transformed European literary tradition.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

**ENGL 469** (AAA S 469) (US)
**Slavery and the Literary Imagination** (3) The impact of slavery on the petitions, poetry, slave narratives, autobiographies, and novels of African Americans.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

**ENGL 486** (IL)
**The World Novel in English** (3) Studies in the novel, written in English, by writers outside of the United States and Great Britain.
Effective: Fall 2007
Prerequisite: ENGL 002 ; ENGL 015 or ENGL 030

**ENGL 488** (CMLIT 488) (IL)
**Modern Continental Drama** (3) From Ibsen to the drama of today: Strindberg, Chekhov, Hauptmann, Pirandello, Ionesco, Beckett, Genet, and others.
Effective: Spring 2006
Prerequisite: ENGL 015 or ENGL 030

**ENGL 490** (WMNST 490) (US;IL)
**Women Writers and Their Worlds** (3) American and British literature written from the perspective of women.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

**ENGL 499** (IL)
**Foreign Study--English** (3-6) Studies abroad in English language and/or literature.
Effective: Summer 2005

**ENGR 099** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**ENGR 1951** (IL)
**Engineering International Internship** (1 per semester/maximum of 4) A supervised work experience in a professionally relevant position in research, industry or government.
Effective: Spring 2006 Ending: Fall 2011

**ENGR 195I** (IL)
**Engineering International Internship** (0.5-4 per semester/maximum of 4) A supervised work experience in a professionally relevant position in research, industry, government or service sector.

**ENGR 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**ENGR 295I** (IL)
**Engineering International Cooperative Education** (1) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Spring 2006

**ENGR 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**ENGR 301** (IL)
**International Engineering Orientation** (1) This course will prepare engineering students for an international educational experience, including study abroad and international internships.
Effective: Summer 2005

**ENGR 320Y** (GS;US;IL)
**Design for Global Society** (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design.
Prerequisite: ENGL 202

**ENGR 3951** (IL)
**Engineering International Cooperative Education** (1-2 per semester) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Spring 2006
Prerequisite: ENGR 295A or ENGR 295I

**ENGR 399** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**ENGR 408** (US)
**Leadership Principles** (2) An introduction to an exploration of theories and principles of leadership, supplemented by presentations given by industry and government leaders.
Effective: Spring 2006
ENGR 409 (US)  
**Leadership in Organizations** (3) Development of leadership skills essential for engineers to guide colleagues or an organization in a productive direction.  
Effective: Spring 2006

ENGR 420Y (US:IL)  
**Design for Global Society** (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design.  
Effective: Spring 2008 Ending: Fall 2011  
Prerequisite: ENGL 202

ENGR 495I (IL)  
**Engineering International Cooperative Education** (1-3 per semester) A supervised work experience in research, industry or government relevant to a student's major.  
Effective: Spring 2006  
Prerequisite: ENGR 395A or ENGR 395I

ENGR 499 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2007

ENNEC 499 (IL)  
**Foreign Study--Mineral Industries** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2005

FIN 199 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2007

FIN 299 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2007

FIN 399 (IL)  
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2007

FIN 456 (IL)  
**International Capital Markets** (3) This course develops understanding of international capital markets by striking a balance between institutional details, theoretical foundation and practical application.  
Effective: Spring 2008  
Prerequisite: FIN 301

FIN 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FOR 418 (US;IL)
Agroforestry: Science, Design, and Practice (3) Agroforestry integrates trees in agricultural landscapes, and/or agriculture products into forested areas for multiple benefits.
Effective: Spring 2006

FOR 488Y (IL)
International Forestry (3) Forestry in global context, emphasizing developing countries: ecological, economic, technological, and political aspects.
Effective: Spring 2006
Prerequisite: ERM 413W FOR 421 or INTAG 100

FOR 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

FR 083S (GH;IL)
First-Year Seminar in French (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures.
Effective: Summer 2005

FR 083T (GH;IL)
First-Year Seminar in French (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

FR 137 (GH;IL)
Paris: Anatomy of a City (3) Survey of the cultural, artistic, literary, and social life of the city of Paris from Gallo-Roman times to the present.
Effective: Summer 2005

FR 139 (GH;IL)
Effective: Summer 2005

FR 141 (IL)
Cultural Tradition in French Cuisine (3) A study of French culture in English, emphasizing the French gastronomical traditions in literature and civilization.
Effective: Spring 2006

FR 199 (IL)
Foreign Study--French (1-12) Intensive postintermediate grammar review, with emphasis on oral skills and vocabulary building.
Effective: Summer 2005
Prerequisite: FR 003
FR 201 (IL)
Oral Communication and Reading Comprehension (3) Emphasis on oral skills and reading for total comprehension.
Effective: Spring 2007
Prerequisite: FR 003 or FR 112

FR 201U (IL)
Oral Communication and Reading Comprehension (3) Emphasis on oral skills and reading for total comprehension.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: FR 003 or FR 112

FR 202 (IL)
Grammar and Composition (3) Grammar review and writing of short essays.
Effective: Spring 2006
Prerequisite: FR 003

FR 299 (IL)
Foreign Study--French (3-12) Writing practice at postintermediate level. Cultural readings about French civilization.
Effective: Summer 2005
Prerequisite: FR 199

FR 330 (IL)
French Culture and Civilization (3) French history and culture from the Middle Ages through the Third Republic.
Effective: Spring 2006
Prerequisite: FR 201 FR 202

FR 331 (IL)
French Culture and Civilization I (3) French history and culture from the Middle Ages until the French Revolution.
Effective: Summer 2006
Prerequisite: FR 201 FR 202

FR 332 (IL)
French Culture and Civilization II (3) French history and culture from the French Revolution through the Third Republic.
Effective: Summer 2006
Prerequisite: FR 201 FR 202

FR 351 (IL)
Introduction to French Literature I (3) Introduction to close textual reading and analysis of selected works of French literature from the middle ages to 1789.
Effective: Spring 2006
Prerequisite: FR 201 FR 202 FR 330

FR 352 (IL)
Introduction to French Literature II (3) Introduction to close textual reading and analysis of selected works of French Literature from 1789 to the present.
Effective: Spring 2006
Prerequisite: FR 201 FR 202 FR 330

**FR 399 (IL)**
**Foreign Study--French** (3-12) Advanced training in the French language skills. Effective: Summer 2005
Prerequisite: FR 201 FR 202

**FR 401 (IL)**
**Advanced Oral Communication** (3) Emphasis on speaking and listening comprehension through discussion of current issues, using journalistic materials. Effective: Spring 2006
Prerequisite: FR 201 FR 202

**FR 402Y (IL)**
Prerequisite: FR 201 FR 202

**FR 407 (IL)**
**Business Writing in French** (3) Common forms of business communication; writing of reports and abstracts. Effective: Spring 2007
Prerequisite: FR 331 or FR 332

**FR 408 (IL)**
**French-American Business Translation** (3) Translation from French to English of actual documents from the business world; theoretical consideration and systematic vocabulary building. Effective: Spring 2007
Prerequisite: FR 407

**FR 409 (IL)**
**Commercial and Technical Translation** (3) Translation from English to French of commercial and technical materials; vocabulary building; writing of abstracts and summaries. Effective: Spring 2006
Prerequisite: FR 402Y

**FR 410 (IL)**
**French Press** (3) Extensive readings of selected french daily and weekly newspapers and magazines, along with newscast viewings. Effective: Spring 2007
Prerequisite: FR 331 or FR 332

**FR 416 (IL)**
**Introduction to French Linguistics** (3) Introduction to the theory and methods of linguistics as they apply to the major subfields. Effective: Spring 2006

**FR 417 (IL)**
**French Phonology** (3) A formal study of the sound pattern of French.
**FR 418 (IL)**  
**French Syntax** (3) A formal theory of word order and related issues in French grammar.  
Effective: Spring 2006  
Prerequisite: FR 201 FR 202

**FR 422 (IL)**  
**Old French Literature** (3) Medieval masterpieces in original and modern French versions.  
Effective: Fall 2006  
Prerequisite: FR 351 or FR 352

**FR 426Y (IL)**  
**French Literature of the Renaissance** (3) Survey of key texts from sixteenth century France, with attention to historical and philosophical currents of French social thought.  
Effective: Fall 2006  
Prerequisite: FR 351 or FR 352

**FR 430 (IL)**  
**Contemporary France** (3) Study of contemporary French society, politics, and culture from 1870 to the present.  
Effective: Spring 2006  
Prerequisite: FR 330

**FR 436Y (IL)**  
Effective: Fall 2006  
Prerequisite: FR 351 or FR 352

**FR 440 (IL)**  
**Teaching of Romance Languages** (3) Theories of second language acquisition. Current classroom practices in the teaching of Romance languages.  
Effective: Spring 2006  
Prerequisite: 15 credits beyond the elementary level

**FR 445Y (IL)**  
**Self and Society in Eighteenth-Century France** (3) The changing relationship of the individual to society in pre-Revolutionary France will be explored in texts by major writers.  
Effective: Spring 2006  
Prerequisite: FR 351. Prerequisite or concurrent: FR 352

**FR 452Y (IL)**  
**Nineteenth-Century French Literature** (3) Selected readings in romanticism, realism, and symbolism, including Balzac, Stendhal, Sand, Baudelaire, and others, with emphasis on cultural issues.
FR 453Y (IL)
La Belle Epoque: Politics, Society, and Culture in France, 1880-1914 (3)
Interdisciplinary perspectives on the politics, society, and culture of France, 1880-1914.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 458 (IL)
African Literature of French Expression (3) Genesis of Franco-African literature in the 1930s; phases of the negritude movement; colonial and national literature.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 460 (IL)
Contemporary French Literature (3) Major authors and movements in French novel, drama, and poetry from Proust to the present.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 470 (IL)
Race and Gender Issues in Literatures in French (3) A critical presentation, taught in French, of changing ideas and values on race and gender in French and Francophone literatures.
Effective: Summer 2005
Prerequisite: FR 351 or FR 352

FR 471 (IL)
Francophone Women in Literature and Culture (3) Women's issues in literatures and cultures of French-speaking countries in Europe, the Mediterranean, Africa, the Caribbean, and Quebec.
Effective: Summer 2005
Prerequisite: FR 351 or FR 352

FR 487 (IL)
Topics in French Film History and Theory I: 1895-1945 (3) Provide background needed to understand the broad outlines of French film history and theory in their first fifty years (1895-1945).
Effective: Spring 2006
Prerequisite: FR 351 and FR 352 or COMM 250

FR 488 (IL)
Topics in French Film History and Theory II: 1945-2002 (3) Provide background needed to understand the broad outlines of French film history and theory in their second half-century (1945-2002).
Effective: Spring 2006
Prerequisite: FR 351 and FR 352 or COMM 250

FR 499 (IL)
**Foreign Study--French** (3-12) Advanced studies in French language and literature.
Effective: Summer 2005
Prerequisite: FR 201 FR 202

**GD 299 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2006

**GD 499 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2006

**GEOG 020 (GS;US;IL)**
**Human Geography: An Introduction** (3) Spatial perspective on human societies in a modernizing world; regional examples; use of space and environmental resources; elements of geographic planning.
Effective: Summer 2005

**GEOG 030 (GS;IL)**
**Geographic Perspectives on Sustainability and Human-Environment Systems** (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.

**GEOG 040 (GS;IL)**
**World Regional Geography** (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.
Effective: Summer 2005 Ending: Fall 2011

**GEOG 040 (GS;IL)**
**World Regional Geography** (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.

**GEOG 120 (GS;US;IL)**
**Urban Geography: A Global Perspective** (3) Introduction to the geography of the world's cities and urban system.
Effective: Spring 2006

**GEOG 122 (GH;US)**
**The American Scene** (3) Historical perspectives on the social and cultural forces associated with the production of distinctive American landscapes.
Effective: Spring 2007

**GEOG 123 (GS;IL)**
**Geography of Developing World** (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions.
Effective: Spring 2007
GEOG 123U (GS;IL)
Geography of Developing World (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 124 (GS;IL)
Elements of Cultural Geography (3) Locational analysis of changes in non-Western cultures. Problems of plural societies, economic development, population growth, and settlement.
Effective: Summer 2005

GEOG 126 (GS;US;IL)
Economic Geography (3) The location of economic activity at both macro- and micro-regional levels on the earth's surface.
Effective: Spring 2007 Ending: Fall 2011

GEOG 128 (GS;IL)
Geography of International Affairs (3) Contemporary international affairs in their geographical setting; geographic elements in the development of national power, political groupings, and international disputes.
Effective: Summer 2005

GEOG 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: prior approval of program

GEOG 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: prior approval of program

GEOG 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: prior approval of program

GEOG 420Y (US;IL)
Metropolitan Analysis (3) Theory and practice of regional and metropolitan analysis.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 120 GEOG 160
**GEOG 420Y** (US;IL)
**Comparative Urbanism** (3) This course investigates selected urban issues through the lens of comparative urbanism.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 120 GEOG 160

**GEOG 423Y** (US)
**Historical Geography of North America** (3) Exploration, settlement, and changing patterns of human occupancy from the seventeenth century to the 1930's.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 122 3 additional credits in geography or 6 credits

**GEOG 424** (US;IL)
**Geography of the Global Economy** (3) Focus on industrial location theory, factors in industrial location, studies of selected industries and problems of industrial development.
Effective: Spring 2011
Prerequisite: ECON 102 ECON 104 GEOG 126

**GEOG 425** (US)
**Geography of Race, Class, and Poverty in America** (3) This class examines the spatial interactions of race, class and poverty in the United States.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 126 ; ECON 102 or ECON 104

**GEOG 426Y** (WMNST 426Y) (US;IL)
**Gender and Geography** (3) Description and explanation of the links between gender relations and spatial structures.
Effective: Summer 2011
Prerequisite: GEOG 020 or GEOG 126 or GEOG 120 or WMNST 001

**GEOG 427** (US;IL)
**Urban Historical Geography** (3) Study of the development and transformation of the historical urban built environment.
Effective: Spring 2007
Prerequisite: 6 credits in geography humanities or social sciences

**GEOG 428** (US)
**Political Geography** (3) Geographical foundations of political phenomena; significant geographic factors in growth and development of states, boundary problems, population distribution, colonies, and internal and international regional problems.
Effective: Spring 2007
Prerequisite: 6 credits in history or 6 credits in political science

**GEOG 429 (US)**
**Global Urbanization** (3) This course reflects critically on a number of issues related to global urbanization, including the culture and political economy of urban space.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: GEOG 020 GEOG 126 or GEOG 120

**GEOG 429 (US;IL)**
**Geographic Perspectives on Global Urbanization** (3) This course reflects critically on a number of issues related to global urbanization, including the culture and political economy of urban space.
Prerequisite: GEOG 020 GEOG 126 or GEOG 120

**GEOG 435H (IL)**
**Global Change and Sustainability - Bulgaria** (3) Sustainability in the context of climate change, global socioeconomic change and regional transformation in Bulgaria; embedded foreign fieldwork (honors).
Effective: Summer 2008
Prerequisite: sophomore standing or above; departmental permission required

**GEOG 499 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: prior approval of program

**GEOSC 402Y (IL)**
**Natural Disasters** (3) Case studies of the causes and consequences of natural disasters; analysis of disaster impact in different economic, cultural, and social conditions.
Effective: Summer 2005
Prerequisite: fourth-semester standing

**GEOSC 499 (IL)**
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**GER 083S (GH;US;IL)**
**First-Year Seminar in German** (3) Germany's cultural past and present.
Effective: Summer 2005

**GER 099 (IL)**
**Foreign Study--German** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**GER 100 (GH;IL)**
**German Culture and Civilization** (3) Culture and civilization of the German
people from the Germanic migrations to the Nazi period. Conducted in English. Effective: Summer 2005

GER 143 (RUS 143) (GH;IL)  
The Culture of Stalinism and Nazism (3) The culture of Stalinist Russia and Nazi Germany in comparative perspective. Effective: Summer 2005

GER 157 (GH;US)  
Pennsylvania Germans: The Culture of the Sectarians (3) Survey of the religious background, beliefs, social life, customs, education, and culture of the Pennsylvania German sectarians, especially the Amish. Conducted in English. Effective: Summer 2005

GER 175 (GH;IL)  
Germanic Heroic and Medieval Literature in English Translation (3) Germanic heroic and medieval courtly literature from 800 to 1350 focusing on the prevailing cultural, social, and legal conditions. Effective: Spring 2006

GER 190 (GH;IL)  
Twentieth-Century German Literature in English Translation (3) Works of such writers as Boll, Brecht, Durrenmatt, Frisch, Grass, Hesse, Kafka, Mann, Rilke, Weiss, and Wolf. Effective: Spring 2006

GER 195 (GH;IL)  
Modern German Drama and Theatre in English Translation (3) Plays and their stage realization by writers such as Brecht, Durrenmatt, Handke, Hauptmann, Kaiser, Schnitzler, Wedekind, and Weiss. Effective: Spring 2006

GER 199 (IL)  
Foreign Study--German (3-6) Intermediate training in German language skills. Effective: Summer 2005 Prerequisite: GER 002

GER 200 (GH;IL)  
Contemporary German Culture (3) Germany since WWI, its politics, economics, society, arts, and educational system in the international context; conducted in English. Effective: Summer 2005

GER 201 (IL)  
Conversation and Composition (4) Continuation of GER 003; emphasis on reading, writing, and conversational skills; course utilizes short literary selections, a concise novel, videos. Effective: Fall 2006 Prerequisite: GER 003 or GER 008

GER 208Y (IL)  
Business German (4) Intermediate Business German.

The Pennsylvania State University
Effective: Fall 2006
Prerequisite: GER 003 or GER 008

**GER 299 (IL)**
**Foreign Study--German** (3-6) Advanced training in German language skills.
Effective: Summer 2005

**GER 301 (IL)**
**Intermediate Conversation and Composition** (3) Intensive practice in spoken and written German through readings, discussions, video, and composition.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: GER 201 or GER 208

**GER 301 (IL)**
**Intermediate Speaking and Listening** (3) Intensive practice in spoken German through readings, discussions and video.
Prerequisite: GER 201 or GER 208

**GER 308Y (IL)**
**German Business Communication** (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent: GER 301

**GER 308Y (IL)**
**German Business Communication** (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Prerequisite: GER 301 or GER 302W

**GER 310 (IL)**
**Introduction to the Study of German Literature** (3) History, methods, and the terminology of literary interpretation and analysis in German.
Effective: Spring 2006 Ending: Fall 2011
Prerequisite: or concurrent: GER 301

**GER 310 (IL)**
**Introduction to the Study of German Literature** (3) History, methods, and the terminology of literary interpretation and analysis in German.
Prerequisite: GER 301 or GER 302W

**GER 344 (IL)**
**Intermediate German Culture** (3) An overview of German culture from the Middle Ages to the present. Conducted in German.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent: GER 301

**GER 344 (IL)**
Intermediate German Culture (3) An overview of German culture from the Middle Ages to the present. Conducted in German.
Prerequisite: GER 301 or GER 302W

GER 399 (IL)
Foreign Study--German (3-12) Advanced studies in German language and/or literature.
Effective: Summer 2005
Prerequisite: GER 201

GER 401Y (IL)
Advanced Composition (3) Intensive practice in writing different text types in German.
Effective: Spring 2006 Ending: Fall 2011
Prerequisite: GER 301

GER 401Y (IL)
Advanced Composition (3) Intensive practice in writing different text types in German.
Prerequisite: GER 301 and GER 302W

GER 408 (IL)
Advanced German Business Communications (3) Study of German business organization, forms of business communications, business terminology; writing of reports and abstracts.
Effective: Spring 2006
Prerequisite: GER 308

GER 412 (IL)
Contrastive Analysis of Modern German and English (3) Structural comparison of the German and English grammatical systems: morphology, syntax, phonology.
Effective: Spring 2006
Prerequisite: or concurrent: GER 401

GER 420 (IL)
Genre (3-9) Special studies in a particular literary genre in German literature, such as lyrical poetry, drama, or narrative prose.
Effective: Spring 2006
Prerequisite: GER 310 GER 401

GER 430 (IL)
History of the German Language (3) Development of German from its earliest stages, including historical and cultural aspects.
Effective: Fall 2007
Prerequisite: or concurrent: GER 401Y

GER 431 (IL)
History of German Literature and Culture I (3) Significant works of German literature before the mid-eighteenth century considered in their cultural context.
Effective: Spring 2006
Prerequisite: GER 310. Prerequisite or concurrent: GER 401

GER 432 (IL)
History of German Literature and Culture II (3) Significant works of German literature from the mid-eighteenth century to the present considered in their cultural context.
Effective: Spring 2006
Prerequisite: GER 310. Prerequisite or concurrent: GER 401

GER 440 (IL)
Seminar in German Culture (3-6) Seminar devoted to a special topic in the field of German culture and civilization.
Effective: Spring 2006
Prerequisite: or concurrent: GER 401

GER 470 (IL)
Goethe (3) A study of Goethe's life and works especially his lyric poetry, novels, and dramas.
Effective: Spring 2006
Prerequisite: or concurrent: GER 431 or GER 432

GER 472 (IL)

Effective: Spring 2006

**J ST 121** (HIST 121) (GH;IL)
**History of the Holocaust 1933-1945** (3) Historical analysis of holocaust themes.
Effective: Summer 2005

**J ST 124** (CAMS 124, RL ST 124) (GH;US;IL)
**Early and Medieval Christianity** (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

**J ST 131** (CMLIT 110) (GH;US;IL)
**Jewish Literature: An International Perspective** (3) Literature of the Jewish tradition in various cultures and contexts, such as Europe, Israel, Islamic countries, and the Americas.
Effective: Spring 2011

**J ST 132** (ENGL 132) (GH;US)
**Introduction to Jewish American Literature** (3) A historical and thematic survey of Jewish Literature of the United States.
Effective: Spring 2009
J ST 134 (CAMS 134, RL ST 134) (GH;IL)
Archaeology of Biblical Israel (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

J ST 199 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

J ST 205 (HIST 205) (GH;US)
American Antisemitism (3) The Phenomenon of antisemitism in American history from Peter Stuyvesant to the present.
Effective: Summer 2011

J ST 235 (HIST 235, RL ST 235) (US;IL)
The Church and the Jews (3) Examination of the relationship between Western church and the Jews from the First Century to Enlightenment.
Effective: Spring 2006

J ST 280 (WMNST 280, RL ST 280) (GH;IL)
Women and Judaism (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.
Effective: Fall 2006

J ST 299 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

J ST 399 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

J ST 401 (HIST 401) (IL)
Ancient Technologies and Socio-cultural History in the Ancient Levant (3) Social and intellectual development in the Ancient Levant as they affected and were affected by technological development.
Effective: Spring 2006
Prerequisite: RL ST 110

J ST 409Y (HIST 409Y, RL ST 407Y) (IL)
European Anti-Semitism from Antiquity to the Present (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

J ST 410 (HIST 410, RL ST 410) (US;IL)
Jews in the Medieval World (3) Trends in medieval Jewish society under Islam and Western Christendom.
Effective: Spring 2006
**J ST 411** (RL ST 411) (US;IL)
**Jewish Studies** (3) Study of the life and thought of a particular period or movement in the history of Judaism.
Effective: Spring 2006
Prerequisite: 3 credits in religious studies

**J ST 426** (ADM J 426, HIST 426) (US)
**Jewish/American Organized Crime in New York City** (3) History of Jewish/American organized crime in New York City from 1890 through the Great Depression.
Effective: Spring 2006

**J ST 457** (ANTH 457, SOC 457) (US;IL)
**Jewish Communities: Identity, Survival, and Transformation in Unexpected Places** (3) Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement.
Effective: Summer 2006
Prerequisite: ANTH 001 or ANTH 045 HEBR 010 J ST 010 SOC 001 SOC 005 SOC 007 SOC 015

**J ST 499** (IL)
**Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**JAPNS 099** (IL)
**Foreign Study** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

**JAPNS 110** (IL)
**Level Two Japanese B** (4) Intermediate Japanese - Continued study of modern Japanese at intermediate level; extensive audio-lingual practice for conversational fluency; reading/writing original scripts.
Effective: Spring 2011
Prerequisite: JAPNS 003

**JAPNS 120** (GH;IL)
**Japanese Literature in Its Cultural Context** (3) Japanese literature and film from classical through contemporary times, with attention to changing cultural settings. Taught in English.
Effective: Spring 2010

**JAPNS 121** (GH;IL)
**Japanese Film and New Media** (3) Survey of Japanese film and new media in the twentieth century and beyond, with attention to changing cultural settings. Taught in English.
Effective: Spring 2010

**JAPNS 199** (IL)
**Foreign Study--Basic Japanese** (1-8) Small group instruction in spoken and
written modern Japanese at the introductory level.
Effective: Spring 2010

**JAPNS 299 (IL)**
**Foreign Study--Intermediate Japanese** (1-12) Small group instruction in spoken and written modern Japanese at the intermediate level.
Effective: Spring 2010
Prerequisite: JAPNS 002

**JAPNS 399 (IL)**
**Foreign Study** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

**JAPNS 401 (IL)**
**Level Three Japanese A** (4) Further acquisition of the four language skills in Japanese--reading, writing, speaking and listening comprehension.
Effective: Spring 2011
Prerequisite: JAPNS 110

**JAPNS 402 (IL)**
**Level Three Japanese B** (4) Exclusively for study abroad returnees. To further develop Japanese proficiency in speaking, listening, reading, and writing.
Effective: Spring 2011
Prerequisite: JAPNS 401

**JAPNS 403Y (IL)**
**Practical Written Communication: Japanese for Professional and Academic Purposes I** (3) Discussions, presentations, readings, and compositions emphasizing written styles used in newspapers, magazines, business reports, academic writing, and other texts.
Effective: Spring 2010
Prerequisite: JAPNS 402

**JAPNS 404 (IL)**
**Practical Written Communication: Japanese for Professional and Academic Purposes II** (3) Continuation of emphasis on written styles used in newspapers, magazines, business reports, academic writing, and other texts; aspects of translation.
Effective: Spring 2010
Prerequisite: JAPNS 403Y

**JAPNS 422 (IL)**
**War and the Warrior in Japan** (3) Survey of the role of warfare and the warrior in Japan, with attention to changing cultural settings. Taught in English.
Effective: Summer 2011
Prerequisite: JAPNS 120 or JAPNS 121 or HIST 172

**JAPNS 423 (IL)**
**Men, Women, and Animals** (3) Japanese history and culture through the lens of relations between men and women and between humans and animals.
JAPNS 452 (IL)
Contemporary Japan: Cultures, Lifestyles, Trends (3 per semester/maximum of 6) Survey of aspects of modern Japanese society; includes readings from Japanese newspapers, magazines, and fiction; topics may vary each semester.
Effective: Spring 2010
Prerequisite: JAPNS 401

JAPNS 453 (IL)
Japanese Film (3 per semester/maximum of 6) Selected films and directors representing various aspects of Japanese culture and cinema; topics may vary each semester.
Effective: Spring 2010
Prerequisite: JAPNS 401

JAPNS 454 (IL)
Japanese Literature (3 per semester/maximum of 6) Selected works from important Japanese texts representing genres such as autobiography, poetry, fiction, and drama; topics may vary each semester.
Effective: Spring 2010
Prerequisite: JAPNS 401

JAPNS 499 (IL)
Effective: Spring 2010
Prerequisite: JAPNS 110 or JAPNS 299

KINES 141 (US;IL)
Physical Activity: Historical and Cultural (3) Evolution of cultural values in physical activity from antiquity to the present.
Effective: Spring 2006

KINES 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

KINES 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

KINES 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

KINES 424 (WMNST 424) (US)
Women and Sport (3) An interdisciplinary approach to contemporary issues
related to women and sport from historical, physiological, psychological, and sociological perspectives.
Effective: Spring 2007
Prerequisite: PSYCH 100 PSYCH 231 PSYCH 479 SOC 001 or WMNST 001

KINES 441 (AM ST 441) (US)
History of Sport in American Society (3) Background, establishment, and growth of sport in America from colonial times to the present.
Effective: Fall 2007
Prerequisite: KINES 141 or 3 credits of United States history

KINES 442 (CAMS 442) (IL)
Sport in Ancient Greece and Rome (3) An examination of the continuity of sport in ancient Greek and Roman societies.
Effective: Spring 2008
Prerequisite: CAMS 025 CAMS 033 CAMS 140 CAMS 150 CAMS 100 CAMS 101 or KINES 141

KINES 443 (IL)
The Modern Olympic Games (3) An analysis of the modern Olympic Games from their inception through the current festival.
Effective: Spring 2006
Prerequisite: KINES 141 or 3 credits of history or philosophy

KINES 444 (US)
History of Athletics in Higher Education (3) Origin and development of athletics in American higher education from colonial times to the present.
Effective: Spring 2006
Prerequisite: KINES 141 or 3 credits of American history

KINES 446 (IL)
History of Sport in the Modern World (3) History of sport in modern world, ca. A.D. 1500 to present; concentrates on role of sport in societies outside United States.
Effective: Summer 2005
Prerequisite: KINES 141 or 3 credits of non-United States history

KINES 499 (IL)

Effective: Spring 2011

KOR 099 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

KOR 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010
KOR 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

KOR 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

KOR 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

LA 199 (IL)
Foreign Study--Liberal Arts (1-9) Study in selected foreign countries of the cultural, institutional, and/or social development of the host country.
Effective: Summer 2005

LA 299 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LA 399 (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LA 499 (IL)
Foreign Study--Liberal Arts (1-9) Study in selected foreign countries of the cultural, institutional, and/or social development of the host country.
Effective: Summer 2005

LANG 099 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 499 (IL)  
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Spring 2007

LARCH 060 (GA;US;IL)  
History of Design on the Land (3) A survey of the historical development of outdoor space in relationship to allied arts from early beginnings to this century. Students may take only one course for General Education credit from LARCH 003 GA or 060 GA.  
Effective: Fall 2010

LARCH 065 (GA;US;IL)  
Built Environment and Culture (3) Investigates the relationship between socio-cultural practices and the development and organization of contemporary built environments.  
Effective: Summer 2005

LARCH 199 (IL)  
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2006

LARCH 299 (IL)  
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2006

LARCH 331 (IL)  
Landscape Architectural Design Implementation III (3) Introduction to landscape construction materials and their use in design; includes principles and techniques for detailed design of site elements. For Landscape Architecture majors only.  
Effective: Spring 2007 Ending: Fall 2011  
Prerequisite: LARCH 232

LARCH 331 (IL)  
Landscape Architectural Design Implementation I (3) Introduction to landscape construction materials and their use in design; includes principles and techniques for detailed design of site elements. For Landscape Architecture majors only.  
Prerequisite: LARCH 231

LARCH 399 (IL)  
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2006
LARCH 499A (IL)
**Design Theory Seminar** (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of the associated design studio course, LARCH 499B. LARCH majors only.
Effective: Spring 2007
Prerequisite: LARCH 361W

LARCH 499B (IL)
**Design and Theory VI: Contemporary/International Landscape Architectural Design Issues** (4) Study of and design for sites, programs, and social groups associated with ongoing contemporary landscape architectural concerns. LARCH majors only.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: LARCH 361W

LARCH 499B (IL)
**Design and Theory VI: Contemporary/International Landscape Architectural Design Issues** (5) Study of and design for sites, programs, and social groups associated with ongoing contemporary landscape architectural concerns. LARCH majors only.
Prerequisite: LARCH 312 LARCH 361W

LARCH 499D (IL)
**Contemporary/International Special Topics** (4) Special topics related to, and study in conjunction with, LARCH 499A, 499B, and 499C. Landscape Architecture majors only.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: LARCH 361W

LARCH 499D (IL)
**Contemporary/International Special Topics** (3) Special topics related to, and study in conjunction with 499B. Landscape Architecture majors only.
Prerequisite: LARCH 361W

LARCH 499F (IL)
**Seminar: People and Protected Areas** (3) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2011 Ending: Summer 2011

LARCH 499F (IL)
**Studio: Community Design in the Vicinity of Udzungwa Mountains National Park** (5) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2011 Ending: Summer 2011

LARCH 499G (IL)
**Colloquium: The Contribution of Service-Learning to Students and Community**
(1) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2011 Ending: Summer 2011

**LATIN 099** (IL)

Effective: Spring 2008

**LER 400** (IL)
*Comparative Employment Relations Systems* (3) Analysis of structure and elements of employment relations systems in developed and developing areas.
Effective: Spring 2008
Prerequisite: 3 credits in Labor and Employment Relations

**LER 445Y** (AAA S 445Y, PL SC 445Y) (US)
**Politics of Affirmative Action** (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008
Prerequisite: AAA S 100 level course and PL SC 001 or PL SC 007

**LER 458Y** (HIST 458Y) (US)
**History of Work in America** (3) A study of selected problems in the history of work in the United States, especially since 1877.
Effective: Spring 2008
Prerequisite: HIST 021 HIST 156 or LER 100

**LER 499** (IL)
**Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

**LING 001** (GS;US;IL)
**The Study of Language** (3) A non-technical introduction to the study of human language, and its role in human interaction. Students who have successfully completed LING 100 may not enroll in LING 001.
Effective: Summer 2005

**LING 083S** (GS;US;IL)
**1st Year Seminar in Linguistics** (3) Non-technical exploration of aspects of human language.
Effective: Summer 2005

**LING 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**LING 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**LING 399** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**LING 499** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**LTNST 100** (GH;US)
**Introduction to Latina/s Studies** (3) This course provides an interdisciplinary

The Pennsylvania State University
introduction to the study of Latinas/os in the U.S.
Effective: Summer 2006

**LTNST 127** (HIST 127) (US)
**Introduction to U.S. Latina/o History** (3) This course introduces students to the history of U.S. Latina/os, including Puerto Ricans, Dominicans, Chicanos, Cubans, and Central Americans.
Effective: Spring 2008

**LTNST 226** (ENGL 226) (GH;US;IL)
**Latina and Latino Border Theories** (3) English 226 will constitute a wide-ranging examination of contemporary texts (1960-present) central to the construction of contemporary Latino/a culture.
Effective: Spring 2007

**LTNST 300** (WMNST 300) (US)
**Latina Feminisms** (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States.
Effective: Summer 2006
Prerequisite: LTNST 100

**LTNST 315** (SPAN 315) (GH;US)
**Spanish and Spanish-speakers in the U.S.** (3) In this course, we investigate various aspects of the language(s) and language behaviors of U.S. Latinos.
Effective: Summer 2006

**LTNST 403** (CMLIT 403) (US)
**Latina/o Literature and Culture** (3) Literary and other forms of cultural expression (film, music, art, and theater) are compared across different Latina/o communities.
Effective: Spring 2011
Prerequisite: 3 credits in the humanities or in any LTNST course or 4th-semester proficiency in Spanish

**LTNST 426** (ENGL 426) (US)
**Chicana and Chicano Cultural Production: Literature, Film, Music** (3) An in-depth study of Chicana/Chicano literature, film, and music from the inception of the Chicano Movement (1965-1975) to the present.
Effective: Spring 2007
Prerequisite: 3 credits in English

**LTNST 467** (HIST 467) (US;IL)
**Latin America and the United States** (3) Historical development of policies of the United States with regard to Latin-American affairs from colonial times to the present.
Effective: Fall 2008

Effective: Summer 2005

MATH 399 (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

MATH 475 (US;IL)
**Introduction to the History of Mathematics** (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Effective: Spring 2010
Prerequisite: CMATH 221 or MATH 141

MATH 475W (US;IL)
**History of Mathematics** (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Effective: Spring 2010 Ending: Fall 2011
Prerequisite: MATH 141

MATH 475W (US;IL)
**History of Mathematics** (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Prerequisite: MATH 315 or MATH 311W

MATH 499 (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
**MATSE 081** (GN;IL)
**Materials in Today's World** (3) A survey of the properties, manufacture, and uses of polymers, ceramics and metals in today's world with emphasis on modern developments and new materials.
Effective: Summer 2005

**MATSE 101A** (EGEE 101A) (GN;IL)
**Energy and the Environment** (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

**MATSE 404** (BIOE 444) (IL)
**Surfaces and the Biological Response to Materials** (3) Focus is on the special properties of surfaces as an important causative and mediating agent in the biological response to materials.
Effective: Summer 2007
Prerequisite: CHEM 111 CHEM 113

**MATSE 484W** (IL)
**International Internship in Materials: Research Definition and Methodology** (3) A course focused on international research, specific design and methodology, facilitated through the International Internship in Materials and Program.
Effective: Summer 2006
Prerequisite: Sixth-semester standing in Materials Science and Engineering; MATSE 201 MATSE 460 MATSE 492W satisfactory completion of cultural class from Office of Education Abroad

**MATSE 485W** (IL)
**International Internship in Materials: Experimentation and Documentation** (3) A course focused on international research, specifically experimentation and documentation, facilitated through the International Internship in Materials Program.
Effective: Summer 2006
Prerequisite: Seventh-semester standing in Materials Science and Engineering; MATSE 484W ; satisfactory completion of cultural class from Office of Education Abroad

**MEDVL 107** (HIST 107) (GH;IL)
**Medieval Europe** (3) Rise and development of the civilization of medieval Europe from the decline of Rome to 1500.
Effective: Spring 2006

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007
**MKTG 299** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**MKTG 399** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**MKTG 445** (IL)
**Global Marketing** (3) Role of international marketing in the global environment; political, economic, geographic, historical, cultural conditions; developing and implementing international marketing strategies.
Effective: Spring 2008
Prerequisite: B A 303 or MKTG 301

**MKTG 499** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

**MUSIC 007** (GA;US)
**Evolution of Jazz** (3) Study of the origins and development of jazz as an art form.
Effective: Summer 2005

**MUSIC 009** (GA;IL)
**Introduction to World Musics** (3) An overview of the music of India, China, Japan, Indonesia, Africa, and the Middle East.
Effective: Summer 2005

**MUSIC 093** (GA;US;IL)
**Essence of Joy** (1 per semester, maximum of 8) Rehearsal and performance of choral repertoire from the African/American tradition.
Effective: Spring 2006
Prerequisite: audition

**MUSIC 162** (IL)
**Introduction to Music History** (2) An introduction to Western music history and world music of selected cultures through the study of representative works.
Effective: Spring 2006

**MUSIC 199** (IL)
**Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

**MUSIC 261** (IL)
**Survey of Music History I** (3) A survey of music history to 1750, with readings, listening, and lecture.
Effective: Spring 2006 Ending: Fall 2011
MUSIC 261 (GA;IL)
Survey of Music History I (3) A survey of music history to 1750, with readings, listening, and lecture.
Prerequisite: MUSIC 131 MUSIC 162

MUSIC 262 (IL)
Survey of Music History II (3) A survey of music history from 1750 to the present, with readings, listening, and lecture.
Effective: Spring 2006 Ending: Fall 2011
Prerequisite: MUSIC 132 MUSIC 162

MUSIC 262 (GA;IL)
Survey of Music History II (3) A survey of music history from 1750 to the present, with readings, listening, and lecture.
Prerequisite: MUSIC 132 MUSIC 162

MUSIC 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

MUSIC 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

MUSIC 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

NUC_E 199 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

NUC_E 299 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

NUC_E 399 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.
Effective: Fall 2009

Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.

Introduction to Women, the Humanities, and the Arts (3) Interdisciplinary consideration of primary works and scholarship pertaining to women in the humanities and the arts.
Effective: Summer 2005

Introduction to Women in Science, Technology, and Engineering (3) The role of women and gender in science, technology, and engineering.
Effective: Summer 2005 Ending: Summer 2011
Introduction to Women in Science, Technology, and Engineering (3) The role of women and gender in science, technology, and engineering. Effective: Summer 2006

First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women's Studies. Effective: Summer 2005

First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women's Studies. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

The African American Woman (3) The sociological, historical and political experiences of African American women, their roles and contributions to society. Effective: Summer 2005

Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries. Effective: Summer 2005

Racism and Sexism (3) Critical analysis of the structure of race and gender inequality in the contemporary United States. Effective: Summer 2005

Women and the American Experience (3) Selected aspects of the role of women in United States history and culture from colonial to modern times. Effective: Summer 2005

Sociology of Gender (3) Changing sex role expectations and behavior for men and women in contemporary society. Effective: Summer 2005

Family and Sex Roles in Modern History (3) Historical perspectives on the Western family since 1500: gender roles, marriage, sexuality, child rearing, and old age; emphasis on United States. Effective: Spring 2006

Women in Modern History (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society. Cross-cultural comparisons. Effective: Summer 2005
**WMNST 117M** (HIST 117M) (GH;US;IL)
Women in Modern History (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society. Cross-cultural comparisons.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**WMNST 136** (LER 136) (US)
Race, Gender, and Employment (3) Employment relations and legislative and policy responses to labor force issues of racial and gender inequality.
Effective: Spring 2008

**WMNST 137** (RL ST 137) (GH;US;IL)
Women and Religion (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these.
Effective: Spring 2006
Prerequisite: third-semester standing

**WMNST 157** (S T S 157) (US)
Science, Technology, and Gender (3) The role of women and gender in science, technology, and engineering.
Effective: Fall 2011 Future: Fall 2011

**WMNST 194** (ENGL 194) (GH;US;IL)
Women Writers (3) Short stories, novels, poetry, drama, and essays by British, American, and other English-speaking women writers.
Effective: Summer 2005

**WMNST 199** (IL)
Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

**WMNST 202** (AAA S 202) (GS;IL)
Gender Dynamics in Africa (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories.
Effective: Summer 2005

**WMNST 205** (COMM 205) (US)
Women, Minorities, and the Media (3) Analysis of historical, economic, legal, political, and social implications of the relationship between women, minorities, and the mass media.
Effective: Summer 2005

**WMNST 250** (HD FS 250) (US)
Sexual Identity Over the Lifespan (3) Concepts of affectional and sexual orientation over lifespan, with emphasis on lesbian and gay male personal, family, and community adaptation.
Effective: Summer 2005
Prerequisite: 3 credits in Hd FS or 3 credits in behavioral sciences
**WMNST 280** (J ST 280, RL ST 280) (GH;IL)

**Women and Judaism** (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.

Effective: Fall 2006

**WMNST 299** (IL)

**Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

**WMNST 300** (LTNST 300) (US)

**Latina Feminisms** (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States.

Effective: Summer 2006

Prerequisite: LTNST 100

**WMNST 364** (AAA S 364) (GS;US)

**Black & White Sexuality** (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality.

Effective: Spring 2007

**WMNST 399** (IL)

**Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

**WMNST 400** (US;IL)

**Feminist Theory** (3) Consideration of feminist theories of women's experience in transforming understanding, reconceptualizing old problems, raising new ones, and expanding traditional disciplines.

Effective: Summer 2005

Prerequisite: WMNST 301

**WMNST 407** (THEA 407) (US)

**Women and Theatre** (3) A study of theatre practice and dramatic literature as informed by issues of gender, race, and ethnic background.

Effective: Summer 2005

Prerequisite: THEA 100

**WMNST 416** (AAA S 416, S T S 416) (US;IL)

**Race, Gender and Science** (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.

Effective: Summer 2008

Prerequisite: 6 credits in S T S WMNST or AAA S

**WMNST 420** (CED 420, R SOC 420) (US;IL)

**Women in Developing Countries** (3) Analysis of women's work, experiences, and development policies and practices in Africa, Asia, and Latin America.

Effective: Fall 2009
WMNST 421 (HIST 421) (IL)
The History of European Women (3) European women's lives from the Middle Ages to the present.
Effective: Spring 2006
Prerequisite: WMNST 001 WMNST 003 WMNST 116 or WMNST 117

WMNST 423 (CRIMJ 423, CRIM 423) (US)
Sexual and Domestic Violence (3) Legal, sociological, and psychological perspectives of sexual and domestic violence.
Effective: Spring 2008
Prerequisite: CRIM 100

WMNST 424 (KINES 424) (US)
Women and Sport (3) An interdisciplinary approach to contemporary issues related to women and sport from historical, physiological, psychological, and sociological perspectives.
Effective: Spring 2007
Prerequisite: PSYCH 100 PSYCH 231 PSYCH 479 SOC 001 or WMNST 001

WMNST 426Y (GEOG 426Y) (US;IL)
Gender and Geography (3) Description and explanation of the links between gender relations and spatial structures; gender and work, social services, and neighborhood activism.
Effective: Summer 2011
Prerequisite: GEOG 020 GEOG 126 GEOG 120 WMNST 001

WMNST 428 (PL SC 428) (US;IL)
Gender and Politics (3) Gender in politics in the United States and around the world; major areas of women and politics research.
Effective: Fall 2007
Prerequisite: 3 credits in political science or women's studies

WMNST 430 (AM ST 430) (US)
Women in American Society (3) A historical study of women's roles and experiences in the United States.
Effective: Spring 2008
Prerequisite: 6 credits of American Studies Sociology or Women's Studies

WMNST 432 (US)
Women in Politics in the U.S. (3) Course examines the U.S. women's movements, the participation of women in politics, and selected areas of public policy.
Effective: Spring 2008
Prerequisite: 3 credits in political science or women's studies

WMNST 452 (BB H 452, NURS 452) (US)
Women's Health Issues (3) Exploration of major health issues concerning women today, with an emphasis on social, cultural, and medical influences.
Effective: Spring 2007
Prerequisite: BIOL 141 or PSYCH 100

WMNST 453 (CRIMJ 453, CRIM 453) (US)
Women and the Criminal Justice System (3) This course focuses on the experiences of women as offenders, victims, and professionals in the criminal justice system.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or WMNST 001

WMNST 455 (CAS 455) (US)
Gender Roles in Communication (3) Explores the literature on gender research in the discipline of human communication.
Effective: Summer 2005
Prerequisite: CAS 202

WMNST 457 (HIST 457, S T S 457) (US;IL)
The History of Women in Science (3) Critical analysis of the roles women, gender, and minorities have played in the natural sciences.
Effective: Spring 2006 Ending: Summer 2011
Prerequisite: WMNST 001 WMNST 003 WMNST 005 WMNST 116 or WMNST 117

WMNST 457 (HIST 457, S T S 457) (US;IL)
The History of Women in Science (3) Critical analysis of the roles women, gender, and minorities have played in the natural sciences.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: WMNST 001 WMNST 003 WMNST 157 WMNST 116 or WMNST 117

WMNST 462 (ENGL 462) (US)
Reading Black, Reading Feminist (3) Female identity and its construction in textual representations of gender, class, color, and cultural difference in English-language literatures.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

WMNST 464 (BE SC 464) (US)
Feminine/Masculine (3) Study of sex role learning; investigating feminine/masculine labeling; implications for contemporary society.
Effective: Spring 2008
Prerequisite: general psychology or general sociology

WMNST 466 (HIST 466) (US;IL)
Lesbian and Gay History (3) Critical exploration of the history of sexuality, focusing especially on the emergence of modern lesbian and gay identities.
Effective: Summer 2005
Prerequisite: WMNST 001 WMNST 117

WMNST 471 (PSYCH 479) (US)
The Psychology of Gender (3) Theories and research on gender differences and gender roles. Emphasis on women's and men's current positions in society.
Effective: Spring 2007
Prerequisite: PSYCH 100 PSYCH 221

WMNST 490 (ENGL 490) (US;IL)
Women Writers and Their Worlds (3) American and British literature written from
the perspective of women.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

WMNST 499 (IL)
Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Writing Across the Curriculum

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**A E 481W**
Comprehensive Architectural Engineering Senior Project I (4) Building project selection and preparation of overall plan; preliminary investigation of building design and construction issues; creation of individual Capstone Project Electronic Portfolio (CPEP) and project proposal required.
Effective: Fall 2005
Prerequisite: ARCH 441 fifth-year architectural engineering standing in major area of emphasis

**A ED 201W**
History and Philosophy of Art Education in Schools and Cultural Institutions (3) Introduction to historical, philosophical, and sociological foundations art education in schools and cultural institutions, museums, and community organizations.
Effective: Spring 2003

**A S M 429W**
Agricultural Systems Analysis and Management (3) Theory of systems thinking; optimization and quantitative techniques for analysis of agricultural production and processing systems.
Effective: Spring 2010
Prerequisite: A S M 422 A S M 425

**AAA S 445Y** (LER 445Y, PL SC 445Y) (US)
Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008
Prerequisite: AAA S 100 level course and PL SC 001 or PL SC 007

**ACCTG 403W**
Auditing (3) Financial, compliance, internal, and operational audits; standards and procedures; sampling; EDP auditing; professional issues; application of concepts through written responses.
Effective: Spring 2008
Prerequisite: ACCTG 371 or ACCTG 471

**AE T 210W**
Architectural Engineering Office Practice Using Writing Skills (3) Concepts, procedures, and writing-intensive activities to properly prepare site observation reports, cost estimates, contractual conditions, and outline and technical specification.
Effective: Spring 1994
Prerequisite: fourth-semester standing
**AEE 330W**  
**Communication in Agricultural and Natural Resource Careers** (3) The course explores the conventions of writing and speaking found in agricultural professions through the use of case studies.  
Effective: Summer 1999  
Prerequisite: ENGL 015

**AERSP 305W**  
**Aerospace Technology Laboratory** (3) Experiments in measurement systems, aerodynamics, aerospace structures, dynamics and control, and propulsion, technical report writing and presentations.  
Effective: Spring 2007  
Prerequisite: Prerequisite or concurrent: AERSP 301 AERSP 311 ENGL 202C

**AERSP 406W**  
**Structures and Dynamics Laboratory** (2) Experiments in static deformations and stresses, vibrations, and control of aerospace structures.  
Effective: Spring 2007  
Prerequisite: or concurrent: ENGL 202C

**AG 301W**  
**Introduction to Agricultural Law** (3) A survey of the legal system and legal issues that typically arise in agricultural and agribusiness situations.  
Effective: Fall 1987

**AG BM 308W**  
**Strategic Decision Making in Agribusiness** (3) Utilize case studies to investigate strategic decision making among agribusiness firms, highlighting how information and market power shape strategies.  
Effective: Spring 2004  
Prerequisite: AG BM 101 AG BM 102 AG BM 106

**AGCOM 462W**  
**Advanced Agricultural Writing** (3) Practice in journalistic writing strategies to report scientific and technical information in the agricultural/environmental sciences to general audiences.  
Effective: Spring 2001  
Prerequisite: a grade of C or better required in COMM 260W or equivalent coursework

**AGRO 410W**  
**Crop Science** (4) Study of the relation of crop plants to their environment, crop ecology, and the physiology of crop growth.  
Effective: Spring 1996 Ending: Summer 2011  
Prerequisite: AGRO 028 BIOL 102

**AGRO 410W**  
**Physiology of Agricultural Crops** (4) Study of the relation of plants to their environment and the physiology of crop plant growth.  
Effective: Fall 2011 Future: Fall 2011  
Prerequisite: AGRO 028
**AM ST 100Y** (GH;US)  
**Introduction to American Studies** (3) A study of selected attempts to identify and interpret movements and patterns in American culture.  
Effective: Spring 2006  
Prerequisite: third-semester standing

**AM ST 140Y** (RL ST 140Y) (GH;US)  
**Religion in American Life and Thought** (3) The function, contributions, tensions, and perspectives of religion in American culture.  
Effective: Summer 2005

**AM ST 491W**  
**American Themes, American Eras** (3-6) Interdisciplinary American culture course on major themes and eras such as the American Revolutionary Era or the 1930s.  
Effective: Fall 2007  
Prerequisite: seventh-semester standing

**AN SC 290W**  
**Careers in Animal Agriculture** (1) A description and analysis of career opportunities in the animal sciences and allied industries.  
Effective: Summer 1999

**AN SC 419W**  
**Applied Animal Welfare** (3) Assessment of management practices impacting animal welfare; devoted to livestock species, companion animals, captive exotic species, and animals in research.  
Effective: Spring 2009  
Prerequisite: AN SC 201 or 6 credits of biology

**AN SC 431W**  
**Physiology of Mammalian Reproduction** (4) Physiological processes of reproduction in animals, including the use of current and emerging technologies.  
Effective: Summer 1999  
Prerequisite: 3 credits in animal physiology

**AN SC 467W**  
**Equine Nutrition and Feeding** (3) Equine gastrointestinal anatomy and physiology; energy and nutrient requirements for body functions; applied interrelationships between nutrition, health, and performance.  
Prerequisite: AN SC 301

**ANTH 321W**  
**Intellectual Background of Archaeology** (3) Introduction to primary sources on the development of archaeology as a scientific discipline.  
Effective: Spring 1995  
Prerequisite: ANTH 002 ANTH 045

**ANTH 426W**  
**Archaeological Laboratory Analysis** (3) Scientific laboratory methods used in the
analysis of ceramic and lithic artifacts.
Effective: Summer 2004
Prerequisite: ANTH 007 ANTH 008 ANTH 009 or ANTH 011

**ANTH 427W**

**Forensic Archaeology** (3) Application of archaeological techniques to crime scene investigations, with practical experience in field and laboratory contexts.
Effective: Summer 2007
Prerequisite: ANTH 002

**ANTH 445W**

**Ethnographic Film** (3) Comparisons of written and visual ethnography; critical assessment of ethnographic film; cross-cultural variation.
Effective: Summer 2000
Prerequisite: ANTH 001 or ANTH 045

**ANTH 450W**

**Comparative Social Organization** (3) Social structure and cultural change among nonliterate societies.
Effective: Summer 1996
Prerequisite: ANTH 045

**ANTH 476W**

**Anthropology of Gender** (3) Cross-cultural construction of gender and sex roles; theories of gender construction; case studies and practical effects.
Effective: Summer 2011
Prerequisite: 3 credits in women's studies or anthropology

**APLNG 482Y** (IL)

**Introduction to Applied Linguistics** (3) Application of theories of language to psycholinguistics, philosophy of language, anthropological linguistics, sociolinguistics, bi/multilingualism, second language acquisition and teaching.
Effective: Spring 2006

**ARCH 311W**

**Architectural and Planning Theories** (3) Architectural theory course with a strong focus on the reading and writing of essays about architecture and related fields.
Effective: Summer 2006 Ending: Summer 2011
Prerequisite: fifth-semester standing in the Architecture curriculum

**ARCH 311W**

**Architectural and Planning Theories** (3) Architectural theory course with a strong focus on the reading and writing of essays about architecture and related fields.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 015 or ENGL 030 ; Students must also earn a C or better in: ARCH 210 and ART H 201 and ART H 202

**ART 122Y** (US)

**Commentary on Art** (3) An introduction to verbal commentary, both oral and written, about art. The development of critical and expressive skills given emphasis.
ART 211Y (US)
**Introduction to Digital Art and Design Criticism** (3) An introduction to the language, aesthetics, and cultural impacts of digital art and design in contemporary society.
Effective: Spring 2010

ART 466W
**Individual Approaches II** (6) An advance studio/lecture addressing the preparation for potential employment and/or entrance into graduate studies.
Effective: Summer 2007
Prerequisite: ART 165 ART 166 ART 265 ART 266 ART 365 ART 366 ART 465

ART H 350W
**Undergraduate Seminar in the History of Art** (3-6) An introduction to original research, methodology, analysis, and writing on a scholarly level.
Effective: Summer 1992
Prerequisite: fifth-semester standing 6 credits in art history at the 300 level or above

ASIA 405Y (IL)
**Seminar in Asian Studies** (3-6 per semester/maximum of 6) An advanced, writing-focused seminar in Asian Studies.
Effective: Fall 2009
Prerequisite: ASIA 100

ASTRO 420W
**Planets and Planetary System Formation** (3) Solar system properties, star formation, protoplanetary disks and planet formation, solar system model, extrasolar planets, and astrobiology.
Effective: Summer 2004
Prerequisite: ASTRO 292

ASTRO 475W
**Stars and Galaxies** (3) Astronomical studies concerning the distribution and evolution of stars and gas in our and other galaxies.
Effective: Fall 1993
Prerequisite: ASTRO 292

BA 364Y (US:IL)
**International Business and Society** (3) Business organizations and the sociocultural environment; current issues; corporate responsibility; international and multinational business environments.
Effective: Spring 2008
Prerequisite: ENGL 202D MGMT 301

BA 422W
**Strategic Business Planning** (3) Presentations and discussion of contemporary business issues by students and visiting professionals; emphasis on effective business communications.
Effective: Spring 2008
Prerequisite: B A 421 MGMT 301 MKTG 301 FIN 301. Prerequisite or concurrent: B A 495A B A 495B or B A 495C

**B E 466W**

**Biological Engineering Design** (3) This course focuses on a industry sponsored design project offered in conjunction with the College of Engineering Learning Factory.
Effective: Summer 2010
Prerequisite: B E 391; senior level standing in B E

**B E 469W**

**Optimization of Biological Production and Processing Systems** (3) Engineering and biological principles combined with economics and mathematical techniques to evaluate and optimize biological production and processing systems.
Effective: Fall 2008
Prerequisite: B E 302 and one B E 460 level course

**B M B 443W**

**Laboratory in Protein Purification and Enzymology** (3) Laboratory in protein isolation methodology, enzyme kinetics, and physico-chemical properties of proteins.
Effective: Spring 2009
Prerequisite: B M B 442 B M B 401

**B M B 445W**

**Laboratory in Molecular Genetics I** (2) Laboratory in molecular techniques in gene analysis and microbial genetics, emphasizing in vitro methodologies.
Effective: Spring 2009
Prerequisite: B M B 442 B M B 400 MICRB 202

**BB H 411W**

**Research and Applications in Biobehavioral Health** (3) Research methods, multi-level analyses, and applications in biobehavioral health.
Effective: Spring 2011
Prerequisite: BB H 101 BB H 310 STAT 200

**BE T 204W**

**Medical Equipment and Systems II** (5) Principles of medical equipment: operation, application; circuit and block diagrams; preventive maintenance inspections; and troubleshooting with report writing and presentations.
Effective: Fall 2008
Prerequisite: BE T 201 BE T 205

**BIOE 450W**

**Bioengineering Senior Design** (3) Application of engineering and physiological principles to design of artificial organs and life supportive devices.
Effective: Spring 2009
Prerequisite: BIOE 403 BIOE 440 ENGL 202C senior standing

**BIOL 220M** (GN)
Honors Biology: Populations and Communities (4) Honors study of the major physical, chemical, and biological factors constituting environment and their dynamic interaction with organisms forming ecosystems.
Effective: Summer 2005
Prerequisite: BIOL 110

BIOL 220W (GN)
Biology: Populations and Communities (4) A study of the structures and functions of organismic interactions from simple populations to complex ecosystems. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.
Effective: Fall 2004
Prerequisite: BIOL 110

BIOL 230M (GN)
Honors Biology: Molecules and Cells (4) Honors study of cellular phenomena including molecular genetics and metabolic interactions.
Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

BIOL 230W (GN)
Biology: Molecules and Cells (4) A study of cellular phenomena including molecular genetics and metabolic interactions. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.
Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

BIOL 240M (GN)
Honors Biology: Function and Development of Organisms (4) Honors study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)
Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

BIOL 240W (GN)
Biology: Function and Development of Organisms (4) A study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.) BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement.
Effective: Summer 2007
Prerequisite: BIOL 110 CHEM 110

BIOL 402W
Biological Experimental Design (3) Discussion of experimental design, analysis and presentation, with a practicum providing for student design, analysis and
presentation of biological experiments. Students may not take this course if they have taken BIOBD 350W.
Effective: Fall 2007
Prerequisite: at least two of the following three courses: BIOL 220W BIOL 230W BIOL 240W ; STAT 250

BIOL 450W
Experimental Field Biology (3-5) A practical introduction to modern experimental techniques for ecological study of terrestrial, marine, and fresh water habitats.
Effective: Fall 2007
Prerequisite: BIOL 220W BIOL 240W

C E 333W
Construction Management I (3) Components of a construction organization, managerial terminology and documents, labor laws and relations, insurance and safety.
Effective: Spring 2008

C E 410W
Sustainable Residential Subdivision Design (3) Residential subdivision process; site selection; conservation and neo- traditional design; utility design and layout; best management practices for erosion and stormwater.
Effective: Fall 2001
Prerequisite: A E 372 or C E 332 ; seventh-semester standing in Architectural or Civil Engineering

C E 421W
Transportation Design (3) Design of streets and highway facilities; emphasis on geometric elements, intersections and interchanges, roadway drainage, and pavement design.
Effective: Spring 2002
Prerequisite: C E 321

C E 438W
Construction Engineering Capstone Design (3) Construction project integrating geotechnical reports; materials specifications; quality control; equipment; estimation; scheduling; design details: excavations, foundations, retaining walls, formwork, pavements.
Effective: Fall 2007
Prerequisite: C E 432 and C E 435 or C E 436

C E 448W
Advanced Structural Design (3) Wind, snow, seismic, bridge loads; building design using steel, concrete, and prestressed concrete; advanced steel connections; capstone project; computer applications.
Effective: Spring 2002
Prerequisite: C E 341 C E 342 C E 435

C E 465W
Water Resources Capstone Course (3) Hydraulic design of river structures and
open channels including supercritical and spatially varied flow; hydrologic/hydraulic computer modeling; design project.
Effective: Fall 2007
Prerequisite: C E 361 . Prerequisite or concurrent: C E 462

C E 472W
Environmental Engineering Capstone Design (3) Principles and design of unit operations for water; domestic and industrial wastewater treatment; equipment selection and application.
Effective: Spring 2002
Prerequisite: C E 370 C E 371

C I 412W
Secondary Teaching (3) Study of the teacher's responsibilities, steps in planning instruction, and various strategies for implementing and assessing teaching.
Effective: Spring 2007
Prerequisite: C I 295 EDPSY 014 EDTOHP 115

CAMS 109Y (GH;IL)
Writing Systems of the World (3) Writing intensive overview of the world's writing systems throughout history.
Effective: Spring 2007

CAMS 400W
Comparative Study of the Ancient Mediterranean World (3) Comparative study of ancient Mediterranean civilizations.
Effective: Spring 2001
Prerequisite: 3 credits in Classics and Ancient Mediterranean Studies

CAMS 411W
Classical Drama (3) Masterpieces of Greek tragedy (Aeschylus, Sophocles, Euripides) and comedy (Aristophanes, Menander); their influence on Roman writers.
Effective: Spring 2001

CAMS 440W
Studies in Classical and Ancient Mediterranean Archaeology (3-6) Selected topics in the literary sources and material evidence for classical and ancient Mediterranean society.
Effective: Summer 2000
Prerequisite: 3 credits from: ANTH 002 ART H 311 CAMS 010 CAMS 020 CAMS 025 CAMS 033 CAMS 140 CAMS 150 HIST 100 HIST 101

CAS 214W
Speech Writing (3) Writing speeches for delivery in political, professional, and ceremonial settings; emphasis on composition and language for oral presentation.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 280W
Storytelling and Speaking (3) Principles of oral performance from storytelling to
the printed page; includes oral performance of stories, speeches, prose, drama, and poetry.
Effective: Spring 2003

**CAS 410W**

**Mother-Daughter Communication** (3) Explores the mother-daughter relationship with an emphasis on understanding mother-daughter communication.
Effective: Summer 2010
Prerequisite: CAS 202

**CAS 426W**

**Communication Ethics** (3) Ethical issues in public and private communication; role of communication in expressing and realizing individual and social values.
Effective: Spring 2003
Prerequisite: CAS 100

**CAS 450W**

**Group Communication Theory and Research** (3) Selected theories of problem solving through group discussion emphasizing participation and leadership.
Effective: Spring 2003
Prerequisite: CAS 100 or CAS 250

**CAS 452W**

**Organizational Communication Theory and Research** (3) Explores the nature and functions of communication in organizations; emphasis on writing and exploring concepts, tools, and skills for effective management of communication.
Effective: Spring 2004
Prerequisite: CAS 202 or CAS 252

**CC 403W**

**Studies in Public Relations** (3) Capstone course for the major in Corporate Communication; focuses on case studies in public relations: problems and solutions.
Effective: Summer 2002
Prerequisite: MKTG 310 and sixth-semester standing

**CED 427W** (S T S 427W, SOC 427W)

**Society and Natural Resource** (3) Analysis of the relationships between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite: R SOC 011 or SOC 001

**CED 431W**

**Economic Analysis of Environmental and Resource Policies** (3) Economic analysis of environmental and natural resource policies, benefit-cost analysis, non-market valuation techniques; resource damage assessment.
Effective: Fall 2010
Prerequisite: ECON 302

**CH E 480M**

**Chemical Engineering Laboratory (Honors)** (3) Data interpretation and analysis
from student-operated experiments on pilot-plant equipment. Individual written and oral technical reports.

Effective: Spring 2008
Prerequisite: ENGL 202C ; prerequisite or concurrent: CH E 410 CH E 430

**CHEM 413W**

Chemistry of the Elements (4) Theoretical and descriptive chemistry of the elements; laboratory synthesis and measurements in inorganic, coordination, and transition metal chemistry.

Effective: Summer 2007
Prerequisite: CHEM 213

**CHEM 423W**

Chemical Spectroscopy (4) Modern methods and instruments of spectroscopy and their applications to problems of chemical structure and analysis.

Effective: Spring 2011
Prerequisite: CHEM 452 CHEM 457

**CHEM 427W (FRNSC 427W)**

Forensic Chemistry (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.

Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CHEM 213 and CHEM 227

**CHEM 427W (FRNSC 427W)**

Forensic Chemistry (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 213 CHEM 227 and FRNSC 301 or CHEM 431W

**CHEM 431W**

Organic and Inorganic Preparations (4) Preparation, purification, and characterization of both organic and inorganic compounds by modern methods.

Effective: Fall 2010
Prerequisite: CHEM 213

**CHEM 459W**

Advanced Experimental Physical Chemistry (4) Laboratory experiments and projects for students interested in advanced study in physical chemistry.

Effective: Summer 2010
Prerequisite: CHEM 450 CHEM 457 Prerequisite or concurrent: CHEM 452
CHNS 403W
Practical Written Communication: Chinese for Professional and Academic Purposes (3) Discussions, presentations, readings, and compositions emphasizing written styles used in newspapers, magazines, business reports, academic writing, and other texts.
Effective: Spring 2010
Prerequisite: CHNS 401

CMLIT 400Y (US;IL)
Senior Seminar in Literary Criticism and Theory (3) Discussions of theories of literature, of literary criticism, and particularly of the distinct methods of comparative study; individual projects.
Effective: Spring 2006
Prerequisite: seventh-semester standing; 18 credits in literature

CMLIT 401Y (IL)
The Western Literary Heritage I (3) Major literary movements and authors in the literature of the Western world from the beginnings through the early Renaissance.
Effective: Spring 2006
Prerequisite: 3 credits in literature or history

CMLIT 402Y (US;IL)
The Western Literary Heritage II (3) Major literary movements and authors in the literature of the Western world from the late Renaissance to the present time.
Effective: Spring 2006
Prerequisite: 3 credits in literature or history

CMPEN 352W
Embedded Systems Design (3) Design/development of embedded systems for data acquisition, process control, and special-purpose computing systems; peripheral interfacing, serial/parallel communications and bus systems.
Effective: Spring 2008 Ending: Fall 2011
Prerequisite: CMPEN 351

CMPEN 352W
Embedded Systems Design (3) Design/development of embedded systems for data acquisition, process control, and special-purpose computing systems; peripheral interfacing, serial/parallel communications and bus systems.
Prerequisite: CMPEN 351 or CMPEN 472 ; E E 210

CMPEN 482W
Computer Engineering Project Design (3) Computer engineering design project, project management, documentation, reporting, and group and individual communication skills.
Effective: Spring 2008
Prerequisite: E E 310 ; E E 353 ; CMPSC 473 ; ENGL 202C

CMPSC 431W
Database Management Systems (3) Database system concepts: file organizations
and retrieval algorithms; the three data models (relational, hierarchical, and network) and their database implementations.
Effective: Spring 2008
Prerequisite: CMPSC 221; ENGL 202C

CMPSC 483W
Software Design Methods (3) Applications of scientific knowledge and methods in the design and construction of computer software using engineering concepts.
Effective: Spring 2008
Prerequisite: CMPSC 221; CMPSC 465; ENGL 202C

CMPSC 485W
Computer Science Senior Project II (3) Computer science capstone project with documentation emphasis.
Effective: Spring 2008
Prerequisite: CMPSC 484

CMPSC 487W
Software Engineering and Design (3) Software development process, life cycle; requirements analysis, specification, design, prototyping, testing, project management, and documentation.
Effective: Fall 2010
Prerequisite: ENGL 202C CMPSC 425 CMPSC 462

COMM 230W
Writing for Media (3) The application of creativity to the practical concerns of narrative script and radio/television spot writing.
Effective: Spring 2008
Prerequisite: ENGL 015 and ENGL 202

COMM 260W
News Writing and Reporting (3) News and news values; legal and ethical problems of reporting; writing and reporting news for the mass media.
Effective: Spring 2004
Prerequisite: ENGL 015 or ENGL 030; COMM 160; third-semester standing and typing proficiency

COMM 283W
Television Studio Production (3) Students will learn the technical aspects of multi-camera studio television production.
Effective: Fall 2010 Ending: Fall 2011
Prerequisite: COMM 282

COMM 283W
Television Studio Production (3) Students will learn the technical aspects of multi-camera studio television production.
Prerequisite: COMM 282 or COMM 242

COMM 337W
Theory and Practice of Production (3) Writing-intensive course addressing the
analysis, theory and film and video production process of alternative and documentary forms.
Effective: Fall 2010 Ending: Fall 2011
Prerequisite: COMM 242

COMM 337W
Intermediate Documentary Production (3) Writing-intensive exploration of documentary video techniques and aesthetics through the completion of short exercises.
Prerequisite: COMM 242 and Film-Video major

COMM 342W
Idea Development and Media Writing (3) Introduction to various modalities of idea development and written expression for media production.
Effective: Spring 2011
Prerequisite: COMM 242 and Film-Video Major

COMM 413W
The Mass Media and the Public (3) Social-level and political theories of the relationships between media and public; media influences on public opinion; social pressure on the media; political communications.
Effective: Spring 2011
Prerequisite: select 3 credits from the following COMM 100 COMM 118 COMM 150 COMM 180 COMM 251 COMM 260W COMM 320 or COMM 370 and select 3 credits from the following: COMM 304 COMM 420

COMM 421W
Advertising Creative Strategies (3) Planning, designing, writing advertisements; introduction to graphics and production techniques and processes; layout and copywriting practice and critiques.
Effective: Spring 2004
Prerequisite: COMM 320

COMM 460W
Reporting Methods (3) Techniques in reporting news and trends at the local, regional, and county levels. Emphasis on both deadline and interpretive reporting.
Effective: Fall 1990
Prerequisite: COMM 260W

COMM 464W
Editorial, Opinion and Commentary Writing (3) Introduces techniques of editorial, opinion and commentary writing.
Effective: Spring 2008
Prerequisite: COMM 260W

COMM 489W
Media and Information Industries (3) The structure, conduct and performance of firms and industries in the electronic media and information sectors.
Effective: Spring 2004
Prerequisite: COMM 387 or equivalent
CRIM 250W (CRIMJ 250W)
Research Methods in Criminal Justice (4) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CRIM 012

CRIM 250W (CRIMJ 250W)
Research Methods in Criminal Justice (3) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CRIM 012

CRIMJ 240W
Field Research in the Criminal Justice (4) Field research and observational strategies appropriate to the identification, investigation, and analysis of research questions in criminal justice.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIM 250W (CRIMJ 250W)
Research Methods in Criminal Justice (4) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CRIMJ 012

CRIM 250W (CRIMJ 250W)
Research Methods in Criminal Justice (3) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CRIMJ 012

CRIMJ 421W
Violent Crime in the United States (3) The impact of violent crime on victims, their families, and communities; the police process as it relates to violent crime.
Effective: Spring 2008
Prerequisite: CRIMJ 012

CRIMJ 424W
Drugs and Crime (3) Analysis of international narcotics trafficking in the twentieth century.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 441W
The Juvenile Justice System (3) Historical and contemporary view of the juvenile justice system. Focus on analyzing components of the system, their interactions,
processing, and handling of youths.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or permission of program

**CRIMJ 450W**
**Senior Seminar** (3 per semester/maximum of 6) Capstone course exploring past, current and future developments in criminal justice.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or CRIM 100 and sixth semester standing or permission of program.

**CRIMJ 489W**
**Victimology: Predatory Crime** (3) This course uses medical, social scientific and legal research to study the complexities of predatory crime.
Effective: Spring 2004
Prerequisite: CRIMJ 407

**CSD 395W**
**Clinical Observations in Communication Disorders** (1) Systematic observation of therapy and diagnostic sessions in speech-language pathology and audiology.
Effective: Fall 2003
Prerequisite: CSD 146

**CSD 459W**
**Principles of Clinical Management in Communication Disorders** (3) Survey of principles and practices for diagnosing, interviewing, counseling, treating, reporting, and programming in Communication Disorders.
Effective: Fall 2010
Prerequisite: CSD 300 CSD 230 plus 3 additional credits in CSD at the 300-level

**D S M 295W**
**Professional Staff Field Experience** (4) Methods of, and practice in, the client-oriented dietetic systems.
Effective: Summer 2011
Prerequisite: D S M 195 ; NUTR 251

**E B F 304W**
**Global Management for the Earth, Energy, and Materials Industries** (3) This class is designed to introduce students to modern management and organization strategies for resource businesses.
Effective: Fall 2010
Prerequisite: E B F 200

**E E 313W**
**Electronic Circuit Design II** (4) Design/analysis of electronics circuits including: single/multistage transistor amplifiers, op amp circuits, feedback amplifiers, filters, A/D and D/A converters.
Effective: Spring 2008
Prerequisite: E E 310

**E E 402W**
Senior Project Design in Electromagnetics (3) Project designs of antenna and microwave systems, with an emphasis on technical communications skills. Lab. Effective: Spring 2001
Prerequisite: E E 330. Prerequisite or concurrent: ENGL 202C

E E 403M
Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: E E 330; E E 350; E E 316; and the completion of two Electrical Engineering technical electives

E E 403M
Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Prerequisite: E E 330; E E 350; E E 316; and the completion of two Electrical Engineering technical electives

E E 403M
Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Effective: Spring 2008
Prerequisite: E E 330; E E 350; E E 316; and the completion of two Electrical Engineering technical electives

E E 406W
Electrical Engineering Capstone Design (3) Project designs of analog and digital systems, interfacing, and relevant electronic circuits, with an emphasis on technical communications skills.
Effective: Spring 2008
Prerequisite: E E 311; E E 405; ENGL 202C

E R M 413W
Case Studies in Ecosystem Management (3) Application of biological, physical, and social science principles to ecosystem management problems; introduction to environmental impact analysis and review.
Effective: Spring 2010
Prerequisite: BIOL 220W SOILS 101W. Prerequisite or concurrent: E R M 412

E SC 261M
Computational Methods in Engineering (3) Modeling, solving engineering problems using FORTRAN, software libraries, graphics. Reports on root search, curve fitting, finite differences, algebraic equations.
Effective: Spring 1995
Prerequisite: or concurrent: MATH 141

E SC 414M

The Pennsylvania State University
**Elements of Material Engineering** (3) Structure and imperfections in engineered materials; their influence on properties, behavior, and processing. Applications of metals, ceramics, polymers, and composites.
Effective: Spring 2008
Prerequisite: E MCH 213 E MCH 210H or E MCH 210. Prerequisite or concurrent: E SC 312 or PHYS 237

**ECON 400M**
**Honors Seminar in Economics** (3-12) Readings, discussion, and oral and written reports on selected topics in economics.
Effective: Spring 1993
Prerequisite: ECON 302 ECON 304 fifth-semester standing admission into Honors program

**ECON 403W**
**The Economics of Arts and Entertainment** (3) Supply and demand of creative goods and services; industry structure; role of information; policy issues.
Effective: Summer 2008
Prerequisite: ECON 302 and ECON 490

**ECON 404W**
**Current Economic Issues** (3) An analytical survey of significant problems of current economic policy and the application of economic analysis to important social issues.
Effective: Spring 1993
Prerequisite: ECON 302 or ECON 304

**ECON 406W**
**The Economics of Social Conflict** (3) Economic theory of the resolution of social conflicts: social choice theory, voting, noncooperative games, voluntary trade, and allocation by force.
Effective: Summer 2008
Prerequisite: ECON 402 and MATH 110 or MATH 140

**ECON 407W**
**Political Economy** (3) Applications of the tools of game theory to analyze topics in collective decision making.
Effective: Summer 2008
Prerequisite: ECON 402

**ECON 408W**
**Intellectual Property** (3) A comparative and cost-benefit analysis of intellectual property that examines patents, copyrights, government supported research, and prizes.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

**ECON 409W**
**Economics of Terrorism** (3) Terrorism throughout history; economic causes, costs, sources, and consequences.
Effective: Summer 2008

The Pennsylvania State University
Prerequisite: ECON 402

**ECON 411W**
**Behavioral Economics** (3) Topics in behavioral economics; selected games; evolutionary models of social behavior; culture and social behavior; herding; overconfidence.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

**ECON 413W**
**Economic Growth and the Challenge of World Poverty** (3) Economic prosperity in historical perspective; recent successes (East Asia, China, India); ongoing challenges (the bottom billion; sub-Saharan Africa).
Effective: Summer 2008
Prerequisite: ECON 471

**ECON 414W**
**The Economic Way of Looking at Life** (3) Economics/life according to Gary Becker: criminal behavior; economics of the family (marriage, divorce, intrahousehold resource allocation, bequests), policy issues.
Effective: Summer 2008
Prerequisite: ECON 412

**ECON 415W**
**The Economics of Global Climate Change** (3) Evidence on climate change; economic models of the environment and market failure; cost-benefit analysis of policy options; carbon markets.
Effective: Summer 2008
Prerequisite: ECON 428

**ECON 417W**
**The Economics of Uncertainty** (3) Uncertainty is examined in contracts, with an emphasis on limited liability. Asymmetric information and economic puzzles are also considered.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

**ECON 418W**
**A Comparative and Cost-Benefit Analysis of State Government Activities** (3) This course examines federalism with a particular focus on the activities undertaken by the state of Pennsylvania.
Effective: Summer 2008
Prerequisite: ECON 490

**ECON 422W**
**Applying Monetary Theory to Monetary History** (3) Monetary history is examined. Special attention is paid to commodity-based systems, private money, and government monopolies on currency.
Effective: Summer 2008
Prerequisite: ECON 451
ECON 436W (US)
Economics of Discrimination (3) Analysis of the economic characteristics of women and minorities, with examination of race and sex discrimination and related government policies.
Effective: Fall 2007
Prerequisite: ECON 302 or ECON 315

ECON 437W
Multinationals and the Globalization of Production (3) This course will focus on trade, multinationals and offshoring, and explore their implications for the U.S. and developing countries.
Effective: Summer 2008
Prerequisite: ECON 433

ECON 438W
Winners and Losers from Globalization (3) The economic effects of globalization on individuals, governments, nation- states and business.
Effective: Summer 2008
Prerequisite: ECON 433 and ECON 490

ECON 445W (H P A 445W)
Health Economics (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 2008
Prerequisite: ECON 302 ECON 315 or ECON 323

ECON 446W
Economics of Industry Evolution (3) Dynamics of industry evolution; empirical evidence and theoretical modeling of firm entry, growth, and exit; entrepreneurship; investment and strategic behavior.
Effective: Summer 2008
Prerequisite: ECON 444 and ECON 490

ECON 447W
Economics of Sports (3) Examination of economic issues pertaining to professional and collegiate sports, including analysis of industrial organization, labor markets, and local economies.
Effective: Spring 2009
Prerequisite: ECON 302 and ECON 490

ECON 448W
Economics of Auctions and Procurements (3) Theoretical and empirical analyses of auctions and procurements; different modeling environments; econometric analysis of auction and procurement data.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444 and ECON 490

ECON 449W
Economics of Collusion (3) Theoretical and empirical analysis of collusion among firms, case studies of cartel behavior, bidding behavior at auctions and procurements.
Effective: Spring 2008  
Prerequisite: ECON 302 or ECON 342 and ECON 490 or permission of instructor

**ECON 452W**  
**Financial Crises** (3) Examination of causes and consequences of financial crises; asset pricing theory, market efficiency, speculative bubbles; policy considerations.  
Effective: Summer 2008  
Prerequisite: ECON 451

**ECON 455W**  
**Economics of the Internet** (3) Economics of the Internet; electronic commerce and network economics; pricing issues; intellectual property.  
Effective: Summer 2008  
Prerequisite: ECON 402 or ECON 444

**ECON 457W**  
**Economics of Organizations** (3) An advanced course in the economics of organizations. The focus is on coordination, incentives, contracts, and information in corporations.  
Effective: Summer 2008  
Prerequisite: ECON 402 or ECON 444

**ECON 463W**  
**Economic Demography** (3) Microeconomics of demographic behavior; interrelationships between demographic and economic factors, in developing and industrialized economies; economic welfare and policy implications.  
Effective: Summer 2008  
Prerequisite: ECON 412 or ECON 471 or 9 credits in demography

**ECON 465W**  
**Cross Sectional Econometrics** (3) Discrete choice models, censored and truncated regression models, longitudinal models, applications.  
Effective: Summer 2008  
Prerequisite: ECON 302 and ECON 490

**ECON 466W**  
**Panel Data Models** (3) Random and fixed effects, endogeneity, balanced and unbalanced panels, censoring of spells, differences in differences, applications.  
Effective: Summer 2008  
Prerequisite: ECON 302 and ECON 490

**ECON 475W**  
**Migration and Development** (3) Human Capital Approach to Migration; Economics of Family Migration; Evidence: Micro and Macro Perspectives; Migration Policies.  
Effective: Summer 2008  
Prerequisite: ECON 471 or ECON 412; ECON 490

**ECON 476W**  
**The Economics of Fertility in the Developing World** (3) Demand for children, supply of children, and costs of fertility regulation; fertility transition; public policies to affect fertility.
Effective: Summer 2008
Prerequisite: ECON 471 and ECON 490

ECON 479W
Economics of Matching (3) Economic application of matching to employment, marriage, organ markets, and medical residents.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 412 or ECON 444

ECON 489M
Honors Thesis (1-6) No description.
Effective: Spring 1993
Prerequisite: ECON 302 ECON 304 and admission into the departmental honors program

EDUC 315W (US)
Social and Cultural Factors in Education (3) Critical examination of how different experiences linked to race, ethnicity, religion, gender, and sexual orientation influence education.
Effective: Spring 2011
Prerequisite: admission into Elementary Education Major or Secondary Teacher Certification Program

EDUC 470W
Higher-Order Thinking for Educators (3) Presentation of strategies, techniques, and principles of higher-order thinking which are grounded in relevant research and practice will be presented.
Effective: Fall 2006
Prerequisite: admission into Elementary Education Major

EET 212W
Op Amp and Integrated Circuit Electronics (4) Analysis and design of amplifier, rectifier, filter, comparator, oscillator, and other practical circuits using op amps and integrated circuit devices.
Effective: Summer 2008
Prerequisite: EET 114 ENGL 015 MATH 022

EET 213W
Fundamentals of Electrical Machines Using Writing Skills (5) AC and DC machinery principles and applications; introduction to magnetic circuits, transformers, and electrical machines including laboratory applications.
Effective: Fall 2007
Prerequisite: EET 114 EET 118 ENGL 015

EET 420W
Electrical Design Project (3) Design, construction, and testing of a project either selected by the students with approval or assigned by the instructor.
Effective: Spring 2008
Prerequisite: EET 312 EET 331 EET 419 ENGL 202C

EET 490W
Electrical/Computer Senior Design Project (3) Individual or group design projects in electrical and computer engineering technology.
Effective: Fall 2007
Prerequisite: EET 480. Prerequisite or concurrent: EET 450

EGEE 464W
Energy Design Project (3) A team and capstone design project on an industrial energy-related problem.
Effective: Spring 2008
Prerequisite: seventh-semester standing in energy engineering or chemical engineering ENGL 202C

ELED 395W
Field Experience for Urban Teacher Preparation (2 per semester, maximum of 6) Structured opportunities for investigating and understanding the work of teachers within urban schools and communities.
Effective: Spring 2005
Prerequisite: C I 295 EDPSY 014 EDTHP 115

EM SC 470W
Undergraduate Collaborative Research in Earth and Materials Sciences (3-6) Interdisciplinary research seminar involving students in the process of discovery, writing, and debate on issues of broad interest to Earth and Materials Sciences.
Effective: Spring 1998

ENGL 001W (GH)
Understanding Literature (3) Studies the various critical ways of reading, understanding, and writing about fiction, poetry, and drama.
Effective: Spring 1999

ENGL 200W
Introduction to Critical Reading (3) Responses to a variety of literary texts written in English that evoke different approaches.
Effective: Fall 2001
Prerequisite: 6 credits of ENGL ENLSH or LIT

ENGL 211W
Introduction to Writing Studies (3) This course introduces students to the most salient issues and theories in writing studies. Students explore contemporary theories and issues about writing in order to understand writing as a skill and a complex object of study in various professional contexts.
Effective: Summer 2010
Prerequisite: ENGL 015 or ENGL 030; third semester standing

ENGL 221W
British Literature to 1798 (3) Introduction to literary history and analysis. Beowulf and writers such as Chaucer, Shakespeare, Donne, Milton, Swift, Pope, and Fielding.
Effective: Summer 1992
Prerequisite: ENGL 015 or ENGL 030
ENGL 222W
**British Literature from 1798** (3) Introduction to literary history and analysis. Writers such as Austen, Wordsworth, Keats, Browning, Dickens, the Brontes, Yeats, Joyce, and Woolf.
Effective: Summer 1992
Prerequisite: ENGL 015 or ENGL 030

ENGL 231W
**American Literature to 1865** (3) Introduction to literary history and analysis. Writers such as Bradstreet, Franklin, Emerson, Hawthorne, Douglass, Thoreau, Fuller, Melville, Whitman, and Dickinson.
Effective: Summer 1992
Prerequisite: ENGL 015 or ENGL 030

ENGL 232W
**American Literature from 1865** (3) Introduction to literary history and analysis. Writers such as Mark Twain, James, Cather, Frost, O'Neill, Faulkner, Hemingway, Hughes, and Morrison.
Effective: Summer 1992
Prerequisite: ENGL 015 or ENGL 030

ENGL 300M
**Honors Course in English** (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 1997
Prerequisite: ENGL 015 or ENGL 030 ; approval of the departmental Honors Committee

ENGL 301M
**Honors Seminar in English: Literature Before 1800** (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite: ENGL 015 or ENGL 030 ; approval of the departmental Honors Committee

ENGL 302M
**Honors Seminar in English: Literature After 1800** (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite: ENGL 015 or ENGL 030 ; approval of the departmental Honors Committee

ENGL 303M
**Honors Seminar in English: American Literature & Culture** (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite: ENGL 015 or ENGL 030 ; approval of the departmental Honors Committee

The Pennsylvania State University
ENGL 304M
**Honors Seminar in English: Creative Writing** (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works. Effective: Fall 2005
Prerequisite: ENGL 015 or ENGL 030; approval of the departmental Honors Committee

ENGL 401W
**Creative Writing Theory** (3) Theories of art and creativity which inform the making of literary works. Effective: Fall 2007
Prerequisite: ENGL 200; ELISH 201 ELISH 209 ENGL 212 or ENGL 213

ENGL 482W
**Contemporary Literary and Cultural Theory** (3) Contemporary literary and cultural theories and their implication for critical practice as applies to a variety of texts, e.g. literary, linguistic, visual, multimedia, and/or popular. Effective: Fall 2007
Prerequisite: ENGL 015 or ENGL 030H; ENGL 200

ENGL 487W
**Senior Seminar** (3) Issues, themes, periods, critical theories, etc., that invite students to use prior English studies, limited to seniors majoring in English. Effective: Summer 1997
Prerequisite: six credits of 400-level courses in English

ENGR 320Y (GS;US;IL)
**Design for Global Society** (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design. Effective: Spring 2012 Future: Spring 2012
Prerequisite: ENGL 202

ENGR 420Y (US;IL)
**Design for Global Society** (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design. Effective: Spring 2008 Ending: Fall 2011
Prerequisite: ENGL 202

ENGR 490W
**Senior Design I** (1) Analysis of environmental impacts on a design, designing products for the global environment and discussion on engineering ethics and professionalism. Effective: Summer 2010
Prerequisite: ENGR 350 E MCH 407 or E MCH 461

ENGR 491W
**Senior Design II** (3) Capstone of research projects from conception to prototype through industry sponsored collaboration on common technical interests between faculty and student. Effective: Summer 2010
Prerequisite: ENGR 490W

**ENT 402W** (VB SC 402W)  
**Biology of Animal Parasites** (3) An introduction to animal parasitology. Emphasizes placed on host/parasite interactions, parasites of zoonotic importance, control programs and taxonomy.  
Effective: Spring 2010  
Prerequisite: BIOL 110

**ENVE 301W**  
**Environmental Microbiology** (3) Fundamentals of microbial ecology and environmental microbiology with an emphasis on aspects of these fields important to environmental engineers.  
Effective: Fall 2003 Ending: Summer 2011  
Prerequisite: introductory chemistry high school biology

**ENVE 301W**  
**Environmental Microbiology** (3) Fundamentals of microbial ecology and environmental microbiology with an emphasis on aspects of these fields important to environmental engineers.  
Effective: Fall 2011 Future: Fall 2011  
Prerequisite: CHEM 110 and CHEM 111

**ENVE 413W**  
**Operation and Control of Treatment Systems** (3) Wastewater treatment, water treatment, solids handling, hazardous waste site control and operations, operator certification, report writing.  
Effective: Spring 2002 Ending: Summer 2011  
Prerequisite: ENVE 411 ENVE 424

**ENVE 413W**  
**Operation and Control of Treatment Systems** (3) Wastewater treatment, water treatment, solids handling, hazardous waste site control and operations, operator certification, report writing.  
Effective: Fall 2011 Future: Fall 2011  
Prerequisite: ENVE 411

**ENVSE 404W**  
**Surface and Interfacial Phenomena in Environmental Systems** (3) Principles underlying surface and interfacial phenomena with application to mineral processing and environmental systems.  
Prerequisite: or concurrent: CHEM 110 MATH 141 PHYS 212 EME 301

**ENVST 400W**  
**Senior Seminar in Environmental Studies** (3) Writing-intensive study of a specified topic in environmental studies integrating approaches and research from a variety of disciplines.  
Effective: Spring 2000  
Prerequisite: ENVST 200
FD SC 409W
Laboratory in Food Microbiology (3) Methods of isolation, detection of spoilage, pathogenic microorganisms in foods; effects of processing and preservation on survival of food microorganisms.
Effective: Fall 2009
Prerequisite: MICRB 202 . Prerequisite or concurrent: FD SC 408

FIN 305M
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: B A 301 or FIN 301

FIN 305M
Financial Management of the Business Enterprise (Honors) (3) Development of advanced practices of financial management and their application to decision making in a business firm.
Prerequisite: B A 301 or FIN 301

FIN 305W
Effective: Spring 2011
Prerequisite: B A 301 or FIN 301

FIN 306W
Investment Valuation (3) Approaches to investment strategy, investment decisions; valuation of corporate securities, including the impact of dividend policy and capital structure.
Effective: Spring 2001
Prerequisite: FIN 301

FOR 200W (W P 200W)
Professional Careers in Forest Resources (3) Introduction to managing forests for products and services to meet human needs; developing career goals and an academic plan.
Effective: Spring 1996

FOR 466W
Forest Resource Management (3) Optimum use of forest's tangible and intangible resources by application of financial and administrative management principles and management science techniques.
Effective: Spring 2001
Prerequisite: FOR 421 . Prerequisite or concurrent: FOR 440

FOR 488Y (IL)
International Forestry (3) Forestry in global context, emphasizing developing countries: ecological, economic, technological, and political aspects.
FR 402Y (IL)
Effective: Spring 2006
Prerequisite: FR 201 FR 202

FR 426Y (IL)
**French Literature of the Renaissance** (3) Survey of key texts from sixteenth century France, with attention to historical and philosophical currents of French social thought.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 436Y (IL)
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 445Y (IL)
**Self and Society in Eighteenth-Century France** (3) The changing relationship of the individual to society in pre-Revolutionary France will be explored in texts by major writers.
Effective: Spring 2006
Prerequisite: FR 351. Prerequisite or concurrent: FR 352

FR 452Y (IL)
**Nineteenth-Century French Literature** (3) Selected readings in romanticism, realism, and symbolism, including Balzac, Stendhal, Sand, Baudelaire, and others, with emphasis on cultural issues.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 453Y (IL)
**La Belle Epoque: Politics, Society, and Culture in France, 1880-1914** (3)
Interdisciplinary perspectives on the politics, society, and culture of France, 1880-1914.
Effective: Fall 2006
Prerequisite: FR 330 or FR 351 or FR 352

FRNSC 201W
**Principles of Crime Scene Investigation** (4) Basic principles of crime scene investigation including management, processing and investigative techniques.
Effective: Spring 2008
Prerequisite: permission of program

FRNSC 401W
**Criminalistics II - Advanced Analysis and Crime Scene Investigation** (4)
Advanced concepts in criminalistics as they apply to criminal and civil investigations.
Effective: Spring 2011
Prerequisite: FRNSC 302 and FRNSC 421W or prerequisite or concurrent FRNSC 427W

**FRNSC 421W**

**Forensic Molecular Biology** (3) Concepts and application of serology of molecular biology techniques to analyze biological evidence collected at crime scenes.
Effective: Spring 2009 Ending: Summer 2011
Prerequisite: B M B 442 B M B 400 B M B 401; FRNSC 302 or a 400-level biology or B M B course

**FRNSC 427W** (CHEM 427W)

**Forensic Chemistry** (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CHEM 213 and CHEM 227

**FRNSC 427W** (CHEM 427W)

**Forensic Chemistry** (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 213 CHEM 227 and FRNSC 301 or CHEM 431W

**GD 202W**

**The History of Graphic Design** (3) A survey of graphic design, especially emphasizing influential movements, innovative designers and technological advances relevant to contemporary visual communication.
Effective: Summer 2011
Prerequisite: GD 001S GD 100 GD 101

**GD 403W**

**Graphic Design Seminar** (3) A seminar on subjects which relate to the field of graphic design.
Effective: Fall 2007
Prerequisite: GD 302

**GEOEE 404W**

**Surface and Interfacial Phenomena in Geo-Environmental Systems** (3) Principles underlying surface and interfacial phenomena with application to mineral processing and geo-environmental systems.
GEOG 310W
**Introduction to Global Climatic Systems** (3) Introduction to global atmospheric circulation, including tropical, midlatitude and polar subsystems; ocean, land, cryospheric and urban climatic systems and interactions.
Effective: Spring 2007
Prerequisite: GEOG 010 or METEO 003

GEOG 411W
**Forest Geography** (3) This course studies processes that control spatial and temporal change in forests.
Effective: Fall 2007
Prerequisite: GEOG 010 GEOG 111; or BIOL 220W

GEOG 412W
**Climatic Change and Variability** (3) Theories and observations of past, present, and future climatic change and variability; introduction to techniques used in climatic change research.
Effective: Spring 2007
Prerequisite: GEOG 110 or METEO 003

GEOG 420Y (US;IL)
**Metropolitan Analysis** (3) Theory and practice of regional and metropolitan analysis.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 120 GEOG 160

GEOG 420Y (US;IL)
**Comparative Urbanism** (3) This course investigates selected urban issues through the lens of comparative urbanism.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 120 GEOG 160

GEOG 423Y (US)
**Historical Geography of North America** (3) Exploration, settlement, and changing patterns of human occupancy from the seventeenth century to the 1930's.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 122 3 additional credits in geography or 6 credits

GEOG 423Y (US)
**Historical Geography of North America** (3) Exploration, settlement, and changing patterns of human occupancy from the seventeenth century to the 1930s.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 122 3 additional credits in geography or 6 credits American history

GEOG 426Y (WMNST 426Y) (US;IL)
**Gender and Geography** (3) Description and explanation of the links between gender relations and spatial structures.
Effective: Summer 2011
Prerequisite: GEOG 020 or GEOG 126 or GEOG 120 or WMNST 001

**GEOG 438W**
**Human Dimensions of Global Warming** (3) Human dimensions of global environmental change: human causes; human adaptations; and policy implications of global warming.
Effective: Fall 2008 Ending: Fall 2011
Prerequisite: EARTH 002 GEOG 010 or METEO 003 ; GEOG 030

**GEOG 438W**
Prerequisite: EARTH 002 GEOG 010 or METEO 003 ; GEOG 030

**GEOG 461W**
**Dynamic Cartographic Representation** (3) Theory and practice of mapping and geo-representation in a dynamic media context. Applications in science, policy, travel, and education.
Effective: Spring 2010
Prerequisite: GEOG 361 or GEOG 362 or GEOG 363

**GEOSC 402Y** (IL)
**Natural Disasters** (3) Case studies of the causes and consequences of natural disasters; analysis of disaster impact in different economic, cultural, and social conditions.
Effective: Summer 2005
Prerequisite: fourth-semester standing

**GEOSC 409W**
**Geomicrobiology** (3) Investigation of modern and ancient microbial interactions with soils, sediments, the atmosphere, minerals, rocks, nutrients, and pollutants.
Effective: Summer 2008
Prerequisite: CHEM 112 ; GEOSC 001 GEOSC 020 GEOSC 040 EARTH 002 BIOL 110 or MICRB 201

**GEOSC 413W**
**Techniques in Environmental Geochemistry** (3) This course teaches techniques needed for the collection, chemical analysis, and data analysis of environmental geochemical measurements. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite: one of the following: C E 475 CHEM 402 GEOSC 202 GEOSC 412 SOILS 419

**GEOSC 470W**
**Introduction to Field Geology** (3) Field interpretation of geologic features; principles and techniques of geologic mapping; interpretation of geologic maps and diagrams. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite: GEOSC 001; fifth-semester standing

GEOSC 475W (METEO 475W)
Global Biogeochemical Cycles (3) The study of earth's major global biogeochemical cycles (carbon, oxygen, nitrogen, phosphorus, and sulfur) in the context of the climate system.
Effective: Summer 2007
Prerequisite: MATH 110 and MATH 111 or MATH 140 and MATH 141 and CHEM 110

GEOSC 494M
Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2007
Prerequisite: seventh-semester standing

GEOSC 494W
Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2001
Prerequisite: seventh-semester standing

GER 208Y (IL)
Business German (4) Intermediate Business German.
Effective: Fall 2006
Prerequisite: GER 003 or GER 008

GER 302W
Intermediate Conversation and Composition II (3) Continuation of oral and written practice in German with extensive work in composition.
Effective: Summer 1994 Ending: Fall 2011
Prerequisite: GER 301

GER 302W
Intermediate Composition and Grammar (3) Continuation of oral and written practice in German with extensive work in composition.
Prerequisite: GER 201 or GER 208

GER 308Y (IL)
German Business Communication (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent: GER 301

GER 308Y (IL)
German Business Communication (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Prerequisite: GER 301 or GER 302W

GER 401Y (IL)
Advanced Composition (3) Intensive practice in writing different text types in German.
Effective: Spring 2006 Ending: Fall 2011
Prerequisite: GER 301

GER 401Y (IL)
Advanced Composition (3) Intensive practice in writing different text types in German.
Prerequisite: GER 301 and GER 302W

H P A 301W
Health Services Policy Issues (3) Analysis of major issues in health services delivery in hospitals, medical practice, public health, mental health, and health professional education.
Effective: Spring 2011
Prerequisite: ECON 102 H P A 101 PL SC 001

H P A 445W (ECON 445W)
Health Economics (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 2008
Prerequisite: ECON 302 ECON 315 or ECON 323

HD FS 287W (GS;US)
Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 287X (GS;US)
Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 287Y (GS;US)
Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 310M
Seminar in Honors--Research Methods (3) Overview of research and methods issues tailored around development of honors thesis proposals.
Effective: Spring 1998
Prerequisite: permission of Human Development and Family Studies honors adviser

HD FS 312W
Empirical Inquiry in Human Development (3) Introduction to the skills involved
in critical thinking in general and the methods of empirical inquiry in particular.
Open to HD FS majors only.
Effective: Spring 2001
Prerequisite: a grade of C or better required in EDPSY 101 or STAT 200

**HD FS 315Y (US)**
**Family Development** (3) Family functions over the life course; family from a multidisciplinary perspective, emphasizing adaptation and change.
Effective: Summer 2005
Prerequisite: HD FS 129; 3 credits of social behavioral or human biological sciences

**HIST 020Y (GH;US)**
**American Civilization to 1877** (3) An historical survey of the American experience from its colonial beginnings through the Civil War and Reconstruction.
Effective: Spring 2006

**HIST 021Y (GH;US)**
**American Civilization Since 1877** (3) An historical survey of the American experience from the emergence of urban-industrial society in the late nineteenth century to the present.
Effective: Spring 2006

**HIST 117M (WMNST 117M) (GH;US;IL)**
**Women in Modern History** (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society; cross-cultural comparisons.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**HIST 153Y (GH;US)**
**The Indian in North America** (3) A survey of the American Indian from prehistory to the present.
Effective: Summer 2005

**HIST 301W**
**Scope and Methods of History** (3) A course designed to introduce students to the analysis, methods, and practices of historical writing and research.
Effective: Spring 2008
Prerequisite: 3 credits in history

**HIST 302W**
**Undergraduate Seminar** (3) Thematic or topical investigation; emphasis on historical criticism and analysis.
Effective: Fall 1995
Prerequisite: 6 credits in history at the 400 level

**HIST 320W**
**Contemporary World History and Issues** (3) Aspects of global history in 20th and 21st centuries and study of selected trends and controversies.
Effective: Spring 2008

**HIST 404Y (IL)**
Rome and Hellenism (3) The impact of traditional Greek culture on ancient Italian society in the age (ca. 300-30 B.C.) of Roman imperial expansion.
Effective: Spring 2006
Prerequisite: HIST 100 HIST 101 or CAMS 033

HIST 405Y (IL)
The Roman Empire (3) The political and social history of the Roman empire; economic institutions and religious groups which influenced Roman administration.
Effective: Spring 2006
Prerequisite: HIST 001 HIST 101 or 3 credits in classical studies

HIST 406W
Research in Medieval Sources (3) Guided research in the literature of medieval Europe.
Effective: Spring 2008
Prerequisite: HIST 001

HIST 409Y (J ST 409Y, RL ST 407Y) (IL)
European Anti-Semitism from Antiquity to the Present (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

HIST 418W (IL)
The French Revolution and the Napoleonic Era (3) Developments of revolutionary France and the First French Empire and their impact on Europe from 1789 to the Vienna settlement.
Effective: Spring 2008
Prerequisite: HIST 002

HIST 420W (IL)
Recent European History (3) Impact of two World Wars in twentieth century; social conflict and economic catastrophe; political radicalism; post-1945 recovery and cooperation.
Effective: Spring 2008
Prerequisite: 3 credits in European history

HIST 444W (US)
The United States in Civil War and Reconstruction--1850-1877 (3) Causes of the Civil War; conduct of the war, North and South; impact of the war; problems of reconstruction.
Effective: Spring 2008
Prerequisite: HIST 130 or HIST 020

HIST 456Y (US)
The Social History of American Vernacular Building, 1607-1980 (3) Social, historical, and cultural context of American building including settlements, housing, workplaces, stores, recreational facilities; changes over time.
Effective: Spring 2006
Prerequisite: 3 credits in American history
HIST 458Y (LER 458Y) (US)
History of Work in America (3) A study of selected problems in the history of work in the United States, especially since 1877.
Effective: Spring 2008
Prerequisite: HIST 021 HIST 156 or LER 100

HIST 459Y (US)
Social and Cultural History of the United States Since 1783 (3) Role of immigration, social reform movements, religion, education, science, literature, and the arts in American history.
Effective: Spring 2006

HIST 471Y (RL ST 471Y) (IL)
Classical Islamic Civilization, 600-1258 (3) Pre-Islamic Arabia; Muhammad; Arab conquests; Islamic beliefs and institutions; literary, artistic, and scientific achievements; relations with Europe; breakdown of unity.
Effective: Fall 2006

HIST 475Y (IL)
The Making and Emergence of Modern India (3) India's transition to social, economic, and political modernity through the experience of British colonial rule and the nationalist struggle.
Effective: Spring 2006
Prerequisite: HIST 010 HIST 011 HIST 172 HIST 175 HIST 176 HIST 181 or HIST 191

HIST 484Y (IL)
History of Chinese Thought (3) A study of the dynamic historical development of Chinese thought with its diverse expressions from antiquity to the present.
Effective: Spring 2006
Prerequisite: HIST 174 or HIST 175

HIST 485Y (IL)
Nineteenth-Century China (3) Ch'ing society and institutions; "opening" to the west; imperialism; domestic upheaval and its effect upon Chinese society; reform movements.
Effective: Spring 2006
Prerequisite: HIST 175 or HIST 300H (Honors in East Asian history)

HONOR 494M
Interdisciplinary Writing and Thesis Formulation (2) Seminar to help students with interdisciplinary analysis, writing, and formulation of honors projects and proposals.
Effective: Fall 2010
Prerequisite: admission to an honors program belonging to the Penn State Honors Consortium

HORT 402W
Plant Nutrition (3) Mineral nutrition of higher plants, including nutrient acquisition, transport, metabolism, and practical implications.
Effective: Spring 2003
Prerequisite: HORT 315 or BIOL 441 SOILS 101

**HORT 410W**
**Issues in Landscape Contracting** (3) This will be a survey of business management, regulatory, and environmental issues facing the landscape contracting profession. Laboratory.
Effective: Summer 1998
Prerequisite: HORT 408

**HORT 412W**
**Post-Harvest Physiology** (3) Harvesting, handling, storage, and transportation of horticultural crops; primary emphasis on physiological response to pre- and post-harvest environmental factors.
Effective: Spring 2001
Prerequisite: 6 credits in horticulture or other plant sciences

**HORT 440W**
**Plant Water Relations** (3) Fundamentals of plant water relations including acquisition, transport, conservation, response to drought, measurement of water status, relationship to productivity, interaction with mineral nutrition, and use of equipment.
Effective: Spring 2003
Prerequisite: BIOL 441 or BIOL 446 or permission of department

**HRIM 295W**
**Analysis of Field Experience I** (3) Capstone class integrating content from throughout the previous curriculum, including directed written analysis of the 500-hour hospitality working experience.
Effective: Spring 2008
Prerequisite: HRIM 201 HRIM 204 HRIM 250 HRIM 335 and HRIM 380

**HRIM 395W**
**Practicum Analysis** (3) Written analysis comparing and contrasting conceptual issues in the hospitality industry.
Effective: Spring 2004
Prerequisite: HRIM 201 1000 hours of adviser-approved professional hospitality experience

**HRIM 490W**
**Strategic Hospitality Management** (3) This capstone writing-intensive class integrates content from throughout the previous curriculum, focusing on strategic application to current industry issues.
Effective: Fall 2010
Prerequisite: a grade of "C" or better for HRIM 365 HRIM 435 HRIM 442

**I E 480W**
**Capstone Design Project** (3) Industry-based senior capstone design project emphasizing manufacturing systems, service systems, and information systems in an interdisciplinary setting.
Effective: Spring 2009
Prerequisite: I E 302 I E 327 I E 323 I E 305 I E 330 I E 405
I H S 495W
Industrial Health and Safety Internship (2) The preparation of a technical report on hazard assessment and control, resulting from experiential education gained at industrial worksites.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: junior or senior standing

I HUM 300W
Interpretations in the Humanities (3) A study of selected themes, topics, or periods that introduces students to interdisciplinary approaches to knowledge, interpretation, and creative expression.
Effective: Fall 2001
Prerequisite: ENGL 015 ENGL 202 and at least 30 credits

INART 100W (GA)
Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

INS 310W
Property and Liability Insurance Market (3) Property and liability insurance industry and company operations.
Prerequisite: INS 301

IST 260W
Introduction to Systems Analysis and Design (3) Introduction to systems analysis and design, stressing the process of requirements acquisition, specification, design, and implementation.
Effective: Spring 2010
Prerequisite: IST 110 IST 210 IST 220 and ENGL 015

IST 440W
Information Sciences and Technology Integration and Problem Solving (3) Problem-based approach to technology integration by focussing on real-life problems faced by an organization.
Effective: Fall 2002
Prerequisite: ENGL 202C or ENGL 202D seventh-semester standing (this course is intended for seniors) and the five common course requirements plus at least three of the required courses in an option

IT 330W
Greatest Books of Italian Literature (3) A survey of the greatest books of Italian literature (prose, poetry, drama). Time period varies each semester. In Italian.
Effective: Summer 2006
Prerequisite: IT 003 IT 020 or permission of program

J ST 409Y (HIST 409Y, RL ST 407Y) (IL)
European Anti-Semitism from Antiquity to the Present (3) Surveys the history of
anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

**JAPNS 403Y (IL)**
**Practical Written Communication: Japanese for Professional and Academic Purposes I** (3) Discussions, presentations, readings, and compositions emphasizing written styles used in newspapers, magazines, business reports, academic writing, and other texts.
Effective: Spring 2010
Prerequisite: JAPNS 402

**KINES 438W**
**Administration and Issues in Athletic Training** (3) Theoretical and practical aspects for management of an Athletic Training professional practice and identifying contemporary issues related to the profession.
Effective: Fall 2006
Prerequisite: KINES 436

**KINES 439W**
**Ethics in Sport and Sport Management** (3) Analysis of moral dilemmas in sport and sport management utilizing the tools of ethics.
Effective: Spring 2001
Prerequisite: KINES 345 or 3 credits in humanities

**KINES 461W**
**Preparation for Research Project** (2) Planning and preparation for research project.
Effective: Fall 2006
Prerequisite: KINES 180 KINES 260 STAT 200 KINES 321 KINES 345 KINES 350 KINES 360 KINES 384

**KINES 462W**
**Research Project** (2) Completion of research topic.
Effective: Fall 2006
Prerequisite: KINES 461W

**KINES 469W**
**Curriculum Development in Health and Physical Education** (3) The content and process of K-12 school health and physical education curriculum development for public school students.
Effective: Fall 2006
Prerequisite: KINES 362 KINES 364 KINES 366

**KINES 481W**
**Scientific Basis of Exercise for Older Adults** (3) Study of age-associated physical changes and the effects of exercise on the aging process.
Effective: Spring 2001
Prerequisite: KINES 350

**KINES 492W**
**Programming for Business and Agencies** (3) Fundamentals of program
development applied to corporate and private physical fitness businesses.
Effective: Fall 2006
Prerequisite: KINES 395B

LARCH 361W
Historic Issues in Landscape Architecture (3) A review of design history (precedent studies), an introduction to historic method, history as an informant to design, reading the historic landscape, and issues of preservation and restoration. Landscape Architecture majors only.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: LARCH 060

LARCH 361W
Historic Issues in Landscape Architecture (3) A review of design history (precedent studies), an introduction to historic method, history as an informant to design, reading the historic landscape, and issues of preservation and restoration. Landscape Architecture majors only.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: LARCH 311

LARCH 361W
Historic Issues in Landscape Architecture (3) A review of design history (precedent studies), an introduction to historic method, history as an informant to design, reading the historic landscape, and issues of preservation and restoration. Landscape Architecture majors only.
Prerequisite: LARCH 311

LATIN 450W
History of Latin (3) History of the Latin language and its speakers, from their origins to the 2nd century C.E.
Effective: Summer 1994
Prerequisite: LING 102; LATIN 401 LATIN 402 or LATIN 403

LAWUN 382W
Legal Writing (3) Intensive writing, editing, and oral advocacy course focusing on drafting legal memoranda and briefs.
Effective: Summer 2003

LER 414W
Labor and Employment Relations Theory (3) Content and implications of major and minor theories of Labor and Employment Relations.
Effective: Spring 2008
Prerequisite: 6 credits in Labor and Employment Relations

LER 437W
Work Dispute Resolution (3) Dispute resolution practices and procedures used in the workplace and employment law settings.
Effective: Spring 2008
Prerequisite: LER 100
**LER 445Y** (AAA S 445Y, PL SC 445Y) (US)

**Politics of Affirmative Action** (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.

- **Effective:** Spring 2008
- **Prerequisite:** AAA S 100 level course and PL SC 001 or PL SC 007

**LER 458Y** (HIST 458Y) (US)

**History of Work in America** (3) A study of selected problems in the history of work in the United States, especially since 1877.

- **Effective:** Spring 2008
- **Prerequisite:** HIST 021 HIST 156 or LER 100

**LL ED 412W**

**Teaching Language Arts in Secondary Schools II** (3) Exploration of language, literacy, and culture and development of curricular designs for teaching language arts in secondary schools.

- **Effective:** Summer 2010
- **Prerequisite:** LL ED 411

**M E 345W**

**Instrumentation, Measurements, and Statistics** (4) Measurement concepts, probability and statistics, error analysis; electro-mechanical transducers, applied electrical and mechanical measurements, electrical and electronics instruments, data acquisition and instrumentation systems.

- **Effective:** Spring 2008
- **Prerequisite:** Prerequisite or concurrent: E E 212 or E E 211 or equivalent

**M E 440W**

**Mechanical Systems Design Project** (3) Design and analysis of mechanical components and systems. Application of fundamental design and analysis methods to open ended engineering problems.

- **Effective:** Fall 2007
- **Prerequisite:** ENGL 202C I E 312 M E 360 M E 370 M E 340

**M E 441W**

**Thermal Systems Design Project** (3) Design of thermal systems through component design and/or selection, system simulation and optimization. Assessment of system economics and energy efficiency.

- **Effective:** Fall 2007
- **Prerequisite:** ENGL 202C M E 340 M E 410

**M E 442W**

**Advanced Vehicle Design I** (2) Part one of a two course sequence; applications of design and analysis methods to open-ended advanced transportation vehicles. Two semester course; satisfies Senior Design or ME Technical Elective requirements (when combined with M E 443W).

- **Effective:** Summer 2010
- **Prerequisite:** ENGL 202C I E 312 M E 340 M E 360 M E 370

**M E 443W**

**Advanced Vehicle Design II** (1) Part two of a two course sequence; applications of
design and analysis methods to open-ended advanced transportation vehicles. Two semester course; satisfies Senior Design or ME Technical Elective requirements (when combined with M E 442W).
Effective: Summer 2010
Prerequisite: M E 442W

**MAE T 204W**
**Structure Characterization Laboratory** (3) A hands-on experience course with emphasis on equipment and lab techniques used for microstructural evaluation of metals.
Effective: Summer 2007
Prerequisite: MAE T 201 CHEM 111 PHYS 150

**MATH 311M**
**Honors Concepts of Discrete Mathematics** (3) Basic methods of mathematical thinking and fundamental mathematical structures, primarily in the context of numbers, groups, and symmetries.
Effective: Spring 2006
Prerequisite: MATH 141

**MATH 311W**
**Concepts of Discrete Mathematics** (3-4) Introduction to mathematical proofs; elementary number theory and group theory. Students who have passed CMPSC 360 may not schedule this course for credit.
Effective: Spring 2007
Prerequisite: MATH 141

**MATH 475W** (US;IL)
**History of Mathematics** (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Effective: Spring 2010 Ending: Fall 2011
Prerequisite: MATH 141

**MATH 475W** (US;IL)
**History of Mathematics** (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Prerequisite: MATH 315 or MATH 311W

**MATSE 484W** (IL)
**International Internship in Materials: Research Definition and Methodology** (3) A course focused on international research, specific design and methodology, facilitated through the International Internship in Materials and Program.
Effective: Summer 2006
Prerequisite: Sixth-semester standing in Materials Science and Engineering; MATSE 201 MATSE 460 MATSE 492W satisfactory completion of cultural class from Office of Education Abroad

**MATSE 485W** (IL)
International Internship in Materials: Experimentation and Documentation (3) A course focused on international research, specifically experimentation and documentation, facilitated through the International Internship in Materials Program.
Effective: Summer 2006
Prerequisite: Seventh-semester standing in Materials Science and Engineering; MATSE 484W; satisfactory completion of cultural class from Office of Education Abroad

MATSE 492W
Materials Engineering Methodology and Design (3) Designed to familiarize students with the literature and technology developments in the use of, and design with, materials in industrial applications.
Effective: Fall 2005
Prerequisite: sixth semester standing in Materials Science and Engineering

MATSE 494M
Research and Design Senior Project (1-3) Continuation of a research problem in materials culminating in a bound thesis describing the work.
Effective: Fall 2007

MATSE 494W
Research and Design Senior Project (1-3) Continuation of a research problem in materials culminating in a bound thesis describing the work.
Effective: Spring 2006

MET 210W
Machine Design (3) Design machine elements including bearings, springs, levers, shafts, gears, belts, and small mechanical devices; writing skills and computer applications.
Effective: Spring 2008
Prerequisite: MET 206 or E MCH 212; MCH T 213 or E MCH 213 or ET 322 or EMET 322

MET 331W
Heat Transfer (4) Introduction for technologists to the basic concepts and applications of heat transfer. Includes a thermodynamics and heat transfer laboratory.
Effective: Fall 2007
Prerequisite: M E 300 or MET 330. Prerequisite or concurrent: MET 341

METEO 418W
Topics in Mesoscale Meteorology (3) Topics in mesoscale meteorology will be investigated in an independent study environment through computer-based modules, papers, and semester project.
Effective: Fall 1995
Prerequisite: METEO 414

METEO 440W
Principles of Atmospheric Measurements (3) Theory and practices used in measurement and analysis of meteorological variables.
Effective: Fall 2010
Prerequisite: METEO 300 METEO 431 STAT 301 or STAT 401 or E B F 472

METEO 471W
Observing Meteorological Phenomena (3) Teaching the observational and interpretative skills needed to read the sky.
Effective: Spring 1999
Prerequisite: METEO 421. Prerequisite or concurrent: METEO 436

METEO 480M
Undergraduate Research (3) A research thesis will be prepared. A written and oral presentation required.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: junior or senior standing as a Meteorology Major

METEO 480M
Undergraduate Research (3) A research thesis will be prepared. A written and oral presentation required.
Prerequisite: junior or senior standing as a Meteorology Major

METEO 480W
Undergraduate Research (3) A research thesis will be prepared. A written and oral presentation required.
Effective: Summer 1991
Prerequisite: junior or senior standing as a Meteorology Major

MGMT 100W
Survey of Management (3) Introduction to organizational factors relevant to management processes, including leadership, motivation, job design, technology, organizational design and environments, systems, change. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 304 or MGMT 301.
Effective: Summer 1993

MGMT 301W
Basic Management Concepts (3) Examination of fundamental principles and processes applicable to the study of management. Not available to students who have taken B A 304.
Effective: Spring 2011
Prerequisite: ENGL 015 or ENGL 030; ECON 102 or ECON 104; MATH 021 or higher or satisfactory score on the mathematics FTCAP examination

MGMT 451W
Business, Ethics, and Society (3) Advanced examination of social, ethical, legal, economic, equity, environmental, public policy, and political influences on managerial decisions and strategies.
Effective: Spring 2004
Prerequisite: B A 241 and B A 242 or B A 243
Strategic Management and Business Policy (3) Study of strategic management and business policy formulation and implementation processes.
Effective: Spring 2008
Prerequisite: MGMT 301 MKTG 301 FIN 301 SCM 301

MGMT 475W
Strategic Product Development (3) Study of an organization, industry, and evaluation of the introduction to a new product. Preparation of proposal for industry product.
Effective: Summer 2008
Prerequisite: 7th semester standing; MGMT 300 ; FIN 301 ; SCM 310 ; MKTG 301 ; M E 300 or MET 330 ; MCH T 213 or E MCH 213 ; EET 101 or E E 211

MICRB 151W
Seminar and Practicum for Medical Laboratory Technicians--Clinical Microbiology (6) Properties of normal and abnormal human microbial flora and procedures for their identification.
Effective: Summer 2007
Prerequisite: BIOL 141 CHEM 202 MICRB 150 MICRB 201 MICRB 202

MICRB 421W
Laboratory of General and Applied Microbiology (3) Laboratory exercises demonstrating fundamental techniques and principles of experimentation of general and applied microbiology.
Effective: Spring 2001
Prerequisite: MICRB 201 MICRB 202

MIS 479W
Management of Operations Information/ERP (3) Management and implementation of enterprise information systems for business integration and supply chain management.
Effective: Spring 2008
Prerequisite: MIS 390 or MIS 431

MKTG 221W
Contemporary American Marketing (3) Social and economic aspects; movement of goods and services from producers to consumers; analysis of marketing functions, systems, and institutions. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 303 or MKTG 301.
Effective: Spring 1993
Prerequisite: 3 credits in economics

MKTG 301W
Principles of Marketing (3) Focuses on customer behavior, product, channels of distribution, promotion, and pricing with emphasis on a culturally diverse environment. Not available to students who have taken BA 303.
Effective: Spring 2011
Prerequisite: ENGL 015 or ENGL 030 ; ECON 102 or ECON 104 ; MATH 021 or higher or satisfactory score on the mathematics FTCAP examination
MKTG 450W
Marketing Strategy (3) Market-oriented problems of the firm; identification and selection of market opportunities; formulation of competitive strategies; marketing policies and programs.
Effective: Spring 2008
Prerequisite: MKTG 330 MKTG 342

MNG 451W
Mining Engineering Project (1-5) Independent and integrative design and report of specific mine evaluation, layout, equipment selection, environmental control, permitting, and financial analysis.
Effective: Spring 1999
Prerequisite: seventh-semester standing in mining engineering plus six months of mining work experience

MNG T 205W
Mining Systems Technology (3) Comparison of mining methods with focus on preventative maintenance, coal transport, and estimating production and manpower needs.
Effective: Summer 2006
Prerequisite: MNG T 030

MTHED 412W
Teaching Secondary Mathematics II (3) Assessing learning and instruction; methods of evaluation and grading; long-term planning; accommodating needs of diverse learners; connecting theory and practice.
Effective: Summer 2010
Prerequisite: a grade of C or better in MTHED 411

MUSIC 441W
Emphasis in Elementary General and Choral Music (3) Selection and application of materials, methods, teaching and assessment strategies for elementary general and choral music settings.
Effective: Spring 2011
Prerequisite: MUSIC 345 MUSIC 395B

MUSIC 442W
Capstone Experience in Middle School General and Choral Music (3) Capstone experience to teaching in general and choral middle school settings.
Effective: Fall 2007
Prerequisite: Limited to Music Education Majors. MUSIC 345 MUSIC 395B

MUSIC 444W
Emphasis in Elementary and Intermediate Band (3) Examination and application of teaching strategies and materials for students planning to teach band in the elementary and middle schools.
Effective: Spring 2011
Prerequisite: MUSIC 345 MUSIC 395A MUSIC 366 piano proficiency passes

MUSIC 445W
Emphasis in High School Band (3) Examination and application of teaching strategies and materials for high school band teachers.

The Pennsylvania State University
strategies and materials for students planning to teach high school bands.
Effective: Spring 2011
Prerequisite: MUSIC 345 MUSIC 395B

MUSIC 446W
**Emphasis in Strings and Orchestra** (3) Development of teaching techniques for instructing elementary and secondary string/orchestra student musicians for music education majors.
Effective: Spring 2011
Prerequisite: MUSIC 345 MUSIC 395B

MUSIC 461W
**Studies in Music History: Antiquity to 1600** (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from antiquity to 1600, with emphasis on writing and research.
Effective: Fall 2010
Prerequisite: MUSIC 261 MUSIC 331

MUSIC 462W
**Studies in Music History: 1550-1750** (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1550-1750, with emphasis on writing and research.
Effective: Fall 2010
Prerequisite: MUSIC 261 MUSIC 331

MUSIC 463W
**Studies in Music History: 1700-1900** (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1700-1900, with emphasis on writing and research.
Effective: Fall 2010
Prerequisite: MUSIC 262 MUSIC 331

MUSIC 464W
**Studies in Music History: 1850-Present** (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1850 to the present, with emphasis on writing and research.
Effective: Fall 2010
Prerequisite: MUSIC 262 MUSIC 332

MUSIC 476W
**B.A. Senior Project** (3) A semester project appropriate to student's option in B.A. program (e.g., research paper, performance with program notes, or related paper).
Effective: Spring 1992
Prerequisite: seventh-semester standing

NMT 210W
**Introduction to Nanofabrication Manufacturing Technology** (3) This course provides an overview of basic Nanofabrication Manufacturing Technology for Engineering and Technology students. The course will give the student an overview of atomic physics and the use of atoms to build devices and machines.
Effective: Fall 2003
Prerequisite: E E T 101

**NUC E 310W**  
**Issues in Nuclear Engineering** (2) Societal and technical issues facing nuclear engineers, including safety, operations, waste, regulation, public acceptance, economics, ethics, and radiation.  
Effective: Fall 2001  
Prerequisite: fifth-semester standing

**NUC E 431W**  
**Nuclear Reactor Core Design Synthesis** (4) Technical and economic optimization of nuclear systems.  
Effective: Spring 1994  
Prerequisite: ENGL 202C ; NUC E 403 NUC E 430

**NURS 200W**  
**Understanding and Applying Nursing Research** (3) Introduction to methods and philosophy of empirical inquiry as applied to research in nursing and application to practice.  
Effective: Spring 2011  
Prerequisite: STAT 200 or STAT 250 NURS 225 ; or STAT 250 and NURS 390 for NURN major

**NURS 214W**  
**Nursing Care of Clients with Psychiatric/Mental Health Disorders** (3) Emphasis on care of adults with emotional or dysfunctional mental health patterns.  
Effective: Summer 2011  
Prerequisite: NURS 212 PSYCH 100

**NUTR 490W**  
**Nutrition Seminar** (3) Use of selected materials from the scientific literature to prepare a term paper and an oral report.  
Effective: Spring 1995  
Prerequisite: or concurrent: NUTR 452

**O T 105W**  
**Activity Analysis: Group Interaction Skills** (3) Group interaction observed and analyzed. Activities to facilitate and enhance interactions practiced.  
Effective: Spring 2007  
Prerequisite: O T 101 PSYCH 100

**O T 412W**  
**Introduction to Research** (3) Introduction to quantitative and qualitative research process relative to occupational therapy.  
Effective: Summer 2011  
Prerequisite: STAT 200 or STAT 250

**P N G 440W**  
**Formation Evaluation** (3) Study of those methods used to evaluate the engineering properties of oil and gas bearing reservoir formations.  
Effective: Spring 1999
Prerequisite: P N G 405 P N G 406

**P T 270W**

**Pathophysiology** (3) Introduction to the study of disease and those conditions most often treated by physical therapy methods; basic signs, symptoms, and causes of disease and conditions will be covered.  
Effective: Fall 2004  
Prerequisite: a grade of C or better in BIOL 141 BIOL 142 P T 100 P T 384

**P T 280W**

**Rehabilitation** (4) Examination of techniques and laboratory experiences in rehabilitation techniques for the physically challenged.  
Effective: Fall 2004  
Prerequisite: a grade of C or better in BIOL 141 BIOL 142 P T 150 P T 160 P T 270 P T 384 P T 395E

**P T 395W**

**Physical Therapist Assistant--Practicum I** (4) The practice of physical therapist assistant skills in a clinical setting under the direct supervision of a physical therapist.  
Effective: Fall 2004  
Prerequisite: a grade of C or better in BIOL 141 BIOL 142 P T 384

**PHIL 103W** (GH)

**Introduction to Ethics** (3) Ethical theory about virtue, duty, autonomy, and life quality applied to moral problems, including character, violence, oppression, abortion, and suicide.  
Effective: Fall 1998  
Prerequisite: ENGL 015 or ENGL 030

**PHIL 108W** (GH)

**Introduction to Social and Political Philosophy** (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.  
Effective: Summer 1998  
Prerequisite: ENGL 015 or ENGL 030

**PHIL 125W** (GH)

**Introduction to Theories of Knowledge** (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.  
Effective: Summer 1998  
Prerequisite: ENGL 015 or ENGL 030

**PHIL 126W** (GH)

**Introduction to Metaphysics** (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.  
Effective: Summer 1998  
Prerequisite: ENGL 015 or ENGL 030

**PHIL 408W**

The Pennsylvania State University
Social and Political Philosophy (3) Historical and philosophical foundations of political organization, authority, and justice, and contemporary issues of rights, community, and culture.
Effective: Fall 1998
Prerequisite: 9 credits in philosophy including PHIL 108 or 6 credits at the 200 level

PHIL 418W
Ethics (3) Examines ethical theories, justice, rights, community, and human values revolving around such issues as preservation, conservation, pollution, sustainability, and population.
Effective: Summer 1998
Prerequisite: 9 credits of philosophy including PHIL 103 or 6 credits of philosophy at the 200 level

PHIL 425W
Epistemology (3) The nature of cognition and perception, the conditions of experience, and the justification and truth of belief.
Effective: Summer 1998
Prerequisite: 9 credits of philosophy including PHIL 125 or 6 credits of philosophy at the 200 level; in addition to ENGL 015 or ENGL 030

PHIL 426W
Metaphysics (3) Examines the nature of reality, the existence of freedom, and the nature of matter, mind, and values.
Effective: Summer 1998
Prerequisite: 9 credits in philosophy including PHIL 126 or 6 credits of philosophy at the 200 level

PHYS 421W
Research Methods in Physics (3) Methodology focusing on the theory of measurement and experiment design.
Effective: Spring 2007
Prerequisite: PHYS 237

PHYS 457W
Experimental Physics (3) Selected experiments in various fields in physics.
Effective: Spring 2007
Prerequisite: PHYS 212 PHYS 213 PHYS 214 and PHYS 237

PL ET 206W
Plastic Materials and Properties (3) Coverage of the most common commercial plastics including their additives, fillers, and fibers; includes common physical tests used to determine material characteristics; writing intensive.
Effective: Spring 2011
Prerequisite: PL ET 205

PL SC 017W (GS)
Introduction to Political Theory (3) Introduction to basic issues in political theory through analysis of selected major political thinkers.
Effective: Spring 2001
**PL SC 411W**
**Principles of International Cooperation** (3) An exploration of the forces that make conflict, or cooperation, more likely in international relations.
Effective: Summer 2006
Prerequisite: PL SC 014

**PL SC 418W**
**International Relations Theory** (3) A survey of traditional and contemporary conceptual frameworks and theoretical approaches for the analysis of international relations.
Effective: Spring 1999
Prerequisite: PL SC 014

**PL SC 430W**
**Selected Works in the History of Political Theory** (3) Detailed examination and analysis of a selected major work, thinker, or tradition in the history of political theory.
Effective: Spring 2008
Prerequisite: PL SC 017 or PL SC 007

**PL SC 435W**
**Foundations of American Political Theory** (3) Political theories of the revolutionary and constitutional periods presented through works of selected political thinkers and political issues.
Effective: Spring 2001
Prerequisite: PL SC 001 PL SC 017 or PL SC 007

**PL SC 445Y** (AAA S 445Y, LER 445Y) (US)
**Politics of Affirmative Action** (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008
Prerequisite: AAA S 100 level course and PL SC 001 or PL SC 007

**PL SC 470W**
**Legal Brief Writing** (3) Writing of legal briefs as practiced in American courts.
Effective: Spring 1998
Prerequisite: PL SC 001

**PL SC 480W**
**Congress and the Presidency** (3) Basic characteristics and processes of the national legislature and executive; roles and interaction of these institutions in the policy process.
Effective: Fall 2007
Prerequisite: PL SC 001

**PL SC 484W**
**The Foreign Policy of Soviet Successor States** (3) Relations between Russia and The Newly Independent States (NIS); Russia’s relations with selected foreign states and political Institutions; regional impact of the NIS in Baltic, Asian, and Central Asian areas.
Effective: Fall 2007  
Prerequisite: PL SC 003

**PSYCH 301W**  
**Basic Research Methods in Psychology** (4) Introduction to methods of psychological research, with special attention to hypothesis formation and testing, threats to validity, and data presentation.  
Effective: Spring 2007  
Prerequisite: PSYCH 100 ; PSYCH 200 or STAT 200

**PSYCH 302W**  
**Critical Thinking and Writing in Psychology** (4) This course aims to teach psychology majors to think critically and to write clearly using APA writing style.  
Effective: Spring 2007  
Prerequisite: Psychology major a grade of C or better in ENGL 202A

**PSYCH 406W**  
**Advanced Research Projects in Psychology** (4) Advanced methodology focusing on the logic and practice of research culminating in the completion of a student designed research project.  
Effective: Spring 2007  
Prerequisite: PSYCH 301W

**PUBPL 304W**  
**Public Policy Analysis** (3) The use of analytic models for describing and explaining the forces shaping policy and the consequence of policy decisions.  
Effective: Spring 2004

**R M 320W**  
**Risk Management and Insurance** (3) Goals and methods of risk management. Commercial insurance and alternative risk transfer (ART) methods in addition to the characteristics of insurance markets and intermediaries used by risk managers.  
Effective: Summer 2011  
Prerequisite: R M 301

**R M 330W**  
**Real Estate Risk Analysis** (3) Risk and value associated with real estate decision making, which includes purchasing, leasing renovation, financing, and investing.  
Effective: Summer 2011  
Prerequisite: R M 301

**RADSC 210W**  
**Radiographic Pathology** (3) Writing intensive study of theories of disease causation and the pathophysiology disorders compromising health systems with emphasis on radiographic presentation.  
Effective: Fall 2002  
Prerequisite: BIOL 129 BIOL 141

**RHS 400W**  
**Case Management and Communication Skills** (3) Principles and practices of
obtaining, recording, evaluating, and utilizing case data in rehabilitation planning; implementation of rehabilitation plans.
Effective: Spring 2009
Prerequisite: RHS 300

**RL ST 125W (GH)**
**Modern Christianity** (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the sixteenth century to the present.
Effective: Summer 1995

**RL ST 132W**
**Sects and Cults** (3) The origins, beliefs, and practices of new or dissenting religious groups and their relationship to the dominant religious culture.
Effective: Spring 1994

**RL ST 140Y (AM ST 140Y) (GH;US)**
**Religion in American Life and Thought** (3) The function, contributions, tensions, and perspectives of religion in American culture.
Effective: Summer 2005

**RL ST 407Y (HIST 409Y, J ST 409Y) (IL)**
**European Anti-Semitism from Antiquity to the Present** (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

**RL ST 440Y (US;IL)**
**The Orthodox Christian Tradition** (3) History, culture, and beliefs of the Eastern Orthodox religious tradition with special reference to Russia.
Effective: Summer 2011
Prerequisite: RL ST 004 RL ST 124 RL ST 125 RUS 100 or RUS 110

**RL ST 471Y (HIST 471Y) (IL)**
**Classical Islamic Civilization, 600-1258** (3) Pre-Islamic Arabia; Muhammad; Arab conquest; Islamic beliefs and institutions; literary, artistic, and scientific achievements; relations with Europe; breakdown of unity.
Effective: Spring 2006

**RPTM 300Y (IL)**
**Tourism and Leisure Behavior** (3) Examination of the impact of recreational sociocultural, governmental, economic, and physical environment on the leisure traveler within the tourism industry.
Effective: Summer 2005

**RPTM 433W**
**Program Evaluation and Research in Recreation Services** (3) Systematic, structured problem-solving process for decision making in recreation and parks. Research techniques/evaluation procedures; quantitative, qualitative methodologies; deductive, inductive reasoning.
Effective: Spring 2005
Prerequisite: RPTM 356 3 credits in statistics

**RUS 141Y (IL)**
Russian Literature in English Translation: 1800-1870 (3) Pushkin, Lermontov, Gogol, the critics, Turgenev, Dostoevsky, Tolstoy. Writing assignments will serve as a major way of exploring subject matter.
Effective: Spring 2006

RUS 142Y (IL)
Russian Literature in English Translation: 1870 to Present (3) Dostoevsky, Tolstoy, Chekhov, Gorky, symbolists, selected Soviet authors. Writing assignments will serve as a major way of exploring subject matter.
Effective: Spring 2006

S T S 427W (CED 427W, SOC 427W)
Society and Natural Resources (3) Analysis of the relationship between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite: R SOC 011 or SOC 001

SCM 450W
Strategic Design and Management of Supply Chains (3) Strategic design and management of supply chains.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: SCM 421

SO SC 480W
Quantitative Methods in the Social Sciences (4) Students will learn to conduct, analyze and write up quantitative social scientific research according to appropriate professional standards.
Effective: Spring 2008
Prerequisite: permission of program

SOC 001W (GS)
Introductory Sociology (3) The nature and characteristics of human societies and social life.
Effective: Fall 1998

SOC 400W
Senior Research Seminar (3) Major concepts and principles of sociology through reading, data analysis, and writing. Capstone course for senior Sociology majors.
Effective: Fall 2001
Prerequisite: SOC 470

SOC 427W (CED 427W, S T S 427W)
Society and Natural Resources (3) Analysis of the relationships between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite: R SOC 011 or SOC 001

SOILS 412W
Soil Ecology (3) Introduction to soil organisms; includes interactions between organisms, their processes, and metabolism with a major focus on microorganisms.
SPAN 131Y (GH;US;IL)  
**Ibero-American Civilization** (3) Spanish American and Brazilian life from the Conquest to the present; literature, art, the indigenous heritage, and contemporary problems.  
Effective: Summer 2005

SPAN 253W  
**Introduction to Hispanic Literature** (3) Introduction to generic distinctions, critical methods, and approaches to Hispanic literature.  
Effective: Spring 2008  
Prerequisite: SPAN 100 and SPAN 110

SPLED 395W  
**Observing in Exceptional Settings** (3) Observations of exceptional persons and techniques used by their teachers in a variety of settings, e.g., school, day care, vocational.  
Effective: Summer 1997  
Prerequisite: EDPSY 101. PA Act 34 clearance required. In addition non-Pennsylvania residents must provide evidence of an FBI background information check. (Forms: 228 Chambers)

SS ED 412W  
**Teaching Secondary Social Studies II** (3) Writing-intensive course focusing on study of the social studies teacher's role in planning instruction; strategies for teaching.  
Effective: Summer 2010  
Prerequisite: SS ED 411

SS ED 430W  
**Teaching Social Studies in the Elementary Grades** (3) Principles underlying use of social studies in the elementary school; practical demonstration of desirable methods.  
Effective: Spring 2007  
Prerequisite: LL ED 400 LL ED 401 LL ED 402 PSYCH 212 nine credits in history and the social sciences

STAT 470W  
**Problem Solving and Communication in Applied Statistics** (3) Provide problem solving and communication skills through development of writing ability, interaction with peers and the SCC, and oral presentations.  
Effective: Spring 2000  
Prerequisite: STAT 460 STAT 462 STAT 480

SUR 372W  
**Legal Aspects of Land Surveying** (3) Legal research; rules of evidence including classification and evaluation; unwritten rights; land description composition; easements.  
Effective: Spring 1994

The Pennsylvania State University
Prerequisite: SUR 272

**SWENG 452W**

**Embedded Real Time Systems** (3) The design and implementation of real time systems.
Effective: Summer 2008
Prerequisite: CMPSC 472 or CMPSC 473 or CMPEN 441

**THEA 401Y** (IL)

**Theatre History I: Ancient to 1700** (3) Survey of drama and theatre from primitive rites through the Renaissance.
Effective: Spring 2008
Prerequisite: THEA 100 or THEA 105

**THEA 402W**

**Theatre History II: From 1700 to Present** (3) Survey of European drama and theatre from the eighteenth century through the modern period.
Effective: Spring 2008 Ending: Fall 2011
Prerequisite: THEA 100 or THEA 105

**TURF 436W**

**Turfgrass Management Systems** (3) Case study and discussion considering integrated management of selected turfgrass sites; emphasis on problem analysis, principle application, and decision making.
Effective: Fall 1995 Ending: Fall 2011
Prerequisite: TURF 235 TURF 236 TURF 425

**TURF 436W**

**Case Studies in Turfgrass Management** (3) Case study and discussion considering integrated management of selected turfgrass sites; emphasis on problem analysis, principle application, and decision making.
Prerequisite: TURF 238 TURF 425 PPATH 412

**VB SC 402W** (ENT 402)

**Biology of Animal Parasites** (3) An introduction to animal parasitology. Emphasis placed on host/parasite interactions, parasites of zoonotic importance, control programs and taxonomy.
Effective: Spring 2010
Prerequisite: BIOL 110

**VB SC 423W**

**Pathology of Nutritional and Metabolic Diseases** (3) Overview of nutritional and metabolic diseases of animals integrating concepts from biochemical and physiologic aberrations to clinical applications.
Effective: Spring 2008
Prerequisite: B M B 211 or B M B 401 AN SC 301 or equivalent nutrition course

**VB SC 448W**

**Current Topics in Immunology** (3) Study of current approaches and questions driving research in immunology and infectious diseases.
Effective: Fall 2007
Prerequisite: MICRB 410 B M B 400

W F S 447W
Wildlife Management (3) Management of renewable wildlife resources by applying ecological concepts, habitat evaluation, and decision-making; writing and editing reports are emphasized.
Effective: Fall 2001
Prerequisite: W F S 209 or W F S 309

W F S 463W
Fishery Management (3) Management of sport and commercial fisheries, including biological, political, social, and economic factors; regulations and other management techniques.
Effective: Spring 2001
Prerequisite: W F S 209 W F S 300 W F S 301 W F S 310

W P 200W (FOR 200W)
Professional Careers in Forest Resources (3) Introduction to managing forests for products and services to meet human needs; developing career goals and an academic plan.
Effective: Spring 1996

W P 437W
Wood Industries Marketing Management (4) Examination of major international wood products market segments in terms of products, distribution, industry structure, and strategic management issues.
Effective: Summer 1997
Prerequisite: W P 200W W P 203

WF ED 207W
Assessment Techniques (3) Assessment, recording, and reporting of learning in an integrated competency based vocational education system.
Effective: Summer 1996
Prerequisite: WF ED 105

WILDL 208M
Terrestrial Wildlife Management (3) Ecological characteristics and manipulation of terrestrial habitats; control of wildlife populations.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: FORT 150 FORT 160 WILDL 101 WILDL 103 WILDL 106 WILDL 204

WILDL 208W
Terrestrial Wildlife Management (3) Ecological characteristics and manipulation of terrestrial habitats; control of wildlife populations.
Effective: Spring 2000
Prerequisite: FORT 150 FORT 160 WILDL 101 WILDL 103 WILDL 106 WILDL 204

WL ED 412W
Methods of Teaching World Languages in Grades 6-12 (3) Exploring the complexity of teaching World Languages and development of curricular designs
for teaching World Languages in grades 6-12.
Effective: Spring 2010
Prerequisite: WL ED 411 WL ED 495B

WMNST 117M (HIST 117M) (GH;US;IL)

WMNST 426Y (GEOG 426Y) (US;IL)
Gender and Geography (3) Description and explanation of the links between gender relations and spatial structures; gender and work, social services, and neighborhood activism. Effective: Summer 2011
Prerequisite: GEOG 020 GEOG 126 GEOG 120 WMNST 001

WMNST 492W
Current Feminist Issues (3) Critical analysis of major contemporary feminist research and writing in the arts, humanities, social and natural sciences. Effective: Spring 2002
Prerequisite: WMNST 301 WMNST 302
First-Year Seminar

For some courses, a more detailed description may be available, accessible by clicking on the course number. All course descriptions are updated periodically.

**A E 124S**
Architectural Engineering Orientation (1) Introduction to architectural engineering; lectures and discussions with special reference to the relation of architectural engineering to the building industry. Effective: Fall 1999

**A ED 101S**
Introduction to Art Education (3) This course introduces students to issues, concepts, and ideas in Art Education. Effective: Summer 2002

**A&A 102S**
Art and Design Studio I (3) Provides students with an interdisciplinary introduction to studio work in the arts and design. Effective: Spring 2006
Prerequisite: admission into the College of Arts and Architecture.

**AAA S 083S** (GH;US;IL)
First-Year Seminar in African and African American Studies (3) Cultural, philosophical, economic, political, and global dynamics of the Black experience in the United States and the Diaspora. Effective: Summer 2005

**ADTED 100S**
Adult Learners in the University (1) Opportunity to develop effective learning strategies while exploring critical issues related to adults entering or returning to higher education. Effective: Spring 2001

**AERSP 001S**
Aerospace Explorer--First-Year Seminar (1) First-Year Seminar explores aerodynamics, structural mechanics, flight mechanics, rotorcraft systems, high performance computers, air/space propulsion, and space systems. Effective: Fall 1999

**AERSP 097S**
First Year Seminar - Hands on Helicopter (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011Future: Fall 2011

**AERSP 097S**
First Years Seminar - Hands on Helicopter (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of
Be a Master Student! (2) Students explore agricultural issues and research methodologies through literature review, library searches, field studies, and critical thinking.
Effective: Summer 1999
Prerequisite: first- or second-semester standing

AM ST 083S (GH)
First-Year Seminar in American Studies (3) Critical approaches to the interdisciplinary study of American culture.
Effective: Summer 1999

AN SC 110S
Contemporary Issues in Animal Biotechnology and Society (1) An introductory survey of animal biotechnology in society, the role for biotechnology and how it will benefit society.
Effective: Spring 2003

ANTH 083S (GS)
First-Year Seminar in Anthropology (3) This seminar introduces students to anthropology as a scientific discipline with ties to other social and natural sciences.
Effective: Summer 1999

APLNG 083S (GS;US;IL)
First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Summer 2005

ARCH 131S
Basic Design Studio I (4) An introduction to the basic concepts, methods, and skills of architectural design in a project-based, active learning, studio environment.
Effective: Summer 2008
Prerequisite: or concurrent ARCH 121

ART 110S
Ideas as Visual Images (3) Introduction to the ideational relationships among subject, form, and content in visual images.
Effective: Fall 2002
Prerequisite: portfolio review

ART H 001S (GA)
First-Year Seminar (3) An introduction to the field of art history, through an examination of a selected issue in a seminar setting.
Effective: Fall 2000

ASIA 083S
Asian Studies First Year Seminar (3) The meaning and advantages of a Liberal Arts education in context of a specific discipline. Effective: Spring 2010

ASTRO 020S
First-Year Astronomy Seminar (2) Introduction to the study of modern astronomy through discussions, activities, and writing. Effective: Summer 1999

AYFCE 211S (GS;US;IL)
Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Spring 2011

B A 100S (GS)
Introduction to Business (3) A comprehensive view of the contemporary environment of business. Effective: Fall 2009

B E 001S
Growing Your Future--First-Year Seminar (1) Introduce students to University life, the agricultural/biological/engineering program and profession; prepare them to succeed in academic life at Penn State. Effective: Fall 2008
Prerequisite: first-year status

B M B 001S (GN)
Understanding the Bases of Human Disease (3) A broad survey of the molecular and cellular factors that provide an explanation for an understanding of human disease. Effective: Spring 2001

BB H 019S
Health and Disease (1) Essentials of communicable and chronic disease control. Effective: Spring 2005

BB H 148S
Coping with College: A First Year Transition Seminar (2) Exploration of effective learning strategies, university resources, academic requirements and planning, career development issues in discussion-centered environment. Effective: Summer 1999

BIOE 100S
Bioengineering Seminar (1) First-year seminar to introduce the role of engineering in biomedical research and in instrument development for the medical device industry. Effective: Fall 2001

BIOL 110S (GN)
Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology. This
course also fulfills the First-Year Seminar requirements.
Effective: Summer 1999

**C E 100S**
Topics and Contemporary Issues in Civil and Environmental Engineering: First-Year Seminar (1) First-Year Seminar exploring a specific topic or contemporary issue in civil and environmental engineering.
Effective: Fall 1999

**CAMS 083S** (GH;IL)
First-Year Seminar in Classics and Ancient Mediterranean Studies (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.
Effective: Summer 2005

**CAP 100S**
Orientation to the Undergraduate Experience (1) To facilitate transition of new students through active engagement and introduction to university and campus resources.
Effective: Fall 2004

**CAP 110S**
First-Year Seminar for Capital College, The School of Behavioral Sciences and Education (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

**CAP 120S**
First-Year Seminar for Business (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

**CAP 140S**
First-Year Seminar for Humanities (1) Introduction to the discipline including: ethics, research methods, communications, career opportunities/issues and applied technology.
Effective: Summer 1999
Prerequisite: or concurrent: CAP 100S

**CAP 150S**
First-Year Seminar for Capital College, The School of Public Affairs (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

**CAP 160S**
First-Year Seminar for Capital College, The School of Science, Engineering and Technology (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the
discipline.
Effective: Spring 2004

**CAS 083S (GS)**
**First-Year Seminar in Speech Communication** (3) Introduction to major theoretical, critical, research and pedagogical issues in human communication.
Effective: Fall 2003

**CAS 084S (GH)**
**First-Year Seminar in Communication Arts and Sciences** (3) Introduction to significant issues surrounding effective human communication; humanities emphasis.
Effective: Summer 2002

**CAS 100S (GWS)**
**Effective Speech** (3) Principles of communication, implemented through presentation of speeches, with some attention to group discussion and message evaluation.
Effective: Fall 2003

**CH E 100S**
**Exploring Chemical Engineering First-Year Seminar** (1) The exploration of Chemical Engineering and available career opportunities.
Effective: Summer 2007

**CMLIT 083S (GH;IL)**
**First-Year Seminar in Comparative Literature** (3) International topics in literature and culture; each seminar will have a specific topic as announced (see the Comparative Literature Web site).
Effective: Summer 2005

**CMPEN 111S**
**Computers and Computer Hardware** (1) A brief orientation to University life and resources and an introduction to computers and computer hardware.
Effective: Spring 2009

**CMPSC 111S**
**Logic for Computer Science** (1) An introduction to logic and its application to problem solving and computer science.
Effective: Spring 2009

**COMM 100S (GS)**
Effective: Fall 2005

**COMM 150S (GA)**
**The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Fall 2005

The Pennsylvania State University
**CRIM 083S** (CRIMJ 083S)
First-Year Seminar in Criminal Justice (3) Critical approaches to issues in criminal justice and criminology.
Effective: Spring 2008

**CRIMJ 083S** (CRIM 083S) (GS)
First-Year Seminar in Criminal Justice (3) Critical approaches to issues in criminal justice and criminology.
Effective: Spring 2008

**E E 007S**
Adventures in Electrical Engineering (1) Exploration of electrical engineering through several hands-on activities that cover a broad spectrum of applications and fundamental concepts.
Effective: Fall 1999

**E E 008S**
Introduction to Digital Music (1) First-year seminar that discusses digital music from an electrical engineering perspective; topics include sampling, digital filtering, compression, and music synthesis.
Effective: Fall 2001

**E E 009S**
First-Year Seminar in Electrical Engineering (1) First-year seminar covering a variety of Electrical Engineering topics that vary from year to year.
Effective: Spring 2008

**E SC 120S**
Design for Failure--First-Year Seminar (1) This seminar, through the utilization of commonly used examples, discusses the engineering principles which are exploited by such designs.
Effective: Summer 2000

**E SC 121S**
Science/Engineering Fiction and the Engineering Sciences--First-Year Seminar (1) Examines the technology predictions of authors in view of the engineering sciences on which the underlying devices of their stories are based.
Effective: Summer 2000

**E SC 122S**
Weird, Wild, and Wonderful Materials and Devices--First-Year Seminar (1) First-year seminar that surveys the use of novel materials and material systems to create practical devices.
Effective: Summer 2000

**E SC 123S**
Catastrophic Failures--First-Year Seminar (1) First-year seminar that explores design deficiencies through the study of case histories of a number of famous failures.
Effective: Summer 2000

**E SC 124S**
Green Engineering--First-Year Seminar (1) This First-year seminar introduces students to basic concepts in green engineering practices and processes. Effective: Fall 2001

ECON 083S (GS)
First-Year Seminar in Economics (3) Experiments in microeconomic principles. Effective: Summer 1999

EDSGN 011S
Explorations in Design First-Year Seminar (1) Students explore topical issues in engineering design. Effective: Spring 2007

EDSGN 012S
Solar Racers First-Year Seminar (1) Students explore solar energy engineering by designing, building, testing, and racing a model car powered by a photovoltaic panel. Effective: Spring 2007

EDSGN 013S
Ethics of Star Trek First-Year Seminar (1) The Star Trek television series is used as an introduction to ethics, with application to student life and engineering practice. Effective: Spring 2007

EDSGN 015S
Transformations by Design: First-Year Seminar (1) Examination of the social and environmental transformations that follow engineering design, and of the transformations of students by higher education. Effective: Spring 2007

EDSGN 100S
Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written. Effective: Fall 2007

EDTHP 115S (GS;US)
Competing Rights: Issues in American Education (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society. Effective: Spring 2006

EDUC 100S
First-Year Seminar in Education (3) Learning about a scholarly community through the development of knowledge and skills needed for successful participation in higher education. Effective: Fall 2007

EET 002S
Introduction to Engineering Technology (1) Introduction to engineering technology and the use of computer methods for analyzing and solving
engineering technology problems; microcomputer fundamentals, word processing, spreadsheet, and database software packages.

Effective: Fall 2007

**EM SC 100S** (GWS)
**Earth and Mineral Sciences First-Year Seminar** (3) Writing, speaking, and critical thinking skills applied to topics of general interest in Environmental and Materials Science.
Effective: Spring 2001

**ENGL 001S** (GH)
**Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Fall 2000

**ENGL 003S** (GH)
**The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Fall 2002

**ENGL 015S** (GWS)
**Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 1999
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

**ENGL 030S** (GWS)
**Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

**ENGL 083S** (GH)
**First-Year Seminar in English** (3) Critical approaches to the dimensions and directions in English/American literature and rhetoric.
Effective: Summer 1999

**ENGL 135S** (GH;US)
**Alternative Voices in American Literature** (3) United States writers from diverse backgrounds offering varying responses to issues such as race, class, gender, and ethnicity.
Effective: Summer 2005

**ENGL 139S** (GH;US)
**Black American Literature** (3) Fiction, poetry, and drama, including such writers as Baldwin, Douglass, Ellison, Morrison, and Wright.
Effective: Fall 2006

**ENGL 184S** (GH;IL)
**The Short Story** (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries.
Effective: Spring 2006

**ENGL 194S (GH;US;IL)**
**Women Writers** (3) Short stories, novels, poetry, drama, and essays by English, American, and other English-speaking women writers.
Effective: Summer 2005

**ENGR 097S**
**First Year Seminars-Engineering** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**ENGR 100S**
**Introduction to Engineering** (1) A seminar providing information about different engineering majors, coping with college life, and exploring educational and career goals.
Effective: Fall 1999

**FR 083S (GH;IL)**
**First-Year Seminar in French** (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures.
Effective: Summer 2005

**GD 001S**
**First-Year Seminar in Graphic Design** (1) An orientation to the historical, social, and professional context of design and an exposure to a variety of ethical, philosophical, and topical ideas from the world of design.
Effective: Summer 2007
Prerequisite: admission to the AADES program

**GEOG 010S (GN)**
**Physical Geography: An Introduction** (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

**GER 083S (GH;US;IL)**
**First-Year Seminar in German** (3) Germany's cultural past and present.
Effective: Summer 2005

**H&HD 297S**
**JumpStart** (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**HD_FS 129S (GS)**
**Introduction to Human Development and Family Studies** (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
HIST 083S (GH)
First-Year Seminar in History (3) Critical approaches to the dimensions and directions in History.
Effective: Summer 1999

HIST 151S (S T S 151S) (GS;US)
Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

I E 100S
Discover Industrial Engineering: First-Year Seminar (1) Informational First-year on Industrial Engineering as a career choice and profession; lab exercises; guest speakers; real world problems.
Effective: Fall 1999

I E 101S
Build Your Own Robot--First-Year Seminar (1) The objective of this first-year seminar course is to provide students hands-on experience with robotics and automation devices.
Effective: Summer 2000

I E 102S
Human-Centered Engineering--First-Year Seminar (1) This First-year seminar considers what makes products and processes usable by people, through both design principles and student projects.
Effective: Summer 2000

INTST 100S (GS;IL)
Introduction to International Studies (3) An introductory multidisciplinary course designed to familiarize students with critical international issues.
Effective: Summer 2005

IST 110S (GS)
Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 110S (GS)
Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.

IST 111S
Seminar in Information Sciences and Technology (1) Introduction to academic requirements, career planning, and information literacy for students majoring in the College of Information Sciences and Technology.
Effective: Spring 2001

**IT 083S (GH;IL)**
**First-Year Seminar in Italian Literature, Film, and Culture** (3) Introduction to the study of Italian literature, film, and culture.
Effective: Summer 2005

**JST 083S (GH;IL)**
**First-Year Seminar in Jewish Studies** (3) Critical approaches to the history, sociology, and literature of Jewish Studies.
Effective: Summer 2005

**KINES 017S (GHA)**
**Ballroom Dance** (1.5) A course designed to provide students with basic dance skills and an understanding and appreciation of ballroom dance.
Effective: Fall 2007

**KINES 061S (GHA)**
**Fitness Theory and Practice** (3) Students will learn about the science of fitness/wellness; evaluate their present fitness levels and create a personal fitness plan.
Effective: Summer 2005

**LST 083S**
**The Twenty-First Century Researcher** (1) Students learn to use technology and Libraries resources to access and cite relevant information into academic research projects.
Effective: Fall 2009

**LARCH 121S**
**Landscape Architecture Orientation Seminar** (1) Introductory seminar involving readings on significant issues in landscape architecture. LARCH majors only.
Effective: Spring 2007

**LER 083S (GS)**
**First-Year Seminar in Labor Studies and Employment Relations** (3) Critical approaches to the dimensions and direction in Labor and Employment Relations.
Effective: Spring 2008

**LING 083S (GS;US;IL)**
**1st Year Seminar in Linguistics** (3) Non-technical exploration of aspects of human language.
Effective: Summer 2005

**M E 097S**
**First-Year Seminar** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

**M E 097S**
**First Year Seminar** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
**M E 101S**
**Toy Fundamentals: First-Year Seminar** (1) First-Year Seminar focusing on toy design and manufacture.
Effective: Fall 1999

**M E 102S**
**Smart Lego Robots & Design** (1) First-Year Seminar focusing on the development of technology exploration kits for middle-school-aged children.
Effective: Fall 2004

**M E 104S**
**Environmentally Conscious Engineering: First-Year Seminar** (1) A First-Year Seminar focusing on environmental issues as they pertain to the engineering profession.
Effective: Fall 1999

**M E 105S**
**Product Dissection A: Bicycles--First-Year Seminar** (1) A First-Year Seminar in which students analyze and disassemble a multi-speed bicycle.
Effective: Fall 1999

**M E 106S**
**Product Dissection B: Household Appliances--First-Year Seminar** (1) A First-Year Seminar in which students analyze and disassemble household appliances.
Effective: Fall 1999

**M E 107S**
**Product Dissection C: The Enigmatic Engine--First-Year Seminar** (1) A First-Year Seminar in which students analyze and disassemble a single-cylinder lawnmower engine.
Effective: Fall 1999

**M E 190S**
**Special Topics in Mechanical Engineering: First-Year Seminar** (1) A First-Year Seminar focusing on issues related to Mechanical Engineering.
Effective: Fall 1999

**MGMT 001S**
**Business Leadership** (3) The aim of this course is to introduce fundamental concepts of business management and leadership.
Effective: Spring 2000

**MUSIC 005S** (GA)
**An Introduction to Western Music** (3) A general survey of art music in western society, highlighting important composers and stylistic developments.
Effective: Summer 2006

**MUSIC 040S**
**First-Year Seminar in Music Education** (1) Introduction to the University, the
School of Music, the music education degree program, and the music teaching profession.
Effective: Fall 2006

**MUSIC 119S**
**First-Year Music Seminar** (2) Individual applied instruction and group activities; orientation, area recitals, and studio classes as required by instructor.
Effective: Summer 1999
Prerequisite: permission of instructor

**MUSIC 129S**
**First-Year Performance Seminar** (3) Individual applied instruction and group activities; orientation, area recitals, and studio classes as required by instructor.
Effective: Summer 1999
Prerequisite: permission of instructor

**MUSIC 173S**
**First-Year Composition Seminar** (2) Individual composition instruction for freshman composition majors (Fall semester) and group activities.
Effective: Summer 1999
Prerequisite: admission to the BM degree in Composition

**NUC E 001S**
**Atomic Adventures: First-Year Seminar** (1) First-year seminar exploring the interesting and exciting world of nuclear science and its applications.
Effective: Fall 1999

**NURS 111S (US;IL)**
**Nursing Roles** (4) Introduction to nursing roles/process with emphasis on societal norms and multicultural influences on health care needs.
Effective: Spring 2011
Prerequisite: admission to 2NURS major

**O T 100S**
**Structural Foundations of Occupational Therapy** (1) An overview of the structural foundations of the occupational therapy profession.
Effective: Spring 2011

**P T 101S**
**Introduction to Computer Skills for the PTA** (1) Introduction to basic computer skills for the physical therapist assistant.
Effective: Fall 2011 Future: Fall 2011

**PHIL 010S (GH)**
**Critical Thinking** (3) Discussion of the validity, soundness, and fallacies of everyday language use and reasoning; informal logic; and manipulative arguments and propaganda.
Effective: Spring 2005

**PHIL 083S (GH)**
**First-Year Seminar in Philosophy** (3) Critical introduction to philosophical issues in ethics, social and political theory, religion, art, metaphysics, and epistemology.
PL SC 001S (GS)
Introduction to American National Government (3) Introduction to development and nature of American political culture, constitutional/structural arrangements, electoral/policy processes; sources of conflict and consensus.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

PL SC 083S (GS)
First-Year Seminar in Political Science (3) Exploration of current topics of interest in political science, international relations, and/or political theory.
Effective: Summer 1999

PSU 008S
First-Year Seminar University College (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life.
Effective: Spring 2000

PSYCH 083S (GS)
First-Year Seminar in Psychology (3) Scientific, societal, and individual implications of contemporary psychological theory.
Effective: Spring 2007

PSYCH 100S (GS)
Introductory Psychology (3) Introduction to general psychology; principles of human behavior and their applications.
Effective: Spring 2007

RL ST 083S (GH)
First-Year Seminar in Religious Studies (3) Critical approaches to the dimensions and directions in Religious Studies.
Effective: Summer 1999

RPTM 297S
First Year Seminar - Golf Management (2) This course provides an introduction to the University, RPTM major/PGM option, and the related professional organizations.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

RPTM 297S
First Year Seminar (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 397S
First Year Seminar (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

RPTM 497S
Economics of Sport Tourism (3) Students in this course will examine the
principles of tourism, the growth of the industry, and the importance of tourism to local, state and national economics. Students will explore the impact of television and the internet on the Tourism industry, and take an in-depth look at the consumers who travel for sport and recreational opportunities. Effective: Summer 2011 Ending: Summer 2011

**RUS 083S** (GH;US;IL)
**First-Year Seminar in Russian** (3) Russia's cultural past and present. Effective: Summer 2005

**S T S 151S** (HIST 151S) (GS;US)
**Technology and Society in American History** (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life. Effective: Spring 2006

**S T S 200S** (GS)
**Critical Issues in Science, Technology, and Society** (3) An overview of interactions between science, technology, and society from social sciences and humanities perspectives. Effective: Summer 1999

**SOC 001S** (GS)
**Introductory Sociology** (3) The nature and characteristics of human societies and social life. Effective: Spring 2006

**SOC 083S** (GS)
**First-Year Seminar in Sociology** (3) Critical approaches to issues in the structure of society. Effective: Summer 1999

**SPAN 083S** (GH;IL)
**First-Year Seminar in Hispanic Literatures and Cultures** (3) Introduction to the study of Hispanic literatures and cultures. Effective: Summer 2005

**SRA 001S**
**First-Year Seminar in Security and Risk Analysis** (1) Provides introduction to the field of Security and Risk Analysis and assessments of key skills. Effective: Summer 2006

**THEA 001S**
**First-Year Seminar: Theatre Production Practices** (1) An orientation to the School of Theatre production practices, resources, faculty, and practicum. Effective: Spring 2006
Prerequisite: admission into Theatre Program

**THEA 208S** (GA;US;IL)
**Workshop: Theatre in Diverse Cultures** (3) A performance-oriented class, which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005

**VB SC 050S**

**Mechanisms of Disease** (3) Introduction to the study of disease pathogenesis and careers in Animal Health Research and Service.

Effective: Fall 2007

**WMNST 001S** (GS;US;IL)

**Introduction to Women's Studies** (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women's experiences and women's status in contemporary American society.

Effective: Fall 2009

**WMNST 005S** (US)

**Introduction to Women in Science, Technology, and Engineering** (3) The role of women and gender in science, technology, and engineering.

Effective: Summer 2006

**WMNST 083S** (GH;US;IL)

**First-Year Seminar in Women's Studies** (3) Critical approaches to the dimensions and directions in Women's Studies.

Effective: Summer 2005
University Course Descriptions

COURSE-NUMBERING SYSTEM

These course descriptions are arranged alphabetically. If any course cannot be located readily, refer to the index. Multiple offerings may be accommodated by the use of suffixes A, B, etc. Courses are numbered as follows:

UNDERGRADUATE COURSES (1 to 399): General courses accepted in fulfillment of requirements for the bachelor's degrees.

ADVANCED UNDERGRADUATE COURSES (400 to 499): Courses open to graduate students and to juniors and seniors and, with the special written permission of the head of the department or the chair of the program sponsoring the course, to qualified students in earlier semesters.

GRADUATE COURSES (500 to 699; 800 to 899): Courses restricted to students registered in the Graduate School, seniors with an average of at least 3.50, and other students who have been granted permission to enroll by the dean of the Graduate School. These courses are described in the Penn State Graduate Degree Programs Bulletin.

MEDICAL COURSES (700-799): Courses restricted to students registered in the College of Medicine.

LAW COURSES (900-999): Courses restricted to students registered in The Dickinson School of Law.

COMMON COURSE NUMBERS

The following course numbers for which students may register have been set up for common use by major programs, with University Senate approval, to encourage innovation and provide flexibility in designing programs, but in no case may a course be scheduled for 0 credits. Multiple offerings may be accommodated by the use of suffixes A, B, etc.

097, 197, 297, 397, 497; 098, 198, 298, 398, 498. SPECIAL TOPICS (1-9) (Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.) Several different topics may be taught in one year or semester. A specific title may be used in each instance and will be entered on the student's transcript. Multiple offerings may be accommodated by the use of suffixes A, B, etc.

099, 199, 299, 399, 499. (GI) FOREIGN STUDIES (1-12) (Courses offered in foreign countries by individual or group instruction.) A specific title may be used in each instance and will be entered on the student's transcript. Multiple offerings may be accommodated by the use of suffixes A, B, etc.

187 FIRST-YEAR SEMINAR Listed under some liberal art-related academic headings, this course has prerequisites of first-semester standing and enrollment in the College of the Liberal Arts. Multiple offerings may be accommodated by the use of suffixes A, B, etc.

294, 494. RESEARCH PROJECT COURSES (1-12) (Supervised student activities on research projects identified on an individual or small-group basis.) A specific title may be used in each instance and will be entered on the student's transcript. Multiple offerings may be accommodated by the use of suffixes A, B, etc.

295, 395, 495. INTERNSHIP (1-18) (Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.) A specific title may be used in each instance and will be entered on the student's transcript. Multiple offerings may be accommodated by the use of suffixes A, B, etc. Prerequisite: prior approval of proposed assignment by instructor.

296, 496. INDEPENDENT STUDIES (1-18) (Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.) A specific title may be used in each instance and will be entered on the student's transcript. Multiple offerings may be accommodated by the use of suffixes A, B, etc. Students may not register for these courses without prior written approval of a faculty member in the department in which the courses are listed.

GENERAL EDUCATION COURSE DESIGNATIONS

Courses that appear in this bulletin with the following designations have been approved for General Education. See http://bulletins.psu.edu/bulletins/bluebook/general_education.cfm for further information.

- Skills Courses
  - Writing/Speaking — GWS
  - Quantification — GQ

- Knowledge Domains Courses
  - Health and Physical Activity — GHA (formerly Health Sciences--GHS and Physical Education--GPE)
  - Natural Sciences — GN
  - Arts — GA
  - Humanities--GH
  - Social and Behavioral Sciences — GS

DESIGNATIONS FOR ADDITIONAL REQUIREMENTS

In addition to the General Education degree requirements, every baccalaureate degree student will also complete the United State Cultures (US) and International Cultures (IL), Writing Across the Curriculum (M, W, Y, and X), and First-Year Seminar (S, T, X, or PSU designation) requirements.
Courses that appear in this bulletin with an H, M, or T suffix following the course number are identified as honors courses. University Scholars Program students may participate in honors courses. In addition, any University Senate approved course may be offered with the honors suffix identification with the approval of the University Scholars Program. The honors identification will be entered on the student's transcript.

CREDITS AND HOURS

Credits are awarded on the semester-hour basis. According to Senate Policy 42-23, a total of at least forty hours of work planned and arranged by the University faculty is required for the average student to gain 1 credit. While the distribution of time varies from course to course, generally one-third of the time is devoted to formal instruction, such as lecture, recitation, laboratory, field trips, etc., and two-thirds of the time to outside preparation.

Credits, classroom work, and practicum work

The number of credits for each course is indicated in parentheses and can be earned with classroom, practicum, or laboratory work as designated in the Schedule of Courses, accessible through the Registrar's home page at www.psu.edu/registrar.

A typical period is fifty minutes.

A department may schedule an entire section in an undergraduate course for fewer credits than the maximum authorized. In 400-level courses, a department may schedule an individual student for fewer credits than the maximum authorized. In no case, however, may the course be scheduled for 0 credit, or may the total credits scheduled for any student exceed the maximum number authorized for the course.

Courses that may be repeated and variable credit courses

If a course may be repeated, the words “per semester” follow the number of credits—for example (3 credits per semester). These courses may be repeated indefinitely unless the credits are followed by the maximum number of credits allowed, such as (3 per semester, maximum of 12).

Courses may have variable credits, such as (1-3), (2-6), or (3-10). Here, the larger number signifies the total credits that can be accumulated for the course over an indefinite number of semesters, unless otherwise specified. For example, a course listed with (1-6) could be taken six semesters for 1 credit each semester, or two semesters for 3 credits each semester, or once for 6 credits, etc.

In some courses with variable credits, students may be permitted to accumulate more than the larger number shown. Such courses will be listed as, for example, (1-3 per semester, maximum of 12).

Any special departmental limitations are indicated by footnotes.

PREREQUISITE AND CONCURRENT COURSES

Prerequisites are approximations of the necessary prior specific or general academic knowledge, background, or semester standing required in order to succeed academically in a specific course. Concurrent courses are to be taken in the same semester. The course instructor has the right to limit the students in the course to those who have the stated prerequisites. If this limitation is exercised, it must occur before the end of the course add period.
Accounting (ACCTG)

ACCTG 151 **Introductory Financial Accounting I** (3) Basic concepts, principles, and practices for the recording, summarizing, and interpreting of accounting data.
Effective: Summer 1995

ACCTG 152 **Introductory Financial Accounting II** (3) Accounting for partnerships, corporations, cash flows, certain liabilities and assets, and the analysis of financial statements.
Effective: Summer 1995
Prerequisite: ACCTG 151

ACCTG 150 **Cost Accounting** (3) Use of standard cost accounting procedures to present cost and budget statements as a means of providing managerial control. Students may not receive credit for both ACCTG 150 and ACCTG 404.
Effective: Spring 2008
Prerequisite: ACCTG 151, ACCTG 152

ACCTG 186 **Federal Tax Accounting** (3) Tax planning and compliance with federal income tax rules and regulations, especially those affecting individuals.
Effective: Spring 2008
Prerequisite: ACCTG 151, ACCTG 152

ACCTG 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

ACCTG 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ACCTG 201 **Introductory Financial Accounting** (3) Fundamentals of the collection, recording summarization, and interpretation of accounting data.
Effective: Summer 2004

ACCTG 202 **Introductory Managerial Accounting** (3) Actual and standard cost system, managerial use of cost, data, budgeting and performance evaluation.
Effective: Summer 2004
Prerequisite: ACCTG 201

ACCTG 211 **Financial and Managerial Accounting for Decision Making** (4) Introduction to the role of accounting numbers in the process of managing a business and in investor decision making.
Effective: Spring 2008
Prerequisite: MATH 021 or 1.5 units of high school algebra

ACCTG 211H **Financial and Managerial Accounting for Decision Making** (4) Introduction to the role of accounting numbers in the process of managing a business and in investor decision making.
Effective: Spring 2008
Prerequisite: MATH 021 or 1.5 units of high school algebra

ACCTG 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2008

ACCTG 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

ACCTG 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ACCTG 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ACCTG 305 **Financial Statements and Management Decisions** (4) Impact of management's financing, investing, and operating decisions on GAAP-based financial statements. Students who have passed ACNTG 310 or 311 may not take this course for credit.
Effective: Spring 2008
Prerequisite: ACCTG 211, FIN 301

ACCTG 310 **Federal Taxation I** (3) Study of income determination concepts for individuals and corporations, impact of

The Pennsylvania State University
taxation on decisions, elementary research techniques, and ethical standards.
Effective: Spring 2008
Prerequisite: ACCTG 211 or FIN 301

ACCTG 311 Accounting Systems and Control (3) Introduction to accounting procedures to gather, to aggregate, and to report accounting data to managers and to external readers.
Effective: Spring 1995
Prerequisite: ACCTG 211

ACCTG 312 Accounting Technology Lab (3) Hands-on course to teach accounting software, applications of spreadsheets and databases in accounting, and surveying of underlying database theory.
Effective: Spring 2008
Prerequisite: ACCTG 305 or ACCTG 371

ACCTG 340 Cost Accounting (3) Accounting for manufacturing concerns; actual and standard cost systems, and managerial uses of cost data.
Effective: Spring 2008
Prerequisite: ACCTG 211 or ACCTG 311

ACCTG 371 Intermediate Accounting I (4) Financial accounting methods, theory and concepts; analysis of problems in applying concepts to financial statements and asset accounts.
Effective: Spring 2008
Prerequisite: ACCTG 211

ACCTG 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

ACCTG 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

ACCTG 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ACCTG 403 Auditing (3) Financial compliance, internal, and operational audits; standards and procedures; sampling; EDP auditing; professional issues; application of concepts through written responses.
Effective: Spring 2008
Prerequisite: ACCTG 371 or ACCTG 471

ACCTG 403W Auditing (3) Financial, compliance, internal, and operational audits; standards and procedures; sampling; EDP auditing; professional issues; application of concepts through written responses.
Effective: Spring 2008
Prerequisite: ACCTG 371 or ACCTG 471

ACCTG 404 Managerial Accounting: Economic Perspective (3) Accounting techniques as planning, control, and motivating devices in business and other organizations; accounting data for decision making and performance evaluation.
Effective: Spring 2011
Prerequisite: ACCTG 211, SCM 200 or STAT 200, ECON 102

ACCTG 405 Principles of Taxation I (3) Elements of tax policy and tax-planning concepts for personal and business decision making; with emphasis on taxation of individuals.
Effective: Spring 2008
Prerequisite: ACCTG 211, B A 301 or FIN 301

ACCTG 406 Principles of Taxation II (3) Impact of federal tax structure on business decisions, research methodology, tax planning; ethical considerations of tax practice.
Effective: Spring 2008
Prerequisite: ACCTG 405

ACCTG 410 Federal Taxation II (3) An examination of the rules and forms used to compute the federal tax liability of corporations and partners.
Effective: Spring 2008
Prerequisite: ACCTG 310

ACCTG 411 Accounting Practicum: VITA (3) Introduces students to practical aspects of tax preparation through the IRS’ VITA program and completion of a tax research project.
Effective: Spring 2008
Prerequisite: ACCTG 310

ACCTG 422 Accounting Systems (3) Understanding flow and documentation of accounting information and internal controls in the context of accounting cycles.
Effective: Spring 2008
Prerequisite: ACCTG 312

ACCTG 426 Financial Statement Analysis (3) The exploration of conventional and advanced methods of analyzing financial statements, including the assessment of earnings quality.
Effective: Spring 2008
ACCTG 431 Advanced Auditing (3) Examination of legal liability, EDP, statistical sampling, SEC reporting, internal control, and financial reporting in specialized industries.
Effective: Spring 2008
Prerequisite: ACCTG 403 or ACCTG 403W

ACCTG 432 Accounting Information Systems (3) Systems analysis tools and techniques; internal control concepts; development of computer control procedures.
Effective: Spring 2008
Prerequisite: ACCTG 371 or ACCTG 471, MIS 204

ACCTG 440 Advanced Management Accounting (3) Management accounting topics such as decision models, quantitative techniques, variance analysis, and their use in accounting.
Effective: Spring 2008
Prerequisite: ACCTG 340

ACCTG 450 Advanced Accounting (3) Accounting theory and practice for business combinations, branches, international operations, partnerships, consolidated financial statements, corporate liquidations, nonprofit organizations, estates, and trusts.
Effective: Spring 2008
Prerequisite: ACCTG 472

ACCTG 461 (IL) International Accounting (3) Study of international accounting issues with emphasis on need, use, and interpretation of financial accounting required in global business environment.
Effective: Spring 2008
Prerequisite: ACCTG 211

ACCTG 462 Governmental and Not-for-Profit Accounting (3) Provides an understanding of governmental and not-for-profit accounting theory, procedures, and financial statements.
Effective: Spring 2010
Prerequisite: ACCTG 311 or ACCTG 471

Effective: Spring 2008
Prerequisite: ACCTG 471

ACCTG 471 Intermediate Financial Accounting I (3) Theory and practice issues in income concepts and value measurement; GAAP; revenues, costs, assets, liabilities, and equities.
Effective: Spring 2008
Prerequisite: ACCTG 211 or ACCTG 311

ACCTG 472 Intermediate Financial Accounting II (3) Off-balance-sheet financing; special issues in cost capitalization, liabilities, and equities; matching; funds flow statements; statement analysis; inflation accounting.
Effective: Spring 2008
Prerequisite: ACCTG 371 or ACCTG 471

Effective: Spring 2010
Prerequisite: ACCTG 472

Effective: Spring 2008
Prerequisite: or concurrent: ACCTG 472

ACCTG 483 Forensic Accounting (3) Study of investigative accounting, consulting and litigation support activities undertaken in forensic accounting engagements.
Effective: Spring 2011
Prerequisite: or concurrent: ACCTG 472; ACCTG 403 or ACCTG 403W

ACCTG 489 Seminar in Accounting (3) New trends and concepts in accounting; applications and impact on problem solving and decision making.
Effective: Spring 2008
Prerequisite: permission of program

ACCTG 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

ACCTG 494H Research Project (1-3 per semester/maximum of 6) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2005

ACCTG 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008

The Pennsylvania State University
Prerequisite: prior approval of proposed assignment by instructor

ACCTG 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

ACCTG 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ACCTG 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

ACCTG 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM
Acoustics (ACS)

ACS 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

ACS 402 Introduction to Acoustics (3) Basic principles of acoustics and perception of sound; fundamentals of applications: electroacoustic transducers, noise measurement and control, architectural and building acoustics, underwater sound. Offered for science and engineering majors.
Effective: Fall 1983
Prerequisite: PHYS 203

ACS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ACS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ACS 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

Last Import from UCM: June 16, 2011 3:00 AM
Adult Education (ADTED)

ADTED 100 Adult Learners in the University (3) Opportunity to develop effective learning strategies while exploring critical issues related to adults entering or returning to higher education.
Effective: Spring 1998

ADTED 100S Adult Learners in the University (1) Opportunity to develop effective learning strategies while exploring critical issues related to adults entering or returning to higher education.
Effective: Spring 2001

ADTED 297 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Summer 2000

ADTED 297A History of Distance Education in the Developing World (3) Contrary to popular opinion, distance education is neither a recent phenomenon, nor one that is exclusive to the developed world. This course examines a number of historical distance education initiatives undertaken by developing nations. Among the projects discussed are The Minerva Project, The Malawi Correspondence College, The Mauritius College of the Air, and others. The contexts and constraints of distance education in developing countries and the strategies for overcoming these circumstances will be explored in depth.
Effective: Summer 2011 Ending: Summer 2011

ADTED 297B Virtual Classrooms and eLearning Around the World (3) In the last few decades, technology has been used to reach learners in spaces and times never possible before. This phenomena has been observed at a different magnitude and pace throughout the world. In this class, students will be introduced to some of the tendencies of these types of learning around the globe - Brazil, Russia, South Korea, Tanzania, UK - and will be challenged to compare them to own experience and imagine the next generation of educational possibilities.
Effective: Summer 2011 Ending: Summer 2011

ADTED 297C Innovation in Learning: An Interdisciplinary Survey of Adult and Distance Education (3) This course is intended to provide an opportunity for students in a variety of disciplines to understand the significance of and to become familiar with contemporary and historical practice, theory, and philosophy of Adult Education. Students will develop an understanding of Adult Education as it relates to society and to their own future, including formal and non-formal learning in schools, colleges, universities, business, industry, and the non-profit sector. Students will also learn about innovative methods of providing learning, including distance education, and will have the opportunity to use social media technologies such as blogs, wikis, video, and virtual spaces as they build critical thinking skills and explore adult education as it relates to their areas of interest.
Effective: Summer 2011 Ending: Summer 2011

ADTED 456 Introduction to Family Literacy (3) Explores comprehensive family literacy models, focusing upon families, services, outcomes, and roles and responsibilities of individuals, organizations, and communities.
Effective: Spring 2008
Prerequisite: Associate Degree or 60 undergraduate credits

ADTED 457 Adult Literacy (3) Surveys adult basic and literacy education programs and best practices; applies recent research on adult and family literacy.
Effective: Spring 2008
Prerequisite: Associate Degree or 60 undergraduate credits

ADTED 458 Early Literacy Development and Parental Involvement (3) Focuses on young children's language and literacy development, including parental and staff support, grounded in scientifically based reading research.
Effective: Spring 2008
Prerequisite: Associate degree or 60 undergraduate credits

ADTED 459 Interactive Literacy: Parents and Children (3) Focuses on literacy and language interactions between parents and their young children (including English language learners), implementing intentional/planned learning.
Effective: Spring 2008
Prerequisite: Associate Degree or 60 undergraduate credits

ADTED 460 Introduction to Adult Education (3) History, methods, agencies, program areas, and problems of adult education in the United States.
Effective: Fall 2001

ADTED 470 (CI ED 470) Introduction to Distance Education (3) An introduction to the history, philosophy, organizations, learning theories, and instructional procedures used in American and foreign distance education.
Effective: Summer 1996

ADTED 496 Independent Studies (1-18) Creative projects supervised on an individual basis and which fall outside the...
ADTED 497 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Summer 1996

ADTED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

ADTED 498A Teaching Adults Responsibly (3) Virtues operating in particular teaching situations are examined. Also examined are opportunities and challenges enabling and constraining those virtues along with elements of theory and practice.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Aerospace Engineering (AERSP)

AERSP 001S Aerospace Explorer--First-Year Seminar (1) First-Year Seminar explores aerodynamics, structural mechanics, flight mechanics, rotorcraft systems, high performance computers, air/space propulsion, and space systems. Effective: Fall 1999

AERSP 055 (GN) (S T S 055) Space Science and Technology (3) The science and technology of space exploration and exploitation; physical principles; research and development; history, space policy, and social implications. Effective: Spring 1994

AERSP 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1998

AERSP 097S First Year Seminar - Hands on Helicopter (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AERSP 097S First Years Seminar - Hands on Helicopter (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

AERSP 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2008

AERSP 204H Flight Vehicle Design and Fabrication I (2 per semester/maximum of 8) Integrated project management, design, fabrication, testing, and flight evaluation of an advanced composite flight vehicle. Effective: Spring 2000

AERSP 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2008

AERSP 301 Aerospace Structures (3) Aerospace structural design concepts, flight safety. Stiffness, strength, stability of thin-walled structures under combined loads. Energy methods, finite element analysis. Effective: Spring 2008 Prerequisite: E MCH 210 or E MCH 213. Prerequisite or concurrent:AERSP 313

AERSP 304 Dynamics and Control of Aerospace Systems (3) Vibrations of single, multiple, and infinite degree-of-freedom systems; operational methods applied to aerospace vehicles; design of controllers. Effective: Spring 2008 Prerequisite: AERSP 313, E MCH 212

AERSP 305W Aerospace Technology Laboratory (3) Experiments in measurement systems, aerodynamics, aerospace structures, dynamics and control, and propulsion, technical report writing and presentations. Effective: Spring 2007 Prerequisite: Prerequisite or concurrent:AERSP 301, AERSP 311, ENGL 202C

AERSP 306 Aeronautics (3) Lift and drag characteristics of aircraft; propulsion systems; airplane performance; introduction to stability and control. Effective: Fall 1989 Prerequisite: AERSP 311, AERSP 313

AERSP 308 Mechanics of Fluids (3) Kinetics and dynamics of fluids; perfect fluid theory using complex variables; introduction to viscous flow theory; fundamentals of compressible flow. Effective: Spring 2008 Prerequisite: E MCH 212 or E MCH 212H; MATH 251

AERSP 308H Mechanics of Fluids (3) Kinetics and dynamics of fluids; perfect fluid theory using complex variables; introduction to viscous flow theory; fundamentals of compressible flow. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012 Prerequisite: E MCH 212 or E MCH 212H; MATH 251

AERSP 309 Astronautics (3) Introduction to space and space flight; laws of particle mechanics; orbits and trajectories; space vehicles and propulsion. Effective: Spring 2008 Ending: Fall 2011 Prerequisite: E MCH 212, MATH 251; CMPSC 201 or CMPSC 202

AERSP 309 Astronautics (3) Introduction to space and space flight; laws of particle mechanics; orbits and trajectories; space vehicles and propulsion.

The Pennsylvania State University
Prerequisite: E MCH 212, MATH 250; CMPSC 201 or CMPSC 202

AERSP 311 Aerodynamics I (3) Fluid statics and kinematics; fluid dynamics of inviscid and viscous flows; Navier-Stokes equations; introduction to boundary layers.
Effective: Spring 2008
Prerequisite: E MCH 212, MATH 250, CMPSC 201 or CMPSC 202

AERSP 312 Aerodynamics II (3) Fluid mechanics of viscous and compressible flows, laminar boundary layers, turbulent flows, isentropic flows, shock waves, supersonic life and drag.
Effective: Fall 2007
Prerequisite: AERSP 311, AERSP 313, M E 201

AERSP 313 Aerospace Analysis (3) Mathematical methods applied to aerospace engineering: Fourier series, ordinary and partial differential equations, complex variables, numerical methods, data analysis.
Effective: Spring 2008
Prerequisite: MATH 220, MATH 230, MATH 250; CMPSC 201 or CMPSC 202

AERSP 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

AERSP 401A Spacecraft Design--Preliminary (3) Conceptual and preliminary design of a spacecraft, its constituent subsystems, and related systems, to satisfy a given set of specifications.
Effective: Spring 2007
Prerequisite: AERSP 309 . Prerequisite or concurrent:AERSP 450

AERSP 401B Spacecraft Design--Detailed (2) Detailed design of the constituent subsystems and related support systems for a spacecraft.
Effective: Spring 2007
Prerequisite: AERSP 301, AERSP 401A

AERSP 402A Aircraft Design--Preliminary (3) Conceptual and preliminary design of an aircraft, its constituent subsystems, and related systems, to satisfy a given set of specifications.
Effective: Spring 2007
Prerequisite: AERSP 306 . Prerequisite or concurrent:AERSP 413

AERSP 402B Aircraft Design--Detailed (2) Detailed design of the constituent subsystems and related support systems for an aircraft.
Effective: Spring 2007
Prerequisite: AERSP 301, AERSP 402A

AERSP 404H Flight Vehicle Design and Fabrication II (3 per semester/maximum of 12) Project management, design, fabrication, aerodynamic and structural testing, and flight evaluation of an advanced composite flight vehicle.
Effective: Spring 2000
Prerequisite: AERSP 204H

AERSP 406W Structures and Dynamics Laboratory (2) Experiments in static deformations and stresses, vibrations, and control of aerospace structures.
Effective: Spring 2007
Prerequisite: or concurrent:ENGL 202C

AERSP 407 Aerodynamics of V/STOL Aircraft (3) Rotary wing aircraft; VTOL and STOL performance; propeller-wing combinations; jet flap; high lift devices.
Effective: Fall 1984
Prerequisite: AERSP 312

Effective: Fall 1983
Prerequisite: AERSP 312

AERSP 412 Turbulent Flow (3) Homogeneous turbulence; spectral transfer of energy, viscous dissipation; turbulent shear flow: mixing-length theory, eddy viscosity, scaling laws, energy budget.
Effective: Winter 1978
Prerequisite: one course in fluid mechanics

AERSP 413 Stability and Control of Aircraft (3) Static and dynamic stability and control of aircraft; open and closed loop systems.
Effective: Fall 1989
Prerequisite: AERSP 304, AERSP 306

AERSP 420 Principles of Flight Testing (3) In-flight and analytical studies of airplane performance, stability, and control; reduction of data; instrumentation; flight test techniques.
Effective: Fall 1983
Prerequisite: AERSP 306

AERSP 423 Introduction to Numerical Methods in Fluid Dynamics (3) Finite difference methods applied to solving viscid/inviscid fluid dynamics problems, error control, numerical stability.
Effective: Spring 2008
Prerequisite: AERSP 312 or M E 320; MATH 250 or MATH 251; CMPSC 201 or CMPSC 202
AERSP 424 Advanced Computer Programming (3) Engineering and scientific programming topics: object oriented programming, parallel programming, and various modern languages (e.g., C++, Java, and Ada).
Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 202; MATH 220

AERSP 425 Theory of Flight (3) Advanced wing and airfoil theory, conformal mapping, slender body theory.
Effective: Spring 2001
Prerequisite: AERSP 306

AERSP 430 Space Propulsion and Power Systems (3) Analysis and performance of chemical and nuclear rockets, electric propulsion systems. Introduction to solar, chemical, thermoelectric, and nuclear power sources.
Effective: Fall 2007
Prerequisite: AERSP 410 or ME 432

AERSP 440 Introduction to Software Engineering for Aerospace Engineers (3) Software engineering for safety- and mission-critical systems, including requirements, management, processes, designs, programming, validation/verification, and other aspects of software development.
Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 202

AERSP 450 Orbit and Attitude Control of Spacecraft (3) Principles of mechanics and vector analysis applied to basic concepts of satellite motion and control, rocket ballistics, and gyroscopic instruments.
Effective: Fall 1987
Prerequisite: AERSP 304, AERSP 309

AERSP 460 Aerospace Control Systems (3) Design and analysis of feedback control systems for aerospace applications; stability, root locus, time- and frequency-domain, state-space methods.
Effective: Summer 2006
Prerequisite: AERSP 304

AERSP 470 Advanced Aerospace Structures (3) Design and analysis of aerospace structures. Plates and sandwich panels; composite materials; structural dynamics; aeroelasticity; damage tolerance.
Effective: Spring 2008
Prerequisite: AERSP 301. Prerequisite or concurrent: AERSP 304, E MCH 315

AERSP 473 (E MCH 473) Composites Processing (3) An introduction to the principles of mechanics governing manufacturing, computer-aided design, and testing of composite materials and structures.
Effective: Summer 1988
Prerequisite: E MCH 471

AERSP 490 (E E 471, NUC E 490) Introduction to Plasmas (3) Plasma oscillations; collisional phenomena; transport properties; orbit theory; typical electric discharge phenomena.
Effective: Spring 2008
Prerequisite: E E 330 or PHYS 467

AERSP 492 (E E 472) Space Astronomy and Introduction to Space Science (3) The physical nature of the objects in the solar system; the earth's atmosphere, ionosphere, radiation belts, magnetosphere, and orbital mechanics.
Effective: Spring 2008
Prerequisite: E E 330 or PHYS 400

AERSP 494 Aerospace Undergraduate Thesis (1-3 per semester/maximum of 6) Individual problem investigations reported in written thesis and seminar lectures. Cooperative research with faculty guidance on topics of current interest.
Effective: Fall 1992
Prerequisite: seventh-semester standing

AERSP 494H Aerospace Undergraduate Thesis (1-3 per semester/maximum of 6) Individual problem investigations reported in written thesis and seminar lectures. Cooperative research with faculty guidance on topics of current interest.
Effective: Fall 2007
Prerequisite: seventh-semester standing

AERSP 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

AERSP 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1983

AERSP 497A Advanced Orbital Mechanics (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

AERSP 497B Experimental Methods and Projects (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
AERSP 497D **Special Topics in Aerodynamics** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

AERSP 497I **Spacecraft/Environment Interactions** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

AERSP 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2006

AERSP 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

Last Import from UCM: June 16, 2011 3:00 AM
African and African American Studies (AAA S)

AAA S 003 Scholarship and Community (1) Introduction to college life for new students in a designated residential community to help them optimize their Penn State experience.
Effective: Spring 1999
Prerequisite: students must be participating in the Pennypacker Experience to take this course

Effective: Summer 2005

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Effective: Summer 2005

AAA S 101 (GH;US) (WMNST 101) The African American Woman (3) The sociological, historical, and political experiences of African American women, their roles and contributions to society.
Effective: Summer 2005

AAA S 102 (GH;IL) (WMNST 102) Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.
Effective: Summer 2005

AAA S 103 (US) (SOC 103, WMNST 103) Racism and Sexism (3) Critical analysis of the structure of race and gender in the contemporary United States.
Effective: Summer 2005

AAA S 105 (GN;IL) (EARTH 105) Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, natural resources.
Effective: Summer 2005

AAA S 110 (GS;IL) Introduction to Contemporary Africa (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.
Effective: Summer 2005

AAA S 110U (GS;IL) Introduction to Contemporary Africa (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AAA S 110U (GS;IL) Introduction to Contemporary Africa (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.

Effective: Summer 2005

AAA S 145 (GH;US;IL) (RL ST 145) African American Religion (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.
Effective: Summer 2005

AAA S 146 (GH;US) (RL ST 146) The Life and Thought of Martin Luther King, Jr. (3) A survey of the civil rights leader including his religious beliefs, intellectual development, and philosophy for social change.
Effective: Summer 2005

AAA S 147 (GH;US) (RL ST 147) The Life and Thought of Malcolm X (3) The life of Malcolm X/El Hajj Malik El Shabazz (1925-1965) and his social, political, economic, and moral thought.
Effective: Summer 2005
AAA S 150 (GH;IL) Africa in Cinema (3) The study of the image of Africa as seen in fiction and non-fictional feature length films, ethnographic and documentary films. Effective: Spring 2006

AAA S 191 (GH;IL) (HIST 191) Early African History (3) Explores important economic and cultural transformations in the making of early African empires from 1 MBC to 1750. Effective: Summer 2005

AAA S 192 (GH;IL) (HIST 192) Modern African History (3) Impact of the slave trade, expansion of Islam, colonial conquest, social and cultural transformations, resistance, nationalism, and independence. Effective: Summer 2005

AAA S 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

AAA S 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

AAA S 202 (GS;IL) (WMNST 202) Gender Dynamics in Africa (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories. Effective: Summer 2005

AAA S 208 (GA;US;IL) (THEA 208) Theatre Workshop in Diverse Cultures (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples. Effective: Summer 2005

AAA S 210 (GH;US) (HIST 210) Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932 (3) The course will explore the context and events that shaped African American life over the period 1896-1932. Effective: Summer 2005 Prerequisite: AAA S 100, HIST 021

AAA S 211 (GH;US;IL) (HIST 211) The Emergence and Evolution of the Black Diaspora in the Atlantic World (3) The course will explore the history and role of African and African-descent people in Africa, the Americas, and Europe. Effective: Summer 2005 Prerequisite: AAA S 100 or HIST 003 or HIST 020 or HIST 021 or HIST 152

AAA S 212 (US) Black History to the Twentieth Century (3) An examination of Black political, economic, social, and cultural life in America from the era of colonization to 1905. Effective: Spring 2008

AAA S 235 (US) (ENGL 235) African-American Oral Folk Tradition (3) The origins, forms, and function of the oral folk tradition of African Americans. Effective: Summer 2005 Prerequisite: ENGL 015 or ENGL 030

AAA S 250 (GH;IL) (HIST 250) Introduction to the Modern Caribbean (3) A survey course which, explores the historical evolution and emergency of the modern Caribbean. Effective: Summer 2005

AAA S 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

AAA S 297 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1994

AAA S 297C Poverty in Africa (3) This class examine the dynamics of poverty in Africa. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AAA S 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

AAA S 302 (US) (BB H 302) Diversity and Health (3) Exam the relatinship of diverse personal and sociocultural factors to health, like socioeconomic class, race-ethnicity, gender, age, and sexual orientation.

The Pennsylvania State University
Effective: Spring 2007
Prerequisite: PSYCH 100 or SOC 001

AAA S 364 (GS:US) (WMNST 364) **Black & White Sexuality** (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality.
Effective: Spring 2007

AAA S 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

AAA S 397 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2003

AAA S 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

AAA S 401 **Afro-American Studies Seminar** (3) A seminar examining theoretical and methodological issues in Afro-American Studies.
Effective: Spring 2001
Prerequisite: AAA S 100, AAA S 101

AAA S 403 **South Africa Today** (3) A course examining the South African government's policy of apartheid: its history, why it exists, how it works, and the prospects for change.
Effective: Fall 2001
Prerequisite: AAA S 110

AAA S 405 **African Studies Methodologies** (3) Multidisciplinary research techniques for studying in and about Africa.
Effective: Spring 1997

AAA S 409 (US) (SOC 409) **Racial and Ethnic Inequality in America** (3) The impact of inequality and discrimination on individual and group identity among various racial and ethnic groups.
Effective: Summer 2005
Prerequisite: SOC 001

AAA S 409U (US) **Racial and Ethnic Inequality in America** (3) The impact of inequality and discrimination on individual and group identity among various racial and ethnic groups.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: SOC 001

AAA S 410 **Spirit, Space, Survival: Contemporary Black Women** (3) How recent Black women have used spirit and space to survive.
Effective: Summer 2011
Prerequisite: AAA S 101

AAA S 412 (US;IL) (THEA 412) **African American Theatre** (3) Exploration of the development of African American theatre from its roots in Africa through the Diaspora to the present time.
Effective: Summer 2005
Prerequisite: THEA 100

AAA S 416 (US;IL) (S T S 416, WMNST 416) **Race, Gender and Science** (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.
Effective: Summer 2008
Prerequisite: 6 credits in S T S WMNST or AAA S

AAA S 422 (US) (CAS 422) **Contemporary African American Communication** (3) A focused study on the continuities between African and African American culture and communication.
Effective: Summer 2005
Prerequisite: SPCOM 100

AAA S 431 (US;IL) (HIST 431) **Black Liberation and American Foreign Policy** (3) This course deals with American foreign policy and Black liberation in Africa since 1945.
Effective: Summer 2005
Prerequisite: AAA S 100, AAA S 192; PL SC 001 or PL SC 014

AAA S 432 (IL) (HIST 432) **Between Nation and Empire: The Caribbean in the 20th Century** (3) An exploration of the political evolution of the Caribbean Region over the course of the 20th Century.
Effective: Summer 2005
Prerequisite: AAA S 250

AAA S 434 (IL) (PL SC 434) **War and Development in Africa** (3) This course will examine the relationship between war and development in sub-Saharan Africa in the post colonial era.
Effective: Summer 2006
Prerequisite: PL SC 114 or PL SC 003 or AAA S 110
AAA S 440 (US;IL) (PL SC 440, I B 440) **Globalization and Its Implications** (3) This course explores the socioeconomic implications of globalization.
Effective: Spring 2008
Prerequisite: AAA S 100 or AAA S 110 or PL SC 003 or PL SC 014 or PL SC 020 or PL SC 022

AAA S 443 (IL) (PL SC 443) **Ethnic Conflict in Africa** (3) This course explores the various causes and impacts of ethnic conflicts in the African context.
Effective: Summer 2005
Prerequisite: AAA S 100, AAA S 110, PL SC 001, PL SC 003, PL SC 007, PL SC 014, PL SC 017, PL SC 020 or AFRAS 301

AAA S 445Y (US) (LER 445Y, PL SC 445Y) **Politics of Affirmative Action** (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008
Prerequisite: AAA S 100 level course and PL SC 001 or PL SC 007

Effective: Summer 2005
Prerequisite: 3 credits from: AAA S 110, PL SC 003, PL SC 020 or PL SC 022

AAA S 459 (IL) (PL SC 459) **Culture and World Politics** (3) Role of culture in world politics.
Effective: Summer 2006
Prerequisite: PL SC 014

AAA S 460 (US;IL) (PHIL 460) **African American Philosophy** (3) Major works by African American Philosophers, on topics of race, freedom, citizenship, nationhood, law and society.
Effective: Fall 2009
Prerequisite: AAA S 100 or PHIL 009 and 5th semester standing

AAA S 464 (IL) (PL SC 464) **Globalization, Extractive Industries, and Conflict in Africa** (3) Socioeconomic and environmental impacts of extractive industries in Africa.
Effective: Summer 2008
Prerequisite: AAA S 110 or at least one of the following: PL SC 003 or PL SC 014 or PL SC 022

AAA S 465 (US) (HIST 465) **Civil Rights and American Politics 1933-1968** (3) The civil rights struggle and its impact upon American politics.
Effective: Summer 2005
Prerequisite: AAA S 100, HIST 021, HIST 152, PL SC 001 or PL SC 002

AAA S 469 (US) (ENGL 469) **Slavery and the Literary Imagination** (3) The impact of slavery on the petitions, poetry, slave narratives, autobiographies, and novels of African Americans.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030

AAA S 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

AAA S 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

AAA S 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2001
Prerequisite: prior approval of proposed assignment by instructor

AAA S 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1994

AAA S 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1994

AAA S 497A **Latin American and Caribbean Cultures** (3) This course examines historical and cultural constructions of race and gender in Latin America and the Caribbean.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AAA S 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Agribusiness Management (AG BM)

Effective: Spring 2003

AG BM 102 Economics of the Food System (3) Introduction to topics designed to develop an understanding of how the food production, processing, and marketing system works and evolves.
Effective: Spring 2003

AG BM 106 Agribusiness Problem Solving (3) Development of quantitative problem solving skills applied to specific examples of agribusiness management problems, using EXCEL spreadsheets.
Effective: Spring 2006
Prerequisite: AG BM 101

AG BM 200 Introduction to Agricultural Business Management (3) Application of management principles and processes to agricultural business firms in their planning and operating in domestic and international markets.
Effective: Fall 2003

AG BM 220 Agribusiness Sales and Marketing (3) Principles underlying the sales process and practical application for selling situations in agribusiness. Role of selling in the total marketing process.
Effective: Spring 2006

AG BM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2010

AG BM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2004

AG BM 302 Food Product Marketing (3) Analysis of economic and psychological determinants of the demand for food; marketing decisions in an increasingly consumer-driven food system.
Effective: Spring 2003
Prerequisite: AG BM 101, AG BM 102, AG BM 106

AG BM 308W Strategic Decision Making in Agribusiness (3) Utilize case studies to investigate strategic decision making among agribusiness firms, highlighting how information and market power shape strategies.
Effective: Spring 2004
Prerequisite: AG BM 101, AG BM 102, AG BM 106

AG BM 320 Markets and Prices: Analysis and Forecasting (3) Understand how prices are determined; develop the skill to analyze and forecast how prices change as the underlying conditions change.
Effective: Summer 2002 Ending: Summer 2011
Prerequisite: AG BM 101, AG BM 102, AG BM 106

AG BM 320 Markets and Prices: Analysis and Forecasting (3) Understand how prices are determined; develop the skill to analyze and forecast how prices change as the underlying conditions change.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: AG BM 101, AG BM 102 and AG BM 106; SCM 200 or STAT 200

AG BM 338 (IL) Agribusiness in the Global Economy (3) Managing agribusinesses in the global food industry, international food product marketing, key public institution and policies affecting food trade.
Effective: Spring 2006
Prerequisite: AG BM 101, AG BM 102, AG BM 106

AG BM 407 Farm Planning and Financial Management (3) Economic principles applied to the management of farms, with particular emphasis on the financial aspects of management.
Effective: Spring 2003
Prerequisite: AG BM 101, AG BM 106

AG BM 408 Financial Decision Making for Agribusiness (3) Develop financial management and business analysis skills, integrating previous course work and finance training; principles of financial management, planning, control.
Effective: Spring 2004
Prerequisite: AG BM 308W, B A 301

AG BM 420 Agribusiness Markets & Prices (3) Understand and forecast price level and volatility for commodities, differentiated products, services. Why markets work and why they may not.
Effective: Spring 2004
Prerequisite: 6 credits in Agribusiness Management Business Administration Agricultural Economics and/or Economics
AG BM 440 Food Product Innovation Management (3) A problem-based course designed to enhance decision-making skills in the context of industry's approach to developing new food products. Effective: Fall 2003
Prerequisite: AG BM 302 or junior/senior standing in Food Science

AG BM 460 Managing the Food System (3) Firm management in the food system; coordination with suppliers and customers, including supply chain management, strategic thinking, risk management. Effective: Spring 2003
Prerequisite: AG BM 320, AG BM 338

AG BM 495A Internship in Agribusiness and Rural Development (1-6) Supervised field experience in an agribusiness or rural development setting. Effective: Spring 2003
Prerequisite: prior approval by department

AG BM 495B Internship in International Agribusiness (6) Supervised field experience related to student's major, minor, or option. Effective: Spring 2003
Prerequisite: prior approval by department

AG BM 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2003

AG BM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2004

AG BM 499 (IL) Foreign Studies - Agribusiness Management (1-12) Study in selected countries of agricultural economic institutions and current agricultural economic problems. Effective: Spring 2006

Last Import from UCM: June 16, 2011 3:00 AM
Agricultural Communications (AGCOM)

AGCOM 462W **Advanced Agricultural Writing** (3) Practice in journalistic writing strategies to report scientific and technical information in the agricultural/environmental sciences to general audiences.
Effective: Spring 2001
Prerequisite: a grade of C or better required in COMM 260W or equivalent coursework

AGCOM 495 **Internship** (1-3) Supervised field experiences related to student's professional interest in agricultural communications; limited to minors in agricultural communications.
Effective: Summer 1993
Prerequisite: a grade of C or better required in COMM 260W; and prior approval of the professor-in-charge of Minor

Last Import from UCM: June 16, 2011 3:00 AM
Agricultural Economics (AG EC)

AG EC 430 (CEDEV 430) **Principles of Community Economic Development** (3) Concepts, strategies and techniques of local economic analysis, planning and development; case studies and decision-making exercises.
Effective: Spring 2004
Prerequisite: introductory course in economics

Last Import from UCM: June 16, 2011 3:00 AM
Agricultural Science (AG SC)

AG SC 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1985

AG SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

AG SC 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

AG SC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

AG SC 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

AG SC 495 Internship (1-10) Independent study and supervised field experience related to the student's professional interest. Intended for Agricultural Science majors.
Effective: Summer 1985
Prerequisite: fifth-semester standing in the Agricultural Science major with a G.P.A. of 2.00 or greater and prior approval of proposed plan before registration

AG SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1985

AG SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

AG SC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Agricultural Systems Management (A S M)

A S M 101 Mechanization Principles for Production Agriculture (3) Applying engineering and mechanization principles for selection and application of agricultural equipment, structural environmental control, and soil and water conservation. Effective: Summer 1994

A S M 210 Turfgrass and Outdoor Power Equipment Systems Management (2) Management of turfgrass and outdoor power equipment (OPE) systems. Application of mechanical systems in the turfgrass and OPE industry. Effective: Summer 2005
Prerequisite: MATH 021 or equivalent

A S M 217 Landscape Soil and Water Management (3) Landscape soil and water management and practices including irrigation, hydrology, erosion, open channel, drainage, and impoundments. Effective: Spring 2001

A S M 221 Introduction to Agricultural Systems Management (3) Application of engineering principles critical to agricultural systems management. Effective: Summer 1994
Prerequisite: MATH 110, PHYS 250

A S M 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1994

A S M 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1994

A S M 307 Golf Course Irrigation and Drainage (3) Golf course irrigation systems; including sprinkler selection; piping; control systems; scheduling. Surface and subsurface drainage topics. Note: Students may not take both A S M 217 and A S M 307 for credit. Effective: Spring 2006
Prerequisite: MATH 021, SOILS 101

A S M 309 (E R M 309) Measurement & Monitoring of Hydrologic Systems (3) Introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems. Effective: Spring 2010
Prerequisite: PHYS 211 or PHYS 250, CHEM 110

A S M 310 Power Transmission in Agriculture (3) Selection and maintenance of mechanical, hydraulic, and pneumatic power transmission components and systems. Electric motor principles and controls. Effective: Spring 2004
Prerequisite: or concurrent: A S M 221

A S M 320 Combustion Engines for Mobile Equipment (3) Operating principles of internal combustion engines; performance, selection, and maintenance aspects of engine systems in mobile equipment. Effective: Spring 2004
Prerequisite: A S M 310

A S M 326 Hazard Identification and Control in Production Agriculture and Related Businesses (2) Identification and control of hazards common to farms and agriculturally related rural businesses, including structures, equipment, animals, chemicals, outdoor environment. Effective: Summer 2002 Ending: Summer 2011
Prerequisite: third-semester or higher

A S M 326 Hazard Identification and Control in Production Agriculture and Related Businesses (3) Identification and control of hazards common to farms and agriculturally related rural businesses, including structures, equipment, animals, chemicals, outdoor environment. Effective: Fall 2011 Future: Fall 2011
Prerequisite: third-semester or higher

A S M 327 Soil and Water Resource Management (3) Soil and water management systems and practices including hydrology, surface drainage, open channels, and erosion, subsurface drainage, impoundments and irrigation. Effective: Summer 1994
Prerequisite: PHYS 250

A S M 391 (GWS) (B E 391) Contextual Integration of Communication Skills for the Technical Workplace (2) To develop corporate communication skills in technically focused students in a contextual manner. Effective: Fall 2008
Prerequisite: Junior level standing in B E or A S M

A S M 392 (GWS) (B E 392) Contextual Integration of Leadership Skills for the Technical Workplace (2) To develop corporate leadership skills in technically focused students in a contextual manner.

The Pennsylvania State University
Agricultural and Extension Education (AEE)

AEE 100 *Agricultural Education Orientation* (2) Examination of agricultural and extension education; exploration of aptitude and interest in teaching, including early clinical practicum. Effective: Summer 1999

AEE 201 (GS) *Interpersonal Skills for Tomorrow's Leaders* (3) Study of concepts of self identity, values and interpersonal relations as related to professional and personal life. Effective: Summer 2008

AEE 295 *Observation of Teaching in Agriculture and Environmental Science* (1-3) Supervised observation of teacher and student activities in a selected high school; appraisal of related responsibilities of teachers of agriculture. Effective: Summer 1999

AEE 296 *Independent Studies* (1-12) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1999

AEE 297 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1999

AEE 297A *Practical Parliamentary Procedure* (2) This course will emphasize the motions and procedures used in business meetings of civic organizations, boards, committees, corporations, and conventions. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

AEE 298 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1999

AEE 311 *Developing Youth Leadership through Organization and Program Structure* (3) Basic strategies and procedures for effectively coordinating Supervised Occupational Experiences, Future Farmers of America, and Young Farmer Association activities in secondary and postsecondary schools. Effective: Summer 1999

AEE 313 *School-Based Program Planning and Instructional Development* (2) Planning and developing courses of study, summer programs, advisory committees, and facilities for vocational agriculture. Effective: Summer 1999 Prerequisite: AEE 100, AEE 295, AEE 311

AEE 330W *Communication in Agricultural and Natural Resource Careers* (3) The course explores the conventions of writing and speaking found in agricultural professions through the use of case studies. Effective: Summer 1999 Prerequisite: ENGL 015

AEE 350 *Teaching Methods for Agricultural and Environmental Laboratories* (3) An introductory course that prepares students to instruct and manage students in laboratory settings. Effective: Fall 2001

AEE 360 *Leadership Development for Small Groups* (3) Students will learn about leadership dynamics in small groups and how to be more influential in work settings. Effective: Spring 2000

AEE 395 *Internship* (1-13) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required. Effective: Summer 1999 Prerequisite: prior approval of proposed assignment by instructor

AEE 397 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1999

AEE 398 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1999

The Pennsylvania State University
AEE 400 Educational Programs in Agriculture for Developing Countries (3) Development and implementation of educational programs in agriculture in developing countries. Effective: Summer 1999
Prerequisite: INTAG 100 or INTAG 481

AEE 412 Methods of Teaching Agriculture and Environmental Science (4) Instructional strategies and media; directing individual and group learning activities; assessing student performance and quality of instruction in vocational agriculture. Effective: Fall 2001

AEE 413 Program Planning and Instructional Development (3-4) A course in planning, developing, and organizing school-based curriculum, summer programs, advisory councils, and facilities for environmental/agricultural education. Effective: Fall 2001

AEE 424 Workforce Guidance in Agricultural Industry (1-4) Opportunities and developments in agricultural industry, on-farm agricultural work, professional agricultural positions, and off-farm, nonprofessional agricultural occupations. Effective: Spring 2000

AEE 434 Agricultural and Environmental Development (1-6) Intensive professional and technical treatment of various subject-matter fields to aid teachers in maintaining competence. Effective: Summer 1999
Prerequisite: senior-year standing or experience as a teacher or extension agent

AEE 437 (AN SC 437) Equine Facilitated Therapy (3) Equine Facilitated Therapy uses equine-related activities to contribute positively to the wellbeing of people with disabilities. Effective: Spring 2002

AEE 440 Communication Methods and Media (3) Mass media techniques for reporting and promoting extension and related programs, including message preparation, presentation, and strategy development. Effective: Spring 2001
Prerequisite: 3 credits in communication

AEE 450 Program Design and Delivery (3) Principles, methods, and practices of extension education in agriculture, community resource development, family living, environmental affairs, 4-H, and youth programs. Effective: Spring 2004
Prerequisite: 6 credits in social or behavioral sciences

AEE 460 Foundations in Leadership Development (3) This course explores historical and contemporary leadership theories, models and perspectives within social, cross-cultural, and political contexts. Effective: Spring 2001
Prerequisite: AEE 360

AEE 465 Leadership Practices: Power, Influences, and Impact (3) Explores the leader role as it relates to issues of purpose, social responsibility, political influences, and legal constraints. Effective: Spring 2000

AEE 490 Colloquium (1-3) Seminars consisting of a series of individual lectures by faculty, students, or outside speakers. Effective: Summer 1999

AEE 495 Internship in Agricultural and Extension Education (1-15) Participation in the total program of instruction in agriculture in a selected high school. Effective: Summer 1999
Prerequisite: AEE 412, AEE 413

AEE 495A Student Teaching in AG (1-12) Participation in the total program of instruction in agriculture in a selected high school. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012
Prerequisite: AEE 412, AEE 413

AEE 495C Student Teaching in Environmental Science (1-12) Participation in the total program of instruction in agriculture in a selected high school. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012
Prerequisite: AEE 412, AEE 413

AEE 495D Internship - Leadership (1-15) Participation in the total program of instruction in agriculture in a selected high school. Effective: Summer 2011 Ending: Summer 2011
Prerequisite: AEE 412, AEE 413

Prerequisite: AEE 412, AEE 413

AEE 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an
AEE 496B McNair Scholar Research (3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1999

AEE 497 Special Topics (1-9) Formal courses given on topical or special interest subjects which may be offered infrequently.
Effective: Fall 1999

AEE 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1999

AEE 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Agriculture (AG)

AG 100 (SC 101) Job Placement Skills and Strategies (1) Strategies and skills designed to identify career/life goals and implement career decisions.
Effective: Fall 2010

AG 113 Exploring Careers in Agriculture (1) Examination of career opportunities in agriculture with an exploration of the relationship between student interest and career decisions.
Effective: Spring 1984

AG 150S Be a Master Student! (2) Students explore agricultural issues and research methodologies through literature review, library searches, field studies, and critical thinking.
Effective: Summer 1999
Prerequisite: first- or second-semester standing

AG 160 (GH) Introduction into Ethics and Issues in Agriculture (3) The course explores ethical theories, concepts of critical thinking, and major ethical issues related to American agriculture.
Effective: Summer 1999

AG 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

AG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1998

AG 301W Introduction to Agricultural Law (3) A survey of the legal system and legal issues that typically arise in agricultural and agribusiness situations.
Effective: Fall 1987

AG 400 Biometry/Statistics in the Life Sciences (4) Application of statistical techniques to experimental and survey research in the life sciences.
Effective: Fall 1986
Prerequisite: 6 credits in the natural sciences

AG 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

AG 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

AG 495 Internship (1-18) Independent study and supervised field experience related to the student's major. Written and oral critique of activity required.
Effective: Spring 1993
Prerequisite: approval of proposed assignment by instructor prior to advance registration deadline in semester preceding that semester in which the assignment is to be carried out

AG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1991

Last Import from UCM: June 16, 2011 3:00 AM
Agroecology (AGECO)

AGECO 121 (GN) Plant Stress: It's Not Easy Being Green (3) The many hazards faced by plants and the dynamic ways that plants respond to these problems are examined. Effective: Spring 2005

AGECO 122 (GN) (METEO 122) Atmospheric Environment: Growing in the Wind (3) Dynamic effects of weather on ecosystems and habitation of Earth. Effective: Summer 2006

AGECO 134 (GN) (R SOC 134) Sustainable Agriculture Science and Policy (3) The science, socio-economics, and politics of managing food and fiber production systems. Sustainability implications of current practices and future options. Effective: Spring 2007

AGECO 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2005

AGECO 197A Principles of Agronomic Field Operations (2) Field based class to explore the practical aspects of agronomic crop production from planting to harvesting. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AGECO 201 Introductory Agroecology (3) Introduction to the processes and considerations that lead to the development of integrated solutions to crop production problem solving. Effective: Spring 2005

AGECO 295 Agroecology Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2005

AGECO 438 (AGRO 438) Principles of Weed Management (4) Weedy plant taxonomy, biology and ecology of weedy plant populations, and integration of biological, chemical, cultural and biological controls. Effective: Fall 2009 Prerequisite: 6 credits in plant sciences

AGECO 457 (CI ED 457) Principles of Integrated Pest Management (3) Integrated study of pest complexes and their management, emphasizing ecological principles drawing on examples from a range of agricultural, forestry and urban systems. This course is designed for sixth, seventh, and eighth semester students and graduate students. Effective: Spring 2010 Prerequisite: Must take two or more of the following: ENT 313 and/or PPATH 405 and/or PPATH 318 and/or HORT 238

AGECO 461 Emerging Issues in Agroecosystem Management (3) A discussion-based capstone course that elucidates the interdisciplinary issues facing agriculture today. Effective: Fall 2009 Prerequisite: SOILS 101

AGECO 490 Agroecology Colloquium (3) Students will be discussing topics related to the major and develop presentations in consultation with the course instructor. Effective: Spring 2006 Prerequisite: 3 credits in agroecosystems science

AGECO 495 Agroecology Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2005

AGECO 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2006
AGECO 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

AGECO 499 (IL) Foreign Studies (1-2 per semester/maximum of 4) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

AGECO 499A (IL) AGECO/CED 499A Issues in Economic, Community and Agricultural Development in Kenya (1-3)
Develop viable economic and youth development options for vulnerable youth, culminating with three weeks in Kenya.

Last Import from UCM: June 16, 2011 3:00 AM
Agroecosystems Science (AGESS)

AGESS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1999
Agronomy (AGRO)

AGRO 028 Principles of Crop Management (3) Biological and agronomic principles applied to production and management of major feed and forage crops of the northeastern United States.
Effective: Winter 1978
Prerequisite: 6 credits in biological science

AGRO 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1990

AGRO 410W Crop Science (4) Study of the relation of crop plants to their environment, crop ecology, and the physiology of crop growth.
Effective: Spring 1996 Ending: Summer 2011
Prerequisite: AGRO 028, BIOL 102

AGRO 410W Physiology of Agricultural Crops (4) Study of the relation of plants to their environment and the physiology of crop plant growth.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: AGRO 028

AGRO 423 Forage Crop Management (3) Application of agronomic, ecological, and physiological principles to the production and management of pasture and forage crops.
Effective: Winter 1978
Prerequisite: AGRO 028

AGRO 425 Field Crop Management (3) Application of agronomic, ecological, and physiological principles to management systems for the efficient production of the major field crops.
Effective: Winter 1978
Prerequisite: AGRO 028

AGRO 438 (AGECO 438) Principles of Weed Management (4) Weedy plant taxonomy, biology and ecology of weedy plant populations, and integration of biological, chemical, cultural and biological controls.
Effective: Fall 2009
Prerequisite: 6 credits in plant sciences

AGRO 460 (BIOTC 460) Advances and Applications of Plant Biotechnology (3) This course provides a comprehensive overview and current status of plant biotech research. The course provides knowledge of plant systems that fall in the category of GMOs.
Effective: Spring 2009
Prerequisite: BIOL 230W or BMB 251

AGRO 489 Supervised Experience in College Teaching (1-3) Participate with instructors in teaching an undergraduate agronomy course; assist with teaching, evaluation, and development of instructional materials.
Effective: Summer 1996
Prerequisite: AGRO 028 approval of instructor

AGRO 490 (SOILS 490) Colloquium (1) Continuing written and oral presentations developed by students in consultation with the course instructor.
Effective: Fall 1993
Prerequisite: seventh-semester standing

AGRO 495 Internship (1-5) Supervised field experience related to the student's major.
Effective: Fall 1981
Prerequisite: approval of proposed assignment by instructor prior to registration.

AGRO 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

AGRO 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

AGRO 497A Experiences in Crop Science Research (1) Students will become exposed to several research projects in crop science involving design, layout and data collection.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
**Air Force (AIR)**

**GENERAL MILITARY COURSE**

AIR 151 **The Foundations of the United States Air Force I** (2) Survey course designed to introduce students to Air Force opportunities, officership, professionalism, and military customs and courtesies, and communication skills. Effective: Spring 2000

AIR 251 **The Evolution of USAF Air and Space Power I** (2) Examines aspects of air and space power from the first balloons to the beginning of the Cold War era. Effective: Spring 2000

AIR 252 **The Evolution of USAF Air and Space Power II** (2) Continued examination of air and space power from the Cold War era to the Persian Gulf War and beyond. Effective: Spring 2000

**PROFESSIONAL OFFICER COURSE**

AIR 351 **Leadership Studies I** (3) Study of leadership, management fundamentals, and communication skills required of Air Force officers. Students apply these concepts using case studies. Effective: Spring 2000

AIR 352 **Leadership Studies II** (3) Continued study of leadership includes professional knowledge, AF personnel evaluation systems, and leadership ethics. Students apply concepts using case studies. Effective: Spring 2000

AIR 451 **National Security Affairs/Preparation for Active Duty I** (3) This course examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Effective: Spring 2000

AIR 452 **National Security Affairs/Preparation for Active Duty II** (3) Topics focus on preparation for military service after commissioning and current issues affecting the Air Force way of life. Effective: Spring 2000

Last Import from UCM: June 16, 2011 3:00 AM
American Studies (AM ST)

AM ST 050 (GH) The Literature and Lore of Mining (3) Experience and values of mining tradition: survey of the literature and lore, including field research.
Effective: Spring 2004

Effective: Summer 1999

AM ST 100 (GH;US) Introduction to American Studies (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Spring 2006
Prerequisite: third-semester standing

AM ST 100U (GH;US) Introduction to American Studies (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: third-semester standing

AM ST 100Y (GH;US) Introduction to American Studies (3) A study of selected attempts to identify and interpret movements and patterns in American culture.
Effective: Spring 2006
Prerequisite: third-semester standing

AM ST 103 (GH;US) American Masculinities (3) Introduction to aspects of masculinities and manhood in America.
Effective: Summer 2008

AM ST 104 (GH;US) (WMNST 104) Women and the American Experience (3) Selected aspects of the role of women in United States history and culture from colonial to modern times.
Effective: Summer 2005

AM ST 105 (GH;US) (ENGL 105) American Popular Culture and Folklife (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2008

AM ST 105U (GH;US) American Popular Culture and Folklife (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AM ST 140Y (GH;US) (RL ST 140Y) Religion in American Life and Thought (3) The function, contributions, tensions, and perspectives of religion in American culture.
Effective: Summer 2005

AM ST 196 (GH;US) (ENGL 196, AMSTD 196) Introduction to American Folklore (3) A basic introduction to verbal and non-verbal folklore stressing the basic procedures of collection, classification, and analysis.
Effective: Summer 2005

AM ST 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

AM ST 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

AM ST 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

AM ST 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2007
Prerequisite: prior approval of proposed assignment by instructor

AM ST 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

AM ST 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

AM ST 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

AM ST 301 (GH) **American Civilization** (3) An interdisciplinary overview of major themes, works, and events, in American history and culture.
Effective: Fall 2007
Prerequisite: HIST 020 or HIST 021 or 3 credits in American Studies

AM ST 302 **Approaches to American Studies** (3) A survey of the American Studies movement and its scholarship, emphasizing changes in theories, methods, and topics.
Effective: Fall 2007
Prerequisite: AMSTD major or permission of program

Effective: Spring 2008

AM ST 320 **Pennsylvania Studies** (3) Study of selected topics on the history, society, and culture of Pennsylvania (May be repeated for credit).
Effective: Fall 2007
Prerequisite: HIST 012 or 3 credits of American Studies

AM ST 321 (US) **American Indian Studies** (3 per semester, maximum of 99) A study of American Indian history, societies and cultures (may be repeated for credit).
Effective: Fall 2007
Prerequisite: 3 credits of American Studies or ANTH 146 or HIST 153

AM ST 322 (US) **Ethnic America** (3) A study of the sources, contributions, and conflicts of ethnic groups in the American experience.
Effective: Fall 2007
Prerequisite: 3 credits of American Studies or HIST 158 or SOC 119.

AM ST 323 **American Folklore and Folklife** (3) A study of American folklore and folklife, including folkloristic approaches to verbal, gestural, social, and material expressions of culture.
Effective: Fall 2007
Prerequisite: 3 credits of American Studies

AM ST 324 **Popular Culture** (3) An examination of mass media and society and the impact of popular culture.
Effective: Fall 2007
Prerequisite: AM ST 105 or 3 credits of American Studies

AM ST 325 (PUBPL 325) **American Political Culture** (3) Study of political culture in the United States.
Effective: Fall 2007
Prerequisite: 3 credits of American Studies Political Science Public Policy or Sociology

AM ST 363 **American Music** (3) A survey of all styles and types of American music from 1620 to the present.
Effective: Fall 2007
Prerequisite: 3 credits of AMSTD and MUSIC

AM ST 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

AM ST 400 **Early America to 1765** (3) American society and culture in the colonial period.
Effective: Fall 2007
Prerequisite: 6 credits in American Studies or History

AM ST 401 **Revolution and Early Republic, 1765-1815** (3) American society and culture during the period of the Revolution and the Early Republic.
Effective: Fall 2007
Prerequisite: 6 credits of American Studies or History or 5th semester standing

AM ST 402 **Antebellum and Civil War Era, 1815-1876** (3) Social and cultural conditions, sectional rivalry, political crises, warfare, and Reconstruction from 1815 to 1876.
Effective: Fall 2007
Prerequisite: 6 credits in American Studies or History

AM ST 404 **Industrial America** (3) An analysis of American politics, literature, society, and economics from the 1870s to World War II.
Effective: Fall 2007
Prerequisite: 6 credits of American Studies or History

The Pennsylvania State University
AM ST 405 Cold War (3) Examination of social and cultural currents in American life from World War II to 1990. Effective: Fall 2007
Prerequisite: 6 credits of American Studies or History

AM ST 406 Contemporary America (3) A study of the historic and cultural currents of life in the United States during the recent past. Effective: Fall 2007
Prerequisite: HIST 021 or 6 credits of American Studies

AM ST 412 American Eras (3) Examination in depth of various and distinctive American time periods; subtitle expresses specific content. (May be repeated for credit.) Effective: Fall 2007
Prerequisite: 6 credits of American Studies or History

AM ST 417 American Beliefs and Myths (3) A study of symbols, beliefs, and myths in the American experience; subtitles express specific content. (May be repeated for credit.) Effective: Fall 2007
Prerequisite: 6 credits of American Studies

AM ST 421 (PHIL 401) American Philosophy (3) Survey of key figures and movements in American thought, including the Transcendentalists, the Pragmatists, and contemporary developments. Effective: Fall 2007
Prerequisite: 9 credits of philosophy or 6 credits of philosophy at the 200-level or 5th semester standing

AM ST 422 (RL ST 422) Religion and American Culture (3 per semester, maximum of 6) Selected topics, problems, or historical movements in American religion; relation between religion and American culture. Effective: Summer 1996

Prerequisite: 6 credits of American Studies Sociology or Women's Studies

AM ST 431 National Character (3) An examination of the characteristics of the American people and other national groups. Effective: Fall 2007
Prerequisite: AM ST 301 or 6 credits in American Studies

AM ST 432 Ethnicity and the American Experience (3) Theoretical and conceptual framework of ethnic studies: examination of specific issues related to major American ethnic and racial groups. Effective: Fall 2007

AM ST 435 Americans at Work (3) A study of occupational and organizational cultures in America. Effective: Fall 2007
Prerequisite: 6 credits in American Studies or Labor and Industrial Relations or Sociology

AM ST 439 American Regional Cultures (3-6) An interdisciplinary study of the culture of a region of the United States, such as the south or the west. Effective: Fall 2007
Prerequisite: seventh-semester standing

AM ST 441 (US) (KINES 441) History of Sport in American Society (3) Background, establishment, and growth of sport in America from colonial times to the present. Effective: Fall 2007
Prerequisite: KINES 141 or 3 credits of United States history

AM ST 448 (ANTH 448) Ethnography of the United States (3) Ethnographic descriptions of various dimensions of life in the United States. Effective: Fall 2007
Prerequisite: ANTH 045

AM ST 460 American Art and Architecture of the Seventeenth and Eighteenth Centuries (3) Survey of American painting, sculpture, decorative arts, and architecture of seventeenth and eighteenth centuries with special emphasis on non-British cultures. Effective: Fall 2007

AM ST 472 (ENGL 434) Topics in American Literature (3) Focused study of a particular genre, theme, or problem in American literature. (May be repeated for credit.)

The Pennsylvania State University
Effective: Fall 2007
Prerequisite: 6 credits of ENGL ENLSH or LIT

AM ST 475 (US) (ENGL 431) Black American Writers (3 per semester, maximum of 6) A particular genre or historical period in the development of Black American literature.
Effective: Fall 2007
Prerequisite: ENGL 015 orENGL 030

AM ST 476 (ENGL 492, WMNST 491) American Women Writers (3) A study of selected American women writers.
Effective: Spring 2008
Prerequisite: 6 credits of ENGL

AM ST 479 American Expressive Forms (3) Examination in depth of various and distinctive American expressive forms; subtitle expresses specific content. (May be repeated for credit.)
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 480 Museum Studies (3) An introduction to the basic purposes, philosophies, and functions of a museum, with emphasis on the problems of museum administration. (May be repeated for credit.)
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 481 Historic Preservation (3) A study of preservation practices and programs in America.
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 482 Public Heritage (3) A study of public heritage practices and programs in America. (May be repeated for credit.)
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 483 Oral History (3) A study of oral history techniques and issues in America.
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 484 Archives and Records Management (3) A study of archives and records management in America.
Effective: Fall 2007
Prerequisite: 6 credits in American Studies

AM ST 491W American Themes, American Eras (3-6) Interdisciplinary American culture course on major themes and eras such as the American Revolutionary Era or the 1930s.
Effective: Fall 2007
Prerequisite: seventh-semester standing

AM ST 493 (ENGL 493) The Folktale in American Literature (3) A survey of the literary uses of the folktale and legendary materials, with particular concentration on the literature of America.
Effective: Spring 1986
Prerequisite: ENGL 015 orENGL 030

AM ST 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

AM ST 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

AM ST 495 Internship (1-6) Supervised internship for undergraduate or graduate American Studies majors at a museum or another cultural, historical, or arts agency.
Effective: Fall 2007
Prerequisite: senior-level status for undergraduate students; 18 credits of course work in major for graduate students; approval of program required

AM ST 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

AM ST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

AM ST 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Animal Science (AN SC)

AN SC 037 Horse and Man (2) Relationship of horse and man; development of breeds; use, adaptability, and economic importance of the horse in today's society.
Effective: Summer 1984

AN SC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AN SC 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AN SC 100 Animal Agriculture (3) Magnitude, importance, and complexity of the beef, dairy, horse, poultry, sheep, and swine industries, with particular emphasis on Pennsylvania agriculture.
Effective: Spring 1985 Ending: Fall 2011

AN SC 100 (GN) Introduction to Animal Industries (3) Students will study the biology, production systems, terminology, and emerging issues of the N. American animal industries.

AN SC 107 Introduction to Equine Science and the Equine Industry (2) Prepare students to proceed into further studies in equine science by providing background to communicate effectively with educators and industry.
Effective: Summer 2010

AN SC 110S Contemporary Issues in Animal Biotechnology and Society (1) An introductory survey of animal biotechnology in society, the role for biotechnology and how it will benefit society.
Effective: Spring 2003

AN SC 117 Equine Marketing (2) Principles of marketing and event planning including marketing systems, advertising, management systems, team building and other aspects of conducting a purebred livestock sale. Students learn through the planning and conducting of the annual Penn State Equine Science Showcase and Registered Quarter Horse Sale.
Effective: Spring 2009

AN SC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AN SC 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AN SC 201 Animal Science (4) Scope of animal and poultry science; genetic, physiological, nutritional, and health factors in food production.
Effective: Spring 2009

AN SC 207 (FD SC 207) Animal Products Technology (2) Composition, safety, palatability, preservation, and processing of foods from animals, impact of animal production, and handling practices on product properties.
Effective: Spring 2003

AN SC 207 (FD SC 208) Animal Products Technology Laboratory (1) Harvesting and processing of foods from animals; hands-on and demonstration exercises; industry procedures for processing meat, milk, and egg products.
Effective: Summer 2002
Prerequisite: or concurrent:AN SC 207

AN SC 211 Introduction to Avian Biology (3) Introduces the biology of birds; lectures, laboratories on anatomy and function, incubation, breeding, disease control, management techniques, and student projects.
Effective: Summer 1999
Prerequisite: or concurrent:BIOL 110; orBIOL 011, BIOL 012

AN SC 213 Introduction to Animal Biotechnology (3) An introduction to the multidisciplinary area of animal biotechnology: from molecular, genetic, genomics and development issues to their technological applications.
Effective: Spring 2009
Prerequisite: AN SC 201, BIOL 110, CHEM 110, CHEM 112

AN SC 217 Introduction to Horse Judging (2) Introductory analysis of halter and performance classes of stock-type horses, with emphasis on conformation, gaits, patterns, and oral reasons. Effective: Spring 2006

AN SC 225 Introduction to Dairy Judging (1) Training in the visual evaluation of dairy cattle and practice in defending decisions through oral reasons. Effective: Spring 2011

AN SC 226 Meat Selection and Grading (2) Training in identifying, grading, and judging carcasses and wholesale cuts of meat and in selection and identification of specification cuts. Effective: Spring 2010
Prerequisite: AN SC 201

AN SC 290W Careers in Animal Agriculture (1) A description and analysis of career opportunities in the animal sciences and allied industries. Effective: Summer 1999

AN SC 291 Externship with Animal Science Business (1-2 per semester/maximum of 4) Students will obtain a one-week on site work experience with an animal-related agribusiness. Effective: Summer 2010

AN SC 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

AN SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1982

AN SC 297C Equine Events Management (1) Management coordination of equine shows and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 297E Livestock Marketing (2) This is a Livestock Marketing course where the students will be able to plan and budget a livestock sale. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

Prerequisite: BIOL 011 and BIOL 012 or BIOL 110; at least third-semester standing

AN SC 301 Principles of Animal Nutrition (3) Nutrients and their metabolism; the nutritional requirements of livestock; the nutritional value of various feeds; principles of ration formulation. Effective: Summer 1999
Prerequisite: 3 credits in biochemistry or organic chemistry

AN SC 305 Companion Animal Nutrition (3) Principles of care and nutrition and contemporary importance of companion animals with emphasis on canine and feline species. Effective: Spring 2009
Prerequisite: AN SC 201
AN SC 306 **Swine Production and Management** (3) Application of the principles of enterprise and facility development, operations management, quality control, public relations, marketing for the efficient operation of a swine production business.

Effective: Spring 2009
Prerequisite: AN SC 201

AN SC 308 **Sheep and Goat Production and Management** (4) Application of principles of nutrition, breeding, physiology, health, facilities, marketing, and product development, to animal production agriculture.

Effective: Spring 2009
Prerequisite: AN SC 201

AN SC 309 **Beef Cattle Production and Management** (4) Application of principles of nutrition, breeding, physiology, health, facilities, and marketing to produce and manage beef efficiently.

Effective: Spring 2009
Prerequisite: AN SC 201

AN SC 310 **Dairy Cattle Production and Management** (3) Principles of dairy management including the dairy industry and control points associated with nutrition, genetics, lactation, reproduction, and housing.

Effective: Spring 2009
Prerequisite: AN SC 201

AN SC 311 **Poultry Production and Management** (4) The application of fundamental concepts and preparation for careers in the economically integrated commercial poultry industry.

Effective: Fall 2009
Prerequisite: AN SC 201

AN SC 315 **Small Animal Health and Disease** (3) Introduction to the principles of small animal health, including the recognition, prevention and control of common small animal diseases.

Effective: Spring 2006
Prerequisite: MICRB 106 or MICRB 201 or permission of program

AN SC 317 **Horse Handling and Training** (3) Responses of horses to various stimuli during the training period. Laboratory exercises involve extensive practice with young horses.

Effective: Summer 1999
Prerequisite: AN SC 327 and approved level of horsemanship

AN SC 322 **Principles of Animal Breeding** (3) The fundamental principles of genetics as applied to breeding farm animals.

Effective: Spring 1992

AN SC 322H **Principles of Animal Breeding** (3) The fundamental principles of genetics as applied to breeding farm animals.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 324 **Value Determination of Meat Animals** (3) Live animal and carcass evaluation of cattle, sheep, and swine to determine value of market animals and meat products.

Effective: Summer 1999

AN SC 327 **Horse Production and Management** (3) Principles of selection, breeding, feeding, management, and marketing of horses; emphasis on light horses.

Effective: Spring 2009
Prerequisite: AN SC 201

AN SC 350 **Dairy Problem Solving** (2) Students will use dairy records to analyze herd performance in order to identify bottlenecks for higher productivity.

Effective: Summer 2008
Prerequisite: or concurrent: AN SC 310

AN SC 395 **Animal Science Internship** (1-12) Supervised field experience and study related to the student's major professional interest. Written and oral critique of activity required.

Effective: Spring 1985
Prerequisite: Animal Sciences majors; 6 credits in major plus approval of proposed assignment by instructor prior to advance registration deadline in semester preceding the semester in which the assignment is to be completed

AN SC 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1992

AN SC 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1992

AN SC 400 **Application of Management Principles** (1) Students will learn to apply business management skills to the animal production environment through interactive discussions and assignments.

Effective: Summer 1998
Prerequisite: seventh-semester standing
AN SC 405  **Advanced Canine Nutrition and Management** (3) Application of biological principles to the care and nutrition of dogs; interactive discussions of contemporary nutrition and management issues.
Effective: Spring 2002
Prerequisite: AN SC 305 and AN SC 400; or permission of program

AN SC 407  **Advanced Horse Management** (3) Detailed study of anatomy and physiology of the horse as related to nutrition, reproduction, athletic ability, unsoundness and control of diseases and parasites. Detailed discussion of management practices, facility design and contemporary issues.
Effective: Summer 1999
Prerequisite: AN SC 327, AN SC 400

AN SC 410  **Advanced Dairy Herd Management** (4) Application of dairy herd management principles using case studies and actual dairy farm situations.
Effective: Spring 2004
Prerequisite: AN SC 310. Prerequisite or concurrent: AN SC 400

AN SC 413  **Transgenic Biology** (3) The principles and concepts used to generate genetically engineered animals by pronuclear, knockout, and cloning methods; and applied biotechnology applications.
Effective: Summer 2002
Prerequisite: a course in Molecular Biology and/or Biochemistry and/or Genetics

AN SC 414  **Comprehensive Animal Biotechnology** (3) A comprehensive review of the multidisciplinary area of animal biotechnology examining historical developments, current progress, and future directions.
Effective: Spring 2003
Prerequisite: 3 credits in molecular biology genomics genetics or biotechnology courses

AN SC 417  **Horse Judging** (2) Evaluation and selection of halter and performance horses, and presentation of oral reasons.
Effective: Spring 2002

AN SC 418 (AGECO 418, SOILS 418)  **Nutrient Management in Agricultural Systems** (3) Comprehensive review of nutrient flow in animal agricultural systems, environmental regulations, and environmental stewardship practices.
Effective: Summer 2003

AN SC 419W  **Applied Animal Welfare** (3) Assessment of management practices impacting animal welfare; devoted to livestock species, companion animals, captive exotic species, and animals in research.
Effective: Spring 2009
Prerequisite: AN SC 201 or 6 credits of biology

AN SC 420  **Animal Nutrition and Feed Technology** (4) Feedstuff evaluation, quality control, handling, storage: life cycle feeding of beef cattle, dairy cattle, sheep, swine, horses, and poultry.
Effective: Spring 1994
Prerequisite: AN SC 301

AN SC 421  **Poultry Evaluation and Selection** (2) Introduction and application of standards and principles used to evaluate live poultry and poultry products.
Effective: Summer 2004
Prerequisite: permission of program

AN SC 422  **Dairy Cattle Evaluation and Selection** (3) Methods used in evaluation of production and type traits and their role in selecting dairy breeding stock domestically and internationally.
Effective: Summer 1998
Prerequisite: AN SC 322

AN SC 423  **Comparative Physiology of Domestic Animals** (3) A comparative approach to understanding body function in domesticated avian and mammalian species.
Effective: Summer 1999
Prerequisite: BIOL 110

AN SC 424  **Livestock Breeding Evaluation and Selection** (3) Evaluation and selection of beef cattle, sheep, swine, and horses; critical analysis of performance records and genetic evaluations.
Effective: Summer 1999
Prerequisite: AN SC 324

AN SC 425 (VB SC 425)  **Principles of Avian Diseases** (3) Principles of pathogenesis and control of diseases in poultry and other avian populations. Case material used where appropriate.
Effective: Spring 2009
Prerequisite: AN SC 201, BIOL 110 4 credits in microbiology and 3 credits of anatomy and/or physiology

AN SC 426  **Advanced Judging and Selection** (2 per semester, maximum of 4) Development of critical thinking and communication skills through evaluation and selection of animals and animal products.
Effective: Summer 1998
Prerequisite: AN SC 322

AN SC 427  **Milk Secretion** (3) Development and physiology of the mammary gland and factors which affect the amount and composition of milk produced.
Effective: Spring 2009
Prerequisite: AN SC 201 3 additional credits in dairy science
AN SC 429 **Advanced Beef Cattle Production** (3) Application of scientific and business principles to practical production and management issues using case studies or selected live settings. Effective: Summer 2010
Prerequisite: AN SC 309

AN SC 431W **Physiology of Mammalian Reproduction** (4) Physiological processes of reproduction in animals, including the use of current and emerging technologies. Effective: Summer 1999
Prerequisite: 3 credits in animal physiology

AN SC 432 **Techniques in Livestock Reproduction** (2) Demonstration and practice in estrus detection, inseminating techniques, pregnancy detection, embryo recovery and transfer methods. Effective: Fall 2008
Prerequisite: AN SC 431W

AN SC 437 (AEE 437) **Equine Facilitated Therapy** (3) Equine Facilitated Therapy uses equine-related activities to contribute positively to the wellbeing of people with disabilities. Effective: Spring 2002

AN SC 442 **Quantitative Inheritance and Animal Breeding** (3) Genes in populations: additive and nonadditive gene effects; selection and mating systems. Effective: Fall 1983
Prerequisite: 3 credits in genetics and breeding; 3 credits in statistics

AN SC 447 **Applied Equine Behavior** (3) Theory and application of behavior principles as they apply to horses in free-running and domestic situations. Effective: Spring 2009
Prerequisite: AN SC 201, AN SC 327 and fifth-semester standing; or fifth-semester standing and six credits in biology; or permission of the instructor

AN SC 450 **Dairy Farm Management Systems** (3) Capstone course emphasizing integration of dairy farm management principles into whole farm systems. Effective: Summer 1998
Prerequisite: AN SC 310, AN SC 400, AN SC 410

AN SC 451 **Dairy Systems Analysis** (1-2 per semester/maximum of 2) Students will evaluate all systems of a working dairy farm business. Effective: Spring 2011
Prerequisite: AN SC 310 prerequisite or concurrent: AN SC 410 Concurrent: AN SC 450 prerequisite or concurrent: AN SC 410

AN SC 457 **Equine Reproduction and Breeding Farm Management** (3) Advanced aspects of equine reproduction will be covered, including collection of semen, processing it for shipment, and insemination of mares. Effective: Summer 2008
Prerequisite: AN SC 327, AN SC 407

AN SC 467 **Equine Nutrition and Feeding** (3) Equine gastrointestinal anatomy and physiology; energy and nutrient requirements for body functions; applied interrelationships between nutrition, health, and performance. Effective: Summer 2008 Ending: Fall 2011
Prerequisite: AN SC 301, AN SC 327

AN SC 467W **Equine Nutrition and Feeding** (3) Equine gastrointestinal anatomy and physiology; energy and nutrient requirements for body functions; applied interrelationships between nutrition, health, and performance. Effective: Spring 2012 Future: Spring 2012
Prerequisite: AN SC 301

AN SC 477 **Riding Instructor Training** (1) Management of equestrian riding lessons, teaching techniques, lesson plans, program planning, time management, and handling of mounted groups. Effective: Spring 2011
Prerequisite: AN SC 327; a demonstrable level of horsemanship

AN SC 479 (BIOL 479) **General Endocrinology** (3) Endocrine mechanisms regulating the morphogenesis, homeostasis, and functional integration of animals. Effective: Fall 2009
Prerequisite: BIOL 141 or BIOL 472

AN SC 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

AN SC 496A **Animal Science Teaching Assistant** (2) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 496A **Animal Sciences Teaching Assistant** (2) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

The Pennsylvania State University
AN SC 496H AN SC Honors Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 496H Animal Sciences Honors Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

AN SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

AN SC 497B Animal Genomics (3) Approaches and techniques used to sequence and analyze genomes and their application in animal breeding, production and technology.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 497B Companion Animal Behavior (3) Genetic, physiological and environmental bases of canine and feline behavior with applications to management, welfare and behavior modification.

AN SC 497C Animal Biotech Lab (2) Laboratory based course that exposes students to molecular biology techniques with applied emphasis on livestock agriculture and animal biotechnology.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 497E Livestock Marketing (2) This is a Livestock Marketing course where the students will be able to plan and budget a livestock sale.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

AN SC 497E The Clocks That Time US (3) Biological clocks of varying time scales are found in all living organisms and directly control virtually every physiological and behavioral processes in the body. Consequently, the understanding of how clocks function is important to our understanding of biology itself. This class will examine the molecular, cellular and systems level mechanisms that animals utilize to adapt to rhythmic changes in the physical environment, in particular focusing on the mechanisms of biological clock function as they relate to real world outcomes.

AN SC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AN SC 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

NOTE: Also see course listed under Animal Nutrition, Poultry Science, and Veterinary Science.
Last Import from UCM: June 16, 2011 3:00 AM
Anthropology (ANTH)

ANTH 001 (GS;US;IL) Introductory Anthropology (3) Prehistoric and traditional peoples and cultures; traditional customs and institutions compared with those of modern society.
Effective: Summer 2005

ANTH 002 (GS) Introduction to Archaeology (3) Survey of basic approaches used by archaeologists to interpret basic prehistoric human cultural patterns.
Effective: Spring 2000

ANTH 002H (GS) Introduction to Archaeology (3) Survey of basic approaches used by archaeologists to interpret basic prehistoric human cultural patterns.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ANTH 008 (GS;IL) Aztecs, Mayas, and Incas (3) Comparative survey of the development of the pre-Columbian Latin American civilizations.
Effective: Summer 2005

ANTH 009 (GS;IL) Rise of Civilization in the Old World (3) Evolution of Old World complex societies, especially the first great civilizations of Mesopotamia, Egypt, China, and the Indus Valley.
Effective: Spring 2006

ANTH 011 (GS;IL) Introductory North American Archaeology (3) Introduction to archaeology of the North American Indians; sites, methods, and results of research interpreted in cultural history.
Effective: Summer 2005

ANTH 021 (GN) Introductory Biological Anthropology (3) The role of human biology and evolution in culture, society, and behavior.
Effective: Spring 2001

ANTH 022 (GN) Humans as Primates (3) The biological basis of human behavior within the context of primate biology, behavior, and evolution.
Effective: Spring 2009

ANTH 040 Biocultural Evolution (3) Examination of evolutionary models of the development of the human capacity for culture, and of culture as an adaptive mechanism.
Effective: Fall 1986

ANTH 040H Biocultural Evolution (3) Examination of evolutionary models of the development of the human capacity for culture, and of culture as an adaptive mechanism.

ANTH 045 (GS;US;IL) Cultural Anthropology (3) Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.
Effective: Summer 2005

ANTH 045U (GS;US;IL) Cultural Anthropology (3) Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ANTH 060 (GS;IL) (J ST 060, PL SC 060, SOC 060) Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present.
Effective: Summer 2006

ANTH 083S (GS) First-Year Seminar in Anthropology (3) This seminar introduces students to anthropology as a scientific discipline with ties to other social and natural sciences.
Effective: Summer 1999

ANTH 146 (GS;US) North American Indians (3) An introduction to the cultures of the indigenous peoples of North America, north of Mexico, and the effect of contact.
Effective: Spring 2006
ANTH 152 Hunters and Gatherers (3) A comparative study of hunter/gatherer societies using both archaeological and ethnographic evidence.
Effective: Fall 1986

ANTH 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

ANTH 197A The Inca and the Origins of Ancient Andean Civilizations (3) This course covers the archaeology of the Andean region from the peopling of South America to the arrival of the Spanish. Emphasis is placed on major cultural, economic, and political developments that occurred in the ancient Andes.

ANTH 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ANTH 216 (GN;GS) Sex and Evolution (3) Introduction to evolutionary theory and its application to understanding human sexuality and sex differences.
Effective: Summer 2009

ANTH 241 (IL) Peoples and Cultures of Highland New Guinea (3) History, ecology, social, economic, religious, and political systems of the aboriginal peoples and cultures of highland New Guinea.
Effective: Spring 2007
Prerequisite: ANTH 001 or ANTH 045

ANTH 285 (GS;IL) Culture Contact (3) Survey of changes in indigenous societies following contact with colonial powers.
Effective: Summer 2005
Prerequisite: ANTH 002, ANTH 045

ANTH 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

ANTH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1987

ANTH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1986

ANTH 297A Genes in Human Biology and Evolution (4) Cover numerous aspects of human biological variation from both the genetic and evolutionary perspectives. Students will be invited to assay their own DNA for particular genetic variants.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ANTH 297A Anthropology and Artifacts: The Archaeological Roadshow (3) This course examines anthropological approaches to the study of art works (often referred to as "artifacts" when produced by "non-Western" cultures), their production, and function in diverse human societies, both past and present.

ANTH 297B When Climate Changed Civilization (3) Climate and climate change have long been acknowledged as fundamental factors in the development of human societies and economies.

ANTH 297C Ancient Maya Civilization (3) This course investigates the most well-known and flamboyant ancient civilization of the New World—the ancient Maya.

ANTH 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ANTH 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ANTH 321W Intellectual Background of Archaeology (3) Introduction to primary sources on the development of archaeology as a scientific discipline.

The Pennsylvania State University
ANTH 380 Anthropology Museum Studies (3) Introduction to the history, significance, and operation of anthropology museums.
Effective: Spring 2002

ANTH 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

ANTH 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Effective: Fall 1986
Prerequisite: ANTH 021

ANTH 405 Primatology (3) Nonhuman primate origins, evolution, comparative physical and behavioral characteristics, ecological context, phylogeny and taxonomy; and their importance in anthropology.
Effective: Spring 2001
Prerequisite: ANTH 021

ANTH 408 Anthropological Demography (3) Analysis of demographic studies in traditional and very small populations.
Effective: Fall 2003
Prerequisite: 3 credits in anthropology

ANTH 410 Osteology (4) Introduction to the systematic study of the human skeleton from an evolutionary developmental biological perspective.
Effective: Spring 2007
Prerequisite: 3 credits in anthropology 3 credits in the biological sciences or concurrent enrollment in ANTH 401 or ANTH 501

ANTH 411 Skeletal Forensic Anthropology (3) An introduction to anthropological forensic science with an emphasis on what can be learned from human skeletons and archaeological recovery methods.
Effective: Spring 2007
Prerequisite: ANTH 021 or ANTH 410 or Forensic Science major

ANTH 412 Settlement Demography (3) Examination of the demography and ecology of human settlement systems in the preindustrial past.
Effective: Summer 2008
Prerequisite: ANTH 408

ANTH 413 Molecular Forensic Anthropology (3) An introduction to the field of the application of DNA methods to estimating forensically useful phenotypes.
Effective: Summer 2006
Prerequisite: ANTH 021 or Forensic Science major

ANTH 420 (J ST 420) Archaeology of the Near East (3) Culture of the Near East and India from Paleolithic times through the Bronze Age.
Effective: Summer 1999
Prerequisite: ANTH 008, ANTH 009, ANTH 011 or ANTH 012

ANTH 421 Intro to Geospatial Science in Anthropology and Archaeology (3) This course is a practical, data driven, introduction to applications of Geospatial tools in anthropological and archaeological research.
Effective: Summer 2009
Prerequisite: ANTH 001 or ANTH 002

ANTH 422 Meso-American Archaeology and Ethnography (3) Survey of ethnohistorical and ethnographic patterns of Meso-American society; origin and development of ancient civilization in Mexico, Guatemala, and Honduras.
Effective: Spring 1999
Prerequisite: ANTH 008, ANTH 009, ANTH 011 or ANTH 012

ANTH 423 The Evolution of American Indian Culture (3) Historic and archaeological sources used to trace American Indian lifestyles from the first immigrants to the period of Euro-American contact.
Effective: Spring 1999
Prerequisite: 3 credits in anthropology

ANTH 424 Andean Ethnology and Archaeology (3) Cultures of the Andes from earliest settlements to Inka Empire; includes discussion of life in modern Andean communities.
Effective: Spring 2002
Prerequisite: ANTH 002, ANTH 045

ANTH 426W Archaeological Laboratory Analysis (3) Scientific laboratory methods used in the analysis of ceramic and lithic artifacts.
Effective: Summer 2004
Prerequisite: ANTH 007, ANTH 008, ANTH 009 or ANTH 011

The Pennsylvania State University
ANTH 427W Forensic Archaeology (3) Application of archaeological techniques to crime scene investigations, with practical experience in field and laboratory contexts.
Effective: Summer 2007
Prerequisite: ANTH 002

ANTH 428 Archaeological Methods and Theory (3) Scientific methods as applied to archaeological data: evolution, ecology, diffusion, and cyclicism theory.
Effective: Spring 1999
Prerequisite: ANTH 007, ANTH 008, ANTH 009, ANTH 011 or ANTH 012

ANTH 429 Paleoethnobotany (3) Introductory course in paleoethnobotany, the study of the interrelationships between people of the past, natural environment, and plant resources.
Effective: Spring 2010
Prerequisite: ANTH 002

ANTH 431 Advanced Geospatial Science for Anthropologists and Archaeologists (3) This course is an intensive, data driven, treatment of the use of geographic information systems in anthropological and archaeological research.
Effective: Summer 2009
Prerequisite: ANTH 421

ANTH 432 Environmental Archaeology (3) Introductory course in Environmental Archaeology, with emphasis on method and theory in the subfields archaeobotany, pedoarchaeology, and zooarchaeology.
Effective: Spring 2010
Prerequisite: ANTH 002

ANTH 433 Archaeological Ethics and Law (3) Introductory course that examines prominent ethical and legal issues in archaeology integral to modern applied research and practice.
Effective: Spring 2010
Prerequisite: ANTH 002

ANTH 440 South American Tribal Societies (3) Ethnographic survey of tribal societies in South America. Special emphasis on non-Andean area.
Effective: Fall 1986

ANTH 441 (IL) From Stone Ax to Uzi: Tradition and Change in the New Guinea Highlands (3) This course explores cultural change and innovation among tribal peoples of Highland New Guinea from stone tool technology to globalization.
Effective: Fall 2009
Prerequisite: ANTH 045

ANTH 444 Primitive Warfare (3) Critical overview of the ethnography and theory of primitive warfare.
Effective: Summer 2002
Prerequisite: ANTH 045 ; and ANTH 002 or ANTH 021

ANTH 445W Ethnographic Film (3) Comparisons of written and visual ethnography; critical assessment of ethnographic film; cross-cultural variation.
Effective: Summer 2000
Prerequisite: ANTH 001 or ANTH 045

ANTH 446 Mating and Marriage (3) An examination of human mating mainly from the viewpoint of behavioral ecology, centering on the species-typical institution of marriage.
Effective: Summer 2006
Prerequisite: ANTH 045, ANTH 021

ANTH 448 (AM ST 448) Ethnography of the United States (3) Ethnographic descriptions of various dimensions of life in the United States.
Effective: Fall 2007
Prerequisite: ANTH 045

ANTH 450 Comparative Social Organization (3) Social structure and cultural change among nonliterate societies.
Effective: Fall 1986
Prerequisite: ANTH 045

ANTH 450W Comparative Social Organization (3) Social structure and cultural change among nonliterate societies.
Effective: Summer 1996
Prerequisite: ANTH 045

ANTH 451 Economic Anthropology (3) Different approaches to the study of the economics of non-Western societies, emphasizing the interrelationships between noneconomic factors and economic behavior.
Effective: Fall 1986
Prerequisite: ANTH 045

ANTH 453 Anthropology of Religion (3) Traditional and modern religions and historical and contemporary religious movements from an anthropological perspective.
Effective: Fall 2003
Prerequisite: ANTH 001 or ANTH 045

ANTH 455 Global Processes and Local Systems (3) Ethnographic, comparative, historic, evolutionary treatment of global economic, political, and cultural processes and their consequences for local systems.
Effective: Fall 2001
ANTH 456 Cultural Ecology (3) Survey of the methods and concepts of cultural ecology, focusing on the interaction between cultural and geographical systems.
Effective: Fall 1986
Prerequisite: 3 credits in anthropology

ANTH 457 (US;IL) Jewish Communities: Identity, Survival, and Transformation in Unexpected Places (3) Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement.
Effective: Summer 2006
Prerequisite: ANTH 001 or ANTH 045, HEBR 010, J ST 010, SOC 001, SOC 005, SOC 007, SOC 015

ANTH 458 Ethnographic Field Methods (3) Course introduces students to ethnographic field methods, includes student projects and simple analyses that don't require statistical sophistication.
Effective: Spring 2009
Prerequisite: ANTH 045

ANTH 459 Applied Anthropology (3) A survey of the development of applied anthropology and the current issues facing anthropologists working in non-academic settings.
Effective: Summer 2002
Prerequisite: ANTH 045

ANTH 460 (BIOL 460) Human Genetics (3) The human genome, its variation, origins, and relation to disease and other traits.
Effective: Fall 2007
Prerequisite: BIOL 230W or 3 credits in genetics

ANTH 460H (BIOL 460H) Human Genetics (4) Gene mapping in humans; molecular basis of genetic disease; genomic structure; immunogenetics; and genetic evidence for human evolutionary history.
Effective: Fall 2001
Prerequisite: 3 credits in genetics or ANTH 021 or BIOL 222 or BIOL 230W; and 3 credits in statistics

ANTH 461 Molecular Anthropology (3) Provides framework to understand current issues in biology, genetics, and anthropology as they relate to the evolution of our species.
Effective: Spring 2005
Prerequisite: 3 credits in biological anthropology or 3 credits in biology

ANTH 463 Quantitative Analysis of Morphological Data (3) The application of morphometric methods to anthropological data: phenotypes of organisms, artifacts, and traits.
Effective: Fall 2004
Prerequisite: ANTH 002 or ANTH 021; STAT 200; 3 additional credits in anthropology

ANTH 464 (BIOL 464) Sociobiology (3) The study of the adaptive function of social behavior, the comparative analysis of social organization, and the ecology of sociality.
Effective: Fall 1986
Prerequisite: 6 credits in biology or anthropology

ANTH 465H Fifteen Great Biology Papers (3) Reading and discussion of the most influential papers in the history of biology that illustrate exceptional insight and elegant reasoning.
Effective: Spring 2003
Prerequisite: ANTH 021 or 3 credits in evolutionary biology or genetics and 3 credits in statistics

ANTH 466 The Skull (3) Survey of the mammalian skull from many perspectives including evolution, development, anatomy, function, and variability of the skull.
Effective: Spring 2003
Prerequisite: ANTH 021

ANTH 470H Our Place in Nature (3) An evolutionary and genetic consideration of our understanding of human beings as a part of the natural world.
Effective: Fall 2001
Prerequisite: 3 credits each in genetics, evolutionary biology, and statistics

ANTH 471H Biology, Evolution, and Society (3) Exploration of the genetic theory of evolution and development, its history and application within Biology and beyond.
Effective: Spring 2008
Prerequisite: ANTH 021, BIOL 222, BIOL 230, BIOL 322 or BIOL 460; 3 credits in statistics

ANTH 476W Anthropology of Gender (3) Cross-cultural construction of gender and sex roles; theories of gender construction; case studies and practical effects.
Effective: Summer 2011
Prerequisite: 3 credits in women's studies or anthropology

ANTH 477 (US;IL) Language, Culture, and Society (3) Relationships among language, culture and society, with an anthropological emphasis.
Effective: Spring 2007
Prerequisite: ANTH 045 or ANTH 001

ANTH 478 (IL) Cannibalism (3) Explores the cultural institution of cannibalism, uses of the "cannibal" label, and cannibalism's meaning among those who practiced it.
Effective: Spring 2010
Undergraduate Bulletin Archive – June, 2011  

Prerequisite: ANTH 045

ANTH 492 Intermediate Field Methods (3-6) On-site experience in collecting archaeological, behavioral, or biological data. 
Effective: Spring 2001
Prerequisite: ANTH 002

ANTH 493 Field Techniques (3-6) Training in techniques involving analyses of archaeological, behavioral, or biological data. 
Effective: Spring 2001
Prerequisite: ANTH 002

ANTH 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Effective: Summer 1994

ANTH 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Effective: Fall 2007

ANTH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. 
Effective: Spring 2000
Prerequisite: prior approval of proposed assignment by instructor

ANTH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. 
Effective: Fall 1986

ANTH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Effective: Fall 1986

ANTH 497A Evolution and Development and Humans Origins (3) Will provide a developmental framework for studying how natural selection has shaped human evolution. Survey the basic embryology of key morphological systems. 
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ANTH 497A Evolution of Human Walking (3) This course will provide a multidisciplinary approach of the evolution of human bipedal walking and running and how it differs from that of our quadrupedal relatives. 

ANTH 497B The Aztec Heritage (3) Students will learn about the prehistory of the Valley of Mexico which encompassed the ancient Aztec, Toltec, and Teotihuacan cultures and how Dr. Sander's work contributed to their exploration. 

ANTH 497C Social Organization of Traditional Societies (3) Explores the ways in which individuals in traditional societies organize themselves as groups, the principles they use to determine membership in those groups and the way in which those groups work to fulfill the necessary functions of society. 

ANTH 497D Learning & Teaching Anthropology Using Video (3) This class will focus on preparing students with the tools and skills they will need to write, film and edit short science educational videos. Students will use Final Cut Pro for editing videos learning about basic editing techniques. 

ANTH 497E The Evolution of Human Mating (3) The goal of this course is to bring students in contact with the primary literature on human sexuality and sexual selection. 

ANTH 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Effective: Fall 1992

ANTH 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. 
Effective: Summer 2005

ANTH 499A (IL) (CAMS 499A, HIST 499A) Archaeology, History, and Culture of Turkey's Aegean Coast (3) The 2011 study tour will focus on Turkey's western coast, the location of Troy and the Trojan War of the heart of the Greco-Roman and Byzantine empires.

The Pennsylvania State University
ANTH 499B (IL) (CAMS 499B, HIST 499B) **Foreign Study** (3) This course is offered as an option for students to earn an additional 3 credits, with the permission of the instructor. The students will be required to write a research paper on an approved topic.
Effective: Summer 2011 Ending: Summer 2011

ANTH 499C (IL) (CAMS 499C, HIST 499C, RL ST 499C) **Excavation, Survey and GIS for Archaeologists** (6) Entails excavation, intensive survey, and an introduction to GIS for archaeologists.
Effective: Summer 2011 Ending: Summer 2011

ANTH 499D (IL) (CAMS 499D, HIST 499D, RL ST 499D) **Israel Dig: Excavation, Conservation, and Public Archaeology** (6) Entails excavation, conservation, and public archaeology involved with the preservation and interpretation of Israel’s archaeological sites.
Effective: Summer 2011 Ending: Summer 2011

ANTH 499E (IL) (CAMS 499E, HIST 499E) **Study Tour of Jordan: Petra, the Spice Route, Roman Palestine** (3) Entails an in-depth seminar with a focus on the archaeology and history of Roman Palestine.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Applied Linguistics (APLNG)

APLNG 083S (GS;US;IL) First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Summer 2005

APLNG 083T (GS;US;IL) First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

APLNG 083T (GS;US;IL) First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

APLNG 083T (GS;US;IL) First-Year Seminar in Applied Linguistics (3) Introduction to the application of theories of language to cognition, culture, gender, society, and second language acquisition.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

APLNG 200 (GH;IL) Introduction to Language, Culture, and Social Interaction (3) Introduction to the interrelationships among language, culture, and social interaction and their fundamental links to social identities and discourse communities.
Effective: Spring 2009

APLNG 210 The Ecology of Global English (3) This course explores how English language enables globalization processes and how globalization changes the structure, norms, and usage of English.
Effective: Spring 2009

APLNG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2004

APLNG 410 Teaching American English Pronunciation (3) Study and application of principles of North American English phonetics and theories of teaching pronunciation.
Effective: Fall 2001

APLNG 412 Teaching Second Language Writing (3) This course provides opportunities for exploring various perspectives on theory, research, and pedagogical applications in second language writing.
Effective: Summer 2003

APLNG 482Y (IL) Introduction to Applied Linguistics (3) Application of theories of language to psycholinguistics, philosophy of language, anthropological linguistics, sociolinguistics, bi/multilingualism, second language acquisition and teaching.
Effective: Spring 2006

APLNG 484 Discourse-Functional Grammar (3) Develop a working knowledge of the structure of English and apply such knowledge to research and/or classroom situations.
Effective: Fall 2004

APLNG 491 Theory: Second Language Acquisition (3) An investigation into current issues in the theoretical bases of second language acquisition.
Effective: Fall 2006

APLNG 493 (IL) Teaching English as a Second Language (3) Theory, research, and pedagogy that focus on the teaching of English to speakers of other languages in varied contexts.
Effective: Spring 2006

APLNG 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2001

APLNG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002
Applied Youth, Family and Community Education (AYFCE)

AYFCE 211 (GS;US;IL) Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Spring 2011

AYFCE 211S (GS;US;IL) Foundations: Civic and Community Engagement (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Spring 2011

AYFCE 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2011

Prerequisite: prior approval of proposed assignment by instructor

AYFCE 295A Observation of Cooperative Extension Service Programs (1-2) Supervised observation of extension education in agriculture, community resource development; family living, 4-H programs; appraisal of responsibilities of extension professionals. Effective: Spring 2011

AYFCE 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

AYFCE 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

AYFCE 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

AYFCE 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

AYFCE 438 (US) Living in an Increasingly Diverse Society (1-3) Students in this course will explore selected dimensions of diversity through lecture, discussion, speakers, active participation, and experiential learning. Effective: Spring 2011

AYFCE 439 Contemporary Youth Issues (3) This course focuses on empirically-supported interventions that promote resiliency and reduce risk for problem behaviors among youth in community settings. Effective: Spring 2011

Prerequisite: a minimum of six credits in courses that focus on youth and/or families

AYFCE 455 Extension Youth Development Programs and Volunteer Management (3) A study of 4-H/Extension youth programs and the variety of roles played by volunteer leaders. Effective: Spring 2011

Prerequisite: 6 credits of social or behavioral sciences

AYFCE 470 Consumer and Financial Skills (3) Consumer and financial issues formal and non formal educators need to be informed about to function in today’s society. Effective: Spring 2011

Prerequisite: Six credits of social and behavioral sciences and six credits of quantification (math)

AYFCE 495 Internship in Youth and Family Education Programs (6-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships. Effective: Spring 2011

Prerequisite: prior approval of proposed assignment by instructor

AYFCE 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2011

The Pennsylvania State University
AYFCE 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2011

AYFCE 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

AYFCE 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

Last Import from UCM: June 16, 2011 3:00 AM
Arabic (ARAB)

ARAB 001 **Elementary Modern Standard Arabic** I (4) Introduction to reading, writing, pronunciation, and aural comprehension of modern standard Arabic; simple grammatical forms; basic vocabulary.
Effective: Summer 2010

ARAB 002 **Elementary Modern Standard Arabic** II (4) Continuation of ARAB 001; development of additional skills in conversation, reading, and writing; grammar and vocabulary building; cultural components.
Effective: Summer 2010
Prerequisite: ARAB 001

ARAB 003 **Intermediate Modern Standard Arabic** (4) More complex grammatical forms; vocabulary building principles; continued development of skills in conversation, reading, writing; culturally-oriented readings and films.
Effective: Summer 2010
Prerequisite: ARAB 002

ARAB 051 **Elementary Intensive Arabic for Graduate Students** I (3) Intensive introduction to Modern Standard or Colloquial Arabic: first half of graduate sequence in elementary reading, writing, listening, cultures.
Effective: Summer 2008
Prerequisite: graduate standing

ARAB 052 **Elementary Intensive Arabic for Graduate Students** II (3) Intensive introduction to Modern Standard or Colloquial Arabic: second half of graduate sequence in elementary reading, writing, speaking, listening, cultures.
Effective: Summer 2008
Prerequisite: ARAB 051 and graduate standing

ARAB 053 **Intermediate Intensive Arabic for Graduate Students** (3) Continued intensive study of Modern Standard or Colloquial Arabic at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite: ARAB 052 or equivalent and graduate standing

ARAB 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ARAB 099 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 110 (GH;IL) **Arab Language, Cultures, and Current Topics** (3) Fourth-semester Modern Standard Arabic: study of cultures through authentic discourse, texts, film; development of reading, writing, listening, speaking skills.
Effective: Summer 2010
Prerequisite: ARAB 003 or permission of program

ARAB 165 (IL) (HIST 165, RL ST 165) **Introduction to Islamic Civilization** (3) Islamic history, culture, and religious life c.600-1500 C.E.
Effective: Spring 2006

ARAB 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ARAB 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

ARAB 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1995
Prerequisite: prior approval of proposed assignment by instructor

ARAB 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1986

ARAB 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

The Pennsylvania State University
Effective: Summer 1986

ARAB 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

ARAB 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ARAB 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ARAB 401 (IL) Advanced Language & Cultures I (3) Fifth-semester Modern Standard Arabic: reading more complex texts, films, further development of conversation, composition skills, Arab cultures, current issues.
Effective: Spring 2008
Prerequisite: ARAB 110 or approval of program

ARAB 402 (IL) Advanced Language & Cultures II (3) Sixth-semester Modern Standard Arabic: reading more complex texts, films, further development of conversation, composition skills, Arab cultures, current issues.
Effective: Spring 2008
Prerequisite: ARAB 401 or approval of program

ARAB 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

ARAB 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

ARAB 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1986

ARAB 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1986

ARAB 497G Professional Development for Teachers of Arabic (1-3) Professional development workshop to provide current and prospective teachers of Arabic with information about the practice in innovative teaching methodologies.
Effective: Summer 2011 Ending: Summer 2011

ARAB 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ARAB 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Architectural Engineering (A E)

A E 097 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

A E 124S Architectural Engineering Orientation (1) Introduction to architectural engineering; lectures and discussions with special reference to the relation of architectural engineering to the building industry.
Effective: Fall 1999

A E 197 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

A E 202 Introduction to Architectural Engineering Concepts (3) Introduction to profession of architectural engineering, building envelope systems, sustainable design, fire protection systems, and engineering economics.
Effective: Spring 2007

A E 210 Introduction to Architectural Structural Systems (3) Qualitative study of architectural structural systems; historical development of structures; insights of structural analysis and synthesis; comparative structural types. This course is intended for Architecture students.
Effective: Fall 2005
Prerequisite: algebra trigonometry

A E 211 Introduction to Environmental Control Systems (3) Qualitative study of humans in macro- and micro-architectural environmental systems. This course is intended for Architecture students.
Effective: Fall 2005

A E 221 Architectural Building Materials (3) The structural and architectural use of building materials; commercial standardization, classification, and description as encountered in the building trades.
Effective: Fall 2005
Concurrent: A E 222

A E 222 Working Drawings (3) Materials and methods of construction used in residences, and preparation of working drawings for a small building.
Effective: Fall 2007
Prerequisite: E DSGN 130 or E DSGN 100 Concurrent: A E 221

A E 296 Independent Studies (1-18) Creative projects including research and design that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2009

A E 297 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1985

A E 297B AIHI Sustainable Housing Solutions (0-1) Affordable sustainable housing in the applied context of American Indian reservations. Includes a two-week summer experience in Montana. For students of 1st through 4th semester standing.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: A E 297A

A E 308 Introduction to Structural Analysis (4) Algebraic and graphical methods of analysis of determinate members, deflections; introduction to indeterminate analysis methods. Course includes practicums.
Effective: Spring 2008
Prerequisite: E MCH 211, E MCH 213

A E 309 Architectural Acoustics (3) Acoustical design for good hearing conditions and noise control; construction details, materials, acoustical properties of room shapes; sound absorption, transmission. Course includes practicums.
Effective: Fall 2005
Prerequisite: A E 221, A E 222, PHYS 213

A E 310 Fundamentals of Heating, Ventilating, and Air Conditioning (3) Fundamental principles and engineering procedures for the design of heating, ventilating, and air-conditioning systems, including energy utilization and constraints.
Effective: Fall 2007
Prerequisite: M E 201 ; Prerequisite or concurrent: A E 202

A E 311 Fundamentals of Electrical and Illumination Systems for Building (3) Fundamental principles, systems, and planning concepts for electrical and illumination systems in modern buildings.
A E 372 Introduction to the Building Industry (3) Introduction to the building industry; owner, designer responsibilities; documents, bidding procedures; design-construct contracts; project management; insurance, labor relations.
Effective: Fall 1983
Prerequisite: sixth-semester standing in Architectural Engineering

A E 397 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

A E 401 Design of Steel and Wood Structures for Buildings (3) Application of principles of engineering mechanics to layout, analysis, design, and detailing of structural elements in steel and wood of simple buildings.
Effective: Fall 2005
Prerequisite: A E 221, A E 222, A E 308

A E 402 Design of Concrete Structures for Buildings (3) Application of principles of engineering mechanics to layout, analysis, design, and detailing of structural elements in concrete of simple buildings.
Effective: Fall 2005
Prerequisite: A E 221, A E 222, A E 308

A E 403 Advanced Steel Design for Buildings (3) Continuation of A.E. 401. Advanced analysis, design, and detail of the structural elements in wood and steel.
Effective: Fall 2005
Prerequisite: A E 401, A E 430

A E 404 Building Structural Systems in Steel and Concrete (3) Basic analysis, design, and detailing of steel and concrete structural elements for buildings, emphasizing systems design and comparisons. A E 404 is not permitted for AE Structural Option students or for Architecture students.
Effective: Summer 2006
Prerequisite: A E 221, A E 222, A E 308

A E 421 Architectural Structural Systems I (3) Qualitative and quantitative analysis and design of architectural structures, force flow; structure configurations; measurement and experiments; design studio critique.
Effective: Spring 1990
Prerequisite: A E 210 3 credits in mathematics

A E 422 Architectural Structural Systems II (3) Continuation of A E 421, with emphasis on structural configuration and construction assemblies.
Effective: Spring 1990
Prerequisite: A E 421

A E 424 Environmental Control Systems I (3) Fundamental principles and applications of environmental systems in buildings. This course is intended for Architecture students.
Effective: Fall 2005
Prerequisite: A E 211

A E 430 Indeterminate Structures (3) Classical methods of analysis for beams, frames, arches, and secondary stresses as applied to buildings; introduction to modern methods.
Effective: Summer 1984
Prerequisite: A E 308

Effective: Fall 2005
Prerequisite: A E 402, A E 430

A E 432 Design of Masonry Structures (3) Analysis and design of unreinforced and reinforced masonry: non-bearing walls, bearing walls, shear walls, masonry building systems.
Effective: Spring 2005
Prerequisite: A E 402 or C E 341

A E 439 Modern Structural Systems (3) Analysis and design of building structures of unusual types.
Effective: Summer 1981
Prerequisite: A E 401, A E 402, A E 430

A E 444 Micro CADD Applications for Buildings (3) Application of microcomputer based CADD systems to architectural engineering problems including graphics, system customization, and AI programming techniques.
Effective: Spring 2008
Prerequisite: A E 222; CMPSC 201 or CMPSC 202

A E 454 Advanced Heating, Ventilating, and Air Conditioning (3) Engineering design and performance analysis procedures for complex commercial building systems, including energy conservation techniques; design project.
Effective: Fall 1986

The Pennsylvania State University
A E 455 Advanced Heating, Ventilating, and Air Conditioning System Design (3) Design of several different systems for a course project building; control strategy; economic comparisons using life-cycle cost techniques. Effective: Fall 1983
Prerequisite: A E 454

A E 456 Solar Energy Building System Design (3) Solar radiation, collectors, and thermal storage; design and analysis of a heating system using system-simulation computer program. Effective: Summer 1984
Prerequisite: seventh-semester standing in Engineering

A E 457 HVAC Control Systems (3) Theory of automatic control. HVAC control applications. Control system components, control loops, development and documentation of control logic, control commissioning. Effective: Summer 2006
Prerequisite: A E 454

A E 458 Advanced Architectural Acoustics and Noise Control (3) Advanced consideration of noise control in buildings; ventilating system noise and vibration; acoustic design variables. Effective: Fall 1983
Prerequisite: A E 309

A E 461 Architectural Illumination Systems & Design (3) Lighting units & photometry; lighting equipment; design criteria, calculation methods; the design process; energy codes. Effective: Fall 2005
Prerequisite: A E 311

A E 464 Advanced Architectural Illumination Systems & Design (3) Flux transfer theory; advanced lighting and control systems; emergency lighting; daylighting; visual performance issues; psychological aspects of lighting. Effective: Fall 2005
Prerequisite: A E 461

A E 466 Computer Aided Lighting Design (3) Design and analysis for outdoor area; floodlighting; and interior applications, including design criteria; economic analysis; modeling algorithms; and visualization. Effective: Fall 2005
Prerequisite: A E 444, A E 461

A E 467 Advanced Building Electrical System Design (3) Design of electrical systems for commercial and industrial facilities emphasizing design practice and integration with codes and standards. Effective: Spring 2008
Prerequisite: A E 311, E E 211

A E 470 Residential Building Design and Construction (3) Managerial aspects; architectural and code considerations; cost estimating, design, and construction of structural, plumbing, HVAC, and electrical systems. Effective: Fall 1983
Prerequisite: A E 372 or C E 331; seventh-semester standing in Architectural Engineering or Civil Engineering

A E 472 Building Construction Planning and Management (3) Construction organization and contracts; preconstruction services; estimating; scheduling; cash flow; site planning and preparation; building construction sequences; construction business presentations; value engineering. Effective: Fall 2005
Prerequisite: seventh-semester standing in Architectural Engineering

A E 473 Building Construction Management and Control (3) Building construction project planning; construction cost, schedule, quality and safety control systems; project cost accounting; change management; construction company management. Effective: Fall 2005
Prerequisite: A E 472

Prerequisite: A E 472

A E 475 Building Construction Engineering I (3) Project planning, supervision, inspection of architectural and structural operations in major buildings; mobilization, coordination of trades; offsite testing and fabrication. Effective: Fall 2001
Prerequisite: A E 401 or A E 402

A E 476 Building Construction Engineering II (3) Construction of mechanical and electrical systems in major buildings; fire protection, sound control, elevating; trade coordination; manufacturers' developments; computer application. Effective: Fall 1983
Prerequisite: A E 309, A E 475

A E 481 W Comprehensive Architectural Engineering Senior Project I (4) Building project selection and preparation of overall plan; preliminary investigation of building design and construction issues; creation of individual Capstone Project Electronic Portfolio (CPEP) and project proposal required. Effective: Fall 2005
Prerequisite: ARCH 441 fifth-year architectural engineering standing in major area of emphasis

A E 482 Comprehensive Architectural Engineering Senior Project II (4) Continuation of A E 481 W. Engineering analysis
of building systems; emphasis on analysis and design of building structural, mechanical, lighting/electrical, and construction related systems. Final written report, web-based project portfolio and verbal presentation are required.

Effective: Fall 2005
Prerequisite: A E 481W

A E 486 Professional Engineering Practice (3) A study of the influences which affect the practice of architectural engineering, particularly codes, ethics, legal considerations, and contract documents.

Effective: Fall 1983
Prerequisite: seventh-semester standing

A E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

A E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

A E 497D Daylight Analysis of Roman Architecture (3) Developing models of the time dependent loads on building system on the basis of fundamental conservation of energy and heat transfer relationships; energy utilization modeling skills that allow alternative building system designs to be explored.

Effective: Summer 2011 Ending: Summer 2011

A E 497F Daylight Analysis of Roman Architecture (3) Analysis of Roman architecture from the perspective of daylight. Topics include: solar geometry; bldg orientation & form; daylight design methods; characterization of interior & exterior lighting conditions. Offered on location in Rome.

Effective: Summer 2011 Ending: Summer 2011

A E 497F Load/Energy Simulation (3) Developing models of the time dependent loads on building system on the basis of fundamental conservation of energy and heat transfer relationships; energy utilization modeling skills that allow alternative building system designs to be explored.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

A E 498 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1992

A E 498B AIHI Sustainable Housing Solutions (0-1) Affordable sustainable housing in the applied context of American indian reservations. Includes a two-week summer experience in Montana. For students of 5th semester standing or higher.

Effective: Summer 2011 Ending: Summer 2011
Prerequisite: A E 498A

A E 498D Photovoltaic Systems Design and Construction (3) Design and construction requirements of residential and commercial scale photovoltaic systems.

Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Architectural Engineering Technology (AE T)

AE T 101 Building Materials (3) Structural and architectural use of building materials and construction assemblies.
Effective: Fall 1992

AE T 102 Methods of Construction (3) Materials and methods of construction used in buildings, as expressed in drawings.
Effective: Fall 1992
Prerequisite: AE T 101, EG T 101, EG T 102

AE T 103 Plumbing and Fire Protection (3) Layout of plumbing and fire protection in buildings to meet code and usage requirements.
Effective: Fall 1992
Prerequisite: or concurrent: AE T 102

AE T 113 Site Planning (2) Energy conservation through optimum site utilization, contours, cut and fill calculations, storm drainage, spot grading, and finish grading.
Effective: Fall 1992

AE T 121 Introduction to Building Environmental Systems (2) Introduction to building environmental systems technology terminology, concepts, and the design process.
Effective: Spring 1994

AE T 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AE T 204 Heating, Ventilating, and Air Conditioning Layout (3) Fundamental calculations and layout of systems in buildings.
Effective: Fall 1992
Prerequisite: AE T 103, Prerequisite or concurrent: AE T 102

AE T 206 Architectural Presentation (2) Visual communication through architectural presentation drawings. Line, value, color, and composition.
Effective: Fall 1992
Prerequisite: EG 001 or EG 003

AE T 207 Advanced Construction Methods (3) Integration of materials and systems in working drawings.
Effective: Fall 1992
Prerequisite: fourth-semester standing

AE T 210W Architectural Engineering Office Practice Using Writing Skills (3) Concepts, procedures, and writing-intensive activities to properly prepare site observation reports, cost estimates, contractual conditions, and outline and technical specification.
Effective: Spring 1994
Prerequisite: fourth-semester standing

AE T 212 Building Lighting and Electrical Layout (3) Layout of lighting and electrical distribution in buildings.
Effective: Fall 1992

AE T 214 Steel Construction (3) Strength of materials as applied to the design of simple steel structures.
Effective: Fall 1992
Prerequisite: AE T 102, MCH T 111

Effective: Fall 1992
Prerequisite: AE T 102, MCH T 111

AE T 227 Liquid Heating and Cooling Systems (3) Water, steam, and refrigerant systems and components; pumps and piping; heat exchangers; fluid and component selection; power and controls.
Effective: Spring 2007
Prerequisite: AE T 121, MET 281

AE T 228 Air Heating, Cooling, and Ventilating Systems (3) Air systems and distribution components; fans and ductwork; heat exchange coils; dampers and controls; residential fired equipment operation.
Effective: Spring 1994
Concurrent: AE T 227

AE T 229 Analysis of Building Environmental Systems (3) Comprehensive analysis and application of building environmental systems with focus on selected areas; calculation and layout; computer modeling of systems.
Effective: Spring 1994
Prerequisite: fourth-semester standing
AE T 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1997

AE T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

AE T 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Architecture (ARCH)

ARCH 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

ARCH 098 Special Topics (1-15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2001

ARCH 099 (IL) Foreign Studies--Architecture (1-15) Individual or group instruction conducted in a foreign country. Effective: Summer 2005

ARCH 100 (GA) Architecture and Ideas (3) General introduction to world architecture, emphasizing the relationship between concepts, philosophies, values and ideologies in shaping the built environment. Effective: Summer 2011

ARCH 101 Introduction to Architecture Studio (3) Basic concepts/methods of architectural design; introduction/exploration of techniques of architectural communication/representation; structural, functional, and aesthetic dimensions of architecture are examined. Effective: Summer 1999

ARCH 121 Visual Communications I (2) Development of two and three-dimensional graphic communications skills and techniques required for the practice of architecture. Effective: Fall 2008

ARCH 122 Visual Communications II (2) Development of two-dimensional digital graphic communications skills and techniques required for the practice of architecture. Effective: Summer 2008 Ending: Summer 2011 Prerequisite: ARCH 121

ARCH 130A Basic Design and Research I (3-6) Multidimensional design and perceptual development. Formulation of abstracted concepts and logical visual models. Effective: Spring 1996 Prerequisite: Architectural Engineering majors only

ARCH 131S Basic Design Studio I (4) An introduction to the basic concepts, methods, and skills of architectural design in a project-based, active learning, studio environment. Effective: Summer 2008 Prerequisite: or concurrentARCH 121

ARCH 132 Basic Design Studio II (4) Continuation of ARCH 131S which further explores basic concepts, methods, and skills of architectural design with an emphasis on craftsmanship. Effective: Summer 2008 Ending: Summer 2011 Prerequisite: ARCH 121, ARCH 131S . Prerequisite or concurrent:ARCH 122

ARCH 132 Basic Design Studio II (4) Continuation of ARCH 131S which further explores basic concepts, methods, and skills of architectural design with an emphasis on craftsmanship. Effective: Fall 2011 Future: Fall 2011 Prerequisite: Students must earn a C or better in:ARCH 131S andARCH 121 Concurrent: ARCH 122

ARCH 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

ARCH 198 Special Topics (1-15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2001

ARCH 199 (IL) Foreign Studies--Architecture (1-15) Individual or group instruction conducted in a foreign country. Effective: Summer 2005

ARCH 203 Materials and Building Construction I (3) Instruction in the design and construction of buildings utilizing
wood and steel.

Effective: Spring 2001 Ending: Summer 2011
Prerequisite: third-semester standing in the Architecture curriculum

ARCH 203 **Materials and Building Construction I** (3) Instruction in the design and construction of buildings utilizing wood and steel.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: A E 210  Concurrent: ARCH 231 and A E 421

ARCH 204 **Materials and Building Construction II** (3) This course will continue the presentations of ARCH 203, with a focus on concrete and masonry materials.

Effective: Spring 2001 Ending: Summer 2011
Prerequisite: ARCH 203 fourth-semester standing in the Architecture curriculum

ARCH 204 **Materials and Building Construction II** (3) This course will continue the presentations of ARCH 203, with a focus on concrete and masonry materials.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 203  Concurrent: ARCH 232 and A E 422

ARCH 210 (GA) **Introduction to Architecture and Planning Theories** (3) The course introduces architectural and urban theory by presenting and exploring key concepts through major texts from the Western tradition.

Effective: Spring 2009

ARCH 211 (GA) **Contemporary Design and Planning Theories II** (3) Continuation of ARCH 210, with an in-depth analysis and study of significant and current environmental constructs and issues.

Effective: Summer 1995
Prerequisite: ARCH 210

ARCH 231 **Architectural Design I** (6) Design of limited environments within defined constraints.

Effective: Spring 2007 Ending: Summer 2011
Prerequisite: A&A 103 and A&A 104 second-year standing in architecture curriculum

ARCH 231 **Architectural Design I** (6) Design of limited environments within defined constraints.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 132 and ARCH 122  Concurrent: ARCH 203 and A E 421

ARCH 232 **Architectural Design II** (6) Design of limited environments within defined constraints.

Effective: Spring 2007 Ending: Summer 2011
Prerequisite: ARCH 231 second-year standing in Architecture curriculum

ARCH 232 **Architectural Design II** (6) Design of limited environments within defined constraints.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 231 and ARCH 203 and A E 421  Concurrent: ARCH 204 and A E 422

ARCH 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

Effective: Fall 2007 Ending: Summer 2011
Prerequisite: prior approval of proposed assignment by instructor

ARCH 295 **Advanced Architectural and Related Design/Construction Work Experience I** (1-3 per semester/maximum of 6) Supervised off-campus, nongroup instruction including field experiences, practica, or architectural and related design/construction work experience.

Effective: Fall 2011 Future: Fall 2011
Prerequisite: grade of C or higher in: ARCH 132, ARCH 121 and ARCH 122 ; Instructor approval of a proposal for work experience including employment agreement with an approved supervisor

ARCH 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

ARCH 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

ARCH 298 **Special Topics** (1-15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 2001

ARCH 299 (IL) **Foreign Studies--Architecture** (1-15) Individual or group instruction conducted in a foreign country.

Effective: Summer 2005

ARCH 311W **Architectural and Planning Theories** (3) Architectural theory course with a strong focus on the reading and writing of essays about architecture and related fields.

Effective: Summer 2006 Ending: Summer 2011
Prerequisite: fifth-semester standing in the Architecture curriculum
ARCH 311W **Architectural and Planning Theories** (3) Architectural theory course with a strong focus on the reading and writing of essays about architecture and related fields.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 015 or ENGL 030 ; Students must also earn a C or better in: ARCH 210 and ART H 201 and ART H 202

ARCH 312 **Critical Postcolonial and Contemporary Perspectives in South Asian Architecture** (3) This course will examine critical postcolonial and contemporary architectural issues in South Asia in the context of cultural globalization today.
Effective: Summer 2008

ARCH 316 (GA) **Analysis of Human Settlements: Cities** (3) Analysis of the interrelated factors which determined and shaped the various types of early cities through the nineteenth century.
Effective: Summer 1989

ARCH 317 **Theory of Modern Japanese Architecture** (3) Introduction to the development of modern Japanese architecture from the Meiji Restoration of 1868 to the present day.
Effective: Summer 2008

ARCH 331 **Architectural Design III** (6) Development of the design process through organizational methodologies, based on physical, functional, and social-behavioral determinants.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: ARCH 232 faculty review third-year standing in Architecture curriculum

ARCH 332 **Architectural Design IV** (6) Development of the design process through organizational methodologies, based on physical, functional, and social-behavioral determinants.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: ARCH 331 third-year standing in Architecture curriculum

ARCH 395 **Architecture Work Study** (6) Off-campus, non-group instruction under the direction of approved professionals in the field. Architecture majors only.
Effective: Spring 2001 Ending: Summer 2011

ARCH 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

ARCH 398 **Special Topics** (1-15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ARCH 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

ARCH 417 **The Language of Boundaries in Architecture and the Landscape** (3) This course examines the development and significance of boundaries in the construction of human space and time. Students who have taken other courses from Architecture Visual Arts, Geography, or Philosophy that treat some aspect of spatial perception, conception, construction, or visualization, or who have completed equivalent study independently, may enroll with the permission of the program.
Effective: Summer 2009
Prerequisite: Students should have taken at least one of the following courses: ARCH 210, ARCH 130A, ARCH 131S, LARCH 060, LARCH 065, GEOG 020 or INART 003 or permission of program

ARCH 431 **Architectural Design V** (6) Continuation of ARCH 331 and 332, with design and research in program option areas.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: ARCH 332 fourth-year standing in Architecture curriculum

ARCH 431 **Architectural Design V--Foreign Study** (6) A studio offered in Rome, Italy, which emphasizes urban planning and architectural design in an urban context.

The Pennsylvania State University
ARCH 431A (IL) Architectural Design V--Foreign Study (6) A studio offered in Rome, Italy, which emphasizes urban planning and architectural design in an urban context.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 332 and AE 424 Concurrent: ARCH 499B and ARCH 499C

ARCH 432 Architectural Design VI (6) A continuation of ARCH 431, this course explores in greater depth urban planning and architectural design in an urban context.
Effective: Spring 2009 Ending: Summer 2011
Prerequisite: ARCH 431

ARCH 432 Architectural Design VI (6) A continuation of ARCH 431, this course explores in greater depth urban planning and architectural design in an urban context.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 432A (IL) Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy.
Effective: Summer 2008 Ending: Summer 2011
Prerequisite: ARCH 431

ARCH 432A (IL) Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 432 Architectural Design VI (6) A continuation of ARCH 431, this course explores in greater depth urban planning and architectural design in an urban context.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 432A (IL) Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy.
Effective: Summer 2008 Ending: Summer 2011
Prerequisite: ARCH 431

ARCH 432 Architectural Design VI (6) A continuation of ARCH 431, this course explores in greater depth urban planning and architectural design in an urban context.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 432A (IL) Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy.
Effective: Summer 2008 Ending: Summer 2011
Prerequisite: ARCH 431

ARCH 432A (IL) Architectural Design VI--Foreign Study (6) A continuation of ARCH 431, this course explores urban planning and architectural design in an urban context in Rome, Italy.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 432 Architectural Design VI (6) A continuation of ARCH 431, this course explores in greater depth urban planning and architectural design in an urban context.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 431 or ARCH 431A

ARCH 441 Architectural Design Analysis (3) Studies in principles and elements of design; planning for human use; the relationship of space to physical and social environment. Architectural Engineering majors only.
Effective: Spring 2008
Prerequisite: ARCH 130A

ARCH 442 Architectural Design Analysis (3) Continuation of ARCH 441, with emphasis on functional relationship of space, form, structure, and building groups. Architectural Engineering majors only.
Effective: Spring 2008
Prerequisite: ARCH 441

ARCH 443 Architectural Design Analysis Inspection Trip (1) Faculty guided trip to metropolitan areas to investigate noteworthy architecture and building construction and to visit professional offices.
Effective: Spring 2001
Prerequisite: fourth-year architectural engineering majors first priority others by faculty approval

Effective: Spring 2001 Ending: Summer 2011
Prerequisite: seventh-semester standing in Architecture curriculum

Effective: Fall 2011 Future: Fall 2011
Concurrent: ARCH 451

ARCH 480 Technical Systems Integration (3) Presentations of buildings' analyses from a multiplicity of viewpoints: architectural, spacial, environmental, mechanical, construction assembly.
Effective: Summer 1994 Ending: Summer 2011
Prerequisite: fifth-year standing in the Architecture curriculum or approval by the instructor

ARCH 480 Technical Systems Integration (3) Presentations of buildings' analyses from a multiplicity of viewpoints: architectural, spacial, environmental, mechanical, construction assembly.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 491 and ARCH 203 and ARCH 204 and AE 422 and AE 424
Concurrent: ARCH 492

ARCH 481 Digital Design Media (3) Advanced course in digital modeling, rendering, animation and non-linear video for architectural investigations.
Effective: Summer 2006
Prerequisite: approval by instructor

ARCH 491 Architectural Design VII-Thesis (6) Problems in architectural planning and design; programming and/or implementation methodologies and applications for various environmental design scales.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: ARCH 431 or ARCH 432, ARCH 499A faculty review fifth-year standing in the Architecture curriculum

ARCH 491 Architectural Design VII-Thesis (6) Problems in architectural planning and design; programming and/or implementation methodologies and applications for various environmental design scales.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in: ARCH 432 or ARCH 432A and ARCH 311W Concurrent: ARCH 451

ARCH 492 Architectural Design VIII-Thesis (6) Continuation of ARCH 491 with concentration and specialization options.
Effective: Spring 2007 Ending: Summer 2011

The Pennsylvania State University
Prerequisite: ARCH 491 fifth-year standing in the Architecture curriculum

ARCH 492 Architectural Design VIII-Thesis (6) Continuation of ARCH 491 with concentration and specialization options.
Effective: Fall 2011 Ending: Spring 2012 Future: Fall 2011
Prerequisite: Students must earn a C or better in:ARCH 491  Concurrent: ARCH 480

ARCH 492H Architectural Design VIII-Thesis (6) Continuation of ARCH 491 with concentration and specialization options.
Effective: Summer 2012 Future: Summer 2012
Prerequisite: Students must earn a C or better in:ARCH 491  Concurrent: ARCH 480

ARCH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2007 Ending: Summer 2011
Prerequisite: prior approval of proposed assignment by instructor

ARCH 495 Advanced Architectural and Related Design/Construction Work Experience II (1-3 per semester/maximum of 6) Supervised off-campus, nongroup instruction including field experiences, practica, or architectural and related design/construction work experience.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Grade of C or higher in:ARCH 332 ; instructor approval of work experience proposal including employment agreement with an approved supervisor.

ARCH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1986

ARCH 496H Independent Study - Honors (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011

ARCH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1986

ARCH 497A Digital Fabrication (3) This course investigates both the conceptual and practical implications of digital fabrication technologies in the process of design.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ARCH 497B Green Post-Green-Environmental Thinking in the Twenty First Century (3) Focusing on the effects of the environmental movement in art, architecture, and landscape design.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ARCH 497C Environmentally Conscious Design (3) The course investigates design principles for environmentally responsible architecture utilizing computational energy and environmental simulation tools.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ARCH 498 Special Topics (1-15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ARCH 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: seventh-semester standing

ARCH 499A (IL) Foreign Study--Architectural Design VI (6) Individual or group instruction conducted in a foreign country.
Effective: Spring 2007
Prerequisite: ARCH 332 fourth-year standing in the architecture curriculum

ARCH 499B (IL) Architectural Analysis (3) Comparative study of architectural elements and building types through on-site drawing, recording, measurement, sketching and decomposition activity.
Effective: Spring 2009 Ending: Summer 2011
Prerequisite: ARCH 210  Concurrent: ARCH 499A ARCH 499C

ARCH 499B (IL) Architectural Analysis (3) Comparative study of architectural elements and building types through on-site drawing, recording, measurement, sketching and decomposition activity.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Students must earn a C or better in:ART H 201 andART H 202  Concurrent: ARCH 431A or ARCH 432A and ARCH 499C

ARCH 499C (IL) Urban Studies Topics (3) A presentation of the history of Rome through the medium of its maps and walking tours of the city.
Effective: Spring 2009 Ending: Summer 2011
ARCH 499C (IL) **Urban Studies Topics** (3) A presentation of the history of Rome through the medium of its maps and walking tours of the city.  
Effective: Fall 2011 Future: Fall 2011  
Prerequisite: Students must earn a C or better in: ART H 201 and ART H 202  
Concurrent: ARCH 431A or ARCH 432A and ARCH 499B

ARCH 499D (IL) **Architectural Design and Studio** (4) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2011 Ending: Summer 2011  
Prerequisite: seventh-semester standing

ARCH 499E (IL) **Cartography** (2) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2011 Ending: Summer 2011  
Prerequisite: seventh-semester standing
Army (ARMY)

GENERAL MILITARY SCIENCE COURSE (NO OBLIGATION)

ARMY 101 U.S. Army Organization and Functions (2) Introduction to U.S. Army and ROTC: their organization, missions and functions; customs and traditions; leadership laboratory.
Effective: Summer 1996

ARMY 102 The Military Profession: Leadership and Management Theory (2) Introduction to leadership techniques and basic management skills; leadership laboratory.
Effective: Summer 1996

ARMY 203 Army Operations: Tactics and the Principles of War (2) Organization and operation of Army units; fundamentals of unit tactics; leadership laboratory.
Effective: Fall 1992

ARMY 204 Land Navigation: Topographic Maps and Orienteering (2) Military and topographic maps; methods of orienteering and land navigation; leadership laboratory.
Effective: Fall 1992

OFFICER PREPARATORY COURSE

ARMY 301 Advanced Principles of Leadership and Management (3) Principles of military leadership; military skills development; land navigation; physical fitness; leadership laboratory.
Effective: Fall 1992

ARMY 302 Advanced Principles of Military Leadership and Combat Operations (3) Leadership in the field; principles of offense, defense, and patrolling; physical fitness, leadership laboratory.
Effective: Fall 1992
Prerequisite: ARMY 301

ARMY 304 Advanced Camp (0) Six weeks of Army field training to prepare cadets for commissioning as second lieutenants.
Effective: Fall 1985
Prerequisite: ARMY 301, ARMY 302

ARMY 401 Organizational Behaviors: Interrelationships of Directing Staffs and Staff Functions (3) Leadership; command and staff functions; ethics and professionalism; military writing; leadership laboratory.
Effective: Fall 1992
Prerequisite: ARMY 301

ARMY 402 Army Personnel Management and Logistics (3) Leadership; army personnel management; logistics system; personnel counseling; military justice; Soviet military; personal affairs; training management; army life; leadership laboratory.
Effective: Fall 1992
Prerequisite: ARMY 302

ARMY 496 Independent Studies (1-9) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1988

Last Import from UCM: June 16, 2011 3:00 AM
Art (ART)

ART 001 (GA) Introduction to the Visual Arts (3) Introduction to the media, elements, function, making, and meaning of visual arts today and in diverse historical and cultural contexts.
Effective: Spring 2004

ART 002 (GA) Interactive Learning and Web-Design (3) Introduce students to research on-line, preparing verbal, visual and other elements for presentation of outcomes and posting them to the Internet.
Effective: Fall 2001

ART 003 (GA) Visual Images on the Web (3) Introduce students to using visual images for communication on the World Wide Web.
Effective: Fall 2001

ART 010 (GA) Introduction to Visual Studies (3) Introduction to visual studies; pictorial space and the principles of visual organization.
Effective: Fall 2004

ART 017 (GA) Introduction to Metal Arts (3) Introduction for non-art majors to fundamental jewelry making and small-scale metalsmithing processes including fabrication, surface treatment, and finishing of metalwork.
Effective: Spring 2004

ART 020 (GA) Introduction to Drawing (3) Introductory experience in making of art through drawing media; designed for non-majors seeking general overview of studio practice.
Effective: Spring 2004

ART 030 (GA) Introduction to Sculpture (3) Introduction to sculpture for non-art majors consisting of lectures/basic studio work coordinated to cover broad range of processes.
Effective: Fall 2004

ART 040 (GA) Introduction to Printmaking (3) Instruction and practice in elementary printmaking and papermaking processes.
Effective: Fall 2004

ART 050 (GA) Introduction to Painting (3) Introductory experience in making of art through painting media; designed for non-majors seeking a general overview of studio practice.
Effective: Fall 2004

ART 080 (GA) Introduction to Ceramics (3) Introduction to the concepts and techniques fundamental to the making of pottery and ceramic sculpture.
Effective: Spring 2004

ART 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

ART 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1994

ART 100 (GA) Concepts and Creation in the Visual Arts (3) A study of the personal and cultural foundations of artistic creation and practice of creative production in the art studio.
Effective: Spring 2004

ART 101 (GA) Introduction to Web Design (3) A beginning level course in Web Design, with emphasis on designing with standards to assure accessibility and effective communication.
Effective: Spring 2008

ART 110S Ideas as Visual Images (3) Introduction to the ideational relationships among subject, form, and content in visual images.
Effective: Fall 2002
Prerequisite: portfolio review

The Pennsylvania State University
ART 111 Ideas as Objects (3) An introduction to the relationship between ideas and the creation of three-dimensional objects. Effective: Fall 2002
Prerequisite: portfolio review

ART 120 Beginning Drawing (3) The study and practice of basic drawing as a way of understanding and communicating. Effective: Fall 2002
Prerequisite: portfolio review

ART 122Y (US) Commentary on Art (3) An introduction to verbal commentary, both oral and written, about art. The development of critical and expressive skills given emphasis. Effective: Spring 2006

ART 165 Artistic Concepts of Space (3) A studio course that utilizes lecture and varied media experiences to investigate space as artistic expression. Effective: Spring 2007

ART 166 Artistic Concepts of Form (3) A studio course that utilizes lecture and varied media experiences to investigate form in artistic expression. Effective: Spring 2007

ART 168 The Digital Medium (3) A studio course where the computer is introduced as an artistic media. Effective: Spring 2007

ART 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

ART 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1994

ART 199 (IL) Foreign Studies--Art (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ART 201 Intro to Digital Arts: Computer Graphics (3) Art 201 is a course introducing digital art, design, and new media concepts using graphic applications on the computer. Effective: Spring 2008

ART 203 The Art of Web Design (3) This course will focus on utilizing graphic formats ideal for web-based work and designing with web standards. Effective: Spring 2011

ART 211 (US) Introduction to Digital Art and Design Criticism (3) An introduction to the language, aesthetics and cultural impacts of digital art and design in contemporary society. Effective: Fall 2007

ART 211Y (US) Introduction to Digital Art and Design Criticism (3) An introduction to the language, aesthetics, and cultural impacts of digital art and design in contemporary society. Effective: Spring 2010

ART 217 Metal Art/Technology I (3) Introduction to current and emerging metal art technologies and processes as medium for conceptual, aesthetic, and functional artworks. Effective: Spring 2009
Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 220 Figure Drawing (3) Drawing from life. Emphasis on developing the ability to comprehend and record the human figure. Effective: Spring 2009
Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 223 Drawing: Techniques, Materials, and Tools (3) Drawing with an emphasis on organization and the development of drawing skills through a variety of techniques, materials, and tools. Effective: Spring 2009
Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 230 Beginning Sculpture (3) An introduction to sculpture consisting of lectures, demonstrations, and basic studio
work coordinated to cover a broad range of processes.

Effective: Spring 2009

Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 240 Beginning Printmaking (3) An introduction to printmaking consisting of lectures, demonstrations, and studio work to cover a broad range of processes.

Effective: Spring 2009

Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 250 Beginning Oil Painting (3) The materials and techniques of painting in oil and their uses in creative painting on panels and canvas.

Effective: Spring 2009

Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 265 Artistic Concepts of Color (3) A studio course that utilizes lecture and various media to investigate color as artistic expression.

Effective: Spring 2007

Prerequisite: ART 165, ART 166

ART 266 Artistic Concepts of Light (3) A studio course that utilizes lecture and varied media experiences to investigate light as artistic expression.

Effective: Spring 2007

Prerequisite: ART 165, ART 166

ART 269 Methods and Materials I (3 per semester/maximum of 9) A studio course that focuses on specific media or techniques reflecting varied faculty expertise.

Effective: Spring 2007

Prerequisite: ART 165, ART 166

ART 270 Beginning Graphic Design (3) A beginning graphic design studio/lecture course intended to introduce students to the practice of graphic design.

Effective: Spring 2001

Prerequisite: ART 110S, ART 111, ART 120

ART 280 Beginning Ceramics (3) The fundamentals of ceramics, throwing, hand-building, and glazing; acquainting the student with ceramic materials, techniques, and philosophy.

Effective: Spring 2009

Prerequisite: ART 110S, ART 111 and enrollment in the School of Visual Arts or successful completion of an admissions portfolio review

ART 290 Beginning Photography (3) Fundamental techniques and approaches to the art of photography utilizing digital photographic technologies; digital cameral required.

Effective: Spring 2003

ART 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

ART 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

ART 297A IDS Seminar (3) This course is an introductory interdisciplinary seminar for IDS students.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 297A IDS Seminar (3) This course is an introductory interdisciplinary seminar for IDS students.

ART 297C Anatomy of Expression (3) Introduction to cranio-facial anatomy. Hands-on lessons include: forensic reconstruction, computer generated character animation, portrait and conceptual art, and comparative anatomy.

ART 297D Graphic Memoir (3) Analysis of form/content. Practice, training, and exercises in writing and drawing your life experiences into sequential art, resulting in production of an original graphic memoir.

Effective: Summer 2011 Ending: Summer 2011

ART 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Summer 1994
ART 299 (IL) **Foreign Study--Art** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ART 300 **Studio Apprenticeship** (1-4 per semester/maximum of 8) Direct involvement in the creative process of the artist-teacher in the studio environment.
Effective: Fall 1993
Prerequisite: fifth-semester standing

ART 302 **Digital Portfolio Elements** (3) The creation of more involved digital projects that may ultimately be included in the students' digital portfolio.
Effective: Summer 2010
Prerequisite: ART 201 or ART 203

ART 314 **Computer 3-D: Modeling, Rendering, and Animation** (4 per semester/maximum of 12) A studio course introducing 3-d computer generated artwork and content creation using modeling, rendering, and animation applications on the computer.
Effective: Spring 2008
Prerequisite: ART 201 and enrollment in the ART BA ART BFA Art Education Interdisciplinary Digital Studio (IDS) or Integrative Arts degree program

ART 315 **New Media Art: New Media Studio** (4) A studio course concentrating on digital art and new media authoring practices.
Effective: Spring 2008
Prerequisite: ART 201 and enrollment in the ART BA ART BFA Art Education Interdisciplinary Digital Studio (IDS) or Integrative Arts degree program

ART 316 **Video Art and Time-Based Media** (4 per semester/maximum of 8) A studio course concentrating on video art, new media, and experimental time based work.
Effective: Spring 2008
Prerequisite: ART 315

ART 317 **Metal Art/Technology II** (4 per semester/maximum of 8) Further exploration of current and emerging metal art technologies and processes as medium for conceptual, aesthetic, and functional artworks.
Effective: Fall 2006
Prerequisite: ART 217, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 318 **New Media Art: Game Art** (4 per semester/maximum of 8) A studio course concentrating on game art and new media authoring practices.
Effective: Summer 2007
Prerequisite: ART 314, ART 315

ART 319 **Physical Computing** (4 per semester/maximum of 8) A studio course concentrating on interactive physical systems using software/sensors that can sense and respond to the analog world.
Effective: Summer 2007
Prerequisite: ART 201 and enrollment in the ART BA ART BFA Art Education Interdisciplinary Digital Studio or Integrative Arts degree programs

ART 320 **Advanced Drawing** (4 per semester/maximum of 8) Drawing for art majors; emphasis on sustained individual approaches based on figurative and nonfigurative sources.
Effective: Fall 2006
Prerequisite: ART 220, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 330 **Intermediate Sculpture: Metal Fabrication and Mixed-media** (4 per semester/maximum of 8) Development of technical and conceptual skills through metal fabrication, welding, and mixed-media processes.
Effective: Fall 2006
Prerequisite: ART 230, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 331 **Intermediate Sculpture: Metal Casting and Mold-Making** (4 per semester/maximum of 8) Development of technical and conceptual skills through metal casting and mold-making processes.
Effective: Fall 2006
Prerequisite: ART 230, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 338 **The Body: Issues and Objects** (4 per semester/maximum of 8) Creating representations of the human body and related objects as a means of sculptural expression.
Effective: Fall 2006
Prerequisite: ART 230, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 340 **Printmaking** (4 per semester/maximum of 8) Development of technical and expressive skills through selected problems in one or more of the print processes.
Effective: Fall 2006
Prerequisite: ART 240, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 341 **Intermediate Printmaking: Intaglio/Relief** (4) Instruction and practice in the fundamentals of intaglio and relief
printmaking processes in their relation to the fine arts.
Effective: Spring 2008
Prerequisite: ART 240, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 342 Intermediate Printmaking: Lithography/Serigraphy (4) Instruction and practice in the fundamentals of the lithographic and serigraphic processes and their relationship to the meaning of the print.
Effective: Spring 2008
Prerequisite: ART 240, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 343 New Media Printmaking (4 per semester/maximum of 8) A studio course concentrating on the integration of new media and traditional printmaking processes.
Effective: Fall 2006
Prerequisite: ART 201 or ART 240, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 350 Intermediate Painting (4 per semester/maximum of 8) A variable offering in painting; course conditions defined on a rotating basis according to needs of individuals and groups.
Effective: Fall 2006
Prerequisite: ART 250, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 365 Themes and Issues I (3) An advanced studio course that emphasizes individual approach to theme oriented problem solving through traditional and non-traditional multi-media explorations.
Effective: Spring 2007
Prerequisite: ART 165, ART 166, ART 265, ART 266

ART 366 Themes and Issues II (3) An advanced studio course that emphasizes individual approach to theme oriented problem solving through traditional and non-traditional multi-media explorations.
Effective: Spring 2007
Prerequisite: ART 165, ART 166, ART 265, ART 266, ART 365

ART 380 Intermediate Throwing (4 per semester, maximum of 12) Intermediate ceramics course with focus on using wheel and throwing skills leading to personal expression in form, glazing, and firing.
Effective: Fall 2006
Prerequisite: ART 280, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 381 Intermediate Handbuilding (4 per semester, maximum of 12) An intermediate ceramics course with a focus on handbuilding techniques, leading to personal expression in forming, glazing, and firing.
Effective: Fall 2006
Prerequisite: ART 280, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 390 Introduction to Photochemical Photography (4) Introduction to the fundamentals of black and white photochemical photography.
Effective: Spring 2003
Prerequisite: ART 110S, ART 111, ART 120, ART 290 and successful portfolio review

ART 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART 399 (IL) Foreign Study--Art (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ART 402 Portfolio Design and Professional Practices (3) This course emphasizes the development of presentation skills for digital artists in audience/client interactions.
Effective: Summer 2010
Prerequisite: ART 302

ART 405 Advanced Studio Art (3 per semester/maximum of 9) Advanced work in drawing and painting, with an emphasis on individual development.
Effective: Spring 2008
Prerequisite: 6 credits of ART or A ED or graduate level status or permission of program

ART 409 (ART H 409) Museum Studies (3) An introduction to the professional activities that occur in art museums.
Effective: Summer 2004
Prerequisite: 6 credits of ART H ART and/or A ED

ART 411 (US) Seminar in Contemporary Art (3 per semester/maximum of 6) Trends in contemporary art investigated within the framework of studio visitations, museum tours, and through other related avenues of encounter.
Effective: Fall 2006
Prerequisite: ART 122Y, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 413 Performance Art (3) The development, production, and presentation of performance art works, and the study of performance art theory and history.

Undergraduate Bulletin Archive - June, 2011  2010 - 2011
The Pennsylvania State University
ART 415 Integrating Media: Convergence in Practice (4 per semester/maximum of 12) A studio course concentrating on the integration of new media technologies in contemporary art practice. Effective: Fall 2006
Prerequisite: ART 315

Prerequisite: ART 203, ART 315 and 8 credits of 300-level new media

ART 417 Metal Art/Technology III (4 per semester/maximum of 12) Advanced exploration of current and emerging metal art technologies and processes as medium for conceptual, aesthetic, and functional artworks. Effective: Spring 2005
Prerequisite: ART 317

ART 419 Advanced New Media: Capstone (4 per semester/maximum of 8) A new media and digital arts capstone course concentrating on the integration of art and technology in advanced thesis projects. Effective: Summer 2007
Prerequisite: ART 315, ART 203 or ART 416 and 12 credits of 300/400-level new media senior or graduate standing

ART 421 Drawing (4 per semester/maximum of 12) Drawing for advanced students, with total emphasis on sustained individual approaches. Effective: Summer 1992
Prerequisite: ART 320

ART 422 Advanced Figure Drawing (4 per semester/maximum of 8) Concentrated work in recording and understanding the human figure. Effective: Fall 1998
Prerequisite: ART 220 8 credits of 300-level art courses

ART 430 Advanced Sculpture (4 per semester/maximum of 12) Advanced work in sculpture, with an emphasis on individual development. Effective: Summer 1992
Prerequisite: ART 330, ART 331 12 credits of 300-level sculpture

ART 431 Installation Art (4) Study and production of original visual statements through installation work as an art form. Effective: Spring 1998
Prerequisite: 4 credits of 300-level art or graduate level status

ART 440 Advanced Printmaking (4 per semester/maximum of 12) Individual projects in one or more of the printmaking processes. Emphasis is on developing a portfolio of prints. Effective: Spring 1998
Prerequisite: 4 credits of 300-level printmaking courses 8 credits total of 300-level art courses

ART 446 Artists Books (4) Study and production of original visual statements through the book as an art form. Effective: Spring 2000
Prerequisite: ART 110S, ART 111, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART 447 Photo Based Printmaking (4) Study and production of original visual statements through photographic based printmaking as an art form. Effective: Spring 2000
Prerequisite: ART 240 4 credits of 300-level Art courses or graduate level status

ART 450 Advanced Painting (4 per semester/maximum of 12) Development of the artist through a series of commitments; each semester serves as a contractual agreement along professional lines. Effective: Summer 1992
Prerequisite: ART 350

ART 455 Advanced Painting Critique (4 per semester/maximum of 8) The painter in relation to his peers and his profession. Effective: Fall 1983
Prerequisite: senior or graduate standing

ART 465 Individual Approaches I (3) An advance studio where students are expected to explore personal themes and individual concepts in their art work. Effective: Spring 2007
Prerequisite: ART 165, ART 166, ART 265, ART 266, ART 365, ART 366

ART 466W Individual Approaches II (6) An advance studio/lecture addressing the preparation for potential employment and/or entrance into graduate studies. Effective: Summer 2007
Prerequisite: ART 165, ART 166, ART 265, ART 266, ART 365, ART 366, ART 465

ART 468 The Intermediate Digital Medium (3) An advanced studio course using the computer as an artistic media. Effective: Spring 2007
Prerequisite: ART 165, ART 166, ART 168
ART 469 Methods and Materials II (3 per semester/maximum of 9) A studio course that focuses on specific media or techniques reflecting varied faculty expertise.
Effective: Spring 2007
Prerequisite: ART 165, ART 166, ART 265, ART 269

ART 475 (US) (ART H 475) Contemporary Women Artists (3) An interdisciplinary course that investigates women artists who were integral to the production of contemporary art primarily in the Americas, Europe, and Asia.
Effective: Spring 2009
Prerequisite: fifth-semester standingART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 476 (ART H 476) History and Theory of Digital Art (3) History and theories of contemporary digital art emphasizing humanistic approaches to technology.
Effective: Spring 2007
Prerequisite: ART H 100 or ART H 112 or ART H 307 or ART H 325 or ART H 326 or ART 211

ART 480 Advanced Ceramic Arts (4 per semester/maximum of 12) Individual exploration of ceramic materials and construction leading to graduate study or career development as a professional potter.
Effective: Summer 1992
Prerequisite: ART 380

ART 481 Ceramic Materials and Glaze Calculation (3) The study of raw materials and their use in formulating clays and glazes.
Effective: Fall 2006
Prerequisite: ART 280, ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program.

ART 490 View Camera Photography (4) Experience with diverse camera formats and applications; particular emphasis on view camera.
Effective: Summer 2002
Prerequisite: ART 390

ART 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite: prior approval of proposed assignment by instructor

ART 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ART 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ART 497A Art, Consciousness and Deep Ecology (3) Art reconnects and deepens our conscious and unconscious perception of our environment and ourselves. (ART, PSYCHOLOGY, BIOLOGY, INTEGRATIVE HEALTH).
Effective: Summer 2011 Ending: Summer 2011

ART 497A Design for Mobile Devices (3) Designing for smartphones, tablets, and small touchscreen devices for their use in teaching and learning.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 497B Advanced Sculpture: The Body (4) Advanced work in creating representations of the human body and related objects as a means of sculptural expression.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 497C Advanced Metal Casting and Mold-making (4) Advanced development of technical and conceptual skills through metal casting and mold-making processes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 497D Painting, Emotional Intelligence and Health (3) Why make art? Art is a powerful vehicle for empowering a person, revitalizing back to the web of living pushing earth!.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 497E Landscape Mindscope Dreamtime (3) This course involves are process and seminar dialogue. How do we change wilderness by calling it landscape?
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART 499 (IL) Foreign Studies--Art (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Art Education (A ED)

A ED 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

A ED 101S Introduction to Art Education (3) This course introduces students to issues, concepts, and ideas in Art Education. Effective: Summer 2002

A ED 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

A ED 201W History and Philosophy of Art Education in Schools and Cultural Institutions (3) Introduction to historical, philosophical, and sociological foundations art education in schools and cultural institutions, museums, and community organizations. Effective: Spring 2003

A ED 211 (GA) Interpreting Art Experience: Social and Behavioral Perspectives (3) Examination of psychological, cultural, aesthetic, philosophical, and educational perspectives on creation and response to art in children, adolescents and adults. Effective: Summer 2002

A ED 212 Interpreting Art Experience: Educational Implications (1) In-depth study of the educational implications of the information on art making and response introduced in A ED 211. Effective: Summer 2002
Prerequisite: A ED 101S, A ED 201W Concurrent: A ED 211

A ED 225 (GA;US) Diversity, Pedagogy, and Visual Culture (3) Issues of diversity in art, education, visual culture, and pedagogy. Effective: Summer 2005

A ED 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

A ED 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

A ED 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

A ED 303 The Visual Arts in the Elementary School (3) Basic concepts of current art education theory and practice for the elementary teacher. Effective: Spring 1993

A ED 322 Visual Culture and Educational Technologies (3) The course provides a foundation for innovative integration of digital technologies in art making, viewing, and teaching. Effective: Spring 2009
Prerequisite: A ED majors only

A ED 323 Visual Culture and Art Education (3) The study and creation of contemporary art forms as visual culture critiques provide curricular and pedagogical approaches to art education. Effective: Spring 2009
Prerequisite: A ED majors only

A ED 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

A ED 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

A ED 401 Curricula, Pedagogy, and Assessment in Art Education (3) Preparation of curricula, pedagogical, and assessment strategies for elementary/secondary school and museum art education programs.

The Pennsylvania State University
Effective: Summer 2002
Prerequisite: A ED 101S, A ED 201W, A ED 211, A ED 212, A ED 225, A ED 322, A ED 323

A ED 440 Cultural Institutions (3) Role of the educator and educational programming in museums and other cultural institutions.
Effective: Spring 2003
Prerequisite: ANTH 100 or 3 credits of Art History courses from department list; A ED 401

A ED 488 Cultural Institutions Practicum (1-3) Supervised field experience in a museum or other cultural institution, including planning, implementation, and evaluation of an educational project.
Effective: Summer 2002
Prerequisite: ANTH 100 or 3 credits of art history courses from department list; A ED 401 Concurrent: A ED 490

A ED 489 Advanced Practicum (3) Supervised observation, unit planning, and teaching in Saturday Morning Arts School: analysis of creative expressions and art programs for learners.
Effective: Spring 2003
Prerequisite: A ED 401 Concurrent: A ED 490

A ED 490 Capstone Course in Art Education (3) Synthesis of preservice art education coursework; introduction to professional practices and standards; completion of teaching and learning portfolio.
Effective: Spring 2009
Prerequisite: admission to Teacher Preparation Program and successful completion of all required courses in the major except Student Teaching or final internship. Prerequisite or concurrent: A ED 488 for majors in the Museums and Cultural Institutions option Concurrent: A ED 489 majors in the Schools option

A ED 494 Schools and Museums (3) Museum education: issues, theories of aesthetic education and practices in schools, museums, and community art centers.
Effective: Winter 1978
Prerequisite: 12 credits in art education art art history or education

A ED 494H Schools and Museums (3) Museum education: issues, theories of aesthetic education and practices in schools, museums, and community art centers.
Effective: Fall 2007
Prerequisite: 12 credits in art education art art history or education

A ED 495 Internship in Art Experiences (15) Comprehensive instruction in craft, health, cultural, museum, studio, gallery or social agency. Students supervised by University personnel and arts personnel.
Effective: Spring 1989
Prerequisite: A ED 440; seventh- or eighth-semester standing

A ED 495A Art Education Student Teaching Practicum (7) The elementary student teaching practicum fulfills requirements for Pennsylvania certification to teach Art in both elementary and secondary schools.
Effective: Summer 2006
Prerequisite: A ED 489; eighth- or ninth-semester standing Concurrent: A ED 495B

A ED 495B Art Education Student Teaching Practicum (8) The secondary student teaching practicum fulfills requirements for Pennsylvania certification to teach Art in both elementary and secondary schools.
Effective: Summer 2006
Prerequisite: A ED 489; eighth- or ninth-semester standing Concurrent: A ED 495A

A ED 495C Art Education Student Teaching Practicum (7) The elementary student teaching practicum fulfills requirements for Pennsylvania certification to teach Art in both elementary and secondary schools.
Effective: Summer 2006
Prerequisite: A ED 489; eighth- or ninth-semester standing; Concurrent: A ED 495D

A ED 495D Art Education Student Teaching Practicum (8) The secondary student teaching practicum fulfills requirements for Pennsylvania certification to teach Art in both elementary and secondary schools.
Effective: Summer 2006
Prerequisite: A ED 489; eighth- or ninth-semester standing Concurrent: A ED 495A

A ED 495E Internship in Museums and Cultural Institutions (15) Twelve week, full time supervised internship in education in museums or other cultural institutions.
Effective: Summer 2006
Prerequisite: A ED 440 seventh- or eighth-semester standing

A ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

A ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

A ED 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

The Pennsylvania State University
Art History (ART H)

ART H 001S (GA) First-Year Seminar (3) An introduction to the field of art history, through an examination of a selected issue in a seminar setting.
Effective: Fall 2000

ART H 100 (GA;IL) Introduction to Art (3) An approach to the understanding of art through a critical analysis of selected works of architecture, painting, and sculpture. Students who have passed ART H 110 may not schedule this course.
Effective: Spring 2006

ART H 111 (GA;IL) Ancient to Medieval Art (3) Survey of Ancient Egyptian, Greek, Roman, Byzantine, Early Medieval, Romanesque, and Gothic art, with an emphasis on sculpture and painting.
Effective: Spring 2006

ART H 111U (GA;IL) Ancient to Medieval Art (3) Survey of Ancient Egyptian, Greek, Roman, Byzantine, Early Medieval, Romanesque, and Gothic art, with an emphasis on sculpture and painting.

ART H 112 (GA;IL) Renaissance to Modern Art (3) Survey of Renaissance, Baroque, Rococo, Romantic, Modern, and Contemporary art, with an emphasis on painting, sculpture, and graphic arts.
Effective: Spring 2006

ART H 112U (GA;IL) Renaissance to Modern Art (3) Survey of Renaissance, Baroque, Rococo, Romantic, Modern, and Contemporary art, with an emphasis on painting, sculpture, and graphic arts.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 120 (GA;IL) Asian Art and Architecture (3) A selective overview of the art and architecture of India, Southeast Asia, China, Korea, and Japan.
Effective: Summer 2005

ART H 130 (GA;US;IL) African, Oceanic, and Native American Art (3) A selective overview of the history of African, Oceanic, and Native American art.
Effective: Summer 2005

ART H 140 (GA;IL) Introduction to Pre-Columbian Art and Architecture (3) This course examines the artistic and architectural production of Pre-Columbian Mesoamerica and the Andes.
Effective: Summer 2011

ART H 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 197A Introduction to Pre-Columbian Art History (3) This course examines the artists and architectural production of various pre-Columbian cultural groups from the Mesoamerican and Andean regions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 199 (IL) Foreign Study--Art History (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Effective: Spring 2006

Effective: Spring 2006

ART H 225 (GA;GH) (ENGL 225, WMNST 225) Sexuality and Modern Visual Culture (3) An examination of the visual
expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

ART H 250 (PHOTO 201) A Chronological Survey of Photography (3) A survey of photography's place and influence in a social, cultural, and historical context.
Effective: Spring 2006

ART H 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ART H 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ART H 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 299 (IL) Foreign Study--Art History (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ART H 301 (GA;IL) Egyptian and Mesopotamian Art (3) Art of the Ancient Near East, including Egypt, Mesopotamia, and neighboring civilizations.
Effective: Spring 2006

ART H 302 (GA;IL) Art of the Early Middle Ages (3) A survey of the art of Western Europe from the Early Christian era through the Ottonian Empire, c.300-1050 A.D.
Effective: Spring 2006

ART H 303 (GA;IL) Italian Renaissance Art (3) The major arts in Italy from the thirteenth century A.D. through the Renaissance; emphasis on sculpture and painting.
Effective: Spring 2006

ART H 303U (GA;IL) Italian Renaissance Art (3) The major arts in Italy from the thirteenth century A.D. through the Renaissance; emphasis on sculpture and painting.

ART H 304 (GA;IL) Italian, Spanish, and Spanish Colonial Baroque Art and Architecture (3) A survey of painting, sculpture, and architecture in Italy, Spain, and the Spanish Americas from 1600-1750.
Effective: Fall 2010

Effective: Spring 2006

ART H 307 (GA;US) (AM ST 307) American Art (3) History of art in the English colonies and the United States from the seventeenth century to the present.
Effective: Spring 2008

ART H 311 (GA;IL) Greek and Roman Art (3) Greek and Roman art, with emphasis on painting and sculpture.
Effective: Spring 2006

ART H 312 (GA;IL) Romanesque and Gothic Art (3) Survey of the architecture, sculpture, and painting of the Christian church in western Europe from 1000 to 1500.
Effective: Spring 2006

ART H 313 (GA;IL) Northern Renaissance Art (3) Art in northern Europe in the fifteenth and sixteenth centuries, emphasizing painters such as Van Eyck, Durer, and Bruegel.
Effective: Spring 2006

ART H 314 (GA;IL) Art in the Age of Rembrandt (3) Dutch and Flemish painting in the seventeenth century.
Effective: Spring 2006

The Pennsylvania State University
ART H 315 (GA;IL) (ASIA 315) Architecture and Art of South and Southeast Asia (3) Survey of the architecture/art of South/Southeast Asia (emphasis on India) from the Bronze Age to a globalizing present.
Effective: Summer 2010

ART H 320 (GA;IL) Chinese Art (3) A general survey of the great periods of Chinese art from the Shang dynasty until the modern period.
Effective: Summer 2005

ART H 325 (GA;IL) Impressionism to Surrealism (3) A survey of European painting and sculpture from ca. 1850 to ca. 1940.
Effective: Spring 2006

ART H 330 (GA;IL) Islamic Architecture and Art (3) Survey of the art and architecture of Islamic lands from the late seventh century until the eighteenth century.
Effective: Summer 2005

ART H 335 (GA;IL) African Art (3) Introduction to the visual arts of Africa, including contemporary African art and the influence of African art outside Africa.
Effective: Summer 2011

ART H 340 (GA;IL) Japanese Art (3) This course will examine the art and architecture of Japan, its relationship to Chinese art, and its influence on European art.
Effective: Summer 2005

ART H 350W Undergraduate Seminar in the History of Art (3-6) An introduction to original research, methodology, analysis, and writing on a scholarly level.
Effective: Summer 1992
Prerequisite: fifth-semester standing 6 credits in art history at the 300 level or above

ART H 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 399 (IL) Foreign Study--Art History (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Prerequisite: ART H 100 orART H 110 orART H 111 orART H 112

ART H 401 (IL) Greek Art and Architecture (3-9) Developments in Greek art and architecture, tenth century B.C. to first century B.C.; emphasis on the importance of Greek sanctuaries.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 111, ART H 201 orART H 311

ART H 402 (IL) The Illuminated Manuscript (3) Specific stylistic periods in manuscript painting from A.D. 500-1500 in Western Europe and Byzantium.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 111, ART H 302 orART H 312

ART H 405 (US;IL) Pioneers of Modern Architecture (3 per semester/maximum of 6) Selected period or theme in the development of modern architecture during the nineteenth and/or early twentieth centuries.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 112, ART H 202 orART H 307

ART H 409 (ART 409) Museum Studies (3) An introduction to the professional activities that occur in art museums.
Effective: Summer 2004
Prerequisite: 6 credits of ART H ART and/or A ED

ART H 410 Taste and Criticism in Art (3) History and literature of art criticism demonstrating the varied philosophic, cultural, iconographic, technical, and visual approaches.
Effective: Summer 1999
Prerequisite: 6 credits of art history

ART H 411 (IL) Roman Art (3-9) Roman sculpture and painting from Augustus to Constantine.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 111, ART H 201 orART H 311

ART H 412 (IL) The Gothic Cathedral (3) Specific aspects of Romanesque and Gothic church architecture of western Europe, especially France and England, between 1000-1500.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 111, ART H 201, ART H 302 orART H 312
ART H 414 (IL) **Italian Baroque Painting** (3) Survey of Italian Baroque painting from sixteenth-century proto-Baroque masters to painters of the late Baroque and Rococo periods. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112 or ART H 304

ART H 415 (US) **The Skyscraper** (3) Origin and evolution of the skyscraper as seen against the background of cultural and technological factors. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112, ART H 202 or ART H 307

ART H 416 (US) **American Painting: 1876-1913** (3) Art in the United States between 1876 and 1913; emergence of an American art and transition to the modern styles. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112 or ART H 307

ART H 420 (IL) **Russian Architecture** (3) Russian architecture from the first Orthodox churches of the late tenth century to the end of the Soviet Union. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 111, ART H 112, ART H 201 or ART H 202

ART H 422 (IL) **Studies in Medieval Sculpture** (3-9) Specific studies of western European sculpture, 300-1500, with attention to sources, styles, type, and iconography. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 111, ART H 201, ART H 302 or ART H 312

ART H 423 (IL) **Studies in Italian Renaissance Art** (3-9) Specific studies of Italian Renaissance art, including the work of artists such as Leonardo da Vinci, Michaelangelo, and Raphael. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 111, ART H 202 or ART H 303

ART H 424 (IL) **Masters of Northern Baroque Art** (3) Seventeenth-century painters in Flanders and Holland, including the works of artists such as Rubens, Rembrandt, and Vermeer. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112 or ART H 304

ART H 426 (US; IL) **Iconoclasm: Powerful Images and their Destruction** (3) Iconoclasm: exploring the political, religious, and social motivations behind the destruction of powerful imagery throughout history. 
Effective: Summer 2009 
Prerequisite: 3 credits of Art History in any area

ART H 429 (IL) **Studies in Baroque Art** (3) Selected topics in the painting, sculpture, and architecture of seventeenth-century Italy, France, Flanders, Holland, and Spain. 
Effective: Spring 2009 
Prerequisite: 6 credits in art history (ART H)

ART H 435 (IL) **Studies in Modern Art** (3-6) Lectures focusing on a selected movement of nineteenth- or twentieth-century art. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112, ART H 305, ART H 307 or ART H 325

ART H 440 (IL) (ASIA 440) **Monuments of Asia** (3-9 per semester/maximum of 9) An exploration of major Asian sites and monuments through a focus on their historical and cultural significance. 
Effective: Summer 2010 
Prerequisite: ART H 100 or ART H 120 or ART H 315 or ART H 320 or ART H 330 or ART H 340

ART H 442 (IL) **Late Antique and Early Christian Art** (3) Survey of the architecture, painting, and minor arts of Christian society from the beginning to the mid-sixth century. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 111, ART H 201 or ART H 302

ART H 450 (US; IL) **The History of Photography** (3) The history of photography from 1839, with particular emphasis on the relationship with the plastic arts. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112, ART H 305, ART H 307 or ART H 325

ART H 452 (IL) **Byzantine Art** (3) Monumental and minor arts of Byzantium and related areas from the reign of Justinian to the Turkish conquest of Constantinople. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 111, ART H 201 or ART H 302

ART H 454 (IL) **Spanish Baroque Art** (3) Survey of seventeenth-century Spanish painting and sculpture, with an emphasis on Velasquez, Murillo, Ribera, and Zurbaran. 
Effective: Spring 2006 
Prerequisite: ART H 100, ART H 112 or ART H 304

ART H 456 (IL) **Renaissance and Baroque Palaces** (3) This course examines palace architecture and decoration in Italy, France, England, and Germany from 1450-1700. 
Effective: Spring 2011 
Prerequisite: ART H 100 or ART H 112 or ART H 202 or ART H 303 or ART H 304
ART H 458 (IL) **Baroque Capitals of Europe** (3) This course examines the architecture and urbanism of European capital cities from 1600-1800. 
Effective: Spring 2010
Prerequisite: ART H 100 or ART H 112 or ART H 202 or ART H 304 or ART H 314

ART H 464 (IL) **French Baroque Painting** (3) Examination of seventeenth-century French painting, including Italian influences: the provincial, Classical, and official styles in France.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 112 or ART H 304

ART H 470 (US) **American Painting and Sculpture Since 1940** (3) Painting and sculpture in the United States from the origins of Abstract Expressionism through the present.
Effective: Spring 2006
Prerequisite: ART H 100, ART H 112, ART H 307 or ART H 325

ART H 475 (US) (ART 475) **Contemporary Women Artists** (3) An interdisciplinary course that investigates women artists who are integral to the production of contemporary art primarily in the Americas, Europe, and Asia.
Effective: Spring 2009
Prerequisite: Fifth semester standing ART H 111, ART H 112 and enrollment in the ART BA ART BFA Art Education or Integrative Arts degree program

ART H 476 (ART 476) **History and Theory of Digital Art** (3) History and theories of contemporary digital art emphasizing humanistic approaches to technology.
Effective: Spring 2007
Prerequisite: ART H 100 or ART H 112 or ART H 307 or ART H 325 or ART H 326 or ART 211

ART H 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ART H 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ART H 497A **Art and Archaeology of Ancient Africa** (3) Survey of historical art traditions of sub-Sahara Africa. Topics include rock-art, Djenné, Nok, Igbo Ukwu, Ife, Benin and Great Zimbabwe.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 497A **Studies in Latin American Art** (3) Specific studies of the visual and material culture created in Latin America from the Pre-Columbian through the modern era.

ART H 497B **Ancient Villas: Egyptian, Greek, Roman** (3) Villas appear in 17thc BCE Mediterranean and continue in Roman Empire, revealing cultural change and rising self-importance of elite.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 497C **Problems in Connoisseurship** (3) Examines the history and practice of connoisseurship in the museum, with a particular focus on prints and drawings.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ART H 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ART H 499 (IL) **Foreign Study--Art History** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Arts and Architecture (A&A)

A&A 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

A&A 100 (GA;IL) Introduction to International Arts (3) An interdisciplinary, multicultural introduction to the arts of the world.
Effective: Summer 2005

A&A 101 Art and Design Theory I (3) Provides arts and design students an interdisciplinary introduction to critical, theoretical, and historical understandings of the arts and design.
Effective: Spring 2006
Prerequisite: admission into the College of Arts and Architecture  Concurrent: A&A 102S

A&A 102S Art and Design Studio I (3) Provides students with an interdisciplinary introduction to studio work in the arts and design.
Effective: Spring 2006
Prerequisite: admission into the College of Arts and Architecture.  Concurrent: A&A 101

A&A 103 Art and Design Theory II (3) Provides arts and design students an interdisciplinary introduction to critical, theoretical, and historical understandings of the arts and design.
Effective: Spring 2006
Prerequisite: admission into the College of Arts and Architecture.  Concurrent: A&A 104

A&A 104 Art and Design Studio II (3) Provides students with an interdisciplinary introduction to studio work in the arts and design.
Effective: Spring 2006
Prerequisite: admission into the College of Arts and Architecture.  Concurrent: A&A 103

A&A 110 Interdisciplinary Digital Media Studio I (3) Provides arts and design students an interdisciplinary studio-based exploration of critical, theoretical, and historical understandings of digital media.
Effective: Summer 2006
Prerequisite: Prerequisite or concurrent: A&A 101, A&A 102S  Concurrent: or A&A 103 A&A 104

A&A 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

A&A 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

A&A 210 Focused Realization Studio (3) Provides students the opportunity for the realization of more focused interdisciplinary studio explorations in the digital arts and design disciplines.
Effective: Spring 2011
Prerequisite: A&A 110

A&A 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

A&A 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2004

A&A 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

A&A 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

A&A 310 Creative Collaboration Studio (3) Provides students with an advanced studio exploration of interdisciplinary collaborative projects in the digital arts and design disciplines.
Effective: Summer 2006
Prerequisite: A&A 210, ART 211W

A&A 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004
A&A 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

A&A 401 International Arts Minor Final Project (1-3) The final project required for the International Arts Minor. Effective: Summer 2004
Prerequisite: A&A 100 and completion of at least 12 credits toward the International Arts Minor

A&A 410 Interdisciplinary Digital Studio Capstone I (4) Provides arts and design students an opportunity to conceptualize a digital arts and design undergraduate thesis. Effective: Summer 2006
Prerequisite: A&A 310 Prerequisite or concurrent: ART H 476

A&A 411 Interdisciplinary Digital Studio Capstone II (4) Provides arts and design students an opportunity to implement a digital art and design undergraduate thesis. Effective: Summer 2006
Prerequisite: A&A 410

A&A 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 1994

A&A 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

A&A 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 2004

A&A 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 2004

A&A 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Asian American Studi (AAS)

AAS 100 (GH:US) **Introduction to Asian American Studies** (3) An introduction to the history, literature, and culture of Asian America.
Effective: Spring 2010

AAS 428 (US) (ENGL 428) **Asian American Literatures** (3 per semester/maximum of 6) A seminar on the literatures and cultures of Asian America, with attention to forms of geographic, historical, and ethnic diversity.
Effective: Summer 2010

Last Import from UCM: June 16, 2011 3:00 AM
Asian Studies (ASIA)

ASIA 004 (GH:IL) (CMLIT 004) Introduction to Asian Literatures (3) Comparative interpretations of narrative, drama, lyric, and other writings from East Asia and other regions, viewed as world literature.
Effective: Fall 2010

ASIA 083S Asian Studies First Year Seminar (3) The meaning and advantages of a Liberal Arts education in context of a specific discipline.
Effective: Spring 2010

ASIA 100 (GH:IL) What is Asia? (3-6 per semester/maximum of 6) An introduction to the history, literatures, politics, and cultures of Asia.
Effective: Fall 2009

ASIA 197 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

ASIA 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

ASIA 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2010

ASIA 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

ASIA 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

ASIA 300H Honors Thesis (3) Individual projects involving research, reading, and writing; preparation of a thesis in Asian Studies.
Effective: Summer 2010
Prerequisite: Participation in the Schreyer Honors College

ASIA 315 (GA:IL) (ART H 315) Architecture and Art of South and Southeast Asia (3) Survey of the architecture/art of South/Southeast Asia (emphasis on India) from the Bronze Age to a globalizing present.
Effective: Summer 2010
Prerequisite: ART H 100 or ART H 120 or ART H 315 or ART H 320 or ART H 330 or ART H 340

ASIA 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2010
Prerequisite: prior approval of proposed assignment by instructor

ASIA 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

ASIA 401 East Asian Studies (3-6) An interdisciplinary, variable content, lecture-discussion course on the history, culture, politics, and international relations of China, Japan, and Korea.
Effective: Spring 2010
Prerequisite: 6 credits from courses in the East Asian Studies program

ASIA 404 (IL) (CMLIT 404) Topics in Asian Literature (3) Selected works from the major poetry, fiction, and drama of such countries as India, China, Japan.
Effective: Fall 2010
Prerequisite: 3 credits in literature or related field appropriate to this course

ASIA 405Y (IL) Seminar in Asian Studies (3-6 per semester/maximum of 6) An advanced, writing-focused seminar in Asian Studies.
Effective: Fall 2009
Prerequisite: ASIA 100

ASIA 440 (IL) (ART H 440) Monuments of Asia (3-9 per semester/maximum of 9) An exploration of major Asian sites and monuments through a focus on their historical and cultural significance.
Effective: Summer 2010

The Pennsylvania State University
Prerequisite: ART H 100 or ART H 120 or ART H 315 or ART H 320 or ART H 330 or ART H 340

ASIA 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2010

ASIA 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

ASIA 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

Last Import from UCM: June 16, 2011 3:00 AM
Astronomy and Astrophysics (ASTRO)

ASTRO 001 (GN) **Astronomical Universe** (3) The development of modern understanding of the astronomical universe from planets and stars to galaxies and cosmology. Student who have passed ASTRO 005, ASTRO 006, or ASTRO 010 may not take this course for credit.
Effective: Fall 2009

ASTRO 001H (GN) **Astronomical Universe** (3) The development of modern understanding of the astronomical universe from planets and stars to galaxies and cosmology. Students who have passed ASTRO 005, ASTRO 006, or ASTRO 010 may not take this course for credit.
Effective: Fall 2009

ASTRO 005 (GN) **The Sky and Planets** (3) The development of our modern understanding of the visible sky and planetary systems. Students who have passed ASTRO 001 or ASTRO 010 may not take this course for credit.
Effective: Summer 2008
Prerequisite: Students who have passed ASTRO 001 or ASTRO 010 may not take this course.

ASTRO 006 (GN) **Stars, Galaxies, and the Universe** (3) The development of our modern understanding of stars, galaxies, and the astronomical universe. Students who have passed ASTRO 001 or ASTRO 010 may not take this course for credit.
Effective: Summer 2008
Prerequisite: Students who have passed ASTRO 001 and ASTRO 010 may not take this course.

ASTRO 010 (GN) **Elementary Astronomy** (2) Introductory survey of modern astronomy from planets and stars to galaxies and the universe. Students who have passed ASTRO 001, ASTRO 005, or ASTRO 006 may not take this course for credit. Students may not receive General Education credit for ASTRO 010 unless they also take ASTRO 011.
Effective: Fall 2009

ASTRO 011 (GN) **Elementary Astronomy Laboratory** (1) Selected experiments and explorations to illustrate major astronomical principles and techniques. Telescopes observations of planets, stars and nebulae.
Effective: Fall 2004
Prerequisite: or concurrent:ASTRO 001 or ASTRO 010

ASTRO 020S **First-Year Astronomy Seminar** (2) Introduction to the study of modern astronomy through discussions, activities, and writing.
Effective: Summer 1999

ASTRO 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ASTRO 120 (GN) **The Big Bang Universe** (3) Exploration of cosmology, birth, and ultimate fate of the universe; origin of galaxies, quasars, and dark matter. For non-science majors.
Effective: Spring 2002
Prerequisite: ASTRO 001 orASTRO 010

ASTRO 130 (GN) **Black Holes in the Universe** (3) The predicted properties of black holes and the astronomical evidence for their existence are investigated in the context of modern ideas about space, time, and gravity.
Effective: Spring 2004
Prerequisite: ASTRO 001 orASTRO 010

ASTRO 140 (GN) **Life in the Universe** (3) The problem of the existence of life beyond Earth is investigated, drawing from recent research in astronomy and other fields. For non-science majors.
Effective: Spring 2002
Prerequisite: ASTRO 001 orASTRO 010

ASTRO 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ASTRO 291 (GN) **Astronomical Methods and the Solar System** (3) Physical processes and observational techniques in astronomical systems, characteristics of the sun, planets, and moons.
Effective: Spring 2002
Prerequisite: PHYS 211

ASTRO 292 (GN) **Astronomy of the Distant Universe** (3) Observed properties and astrophysical understanding of stars, stellar evolution, galaxies, the large-scale universe, and cosmology.
Effective: Spring 2002
Prerequisite: ASTRO 291

ASTRO 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1991
ASTRO 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1991

ASTRO 320 (GN) Observational Astronomy Laboratory (2) Basic observational astronomy techniques introduced through observational exercises, lab experiments, and lectures on relevant statistical techniques. Effective: Spring 2008 Prerequisite: or concurrent: ASTRO 291

ASTRO 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ASTRO 400H Honors Seminar (1 per semester, maximum of 2) Presentations of various branches and modes of modern astrophysical research, based on lectures, visits to telescopes and facilities, and discussions. Effective: Spring 2003 Prerequisite: ASTRO 292

ASTRO 410 Computational Astrophysics (3) Applications of numerical methods and computer programming to astrophysics, including stellar physics and cosmology. Effective: Spring 2008 Prerequisite: CMPSC 201 or CMPSC 121; PHYS 212, PHYS 213 and PHYS 214

ASTRO 414 Stellar Structure and Evolution (3) Theory of Stellar structure and evolution including energy generation and transport and an examination of stellar models. Effective: Summer 2010 Prerequisite: ASTRO 292, MATH 230, PHYS 212, PHYS 213, PHYS 214, PHYS 237

ASTRO 420W Planets and Planetary System Formation (3) Solar system properties, star formation, protoplanetary disks and planet formation, solar system model, extrasolar planets, and astrobiology. Effective: Summer 2004 Prerequisite: ASTRO 292

ASTRO 440 Introduction to Astrophysics (3) Theoretical investigation of physical processes in astronomical objects and systems; modern physical interpretation of astronomical phenomena. Effective: Spring 1994 Prerequisite: MATH 230, PHYS 237

ASTRO 451 Astronomical Techniques (3) Practical methods of modern observational astronomy, detectors, filters, instrumentation for both ground-based and space observations, and data analysis. Effective: Fall 2008 Prerequisite: PHYS 212, PHYS 213, PHYS 214

ASTRO 475W Stars and Galaxies (3) Astronomical studies concerning the distribution and evolution of stars and gas in our and other galaxies. Effective: Fall 1993 Prerequisite: ASTRO 292

ASTRO 480 Nebulae, Galaxies, and Cosmology (3) Emission-line spectroscopy, structure and evolution of galaxies, physics of galactic nuclei and quasars, observational cosmology. Effective: Spring 2002 Prerequisite: ASTRO 292, PHYS 212, PHYS 213, PHYS 214

ASTRO 485 Introduction to High-Energy Astronomy (3) The study of black holes, neutron stars, white dwarfs, supernova remnants, and extragalactic objects through x-ray and gamma ray observations. Effective: Spring 1994 Prerequisite: PHYS 237

ASTRO 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1991

ASTRO 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1991

ASTRO 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Behavioral Sciences (BE SC)

BE SC 370 Community Psychology (3) Introduction to concepts and terminology of community psychology with discussion of historical development. Community mental health issues will be analyzed.
Effective: Fall 1983

BE SC 376 Introduction to Human Service Organizations (3) A course designed to acquaint the student with the role of various social agencies.
Effective: Fall 1983

BE SC 395 Behavioral Science Internship (3-12) Internship in human service organizations providing for application of academic knowledge, reading, and discussion.
Effective: Spring 2001
Prerequisite: 90 credits with at least 16 credits in the major

BE SC 407 Small Groups Counseling (3) Intensive survey of research and theory on behavior in small groups, with emphasis on interdependence, cooperation, and attitude change.
Effective: Spring 2001
Prerequisite: general psychology general sociology or general behavioral science

BE SC 408 Group Facilitation and Leadership Skills (3) Skill training in group facilitation and leadership based on analyses of roles and interpersonal dynamics plus differences among impact population.
Effective: Spring 2001
Prerequisite: general psychology general sociology or general behavioral science

BE SC 459 BASIC COUNSELING SKILLS (3) Behavioral, cognitive, and expressive methods of assessing and enhancing life-coping skills.
Effective: Spring 2001
Prerequisite: general psychology general sociology or general behavioral science

BE SC 461 Theories and Models of Counseling (3) A survey of the various methods of counseling as well as the theories behind them.
Effective: Spring 2001
Prerequisite: general psychology general sociology or general behavioral science

BE SC 464 (US) (WMNST 464) Feminine/Masculine (3) Study of sex role learning; investigating feminine/masculine labeling; implications for contemporary society.
Effective: Spring 2008
Prerequisite: general psychology or general sociology

BE SC 468 Industrial Psychology: Significant Issues (3) A survey of major sociopsychological issues involved in the study of worker behavior and the industrial organization.
Effective: Spring 2001
Prerequisite: general psychology general sociology or general behavioral science

BE SC 494 Senior Thesis (3-9) Problem formulation, literature search, research design, data collection, analysis of results, and final write-up of a substantial research project.
Effective: Spring 2001
Prerequisite: permission of program

BE SC 494H Senior Thesis (3-9) Problem formulation, literature search, research design, data collection, analysis of results, and final write-up of a substantial research project.
Effective: Fall 2007
Prerequisite: permission of program

BE SC 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 1983

BE SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 16, 2011 3:00 AM
Berks-Lehigh Valley (BKLV)

BKLV 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

BKLV 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

BKLV 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2001

BKLV 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2001
Prerequisite: prior approval of proposed assignment by instructor

BKLV 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2001

BKLV 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

BKLV 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Biobehavioral Health (BB H)

BB H 019S Health and Disease (1) Essentials of communicable and chronic disease control.
Effective: Spring 2005

BB H 045 Alcohol Awareness Education (1) A course designed to raise awareness relative to the use and abuse of beverage alcohol.
Effective: Spring 2005

BB H 046 Introduction to Health Aspects of Human Sexuality (1) An examination of health concerns related to sexuality and sexual behavior.
Effective: Spring 2005

BB H 048 (GHA) Values and Health Behavior (1.5) Examination of issues that impact the social, emotional, and physical well-being of college students through a values and decision-making process.
Effective: Fall 2003

BB H 101 (GHA) Introduction to Biobehavioral Health (3) Introduction to an interdisciplinary study of health, examining the interaction of biological processes and behavior on health.
Effective: Spring 2000

BB H 101H (GHA) Introduction to Biobehavioral Health (3) Introduction to interdisciplinary study of health, examining the interaction of biological processes and behavior on health.
Effective: Summer 1998

BB H 119 (GHA) Behavior, Health, and Disease (3) Principles of health promotion, disease prevention, and treatment of acute and chronic illness. This course is designed for non-BB H majors.
Effective: Spring 2002

BB H 143 (GHA) Drugs, Behavior, and Health (3) Health aspects of use and abuse of licit and illicit drugs; related social problems and prevention. Designed for non-BB H majors.
Effective: Spring 2002

BB H 146 (GHA) Introduction to Health and Human Sexuality (3) An examination of human sexuality as it relates to health.
Effective: Summer 2002

BB H 148S Coping with College: A First Year Transition Seminar (2) Exploration of effective learning strategies, university resources, academic requirements and planning, career development issues in discussion-centered environment.
Effective: Summer 1999

BB H 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2010

BB H 197A Coping with College (3) Exploration of effective learning strategies, campus resources, and academic planning.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

BB H 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2009

Effective: Spring 2007

BB H 251 (US) Straight Talks I: Advanced Sexual Orientation/Gender Identity Peer Education (3) Exploration of social justice issues, diversity leadership, and group facilitation skills related to lesbian, gay, bisexual, transgender, and ally issues.
Effective: Summer 2005
BB H 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1996

BB H 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

BB H 297A **Straight Talks II** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

BB H 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2009

BB H 301 **Values and Ethics in Human Development Professions** (3) Examines bases for choices among values in personal and professional relations in human development processes and supporting services.
Effective: Spring 1998

BB H 301H **Values and Ethics in Human Development Professions** (3) Examines bases for choices among values in personal and professional relations in human development processes and supporting services.

BB H 302 (US) (AAA S 302) **Diversity and Health** (3) Examine the relationship of diverse personal and sociocultural factors to health, like socioeconomic class, race-ethnicity, gender, age, and sexual orientation.
Effective: Spring 2007
Prerequisite: PSYCH 100 orSOC 001

BB H 305 (IL) **Introduction to Global Health Issues** (3) Course will develop awareness of contemporary issues in global health.
Effective: Summer 2010
Prerequisite: BB H 101

BB H 310 **Research Strategies for Studying Biobehavioral Health** (3) Surveys the various research methodologies used in biomedical research, including case, epidemiological, quasiexperimental and experimental approaches.
Effective: Fall 2010
Prerequisite: BB H 101, STAT 200

BB H 311 **Interdisciplinary Integration in Biobehavioral Health** (3) A review of literature relevant to the concepts and findings of different scientific domains as they apply to biobehavioral health.
Effective: Spring 2007
Prerequisite: BB H 101, BIOL 110, PSYCH 100

BB H 315 (US) **Gender and Biobehavioral Health** (3) Interdisciplinary study of gender, examining the interaction of biological, behavioral, and sociocultural factors on health differentials throughout the lifespan.
Effective: Summer 2005
Prerequisite: BB H 101

BB H 316 **Foundations and Principles of Health Promotion** (3) Basic exposure and skills development in theory and practice in health promotion.
Effective: Fall 2002
Prerequisite: BB H 101

BB H 324 **HealthWorks Peer Education Training** (3) Designed to train new HealthWorks peer educators, this course addresses behavior theories, promotion strategies, and college health issues.
Effective: Spring 2010

BB H 368 **Neuroanatomy, Behavior, and Health** (3) The neuroanatomical bases of behavior, health, and disease.
Effective: Spring 2007
Prerequisite: BB H 101; BI SC 004, BIOL 141 orPSYCH 260

BB H 390 **Global Health Fieldwork Experience** (3) Designed to help students prepare for and complete fieldwork experience in global health setting.
Effective: Summer 2010
Prerequisite: BB H 305 andBB H 440 with grades of C or better

BB H 390A **Preparation for Global Health Fieldwork Experience** (1) Designed to help students prepare for the required fieldwork experience in the Global Health minor.
Effective: Spring 2011
Prerequisite: BB H 305, BB H 440 orH P A 440 and admission to the Global Health minor

BB H 390B **Global Health Fieldwork Experience** (2) Fieldwork experience in a global health setting.
Effective: Spring 2011
Prerequisite: BB H 390A and admission to the Global Health minor
BB H 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 2010

BB H 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2009

BB H 402 (IL) African Health & Development (3) Course will address African health and development strategies in the context of health promotion programs. Effective: Summer 2010 Prerequisite: BB H 305

BB H 407 (IL) Global Health Equity (3) Health, social disparities, and equity in the global environment. Effective: Summer 2010

BB H 410 Developmental and Health Genetics (3) Discussion of genetic influences on development and the interrelationships between genetics and health. Effective: Spring 2008 Prerequisite: BIOL 133 or BIOL 222; STAT 200, STAT 220 or STAT 250

BB H 411W Research and Applications in Biobehavioral Health (3) Research methods, multi-level analyses, and applications in biobehavioral health. Effective: Spring 2011 Prerequisite: BB H 101, BB H 310, STAT 200

BB H 416 Health Promotion II: Planning, Implementation, and Evaluation (3) Planning, implementation, and evaluation of health promotion, prevention, and intervention programs; emphasizing evaluation. Effective: Fall 2010 Prerequisite: BB H 310, BB H 316

BB H 417 Advanced Applications in Health Promotion (3) Advanced learning experience in health promotion applications in which students will actively participate in planning, implementing, evaluating health programs. Effective: Spring 2000 Prerequisite: BB H 416

BB H 432 Biobehavioral Aspects of Stress (3) Comprehensive discussion on the mechanisms of stress-induced diseases. Effective: Fall 2010 Prerequisite: BB H 101, BIOL 141, BB H 310 or equivalent

BB H 440 (US; IL) (H P A 440) Principles of Epidemiology (3) Theory of epidemiology and significant case studies; potential applications to health care. Effective: Fall 2008 Prerequisite: BB H 101 or BIOL 110 or H P A 310; STAT 200 or STAT 250

BB H 440U (US; IL) Principles of Epidemiology (3) Theory of epidemiology and significant case studies; potential applications to health care. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012 Prerequisite: BB H 101 or BIOL 110 or H P A 310; STAT 200 or STAT 250

BB H 446 Human Sexuality as a Health Concern (3) Examination of human sexuality as a integral part of basic health education and health care for persons of all ages. Effective: Fall 2001 Prerequisite: BB H 101

BB H 451 Pharmacological Influences on Health (3) Biological and behavioral aspects of therapeutic and recreational drug use and misuse, and their relationships to health. Effective: Fall 2001 Prerequisite: BB H 101

BB H 452 (US) (NURS 452, WMNST 452) Women's Health Issues (3) Exploration of major health issues concerning women today, with an emphasis on social, cultural, and medical influences. Effective: Summer 2005 Prerequisite: BB H 101, BIOL 141

BB H 458 (WMNST 458) Critical Issues in Reproduction (3) Examination and analysis of the new reproductive technologies from the standpoint of medical ethics, feminism, and sociocultural influences. Effective: Spring 2007 Prerequisite: BIOL 141 or PSYCH 100

BB H 468 Neuroanatomical Bases for Disorders of Behavior and Health (3) An examination of the anatomical/cellular/molecular bases for human central nervous system disorders and their impacts on victims/families/caregivers.
BB H 469 (Biol 469) Neurobiology (3) Comprehensive examination of neuroanatomy and physiology designed to integrate the principles of neurochemistry, neuroendocrinology and molecular biology.

Effective: Fall 1994
Prerequisite: BIOL 240W

BB H 470 (Biol 470) Functional and Integrative Neuroscience (3) Neurobiological function in motivated behaviors, motor and sensory function, learning and memory, development, sexual differentiation, and pathology.

Effective: Summer 1995
Prerequisite: BIOL 469

BB H 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

Effective: Summer 1995

BB H 494H Senior Honors Thesis (1-6) Independent study related to a student’s interests directed by a faculty supervisor and culminating in the production of a thesis.

Effective: Summer 2005
Prerequisite: approval of honors thesis advisor

BB H 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 1995

BB H 496H Independent Honors Study in BB H (1-3 per semester/maximum of 6) For non-thesis independent study/research by Schreyer Honors College scholars.

Effective: Summer 2011

BB H 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Summer 1995

BB H 497A Clinic Volunteer Training (2-3) This course will be offered as a CE course.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

BB H 497B Health Works (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

BB H 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2009

Last Import from UCM: June 16, 2011 3:00 AM
Biochemistry and Molecular Biology (B M B)

B M B 001 (GN) Understanding the Bases of Human Disease (3) A broad survey of the molecular and cellular factors that contribute to an understanding of selected human diseases.
Effective: Fall 2004

B M B 001S (GN) Understanding the Bases of Human Disease (3) A broad survey of the molecular and cellular factors that provide an explanation for an understanding of human disease.
Effective: Spring 2001

B M B 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

B M B 211 Elementary Biochemistry (3) An overview of biochemistry that includes properties of biomolecules, bioenergetics, metabolism, nutrition, genetics, and molecular biology.
Effective: Summer 2007
Prerequisite: CHEM 110;CHEM 202 orCHEM 210

B M B 212 Elementary Biochemistry Laboratory (1) Selected experiments to illustrate major biochemical principles and techniques.
Effective: Summer 2000
Prerequisite: or concurrent:B M B 211

B M B 221 Applied Biochemistry (2) Application and correlation of biochemical events to physiological-nutritional processes in specialized cells, fluids, and whole animals. Students may not receive credit for both B M B 221 and 401.
Effective: Summer 2000
Prerequisite: B M B 211

B M B 251 (MICRB 251) Molecular and Cell Biology I (3) Biomolecules, genetic mechanisms, organization of cells and their organelles, DNA replication, protein synthesis, membranes, the cell nucleus, energy conversion.
Effective: Summer 2007
Prerequisite: CHEM 112

B M B 251H Molecular and Cell Biology I (3) Biomolecules, genetic mechanisms, organization of cells and their organelles, DNA replication, protein synthesis, membranes, the cell nucleus, energy conversion.
Effective: Summer 2007
Prerequisite: CHEM 112

B M B 252 (MICRB 252) Molecular and Cell Biology II (3) Continuation of B M B/MICRB 251; cytoskeleton, cell growth, division, adhesion, signalling, germ cells, differentiation, immune system, nervous system, plant cells.
Effective: Spring 1995
Prerequisite: B M B 251

B M B 252H Molecular and Cell Biology II (3) Continuation of B M B 251H; cytoskeleton, cell growth, division, adhesion, signalling, germ cells, differentiation, immune system, nervous system, plant cells.
Effective: Summer 2005
Prerequisite: B M B 251H

B M B 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2009

B M B 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Effective: Fall 2008
Prerequisite: BIOL 222 orBIOL 322;BIOL 230W orB M B 251;CHEM 212

B M B 401 General Biochemistry (3) Principles of the structure and function of biological molecules, including carbohydrates, lipids, membranes, proteins, and enzymes. Students may not receive credit for both CHEM 476 and B M B 401.
Effective: Fall 2009
Prerequisite: CHEM 212;B M B 251 orBIOL 230

B M B 401H General Biochemistry (3) Principles of the structure and function of biological molecules, including carbohydrates, lipids, membranes, proteins, and enzymes. Students may not receive credit for both CHEM 476 and B M B 401H.
Effective: Fall 2009
Prerequisite: CHEM 212;B M B 251 orBIOL 230W
Prerequisite: B M B 401 or CHEM 476

Prerequisite: B M B 401H

B M B 403 Biochemistry Laboratory (1) An introduction to techniques of experimental biochemistry, illustrating principles covered in B M B 402. Effective: Spring 2010
Prerequisite: or concurrent: B M B 402

Prerequisite: BIOL 222 or BIOL 322; BIOL 230W or B M B 251; CHEM 039

B M B 408 Laboratory Instructional Practice (1-2) Participation in the instruction of undergraduate laboratory courses, including classroom preparation; discussion of principles and objectives of each exercise. Effective: Spring 1995
Prerequisite: 10 credits in biochemistry and molecular biology and permission of the department

B M B 411 Survey of Biochemistry and Molecular Biology Literature (1) An introduction to readings and oral presentations in biochemistry and molecular biology. Effective: Spring 1995
Prerequisite: B M B 401; B M B 400 or B M B 402

B M B 428 Physical Chemistry with Biological Applications (3) Chemical thermodynamics and kinetics with applications to biological problems. Effective: Summer 2007
Prerequisite: CHEM 203 or CHEM 212; PHYS 203 or PHYS 251; 3 credits in cell biology

B M B 430 (B IOL 430, ENT 430) Developmental Biology (3) Molecular and genetic analyses of mechanisms involved in differentiation and determination in biological systems. Effective: Summer 1994
Prerequisite: B IOL 222; B M B 252 or B IOL 230

B M B 432 (MICRB 432, VB SC 432) Advanced Immunology: Signaling in the Immune System (3) The study of signaling pathways that regulate the immune response. Effective: Fall 2007
Prerequisite: B M B 400, MICRB 410

B M B 433 (VB SC 433) Molecular and Cellular Toxicology (3) In-depth coverage of processes by which drugs/chemicals interact with biological systems and the experimental approaches used to study these interactions. Effective: Fall 2007
Prerequisite: B M B 401

B M B 435 (MICRB 435, VB SC 435) Viral Pathogenesis (2) A study of the molecular, immunological and pathological aspects of viral diseases as well as laboratory methods of diagnosis. Effective: Fall 2007
Prerequisite: MICRB 201; B M B 251 and B M B 252 or B IOL 110 and B IOL 230W

B M B 437 Physiological Biochemistry (2) Physiological aspects of biochemistry, with emphasis on mammalian metabolism, specialized tissue and fluid functions, detoxification mechanisms, energetics, and physiological interrelationships. Effective: Spring 1995
Prerequisite: B M B 402

B M B 442 (MICRB 442) Laboratory in Proteins, Nucleic Acids, and Molecular Cloning (3) Laboratory in enzyme purifications and assay techniques; nucleic acid isolation and characterization, including plasmid preparation. Effective: Spring 2009
Prerequisite: B M B 251, B IOL 230W or MICRB 201; CHEM 202 or CHEM 210. Prerequisite or concurrent: B M B 211 or B M B 401

B M B 443W Laboratory in Protein Purification and Enzymology (3) Laboratory in protein isolation methodology, enzyme kinetics, and physico-chemical properties of proteins. Effective: Spring 2009
Prerequisite: B M B 442, B M B 401

B M B 444 Laboratory in Carbohydrates and Lipids (1) Laboratory in the isolation, quantification, and characterization of carbohydrates and lipids. Effective: Spring 2009
Prerequisite: B M B 442, B M B 401

B M B 445W Laboratory in Molecular Genetics I (2) Laboratory in molecular techniques in gene analysis and microbial genetics, emphasizing in vitro methodologies. Effective: Spring 2009
Prerequisite: B M B 442, B M B 400, MICRB 202

B M B 446 Laboratory in Molecular Genetics II (1) Laboratory in gene analysis and microbial genetics, emphasizing in
vivo methodologies.
Effective: Spring 2009
Prerequisite: B M B 442, B M B 400, MICRB 202

B M B 450 (MICRB 450) **Microbial/Molecular Genetics** (2) Genetic phenomena, with emphasis on molecular mechanisms: gene transfer, recombination, gene conversion, gene fusion, suppression, transposons.
Effective: Fall 2010
Prerequisite: BIOL 222 or BIOL 322, MICRB 201

B M B 460 (MICRB 460) **Cell Growth and Differentiation** (3) Mechanisms and regulation of protein trafficking, organelle biosynthesis, cell development, signaling and cell cycle control. Emphasizes experimental design and analysis.
Effective: Spring 2006
Prerequisite: B M B 252

B M B 464 **Molecular Medicine** (3) An exploration of the impact of advances in molecular biology on understanding disease mechanisms, medical diagnosis, and therapeutics.
Effective: Spring 1999
Prerequisite: B M B 251

B M B 465 **Protein Structure and Function** (3) A study of the relationship between structure and function of proteins; internet analysis to predict structure and function is included.
Effective: Fall 2007
Prerequisite: BIOL 230W

B M B 474 **Analytical Biochemistry** (3) Physical/chemical theory and techniques that emphasize purification and characterization of biological macromolecules, including proteins, lipids and nucleic acids.
Effective: Fall 2008
Prerequisite: Prerequisite or concurrent: B M B 428 or CHEM 450

B M B 480 (MICRB 480) **Tumor Viruses and Oncogenes** (3) Oncogenes, DNA and RNA tumor viruses, and relevant experimental techniques with emphasis on molecular basis of carcinogenesis and gene regulation.
Effective: Spring 2001
Prerequisite: or concurrent: MICRB 415, MICRB 435 or MICRB 460

B M B 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1995

B M B 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1995

B M B 497B **Functional Genomics** (3) Exploration of biochemical, genetic and evolutionary approaches to comprehensive discovery of functional DNA segments in genomes, including genes and the DNA sequences needed for regulating their expression.
Prerequisite: basic understanding of molecular genetics biochemistry and cell biology such as BMB/MICRB 251 and 252 or equivalent.

B M B 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

B M B 498A (MICRB 498A) **Antibiotics: Development and Resistance** (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

B M B 498A (MICRB 498A) **Antibiotics: Development and Resistance** (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

B M B 498B **Cell Biology Methods** (2) Advanced laboratory in the visualization and analysis of organelles, genetic mechanisms, and metabolic processes in eukaryotes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: MICRB 202, MICRB 252, MICRB 442

B M B 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Bioengineering (BIOE)

BIOE 100S Bioengineering Seminar (1) First-year seminar to introduce the role of engineering in biomedical research and in instrument development for the medical device industry.
Effective: Fall 2001

BIOE 199 Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

BIOE 201 Cell and Molecular Bioengineering (3) An analytical study of molecular and cellular phenomena including functional and metabolic interactions.
Effective: Spring 2009
Prerequisite: BIOL 141, CHEM 112, MATH 141. Prerequisite or concurrent: PHYS 212

BIOE 299 Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

BIOE 301 Analysis of Physiological Systems (3) Linear systems analysis applied to electrical networks and lumped parameter models of physiological control systems.
Effective: Spring 2007
Prerequisite: BIOL 141, PHYS 212, MATH 250 or MATH 251. Concurrent: BIOE 302

BIOE 302 Physiological Simulation Laboratory (1) Computer laboratory designed to illustrate applications of control systems theory to physiological systems.
Effective: Spring 2009
Prerequisite: or concurrent: BIOE 301; CMPSC 200 or CMPSC 201

BIOE 303 Bio-continuum Mechanics (3) Mechanical properties of fluids and solids with applications to tissue mechanics and vascular system.
Effective: Spring 2007
Prerequisite: BIOL 141, E MCH 210, MATH 230, MATH 251

BIOE 313 Bioengineering Thermodynamics (3) Chemical processes, including material and energy balances and phase equilibria, with emphasis on biological applications.
Effective: Summer 2007
Prerequisite: BIOL 141, CHEM 112, MATH 230, MATH 251

BIOE 399 Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

BIOE 401 Introduction to Bioengineering Research and Design (3) Challenges and constraints of bioengineering research and design. Emphasis on immunoresponse, tissue mechanics, biological transport phenomena, and biomaterials.
Effective: Spring 2007
Prerequisite: BIOE 201, BIOE 303. Concurrent: BIOE 404

BIOE 402 Biomedical Instrumentation and Measurements (3) Biomedical measurements, including consideration of techniques, equipment, and safety.
Effective: Spring 2008
Prerequisite: MATH 250 or MATH 251; BIOE 301 or E 210 or E 212 or PHYS 402

BIOE 403 Biomedical Instrumentation Laboratory (1) Biomedical measurements laboratory including measurement of bioptentials, experiments in medical imaging techniques, and use of cardiovascular and pulmonary system instrumentation.
Effective: Spring 2007
Prerequisite: Prerequisite or concurrent: BIOE 402

BIOE 404 Data Analysis and Experiment Design (1) Statistical measures of data, and selection of experiment sample size to meet criteria.
Effective: Summer 2006
Prerequisite: BIOE 302. Concurrent: BIOE 401

BIOE 406 Medical Imaging (3) Physical principles and clinical applications of medical imaging methods.
Effective: Summer 2000
Prerequisite: PHYS 212

BIOE 409 Biofluid Mechanics (3) The fundamental relations in fluid mechanics and their application to biofluids including steady/unsteady flows, diseased states, devices and biorheology.
Effective: Summer 2006
Prerequisite: MATH 230, MATH 251, BIOE 303

BIOE 410 Biomedical Applications of Microfluidics (3) Study of fluid mechanics at small length scales. Low Reynolds number flow, electrokinetic flows, bioseparations in microfluidic devices.
Effective: Fall 2007
Prerequisite: BIOE 303 or ME 320

BIOE 413 **Bioengineering Transport Phenomena** (3) An integrated study of the fundamentals of mass transport processes with emphasis on the analysis of physiological systems.
Effective: Summer 2007
Prerequisite: BIOE 303, BIOE 313 or CHEM 450

BIOE 419 **Artificial Organs and Prosthetic Devices** (3) Analysis of function and consideration of design concerns for biomedical implants, including prosthetic joints, electrical stimulators, and cardiovascular pumps.
Effective: Fall 2007
Prerequisite: MATH 250 or MATH 251. Prerequisite or concurrent: BIOL 141 or BIOL 472

BIOE 423 **Reaction Kinetics of Biological Systems** (3) Chemical kinetics and reaction equilibria with applications to the analysis of physiological function and the design of synthetic organs.
Effective: Spring 2007
Prerequisite: BIOL 141, BIOE 313 or CH E 210. Prerequisite or concurrent: BIOE 413 or CH E 302 and CH E 413

BIOE 440 **Clinical Correlations** (1) Engineering analysis applied to common disease states and therapies.
Effective: Summer 2000
Prerequisite: BIOE 402

BIOE 443 (MATSE 403) **Biomedical Materials** (3) Describe properties of materials and composites and their in vivo interactions.
Effective: Spring 2007
Prerequisite: MATSE 201

BIOE 444 (IL) (MATSE 404) **Surfaces and the Biological Response to Materials** (3) Focus is on special properties of surface as an important causative and mediating agent in the biological response to materials.
Effective: Summer 2007
Prerequisite: CHEM 111, CHEM 113

BIOE 445 **Tissue Engineering: Concepts, Calculations and Applications** (3) Introduction to interdisciplinary tissue engineering concepts, associated biochemical and biomechanical engineering calculations, and cardiovascular, musculoskeletal, and other tissue application examples.
Effective: Spring 2011
Prerequisite: BIOE 201, BIOE 303

BIOE 450W **Bioengineering Senior Design** (3) Application of engineering and physiological principles to design of artificial organs and life supportive devices.
Effective: Spring 2009
Prerequisite: BIOE 403, BIOE 440, ENGL 202C senior standing

BIOE 490 **Colloquium** (1) Technical presentations related to research and industry concerns, and by students doing senior projects.
Effective: Summer 2000
Prerequisite: or concurrent: BIOE 450W

BIOE 494H **Honors Thesis** (1-3) Independent study research and design, leading towards honors thesis.
Effective: Summer 2006 Ending: Fall 2011
Prerequisite: Permission of program.

BIOE 494H **Honors Thesis** (1-3 per semester/maximum of 3) Independent study research and design, leading towards honors thesis.
Prerequisite: Permission of program.

BIOE 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

BIOE 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

BIOE 497K **Bioengineering Mechanics and Techniques Laboratory** (3) Experimental laboratory that includes measurements related to biomechanical phenomena (e.g. tissue viscoelasticity and blood flow) and cellular growth.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: BIOE 201 and BIOE 303

BIOE 499 **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008
Bioethics and Medical Humanities (BMH)

BMH 490 Bioethics and Medical Humanities Capstone Course (3) Students will integrate knowledge from their BMH minor through discussion and writing a paper on some aspect of medical humanities.
Effective: Summer 2005
Prerequisite: PHIL 132

Last Import from UCM: June 16, 2011 3:00 AM
Bioinformatics (BIIFM)

BIIFM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2004

Last Import from UCM: June 16, 2011 3:00 AM
Biological Engineering (B E)

B E 001S Growing Your Future--First-Year Seminar (1) Introduce students to University life, the agricultural/biological/engineering program and profession; prepare them to succeed in academic life at Penn State.
Effective: Fall 2008
Prerequisite: first-year status

B E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2008

B E 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2008

B E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2008

B E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2010

B E 300 Biological Systems (3) Structure, function, and energy transformation of biological systems that affect solutions to engineering problems. Effects of engineering activities on ecosystems.
Effective: Fall 2008
Prerequisite: CHEM 110 and PHYS 211

B E 301 Mathematical Modeling of Biological and Physical Systems (3) Modeling tools, quantification of processes, linear and non-linear systems of equations, numerical methods, matrix operations, applied to biological and physical systems.
Effective: Fall 2008
Prerequisite: or concurrent: MATH 251

B E 302 Transport Processes for Biological Systems (3) Engineering applications of the fundamentals of fluid mechanics, heat transfer, and diffusion, to biological systems at scales ranging from microbial to ecological.
Effective: Fall 2008
Prerequisite: B E 300, B E 301, M E 300, C E 360 or M E 320

B E 303 Structural Systems in Agriculture (3) Engineering analysis and design of structural systems in agriculture; topics: loads, connectors, analysis and design of structural members and systems.
Effective: Spring 2011
Prerequisite: B E 301, E MCH 213

B E 304 Engineering Properties of Food and Biological Materials (3) Composition, structure, and properties relationships. Measurement of mechanical thermal, chemical and biological properties, their variability, and use in engineering calculations.
Effective: Fall 2008
Prerequisite: E MCH 213. Prerequisite or concurrent: B E 300; C E 360 or M E 320; MATH 251

B E 305 Agricultural Measurements and Control Systems (3) Principles of measurements, instruments, controls, and data acquisition systems, with emphasis on agricultural applications.
Effective: Fall 2008
Prerequisite: PHYS 212

B E 306 Machines for Agricultural and Biological Processing (3) Application of machine systems to agricultural production and biological processing machinery. Functional design and analysis of equipment.
Effective: Spring 2011
Prerequisite: B E 301, E MCH 212, E MCH 213

B E 307 Principles of Soil and Water Engineering (3) Utilization and engineering of soil-water resources; including rainfall- runoff, soil-water movement, erosion/sediment transport and flow processes.
Effective: Spring 2011
Prerequisite: C E 360 or M E 320

B E 308 Engineering Elements of Biochemistry and Microbiology (3) Introduction to basic biochemistry and microbiology as well as industrial and environmental applications.
Effective: Fall 2008
Prerequisite: CHEM 110

B E 391 (GWS) (A S M 391) Contextual Integration of Communication Skills for the Technical Workplace (2) To develop corporate communication skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: Junior level standing in B E or A S M
B E 392 (GWS) (A S M 392) **Contextual Integration of Leadership Skills for the Technical Workplace** (2) To develop corporate leadership skills in technically focused students in a contextual manner.
Effective: Fall 2008
Prerequisite: B E 391 junior level standing in B E or A S M

B E 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2010

B E 461 **Design of Fluid Power Systems** (3) Hydraulic systems, hydrostatic transmissions, electro-hydraulic systems in application to agricultural production and processing systems.
Effective: Fall 2008
Prerequisite: B E 306 or M E 360; C E 360 or M E 320

B E 462 **Design of Wood Structures** (3) Structural properties of wood; design of wood structural elements; design of wood structural systems; design of post-frame buildings.
Effective: Fall 2008
Prerequisite: B E 303, A E 308 or C E 340

B E 465 **Food and Biological Process Engineering** (3) Reactor design, kinetics, fluid flow, thermal processes, and other topics applied to the design of systems for the food and biological process industry.
Effective: Fall 2008
Prerequisite: B E 302

B E 466W **Biological Engineering Design** (3) This course focuses on a industry sponsored design project offered in conjunction with the College of Engineering Learning Factory.
Effective: Summer 2010
Prerequisite: B E 391; senior level standing in B E

B E 467 **Design of Stormwater and Erosion Control Facilities** (3) Design of best management practices for stormwater management, erosion and sediment control as applied to the agriculture-urban interface.
Effective: Spring 2010
Prerequisite: B E 307 or C E 461

B E 468 **Microbiological Engineering** (3) Application of basic engineering principles and designs in biochemical and biological processes.
Effective: Fall 2008
Prerequisite: B E 308 or B M B 211 and MICRB 201; PHYS 211 or PHYS 250

B E 469W **Optimization of Biological Production and Processing Systems** (3) Engineering and biological principles combined with economics and mathematical techniques to evaluate and optimize biological production and processing systems.
Effective: Fall 2008
Prerequisite: B E 302 and one B E 460 level course

B E 475 **Food Engineering Equipment Design** (3) Engineering analysis and operation of pilot-plant equipment, i.e., spray, freeze and deep bed dryers, evaporators, freezing tunnels, distillation columns.
Effective: Fall 2008
Prerequisite: B E 465

B E 477 **Land-Based Waste Disposal** (3) Analysis, design, and management of land-based systems for recycling and disposal of municipal, industrial, and agricultural wastes.
Effective: Fall 2008
Prerequisite: B E 307 or C E 370 or A S M 327

B E 487 **Watershed Modeling for Water Quality Design** (3) Application of common watershed models used to investigate design alternatives for flow and quality effects.
Effective: Summer 2010
Prerequisite: B E 307 or C E 461

B E 494 **Senior Thesis** (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Fall 2008

B E 494H **Senior Honors Thesis** (1-6) Senior honors thesis.
Effective: Fall 2008
Prerequisite: junior or senior status in the University Scholar's program

B E 495 **Agricultural Engineering Internship** (1-6) Independent study and supervised cooperative education experience related to the student's career objective.
Effective: Fall 2008

B E 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2008

B E 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

B E 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2010
Biological Science (BI SC)

BI SC 001 (GN) Structure and Function of Organisms (3) An exploration of how cellular structures and processes contribute to life and how life displays unity even in its diversity. Students who have passed BIOL 027, 110, or 141 may not schedule this course.
Effective: Fall 2004

BI SC 002 (GN) Genetics, Ecology, and Evolution (3) The study of how living organisms inherit their traits, how plants and animals evolved, and how they now interact. Students who have passed BIOL 033, 110, 220W, or 222 may not schedule this course.
Effective: Spring 2003

BI SC 003 (GN) Environmental Science (3) Kinds of environments; past and present uses and abuses of natural resources; disposal of human wastes; prospects for the future. Students who have passed BIOL 220 or any other upper-level ecology course in biology may not schedule this course.
Effective: Fall 2003

BI SC 004 (GN) Human Body: Form and Function (3) A general survey of structure and function—from conception, through growth and reproduction, to death. Students who have passed BIOL 129 and 141 may not schedule this course.
Effective: Spring 2002

Last Import from UCM: June 16, 2011 3:00 AM
Biology (BIOL)

BIOL 003 Peer Learning in Biology (1) Group and learning skills to facilitate the understanding of complex biological processes. Effective: Spring 2006
Prerequisite: Concurrent enrollment in biology or life science course and permission of program.

BIOL 011 (GN) Introductory Biology I (3) An introduction to fundamental biological topics (including cells, energy transduction, genetics, evolution, organismal structure/function, ecology) for non-majors biology-related fields. Effective: Fall 2003

BIOL 012 (GN) Introductory Biology II (1) Laboratory exercises demonstrating principles of biology. Effective: Summer 1992
Prerequisite: or concurrent: BIOL 011

BIOL 110 (GN) Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology. Effective: Fall 2003

BIOL 110H (GN) Honors Biology: Basic Concepts and Biodiversity (4) Honors study of the evolution of the major groups of organisms including the fundamental concepts of biology. Effective: Spring 2006

BIOL 110L (GN) Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology. Effective: Summer 1994

BIOL 110P (GN) Biology: Basic Concepts and Biodiversity A study of the evolution of the major groups of organisms including the fundamental concepts of biology. Effective: Summer 1994

BIOL 110S (GN) Biology: Basic Concepts and Biodiversity (4) A study of the evolution of the major groups of organisms including the fundamental concepts of biology. This course also fulfills the First-Year Seminar requirements. Effective: Summer 1999

BIOL 120A (GN;US;IL) Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance. Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course. Effective: Spring 2008

BIOL 120B (GN;US) Plants, Places, and People (3) Useful and dangerous plants; historical (archaeological), cultural (ethnological), and economic (anthropocentric) aspects, including structural and chemical characteristics of botanical importance. Students who have passed BIOL (PPATH;S T S) 424 may not schedule this course. Effective: Spring 2008

BIOL 127 (GN) Introduction to Plant Biology (3) Cellular structure and organization; physiological processes; classification; reproduction and development; relationship of plant groups. Students who have passed BIOL 240W may not schedule this course. Effective: Spring 2008

BIOL 129 (GN) Mammalian Anatomy (4) Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course. Effective: Fall 2003

BIOL 129L (GN) Mammalian Anatomy (4) Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course. Effective: Fall 2003

BIOL 129P (GN) Mammalian Anatomy Anatomy of a mammal, with special reference to that of man. Students who have passed BIOL 421 may not schedule this course. Effective: Fall 1998

BIOL 133 (GN) Genetics and Evolution of the Human Species (3) Human heredity and evolution, individual and social implications. The course is for non-majors; students who have passed BIOL 222, 230W, B M B 251 or any upper-division biology course may not schedule this course.
**Biology: Introductory Physiology (BIOL 141)**

Explanation of the normal structure and function of the animal body, with special emphasis on human body systems. Students who have passed BIOL 472 may not schedule this course.

Effective: Fall 2003

**Biology: Physiology Laboratory (BIOL 142)**

Experiments demonstrating basic physiological principles, with special reference to man.

Effective: Fall 1998

Prerequisite: or concurrent: BIOL 141

**Biology: Introduction to the Biology of Aging (BIOL 155)**

Examination of human aging from a biological perspective. Population demographics, physiological and pathological changes, and healthy lifestyles are discussed. Students who have passed BIOL 409 may not schedule this course.

Effective: Spring 2008

**Biology: Sex (BIOL 177)**

Basic structure and function of the human reproductive system. Physiology of gametogenesis, fertilization, contraception, gestation, parturition, lactation, and sexual behavior.

Effective: Spring 2008

**Foreign Studies (BIOL 199)**

Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

**Introduction to Pharmacological Concepts (BIOL 200)**

Presents basic concepts of pharmacology; includes major drug classifications, pharmaceutical preparations, and biological implications relevant to these therapeutic agents.

Effective: Spring 1995

**Honors Biology: Populations and Communities (BIOL 220M)**

Honors study of the major physical, chemical, and biological factors constituting environment and their dynamic interaction with organisms forming ecosystems.

Effective: Summer 2005

Prerequisite: BIOL 110

**Honors Biology: Populations and Communities (BIOL 220W)**

A study of the structures and functions of organismic interactions from simple populations to complex ecosystems. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)

BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement. Effective: Fall 2004

Prerequisite: BIOL 110

**Genetics (BIOL 222)**

Variation and heredity in plants and animals, including man; relationships of genetical knowledge to evolution and breeding practices.

Effective: Spring 1995

Prerequisite: 3 credits in biological sciences

**Laboratory in Genetics (BIOL 223)**

Principles of genetics illustrated with Drosophila breeding experiments and with demonstrations of plant and animal materials.

Effective: Spring 2008

Prerequisite: BIOL 133 or BIOL 222

**Honors Biology: Molecules and Cells (BIOL 230M)**

Honors study of cellular phenomena including molecular genetics and metabolic interactions.

Effective: Summer 2007

Prerequisite: BIOL 110, CHEM 110

**Biology: Molecules and Cells (BIOL 230W)**

A study of cellular phenomena including molecular genetics and metabolic interactions. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)

BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement. Effective: Summer 2007

Prerequisite: BIOL 110, CHEM 110

**Biology: Function and Development of Organisms (BIOL 240M)**

Honors study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)

Effective: Summer 2007

Prerequisite: BIOL 110, CHEM 110

**Biology: Function and Development of Organisms (BIOL 240W)**

A study of development and physiological processes at the organismic level. (BIOL 220W, 230W, and 240W each carry only 1 credit of "writing"; all three courses must be taken to meet the writing requirement.)

BIOL 220W GN, 230W GN, and 240W GN each carry only 1 credit to "Writing"; all three courses must be taken to meet the W requirement. Effective: Summer 2007

Prerequisite: BIOL 110, CHEM 110

**Peer Leadership in Biology (BIOL 251)**

Leadership training in guiding others to learn, communicate, and apply
biological principles.
Effective: Spring 2006
Prerequisite: 8 credits in biology or life science courses and permission of program

BIO 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

BIO 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

BIO 297A Issues in Health Professions Reading Seminar (1) Reading seminar for students with an interest in the health professions. This course will encourage reading, critical evaluation, reflection, and discussion using historical and current issues in the health professions.

BIO 297B Intro to Pathophysiological Concepts (3) Covers the alteration of basic physiological processes associated with the disease state.
Effective: Summer 2011 Ending: Summer 2011

BIO 297C Integrative Pharmacology (3) Review the basic concepts of pharmacology and relate these concepts to the pathophysiological changes associated with the disease state.
Effective: Summer 2011 Ending: Summer 2011

BIO 322 Genetic Analysis (3) A discussion of the mechanisms of heredity in prokaryotes and eukaryotes with emphasis on analysis and modes of inference.
Effective: Fall 2007
Prerequisite: at least two of the following courses: BIOL 220W, BIOL 230W, BIOL 240W or MICRB 201

BIO 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

BIO 400 Teaching in Biology (1-3) This course will train biology teaching assistants to teach in the laboratory/ recitation setting with emphasis on critical thinking skills. Enrollment will be limited to students of at least fifth semester standing that have been accepted as teaching assistants for biology.
Effective: Fall 2006
Prerequisite: Enrollment will be limited to students of at least fifth semester standing who are or have been accepted as teaching assistants in a life science course.

BIO 402W Biological Experimental Design (3) Discussion of experimental design, analysis and presentation, with a practicum providing for student design, analysis and presentation of biological experiments. Students may not take this course if they have taken BIOBD 350W.
Effective: Fall 2007
Prerequisite: at least two of the following three courses: BIOL 220W, BIOL 230W, BIOL 240W; STAT 250

BIO 404 Cellular Mechanisms in Vertebrate Physiology (3) This course considers cellular mechanisms governing physiological aspects of vertebrate cell signaling and their adaptation to particular organismal functions.
Effective: Spring 2001
Prerequisite: B M B 251 or BIOL 230W

BIO 405 Molecular Evolution (3) Introduction to concepts and techniques of analysis of molecular sequence data from an evolutionary point of view.
Effective: Fall 1994
Prerequisite: BIOL 222 or BIOL 230W

BIO 406 Symbiosis (3) This course covers a variety of different types of symbiotic relationships between unicellular symbionts and plants, fungi, or animals.
Effective: Summer 1998
Prerequisite: BIOL 110; BIOL 220W, BIOL 230W or BIOL 240W

BIO 407 Plant Developmental Anatomy (3) This course will examine the development of basic vascular plant anatomical structures including leaves, stems, roots, and flowers.
Effective: Fall 2005
Prerequisite: BIOL 240W

BIO 408 Contributions of Women to the Biological Sciences: Past and Present (3) A study of the contributions that women scientists have made and continue to make in the biological sciences.
Effective: Spring 2005
Prerequisite: BIOL 220W, BIOL 230W or BIOL 240W

Effective: Summer 1984
Prerequisite: 6 credits in biology

The Pennsylvania State University
BIOL 411 Medical Embryology (3) Develops an understanding of human reproductive physiology, embryological processes, their time frames, and the development of major human body systems. The course emphasizes clinical correlations and the medical consequences of developmental abnormalities.
Effective: Summer 1998
Prerequisite: 6 credits of biology

BIOL 412 Ecology of Infectious Diseases (3) This course examines how ecological processes impact upon the epidemiology of infectious diseases.
Effective: Fall 2004
Prerequisite: BIOL 220W or PA 440

BIOL 413 Cell Signaling and Regulation (3) Introduction to the themes of cellular signaling and regulation through critical review of primary literature.
Effective: Spring 1998
Prerequisite: BIOL 240W

BIOL 414 Taxonomy of Seed Plants (3) Basic principles and procedures in the practice of angiosperm systematics.
Effective: Fall 1994
Prerequisite: BIOL 240W

BIOL 415 Ecotoxicology (3) Major concepts and controversies in the interdisciplinary field of ecological toxicology; toxicity analysis, remediation, and case studies of environmental pollution.
Effective: Spring 1995
Prerequisite: BIOL 110, BIOL 220W; FOR 308 or FS 209

BIOL 416 Biology of Cancer (3) This course intends to illustrate biological basis of cancer development, and discusses aspects on prevention, detection, and treatment of cancer.
Effective: Spring 1999
Prerequisite: BIOL 222 or BIOL 230W

BIOL 417 Invertebrate Zoology (4) Function and form of major invertebrate phyla.
Effective: Fall 1994
Prerequisite: BIOL 110

BIOL 418 Ecological and Environmental Problem Solving (3) Overview of processes involved in solving environmental problems. Provides students with a toolkit for understanding ecological and environmental problems.
Effective: Spring 2004
Prerequisite: BIOL 220W

BIOL 420 (GEOSC 420) Paleobotany (3) Classification, morphology, phylogeny, and stratigraphic occurrence of fossil plants; practicum includes field trips and study of paleobotanical techniques and specimens.
Effective: Spring 2005
Prerequisite: any 3 credit introductory course in historical geology or plant biology

BIOL 421 (VB SC 421) Comparative Anatomy of Vertebrates (4) The comparative anatomy of representative vertebrate animals discussed from a descriptive and an evolutionary viewpoint.
Effective: Spring 2008
Prerequisite: BIOL 240W

BIOL 422 Advanced Genetics (3) Chromosomal mechanism of heredity; cytoplasmic and polygenic inheritance, chemical genetics, genomics, and experimental evolution.
Effective: Fall 2010
Prerequisite: one genetics or genetic-based course including BIOL 133, BIOL 222, BIOL 322 or BIOL 230W

BIOL 424 Seeds of Change: The Uses of Plants (3) Interdisciplinary approach to the biology, chemistry, history, and culture of the interactions between plants and people.
Effective: Spring 2009
Prerequisite: BIOL 110; BIOL 220W, BIOL 230W or BIOL 240W

Effective: Spring 2002
Prerequisite: fifth-semester or graduate standing in a biological sciences major with six credits completed in the major

BIOL 426 Developmental Neurobiology (3) Overview of basic developmental processes as they apply to the central nervous system.
Effective: Spring 2004
Prerequisite: BIOL 141 or BIOL 240

BIOL 427 Evolution (3) Selected topics on the evolution of life.
Effective: Spring 1995
Prerequisite: BIOL 220W, BIOL 230W

BIOL 428 Population Genetics (3) Mathematical formulation of evolution by natural selection, genetic equilibrium under selection, mutation, migration, random drift.
Effective: Spring 2001
Prerequisite: BIOL 220W, STAT 250; MATH 111 or MATH 141

BIOL 429 Animal Behavior (3) Physiological mechanisms, ecological relevance, and adaptive significance of animal behavior.
Effective: Spring 1999
Prerequisite: BIOL 110, BIOL 220W

BIOL 430 (B M B 430, ENT 430) Developmental Biology (3) Molecular and genetic analyses of mechanisms involved in differentiation and determination in biological systems.
Effective: Summer 1994
Prerequisite: B M B 252 ; orBIOL 222, BIOL 230W

BIOL 432 Developmental Genetics (3) An advanced course in developmental biology, focusing on the use of genetics techniques to study fundamental questions of animal development.
Effective: Summer 1998
Prerequisite: BIOL 230W ; or M B 251, B M B 252

BIOL 435 Ecology of Lakes and Streams (3) Physical, chemical, and biological characteristics of freshwater environments, with special emphasis on factors regulating productivity in freshwater ecosystems.
Effective: Fall 1994
Prerequisite: BIOL 220W

BIOL 436 Population Ecology and Global Climate Change (3) Ecological responses of individuals, populations, and communities to environmental variation, with emphasis on climate change.
Effective: Spring 2004
Prerequisite: BIOL 220

BIOL 437 Histology (4) Microscopic structure of the tissue of the animal body.
Effective: Fall 1994
Prerequisite: BIOL 230W

BIOL 438 Theoretical Population Ecology (3) Theoretical discussions of demographics, population and metapopulation growth models, life histories, and species interactions such as competition, predation, host-parasitoid relationships.
Effective: Fall 2007
Prerequisite: BIOL 220W, MATH 140, STAT 250

BIOL 439 Practical Bioinformatics (3) Practical aspects of retrieving and analyzing biological information residing in common databases.
Effective: Spring 2004
Prerequisite: BIOL 230 or B M B 251

BIOL 441 Plant Physiology (3) Classical and current concepts in plant constituents, mineral nutrition, water relations, respiration, photosynthesis, photoperiodism, plant hormones, growth, and development.
Effective: Spring 1995
Prerequisite: BIOL 230W, BIOL 240W

BIOL 443 Evo-devo: Evolution of Developmental Mechanisms (3) How evolution of animals and plants can be traced to changes in the regulation and/or interactions of genes controlling development.
Effective: Spring 2004
Prerequisite: BIOL 240

BIOL 444 Field Ecology (3) This field course will explore the flora and fauna of the mid-Atlantic area.
Effective: Fall 2007
Prerequisite: BIOL 220W

BIOL 446 Physiological Ecology (3) The physiological abilities of plants and animals to adapt to their abiotic environment.
Effective: Fall 1994
Prerequisite: BIOL 220W, BIOL 240W

BIOL 448 Ecology of Plant Reproduction (3) Analysis of the ecology, evolution, and natural history of angiosperm reproduction, including pollination, fruit-set, dispersal, and relevant plant-animal interactions.
Effective: Fall 1994.
Prerequisite: BIOL 220W

BIOL 450W Experimental Field Biology (3-5) A practical introduction to modern experimental techniques for ecological study of terrestrial, marine, and fresh water habitats.
Effective: Fall 2007
Prerequisite: BIOL 220W, BIOL 240W

BIOL 459 (BIOCT 459, HORT 459) Plant Tissue Culture and Biotechnology (3) Principles and techniques for the in vitro culture, propagation, and genetic manipulations of plant cells.
Effective: Fall 1999
Prerequisite: BIOL 230W ; or B M B 251, B M B 252

BIOL 460 (ANTH 460) Human Genetics (3) The human genome, its variation, origins, and relation to disease and other traits.
Effective: Fall 2007
Prerequisite: BIOL 230W or 3 credits in genetics

BIOL 460H (ANTH 460H) Human Genetics (4) Gene mapping in humans; molecular basis of genetic disease; gnomic structure; immunogenetics; and genetic evidence for human evolutionary history.
Effective: Fall 2001
Prerequisite: 3 credits in genetics or ANTH 021 or BIOL 222 or BIOL 230W ; and 3 credits in statistics

BIOL 461 Contemporary Issues in Science and Medicine (3) Current/classical issues relating to health, research,
agriculture, environment, and biotechnology. Active exploration of the impact of science on society.
Effective: Spring 2003
Prerequisite: A 400-level Biology course.

BIOL 463 General Ecology (3) Illustrates science of ecology, from individual, population, and community-level perspectives, discusses applications of this science to issues of conservation of biodiversity.
Effective: Spring 2002
Prerequisite: BIOL 220

BIOL 464 (ANTH 464) Sociobiology (3) The study of the adaptive function of social behavior, the comparative analysis of social organization, and the ecology of sociality.
Effective: Spring 1987
Prerequisite: 6 credits in biology or anthropology

BIOL 465 General Cytology (3) Structure and function of organelles of plant and animal cells, mitosis, meiosis, cytological techniques.
Effective: Fall 1988
Prerequisite: 12 credits in biology and/or molecular and cell biology

BIOL 469 (BB H 469) Neurobiology (3) Comprehensive examination of neuroanatomy and physiology designed to integrate the principles of neurochemistry, neuroendocrinology, and molecular biology.
Effective: Spring 1995
Prerequisite: BIOL 240W

BIOL 470 (BB H 470) Functional and Integrative Neurosciences (3) Neurobiological function in motivated behaviors, motor and sensory functions, learning and memory development, sexual differentiation, and pathology.
Effective: Summer 1995
Prerequisite: BIOL 469

BIOL 471 Molecular Neurobiology/Cell Biology Laboratory (3) Introduction to modern molecular and cellular methodologies. The course is designed to integrate the principles of molecular cell biology with neurochemistry and neuroendocrinology.
Effective: Summer 1995
Prerequisite: BIOL 469

BIOL 472 Mammalian Physiology (3) Mechanisms concerned with normal animal function, with special emphasis on humans.
Effective: Summer 2007
Prerequisite: BIOL 240W, CHEM 203

BIOL 473 Laboratory in Mammalian Physiology (2) Laboratory experiments demonstrating fundamentals in physiology.
Effective: Summer 1985
Prerequisite: or concurrent:BIOL 472

BIOL 474 (GEOSC 474) Astrobiology (3) In depth treatment of principles/concepts of biochemical evolution, the origin/evolution of life; evaluation of distribution of life in the universe.
Effective: Summer 2007
Prerequisite: BIOL 110, CHEM 110

BIOL 479 (AN SC 479) General Endocrinology (3) Endocrine mechanisms regulating the morphogenesis, homeostasis, and functional integration of animals.
Effective: Fall 2009
Prerequisite: BIOL 141 or BIOL 472

BIOL 482 Coastal Biology (3-4) Marine organisms, their interactions with each other, and their relationships with several coastal habitats.
Effective: Spring 2010
Prerequisite: BIOL 220W

BIOL 492 Senior Seminar in Biology (1) Discussion of selected topics from recent biological literature; reports on current research or internship experiences.
Effective: Fall 2007
Prerequisite: 18 credits in Biology; seventh-semester standing

BIOL 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2010

BIOL 495 Internship in Biology (3-12) Practical off-campus experience in Biology under the supervision of a professional and a faculty member.
Effective: Fall 2007

BIOL 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

BIOL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

BIOl 497A Biology of RNA (3) Explores the biological functions that RNA plays in diverse organisms, including transcription, translation, virology, and RNA-interference.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

BIOl 497A Evolution of Infectious Diseases (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Prerequisite: BIOL 220W

BIOl 497B Biology of Reproduction (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Prerequisite: BIOL 240W

BIOl 497C Comparative Neuroanatomy (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

BIOl 497D Pathobiology (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Prerequisite: BIOL 230W, BIOL 240W 6th semester standing

BIOl 497E Evolution of the Vertebrates (3) Covers evolution of vertebrate animals, with emphasis on adaptation and convergence within and among living representatives of each group.

Prerequisite: BIOL 220W and BIOL 240W

BIOl 497F Cell Development and Cancer Biology (3) This is an embedded course to be taught both in spring (Univ. Park) and early summer (Beijing, China). It focuses on molecular, cellular and developmental basis of tumorigenesis.

BIOl 498 (ENT 498) Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 1993

BIOl 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

BIOl 499A (IL) Tropical Field Ecology (3) An intensive introduction to tropical biodiversity to be taught in Belize, Central America.

Effective: Summer 2005

Prerequisite: BIOL 220W

Last Import from UCM: June 16, 2011 3:00 AM
Biomedical Engineering Technology (BE T)

BE T 101 Introduction to Medical Equipment Maintenance (1) Introduction to the field of clinical engineering and the management of medical equipment and systems.
Effective: Spring 2008

BE T 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

BE T 201 Medical Equipment & Systems I (5) Introduction to the field of biomedical engineering technology, electrical wiring devices, theories of measurement, cardiovascular systems and ECG monitor operation.
Effective: Fall 2008
Prerequisite: EET 105

BE T 202 Medical Electronics II (4) Introduction to electronic devices used in medical equipment: BJT$s$, JFET$s$, MOSFET$s$, amplifier configurations, personal computer hardware, networking, and DICOM fundamentals.
Effective: Fall 2008
Prerequisite: BE T 201, BE T 205

BE T 203 Biomedical Equipment Laboratory (Internship) (4) Practical experience, within or related to the hospital environment, on a variety of biomedical instruments.
Effective: Fall 2008
Prerequisite: BE T 204W, BE T 202, BI SC 004 or BIOL 141 and it must be the last class taken for the degree

BE T 204W Medical Equipment and Systems II (5) Principles of medical equipment: operation, application; circuit and block diagrams; preventive maintenance inspections; and troubleshooting with report writing and presentations.
Effective: Fall 2008
Prerequisite: BE T 201, BE T 205

BE T 205 Medical Electronics I (3) A study of diodes, power supplies, operational amplifiers, specialized high power devices, 555 timer and tuned amplifiers.
Effective: Fall 2008
Prerequisite: EET 105

BE T 210 Servicing Medical Equipment (3) Methods and strategies for servicing medical equipment, systems and electronics components.
Effective: Spring 2008
Prerequisite: BE T 201

BE T 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1997

BE T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

BE T 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Biotechnology (BIOTC)

BIOTC 416 (MICRB 416) **Microbial Biotechnology** (2) Fundamentals of applied biotechnology; the use of microorganisms in the synthesis of biologically-important and industrially-useful products.
- Effective: Spring 2009
- Prerequisite: MICRB 201, MICRB 202; B M B 442 or MICRB 442

BIOTC 459 (HORT 459, BIOL 459) **Plant Tissue Culture and Biotechnology** (3) Principles and techniques for the in vitro culture, propagation, and genetic manipulations of plant cells.
- Effective: Spring 2003
- Prerequisite: BIOL 230W; or B M B 251, B M B 252

BIOTC 460 (AGRO 460) **Advances and Applications of Plant Biotechnology** (3) This course provides a comprehensive overview and current status of plant biotech research. The course provides knowledge of plant systems that fall in the category of GMOs.
- Effective: Spring 2009
- Prerequisite: BIOL 230W, B M B 251 or equivalent

BIOTC 479 **Methods in Biofermentations** (3) Bioprocessing principles and development; uses and operation of biofermentors; determination of biomass; problems of scale-up.
- Effective: Spring 2009
- Prerequisite: MICRB 201, MICRB 202; B M B 251, B M B 252, B M B 442

BIOTC 489 (V SC 489) **Animal Cell Culture Methods** (3) An overview of animal cell culture methodology and its practical application in bioprocess technology.
- Effective: Spring 1996
- Prerequisite: MICRB 201, MICRB 202; BIOL 230W or B M B 251

Last Import from UCM: June 16, 2011 3:00 AM
Business Administration (B A)

B A 100 (GS) Introduction to Business (3) A comprehensive view of the contemporary environment of business.
Effective: Summer 2008

B A 100S (GS) Introduction to Business (3) A comprehensive view of the contemporary environment of business.
Effective: Fall 2009

B A 195 Cooperative Practicum with Business Offices (3-6) Cooperative practical work with business offices under the supervision of the instructor.
Effective: Summer 1990

B A 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

B A 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

B A 241 Legal Environment of Business (2) Examines the legal system's role and impact regarding business transactions, liability issues, and ownership of intellectual property. Students earning credit for B A 241 may not earn credit toward Smeal College baccalaureate degree for B Law 243 and/or B A 243.
Effective: Summer 2003

B A 242 Social and Ethical Environment of Business (2) Explores the social and ethical environment of business and ethical decision making in a business context.
Effective: Summer 2003

B A 243 Social, Legal, and Ethical Environment of Business (4) Explores the ethical, political, social, legal and regulatory, technological, and demographic diversity environment of business. A student may not receive credit toward graduation for both B LAW 243 and B A 243.
Effective: Fall 1994

B A 250 Small Business Management (3) Analysis of problems of the small firm, particularly for the student who wishes to venture into business.
Effective: Spring 2008
Prerequisite: 3 credits in economics

B A 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

B A 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1993

B A 297A Career Planning and Strategies (1) Job search process, positions and career paths, self-assessment, goal-setting, projects, and networking with companies.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

B A 297A Career Planning & Strategies (1) Job search process, positions and career paths, self-assessment, goal-setting, projects, and networking with companies.

B A 297C Leadership Development--Sapphire (1) This course introduces students to key leadership concepts and facilitates students' creation of leadership development proposals. Course is required for all Sapphire students.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

B A 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

B A 301 Finance (2) This course provides an overview of finance. The primary focus is on financial decision making in organizations - also known as corporate finance. In addition to corporate finance, the course also covers the two other
primary areas of finance: financial markets and institutions, and investments.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102, ECON 104; MIS 204 or IST 110; SCM 200 or STAT 200

B A 302 Supply Chains (2) Introduction to key elements and strategic importance of supply chain networks.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102, ECON 104, MIS 204; SCM 200 or STAT 200

B A 303 Marketing (2) Introduction to customer behavior and research, service/product development, pricing and promotion in diverse and international marketing contexts.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102, ECON 104; MIS 204; SCM 200 or STAT 200

B A 303H Honors Core Marketing (2) Junior Core Marketing - Honors Section.
Effective: Spring 2011
Prerequisite: ACCTG 211, B A 243 or B A 241 and B A 242, ECON 102, ECON 104, ENGL 015, MATH 110 or MATH 140, MIS 204, SCM 200 or STAT 200

B A 304 Management and Organization (2) Introduction to key concepts for the design and management of organizations.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102, ECON 104; MIS 204 or STAT 200

B A 304H Honors Core Management (2) Junior Core Business Management - Honors Section.
Effective: Spring 2011
Prerequisite: ACCTG 211, B A 243 or B A 241, B A 242, ECON 102, ECON 104, ENGL 015, MATH 110 or MATH 140, MIS 204, SCM 200 or STAT 200

B A 321 Contemporary Skills for Business Professionals (1-3) Technological and interpersonal skills for the contemporary business professional, stressing collaborative learning, electronic inquiry and communications, critical thinking, and problem solving.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102 or ENGL 104, MIS 204, SCM 200 or STAT 200

B A 322 Individual and Interpersonal Effectiveness for the Business Professional (1-3) Effectiveness of the business professional in team settings, especially the capacity to execute both technologically and cooperatively through group exercises.
Effective: Summer 1997
Prerequisite: B A 321

B A 335 Real Estate Fundamentals (3) Examination of real estate and market forces affecting it; finance, sales, and brokerage operations.
Effective: Spring 2008

B A 336 Real Estate Practice (3) Examination of real estate practice; listing agreements; appraisal; financing; property management and insurance; investment; fair housing laws and ethical practices.
Effective: Spring 2008
Prerequisite: B A 335

B A 342 Socially Responsible, Sustainable and Ethical Business Practice (3) Course examines actions taken by corporations that impact global citizenship, environmental sustainability, and the economic stability of international societies. It further looks at relationships, rights, and responsibilities between businesses, business decision-makers and their stakeholders.
Effective: Summer 2010
Prerequisite: MGMT 301, MGMT 301W or B A 304; Prerequisite or concurrent: FIN 301 or B A 301; MKTG 301 or B A 303; SCM 301 or B A 302

B A 364Y (US: IL) International Business and Society (3) Business organizations and the sociocultural environment; current issues; corporate responsibility; international and multinational business environments.
Effective: Spring 2008
Prerequisite: ENGL 202D, MGMT 301

B A 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

B A 395A Practicum in Business Administration (1) Professional and guided work experience in business administration with private or public organizations. May be taken only as an elective.
Effective: Spring 1990
Prerequisite: fifth-semester standing

B A 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

B A 397A Linde Family Business Mentoring Program (2) Opportunity for junior level baccalaurate Business students to enhance their educational experience through advanced instruction and participation in special program/projects.

The Pennsylvania State University
B A 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

B A 411 Analyzing Business and Industry (3) Prepares students to read, interpret, and analyze financial statements effectively in order to evaluate business entities and their industries. Effective: Summer 2003 Ending: Summer 2011
Prerequisite: ACCTG 211, B A 301, B A 302, B A 303, B A 304

B A 411 Analyzing Business and Industry (3) Prepares students to obtain an enterprise-wide view of business and industry by integrating operational and financial decisions in a team and learning environment. Effective: Fall 2011 Future: Fall 2011
Prerequisite: ACCTG 211; B A 301 or FIN 301; B A 302 or SCM 301; B A 303 or MKTG 301; B A 304 or MGMT 301

B A 412H Honors Integration and Research (2-3) The integration of the business core into a detailed financial, strategic and market analysis of actual companies selected by student teams. Effective: Spring 2011
Prerequisite: ACCTG 211; FIN 301 or B A 301; SCM 301 or B A 302; MKTG 301 or B A 303; MGMT 301 or B A 304

B A 420 Planning for Internship, Collaborative Project, and Research in Business (1) Planning, preparation, and decision making for students enrolling in either B A 495A, 495B, or 495C courses in their final semester. Effective: Summer 2002
Prerequisite: B A 321 and sixth-semester standing

B A 421 Project Management and Planning for Business (1-2) Planning and preparation for field experience internship, senior thesis, or group project supplemented with exercises in project management. Effective: Spring 2003
Prerequisite: B A 322

B A 422W Strategic Business Planning (3) Presentations and discussion of contemporary business issues by students and visiting professionals; emphasis on effective business communications. Effective: Spring 2008
Prerequisite: B A 421, MGMT 301, MKTG 301, FIN 301. Prerequisite or concurrent: B A 495A, B A 495B or B A 495C

B A 427 Risk and Decisions (3) Conceptualizing decisions involving risk, analyzing choices, estimating the risk, and communicating the analysis. Effective: Spring 2007
Prerequisite: MATH 110 or MATH 140 and either SCM 200 or STAT 200

B A 454 H Business Honors Thesis/Project (3) An opportunity to pursue an advanced research thesis or project to integrate studies within Business Administration. Effective: Spring 2008
Prerequisite: HONOR 301 senior standing and permission of the program

B A 462 Business Strategy (3) Interpretation of business concept in the analysis of problems related to the successful management of a company, institution, or organization. Effective: Spring 2008
Prerequisite: FIN 301, MGMT 301, MKTG 301

B A 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

B A 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

B A 495A Internship in Business (3-9) Guided professional practicum in business administration involving an internship with a business organization; practice of business skills in field setting. Effective: Spring 2003
Prerequisite: B A 322, B A 420

B A 495B Collaborative Project in Business (3-9) Guided professional practicum in business administration involving a group project; application of business skills in collaborative setting. Effective: Spring 2003
Prerequisite: B A 322, B A 420

B A 495C Undergraduate Research in Business (3-9) Guided student research in business administration; application of analytical or research techniques to business problems. Effective: Spring 2003
Prerequisite: B A 322, B A 420

B A 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983
B A 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

B A 499 (IL) **Foreign Study--Business Administration** (1-18) Study in selected countries of business institutions, functions, and current business problems.
Effective: Spring 2011
Prerequisite: ACCTG 211; ECON 102, ECON 104; SCM 200

Last Import from UCM: June 16, 2011 3:00 AM
Business Law (B LAW)

B LAW 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

B LAW 243 Legal Environment of Business (3) Social control through law: courts, basic policies underlying individual and contractual rights in everyday society. May not be used to satisfy Smeal College baccalaureate degree requirements. Not available to students who have taken B A 243.
Effective: Summer 1997
Prerequisite: third-semester standing

B LAW 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

B LAW 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

B LAW 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

B LAW 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

B LAW 340 Business Law (3) Course examines topics such as commercial paper, secured transactions, bankruptcy, suretyship, professionals' libility, malpractice, and related topics.
Effective: Spring 2008

B LAW 341 Business Law I: Introduction to Contracts, Liability Issues, and Intellectual Property (3) An introduction to the business environment emphasizing business contracts, liability issues arising from business relations, including those in the internet realm and intellectual property issues. Alternative dispute resolution and global perspectives will be integrated throughout.
Effective: Summer 2010
Prerequisite: MGMT 301, MGMT 301W or B A 304; Prerequisite or concurrent:FIN 301 or B A 301; MKTG 301, MKTG 301W or B A 303; SCM 301 or B A 302

Effective: Spring 2005 Ending: Summer 2011
Prerequisite: B A 301 orFIN 100

B LAW 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

B LAW 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

B LAW 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

B LAW 424 (R EST 424) Real Estate Law (3) Analyze contemporary law applicable to various types of ownership interests and rights, methods of transferring ownership, and use of real property.
Effective: Spring 2005 Ending: Summer 2011
Prerequisite: B LAW 346

B LAW 424 (R EST 424) Real Estate Law (3) Analyze contemporary law applicable to various types of ownership interests and rights, methods of transferring ownership, and use of real property.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: B LAW 441

B LAW 424 (R M 424) Real Estate Law (3) Analyze contemporary law applicable to various types of ownership interests and rights, methods of transferring ownership, and use of real property.
Prerequisite: B LAW 341 or B LAW 243

The Pennsylvania State University
B LAW 425 (R EST 425) Environmental Law, Property, and Commerce (3) Examines the impacts of major federal environmental laws on business relations and property interests.
Effective: Summer 1995 Ending: Fall 2011
Prerequisite: B A 243, B LAW 243 or E R M 151

B LAW 425 (R M 425) Business and Environmental Regulation (3) Examines the interplay between environmental regulation and commercial activities, including property interests.
Prerequisite: B LAW 341 or LAW 243

Effective: Fall 2011 Future: Fall 2011
Prerequisite: B LAW 341; FIN 301 or B A 301

B LAW 444 Advanced UCC and Commercial Transactions (3) All articles of the Uniform Commercial Code, banking relationships, debtor-creditor law, and bankruptcy law.
Effective: Spring 2005 Ending: Summer 2011
Prerequisite: B A 241 or B A 243 and ACCTG 211 and B A 301 or FIN 100

B LAW 444 Advanced UCC and Commercial Transactions (3) All articles of the Uniform Commercial Code, banking relationships, debtor-creditor law, and bankruptcy law.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: B LAW 341, B A 241 or B A 243; ACCTG 211; and FIN 301 or B A 301

Effective: Spring 2005 Ending: Summer 2011
Prerequisite: B LAW 346

B LAW 445 Advanced Intellectual Property and Competition Law (3) Copyrights, trademarks, patents, and trade secrets followed by related topics in the regulation of competition.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: B LAW 441

B LAW 471 (CRIMJ 471) Legal Rights, Duties, Liabilities of Criminal Justice Personnel (3) Civil law issues within a justice agency and between criminal justice agencies and members of the public.
Effective: Spring 2008
Prerequisite: CRIMJ 100

B LAW 473 (CRIMJ 473) Criminal Procedure and Evidence in the Business Community (3) Law of evidence and proof, constitutional constraints on police procedures (arrest, search, etc.) in society and the business community.
Effective: Spring 2008
Prerequisite: CRIMJ 100

B LAW 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

B LAW 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

B LAW 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

B LAW 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

B LAW 497A Employment Law (3) Intro to laws & regulations governing employment relationships.

B LAW 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

B LAW 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Chemical Engineering (CH E)

CH E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

CH E 097T Honors Freshman Seminar in Biochemical Engineering: Biopharmaceuticals and Biofuels (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

CH E 100S Exploring Chemical Engineering First-Year Seminar (1) The exploration of Chemical Engineering and available career opportunities.
Effective: Summer 2007

CH E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

CH E 210 Introduction to Material Balances (3) An integrated approach to the study of material balances and industrial chemical processes important in chemical engineering.
Effective: Spring 2009
Prerequisite: or concurrent:MATH 251

CH E 210H Introduction to Material Balances (Honors) (3) An integrated approach to honor-level study of material balances and industrial chemical processes important in chemical engineering.
Effective: Spring 2009
Prerequisite: or concurrent:MATH 251

CH E 220 Introduction to Chemical Engineering Thermodynamics (3) Chemical process applications of energy balances, equations of state, thermodynamic properties of real fluids, second law of thermodynamics, cycles.
Effective: Spring 2009
Prerequisite: or concurrent:MATH 230

CH E 220H Introduction to Chemical Engineering Thermodynamics (Honors) (3) Chemical process applications of energy balances, equations of state, thermodynamic properties of real fluids, second law of thermodynamics, cycles.
Effective: Spring 2009
Prerequisite: or concurrent:MATH 230

CH E 294 Research Project (1-12) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

CH E 294H Research Project - Honors (1-3) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CH E 294H Research Project - Honors (1-3) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

CH E 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1996

CH E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

CH E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

CH E 300 Professional Development Seminar (1) Lectures and discussion by visiting engineers and faculty on chemical engineering, job selection, patents, licensing, ethics, and other professional problems.
Effective: Spring 2006
Prerequisite: fifth-semester standing

CH E 320 Phase and Chemical Equilibria (3) Pure component phase properties, solution properties, equilibria among
CH E 320H Phase and Chemical Equilibria (3) Pure component phase properties, solution properties, equilibria among phases, equilibrium stage separations, chemical reaction equilibria.
Prerequisite: CH E 210, CH E 220

CH E 330 Process Fluid Mechanics (3) An integrated study of the fundamentals and the quantitative design techniques involving flow of fluids in chemical processes.
Effective: Spring 2009
Prerequisite: CH E 210, MATH 230

CH E 330H Process Fluid Mechanics (Honors) (3) An integrated study of the fundamentals and the quantitative design techniques involving flow of fluids in chemical processes.
Effective: Spring 2009
Prerequisite: CH E 210, MATH 230

CH E 340 Introduction to Biomolecular Engineering (3) Introduction to concepts and principles of biomolecular engineering, with emphasis on biotechnology and pharmaceutical industries.
Effective: Summer 2007
Prerequisite: CH E 210, BMB 251, CHEM 212

CH E 350 Process Heat Transfer (3) An integrated study of the fundamentals and the quantitative design techniques involving heat transfer in chemical processes.
Effective: Spring 2009
Prerequisite: CH E 220; Prerequisite or concurrent: CH E 330

CH E 360 Mathematical Modeling in Chemical Engineering (3) Mathematical model formulation for chemical and physical processes, including applications of ordinary differential equations and numerical methods.
Effective: Spring 2006
Prerequisite: MATH 230, CH E 330; prerequisite or concurrent: CH E 350

CH E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

CH E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

CH E 410 Mass Transfer Operations (3) Introduction to principles and applications of mass transfer, with focus on the design of equilibrium stage and continuous contacting separation processes.
Effective: Spring 2006
Prerequisite: CH E 320, CH E 330, CH E 350

CH E 430 Chemical Reaction Engineering (3) Chemical reaction rates and equilibria, reactors, reactor design; emphasis on industrial chemical processes.
Effective: Spring 2006
Prerequisite: CH E 320, CH E 330, CH E 350, CH E 360

CH E 432 (FSC 432) Petroleum Processing (3) A study of physical and chemical processes to convert crude oil into desired products with an outlook from present to future.
Effective: Summer 2007
Prerequisite: CHEM 210

CH E 438 Bioprocess Engineering (3) Introduction to the biotechnology field including consideration of upstream and downstream processing of biochemicals.
Effective: Summer 2007
Prerequisite: CHEM 212

CH E 441 Polymer Processing (3) Application of principles of heat, mass, and momentum transfer to the analysis of polymer processing problems.
Effective: Spring 2006
Prerequisite: CH E 330, CH E 350 or MATSE 443

CH E 442 (MATSE 448) Polymer Processing Technology (3) Basic principles of polymer melt processing are reviewed and subsequently applied to the most important industrial processing operations.
Effective: Fall 2006
Prerequisite: MATSE 447 or CH E 330

CH E 446 Transport Phenomena (3) Fundamental treatment of mass, heat, and momentum transfer; emphasis on transport properties and mathematical models of chemical engineering transport processes.
Effective: Summer 2006
Prerequisite: CH E 330, CH E 350, CH E 360; prerequisite or concurrent: CH E 410

CH E 446H Transport Phenomena (3) Fundamental treatment of mass, heat, and momentum transfer; emphasis on transport properties and mathematical models of chemical engineering transport processes.

The Pennsylvania State University
Prerequisite: CH E 330, CH E 350, CH E 360; prerequisite or concurrent: CH E 410

CH E 448 Advanced Mass Transfer Operations (3) Diffusion and mass transfer as applied to stagewise and continuous contact operations, including equipment design.
Effective: Spring 2006
Prerequisite: CH E 410

CH E 449 Bioseparations (3) Analysis and design of separation processes for the purification of biological molecules.
Effective: Spring 2006
Prerequisite: CH E 410

CH E 450 Process Dynamics and Control (3) Analysis of time-dependent variables in chemical process plants; reactor design and control; computer applications.
Effective: Spring 2006
Prerequisite: Prerequisite or concurrent: CH E 410, CH E 430

CH E 452 Chemical Process Safety (3) This course provides an overview of Process Safety in the Chemical Industry, focusing on the nature of chemical plant addidents.
Effective: Spring 2007
Prerequisite: Prerequisite or concurrent: CH E 410, CH E 430

CH E 455 Design Projects in Chemical Engineering (1-6) Problems in design and/or synthesis of chemical engineering processes and/or systems, including a final report on project results.
Effective: Spring 2006
Prerequisite: CH E 410, CH E 430

CH E 470 Design of Chemical Plants (3) Lectures and practicum on methods and calculations, including economic evaluations for the design of chemical plants; formal technical report required.
Effective: Spring 2006
Prerequisite: CH E 410, CH E 430

CH E 480M Chemical Engineering Laboratory (Honors) (3) Data interpretation and analysis from student-operated experiments on pilot-plant equipment. Individual written and oral technical reports.
Effective: Spring 2008
Prerequisite: ENGL 202C; prerequisite or concurrent: CH E 410, CH E 430

CH E 480W Chemical Engineering Laboratory (3) Data interpretation and correlation from student-operated experiments on pilot-plant equipment. Individual written and oral technical reports.
Effective: Spring 2006
Prerequisite: ENGL 202C; prerequisite or concurrent: CH E 410, CH E 430

CH E 494 Research Projects in Chemical Engineering (1-6) An original problem, including a search of the literature, experimental investigation, and preparation in formal thesis form.
Effective: Fall 2007
Prerequisite: Permission of program

CH E 494H Research Projects in Chemical Engineering (Honors) (1-6) An original problem, including a search of the literature, experimental investigation, and preparation in formal thesis form.
Effective: Spring 2008
Prerequisite: Permission of program

CH E 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1996

CH E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

CH E 497A Polymers (3) Introduction to synthesis, structure, characterization and processing of polymers. Single molecule properties, polymer solutions, glasses, crystals and blends.
Prerequisite: CH E 320

CH E 497B Chemical Energy Technology (3) Survey of current and alternative chemical energy sources and conversion approaches.
Prerequisite: CH E 210 and CH E 220

CH E 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

Last Import from UCM: June 16, 2011 3:00 AM
Chemistry (CHEM)

CHEM 001 (GN) Molecular Science (3) Selected concepts and topics designed to give non-science majors an appreciation for how chemistry impacts everyday life. Students who have received credit for CHEM 003, 101, or 110 may not schedule this course.
Effective: Summer 2007

CHEM 003 (GN) Molecular Science With Laboratory (3) Selected concepts and topics designed to give non-science majors an appreciation for how chemistry impacts everyday life. Students who have received credit for CHEM 001, 101, or 110 may not schedule this course.
Effective: Summer 2007

CHEM 020 Environmental Chemistry (3) Applications of chemistry to environmental problems, including air, water, thermal pollution; pesticides; drugs and birth control agents; food additives; etc. For non-chemistry majors; chemistry majors will not receive credit.
Effective: Summer 2007

CHEM 021 Environmental Chemistry Laboratory (1) Introduction of basic laboratory techniques and data analysis used in environmental chemistry.
Effective: Summer 2007
Concurrent: CHEM 020

CHEM 101 (GN) Introductory Chemistry (2-3) Selected principles and applications of chemistry. Prior study of chemistry is not assumed. Students may take only one course for General Education credit from CHEM 101 or CHEM 110. Students may take only one course for General Education credit from CHEM 101 GN or CHEM 110 GN. Effective: Fall 2009
Prerequisite: MATH 021 ; or satisfactory performance on the MATH FTCAP examination-- i.e. placement beyond the level of MATH 021

CHEM 106 (GN) Introductory and General Chemistry (5) Introductory chemistry and chemical principles for students who are required to take additional chemistry, e.g., CHEM 112, but are unprepared for CHEM 110. GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: satisfactory performance on the Math FTCAP test--i.e. placement beyond the level of MATH 022; orMATH 022 orMATH 041

CHEM 108 Problem Solving in Chemistry (1) Techniques, strategies, and skills for solving problems in general chemistry for students potentially at risk in CHEM 110.
Effective: Summer 2007
Prerequisite: recommendation by FTCAP an advisor or the program Concurrent: CHEM 110

CHEM 110 (GN) Chemical Principles I (3) Basic concepts and quantitative relations. Students may take only one course for General Education credit from CHEM 110 or CHEM 101.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Students may take only one course for General Education credit from CHEM 101 GN or CHEM 110 GN. Effective: Fall 2009
Prerequisite: satisfactory performance on the Chemistry and Math FTCAP tests-- i.e. placement beyond the level of CHEM 101 and MATH 022; orCHEM 101 andMATH 022 orMATH 041

CHEM 110H (GN) Chemical Principles I (3) Basic concepts and quantitative relations. Students may take only one course for General Education credit from CHEM 110 or CHEM 101.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: satisfactory performance on the Chemistry and Math FTCAP tests-- i.e. placement beyond the level of CHEM 101 and MATH 022; orCHEM 101 andMATH 022 orMATH 041

CHEM 111 (GN) Experimental Chemistry I (1) Introduction to quantitative experimentation in chemistry.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: or concurrent:CHEM 110 orCHEM 106

CHEM 112 (GN) Chemical Principles II (3) Continuation of CHEM 110, including an introduction to the chemistry of the elements.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Spring 2009
Prerequisite: CHEM 110 orCHEM 106

CHEM 112H (GN) Chemical Principles II (3) Continuation of CHEM 110, including an introduction to the chemistry of the elements.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012
Prerequisite: CHEM 110 or CHEM 106

CHEM 113 (GN) Experimental Chemistry II (1) Continuation of CHEM 111, with emphasis on topics related to CHEM 112.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or
CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: CHEM 111. Prerequisite or concurrent: CHEM 112

CHEM 113B (GN) Experimental Chemistry II--Bioscience (1) A continuation of CHEM 111 with emphasis on topics related to CHEM 112 in the context of bioscience.
GN To receive Natural Sciences General Education (GN) credit for certain chemistry courses requires both lecture and laboratory courses be taken. These courses are: (CHEM 106 or CHEM 110 or CHEM 110H) and CHEM 111; (CHEM 112 or CHEM 112H) and (CHEM 113 or CHEM 113B). Effective: Summer 2007
Prerequisite: CHEM 111. Prerequisite or Concurrent: CHEM 112

CHEM 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CHEM 202 Fundamentals of Organic Chemistry I (3) Introduction to organic chemistry, with emphasis on the properties of organic compounds of biochemical importance. Because of duplication of subject matter, students may not receive credit for both CHEM 202 and CHEM 210.
Effective: Summer 2007
Prerequisite: CHEM 101 or CHEM 110 or CHEM 106

CHEM 203 Fundamentals of Organic Chemistry II (3) Introduction to organic chemistry, with emphasis on the identification of organic compounds by characteristic chemical reactions and by spectroscopy. The course involves both lecture and laboratory. Because of duplication of subject matter, students may not receive credit for both CHEM 203 and CHEM 213.
Effective: Summer 2007
Prerequisite: CHEM 202

CHEM 210 Organic Chemistry I (3) Principles and theories; nomenclature; chemistry of the functional groups; applications of spectroscopy. Because of duplication of material, students may not receive credit for both CHEM 210 and 202.
Effective: Summer 2007
Prerequisite: CHEM 112

CHEM 210H Organic Chemistry I (4) Principles and theories; nomenclature; chemistry of the functional groups; applications of spectroscopy. Because of duplication of material, students may not receive credit for both CHEM 210 and 202.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 112

CHEM 212 Organic Chemistry II (3) Continuation of CHEM 210. Emphasis is placed on the role of organic reactions in biological chemistry.
Effective: Summer 2007
Prerequisite: CHEM 210

CHEM 212H Organic Chemistry II (3) Continuation of CHEM 210. Emphasis is placed on the role of organic reactions in biological chemistry.
Prerequisite: CHEM 210

CHEM 213 Laboratory in Organic Chemistry (2) Basic laboratory operations; synthesis and chemical or instrumental analysis. Because of duplication of subject matter, students may not receive credit for both CHEM 203 and CHEM 213.
Effective: Summer 2007
Prerequisite: CHEM 210. Prerequisite or concurrent: CHEM 212

CHEM 213B Laboratory in Organic Chemistry--Bioscience (2) Basic laboratory operations; synthesis and chemical or instrumental analysis of materials of biological significance. Because of duplication of subject matter, students may not receive credit for both CHEM 203 and CHEM 213.
Effective: Summer 2007
Prerequisite: CHEM 210. Prerequisite or concurrent: CHEM 212

CHEM 213H Laboratory in Organic Chemistry (2) Basic laboratory operations; synthesis and chemical or instrumental analysis. Because of duplication of subject matter, students may not receive credit for both CHEM 203 and CHEM 213.
Prerequisite: CHEM 210. Prerequisite or concurrent: CHEM 212

CHEM 221 Quantitative Analysis (4) Traditional methods of gravimetric, volumetric, and electrochemical analysis, emphasizing acid-base, solubility, and oxidation-reduction equilibria.
Effective: Summer 2007
Prerequisite: CHEM 112 and CHEM 113

CHEM 227 Analytical Chemistry (4) Analytical methods used in the biological and physical sciences with special emphasis on acid-base and complexation equilibria, electrochemistry, and the fundamental principles of spectroscopy and...
CHEM 233 (GH;GN) (ENGL 233) Chemistry and Literature (3) Exploration of key concepts of chemistry, the reciprocal influence of chemistry and literature throughout history, and the relationship of science to society, culture, and values. Effective: Summer 2007

CHEM 294 Special Problems and Research (1-4 per semester, maximum of 12) Designed for freshman or sophomore students who are prepared to undertake special problems and research by arrangement with a faculty member. Effective: Summer 2007

CHEM 294H Special Problems and Research - Honors (1-4 per semester, maximum of 12) Designed for freshman or sophomore students who are prepared to undertake special problems and research by arrangement with a faculty member. Effective: Summer 2008 Prerequisite: permission of instructor

CHEM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1991

CHEM 301 Environmental Chemistry and Analysis (3) Chemical principles, interpretation, and methods of analysis for groundwater, water supply, wastewater treatment, stream pollution. Effective: Summer 2007 Prerequisite: CHEM 112 and CHEM 113

CHEM 310 Introductory Inorganic Chemistry (3) Conceptual and descriptive aspects of inorganic chemistry, focusing on structures, bonding, and properties. Effective: Spring 2010 Prerequisite: CHEM 112

CHEM 316 The Professional Chemist (1) Industrial employment opportunities and challenges; graduate and professional school opportunities; tailoring the chemistry curriculum to career goals. Effective: Summer 2007 Prerequisite: fourth-semester standing in chemistry

CHEM 395 Chemistry Teacher Assistant Training (1-2) Instruction and practice in the role of the teaching assistant in the undergraduate chemistry laboratory. Effective: Fall 1981

CHEM 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

CHEM 400 Chemical Literature (1) Instruction in use of the library and of the literature of chemistry. Effective: Summer 2007 Prerequisite: 12 credits of chemistry

CHEM 402 Chemistry in the Environment (3) Chemistry of the atmosphere, natural waters, and the land surface with particular focus on human influence on processes occurring therein. Effective: Summer 2007 Prerequisite: CHEM 212. Prerequisite or concurrent: CHEM 450 or CH E 320

CHEM 406 (NUC E 405) Nuclear and Radiochemistry (3) Theory of radioactive decay processes, nuclear properties and structure, nuclear reactions, interactions of radiation with matter, biological effects of radiation. Effective: Summer 2007 Prerequisite: CHEM 452 or PHYS 237 or NUC E 301

CHEM 408 Computational Chemistry (3) Introduction to numerical and nonnumerical computer uses in physical science. Effective: Summer 2007 Prerequisite: Prerequisite or concurrent: CHEM 452

CHEM 410 Inorganic Chemistry (3) Conceptual and descriptive aspects of nontransition elements, covering structural, thermodynamic, and kinetic features. Effective: Summer 2007 Prerequisite: CHEM 112 and CHEM 202 or CHEM 210. Prerequisite or concurrent: CHEM 450 or CHEM 452

CHEM 412 Transition Metal Chemistry (3) Structure and bonding of compounds containing transition metals. Effective: Summer 2007 Prerequisite: CHEM 112 and CHEM 202 or CHEM 210. Prerequisite or concurrent: CHEM 450 or CHEM 452

CHEM 413W Chemistry of the Elements (4) Theoretical and descriptive chemistry of the elements; laboratory synthesis and measurements in inorganic, coordination, and transition metal chemistry. Effective: Summer 2007 Prerequisite: CHEM 213

The Pennsylvania State University
CHEM 423W Chemical Spectroscopy (4) Modern methods and instruments of spectroscopy and their applications to problems of chemical structure and analysis.
Effective: Spring 2011
Prerequisite: CHEM 452, CHEM 457

CHEM 425 Chromatography and Electrochemistry (3) Gas, liquid, and other forms of chromatography; important techniques of electrochemistry.
Effective: Summer 2007
Prerequisite: CHEM 450 and CHEM 457

CHEM 427W (FRNSC 427W) Forensic Chemistry (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CHEM 213 and CHEM 227

CHEM 427W (FRNSC 427W) Forensic Chemistry (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 213, CHEM 227 and FRNSC 301 or CHEM 431W

CHEM 430 Structural Analysis of Organic Compounds (3) Spectroscopic methods as tools in gross and detailed structural analysis and interpretation within the framework of modern theory.
Effective: Fall 2010
Prerequisite: CHEM 210 and CHEM 213 Concurrent: CHEM 213

CHEM 431W Organic and Inorganic Preparations (4) Preparation, purification, and characterization of both organic and inorganic compounds by modern methods.
Effective: Fall 2010
Prerequisite: CHEM 213

CHEM 440 Instrumental Analysis (3) General instrumental theory and methods used in common atomic and molecular analyses.
Effective: Summer 2007
Prerequisite: CHEM 450 and CHEM 221

CHEM 441 Elemental Analysis and Instrumental Design Laboratory (1) An introduction to the use of modern instruments for problems in chemical structure and analysis.
Effective: Summer 2007
Prerequisite: or concurrent: CHEM 440

CHEM 443 Electrochemistry and Chromatography Laboratory (1) An introduction to the use of modern instruments for problems in chemical structure and analysis.
Effective: Summer 2007
Prerequisite: or concurrent: CHEM 440

CHEM 445 Atomic and Molecular Spectroscopy Laboratory (1) An introduction to the use of modern instruments for problems in chemical structure and analysis.
Effective: Summer 2007
Prerequisite: or concurrent: CHEM 440

CHEM 446 X-Ray Crystallography (3) Theoretical and practical aspects of structure determination using x-ray diffraction, from crystal growth to structure solution.
Effective: Summer 2007
Prerequisite: CHEM 210

CHEM 448 Surface Chemistry (3) Surface chemistry, emphasizing the physical and chemical aspects of surfaces important for applications in colloids, catalysis, microelectronics and biocompatibility.
Effective: Summer 2007
Prerequisite: CHEM 450 and CHEM 452

CHEM 450 Physical Chemistry - Thermodynamics (3) Introduction to physical chemistry with primary emphasis on chemical thermodynamics and its molecular interpretation. (Graduate credit not allowed for students majoring in Biochemistry and Molecular Biology, Chemistry, or Chemical Engineering.)
Effective: Summer 2007
Prerequisite: CHEM 112 and MATH 141, PHYS 211 or PHYS 212

CHEM 452 Physical Chemistry - Quantum Chemistry (3) Introduction to physical chemistry with primary emphasis on molecular structure, spectroscopy, and chemical kinetics. (Graduate credit not allowed for students majoring in Biochemistry and Molecular Biology, Chemistry, or Chemical Engineering.)
Graduate credit not allowed for student majoring in BioChemistry, Chemistry, or Chemical Engineering. Effective: Summer 2007
Prerequisite: CHEM 112 and MATH 141 and PHYS 211 or PHYS 212

CHEM 457 Experimental Physical Chemistry (2) Laboratory experiments designed to illustrate the principles of physical chemistry and teach techniques of error analysis and the presentation of quantitative data. (Graduate credit not allowed for students majoring in Biochemistry and Molecular Biology, Chemistry, or Chemical Engineering.)
Graduate credit not allowed for student majoring in BioChemistry, Chemistry, or Chemical Engineering. Effective: Summer 2007
Prerequisite: or concurrent: CHEM 450 or CHEM 452

CHEM 459W Advanced Experimental Physical Chemistry (4) Laboratory experiments and projects for students interested in the methods and techniques of experimental physical chemistry.

The Pennsylvania State University
in advanced study in physical chemistry.
Effective: Summer 2010
Prerequisite: CHEM 450, CHEM 457 Prerequisite or concurrent: CHEM 452

CHEM 460 Advanced Thermodynamics (3) Chemical thermodynamics, with applications to pure phases, solutions, and chemical reactions.
Effective: Spring 2009
Prerequisite: CH E 220 or CHEM 450

CHEM 462 Advanced Quantum Chemistry (3) Introduction to quantum chemistry, with emphasis on atomic and molecular structure.
Effective: Summer 2007
Prerequisite: CHEM 452

CHEM 464 Chemical Kinetics and Dynamics (3) Introduction to chemical kinetics and molecular dynamics.
Effective: Spring 2009
Prerequisite: CHEM 450 or CH E 220 and CHEM 452

CHEM 466 Molecular Thermodynamics (3) Introduction to physical chemistry with a primary emphasis on the statistical and molecular interpretation of thermodynamics.
Effective: Summer 2007
Prerequisite: CHEM 450 or CH E 220

CHEM 472 General Biochemistry I (3) Basic structure and function of cellular components; principles of enzyme kinetics and regulation.
Effective: Summer 2007
Prerequisite: CHEM 212

CHEM 474 Organic Synthesis (3) Theory and methodology of organic synthesis applied to complex organic molecules.
Effective: Spring 2007
Prerequisite: CHEM 212

CHEM 476 Biological Chemistry (3) Fundamentals of Biochemistry for Chemists. Students cannot receive credit for both CHEM 476 and B M B 401.
Effective: Fall 2009
Prerequisite: CHEM 212 and CHEM 450 Concurrent: CHEM 452

CHEM 494 Chemical Research (1-10 per semester/maximum of 20) Experimental investigation of an original research problem. Preparation of a formal thesis is optional. (Credit not allowed for graduate students in Biochemistry, Chemistry or Chemical Engineering.)
Effective: Summer 2007

CHEM 494H Chemical Research (1-10 per semester/maximum of 20) Experimental investigation of an original research problem. Preparation of a formal thesis is optional. (Credit not allowed for graduate students in Biochemistry, Chemistry or Chemical Engineering.)
Effective: Fall 2007

CHEM 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2007
Prerequisite: prior approval of proposed assignment by instructor

CHEM 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1988

CHEM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1982

CHEM 497A Organic Reaction Mechanisms (3) This course focuses on the study and analysis of selected electron-pushing mechanisms or organic reactions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 212

CHEM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Chinese (CHNS)

CHNS 001  **Level One Chinese A** (4) Introductory study of Chinese language, with audio-lingual practice of Mandarin Chinese and attention to structure and the writing system. Effective: Spring 2011

CHNS 002  **Level One Chinese B** (4) Continued audio-lingual practice of Mandarin Chinese, further study of structure, practice in reading and writing Chinese. Effective: Spring 2011
Prerequisite: CHNS 001

CHNS 003  **Level Two Chinese A** (4) Continued audio-lingual practice of Mandarin Chinese, more extensive practice in reading and writing; study of Chinese culture. Effective: Spring 2011
Prerequisite: CHNS 002

CHNS 051  **Elementary Intensive Chinese for Graduate Students I** (3) Intensive introduction to Mandarin Chinese: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Spring 2010
Prerequisite: graduate standing

CHNS 052  **Elementary Intensive Chinese for Graduate Students II** (3) Intensive introduction to Mandarin Chinese: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Spring 2010
Prerequisite: CHNS 051 and graduate standing

CHNS 053  **Intermediate Intensive Chinese for Graduate Students** (3) Continued intensive study of Mandarin Chinese at the intermediate level: reading, writing, speaking, listening, cultural contexts. Effective: Spring 2010
Prerequisite: CHNS 052 or equivalent and graduate standing

CHNS 097  **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2010

CHNS 099 (IL)  **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

CHNS 110 (IL)  **Level Two Chinese B** (4) Readings in selected modern Chinese literature (short stories, plays, essays, poems) and other texts; practice in conversation and simple composition. Effective: Spring 2011
Prerequisite: CHNS 003

CHNS 120 (GH;IL)  **Introduction to Chinese Literature and Culture** (3) Chinese cultural productions, classical through contemporary; literature and film; changing cultural settings in multiple Chinese-speaking locations. Taught in English. Effective: Spring 2010

CHNS 121 (GH;IL)  **Chinese Film and New Media** (3) Survey of Chinese film and new media in the twentieth century and beyond, with attention to changing cultural settings. Taught in English. Effective: Spring 2010

CHNS 197  **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2010

CHNS 199 (IL)  **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

CHNS 294  **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2010

CHNS 295  **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2010
Prerequisite: prior approval of proposed assignment by instructor

CHNS 296  **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
CHNS 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2010

CHNS 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

CHNS 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2010

Prerequisite: prior approval of proposed assignment by instructor

CHNS 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2010

CHNS 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

CHNS 401 (IL) **Level Three Chinese A** (4) Emphasis on oral proficiency through discussions of aspects of contemporary Chinese culture. Effective: Spring 2011

Prerequisite: CHNS 110

CHNS 402 (IL) **Level Three Chinese B** (4) Readings in representative works of traditional and modern literature; practice in composition; study of aspects of Chinese culture. Effective: Spring 2011

Prerequisite: CHNS 401 OR EQUIVALENT

CHNS 403W **Practical Written Communication: Chinese for Professional and Academic Purposes** (3) Discussions, presentations, readings, and compositions emphasizing written styles used in newspapers, magazines, business reports, academic writing, and other texts. Effective: Spring 2010

Prerequisite: CHNS 401

CHNS 421 (IL) **China Beyond China** (3) Study of modern and contemporary Chinese culture in its diversity and its intercultural contexts. Effective: Summer 2011

Prerequisite: 3 credits in literature or other fields relevant to this course

CHNS 422 (IL) **Gender and Sexuality in China** (3) Study of gender roles and the imaginary of sexuality in the literary, filmic, and artistic production of modern China. Effective: Summer 2011

Prerequisite: 3 credits in literature or other fields relevant to this course

CHNS 426 (IL) **The Chinese Rhetorical Tradition** (3 per semester/maximum of 6) Study of the rhetorical works in ancient China as well as multiple facets of modern Chinese rhetoric. Effective: Summer 2011

Prerequisite: 3 credits in ENGL 015 Concurrent: ENGL 471

CHNS 452 (IL) **Contemporary China: Culture and Trends** (3 per semester/maximum of 6) Survey of aspects of the contemporary Chinese-speaking world. Includes readings from Chinese newspapers, magazines, and fiction. Topics may vary each semester. Effective: Spring 2010

Prerequisite: CHNS 401

CHNS 453 (IL) **Chinese Film** (3 per semester/maximum of 6) Selected films and directors representing various aspects of Chinese culture and cinema. Topics may vary each semester. Taught in Chinese. Effective: Spring 2010

Prerequisite: CHNS 401

CHNS 454 (IL) **Introduction to Classical Chinese** (3 per semester/maximum of 6) Basic patterns and structures of Classical Chinese to the first millennium B.C. to the 19th century. Effective: Spring 2010

Prerequisite: CHNS 401 or equivalent (such as study abroad credit)

CHNS 455 (IL) **Masterpieces of Traditional Chinese Literature** (3) Survey of traditional Chinese literature, including poetry, historical narratives, philosophical texts, and drama and novel. Effective: Spring 2010

Prerequisite: CHNS 401 or equivalent

CHNS 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2010
CHNS 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2010

CHNS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2010

CHNS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2010

CHNS 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2010

CHNS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

Last Import from UCM: June 16, 2011 3:00 AM
Civic and Community Engagement (CIVCM)

CIVCM 211 (GS;US;IL) (CAS 222, AYFCE 211) **Foundations: Civic and Community Engagement** (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement. Effective: Spring 2011

Last Import from UCM: June 16, 2011 3:00 AM
Civil Engineering (C E)

C E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

C E 100S Topics and Contemporary Issues in Civil and Environmental Engineering: First-Year Seminar (1) First-Year Seminar exploring a specific topic or contemporary issue in civil and environmental engineering.
Effective: Fall 1999

C E 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1994

C E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

C E 209 Fundamentals of Surveying (2) Fundamental surveying measurements, traverse computations, coordinate geometry, mapping, CAD applications. Intended for architectural engineering students. (The lecture will be taught concurrently with C E 211.)
Effective: Summer 1996
Prerequisite: E G 130, MATH 141

C E 254 (GHA;US) Personal & Occupational Safety (3) Students will learn about principles of safety in work and personal settings.
Effective: Spring 2008

C E 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

C E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

C E 310 Surveying (3) Fundamental surveying measurements, traverse computations, coordinate geometry, mapping, GPS and GIS, circular and parabolic curves, earthwork, boundary surveys, CAD applications.
Effective: Fall 2001
Prerequisite: ED&G 100, MATH 141

C E 321 Highway Engineering (3) Highway engineering principles, vehicle and driver characteristics; geometric and pavement design; highway drainage; traffic engineering, capacity analysis, and signal timing.
Effective: Fall 2001
Prerequisite: C E 310

C E 332 Professionalism, Economics & Construction Project Delivery (3) Introduction to engineering management process; economic analysis; pricing; contract documents; estimating; ethics; professional practice and engineering economy.
Effective: Fall 2007

C E 333W Construction Management I (3) Components of a construction organization, managerial terminology and documents, labor laws and relations, insurance and safety.
Effective: Spring 2008

C E 335 Engineering Mechanics of Soils (3) Soil compositions, classification, subsurface exploration, ground water flow, stress analysis, compaction, soil behavior, bearing capacity, lateral earth pressure, slope stability.
Effective: Spring 2008
Prerequisite: E MCH 213; A E 221 orGEOSC 001

C E 336 Materials Science for Civil Engineers (3) Introduction to civil engineering materials; their structure and behavior: relationship between structure and behavior.
Effective: Spring 2008
Prerequisite: E MCH 213 Stat 401
C E 337 Civil Engineering Materials Laboratory (1) Laboratory investigating the physical and mechanical properties of civil engineering materials; soils, aggregates, concrete, steel, wood, and polymers. Effective: Spring 2007
Prerequisite: C E 335 or C E 336 or concurrent

C E 340 Structural Analysis (3) Analysis of statically determinate and indeterminate trusses, beams, and frames; reactions, axial forces, shears, moments, deflections. Introduction to influence lines. Effective: Spring 2008
Prerequisite: E MCH 213. Prerequisite or concurrent: CMPSC 201 or CMPSC 202

C E 341 Design of Concrete Structures (3) Design of reinforced concrete beams, slabs, and columns, with emphasis on ultimate-strength methods; prestressed concrete; building and bridge applications. Effective: Fall 2001
Prerequisite: C E 340. Prerequisite or concurrent: C E 336

C E 342 Design of Steel Structures (3) Design of steel tension members, beams, columns, beam-columns, and connections; elastic and plastic methods; design applications. Effective: Fall 2001
Prerequisite: C E 336, C E 340

Prerequisite: E MCH 212

C E 370 Introduction to Environmental Engineering (3) Nature and scope of environmental issues; air, water, land impacts; fundamentals and processes of pollution control. Effective: Summer 2007
Prerequisite: CHEM 110; MATH 111 or MATH 141

C E 371 Water and Wastewater Treatment (3) Water treatment; water storage; design of water distribution and wastewater systems; pumping stations. Effective: Spring 2002
Prerequisite: C E 360, C E 370

C E 396 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1993

C E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2004

C E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

C E 410W Sustainable Residential Subdivision Design (3) Residential subdivision process; site selection; conservation and neo- traditional design; utility design and layout; best management practices for erosion and stormwater. Effective: Fall 2001
Prerequisite: A E 372 or C E 332; seventh-semester standing in Architectural or Civil Engineering

C E 421W Transportation Design (3) Design of streets and highway facilities; emphasis on geometric elements, intersections and interchanges, roadway drainage, and pavement design. Effective: Spring 2002
Prerequisite: C E 321

C E 422 Transportation Planning (3) Transportation systems planning, programming, and management; modeling and simulation, data collection, analysis, and forecasting. Effective: Spring 2002
Prerequisite: 3 credits in probability or statistics

Prerequisite: C E 321

C E 432 Construction Project Management (3) Fundamentals of project management, construction scheduling using the CPM technique, construction project preplanning, and control of quality, safety, and costs. Effective: Fall 2007
Prerequisite: C E 332

C E 435 Foundation Engineering (3) Bearing capacity, settlement, and structural design of shallow foundations; lateral earth pressure; retaining and sheet-pile walls; introduction to deep foundations

The Pennsylvania State University
Effective: Fall 2001
Prerequisite: C E 335. Prerequisite or concurrent: C E 341

C E 438W Construction Engineering Capstone Design (3) Construction project integrating geotechnical reports; materials specifications; quality control; equipment; estimation; scheduling; design details: excavations, foundations, retaining walls, formwork, pavements.
Effective: Fall 2007
Prerequisite: C E 432 and C E 435 or C E 436

C E 441 Structural Design of Foundations (3) Design of concentrically and eccentrically loaded square, rectangular, and combined footings; analysis and design of mat foundations; retaining walls; piles caps; flexible retaining design, and caissons.
Effective: Summer 2009
Prerequisite: C E 335, C E 341. Concurrent: C E 342

Effective: Spring 2008
Prerequisite: CET 430

Effective: Fall 1992
Prerequisite: C E 340

C E 448W Advanced Structural Design (3) Wind, snow, seismic, bridge loads; building design using steel, concrete, and prestressed concrete; advanced steel connections; capstone project; computer applications.
Effective: Spring 2002
Prerequisite: C E 341, C E 342, C E 435

C E 449 Advanced Structural Design (3) Special systems, frames and bracing in steel, wood and reinforced or precast concrete. Introduction to composite construction.
Effective: Spring 2008
Prerequisite: CET 430, CET 431, CET 432

C E 454 Safety (3) This course will focus on safety issues as they relate to OSHA.
Effective: Spring 2008
Prerequisite: permission of program

C E 456 Planning and Scheduling (3) Theory and practice used in planning and scheduling projects; defining task and resources, creating logic diagrams, and monitoring the projects.
Effective: Spring 2008
Prerequisite: C E 333W, CET 435, I E 303

C E 458 Construction Management II (3) Procedures in construction organization including procurement, ethics, field supervision, legal and managerial problems, personnel, cost accounting, and construction business practices.
Effective: Spring 2008
Prerequisite: C E 333W, C E 456

C E 461 Water-resource Engineering (3) Qualitative and quantitative description of the hydrologic cycle, flood and drought frequency analysis, climate and land use change impacts, risk analysis and uncertainty, water resource management at regional, national and global scale.
Effective: Spring 2010
Prerequisite: C E 360

C E 462 Open Channel Hydraulics (3) Free surface flow in rivers, canals, steep chutes, stilling basins, and transitions.
Effective: Spring 2002
Prerequisite: C E 360

C E 465W Water Resources Capstone Course (3) Hydraulic design of river structures and open channels including supercritical and spatially varied flow; hydrologic/hydraulic computer modeling; design project.
Effective: Fall 2007
Prerequisite: C E 361. Prerequisite or concurrent: C E 462

C E 472W Environmental Engineering Capstone Design (3) Principles and design of unit operations for water; domestic and industrial wastewater treatment; equipment selection and application.
Effective: Spring 2002
Prerequisite: C E 370, C E 371

C E 475 Water Quality Chemistry (4) Chemistry applicable to the understanding and analysis of water quality, pollution, and treatment.
Effective: Spring 2011
Prerequisite: C E 370, CHEM 110, CHEM 111

C E 476 Solid and Hazardous Wastes (3) Characteristics and treatment of solid wastes and hazardous wastes.
Effective: Spring 2002
C E 479 Environmental Microbiology for Engineers (3) Intro microbiology for engineers; microbe structure, function, and diversity; environmental ecosystems; diagnostic labs.
Effective: Spring 2011
Prerequisite: CHEM 111, C E 370

C E 488C Capstone Project - Construction (4) This course consists of a project either selected by the students with approval or assigned by the instructor.
Effective: Spring 2008
Prerequisite: eighth-semester Structural Design and Construction Engineering Technology student. Previous or concurrent:CET 430, CET 431, CET 432, CET 435, C E 456

C E 488D Capstone Project - Structural Design (4) This course consists of a structural design project either selected by the students with approval or assigned by the instructor.
Effective: Spring 2008
Prerequisite: eighth-semester Structural Design and Construction Engineering Technology student. Previous or concurrent:CET 430, CET 431, CET 432 andCET 435

C E 494 Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Fall 1992

C E 494H Honors Senior Thesis (1-6) Investigation of an original project in the area of Civil Engineering.
Effective: Summer 2006

C E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

C E 496A Residential Construction Management (3) Project management issues related to the housing industry. Planning, executing and controlling residential construction projects.
Effective: Summer 2011 Ending: Summer 2011

C E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C E 497A Road Safety Analysis (3) Introduction to concepts, data and methods used in road safety analysis; references from literature will be used.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

C E 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM
Civil Engineering Technology (CET)

Prerequisite: MATH 022, MATH 026

CET 308 Construction Methods and Materials (3) The study of the methods and materials used in the construction industry. Effective: Spring 2008
Prerequisite: MATH 022, MATH 026, ED&G 100 or ET 101 and ET 102

Prerequisite: MATH 140 Statics Concurrent: Strength of Materials

CET 361 Fluid Flow (3) Fluid flow theory; hydrostatics; dimensional analysis and similitude; pipe flow; flow measurement; open channels; flow forces; fluid machinery. Effective: Spring 2008
Prerequisite: MATH 140 Statics Dynamics

CET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2008

CET 430 Structural Analysis (3) Analysis of determinate structures; use of influence lines; deflection of structures; classical methods of analysis of statically indeterminate structures. Effective: Spring 2008
Prerequisite: Statics Strength of Materials MATH 140

CET 431 Structural Design-Steel (3) Design of steel beams, columns, truss members, decks, bar joists and selected connections. Effective: Spring 2008
Prerequisite: Statics Strength of Materials MATH 140 Concurrent: CET 430

CET 432 Structural Design-Reinforced Concrete (3) Design of reinforced concrete beams, columns, slabs, and selected framing systems for bending and shear. Introduction to formwork design. Effective: Spring 2008
Prerequisite: Statics Strength of Materials MATH 140 Concurrent: CET 430

CET 434 Foundations (3) Analysis and design of footings, piling, retaining walls; consideration of construction problems involving soils and foundations of structures. Effective: Spring 2008
Prerequisite: CET 343, CET 430, CET 432

CET 435 Construction Estimating (3) Methods and techniques used in estimating construction cost; practice in takeoffs, costing and final bid preparation; microcomputer applications/class projects. Effective: Spring 2008
Prerequisite: ED&G 100, ET 200, C E 333W

CET 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2008

CET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2008

Last Import from UCM: June 16, 2011 3:00 AM
Classics and Ancient Mediterranean Studies (CAMS)

CAMS 001 (GH) Greek and Roman Literature (3) Selected readings within a chronological and thematic context of significant and influential masterworks of Greece and Rome.
Effective: Spring 2004

CAMS 002 (GH;IL) Literature of the Ancient Near East (3) Reading and study of literary works from the Ancient Near East, especially from Mesopotamia and Ancient Egypt.
Effective: Summer 2005

CAMS 004 (GH;US;IL) (RL ST 004, J ST 004) Jewish and Christian Foundations (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationships to culture.
Effective: Summer 2005

CAMS 005 (GH;IL) (HIST 005) Ancient Mediterranean Civilizations (3) Survey of the history and cultures of ancient Mediterranean civilizations in Mesopotamia, Egypt, Syro-Levant, Anatolia, Greece, and Rome.
Effective: Spring 2008

CAMS 010 (GH;IL) Mesopotamian Civilization (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia (4,000-331 B.C.E.), in historical context.
Effective: Spring 2006

CAMS 010U (GH;IL) Mesopotamian Civilization (3) Cultural, technological, literary, political, and economic achievements of peoples who occupied the region of Mesopotamia (4,000-331 B.C.E.), in historical context.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 012 (GH;IL) (J ST 012, RL ST 012) Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Summer 2005

CAMS 012U (GH;IL) (J ST 012U, RL ST 012U) Lands of the Bible (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 015 (GH) Wonders of the Ancient World (3) Overview of ancient world by focusing on the famed “Seven Wonders” and similar achievements from 3000 B.C.E.-1st Century C.E.
Effective: Spring 2003

CAMS 020 (GH) Egyptian Civilization (3) The culture, history, literature, and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.
Effective: Fall 2005

CAMS 025 (GH;IL) Greek Civilization (3) The origin and development of the ancient Greek people; their political and social institutions, public and private life.
Effective: Summer 2005

CAMS 025U (GH;IL) Greek Civilization (3) The origin and development of the ancient Greek people; their political and social institutions, public and private life.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 033 (GH;IL) Roman Civilization (3) Origin of the Romans; sociopolitical development; food, homes, education, marriage, family life, amusements, private and public worship.
Effective: Summer 2005

CAMS 044 (GH;IL) (RL ST 044) Ancient Near Eastern and Egyptian Mythology (3) Survey of major ancient Mediterranean myths, gods, and goddesses in their cultural contexts; influence on later cultures.
Effective: Summer 2005

CAMS 045 (GH;IL) Classical Mythology (3) Introduction to Greek and Roman divinities, heroes and heroines; survey of the major myths and their influence on Western culture.
Effective: Summer 2005

The Pennsylvania State University
CAMS 045U (GH;IL) Classical Mythology (3) Introduction to Greek and Roman divinities, heroes and heroines; survey of the major myths and their influence on Western culture.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAMS 050 (GH) Words: Classical Sources of English Vocabulary (3) An introduction to English word forms stressing the most frequently occurring Latin and Greek elements and their derivatives.
Effective: Fall 2004

CAMS 070 (GH;IL) (J ST 070, RL ST 070) Prophecy: The Near East Then and Now (3) Prophecy in the ancient Near East, the ancient Jewish and Christian traditions, and today.
Effective: Summer 2007

CAMS 083S (GH;IL) First-Year Seminar in Classics and Ancient Mediterranean Studies (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.
Effective: Summer 2005

CAMS 083T (GH;IL) First-Year Seminar in Classics and Ancient Mediterranean Studies (3) Critical approach to the study of ancient Mediterranean languages, literatures, and/or material cultures.

CAMS 090 (GH;IL) (RL ST 090, J ST 090) Archaeology of Jerusalem: Past and Present (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present.
Effective: Summer 2005

CAMS 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAMS 100 (GH;IL) (HIST 100) Ancient Greece (3) Greek world from the earliest Aegean cultures to the death of Alexander the Great and the beginnings of Hellenistic civilization.
Effective: Spring 2006

CAMS 101 (GH;IL) (HIST 101) The Roman Republic and Empire (3) History of the Roman Republic and Empire from the origins of Rome to the disintegration of the Empire.
Effective: Spring 2006

CAMS 102 (GH;IL) (HIST 102, J ST 102, RL ST 102) Canaan and Israel in Antiquity (3) Political, social, and intellectual history of the land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages.
Effective: Summer 2005

CAMS 104 (GH) (HIST 104) Ancient Egypt (3) The history and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.
Effective: Summer 2002

CAMS 105 (GH;IL) History of the Ancient Near East (3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.
Effective: Summer 2005

CAMS 105U (GH;IL) History of the Ancient Near East m3) History of the Ancient Near East from the end of the Neolithic to the Hellenistic period.

CAMS 109Y (GH;IL) Writing Systems of the World (3) Writing intensive overview of the world's writing systems throughout history.
Effective: Spring 2007

CAMS 110 (GH;US;IL) (J ST 110, RL ST 110) Hebrew Bible: Old Testament (3) Introduction to the history, literature, and religion of ancient Israel.
Effective: Summer 2005

CAMS 111 (GH;IL) (J ST 111, RL ST 111) Early Judaism (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism.
Effective: Summer 2005

CAMS 120 (GH) (J ST 120, RL ST 120) New Testament (3) Introduction to the history, literature, and religion of early
Christianity in the Jewish-Hellenistic setting.
Effective: Spring 2004

CAMS 124 (GH;US;IL) (J ST 124, RL ST 124) Early and Medieval Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

CAMS 133 (GH) (J ST 133, RL ST 133) Archaeology of the Levant and Ancient Israel (3) Archaeology of the Levant and Ancient Israel to c. 1000 B.C.E.; relationship between archaeological and textual evidence.
Effective: Spring 2004

CAMS 134 (GH;IL) (J ST 134, RL ST 134) Archaeology of Biblical Israel (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

CAMS 140 (GH;IL) Classical Archaeology--Ancient Greece (3) Literary sources and material evidence for society; culture of the inhabitants of Greece in ancient times.
Effective: Summer 2005

CAMS 150 (GH;IL) Classical Archaeology--Ancient Rome (3) Literary sources for the development of Roman civilization in relation to the relevant archaeological discoveries.
Effective: Summer 2005

Effective: Summer 2011

CAMS 180 (GH;IL) (HIST 180) Ancient Warfare (3) Historical survey of the evolution of warfare in the ancient Mediterranean region from prehistoric times to the Later Roman Empire.
Effective: Summer 2010

CAMS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

CAMS 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

CAMS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAMS 200 (GH) (PHIL 200) Ancient Philosophy (3) Examines the thought and influence of major Western thinkers from the pre-Socratics to the neo-Platonists, emphasizing Plato and Aristotle.
Effective: Fall 2003

CAMS 250U (GH;IL) Honors Classics in Literature and Film (3) This honors course explores the Classical Tradition as it thrives in the literature of later epochs and film.
Effective: Summer 2010

CAMS 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1997

CAMS 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2001
Prerequisite: prior approval of proposed assignment by instructor

CAMS 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1997

CAMS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996
CAMS 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

CAMS 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAMS 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

CAMS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

CAMS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

CAMS 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAMS 400W Comparative Study of the Ancient Mediterranean World (3) Comparative study of ancient Mediterranean civilizations.
Effective: Spring 2001
Prerequisite: 3 credits in Classics and Ancient Mediterranean Studies

CAMS 405 (IL) Law & Economy in the Ancient Near East (3) This course is an overview of the legal and economic texts and institutions in the Ancient Near East.
Effective: Spring 2009
Prerequisite: 6 credits in any undergraduate CAMS courses.

CAMS 410 Classical Epic (3) Homer, Hellenistic Epic, and Vergil; influences on later epic.
Effective: Spring 1998

CAMS 411W Classical Drama (3) Masterpieces of Greek tragedy (Aeschylus, Sophocles, Euripides) and comedy (Aristophanes, Menander); their influence on Roman writers.
Effective: Spring 2001

CAMS 420 Introductory Targumic Aramaic (3) Fundamentals of Aramaic grammar, syntax, and vocabulary.
Effective: Spring 2007

CAMS 421 Introductory Syriac (3) Fundamentals of Syriac grammar, syntax, and vocabulary.
Effective: Spring 2007

CAMS 440W Studies in Classical and Ancient Mediterranean Archaeology (3-6) Selected topics in the literary sources and material evidence for classical and ancient Mediterranean society.
Effective: Summer 2000
Prerequisite: 3 credits from: ANTH 002, ART H 311, CAMS 010, CAMS 020, CAMS 025, CAMS 033, CAMS 140, CAMS 150, HIST 100, HIST 101

CAMS 442 (IL) (KINES 442) Sport in Ancient Greece and Rome (3) An examination of the continuity of sport in Greek and Roman societies.
Effective: Spring 2008
Prerequisite: CAMS 025, CAMS 033, CAMS 140, CAMS 150, CAMS 100, CAMS 101 or KINES 141

CAMS 470 (IL) Languages and Cultures of the Ancient Near East (3) This course is an overview of the languages and cultures that populated the Ancient Near East.
Effective: Spring 2009
Prerequisite: 6 credits in any undergraduate CAMS courses.

CAMS 471 Sumerian (3) Introduction to the Sumerian language and the cuneiform writing system.
Effective: Spring 2009
Prerequisite: 6 credits in any undergraduate CAMS course.

CAMS 472 Akkadian (3) Introduction to the Akkadian language (Babylonian & Assyrian) and the cuneiform writing system.
Effective: Spring 2009
Prerequisite: 6 credits in any undergraduate CAMS courses

CAMS 480 (JST 480) Greeks and Persians (3) Development and achievements of the Achaemenid kingdom; relationships
CAMS 490 Ancient Mediterranean Languages (3-6) Variable topic study of an ancient language of the Mediterranean basin and related areas, other than Greek, Latin, or Hebrew.
Effective: Summer 2011
Prerequisite: CAMS 010, CAMS 025 or CAMS 100

CAMS 492 Intermediate Field Methods (3-6) On-site experience in archaeological fieldwork in the ancient Mediterranean region.
Effective: Spring 2000
Prerequisite: approval by field school director

CAMS 493 Intermediate Field Analysis (3-6) On-site experience in archaeological analysis in the ancient Mediterranean region.
Effective: Spring 2000
Prerequisite: approval by field school director

CAMS 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1997

CAMS 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2001

CAMS 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

CAMS 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 1996

CAMS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

CAMS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAMS 499A (IL) (HIST 499A, ANTH 499A) Archaeology, History, and Culture of Turkey’s Aegean Coast (3) The 2011 study tour will focus on Turkey’s western coast, the location of Troy and the Trojan War of the heart of the Greco-Roman and Byzantine empires.
Effective: Summer 2011 Ending: Summer 2011

CAMS 499B (IL) (ANTH 499B, HIST 499B) Foreign Study (3) This course is offered as an option for students to earn an additional 3 credits, with the permission of the instructor. The students will be required to write a research paper on an approved topic.
Effective: Summer 2011 Ending: Summer 2011

CAMS 499C (IL) (ANTH 499C, RL ST 499C, HIST 499C) Excavation, Survey and GIS for Archaeologists (6) Entails excavation, intensive survey, and an introduction to GIS for archaeologists.
Effective: Summer 2011 Ending: Summer 2011

CAMS 499D (IL) (RL ST 499D, ANTH 499D, HIST 499D) Israel Dig: Excavation, Conservation, and Public Archaeology (6) Entails excavation, conservation, and public archaeology involved with the preservation and interpretation of Israel’s archaeological sites.
Effective: Summer 2011 Ending: Summer 2011

CAMS 499E (IL) (HIST 499E, ANTH 499E) Study Tour of Jordan: Petra, the Spice Route, Roman Palestine (3) Entails an in-depth seminar with a focus on the archaeology and history of Roman Palestine.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
College Student Affs (CSA)

CSA 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2009

CSA 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2009

CSA 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2009

Communication Arts and Sciences (CAS)

CAS 083S (GS) First-Year Seminar in Speech Communication (3) Introduction to major theoretical, critical, research and pedagogical issues in human communication.
Effective: Fall 2003

CAS 084S (GH) First-Year Seminar in Communication Arts and Sciences (3) Introduction to significant issues surrounding effective human communication; humanities emphasis.
Effective: Summer 2002

CAS 100 (GWS) Effective Speech (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.
Effective: Fall 2003

CAS 100A (GWS) Effective Speech (3) Principles of communication, implemented through presentation of speeches, with some attention to group discussion and message evaluation.
Effective: Fall 2003

CAS 100B (GWS) Effective Speech (3) Principles of communication, implemented through group problem solving, with some attention to formal speaking and message evaluation.
Effective: Fall 2003

CAS 100C (GWS) Effective Speech (3) Principles of communication, implemented through analysis and evaluation of messages, with some attention to formal speaking and group discussion.
Effective: Fall 2003

CAS 100H (GWS) Effective Speech (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAS 100H (GWS) Effective Speech (3) Introduction to speech communication: formal speaking, group discussion, analysis and evaluation of messages.

CAS 100S (GWS) Effective Speech (3) Principles of communication, implemented through presentation of speeches, with some attention to group discussion and message evaluation.
Effective: Fall 2003

CAS 101 (GS) Introduction to Human Communication (3) Introduction to major theoretical, critical, research and pedagogical issues in human communication.
Effective: Fall 2003

CAS 126 Developmental Listening (3) Introduction to effective strategies of listening, with an emphasis on studying, note taking, test taking, and research paper writing.
Effective: Fall 2003

CAS 175 (GH) Persuasion and Propaganda (3) An introductory examination of how symbols have been used to create belief and action in revolutionary, totalitarian, and democratic settings.
Effective: Spring 2003

CAS 195 Careers in Communication (1) An introduction to a variety of careers in the field of communication arts and sciences.
Effective: Summer 2002

CAS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2003

CAS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAS 200 (US;IL) Language, Culture, and Communication (3) Introduction to language, language development, cultural
literacy, culture, and intercultural communication.

Effective: Summer 2005

CAS 201 (GH) **Rhetorical Theory** (3) History and theory of public advocacy and civic discourse.
Effective: Spring 2003

CAS 202 (GS) **Introduction to Communication Theory** (3) Survey of human communication studies in relational, interpersonal, group, organization, intercultural, health, technology and communication systems.
Effective: Spring 2003

CAS 203 (GS) **Interpersonal Communication** (3) Exploration of competent communication and the skills necessary to manage personal and professional relationships.
Effective: Fall 2003

CAS 204 **Communication Research Methods** (3) Overview of the skills necessary to evaluate commonly reported communication research.
Effective: Spring 2003

CAS 205 **The Voice and Its Use** (3) Emphasis on procedures to improve vocal effectiveness in personal and professional communication; not offered at University Park campus.
Effective: Spring 2003

CAS 206 (GH) **Mediation and Communication** (3) Presentation of the history, theory, and practice of mediation as a means of resolving conflict through communication.
Effective: Fall 2007

CAS 211 **Informative Speaking** (3) Planning, organizing, adapting, and presenting informative speeches and oral reports on technical/scholarly projects, both by manuscript reading and extemporaneously.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 212 **Professional Public Speaking** (3) Organizing, adapting and presenting ideas in public informative, persuasive, technical and ceremonial speeches.
Effective: Spring 2008
Prerequisite: CAS 100

CAS 213 **Persuasive Speaking** (3) Planning, organizing, and adapting techniques of persuasion to achieve personal and public goals; engaging in critical assessment of persuasive messages.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 214W **Speech Writing** (3) Writing speeches for delivery in political, professional, and ceremonial settings; emphasis on composition and language for oral presentation.
Effective: Spring 2003
Prerequisite: CAS 100

Effective: Spring 2003

CAS 216 **Parliamentary Procedure** (2) Practice in presiding over and participating in meetings conducted under rules of order.
Effective: Spring 2003

CAS 222 (GS:US;IL) (CIVCM 211, YFE 211) **Foundations: Civic and Community Engagement** (3) Conceptual foundations of public scholarship and orientation to contemporary themes and issues in civic and community engagement.
Effective: Fall 2010

CAS 250 **Small Group Communication** (3) Skill development in the areas of group discussion, leadership, and teamwork.
Effective: Fall 2003

CAS 252 **Business and Professional Communication** (3) Interviewing, briefing, conferring, and decision making; analyzing and evaluating formal and informal patterns of communication in organizations.
Effective: Spring 2003

CAS 253 **Health Communication** (3) To introduce students to principles of health message design and the general theories and models used to guide these efforts.
Effective: Spring 2006

The Pennsylvania State University
CAS 271 (US:IL) **Intercultural Communication** (3) Introduction to intercultural communication. Focus on topics such as language, identity, prejudice, and intergroup relations on a domestic/international level. Effective: Summer 2005

CAS 280W **Storytelling and Speaking** (3) Principles of oral performance from storytelling to the printed page; includes oral performance of stories, speeches, prose, drama, and poetry. Effective: Spring 2003

CAS 283 **Communication and Information Technology I** (3) Introduction to communication technology and information management; intended for students in the Liberal Arts. Effective: Fall 2003

CAS 294 **Research Topics** (1-12) Supervised student activities on research projects identified on an individual or small group basis. Effective: Fall 2003
Prerequisite: prior approval of assignment by instructor

CAS 295 **Internship** (1-16) Supervised nongroup instruction, including field experiences, practicums, or internships. Written and oral critique of activity required. Effective: Fall 2003
Prerequisite: prior approval of proposed assignment by instructor

CAS 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2003

CAS 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2003

CAS 297A **Presidential Communication in the Age of Barack Obama** (3) Explores how Barack Obama's 2008 campaign/election and his first years in office have altered the terrain of presidential communication. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAS 297B **New Media Culture and Ethics** (3) This course will examine ethical issues involving new media such as identity, privacy, ownership of content, authorship, copyright and privacy. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

CAS 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2003

CAS 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

CAS 302 **Social Influence** (3) Explores how humans influence others through communication. Effective: Summer 2002

CAS 311 **Methods of Rhetorical Criticism** (3) Principles for the analysis and evaluation of public discourse. Effective: Summer 2002

CAS 321 **Rhetoric and Law** (3) A survey of the literature on the role of rhetoric in law, including trial advocacy, appellate argument, and judicial reasoning. Effective: Spring 2008

CAS 340 **Communication and Civility** (3) Communication behaviors contributing to civil and uncivil discourse; their implications in business, public life, across cultures and in interpersonal relationships. Effective: Spring 2008

CAS 352 **Organizational Communication** (3) This course examines the function and structure of communication in both formal and informal situations. Effective: Spring 2003

CAS 360 **Communication for Teachers** (3) Analysis of dynamics of instructor-student communication implemented through structured exercises in instructor listening, verbal and nonverbal message-making. Effective: Spring 2008

The Pennsylvania State University
Prerequisite: CAS 100

CAS 373 The Rhetorics of War and Peace (3) This course explores how war and peace are advocated.
Effective: Summer 2009

CAS 375 Rhetoric and Public Controversy (3) Survey of important events in the history of public address, including speeches, debates, and persuasive campaigns and movements.
Effective: Summer 2002

CAS 383 Culture and Technology (3) This course will examine the area of cyberculture as it relates to communication studies.
Effective: Summer 2002

CAS 395 Forensics Practicum (1-2 per semester/maximum of 16) Provides students in forensics the opportunity for supervised participation in the activity in class and in intercollegiate competition.
Effective: Fall 2003

CAS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2002

CAS 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CAS 402 Speech and Human Behavior (3) General semantics, thought, and human behavior; not offered at University Park campus.
Effective: Spring 2003

CAS 403 Interpersonal Communication Theory and Research (3) Examining behavior within interpersonal encounters, with emphasis on both theoretical/applied explanations for how and why people act during such interactions.
Effective: Spring 2003
Prerequisite: CAS 203

CAS 404 Conflict Resolution and Negotiation (3) Theories and strategies important for conceptualizing, developing, and managing conflict negotiation, mediation, and third-party intervention.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 405 Family Communication Theory and Research (3) Explores the nature and functions of communication in family life; emphasis on meaning, patterns, and styles of family communication.
Effective: Summer 2002
Prerequisite: CAS 101, CAS 202

CAS 406H Honors Course in Communication Arts and Sciences (3) Individual study and seminar in selected areas or issues of speech communication.
Effective: Spring 2003
Prerequisite: an all-University average of B; approval of the departmental Honors Committee

CAS 410W Mother-Daughter Communication (3) Explores the mother-daughter relationship with an emphasis on understanding mother-daughter communication.
Effective: Summer 2010
Prerequisite: CAS 202

CAS 411 Rhetorical Criticism (3) Principles of rhetorical criticism examined through analysis of selected texts and critics.
Effective: Spring 2003
Prerequisite: CAS 201 or CAS 100

CAS 415 Rhetoric of Film and Television (3) Rhetorical analysis of the artistic forms and cultural structures of film and television; intensive study of selected examples.
Effective: Spring 2003
Prerequisite: CAS 100 or COMM 150

CAS 420 Rhetorical Theory (3) Ancient, medieval, Renaissance, Enlightenment, and contemporary theories of rhetoric.
Effective: Spring 2003
Prerequisite: CAS 201

CAS 421 Communication and Aging (3) Concentrates on the pivotal role that communication plays in the social process of aging.
Effective: Summer 2007
Prerequisite: Three credits of CAS

CAS 422 (US) (AAA S 422) Contemporary African American Communication (3) A focused study on the continuities between African and African American culture and communication.
Effective: Summer 2005
Prerequisite: CAS 100

CAS 426W Communication Ethics (3) Ethical issues in public and private communication; role of communication in expressing and realizing individual and social values.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 438 Rhetoric of Documentary (3) Rhetorical analysis of the documentary in film, television, and other media; historical and critical analysis of functions and form.
Effective: Spring 2003
Prerequisite: CAS 201

CAS 450W Group Communication Theory and Research (3) Selected theories of problem solving through group discussion emphasizing participation and leadership.
Effective: Spring 2003
Prerequisite: CAS 100 or CAS 250

CAS 452 Organizational Communication Theory and Research (3) Explores the nature and functions of communication in organizations; emphasis on concepts, tools, and skills for effective management of communication.
Effective: Spring 2003
Prerequisite: CAS 202 or CAS 252

CAS 452W Organizational Communication Theory and Research (3) Explores the nature and functions of communication in organizations; emphasis on writing and exploring concepts, tools, and skills for effective management of communication.
Effective: Spring 2004
Prerequisite: CAS 202 or CAS 252

CAS 453 Health Communication Theory and Research (3) Principles of communication about health across the lifespan and within health-care contexts.
Effective: Spring 2006
Prerequisite: CAS 100

CAS 455 (US) (WMNST 455) Gender Roles in Communication (3) Explores the literature on gender research in the discipline of human communication.
Effective: Summer 2005
Prerequisite: CAS 202

CAS 470 Nonverbal Communication (3) Examining ways nonverbal messages, such as gestures, posture, vocal intonation, and facial expressions, affect us on a daily basis.
Effective: Spring 2003
Prerequisite: 6 credits in Communication Arts and Sciences

CAS 471 (US; IL) Intercultural Communication Theory and Research (3) Intercultural and cross-cultural communication research theory and practice as applied within and across national boundaries.
Effective: Summer 2005
Prerequisite: CAS 271

CAS 475 Studies in Public Address (3) History and criticism of public discourse; intensive analysis of selected public addresses and social movements.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 478 Contemporary American Political Rhetoric (3) Analysis of selected speeches, debates, and persuasive campaigns and movements in recent American political history.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 480 Group Performance of Literature (3) Applying storytelling skills and performance theory to the group presentation of literature; criticism of literature through group presentations.
Effective: Spring 2003
Prerequisite: CAS 100

CAS 483 Communication and Information Technology II (3) Theory and application of interactive internet-based communication and information management; for students who want a Liberal Arts approach.
Effective: Fall 2003
Prerequisite: CAS 283

CAS 494 Research Topics (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2003
Prerequisite: prior approval of proposed assignment by instructor

CAS 494H Research Topics (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Summer 2008
Prerequisite: prior approval of proposed assignment by instructor

CAS 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2003
Prerequisite: prior approval of proposed assignment by instructor

CAS 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2002

CAS 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2002

CAS 497A **Communication and Leadership in Decision-Making Groups** (3) Focuses on how leaders via their communicative behavior assure that the members of decision-making groups fulfill all essential task requirements.

CAS 497H **Introduction to Research Topics in Methodologies in Communication Arts and Sciences** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CAS 497H **Introduction to Research Topics and Methodologies in Communication Arts and Sciences** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

CAS 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2002

CAS 499 (IL) **Foreign Studies** (1-9) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
**Communication Sciences and Disorders (CSD)**

CSD 100 (GHA;US) **Preventing Vocal Abuse, Misuse, and Disorders** (1.5) Principles of the voice mechanisms, preventing vocal abuse, and promoting vocal health across the life span.
Effective: Summer 2005

CSD 101 (GHA;US) **Preventing Hearing Loss** (1.5) Assessment, intervention, and prevention of hearing loss caused by loud music and recreational and industrial noise.
Effective: Summer 2005

CSD 146 (US;IL) **Introduction to Communication Sciences and Disorders** (3) Classification of speech, language, and hearing disorders, diagnostic and treatment procedures; skills and responsibilities of the speech-language pathologist and audiologist.
Effective: Summer 2005

CSD 218 **American Sign Language I** (3) Introduction to sign language; provides basic receptive and expressive skills; includes out-of-class practice.
Effective: Fall 2003

CSD 230 **Introduction to Audiology** (3) Basic measurement procedures, evaluation, and screening of hearing loss using pure-tone and speech audiometry, immittance, and physiological measurements.
Effective: Spring 2005

CSD 245 **Professional Programs and Relationships** (2) Organization and administration of speech pathology and audiology programs in various professional settings; personal, professional, and community relationships and responsibilities.
Effective: Fall 2010

CSD 269 (US;IL) **Deafness and Society** (3) Explores the economic, social, psychological, and political aspects of the deaf culture and its interaction with the majority hearing culture.
Effective: Summer 2005

CSD 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2003

CSD 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2003

CSD 300 (US;IL) **Developmental Considerations in the Assessment and Treatment of Language Disorders** (3) Using a developmental framework to interpret problems in child language acquisition.
Effective: Fall 2010
Prerequisite: CSD 146

CSD 301 **Acoustic Principles in Communication Sciences and Disorders** (3) Explores the fundamental concepts of acoustics as applied to individuals with communicative disabilities; special emphasis is placed on the acoustic analysis of speech.
Effective: Fall 2010
Prerequisite: CSD 146

CSD 311 **Clinical Phonetics** (3) Introduction to phonetic transcription of speech emphasizing articulatory phonetics of American English, its dialects, and disordered speech; extensive transcription experiences.
Effective: Fall 2003

CSD 318 **American Sign Language II** (3) Review of basic signing, plus continued development of signing skills.
Effective: Fall 2003
Prerequisite: CSD 218

CSD 331 **Anatomy and Physiology for Speech and Hearing** (3) Structure and function of the physical systems involved in speech and hearing, including respiration, phonation, articulation, perception, and neurology.
Effective: Fall 2003

CSD 395W **Clinical Observations in Communication Disorders** (1) Systematic observation of therapy and diagnostic sessions in speech-language pathology and audiology.
Effective: Fall 2003
Prerequisite: CSD 146

CSD 433 Aural Rehabilitation (3) Methods for improving receptive skills of persons with hearing impairments; clinical observation and practice.
Effective: Fall 2003
Prerequisite: CSD 230

CSD 442 Introduction to Disorders of Articulation and Phonology (3) Etiology, diagnosis, and treatment of articulation disorders.
Effective: Fall 2010
Prerequisite: CSD 300, CSD 311 plus 3 additional CSD credits at the 300-level

CSD 444 Introduction to Organic Disorders of Speech and Language (3) Etiology, diagnosis, and principles of treatment of stuttering, and of speech-language disorders having organic bases.
Effective: Fall 2010
Prerequisite: CSD 301, CSD 331 plus 3 additional credits in CSD at the 300-level

CSD 451 An Introduction to Augmentative and Alternative Communication (3) Examination of assessment and intervention issues in augmentative and alternative communication techniques with persons with severe communication disorders.
Effective: Fall 2010
Prerequisite: CSD 300 plus 6 additional CSD credits at the 300-level

CSD 459W Principles of Clinical Management in Communication Disorders (3) Survey of principles and practices for diagnosing, interviewing, counseling, treating, reporting, and programming in Communication Disorders.
Effective: Fall 2010
Prerequisite: CSD 300, CSD 230 plus 3 additional credits in CSD at the 300-level

CSD 462 (US;IL) Clinical Bases of Language Disorders (3) Description of pathological language and cognitive development, and principles of assessment and remediation among individuals with communication disorders.
Effective: Fall 2010
Prerequisite: CSD 300 plus 6 additional credits in CSD at the 300-level

CSD 494H Senior Honors Thesis (1-6) Independent study related to a student’s interests directed by a faculty supervisor and culminating in the production of a thesis.
Effective: Spring 2006
Prerequisite: Approval of honors thesis advisor.

CSD 495A Speech Therapy Practicum (1-6) Demonstration and practice in examination, diagnosis, and treatment of speech problems.
Effective: Fall 2003
Prerequisite: CSD 395W, CSD 442

CSD 495B Audiology Practicum (1-5) Demonstration and practice in examination, diagnosis, and treatment of hearing impairment problems.
Effective: Fall 2003
Prerequisite: CSD 395W, CSD 433

CSD 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2003

CSD 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2003

Last Import from UCM: June 16, 2011 3:00 AM
Communications (COMM)

COMM 001 **Newspaper Practicum** (1 per semester/maximum of 8) A newspaper/print media practicum. Credits do not fulfill Communication major credits in all programs.
Effective: Spring 2008

COMM 002 **Newspaper Editorial Staff** (2-3 per semester, maximum of 12) A newspaper/print media practicum. Credits do not fulfill Communication major credits in all programs.
Effective: Spring 2008
Prerequisite: COMM 001

COMM 003 **Radio Practicum** (1 per semester/maximum of 8) A broadcast media practicum. Credits do not fulfill Communication major credits in all programs.
Effective: Spring 2008

COMM 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

COMM 100 (GS) **The Mass Media and Society** (3) Mass communications in the United States: organization, role, content, and effects of newspapers, magazines, television, radio, books, and films.
Effective: Spring 2002

COMM 100S (GS) **The Mass Media and Society** (3) Mass communications in the United States: organization, role, content, and effects of newspapers, magazines, television, radio, books, and films.
Effective: Fall 2005

COMM 110 (GH) **Media and Democracy** (3) This course considers the role of the mass media with regard to developing civic awareness and engagement in democratic societies.
Effective: Spring 2009

COMM 118 (GS) **Introduction to Media Effects** (3) Examination of individuals’ selection, uses and perceptions of media and the effects of media on individuals’ attitudes, beliefs, and behaviors.
Effective: Spring 2007

COMM 120 **Advertising and Society** (3) History and structure of advertising in American society; the role of advertising in the economic and communications systems; regulation. May not be used to fulfill requirements of any major in the School of Communications.
Effective: Fall 1986

COMM 150 (GA) **The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Spring 2007

COMM 150H (GA) **The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Spring 2007

COMM 150S (GA) **The Art of the Cinema** (3) The development of cinema to its present state; principles of evaluation and appreciation; examples from the past and present.
Effective: Fall 2005

COMM 160 **Basic News Writing Skills** (1) Grammar, punctuation, spelling, and word usage skills required of journalists.
Effective: Summer 2003

COMM 168 (GH) **American Journalism: Values, Traditions, and Practices** (3) This course is designed to give students a broad overview of American journalism, its past, present and future; its traditions, principles and values.
Effective: Summer 2011

COMM 170 **Introduction to the Sports Industry** (3) The course provides a basic understanding of how the principles of business apply in the industry of sports.
Effective: Spring 2009
COMM 180 (GS) **Survey of Electronic Media and Telecommunications** (3) The development of electronic media and telecommunications, emphasizing social, economic, political and global impact.
Effective: Fall 2006

COMM 190 (GS) **Gaming and Interactive Media** (3) Introduction to business and social aspects of interactive media, videogame and simulations industries.
Effective: Summer 2011

COMM 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1993

COMM 197A **Gaming and Interactive Media** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 197C **Joe Paterno, Communications & The Media** (3) This course analyzes the shifting roles of Joe Paterno and the media, and the resulting communication goals, methods and avenues of both parties over the past 67 years. With a heavy concentration on multi-media, it will examine Paterno's use of traditional and non-traditional communications, such as press conferences, speeches, interviews, TV and radio, PR, books and the Web.
Effective: Summer 2011 Ending: Summer 2011

COMM 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

COMM 205 (US) (WMNST 205) **Women, Minorities, and the Media** (3) Analysis of historical, economic, legal, political, and social implications of the relationship between women, minorities, and the mass media.
Effective: Summer 2005

COMM 215 **Basic Photography for Communications** (3) An introduction to photography, emphasizing both technical skills and aesthetics with both the camera and in the darkroom.
Effective: Spring 2011

COMM 230W **Writing for Media** (3) The application of creativity to the practical concerns of narrative script and radio/television spot writing.
Effective: Spring 2008
Prerequisite: ENGL 015 and ENGL 202

COMM 241 **Graphic Design for Communications** (3) Introduction to basic design principles, critical analysis of visual material, and solving graphics problems utilizing traditional and digital production tools.
Effective: Spring 2011

COMM 242 **Basic Video/Filmmaking** (3) Introduction to basic motion picture techniques, emphasizing practical experience in filmmaking.
Effective: Fall 2005
Prerequisite: COMM 150 and second third or fourth semester standing

COMM 250 (GA) **Film History and Theory** (3) Exploration of film theory and criticism in the context of aesthetic, technological, and economic evolution of film history.
Effective: Spring 2004
Prerequisite: COMM 150

COMM 251 **The Nature of Media** (3) A theoretical, cultural, and philosophical study of print and non-print media, including their histories, possibilities, limitations, and interrelationships.
Effective: Spring 2008

COMM 260W **News Writing and Reporting** (3) News and news values; legal and ethical problems of reporting; writing and reporting news for the mass media.
Effective: Spring 2004
Prerequisite: ENGL 015 or ENGL 030; COMM 160; third-semester standing and typing proficiency

COMM 261 (GH) **The Literature of Journalism** (3) Representative nonfiction by writers such as Susan Sheehan, George Orwell, Joan Didion, Alice Walker, Truman Capote, C. D. B. Bryan, Russell Baker.
Effective: Spring 2001

COMM 261H (GH) **The Literature of Journalism** (3) Representative nonfiction by writers such as Susan Sheehan, George Orwell, Joan Didion, Alice Walker, Truman Capote, C.D.B. Bryan, Russell Baker.
Effective: Summer 2005

The Pennsylvania State University
COMM 269 Photojournalism (3) Photography for communication in print and online; creating photographs for newspapers, magazines and the Web; digital camera and software skills.
Effective: Fall 2010
Prerequisite: or concurrent: COMM 260W or COMM 320

COMM 270 Introduction to Multimedia Production (3) Introduction to multimedia project activities to explore image editing, layout, the integration of texts and images and web architecture.
Effective: Summer 2002

COMM 282 Television Field Production (3) Explore the particularities of single camera pre-production and production and analog and digital videotape editing.
Effective: Spring 2010

COMM 283W Television Studio Production (3) Students will learn the technical aspects of multi-camera studio television production.
Effective: Fall 2010 Ending: Fall 2011
Prerequisite: COMM 282

COMM 287 Voice Training for the Media (3) This course emphasizes voice training techniques. It is designed to help students expand their vocal capabilities and vocal performance skills in different media.
Effective: Spring 2008

COMM 292 (GH) Introduction to Media & Politics (3) This course explores the intersection of media and politics, introducing students to the critical analysis of mediated political discourse.
Effective: Spring 2008

COMM 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

COMM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1986

COMM 296A Newspaper Intern (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011 Ending: Summer 2011

COMM 296B Television Promotion Internship (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011 Ending: Summer 2011

COMM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1986

COMM 297A American Journalism, Principles and Traditions (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

COMM 304 Mass Communication Research (3) Introduction to research methods in a mass communications.
Effective: Spring 2009
Prerequisite: STAT 200; and 3 credits from COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 315 Applications for Media Writing (3) Tutorial and practice in various kinds or journalistic and commercial writing, emphasizing basic skills.
Effective: Spring 2008
Prerequisite: ENGL 202A, ENGL 202B, ENGL 202C or ENGL 202D

COMM 320 Introduction to Advertising (3) Advertising management in business, including communication theory; common industry practices; basics of copy, media, and budget decision; and environmental influences. A student may not
receive credit for both COMM 320 and MKTG 322.
Effective: Spring 1989
Prerequisite: fourth-semester standing

COMM 331 Visual Communication Theory and Analysis (3) This course explores visual theory pertaining to movies, television production, and graphic design, emphasizing semiotics, the psychology of vision, and reception theory.
Effective: Spring 2008
Prerequisite: COMM 150

COMM 332 Reporting (3) Practice in researching and gathering material for and preparation of news stories for print media.
Effective: Spring 2008
Prerequisite: COMM 260W

COMM 333 Film History for Filmmakers I: The Development of the Cinema to 1960 (3) History of the art, industry, economics, culture, and technology of cinema from its origins to 1960.
Effective: Summer 2010
Prerequisite: COMM 150 Film-Video major

COMM 337W Theory and Practice of Production (3) Writing-intensive course addressing the analysis, theory and film and video production process of alternative and documentary forms.
Effective: Fall 2010 Ending: Fall 2011
Prerequisite: COMM 242

COMM 337W Intermediate Documentary Production (3) Writing-intensive exploration of documentary video techniques and aesthetics through the completion of short exercises.
Prerequisite: COMM 242 and Film-Video major

COMM 338 Intermediate Narrative Production (3) Exploration of narrative film or video techniques and aesthetics through the completion of short exercises and projects.
Effective: Summer 2010
Prerequisite: COMM 242 and Film-Video major

COMM 339 Intermediate Alternative Production (3) Exploration of alternative film or video production techniques and aesthetics through the completion of short exercises and projects.
Effective: Summer 2010
Prerequisite: COMM 242 and Film-Video major

COMM 340 Intermediate Cinematography and Editing Techniques (3) Exploration of film and video production techniques through the use of camera, lighting, audio and digital post-production equipment.
Effective: Spring 2011
Prerequisite: COMM 242 Film-Video major

COMM 342W Idea Development and Media Writing (3) Introduction to various modalities of idea development and written expression for media production.
Effective: Spring 2011
Prerequisite: COMM 242 and Film-Video Major

COMM 346 Writing for the Screen I (3) A beginning course in narrative Screenwriting emphasizing analysis, creativity, and critiquing skills necessary for the development of storytelling.
Effective: Spring 2011
Prerequisite: COMM 342W

COMM 350 (IL) Comparative Media Cultures (3) Intercultural examination of economic, political, philosophical, and historical forces that shape various societies’ newsgathering routines and content.
Effective: Spring 2008
Prerequisite: COMM 251

COMM 360 Radio Reporting (3) Reporting, writing, producing, and presenting radio news programs, focusing on the development of news judgment and writing skills.
Effective: Fall 2010
Prerequisite: COMM 260W

COMM 363 Desktop Publishing (3) Practical and theoretical approach to visual communication production in newspaper journalism, advertising, public relations, and other communication industries.
Effective: Spring 2008
Prerequisite: COMM 215 or COMM 241

COMM 370 Public Relations (3) Public understanding of organizations and institutions; identification and analysis of public; media relations; public relations practice.
Effective: Spring 2001
Prerequisite: fourth-semester standing

COMM 370H Public Relations (3) Public understanding of organizations and institutions; identification and analysis of public; media relations; public relations practice.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: fourth-semester standing

COMM 371 Visual and Video Communication (4) A study of the technical and aesthetic factors in visual production, including visualization, composition, lighting, sound, performance, and project management.
COMM 374 Audio Communication (3) Theory and practice in studio recording and broadcasting techniques, including continuity/news writing, control room operation and audio production.
Prerequisite: COMM 251 or COMM 100 and permission of program
Effective: Fall 2008 Ending: Summer 2011

COMM 374 Audio Production (3) Theory and practice in studio recording and broadcasting techniques, including continuity/news writing, control room operation and audio production.
Prerequisite: COMM 251 or COMM 100 and permission of program
Effective: Fall 2011 Future: Fall 2011

COMM 381 Telecommunications Regulation (3) Overview of the regulation of electronic media.
Prerequisite: COMM 180; ECON 102 or ECON 014
Effective: Spring 2011

COMM 383 Production Administration (3) Management, production, and analysis of video programming for mass and submass audiences. Emphasis on single-camera field production.
Prerequisite: COMM 283W
Effective: Spring 1993

COMM 383A Webcast Production (1.5) Explore all aspects of producing a live television show. Final project is streaming a live webcast online.
Prerequisite: COMM 282 or COMM 242
Effective: Summer 2011

COMM 384 Telecommunications Promotion and Sales (3) Principles of marketing services applied to telecommunications and information products/services; models of customer-focused selling and their applications to media time sales.
Prerequisite: COMM 180 or COMM 320
Effective: Fall 2001

COMM 385 Broadcast and Cable Programming (3) Framework, principles, and strategies for the programming of Broadcast television, Cable television, and radio stations.
Prerequisite: COMM 180
Effective: Fall 2001 Future: Fall 2011

COMM 385 Media Programming Strategies (3) Framework, principles, and strategies for media programming from perspective of content distributors and media outlets.
Prerequisite: COMM 180
Effective: Fall 2011 Future: Fall 2011

COMM 386 Telecommunications History (3) Historical development of telecommunications systems in the United States, including telegraph, telephone, radio, television, and the internet.
Effective: Fall 2001

COMM 387 Introduction to Broadcast/Cable Management (3) Introduction to basic principles of management as they apply in electronic media industries.
Prerequisite: COMM 180; ECON 102 or ECON 014
Effective: Spring 2011 Ending: Summer 2011

COMM 387 Telecommunications Management (3) Introduction to basic principles of management as they apply in electronic media industries.
Prerequisite: COMM 180; ECON 102 or ECON 014
Effective: Fall 2011 Future: Fall 2011

COMM 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

COMM 401 Mass Media in History (3) Relationship of news media to social, economic, and political developments in the Western world.
Effective: Fall 1986

COMM 402 International Reporting (3) International Reporting is an advanced level course in the College of Communications designed to give student journalists experience in reporting the news in a foreign country.
Effective: Summer 2011
Prerequisite: COMM 260W, COMM 360, COMM 465 and permission of program

COMM 403 Law of Mass Communications (3) Nature and theories of law; the Supreme Court and press freedom; legal problems of the mass media.
Effective: Fall 1986

COMM 403H Law of Mass Communications (3) Nature and theories of law; the Supreme Court and press freedom; legal problems of the mass media.
Effective: Spring 2006
COMM 405 Political Economy of Communications (3) Structure and functions of American and other mass communications systems and their relationship to political and economic systems.
Effective: Spring 2011
Prerequisite: ECON 102

COMM 405H Political Economy of Communications (3) Structure and functions of American and other mass communications systems and their relationship to political and economic systems.
Effective: Spring 2011
Prerequisite: ECON 102

COMM 406 Electronic News Gathering and Editing (3) Intermediate level skills in creating and editing television news packages.
Effective: Spring 2008
Prerequisite: COMM 315 or COMM 283W

COMM 408 (S T S 408) Cultural Foundations of Communications (3) Examination of oral, scribal, print, industrial, and electronic cultures; analysis of impact of technology on communications and social structure.
Effective: Spring 2009
Prerequisite: select 3 credits from COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320, COMM 370; or 3 credits of S T S

COMM 409 News Media Ethics (3) Ethical problems in the practice of journalism; principal public criticisms of news media; case study approach.
Effective: Fall 2006

COMM 409H News Media Ethics (3) Ethical problems in the practice of journalism; principal public criticisms of news media; case study approach.
Effective: Fall 2006

COMM 410 (IL) International Mass Communications (3) The role of international media in communication among and between nations and people. Complement to COMM 419.
Effective: Spring 2009
Prerequisite: select 3 credits from the following COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 411 Cultural Aspects of the Mass Media (3) The mass media as creators and critics of mass culture in American life; relationships between the media and mass culture.
Effective: Spring 2009
Prerequisite: 6 credits in the arts or the humanities; and 3 credits selected from the following COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 411H Cultural Aspects of the Mass Media (3) The mass media as creators and critics of mass culture in American life; relationships between the media and mass culture.
Effective: Spring 2009
Prerequisite: 6 credits in the arts or the humanities; and 3 credits selected from the following COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 412 Sports, Media and Society (3) Sport and media relationship in American culture.
Effective: Summer 2006

COMM 413 The Mass Media and the Public (3) Nature of mass communications, relationships between mass media and public, media influences on opinion; social pressures on the media.
Effective: Spring 2009
Prerequisite: 3 credits selected from the following COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 413W The Mass Media and the Public (3) Social-level and political theories of the relationships between media and public; media influences on public opinion; social pressure on the media; political communications.
Effective: Spring 2011
Prerequisite: select 3 credits from the following COMM 100, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370 and select 3 credits from the following COMM 304, COMM 420

COMM 414 Media Management (3) Theoretical bases and practical approaches for management and administration of communications projects, organizations, and resources.
Effective: Spring 2008
Prerequisite: COMM 100 or COMM 251

COMM 415 Advanced Photography for Communications (3) Advanced applications in documentary photography emphasizing the narrative qualities of imagery, and utilizing digital technologies.
Effective: Fall 2010
Prerequisite: COMM 215 or COMM 269 and permission of program

COMM 417 Ethics and Regulation in Advertising and Public Relations (3) Ethical issues in practice of advertising and public relations; legal and regulatory issues; case studies.
Effective: Spring 2007
Prerequisite: COMM 320 or COMM 370
COMM 418 Media Effects: Theory and Research (3) Investigation of social and psychological effects of media messages and technologies via theories and empirical evidence pertaining to processes of effects.
Effective: Spring 2007
Prerequisite: COMM 118 and COMM 304 or equivalent

COMM 419 (US;IL) World Media Systems (3) Comparative study of modern media systems of mass communications in selected foreign countries.
Effective: Spring 2009
Prerequisite: select 6 credits in the arts or the humanities; and 3 credits from the following: COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 419H (US;IL) World Media Systems (3) Comparative study of modern media systems of mass communications in selected foreign countries.
Effective: Spring 2009
Prerequisite: select 6 credits in the arts or the humanities; and 3 credits from the following: COMM 100, COMM 110, COMM 118, COMM 150, COMM 180, COMM 251, COMM 260W, COMM 320 or COMM 370

COMM 420 Research Methods in Advertising and Public Relations (3) Primary and secondary research methods used in the development of solutions to advertising and public relations problems.
Effective: Summer 2002
Prerequisite: COMM 320 or COMM 370; STAT 200

COMM 421W Advertising Creative Strategies (3) Planning, designing, writing advertisements; introduction to graphics and production techniques and processes; layout and copywriting practice and critiques.
Effective: Spring 2004
Prerequisite: COMM 320

COMM 422 Advertising Media Planning (3) Analysis, selection, and scheduling of advertising media; examination of algorithms, technologies, and software used in media planning.
Effective: Fall 1986
Prerequisite: COMM 320

COMM 424 Advertising Campaigns (3) Advertising campaign problems from the viewpoint of the national advertiser and advertising agency; production of a complete advertising campaign.
Effective: Spring 2007
Prerequisite: COMM 420 or COMM 304; COMM 421W, COMM 422

COMM 425 Advertising Message Strategy (3) Advanced work in developing message strategies for advertising campaigns; presentation and defense of strategic plans; extensive practice in creating advertisements.
Effective: Spring 2001
Prerequisite: COMM 421W, COMM 422

COMM 426 International and Intercultural Strategic Communication (3) Advertising and public relations in the international and intercultural arenas; multicultural strategic communications strategies.
Effective: Summer 2006
Prerequisite: COMM 320 or COMM 370

COMM 427 Client/Agency Relations (3) Building and maintaining client-agency relationships in advertising, public relations and direct response agency business functions.
Effective: Summer 2006
Prerequisite: Advertising Option - Prerequisite or concurrent - One can be taken concurrently: COMM 421, COMM 422. Public Relations Option - Prerequisite: COMM 471 Prerequisite or concurrent: COMM 473

COMM 430 Mass Media and Politics (3) Study of mass media as institutions and the effects of the mass media on politics, public policy, and citizens.
Effective: Spring 2008
Prerequisite: COMM 100 or COMM 251

COMM 433 Film History for Filmmakers II: The Development of the Cinema from 1960 to the Present (3) History of the art, industry, economics, culture, and technology of cinema from 1960 to the present.
Effective: Summer 2010
Prerequisite: COMM 333

COMM 436 Advanced Audio Production (3) Advanced concepts and techniques of audio production in analog and digital formats with hands-on experience in recording, mixing and editing.
Effective: Spring 2008
Prerequisite: COMM 374

COMM 437 Advanced Documentary Production (3 per semester/maximum of 6) Advanced exploration of documentary production techniques and aesthetics through the completion of a short video project.
Effective: Spring 2011
Prerequisite: COMM 337W, COMM 340, COMM 342W

COMM 438 Advanced Narrative Production (3 per semester/maximum of 6) Advanced exploration of narrative production techniques and aesthetics through the completion of a short film or video project.
Effective: Spring 2011
Prerequisite: COMM 338, COMM 340, COMM 342W

COMM 439 Advanced Alternative Production (3 per semester/maximum of 6) Advanced exploration in experimental and animation forms through the production of a film or video project.
Effective: Spring 2011
COMM 440 Advanced Cinematography and Lighting Techniques (3) Advanced exploration in camera, lighting, audio, and color-grading techniques, emphasizing technical skills as well as aesthetics. Effective: Spring 2011
Prerequisite: COMM 340, COMM 342W and two of the following: COMM 337, COMM 338 or COMM 339 or permission of program.

COMM 441 Advanced Graphic Design for Communications (3) Theory and practice designing graphic visual communication in commercial, non-commercial, and fine art formats for print and on-line media. Effective: Spring 2011
Prerequisite: COMM 241 or COMM 371

COMM 442 Advanced Audio Video Production (3) Advanced techniques in video production applied to narrative, non-narrative and short documentary formats. Effective: Summer 2011

COMM 443 Producing Workshop (3) This course will immerse students in the language and practice of producing film and video projects. Effective: Spring 2011
Prerequisite: COMM 340, COMM 342W and two of either: COMM 337W, COMM 338 or COMM 339

COMM 444 Advanced Post-Production Techniques (3) This course offers intensive practical experience in editing, motion graphics and sound mixing techniques, emphasizing both technical skills and aesthetics. Effective: Summer 2010
Prerequisite: COMM 340, COMM 342W and two of the following: COMM 337, COMM 338 or COMM 339

COMM 445 Directing Workshop (3) An advanced aesthetic and skill production course in directing for the screen. Effective: Spring 2011
Prerequisite: COMM 340, COMM 342W and two of the following: COMM 337, COMM 338 or COMM 339

COMM 446 Writing for the Screen II (3) An advanced course in screenwriting that further develops elements of storytelling technique. Effective: Spring 1994
Prerequisite: COMM 346

COMM 448 Advanced Group Production I (3) A two semester advanced production course emphasizing intensive collaborative film-video production from script through post-production. Effective: Spring 2011
Prerequisite: COMM 340, COMM 342W and two of the following: COMM 337, COMM 338 or COMM 339 and permission of program.

COMM 449 Advanced Group Production II (3) Continuation of advanced production course emphasizing intensive collaborative film-video production from script through post-production. Effective: Spring 2011
Prerequisite: COMM 448

COMM 451 Topics in American Film (3 per semester, maximum of 6) Critical and historical studies of American films. Analysis of directing, cinematography, editing, screenwriting, and acting. Effective: Summer 1989
Prerequisite: COMM 250

COMM 452 Topics in International Cinema (3 per semester, maximum of 6) Critical and historical studies of topics in non-American film. Analysis of theory, direction, cinematography, editing, and screenwriting. Effective: Summer 1989
Prerequisite: COMM 250

COMM 453 (IL) (CMLIT 453) Narrative Theory: Film and Literature (3) Comparative study of the aesthetics and techniques of film and literature; close analyses of masters of each art form. Effective: Fall 2006
Prerequisite: COMM 150 or 3 credits in literature

COMM 454 Documentary in Film and Television (3 per semester, maximum of 6) Study of representative films from various documentary movements, examining form, technique, trends, and audience objectives. Effective: Spring 2001
Prerequisite: fourth-semester standing

COMM 455 Advanced Film Theory and Criticism (3 per semester, maximum of 6) Close examination of classic and contemporary film theory and critical perspectives. Effective: Summer 1989
Prerequisite: COMM 250

COMM 456 Media Criticism and Theory (3) Critical and theoretical approaches to the analysis of media and communication. Effective: Spring 2008
Prerequisite: COMM 371

COMM 457 Media Audiences and Contexts (3) Survey of the ways media attempt to influence audience reception and how audiences hold sway over media content. Effective: Spring 2008
Prerequisite: COMM 100 or COMM 251

COMM 458 Media Law and Ethics (3) The study and practice of key issues in media law and ethics, including libel law, conflict of interest, truth in advertising.
Effective: Spring 2008
Prerequisite: COMM 100 or COMM 251

COMM 459 Cultural Effects of Interactive and Online Media (3) Study of the global social impact and rhetorical limitations of converging media, emphasizing cross-cultural media influences.
Effective: Spring 2008
Prerequisite: COMMS 251

COMM 460W Reporting Methods (3) Techniques in reporting news and trends at the local, regional, and county levels. Emphasis on both deadline and interpretive reporting.
Effective: Fall 1990
Prerequisite: COMM 260W

COMM 461 Professional Journalism Seminar (3 per semester/maximum of 6) Problems of research, content, and form in journalistic specializations; topics of specialization announced each semester course is offered.
Effective: Spring 1988
Prerequisite: COMM 260W

COMM 462 Feature Writing (3) Reporting and writing the human interest article for newspapers and magazines.
Effective: Spring 2008
Prerequisite: COMM 260W

COMM 463 Newspaper Design (3) This course will cover newspaper design. Students will learn to solve design problems, edit photos, and work with industry software.
Effective: Spring 2009
Prerequisite: COMM 160, COMM 260, COMM 467 or permission of program

COMM 464W Editorial, Opinion and Commentary Writing (3) Introduces techniques of editorial, opinion and commentary writing.
Effective: Spring 2008
Prerequisite: COMM 260W

COMM 465 Television Reporting (3) Television news reporting and production.
Effective: Spring 2008
Prerequisite: COMM 360

COMM 466 Public Affairs Broadcasting (3) Producing radio and television magazine programs featuring individually-produced mini-documentaries and public affairs interviews.
Effective: Summer 1990
Prerequisite: COMM 383 or COMM 465

COMM 467 News Editing and Evaluation (3) Concepts and procedures involved in processing news for various news media, but with emphasis on print media editing.
Effective: Spring 2001
Prerequisite: COMM 260W

COMM 468 Graphic Applications in Print Communications (3) Issues, concepts, and practice identified with contemporary design strategies for print journalism, advertising, and public relations.
Effective: Summer 1988
Prerequisite: COMM 260W or COMM 320

COMM 469 Photography for the Mass Media (3) Development of an informed and critical approach to photocommunication; individual and team projects, seminars, and critiques.
Effective: Fall 1986
Prerequisite: COMM 269

COMM 470A Convergent Media News Service: Newspaper Production (3) Practicum emphasizing newsgathering and reporting for newspaper and for additional media formats.
Effective: Summer 2002
Prerequisite: COMM 260W

COMM 470B Convergent Media News Service: TV (3) Practicum emphasizing television news package production for periodic campus news program and for additional media formats.
Effective: Summer 2002
Prerequisite: COMM 260W

COMM 470C Convergent Media News Service: Radio and Online Publications (3) Practicum emphasizing streaming radio news package production or production of news pieces for online publications and for additional media formats.
Effective: Fall 2008
Prerequisite: COMM 242 or COMM 374 and COMM 260W

COMM 471 Public Relations Media and Methods (3) Analyzing media and audiences for public relations purposes; planning, designing, and writing public relations communications; press relations and publicity methods.
Effective: Spring 2004
Prerequisite: COMM 260W and COMM 370

COMM 472 Public Relations Event Planning (3) Effective planning, organization, implementation and evaluation of...
events planning.
Prerequisite: COMM 370

COMM 473 Public Relations Campaigns (3) Case studies and problems in publicity and public relations in industry, government, and institutions.
Effective: Spring 2008 Ending: Fall 2011
Prerequisite: COMM 370, COMM 420 or COMM 304 and COMM 471

COMM 473 Public Relations Campaigns (3) Case studies and problems in publicity and public relations in industry, government, and institutions.
Prerequisite: COMM 370, COMM 420 or COMM 304 and COMM 471

COMM 474 Depth Reporting (3) Exploration of strategies for developing indepth newspaper or magazine articles, with an emphasis on gathering information and long-form writing.
Effective: Spring 2004
Prerequisite: COMM 260W

COMM 475 Issues for Newsroom Managers (3) Newspaper and television management, the state of the industry and topics that prospective employees should know about.
Effective: Spring 2004
Prerequisite: COMM 260W

COMM 476 Sports Writing (3) Techniques in sports reporting and writing for newspapers and magazines.
Effective: Summer 2005
Prerequisite: COMM 260, COMM 460

COMM 477 Sports Broadcasting (3) Techniques of sports broadcasting for radio and television.
Effective: Summer 2005
Prerequisite: COMM 260, COMM 360

COMM 478 Sports Information (3) Techniques of effective media relations used in a sports information office.
Effective: Summer 2005
Prerequisite: COMM 260

COMM 479 Telecommunication Networks (3) Economic, regulatory/business issues in the design/operation of large-scale telecommunication networks such as telephone, cable, wireless, and computer networks.
Effective: Spring 2011 Ending: Summer 2011
Prerequisite: COMM 180 and ECON 102 or ECON 014

COMM 479 Telecommunication Economics (3) Economic, regulatory/business issues in the design/operation of large-scale telecommunication networks such as telephone, cable, wireless, and computer networks.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: COMM 180 and ECON 102 or ECON 014

COMM 480 Television News (3) Produce a weekly television newscast.
Effective: Summer 2007 Ending: Summer 2011
Prerequisite: COMM 360, COMM 485 permission of program

COMM 480 Television News (6) Produce a weekly television newscast.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: COMM 360, COMM 485 permission of program

COMM 481 Advanced Multimedia Production (3) Advanced work in multimedia production using web authoring, video editing, audio editing, image editing and animation software.
Effective: Fall 2010
Prerequisite: COMM 270 or COMM 260W plus one of the following: COMM 269, COMM 360, COMM 460, COMM 462 or permission of program

COMM 482 Advanced Communication Workshop (4) Conceptualization, planning, and execution of a visual product on a selected topic utilizing an intensive group project-oriented laboratory approach.
Effective: Spring 2006
Prerequisite: COMM 371

COMM 483 Wireless Communications Industry (3) A broad examination of the wireless phone industry including its development, current structure and future.
Effective: Spring 2011
Prerequisite: COMM 381 and COMM 387

COMM 484 Emerging Telecommunications Technologies (3) Overview of technology of electronic media and related societal issues.
Effective: Spring 1992
Prerequisite: COMM 180

COMM 484H Emerging Telecommunications Technologies (3) Overview of technology of electronic media and related societal issues.
Effective: Spring 2005
Prerequisite: COMM 180

COMM 485 Analysis of Broadcast-Cable Policy (3) Analysis of current policy issues in Broadcast/Cable. Standards and
COMM 486 Telecommunications Ethics (3) Drawing on normative theory and political philosophy, this course explores problems in ethics and social responsibility in telecommunications.
Effective: Summer 2011
Prerequisite: COMM 180

COMM 487 Telecommunication Administration (3) Operation/administration decision-making for broadcasting, broadband, telecommunications, and information firms including sales, marketing, programming, customer service, technology adoption, finance and capital investment.
Effective: Spring 2002 Ending: Summer 2011
Prerequisite: COMM 387

COMM 487 Advanced Telecommunications Management and Leadership (3) Strategic management, leadership and ethics issues including marketing, financing, entrepreneurship, and innovation.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: COMM 387

COMM 488 Writers' Seminar (3) Workshop designed for advanced students interested in professional writing, involving extensive mutual and self-criticism.
Effective: Spring 2008
Prerequisite: COMM 230W or COMM 260W

COMM 499W Media and Information Industries (3) The structure, conduct and performance of firms and industries in the electronic media and information sectors.
Effective: Spring 2004
Prerequisite: COMM 387 or equivalent

COMM 490 Issues in Electronic Commerce: Policy and Implementation (3) Analysis of policy, strategic issues, and implications raised by the rapid growth of electronic commerce over the Internet.
Effective: Fall 2001
Prerequisite: COMM 180 for telecom major; permission of instructor for non-telecom majors

COMM 490A Convergent Media Seminar (3) This seminar examines media convergence issues, trends, and effects on society through discussions, presentations, and creation of a capstone project.
Effective: Summer 2002
Prerequisite: seventh- or eighth-semester standing and 3 credits of COMM 470A, COMM 470B or COMM 470C

COMM 491 International Telecommunications and Trade Policy (3) Development in the law, policy, and business of international telecommunications; emphasis on multilateral forums--International Telecommunications Union and World Trade Organization.
Effective: Fall 2001
Prerequisite: COMM 180

COMM 492 Internet Law and Policy (3) Development in the law, policy, and business of Internet-mediated communications and commerce; emphasis on impact on existing legal, regulatory, and economic models.
Effective: Fall 2001
Prerequisite: COMM 180

COMM 493 Entrepreneurship in the Information Age: Senior Seminar (3) Provides students with knowledge/tools to take their innovation/technology idea through the business planning, capital, and operations budgeting processes.
Effective: Fall 2001
Prerequisite: COMM 387

COMM 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

COMM 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

COMM 495 Internship (1-3 per semester/maximum of 6) Supervised practicum with newspapers, broadcasting stations, public relations, and advertising agencies.
Effective: Spring 2008
Prerequisite: continuing student majors in the College of Communications; departmental approval

COMM 495A Internship (1-6 per semester/maximum of 6) Supervised practicum with newspapers, broadcasting stations, public relations, and advertising agencies.
Effective: Spring 2008
Prerequisite: continuing student majors in the College of Communications; departmental approval

COMM 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1986

The Pennsylvania State University
COMM 496A Analysis of American Cinema (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 496H Honors Independent Studies (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

COMM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1986

COMM 497A Social Media for Public Relations (3) This course will explore social media technologies and how to effectively use social media to communicate strategic public relations messages.
Effective: Summer 2011 Ending: Summer 2011

COMM 497A Public Relations Social Media (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497B (INART 497B) 3D Computer-Generated Imagery (3) Introduces core concepts in 3D CGI including modeling, animation, cameras, lighting and texturing with a focus on industry needs.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497B Bateman Public Relations Competition (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

COMM 497C Globalization and the Media (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497C Special Topics: AAF National Students Advertising Competition (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

COMM 497D Media and Government (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497F Perspectives on American Journalism (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497G Joe Paterno: Communications and the Media (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 497K Wireless Communication (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

COMM 498A Communications for Investor Relations (3) This course focuses on understanding the communications environment involved in creating a dialogue between publicly held companies and their investors and financial community.
Effective: Summer 2011 Ending: Summer 2011
COMM 498A In the Game (3) Produce half-hour sports magazine style show to air on College HD channel and Web. Students will produce, report, anchor and direct the show. Registration by application.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 498A In The Game (3) Produce half-hour sports magazine style show to air on College HD channel and Web. Student will produce, report, anchor and direct the show. Registration by application.

COMM 498B Webcast Production (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 498C Public Relations Crisis Communications (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

COMM 498E Big 10 Network (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

COMM 498E Big 10 Network (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

COMM 499 (IL) Foreign Study--Mass Communications (1-12) Study of mass communication systems and practices in selected foreign countries.
Effective: Summer 2005
Prerequisite: departmental approval

Last import from UCM: June 16, 2011 3:00 AM
Communications-CI (COMMS)

COMMS 438 Magazine Editing (3) Study and practice of the editing and design of magazines and newsletters. Effective: Spring 2008

Last Import from UCM: June 16, 2011 3:00 AM
Community and Economic Development (CEDEV)

CEDEV 430 (AG EC 430) **Principles of Community Economic Development** (3) Concepts, strategies, and techniques of local economic analysis, planning, and development; case studies and decision-making exercises.
Effective: Spring 2004
Prerequisite: introductory course in economics

CEDEV 452 (R SOC 452) **Rural Organization** (3) Social organization and change in rural communities; use of sociological principles in analysis of rural problems and rural development.
Effective: Fall 2000 Ending: Fall 2011
Prerequisite: 6 credits in rural sociology sociology or psychology

CEDEV 452 **Rural Organization** (3) Social organization and change in rural communities; use of sociological principles in analysis of rural problems and rural development.
Prerequisite: 6 credits in rural sociology sociology or psychology

Last Import from UCM: June 16, 2011 3:00 AM
Community, Environment and Development (CED)

CED 152 Community Development Concepts and Practice (3) Concepts and practice of community development.
Effective: Spring 2011
Prerequisite: R SOC 011 orSOC 001;ECON 104

CED 201 Introductory Environmental and Resource Economics (3) Apply principles of economics to analyze environmental protection policies and natural resource use decision. Examine contemporary policy issues.
Effective: Spring 2011
Prerequisite: AG BM 101 orECON 102

CED 230 Development Issues in the Global Context (3) Exploration of issues related to economic development in national and international contexts, where key interrelationships between and among developed and developing regions are made explicit.
Effective: Spring 2011
Prerequisite: ECON 102, ECON 104, R SOC 011 orSOC 001

CED 309 Land Use Dynamics (3) Theory of land use and land use decision-making.
Effective: Spring 2011
Prerequisite: ECON 102 or equivalent;GEOG 160

CED 375H Community, Local Knowledge, and Democracy (3) Understanding community decision-making, citizen-expert interactions and methods for resolving seemingly intractable conflicts associated with public issues.
Effective: Summer 2011
Prerequisite: Prerequisite or concurrent: CED 152

CED 404 Survey Research Methods (3) Students will learn empirical research methodology in the areas of environmental and natural resource economics.
Effective: Fall 2010
Prerequisite: CED 201 orECON 302, ECON 428

CED 409 Land Use Planning and Procedure (3) General land use planning laws and procedures.
Effective: Spring 2007
Prerequisite: 6 credits of B LAW CED ECON E R M E RRE PL SC R EST SOC S T S (any combination)

CED 410 The Global Seminar (3) Exploration of critical global issues relevant to sustainable development and the environment. Collaborative with other universities worldwide.
Effective: Spring 2011
Prerequisite: ECON 102 orECON 104;R SOC 011 orSOC 001

CED 417 (R SOC 417) Power, Conflict, and Community Decision Making (3) Impact of institutions on human interdependence and behavior, the structure of power, and community decision making and public policy.
Effective: Spring 2010
Prerequisite: R SOC 011 orSOC 001

CED 420 (US;IL) (R SOC 420, WMNST 420) Women in Developing Countries (3) Analysis of women’s work, experiences, and development policies and practices in Africa, Asia, and Latin America.
Effective: Fall 2009
Prerequisite: 5th semester standing or above

CED 425 International Community and Economic Development (3) International community and economic development.
Effective: Spring 2007
Prerequisite: CED 152

CED 427W (S T S 427W, SOC 427W) Society and Natural Resource (3) Analysis of the relationships between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite: R SOC 011 orSOC 001

CED 429 Natural Resource Economics (3) Optimal management of resources; roles of markets and other institutions; resources and economic development; public policy.
Effective: Fall 2010
Prerequisite: ECON 302

CED 431W Economic Analysis of Environmental and Resource Policies (3) Economic analysis of environmental and natural resource policies, benefit-cost analysis, non-market valuation techniques; resource damage assessment.
Effective: Fall 2010
Prerequisite: ECON 302

CED 450 (IL) International Development, Renewable Resources, and the Environment (3) Theories of agricultural and economic development, with particular attention to interactions between development, renewable resources, and the environment.
Effective: Fall 2010
Prerequisite: 6 credits in agricultural economics or economics

CED 475 CED Integrated Capstone Experience (3) An experiential-learning course that provides a capstone learning
experience for seniors graduating from the Community, Environment and Development major.
Effective: Spring 2007
Prerequisite: senior status only

CED 495A Internship in Community, Environment, and Development (1-15) Supervised field experience in an environmental setting.
Effective: Fall 2009
Prerequisite: prior approval of program

CED 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2009

CED 497 Special Topics (1-18) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2009

CED 497A Community, Local Knowledge and Democracy (3) Understanding community decision making citizen-expert interactions and methods for resolving seemingly intractable local issues.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ECON 102 and ECON 104

CED 497B Population Dynamics and Analysis (3) Measurement and analysis of population dynamics and social trends such as fertility, mortality, migration, families and households, and economic wellbeing.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CED 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Comparative Literature (CMLIT)

CMLIT 001 (GH;IL) Introduction to Western Literatures Through the Renaissance (3) Introductory comparative survey of European and American literatures of Ancient through Renaissance periods, considering genre, themes, cultural and literary values.
Effective: Spring 2005

CMLIT 002 (GH;IL) Introduction to Western Literatures Since the Renaissance (3) Introductory comparative survey of European and American literatures, post-Renaissance through Modern, considering genre, themes, cultural, and literary values.
Effective: Summer 2005

CMLIT 002U (GH;IL) Introduction to Western Literatures Since the Renaissance (3) Introductory comparative survey of European and American literatures, post-Renaissance through Modern, considering genre, themes, cultural, and literary values.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMLIT 003 (GH;IL) Introduction to African Literatures (3) Comparative analysis of drama, essay, novel, poetry, and stories from traditional oral forms to contemporary expressions of African literary styles.
Effective: Summer 2005

CMLIT 004 (GH;IL) (ASIA 004) Introduction to Asian Literatures (3) Comparative interpretations of narrative, drama, lyric, and other writings from East Asia and other regions, viewed as world literature.
Effective: Fall 2010

CMLIT 005 (GH;US;IL) Introduction to Literatures of the Americas (3) Comparative interpretation of the oral and written literary traditions of North, Central, and South America.
Effective: Summer 2005

CMLIT 006 (GH;IL) (PHIL 006) Philosophy and Literature in Western Culture (3) Explores fundamental issues of human existence through the traditions of western literature and philosophy.
Effective: Spring 2006

CMLIT 010 (GH;IL) World Literatures (3) The development of literature around the world--from epic, legend, lyric, etc. in the oral tradition to modern written forms.
Effective: Fall 2010

CMLIT 011 (GH;IL) The Hero in World Literature (3) The figure of the hero/heroine examined in world literature as a vehicle for expressing social and cultural values.
Effective: Summer 2005

CMLIT 012 (GH;IL) Introduction to World Drama and Performance (3) The power, ethics, and excitement of drama and related forms of performance literature, presented in a global and comparative context.
Effective: Summer 2010

CMLIT 013 (GH;IL) Virtual Worlds: Antiquity to the Present (3) Virtual worlds from ancient to postmodern, in a comparative and global context that includes literature, film, and online multiplayer games.
Effective: Summer 2010

CMLIT 083S (GH;IL) First-Year Seminar in Comparative Literature (3) International topics in literature and culture; each seminar will have a specific topic as announced (see the Comparative Literature Web site).
Effective: Summer 2005

CMLIT 083T (GH;IL) First-Year Seminar in Comparative Literature (3) International topics in literature and culture; each seminar will have a specific topic as announced (see the Comparative Literature Web site).
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMLIT 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1995

CMLIT 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
CMLIT 100 (GH;IL) **Reading Across Cultures** (3) Comparative approaches (studying international literary periods, themes, genres, etc.) and principles of literary interpretation introduced through readings representing various cultures.
Effective: Fall 2010

CMLIT 100U (GH;IL) **Reading Across Cultures** (3) Comparative approaches (studying international literary periods, themes, genres, etc.) and principles of literary interpretation introduced through readings representing various cultures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMLIT 101 (GH;US;IL) **Race, Gender, and Identity in World Literature** (3) Identity and race, gender and heritage, centrality and marginality, self and other, as expressed in literary works from around the world.
Effective: Fall 2010

CMLIT 105 (GH;IL) **The Development of Literary Humor** (3) Literary humor expressed as satire, comedy, and farce--from ancient times to the present--in an international and multicultural context.
Effective: Summer 2005

CMLIT 106 (GH;IL) **The Arthurian Legend** (3) The growth and development of the legend of King Arthur, from medieval Europe to modern Japan.
Effective: Summer 2005

CMLIT 107 (GH;IL) **Exploration, Travel, Migration, and Exile** (3) An international selection of journey narratives, from the real to the imaginary; travel narratives as critiques of self and society.
Effective: Spring 2011

CMLIT 108 (GH;IL) **Myths and Mythologies** (3) World mythology: myths primarily of non-Western cultures, based on selected areas and traditions around the world.
Effective: Summer 2005

CMLIT 108U (GH;IL) **Myths and Mythologies** (3) World mythology: myths primarily of non-Western cultures, based on selected areas and traditions around the world.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMLIT 109 (GH;US;IL) **Native American Myths, Legends, and Literatures** (3) Myths, legends, and literatures of Native American cultures.
Effective: Spring 2006

CMLIT 110 (GH;US;IL) (J ST 131) **Jewish Literature: An International Perspective** (3) Literature of the Jewish tradition in various cultures and contexts, such as Europe, Israel, Islamic countries, and the Americas.
Effective: Spring 2011

CMLIT 111 (GH;IL) **Introduction to Literatures of India** (3) Narrative, lyric, religious, oral, and dramatic literature, as well as film from India studied in translation from a global perspective.
Effective: Summer 2005

CMLIT 120 (GH;IL) **The Literature of the Occult** (3) Important literary works dealing with witchcraft, demonology, vampirism, ghosts, and related concepts, from biblical times to present.
Effective: Spring 2006

CMLIT 122 (GH;US;IL) **Global Science Fictions** (3) A study of the relationships between science, literature, and film, from an international and interdisciplinary perspective.
Effective: Summer 2010

CMLIT 130 (GH;IL) **Banned Books: International and Comparative Perspectives** (3) The world of banned books, their history, and their politics, studied comparatively and internationally.
Effective: Summer 2010
CMLIT 131 (GH;IL) Crime and Detection in World Literature (3) Issues of ethics, truth, justice, and social order as embodied in crime and detective literature, presented in comparative contexts.
Effective: Summer 2010

CMLIT 132 (GH;IL) Nobel Prize Literature (3) Introduction to Nobel Prize winning literature and the culture of the prize in international and historical context.
Effective: Summer 2010

CMLIT 140 (GH;IL) Literature and the Other Arts: International and Comparative Perspectives (3) A comparative, international examination of the relationship between literature and non-literary art forms.
Effective: Summer 2010

CMLIT 141 (GH;US;IL) Religion and Literature (3) Major religious themes as expressed in literary masterpieces; sacred texts from various cultures read as literature.
Effective: Summer 2005

CMLIT 142 (GH;IL) The Psychology of World Literature (3) A comparative, psychological approach to world literature from the perspectives of writer, narrative, character, and reader.
Effective: Summer 2010

CMLIT 143 (GH;US;IL) Human Rights and World Literature (3) Human rights violations discussed in tandem with their literary representation, presented in a global and comparative context.
Effective: Summer 2010

CMLIT 144 (GH;IL) International Cultures: Film and Literature (3) Comparison of narrative techniques employed by literature and film in portraying different cultures, topics may vary each semester.
Effective: Spring 2011

CMLIT 184 (GH;IL) (ENGL 184) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the Nineteenth and Twentieth Century.
Effective: Spring 2006

CMLIT 185 (GH;IL) (ENGL 185) World Novel (3) Development of the modern novel in the last century (outside the British Isles and the United States); lectures, discussions, readings in translation.
Effective: Spring 2011

CMLIT 189 (GH;IL) (ENGL 189) Modern Drama (3) Playwrights who set the world's stage for twentieth-century drama; issues that continue to shape the contemporary theatrical world.
Effective: Spring 2011

CMLIT 190 (GH;IL) Literary and Cultural Theory: An Introduction (3) A comparative introduction to literary and cultural theory, and its impact on the study of literature.
Effective: Summer 2010

CMLIT 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1995

CMLIT 199 (IL) Foreign Study--Comparative Literature (3-6) Course offered on comparative literary topics as part of a foreign-study program.
Effective: Summer 2005

CMLIT 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1995

CMLIT 295 Internship (1-18) Supervised off-campus, non-group instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1997

CMLIT 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1995

The Pennsylvania State University
CMLIT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1995

CMLIT 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1995

CMLIT 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CMLIT 300H Honors Thesis (3) Individual projects involving research, reading, and writing; preparation of an honors thesis in comparative literature or world literature.
Effective: Summer 1995
Prerequisite: Participation in the University Scholars program

CMLIT 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

CMLIT 399 (IL) Foreign Study--Comparative Literature (3-6) Special course offered on comparative literary topics as part of a foreign-study program.
Effective: Summer 2005
Prerequisite: third-semester standing

CMLIT 400Y (US;IL) Senior Seminar in Literary Criticism and Theory (3) Discussions of theories of literature, of literary criticism, and particularly of the distinct methods of comparative study; individual projects.
Effective: Spring 2006
Prerequisite: seventh-semester standing; 18 credits in literature

CMLIT 401Y (IL) The Western Literary Heritage I (3) Major literary movements and authors in the literature of the Western world from the beginnings through the early Renaissance.
Effective: Spring 2006
Prerequisite: 3 credits in literature or history

CMLIT 402Y (US;IL) The Western Literary Heritage II (3) Major literary movements and authors in the literature of the Western world from the late Renaissance to the present time.
Effective: Spring 2006
Prerequisite: 3 credits in literature or history

CMLIT 403 (US) (LTNST 403) Latino/a Literature and Culture (3) Literary and other forms of cultural expression (film, music, art, and theater) are compared across different Latina/o communities.
Effective: Spring 2011
Prerequisite: 3 credits in the humanities or in any LTNST course or 4th-semester proficiency in Spanish

CMLIT 404 (IL) (ASIA 404) Topics in Asian Literature (3) Selected works from the major poetry, fiction, and drama of such countries as India, China, Japan.
Effective: Spring 2011
Prerequisite: 3 credits in literature or related field appropriate to this course

CMLIT 405 (US;IL) Inter-American Literature (3) This course examines the development of literature in Canada, the United States, Spanish America, the Caribbean area, and Brazil.
Effective: Spring 2006
Prerequisite: 3 credits in literature

CMLIT 406 (IL) Women and World Literature (3) Literature written by women, especially women from non-Western cultures; the spectrum of genres in which women writers have excelled.
Effective: Spring 2006
Prerequisite: 3 credits in literature or in women's studies

CMLIT 408 (IL) Heroic Literature (3) Traditional heroes, their traits and adventures; typical themes and examples chosen from the epics and sagas of world literature.
Effective: Spring 2006
Prerequisite: 3 credits in literature or folklore

CMLIT 410 (IL) Literary Translation: Theory and Practice (3) Emphasizing literary translation, a study of the theoretical and practical problems encountered in the processes of translation, transmission, and interpretation.
Effective: Spring 2011
Prerequisite: 18 credits in a foreign language

CMLIT 415 (GH;US;IL) World Graphic Novels (3) Critical analyses of form, genre, medium, and discourse of the graphic novel and its historical precedents in an international and comparative context.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 422 (IL) African Drama (3) Traditional and popular drama forms; modern anglophone and francophone drama; nationalism and social criticism in contemporary African drama.
CMLIT 423 (IL) **African Novel** (3) From traditional oral narratives to modern autobiographical, historical, satirical, sociological, and allegorical forms; novelist as social critic.
Effective: Spring 2006

CMLIT 429 (ENGL 429) **New Media and Literature** (3) New media literary genres; critical discussion of creative works in digital media.
Effective: Summer 2010

CMLIT 430 (IL) **Global Modernisms** (3) A comparative investigation of global Modernisms, with an emphasis on the relations between modernism, modernity, and modernization.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 435 (IL) **Cultures of Globalization** (3) Cultural and literary effects of the process of globalization, with an emphasis on world literatures and transnationalism.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 438 (IL) **Fantastic Worlds: International and Comparative Perspectives** (3) A comparative, international study of fantastic worlds in literature and visual culture.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 439 (US;IL) **Transatlantic Literature** (3 per semester/maximum of 6) Comparative literary and cultural relations across the Atlantic Ocean; may include Europe, Africa, the Americas, and/or the Caribbean.
Effective: Spring 2011
Prerequisite: 3 credits in literature

CMLIT 446 (IL) **Postcolonial Literature and Culture** (3) Postcolonial literature and theory in a comparative and international context.
Effective: Summer 2010
Prerequisite: 3 credits in the study of literature

CMLIT 448 (IL) **Literary Cultures of Buddhism** (3) Comparative exploration of various Buddhist literary cultures, from the classical Indian subcontinent to modern movements like the Beats and dalit writing.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 449 (IL) **Literary Cultures of Islam** (3) Comparative discussion of the literary cultures of Islam from the seventh century to the present.
Effective: Summer 2010
Prerequisite: 3 credits in the study of literature

CMLIT 453 (IL) (COMM 453) **Narrative Theory: Film and Literature** (3) Comparative study of the aesthetics and techniques of film and literature; close analyses of masters of each art form.
Effective: Fall 2006
Prerequisite: COMM 150 or 3 credits in literature

CMLIT 455 (IL) **Ethics, Justice, and Rights in World Literature** (3) Concepts of ethics, justice, and rights, appearing in world literature and/or film.
Effective: Summer 2010
Prerequisite: 3 credits in the study of literature

CMLIT 459 **Topics in Theory** (3) Selected topics in this history of theory and literary criticism within a global, comparative context.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 470 (IL) **The Modern Novel** (3) Major novels of Joyce, Proust, Kafka, Thomas Mann, Nabokov, and others; their contributions to the art of the novel.
Effective: Spring 2011
Prerequisite: 3 credits in literature

CMLIT 471 (IL) **Poetry and Poetics** (3) Theoretical and practical concepts in the comparative, global history of poetry and/or poetics.
Effective: Summer 2010
Prerequisite: 3 credits in literature

CMLIT 480 (IL) **The International Folktale** (3) Traditional tales from various parts of the world: their origin, characteristics, forms; their transmission as oral narrative and written literature.
Effective: Spring 2006
Prerequisite: 3 credits in literature or folklore

CMLIT 486 (IL) **Tragedy** (3) Development of tragic drama and its relationship to social background and philosophical theory.
Effective: Spring 2006
CMLIT 487 (IL) Comedy (3) Development of comic drama and its relationship to social background and philosophical theory. Effective: Spring 2006

CMLIT 488 (IL) Modern Continental Drama (3) From Ibsen to the drama of today: Strindberg, Chekhov, Hauptmann, Pirandello, Ionesco, Beckett, Genet, and others. Effective: Spring 2006 Prerequisite: ENGL 015 or ENGL 030

CMLIT 490 Video Game Studies (3) A comparative look at the nature and history of video games as cultural artifacts, from Pond to online role-playing. Effective: Summer 2010 Prerequisite: 3 credits in literature

CMLIT 491 (IL) Literary Adaptation: International and Comparative Perspectives (3) A comparative, international study of adaptations between literature and other media (film, theater, photography, music). Effective: Summer 2010 Prerequisite: 3 credits in literature or other fields relevant to this course

CMLIT 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1995

CMLIT 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

CMLIT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1995

CMLIT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1995

CMLIT 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1995

CMLIT 499 (IL) Foreign Study--Comparative Literature (3-6) Advanced courses offered on comparative literary topics as part of a foreign-study program. Effective: Summer 2005 Prerequisite: 18 credits or equivalent in the appropriate foreign language; 6 credits in literature or related field appropriate to this course

Last Import from UCM: June 16, 2011 3:00 AM
Comparative and International Education (CI ED)

CI ED 401 (IL) (EDTHP 401) Introduction to Comparative Education (3) Origins, nature, scope, basic literature, and methodology of comparative education. Study of sample topics.
Effective: Fall 2007
Prerequisite: 5th semester standing or higher

CI ED 440 (EDTHP 440) Introduction to Philosophy of Education (3) Introduction to the examination of educational theory and practice from philosophical perspectives, classical and contemporary.
Effective: Fall 2007
Prerequisite: EDTHP 115

CI ED 444 (WL ED 444) Language, Culture and the Classroom: Issues for Practitioners (3) Critical understanding of cultural linguistic diversity to facilitate the inclusion of English Language Learners in a globalized classroom.
Effective: Fall 2007
Prerequisite: WL ED 300 orWL ED 400

CI ED 457 (AGECO 457) Principles of Integrated Pest Management (3) Integrated study of pest complexes and their management, emphasizing ecological principles drawing on examples from a range of agricultural, forestry and urban systems. This course is designed for sixth, seventh, and eighth semester and graduate students.
Effective: Spring 2010
Prerequisite: Must take two or more of the following:ENT 313 and/orPPATH 405 and/orPPATH 318 and/orHORT 238

CI ED 470 (ADTED 470) Introduction to Distance Education (3) An introduction to the history, theory, organization, technologies, and instructional procedures used in American and foreign distance education.
Effective: Summer 1995

CI ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1998

CI ED 497A Introduction to Educational Leadership (3) Critical study of the nature and purposes of educational authority, power, and leadership in the U.S. and globally.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Computer Engineering (CMPEH)

CMPEH 449 VLSI Digital Circuits (3) Modern approaches to using VLSI technology; logic circuits, cell layout and design on CAD systems.
Effective: Spring 2008

CMPEH 472 Microprocessors (4) Principles of microprocessors, hardware architecture, assembly language, programming, interfacing, and applications of microprocessors will be studied.
Effective: Spring 2008
Prerequisite: CMPEN 271, CMPEN 275, E E 310

Last Import from UCM: June 16, 2011 3:00 AM
Computer Engineering (CMPEN)

CMPEN 111S Computers and Computer Hardware (1) A brief orientation to University life and resources and an introduction to computers and computer hardware. Effective: Spring 2009

CMPEN 270 Digital Design: Theory and Practice (4) Introduction to digital systems and their design. Topics include combinational and sequential devices and circuits, modern design tools and design practices. Students may take only one course for credit for CMPEN 270 or 271 and CMPEN 270 or 275. Effective: Summer 2008
Prerequisite: PHYS 212

CMPEN 271 Introduction to Digital Systems (3) Introduction to logic design and digital systems. Boolean algebra, and introduction to combinatorial and sequential circuit design and analysis. Students may take only one course for credit for CMPEN 270 or 271. Effective: Spring 2008
Concurrent: PHYS 212

CMPEN 275 Digital Design Laboratory (1) Introduction to digital design techniques. Students may take only one course for credit for CMPEN 270 or 275. Effective: Spring 2008
Concurrent: CMPEN 271; PHYS 212

CMPEN 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

CMPEN 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2008

CMPEN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2008

CMPEN 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2010

CMPEN 331 Computer Organization and Design (3) Introduction to major components of a computer system, how they function together in executing a program, how they are designed. Effective: Spring 2011
Prerequisite: CMPEN 271 or CMPEN 270; CMPSC 121 or CMPSC 201

CMPEN 351 Microprocessors (3) Microprocessor architecture; memory system design; assembly language programming; interrupts; the stacks and subroutines; memory and I/O inter-facing; serial I/O and data communications; microprocessors applications. Effective: Spring 2008
Prerequisite: CMPEN 271; CMPEN 275

CMPEN 352W Embedded Systems Design (3) Design/development of embedded systems for data acquisition, process control, and special-purpose computing systems; peripheral interfacing, serial/parallel communications and bus systems. Effective: Spring 2008 Ending: Fall 2011
Prerequisite: CMPEN 351

Prerequisite: CMPEN 351 or CMPEN 472; E E 210

CMPEN 362 (E E 362) Communication Networks (3) Data transmission, encoding, link control techniques; communication network architecture, design; computer communication system architecture, protocols. Effective: Spring 2011
Prerequisite: CMPEN 270 or CMPEN 271 Concurrent: STAT 301 or STAT 318 or STAT 401 or STAT 414 or STAT 418

CMPEN 371 Advanced Digital Design (3) Theory, design, and implementation of digital circuits based on combinational and sequential circuits; implementation of designs using hardware description language. Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CMPEN 271; CMPEN 275; CMPSC 121 or CMPSC 201

CMPEN 371 Advanced Digital Design (3) Theory, design, and implementation of digital circuits based on combinational and sequential circuits; implementation of designs using hardware description language. Effective: Fall 2011 Future: Fall 2011

The Pennsylvania State University
Prerequisite: CMPEN 271; CMPEN 275; CMPSC 121 or CMPSC 201; E E 210 or E E 211

CMPEN 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

CMPEN 396 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2010

CMPEN 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2010

CMPEN 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2010

CMPEN 411 **VLSI Digital Circuits** (3) Basic building blocks of CMOS design, design rules, chip planning, layout design, system power and timing, simulation of VLSI structures.
Effective: Spring 2008
Prerequisite: CMPEN 371 or CMPEN 471; E E 310

CMPEN 416 (E E 416) **Digital Integrated Circuits** (3) Analyses and design of digital integrated circuit building blocks, including logic gates, flip-flops, memory elements, analog switches, multiplexers, and converters.
Effective: Spring 2008
Prerequisite: E E 310

CMPEN 417 (E E 417) **Digital Design Using Field Programmable Devices** (3) Field programmable device architectures and technologies; rapid prototyping using top down design techniques; quick response systems.
Effective: Spring 2008
Prerequisite: CMPEN 331

CMPEN 431 **Introduction to Computer Architecture** (3) Introduction to computer architecture. Memory hierarchy and design, CPU design, pipelining, multiprocessor architecture.
Effective: Spring 2008
Prerequisite: CMPEN 331 or CMPEN 371

CMPEN 431H **Honors Introduction to Computer Architecture** (3) Honors course in principles of computer architecture: memory hierarchies and design, I/O organization and design, CPU design and advanced processors.
Effective: Spring 2008
Prerequisite: CMPEN 331

CMPEN 441 **Operating Systems** (3) Resource management in computer systems. Process scheduling, memory management, file system design, I/O management, Unix operating system.
Effective: Spring 2008
Prerequisite: CMPSC 360

CMPEN 454 (E E 454) **Fundamentals of Computer Vision** (3) Introduction to topics such as image formation, segmentation, feature extraction, matching, shape recovery, object recognition, and dynamic scene analysis.
Effective: Spring 2008
Prerequisite: MATH 230 or MATH 231; CMPSC 121 or CMPSC 201

CMPEN 455 (E E 455) **Digital Image Processing** (3) Overview of digital image processing techniques and their applications, image sampling, enhancement, restoration, and analysis; computer projects.
Effective: Spring 2008
Prerequisite: E E 353 or E E 350; CMPSC 121 or CMPSC 201

CMPEN 461 **Communication Networks** (3) Data transmission, encoding, link control techniques, network architecture, design, protocols, and multiple access.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CMPEN 271; E E 380

CMPEN 461 **Communication Networks** (3) Data transmission, encoding, link control techniques, network architecture, design, protocols, and multiple access.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CMPEN 271; CMPSC 121 or CMPSC 201

CMPEN 471 **Logical Design of Digital Systems** (3) Basic switching theory and design of digital circuits, including combinational, synchronous sequential, and asynchronous sequential circuits.
Effective: Spring 2008
Prerequisite: CMPEN 331

CMPEN 472 **Microprocessors and Embedded Systems** (3) Microprocessors: architecture, design, assembly language, programming, interfacing, bus structure, and interface circuits and their use in embedded systems.
Effective: Spring 2008
Prerequisite: CMPEN 331
CMPEN 472H Honors Microprocessors and Embedded Systems (3) Honors course in microprocessors: architecture, design, assembly language, programming, interfacing, bus structure, and interface circuits and their use in embedded systems. Effective: Spring 2008 Prerequisite: CMPEN 331

CMPEN 473 Microcomputer Laboratory (3) Design of digital systems using microprocessors. Effective: Spring 2008 Prerequisite: CMPEN 472

CMPEN 475 Functional Verification (3) Introduce concepts, methods, and technology for effective functional verification of modern electronic systems. Effective: Summer 2008 Prerequisite: CMPEN 331

CMPEN 480 Computer Engineering Design (3) Engineering design and modeling, engineering economy, project planning, capstone project selections, and technical communication skills. Effective: Spring 2008 Prerequisite: CMPEN 352W; CMPEN 431

CMPEN 481 Computer Engineering Project (3) Group or individual design projects in the area of computer engineering. Effective: Spring 2008 Prerequisite: CMPEN 480

CMPEN 482W Computer Engineering Project Design (3) Computer engineering design project, project management, documentation, reporting, and group and individual communication skills. Effective: Spring 2008 Prerequisite: E E 310; E E 353; CMPSC 473; ENGL 202C

CMPEN 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

CMPEN 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

CMPEN 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2008 Prerequisite: prior approval of proposed assignment by instructor

CMPEN 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2008

CMPEN 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2008

CMPEN 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2010

Last Import from UCM: June 16, 2011 3:00 AM
Computer Engineering Technology (CMPET)

CMPET 005 **Engineering Methods in Engineering Technology** (1) Introduction to experimental and computer methods in engineering technology; applications of experimental concepts through student involvement in computer exercises.
Effective: Fall 2007
Prerequisite: EET 101, MATH 081

CMPET 117 **Digital Electronics** (3) Fundamentals of digital circuits, including logic circuits, boolean algebra, Karnaugh maps, counters, and registers.
Effective: Fall 2008
Prerequisite: EET 105

CMPET 120 **Digital Electronics Laboratory** (1) Laboratory study of digital electronics circuits.
Effective: Fall 2008
Prerequisite: EET 105 Concurrent: CMPET 117

CMPET 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

CMPET 211 **Embedded Processors and DSP** (3) Introduction to micro-controllers and embedded controllers with applications, including concepts of digital signal processing.
Effective: Fall 2008
Prerequisite: CMPET 117, CMPET 120

CMPET 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1993

CMPET 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Effective: Fall 2007
Prerequisite: CMPET 211 Concurrent: MATH 141 or MATH 210

CMPET 333 **Computer Networking** (3) Introduction to Local Area Networks (LANs) and Wide Area Networks (WANs), including transmission mediums, protocols, topologies, software, and hardware.
Effective: Fall 2007
Prerequisite: EET 216, CMPET 301

Effective: Fall 2007
Prerequisite: EET 221, CMPET 301, EET 341

CMPET 401 **Data Communication and Networking** (3) Signal representations, communication techniques, interfacing, serial and parallel communication, modems, error detection, LAN and WAN protocols.
Effective: Spring 2008
Prerequisite: CSE 271 or EET T 117

CMPET 402 **Data Communication and Networking Laboratory** (1) Network operating systems, LAN and WAN protocols, serial and parallel communications, modems, FAX, and other interfacing methods.
Effective: Spring 2001
Prerequisite: or concurrent: CMPET 401

CMPET 403 **Switching Circuit Design** (4) Analysis and design of advanced combinational and sequential circuits using IC logic devices and PLD’s while promoting the use of software development tools.
Effective: Spring 2008
Prerequisite: CMPEN 271 or EET 117; CMPEN 275 or EET 120

CMPET 412 **Microcomputers** (4) Design, architecture, programming, and interfacing of microprocessors, enhanced by lab experiments.
Effective: Spring 2008
Prerequisite: CMPEN 271 or EET 117; CMPEN 275 or EET 120

CMPET 456 **Advanced Microprocessors, High Level Interfacing** (3) Operating systems; systems programming; high-level application programming; high-level hardware and software protocols; serial and parallel digital communications.
Effective: Spring 2007
Prerequisite: CMPET 355

CMPET 457 **Software Engineering** (3) Application of modern techniques in software development, including program
design based on new methods and tools.
Effective: Spring 2007
Prerequisite: CMPET 355
Computer Information Systems (CINSY)

CINSY 446 Database Management (3) Designed to provide students with explanation, comparison of techniques, methodology of systems, limitations, application of various database management systems.
Effective: Summer 2011
Prerequisite: 3 credits in programming

CINSY 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1999

Last Import from UCM: June 16, 2011 3:00 AM
Computer Science (CMPSC)

CMPSC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

CMPSC 097A Creating Web Pages with HTML and JavaScript (3) Creating web pages with HTML and JavaScript includes HTML, JavaScript, FT Telnet, basic Linux commands, editor and other Linux features. Experience may wave course with department approval.
Effective: Summer 2011 Ending: Summer 2011

CMPSC 097A Creating Web Pages with HTML and JavaScript (3) Creating web pages with HTML and JavaScript includes HTML, JavaScript, FT Telnet, basic Linux commands, editor and other Linux features. Experience may wave course with department approval.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMPSC 097A Creating Web Pages with HTML and JavaScript (3) Creating web pages with HTML and JavaScript includes HTML, JavaScript, FT Telnet, basic Linux commands, editor and other Linux features. Experience may wave course with department approval.

CMPSC 100 Computer Fundamentals and Applications (3) Introduction to computer fundamentals and applications to data processing environments.
Effective: Spring 1995
Prerequisite: 2 entrance units in mathematics

CMPSC 101 (GQ) Introduction to C++ Programming (3) Properties of algorithms, languages, and notations for describing algorithms, applications of a procedure-oriented language to problem solving. A student may receive credit for only one of the following courses: CMPSC 101, 200, 201, 202, 121.
Effective: Fall 2010
Prerequisite: 2 entrance units in mathematics

CMPSC 102 Introduction to VB Programming (3) Problem solving in MIS environment; high-level language programming; control structures, functions, parameters, recursion, arrays, records/structures; verification; debugging; documentation.
Effective: Summer 2008
Prerequisite: 2 entrance units in mathematics

CMPSC 109 Introduction to Data Processing with COBOL (3) Study of the COBOL programming language and its applications in industry.
Effective: Spring 2008
Prerequisite: 3 credits of programming

CMPSC 111S Logic for Computer Science (1) An introduction to logic and its application to problem solving and computer science.
Effective: Spring 2009

CMPSC 121 (GQ) Introduction to Programming Techniques (3) Design and implementation of algorithms. Structured programming. Problem solving techniques. Introduction to a high-level language, including arrays, procedures, and recursion.
Effective: Fall 2010
Prerequisite: MATH 110 or prerequisite or concurrent MATH 140

CMPSC 122 Intermediate Programming (3) Object-oriented programming, recursion, fundamental data structures (including stacks, queues, linked lists, hash tables, trees, and graphs), the basics of algorithmic analysis, and an introduction to the principles of language translation.
Effective: Spring 2008
Prerequisite: CMPSC 121

CMPSC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

CMPSC 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CMPSC 200 (GQ) Programming for Engineers with MATLAB (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
Effective: Spring 2008
CMPSC 201 (GQ) **Programming for Engineers with C++** (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
Effective: Spring 2008
Prerequisite: MATH 140 Concurrent: MATH 141

CMPSC 202 (GQ) **Programming for Engineers with FORTRAN** (3) Development and implementation of algorithms in a procedure-oriented language, with emphasis on numerical methods for engineering problems. A student may receive credit for only one of the following courses: CMPSC 101, 102, 200, 201, or 202.
Effective: Spring 2008
Prerequisite: MATH 140 Concurrent: MATH 141

CMPSC 203 (GQ) **Introduction to Spreadsheets and Databases** (4) Design, use, and programming of spreadsheets and data bases with applications from a range of disciplines.
Effective: Spring 2008
Prerequisite: 2 entrance units in mathematics

CMPSC 221 **Object Oriented Programming with Web-Based Applications** (3) This course will continue with object-oriented programming and will introduce graphics, virtual machines, programming language concepts and web-based programming using Java.
Effective: Spring 2008
Prerequisite: CMPSC 122

CMPSC 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

CMPSC 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2008

CMPSC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

CMPSC 297E **Introduction to Web Programming** (3) This course introduces the student to PHP programming.
Effective: Summer 2011 Ending: Summer 2011

CMPSC 297E **Introduction to Programming with PHP** (3) This course introduces the student to PHP programming.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMPSC 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

CMPSC 302 **Intermediate VB Programming** (3) OO programming, visual programming, classes, objects, ADTs, inheritance, recursion, regular expressions, user-defined controls, documentation, testing, verification, productivity tools.
Effective: Spring 2008
Prerequisite: CMPSC 102 or CMPSC 121

CMPSC 311 **Introduction to Systems Programming** (3) Unix system programming in C; organization of programs and data; program analysis and support tools; software standards; common system functions.
Effective: Spring 2008
Prerequisite: CMPSC 221

CMPSC 312 **Computer Organization and Architecture** (3) Data representation, digital logic, instruction set/control logic, machine/assembly languages, advanced architectures, memory hierarchy, I/O devices, overall system design.
Effective: Spring 2008
Prerequisite: CMPSC 121 or equivalent

CMPSC 313 **Assembly Language Programming** (3) Program design, addressing modes, subroutines, parameter passing, stacks, bit manipulation, text processing, DOS functions, macros, I/O, high level language interfaces.
Effective: Spring 2008
Prerequisite: CMPSC 312

CMPSC 335 **Fundamentals of Communication Networks** (3) Introduction to the composition of communication networks, including transmission mediums and protocols, transfer methods, topologies and software, and communications hardware.
Effective: Spring 2008
Prerequisite: 3 credits of programming

CMPSC 360 **Discrete Mathematics for Computer Science** (3) Discrete mathematics and foundations for modern computer science. Topics include sets, relations, logic, algorithms, graphs, finite state machines and regular expressions.
Effective: Spring 2008

The Pennsylvania State University
Concurrent: CMPSC 122

CMPSC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

CMPSC 397A Intermediate Programming for the Web (3) Covers forms, databases, email, cookies, oft-used libraries.
Effective: Summer 2011 Ending: Summer 2011

CMPSC 397A Intermediate Programming for the Web (3) Covers forms, databases, email, cookies, oft-used libraries.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMPSC 397B Advanced Programming for the Web (3) Covers forms, databases, email, cookies, oft-used libraries.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: CSE 297A and CSE 297C

CMPSC 397C SQL Databases for the Web (3) This overview of the course teaches you the concepts and terms for working with relational database and SQL. It also teaches you the knowledge of the following: How to use the Management Studio to work with a SQL Server database Master the SQL that you will use every day Learn how to design and create a database Master advanced SQL features.

CMPSC 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

CMPSC 402 UNIX and C (3) UNIX OS including file system, utilities, and shell scripting; C programming, including I/O, pointers, arrays, dynamic memory, macros, and libraries.
Effective: Fall 2010
Prerequisite: CMPSC 121

CMPSC 421 Net-centric Computing (3) This course introduces JavaScript and AJAX for creating Rich Internet Applications, and XML for client-server communication and Web Services.
Effective: Spring 2011
Prerequisite: CMPSC 221 or SWENG 311

CMPSC 425 Advanced Object-Oriented Programming (3) Advanced object-oriented programming paradigm, exception handling, application programming interface, secure programming, network programming, threads and synchronization.
Effective: Spring 2010
Prerequisite: CMPSC 122

CMPSC 426 Object-oriented Design (3) Object-oriented analysis and design; design patterns such as creational, structural, and behavioral patterns; UML; and unified process.
Effective: Fall 2010
Prerequisite: CMPSC 425, CMPSC 462

CMPSC 428 Programming in Ada (3) Structured program design using Ada; strong typing, data abstraction, packages, subprograms, separate compilation, visibility, exceptions, generic units.
Effective: Fall 2010
Prerequisite: CMPSC 121

CMPSC 430 Database Design (3) Relational database model, query languages, integrity, reliability, normal forms for design.
Effective: Fall 2010
Prerequisite: CMPSC 462

CMPSC 431 Database Management Systems (3) Database system concepts: file organizations and retrieval algorithms; the three data models (relational, hierarchical, and network) and their database implementations.
Effective: Spring 2008
Prerequisite: CMPSC 221; ENGL 202C

CMPSC 431W Database Management Systems (3) Database system concepts: file organizations and retrieval algorithms; the three data models (relational, hierarchical, and network) and their database implementations.
Effective: Spring 2008
Prerequisite: CMPSC 221; ENGL 202C

CMPSC 436 Communications and Networking (3) Data transmission, basic signaling, data encoding, error control, communication protocols, security, network topologies, routing, switching, internetworking, emerging high speed networks.
Effective: Spring 2008
Prerequisite: CMPSC 312

CMPSC 437 Network Operations and Management (3) Study of local area network (LAN) and wide area network (WAN) topologies, operations, and management.
Effective: Spring 2008
Prerequisite: CMPSC 335

The Pennsylvania State University
CMPSC 438 Computer Network Architecture and Programming (3) Network architectures, communication protocols, internetworking, network security, client-server computing, web application development, programming with APIs.
Effective: Spring 2010
Prerequisite: CMPSC 312, CMPSC 425

CMPSC 441 Artificial Intelligence (3) Problem solving, search techniques including local search and genetic algorithms, knowledge representation, planning, learning, and neural networks.
Effective: Fall 2010
Prerequisite: CMPSC 122; MATH 315

CMPSC 442 Artificial Intelligence (3) Introduction to the theory, research paradigms, implementation techniques, and philosophies of artificial intelligence.
Effective: Spring 2008
Prerequisite: CMPSC 122 or equivalent Concurrent: CMPSC 465

CMPSC 443 Introduction to Computer and Network Security (3) Introduction to theory and practice of computer security with an emphasis on Internet and operating system applications.
Effective: Spring 2008
Prerequisite: CMPSC 473, CMPEN 362

CMPSC 450 Concurrent Scientific Programming (3) Problems of synchronization, concurrent execution, and their solution techniques. Design and implementation of concurrent software in a distributed system.
Effective: Spring 2008
Prerequisite: CMPSC 121, CMPSC 201 or CMPSC 202; MATH 220; MATH 230 or MATH 231

CMPSC 451 (MATH 451) Numerical Computations (3) Algorithms for interpolation, approximation, integration, nonlinear equations, linear systems, fast FOURIER transform, and differential equations emphasizing computational properties and implementation. Students may take only one course for credit from CSE/MATH 451 and CSE/MATH 455.
Effective: Spring 2008
Prerequisite: 3 credits of programming; MATH 230 or MATH 231

CMPSC 452 Numerical Analysis (3) Algorithm efficiency and accuracy, function interpolation and polynomial approximation, numerical differentiation and integration, initial-value problems, and approximation of eigenvalues.
Effective: Fall 2010
Prerequisite: MATH 220

CMPSC 455 (MATH 455) Introduction to Numerical Analysis I (3) Floating point computation, numerical rootfinding, interpolation, numerical quadrature, direct methods for linear systems. Students may take only one course for credit from CMPSC (MATH) 451 and CMPSC (MATH) 455.
Effective: Spring 2008
Prerequisite: MATH 220; MATH 230 or MATH 231; and 3 credits of programming

CMPSC 456 (MATH 456) Introduction to Numerical Analysis II (3) Polynomials and piecewise polynomial approximation; matrix least square problems; numerical solution of eigenvalue problems; numerical solutions of ordinary differential equations.
Effective: Spring 2008
Prerequisite: CMPSC 455

Effective: Fall 2010
Prerequisite: CMPSC 122; MATH 220

Effective: Spring 2008
Prerequisite: CMPSC 311; MATH 220; MATH 230 or MATH 231

CMPSC 459 Scientific Visualization (3) Visualization techniques for data analysis and presentation. Applying visualization and perceptual theory. Using extending platform independent visualization software.
Effective: Spring 2008
Prerequisite: CMPSC 122

CMPSC 460 Principles of Programming Languages (3) Design and implementation of high level programming languages and survey of language paradigms including imperative, functional, and object-oriented programming.
Effective: Fall 2010
Prerequisite: CMPSC 312; CMPSC 462; CMPSC 469

CMPSC 461 Programming Language Concepts (3) Fundamental concepts of programming language design, specifications, and implementation; programming language paradigms and features; program verification.
Effective: Spring 2008
Prerequisite: CMPSC 221; CMPSC 360

CMPSC 461H Honors Programming Language Concepts (3) Honors course in fundamental concepts of programming language design, specification, and implementation; programming language paradigms and features; program verification.
Effective: Spring 2008
Prerequisite: CMPSC 465

CMPSC 462 Data Structures (3) In-depth theoretical study of data structures such as balanced trees, hash tables, priority queues, B-trees, binomial heaps, and Fibonacci heaps.
CMPSC 463 Design and Analysis of Algorithms (3) Recurrences, algorithms design techniques, searching, sorting, selection, graph algorithms, NP-completeness, approximation algorithms, local optimization algorithms.
Effective: Fall 2010
Prerequisite: CMPSC 360 Concurrent: MATH 315

CMPSC 464 Introduction to the Theory of Computation (3) Computability/Complexity: finite automata, regular & context-free languages, Turing machines, Church-Turing Thesis, undecidability, reducibility, completeness, time/space complexity, P versus NP.
Effective: Fall 2009
Prerequisite: CMPSC 465

CMPSC 465 Data Structures and Algorithms (3) Fundamental concepts of computer science: data structures, analysis of algorithms, recursion, trees, sets, graphs, sorting.
Effective: Spring 2008
Prerequisite: CMPSC 360 or MATH 311W

CMPSC 467 Factorization and Primality Testing (3) Prime sieves, factoring, computer numeration systems, congruences, multiplicative functions, primitive roots, cryptography, quadratic residues. Students who have passed MATH 465 may not schedule this course.
Effective: Spring 2008
Prerequisite: CMPSC 360 or MATH 311W

Effective: Spring 2008
Prerequisite: CMPSC 122; MATH 315, MATH 311W or CMPSC 360

CMPSC 469 Formal Languages with Applications (3) Regular, context free, recursive, and recursively enumerable languages; associated machine models; applications.
Effective: Fall 2010
Prerequisite: CMPSC 360; MATH 315

CMPSC 470 Compiler Construction (3) Compiler design and implementation; scanning, parsing, semantic analysis, optimization (including static analysis), code generation, garbage collection, and error detection.
Effective: Fall 2010
Prerequisite: CMPSC 312; CMPSC 425; CMPSC 462; CMPSC 469

CMPSC 471 Introduction to Compiler Construction (3) Design and implementation of compilers; lexical analysis, parsing, semantic actions, optimization, and code generation.
Effective: Spring 2008
Prerequisite: CMPSC 461

CMPSC 472 Operating System Concepts (3) Theoretical and practical issues of operating systems design and implementation, process management, concurrent programming, memory management, scheduling, I/O, and security.
Effective: Fall 2010
Prerequisite: CMPSC 312; CMPSC 462

CMPSC 473 Operating Systems Design & Construction (3) Design and implementation of computer operating systems; management of various system resources: processes, memory, processors, files, input/output devices.
Effective: Spring 2008
Prerequisite: CMPSC 311; CMPEN 331

CMPSC 474 Operating System & Systems Programming (3) Operating Systems overview and principles; processes and signals; concurrency and synchronization; memory and file management; client-server computing; scripts; systems-programming.
Effective: Spring 2008
Prerequisite: CMPSC 122; CMPSC 312

CMPSC 479 Language Translation (3) Design and implementation of compilers, lexical analysis, syntax/semantic analysis, optimization, and code generation.
Effective: Spring 2008
Prerequisite: CMPSC 465

CMPSC 483W Software Design Methods (3) Applications of scientific knowledge and methods in the design and construction of computer software using engineering concepts.
Effective: Spring 2008
Prerequisite: CMPSC 221; CMPSC 465; ENGL 202C

CMPSC 484 Computer Science Senior Project I (2) Computer science capstone project with documentation emphasis.
Effective: Spring 2008
Prerequisite: ENGL 202C; CMPSC 221; CMPSC 465

CMPSC 485W Computer Science Senior Project II (3) Computer science capstone project with documentation emphasis.
Effective: Spring 2008
Prerequisite: CMPSC 484

CMPSC 487W Software Engineering and Design (3) Software development process, life cycle; requirements analysis,
specification, design, prototyping, testing, project management, and documentation.

Effective: Fall 2010
Prerequisite: ENGL 202C, CMPSC 425, CMPSC 462

CMPSC 494H Senior Honors Thesis (1-6) Supervised Honors thesis research in computer science and engineering.
Effective: Spring 2008
Prerequisite: approval of a thesis adviser in the department

CMPSC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experience, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

CMPSC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2008

CMPSC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

CMPSC 497A Applications Programming (3) Development of application software for computing devices including smart phones and tablet computers.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: CMPSC 311 and CMPSC 465

CMPSC 497B Contest Problems (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CMPSC 497B Machine Learning (3) Machine learning is a subfield of AI that studies how a computer system can learn from data. It is a key tool for automating tasks that are typically done by humans. This course will provide an introduction to this field.

CMPSC 497C Data Structures Lab (1) Programming with common data structures; recursion; stacks queues, dictionaries, priority queues, sets; string searching and manipulation; sorting; trees; combinatorics.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Concurrent: CMPSC 462

CMPSC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

CMPSC 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Corporate Communication (CC)

CC 401 Corporate, Non-Profit, and Government Public Relations (3) Explores issues affecting profit and non-profit public relations, including crisis management, consumer and employee affairs, environmental problems and global concerns.
Effective: Summer 2002
Prerequisite: MKTG 310 and sixth-semester standing

CC 402 The Media and Public Relations (3) Publicity strategies involving a variety of media resources.
Effective: Summer 2002
Prerequisite: MKTG 310 and sixth-semester standing

CC 403W Studies in Public Relations (3) Capstone course for the major in Corporate Communication; focuses on case studies in public relations: problems and solutions.
Effective: Summer 2002
Prerequisite: MKTG 310 and sixth-semester standing

CC 495A Internship in Corporate Communication (3) Internship in a business or agency appropriate for a major in Corporate Communication.
Effective: Summer 2002
Prerequisite: MKTG 310 and sixth-semester standing
Counseling Psychology (CNPSY)

CNPSY 254 (US) **Understanding Discrimination: An Educational and Employment Perspective** (3) Study of the effects of educational and employment discrimination on United States social groups/identities. Effective: Spring 2006

CNPSY 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Fall 2008

CNPSY 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1990

CNPSY 497A **Observational Research** (1-3) Counseling psychology research, including observation of at-risk families and use of a variety of coding systems to study parenting processes, and self/emotion regulation in children and adults, and supervised on an individual basis. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CNPSY 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Counselor Education (CN ED)

CN ED 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 100 **Effective Career Decision-Making** (3) Examination of internal and external factors that contribute to career development to assist students undecided about major or career.
Effective: Spring 2003

CN ED 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1990

CN ED 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1990

CN ED 297A **Freshman Experience I** (2) This course is designed to help entering students in their transition from high school to college. This course will help new students to develop and utilize effective educational strategies.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 297A **Counseling Education** (1) This course is a continuation to the Fall 2010-Counselor Education course for first year Aspire Students. This course will help students gain control over their college experience by developing and understanding the importance of civility.

CN ED 297B **Internship and Career Preparation** (1) Course assists students who have selected a major and/or career in developing tools and strategies for targeting internships or permanent employment. Recommended for Brandywine IST and Communications majors, not for Business or HDFS majors, otherwise open to all other majors.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 297C **A Survey of Education Issues in China** (1) This course explores aspects of education in China through instruction and a tour of its schools and relevant sites.
Effective: Summer 2011 Ending: Summer 2011

CN ED 297C **Orientation Leader Training** (2) The purpose of this course is to facilitate learning opportunities and experiences, which will provide students with the knowledge, attitudes and skills necessary to become effective orientation leaders.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 297F **Business Communication Skills** (2) Course provides students with the communication skills necessary to represent Penn State Mont Alto in a positive and supportive manner.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 301 **Student Organization Management** (2) Exploration and development of leadership and group process skills necessary for effectively managing student organizations in higher education settings.

The Pennsylvania State University
Effective: Summer 1992

CN ED 302 The Role of the Resident Assistant: Theory and Practice (3) An analysis of the various roles of the resident assistant, including interpersonal facilitator, disciplinarian, program developer, and activities facilitator.
Effective: Summer 1990

CN ED 303 Career Search Strategies for Educators (1) An aid in preparing students with information helpful for entry into education and alternative job markets.
Effective: Summer 1990

CN ED 304 Education of the Peer Assistant (3) Student development theories: skill development in listening, informing, and referring culturally diverse peers in individual and group situations.
Effective: Spring 1994
Prerequisite: limited to students selected as peer assistants or similar positions

CN ED 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 397C The First Job (3) To examine in greater detail the gap between one's professional expectations and dreams and the reality of transitioning into one's first major job in an organization.
Effective: Summer 2011 Ending: Summer 2011

CN ED 397D Transition from High School to College (3) To examine the link between a student's high school academic experience and the actuality of the successful transition into the college environment.
Effective: Summer 2011 Ending: Summer 2011

CN ED 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 401 Foundations of Chemical Dependency Counseling (3) An overview of diagnosis and assessment, models for chemical dependency prevention, counseling, and recovery; contexts of chemical dependency treatment.
Effective: Spring 1994
Prerequisite: 3 credits in general psychology

CN ED 404 Group Procedures in Guidance and Counseling (3) The nature and functioning of groups in educational and agency settings. Provides prospective counselors with experience in the group process.
Effective: Summer 1990
Prerequisite: 6 credits in counselor education; 6 credits in psychology sociology or individual and family studies

CN ED 415 Counseling Adults (3) Roles of counselors and counseling in the resolution of educational and career problems and opportunities of adults.
Effective: Summer 1990
Prerequisite: COM S 448, HD FS 249, HD FS 445 orSOC 435

CN ED 416 Interpersonal Relationships and Alcohol and Other Drugs (AOD) Dependency (3) This course examines families with chemically dependent members, dynamics, appropriate interventions, and treatment.
Effective: Spring 2009
Prerequisite: CN ED 401 orRHS 301

CN ED 420 Chemical Dependency: Youth at Risk (3) Study of youth who are at-risk of developing chemical dependency including the characteristics and factors related to chemical dependency.
Effective: Spring 1994
Prerequisite: CN ED 401

CN ED 421 Counseling Strategies for Preventing Chemical Dependency (3) Examines helping professional's role in primary and secondary prevention of substance abuse, and related problems like delinquency, suicide, and pregnancy.
Effective: Spring 1994
Prerequisite: CN ED 401

CN ED 422 Foundations of Addictions Counseling (3) Study of the fundamental principles of counseling individuals with a wide variety of addictions.
Effective: Spring 2009
Prerequisite: a minimum of 12 hours of coursework in sociology psychology education or family studies.

CN ED 423 Student Assistance Programs (3) Exploration of early stages of adolescent "at-risk" behavior and skills for student assessment and intervention within schools and communities.
Effective: Spring 1994
Prerequisite: CN ED 401

CN ED 430 Couples and Family Counseling (3) The theory and practice of counseling with couples and families emphasizing family development and major intervention approaches.
Effective: Spring 2009
Prerequisite: A minimum of 12 hours of coursework in sociology psychology education or family studies.

CN ED 431 Counseling and Teaching Youth at Risk (3) This course is focused on how to counsel and/or teach youth at risk for a variety of social, emotions, and educational problems.
Effective: Spring 2009
Prerequisite: A minimum of 12 hours of coursework in sociology psychology education or family studies.

CN ED 432 Ethical, Legal, and Professional Issues in Counseling (3) Examination of the current ethical and legal issues related to professional counselors and counseling.
Effective: Spring 2009
Prerequisite: A minimum of 12 hours of coursework in sociology psychology education or family studies.

CN ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1990

CN ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1990

CN ED 497A Adoption Issues (3) This class will deal with the social, emotional and developmental issues facing triad members throughout the adoption process.
Effective: Summer 2011 Ending: Summer 2011

CN ED 497A Interpersonal Relationships in Early Childhood Contexts (3) Interpersonal relationships in young children's development; practice to promote positive relationships (e.g., parent-child, teacher-child, teacher-parent, supervisor-teacher, and child-peer relationships).
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 497B Bullying, Hate Language, and the Power of Words (1) An overview of information on issues of bullying and hate language, and their impact to children and adolescents.
Effective: Summer 2011 Ending: Summer 2011

CN ED 497C Counseling the Suicidal Child and Adolescent (1) This course includes risk factor for suicide; suicidal assessment; ethical and legal issues surrounding suicide; and counseling techniques with children.
Effective: Summer 2011 Ending: Summer 2011

CN ED 497D Suicide Prevention in the Schools (1) This course provides training for school counselors, crisis team members, teachers, administrators, and staff to assist those at risk of suicide.
Effective: Summer 2011 Ending: Summer 2011

CN ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

CN ED 498A (WF ED 498C) Facilitating Career Development (3) Facilitating Career Development - Students acquire 12 career development facilitation competencies. Upon successful completion, students may apply for the GCDF certification.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CN ED 498A (WF ED 498A) Facilitating Career Development (3) Facilitating Career Development - Students acquire 12 career development facilitation competencies. Upon completion, students may apply for the GCDF certification.

The Pennsylvania State University
Criminal Justice (CRIMJ)

CRIMJ 012 (GS) (CRIM 012, SOC 012) Criminology (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes.
Effective: Spring 2008

CRIMJ 013 (GS) (SOC 013) Juvenile Delinquency (3) Juvenile conduct, causes of delinquency, current methods of treatment; organization and function of agencies concerned with delinquency.
Effective: Spring 2008

CRIMJ 083S (GS) (CRIM 083S) First-Year Seminar in Criminal Justice (3) Critical approaches to issues in criminal justice and criminology.
Effective: Spring 2008

CRIMJ 100 (GS) (CRIM 100) Introduction to Criminal Justice (3) Overview of the criminal justice system, including legal foundations, processing and correction of offenders, extent and types of crime, victims.
Effective: Spring 2008

CRIMJ 113 (US) (CRIM 113) Introduction to Law (3) Introduction to law in society with a focus on criminal law, judicial code, laws of sentencing and corrections, criminal procedure.
Effective: Spring 2008

CRIMJ 200 Introduction to Security and Loss Control (3) A general introduction to the field of private security and asset protection.
Effective: Spring 2008

CRIMJ 201 Legal and Ethical Issues in Private Security (3) Detailed examination of legal issues and ethical considerations in private sector security.
Effective: Spring 2008
Prerequisite: CRIMJ 200

CRIMJ 210 Policing in America (3) Police organization and operations in America.
Effective: Spring 2008
Prerequisite: or concurrent: CRIMJ 100

CRIMJ 220 Courts and the Prosecution Process (3) Purpose and function of criminal courts in society, organization, jurisdiction and staffing; prosecution, adjudication, and sentencing of offenders.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 221 Issues in the American Criminal Justice System (3) Examination of the models of the criminal process, functions of the justice system, and approaches to crime and punishment.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 230 Corrections in America (3) Punishment and treatment of sentenced offenders, correctional institution organization, staffing, inmates, and subcultures.
Effective: Spring 2008

CRIMJ 234 Fundamental Techniques of Scientific Criminal Investigation (3) Traditional and innovative technical approaches utilized by law enforcement scientists; capabilities and limitations of technical techniques highlighted.
Effective: Spring 2008

CRIMJ 240W Field Research in the Criminal Justice (4) Field research and observational strategies appropriate to the identification, investigation, and analysis of research questions in criminal justice.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 241 (PUBPL 241) Computer Applications in Public Affairs/Criminal Justice (3) Introduction to computer applications for criminal justice and public affairs agencies.
Effective: Spring 2004

CRIMJ 250W (CRIM 250W) Research Methods in Criminal Justice (4) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CRIMJ 012

CRIMJ 250W (CRIM 250W) Research Methods in Criminal Justice (3) Fundamental concepts of social science research
including design, measurement, sampling, and interpretation of the study of crime, law, and justice.

**Effective: Fall 2011**

**Future: Fall 2011**

**Prerequisite: CRIMJ 012**

**CRIMJ 260 (GO) Statistical Analysis for the Social Sciences** (3) Methods of collection, presentation, and analysis of quantitative data in the social science; procedures, interpretation, and application.

**Effective: Spring 2011**

**Prerequisite: 2 units of High School Algebra and CRIMJ 100 or permission of the program**

**CRIMJ 290 Introduction to Internship Experience** (1) Planning and preparation for field experience in a criminal justice agency setting.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 100 ; Prerequisite or concurrent: CRIMJ 240W**

**CRIMJ 294 Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

**Effective: Spring 2008**

**CRIMJ 296 Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

**Effective: Spring 2008**

**CRIMJ 297 Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

**Effective: Spring 2008**

**CRIMJ 300H Honors Seminar: Issues and Trends in Criminal Justice** (3-6) Discussion of various, specific criminal justice topics, such as discretionary decision-making, due process, equal protection, violence, and recidivism.

**Effective: Spring 2008**

**Prerequisite: fifth-semester standing and admission to Schreyers Honors College**

**CRIMJ 304 Security Administration** (3) Interdisciplinary analysis of security and loss prevention; its administration, role in crime control and prevention, and relationship to criminal justice.

**Effective: Spring 1990**

**CRIMJ 310 Forensic Science I** (3) Presentation of the techniques, skills, and limitations of modern crime laboratory.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 100**

**CRIMJ 311 Forensic Science II** (3) Continuation of CRIMJ 310 including statistical analysis of data from crime scene.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 310**

**CRIMJ 345 Criminal Justice and the Community** (3) Justice agencies and the community’s crime prevention and participation strategies; community involvement in policy development.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 100**

**CRIMJ 389 Gangs and Gang Behavior** (3) The history, structure, and practices of gangs in America as well as societal reaction to them.

**Effective: Summer 2003**

**CRIMJ 406 (SOC 406, CRIM 406) Sociology of Deviance** (3) Theory and research concerning behaviors and lifestyles viewed as significant departures from a group's normative expectations.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 100 and CRIMJ 113 and CRIMJ 230 or permission of program**

**CRIMJ 407 (US) (CRIM 407) Victimology** (3) This course will explore the legal, emotional, and social responses to the process of victimization by offenders and third parties.

**Effective: Spring 2008**

**CRIMJ 408 Police Administration** (3) Principles of administration as they relate to a police organization; and policy development.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 100 or CRIM 100 and CRIMJ 210 or CRIM 210**

**CRIMJ 410 The Pennsylvania Court System** (3) Tracing the steps of criminal cases through the investigative stage, arrest, trial, sentencing and appellate review in Pennsylvania.

**Effective: Spring 2004**

**Prerequisite: CRIMJ 100, CRIMJ 113**

**CRIMJ 412 (SOC 412, CRIM 412) Crime, Social Control, and the Legal System** (3) Legal and extralegal control; public opinion on crime; criminal justice and correctional processes; legal sanctions; control strategies. Field trip.

**Effective: Spring 2008**

**Prerequisite: CRIMJ 012, CRIMJ 013 or SOC 005**

The Pennsylvania State University
CRIMJ 413 (CRIM 413, SOC 413) Advanced Criminological Theory (3) This course provides an in-depth look at theories of crime and examines influential empirical studies designed to these theories.
Effective: Spring 2008
Prerequisite: CRIMJ 012, CRIMJ 250W

CRIMJ 414 (SOC 414, CRIM 414) Criminal Careers and the Organization of Crime (3) Research on and theory of criminal careers and crime organizations, emphasizing recruitment and disengagement; offender characteristics and lifestyles; policy implications.
Effective: Spring 2008
Prerequisite: CRIMJ 012, CRIMJ 013 or SOC 005

CRIMJ 415 (PUBPL 415) Drug Control Policy in Comparative Perspective (3) Examines the history of drug control policy in the United States; comparisons and contrasts with other countries’ experiences.
Effective: Summer 2004
Prerequisite: CRIMJ 200 or PL SC 001 or PL SC 014 or SOC 001

CRIMJ 420 Criminal Law and Procedure (3) Common law and statutory crimes; constitutional rights of accused persons, liability of criminal justice professionals.
Effective: Spring 2008
Prerequisite: CRIMJ 113

CRIMJ 421 (CRIM 421) Violent Crime in the United States (3) The impact of violent crime on victims, their families, and communities; the police process as it relates to violent crime.
Effective: Spring 2008
Prerequisite: CRIMJ 012

CRIMJ 421W Violent Crime in the United States (3) The impact of violent crime on victims, their families, and communities; the police process as it relates to violent crime.
Effective: Spring 2008
Prerequisite: CRIMJ 012

CRIMJ 422 (CRIM 422) Victimization (3) Examines the history, how victimization is measured/studied in social sciences, public policy implications of victimization movement in U.S.
Effective: Spring 2008
Prerequisite: CRIMJ 250W

CRIMJ 423 (US) (WMNST 423, CRIM 423) Sexual and Domestic Violence (3) Legal, sociological, and psychological perspectives on sexual and domestic violence.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 424 (CRIM 424) Drugs and Crime (3) Analysis of international narcotics trafficking in the twentieth century.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 424W Drugs and Crime (3) Analysis of international narcotics trafficking in the twentieth century.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 425 (CRIM 425) Organized Crime (3) This course examines organized crime in terms of historical antecedents, structure, related theories, and policy issues.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or permission of program

CRIMJ 426 Special Offender Types (3-6) Study of special offender types; relationships with criminal justice system (drug abuse, victimless crime, white collar crime considered different semesters).
Effective: Spring 2008
Prerequisite: 3 credits in Criminal Justice or permission of program

CRIMJ 430 Alternatives to Incarceration (3) Control and treatment of offenders in the community, probation and parole organizations, diversion programs, innovative sentences, supervision techniques.
Effective: Spring 2008
Prerequisite: CRIMJ 100 and CRIMJ 113 and CRIMJ 230 or permission of program

CRIMJ 431 Offender and Prisoner Rights (3) The identification of correctional problems and the setting of objectives as reflective of court rulings, legislative change, and administrative law.
Effective: Spring 2008
Prerequisite: CRIMJ 100, CRIMJ 113, CRIMJ 230 or permission of program

CRIMJ 432 (CRIM 432) Crime and the American Court System (3) This course examines the American court system including structure and the way courts process offenders with special focus on sentencing.
Effective: Spring 2008
Prerequisite: CRIM 100

CRIMJ 435 Border Security (3) This course provides knowledge about government organizations charged with American border security, guiding laws and policies.
Effective: Summer 2011
Prerequisite: 6th semester standing

CRIMJ 439 (PL SC 439) The Politics of Terrorism (3) Analysis of political terrorism as a violent alternative for peaceful
change and traditional warfare in the nuclear age.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or PL SC 014 or permission of program

CRIMJ 441 (US) (CRIM 441) The Juvenile Justice System (3) Historical and contemporary view of the juvenile justice system. Focus on analyzing components of the system, their interactions, processing, and handling of youths.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 441W The Juvenile Justice System (3) Historical and contemporary view of the juvenile justice system. Focus on analyzing components of the system, their interactions, processing, and handling of youths.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or permission of program

CRIMJ 450W Senior Seminar (3 per semester/maximum of 6) Capstone course exploring past, current and future developments in criminal justice.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or CRIM 100 and sixth semester standing or permission of program.

CRIMJ 451 (US) (CRIM 451) Race, Crime, and Justice (3) This course focuses on the significance of race, class, and ethnicity to criminal justice processing and criminal offending.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 453 (US) (WMNST 453, CRIM 453) Women and the Criminal Justice System (3) This course focuses on the experiences of women as offenders, victims, and professionals in the criminal justice system.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or WMNST 001

CRIMJ 460 History and Function of Criminal Justice Components (3) Historical development of criminal justice system components (police, courts, corrections) related to formulation and function of the state.
Effective: Spring 2008

CRIMJ 462 Comparative Criminal Justice Systems (3) A comparison of American and selected foreign justice systems to illustrate the variety of possible responses to crime.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or permission of program

CRIMJ 465 Ethics in Criminal Justice (3) Ethical behavior in the criminal justice system.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or permission of program

CRIMJ 467 (SOC 467, CRIM 467) Law and Society (3) Law and society studies the social origins of law and legal systems; occupational careers, and decision-making of legal officials.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or CRIMJ 113 or permission of program

CRIMJ 469 (HIST 469) Drugs and Drug Policy in the United States (3) Examines the history and dimensions of drug use and analyzes the impact of drug policy.
Effective: Spring 2008
Prerequisite: CRIMJ 100 or HIST 021

CRIMJ 471 (B LAW 471) Legal Rights, Duties, Liabilities of Criminal Justice Personnel (3) Civil law issues within a justice agency and between criminal justice agencies and members of the public.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 473 (B LAW 473) Criminal Procedure and Evidence in the Business Community (3) Law of evidence and proof, constitutional constraints on police procedures (arrest, search, etc.) in society and the business community.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 482 (CRIM 482) Seminar, Criminal Justice Agency Administration (3) Relates organizational and public policy management approaches to police, courts, and correctional institutions.
Effective: Spring 2008
Prerequisite: CRIMJ 100

CRIMJ 489W Victimology: Predatory Crime (3) This course uses medical, social scientific and legal research to study the complexities of predatory crime.
Effective: Spring 2004
Prerequisite: CRIMJ 407

CRIMJ 494 Research Topics (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2002

CRIMJ 494H Research Topics (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

The Pennsylvania State University
CRIMJ 495 Internship in Criminal Justice (3-12) Experience with a criminal justice agency coordinated through readings and discussion.  
Effective: Spring 2008  
Prerequisite: CRIMJ 100

CRIMJ 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.  
Effective: Summer 1987

CRIMJ 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Summer 1987

CRIMJ 497A Death Penalty in America (3) An historical overview of US death penalty practices; pertinent court cases and contemporary issues will be examined.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CRIMJ 499 (IL) Foreign Studies (6) Courses offered in foreign countries by individual or group instruction.  
Effective: Spring 2008

Last Import from UCM: June 16, 2011 3:00 AM
Criminology (CRIM)

CRIM 012 (GS) (CRIMJ 012, SOC 012) Criminology (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.
Effective: Spring 2008

CRIM 012H (GS) (SOC 012H) Criminology (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

CRIM 012H (GS) (SOC 012H) Criminology (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.

CRIM 083S (CRIMJ 083S) First-Year Seminar in Criminal Justice (3) Critical approaches to issues in criminal justice and criminology.
Effective: Spring 2008

CRIM 100 (GS) (CRIMJ 100) Introduction to Criminal Justice (3) Overview of the criminal justice system, including legal foundations, processing and correction of offenders, extent and types of crime, victims.
Effective: Spring 2008

CRIM 113 (US) (CRIMJ 113) Introduction to Law (3) Introduction to law in society with a focus on criminal law, judicial code, laws of sentencing and corrections, criminal procedure.
Effective: Spring 2008

CRIM 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

CRIM 250W (CRIMJ 250W) Research Methods in Criminal Justice (4) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Prerequisite: CRIM 012
Effective: Spring 2008 Ending: Summer 2011

CRIM 250W (CRIMJ 250W) Research Methods in Criminal Justice (3) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CRIM 012

CRIM 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

CRIM 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2008

CRIM 296A Preceptorship in Criminology (1-6) Supervised experience as a teaching assistant under the supervision of an approved faculty member.
Effective: Summer 2011

CRIM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

CRIM 312 Introduction to Forensic Science in the Criminal Justice System (3) This course introduces the student to the role in the criminal justice system and the legal context of forensic evidence.
Effective: Spring 2008
Prerequisite: CRIM 012

CRIM 395 Internship in Criminal Justice (1-9) Field experience focusing on the student's major interest within the area of criminal justice.
Effective: Spring 2008
Prerequisite: CRIM 250W
CRIM 406 (CRIMJ 406, SOC 406) Sociology of Deviance (3) Theory and research concerning behaviors and lifestyles viewed as significant departures from a group's normative expectations. Effective: Spring 2008
Prerequisite: CRIM 012

CRIM 407 (CRIMJ 407) Victimization (3) This course will explore the legal, emotional, and social responses to the process of victimization by offenders and third parties. Effective: Spring 2008

Prerequisite: CRIM 012, CRIM 013 or SOC 005

CRIM 413 (SOC 413, CRIMJ 413) Advanced Criminological Theory (3) This course provides an in-depth look at theories of crime and examines influential empirical studies designed to test these theories. Effective: Spring 2008
Prerequisite: CRIM 012, CRIM 250W

CRIM 414 (CRIMJ 414, CRIM 414) Criminal Careers and the Organization of Crime (3) Research on and theory of criminal careers and crime organizations, emphasizing recruitment and disengagement; offender characteristics and lifestyles; policy implications. Effective: Spring 2008
Prerequisite: SOC 012 or SOC 013 or SOC 005

CRIM 421 (CRIMJ 421) Violent Crime (3) Examines the nature and causes of violence. Several theoretical perspectives are reviewed including biological, psychological, social, and cultural. Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 250W

CRIM 422 (CRIMJ 422) Victimization (3) Examines the history, how victimization is measured/studied in social sciences, public policy implications of victimization movement in U.S. Effective: Spring 2008
Prerequisite: CRIM 250W

Prerequisite: CRIMJ 100 or WMNST 001

Prerequisite: CRIM 100 or WMNST 001

CRIM 425 (CRIMJ 425) Organized Crime (3) This course examines organized crime in terms of historical antecedents, structure, related theories, and policy issues. Effective: Spring 2008
Prerequisite: CRIM 100

CRIM 429 Seminar in Criminal Behavior (3-4 per semester/maximum of 7) This course explores the study of the application of criminological theories to our understanding of various forms of criminal behavior. Effective: Spring 2008
Prerequisite: CRIM 012

CRIM 430 American Correctional System (3) Study of corrections from probation, intermediate punishment, adult and juvenile correctional institutions to parole. Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 250W

CRIM 432 (CRIMJ 432) Crime and the American Court System (3) This course examines the American court system including structure and the way courts process offenders with special focus on sentencing. Effective: Spring 2008
Prerequisite: CRIM 100

CRIM 433 Sentencing (3) This course studies sentencing from prosecutorial charging decisions through revocation of probation, and the complex goals and responsibilities at sentencing. Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 250W

CRIM 435 Policing in America (3) This course will focus on current, historical, theoretical, and research issues surrounding law enforcement in the United States. Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 250W

CRIM 441 (US) (CRIMJ 441) Delinquency and Juvenile Justice (3) Course examines delinquency and the juvenile justice system including delinquency's nature, causes, and prevention and the processing of juveniles. Effective: Spring 2008
Prerequisite: CRIM 100

CRIM 449 Seminar in Criminal Justice (3-4 per semester/maximum of 7) Examines criminal justice decision-making and
operation such as the role of contemporary movements in law enforcement, the courts and corrections.

Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 113, CRIM 250W

CRIM 451 (US) (CRIMJ 451) Race, Crime, and Justice (3) This course focuses on the significance of race, class, and ethnicity to criminal justice processing and criminal offending.

Effective: Spring 2008
Prerequisite: CRIM 100

CRIM 453 (US) (CRIMJ 453, WMNST 453) Women and the Criminal Justice System (3) This course focuses on the experiences of women as offenders, victims, and professionals in the criminal justice system.

Effective: Spring 2008
Prerequisite: CRIM 100 or WMNST 001

CRIM 467 (SOC 467, CRIMJ 467) Law and Society (3) Law and society studies the social origins of law and legal systems; occupational careers, and decision-making of legal officials.

Effective: Spring 2008
Prerequisite: CRIM 100, CRIMJ 113 or permission of program

CRIM 469 Seminar in the Law (3-4 per semester/maximum of 7) The focus of this seminar is the law such as the laws of sentencing, appellate course decisions and their impact.

Effective: Spring 2008
Prerequisite: CRIM 113

CRIM 480H Research Topics in Crime, Law, and Justice (1) Students are exposed to a variety of research topics related to crime, law, and justice.

Effective: Spring 2008
Prerequisite: CLJ major and admission to the Schreyer Honors College

CRIM 481H Information Literacy in Crime, Law, and Justice (1) Students are exposed to a variety of information sources related to crime, law, and justice.

Effective: Spring 2008
Prerequisite: CLJ 480H

CRIM 482 (CRIMJ 482) Seminar, Criminal Justice Agency Administration (3) Relates organizational and public policy management approaches to police, courts, and correctional institutions.

Effective: Spring 2008
Prerequisite: CRIM 100

CRIM 490 Crime Policy (3) This course focuses on criminal justice policy and the factors that influence policy development and implementation.

Effective: Spring 2008
Prerequisite: CRIM 100, CRIM 113, CRIM 250W 6 credits of 400-level CRIMJ courses and 7th semester standing

CRIM 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

Effective: Spring 2008

CRIM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Spring 2008

CRIM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 2008

CRIM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Spring 2008

Last Import from UCM: June 16, 2011 3:00 AM
Curriculum and Instruction (C I)

C I 195 Early Observation Experience for Teacher Preparation (1-2 per semester/maximum of 2) Early observational work in educational settings with a variety of age/grade levels.
Effective: Summer 2010

C I 200 Peer Tutoring (1) Prepares students to develop successful practices as a peer tutor.
Effective: Summer 2007

C I 280 (GH) Introduction to Teaching English to English Language Learners (3) Introductory English language teaching, and pedagogical strategies with English Language Learners.
Effective: Fall 2010
Prerequisite: EDPSY 014

C I 295 Introductory Field Experience for Teacher Preparation (1-3 per semester/maximum of 6) Selected observation of schooling situations with small group and tutorial participation.
Effective: Fall 1983
Prerequisite: second-semester standing Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm Concurrent: EDTHP 115 and/or EDPSY 014

C I 295A Introductory Field Experience for Early Childhood Education (1-3) Selected observations and individual and small group tutoring in early childhood, elementary school, and education related, community settings.
Effective: Fall 2009
Prerequisite: second semester standing Concurrent: HD FS 229 or C I 280 or EDPSY 014 or EDTHP 115 or SPLED 400

C I 295B Introductory Field Experience in Middle Level Education (1-3) Selected observations and individual and small group tutoring in early childhood, elementary school, and education related, community settings.
Effective: Fall 2009
Prerequisite: second semester standing HD FS 229 or equivalent Concurrent: C I 280 EDPSY 014 EDTHP 115 HD FS 229 or SPLED 400

C I 295D Philadelphia Urban Seminar (3) Selected observation of schooling situations with small group and tutorial participation.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: second-semester standing Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm Concurrent: EDTHP 115 and/or EDPSY 014

C I 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

C I 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

C I 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C I 400 Introduction to Research Literature (3) Introduction to research literature and methodology; stress on interpretation, sources, and research reporting.
Effective: Fall 1981
Prerequisite: student teaching or teaching experience

C I 405 (EDLDR 405) Strategies in Classroom Management (3) Managing and coping with disruptive student behavior in instructional settings so that they support the teaching/learning process.
Effective: Fall 2008
Prerequisite: teaching experience or supervised practicum experience

C I 412W Secondary Teaching (3) Study of the teacher’s responsibilities, steps in planning instruction, and various strategies for implementing and assessing teaching.
Effective: Spring 2007
Prerequisite: C I 295, EDPSY 014, EDTHP 115

C I 494H Research Techniques in Curriculum and Instruction (1-3) Examination, application, assessment, and presentation of research modes and techniques in Curriculum and Instruction. Limited to University scholars in the College of Education.
Effective: Spring 1988
Prerequisite: second-semester standing

C I 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

The Pennsylvania State University
C I 495A Clinical Application of Instruction--Early Childhood Education (3) Practicum situation for demonstration of selected instructional strategies and management skills acquired in professional training. To be offered only for Satisfactory/Unsatisfactory grading.
Effective: Spring 1997
Prerequisite: C I 295, EDPSY 014, EDTHP 115. Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm Concurrent: regular professional methods courses in area of certification.

C I 495B Clinical Application of Instruction--Elementary and Kindergarten Education (3) Practicum situation for demonstration of selected instructional strategies and management skills acquired in professional training. To be offered only for Satisfactory/Unsatisfactory grading.
Effective: Spring 1997
Prerequisite: C I 295, EDPSY 014, EDTHP 115. Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm Concurrent:regular professional methods course(s) in area of certification.

C I 495D Practicum in Student Teaching--Elementary and Kindergarten Education (12) Full-time classroom instruction in early childhood and elementary education. Students supervised by University personnel and practicing teachers. No concurrent courses other than C I 495F permitted.
Effective: Spring 1997
Prerequisite: C I 495A or C I 495B; a grade of C or higher in all specified and professional courses. Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm

Effective: Spring 1997
Prerequisite: C I 495C seventh-semester standing and grade of C or higher in all specified and professional courses. Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm

C I 495F Professional Development Practicum (3) Instruction concurrent with student teaching practicum. Students focus on the solution of instructional problems identified at the practicum site.
Effective: Spring 1997
Prerequisite: Official clearances required. See: http://www.ed.psu.edu/preservice/clearance.htm Concurrent: C I 495D

C I 495G Practicum in Student Teaching - Secondary Education (9) Full-time professional development internship in secondary English education. Students supervised by University personnel and practicing teachers.
Prerequisite: prior approval of proposed assignment by instructor

C I 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

C I 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

C I 497B Elementary Education Disciplinary Block (12) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

C I 497B Elementary Education Disciplinary Block (12) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

C I 497D Preparing for Overseas Student Teaching (1) This seminar prepares students for the short term student teaching abroad program. To be taken semester prior to student teaching.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

C I 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C I 498A Curriculum and Instruction that Engages and Motivates Adolescent Learners (3) This course explores the
cultures of curriculum and the importance of curriculum research to construct a workable philosophy; applications; outcomes.
Effective: Summer 2011 Ending: Summer 2011

C I 498B Curriculum Design for 21st Century Skills: Open-ended Student Inquiry (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Curriculum and Supervision (C & S)

C & S 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C & S 470 Workshop in Selected Studies in Curriculum (1-6) Intensive work on selected current problems in curriculum.
Effective: Winter 1978
Prerequisite: 12 credits in education and teaching experience

C & S 497A Classroom Instruction That Works (3) Designed for educators interested in learning about teaching strategies that, when used effectively, have a measurable difference in student achievement.
Effective: Summer 2011 Ending: Summer 2011

C & S 497B Responsive Classroom Learning Environments (3) This course engages practicing teachers in discussions and activities focused on creating classroom learning environments that support academic and social learning.
Effective: Summer 2011 Ending: Summer 2011

C & S 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C & S 498A Classroom Instruction That Works (3) This course is designed for K-12 educators interested in learning about teaching strategies that have positive effects on student learning.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Dance (DANCE)

DANCE 100 (GA;US;IL) Dance Appreciation (3) Explore dance as a vital, communicative and performing art, reflecting social values and cultural beliefs.
Effective: Fall 2007

DANCE 101 Dance and Rhythmic Fundamentals (1) Fundamental components of rhythm, dance movement, and technique.
Effective: Summer 1999

DANCE 231 Beginning Ballet I (1.5) An introduction to the techniques of ballet.
Effective: Spring 2006
Prerequisite: admission into Musical Theatre Major

DANCE 232 Beginning Ballet II (1.5) A continuation of Beginning Ballet I to augment technical proficiency.
Effective: Spring 2006
Prerequisite: DANCE 231

DANCE 241 Beginning Jazz I (1.5) An introduction to the techniques of Jazz dance.
Effective: Spring 2006
Prerequisite: DANCE 232

DANCE 242 Beginning Jazz II (1.5) A continuation of Beginning Jazz I to augment technical proficiency.
Effective: Spring 2006
Prerequisite: DANCE 241

DANCE 251 Beginning Tap I (1.5) An introduction to the technique of tap dance.
Effective: Spring 2006
Prerequisite: DANCE 232

DANCE 252 Beginning Tap II (1.5) A continuation of Beginning Tap I to augment technical proficiency.
Effective: Spring 2006
Prerequisite: DANCE 251

DANCE 261 (GA) Beginning Modern Dance I (1.5) Introduction to modern dance as an art form; development of dance technique and composition; teaching methods for improvisational skills.
Effective: Spring 2006

DANCE 262 Beginning Modern Dance II (1.5) A continuation of Beginning Modern Dance I to augment technical proficiency and to further comprehension of choreographic methods.
Effective: Spring 2006
Prerequisite: DANCE 261

DANCE 270 (GHA) Introduction to Bartenieff Fundamentals (3) Physical and theoretical approach to movement: facilitates efficiency, and expression through dynamic alignment, mobility, kinesthetic awareness; reduce physical injuries.
Effective: Spring 2003

DANCE 280 Dance Improvisation (1) Introduction to the concepts and techniques of dance improvisation.
Effective: Spring 2001
Prerequisite: DANCE 261

DANCE 281 Introduction to African Dance and Culture (1) An introduction to African dance based in a holistic approach integrating music, movement, drama, costume, and vocalization.
Effective: Spring 1999

DANCE 282 Mojah Fusion Dance (1.5) Mojah introduces intermediate/advanced level dance students to a unique dance technique that blends Horton, Dunham, West African and jazz movements in one form.
Effective: Summer 2007
Prerequisite: DANCE 231, DANCE 241 orDANCE 261

DANCE 283 Beginning Hip Hop Dance (1) Beginning Hip Hop dance introduces the student to Hip Hop culture through dance, free expression with the body/freestyle and choreography.
Effective: Summer 2007

DANCE 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1999

DANCE 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999
DANCE 297A Ivyside Dance Ensemble (1-3) Rehearsal and performance of dance repertoire, with focus on contemporary modern dance technique. Audition required. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

DANCE 297B Contemporary Movement Lab II (3) An exploration of contemporary dance techniques focusing on movement composition as a vehicle of expression. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

DANCE 297C Conditioning for Dancers (2) To develop strength, flexibility, and techniques for body alignment. A combination of mind and body exercises for dancers and non-dancers for healthy body alignment. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011 Prerequisite: DANCE 261

DANCE 297D Intermediate Contemporary Ballet (1.5) Intermediate and advanced level contemporary ballet - incorporating classical ballet and modern dance. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011 Prerequisite: DANCE 331

DANCE 297F Floor Barre (1) Correcting and refining body alignment using gentle methods using mats and therabands of stretching and strengthening. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

DANCE 301 Movement Analysis (2) Introduce student to principles of practical and abstract movement analysis to determine individual physical limitations and potentials. Effective: Spring 2001

DANCE 331 Intermediate Ballet I (1.5) A continuation of the course work established in Beginning Ballet II. Effective: Spring 2006 Prerequisite: DANCE 232

DANCE 332 Intermediate Ballet II (1.5) A continuation of the course work established in Intermediate Ballet I. Effective: Spring 2006 Prerequisite: DANCE 331

DANCE 341 Intermediate Jazz I (1.5) A continuation of the course work established in DANCE 242, Beginning Jazz II. Effective: Spring 2006 Prerequisite: DANCE 242

DANCE 342 Intermediate Jazz II (1.5) A continuation of the course work established in DANCE 341, Intermediate Jazz I. Effective: Spring 2006 Prerequisite: DANCE 341

DANCE 361 Intermediate Modern Dance I (1.5) Development of techniques and principles of modern dance on the intermediate level. Effective: Spring 2006 Prerequisite: DANCE 262

DANCE 362 Intermediate Modern Dance II (1.5) A continuation of Modern Dance I to augment technical proficiency. Effective: Spring 2006 Prerequisite: DANCE 361

DANCE 371 Music Theatre Dance--Style I (1.5) A practical study of dance styles from the 1890’S to the 1990’S. Effective: Spring 2006 Prerequisite: THEA 224

DANCE 372 Music Theatre Dance--Style II (1.5) A continuation of course work established in Music Theatre Dance Style I. Effective: Spring 2006 Prerequisite: DANCE 371

DANCE 380 Dance Programming (2) Theoretical and practical experiences in dance production and implementation of dance programs in various environments. Effective: Summer 1999

DANCE 381 Dance Composition I (2) Introduction to the basic principles and craft of choreography. Effective: Spring 2006

DANCE 385 Leadership Practicum: Dance (1) Supervised experiences in teaching and assisting with the teaching of dance techniques.
Effective: Spring 2000  
Prerequisite: DANCE 362  

DANCE 399 (IL) Dance Foreign Study (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2011

DANCE 431 Advanced Ballet I (1.5) An advanced ballet training course.  
Effective: Spring 2006  
Prerequisite: DANCE 232  

DANCE 432 Advanced Ballet II (1.5) A continuation of Advanced Ballet I to augment technical proficiency.  
Effective: Spring 2006  
Prerequisite: DANCE 431  

DANCE 441 Advanced Jazz I (1.5) An advanced course in the techniques of jazz dance.  
Effective: Spring 2006  
Prerequisite: DANCE 242  

DANCE 442 Advanced Jazz II (1.5) A continuation of Advanced Jazz I to augment technical proficiency.  
Effective: Spring 2006  
Prerequisite: DANCE 441  

DANCE 451 Advanced Tap I (1.5) An advanced course in the techniques of tap dance.  
Effective: Spring 2006  
Prerequisite: DANCE 252  

DANCE 452 Advanced Tap II (1.5) A continuation of Advanced Tap I to augment technical proficiency.  
Effective: Spring 2006  
Prerequisite: DANCE 451  

DANCE 461 Advanced Modern Dance I (1.5) Development of dance technique and movement combinations on the advanced level.  
Effective: Spring 2006  
Prerequisite: DANCE 262  

DANCE 462 Advanced Modern Dance II (1.5) A continuation of Advanced Modern Dance I to augment technical proficiency.  
Effective: Spring 2006  
Prerequisite: DANCE 461  

DANCE 480 Choreographic Projects (2) Choreographic practicum experiences for concert performances.  
Effective: Spring 2006  
Prerequisite: DANCE 381  

DANCE 482 Introduction to Laban Movement Analysis (3) Observe and analyze movement elements by exploring concepts of Body, Effort, Shape, and Space to increase personal communication and expression.  
Effective: Summer 1999  

DANCE 484 (US;IL) Dance History (3) Survey of dance history concerning perspectives of culture, race, and gender with a focus on Nineteenth and Twentieth centuries.  
Effective: Fall 2006  

DANCE 485 Contemporary Dance Repertory (1-2) An advanced dance course in the choreographic process with emphasis on original choreography in performance.  
Effective: Spring 2006  

DANCE 487 Advanced Hip Hop Dance (1.5) Advanced Hip Hop Dance reinforces and expands concepts from Beginning Hip Hop Dance. Free expression of the body, freestyle, and choreography are emphasized.  
Effective: Summer 2007  
Prerequisite: DANCE 283  

DANCE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.  
Effective: Spring 1999  

DANCE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Spring 1999

Last Import from UCM: June 16, 2011 3:00 AM
Dickinson ScI Of Law (LAWUN)

LAWUN 381 Equal Rights (2) This course examines cases interpreting the Equal Protection guarantees of the Fifth and Fourteenth Amendments to the United States Constitution.
Effective: Summer 2003

LAWUN 382W Legal Writing (3) Intensive writing, editing, and oral advocacy course focusing on drafting legal memoranda and briefs.
Effective: Summer 2003

Last Import from UCM: June 16, 2011 3:00 AM
Dietetic Food Systems Management (D S M)

D S M 195 Field Experience in Community Dietetics (3) Planning, preparation, and field experiences in community dietetic programs.
Effective: Summer 2011
Prerequisite: 3 credits in sociology

D S M 250 (HRIM 250) Principles of Quantity Food Production (3) Principles and methods of quantity food production including preparation techniques, quality control and evaluation, and cost control.
Effective: Fall 2007

D S M 260 Management and Analysis of Quantity Food (4) Principles of management applied to menu planning, purchasing, food and labor costing, and analysis for the institutional food service setting.
Effective: Spring 1996
Prerequisite: D S M 250

D S M 295A Field Experience in Foodservice Management (1-4) Supervised experience in a foodservice operation: analysis of food service systems.
Effective: Summer 2011

D S M 295W Professional Staff Field Experience (4) Methods of, and practice in, the client-oriented dietetic systems.
Effective: Summer 2011
Prerequisite: D S M 195; NUTR 251

D S M 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2003

Last Import from UCM: June 16, 2011 3:00 AM
Early Childhood Education (E C E)

E C E 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E C E 451 Instruction in Early Childhood Education Derived from Development Theories (3) Curriculum and instruction for early childhood education; program practice with pluralistic theoretical foundations for early childhood education.
Effective: Spring 2007
Prerequisite: HD FS 229, HD FS 428, HD FS 429 or PSYCH 212

E C E 452 Approaches to Contemporary Early Childhood Education Programs (3) Description and analysis of early childhood programs; cycles, trends, progressions in early childhood education.
Effective: Spring 1992
Prerequisite: E C E 451

E C E 453 Parent Involvement in Home, Center, and Classroom Instruction (2-3) Parent involvement, programs, and methodologies that strengthen bonds between home and community for educators of children.
Effective: Spring 1992
Prerequisite: 6 credits in education

E C E 454 (HD FS 454) Development and Administration of Child Service Programs (3) Planning, administering, and evaluating child service programs at several administrative levels using methods from relevant disciplines.
Effective: Spring 1992
Prerequisite: HD FS 453; C I 295 or HD FS 330

E C E 479 The Young Child's Play as Educative Processes (3) Young child's play as educative processes and uses of materials in curricular settings are examined.
Effective: Spring 2007
Prerequisite: E C E 451; HD FS 229 or HD FS 429 or PSYCH 415

E C E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1991

E C E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1991

E C E 497A Documentary Filmmaking and Childhood Studies (3) Students will learn about, watch & create documentary film about children & childhood. Seminar explores investigative documentary filmmaking as medium for research and critical advocacy on children and childhood.
Effective: Summer 2011 Ending: Summer 2011

E C E 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Earth Sciences (EARTH)

EARTH 002 (GN) The Earth System and Global Change (3) An interdisciplinary introduction to the processes, interactions and evolution of the earth's biosphere, geosphere and hydrosphere. Effective: Fall 2007

EARTH 100 (GN) Environment Earth (3) Natural processes and their relationship to anthropogenic influences. General principles of global cycles and the role they play in natural hazards, global warming, ozone depletion, etc. Effective: Fall 2004

EARTH 103 (GN) Earth in the Future: Predicting Climate Change and Its Impacts Over the Next Century (3) Climate predictions for the coming century are utilized to examine potential impacts on regions, sectors of society, and natural ecosystems. Effective: Summer 2000

EARTH 105 (GN;IL) (AAA S 105) Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, and natural resources. Effective: Summer 2005

EARTH 150 (GN) Dinosaur Extinctions and Other Controversies (3) Dinosaur extinctions and other major and controversial events in the history of life. Effective: Spring 2004

EARTH 202 Modeling the Earth System (3) A quantitative introduction to the evolution of Earth's biosphere, atmosphere, and hydrosphere, with emphasis on the carbon cycle and climate. Effective: Summer 2009 Prerequisite: MATH 140 or MATH 110 or MATH 083; CHEM 110

EARTH 240 Coral Reef Systems (3) The geography, geology, and chemistry of coral reef ecosystems; threats to reef environments; and techniques for reef surveying and monitoring. Effective: Summer 2005 Ending: Fall 2011 Prerequisite: Prerequisite or concurrent: KINES 045 or Nationally Recognized Scuba Certification

EARTH 240 (GN) Coral Reef Systems (4) The geography, geology, biology ecology and chemistry of coral reef ecosystems; threats to reef environments; and techniques for reef surveying and monitoring; with local geologic and distant modern field studies. Effective: Spring 2012 Future: Spring 2012 Prerequisite: Prerequisite or concurrent: KINES 045 or Nationally Recognized Scuba Certification

EARTH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

EARTH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

EARTH 297B (SCIED 297B) Fundamentals of Climate Science (3) Address the meaning, variability and change of climate over time as a result of natural and man-made processes. Course is geared toward elementary ed majors, but could also be appropriate for EMS students interested in reform- based science education. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EARTH 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
EARTH 400 Earth Sciences Seminar (3) Interdisciplinary study of environmental problems in the earth sciences. Effective: Spring 2001
Prerequisite: seventh-semester standing in the Earth major

EARTH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2001
Prerequisite: prior approval of proposed assignment by instructor

EARTH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

EARTH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

EARTH 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992
Earth and Mineral Sciences (EM SC)

EM SC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

EM SC 100S (GWS) Earth and Mineral Sciences First-Year Seminar (3) Writing, speaking, and critical thinking skills applied to topics of general interest in Environmental and Materials Science.
Effective: Spring 2001

EM SC 101 (US;IL) Resource Wars (3) "Resource Wars" presents an analysis of natural resources and how competition for them shapes national and international cultures and geopolitics.
Effective: Summer 2006

EM SC 121 (GN) Minerals and Modern Society (3) Production and use of mineral resources in modern society with an emphasis on the interrelationships and their effect on the Earth system.
Effective: Summer 1996

EM SC 150 (GN;IL) (S T S 150) Out of the Fiery Furnace (3) A history of materials, energy and man, with emphasis on their interrelationships. For nontechnical students.
Effective: Spring 2006

EM SC 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

EM SC 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2007

EM SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

EM SC 297G Global Sustainability Stewardship (3) Course focused on sustainability and alternative energy in consultation with Global Renewable Energy Education Network (GREEN) in Costa Rica.
Effective: Summer 2011 Ending: Summer 2011

EM SC 297G Global Sustainability Stewardship (3) Course focused on sustainability and alternate energy in consultation with Global Renewable Energy Education Network (GREEN).
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EM SC 300 Professional e-Portfolio Development (1 per semester) Design, creation and critique of on-line portfolios for personal and professional development. This course is for second-, third-, and fourth- year EMS students.
Effective: Summer 2010

EM SC 302 Orientation to Energy and Sustainability Policy (1) Orientation to goals of the Energy and Sustainability Policy program and resources available to help students succeed.
Effective: Summer 2010

EM SC 420 (SOC 420, S T S 420) Energy and Modern Society (3) Technology and economics of energy resources, production, and consumption; environmental factors, exhaustion, new technology.
Effective: Fall 1986

EM SC 440 Science Diving (3) Advanced scuba diving skills applied to underwater research.
Effective: Summer 2003 Ending: Fall 2011
Prerequisite: basic and second level open water scuba certification from an internationally recognized certification agency and a minimum of 20 additional logged dives beyond the basic certification dives.

EM SC 440 Science Diving (4) Advanced scuba diving skills applied to underwater research.
Prerequisite: basic open water SCUBA certification and approval of program

EM SC 441 Advanced Science Diving (4) Advanced scuba diving skills applied to underwater data collection and research.
Effective: Summer 2011
Prerequisite: successful completion of EM SC 440 or waiver by University Dive Safety Officer based on acceptable
demonstration of practical and academic dive experience

EM SC 470W Undergraduate Collaborative Research in Earth and Materials Sciences (3-6) Interdisciplinary research
seminar involving students in the process of discovery, writing, and debate on issues of broad interest to Earth and
Materials Sciences.
Effective: Spring 1998

EM SC 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual
or small-group basis.
Effective: Spring 1994

EM SC 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an
individual or small-group basis.
Effective: Fall 2007

EM SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an
individual basis and which fall outside the scope of formal courses.
Effective: Spring 2003

EM SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
that may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 16, 2011 3:00 AM
Economics (ECON)

ECON 014 (GS) Principles of Economics (3) Analysis of the American economy, emphasizing the nature and interrelationships of such groups as consumers, business, governments, labor, and financial institutions. Students who have passed ECON 002 or 004 or are registered in the College of Business Administration may not schedule this course. Effective: Spring 2003

ECON 102 (GS) Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution. Effective: Spring 2011

ECON 102H (GS) Honors Introductory Microeconomic Analysis and Policy (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution. Effective: Summer 2011

ECON 104 (GS) Introductory Macroeconomic Analysis and Policy (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Spring 2011

ECON 104H (GS) Honors Introductory Macroeconomic Analysis and Policy (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Summer 2011

ECON 104H (GS) Introductory Macroeconomic Analysis and Policy (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ECON 106 Statistical Foundations for Econometrics (3) Basic statistical concepts used in economics. Topics include probability distributions, expectations, estimation, hypothesis testing, correlation, and simple regression. Students who have completed ECON 306 may not schedule this course. Effective: Spring 2011

ECON 106H Statistical Foundations for Econometrics (3) Basic statistical concepts used in economics. Topics include probability distributions, expectations, estimation, hypothesis testing, correlation, and simple regression. Students who have completed ECON 306 may not schedule this course. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

ECON 197 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

ECON 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ECON 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994
ECON 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2008

ECON 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

ECON 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ECON 302 (GS) **Intermediate Microeconomic Analysis** (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools. Effective: Spring 2011 Prerequisite: ECON 102

ECON 302H (GS) **Intermediate Microeconomic Analysis (Honors)** (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools. Effective: Spring 2011 Prerequisite: ECON 102 and MATH 110 or MATH 140

ECON 304 (GS) **Intermediate Macroeconomic Analysis** (3) Analysis of forces that determine the level of aggregate economic activity. Effective: Spring 2011 Prerequisite: ECON 104

ECON 304H (GS) **Intermediate Macroeconomic Analysis (Honors)** (3) Analysis of forces that determine the level of aggregate economic activity. Effective: Spring 2011 Prerequisite: ECON 104 and MATH 110 or MATH 140

ECON 306 **Introduction to Econometrics** (3) The implementation of statistical techniques to analyze data and address economic questions. Econometric results are produced and assessed. Effective: Spring 2010 Prerequisite: ECON 106

ECON 306H **Introduction to Econometrics** (3) The implementation of statistical techniques to analyze data and address economic questions. Econometric results are produced and assessed. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011 Prerequisite: ECON 106

ECON 306H **Introduction to Econometrics** (3) The implementation of statistical techniques to analyze data and address economic questions. Econometric results are produced and assessed. Effective: Spring 2012 Future: Spring 2012 Prerequisite: ECON 106 or ECON 390; MATH 110 or MATH 140

ECON 315 (GS) **Labor Economics** (3) Economic analysis of employment, earnings, and the labor market; labor relations; related government policies. Effective: Spring 2011 Prerequisite: ECON 102

ECON 323 (GS) **Public Finance** (3) Contemporary fiscal institutions in the United States; public expenditures; public revenues; incidence of major tax types; intergovernmental fiscal relations; public credit. Effective: Spring 2011 Prerequisite: ECON 102

ECON 333 (GS) **International Economics** (3) Why nations trade, barriers to trade, balance of payments adjustment and exchange rate determination, eurocurrency markets, and trade-related institutions. Effective: Spring 2011 Prerequisite: ECON 102, ECON 104 or ECON 014

ECON 342 (GS) **Industrial Organization** (3) Industrial concentration, size, and efficiency of business firms, market structure and performance, competitive behavior, public policy and antitrust issues. Effective: Spring 2011 Prerequisite: ECON 102

ECON 351 **Money and Banking** (3) Money, credit, commercial and central banking, financial intermediaries, treasury operations, monetary theory and policy, and foreign exchange. Students who have already taken Econ. 451 may not schedule this course. Effective: Spring 2011 Prerequisite: ECON 102 or ECON 104

ECON 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996 Prerequisite: prior approval of proposed assignment by instructor
ECON 397 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

ECON 397A Economics as a Career (1) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ECON 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ECON 400M Honors Seminar in Economics (3-12) Readings, discussion, and oral and written reports on selected topics in economics.
Effective: Spring 1993
Prerequisite: ECON 302, ECON 304 fifth-semester standing admission into Honors program

ECON 401 History of Economic Thought (3) Survey of economic ideas from Greco-Roman times to the present.
Effective: Spring 2001
Prerequisite: ECON 302 or ECON 304

ECON 402 Decision Making and Strategy in Economics (3) Development and application of the tools for decision making under uncertainty and for game theoretic analysis of economic problems.
Effective: Spring 2007
Prerequisite: ECON 302; SCM 200 or STAT 200

ECON 403W The Economics of Arts and Entertainment (3) Supply and demand of creative goods and services; industry structure; role of information; policy issues.
Effective: Summer 2008
Prerequisite: ECON 302 and ECON 490

ECON 404W Current Economic Issues (3) An analytical survey of significant problems of current economic policy and the application of economic analysis to important social issues.
Effective: Spring 1993
Prerequisite: ECON 302 or ECON 304

ECON 406W The Economics of Social Conflict (3) Economic theory of the resolution of social conflicts: social choice theory, voting, noncooperative games, voluntary trade, and allocation by force.
Effective: Summer 2008
Prerequisite: ECON 402 and MATH 110 or MATH 140

ECON 407W Political Economy (3) Applications of the tools of game theory to analyze topics in collective decision making.
Effective: Summer 2008
Prerequisite: ECON 402

ECON 408W Intellectual Property (3) A comparative and cost-benefit analysis of intellectual property that examines patents, copyrights, government supported research, and prizes.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

ECON 409W Economics of Terrorism (3) Terrorism throughout history; economic causes, costs, sources, and consequences.
Effective: Summer 2008
Prerequisite: ECON 402

ECON 410 Economics of Labor Markets (3) Economic analysis of the employment relationship from the microeconomic perspective, with emphasis on current labor-market problems and public policy issues.
Effective: Spring 2011
Prerequisite: ECON 102

ECON 411W Behavioral Economics (3) Topics in behavioral economics; selected games; evolutionary models of social behavior; culture and social behavior; herding; overconfidence.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

Effective: Spring 2009
Prerequisite: ECON 302 or ECON 315

ECON 413W Economic Growth and the Challenge of World Poverty (3) Economic prosperity in historical perspective; recent successes (East Asia, China, India); ongoing challenges (the bottom billion; sub-Saharan Africa).
Effective: Summer 2008
Prerequisite: ECON 471

ECON 414W The Economic Way of Looking at Life (3) Economics/life according to Gary Becker: criminal behavior; economics of the family (marriage, divorce, intrahousehold resource allocation, bequests), policy issues.
Effective: Summer 2008
Prerequisite: ECON 412

**ECON 415W The Economics of Global Climate Change** (3) Evidence on climate change; economic models of the environment and market failure; cost-benefit analysis of policy options; carbon markets.
Effective: Summer 2008
Prerequisite: ECON 428

**ECON 417W The Economics of Uncertainty** (3) Uncertainty is examined in contracts, with an emphasis on limited liability. Asymmetric information and economic puzzles are also considered.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

**ECON 418W A Comparative and Cost-Benefit Analysis of State Government Activities** (3) This course examines federalism with a particular focus on the activities undertaken by the state of Pennsylvania.
Effective: Summer 2008
Prerequisite: ECON 490

**ECON 421 Analysis of Economic Data** (3) Economic analysis of data: sources, variable definitions, miscodings, missing observations, censoring and truncation, applications.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 451; ECON 490

**ECON 422W Applying Monetary Theory to Monetary History** (3) Monetary history is examined. Special attention is paid to commodity-based systems, private money, and government monopolies on currency.
Effective: Summer 2008
Prerequisite: ECON 451

**ECON 424 Income Distribution** (3) Inequality and poverty in the United States, measurement problems, determinants of inequality, arguments for and against equality, impact of redistributive policies.
Effective: Fall 1992
Prerequisite: ECON 302, ECON 315 or ECON 323

**ECON 425 Economics of Public Expenditures** (3) Analytic and policy aspects of public expenditure decisions; applications from areas of contemporary public interest.
Effective: Summer 1992
Prerequisite: ECON 302 or ECON 323

**ECON 428 Environmental Economics** (3) Environmental pollution, the market economy, and optimal resource allocation; alternative control procedures; levels of environmental protection and public policy.
Effective: Summer 1992
Prerequisite: ECON 302 or ECON 323

**ECON 429 Public Finance and Fiscal Policy** (3) Analysis of public revenue and expenditure structure primarily at the federal level; federalism; fiscal policy and public debt.
Effective: Fall 1983
Prerequisite: ECON 302; ECON 323 or ECON 304

**ECON 430 Regional Economic Analysis** (3) Analysis of personal and industrial location decisions, regional economic growth, migration patterns, and regional policy; emphasis on tools and techniques.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104

**ECON 432 Urban Economics** (3) Theories and methods for economic analysis of such urban problems as housing, segregation, government services, and transportation.
Effective: Summer 1992
Prerequisite: ECON 302 or ECON 323

**ECON 433 Advanced International Trade Theory and Policy** (3) Causes/consequences of trade; effects of tariffs and quotas; strategic trade policy; political economy of trade restrictions and other topics.
Effective: Summer 1992
Prerequisite: ECON 302 or ECON 333

**ECON 434 International Finance and Open Economy Macroeconomics** (3) Trade balance movements, exchange rate determination; monetary and fiscal policies in open economies; international policy coordination; the world monetary system.
Effective: Spring 1992
Prerequisite: ECON 304 or ECON 333

**ECON 436W (US) Economics of Discrimination** (3) Analysis of the economic characteristics of women and minorities, with examination of race and sex discrimination and related government policies.
Effective: Fall 2007
Prerequisite: ECON 302 or ECON 315

**ECON 437W Multinationals and the Globalization of Production** (3) This course will focus on trade, multinationals and offshoring, and explore their implications for the U.S. and developing countries.
Effective: Summer 2008
Prerequisite: ECON 433

**ECON 438W Winners and Losers from Globalization** (3) The economic effects of globalization on individuals, governments, nation-states and business.
Effective: Summer 2008

The Pennsylvania State University
ECON 439 Economics of Technology Diffusion (3) Technology Diffusion: Globalization, productivity measurement, intellectual property.
Effective: Summer 2008
Prerequisite: ECON 433

ECON 440 Trade and Labor Markets (3) International trade and its impacts on markets in industrialized and development economies; low-skilled workers in the emerging global economy.
Effective: Summer 2008
Prerequisite: ECON 433

ECON 442 Managerial Economics (3) Application of economic theory to managerial decision making; risk, uncertainty; models and statistical techniques.
Effective: Spring 2011
Prerequisite: ECON 102

ECON 443 Economics of Law and Regulation (3) An economic analysis of property rights, contractual arrangements, illegal activities, and regulation; competitive problems due to externalities and market failure.
Effective: Summer 1992
Prerequisite: ECON 302 or ECON 342

ECON 444 Economics of the Corporation (3) Coordination and incentive issues within a corporation. Topics include employment contracts, performance incentives and pricing of financial assets.
Effective: Summer 1997
Prerequisite: ECON 302

ECON 445 (H P A 445) Health Economics (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 1994
Prerequisite: ECON 302, ECON 315 or ECON 323

Effective: Spring 2008
Prerequisite: ECON 302, ECON 315 or ECON 323

ECON 446W Economics of Industry Evolution (3) Dynamics of industry evolution; empirical evidence and theoretical modeling of firm entry, growth, and exit; entrepreneurship; investment and strategic behavior.
Effective: Summer 2008
Prerequisite: ECON 444 and ECON 490

ECON 447W Economics of Sports (3) Examination of economic issues pertaining to professional and collegiate sports, including analysis of industrial organization, labor markets, and local economies.
Effective: Spring 2009
Prerequisite: ECON 302 and ECON 490

ECON 448W Economics of Auctions and Procurements (3) Theoretical and empirical analyses of auctions and procurements; different modeling environments; econometric analysis of auction and procurement data.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444 and ECON 490

ECON 449W Economics of Collusion (3) Theoretical and empirical analysis of collusion among firms, case studies of cartel behavior, bidding behavior at auctions and procurements.
Effective: Spring 2008
Prerequisite: ECON 302 or ECON 342 and ECON 490 or permission of instructor

ECON 450 The Business Cycle (3) Measurement and theories of the business cycle; stabilization policies; forecasting.
Effective: Summer 1992
Prerequisite: ECON 304 or ECON 351

ECON 451 Monetary Theory and Policy (3) Monetary and income theory; monetary and fiscal policy.
Effective: Winter 1978
Prerequisite: ECON 304 or ECON 351

ECON 452W Financial Crises (3) Examination of causes and consequences of financial crises; asset pricing theory, market efficiency, speculative bubbles; policy considerations.
Effective: Summer 2008
Prerequisite: ECON 451

ECON 453 Monopolization and Vertical Restraints (3) Monopolization and vertical restraints: exclusive dealing, bundling, tying, predation and entry deterrence; empirical evaluation.
Effective: Summer 2008
Prerequisite: ECON 444 and ECON 490

ECON 454 Economics of Mergers (3) Economic analysis of horizontal and vertical mergers; econometric issues in measurement of unilateral and coordinated effects; policy issues.
Effective: Summer 2008
Prerequisite: ECON 444 and ECON 490

ECON 455W Economics of the Internet (3) Economics of the Internet; electronic commerce and network economics;
ECON 457W **Economics of Organizations** (3) An advanced course in the economics of organizations. The focus is on coordination, incentives, contracts, and information in corporations.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 444

ECON 463 (IL) **Economic Demography** (3) Microeconomics of demographic behavior; interrelationships between demographic and economic factors, in developing and industrialized economies; economic welfare and policy implications.
Effective: Spring 2006
Prerequisite: ECON 302 or ECON 304; or 9 credits in demography

ECON 463W **Economic Demography** (3) Microeconomics of demographic behavior; interrelationships between demographic and economic factors, in developing and industrialized economies; economic welfare and policy implications.
Effective: Summer 2008
Prerequisite: ECON 412 or ECON 471 or 9 credits in demography

ECON 465W **Cross Sectional Econometrics** (3) Discrete choice models, censored and truncated regression models, longitudinal models, applications.
Effective: Summer 2008
Prerequisite: ECON 302 and ECON 490

ECON 466W **Panel Data Models** (3) Random and fixed effects, endogeneity, balanced and unbalanced panels, censoring of spells, differences in differences, applications.
Effective: Summer 2008
Prerequisite: ECON 302 and ECON 490

ECON 470 (IL) **International Trade and Finance** (3) Economic analysis of why nations trade, barriers to trade, the international monetary system, and macroeconomic policy in an open economy.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104

ECON 471 **Growth and Development** (3) Problems of capital formation, institutional considerations, theories of economic growth.
Effective: Summer 2011
Prerequisite: ECON 302 or ECON 304 or ECON 372

ECON 472 **Transition to Market Economies** (3) Economics of transition to a market economy; problems of former Soviet-type economies; privatization, stabilization, and institutional change.
Effective: Fall 2005
Prerequisite: ECON 302 or ECON 304

ECON 473 (IL) **China in the Global Economy: History, Culture, and Society** (3) Analysis of China's role in the global economy and the impact on U.S. as well as global business and society.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104 or permission of program

ECON 475W **Migration and Development** (3) Human Capital Approach to Migration; Economics of Family Migration; Evidence: Micro and Macro Perspectives; Migration Policies.
Effective: Summer 2008
Prerequisite: ECON 471 or ECON 412; ECON 490

ECON 476W **The Economics of Fertility in the Developing World** (3) Demand for children, supply of children, and costs of fertility regulation; fertility transition; public policies to affect fertility.
Effective: Summer 2008
Prerequisite: ECON 471 and ECON 490

ECON 477 **Labor Markets in Developing Countries** (3) Labor demand and supply in developing countries; urban and rural labor markets, modern and informal sectors; policy issues.
Effective: Summer 2008
Prerequisite: ECON 471 or ECON 412

ECON 478 **Incomplete Markets** (3) Rural land markets, fragmented credit markets, risk and insurance, human capital and labor markets, innovation and technology spillovers, coordination failures.
Effective: Summer 2008
Prerequisite: ECON 471

ECON 479W **Economics of Matching** (3) Economic application of matching to employment, marriage, organ markets, and medical residents.
Effective: Summer 2008
Prerequisite: ECON 402 or ECON 412 or ECON 444

ECON 480 **Mathematical Economics** (3) Mathematical techniques employed in economic analysis; formal development of economic relationships.
Effective: Summer 1992
Prerequisite: ECON 302, ECON 304, MATH 110
ECON 481 Business Forecasting Techniques (3) A survey of contemporary business forecasting techniques, with emphasis on smoothing, decomposition, and regression techniques.
Effective: Spring 2008
Prerequisite: SCM 200 or STAT 200

ECON 483 Economic Forecasting (3) Forecasting time series, using linear regression models and econometric software; useful forecasting models; financial and seasonal time series; trends.
Effective: Summer 2008
Prerequisite: ECON 490

ECON 485 Econometric Techniques (3) Applying statistical techniques to test and explain economic relationships; integration of economic theory with observed economic phenomena.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104; SCM 200 or STAT 200

ECON 489M Honors Thesis (1-6) No description.
Effective: Spring 1993
Prerequisite: ECON 302, ECON 304 and admission into the departmental honors program

ECON 490 Introduction to Econometrics (3) Use of simple and multiple regression models in measuring and testing economic relationships. Problems including multicollinearity, heteroskedasticity, and serial correlation.
Effective: Summer 2000
Prerequisite: MATH 110, ECON 390

ECON 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

ECON 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

ECON 495 Internship (1-18) Supervised off-campus, non-group instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite: prior approval of proposed assignment by instructor

ECON 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ECON 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ECON 497A Economics of Energy and Energy Security (3) Study of energy supply and security, energy markets, environmental impacts of energy use, and prospects for energy transitions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ECON 302 and ECON 304

ECON 497B Economics of Sports (3) Examination of economics issues pertaining to professional and collegiate sports, including analysis of industrial organization, labor markets, and local economies.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ECON 302

ECON 497B Housing Markets and Housing Policy (3) This course will review the economics of housing markets, at both the local and national levels, and past and current housing policies. The financial environmental, and societal contexts of housing will be emphasized, along with housing's role in the 2007-9 crash, and policy going forward.
Prerequisite: ECON 002 or ECON 102

ECON 499 (IL) Foreign Study--Economics (2-6) Study in selected countries of economic institutions and current economic problems.
Effective: Spring 2011
Prerequisite: ECON 102, ECON 104

Last Import from UCM: June 16, 2011 3:00 AM
**Educ Leadership Prog (EDLDR)**

EDLDR 405 (C I 405) **Strategies in Classroom Management** (3) Managing and coping with disruptive student behavior in instructional settings so that they support the teaching/learning process.
Effective: Fall 2008
Prerequisite: teaching experience or supervised practicum experience

EDLDR 409 **Leadership Studies in Popular Film** (3) In-depth analysis of leadership dynamics revealed in popular film. Focus on cinematic depictions of theory and practical application of leadership.
Effective: Summer 2006
Prerequisite: EDTOI 115 junior standing or permission of program

EDLDR 427 **Economics of Education** (3) Theoretical and empirical concepts in economics applied to education.
Effective: Summer 2011
Prerequisite: ECON 302, ECON 315 orEDLDR 480

EDLDR 476 **The Teacher and the Law** (3) An introduction to education law as it affects the teacher.
Effective: Fall 2004
Prerequisite: 9 credits in education or the social sciences

EDLDR 480 **Introduction to Educational Leadership** (3) Development of educational leadership. Relationships among local, state, and federal agencies. Introduction to current concepts and theories.
Effective: Fall 2004
Prerequisite: 3 credits in social science sociology anthropology community development business administration or political science

EDLDR 485 **Principal as Instructional Leader** (3) Knowledge and skills principals need to lead instructional design and implementation.
Effective: Fall 2004
Prerequisite: EDLDR 480

EDLDR 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2004

EDLDR 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2004

EDLDR 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2004

EDLDR 498A **The Law and Education Institute for Teachers** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Education (EDUC)

EDUC 100S First-Year Seminar in Education (3) Learning about a scholarly community through the development of knowledge and skills needed for successful participation in higher education.
Effective: Fall 2007

EDUC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

EDUC 199 (IL) Foreign Studies (1-12) Study of educational topics in a country other than the United States.
Effective: Summer 2007

EDUC 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EDUC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

EDUC 297A The New Face of Education: Seminar for ELL Future Educators (3) Students will explore issues such as navigating the American Educational system, the role of ELL in the education field, etc.

EDUC 302 Basic Preparation for Teaching (3) Philosophical, psychological issues in education; instructional objectives, lesson planning; evaluation, grading procedures; assessment, instruction of individual children. Field experience.
Effective: Spring 2001
Prerequisite: admission into Elementary Education Major

EDUC 303 Sensitivity to Special Learners (3) This course is designed to examine the procedures, characteristics and strategies for working with special learners in the elementary school.
Effective: Spring 2005
Prerequisite: seventh-semester standing in Elementary Education Major

EDUC 304 Classroom Organization and Management (3) Organization, integration of the elementary school day; classroom management, control techniques; audio-visual techniques.
Effective: Spring 2001
Prerequisite: sixth-semester standing in Elementary Education Major

EDUC 305 Creative Arts (3) Experiences in self-expression through a variety of artistic media. Techniques for guiding children in artistic expression.
Effective: Spring 2001
Prerequisite: admission into Elementary Education Major

EDUC 313 Field Observation (2) Observation techniques; classroom observation and participation.
Effective: Spring 2001
Prerequisite: admission into Secondary Teacher Certification Program. Prerequisite or concurrent:EDUC 314

Effective: Spring 2001
Prerequisite: admission into Secondary Teacher Certification Program. Prerequisite or concurrent:EDUC 313

EDUC 315W (US) Social and Cultural Factors in Education (3) Critical examination of how different experiences linked to race, ethnicity, religion, gender, and sexual orientation influence education.
Effective: Spring 2011
Prerequisite: admission into Elementary Education Major or Secondary Teacher Certification Program

EDUC 320 Methods in Teaching Beginning Readers (3) Concepts, methods, and materials for developing beginning reading abilities, with emphasis on personalized instruction through diagnostic teaching.
Effective: Spring 2001
Prerequisite: sixth-semester standing in Elementary Education Major

EDUC 321 Methods in Teaching Intermediate and Advanced Readers (3) Concepts, methods, and materials for personalizing reading instruction with emphasis on extending personal and functional reading abilities beyond beginning
EDUC 322 Adolescent Literature and Developmental Reading (3) Adolescent literature materials, reading principles, and practices suitable for an English class. Effective: Spring 2001  
Prerequisite: admission into Secondary English Certification Program

EDUC 352 Teaching Language Arts (3) Teaching the writing process, including speaking and listening skills in relation to oral and written composition. Effective: Spring 2001  
Prerequisite: sixth-semester standing in Elementary Education Major

EDUC 353 Teaching Elementary Social Studies (3) The theory and practice of elementary social studies instruction. Effective: Spring 2001  
Prerequisite: seventh-semester standing in Elementary Education Major

EDUC 371 Teaching Music in the Elementary School (3) Music methods course for elementary education majors; students will learn elements of music, and instructional techniques. Effective: Spring 2001  
Prerequisite: seventh-semester standing in Elementary Education Major

EDUC 385 Professional Development in Teaching (3) This course addresses practical issues central to the profession of teaching and, in some cases, specific to Pennsylvania. Effective: Spring 1995  
Prerequisite: eight-semester standing approval of program

EDUC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2010

EDUC 397B Urban Teaching Collaborative Afterschool Online Tutoring Program (1) Future teachers provide education support and mentorship to elementary school students from Isaac Sheppard Elementary Schools. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDUC 400 Diversity and Cultural Awareness Practices in the K-12 Classroom (3) This course addresses diversity, cultural awareness and sensitivity about cultures, concepts and methods in society, communities and educational settings. Effective: Summer 2008

EDUC 401 Early Childhood Education (3) Organization, methodology, and materials for nursery school and kindergarten programs. Effective: Winter 1981

EDUC 403 Curriculum for Early Childhood (3) Examining early childhood programs and methodology, focusing on areas of social studies, mathematics, and science. Effective: Winter 1981

EDUC 405 Early Childhood Education: Infancy and Toddlerhood (3) Models of infant development with focus on the first three years of life--cognitive and socio-emotional milestones will be analyzed. Effective: Spring 2005

EDUC 406 Human Sexuality (3) Examination of physiology, diseases, attitudes, morality, and controversial topics related to sexuality. Consideration of sex education in the school curriculum. Effective: Winter 1981

EDUC 408 Administration of Early Childhood Education Programs (3) The role of the early childhood administrator as it relates to regulations, staffing, management, funding and curriculum.

The Pennsylvania State University
EDUC 410 The Child and Social Institutions (3) The effects of the family on a child's development, especially in the infancy and preschool years.

Effective: Winter 1981

EDUC 412 Early Literacy Intervention I (3) Participants will better understand factors affecting early reading behavior through diagnostic techniques, observation techniques, and literacy intervention strategies.

Effective: Summer 1996
Prerequisite: permission of the program

EDUC 414 Early Literacy Intervention II (3) Participants will continue to learn skills, knowledge, and experience processes to implement the early literacy intervention program.

Effective: Summer 1996
Prerequisite: EDUC 412

EDUC 415 Teaching Secondary Social Studies (3) Study of the objectives, content, methods, and evaluation of procedures of social studies. Students design units and lesson plans.

Effective: Spring 2011
Prerequisite: EDUC 314, EDUC 315W and admission into Secondary Social Studies Certification Program

EDUC 416 Teaching Secondary English and the Humanities (3) Study of the objectives, content, and methods of English and humanities courses.

Effective: Spring 2011
Prerequisite: EDUC 314, EDUC 315W and admission into Secondary English Certification Program

EDUC 417 Teaching Secondary Mathematics (3) Study of the objectives, content, methods, and evaluation procedures of mathematics.

Effective: Spring 2011
Prerequisite: EDUC 314, EDUC 315W and admission into Secondary Mathematics Certification Program

EDUC 418 Positive Classroom Climate for Positive Attitudes About Learning (3) Participants will learn strategies for creating classroom climates which encourage positive attitudes toward learning while preventing and correcting student misbehavior.

Effective: Summer 1995
Prerequisite: permission of program

EDUC 421 Children's Literature (3) Knowledge of literature appropriate for elementary school children and utilization of literature-related activities in teaching reading.

Effective: Spring 2001
Prerequisite: admission into Elementary Education Major

EDUC 422 Literature for Children and Adolescents (3) Literature for children and adolescents, approaches for using such literature in the school curriculum.

Effective: Fall 2008

EDUC 424 Folk and Fairy Tales (3) In this course students will examine the social and psychological significance of folk tales, make cross-cultural comparisons, and study story grammars of these stories.

Effective: Summer 1991
Prerequisite: 6 credits in humanities

EDUC 425 Literacy Assessment (3) This course emphasizes alternative literacy measures focusing on portfolio assessment and performance assessments.

Effective: Spring 1997
Prerequisite: permission of the program

EDUC 432 Children's Literature in Teaching Writing (3) Introduction to introduces methods for transferring writing skills and literary devices from literature to student writing in all subject areas.

Effective: Summer 2008

EDUC 435 Addressing the Needs of Special Learners (1) An examination of attitudes toward, barriers experienced by, and special needs of special learners in the schools.

Effective: Spring 2001
Prerequisite: eighth-semester standing in Secondary Teacher Certification Program

EDUC 436 Inclusion Practices in Education (3) The educational, social, and political foundations for inclusion practices in public education.

Effective: Summer 1995
Prerequisite: permission of program

EDUC 440 Educational Statistics and Measurements (3) Descriptive statistics, correlation, reliability, validity, scaling techniques, and introduction to item analysis.

Effective: Winter 1981

EDUC 450 Current Topics in Education (1-15) No description.

Effective: Fall 1983
EDUC 452 Teaching Writing (3) Techniques for teaching the writing process, kindergarten through grade 12, including writing in content areas; workshop format.
Effective: Fall 1983

EDUC 458 Behavior Management Strategies for Inclusive Classrooms (3) Provides knowledge and skills essential for designing positive learning environments in secondary classrooms with the inclusion of exceptional learners.
Effective: Summer 2009
Prerequisite: admission to teacher education

EDUC 459 Strategies for Effective Teaching in Inclusive Classrooms (3) Course examines effective strategies for accommodating and adapting instruction for exceptional learners in secondary classrooms.
Effective: Spring 2011
Prerequisite: EDUC 285

EDUC 460 Field Study in Ecology (4) Study and analysis of the ecology of various regions of the world. May be repeated for credit.
Effective: Summer 1995
Prerequisite: EDSCI 454

EDUC 462 Computers for Classroom Teachers (3) An introduction: microcomputers and their educational applications.
Effective: Spring 2001
Prerequisite: admission into Elementary Education Major

EDUC 463 The Internet and K-12 Education (3) Relates educational theory and practice to applications of the Internet, applying content from educational foundations, curriculum, and research.
Effective: Spring 2003
Prerequisite: EDUC 462 or approval of program.

EDUC 464 Technology and the Learning Process (3) Evaluates the relationship between technology-based resources and learning theories through design, implementation, and evaluation of online instructional modules.
Effective: Spring 2003
Prerequisite: EDUC 462 or EDUC 463 or permission of program

EDUC 465 Serving Culturally and Linguistically Diverse (CLD) Learners (3) The course provides teachers with knowledge, understandings, and skills to engage culturally and linguistically diverse (CLD) students in mainstream classrooms.
Effective: Spring 2009

EDUC 466 Foundations of Teaching English as a Second Language (3) Overview of various legal, historical, and socio-cultural implications of teaching and learning English as a Second Language.
Effective: Summer 2006
Prerequisite: permission of program

EDUC 467 English Language Structure for English as a Second Language Teachers (3) An in-depth study and review of general linguistic concepts and their application to ESL pedagogy.
Effective: Summer 2006
Prerequisite: EDUC 466 or permission of program

EDUC 468 Language Acquisition for English as a Second Language Teachers (3) Study of the theory, research, and processes involved in first and second language development, acquisition, and assessment.
Effective: Summer 2006
Prerequisite: EDUC 466 and EDUC 467 or permission of program

EDUC 469 Teaching Methods and Assessment of English as a Second Language (3) Integration of theory, research, and practice about ESL curriculum, instructional methods, assessment, and literacy development.
Effective: Summer 2006
Prerequisite: EDUC 466, EDUC 467, EDUC 468 or permission of program

EDUC 470W Higher-Order Thinking for Educators (3) Presentation of strategies, techniques, and principles of higher-order thinking which are grounded in relevant research and practice will be presented.
Effective: Fall 2006
Prerequisite: admission into Elementary Education Major

EDUC 471 Best Practices in Literacy (3) An application of best literacy practices to classroom instruction and assessment of reading, writing, listening, and speaking.
Effective: Spring 2003
Prerequisite: EDUC 320 or EDUC 321

EDUC 472 Teaching Reading Through the Content Areas (3) Designed to enable teachers of content areas to improve the reading/study skills needed by their students.
Effective: Winter 1981

EDUC 475 ESL Leadership, Research and Advocacy (3) Teachers will develop their skills as instructional leaders and researchers by conducting school-based action research projects.
Effective: Summer 2010
Prerequisite: EDUC 469
EDUC 477 Teaching Struggling Readers and Writers (3) A comprehensive overview of learning problems and effective strategies for teaching K-12 students who have difficulties reading and writing.
Effective: Spring 2008

EDUC 484 School Law for Teachers (3) This course will focus on increasing teacher awareness of law and how it impacts on daily performance and job security.
Effective: Summer 1995
Prerequisite: permission of program

EDUC 490 Student Teaching (1-12) Observation and teaching in selected elementary or secondary schools under direction of cooperating classroom teachers and University supervisors. Regular seminars. GPA 3.0 or higher. Passing scores on required Praxis I tests.
Effective: Fall 2003
Prerequisite: eight semester standing approval of program

EDUC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

EDUC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EDUC 495 Internship (1-15) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required.
Effective: Fall 1983
Prerequisite: prior approval of proposed assignment by instructor

EDUC 495A Junior Field Experience (1) Second semester juniors assigned to a suburban elementary school for the purpose of actively participating in classroom activities.
Effective: Summer 2003
Prerequisite: prior approval of proposed placement by instructor.

EDUC 495B Senior Field Experience (1) First semester seniors assigned to an urban elementary school for the purpose of actively participating in classroom activities.
Effective: Summer 2003
Prerequisite: prior approval of proposed placement by instructor.

EDUC 495C Early Childhood Field Experience (1) First semester seniors assigned to an urban elementary school for the purpose of actively participating in an early childhood classroom.
Effective: Summer 2003
Prerequisite: prior approval of proposed placement by instructor and completion of all four early childhood prerequisite courses.

EDUC 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 1983

EDUC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1983

EDUC 497A Technology and the Learning Process (3) Focus on how the internet and technology tools can become an integral tool in the teaching and learning process.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497A Action Research Reporting for Secondary Science Teachers (2) This on-line course will prepare secondary science teachers participating in the SEPA grant project to analyze data and prepare reports on their action research.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDUC 497B Literacy Assessment (3) Discover what the field's leaders learned about differentiated instruction, assessment, and tiered intervention.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497B Differentiated Instruction in Reading: Methods for Teaching Intermediate (3) A focus on research-based methods and instructional strategies used to provide literacy instruction to intermediate and advanced readers.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDUC 497C The Hispanic Experience (3) Provide teachers of Spanish language classes/ESL instruction with relevant background information regarding the culture and education of Hispanic students.
Effective: Summer 2011 Ending: Summer 2011

The Pennsylvania State University
EDUC 497D **Successful Approaches to RTI** (3) This course will focus on literacy Response to Instruction and Intervention. Models for starting and sustaining reform will be highlighted.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497E **Action Research Project for Secondary Science Teachers** (2) This on-line course will lead secondary science teachers in the SEPA grant through the IRB process and data collection for a classroom-based action research project.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497F **Science Curriculum for Secondary Teachers** (3) This course is a required element for teachers participating in the NIH-SEPA grant in collaboration with the College of Medicine. The dates for this course will be set with the COM faculty in conjunction with their summer program for high school students.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497G **Science Assessment for Secondary Teachers** (3) This course is a required element for teachers participating in the NIH-SEPA grant in collaboration with the College of Medicine. The dates for this course will be set with the COM faculty in conjunction with their summer program for high school students.
Effective: Summer 2011 Ending: Summer 2011

EDUC 497I **Myths and Truths: American History for the Classroom** (3) Examination of myths/controversies in American history and how teaching it has changed over the past century for K-12 teachers.
Effective: Summer 2011 Ending: Summer 2011

EDUC 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

EDUC 499 (IL) **Foreign Studies** (1-12) Study of educational topics in a country other than the United States.
Effective: Summer 2007
Prerequisite: permission of instructor

Last Import from UCM: June 16, 2011 3:00 AM
Education Abroad (ED AB)

ED AB 199 Temporary Education Abroad Registration (1-18) This course is used to temporarily register students that are studying overseas. Permanent courses will be entered after the student returns. Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM
Education Mathematics (EDMTH)

EDMTH 301 Mathematics in Elementary Education I (3) Survey of content, pedagogy, and psychology of mathematics instruction for pre-school through third grade. Emphasis on a concrete approach to instruction.
Effective: Spring 2001
Prerequisite: a previous course in college mathematics and formal admission into the Teacher Certification Program

EDMTH 302 Mathematics in Elementary Education II (3) Survey of content, pedagogy, and psychology of mathematics instruction for grades 4 through 8. Emphasis on a concrete approach to instruction.
Effective: Winter 1981
Prerequisite: EDMTH 301

EDMTH 432 Diagnostic and Prescriptive Mathematics: Basic Principles (3) Examination of the basic principles of diagnostic and prescriptive mathematics for elementary and secondary teachers.
Effective: Spring 1990

EDMTH 433 Diagnostic and Prescriptive Mathematics: Classroom Applications (3) The application of the diagnostic and prescriptive skills of DP Math in a practical setting and administering a laboratory program.
Effective: Spring 1990
Prerequisite: EDMTH 432

EDMTH 441 Geometry and Measurement Across the K-12 Curriculum (3) The course presents participants with investigations of reports, research, and recent trends related to teaching geometry and measurement.
Effective: Spring 2008
Prerequisite: permission of program

EDMTH 442 Algebra and Functions Across the K-12 Curriculum (3) The course presents participants with investigations of reports, research, and recent trends related to teaching algebra and function concepts.
Effective: Spring 2008
Prerequisite: permission of program

EDMTH 443 Data Analysis and Probability Across the K-12 Curriculum (3) The course presents participants with investigations of reports, research, and recent trends to teaching data analysis and probability concepts.
Effective: Spring 2008
Prerequisite: permission of program

EDMTH 444 Numbers and Operations Across the Curriculum (3) The course focuses on investigating reports, research, and recent trends related to teaching number and operation concepts K-12. A student who has passed MATH 200 may not take EDMTH 444 for credit.
Effective: Summer 2009

EDMTH 455 Current Issues in Mathematics Education (3) An examination and analysis of contemporary trends and concerns in the teaching of mathematics.
Effective: Fall 1983
Prerequisite: EDMTH 302 or EDUC 417

EDMTH 497 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1990

Last Import from UCM: June 16, 2011 3:00 AM
Education Science (EDSCI)

EDSCI 454 Modern Elementary Science Education (3) Introduction of content, methods, and materials used in modern elementary science with emphasis upon modern elementary science programs. Effective: Spring 2001
Prerequisite: seventh-semester standing in Elementary Education Major

EDSCI 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1985

Last Import from UCM: June 16, 2011 3:00 AM
Educational Psychology (EDPSY)

EDPSY 010 (GS) *Individual Differences and Education* (3) Relationships between learner differences and physical, cognitive, language, social, and cultural development; emphasis on ethnicity, gender, special needs; schooling implications. Effective: Spring 2000

EDPSY 014 *Learning and Instruction* (3) Psychology of human learning applied toward the achievement of educational goals; evaluation of learning outcomes. Effective: Fall 1973

EDPSY 014H *Learning and Instruction* (3) Psychology of human learning applied toward the achievement of educational goals; evaluation of learning outcomes. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDPSY 101 (GQ) *Analysis and Interpretation of Statistical Data in Education* (3) An introduction to quantitative methods in educational research emphasizing the interpretation of frequently encountered statistical procedures. Effective: Summer 1990

EDPSY 296 *Independent Studies* (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1990

EDPSY 297 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1990

EDPSY 297A *General Education Course Tutorial* (1) This course offers focused tutoring to improve student success in a general education course. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDPSY 400 *Introduction to Statistics in Educational Research* (3) The foundations of statistical techniques used in educational research; distributions, central tendency, variability, correlation, regression, probability, sampling, hypothesis testing. Effective: Summer 1990

EDPSY 406 *Applied Statistical Inference for the Behavioral Sciences* (3) Common techniques (parametric) covered through two-factor analysis of variance (independent samples); hypothesis testing, confidence interval, power, robustness; MINITAB frequently used. Effective: Spring 1991 Prerequisite: EDPSY 400 orPSYCH 200

EDPSY 408 (SPLED 408) *Meeting Instructional Needs of English Language Learners with Special Needs* (3) The course content and activities focus on instruction and assessment for English Language Learners with special needs. Effective: Spring 2011 Prerequisite: EDPSY 010, EDPSY 014 Prerequisite or concurrent:SPLED 395W, SPLED 425

EDPSY 421 *Learning Processes in Relation to Educational Practices* (3) An introduction to the empirical study of variables and conditions that influence school learning. Effective: Spring 2007 Prerequisite: EDPSY 014 orPSYCH 212

EDPSY 450 (PSYCH 404) *Principles of Measurement* (3) Scale transformation, norms, standardization, validation procedures, estimation of reliability. Effective: Spring 2007 Prerequisite: EDPSY 400 orPSYCH 200 orPSYCH 100;STAT 200

EDPSY 475 *Introduction to Educational Research* (3) Scientific method; classes of variables in educational research; the measurement of classroom behavior; survey, predictive, and experimental studies. Effective: Summer 1990 Prerequisite: EDPSY 400

EDPSY 496 *Independent Studies* (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1990

EDPSY 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

The Pennsylvania State University
EDPSY 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992
Educational Technology (EDTEC)

EDTEC 400 Introduction to Instructional Technology for Educators (1-3) Use of microcomputers, video, and other media in education; models use technologies including video, audio, print, computer, and telephone.
Effective: Fall 2005
Prerequisite: EDPSY 014

EDTEC 440 Educational Technology Integration (3) Technology integration in educational settings.
Effective: Fall 2008
Prerequisite: EDPSY 014 and 6th semester standing

EDTEC 448 Using the Internet in the Classroom (3) This course introduces students to methods and models of using the Internet effectively in their classroom.
Effective: Fall 2005
Prerequisite: EDTEC 400 or demonstrated Internet awareness

EDTEC 449 Video and Hypermedia in the Classroom (3) Skills and knowledge needed to direct the use of learning technologies in educational settings.
Effective: Fall 2005 Ending: Summer 2011
Prerequisite: INSYS 415

EDTEC 449 Using Video in the Classroom (3) Skills and knowledge needed to direct the use of video technologies in educational settings.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: 7th semester standing or higher

EDTEC 461 Designing Computer Networks for Education (3) Applying fundamental concepts of computer networking to design effective networks for educational purposes.
Effective: Fall 2005
Prerequisite: EDTEC 448

EDTEC 462 Coordinating Technology Use in Education (3) Skills and knowledge needed to direct the use of learning technologies in educational settings.
Effective: Fall 2005
Prerequisite: EDTEC 448

EDTEC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

EDTEC 498A Emerging Web 2.0 Technologies and Learning (3) This course examines emerging Web 2.0 technologies and explores their application to learning and education.
Effective: Summer 2011 Ending: Summer 2011

EDTEC 498A Emerging Web 2.0 Technologies and Learning (3) this course examines emerging Web 2.0 technologies and explores their application to learning and education.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Educational Theory and Policy (EDTHP)

EDTHP 115 (US) *Education in American Society* (3) Introduction to the development of educational institutions, with emphasis on historical, philosophical, and sociological forces, and on problems of equity.
Effective: Spring 2006

EDTHP 115A (GS;US) *Competing Rights: Issues in American Education* (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society.
Effective: Spring 2006

EDTHP 200 (GS) *Educational Reform and Public Policy* (3) The course uses an interdisciplinary approach to explore the reforms that shape the nation’s largest social institutional-public education.
Effective: Summer 2008

EDTHP 234H *Honors Leadership Jumpstart* (3) Intensive survey of contemporary leadership theory joined with practice, team-building skills, policy formation and influence, and service leadership.
Effective: Fall 2006
Prerequisite: first-semester Penn State student in the Schreyer Honors College

EDTHP 297 *Special Topics* (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Fall 2001

EDTHP 297A (RPTM 297E) *Essentials of Environmental Education* (3) Essentials of Environmental Education covers the history, philosophy, and aims of environmental education. You will gain knowledge about the roles of EE professionals, become familiar with different teaching methods for EE delivery, and learn to assess EE programs. The course uses a participatory approach to issue investigation and civic engagement.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDTHP 394 *Professional Development in Education and Public Policy* (3) This course develops professional skills and opportunities to prepare students for field placement and future employment or study.
Effective: Summer 2008

EDTHP 395 *Field Experience in Education and Public Policy* (3) This course structures a summer field experience, research project, and service in an off-site educational policy organization.
Effective: Summer 2008
Prerequisite: EDTHP 394

EDTHP 401 (IL) (CI ED 401) *Introduction to Comparative Education* (3) Origins, nature, scope, basic literature, and methodology of comparative education. Study of sample topics.
Effective: Fall 2007
Prerequisite: 5th semester standing or higher

EDTHP 411 (US) *Ethnic Minorities and Schools in the United States* (3) Analysis of the social and cultural factors which affect educational outcomes among minority pupils, especially Blacks, Hispanics, and Indians.
Effective: Spring 2006

Effective: Spring 2005

EDTHP 416 (US) (SOC 416) *Sociology of Education* (3) The theoretical, conceptual, and descriptive contributions of sociology to education.
Effective: Spring 2006

EDTHP 420 *Education and Public Policy* (3) Focus on the development and analysis of education policy, and policy’s influence on schools.
Effective: Spring 2006 Ending: Summer 2011
Prerequisite: EDTHP 115 or six credits in social/behavioral sciences.

EDTHP 420 *Education and Public Policy* (3) Focus on the development and analysis of education policy, and policy’s influence on schools.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: six credits in social/behavioral sciences

EDTHP 425 Anthropology of Education (3) This course will review the origins and development of anthropology of education and its role in educational research and reform. Effective: Summer 2007
Prerequisite: EDTHP 115 or 6 credits in the social or behavioral sciences

EDTHP 427 Intelligence and Educational Policy (3) This course explores the concept of intelligence and its assessment from historical, psychological, educational and policy perspectives. Effective: Spring 2006
Prerequisite: EDTHP 115 or 6 credits in social/behavioral sciences

EDTHP 430 History of Education in the United States (3) American educational ideas and practice critically examined in terms of their historical development and contemporary significance. Effective: Summer 1995

EDTHP 434H Honors Teaching Experience in Leadership Jumpstart (1) Guided instruction and practical experience for teaching assistants to the Honors Leadership Jumpstart course (EDTHP 234H). Effective: Fall 2006
Prerequisite: EDTHP 234H and permission of program

EDTHP 440 (CI ED 440) Introduction to Philosophy of Education (3) Introduction to the examination of educational theory and practice from philosophical perspectives, classical and contemporary. Effective: Fall 2007
Prerequisite: EDTHP 115

EDTHP 441 Education, Schooling, and Values (3) Studies in education and schooling as problems in value; axiological problems and positions; examination of practical applications, including moral education. Effective: Summer 1995

EDTHP 496 Individual Studies (1-18) Creative projects supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1995

EDTHP 497 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently. Effective: Summer 1995

EDTHP 497A Preparing Educators for Family & Community Engagement (3) This course will explore effective family and community engagement strategies identified through research, policy and practice. Effective: Summer 2011 Ending: Summer 2011

EDTHP 497B Immigration, Ethnicity and the School (3) This class is an introduction to theories and empirical research on various immigrant and race/ethnic groups and their schooling experiences. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

EDTHP 498 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently. Effective: Summer 1995

Last Import from UCM: June 16, 2011 3:00 AM
Elect Engr Technology (EE T)

EE T 297A **Electronic Circuit Designs, Constructions for Industrial Applications** (3) Specific circuit designs and constructions for the needs of local small businesses.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011  
Prerequisite: EE T 105, CMPET 117 and CMPET 120

Last Import from UCM: June 16, 2011 3:00 AM
Electrical Engineering (E E)

E E 007S Adventures in Electrical Engineering (1) Exploration of electrical engineering through several hands-on activities that cover a broad spectrum of applications and fundamental concepts.
Effective: Fall 1999

E E 008S Introduction to Digital Music (1) First-year seminar that discusses digital music from an electrical engineering perspective; topics include sampling, digital filtering, compression, and music synthesis.
Effective: Fall 2001

E E 009S First-Year Seminar in Electrical Engineering (1) First-year seminar covering a variety of Electrical Engineering topics that vary from year to year.
Effective: Spring 2008

E E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

E E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

E E 210 Circuits and Devices (4) Introduction to electrical circuit analysis, electronic devices, amplifiers, and time-domain transient analysis.
Effective: Spring 2003
Prerequisite: PHYS 212. Prerequisite or concurrent: MATH 250

E E 210H Circuits and Devices (4) Introduction to electrical circuit analysis, electronic devices, amplifiers, and time-domain transient analysis.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: PHYS 212. Prerequisite or concurrent: MATH 250

E E 211 Electrical Circuits and Power Distribution (3) D.C. and A.C. circuits, transformers, single and three-phase distribution systems, A.C. motors and generators.
Effective: Spring 2008
Prerequisite: PHYS 212

Effective: Spring 2008
Prerequisite: PHYS 212

E E 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

E E 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1993

E E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1993

E E 297A Introduction to Electrical Engineering Design Tools (3) Lab-oriented course providing an introduction to Labview, Field-programmable devices, and embedded microcontrollers.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: E E 210; CMPEN 270 or CMPEN 275; CMPSC 201 or CMPSC 121 Concurrent: E E 310

E E 297A Design Tools (3) A working knowledge of electrical engineering design tools and hardware realization of electrical engineering systems.
Prerequisite: E E 210; CMPEN 270 or CMPEN 271; CMPSC 201 or CMPSC 121

E E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

E E 310 Electronic Circuit Design I (4) Properties of fundamental electronic devices, analysis of DC, AC small-signal and nonlinear behavior, analog and digital circuit design applications.
Effective: Spring 2008
Prerequisite: E E 210 or E E 315

E E 311 Electronic Circuit Design II (3) Electronic circuit design with consideration to single and multi-device subcircuits, frequency response characteristics, feedback, stability, efficiency, and IC techniques.
Effective: Spring 2008
Prerequisite: E E 310; E E 350 or E E 312 or E E 314 or E E 315

E E 312 Electrical Circuit Analysis (3) Circuit analysis techniques; mutual inductance; frequency response; FOURIER series; LAPLACE transform.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: E E 210; CMPSC 201 or CMPSC 121

E E 312 Electrical Circuit Analysis (3) Circuit analysis techniques; mutual inductance; frequency response; FOURIER series; LAPLACE transform.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: E E 210

E E 313W Electronic Circuit Design II (4) Design/analysis of electronics circuits including: single/multistage transistor amplifiers, op amp circuits, feedback amplifiers, filters, A/D and D/A converters.
Effective: Spring 2008
Prerequisite: E E 310

E E 314 Signals and Circuits II (3) Circuit analysis including op-amps, and ideal transformers; one/two port network models; three-phase and industrial loads; engineering professionalism.
Effective: Spring 2008
Prerequisite: E E 210; CMPSC 201 or CMPSC 121

E E 315 Electrical Signals and Circuits with Lab (5) Introduction to circuits, signals, energy, circuit analysis; frequency response; Bode diagrams, two-port networks; Laplace transforms, Polyphase circuits.
Effective: Spring 2008
Prerequisite: or concurrent: MATH 250

E E 316 Introduction to Embedded Microcontrollers (3) Introduction to microcontrollers in electronic and electromechanical systems. Hardware and software design for user/system interfaces, data acquisition, and control.
Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 121; Concurrent: E E 310

E E 320 Introduction to Electro-Optical Engineering (3) An introduction covering several fundamental areas of modern optics, optical processes, and devices.
Effective: Spring 1998
Prerequisite: E E 330

E E 330 Engineering Electromagnetics (4) Static electric and magnetic fields; solutions to static field problems, Maxwell's equations; electromagnetic waves; boundary conditions; engineering applications.
Effective: Spring 2008
Prerequisite: E E 210 or E E 315; MATH 230

E E 331 Electromagnetic Fields and Waves (3) Electromagnetic field theory and applications; Maxwell's equations; plane wave propagation; boundary conditions; basic antenna theory; impedance matching.
Effective: Spring 2008
Prerequisite: E E 210, MATH 230

E E 341 Semiconductor Device Principles (3) Quantitative description of properties and behavior of materials with application to integrated circuits, photonic devices, and quantum well devices.
Effective: Spring 2008
Prerequisite: E E 210 or Prerequisite or concurrent: E E 315

E E 350 Continuous-Time Linear Systems (4) Introduction to continuous-time linear system theory: differential equation models, sinusoidal steady-state analysis, convolution, Laplace transform and Fourier analysis.
Effective: Spring 1999
Prerequisite: E E 210, MATH 220, MATH 250

Effective: Summer 1999
Prerequisite: E E 350

E E 352 Signals and Systems: Continuous and Discrete-Time (4) Transient response, frequency response, Bode plots, resonance, filters, Laplace transform, Fourier series and transform, discrete-time signals/ systems; sampling z-transform.
Effective: Spring 2008
Prerequisite: E E 210 or E E 315

E E 353 Signals and Systems: Continuous and Discrete-Time (3) Fourier series and Fourier transform; discrete-time signals and systems and their Fourier analysis; sampling; Z-transform.
Effective: Spring 2008
Prerequisite: E E 210; CMPSC 201 or CMPSC 121; MATH 250

E E 360 Communications Systems I (3) Generic communication system; signal transmission; digital communication systems; amplitude modulation; angle modulation.
Effective: Spring 2008

The Pennsylvania State University
Prerequisite: E E 350 or E E 352

E E 362 (CMPEN 362) Communication Networks (3) Data transmission, encoding, link control techniques; communication network architecture, design; computer communication system architecture, protocols.
Effective: Spring 2011
Prerequisite: CMPEN 270 or CMPEN 271 Concurrent: STAT 301 or STAT 318 or STAT 401 or STAT 414 or STAT 418

E E 380 Introduction to Linear Control Systems (3) State variables; time-domain and frequency-domain design and analysis; design of feedback control systems; Root Locus.
Effective: Spring 2008
Prerequisite: MATH 220; E E 350 or E E 312

E E 383 Signals and Controls Laboratory (1) Design, computer simulation, and practical implementation of systems in the areas of filtering, digital signal processing, and controls.
Effective: Spring 2008
Concurrent: E E 352 ; E E 380

E E 387 Energy Conversion (3) Modeling of induction machines, synchronous machines, transformers, and transmission lines.
Effective: Spring 2008
Prerequisite: E E 350 or E E 312

E E 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

E E 396H Independent Studies (1-4) Junior-level honors course involving special individual projects under the direction of an electrical engineering faculty member.
Effective: Fall 1993
Prerequisite: junior standing

E E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1993

E E 397A Design Process (3) Introduction to the electrical engineering design process, project teaming and management, and technical communication.
Prerequisite: E E 297A Concurrent: ENGL 202C

E E 397E Introduction to Nano Electronics (3) This course fulfills the E SC 314 requirement for E E majors. Students cannot take both E SC 314 and E E 397E for credit.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: E E 210, PHYS 214

E E 397E Introduction to Nanoelectronics (3) Introduction to the physics and technology of nanoelectronic devices.
Prerequisite: E E 210; PHYS 214

E E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

E E 400 Engineering Design Concepts (3) Engineering design and modelling, engineering economy, project planning, capstone project selection, and technical communication skills.
Effective: Spring 2008
Prerequisite: E E 313W; E E 316; E E 352; E E 380 ; seventh-semester standing

E E 401 Electrical Design Projects (3) Group design projects in the areas of electronics and electrical/computer systems.
Effective: Spring 2008
Prerequisite: E E 400 ; eighth-semester standing

E E 402W Senior Project Design in Electromagnetics (3) Project designs of antenna and microwave systems, with an emphasis on technical communications skills. Lab.
Effective: Spring 2001
Prerequisite: E E 330 . Prerequisite or concurrent: ENGL 202C

E E 403M Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Prerequisite: E E 330; E E 350; E E 316 ; and the completion of two Electrical Engineering technical electives Concurrent: ENGL 202C

E E 403M Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Effective: Spring 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: E E 330; E E 350; E E 316 ; and the completion of two Electrical Engineering technical electives Concurrent: ENGL 202C
E E 403W Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills. Effective: Spring 2008
Prerequisite: E E 330; E E 350; E E 316; and the completion of two Electrical Engineering technical electives Concurrent: ENGL 202C

E E 405 Capstone Proposal Preparation (1) Performing the initial research needed for the capstone course, and the preparation of the written project proposal. Effective: Spring 2008
Prerequisite: senior level standing

E E 406W Electrical Engineering Capstone Design (3) Project designs of analog and digital systems, interfacing, and relevant electronic circuits, with an emphasis on technical communications skills. Effective: Spring 2008
Prerequisite: E E 311; E E 405; ENGL 202C

E E 410 Linear Electronic Design (3) Linear circuit design via integrated circuit processes; A/D converters, switched capacitor filters, phase lock loops, multipliers, and voltage-controlled oscillators. Effective: Spring 2008
Prerequisite: E E 311

E E 413 Power Electronics (3) Switch-mode electrical power converters. Electrical characteristics and thermal limits of semiconductor switches. Effective: Spring 2008
Prerequisite: E E 310; E E 350 or E E 312 or E E 314 or E 315

Prerequisite: E E 310

E E 417 (CMPEN 417) Digital Design Using Field Programmable Devices (3) Field programmable device architectures and technologies; rapid prototyping using top down design techniques; quick response systems. Effective: Spring 2008
Prerequisite: CMPEN 331

E E 420 Electro-optics: Principles and Devices (3) Spatially linear system and transform; diffraction theory, partial coherence theory, optical image detection, storage and display, holography. Effective: Spring 1997
Prerequisite: E E 320

E E 421 Optical Fiber Communications (3) Operational principles of optical components, including sources, fibers and detectors, and the whole systems in optical fiber communications. Effective: Spring 2008
Prerequisite: E E 320, E E 350, E SC 314

E E 422 Optical Engineering Laboratory (3) Hands-on experience covering areas of optical transforms, electro-optics devices, signal processing, fiber optics transmission, and holography. Effective: Fall 1993
Prerequisite: E E 320

E E 424 Principles and Applications of Lasers (3) Principles of lasers—generation, propagation, detection and modulation; applications in fiber optics communication, remote sensing, holography, optical switching and processing. Effective: Spring 2008
Prerequisite: E E 330, E SC 400H or PHYS 400

Prerequisite: E E 330

E E 432 UHF and Microwave Engineering (3) Transmission line and wave guide characteristics and components; design of UHF-microwave amplifiers, oscillators, and filters; measurement techniques; design projects. Effective: Spring 1998
Prerequisite: E E 310, E E 330

E E 438 Antenna Engineering (3) Radiation from small antennas, linear antenna characteristics, arrays of antennas, impedance concepts and measurements, multifrequency antennas, and aperture antennas. Effective: Spring 2001
Prerequisite: E E 330

E E 439 Radiowave Propagation in Communications (3) Radiowave propagation in mobile, terrestrial, and satellite communications; applications at microwave and lower frequencies. Effective: Spring 2008
Prerequisite: E E 330

E E 441 Semiconductor Integrated Circuit Technology (3) An overview of fundamentals of processes involved in silicon integrated circuit fabrication through class lectures and hands-on laboratory. Effective: Spring 2008
Prerequisite: E E 310, E SC 314

The Pennsylvania State University
E E 442 Solid State Devices (3) The physics of semiconductors as related to the characteristics and design of solid state electronic devices. Effective: Spring 2008
Prerequisite: E E 310, E SC 314

E E 450 Signal and Image Processing (3) Linear system analysis in one-dimension and two-dimensions, emphasis on filtering; multi-dimensional signal analysis; image enhancement and reconstruction; computer simulation applications. Effective: Spring 2008
Prerequisite: E E 352

E E 453 Fundamentals of Digital Signal Processing (3) Design of FIR and IIR filters; DFT and its computation via FFT; applications of DFT; filter implementation; finite arithmetic effects. Effective: Spring 2008
Prerequisite: E E 351 or E E 352 or E E 353

E E 454 (CMPEN 454) Fundamentals of Computer Vision (3) Introduction to topics such as image formation, segmentation, feature extraction, shape recovery, object recognition, and dynamic scene analysis. Effective: Spring 2008
Prerequisite: MATH 230 or MATH 231; CMPSC 201 or CMPSC 121

E E 455 (CMPEN 455) An Introduction to Digital Image Processing (3) Overview of digital image processing techniques and their applications; image sampling, enhancement, restoration, and analysis; computer projects. Effective: Spring 2008
Prerequisite: E E 350 or E E 353; CMPSC 201 or CMPSC 121

E E 456 (E SC 456, EGEE 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not applicable. Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 202; MATH 220

Prerequisite: E E 352

E E 460 Communication Systems II (3) Probability fundamentals, digital/analog modulation/demodulation, system noise analysis, SNR and BER calculations, optimal receiver design concepts, introductory information theory. Effective: Spring 2008
Prerequisite: E E 360

E E 461 Communications I (4) Element of analog and digital communication systems, AM, FM, and digital modulation techniques, receivers, transmitters, and transmission systems, noise. Effective: Spring 2008
Prerequisite: E E 352

E E 471 (AERSP 490, NUC E 490) Introduction to Plasmas (3) Plasma oscillations; collisional phenomena; transport properties; orbit theory; typical electric discharge phenomena. Effective: Spring 2008
Prerequisite: E E 330

E E 472 (AERSP 492) Space Astronomy and Introduction to Space Science (3) The physical nature of the objects in the solar system; the earth's atmosphere, ionosphere, radiation belts, magnetosphere, and orbital mechanics. Effective: Spring 2008
Prerequisite: E E 330 or PHYS 400

E E 474 Satellite Communications Systems (3) Overview of satellite communications systems, principles, space platforms, orbital mechanics, up/down links and link budgets, modulation techniques. Effective: Spring 2008
Prerequisite: E E 330 and E E 360

E E 477 (METEO 477) Fundamentals of Remote Sensing Systems (3) The review of fundamental physical properties leads into discussions of various techniques, including imaging, spectroscopy, radiometry, and active sensing. Effective: Spring 2008
Prerequisite: E E 330 or METEO 436

Prerequisite: graduate standing

E E 481 Control Systems (4) Classical/modern approaches to system analysis/design; time/frequency domain modeling, stability, response, optimization, and compensation. Effective: Spring 2008
Prerequisite: E MCH 211; PHYS 211; E E 352

E E 482 Introduction to Digital Control Systems (3) Sampling and hold operations; A/D and D/A conversions; modeling of digital systems; response evaluation; stability; basis of digital control; examples. Effective: Spring 2008
Prerequisite: E E 380; E E 351 or E E 352

E E 483 Introduction to Automation and Robotics Systems (3) Introduction to robotics systems with emphasis on...
robotic motion and control, and robotic components such as actuators and sensors.
Effective: Summer 2008
Prerequisite: E E 481

E E 484 Control System Design (3) Analysis and design of automatic control systems using time, frequency domain and state variable methods.
Effective: Spring 2008
Prerequisite: E E 481

E E 485 Energy Systems and Conversion (3) Overview of energy alternatives available, and study of theory of operation and models of major energy conversion devices.
Effective: Spring 2008
Prerequisite: E E 314 or E E 315; MATH 250

E E 487 Electric Machinery and Drives (3) Analysis of variable-speed drives comprised of AC electric machines, power converters, and control systems.
Effective: Summer 2007
Prerequisite: E E 387

E E 488 Power Systems Analysis I (3) Fundamentals, power transformers, transmission lines, power flow, fault calculations, power system controls.
Effective: Spring 2008
Prerequisite: E E 387 or E E 485

E E 489 Power Systems Analysis II (3) Symmetrical components, unbalanced networks, unsymmetrical faults, unbalanced operation of rotating machines, transient transmission line modeling, system protection.
Effective: Spring 2008
Prerequisite: E E 488

E E 494 Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Fall 1993

E E 494H Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Spring 2008

E E 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

E E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1993

E E 496A Digital and Analog Communications (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011 Ending: Summer 2011

E E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1993

E E 497A IC Based Electronics Design (3) Design and applications of electronic circuits and systems using operational amplifiers and analog integrated circuits.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: CMPEN 271, E E 310 Concurrent: E E 311

E E 497B Probability and Stochastic Processes for Electrical Engineers (3) Statistics elective for Electrical Engineering majors with strong emphasis on Electrical Engineering applications.
Prerequisite: E E 350

E E 497E Space Systems Engineering Seminar (1) This 1-credit seminar is for students completing the Space Systems Engineering certificate.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

E E 497E Software-defined Radio (3) Radio communication system where traditional hardware components (mixers, amplifiers, demodulators, etc.) are implemented via software using digital signal processing.
Prerequisite: E E 351 or E E 353

E E 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007
Electrical Engineering Technology (EET)

EET 002S Introduction to Engineering Technology (1) Introduction to engineering technology and the use of computer methods for analyzing and solving engineering technology problems; microcomputer fundamentals, word processing, spreadsheet, and database software packages. Effective: Fall 2007

EET 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2007

EET 100 Electric Circuits, Power, and Electronics (3) AC and DC circuits; machinery; controls; and introduction to electronic devices, circuits, and instrumentation. Effective: Fall 2010
Prerequisite: MATH 082 or MATH 041

EET 101 Electrical Circuits I (3) Fundamental theory of resistance, current, and voltage; capacitance, inductance. Direct current and alternating current concepts through series/parallel circuits. Effective: Fall 2007
Prerequisite: or concurrent: MATH 081

EET 105 Electrical Systems (3) Introduction to the study of electrical systems, with a focus on applications in our society. Effective: Spring 2008
Prerequisite: MATH 021 or greater placement

EET 109 Electrical Circuits Laboratory I (1) Use of basic electrical instruments to measure AC and DC voltage, current, power, resistance. Introduction to report writing. Effective: Fall 2007
Prerequisite: or concurrent: EET 101

EET 114 Electrical Circuits II (4) Direct and alternating current circuit analysis including Thevenin and Norton Theorems, mesh, node analysis. Capacitance, inductance, resonance, power, polyphase circuits. Effective: Fall 2008
Prerequisite: EET 105, MATH 026

EET 118 Electrical Circuits Laboratory (1) Use of basic electrical instruments to measure AC and DC voltage, current, power, resistance, and lab reporting. Effective: Fall 2008
Prerequisite: EET 105 Concurrent: EET 114

EET 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2007

EET 205 Semiconductor Laboratory (1) Laboratory study of semiconductor devices and circuits. Effective: Fall 2007
Concurrent: EET 210

EET 210 Fundamentals of Semiconductors (2) Semiconductor and circuit theory including power supplies, amplifiers, power amplifiers, oscillators, and introduction to op-amps. Effective: Fall 2007
Prerequisite: EET 114, MATH 082

EET 212W Op Amp and Integrated Circuit Electronics (4) Analysis and design of amplifier, rectifier, filter, comparator, oscillator, and other practical circuits using op amps and integrated circuit devices. Effective: Summer 2008
Prerequisite: EET 114, ENGL 015, MATH 022

EET 213W Fundamentals of Electrical Machines Using Writing Skills (5) AC and DC machinery principles and applications; introduction to magnetic circuits, transformers, and electrical machines including laboratory applications. Effective: Fall 2007
Prerequisite: EET 114, EET 118, ENGL 015

EET 214 Electric Machines and Energy Conversion (3) Fundamental operating principles, characteristics, and analysis of electric machines, transformers, and power systems. Effective: Spring 2008
Prerequisite: EET 114, EET 118

EET 215 Electric Machines and Energy Conversion Laboratory (1) Laboratory study of electric machine applications, transformers, and power systems. Effective: Spring 2008
Prerequisite: EET 114, EET 118 Concurrent: EET 214

EET 216 Linear Electronic Circuits (3) Theoretical study of linear electronic devices and circuits, including field effect
transistors, integrated circuits, and operational amplifiers.
Effective: Fall 2007
Prerequisite: EET 210

EET 220 **Programmable Logic Controllers** (2) An introduction to programmable logic controllers (PLCs); topics covered include programming, troubleshooting, networking, and industrial applications.
Effective: Spring 2008
Prerequisite: CMPET 117

EET 221 **Linear Electronics Laboratory** (1) Laboratory study of transistors; study of differential and operational amplifiers. Emphasis is placed on circuit design.
Effective: Fall 2007
Prerequisite: EET 205  Concurrent: EET 216

EET 275 **Introduction to Programmable Logic Controls** (3) Principles of industrial control, programming, interfacing, input/output devices, and applications.
Effective: Fall 2007  Ending: Summer 2011
Prerequisite: EET 205 . Prerequisite or concurrent:EET 221

EET 275 **Introduction to Programmable Logic Controls** (3) Principles of industrial control, programming, interfacing, input/output devices, and applications.
Effective: Fall 2011  Future: Fall 2011
Prerequisite: EET 114, EET 118, CMPET 117, CMPET 120

EET 280 **Electronic Project Design and Fabrication** (3) Engineering drawings, material planning, printed circuits, enclosures, interconnection and cabling, environmental and human factors, codes and standards.
Effective: Fall 2007
Prerequisite: CMPET 211 . Prerequisite or concurrent:EET 221

EET 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2007

EET 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2007

EET 311 **Alternating Current Circuits** (4) Circuit analysis including controlled sources, op amps, and ideal transformers, and calculus relationships; one/two port network models; three- phase and industrial loads.
Effective: Fall 2007
Prerequisite: MATH 140  Concurrent: MATH 141

EET 312 **Electric Transients** (4) Applied differential equations; in-depth study of transient electricity using Laplace, Fourier transforms, and state-space methods; Bode plots and application.
Effective: Spring 2010
Prerequisite: EET 311, E E 314 orE E 315;MATH 141  Concurrent: MATH 141

EET 315 **Linear and Discrete System Analysis** (3) Introduction to the principles and operation of linear and discrete systems.
Effective: Fall 2007
Prerequisite: CMPET 301 . Prerequisite or concurrent:MATH 250 orMATH 211

EET 320 **Industrial Electricity and Electronics** (3) Basic circuit theory applied to DC/AC circuits containing resistors, inductors, capacitors; magnetic circuits; power; control; electronic applications.
Effective: Spring 2008
Prerequisite: MATH 140, PHYS 150 orPHYS 250 orPHYS 211

EET 330 **Wireless Communications Systems** (3) Wireless communications technology, transceivers, modulation techniques, serial communications, and applications. Personal area networks, local area networks, RFID systems.
Effective: Spring 2011
Prerequisite: EET 341, CMPET 301 ; prerequisite or concurrent:EET 315, MATH 211

EET 331 **Electronic Design** (4) Analog/Digital and Digital/Analog Converters; advanced and nonlinear Op-Amp circuit design; noise analysis; Active Filters and Waveform Generators.
Effective: Spring 2008
Prerequisite: EET 311 orE 314 or (E E 315 ;)EET 205 andEET 210 ) or concurrentE 310  Concurrent: EET 312

EET 341 **Measurements and Instrumentation** (3) Measurement concepts, transducers, electronic-aided measurement, mechanical and electrical measurements. Intended for electrical engineering technologists.
Effective: Fall 2007
Prerequisite: CMPET 117, EET 216 . Prerequisite or concurrent:MATH 141 orMATH 210

EET 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2007

EET 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

The Pennsylvania State University
EET 402 **High-Frequency Circuit Design** (4) Electromagnetic theory as applied to the design of antennas, waveguides, and high-frequency components.
Effective: Fall 2007
Prerequisite: senior standing in Electrical Engineering Technology

EET 408 **Communication System Design** (4) Communication system principles including modulation techniques, encoding and decoding, noise, and elementary probability.
Effective: Fall 2007
Prerequisite: senior standing in Electrical Engineering Technology

EET 409 **Power System Analysis I** (4) Analysis and applications study of power utility electrical equipment such as: synchronous machines, transformers, capacitors and transmission lines.
Effective: Fall 2007
Prerequisite: senior standing in Electrical Engineering Technology

EET 410 **Power System Analysis II** (4) Principles of load studies, fault analysis, stability and protection of the public electrical power system.
Effective: Fall 2007
Prerequisite: senior standing in Electrical Engineering Technology

EET 413 **Optoelectronics** (4) Principles and applications of optoelectronics including sources, detectors, imagers, transmitters, fiber optics, systems and integrated optics.
Effective: Fall 2007
Prerequisite: senior standing in Electrical Engineering Technology

EET 414 **Biomedical Instrumentation** (4) Introduction to transducers and circuits used to detect and process medical physiological data with focus on cardiovascular and respiratory systems.
Effective: Fall 2007
Prerequisite: EET 312, EET 331

EET 416 **Fluid and Thermal Design in Electrical Systems** (3) Introduction to basic electrical engineering technology concepts and applications of thermodynamics, heat transfer, and fluid power in electrical/electronic systems.
Effective: Fall 2007
Prerequisite: EET 315; MATH 211 or MATH 231, MATH 250

EET 419 **Project Proposal Preparation** (1) Performing the initial research needed for the senior project course, and the preparation of the written project proposal.
Effective: Fall 2007
Prerequisite: senior standing

EET 420W **Electrical Design Project** (3) Design, construction, and testing of a project either selected by the students with approval or assigned by the instructor.
Effective: Spring 2008
Prerequisite: EET 312, EET 331, EET 419, ENGL 202C

EET 431 **Advanced Electronic Design** (4) Applications of analog and digital integrated circuits; introduction to analog and digital communication techniques.
Effective: Fall 2007
Prerequisite: EET 331

EET 433 **Control System Analysis and Design** (4) Classical and modern control analysis and design approaches, such as Laplace and state-space, aided by analog and digital computers.
Effective: Fall 2007
Prerequisite: EET 312

EET 437 **Advanced Communications, Telecommunications** (3) Telecommunication systems, telephone, television, data networks, computer networks, integrated voice and data.
Effective: Fall 2007
Prerequisite: EET 330, CMPET 355

EET 440 **Applied Feedback Controls** (3) Analysis and design of analog and digital feedback control systems.
Effective: Fall 2007
Prerequisite: EET 315

EET 450 **Manufacturing Related Topics in Electrical Systems** (3) Manufacturing methods, including reliability and quality control considerations as applied to electrical and electronic systems.
Effective: Fall 2007
Prerequisite: MATH 211; MATH 231, MATH 250

EET 456 **Automation and Robotics** (4) Introduction to robotic systems and automation. Emphasis includes robot motion, control, and components, as well as programming PLCs.
Effective: Spring 2008
Prerequisite: EET 331, CMPET 403; Prerequisite or concurrent: MATH 220; EET 433

EET 458 **Digital Signal Processing** (3) Continuous and discrete time signals, Fourier series and transform, z-transform, sampling, FIR and IIR filters, FFT, DFT, and applications.
Effective: Fall 2007
Prerequisite: EET 315, CMPET 355

The Pennsylvania State University
EET 461 **Power Electronics** (3) Fundamentals of power electronic circuits, semiconductor power devices, power conversion equipment. Circuit topologies, closed-loop control strategies, equipment design consideration.
Effective: Fall 2007
Prerequisite: EET 213W, EET 216, EET 315

EET 475 **Intermediate Programmable Logic Controllers** (3) Application of programmable logic controllers (PLCs) to data acquisition, automation and process control.
Effective: Fall 2007
Prerequisite: EET 220 or EET 275 and EET 315

Effective: Fall 2007
Prerequisite: CMPET 403

EET 480 **Electrical and Computer Systems Senior Seminar** (1) Concepts of career development; project management; engineering design documentation; industrial design examples.
Effective: Spring 2011
Prerequisite: EET 341, EET 330 or CMPET 333, CMPET 355, ENGL 202C. Prerequisite or concurrent: ECON 102 or ECON 104

EET 490W **Electrical/Computer Senior Design Project** (3) Individual or group design projects in electrical and computer engineering technology.
Effective: Fall 2007
Prerequisite: EET 480. Prerequisite or concurrent: EET 450

EET 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experience, practica or internships. Written and oral critique of activity required.
Effective: Fall 2007
Prerequisite: prior approval of proposed assignment by instructor

EET 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2007

EET 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

Last Import from UCM: June 16, 2011 3:00 AM
Electro-Mechanical Engineering Technology (EMET)

EMET 222 Mechanics for Technology (4) Strength of materials and dynamics, including axial, shear, torsion, and bending stresses, beam deflection, kinematics and kinetics of rigid bodies.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: MCH T 111 ; andMATH 083 orMATH 140

EMET 222 Mechanics for Technology (4) Strength of materials and dynamics, including axial, shear, torsion, and bending stresses, beam deflection, kinematics and kinetics of rigid bodies.
Prerequisite: MCH T 111 Concurrent: MATH 083 or MATH 140

EMET 230 Computerized I/O Systems (3) Introduction to concepts of structured programming, data acquisition, computerized interfaces, and graphical user interfaces.
Effective: Spring 2008 Ending: Fall 2011
Concurrent: EET 213W

EMET 230 Computerized I/O Systems (3) Introduction to concepts of structured programming, data acquisition, computerized interfaces, and graphical user interfaces.
Concurrent: EET 212W

EMET 325 Electric Drives (3) Study of operation, application and specification of AC/DC electrical drive motors, servos, actuators, control units and power converters.
Effective: Spring 2008
Prerequisite: EET 212W

EMET 326 Mechanical Drives (3) Transmission of force and motion using linkages, cams, gears, belts, and hydraulic and pneumatic drives.
Effective: Spring 2008 Ending: Fall 2011
Prerequisite: EMET 322

EMET 326 Mechanical Drives (3) Transmission of force and motion using linkages, cams, gears, belts, and hydraulic and pneumatic drives.
Prerequisite: EMET 322 orEMET 222

EMET 330 Measurement Theory and Instrumentation (3) Fundamentals of measuring, transmitting, and recording temperature, pressure, flow, force, displacement, and velocity; laboratory component emphasizes systems used in manufacturing.
Effective: Fall 2008
Prerequisite: EMET 230 andMATH 211 orMATH 250

EMET 350 Quality Control, Inspection, and Design (3) Fundamentals of quality including statistics, probability, and design of experiments.
Effective: Fall 2004

EMET 394 EMET Student Design Competition (1-3 per semester/maximum of 3) Students collaborate on research and design of appropriate solutions to real-life problems and projects.
Effective: Summer 2011
Prerequisite: junior-level standing

EMET 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite: prior approval of proposed assignment by instructor

EMET 396 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2001

EMET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

EMET 401 Engineering Technology Career Development (1) Career planning, preparation, and decision making for students enrolled in an Engineering Technology baccalaureate degree program.
Effective: Spring 2008
Prerequisite: seventh semester standing

EMET 402 Fundamentals of Engineering Review (2) Overview of the topics covered on the Fundamentals of Engineering Exam administered by the NCEES for the purpose of earning a Professional Engineering license.
Effective: Spring 2008
Prerequisite: seventh semester standing
EMET 403 Electromechanical Design Project Preparation (1) This course involves the planning and preliminary design activities for the capstone electro-mechanical design project.
Effective: Spring 2008
Prerequisite: seventh semester standing

EMET 405 Fluid Mechanics and Thermodynamics (3) Introduction to the principles of fluid mechanics, thermodynamics, and heat transfer with emphasis on the applications to practical problems.
Effective: Fall 2008 Ending: Fall 2011
Prerequisite: EMET 326 and MATH 211 or MATH 250

EMET 405 Fluid Mechanics and Thermodynamics (4) Introduction to the principles of fluid mechanics, thermodynamics, and heat transfer with emphasis on the applications to practical problems.
Prerequisite: EMET 326 and MATH 211 or MATH 250

EMET 410 Automated Control Systems (4) Introduction to analog feedback control theory and computer simulation and analysis using Matlab; laboratory study of feedback systems.
Effective: Fall 2008
Prerequisite: EMET 330

EMET 430 Programmable Logic Controls II (3) A second course in PLCs covering sequencing/shift instructions, program flow control, data and math instructions, PID loops, and machine communication.
Effective: Fall 2007 Ending: Fall 2011
Prerequisite: EET 220

EMET 430 Programmable Logic Controls II (3) A second course in PLCs covering sequencing/shift instructions, program flow control, data and math instructions, PID loops, and machine communication.
Prerequisite: EET 220 or EET 275

EMET 432 Electromechanical Devices for Biomedical Instrumentation (3) A study of electromechanical devices, transducers, and instrumentation used in the biomedical field.
Effective: Summer 2006
Prerequisite: EMET 330; PHYS 151 or PHYS 212 or PHYS 251 or equivalent

EMET 440 Electro-Mechanical Project Design (3) Planning, development, and implementation of electro-mechanical design project; includes formal report writing, project documentation, group presentations, project demonstrations.
Effective: Fall 2008
Prerequisite: EMET 325; EMET 326; EMET 410

EMET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite: prior approval of proposed assignment by instructor

EMET 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2001

EMET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002
Elementary Education in Multicultural Settings (ELEDM)

ELEDM 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

ELEDM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

ELEDM 395W Field Experience for Urban Teacher Preparation (2 per semester, maximum of 6) Structured opportunities for investigating and understanding the work of teachers within urban schools and communities.
Effective: Spring 2005
Prerequisite: C I 295, EDPSY 014, EDTHP 115  Concurrent: SPLED 444 ELEDM 400 ELEDM 401A OR ELEDM 402

ELEDM 400 Schools, Families and Communities (3) Cultural and ethnic dimensions of family-school-community communications and the resultant impact on student-teacher relations.
Effective: Spring 2005
Prerequisite: C I 295, EDPSY 014, EDTHP 115 6 credits of social/behavioral sciences  Concurrent: EDTHP 411 ELEDM 395W

ELEDM 401A Teaching Reading in Multicultural Elementary Schools (3) An exploration of current research, practices, strategies and materials in the development of reading skills in multicultural schools.
Effective: Summer 2005
Prerequisite: ELEDM 400  Concurrent: ELEDM 395W ELEDM 401B ELEDM 401C

ELEDM 401B Teaching Language Arts in Multicultural Elementary Schools (3) An exploration of current research, practices, strategies and materials in the development of language arts skills in multicultural schools.
Effective: Summer 2005
Prerequisite: ELEDM 400  Concurrent: ELEDM 395W ELEDM 401A ELEDM 401C

ELEDM 401C Teaching Children’s Literature in Multicultural Elementary Schools (3) Survey of children's literature with an emphasis on multicultural literature and its application in multicultural elementary classrooms.
Effective: Summer 2005
Prerequisite: ELEDM 400  Concurrent: ELEDM 395W ELEDM 401A ELEDM 401B

ELEDM 402 Teaching and Assessment in Multicultural Elementary Schools (3) Multicultural education; elementary education; pluralistic pedagogical foundations; assessment, child’s play, instrumental activities, State/Federal initiatives, and parent programs.
Effective: Spring 2006
Prerequisite: A ED 303;MUSIC 241, ELEDM 400  Concurrent: ELEDM 395W

ELEDM 403 Using Science and Mathematics Knowledge and Assessment in Urban Settings (6) Knowledge, skills, and assessment pertaining to science and mathematics education in urban schools.
Effective: Spring 2005
Prerequisite: CMPSC 101, MATH 200, ELEDM 400 and 9 credits of natural sciences  Concurrent: ELEDM 395W

ELEDM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

ELEDM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Energy Bus & Finance (E B F)

E B F 200 (GS) Introduction to Energy and Earth Sciences Economics (3) Resource use decisions and their effect on local, national, and global development.
Effective: Fall 2010

E B F 301 Global Finance for the Earth, Energy, and Materials Industries (3) The aim of this course is to introduce fundamental concepts of financial management and illustrate their global applications.
Effective: Fall 2009

E B F 304W Global Management for the Earth, Energy, and Materials Industries (3) This class is designed to introduce students to modern management and organization strategies for resource businesses.
Effective: Fall 2010
Prerequisite: E B F 200

E B F 401 Strategic Corporate Finance for the Earth, Energy, and Materials Industries (3) Financial decisions corporations in the earth science area make and the tools and analyses used to make these decisions.
Effective: Fall 2010
Prerequisite: E B F 200, E B F 301 and junior or senior standing

E B F 472 Quantitative Analysis in Earth Sciences (3) Quantitative analysis of decision making in atmospheric/geophysical sciences: exploratory data analysis, quantification of uncertainty, parametric/non-parametric testing, forecasting, time series analysis.
Effective: Fall 2010
Prerequisite: MATH 110 or MATH 140

E B F 473 Risk Management in Energy Industries (3) Analysis of strategies for mitigating business risk from market, atmospheric, geophysical uncertainties including the use of energy/mineral commodity futures/options, weather derivatives, and insurance.
Effective: Fall 2010
Prerequisite: MSIS 200 or STAT 200 or E B F 472

E B F 484 Energy Economics (3) Economics of energy demand, production, storage, and pricing; advanced energy policy issues including regulation, climate change, new energy technology.
Effective: Spring 2011
Prerequisite: ECON 102 or E B F 200; MATH 110 or MATH 140

Last Import from UCM: June 16, 2011 3:00 AM
Energy and Geo-Environmental Engineering (EGEE)

EGEE 012 Energy Science and Engineering Lectures (1) Lectures and discussion by faculty and visiting scientists/engineers on energy science and engineering, job selection, patents, licensing, ethics, and other professional issues and challenges.
Effective: Spring 2008
Prerequisite: fifth-semester standing in Energy Engineering major or Energy and Fuels Engineering Option in Chemical Engineering

EGEE 101 (GN) (MATSE 101) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

EGEE 101A (GN;IL) (MATSE 101A) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

EGEE 101H (GN) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Summer 2009

EGEE 102 (GN) Energy Conservation for Environmental Protection (3) Exposure to energy efficiency in day-to-day life to save money and energy, and thereby protect the environment.
Effective: Spring 2000

EGEE 102H (GN) Energy Conservation for Environmental Protection (3) Honors level exposure to energy efficiency in day to day life to save money and energy, and thereby protect the environment.
Effective: Summer 2008

EGEE 110 (GN) Safety Science for the Rest of Your Life (3) Survey of applications and technologies associated with safety in our every day life with associated review of scientific principles and economic, social and political impacts.
Effective: Summer 2005

EGEE 120 (GS;US;IL) Oil: International Evolution (3) Survey of the commercial development of the world petroleum industry from various international, historical, business, and cultural perspectives.
Effective: Spring 2006

EGEE 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EGEE 210 (GN) Technological Legacy of Pennsylvania Coal (3) Survey of coal technologies with a review of scientific principles and economic, social, and political impacts.
Effective: Summer 2005

EGEE 211 (GS;US) Social Legacy of Pennsylvania Coal (3) Survey of coal technologies with economic, social, and political impacts discussed with historical, cultural, and international perspectives.
Effective: Summer 2005

EGEE 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1999

EGEE 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

EGEE 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1999

EGEE 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

The Pennsylvania State University
EGEE 302 Principles of Energy Engineering (3) Basic engineering calculations and mathematical methodologies on material and energy balances and reaction rates during chemical transformations in energy systems. Effective: Summer 2007
Prerequisite: CHEM 112 and MATH 141

EGEE 304 Heat and Mass Transfer (3) Introduces the fundamentals of heat and mass transfer. Conduction, convection, radiation, and diffusion mass transfer will be emphasized. Effective: Fall 2009
Prerequisite: EME 301 and EGEE 302

EGEE 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1999

EGEE 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1999

EGEE 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1999

EGEE 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

EGEE 401 Energy in a Changing World (3) Energy is in transition, with increased international energy demand and increasing environmental pressures. Energy transitions, approaches, and outcomes are addressed. Effective: Spring 2008
Prerequisite: EGEE 101 or EGEE 102 or CHEM 112

EGEE 411 Energy Science and Engineering Lab (3) A comprehensive introduction to classic and modern laboratory skills and experimentation of relevance to energy science and engineering practice. Effective: Spring 2008
Prerequisite: F SC 401 or EGEE 302 or permission of program

EGEE 412 Green Engineering & Environmental Compliance (3) Material and energy flows as they relate to industrial systems, environmental concerns, pollution prevention, and the development of clean technologies. Effective: Summer 2007
Prerequisite: EGEE 302

EGEE 420 Hydrogen and Fuel Cells (3) Course will cover the fundamental principles of electrochemical engineering, hydrogen production and storage, and the design and application of the main types of fuel cells. Effective: Fall 2009
Prerequisite: EME 301

EGEE 430 (M E 430) Introduction to Combustion (3) Concepts related to laminar and turbulent premixed and nonpremixed combustion with applications to propulsion and stationary systems. Effective: Fall 2009
Prerequisite: M E 201 or M E 300 or EME 301

Prerequisite: EGEE 304 or concurrent

EGEE 436 Modern Thermodynamics for Energy Systems (3) Thermodynamics of external fields, theory of stability and fluctuations, irreversible and non-linear thermodynamics, and bifurcation theory and their applications in energy and environmental processes are discussed. Effective: Fall 2009
Prerequisite: EME 301, EGEE 302, MATH 231 and MATH 251

EGEE 437 Design of Solar Energy Conversion Systems (3) A review of fundamental concepts in solar energy conversion including photovoltaic (PV) and solar thermal conversion systems. Effective: Spring 2010
Prerequisite: EGEE 304 or permission of program

EGEE 438 Sustainable Energy Options (3) Principles and operation of sustainable energy conversion units with emphasis on wind, water, and geothermal energy. Effective: Fall 2009 Ending: Fall 2011
Prerequisite: EME 301 and EGEE 302

EGEE 438 Wind and Hydropower Energy Conversion (3) Principles of sustainability and renewable energy conversion with emphasis on wind and hydrokinetic energy resources. Effective: Spring 2012 Future: Spring 2012
Prerequisite: EGEE 302, EME 303

EGEE 441 Electrochemical Energy Conversion (3) Course covers fundamental principles of electrochemistry, including
electrochemical thermodynamics, kinetics, catalysis, and corrosion and focuses on applications such as fuel cells, batteries, and photovoltaics. Each application covers: principles of method, criteria determining performance, present state of development, and advantages/disadvantages. Laboratory demonstration of the performance (current-voltage) measurements of an electrochemical converter is scheduled in this course.

Effective: Fall 2009
Prerequisite: EME 301, EGEE 302

EGEE 451 Energy Conversion Processes (3) Emphasizes processes for conversion of fossil fuels, nuclear and biomass to other fuel forms as transportation fuels and electricity.
Effective: Summer 2007
Prerequisite: F SC 431

EGEE 455 Materials for Energy Applications (3) Overview of key principles and technologies for materials relevant to energy applications, including membranes, catalysis, supercapacitors, adsorbents, and semi-conductors.
Effective: Summer 2007
Prerequisite: EGEE 302, MATSE 201

EGEE 456 (E E 456, E SC 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not applicable.
Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 202, MATH 220

EGEE 464W Energy Design Project (3) A team and capstone design project on an industrial energy-related problem.
Effective: Spring 2008
Prerequisite: seventh-semester standing in energy engineering or chemical engineering ENGL 202C

EGEE 470 Air Pollutants from Combustion Sources (3) Generation of pollutants in combustion chambers; reduction by combustion control; pre- and post-combustion treatment of fuels and effluents.
Effective: Fall 2009
Prerequisite: EME 301

EGEE 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1999

EGEE 494A Research Project (2) Supervised research on a selected topic of energy science and engineering and preparation of written and oral presentation of the research results.
Effective: Summer 2007
Prerequisite: Seventh semester standing in energy engineering

EGEE 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EGEE 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

EGEE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1999

EGEE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Energy and Mineral Engineering (EME)

EME 301 Thermodynamics in Energy and Mineral Engineering (3) Treatment of classical thermodynamics targeted to the needs of students in the Department of Energy and Mineral Engineering. Effective: Fall 2009
Prerequisite: CHEM 112, PHYS 212 and MATH 250 or MATH 251

EME 303 Fluid Mechanics in Energy and Mineral Engineering (3) Treatment of fluid mechanics targeted to the needs of students in the Department of EME. Effective: Summer 2009
Prerequisite: MATH 250 or MATH 251 and PHYS 212

EME 432 (GEOG 432) Energy Policy (3) Analysis, formulation, implementation, and impacts of energy-related policies, regulations, and initiatives. Effective: Summer 2010
Prerequisite: E B F 200, EGEE 120, PL SC 490

EME 444 Global Energy Enterprise (3) Industry perspective on the resources, technologies, engineering approaches and externalities involved in satisfying worldwide energy demand profitably and sustainably. Effective: Summer 2010
Prerequisite: ECON 004 or equivalent EGEE 102, EGEE 120

EME 460 Geo-resource Evaluation and Investment Analysis (3) The course covers engineering evaluation of geo-resources, present value and rate of return analysis, mineral property and reserve estimation, and cost estimation and engineering economy concepts applied to geo-resources including energy and minerals. Effective: Spring 2011
Prerequisite: 5th semester or higher

EME 466 Energy and Sustainability in Society (3) Capstone course in energy technology and policy options for reduced-carbon communities. Covering agent/stakeholder relations, sustainability, communication and public engagement. Effective: Summer 2010
Prerequisite: GEOG 030, METEO 469, EME 432

Last Import from UCM: June 16, 2011 3:00 AM
Energy, Environmental, and Mineral Economics (ENNEC)

ENNEC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ENNEC 401 Case Studies of Industrial Ecology (1-3) The objective of this course is to introduce life cycle analysis and design for the environment.
Effective: Fall 2001
Prerequisite: junior or senior standing with background in earth and environmental studies

ENNEC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite: prior approval of proposed assignment by instructor

ENNEC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2002

ENNEC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ENNEC 499 (IL) Foreign Study--Mineral Industries (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Engineering (ENGR)

ENGR 096 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

ENGR 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

ENGR 097A Plane Surveying Calculations (1) Calculations supporting plane surveying topics of units, significant figures, measurement statistics, directions, traversing, area, and coordinate computations and differential leveling.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 097S First Year Seminars-Engineering (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

ENGR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ENGR 100S Introduction to Engineering (1) A seminar providing information about different engineering majors, coping with college life, and exploring educational and career goals.
Effective: Fall 1999

ENGR 194 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2011

ENGR 195 Engineering Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1985

ENGR 195A Engineering Internship (1 credit per semester/maximum of 4 credits) A supervised work experience in a professionally relevant position in research, industry or government.
Effective: Spring 2003

ENGR 195I (IL) Engineering International Internship (1 per semester/maximum of 4) A supervised work experience in a professionally relevant position in research, industry or government.
Effective: Spring 2006 Ending: Fall 2011

ENGR 195I (IL) Engineering International Internship (0.5-4 per semester/maximum of 4) A supervised work experience in a professionally relevant position in research, industry, government or service sector.

ENGR 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

ENGR 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2009

ENGR 197A Engineering Design and World Cultures (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

ENGR 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
ENGR 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ENGR 294 **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

ENGR 294H **Biodiesel Production and Use** (2) This course will continue the development of the biodiesel production program on the PSUGA campus, expecting to produce 4-6 batches of 20 gallons each during the semester. Students will refine the methods of production focusing on improving and documenting procedures. Combustion sources that can be fueled by the biodiesel will also be studied, looking for different ways that the biodiesel can be used. Students will evaluate the sustainability of production on campus. Students will work to develop a Standard Operating Procedure Manual that will be used for future production.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 295 **Engineering Co-Op Work Experience I** (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/UN grading.)
Effective: Spring 2008
Prerequisite: CHEM 110, CMPSC 122, MATH 140, MATH 141 or PHYS 211

ENGR 295A **Engineering Cooperative Education** (1) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Summer 2003

ENGR 295I (IL) **Engineering International Cooperative Education** (1) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Spring 2006

ENGR 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1993

ENGR 296H **Biodiesel Research** (2) This course is for students that have completed a semester for Biodiesel Production (ENGR 294H) and wish to perform research related to biodiesel. Possible projects include examining methods for reducing the energy and resources in production, compare clouding and gelling of produced biodiesel with standard diesel, research impact of additives on clouding and gelling of biodiesel, develop methods for testing quality of biodiesel, or develop a methanol condenser.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1985

ENGR 297A **Technical Game Development** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 297B **2011 Women in Engineering Program Orientation** (0.5) An orientation program for first-year women students to provide them with skills and resources necessary for success in engineering.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

ENGR 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ENGR 301 (IL) **International Engineering Orientation** (1) This course will prepare engineering students for an international educational experience, including study abroad and international internships.
Effective: Summer 2005

ENGR 310 **Entrepreneurial Leadership** (3) This course develops leadership and entrepreneurial skills using collaborative, problem-based projects, with engineering and business students working in teams.

The Pennsylvania State University
ENGR 312 Sustainable Energy Entrepreneurship (3) Three interrelated modules guide students through technical, global/business, and entrepreneurial aspects of sustainable energy. Effective: Summer 2010
Prerequisite: EGEE 102, E B F 200

Prerequisite: E MCH 213; ENGR 350, E MCH 407 Prerequisite or concurrent: E MCH 461

Prerequisite: ENGL 202

ENGR 350 Computational Modeling Methods (3) Theoretical and hands-on experience of mathematical modeling in mechanical systems; 2D thermal stresses, beam elements, solid modeling and vibrations. Effective: Summer 2010
Prerequisite: CHEM 112; CMPSC 201; E MCH 213; MATH 231; M E 300 or EME 301; PHYS 212

ENGR 394 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2011

ENGR 395 Engineering Co-Op Work Experience II (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/UN grading.) Effective: Fall 1987
Prerequisite: ENGR 295

ENGR 395A Engineering Cooperative Education (1-2 per semester) A supervised work experience in research, industry or government relevant to a student's major. Effective: Summer 2003
Prerequisite: ENGR 295A or ENGR 295I

ENGR 395I (IL) Engineering International Cooperative Education (1-2 per semester) A supervised work experience in research, industry or government relevant to a student's major. Effective: Spring 2006
Prerequisite: ENGR 295A or ENGR 295I

ENGR 396 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2011

ENGR 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2010

ENGR 397A Advanced Engineering Communication (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

ENGR 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

ENGR 407 Technology-Based Entrepreneurship (3) Technology innovation coupled with business planning and development. Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104

ENGR 408 (US) Leadership Principles (2) An introduction to an exploration of theories and principles of leadership, supplemented by presentations given by industry and government leaders. Effective: Spring 2006

ENGR 409 (US) Leadership in Organizations (3) Development of leadership skills essential for engineers to guide colleagues or an organization in a productive direction. Effective: Spring 2006
ENGR 411 Entrepreneurship Business Basics (3) Three critical entrepreneurship skills are covered for non-business majors: business finance, intellectual property, and marketing.
Effective: Summer 2002
Prerequisite: three credits in economics or economics-related course

ENGR 420Y (US;IL) Design for Global Society (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design.
Effective: Spring 2008 Ending: Fall 2011
Prerequisite: ENGL 202

ENGR 421 Materials Properties Measurements II (4) Materials powder characterization, compaction and densification techniques, density measurements, micro structural evaluation, thermal and electrical properties of materials.
Effective: Summer 2010
Prerequisite: ENGR 320, MATSE 201, MATSE 400

ENGR 425 (IST 425, MGMT 425) New Venture Creation (3) Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and present to investors.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104 or ECON 014; CAS 100

ENGR 426 (IST 426, MGMT 426) Invention Commercialization (3) Working with Penn State inventions selected by the Intellectual Property Office, student teams define an optimum commercialization path each technology.
Effective: Spring 2011
Prerequisite: ECON 102 or ECON 104 or ECON 014; CAS 100

ENGR 490W Senior Design I (1) Analysis of environmental impacts on a design, designing products for the global environment and discussion on engineering ethics and professionalism.
Effective: Summer 2010
Prerequisite: ENGR 350, E MCH 407 or E MCH 461

ENGR 491W Senior Design II (3) Capstone of research projects from conception to prototype through industry sponsored collaboration on common technical interests between faculty and student.
Effective: Summer 2010
Prerequisite: ENGR 490W

ENGR 493 Individual Leadership Experience (1) Approved individual project or internship for students to practice the leadership skills developed in the Engineering Leadership Development Minor.
Effective: Fall 2007
Prerequisite: Prerequisite or concurrent: ENGR 408

ENGR 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

ENGR 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

ENGR 495 Engineering Co-Op Work Experience III (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/Un grading.)
Effective: Fall 1987
Prerequisite: ENGR 395

ENGR 495A Engineering Cooperative Education (1-3 per semester) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Summer 2003
Prerequisite: ENGR 395A or ENGR 395I

ENGR 495I (IL) Engineering International Cooperative Education (1-3 per semester) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Spring 2006
Prerequisite: ENGR 395A or ENGR 395I

ENGR 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1993

ENGR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1988

ENGR 497A HESE Reflection and Research Dissemination (3) This post-travel course focuses on reflection on topics related to HESE ethics and grassroots diplomacy and workshops on research dissemination.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: EDSGN 497A

ENGR 497B **International Leadership Practicum - Hungary** (0.5) Hosted by Corvinus University in Budapest, students attend presentations on Entrepreneurship/Leadership/Business by invited lecturers, tours of local businesses etc., and collaborative activities by PSU and Corvinus University students. Effective: Summer 2011 Ending: Summer 2011

Prerequisite: B or better completion of

ENGR 497C (SCIED 497C) **Exploring the Science and Engineering of Robotics** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011 Ending: Summer 2011

ENGR 497C **Global Engineering Teams** (1) Preparation for a career in international business. Prerequisite for students traveling internationally with the Engineering Leadership Development Program. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Prerequisite: ENGR 408 and ENGR 493

ENGR 497D **International Leadership Practicum -- Hungary/Benin** (0.5) The Hungary component is hosted by Corvinus University in Budapest; students attend presentations on Entrepreneurship/Leadership/Business by invited lecturers, tours of local businesses and collaborative activities by PSU and Corvinus University students. The Benin component is hosted by the Faculty of Agronomy Cotonou and the Association Baobab, Pingou; students perform beta testing of a mechanical baobab processor design. Effective: Summer 2011 Ending: Summer 2011

Prerequisite: B or better completion of: ENGR 408 and ENGR 493; Global Engineering Teams Seminar

ENGR 497F (SCIED 497F) **Fundamentals of Science, Technology, and Engineering** (3) A course focusing on physics content, engineering design principles, and elementary science education pedagogy. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 497I **Engineering Teaching Intern** (0.5) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 497K **Social Entrepreneurship** (3) Explore intricacies of social innovation. Work in teams to develop feasibility plans for social ventures in the US, Asia and Africa. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGR 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM
Engineering Design (EDSGN)

EDSGN 010 Introductory Engineering Graphics (1) Multiview projections, pictorial drawings, dimensioning, engineering standards, and working drawings.
Effective: Fall 2007

EDSGN 011S Explorations in Design First-Year Seminar (1) Students explore topical issues in engineering design.
Effective: Spring 2007

EDSGN 012S Solar Racers First-Year Seminar (1) Students explore solar energy engineering by designing, building, testing, and racing a model car powered by a photovoltaic panel.
Effective: Spring 2007

EDSGN 013S Ethics of Star Trek First-Year Seminar (1) The Star Trek television series is used as an introduction to ethics, with application to student life and engineering practice.
Effective: Spring 2007

EDSGN 015S Transformations by Design: First-Year Seminar (1) Examination of the social and environmental transformations that follow engineering design, and of the transformations of students by higher education.
Effective: Spring 2007

EDSGN 100 Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2007

EDSGN 100H Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 100H Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.

EDSGN 100S Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2007

EDSGN 110 Spatial Analysis in Engineering Design (2) Spatial analysis techniques using advanced computer-aided drafting and design systems, with an emphasis on engineering concepts, analysis and design.
Effective: Summer 2010
Prerequisite: EDSGN 100

EDSGN 130 Architectural Graphics and CAD (3) Principles of architectural drawing; spatial relations with architectural applications; introduction to computer graphics (CAD) with project.
Effective: Fall 2007

EDSGN 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

EDSGN 210 Tolerancing and Spatial Models (2) Tolerances; form and size; unilateral, bilateral, and symmetric; form control, critical fits, tolerances specifications precedence; applications in spatial models.
Effective: Summer 2010
Prerequisite: EDSGN 110

EDSGN 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2004

EDSGN 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2004

EDSGN 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
EDSGN 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

EDSGN 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2008

EDSGN 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EDSGN 352 **Fundamentals of Community Service Engineering** (1) Students collaborate on community service engineering projects. Course modules cover engineering design, teamwork and topics relevant to project work.
Effective: Summer 2008

EDSGN 394 **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2007

EDSGN 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique or activity required.
Effective: Summer 2007

EDSGN 396 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2007

EDSGN 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2007

EDSGN 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

EDSGN 452 **Projects in Community Service Engineering** (1-2) Students engage in research and design of appropriate solutions to real-life community-based problems and project management of such projects.
Effective: Summer 2008
Prerequisite: EDSGN 352 ; 5th semester standing

EDSGN 479 (I E 479) **Human Centered Product Design and Innovation** (3) Consumer product design for a global market, incorporating human factors principles and user desires in a multicultural perspective.
Effective: Summer 2010
Prerequisite: I E 408 orl E 419 or equivalent

EDSGN 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2004

EDSGN 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EDSGN 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2004

EDSGN 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2004

EDSGN 496A **Solidworks Fundamentals** (3) Fundamentals of solidworks.
Effective: Summer 2011 Ending: Summer 2011

EDSGN 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
that may be topical or of special interest.
Effective: Summer 2004

EDSGN 497A **HESE Field Experience** (0.5) The HESE Field Experience is a hands-on integrated learning, research and entrepreneurial engagement experience for students that have been working on various HESE ventures in the Spring semester.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: EDSGN 497C, EDSGN 452 or BIOE 401 or ENGL 202C

EDSGN 497B **Fundamentals of Solidworks** (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Summer 2011 Ending: Summer 2011

EDSGN 497B **Fundamentals of Solidworks** (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 497C **Open Source Rapid Prototyping** (3) Students build and test open-source rapid prototypers, make models for real customers, and study design modeling theory.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: junior standing or permission of program

EDSGN 497D **Multidisciplinary Capstone Design Project** (3) The course focuses on multidisciplinary industry-sponsored and community-service-based design projects offered in conjunction with the College of Engineering's Learning Factory.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: senior level standing in BIO CMPEN EE IE or ME; BIOE 440 or EE 350 or EE 316 or OR 302 or OR 305 or OR 323 or OR 327 or OR 330 or OR 405

EDSGN 497E **Sensor and Controller System Integration** (3) Hands-on course covers the interfacing of various sensors and actuators to computers to build proof-of-concept prototypes of innovative products.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 497F **Sensor and Controller System Practicum** (3) Hands-on course covers the interfacing of various sensors and actuators to computers to build proof-of-concept prototypes of innovative products.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 497G **Current CAD Applications** (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Summer 2011 Ending: Summer 2011

EDSGN 497G **Current CAD Applications** (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 497I **Global Innovations** (3) Matching the best ideas to the biggest problems through collaborative dialog and design.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 497K **Engineering Design and Analysis with CATIA** (3) The first part of the course covers the fundamentals of CATIA V5 in solid modeling, part design and assembly design prototyping, and design documentation. The second part of this course covers the basic FEA (finite element analysis) capabilities in CATIA V5. Students will learn how to quickly generate a finite element model for surface and/or solid parts and how to perform analysis using the finite elements method with CATIA V5.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

EDSGN 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2008

EDSGN 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Engineering Graphics Technology (EG T)

EG T 060 3D Visualization and Spatial Development (1) Supplemental course designed to improve spatial skills through the use of interactive hands-on activities, such as clay modeling and multi-media software.
Effective: Summer 2007

EG T 101 Technical Drawing Fundamentals (1) Technical skills and drafting room practices; fundamentals of theoretical graphics; orthographic projection including sectional and auxiliary views; dimensioning.
Effective: Summer 1988

EG T 102 Introduction to Computer Aided Drafting (1) A first course presenting an intensive study utilizing a computer assisted drafting and design system to obtain graphic solutions.
Effective: Summer 1988

EG T 114 Spatial Analysis and Computer-Aided Drafting (2) Spatial relations of applications in engineering technology with more advanced functionality of computer-aided drafting and design systems.
Effective: Fall 2008
Prerequisite: EDSGN 100

EG T 119 Introduction to CAD for Electrical and Computer Engineering (2) Introduction to computer-aided drafting (CAD) for Electrical and Computer Engineering Technology students with a focus on three dimensional assemblies.
Effective: Summer 2007
Prerequisite: MATH 081

EG T 120 Introduction to Graphics and Solid Modeling (3) Development of visualization skills; introduction to parametric solids modeling techniques with constrained and unconstrained geometry, and assemblies.
Effective: Spring 2007

EG T 121 Applied Solid Modeling (3) Creation of working drawings from solid models; dimensioning, GD&T, fastener, weld and finish symbols, layouts and bill of materials.
Effective: Spring 2007
Prerequisite: EG T 120

EG T 201 Advanced Computer Aided Drafting (2) Application of the principles of engineering graphics; preparation of working drawings; details, examples, and bill of material using CAD.
Effective: Fall 2008
Prerequisite: EDSGN 100, EG T 114

EG T 205 Transition From 2-D CAD to Solid Modeling (1) Supplemental course designed to introduce students (primarily transfer) to a solid modeling program.
Effective: Summer 2007
Prerequisite: EG T 201

EG T 222 Geometric Dimensioning and Tolerancing (3) Study of methods of geometric dimensioning and tolerancing used in technical graphics; CAD drawing applications are used to strengthen proficiency.
Effective: Spring 2007
Prerequisite: EG T 121

EG T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1988

Last Import from UCM: June 16, 2011 3:00 AM
Engineering Mechanics (E MCH)

E MCH 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 210 Statics and Strength of Materials (5) Equilibrium of particles, rigid bodies, frames, trusses, beams, columns; stress and strain analysis of rods, beams, pressure vessels.
Effective: Fall 1983
Prerequisite: or concurrent: MATH 141

E MCH 210H Statics and Strength of Materials, Honors (5) Equilibrium of particles and rigid bodies, frames, trusses, beams, columns; stress and strain analysis of rods, beams, pressure vessels.
Effective: Spring 2008
Prerequisite: or concurrent: MATH 141

E MCH 211 Statics (3) Equilibrium of coplanar force systems; analysis of frames and trusses; noncoplanar force systems; friction; centroids and moments of inertia.
Effective: Spring 2008
Prerequisite: or concurrent: MATH 141

E MCH 212 Dynamics (3) Motion of a particle; relative motion; kinetics of translation, rotation, and plane motion; work-energy; impulse-momentum.
Effective: Spring 2008
Prerequisite: E MCH 211 or E MCH 210; MATH 141

E MCH 212H Dynamics (3) Motion of a particle; relative motion; kinetics of translation, rotation, and plane motion; work-energy; impulse-momentum.
Effective: Spring 2008
Prerequisite: E MCH 211, E MCH 210H or E MCH 210; MATH 141

E MCH 213 Strength of Materials (3) Axial stress and strain; torsion; stresses in beams; elastic curves and deflection of beams; combined stress; columns.
Effective: Spring 2008
Prerequisite: E MCH 211

E MCH 213D Strength of Materials with Design (3) Stress and deformation in members under axial, bending, and torsional loads, combined stress; columns. Design with a project.
Effective: Spring 2008
Prerequisite: E MCH 211, ED&G 100

E MCH 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

E MCH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 315 Mechanical Response of Engineering Materials (2) Mechanical response measures and design theories for engineering materials; elastic and plastic response as affected by stress, strain, time, temperature.
Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210H or E MCH 210

E MCH 316 Experimental Determination of Mechanical Response of Materials (1) Experimental techniques for mechanical property measurement and structural testing.
Effective: Spring 2008
Prerequisite: or concurrent: E MCH 315

E MCH 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 400 Advanced Strength of Materials and Design (3) Combined stresses; energy methods; special problems in bending and torsion; plates; thin-walled structures; buckling and stability; design projects.
Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210H or E MCH 210

E MCH 402 Applied and Experimental Stress Analysis (3) Experimental design of structural and machine components; photoelasticity, electrical resistance strain gauge techniques, Moire techniques, interferometry, holography.
Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210H or E MCH 210
E MCH 403 Strength Design in Materials and Structures (4) Determination, interpretation, significance, and application of mechanical properties such as plastic flow, fatigue strength, creep resistance, and dynamic properties.
Effective: Spring 2008
Prerequisite: E MCH 315, E MCH 316

Effective: Spring 2008
Prerequisite: CMPSC 201, CMPSC 202 or E SC 261M; E MCH 213, E MCH 210H or E MCH 210

E MCH 409 Advanced Mechanics (3) Continuation of E MCH 012; Euler's equations for the rotation of a rigid body, gyroscopic motion, impulsive motion, Lagrangian mechanics.
Effective: Spring 2008
Prerequisite: E MCH 212 or E MCH 212H; MATH 230

E MCH 412 Experimental Methods in Vibrations (3) Systems of one or more degrees of freedom, mechanical vibrations, vibration properties of materials, vibration techniques in nondestructive testing.
Effective: Fall 2007
Prerequisite: E MCH 470

E MCH 416H Failure and Failure Analysis of Solids (3) Examination and analysis of the various modes of failure of solid materials.
Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210 or E MCH 210H

Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210H or E MCH 210

Effective: Spring 2008
Prerequisite: E MCH 315, E MCH 316

E MCH 461 (M E 461) Finite Elements in Engineering (3) Computer modeling and fundamental analysis of solid, fluid, and heat flow problems using existing computer codes.
Effective: Spring 2011
Prerequisite: E MCH 213, E MCH 210H or E MCH 210; CMPSC 200, CMPSC 201 or CMPSC 202

E MCH 470 (M E 470) Analysis and Design in Vibration Engineering (3) Application of Lagrange's equations to mechanical system modeling, multiple-degree-of-freedom systems, experimental and computer methods; some emphasis on design applications.
Effective: Spring 2008
Prerequisite: E MCH 212 or E MCH 212H; M E 370 or E SC 407H

E MCH 471 Engineering Composite Materials (3) Properties, manufacture, forms of composites; micromechanics; orthotropic lamina properties; laminate analysis; theories; failure analysis; thermal, environmental effects.
Prerequisite: E MCH 213, E MCH 210H or E MCH 210; E MCH 315, E SC 414M or MATSE 201

E MCH 473 (AERSP 473) Composites Processing (3) An introduction to the principles of mechanics governing manufacturing, computer-aided design, and testing of composite materials and structures.
Prerequisite: Summer 1988

E MCH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

E MCH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

E MCH 497A Sensor Technology for Condition Monitoring (3) Course will offer a survey of sensor devices including piezoelectric, MEMS(LOC), biomimetic, capacitive, thermal, fiber optic, electric, laser, infrared ultrasonic.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: Statics and Dynamics

Last Import from UCM: June 16, 2011 3:00 AM
Engineering Science (E SC)

E SC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

E SC 120S Design for Failure--First-Year Seminar (1) This seminar, through the utilization of commonly used examples, discusses the engineering principles which are exploited by such designs.
Effective: Summer 2000

E SC 121S Science/Engineering Fiction and the Engineering Sciences--First-Year Seminar (1) Examines the technology predictions of authors in view of the engineering sciences on which the underlying devices of their stories are based.
Effective: Summer 2000

E SC 122S Weird, Wild, and Wonderful Materials and Devices--First-Year Seminar (1) First-year seminar that surveys the use of novel materials and material systems to create practical devices.
Effective: Summer 2000

E SC 123S Catastrophic Failures--First-Year Seminar (1) First-year seminar that explores design deficiencies through the study of case histories of a number of famous failures.
Effective: Summer 2000

E SC 124S Green Engineering--First-Year Seminar (1) This First-year seminar introduces students to basic concepts in green engineering practices and processes.
Effective: Fall 2001

E SC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

E SC 211 Material, Safety, and Equipment Overview for Nanofabrication (3) Nanofabrication processing equipment and materials handling procedures with a focus on safety, environment, and health issues.
Effective: Fall 2007 Ending: Summer 2011
Prerequisite: CHEM 101, MATH 081, PHYS 150 or PHYS 250

E SC 211 Material, Safety and Equipment Overview for Nanotechnology (3) Nanotechnology processing equipment and materials handling procedures with a focus on safety, environment, and health issues.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 101, MATH 081, PHYS 150 or PHYS 250

E SC 212 Basic Nanofabrication Processes (3) Step-by-step description of equipment and processes needed in top-down, bottom-up, and hybrid nanofabrication.
Effective: Fall 2007 Ending: Summer 2011
Concurrent: E SC 211

E SC 212 Basic Nanotechnology Processes (3) Step-by-step description of equipment and processes needed in top-down, bottom-up, and hybrid nanotechnology processing.
Effective: Fall 2011 Future: Fall 2011
Concurrent: E SC 211

E SC 213 Materials in Nanotechnology (3) The use of materials for nanotechnology as well as the unique material properties available at the nano-scale.
Effective: Fall 2007
Concurrent: E SC 211 E SC 212

E SC 214 Lithography for Nanofabrication (3) Lithographic process from substrate preparation to exposure; process from development through inspection; advanced optical lithographic techniques.
Effective: Spring 2001 Ending: Summer 2011
Concurrent: E SC 211 E SC 212

E SC 214 Patterning for Nanotechnology (3) Lithographic process from substrate preparation to exposure; process from development through inspection; advanced optical lithographic techniques.
Effective: Fall 2011 Future: Fall 2011
Concurrent: E SC 211 E SC 212

E SC 215 Materials Modification in Nanofabrication (3) Processing steps used in modifying material properties in nanofabrication.
Effective: Spring 2001 Ending: Summer 2011
Concurrent: E SC 211 E SC 212
E SC 215 **Materials Modification in Nanotechnology Applications** (3) Processing steps used in modifying material properties in nanotechnology.
Effective: Fall 2011 Future: Fall 2011
Concurrent: E SC 211 E SC 212

E SC 216 **Characterization, Testing of Nanofabricated Structures and Materials** (3) Measurements and techniques essential for controlling device fabrication.
Effective: Fall 2007 Ending: Summer 2011
Concurrent: E SC 211 E SC 212

E SC 216 **Characterization, Testing of Nanotechnology Structures and Materials** (3) Measurements and techniques essential for controlling device fabrication.
Effective: Fall 2011 Future: Fall 2011
Concurrent: E SC 211 E SC 212

E SC 261M **Computational Methods in Engineering** (3) Modeling, solving engineering problems using FORTRAN, software libraries, graphics. Reports on root search, curve fitting, finite differences, algebraic equations.
Effective: Spring 1995
Prerequisite: or concurrent:MATH 141

E SC 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

E SC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1988

E SC 312 **Engineering Applications of Wave, Particle, and Ensemble Concepts** (3) The engineering applications of the wave and ensemble pictures of the physical world.
Effective: Summer 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent:PHYS 214

E SC 312 **Engineering Applications of Wave, Particle, and Ensemble Concepts** (3) The engineering applications of the wave and ensemble pictures of the physical world.
Prerequisite: PHYS 214

E SC 313 **Introduction to Principles, Fabrication Methods, and Applications of Nanotechnology** (3) Principles, fabrication methods and applications of nanoscale.
Effective: Summer 2007
Prerequisite: CHEM 110, CHEM 111, PHYS 212, PHYS 214

E SC 314 **Engineering Applications of Materials** (3) Basic concepts of material structure and their relation to mechanical, thermal, electrical, magnetic, and optical properties, with engineering applications.(E SC 314 is not intended for students in E SC major)
Effective: Spring 2007
Prerequisite: PHYS 212

E SC 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

E SC 400H **Electromagnetic Fields** (3) Irrotational and solenoidal fields, potentials, vector and scalar field and wave equations, harmonic and wave functions in various coordinates, radiation.
Effective: Fall 2003
Prerequisite: E E 210, MATH 250

E SC 404H **Analysis in Engineering Science** (3) Unified application of coordinate transformations; Laplace's, heat, and wave equations to boundary value problems and problems of continua in engineering.
Effective: Spring 2001
Prerequisite: MATH 250 orMATH 251

E SC 406H **Analysis in Engineering Science II, Honors** (3) Application of complex variable theory, integral equations, and the calculus of variations to engineering problems.
Effective: Fall 1983
Prerequisite: E SC 404H

E SC 407H **Computer Methods in Engineering Science, Honors** (3) Numerical solution of differential equations including fundamentals: roots of single nonlinear and simultaneous (Matrix) equations, least squares fitting and statistical goodness, interpolation, finite differences, differentiation, integration, eigensolutions.
Effective: Spring 2007
Prerequisite: CMPSC 201C orCMPSC 201F orE SC 261M Concurrent: MATH 220

E SC 410H **Senior Design Project, Honors** (3) Design and synthesis in the context of a specific design project undertaken during the senior year.
Effective: Summer 1998
Prerequisite: E SC 407H

E SC 411H Senior Research and Design Project II, Honors (3) Design and synthesis in the context of a specific design project undertaken during the senior year.
Effective: Spring 2007
Prerequisite: E SC 410H

E SC 414M Elements of Material Engineering (3) Structure and imperfections in engineered materials; their influence on properties, behavior, and processing. Applications of metals, ceramics, polymers, and composites.
Effective: Spring 2008
Prerequisite: E MCH 213, E MCH 210H or E MCH 210. Prerequisite or concurrent: E SC 312 or PHYS 237

E SC 417 (MATSE 417) Electrical and Magnetic Properties (3) Electrical conductivity, dielectric properties, piezoelectric and ferroelectric phenomena; magnetic properties of ceramics.
Effective: Summer 2006
Prerequisite: MATSE 400, MATSE 402, PHYS 214

E SC 419 Electronic Properties and Applications of Materials (3) The course covers the electrical, optoelectronic, dielectric, and other electron-based properties of solids, semiconductors in particular, and their engineering/device applications.
Effective: Summer 2006
Prerequisite: E SC 312

E SC 433H Engineering Science Research Laboratory Experience (1) Hands-on lab experience and exposure to campus-wide interdisciplinary experimental research. Experimental probability and statistics. Applications across all Engineering Science disciplines.
Effective: Spring 2007
Prerequisite: MATH 251

E SC 445 Semiconductor Optoelectronic Devices (3) The course will present the basic engineering science and technology involved in modern semiconductor optoelectronic devices.
Effective: Spring 2007
Prerequisite: E SC 419 or E SC 314 or E E 368

E SC 450 (MATSE 450) Synthesis and Processing of Electronic and Photonic Materials (3) The materials science of applying thin film coatings, etching, and bulk crystal growth; includes materials transport, accumulation, epitaxy, and defects.
Effective: Fall 2005
Prerequisite: MATSE 201 or E SC 414H sixth semester standing

E SC 455 (MATSE 455) Electrochemical Methods in Corrosion Science and Engineering (3) The objective of the course is to give students hands-on experience in assessing environmental degradation of engineering materials.
Effective: Spring 2003
Prerequisite: E SC 414M or MATSE 259; MATSE 420 or MATSE 421

E SC 456 (E E 456, EGEE 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not available.
Effective: Spring 2008
Prerequisite: CMPSC 201 or CMPSC 202; MATH 220

E SC 457 (MATSE 457) Particulate Materials Processing (3) Fundamentals of processing particulate materials including production, characterization, handling, compaction, and sintering of metal, carbide, intermetallic, and composite powders.
Effective: Spring 2008
Prerequisite: E MCH 315, E SC 414 or MATSE 259

E SC 481 Elements of Nano/Micro-electromechanical Systems Processing and Design (3) Interdisciplinary fundamentals of nano/microelectromechanical systems (NEMS/ MEMS), including design, fabrication and machining of miniature systems. Draws from mechanics, science and materials.
Effective: Spring 2008
Prerequisite: E MCH 213 or E MCH 315 or E SC 312

E SC 482 Micro-Optoelectromechanical Systems (MOEMS) and Nanophotonics (3) Principles and applications of Micro-Optoelectromechanical and Nanophotonic devices and systems.
Effective: Summer 2006
Prerequisite: PHYS 212, PHYS 214

E SC 483 (MATSE 483) Simulation and Design of Nanostructures (3) Introduction to computer simulation techniques and their applications at the physical/life sciences interface.
Effective: Fall 2007
Prerequisite: PHYS 214 or E SC 312, MATH 230

E SC 484 Biologically Inspired Nanomaterials (3) Advances in biomolecular-based Science and technology at the physical/life sciences interface.
Effective: Summer 2006
Prerequisite: PHYS 214, MATH 230

E SC 494 Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Summer 1986
E SC 494H Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Fall 2007

E SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

E SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 16, 2011 3:00 AM
Engineering Technology (ET)

ET 002 Engineering Technology Orientation (1) Introduction to computer methods for analyzing and solving engineering technology problems; microcomputer fundamentals, word processing, spreadsheet, and database software packages.
Effective: Summer 1995

ET 200 Graphic Communications (3) The study of graphic communications relating to the design and construction industry.
Effective: Fall 2007
Prerequisite: 2-credit drafting course

ET 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1997

ET 300 Mechanics I: Statics (3) Equilibrium of coplanar force systems; analysis of frames and trusses; shear and moment diagrams; friction; centroids and moment of inertia.
Effective: Spring 2010
Prerequisite: MATH 140; PHYS 150 or PHYS 211 or PHYS 250

ET 302 Mechanics II: Dynamics (3) Kinematics of a particle; relative motion; kinematics of a mass-point; kinematics of a rigid body; work-energy; impulse-momentum.
Effective: Fall 2007
Prerequisite: Statics

ET 321 Dynamics (3) Motion of a particle, relative motion; kinetics of translation; rotation and plane motion; conservation of energy and momentum.
Effective: Spring 2010
Prerequisite: ET 300, E MCH 211 or MCH T 111 Concurrent: statics integral calculus

ET 322 Strength of Materials (3) Axial, torsional, bending, and combined stress analysis; deformation and deflection analysis of cables, shafts, and beams; column design and analysis.
Effective: Spring 2010
Prerequisite: ET 300, E MCH 211 or MCH T 111

ET 323 Strength of Materials Laboratory (1) Measurement of mechanical properties of materials, structural testing.
Effective: Spring 2010
Prerequisite: or concurrent: ET 322, E MCH 213 or MCH T 213

ET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

ET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written or oral critique of activity required.
Effective: Fall 2007
Prerequisite: prior approval of proposed assignment by instructor

ET 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2007

ET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007
English (ENGL)

ENGL 001 (GH) **Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Spring 2003

ENGL 001H (GH) **Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 001S (GH) **Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Fall 2000

ENGL 001W (GH) **Understanding Literature** (3) Studies the various critical ways of reading, understanding, and writing about fiction, poetry, and drama.
Effective: Spring 1999

ENGL 002 (GH) **The Great Traditions in English Literature** (3) Major works of fiction, drama, and poetry from the Middle Ages to the twentieth century expressing enduring issues and values.
Effective: Spring 2000

ENGL 002H (GH) **The Great Traditions in English Literature** (3) Major works of fiction, drama, and poetry from the Middle Ages to the twentieth century expressing enduring issues and values.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 003 (GH) **The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Spring 2001

ENGL 003S (GH) **The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Fall 2002

ENGL 004 **Basic Writing Skills** (3 per semester/maximum of 6) Intensive practice in writing sentences and paragraphs and instruction in grammar, usage, and punctuation. Designed for students with deficient preparation. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Fall 1983

ENGL 005 **Writing Tutorial** (1) Tutorial instruction in composition and rhetoric for students currently enrolled in Engl. 4 or 15. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Fall 1983

ENGL 006 **Creative Writing Common Time** (1 per semester/maximum of 8) Required one hour a week meeting time; readings, professional development, advising, community-building.
Effective: Fall 2007

ENGL 015 (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 1991
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

ENGL 015A (GWS;US) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 2005
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

ENGL 015H (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination

ENGL 015S (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 1999

The Pennsylvania State University
Prerequisite: ENGL 004 or satisfactory performance on the English proficiency examination.

ENGL 030 (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Fall 1991

ENGL 030H (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 030S (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

ENGL 030T (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

ENGL 050 (GA) **Introduction to Creative Writing** (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.
Effective: Spring 2001

ENGL 050H (GA) **Introduction to Creative Writing** (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 050H (GA) **Introduction to Creative Writing** (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.

ENGL 083S (GH) **First-Year Seminar in English** (3) Critical approaches to the dimensions and directions in English/American literature and rhetoric.
Effective: Summer 1999

ENGL 083T (GH) **First-Year Seminar in English** (3) Critical approaches to the dimensions and directions in English/American literature and rhetoric.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 088 (GH) **Australian/New Zealand Cultural Perspectives** (3) Australian and New Zealand cultural and social perspectives, with emphasis on the historical development of intellectual, aesthetic, and humanistic values.
Effective: Spring 2001

ENGL 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 100 **English Language Analysis** (3) An examination of English sounds, words, and syntax using traditional, structural, and transformational grammar.
Effective: Spring 1984

ENGL 104 (GH) **The Bible as Literature** (3) Study of the English Bible as a literary and cultural document.
Effective: Spring 2002

ENGL 105 (GH;US) (AM ST 105) **American Popular Culture and Folklife** (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2008

ENGL 110 **Newswriting Practicum** (2 per semester, maximum of 6) Practice in writing and editing articles for the campus newspaper.
Effective: Fall 2001

The Pennsylvania State University
Undergraduate Bulletin Archive – June, 2011

ENGL 111 The Possibilities of English (2) This course familiarizes students with the range of professional possibilities offered by the English major.
Effective: Summer 2010

ENGL 129 (GH) Shakespeare (3) A selection of the major plays studied to determine the sources of their permanent appeal. Intended for non-majors.
Effective: Spring 2003

ENGL 129H (GH) Shakespeare (3) A selection of the major plays studied to determine the sources of their permanent appeal. Intended for non-majors.

ENGL 130 (GH) Reading Popular Texts (3) Popular texts (printed, visual, and aural texts) and their social, political, and cultural significance in the contemporary world.
Effective: Fall 2007
Prerequisite: ENGL 015 or ENGL 030H

ENGL 132 (GH;US) (J ST 132) Introduction to Jewish American Literature (3) A historical and thematic survey of Jewish Literature of the United States.
Effective: Spring 2009

ENGL 133 (GH) Modern American Literature to World War II (3) Cather, Eliot, Frost, Faulkner, Fitzgerald, Hemingway, Hurston, Wharton, Wright, and other writers representative of the years between the world wars.
Effective: Spring 2002

ENGL 134 (GH) American Comedy (3) Studies in American comedy and satire, including such writers as Mark Twain, Faulkner, Vonnegut, Ellison, O’Connor, Welty, and Heller.
Effective: Spring 2003

ENGL 135 (GH;US) Alternative Voices in American Literature (3) United States writers from diverse backgrounds offering varying responses to issues such as race, class, gender, and ethnicity.
Effective: Summer 2005

ENGL 135S (GH;US) Alternative Voices in American Literature (3) United States writers from diverse backgrounds offering varying responses to issues such as race, class, gender, and ethnicity.
Effective: Summer 2005

ENGL 136 (GH) The Graphic Novel (3) The graphic novel as a literary and visual form (produced primarily in English).
Effective: Summer 2010

ENGL 139 (GH;US) Black American Literature (3) Fiction, poetry, and drama, including such writers as Baldwin, Douglass, Ellison, Morrison, and Wright.
Effective: Summer 2005

ENGL 139S (GH;US) Black American Literature (3) Fiction, poetry, and drama, including such writers as Baldwin, Douglass, Ellison, Morrison, and Wright.
Effective: Fall 2006

ENGL 140 (GH) Contemporary Literature (3) Writers such as Baldwin, Beckett, Bellow, Ellison, Gordimer, Lessing, Lowell, Mailer, Naipaul, Pinter, Plath, Pynchon, Rushdie, and Walker.
Effective: Spring 2003

ENGL 145 (GH;IL) Modern Irish Literature (3) Irish literature in the twentieth century and beyond; focus on the interplay of political, social, and cultural, forces on literature.
Effective: Spring 2007

ENGL 180 (GH) Literature and the Natural World (3) Literary representations of the natural world, focusing on English language traditions.
Effective: Spring 2003

ENGL 181A (GH;US) Adventure Literature: Exploring the Chesapeake Bay (4.5) Examines the interconnection of culture and nature in the Chesapeake Bay region through the literature of the region.
Effective: Summer 2011

ENGL 181B (GH;US) Adventure Literature: Exploring Cape Cod (4.5) Examines the interconnection of culture and nature on Cape Cod through considerations of texts in various literary genres that have contributed to development of a

The Pennsylvania State University
distinctive regional identity and culture.
Effective: Summer 2011

ENGL 182A (GH;US;IL) Literature and Empire (3) Literature written in English from countries that were once part of European empires, e.g., India, Canada, South Africa, and others.
Effective: Summer 2005

ENGL 182B (GH;US) Literature and Empire (3) Literature written in English from countries that were once part of European empires, e.g., India, Canada, South Africa, and others.
Effective: Summer 2005

ENGL 182C (GH;IL) Literature and Empire (3) Literature written in English from countries that were once part of European empires, e.g., India, Canada, South Africa, and others.
Effective: Summer 2005

ENGL 184 (GH;IL) (CMLIT 184) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries.
Effective: Spring 2006

ENGL 184S (GH;IL) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries.
Effective: Spring 2006

ENGL 184U (GH;IL) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 185 (GH;IL) (CMLIT 185) World Novel (3) Development of the modern novel in the last century (outside the British Isles and the United States); lectures, discussions, readings in translation.
Effective: Spring 2011

ENGL 185U (GH;IL) World Novel (3) Development of the modern novel in the last century (outside the British Isles and the United States); lectures, discussions, readings in translation.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 189 (GH;IL) (CMLIT 189) Modern Drama (3) Playwrights who set the world's stage for twentieth-century drama; issues that continue to shape the contemporary theatrical world.
Effective: Spring 2011

ENGL 191 (GH) Science Fiction (3) Science fiction as the literature of technological innovation and social change--its development, themes, and problems.
Effective: Summer 1995

ENGL 192 (GH) The Literature of Fantasy (3) Literature(s) of fantasy from early forms through a variety of contemporary traditions.
Effective: Spring 2011

ENGL 194 (GH;US;IL) (WMNST 194) Women Writers (3) Short stories, novels, poetry, drama, and essays by English, American, and other English-speaking women writers.
Effective: Summer 2005

ENGL 194S (GH;US;IL) Women Writers (3) Short stories, novels, poetry, drama, and essays by English, American, and other English-speaking women writers.
Effective: Summer 2005

ENGL 196 (GH;US) (AM ST 196, AMSTD 196) Introduction to American Folklore (3) A basic introduction to verbal and nonverbal folklore stressing the basic procedures of collection, classification, and analysis.
Effective: Summer 2005

ENGL 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

ENGL 197A Understanding Poetry (3) This course is a lively basic introduction to the genre of poetry.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
ENGL 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Fall 1992

ENGL 199 (IL) **Foreign Study--English** (3-6) Studies in English language and/or literature.  
Effective: Summer 2005

ENGL 200 **Introduction to Critical Reading** (3) Responses to a variety of literary texts written in English that evoke different approaches.  
Effective: Fall 1991  
Prerequisite: ENGL 015 or ENGL 030

ENGL 200H **Introduction to Critical Reading** (3) Responses to a variety of literary texts written in English that evoke different approaches.  
Prerequisite: ENGL 015 or ENGL 030

ENGL 200W **Introduction to Critical Reading** (3) Responses to a variety of literary texts written in English that evoke different approaches.  
Effective: Fall 2001  
Prerequisite: 6 credits of ENGL ENLSH or LIT

ENGL 201 (GH) **What is Literature** (3) Acquaints students with theory and practice relevant to studies of narrative, lyric poetry, and drama.  
Effective: Summer 2006  
Prerequisite: ENGL 015 or ENGL 030

ENGL 201H (GH) **What is Literature** (3) Acquaints students with theory and practice relevant to studies of narrative, lyric poetry, and drama.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011  
Prerequisite: ENGL 015 or ENGL 030

ENGL 202A (GWS) **Effective Writing: Writing in the Social Sciences** (3) Instruction in writing persuasive arguments about significant issues in the social sciences. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Effective: Summer 1996  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 202B (GWS) **Effective Writing: Writing in the Humanities** (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Effective: Summer 1996  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 202C (GWS) **Effective Writing: Technical Writing** (3) Writing for students in scientific and technical disciplines. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Effective: Summer 1996  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 202D (GWS) **Effective Writing: Business Writing** (3) Writing reports and other common forms of business communication. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Effective: Summer 1996  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 202H (GWS) **Honors Writing in the Humanities** (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 202H (GWS) **Honors Writing in the Humanities** (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)  
Prerequisite: ENGL 015 or ENGL 030 ; fourth-semester standing

ENGL 209 **Journal or Magazine Practicum** (1-6 per semester/maximum of 8) A practicum in the editing and publishing of a magazine or journal.  
Effective: Fall 2007

Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030; ENGL 202A, ENGL 202B, ENGL 202C or ENGL 202D; 7th semester standing or higher

ENGL 481 Literary Theory: Historical Perspectives (3) Selected topics in the history of literary criticism and theory within the English-language tradition.
Effective: Summer 1994
Prerequisite: ENGL 015 or ENGL 030

ENGL 482 Contemporary Literary Theory and Practice (3 per semester, maximum of 6) Contemporary literary theories and their implication for critical practice as applied to British, American, and other English-language literary works.
Effective: Summer 1992
Prerequisite: ENGL 015 or ENGL 030

ENGL 482W Contemporary Literary and Cultural Theory (3) Contemporary literary and cultural theories and their implications for critical practice as applied to a variety of texts, e.g. literary, linguistic, visual, multimedia, and/or popular.
Effective: Fall 2007
Prerequisite: ENGL 015 or ENGL 030H; ENGL 200

ENGL 483 Problems in Critical Theory and Practice (3) Intensive study of one or more recent theoretical approaches as applied to British, American, and other English-language literary works.
Effective: Summer 1994
Prerequisite: ENGL 015 or ENGL 030

ENGL 484 James Joyce (3) Analysis of principal works and their background.
Effective: Fall 2007
Prerequisite: ENGL 002; ENGL 015 or ENGL 030

ENGL 485 Australian and New Zealand Literature and Culture (3) Questions of nationality, identity, gender, race, class, colonialism, and postcolonialism in these literatures.
Effective: Summer 1995
Prerequisite: ENGL 015 or ENGL 030

ENGL 486 (IL) The World Novel in English (3) Studies in the novel, written in English, by writers outside of the United States and Great Britain.
Effective: Fall 2007
Prerequisite: ENGL 002; ENGL 015 or ENGL 030

ENGL 487W Senior Seminar (3) Issues, themes, periods, critical theories, etc., that invite students to use prior English studies, limited to seniors majoring in English.
Effective: Summer 1997
Prerequisite: six credits of 400-level courses in English

ENGL 488 (IL) (CMLIT 488) Modern Continental Drama (3) From Ibsen to the drama of today: Strindberg, Chekhov, Hauptmann, Pirandello, Ionesco, Beckett, Genet, and others.
Effective: Spring 2006
Prerequisite: ENGL 015 or ENGL 030

ENGL 489 (WMNST 489) British Women Writers (3) A study of selected British women writers.
Effective: Spring 2008
Prerequisite: 6 credits of ENGL

ENGL 490 (US:IL) (WMNST 490) Women Writers and Their Worlds (3) American and British literature written from the perspective of women.
Effective: Summer 2005
Prerequisite: ENGL 015 or ENGL 030
ENGL 491 The Capstone Course in Professional Writing (3) This culminating course for Professional Writing majors concentrates on reflective analyses, design, and presentation of documents in the development of professional portfolios. Effective: Summer 2004
Prerequisite: ENGL 015 or ENGL 030; ENGL 202A, ENGL 202B, ENGL 202C or ENGL 202D; seventh-semester standing or higher; enrollment in Professional Writing major

ENGL 492 (AM ST 476, WMNST 491) American Women Writers (3) A study of selected American women writers. Effective: Spring 2008
Prerequisite: 6 credits of ENGL

ENGL 493 (AM ST 493) The Folktale in American Literature (3) A survey of the literary uses of the folktale and legendary materials, with particular concentration on the literature of America. Effective: Spring 1986
Prerequisite: ENGL 015 or ENGL 030

ENGL 494 Senior Thesis in English (1-6) Senior English (ELISH) majors write a thesis arranged with in-charge person and submit it to a faculty committee for appraisal. Effective: Fall 2007
Prerequisite: seventh-semester standing

ENGL 494H Senior Thesis in English (1-6) Senior English (ELISH) majors write a thesis arranged with in-charge person and submit it to a faculty committee for appraisal. Effective: Fall 2007
Prerequisite: seventh-semester standing

ENGL 495 Internship (3-12) Supervised practicum in fields appropriate to the English major. Effective: Spring 2001

ENGL 496 Independent Studies (1-18) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

ENGL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

ENGL 497A The Zombie in Film and Society (3) Course examines the cultural role of the zombie in the twentieth and twenty-first textual and cinematic forms. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 497A Writer in the Community (3) This is a service learning course that involves graduate and undergraduate students in the teaching and practice of writing in non-university settings. Effective: Spring 2012 Ending: Spring 2012 Future: Spring 2012

ENGL 497B (S T S 497A) Being Humans (3) This course will examine conceptualizations of the human and the processes by which “the human” is defined in a variety of ways. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENGL 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

ENGL 499 (IL) Foreign Study--English (3-6) Studies abroad in English language and/or literature. Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
English as a Second Language (ESL)

ESL 004 ESL/Composition for American Academic Communication I (3) For beginning-intermediate level non-native speakers of English to improve their overall composition skills in preparation for future American academic writing assignments. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program. Effective: Fall 2001

ESL 015 (GWS) ESL/Composition for American Academic Communication II (3) For intermediate/advanced level non-native speakers of English to develop strategies for reading and writing American academic discourse. Effective: Fall 2001

Prerequisite: a grade of C or higher required in ESL 004

ESL 114G American Oral English for Academic Purposes (3) Instruction in ESL for international teaching assistants that focuses on the use of oral language skills in an academic setting. Effective: Spring 2001

Prerequisite: score below 200 on the American English Oral Communicative Proficiency Test (AEOCPT)

ESL 116G ESL/Composition for Academic Disciplines (3) For high, intermediate, and advanced international students at the graduate level to engage in research in their academic disciplines. Effective: Fall 2001 Ending: Summer 2011

Prerequisite: score of 200-229 on the American English Oral Communicative Proficiency Test (AEOCPT) or a grade of A required in ESL 115G

Prerequisite: score of 200-229 on the American English Oral Communicative Proficiency Test (AEOCPT) or a grade of A required in ESL 115G

Prerequisite: score of 230-249 on the American English Oral Communicative Proficiency Test (AEOCPT) or a grade of A required in ESL 117G

ESL 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2004

ESL 297A English for Academic Purposes (3) This course is designed to help nonnative English speaking undergraduate students cope with linguistic and cultural demands in U.S. university classrooms. Effective: Summer 2011 Ending: Summer 2011

ESL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2004

ESL 497B Academic Presentations for Non-native English-speakers (3) This course is designed to help non-native English-speaking graduate students in planning and conducting oral presentations in academic settings. Effective: Summer 2011 Ending: Summer 2011
Entomology (ENT)

ENT 202 (GN) The Insect Connection (3) An introduction to the diversity of insects and the ways in which they interact with humans and impact our world. Effective: Summer 1998

ENT 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

ENT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

ENT 313 Introduction to Entomology (2) Introduction to basic entomology, covering insect diversity, identification, structure and function, and principles of management. Effective: Fall 2001 Prerequisite: 3 credits of natural science Concurrent: ENT 315

ENT 314 Management of Insect Pests of Ornamentals (1) Diagnosis and management of insect pests on shrubs and trees in the landscape or production nursery. Effective: Spring 1999 Prerequisite: ENT 313

ENT 316 Field Crops Entomology (1) Laboratory-based approach to identification and management of insect pests of agronomic crops. Effective: Spring 1999 Prerequisite: ENT 313

ENT 317 Turfgrass Insect Pest Management (3) Introduction to entomology and management of insect pests of cool- and warm- season turfgrass. Effective: Summer 2007 Prerequisite: TURF 235, CHEM 101 orCHEM 110

ENT 395 Internship (10-12) Supervised field experience and study related to the student's major professional interest. Written and oral critique of activity required. Effective: Summer 1984 Prerequisite: prior approval of proposed assignment by department; cumulative GPA of 2.00 or higher; 6 credits of entomology; at least fourth-semester standing

ENT 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1998

ENT 397I Apiculture (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENT 402W (VB SC 402W) Biology of Animal Parasites (3) An introduction to animal parasitology. Emphasizes placed on host/parasite interactions, parasites of zoonotic importance, control programs and taxonomy. Effective: Spring 2010 Prerequisite: BIOL 110

ENT 410 Insect Structure and Function (3) Integrated physiology and anatomy of insects; emphasis on unique adaptations, genetic regulation of development, insects as model systems, environmental physiology. Effective: Summer 1994 Prerequisite: BIOL 110, BIOL 220W, BIOL 230W, BIOL 240W

ENT 420 Introduction to Population Dynamics (3) Principles of population regulation, demographic analysis, modeling of dynamic processes are discussed; laboratories involve the exploration of population growth models. Effective: Summer 1994 Prerequisite: BIOL 110, BIOL 220W

ENT 425 Freshwater Entomology (3) Collection and identification of insects and other arthropods in freshwater ecosystems; field study of habitats. Effective: Fall 2000

ENT 430 (B M B 430, BIOL 430) Developmental Biology (3) Molecular and genetic analyses of mechanisms involved in differentiation and determination in biological systems. Effective: Summer 1994 Prerequisite: BIOL 222; B M B 252 orBIOL 230W
ENT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ENT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ENT 497A The Evolutionary Biology of the Insects (3) Insects are the dominant animal life on the planet. In this course we will take a systematic view of insect diversity. We will integrate phylogenetics, functional morphology, alpha-taxonomy, paleobiology, ecology and behavior to understand why insect diversity is so great.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENT 497A Evolution and Insect Societies (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

ENT 497B Sensory Biology of Insects (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Last Import from UCM: June 16, 2011 3:00 AM
Entrepreneurship (ENTR)

ENTR 300 Principles of Entrepreneurship (3) Overview of the fundamental principles and processes of entrepreneurship including idea generation and opportunity analysis.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102

ENTR 320 Entrepreneurship and New Venture Creation (3) Explores the process for starting and growing a new venture including the development of a business plan.
Effective: Summer 2000
Prerequisite: ENTR 300

ENTR 400 Financing Entrepreneurial Ventures (3) Overview of alternative forms of financing including seed capital, valuing a company, going public, partnerships, and acquisitions.
Effective: Summer 2000
Prerequisite: B A 243 or B LAW 243; ENTR 320, FIN 301

ENTR 410 Entrepreneurial Marketing (3) Principles of Internet marketing and strategies for marketing new ventures on the Web.
Effective: Spring 2007
Prerequisite: ENTR 320, MIS 204, MKTG 301

ENTR 420 Leadership and Growth of New Ventures (3) Leadership of an entrepreneurial organization, including organizational effectiveness, stages of entrepreneurial growth, strategies for the future, and developing people.
Effective: Summer 2000
Prerequisite: ENTR 320; MGMT 100 or MGMT 301

ENTR 430 Entrepreneurship and New Product Development (3) Examines the process of designing, testing and launching new products, and developing a strategy for commercialization of the technology.
Effective: Summer 2000
Prerequisite: ENTR 300

ENTR 440 Entrepreneurship and Franchising (3) Overview of the entire franchising process with a focus on licensing and distributorship, trade marks, strategy, and growing the enterprise.
Effective: Summer 2000
Prerequisite: ENTR 300

ENTR 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2000

ENTR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2000

ENTR 497A Sheetz Fellows I (1) This course is an introduction to the Sheetz Fellows Program. It prepares students with an entrepreneurial mindset for leadership roles by providing them with mentoring opportunities, academic challenges, and resources. Topic areas include: servant leadership, business networking, social networking, study abroad exploration, and resume development. The Sheetz Fellows experience offers "an education for leadership" in the best tradition of the Business program. It molds well-rounded students who are ready for the world and prepares students for citizenship and for life-long learning.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENTR 497A Special Topics - E-Recycling and Product Design in Kenya (3) This course explores the topics of electronic recycling and new product design in Kenya. Travel to Kenya in early summer to collaborate with Kenyan students will be a part of the course. Students must earn a B or better to qualify for travel.
Prerequisite: ENGR 310

Last Import from UCM: June 16, 2011 3:00 AM
Environ System Engin (ENVSE)

Prerequisite: or concurrent: CHEM 110, MATH 141, PHYS 212, EME 301

Prerequisite: Prerequisite or concurrent: MN PR 301

ENVSE 412 Environmental Systems Engineering Laboratory (1) A laboratory study of the principles involved in the characterization and remediation of process wastes with an emphasis on physical separations. Effective: Summer 2012 Future: Summer 2012
Prerequisite: or concurrent: MN PR 301

ENVSE 420 Fire Safety Engineering (3) Overview of the history and behavior of fire, hazards and risk identification, detection and suppression systems, and emergency evacuation procedures. Effective: Summer 2012 Future: Summer 2012
Prerequisite: CHEM 110, MATH 141, PHYS 212

Prerequisite: CHEM 110, CHEM 112, MATH 141, MN PR 301

ENVSE 440 Industrial Ventilation for Contaminant Control (3) Ventilation system design and analysis for control of industrial contaminants; measurements, dilution and local exhaust ventilation strategies; laboratory demonstrations included. Effective: Spring 2012 Future: Spring 2012
Prerequisite: MATH 141, PHYS 212, CHEM 110

Prerequisite: CHEM 110

ENVSE 457 Industrial Hygiene Measurements (4) Introduction to industrial hygiene methods used in evaluating occupational exposures, and in designing and evaluating control systems; laboratory work included. Effective: Summer 2012 Future: Summer 2012
Prerequisite: ENVSE 450

ENVSE 470 Systems Safety and Risk Engineering (3) Quantitative methods of systems analysis, risk analysis and tolerance, as well as accident case and cost-benefit analysis are covered. Effective: Spring 2012 Future: Spring 2012
Prerequisite: MATH 251

Prerequisite: GEOEE 427 minimum of seventh-semester standing in Environmental Systems Engineering

ENVSE 494H Senior Thesis (1-6) Independent research and/or design projects under the supervision of the Environmental Systems Engineering program. Effective: Summer 2012 Future: Summer 2012
Prerequisite: seventh-semester standing in Environmental Systems Engineering

ENVSE 495 Environmental Health and Safety Engineering Internship (2) Students work with an advisor to prepare technical memos and a final report summarizing the experiential education gained through employment in industry. Effective: Spring 2012 Future: Spring 2012
Prerequisite: junior or senior standing

ENVSE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 2012 Future: Summer 2012

ENVSE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2012 Future: Spring 2012

Last Import from UCM: June 16, 2011 3:00 AM
Environmental Engineering (ENVE)

ENVE 301W Environmental Microbiology (3) Fundamentals of microbial ecology and environmental microbiology with an emphasis on aspects of these fields important to environmental engineers.
Effective: Fall 2003 Ending: Summer 2011
Prerequisite: introductory chemistry high school biology

ENVE 301W Environmental Microbiology (3) Fundamentals of microbial ecology and environmental microbiology with an emphasis on aspects of these fields important to environmental engineers.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 110 and CHEM 111

ENVE 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1997

ENVE 401 Occupational Safety and Environmental Health (1) Regulations, management practices, hazard identification, exposure assessment, monitoring, employee protection, and program management for occupational safety and health.
Effective: Summer 2007 Ending: Summer 2011
Prerequisite: CHEM 110

ENVE 401 Occupational Safety and Environmental Health (1) Regulations, management practices, hazard identification, exposure assessment, monitoring, employee protection, and program management for occupational safety and health.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 301 and ENVE 301W

ENVE 411 Water Supply and Pollution Control (3) Water supply, wastewater characteristics, design of unit processes for water and wastewater treatment, sludge processing, and related new technologies.
Effective: Summer 2007
Prerequisite: CHEM 301, ENVE 301W

ENVE 413W Operation and Control of Treatment Systems (3) Wastewater treatment, water treatment, solids handling, hazardous waste site control and operations, operator certification, report writing.
Effective: Spring 2002 Ending: Summer 2011
Prerequisite: ENVE 411, ENVE 424 Concurrent: ENVE 416

ENVE 413W Operation and Control of Treatment Systems (3) Wastewater treatment, water treatment, solids handling, hazardous waste site control and operations, operator certification, report writing.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: ENVE 411 Concurrent: ENVE 416

ENVE 415 Hydrology (3) Watershed response to rainfall events; hydrologic systems, ground water flow.
Effective: Spring 2007
Prerequisite: ENVE 361, MATH 446

ENVE 416 Treatment Plant Design (3) Design of treatment facilities for water and waste water based on regulatory requirements and standards.
Effective: Spring 1999
Prerequisite: ENVE 411

ENVE 417 Hydraulic Design (3) Design of water and waste water conveyance systems and storage facilities.
Effective: Spring 1999
Prerequisite: ENVE 415

ENVE 424 Solid Waste Management (3) Solid waste collection and disposal techniques; recycling and design optimization; including content analysis, legislation, and planning.
Effective: Fall 1998
Prerequisite: seventh-semester standing

ENVE 425 Hazardous Waste Management (3) Overview of regulations, risk assessment, waste minimization and pollution prevention, treatment of hazardous waste, and remediation of contaminated sites.
Effective: Spring 2008
Prerequisite: CHEM 301

ENVE 430 Sustainable Engineering (3) A course on engineering which uses ecological principles to minimize waste and maximally use input materials.
Effective: Summer 2003
Prerequisite: Permission of program

ENVE 442 Wastewater Treatment Plant Design and Operation (4) Covers wastewater generation, design and operation of unit operations for wastewater treatment, sludge handling and disposal options, related new technologies.
Effective: Summer 2007
Prerequisite: CHEM 301, ENVE 301W

ENVE 460 Environmental Law (3) This course provides a survey of Federal and State environmental laws, including statutory, common and administrative law. May not be taken for graduate credit by Dickinson School of Law students in

The Pennsylvania State University
the concurrent J.D./EPC programs.
Effective: Summer 2003
Prerequisite: senior standing graduate standing or permission of program.

ENVE 470 Air Quality (3) Overview of air quality issues with regard to the sources, measurements, effects, transport and control of potential air contaminants.
Effective: Fall 2007
Prerequisite: CHEM 301

ENVE 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2005

ENVE 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

ENVE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

ENVE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1996

Last Import from UCM: June 16, 2011 3:00 AM
Environmental Resource Management (ERM)

ERM 151 Careers and Issues in Environmental Resource Management (1) Career opportunities and topical issues in the environmental sciences.
Effective: Spring 2001

ERM 210 (GN) Environmental Factors and Their Effect on Your Food Supply (3) An exploration of how urban environmental problems influence our ability to obtain food and natural resources.
Effective: Spring 2000

ERM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

ERM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

ERM 300 Basic Principles and Calculations in Environmental Analysis (3) This course will teach basic problem solving skills while using examples taken from environmental media--air, water, and soil.
Effective: Fall 2010
Prerequisite: 3 credits in BIOL;CHEM 111;MATH 110 orMATH 140;PHYS 250 orPHYS 211

ERM 309 (A S M 309) Measurement & Monitoring of Hydrologic Systems (3) Introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems.
Effective: Spring 2010
Prerequisite: PHYS 211 orPHYS 250, CHEM 110

ERM 411 Legal Aspects of Resource Management (3) Legal systems and lawmaking processes; property rights in land, water, and wildlife resources; jurisdictional problems in planning resource use.
Effective: Summer 1996
Prerequisite: E R M 151

ERM 412 Resource Systems Analysis (3) The concept of systems; techniques of analysis, including input/output, mathematical programming, and simulation; application to resource systems.
Effective: Spring 2010
Prerequisite: BIOL 220W, E R M 151, E R M 300 andSTAT 240;MATH 111 orMATH 141

ERM 413W Case Studies in Ecosystem Management (3) Application of biological, physical, and social science principles to ecosystem management problems; introduction to environmental impact analysis and review.
Effective: Spring 2010
Prerequisite: BIOL 220W, SOILS 101W . Prerequisite or concurrent:E R M 412

ERM 430 (PPATH 430) Air Pollution Impacts to Terrestrial Ecosystems (3) Overview of the direct and indirect effects of air pollutants on terrestrial plants and ecosystems.
Effective: Summer 2004
Prerequisite: BIOL 220W orFOR 308

ERM 431 (VB SC 431) Environmental Toxicology (3) Effects of pollutants on animal health at the chemical, physical, and cellular level.
Effective: Spring 2011
Prerequisite: BIOL 110, CHEM 110, CHEM 112

ERM 433 Transformation of Pollutants in Soils (3) Processes regulating fate and transport of metals, organics, nutrients, salts, pathogens, and radionuclides in soil systems.
Effective: Summer 2007
Prerequisite: CHEM 112, CHEM 111, SOILS 101

ERM 435 (W F S 435) Limnology (3) Biogeochemistry and natural history of freshwater ecosystems.
Effective: Summer 2007
Prerequisite: BIOL 110, BIOL 220W, CHEM 110

ERM 436 (W F S 436) Limnological Methods (3) Application of current methodologies to evaluate the biological, chemical, and physical characteristics of aquatic ecosystems.
Effective: Spring 2010
Prerequisite: BIOL 110 andCHEM 110

ERM 447 Stream Restoration (3) Stream restoration including fluvial geomorphology, stream classification, impairment, sediment transport, stable stream design, and watershed assessment.
Effective: Summer 2008
Prerequisite: A S M 327 orA B E 307 orC E 361

ERM 450 (W F S 450) Wetland Conservation (3) Wetland types, classification, functions and values; hydrology, soils, and...
plants; introduction to wetland identification and delineation; wetland regulations.
Effective: Spring 2002
Prerequisite: E R M 300 or W F S 209
E R M 494H Honors Thesis (1-6) Independent study directed by a faculty supervisor that culminates in the production of an ERM honors thesis.
Effective: Summer 2009
Prerequisite: Junior or senior status in the Schreyer Honors College and permission of the ERM honors advisor
E R M 495 Internship (1-12) A supervised practicum in the environmental field. To be offered only for SA/UN grading.
Effective: Summer 1996
Prerequisite: prior approval of assignment by instructor
E R M 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996
E R M 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996
E R M 497A Environmental Biophysics (3) Analysis of the interaction of living organisms and their microenvironment by applying biophysical principles and engineering methods.
Prerequisite: 3 credits of Biology MATH 110 or MATH 140 or PHYS 211 or PHYS 251
E R M 499 (IL) Foreign Studies (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Environmental Studies (ENVST)

ENVST 100 (GS) Visions of Nature (3) An interdisciplinary introduction to environmental studies, including perspectives from ethics, economics, public policy, art, literature, history, geology, biology, and ecology.
Effective: Fall 2000

ENVST 200 Research Methods in Environmental Studies (3) Focus on interdisciplinary research methodologies from biology, social sciences, and humanities for the study of environmental issues and problems.
Effective: Spring 2000
Prerequisite: BIOL 110, ENGL 015, ENVST 100

ENVST 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

ENVST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

ENVST 297A (ENGL 297A) Building Thoreau's Cabin (3) Experiential learning course in which students will read accounts of cabin building, then build a replica of Henry Thoreau's cabin as described in Walden.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

ENVST 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2000
Prerequisite: prior approval of proposed assignment by instructor

ENVST 400W Senior Seminar in Environmental Studies (3) Writing-intensive study of a specified topic in environmental studies integrating approaches and research from a variety of disciplines.
Effective: Spring 2000
Prerequisite: ENVST 200

ENVST 424 (ENGL 424) Creative Writing and the Natural World (3) Creative writing workshop focused on the environment and related issues.
Effective: Summer 2011
Prerequisite: ENGL 050 or ENVST 100

ENVST 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

Last Import from UCM: June 16, 2011 3:00 AM
Finance (FIN)

FIN 100 Introduction to Finance (3) The nature, scope, and interdependence of the institutional and individual participants in the financial system. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 301 or FIN 301.
Effective: Spring 1996
Prerequisite: third-semester standing

FIN 108 Personal Finance (3) Personal management of budgets, bank accounts, loans, credit buying, insurance, real estate and security buying. May not be used to satisfy Smeal College baccalaureate degree requirements.
Effective: Fall 1983
Prerequisite: third-semester standing

FIN 108A Personal Finance: Wealth Management (1) Personal finance with a focus on wealth management and retirement planning along with investment securities, tax strategies, personal financial needs, and long-term care.
Effective: Summer 2011
Prerequisite: third-semester standing

FIN 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FIN 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FIN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FIN 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FIN 301 Corporation Finance (3) Nature of finance function; risk and return concepts; working capital; dividend policies; mergers; security markets; acquisition and management of corporate capital; analysis of operations, forecasting capital requirements; raising capital; and planning profits. Available to Baccalaureate students only. Not available to students who have taken B A 301.
Effective: Spring 2011
Prerequisite: ENGL 015 or ENGL 030; ACCTG 211; ECON 102 or ECON 104; SCM 200 or STAT 200

FIN 301H Corporation Finance (3) Nature of finance function; risk and return concepts; working capital; dividend policies; mergers; security markets; acquisition and management of corporate capital; analysis of operations, forecasting capital requirements; raising capital; and planning profits. Available to Baccalaureate students only. Not available to students who have taken B A 301.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: ENGL 015 or ENGL 030; ACCTG 211; ECON 002 or ECON 004; SCM 200 or STAT 200

FIN 302 Introductory Financial Modeling (3) This course applies spreadsheets to build financial models and solve numerically intensive problems in finance.
Effective: Spring 2011
Prerequisite: ACCTG 211, ECON 102, MATH 110 or MATH 140 and SCM 200 or STAT 200 Concurrent: FIN 301

Effective: Spring 2011
Prerequisite: B A 301 or FIN 301

FIN 305M Financial Management of the Business Enterprise (Honors) (3) Development of advanced practices of financial management and their application to decision making in a business firm.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: B A 301 or FIN 301

FIN 305M Financial Management of the Business Enterprise (Honors) (3) Development of advanced practices of financial management and their application to decision making in a business firm.
Prerequisite: B A 301 or FIN 301

The Pennsylvania State University
FIN 305W **Financial Management of the Business Enterprise** (3) Development of advanced practices of financial management and their application to decision making in a business firm.
   Effective: Spring 2011
   Prerequisite: B A 301 or FIN 301

FIN 306W **Investment Valuation** (3) Approaches to investment strategy, investment decisions; valuation of corporate securities, including the impact of dividend policy and capital structure.
   Effective: Spring 2001
   Prerequisite: FIN 301

FIN 330 **Personal Financial Planning** (3) Developing financial plans including cash budgets, credit purchases, investments, and insurance.
   Effective: Spring 2008 Ending: Fall 2011
   Prerequisite: fifth-semester standing or permission of instructor

FIN 340 **Insurance Planning** (3) Introduction to personal insurance including homeowner's, auto, life, disability, health, and Social Security.
   Effective: Spring 2008

FIN 395A **Nittany Lion Fund - Associate Fund Manager Practicum** (3 per semester/maximum of 6) Introduction to working with the Nittany Lion Fund. Students work on projects such as investor reports and earnings reports along with assisting Nittany Lion Fund Managers with the development of stock pitches based on market insights.
   Effective: Summer 2011
   Prerequisite: permission of program

FIN 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
   Effective: Summer 2003

FIN 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
   Effective: Summer 2003

FIN 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
   Effective: Summer 2007

FIN 405 **Advanced Financial Management** (3) An examination of the development and application of decision rules for major long-term financial and investment problems of the firm.
   Effective: Summer 1993
   Prerequisite: FIN 305W

FIN 406 **Security Analysis and Portfolio Management** (3) Advanced valuation theory; fundamentals of security analysis; portfolio construction and management.
   Effective: Spring 2011
   Prerequisite: B A 301 or FIN 301

FIN 406H **Security Analysis and Portfolio Management (Honors)** (3) Advanced valuation theory; fundamentals of security analysis; portfolio construction and management.
   Effective: Summer 2011
   Prerequisite: B A 301 or FIN 301

FIN 407 **Multinational Financial Management** (3) Analysis of the international aspects of managerial finance; emphasis on the impact of the international financial environment on firm operations.
   Effective: Spring 2005
   Prerequisite: FIN 305W

FIN 408 **Financial Markets and Institutions** (3) Functional analysis of major credit institutions; sources and uses of funds; impact of government regulation.
   Effective: Fall 1994
   Prerequisite: B A 301 or FIN 301

FIN 408H **Financial Markets and Institutions** (3) Functional analysis of major credit institutions; sources and uses of funds; impact of government regulation.
   Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
   Prerequisite: B A 301 or FIN 301

FIN 408H **Financial Markets and Institutions (Honors)** (3) Introduction to bonds, equities, derivatives, and financial institutions including insurance, pension funds and mutual funds.
   Prerequisite: B A 301 or FIN 301

FIN 409 **Real Estate Finance and Investment** (3) The sources and uses of credit; instruments and methods of financing;
the theory and practice or real estate investment analysis.
Effective: Summer 2011
Prerequisite: B A 301 or FIN 301

FIN 410 Derivative Markets (3) Functions, techniques, and impact of speculation conducted through forward markets; the nature of speculative transactions, pricing, and methods of trading.
Effective: Spring 2011
Prerequisite: FIN 406

FIN 412 Commercial Bank Management (3) Fundamental principles underlying management of a commercial bank; capital funds; asset and liability management; value maximization; legal and operational constraints.
Effective: Fall 1994
Prerequisite: FIN 305W, FIN 408

FIN 413 Risk Management of Financial Institutions (3) Measuring and managing risk faced by financial institutions.
Effective: Summer 2007
Prerequisite: B A 301 or FIN 301

FIN 414 Financial Trading and Applications (3) This course focuses on financial modeling and analysis of trading strategies. Bloomberg, Reuters, spreadsheets and trading simulations are used extensively.
Effective: Summer 2007
Prerequisite: FIN 305W, FIN 406 or FIN 301

FIN 415 Advanced Financial Modeling (3) Develop financial models using spreadsheets, VBA programming, and trading room applications such as Bloomberg and @Risk.
Effective: Spring 2011
Prerequisite: FIN 406

FIN 420 Investment and Portfolio Analysis (3) Investment and risk, types of security investments, sources of investment information, the broker, the stock market, portfolio management.
Effective: Spring 2008
Prerequisite: FIN 301

FIN 427 Derivative Securities (3) Introduction to futures contracts and options, leading to a working understanding of their importance in financial management applications.
Effective: Spring 2008
Prerequisite: FIN 420 or approval of program

FIN 430 Estate Planning (3) Liquidity planning, titling and transfer of property, trusts, federal unified tax system, gifting, incapacity planning, legal documents.
Effective: Spring 2008
Prerequisite: ACCTG 310 and FIN 340

FIN 450 Retirement Planning (3) Retirement planning: qualified and non-qualified plans, characteristics, provisions, regulations administration, application approach with case studies.
Effective: Spring 2008

FIN 451 Intermediate Financial Management (3) Case studies are used to develop skills in solving a variety of financial management problems.
Effective: Spring 2010
Prerequisite: FIN 301

FIN 456 (IL) International Capital Markets (3) This course develops understanding of international capital markets by striking a balance between institutional details, theoretical foundation and practical application.
Effective: Spring 2008
Prerequisite: FIN 301

FIN 460 (REST 460) Real Estate Financial Analysis (3) Debt and equity financing, capital structure, "creative financing," risk analysis, corporate asset management.
Effective: Summer 2005 Ending: Fall 2011
Prerequisite: FIN 305W

FIN 460 (RM 460) Real Estate Financial Analysis (3) Debt and equity financing, capital structure, "creative financing," risk analysis, corporate asset management.
Prerequisite: FIN 305W or RM 303 or RM 330W

FIN 461 Investments (3) Analysis and valuation of equity, debt, and alternative investments.
Effective: Spring 2010 Ending: Summer 2011
Prerequisite: FIN 301

FIN 461 Portfolio Management and Analysis (3) Investement policy and process, modern portfolio theory, portfolio construction, and portfolio performance measurement and evaluation.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: FIN 420

FIN 470 (REST 470) Real Estate and Capital Markets (3) Analysis of publicly-traded real estate of both the equity, (REITs) and debt (MBSs) sides. The course also provides international perspectives.
Effective: Summer 2005 Ending: Fall 2011
Prerequisite: FIN 305W
FIN 470 (R M 470) **Real Estate and Capital Markets** (3) Analysis of publicly-traded real estate of both the equity, (REITs) and debt (MBSs) sides. The course also provides international perspectives.
Prerequisite: FIN 305W or R M 303 or R M 330W

FIN 471 **International Finance** (3) Financial decision making in an international environment. Emphasis on topics relevant to small businesses and entrepreneurs.
Effective: Spring 2010
Prerequisite: FIN 301

FIN 475 **Financial Decision Making** (3) Problems and cases in financial decision making for non-financial corporations and financial institutions.
Effective: Fall 2009
Prerequisite: FIN 302, FIN 420 and senior standing

FIN 481 **Advanced Financial Analysis** (3) Capstone course integrating financial analysis coursework. This course is based on the case study method which provides a challenging setting in which to apply business concepts.
Effective: Spring 2009
Prerequisite: ACCTG 426, FIN 405

FIN 489 **Seminar in Finance** (3) In-depth study of new trends, concepts, and practices in financial or portfolio management.
Effective: Spring 2008
Prerequisite: FIN 301 or equivalent; 3 additional credits of coursework in Finance

FIN 494 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

FIN 494H **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2008

FIN 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite: prior approval of proposed assignment by instructor

FIN 495A **Nittany Lion Fund -- Lead Fund Manager Practicum** (3 per semester/maximum of 6) Advanced work with the Nittany Lion Fund. Lead Fund Managers are accountable for sector and stock performance as well as reports. Students delegate work to Associate Fund Managers while focusing a great amount of attention to all aspects of stock pitches, weekly and quarterly reports, along with conducting weekly training sessions for new analysts.
Effective: Summer 2011
Prerequisite: FIN 395A and permission of program

FIN 495B **Nittany Lion Fund - Executive Board Practicum** (3 per semester/maximum of 6) Oversight of the Nittany Lion Fund (NLF) and its overall performance. Executive Board members and Directors are accountable for all aspects of the Nittany Lion Fund. Students interact with investors and are responsible for delivering professionally developed performance reports, weekly information updates, and annual shareholder meetings. Executive Board members assume specific duties within the NLF associated with their position, along with a shared responsibility for being a spokesperson for the fund.
Effective: Summer 2011

FIN 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FIN 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FIN 497D **Trading Room Intern** (1) Students work with financial databases in the Smeal Trading Room helping develop educational materials and assisting users.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

FIN 497E **Entrepreneurial Finance** (3) The most difficult task facing an entrepreneur when starting a new company is to acquire sufficient funds to grow the company. Entrepreneurial finance has little relationship to corporate finance and this course explores the unique options open to an entrepreneur to meet funding needs at different early stages. Students will interact with real companies to help them develop their financing plans including bootstrapping, grants, corporate partnering, angels, venture capital etc. The course is suitable for seniors with an ambition to start their own companies.

FIN 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that
may be topical or of special interest.
Effective: Summer 2003

FIN 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Last Import from UCM: June 16, 2011 3:00 AM
Financial Services (FINSV)

FINSV 400 Investment Valuation for the Financial Services Professional (3) Approaches to investment strategies, investment decisions, and the valuation of corporate securities.  
Effective: Summer 2002  
Prerequisite: FIN 301  

FINSV 411 Federal Income Taxation for the Financial Services Professional (3) Tax regulations, tax policy, tax determination, and tax planning applicable for personal/business decision making; emphasis on taxation of individuals.  
Effective: Summer 2002  
Prerequisite: ACCTG 211  

FINSV 420 Estate Planning for the Financial Services Professional (3) Studies the processes relating to the use, conservation, and transfer of an individual's wealth; emphasizing investments, insurance and taxation.  
Effective: Summer 2002  
Prerequisite: FINSV 400, FINSV 411, INS 301  

Last Import from UCM: June 16, 2011 3:00 AM
First-Year Seminar (CAP)

CAP 100S **Orientation to the Undergraduate Experience** (1) To facilitate transition of new students through active engagement and introduction to university and campus resources.
Effective: Fall 2004

CAP 110S **First-Year Seminar for Capital College, The School of Behavioral Sciences and Education** (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 120S **First-Year Seminar for Business** (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 140S **First-Year Seminar for Humanities** (1) Introduction to the discipline including: ethics, research methods, communications, career opportunities/issues and applied technology.
Effective: Summer 1999
Prerequisite: or concurrent:CAP 100S

CAP 150S **First-Year Seminar for Capital College, The School of Public Affairs** (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 160S **First-Year Seminar for Capital College, The School of Science, Engineering and Technology** (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2004

Last Import from UCM: June 16, 2011 3:00 AM
Food Science (FD SC)

FD SC 105 (GHA) (S T S 105) **Food Facts and Fads** (3) Impact on society and the individual of modern food technology, food laws, additives, etc.; historical, current, and futuristic aspects.
Effective: Spring 2004

FD SC 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 200 **Introductory Food Science** (3) General overview and principles; food constituents and properties; quality and safety; preservation methods; processing animal and plant products.
Effective: Summer 2007
Prerequisite: CHEM 110

FD SC 201 **Introductory Food Science Practicum** (1) Demonstration to illustrate actual chemical reactions in food systems and visits to campus and area food processing operations.
Effective: Fall 1984
Prerequisite: or concurrent: FD SC 200

FD SC 205 **Food Plant Sanitation** (3) Organization and administration of food plant sanitation with emphasis on the production and maintenance of safe, wholesome food products.
Effective: Spring 1997
Prerequisite: FD SC 200

FD SC 206 **Improving Food Quality** (3) Modern philosophies coupled with practical information on improving product quality, including topics on HACCP, SPC, recall procedures and customer relations.
Effective: Spring 1997
Prerequisite: FD SC 200

FD SC 207 (AN SC 207) **Animal Products Technology** (2) Composition, safety, palatability, preservation, and processing of foods from animals, impact of animal production and handling practices on product properties.
Effective: Spring 2003

FD SC 208 (AN SC 208) **Animal Products Technology Laboratory** (1) Harvesting and processing of foods from animals; hands-on and demonstration exercises; industry procedures for processing meat, milk, and egg products.
Effective: Spring 2003
Prerequisite: or concurrent: AN SC 207

FD SC 280H (GH) (PHIL 280H) **Food, Values, and Health** (3) The perceived relationship between food and health, emphasizing the conceptual nature of both; and how values contribute to the relationship.
Effective: Spring 2007

FD SC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 400 **Food Chemistry** (4) Chemical properties of food constituents as influenced by processing and storage.
Effective: Fall 2009
Prerequisite: CHEM 202 . Prerequisite or concurrent: B M B 211, B M B 212

FD SC 404 **Sensory Evaluation of Foods** (3) Sensory evaluation of food, methods of test analyses, panel selection and training, taste sensation theory, consumer testing methods.
Effective: Spring 2001
Prerequisite: STAT 250 Junior standing

FD SC 405 **Food Engineering Principles** (3) Engineering principles of importance to food manufacturing, including units, dimensions, mass and energy balance, fluid flow, rheology, heat transfer, and psychrometrics.
Effective: Spring 2009
Prerequisite: MATH 110, PHYS 250

FD SC 406 **Physiology of Nutrition** (3) Physiological mechanisms involved in thirst and appetite, digestion, absorption, utilization of nutrients, respiration, and body temperature regulation.
Effective: Spring 2001
Prerequisite: B M B 211

FD SC 407 **Food Toxins** (2) Microbiological and chemical aspects of food poisoning; toxicological principles; case histories
and prevention of problems.

Effective: Winter 1978

Prerequisite: senior standing in food science or related majors

FD SC 408 Food Microbiology (2) Significance of microorganisms in food commodities, microbial spoilage, food-borne infections, and intoxication; methods of preservation, processing, and control.

Effective: Fall 2009

Prerequisite: MICRB 201, MICRB 202

FD SC 409W Laboratory in Food Microbiology (3) Methods of isolation, detection of spoilage, pathogenic microorganisms in foods; effects of processing and preservation on survival of food microorganisms.

Effective: Fall 2009

Prerequisite: MICRB 202. Prerequisite or concurrent: FD SC 408

FD SC 410 Chemical Methods of Food Analysis (3) Qualitative and quantitative determinations of food constituents.

Effective: Spring 2001

Prerequisite: BMB 212, FD SC 400

FD SC 411 Managing Food Quality (2) Principles and applications of Hazard Analysis Critical Control Points. Statistical tools for the control and improvement of food quality.

Effective: Summer 1999

Prerequisite: FD SC 408, STAT 250

FD SC 413 Science and Technology of Plant Foods (3) Physical and chemical behavior of plant-based raw materials and ingredients, with emphasis on parameters influencing finished product quality.

Effective: Fall 2009

Prerequisite: FD SC 405, FD SC 400, FD SC 408, FD SC 410

FD SC 414 Science and Technology of Dairy Foods (3) Physical and chemical behavior of dairy-based raw materials and ingredients, with emphasis on parameters influencing finished product specifications.

Effective: Fall 2009

Prerequisite: FD SC 405, FD SC 400, FD SC 408, FD SC 410

FD SC 415 Science and Technology of Muscle Foods (3) Physical and chemical properties of muscle food commodities, with emphasis on muscle-based ingredients in formulated foods.

Effective: Fall 2009

Prerequisite: FD SC 405, FD SC 400, FD SC 408, FD SC 410

FD SC 417 Food Laws and Regulations (2) Historic and current aspects of government control of doing business with food (emphasis on the Food, Drug, and Cosmetic Act).

Effective: Summer 1989

Prerequisite: FD SC 200

FD SC 430 Unit Operations in Food Processing (3) Thermal processing, refrigeration, freezing, dehydration, and concentration in the food industry, including effects on food quality; food packaging; waste management.

Effective: Fall 2009

Prerequisite: FD SC 405, FD SC 400, FD SC 408

FD SC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

Effective: Summer 1992

Prerequisite: prior approval of proposed assignment by instructor

FD SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

FD SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

FD SC 497A Bioactive Components in Foods (2) Lecture course covering the occurrence, evidence for activity, potential uses, and safety of important classes of non-nutrient biologically-active food components.

Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM

The Pennsylvania State University
Forensic Science (FRNSC)

FRNSC 100 (GN) Introduction to Forensic Science (3) Introduction forensic science. Effective: Spring 2011

FRNSC 200 (GN) Introduction to Crime Scene Investigation (3) This course offers an exploration of the science, management, and investigative techniques for the field of crime scene investigation. Effective: Spring 2010

FRNSC 201W Principles of Crime Scene Investigation (4) Basic principles of crime scene investigation including management, processing and investigative techniques. Effective: Spring 2008
Prerequisite: permission of program

FRNSC 294 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

FRNSC 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2008

FRNSC 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2008

FRNSC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2005

FRNSC 301 Criminalistics IA (3) Basic concepts of criminalistics and the role of the criminalist in a forensic investigation. Effective: Fall 2008 Ending: Summer 2011
Prerequisite: FRNSC 201 ; major standing in Forensic Science; STAT 250; PHYS 251 or PHYS 212

FRNSC 301 Criminalistics IA (3) Basic concepts of criminalistics and the role of the criminalist in a forensic investigation. Effective: Fall 2011 Future: Fall 2011
Prerequisite: FRNSC 201W, STAT 250 and PHYS 251 or PHYS 212

FRNSC 302 Criminalistics IB (3) Basic concepts of criminalistics and the role of the criminalist in a forensic investigation. Effective: Spring 2009
Prerequisite: FRNSC 201 and MICRB 202 or BIOL 230W

FRNSC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2009

FRNSC 400 Courtroom Proceedings and Testimony (1) Introduction to courtroom proceedings and testimony as they related to forensic science. Effective: Spring 2008 Ending: Summer 2011
Prerequisite: FRNSC 201W and FRNSC 301 prerequisite or concurrent: FRNSC 401W

FRNSC 400 Courtroom Proceedings and Testimony (1) Introduction to courtroom proceedings and testimony as they related to forensic science. Effective: Fall 2011 Future: Fall 2011
Prerequisite: FRNSC 301 and FRNSC 302

FRNSC 401W Criminalistics II - Advanced Analysis and Crime Scene Investigation (4) Advanced concepts in criminalistics as they apply to criminal and civil investigations. Effective: Spring 2011
Prerequisite: FRNSC 302 and FRNSC 421W or prerequisite or concurrent FRNSC 427W

Prerequisite: B M B 442, B M B 400, B M B 401; FRNSC 302 or a 400-level biology or B M B course

Prerequisite: B M B 442, B M B 400, B M B 401 and FRNSC 302 prerequisite or concurrent FRNSC 400
FRNSC 427W (CHEM 427W) **Forensic Chemistry** (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Spring 2008 Ending: Summer 2011
Prerequisite: CHEM 213 and CHEM 227

FRNSC 427W (CHEM 427W) **Forensic Chemistry** (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: CHEM 213, CHEM 227 and FRNSC 301 or CHEM 431W

FRNSC 475 **Forensic Science Seminar** (1) Presentation and discussion of special issues in forensic science; extension and application of background knowledge to unusual topics and cases.
Effective: Spring 2008
Prerequisite: Prerequisite or concurrent: FRNSC 401W

FRNSC 494 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

FRNSC 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2008

FRNSC 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2006

Last Import from UCM: June 16, 2011 3:00 AM
Forest Technology (FORT)

FORT 100 Introduction to Forestry (1) A general introduction to forest ecology, history, management, and practices.
Effective: Summer 2002

FORT 105 Forest Mensuration (3) Measurement of forests and forest products.
Effective: Fall 2002

FORT 110 Forest Inventories (3) Application of forest mensuration, mapping, GIS, sampling, and statistical analysis to the inventory of forest resources.
Effective: Spring 2003
Prerequisite: FORT 105

FORT 120 Forestry Computer Applications (2) Computer hardware and software applications specific to forestry.
Effective: Fall 2002
Prerequisite: three credits of mathematics

FORT 130 Forest Mapping Systems (2) Mapping forest properties, using traditional mechanical drawing techniques, geographical positioning systems, geographic information systems, and spatial analysis of resources.
Effective: Summer 2002

FORT 140 Forest Surveying (3) Plane surveying including hand compass and survey equipment, map reading, deed and title research, land descriptions and property line location.
Effective: Spring 2003
Prerequisite: or concurrent:FORT 130, MATH 081

FORT 150 Dendrology (3) Taxonomy, identification, ranges, and uses of important U.S. timber species and lesser vegetation of a regional nature.
Effective: Fall 2002

FORT 160 Silvicultural Practices (3) Principles and techniques of forest establishment, culture, and regeneration systems.
Effective: Spring 2003
Prerequisite: FORT 150

FORT 170 Forest Harvesting and Operations (3) Forest harvesting and intermediate operations: forest worker safety, hand and power tools, harvest planning, and best management practices.
Effective: Summer 2002
Prerequisite: FORT 110, FORT 160 American Red Cross Standard First Aid and CPR

FORT 175 Forest Products Industry Tour (1) Field tour of local and regional forest products industries.
Effective: Summer 2002
Prerequisite: FORT 110, FORT 160

FORT 200 Wood Identification and Properties (1) Anatomy of wood and bark; cell wall formation and composition; and identification of wood by gross and microscopic qualities.
Effective: Summer 2002

FORT 210 Arboriculture (3) Selection, planting, care, and maintenance of woody ornamental plants and shade trees grown in urban, sub-urban, and rural landscapes.
Effective: Fall 2002
Prerequisite: second-year standing

FORT 220 Forest Ecosystem Protection (4) Principles and concepts involved in managing the forest ecosystem in regard to fires, insects, and diseases.
Effective: Fall 2002

FORT 230 Aerial Photo Interpretation (2) Aerial photo interpretation techniques applied to land management inventories, mapping, road location, and procurement.
Effective: Fall 2002
Prerequisite: FORT 130

FORT 240 Forest Soils and Hydrology (3) The study of forest soils and hydrology, especially as they are affected by forest management activities.
Effective: Spring 2003
Prerequisite: second-year standing

FORT 250 Forest Management Practices (3) Practical techniques for implementing management plans for forest stands under various ownerships and management regimes.
Effective: Summer 2002
Prerequisite: FORT 110, FORT 160

FORT 260 GIS for Natural Resources Management (3) Geographic Information Systems technology including mapping
and GIS data management procedures w/ emphasis on natural resource management applications.

Effective: Summer 2007
Prerequisite: FORT 120, FORT 130

Last Import from UCM: June 16, 2011 3:00 AM
Forestry (FOR)

FOR 200W (W P 200W) **Professional Careers in Forest Resources** (3) Introduction to managing forests for products and services to meet human needs; developing career goals and an academic plan. 
Effective: Spring 1996
Concurrent: FOR 203

FOR 203 Field Dendrology (3) Field identification of native and introduced trees and shrubs by leaf, fruit, twig, and bark. 
Effective: Spring 2009
Concurrent: FOR 200W or W P 200W and W P 203

FOR 204 Dendrology (2) Taxonomic and silvical characteristics, ranges, genetic relationships, and uses of important forest tree species. 
Effective: Winter 1978
Prerequisite: FOR 203

FOR 242 **Elements of Project Supervision in Forestry** (3) Supervisory techniques developed through an understanding of the behavioral sciences applied to field forestry personnel management. 
This course is offered only at the DuBois and Mont Alto Campus as part of the two-year Forest Technology and Wildlife Technology majors. Effective: Fall 1983

FOR 295 Forest Technology Internship (1-4) Supervised field experience related to the student's major. 
This course is offered only at the Mont Alto Campus as part of the two-year Forest Technology major. Effective: Fall 1983
Prerequisite: approval of proposed assignment by instructor prior to registration

FOR 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. 
Effective: Fall 1983

FOR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Effective: Fall 1983

FOR 297A Applied GPS/GIS Usage for Natural Resource Managers (2) Introduction to the use of GPS and GIS to collect, create, manipulate, analyze, and map natural resources management data. 
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

FOR 308 Forest Ecology (3) Effects of environment, spacing, and age on trees; forest influences; origin and development of forest communities. 
Effective: Summer 2000
Prerequisite: or concurrent: FOR 203

FOR 320 Forest Fire Management (2) Principles and concepts involved in managing the forest ecosystem in regard to fire. 
Effective: Summer 2000
Prerequisite: FOR 203

FOR 339 Timber Sale Administration (2) Practical aspects of the logistical, environmental, managerial, and regulatory oversight of active and retired timber sales. 
Effective: Spring 2010
Prerequisite: FOR 203 and FOR 366

FOR 350 Forest Resources Biometrics (3) Quantitative approaches for characterization and comparison of natural resources in forested landscapes. 
Effective: Spring 1997
Prerequisite: one course each in calculus statistics and computers

FOR 366 Forest Resources Measurements (4) Measurement systems used in forest management, wildlife management, water-shed management, urban forestry, and recreation management. 
Effective: Summer 2000
Prerequisite: STAT 240

FOR 401 Urban Forest Management (3) Uses and values of urban vegetation, open space, and wildlife; planning, financing, support, management, and administration of urban forestry programs. 
Effective: Summer 1992
Prerequisite: three credits in business management or economics and six credits in biology forestry or plant materials

FOR 409 Tree Physiology (2) Fundamentals of the relationship of the basic physiological functions of forest trees to form. 
Effective: Spring 1995
Prerequisite: BIOL 240W

FOR 410 Elements of Forest Ecosystem Management (3) Fundamentals of forest ecosystem management for goods and services. 

---

The Pennsylvania State University
Effective: Summer 1995  
Prerequisite: 3 credits in both ecology and biology

FOR 416 Forest Recreation (3) The management and administration of multiple-use forest lands and wilderness for forest recreational experiences, with emphasis on public forests.  
Effective: Spring 2001  
Prerequisite: 3 credits in social or behavioral sciences

FOR 418 (US;IL) Agroforestry: Science, Design, and Practice (3) Agroforestry integrates trees in agricultural landscapes, and/or agriculture products into forested areas for multiple benefits.  
Effective: Spring 2006

FOR 421 Silviculture (3) The application of the principles of forest ecology to control of establishment, composition, and growth of forest stands.  
Effective: Fall 1984  
Prerequisite: FOR 308, FOR 366

FOR 430 (W F S 430) Conservation Biology (3) The application of biological principles to issues in the conservation of biodiversity.  
Effective: Spring 1995  
Prerequisite: BIOL 220W or FOR 308

FOR 440 Forest Economics and Finance (3) The application of economic theory to forest resources systems, with emphasis on production and investment analyses.  
Effective: Spring 2011  
Prerequisite: ECON 102 or ECON 104

FOR 451 Artificial Intelligence and Expert Systems for Agriculture and Natural Resource Management (3) Application of artificial intelligence in agriculture and natural resources, with emphasis on expert systems.  
Effective: Summer 2011  
Prerequisite: one course in computer science or computer applications

FOR 455 Remote Sensing and Spatial Data Handling (3) Remote sensing systems, with emphasis on application to forest ecosystem analysis. Includes introduction to computer systems for spatial data handling.  
Effective: Summer 2000  
Prerequisite: MATH 110 3 credits in computer science 6 credits in ecological and/or geological sciences

FOR 466W Forest Resource Management (3) Optimum use of forest's tangible and intangible resources by application of financial and administrative management principles and management science techniques.  
Effective: Spring 2001  
Prerequisite: FOR 421 or concurrent: FOR 440

FOR 470 Watershed Management (3) Management of wild land watersheds for control of the amount and timing of water yield, water quality, erosion, and sedimentation.  
Effective: Summer 2000  
Prerequisite: 3 credits in Soils

FOR 471 Watershed Management Laboratory (1) Introduction to hydrologic and climatic measurements and computations useful in watershed management.  
Effective: Spring 1992  
Prerequisite: or concurrent: FOR 470

FOR 475 Principles of Forest Soils Management (3) Effect of current forest management practices on the properties and productive capacity of forest soils.  
Effective: Spring 1985  
Prerequisite: FOR 308 3 credits in soils

FOR 480 Policy and Administration (3) Forest resources policy objectives; criteria and goals of society; policy implementation by ownership classes; planning, administration, and evaluation of programs.  
Effective: Spring 2001  
Prerequisite: FOR 200W 3 credits of social or behavioral science

FOR 488Y (IL) International Forestry (3) Forestry in global context, emphasizing developing countries: ecological, economic, technological, and political aspects.  
Effective: Spring 2006  
Prerequisite: E R M 413W, FOR 421 or INTAG 100

FOR 494 Forestry Research (3) Introduction to the theory, principles, and practices of forestry research; supervised research experience.  
Effective: Summer 1995  
Prerequisite: FOR 350, STAT 250

FOR 494H Forestry Research (3) Introduction to the theory, principles, and practices of forestry research; supervised research experience.  
Effective: Fall 2007  
Prerequisite: FOR 350, STAT 250

FOR 495 Forestry Internship (1-6) Supervised field experience related to the student's major.  
Effective: Fall 1981  
Prerequisite: approval of proposed assignment by instructor prior to registration.
FOR 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FOR 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FOR 497A **History of Logging Era in North Central Pennsylvania, Part I** (3) This course will focus on the rich history of the logging era in northcentral Pennsylvania from the 1850s to 1940.
Effective: Summer 2011 Ending: Summer 2011

FOR 497C **Environmental Science/Forestry** (3) This course will focus on skills used in the practice of forestry and will include hands-on activities in the field.
Effective: Summer 2011 Ending: Summer 2011

FOR 497D **History of Logging Era in North Central Pennsylvania, Part II** (3) This follows up to the History of Logging Era Part I covers the same time period but the emphasis shifts to specific topics.
Effective: Summer 2011 Ending: Summer 2011

FOR 497F **Forestry Management II** (3) This course deals with basic chain saw safety and harvesting techniques.
Effective: Summer 2011 Ending: Summer 2011

FOR 497F **Invasive Forest Plants** (3) A survey of common nonnative (exotic) herbs, forbs, shrubs, trees and vines that invade forested habitats, including riparian forests, in Pennsylvania and the region. Field identification, life history traits, ecosystem related challenges and problems, and control/management options are reviewed.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

FOR 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Fractional Transfer Credits (GMISC)

GMISC 001
FRACTIONAL TRANSFER CREDITS
(1-99) FRACTIONAL TRANSFER CREDITS FOR ADMISSION'S USE ONLY.
Effective: Fall 1983

Last Import from UCM: June 16, 2011 3:00 AM
French (FR)

FR 001 Elementary French I (4) Grammar, with reading and writing of simple French; oral and aural work stressed. Students who have received high school credit for two or more years of French may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985

FR 002 Elementary French II (4) Grammar and reading continued; oral and aural phases progressively increased. Students who have received high school credit for four years of French may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985
Prerequisite: FR 001

Effective: Fall 1985
Prerequisite: FR 002

FR 051 Elementary Intensive French I for Graduate Students (3) Intensive introduction to French: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite: graduate standing

FR 052 Elementary Intensive French II for Graduate Students (3) Intensive introduction to French: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite: FR 051 or equivalent and graduate standing

FR 053 Intermediate Intensive French for Graduate Students (3) Continued intensive study of French at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite: FR 052 or equivalent and graduate standing

FR 083S (GH;IL) First-Year Seminar in French (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures.
Effective: Summer 2005

FR 083T (GH;IL) First-Year Seminar in French (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

FR 111 Elementary French (6) Acquisition of basic skills in the active use of French: listening, speaking, reading, and writing.
Effective: Fall 1983

FR 112 Intermediate French (6) Reinforcement of basic skills previously acquired in the active use of French in FR 111.
Effective: Fall 1983

FR 121G Fundamentals of Reading French (3) Instruction in fundamental skills required for reading expository French prose, primarily for research purposes. (This course may not be used to satisfy any baccalaureate degree requirements. No graduate credit is given for this course.)
Effective: Spring 2001
Prerequisite: seventh-semester standing

FR 122G Practice in Reading French (3) Development and reinforcement of basic reading skills, with emphasis on the individual student’s area of research. (This course may not be used to satisfy any baccalaureate degree requirements. No graduate credit is given for this course.)
Effective: Fall 1984
Prerequisite: FR 121G

FR 137 (GH;IL) Paris: Anatomy of a City (3) Survey of the cultural, artistic, literary, and social life of the city of Paris from Gallo-Roman times to the present.
Effective: Summer 2005

FR 138 (GH) French Culture Through Film (3) Introduction to French culture through film by French and francophone directors examining gender, ethnicity, and global issues. Taught in English.
Effective: Spring 2002

FR 139 (GH;IL) France and the French-speaking World (3) An introduction to the culture of France and its impact on the world.
Effective: Summer 2005
FR 141 (IL) **Cultural Tradition in French Cuisine** (3) A study of French culture in English, emphasizing the French gastronomical traditions in literature and civilization.
   Effective: Spring 2006

FR 142 (GH) **French and Francophone Literatures in Translation** (3) An introduction to the literature of France and French-speaking countries.
   Effective: Spring 2004

FR 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
   Effective: Fall 1992

FR 199 (IL) **Foreign Study--French** (1-12) Intensive postintermediate grammar review, with emphasis on oral skills and vocabulary building.
   Effective: Summer 2005
   Prerequisite: FR 003

FR 201 (IL) **Oral Communication and Reading Comprehension** (3) Emphasis on oral skills and reading for total comprehension.
   Effective: Spring 2007
   Prerequisite: FR 003 or FR 112

FR 201U (IL) **Oral Communication and Reading Comprehension** (3) Emphasis on oral skills and reading for total comprehension.
   Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
   Prerequisite: FR 003 or FR 112

FR 202 (IL) **Grammar and Composition** (3) Grammar review and writing of short essays.
   Effective: Spring 2006
   Prerequisite: FR 003

FR 270 (WMNST 270) **Race and Gender in Literature Translated from French** (3) A critical presentation, taught in English, of changing ideas and values on race and gender in French and Francophone literatures.
   Effective: Spring 2005

FR 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
   Effective: Summer 1994

FR 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
   Effective: Fall 1982

FR 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
   Effective: Fall 1982

FR 299 (IL) **Foreign Study--French** (3-12) Writing practice at postintermediate level. Cultural readings about French civilization.
   Effective: Summer 2005
   Prerequisite: FR 199

FR 316 **French Linguistics** (3) Survey of the theory and methods of linguistics as they apply to the major subfields.
   Effective: Summer 2006
   Prerequisite: FR 201, FR 202

FR 330 (IL) **French Culture and Civilization** (3) French history and culture from the Middle Ages through the Third Republic.
   Effective: Spring 2006
   Prerequisite: FR 201, FR 202

FR 331 (IL) **French Culture and Civilization I** (3) French history and culture from the Middle Ages until the French Revolution.
   Effective: Summer 2006
   Prerequisite: FR 201, FR 202

FR 332 (IL) **French Culture and Civilization II** (3) French history and culture from the French Revolution through the Third Republic.
   Effective: Summer 2006
   Prerequisite: FR 201, FR 202

FR 351 (IL) **Introduction to French Literature I** (3) Introduction to close textual reading and analysis of selected works of
French literature from the middle ages to 1789.
Effective: Spring 2006
Prerequisite: FR 201, FR 202, FR 330

FR 352 (IL) Introduction to French Literature II (3) Introduction to close textual reading and analysis of selected works of French Literature from 1789 to the present.
Effective: Spring 2006
Prerequisite: FR 201, FR 202, FR 330

FR 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

FR 397 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2006

FR 399 (IL) Foreign Study--French (3-12) Advanced training in the French language skills.
Effective: Summer 2005
Prerequisite: FR 201, FR 202

FR 401 (IL) Advanced Oral Communication (3) Emphasis on speaking and listening comprehension through discussion of current issues, using journalistic materials.
Effective: Spring 2006
Prerequisite: FR 201, FR 202

Effective: Spring 2006
Prerequisite: FR 201, FR 202

FR 407 (IL) Business Writing in French (3) Common forms of business communication; writing of reports and abstracts.
Effective: Spring 2007
Prerequisite: FR 331 or FR 332

FR 408 (IL) French-American Business Translation (3) Translation from French to English of actual documents from the business world; theoretical consideration and systematic vocabulary building.
Effective: Spring 2007
Prerequisite: FR 407

FR 409 (IL) Commercial and Technical Translation (3) Translation from English to French of commercial and technical materials; vocabulary building; writing of abstracts and summaries.
Effective: Spring 2006
Prerequisite: FR 402Y

FR 410 (IL) French Press (3) Extensive readings of selected French daily and weekly newspapers and magazines, along with newscast viewings.
Effective: Spring 2007
Prerequisite: FR 331 or FR 332

FR 416 (IL) Introduction to French Linguistics (3) Introduction to the theory and methods of linguistics as they apply to the major subfields.
Effective: Spring 2006

FR 417 (IL) French Phonology (3) A formal study of the sound pattern of French.
Effective: Spring 2007
Prerequisite: FR 201, FR 202

FR 418 (IL) French Syntax (3) A formal theory of word order and related issues in French grammar.
Effective: Spring 2006
Prerequisite: FR 201 and FR 202

FR 419 French Seminar (3) The study of meaning in human language with a special focus on how it is encoded in French.
Effective: Summer 2011
Prerequisite: FR 316

FR 422 (IL) Old French Literature (3) Medieval masterpieces in original and modern French versions.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 426Y (IL) French Literature of the Renaissance (3) Survey of key texts from sixteenth century France, with attention to historical and philosophical currents of French social thought.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 430 (IL) Contemporary France (3) Study of contemporary French society, politics, and culture from 1870 to the present.
Effective: Spring 2006
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 440 (IL) Teaching of Romance Languages (3) Theories of second language acquisition. Current classroom practices in the teaching of Romance languages.
Effective: Spring 2006
Prerequisite: 15 credits beyond the elementary level

FR 445Y (IL) Self and Society in Eighteenth-Century France (3) The changing relationship of the individual to society in pre-Revolutionary France will be explored in texts by major writers.
Effective: Spring 2006
Prerequisite: FR 351. Prerequisite or concurrent: FR 352

FR 452Y (IL) Nineteenth-Century French Literature (3) Selected readings in romanticism, realism, and symbolism, including Balzac, Stendhal, Sand, Baudelaire, and others, with emphasis on cultural issues.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

Effective: Fall 2006
Prerequisite: FR 330 or FR 351 or FR 352

FR 458 (IL) African Literature of French Expression (3) Genesis of Franco-African literature in the 1930s; phases of the negritude movement; colonial and national literature.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 460 (IL) Contemporary French Literature (3) Major authors and movements in French novel, drama, and poetry from Proust to the present.
Effective: Fall 2006
Prerequisite: FR 351 or FR 352

FR 470 (IL) Race and Gender Issues in Literatures in French (3) A critical presentation, taught in French, of changing ideas and values on race and gender in French and Francophone literatures.
Effective: Summer 2005
Prerequisite: FR 351 or FR 352

FR 471 (IL) Francophone Women in Literature and Culture (3) Women's issues in literatures and cultures of French-speaking countries in Europe, the Mediterranean, Africa, the Caribbean, and Quebec.
Effective: Summer 2005
Prerequisite: FR 351 or FR 352

FR 487 (IL) Topics in French Film History and Theory I: 1895-1945 (3) Provide background needed to understand the broad outlines of French film history and theory in their first fifty years (1895-1945).
Effective: Spring 2006
Prerequisite: FR 351 and FR 352 or COMM 250

FR 488 (IL) Topics in French Film History and Theory II: 1945-2002 (3) Provide background needed to understand the broad outlines of French film history and theory in their second half-century (1945-2002).
Effective: Spring 2006
Prerequisite: FR 351 and FR 352 or COMM 250

FR 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

FR 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

FR 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1998
Prerequisite: prior approval of proposed assignment by instructor

FR 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983
FR 499 (IL) **Foreign Study--French** (3-12) Advanced studies in French language and literature.
Effective: Summer 2005
Prerequisite: FR 201, FR 202

Last Import from UCM: June 16, 2011 3:00 AM
Fuel Science (F SC)

F SC 401 Introduction to Fuel Technology (3) An introduction to the scientific and engineering principles of fuel technology. For non-fuel science majors; fuel science majors will not receive credit. Effective: Summer 2007
Prerequisite: CHEM 112, PHYS 211

F SC 431 The Chemistry of Fuels (3) Nature and properties of fossil and other fuels, including aerospace, in relation to use; preparation of fuels; by-products; fuel analysis. Effective: Spring 2008
Prerequisite: CHEM 210; EGEE 302 or equivalent

F SC 432 (CH E 432) Petroleum Processing (3) A study of physical and chemical processes to convert crude oil into desired products with an outlook from present to future. Effective: Summer 2007
Prerequisite: CHEM 210

Prerequisite: CHEM 210

F SC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 2000

F SC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

F SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1999

F SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1999

Last Import from UCM: June 16, 2011 3:00 AM
Geo-Environmental Engineering (GEOEE)

GEOEE 404W Surface and Interfacial Phenomena in Geo-Environmental Systems (3) Principles underlying surface and interfacial phenomena with application to mineral processing and geo-environmental systems.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: or concurrent: EME 301 or MATSE 401; GEOEE 412

GEOEE 406 Sampling and Monitoring of the Geo-Environment (3) Issues of sampling, analysis, monitoring and control techniques for effective environmental management in the extractive industries.
Effective: Spring 1999 Ending: Spring 2012
Prerequisite: MN PR 301, MNG 401, PN G 411

GEOEE 408 Contaminant Hydrology (3) Groundwater flow and transport; agents of contamination; aquifer characterization and remediation; case studies.
Effective: Spring 2002
Prerequisite: GEOSC 452

GEOEE 412 Geo-Environmental Engineering Laboratory (1) A laboratory study of the principles involved in the characterization and remediation of process wastes. Those students who are scheduled for MN PR 413 may not take this course.
Effective: Spring 1999 Ending: Spring 2012
Prerequisite: or concurrent: MN PR 301

GEOEE 427 Pollution Control in the Process Industries (3) Development of multimedia pollution control strategies for the mineral, metallurgical processing, and fossil fuel industries.
Effective: Summer 2007 Ending: Fall 2011
Prerequisite: or concurrent: CHEM 112, MATH 250 or MATH 251, MN PR 301

GEOEE 480 GeoEnvironmental Engineering Process Design (3) An integrated problem-based learning experience that utilizes fundamental concepts covered in the curriculum to design a geo-environmental system.
Effective: Fall 2004 Ending: Spring 2012
Prerequisite: GEOEE 427 minimum of seventh-semester standing in Environmental Systems Engineering

GEOEE 494 Senior Thesis (1-6) Independent research and/or design projects under the supervision of the interdisciplinary Environmental Systems Engineering program.
Effective: Fall 2004 Ending: Spring 2012
Prerequisite: seventh-semester standing in Environmental Systems Engineering

GEOEE 494H Senior Thesis (1-6) Independent research and/or design projects under the supervision of the interdisciplinary Environmental Systems Engineering program.
Effective: Fall 2007 Ending: Spring 2012
Prerequisite: seventh-semester standing in Environmental Systems Engineering

Last Import from UCM: June 16, 2011 3:00 AM
Geography (GEOG)

GEOG 010 (GN) **Physical Geography: An Introduction** (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 010H (GN) **Physical Geography: An Introduction** (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.

GEOG 010S (GN) **Physical Geography: An Introduction** (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 020 (GS;US;IL) **Human Geography: An Introduction** (3) Spatial perspective on human societies in a modernizing world; regional examples; use of space and environmental resources; elements of geographic planning.
Effective: Summer 2005

GEOG 030 (GS) **Geographic Perspectives on Sustainability and Human-Environment Systems** (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.
Effective: Spring 2007 Ending: Fall 2011

GEOG 030 (GS;IL) **Geographic Perspectives on Sustainability and Human-Environment Systems** (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.

GEOG 040 (GS;IL) **World Regional Geography** (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.
Effective: Summer 2005 Ending: Fall 2011

GEOG 040 (GS;IL) **World Regional Geography** (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.

GEOG 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 110 (GN) **Climates of the World** (3) Introduction to climatology, including principal processes of the global climatic system and their variation over space and time.
Effective: Fall 2004

GEOG 111 (GN) **Biogeography and Global Ecology** (3) Distribution of plants and animals on global, regional, and local scales; their causes and significance.
Effective: Fall 2007

GEOG 115 (GN) **Landforms of the World** (3) Distribution of the world’s landform features and mineral resources; their characteristics, causes, and significance. Practicum includes correlated field trips and laboratory studies.
Effective: Fall 2004

GEOG 120 (GS;US;IL) **Urban Geography: A Global Perspective** (3) Introduction to the geography of the world’s cities and urban system.
Effective: Spring 2006

GEOG 122 (GH;US) **The American Scene** (3) Historical perspectives on the social and cultural forces associated with the production of distinctive American landscapes.
Effective: Spring 2007
GEOG 123 (GS;IL) **Geography of Developing World** (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions. Effective: Spring 2007

GEOG 123U (GS;IL) **Geography of Developing World** (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 124 (GS;IL) **Elements of Cultural Geography** (3) Locational analysis of changes in non-Western cultures. Problems of plural societies, economic development, population growth, and settlement. Effective: Summer 2005

GEOG 126 (GS;US;IL) **Economic Geography** (3) The location of economic activity at both macro- and micro-regional levels on the earth's surface. Effective: Spring 2007 Ending: Fall 2011

GEOG 126 (GS;US;IL) **Economic Geography** (3) The geographic location and organization of economic activities and outcomes at global, national, regional, and local scales. Effective: Spring 2012 Future: Spring 2012

GEOG 128 (GS;IL) **Geography of International Affairs** (3) Contemporary international affairs in their geographical setting; geographic elements in the development of national power, political groupings, and international disputes. Effective: Summer 2005

GEOG 130 (GS) **Environment, Power, and Justice** (3) This course explores contemporary themes in human-environment relations through the lens of political ecology. Effective: Spring 2008

GEOG 160 (GS) **Mapping Our Changing World** (3) Fundamental concepts of GIS, cartography, remote sensing, and GPS in the context of environmental and social problems. Effective: Spring 2007

GEOG 161 **Applied Geographic Information Systems** (1) An introduction to GIS (Geographic Information Systems) with emphasis on applications and analysis. Effective: Spring 2008

GEOG 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

GEOG 198 **Special Topics** (1-9 per semester/maximum of 18) Formal courses given infrequently to explore, at a foundational level, a comparatively narrow subject which may be topical or of special interest and incorporating experiential learning. Effective: Summer 2011

GEOG 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

GEOG 293H **Honors Experiences in International Service Learning** (1-3) Classroom instruction with supervised student activity on an honors international community service project. Effective: Summer 2006

GEOG 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2011

GEOG 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 2011

GEOG 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2011
GEOG 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Effective: Spring 1988

GEOG 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Effective: Spring 2001

GEOG 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. 
Effective: Summer 2006
Prerequisite: prior approval of program

GEOG 301 **Thinking Geographically** (3) Learning to think geographically. 
Effective: Summer 2006
Prerequisite: GEOG 010, GEOG 020, GEOG 030 Prerequisite or concurrent:GEOG 160

GEOG 310W **Introduction to Global Climatic Systems** (3) Introduction to global atmospheric circulation, including tropical, midlatitude and polar subsystems; ocean, land, cryospheric and urban climatic systems and interactions. 
Effective: Spring 2007
Prerequisite: GEOG 010 orMETEO 003

GEOG 311 **Landscape Ecology** (3) This course examines the ways in which spatial patterns and spatial processes operate in an ecological context. 
Effective: Fall 2007
Prerequisite: GEOG 111, BIOL 110, FOR 308 orW F S 209 or by permission

GEOG 313 **Introduction to Field Geography** (3) Introduction to the methods and techniques for collecting spatial and environmental data for physical geography and ecological studies. 
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 323 **GIS and Social Theory** (3) Critical understanding of how to use GIS and tools of regional analysis in the context of postmodern social theory. 
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 333 **Human Dimensions of Natural Hazards** (3) An introduction to social science principles and methodologies to address critical questions relating to managing the risks of natural hazards. 
Effective: Summer 2006 Ending: Summer 2011
Prerequisite: junior or senior standing

GEOG 361 **Cartography--Maps and Map Construction** (3) The art and science of creating small-scale maps as a medium for communication and research. 
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 362 **Image Analysis** (3) Introduction to the basic principles of remote sensing, and the analysis of aerial and satellite data. 
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 363 **Geographic Information Systems** (3) Principles and use of geographic information; emphasis is on data acquisition and techniques for computer-aided analysis. 
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 364 **Spatial Analysis** (3) Geographic measurement, scaling, and classification; analysis of spatial pattern and structure; geographic covariation and autocorrelation. 
Effective: Fall 2008
Prerequisite: STAT 200 and 6 credits in social science

GEOG 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. 
Effective: Summer 2011

GEOG 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. 
Effective: Summer 2011

GEOG 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. 
Effective: Summer 2006

The Pennsylvania State University
Prerequisite: prior approval of program

GEOG 407 (HIST 453) American Environmental History (3) The history of the ways Americans have used and thought about the environment since 1500.
Effective: Spring 1998
Prerequisite: GEOG 030, LARCH 003; and HIST 020 or HIST 021; or 6 credits in the humanities or social sciences

GEOG 411 Forest Geography (3) This course studies processes that control spatial and temporal change in forests.
Effective: Fall 2007
Prerequisite: GEOG 010, GEOG 111; or BIOL 220W

GEOG 411W Forest Geography (3) This course studies processes that control spatial and temporal change in forests.
Effective: Fall 2007
Prerequisite: GEOG 010, GEOG 111; or BIOL 220W

GEOG 412W Climatic Change and Variability (3) Theories and observations of past, present, and future climatic change and variability; introduction to techniques used in climatic change research.
Effective: Spring 2007
Prerequisite: GEOG 110 or METEO 003

GEOG 417 Satellite Climatology (3) A discussion of the application of satellite data to current and planned large-scale climate experiments.
Effective: Spring 2007
Prerequisite: GEOG 362

GEOG 420Y (US;IL) Metropolitan Analysis (3) Theory and practice of regional and metropolitan analysis.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 120, GEOG 160

GEOG 420Y (US;IL) Comparative Urbanism (3) This course investigates selected urban issues through the lens of comparative urbanism.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 120, GEOG 160

GEOG 423Y (US) Historical Geography of North America (3) Exploration, settlement, and changing patterns of human occupation from the seventeenth century to the 1930's.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 122, 3 additional credits in geography or 6 credits

GEOG 423Y (US) Historical Geography of North America (3) Exploration, settlement, and changing patterns of human occupation from the seventeenth century to the 1930s.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 122, 3 additional credits in geography or 6 credits American history

GEOG 424 (US;IL) Geography of the Global Economy (3) Focus on industrial location theory, factors in industrial location, studies of selected industries and problems of industrial development.
Effective: Spring 2011
Prerequisite: ECON 102, ECON 104, GEOG 126

GEOG 425 Geography of Race, Class, and Poverty in America (3) This class will study the geography of race, class, and poverty in America today.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 126 and ECON 002 and ECON 004

GEOG 425 (US) Geography of Race, Class, and Poverty in America (3) This class examines the spatial interactions of race, class and poverty in the United States.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 126; ECON 102 or ECON 104

GEOG 426Y (US;IL) (WMNST 426Y) Gender and Geography (3) Description and explanation of the links between gender relations and spatial structures.
Effective: Summer 2011
Prerequisite: GEOG 020 or GEOG 126 or GEOG 120 or WMNST 001

GEOG 427 (US;IL) Urban Historical Geography (3) Study of the development and transformation of the historical urban built environment.
Effective: Spring 2007
Prerequisite: 6 credits in geography humanities or social sciences

GEOG 428 (US) Political Geography (3) Geographical foundations of political phenomena; significant geographic factors in growth and development of states, boundary problems, population distribution, colonies, and internal and international regional problems.
Effective: Spring 2007
Prerequisite: 6 credits in history or 6 credits in political science

GEOG 429 (US) Global Urbanization (3) This course reflects critically on a number of issues related to global urbanization, including the culture and political economy of urban space.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: GEOG 020, GEOG 126 or GEOG 120

GEOG 429 (US;IL) Geographic Perspectives on Global Urbanization (3) This course reflects critically on a number of...
issues related to global urbanization, including the culture and political economy of urban space.

GEOG 430 Human Use of Environment (3) The human use of resources and ecosystems and social causes and consequences of environmental degradation in different parts of the world; development of environmental policy and management strategies.
Effective: Fall 2008
Prerequisite: GEOG 020 or GEOG 126 or GEOG 120

GEOG 431 Geography of Water Resources (3) Perspectives on water as a resource and hazard for human society; water resource issues in environmental and regional planning.
Effective: Spring 2007
Prerequisite: 6 credits in geography or natural sciences

GEOG 432 (EME 432) Energy Policy (3) Analysis, formulation, implementation, and impacts of energy-related policies, regulations, and initiatives.
Effective: Summer 2010
Prerequisite: E B F 200, EGEE 120, PL SC 490

GEOG 434 Politics of the Environment (3) This course explores politics related to the use, transformation, valuation, and representation of the environment.
Effective: Spring 2007
Prerequisite: 6 credits in social sciences or humanities

GEOG 435H (IL) Global Change and Sustainability - Bulgaria (3) Sustainability in the context of climate change, global socioeconomic change and regional transformation in Bulgaria; embedded foreign fieldwork (honors).
Effective: Summer 2008
Prerequisite: sophomore standing or above; departmental permission required

GEOG 436 Ecology, Economy, and Society (3) Analyses of major themes in ecology and economic development, poverty-alleviation, and sustainability.
Effective: Summer 2006
Prerequisite: upper-division standing

GEOG 438W Human Dimensions of Global Warming (3) Human dimensions of global environmental change: human causes; human adaptations; and policy implications of global warming.
Effective: Fall 2008 Ending: Fall 2011
Prerequisite: EARTH 002, GEOG 100 or METEO 003; GEOG 030

Prerequisite: EARTH 002, GEOG 100 or METEO 003; GEOG 030

GEOG 439 Property and the Global Environment (3) This course reviews theoretical and empirical relationships between multiple legal, economic, and cultural approaches to property, and environmental quality and conflicts.
Effective: Summer 2006
Prerequisite: 6 credits in geography humanities or social sciences

GEOG 440 Topics in Regional Geography (3) Analysis of historical, contemporary and future environmental and societal issues in a specified world region from a geographical perspective.
Effective: Summer 2006
Prerequisite: 3 credits in physical geography 3 credits in human geography

GEOG 444 African Resources and Development (3) Ecological and cultural factors in the geography of Africa; natural resources and development.
Effective: Spring 2001
Prerequisite: GEOG 10, GEOG 20, GEOG 30 or GEOG 124

GEOG 461W Dynamic Cartographic Representation (3) Theory and practice of mapping and geo-representation in a dynamic media context. Applications in science, policy, travel, and education.
Effective: Spring 2010
Prerequisite: GEOG 361 or GEOG 362 or GEOG 363

GEOG 463 Geospatial Information Management (3) This course examines geospatial data representations and algorithmic techniques that apply to spatially-organized data in digital form.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: any earth science computer application course; familiarization with databases and information systems

GEOG 463 Geospatial Information Management (3) This course examines geospatial data representations and algorithmic techniques that apply to spatially-organized data in digital form.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 363

GEOG 464 Analysis and GIS (3) Normative and probabilistic models of spatial behavior; adaptive systems in geographic space; interaction and system stability.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: GEOG 364

GEOG 464 Advanced Spatial Analysis (3) Skills and knowledge for applying quantitative methods to analyze information
with spatial distributions.

GEOG 467 Applied Cartographic Design (3) Applied computer-assisted map production methods with emphasis on geographic information design and color use for multiple presentation media.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: GEOG 361

GEOG 467 Applied Cartographic Design (3) Project-based map production problems with emphasis on map design and advanced mapping tools in geographic information systems.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 361

GEOG 468 Geographic Information Systems Design and Evaluation (3) Design and evaluation of Geographic Information Systems and other forms of integrated spatial data systems.
Effective: Spring 2007
Prerequisite: GEOG 363

GEOG 469 Energy Industry Applications of GIS (3) Roles of geographic information systems in energy siting decisions focusing on electric energy transmission networks.
Effective: Spring 2010
Prerequisite: GEOG 030, EGEE 102, EME 444

GEOG 475H (LER 475H) Labor in the Global Economy: U.S. and South African Perspectives (3) This course focuses on how the nature of work is changing in the global economy, and the implications for economic opportunity and inequality in both.
Effective: Spring 2008
Prerequisite: a minimum of 12 GEOG or LER credits before taking the course (or permission of the program).

GEOG 482 The Nature of Geographic Information (2) Orientation to the properties of geographic data and the practice of distance learning.
Effective: Summer 2004
Prerequisite: admission to the Master of GIS program or Certificate Program in GIS

GEOG 483 Problem-Solving with GIS (3) How geographic information systems facilitate data analysis and communication to address common geographic problems.
Effective: Summer 2004
Prerequisite: GEOG 482

GEOG 484 GIS Database Development (3) Database design, creation, maintenance, and data integration using desktop GIS software.
Effective: Summer 2004
Prerequisite: GEOG 483

GEOG 485 GIS Programming and Customization (3) Customizing GIS software to extend its built-in functionality and to automate repetitive tasks.
Effective: Fall 2007
Prerequisite: GEOG 363 or GEOG 484; CMPSC 101 or equivalent

GEOG 486 Cartography and Visualization (3) Theory and practice of cartographic design emphasizing effective visual thinking and visual communication with geographic information systems.
Effective: Summer 2004
Prerequisite: GEOG 484

GEOG 487 Environmental Applications of GIS (3) Real-world applications of GIS and spatial analysis to investigate a variety of current environmental issues.
Effective: Spring 2010
Prerequisite: GEOG 484

GEOG 488 Acquiring and Integrating Geospatial Data (3) Advanced technical, legal, ethical and institutional problems related to data acquisition for geospatial information systems.
Effective: Summer 2004
Prerequisite: GEOG 484

GEOG 489 GIS Application Development (3) Advanced topics in GIS customization, including the Systems Development Life Cycle, packaging and deployment, and consuming Web services.
Effective: Summer 2004
Prerequisite: GEOG 485

GEOG 493 Service Learning (3-12) Classroom instruction with supervised student activity on a group community service project.
Effective: Summer 2006
Prerequisite: sophomore standing; 6 credits of social or environmental science

GEOG 494 Research Project in Geography (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2006
Prerequisite: prior approval of program

GEOG 494H Research Project in Geography (1-12) Supervised student activities on research projects identified on an
individual or small-group basis.
Effective: Fall 2007
Prerequisite: prior approval of program

GEOG 495 Internship (1-13) Supervised off-campus, non-group instruction including individual field experience, practicums, or internships. Written and oral critique of activity required.
Effective: Fall 1981
Prerequisite: prior approval of proposed assignment by instructor

GEOG 495B Geography Teaching Internship (1-10) Supervised undergraduate teaching experience in which students serve as peer tutors, laboratory assistants, or course material developers.
Effective: Summer 2004

GEOG 495C Internship Supervision and Mentoring (1) Candidates for the Master of GIS degree sponsor a GIS-related internship for students in Penn State's resident undergraduate program.
Effective: Summer 2004

GEOG 495G Giscience Internship (1-10) Supervised research experience within the Department of Geography's GeoVISTA Center, Gould Center, or an appropriate external agency.
Effective: Spring 2007
Prerequisite: GEOG 160

GEOG 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GEOG 496C Individual Studies (3) Individual project work supervised by a faculty member on a topic of mutual interest in geography and geographic information science in areas in which the department does not normally offer coursework.
Effective: Summer 2011 Ending: Summer 2011

GEOG 496C Individual Studies (3) Individual project work supervised by a faculty member on a topic of mutual interest in geography and geographic information science in areas in which the department does not normally offer coursework.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

GEOG 497A Neogeography Using Google Earth and GigaPan (3) Neogeography provides an understanding of the role and purpose of new technologies (Google Earth, GigaPan) and their abilities to be used for research and outreach purposes in a geospatial context.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 497D Lidar Technology and Applications (3) Understanding lidar systems’ design, operation, data processing techniques, and product generation to address typical application scenarios faced by the geospatial professional.
Effective: Summer 2011 Ending: Summer 2011

GEOG 497F Conceptual Modeling & Programming in G.I.Science (3) Project-based course introducing major modeling paradigms, design decisions, and object-oriented programming from a Geographic Information Science perspective.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: GEOG 363 ; and little/no programming experience

GEOG 497G Human Factors in Geographic Information Science (3) Introduction to the increasingly important aspects of human factors (also called cognitive ergonomics) in Geographic Information Science.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOG 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1998

GEOG 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite: prior approval of program

Last Import from UCM: June 16, 2011 3:00 AM
Geosciences (GEOSC)

GEOSC 001 Physical Geology (3) Earth processes and their effects on the materials, structure, and morphology of the earth's crust. Practicum includes field work, study of rocks, minerals, dynamic models, and topographic maps. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Fall 1983

GEOSC 002 (GN) Historical Geology (3) History of the earth and its life; fundamentals of evolution, correlation, and paleogeography; practicum includes field trips, study of geologic maps, geologic problems, and fossils, with emphasis on Appalachian geology. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Summer 1995

GEOSC 010 (GN) Geology of the National Parks (3) Introduction to geology, geological change, and environmental hazards, as seen in the National Parks. Effective: Fall 2003

GEOSC 020 (GN) Planet Earth (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Fall 2003

GEOSC 020L (GN) Planet Earth (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Summer 1988

GEOSC 020P (GN) Planet Earth (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Summer 1988

GEOSC 021 (GN) Earth and Life: Origin and Evolution (3) Introduction to the origin and evolution of life on Earth from the perspective of geologic time and the fossil record. This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Spring 2002

GEOSC 040 (GN) The Sea Around Us (3) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Fall 2003

GEOSC 040L (GN) The Sea Around Us (2) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Summer 2009

GEOSC 040P (GN) The Sea Around Us (1) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Spring 2009

GEOSC 071 Physical Geology for Engineers (3) Principles of physical geology, with emphasis on the engineering point of view; practicum includes field work, study of rocks, minerals, dynamic models, and topographic maps. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Summer 2007 Prerequisite: CHEM 110

GEOSC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

GEOSC 109H (GN) Earthquakes and Society (3) Introduction to earthquakes and seismology, and their relationship to society, including monitoring for nuclear weapons and seismic hazards.

The Pennsylvania State University
GEOCS 110H (GN) The Science of Gemstones (3) An exploration of the geological uses of gems and of the physical and chemical properties underlying their brilliance and color. Effective: Summer 2002
Prerequisite: high school chemistry and trigonometry

GEOCS 111 (GN) Forensic Geoscience (3) Covers fundamental geoscience concepts such as stratigraphy, mineral and soil identification, seismology, and geochemistry within the context of forensic investigation. Effective: Spring 2008

GEOCS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

GEOCS 200 Geology of Caves and Karst (3) Geology and hydrology of carbonate terrains; cave origin; sedimentation processes in caves; water supply and land use in karst areas. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Fall 1993

GEOCS 201 Earth Materials (4) Elements of crystallography and crystal chemistry; origin, occurrence, and identification of sedimentary, igneous, and metamorphic rocks and their minerals. This course has one or more required field trips for which a fee is charged to the student. Effective: Summer 2007
Prerequisite: CHEM 110 third-semester standing. Prerequisite or concurrent: GEOSC 001 or GEOSC 020

GEOCS 202 Chemical Processes in Geology (4) An in-depth examination of the application of chemical principles to geological processes. Effective: Summer 2007
Prerequisite: GEOSC 001, MATH 140 third-semester standing. Prerequisite or concurrent: CHEM 113

GEOCS 203 Physical Processes in Geology (4) An in-depth examination of various physical processes that operate within and at the surface of the earth. Effective: Spring 2011
Prerequisite: GEOSC 001 or permission of program. Prerequisite or concurrent: PHYS 211, MATH 140

GEOCS 204 Geobiology (4) An introduction to how biological processes and materials are used to solve geological problems. Effective: Spring 2001
Prerequisite: BIOL 110; GEOSC 001 or GEOSC 020

GEOCS 228 Dinosaurs (3) Dinosaurs and other large Mesozoic reptiles; their morphology, stratigraphic and paleoenvironmental distribution, preservation, collecting, classification, lifestyles, origins, evolution, and extinction. Effective: Summer 1995

GEOCS 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

GEOCS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

GEOCS 297A Teaching Intern (1-2) Credits granted to students referred as Teaching Interns. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOCS 297D Introductory Field Geology in Italy (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011 Ending: Summer 2011

GEOCS 303 Introduction to Environmental Geology (3) Origin of earth and earth materials; natural resources, geologic barriers and hazards, and relationships to human use of the environment. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Fall 1983

GEOCS 310 Earth History (4) The principles of stratigraphy and paleontology and their use, in combination with plate tectonics, in reconstructing the earth's history. This course has one or more required field trips for which a fee is charged to the student. Effective: Spring 2002

The Pennsylvania State University
Prerequisite: GEOSC 201

GEOSC 320 Geology of Climate Change (3) Geologic evidence for climate change and mechanisms of change, especially from the Ice Age through the near future.
Effective: Spring 2001

GEOSC 340 Geomorphology (3) Physical and chemical processes operating at the earth's surface and their resulting landforms. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite: GEOSC 001; fifth-semester standing

GEOSC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

GEOSC 397A The Hydrophysics Field Experience (3) The Hydrophysics Field Experience with Dr. Kamini Singha.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOSC 397D The Tectonic Evolution of Italy (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

GEOSC 402Y (IL) Natural Disasters (3) Case studies of the causes and consequences of natural disasters; analysis of disaster impact in different economic, cultural, and social conditions.
Effective: Summer 2005
Prerequisite: fourth-semester standing

GEOSC 405 (SOILS 405) Hydropedology (3) Soil and water interactions across scales, integrated studies of landscape-soil-water relationships, fundamental processes of water flow and chemical transport.
Effective: Spring 2008
Prerequisite: SOILS 101

GEOSC 409W Geomicrobiology (3) Investigation of modern and ancient microbial interactions with soils, sediments, the atmosphere, minerals, rocks, nutrients, and pollutants.
Effective: Summer 2008
Prerequisite: CHEM 112; GEOSC 001, GEOSC 020, GEOSC 040, EARTH 002, BIOL 110 or MICRB 201

GEOSC 410 Marine Biogeochemistry (3) Exploration of the ways in which life influences and is influenced by chemical, physical, and geological processes in the ocean.
Effective: Summer 2007
Prerequisite: CHEM 112; EARTH 002 or GEOSC 001, GEOSC 020, GEOSC 040 or METEO 022

GEOSC 412 Water Resources Geochemistry (3) Aqueous geochemistry of silica, alumina, carbonate minerals, and selected metals; organic species in water; isotope geochemistry applied to water.
Effective: Summer 2007
Prerequisite: CHEM 110, CHEM 112

GEOSC 413W Techniques in Environmental Geochemistry (3) This course teaches techniques needed for the collection, chemical analysis, and data analysis of environmental geochemical measurements. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite: one of the following: C E 475, CHEM 402, GEOSC 202, GEOSC 412, SOILS 419

GEOSC 415 Geochemistry (3) Element abundance and genesis, application of chemical principles to earth materials, element fractionation in geologic processes.
Effective: Summer 2007
Prerequisite: CHEM 112, GEOSC 004 or GEOSC 201

GEOSC 416 Stable and Radioactive Isotopes in Geosciences: Introduction (3) Discussions on theories for natural isotopic and element variations and their applications to the solution of geologic and cosmologic problems.
Effective: Summer 2007
Prerequisite: CHEM 110, CHEM 112, CHEM 111, CHEM 113; GEOSC 001 or GEOSC 020

GEOSC 418 (SOILS 419) Soil Environmental Chemistry (3) Introduction to chemical constituents and processes occurring in soils. Topics include mineral weathering, soil solution chemistry and adsorption of solutes.
Effective: Summer 2007
Prerequisite: CHEM 112, SOILS 101

GEOSC 419 The Organic Geochemistry of Natural Waters and Sediments (3) Composition, sources, and fates of particulate and dissolved organic matter in natural environments; biogeochemical processes; organic geochemistry of anthropogenic contaminants.
Effective: Summer 2007
Prerequisite: CHEM 110, CHEM 112

GEOSC 420 (BIOL 420) Paleobotany (3) Classification, morphology, phylogeny, and stratigraphic occurrence of fossil plants; practicum includes field trips and study of paleobotanical techniques and specimens.
Effective: Spring 2005
Prerequisite: any 3-credit introductory course in historical geology or plant biology

GEOSC 422 Vertebrate Paleontology (3) Course covers scientific thinking and skills in scientific writing, the history of vertebrates, and modern evolutionary theory applied to vertebrates. This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Spring 2009
Prerequisite: GEOSC 001 and BIOL 110

GEOSC 424 Paleontology and Fossils (3) Concepts and procedures using fossils to solve problems in systematics, evolution, biostratigraphy, correlation, sedimentation, paleoecology, and global change. Effective: Spring 2001
Prerequisite: GEOSC 001 or GEOSC 020

GEOSC 428 Micropaleontology (4) Biology and ecology of microfaunas and microfloras (e.g., foraminifera, coccolithophores, radiolarians, diatoms, dinoflagellates) and applications in biostratigraphy and paleoenvironmental reconstruction. Effective: Summer 2004
Prerequisite: GEOSC 204

GEOSC 434 Volcanology (3) Phenomena and products of volcanic eruptions; physical characteristics of lava and pyroclastic material. Effective: Spring 1996
Prerequisite: GEOSC 004 or GEOSC 201

GEOSC 439 Principles of Stratigraphy (3) An introduction to the description and genesis of sedimentary rock bodies, the determination of their stratigraphic geometries, and their correlation. This course includes from one to several field trips for which an additional charge will be made to cover transportation. Effective: Spring 2001
Prerequisite: GEOSC 201

GEOSC 440 Marine Geology (3) Chemical and physical processes affecting the topography and sediments of the sea floor. Effective: Spring 2001
Prerequisite: fourth-semester standing

Prerequisite: MATH 110 or MATH 140

GEOSC 445 Coastal Geology (4) A field course dealing with the processes operative in the environmental systems of a segment of the mid-Atlantic coast. Effective: Spring 2001
Prerequisite: fifth-semester standing

GEOSC 450 Risk Analysis in the Earth Sciences (3) An introduction to concepts and methods of quantitative risk analysis with focus on water, climate, and energy related risks. Effective: Spring 2010
Prerequisite: MATH 140 or MATH 110 Introductory Earth Science or Geoscience class Introductory Statistics class (e.g. STATS 200 or STATS 301 or ENNEC 473) or permission of program

GEOSC 451 Natural Resources: Origins, Economics and Environmental Impact (3) Geologic, economic and environmental issues related to exploitation of non-renewable natural resources (metals, minerals, rocks, and fossil fuels). Effective: Fall 2006
Prerequisite: GEOSC 001 or GEOSC 020

GEOSC 452 Hydrogeology (3) Hydrologic cycle: occurrence, movement, quality, and quantity of groundwater; solute transport; quantitative hydrogeologic methods; role of water in geologic processes. This course has one or more required field trips for which a fee may be charged to the student. Effective: Spring 2008
Prerequisite: CHEM 112; GEOSC 001, GEOSC 020 or GEOSC 071; MATH 140 or MATH 110

GEOSC 454 Geology of Oil and Gas (3) Properties, origin, migration, and occurrence of oil and gas. This course has one or more required field trips for which a fee is charged to the student. Effective: Spring 2002
Prerequisite: GEOSC 001

GEOSC 461 Geology of North America (3) Evolution of structural-stratigraphic framework of continent; interpretation of relevant data obtained from field, experimental, and geophysical observation. Effective: Spring 2001
Prerequisite: GEOSC 001, GEOSC 020 or GEOSC 071

GEOSC 465 Structural Geology (4) Effects and mechanics of deformation of the earth's crust; practicum includes field trips and studies of maps and structural problems. This course has one or more field trips for which a fee is charged to the student. Effective: Spring 2002
Prerequisite: or concurrent: GEOSC 203, GEOSC 310

GEOSC 470W Introduction to Field Geology (3) Field interpretation of geologic features; principles and techniques of geologic mapping; interpretation of geologic maps and diagrams. This course has one or more required field trips for
which a fee is charged to the student.
Effective: Spring 2002
Prerequisite: GEOSC 001; fifth-semester standing

GEOSC 472A Field Geology I (Introduction to Field Methods) (3) Introduction to geologic field methods and the 3-D characterization of earth structure and the reconstruction of geologic histories. This course includes travel outside the University for which an additional charge will be made to cover transportation, food, and lodging.
Effective: Summer 2005
Prerequisite: GEOSC 310

GEOSC 472B Field Geology II (Advanced Field Methods) (3) Advanced application of geologic field methods to the 3-D characterization of earth structure and the reconstruction of geologic histories. This course includes travel outside the University for which an additional charge will be made to cover transportation, food, and lodging.
Effective: Summer 2005
Prerequisite: GEOSC 310, GEOSC 465. Prerequisite or concurrent: GEOSC 472A

GEOSC 474 (Biol 474) Astrobiology (3) In depth treatment of principles/concepts of biochemical evolution, the origin/evolution of life; evaluation of distribution of life in the universe.
Effective: Summer 2007
Prerequisite: BIOL 110, CHEM 110

GEOSC 475W (Meteor 475W) Global Biogeochemical Cycles (3) The study of earth's major global biogeochemical cycles (carbon, oxygen, nitrogen, phosphorus, and sulfur) in the context of the climate system.
Effective: Summer 2007
Prerequisite: MATH 110 and MATH 111 or MATH 140 and MATH 141 and CHEM 110

GEOSC 479 Advanced Stratigraphy (3) Modern topics of sequence stratigraphy are addressed, with a heavy emphasis on field and laboratory data analysis and interpretation.
Effective: Spring 1999
Prerequisite: GEOSC 439

Effective: Fall 2001
Prerequisite: PHYS 204 or PHYS 214

GEOSC 483 Environmental Geophysics (3) This course presents the principles and applications of the variety of techniques geophysicists use to address environmental problems.
Effective: Fall 2001
Prerequisite: PHYS 211, PHYS 212

GEOSC 487 Analysis of Time Series (3) Nonstatistical approach to data analysis; spectral and correlation analysis; filter theory; signal-to-noise improvement applied to geoscience data.
Effective: Fall 2010
Prerequisite: MATH 140 and MATH 141

GEOSC 488 An Introduction to Seismology (4) An overview of the observations, methods, and frameworks used in seismogram analysis for earthquake and earth-structure investigations (includes laboratory).
Effective: Spring 2003
Prerequisite: MATH 140, MATH 141

GEOSC 489 Dynamics of the Earth (4) Constitution and dynamics of the solid earth; mechanics and consequences of Plate Tectonic processes.
Effective: Fall 2001
Prerequisite: GEOSC 203, GEOSC 310, PHYS 211

GEOSC 494M Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2007
Prerequisite: seventh-semester standing

GEOSC 494W Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2001
Prerequisite: seventh-semester standing

GEOSC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2001

GEOSC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GEOSC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

The Pennsylvania State University
GEOSC 497A Geoscience Scholarship (3) Topics in Research Scholarship.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

GEOSC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1997

GEOSC 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
German (GER)

GER 001 Elementary German I (4) Introduction to listening, speaking, reading, and writing with emphasis on the first two skills; cultural aspects through readings and videos. Effective: Summer 1994

GER 002 Elementary German II (4) Continuation of GER 001; further introduction of basic structures, culture, and development of four basic skills stressing aural-oral aspects. Effective: Summer 1994
Prerequisite: GER 001

GER 003 Intermediate German (4) Continued four-skill development with increased emphasis on reading, writing, and grammatical accuracy; culturally-oriented reading selections and videos. Students may receive credit for only one of the following: GER 003 or GER 008. Effective: Summer 1994
Prerequisite: GER 002

GER 008 Business German (4) Introduction to Business German. Students may receive credit for only one of the following: GER 003 or GER 008. Effective: Summer 2000
Prerequisite: GER 001, GER 002

GER 011 Intensive Basic German (6) Listening, speaking, reading, writing, basic structures and vocabulary of German. Taught on an accelerated basis. Students may receive credit for only one of the following: GER 001, 011, or 015. Effective: Fall 1983

GER 012 Intensive Intermediate German (6) Continued skill development of structures and vocabulary; listening, speaking, reading, writing. Taught on an accelerated basis. Students may receive credit for only one of the following: GER 002, 003, 012, or 016. Effective: Fall 1983
Prerequisite: GER 011

GER 051 Elementary Intensive German for Graduate Students I (3) Intensive introduction to German: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite: graduate standing

GER 052 Elementary Intensive German for Graduate Students II (3) Intensive introduction to German: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite: GER 051 or equivalent and graduate standing

GER 053 Intermediate Intensive German for Graduate Students (3) Continued intensive study of German at the intermediate level: reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite: GER 052 or equivalent and graduate standing

GER 083S (GH;US;IL) First-Year Seminar in German (3) Germany's cultural past and present. Effective: Summer 2005

GER 099 (IL) Foreign Study--German (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GER 100 (GH;IL) German Culture and Civilization (3) Culture and civilization of the German people from the Germanic migrations to the Nazi period. Conducted in English. Effective: Summer 2005

GER 143 (GH;IL) (RUS 143) The Culture of Stalinism and Nazism (3) The culture of Stalinist Russia and Nazi Germany in comparative perspective. Effective: Summer 2005

GER 157 (GH;US) Pennsylvania Germans: The Culture of the Sectarians (3) Survey of the religious background, beliefs, social life, customs, education, and culture of the Pennsylvania German sectarians, especially the Amish. Conducted in English. Effective: Summer 2005

GER 175 (GH;IL) Germanic Heroic and Medieval Literature in English Translation (3) Germanic heroic and medieval courtly literature from 800 to 1350 focusing on the prevailing cultural, social, and legal conditions. Effective: Spring 2006
GER 190 (GH;IL) **Twentieth-Century German Literature in English Translation** (3) Works of such writers as Boll, Brecht, Durrenmatt, Frisch, Grass, Hesse, Kalka, Mann, Rilke, Weiss, and Wolf.
Effective: Spring 2006

GER 195 (GH;IL) **Modern German Drama and Theatre in English Translation** (3) Plays and their stage realization by writers such as Brecht, Durrenmatt, Handke, Hauptmann, Kaiser, Schnitzler, Wedekind, and Weiss.
Effective: Spring 2006

GER 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1995

GER 199 (IL) **Foreign Study--German** (3-6) Intermediate training in German language skills.
Effective: Summer 2005
Prerequisite: GER 002

GER 200 (GH;IL) **Contemporary German Culture** (3) Germany since WWI, its politics, economics, society, arts, and educational system in the international context; conducted in English.
Effective: Summer 2005

GER 201 (IL) **Conversation and Composition** (4) Continuation of GER 003; emphasis on reading, writing, and conversational skills; course utilizes short literary selections, a concise novel, videos.
Effective: Fall 2006
Prerequisite: GER 003 or GER 008

GER 208Y (IL) **Business German** (4) Intermediate Business German.
Effective: Fall 2006
Prerequisite: GER 003 or GER 008

GER 245 (GH) **The Vikings** (3) Focus on the history of the Vikings from 800 to 1400 as conveyed to us in mythology, literature, and archaeology. Conducted in English.
Effective: Spring 2005

GER 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

GER 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GER 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1985

GER 297G **Advanced German for Reading** (3) Intensive reading and translation of advanced German texts. Recommended only for graduate students who have completed GER 052 or at least eight credits of undergraduate German.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: GER 052 or equivalent

GER 299 (IL) **Foreign Study--German** (3-6) Advanced training in German language skills.
Effective: Summer 2005

GER 301 (IL) **Intermediate Conversation and Composition** (3) Intensive practice in spoken and written German through readings, discussions, video, and composition.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: GER 201 or GER 208

GER 301 (IL) **Intermediate Speaking and Listening** (3) Intensive practice in spoken German through readings, discussions and video.
Prerequisite: GER 201 or GER 208

GER 302W **Intermediate Conversation and Composition II** (3) Continuation of oral and written practice in German with extensive work in composition.
Effective: Summer 1994 Ending: Fall 2011
Prerequisite: GER 301

GER 302W **Intermediate Composition and Grammar** (3) Continuation of oral and written practice in German with extensive work in composition.
GER 308Y (IL) German Business Communication (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent: GER 301

GER 310 (IL) Introduction to the Study of German Literature (3) History, methods, and the terminology of literary interpretation and analysis in German.
Prerequisite: GER 301 or GER 302W

GER 344 (IL) Intermediate German Culture (3) An overview of German culture from the Middle Ages to the present. Conducted in German.
Effective: Fall 2006 Ending: Fall 2011
Prerequisite: Prerequisite or concurrent: GER 301

GER 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

GER 399 (IL) Foreign Study--German (3-12) Advanced studies in German language and/or literature.
Effective: Summer 2005
Prerequisite: GER 201

GER 401Y (IL) Advanced Composition (3) Intensive practice in writing different text types in German.
Effective: Spring 2006 Ending: Fall 2011
Prerequisite: GER 301

GER 408 (IL) Advanced German Business Communications (3) Study of German business organization, forms of business communications, business terminology; writing of reports and abstracts.
Effective: Spring 2006
Prerequisite: GER 308

GER 411 The Teaching of German (3) Theory, methods, techniques, materials, bibliography; use of inter-active media; contributions of linguistics or psychology to language learning.
Effective: Summer 1994
Prerequisite: or concurrent: GER 401

GER 412 (IL) Contrastive Analysis of Modern German and English (3) Structural comparison of the German and English grammatical systems: morphology, syntax, phonology.
Effective: Spring 2006
Prerequisite: or concurrent: GER 401

GER 420 (IL) Genre (3-9) Special studies in a particular literary genre in German literature, such as lyrical poetry, drama, or narrative prose.
Effective: Spring 2006
Prerequisite: GER 310, GER 401

GER 430 (IL) History of the German Language (3) Development of German from its earliest stages, including historical and cultural aspects.
Effective: Fall 2007
Prerequisite: or concurrent: GER 401Y

GER 431 (IL) History of German Literature and Culture I (3) Significant works of German literature before the mid-eighteenth century considered in their cultural context.
Effective: Spring 2006
Prerequisite: GER 310. Prerequisite or concurrent: GER 401

GER 432 (IL) History of German Literature and Culture II (3) Significant works of German literature from the mid-eighteenth century to the present considered in their cultural context.
Effective: Spring 2006
Prerequisite: GER 310. Prerequisite or concurrent: GER 401

GER 440 (IL) **Seminar in German Culture** (3-6) Seminar devoted to a special topic in the field of German culture and civilization.
Effective: Spring 2006
Prerequisite: or concurrent: GER 401

GER 470 (IL) **Goethe** (3) A study of Goethe's life and works especially his lyric poetry, novels, and dramas.
Effective: Spring 2006
Prerequisite: or concurrent: GER 431 or GER 432

GER 472 (IL) **Romanticism** (3) A study of both early and late romanticism, including such writers as Novalis, the Schlegels, E.T.A. Hoffmann, and Heine.
Effective: Spring 2006
Prerequisite: or concurrent: GER 431 or GER 432

GER 489 **Introduction to German Film History and Theory in Context** (3) Introduces films in German since the 1960s and addresses issues relevant to German and European cultures and politics.
Effective: Spring 2005
Prerequisite: GER 310 or COMM 250

GER 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

GER 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

GER 495 **Internship** (3-9) Supervised off-campus, non-group instruction including individual field experiences, practicums, or internships. Written and oral critique of activity required.
Effective: Summer 1981
Prerequisite: prior approval of proposed assignment by instructor

GER 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GER 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1985

GER 499 (IL) **Foreign Study--German** (3-12) Advanced studies in German language, literature, and culture.
Effective: Summer 2005
Prerequisite: any 300-level course in German

Last Import from UCM: June 16, 2011 3:00 AM
Graphic Design (GD)

GD 001S First-Year Seminar in Graphic Design (1) An orientation to the historical, social, and professional context of design and an exposure to a variety of ethical, philosophical, and topical ideas from the world of design.
Effective: Summer 2007
Prerequisite: admission to the AADES program

GD 100 (GA) Introduction to Graphic Design (3) A beginning level graphic design course. Instruction touches on the practice, theories, history and processes of the graphic design industry.
Effective: Spring 2006

Effective: Summer 2007
Concurrent: GD 001S

GD 102 Introductory Design Studio (3) A studio course in defining problems, solving problems, and generating ideas.
Effective: Summer 2007
Prerequisite: GD 001S and GD 101

GD 200 Graphic Design Studio I (3) A beginning graphic design studio course. Instruction focuses on the practical and analytical process of creating graphic designs and their critical evaluation.
Effective: Spring 2008
Prerequisite: GD 102

GD 201 Typography (3) A consideration of the word in relation to visual organization and its application to communication.
Effective: Fall 2006
Prerequisite: GD 200

GD 202W The History of Graphic Design (3) A survey of graphic design, especially emphasizing influential movements, innovative designers and technological advances relevant to contemporary visual communication.
Effective: Summer 2011
Prerequisite: GD 001S, GD 100, GD 101 Concurrent: GD 102

GD 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2006

GD 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2006

GD 296 Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2006

GD 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2006

GD 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2006

GD 300 Design Photography (4) An investigation of graphic photography processes and how print technology affects the final appearance of a photograph.
Effective: Fall 2006
Prerequisite: GD 201 and successful portfolio review

GD 301 Graphic Design Technology I (4) Theoretical and practical aspects of computer application to graphic design.
Effective: Fall 2006
Prerequisite: GD 201 and successful portfolio review

GD 302 Applied Communication (4) Definition and concentrated involvement in problem/audience analysis, with emphasis on understanding symbol and image in evoking audience response.
Effective: Fall 2006
Prerequisite: GD 300, GD 301

GD 303 Graphic Design Technology II (4) Advanced application of digital technology as a medium of graphic design.
Effective: Spring 2006
Prerequisite: GD 300, GD 301

The Pennsylvania State University
GD 304 Practical Communications (3) Practical design experience for students through design/publicity problems from the University and community non-profit organizations.
Effective: Fall 2006
Prerequisite: Prerequisite or concurrent GD 300, GD 301

GD 310 Studio Apprenticeship (3 per semester/maximum of 6) Direct involvement in the creative process of the artist-teacher in the studio environment.
Effective: Fall 2006
Prerequisite: Junior or senior standing in Graphic Design. Prior approval of proposed assignment by instructor.

GD 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2006

GD 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2006

GD 400 Time and Sequence (4) Development of visual sequence as replies to graphic design problems.
Effective: Fall 2006
Prerequisite: GD 302

GD 401 Package Design (3) Orientation to packaging designs as it relates to the consumer, client, and to societal and environmental concerns.
Effective: Fall 2006
Prerequisite: GD 302

GD 402 Senior Problems (4) Development of visual replies to graphic design problems.
Effective: Fall 2006
Prerequisite: GD 400, GD 401

GD 403W Graphic Design Seminar (3) A seminar on subjects which relate to the field of graphic design.
Effective: Fall 2007
Prerequisite: GD 302

GD 404 Book Design (3) Writing, designing, illustrating and production (printing) of a book.
Effective: Fall 2006
Prerequisite: GD 302

GD 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2006

GD 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

GD 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2006

GD 496 Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2006

GD 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2006

GD 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2006
Greek (GREEK)

Knowledge of Greek or Latin not required. See also CLASSICS AND ANCIENT MEDITERRANEAN STUDIES and LATIN.

GREEK 001 Elementary Classical and New Testament Greek (4) Pronunciation, forms, syntax, and translation. Effective: Fall 1983

GREEK 002 Elementary Classical and New Testament Greek (4) Further instruction in syntax and sentence structure. Effective: Fall 1983 Prerequisite: GREEK 001

GREEK 003 Intermediate Classical and New Testament Greek (4) Selections from representative authors. Effective: Fall 1983 Prerequisite: GREEK 002

GREEK 003 Intermediate Classical and New Testament Greek (4) Selections from representative authors. Effective: Fall 1983 Prerequisite: GREEK 002

GREEK 051 Elementary Intensive Greek for Graduate Students I (3) Intensive introduction to Classical and New Testament Greek: first half of graduate intensive sequence, elementary reading, writing, speaking, listening, culture. Effective: Summer 2008 Prerequisite: graduate standing

GREEK 052 Elementary Intensive Greek for Graduate Students II (3) Intensive introduction to Classical and New Testament Greek: second half of graduate intensive sequence, elementary reading, writing, speaking, listening, culture. Effective: Summer 2008 Prerequisite: GREEK 051 or equivalent and graduate standing

GREEK 053 Intermediate Intensive Greek for Graduate Students (3) Continued intensive study of Classical and New Testament Greek at the intermediate level: reading, writing, speaking, listening, culture. Effective: Summer 2008 Prerequisite: GREEK 052 or equivalent and graduate standing.

GREEK 099 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 101 Introductory Ancient Greek (4) Fundamentals of classical Greek grammar, syntax, and vocabulary. Effective: Fall 2001

GREEK 102 Intermediate Ancient Greek (4) Intermediate study of classical Greek grammar, syntax, and vocabulary. Effective: Fall 2001 Prerequisite: GREEK 101

GREEK 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

GREEK 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

GREEK 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2001

GREEK 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester. Effective: Fall 1983

GREEK 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996 Prerequisite: prior approval of proposed assignment by instructor

GREEK 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester. Effective: Spring 2001
GREEK 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 401 Introductory Reading in Greek Literature (3-6) Analysis of selected passages of ancient Greek literature; attention will be paid to grammatical as well as literary details. Effective: Summer 2011
Prerequisite: GREEK 102

GREEK 420 Greek Prose Authors (3-6) Readings in representative authors. Effective: Summer 2011

GREEK 425 Greek Historians (3-6) Translation and study of one or more of the ancient Greek historians. Effective: Summer 2011
Prerequisite: GREEK 102

GREEK 430 Greek Poetry (3-6) Translation and analysis of selected readings in Greek poetry. Effective: Summer 2011
Prerequisite: GREEK 102

GREEK 440 Greek Drama (3-6) Translation and study of a selected play. Effective: Summer 2011
Prerequisite: GREEK 102

GREEK 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

GREEK 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

GREEK 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

GREEK 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

GREEK 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Health (HLTH)

HLTH 306 Physical Education, Health, and Safety in Elementary Schools (2) A study of appropriate activities for elementary-age children. Student participation in physical activities is required.
Effective: Fall 2004
Prerequisite: eighth-semester standing in Elementary Education Program

Last Import from UCM: June 16, 2011 3:00 AM
Health Care Management (H C M)

H C M 361 Health Care Systems (3) An analysis of health care-related occupations, use of health services and health care system. Discussion of alternatives to present system.
Effective: Fall 1985

H C M 462 Health Care Administration (3) Organizational perspectives, managerial techniques and political aspects of health care planning, administration and control.
Effective: Fall 1985
Prerequisite: H C M 361

H C M 463 Legal Aspects of Health Care (3) An examination of legal rights and liabilities of patients, professionals, and health care institutions. Emphasis is given to medical malpractice.
Effective: Fall 1983

H C M 464 Health Care Finance and Economics (3) Integration of financial and economic aspects of health care systems, including financing, mechanisms, economic theory, and regulatory constraints.
Effective: Spring 2008
Prerequisite: FIN 301 6 credits economics (micro and macro)

H C M 465 Health Care Insurance (3) A study of insurance as it relates to health care from the public and private sector viewpoints.
Effective: Fall 1983

H C M 467 Methods of Health Care Planning and Evaluation (3) Health care planning, epidemiological concepts, forecasting procedures, and methods of health care evaluation.
Effective: Fall 1988
Prerequisite: 3 credits in statistics

H C M 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1990
Prerequisite: prior approval of proposed assignment by instructor

H C M 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 1983

H C M 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 16, 2011 3:00 AM
Health Education (HL ED)

HL ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

HL ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

HL ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1993

Last Import from UCM: June 16, 2011 3:00 AM
**Health Education (HLHED)**

HLHED 415 *Planning and Developing Health Education Programs* (3) Premises and strategies for planning, implementing, and evaluating wellness programs in corporate, hospital, and community agency settings. Effective: Fall 1997. Prerequisite: permission of program.

HLHED 443 *Alcohol and Drug Education* (3) Principles of integration and coordination of alcohol and drug education programs for health education and other social service professions. Effective: Fall 1997. Prerequisite: permission of program.

HLHED 456 *Advanced Techniques in School and Community Health Education* (3) Public health, mental health, nutrition, dental school health, physical education, accident prevention, health teaching; projects, consultation, visitation, discussions, and resources. Effective: Fall 1997. Prerequisite: permission of program.

HLHED 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1997.
Health Policy and Administration (H P A)

H P A 057 (GHA) Consumer Choices in Health Care (3) Introduction to consumers' role in health-care decisions, including health benefits, physician and hospital choice, and end-of-life choices. Effective: Spring 2004

H P A 101 Introduction to Health Services Organization (3) Examination of the social, political, historic, and scientific factors in the development and organization of health services. Effective: Fall 1998

H P A 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

H P A 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

H P A 301W Health Services Policy Issues (3) Analysis of major issues in health services delivery in hospitals, medical practice, public health, mental health, and health professional education. Effective: Spring 2011
Prerequisite: ECON 102, H P A 101, PL SC 001

H P A 310 Health Care and Medical Needs (3) Health care from an individual, family, and community standpoint illustrated with specific diseases and health problems. Effective: Spring 1998
Prerequisite: BB H 101, BI SC 004 orBIOL 141

H P A 332 Health Systems Management (3) Introduction to and analysis of managerial roles and practices in health service organizations. Effective: Spring 1987
Prerequisite: H P A 101

H P A 390 Professional Development in Health Policy and Administration (3) Development of personal understanding and professional skills to prepare students for future employment or study in health policy and administration. Effective: Summer 2000
Prerequisite: H P A 101

H P A 395 Field Experience in Health Policy and Administration (1-13) Professional field experience providing opportunities to apply skills and knowledge in health care setting. Effective: Fall 2001
Prerequisite: H P A 301W, H P A 310, H P A 332, H P A 390

H P A 396 Professional Transition to Careers in Health Policy and Administration (1) Professional skills development preparing students for their first work experience in Health Policy and Administration. Effective: Spring 1999
Prerequisite: H P A 395

H P A 401 (IL) Comparative Health Systems (3) Comparative analysis of health services in selected developed and developing countries. Effective: Summer 2011

H P A 410 Principles of Public Health Administration (3) The rationale for, and the patterns of, public health service at all levels of government in the United States. Effective: Summer 2011

H P A 420 Principles of Managed Care (3) Survey of managed health care, including history, typology, current issues, management challenges, and impacts on patients, providers, and special populations. Effective: Summer 2011

H P A 433 Administration of Hospital and Health Service Systems (3) Analysis of administrative structures and interorganizational arrangements among hospitals and other health care organizations. Effective: Spring 1998
Prerequisite: H P A 332

Prerequisite: BB H 101 orBIOL 110 orH P A 310;STAT 200 orSTAT 250

The Pennsylvania State University
H P A 440U (US;IL) **Principles of Epidemiology** (3) Theory of epidemiology and significant case studies. Potential application to health care.
Prerequisite: BB H 101 or BIOL 110 or H P A 310 or STAT 200 or STAT 250

H P A 442 **Long-Term Care Management** (3) Management and policy issues for institutional, community, and home settings for chronic care services.
Effective: Spring 1998

H P A 445 (ECON 445) **Health Economics** (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 1994
Prerequisite: ECON 302, ECON 315 or ECON 323

H P A 445W (ECON 445W) **Health Economics** (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 2008
Prerequisite: ECON 302, ECON 315 or ECON 323

H P A 447 **Financing Health Care** (3) Analysis of financial flows, third party payment programs, and reimbursement practices in the health services sector.
Effective: Summer 2011
Prerequisite: FIN 100 or INS 301; H P A 332

H P A 450 **Healthcare Policies and Politics** (3) Survey of health care's political contexts: formulation, implementation, and modification stages of policy process; politics of private interests (associations) at national and state levels.
Effective: Summer 2011
Prerequisite: H P A 101, PL SC 001

H P A 455 **Strategic Planning and Marketing for Health Services** (3) Introduction to principles and methods of strategic planning and marketing.
Effective: Spring 1998
Prerequisite: H P A 332

H P A 460 **Human Resource Management in Health Care Organizations** (3) Foundations of human resource management applied to health care organizations, including hospitals, long-term care facilities, and community health organizations.
Effective: Spring 1998
Prerequisite: H P A 332

H P A 470 **Health Care Information Management** (3) This course introduces information systems terminology, data structures, software applications, and their management functions in health services organizations.
Effective: Summer 2000
Prerequisite: H P A 332, IST 210, IST 220

H P A 494H **Senior Honors Thesis** (1-6) Independent study related to student's interests directed by a faculty supervisor and culminating in the production of a thesis.
Effective: Summer 2006
Prerequisite: approval of honors thesis advisor

H P A 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

H P A 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

H P A 497A **ISS Healthcare Quality** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

H P A 497A **Health Care Leadership I** (3) Identified as one of the core competencies improve the U.S. Health care system and one of the challenges to solving the problems of cost, quality and access.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H P A 497A **Physician Practice Management** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

H P A 497B **Physician Practice Management** (3) This course is a comprehensive examination of physician practice management topics and the role physicians play in the U.S. health care industry past, present and the future.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

The Pennsylvania State University
H P A 497B Healthcare Leadership II (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

H P A 497C Introduction to Health Insurance and Payment (3) This course covers basic concepts and issues related to health insurance and payment for health care providers.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Health and Human Development (H&HD)

H&HD 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

H&HD 297A Global Leadership Initiative (2) Course focuses on global leadership issues in health and human development in preparation for an international experience.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 297B Global Leadership Initiative (1) Course focuses on debriefing international leadership experience.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 297S JumpStart (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

H&HD 397A Global Leadership Initiative (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 397B Global Leadership (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2006

H&HD 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

H&HD 497A Women’s Leadership Initiative (2) Women's Leadership Initiative.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 497B Global Leadership (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&HD 497H Special Topics--Honors (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

H&HD 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

H&HD 499H (IL) Foreign Studies-Honors (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Hebrew (HEBR)

HEBR 001 Basic Modern Hebrew I (4) An introduction to modern Hebrew in its written and spoken forms; oral and aural work stressed.
Effective: Summer 1990

HEBR 002 Basic Modern Hebrew II (4) Continued study of grammar; emphasis on improving oral-aural facility, with increased attention to reading and writing.
Effective: Summer 1990
Prerequisite: HEBR 001

HEBR 003 Intermediate Modern Hebrew (4) Grammar, reading, composition, and oral and aural exercises.
Effective: Summer 1977
Prerequisite: HEBR 002

HEBR 010 (GH:IL) (J ST 010) Jewish Civilization (3) Life of the Jewish people from Biblical times, emphasizing cultural, religious, and institutional developments.
Effective: Summer 2005

HEBR 051 Elementary Intensive Hebrew for Graduate Students I (3) Intensive introduction to Biblical or Modern Hebrew: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, culture.
Effective: Summer 2008
Prerequisite: graduate standing

HEBR 052 Elementary Intensive Hebrew for Graduate Students II (3) Intensive introduction to Biblical or Modern Hebrew: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, culture.
Effective: Summer 2008
Prerequisite: HEBR 051 or equivalent and graduate standing

HEBR 053 Intermediate Intensive Hebrew for Graduate Students (3) Continued intensive study of Biblical or Modern Hebrew at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite: HEBR 052 or equivalent and graduate standing

HEBR 097 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 111 The Development of Hebrew Language and Literature (3) Chronological overview of Hebrew language and literature; characteristics of the language in the Biblical, Mishnaic, Medieval, Modern eras; representative readings.
Effective: Summer 1990
Prerequisite: HEBR 003

Effective: Summer 2011

Effective: Summer 2005
Prerequisite: HEBR 151

HEBR 197 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 199 (IL) Foreign Study--Basic Hebrew (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

HEBR 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships.
Effective: Summer 1986
HEBR 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1986

HEBR 297 **Special Topics** (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1983

HEBR 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

HEBR 397 **Special Topics** (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 399 (IL) **Foreign Study--Intermediate Hebrew** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 401 **Advanced Hebrew--Conversation Emphasis** (3 per semester, maximum of 6) Development of oral proficiency through discussions focusing on issues in contemporary Jewish culture.
Effective: Summer 2011

HEBR 402 **Advanced Hebrew--Reading Emphasis** (3 per semester, maximum of 6) Readings in representative works of traditional and modern literature; practice in composition; study of aspects of Jewish culture.
Effective: Summer 2011

HEBR 451 **Advanced Biblical Hebrew** (3) Translation and analysis of selected readings in Biblical Hebrew texts; attention will be paid to grammatical as well as literary details.
Effective: Spring 2007
Prerequisite: HEBR 152 or equivalent

HEBR 452 **Readings in Biblical Hebrew** (3) Translation and analysis of selected readings in Biblical Hebrew texts; attention will be paid to grammatical as well as literary details.
Effective: Spring 2007
Prerequisite: HEBR 451 or equivalent

HEBR 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

HEBR 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

HEBR 496 **Independent Studies** (1-18) Creative projects including research and design which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1982

HEBR 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1983

HEBR 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interet.
Effective: Fall 1992

HEBR 499 (IL) **Foreign Study--Advanced Hebrew** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Higher Education (HI ED)

HI ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1995

HI ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1995

HIST 103 (GH;IL) **The History of Madness, Mental Illness, and Psychiatry** (3) This course will examine the ideas that have shaped European and American perceptions of madness, insanity, and mental illness.
Effective: Summer 2005

HIST 104 (GH) (CAMS 104) **Ancient Egypt** (3) The history and archaeology of ancient Egypt from the dawn of history to the Greco-Roman period.
Effective: Summer 2002

HIST 105 (GH;IL) **The Byzantine Empire** (3) Development of Byzantine civilization from the decline of the Roman Empire to the fall of Constantinople.
Effective: Spring 2006

HIST 107 (GH;IL) (MEDVL 107) **Medieval Europe** (3) Rise and development of the civilization of medieval Europe from the decline of Rome to 1500.
Effective: Spring 2006

HIST 108 (GH;IL) **The Crusades: Holy War in the Middle Ages** (3) The social and political history of medieval religious warfare in Europe and in the Middle East.
Effective: Spring 2006

HIST 110 (GH;IL) **Nature and History** (3) A broad introduction to the history of human relationships with nature throughout the world.
Effective: Summer 2005

HIST 113 (IL) **Baseball in Comparative History** (3) Comparative survey of baseball history from its beginnings to the present.
Effective: Fall 2009

HIST 115 (GH;US) (J ST 115, RL ST 115) **American Jewish History and Culture** (3) Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America.
Effective: Summer 2006

HIST 116 (GS;US;IL) (WMNST 116) **Family and Sex Roles in Modern History** (3) Historical perspectives on the Western family since 1500: gender roles, marriage, sexuality, child rearing, and old age; emphasis on United States.
Effective: Spring 2006

HIST 117 (GH;US;IL) (WMNST 117) **Women in Modern History** (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society; cross-cultural comparisons.
Effective: Summer 2005

HIST 117M (GH;US;IL) (WMNST 117M) **Women in Modern History** (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society; cross-cultural comparisons.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 118 (US;IL) (J ST 118) **Modern Jewish History: 1492 to Present** (3) Jewish social and political history from 1492 to the present.
Effective: Spring 2006

HIST 119 (GH;IL) **Gender and History** (3) Survey of the development of gender roles in Western societies from the prehistoric era to the early modern period.
Effective: Spring 2008

HIST 120 (GS;IL) **Europe Since 1848** (3) Political, social, and ideological developments; origin and impact of two World Wars; totalitarianism and democracy; changing role in the world.
Effective: Spring 2006

HIST 120U (GS;IL) **Europe Since 1848** (3) Political, social, and ideological developments; origin and impact of two World Wars; totalitarianism and democracy; changing role in the world.

The Pennsylvania State University
HIST 121 (GH;IL) (J ST 121) History of the Holocaust 1933-1945 (3) Historical analysis of holocaust themes. Effective: Summer 2005

HIST 122 (GH) (S T S 122) History of Science I (3) A history of science and culture from Stonehenge to the scientific revolution. Effective: Spring 2005

HIST 123 (GH) (S T S 123) History of Science II (3) A history of science and culture from the scientific revolution to the present. Effective: Spring 2004

HIST 124 (GH;US;IL) (S T S 124) History of Western Medicine (3) This course explores the history of health, illness, and medicine in western society. Effective: Summer 2008

HIST 127 (US) (L TNST 127) Introduction to U.S. Latina/o History (3) This course introduces students to the history of U.S. Latina/os, including Puerto Ricans, Dominicans, Chicanos, Cubans, and Central Americans. Effective: Spring 2008

HIST 130 (GH;US) Introduction to the Civil War Era, 1848 through 1877 (3) Survey of causes and consequences of American Civil War, end of Mexican War in 1848 through end of Reconstruction, 1877. Effective: Spring 2010

HIST 134 (GH;IL) Introduction to the British Isles, 1400-1800 (3) Survey of the history and cultures of the British Isles from 1400 to 1800. Effective: Spring 2010

HIST 141 (GH;IL) Medieval and Modern Russia (3) Introductory survey, including political, social, economic, and cultural development of Kievan, Muscovite, and Imperial Russia. Effective: Spring 2006

HIST 142 (GS;IL) History of Communism (3) Marxism; Leninism and evolution of the Soviet Union; formation and development of the Communist bloc; impact of Chinese Communism. Effective: Spring 2006

HIST 143 (GH;IL) History of Fascism and Nazism (3) The study of right-wing totalitarianism in the twentieth century, with special emphasis on Fascist Italy and Nazi Germany. Effective: Spring 2006

HIST 144 (GH;US;IL) The World at War: 1939-1945 (3) In-depth study of the origins and conduct of World War II. Political and economic aspects as well as military. Effective: Spring 2006

HIST 151 (GS;US) (S T S 151) Technology and Society in American History (3) Development of technology in America from colonial times: its reception and its influence on social, economic, and political life. Effective: Spring 2006

HIST 152 (GH;US;IL) African American History (3) African roots; colonial and revolutionary experiences; slavery and abolitionism; civil war and reconstruction; accommodation and protest; the new militancy. Effective: Summer 2005

HIST 153 (GH;US) The Indian in North America (3) A survey of the American Indian from prehistory to the present. Effective: Summer 2005

HIST 153Y (GH;US) The Indian in North America (3) A survey of the American Indian from prehistory to the present. Effective: Summer 2005

HIST 154 (GH;US) History of Welfare and Poverty in the United States (3) History of care of the impoverished (emphasis
on gender, race, nationality, age of poor, and welfare givers), 18th century to present.
Effective: Summer 2005

HIST 155 (GH;US) **American Business History** (3) Major developments in the history of business and industry from the colonial period to the present.
Effective: Spring 2006

HIST 156 (US) **History of the American Worker** (3) A study of the American worker from the preindustrial era to the present.
Effective: Spring 2006

HIST 158 (US;IL) **History of American Immigration** (3) The waves of migration to America and an analysis of the resulting minority groups, their reception, assimilation, and persisting identity.
Effective: Spring 2006

HIST 160 (US) **American Naval History** (3) Introduction to the role of the United States Navy in the defense, diplomacy, commerce, and scientific development of the nation.
Effective: Spring 2006

HIST 161 (US) **The Battle of Gettysburg in American Historical Memory** (3) Examines factors shaping understanding of the Civil War's decisive battle and its meanings as a national symbol.
Effective: Spring 2006

HIST 165 (IL) (ARAB 165, RL ST 165) **Introduction to Islamic Civilization** (3) Islamic history, culture, and religious life c.600-1500 C.E.
Effective: Spring 2006

HIST 172 (IL) **Survey of Japanese Civilization** (3) Survey of social, institutional, cultural, and religious developments from ancient times to the present.
Effective: Summer 2005

HIST 173 (GH;IL) **Vietnam in War and Peace** (3) Rise of nationalism and communism; origins of conflict; United States involvement; impact on postwar regional and international politics; contemporary Vietnam.
Effective: Spring 2006

HIST 174 (GH;IL) **The History of Traditional East Asia** (3) Comparative cultural, institutional, and social history of traditional China and Japan to their contact with the industrialized West.
Effective: Summer 2005

HIST 175 (GH;IL) **The History of Modern East Asia** (3) Comparative survey of the internal developments and external relations of China and Japan since their contact with the industrialized West.
Effective: Summer 2005

HIST 176 (GH;IL) **Survey of Indian History** (3) Survey of cultural, institutional, and political history from ancient times to the present.
Effective: Summer 2005

HIST 178 (GH;IL) **Latin-American History to 1820** (3) Conquest of the New World, development of colonial institutions, impact on native cultures, and origins of independence movements.
Effective: Summer 2005

HIST 179 (GH;IL) **Latin-American History Since 1820** (3) Origin, political growth, international relations, and economic status of the Latin-American republics, with emphasis upon present-day conditions.
Effective: Summer 2005

HIST 179U (GH;IL) **Latin-American History Since 1820** (3) Origin, political growth, international relations, and economic status of the Latin-American republics, with emphasis upon present-day conditions.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 180 (GH;IL) (CAM 180) **Ancient Warfare** (3) Historical survey of the evolution of warfare in the ancient Mediterranean region from prehistoric times to the Later Roman Empire.
Effective: Summer 2006

HIST 181 (GH;IL) **Introduction to the Middle East** (3) Origins of Islamic civilization; expansion of Islam; the Ottoman Empire; the Middle East since 1918.

The Pennsylvania State University
HIST 181U (GH;IL) **Introduction to the Middle East** (3) Origins of Islamic civilization; expansion of Islam; the Ottoman Empire; the Middle East since 1918. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 191 (GH;IL) (AAA S 191) **Early African History** (3) Explores important economic and cultural transformations in the making of early African empires from 1 MBC to 1750. Effective: Summer 2005

HIST 192 (GH;IL) (AAA S 192) **Modern African History** (3) Impact of the slave trade, expansion of Islam, colonial conquest, social and cultural transformations, resistance, nationalism, and independence. Effective: Summer 2005

HIST 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

HIST 199 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

HIST 200 (US) **American Local History** (3 per semester/maximum of 6) Topics in American local history relating local to national developments and studying the historical method by using primary source material. Effective: Spring 2006

HIST 205 (GH;US) (J ST 205) **American Antisemitism** (3) The Phenomenon of antisemitism in American history from Peter Stuyvesant to the present. Effective: Summer 2011

HIST 210 (GH;US) (AAA S 210) **Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932** (3) The course will explore the context and events that shaped African American life over the period 1896-1932. Effective: Summer 2005

HIST 211 (GH;US;IL) (AAA S 211) **The Emergence and Evolution of the Black Diaspora in the Atlantic World** (3) The course will explore the history and role of African and African-descent people in Africa, the Americas, and Europe. Effective: Summer 2005

HIST 230 (NUTR 230, S T S 230) **American Food System: History, Technology, and Culture** (3) A cultural analysis of the evolution of U.S. agricultural production and food consumption patterns, the food industry and food marketing. Effective: Spring 1989

HIST 235 (US;IL) (J ST 235, RL ST 235) **The Church and the Jews** (3) Examination of the relationship between Western church and the Jews from the First Century to Enlightenment. Effective: Spring 2006

HIST 250 (GH;IL) (AAA S 250) **Introduction to the Modern Caribbean** (3) A survey course which explores the historical evolution and emergence of the modern Caribbean. Effective: Summer 2005

HIST 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

HIST 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1986

HIST 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1986

HIST 297H **Special Topics** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
HIST 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HIST 300A European Historiography (3) Readings, group discussions, and oral and written reports on great historians, philosophy of history, and conflicting interpretations in European history.
Effective: Fall 1983
Prerequisite: third-semester standing 6 credits in history with a grade of A or B an all-University average of B

HIST 300B American Historiography (3) Readings, group discussions, and oral and written reports on great historians, philosophy of history, and conflicting interpretations in American history.
Effective: Fall 1983
Prerequisite: third-semester standing 6 credits in history with a grade of A or B an all-University average of B

HIST 300C Independent Study (3) Readings and oral and written reports in areas to be arranged with the chairman of the Honors Committee.
Effective: Fall 1983
Prerequisite: HIST 300A or HIST 300B

HIST 300D Honors Thesis (3) Research paper in an area arranged with the chairman of the Honors Committee.
Effective: Fall 1983
Prerequisite: HIST 300A, HIST 300B, HIST 300C

HIST 300H Honors Course in History (3-12) No description available.
Effective: Fall 1983

HIST 301W Scope and Methods of History (3) A course designed to introduce students to the analysis, methods, and practices of historical writing and research.
Effective: Spring 2008
Prerequisite: 3 credits in history

HIST 302W Undergraduate Seminar (3) Thematic or topical investigation; emphasis on historical criticism and analysis.
Effective: Fall 1995
Prerequisite: 6 credits in history at the 400 level

HIST 320 Contemporary World History and Issues (3) Aspects of global history in 20th and 21st centuries and study of selected trends and controversies.
Effective: Spring 2008

HIST 320W Contemporary World History and Issues (3) Aspects of global history in 20th and 21st centuries and study of selected trends and controversies.
Effective: Spring 2008

HIST 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite: prior approval of proposed assignment by instructor

HIST 399 (IL) Foreign Study--History (1-12) Study in selected foreign countries of various periods and topics in history.
Effective: Summer 2005

HIST 400 Research in Ancient Sources (3) Guided research in the literature of ancient Mediterranean civilizations.
Effective: Spring 2008
Prerequisite: HIST 301

HIST 401 (IL) (J ST 401) Ancient Technologies and Socio-cultural History in the Ancient Levant (3) Social and intellectual development in the Ancient Levant as they affected and were affected by technological development.
Effective: Spring 2006
Prerequisite: RL ST 110

Effective: Spring 2006
Prerequisite: HIST 100

HIST 403 (IL) Alexander the Great and the Hellenistic World (3) The career of Alexander, his impact on his own time, and the Hellenistic legacy.
Effective: Spring 2006
Prerequisite: HIST 100

HIST 404Y (IL) Rome and Hellenism (3) The impact of traditional Greek culture on ancient Italian society in the age (ca. 300-30 B.C.) of Roman imperial expansion.
Effective: Spring 2006
Prerequisite: HIST 100, HIST 101 or CAMS 033

HIST 405Y (IL) The Roman Empire (3) The political and social history of the Roman empire; economic institutions and

HIST 406W Research in Medieval Sources (3) Guided research in the literature of medieval Europe.
Prerequisite: HIST 001

HIST 407 (IL) Early Medieval Society (3) Rise of European nations and evolution of their social and political institutions from the time of Constantine to the Crusades.
Prerequisite: HIST 001

HIST 408 (IL) Church and State in the High Middle Ages (3) European political, institutional, and social history in light of church-state tensions from the Crusades to the Renaissance.
Prerequisite: HIST 107

HIST 409Y (IL) (J ST 409Y, RL ST 407Y) European Anti-Semitism from Antiquity to the Present (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

HIST 410 (US;IL) (J ST 410, RL ST 410) Jews in the Medieval World (3) Trends in medieval Jewish society under Islam and Western Christendom.
Effective: Spring 2006

HIST 411 (IL) (MEDVL 411) Medieval Britain (3) Political, cultural, and economic history of Britain from circa 400 to 1485 with an emphasis on the kingdom of England.
Effective: Spring 2006
Prerequisite: 6 credits in European history or medieval studies

HIST 460 (US;IL) United States Foreign Intelligence (3) Aims, methods, and organization of U.S. foreign intelligence from the American Revolution to the Cold War and beyond. Effective: Spring 2006

HIST 461 (US;IL) The Emergence of the American City: 1100-1880 (3) The growth of American cities from their urban origins in Europe and the Native-American Southwest to 1880. Effective: Spring 2006

HIST 462 (US;IL) The Twentieth Century City (3) Political, economic, social, and cultural transformations in American cities from 1880 to 2000. Effective: Spring 2006

HIST 463 (US) American Thought to 1865 (3) Introduction to, scholarly commentary on, major documents of American Intellectual history, early colonial period to end of the Civil War. Effective: Spring 2006 Prerequisite: any American history course at the college freshman level

HIST 464 (US) American Thought from 1865 (3) Introduction to, scholarly commentary on, major documents of American Intellectual history from end of the Civil War to the present. Effective: Spring 2006 Prerequisite: any American history course at the college freshman level

HIST 466 (US;IL) (WMNST 466) Lesbian and Gay History (3) Critical exploration of the history of sexuality, focusing especially on the emergence of modern lesbian and gay identities. Effective: Summer 2005 Prerequisite: HIST 117, WMNST 001

HIST 467 (US;IL) (LTNST 467) Latin America and the United States (3) Historical development of policies of the United States with regard to Latin-American affairs from colonial times to the present. Effective: Fall 2008

HIST 469 (CRIMJ 469) Drugs and Drug Policy in the United States (3) Examines the history and dimensions of drug use and analyzes the impact of drug policy. Effective: Spring 2008 Prerequisite: CRIMJ 100 or HIST 021

HIST 470 Modern Bondage: Slavery in the Americas, 1492-1888 (3) The work, culture, ideology, and political economy of slavery in the Americas between 1500 and 1888. Effective: Summer 2007 Prerequisite: HIST 011, HIST 020, HIST 152, HIST 178 or HIST 192

HIST 471Y (IL) (RL ST 471Y) Classical Islamic Civilization, 600-1258 (3) Pre-Islamic Arabia; Muhammad; Arab conquests; Islamic beliefs and institutions; literary, artistic, and scientific achievements; relations with Europe; breakdown of unity. Effective: Fall 2006

The Pennsylvania State University
HIST 472 (IL) The Ottoman Empire and Other Muslim States (3) Turkish and Mongol invasions; Mamluks; Ottoman expansion and institutions; Safavid Persia; disintegration and reform; emergence of modern Turkey and Iran.
Effective: Spring 2006
Prerequisite: HIST 181

HIST 473 (IL) The Contemporary Middle East (3) Political, economic, and social changes in Turkey, Iran, Israel, and the Arab countries in the twentieth century; Arab-Israeli conflict.
Effective: Spring 2006

HIST 475Y (IL) The Making and Emergence of Modern India (3) India’s transition to social, economic, and political modernity through the experience of British colonial rule and the nationalist struggle.
Effective: Spring 2006
Prerequisite: HIST 010, HIST 011, HIST 172, HIST 175, HIST 176, HIST 181 or HIST 191

HIST 477 American Military History to 1900 (3) Development of United States military policy, 1776-1900, emphasizing conduct of wars, interrelationship of civil and military authority.
Effective: Spring 2008
Prerequisite: 3 credits in history

HIST 478 American Military History Since 1900 (3) Development of United States military policy in the 20th and 21st centuries, emphasizing conduct of wars, interrelationship of civil and military authority.
Effective: Spring 2008
Prerequisite: 3 credits in history

HIST 479 (IL) History of Imperialism and Nationalism in Africa (3) Theories and types of imperialism; varied patterns of colonial administration; initial African responses; nationalism; decolonization and independence.
Effective: Spring 2006
Prerequisite: HIST 191

HIST 480 (IL) Medieval Japan (3) An overview of Japan between 1150-1550, a period of political decentralization, cultural efflorescence, and social change.
Effective: Spring 2006
Prerequisite: HIST 107, HIST 172, HIST 174 or HIST 407

HIST 481 (IL) Modern Japan Since 1800 (3) The transformation of Japan from a pre-modern, isolated, and agricultural nation into a highly industrialized world power.
Effective: Spring 2006
Prerequisite: HIST 172, HIST 174 or HIST 175

HIST 483 (IL) Chinese Society and Culture to 1800 (3) The social, political, and cultural issues and developments from ancient to the late-imperial times.
Effective: Spring 2006
Prerequisite: HIST 174

HIST 484Y (IL) History of Chinese Thought (3) A study of the dynamic historical development of Chinese thought with its diverse expressions from antiquity to the present.
Effective: Spring 2006
Prerequisite: HIST 174 or HIST 175

HIST 485Y (IL) Nineteenth-Century China (3) Ch’ing society and institutions; “opening” to the west; imperialism; domestic upheaval and its effect upon Chinese society; reform movements.
Effective: Spring 2006
Prerequisite: HIST 175 or HIST 300H (Honors in East Asian history)

HIST 486 (IL) Twentieth-Century China (3) China from the Republican Revolution of 1911 to the present; nationalism, cultural change; development of communism.
Effective: Spring 2006
Prerequisite: HIST 175 or HIST 300H (Honors in East Asian History)

HIST 487 American Diplomacy, 1776-1914 (3) Developments in the foreign policy of the United States from independence to the eve of World War I.
Effective: Spring 2008
Prerequisite: HIST 002 or HIST 020

HIST 488 American Diplomacy Since 1914 (3) Developments in the foreign policy of the United States since the eve of World War I.
Effective: Spring 2008
Prerequisite: HIST 002 or HIST 021

HIST 490 (L ST 490) Archival Management (1-3) Introduction to the principles and procedures in the management of archives and historical manuscripts.
Effective: Fall 1978

HIST 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994
HIST 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

HIST 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships.
Effective: Summer 1986
Prerequisite: prior written approval of proposed assignment by instructor

HIST 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

HIST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

HIST 497A The Spanish-Speaking Caribbean and Its Diaspora (3) This course will examine the nineteenth and twentieth century history of Cuba, Santo Domingo, and Puerto Rico, including the emigration and founding of Spanish-Caribbean diasporas in the United States.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 497B (J ST 497B, RL ST 497B) German Antisemitism from the Middle Ages to the Holocaust (3) German and Jewish history are interpreted in an integrated approach which examines the fundamental problem of continuity through the lens of antisemitism.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 497C Technology and Society in Modern Japan (3) Examine the role of technology in Japan's modernization and foreign relations from the mid-19th century to the present day.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 497H Major Interpretations in US History (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HIST 499 (IL) Foreign Study--History (1-6) Study in selected foreign countries of various periods and topics in history.
Effective: Summer 2005
Prerequisite: 3 credits in the appropriate introductory history course for the geographic location specified

HIST 499A (IL) (CAMS 499A, ANTH 499A) Archaeology, History, and Culture of Turkey's Aegean Coast (3) The 2011 study tour will focus on Turkey's western coast, the location of Troy and the Trojan War and the heart of the Greco-Roman and Byzantine empires.
Effective: Summer 2011 Ending: Summer 2011

HIST 499B (IL) (CAMS 499B, ANTH 499B) Foreign Study (3) This course is offered as an option for students to earn an additional 3 credits, with the permission of the instructor. The students will be required to write a research paper on an approved topic.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: 3 credits in the appropriate introductory history course for the geographic location specified

HIST 499C (IL) (RL ST 499C, CAMS 499C, ANTH 499C) Excavation, Survey and GIS for Archaeologists (6) Entails excavation, intensive survey, and an introduction to GIS for archaeologists.
Effective: Summer 2011 Ending: Summer 2011

HIST 499D (IL) (RL ST 499D, CAMS 499D, ANTH 499D) Israel Dig: Excavation, Conservation, and Public Archaeology (6) Entails excavation, conservation, and public archaeology involved with the preservation and interpretation of Israel's archaeological sites.
Effective: Summer 2011 Ending: Summer 2011

HIST 499E (IL) (CAMS 499E, ANTH 499E) Study Tour of Jordan: Petra, the Spice Route, Roman Palestine (3) Entails an in-depth seminar with a focus on the archaeology and history of Roman Palestine.
Effective: Summer 2011 Ending: Summer 2011
Prerequisite: 3 credits in the appropriate introductory history course for the geographic location specified

Last Import from UCM: June 16, 2011 3:00 AM
Homeland Security (HLS)

HLS 410 (PHP 410) Public Health Preparedness for Disaster and Terrorist Emergencies I (3) Analyzes the history of terrorism and explores the preparation and response to specific terrorist threats, natural disasters, and conventional catastrophes.
Effective: Spring 2011
Prerequisite: Undergraduate Students BIOL 011 and BIOL 012 or CHEM 110 and CHEM 111 or MICRB 106 and MICRB 107; Graduate Students - Enrollment in the MHS program the Post-Baccalaureate Credit Certificate in Homeland Security or permission from the instructor.

Last Import from UCM: June 16, 2011 3:00 AM
Honors (HONOR)

HONOR 201 Developing Critical Thinking for Leadership (1) Discussions on various topics using critical thinking skills to make informed leadership decisions. Effective: Summer 2010 Prerequisite: member of the Presidential Leadership Academy

HONOR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2009

HONOR 301H The Role of Knowledge in Society (3) Honors interdisciplinary study of topics utilizing contributions from science/engineering, business, public policy, behavioral sciences/education, and the humanities. Effective: Fall 2010 Prerequisite: admission to an honors program belonging to the Penn State Honors Consortium

HONOR 401H Honors Seminar (3-6 per semester/maximum of 6) In-depth honors-level exploration of a topic or theme that crosses disciplinary boundaries; may be repeated for credit. Effective: Fall 2010 Prerequisite: admission to an honors program belonging to the Penn State Honors Consortium

HONOR 493H Honors Service Learning (1-3) A supervised honors experience doing service for campus or community welfare and analyzing related issues. Effective: Fall 2010 Prerequisite: admission to an honors program belonging to the Penn State Honors Consortium

HONOR 494M Interdisciplinary Writing and Thesis Formulation (2) Seminar to help students with interdisciplinary analysis, writing, and formulation of honors projects and proposals. Effective: Fall 2010 Prerequisite: admission to an honors program belonging to the Penn State Honors Consortium

HONOR 495H Research Studies (1) A capstone seminar for honors students working on honors theses and projects to work together and learn about their research interests. Effective: Fall 2010 Prerequisite: HONOR 301H and enrollment in an honors program belonging to the Penn State Honors Consortium

HONOR 496H Honors Thesis (3) Research, creative activities, and writing necessary for pursuit and completion of an interdisciplinary honors thesis. Effective: Fall 2010 Prerequisite: HONOR 301H senior standing and enrollment in an honors program belonging to the Penn State Honors Consortium

Last Import from UCM: June 16, 2011 3:00 AM
Horticulture (HORT)

HORT 101 (GN) Horticultural Science (3) Introduction to horticulture with emphasis on plant domestication, morphology, classification, world food crops, commodities, gardens, propagation, and agrochemicals. Effective: Spring 2002

HORT 120 Computer Applications for Landscape Contracting (2) Emphasis is placed on the use of commercial software used for landscape planning and estimating. Limited to Landscape Contracting majors only. Effective: Summer 1991

HORT 131 Herbaceous Perennial and Annual Identification (3) Herbaceous and annual plant identification; landscape use of herbaceous perennials and greenhouse and garden annuals. Effective: Spring 2008 Prerequisite: BIOL 127, BIOL 110 or HORT 101

HORT 137 Ornamental Plant Materials (3) Identification and description under fall conditions; discussion of cultural and aesthetic aspects of trees of value in ornamental planting. Effective: Fall 2003

HORT 138 Ornamental Plant Materials (3) Identification and description under spring conditions; discussion of cultural and aesthetic aspects of shrubs of value in ornamental plantings. Effective: Fall 2003

HORT 150 (GN) Plants in the Human Context (3) An introduction to the many fascinating and vital relationships between plants and human society. Effective: Summer 2007

HORT 201 Applied Arboriculture (2) Overview of methods used to diagnose problems and provide for the long term care of large trees. Effective: Spring 2004 Prerequisite: Students must be physically capable of safely handling a running chainsaw and pulling their weight up a rope.

HORT 202 Plant Propagation (3) Principles and practices of asexual and sexual plant propagation. Effective: Spring 2001 Prerequisite: BIOL 027, BIOL 110 or HORT 101

HORT 220 CAD Applications in Landscape Contracting (3) Application of computer-aided design software including AutoCAD and LANDCADD to landscape contracting. Effective: Summer 1998 Prerequisite: HORT 120

HORT 232 Horticultural Systematics (3) Fundamentals of horticultural crop plant classification and systematics. Examples chosen from fruits and vegetables, exclusive of subtropical and tropical fruit. Effective: Spring 2001 Prerequisite: HORT 101

HORT 238 (TURF 238) Turf and Ornamental Weed Control (3) Students will be introduced to the development of integrated weed management strategies utilizing a variety of cultural and chemical methods. Effective: Summer 2007 Prerequisite: CHEM 110

HORT 250 Landscape Contracting Design/Build Principles (3) Introduction to the processes and principles of residential landscape site development, from initial client contact to implementation. Effective: Summer 1998

HORT 269 Residential Landscape Planning (3) Principles and techniques in landscape design; preparation of plans of small properties. Effective: Spring 2001 Prerequisite: Landscape Contracting majors in the Design/Build Option

HORT 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2000

HORT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1986
HORT 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HORT 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HORT 301 (FOR 301) Principles of Arboriculture (3) Overview of the concepts and methods prescribed for the evaluation and care of large trees in urban settings.
Effective: Spring 2004
Prerequisite: BIOL 110 and SOILS 101

HORT 315 Environmental Effects on Horticultural Crops (3) Horticultural plants respond to the environmental factors of light, temperature, water, and fertilizer both in controlled and field environments.
Effective: Spring 1993
Prerequisite: HORT 101, HORT 202

HORT 352 Flower Arranging (2) Floral design beginning with elements and principles of design. Flower arranging techniques as well as different styles of flower arrangements.
Effective: Spring 2001

HORT 368 Landscape Planting Design (4) Basic planting design employing the use of indigenous and ornamental plants as design elements in the man-made environment. Intended for Landscape Contracting majors only.
Effective: Spring 2001
Prerequisite: HORT 269

HORT 390 Junior Seminar (1) Current issues in horticulture and agriculture.
Effective: Spring 1993
Prerequisite: FIFTH-SEMESTER STANDING

HORT 402W Plant Nutrition (3) Mineral nutrition of higher plants, including nutrient acquisition, transport, metabolism, and practical implications.
Effective: Spring 2003
Prerequisite: HORT 315 or BIOL 441, SOILS 101

HORT 407 Plant Breeding (3) The scientific principles and techniques of utilizing genetic variability in improving the heredity of plants for specific purposes.
Effective: Spring 2003

HORT 408 Landscape Plant Establishment and Maintenance (4) The principles and practices involved in the establishment of plants in the landscape, and their subsequent maintenance.
Effective: Summer 1998
Prerequisite: HORT 137 or HORT 138; SOILS 101

HORT 409 Landscape Plant Establishment and Maintenance Laboratory (1) Students will actively participate in the practices involved in the establishment of plants in the landscape, and their subsequent maintenance.
Effective: Summer 1998
Prerequisite: HORT 408

HORT 410W Issues in Landscape Contracting (3) This will be a survey of business management, regulatory, and environmental issues facing the landscape contracting profession. Laboratory.
Effective: Summer 1998
Prerequisite: HORT 408

HORT 412W Post-Harvest Physiology (3) Harvesting, handling, storage, and transportation of horticultural crops; primary emphasis on physiological response to pre- and post-harvest environmental factors.
Effective: Spring 2001
Prerequisite: 6 credits in horticulture or other plant sciences

HORT 420 Plant Growth Regulators (3) Plant growth regulators, their chemical and physical properties; general principles, practices, and applications in regulating plant growth and development.
Effective: Spring 2001
Prerequisite: BIOL 110 or HORT 101

HORT 431 Small Fruit Culture (3) Cultural requirements and production practices of the principal small fruit crops: strawberries, grapes, blueberries, brambles, and cranberries.
Effective: Spring 2001
Prerequisite: HORT 101, HORT 315

HORT 432 Deciduous Tree Fruits (3) Science, art, and techniques of regulated cropping; orchard designs and management systems.
Effective: Spring 2001
Prerequisite: HORT 101, HORT 315

HORT 433 Vegetable Crops (3) Cultural requirements of important vegetable crops in conjunction with physiological processes and problems related to commercial production.
Effective: Spring 2001
Prerequisite: HORT 101, HORT 315

HORT 440W **Plant Water Relations** (3) Fundamentals of plant water relations including acquisition, transport, conservation, response to drought, measurement of water status, relationship to productivity, interaction with mineral nutrition, and use of equipment. Effective: Spring 2003
Prerequisite: BIOL 441 or BIOL 446 or permission of department

HORT 445 **Plant Ecology** (3) Advanced lectures on plant ecology which stress integration of physiological, population-level and community-level phenomena, and ecology in agriculture. Effective: Fall 1999
Prerequisite: BIOL 220W, FOR 308 or HORT 315

HORT 450 **Greenhouse Management** (3) Maintenance and manipulation of the greenhouse production systems including structures, covers, light, temperature, carbon dioxide, water, growing media, fertilizer and greenhouse cost accounting. Effective: Spring 2001
Prerequisite: HORT 101, HORT 315

HORT 453 **Flower Crop Production and Management** (3) Production of greenhouse flower and foliage plants; development of management skills for a greenhouse business. Effective: Spring 2001
Prerequisite: HORT 101, HORT 315

HORT 455 **Retail Horticulture Business Management** (3) The nature, operation, and management of retail horticulture business, emphasizing retail greenhouses, nurseries, and flower shops. Effective: Spring 2001
Prerequisite: HORT 131, HORT 137 or HORT 138 ; 3 credits of marketing

HORT 457 **Interior Plantscaping** (3) Foliage identification, environmental factors affecting plants, concepts of interior plant design, installation and maintenance. Effective: Summer 2004
Prerequisite: HORT 101; HORT 202 or HORT 250 or HORT 269

HORT 459 (BIOTC 459, BIOL 459) **Plant Tissue Culture and Biotechnology** (3) Principles and techniques for the in vitro culture, propagation, and genetic manipulations of plant cells. Effective: Fall 2003
Prerequisite: BIOL 230W ; or BM B 251, BM B 252

HORT 464 **Landscape Construction I** (4) Standards, processes, and computations for site grading, drainage, earthwork, vehicular circulation, parking; detailing, and finishing of landscape construction materials. Effective: Spring 2001
Prerequisite: HORT 269

HORT 466 **Landscape Construction II** (5) Project scheduling methods, plant installation techniques, and field layout principles and practices. Implications of site preparation. Effective: Summer 1988
Prerequisite: HORT 464

HORT 468 **Landscape Estimating and Bidding** (2) Reading and interpreting contract drawings and specifications, quantity take-offs, cost estimating, and bid document preparation. Effective: Spring 2001
Prerequisite: HORT 409 or HORT 466

HORT 490 **Senior Seminar** (1) Exploration of the interrelationships of horticulture, science, and society; evaluation of attributes and abilities related to various career opportunities. Effective: Spring 1993
Prerequisite: HORT 390 seventh-semester standing

HORT 495 **Internship** (1-13) Supervised off campus experience in a public or commercial horticultural enterprise. Written and oral critique of activity required. Effective: Fall 1983
Prerequisite: approval of proposed assignment required prior to registration

HORT 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

HORT 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

HORT 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

HORT 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005
Hotel, Restaurant, and Institutional Management (HRIM)

HRIM 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2007

HRIM 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2007

HRIM 201 Introduction to Management in the Hospitality Industry (3) Introduction to the hospitality industry and hospitality management. Effective: Fall 2003
Concurrent: HRIM 202

HRIM 202 Colloquium in Hospitality Management (1 per semester, maximum of 4) Major industry and professional speakers lecture on current issues followed by discussion with students and faculty. Effective: Spring 2004

HRIM 204 Hotel and Restaurant Marketing and Merchandising (3) Merchandising and marketing as a system concerned with motivating consumers to purchase hospitality products and services. This course will not meet the prescribed requirements for the HRIM major in any option. Effective: Spring 2004

HRIM 228 Hospitality Food Safety (1) Application of HACCP, U.S. Food Code, biosecurity and other federal regulations to hospitality foodservice operations. Students attain certification in foodservice sanitation. Effective: Spring 2010

HRIM 250 (D S M 250) Principles of Quantity Food Production (3) Principles and methods of quantity food production including preparation techniques, quality control and evaluation, and cost control. Effective: Fall 2007

HRIM 260 Hospitality Supervision Seminar (3) Hospitality management topics are discussed with a major emphasis on operations management. This course will not meet the prescribed requirements for the HR&IM major in any option. Effective: Fall 2009
Prerequisite: HRIM 201

HRIM 270 Hospitality Administration Seminar (4) Components of food service systems are identified and studied as separate problems and as a total system. This course will not meet the prescribed requirements for the HRIM major in any option. Effective: Fall 2009
Prerequisite: HRIM 250, HRIM 260; or MGMT 341

HRIM 271 Introduction to Hospitality Technology (2) Introduction to hospitality technology including computer applications, software, and hospitality information systems and applications. Effective: Fall 2006
Prerequisite: prerequisite or concurrent HRIM 201, CMPSC 203

HRIM 295W Analysis of Field Experience I (3) Capstone class integrating content from throughout the previous curriculum, including directed written analysis of the 500-hour hospitality working experience. Effective: Spring 2008
Prerequisite: HRIM 201, HRIM 204, HRIM 250, HRIM 335 and HRIM 380

HRIM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2004

HRIM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2004

HRIM 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2007

HRIM 304 Institutional Food Service Management (3) Institutional food service management systems in the hospitality field. Effective: Fall 2010
Prerequisite: a grade of "C" or better required for HRIM 201

HRIM 305 Restaurant Management (3) Restaurant food service management systems in the hospitality field; analysis
HRIM 310 Hotel, Restaurant, and Institutional Purchasing and Cost Control (3) Purchasing and cost control principles for hotel, restaurant, and institutional operations.
Effective: Fall 2010
Prerequisite: NUTR 119 a grade of "C" or better required for HRIM 201, HRIM 335

HRIM 311 Wine Appreciation (2) A study of identification of varieties of wine, methods and techniques of viniculture, development of wine lists and wine marketing.
Effective: Summer 2008
Prerequisite: Students must be 21 years of age or older to register for this course.

HRIM 318 Club Management and Operations (2) Principles and practices of club organizations and management.
Effective: Fall 2010
Prerequisite: a grade of "C" or better required for HRIM 201

HRIM 319 Hospitality Facilities Management (3) Fundamental principles of facilities planning, facilities management, and maintenance for all segments of the hospitality industry.
Effective: Fall 2010
Prerequisite: a grade of "C" or better required for HRIM 201

HRIM 329 Introduction to Food Production and Service (3) Principles of quality food production and service stressing the integration of sanitation, menu planning, cost control, and service.
Effective: Summer 2006 Ending: Summer 2011

HRIM 329 Introduction to Food Production and Service (3) Principles of quality food production and service stressing the integration of menu planning, recipes, cost control, and service.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: Prerequisite or concurrent: HRIM 228

HRIM 330 Food Production and Service Management (2) Food service management laboratory stressing the integration of purchasing, menu planning, and costing in quantity production of quality food.
Effective: Spring 2007 Ending: Summer 2011
Prerequisite: A grade of "C" or better required for HRIM 329; NUTR 119 or NUTR 120

HRIM 330 Food Production and Service Management (2) Food service management laboratory stressing the integration of purchasing, menu planning, and costing in quantity production of quality food.
Effective: Fall 2011 Future: Fall 2011
Prerequisite: A grade of "C" or better required for HRIM 228 and HRIM 329; and a "C" or better in NUTR 119 or NUTR 120

HRIM 335 Hospitality Financial Accounting (3) Basic accounting concepts and practices applicable to hospitality organizations.
Effective: Fall 2010
Prerequisite: A grade of "C" or better required for MATH 021. Prerequisite or concurrent: HRIM 201

HRIM 336 Hospitality Managerial Accounting (3) Collection, processing, and interpretation of accounting data for managerial planning, control, and evaluation in hospitality organizations.
Effective: Fall 2010
Prerequisite: a grade of "C" or better in HRIM 335 or ACCT 211 and a grade of "C" or better in CMPSC 203

Effective: Spring 2007
Prerequisite: A grade of "C" or better required for CMPSC 203, STAT 200. Prerequisite or concurrent: HRIM 201, HRIM 202

HRIM 355 Legal Aspects of the Hospitality Industry (3) Specialized applications of law to the hospitality industry.
Effective: Spring 2009
Prerequisite: or concurrent: HRIM 201

HRIM 365 (IL) Organizational Behavior in the Hospitality Industry (3) Study of individual satisfaction and performance in hospitality organizations. Topics include cultural diversity, motivation, communication, group behavior, and leadership.
Effective: Fall 2010
Prerequisite: HRIM 201 Concurrent: HRIM 201

HRIM 380 Hotel Management (3) Introduction to rooms management including front office, housekeeping, security, and engineering. Emphasizes operations, coordination, and communication within and between departments.
Effective: Spring 2007
Prerequisite: A grade of "C" or better required for HRIM 201

HRIM 385 Management Principles in Dietetic Services (3) Application and integration of management principles and leadership skills in dietetic services.
Effective: Summer 2004
Prerequisite: HRIM 330, NUTR 380

HRIM 386 Introduction to the Gaming and Casino Industry (3) Students will learn about those traits of the casino industry which distinguish it from other segments of the hospitality industry.
Effective: Summer 2010
Prerequisite: Prerequisite or concurrent: HRIM 201
HRIM 387 Casino Controls (3) This course is an overview of controls used in casinos including an exploration of complimentary goods (comps) and services and credit.  
Effective: Summer 2010  
Prerequisite: "C" or better in HRIM 201, HRIM 335 and HRIM 386 Concurrent: HRIM 388

HRIM 388 Gaming Operations Management (3) Students will learn casino mathematics, game protection, floor layout methods, departmental organizational structure, and performance analysis.  
Effective: Summer 2010  
Prerequisite: "C" or better in STAT 200, HRIM 201 and HRIM 386 Concurrent: HRIM 387

HRIM 395W Practicum Analysis (3) Written analysis comparing and contrasting conceptual issues in the hospitality industry.  
Effective: Spring 2004  
Prerequisite: HRIM 201 1000 hours of adviser-approved professional hospitality experience

HRIM 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Spring 2004

HRIM 397A Spanish for Hospitality II (3) Intermediate applications of the Spanish language, grammar, vocabulary, and concepts specific to the hospitality industry. Emphasis on verbal communication.  

HRIM 397B Hotel Operations Practicum (3) Students gain practical experience in front desk, housekeeping, and maintenance at the Nittany Lion Inn/Penn Stater.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual of group instruction.  
Effective: Fall 2007

HRIM 411 Beverage Management and Wine Selection (3) Management issues in beverage service and products. Students taste wines, brews, and distilled spirits.  
Effective: Spring 2004  
Prerequisite: students must be at least 21 years old

HRIM 413 New Product Development for Commercial Foodservice (3) This course introduces students to a new product development process that requires coordination, communication, and integration throughout the organization.  
Effective: Spring 2010  
Prerequisite: a grade of "C" or better for HRIM 329

HRIM 415 International Cuisine (3) Cooking and eating practices of cultures around the world, including historical, religious, cultural, geographic, and political influences on each cuisine.  
Effective: Spring 2007  
Prerequisite: A grade of "C" or better required for HRIM 201, NUTR 100, NUTR 119

HRIM 430 Advanced Food Production and Service Management (3) Simulation and application of technical, conceptual, interpersonal skills. Emphasis on group dynamics; improvement in managerial skills; management team functions.  
Effective: Spring 2007  
Prerequisite: A grade of "C" or better required for HRIM 330

HRIM 435 Financial Management in Hospitality Operations (3) Fiscal techniques in the development, management, and control of hospitality establishments.  
Effective: Spring 2011  
Prerequisite: A grade of "C" or better required for ECON 102 or ECON 014 and HRIM 336. Prerequisite or concurrent: HRIM 350

HRIM 437 Hospitality Project Evaluation and Funding (3) Current techniques for project evaluation in the hospitality industry; trends in hospitality project funding.  
Effective: Spring 2004  
Prerequisite: HRIM 435

HRIM 438 Cases in Financial Analysis (3) Financial analysis and decision making is examined through a series of hospitality-oriented cases.  
Effective: Spring 2004  
Prerequisite: HRIM 435

HRIM 442 Hospitality Marketing (3) Marketing management in the hospitality industry, including analyzing the market through market research and developing a marketing plan.  
Effective: Fall 2010  
Prerequisite: A grade of "C" or better required for HRIM 201, MKTG 221
HRIM 443 Sales Planning and Advertising for Hospitality Operations (3) Elements of sales management, advertising, promotion, and public relations as applied to hospitality organizations. Effective: Fall 2010
Prerequisite: a grade of "C" or better for HRIM 442

HRIM 456 Casino Operations Management (3) Historical and current perspective of the gaming industry. Management principles of casino operations, including coordination with traditional hospitality services. Effective: Spring 2004

HRIM 466 (US) Human Resource Management in the Hospitality Industry (3) Recruitment, selection, training, performance appraisal, and compensation of hospitality human resources in today's culturally diverse work force. Effective: Fall 2010
Prerequisite: A grade of "C" or better required for HRIM 201, HRIM 365

HRIM 467 Management of Hotel and Restaurant Employee Relations (3) Survey and analysis of managerial strategies for employee relations in hospitality operations. Effective: Fall 2010
Prerequisite: a grade of "C" or better for HRIM 466

Prerequisite: A grade of "C" or better required for HRIM 350

HRIM 471 Evaluation of Hospitality Technology (3) This course provides students with an understanding of the variety of information technologies used in the hospitality industry. Effective: Spring 2007
Prerequisite: A grade of "C" or better required for HRIM 350, HRIM 470

HRIM 480 Advanced Hotel Management (3) Advanced hotel operations, internal control systems, and service philosophy. Integrates management, departmental operations, law, technology applications, marketing and managerial accounting. Effective: Spring 2007
Prerequisite: A grade of "C" or better required for HRIM 336, HRIM 380

HRIM 482 Hospitality Real Estate (3) The course focuses on commercial real estate concepts related to the hospitality industry. Effective: Fall 2010
Prerequisite: A grade of "C" or better required for HRIM 336, HRIM 380

HRIM 483 Revenue Management (3) Students learn how to effectively implement revenue management strategies and techniques in the hospitality industry. Effective: Spring 2011
Prerequisite: a grade of C or better in HRIM 350

HRIM 486 Casino Marketing (3) Students will learn marketing techniques for casinos which take into account the external environment, individual consumer choices, and ethical considerations. Effective: Summer 2010
Prerequisite: "C" or better in MKTG 221, HRIM 387, HRIM 388 and HRIM 495  Concurrent: HRIM 487

HRIM 487 Casino Operations and Societal Impact of Gaming (3) Students will learn the structure, culture, and ethical responsibility toward disordered gambling and other lifestyle issues of modern casinos. Effective: Summer 2010
Prerequisite: "C" or better in HRIM 387, HRIM 388 and HRIM 495  Concurrent: HRIM 486

HRIM 490W Strategic Hospitality Management (3) This capstone writing-intensive class integrates content from throughout the previous curriculum, focusing on strategic application to current industry issues. Effective: Fall 2010
Prerequisite: a grade of "C" or better for HRIM 365, HRIM 435, HRIM 442

HRIM 492 Advanced Professional Seminar in Hotel, Restaurant and Institutional Management (1) Course prepares senior HR&IM students to assume leadership positions in the hospitality industry (Focus on careers, leadership, ethics, lifelong learning). Effective: Spring 2004
Prerequisite: 1000 hours of work experience in the hotel restaurant and institutional management industry  Concurrent: HRIM 430 HRIM 466 HRIM 490

HRIM 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2004
Prerequisite: prior approval of proposed assignment by instructor

HRIM 495A Hotel Internships-PS Hospitality Services Internship (3) Students will participate in a supervised internship with Penn State Hospitality Services. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: prior approval of proposed assignment by instructor

Prerequisite: prior approval of proposed assignment by instructor
HRIM 495B Executive Internship-NLI (3) Students will participate in a supervised internship with the Nittany Lion Inn. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011 Prerequisite: prior approval of proposed assignment by instructor

HRIM 495G Supervisory Internship (6) Students will participate in a supervised internship with an approved site location. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011 Prerequisite: prior approval of proposed assignment by instructor

HRIM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2004

HRIM 497A Meeting and Events I (3) Students will learn concepts and applications to Event & Meeting Planning. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 497B Special Topics in Hotel Management (3) Students, through research and on-line activities, will discuss special or current interest in the hotel industry. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 497C Advanced Issues in Managing Continuing Care Retirement Communities (3) This course encompasses information on hospitality services designed to meet and exceed the expectations of mature consumers residing in CCRCs. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
HRIM 497D Managing Continuing Care Retirement Communities (3) Managing Continuing Care Retirement Communities.

HRIM 497E Business Ethics and Corporate Social Responsibility (3) Examines the role of ethics and corporate social responsibility in hospitality including the concepts of management, sustainability, and leadership.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 497F Entrepreneurship in the Hospitality Industry (3) This course will explore the characteristics of the successful entrepreneur and the process of starting a new business venture.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 497I Special Topics in Restaurant Management (3) Students learn about special or current issues in the restaurant and foodservice industry through library research, on-line activities, class presentations.

HRIM 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

HRIM 498A International Hospitality Management (2-3) International hospitality management, organization, practices and structures, cultural influences, and managing in an international environment. Includes international trip during spring break.

HRIM 498B Strategic International Human Capital Management (3) This capstone writing-intensive class integrates content from throughout the previous curriculum, focusing on international Human Capital applications.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HRIM 498C Spanish for Hospitality International (1-4) This course is designed to expose students to international hospitality management, organization, practices, and structures in a Caribbean setting.
Effective: Summer 2011 Ending: Summer 2011

HRIM 498D International Hospitality Management/Puerto Rico (3) This course is designed to expose students to international hospitality management, organization, practices, and structures in a Caribbean setting.
Effective: Summer 2011 Ending: Summer 2011

HRIM 498F International Food Service Management and Cuisine (3) This course is designed to cover major European cuisines and oenology in a European setting.
Effective: Summer 2011 Ending: Summer 2011

HRIM 498G French Cuisine and Culture (3) Program will include intensive classes on language and culture, products, cuisine, wine, and also design and atmosphere.
Effective: Summer 2011 Ending: Summer 2011

HRIM 498I International Hospitality Management/Europe (3) This course is designed to expose students to international hospitality management, organization, practices, and structures in a European setting.
Effective: Summer 2011 Ending: Summer 2011

HRIM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2007

Last Import from UCM: June 16, 2011 3:00 AM
Human Development and Family Studies (HD FS)

HD FS 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 129 (GS) Introduction to Human Development and Family Studies (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Student may take only one course for General Education credits from HD FS 129 GS or SOC 030 GS. Effective: Fall 2004

HD FS 129H (GS) Introduction to Human Development and Family Studies (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 129S (GS) Introduction to Human Development and Family Studies (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Effective: Summer 2006

HD FS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 216 Personal and Interpersonal Skills (2) Conceptions of lifespan personal and interpersonal skill enhancement.
Effective: Summer 1990

HD FS 218 Foundations of Marriage (3) Factors influencing the husband/wife relationship across the life course.
Effective: Summer 1990

HD FS 229 (GS) Infant and Child Development (3) Theory, research, and methods of social/behavioral/biological sciences related to developmental processes and intervention during infancy and childhood.
Effective: Fall 2004

HD FS 230 Overview of Curricular Practices in Early Childhood Care and Education (3) Curricular practices in programs for infants, toddlers and preschoolers. Focus on developmentally appropriate practice, emergent curriculum and home/child care links.
Effective: Summer 2004
Prerequisite: HD FS 229

HD FS 231 Guidance in Early Childhood Care and Education (3) Positive guidance methods for infants, toddlers and preschoolers, leading to self-control and social capability. Includes focus on home/childcare links.
Effective: Summer 2004
Prerequisite: HD FS 229

HD FS 232 Creativity and Play in Early Childhood Care and Education (3) Planning for play, creativity and exploration in programs for infants, toddlers and preschoolers. Includes focus on home/childcare links.
Effective: Summer 2004
Prerequisite: HD FS 229

HD FS 233 Emergent Language and Literacy: Development and Practice in Early Childhood Care and Education (3) Fostering development of language and literacy in infants, toddlers and preschoolers. Includes children's literature and focus on home/childcare links.
Effective: Summer 2004
Prerequisite: HD FS 229

HD FS 234 Mathematics and Science Reasoning: Development and Practice in Early Childhood Care and Education (3) Fostering development of mathematical reasoning and scientific inquiry in infants, toddlers and preschoolers. Includes project approach and focus on home/childcare links.
Effective: Summer 2004
Prerequisite: HD FS 229
HD FS 239 (GS) **Adolescent Development** (3) Social, behavioral, and biological development and intervention throughout adolescence.  
Effective: Spring 2002

HD FS 249 (GS) **Adult Development and Aging** (3) Physiological, psychological, and social development and intervention from young adulthood through old age.  
Effective: Spring 2003

HD FS 250 (US) (WMNST 250) **Sexual Identity over the Life Span** (3) Concepts of affectional and sexual orientation over life span, with emphasis on lesbian and gay male personal, family, and community adaptation.  
Effective: Summer 2005  
Prerequisite: 3 credits in HD FS or 3 credits in social or behavioral sciences

HD FS 287W (GS;US) **Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.  
Effective: Summer 2005

HD FS 287X (GS;US) **Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.  
Effective: Summer 2005

HD FS 287Y (GS;US) **Intercultural Community-Building** (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.  
Effective: Summer 2005

HD FS 296 **Independent Studies** (1-12) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.  
Effective: Summer 1990

HD FS 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Summer 1990

HD FS 297A **Foundations of Post-Secondary Transition** (1) Course designed for high school students who plan on transitioning to post-secondary training after high school.  
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Fall 1992

Effective: Spring 1996  
Prerequisite: HD FS 129 or permission of human development and family studies honors adviser

HD FS 301 **Values and Ethics in Health and Human Development Professions** (3) Examines bases for choices among values in personal and professional relations in human development processes and supporting services.  
Effective: Summer 1998

HD FS 302A **Leadership and Technology Skills for Human Services Professionals A** (3) Development of skills essential for contemporary human services professionals, including critical thinking, problem solving, electronic communications, and information handling.  
Effective: Spring 2001  
Prerequisite: HD FS 129

HD FS 302B **Leadership and Technology Skills for Human Services Professionals B** (3) Application and enhancement of leadership and technology skills in team settings; emphasis on active and collaborative problem-solving.  
Effective: Summer 1997  
Prerequisite: HD FS 302A

HD FS 310M **Seminar in Honors--Research Methods** (3) Overview of research and methods issues tailored around development of honors thesis proposals.  
Effective: Spring 1998  
Prerequisite: permission of Human Development and Family Studies honors adviser

HD FS 311 **Human Development and Family Studies Interventions** (3) Survey of individual and family formal and informal intervention efforts; historical and current perspectives and approaches.  
Effective: Spring 1996  
Prerequisite: HD FS 129
HD FS 312W Empirical Inquiry in Human Development (3) Introduction to the skills involved in critical thinking in general and the methods of empirical inquiry in particular. Open to HD FS majors only.
Effective: Spring 2001
Prerequisite: a grade of C or better required in EDPSY 101 or STAT 200

HD FS 315 (US) Family Development (3) Family functions over the life course; family from a multidisciplinary perspective, emphasizing adaptation and change.
Effective: Summer 2005
Prerequisite: HD FS 129 ; 3 credits of social behavioral or human biological sciences

HD FS 315Y (US) Family Development (3) Family functions over the life course; family from a multidisciplinary perspective, emphasizing adaptation and change.
Effective: Summer 2005
Prerequisite: HD FS 129 ; 3 credits of social behavioral or human biological sciences

HD FS 330 Observation or Experience with Children, Youth, and Families (1-6) Directed observations of, or supervised experience with children, youth, and families in group or home settings.
Effective: Spring 2007
Prerequisite: HD FS 229 or PSYCH 212

HD FS 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1998
Prerequisite: prior approval of proposed assignment by instructor

HD FS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 397A Juvenile Justice in Global Perspective (3) Students will think critically and be able to identify and evaluate contemporarily inconsistencies and contradictions in Juvenile Justice System in America by comparing current reform tendencies in Juvenile Justice Systems all around the Globe.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 397B Juvenile Justice in Global Perspective (3) Students will think critically and be able to identify and evaluate contemporarily inconsistencies and contradictions in juvenile justice systems in America by comparing current reform tendencies in Juvenile Justice Systems all around the globe.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 401 Project Planning, Implementation, and Evaluation in the Human Services (3) Exercises and activities related to the design, planning, implementation and management, and evaluation of projects and programs in the human services.
Effective: Fall 2006
Prerequisite: HD FS 312W ; approval by internship coordinator. Prerequisite or concurrent: HD FS 411

HD FS 402 Human Services Seminar (4) Presentations and discussion of contemporary human issues by students and visiting professionals.
Effective: Summer 1997
Prerequisite: HD FS 401

HD FS 405 (US) Gender and Social Development (3) A review of gender-related patterns of social development over the lifespan, as influenced by biological, sociological, and psychological factors.
Effective: Spring 2006
Prerequisite: HD FS 129, HD FS 312W ; or 6 credits in social sciences

HD FS 410 Communities and Families (3) Family and community interaction, emphasizing strategies for intervention to solve family-community problems.
Effective: Spring 1996
Prerequisite: HD FS 312W ; 3 credits of social/behavioral sciences

HD FS 411 The Helping Relationship (3) Theory and research related to interpersonal conditions which facilitate personal growth; intensive interpersonal competency training.
Effective: Spring 1996
Prerequisite: HD FS 311; HD FS 312W ; or 6 credits in Human Development and Family Studies or psychology

HD FS 412 Adult-Child Relationships (3) Theories, research, and application of adult behavior for maximizing adult-child relationships and optimizing child socialization and self-development.
Effective: Spring 2007
Prerequisite: HD FS 229 or PSYCH 212; HD FS 311; HD FS 315 or HD FS 315W; HD FS 312W

HD FS 413 Developmental Problems in Adulthood (3) Analysis of individual developmental problems from young adulthood through old age and their prevention and modification.
HD FS 414 Resolving Human Development and Family Problems (3) Strategies for, and roles of professional specialists in, the solution of problems in human development and family functioning.

Effective: Spring 1996
Prerequisite: HD FS 312W; 6 credits in Human Development and Family Studies or psychology

HD FS 415 Program Development in Family Relationships (3) Methods for planning, developing, and evaluating human service programs for families across the life span.

Effective: Spring 2001
Prerequisite: HD FS 311; HD FS 312W; HD FS 315 or HD FS 315W

HD FS 416 (US) Racial and Ethnic Diversity and the American Family (3) This course will explore the nature and determinants of racial and ethnic variation in family processes in the United States.

Effective: Spring 2005
Prerequisite: 3 credits in sociology

HD FS 417 (US; IL) Biocultural Studies of Family Organization (3) Study of variability in family organization with an emphasis on cultural and economic factors influencing household organization and family roles.

Effective: Spring 2006
Prerequisite: HD FS 129; HD FS 312W; HD FS 315 or HD FS 315W; or 6 credits in sociology or anthropology

HD FS 418 Family Relationships (3) Dynamics of family interaction; effects of parenthood, sibling and intergeneration relationships on family solidarity.

Effective: Spring 2001
Prerequisite: HD FS 312W; HD FS 315 or HD FS 315W

HD FS 420 Laboratory in Individual and Family Enhancement (3) Supervised practice in methods of assessment, intervention, and evaluation to enhance individual and family development.

Effective: Spring 1996
Prerequisite: HD FS 312W; HD FS 411; 6 additional credits in Human Development and Family Studies

HD FS 424 (US) Family Development in an Economic Context (3) Economic conditions influencing family functioning; familial effects on the economy; strategies to enhance work-family relations.

Effective: Spring 2006
Prerequisite: HD FS 312W; HD FS 315 or HD FS 315W

HD FS 425 (US) Work as a Context for Human Development (3) Theory and research on role of work in adult development; interrelationships between work and family; workplace interventions to enhance development.

Effective: Spring 2006
Prerequisite: HD FS 312W; 3 credits in social and behavioral sciences

HD FS 427 (KINES 427) Developmental Sport & Exercise Psychology (3) Developmental changes in the antecedents and consequences of physical activity across the lifespan.

Effective: Spring 2008
Prerequisite: PSYCH 100 and KINES 321 or HD FS 129 or PSYCH 212

HD FS 428 Infant Development (3) Conceptual analysis, assessment, and empirical investigation of normal and deviant development, prenatal through first two years of life.

Effective: Spring 2007
Prerequisite: HD FS 229 or PSYCH 212; HD FS 312W

HD FS 429 Advanced Child Development (3) Processes of development during childhood from birth to adolescence. Emphasis upon theory, method, and empirical research.

Effective: Spring 2007
Prerequisite: HD FS 229 or PSYCH 212; HD FS 312W

HD FS 430 Experience in Preschool Groups (6) Guided practicum experience in planning and facilitating developmentally appropriate activities for young children.

Effective: Spring 2007
Prerequisite: HD FS 229 or PSYCH 212; HD FS 312W; HD FS 330

HD FS 431 (SOC 431) Family Disorganization: Stress Points in the Contemporary Family (3) Focuses on divorce, remarriage, incest, family violence as well as problems associated with family formation and parent-child relations.

Effective: Spring 1996
Prerequisite: HD FS 312W; 6 credits of Human Development and Family Studies psychology sociology

HD FS 432 Developmental Problems in Childhood and Adolescence (3) Analysis of problems in individual development from infancy through adolescence; prevention and modification of developmental difficulties.

Effective: Spring 2007
Prerequisite: HD FS 229; HD FS 239 or PSYCH 212; HD FS 312W

HD FS 433 Developmental Transition to Adulthood (3) Conceptual analysis and empirical investigation of interrelationships between developmental processes during the period of pubertal growth.

Effective: Spring 1996
Prerequisite: HD FS 239; HD FS 312W

HD FS 434 (SOC 435) Perspectives on Aging (3) An analysis of the demographic, social, and cultural factors affecting the aged population in American society.

Effective: Fall 2007
Prerequisite: HD FS 312W; 6 credits in sociology

HD FS 440 (SOC 440) **Family Policy** (3) An in-depth examination of family policy. Effective: Spring 2007
Prerequisite: 3 credits of SOC or HD FS

HD FS 445 (PSYCH 416) **Development Throughout Adulthood** (3) Processes of development and change of behavior from early adulthood through old age, emphasizing theory, method, and empirical research. Effective: Spring 2007
Prerequisite: HD FS 249 or PSYCH 100; HD FS 312W or PSYCH 301W; PSYCH 200, STAT 200 or 3 credits of statistics; 6 credits in HD FS PSYCH or SOC.

HD FS 446 **Programs and Services in Gerontology** (3) Theoretical and historical views of the conceptualization and delivery of programs and services to older persons within a multidisciplinary developmental framework. Effective: Spring 1996
Prerequisite: HD FS 249 or HD FS 445; HD FS 312W

HD FS 447 **Issues in Gerontology** (3) Analysis of major issues in adulthood and aging, with an emphasis on integration of theory and research. Effective: Spring 1996
Prerequisite: HD FS 249 or HD FS 445; HD FS 312W

Prerequisite: HD FS 229 or PSYCH 212; HD FS 312W

HD FS 453 **Family Participation and Involvement in Child Services** (3) Current and historical perspectives of roles and functions of family members in designing, delivering, and evaluating of child service programs. Effective: Spring 2001
Prerequisite: HD FS 229; HD FS 312W; HD FS 315 or HD FS 315W

HD FS 454 (E C E 454) **Development and Administration of Child Service Programs** (3) Planning, administering, and evaluating child service programs at several administrative levels using methods from relevant disciplines. Effective: Spring 1996
Prerequisite: HD FS 312W; HD FS 453; C I 295 or HD FS 330

HD FS 455 **Development and Administration of Human Services Programs** (3) Fundamentals of program development and administration of human service programs in community settings; emphasis given to program content, strategies, and the overall planning process. Effective: Fall 2009
Prerequisite: HD FS 311

HD FS 468 **Biological Bases of Behavioral Development** (3) Biological, genetic, and experiential influences in development through the lifespan. Effective: Spring 2007
Prerequisite: HD FS 129 or PSYCH 100; HD FS 312W; 3 credits in human biology

HD FS 469U (IL) **Family Change in the Global Economy** (3) Exploration of how family life, quality, and structures in each region of the world are affected by the new global economy. Effective: Fall 2005
Prerequisite: HD FS 315 or SOC 030

HD FS 477 **Analysis of Family Problems** (3) Analysis of families' behavioral, managerial, interpersonal, and financial problems and their interrelationships. Effective: Spring 2001
Prerequisite: HD FS 312W; HD FS 315 or HD FS 315W; 3 credits in social sciences

HD FS 490 **Introduction to Internship Experience** (2) Planning and preparation for field experience in human service setting. Analysis of human service system and arrangement of site. Effective: Spring 1996
Prerequisite: HD FS 312W; approval by internship coordinator. Prerequisite or concurrent: HD FS 411

HD FS 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2000

HD FS 494A **Research Practicum** (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 2011 Ending: Summer 2011

HD FS 494A **Research Practicum** (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 494B **Research Paper** (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 2011 Ending: Summer 2011

The Pennsylvania State University
HD FS 494B Research Paper (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 494H Senior Honors Thesis (1-6) Independent study under the direction of the thesis advisor of topics related to the interests of the student, culminating in presentation of a thesis. Effective: Summer 1997 Prerequisite: approval of honors thesis advisor

HD FS 495A Internship: Advanced Experience (9) Full-time, one semester experiential training in human service settings. Open to HD FS majors only. Effective: Fall 2006 Prerequisite: HD FS 490 ; permission of internship coordinator

HD FS 495B Internship: Advanced Project (3) Implementation of internship projects or scholarly paper. Open to HD FS majors only. Effective: Fall 2006 Prerequisite: or concurrent: HD FS 495A

HD FS 495C Professional Practicum in Human Services (3-8) Guided professional practicum in human services, usually in the form of a project related to a human services issue. Effective: Summer 1997 Prerequisite: HD FS 401 or HD FS 490

HD FS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1990

HD FS 496B Infant Temperament (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 496D Project Siesta (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 2011 Ending: Summer 2011

HD FS 496D Project SIESTA (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1990

HD FS 497A Child Maltreatment (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 497B Parenting (3) Course will focus on the determinants of parenting in the diverse cultures within the US. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 497C Peer and Consultation (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011 Ending: Summer 2011

HD FS 497C Peer and Consultation (1-3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 497H Professional Development (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

HD FS 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992
HD FS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual of group instruction. Effective: Fall 2007

HD FS 499A (IL) Early Childhood In Italy (3) Courses offered in foreign countries by individual of group instruction. Effective: Summer 2011 Ending: Summer 2011

HD FS 499B (IL) Historical Roots of the Modern Italian Family (3) Courses offered in foreign countries by individual of group instruction. Effective: Summer 2011 Ending: Summer 2011

HD FS 499C (IL) Italian Relationships: Both Cultural and Familial (3) Courses offered in foreign countries by individual of group instruction. Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Humanities and Social Sciences (H&SS)

H&SS 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1989

H&SS 296B **Undergraduate Teaching Assistant** (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&SS 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1989

H&SS 297A **Peer Mentoring** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&SS 297B **Internship, Job and Graduate School Search** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

H&SS 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1989

H&SS 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1989
Industrial Engineering (I E)

I E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1998

I E 100S Discover Industrial Engineering: First-Year Seminar (1) Informational First-year on Industrial Engineering as a career choice and profession; lab exercises; guest speakers; real world problems. Effective: Fall 1999

I E 101S Build Your Own Robot--First-Year Seminar (1) The objective of this first-year seminar course is to provide students hands-on experience with robotics and automation devices. Effective: Summer 2000

I E 102S Human-Centered Engineering--First-Year Seminar (1) This First-year seminar considers what makes products and processes usable by people, through both design principles and student projects. Effective: Summer 2000

I E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

I E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1997

I E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

I E 302 Engineering Economy (3) Principles and methods for analyzing the economic feasibility of technical alternatives leading to a decision or recommendation. Effective: Fall 1992
Prerequisite: MATH 141

I E 302H Engineering Economy (3) Principles and methods for analyzing the economic feasibility of technical alternatives leading to a decision or recommendation. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: MATH 141

Prerequisite: Prerequisite or concurrent: MATSE 259

Prerequisite: I E 305, I E 322

I E 307 Rapid Prototyping Processes (3) The study and application of rapid prototyping technologies in design and manufacturing. Effective: Summer 2009
Prerequisite: I E 305

I E 310 Principles of Deformation Processing (3) Discussion, laboratory practices, and laboratory experiments covering principles of metal removal and forming, nonmetallic processing, and metrology. Effective: Spring 2008
Prerequisite: I E 305

I E 311 Principles of Solidification Processing (3) Discussion, laboratory practices, and laboratory experiments covering principles of metal casting and joining, nondestructive testing, and nonmetallic processing. Effective: Spring 2009
Prerequisite: I E 305

I E 312 Product Design and Manufacturing Processes (3) Theory and principles of manufacturing; effect on design selection and product quality; processes include material removal, casting, joining, plastic molding. Industrial engineering majors may not schedule this course.
I E 322 Probabilistic Models in Industrial Engineering (3) The study and application of probability theory in the solution of engineering problems.
Effective: Fall 2005
Prerequisite: I E 322

I E 322H Probabilistic Models in Industrial Engineering (3) The study and application of probability theory in the solution of engineering problems.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011
Prerequisite: MATH 141

I E 323 Statistical Methods in Industrial Engineering (3) The study and application of statistics in the solution of engineering problems.
Effective: Spring 2006
Prerequisite: I E 322

I E 327 Introduction to Work Design (3) Job analysis, cognitive and physical considerations in design of work, work measurement.
Effective: Fall 2008
Prerequisite: MATH 141, E MCH 011 or E MCH 210

I E 328 Production Engineering (3) Theory and principles for economic design of tooling for production, including process planning and numerical control of machine tools.
Effective: Spring 2001
Prerequisite: I E 310

I E 330 Information Technology for Industrial Engineering (3) The study and application of computing and information technology to industrial engineering.
Effective: Fall 2009
Prerequisite: MATH 141 and CMPSC 200, CMPSC 201 or CMPSC 202

I E 330L Information Technology for Industrial Engineering (3) The study and application of computing and information technology to industrial engineering.
Effective: Spring 2008
Prerequisite: MATH 141, CMPSC 201

I E 330P Information Technology for Industrial Engineering The study and application of computing and information technology to industrial engineering.
Effective: Spring 2008
Prerequisite: MATH 141, CMPSC 201

I E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

I E 399 (IL) Foreign Studies--Industrial Engineering (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

I E 402 Advanced Engineering Economy (3) Concepts and techniques of analyses useful in evaluating engineering projects under deterministic and uncertain conditions.
Effective: Summer 1995
Prerequisite: I E 302, I E 322, I E 405

I E 405 Linear Programming (3) An introduction to the theory and application of the simplex method in solving the linear programming and dual problem.
Effective: Spring 2001
Prerequisite: MATH 220

I E 408 Cognitive Work Design (3) Design and evaluation of cognitive work, including the human/computer interface, visual displays, software design, and automated system monitoring, with emphasis on human performance.
Effective: Spring 2006
Prerequisite: I E 327

I E 418 Human/Computer Interface Design (3) Design and evaluation of the human/computer interface, including human performance, visual displays, software design, and automated system monitoring.
Effective: Spring 2008
Prerequisite: I E 330

I E 419 Work Design - Productivity and Safety (3) Methods improvement, physical work design, productivity, work measurement; principles and practice of safety.
Effective: Spring 2006
Prerequisite: I E 327

I E 423 Quality Control and Reliability (3) Application of statistical methods to the control of quality, sampling inspection, and reliability engineering.
Effective: Summer 1995
Undergraduate Bulletin Archive – June, 2011

Prerequisite: I E 323

Prerequisite: I E 323, MATH 141, MATH 220

I E 425 Introduction to Operations Research  (3) An introduction to the method and techniques of mathematical decision making, including inventory, replacement, allocation, and waiting line problems. Effective: Spring 2006
Prerequisite: I E 322 Concurrent: I E 405

I E 428 Metal Casting  (3) Application of engineering principles to the design of castings; casting of ferrous and nonferrous alloys; laboratory and simulation projects. Effective: Summer 1995
Prerequisite: I E 311, I E 312 or METAL 408 W

I E 430 Industrial Project  (3) A project is carried out in conjunction with an industrial company and supplemented by tutorials. Effective: Fall 1992
Prerequisite: I E 302, I E 327, I E 328

I E 433 Regression Analysis and Design of Experiments  (3) Theory and Application of Regression Analysis and Design of Experiments to build models and optimize process and product parameters. Effective: Summer 2005
Prerequisite: I E 323

I E 434 Statistical Quality Control  (3) Statistical techniques for univariate and multivariate monitoring of independent and autocorrelated processes; foundations of quality control and improvement. Effective: Summer 2007
Prerequisite: I E 323

I E 436 Six Sigma Methodology  (3) Techniques for structured problem-solving to improve the quality and cost of products and processes. Effective: Spring 2010
Prerequisite: I E 323

Prerequisite: CMPSC 201 and I E 328

I E 453 Simulation Modeling for Decision Support  (3) Introduction of concepts of simulation modeling and analysis, with application to manufacturing and production systems. Effective: Fall 2009
Prerequisite: CMPSC 200, CMPSC 201 or CMPSC 202 and I E 323 and I E 425

I E 454 Applied Decision Analysis  (3) Theory and practice of decision analysis applied to engineering problems. Effective: Fall 1992
Prerequisite: I E 322

I E 455 Production Planning and Control  (3) Production planning/control methods from aggregate to detailed levels; includes underlying theories and principles and industrial applications. Effective: Spring 2001
Prerequisite: I E 322. Prerequisite or concurrent: I E 405

I E 456 (M E 456) Industrial Robot Applications  (3) Introduction to robotics, with emphasis on robot selection, programming, and economic justification for manufacturing applications. Effective: Spring 2011
Prerequisite: MATH 220; MATH 250 or MATH 251; I E 305 or M 360; CMPSC 200 or CMPSC 201

I E 460 Service Systems Engineering  (3) Use of quantitative models and methods for analysis, design and control of service systems. Effective: Spring 2011
Prerequisite: I E 322 and I E 405

I E 462 Introduction to Expert Systems  (3) Building expert systems in general; emphasis on knowledge representation and inference mechanisms in the manufacturing domain. Effective: Fall 2009
Prerequisite: CMPSC 200, CMPSC 201 or CMPSC 202 and I E 323

Prerequisite: Any IE Manufacturing Process elective

I E 464 Assembly of Printed Circuit Boards  (3) Manufacturing processes and principles for assembly of printed circuit boards with surface mount and through-hole technology. Effective: Spring 2008
Prerequisite: PHYS 212, I E 305

The Pennsylvania State University
I E 466 **Concurrent Engineering** (3) Concurrent engineering methods for product/process development, capturing customer requirements, insuring manufacturability and serviceability.
Effective: Summer 1996
Prerequisite: MATH 141, MATH 220

I E 467 **Facility Layout and Material Handling** (3) Analytical, simulation and computer-aided graphical methods to generate effective layout designs; design and integration of material handling systems and equipment. For Industrial Engineering majors.
Effective: Fall 2007
Prerequisite: I E 302, I E 327

I E 468 **Optimization Modeling and Methods** (3) Mathematical modeling of linear, integer, and nonlinear programming problems and computational methods for solving these classes of problems.
Effective: Fall 2001
Prerequisite: I E 405, MATH 231

I E 469 **Global Industrial Engineering Experience** (1) Students will learn how to prepare for a short term, professional exchange in a foreign nation. Students will then travel to a designated university within a foreign nation for the purpose of a five day cultural and professional exchange.
Effective: Summer 2009
Prerequisite: 5th semester standing or higher

I E 470 **Manufacturing System Design and Analysis** (3) Contemporary design and analysis methodologies used to organize systems for economic manufacture of products.
Effective: Summer 2005 Ending: Fall 2011
Prerequisite: I E 310, I E 311, I E 464 or an approved course in any manufacturing process

I E 477 **Computer Control of Manufacturing Machines and Processes** (3) Elements of computer control and discrete-time modeling. Design and analysis of digital controls for manufacturing machines and processes.
Effective: Fall 2009
Prerequisite: MATH 141, CMPSC 200, CMPSC 201 or CMPSC 202 and I E 305

I E 478 **Retail Services Engineering** (3) Introduction to retail services operations, process models, and application of information technologies to enhance productivity and profitability.
Effective: Spring 2010
Prerequisite: I E 330

I E 479 (EDSGN 479) **Human Centered Product Design and Innovation** (3) Consumer product design for a global market, incorporating human factors principles and user desires in a multicultural perspective.
Effective: Summer 2010
Prerequisite: I E 408 or I E 419 or equivalent

I E 480W **Capstone Design Project** (3) Industry-based senior capstone design project emphasizing manufacturing systems, service systems, and information systems in an interdisciplinary setting.
Effective: Spring 2009
Prerequisite: I E 302, I E 327, I E 323, I E 305, I E 330, I E 405

I E 494H **Senior Honors Thesis** (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Spring 2000

I E 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1992

I E 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

I E 497A **Data Envelopment Analysis** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

I E 497D **Micro/nano Fabrication** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

I E 499 (IL) **Foreign Studies--Industrial Engineering** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

The Pennsylvania State University
Industrial Engineering Technology (IET)

IET 101 Manufacturing Materials, Processes, and Laboratory (3) Mechanical properties of materials; primary processing methods used in manufacturing; ferrous and nonferrous metals; important plastic plus ceramic materials; dimensional verification and measurements; mechanical properties evaluation; laboratory methods; statistical interpretation of data. Effective: Fall 2007

IET 105 Economics of Industry (2) Internal economics of industrial enterprise, cost factors, and methods of comparing alternate proposals. Effective: Fall 2007

IET 109 Inspection and Quality Control (3) Inspection methods and procedures and their application to control and acceptance sampling based on statistical methods. Effective: Fall 2007
Prerequisite: MATH 082

IET 215 Production Design (2) The study of manufacturing processes for the purpose of part creation and/or part feature creation using both current and advanced technologies. Effective: Fall 2008
Prerequisite: IET 101 or MET 105

IET 216 Production Design Laboratory (2) Laboratory methods in production design including conventional and advanced manufacturing processes, computer applications, and automation/robotics. Effective: Fall 2008
Prerequisite: or concurrent: IET 215

IET 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Fall 2007

IET 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2007

IET 308 Statistical Quality Control (3) Fundamentals of probability and statistics, introduction to quality control fundamentals, control charts, acceptance sampling. Effective: Fall 2007

IET 311 Elements of Metallurgy (3) Introduction to metallurgical concepts, metallurgical testing, phase diagram studies, heat treating concepts, ferrous and nonferrous systems. Effective: Fall 2007
Prerequisite: CHEM 110, CHEM 111

IET 321 Manufacturing Processes (3) Manufacturing processes for producing metal, plastic, and ceramic items. Primary emphasis is placed on machine tool processes. Effective: Fall 2007

IET 333 Engineering Economics for Technologists (2) Fundamentals of engineering economics; equivalence and rate of return analysis; replacement models; depreciation and tax considerations; and economic decision making for technologists. Effective: Fall 2008
Prerequisite: MATH 022 and MATH 026 or MATH 040 or MATH 041

IET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

IET 402 Production Management (3) Principles and practices of managing the manufacturing operations of companies. Topics include management structure, physical plant, quality control, work sampling. Effective: Fall 2007
Prerequisite: IET 321

IET 405 Quality Control and Reliability Engineering (3) Application of statistical methods to the control of quality, sampling inspection, and reliability engineering. Effective: Fall 2007
Prerequisite: E T 313

IET 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2007
IET 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Fall 2007
Industrial Health and Safety (I H S)

I H S 400 **Safety Engineering** (3) An examination of the engineering aspects of the safety discipline and it’s management in the work environment.
Effective: Fall 2009
Prerequisite: CHEM 110, E MCH 210, MATH 141, PSYCH 100

I H S 420 **Fire Protection Engineering** (3) Overview of the behavior of fire, fire hazards, suppression systems, alarms and detection systems, and fire safe design and prevention.
Effective: Fall 2009 Ending: Spring 2012
Prerequisite: CHEM 110, CHEM 111, MATH 141, PHYS 212

I H S 440 **Ventilation for Contaminant Control** (3) Ventilation design and analysis for removal and control of industrial contaminants; measurement, isolation, dilution, and exhaust strategies; laboratory work included.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: MATH 141, PHYS 212, CHEM 110

I H S 447 **Industrial Hygiene Measurements** (4) Introduction to industrial hygiene measurement techniques for evaluating occupational exposure to chemical, physical, and biological hazards; laboratory work included.
Effective: Fall 2003 Ending: Spring 2012
Prerequisite: I H S 445

I H S 450 **Environmental Health and Safety** (3) Overview of toxicology, exposure assessment, industrial hygiene, environmental laws, and contemporary issues in environmental health and safety.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: CHEM 110

I H S 470 **Systems Engineering in Process Safety** (3) Quantitative methods of systems analysis, risk analysis and tolerance, as well as accident cost and cost-benefit analysis are covered.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: MATH 251

I H S 495W **Industrial Health and Safety Internship** (2) The preparation of a technical report on hazard assessment and control, resulting from experiential education gained at industrial worksites.
Effective: Fall 2009 Ending: Fall 2011
Prerequisite: junior or senior standing

I H S 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2002 Ending: Spring 2012

I H S 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2000 Ending: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Information Science (IN SC)

IN SC 431 Information Systems Architecture (3) Principles and priorities of enterprise system design, middleware and service-oriented architectures and web services.
Effective: Summer 2005

IN SC 463 Languages of the Web (3) Taxonomy of programming languages and frameworks used in the development of web-based information systems.
Effective: Summer 2005

IN SC 480 Software Development Lifecycle (3) Modern Software Development Techniques and Processes. Software Paradigms including OO and lifecycle modeling and improvement.
Effective: Summer 2005

IN SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Spring 1998

IN SC 497A Business Intelligence (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

IN SC 497B Fundamentals of Information Security (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Summer 2011 Ending: Summer 2011

Last Import from UCM: June 16, 2011 3:00 AM
Information Sciences And Technology (IST)

IST 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

IST 110 (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Summer 2005

IST 110H (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 110S (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 111 Seminar in IST (1) Introduction to academic requirements, career planning & information literacy for students majoring in College of IST.
Effective: Spring 2010

IST 111S Seminar in Information Sciences and Technology (1) Introduction to academic requirements, career planning, and information literacy for students majoring in the College of Information Sciences and Technology.
Effective: Spring 2001

IST 130 (GA) Emerging Technologies in Popular Culture (3) A survey course that explores emerging technologies used to produce and consume popular cultural artifacts.
Effective: Summer 2009

IST 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 210 Organization of Data (4) Introduction to concept of databases including the storage, manipulation, evaluation, and display of data and related issues.
Effective: Summer 2005
Prerequisite: IST 110

IST 211 Advanced Topics in Relational Database Management Systems (3) In depth coverage of: database administration, advanced Structures Query Language inquires, normalization, referential integrity; troubleshooting, tweaking; implementation dependent transactions, embedded SQL, Open Database Connectivity.
Effective: Summer 1999
Prerequisite: IST 210

IST 220 Networking and Telecommunications (3) Introduction to digital network topologies; transmission media, signal modulation, digital packet switching and routing, systems integration, communications management, and security.
Effective: Summer 1999
Prerequisite: IST 110

The Pennsylvania State University
IST 221 Introduction to Telecommunications Systems (3) Telephony, digital telecommunications, private telecommunication systems, transmission media, signaling, switching and networking, and amplitude modulation. Effective: Summer 1999
Prerequisite: IST 220

IST 222 Voice and Data Communications (3) Noise in communications systems, types of modulation, transmission codes, terminals, interfaces, and the telephone. Effective: Summer 1999
Prerequisite: IST 221

IST 223 Protocols and Networks (3) The telephone network, modems, protocols, network configurations, Internet and emerging technologies, error correction, fiber optics. Effective: Summer 1999
Prerequisite: IST 220

IST 225 PC Hardware Basics (3) Preparation for PC hardware support: Students learn data recovery and how to build, configure, upgrade, troubleshoot, diagnose, and repair PC's. Effective: Summer 1999
Prerequisite: IST 220

Prerequisite: IST 220

IST 227 Network Administration (3) Administering peer-to-peer and client/server networks: Planning, installation, server configuration, resource management, remote access, performance monitoring, and optimization. Effective: Summer 1999
Prerequisite: IST 226

IST 228 Advanced Network Administration (3) TCP/IP planning, installation, configuration: IP addressing, subnetting, routing, Dynamic Host Configuration Protocol (DHCP), Windows Internet Naming Service (WINS), address/name resolution, Domain Name System (DNS); database, web, mail server management. Effective: Summer 1999
Prerequisite: IST 226

IST 230 Language, Logic, and Discrete Mathematics (3) Introduction to formal languages, mathematical logic, and discrete mathematics, with applications to information sciences and technology. Effective: Spring 2004
Prerequisite: MATH 110 or MATH 140

IST 240 Introduction to Computer Languages (3) Introduction to the specification and application of languages and language paradigms that interact with computers. Effective: Spring 2002
Prerequisite: CMPSC 101 Concurrent: IST 230

IST 247 Contemporary Projects in Software Development (3) The analysis, design, coding, testing, and documentation of a software project using state-of-the-art languages/tools and concepts. Effective: Spring 2008
Prerequisite: CMPSC 302; IST 211 or IST 256

IST 250 New Media and the Web (3) Introduction to how the World Wide Web utilizes emerging technologies. Students acquire conceptual understanding of constructing Web sites. Effective: Summer 1999
Prerequisite: IST 110 or concurrent enrollment

Prerequisite: IST 250

IST 256 Programming for the Web (3) An introduction to fundamental Web programming concepts: Advanced Hypertext Markup Language (HTML), Dynamic Hypertext Markup Language (DHTML), extensible Markup Language (XML), Data Warehouses, JavaScript, common Gateway Interface (CGI), and Java. Effective: Summer 1999
Prerequisite: IST 250

IST 257 Advanced Web Administration (3) Web site server installation, access, management, security, performance monitoring and optimization, network services, and troubleshooting. Effective: Summer 1999
Prerequisite: IST 254

IST 260W Introduction to Systems Analysis and Design (3) Introduction to systems analysis and design, stressing the process of requirements acquisition, specification, design, and implementation. Effective: Spring 2010
Prerequisite: IST 110, IST 210, IST 220 and ENGL 015

IST 295A Distributed Team Project (1-3) Supervised experience in which student teams work on information system design projects gathered from industry or units within the University. Effective: Spring 2001
Prerequisite: IST 110

IST 295B IST Internship (1-3) Supervised work experience where the student is employed in an information sciences and technology position in industry, government, or academia.
Effective: Spring 2001
Prerequisite: IST 110

IST 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

IST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

IST 297A Technology in Classroom (3) Introduce students to basic professional skills needed to ensure a successful and smooth transition into the professional world.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 297A Technology in Classroom (1) Introduce students to basic professional skills needed to ensure a successful and smooth transition into the professional world.

IST 297B Supervised Experience in Instructional Support (1) Introduction to best practices in and supervision of instructional support activities such as coaching, team facilitation, grading, and learning assessment.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 297B Supervised Experience in Instructional Support (1) Introduction to best practices in and supervision of instructional support activities such as coaching, team facilitation, grading, and learning assessment.

IST 297C Gender and the Global Information Technology Sector (3) Integrates information technology and gender studies. Overview issues and socio-cultural shaping of gender in the IT field.

IST 297D Introduction to Application Programming (3) The focus of the course is on beginning programming principles as experienced in the context of object-oriented application development.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 297D Introduction to Application Programming (3) The focus of the course is on beginning programming principles as experienced in the context of object-oriented application development.

IST 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 301 Information and Organizations (3) Overview of organizational structures and functions. Includes information processing and analytic perspectives of organizations.
Effective: Summer 2003
Prerequisite: IST 210, IST 220

IST 302 IT Project Management (3) Exploration and application of the basic concepts, methodologies, and tools of project management in the field of information sciences and technology.
Effective: Summer 2003
Prerequisite: IST 210, IST 220

IST 311 Object-Oriented Design and Software Applications (3) Introduction to object-oriented applications including applications in an Object Oriented Design (OOD) language or OOD languages.
Effective: Spring 2008
Prerequisite: CMPSC 102 or CMPSC 101; IST 240

IST 331 Organization and Design of Information Systems: User and System Principles (3) Interdisciplinary survey of topics related to the use and usability of information systems.
Effective: Spring 2004
Prerequisite: IST 230

IST 341 (US;IL) Human Diversity in the Global Information Economy (3) Globalization, human diversity and their impacts on IT products, work, workforce, and the knowledge economy and social inclusion in general.
Effective: Fall 2010
Prerequisite: IST 110
IST 390 Introduction to Professional Development (1) Interdisciplinary course to introduce students to the issues, concepts and skills involved in successfully transitioning into professional life.
Effective: Summer 2005

IST 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 402 Emerging Issues and Technologies (3 per semester/maximum of 9) Introduction to emerging issues, technology forecasting and analysis; overview of emerging issues and leading technologies in IST and how they impact information systems, users, the IT labor force and society.
Effective: Fall 2006
Prerequisite: IST 210, IST 220

IST 402H Emerging Issues and Technologies (3 per semester/maximum of 9) Introduction to emerging issues, technology forecasting and analysis; overview of emerging issues and leading technologies in IST and how they impact information systems, users, the IT labor force and society.
Prerequisite: IST 210, IST 220

IST 411 Distributed-Object Computing (3) Introduction to distributed-object computing and its use in client/server and real-world computing applications.
Effective: Summer 1999
Prerequisite: IST 311

IST 412 The Engineering of Complex Software Systems (3) Introduction to the engineering of complex software systems including software system specification, design and implementation, integration and test, and evolution.
Effective: Summer 1999
Prerequisite: IST 311

IST 413 Usability Engineering (3) This course addresses activities in the system development process that ensure usability. It considers the emerging concept of usability, requirements gathering and analysis, activity design, information design, interaction design, documentation design, user testing and usability evaluation.
Effective: Spring 2007
Prerequisite: IST 331

IST 420 Fundamentals of Systems and Enterprise Integration (3) Introductory course on integration of information technology into different venues, including the planning, development, and implementation of the integration.
Effective: Summer 2003
Prerequisite: IST 240, IST 301, IST 302

IST 421 Advanced Enterprise Integration: Technologies and Applications (3) Advanced course on the integration of information technology into systems applications.
Effective: Spring 2004
Prerequisite: IST 420

IST 425 (ENGR 425, MGMT 425) New Venture Creation (3) Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and present to investors.
Effective: Spring 2011
Prerequisite: ECON 102 orECON 104 orECON 014;CAS 100

IST 426 (ENGR 426, MGMT 426) Invention Commercialization (3) Working with Penn State inventions selected by the Intellectual Property Office, student teams define an optimum commercialization path each technology.
Effective: Spring 2011
Prerequisite: ECON 102 orECON 104 orECON 014;CAS 100

IST 431 The Information Environment (3) Survey of social environment of information technology themes: Community, sovereignty, privacy, ethics, economics, and knowledge management.
Effective: Fall 2004
Prerequisite: IST 210, IST 220

IST 432 Legal and Regulatory Environment of Information Science and Technology (3) Legal environment of information technology, constitutional/political issues, intellectual property, management, e-commerce, privacy, access, computer contracting, cyberspace regulation.
Effective: Spring 2007
Prerequisite: IST 301 orSRA 231 or equivalent

IST 440W Information Sciences and Technology Integration and Problem Solving (3) Problem-based approach to technology integration by focusing on real-life problems faced by an organization.
Effective: Fall 2002
Prerequisite: ENGL 202C orENGL 202D seventh-semester standing (this course is intended for seniors) and the five common course requirements plus at least three of the required courses in an option
IST 441 Information Retrieval and Organization (3) Introductory course for seniors and graduate students covering the practices, issues, and theoretical foundations of organizing and analyzing information and information content for the purpose of providing access to textual and nontextual information resources. Introduces students to the principles of information storage and retrieval systems and databases.
Effective: Spring 2004
Prerequisite: IST 210, IST 240

IST 442 (IL) Information Technology in an International Context (3) International concepts to improve strategies for the design, dissemination, and use of information technology.
Effective: Summer 2006
Prerequisite: IST 110

IST 443 IT Professional Services Theory and Practice (3) Explores and applies the basic concepts, methodologies, tools, and techniques of consulting and professional service organizations in information sciences and technology.
Effective: Spring 2006
Prerequisite: IST 210, IST 220. Prerequisite or concurrent: IST 302 or IST 412

IST 444 Advanced IT Professional Services (3) Explores advanced IT professional services topics, and the unique application of consulting methods in various industry sectors.
Effective: Summer 2005
Prerequisite: IST 443

IST 445H Globalization Trends and World Issues (3) This course covers trends in globalization and their influence on U.S. policy making as well as the role of the U.S. in international issues.
Effective: Summer 2005
Prerequisite: 6 credits of honors course work

IST 446 An Introduction to Building Computer/Video Games (3) An interdisciplinary course that introduces students to process and techniques involved in developing a video or computer game.
Effective: Summer 2006
Prerequisite: IST 311, IST 331 or approval of program

Effective: Summer 2004 Ending: Fall 2011
Prerequisite: IST 220

Prerequisite: IST 220, SRA 221

IST 452 Legal and Regulatory Environment of Privacy and Security (3) Exploration of legal, regulatory, public policy, and ethical issues related to security and privacy for information technology professionals in public institutions, private enterprise, and IT services.
Effective: Spring 2007 Ending: Fall 2011
Prerequisite: IST 301 or SRA 231 or equivalent

IST 452 Legal and Regulatory Environment of Privacy and Security (3) Exploration of legal, regulatory, public policy, and ethical issues related to security and privacy for information technology professionals in public institutions, private enterprise, and IT services.
Prerequisite: IST 432

IST 453 Legal, Regulatory, Policy Environment of Cyber Forensics (3) Legal, regulatory and public policy environment of computer and network forensics that constrain investigatory and monitoring activities in computer and network environments.
Effective: Summer 2006
Prerequisite: IST 110 and 6th-semester standing or higher

IST 454 Computer and Cyber Forensics (3) Fundamental issues and concepts of computer forensics; aspects of computer and cyber crime; methods to uncover, protect, exploit, and document digital evidence; tools, techniques, and procedure to perform computer and cyber crime investigation.
Effective: Summer 2006 Ending: Fall 2011
Prerequisite: IST 220

IST 454 Computer and Cyber Forensics (3) Fundamental issues and concepts of computer forensics; aspects of computer and cyber crime; methods to uncover, protect, exploit, and document digital evidence; tools, techniques, and procedure to perform computer and cyber crime investigation.
Prerequisite: IST 220, SRA 221

IST 456 Security and Risk Management (3) Contemporary Security Issues; security management processes, architecture and models; risk analysis and management; security planning, analysis and safeguards; security policies development and administration; contingency planning, incidence handling and response; and security standards and certification processes.
Effective: Summer 2006 Ending: Fall 2011
Prerequisite: IST 220

IST 456 Security and Risk Management (3) Contemporary Security Issues; security management processes, architecture
and models; risk analysis and management; security planning, analysis and safeguards; security policies development and administration; contingency planning, incidence handling and response; and security standards and certification processes.

Prerequisite: IST 220, SRA 221

IST 461 Database Management and Administration (3) Introduces advanced topics in database management systems that are fundamental to effective administration of enterprise information systems.
Effective: Spring 2006
Prerequisite: IST 210, IST 240

IST 462 Database Modeling and Applications (3) This course introduces advanced topics in database modeling and applications.
Effective: Spring 2006
Prerequisite: IST 210, IST 240

IST 489H Research Methods for the Information Sciences and Technology (3) Seminar course focused on approaches to studying information and communication technologies and writing theses and other research reports.
Effective: Summer 2006
Prerequisite: IST 110 honors standing or permission of program

IST 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 1999
Prerequisite: prior approval of proposed assignment by instructor

IST 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

IST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

IST 497A Introduction to Enterprise Architecture (2) Provides a first exposure to Enterprise Architecture and sets a common language and understanding of EA and its business value.
Effective: Summer 2011 Ending: Summer 2011

IST 497A Introduction to Enterprise Architecture (2) Provides a first exposure to Enterprise Architecture and sets a common language and understanding of EA and its business value.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

IST 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

Last Import from UCM: June 16, 2011 3:00 AM
Instructional Systems (INSYS)

INSYS 100 (GS:IL) World Technologies and Learning (3) This course examines the impact of learning technologies from email to online learning on world cultures from a socio-technical perspective.
Effective: Spring 2006

INSYS 200 Technology as a Thinking Tool (3) Use of technologies for knowledge representation, critical thinking, planning, and learning.
Effective: Spring 1999

INSYS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

INSYS 297A Communication for Educators (3) Introduction to communication for educators, principles of pedagogical communication implemented through individual and group presentations including educational communication technologies.
Effective: Summer 2011 Ending: Summer 2011

INSYS 297B Gaming to Learn: Bring Back the Boys (3) This course is focused on learning games for elementary level literacy skills, with a particular focus on re-engaging boys in their own learning. Students will create a game for their final course project.
Effective: Summer 2011 Ending: Summer 2011

INSYS 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

INSYS 411 Orientation to Instructional Systems (2-3) An orientation to selection, utilization, and curricular integration of instructional media.
Effective: Summer 1996
Prerequisite: EDPSY 014

INSYS 415 Systematic Instructional Development (3) Preparation in the use of a nine-step model for systematically analyzing instructional problems and developing validated, practical solutions.
Effective: Summer 1996

INSYS 441 Design, Development, and Evaluation of Internet Resources (3) Design, production, and evaluation of instructional materials for delivery on the Internet.
Effective: Fall 2001

INSYS 442 Innovative Instructional Applications of Microcomputer Technology (3) Educators experience and develop innovative instructional applications of text-processing, database management, spreadsheet, and telecommunication software in their classrooms.
Effective: Fall 2008
Prerequisite: EDTEC 440

INSYS 447 Instructional Design for Multimedia Technologies (3) State of the art multimedia technology hardware such as interactive video, CD-ROM and digitizing audio and video.
Effective: Fall 2001

INSYS 471 Introduction to Educational System Design (3) Investigates systems theory and how components of educational systems interact; develops insights on current issues and models in Educational System Design.
Effective: Summer 1996

INSYS 472 Communication and Educational Systems Design (3) Develops communication and technology-based presentation skills in educational systems designers.
Effective: Spring 2001
Prerequisite: INSYS 471

INSYS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

INSYS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
INSYS 497A Literacy, Learning, and Creativity: Digital Storytelling with New Media (3) Participants will use an instructional design process various media tools to design, develop, present and assess digital stories.
Effective: Summer 2011 Ending: Summer 2011

INSYS 497B Playing Games in School (3) In this course, we'll explore and debate the merits of using video games and other interactive systems for educational purposes.
Effective: Summer 2011 Ending: Summer 2011

INSYS 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996
Insurance (INS)

INS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007 Ending: Fall 2011

INS 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983 Ending: Fall 2011

INS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983 Ending: Fall 2011

INS 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007 Ending: Fall 2011

INS 301 Risk and Insurance (3) Introduction to the principles and methods of handling business and personal risks; emphasis on insurance techniques.
Effective: Fall 1983 Ending: Fall 2011
Prerequisite: fourth-semester standing

INS 305 Property and Casualty Insurance (3) Insurance coverages available for protection of property; fire and allied lines, consequential losses, casualty coverages, fidelity and surety bonds.
Effective: Fall 1983 Ending: Fall 2011
Prerequisite: INS 301

INS 310W Property and Liability Insurance Market (3) Property and liability insurance industry and company operations.
Prerequisite: INS 301

INS 320 Life Insurance (3) Protection and savings features of the life insurance contract as they affect the individual; business uses of life insurance.
Effective: Fall 1983 Ending: Fall 2011
Prerequisite: INS 301

INS 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1999 Ending: Fall 2011
Prerequisite: prior approval of proposed assignment by instructor

INS 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007 Ending: Fall 2011

INS 401 Fundamentals of Private Pensions (3) Analysis of pension regulation, funding, vesting, retirement annuities under insured and self-insured plans, actuarial cost analysis, plan termination insurance.
Effective: Spring 2011 Ending: Fall 2011
Prerequisite: ACCTG 211; B A 301 orFIN 301; ECON 102; and SCM 200 or STAT 200

INS 405 Corporate Risk Management (3) Insurance management for corporate organizations; self-insurance, risk transfer, and other alternatives to insurance.
Effective: Spring 2011 Ending: Fall 2011
Prerequisite: B A 301, FIN 301 or INS 301

INS 410 Compound Interest and Annuities--Certain (3) Compound interest and annuity functions; equations of value; determination of yield rates; construction of tables.
Effective: Spring 2001 Ending: Fall 2011
Prerequisite: MATH 141

INS 411 Life Contingencies I (3) A study of the mathematical theory of life contingencies; single-life functions and their applications.
Effective: Fall 1989 Ending: Fall 2011
Prerequisite: INS 410; STAT 414 or MATH 414

INS 412 Life Contingencies II (3) Joint-life and survivor-life functions, population life tables, and multiple decrement theory, with applications to disability and retirement problems.
Effective: Summer 1984 Ending: Fall 2011
Prerequisite: INS 411

INS 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003 Ending: Fall 2011
INS 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2008 Ending: Fall 2011

INS 496 Independent Studies (1-18) Creative Projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983 Ending: Fall 2011

INS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983 Ending: Fall 2011

INS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007 Ending: Fall 2011

Last Import from UCM: June 16, 2011 3:00 AM
Integrative Arts (INART)

INART 001 (GA) The Arts (3) Develop critical perception, knowledge, and judgments through an examination of the basic concepts common among the arts.
Effective: Spring 2006

INART 003 (GA) Reception of the Arts (3) This course considers how art uses time, space, and causality to define culture and the human condition.
Effective: Spring 2004

INART 005 (GA) Performing Arts (3) Introduction to music, dance, and theatre. Orientation to the aesthetics, theory, and practice of professional performance.
Effective: Spring 2004

INART 010 (GA) The Popular Arts in America: Mass Media Arts (3) An introduction to the arts of the mass media with emphasis on how film, radio, television, and the print media influence and reflect society.
Effective: Spring 2004

INART 015 (GA) The Popular Arts in America: Performing Arts (3) The development of the performing arts of American popular culture; emphasis on popular music, dance, theatre, and variety arts.
Effective: Spring 2004

Effective: Summer 2004

INART 055 (GA) History of Electroacoustic Music (3) A history of electroacoustic music as a consequence of developments in culture and technology from 1880 to present.
Effective: Spring 2004

INART 062 (GA;US;IL) West African and African American Arts: from the 1960s to the present (3) An introduction to West African and African American Arts from the 1960s to the present.
Effective: Summer 2005

INART 100 (GA) Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

INART 100U (GA) Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

INART 100W (GA) Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

INART 110 (GA) The Dramatic Arts in the Mass Media (3) The place of television-radio-film drama in our culture; relationship with other art forms; standards of evaluation.
Effective: Spring 2004

INART 115 (GA) The Popular Arts in America: Popular Music (3) An examination of the roots, development, and significance of popular music in our culture.
Effective: Spring 2004 Ending: Summer 2011

INART 115 (GA;US) The Popular Arts in America: Popular Music (3) An examination of the roots, development, and significance of popular music in our culture.
Effective: Fall 2011 Future: Fall 2011

INART 116 (GA;US) The Popular Arts in America: The History of Rock and Roll-The 1950s (3) This course examines the roots, development, and significance of rock and roll music in its first decade.
Effective: Summer 2007

The Pennsylvania State University
INART 125 (GA;US;IL) The Popular Arts in America: The History of Rock and Roll - Punk Rock (3) An examination of the roots, development, and significance of punk rock in our culture. Effective: Spring 2011

INART 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2005

INART 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

INART 200 (GA) The Popular Arts in America: Elvis Presley - The King of Rock and Roll (3) The significance and influence of Elvis Presley as an artist and cultural force focusing on his recordings and major performances. Effective: Spring 2007

INART 205 (GA) Introducing the Beatles (3) The influence and achievement of the Beatles as artists focusing on their recordings and films as sociocultural artifacts. Effective: Summer 2008

INART 210 (GA) Integrative Approaches to Computer-Aided Music Composition (3) Interdisciplinary introduction to music composition using software to assist with notation; historical perspectives drawn from art, dance, theater, and literature. Effective: Fall 2004 Prerequisite: MUSIC 008 or instructor permission

INART 236 (GA) Integrating Music and Animation with Technology (3) An introduction to the theory, design and creation of musical animations. For general students. Effective: Summer 2011

INART 258A (GA) Fundamentals of Digital Audio (3) A thorough introduction to digital music production technologies, covering fundamentals of how digital musical information is stored, processed and transmitted. Effective: Spring 2011 Prerequisite: MUSIC 008 or concurrent enrollment in either MUSIC 131 or MUSIC 132

INART 258B (GA) Fundamentals of Digital Audio (1) A general overview of music technologies current to music educators and performers. Effective: Summer 2010 Concurrent: concurrent enrollment in either MUSIC 131 or MUSIC 132

INART 294 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 1996

INART 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1995 Prerequisite: prior approval of proposed assignment by instructor

INART 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1996

INART 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1996

INART 297A Ivyside Pride (3) Exploration and performance of choral music in a variety of genres. By audition only. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

INART 297B A Cultural History Through Stand-Up Comedy (3) This course is an unexpurgated exploration of American cultural history from mid-19th to mid-20th Centuries through the prism of the performance medium known as "stand-up comedy." Issues of special interest include ethnic stereotyping and freedom of speech. Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

INART 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1996

INART 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
INART 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

INART 410 **Early Pennsylvania Decorative Arts and Furniture** (3) The study of Pennsylvania and related furniture, pottery, paintings, and decorative arts of the seventeenth, eighteenth, and early nineteenth centuries.
Effective: Summer 2011

INART 415 **Nineteenth Century Pennsylvania Architecture and Restoration** (3) Interior and exterior design of early Pennsylvania architecture; understanding and evaluation of and experience in restoration.
Effective: Summer 2011
Prerequisite: INART 410

INART 494 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 1996

INART 494H **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

INART 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite: prior approval of proposed assignment by instructor

INART 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1996

INART 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1996

INART 497A **Ivyside Pride Advanced** (3) Exploration and performance of choral music in a variety of genres. By audition only.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

INART 497B (COMM 497B) **3D Computer-Generated Imagery** (3) Introduces core concepts in 3D CGI including modeling, animation, cameras, lighting and texturing with a focus on industry needs.
Effective: Fall 2011 Ending: Fall 2011 Future: Fall 2011

INART 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

INART 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 16, 2011 3:00 AM
Integrative Biosc (IBIOS)

IBIOS 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
