CRIMJ 421W **Violent Crime in the United States** (3) The impact of violent crime on victims, their families, and communities; the police process as it relates to violent crime.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 422 (CRIM 422) **Victimization** (3) Examines the history, how victimization is measured/studied in social sciences, public policy implications of victimization movement in U.S.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 423 (US) (WMNST 423, CRIM 423) **Sexual and Domestic Violence** (3) Legal, sociological, and psychological perspectives on sexual and domestic violence.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 424 (CRIM 424) **Drugs and Crime** (3) Analysis of international narcotics trafficking in the twentieth century.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 424W **Drugs and Crime** (3) Analysis of international narcotics trafficking in the twentieth century.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 425 (CRIM 425) **Organized Crime** (3) This course examines organized crime in terms of historical antecedents, structure, related theories, and policy issues.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 426 **Special Offender Types** (3-6) Study of special offender types; relationships with criminal justice system (drug abuse, victimless crime, white collar crime considered different semesters).  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 430 **Alternatives to Incarceration** (3) Control and treatment of offenders in the community, probation and parole organizations, diversion programs, innovative sentences, supervision techniques.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 431 **Offender and Prisoner Rights** (3) The identification of correctional problems and the setting of objectives as reflective of court rulings, legislative change, and administrative law.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 432 (CRIM 432) **Crime and the American Court System** (3) This course examines the American court system including structure and the way courts process offenders with special focus on sentencing.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 435 **Border Security** (3) This course provides knowledge about government organizations charged with American border security, guiding laws and policies.  
Effective: Summer 2011  
Prerequisite:  

CRIMJ 439 (PL SC 439) **The Politics of Terrorism** (3) Analysis of political terrorism as a violent alternative for peaceful change and traditional warfare in the nuclear age.  
Effective: Spring 2008  
Prerequisite:  

CRIMJ 441 (US) (CRIM 441) **The Juvenile Justice System** (3) Historical and contemporary view of the juvenile justice
system. Focus on analyzing components of the system, their interactions, processing, and handling of youths.
Effective: Spring 2008
Prerequisite:

CRIMJ 441W **The Juvenile Justice System** (3) Historical and contemporary view of the juvenile justice system. Focus on analyzing components of the system, their interactions, processing, and handling of youths.
Effective: Spring 2008
Prerequisite:

CRIMJ 450W **Senior Seminar** (3 per semester/maximum of 6) Capstone course exploring past, current and future developments in criminal justice.
Effective: Spring 2008
Prerequisite:

CRIMJ 451 (US) (CRIM 451) **Race, Crime, and Justice** (3) This course focuses on the significance of race, class, and ethnicity to criminal justice processing and criminal offending.
Effective: Spring 2008
Prerequisite:

CRIMJ 453 (US) (WMNST 453, CRIM 453) **Women and the Criminal Justice System** (3) This course focuses on the experiences of women as offenders, victims, and professionals in the criminal justice system.
Effective: Spring 2008
Prerequisite:

CRIMJ 450 **History and Function of Criminal Justice Components** (3) Historical development of criminal justice system components (police, courts, corrections) related to formulation and function of the state.
Effective: Spring 2008

CRIMJ 462 **Comparative Criminal Justice Systems** (3) A comparison of American and selected foreign justice systems to illustrate the variety of possible responses to crime.
Effective: Spring 2008
Prerequisite:

CRIMJ 465 **Ethics in Criminal Justice** (3) Ethical behavior in the criminal justice system.
Effective: Spring 2008
Prerequisite:

CRIMJ 467 (SOC 467, CRIM 467) **Law and Society** (3) Law and society studies the social origins of law and legal systems; occupational careers, and decision-making of legal officials.
Effective: Spring 2008
Prerequisite:

CRIMJ 469 (HIST 469) **Drugs and Drug Policy in the United States** (3) Examines the history and dimensions of drug use and analyzes the impact of drug policy.
Effective: Spring 2008
Prerequisite:

CRIMJ 471 (B LAW 471) **Legal Rights, Duties, Liabilities of Criminal Justice Personnel** (3) Civil law issues within a justice agency and between criminal justice agencies and members of the public.
Effective: Spring 2008
Prerequisite:

CRIMJ 473 (B LAW 473) **Criminal Procedure and Evidence in the Business Community** (3) Law of evidence and proof, constitutional constraints on police procedures (arrest, search, etc.) in society and the business community.
Effective: Spring 2008
Prerequisite:

CRIMJ 482 (CRIM 482) **Seminar, Criminal Justice Agency Administration** (3) Relates organizational and public policy management approaches to police, courts, and correctional institutions.
Effective: Spring 2008
Prerequisite:

CRIMJ 499W **Victimology: Predatory Crime** (3) This course uses medical, social scientific and legal research to study the complexities of predatory crime.
Effective: Spring 2004
Prerequisite:

CRIMJ 494 **Research Topics** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2002

CRIMJ 494H **Research Topics** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

CRIMJ 495 **Internship in Criminal Justice** (3-12) Experience with a criminal justice agency coordinated through readings and discussion.
Effective: Spring 2008

The Pennsylvania State University
Prerequisite:

CRIMJ 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1987

CRIMJ 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1987

CRIMJ 497A **Death Penalty** (3) A historical overview of US death penalty practices; pertinent court cases and contemporary issues will be examined.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

CRIMJ 499 (IL) **Foreign Studies** (6) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

Last Import from UCM: June 2, 2012 12:27 PM
# Criminology (CRIM)

CRIM 012 (GS) (CRIMJ 012, SOC 012) **Criminology** (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.  
Effective: Spring 2008

CRIM 012H (GS) (SOC 012H) **Criminology** (3) Explanations and measurements of crime; criminal law; characteristics of criminals and victims; violent property, white-collar, organized, and sexual crimes.  
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

CRIM 083S (CRIMJ 083S) **First-Year Seminar in Criminal Justice** (3) Critical approaches to issues in criminal justice and criminology.  
Effective: Spring 2008

CRIM 100 (GS) (CRIMJ 100) **Introduction to Criminal Justice** (3) Overview of the criminal justice system, including legal foundations, processing and correction of offenders, extent and types of crime, victims.  
Effective: Spring 2008

CRIM 113 (US) (CRIMJ 113) **Introduction to Law** (3) Introduction to law in society with a focus on criminal law, judicial code, laws of sentencing and corrections, criminal procedure.  
Effective: Spring 2008

CRIM 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Spring 2008

CRIM 250W (CRIMJ 250W) **Research Methods in Criminal Justice** (3) Fundamental concepts of social science research including design, measurement, sampling, and interpretation of the study of crime, law, and justice.  
Effective: Fall 2011  
Prerequisite:

CRIM 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.  
Effective: Spring 2008

CRIM 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.  
Effective: Spring 2008

CRIM 296A **Preceptorship in Criminology** (1-6) Supervised experience as a teaching assistant under the supervision of an approved faculty member.  
Effective: Summer 2011

CRIM 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Spring 2008

CRIM 312 **Introduction to Forensic Science in the Criminal Justice System** (3) This course introduces the student to the role in the criminal justice system and the legal context of forensic evidence.  
Effective: Spring 2008  
Prerequisite:

CRIM 395 **Internship in Criminal Justice** (1-9) Field experience focusing on the student's major interest within the area of criminal justice.  
Effective: Spring 2008  
Prerequisite:

CRIM 406 (CRIMJ 406, SOC 406) **Sociology of Deviance** (3) Theory and research concerning behaviors and lifestyles viewed as significant departures from a group's normative expectations.  
Effective: Spring 2008  
Prerequisite:

CRIM 407 (CRIMJ 407) **Victimology** (3) This course will explore the legal, emotional, and social responses to the process of victimization by offenders and third parties.  
Effective: Spring 2008

---

The Pennsylvania State University

Prerequisite:

CRIM 413 (CRIMJ 413, SOC 413) *Advanced Criminological Theory* (3) This course provides an in-depth look at theories of crime and examines influential empirical studies designed to these theories. Effective: Spring 2008

Prerequisite:

CRIM 414 (CRIMJ 414) *Criminal Careers and the Organization of Crime* (3) Research on and theory of criminal careers and crime organizations, emphasizing recruitment and disengagement; offender characteristics and lifestyles; policy implications. Effective: Spring 2008

Prerequisite:

CRIM 421 (CRIMJ 421) *Violent Crime* (3) Examines the nature and causes of violence. Several theoretical perspectives are reviewed including biological, psychological, social, and cultural. Effective: Spring 2008

Prerequisite:

CRIM 422 (CRIMJ 422) *Victimization* (3) Examines the history, how victimization is measured/studied in social sciences, public policy implications of victimization movement in U.S. Effective: Spring 2008

Prerequisite:

Prerequisite:

Prerequisite:

CRIM 425 (CRIMJ 425) *Organized Crime* (3) This course examines organized crime in terms of historical antecedents, structure, related theories, and policy issues. Effective: Spring 2008

Prerequisite:

CRIM 429 *Seminar in Criminal Behavior* (3-4 per semester/maximum of 7) This course explores the study of the application of criminological theories to our understanding of various forms of criminal behavior. Effective: Spring 2008

Prerequisite:

CRIM 430 *American Correctional System* (3) Study of corrections from probation, intermediate punishment, adult and juvenile correctional institutions to parole. Effective: Spring 2008

Prerequisite:

CRIM 432 (CRIMJ 432) *Crime and the American Court System* (3) This course examines the American court system including structure and the way courts process offenders with special focus on sentencing. Effective: Spring 2008

Prerequisite:

CRIM 433 *Sentencing* (3) This course studies sentencing from prosecutorial charging decisions through revocation of probation, and the complex goals and responsibilities at sentencing. Effective: Spring 2008

Prerequisite:

CRIM 435 *Policing in America* (3) This course will focus on current, historical, theoretical, and research issues surrounding law enforcement in the United States. Effective: Spring 2008

Prerequisite:

CRIM 441 (US) (CRIMJ 441) *Delinquency and Juvenile Justice* (3) Course examines delinquency and the juvenile justice system including delinquency's nature, causes, and prevention and the processing of juveniles. Effective: Spring 2008

Prerequisite:

CRIM 449 *Seminar in Criminal Justice* (3-4 per semester/maximum of 7) Examines criminal justice decision-making and operation such as the role of contemporary movements in law enforcement, the courts and corrections. Effective: Spring 2008

Prerequisite:

CRIM 451 (US) (CRIMJ 451) *Race, Crime, and Justice* (3) This course focuses on the significance of race, class, and ethnicity to criminal justice processing and criminal offending. Effective: Spring 2008

Prerequisite:

CRIM 453 (US) (CRIMJ 453, WMNST 453) *Women and the Criminal Justice System* (3) This course focuses on the
experiences of women as offenders, victims, and professionals in the criminal justice system.
Effective: Spring 2008
Prerequisite:
CRIM 467 (CRIMJ 467, SOC 467) Law and Society (3) Law and society studies the social origins of law and legal systems; occupational careers, and decision-making of legal officials.
Effective: Spring 2008
Prerequisite:
CRIM 469 Seminar in the Law (3-4 per semester/maximum of 7) The focus of this seminar is the law such as the laws of sentencing, appellate course decisions and their impact.
Effective: Spring 2008
Prerequisite:
CRIM 480H Research Topics in Crime, Law, and Justice (1) Students are exposed to a variety of research topics related to crime, law, and justice.
Effective: Spring 2008
Prerequisite:
CRIM 481H Information Literacy in Crime, Law, and Justice (1) Students are exposed to a variety of information sources related to crime, law, and justice.
Effective: Spring 2008
Prerequisite:
CRIM 482 (CRIMJ 482) Seminar, Criminal Justice Agency Administration (3) Relates organizational and public policy management approaches to police, courts, and correctional institutions.
Effective: Spring 2008
Prerequisite:
CRIM 490 Crime Policy (3) This course focuses on criminal justice policy and the factors that influence policy development and implementation.
Effective: Spring 2008
Prerequisite:
CRIM 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

CRIM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2008

CRIM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

CRIM 497A Communities and Crime (3) This course provides an overview of research and theory on the social ecology of crime and social control.
Effective: Summer 2012 Ending: Summer 2012

CRIM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

Last Import from UCM: June 2, 2012 12:27 PM
**Curriculum and Instruction (C I)**

C I 195 *Early Observation Experience for Teacher Preparation* (1-2 per semester/maximum of 2) Early observational work in educational settings with a variety of age/grade levels.
Effective: Summer 2010

C I 200 *Peer Tutoring* (1) Prepares students to develop successful practices as a peer tutor.
Effective: Summer 2007

C I 280 (GH) *Introduction to Teaching English to English Language Learners* (3) Introductory English language teaching, and pedagogical strategies with English Language Learners.
Effective: Fall 2010 Ending: Fall 2012
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 295 *Introductory Field Experience for Teacher Preparation* (1-3 per semester/maximum of 6) Selected observation of schooling situations with small group and tutorial participation.
Effective: Fall 1983
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 295A *Introductory Field Experience for Early Childhood Education* (1-3) Selected observations and individual and small group tutoring in early childhood, elementary school, and education related, community settings.
Effective: Fall 2009
Prerequisite: Concurrent: HD FS 229 or C I 280 or EDPSY 014 or EDTHP 115 or SPLED 400

C I 295B *Introductory Field Experience in Middle Level Education* (1-3) Selected observations and individual and small group tutoring in early childhood, elementary school, and education related, community settings.
Effective: Fall 2009
Prerequisite: Concurrent: C I 280 EDPSY 014 EDTHP 115 HD FS 229 or SPLED 400

C I 295D *Philadelphia Urban Seminar* (3) Selected observation of schooling situations with small group and tutorial participation.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

C I 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

C I 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C I 400 *Introduction to Research Literature* (3) Introduction to research literature and methodology; stress on interpretation, sources, and research reporting.
Effective: Fall 1981
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 405 (EDLDR 405) *Strategies in Classroom Management* (3) Managing and coping with disruptive student behavior in instructional settings so that they support the teaching/learning process.
Effective: Fall 2008
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 412W *Secondary Teaching* (3) Study of the teacher's responsibilities, steps in planning instruction, and various strategies for implementing and assessing teaching.
Effective: Spring 2007
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014

C I 494H *Research Techniques in Curriculum and Instruction* (1-3) Examination, application, assessment, and presentation of research modes and techniques in Curriculum and Instruction. Limited to University scholars in the College of Education.
Effective: Spring 1988
Prerequisite: Concurrent: EDTHP 115 and/or EDPSY 014
CI 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2001
Prerequisite:

CI 495A Clinical Application of Instruction--Early Childhood Education (3) Practicum situation for demonstration of selected instructional strategies and management skills acquired in professional training. To be offered only for Satisfactory/Unsatisfactory grading.
Effective: Spring 1997
Prerequisite: Concurrent: regular professional methods courses in area of certification.

CI 495B Clinical Application of Instruction--Elementary and Kindergarten Education (3) Practicum situation for demonstration of selected instructional strategies and management skills acquired in professional training. To be offered only for Satisfactory/Unsatisfactory grading.
Effective: Spring 1997
Prerequisite: Concurrent: MTHED 420 SCIED 458 SS ED 430W

CI 495C Clinical Application of Instruction--Secondary Education (3) Practicum situation for demonstration of selected instructional strategies and management skills acquired in professional training. To be offered only for Satisfactory/Unsatisfactory grading.
Effective: Spring 1997
Prerequisite: Concurrent: CI 442 and special methods course(s) in area of certification

CI 495D Practicum in Student Teaching--Elementary and Kindergarten Education (12) Full-time classroom instruction in early childhood and elementary education. Students supervised by University personnel and practicing teachers. No concurrent courses other than CI 495E permitted.
Effective: Spring 1997
Prerequisite:

Effective: Spring 1997
Prerequisite:

CI 495F Professional Development Practicum (3) Instruction concurrent with student teaching practicum. Students focus on the solution of instructional problems identified at the practicum site.
Effective: Spring 1997
Prerequisite: Concurrent: CI 495D

CI 495G Practicum in Student Teaching - Secondary Education (9) Full-time professional development internship in secondary English education. Students supervised by University personnel and practicing teachers.

CI 495K English as a Second Language Field Experiences (1) Field experiences provide students with guided exposure to learning situations and school settings related to English language learners.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

CI 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

CI 496A Teaching English to English Language Learners (3) Pedagogical strategies with English Language Learners.
Effective: Summer 2012 Ending: Summer 2012

CI 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

CI 497B Elementary Education Disciplinary Block (12) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

CI 497B CEAED Discipline Inquiry Block (12) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

CI 497E Teaching Reading and Writing to English Language Leaners (3) The course focuses on conceptually and pedagogically effective ways to teach reading and writing for English language learners in the US.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

CI 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

The Pennsylvania State University
Curriculum and Supervision (C & S)

C & S 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

C & S 470 Workshop in Selected Studies in Curriculum (1-6) Intensive work on selected current problems in curriculum.
Effective: Winter 1978
Prerequisite: C & S 497A

C & S 497A Classroom Instruction that Works (3) Designed for educators interested in learning about teaching strategies that, when used effectively, have a measurable difference in student achievement.
Effective: Summer 2012 Ending: Summer 2012

C & S 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Dance (DANCE)

DANCE 100 (GA;US;IL) Dance Appreciation (3) Explore dance as a vital, communicative and performing art, reflecting social values and cultural beliefs.
Effective: Fall 2007

DANCE 101 Dance and Rhythmic Fundamentals (1) Fundamental components of rhythm, dance movement, and technique.
Effective: Summer 1999

DANCE 230 (GA) Ballet (1.5 per semester/maximum of 6) An exploration of Ballet technique.
Effective: Summer 2012

DANCE 231 Beginning Ballet I (1.5) An introduction to the techniques of ballet.
Effective: Spring 2006
Prerequisite:
DANCE 232 Beginning Ballet II (1.5) A continuation of Beginning Ballet I to augment technical proficiency.
Effective: Spring 2006
Prerequisite:
DANCE 240 (GA) Jazz Dance (1.5 per semester/maximum of 6) An exploration of jazz dance technique throughout history.
Effective: Summer 2012

DANCE 241 Beginning Jazz I (1.5) An introduction to the techniques of Jazz dance.
Effective: Spring 2006
Prerequisite:
DANCE 242 Beginning Jazz II (1.5) A continuation of Beginning Jazz I to augment technical proficiency.
Effective: Spring 2006
Prerequisite:
DANCE 250 (GA) Tap Dance (1.5 per semester/maximum of 6) An exploration of tap dance technique throughout history.
Effective: Summer 2012

DANCE 251 Beginning Tap I (1.5) An introduction to the technique of tap dance.
Effective: Spring 2006
Prerequisite:
DANCE 252 Beginning Tap II (1.5) A continuation of Beginning Tap I to augment technical proficiency.
Effective: Spring 2006
Prerequisite:
DANCE 261 (GA) Beginning Modern Dance I (1.5) Introduction to modern dance as an art form; development of dance technique and composition; teaching methods for improvisational skills.
Effective: Spring 2006 Ending: Fall 2012

DANCE 261 (GA) Beginning Modern Dance I (1.5 per semester/maximum of 6) Introduction to modern dance as an art form; development of dance technique and composition; teaching methods for improvisational skills.
Effective: Spring 2013 Future: Spring 2013

DANCE 262 Beginning Modern Dance II (1.5) A continuation of Beginning Modern Dance I to augment technical proficiency and to further comprehension of choreographic methods.
Effective: Spring 2006
Prerequisite:
DANCE 270 (GHA) Introduction to Bartenieff Fundamentals (3) Physical and theoretical approach to movement: facilitates efficiency, and expression through dynamic alignment, mobility, kinesthetic awareness; reduce physical injuries.
Effective: Spring 2003

DANCE 271 (GH) From Africa to Hip Hop- The Evolution of African American Dance History (3) From Africa to Hip Hop- Evolution of African-American Dance History will explore the history of African related dance from its beginnings in West Africa through the contemporary expressions of Hip Hop.
Effective: Summer 2012

DANCE 280 Dance Improvisation (1) Introduction to the concepts and techniques of dance improvisation.
Effective: Spring 2001
Prerequisite:

DANCE 281 **Introduction to African Dance and Culture** (1) An introduction to African dance based in a holistic approach integrating music, movement, drama, costume, and vocalization.
Effective: Spring 1999

DANCE 282 **Mojah Fusion Dance** (1.5) Mojah introduces intermediate/advanced level dance students to a unique dance technique that blends Horton, Dunham, West African and jazz movements in one form.
Effective: Summer 2007 Ending: Fall 2012
Prerequisite:

DANCE 282 **Mojah Fusion Dance** (1.5 per semester/maximum of 3) Mojah introduces intermediate/advanced level dance students to a unique dance technique that blends Horton, Dunham, West African and jazz movements in one form.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 283 **Beginning Hip Hop Dance** (1) Beginning Hip Hop dance introduces the student to Hip Hop culture through dance, free expression with the body/freestyle and choreography.
Effective: Summer 2007

DANCE 285 **Contemporary Dance Performance** (1-2 per semester/maximum of 8) Contemporary Dance Performance is designed to introduce the beginning performer to the choreographic and rehearsal process as preparation for performance.
Effective: Summer 2012

DANCE 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1999

DANCE 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999

DANCE 297A **Advanced Contemporary Ballet** (1.5) Dance influenced by both classical ballet and modern dance. Focus on alignment, form, and choreography.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

DANCE 301 **Movement Analysis** (2) Introduce student to principles of practical and abstract movement analysis to determine individual physical limitations and potentials.
Effective: Spring 2001

DANCE 331 **Intermediate Ballet I** (1.5) A continuation of the course work established in Beginning Ballet II.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

DANCE 331 **Intermediate Ballet I** (1.5 per semester/maximum of 6) A continuation of the course work established in Beginning Ballet II.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 332 **Intermediate Ballet II** (1.5) A continuation of the course work established in Intermediate Ballet I.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

DANCE 332 **Intermediate Ballet II** (1.5 per semester/maximum of 6) A continuation of the course work established in Intermediate Ballet I.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 341 **Intermediate Jazz I** (1.5) A continuation of the course work established in DANCE 242, Beginning Jazz II.
Effective: Spring 2006
Prerequisite:

DANCE 342 **Intermediate Jazz II** (1.5) A continuation of the course work established in DANCE 341, Intermediate Jazz I.
Effective: Spring 2006
Prerequisite:

DANCE 361 **Intermediate Modern Dance I** (1.5) Development of techniques and principles of modern dance on the intermediate level.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

DANCE 361 (GA) **Intermediate Modern Dance I** (1.5 per semester/maximum of 6) Development of techniques and principles of modern dance on the intermediate level.

The Pennsylvania State University
DANCE 362 Intermediate Modern Dance II (1.5) A continuation of Modern Dance I to augment technical proficiency. 
Effective: Spring 2006 Ending: Fall 2012 
Prerequisite:

DANCE 362 (GA) Intermediate Modern Dance II (1.5 per semester/maximum of 6) A continuation of Modern Dance I to augment technical proficiency. 
Effective: Spring 2013 Future: Spring 2013 
Prerequisite:

DANCE 365 Contemporary Movement Lab I (3) An intermediate level modern dance technique utilizing improvisation to enhance technical and performance issues: alignment, connection, balance, transition, expression, discovery. 
Effective: Summer 2012 
Prerequisite:

DANCE 366 Contemporary Movement Lab II (3) An intermediate level modern dance technique utilizing composition to enhance technical and performance issues: alignment, connection, balance, transition, expression, discovery. 
Effective: Summer 2012 
Prerequisite:

DANCE 370 (GN) Anatomy for Performers (3) To provide performers with anatomical theory and concepts applicable to the disciplines of the performing arts. 
Effective: Summer 2012 
Prerequisite:

DANCE 371 Music Theatre Dance--Style I (1.5) A practical study of dance styles from the 1890’s to the 1990’s. 
Effective: Spring 2006 
Prerequisite:

DANCE 372 Music Theatre Dance--Style II (1.5) A continuation of course work established in Music Theatre Dance Style I. 
Effective: Spring 2006 
Prerequisite:

DANCE 380 Dance Programming (2) Theoretical and practical experiences in dance production and implementation of dance programs in various environments. 
Effective: Summer 1999 

DANCE 381 Dance Composition I (2) Introduction to the basic principles and craft of choreography. 
Effective: Spring 2006 

DANCE 383 Intermediate Mojah Fusion Dance (1.5 per semester/maximum of 9) Intermediate Mojah continues instruction for intermediate level dance students and builds on the technical training of Beginning Mojah 7. 
Effective: Summer 2012 
Prerequisite:

DANCE 385 Leadership Practicum: Dance (1) Supervised experiences in teaching and assisting with the teaching of dance techniques. 
Effective: Spring 2000 
Prerequisite:

DANCE 399 (IL) Dance Foreign Study (1-12) Courses offered in foreign countries by individual or group instruction. 
Effective: Summer 2011 

DANCE 431 Advanced Ballet I (1.5) An advanced ballet training course. 
Effective: Spring 2006 
Prerequisite:

DANCE 432 Advanced Ballet II (1.5) A continuation of Advanced Ballet I to augment technical proficiency. 
Effective: Spring 2006 
Prerequisite:

DANCE 441 Advanced Jazz I (1.5) An advanced course in the techniques of jazz dance. 
Effective: Spring 2006 
Prerequisite:

DANCE 442 Advanced Jazz II (1.5) A continuation of Advanced Jazz I to augment technical proficiency. 
Effective: Spring 2006 
Prerequisite:

DANCE 451 Advanced Tap I (1.5) An advanced course in the techniques of tap dance. 
Effective: Spring 2006 
Prerequisite:

DANCE 452 Advanced Tap II (1.5) A continuation of Advanced Tap I to augment technical proficiency. 
Effective: Spring 2006 
Prerequisite:
DANCE 461 **Advanced Modern Dance I** (1.5) Development of dance technique and movement combinations on the advanced level.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

DANCE 461 **Advanced Modern Dance I** (1.5 per semester/maximum of 9) Development of dance technique and movement combinations on the advanced level.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 462 **Advanced Modern Dance II** (1.5) A continuation of Advanced Modern Dance I to augment technical proficiency.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

DANCE 462 **Advanced Modern Dance II** (1.5 per semester/maximum of 9) A continuation of Advanced Modern Dance I to augment technical proficiency.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 466 **Contemporary Movement Lab III** (3 per semester/maximum of 6) An advanced exploration of modern dance techniques supported by the choreographic process.
Effective: Summer 2012
Prerequisite:

DANCE 480 **Choreographic Projects** (2) Choreographic practicum experiences for concert performances.
Effective: Spring 2006
Prerequisite:

DANCE 482 **Introduction to Laban Movement Analysis** (3) Observe and analyze movement elements by exploring concepts of Body, Effort, Shape, and Space to increase personal communication and expression.
Effective: Summer 1999

DANCE 484 (US;IL) **Dance History** (3) Survey of dance history concerning perspectives of culture, race, and gender with a focus on Nineteenth and Twentieth centuries.
Effective: Fall 2006

DANCE 485 **Contemporary Dance Repertory** (1-2) An advanced dance course in the choreographic process with emphasis on original choreography in performance.
Effective: Spring 2006 Ending: Fall 2012

DANCE 485 **Contemporary Dance Repertory** (1-2 per semester/maximum of 12) An advanced dance course in the choreographic process with emphasis on original choreography in performance.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

DANCE 487 **Advanced Hip Hop Dance** (1.5) Advanced Hip Hop Dance reinforces and expands concepts from Beginning Hip Hop Dance. Free expression of the body, freestyle, and choreography are emphasized.
Effective: Summer 2007
Prerequisite:

DANCE 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1999

DANCE 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999

Last Import from UCM: June 2, 2012 12:27 PM
Dickinson Scl Of Law (LAWUN)

LAWUN 381 Equal Rights (2) This course examines cases interpreting the Equal Protection guarantees of the Fifth and Fourteenth Amendments to the United States Constitution.
Effective: Summer 2003

LAWUN 382W Legal Writing (3) Intensive writing, editing, and oral advocacy course focusing on drafting legal memoranda and briefs.
Effective: Summer 2003

Last Import from UCM: June 2, 2012 12:27 PM
Dietetic Food Systems Management (D S M)

D S M 195 Field Experience in Community Dietetics (3) Planning, preparation, and field experiences in community dietetic programs.
Effective: Summer 2011
Prerequisite:

D S M 260 Management and Analysis of Quantity Food (4) Principles of management applied to menu planning, purchasing, food and labor costing, and analysis for the institutional food service setting.
Effective: Spring 1996
Prerequisite:

D S M 295A Field Experience in Foodservice Management (1-4) Supervised experience in a foodservice operation: analysis of food service systems.
Effective: Summer 2011

D S M 295W Professional Staff Field Experience (4) Methods of, and practice in, the client-oriented dietetic systems.
Effective: Summer 2011
Prerequisite:

D S M 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2003

Last Import from UCM: June 2, 2012 12:27 PM
Early Childhood Education (E C E)

E C E 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1992

Prerequisite:

E C E 452 Approaches to Contemporary Early Childhood Education Programs (3) Description and analysis of early childhood programs; cycles, trends, progressions in early childhood education. Effective: Spring 1992
Prerequisite:

E C E 453 Parent Involvement in Home, Center, and Classroom Instruction (2-3) Parent involvement, programs, and methodologies that strengthen bonds between home and community for educators of children. Effective: Spring 1992
Prerequisite:

E C E 454 Development and Administration of Child Service Programs (3) Planning, administering, and evaluating child service programs at several administrative levels using methods from relevant disciplines. Effective: Spring 1992
Prerequisite:

E C E 479 The Young Child’s Play as Educative Processes (3) Young child’s play as educative processes and uses of materials in curricular settings are examined. Effective: Spring 2007
Prerequisite:

E C E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1991

E C E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1991

E C E 497A Environmental Design for Diverse Learners in Early Childhood Education (3) This course introduces students to planning, designing, building and facilitating learning for diverse learners using child-centered environmental designs and activities. Effective: Summer 2012 Ending: Summer 2012

E C E 497B Multimodal Learning and Literacy in Early Childhood (3) This course explores the processes of visual, auditory and embodied ways of knowing as a foundation for children’s meaning making. Effective: Summer 2012 Ending: Summer 2012

E C E 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Earth Sciences (EARTH)

EARTH 002 (GN) The Earth System and Global Change (3) An interdisciplinary introduction to the processes, interactions and evolution of the earth’s biosphere, geosphere and hydrosphere.
Effective: Fall 2007

EARTH 100 (GN) Environment Earth (3) Natural processes and their relationship to anthropogenic influences. General principles of global cycles and the role they play in natural hazards, global warming, ozone depletion, etc.
Effective: Fall 2004

EARTH 101 (GN;US) Natural Disasters: Hollywood vs. Reality (3) Analysis of the causes and consequences of natural disasters; comparison of popular media portrayal of disasters with perspective from scientific research.
Effective: Summer 2005

EARTH 103 (GN) Earth in the Future: Predicting Climate Change and Its Impacts Over the Next Century (3) Climate predictions for the coming century are utilized to examine potential impacts on regions, sectors of society, and natural ecosystems.
Effective: Summer 2000

EARTH 105 (GN;IL) (AAA S 105) Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, and natural resources.
Effective: Summer 2005 Ending: Fall 2012

EARTH 105 (GN;IL) (AFR 105) Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, and natural resources.
Effective: Spring 2013 Future: Spring 2013

EARTH 106 (GN) The African Continent: Earthquakes, Tectonics and Geology (3) Study of earthquakes and seismic waves to learn about the geology and plate tectonics of the African continent.
Effective: Summer 2007

EARTH 111 (GN;US) Water: Science and Society (3) Investigation of water behavior and occurrence, its relevance to life, human activities, politics, and society.
Effective: Summer 2006

EARTH 150 (GN) Dinosaur Extinctions and Other Controversies (3) Dinosaur extinctions and other major and controversial events in the history of life.
Effective: Spring 2004

EARTH 202 Modeling the Earth System (3) A quantitative introduction to the evolution of Earth’s biosphere, atmosphere, and hydrosphere, with emphasis on the carbon cycle and climate.
Effective: Summer 2009
Prerequisite:

EARTH 240 (GN) Coral Reef Systems (4) The geography, geology, biology ecology and chemistry of coral reef ecosystems; threats to reef environments; and techniques for reef surveying and monitoring; with local geologic and distant modern field studies.
Effective: Spring 2012
Prerequisite:

EARTH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

EARTH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

EARTH 297B (SCI ED 297B) Fundamentals of Climate Science (3) Address the meaning, variability and change of climate over time as a result of natural and man-made processes. Course is geared toward elementary ed majors, but could also be appropriate for EMS students interested in reform-based science education.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EARTH 297D Fossil Mammals, & Biotic Response to Climate Change (3) Fossils of small mammals used to illustrate how
organisms responded to fluctuating climate of the past with future implications considered. Primarily geared to elem ed majors, also approp for EMS students with interest in reform-based science ed. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

EARTH 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

EARTH 400 Earth Sciences Seminar (3) Interdisciplinary study of environmental problems in the earth sciences. Effective: Spring 2001

Prerequisite:

EARTH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2001

Prerequisite:

EARTH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

EARTH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

EARTH 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Earth and Mineral Sciences (EM SC)

EM SC 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

EM SC 100S (GWS) **Earth and Mineral Sciences First-Year Seminar** (3) Writing, speaking, and critical thinking skills applied to topics of general interest in Environmental and Materials Science.
Effective: Spring 2001

EM SC 101 (US;IL) **Resource Wars** (3) "Resource Wars" presents an analysis of natural resources and how competition for them shapes national and international cultures and geopolitics.
Effective: Summer 2006

EM SC 121 (GN) **Minerals and Modern Society** (3) Production and use of mineral resources in modern society with an emphasis on the interrelationships and their effect on the Earth system.
Effective: Summer 1996

EM SC 150 (GN;IL) (S T S 150) **Out of the Fiery Furnace** (3) A history of materials, energy and man, with emphasis on their interrelationships. For nontechnical students.
Effective: Spring 2006

EM SC 294 **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

EM SC 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2007

EM SC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

EM SC 297G **Global Sustainability Stewardship** (3) Course focused on sustainability and alternative energy in consultation with Global Renewable Energy Education Network (GREEN).
Effective: Summer 2012 Ending: Summer 2012

EM SC 297G **Global Sustainability Stewardship** (3) Course focuses on sustainability and alternate energy in consultation with Global Renewable Energy Education Network (GREEN).
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EM SC 300 **Professional e-Portfolio Development** (1 per semester) Design, creation and critique of on-line portfolios for personal and professional development. This course is for second-, third-, and fourth-year EMS students.
Effective: Spring 2003

EM SC 302 **Orientation to Energy and Sustainability Policy** (1) Orientation to goals of the Energy and Sustainability Policy program and resources available to help students succeed.
Effective: Summer 2010

EM SC 420 (SOC 420, S T S 420) **Energy and Modern Society** (3) Technology and economics of energy resources, production, and consumption; environmental factors, exhaustion, new technology.
Effective: Fall 1986

EM SC 440 **Science Diving** (4) Advanced scuba diving skills applied to underwater research.
Effective: Spring 2012
Prerequisite:

EM SC 441 **Advanced Science Diving** (4) Advanced scuba diving skills applied to underwater data collection and research.
Effective: Summer 2011
Prerequisite:

EM SC 470W **Undergraduate Collaborative Research in Earth and Materials Sciences** (3-6) Interdisciplinary research seminar involving students in the process of discovery, writing, and debate on issues of broad interest to Earth and

The Pennsylvania State University
EM SC 470W Undergraduate Collaborative Research in Earth and Materials Sciences (1-6 per semester/maximum of 6) Interdisciplinary research seminar involving students in the process of discovery, writing, and debate on issues of broad interest to Earth and Materials Sciences.
Effective: Spring 2013 Future: Spring 2013

EM SC 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

EM SC 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EM SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2003

EM SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992
Economics (ECON)

ECON 014 (GS) **Principles of Economics** (3) Analysis of the American economy, emphasizing the nature and interrelationships of such groups as consumers, business, governments, labor, and financial institutions. Students who have passed ECON 002 or 004 or are registered in the College of Business Administration may not schedule this course. Effective: Spring 2003

ECON 083S (GS) **First-Year Seminar in Economics** (3) Experiments in microeconomic principles. Effective: Summer 1999

ECON 102 (GS) **Introductory Microeconomic Analysis and Policy** (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution. Effective: Spring 2011

ECON 102H (GS) **Honors Introductory Microeconomic Analysis and Policy** (3) Methods of economic analysis and their use; price determination; theory of the firm; distribution. Effective: Summer 2011

ECON 104 (GS) **Introductory Macroeconomic Analysis and Policy** (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Spring 2011

ECON 104H (GS) **Honors Introductory Macroeconomic Analysis and Policy** (3) National income measurement; aggregate economic models; money and income; policy problems. Effective: Summer 2011

ECON 106 **Statistical Foundations for Econometrics** (3) Basic statistical concepts used in economics. Topics include probability distributions, expectations, estimation, hypothesis testing, correlation, and simple regression. Students who have completed ECON 306 may not schedule this course. Effective: Spring 2011

ECON 106H **Statistical Foundations for Econometrics** (3) Basic statistical concepts used in economics. Topics include probability distributions, expectations, estimation, hypothesis testing, correlation, and simple regression. Students who have completed ECON 306 may not schedule this course. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ECON 197 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

ECON 199 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ECON 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

ECON 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2008

ECON 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

ECON 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

ECON 302 (GS) **Intermediate Microeconomic Analysis** (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools. Effective: Spring 2011

Prerequisite:
ECON 302H (GS) Intermediate Microeconomic Analysis (Honors) (3) Allocation of resources and distribution of income within various market structures, with emphasis on analytical tools.
Effective: Spring 2011
Prerequisite:

ECON 304 (GS) Intermediate Macroeconomic Analysis (3) Analysis of forces that determine the level of aggregate economic activity.
Effective: Spring 2011
Prerequisite:

ECON 304H (GS) Intermediate Macroeconomic Analysis (Honors) (3) Analysis of forces that determine the level of aggregate economic activity.
Effective: Spring 2011
Prerequisite:

ECON 306 Introduction to Econometrics (3) The implementation of statistical techniques to analyze data and address economic questions. Econometric results are produced and assessed.
Effective: Spring 2010
Prerequisite:

ECON 306H Introduction to Econometrics (3) The implementation of statistical techniques to analyze data and address economic questions. Econometric results are produced and assessed.
Effective: Spring 2012
Prerequisite:

ECON 315 (GS) Labor Economics (3) Economic analysis of employment, earnings, and the labor market; labor relations; related government policies.
Effective: Spring 2011
Prerequisite:

ECON 323 (GS) Public Finance (3) Contemporary fiscal institutions in the United States; public expenditures; public revenues; incidence of major tax types; intergovernmental fiscal relations; public credit.
Effective: Spring 2011
Prerequisite:

ECON 333 (GS) International Economics (3) Why nations trade, barriers to trade, balance of payments adjustment and exchange rate determination, eurocurrency markets, and trade-related institutions.
Effective: Spring 2011
Prerequisite:

ECON 342 (GS) Industrial Organization (3) Industrial concentration, size, and efficiency of business firms, market structure and performance, competitive behavior, public policy and antitrust issues.
Effective: Spring 2011
Prerequisite:

ECON 351 Money and Banking (3) Money, credit, commercial and central banking, financial intermediaries, treasury operations, monetary theory and policy, and foreign exchange. Students who have already taken Econ. 451 may not schedule this course.
Effective: Spring 2011
Prerequisite:

ECON 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

ECON 397 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

ECON 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ECON 400M Honors Seminar in Economics (3-12) Readings, discussion, and oral and written reports on selected topics in economics.
Effective: Spring 1993
Prerequisite:

ECON 401 History of Economic Thought (3) Survey of economic ideas from Greco-Roman times to the present.
Effective: Spring 2001
Prerequisite:

ECON 402 Decision Making and Strategy in Economics (3) Development and application of the tools for decision making under uncertainty and for game theoretic analysis of economic problems.
Effective: Spring 2007
Prerequisite:

ECON 403W The Economics of Arts and Entertainment (3) Supply and demand of creative goods and services; industry structure; role of information; policy issues.
Effective: Summer 2008
Prerequisite:

ECON 404W Current Economic Issues (3) An analytical survey of significant problems of current economic policy and the application of economic analysis to important social issues.
Effective: Spring 1993
Prerequisite:

ECON 406W The Economics of Social Conflict (3) Economic theory of the resolution of social conflicts: social choice theory, voting, noncooperative games, voluntary trade, and allocation by force.
Effective: Summer 2008
Prerequisite:

ECON 407W Political Economy (3) Applications of the tools of game theory to analyze topics in collective decision making.
Effective: Summer 2008
Prerequisite:

ECON 408W Intellectual Property (3) A comparative and cost-benefit analysis of intellectual property that examines patents, copyrights, government supported research, and prizes.
Effective: Summer 2008
Prerequisite:

ECON 409W Economics of Terrorism (3) Terrorism throughout history; economic causes, costs, sources, and consequences.
Effective: Summer 2008
Prerequisite:

ECON 410 Economics of Labor Markets (3) Economic analysis of the employment relationship from the microeconomic perspective, with emphasis on current labor-market problems and public policy issues.
Effective: Spring 2011
Prerequisite:

ECON 411W Behavioral Economics (3) Topics in behavioral economics; selected games; evolutionary models of social behavior; culture and social behavior; herding; overconfidence.
Effective: Summer 2008
Prerequisite:

Effective: Spring 2009
Prerequisite:

ECON 413W Economic Growth and the Challenge of World Poverty (3) Economic prosperity in historical perspective; recent successes (East Asia, China, India); ongoing challenges (the bottom billion; sub-Saharan Africa).
Effective: Summer 2008
Prerequisite:

ECON 414W The Economic Way of Looking at Life (3) Economics/life according to Gary Becker: criminal behavior; economics of the family (marriage, divorce, intrahousehold resource allocation, bequests), policy issues.
Effective: Summer 2008
Prerequisite:

ECON 415W The Economics of Global Climate Change (3) Evidence on climate change; economic models of the environment and market failure; cost-benefit analysis of policy options; carbon markets.
Effective: Summer 2008
Prerequisite:

ECON 417W The Economics of Uncertainty (3) Uncertainty is examined in contracts, with an emphasis on limited liability. Asymmetric information and economic puzzles are also considered.
Effective: Summer 2008
Prerequisite:

ECON 418W A Comparative and Cost-Benefit Analysis of State Government Activities (3) This course examines federalism with a particular focus on the activities undertaken by the state of Pennsylvania.
Effective: Summer 2008
Prerequisite:

ECON 421 Analysis of Economic Data (3) Economic analysis of data: sources, variable definitions, miscodings, missing observations, censoring and truncation, applications.
Effective: Summer 2008
Prerequisite:

ECON 422W Applying Monetary Theory to Monetary History (3) Monetary history is examined. Special attention is paid to commodity-based systems, private money, and government monopolies on currency.
Effective: Summer 2008
Prerequisite:

ECON 424 Income Distribution (3) Inequality and poverty in the United States, measurement problems, determinants of inequality, arguments for and against equality, impact of redistributive policies.
Effective: Fall 1992

The Pennsylvania State University
Prerequisite:

ECON 425 Economics of Public Expenditures (3) Analytic and policy aspects of public expenditure decisions; applications from areas of contemporary public interest.
Effective: Summer 1992
Prerequisite:

ECON 428 Environmental Economics (3) Environmental pollution, the market economy, and optimal resource allocation; alternative control procedures; levels of environmental protection and public policy.
Effective: Summer 1992
Prerequisite:

ECON 429 Public Finance and Fiscal Policy (3) Analysis of public revenue and expenditure structure primarily at the federal level; federalism; fiscal policy and public debt.
Effective: Fall 1983
Prerequisite:

ECON 430 Regional Economic Analysis (3) Analysis of personal and industrial location decisions, regional economic growth, migration patterns, and regional policy; emphasis on tools and techniques.
Effective: Spring 2011
Prerequisite:

ECON 432 Urban Economics (3) Theories and methods for economic analysis of such urban problems as housing, segregation, government services, and transportation.
Effective: Summer 1992
Prerequisite:

ECON 433 Advanced International Trade Theory and Policy (3) Causes/consequences of trade; effects of tariffs and quotas; strategic trade policy; political economy of trade restrictions and other topics.
Effective: Summer 1992
Prerequisite:

ECON 434 International Finance and Open Economy Macroeconomics (3) Trade balance movements, exchange rate determination; monetary and fiscal policies in open economies; international policy coordination; the world monetary system.
Effective: Spring 1992
Prerequisite:

ECON 436W (US) Economics of Discrimination (3) Analysis of the economic characteristics of women and minorities, with examination of race and sex discrimination and related government policies.
Effective: Fall 2007
Prerequisite:

ECON 437W Multinationals and the Globalization of Production (3) This course will focus on trade, multinationals and offshoring, and explore their implications for the U.S. and developing countries.
Effective: Summer 2008
Prerequisite:

ECON 438W Winners and Losers from Globalization (3) The economic effects of globalization on individuals, governments, nation-states and business.
Effective: Summer 2008
Prerequisite:

ECON 439 Economics of Technology Diffusion (3) Technology Diffusion: Globalization, productivity measurement, intellectual property.
Effective: Summer 2008
Prerequisite:

ECON 440 Trade and Labor Markets (3) International trade and its impacts on markets in industrialized and development economies; low-skilled workers in the emerging global economy.
Effective: Summer 2008
Prerequisite:

ECON 442 Managerial Economics (3) Application of economic theory to managerial decision making; risk, uncertainty; models and statistical techniques.
Effective: Spring 2011
Prerequisite:

ECON 443 Economics of Law and Regulation (3) An economic analysis of property rights, contractual arrangements, illegal activities, and regulation; competitive problems due to externalities and market failure.
Effective: Summer 1992
Prerequisite:

ECON 444 Economics of the Corporation (3) Coordination and incentive issues within a corporation. Topics include employment contracts, performance incentives and pricing of financial assets.
Effective: Summer 1997
Prerequisite:

ECON 445 (H P A 445) Health Economics (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 1994

ECON 446W Economics of Industry Evolution (3) Dynamics of industry evolution; empirical evidence and theoretical modeling of firm entry, growth, and exit; entrepreneurship; investment and strategic behavior. Effective: Summer 2008

ECON 447W Economics of Sports (3) Examination of economic issues pertaining to professional and collegiate sports, including analysis of industrial organization, labor markets, and local economies. Effective: Spring 2009

ECON 448W Economics of Auctions and Procurements (3) Theoretical and empirical analyses of auctions and procurements; different modeling environments; econometric analysis of auction and procurement data. Effective: Summer 2008

ECON 449W Economics of Collusion (3) Theoretical and empirical analysis of collusion among firms, case studies of cartel behavior, bidding behavior at auctions and procurements. Effective: Spring 2008

ECON 450 The Business Cycle (3) Measurement and theories of the business cycle; stabilization policies; forecasting. Effective: Summer 1992

ECON 451 Monetary Theory and Policy (3) Monetary and income theory; monetary and fiscal policy. Effective: Winter 1978

ECON 452W Financial Crises (3) Examination of causes and consequences of financial crises; asset pricing theory, market efficiency, speculative bubbles; policy considerations. Effective: Summer 2008

ECON 453 Monopolization and Vertical Restraints (3) Monopolization and vertical restraints: exclusive dealing, bundling, tying, predation and entry deterrence; empirical evaluation. Effective: Summer 2008

ECON 454 Economics of Mergers (3) Economic analysis of horizontal and vertical mergers; econometric issues in measurement of unilateral and coordinated effects; policy issues. Effective: Summer 2008

ECON 455W Economics of the Internet (3) Economics of the Internet; electronic commerce and network economics; pricing issues; intellectual property. Effective: Summer 2008

ECON 457W Economics of Organizations (3) An advanced course in the economics of organizations. The focus is on coordination, incentives, contracts, and information in corporations. Effective: Summer 2008

ECON 463 (IL) Economic Demography (3) Microeconomics of demographic behavior; interrelationships between demographic and economic factors, in developing and industrialized economies; economic welfare and policy implications. Effective: Spring 2006

ECON 463W Economic Demography (3) Microeconomics of demographic behavior; interrelationships between demographic and economic factors, in developing and industrialized economies; economic welfare and policy implications. Effective: Summer 2008

ECON 465W Cross Sectional Econometrics (3) Discrete choice models, censored and truncated regression models, longitudinal models, applications. Effective: Summer 2008

ECON 466W Panel Data Models (3) Random and fixed effects, endogeneity, balanced and unbalanced panels, censoring of spells, differences in differences, applications. Effective: Summer 2008

The Pennsylvania State University
ECON 470 (IL) **International Trade and Finance** (3) Economic analysis of why nations trade, barriers to trade, the international monetary system, and macroeconomic policy in an open economy.
Effective: Spring 2011
Prerequisite:

ECON 471 **Growth and Development** (3) Problems of capital formation, institutional considerations, theories of economic growth.
Effective: Summer 2011
Prerequisite:

ECON 472 **Transition to Market Economies** (3) Economics of transition to a market economy; problems of former Soviet-type economies; privatization, stabilization, and institutional change.
Effective: Fall 2005
Prerequisite:

ECON 473 (IL) **China in the Global Economy: History, Culture, and Society** (3) Analysis of China's role in the global economy and the impact on U.S. as well as global business and society.
Effective: Spring 2011
Prerequisite:

ECON 475W **Migration and Development** (3) Human Capital Approach to Migration; Economics of Family Migration; Evidence: Micro and Macro Perspectives; Migration Policies.
Effective: Summer 2008
Prerequisite:

ECON 476W **The Economics of Fertility in the Developing World** (3) Demand for children, supply of children, and costs of fertility regulation; fertility transition; public policies to affect fertility.
Effective: Summer 2008
Prerequisite:

ECON 477 **Labor Markets in Developing Countries** (3) Labor demand and supply in developing countries; urban and rural labor markets, modern and informal sectors; policy issues.
Effective: Summer 2008
Prerequisite:

ECON 478 **Incomplete Markets** (3) Rural land markets, fragmented credit markets, risk and insurance, human capital and labor markets, innovation and technology spillovers, coordination failures.
Effective: Summer 2008
Prerequisite:

ECON 479W **Economics of Matching** (3) Economic application of matching to employment, marriage, organ markets, and medical residents.
Effective: Summer 2008
Prerequisite:

ECON 480 **Mathematical Economics** (3) Mathematical techniques employed in economic analysis; formal development of economic relationships.
Effective: Summer 1992
Prerequisite:

ECON 481 **Business Forecasting Techniques** (3) A survey of contemporary business forecasting techniques, with emphasis on smoothing, decomposition, and regression techniques.
Effective: Spring 2008
Prerequisite:

ECON 483 **Economic Forecasting** (3) Forecasting time series, using linear regression models and econometric software; useful forecasting models; financial and seasonal time series; trends.
Effective: Summer 2008
Prerequisite:

ECON 485 **Econometric Techniques** (3) Applying statistical techniques to test and explain economic relationships; integration of economic theory with observed economic phenomena.
Effective: Spring 2011
Prerequisite:

ECON 489M **Honors Thesis** (1-6) No description.
Effective: Spring 1993
Prerequisite:

ECON 490 **Introduction to Econometrics** (3) Use of simple and multiple regression models in measuring and testing economic relationships. Problems including multicollinearity, heteroskedasticity, and serial correlation.
Effective: Summer 2000
Prerequisite:

ECON 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

ECON 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or
ECON 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite:
ECON 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ECON 496A Economics of a Dairy Farm (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ECON 496B Myths in Sports (1-7) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ECON 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ECON 497B Economics of Sports (3) Examination of economic issues pertaining to professional and collegiate sports, including analysis of industrial organization, labor markets, and local economics.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ECON 499 (IL) Foreign Study--Economics (2-6) Study in selected countries of economic institutions and current economic problems.
Effective: Spring 2011
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
EdLeadership Prog (EDLDR)

EDLDR 405 (C I 405) Strategies in Classroom Management (3) Managing and coping with disruptive student behavior in instructional settings so that they support the teaching/learning process.
Effective: Fall 2008
Prerequisite:

EDLDR 409 Leadership Studies in Popular Film (3) In-depth analysis of leadership dynamics revealed in popular film.
Focus on cinematic depictions of theory and practical application of leadership.
Effective: Spring 2012
Prerequisite:

EDLDR 476 The Teacher and the Law (3) An introduction to education law as it affects the teacher.
Effective: Fall 2004
Prerequisite:

EDLDR 480 Introduction to Educational Leadership (3) Development of educational leadership. Relationships among local, state, and federal agencies. Introduction to current concepts and theories.
Effective: Fall 2004
Prerequisite:

EDLDR 485 Principal as Instructional Leader (3) Knowledge and skills principals need to lead instructional design and implementation.
Effective: Fall 2004
Prerequisite:

EDLDR 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

EDLDR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2012

EDLDR 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2004

Last Import from UCM: June 2, 2012 12:27 PM
Education (EDUC)

EDUC 100S First-Year Seminar in Education (3) Learning about a scholarly community through the development of knowledge and skills needed for successful participation in higher education. Effective: Fall 2007

EDUC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

EDUC 199 (IL) Foreign Studies (1-12) Study of educational topics in a country other than the United States. Effective: Summer 2007

EDUC 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

EDUC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2010

EDUC 302 Basic Preparation for Teaching (3) Philosophical, psychological issues in education; instructional objectives, lesson planning; evaluation, grading procedures; assessment, instruction of individual children. Field experience. Effective: Spring 2001

EDUC 303 Sensitivity to Special Learners (3) This course is designed to examine the procedures, characteristics and strategies for working with special learners in the elementary school. Effective: Spring 2005

EDUC 304 Classroom Organization and Management (3) Organization, integration of the elementary school day; classroom management, control techniques; audio-visual techniques. Effective: Spring 2001

EDUC 305 Creative Arts (3) Experiences in self-expression through a variety of artistic media. Techniques for guiding children in artistic expression. Effective: Spring 2001

EDUC 313 Field Observation (2) Observation techniques; classroom observation and participation. Effective: Spring 2001

EDUC 315W (US) Social and Cultural Factors in Education (3) Critical examination of how different experiences linked to race, ethnicity, religion, gender, and sexual orientation influence education. Effective: Spring 2011

EDUC 322 Adolescent Literature and Developmental Reading (3) Adolescent literature materials, reading principles, and practices suitable for an English class. Effective: Spring 2001

EDUC 352 Teaching Language Arts (3) Teaching the writing process, including speaking and listening skills in relation to
oral and written composition.
Effective: Spring 2001
Prerequisite:
EDUC 353 Teaching Elementary Social Studies (3) The theory and practice of elementary social studies instruction.
Effective: Spring 2001
Prerequisite:
EDUC 371 Teaching Music in the Elementary School (3) Music methods course for elementary education majors; students will learn elements of music, and instructional techniques.
Effective: Spring 2001
Prerequisite:
EDUC 385 Professional Development in Teaching (3) This course addresses practical issues central to the profession of teaching and, in some cases, specific to Pennsylvania.
Effective: Spring 1995
Prerequisite:
EDUC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

EDUC 400 Diversity and Cultural Awareness Practices in the K-12 Classroom (3) This course addresses diversity, cultural awareness and sensitivity about cultures, concepts and methods in society, communities and educational settings.
Effective: Summer 2008

EDUC 401 Early Childhood Education (3) Organization, methodology, and materials for nursery school and kindergarten programs.
Effective: Winter 1981

Effective: Winter 1981

EDUC 403 Curriculum for Early Childhood (3) Examining early childhood programs and methodology, focusing on areas of social studies, mathematics, and science.
Effective: Winter 1981

EDUC 404 Young Children's Behavior: Observation and Evaluation (3) Observation, recording and evaluation of student behaviors, and the use of prescription techniques for early childhood students with special needs.
Effective: Winter 1981

EDUC 405 Early Childhood Education: Infancy and Toddlerhood (3) Models of infant development with focus on the first three years of life--cognitive and socio-emotional milestones will be analyzed.
Effective: Spring 2005

EDUC 406 Human Sexuality (3) Examination of physiology, diseases, attitudes, morality, and controversial topics related to sexuality. Consideration of sex education in the school curriculum.

EDUC 408 Administration of Early Childhood Education Programs (3) The role of the early childhood administrator as it relates to regulations, staffing, management, funding and curriculum.
Effective: Winter 1981
Prerequisite:
EDUC 410 The Child and Social Institutions (3) The effects of the family on a child's development, especially in the infancy and preschool years.
Effective: Winter 1981

EDUC 412 Early Literacy Intervention I (3) Participants will better understand factors affecting early reading behavior through diagnostic techniques, observation techniques, and literacy intervention strategies.
Effective: Summer 1996
Prerequisite:
EDUC 413 Early Literacy Intervention II (3) Participants will continue to learn skills, knowledge, and experience processes to implement the early literacy intervention program.
Effective: Summer 1996
Prerequisite:
EDUC 415 Teaching Secondary Social Studies (3) Study of the objectives, content, methods, and evaluation of procedures of social studies. Students design units and lesson plans.

The Pennsylvania State University
Effective: Spring 2011
Prerequisite:

EDUC 416 Teaching Secondary English and the Humanities (3) Study of the objectives, content, and methods of English and humanities courses.
Effective: Spring 2011
Prerequisite:

EDUC 417 Teaching Secondary Mathematics (3) Study of the objectives, content, methods, and evaluation procedures of mathematics.
Effective: Spring 2011
Prerequisite:

EDUC 418 Positive Classroom Climate for Positive Attitudes About Learning (3) Participants will learn strategies for creating classroom climates which encourage positive attitudes toward learning while preventing and correcting student misbehavior.
Effective: Summer 1995
Prerequisite:

EDUC 421 Children's Literature (3) Knowledge of literature appropriate for elementary school children and utilization of literature-related activities in teaching reading.
Effective: Spring 2001
Prerequisite:

EDUC 422 Literature for Children and Adolescents (3) Literature for children and adolescents, approaches for using such literature in the school curriculum.
Effective: Fall 2008

EDUC 425 Literacy Assessment (3) This course emphasizes alternative literacy measures focusing on portfolio assessment and performance assessments.
Effective: Spring 1997
Prerequisite:

EDUC 426 Children's Literature in Teaching Writing (3) Introduction to introduces methods for transferring writing skills and literary devices from literature to student writing in all subject areas.
Effective: Summer 2008

EDUC 435 Addressing the Needs of Special Learners (1) An examination of attitudes toward, barriers experienced by, and special needs of special learners in the schools.
Effective: Spring 2001
Prerequisite:

EDUC 436 Inclusion Practices in Education (3) The educational, social, and political foundations for inclusion practices in public education.
Effective: Summer 1995
Prerequisite:

EDUC 440 Educational Statistics and Measurements (3) Descriptive statistics, correlation, reliability, validity, scaling techniques, and introduction to item analysis.
Effective: Winter 1981

EDUC 450 Current Topics in Education (1-15) No description.
Effective: Fall 1983

EDUC 452 Teaching Writing (3) Techniques for teaching the writing process, kindergarten through grade 12, including writing in content areas; workshop format.
Effective: Fall 1983

EDUC 458 Behavior Management Strategies for Inclusive Classrooms (3) Provides knowledge and skills essential for designing positive learning environments in secondary classrooms with the inclusion of exceptional learners.
Effective: Summer 2009
Prerequisite:

EDUC 459 Strategies for Effective Teaching in Inclusive Classrooms (3) Course examines effective strategies for accommodating and adapting instruction for exceptional learners in secondary classrooms.
Effective: Spring 2011 Ending: Summer 2012
Prerequisite:

EDUC 459 Strategies for Effective Teaching in Inclusive Classrooms (3) Course examines effective strategies for accommodating and adapting instruction for exceptional learners in secondary classrooms.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

EDUC 460 Field Study in Ecology (4) Study and analysis of the ecology of various regions of the world. May be repeated for credit.
Effective: Summer 1995
Prerequisite: EDUC 462 Computers for Classroom Teachers (3) An introduction: microcomputers and their educational applications.
Effective: Spring 2001
Prerequisite: EDUC 463 The Internet and K-12 Education (3) Relates educational theory and practice to applications of the Internet, applying content from educational foundations, curriculum, and research.
Effective: Spring 2003
Prerequisite: EDUC 464 Technology and the Learning Process (3) Evaluates the relationship between technology-based resources and learning theories through design, implementation, and evaluation of online instructional modules.
Effective: Spring 2003
Prerequisite: EDUC 465 Serving Culturally and Linguistically Diverse (CLD) Learners (3) The course provides teachers with knowledge, understandings, and skills to engage culturally and linguistically diverse (CLD) students in mainstream classrooms.
Effective: Spring 2009

EDUC 466 Foundations of Teaching English as a Second Language (3) Overview of various legal, historical, and socio-cultural implications of teaching and learning English as a Second Language.
Effective: Summer 2006
Prerequisite: EDUC 467 English Language Structure for English as a Second Language Teachers (3) An in-depth study and review of general linguistic concepts and their application to ESL pedagogy.
Effective: Summer 2006
Prerequisite: EDUC 468 Language Acquisition for English as a Second Language Teachers (3) Study of the theory, research, and processes involved in first and second language development, acquisition, and assessment.
Effective: Summer 2006
Prerequisite: EDUC 469 Teaching Methods and Assessment of English as a Second Language (3) Integration of theory, research, and practice about ESL curriculum, instructional methods, assessment, and literacy development.
Effective: Summer 2006
Prerequisite: EDUC 470W Higher-Order Thinking for Educators (3) Presentation of strategies, techniques, and principles of higher-order thinking which are grounded in relevant research and practice will be presented.
Effective: Fall 2006
Prerequisite: EDUC 471 Best Practices in Literacy (3) An application of best literacy practices to classroom instruction and assessment of reading, writing, listening, and speaking.
Effective: Spring 2003
Prerequisite: EDUC 472 Teaching Reading Through the Content Areas (3) Designed to enable teachers of content areas to improve the reading/study skills needed by their students.
Effective: Winter 1981

EDUC 475 ESL Leadership, Research and Advocacy (3) Teachers will develop their skills as instructional leaders and researchers by conducting school-based action research projects.
Effective: Summer 2010
Prerequisite: EDUC 477 Teaching Struggling Readers and Writers (3) A comprehensive overview of learning problems and effective strategies for teaching K-12 students who have difficulties reading and writing.
Effective: Spring 2008

EDUC 484 School Law for Teachers (3) This course will focus on increasing teacher awareness of law and how it impacts on daily performance and job security.
Effective: Summer 1995
Prerequisite: EDUC 490 Student Teaching (1-12) Observation and teaching in selected elementary or secondary schools under direction of cooperating classroom teachers and University supervisors. Regular seminars. GPA 3.0 or higher. Passing scores on required Praxis I tests.
Effective: Fall 2003
Prerequisite: EDUC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994
EDUC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

EDUC 495 Internship (1-15) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required. Effective: Fall 1983

Prerequisite:

EDUC 495A Junior Field Experience (1) Second semester juniors assigned to a suburban elementary school for the purpose of actively participating in classroom activities. Effective: Summer 2003

Prerequisite:

EDUC 495B Senior Field Experience (1) First semester seniors assigned to an urban elementary school for the purpose of actively participating in classroom activities. Effective: Summer 2003

Prerequisite:

EDUC 495C Early Childhood Field Experience (1) First semester seniors assigned to an urban elementary school for the purpose of actively participating in an early childhood classroom. Effective: Summer 2003

Prerequisite:

EDUC 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Fall 1983

EDUC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 1983

EDUC 497A Technology and the Highly Engaged Classroom (3) The focus of this course is on technology and fostering engagement in the classroom. Engagement is one of the core factors of the H.E.A.T Framework developed by LoTi and is a key ingredient of effective teaching. Effective: Summer 2012 Ending: Summer 2012

EDUC 497A Teacher Action Research (3) Students will develop action research plans re their own new practice on student performance. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Prerequisite:

EDUC 497A Teacher Leadership (2) Develop findings of research and prepare manuscript for submission for publication and presentation at education conferences. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

Prerequisite:

EDUC 497B High-Impact Literacy Practices: Comprehension Going Forward (3) This course is designed to explore a variety of methods to improve and modify instructional strategies to promote maximum engagement and increase effective teaching principles. This course will assist the participants in developing a knowledge and subsequent use of research-based models of high-impact literacy practices and areas of: responsive teaching and differentiation, assessment, and professional collaboration. Effective: Summer 2012 Ending: Summer 2012

EDUC 497B Action Research Implementation (2) Use observational and interview data gathered to analyze results. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Prerequisite:

EDUC 497C Myths and Truths: American History for the Classroom (3) An examination of how American history has been taught over the last 200 years and ways to engage K-12 students. Effective: Summer 2012 Ending: Summer 2012

EDUC 497D International Field Experience: Germany (0.5-3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

EDUC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

EDUC 498A Advanced Institute: "Unlocking the Power of Poetry" (3) Course will explore poetic techniques and esthetics

The Pennsylvania State University
EDUC 499 (IL) **Foreign Studies** (1-12) Study of educational topics in a country other than the United States. Effective: Summer 2007

Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Education Abroad (ED AB)

ED AB 199 Temporary Education Abroad Registration (1-18) This course is used to temporarily register students that are studying overseas. Permanent courses will be entered after the student returns.
Effective: Summer 2007

Last Import from UCM: June 2, 2012 12:27 PM

**Education Mathematics (EDMTH)**

EDMTH 301 *Mathematics in Elementary Education I* (3) Survey of content, pedagogy, and psychology of mathematics instruction for pre-school through third grade. Emphasis on a concrete approach to instruction. Effective: Spring 2001

Prerequisite:

Prerequisite:

EDMTH 432 *Diagnostic and Prescriptive Mathematics: Basic Principles* (3) Examination of the basic principles of diagnostic and prescriptive mathematics for elementary and secondary teachers. Effective: Spring 1990

EDMTH 433 *Diagnostic and Prescriptive Mathematics: Classroom Applications* (3) The application of the diagnostic and prescriptive skills of DP Math in a practical setting and administering a laboratory program. Effective: Spring 1990

Prerequisite:

EDMTH 441 *Geometry and Measurement Across the K-12 Curriculum* (3) The course presents participants with investigations of reports, research, and recent trends related to teaching geometry and measurement. Effective: Spring 2008

Prerequisite:

EDMTH 442 *Algebra and Functions Across the K-12 Curriculum* (3) The course presents participants with investigations of reports, research, and recent trends related to teaching algebra and function concepts. Effective: Spring 2008

Prerequisite:

EDMTH 443 *Data Analysis and Probability Across the K-12 Curriculum* (3) The course presents participants with investigations of reports, research, and recent trends to teaching data analysis and probability concepts. Effective: Spring 2008

Prerequisite:

EDMTH 444 *Numbers and Operations Across the Curriculum* (3) The course focuses on investigating reports, research, and recent trends related to teaching number and operation concepts K-12. A student who has passed MATH 200 may not take EDMTH 444 for credit. Effective: Summer 2009

EDMTH 455 *Current Issues in Mathematics Education* (3) An examination and analysis of contemporary trends and concerns in the teaching of mathematics. Effective: Fall 1983

Prerequisite:

EDMTH 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1990

Last Import from UCM: June 2, 2012 12:27 PM
Education Science (EDSCI)

EDSCI 454 Modern Elementary Science Education (3) Introduction of content, methods, and materials used in modern elementary science with emphasis upon modern elementary science programs.
Effective: Spring 2001
Prerequisite:

EDSCI 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1985

Last Import from UCM: June 2, 2012 12:27 PM
Educational Psychology (EDPSY)

EDPSY 010 (GS) Individual Differences and Education (3) Relationships between learner differences and physical, cognitive, language, social, and cultural development; emphasis on ethnicity, gender, special needs; schooling implications.
Effective: Summer 2011

EDPSY 014 Learning and Instruction (3) Psychology of human learning applied toward the achievement of educational goals; evaluation of learning outcomes.
Effective: Summer 2011

EDPSY 014H Learning and Instruction (3) Psychology of human learning applied toward the achievement of educational goals; evaluation of learning outcomes.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDPSY 101 (GQ) Analysis and Interpretation of Statistical Data in Education (3) An introduction to quantitative methods in educational research emphasizing the interpretation of frequently encountered statistical procedures.
Effective: Summer 2011

EDPSY 101H (GQ) Analysis and Interpretation of Statistical Data in Education (3) An introduction to quantitative methods in educational research emphasizing the interpretation of frequently encountered statistical procedures.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDPSY 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011

EDPSY 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

EDPSY 297A Effective Study Skills (1) This course focuses on improving study skills, time management techniques, and other topics that should help students improve their academic lives.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDPSY 400 Introduction to Statistics in Educational Research (3) The foundations of statistical techniques used in educational research; distributions, central tendency, variability, correlation, regression, probability, sampling, hypothesis testing.
Effective: Summer 2011

EDPSY 406 Applied Statistical Inference for the Behavioral Sciences (3) Common techniques (parametric) covered through two-factor analysis of variance (independent samples); hypothesis testing, confidence interval, power, robustness; MINITAB frequently used.
Effective: Summer 2011
Prerequisite:

EDPSY 408 (SPLED 408) Meeting Instructional Needs of English Language Learners with Special Needs (3) The course content and activities focus on instruction and assessment for English Language Learners with special needs.
Effective: Summer 2011
Prerequisite:

EDPSY 421 Learning Processes in Relation to Educational Practices (3) An introduction to the empirical study of variables and conditions that influence school learning.
Effective: Summer 2011
Prerequisite:

EDPSY 450 (PSYCH 404) Principles of Measurement (3) Scale transformation, norms, standardization, validation procedures, estimation of reliability.
Effective: Summer 2011
Prerequisite:

EDPSY 475 Introduction to Educational Research (3) Scientific method; classes of variables in educational research; the measurement of classroom behavior; survey, predictive, and experimental studies.
Effective: Summer 2011
Prerequisite:

EDPSY 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an
individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011

EDPSY 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

EDPSY 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

Last Import from UCM: June 2, 2012 12:27 PM
Educational Technology (EDTEC)

EDTEC 400 Introduction to Instructional Technology for Educators (1-3) Use of microcomputers, video, and other media in education; models use technologies including video, audio, print, computer, and telephone.
Effective: Fall 2005
Prerequisite:

EDTEC 440 Educational Technology Integration (3) Technology integration in educational settings.
Effective: Fall 2008
Prerequisite:

EDTEC 448 Using the Internet in the Classroom (3) This course introduces students to methods and models of using the Internet effectively in their classroom.
Effective: Fall 2005
Prerequisite:

EDTEC 449 Using Video in the Classroom (3) Skills and knowledge needed to direct the use of video technologies in educational settings.
Effective: Fall 2011
Prerequisite:

EDTEC 461 Designing Computer Networks for Education (3) Applying fundamental concepts of computer networking to design effective networks for educational purposes.
Effective: Fall 2005 Ending: Fall 2012
Prerequisite:

EDTEC 461 Designing Computer Networks for Education (3) Applying fundamental concepts of computer networking to design effective networks for educational purposes.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

EDTEC 462 Coordinating Technology Use in Education (3) Skills and knowledge needed to direct the use of learning technologies in educational settings.
Effective: Fall 2005 Ending: Fall 2012
Prerequisite:

EDTEC 462 Coordinating Technology Use in Education (3) Skills and knowledge needed to direct the use of learning technologies in educational settings.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

EDTEC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

EDTEC 498A Emerging Web 2.0 Technologies and Learning (3) This course examines emerging Web 2.0 technologies and explores their application to learning and education.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Educational Theory and Policy (EDTHP)

EDTHP 115 (US) Education in American Society (3) Introduction to the development of educational institutions, with emphasis on historical, philosophical, and sociological forces, and on problems of equity.
Effective: Spring 2006

EDTHP 115A (GS;US) Competing Rights: Issues in American Education (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society.
Effective: Spring 2006

EDTHP 115H (US) Education in American Society (3) Introduction to the development of educational institutions, with emphasis on historical, philosophical, and sociological forces, and on problems of equity.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDTHP 115S (GS;US) Competing Rights: Issues in American Education (3) An examination of educational issues relevant to democratic citizenship; emphasis is on understanding the relationship among politics, schools, and society.
Effective: Spring 2006

EDTHP 115U (GS;US) Education in American Society (3) Introduction to the development of educational institutions, with emphasis on historical, philosophical, and sociological forces, and on problems of equity.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDTHP 200 (GS) Educational Reform and Public Policy (3) The course uses an interdisciplinary approach to explore the reforms that shape the nation’s largest social institutional-public education.
Effective: Summer 2008

EDTHP 234H Honors Leadership Jumpstart (3) Intensive survey of contemporary leadership theory joined with practice, team-building skills, policy formation and influence, and service leadership.
Effective: Fall 2006
Prerequisite:

EDTHP 297 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Fall 2001

EDTHP 394 Professional Development in Education and Public Policy (3) This course develops professional skills and opportunities to prepare students for field placement and future employment or study.
Effective: Summer 2008

EDTHP 395 Field Experience in Education and Public Policy (3) This course structures a summer field experience, research project, and service in an off-site educational policy organization.
Effective: Summer 2008
Prerequisite:

EDTHP 401 (IL) (CI ED 401) Introduction to Comparative Education (3) Origins, nature, scope, basic literature, and methodology of comparative education. Study of sample topics.
Effective: Fall 2007
Prerequisite:

EDTHP 411 (US) Ethnic Minorities and Schools in the United States (3) Analysis of the social and cultural factors which affect educational outcomes among minority pupils, especially Blacks, Hispanics, and Indians.
Effective: Spring 2006

Effective: Spring 2005

EDTHP 420 Education and Public Policy (3) Focus on the development and analysis of education policy, and policy’s influence on schools.
Effective: Fall 2011
Prerequisite:
EDTHP 425 Anthropology of Education (3) This course will review the origins and development of anthropology of education and its role in educational research and reform.
Effective: Summer 2007
Prerequisite:

EDTHP 427 Intelligence and Educational Policy (3) This course explores the concept of intelligence and its assessment from historical, psychological, educational and policy perspectives.
Effective: Spring 2006
Prerequisite:

EDTHP 430 History of Education in the United States (3) American educational ideas and practice critically examined in terms of their historical development and contemporary significance.
Effective: Summer 1995

EDTHP 434H Honors Teaching Experience in Leadership Jumpstart (1) Guided instruction and practical experience for teaching assistants to the Honors Leadership Jumpstart course (EDTHP 234H).
Effective: Fall 2006
Prerequisite:

EDTHP 440 (CI ED 440) Introduction to Philosophy of Education (3) Introduction to the examination of educational theory and practice from philosophical perspectives, classical and contemporary.
Effective: Fall 2007 Ending: Fall 2012
Prerequisite:

EDTHP 440 (CI ED 440) Introduction to Philosophy of Education (3) Introduction to the examination of educational theory and practice from philosophical perspectives, classical and contemporary.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

EDTHP 441 Education, Schooling, and Values (3) Studies in education and schooling as problems in value; axiological problems and positions; examination of practical applications, including moral education.
Effective: Summer 1995

EDTHP 496 Individual Studies (1-18) Creative projects supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1995

EDTHP 497 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Summer 1995

EDTHP 497A Preparing Educators for Family & Community Engagement (3) This course will explore effective family and community engagement strategies identified through research, policy and practice.
Effective: Summer 2012 Ending: Summer 2012

EDTHP 497A (CI ED 497A) Immigration, Ethnicity, and the School (3) This class is an introduction to theories and empirical research on various immigrant and race/ethnic groups and their schooling experience.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDTHP 497B Gender Issues in Education and Family (3) From historical philosophical, and sociological perspectives, this course helps students explore relationships between gender, education, and families. With a focus on the experience of diverse groups, considerable attention is paid to questions of educational access, the history of men and women as teachers, gender bias, gender role development and families, gender and children’s literature, and strategies for teaching boys and girls in elementary classrooms. Students who have already taken EDTHP 412 may NOT take this course.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDTHP 497D (SOC 497D) Sociology of Family, Community, and Education (3) This course uses sociological research to examine the roles of families, communities and the educational system in American society.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDTHP 498 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.
Effective: Summer 1995

Last Import from UCM: June 2, 2012 12:27 PM
Electrical Engineering (E E)

E E 007S Adventures in Electrical Engineering (1) Exploration of electrical engineering through several hands-on activities that cover a broad spectrum of applications and fundamental concepts.
Effective: Fall 1999

E E 008S Introduction to Digital Music (1) First-year seminar that discusses digital music from an electrical engineering perspective; topics include sampling, digital filtering, compression, and music synthesis.
Effective: Fall 2001

E E 009S First-Year Seminar in Electrical Engineering (1) First-year seminar covering a variety of Electrical Engineering topics that vary from year to year.
Effective: Spring 2008

E E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

E E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

E E 200 Design Tools (3) A working knowledge of electrical engineering design tools and hardware realization of electrical engineering systems.
Effective: Summer 2012
Prerequisite:

E E 210 Circuits and Devices (4) Introduction to electrical circuit analysis, electronic devices, amplifiers, and time-domain transient analysis.
Effective: Spring 2003
Prerequisite:

E E 210H Circuits and Devices (4) Introduction to electrical circuit analysis, electronic devices, amplifiers, and time-domain transient analysis.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E E 210H Circuits and Devices (4) Introduction to electrical circuit analysis, electronic devices, amplifiers, and time-domain transient analysis.
Effective: Fall 2013 Ending: Fall 2013 Future: Fall 2013
Prerequisite:

E E 211 Electrical Circuits and Power Distribution (3) D.C. and A.C. circuits, transformers, single and three-phase distribution systems, A.C. motors and generators.
Effective: Spring 2008
Prerequisite:

Effective: Spring 2008
Prerequisite:

E E 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

E E 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1993

E E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1993

E E 297A Design Tools (3) A working knowledge of electrical engineering design tools and hardware realization of electrical engineering systems.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

The Pennsylvania State University
E E 300W **Design Process** (3) Introduction to the electrical engineering design process, project teaming and management, and technical communication.
Effective: Summer 2012
Prerequisite: Concurrent: ENGL 202C

E E 310 **Electronic Circuit Design I** (4) Properties of fundamental electronic devices, analysis of DC, AC small-signal and nonlinear behavior, analog and digital circuit design applications.
Effective: Spring 2008
Prerequisite:

E E 311 **Electronic Circuit Design II** (3) Electronic circuit design with consideration to single and multi-device subcircuits, frequency response characteristics, feedback, stability, efficiency, and IC techniques.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

E E 312 **Electrical Circuit Analysis** (3) Circuit analysis techniques; mutual inductance; frequency response; FOURIER series; LAPLACE transform.
Effective: Fall 2011
Prerequisite:

E E 313W **Electronic Circuit Design II** (4) Design/analysis of electronics circuits including: single/multistage transistor amplifiers, op amp circuits, feedback amplifiers, filters, A/D and D/A converters.
Effective: Spring 2008
Prerequisite:

E E 314 **Signals and Circuits II** (3) Circuit analysis including op-amps, and ideal transformers; one/two port network models; three-phase and industrial loads; engineering professionalism.
Effective: Spring 2008
Prerequisite:

E E 315 **Electrical Signals and Circuits with Lab** (5) Introduction to circuits, signals, energy, circuit analysis; frequency response, Bode diagrams, two-port networks; Laplace transforms, Polyphase circuits.
Effective: Spring 2008
Prerequisite:

E E 316 **Introduction to Embedded Microcontrollers** (3) Introduction to microcontrollers in electronic and electromechanical systems. Hardware and software design for user/system interfaces, data acquisition, and control.
Effective: Spring 2008
Prerequisite: Concurrent: E E 310

E E 320 **Introduction to Electro-Optical Engineering** (3) An introduction covering several fundamental areas of modern optics, optical processes, and devices.
Effective: Spring 1998
Prerequisite:

E E 330 **Engineering Electromagnetics** (4) Static electric and magnetic fields; solutions to static field problems, Maxwell's equations; electromagnetic waves; boundary conditions; engineering applications.
Effective: Spring 2008
Prerequisite:

E E 331 **Electromagnetic Fields and Waves** (3) Electromagnetic field theory and applications; Maxwell's equations; plane wave propagation; boundary conditions; basic antenna theory; impedance matching.
Effective: Spring 2008
Prerequisite:

E E 340 **Introduction to Nanoelectronics** (4) Introduction to the physics and technology of nanoelectronic devices.
Effective: Summer 2012
Prerequisite:

E E 341 **Semiconductor Device Principles** (3) Quantitative description of properties and behavior of materials with application to integrated circuits, photonic devices, and quantum wellf devices.
Effective: Spring 2008
Prerequisite:

E E 350 **Continuous-Time Linear Systems** (4) Introduction to continuous-time linear system theory: differential equation models, sinusoidal steady-state analysis, convolution, Laplace transform and Fourier analysis.
Effective: Spring 1999
Prerequisite:

E E 351 **Discrete-Time Linear Systems** (3) Introduction to discrete-time signal processing: sampling, linear time-invariant systems, discrete-time Fourier transform and discrete Fourier transform, Z transform.
Effective: Summer 1998
Prerequisite:
E E 352 Signals and Systems: Continuous and Discrete-Time (4) Transient response, frequency response, Bode plots, resonance, filters, Laplace transform, Fourier series and transform, discrete-time signals/ systems; sampling z-transform.
Effective: Spring 2008
Prerequisite:

E E 353 Signals and Systems: Continuous and Discrete-Time (3) Fourier series and Fourier transform; discrete-time signals and systems and their Fourier analysis; sampling; z-transform.
Effective: Spring 2008
Prerequisite:

E E 360 Communications Systems I (3) Generic communication system; signal transmission; digital communication systems; amplitude modulation; angle modulation.
Effective: Spring 2008
Prerequisite:

E E 362 (CMPEN 362) Communication Networks (3) Data transmission, encoding, link control techniques; communication network architecture, design; computer communication system architecture, protocols.
Effective: Spring 2011
Prerequisite: Concurrent: STAT 301 or STAT 318 or STAT 401 or STAT 414 or STAT 418

E E 380 Introduction to Linear Control Systems (3) State variables; time-domain and frequency-domain design and analysis; design of feedback control systems; Root Locus.
Effective: Spring 2008
Prerequisite:

E E 383 Signals and Controls Laboratory (1) Design, computer simulation, and practical implementation of systems in the areas of filtering, digital signal processing, and controls.
Effective: Spring 2008
Concurrent: E E 352 ; E E 380

E E 387 Energy Conversion (3) Modeling of induction machines, synchronous machines, transformers, and transmission lines.
Effective: Spring 2008
Prerequisite:

E E 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

E E 396H Independent Studies (1-4) Junior-level honors course involving special individual projects under the direction of an electrical engineering faculty member.
Effective: Fall 1993
Prerequisite:

E E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1993

E E 397E Introduction to Nanoelectronics (3) Introduction to the physics and technology of nanoelectronic devices.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

E E 400 Engineering Design Concepts (3) Engineering design and modelling, engineering economy, project planning, capstone project selection, and technical communication skills.
Effective: Spring 2008
Prerequisite:

E E 401 Electrical Design Projects (3) Group design projects in the areas of electronics and electrical/computer systems.
Effective: Spring 2008
Prerequisite:

E E 403M Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: ENGL 202C

E E 403W Senior Project Design (3) Project designs of electrical engineering systems, encompassing various subdisciplines within Electrical Engineering, with an emphasis on technical communications skills.
Effective: Spring 2008
Prerequisite: Concurrent: ENGL 202C

E E 405 Capstone Proposal Preparation (1) Performing the initial research needed for the capstone course, and the preparation of the written project proposal.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

E E 405 **Capstone Proposal Preparation** (1) Performing the initial research needed for the capstone course, and the preparation of the written project proposal. Effective: Fall 2012 Future: Fall 2012

Prerequisite:

Prerequisite:

E E 410 **Linear Electronic Design** (3) Linear circuit design via integrated circuit processes; A/D converters, switched capacitor filters, phase lock loops, multipliers, and voltage-controlled oscillators. Effective: Spring 2008

Prerequisite:

E E 413 **Power Electronics** (3) Switch-mode electrical power converters. Electrical characteristics and thermal limits of semiconductor switches. Effective: Spring 2008 Ending: Summer 2012

Prerequisite:

E E 416 (CMPEN 416) **Digital Integrated Circuits** (3) Analyses and design of digital integrated circuit building blocks, including logic gates, flip-flops, memory elements, analog switches, multiplexers, and converters. Effective: Spring 2008

Prerequisite:

E E 417 (CMPEN 417) **Digital Design Using Field Programmable Devices** (3) Field programmable device architectures and technologies; rapid prototyping using top down design techniques; quick response systems. Effective: Spring 2008

Prerequisite:

E E 420 **Electro-optics: Principles and Devices** (3) Spatially linear system and transform; diffraction theory, partial coherence theory, optical image detection, storage and display, holography. Effective: Spring 1997

Prerequisite:

E E 421 **Optical Fiber Communications** (3) Operational principles of optical components, including sources, fibers and detectors, and the whole systems in optical fiber communications. Effective: Spring 2008

Prerequisite:

E E 422 **Optical Engineering Laboratory** (3) Hands-on experience covering areas of optical transforms, electro-optics devices, signal processing, fiber optics transmission, and holography. Effective: Fall 1993

Prerequisite:

E E 424 **Principles and Applications of Lasers** (3) Principles of lasers--generation, propagation, detection and modulation; applications in fiber optics communication, remote sensing, holography, optical switching and processing. Effective: Spring 2008

Prerequisite:

Prerequisite:

E E 432 **UHF and Microwave Engineering** (3) Transmission line and wave guide characteristics and components; design of UHF-microwave amplifiers, oscillators, and filters; measurement techniques; design projects. Effective: Spring 1998

Prerequisite:

E E 438 **Antenna Engineering** (3) Radiation from small antennas, linear antenna characteristics, arrays of antennas, impedance concepts and measurements, multifrequency antennas, and aperture antennas. Effective: Spring 2001

Prerequisite:

E E 439 **Radiowave Propagation in Communications** (3) Radiowave propagation in mobile, terrestrial, and satellite communications; applications at microwave and lower frequencies. Effective: Spring 2008

Prerequisite:
E E 441 Semiconductor Integrated Circuit Technology (3) An overview of fundamentals of processes involved in silicon integrated circuit fabrication through class lectures and hands-on laboratory.
Effective: Spring 2008
Prerequisite:

E E 442 Solid State Devices (3) The physics of semiconductors as related to the characteristics and design of solid state electronic devices.
Effective: Spring 2008
Prerequisite:

E E 450 Signal and Image Processing (3) Linear system analysis in one-dimension and two-dimensions, emphasis on filtering; multi-dimensional signal analysis; image enhancement and reconstruction; computer simulation applications.
Effective: Spring 2008
Prerequisite:

E E 453 Fundamentals of Digital Signal Processing (3) Design of FIR and IIR filters; DFT and its computation via FFT; applications of DFT; filter implementation; finite arithmetic effects.
Effective: Spring 2008
Prerequisite:

E E 454 (CMPEN 454) Fundamentals of Computer Vision (3) Introduction to topics such as image formation, segmentation, feature extraction, shape recovery, object recognition, and dynamic scene analysis.
Effective: Spring 2008
Prerequisite:

E E 455 (CMPEN 455) An Introduction to Digital Image Processing (3) Overview of digital image processing techniques and their applications; image sampling, enhancement, restoration, and analysis; computer projects.
Effective: Spring 2008
Prerequisite:

E E 456 (E SC 456, EGEE 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not applicable.
Effective: Spring 2008
Prerequisite:

E E 458 Digital Image Processing and Computer Vision (3) Principles of DSP and computer vision, including sensing preprocessing, segmentation, description, recognition, and interpretation.
Effective: Spring 2008
Prerequisite:

E E 460 Communication Systems II (3) Probability fundamentals, digital/analog modulation/demodulation, system noise analysis, SNR and BER calculations, optimal receiver design concepts, introductory information theory.
Effective: Spring 2008
Prerequisite:

E E 461 Communications I (4) Element of analog and digital communication systems, AM, FM, and digital modulation techniques, receivers, transmitters, and transmission systems, noise.
Effective: Spring 2008
Prerequisite:

E E 471 (AERSP 490, NUC E 490) Introduction to Plasmas (3) Plasma oscillations; collisional phenomena; transport properties; orbit theory; typical electric discharge phenomena.
Effective: Spring 2008
Prerequisite:

E E 472 (AERSP 492) Space Astronomy and Introduction to Space Science (3) The physical nature of the objects in the solar system; the earth's atmosphere, ionosphere, radiation belts, magnetosphere, and orbital mechanics.
Effective: Spring 2008
Prerequisite:

E E 474 Satellite Communications Systems (3) Overview of satellite communications systems, principles, space platforms, orbital mechanics, up/down links and link budgets, modulation techniques.
Effective: Spring 2008
Prerequisite:

E E 477 (METEO 477) Fundamentals of Remote Sensing Systems (3) The review of fundamental physical properties leads into discussions of various techniques, including imaging, spectroscopy, radiometry, and active sensing.
Effective: Spring 2008
Prerequisite:

E E 480 Linear Systems: Time Domain and Transform Analysis (3) Signals and systems representations, classifications, and analysis using: Difference and Differential equations, Laplace transform, z-transform, Fourier series, FT, FFT, DFT.
Effective: Spring 2008
Prerequisite:

E E 481 Control Systems (4) Classical/modern approaches to system analysis/design; time/frequency domain modeling, stability, response, optimization, and compensation.
Effective: Spring 2008
Prerequisite:
E E 482 Introduction to Digital Control Systems (3) Sampling and hold operations; A/D and D/A conversions; modeling of digital systems; response evaluation; stability; basis of digital control; examples.
Effective: Spring 2008
Prerequisite:

E E 483 Introduction to Automation and Robotics Systems (3) Introduction to robotics systems with emphasis on robotic motion and control, and robotic components such as actuators and sensors.
Effective: Summer 2008
Prerequisite:

E E 484 Control System Design (3) Analysis and design of automatic control systems using time, frequency domain and state variable methods.
Effective: Spring 2008
Prerequisite:

E E 485 Energy Systems and Conversion (3) Overview of energy alternatives available, and study of theory of operation and models of major energy conversion devices.
Effective: Spring 2008
Prerequisite:

E E 487 Electric Machinery and Drives (3) Analysis of variable-speed drives comprised of AC electric machines, power converters, and control systems.
Effective: Summer 2007
Prerequisite:

E E 488 Power Systems Analysis I (3) Fundamentals, power transformers, transmission lines, power flow, fault calculations, power system controls.
Effective: Spring 2008
Prerequisite:

E E 489 Power Systems Analysis II (3) Symmetrical components, unbalanced networks, unsymmetrical faults, unbalanced operation of rotating machines, transient transmission line modeling, system protection.
Effective: Spring 2008
Prerequisite:

E E 494 Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Fall 1993

E E 494H Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course.
Effective: Spring 2008

E E 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

E E 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1993

E E 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1993

E E 497A Principles of Signal Integrity (3) Transmission lines and reflections, lossy lines, rise time, material properties, cross talk in transmission lines. Time and frequency domain measurements.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E E 497B IC Based Electronics Design (3) Design and applications of electronic circuits and systems using operational amplifiers and analog integrated circuits.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: E E 311

E E 497B Probability and Stochastic Processes for Electrical Engineers (3) This statistics elective, specifically for EE students, presents probability theory/applications used in communications and other areas of EE.
Prerequisite:

E E 497E Space Systems Engineering Seminar (1) This 1-credit seminar course is part of the Space Systems Engineering Certificate program.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

E E 497E Software-Defined Radio (3) Software-defined Radio (SDR) combines elements of communication systems and digital signal processing to create a software-based communication system.

The Pennsylvania State University
Prerequisite: Concurrent: E E 453

E E 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
**Effective**: Summer 2007

Last Import from UCM: June 2, 2012 12:27 PM
Electrical Engineering Technology (EET)

EET 002S Introduction to Engineering Technology (1) Introduction to engineering technology and the use of computer methods for analyzing and solving engineering technology problems; microcomputer fundamentals, word processing, spreadsheet, and database software packages.
Effective: Fall 2007

EET 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2007

EET 100 Electric Circuits, Power, and Electronics (3) AC and DC circuits; machinery; controls; and introduction to electronic devices, circuits, and instrumentation.
Effective: Fall 2010
Prerequisite:

EET 101 Electrical Circuits I (3) Fundamental theory of resistance, current, and voltage; capacitance, inductance. Direct current and alternating current concepts through series/parallel circuits.
Effective: Fall 2007
Prerequisite:

EET 105 Electrical Systems (3) Introduction to the study of electrical systems, with a focus on applications in our society.
Effective: Spring 2008
Prerequisite:

EET 109 Electrical Circuits Laboratory I (1) Use of basic electrical instruments to measure AC and DC voltage, current, power, resistance. Introduction to report writing.
Effective: Fall 2007
Prerequisite:

EET 114 Electrical Circuits II (4) Direct and alternating current circuit analysis including Thevenin and Norton Theorems, mesh, node analysis. Capacitance, inductance, resonance, power, polyphase circuits.
Effective: Fall 2008
Prerequisite: Concurrent: EET 114

EET 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2007

EET 205 Semiconductor Laboratory (1) Laboratory study of semiconductor devices and circuits.
Effective: Fall 2007
Concurrent: EET 210

EET 210 Fundamentals of Semiconductors (2) Semiconductor and circuit theory including power supplies, amplifiers, power amplifiers, oscillators, and introduction to op-amps.
Effective: Fall 2007
Prerequisite:

EET 212W Op Amp and Integrated Circuit Electronics (4) Analysis and design of amplifier, rectifier, filter, comparator, oscillator, and other practical circuits using op amps and integrated circuit devices.
Effective: Summer 2008 Ending: Summer 2012
Prerequisite:

EET 212W Op Amp and Integrated Circuit Electronics (4) Analysis and design of amplifier, rectifier, filter, comparator, oscillator, and other practical circuits using op amps and integrated circuit devices.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

EET 213W Fundamentals of Electrical Machines Using Writing Skills (5) AC and DC machinery principles and applications; introduction to magnetic circuits, transformers, and electrical machines including laboratory applications.
Effective: Fall 2007
Prerequisite:

EET 214 Electric Machines and Energy Conversion (3) Fundamental operating principles, characteristics, and analysis of electric machines, transformers, and power systems.
Effective: Spring 2008
Prerequisite:

EET 215 Electric Machines and Energy Conversion Laboratory (1) Laboratory study of electric machine applications,
transformers, and power systems.
Effective: Spring 2008
Prerequisite: Concurrent: EET 214

EET 216 Linear Electronic Circuits (3) Theoretical study of linear electronic devices and circuits, including field effect transistors, integrated circuits, and operational amplifiers.
Effective: Fall 2007
Prerequisite:

EET 220 Programmable Logic Controllers (2) An introduction to programmable logic controllers (PLCs); topics covered include programming, troubleshooting, networking, and industrial applications.
Effective: Spring 2008
Prerequisite:

EET 221 Linear Electronics Laboratory (1) Laboratory study of transistors; study of differential and operational amplifiers. Emphasis is placed on circuit design.
Effective: Fall 2007
Prerequisite: Concurrent: EET 216

EET 275 Introduction to Programmable Logic Controls (3) Principles of industrial control, programming, interfacing, input/output devices, and applications.
Effective: Fall 2011 Ending: Summer 2012
Prerequisite:

EET 275 Introduction to Programmable Logic Controls (3) Principles of industrial control, programming, interfacing, input/output devices, and applications.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

EET 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2007
EET 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2007

EET 311 Alternating Current Circuits (4) Circuit analysis including controlled sources, op amps, and ideal transformers, and calculus relationships; one/two port network models; three- phase and industrial loads.
Effective: Fall 2007
Prerequisite: Concurrent: MATH 141

EET 312 Electric Transients (4) Applied differential equations; in-depth study of transient electricity using Laplace, Fourier transforms, and state-space methods; Bode plots and application.
Effective: Spring 2010
Prerequisite: Concurrent: MATH 141

EET 315 Linear and Discrete System Analysis (3) Introduction to the principles and operation of linear and discrete systems.
Effective: Fall 2007
Prerequisite:

EET 320 Industrial Electricity and Electronics (3) Basic circuit theory applied to DC/AC circuits containing resistors, inductors, capacitors; magnetic circuits; power; control; electronic applications.
Effective: Spring 2008
Prerequisite:

EET 330 Wireless Communications Systems (3) Wireless communications technology, transceivers, modulation techniques, serial communications, and applications. Personal area networks, local area networks, RFID systems.
Effective: Spring 2011
Prerequisite:

EET 331 Electronic Design (4) Analog/Digital and Digital/Analog Converters; advanced and nonlinear Op-Amp circuit design; noise analysis; Active Filters and Waveform Generators.
Effective: Spring 2008
Prerequisite: Concurrent: EET 312

Effective: Fall 2007
Prerequisite:

EET 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2007

EET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
EET 402 High-Frequency Circuit Design (4) Electromagnetic theory as applied to the design of antennas, waveguides, and high-frequency components.
Effective: Fall 2007
Prerequisite:

EET 408 Communication System Design (4) Communication system principles including modulation techniques, encoding and decoding, noise, and elementary probability.
Effective: Fall 2007
Prerequisite:

EET 409 Power System Analysis I (4) Analysis and applications study of power utility electrical equipment such as: synchronous machines, transformers, capacitors and transmission lines.
Effective: Fall 2007
Prerequisite:

EET 410 Power System Analysis II (4) Principles of load studies, fault analysis, stability and protection of the public electrical power system.
Effective: Fall 2007
Prerequisite:

EET 413 Optoelectronics (4) Principles and applications of optoelectronics including sources, detectors, imagers, transmitters, fiber optics, systems and integrated optics.
Effective: Fall 2007
Prerequisite:

EET 414 Biomedical Instrumentation (4) Introduction to transducers and circuits used to detect and process medical physiological data with focus on cardiovascular and respiratory systems.
Effective: Fall 2007
Prerequisite:

EET 416 Fluid and Thermal Design in Electrical Systems (3) Introduction to basic electrical engineering technology concepts and applications of thermodynamics, heat transfer, and fluid power in electrical/electronic systems.
Effective: Fall 2007
Prerequisite:

EET 419 Project Proposal Preparation (1) Performing the initial research needed for the senior project course, and the preparation of the written project proposal.
Effective: Fall 2007
Prerequisite:

EET 420W Electrical Design Project (3) Design, construction, and testing of a project either selected by the students with approval or assigned by the instructor.
Effective: Spring 2008
Prerequisite:

EET 431 Advanced Electronic Design (4) Applications of analog and digital integrated circuits; introduction to analog and digital communication techniques.
Effective: Fall 2007
Prerequisite:

EET 433 Control System Analysis and Design (4) Classical and modern control analysis and design approaches, such as Laplace and state-space, aided by analog and digital computers.
Effective: Fall 2007
Prerequisite:

EET 437 Advanced Communications, Telecommunications (3) Telecommunication systems, telephone, television, data networks, computer networks, integrated voice and data.
Effective: Fall 2007
Prerequisite:

EET 440 Applied Feedback Controls (3) Analysis and design of analog and digital feedback control systems.
Effective: Fall 2007
Prerequisite:

EET 450 Manufacturing Related Topics in Electrical Systems (3) Manufacturing methods, including reliability and quality control considerations as applied to electrical and electronic systems.
Effective: Fall 2007
Prerequisite:

EET 456 Automation and Robotics (4) Introduction to robotic systems and automation. Emphasis includes robot motion, control, and components, as well as programming PLCs.
Effective: Spring 2008
Prerequisite:

EET 458 Digital Signal Processing (3) Continuous and discrete time signals, Fourier series and transform, z-transform, sampling, FIR and IIR filters, FFT, DFT, and applications.
Effective: Fall 2007
Prerequisite:
EET 461 Power Electronics (3) Fundamentals of power electronic circuits, semiconductor power devices, power conversion equipment. Circuit topologies, closed-loop control strategies, equipment design consideration. Effective: Fall 2007
Prerequisite:

EET 475 Intermediate Programmable Logic Controllers (3) Application of programmable logic controllers (PLCs) to data acquisition, automation and process control. Effective: Fall 2007
Prerequisite:

Prerequisite:

EET 480 Electrical and Computer Systems Senior Seminar (1) Concepts of career development; project management; engineering design documentation; industrial design examples. Effective: Spring 2011
Prerequisite:

EET 490W Electrical/Computer Senior Design Project (3) Individual or group design projects in electrical and computer engineering technology. Effective: Fall 2007
Prerequisite:

EET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experience, practica or internships. Written and oral critique of activity required. Effective: Fall 2007
Prerequisite:

EET 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2007
Prerequisite:

EET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007
Prerequisite:
Electro-Mechanical Engineering Technology (EMET)

EMET 222 **Mechanics for Technology** (4) Strength of materials and dynamics, including axial, shear, torsion, and bending stresses, beam deflection, kinematics and kinetics of rigid bodies.
Effective: Spring 2012
Prerequisite: Concurrent: MATH 083 or MATH 140

EMET 230 **Computerized I/O Systems** (3) Introduction to concepts of structured programming, data acquisition, computerized interfaces, and graphical user interfaces.
Effective: Spring 2012
Concurrent: EET 212W

EMET 325 **Electric Drives** (3) Study of operation, application and specification of AC/DC electrical drive motors, servos, actuators, control units and power converters.
Effective: Spring 2008
Prerequisite:

EMET 326 **Mechanical Drives** (3) Transmission of force and motion using linkages, cams, gears, belts, and hydraulic and pneumatic drives.
Effective: Spring 2012
Prerequisite:

EMET 330 **Measurement Theory and Instrumentation** (3) Fundamentals of measuring, transmitting, and recording temperature, pressure, flow, force, displacement, and velocity; laboratory component emphasizes systems used in manufacturing.
Effective: Fall 2008 Ending: Summer 2012
Prerequisite:

EMET 394 **EMET Student Design Competition** (1-3 per semester/maximum of 3) Students collaborate on research and design of appropriate solutions to real-life problems and projects.
Effective: Summer 2011
Prerequisite:

EMET 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite:

EMET 396 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2001

EMET 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

EMET 397A **Introduction to Applied Finite Element Analysis** (3) Students will learn how to create 2-D and 3-D finite element models using state-of-the-art finite element software.
Effective: Summer 2012 Ending: Summer 2012

EMET 401 **Engineering Technology Career Development** (1) Career planning, preparation, and decision making for students enrolled in an Engineering Technology baccalaureate degree program.
Effective: Spring 2008
Prerequisite:

EMET 402 **Fundamentals of Engineering Review** (2) Overview of the topics covered on the Fundamentals of Engineering Exam administered by the NCEES for the purpose of earning a Professional Engineering license.
Effective: Spring 2008
Prerequisite:

EMET 403 **Electromechanical Design Project Preparation** (1) This course involves the planning and preliminary design activities for the capstone electro-mechanical design project.
Effective: Spring 2008
Prerequisite:

EMET 405 Fluid Mechanics and Thermodynamics (4) Introduction to the principles of fluid mechanics, thermodynamics, and heat transfer with emphasis on the applications to practical problems.

Effective: Spring 2012
Prerequisite:

EMET 410 Automated Control Systems (4) Introduction to analog feedback control theory and computer simulation and analysis using Matlab; laboratory study of feedback systems.

Effective: Fall 2008 Ending: Summer 2012
Prerequisite:

EMET 410 Automated Control Systems (4) Introduction to analog feedback control theory and computer simulation and analysis using Matlab; laboratory study of feedback systems.

Effective: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: EMET 330

EMET 430 Programmable Logic Controls II (3) A second course in PLCs covering sequencing/shift instructions, program flow control, data and math instructions, PID loops, and machine communication.

Effective: Spring 2012
Prerequisite:

EMET 432 Electromechanical Devices for Biomedical Instrumentation (3) A study of electromechanical devices, transducers, and instrumentation used in the biomedical field.

Effective: Summer 2006
Prerequisite:

EMET 440 Electro-Mechanical Project Design (3) Planning, development, and implementation of electro-mechanical design project; includes formal report writing, project documentation, group presentations, project demonstrations.

Effective: Fall 2008
Prerequisite:

EMET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

Effective: Spring 2002
Prerequisite:

EMET 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2001

EMET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 2002
Elementary Education in Multicultural Settings (ELEDM)

ELEDM 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

ELEDM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2005

ELEDM 395W Field Experience for Urban Teacher Preparation (2 per semester, maximum of 6) Structured opportunities for investigating and understanding the work of teachers within urban schools and communities.
Effective: Spring 2005
Prerequisite: Concurrent: ELEDM 402 SPLED 444 ELEDM 400 ELEDM 401A OR

ELEDM 400 Schools, Families and Communities (3) Cultural and ethnic dimensions of family-school-community communications and the resultant impact on student-teacher relations.
Effective: Spring 2005
Prerequisite: Concurrent: EDTHP 411 ELEDM 395W

ELEDM 401A Teaching Reading in Multicultural Elementary Schools (3) An exploration of current research, practices, strategies and materials in the development of reading skills in multicultural schools.
Effective: Summer 2005
Prerequisite: Concurrent: ELEDM 395W ELEDM 401B ELEDM 401C

ELEDM 401B Teaching Language Arts in Multicultural Elementary Schools (3) An exploration of current research, practices, strategies and materials in the development of language arts skills in multicultural schools.
Effective: Summer 2005
Prerequisite: Concurrent: ELEDM 395W ELEDM 401B ELEDM 401C

ELEDM 401C Teaching Children's Literature in Multicultural Elementary Schools (3) Survey of children's literature with an emphasis on multicultural literature and its application in multicultural elementary classrooms.
Effective: Summer 2005
Prerequisite: Concurrent: ELEDM 395W ELEDM 401A ELEDM 401B

ELEDM 402 Teaching and Assessment in Multicultural Elementary Schools (3) Multicultural education; elementary education; pluralistic pedagogical foundations, assessment, child's play, instrumental activities, State/Federal initiatives, and parent programs.
Effective: Spring 2006
Prerequisite: Concurrent: ELEDM 395W

ELEDM 403 Using Science and Mathematics Knowledge and Assessment in Urban Settings (6) Knowledge, skills, and assessment pertaining to science and mathematics education in urban schools.
Effective: Spring 2005
Prerequisite: Concurrent: ELEDM 395W

ELEDM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

ELEDM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Energy Bus & Finance (E B F)

E B F 200 (GS) Introduction to Energy and Earth Sciences Economics (3) Resource use decisions and their effect on local, national, and global development.
Effective: Fall 2010

E B F 301 Global Finance for the Earth, Energy, and Materials Industries (3) The aim of this course is to introduce fundamental concepts of financial management and illustrate their global applications.
Effective: Fall 2009

E B F 304M Global Management for the Earth, Energy, and Materials Industries (3) This class is designed to introduce students to modern management and organization strategies for resource businesses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E B F 304W Global Management for the Earth, Energy, and Materials Industries (3) This class is designed to introduce students to modern management and organization strategies for resource businesses.
Effective: Fall 2010
Prerequisite:

E B F 401 Strategic Corporate Finance for the Earth, Energy, and Materials Industries (3) Financial decisions corporations in the earth science area make and the tools and analyses used to make these decisions.
Effective: Fall 2010
Prerequisite:

E B F 472 Quantitative Analysis in Earth Sciences (3) Quantitative analysis of decision making in atmospheric/geophysical sciences: exploratory data analysis, quantification of uncertainty, parametric/non-parametric testing, forecasting, time series analysis.
Effective: Fall 2010
Prerequisite:

E B F 473 Risk Management in Energy Industries (3) Analysis of strategies for mitigating business risk from market, atmospheric, geophysical uncertainties including the use of energy/mineral commodity futures/options, weather derivatives, and insurance.
Effective: Fall 2010
Prerequisite:

E B F 484 Energy Economics (3) Economics of energy demand, production, storage, and pricing; advanced energy policy issues including regulation, climate change, new energy technology.
Effective: Spring 2011
Prerequisite:
Energy and Geo-Environmental Engineering (EGEE)

EGEE 012 Energy Science and Engineering Lectures (1) Lectures and discussion by faculty and visiting scientists/engineers on energy science and engineering, job selection, patents, licensing, ethics, and other professional issues and challenges.
Effective: Spring 2008
Prerequisite:

EGEE 101 (GN) (MATSE 101) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

EGEE 101A (GN;IL) (MATSE 101A) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Fall 2007

EGEE 101H (GN) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives.
Effective: Summer 2009

EGEE 102 (GN) Energy Conservation for Environmental Protection (3) Exposure to energy efficiency in day-to-day life to save money and energy, and thereby protect the environment.
Effective: Spring 2000

EGEE 102H (GN) Energy Conservation for Environmental Protection (3) Honors level exposure to energy efficiency in day to day life to save money and energy, and thereby protect the environment.
Effective: Summer 2008

EGEE 110 (GN) Safety Science for the Rest of Your Life (3) Survey of applications and technologies associated with safety in our every day life with associated review of scientific principles and economic, social and political impacts.
Effective: Summer 2005

EGEE 120 (GS;US;IL) Oil: International Evolution (3) Survey of the commercial development of the world petroleum industry from various international, historical, business, and cultural perspectives.
Effective: Spring 2006

EGEE 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EGEE 210 (GN) Technological Legacy of Pennsylvania Coal (3) Survey of coal technologies with a review of scientific principles and economic, social, and political impacts.
Effective: Summer 2005

EGEE 211 (GS;US) Social Legacy of Pennsylvania Coal (3) Survey of coal technologies with economic, social, and political impacts discussed with historical, cultural, and international perspectives.
Effective: Summer 2005

EGEE 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1999

EGEE 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

EGEE 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1999

EGEE 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EGEE 302 Principles of Energy Engineering (3) Basic engineering calculations and mathematical methodologies on
material and energy balances and reaction rates during chemical transformations in energy systems.

Effective: Summer 2007
Prerequisite:

EGEE 304 Heat and Mass Transfer (3) Introduces the fundamentals of heat and mass transfer. Conduction, convection, radiation, and diffusion mass transfer will be emphasized.
Effective: Fall 2009
Prerequisite:

EGEE 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

EGEE 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EGEE 401 Energy in a Changing World (3) Energy is in transition, with increased international energy demand and increasing environmental pressures. Energy transitions, approaches, and outcomes are addressed.
Effective: Spring 2008
Prerequisite:

EGEE 411 Energy Science and Engineering Lab (3) A comprehensive introduction to classic and modern laboratory skills and experimentation of relevance to energy science and engineering practice.
Effective: Spring 2008
Prerequisite:

EGEE 412 Green Engineering & Environmental Compliance (3) Material and energy flows as they relate to industrial systems, environmental concerns, pollution prevention, and the development of clean technologies.
Effective: Summer 2007
Prerequisite:

EGEE 420 Hydrogen and Fuel Cells (3) Course will cover the fundamental principles of electrochemical engineering, hydrogen production and storage, and the design and application of the main types of fuel cells.
Effective: Fall 2009
Prerequisite:

EGEE 430 (M E 430) Introduction to Combustion (3) Concepts related to laminar and turbulent premixed and nonpremixed combustion with applications to propulsion and stationary systems.
Effective: Fall 2009
Prerequisite:

EGEE 433 Physical Processes in Energy Engineering (3) Introduces fluid flow, heat transfer, phase equilibrium and mass transport phenomena in energy separation processes.
Effective: Summer 2007
Prerequisite:

EGEE 436 Modern Thermodynamics for Energy Systems (3) Thermodynamics of external fields, theory of stability and fluctuations, irreversible and non-linear thermodynamics, and bifurcation theory and their applications in energy and environmental processes are discussed.
Effective: Fall 2009
Prerequisite:

EGEE 437 Design of Solar Energy Conversion Systems (3) A review of fundamental concepts in solar energy conversion including photovoltaic (PV) and solar thermal conversion systems.
Effective: Spring 2010
Prerequisite:

EGEE 438 Wind and Hydropower Energy Conversion (3) Principles of sustainability and renewable energy conversion with emphasis on wind and hydrokinetic energy resources.
Effective: Spring 2012
Prerequisite:

EGEE 441 Electrochemical Energy Conversion (3) Course covers fundamental principles of electrochemistry, including electrochemical thermodynamics, kinetics, catalysis, and corrosion and focuses on applications such as fuel cells, batteries, and photovoltaics. Each application covers: principles of method, criteria determining performance, present state of development, and advantages/disadvantages. Laboratory demonstration of the performance (current-voltage) measurements of an electrochemical converter is scheduled in this course.
Effective: Fall 2009 Ending: Summer 2012
Prerequisite:
EGEE 441 Electrochemical Engineering Fundamentals (3) Course covers fundamental principles of electrochemistry, including electrochemical thermodynamics, kinetics, catalysis, and corrosion and focuses on applications such as fuel cells, batteries, and photovoltaics. Each application covers: principles of method, criteria determining performance, present state of development, and advantages/disadvantages. Laboratory demonstration of the performance (current-voltage) measurements of an electrochemical converter is scheduled in this course.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

EGEE 451 Energy Conversion Processes (3) Emphasizes processes for conversion of fossil fuels, nuclear and biomass to other fuel forms as transportation fuels and electricity.
Effective: Summer 2007
Prerequisite:

EGEE 455 Materials for Energy Applications (3) Overview of key principles and technologies for materials relevant to energy applications, including membranes, catalysis, supercapacitors, adsorbents, and semi-conductors.
Effective: Summer 2007
Prerequisite:

EGEE 456 (E SC 456, E E 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not applicable.
Effective: Spring 2008
Prerequisite:

EGEE 464W Energy Design Project (3) A team and capstone design project on an industrial energy-related problem.
Effective: Spring 2008
Prerequisite:

EGEE 470 Air Pollutants from Combustion Sources (3) Generation of pollutants in combustion chambers; reduction by combustion control; pre- and post-combustion treatment of fuels and effluents.
Effective: Fall 2009
Prerequisite:

EGEE 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1999

EGEE 494A Research Project (2) Supervised research on a selected topic of energy science and engineering and preparation of written and oral presentation of the research results.
Effective: Summer 2007
Prerequisite:

EGEE 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EGEE 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1999

EGEE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1999

EGEE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 497A Chemistry and Processing of Biomass for Alternative Fuel Production (3) The course introduces the chemistry and processing of various biomass sources in order to produce liquid fuels and materials.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EGEE 497B Mine Transportation and Haulage Systems (2) Introduction to various mining loading and haulage systems.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EGEE 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

EGEE 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Energy and Mineral Engineering (EME)

EME 301 Thermodynamics in Energy and Mineral Engineering (3) Treatment of classical thermodynamics targeted to the needs of students in the Department of Energy and Mineral Engineering. Effective: Fall 2009
Prerequisite:

EME 303 Fluid Mechanics in Energy and Mineral Engineering (3) Treatment of fluid mechanics targeted to the needs of students in the Department of EME. Effective: Summer 2009
Prerequisite:

EME 407 Electrochemical Energy Storage (3) Electrochemical concepts in energy storage devices, cell construction and materials involved in batteries and capacitors, electrochemical testing methods and applications. Effective: Spring 2012
Prerequisite:

EME 432 (GEOG 432) Energy Policy (3) Analysis, formulation, implementation, and impacts of energy-related policies, regulations, and initiatives. Effective: Summer 2010
Prerequisite:

EME 444 Global Energy Enterprise (3) Industry perspective on the resources, technologies, engineering approaches and externalities involved in satisfying worldwide energy demand profitably and sustainably. Effective: Summer 2010
Prerequisite:

EME 460 Geo-resource Evaluation and Investment Analysis (3) The course covers engineering evaluation of geo-resources, present value and rate of return analysis, mineral property and reserve estimation, and cost estimation and engineering economy concepts applied to geo-resources including energy and minerals. Effective: Spring 2011
Prerequisite:

EME 466 Energy and Sustainability in Society (3) Capstone course in energy technology and policy options for reduced-carbon communities. Covering agent/stakeholder relations, sustainability, communication and public engagement. Effective: Summer 2010
Prerequisite:
Energy, Environmental, and Mineral Economics (ENNEC)

ENNEC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ENNEC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite:
ENNEC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2002

ENNEC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

ENNEC 497A Electricity Demand Response (2) This class explores electricity demand response, where customers utilize the "smart grid" to reduce demand during periods of high prices.
Effective: Summer 2012 Ending: Summer 2012

ENNEC 499 (IL) Foreign Study--Mineral Industries (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Engineering (ENGR)

ENGR 096 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

ENGR 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

ENGR 097S First Year Seminars-Engineering (1-2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 097S First Year Seminars-Engineering (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

ENGR 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

ENGR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ENGR 100S Introduction to Engineering (1) A seminar providing information about different engineering majors, coping with college life, and exploring educational and career goals.
Effective: Fall 1999

ENGR 194 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2011

ENGR 195 Engineering Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1985

ENGR 195A Engineering Internship (1 credit per semester/maximum of 4 credits) A supervised work experience in a professionally relevant position in research, industry or government.
Effective: Spring 2003

ENGR 195I (IL) Engineering International Internship (0.5- 4 per semester/maximum of 4) A supervised work experience in a professionally relevant position in research, industry, government or service sector.
Effective: Spring 2012

ENGR 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

ENGR 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2009

ENGR 197A Cultural Impact on Engineering in China (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

ENGR 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

ENGR 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

The Pennsylvania State University
ENGR 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

ENGR 294H Biodiesel Production (2) This lab course will focus on producing regular batches of biodiesel from used fry oil.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 295 Engineering Co-Op Work Experience I (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/UN grading.)
Prerequisite:
Effective: Spring 2008
ENGR 295A Engineering Cooperative Education (1) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Summer 2003

ENGR 295I (IL) Engineering International Cooperative Education (1) A supervised work experience in research, industry or government relevant to a student's major.
Effective: Spring 2006

ENGR 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1993

ENGR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1985

ENGR 297A Science/Technology/Engineering/Mathematics Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 297A Structure and Society (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

ENGR 297B Technical Game Development (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 297C 2012 Women in Engineering Program Orientation (0.5) An orientation program for first-year women students to provide them with skills and resources necessary for success in engineering.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 297D Multicultural Engineering Program Orientation (0.5) An orientation program for first-year minority students to provide them with skills and resources necessary for success in engineering.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 297F (MGMT 297F) Entrepreneurship Mindset (3) Students explore what entrepreneurial mindset means and its application to social entrepreneurship, intrapreneurship, creative problems solving, opportunity recognition, innovation and career development.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

ENGR 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

ENGR 299A (IL) Green Management and Sustainable Technologies (1) This one credit course provides a platform for knowledge sharing between Penn State students and students from international universities at a two week conference in France that will focus on sustainability and alternative energy.
ENGR 301 (IL) **International Engineering Orientation** (1) This course will prepare engineering students for an international educational experience, including study abroad and international internships.

Effective: Summer 2005

ENGR 310 **Entrepreneurial Leadership** (3) This course develops leadership and entrepreneurial skills using collaborative, problem-based projects, with engineering and business students working in teams.

Effective: Summer 2002

ENGR 312 **Sustainable Energy Entrepreneurship** (3) Three interrelated modules guide students through technical, global/business, and entrepreneurial aspects of sustainable energy.

Effective: Summer 2010

ENGR 320 **Materials Properties Measurement I** (3) Measurement and experimental procedures determination of the mechanical properties of engineered materials under deflection, compression, tension, fracture and fatigue conditions.

Effective: Summer 2010

ENGR 320Y (GS;US;IL) **Design for Global Society** (3) An interdisciplinary study of the engineering design process and the influence of society and culture on design.

Effective: Spring 2012

ENGR 350 **Computational Modeling Methods** (3) Theoretical and hands-on experience of mathematical modeling in mechanical systems; 2D thermal stresses, beam elements, solid modeling and vibrations.

Effective: Summer 2010

ENGR 394 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

Effective: Spring 2011

ENGR 395 **Engineering Co-Op Work Experience II** (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/UN grading.)

Effective: Fall 1987

ENGR 395A **Engineering Cooperative Education** (1-2 per semester) A supervised work experience in research, industry or government relevant to a student's major.

Effective: Summer 2003

ENGR 395I (IL) **Engineering International Cooperative Education** (1-2 per semester) A supervised work experience in research, industry or government relevant to a student's major.

Effective: Spring 2006

ENGR 396 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Spring 2011

ENGR 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Fall 2010

ENGR 397A **Advanced Engineering Communication** (3) This is a required training course for those accepted into the Engineering Ambassadors program.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 397A **Advanced Engineering Communication** (3) This is a required training course for those accepted into the Engineering Ambassadors program.

ENGR 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 2011

ENGR 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2007
ENGR 407 Technology-Based Entrepreneurship (3) Technology innovation coupled with business planning and development. Effective: Spring 2011
Prerequisite:

ENGR 408 (US) Leadership Principles (2) An introduction to an exploration of theories and principles of leadership, supplemented by presentations given by industry and government leaders. Effective: Spring 2006

ENGR 409 (US) Leadership in Organizations (3) Development of leadership skills essential for engineers to guide colleagues or an organization in a productive direction. Effective: Spring 2006

ENGR 411 Entrepreneurship Business Basics (3) Three critical entrepreneurship skills are covered for non-business majors: business finance, intellectual property, and marketing. Effective: Summer 2002
Prerequisite:

ENGR 421 Materials Properties Measurements II (4) Materials powder characterization, compaction and densification techniques, density measurements, micro structural evaluation, thermal and electrical properties of materials. Effective: Summer 2010
Prerequisite:

ENGR 425 (IST 425, MGMT 425) New Venture Creation (3) Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and present to investors. Effective: Spring 2011
Prerequisite:

ENGR 426 (IST 426, MGMT 426) Invention Commercialization (3) Working with Penn State inventions selected by the Intellectual Property Office, student teams define an optimum commercialization path each technology. Effective: Spring 2011
Prerequisite:

ENGR 450 Materials Design and Applications (3) Engineering design considerations for materials selection, organization of property trends of materials families, materials design strategies and property compatibility. Effective: Summer 2010
Prerequisite:

ENGR 490W Senior Design I (1) Analysis of environmental impacts on a design, designing products for the global environment and discussion on engineering ethics and professionalism. Effective: Summer 2010 Ending: Summer 2012
Prerequisite:

ENGR 490W Senior Design I (1) Analysis of environmental impacts on a design, designing products for the global environment and discussion on engineering ethics and professionalism. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

ENGR 491W Senior Design II (3) Capstone of research projects from conception to prototype through industry sponsored collaboration on common technical interests between faculty and student. Effective: Summer 2010
Prerequisite:

ENGR 493 Individual Leadership Experience (1) Approved individual project or internship for students to practice the leadership skills developed in the Engineering Leadership Development Minor. Effective: Fall 2007
Prerequisite:

ENGR 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 1994

ENGR 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

ENGR 495 Engineering Co-Op Work Experience III (1-3) A supervised work experience where the student is employed in an engineering position in industry or government. (To be offered only for SA/Un grading.) Effective: Fall 1987
Prerequisite:

ENGR 495A Engineering Cooperative Education (1-3 per semester) A supervised work experience in research, industry or government relevant to a student's major. Effective: Summer 2003
Prerequisite:

The Pennsylvania State University
ENGR 495I (IL) **Engineering International Cooperative Education** (1-3 per semester) A supervised work experience in research, industry or government relevant to a student's major. Effective: Spring 2006
Prerequisite:

ENGR 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 1993

ENGR 496A **Independent Study in Engineering Leadership Topics** (0.5) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1988

ENGR 497A **HESE Reflection and Research Dissemination** (3) This post-travel course focuses on reflection on topics related to HESE ethics and grassroots diplomacy and workshops on research dissemination. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

ENGR 497C **Global Engineering Teams Seminar** (1) Preparation for a career in international engineering enterprise. Prerequisite for students traveling internationally with the Engineering Leadership Development Program. Students must earn a B or better in this class to qualify for travel. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

ENGR 497D **International Leadership of Enterprise and Development Practicum -- Hungary** (0.5) This practicum is hosted by Corvinus University in Budapest; students attend presentations on Entrepreneurship/Leadership/Business by invited lecturers, tours of local businesses and collaborative activities by PSU and Corvinus University students. Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

ENGR 497F (SCIED 497F) **Fundamentals of Science, Technology & Engineering** (3) A course focusing on physics content, engineering design principles, and elementary science education pedagogy. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 497I **Seminar for Teaching Interns** (0.5) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGR 497K **Social Entrepreneurship** (3) Explore intricacies of social innovation. Work in teams to develop feasibility plans for social ventures in the US, Asia and Africa. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

ENGR 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

Last Import from UCM: June 2, 2012 12:27 PM
Engineering Design (EDSGN)

EDSGN 010 Introductory Engineering Graphics (1) Multiview projections, pictorial drawings, dimensioning, engineering standards, and working drawings.
Effective: Fall 2007

EDSGN 011S Explorations in Design First-Year Seminar (1) Students explore topical issues in engineering design.
Effective: Spring 2007

EDSGN 012S Solar Racers First-Year Seminar (1) Students explore solar energy engineering by designing, building, testing, and racing a model car powered by a photovoltaic panel.
Effective: Spring 2007

EDSGN 013S Ethics of Star Trek First-Year Seminar (1) The Star Trek television series is used as an introduction to ethics, with application to student life and engineering practice.
Effective: Spring 2007

EDSGN 015S Transformations by Design: First-Year Seminar (1) Examination of the social and environmental transformations that follow engineering design, and of the transformations of students by higher education.
Effective: Spring 2007

EDSGN 100 Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2007

EDSGN 100H Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDSGN 100S Introduction to Engineering Design (3) Introduction to engineering design processes, methods, and decision making using team design projects; design communication methods including graphical, verbal, and written.
Effective: Fall 2007

EDSGN 110 Spatial Analysis in Engineering Design (2) Spatial analysis techniques using advanced computer-aided drafting and design systems, with an emphasis on engineering concepts, analysis and design.
Effective: Summer 2010
Prerequisite:

EDSGN 130 Architectural Graphics and CAD (3) Principles of architectural drawing; spatial relations with architectural applications; introduction to computer graphics (CAD) with project.
Effective: Fall 2007

EDSGN 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

EDSGN 210 Tolerancing and Spatial Models (2) Tolerances; form and size; unilateral, bilateral, and symmetric; form control, critical fits, tolerances specifications precedence; applications in spatial models.
Effective: Summer 2010
Prerequisite:

EDSGN 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2004

EDSGN 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2004

EDSGN 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2004

EDSGN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

The Pennsylvania State University
EDSGN 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2008

EDSGN 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

EDSGN 352 **Fundamentals of Community Service Engineering** (1) Students collaborate on community service engineering projects. Course modules cover engineering design, teamwork and topics relevant to project work.
Effective: Summer 2008

EDSGN 394 **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2007

EDSGN 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique or activity required.
Effective: Summer 2007

EDSGN 396 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2007

EDSGN 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2007

EDSGN 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

EDSGN 401 **Engineering Systems Design** (3) Design requirements for complex systems; trade-offs between market opportunities and technology; translation of priorities and needs into an operational concept.
Effective: Spring 2012
Prerequisite:

EDSGN 410 **Robotics Design and Applications** (4) Introduction to robotics, with emphasis on the design of robotics systems through multidisciplinary integration of electrical, mechanical, and software components.
Effective: Spring 2012
Prerequisite:

EDSGN 452 **Projects in Community Service Engineering** (1-2) Students engage in research and design of appropriate solutions to real-life community-based problems and project management of such projects.
Effective: Summer 2008
Prerequisite:

EDSGN 479 (I E 479) **Human Centered Product Design and Innovation** (3) Consumer product design for a global market, incorporating human factors principles and user desires in a multicultural perspective.
Effective: Summer 2010
Prerequisite:

EDSGN 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2004

EDSGN 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

EDSGN 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2004

EDSGN 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2004
EDSGN 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2004

EDSGN 497A HESE Field Experience (0.5) The HESE Field Experience is a hands-on integrated learning, research and entrepreneurial engagement experience for students that have been working on various HESE ventures in the Spring semester.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

EDSGN 497B Solidworks Fundamentals (3) Fundamentals of solidworks.
Effective: Summer 2012 Ending: Summer 2012

EDSGN 497B Solidworks Fundamentals (3) Fundamentals of Solidworks.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDSGN 497C Design for Developing Communities (1) A seminar series related to the context and integrated design of HESE ventures in US, Kenya, Tanzania, Nicaragua and India.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDSGN 497D Open Source 3D Prining (3) Students build, test, and redesign open-course 3D printers, design models, and run a 3D printing service.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

EDSGN 497E Sensor and Controller System (3) Hands-on course covers the interfacing of various sensors and actuators to computers to build proof-of-concept prototypes of innovative products.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDSGN 497G Current CAD Applications (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Summer 2012 Ending: Summer 2012

EDSGN 497G Current CAD Applications (3) Students will use the latest version of AutoCAD as a design tool for 2D and 3D applications in a variety of disciplines.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

EDSGN 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2008

EDSGN 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Engineering Graphics Technology (EG T)

EG T 060 3D Visualization and Spatial Development (1) Supplemental course designed to improve spatial skills through the use of interactive hands-on activities, such as clay modeling and multi-media software. Effective: Summer 2007

EG T 101 Technical Drawing Fundamentals (1) Technical skills and drafting room practices; fundamentals of theoretical graphics; orthographic projection including sectional and auxiliary views; dimensioning. Effective: Summer 1988

EG T 102 Introduction to Computer Aided Drafting (1) A first course presenting an intensive study utilizing a computer assisted drafting and design system to obtain graphic solutions. Effective: Summer 1988

EG T 114 Spatial Analysis and Computer-Aided Drafting (2) Spatial relations of applications in engineering technology with more advanced functionality of computer-aided drafting and design systems. Effective: Fall 2008 Prerequisite:

EG T 119 Introduction to CAD for Electrical and Computer Engineering (2) Introduction to computer-aided drafting (CAD) for Electrical and Computer Engineering Technology students with a focus on three dimensional assemblies. Effective: Summer 2007 Prerequisite:

EG T 120 Introduction to Graphics and Solid Modeling (3) Development of visualization skills; introduction to parametric solids modeling techniques with constrained and unconstrained geometry, and assemblies. Effective: Spring 2007

EG T 121 Applied Solid Modeling (3) Creation of working drawings from solid models; dimensioning, GD&T, fastener, weld and finish symbols, layouts and bill of materials. Effective: Spring 2007 Prerequisite:

EG T 201 Advanced Computer Aided Drafting (2) Application of the principles of engineering graphics; preparation of working drawings; details, examples, and bill of material using CAD. Effective: Fall 2008 Prerequisite:

EG T 205 Transition From 2-D CAD to Solid Modeling (1) Supplemental course designed to introduce students (primarily transfer) to a solid modeling program. Effective: Summer 2007 Prerequisite:

EG T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1988

Last Import from UCM: June 2, 2012 12:27 PM
Engineering Mechanics (E MCH)

E MCH 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 210 **Statics and Strength of Materials** (5) Equilibrium of particles, rigid bodies, frames, trusses, beams, columns; stress and strain analysis of rods, beams, pressure vessels.
Effective: Fall 1983
Prerequisite:

E MCH 210H **Statics and Strength of Materials, Honors** (5) Equilibrium of particles and rigid bodies, frames, trusses, beams, columns; stress and strain analysis of rods, beams, pressure vessels.
Effective: Spring 2008
Prerequisite:

E MCH 211 **Statics** (3) Equilibrium of coplanar force systems; analysis of frames and trusses; noncoplanar force systems; friction; centroids and moments of inertia.
Effective: Spring 2008
Prerequisite:

E MCH 211H **Statics** (3) Equilibrium of coplanar force systems; analysis of frames and trusses; noncoplanar force systems; friction; centroids and moments of inertia.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

E MCH 212 **Dynamics** (3) Motion of a particle; relative motion; kinetics of translation, rotation, and plane motion; work-energy; impulse-momentum.
Effective: Spring 2008
Prerequisite:

E MCH 212H **Dynamics** (3) Motion of a particle; relative motion; kinetics of translation, rotation, and plane motion; work-energy; impulse-momentum.
Effective: Spring 2008
Prerequisite:

E MCH 213 **Strength of Materials** (3) Axial stress and strain; torsion; stresses in beams; elastic curves and deflection of beams; combined stress; columns.
Effective: Spring 2008
Prerequisite:

E MCH 213D **Strength of Materials with Design** (3) Stress and deformation in members under axial, bending, and torsional loads, combined stress; columns. Design with a project.
Effective: Spring 2008
Prerequisite:

E MCH 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

E MCH 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 315 **Mechanical Response of Engineering Materials** (2) Mechanical response measures and design theories for engineering materials; elastic and plastic response as affected by stress, strain, time, temperature.
Effective: Spring 2008
Prerequisite:

E MCH 316 **Experimental Determination of Mechanical Response of Materials** (1) Experimental techniques for mechanical property measurement and structural testing.
Effective: Spring 2008
Prerequisite:

E MCH 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

E MCH 400 **Advanced Strength of Materials and Design** (3) Combined stresses; energy methods; special problems in bending and torsion; plates; thin-walled structures; buckling and stability; design projects.
Effective: Spring 2008
Prerequisite:
E MCH 402 Applied and Experimental Stress Analysis (3) Experimental design of structural and machine components; photoelasticity, electrical resistance strain gauge techniques, Moiré techniques, interferometry, holography. Effective: Spring 2008
Prerequisite:

E MCH 403 Strength Design in Materials and Structures (4) Determination, interpretation, significance, and application of mechanical properties such as plastic flow, fatigue strength, creep resistance, and dynamic properties. Effective: Spring 2008
Prerequisite:

Prerequisite:

E MCH 409 Advanced Mechanics (3) Continuation of E MCH 012; Euler’s equations for the rotation of a rigid body, gyroscopic motion, impulsive motion, Lagrangian mechanics. Effective: Spring 2008
Prerequisite:

E MCH 412 Experimental Methods in Vibrations (3) Systems of one or more degrees of freedom, mechanical vibrations, vibration properties of materials, vibration techniques in nondestructive testing. Effective: Fall 2007
Prerequisite:

E MCH 416H Failure and Failure Analysis of Solids (3) Examination and analysis of the various modes of failure of solid materials. Effective: Spring 2008
Prerequisite:

Prerequisite:

Prerequisite:

E MCH 461 (M E 461) Finite Elements in Engineering (3) Computer modeling and fundamental analysis of solid, fluid, and heat flow problems using existing computer codes. Effective: Spring 2011
Prerequisite:

E MCH 470 (M E 470) Analysis and Design in Vibration Engineering (3) Application of Lagrange’s equations to mechanical system modeling, multiple-degree-of-freedom systems, experimental and computer methods; some emphasis on design applications. Effective: Spring 2008
Prerequisite:

E MCH 471 Engineering Composite Materials (3) Properties, manufacture, forms of composites; micromechanics; orthotropic lamina properties; laminate analysis; theories; failure analysis; thermal, environmental effects. Effective: Spring 2008
Prerequisite:

E MCH 473 (AERSP 473) Composites Processing (3) An introduction to the principles of mechanics governing manufacturing, computer-aided design, and testing of composite materials and structures. Effective: Summer 1988
Prerequisite:

E MCH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

E MCH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983
Engineering Science (E SC)

E SC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

E SC 097S Engineering Applications in Energy and Biomedicine (1) Disappearing w/out a Trace: New Engineering Ideas in Energy & Biomedicine. This course consists of technological challenges awaiting WCE and ethical issues to consider in your professional career.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

E SC 120S Design for Failure--First-Year Seminar (1) This seminar, through the utilization of commonly used examples, discusses the engineering principles which are exploited by such designs.
Effective: Summer 2000

E SC 121S Science/Engineering Fiction and the Engineering Sciences--First-Year Seminar (1) Examines the technology predictions of authors in view of the engineering sciences on which the underlying devices of their stories are based.
Effective: Summer 2000

E SC 122S Weird, Wild, and Wonderful Materials and Devices--First-Year Seminar (1) First-year seminar that surveys the use of novel materials and material systems to create practical devices.
Effective: Summer 2000

E SC 123S Catastrophic Failures--First-Year Seminar (1) First-year seminar that explores design deficiencies through the study of case histories of a number of famous failures.
Effective: Summer 2000

E SC 124S Green Engineering--First-Year Seminar (1) This First-year seminar introduces students to basic concepts in green engineering practices and processes.
Effective: Fall 2001

E SC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

E SC 211 Material, Safety and Equipment Overview for Nanotechnology (3) Nanotechnology processing equipment and materials handling procedures with a focus on safety, environment, and health issues.
Effective: Fall 2011
Prerequisite:
E SC 212 Basic Nanotechnology Processes (3) Step-by-step description of equipment and processes needed in top-down, bottom-up, and hybrid nanotechnology processing.
Effective: Fall 2011
Concurrent: E SC 211

E SC 213 Materials in Nanotechnology (3) The use of materials for nanotechnology as well as the unique material properties available at the nano-scale.
Effective: Fall 2007
Concurrent: E SC 211 E SC 212

E SC 214 Patterning for Nanotechnology (3) Lithographic process from substrate preparation to exposure; process from development through inspection; advanced optical lithographic techniques.
Effective: Fall 2011
Concurrent: E SC 211 E SC 212

E SC 215 Materials Modification in Nanotechnology Applications (3) Processing steps used in modifying material properties in nanotechnology.
Effective: Fall 2011
Concurrent: E SC 211 E SC 212

Effective: Fall 2011
Concurrent: E SC 211 E SC 212

E SC 261M Computational Methods in Engineering (3) Modeling, solving engineering problems using FORTRAN, software libraries, graphics. Reports on root search, curve fitting, finite differences, algebraic equations.
Effective: Spring 1995
Prerequisite:

E SC 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

E SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1988

E SC 312 Engineering Applications of Wave, Particle, and Ensemble Concepts (3) The engineering applications of the wave and ensemble pictures of the physical world.
Effective: Spring 2012
Prerequisite:

E SC 313 Introduction to Principles, Fabrication Methods, and Applications of Nanotechnology (3) Principles, fabrication methods and applications of nanoscale.
Effective: Summer 2007
Prerequisite:

E SC 314 Engineering Applications of Materials (3) Basic concepts of material structure and their relation to mechanical, thermal, electrical, magnetic, and optical properties, with engineering applications. (E SC 314 is not intended for students in E SC major)
Effective: Spring 2007
Prerequisite:

E SC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

E SC 400H Electromagnetic Fields (3) Irrotational and solenoidal fields, potentials, vector and scalar field and wave equations, harmonic and wave functions in various coordinates, radiation.
Effective: Fall 2003
Prerequisite:

E SC 404H Analysis in Engineering Science (3) Unified application of coordinate transformations; Laplace's, heat, and wave equations to boundary value problems and problems of continua in engineering.
Effective: Spring 2001
Prerequisite:

Effective: Fall 1983
Prerequisite:

Effective: Spring 2007
Prerequisite: Concurrent: MATH 220

E SC 410H Senior Design Project, Honors (3) Design and synthesis in the context of a specific design project undertaken during the senior year.
Effective: Summer 1998
Prerequisite:

E SC 411H Senior Research and Design Project II, Honors (3) Design and synthesis in the context of a specific design project undertaken during the senior year.
Effective: Spring 2007
Prerequisite:

E SC 414M Elements of Material Engineering (3) Structure and imperfections in engineered materials; their influence on properties, behavior, and processing. Applications of metals, ceramics, polymers, and composites.
Effective: Spring 2008
Prerequisite:

E SC 417 (MATSE 417) Electrical and Magnetic Properties (3) Electrical conductivity, dielectric properties, piezoelectric and ferroelectric phenomena; magnetic properties of ceramics.
Effective: Summer 2006
Prerequisite:

E SC 419 Electronic Properties and Applications of Materials (3) The course covers the electrical, optoelectronic, dielectric, and other electron-based properties of solids, semiconductors in particular, and their engineering/ device applications.
Effective: Summer 2006
Prerequisite:
Prerequisite:

E SC 445 Semiconductor Optoelectronic Devices (3) The course will present the basic engineering science and technology involved in modern semiconductor optoelectronic devices. Effective: Spring 2007
Prerequisite:

E SC 450 (MATSE 450) Synthesis and Processing of Electronic and Photonic Materials (3) The materials science of applying thin film coatings, etching, and bulk crystal growth; includes materials transport, accumulation, epitaxy, and defects. Effective: Fall 2005
Prerequisite:

E SC 455 Electrochemical Methods in Corrosion Science and Engineering (3) The objective of the course is to give students hands-on experience in assessing environmental degradation of engineering materials. Effective: Summer 2011
Prerequisite:

E SC 456 (E E 456, EGEE 456) Introduction to Neural Networks (3) Artificial Neural Networks as a solving tool for difficult problems for which conventional methods are not available. Effective: Spring 2008
Prerequisite:

E SC 475 (MATSE 475) Particulate Materials Processing (3) Fundamentals of processing particulate materials including production, characterization, handling, compaction, and sintering of metal, carbide, intermetallic, and composite powders. Effective: Spring 2008
Prerequisite:

E SC 481 Elements of Nano/Micro-electromechanical Systems Processing and Design (3) Interdisciplinary fundamentals of nano/microelectromechanical systems (NEMS/ MEMS), including design, fabrication and machining of miniature systems. Draws from mechanics, science and materials. Effective: Spring 2008
Prerequisite:

E SC 482 Micro-Optoelectromechanical Systems (MOEMS) and Nanophotonics (3) Principles and applications of Micro-Optoelectromechanical and Nanophotonic devices and systems. Effective: Summer 2006
Prerequisite:

E SC 483 (MATSE 483) Simulation and Design of Nanostructures (3) Introduction to computer simulation techniques and their applications at the physical/life sciences interface. Effective: Fall 2007
Prerequisite:

E SC 484 Biologically Inspired Nanomaterials (3) Advances in biomolecular-based Science and technology at the physical/life sciences interface. Effective: Summer 2006
Prerequisite:

E SC 494 Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course. Effective: Summer 1986

E SC 494H Senior Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course. Effective: Fall 2007

E SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

E SC 496A Business Opportunities in Engineering Independent Study (1) The principal goal of this course is to inform engineering students of business opportunities in Engineering. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

E SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

E SC 497A Business Opportunities in Engineering (2) The principal goal of this course is to inform engineering students of business opportunities in Engineering. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
ESC 497B Multidisciplinary Design Project (3) Multidisciplinary teams engage students from other departments to provide a broad perspective typical of real-life experiences. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Engineering Technology (ET)

ET 002 Engineering Technology Orientation (1) Introduction to computer methods for analyzing and solving engineering technology problems; microcomputer fundamentals, word processing, spreadsheet, and database software packages.
Effective: Summer 1995

ET 200 Graphic Communications (3) The study of graphic communications relating to the design and construction industry.
Effective: Fall 2007
Prerequisite:

ET 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1997

ET 300 Mechanics I: Statics (3) Equilibrium of coplanar force systems; analysis of frames and trusses; shear and moment diagrams; friction; centroids and moment of inertia.
Effective: Spring 2010
Prerequisite:

ET 302 Mechanics II: Dynamics (3) Kinematics of a particle; relative motion; kinematics of a mass-point; kinematics of a rigid body; work-energy; impulse-momentum.
Effective: Fall 2007
Prerequisite:

ET 321 Dynamics (3) Motion of a particle, relative motion; kinetics of translation; rotation and plane motion; conservation of energy and momentum.
Effective: Spring 2010
Prerequisite: Concurrent: statics integral calculus

ET 322 Strength of Materials (3) Axial, torsional, bending, and combined stress analysis; deformation and deflection analysis of cables, shafts, and beams; column design and analysis.
Effective: Spring 2010
Prerequisite:

ET 323 Strength of Materials Laboratory (1) Measurement of mechanical properties of materials, structural testing.
Effective: Spring 2010
Prerequisite:

ET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

ET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written or oral critique of activity required.
Effective: Fall 2007
Prerequisite:

ET 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2007

ET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007
English (ENGL)

ENGL 001 (GH) **Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Spring 2003

ENGL 001S (GH) **Understanding Literature** (3) Explores how major fiction, drama, and poetry, past and present, primarily English and American, clarify enduring human values and issues.
Effective: Fall 2000

ENGL 001W (GH) **Understanding Literature** (3) Studies the various critical ways of reading, understanding, and writing about fiction, poetry, and drama.
Effective: Spring 1999

ENGL 002 (GH) **The Great Traditions in English Literature** (3) Major works of fiction, drama, and poetry from the Middle Ages to the twentieth century expressing enduring issues and values.
Effective: Spring 2000

ENGL 003 (GH) **The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Spring 2001 Ending: Fall 2012

ENGL 003S (GH) **The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Fall 2002

ENGL 004 **Basic Writing Skills** (3 per semester/maximum of 6) Intensive practice in writing sentences and paragraphs and instruction in grammar, usage, and punctuation. Designed for students with deficient preparation. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Fall 1983

ENGL 005 **Writing Tutorial** (1) Tutorial instruction in composition and rhetoric for students currently enrolled in Engl. 4 or 15. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Fall 1983

ENGL 006 **Creative Writing Common Time** (1 per semester/maximum of 8) Required one hour a week meeting time; readings, professional development, advising, community-building.
Effective: Fall 2007

ENGL 015 (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 1991
Prerequisite:
ENGL 015A (GWS;US) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 2005
Prerequisite:
ENGL 015H (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
ENGL 015S (GWS) **Rhetoric and Composition** (3) Instruction and practice in writing expository prose that shows sensitivity to audience and purpose.
Effective: Summer 1999
Prerequisite:
ENGL 030 (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Fall 1991

ENGL 030H (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
ENGL 030S (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

ENGL 030T (GWS) **Honors Freshman Composition** (3) Writing practice for specially qualified and screened students. Students who have passed a special writing test will qualify for this course.
Effective: Spring 2003

ENGL 050 (GA) **Introduction to Creative Writing** (3) Practice and criticism in the reading, analysis and composition of fiction, nonfiction and poetry writing.
Effective: Spring 2001

ENGL 083S (GH) **First-Year Seminar in English** (3) Critical approaches to the dimensions and directions in English/American literature and rhetoric.
Effective: Summer 1999

ENGL 088 (GH) **Australian/New Zealand Cultural Perspectives** (3) Australian and New Zealand cultural and social perspectives, with emphasis on the historical development of intellectual, aesthetic, and humanistic values.
Effective: Spring 2001

ENGL 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 100 **English Language Analysis** (3) An examination of English sounds, words, and syntax using traditional, structural, and transformational grammar.
Effective: Spring 1984

ENGL 103 (GH;US) **The Great Traditions in American Literature** (3) Major works of fiction, drama, and poetry from the colonial to the modern periods expressing enduring issues and values.
Effective: Spring 2013 Future: Spring 2013

ENGL 104 (GH) **The Bible as Literature** (3) Study of the English Bible as a literary and cultural document.
Effective: Spring 2002

ENGL 105 (GH;US) (AM ST 105) **American Popular Culture and Folklife** (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.
Effective: Fall 2008

ENGL 110 **Newswriting Practicum** (2 per semester, maximum of 6) Practice in writing and editing articles for the campus newspaper.
Effective: Fall 2001

ENGL 111 **The Possibilities of English** (2) This course familiarizes students with the range of professional possibilities offered by the English major.
Effective: Summer 2010

ENGL 129 (GH) **Shakespeare** (3) A selection of the major plays studied to determine the sources of their permanent appeal. Intended for non-majors.
Effective: Spring 2003

ENGL 129H (GH) **Shakespeare** (3) A selection of the major plays studied to determine the sources of their permanent appeal. Intended for non-majors.
Effective: Summer 2012

The Pennsylvania State University
ENGL 130 (GH) **Reading Popular Texts** (3) Popular texts (printed, visual, and aural texts) and their social, political, and cultural significance in the contemporary world.

Effective: Fall 2007

Prerequisite:

ENGL 132 (GH;US) **J ST 132)** **Introduction to Jewish American Literature** (3) A historical and thematic survey of Jewish Literature of the United States.

Effective: Spring 2009

ENGL 133 (GH) **Modern American Literature to World War II** (3) Cather, Eliot, Frost, Faulkner, Fitzgerald, Hemingway, Hurston, Wharton, Wright, and other writers representative of the years between the world wars.

Effective: Spring 2002

ENGL 134 (GH) **American Comedy** (3) Studies in American comedy and satire, including such writers as Mark Twain, Faulkner, Vonnegut, Ellison, O'Connor, Welty, and Heller.

Effective: Spring 2003

ENGL 135 (GH;US) **Alternative Voices in American Literature** (3) United States writers from diverse backgrounds offering varying responses to issues such as race, class, gender, and ethnicity.

Effective: Summer 2005

ENGL 135S (GH;US) **Alternative Voices in American Literature** (3) United States writers from diverse backgrounds offering varying responses to issues such as race, class, gender, and ethnicity.

Effective: Summer 2005

ENGL 136 (GH) **The Graphic Novel** (3) The graphic novel as a literary and visual form (produced primarily in English).

Effective: Summer 2010

ENGL 137H (GWS) (CAS 137H) **Rhetoric and Civic Life I** (3) Within a liberal arts framework and with attention to public discourse-- speaking, writing, online communication, and visual presentation--this course instructs students in the arts, practices, and principles of rhetoric.

Effective: Summer 2012

ENGL 138T (GWS) (CAS 138T) **Rhetoric and Civic Life II** (3) This course builds rehtorical skills in oral, written, visual, and digital contexts and introduces deliberation and advocacy in civic and disciplinary spheres.

Effective: Summer 2012

Prerequisite:

ENGL 139 (GH;US) **Black American Literature** (3) Fiction, poetry, and drama, including such writers as Baldwin, Douglass, Ellison, Morrison, and Wright.

Effective: Summer 2005

ENGL 139S (GH;US) **Black American Literature** (3) Fiction, poetry, and drama, including such writers as Baldwin, Douglass, Ellison, Morrison, and Wright.

Effective: Fall 2006

ENGL 140 (GH) **Contemporary Literature** (3) Writers such as Baldwin, Beckett, Bellow, Ellison, Gordimer, Lessing, Lowell, Mailer, Naipaul, Pinter, Plath, Pynchon, Rushdie, and Walker.

Effective: Spring 2003

ENGL 145 (GH;IL) **Modern Irish Literature** (3) Irish literature in the twentieth century and beyond; focus on the interplay of politcal, social, and cultural, forces on literature.

Effective: Spring 2007

ENGL 180 (GH) **Literature and the Natural World** (3) Literary representations of the natural world, focusing on English language traditions.

Effective: Spring 2003

ENGL 181A (GH;US) **Adventure Literature: Exploring the Chesapeake Bay** (4.5) Examines the interconnection of culture and nature in the Chesapeake Bay region through the literature of the region.

Effective: Summer 2011

ENGL 181B (GH;US) **Adventure Literature: Exploring Cape Cod** (4.5) Examines the interconnection of culture and nature on Cape Cod through considerations of texts in various literary genres that have contributed to development of a distinctive regional identity and culture.

Effective: Summer 2011

The Pennsylvania State University
ENGL 181C (GH;US) The Beach: Exploring the Literature of the Atlantic Shore (4.5) Examines the interconnection of culture and nature in coastal areas of the Atlantic seaboard. Effective: Spring 2012

ENGL 182A (GH;US;IL) Literature and Empire (3) Literature written in English from countries that were once part of European empires, e.g., India, Canada, South Africa, and others. Effective: Summer 2005

ENGL 182C (GH;IL) Literature and Empire (3) Literature written in English from countries that were once part of European empires, e.g., India, Canada, South Africa, and others. Effective: Summer 2005

ENGL 184 (GH;IL) (CMLIT 184) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries. Effective: Spring 2006

ENGL 184S (GH;IL) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries. Effective: Spring 2006

ENGL 184U (GH;IL) (CMLIT 184U) The Short Story (3) Lectures, discussion, readings in translation, with primary emphasis on major writers of the nineteenth and twentieth centuries. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGL 185 (GH;IL) (CMLIT 185) World Novel (3) Development of the modern novel in the last century (outside the British Isles and the United States); lectures, discussions, readings in translation. Effective: Spring 2011

ENGL 189 (GH;IL) (CMLIT 189) Modern Drama (3) Playwrights who set the world's stage for twentieth-century drama; issues that continue to shape the contemporary theatrical world. Effective: Spring 2011

ENGL 191 (GH) Science Fiction (3) Science fiction as the literature of technological innovation and social change--its development, themes, and problems. Effective: Summer 1995

ENGL 192 (GH) The Literature of Fantasy (3) Literature(s) of fantasy from early forms through a variety of contemporary traditions. Effective: Spring 2011

ENGL 194 (GH;US;IL) (WMNST 194) Women Writers (3) Short stories, novels, poetry, drama, and essays by English, American, and other English-speaking women writers. Effective: Summer 2005

ENGL 194S (GH;US;IL) Women Writers (3) Short stories, novels, poetry, drama, and essays by English, American, and other English-speaking women writers. Effective: Summer 2005

ENGL 196 (GH;US) (AM ST 196, AMSTD 196) Introduction to American Folklore (3) A basic introduction to verbal and nonverbal folklore stressing the basic procedures of collection, classification, and analysis. Effective: Summer 2005

ENGL 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

ENGL 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

ENGL 199 (IL) Foreign Study--English (3-6) Studies in English language and/or literature. Effective: Summer 2005

ENGL 200 Introduction to Critical Reading (3) Responses to a variety of literary texts written in English that evoke...
different approaches.
Effective: Fall 1991
Prerequisite:

ENGL 200H Introduction to Critical Reading (3) Responses to a variety of literary texts written in English that evoke different approaches.
Effective: Summer 2012
Prerequisite:

ENGL 200H Introduction to Critical Reading (3) Responses to a variety of literary texts written in English that evoke different approaches.
Prerequisite:

ENGL 200W Introduction to Critical Reading (3) Responses to a variety of literary texts written in English that evoke different approaches.
Effective: Fall 2001
Prerequisite:

ENGL 201 (GH) What is Literature (3) Acquaints students with theory and practice relevant to studies of narrative, lyric poetry, and drama.
Effective: Summer 2006
Prerequisite:

ENGL 201H (GH) What is Literature (3) Acquaints students with theory and practice relevant to studies of narrative, lyric poetry, and drama.
Effective: Summer 2012
Prerequisite:

ENGL 201H (GH) What is Literature (3) Acquaints students with theory and practice relevant to studies of narrative, lyric poetry, and drama.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

ENGL 202A (GWS) Effective Writing: Writing in the Social Sciences (3) Instruction in writing persuasive arguments about significant issues in the social sciences. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite:

ENGL 202B (GWS) Effective Writing: Writing in the Humanities (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite:

ENGL 202C (GWS) Effective Writing: Technical Writing (3) Writing for students in scientific and technical disciplines. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite:

ENGL 202D (GWS) Effective Writing: Business Writing (3) Writing reports and other common forms of business communication. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Summer 1996
Prerequisite:

ENGL 202H (GWS) Honors Writing in the Humanities (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

ENGL 202H (GWS) Honors Writing in the Humanities (3) Instruction in writing persuasive arguments about significant issues in the humanities. (A student may take only one course for credit from ENGL 202A, 202B, 202C, and 202D.)
Prerequisite:

ENGL 209 Journal or Magazine Practicum (1-6 per semester/maximum of 8) A practicum in the editing and publishing of a magazine or journal.
Effective: Fall 2007

ENGL 210 The Process of Writing (3) Examination of the relation between fiction and nonfiction; practice in principles common to all writing.
Effective: Fall 1985
Prerequisite:

ENGL 211 Introduction to Writing Studies (3) This course introduces students to the most salient issues and theories in writing studies. Students explore contemporary theories and issues about writing in order to understand writing as a skill and a complex object of study in various professional contexts.
Effective: Spring 2010
Prerequisite:
ENGL 211W Introduction to Writing Studies (3) This course introduces students to the most salient issues and theories in writing studies. Students explore contemporary theories and issues about writing in order to understand writing as a skill and a complex object of study in various professional contexts.
Effective: Summer 2010
Prerequisite:

ENGL 212 Introduction to Fiction Writing (3) Written exercises and short readings in the elements of fiction writing; the writing of at least one short story.
Effective: Fall 1985
Prerequisite:

ENGL 213 Introduction to Poetry Writing (3) Written exercises in the components and techniques of poetry writing in conjunction with selected readings.
Effective: Fall 1985
Prerequisite:

ENGL 215 Introduction to Article Writing (3) Written exercises in, and a study of, the principles of article writing; practice in the writing of specific articles.
Effective: Fall 1985
Prerequisite:

ENGL 221 British Literature to 1798 (3) Introduction to literary history and analysis; Beowulf and writers such as Chaucer, Shakespeare, Donne, Milton, Swift, Pope, and Fielding.
Effective: Summer 1996
Prerequisite:

ENGL 221W British Literature to 1798 (3) Introduction to literary history and analysis. Beowulf and writers such as Chaucer, Shakespeare, Donne, Milton, Swift, Pope, and Fielding.
Effective: Summer 1992
Prerequisite:

ENGL 222 British Literature from 1798 (3) Introduction to literary history and analysis; writers such as Austen, Wordsworth, Keats, Browning, Dickens, the Brontes, Yeats, Joyce, and Woolf.
Effective: Summer 1996
Prerequisite:

ENGL 222W British Literature from 1798 (3) Introduction to literary history and analysis. Writers such as Austen, Wordsworth, Keats, Browning, Dickens, the Brontes, Yeats, Joyce, and Woolf.
Effective: Summer 1992
Prerequisite:

ENGL 225 (GA;GH) (ART H 225, WMNST 225) Sexuality and Modern Visual Culture (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
Effective: Summer 2009

ENGL 226 (GH;US;IL) (LTNST 226) Latina and Latino Border Theories (3) English 226 will constitute a wide-ranging examination of contemporary texts (1960-present) central to the construction of contemporary Latino/a culture.
Effective: Spring 2007

ENGL 227 (GH;US;IL) Introduction to Culture and Sexuality (3) A course addressing the relationships between sexuality, literature, and culture.
Effective: Summer 2009 Ending: Fall 2012
Prerequisite:

ENGL 227 (GH;US;IL) (WMNST 227) Introduction to Culture and Sexuality (3) A course addressing the relationships between sexuality, literature, and culture.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

ENGL 228 (GH;IL) Introduction to Disability Studies in the Humanities (3) Provides a humanities-based interdisciplinary introduction to Disability Studies.
Effective: Spring 2013 Future: Spring 2013

ENGL 231 American Literature to 1865 (3) Introduction to literary history and analysis; writers such as Bradstreet, Franklin, Emerson, Hawthorne, Douglass, Thoreau, Fuller, Melville, Whitman, and Dickinson.
Effective: Summer 1996
Prerequisite:

ENGL 231W American Literature to 1865 (3) Introduction to literary history and analysis. Writers such as Bradstreet, Franklin, Emerson, Hawthorne, Douglass, Thoreau, Fuller, Melville, Whitman, and Dickinson.
Effective: Summer 1992
Prerequisite:

ENGL 232 American Literature from 1865 (3) Introduction to literary history and analysis; writers such as Mark Twain, James, Cather, Frost, O’Neill, Faulkner, Hemingway, Hughes, and Morrison.
Effective: Summer 1996
Prerequisite:
ENGL 232W American Literature from 1865 (3) Introduction to literary history and analysis. Writers such as Mark Twain, James, Cather, Frost, O'Neill, Faulkner, Hemingway, Hughes, and Morrison.
Effective: Summer 1992
Prerequisite:

ENGL 233 (GH;GN) (CHEM 233) Chemistry and Literature (3) Exploration of key concepts of chemistry, the reciprocal influence of chemistry and literature through history, and the relationship of science to society, culture, and values.
Effective: Spring 2006

Effective: Summer 2005 Ending: Fall 2012
Prerequisite:

Effective: Spring 2013 Future: Spring 2013
Prerequisite:

ENGL 240 Exploring Literary Traditions (3 per semester, maximum of 6) The examination of specific literary traditions in English-language texts and an inquiry into the question of tradition itself. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:

ENGL 245 (GH;US) Introduction to Lesbian and Gay Studies (3) An introduction to the study of sex and (homo)sexual identity across a wide range of disciplines and methodologies.
Effective: Summer 2007 Ending: Fall 2012

ENGL 245 (GH;US) (WMNST 245) Introduction to Lesbian and Gay Studies (3) An introduction to the study of homosexual identities across a wide range of disciplines and methodologies.
Effective: Spring 2013 Future: Spring 2013

ENGL 250 Peer Tutoring in Writing (3) Introduction to skills and attitudes required for successful peer tutoring in writing. Provides internship experience in a writing center.
Effective: Spring 1987
Prerequisite:

ENGL 261 Exploring Literary Forms (3 per semester/maximum of 6) The examination of specific genres in English-language texts and an inquiry into the question of genre itself. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:

ENGL 262 (GH) Reading Fiction (3) Elements of fiction including plot, character, viewpoint, and fictional genres in British, American, and other English-language traditions.
Effective: Spring 2003
Prerequisite:

ENGL 263 (GH) Reading Poetry (3) Elements of poetry including meter, rhyme, image, diction, and poetic forms in British, American, and other English-language traditions.
Effective: Spring 2003
Prerequisite:

ENGL 265 (GH) Reading Nonfiction (3) Forms of nonfictional prose such as autobiography, biography, essay, letter, memoir, oration, travelogue in British, American, and other English-language traditions.
Effective: Spring 2003
Prerequisite:

ENGL 266 (GH) Reading Drama (3) Elements of drama including plot, character, dialogue, staging, and dramatic forms in British, American, and other English-language traditions.
Effective: Spring 2003
Prerequisite:

ENGL 281 Television Script Writing (3) An introduction to the writing of scripts for television production.
Effective: Summer 1992
Prerequisite:

ENGL 294 Research Topics (1-12) Individual or small group instruction.
Effective: Spring 2001

ENGL 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2001

The Pennsylvania State University
ENGL 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ENGL 297A Motion Picture Screenwriting (3) Study screenplays for full-length motion pictures, including examination of form, dialogue, narrative, plotting, scene structure, setting, character creation, and conflict.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGL 297E Mont Alto Film Project I (3) Practicum in filmmaking. Part I of IV covers the design and complete preliminary planning of a full-length documentary of feature film.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENGL 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

ENGL 300M Honors Course in English (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 1997
Prerequisite:

ENGL 301M Honors Seminar in English: Literature Before 1800 (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite:

ENGL 302M Honors Seminar in English: Literature After 1800 (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite:

ENGL 303M Honors Seminar in English: American Literature & Culture (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite:

ENGL 304M Honors Seminar in English: Creative Writing (3-12) Reading, group discussions, and oral and written reports on various specific authors and literary works.
Effective: Fall 2005
Prerequisite:

ENGL 301H Honors Thesis in English (3) Research paper or creative project on a topic approved by the Departmental Honors Committee.
Effective: Fall 1983
Prerequisite:

ENGL 311 The Canon and Its Critics (3) History and formation of literary canons, and challenges to canon ideology by writers and critics, through readings in English and American literature.
Effective: Fall 2007
Prerequisite:

ENGL 312 Globality and Literature (3) Examines relationships between literature and culture, through the study of major texts in English by writers of various cultures.
Effective: Fall 2007
Prerequisite:

ENGL 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

ENGL 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

ENGL 399 (IL) Foreign Study--English (3-6) Advanced studies in English language and/or literature.
Effective: Summer 2005
ENGL 400 **Authors, Texts, Contexts** (3 per semester, maximum of 6) Styles, cultural milieus, critical perspectives toward particular English-language authors and/or movements they represent, and the idea of authorship. (Section subtitles may appear in the Schedule of Courses.)

Effective: Fall 1997
Prerequisite:

ENGL 401 **Studies in Genre** (3 per semester, maximum of 6) English-language texts exemplifying particular genres, with attention to critical theories, historical development, rhetorical strategies, and social, cultural, and aesthetic values. (Section subtitles may appear in the Schedule of Courses.)

Effective: Fall 1997
Prerequisite:

ENGL 401W **Creative Writing Theory** (3) Theories of art and creativity which inform the making of literary works.

Effective: Fall 2007
Prerequisite:

ENGL 402 **Literature and Society** (3 per semester, maximum of 6) Texts confronting social, political, technological, or other issues in the English-speaking world. (Section subtitles may appear in the Schedule of Courses.)

Effective: Fall 1997
Prerequisite:

ENGL 403 **Literature and Culture** (3 per semester, maximum of 6) Historical, theoretical, and practical issues within cultural studies in relation to English-speaking texts. (Section subtitles may appear in the Schedule of Courses.)

Effective: Fall 1997
Prerequisite:

ENGL 404 **Mapping Identity, Difference, and Place** (3 per semester, maximum of 6) Ethnicity, gender, class, race with reference to theoretical inquiry into identity, difference, and place in English-language literatures. (Section subtitles may appear in the Schedule of Courses.)

Effective: Fall 1997
Prerequisite:

ENGL 405 **Taking Shakespeare From Page to Stage** (3) Students experience a Shakespeare play as a text to be explicatured and as a script to be performed.

Effective: Summer 2003
Prerequisite:

ENGL 407 **History of the English Language** (3) Historical and structural study of developments in English sounds, forms, inflections, syntax, derivations, and meanings.

Effective: Spring 1987
Prerequisite:

ENGL 409 **Composition Theory and Practice for Teachers** (3) An overview of the theory and practice of writing for teachers, with emphasis on the writing process.

Effective: Summer 2000
Prerequisite: Concurrent: EDUC 452

ENGL 412 **Advanced Fiction Writing** (3 per semester/maximum of 6) Advanced study of the techniques of fiction writing; regular practice in writing the short story; group discussion of student work.

Effective: Spring 1992
Prerequisite:

ENGL 413 **Advanced Poetry Writing** (3 per semester/maximum of 6) Advanced study of the techniques of poetic composition; regular practice in writing poetry; group discussion of student work.

Effective: Spring 1992
Prerequisite:

ENGL 414 **Biographical Writing** (3) Writing of biography and autobiography, character sketches, "profiles," and literary portraits; analysis and interpretations of source materials.

Effective: Spring 1987
Prerequisite:

ENGL 415 **Advanced Nonfiction Writing** (3 per semester/maximum of 6) Advanced study of the principles of nonfiction; substantial practice in writing and submitting magazine articles for publication.

Effective: Spring 1992
Prerequisite:

ENGL 416 **Science Writing** (3 per semester/maximum of 6) Prepares scientists and writers to gather, interpret, and present scientific information to the layman with clarity and accuracy.

Effective: Spring 2001
Prerequisite:

ENGL 417 **The Editorial Process** (3) The process of editing from typescript through final proof.

Effective: Summer 2011
Prerequisite:

ENGL 418 **Advanced Technical Writing and Editing** (3 per semester/maximum of 6) Preparing and editing professional papers for subject specialists and for others interested in careers as writers or editors.

Effective: Fall 1987
Prerequisite:

ENGL 419 **Advanced Business Writing** (3) Preparing and editing reports and presentations common to business, industry, and government. Effective: Fall 1987

Prerequisite:

ENGL 420 **Writing for the Web** (3) Analysis and composition of informative, persuasive, and "creative" Web texts, based on rhetorical principles; no prior Web writing experience required. Effective: Spring 2002

Prerequisite:

ENGL 421 **Advanced Expository Writing** (3) Develops skill in writing expository essays, with particular attention to style. Intended for liberal arts majors. Effective: Spring 1987

Prerequisite:

ENGL 422 **Fiction Workshop** (3 per semester/maximum of 6) Practice and criticism in the composition of the short story and the novel. Effective: Spring 1985

Prerequisite:

ENGL 423 **Poetry Writing Workshop** (3 per semester/maximum of 6) Extensive practice in writing poetry; consideration of contemporary poetic forms; selected readings. Effective: Spring 1985

Prerequisite:

ENGL 424 (ENVST 424) **Creative Writing and the Natural World** (3) Creative writing workshop focused on the environment and related issues. Effective: Summer 2011

Prerequisite:

ENGL 425 **Nonfiction Workshop** (3 per semester/maximum of 6) Extensive writing of nonfiction for publication; an introduction to the principles of writing the nonfiction book. Effective: Spring 1985

Prerequisite:

ENGL 426 (US) (LNTN 426) **Chicana and Chicano Cultural Production: Literature, Film, Music** (3) An in-depth study of Chicana/Chicano literature, film, and music from the inception of the Chicano Movement (1965-1975) to the present. Effective: Spring 2007

Prerequisite:

ENGL 427 (J ST 427) **Topics in Jewish American Literature** (3) An in-depth examination of important themes, writers, and/or historical developments in Jewish Literature of the United States. Effective: Spring 2009

Prerequisite:

ENGL 428 (US) (AAS 428) **Asian American Literatures** (3 per semester/maximum of 6) A seminar on the literatures and cultures of Asian America, with attention to forms of geographic, historical, and ethnic diversity. Effective: Summer 2010

ENGL 429 (CMLIT 429) **New Media and Literature** (3) New media literary genres; critical discussion of creative works in digital media. Effective: Summer 2010

ENGL 430 **The American Renaissance** (3) Studies in the works and the interrelationships of writers such as Emerson, Hawthorne, Poe, Thoreau, Whitman, Melville, and Dickinson. Effective: Spring 1995

Prerequisite:

ENGL 431 (US) (AM ST 475) **Black American Writers** (3 per semester, maximum of 6) A particular genre or historical period in the development of Black American literature. Effective: Fall 2007

Prerequisite:

ENGL 432 **The American Novel to 1900** (3) Such writers as Hawthorne, Melville, Stowe, Mark Twain, James, Crane, Chopin, and others. Effective: Spring 1992

Prerequisite:

ENGL 433 **The American Novel: 1900-1945** (3) Such writers as Wharton, Dreiser, Cather, Fitzgerald, Faulkner, Hemingway, Hurston, Wright, and others. Effective: Spring 1992

Prerequisite:

ENGL 434 (AM ST 472) **Topics in American Literature** (3 per semester) Focused study of a particular genre, theme, or problem in American literature. (May be repeated for credit.) Effective: Fall 2007

Prerequisite:
ENGL 435 The American Short Story (3) Development of the short story as a recognized art form, with emphasis on major writers.
Effective: Spring 1984
Prerequisite:

ENGL 436 American Fiction Since 1945 (3) Representative fiction by such writers as Barth, Bellow, Ellison, Heller, Mailer, Morrison, Nabokov, Oates, O'Connor, Pynchon, Updike, Walker.
Effective: Spring 1992
Prerequisite:

ENGL 437 The Poet in America (3) American poets such as Bradstreet, Taylor, Poe, Emerson, Whitman, Dickinson, Frost, Eliot, Stevens, Hughes, Brooks, Moore, Williams, Plath, Rich, Lowell.
Effective: Spring 1992
Prerequisite:

ENGL 438 American Drama (3) Development from the colonial period to playwrights such as O'Neill, Wilder, Hellman, Miller, Williams, Albee, Shepard, Norman, Wilson, and others.
Effective: Spring 1992
Prerequisite:

ENGL 439 American Nonfiction Prose (3) Major prose writers such as Franklin, Emerson, Thoreau, Fuller, Henry Adams, Mailer, Baldwin, McCarthy, Dillard, Didion, Angelou, and others.
Effective: Spring 1992
Prerequisite:

ENGL 440 Studies in Shakespeare (3) Intensive study of a single genre, topic, or critical approach to selected plays.
Effective: Summer 1991
Prerequisite:

ENGL 441 Chaucer (3) The principal narrative poems and their background.
Effective: Spring 1984
Prerequisite:

ENGL 442 Medieval English Literature (3) Study of major works and genres of medieval English literature, exclusive of Chaucer.
Effective: Spring 1992
Prerequisite:

ENGL 443 The English Renaissance (3) Such writers as More, Sidney, Spenser, Shakespeare, Donne, Jonson, Bacon, and Marvell.
Effective: Spring 1984
Prerequisite:

ENGL 444 Shakespeare (3) Selected tragedies, comedies, and histories.
Effective: Spring 1984
Prerequisite:

ENGL 445 Shakespeare's Contemporaries (3) Selected plays by Shakespeare's major predecessors and contemporaries: Kyd, Marlowe, Jonson, Webster, Marston, Middleton, and others.
Effective: Spring 1984
Prerequisite:

ENGL 446 Milton (3) Analysis of principal poems and their background.
Effective: Spring 1984
Prerequisite:

Effective: Spring 1995
Prerequisite:

ENGL 448 The English Novel to Jane Austen (3) Novelists such as Defoe, Richardson, Fielding, Smollett, Sterne, and Austen.
Effective: Spring 1995
Prerequisite:

ENGL 449 (US;IL) Women Poets (3) Study of major writings by women poets; instructor chooses emphasis, language, and period.
Effective: Fall 2007
Prerequisite:

ENGL 450 The Romantics (3) Poets such as Blake, Wordsworth, Coleridge, Keats, Shelley, and Byron; also prose by writers such as Hazlitt, Lamb, and DeQuincey.
Effective: Spring 1995
Prerequisite:

ENGL 451 Literary Modernism in English (3) Survey of literary modernism in English and English translation in a variety of genres, including poetry, fiction, and drama.
Effective: Fall 2007
Prerequisite:
ENGL 452 The Victorians (3) Poets such as Tennyson, Browning, Arnold, and Hopkins; also prose by writers such as Carlyle, Mill, Ruskin, and Arnold.
Effective: Spring 1995
Prerequisite:

ENGL 453 Victorian Novel (3) Novelists such as the Brontes, Thackeray, Dickens, George Eliot, Meredith, and Hardy.
Effective: Spring 1995
Prerequisite:

ENGL 454 Modern British and Irish Drama (3) From Wilde and Shaw to the present season.
Effective: Fall 2004
Prerequisite:

ENGL 455 Topics in British Literature (3) Focused study of a particular genre, theme, or problem in British literature. (May be repeated for credit.)
Effective: Fall 2001
Prerequisite:

ENGL 456 British Fiction, 1900-1945 (3) Major writers such as Conrad, Lawrence, Mansfield, Forster, Joyce, Woolf, Waugh, Greene, Bowen, Beckett, and others.
Effective: Spring 1995
Prerequisite:

ENGL 457 British Fiction Since 1945 (3) Readings in British fiction since World War II.
Effective: Spring 1995
Prerequisite:

ENGL 458 Twentieth-Century Poetry (3) Poets writing in English such as Yeats, Pound, Eliot, Frost, Auden, Stevens, Plath, Bishop, Brooks, H.D., and others.
Effective: Spring 1995
Prerequisite:

ENGL 461 (US) The Vernacular Roots of African American Literature (3) The relationship between oral tradition and literary texts and the double consciousness of African American voice in "print."
Effective: Summer 2005
Prerequisite:

ENGL 462 (US) (WMNST 462) Reading Black, Reading Feminist (3) Female identity and its construction in textual representations of gender, class, color, and cultural difference in English-language literatures.
Effective: Summer 2005
Prerequisite:

Effective: Summer 2005
Prerequisite:

ENGL 466 (US) African American Novel I (3) Thematic, structural, and stylistic characteristics of the African American novel from residually oral forms to satiric realism.
Effective: Summer 2005
Prerequisite:

ENGL 467 (US) African American Novel II (3) Thematic, stylistic, and structural characteristics of the African American novel from naturalism to modernism and postmodernism.
Effective: Summer 2005
Prerequisite:

ENGL 468 (US) African American Poetry (3) African American poetry within the contexts of the black oral tradition and transformed European literary tradition.
Effective: Summer 2005
Prerequisite:

ENGL 469 (US) (AAA S 469) Slavery and the Literary Imagination (3) The impact of slavery on the petitions, poetry, slave narratives, autobiographies, and novels of African Americans.
Effective: Summer 2005 Ending: Summer 2012
Prerequisite:

ENGL 469 (US) (AF AM 469) Slavery and the Literary Imagination (3) The impact of slavery on the petitions, poetry, slave narratives, autobiographies, and novels of African Americans.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

ENGL 470 Rhetorical Theory and Practice (3) Application of certain rhetorical principles to problems in composition. Writing exercise. Designed as preparation for the teaching of composition.
Effective: Spring 1995
Prerequisite:

ENGL 471 Rhetorical Traditions (3 per semester, maximum of 6) Introduces major traditions of rhetorical inquiry and their relevance for English studies. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:
ENGL 472 Current Theories of Writing and Reading (3 per semester, maximum of 6) Investigates models of textual production and reception current within English studies. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:

ENGL 473 Rhetorical Approaches to Discourse (3 per semester, maximum of 6) Practices the criticism of written texts from selected rhetorical perspectives. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:

ENGL 474 Issues in Rhetoric and Composition (3 per semester, maximum of 6) Examines selected topics in the field of rhetoric and composition. (Section subtitles may appear in the Schedule of Courses.)
Effective: Fall 1997
Prerequisite:

ENGL 477 Teaching Children's Literature (3) Teaching Children's Literature in light of recent literary pedagogy, the history of childhood, and critical approaches to Children's Literature.
Effective: Fall 2007
Prerequisite:

ENGL 479 Business or Technical Writing Practicum (1-3) Practical experience applying business or technical writing principles, working with advanced business, science, or engineering students on classroom projects.
Effective: Fall 2007
Prerequisite:

ENGL 480 Communication Design for Writers (3) This course explores visual design, non-verbal communication, and software packages used in professional settings to most effectively present written communications.
Effective: Summer 2005
Prerequisite:

ENGL 481 Literary Theory: Historical Perspectives (3) Selected topics in the history of literary criticism and theory within the English-language tradition.
Effective: Summer 1994
Prerequisite:

ENGL 482 Contemporary Literary Theory and Practice (3 per semester, maximum of 6) Contemporary literary theories and their implication for critical practice as applied to British, American, and other English-language literary works.
Effective: Summer 1992
Prerequisite:

ENGL 482W Contemporary Literary and Cultural Theory (3) Contemporary literary and cultural theories and their implication for critical practice as applies to a variety of texts, e.g. literary, linguistic, visual, multimedia, and/or popular.
Effective: Fall 2007
Prerequisite:

ENGL 483 Problems in Critical Theory and Practice (3) Intensive study of one or more recent theoretical approaches as applied to British, American, and other English-language literary works.
Effective: Summer 1994
Prerequisite:

ENGL 484 James Joyce (3) Analysis of principal works and their background.
Effective: Fall 2007
Prerequisite:

ENGL 485 Australian and New Zealand Literature and Culture (3) Questions of nationality, identity, gender, race, class, colonialism, and postcolonialism in these literatures.
Effective: Summer 1995
Prerequisite:

ENGL 486 (IL) The World Novel in English (3) Studies in the novel, written in English, by writers outside of the United States and Great Britain.
Effective: Fall 2007
Prerequisite:

ENGL 487W Senior Seminar (3) Issues, themes, periods, critical theories, etc., that invite students to use prior English studies, limited to seniors majoring in English.
Effective: Summer 1997
Prerequisite:

ENGL 488 (IL) (CMLIT 488) Modern Continental Drama (3) From Ibsen to the drama of today: Strindberg, Chekhov, Hauptmann, Pirandello, Ionesco, Beckett, Genet, and others.
Effective: Spring 2006
Prerequisite:

ENGL 489 (WMNST 489) British Women Writers (3) A study of selected British women writers.
Effective: Spring 2008
Prerequisite:

ENGL 490 (US;IL) (WMNST 490) Women Writers and Their Worlds (3) American and British literature written from the perspective of women.
ENGL 491 **The Capstone Course in Professional Writing** (3) This culminating course for Professional Writing majors concentrates on reflective analyses, design, and presentation of documents in the development of professional portfolios.

Effective: Summer 2004

Prerequisite:

ENGL 492 (AM ST 476, WMNST 491) **American Women Writers** (3) A study of selected American women writers.

Effective: Spring 2008

Prerequisite:

ENGL 493 (AM ST 493) **The Folktale in American Literature** (3) A survey of the literary uses of the folktale and legendary materials, with particular concentration on the literature of America.

Effective: Spring 1986

Prerequisite:

ENGL 494 **Senior Thesis in English** (1-6) Senior English (ELISH) majors write a thesis arranged with in-charge person and submit it to a faculty committee for appraisal.

Effective: Fall 2007

Prerequisite:

ENGL 494H **Senior Thesis in English** (1-6) Senior English (ELISH) majors write a thesis arranged with in-charge person and submit it to a faculty committee for appraisal.

Effective: Fall 2007

Prerequisite:

ENGL 495 **Internship** (3-12) Supervised practicum in fields appropriate to the English major.

Effective: Spring 2001

ENGL 496 **Independent Studies** (1-18) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

ENGL 496A **Autors, Texts, Contexts** (1-6) Study the styles, cultural milieus, critical perspectives and literary contexts of English language and English-in-translation authors and films.

Effective: Summer 2012 Ending: Summer 2012

ENGL 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

ENGL 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1992

ENGL 499 (IL) **Foreign Study--English** (3-6) Studies abroad in English language and/or literature.

Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
English as a Second Language (ESL)

ESL 004 ESL/Composition for American Academic Communication I (3) For beginning-intermediate level non-native speakers of English to improve their overall composition skills in preparation for future American academic writing assignments. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Fall 2001

ESL 015 (GWS) ESL/Composition for American Academic Communication II (3) For intermediate/advanced level non-native speakers of English to develop strategies for reading and writing American academic discourse.
Effective: Fall 2001
Prerequisite:

ESL 114G American Oral English for Academic Purposes (3) Instruction in ESL for international teaching assistants that focuses on the use of oral language skills in an academic setting.
Effective: Spring 2001

ESL 115G American Oral English for ITAs I (3-9) Initial course in American Oral English for preparation of international teaching assistants.
Effective: Spring 2001
Prerequisite:

ESL 116G ESL Composition for Academic Disciplines (3) For international students at the graduate level to engage in scholarly activity in their academic disciplines.
Effective: Fall 2011

Effective: Fall 2011
Prerequisite:

ESL 118G American Oral English for ITAs III (3) Advanced course in American Oral English for preparation of international teaching assistants.
Effective: Fall 2011
Prerequisite:

ESL 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2004

ESL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2004

ESL 497B Academic Presentations for Non-native English Speakers (3) This course is designed to help non-native English-speaking graduate students in planning and conducting oral presentations within academic settings.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Entomology (ENT)

ENT 202 (GN) The Insect Connection (3) An introduction to the diversity of insects and the ways in which they interact with humans and impact our world.
Effective: Summer 1998

ENT 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ENT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ENT 313 Introduction to Entomology (2) Introduction to basic entomology, covering insect diversity, identification, structure and function, and principles of management.
Effective: Fall 2001 Ending: Summer 2012
Prerequisite: Concurrent: ENT 315

ENT 313 Introduction to Entomology (2) Introduction to basic entomology, covering insect diversity, identification, structure and function, and principles of management.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

ENT 314 Management of Insect Pests of Ornamentals (1) Diagnosis and management of insect pests on shrubs and trees in the landscape or production nursery.
Effective: Spring 1999
Prerequisite:

ENT 316 Field Crops Entomology (1) Laboratory-based approach to identification and management of insect pests of agronomic crops.
Effective: Spring 1999
Prerequisite:

ENT 317 Turfgrass Insect Pest Management (3) Introduction to entomology and management of insect pests of cool- and warm- season turfgrass.
Effective: Summer 2007
Prerequisite:

ENT 395 Internship (10-12) Supervised field experience and study related to the student's major professional interest. Written and oral critique of activity required.
Effective: Summer 1984
Prerequisite:

ENT 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1998

ENT 402W (VB SC 402W) Biology of Animal Parasites (3) An introduction to animal parasitology. Emphasizes placed on host/parasite interactions, parasites of zoonotic importance, control programs and taxonomy.
Effective: Spring 2010
Prerequisite:

ENT 410 Insect Structure and Function (3) Integrated physiology and anatomy of insects; emphasis on unique adaptations, genetic regulation of development, insects as model systems, environmental physiology.
Effective: Summer 1994
Prerequisite:

ENT 420 Introduction to Population Dynamics (3) Principles of population regulation, demographic analysis, modeling of dynamic processes are discussed; laboratories involve the exploration of population growth models.
Effective: Summer 1994
Prerequisite:

ENT 425 Freshwater Entomology (3) Collection and identification of insects and other arthropods in freshwater ecosystems; field study of habitats.
Effective: Fall 2000

ENT 430 (BIOL 430, B M B 430) Developmental Biology (3) Molecular and genetic analyses of mechanisms involved in differentiation and determination in biological systems.
Effective: Summer 1994
Prerequisite:
ENT 445 Evolution of Insect Societies (3) Basic principles of Darwinian theory and their application to understanding the evolution of complex social behavior in insects are addressed.
Effective: Spring 2012
Prerequisite:

ENT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

ENT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

ENT 497A Evolution Biology of Insects (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENT 497B Insect Biodiversity and Evolution (4) This course is designed to teach students about insect taxonomy, evolutionary relationships, collection and preservation techniques, morphology, and natural history. The focus will mostly be on adult forms and emphasize insects found in Pennsylvania. In the lab, students will learn how to handle specimens, use diagnostic keys, and identify insects by sight. Collection techniques will be honed during multiple field trips. The primary instructor is Dr. Andrew R. Deans.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENT 497B Sensory Biology of Insects (3) The goal of this course is to give students an understanding of insect sensory systems that contribute to the behaviors that we see insects performing for their survival and reproduction. Students will gain knowledge about the sensory mechanisms underlying mate-finding and courtship, host-finding and oviposition, and feeding/recruitment. Emphasis will be placed on understanding the neuroethology of insect orientation, communication, learning, and in particular cases, the evolutionary pressures that may have shaped these behaviors and their underlying sensory systems.

ENT 497C Medical Entomology (3) Course will cover biology, ecology and epidemiology of arthropods of medical, veterinary and forensic importance.
Entrepreneurship (ENTR)

ENTR 300 **Principles of Entrepreneurship** (3) Overview of the fundamental principles and processes of entrepreneurship including idea generation and opportunity analysis.
Effective: Spring 2011
Prerequisite:

ENTR 320 **Entrepreneurship and New Venture Creation** (3) Explores the process for starting and growing a new venture including the development of a business plan.
Effective: Summer 2000
Prerequisite:

ENTR 400 **Financing Entrepreneurial Ventures** (3) Overview of alternative forms of financing including seed capital, valuing a company, going public, partnerships, and acquisitions.
Effective: Summer 2000
Prerequisite:

ENTR 410 **Entrepreneurial Marketing** (3) Principles of Internet marketing and strategies for marketing new ventures on the Web.
Effective: Spring 2007
Prerequisite:

ENTR 420 **Leadership and Growth of New Ventures** (3) Leadership of an entrepreneurial organization, including organizational effectiveness, stages of entrepreneurial growth, strategies for the future, and developing people.
Effective: Summer 2000
Prerequisite:

ENTR 430 **Entrepreneurship and New Product Development** (3) Examines the process of designing, testing and launching new products, and developing a strategy for commercialization of the technology.
Effective: Summer 2000
Prerequisite:

ENTR 440 **Entrepreneurship and Franchising** (3) Overview of the entire franchising process with a focus on licensing and distributorship, trade marks, strategy, and growing the enterprise.
Effective: Summer 2000
Prerequisite:

ENTR 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2000
Prerequisite:

ENTR 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2000
Prerequisite:

ENTR 497A **Sheetz Fellows Program** (1) This course is an introduction to the Sheetz Fellows Program. It prepares students with an entrepreneurial mindset for leadership roles by providing them with mentoring opportunities, academic challenges, and resources. Topic areas include: servant leadership, business networking, social networking, study abroad exploration, and resume development. The Sheetz Fellows experience offers "an education for leadership" in the best tradition of the Business program. It molds well-rounded students who are ready for the world and prepares students for citizenship and for life-long learning.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Environmental Engineering (ENVE)

ENVE 301W Environmental Microbiology (3) Fundamentals of microbial ecology and environmental microbiology with an emphasis on aspects of these fields important to environmental engineers.
Effective: Fall 2011
Prerequisite:
ENVE 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1997

ENVE 401 Occupational Safety and Environmental Health (1) Regulations, management practices, hazard identification, exposure assessment, monitoring, employee protection, and program management for occupational safety and health.
Effective: Fall 2011
Prerequisite:
ENVE 411 Water Supply and Pollution Control (3) Water supply, wastewater characteristics, design of unit processes for water and wastewater treatment, sludge processing, and related new technologies.
Effective: Fall 2011
Prerequisite:
ENVE 413W Operation and Control of Treatment Systems (3) Wastewater treatment, water treatment, solids handling, hazardous waste site control and operations, operator certification, report writing.
Effective: Fall 2011
Prerequisite: Concurrent: ENVE 416
ENVE 415 Hydrology (3) Watershed response to rainfall events; hydrologic systems; ground water flow.
Effective: Fall 2011
Prerequisite:

ENVE 416 Treatment Plant Design (3) Design of treatment facilities for water and waste water based on regulatory requirements and standards.
Effective: Fall 2011
Prerequisite: Concurrent: ENVE 417
ENVE 417 Hydraulic Design (3) Design of water and waste water conveyance systems and storage facilities.
Effective: Fall 2011
Prerequisite:
ENVE 424 Solid Waste Management (3) Solid waste collection and disposal techniques; recycling and design optimization; including content analysis, legislation, and planning.
Effective: Fall 1998
Prerequisite:
ENVE 425 Hazardous Waste Management (3) Overview of regulations, risk assessment, waste minimization and pollution prevention, treatment of hazardous waste, and remediation of contaminated sites.
Effective: Fall 2011
Prerequisite:
ENVE 430 Sustainable Engineering (3) A course on engineering which uses ecological principles to minimize waste and maximally use input materials.
Effective: Summer 2003
Prerequisite:
ENVE 460 Environmental Law (3) This course provides a survey of Federal and State environmental laws, including statutory, common and administrative law. May not be taken for graduate credit by Dickinson School of Law students in the concurrent J.D./EPC programs.
Effective: Summer 2003
Prerequisite:
ENVE 470 Air Quality (3) Overview of air quality issues with regard to the sources, measurements, effects, transport and control of potential air contaminants.
Effective: Fall 2007
Prerequisite:
ENVE 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2005
ENVE 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007
ENVE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an
ENVE 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Fall 1996

Last Import from UCM: June 2, 2012 12:27 PM
Environmental Resource Management (ERM)

ERM 151 Careers and Issues in Environmental Resource Management (1) Career opportunities and topical issues in the environmental sciences.
Effective: Spring 2001

ERM 210 (GN) Environmental Factors and Their Effect on Your Food Supply (3) An exploration of how urban environmental problems influence our ability to obtain food and natural resources.
Effective: Spring 2000

ERM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

ERM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

ERM 300 Basic Principles and Calculations in Environmental Analysis (3) This course will teach basic problem solving skills while using examples taken from environmental media--air, water, and soil.
Effective: Fall 2010
Prerequisite:

ERM 309 (A S M 309) Measurement & Monitoring of Hydrologic Systems (3) Introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems.
Effective: Spring 2010
Prerequisite:

ERM 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2012

ERM 411 Legal Aspects of Resource Management (3) Legal systems and lawmaking processes; property rights in land, water, and wildlife resources; jurisdictional problems in planning resource use.
Effective: Summer 1996
Prerequisite:

ERM 412 Resource Systems Analysis (3) The concept of systems; techniques of analysis, including input/output, mathematical programming, and simulation; application to resource systems.
Effective: Spring 2001
Prerequisite:

ERM 413W Case Studies in Ecosystem Management (3) Application of biological, physical, and social science principles to ecosystem management problems; introduction to environmental impact analysis and review.
Effective: Spring 2010
Prerequisite:

ERM 430 (PPATH 430) Air Pollution Impacts to Terrestrial Ecosystems (3) Overview of the direct and indirect effects of air pollutants on terrestrial plants and ecosystems.
Effective: Summer 2004
Prerequisite:

ERM 431 (VB SC 431) Environmental Toxicology (3) Effects of pollutants on animal health at the chemical, physical, and cellular level.
Effective: Spring 2011
Prerequisite:

ERM 433 Transformation of Pollutants in Soils (3) Processes regulating fate and transport of metals, organics, nutrients, salts, pathogens, and radionuclides in soil systems.
Effective: Summer 2007
Prerequisite:

ERM 435 (W F S 435) Limnology (3) Biogeochemistry and natural history of freshwater ecosystems.
Effective: Summer 2007
Prerequisite:

ERM 436 (W F S 436) Limnological Methods (3) Application of current methodologies to evaluate the biological, chemical, and physical characteristics of aquatic ecosystems.
Effective: Spring 2010
Prerequisite:

ERM 440 Chemistry of the Environment: Air, Water, and Soil (3) A global perspective of the chemical principles,
composition and processes that operate within and between air, water, and soil environments.
Effective: Spring 2012
Prerequisite:

E R M 447 Stream Restoration (3) Stream restoration including fluvial geomorphology, stream classification, impairment, sediment transport, stable stream design, and watershed assessment.
Effective: Summer 2008
Prerequisite:

E R M 450 (W F S 450) Wetland Conservation (3) Wetland types, classification, functions and values; hydrology, soils, and plants; introduction to wetland identification and delineation; wetland regulations.
Effective: Spring 2002
Prerequisite:

E R M 494H Honors Thesis (1-6) Independent study directed by a faculty supervisor that culminates in the production of an ERM honors thesis.
Effective: Summer 2009
Prerequisite:

E R M 495 Internship (1-12) A supervised practicum in the environmental field. To be offered only for SA/UN grading.
Effective: Summer 1996
Prerequisite:

E R M 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

E R M 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

E R M 499 (IL) Foreign Studies (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Environmental Studies (ENVST)

ENVST 100 (GS) Visions of Nature (3) An interdisciplinary introduction to environmental studies, including perspectives from ethics, economics, public policy, art, literature, history, geology, biology, and ecology.
Effective: Fall 2000

ENVST 100H (GS) Visions of Nature (3) An interdisciplinary introduction to environmental studies, including perspectives from ethics, economics, public policy, art, literature, history, geology, biology, and ecology.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENVST 200 Research Methods in Environmental Studies (3) Focus on interdisciplinary research methodologies from biology, social sciences, and humanities for the study of environmental issues and problems.
Effective: Spring 2000
Prerequisite:

ENVST 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

ENVST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

ENVST 297A Education and Outreach at the Fair Trade Festival (1) Media, PA, is the home to the first Fair Trade Town in the United States and the first campus in the Penn State system to earn Fair Trade University status. The two communities will work together to help create, promote, and distribute education and outreach materials at the 2012 Fair Trade Festival and Marketplace, being held in Media on Sunday, October 21, 2012. Students enrolled in this course will receive an introduction to the scholarship and ethical responsibilities of engaging with a community partner, learn about the Fair Trade Movement and Penn State Brandywine's Fair Trade University status, and create the online and print materials to address the overarching goal of the Fair Trade Festival-education and outreach. Students will be required to volunteer at the Festival to assist with communicating the education and outreach efforts.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

ENVST 299 (IL) Foreign Studies in Environmental Studies (1-12 per semester/maximum of 12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012
Prerequisite:

ENVST 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2000
Prerequisite:

ENVST 400W Senior Seminar in Environmental Studies (3) Writing-intensive study of a specified topic in environmental studies integrating approaches and research from a variety of disciplines.
Effective: Spring 2000
Prerequisite:

ENVST 424 (ENGL 424) Creative Writing and the Natural World (3) Creative writing workshop focused on the environment and related issues.
Effective: Summer 2011
Prerequisite:

ENVST 494 Research Topics in Environmental Studies (1-12 per semester/maximum of 12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Summer 2012
Prerequisite:

ENVST 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

ENVST 497 Special Topics in Environmental Studies (1-9 per semester/maximum of 9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012
Prerequisite:

ENVST 499 (IL) Foreign Studies in Environmental Studies (1-12 per semester/maximum of 12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

The Pennsylvania State University
Environmental Systems Engineering (ENVSE)

ENVSE 400 Safety Engineering (3) An examination of the engineering aspects of the safety discipline and it's management in the work environment.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

ENVSE 404W Surface and Interfacial Phenomena in Environmental Systems (3) Principles underlying surface and interfacial phenomena with application to mineral processing and environmental systems.
Effective: Spring 2012
Prerequisite:

ENVSE 406 Sampling and Monitoring of the Geo-Environment (3) Issues of sampling, analysis, monitoring and control techniques for effective environmental management in the extractive industries.
Effective: Summer 2012
Prerequisite:

ENVSE 408 Contaminant Hydrology (3) Mobility of contaminants in aquifers; multiphase flow, transport, retardation and attenuation, vapor mobility, aquifer characterization, mathematical models and aquifer remediation.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

ENVSE 412 Environmental Systems Engineering Laboratory (1) A laboratory study of the principles involved in the characterization and remediation of process wastes with an emphasis on physical separations.
Effective: Summer 2012
Prerequisite:

ENVSE 420 Fire Safety Engineering (3) Overview of the history and behavior of fire, hazards and risk identification, detection and suppression systems, and emergency evacuation procedures.
Effective: Summer 2012
Prerequisite:

ENVSE 427 Pollution Control in the Process Industries (3) Development of multimedia pollution control strategies for the mineral, metallurgical processing, and fossil fuel industries.
Effective: Spring 2012
Prerequisite:

ENVSE 440 Industrial Ventilation for Contaminant Control (3) Ventilation system design and analysis for control of industrial contaminants; measurements, dilution and local exhaust ventilation strategies; laboratory demonstrations included.
Effective: Spring 2012
Prerequisite:

ENVSE 450 Environmental Health and Safety (3) Overview of toxicology, epidemiology, exposure assessment, industrial hygiene, environmental laws, and engineering approaches to protecting workers and the environment.
Effective: Spring 2012
Prerequisite:

ENVSE 457 Industrial Hygiene Measurements (4) Introduction to industrial hygiene methods used in evaluating occupational exposures, and in designing and evaluating control systems; laboratory work included.
Effective: Summer 2012
Prerequisite:

ENVSE 470 Systems Safety and Risk Engineering (3) Quantitative methods of systems analysis, risk analysis and tolerance, as well as accident cost and cost-benefit analysis are covered.
Effective: Spring 2012
Prerequisite:

ENVSE 480 Environmental Systems Engineering Process Design (3) An integrated problem-based learning experience that utilizes fundamental concepts covered in the curriculum to design a geo-environmental system.
Effective: Summer 2012
Prerequisite:

ENVSE 494H Senior Thesis (1-6) Independent research and/or design projects under the supervision of the Environmental Systems Engineering program.
Effective: Summer 2012
Prerequisite:

ENVSE 495 Environmental Health and Safety Engineering Internship (2) Students work with an advisor to prepare technical memos and a final report summarizing the experiential education gained through employment in industry.
Effective: Spring 2012
Prerequisite:

ENVSE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012

The Pennsylvania State University
ENVSE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2012

Last Import from UCM: June 2, 2012 12:27 PM
Finance (FIN)

FIN 100 Introduction to Finance (3) The nature, scope, and interdependence of the institutional and individual participants in the financial system. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 301 or FIN 301.
Effective: Spring 1996
Prerequisite:

FIN 108 Personal Finance (3) Personal management of budgets, bank accounts, loans, credit buying, insurance, real estate and security buying. May not be used to satisfy Smeal College baccalaureate degree requirements.
Effective: Fall 1983
Prerequisite:

FIN 108A Personal Finance: Wealth Management (1) Personal finance with a focus on wealth management and retirement planning along with investment securities, tax strategies, personal financial needs, and long-term care.
Effective: Summer 2011
Prerequisite:

FIN 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FIN 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FIN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FIN 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FIN 301 Corporation Finance (3) Nature of finance function; risk and return concepts; working capital; dividend policies; mergers; security markets; acquisition and management of corporate capital; analysis of operations, forecasting capital requirements; raising capital; and planning profits. Available to Baccalaureate students only. Not available to students who have taken B A 301.
Effective: Spring 2011
Prerequisite:

FIN 301H Corporation Finance (3) Nature of finance function; risk and return concepts; working capital; dividend policies; mergers; security markets; acquisition and management of corporate capital; analysis of operations, forecasting capital requirements; raising capital; and planning profits. Available to Baccalaureate students only. Not available to students who have taken B A 301.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

FIN 301H Corporation Finance (3) Nature of finance function; risk and return concepts; working capital; dividend policies; mergers; security markets; acquisition and management of corporate capital; analysis of operations, forecasting capital requirements; raising capital; and planning profits. Available to Baccalaureate students only. Not available to students who have taken B A 301.
Prerequisite:

FIN 302 Introductory Financial Modeling (3) This course applies spreadsheets to build financial models and solve numerically intensive problems in finance.
Effective: Spring 2011
Prerequisite: Concurrent: FIN 301

Effective: Spring 2011
Prerequisite:

FIN 305M Financial Management of the Business Enterprise (Honors) (3) Development of advanced practices of financial management and their application to decision making in a business firm.
Effective: Spring 2012
Prerequisite:

Effective: Spring 2011
Prerequisite:
FIN 306W Investment Valuation (3) Approaches to investment strategy, investment decisions; valuation of corporate securities, including the impact of dividend policy and capital structure.
Effective: Spring 2001
Prerequisite:

FIN 330 Personal Financial Planning (3) Developing financial plans including cash budgets, credit purchases, investments, and insurance.
Effective: Spring 2012
Prerequisite:

FIN 340 Insurance Planning (3) Introduction to personal insurance including homeowner’s, auto, life, disability, health, and Social Security.
Effective: Spring 2008

FIN 395A Nittany Lion Fund - Associate Fund Manager Practicum (3 per semester/maximum of 6) Introduction to working with the Nittany Lion Fund. Students work on projects such as investor reports and earnings reports along with assisting Nittany Lion Fund Managers with the development of stock pitches based on market insights.
Effective: Summer 2011
Prerequisite:

FIN 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

FIN 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

FIN 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

FIN 405 Advanced Financial Management (3) An examination of the development and application of decision rules for major long-term financial and investment problems of the firm.
Effective: Summer 1993
Prerequisite:

FIN 406 Security Analysis and Portfolio Management (3) Advanced valuation theory; fundamentals of security analysis; portfolio construction and management.
Effective: Spring 2011
Prerequisite:

FIN 406H Security Analysis and Portfolio Management (Honors) (3) Advanced valuation theory; fundamentals of security analysis; portfolio construction and management.
Effective: Summer 2011
Prerequisite:

FIN 407 Multinational Financial Management (3) Analysis of the international aspects of managerial finance; emphasis on the impact of the international financial environment on firm operations.
Effective: Spring 2005
Prerequisite:

FIN 408 Financial Markets and Institutions (3) Functional analysis of major credit institutions; sources and uses of funds; impact of government regulation.
Effective: Fall 1994
Prerequisite:

FIN 408H Financial Markets and Institutions (Honors) (3) Introduction to bonds, equities, derivatives, and financial institutions including insurance, pension funds and mutual funds.
Effective: Spring 2012
Prerequisite:

FIN 409 Real Estate Finance and Investment (3) The sources and uses of credit; instruments and methods of financing; the theory and practice of real estate investment analysis.
Effective: Summer 2011
Prerequisite:

FIN 410 Derivative Markets (3) Functions, techniques, and impact of speculation conducted through forward markets; the nature of speculative transactions, pricing, and methods of trading.
Effective: Spring 2011
Prerequisite:

FIN 412 Commercial Bank Management (3) Fundamental principles underlying management of a commercial bank; capital funds; asset and liability management; value maximization; legal and operational constraints.
Effective: Fall 1994
Prerequisite:
FIN 413 Risk Management of Financial Institutions (3) Measuring and managing risk faced by financial institutions.
Effective: Summer 2007
Prerequisite:

FIN 414 Financial Trading and Applications (3) This course focuses on financial modeling and analysis of trading strategies. Bloomberg, Reuters, spreadsheets and trading simulations are used extensively.
Effective: Summer 2007
Prerequisite:

FIN 415 Advanced Financial Modeling (3) Develop financial models using spreadsheets, VBA programming, and trading room applications such as Bloomberg and @Risk.
Effective: Spring 2011
Prerequisite:

FIN 420 Investment and Portfolio Analysis (3) Investment and risk, types of security investments, sources of investment information, the broker, the stock market, portfolio management.
Effective: Spring 2008
Prerequisite:

FIN 427 Derivative Securities (3) Introduction to futures contracts and options, leading to a working understanding of their importance in financial management applications.
Effective: Spring 2008
Prerequisite:

FIN 430 Estate Planning (3) Liquidity planning, titling and transfer of property, trusts, federal unified tax system, gifting, incapacity planning, legal documents.
Effective: Spring 2008
Prerequisite:

FIN 450 Retirement Planning (3) Retirement planning: qualified and non-qualified plans, characteristics, provisions, regulations administration, application approach with case studies.
Effective: Spring 2008

FIN 451 Intermediate Financial Management (3) Case studies are used to develop skills in solving a variety of financial management problems.
Effective: Spring 2010
Prerequisite:

FIN 456 (IL) International Capital Markets (3) This course develops understanding of international capital markets by striking a balance between institutional details, theoretical foundation and practical application.
Effective: Spring 2008
Prerequisite:

FIN 460 (R M 460) Real Estate Financial Analysis (3) Debt and equity financing, capital structure, “creative financing,” risk analysis, corporate asset management.
Effective: Spring 2012
Prerequisite:

FIN 461 Portfolio Management and Analysis (3) Investment policy and process, modern portfolio theory, portfolio construction, and portfolio performance measurement and evaluation.
Effective: Fall 2011
Prerequisite:

FIN 470 (R M 470) Real Estate and Capital Markets (3) Analysis of publicly-traded real estate of both the equity, (REITs) and debt (MBSs) sides. The course also provides international perspectives.
Effective: Spring 2012
Prerequisite:

FIN 471 International Finance (3) Financial decision making in an international environment. Emphasis on topics relevant to small businesses and entrepreneurs.
Effective: Spring 2010
Prerequisite:

FIN 475 Financial Decision Making (3) Problems and cases in financial decision making for non-financial corporations and financial institutions.
Effective: Fall 2009
Prerequisite:

FIN 481 Advanced Financial Analysis (3) Capstone course integrating financial analysis coursework. This course is based on the case study method which provides a challenging setting in which to apply business concepts.
Effective: Spring 2009
Prerequisite:

FIN 489 Seminar in Finance (3) In-depth study of new trends, concepts, and practices in financial or portfolio management.
Effective: Spring 2008
Prerequisite:

FIN 491 Financial Planning Capstone (3) Critical thinking and decision-making about personal financial planning topics in the context of the financial planning process.
Effective: Summer 2012
Prerequisite:
FIN 494 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

FIN 494H Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2008

FIN 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:
FIN 495A Nittany Lion Fund -- Lead Fund Manager Practicum (3 per semester/maximum of 6) Advanced work with the Nittany Lion Fund. Lead Fund Managers are accountable for sector and stock performance as well as reports. Students delegate work to Associate Fund Managers while focusing a great amount of attention to all aspects of stock pitches, weekly and quarterly reports, along with conducting weekly training session for new analysts.
Effective: Summer 2011
Prerequisite:
FIN 495B Nittany Lion Fund - Executive Board Practicum (3 per semester/maximum of 6) Oversight of the Nittany Lion Fund (NLF) and its overall performance. Executive Board members and Directors are accountable for all aspects of the Nittany Lion Fund. Students interact with investors and are responsible for delivering professionally developed performance reports, weekly information updates, and annual shareholder meetings. Executive Board members assume specific duties within the NLF associated with their position, along with a shared responsibility for being a spokesperson for the fund.
Effective: Summer 2011

FIN 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FIN 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FIN 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

FIN 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007
Financial Services (FINSV)

FINSV 400 Investment Valuation for the Financial Services Professional (3) Approaches to investment strategies, investment decisions, and the valuation of corporate securities.
Effective: Summer 2002
Prerequisite:

FINSV 411 Federal Income Taxation for the Financial Services Professional (3) Tax regulations, tax policy, tax determination, and tax planning applicable for personal/business decision making; emphasis on taxation of individuals.
Effective: Summer 2002
Prerequisite:

FINSV 420 Estate Planning for the Financial Services Professional (3) Studies the processes relating to the use, conservation, and transfer of an individual’s wealth; emphasizing investments, insurance and taxation.
Effective: Fall 2011
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
First-Year Seminar (CAP)

CAP 100S Orientation to the Undergraduate Experience (1) To facilitate transition of new students through active engagement and introduction to university and campus resources.
Effective: Fall 2004

CAP 110S First-Year Seminar for Capital College, The School of Behavioral Sciences and Education (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 120S First-Year Seminar for Business (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 140S First-Year Seminar for Humanities (1) Introduction to the discipline including: ethics, research methods, communications, career opportunities/issues and applied technology.
Effective: Summer 1999
Prerequisite:

CAP 150S First-Year Seminar for Capital College, The School of Public Affairs (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2003

CAP 160S First-Year Seminar for Capital College, The School of Science, Engineering and Technology (1) Introduction to Penn State culture, information literacy and collaboration skills, and introduction to majors and careers relevant to the discipline.
Effective: Spring 2004

Last Import from UCM: June 2, 2012 12:27 PM
Food Science (FD SC)

FD SC 105 (GHA) (S T S 105) Food Facts and Fads (3) Impact on society and the individual of modern food technology, food laws, additives, etc.; historical, current, and futuristic aspects.
Effective: Spring 2004

FD SC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 200 Introductory Food Science (3) General overview and principles; food constituents and properties; quality and safety; preservation methods; processing animal and plant products.
Effective: Summer 2007
Prerequisite:

FD SC 201 Introductory Food Science Practicum (1) Demonstration to illustrate actual chemical reactions in food systems and visits to campus and area food processing operations.
Effective: Fall 1984
Prerequisite:

FD SC 205 Food Plant Sanitation (3) Organization and administration of food plant sanitation with emphasis on the production and maintenance of safe, wholesome food products.
Effective: Spring 1997
Prerequisite:

FD SC 206 Improving Food Quality (3) Modern philosophies coupled with practical information on improving product quality, including topics on HACCP, SPC, recall procedures and customer relations.
Effective: Spring 1997
Prerequisite:

FD SC 207 (AN SC 207) Animal Products Technology (2) Composition, safety, palatability, preservation, and processing of foods from animals, impact of animal production and handling practices on product properties.
Effective: Spring 2003

FD SC 208 (AN SC 208) Animal Products Technology Laboratory (1) Harvesting and processing of foods from animals; hands-on and demonstration exercises; industry procedures for processing meat, milk, and egg products.
Effective: Spring 2003
Prerequisite:

FD SC 280H (GH) (PHIL 280H) Food, Values, and Health (3) The perceived relationship between food and health, emphasizing the conceptual nature of both; and how values contribute to the relationship.
Effective: Spring 2007

FD SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

FD SC 400 Food Chemistry (4) Chemical properties of food constituents as influenced by processing and storage.
Effective: Fall 2009
Prerequisite:

FD SC 404 Sensory Evaluation of Foods (3) Sensory evaluation of food, methods of test analyses, panel selection and training, taste sensation theory, consumer testing methods.
Effective: Spring 2001
Prerequisite:

FD SC 405 Food Engineering Principles (3) Engineering principles of importance to food manufacturing, including units, dimensions, mass and energy balance, fluid flow, rheology, heat transfer, and psychrometrics.
Effective: Spring 2009
Prerequisite:

FD SC 406 Physiology of Nutrition (3) Physiological mechanisms involved in thirst and appetite, digestion, absorption, utilization of nutrients, respiration, and body temperature regulation.
Effective: Spring 2001
Prerequisite:

FD SC 407 Food Toxins (2) Microbiological and chemical aspects of food poisoning; toxicological principles; case histories
and prevention of problems.
Effective: Winter 1978
Prerequisite:

FD SC 408 Food Microbiology (2) Significance of microorganisms in food commodities, microbial spoilage, foodborne infections, and intoxication; methods of preservation, processing, and control.
Effective: Fall 2009
Prerequisite:

FD SC 409W Laboratory in Food Microbiology (3) Methods of isolation, detection of spoilage, pathogenic microorganisms in foods; effects of processing and preservation on survival of food microorganisms.
Effective: Fall 2009
Prerequisite:

FD SC 410 Chemical Methods of Food Analysis (3) Qualitative and quantitative determinations of food constituents.
Effective: Spring 2001
Prerequisite:

FD SC 411 Managing Food Quality (2) Principles and applications of Hazard Analysis Critical Control Points. Statistical tools for the control and improvement of food quality.
Effective: Summer 1999
Prerequisite:

FD SC 413 Science and Technology of Plant Foods (3) Physical and chemical behavior of plant-based raw materials and ingredients, with emphasis on parameters influencing finished product quality.
Effective: Fall 2009
Prerequisite:

FD SC 414 Science and Technology of Dairy Foods (3) Physical and chemical behavior of dairy-based raw materials and ingredients, with emphasis on parameters influencing finished product specifications.
Effective: Fall 2009
Prerequisite:

FD SC 415 Science and Technology of Muscle Foods (3) Physical and chemical properties of muscle food commodities, with emphasis on muscle-based ingredients in formulated foods.
Effective: Fall 2009
Prerequisite:

FD SC 417 Food Laws and Regulations (2) Historic and current aspects of government control of doing business with food (emphasis on the Food, Drug, and Cosmetic Act).
Effective: Summer 1989
Prerequisite:

FD SC 430 Unit Operations in Food Processing (3) Thermal processing, refrigeration, freezing, dehydration, and concentration in the food industry, including effects on food quality; food packaging; waste management.
Effective: Fall 2009
Prerequisite:

FD SC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1992
Prerequisite:

FD SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FD SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 2, 2012 12:27 PM
Forensic Science (FRNSC)

FRNSC 100 (GN) Introduction to Forensic Science (3) Introduction forensic science. Effective: Spring 2011

FRNSC 200 (GN) Introduction to Crime Scene Investigation (3) This course offers an exploration of the science, management, and investigative techniques for the field of crime scene investigation. Effective: Spring 2010

FRNSC 201W Principles of Crime Scene Investigation (4) Basic principles of crime scene investigation including management, processing and investigative techniques. Effective: Fall 2011 Ending: Summer 2012
Prerequisite: FRNSC 210

FRNSC 210 Essential Practices of Forensic Science (3) Basic practices of forensic science including documentation methods (measurements, notes, sketches, and photography), microscopy, communication of results, and integration of concepts from other sciences including chemistry, biology, and physics, as well as mathematics and statistics. Effective: Spring 2012
Prerequisite:

FRNSC 294 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

FRNSC 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2008

FRNSC 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2008

FRNSC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2005

FRNSC 301 Criminalistics IA (3) Basic concepts of criminalistics and the role of the criminalist in a forensic investigation. Effective: Fall 2011 Ending: Summer 2012
Prerequisite:

FRNSC 302 Criminalistics IB (3) Basic concepts of criminalistics and the role of the criminalist in a forensic investigation. Effective: Spring 2009 Ending: Summer 2012
Prerequisite:

FRNSC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2009

FRNSC 400 Courtroom Proceedings and Testimony (1) Introduction to courtroom proceedings and testimony as they related to forensic science. Effective: Fall 2011 Ending: Summer 2012
Prerequisite:

FRNSC 400 Courtroom Proceedings and Testimony (1) Introduction to courtroom proceedings and testimony as they related to forensic science. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

FRNSC 401W Criminalistics II - Advanced Analysis and Crime Scene Investigation (4) Advanced concepts in criminalistics as they apply to criminal and civil investigations. Effective: Fall 2011 Ending: Fall 2012
Prerequisite:

FRNSC 410 A Scientific Approach to Crime Scene Investigation (2) Principles of crime scene investigation with emphasis on scientific philosophy, concepts, and procedures. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

FRNSC 411 Criminalistics: Trace and Impression Evidence (3) Laboratory-based examination of forensic evidence; microscopy, classification and identification.

The Pennsylvania State University
FRNSC 413 **Criminalistics: Biology** (3) Laboratory-based examination of forensic evidence; biological fluid identification, hair microscopy.

FRNSC 415W **Laboratory in Crime Scene Investigation** (2) Laboratory course covering crime scene investigation with emphasis on scientific philosophy, concepts, procedures, problem solving, and hands-on activities.

FRNSC 421W **Forensic Molecular Biology** (3) Concepts and application of serology of molecular biology techniques to analyze biological evidence collected at crime scenes.

FRNSC 427W (CHEM 427W) **Forensic Chemistry** (4) Analytical and instrumental methods used in the forensic sciences with special emphasis on the analysis and characterization of trace evidence.

FRNSC 475 **Forensic Science Seminar** (1) Presentation and discussion of special issues in forensic science; extension and application of background knowledge to unusual topics and cases.

FRNSC 485W **Coalescence of Forensic Science Concepts**. (4) Advanced concepts in criminalistics as they apply to criminal and civil investigations.

FRNSC 494 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

FRNSC 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

FRNSC 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Forest Technology (FORT)

FORT 100 Introduction to Forestry (1) A general introduction to forest ecology, history, management, and practices. Effective: Summer 2002 Ending: Summer 2012

FORT 100S Introduction to Forestry (1) A general introduction to forest ecology, history, management, and practices. Effective: Fall 2012 Future: Fall 2012

FORT 105 Forest Mensuration (3) Measurement of forests and forest products. Effective: Fall 2002

FORT 110 Forest Inventories (3) Application of forest mensuration, mapping, GIS, sampling, and statistical analysis to the inventory of forest resources. Effective: Spring 2003

FORT 120 Forestry Computer Applications (2) Computer hardware and software applications specific to forestry. Effective: Fall 2002

FORT 130 Forest Mapping Systems (2) Mapping forest properties, using traditional mechanical drawing techniques, geographical positioning systems, geographic information systems, and spatial analysis of resources. Effective: Summer 2002

FORT 140 Forest Surveying (3) Plane surveying including hand compass and survey equipment, map reading, deed and title research, land descriptions and property line location. Effective: Spring 2003

FORT 150 Dendrology (3) Taxonomy, identification, ranges, and uses of important U.S. timber species and lesser vegetation of a regional nature. Effective: Fall 2002

FORT 160 Silvicultural Practices (3) Principles and techniques of forest establishment, culture, and regeneration systems. Effective: Spring 2003

FORT 170 Forest Harvesting and Operations (3) Forest harvesting and intermediate operations: forest worker safety, hand and power tools, harvest planning, and best management practices. Effective: Summer 2002

FORT 175 Forest Products Industry Tour (1) Field tour of local and regional forest products industries. Effective: Summer 2002

FORT 200 Wood Identification and Properties (1) Anatomy of wood and bark; cell wall formation and composition; and identification of wood by gross and microscopic qualities. Effective: Summer 2002

FORT 210 Arboriculture (3) Selection, planting, care, and maintenance of woody ornamental plants and shade trees grown in urban, sub-urban, and rural landscapes. Effective: Fall 2002

FORT 220 Forest Ecosystem Protection (4) Principles and concepts involved in managing the forest ecosystem in regard to fires, insects, and diseases. Effective: Fall 2002

FORT 230 Aerial Photo Interpretation (2) Aerial photo interpretation techniques applied to land management inventories, mapping, road location, and procurement. Effective: Fall 2002

FORT 240 Forest Soils and Hydrology (3) The study of forest soils and hydrology, especially as they are affected by forest management activities. Effective: Spring 2003

FORT 250 Forest Management Practices (3) Practical techniques for implementing management plans for forest stands
under various ownerships and management regimes.
Effective: Summer 2002
Prerequisite:
FORT 260 GIS for Natural Resources Management (3) Geographic Information Systems technology including mapping and GIS data management procedures w/ emphasis on natural resource management applications.
Effective: Summer 2007
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Forestry (FOR)

FOR 200W (W P 200W) Professional Careers in Forest Resources (3) Introduction to managing forests for products and services to meet human needs; developing career goals and an academic plan.
Effective: Spring 1996
Concurrent: FOR 203

FOR 201 (GN) Global Change and Ecosystems (3) This course will provide students with an understanding of the climate system, ecosystems, and feedbacks between the two.
Effective: Summer 2012
Prerequisite:

FOR 203 Field Dendrology (3) Field identification of native and introduced trees and shrubs by leaf, fruit, twig, and bark.
Effective: Spring 2009
Concurrent: FOR 200W or W P 200W and W P 203

FOR 204 Dendrology (2) Taxonomic and silvical characteristics, ranges, genetic relationships, and uses of important forest tree species.
Effective: Winter 1978
Prerequisite:

FOR 228 Chainsaw Safety, Maintenance, and Operation in Forest Management (1) Safety, maintenance, skills, and techniques for effective chainsaw operation in forest management.
Effective: Summer 2012
Prerequisite:

FOR 242 Elements of Project Supervision in Forestry (3) Supervisory techniques developed through an understanding of the behavioral sciences applied to field forestry personnel management.
This course is offered only at the DuBois and Mont Alto Campus as part of the two-year Forest Technology and Wildlife Technology majors.
Effective: Fall 1983

FOR 295 Forest Technology Internship (1-4) Supervised field experience related to the student's major.
This course is offered only at the Mont Alto Campus as part of the two-year Forest Technology major.
Effective: Fall 1983

FOR 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FOR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FOR 297A Applied GPS/GIS Usage for Natural Resource Managers (3) Introduction to the use of GPS and GIS to collect, create, manipulate, analyze, and map natural resources management data.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

FOR 308 Forest Ecology (3) Effects of environment, spacing, and age on trees; forest influences; origin and development of forest communities.
Effective: Summer 2000
Prerequisite:

FOR 320 Forest Fire Management (2) Principles and concepts involved in managing the forest ecosystem in regard to fire.
Effective: Summer 2000
Prerequisite:

FOR 339 Timber Sale Administration (2) Practical aspects of the logistical, environmental, managerial, and regulatory oversight of active and retired timber sales.
Effective: Spring 2010 Ending: Summer 2012
Prerequisite:

FOR 350 Forest Resources Biometrics (3) Quantitative approaches for characterization and comparison of natural resources in forested landscapes.
Effective: Spring 1997
Prerequisite:

FOR 366 Forest Resources Measurements (4) Measurement systems used in forest management, wildlife management, water-shed management, urban forestry, and recreation management.
Effective: Summer 2000
Prerequisite:

FOR 401 Urban Forest Management (3) Uses and values of urban vegetation, open space, and wildlife; planning, financing, support, management, and administration of urban forestry programs.
Effective: Summer 1992
Prerequisite:

FOR 409 Tree Physiology (2) Fundamentals of the relationship of the basic physiological functions of forest trees to form.
Effective: Spring 1995
Prerequisite:

FOR 410 Elements of Forest Ecosystem Management (3) Fundamentals of forest ecosystem management for goods and services.
Effective: Summer 1995
Prerequisite:

FOR 416 Forest Recreation (3) The management and administration of multiple-use forest lands and wilderness for forest recreational experiences, with emphasis on public forests.
Effective: Spring 2001
Prerequisite:

FOR 418 (US:IL) Agroforestry: Science, Design, and Practice (3) Agroforestry integrates trees in agricultural landscapes, and/or agriculture products into forested areas for multiple benefits.
Effective: Spring 2006

FOR 421 Silviculture (3) The application of the principles of forest ecology to control of establishment, composition, and growth of forest stands.
Effective: Fall 1984
Prerequisite:

FOR 430 (W FS 430) Conservation Biology (3) The application of biological principles to issues in the conservation of biodiversity.
Effective: Spring 1995
Prerequisite:

FOR 439 Timber Sale Administration (2) Practical aspects of the logistical, environmental, managerial, and regulatory oversight of active and retired timber sales.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

FOR 440 Forest Economics and Finance (3) The application of economic theory to forest resources systems, with emphasis on production and investment analyses.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

FOR 440 Forest and Conservation Economics (3) The role and application of economics and finance to forest resource conservation and management.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

FOR 451 Artificial Intelligence and Expert Systems for Agriculture and Natural Resource Management (3) Application of artificial intelligence in agriculture and natural resources, with emphasis on expert systems.
Effective: Summer 2011
Prerequisite:

FOR 455 Remote Sensing and Spatial Data Handling (3) Remote sensing systems, with emphasis on application to forest ecosystem analysis. Includes introduction to computer systems for spatial data handling.
Effective: Summer 2000
Prerequisite:

FOR 466W Forest Resource Management (3) Optimum use of forest's tangible and intangible resources by application of financial and administrative management principles and management science techniques.
Effective: Spring 2001
Prerequisite:

FOR 470 Watershed Management (3) Management of wild land watersheds for control of the amount and timing of water yield, water quality, erosion, and sedimentation.
Effective: Summer 2000
Prerequisite:

FOR 471 Watershed Management Laboratory (1) Introduction to hydrologic and climatic measurements and computations useful in watershed management.
Effective: Spring 1992
Prerequisite:

FOR 475 Principles of Forest Soils Management (3) Effect of current forest management practices on the properties and productive capacity of forest soils.
Effective: Spring 1985
Prerequisite:

FOR 480 Policy and Administration (3) Forest resources policy objectives; criteria and goals of society; policy implementation by ownership classes; planning, administration, and evaluation of programs.
Effective: Spring 2001

The Pennsylvania State University
Prerequisite:

FOR 488Y (IL) International Forestry (3) Forestry in global context, emphasizing developing countries: ecological, economic, technological, and political aspects.
Effective: Spring 2006 Ending: Fall 2012
Prerequisite:

FOR 488Y (IL) Global Forest Conservation (3) Ecological, economic, technological, and political aspects of forested ecosystems in a global context, emphasizing tropical and developing countries.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

FOR 494 Forestry Research (3) Introduction to the theory, principles, and practices of forestry research; supervised research experience.
Effective: Summer 1995
Prerequisite:

FOR 494H Forestry Research (3) Introduction to the theory, principles, and practices of forestry research; supervised research experience.
Effective: Fall 2007
Prerequisite:

FOR 495 Forestry Internship (1-6) Supervised field experience related to the student's major.
Effective: Fall 1981
Prerequisite:

FOR 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

FOR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

FOR 497F Invasive Forest Plants (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

FOR 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Fractional Transfer Credits (GMISC)

GMISC 001 FRACTIONAL TRANSFER CREDITS (1-99) FRACTIONAL TRANSFER CREDITS FOR ADMISSION'S USE ONLY. Effective: Fall 1983

Last Import from UCM: June 2, 2012 12:27 PM
French (FR)

FR 001 Elementary French I (4) Grammar, with reading and writing of simple French; oral and aural work stressed. Students who have received high school credit for two or more years of French may not schedule this course for credit, without the permission of the department. Effective: Fall 1985

FR 002 Elementary French II (4) Grammar and reading continued; oral and aural phases progressively increased. Students who have received high school credit for four years of French may not schedule this course for credit, without the permission of the department. Effective: Fall 1985

FR 051 Elementary Intensive French I for Graduate Students (3) Intensive introduction to French: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008

FR 052 Elementary Intensive French II for Graduate Students (3) Intensive introduction to French: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008

FR 083S (GH;IL) First-Year Seminar in French (3) Critical approaches to the dimensions and directions in French/Francophone literatures and cultures. Effective: Summer 2005

FR 111 Elementary French (6) Acquisition of basic skills in the active use of French: listening, speaking, reading, and writing. Effective: Fall 1983

FR 112 Intermediate French (6) Reinforcement of basic skills previously acquired in the active use of French in FR 111. Effective: Fall 1983

FR 121G Fundamentals of Reading French (3) Instruction in fundamental skills required for reading expository French prose, primarily for research purposes. (This course may not be used to satisfy any baccalaureate degree requirements. No graduate credit is given for this course.) Effective: Spring 2001

FR 122G Practice in Reading French (3) Development and reinforcement of basic reading skills, with emphasis on the individual student’s area of research. (This course may not be used to satisfy any baccalaureate degree requirements. No graduate credit is given for this course.) Effective: Fall 1984

FR 137 (GH;IL) Paris: Anatomy of a City (3) Survey of the cultural, artistic, literary, and social life of the city of Paris from Gallo-Roman times to the present. Effective: Summer 2005

FR 138 (GH) French Culture Through Film (3) Introduction to French culture through film by French and francophone directors examining gender, ethnicity, and global issues. Taught in English. Effective: Spring 2002

FR 141 (IL) Cultural Tradition in French Cuisine (3) A study of French culture in English, emphasizing the French gastronomical traditions in literature and civilization.
Effective: Spring 2004

FR 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

FR 199 (IL) Foreign Study--French (1-12) Intensive postintermediate grammar review, with emphasis on oral skills and vocabulary building.
Effective: Summer 2005
Prerequisite:
FR 201 (IL) Oral Communication and Reading Comprehension (3) Emphasis on oral skills and reading for total comprehension.
Effective: Spring 2007
Prerequisite:
FR 201U (IL) Oral Communication and Reading Comprehension (3) Emphasis on oral skills and reading for total comprehension.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
FR 202 (IL) Grammar and Composition (3) Grammar review and writing of short essays.
Effective: Spring 2006
Prerequisite:
FR 270 (WMNST 270) Race and Gender in Literature Translated from French (3) A critical presentation, taught in English, of changing ideas and values on race and gender in French and Francophone literatures.
Effective: Spring 2005

FR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

FR 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1982

FR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1982

FR 299 (IL) Foreign Study--French (3-12) Writing practice at postintermediate level. Cultural readings about French civilization.
Effective: Summer 2005
Prerequisite:
FR 316 French Linguistics (3) Survey of the theory and methods of linguistics as they apply to the major subfields.
Effective: Summer 2006
Prerequisite:
FR 330 (IL) French Culture and Civilization (3) French history and culture from the Middle Ages through the Third Republic.
Effective: Spring 2006
Prerequisite:
FR 331 (IL) French Culture and Civilization I (3) French history and culture from the Middle Ages until the French Revolution.
Effective: Summer 2006
Prerequisite:
FR 332 (IL) French Culture and Civilization II (3) French history and culture from the French Revolution through the Third Republic.
Effective: Summer 2006
Prerequisite:
FR 351 (IL) Introduction to French Literature I (3) Introduction to close textual reading and analysis of selected works of French literature from the middle ages to 1789.
Effective: Spring 2006
Prerequisite:
FR 352 (IL) **Introduction to French Literature II** (3) Introduction to close textual reading and analysis of selected works of French Literature from 1789 to the present.
Effective: Spring 2006
Prerequisite:

FR 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

FR 397 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2006

FR 399 (IL) **Foreign Study--French** (3-12) Advanced training in the French language skills.
Effective: Summer 2005
Prerequisite:

FR 401 (IL) **Advanced Oral Communication** (3) Emphasis on speaking and listening comprehension through discussion of current issues, using journalistic materials.
Effective: Spring 2006
Prerequisite:

Effective: Spring 2006
Prerequisite:

FR 407 (IL) **Business Writing in French** (3) Common forms of business communication; writing of reports and abstracts.
Effective: Spring 2007
Prerequisite:

FR 408 (IL) **French-American Business Translation** (3) Translation from French to English of actual documents from the business world; theoretical consideration and systematic vocabulary building.
Effective: Spring 2007
Prerequisite:

FR 409 (IL) **Commercial and Technical Translation** (3) Translation from English to French of commercial and technical materials; vocabulary building; writing of abstracts and summaries.
Effective: Spring 2006
Prerequisite:

FR 410 (IL) **French Press** (3) Extensive readings of selected french daily and weekly newspapers and magazines, along with newscast viewings.
Effective: Spring 2007
Prerequisite:

FR 416 (IL) **Introduction to French Linguistics** (3) Introduction to the theory and methods of linguistics as they apply to the major subfields.
Effective: Spring 2006

FR 417 (IL) **French Phonology** (3) A formal study of the sound pattern of French.
Effective: Spring 2007
Prerequisite:

FR 418 (IL) **French Syntax** (3) A formal theory of word order and related issues in French grammar.
Effective: Spring 2006
Prerequisite:

FR 419 **French Semantics** (3) The study of meaning in human language with a special focus on how it is encoded in French.
Effective: Summer 2011
Prerequisite:

FR 422 (IL) **Old French Literature** (3) Medieval masterpieces in original and modern French versions.
Effective: Fall 2006
Prerequisite:

FR 426Y (IL) **French Literature of the Renaissance** (3) Survey of key texts from sixteenth century France, with attention to historical and philosophical currents of French social thought.
Effective: Fall 2006
Prerequisite:

FR 430 (IL) **Contemporary France** (3) Study of contemporary French society, politics, and culture from 1870 to the present.
Effective: Spring 2006
Prerequisite:

FR 436Y (IL) **Readings in Seventeenth-Century French Literature** (3) Baroque and classicism: reappraisal of major and
lesser-known 17th-century texts and theories.
Effective: Fall 2006
Prerequisite:
FR 440 (IL) *Teaching of Romance Languages* (3) Theories of second language acquisition. Current classroom practices in the teaching of Romance languages.
Effective: Spring 2006
Prerequisite:
FR 445Y (IL) *Self and Society in Eighteenth-Century France* (3) The changing relationship of the individual to society in pre-Revolutionary France will be explored in texts by major writers.
Effective: Spring 2006
Prerequisite:
FR 452Y (IL) *Nineteenth-Century French Literature* (3) Selected readings in romanticism, realism, and symbolism, including Balzac, Stendhal, Sand, Baudelaire, and others, with emphasis on cultural issues.
Effective: Fall 2006
Prerequisite:
FR 460 (IL) *Contemporary French Literature* (3) Major authors and movements in French novel, drama, and poetry from Proust to the present.
Effective: Fall 2006
Prerequisite:
FR 470 (IL) *Race and Gender Issues in Literatures in French* (3) A critical presentation, taught in French, of changing ideas and values on race and gender in French and Francophone literatures.
Effective: Summer 2005
Prerequisite:
FR 471 (IL) *Francophone Women in Literature and Culture* (3) Women's issues in literatures and cultures of French-speaking countries in Europe, the Mediterranean, Africa, the Caribbean, and Quebec.
Effective: Summer 2005
Prerequisite:
FR 487 (IL) *Topics in French Film History and Theory I: 1895-1945* (3) Provide background needed to understand the broad outlines of French film history and theory in their first fifty years (1895-1945).
Effective: Spring 2006
Prerequisite:
FR 488 (IL) *Topics in French Film History and Theory II: 1945-2002* (3) Provide background needed to understand the broad outlines of French film history and theory in their second half-century (1945-2002).
Effective: Spring 2006
Prerequisite:
FR 494 *Research Project* (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994
FR 494H *Research Project* (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007
FR 495 *Internship* (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1998
Prerequisite:
FR 496 *Independent Studies* (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983
FR 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983
FR 499 (IL) *Foreign Study--French* (3-12) Advanced studies in French language and literature.
Effective: Summer 2005
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Fuel Science (F SC)

F SC 401 Introduction to Fuel Technology (3) An introduction to the scientific and engineering principles of fuel technology. For non-fuel science majors; fuel science majors will not receive credit.
Effective: Summer 2007
Prerequisite:

F SC 431 The Chemistry of Fuels (3) Nature and properties of fossil and other fuels, including aerospace, in relation to use; preparation of fuels; by-products; fuel analysis.
Effective: Spring 2008
Prerequisite:

F SC 432 (CH E 432) Petroleum Processing (3) A study of physical and chemical processes to convert crude oil into desired products with an outlook from present to future.
Effective: Summer 2007
Prerequisite:

F SC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2000

F SC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

F SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1999

F SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1999

Last Import from UCM: June 2, 2012 12:27 PM
Geo-Environmental Engineering (GEOEE)

GEOEE 408 Contaminant Hydrology (3) Groundwater flow and transport; agents of contamination; aquifer characterization and remediation; case studies.
Effective: Spring 2002 Ending: Summer 2012
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Geography (GEOG)

GEOG 010 (GN) Physical Geography: An Introduction (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 010S (GN) Physical Geography: An Introduction (3) Survey and synthesis of processes creating geographical patterns of natural resources, with application of basic environmental processes in resource management.
Effective: Spring 2006

GEOG 020 (GS;US;IL) Human Geography: An Introduction (3) Spatial perspective on human societies in a modernizing world; regional examples; use of space and environmental resources; elements of geographic planning.
Effective: Summer 2005

GEOG 020U (GS;US;IL) Human Geography: An Introduction (3) Spatial perspective on human societies in a modernizing world; regional examples; use of space and environmental resources; elements of geographic planning.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GEOG 030 (GS;IL) Geographic Perspectives on Sustainability and Human-Environment Systems (3) Introduction to theory, methods, history and contemporary issues in global and regional relationships between human activity and the physical environment.
Effective: Spring 2012

GEOG 040 (GS;IL) World Regional Geography (3) Introduction to the world as an interdependent community built from unique and independent regions and nations.
Effective: Spring 2012

GEOG 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 110 (GN) Climates of the World (3) Introduction to climatology, including principal processes of the global climatic system and their variation over space and time.
Effective: Fall 2004

GEOG 111 (GN) Biogeography and Global Ecology (3) Distribution of plants and animals on global, regional, and local scales; their causes and significance.
Effective: Fall 2007

GEOG 115 (GN) Landforms of the World (3) Distribution of the world’s landform features and mineral resources; their characteristics, causes, and significance. Practicum includes correlated field trips and laboratory studies.
Effective: Fall 2004

GEOG 120 (GS;US;IL) Urban Geography: A Global Perspective (3) Introduction to the geography of the world’s cities and urban system.
Effective: Spring 2006

GEOG 122 (GH;US) The American Scene (3) Historical perspectives on the social and cultural forces associated with the production of distinctive American landscapes.
Effective: Spring 2007

GEOG 123 (GS;IL) Geography of Developing World (3) Patterns of poverty in poor countries; conventional and non-conventional explanations; focus on solutions; case studies of specific regions.
Effective: Spring 2007

GEOG 124 (GS;IL) Elements of Cultural Geography (3) Locational analysis of changes in non-Western cultures. Problems of plural societies, economic development, population growth, and settlement.
Effective: Summer 2005

The Pennsylvania State University
GEOG 126 (GS;US;IL) Economic Geography (3) The geographic location and organization of economic activities and outcomes at global, national, regional, and local scales. Effective: Spring 2012

GEOG 128 (GS;IL) Geography of International Affairs (3) Contemporary international affairs in their geographical setting; geographic elements in the development of national power, political groupings, and international disputes. Effective: Summer 2005

GEOG 130 (GS) Environment, Power, and Justice (3) This course explores contemporary themes in human-environment relations through the lens of political ecology. Effective: Spring 2008

GEOG 161 Applied Geographic Information Systems (1) An introduction to GIS (Geographic Information Systems) with emphasis on applications and analysis. Effective: Spring 2008
Prerequisite:

GEOG 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2011

GEOG 198 Special Topics (1-9 per semester/maximum of 18) Formal courses given infrequently to explore, at a foundational level, a comparatively narrow subject which may be topical or of special interest and incorporating experiential learning. Effective: Summer 2011

GEOG 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006
Prerequisite:

GEOG 293H Honors Experiences in International Service Learning (1-3) Classroom instruction with supervised student activity on an honors international community service project. Effective: Summer 2006
Prerequisite:

GEOG 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2011

GEOG 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 2011

GEOG 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2011

GEOG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1988

GEOG 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2001

GEOG 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006
Prerequisite:

GEOG 301 Thinking Geographically (3) Learning to think geographically. Effective: Summer 2006
Prerequisite:

GEOG 310W Introduction to Global Climatic Systems (3) Introduction to global atmospheric circulation, including
tropical, midlatitude and polar subsystems; ocean, land, cryospheric and urban climatic systems and interactions.

Effective: Spring 2007
Prerequisite:

GEOG 311 Landscape Ecology (3) This course examines the ways in which spatial patterns and spatial processes operate in an ecological context.
Effective: Fall 2007
Prerequisite:

GEOG 313 Introduction to Field Geography (3) Introduction to the methods and techniques for collecting spatial and environmental data for physical geography and ecological studies.
Effective: Spring 2007
Prerequisite:

GEOG 323 GIS and Social Theory (3) Critical understanding of how to use GIS and tools of regional analysis in the context of postmodern social theory.
Effective: Spring 2007
Prerequisite:

GEOG 333 Human Dimensions of Natural Hazards (3) An introduction to natural hazards, integrating physical and social science perspectives.
Effective: Fall 2011
Prerequisite:

GEOG 361 Cartography--Maps and Map Construction (3) The art and science of creating small-scale maps as a medium for communication and research.
Effective: Spring 2007
Prerequisite:

GEOG 362 Image Analysis (3) Introduction to the basic principles of remote sensing, and the analysis of aerial and satellite data.
Effective: Spring 2007
Prerequisite:

GEOG 363 Geographic Information Systems (3) Principles and use of geographic information; emphasis is on data acquisition and techniques for computer-aided analysis.
Effective: Spring 2007
Prerequisite:

GEOG 364 Spatial Analysis (3) Geographic measurement, scaling, and classification; analysis of spatial pattern and structure; geographic covariation and autocorrelation.
Effective: Fall 2008
Prerequisite:

GEOG 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

GEOG 398A Professional Development Seminar in Geography (1-3) Course provides a toolkit for understanding relationships among careers, research, experiential learning, civic responsibility and the discipline of geography.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GEOG 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite:

GEOG 411 Forest Geography (3) This course studies processes that control spatial and temporal change in forests.
Effective: Fall 2007
Prerequisite:

GEOG 411W Forest Geography (3) This course studies processes that control spatial and temporal change in forests.
Effective: Fall 2007
Prerequisite:

GEOG 412W Climatic Change and Variability (3) Theories and observations of past, present, and future climatic change and variability; introduction to techniques used in climatic change research.
Effective: Spring 2007
Prerequisite:

GEOG 417 Satellite Climatology (3) A discussion of the application of satellite data to current and planned large-scale climate experiments.
Effective: Spring 2007
Prerequisite:
GEOG 420Y (US;IL) Comparative Urbanism (3) This course investigates selected urban issues through the lens of comparative urbanism.
Effective: Fall 2011
Prerequisite:

GEOG 423Y (US) Historical Geography of North America (3) Exploration, settlement, and changing patterns of human occupation from the seventeenth century to the 1930s.
Effective: Fall 2011
Prerequisite:

GEOG 424 (US;IL) Geography of the Global Economy (3) Focus on industrial location theory, factors in industrial location, studies of selected industries and problems of industrial development.
Effective: Spring 2011
Prerequisite:

GEOG 425 (US) Geography of Race, Class, and Poverty in America (3) This class examines the spatial interactions of race, class and poverty in the United States.
Effective: Fall 2011
Prerequisite:

GEOG 426Y (US;IL) (WMNST 426Y) Gender and Geography (3) Description and explanation of the links between gender relations and spatial structures.
Effective: Summer 2011
Prerequisite:

GEOG 427 (US;IL) Urban Historical Geography (3) Study of the development and transformation of the historical urban built environment.
Effective: Spring 2007
Prerequisite:

GEOG 428 (US) Political Geography (3) Geographical foundations of political phenomena; significant geographic factors in growth and development of states, boundary problems, population distribution, colonies, and internal and international regional problems.
Effective: Spring 2007
Prerequisite:

GEOG 428Y (US;IL) Political Geography (3) Geographical foundations of political phenomena; significant geographic factors in growth and development of states, boundary problems, population distribution, colonies, and internal and international regional problems.
Effective: Spring 2012
Prerequisite:

GEOG 429 (US;IL) Geographic Perspectives on Global Urbanization (3) This course reflects critically on a number of issues related to global urbanization, including the culture and political economy of urban space.
Effective: Spring 2012
Prerequisite:

GEOG 430 Human Use of Environment (3) The human use of resources and ecosystems and social causes and consequences of environmental degradation in different parts of the world; development of environmental policy and management strategies.
Effective: Fall 2008
Prerequisite:

GEOG 431 Geography of Water Resources (3) Perspectives on water as a resource and hazard for human society; water resource issues in environmental and regional planning.
Effective: Spring 2007
Prerequisite:

GEOG 432 (EME 432) Energy Policy (3) Analysis, formulation, implementation, and impacts of energy-related policies, regulations, and initiatives.
Effective: Summer 2010
Prerequisite:

GEOG 434 Politics of the Environment (3) This course explores politics related to the use, transformation, valuation, and representation of the environment.
Effective: Spring 2007
Prerequisite:

GEOG 435H (IL) Global Change and Sustainability - Bulgaria (3) Sustainability in the context of climate change, global socioeconomic change and regional transformation in Bulgaria; embedded foreign fieldwork (honors).
Effective: Summer 2008
Prerequisite:

GEOG 436 Ecology, Economy, and Society (3) Analyses of major themes in ecology and economic development, poverty-alleviation, and sustainability.
Effective: Summer 2006
Prerequisite:

Effective: Spring 2012
GEOG 439 Property and the Global Environment (3) This course reviews theoretical and empirical relationships between multiple legal, economic, and cultural approaches to property, and environmental quality and conflicts. Effective: Summer 2006

GEOG 440 Topics in Regional Geography (3) Analysis of historical, contemporary and future environmental and societal issues in a specified world region from a geographical perspective. Effective: Summer 2006

GEOG 444 African Resources and Development (3) Ecological and cultural factors in the geography of Africa; natural resources and development. Effective: Spring 2001

GEOG 461W Dynamic Cartographic Representation (3) Theory and practice of mapping and geo-representation in a dynamic media context. Applications in science, policy, travel, and education. Effective: Spring 2010

GEOG 463 Geospatial Information Management (3) This course examines geospatial data representations and algorithmic techniques that apply to spatially-organized data in digital form. Effective: Fall 2011

GEOG 464 Advanced Spatial Analysis (3) Skills and knowledge for applying quantitative methods to analyze information with spatial distributions. Effective: Spring 2012

GEOG 467 Applied Cartographic Design (3) Project-based map production problems with emphasis on map design and advanced mapping tools in geographic information systems. Effective: Fall 2011

GEOG 469 Energy Industry Applications of GIS (3) Roles of geographic information systems in energy siting decisions focusing on electric energy transmission networks. Effective: Summer 2010

GEOG 475H (LER 475H) Labor in the Global Economy: U.S. and South African Perspectives (3) This course focuses on how the nature of work is changing in the global economy, and the implications for economic opportunity and inequality in both. Effective: Spring 2008

GEOG 482 The Nature of Geographic Information (2) Orientation to the properties of geographic data and the practice of distance learning. Effective: Summer 2004

GEOG 483 Problem-Solving with GIS (3) How geographic information systems facilitate data analysis and communication to address common geographic problems. Effective: Summer 2004

GEOG 484 GIS Database Development (3) Database design, creation, maintenance, and data integration using desktop GIS software. Effective: Summer 2004

GEOG 485 GIS Programming and Customization (3) Customizing GIS software to extend its built-in functionality and to automate repetitive tasks. Effective: Fall 2007

GEOG 486 Cartography and Visualization (3) Theory and practice of cartographic design emphasizing effective visual thinking and visual communication with geographic information systems. Effective: Summer 2004

GEOG 487 Environmental Applications of GIS (3) Real-world applications of GIS and spatial analysis to investigate a variety of current environmental issues. Effective: Spring 2010

The Pennsylvania State University
GEOG 488 Acquiring and Integrating Geospatial Data (3) Advanced technical, legal, ethical and institutional problems related to data acquisition for geospatial information systems.
Effective: Summer 2004
Prerequisite:

GEOG 489 GIS Application Development (3) Advanced topics in GIS customization, including the Systems Development Life Cycle, packaging and deployment, and consuming Web services.
Effective: Summer 2004
Prerequisite:

GEOG 493 Service Learning (3-12) Classroom instruction with supervised student activity on a group community service project.
Effective: Summer 2006
Prerequisite:

GEOG 494 Research Project in Geography (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2006
Prerequisite:

GEOG 494H Research Project in Geography (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007
Prerequisite:

GEOG 495 Internship (1-13) Supervised off-campus, non-group instruction including individual field experience, practicums, or internships. Written and oral critique of activity required.
Effective: Fall 1981
Prerequisite:

GEOG 495B Geography Teaching Internship (1-10) Supervised undergraduate teaching experience in which students serve as peer tutors, laboratory assistants, or course material developers.
Effective: Summer 2004

GEOG 495C Internship Supervision and Mentoring (1) Candidates for the Master of GIS degree sponsor a GIS-related internship for students in Penn State's resident undergraduate program.
Effective: Summer 2004

GEOG 495G GIScience Internship (1-10) Supervised research experience within the Department of Geography's GeoVISTA Center, Gould Center, or an appropriate external agency.
Effective: Spring 2007
Prerequisite:

GEOG 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GEOG 496C Individual Studies (3) Individual project work supervised by a faculty member on a topic of mutual interest in geography and geographic information science.
Effective: Summer 2012 Ending: Summer 2012

GEOG 496C Individual Studies (3) Individual project work supervised by a faculty member on a topic of mutual interest in geography and geographic information science.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GEOG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

GEOG 497A Climate Change and Variability (3) This course looks at climate change and variability over multiple time scales, focusing on future global warming.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

GEOG 497B Location Intelligence for Business (3) Understanding location technology and geospatial analysis to support an efficient and effective pathway to better business decisions.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GEOG 497C Object-oriented Modeling and Programming for GIScience (3) Introduction to object-oriented modeling and programming in JAVA for application in GIS, GIScience, and spatial information processing in general.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
GEOG 497D **Lidar Technology and Applications** (3) Understanding lidar systems’ design, operation, data processing techniques, and product generation to address typical application scenarios faced by the geospatial professional.
Effective: Summer 2012 Ending: Summer 2012

GEOG 497D **Lidar Technology and Applications** (3) Understanding lidar systems’ design, operation, data processing techniques, and product generation to address typical application scenarios faced by the geospatial professional.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GEOG 497G **Exploring Imagery and Elevation Data in GIS Applications** (3) Using imagery and elevation data in typical application scenarios faced by the geospatial professional.
Effective: Summer 2012 Ending: Summer 2012

GEOG 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1998

GEOG 498A **Managing Planet Earth** (3) This course focuses on theoretical, practical and philosophical arguments surrounding the global sustainability debates and how we "manage" our planet.
Effective: Summer 2012 Ending: Summer 2012

GEOG 498B **A Sustainable Jamaica: What Do Islands Have To Teach Us?** (3) This course focuses on collaborative efforts, replicable strategies, appropriate innovation and audience specific communication as they relate to sustainable systems.
Effective: Summer 2012 Ending: Summer 2012

GEOG 498C **How To Fit A Ship Into A Bottle** (3) This course is project based and will provide students with tools for tackling seemingly impossible and overwhelming sustainability challenges.
Effective: Summer 2012 Ending: Summer 2012

GEOG 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Geosciences (GEOSC)

GEOSC 001 Physical Geology (3) Earth processes and their effects on the materials, structure, and morphology of the earth’s crust. Practicum includes field work, study of rocks, minerals, dynamic models, and topographic maps. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Fall 1983

GEOSC 002 (GN) Historical Geology (3) History of the earth and its life; fundamentals of evolution, correlation, and paleogeography; practicum includes field trips, study of geologic maps, geologic problems, and fossils, with emphasis on Appalachian geology. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Summer 1995

GEOSC 010 (GN) Geology of the National Parks (3) Introduction to geology, geological change, and environmental hazards, as seen in the National Parks. Effective: Fall 2003

GEOSC 020 (GN) Planet Earth (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Fall 2003

GEOSC 020L (GN) Planet Earth (3) Nontechnical presentation of earth processes, materials, and landscape. Practicum includes field trips, study of maps, rocks, and dynamic models, introduction to geologic experimentation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Summer 1988

GEOSC 021 (GN) Earth and Life: Origin and Evolution (3) Introduction to the origin and evolution of life on Earth from the perspective of geologic time and the fossil record. This course contains from one to several field trips for which an additional charge will be made to cover transportation. Effective: Spring 2002

GEOSC 040 (GN) The Sea Around Us (3) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Fall 2003

GEOSC 040L (GN) The Sea Around Us (2) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Summer 2009

GEOSC 040P (GN) The Sea Around Us (1) Introduction to marine sciences and the world ocean, including physical, chemical, biological, and geological aspects of oceanography. Effective: Spring 2009

GEOSC 071 Physical Geology for Engineers (3) Principles of physical geology, with emphasis on the engineering point of view; practicum includes field work, study of rocks, minerals, dynamic models, and topographic maps. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) Effective: Summer 2007

GEOSC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

GEOSC 109H (GN) Earthquakes and Society (3) Introduction to earthquakes and seismology, and their relationship to society, including monitoring for nuclear weapons and seismic hazards. Effective: Spring 2007

GEOSC 110H (GN) The Science of Gemstones (3) An exploration of the geological uses of gems and of the physical and chemical properties underlying their brilliance and color. Effective: Summer 2002

The Pennsylvania State University
Prerequisite:

GEOSC 111 (GN) **Forensic Geoscience** (3) Covers fundamental geoscience concepts such as stratigraphy, mineral and soil identification, seismology, and geochemistry within the context of forensic investigation.
Effective: Spring 2008

GEOSC 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

GEOSC 201 **Earth Materials** (4) Elements of crystallography and crystal chemistry; origin, occurrence, and identification of sedimentary, igneous, and metamorphic rocks and their minerals. This course has one or more required field trips for which a fee is charged to the student.
Effective: Summer 2007
Prerequisite:

GEOSC 202 **Chemical Processes in Geology** (4) An in-depth examination of the application of chemical principles to geological processes.
Effective: Summer 2007
Prerequisite:

GEOSC 203 **Physical Processes in Geology** (4) An in-depth examination of various physical processes that operate within and at the surface of the earth.
Effective: Spring 2011
Prerequisite:

GEOSC 204 **Geobiology** (4) An introduction to how biological processes and materials are used to solve geological problems.
Effective: Spring 2001
Prerequisite:

GEOSC 228 **Dinosaurs** (3) Dinosaurs and other large Mesozoic reptiles; their morphology, stratigraphic and paleoenvironmental distribution, preservation, collecting, classification, lifestyles, origins, evolution, and extinction.
Effective: Summer 1995

GEOSC 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GEOSC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

GEOSC 297A **The Geology of the Marcellus Shale** (3) A field-based introduction to the geological processes that result in the formation of oil and gas accumulations with an emphasis on the Marcellus Shale.
Effective: Summer 2012 Ending: Summer 2012

GEOSC 297D **Introduction to Field Geology in Italy** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

GEOSC 303 **Introduction to Environmental Geology** (3) Origin of earth and earth materials; natural resources, geologic barriers and hazards, and relationships to human use of the environment. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.) This course contains from one to several field trips for which an additional charge will be made to cover transportation.
Effective: Fall 1983

GEOSC 310 **Earth History** (4) The principles of stratigraphy and paleontology and their use, in combination with plate tectonics, in reconstructing the earth's history. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite:

GEOSC 320 **Geology of Climate Change** (3) Geologic evidence for climate change and mechanisms of change, especially from the Ice Age through the near future.
Effective: Spring 2001

GEOSC 340 **Geomorphology** (3) Physical and chemical processes operating at the earth's surface and their resulting landforms. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite:
GEOSC 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

GEOSC 397D Tectonic Evolution of Italy (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

GEOSC 402Y (IL) Natural Disasters (3) Case studies of the causes and consequences of natural disasters; analysis of disaster impact in different economic, cultural, and social conditions.
Effective: Summer 2005
Prerequisite:

GEOSC 405 (SOILS 405) Hydropedology (3) Soil and water interactions across scales, integrated studies of landscape-soil-water relationships, fundamental processes of water flow and chemical transport.
Effective: Spring 2008
Prerequisite:

GEOSC 409W Geomicrobiology (3) Investigation of modern and ancient microbial interactions with soils, sediments, the atmosphere, minerals, rocks, nutrients, and pollutants.
Effective: Summer 2008
Prerequisite:

GEOSC 410 Marine Biogeochemistry (3) Exploration of the ways in which life influences and is influenced by chemical, physical, and geological processes in the ocean.
Effective: Summer 2007
Prerequisite:

GEOSC 412 Water Resources Geochemistry (3) Aqueous geochemistry of silica, alumina, carbonate minerals, and selected metals; organic species in water; isotope geochemistry applied to water.
Effective: Summer 2007
Prerequisite:

GEOSC 413W Techniques in Environmental Geochemistry (3) This course teaches techniques needed for the collection, chemical analysis, and data analysis of environmental geochemical measurements. This course has one or more required field trips for which a fee is charged to the student.
Effective: Spring 2002
Prerequisite:

GEOSC 415 Geochemistry (3) Element abundance and genesis, application of chemical principles to earth materials, element fractionation in geologic processes.
Effective: Spring 2011
Prerequisite:

GEOSC 416 Stable and Radioactive Isotopes in Geosciences: Introduction (3) Discussions on theories for natural isotopic and element variations and their applications to the solution of geologic and cosmologic problems.
Effective: Summer 2007
Prerequisite:

GEOSC 418 (SOILS 419) Soil Environmental Chemistry (3) Introduction to chemical constituents and processes occurring in soils. Topics include mineral weathering, soil solution chemistry and adsorption of solutes.
Effective: Summer 2007
Prerequisite:

GEOSC 419 The Organic Geochemistry of Natural Waters and Sediments (3) Composition, sources, and fates of particulate and dissolved organic matter in natural environments; biogeochemical processes; organic geochemistry of anthropogenic contaminants.
Effective: Summer 2007
Prerequisite:

GEOSC 420 (BIOL 420) Paleobotany (3) Classification, morphology, phylogeny, and stratigraphic occurrence of fossil plants; practicum includes field trips and study of paleobotanical techniques and specimens.
Effective: Spring 2005
Prerequisite:

GEOSC 422 Vertebrate Paleontology (3) Course covers scientific thinking and skills in scientific writing, the history of vertebrates, and modern evolutionary theory applied to vertebrates. This course contains from one to several field trips for which an additional charge will be made to cover transportation.
Effective: Spring 2009
Prerequisite:

GEOSC 424 Paleontology and Fossils (3) Concepts and procedures using fossils to solve problems in systematics, evolution, biostratigraphy, correlation, sedimentation, paleoecology, and global change.
Effective: Spring 2001
Prerequisite:

GEOSC 428 Micropaleontology (4) Biology and ecology of microfaunas and microfloras (e.g., foraminifera, coccodinium, radiolaria, diatoms, dinoflagellates) and applications in biostratigraphy and paleoenvironmental reconstruction.

The Pennsylvania State University
GEOSC 434 Volcanology (3) Phenomena and products of volcanic eruptions; physical characteristics of lava and pyroclastic material.

GEOSC 439 Principles of Stratigraphy (3) An introduction to the description and genesis of sedimentary rock bodies, the determination of their stratal geometries, and their correlation. (This course includes from one to several field trips for which an additional charge will be made to cover transportation.)

GEOSC 440 Marine Geology (3) Chemical and physical processes affecting the topography and sediments of the sea floor.

GEOSC 445 Coastal Geology (4) A field course dealing with the processes operative in the environmental systems of a segment of the mid-Atlantic coast.

GEOSC 450 Risk Analysis in the Earth Sciences (3) An introduction to concepts and methods of quantitative risk analysis with focus on water, climate, and energy related risks.

GEOSC 451 Natural Resources: Origins, Economics and Environmental Impact (3) Geologic, economic and environmental issues related to exploitation of non-renewable natural resources (metals, minerals, rocks, and fossil fuels).

GEOSC 452 Hydrogeology (3) Hydrologic cycle: occurrence, movement, quality, and quantity of groundwater; solute transport; quantitative hydrogeologic methods; role of water in geologic processes. This course has one or more required field trips for which a fee may be charged to the student.

GEOSC 454 Geology of Oil and Gas (3) Properties, origin, migration, and occurrence of oil and gas. This course has one or more required field trips for which a fee is charged to the student.

GEOSC 461 Geology of North America (3) Evolution of structural-stratigraphic framework of continent; interpretation of relevant data obtained from field, experimental, and geophysical observation.

GEOSC 465 Structural Geology (4) Effects and mechanics of deformation of the earth's crust; practicum includes field trips and studies of maps and structural problems. This course has one or more field trips for which a fee is charged to the student.

GEOSC 470W Introduction to Field Geology (3) Field interpretation of geologic features; principles and techniques of geologic mapping; interpretation of geologic maps and diagrams. This course has one or more required field trips for which a fee is charged to the student.

GEOSC 472A Field Geology I (Introduction to Field Methods (3) Introduction to geologic field methods and the 3-D characterization of earth structure and the reconstruction of geologic histories. This course includes travel outside the University for which an additional charge will be made to cover transportation, food, and lodging.

GEOSC 472B Field Geology II (Advanced Field Methods) (3) Advanced application of geologic field methods to the 3-D characterization of earth structure and the reconstruction of geologic histories. This course includes travel outside the University for which an additional charge will be made to cover transportation, food, and lodging.

GEOSC 474 (Biol 474) Astrobiology (3) In depth treatment of principles/concepts of biochemical evolution, the
origin/evolution of life; evaluation of distribution of life in the universe.
Effective: Summer 2007
Prerequisite:

GEOSC 479 Advanced Stratigraphy (3) Modern topics of sequence stratigraphy are addressed, with a heavy emphasis on field and laboratory data analysis and interpretation.
Effective: Spring 1999
Prerequisite:

GEOSC 483 Environmental Geophysics (3) This course presents the principles and applications of the variety of techniques geophysicists use to address environmental problems.
Effective: Fall 2001
Prerequisite:

GEOSC 487 Analysis of Time Series (3) Nonstatistical approach to data analysis; spectral and correlation analysis; filter theory; signal-to-noise improvement applied to geoscience data.
Effective: Fall 2010
Prerequisite:

GEOSC 488 An Introduction to Seismology (4) An overview of the observations, methods, and frameworks used in seismogram analysis for earthquake and earth-structure investigations (includes laboratory).
Effective: Spring 2003
Prerequisite:

GEOSC 489 Dynamics of the Earth (4) Constitution and dynamics of the solid earth; mechanics and consequences of Plate Tectonic processes.
Effective: Fall 2001
Prerequisite:

GEOSC 494M Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2007
Prerequisite:

GEOSC 494W Senior Thesis (1-4) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2001
Prerequisite:

GEOSC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2001

GEOSC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GEOSC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

GEOSC 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1997

GEOSC 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
GER 001 Elementary German I (4) Introduction to listening, speaking, reading, and writing with emphasis on the first two skills; cultural aspects through readings and videos.
Effective: Summer 1994 Ending: Summer 2012

GER 001 Elementary German I (4) Introduction to listening, speaking, reading, and writing with emphasis on the first two skills; cultural aspects through readings and videos. Students who have received high school credit for two or more years of German may not schedule this course for credit, without the permission of the department.
Effective: Fall 2012 Future: Fall 2012

GER 002 Elementary German II (4) Continuation of GER 001; further introduction of basic structures, culture, and development of four basic skills stressing aural-oral aspects.
Effective: Summer 1994 Ending: Summer 2012
Prerequisite:

GER 002 Elementary German II (4) Continuation of GER 001; further introduction of basic structures, culture, and development of four basic skills stressing aural-oral aspects. Students who have received high school credit for four or more years of German may not schedule this course for credit, without the permission of the department.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

GER 003 Intermediate German (4) Continued four-skill development with increased emphasis on reading, writing, and grammatical accuracy; culturally-oriented reading selections and videos. Students may receive credit for only one of the following: GER 003 or GER 008.
Effective: Summer 1994
Prerequisite:

GER 008 Business German (4) Introduction to Business German. Students may receive credit for only one of the following: GER 003 or GER 008.
Effective: Summer 2000
Prerequisite:

GER 011 Intensive Basic German (6) Listening, speaking, reading, writing, basic structures and vocabulary of German. Taught on an accelerated basis. Students may receive credit for only one of the following: GER 001, 011, or 015.
Effective: Fall 1983

GER 012 Intensive Intermediate German (6) Continued skill development of structures and vocabulary; listening, speaking, reading, writing. Taught on an accelerated basis. Students may receive credit for only one of the following: GER 002, 003, 012, or 016.
Effective: Fall 1983
Prerequisite:

GER 051 Elementary Intensive German for Graduate Students I (3) Intensive introduction to German: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

GER 052 Elementary Intensive German for Graduate Students II (3) Intensive introduction to German: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

GER 053 Intermediate Intensive German for Graduate Students (3) Continued intensive study of German at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

GER 083S (GH;US;IL) First-Year Seminar in German (3) Germany's cultural past and present.
Effective: Summer 2005

GER 099 (IL) Foreign Study--German (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

GER 100 (GH;IL) German Culture and Civilization (3) Culture and civilization of the German people from the Germanic migrations to the Nazi period. Conducted in English.
Effective: Summer 2005

GER 143 (GH;IL) (RUS 143) The Culture of Stalinism and Nazism (3) The culture of Stalinist Russia and Nazi Germany in comparative perspective.
GER 157 (GH;US) Pennsylvania Germans: The Culture of the Sectarians (3) Survey of the religious background, beliefs, social life, customs, education, and culture of the Pennsylvania German sectarians, especially the Amish. Conducted in English.
Effective: Summer 2005

GER 175 (GH;IL) Germanic Heroic and Medieval Literature in English Translation (3) Germanic heroic and medieval courtly literature from 800 to 1350 focusing on the prevailing cultural, social, and legal conditions.
Effective: Spring 2006

GER 190 (GH;IL) Twentieth-Century German Literature in English Translation (3) Works of such writers as Boll, Brecht, Durrenmatt, Frisch, Grass, Hesse, Kafka, Mann, Rilke, Weiss, and Wolf.
Effective: Spring 2006

GER 195 (GH;IL) Modern German Drama and Theatre in English Translation (3) Plays and their stage realization by writers such as Brecht, Durrenmatt, Handke, Hauptmann, Kaiser, Schnitzler, Wedekind, and Weiss.
Effective: Spring 2006

GER 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1995

GER 199 (IL) Foreign Study--German (3-6) Intermediate training in German language skills.
Effective: Summer 2005
Prerequisite:
GER 200 (GH;IL) Contemporary German Culture (3) Germany since WWI, its politics, economics, society, arts, and educational system in the international context; conducted in English.
Effective: Summer 2005

GER 200U (GH;IL) Contemporary German Culture (3) Germany since WWI, its politics, economics, society, arts, and educational system in the international context; conducted in English.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

GER 201 (IL) Conversation and Composition (4) Continuation of GER 003; emphasis on reading, writing, and conversational skills; course utilizes short literary selections, a concise novel, videos.
Effective: Fall 2006
Prerequisite:
GER 208Y (IL) Business German (4) Intermediate Business German.
Effective: Fall 2006
Prerequisite:
GER 245 (GH) The Vikings (3) Focus on the history of the Vikings from 800 to 1400 as conveyed to us in mythology, literature, and archaeology. Conducted in English.
Effective: Spring 2005

GER 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

GER 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GER 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1985

GER 297G Advanced German for Reading (3) Intensive reading and translation of advanced German texts. Recommended only for graduate students who have completed GER 052 in the Summer Intensive Program or who have at least 8 credits of undergraduate German.
Effective: Summer 2012 Ending: Summer 2012

GER 299 (IL) Foreign Study--German (3-6) Advanced training in German language skills.
Effective: Summer 2005
GER 301 (IL) Intermediate Speaking and Listening (3) Intensive practice in spoken German through readings, discussions and video.
Effective: Spring 2012
Prerequisite:

GER 302W Intermediate Composition and Grammar (3) Continuation of oral and written practice in German with extensive work in composition.
Effective: Spring 2012
Prerequisite:

GER 308Y (IL) German Business Communication (3) Development of German commerce and industry; extensive practice in the major forms of business communications such as business correspondence.
Effective: Spring 2012
Prerequisite:

GER 310 (IL) Introduction to the Study of German Literature (3) History, methods, and the terminology of literary interpretation and analysis in German.
Effective: Spring 2012
Prerequisite:

GER 344 (IL) Intermediate German Culture (3) An overview of German culture from the Middle Ages to the present. Conducted in German.
Effective: Spring 2012
Prerequisite:

GER 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

GER 399 (IL) Foreign Study--German (3-12) Advanced studies in German language and/or literature.
Effective: Summer 2005
Prerequisite:

GER 401Y (IL) Advanced Composition (3) Intensive practice in writing different text types in German.
Effective: Spring 2012
Prerequisite:

GER 408 (IL) Advanced German Business Communications (3) Study of German business organization, forms of business communications, business terminology; writing of reports and abstracts.
Effective: Spring 2006
Prerequisite:

GER 411 The Teaching of German (3) Theory, methods, techniques, materials, bibliography; use of inter-active media; contributions of linguistics or psychology to language learning.
Effective: Summer 1994
Prerequisite:

GER 412 (IL) Contrastive Analysis of Modern German and English (3) Structural comparison of the German and English grammatical systems: morphology, syntax, phonology.
Effective: Spring 2006
Prerequisite:

GER 420 (IL) Genre (3-9) Special studies in a particular literary genre in German literature, such as lyrical poetry, drama, or narrative prose.
Effective: Spring 2006
Prerequisite:

GER 430 (IL) History of the German Language (3) Development of German from its earliest stages, including historical and cultural aspects.
Effective: Fall 2007
Prerequisite:

GER 431 (IL) History of German Literature and Culture I (3) Significant works of German literature before the mid-eighteenth century considered in their cultural context.
Effective: Spring 2006
Prerequisite:

GER 432 (IL) History of German Literature and Culture II (3) Significant works of German literature from the mid-eighteenth century to the present considered in their cultural context.
Effective: Spring 2006
Prerequisite:

GER 440 (IL) Seminar in German Culture (3-6) Seminar devoted to a special topic in the field of German culture and civilization.
Effective: Spring 2006
Prerequisite:

GER 472 (IL) Romanticism (3) A study of both early and late romanticism, including such writers as Novalis, the Schlegels, E.T.A. Hoffmann, and Heine.
GER 489 Introduction to German Film History and Theory in Context (3) Introduces films in German since the 1960s and addresses issues relevant to German and European cultures and politics. 
Prerequisite: GER 489

GER 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Prerequisite: GER 494

GER 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Prerequisite: GER 494H

GER 495 Internship (3-9) Supervised off-campus, non-group instruction including individual field experiences, practicums, or internships. Written and oral critique of activity required. 
Prerequisite: GER 495

GER 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. 
Prerequisite: GER 496

GER 496A Teaching German (3) Theory and techniques for post-secondary German instruction. 
Prerequisite: GER 496A

GER 496B Alt Pennsylvania German (3) Linguistic study of PA German. 
Prerequisite: GER 496B

GER 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. 
Prerequisite: GER 497

GER 499 (IL) Foreign Study--German (3-12) Advanced studies in German language, literature, and culture. 
Prerequisite: GER 499 (IL)

Last Import from UCM: June 2, 2012 12:27 PM
Graphic Design (GD)

GD 001S First-Year Seminar in Graphic Design (1) An orientation to the historical, social, and professional context of design and an exposure to a variety of ethical, philosophical, and topical ideas from the world of design. Effective: Summer 2007
Prerequisite:

GD 100 (GA) Introduction to Graphic Design (3) A beginning level graphic design course. Instruction touches on the practice, theories, history and processes of the graphic design industry. Effective: Spring 2006

Concurrent: GD 001S

GD 102 Introductory Design Studio (3) A studio course in defining problems, solving problems, and generating ideas. Effective: Summer 2007
Prerequisite:

GD 200 Graphic Design Studio I (3) A beginning graphic design studio course. Instruction focuses on the practical and analytical process of creating graphic designs and their critical evaluation. Effective: Spring 2006
Prerequisite:

GD 201 Typography (3) A consideration of the word in relation to visual organization and its application to communication. Effective: Fall 2006
Prerequisite:

GD 202W The History of Graphic Design (3) A survey of graphic design, especially emphasizing influential movements, innovative designers and technological advances relevant to contemporary visual communication. Effective: Summer 2011
Prerequisite: Concurrent: GD 102

GD 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2006

GD 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2006

GD 296 Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2006

GD 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2006

GD 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2006

GD 300 Design Photography (4) An investigation of graphic photography processes and how print technology affects the final appearance of a photograph. Effective: Fall 2006
Prerequisite:

GD 301 Graphic Design Technology I (4) Theoretical and practical aspects of computer application to graphic design. Effective: Fall 2006
Prerequisite:

GD 302 Applied Communication (4) Definition and concentrated involvement in problem/audience analysis, with emphasis on understanding symbol and image in evoking audience response. Effective: Fall 2006
Prerequisite:

GD 303 Graphic Design Technology II (4) Advanced application of digital technology as a medium of graphic design. Effective: Spring 2006
Prerequisite:
GD 304 Practical Communications (3) Practical design experience for students through design/publicity problems from the University and community non-profit organizations. Effective: Fall 2006
Prerequisite:

GD 310 Studio Apprenticeship (3 per semester/maximum of 6) Direct involvement in the creative process of the artist-teacher in the studio environment. Effective: Fall 2006
Prerequisite:

GD 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2006

GD 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2006

GD 400 Time and Sequence (4) Development of visual sequence as replies to graphic design problems. Effective: Fall 2006
Prerequisite:

GD 401 Package Design (3) Orientation to packaging designs as it relates to the consumer, client, and to societal and environmental concerns. Effective: Fall 2006
Prerequisite:

GD 402 Senior Problems (4) Development of visual replies to graphic design problems. Effective: Fall 2006
Prerequisite:

GD 403W Graphic Design Seminar (3) A seminar on subjects which relate to the field of graphic design. Effective: Fall 2007
Prerequisite:

GD 404 Book Design (3) Writing, designing, illustrating and production (printing) of a book. Effective: Fall 2006
Prerequisite:

GD 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2006

GD 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

GD 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2006

GD 496 Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2006

GD 496H Independent Study - Honors (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2012

GD 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2006

GD 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2006

Last Import from UCM: June 2, 2012 12:27 PM
Greek (GREEK)

Knowledge of Greek or Latin not required. See also CLASSICS AND ANCIENT MEDITERRANEAN STUDIES and LATIN,

GREEK 001 Elementary Classical and New Testament Greek (4) Pronunciation, forms, syntax, and translation. Effective: Fall 1983

GREEK 002 Elementary Classical and New Testament Greek (4) Further instruction in syntax and sentence structure. Effective: Fall 1983

Prerequisite:

GREEK 003 Intermediate Classical and New Testament Greek (4) Selections from representative authors. Effective: Fall 1983

Prerequisite:

GREEK 051 Elementary Intensive Greek for Graduate Students I (3) Intensive introduction to Classical and New Testament Greek: first half of graduate intensive sequence, elementary reading, writing, speaking, listening, culture. Effective: Summer 2008

Prerequisite:

GREEK 052 Elementary Intensive Greek for Graduate Students II (3) Intensive introduction to Classical and New Testament Greek: second half of graduate intensive sequence, elementary reading, writing, speaking, listening, culture. Effective: Summer 2008

Prerequisite:

Prerequisite:

GREEK 099 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 101 Introductory Ancient Greek (4) Fundamentals of classical Greek grammar, syntax, and vocabulary. Effective: Fall 2001

GREEK 102 Intermediate Ancient Greek (4) Intermediate study of classical Greek grammar, syntax, and vocabulary. Effective: Fall 2001

Prerequisite:

GREEK 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

GREEK 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

GREEK 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2001

GREEK 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester. Effective: Fall 1983

GREEK 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

GREEK 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996

Prerequisite:

GREEK 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
GREEK 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

GREEK 401 Introductory Reading in Greek Literature (3-6) Analysis of selected passages of ancient Greek literature; attention will be paid to grammatical as well as literary details.
Effective: Summer 2011
Prerequisite:

GREEK 420 Greek Prose Authors (3-6) Readings in representative authors.
Effective: Summer 2011

GREEK 425 Greek Historians (3-6) Translation and study of one or more of the ancient Greek historians.
Effective: Summer 2011
Prerequisite:

GREEK 430 Greek Poetry (3-6) Translation and analysis of selected readings in Greek poetry.
Effective: Summer 2011
Prerequisite:

GREEK 440 Greek Drama (3-6) Translation and study of a selected play.
Effective: Summer 2011
Prerequisite:

GREEK 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

GREEK 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

GREEK 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

GREEK 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

GREEK 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Health (HLTH)

HLTH 306 Physical Education, Health, and Safety in Elementary Schools (2) A study of appropriate activities for elementary-age children. Student participation in physical activities is required.
Effective: Fall 2004
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Health Care Management (H C M)

H C M 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1990
Prerequisite:

H C M 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 1983

H C M 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 2, 2012 12:27 PM
Health Education (HL ED)

HL ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

HL ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

HL ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1993

Health Education (HLHED)

HLHED 406 Human Sexuality (3) Examination of physiology, diseases, attitudes, morality, and controversial topics related to human sexuality.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

HLHED 415 Planning and Developing Health Education Programs (3) Premises and strategies for planning, implementing, and evaluating wellness programs in corporate, hospital, and community agency settings.
Effective: Fall 1997
Prerequisite:

HLHED 420 Development of Stress Management Programs for Health Education (3) Planning, development, and implementing strategies for stress management programs for health education professionals in school, community, and corporate settings.
Effective: Fall 1997
Prerequisite:

HLHED 443 Alcohol and Drug Education (3) Principles of integration and coordination of alcohol and drug education programs for health education and other social service professions.
Effective: Fall 1997
Prerequisite:

HLHED 456 Advanced Techniques in School and Community Health Education (3) Public health, mental health, nutrition, dental school health, physical education, accident prevention, health teaching; projects, consultation, visitation, discussions, and resources.
Effective: Fall 1997
Prerequisite:

HLHED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1997
Health Policy and Administration (H P A)

H P A 057 (GHA) Consumer Choices in Health Care (3) Introduction to consumers' role in health-care decisions, including health benefits, physician and hospital choice, and end-of-life choices.
Effective: Spring 2004

H P A 101 Introduction to Health Services Organization (3) Examination of the social, political, historic, and scientific factors in the development and organization of health services.
Effective: Fall 1998

H P A 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

H P A 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

H P A 301W Health Services Policy Issues (3) Analysis of major issues in health services delivery in hospitals, medical practice, public health, mental health, and health professional education.
Effective: Spring 2011
Prerequisite:

H P A 310 Health Care and Medical Needs (3) Health care from an individual, family, and community standpoint illustrated with specific diseases and health problems.
Effective: Spring 1998
Prerequisite:

H P A 332 Health Systems Management (3) Introduction to and analysis of managerial roles and practices in health service organizations.
Effective: Spring 1987
Prerequisite:

H P A 390 Professional Development in Health Policy and Administration (3) Development of personal understanding and professional skills to prepare students for future employment or study in health policy and administration.
Effective: Summer 2000
Prerequisite:

H P A 395 Field Experience in Health Policy and Administration (1-13) Professional field experience providing opportunities to apply skills and knowledge in health care setting.
Effective: Fall 2001
Prerequisite:

H P A 396 Professional Transition to Careers in Health Policy and Administration (1) Professional skills development preparing students for their first work experience in Health Policy and Administration.
Effective: Spring 1999
Prerequisite:

H P A 401 (IL) Comparative Health Systems (3) Comparative analysis of health services in selected developed and developing countries.
Effective: Summer 2011

H P A 410 Principles of Public Health Administration (3) The rationale for, and the patterns of, public health service at all levels of government in the United States.
Effective: Summer 2011

H P A 420 Principles of Managed Care (3) Survey of managed health care, including history, typology, current issues, management challenges, and impacts on patients, providers, and special populations.
Effective: Summer 2011

H P A 433 Administration of Hospital and Health Service Systems (3) Analysis of administrative structures and interorganizational arrangements among hospitals and other health care organizations.
Effective: Spring 1998
Prerequisite:

Effective: Fall 2008
Prerequisite:
Prerequisite:

H P A 442 **Long-Term Care Management** (3) Management and policy issues for institutional, community, and home settings for chronic care services.
Effective: Spring 1998
Prerequisite:

H P A 445 (ECON 445) **Health Economics** (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 1994
Prerequisite:

H P A 445W (ECON 445W) **Health Economics** (3) Economic analysis of U.S. health care system; planning, organization, and financing; current public policy issues and alternatives.
Effective: Spring 2008
Prerequisite:

H P A 447 **Financing Health Care** (3) Analysis of financial flows, third party payment programs, and reimbursement practices in the health services sector.
Effective: Fall 2011
Prerequisite:

H P A 450 **Healthcare Policies and Politics** (3) Survey of health care's political contexts: formulation, implementation, and modification stages of policy process; politics of private interests (associations) at national and state levels.
Effective: Summer 2011
Prerequisite:

H P A 455 **Strategic Planning and Marketing for Health Services** (3) Introduction to principles and methods of strategic planning and marketing.
Effective: Spring 1998
Prerequisite:

H P A 460 **Human Resource Management in Health Care Organizations** (3) Foundations of human resource management applied to health care organizations, including hospitals, long-term care facilities, and community health organizations.
Effective: Spring 1998
Prerequisite:

H P A 470 **Health Care Information Management** (3) This course introduces information systems terminology, data structures, software applications, and their management functions in health services organizations.
Effective: Summer 2000
Prerequisite:

H P A 490 **Physician Practice Management** (3) Development of skills needed to effectively manage physician practices.
Effective: Spring 2012
Prerequisite:

H P A 494H **Senior Honors Thesis** (1-6) Independent study related to student's interests directed by a faculty supervisor and culminating in the production of a thesis.
Effective: Summer 2006
Prerequisite:

H P A 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

H P A 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

H P A 497A **Insurance Healthcare Quality** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

H P A 497A **Healthcare Leadership** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H P A 497A **Healthcare Leadership II** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

H P A 497B **Physician Practice Management** (3) Formal courses given infrequently to explore, in depth, a comparatively
Health and Human Development (H&HD)

H&HD 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

H&HD 297S JumpStart (2) This is the 2 credit first-year seminar for the College of HHD.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&HD 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

H&HD 397A Global Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&HD 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2006

H&HD 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

H&HD 497A Womens Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&HD 497B Global Leadership (2) Global leadership.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&HD 497H Special Topics--Honors (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

H&HD 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

H&HD 499H (IL) Foreign Studies-Honors (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Hebrew (HEBR)

HEBR 001 Basic Modern Hebrew I (4) An introduction to modern Hebrew in its written and spoken forms; oral and aural work stressed.
Effective: Summer 1990

HEBR 002 Basic Modern Hebrew II (4) Continued study of grammar; emphasis on improving oral-aural facility, with increased attention to reading and writing.
Effective: Summer 1990
Prerequisite:

HEBR 003 Intermediate Modern Hebrew (4) Grammar, reading, composition, and oral and aural exercises.
Effective: Summer 1977
Prerequisite:

HEBR 010 (GH;IL) (J ST 010) Jewish Civilization (3) Life of the Jewish people from Biblical times, emphasizing cultural, religious, and institutional developments.
Effective: Summer 2005

HEBR 051 Elementary Intensive Hebrew for Graduate Students I (3) Intensive introduction to Biblical or Modern Hebrew: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, culture.
Effective: Summer 2008
Prerequisite:

HEBR 052 Elementary Intensive Hebrew for Graduate Students II (3) Intensive introduction to Biblical or Modern Hebrew: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, culture.
Effective: Summer 2008
Prerequisite:

HEBR 053 Intermediate Intensive Hebrew for Graduate Students (3) Continued intensive study of Biblical or Modern Hebrew at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

HEBR 097 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 111 The Development of Hebrew Language and Literature (3) Chronological overview of Hebrew language and literature; characteristics of the language in the Biblical, Mishnaic, Medieval, Modern eras; representative readings.
Effective: Summer 1990
Prerequisite:

Effective: Summer 2005

Effective: Summer 2005
Prerequisite:

HEBR 197 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 199 (IL) Foreign Study--Basic Hebrew (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

HEBR 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships.
Effective: Summer 1986
Prerequisite:

HEBR 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1986

HEBR 297 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1983

HEBR 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

HEBR 397 Special Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

HEBR 399 (IL) Foreign Study--Intermediate Hebrew (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HEBR 401 Advanced Hebrew--Conversation Emphasis (3 per semester, maximum of 6) Development of oral proficiency through discussions focusing on issues in contemporary Jewish culture.
Effective: Summer 2011

HEBR 402 Advanced Hebrew--Reading Emphasis (3 per semester, maximum of 6) Readings in representative works of traditional and modern literature; practice in composition; study of aspects of Jewish culture.
Effective: Summer 2011

HEBR 451 Advanced Biblical Hebrew (3) Translation and analysis of selected readings in Biblical Hebrew texts; attention will be paid to grammatical as well as literary details.
Effective: Spring 2007
Prerequisite:

HEBR 452 Readings in Biblical Hebrew (3) Translation and analysis of selected readings in Biblical Hebrew texts; attention will be paid to grammatical as well as literary details.
Effective: Spring 2007
Prerequisite:

HEBR 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

HEBR 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

HEBR 496 Independent Studies (1-18) Creative projects including research and design which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HIST 497E The Orthodox Christian Tradition (3) History, culture, and beliefs of the Eastern Orthodox religious tradition with special reference to Russia.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HIST 497H Major Interpretations in US History (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HIST 499 (IL) Foreign Study--History (1-6) Study in selected foreign countries of various periods and topics in history.
Effective: Summer 2005
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Homeland Security (HLS)

HLS 410 (PHP 410) Public Health Preparedness for Disaster and Terrorist Emergencies I (3) Analyzes the history of terrorism and explores the preparation and response to specific terrorist threats, natural disasters, and conventional catastrophes. Effective: Spring 2011
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Honors (HONOR)

HONOR 201 Developing Critical Thinking for Leadership (1) Discussions on various topics using critical thinking skills to make informed leadership decisions.
Effective: Summer 2010
Prerequisite:

HONOR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2009

HONOR 301H The Role of Knowledge in Society (3) Honors interdisciplinary study of topics utilizing contributions from science/ engineering, business, public policy, behavioral sciences/education, and the humanities.
Effective: Fall 2010
Prerequisite:

HONOR 401H Honors Seminar (1-6 per semester/maximum of 6) In-depth honors-level exploration of a topic or theme that crosses disciplinary boundaries; may be repeated for credit.
Effective: Fall 2011
Prerequisite:

HONOR 493H Honors Service Learning (1-3) A supervised honors experience doing service for campus or community welfare and analyzing related issues.
Effective: Fall 2010
Prerequisite:

HONOR 494M Interdisciplinary Writing and Thesis Formulation (2) Seminar to help students with interdisciplinary analysis, writing, and formulation of honors projects and proposals.
Effective: Fall 2010
Prerequisite:

HONOR 495H Research Studies (1) A capstone seminar for honors students working on honors theses and projects to work together and learn about their research interests.
Effective: Fall 2010
Prerequisite:

HONOR 496H Honors Thesis (3) Research, creative activities, and writing necessary for pursuit and completion of an interdisciplinary honors thesis.
Effective: Fall 2010
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Horticulture (HORT)

HORT 101 (GN) Horticultural Science (3) Introduction to horticulture with emphasis on plant domestication, morphology, classification, world food crops, commodities, gardens, propagation, and agrochemicals.
Effective: Spring 2002

HORT 120 Computer Applications for Landscape Contracting (2) Emphasis is placed on the use of commercial software used for landscape planning and estimating. Limited to Landscape Contracting majors only.
Effective: Summer 1991

HORT 131 Herbaceous Perennial and Annual Identification (3) Herbaceous and annual plant identification; landscape use of herbaceous perennials and greenhouse and garden annuals.
Effective: Spring 2008
Prerequisite:

HORT 137 Ornamental Plant Materials (3) Identification and description under fall conditions; discussion of cultural and aesthetic aspects of trees of value in ornamental planting.
Effective: Fall 2003

HORT 138 Ornamental Plant Materials (3) Identification and description under spring conditions; discussion of cultural and aesthetic aspects of shrubs of value in ornamental plantings.
Effective: Fall 2003

HORT 150 (GN) Plants in the Human Context (3) An introduction to the many fascinating and vital relationships between plants and human society.
Effective: Summer 2007

HORT 201 Applied Arboriculture (2) Overview of methods used to diagnose problems and provide for the long term care of large trees.
Effective: Spring 2004
Prerequisite:

HORT 202 Plant Propagation (3) Principles and practices of asexual and sexual plant propagation.
Effective: Spring 2001
Prerequisite:

HORT 220 CAD Applications in Landscape Contracting (3) Application of computer-aided design software including AutoCAD and LANDCADD to landscape contracting.
Effective: Summer 1998
Prerequisite:

HORT 232 Horticultural Systematics (3) Fundamentals of horticultural crop plant classification and systematics. Examples chosen from fruits and vegetables, exclusive of subtropical and tropical fruit.
Effective: Spring 2001
Prerequisite:

HORT 238 (TURF 238) Turf and Ornamental Weed Control (3) Students will be introduced to the development of integrated weed management strategies utilizing a variety of cultural and chemical methods.
Effective: Summer 2007
Prerequisite:

HORT 250 Landscape Contracting Design/Build Principles (3) Introduction to the processes and principles of residential landscape site development, from initial client contact to implementation.
Effective: Summer 1998

HORT 269 Residential Landscape Planning (3) Principles and techniques in landscape design; preparation of plans of small properties.
Effective: Spring 2001
Prerequisite:

HORT 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

HORT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1986

HORT 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
which may be topical or of special interest.
Effective: Fall 1992

HORT 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

HORT 301 Principles of Arboriculture (3) Overview of the concepts and methods prescribed for the evaluation and care of large trees in urban settings.
Effective: Summer 2011
Prerequisite:

HORT 315 Environmental Effects on Horticultural Crops (3) Horticultural plants respond to the environmental factors of light, temperature, water, and fertilizer both in controlled and field environments.
Effective: Spring 1993
Prerequisite:

HORT 352 Flower Arranging (2) Floral design beginning with elements and principles of design. Flower arranging techniques as well as different styles of flower arrangements.
Effective: Spring 2001

HORT 368 Landscape Planting Design (4) Basic planting design employing the use of indigenous and ornamental plants as design elements in the man-made environment. Intended for Landscape Contracting majors only.
Effective: Spring 2001
Prerequisite:

HORT 390 Junior Seminar (1) Current issues in horticulture and agriculture.
Effective: Spring 1993
Prerequisite:

HORT 402W Plant Nutrition (3) Mineral nutrition of higher plants, including nutrient acquisition, transport, metabolism, and practical implications.
Effective: Spring 2003
Prerequisite:

HORT 407 Plant Breeding (3) The scientific principles and techniques of utilizing genetic variability in improving the heredity of plants for specific purposes.
Effective: Spring 2003

HORT 408 Landscape Plant Establishment and Maintenance (4) The principles and practices involved in the establishment of plants in the landscape, and their subsequent maintenance.
Effective: Summer 1998
Prerequisite:

HORT 409 Landscape Plant Establishment and Maintenance Laboratory (1) Students will actively participate in the practices involved in the establishment of plants in the landscape, and their subsequent maintenance.
Effective: Summer 1998
Prerequisite:

HORT 410W Issues in Landscape Contracting (3) This will be a survey of business management, regulatory, and environmental issues facing the landscape contracting profession. Laboratory.
Effective: Summer 1998
Prerequisite:

HORT 412W Post-Harvest Physiology (3) Harvesting, handling, storage, and transportation of horticultural crops; primary emphasis on physiological response to pre- and post-harvest environmental factors.
Effective: Spring 2001
Prerequisite:

HORT 420 Plant Growth Regulators (3) Plant growth regulators, their chemical and physical properties; general principles, practices, and applications in regulating plant growth and development.
Effective: Spring 2001
Prerequisite:

HORT 431 Small Fruit Culture (3) Cultural requirements and production practices of the principal small fruit crops: strawberries, grapes, blueberries, brambles, and cranberries.
Effective: Spring 2001
Prerequisite:

HORT 432 Deciduous Tree Fruits (3) Science, art, and techniques of regulated cropping; orchard designs and management systems.
Effective: Spring 2001
Prerequisite:

HORT 433 Vegetable Crops (3) Cultural requirements of important vegetable crops in conjunction with physiological processes and problems related to commercial production.
Effective: Spring 2001
Prerequisite:

The Pennsylvania State University
HORT 440W Plant Water Relations (3) Fundamentals of plant water relations including acquisition, transport, conservation, response to drought, measurement of water status, relationship to productivity, interaction with mineral nutrition, and use of equipment.

Effective: Spring 2003
Prerequisite:

HORT 445 Plant Ecology (3) Advanced lectures on plant ecology which stress integration of physiological, population-level and community-level phenomena, and ecology in agriculture.

Effective: Fall 1999
Prerequisite:

HORT 450 Greenhouse Management (3) Maintenance and manipulation of the greenhouse production systems including structures, covers, light, temperature, carbon dioxide, water, growing media, fertilizer and greenhouse cost accounting.

Effective: Spring 2001
Prerequisite:

HORT 453 Flower Crop Production and Management (3) Production of greenhouse flower and foliage plants; development of management skills for a greenhouse business.

Effective: Spring 2001
Prerequisite:

HORT 445 Retail Horticulture Business Management (3) The nature, operation, and management of retail horticulture business, emphasizing retail greenhouses, nurseries, and flower shops.

Effective: Spring 2001
Prerequisite:

HORT 457 Interior Plantscaping (3) Foliage identification, environmental factors affecting plants, concepts of interior plant design, installation and maintenance.

Effective: Summer 2004
Prerequisite:

HORT 459 (Biol 459, BIOTC 459) Plant Tissue Culture and Biotechnology (3) Principles and techniques for the in vitro culture, propagation, and genetic manipulations of plant cells.

Effective: Fall 2003
Prerequisite:

HORT 464 Landscape Construction I (4) Standards, processes, and computations for site grading, drainage, earthwork, vehicular circulation, parking; detailing, and finishing of landscape construction materials.

Effective: Spring 2001
Prerequisite:

HORT 466 Landscape Construction II (5) Project scheduling methods, plant installation techniques, and field layout principles and practices. Implications of site preparation.

Effective: Summer 1988
Prerequisite:

HORT 468 Landscape Estimating and Bidding (2) Reading and interpreting contract drawings and specifications, quantity take-offs, cost estimating, and bid document preparation.

Effective: Spring 2001
Prerequisite:

HORT 490 Senior Seminar (1) Exploration of the interrelationships of horticulture, science, and society; evaluation of attributes and abilities related to various career opportunities.

Effective: Spring 1993
Prerequisite:

HORT 495 Internship (1-13) Supervised off campus experience in a public or commercial horticultural enterprise. Written and oral critique of activity required.

Effective: Fall 1983
Prerequisite:

HORT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

HORT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1983

HORT 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 1992

HORT 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

The Pennsylvania State University
Hotel, Restaurant, and Institutional Management (HRIM)

HRIM 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual of group instruction.
Effective: Fall 2007

HRIM 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual of group instruction.
Effective: Fall 2007

HRIM 201 Introduction to Management in the Hospitality Industry (3) Introduction to the hospitality industry and hospitality management.
Effective: Fall 2003
  Concurrent: HRIM 202

HRIM 202 Colloquium in Hospitality Management (1 per semester, maximum of 4) Major industry and professional speakers lecture on current issues followed by discussion with students and faculty.
Effective: Spring 2004

HRIM 204 Hotel and Restaurant Marketing and Merchandising (3) Merchandising and marketing as a system concerned with motivating consumers to purchase hospitality products and services. This course will not meet the prescribed requirements for the HRIM major in any option.
Effective: Spring 2004

HRIM 208 Hospitality Food Safety (1) Application of HACCP, U.S. Food Code, biosecurity and other federal regulations to hospitality foodservice operations. Students attain certification in foodservice sanitation.
Effective: Spring 2010

HRIM 250 Principles of Quantity Food Production (3) Principles and methods of quantity food production including preparation techniques, quality control and evaluation, and cost control.
Effective: Spring 2012

HRIM 250 Hospitality Administration Seminar (4) Components of food service systems are identified and studied as separate problems and as a total system. This course will not meet the prescribed requirements for the HRIM major in any option.
Effective: Fall 2009
Prerequisite:

HRIM 270 Introduction to Hospitality Technology (2) Introduction to hospitality technology including computer applications, software, and hospitality information systems and applications.
Effective: Fall 2006
Prerequisite:

HRIM 295W Analysis of Field Experience I (3) Capstone class integrating content from throughout the previous curriculum, including directed written analysis of the 500-hour hospitality working experience.
Effective: Spring 2008
Prerequisite:

HRIM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2004

HRIM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2004

HRIM 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual of group instruction.
Effective: Fall 2007

HRIM 304 Institutional Food Service Management (3) Institutional food service management systems in the hospitality field.
Effective: Fall 2010
Prerequisite:

HRIM 305 Restaurant Management (3) Restaurant food service management systems in the hospitality field; analysis
including cost control and quality control techniques.

Effective: Spring 2004

Prerequisite:

HRIM 310 Hotel, Restaurant, and Institutional Purchasing and Cost Control (3) Purchasing and cost control principles for hotel, restaurant, and institutional operations.

Effective: Fall 2010

Prerequisite:

HRIM 311 Wine Appreciation (2) A study of identification of varieties of wine, methods and techniques of viniculture, development of wine lists and wine marketing.

Effective: Summer 2008

Prerequisite:

HRIM 318 Club Management and Operations (2) Principles and practices of club organizations and management.

Effective: Fall 2010

Prerequisite:

HRIM 319 Hospitality Facilities Management (3) Fundamental principles of facilities planning, facilities management, and maintenance for all segments of the hospitality industry.

Effective: Fall 2010

Prerequisite:

HRIM 329 Introduction to Food Production and Service (3) Principles of quality food production and service stressing the integration of menu planning, recipes, cost control, and service.

Effective: Fall 2011

Prerequisite:

HRIM 330 Food Production and Service Management (2) Food service management laboratory stressing the integration of purchasing, menu planning, and costing in quantity production of quality food.

Effective: Fall 2011

Prerequisite:

HRIM 335 Hospitality Financial Accounting (3) Basic accounting concepts and practices applicable to hospitality organizations.

Effective: Fall 2010

Prerequisite:

HRIM 336 Hospitality Managerial Accounting (3) Collection, processing, and interpretation of accounting data for managerial planning, control, and evaluation in hospitality organizations.

Effective: Fall 2010

Prerequisite:

Effective: Spring 2007

Prerequisite:

HRIM 355 Legal Aspects of the Hospitality Industry (3) Specialized applications of law to the hospitality industry.

Effective: Spring 2009

Prerequisite:

HRIM 365 (IL) Organizational Behavior in the Hospitality Industry (3) Study of individual satisfaction and performance in hospitality organizations. Topics include cultural diversity, motivation, communication, group behavior, and leadership.

Effective: Fall 2010

Prerequisite: Concurrent: HRIM 201

HRIM 380 Hotel Management (3) Introduction to rooms management including front office, housekeeping, security, and engineering. Emphasizes operations, coordination, and communication within and between departments.

Effective: Spring 2007

Prerequisite:

HRIM 385 Management Principles in Dietetic Services (3) Application and integration of management principles and leadership skills in dietetic services.

Effective: Summer 2004

Prerequisite:

HRIM 386 Introduction to the Gaming and Casino Industry (3) Students will learn about those traits of the casino industry which distinguish it from other segments of the hospitality industry.

Effective: Summer 2010

Prerequisite:

HRIM 387 Casino Controls (3) This course is an overview of controls used in casinos including an exploration of complimentary goods (comps) and services and credit.

Effective: Summer 2010

Prerequisite: Concurrent: HRIM 388

HRIM 388 Gaming Operations Management (3) Students will learn casino mathematics, game protection, floor layout methods, departmental organizational structure, and performance analysis.

Effective: Summer 2010

Prerequisite: Concurrent: HRIM 387
HRIM 395W Practicum Analysis (3) Written analysis comparing and contrasting conceptual issues in the hospitality industry. Effective: Spring 2004
Prerequisite:

HRIM 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2004

HRIM 397C Hyatt Career Seminar (1) Topics include resume prep, interview skills, mock interviews, Myers-Briggs assessment, etiquette sessions, and networking tips. Offered in conjunction with Hyatt Hotels. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

HRIM 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2007

HRIM 411 Beverage Management and Wine Selection (3) Management issues in beverage service and products. Students taste wines, brews, and distilled spirits. Effective: Spring 2004
Prerequisite:

HRIM 413 New Product Development for Commercial Foodservice (3) This course introduces students to a new product development process that requires coordination, communication, and integration throughout the organization. Effective: Spring 2010
Prerequisite:

HRIM 415 International Cuisine (3) Cooking and eating practices of cultures around the world, including historical, religious, cultural, geographic, and political influences on each cuisine. Effective: Spring 2007
Prerequisite:

HRIM 430 Advanced Food Production and Service Management (3) Simulation and application of technical, conceptual, interpersonal skills. Emphasis on group dynamics; improvement in managerial skills; management team functions. Effective: Spring 2007
Prerequisite:

HRIM 435 Financial Management in Hospitality Operations (3) Fiscal techniques in the development, management, and control of hospitality establishments. Effective: Spring 2011
Prerequisite:

HRIM 437 Hospitality Project Evaluation and Funding (3) Current techniques for project evaluation in the hospitality industry; trends in hospitality project funding. Effective: Spring 2004
Prerequisite:

HRIM 438 Cases in Financial Analysis (3) Financial analysis and decision making is examined through a series of hospitality-oriented cases. Effective: Spring 2004
Prerequisite:

HRIM 442 Hospitality Marketing (3) Marketing management in the hospitality industry, including analyzing the market through market research and developing a marketing plan. Effective: Fall 2010
Prerequisite:

HRIM 443 Sales Planning and Advertising for Hospitality Operations (3) Elements of sales management, advertising, promotion, and public relations as applied to hospitality organizations. Effective: Fall 2010
Prerequisite:

HRIM 456 Casino Operations Management (3) Historical and current perspective of the gaming industry. Management principles of casino operations, including coordination with traditional hospitality services. Effective: Spring 2004

HRIM 466 (US) Human Resource Management in the Hospitality Industry (3) Recruitment, selection, training, performance appraisal, and compensation of hospitality human resources in today's culturally diverse work force. Effective: Fall 2010
Prerequisite:

HRIM 467 Management of Hotel and Restaurant Employee Relations (3) Survey and analysis of managerial strategies for...
employee relations in hospitality operations.

Effective: Fall 2010
Prerequisite:

HRIM 471 Evaluation of Hospitality Technology (3) This course provides students with an understanding of the variety of information technologies used in the hospitality industry.
Effective: Spring 2012
Prerequisite:

HRIM 480 Advanced Hotel Management (3) Advanced hotel operations, internal control systems, and service philosophy. Integrates management, departmental operations, law, technology applications, marketing and managerial accounting.
Effective: Spring 2007
Prerequisite:

HRIM 482 Hospitality Real Estate (3) The course focuses on commercial real estate concepts related to the hospitality industry.
Effective: Fall 2010
Prerequisite:

HRIM 483 Revenue Management (3) Students learn how to effectively implement revenue management strategies and techniques in the hospitality industry.
Effective: Spring 2011
Prerequisite:

HRIM 486 Casino Marketing (3) Students will learn marketing techniques for casinos which take into account the external environment, individual consumer choices, and ethical considerations.
Effective: Summer 2010
Prerequisite: Concurrent: HRIM 487

HRIM 487 Casino Operations and Societal Impact of Gaming (3) Students will learn the structure, culture, and ethical responsibility toward disordered gambling and other lifestyle issues of modern casinos.
Effective: Summer 2010
Prerequisite: Concurrent: HRIM 486

HRIM 490W Strategic Hospitality Management (3) This capstone writing-intensive class integrates content from throughout the previous curriculum, focusing on strategic application to current industry issues.
Effective: Fall 2010
Prerequisite:

HRIM 492 Advanced Professional Seminar in Hotel, Restaurant and Institutional Management (1) Course prepares senior HR&IM students to assume leadership positions in the hospitality industry (Focus on careers, leadership, ethics, lifelong learning).
Effective: Spring 2004
Prerequisite: Concurrent: HRIM 430 HRIM 466 HRIM 490

HRIM 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2004
Prerequisite:

HRIM 495A Hotel Internships-PS Hospitality Services Internship (3) Students will participate in a supervised internship with Penn State Hospitality Services.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 495B Executive Internship-NLI (3) Students will participate in a supervised internship with the Nittany Lion Inn.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 495C International Internship (3) Students will participate in a supervised international internship with an approved site participant. Internships are typically one semester in length.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

HRIM 495D HRIM Teaching Assistant (1-6) Student performs as a teaching assistant for an HRIM course. Assists faculty member with class.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

HRIM 495D HRIM Teaching Assistant (1-6) Student performs as a teaching assistant for an HRIM course. Assists faculty member with class.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Undergraduate Bulletin Archive - June, 2012

Prerequisite:

HRIM 495D **HRIM Teaching Assistant** (1-6) Student performs as a teaching assistant for an HRIM course. Assists faculty member with class.
Prerequisite:

HRIM 495E **External/Off Campus Internship** (1-6) Students will participate in a supervised internship with an approved site participant. Internships are typically one semester in length.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

HRIM 495E **External/Off Campus Internship** (1-6) Students will participate in a supervised internship with an approved site participant. Internships are typically one semester in length.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 495E **External/Off Campus Internship** (1-6) Students will participate in a supervised internship with an approved site participant. Internships are typically one semester in length.
Prerequisite:

HRIM 495F **Housing & Food Service Interns** (3) Students will participate in a supervised internship with a faculty within PSU Housing & Food Service.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 495F **Housing & Food Service Internship** (3) Students will participate in a supervised internship with a facility within PSU Housing & Food Service.
Prerequisite:

HRIM 495G **Supervisory Internship** (6) Students will participate in a supervised internship with an approved site location.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2004

HRIM 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2004

HRIM 497A **Advanced Meeting Planning** (3) Students will apply advanced concepts and applications to Event & Meeting Planning and implement an event plan.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

HRIM 497B **Special Topics in Hotel Management** (3) Students, through research and on-line activities, will discuss special or current interest in the hotel industry.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HRIM 497C **Advanced Issues in Managing Continuing Care Retirement Communities** (3) This course encompasses information on hospitality services designed to meet and exceed the expectations of mature consumers residing in CCRCs.

HRIM 497F **Entrepreneurship in the Hospitality Industry** (3) This course will explore the characteristics of the successful entrepreneur and the process of starting a new business.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HRIM 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

HRIM 498C **Spanish for Hospitality International** (1-4) This course is designed to expose students to international hospitality management, organization, practices, and structures in a Caribbean setting.
Effective: Summer 2012 Ending: Summer 2012

HRIM 498D **International Hospitality Management/Puerto Rico** (3) This course is designed to expose students to international hospitality management, organization, practices, and structures in a Caribbean setting.
Effective: Summer 2012 Ending: Summer 2012

The Pennsylvania State University
HRIM 498F International Food Service Management and Cuisine (3) This course is designed to cover major European cuisines and oenology in a European setting. Effective: Summer 2012 Ending: Summer 2012

HRIM 498G French Cuisine and Culture (3) Program will include intensive classes on language and culture, products, cuisine, wine, and also design and atmosphere. Effective: Summer 2012 Ending: Summer 2012

HRIM 498I International Hospitality Management/Europe (3) This course is designed to expose students to international hospitality management, organization, practices, and structures in a European setting. Effective: Summer 2012 Ending: Summer 2012

HRIM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Fall 2007

Last Import from UCM: June 2, 2012 12:27 PM
Human Development and Family Studies (HD FS)

HD FS 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 129 (GS) **Introduction to Human Development and Family Studies** (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle. Students may take only one course for General Education credit from SOC 030 or HD FS 129. Effective: Fall 2004
Student may take only one course for General Education credits from HD FS 129 GS or SOC 030 GS.

HD FS 129H (GS) **Introduction to Human Development and Family Studies** (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 129S (GS) **Introduction to Human Development and Family Studies** (3) Introduction to psychosocial and family development at all stages of the individual and family life cycle.
Effective: Summer 2006

HD FS 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 216 **Personal and Interpersonal Skills** (2) Conceptions of lifespan personal and interpersonal skill enhancement.
Effective: Summer 1990

HD FS 218 **Foundations of Marriage** (3) Factors influencing the husband/wife relationship across the life course.
Effective: Summer 1990

HD FS 229 (GS) **Infant and Child Development** (3) Theory, research, and methods of social/behavioral/biological sciences related to developmental processes and intervention during infancy and childhood.
Effective: Fall 2004

HD FS 230 **Overview of Curricular Practices in Early Childhood Care and Education** (3) Curricular practices in programs for infants, toddlers and preschoolers. Focus on developmentally appropriate practice, emergent curriculum and home/child care links.
Effective: Summer 2004
Prerequisite:

HD FS 231 **Guidance in Early Childhood Care and Education** (3) Positive guidance methods for infants, toddlers and preschoolers, leading to self-control and social capability. Includes focus on home/childcare links.
Effective: Summer 2004
Prerequisite:

HD FS 232 **Creativity and Play in Early Childhood Care and Education** (3) Planning for play, creativity and exploration in programs for infants, toddlers and preschoolers. Includes focus on home/childcare links.
Effective: Summer 2004
Prerequisite:

HD FS 233 **Emergent Language and Literacy: Development and Practice in Early Childhood Care and Education** (3) Fostering development of language and literacy in infants, toddlers and preschoolers. Includes children’s literature and focus on home/childcare links.
Effective: Summer 2004
Prerequisite:

HD FS 234 **Mathematics and Science Reasoning: Development and Practice in Early Childhood Care and Education** (3) Fostering development of mathematical reasoning and scientific inquiry in infants, toddlers and preschoolers. Includes project approach and focus on home/childcare links.
Effective: Summer 2004
Prerequisite:

HD FS 239 (GS) Adolescent Development (3) Social, behavioral, and biological development and intervention throughout adolescence.
Effective: Spring 2002

HD FS 249 (GS) Adult Development and Aging (3) Physiological, psychological, and social development and intervention from young adulthood through old age.
Effective: Spring 2003

HD FS 250 (US) (WMNST 250) Sexual Identity over the Life Span (3) Concepts of affectional and sexual orientation over life span, with emphasis on lesbian and gay male personal, family, and community adaptation.
Effective: Summer 2005
Prerequisite:

HD FS 287W (GS;US) Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 287X (GS;US) Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 287Y (GS;US) Intercultural Community-Building (3) An experiential introduction to negotiating differences in small groups, families, institutions, and communities.
Effective: Summer 2005

HD FS 296 Independent Studies (1-12) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1990

HD FS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1990

HD FS 297A Foundations of Post-Secondary Transition (1) Course designed for high school students who plan on transitioning to post-secondary training after high school.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Effective: Spring 1996
Prerequisite:

HD FS 301 Values and Ethics in Health and Human Development Professions (3) Examines bases for choices among values in personal and professional relations in human development processes and supporting services.
Effective: Summer 1998

HD FS 302A Leadership and Technology Skills for Human Services Professionals A (3) Development of skills essential for contemporary human services professionals, including critical thinking, problem solving, electronic communications, and information handling.
Effective: Spring 2001
Prerequisite:

HD FS 302B Leadership and Technology Skills for Human Services Professionals B (3) Application and enhancement of leadership and technology skills in team settings; emphasis on active and collaborative problem-solving.
Effective: Summer 1997
Prerequisite:

HD FS 310M Seminar in Honors--Research Methods (3) Overview of research and methods issues tailored around development of honors thesis proposals.
Effective: Spring 1998
Prerequisite:

HD FS 311 Human Development and Family Studies Interventions (3) Survey of individual and family formal and informal intervention efforts; historical and current perspectives and approaches.

The Pennsylvania State University
Effective: Spring 1996
Prerequisite:

HD FS 312W Empirical Inquiry in Human Development (3) Introduction to the skills involved in critical thinking in general and the methods of empirical inquiry in particular. Open to HD FS majors only.
Effective: Spring 2001
Prerequisite:

HD FS 35 (US) Family Development (3) Family functions over the life course; family from a multidisciplinary perspective, emphasizing adaptation and change.
Effective: Summer 2005
Prerequisite:

HD FS 315Y (US) Family Development (3) Family functions over the life course; family from a multidisciplinary perspective, emphasizing adaptation and change.
Effective: Summer 2005
Prerequisite:

HD FS 330 Observation or Experience with Children, Youth, and Families (1-6) Directed observations of, or supervised experience with children, youth, and families in group or home settings.
Effective: Spring 2007
Prerequisite:

HD FS 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1998
Prerequisite:

HD FS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 397A Child Maltreatment in Ecological Context (3) This course will examine child maltreatment investigations, treatment, prevention, and policy in ecological context.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

HD FS 397A Comparative Juvenile Justice Systems (3) An international comparison of juvenile justice systems, including policies, laws and procedures, as well as prevention and treatment of children and youth in conflict with the law with focus on provision of positive youth development, wellbeing, best interest and rights of children and youth in conflict with the law.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 397A Comparative Juvenile Justice Systems (3) An international comparison of juvenile justice systems, including policies, laws and procedures, as well as prevention and treatment of children and youth in conflict with the law with focus on provision of positive youth development, wellbeing, best interest and rights of children and youth in conflict with the law.

HD FS 397B Youth Leadership (3) This course is designed to study the theory, research and application of youth leadership while experiencing an applied leadership program.
Effective: Summer 2012 Ending: Summer 2012

HD FS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 401 Project Planning, Implementation, and Evaluation in the Human Services (3) Exercises and activities related to the design, planning, implementation and management, and evaluation of projects and programs in the human services.
Effective: Fall 2006
Prerequisite:

HD FS 402 Human Services Seminar (4) Presentations and discussion of contemporary human issues by students and visiting professionals.
Effective: Summer 1997
Prerequisite:

HD FS 405 (US) Gender and Social Development (3) A review of gender-related patterns of social development over the lifespan, as influenced by biological, sociological, and psychological factors.
Effective: Spring 2006
Prerequisite:

HD FS 410 Communities and Families (3) Family and community interaction, emphasizing strategies for intervention to solve family-community problems.
Effective: Spring 1996

The Pennsylvania State University
Prerequisite:

HD FS 411 The Helping Relationship (3) Theory and research related to interpersonal conditions which facilitate personal growth; intensive interpersonal competency training.
Effective: Spring 1996
Prerequisite:

HD FS 412 Adult-Child Relationships (3) Theories, research, and application of adult behavior for maximizing adult-child relationships and optimizing child socialization and self-development.
Effective: Spring 2007
Prerequisite:

HD FS 413 Developmental Problems in Adulthood (3) Analysis of individual developmental problems from young adulthood through old age and their prevention and modification.
Effective: Spring 2001
Prerequisite:

HD FS 414 Resolving Human Development and Family Problems (3) Strategies for, and roles of professional specialists in, the solution of problems in human development and family functioning.
Effective: Spring 1996
Prerequisite:

HD FS 415 Program Development in Family Relationships (3) Methods for planning, developing, and evaluating human service programs for families across the life span.
Effective: Spring 2001
Prerequisite:

HD FS 416 (US) (SOC 411) Racial and Ethnic Diversity and the American Family (3) This course will explore the nature and determinants of racial and ethnic variation in family processes in the United States.
Effective: Spring 2005
Prerequisite:

HD FS 417 (US;IL) Biocultural Studies of Family Organization (3) Study of variability in family organization with an emphasis on cultural and economic factors influencing household organization and family roles.
Effective: Spring 2006
Prerequisite:

HD FS 418 Family Relationships (3) Dynamics of family interaction; effects of parenthood, sibling and intergeneration relationships on family solidarity.
Effective: Spring 2001
Prerequisite:

HD FS 420 Laboratory in Individual and Family Enhancement (3) Supervised practice in methods of assessment, intervention, and evaluation to enhance individual and family development.
Effective: Spring 1996
Prerequisite:

HD FS 421 (US) Family Development in an Economic Context (3) Economic conditions influencing family functioning; familial effects on the economy; strategies to enhance work-family relations.
Effective: Spring 2006
Prerequisite:

HD FS 425 (US) Work as a Context for Human Development (3) Theory and research on role of work in adult development; interrelationships between work and family; workplace interventions to enhance development.
Effective: Spring 2006
Prerequisite:

HD FS 427 (KINES 427) Developmental Sport & Exercise Psychology (3) Developmental changes in the antecedents and consequences of physical activity across the lifespan.
Effective: Spring 2008
Prerequisite:

HD FS 428 Infant Development (3) Conceptual analysis, assessment, and empirical investigation of normal and deviant development, prenatal through first two years of life.
Effective: Spring 2007
Prerequisite:

HD FS 429 Advanced Child Development (3) Processes of development during childhood from birth to adolescence. Emphasis upon theory, method, and empirical research.
Effective: Spring 2007
Prerequisite:

HD FS 430 Experience in Preschool Groups (6) Guided practicum experience in planning and facilitating developmentally appropriate activities for young children.
Effective: Spring 2007
Prerequisite:

HD FS 431 (SOC 431) Family Disorganization: Stress Points in the Contemporary Family (3) Focuses on divorce, remarriage, incest, family violence as well as problems associated with family formation and parent-child relations.
Effective: Spring 1996
Prerequisite:
HD FS 432 Developmental Problems in Childhood and Adolescence (3) Analysis of problems in individual development from infancy through adolescence; prevention and modification of developmental difficulties.
Effective: Spring 2007
Prerequisite:

HD FS 433 Developmental Transition to Adulthood (3) Conceptual analysis and empirical investigation of interrelationships between developmental processes during the period of pubertal growth.
Effective: Spring 1996
Prerequisite:

HD FS 434 (SOC 435) Perspectives on Aging (3) An analysis of the demographic, social, and cultural factors affecting the aged population in American society.
Effective: Fall 2007
Prerequisite:

HD FS 440 (SOC 440) Family Policy (3) An in-depth examination of family policy.
Effective: Spring 2007
Prerequisite:

HD FS 445 (PSYCH 416) Development Throughout Adulthood (3) Processes of development and change of behavior from early adulthood through old age, emphasizing theory, method, and empirical research.
Effective: Spring 2007
Prerequisite:

HD FS 446 Programs and Services in Gerontology (3) Theoretical and historical views of the conceptualization and delivery of programs and services to older persons within a multidisciplinary developmental framework.
Effective: Spring 1996
Prerequisite:

HD FS 447 Issues in Gerontology (3) Analysis of major issues in adulthood and aging, with an emphasis on integration of theory and research.
Effective: Spring 1996
Prerequisite:

HD FS 450 Developmental Child Programs and Services (3) Current and historical views of the conceptualization and delivery of child programs and services within a multidisciplinary developmental framework.
Effective: Spring 2007
Prerequisite:

HD FS 453 Family Participation and Involvement in Child Services (3) Current and historical perspectives of roles and functions of family members in designing, delivering, and evaluating of child service programs.
Effective: Spring 2001
Prerequisite:

HD FS 454 (E C E 454) Development and Administration of Child Service Programs (3) Planning, administering, and evaluating child service programs at several administrative levels using methods from relevant disciplines.
Effective: Spring 1996
Prerequisite:

HD FS 455 Development and Administration of Human Services Programs (3) Fundamentals of program development and administration of human service programs in community settings; emphasis given to program content, strategies, and the overall planning process.
Effective: Fall 2009
Prerequisite:

HD FS 468 Biological Bases of Behavioral Development (3) Biological, genetic, and experiential influences in development through the lifespan.
Effective: Spring 2007
Prerequisite:

HD FS 469U (IL) Family Change in the Global Economy (3) Exploration of how family life, quality, and structures in each region of the world are affected by the new global economy.
Effective: Fall 2005
Prerequisite:

HD FS 477 Analysis of Family Problems (3) Analysis of families’ behavioral, managerial, interpersonal, and financial problems and their interrelationships.
Effective: Spring 2001
Prerequisite:

HD FS 490 Introduction to Internship Experience (2) Planning and preparation for field experience in human service setting. Analysis of human service system and arrangement of site.
Effective: Spring 1996
Prerequisite:

HD FS 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2000

The Pennsylvania State University
HD FS 494A **Research Practicum** (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 494B **Research Paper** (3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 494C **Strengthening Families** (1-3) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 494H **Senior Honors Thesis** (1-6) Independent study under the direction of the thesis advisor of topics related to the interests of the student, culminating in presentation of a thesis. Effective: Summer 1997 Prerequisite:

HD FS 495A **Internship: Advanced Experience** (9) Full-time, one semester experiential training in human service settings. Open to HD FS majors only. Effective: Fall 2006 Prerequisite:

HD FS 495B **Internship: Advanced Project** (3) Implementation of internship projects or scholarly paper. Open to HD FS majors only. Effective: Fall 2006 Prerequisite:

HD FS 495C **Professional Practicum in Human Services** (3-8) Guided professional practicum in human services, usually in the form of a project related to a human services issue. Effective: Summer 1997 Prerequisite:

HD FS 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1990

HD FS 496B **Infant Temperment** (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 496C **Marcellus Shale Family Project** (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 496D **Project SIESTA** (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 496F **Family Care Project** (1-3) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1990

HD FS 497A **Service Learning Immersion in the Republic of Korea** (3) Experiential course which blends academic issues with an applied field setting. Effective: Summer 2012

HD FS 497A **Child Maltreatment** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 497B **Mental Health Practicum with Children** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 497C **Peer Consultation** (1-3) Formal courses given infrequently to explore, in depth, a comparatively narrow...
HD FS 497C **Peer Consultation** (1-3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

HD FS 497H **Professional Development** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

HD FS 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

HD FS 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual of group instruction.
Effective: Fall 2007

HD FS 499A (IL) **Early Childhood in Italy** (3) Courses offered in foreign countries by individual of group instruction.
Effective: Summer 2012 Ending: Summer 2012

HD FS 499B (IL) **Historical Roots of the Modern Italian Family** (3) Courses offered in foreign countries by individual of group instruction.
Effective: Summer 2012 Ending: Summer 2012

HD FS 499C (IL) **Italian Relationships: Both Cultural and Familial** (3) Courses offered in foreign countries by individual of group instruction.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Humanities and Social Sciences (H&SS)

H&SS 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1989

H&SS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1989

H&SS 297A Peer Mentoring (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&SS 297B Internship, Job and Graduate School Search (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&SS 297C Introduction to Game Design (3) Explores various roles of game design and how they work together to produce a complete interactive experience.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&SS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

H&SS 397C Advanced Game Design (3) Applications of film-making technique are discussed as well as the application of Machinima to animation and visualization.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

H&SS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1989

H&SS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1989

Last Import from UCM: June 2, 2012 12:27 PM
Industrial Engineering (I E)

I E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1998

I E 100S Discover Industrial Engineering: First-Year Seminar (1) Informational First-year on Industrial Engineering as a career choice and profession; lab exercises; guest speakers; real world problems.
Effective: Fall 1999

I E 101S Build Your Own Robot--First-Year Seminar (1) The objective of this first-year seminar course is to provide students hands-on experience with robotics and automation devices.
Effective: Summer 2000

I E 102S Human-Centered Engineering--First-Year Seminar (1) This First-year seminar considers what makes products and processes usable by people, through both design principles and student projects.
Effective: Summer 2000

I E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

I E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

I E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

I E 302 Engineering Economy (3) Principles and methods for analyzing the economic feasibility of technical alternatives leading to a decision or recommendation.
Effective: Fall 1992
Prerequisite:

I E 302H Engineering Economy (3) Principles and methods for analyzing the economic feasibility of technical alternatives leading to a decision or recommendation.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

I E 303 Engineering Economic Analysis (2) Economic analysis of engineering alternatives.
Effective: Spring 2008

Effective: Summer 2005
Prerequisite:

Effective: Spring 2008
Prerequisite:

I E 307 Rapid Prototyping Processes (3) The study and application of rapid prototyping technologies in design and manufacturing.
Effective: Summer 2009
Prerequisite:

I E 310 Principles of Deformation Processing (3) Discussion, laboratory practices, and laboratory experiments covering principles of metal removal and forming, nonmetallic processing, and metrology.
Effective: Spring 2008
Prerequisite:

I E 311 Principles of Solidification Processing (3) Discussion, laboratory practices, and laboratory experiments covering principles of metal casting and joining, nondestructive testing, and nonmetallic processing.
Effective: Spring 2009
Prerequisite:

I E 312 Product Design and Manufacturing Processes (3) Theory and principles of manufacturing; effect on design selection and product quality; processes include material removal, casting, joining, plastic molding. Industrial engineering majors may not schedule this course.
Effective: Spring 2008
Prerequisite:
I E 322 Probabilistic Models in Industrial Engineering (3) The study and application of probability theory in the solution of engineering problems.
Effective: Fall 2005
Prerequisite:
I E 322H Probabilistic Models in Industrial Engineering (3) The study and application of probability theory in the solution of engineering problems.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
I E 323 Statistical Methods in Industrial Engineering (3) The study and application of statistics in the solution of engineering problems.
Effective: Spring 2006
Prerequisite:
I E 327 Introduction to Work Design (3) Job analysis, cognitive and physical considerations in design of work, work measurement.
Effective: Fall 2008
Prerequisite:
I E 328 Production Engineering (3) Theory and principles for economic design of tooling for production, including process planning and numerical control of machine tools.
Effective: Spring 2001
Prerequisite:
I E 330 Information Technology for Industrial Engineering (3) The study and application of computing and information technology to industrial engineering.
Effective: Fall 2009
Prerequisite:
I E 330L Information Technology for Industrial Engineering (3) The study and application of computing and information technology to industrial engineering.
Effective: Spring 2008
Prerequisite:
I E 330P Information Technology for Industrial Engineering The study and application of computing and information technology to industrial engineering.
Effective: Spring 2008
Prerequisite:
I E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000
I E 399 (IL) Foreign Studies--Industrial Engineering (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
I E 402 Advanced Engineering Economy (3) Concepts and techniques of analyses useful in evaluating engineering projects under deterministic and uncertain conditions.
Effective: Summer 1995
Prerequisite:
I E 405 Linear Programming (3) An introduction to the theory and application of the simplex method in solving the linear programming and dual problem.
Effective: Spring 2001
Prerequisite:
I E 408 Cognitive Work Design (3) Design and evaluation of cognitive work, including the human/computer interface, visual displays, software design, and automated system monitoring, with emphasis on human performance.
Effective: Spring 2006
Prerequisite:
I E 418 Human/Computer Interface Design (3) Design and evaluation of the human/computer interface, including human performance, visual displays, software design, and automated system monitoring.
Effective: Spring 2008
Prerequisite:
I E 419 Work Design - Productivity and Safety (3) Methods improvement, physical work design, productivity, work measurement; principles and practice of safety.
Effective: Spring 2006
Prerequisite:
I E 423 Quality Control and Reliability (3) Application of statistical methods to the control of quality, sampling inspection, and reliability engineering.
Effective: Summer 1995

The Pennsylvania State University
Prerequisite:

**IE 424 Process Quality Engineering** (3) Statistical methods for engineering process characterization and improvement. For non-Industrial Engineering majors.
Effective: Summer 1994
Prerequisite:

**IE 425 Introduction to Operations Research** (3) An introduction to the method and techniques of mathematical decision making, including inventory, replacement, allocation, and waiting line problems.
Effective: Spring 2006
Prerequisite: Concurrent: IE 405

**IE 428 Metal Casting** (3) Application of engineering principles to the design of castings; casting of ferrous and nonferrous alloys; laboratory and simulation projects.
Effective: Summer 1995
Prerequisite:

**IE 430 Industrial Project** (3) A project is carried out in conjunction with an industrial company and supplemented by tutorials.
Effective: Fall 1992
Prerequisite:

**IE 433 Regression Analysis and Design of Experiments** (3) Theory and application of regression analysis and design of experiments to build models and optimize process and product parameters.
Effective: Summer 2005
Prerequisite:

**IE 434 Statistical Quality Control** (3) Statistical techniques for univariate and multivariate monitoring of independent and autocorrelated processes; foundations of quality control and improvement.
Effective: Summer 2007
Prerequisite:

**IE 436 Six Sigma Methodology** (3) Techniques for structured problem-solving to improve the quality and cost of products and processes.
Effective: Spring 2010
Prerequisite:

**IE 450 Manufacturing Systems Engineering** (3) Components of automated manufacturing systems (CNC, robots, programmable logic controllers). Design, analysis and operational issues related to improved productivity in modern manufacturing systems.
Effective: Spring 2008
Prerequisite:

**IE 453 Simulation Modeling for Decision Support** (3) Introduction of concepts of simulation modeling and analysis, with application to manufacturing and production systems.
Effective: Fall 2009
Prerequisite:

**IE 454 Applied Decision Analysis** (3) Theory and practice of decision analysis applied to engineering problems.
Effective: Fall 1992
Prerequisite:

**IE 455 Production Planning and Control** (3) Production planning/control methods from aggregate to detailed levels; includes underlying theories and principles and industrial applications.
Effective: Spring 2001
Prerequisite:

**IE 456 (M E 456) Industrial Robot Applications** (3) Introduction to robotics, with emphasis on robot selection, programming, and economic justification for manufacturing applications.
Effective: Spring 2011
Prerequisite:

**IE 460 Service Systems Engineering** (3) Use of quantitative models and methods for analysis, design and control of service systems.
Effective: Spring 2011
Prerequisite:

**IE 462 Introduction to Expert Systems** (3) Building expert systems in general; emphasis on knowledge representation and inference mechanisms in the manufacturing domain.
Effective: Fall 2009
Prerequisite:

**IE 463 Computer Aided Design and Manufacturing** (3) Three dimensional modeling and manufacture of parts and assemblies using Computer Aided Design and manufacturing software, and numerically controlled machines.
Effective: Spring 2008
Prerequisite:

**IE 464 Assembly of Printed Circuit Boards** (3) Manufacturing processes and principles for assembly of printed circuit boards with surface mount and through-hole technology.
Effective: Spring 2008
Prerequisite:
IE 466 Concurrent Engineering (3) Concurrent engineering methods for product/process development, capturing customer requirements, insuring manufacturability and serviceability. Effective: Summer 1996
Prerequisite:

IE 467 Facility Layout and Material Handling (3) Analytical, simulation and computer-aided graphical methods to generate effective layout designs; design and integration of material handling systems and equipment. For Industrial Engineering majors. Effective: Fall 2007
Prerequisite:

IE 468 Optimization Modeling and Methods (3) Mathematical modeling of linear, integer, and nonlinear programming problems and computational methods for solving these classes of problems. Effective: Fall 2001
Prerequisite:

IE 469 Global Industrial Engineering Experience (1) Students will learn how to prepare for a short term, professional exchange in a foreign nation. Students will then travel to a designated university within a foreign nation for the purpose of a five day cultural and professional exchange. Effective: Summer 2009
Prerequisite:

IE 470 Manufacturing System Design and Analysis (3) Contemporary design and analysis methodologies used to organize systems for economic manufacture of products. Effective: Spring 2012
Prerequisite:

Prerequisite:

IE 478 Retail Services Engineering (3) Introduction to retail services operations, process models, and application of information technologies to enhance productivity and profitability. Effective: Spring 2010
Prerequisite:

IE 479 (EDSGN 479) Human Centered Product Design and Innovation (3) Consumer product design for a global market, incorporating human factors principles and user desires in a multicultural perspective. Effective: Summer 2010
Prerequisite:

IE 480W Capstone Design Project (3) Industry-based senior capstone design project emphasizing manufacturing systems, service systems, and information systems in an interdisciplinary setting. Effective: Spring 2009
Prerequisite:

IE 494H Senior Honors Thesis (1-9) Students must have approval of a thesis adviser before scheduling this course. Effective: Spring 2000

IE 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1992

IE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

IE 497B Logistics and Supply Chain Engineering (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IE 497D Micro/Nano Fabrication (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IE 499 (IL) Foreign Studies--Industrial Engineering (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Industrial Engineering Technology (IET)

IET 101 Manufacturing Materials, Processes, and Laboratory (3) Mechanical properties of materials; primary processing methods used in manufacturing; ferrous and nonferrous metals; important plastic plus ceramic materials; dimensional verification and measurements; mechanical properties evaluation; laboratory methods; statistical interpretation of data. Effective: Fall 2007

IET 105 Economics of Industry (2) Internal economics of industrial enterprise, cost factors, and methods of comparing alternate proposals. Effective: Fall 2007

IET 109 Inspection and Quality Control (3) Inspection methods and procedures and their application to control and acceptance sampling based on statistical methods. Effective: Fall 2007

IET 215 Production Design (2) The study of manufacturing processes for the purpose of part creation and/or part feature creation using both current and advanced technologies. Effective: Fall 2008

IET 216 Production Design Laboratory (2) Laboratory methods in production design including conventional and advanced manufacturing processes, computer applications, and automation robotics. Effective: Fall 2008

IET 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Fall 2007

IET 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2007

IET 308 Statistical Quality Control (3) Fundamentals of probability and statistics, introduction to quality control fundamentals, control charts, acceptance sampling. Effective: Fall 2007

IET 311 Elements of Metallurgy (3) Introduction to metallurgical concepts, metallurgical testing, phase diagram studies, heat treating concepts, ferrous and nonferrous systems. Effective: Fall 2007

IET 321 Manufacturing Processes (3) Manufacturing processes for producing metal, plastic, and ceramic items. Primary emphasis is placed on machine tool processes. Effective: Fall 2007

IET 333 Engineering Economics for Technologists (2) Fundamentals of engineering economics; equivalence and rate of return analysis; replacement models; depreciation and tax considerations; and economic decision making for technologists. Effective: Fall 2008

IET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

IET 402 Production Management (3) Principles and practices of managing the manufacturing operations of companies. Topics include management structure, physical plant, quality control, work sampling. Effective: Fall 2007

IET 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2007

IET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Industrial Health and Safety (I H S)

I H S 400 Safety Engineering (3) An examination of the engineering aspects of the safety discipline and its management in the work environment.
Effective: Fall 2009 Ending: Summer 2012
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Information Science (IN SC)

IN SC 431 Information Systems Architecture (3) Principles and priorities of enterprise system design, middleware and service-oriented architectures and web services.
Effective: Summer 2005

IN SC 463 Languages of the Web (3) Taxonomy of programming languages and frameworks used in the development of web-based information systems.
Effective: Summer 2005

IN SC 480 Software Development Lifecycle (3) Modern Software Development Techniques and Processes. Software Paradigms including OO and lifecycle modeling and improvement.
Effective: Summer 2005

IN SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Spring 1998

IN SC 497A Business Intelligence (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

IN SC 497A Fundamentals of Telecommunications (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IN SC 497B Networks Management II (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

IN SC 497C Fundamentals of Information Security (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that they may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Information Sciences And Technology (IST)

IST 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

IST 110 (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Summer 2005

IST 110H (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 110S (GS) Information, People and Technology (3) The use, analysis and design of information systems and technologies to organize, coordinate, and inform human enterprises.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 111 Seminar in IST (1) Introduction to academic requirements, career planning & information literacy for students majoring in College of IST.
Effective: Spring 2010

IST 111S Seminar in Information Sciences and Technology (1) Introduction to academic requirements, career planning, and information literacy for students majoring in the College of Information Sciences and Technology.
Effective: Spring 2001

IST 130 (GA) Emerging Technologies in Popular Culture (3) A survey course that explores emerging technologies used to produce and consume popular cultural artifacts.
Effective: Summer 2009

IST 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 210 Organization of Data (4) Introduction to concept of databases including the storage, manipulation, evaluation, and display of data and related issues.
Effective: Summer 2005
Prerequisite:

IST 211 Advanced Topics in Relational Database Management Systems (3) In depth coverage of: database administration, advanced Structures Query Language inquiries, normalization, referential integrity; troubleshooting, tweaking; implementation dependent transactions, embedded SQL, Open Database Connectivity.
Effective: Summer 1999
Prerequisite:

IST 220 Networking and Telecommunications (3) Introduction to digital network topologies; transmission media, signal modulation, digital packet switching and routing, systems integration, communications management, and security.
Effective: Summer 1999
Prerequisite:
IST 221 Introduction to Telecommunications Systems (3) Telephony, digital telecommunications, private telecommunication systems, transmission media, signaling, switching and networking, and amplitude modulation. Effective: Summer 1999
Prerequisite:

IST 222 Voice and Data Communications (3) Noise in communications systems, types of modulation, transmission codes, terminals, interfaces, and the telephone. Effective: Summer 1999
Prerequisite:

IST 223 Protocols and Networks (3) The telephone network, modems, protocols, network configurations, Internet and emerging technologies, error correction, fiber optics. Effective: Summer 1999
Prerequisite:

IST 225 PC Hardware Basics (3) Preparation for PC hardware support: Students learn data recovery and how to build, configure, upgrade, troubleshoot, diagnose, and repair PC's. Effective: Summer 1999
Prerequisite:

Prerequisite:

IST 227 Network Administration (3) Administering peer-to-peer and client/server networks: Planning, installation, server configuration, resource management, remote access, performance monitoring, and optimization. Effective: Summer 1999
Prerequisite:

IST 228 Advanced Network Administration (3) TCP/IP planning, installation, configuration: IP addressing, subnetworking, routing, Dynamic Host Configuration Protocol (DHCP), Windows Internet Naming Service (WINS), address/name resolution, Domain Name System (DNS); database, web, mail server management. Effective: Summer 1999
Prerequisite:

IST 230 Language, Logic, and Discrete Mathematics (3) Introduction to formal languages, mathematical logic, and discrete mathematics, with applications to information sciences and technology. Effective: Spring 2004
Prerequisite:

IST 240 Introduction to Computer Languages (3) Introduction to the specification and application of languages and language paradigms that interact with computers. Effective: Spring 2002
Prerequisite: Concurrent: IST 230

IST 247 Contemporary Projects in Software Development (3) The analysis, design, coding, testing, and documentation of a software project using state-of-the-art languages/tools and concepts. Effective: Spring 2008
Prerequisite:

IST 250 New Media and the Web (3) Introduction to how the World Wide Web utilizes emerging technologies. Students acquire conceptual understanding of constructing Web sites. Effective: Summer 1999
Prerequisite:

Prerequisite:

IST 256 Programming for the Web (3) An introduction to fundamental Web programming concepts: Advanced Hypertext Markup Language (HTML), Dynamic Hypertext Markup Language (DHTML), extensible Markup Language (XML), Data Warehouses, JavaScript, common Gateway Interface (CGI), and Java. Effective: Summer 1999
Prerequisite:

IST 257 Advanced Web Administration (3) Web site server installation, access, management, security, performance monitoring and optimization, network services, and troubleshooting. Effective: Summer 1999
Prerequisite:

IST 260W Introduction to Systems Analysis and Design (3) Introduction to systems analysis and design, stressing the process of requirements acquisition, specification, design, and implementation. Effective: Spring 2010
Prerequisite:

IST 295A Distributed Team Project (1-3) Supervised experience in which student teams work on information system design projects gathered from industry or units within the University. Effective: Spring 2001

The Pennsylvania State University
Prerequisite:

IST 295B IST Internship (1-3) Supervised work experience where the student is employed in an information sciences and technology position in industry, government, or academia.
Effective: Spring 2001

Prerequisite:

IST 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

IST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

IST 297A Technology in Classroom (1) Introduce students to basic professional skills needed to ensure a successful and smooth transition into the professional world.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 297A Technology in Classroom (1) Introduce students to basic professional skills needed to ensure a successful and smooth transition into the professional world.

IST 297B Supervised Experience in Instructional Support (1) Introduction to best practices in and supervision of instructional support activities such as coaching, team facilitation, grading, and learning assessment.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 297B Supervised Experience in Instructional Support (1) Introduction to best practices in and supervision of instructional support activities such as coaching, team facilitation, grading, and learning assessment.

IST 297C Gender and the Global Information Technology Sector (3) Integrates information technology and gender studies. Overview issues and socio-cultural shaping of gender in the IT field.

IST 297D Introduction to Application Programming (3) The focus of the course is on beginning programming principles as experienced in the context of object-oriented application development.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 297D Introduction to Application Programming (3) The focus of the course is on beginning programming principles as experienced in the context of object-oriented application development.

IST 297J Intermediate and Object-Oriented Application Development (3) Intermediate and object-oriented application development in Java, including event-driven and graphical programming, algorithms, data structures, debugging, and testing.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

IST 297J Intermediate and Object-Oriented Application Development (3) Intermediate and object-oriented application development in Java, including event-driven and graphical programming, algorithms, data structures, debugging, and testing.
Prerequisite:

IST 297K New Media, Individuals, and Institutions (3) Introduction to the rapidly changing world of new media, and the communicative and social impacts on individuals and institutions.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

IST 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 301 Information and Organizations (3) Overview of organizational structures and functions. Includes information processing and analytic perspectives of organizations.
Effective: Summer 2003
Prerequisite:

IST 302 IT Project Management (3) Exploration and application of the basic concepts, methodologies, and tools of project management in the field of information sciences and technology.
Effective: Summer 2003
Prerequisite:

IST 311 Object-Oriented Design and Software Applications (3) Introduction to object-oriented applications including applications in an Object Oriented Design (OOD) language or OOD languages.
Effective: Spring 2008
Prerequisite:

IST 331 Organization and Design of Information Systems: User and System Principles (3) Interdisciplinary survey of topics related to the use and usability of information systems.
Effective: Spring 2004
Prerequisite:

IST 341 (US;IL) Human Diversity in the Global Information Economy (3) Globalization, human diversity and their impacts on IT products, work, workforce, and the knowledge economy and social inclusion in general.
Effective: Fall 2010
Prerequisite:

IST 390 Introduction to Professional Development (1) Interdisciplinary course to introduce students to the issues, concepts and skills involved in successfully transitioning into professional life.
Effective: Summer 2005

IST 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

IST 402 Emerging Issues and Technologies (3 per semester/maximum of 9) Introduction to emerging issues, technology forecasting and analysis; overview of emerging issues and leading technologies in IST and how they impact information systems, users, the IT labor force and society.
Effective: Fall 2006
Prerequisite:

IST 411 Distributed-Object Computing (3) Introduction to distributed-object computing and its use in client/server and real-world computing applications.
Effective: Summer 1999
Prerequisite:

IST 412 The Engineering of Complex Software Systems (3) Introduction to the engineering of complex software systems including software system specification, design and implementation, integration and test, and evolution.
Effective: Summer 1999
Prerequisite:

IST 413 Usability Engineering (3) This course addresses activities in the system development process that ensure usability. It considers the emerging concept of usability, requirements gathering and analysis, activity design, information design, interaction design, documentation design, user testing and usability evaluation.
Effective: Spring 2007
Prerequisite:

IST 420 Fundamentals of Systems and Enterprise Integration (3) Introductory course on integration of information technology into different venues, including the planning, development, and implementation of the integration.
Effective: Summer 2003
Prerequisite:

IST 421 Advanced Enterprise Integration: Technologies and Applications (3) Advanced course on the integration of information technology into systems applications.
Effective: Spring 2004
Prerequisite:

IST 425 (MGMT 425, ENGR 425) New Venture Creation (3) Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and present to investors.
Effective: Spring 2011
Prerequisite:

IST 426 (ENGR 426, MGMT 426) Invention Commercialization (3) Working with Penn State inventions selected by the Intellectual Property Office, student teams define an optimum commercialization path each technology.
Effective: Spring 2011
Prerequisite:

IST 431 The Information Environment (3) Survey of social environment of information technology themes: Community, sovereignty, privacy, ethics, economics, and knowledge management.
Effective: Fall 2004
Prerequisite:

IST 432 Legal and Regulatory Environment of Information Science and Technology (3) Legal environment of

The Pennsylvania State University
information technology, constitutional/political issues, intellectual property, management, e-commerce, privacy, access, computer contracting, cyberspace regulation.

Effective: Spring 2007
Prerequisite:

IST 440W Information Sciences and Technology Integration and Problem Solving (3) Problem-based approach to technology integration by focusing on real-life problems faced by an organization.
Effective: Fall 2002
Prerequisite:

IST 441 Information Retrieval and Organization (3) Introductory course for seniors and graduate students covering the practices, issues, and theoretical foundations of organizing and analyzing information and information content for the purpose of providing access to textual and nontextual information resources. Introduces students to the principles of information storage and retrieval systems and databases.
Effective: Spring 2004
Prerequisite:

IST 442 (IL) Information Technology in an International Context (3) International concepts to improve strategies for the design, dissemination, and use of information technology.
Effective: Summer 2006
Prerequisite:

IST 443 IT Professional Services Theory and Practice (3) Explores and applies the basic concepts, methodologies, tools, and techniques of consulting and professional service organizations in information sciences and technology.
Effective: Spring 2006
Prerequisite:

IST 444 Advanced IT Professional Services (3) Explores advanced IT professional services topics, and the unique application of consulting methods in various industry sectors.
Effective: Summer 2005
Prerequisite:

IST 445H Globalization Trends and World Issues (3) This course covers trends in globalization and their influence on U.S. policy making as well as the role of the U.S. in international issues.
Effective: Summer 2005
Prerequisite:

IST 446 An Introduction to Building Computer/Video Games (3) An interdisciplinary course that introduces students to process and techniques involved in developing a video or computer game.
Effective: Summer 2006
Prerequisite:

Effective: Spring 2012
Prerequisite:

IST 452 Legal and Regulatory Environment of Privacy and Security (3) Exploration of legal, regulatory, public policy, and ethical issues related to security and privacy for information technology professionals in public institutions, private enterprise, and IT services.
Effective: Spring 2012
Prerequisite:

IST 453 Legal, Regulatory, Policy Environment of Cyber Forensics (3) Legal, regulatory and public policy environment of computer and network forensics that constrain investigatory and monitoring activities in computer and network environments.
Effective: Summer 2006
Prerequisite:

IST 454 Computer and Cyber Forensics (3) Fundamental issues and concepts of computer forensics; aspects of computer and cyber crime; methods to uncover, protect, exploit, and document digital evidence; tools, techniques, and procedure to perform computer and cyber crime investigation.
Effective: Spring 2012
Prerequisite:

IST 456 Security and Risk Management (3) Contemporary Security Issues; security management processes, architecture and models; risk analysis and management; security planning, analysis and safeguards; security policies development and administration; contingency planning, incidence handling and response; and security standards and certification processes.
Effective: Spring 2012
Prerequisite:

IST 461 Database Management and Administration (3) Introduces advanced topics in database management systems that are fundamental to effective administration of enterprise information systems.
Effective: Spring 2006
Prerequisite:

IST 462 Database Modeling and Applications (3) This course introduces advanced topics in database modeling and applications.
Effective: Spring 2006
IST 489H Research Methods for the Information Sciences and Technology (3) Seminar course focused on approaches to studying information and communication technologies and writing theses and other research reports. Effective: Summer 2006

Prerequisite:

IST 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Fall 1999

Prerequisite:

IST 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2000

IST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2000

IST 497A Introduction to Enterprise Architecture (2) Provides a first exposure to Enterprise Architecture and sets a common language and understanding of EA and its business value. Effective: Summer 2012 Ending: Summer 2012

IST 497A Introduction to Enterprise Architecture (2) Provides a first exposure to Enterprise Architecture and sets a common language and understanding of EA and its business value. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

IST 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2001

Last Import from UCM: June 2, 2012 12:27 PM
Instructional Systems (INSYS)

INSYS 100 (GS;IL) World Technologies and Learning (3) This course examines the impact of learning technologies from email to online learning on world cultures from a socio-technical perspective.
Effective: Spring 2006

INSYS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

INSYS 297A Communication for Educators (3) Introduction to communication for educators, principles of pedagogical communication implemented through individual and group presentations including educational communication technologies.
Effective: Summer 2012 Ending: Summer 2012

INSYS 297B Hands-on App Development for iPads (3) The seminar will be an opportunity for participants to explore app development from the installation of the SDK up to development of their own simple apps, with an experienced programmer along the way.
Effective: Summer 2012 Ending: Summer 2012

INSYS 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest
Effective: Summer 1996

INSYS 415 Systematic Instructional Development (3) Preparation in the use of a nine-step model for systematically analyzing instructional problems and developing validated, practical solutions.
Effective: Summer 1996

INSYS 415B Systematic Instructional Development for Teachers (3) Preparation of teachers to use a systematic model to design learning environments for K-12 classrooms.
Effective: Summer 2012
Prerequisite:

INSYS 441 Design, Development, and Evaluation of Internet Resources (3) Design, production, and evaluation of instructional materials for delivery on the Internet.
Effective: Fall 2001

INSYS 442 Innovative Instructional Applications of Microcomputer Technology (3) Educators experience and develop innovative instructional applications of text-processing, database management, spreadsheet, and telecommunication software in their classrooms.
Effective: Fall 2008
Prerequisite:

INSYS 447 Instructional Design for Multimedia Technologies (3) State of the art multimedia technology hardware such as interactive video, CD-ROM and digitizing audio and video.
Effective: Fall 2001

INSYS 471 Introduction to Educational System Design (3) Investigates systems theory and how components of educational systems interact; develops insights on current issues and models in Educational System Design.
Effective: Summer 1996

INSYS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

INSYS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

INSYS 497A Teaching Online in Higher Education and Corporations (3) This course provides an introduction to the underlying theories, techniques and strategies for teaching a web-enhanced, blended, or online course.
Effective: Summer 2012 Ending: Summer 2012

INSYS 497B Teaching Online in K-12 Schools (3) Skills for teaching and learning online in the K-12 setting to include
cybercharter, online courses, and integration of online resources in traditional K-12 classrooms.
Effective: Summer 2012 Ending: Summer 2012

INSYS 497C **Apps for Education I: Introduction to Design and Development for iPad/iPhone** (3) We will examine the design, development, and evaluation of mobile technology. Students will develop IOS-based software including apps that can be used to support teaching and learning. Students should have some experience with rudimentary programming principles.
Effective: Summer 2012 Ending: Summer 2012

INSYS 497D **Apps for Education II: Intermediate Design and Development for iPad/iPhone** (3) In this course we will examine the design, development, and evaluation of mobile technology. This seminar will be an opportunity for participants to explore app development at an intermediate/advanced level. Students should have some experience with iOS programming or programming for other mobile devices.
Effective: Summer 2012 Ending: Summer 2012

INSYS 497E **Technology in Higher Education** (3) An overview of technologies currently implemented in higher education - from LMSs to apps, and corresponding research, theory and critiques.
Effective: Summer 2012 Ending: Summer 2012

INSYS 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996
Integrative Arts (INART)

INART 001 (GA) The Arts (3) Develop critical perception, knowledge, and judgments through an examination of the basic concepts common among the arts.
Effective: Spring 2006

INART 003 (GA) Reception of the Arts (3) This course considers how art uses time, space, and causality to define culture and the human condition.
Effective: Spring 2004

INART 005 (GA) Performing Arts (3) Introduction to music, dance, and theatre. Orientation to the aesthetics, theory, and practice of professional performance.
Effective: Spring 2004

INART 010 (GA) The Popular Arts in America: Mass Media Arts (3) An introduction to the arts of the mass media with emphasis on how film, radio, television, and the print media influence and reflect society.
Effective: Spring 2004

INART 015 (GA) The Popular Arts in America: Performing Arts (3) The development of the performing arts of American popular culture; emphasis on popular music, dance, theatre, and variety arts.
Effective: Spring 2004

Effective: Spring 2012

INART 055 (GA) History of Electroacoustic Music (3) A history of electroacoustic music as a consequence of developments in culture and technology from 1880 to present.
Effective: Spring 2004

INART 062 (GA;US;IL) West African and African American Arts: from the 1960s to the present (3) An introduction to West African and African American Arts from the 1960s to the present.
Effective: Summer 2005

INART 062U (GA;US;IL) West African and African American Arts: from the 1960s to the present (3) An introduction to West African and African American Arts from the 1960s to the present.

INART 100 (GA) Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

INART 100W (GA) Seminar in Integrative Arts (3) A study of various arts with emphasis on comparison, contrast, and other aspects of interrelation. Topics will change each semester.
Effective: Spring 2004

INART 110 (GA) The Dramatic Arts in the Mass Media (3) The place of television-radio-film drama in our culture; relationship with other art forms; standards of evaluation.
Effective: Spring 2004

INART 115 (GA;US) The Popular Arts in America: Popular Music (3) An examination of the roots, development, and significance of popular music in our culture.
Effective: Fall 2011

INART 115U (GA;US) The Popular Arts in America: Popular Music (3) An examination of the roots, development, and significance of popular music in our culture.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

INART 116 (GA;US) The Popular Arts in America: The History of Rock and Roll-The 1950s (3) This course examines the roots, development, and significance of rock and roll music in its first decade.
Effective: Summer 2007
INART 125 (GA;US;IL) The Popular Arts in America: The History of Rock and Roll - Punk Rock (3) An examination of
the roots, development, and significance of punk rock in our culture.
Effective: Spring 2011

INART 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
which may be topical or of special interest.
Effective: Summer 2005

INART 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

INART 200 (GA) The Popular Arts in America: Elvis Presley - The King of Rock and Roll (3) The significance and
influence of Elvis Presley as an artist and cultural force focusing on his recordings and major performances.
Effective: Spring 2007

INART 205 (GA) Introducing the Beatles (3) The influence and achievement of the Beatles as artists focusing on their
recordings and films as sociocultural artifacts.
Effective: Summer 2008

INART 210 (GA) Integrative Approaches to Computer-Aided Music Composition (3) Interdisciplinary introduction to
music composition using software to assist with notation; historical perspectives drawn from art, dance, theater, and
literature.
Effective: Fall 2004
Prerequisite:

INART 236 (GA) Integrating Music and Animation with Technology (3) An introduction to the theory, design and
creation of musical animations. For general students.
Effective: Summer 2011

INART 258A (GA) Fundamentals of Digital Audio (3) A thorough introduction to digital music production technologies,
covering fundamentals of how digital musical information is stored, processed and transmitted.
Effective: Spring 2012
Prerequisite:

INART 258B (GA) Fundamentals of Digital Audio (1) A general overview of music technologies current to music educators
and performers.
Effective: Spring 2012
Concurrent: concurrent enrollment in either MUSIC 131 or MUSIC 132

INART 294 Research Projects (1-12) Supervised student activities on research projects identified on an individual or
small-group basis.
Effective: Fall 1996

INART 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or
internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite:

INART 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an
individual basis and which fall outside the scope of formal courses.
Effective: Spring 1996

INART 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
which may be topical or of special interest.
Effective: Spring 1996

INART 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
that may be topical or of special interest.
Effective: Spring 1996

INART 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

INART 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

INART 410 Early Pennsylvania Decorative Arts and Furniture (3) The study of Pennsylvania and related furniture,
pottery, paintings, and decorative arts of the seventeenth, eighteenth, and early nineteenth centuries.
Effective: Summer 2011

The Pennsylvania State University
INART 415 Nineteenth Century Pennsylvania Architecture and Restoration (3) Interior and exterior design of early Pennsylvania architecture; understanding and evaluation of and experience in restoration.
Effective: Summer 2011
Prerequisite:
INART 494 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 1996

INART 494H Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

INART 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1995
Prerequisite:
INART 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1996

INART 496H Independent Studies - Honors (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

INART 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1996

INART 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

INART 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Integrative Biosc (IBIOS)

IBIOS 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1997
Interdisciplinary Humanities (I HUM)

I HUM 150 (GH;IL) World Mythologies in the Arts (3) Interdisciplinary, cross cultural, historical, and contemporary study of world mythologies as represented in the visual arts, literature, and film.
Effective: Spring 2009

I HUM 300W Interpretations in the Humanities (3) A study of selected themes, topics, or periods that introduces students to interdisciplinary approaches to knowledge, interpretation, and creative expression.
Effective: Fall 2001
Prerequisite:

I HUM 311 (GH;IL) The Western Tradition I (3) From prehistory through the Roman world.
Effective: Summer 2005
Prerequisite:

I HUM 400 Expressions in the Humanities (3) Capstone course for School of Humanities majors: students synthesize and apply approaches to a topic in creative expression and knowledge.
Effective: Fall 2001
Prerequisite:

I HUM 410 (IL) Religion and Culture (3) A comparative examination of several world religions in their social and cultural contexts.
Effective: Summer 2005
Prerequisite:

I HUM 430 Philosophy and Literature (3) The study of philosophical viewpoints in literature.
Effective: Spring 2002
Prerequisite:

I HUM 453 Texts and Culture (3) Study of art, literature, film, and other creative genres to illustrate the interrelationships between creative expression and cultural practices.
Effective: Spring 2002
Prerequisite:

I HUM 460 Thematic Studies (3) Analysis of a group of related ideas in art, music, literature, and/or philosophy. (May be repeated for credit.)
Effective: Spring 2002
Prerequisite:

I HUM 461 (IL) Selected Periods in the Humanities (3) Interdisciplinary studies dealing with selected periods of world culture. (May be repeated for credit.)
Effective: Summer 2005
Prerequisite:

I HUM 491 Seminar in Interdisciplinary Humanities (3) Interdisciplinary studies dealing with selected periods of world culture. (May be repeated for credit.)
Effective: Fall 2001
Prerequisite:

I HUM 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2002

I HUM 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

I HUM 495 Internship (1-6) Supervised internship for undergraduate or graduate Humanities majors in state offices, educational institutions, arts agencies, community organizations, or humanities councils.
Effective: Spring 2002
Prerequisite:

I HUM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2002

I HUM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2002

I HUM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

The Pennsylvania State University
International Agriculture (INTAG)

INTAG 100 (GS:IL) *Introduction to International Agriculture* (3) Ag in developing countries; contemporary crucial issues in global agriculture; emphasizing hunger and food security. 
Effective: Fall 2011

INTAG 296 *Independent Studies* (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1986

INTAG 297 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1986

INTAG 298 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

INTAG 300 (IL) *Agricultural Production and Farming Systems in the Tropics* (3) This course focuses on contemporary issues in tropical agriculture and the production of crops, livestock and forestry within tropical agroecosystems.
Effective: Summer 2012

INTAG 397 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

INTAG 397A *Agricultural Production and Farming Systems in the Tropics* (3) This course focuses on contemporary issues in tropical agriculture and the production of crops, livestock and forestry within tropical agroecosystems.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

INTAG 398 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

INTAG 481 *Problems in Agriculture in Tropical Areas* (3) Students apply their "expertise" to problems in agriculture. An integral component is a trip to tropical areas at their expense.
Effective: Spring 1983
Prerequisite:

INTAG 490 *Senior Seminar in International Agriculture* (3) Seminar discussions on contemporary topics in global agriculture; capstone course for INTAG minor.
Effective: Summer 2012
Prerequisite:

INTAG 495 *Internship in International Agriculture* (1-3) Observation of and participation in the operation and management of a University-approved international agricultural firm or international agricultural development agency.
Effective: Spring 1986
Prerequisite:

INTAG 496 *Independent Studies* (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1986

INTAG 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1986

INTAG 498 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

INTAG 499 (IL) *Foreign Studies* (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

INTAG 499A (IL) *Exploring Community, Leadership and Reconciliation: Vietnam and Cambodia - Study Tour* (1) Study
INTAG 499B (IL) Exploring Community, Leadership & Reconciliation: Vietnam & Cambodia Trip (1) The second part of
INTAG 499B (SP12) that includes a trip to Vietnam and Cambodia.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

Effective: Spring 2010 Ending: Summer 2012

Prerequisite:

JAPNS 403Y (IL) **Level Four Japanese A** (4) Continuation of JAPNS 402. Aims to improve students' proficiency in all four language skills, with a special emphasis on writing.
Effective: Fall 2012 Future: Fall 2012

Prerequisite:

JAPNS 404 (IL) **Practical Written Communication: Japanese for Professional and Academic Purposes II** (3) Continuation of emphasis on written styles used in newspapers, magazines, business reports, academic writing, and other texts; aspects of translation.
Effective: Spring 2010 Ending: Summer 2012

Prerequisite:

JAPNS 404 (IL) **Level Four Japanese B** (3) Continuation of JAPNS 403Y. Aims to improve students' proficiency in all four language skills through content-based language learning.
Effective: Fall 2012 Future: Fall 2012

Prerequisite:

JAPNS 421 (IL) **Courtly Japan** (3) Focused study of aristocratic society and culture of Heian period Japan.
Effective: Spring 2012

Prerequisite:

JAPNS 422 (IL) **War and the Warrior in Japan** (3) Survey of the role of warfare and the warrior in Japan, with attention to changing cultural settings. Taught in English.
Effective: Summer 2011

Prerequisite:

JAPNS 423 (IL) **Men, Women, and Animals** (3) Japanese history and culture through the lens of relations between men and women and between humans and animals.
Effective: Summer 2011

Prerequisite:

JAPNS 424 (IL) **Traveling Voices** (3) Transnational Writings of Japan: from Modern to Contemporary Eras.
Effective: Spring 2012

Prerequisite:

JAPNS 425 **Beyond Anime** (3) Selected works from the history of illustrated narrative from scrolls to chapbook, through film and anime; topics may vary. This seminar-style study of Japanese visual culture will help students see Japanese visual arts in terms that are local to Japanese aesthetics and through those that transcend local cultures.

The Pennsylvania State University
Effective: Spring 2011
Prerequisite:

JAPNS 452 (IL) **Contemporary Japan: Cultures, Lifestyles, Trends** (3 per semester/maximum of 6) Survey of aspects of modern Japanese society; includes readings from Japanese newspapers, magazines, and fiction; topics may vary each semester.
Effective: Spring 2010
Prerequisite:

JAPNS 453 (IL) **Japanese Film** (3 per semester/maximum of 6) Selected films and directors representing various aspects of Japanese culture and cinema; topics may vary each semester.
Effective: Spring 2010
Prerequisite:

JAPNS 454 (IL) **Japanese Literature** (3 per semester/maximum of 6) Selected works from important Japanese texts representing genres such as autobiography, poetry, fiction, and drama; topics may vary each semester.
Effective: Spring 2010
Prerequisite:

JAPNS 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2010

JAPNS 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2010

JAPNS 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2010

JAPNS 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1995

JAPNS 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2010

JAPNS 499 (IL) **Foreign Study--Advanced Japanese** (1-15) Small group instruction in spoken and written modern Japanese at the advanced level.
Effective: Spring 2010
Prerequisite:

J ST 083S (GH;IL) First-Year Seminar in Jewish Studies (3) Critical approaches to the history, sociology, and literature of Jewish Studies. Effective: Summer 2005

J ST 090 (GH;IL) (CAMS 090, RL ST 090) Archaeology of Jerusalem: Past and Present (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present. Effective: Summer 2005

J ST 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1998

J ST 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1998

J ST 102 (GH;IL) (CAMS 102, HIST 102, RL ST 102) Canaan and Israel in Antiquity (3) Political, social, and intellectual history of the land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages. Effective: Summer 2005

J ST 110 (GH;US;IL) (CAMS 110, RL ST 110) Hebrew Bible: Old Testament (3) Introduction to the history, literature, and religion of ancient Israel. Effective: Summer 2005

J ST 111 (GH;IL) (CAMS 111, RL ST 111) Early Judaism (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism. Effective: Summer 2005

J ST 114 (GH;US;IL) (RL ST 114) Modern Judaism (3) Trends in Jewish life and thought since the French revolution; Judaism's responses to the challenge of modernity. Effective: Summer 2005

J ST 115 (GH;US) (HIST 115, RL ST 115) American Jewish History and Culture (3) Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America. Effective: Summer 2006

The Pennsylvania State University
J ST 118 (US;IL) (HIST 118) Modern Jewish History: 1492 to Present (3) Jewish social and political history from 1492 to the present. Effective: Spring 2006

J ST 121 (GH;IL) (HIST 121) History of the Holocaust 1933-1945 (3) Historical analysis of holocaust themes. Effective: Summer 2005

J ST 124 (GH;US;IL) (CAMS 124, RL ST 124) Early and Medieval Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century. Effective: Summer 2005

J ST 131 (GH;US;IL) (CMLIT 110) Jewish Literature: An International Perspective (3) Literature of the Jewish tradition in various cultures and contexts, such as Europe, Israel, Islamic countries, and the Americas. Effective: Spring 2011

J ST 133 (GH) (CAMS 133, RL ST 133) Archaeology of the Levant and Ancient Israel (3) Archaeology of the Levant and Ancient Israel to c. 1000 B.C.E.; relationship between archaeological and textual evidence. Effective: Spring 2004

J ST 134 (GH;IL) (CAMS 134, RL ST 134) Archaeology of Biblical Israel (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence. Effective: Summer 2005

J ST 137 (GH;US;IL) (RL ST 137, WMNST 137) Women and Religion (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

Prerequisite:
J ST 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

J ST 197H (CAMS 197H) Ruth and Ester: Power Women in the Bible? (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

J ST 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1998

J ST 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

J ST 205 (GH;US) (HIST 205) American Antisemitism (3) The Phenomenon of antisemitism in American history from Peter Stuyvesant to the present. Effective: Summer 2011

J ST 210 (GH;IL) (CAMS 210) Numismatics and the Historian (3) Numismatics--the scholarly study of coins and
medals--is a major tool in the study of Classical history and archaeology.
Effective: Summer 2012

J ST 220 (GH;IL) (HIST 220) **The Jewish and Other Diasporas** (3) Introduction to and survey of the Jewish and other Diasporas around the world.
Effective: Spring 2012

J ST 235 (US;IL) (HIST 235, RL ST 235) **The Church and the Jews** (3) Examination of the relationship between Western church and the Jews from the First Century to Enlightenment.
Effective: Spring 2006

J ST 280 (GH;IL) (WMNST 280, RL ST 280) **Women and Judaism** (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.
Effective: Fall 2006

J ST 294 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1998

J ST 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1998
Prerequisite:

J ST 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1994

J ST 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

J ST 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1998

J ST 299 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

J ST 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

J ST 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1998

J ST 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1998

J ST 399 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

J ST 401 (IL) (HIST 401) **Ancient Technologies and Socio-cultural History in the Ancient Levant** (3) Social and intellectual development in the Ancient Levant as they affected and were affected by technological development.
Effective: Spring 2006
Prerequisite:

J ST 405 (IL) (RL ST 405) **Ancient Jewish Traditions and Modern Food Movements** (3) Jewish laws, customs and attitudes with regard to food production, agricultural policy and eating from biblical to modern times.
Effective: Spring 2012

J ST 409Y (IL) (HIST 409Y, RL ST 407Y) **European Anti-Semitism from Antiquity to the Present** (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present.
Effective: Summer 2005

The Pennsylvania State University
J ST 410 (US;IL) (HIST 410, RL ST 410) **Jews in the Medieval World** (3) Trends in medieval Jewish society under Islam and Western Christendom. 
Effective: Spring 2006

J ST 411 (US;IL) (RL ST 411) **Jewish Studies** (3) Study of the life and thought of a particular period or movement in the history of Judaism. 
Effective: Spring 2006
Prerequisite:

J ST 412 (RL ST 412) **American Judaism** (3) The development of Jewish religion and culture in America from the colonial era to the present. 
Effective: Summer 1999
Prerequisite:

J ST 416 (HIST 416) **Zionist History 1890-1948** (3) History of Zionist thought and politics to the foundation of Israel 1948. 
Effective: Summer 1997

J ST 420 (ANTH 420) **Archaeology of the Near East** (3) Culture of the Near East and India from Paleolithic times through the Bronze Age. 
Effective: Spring 1999
Prerequisite:

J ST 424H (HIST 424H, PHIL 434H, RL ST 424H) **Monotheism and the Birth of the West** (3) The birth of monotheism and its relation to social organization, the idea of individuality, and science. 
Effective: Spring 2002 Ending: Summer 2012
Prerequisite:

J ST 424H (HIST 424H, RL ST 424H) **Monotheism and the Birth of the West** (3) The birth of monotheism and its relation to social organization, the idea of individuality, and science. 
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

J ST 426 (US) (ADM J 426, HIST 426) **Jewish/American Organized Crime in New York City** (3) History of Jewish/American organized crime in New York City from 1890 through the Great Depression. 
Effective: Spring 2006

J ST 427 (ENGL 427) **Topics in Jewish American Literature** (3) An in-depth examination of important themes, writers, and/or historical developments in Jewish Literature of the United States. 
Effective: Spring 2009
Prerequisite:

J ST 433 **Introduction to Jewish Music and Art** (3) Introduction to the study of Jewish music and art from antiquity to the present. 
Effective: Summer 2011
Prerequisite:

J ST 434 **Media and the American Jewish Experience** (3) Study of United States Jewish history through film and accompanying written text. 
Effective: Summer 2011
Prerequisite:

J ST 457 (US;IL) (ANTH 457, SOC 457) **Jewish Communities: Identity, Survival, and Transformation in Unexpected Places** (3) Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement. 
Effective: Summer 2006
Prerequisite:

J ST 468 **Modern Jewish Philosophy** (3) Explores the major figures in modern Jewish philosophy and their influences on contemporary philosophy. 
Effective: Summer 2012
Prerequisite:

J ST 478 (RL ST 478) **Ethics After the Holocaust** (3) Explores the philosophical effects of the Holocaust for thinking about the primary question: Is ethics possible? 
Effective: Summer 2012
Prerequisite:

J ST 480 (CAMS 480) **Greeks and Persians** (3) Development and achievements of the Achaemenid kingdom; relationships between Persians and Greeks. 
Effective: Spring 2001
Prerequisite:

J ST 494 **Research Projects** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Effective: Spring 1998

---

The Pennsylvania State University
J ST 494H Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

J ST 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1998

J ST 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1994

J ST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

J ST 497A Narratives of Conflict: Israel/Palestine on Screen, in Literature, and in the Visual Arts (3) The Israeli-Palestinian conflict as the site of clashing narratives concerning the nature of national identity and right to the land.

J ST 497B (HIST 497B) Holocaust: Its Origins and its Impact on the Jewish Diaspora (3) The history of the Holocaust, its impact on the Jewish Diaspora, and also Jewish responses to the Holocaust.

J ST 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1998

J ST 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Kinesiology (KINES)

PROFESSIONAL COURSES

The following courses are designed for the major in Kinesiology and related disciplines as designated in the various curricular programs. They are pedagogically oriented and do not fulfill the Health Sciences and Physical Education (GPE) component of General Education.

KINES 001 (GHA) Introduction to Outdoor Pursuits (1.5-3 per semester, maximum of 12) Introduction to selected outdoor pursuit activities, such as, but not limited to, rock climbing, cross country skiing, backpacking, hiking, orienteering.
Effective: Fall 2008

KINES 003 Drugs in Sports (1) Nature of drug use, misuse, and abuse in the athletic setting with implications for counseling and controls.
Effective: Spring 2005

KINES 004 (GHA) Principles of Fly Tying and Fly Fishing for Trout (1.5) A course designed to enhance student’s knowledge, skill, and performance in fly tying and the sport of fly fishing for trout.
Effective: Fall 2001

KINES 006 (GHA) Cycling (1.5) A course designed to give students an understanding of and the ability to establish an exercise program involving riding.
Effective: Summer 2003

KINES 008 (GHA) Competition Casting (1.5) A course designed to enhance student’s knowledge, skills, and performance in all forms of casting for sport fishing.
Effective: Fall 2001

KINES 010 (GHA) Indoor Rock Climbing (1.5) A course designed to provide students with the basic skills, safety, and knowledge of rock climbing.
Effective: Summer 2003

KINES 010A (GHA) Lead Rock Climbing (1.5) A course designed to provide students with skills, safety, and knowledge of lead rock climbing in a top rope environment.
Effective: Summer 2003
Prerequisite:

KINES 011 (GHA) Basic Downhill Skiing (1) Students will gain a comprehensive understanding and basic level of proficiency in Downhill Skiing.
Effective: Summer 2004

KINES 011A (GHA) Intermediate Downhill Skiing (1) Students will gain a comprehensive understanding and intermediate to advanced level of proficiency in Downhill Skiing.
Effective: Summer 2004

KINES 012 (GHA) Snowboarding (1) Students will gain a comprehensive understanding and basic level of proficiency in Snowboarding.
Effective: Summer 2004

KINES 013 (GHA) First Aid, Personal Safety, and CPR (1) A course designed to provide students with the opportunity for Red Cross certification in Community First Aid, Safety, and CPR.
Effective: Fall 2003

KINES 015 Lifestyles for Health (1) Concepts of health, life-style, and risk factors; development and implementation of personal action plans.
Effective: Spring 2005

KINES 017 (GHA) Ballroom Dance (1.5) A course designed to provide students with basic dance skills and an understanding and appreciation of ballroom dance.
Effective: Summer 2003

KINES 017S (GHA) Ballroom Dance (1.5) A course designed to provide students with basic dance skills and an understanding and appreciation of ballroom dance.
Effective: Fall 2007

The Pennsylvania State University
KINES 019 (GHA) **Jazz Dance** (1.5) A course designed to teach the basic skills of jazz dance and develop a further appreciation of jazz dance.
  Effective: Summer 2003

KINES 020 (GHA) **Modern Dance** (1.5) A course designed to teach the basic skills of modern dance and to develop a further appreciation of modern dance.
  Effective: Summer 2002

KINES 024 (GHA) **Introduction to Lifetime Sports** (1.5) Students participate in lifetime sports such as archery, bowling, golf, and at least one racquet and/or winter sport.
  Effective: Summer 2002

KINES 025 (GHA) **Introduction to Court Sports** (1.5) A course designed to introduce students to various court sports such as tennis, racquetball, handball, squash, and/or badminton.
  Effective: Summer 1999

KINES 026 (GHA) **Archery/Indoor & Outdoor** (1.5) Course designed to introduce students to Archery/Bowhunting.
  Effective: Summer 2003

KINES 027 (GHA) **Badminton 1** (1.5) The course promotes health, fitness, and enjoyment of the game of badminton.
  Effective: Summer 2002

KINES 028 (GHA) **Fencing I** (1.5) Kinesiology 028 is designed to give students knowledge of the rules, strategies and skills of the sport of Fencing.
  Effective: Summer 2004

KINES 029 (GHA) **Golf I** (1-1.5) A course designed to give students an understanding of and a proficiency in golf skills, rules, and etiquette.
  Effective: Summer 1999

KINES 029A (GHA) **Golf II** (1.5) A course designed to provide a further understanding of and a more advanced proficiency in golf skills, rules and etiquette.
  Effective: Summer 2004
  Prerequisite:

KINES 041 (GHA) **Handball** (1.5) A course designed to introduce students to a basic instructional course in the fundamentals of 4-wall handball.
  Effective: Spring 2001

KINES 042 (GHA) **Ice Skating--Beginning** (1.5) A course of instruction focused on the physical development and knowledge of basic ice skating skills.
  Effective: Summer 2002

KINES 042A (GHA) **Ice Skating--Advanced Beginning** (1.5) A course of instruction focused on the physical development and knowledge of basic ice skating skills.
  Effective: Summer 2002
  Prerequisite:

KINES 042B (GHA) **Ice Skating--Intermediate/Advanced** (1.5) A course of instruction in basic figure skating: field moves, freestyle, choreography, pairs skating, and ice dance.
  Effective: Summer 2002
  Prerequisite:

KINES 043 (GHA) **Power Skating** (1.5) A course of instruction in basic power skating specifically designed for ice hockey, applicable to other ice sports.
  Effective: Summer 2002
  Prerequisite:

KINES 044 (GHA) **Racquetball I** (1-1.5) The course promotes health, fitness, and enjoyment of the game of racquetball.
  Effective: Spring 2001

KINES 045 (GHA) **NAUI Basic Scuba** (1.5) A course to introduce students to the fundamentals of Scuba diving.
  Effective: Summer 2002
  Prerequisite:

KINES 046 (GHA) **Squash I** (1-1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of squash.
  Effective: Spring 2001
KINES 047 (GHA) **Beginning Swimming** (1.5) A course designed to give students skills and knowledge necessary to be safe in shallow and deep water.
Effective: Summer 2002

KINES 047A (GHA) **Advanced Beginner Swimming** (1.5) A course designed to give students skills and knowledge necessary to be safe in shallow and deep water.
Effective: Summer 2002
Prerequisite:

KINES 047B (GHA) **Intermediate Swimming** (1.5) A course designed to teach students a variety of swimming strokes and increase their knowledge of fitness using aquatic activities.
Effective: Summer 2002
Prerequisite:

KINES 048 (GHA) **Tennis I** (1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of tennis.
Effective: Spring 2001

KINES 048A (GHA) **Tennis II** (1.5) A course designed to give students an appreciation of and proficiency in the skills, rules, and regulations of tennis.
Effective: Summer 2004
Prerequisite:

KINES 054 (GHA) **Aikido** (1.5) Students will gain a comprehensive understanding and basic level of proficiency in the Japanese Traditional martial art of Aikido.
Effective: Summer 2003

KINES 055 **Dance Forms** (1.5) Basic skills and methods of teaching and assessing creative movement and folk, square, social, and modern dance.
Effective: Summer 1996

KINES 056 (GHA) **Introduction to Martial Arts** (1.5) A course designed to give students an introduction to martial arts, and the use of martial arts for lifelong fitness.
Effective: Summer 2002

KINES 057 (GHA) **Personal Defense** (1.5) A course designed to give students an understanding of and a proficiency in martial arts and self-defense.
Effective: Summer 2004

KINES 058 (GHA) **Judo I** (1.5) Kinesiology 058 will help students develop stamina, confidence and discipline, and promote general fitness through the introduction to basic Judo.
Effective: Summer 2003

KINES 059 (GHA) **Introduction to Karate** (1.5) A course designed to give students an understanding of and a proficiency in Karate.
Effective: Summer 2003

KINES 060 **Principles and Practices of Healthful Living** (3) Facts and principles as related and applied to the science of living serve as a basis for health instruction and student guidance.
Effective: Spring 2005

KINES 061 (GHA) **Fitness Theory and Practice** (3) Students will learn about the science of fitness/wellness; evaluate their present fitness levels and create a personal fitness plan.
Effective: Spring 2001

KINES 061S (GHA) **Fitness Theory and Practice** (3) Students will learn about the science of fitness/wellness; evaluate their present fitness levels and create a personal fitness plan.
Effective: Summer 2001

KINES 062 (GHA) **Introduction to Cardiovascular Activities** (1.5) A course designed to give students an introduction to various types of cardiovascular training.
Effective: Summer 2002

KINES 063 (GHA) **Aerobic Dance** (1.5) A course designed to involve students in daily aerobic activity while teaching the fundamentals of overall health and well-being.
Effective: Summer 2002
KINES 065 (GHA) Jogging (1.5) A course designed to give students an understanding of and the ability to establish an exercise program involving jogging.
Effective: Summer 2003

KINES 067 (GHA) Physical Conditioning (1.5) A course designed to give students an experience with an understanding of vigorous physical training.
Effective: Spring 2001

KINES 068 (GHA) Strength Training (1.5) Designed to improve students’ muscular strength/endurance, teaches students how to develop an effective personal strength/endurance training program for lifelong fitness.
Effective: Summer 2002

KINES 070 (GHA) Swim Conditioning (1.5) A course designed to provide students an understanding of and proficiency in swimming conditioning.
Effective: Summer 2002
Prerequisite:

KINES 072 (GHA) Fitness Walking (1-1.5) A course designed to give students an understanding of and a proficiency in fitness walking.
Effective: Spring 2001

KINES 076 (GHA) Introduction to Tai Chi Ch’uan (1.5) A course designed to introduce students to Tai Chi Ch’uan, a traditional Chinese system of personal cultivation and self-defense.
Effective: Summer 2004

KINES 077 (GHA) Yoga 1 (1.5) A course designed to give students an understanding of and proficiency in yoga.
Effective: Summer 2002

KINES 077A (GHA) Advanced Yoga (1.5) A course designed to expand on a student’s fundamental understanding of and proficiency in yoga.
Effective: Summer 2003
Prerequisite:

KINES 081 (GHA) Wellness Theory (3) Focused on preparing and engaging students in the attitudes and behaviors that enhance quality of life and maximize personal potential.
Effective: Summer 2002

KINES 082 (GHA) Action Methods for Stress Management (3) Achieving wellness by studying the effects of stressors on systems of the body and effectiveness of activity to relieve stress.
Effective: Summer 2002

KINES 083 (GHA) Exercise for Stress Management (1.5) A course designed to identify the factors that contribute to student stress and develop strategies that will manage these factors. Students who receive credit for KINES 083 will not receive credit for KINES 082.
Effective: Summer 2002

KINES 084 (GHA) Fitness for Life (1.5-2) A course designed to give students an understanding of the fundamental principles of physical fitness. Students who receive credit for KINES 084 shall not receive credit for either KINES 081 or 081.
Effective: Summer 1999

KINES 088 (GHA) Varsity Sport Experience (2) A course designed to promote an active and healthful lifestyle through participation in a varsity sport sanctioned by Penn State.
Effective: Summer 2004

KINES 089 (GHA) Student Wilderness Experience (3) Incoming student wilderness experience. Backpacking and one additional adventure: rock climbing, high ropes course/canoeing. One-day of community service.
Effective: Summer 2003

KINES 090 (GHA) Introduction to Team Sports/Indoor (1-1.5) A course designed to introduce students to indoor team sports.
Effective: Spring 2001

KINES 090A (GHA) Introduction to Team Sports/Indoor - Volleyball (1.5 per semester/maximum of 99) A course designed to introduce students to the team sport of volleyball.
Effective: Spring 2004
KINES 090B (GHA) Introduction to Team Sports/Indoor - Basketball (1.5 per semester/maximum of 99) A course designed to introduce students to the team sport of basketball. Effective: Spring 2004

KINES 090C (GHA) Introduction to Team Sports/Indoor - Team Handball (1.5 per semester/maximum of 99) A course designed to introduce students to the sport of team handball. Effective: Spring 2004

KINES 091A (GHA) Introduction to Team Sports/Outdoor - Soccer (1.5 per semester) A course designed to introduce students to the outdoor team sport of Soccer. Effective: Summer 2004

KINES 091C (GHA) Introduction to Team Sports/Outdoor - Rugby (1.5 per semester) A course designed to introduce students to the outdoor team sport of Rugby. Effective: Summer 2004

KINES 091D (GHA) Introduction to Team Sports/Outdoor-Ultimate Frisbee (1.5 per semester) A course designed to introduce students to the outdoor team sport of Ultimate Frisbee. Effective: Summer 2004

KINES 093 (GHA) Masters Activity (Sport) (1.5 per semester/maximum of 12) A course that introduces students to movement subcultures by providing the knowledge, habits, and skills for activity across the lifespan. Effective: Spring 2003

Prerequisite:
KINES 096 (GHA) Independent Study in Physical Activity (.5-3 per semester) This course is designed to meet the needs of students to expand Kinesiology experiences beyond the designed course curriculum. Effective: Spring 2006

KINES 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1997

KINES 097A Practical Study of Traditional Aikido in Japan (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

KINES 097B Certified Lifeguarding (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 126 The Health Program for the Elementary School Child (1.5) Introduction to the Coordinated School Health Program. Overview of contemporary school-based health education theory, content, methods, and practice. Effective: Fall 2006

Prerequisite:
KINES 127 The Physical Education Program for the Elementary School Child (1.5) Theoretical and practical overview of developmentally appropriate physical education for children. Effective: Fall 2006

KINES 135 Introduction to Athletic Training (3) Foundation of injury recognition and prevention; ethical, legal, and professional issues for the athletic trainer. A laboratory based course. Effective: Fall 2006

KINES 141 (US;IL) Physical Activity: Historical and Cultural (3) Evolution of cultural values in physical activity from antiquity to the present. Effective: Spring 2006

KINES 165 Health Education Concepts (3) Principles of healthy living which are the basis for health instruction in schools and health care settings. Effective: Summer 1999

KINES 180 Introduction to Kinesiology (3) The foundation course of the Kinesiology degree, providing an interdisciplinary approach to the study of movement through problem based learning. Effective: Summer 2003
KINES 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

KINES 197A Biophysical Basis of Kinesiology (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

KINES 197A Biophysical Basis of Kinesiology (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 197D ROTC Lab (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

KINES 200 Muscle Training: Physiology, Programs, Techniques (3) Physiological basis of strength training emphasizing mechanisms of muscle contraction and growth, program and facility design, and individual exercise technique.
Effective: Spring 2000
Prerequisite:

KINES 201 Cardiorespiratory Training for Health and Performance (3) Exploration of the principles and practical applications of cardiorespiratory training for health and performance enhancement.
Effective: Spring 2006

KINES 202 Functional Human Anatomy (4) In-depth examination of the, musculoskeletal, nervous, cardiovascular, and respiratory systems, and their relationship to human movement.
Effective: Spring 2004

KINES 203 Medical Terminology for Allied Health Professionals (3) Comprehensive review of terms related to functions, disorders, diagnosis, and treatment of body systems related to physical activity and movement.
Effective: Summer 2010

Effective: Summer 1996
Prerequisite:

KINES 231 Athletic Training Clinical Practice I (3) Preparation in basic psychomotor skills required in the clinical practice of athletic training. This is a laboratory fee based course.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 135 KINES 202 KINES 233

KINES 232 Athletic Training Clinical Practice II (3) Preparation in advanced psychomotor skills required in the clinical practice of athletic training. This is a laboratory fee based course.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 334

KINES 233 Emergency Care in Athletic Training (3) Introduction into emergency medical care with emphasis on management of common emergency situations occurring during athletic participation. This is a laboratory fee based course.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 231 KINES 202 KINES 135

KINES 260 Research Skills in Kinesiology (3) Development of research skills employed in kinesiology, including experimental design, statistical testing and information technology, through experiential learning.
Effective: Spring 2006
Prerequisite:

KINES 261 Educational Gymnastics (1) This course provides an introduction to developmentally appropriate gymnastics for K-12 students.
Effective: Spring 2010
Prerequisite:

KINES 262 Educational Dance (1) This course provides an introduction to a variety of dance forms typically taught as part of K-12 physical education curricula.
Effective: Spring 2010
Prerequisite:

KINES 264 Health-Related Physical Fitness (1) Basic skills and methods of teaching, assessing, and prescribing health-
related fitness and strength training activities.

Effective: Spring 2010

Prerequisite:

KINES 266 Adventure/Outdoor Recreational Activities (1) Introduction to adventure/outdoor recreational activities teaching and assessment strategies for K-12 and community groups.

Effective: Spring 2010

Prerequisite:

KINES 268 Technology Applications in Health and Physical Education (1) Integration of technology into health and physical education curriculum.

Effective: Spring 2010

Prerequisite:

KINES 295A Observation of Health and Physical Education in the Public Schools (1) Introduction to the career of teaching including guided observation of HPE in K-12 public schools.

Effective: Fall 2006

KINES 295B Careers/Observations in Kinesiology (1) Introduction to career information and observational experiences in the Kinesiology field.

Effective: Spring 2000

Prerequisite:

KINES 295C Professional Development - Field Experience (1-2 per semester/maximum of 8) Develops the necessary professional skills needed to maximize the benefits obtained from a professional conference.

Effective: Summer 2010

Prerequisite:

KINES 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 1996

KINES 296A Independent Study Athletic Training (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

KINES 296A Independent Study Athletic Training (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296B Independent Study Biomechanics (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

KINES 296B Independent Study Biomechanics (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296C Independent Study Exercise Physiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

KINES 296C Independent Study Exercise Physiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296D Independent Study History and Philosophy of Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

KINES 296D Independent Study History and Philosophy of Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296E Independent Study Motor Control (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

KINES 296E Independent Study Motor Control (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
KINES 296F Independent Study Psychology of Movement and Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 296F Independent Study Psychology of Movement and Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296G Independent Study Teaching and Coaching (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 296G Independent Study Teaching and Coaching (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 296K Independent Study Applied Kinesiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 296K Independent Study Applied Kinesiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

KINES 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

KINES 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

KINES 303 (GHA) Emergency Care - First Aid/Safety/AED (3) Develop skills for First Responder Certification in CPR/AED, First Aid and Safety by American Red Cross or National Safety Council.
Effective: Fall 2003

KINES 304 First Aid: Instructors (1) Competencies leading to certification for teaching American Red Cross Advanced First Aid and Emergency Care and American Heart Association Cardiopulmonary Resuscitation. Laboratory.
Effective: Spring 1998
Prerequisite:

KINES 310 Physical Growth and Motor Development (3) Study of biologically programmed growth processes and environmental influences leading to attained adult form and biomechanical function.
Effective: Spring 2004
Prerequisite:

KINES 321 Psychology of Movement Behavior (3) Basic concepts and application of psychological knowledge for organized sport, physical activity, and athletic training.
Effective: Spring 2004
Prerequisite:

KINES 334 Mechanisms and Evaluation of Lower Body Athletic Injuries (3) Etiology of athletic injuries with scientific and practical rationales for evaluation of injuries to the lower extremity and lumbosacral spine.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 232

KINES 335 Mechanisms and Evaluation of Upper Body Athletic Injuries (3) Etiology of athletic injuries with scientific and practical rationales for evaluation of injuries to upper extremity, neck, head, and trunk.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 395F KINES 434

KINES 336 Medical Aspects of Athletic Training (3) Pathology, assessment, and treatment (including pharmacology) of general medical conditions commonly seen in physically active populations.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 395G KINES 435 KINES 436
KINES 345 Meaning, Ethics, and Movement (3) Development of philosophic reasoning skills to better understand the values of physical activity and ethics in a variety of performance settings.
Effective: Summer 1996
Prerequisite:

KINES 350 Exercise Physiology (3) Structure and function of the human body as applied to health, wellness, exercise, and sports.
Effective: Spring 2012
Prerequisite:

KINES 356 Activity and Disease (3) Examination of hypokinetic disease on human wellness involving identification, assessment, research, and exercise design of human activity for disease prevention.
Effective: Spring 2000
Prerequisite:

KINES 358 Ergogenic Aids (1) Skills development including research identification and evaluation of work-enhancing methods and devices as related to human performance and wellness.
Effective: Spring 2000
Prerequisite:

KINES 360 The Neurobiology of Motor Control and Development (3) The neurobiological foundations of human movement, with an emphasis on applications in rehabilitation and athletics.
Effective: Fall 2006
Prerequisite:

KINES 362 Teaching Individual Activities (1.5) This course introduces teacher candidates to the spectrum of individual activities being taught in the K-12 school setting.
Effective: Spring 2010
Prerequisite:

KINES 364 Teaching Group Activities (1.5) This course introduces teacher candidates to the spectrum of group activities being taught in the K-12 school setting.
Effective: Spring 2010
Prerequisite:

KINES 366 The Process of Teaching Physical Education (3) Analysis of pedagogical skills and methods applied to K-12 physical education.
Effective: Spring 2010
Prerequisite:

KINES 384 Biomechanics (3) Basic mechanical knowledge required to understand human movement.
Effective: Fall 2006
Prerequisite:

KINES 395A Leadership Practicum for Teachers (1) Supervised experiences in guiding individuals and in leading groups in the motor skill learning process.
Effective: Fall 2006
Prerequisite:

KINES 395B Leadership Practicum: KINES (1) Supervised experience in leading/assisting in tasks associated with fitness testing/prescription in a variety of settings.
Effective: Summer 1996
Prerequisite:

KINES 395F Practicum in Athletic Training (3) Practical experience in the athletic training room and with selected sports activities under direct supervision of the medical staff.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 434 KINES 335

KINES 395G Practicum in Athletic Training (3) Practical experience in the athletic training room and with selected sports activities under direct supervision of the medical staff.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 336 KINES 435 KINES 436

KINES 395I Practicum in Athletic Training (3) Practical experience in the athletic training room and with selected sports activities under direct supervision of the medical staff.
Effective: Fall 2006
Prerequisite: Concurrent: KINES 436W

KINES 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1997

KINES 398 Special Topics Course (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

KINES 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
KINES 400 **Adapted Physical Education** (3) Basic concepts of planning and conducting physical education programs for children with physical, sensory, and/or intellectual impairments. Effective: Fall 2001
Prerequisite:

KINES 403 **Emergency Medical Technology** (4) Theoretical and practical aspects of emergency medical techniques as applied in the pre-hospital environment. Effective: Spring 1998
Prerequisite:

KINES 404 **Emergency Medical Technology Instructor** (2) Educational concepts and skills necessary to present instruction in emergency care; lesson planning, methods of instruction, and evaluation techniques. Effective: Summer 1997
Prerequisite:

KINES 411 **Introduction to Musculoskeletal Injury and Rehabilitation** (3) This course is designed to provide an overview of common musculoskeletal injuries and rehabilitation for pre-allied health and fitness professionals. Effective: Summer 2011
Prerequisite:

KINES 420 **Psychosocial Dimensions of Physical Activity** (3) Discussion of theoretical and empirical findings, structuring a frame of reference for exploring man's involvement in physical activity. Effective: Spring 2001
Prerequisite:

KINES 421 **Exercise Psychology** (3) Psychological antecedents and consequences of physical activity behaviors. Effective: Spring 2008
Prerequisite:

KINES 422 **Physical Activity Interventions** (3) Principles of designing, planning, and implementing theory- and evidence-based physical activity interventions. Effective: Spring 2008
Prerequisite:

KINES 423 **Psychology of Sports Injuries** (3) Psychological causes and consequences of sports related injuries in athletes. Effective: Spring 2008
Prerequisite:

KINES 424 (US) (WMNST 424) **Women and Sport** (3) An interdisciplinary approach to contemporary issues related to women and sport from historical, physiological, psychological, and sociological perspectives. Effective: Spring 2007
Prerequisite:

KINES 427 (HD FS 427) **Developmental Sport & Exercise Psychology** (3) Developmental changes in the antecedents and consequences of physical activity across the lifespan. Effective: Spring 2008
Prerequisite:

KINES 428 **Motivation and Emotion in Movement** (3) Theories of motivational and emotional processes and their applications in movement settings. Effective: Spring 2008
Prerequisite:

Prerequisite:

KINES 434 **Rehabilitation of Injuries to the Lower Extremities** (3) Theoretical foundation and laboratory experience in manual therapy techniques and therapeutic exercises for the lower extremities. Effective: Fall 2006
Prerequisite: Concurrent: KINES 335 KINES 395F

KINES 435 **Rehabilitation of Injuries to the Trunk and Upper Extremities** (3) Theoretical foundation and laboratory experience in manual therapy techniques and therapeutic exercises for the trunk and upper extremities. Effective: Fall 2006
Prerequisite: Concurrent: KINES 395G KINES 336 KINES 435

KINES 436 **Therapeutic Modalities in Athletic Training** (4) Lecture and laboratory course exploring physiological principles and clinical evidence to the use of therapeutic modalities in athletic training. Effective: Fall 2006
Prerequisite: Concurrent: KINES 435 ; KINES 395G KINES 336

KINES 438W **Administration and Issues in Athletic Training** (3) Theoretical and practical aspects for management of an Athletic Training professional practice and identifying contemporary issues related to the profession. Effective: Fall 2006
Prerequisite: Concurrent: KINES 395I
KINES 439W Ethics in Sport and Sport Management (3) Analysis of moral dilemmas in sport and sport management utilizing the tools of ethics.
Effective: Spring 2001
Prerequisite:

KINES 440 Philosophy and Sport (3) An examination of human nature from the perspective of our participation in sport.
Effective: Spring 2001
Prerequisite:

KINES 441 (US) (AM ST 441) History of Sport in American Society (3) Background, establishment, and growth of sport in America from colonial times to the present.
Effective: Fall 2007
Prerequisite:

KINES 442 (IL) (CAMS 442) Sport in Ancient Greece and Rome (3) An examination of the continuity of sport in ancient Greek and Roman societies.
Effective: Spring 2008
Prerequisite:

KINES 443 (IL) The Modern Olympic Games (3) An analysis of the modern Olympic Games from their inception through the current festival.
Effective: Spring 2006
Prerequisite:

KINES 444 (US) History of Athletics in Higher Education (3) Origin and development of athletics in American higher education from colonial times to the present.
Effective: Spring 2006
Prerequisite:

KINES 445 Alcohol and Drug Education (3) Principles of integration and coordination of alcohol and drug education programs for health education and other health related professions.
Effective: Spring 1998
Prerequisite:

KINES 446 (IL) History of Sport in the Modern World (3) History of sport in modern world, ca. A.D. 1500 to present; concentrates on role of sport in societies outside United States.
Effective: Summer 2005
Prerequisite:

KINES 448 Coping with Life After Sport (1) Psychosocial concerns affecting student-athletes as they enter the transition period following sport disengagement, focusing on coping interventions.
Effective: Summer 2002
Prerequisite:

KINES 452 Applied Cardiovascular Physiology (3) In-depth study of cardiovascular regulation during postural, environmental, and exercise stress.
Effective: Spring 2010
Prerequisite:

KINES 454 Women’s Health and Exercise Across the Lifespan (3) In-depth study of the physiological role of exercise in modulating the health of girls and women during different phases of the lifespan.
Effective: Summer 2010
Prerequisite:

KINES 456 Physical Fitness Appraisal (4) The basic components of physical fitness, how it can be measured, and how it can be developed.
Effective: Summer 1996
Prerequisite:

KINES 457 Exercise Prescription and Case Studies (3) Principles of exercise prescription; application of fitness appraisal based on current practices using evaluation and discussion of case studies.
Effective: Spring 2002
Prerequisite:

KINES 460 Movement Disorders (3) Major peripheral and central movement disorders and methods of their treatment.
Effective: Summer 1999
Prerequisite:

KINES 461W Preparation for Research Project (2) Planning and preparation for research project.
Effective: Fall 2006
Prerequisite:

KINES 462W Research Project (2) Completion of research topic.
Effective: Fall 2006
Prerequisite:

KINES 463 Acquisition of Motor Skills (3) Examination of principles of motor learning; the application of strategic factors such as: practice types, schedules, augmented information, and motivation.
Effective: Summer 2000
Prerequisite:
KINES 464 Children's Physical Education Curriculum and Practicum (3) Curriculum for elementary school physical education emphasizing the skill theme approach. Effective: Fall 2006
Prerequisite:

KINES 465 Neurobiology of Sensorimotor Stroke Rehabilitation (3) This course is designed to expose students to the recent topics in motor stroke rehabilitation research through literature. Effective: Spring 2011
Prerequisite:

KINES 466 Assessment and Evaluation in Physical Education and Health Education (2) Explores measurement as an important and distinct component in a variety of physical education and health education contexts. Effective: Spring 2006
Prerequisite:

KINES 468 Health Instruction in the School--Content and Method (3) Methods, materials, and units of instruction. Effective: Fall 2006
Prerequisite:

KINES 469W Curriculum Development in Health and Physical Education (3) The content and process of K-12 school health and physical education curriculum development for public school students. Effective: Fall 2006
Prerequisite:

KINES 481W Scientific Basis of Exercise for Older Adults (3) Study of age-associated physical changes and the effects of exercise on the aging process. Effective: Spring 2001
Prerequisite:

KINES 483 Motor Patterns of Children (3) Development of motor patterns. Fundamentals of movement, basic motor skills, and adaptation of the body to external forces. Effective: Summer 1996
Prerequisite:

KINES 484 Advanced Biomechanics (3) The use of advanced biomechanics to provide an in-depth understanding of the principles which underpin human movement. Effective: Spring 1999
Prerequisite:

KINES 485 Science of Training Athletes (3) Application of scientific data knowledge to analyze sport training. Effective: Fall 1996
Prerequisite:

Prerequisite:

KINES 488 Mechanics of Locomotion (3) This course examines the forces and motions characteristic of locomotion, with emphasis on walking, the most common human activity. Effective: Summer 2002
Prerequisite:

KINES 492W Programming for Business and Agencies (3) Fundamentals of program development applied to corporate and private physical fitness businesses. Effective: Fall 2006
Prerequisite:

KINES 493 Principles and Ethics of Coaching (3) Integration of the practical and theoretical knowledge necessary for effective coaching through classroom and field experiences. Effective: Fall 2006
Prerequisite:

KINES 494H Senior Honors Thesis (1-6) Independent study directed by a faculty supervisor that culminates in the production of a thesis. Effective: Summer 2008
Prerequisite:

KINES 495A Practicum in Student Teaching (12) Supervised teaching of health and physical education in K-12 public schools with seminars focused on transition from student to professional. Effective: Fall 2006
Prerequisite:

KINES 495B Field and/or Research Practicum in Kinesiology (6) Participation under supervision in a field or research practicum. Effective: Fall 2006
Prerequisite:

KINES 495C Exercise Science Practicum (3 per semester/maximum of 6) Participation under supervision in a health and fitness setting. Effective: Fall 2006
Prerequisite:
KINES 495D Expanded Field and/or Research Practicum in Kinesiology (1-6) Additional participation under supervision in a field or research practicum.
Effective: Spring 2006
Concurrent: KINES 495B

KINES 495F Field Practicum in Athletic Training (3) Participation under supervision in a field practicum.
Effective: Summer 1996
Prerequisite:

KINES 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 1996

KINES 496A Independent Study Athletic Training (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496A Independent Study Athletic Training (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496B Independent Study Biomechanics (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496B Independent Study Biomechanics (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496C Independent Study Exercise Physiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496C Independent Study Exercise Physiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496D Independent Study History and Philosophy of Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496D Independent Study History and Philosophy of Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496E Independent Study Motor Control (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496E Independent Study Motor Control (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496F Independent Study Psychology of Movement and Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496F Independent Study Psychology of Movement and Sport (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 496G Independent Study Teaching and Coaching (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496G Independent Study Teaching and Coaching (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012
supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012

KINES 496K Independent Study Applied Kinesiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

KINES 496K Independent Study Applied Kinesiology (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

KINES 497A Genetics and Human Performance (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 497B Exercise as Medicine (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

KINES 497C Physical Activity in Diverse Populations (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 497D Representing Sport in Popular Film (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

KINES 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

KINES 498A EMS Assistant Instructor (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 498B EMS Teaching Practicum (1-2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 498C Introduction to Ambulance Operations (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 498D Emergency Vehicle Operators Course (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 498E EMS Field Practicum (1-2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 498F ALS Assistant Tech (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

KINES 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011
Korean (KOR)

KOR 001 Level One Korean A (4) Listening, speaking, reading, writing Korean: an introduction for beginners; basic structures and vocabulary; cultural elements.
Effective: Spring 2011

KOR 002 Level One Korean B (4) Listening, speaking, reading, writing Korean: structures and vocabulary; cultural elements.
Effective: Spring 2011
Prerequisite:

KOR 003 Level Two Korean A (4) Further development of listening, speaking, reading, writing skills in Korean; cultural elements.
Effective: Spring 2011
Prerequisite:

KOR 051 Elementary Intensive Korean for Graduate Students I (3) Intensive introduction to Korean: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Spring 2010
Prerequisite:

KOR 052 Elementary Intensive Korean for Graduate Students II (3) Intensive introduction to Korean: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Spring 2010
Prerequisite:

KOR 053 Intermediate Intensive Korean for Graduate Students (3) Continued intensive study of Korean at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Spring 2010
Prerequisite:

KOR 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

KOR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

KOR 110 Level Two Korean B (3) This is the fourth semester course of sequenced Korean study at Penn State. It is the Advanced-Intermediate course.
Effective: Summer 2012
Prerequisite:

KOR 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

KOR 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010

KOR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2010

KOR 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2010
Prerequisite:

KOR 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2010

KOR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2010

KOR 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2010
KOR 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2010
Prerequisite:

KOR 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2010

KOR 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

KOR 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2010

KOR 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2010

KOR 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2010

KOR 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2010

KOR 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Spring 2010

Last Import from UCM: June 2, 2012 12:27 PM
Labor Studies and Employment Relations (LER)

LER 083S (GS) First-Year Seminar in Labor Studies and Employment Relations (3) Critical approaches to the dimensions and direction in Labor and Employment Relations.
Effective: Spring 2008

LER 100 (GS) Employment Relations (3) Introductory analysis of the employment relationship and of the interrelated interests of managements, workers, unions, and the public.
Effective: Spring 2008

LER 136 (US) (WMNST 136) Race, Gender, and Employment (3) Employment relations and legislative and policy responses to labor force issues of racial and gender inequality.
Effective: Spring 2008

LER 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

LER 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

LER 201 (GS) Employment Relationship: Law and Policy (3) An examination of basic legal principles underlying the employment relationship and their social, political, and economic bases.
Effective: Spring 2008

LER 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

LER 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2008

LER 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

LER 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

LER 312 Research Methods in Labor Studies and Employment Relations (4) Provides an understanding of social science research as employed in the field of Human Resources and Employment Relations.
Effective: Spring 2008

LER 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:
LER 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

LER 400 (IL) Comparative Employment Relations Systems (3) Analysis of structure and elements of employment relations systems in developed and developing areas.
Effective: Spring 2008
Prerequisite:
LER 401 The Law of Labor-Management Relations (3) Development of Anglo-American law regulating collective bargaining, with emphasis on American labor-management relations under Wagner, Taft-Hartley, and other acts.
Effective: Spring 2008
Prerequisite:
LER 414W Labor and Employment Relations Theory (3) Content and implications of major and minor theories of Labor and Employment Relations.
Effective: Spring 2008
LER 424 Employment Compensation (3) Development and management of employee compensation systems.
Effective: Spring 2008
Prerequisite:

LER 425 Employee Benefits (3) The examination of employee benefits programs used by employers to meet the welfare needs of employees and their families.
Effective: Spring 2008
Prerequisite:

LER 426 Staffing and Training Strategies in Organizations (3) This course focuses on the theory and practice of human resource staffing and training in organizations.
Effective: Spring 2011
Prerequisite:

LER 434 Collective Bargaining and Contract Administration (3) Theory, practice, and economic impact of collective bargaining, including administration of the collective bargaining agreement.
Effective: Spring 2008
Prerequisite:

LER 435 Labor Relations in the Public Sector (3) Analysis of labor relations problems within different areas of public employment.
Effective: Spring 2008
Prerequisite:

LER 437 Workplace Dispute Resolution (3) Dispute resolution practices and procedures used in the workplace and employment law settings.
Effective: Spring 2008
Prerequisite:

LER 437W Work Dispute Resolution (3) Dispute resolution practices and procedures used in the workplace and employment law settings.
Effective: Spring 2008
Prerequisite:

LER 444 Occupational Health: Policy and Practice (3) The role of employees, unions, employers, and government in dealing with work-related health issues.
Effective: Spring 2008
Prerequisite:

LER 445Y (US) (AAA S 445Y, PL SC 445Y) Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

LER 445Y (US) (AF AM 445Y, PL SC 445Y) Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

LER 458Y (US) (HIST 458Y) History of Work in America (3) A study of selected problems in the history of work in the United States, especially since 1877.
Effective: Spring 2008
Prerequisite:

LER 460 Human Resources Ethics (3) Ethics of human resources management.
Effective: Spring 2011
Prerequisite:

LER 464 Communication Skills for Leaders in Groups and Organizations (3) Theory-and research-based communication skills for leaders dealing with work-related problems in contemporary groups and organizations.
Effective: Spring 2008 Ending: Fall 2012

LER 464 (OLEAD 464) Communication Skills for Leaders in Groups and Organizations (3) Theory-and research-based communication skills for leaders dealing with work-related problems in contemporary groups and organizations.
Effective: Spring 2013 Future: Spring 2013

LER 465 Collective Decision Making (3) Application of theories of decision making to work-related issues in groups and organizations requiring collective resolution and action.
Effective: Spring 2008 Ending: Fall 2012

LER 465 (OLEAD 465) Collective Decision Making (3) Application of theories of decision making to work-related issues in groups and organizations requiring collective resolution and action.
Effective: Spring 2013 Future: Spring 2013

LER 470 Employee Involvement (3) Historical, theoretical, legal, and industrial relations aspects of employee involvement
in the United States and other countries.
Effective: Spring 2008
Prerequisite:

LER 472 (WMNST 472) **Work-Life Practices and Policies** (3) Explore the causes and consequences of conflicts between work, family, and other life commitments, and how these may be resolved.
Effective: Spring 2008
Prerequisite:

LER 475H (GEOG 475H) **Labor in the Global Economy: U.S. and South African Perspectives** (3) This course focuses on how the nature of work is changing in the global economy, and the implications for economic opportunity and inequality in both.
Effective: Spring 2008
Prerequisite:

LER 480 **Current Issues in Human Resources** (3) Examines current issues in the field of human resource management, including innovative work schedules, telecommuting, non-traditional office environments, etc.
Effective: Spring 2008
Prerequisite:

LER 485 **The Business Side of Human Resources** (3) Students will examine the interface between HR, the business model, and other aspects of the business organization.
Effective: Spring 2012
Prerequisite:

LER 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

LER 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

LER 495 **Labor Studies Internship** (1-12) Supervised practicum in labor relations setting with union, management, or government agency.
Effective: Spring 2008
Prerequisite:

LER 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2008

LER 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

LER 497A **Collective Bargaining in Pro Sports** (3) Collective bargaining in professional sports is a high profile issue in a society where pro sports is one of the most popular forms of entertainment. This course will examine the role that collective bargaining plays in the four major pro sports in North America--NFL football, NBA basketball, MLB--baseball, and NHL hockey. The structure of bargaining in each sport will be examined as will the central issues subject to negotiations. The course will also examine, in some detail, the two major parties involved in this process: the unions representing the players in each sport and the leagues with which the unions bargain, as well as the owners who constitute the leagues.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

LER 497B **Career Development Seminar I** (1.5) This seminar will help to chart an overall career path as a professional in human resources, employment relations, or labor. This seminar includes an overview of useful career development resources and tools, development of a personal profile of career-related strengths and interests, exploration of career options, creation of an overall career development plan, and guidance for securing prospective internships and other relevant experiences.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

LER 499 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2008

Last Import from UCM: June 2, 2012 12:27 PM
Landscape Architecture (LARCH)

LARCH 060 (GA;US;IL) History of Design on the Land (3) A survey of the historical development of outdoor space in relationship to allied arts from early beginnings to this century. Students may take only one course for General Education credit from LARCH 003 GA or 060 GA. Effective: Fall 2010

LARCH 065 (GA;US;IL) Built Environment and Culture (3) Investigates the relationship between socio-cultural practices and the development and organization of contemporary built environments. Effective: Summer 2005

LARCH 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

LARCH 112 Introductory Design Studio (3) Provides students with an interdisciplinary introduction to studio work in landscape design. Effective: Fall 2011
Prerequisite:

LARCH 121S Landscape Architecture Orientation Seminar (1) Introductory seminar involving readings on significant issues in landscape architecture. LARCH majors only. Effective: Spring 2007

LARCH 151 Introduction to Design Visualization (3) Provides students with an introduction to visualization techniques for landscape architectural design and planning. Effective: Summer 2008
Prerequisite: Concurrent: LARCH 121S

LARCH 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2007

LARCH 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2006

LARCH 211 Design and Theory I: Introduction to Principles of Landscape Architectural Design (4) An introduction to design theories and principles of landscape architecture. LARCH majors only. Effective: Fall 2011
Prerequisite: Concurrent: LARCH 221

LARCH 212 Design and Theory II: Introduction to Issues of Place (4) Studio design addressing issues of nature and culture; application of theories, processes, and presentation methods learned in course and concurrent courses. LARCH majors only. Effective: Fall 2011
Prerequisite: Concurrent: LARCH 222

LARCH 221 Design Theory Seminar (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of LARCH 211. Effective: Fall 2011
Prerequisite: Concurrent: LARCH 221

LARCH 222 Design Theory Seminar (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of LARCH 212. Effective: Fall 2011
Prerequisite: Concurrent: LARCH 222

LARCH 231 Introduction to Design Implementation (3) Introduction of basic principles and tools supporting landform data, site systems, grading, visualization representation and site circulation. Effective: Spring 2009
Prerequisite:

LARCH 241 Ecological Principles for Landscape Design (3) The development of basic ecological knowledge that becomes the basis for sensitive ecological design. Effective: Fall 2010
Prerequisite:

LARCH 251 Design Visualization and Graphics I (3) Advanced visualization principles and techniques; computer-aided design, image processing, color theory and application; visual thinking and problem solving. For Landscape Architecture majors only. Effective: Fall 2008

The Pennsylvania State University
Prerequisite:

LARCH 272 **Landscape Architecture Field Trip** (1) A week-long class trip to visit recent projects, offices, and outstanding historical developments.
Effective: Spring 2007
Prerequisite:

LARCH 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

LARCH 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

LARCH 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

LARCH 311 **Design and Theory III: Regional Planning and Landscape Systems** (4) An introduction to site planning, management, and design.
Effective: Fall 2011
Prerequisite: Concurrent: LARCH 321

LARCH 312 **Design and Theory IV: Site and Community Design** (4) An introduction to master planning and community design. For landscape architecture majors only.
Effective: Fall 2011
Prerequisite: Concurrent: LARCH 322

LARCH 321 **Design Theory Seminar** (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of LARCH 311.
Effective: Spring 2007
Prerequisite: Concurrent: LARCH 311

LARCH 322 **Design Theory Seminar** (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of LARCH 312.
Effective: Spring 2007
Prerequisite: Concurrent: LARCH 312

LARCH 331 (IL) **Landscape Architectural Design Implementation I** (3) Introduction to landscape construction materials and their use in design; includes principles and techniques for detailed design of site elements. For Landscape Architecture majors only.
Effective: Spring 2012
Prerequisite:

LARCH 332 **Landscape Architectural Design Implementation II** (3) Introduces the principles and techniques of planting design, including instruction in proper construction documentation. For Landscape Architecture majors only.
Effective: Spring 2012
Prerequisite:

LARCH 341 **Plants, People and Place: Plants in Landscape Architectural Design** (3) The ecological, historic, and aesthetic values of native and ornamental herbaceous and woody plants and their use in landscape design.
Effective: Summer 2006
Prerequisite:

LARCH 361W **Historic Issues in Landscape Architecture** (3) A review of design history (precedent studies), an introduction to historic method, history as an informant to design, reading the historic landscape, and issues of preservation and restoration. Landscape Architecture majors only.
Effective: Spring 2012
Prerequisite:

LARCH 382 **Professional Practice** (3) An investigation of current professional and business practices in the field of landscape architecture. For Landscape Architecture majors only.
Effective: Spring 2007
Prerequisite:

LARCH 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

LARCH 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2006

LARCH 400 **Introduction to Design and Theory (IUG)** (5) Introductory landscape architectural design and applied theory for IUG students.
Effective: Summer 1998
Prerequisite: Concurrent: LARCH 400A
LARCH 400A Introduction to Design Theory Seminar (IUG) (1) Introductory landscape architectural design theory seminar for IUG students.
Effective: Spring 2001
Prerequisite: Concurrent: LARCH 400

LARCH 414 Design and Theory V: Advanced Landscape Architectural Design (5 per semester/maximum of 15) Review of landscape architectural theories and issues; supports development of comprehensive design study and/or independent honors (Thesis-Based) design projects. LARCH Majors only.
Effective: Spring 2007
Prerequisite:

LARCH 424 Design Theory Seminar (3 per semester/maximum of 9) Inquiry-based reading and discussion of design theory literature relevant to contemporary landscape architecture issues. Topics vary each semester.
Effective: Spring 2012
Prerequisite:

LARCH 431 Landscape Architectural Design Implementation III (3) Introduces the principles and techniques of stormwater management and drainage design, including instruction in proper construction documentation, calculations and estimations. For Landscape Architecture majors only.
Effective: Spring 2012
Prerequisite:

LARCH 450 Interactive Digital Design: Information Technology for Designers (3) A student centered paperless interactive digital design studio.
Effective: Spring 2007 Ending: Summer 2012

LARCH 450 Geodesign: Geospatial Technology for Design (3) Interactive geodesign and digital design studio.
Effective: Fall 2012 Future: Fall 2012

LARCH 494H Research Projects - Honors (1-12 per semester/maximum of 12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2012

LARCH 495 Internship (1-13) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required.
Effective: Fall 1981
Prerequisite:

LARCH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

LARCH 496H Independent Studies - Honors (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

LARCH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

LARCH 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LARCH 499A (IL) Design Theory Seminar (1) Inquiry-based reading and discussion of design theory literature relevant to the focus and content of the associated design studio course, LARCH 499B. LARCH majors only.
Effective: Spring 2007
Prerequisite: Concurrent: LARCH 499B LARCH 499C LARCH 499D

LARCH 499B (IL) Design and Theory VI: Contemporary/International Landscape Architectural Design Issues (5) Study of and design for sites, programs, and social groups associated with ongoing contemporary landscape architectural concerns. LARCH majors only.
Effective: Spring 2012
Prerequisite: Concurrent: LARCH 499A LARCH 499C LARCH 499D

LARCH 499D (IL) Contemporary/International Special Topics (3) Special topics related to, and study in conjunction with 499B. Landscape Architecture majors only.
Effective: Spring 2012
Prerequisite: Concurrent: LARCH 499B

LARCH 499E (IL) People and Protected Areas (3) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012 Ending: Summer 2012
LARCH 499F (IL) **Studio: Community Design in the Vivinity of Udzungwa Mountains National Park** (5) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012 Ending: Summer 2012

LARCH 499G (IL) **Colloquium: The Contribution of Service-Learning to Students and Community** (1) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Language and Literacy Education (LL ED)

LL ED 005 College Reading Improvement I (3) Improvement of basic reading skills: vocabulary development; literal and interpretive comprehension; application of these skills more efficiently into college work.
  Effective: Spring 1992
  Prerequisite:

LL ED 010 College Reading Improvement II (3) Development of higher level comprehension, vocabulary, and study skills incorporated into content area reading.
  Effective: Spring 1992
  Prerequisite:

LL ED 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
  Effective: Spring 1992

LL ED 296A Academic Writing (3) Students will hone their critical thinking, reading comprehension and academic writing skills through individualized sessions that center on subjects of the students' choosing.
  Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

LL ED 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
  Effective: Spring 1992

LL ED 297A Language and Composition (1) Develop proficiency in researching, writing, reading and rhetoric through the exploration of current issues and policies in the field of education.
  Effective: Summer 2012 Ending: Summer 2012

LL ED 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
  Effective: Fall 1992

LL ED 400 Teaching Reading in the Elementary School (3) Introduction to the reading program; acquaintance with materials and techniques; observations of reading instruction; correlation with human growth and development.
  Effective: Spring 2007
  Prerequisite: Concurrent: LL ED 402 for EK ED majors LL ED 401

LL ED 401 Teaching Language arts in Elementary School (3) Principles, problems, materials, and techniques involved in teaching speaking, listening, writing, and reading in the elementary school.
  Effective: Spring 2007
  Prerequisite: Concurrent: LL ED 402 for EK ED majors LL ED 400

LL ED 402 Teaching Children's Literature (3) Survey of children's literature with an emphasis on the importance of literature in the development of the elementary school curriculum.
  Effective: Spring 2007
  Prerequisite: Concurrent: LL ED 401 for EK ED majors. LL ED 400

LL ED 411 Teaching Language Arts in Secondary Schools I (3) Exploration of language, literacy, and culture and development of curricular designs for teaching language arts in secondary schools.
  Effective: Spring 1994
  Prerequisite: Concurrent: LL ED 420

LL ED 412W Teaching Language Arts in Secondary Schools II (3) Exploration of language, literacy, and culture and development of curricular designs for teaching language arts in secondary schools.
  Effective: Summer 2010
  Prerequisite: Concurrent: C I 412W

LL ED 420 Adolescent Literature and Literacy (3) Exploration of adolescent literacy and curricular designs for using the diversity of cultural voices in adolescent literature in secondary schools.
  Effective: Spring 1992
  Concurrent: LL ED 411

LL ED 445 Teaching English in Bilingual/Dialectal Education (3) Theories, techniques, materials for teaching English speaking, reading, and writing to bilingual and nonnative speakers in elementary and secondary schools.
  Effective: Summer 2011

LL ED 450 Content Area Reading (3) Study of reading skills and materials for specific content areas; diagnostic and instructional procedures for classroom teachers.
  Effective: Spring 2007
  Prerequisite:
LL ED 462 The Art of the Picturebook 3 An in-depth study of picturebooks as art objects providing aesthetic experiences and contributing to our aesthetic development in literacy education.
Effective: Summer 2009
Prerequisite:

LL ED 465 Fantasy Literature for Children (3) A study of fantasy literature for children looking at a variety of fantasy stories and examining them from different perspectives.
Effective: Summer 2010
Prerequisite:

LL ED 480 Media Literacy in the Classroom (3) Exploration of media languages and literacy in classrooms, learning in an electronic age; issues, ideas, and teaching strategies.
Effective: Spring 2005
Concurrent: LL ED 411 LL ED 420

LL ED 495 School Practicum in Reading (1-18) Supervised practicum providing field experiences at any grade level, with opportunities to assume various teaching roles.
Effective: Spring 1992
Prerequisite:

LL ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1992

LL ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1992

LL ED 497A Elementary Education Literacy Block (15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

LL ED 497A Elementary Education Literacy Block (15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

LL ED 497B CEaed PK-4 Literacy Block (15) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

LL ED 497B 4-8 Education Literacy Block (9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

LL ED 497B CEaed 4-8 Literacy Block (9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

LL ED 497C Picture Story Book in Classroom (3) Emphasizes theories & practices of sharing picturebook with children. Discuss understandings of roles illustrations play and how these may enable us to construct meanings from our encounters with texts.
Effective: Summer 2012 Ending: Summer 2012

LL ED 497D Digital Tools for Literacy Learning (3) Utilization of digital tools for Mac and PC to support the construction of literacy skills and practices in school classrooms.
Effective: Summer 2012 Ending: Summer 2012

LL ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

LL ED 498A AP English Literature (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

LL ED 498B AP Spanish Language (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

The Pennsylvania State University
LL ED 498C **AP Spanish Literature** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Languages (LANG)

LANG 051 Elementary Intensive Less Commonly Taught Language for Graduate Students I (3) Intensive introduction to a less commonly taught language: first half of elementary sequence in reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

LANG 052 Elementary Intensive Less Commonly Taught Language for Graduate Students II (3) Intensive introduction to a less commonly taught language: second half of elementary sequence in reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

LANG 053 Intermediate Intensive Less Commonly Taught Language for Graduate Students (3) Continued intensive study of a less commonly taught language at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

LANG 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2007

LANG 196A Elementary Intensive Turkish I (4) Intensive Introduction to Turkish: first half of elementary sequence in reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2012 Ending: Summer 2012

LANG 196B Elementary Intensive Turkish II (4) Intensive Introduction to Turkish: Second half of elementary sequence in reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2012 Ending: Summer 2012

LANG 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

LANG 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2007

LANG 296A Intermediate Intensive Turkish (4) Continued intensive study of Turkish at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2012 Ending: Summer 2012

LANG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

LANG 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

LANG 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2007

LANG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
that may be topical or of special interest.
Effective: Spring 2007

LANG 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

Last Import from UCM: June 2, 2012 12:27 PM
Latin (LATIN)
Knowledge of Greek or Latin not required. See also CLASSICS AND ANCIENT MEDITERRANEAN STUDIES and GREEK.

LATIN 001 Elementary Latin (4) Pronunciation; inflections; simple rules of syntax.
Effective: Winter 1978

LATIN 002 Elementary Latin (4) Advanced syntax and sentence structure.
Effective: Winter 1978
Prerequisite:

LATIN 003 Intermediate Latin (4) Selected readings from representative authors.
Effective: Winter 1978
Prerequisite:

LATIN 051 Elementary Intensive Latin for Graduate Students I (3) Intensive introduction to Latin: first half of graduate intensive sequence in elementary reading, writing, syntax, and cultural contexts.
Effective: Summer 2008
Prerequisite:

LATIN 052 Elementary Intensive Latin for Graduate Students II (3) Intensive introduction to Latin: second half of graduate intensive sequence in elementary reading, writing, syntax, and cultural contexts.
Effective: Summer 2008
Prerequisite:

LATIN 053 Intermediate Intensive Latin for Graduate Students (3) Continued intensive study of Latin at the intermediate level: reading, writing, syntax, and cultural contexts.
Effective: Summer 2008
Prerequisite:

LATIN 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LATIN 101 Introductory Latin (4) Introduction to Latin forms, syntax, and vocabulary.
Effective: Summer 2007

LATIN 102 Advanced Latin (4) Advanced study of Latin grammar, syntax, and vocabulary.
Effective: Summer 2007
Prerequisite:

LATIN 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

LATIN 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LATIN 203 Latin Reading and Composition (4) The course reviews Latin grammar, syntax, and vocabulary and introduces students to classical Latin poetry and prose.
Effective: Summer 2008
Prerequisite:

LATIN 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

LATIN 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2001

LATIN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1985

LATIN 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LATIN 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

The Pennsylvania State University
LATIN 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

LATIN 402 **Republican Literature** (3-12) Selected works by Plautus, Lucretius, Catullus, Cicero (content varies). Effective: Summer 1995

LATIN 403 **Augustan Age Literature** (3-12) Selected works by Virgil, Horace, Propertius, Tibullus, Ovid, Livy (content varies). Effective: Summer 1995

LATIN 404 **Silver Age Literature** (3-12) Selected works by Petronius, Seneca, Tacitus, Juvenal, Martial, Pliny the Younger (content varies). Effective: Summer 1995

LATIN 450W **History of Latin** (3) History of the Latin language and its speakers, from their origins to the 2nd century C.E. Effective: Summer 1994

LATIN 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

LATIN 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

LATIN 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

LATIN 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

LATIN 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005
Latin American Studies (LATAM)

LATAM 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Latina and Latino Studies (LTNST)

LTNST 100 (GH;US) **Introduction to Latina/s Studies** (3) This course provides an interdisciplinary introduction to the study of Latinas/os in the U.S.
Effective: Summer 2006

LTNST 127 (US) (HIST 127) **Introduction to U.S. Latina/o History** (3) This course introduces students to the history of U.S. Latina/os, including Puerto Ricans, Dominicans, Chicanos, Cubans, and Central Americans.
Effective: Spring 2008

LTNST 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

LTNST 226 (GH;US;IL) (ENGL 226) **Latina and Latino Border Theories** (3) English 226 will constitute a wide-ranging examination of contemporary texts (1960-present) central to the construction of contemporary Latino/a culture.
Effective: Spring 2007

LTNST 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2006

LTNST 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

LTNST 300 (US) (WMNST 300) **Latina Feminisms** (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States.
Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

LTNST 300 (US) (WMNST 300) **Latinas in the US: Gender Culture and Society** (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

LTNST 315 (GH;US) (SPAN 315) **Spanish and Spanish-speakers in the U.S.** (3) In this course, we investigate various aspects of the language(s) and language behaviors of U.S. Latinos.
Effective: Summer 2006

LTNST 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

LTNST 403 (US) (CMLIT 403) **Latina/o Literature and Culture** (3) Literary and other forms of cultural expression (film, music, art, and theater) are compared across different Latina/o communities.
Effective: Spring 2011
Prerequisite:

LTNST 426 (US) (ENGL 426) **Chicana and Chicano Cultural Production: Literature, Film, Music** (3) An in-depth study of Chicana/Chicano literature, film, and music from the inception of the Chicano Movement (1965-1975) to the present.
Effective: Spring 2007
Prerequisite:

LTNST 467 (US;IL) (HIST 467) **Latin America and the United States** (3) Historical development of policies of the United States with regard to Latin- American affairs from colonial times to the present.
Effective: Fall 2008

LTNST 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2006

LTNST 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2006
LTNST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

Liberal Arts (L A)

L A 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

L A 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

L A 101H (GWS) Honors Rhetoric and Civic Life (4) Within a liberal arts framework and with attention to public discourse--speaking, writing, online communication, and visual presentation--this course instructs students in the arts, practices, and principles of rhetoric.
Effective: Fall 2009

L A 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

L A 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

L A 199 (IL) Foreign Study--Liberal Arts (1-9) Study in selected foreign countries of the cultural, institutional, and/or social development of the host country.
Effective: Summer 2005

L A 200 Business and the Liberal Arts (1) Introduction to business careers and concepts for students enrolling in the Business and the Liberal Arts minor.
Effective: Summer 2007

L A 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis. (No course under L A 294/494 may be offered without approval of the associate dean of liberal arts. All courses must have a specific title and letter suffix.)
Effective: Spring 1994

L A 295 Undergraduate Field Experience or Practicum (1-18) Approved experience, related to student career objectives, in agencies external to the University.
Effective: Fall 1983

L A 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

L A 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

L A 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

L A 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

L A 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:
L A 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003
L A 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1994

L A 399 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

L A 401 **Professional Development for the Liberal Arts Student** (1) Provides Liberal Arts students with the techniques and information necessary to specify and implement postgraduation educational and career plans. Effective: Fall 1983

L A 494 **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. (No course under L A 294/494 may be offered without approval of the associate dean of liberal arts. All courses must have a specific title and letter suffix.) Effective: Spring 1994

L A 494H **Research Project Courses** (1-12) Supervised student activities on research projects identified on an individual or small-group basis. (No course under L A 294/494 may be offered without approval of the associate dean of liberal arts. All courses must have a specific title and letter suffix.) Effective: Fall 2007

L A 495 **Undergraduate Field Experience or Practicum** (1-12) Approved experience, related to student career objectives, in agencies external to University. Effective: Fall 1981

L A 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

L A 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

L A 497A **LAS Capstone** (3) Explores the four program themes - Ethics, Diversity, Global Perspectives, and Leadership - and culminates in a Capstone research paper or project. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

L A 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1994

L A 498H **Honors Leadership Mentor** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

L A 499 (IL) **Foreign Study--Liberal Arts** (1-9) Study in selected foreign countries of the cultural, institutional, and/or social development of the host country. Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Library Studies (L ST)

L ST 083 The Twenty-First Century Researcher (1) Students learn to use technology and Libraries resources to access and cite relevant information into academic research projects.
Effective: Fall 2009

L ST 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

L ST 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2001

L ST 100 Information Search Strategy (1) Concepts and methodology for determining informational needs and planning efficient strategies to locate information in a library.
Effective: Spring 1985
Prerequisite:

L ST 100H Information Search Strategy (1) Concepts and methodology for determining informational needs and planning efficient strategies to locate information in a library.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

L ST 110 Information Organization and Retrieval (3) Information structure and resource related to search and problem-solving procedures to identify, organize, and locate print and nonprint materials.
Effective: Fall 1983
Prerequisite:

L ST 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

L ST 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

L ST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

L ST 301H Information Research Methods and Systems (1) Survey of information theories, structures and resources as related to library research methods for social, behavioral sciences and the humanities.
Effective: Fall 1983

L ST 370 Research Methods for Law and Government Information Resources (3) Evaluating, retrieving and integrating Federal and Legal Information Resources into scholarly research.
Effective: Spring 2005
Prerequisite:

L ST 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

L ST 490 (HIST 490) Archival Management (1-3) Introduction to the principles and procedures in the management of archives and historical manuscripts.
Effective: Fall 1978

L ST 495 Internship (1-9) Directed internship in library studies, archival administration, rare books curation and/or preservation.
Effective: Summer 1995
Prerequisite:

L ST 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Students may not register for these courses without prior written approval of a faculty member in the department in which the courses are listed.
Effective: Fall 1983
L ST 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 2, 2012 12:27 PM
Linguistics (LING)

LING 001 (GS;US;IL) **The Study of Language** (3) A non-technical introduction to the study of human language, and its role in human interaction. Students who have successfully completed LING 100 may not enroll in LING 001.
Effective: Summer 2005

LING 083S (GS;US;IL) **1st Year Seminar in Linguistics** (3) Non-technical exploration of aspects of human language.
Effective: Summer 2005

LING 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 100 (GS) **Foundations of Linguistics** (3) Systematic study of linguistic structures in a variety of the world's languages; an overview of language, and its organization.
Effective: Spring 2011

LING 102 (GH) **Introduction to Historical Linguistics** (3) How languages change and evolve over time; language families; effects of borrowing and language contact.
Effective: Spring 2002
Prerequisite:

LING 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LING 294 **Research Project** A1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

LING 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1983

LING 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LING 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

LING 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

The Pennsylvania State University
LING 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

LING 402 **Syntax I** (3) Principles of grammatical analysis in the generative framework; an overview of syntactic structures across languages.
Effective: Fall 2001

LING 404 **Phonology I** (3) The analysis of the sound systems of human languages; focus on common phonological processes across languages and on phonetics-phonology interface.
Effective: Fall 2001

LING 429 (PSYCH 426) **Language and Thought** (3) Relations between language and cognition; cognitive implications of normal and impaired language development; cognition and bilingualism.
Effective: Spring 2007
Prerequisite:

LING 446 (PSYCH 427) **L1 Acquisition** (3) How children learn their first language; psycholinguistic aspects of lexical, syntactic, semantic, and phonological development.
Effective: Spring 2010
Prerequisite:

LING 447 **Bilingualism** (3) Explores the social and psychological aspects of bilingualism; topics include languages in contact, transference, maintenance, and loss.
Effective: Fall 2001

LING 448 **Sociolinguistics** (3) Issues in the study of language in its sociocultural context; analysis of social dialects and speech styles.
Effective: Fall 2001

LING 449 **Semantics I** (3) The study of meaning in human language; methods of analysis; study of sense, reference, compositionality, quantification, presupposition, and sentence-level meaning.
Effective: Fall 2001

LING 493 **Field Methods** (3) Primary linguistic investigation of a language different from English; field work with a native speaker; data gathering; linguistic analysis.
Effective: Fall 2001

LING 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

LING 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

LING 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

LING 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1983

LING 497B **Psychology of Language** (3) Overview of psychological research and theory on language processes, including speech perception, word recognition, meaning prepresentation, comprehension, and language acquisition.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

LING 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Fall 1992

LING 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Management (MGMT)

MGMT 001S Business Leadership (3) The aim of this course is to introduce fundamental concepts of business management and leadership.
Effective: Spring 2000

MGMT 100 Survey of Management (3) Introduction to organizational factors relevant to management processes, including leadership, motivation, job design, technology, organizational design and environments, systems, change. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 304 or MGMT 301.
Effective: Fall 1989

MGMT 100W Survey of Management (3) Introduction to organizational factors relevant to management processes, including leadership, motivation, job design, technology, organizational design and environments, systems, change. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 304 or MGMT 301.
Effective: Summer 1993

MGMT 150 Supervisory Management (3) Preparation for supervisory positions in formal organizations. Emphasis placed on the motivational aspects of the supervisor's job.
Effective: Summer 1990
Prerequisite:

MGMT 197 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2008

MGMT 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MGMT 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2008

MGMT 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1989

MGMT 296A Business Ethics and CSR (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2012 Ending: Summer 2012

MGMT 296A Leadership and Diversity (3) To prepare students for leadership roles in a globally competitive economy.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MGMT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1989

MGMT 297F (ENGR 297F) Entrepreneurial Mindset (3) Students explore what entrepreneurial mindset means and its application to social entrepreneurship, intrapreneurship, creative problem solving, opportunity recognition, innovation and career development.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MGMT 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MGMT 301 Basic Management Concepts (3) Study of fundamental principles and processes available to the understanding of management. Not available to students who have taken B A 304.
Effective: Spring 2011
Prerequisite:

MGMT 301H Basic Management Concepts (3) Study of fundamental principles and processes available to the understanding of management. Not available to students who have taken B A 304.

Prerequisite:

MGMT 301W Basic Management Concepts (3) Examination of fundamental principles and processes applicable to the study of management. Not available to students who have taken BA 304.
Effective: Spring 2011

Prerequisite:

MGMT 321 Leadership and Motivation (3) Applies organizational behavior theories, concepts, and skills to leading and motivating individuals and groups.
Effective: Spring 2001

Prerequisite:

MGMT 326 Organizational Behavior and Design (3) Concepts, theories, and methods of managing people and designing organizations.
Effective: Spring 2008

Prerequisite:

MGMT 331 Management and Organization (3) Designing organizations to effectively manage new technologies, structures, and people in changing global contexts.
Effective: Spring 2001

Prerequisite:

MGMT 341 Human Resource Management (3) Introduction to the strategic planning and implementation of human resource management, including staffing, development, appraisal, and rewards.
Effective: Spring 2001

Prerequisite:

MGMT 395 Internship (1-18) Supervised off-campus, non-group instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2000

Prerequisite:

MGMT 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2003

MGMT 397A Organizational Theory (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

MGMT 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2003

MGMT 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MGMT 400 Organization Development (3) A study of organizational change and methodologies related with change and improvement. Examination of planned change on processes, strategies, people and culture in organizations.
Effective: Spring 2008

Prerequisite:

MGMT 401 Contemporary Issues in Management (3) Advanced treatment of topics of current managerial significance. Issues examined will differ by instructor, section, and semester. Consult departmental office.
Effective: Spring 2008

Prerequisite:

MGMT 402 Experiences in Organizational Relations (3) An experiential approach to study of behavior in organizations, applying concepts and theories of management to interpersonal situations.
Effective: Spring 2008

Prerequisite:

MGMT 409 Project Management for Engineers (3) The course provides a real-time experience to students in engineering and engineering technology in project management with a focus on leadership behavior and decision making.
Effective: Spring 2008

Prerequisite:

MGMT 410 Project Management (3) A problem-based, interdisciplinary course in project management skills and techniques needed to manage projects in a modern business environment.
Effective: Spring 2008

Prerequisite:

MGMT 420 Negotiation and Conflict Management (3) An exploration of the sources of interpersonal conflict and strategies of resolution in the managerial context.
Effective: Fall 2010

Prerequisite:
MGMT 424 Interpersonal Relationships in Organizations (3) Developing individual skills in interpersonal and group settings and experience-based and conceptual training in relating effectively to other people.
Effective: Spring 2008
Prerequisite:

MGMT 425 (IST 425, ENGR 425) New Venture Creation (3) Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and present to investors.
Effective: Spring 2011
Prerequisite:

MGMT 426 (ENGR 426, IST 426) Invention Commercialization (3) Working with Penn State inventions selected by the Intellectual Property Office, student teams define an optimum commercialization path each technology.
Effective: Spring 2011
Prerequisite:

MGMT 427 Managing an Entrepreneurial Start-Up Company (3) Exploration of the tensions and experiences of starting and growing a new company.
Effective: Spring 2011
Prerequisite:

MGMT 431 Entrepreneurship and Small Business Management (3) Entrepreneurship, new ventures, and management of small firms.
Effective: Spring 2008
Prerequisite:

MGMT 432 Small Business Field Study (3) Supervised field study with a small firm.
Effective: Spring 2008
Prerequisite:

MGMT 433 Leadership and Team Building (3) Team-based learning approach to developing conceptual knowledge, skills sets, and personal competencies needed for leading and managing organizations.
Effective: Spring 2008
Prerequisite:

MGMT 440 Advanced Human Resource Management (3) In depth study of human resource management and personnel administration functions and processes.
Effective: Spring 2008
Prerequisite:

MGMT 441 Organizational Staffing and Development (3) This course focuses on the skills and methods managers need to manage staffing and development activities in organizations.
Effective: Spring 2011
Prerequisite:

MGMT 443 Performance Management (3) This course focuses on skills and methods managers need to enhance the contribution of employees to organizational performance and effectiveness.
Effective: Spring 2011
Prerequisite:

MGMT 445 (US) Managing Differences in Organizations (3) This course focuses on developing knowledge and skills for dealing with demographic, functional, occupational and identity-based differences within and among organizations.
Effective: Spring 2008
Prerequisite:

MGMT 450 Labor Management Relations (3) Study of the key concepts and processes involved in current American labor/management relations.
Effective: Spring 2008
Prerequisite:

MGMT 451W Business, Ethics, and Society (3) Advanced examination of social, ethical, legal, economic, equity, environmental, public policy, and political influences on managerial decisions and strategies.
Effective: Spring 2004
Prerequisite:

MGMT 453 Creativity and Innovation (3) Analysis of the process of innovation in organizations and of how creativity and other variables influence the process.
Effective: Summer 2007
Prerequisite:

MGMT 461 (IL) International Management (3) Examines issues of nations and cultures including motivation, communication, negotiation, leadership, ethics and social responsibility, and women in management.
Effective: Spring 2008
Prerequisite:

MGMT 466 Organizational Learning and Knowledge Management (3) Examination of the social processes through which organizations continuously develop, acquire, interpret, and apply information and knowledge for performance enhancement and continuous improvement.
Effective: Spring 2008
Prerequisite:
MGMT 471 **Strategic Management** (3) Issues that influence the competitive performance of the firm are identified and examined.
Effective: Spring 2004
Prerequisite:

MGMT 471W **Strategic Management and Business Policy** (3) Study of strategic management and business policy formulation and implementation processes.
Effective: Spring 2008
Prerequisite:

MGMT 475W **Strategic Product Development** (3) Study of an organization, industry, and evaluation of the introduction to a new product. Preparation of proposal for industry product.
Effective: Summer 2008
Prerequisite:

MGMT 476 **Product Realization Capstone** (3) Study of an organization, industry, and evaluation of the introduction of a new product. Preparation of proposal for industry product.
Effective: Summer 2008
Prerequisite:

MGMT 483 **Compliance and Fairness in Organizations** (3) Compliance with employment laws with respect to managing human resources and fair treatment in employer-employee relationships.
Effective: Summer 2007
Prerequisite:

MGMT 489 **Seminar in Management** (3) A capstone course in management for students of high academic achievement. Emphasis on in-depth research of current interest.
Effective: Spring 2008
Prerequisite:

MGMT 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

MGMT 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

MGMT 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

MGMT 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1989

MGMT 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1989

MGMT 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2003

MGMT 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Last Import from UCM: June 2, 2012 12:27 PM
Mangt Info Systems (MIS)

MIS 103 Microcomputer Applications in Business (3) Introduction to current business uses of the microcomputer, including spreadsheets, database management, word processing, and decision-making models.
Effective: Spring 2007

MIS 190 Microcomputer Accounting and Transaction Processing (3) Use of accounting software to manage small to medium sized businesses, transaction processing, general ledger, payables, receivables, inventory management, payroll.
Effective: Spring 2007
Prerequisite:

MIS 197 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MIS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MIS 204 Introduction to Business Information Systems (3) Introduction to the use of information systems in business organizations.
Effective: Summer 2007

MIS 204H Honors Introduction to Management Information Systems (3) Introduction to the use of information systems in business organizations.
Effective: Spring 2009

MIS 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Spring 2007

MIS 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2007

MIS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MIS 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MIS 301 Introduction to Business Applications Development (3) Event-driven programming in a visual environment in which students will learn how to build business applications using current, state of the art technology.
Effective: Spring 2007
Prerequisite: Concurrent: SCM 302

MIS 307 Algorithmic Concepts (3) Using state-of-art programming language; concepts, program structure and design, documentation, file handling, and elementary data structures are introduced.
Effective: Spring 2008
Prerequisite:

MIS 336 Database Management Systems (3) Theory and utilization of database management systems in organizations, including data modeling and applications development.
Effective: Summer 2011
Prerequisite:

MIS 387 Website Design and Administration (3) Applied, hands-on, interdisciplinary website design/administration course. Acquired concepts, techniques and tools are exercised in individual and team projects.
Effective: Summer 2008
Prerequisite:

MIS 390 Information Systems Management and Applications (3) Specification, design and implementation of information systems directed at aiding decision making in organizations.
Effective: Spring 2008
Prerequisite:

MIS 391 E-Commerce Strategies (3) Introduction to the fundamental Principles of Electronic Commerce (E-Commerce) technologies, applications, and management of E-Commerce in modern organizations.
Effective: Spring 2007
Prerequisite:
MIS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

MIS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

MIS 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

Effective: Summer 2010
Prerequisite:
MIS 405 Supply Chain Information Systems with Oracle (3) Strategic design and implementation of Oracle supply chain management information systems in an ERP environment.
Effective: Summer 2010
Prerequisite:
MIS 406 Customer Information Systems with Oracle (3) A technology-based exploration of the various Oracle Order Management and Customer Relationship Management tools.
Effective: Summer 2010
Prerequisite:
MIS 407 Enterprise Integration with Oracle (3) This is a technology course focusing on software development in an Oracle eBusiness ERP Environment.
Effective: Summer 2010 Ending: Summer 2012
Prerequisite:
MIS 407 Enterprise Integration with Oracle (3) This is a technology course focusing on software development in an Oracle eBusiness ERP Environment.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:
MIS 413 Interface design for Information Systems Applications (3) The study of interface design emphasizing application and user requirements, development and testing techniques, and information processing issues.
Effective: Spring 2007
Prerequisite:
MIS 430 Systems Analysis (3) Information analysis and the logical specification of the system.
Effective: Spring 2007
Prerequisite:
MIS 431 Business Data Management (3) The architecture of business information processing systems and technical aspects of database management.
Effective: Spring 2007
Prerequisite: Concurrent: SCM 301
MIS 432 Business Information System Analysis (3) The analysis of business information systems and the requirements specifications of redesigned systems.
Effective: Spring 2007
Prerequisite:
MIS 434 Internet Technologies (3) Technical foundations of the eBusiness environment and web applications development to support internet-based commerce.
Effective: Spring 2007
Prerequisite: Concurrent: MIS 432
MIS 435 Systems Design and Implementation (3) Logical and physical design of information systems and implementation.
Effective: Spring 2010 Ending: Summer 2012
Prerequisite:
MIS 435 Systems Design and Implementation (4) Logical and physical design of information systems and implementation.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:
MIS 436 Business Data Communications (3) Introduction to the principles and techniques of business data communication encompassing transmission concepts, network analysis, design, implementation, and administration.
Effective: Spring 2007
Prerequisite:
MIS 442 Business Information Systems Design (3) Object-oriented concepts such as: object, instance, class, inheritance, polymorphism; application of these methodologies and design patterns to business system analysis. Effective: Summer 2007
Prerequisite:

MIS 445 Business Intelligence (4) Develops insights and skills related to Business Intelligence, Data Warehousing, Data Mining, Analytics, OLAP, and report generators. Effective: Spring 2012
Prerequisite:

MIS 446 Information Technology and Business Strategy (3) Strategic use and management of information technology in digital global economy. Effective: Spring 2008
Prerequisite:

Prerequisite:

MIS 450 System Design Project (3) A project in the design, specification, and programming of a system in an application area. Effective: Spring 2009
Prerequisite:

Prerequisite:

MIS 465 Database Management (3) Provides a comparison of techniques, methodology of systems, limitations, and applications of various database management systems. Effective: Spring 2008
Prerequisite:

MIS 466 Business Programming for the WEB (3) Advanced programming for WEB-based applications. Effective: Spring 2007
Prerequisite:

MIS 470 Advanced Applications Development (4) Focus on concepts and practice of advanced tools and techniques such as application generators, object-oriented methods, and client/server development. Effective: Fall 2009 Ending: Summer 2012
Prerequisite:

MIS 470 Advanced Applications Development (4) Focus on concepts and practice of advanced tools and techniques such as application generators, object-oriented methods, and client/server development. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

Prerequisite:

Prerequisite:

MIS 489 Seminar in Information Systems (3) Covers new trends and concepts in information/processing technology and their applications and impact on computer information systems. Effective: Spring 2007
Prerequisite:

MIS 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2007

MIS 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2008

MIS 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Spring 2007
Prerequisite:

MIS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2007
MIS 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MIS 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

MIS 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007
Marketing (MKTG)

MKTG 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

MKTG 220 Introduction to Selling Techniques (3) Principles underlying the sales process and practical application of these principles to selling situations. Studies role of selling in total marketing process. Effective: Spring 2008
Prerequisite:

MKTG 221 Contemporary American Marketing (3) Social and economic aspects, movement of goods and services from producers to consumers; analysis of marketing functions, systems, and institutions. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 303 or MKTG 301. Effective: Spring 1996
Prerequisite:

MKTG 221W Contemporary American Marketing (3) Social and economic aspects; movement of goods and services from producers to consumers; analysis of marketing functions, systems, and institutions. May not be used to satisfy Penn State Business baccalaureate degree requirements. Not available to students who have taken B A 303 or MKTG 301. Effective: Spring 1993
Prerequisite:

MKTG 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

MKTG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

MKTG 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

MKTG 301 Principles of Marketing (3) Focuses on customer behavior, product, channels of distribution, promotion, and pricing with emphasis on a culturally diverse environment. Not available to students who have taken B A 303. Effective: Spring 2011
Prerequisite:

MKTG 301H Principles of Marketing (3) Focuses on customer behavior, product, channels of distribution, promotion, and pricing with emphasis on a culturally diverse environment. Not available to students who have taken B A 303. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MKTG 301W Principles of Marketing (3) Focuses on customer behavior, product, channels of distribution, promotion, and pricing with emphasis on a culturally diverse environment. Not available to students who have taken BA 303. Effective: Spring 2011
Prerequisite:

MKTG 302 Marketing Techniques for Electronic Commerce (3) Explores methods to implement/adapt marketing methods to the Internet; builds upon introductory marketing classes to examine what does/doesn’t work. Effective: Spring 2008
Prerequisite:

MKTG 310 Public Relations and Marketing (3) Examination of the role of public relations in a company’s efforts to manufacture and market its products and services. Effective: Spring 2008
Prerequisite:

MKTG 327 Retailing (3) Management of marketing institutions in distribution channels from producers to consumers. Emphasis on retail institutions: location, personnel, merchandising, control, promotion. Effective: Spring 2008
Prerequisite:

MKTG 330 Consumer Behavior (3) Application of behavioral science concepts to the understanding of buyer behavior as a basis for marketing management decision making. Effective: Spring 2008
Prerequisite:

MKTG 342 Marketing Research (3) Research approaches, methods, and applications studied as a formal approach to problem solving for marketing decisions. Effective: Spring 2008
Prerequisite:
MKTG 344 Buyer Behavior (3) Application of behavioral science concepts to the understanding of buyer behavior as a basis for strategic decisions in marketing management.
Effective: Spring 2012
Prerequisite:

MKTG 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2003

MKTG 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2003

MKTG 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007

MKTG 410 Personal Selling (3) Principles underlying the selling process and practical application of these principles to selling situations.
Effective: Spring 2008
Prerequisite:

MKTG 420 Direct Marketing (3) Applies principles of marketing management to the direct marketing of products by mail, telephone, print, and broadcast media.
Effective: Spring 2002
Prerequisite:

MKTG 422 Advertising and Sales Promotion Management (3) Perspectives and models of the key decisions involved in managing advertising and sales promotion campaigns.
Effective: Spring 2008
Prerequisite:

MKTG 426 Business Marketing (3) Developing marketing strategies and programs. The course emphasizes the special nature of the business and organizational markets.
Effective: Spring 2002
Prerequisite:

MKTG 428 Advanced Sales Management (3) Approaches to planning, organizing, staffing, training, directing, and controlling the sales force in support of marketing objectives.
Effective: Spring 2008
Prerequisite:

MKTG 435 Marketing and Society (3) Analysis of marketing's impact on and obligation to social and environmental issues, marketing and ethics, and the regulation of marketing.
Effective: Spring 2002
Prerequisite:

MKTG 437 Advanced Retailing and Merchandise Management (3) Analyzing planning and controlling the retail merchandising effort, including procurement, resource selection, vendor relations, product presentation, inventory control.
Effective: Spring 2002
Prerequisite:

MKTG 440 Services Marketing (3) Marketing theory and methods applied to profit and nonprofit service industries such as health care, finance, transportation, tourism, arts and consulting.
Effective: Spring 2002
Prerequisite:

MKTG 443 Sports Marketing (3) This course will focus on how companies develop, execute and measure marketing strategies and tactics to use sports teams, families, leagues and other organizations to market their products and services domestically and internationally to consumers and business partners. The course will examine the marketing strategies employed by sports teams and leagues.
Effective: Summer 2010
Prerequisite:

MKTG 445 (IL) Global Marketing (3) Role of international marketing in the global environment; political, economic, geographic, historical, cultural conditions; developing and implementing international marketing strategies.
Effective: Spring 2006
Prerequisite:

MKTG 450W Marketing Strategy (3) Market-oriented problems of the firm; identification and selection of market opportunities; formulation of competitive strategies; marketing policies and programs.
Effective: Spring 2008
Prerequisite:

MKTG 475 Innovation and Product Management (3) This course is an application-oriented interdisciplinary course on new product development concepts, and innovation management.
Effective: Spring 2011
Prerequisite:

The Pennsylvania State University
MKTG 476 Sales Management (3) Application of modern management principles to field sales force planning, organization, and administration; selection, training, and compensation plans.
Effective: Spring 2008
Prerequisite:

MKTG 478 Services Marketing Management (3) Conceptual understanding of services and the analytical tools that are used in solving strategic services marketing problems.
Effective: Spring 2008
Prerequisite:

MKTG 485 Business-to-Business Marketing (3) Application of marketing principles to commercial enterprises, industrial firms, government, and other non-profit institutions.
Effective: Spring 2008
Prerequisite:

MKTG 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2003

MKTG 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2008

MKTG 495 Internship (1-18) Supervised off campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

MKTG 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

MKTG 496A Analyzing the Changing Role of Women Overtime (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MKTG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

MKTG 497A Non-Profit and Public Marketing (3) To apply marketing principles to services and programs offered in public and non-profit settings. To understand the dynamics of social marketing campaigns to achieve public sector initiatives. To explore how businesses can work with non-profits in an effective manner to achieve mutual goals.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MKTG 497A Non-Profit and Public Marketing (3) To apply marketing principles to services and programs offered in public and non profit settings. To understand the dynamics of social marketing campaigns to achieve public sector initiatives. To explore how businesses can work with non profit in an effective manner to achieve mutual goals.
Prerequisite:

MKTG 497B Sustainability for Consumers, Firms, and Societies (3) This course will introduce the audience to the role of sustainability in business, such as innovation.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MKTG 497B Sustainability for Consumers, Firms, and Societies (3) This course will introduce the audience to the role of sustainability in business, such as innovation.

MKTG 497C Sports Business (3) This course explores how the sports business operates. The class teaches students the business operations of teams, leagues, agencies and media companies including cable, wireless and digital. Both traditional and new marketing and revenues will be studied including products, promotion, pricing, distribution, and single revenue and revenue-sharing models. Sports business activities are included through instructor presentations, dialogue, student study of media coverage and reading a sports business trade journal. Student presentations will be created based on current sports business topics.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MKTG 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2003
MKTG 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007
Materials Engineering Technology (MAE T)

Prerequisite:

MAE T 202 Materials Testing (3) A review of industrial methods and testing standards used for mechanical property testing and evaluation of engineering materials. Effective: Spring 2005
Prerequisite:

MAE T 203 Introduction to Powder Metallurgy (3) A comprehensive study of powdered metal technology including production, characterization, compaction, sintering, and finishing operations. Effective: Summer 2007
Prerequisite:

MAE T 204W Structure Characterization Laboratory (3) A hands-on experience course with emphasis on equipment and lab techniques used for microstructural evaluation of metals. Effective: Summer 2007
Prerequisite:

MAE T 205 Powder Metallurgy Laboratory (4) A capstone course emphasizing hands-on laboratory experience in powder metallurgy and semester project; field trips to nearby P/M industries. Effective: Summer 2007
Prerequisite:

MAE T 294 Research Topics (1-12) Supervised student activities on research projects identified on an individual or small group basis. Effective: Summer 2009
Prerequisite:

MAE T 296 Independent Study (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 2009
Prerequisite:

MAE T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2005

Last Import from UCM: June 2, 2012 12:27 PM
Materials Science and Engineering (MATSE)

MATSE 081 (GN;IL) Materials in Today's World (3) A survey of the properties, manufacture, and uses of polymers, ceramics and metals in today's world with emphasis on modern developments and new materials. Effective: Summer 2005

MATSE 090H High-Tech Materials (1) A series of introductory seminars concerning the most important aspects of modern materials technology; some laboratory visits will be included. Effective: Summer 1994

MATSE 091 (GN) Polymers, Life and Society (3) An exploration of the science and use of polymer materials and their impact on society using a case study approach. Effective: Summer 2005

MATSE 101A (GN;IL) (EGEE 101A) Energy and the Environment (3) Energy utilization and technological development, energy resources, conversion and consequences on the local and global environment, and future energy alternatives. Effective: Fall 2007

MATSE 112 (GN) Applied Materials Chemistry for Engineers (3) Chemistry of materials with emphasis on intermolecular forces between atoms, molecules, ions, and dense materials and inorganic and organic physical chemistry. In most majors, this course is not a substitute for CHEM 013 or CHEM 112. Effective: Spring 2009 Prerequisite:

MATSE 201 Introduction to Materials Science (3) Concepts of relationships between structure and thermal, optical, magnetic, electrical, and mechanical properties of metals, ceramics, glasses, and polymers. Effective: Summer 2007 Prerequisite:

MATSE 202 Introduction to Polymer Materials (3) The materials science of organic or soft materials with an emphasis on synthetic and natural polymer. Effective: Spring 2012 Prerequisite:

MATSE 259 Properties and Processing of Engineering Materials (3) Relationship of structure and processing variables to the properties and service behavior of metals, polymers, and ceramics. Effective: Spring 2008 Prerequisite:

MATSE 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1994

MATSE 400 Crystal Chemistry (3) Principles of crystal chemistry applied to structures, structural defects and properties of organic, inorganic, intermetallic, and metallic crystals. Effective: Summer 2007 Prerequisite:

MATSE 401 Thermodynamics of Materials (3) Review of equilibrium thermodynamics and applications to metallurgical and material systems. Effective: Summer 2007 Ending: Summer 2012 Prerequisite:

MATSE 401 Thermodynamics of Materials (3) Review of equilibrium thermodynamics and applications to metallurgical and material systems. Effective: Fall 2012 Future: Fall 2012 Prerequisite:

MATSE 402 Materials Process Kinetics (3) A treatment of process kinetics including chemical reaction kinetics and momentum, energy and mass transport. Effective: Spring 2001 Ending: Summer 2012 Prerequisite:

MATSE 402 Materials Process Kinetics (3) A treatment of process kinetics including chemical reaction kinetics and momentum, energy and mass transport. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MATSE 403 (BIOE 443) Biomedical Materials (3) Describe properties of materials and composites and their in vivo interactions.
Effective: Spring 2007
Prerequisite:

MATSE 404 (IL) (BIOE 444) Surfaces and the Biological Response to Materials (3) Focus is on the special properties of surfaces as an important causative and mediating agent in the biological response to materials.
Effective: Summer 2007
Prerequisite:

MATSE 409 (NUC E 409) Nuclear Materials (3) Nuclear reactor materials: relationship between changes in material properties and microstructural evolution of nuclear cladding and fuel under irradiation.
Effective: Summer 2002
Prerequisite:

MATSE 410 Phase Relations in Materials Systems (3) Phase rule; construction and interpretations of equilibrium diagrams; importance of nonequilibrium in materials.
Effective: Fall 2006
Prerequisite: Concurrent: MATSE 201 MATSE 400 MATSE 430

MATSE 411 Processing of Ceramics (3) Principles of ceramic processing, including powder preparation and characterization, forming operations, and the basic phenomena underlying these operations.
Effective: Fall 2005
Prerequisite:

MATSE 412 Thermal Properties of Materials (3) Generation of high temperatures, measurement of temperature, heat transfer and furnace design, thermal stability of ceramic materials, applied thermodynamics.
Effective: Fall 2005
Prerequisite: Concurrent: MATSE 401

MATSE 413 Solid-State Materials (3) Structures of metallic, ionic, and covalent solids, amorphous materials, and surfaces; electronic structure; electronic properties of solids and their manipulation.
Effective: Spring 2001
Prerequisite:

MATSE 415 Introduction to Glass Science (3) Composition, melting, fabrication, properties, and uses of glass; combinations of glass with metals and other materials.
Effective: Summer 2002
Prerequisite:

MATSE 417 (E SC 417) Electrical and Magnetic Properties (3) Electrical conductivity, dielectric properties, piezoelectric and ferroelectric phenomena; magnetic properties of ceramics.
Effective: Spring 2007
Prerequisite:

MATSE 419 Computational Materials Science and Engineering (3) Introduction to computational material science and engineering. Overview of the computational methods for materials, from atomic to the continuum scale.
Effective: Spring 2012
Prerequisite:

MATSE 421 Corrosion Engineering (3) Industrial forms of corrosion and preventive methods, and their description in terms of basic thermodynamic and kinetic considerations.
Effective: Summer 2007
Prerequisite:

MATSE 422 Thermochemical Processing (3) Physico-chemical aspects of high temperature extraction and processing of metals and alloys. Design and evaluation of processes and process options.
Effective: Summer 2002
Prerequisite:

MATSE 424 Materials Selection and Design (1) Introduction to the selection and design of materials for structural applications.
Effective: Summer 2002
Prerequisite:

MATSE 425 Processing of Metals (3) Modern methods of shaping metals in liquid and solid states: casting, joining, powder and deformation processing. Design of new technology.
Effective: Fall 2006
Prerequisite:

MATSE 426 (MN PR 426) Aqueous Processing (3) A study of the chemical and engineering principles pertinent to metal processing in aqueous systems: hydrometallurgical extraction, plating, materials preparation.
Effective: Fall 2009
Prerequisite:

MATSE 430 Materials Characterization (3) Elements of crystallography and the characterization of crystalline and non-crystalline materials using x-ray diffraction, electron microscopic, and other instrumental techniques.
Effective: Spring 2001
Prerequisite:
Effective: Spring 1996
Prerequisite:

MATSE 436 Mechanical Properties of Materials (3) Fundamental relationships between structure and mechanical behavior of materials.
Effective: Summer 2002 Ending: Summer 2012
Prerequisite:

MATSE 436 Mechanical Properties of Materials (3) Fundamental relationships between structure and mechanical behavior of materials.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MATSE 440 (E MCH 440) Nondestructive Evaluation of Flaws (3) Methods and limitations of nondestructive evaluation of mechanical flaws; optical, acoustical, electromagnetic, x-ray, radiography, thermography, and dye techniques.
Effective: Spring 2008
Prerequisite:

MATSE 441 Polymeric Materials I (3) Manufacture of industrially significant polymers together with discussion of their major chemical, physical, and mechanical properties.
Effective: Summer 2007 Ending: Summer 2012
Prerequisite:

MATSE 441 Polymeric Materials I (3) Manufacture of industrially significant polymers together with discussion of their major chemical, physical, and mechanical properties.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MATSE 443 Introduction to the Materials Science of Polymers (3) Introduction to the nature and structure of high polymers. Characteristics of polymers and polymer systems.
Effective: Summer 2007 Ending: Summer 2012
Prerequisite:

MATSE 443 Introduction to the Materials Science of Polymers (3) Introduction to the nature and structure of high polymers. Characteristics of polymers and polymer systems.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

Effective: Spring 2003
Prerequisite:

MATSE 445 Thermodynamics, Microstructure, and Characterization of Polymers (3) The properties of individual polymer chains. Theoretical and experimental techniques pertaining to the characterization of polymeric microstructure.
Effective: Fall 2002
Prerequisite:

MATSE 446 Mechanical and Electrical Properties of Polymers and Composites (3) The mechanical (viscoelastic) and electric properties of polymers and poly-based composites.
Effective: Spring 2003
Prerequisite:

MATSE 447 Rheology and Processing of Polymers (3) This course deals with the fluid mechanics, rheology, and processing of polymeric materials.
Effective: Fall 2002
Prerequisite:

MATSE 448 (CH E 442) Polymer Processing Technology (3) Basic principles of polymer melt processing are reviewed and subsequently applied to the most important industrial processing operations.
Effective: Spring 2006
Prerequisite:

MATSE 450 (E SC 450) Synthesis and Processing of Electronic and Photonic Materials (3) The materials science of applying thin film coatings, etching, and bulk crystal growth; includes materials transport, accumulation, epitaxy, and defects.
Effective: Fall 2005
Prerequisite:

MATSE 455 Properties and Characterization of Electronic and Photonic Materials (3) Materials characterization in general; electrical properties of crystals, contacts, films; optical properties of single phase materials, waveguide, and multilayer stacks.
Effective: Fall 2005
Prerequisite:

MATSE 460 Introductory Laboratory in Materials (1) An introduction to comparative physical properties and characteristics of various materials including mechanical, electrical thermal, and structure/ morphology.
Effective: Spring 2001

The Pennsylvania State University
Prerequisite:

MATSE 462 **General Properties Laboratory in Materials** (1) An introduction to comparative physical properties of various materials including mechanical, thermal electrical properties and the measurement of said properties. Effective: Spring 2005
Prerequisite:

MATSE 463 **Characterization and Processing of Electronic and Photonic Materials Laboratory** (1) Provides experience with key processing methods for EPM materials and advanced characterization methods for EPM materials and simple device structures. Effective: Spring 2009
Prerequisite: Concurrent: MATSE 450 MATSE 455

MATSE 468 **Ceramics Laboratory III** (1) Ceramic processing and powder characteristics. Effective: Spring 2009
Prerequisite:

MATSE 471 **Metallurgy Laboratory I** (1) A laboratory integrating experimental aspects of material contained in MATSE 402, 413, and 410, e.g. phase diagram determination, solidification micro-structures, etc. Effective: Fall 2005
Prerequisite:

MATSE 472 **Metallurgy Laboratory II** (1) Application of principles of mechanical metallurgy, pyroprocessing, corrosion and metal processing. Effective: Fall 2006
Prerequisite:

MATSE 473 **Polymeric Materials Laboratory--Synthesis** (1) Principles and practices of polymerization, including condensation, free radical (bulk, solution, suspension, emulsion), ionic, and Zeigler-Natta procedures. Effective: Spring 2003
Prerequisite:

MATSE 474 **Polymeric Materials Laboratory--Characterization** (1) Principles and practices involved in determination of properties, structure and morphology, employing thermal, mechanical, spectroscopic, viscometric and computer techniques. Effective: Spring 2003
Prerequisite:

MATSE 475 (E SC 475) **Particulate Materials Processing** (3) Fundamentals of processing particulate materials including production, characterization, handling, compaction, and sintering of metal, carbide, intermetallic, and composite powders. Effective: Spring 2008
Prerequisite:

MATSE 483 (E SC 483) **Simulation and Design of Nanostructures** (3) Introduction to computer simulation techniques and their applications at the physical/life sciences interface. Effective: Fall 2007
Prerequisite:

MATSE 484W (IL) **International Internship in Materials: Research Definition and Methodology** (3) A course focused on international research, specific design and methodology, facilitated through the International Internship in Materials and Program. Effective: Summer 2006
Prerequisite:

MATSE 485W (IL) **International Internship in Materials: Experimentation and Documentation** (3) A course focused on international research, specifically experimentation and documentation, facilitated through the International Internship in Materials Program. Effective: Summer 2006
Prerequisite:

MATSE 492W **Materials Engineering Methodology and Design** (3) Designed to familiarize students with the literature and technology developments in the use of, and design with, materials in industrial applications. Effective: Fall 2005
Prerequisite:

MATSE 493W **Materials Science and Engineering Multidisciplinary Capstone Design Project** (3) This course focuses on multidisciplinary industry-sponsored and community service-based design projects offered in conjunction with the College of Engineering's Learning Factory. Effective: Summer 2012
Prerequisite:

MATSE 494M **Research and Design Senior Project** (1-3) Continuation of a research problem in materials culminating in a bound thesis describing the work. Effective: Fall 2007

MATSE 494W **Research and Design Senior Project** (1-3) Continuation of a research problem in materials culminating in a bound thesis describing the work. Effective: Spring 2006
MATSE 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1994

MATSE 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1994

MATSE 497A **Microstructure Design of Structural Metals** (3) Understanding the physical metallurgy principles of steel, titanium, and aluminum, and using this knowledge for alloy selection and design.

MATSE 497B **Materials Sustainability and the Environment** (3) The goal of this course is to educate students about the process of LCA, used as a problem solving tool, in the context of the history of environmental movements and legislation and the availability of resources to create materials and useful products in a sustainable manner.

MATSE 497C **Materials Science and Engineering Multidisciplinary Capstone Design Project** (3) This course focuses on multidisciplinary industry-sponsored and community service-based design projects offered in conjunction with the College of Engineering's Learning Factory.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MATSE 497C **Materials Science and Engineering Multidisciplinary Capstone Design Project** (3) This course focuses on multidisciplinary industry-sponsored and community service-based design projects offered in conjunction with the College of Engineering's Learning Factory.
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Mathematics (MATH)

MATH 001 Developmental Mathematics (6) Arithmetic operations, ratios, proportions, percents; measurement; polynomial and rational expressions; exponents, radicals; equations, inequalities, systems of equations; graphing; applications. Students who have passed MATH 003 may not schedule this course for credit. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Spring 1994

MATH 002 Elementary Geometry With Problem Solving (4) Geometric congruence, similarity, area, surface area, volume, introductory trigonometry; emphasis on logical reasoning skills and the solution of applied problems. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Summer 2009
Prerequisite:

MATH 003 Basic Skills (3) Natural numbers; integers; rational numbers; decimals; ratio, proportion; percent; graphs; applications. Students who have passed MATH 001 may not schedule this course for credit. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Spring 1992

MATH 004, 021 GQ, AND 022 GQ form a three-semester sequence in intermediate algebra, college algebra, and analytic geometry. MATH 026 GQ is a one-semester course in plane trigonometry. Students are placed in the appropriate course depending on the results of the mathematics FTCAP examinations.

MATH 004 Intermediate Algebra (3) Algebraic expressions; linear, absolute value equations and inequalities; lines; systems of linear equations; integral exponents; polynomials; factoring. This course may not be used to satisfy the basic minimum requirements for graduation in any baccalaureate degree program.
Effective: Summer 2009
Prerequisite:

MATH 017 (GQ) Finite Mathematics (3) Introduction to logic, sets, probability.
Effective: Summer 1988
Prerequisite:

MATH 018 (GQ) Elementary Linear Algebra (3) Linear functions; systems of equations; matrices; linear programming.
Effective: Fall 1999
Prerequisite:

MATH 021 (GQ) College Algebra I (3) Quadratic equations; equations in quadratic form; word problems; graphing; algebraic fractions; negative and rational exponents; radicals.
Effective: Summer 2009
Prerequisite:

MATH 022 (GQ) College Algebra II and Analytic Geometry (3) Relations, functions, graphs; polynomial, rational functions, graphs; word problems; nonlinear inequalities; inverse functions; exponential, logarithmic functions; conic sections; simultaneous equations.
Effective: Summer 2009
Prerequisite:

MATH 026 (GQ) Plane Trigonometry (3) Trigonometric functions; solutions of triangles; trigonometric equations; identities.
Effective: Summer 2009
Prerequisite:

MATH 030 (GQ) Problem Solving (3) Concepts in problem solving; reducing new problems to old ones; techniques for attacking problems; building mathematical models.
Effective: Spring 1994

MATH 034 (GQ) The Mathematics of Money (3) Simple interest, simple discount, compound interest, annuities, investments, retirement plans, taxes, credit cards, and mortgages.
Effective: Summer 2009
Prerequisite:

MATH 035 (GQ) General View of Mathematics (3) Survey of mathematical thought in logic, geometry, combinatorics, and chance.
Effective: Summer 1992

MATH 036 (GQ) Insights Into Mathematics (3) Examples of mathematical applications in many areas including voting theory, fair division, apportionment, and Euler and Hamilton circuits.
Effective: Fall 2008
Prerequisite:

MATH 040 GQ covers all the topics in MATH 004, 021 GQ, 022 GQ, and 026 GQ in one semester, MATH 041 GQ covers the
same topics in trigonometry and analytic geometry as MATH 040 GQ. These courses are designed to prepare students for MATH 140 GQ. Students are placed in the appropriate course depending upon the results of the mathematics FTCAP examinations.

MATH 040 (GQ) Algebra, Trigonometry, and Analytic Geometry (5) Concepts of algebra; equations; inequalities; functions; graphs; polynomial and rational functions; exponential and logarithmic functions; trigonometry; analytic geometry; complex numbers. Effective: Summer 2009

Prerequisite:

MATH 041 (GQ) Trigonometry and Analytic Geometry (3-4) Straight lines; circles; functions and graphs; graphs of polynomial and rational functions; exponential and logarithmic functions; trigonometry; conic sections. Effective: Spring 2011

Prerequisite:

MATH 081 (GQ) Technical Mathematics I (3) Algebraic expressions, equations, systems of equations, trigonometric functions, graphs, solution of triangles, vectors. Effective: Summer 2009

Prerequisite:

MATH 082 (GQ) Technical Mathematics II (3) Exponents, radicals, complex numbers, theory of equations, inequalities, half angle and double angle formulas, inverse trigonometric functions, exponential, logarithm, conic sections. Effective: Summer 1995

Prerequisite:

Prerequisite:

MATH 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

MATH 097A Mathematics Tutorial (1) Course designed to help students develop study skills and a strong foundation in basic mathematics and to further their intellectual independence in MATH 021, 022, 026, 040, and 140. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 097C Introduction to Algebra Problem Solving (4) Introduction to Algebra Problem Solving is a college level introduction to algebra combined with individualized review of basic algebra. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 097H Math Tutorial (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 110 GQ and MATH 140 GQ, 141 GQ are two sequences that discuss differential and integral calculus. They differ in the areas where calculus is applied. The MATH 110 GQ, 111 GQ sequence includes applications from business: the engineering sciences. A student who wants to change from one sequence to another should consult with the chair of the mathematics department.

MATH 110 (GQ) Techniques of Calculus I (4) Functions, graphs, derivatives, integrals, techniques of differentiation and integration, exponentials, improper integrals, applications. Students may take only one course for credit from MATH 110, 140, 140A, and 140B. Effective: Summer 2009

Prerequisite:

MATH 111 (GQ) Techniques of Calculus II (2) Analytic geometry, partial differentiation, maxima and minima, differential equations. Effective: Summer 1988

Prerequisite:

MATH 140 (GQ) Calculus With Analytic Geometry I (4) Functions, limits; analytic geometry; derivatives, differentials, applications; integrals, applications. Students may only take one course for credit from MATH 110, 140, 140A, 140B, and 140H. Effective: Summer 2009

Prerequisite:

MATH 140A (GQ) Calculus, Analytic Geometry, Algebra, and Trigonometry (6) Review of algebra and trigonometry; analytic geometry; functions; limits; derivatives, differentials, applications; integrals, applications. Students may take only one course for credit from MATH 110, 140, 140A, and 140B. Effective: Summer 2009

Prerequisite:

MATH 140B (GQ) Calculus and Biology I (4) Functions, limits, analytic geometry; derivatives, differentials, applications from biology; integrals, applications from biology. Students may take only one course for credit from MATH 110, 140,
MATH 140E (GQ) Calculus with Engineering Applications I (4) Functions; limits; analytic geometry; derivatives; differentials, applications; integrals, applications.
Effective: Summer 2009
Prerequisite:

MATH 140G (GQ) Calculus with Earth and Mineral Sciences Applications I (4) Functions, limits, analytic geometry; derivatives, differentials, applications from the earth and mineral sciences; integrals, applications from the earth and mineral sciences. Students may only take one course for credit from MATH 110, 140, 140A, 140B, 140E, and 140G.
Effective: Summer 2009
Prerequisite:

MATH 140H (GQ) Honors Calculus with Analytic Geometry I (4) Honors course in functions, limits; analytic geometry; derivatives, differentials, applications; integrals, applications. Students may only take one course for credit from MATH 110, 140, 140A, 140B, and 140H.
Effective: Summer 2009
Prerequisite:

MATH 141 (GQ) Calculus with Analytic Geometry II (4) Derivatives, integrals, applications; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141, 141B, and 141H.
Effective: Spring 1996
Prerequisite:

MATH 141B (GQ) Calculus and Biology II (4) Derivatives, integrals, applications from biology; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141 and 141B.
Effective: Spring 1996
Prerequisite:

MATH 141E (GQ) Calculus with Engineering Applications II (4) Integration, applications; sequences and series; parametric equations, application.
Effective: Fall 2001
Prerequisite:

MATH 141G (GQ) Calculus with Earth and Mineral Sciences Applications II (4) Derivatives, integrals, applications from the earth and mineral sciences; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141, 141B, 141E, and 141G.
Effective: Summer 2005
Prerequisite:

MATH 141H (GQ) Honors Calculus with Analytic Geometry II (4) Honors course in derivatives, integrals, applications; sequences and series; analytic geometry; polar coordinates. Students may take only one course for credit from MATH 141, 141B, and 141H.
Effective: Summer 2006
Prerequisite:

MATH 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MATH 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

MATH 200 (GQ) Problem Solving in Mathematics (3) Fundamental concepts of arithmetic and geometry, including problem solving, number systems, and elementary number theory. For elementary and special education teacher certification candidates only. A student who has passed EDMTH 444 may not take MATH 200 for credit.
Effective: Summer 2009

MATH 201 (GQ) Problem Solving in Mathematics II (3) A continuation of MATH 200, this course studies the foundations of elementary school mathematics with an emphasis on problem solving.
Effective: Spring 2012
Prerequisite:

MATH 210 Calculus with Engineering Technology Applications (3) Topics in calculus with an emphasis on applications in engineering technology.
Effective: Spring 2007 Ending: Fall 2012
Prerequisite:

MATH 210 (GQ) Calculus with Engineering Technology Applications (3) Topics in calculus with an emphasis on applications in engineering technology.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

MATH 211 Intermediate Calculus and Differential Equations with Applications (3) Topics in ordinary differential equations, linear algebra, complex numbers, Eigenvalue solutions and Laplace transform methods.
Effective: Spring 2007 Ending: Fall 2012

The Pennsylvania State University
Prerequisite:

MATH 211 (GQ) Intermediate Calculus and Differential Equations with Applications (3) Topics in ordinary differential equations, linear algebra, complex numbers, Eigenvalue solutions and Laplace transform methods.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

MATH 220 (GQ) Matrices (2-3) Systems of linear equations; matrix algebra; eigenvalues and eigenvectors; linear systems of differential equations.
Effective: Spring 2009
Prerequisite:

MATH 220H (GQ) Honors Matrices (2-3) Honors course in systems of linear equations; matrix algebra; eigenvalues and eigenvectors; linear systems of differential equations.
Effective: Spring 2009
Prerequisite:

MATH 230 Calculus and Vector Analysis (4) Three-dimensional analytic geometry; vectors in space; partial differentiation; double and triple integrals; integral vector calculus. Students who have passed either Math 231 or 232 may not schedule Math 230 or 230H for credit.
Effective: Spring 1996
Prerequisite:

MATH 230H Honors Calculus and Vector Analysis (4) Honors course in three-dimensional analytic geometry; vectors in space; partial differentiation; double and triple integrals; integral vector calculus. Students who have passed either MATH 231 or 232 may not schedule MATH 230 or 230H for credit.
Effective: Spring 2006
Prerequisite:

MATH 231 Calculus of Several Variables (2) Analytic geometry in space; partial differentiation and applications. Students who have passed MATH 230 or MATH 230H may not schedule this course.
Effective: Spring 1996
Prerequisite:

MATH 231H Honors Calculus of Several Variables (2) Honors course in analytic geometry in space; partial differentiation and applications. Students who have passed MATH 230 or MATH 230H may not schedule this course.
Effective: Summer 2006
Prerequisite:

MATH 232 Integral Vector Calculus (2) Multidimensional analytic geometry, double and triple integrals; potential fields; flux; Green's, divergence and Stokes' theorems. Students who have passed MATH 230 may not schedule this course for credit.
Effective: Spring 1996
Prerequisite:

MATH 250 Ordinary Differential Equations (3) First- and second-order equations; special functions; Laplace transform solutions; higher order equations. Students who have passed MATH 251 may not schedule this course for credit.
Effective: Fall 1988
Prerequisite:

MATH 251 Ordinary and Partial Differential Equations (4) First- and second-order equations; special functions; Laplace transform solutions; higher order equations; Fourier series; partial differential equations.
Effective: Fall 1988
Prerequisite:

MATH 251H Honors Ordinary and Partial Differential Equations (4) Honors course in first- and second-order equations; special functions; Laplace transform solutions; higher order equations; Fourier series; partial differential equations.
Effective: Summer 2006
Prerequisite:

MATH 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1995

MATH 296 Independent Studies (1-18) Creative projects, including nonthesis research, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

MATH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

MATH 310 Elementary Combinatorics (3) Fundamental techniques of enumeration and construction of combinatorial structures, permutations, recurrences, inclusion-exclusion, permanents, 0, 1- matrices, Latin squares, combinatorial designs.
Effective: Spring 1985
Prerequisite:
MATH 310A Concepts in Combinatorics - Recitation
(1) Recitation for MATH 310H - Concepts in Combinatorics.
Effective: Spring 2013 Future: Spring 2013
Prerequisite: Concurrent: MATH 310H

MATH 310H Honors Concepts of Combinatorics
(3) Honors version of elementary and enumerative combinatorics.
Effective: Spring 2012
Prerequisite:

MATH 310R Concepts in Combinatorics - Recitation
(1) Recitation for MATH 310H - Concepts in Combinatorics.
Effective: Spring 2012 Ending: Fall 2012
Prerequisite: Concurrent: MATH 310H

MATH 311M Honors Concepts of Discrete Mathematics
(3) Basic methods of mathematical thinking and fundamental mathematical structures, primarily in the context of numbers, groups, and symmetries.
Effective: Spring 2006
Prerequisite:

MATH 311W Concepts of Discrete Mathematics
(3-4) Introduction to mathematical proofs; elementary number theory and group theory. Students who have passed CMPSC 360 may not schedule this course for credit.
Effective: Spring 2007
Prerequisite:

MATH 312 Concepts of Real Analysis
(3) An introduction to rigorous analytic proofs involving properties of real numbers, continuity, differentiation, integration, and infinite sequences and series.
Effective: Spring 1994
Prerequisite:

MATH 312A Honors Concepts of Real Analysis - Recitation
(1) A recitation component to MATH 312H, practice in problem solving.
Effective: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: MATH 312H

MATH 312H Honors Concepts of Real Analysis
(3) Basic methods of mathematical thinking and fundamental structures, primarily in the context of infinite sets, real numbers, and metric spaces.
Effective: Summer 2006
Prerequisite:

MATH 312R Honors Concepts of Real Analysis - Recitation
(1) A recitation component to MATH 312H, practice in problem solving.
Effective: Summer 2011 Ending: Summer 2012
Prerequisite: Concurrent: MATH 312H MATH 313R MATH 313H MATH 314H MATH 315H

MATH 313A Concepts of Geometry - Recitation
(1) A recitation component to Math 313H, practice in problem solving.
Effective: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: MATH 313H

MATH 313H Concepts of Geometry
(3) Development thorough understanding and technical mastery of foundations of modern geometry.
Effective: Summer 2011
Prerequisite: Concurrent: MATH 312H MATH 312R MATH 313R

MATH 313R Concepts of Geometry - Recitation
(1) A recitation component to Math 313H, practice in problem solving.
Effective: Summer 2011 Ending: Summer 2012
Prerequisite: Concurrent: MATH 312H MATH 312R MATH 313H MATH 314H MATH 315H

MATH 314H PMASS Problem Solving Seminar
(1) Group work on challenging problems, discussions and project presentations.
Effective: Summer 2011
Prerequisite: Concurrent: MATH 312H MATH 312R MATH 313R MATH 313H MATH 315H

MATH 315 Foundations of Mathematics
(3) A consideration of selected topics in the foundations of mathematics, with emphasis on development of basic meaning and concepts.
Effective: Spring 2007
Prerequisite:

MATH 315H PMASS Colloquium
(1) Bi-weekly lecture series with multiple invite speakers.
Effective: Summer 2011
Prerequisite: Concurrent: MATH 312H MATH 312R MATH 313R

MATH 318 (STAT 318) Elementary Probability
(3) Combinatorial analysis, axioms of probability, conditional probability and independence, discrete and continuous random variables, expectation, limit theorems, additional topics. Students who have passed either MATH/STAT 414 or 418 may not schedule this course for credit.
Effective: Spring 1989
Prerequisite:

MATH 319 (STAT 319) Applied Statistics in Science
(3) Statistical inference: principles and methods, estimation and testing hypotheses, regression and correlation analysis, analysis of variance, computer analysis. Students who have passed MATH/STAT 415 may not schedule this course for credit.
Effective: Spring 1989
Prerequisite:
MATH 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MATH 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

MATH 401 **Introduction to Analysis I** (3) Review of calculus, properties of real numbers, infinite series, uniform convergence, power series. Students who have passed Math. 403 may not schedule this course.
Effective: Fall 1983
Prerequisite:

MATH 403 **Classical Analysis I** (3) Topology of Rn, compactness, continuity of functions, uniform convergence, Arzela-Ascoli theorem in the plane, Stone-Wierstrass theorem.
Effective: Spring 1996
Prerequisite:

MATH 403H **Honors Classical Analysis I** (3) Development of a thorough understanding and technical mastery of foundations of classical analysis in the framework of metric spaces.
Effective: Spring 2010
Prerequisite:

MATH 404 **Classical Analysis II** (3) Differentiation of functions from Rn to Rm, implicit function theorem, Riemann integration, Fubini's theorem, Fourier analysis.
Effective: Fall 1985
Prerequisite:

MATH 405 **Advanced Calculus for Engineers and Scientists I** (3) Vector calculus, linear algebra, ordinary and partial differential equations. Students who have passed MATH 411 or 412 may not take this course for credit.
Effective: Spring 1994
Prerequisite:

MATH 406 **Advanced Calculus for Engineers and Scientists II** (3) Complex analytic functions, sequences and series, residues, Fourier and Laplace transforms. Students who have passed MATH 421 may not take this course for credit.
Effective: Spring 1994
Prerequisite:

MATH 408 **Advanced Calculus** (3) Differential and integral calculus of functions of several variables, line and surface integrals, infinite series, series of functions, power series.
Effective: Spring 2007
Prerequisite:

MATH 411 **Ordinary Differential Equations** (3) Linear ordinary differential equations; existence and uniqueness questions; series solutions; special functions; eigenvalue problems; Laplace transforms; additional topics and applications.
Effective: Fall 1983
Prerequisite:

MATH 412 **Fourier Series and Partial Differential Equations** (3) Orthogonal systems and Fourier series; derivation and classification of partial differential equations; eigenvalue function method and its applications; additional topics.
Effective: Spring 2009
Prerequisite:

MATH 414 (STAT 414) **Introduction to Probability Theory** (3) Probability spaces, discrete and continuous random variables, transformations, expectations, generating functions, conditional distributions, law of large numbers, central limit theorems. Students may take only one course from MATH(STAT) 414 and 418 for credit.
Effective: Fall 2001
Prerequisite:

MATH 415 (STAT 415) **Introduction to Mathematical Statistics** (3) A theoretical treatment of statistical inference, including sufficiency, estimation, testing, regression, analysis of variance, and chi-square tests.
Effective: Fall 1989
Prerequisite:

MATH 416 (STAT 416) **Stochastic Modeling** (3) Review of distribution models, probability generating functions, transforms, convolutions, Markov chains, equilibrium distributions, Poisson process, birth and death processes, estimation.
Effective: Spring 1984
Prerequisite:

Effective: Spring 2009
Prerequisite:

MATH 418 (STAT 418) **Introduction to Probability and Stochastic Processes for Engineering** (3) Introduction to probability axioms, combinatorics, random variables, limit laws, and stochastic processes. Students may take only one course from MATH(STAT) 414 and 418 for credit.
Effective: Fall 2011
Prerequisite:
MATH 419 (PHYS 419) **Theoretical Mechanics** (3) Principles of Newtonian, Lagrangian, and Hamiltonian mechanics of particles with applications to vibrations, rotations, orbital motion, and collisions.
Effective: Spring 2007
Prerequisite:

MATH 421 **Complex Analysis** (3) Infinite sequences and series; algebra and geometry of complex numbers; analytic functions; integration; power series; residue calculus; conformal mapping, applications.
Effective: Summer 1993
Prerequisite:

MATH 422 **Wavelets and Fourier Analysis: Theory and Applications** (3) Fundamental mathematical issues of the theory of wavelets for senior undergraduate and graduate students in mathematics, engineering, physics, and computer science.
Effective: Summer 2000
Prerequisite:

MATH 425 **Introduction to Operations Research** (3) Nature of operations research, problem formulation, model construction, deriving solution from models, allocation problems, general linear allocation problem, inventory problems.
Effective: Spring 2012
Prerequisite:

MATH 426 **Introduction to Modern Geometry** (3) Plane and space curves; space surfaces; curvature; intrinsic geometry of surfaces; Gauss-Bonnet theorem; covariant differentiation; tensor analysis.
Effective: Spring 1994
Prerequisite:

MATH 427 **Foundations of Geometry** (3) Euclidean and various non-Euclidean geometries and their development from postulate systems. Students who have passed MATH 427 may not schedule MATH 471.
Effective: Spring 1994
Prerequisite:

MATH 428 **Geometry for Teachers** (1) Research in mathematics education using ideas from Euclidean and non-Euclidean geometry. Students who have passed MATH 471 may not schedule MTHBD 478.
Effective: Spring 2007
Prerequisite:

Effective: Spring 1994
Prerequisite:

MATH 430 **Linear Algebra and Discrete Models I** (3) Vector spaces, linear transformations, matrices determinants, characteristic values and vectors, systems of linear equations, applications to discrete models.
Effective: Spring 2010
Prerequisite:

MATH 431 **Linear Algebra and Discrete Models II** (3) Vector spaces and linear transformations, matrices, determinants, characteristics values and vectors, systems of linear equations, applications to discrete models.
Effective: Spring 2007
Prerequisite:

MATH 435 **Basic Abstract Algebra** (3) Elementary theory of groups, rings, and fields. Students who have passed MATH 435 may not schedule MATH 470.
Effective: Fall 1983
Prerequisite:

MATH 435 **Basic Abstract Algebra** (3) Elementary theory of groups, rings, and fields. Students who have passed MATH 435 may not schedule MATH 470.
Effective: Spring 2010
Prerequisite:

MATH 436 **Linear Algebra** (3) Vector spaces and linear transformations, canonical forms of matrices, elementary divisors, invariant factors; applications. Students who have passed MATH 436 may not schedule MATH 441.
Effective: Fall 1983
Prerequisite:

MATH 437 **Algebraic Geometry** (3) Study of curves in the plane defined by polynomial equations p(x,y)= 0. Projective equivalence, singular points, classification of cubics.
Effective: Spring 2009
Prerequisite:

MATH 441 **Matrix Algebra** (3) Determinants, matrices, linear equations, characteristic roots, quadratic forms, vector spaces. Students who have passed Math 436 may not schedule this course.
Effective: Fall 1985
Prerequisite:

MATH 444 **Mathematical Statistics and Applications I** (3) Distributions of random variables, special distributions, limiting distributions, sampling, statistical inference, point and interval estimation, orthogonal polynomials, and least squares.
Effective: Spring 2007
Prerequisite:
MATH 445 Mathematical Statistics and Applications II (3) Further topics in point estimation, statistical hypotheses, other statistical tests, nonparametric methods.
Effective: Spring 2007
Prerequisite:

MATH 446 Introduction to Applied Statistics I (3) Descriptive statistics, probability theory, discrete and continuous probability distributions, statistical inferences for means and proportions.
Effective: Spring 2007
Prerequisite:

MATH 447 Introduction to Applied Statistics II (3) Regression, correlation, analysis of variance, contingency tables, nonparametric methods, time series, index numbers.
Effective: Spring 2007

MATH 449 Applied Ordinary Differential Equations (3) Differential and difference equations and their application to biology, chemistry, and physics; techniques in dynamical systems theory.
Effective: Spring 2007
Prerequisite:

MATH 450 Mathematical Modeling (3) Constructing mathematical models of physical phenomena; topics include pendulum motion, polymer fluids, chemical reactions, waves, flight, and chaos.
Effective: Spring 2007
Prerequisite:

MATH 451 (CMPSC 451) Numerical Computations (3) Algorithms for interpolation, approximation, integration, nonlinear equations, linear systems, fast FOURIER transform, and differential equations emphasizing computational properties and implementation. Students may take only one course for credit from MATH 451 and 455.
Effective: Spring 2008
Prerequisite:

MATH 455 (CMPSC 455) Introduction to Numerical Analysis I (3) Floating point computation, numerical rootfinding, interpolation, numerical quadrature, direct methods for linear systems. Students may take only one course for credit from MATH 451 and MATH 455.
Effective: Spring 2008
Prerequisite:

MATH 456 (CMPSC 456) Introduction to Numerical Analysis II (3) Polynomial and piecewise polynomial approximation, matrix least squares problems, numerical solution of eigenvalue problems, numerical solution of ordinary differential equations.
Effective: Spring 2008
Prerequisite:

MATH 457 Introduction to Mathematical Logic (3) Propositional logic, first-order predicate logic, axioms and rules of inference, structures, models, definability, completeness, compactness.
Effective: Summer 2011
Prerequisite:

Effective: Fall 1986
Prerequisite:

MATH 465 Number Theory (3) Elements, divisibility of numbers, congruences, residues, and forms.
Effective: Spring 2009
Prerequisite:

MATH 467 (CMPSC 467) Factorization and Primality Testing (3) Prime sieves, factoring, computer numeration systems, congruences, multiplicative functions, primitive roots, cryptography, quadratic residues. Students who have passed MATH 465 may not schedule this course.
Effective: Spring 1995
Prerequisite:

MATH 468 Mathematical Coding Theory (3) Shannon’s theorem, block codes, linear codes, Hamming codes, Hadamard codes, Golay codes, Reed-Muller codes, bounds on codes, cyclic codes.
Effective: Fall 1983
Prerequisite:

MATH 470 Algebra for Teachers (3) An introduction to algebraic structures and to the axiomatic approach, including the elements of linear algebra. Designed for teachers and prospective teachers. Students who have passed Math 435 may not schedule this course.
Effective: Fall 1988
Prerequisite:

MATH 471 Geometry for Teachers (4) Problem solving oriented introduction to Euclidean and non-Euclidean geometries; construction problems and geometrical transformations via "Geometer’s Sketchpad" software. Intended primarily for those seeking teacher certification in secondary mathematics. Students who have passed MATH 427 may not schedule this course.
Effective: Spring 1996
Prerequisite:
MATH 475 (US;IL) Introduction to the History of Mathematics (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Effective: Spring 2010
Prerequisite:

MATH 475W (US;IL) History of Mathematics (3) A global survey of the history of mathematics as viewed as a human response to cultural, political, economic, and societal pressures.
Effective: Spring 2012
Prerequisite:

MATH 479 (PHYS 479) Special and General Relativity (3) Mathematical description, physical concepts, and experimental tests of special and general relativity.
Effective: Spring 2007
Prerequisite:

MATH 482 Mathematical Methods of Operations Research (3) Survey of linear and nonlinear programming; mathematics of optimization; queues; simulation.
Effective: Spring 2007
Prerequisite:

MATH 484 Linear Programs and Related Problems (3) Introduction to theory and applications of linear programming; the simplex algorithm and newer methods of solution; duality theory.
Effective: Spring 1987
Prerequisite:

MATH 485 Graph Theory (3) Introduction to the theory and applications of graphs and directed graphs. Emphasis on the fundamental theorems and their proofs.
Effective: Spring 1987
Prerequisite:

MATH 486 Mathematical Theory of Games (3) Basic theorems, concepts, and methods in the mathematical study of games of strategy; determination of optimal play when possible.
Effective: Spring 2006
Prerequisite:

MATH 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1995

MATH 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

MATH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2007
Prerequisite:

MATH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

MATH 496A (CMPSC 496A) Introduction to Numerical Analysis II (1-6) Polynomial and piecewise polynomial approximation, matrix least squares problems, numerical solution of eigenvalue problems, numerical solution of ordinary differential equations.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MATH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

MATH 497A Honors Algebra (4) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 497A Complex Analysis of Mathematics and Engineering (3) Complex analysis with applications to science and engineering, complex algebra, analytic functions, complex contour integrals, series representations, residue theory.
Prerequisite:

MATH 497B Random Walk and Brownian Motion (4) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
MATH 497C **An Introduction to Geometric Topology in Dynamics** (4) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 497D **Complex Analysis for Mathematics and Engineering** (3) Complex analysis with applications to science and engineering, complex algebra, analytic functions, complex contour integrals, series representations, residue theory.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MATH 497E **MASS Honors Colloquium** (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 497F **Financial mathematics** (3) Theory of interest, stochastic processes, option pricing, hedging, portfolio optimization.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MATH 497M **MASS Interdisciplinary Seminar** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MATH 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MATH 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

NOTE: Courses in computer science and statistics are listed separately.
Last Import from UCM: June 2, 2012 12:27 PM
Mathematics Education (MTHED)

MTHED 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MTHED 411 Teaching Secondary Mathematics I (3) Conditions for learning mathematics; problem solving; subject matter types; curriculum; learning goals; nature and history of mathematics at secondary level
Effective: Spring 2007
Prerequisite: Concurrent: MTHED 427

MTHED 412W Teaching Secondary Mathematics II (3) Assessing learning and instruction; methods of evaluation and grading; long- term planning; accommodating needs of diverse learners; connecting theory and practice.
Effective: Summer 2010
Prerequisite: Concurrent: C I 412W C I 495C

MTHED 420 Teaching Mathematics in the Elementary Schools (3) Strategies for teaching mathematics at the elementary school level; analysis of the philosophy and content of contemporary programs of instruction.
Effective: Spring 2007
Prerequisite: Concurrent: C I 495A or C I 495B ; SCIED 458 SS ED 430W

MTHED 424 Contemporary School Mathematics Programs (3) In-depth analysis of school mathematics programs and the factors and forces influencing them; contemporary curriculum developments.
Effective: Summer 2010
Prerequisite:

MTHED 427 Teaching Mathematics in Technology-Intensive Environments (3) Interaction among pedagogy, content, and technology in mathematics teaching and learning in technology-intensive environments; secondary, early college curricula; laboratory experience.
Effective: Spring 2007
Prerequisite: Concurrent: MTHED 411

MTHED 430 Students' Mathematical Thinking (3 per semester, maximum of 6) Develop abilities in planning, conducting, and interpreting mathematics interviews to gain an understanding of students' thinking processes and current knowledge.
Effective: Summer 1994
Prerequisite:

MTHED 431 Data Analysis in Secondary School Mathematics (3) Intense development of foundations of data analysis for secondary mathematics as a process using statistical concepts for predictions and inferences.
Effective: Summer 2006
Prerequisite:

MTHED 432 Mathematical Modeling in Secondary School Mathematics (3) Students work from teaching and curricular perspective to explore and apply school and undergraduate mathematics to model real-world phenomena.
Effective: Summer 2006
Prerequisite:

MTHED 433 Function Concept in Secondary School Mathematics (3) This course develops the concept of function as an essential topic that underlies and connects school and collegiate mathematics.
Effective: Summer 2006
Prerequisite:

MTHED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

MTHED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MTHED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MTHED 498A AP Statistics (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012
MTHED 498B AP Calculus AB (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Mechanical Engineering (M E)

M E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1998

M E 097S Explore Mechanical Engineering Research (1) Discusses the wide breadth of research topics in mechanical engineering and how to prepare yourself for a research position.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

M E 101S Toy Fundamentals: First-Year Seminar (1) First-Year Seminar focusing on toy design and manufacture.
Effective: Fall 1999

M E 102S Smart Lego Robots & Design (1) First-Year Seminar focusing on the development of technology exploration kits for middle-school-aged children.
Effective: Fall 2004

M E 104S Environmentally Conscious Engineering: First-Year Seminar (1) A First-Year Seminar focusing on environmental issues as they pertain to the engineering profession.
Effective: Fall 1999

M E 105S Product Dissection A: Bicycles--First-Year Seminar (1) A First-Year Seminar in which students analyze and disassemble a multi-speed bicycle.
Effective: Fall 1999

M E 106S Product Dissection B: Household Appliances--First-Year Seminar (1) A First-Year Seminar in which students analyze and disassemble household appliances.
Effective: Fall 1999

M E 107S Product Dissection C: The Enigmatic Engine--First-Year Seminar (1) A First-Year Seminar in which students analyze and disassemble a single-cylinder lawnmower engine.
Effective: Fall 1999

M E 190S Special Topics in Mechanical Engineering: First-Year Seminar (1) A First-Year Seminar focusing on issues related to Mechanical Engineering.
Effective: Fall 1999

M E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

M E 201 Introduction to Thermal Science (3) Application of the basic concepts of thermodynamics, fluid dynamics, and heat transfer to the solution of engineering problems.
Effective: Fall 2007
Prerequisite:

M E 240 Product Dissection (3) Dissection of products and processes; reverse engineering, examination of materials usage, manufacturing processes, design, invention, and consumer issues.
Effective: Fall 2007
Prerequisite:

M E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1995

M E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

M E 300 Engineering Thermodynamics I (3) Basic thermodynamics concepts, properties of pure substances, first and second law analysis of systems and control volumes.
Effective: Fall 2007
Prerequisite:

M E 302 Engineering Thermodynamics (4) Engineering thermodynamics and heat transfer, with pertinent applications to devices important in mechanical engineering. For students in engineering science.
Effective: Fall 2007
Prerequisite:

M E 308 Fluid Flow and Heat Transfer Laboratory (1) Experimental work to enhance understanding of thermodynamics, fluid dynamics, and heat transfer.
Effective: Fall 2007

Prerequisite:

M E 315 Heat Transfer Laboratory (1) Application of the fundamental concepts associated with conduction, convection, and radiation to the actual measurements of heat transfer.
Effective: Fall 2007

Prerequisite:

M E 320 Fluid Flow (3) Thermodynamic and dynamic principles applied to fluid behavior; ideal, viscous, and compressible fluids under internal and external flow conditions.
Effective: Spring 2008

Prerequisite:

M E 325 Fluids Laboratory (1) Laboratory experience with fluid mechanics measurement techniques: flow visualization, pressure measurement, hot-wire anemometry, laser Doppler anemometry, computer data acquisition.
Effective: Fall 2007

Prerequisite:

M E 340 Mechanical Engineering Design Methodology (3) The design process; problem definition, conceptual design, system design, detail design, evaluation and test, implementation, documentation and communication.
Effective: Fall 2007 Ending: Summer 2012

Prerequisite:

M E 340 Mechanical Engineering Design Methodology (3) The design process; problem definition, conceptual design, system design, detail design, evaluation and test, implementation, documentation and communication.
Effective: Fall 2012 Future: Fall 2012

Prerequisite:

M E 345 Instrumentation, Measurements, and Statistics (4) Fundamentals of statistics, sensors, instrumentation, and measurement of mechanical phenomena such as temperature, flow, pressure, force, stress, displacement, and acceleration.
Effective: Spring 2008

Prerequisite:

M E 345W Instrumentation, Measurements, and Statistics (4) Measurement concepts, probability and statistics, error analysis; electro- mechanical transducers, applied electrical and mechanical measurements, electrical and electronics instruments, data acquisition and instrumentation systems.
Effective: Spring 2008

Prerequisite:

M E 347 Computer-Aided Engineering (3) Introduction to the tools and techniques of computer-aided design, including CAD, spreadsheets, numerical methods, and finite element analysis.
Effective: Spring 2008

Prerequisite:

Effective: Summer 2011

Prerequisite:

M E 355 Dynamic Systems Laboratory (1) Experimental investigation of simple position, velocity, and temperature control systems with analog and digital controllers.
Effective: Spring 2011

Prerequisite:

M E 357 System Dynamics (3) Mathematical modeling and analysis of linear dynamic systems; performance and design of simple controllers.
Effective: Fall 2011

Prerequisite:

M E 360 Mechanical Design (3) Specification of components such as shafts, bearings, and power transformers; optimal designs for operational, environmental, and manufacturing requirements.
Effective: Spring 2011 Ending: Summer 2012

Prerequisite:

M E 360 Mechanical Design (3) Specification of components such as shafts, bearings, and power transformers; optimal designs for operational, environmental, and manufacturing requirements.
Effective: Fall 2012 Future: Fall 2012

Prerequisite:

M E 365 Materials Testing Laboratory (1) Laboratory for materials testing, property identification and modification, failure analysis, and metallurgical testing.
Effective: Fall 2011
Prerequisite: Concurrent: MATSE 259

M E 368 Materials Properties and Characterization (4) Properties and characteristics of materials.
Effective: Spring 2008
Prerequisite:

M E 370 Vibration of Mechanical Systems (3) Modeling and analysis of vibration characteristics of mechanical systems with single degree and multiple degrees of freedom. Vibration control by isolation, absorption and balancing.
Effective: Spring 2011
Prerequisite:

M E 375 Vibrations Laboratory (1) Experimental measurement and analysis of mechanical system dynamics.
Effective: Fall 2007
Prerequisite:

M E 380 Machine Dynamics (3) Kinematic analysis of mechanisms such as linkages, flywheels, cams and gears. Dynamic forces and vibrations of mechanisms.
Effective: Spring 2009
Prerequisite:

M E 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Fall 2007
Prerequisite:

M E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

M E 400 Thermodynamics of Propulsion and Power Systems (3) Analysis and modeling of propulsion and power systems, including combustion, compressible flow through nozzles, chemical equilibrium, and moist air systems.
Effective: Fall 2007
Prerequisite:

M E 401 Refrigeration and Air Conditioning (3) Theoretical principles, design, performance, and selection of various refrigeration and air-conditioning systems; building heat and cooling loads; solar heating.
Effective: Fall 2007
Prerequisite:

M E 402 Power Plants (3) A study of fossil-fuel steam generation and utility plants, including cogeneration, gas turbine, and combined cycles.
Effective: Fall 2007
Prerequisite:

M E 403 Polymer Electrolyte Fuel Cell Engines (3) Introduction to Fundamentals of Polymer Electrolyte Fuel Cells (PEFCs). Includes fundamentals of electrochemistry, thermodynamics, fluid mechanics, heat transfer materials, and manufacturing issues of PEFCs. A brief survey of other fuel cell types is also included.
Effective: Spring 2011
Prerequisite: Concurrent: M E 410 or equivalent

M E 404 Gas Turbines (3) Thermodynamic cycles relating to gas turbines; analysis and performance of compressors, combustion chambers, single- and multi-stage turbines; recent developments.
Effective: Fall 2007
Prerequisite:

M E 405 Indoor Air Quality Engineering (3) Prediction of the motion of contaminants (both gaseous particulate) in gas streams; analysis of ventilation systems and air pollution control systems; comparison of experimental sampling techniques.
Effective: Fall 2007
Prerequisite:

M E 406 (NUC E 406) Introduction to Statistical Thermodynamics (3) Statistical description of systems composed of large numbers of particles in the context of classical and quantum mechanics; basic concepts of probability theory and thermodynamics as they relate to statistical mechanics.
Effective: Fall 2007
Prerequisite:

M E 408 Energy Systems (3) Theory, analysis, design, selection, and application of energy conversion systems.
Effective: Fall 2011
Prerequisite:

M E 410 Heat Transfer (3) Thermal energy transfer mechanisms: conduction (steady, transient), convection (internal, external), radiation; lumped parameter method; heat exchangers; introduction to numerical methods.
Effective: Spring 2011
Prerequisite:

M E 411 Heat-Exchanger Design (3) Thermal design and application of different heat-exchanger types, including surface selection and design optimization.
Effective: Fall 2007
Prerequisite:
M E 420 *Compressible Flow I* (3) Introductory compressible flow (gas dynamics), mathematical background, and physical concepts of isentropic flow, shock waves, expansion waves, and applications.
Effective: Fall 2007
Prerequisite:

M E 421 *Viscous Flow Analysis and Computation* (3) Apply analytical and computational methods to solve the differential equations describing fluid flow. Incompressible external flows past objects and internal flows in pipes and ducts are some problems considered.
Effective: Spring 2011
Prerequisite:

M E 422 *Principles of Turbomachinery* (3) Application of Newton's laws of motion and basic laws of thermodynamics to analysis of fluid flow in turbomachinery.
Effective: Fall 2007
Prerequisite:

M E 427 *Incompressible Aerodynamics* (3) Analysis of lift and drag using potential flow theory, effects of viscosity on potential flow calculations, wind tunnel testing.
Effective: Fall 2007
Prerequisite:

M E 428 *Applied Computational Fluid Dynamics* (3) Introduction to theory and application of computational techniques for solving fluid flow and heat transfer.
Effective: Fall 2011
Prerequisite:

M E 430 (EGEE 430) *Introduction to Combustion* (3) Concepts related to laminar and turbulent premixed and nonpremixed combustion with applications to propulsion and stationary systems.
Effective: Fall 2009
Prerequisite:

M E 431 *Internal Combustion Engines* (3) Thermodynamic aspects of internal combustion engine design and performance; two- and four-stroke cycle, supercharged and non-supercharged, diesel and spark-ignition types.
Effective: Fall 2007
Prerequisite:

M E 432 *Rocket Propulsion* (3) Design and performance of rocket propulsion components and systems; thermodynamics, solid and liquid fuels, heat transfer, materials, controls, and instrumentation.
Effective: Fall 2007
Prerequisite:

M E 433 *Fundamentals of Air Pollution* (3) Natural and man-made sources of pollution; atmospheric dispersion; biological and health effects; control systems; legislation and regulations.
Effective: Fall 2007
Prerequisite:

M E 440W *Mechanical Systems Design Project* (3) Design and analysis of mechanical components and systems. Application of fundamental design and analysis methods to open ended engineering problems.
Effective: Fall 2007
Prerequisite:

M E 441W *Thermal Systems Design Project* (3) Design of thermal systems through component design and/or selection, system simulation and optimization. Assessment of system economics and energy efficiency.
Effective: Fall 2007
Prerequisite:

M E 442W *Advanced Vehicle Design I* (2) Part one of a two course sequence; applications of design and analysis methods to open-ended advanced transportation vehicles. Two semester course; satisfies Senior Design or ME Technical Elective requirements (when combined with M E 443W).
Effective: Summer 2010
Prerequisite: Concurrent: M E 410

M E 443W *Advanced Vehicle Design II* (1) Part two of a two course sequence; applications of design and analysis methods to open-ended advanced transportation vehicles. Two semester course; satisfies Senior Design or ME Technical Elective requirements (when combined with M E 442W).
Effective: Summer 2010
Prerequisite:

M E 444 *Engineering Optimization* (3) Problem formulation, algorithms and computer solution of various engineering optimization problems.
Effective: Spring 2010
Prerequisite:

M E 445 *Microcomputer Interfacing for Mechanical Engineers* (4) Interfacing of electro-mechanical systems to microcomputers for data acquisition, data analysis and digital control.
Effective: Fall 2007
Prerequisite:

Case studies in engineering applications.
Effective: Spring 2011
Prerequisite:

M E 448 Engineering Design Concepts (3) Engineering design and modelling, engineering economic analysis techniques, technical communication skills, project planning and design.
Effective: Fall 2011
Prerequisite: Concurrent: M E 367 M E 410

M E 449 Mechanical Design Projects (3) Group or individual design projects in the areas of mechanical engineering.
Effective: Fall 2007
Prerequisite:

Effective: Fall 2007
Prerequisite:

M E 452 Vehicle Road Dynamics (3) Investigations of three-dimensional dynamics and design into the study of vehicle dynamics including tire forces, suspension, and stability.
Effective: Fall 2007 Ending: Summer 2012
Prerequisite:

M E 452 Vehicle Road Dynamics (3) Investigations of three-dimensional dynamics and design into the study of vehicle dynamics including tire forces, suspension, and stability.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

M E 455 Automatic Control Systems (3) Dynamic analysis of systems involving automatic control of position, speed, power, flow, pressure, temperature, and other physical quantities.
Effective: Fall 2007
Prerequisite:

M E 456 (I E 456) Industrial Robot Applications (3) Introduction to robotics, with emphasis on robot selection, programming, and economic justification for manufacturing applications.
Effective: Spring 2011
Prerequisite:

M E 456 Advanced Machine Design Problems (3) Special machine design problems in unusual types of springs; gear problems and involutometry; cam design and application; multiple diameter shaft deflections and ball bearings.
Effective: Fall 2007
Prerequisite:

M E 461 (E MCH 461) Finite Elements in Engineering (3) Computer modeling and fundamental analysis of solid, fluid, and heat flow problems using existing computer codes.
Effective: Spring 2011
Prerequisite:

M E 462 Lubrication in Machine Design (3) Lubricants and lubrication with applications to design aspects of machines and mechanisms including bearings, gears, cams, and automotive engines.
Effective: Fall 2007
Prerequisite:

M E 465 Introduction to Manufacturing Laboratory (1) A laboratory-based introduction to manufacturing processes including material removal, forming, casting and joining for metals and non-metals.
Effective: Fall 2011
Prerequisite: Concurrent: M E 468

M E 467 Applied Finite Element Analysis (3) Review of matrix algebra; discretization; finite element formulation; application of finite element computer codes.
Effective: Fall 2011
Prerequisite:

M E 468 Engineering for Manufacturing (3) Manufacturability, the selection of the most effective materials and processes, and quality assurance.
Effective: Spring 2009
Prerequisite:

M E 469 Metallic Manufacturing Processes (3) Principles of metal working and introduction to current theories; analysis of deformation, joining, and metal removal processes.
Effective: Fall 2011
Prerequisite:

M E 470 (E MCH 470) Analysis and Design in Vibration Engineering (3) Application of Lagrange’s equations to mechanical system modeling, multiple-degree-of-freedom systems, experimental and computer methods; some emphasis on design applications.
Effective: Spring 2008
Prerequisite:

**Effective: Fall 2007**  
Prerequisite:  

M E 480 *Mechanism Design and Analysis* (3) Design and analysis of mechanical linkages including kinematic synthesis and dynamic analysis. Linkages for a variety of applications are considered.  
Effective: Spring 2011  
Prerequisite:  

Effective: Spring 2011  
Prerequisite:  

M E 491 *Bioengineering Applications of Mechanical Engineering* (3) Application of mechanical engineering knowledge in the context of life sciences.  
Effective: Fall 2011  
Prerequisite:  

M E 494 *Research Project* (1-12) Supervised student activities on research projects identified on an individual or small-group basis.  
Effective: Fall 2007

M E 494H *Senior Thesis* (1-9) Students must have approval of a thesis adviser before scheduling this course.  
Effective: Spring 2007  
Prerequisite:  

M E 495 *Internship* (1-18) Supervised off-campus, non-group instruction including field experiences, practica, or internships. Written and oral critique of activity required.  
Effective: Fall 2007  
Prerequisite:  

M E 496 *Independent Studies* (1-18) Creative projects, including non-thesis research, which are supervised on an individual basis and which fall outside the scope of formal courses.  
Effective: Fall 1983

M E 497 *Special Topics* (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Fall 1983

M E 499 (IL) *Foreign Studies* (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2008

Last Import from UCM: June 2, 2012 12:27 PM
Mechanical Engineering Technology (MET)

MET 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MET 105 **Mechanical Systems** (3) Mechanical Systems with Laboratory is an introductory course for Engineering Technology major students to broadly introduce Mechanical Engineering Technology.
Effective: Spring 2008

MET 107 **Computer Applications for Technologists** (3) Programming spreadsheets, data bases and presentation software for solutions of technical problems; introduction to languages allowing creation of program macros.
Effective: Spring 2010
Prerequisite: Concurrent: MATH 026 MATH 022 or MATH 081 or

MET 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MET 206 **Dynamics** (3) Kinematics (particles and rigid bodies), kinetics, work-energy, impulse- momentum; select mechanisms associated with local industries.
Effective: Fall 2008
Prerequisite: Concurrent: MATH 083 or MATH 140

MET 210W **Machine Design** (3) Design machine elements including bearings, springs, levers, shafts, gears, belts, and small mechanical devices; writing skills and computer applications.
Effective: Spring 2008
Prerequisite:

MET 281 **Elementary Thermo- and Fluid Dynamics** (4) Basic problems in compressible fluid flow. Laws of dynamics and thermodynamics, mechanical properties of fluids, elementary heat transfer.
Effective: Spring 2007
Prerequisite:

MET 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2007

MET 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

MET 306 **Computer-Aided Design** (3) Computer-aided drafting and design; computer software solutions to mechanical engineering technology design problems.
Effective: Spring 2010
Prerequisite:

MET 308 **Computer Aided Solid Modeling and Analysis** (3) Basic techniques necessary to perform Computer Aided Design and Analysis in three dimensions for machine components.
Effective: Spring 2007

MET 320 **Strength of Materials** (3) Principles of stress and strain in 3D, indeterminate structures, failure theory, fatigue and fracture mechanics.
Effective: Spring 2008
Prerequisite:

MET 321 **Analytical Techniques** (2) A study of engineering methods of problem formulation and solution; includes differential methods, dimensional analysis, and graphical analysis.
Effective: Spring 2008
Prerequisite: Concurrent: integral calculus

MET 330 **Thermodynamics** (3) Introduction for technologists to the basic concepts and applications of thermodynamics.
Effective: Fall 2011
Prerequisite:

MET 331W **Heat Transfer** (4) Introduction for technologists to the basic concepts and applications of heat transfer. Includes a thermodynamics and heat transfer laboratory.
Effective: Fall 2007
Prerequisite:

MET 332 **Thermal Engineering A** (3) Basic thermodynamic units, concepts, properties of ideal gases and vapors, first and
second laws, gaseous mixtures, one-dimensional compressible flow.
Effective: Summer 2007
Prerequisite:

MET 334 Engineering Thermodynamics and Heat Transfer (3) Basic thermodynamic concepts and definitions, first and second laws; properties of pure substances; cycle analysis; power generation; heat transfer.
Effective: Summer 2007
Prerequisite:

MET 336 Engineering Fluid Mechanics (3) Thermal and dynamic principles applied to fluid behavior, ideal, viscous, and compressible fluids under internal and external flow conditions.
Effective: Spring 2008
Prerequisite: Concurrent: Chemistry Physics Calculus

Effective: Spring 2012
Prerequisite: Concurrent: PHYS 212 or PHYS 151 PHYS 251

MET 342 Instrumentation (2) Measuring system responses of first and second order instruments; fundamentals of mechanical measurements, including pressure, temperature, fluid flow, etc.
Effective: Spring 2007

MET 358 Process Design Engineering (3) Introduction to process design for production applications from job shop to world-class manufacturing environments.
Effective: Spring 2010
Prerequisite:

MET 365 Design of Machine Elements (3) Design of structural and mechanical elements with emphasis on theories of fatigue failure.
Effective: Fall 2008
Prerequisite:

MET 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

MET 403 Advanced Mechanical Design (3) Continuation of strength of materials and machine design, with emphasis on advanced methods of design and analysis of machine elements.
Effective: Spring 2007
Prerequisite:

MET 415 Finite Element Analysis Applications I (3) Solutions of advanced engineering design problems using finite elements. Intended for engineering technologists.
Effective: Spring 2007
Prerequisite:

MET 417 Finite Element Analysis (3) Formulation and computer implementation of finite element models for solving problems in heat transfer, fluid flow, and solid mechanics.
Effective: Spring 2007
Prerequisite:

MET 418 Finite Element Analysis for Plastics Design (3) Solutions of advanced engineering problems using finite element and finite difference techniques; advanced topics in computer-aided manufacturing; problems in optimization and design.
Effective: Spring 2007
Prerequisite:

MET 425 Finite Element Analysis Applications II (3) Solutions of advanced engineering design problems using finite element methods.
Effective: Spring 2007
Prerequisite:

MET 431 Heat Transfer (3) Basic principles of conduction, convection, and radiation with applications.
Effective: Spring 2007
Prerequisite:

MET 432 Fluid Power (3) Principles of fluid flow, hydraulic components, and hydraulic circuits having application to industry.
Effective: Fall 2007
Prerequisite:

MET 435 Building Energy Systems (3) Analysis and design of components and systems for building heating and cooling; emphasis on applying the thermal sciences.
Effective: Spring 2007
Prerequisite:

MET 438 Thermal Engineering B (3) Applied thermodynamics of power cycles; refrigeration and air conditioning cycles; combustion; psychometrics; and gas mixtures.

The Pennsylvania State University
Vibrations for Technologists (3:) Principles of basic vibration theory, vibration measurement, data acquisition and analysis, and the effective presentation of vibration data.

Vibration Analysis (4:) Analysis of motion arising from lateral and torsional vibrations of systems; free and forced vibrations; damping; isolation; balancing.

Mechanical Engineering Technology Laboratory B (2:) Laboratory exercises in the areas of instrumentation, strength of materials, fluid flow, vibrations, thermodynamics, etc.

Manufacturing Engineering (3:) Design, analysis and operational issues related to improved productivity and efficiency in modern manufacturing systems.

Rapid Prototyping (3:) Introduction to the production of prototypes directly from computer models.

Automatic Controls (3:) An introduction to basic automatic control theory, practical applications of automatic controls to typical industrial machinery, HVAC equipment, etc.

Mechatronics (3:) Integration of mechanical and electronic systems implemented using data acquisition systems, sensors, actuators, signal conditioning, feedback controls, and programmable logic controllers.

Lean Manufacturing (3:) Principles and methods of Lean Manufacturing currently used in modern industries.

Advanced Machine Design (3:) Stress analysis, material selection, design of machine elements, design of connections, and computer-aided design.

Internal Combustion Engine Design (3:) The effect of operation requirements on design and construction of internal combustion engines; study of support systems and emissions control.

Materials Engineering (3:) Study of material selection, material properties, material test methods, and special topics.

Senior Capstone (1:) Career and professional topics; development of year-long senior project with industry.

Project Design (1) Design of system or machine, including decision making, engineering analysis, layout, detail drawings, specifications, construction.

Senior Industrial Project (3:) Individual or group design projects in mechanical design or materials.

Project Design (3:) Design of system or machine, including decision making, engineering analysis, layout, detail drawings, specifications, construction.

Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica or internships. Written and oral critique of activity required.

Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
MET 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

MET 497A Power Plants (3) Design, construction and performance of large utility power plants for the generation of electricity utilizing fossil and nuclear fuels.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

MET 497B Energy Conservation Systems (3) Analyze processes and systems for energy conversion, including power, refrigeration and air conditioning cycles, thermoelectric, and fuel cells.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Mechanical Technology (MCH T)

MCH T 111 **Mechanics for Technology: Statics** (3) Forces; moments; resultants; two- and three-dimensional equilibrium of force systems; friction; centroids and moments of inertial of areas.
Effect: Fall 2008
Prerequisite:

MCH T 112 **Statics Laboratory** (1) Laboratory experimentation associated with basic engineering mechanics principles and concepts including forces, moments, equilibrium, trusses, frames, friction, and centroids.
Effect: Spring 2008
Prerequisite: Concurrent: MCH T 111

MCH T 212 **Introduction to Dynamics** (3) Absolute and relative motion related to particles and simple linkages. Force-mass-acceleration, work-energy, and impulse-momentum solution techniques.
Effect: Spring 1996
Prerequisite:

MCH T 213 **Strength and Properties of Materials** (3) Axial stress and strain; shear; torsion; beam stresses and deflections; combined axial and bending stresses; columns, ductility, resilience, and toughness.
Effect: Fall 2008
Prerequisite:

MCH T 214 **Strength and Properties of Materials Laboratory** (1) Measurement of mechanical properties of materials; structural testing, data acquisition and analysis; technical laboratory report writing.
Effect: Spring 2010
Prerequisite: Concurrent: MCH T 213

MCH T 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effect: Summer 1997

Last Import from UCM: June 2, 2012 12:27 PM
Medieval Studies (MEDVL)

MEDVL 107 (GH;IL) (HIST 107) Medieval Europe (3) Rise and development of the civilization of medieval Europe from the decline of Rome to 1500. Effective: Spring 2006

MEDVL 108 (GH;IL) Medieval Civilization (3) An interdisciplinary introduction to literature, art, and thought of the Middle Ages. Effective: Spring 2006

MEDVL 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

MEDVL 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

MEDVL 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

MEDVL 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

MEDVL 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996
Prerequisite:

MEDVL 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

MEDVL 411 (IL) (HIST 411) Medieval Britain (3) Political, cultural, and economic history of Britain from circa 400 to 1485 with an emphasis on the kingdom of England. Effective: Spring 2006
Prerequisite:

MEDVL 413 (IL) (HIST 413) Medieval Celtic Studies (3) Celtic civilization from antiquity to the end of the middle ages. Effective: Spring 2006
Prerequisite:

MEDVL 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

MEDVL 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

MEDVL 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 2002
Prerequisite:

MEDVL 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 1995

MEDVL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

MEDVL 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

The Pennsylvania State University
Meteorology (METEO)

METEO 002 (GN) **Our Changing Atmosphere: Personal and Societal Consequences** (3) A survey of meteorology emphasizing how the nature of our lives, individually/societally, depends upon atmospheric structure, quality, and processes.
Effective: Spring 2003

METEO 003 (GN) **Introductory Meteorology** (3) Nontechnical treatment of fundamentals of modern meteorology and the effects of weather and climate. A student who took METEO 002 may take the laboratory part of this course for 1 credit only.
Effective: Spring 2003

METEO 004 (GN) **Weather and Risk** (3) Non-technical introduction to the science and historical development of meteorology, and the role of weather forecasting as a tool for risk management by individuals, businesses, and societies.
Effective: Summer 2007

METEO 005 (GN) **Severe and Unusual Weather** (3) Non-technical introduction to the physical processes important in the formation of various severe and unusual weather phenomena.
Effective: Summer 2011

METEO 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2010

METEO 101 (GN) **Understanding Weather Forecasting** (3) Fundamental principles of synoptic and physical meteorology, satellite and radar imagery, and data analysis in the setting of mid-latitude weather forecasting.
Effective: Fall 2001

METEO 122 (GN) (AGECO 122) **Atmospheric Environment: Growing in the Wind** (3) Students will learn about the effect of weather on plants, animals, and humans.
Effective: Summer 2006

METEO 200A **Introduction to Weather Analysis I** (1.5) Introduction to the collection, display, and application of weather observations used by the operational meteorologist. Students who have passed METEO 201 may not schedule this course for credit.
Effective: Fall 1998

METEO 200B **Introduction to Weather Analysis II** (1.5) Introduction to the collection, display, and application of numerical weather forecasts used by the operational meteorologist. Students who have passed METEO 201 may not schedule this course for credit.
Effective: Fall 1998
Prerequisite:

METEO 201 **Introduction to Weather Analysis** (3) Introduction to the collection, display, and application of weather observations and numerical forecasts used by the operational meteorologists. Students who have passed both METEO 200A and 200B may not schedule this course for credit.
Effective: Spring 1999

METEO 215 **Weather Forecast Preparation Laboratory** (0.5 per semester/maximum of 4) Forecast methods/data discussed prior to nightly weather forecast entry. Satisfactory performance will be determined by attendance and forecast accuracy.
Effective: Spring 2011
Concurrent: METEO 101 METEO 200A and METEO 200B or METEO 201

METEO 241 **Fundamentals of Tropical Forecasting** (3) Applying atmospheric principles to the tropics, with an emphasis on the development, structure, prediction and destructive impact of hurricanes.
Effective: Spring 2004
Prerequisite:

METEO 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

METEO 297 **Special Topics** (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1989
METEO 297A Introduction to Programming Techniques for Meteorology (3) Algorithm design and implementation for meteorological analysis and forecasting.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

METEO 297A Introduction to Programming Techniques for Meteorology (3) Algorithm design and implementation for meteorological analysis and forecasting.

METEO 300 Fundamentals of Atmospheric Science (4) An introduction to the fundamentals of atmospheric dynamics, physics, and chemistry.
Effective: Fall 2009
Prerequisite: Concurrent: MATH 230 or MATH 231

METEO 361 Fundamentals of Mesoscale Weather Forecasting (3) Applying atmospheric principles to small-scale weather systems, with an emphasis on the conceptual modeling and short-range prediction of severe thunderstorms.
Effective: Spring 2004
Prerequisite:

METEO 395A Internship in Meteorological Communication (3 per semester/maximum of 6) Meteorology internship focusing on communication of weather forecasts or other atmospheric information.
Effective: Summer 2010
Prerequisite:

METEO 395B Private Sector Meteorology Internship (3 per semester/maximum of 6) Private sector internship focusing on atmospheric problems and applications.
Effective: Summer 2010
Prerequisite:

METEO 395C Internship in Meteorological Operations (3 per semester/maximum of 6) Internship focusing on time-sensitive operational meteorological applications such as weather or climate forecasts.
Effective: Summer 2010
Prerequisite:

METEO 395D International Meteorological Internship (3 per semester/maximum of 6) An internship in an international setting that focuses on applying meteorological knowledge.
Effective: Summer 2010
Prerequisite:

METEO 395E Off-Campus Meteorological Research Internship (3 per semester/maximum of 6) Meteorological internship focusing on an off-campus research project.
Effective: Summer 2010
Prerequisite:

METEO 410 Advanced Topics in Weather Forecasting (3) Exploring highly specialized topics and techniques in weather forecasting that span from mesoscale to planetary spatial scales and short-term to long-range time scales.
Effective: Spring 2004
Prerequisite:

METEO 411 Synoptic Meteorology Laboratory (4) Techniques of analyzing synoptic scale weather situations; introduction to weather forecasting.
Effective: Spring 2004
Prerequisite:

METEO 413 Map Analysis (3) Analysis of actual surface weather observations, with emphasis on the Norwegian cyclone model, missing or bad data, and mesoscale phenomena.
Effective: Fall 2002
Prerequisite:

METEO 414 Mesoscale Meteorology (4) A survey of conceptual models and analysis techniques for mesoscale atmospheric features.
Effective: Summer 1996
Prerequisite:

METEO 415 Forecasting Practicum (3) Modern techniques in weather analysis and forecasting.
Effective: Spring 2011
Prerequisite:

METEO 416 Advanced Forecasting (3) Competitive, simulated, operational, real-time forecasting is covered.
Effective: Spring 1998
Prerequisite:

METEO 418W Topics in Mesoscale Meteorology (3) Topics in mesoscale meteorology will be investigated in an independent study environment through computer-based modules, papers, and semester project.
Effective: Fall 1995
Prerequisite:

METEO 419 Air Quality Forecasting (3) Issues relating to the prediction and dispersion of air pollutants as discussed.

The Pennsylvania State University
Effective: Summer 2010
Prerequisite:

METEO 421 Atmospheric Dynamics (4) Balanced and unbalanced flows, vorticity, circulation and potential vorticity, an introduction to wave dynamics and stability analysis, and a quantitative discussion of the general circulation.
Effective: Fall 2009
Prerequisite: Concurrent: METEO 431 MATH 251 PHYS 212

METEO 422 Advanced Atmospheric Dynamics (3) Survey of advanced dynamical topics including instabilities, numerical modeling, and others of current interest.
Effective: Fall 2009

Prerequisite:

METEO 431 Atmospheric Thermodynamics (3) Classical thermodynamics applied to both the dry and the moist atmosphere.
Effective: Spring 2001
Prerequisite:

METEO 434 Radar Meteorology (3) Fundamental operating principles of radars, with application to observation of meteorological phenomena.
Effective: Fall 2001
Prerequisite: Concurrent: METEO 414

METEO 436 Radiation and Climate (3) Elements of earth-sun geometry, radiative transfer, photochemistry, remote sensing of the atmosphere, physical climatology, climate forcing.
Effective: Fall 2009 Ending: Fall 2012
  Concurrent: METEO 431

METEO 437 Atmospheric Chemistry and Cloud Physics (3) Properties of aerosols and clouds, cloud nucleation and precipitation processes, atmospheric electricity, cloud and precipitation chemistry, biogeochemical cycles.
Effective: Fall 2009 Ending: Fall 2012
Prerequisite:

METEO 437 Atmospheric Chemistry and Cloud Physics (3) Properties of aerosols and clouds, cloud nucleation and precipitation processes, atmospheric electricity, cloud and precipitation chemistry, biogeochemical cycles.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

METEO 440W Principles of Atmospheric Measurements (3) Theory and practices used in measurement and analysis of meteorological variables.
Effective: Fall 2010
Prerequisite:

METEO 445 Laboratory in Atmospheric Physics I (1) Measurement practices, data analysis and management, radiometry lidars and radars, trace gas measurements.
Effective: Spring 1991
Prerequisite:

METEO 446 Laboratory in Atmospheric Physics II (1) Experimental practices in cloud and aerosol physics, atmospheric electricity, atmospheric chemistry, radar meteorology.
Effective: Spring 1991
Prerequisite:

METEO 451 Introduction to Physical Oceanography (3) Air-sea interaction, wind-driven and thermohaline circulations, upwelling, El Nino, waves, and tides.
Effective: Spring 2007
Prerequisite:

METEO 452 Tropical Meteorology (3) Atmospheric processes in the tropics; mass, heat, energy, momentum, and water vapor budgets, cumulus convection, hurricanes and other disturbances.
Effective: Fall 1983
Prerequisite:

METEO 454 Introduction to Micrometeorology (3) Physical processes and their measurement in the lowest layers of the atmosphere; application to hydrology, plant systems, and air pollution.
Effective: Fall 2009
Prerequisite:

METEO 455 Atmospheric Dispersion (3) The basic principles of atmospheric flow, introduction to the modeling of turbulent diffusion, and the use of EPA dispersion models.
Effective: Spring 2011
Prerequisite:

METEO 460 Weather Risk and Financial Markets (3) This course will introduce the role that weather plays as a source of financial and operational risk for businesses, market and other institutions.
Effective: Spring 2012
Prerequisite:

METEO 465 Middle Atmosphere Meteorology (3) A topical survey of physical, chemical, and dynamical processes at work in the stratosphere and mesosphere (middle atmosphere).
Effective: Spring 1988
Prerequisite:

METEO 466 Planetary Atmospheres (3) A survey of planetary atmospheres and the chemical and physical processes by which they form and evolve.
Effective: Spring 2001
Prerequisite:

METEO 469 From Meteorology to Mitigation: Understanding Global Warming (3) Introduction to global warming and climate change: the basic, science, projected impacts, and approaches to mitigation.
Effective: Summer 2010
Prerequisite:

METEO 470 Climate Dynamics (3) The fundamental principles that govern Earth's climate and their relevance to past and future climate change.
Effective: Spring 2002 Ending: Fall 2012
Prerequisite: Concurrent: METEO 436

METEO 470 Climate Dynamics (3) The fundamental principles that govern Earth's climate and their relevance to past and future climate change.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

METEO 471W Observing Meteorological Phenomena (3) Teaching the observational and interpretative skills needed to read the sky.
Effective: Spring 1999
Prerequisite:

METEO 473 Application of Computers to Meteorology (3) Application of statistical and numerical methods to practical problems in meteorology.
Effective: Spring 2008
Prerequisite:

METEO 474 Computer Methods of Meteorological Analysis and Forecasting (3) Distribution of scalars and vectors; sampling; regression and correlation in two and three dimensions; time series, statistical forecasting; forecast verification.
Effective: Summer 2010
Prerequisite:

METEO 477 (E E 477) Fundamentals of Remote Sensing Systems (3) The review of fundamental physical properties leads into discussions of various techniques, including imaging, spectroscopy, radiometry, and active sensing.
Effective: Spring 2008
Prerequisite:

METEO 480M Undergraduate Research (3) A research thesis will be prepared. A written and oral presentation required.
Prerequisite:

METEO 480W Undergraduate Research (3) A research thesis will be prepared. A written and oral presentation required.
Effective: Summer 1991
Prerequisite:

METEO 481 Weather Communications I (3) Multi-instructor weather communications survey including forecasting, science teaching and writing, television and radio broadcasting, climate studies, forensics, industrial applications.
Effective: Spring 2004
Prerequisite:

METEO 482 Weather Communications II (3) Multi-instructor workshop designed to mimic real-life applications of weather communications in industry, broadcasting, the courtroom, and the classroom.
Effective: Spring 2002
Prerequisite:

METEO 483 Weather Communications III (3) Individualized course designed for in-depth study of weather communications in industry, broadcasting, the courtroom and/or the classroom.
Effective: Spring 2002
Prerequisite:

METEO 484 Weather Communications Apprenticeship (3) Mentor-led course that focuses on a specific issue of problem in weather communications related to broadcasting, climate or industry.
Effective: Summer 2003
Prerequisite:

METEO 485 National Weather Service Operations (2-3) Joint instruction with lead personnel from the State College National Weather Service Office on a variety of operational weather topics.
Effective: Summer 2003
Prerequisite:

METEO 486 Pennsylvania Climate Studies (1-2 per semester/maximum of 3) An overview of the Pennsylvania State
Climate Office and an introduction to various aspects of its operations.
Effective: Spring 2011
Prerequisite:

METEO 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2010

METEO 495A Meteorology Communications Internship (3 per semester/maximum of 6) Internship focusing on communication of weather forecasts or other meteorological information.
Effective: Summer 2010
Prerequisite:

METEO 495B Meteorology Private Sector Internship (3 per semester/maximum of 6) Internship focusing on meteorological problems and applications pursued by private sector companies.
Effective: Summer 2010
Prerequisite:

METEO 495C Meteorological Operations Internship (3 per semester/maximum of 6) Internship focusing on time-sensitive meteorological applications such as weather or climate forecasts that are produced.
Effective: Summer 2010
Prerequisite:

METEO 495D Meteorological International Internship (3 per semester/maximum of 6) Meteorological internship in an international setting.
Effective: Summer 2010
Prerequisite:

METEO 495E Meteorological Off-Campus Research Internship (3 per semester/maximum of 6) Off-campus meteorological internship focusing on a research project.
Effective: Summer 2010
Prerequisite:

METEO 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

METEO 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

METEO 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Microbiology (MICRB)

MICRB 106 (GN) Elementary Microbiology (3) Importance of microorganisms in health and disease, agriculture, and industry; descriptive course for students not planning advanced study in microbiology. The combination of MICRB 106 GN and 107 GN must be taken to receive General Education credit in biology. Effective: Spring 2002

MICRB 107 (GN) Elementary Microbiology Laboratory (1) Selected techniques used to observe, identify and count bacteria; effects of chemical and physical agents on microorganisms. The combination of MICRB 106 GN and 107 GN must be taken to receive General Education credit in biology. Effective: Spring 2002

Students must take a combination of MICRB 106 GN and 107 GN to receive General Education credit in biology.

MICRB 150 Introductory Medical Laboratory Technology (4) Introduction to basic principles and procedures of clinical laboratory work. Practicum emphasizes proper collection, handling, and preparation of biological samples. Effective: Spring 2000

Prerequisite:

MICRB 151A Seminar and Practicum for Medical Laboratory Technicians--Clinical Chemistry (7) Basic principles and procedures for measuring chemical components of blood and other body fluids. Effective: Summer 2007

Prerequisite:

MICRB 151C Seminar and Practicum for Medical Laboratory Technicians--Hematology (6) Red and white blood cell identification and enumeration. Related procedures for diagnosing normal or disease states. Effective: Summer 2007

Prerequisite:

MICRB 151D Seminar and Practicum for Medical Laboratory Technicians--Immunohematology (4) Immunologic considerations necessary for the transfusion of blood and blood products. Effective: Summer 2007

Prerequisite:

MICRB 151E Seminar and practicum for Medical Laboratory Technicians--Urinalysis (2) Identification of cellular and crystalline urinary sediments. Qualitative chemical analysis of urine. Effective: Summer 2007

Prerequisite:

MICRB 151F Seminar and Practicum for Medical Laboratory Technicians--Immunology/ Serology (2) Antigen-antibody interactions of diagnostic importance; methods used to identify and quantify antigen-antibody complexes. Effective: Summer 2007

Prerequisite:

MICRB 151W Seminar and Practicum for Medical Laboratory Technicians--Clinical Microbiology (6) Properties of normal and abnormal human microbial flora and procedures for their identification. Effective: Summer 2007

Prerequisite:

MICRB 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

MICRB 201 Introductory Microbiology (3) Elementary principles of microbial and viral structure, reproduction, genetics and physiology; relationship to food, water, soil, industrial and disease processes. Effective: Summer 2007

Prerequisite:

MICRB 201H Introductory Microbiology (3) Elementary principles of microbial and viral structure, reproduction, genetics and physiology; relationship to food, water, soil, industrial and disease processes. Effective: Summer 2007

Prerequisite:

MICRB 202 Introductory Microbiology Laboratory (2) Qualitative and quantitative techniques with regard to recognition of bacteria and their processes on a microscopic, colonial, and physiological basis. Effective: Summer 2007

Prerequisite:

MICRB 251 (B M B 251) Molecular and Cell Biology I (3) Biomolecules, genetic mechanisms, organization of cells and their organelles, DNA replication, protein synthesis, membranes, the cell nucleus, energy conversion. Effective: Summer 2007

Prerequisite:
MICRB 252 (B M B 252) Molecular and Cell Biology II (3) Continuation of BIOCH/B M B/MICRB 251: cytoskeleton, cell growth, division, adhesion, signalling, germ cells, differentiation, immune system, nervous system, plant cells.
Effective: Spring 1995
Prerequisite:

MICRB 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1996

MICRB 398 Special Topics (1-9) Formal courses give infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2009

MICRB 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

MICRB 401 Microbial Physiology and Structure (3) Physiology and structure of bacteria important in microbiological research. Designed for science majors.
Effective: Summer 2007
Prerequisite:

MICRB 405A Seminar and Practicum in Medical Technology (8) Chemistry. Fundamental principles and the quantitative measurement of chemical components in the blood and other body fluids.
Effective: Fall 1987

MICRB 405B Seminar and Practicum in Medical Technology (1) Urinalysis. Identification of cellular and noncellular urinary sediments. Qualitative chemical analysis of urine.
Effective: Fall 1988

MICRB 405C Seminar and Practicum in Medical Technology (6) Hematology. Principles of red and white blood cell development. Identification of normal and pathological conditions.
Effective: Fall 1988

MICRB 405D Seminar and Practicum in Medical Technology (5) Immunohematology. Immunologic and genetic principles governing the transfusion of blood and blood products.
Effective: Fall 1987

MICRB 405E Seminar and Practicum in Medical Technology (7) Microbiology. Identification of normal and abnormal microbial flora from various locations on and within the human body.
Effective: Fall 1987

MICRB 405F Seminar and Practicum in Medical Technology (3) Serology-Immunology. Immunological principles and their application in the identification of present or past disease states of the human.
Effective: Fall 1987

MICRB 408 Laboratory Instructional Practice (1-2) Participation in the instruction of undergraduate laboratory courses, including classroom preparation; discussion of principles and objectives of each exercise.
Effective: Spring 1994
Prerequisite:

MICRB 410 Principles of Immunology (3) Theories of immunity; focuses on the basis for the acquired immune response at the organ, cell, and molecular levels.
Effective: Summer 1998
Prerequisite:

MICRB 411 Survey of Microbiology Literature (1 per semester) An introduction to readings and oral presentations in microbiology.
Effective: Spring 1994
Prerequisite:

MICRB 412 Medical Microbiology (3) Characteristics, methods of identification, and pathogenesis of bacteria that cause human disease; principles of disease dynamics and control.
Effective: Fall 1993
Prerequisite:

MICRB 413 Microbial Diversity (2) survey of microorganisms having special adaptive mechanisms for life in common and unique environments; topics include ecology, evolution, and bioremediation.
Effective: Spring 1997
Prerequisite:

MICRB 415 General Virology: Bacterial and Animal Viruses (3) The interaction of different types of viruses with bacterial and animal cells, including mechanisms of infection and viral synthesis.
Effective: Summer 2000
Prerequisite:

MICRB 416 (BIOTC 416) Microbial Biotechnology (2) Fundamentals of applied biotechnology; the use of microorganisms in the synthesis of biologically-important and industrially-useful products.
Effective: Spring 2009
Prerequisite:

MICRB 421W Laboratory of General and Applied Microbiology (3) Laboratory exercises demonstrating fundamental techniques and principles of experimentation of general and applied microbiology.
Effective: Spring 2001
Prerequisite:

MICRB 422 Medical Microbiology Laboratory (2) Laboratory exercises demonstrating properties and classification of medically important microorganisms and techniques used in their identification.
Effective: Fall 1993
Prerequisite: Concurrent: MICRB 412

MICRB 432 (B M B 432, VB SC 432) Advanced Immunology: Signaling in the Immune System (3) The study of signaling pathways that regulate the immune response.
Effective: Fall 2007
Prerequisite:

MICRB 435 (B M B 435, VB SC 435) Viral Pathogenesis (2) A study of the molecular, immunological and pathological aspects of viral diseases as well as laboratory methods of diagnosis.
Effective: Fall 2007
Prerequisite:

MICRB 447 Laboratory in Molecular Immunology (1) Laboratory in molecular techniques to assay antigens, antibodies, and receptor sites.
Effective: Fall 1995
Prerequisite:

MICRB 450 (B M B 450) Microbial/Molecular Genetics (2) Genetic phenomena, with emphasis on molecular mechanisms: gene transfer, recombination, gene conversion, gene fusion, suppression, transposons.
Effective: Fall 2010
Prerequisite:

MICRB 460 (B M B 460) Cell Growth and Differentiation (3) Mechanisms and regulation of protein trafficking, organelle biosynthesis, cell development, signaling and cell cycle control. Emphasizes experimental design and analysis.
Effective: Spring 2006
Prerequisite:

MICRB 480 (B M B 480) Tumor Viruses and Oncogenes (3) Oncogenes, DNA and RNA tumor viruses, and relevant experimental techniques with emphasis on molecular basis of carcinogenesis and gene regulation.
Effective: Spring 2001
Prerequisite:

MICRB 496 Independent Studies (1-18) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

MICRB 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1995

MICRB 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1995

MICRB 498A (B M B 498A) Antibiotics: Development and Resistance (2) Students will investigate and discuss research advances, ethical issues, and societal implications related to antibiotic development and resistance.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MICRB 498A (B M B 498A) Antibiotics: Development and Resistance (2) The goal of this course is to achieve a holistic understanding of science through investigation of specific issues pertaining to antibiotic development and resistance.

MICRB 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Mineral Engineering (MIN E)

MIN E 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999

MIN E 415 **Management in the Mineral Industries for Environmental, Legal, and Health and Safety Problems** (3)
Mineral industries management and labor structure analyzed, with emphasis on environmental, health and safety, and legal aspects.
Effective: Spring 1999
Prerequisite:

MIN E 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1999

MIN E 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1999

Last Import from UCM: June 2, 2012 12:27 PM
Mineral Processing (MN PR)

   Prerequisite:

MN PR 401 Mineral Process Engineering (3) Unit operations for processing particulate materials: comminution, screening, classification, slurry pumping, thickening, filtration, etc.; application to mineral processing plant design. Effective: Spring 2001
   Prerequisite:

MN PR 413 Mineral Processing Laboratory (1) A laboratory study of the chemical and physical principles involved in practical mineral processing operations. Effective: Spring 1999
   Prerequisite:

MN PR 424 Coal Preparation (3) Unit operations, flowsheets, and testing methods used in preparation of coal. Effective: Spring 1999
   Prerequisite:

MN PR 425 Interfacial Phenomena and Flotation (3) Surface and interfacial phenomena related to flotation agglomeration, flocculation, and dispersion of particles. Application to mineral separation and related processes. Effective: Fall 2009
   Prerequisite:

MN PR 426 (MATSE 426) Aqueous Processing (3) A study of the chemical and engineering principles pertinent to metal processing in aqueous systems: hydrometallurgical extraction, plating, materials preparation. Effective: Fall 2009
   Prerequisite:

MN PR 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1999

MN PR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1999

Last Import from UCM: June 2, 2012 12:27 PM
Mining (MNG)

MNG 023 Mineral Land and Mine Surveying (2) Surveying theory and practice applied to mineral lands and mines, traversing, leveling, mapping, underground surveying, microcomputer drafting and graphics.
Effective: Fall 2006 Ending: Fall 2012
Prerequisite:

MNG 223 Mineral Land and Mine Surveying (2) Surveying theory and practice applied to mineral lands and mines, traversing, leveling, mapping, underground surveying, microcomputer drafting and graphics.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

MNG 230 Introduction to Mining Engineering (3) Examination, development, and exploitation of mineral deposits; mining methods: unit operations; mining equipment; fundamentals of explosives.
Effective: Spring 2012

MNG 331 Rock Mechanics (3) Ground stresses, laboratory rock properties, laboratory and field instrumentation, rock mass characteristics, subsidence, slope stability, design of mine workings.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MNG 401 Introduction to Mining Operations (1) An introduction to underground and surface mining methods; selection of extraction equipment; relevant auxiliary operations. Not intended for Mining Engineering majors.
Effective: Spring 2008
Prerequisite:

MNG 404 Mine Materials Handling Systems (2) Analysis and design of materials-handling systems in mining, such as belt conveyors, locomotives, and hoisting.
Effective: Spring 2011

MNG 410 Underground Coal Extraction (2) Underground coal-mine design; extraction techniques; description of the various auxiliary operations as they relate to the mining methods.
Effective: Spring 1999 Ending: Summer 2012
Prerequisite:

MNG 410 Underground Mining (3) Underground mine design; extraction techniques; description of auxiliary operations as they relate to the mining methods.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MNG 411 Mine Systems Engineering (2) Applied operations research and systems methods for decision making in mine operations; time and systems studies to improve productivity.
Effective: Spring 1999
Prerequisite:

MNG 412 Mineral Property Evaluation (3) Ore reserve estimation using statistics and geostatistics, mine cost estimation, engineering economy concepts applied to mineral deposits.
Effective: Spring 1999
Prerequisite:

MNG 422 Mine Ventilation and Air Conditioning (3) Quality, quantity, and temperature-humidity control of the mine atmosphere; general mine environmental control.
Effective: Fall 2007
Prerequisite:

MNG 431 Rock Mechanics (3) Ground stresses, laboratory rock properties, laboratory and field instrumentation, rock mass characteristics, subsidence, slope stability, design of mine workings.
Effective: Fall 2003 Ending: Summer 2012
Prerequisite:

MNG 441 Surface Mining Systems and Design (3) Design of surface mining for noncoal and coal minerals; emphasis on quarry and strip mining planning parameters: unit operations, systems, haulroads, draglines, spoil stability, reclamation, legal requirements, and health and safety.
Effective: Spring 1999
Prerequisite:

MNG 451W Mining Engineering Project (1-5) Independent and integrative design and report of specific mine evaluation, layout, equipment selection, environmental control, permitting, and financial analysis.
Effective: Spring 1999
Prerequisite:

MNG 460 Mine Maintenance Engineering (3) Mine maintenance system design; maintenance planning and management; safety and cost analysis of maintenance programs.
Effective: Spring 1999
MNG 470 Mining and Geologic Structures (3) Study of geologic structures and their impacts on mining operations. Effective: Summer 2009
Prerequisite:
MNG 497 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently; several different topics may be taught in one year or term. Effective: Spring 2008
Mining Technology (MNG T)

MNG T 030 Introduction to Mining Technology (2) Examination, development, exploitation of mineral deposits; history of mining, common mining methods, operation methods, equipment types, explosives fundamentals.
Effective: Spring 2006

MNG T 100 Mining Technology Orientation (1) Introduction to the underground mining industry including history, terminology, current mining equipment and methods, regulations, organization.
Effective: Spring 2006

MNG T 110 Mining Administration and Law (3) Introduction to mine organization and management structure, and government regulations regarding permitting, reporting and recordkeeping.
Effective: Spring 2006

MNG T 202 Mining Ventilation (3) Introduction to mine ventilation systems at mine face, mine gases and use of gas detection equipment, state and federal regulations.
Effective: Summer 2007
Prerequisite:

MNG T 203 Introduction to Strata Control (1) Review basic concepts of geology and impact of geologic features on mining con conditions; introduce strata control theory and methods. (Nominal first 5 weeks of spring semester)
Effective: Spring 2006
Prerequisite:

MNG T 204 Mine Plant Technology (3) Electrical, transportation, ventilation, and other systems required to operate underground coal mine, and to transport and process coal.
Effective: Spring 2006
Prerequisite:

MNG T 205W Mining Systems Technology (3) Comparison of mining methods with focus on preventative maintenance, coal transport, and estimating production and manpower needs.
Effective: Summer 2006
Prerequisite:

MNG T 207 Electric Mine Machine Circuits (3) Application of electric power and safety issues related to the installation and maintenance of circuits and various power control devices.
Effective: Spring 2006
Prerequisite:

MNG T 208 Mine Power Distribution (3) Topics of high voltage circuits, underground transmission, power stations, power conversion, safety regulations and power devices.
Effective: Spring 2006
Prerequisite:

MNG T 209 Mine Machinery Control Methods (2) Basic principles and applications of solid state, variable frequency, PLC, electro hydraulic and networked controls in mine machinery.
Effective: Spring 2006
Prerequisite:

MNG T 210 Mine Machine Dynamics (3) Operation and interaction of mechanized equipment used at the coal face including common electrical, hydraulic and mechanical systems.
Effective: Spring 2006
Prerequisite:

MNG T 211 Practicum in Mining Technology (3) Field and shop techniques in procedures of electrical, mechanical and ventilation phases of mine maintenance
Effective: Spring 2006
Prerequisite:

MNG T 213 Strata Control Methods (3) Introduce pillar-design parameters, roof control planning, roof bolting, standing supports, rib stability, floor condition problems, and longwall strata control.
Effective: Spring 2011
Prerequisite:

MNG T 214 Mining Management I (3) Leadership skill development for supervisors, managing change, tools to plan, organize, control, communicate and monitor effectively.
Effective: Spring 2006

MNG T 215 Mining Management II (3) Financial management, effective meeting management, critical thinking, project management and cost and risk control.
Effective: Spring 2006
Prerequisite:
MNG T 216 Mine Regulations and Laws (3) State and federal mining regulations and application to underground coal mines. Relationship with company policies and consequences of non-compliance. Effective: Spring 2006
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Music (MUSIC)

Individual instruction in technique, literature, and pedagogy is offered in six categories covering eighteen instruments:

- **BRASS**: Trumpet, French horn, trombone, euphonium, tuba
- **KEYBOARD**: Piano, organ
- **STRINGS**: Violin, viola, violoncello, doublebass
- **WOODWINDS**: Flute, oboe, clarinet, bassoon, saxophone
- **PERCUSSION**
- **VOICE**

For each instrument individual instruction is offered to different types of students at different levels:

- **Primary instrument**: Student in B.A. (Music) and B.S. (Music Ed) Levels I-VII
- **Performance instrument**: Students in B.Mus. Level I-VII
- **Secondary instrument**: Nonmajor students or others using this as secondary instrument.

The courses are designated according to a particular pattern for identification on the student’s transcript and in the Schedule of Classes. Applied music fees are required for individualized instruction: $175 for a 1-credit course; $250 for a 2-credit course; $250 for a 3-credit course. Examples of listings:

MUSIC 004 (GA) **Film Music** (3) An introductory examination of music’s role in Hollywood narrative film from the classic era (1930s and 1940s) to the present.
Effective: Summer 2009

MUSIC 005 (GA) **An Introduction to Western Music** (3) A general survey of art music in western society, highlighting important composers and stylistic developments.
Effective: Spring 2004

MUSIC 005S (GA) **An Introduction to Western Music** (3) A general survey of art music in western society, highlighting important composers and stylistic developments.

The Pennsylvania State University
MUSIC 007 (GA;US) Evolution of Jazz (3) Study of the origins and development of jazz as an art form. Effective: Summer 2006

MUSIC 008 (GA) Rudiments of Music (3) Introduction to the elements of music: notation, scales, meter, rhythm, intervals; basic chord structure. Effective: Summer 2005

MUSIC 009 (GA;IL) Introduction to World Musics (3) An overview of the music of India, China, Japan, Indonesia, Africa, and the Middle East. Effective: Fall 2004

MUSIC 040S First-Year Seminar in Music Education (1) Introduction to the University, the School of Music, the music education degree program, and the music teaching profession. Effective: Fall 2006

MUSIC 050 (GA) Beginning Piano: Non-Music Major (1) Introduction to the keyboard, notation, chord progressions, transposition, improvisation, and simple accompanying techniques for the non-music major. An additional fee is required for this course. Effective: Fall 2004

MUSIC 051 (GA) Intermediate Class Piano: Non-Music Major (1) Instruction in harmonizing melodies, accompanying techniques, improvisation, and repertoire. Effective: Fall 2004

MUSIC 052 (GA) Voice Class: Non-Music Major (1) Group study emphasizing development of rudimentary skills and their recreational use in a range of popular and art music. Effective: Fall 2004

MUSIC 053 (GA) Class Voice Practicum (1) Voice study in group and individual formats, supervised by in-class lessons and discussions, enhanced by additional individual instruction with pedagogy students. Effective: Fall 2004

MUSIC 054 (GA) Beginning Class Guitar: Non-Music Major (1) Class instruction in guitar for non-music majors. Effective: Fall 2004

MUSIC 076 Chamber Orchestra (1 per semester, maximum of 8) Chamber orchestra rehearsal and performance. Effective: Spring 2001

MUSIC 077 (GA) Philharmonic Orchestra (1 per semester/maximum of 8) Orchestra rehearsal and performance. Effective: Fall 2004

MUSIC 078 (GA) Symphonic Wind Ensemble (1 per semester/maximum of 8) Rehearsal and performance of wind repertoire and concert band literature. Effective: Fall 2004

MUSIC 079 Pep Band (1 per semester/maximum of 4) A band to perform at selected athletic events. Effective: Spring 2001

MUSIC 080 (GA) Symphonic Band (1 per semester/maximum of 8) Rehearsal and performance of symphonic band literature. A select group using standard instrumentation. Effective: Fall 2004

MUSIC 081 (GA) Marching Blue Band (1 per semester/maximum of 4) Rehearsal and performance of appropriate music and maneuvers for football games and related events. Effective: Fall 2004

MUSIC 082 (GA) Concert Band (1 per semester/maximum of 8) Rehearsal and performance of concert band literature. Effective: Fall 2004

MUSIC 083 (GA) Campus Band (1 per semester/maximum of 8) Rehearsal and performance of concert band literature. Effective: Spring 2002
MUSIC 084 (GA) **Jazz Ensemble** (1 per semester/maximum of 8) Survey and performance of historic and contemporary big band styles.
Effective: Fall 2004
Prerequisite:

MUSIC 086 (GA) **Percussion Ensemble** (1 per semester/maximum of 8) Study and performance of percussion chamber music in various instrumental combinations, focusing on the classical and contemporary repertoire.
Effective: Spring 2004
Prerequisite:

MUSIC 087 **Mallet Ensemble** (1) Study and performance of music for keyboard percussion instruments.
Effective: Spring 2001
Prerequisite:

MUSIC 088 (GA) **Campus Choir** (1 per semester/maximum of 8) Building skills needed for successful choral singing including vocal production, sight singing, ear training, and music fundamentals.
Effective: Fall 2001

MUSIC 089 (GA) **University Choir** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of 100-150 voices.
Effective: Spring 2004
Prerequisite:

MUSIC 090 (GA) **Glee Club** (1 per semester/maximum of 8) Rehearsal and performance of music composed for male voices from the sixteenth to the twentieth centuries, including sacred and secular compositions.
Effective: Spring 2004
Prerequisite:

MUSIC 091 (GA) **Oriana Singers** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire for treble voices from the sixteenth to twentieth centuries, including sacred and secular compositions.
Effective: Spring 2004
Prerequisite:

MUSIC 092 (GA) **Chamber Music for Voices** (1 per semester/maximum of 8) Select groups of singers performing choral chamber music.
Effective: Spring 2004
Prerequisite:

MUSIC 093 (GA:US:IL) **Essence of Joy** (1 per semester, maximum of 8) Rehearsal and performance of choral repertoire from the African/American tradition.
Effective: Spring 2006
Prerequisite:

MUSIC 094 (GA) **Women's Chorale** (1 per semester, maximum of 8) Rehearsal and performance of treble choral literature.
Effective: Spring 2004
Prerequisite:

MUSIC 100 (GA) **Campus Orchestra** (1-10 per semester/maximum of 10) Rehearsal and performance orchestral literature.
Effective: Spring 2011 Ending: Summer 2012
Prerequisite:

MUSIC 101 **Music Common Hour** (1) Student and faculty recitals, master classes, lectures by faculty and guests, and Common Hour attendance.
Effective: Fall 1985

MUSIC 102 **Concert Choir** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of approximately sixty voices.
Effective: Spring 2004
Prerequisite:

MUSIC 103 (GA) **Chamber Singers** (1 per semester/maximum of 8) Rehearsal and performance of choral repertoire appropriate to mixed-voice ensemble of approximately twenty-four voices.
Effective: Spring 2004
Prerequisite:

MUSIC 104 (GA) **Early Music Ensemble** (1 per semester/maximum of 8) Ensemble for the performance and study of Baroque or early music on instruments of the era.
Effective: Spring 2004
Prerequisite:

MUSIC 110 **Keyboard Skills I: Music Major** (1) Introduction to the keyboard, chord progressions, transposition, improvisation, and simple accompanying techniques.
Effective: Fall 1985
MUSIC 112 **Class Guitar** (0.5-1) Functional guitar techniques and materials. Effective: Fall 1993

MUSIC 113 **Music Theatre--Class Voice I** (1) Group study emphasizing development of sound vocal and musicianship skills fundamental for music theatre. Effective: Spring 2001
Prerequisite:

MUSIC 114 **Music Theatre--Class Voice II** (1) Group study emphasizing development of sound vocal and musicianship skills fundamental for music theatre. Effective: Spring 2001
Prerequisite:

MUSIC 115 **Beginning Voice Class** (1) Class voice emphasizing the fundamentals of healthy singing technique. For Music Majors only. Effective: Fall 2011

MUSIC 116 **Intermediate Voice Class** (1 per semester/maximum of 4) Class voice, emphasizing pedagogical experiences and techniques for public school music classrooms. For Music Majors only. Effective: Fall 2011

MUSIC 119S **First-Year Music Seminar** (2) Individual applied instruction and group activities; orientation, area recitals, and studio classes as required by instructor. Effective: Summer 1999
Prerequisite:

MUSIC 121 **Basic Musicianship I** (1) Elementary sight singing and dictation. Effective: Fall 1989
Prerequisite: Concurrent: MUSIC 131

MUSIC 122 **Basic Musicianship II** (1) Continuation of Music 121.
Effective: Fall 1989
Prerequisite: Concurrent: MUSIC 132

MUSIC 129S **First-Year Performance Seminar** (3) Individual applied instruction and group activities; orientation, area recitals, and studio classes as required by instructor. Effective: Summer 1999
Prerequisite:

MUSIC 131 **Music Theory I** (2) Review of rudiments; introduction to the fundamental linear and vertical features of tonal music, integration of written and aural skills. Effective: Fall 1989
Prerequisite: Concurrent: MUSIC 121

MUSIC 132 **Music Theory II** (2) Continuation of Music 131.
Effective: Fall 1989
Prerequisite: Concurrent: MUSIC 122

MUSIC 151 **Brass Techniques I** (1) Introduction to basic performance techniques on brass instruments; teaching strategies and materials for use in a heterogeneous instrument setting. Effective: Fall 2007

MUSIC 152 **Percussion Techniques I** (1) Introduction to basic performance techniques on percussion instruments; teaching strategies and materials for use in a heterogeneous instrument setting. Effective: Fall 2007

MUSIC 153 **String Techniques I** (1) Performance techniques on stringed instruments for music education majors. Effective: Fall 2007

MUSIC 154 **Woodwind Techniques I** (1) Performance and teaching techniques for woodwind instruments. Effective: Fall 2007

MUSIC 162 (IL) **Introduction to Music History** (2) An introduction to Western music history and world music of selected cultures through the study of representative works. Effective: Spring 2006
Concurrent: MUSIC 132

MUSIC 170 **Keyboard Skills II: Music Major** (1) Instruction in secondary chord progressions, transposition, improvisation, accompanying techniques, simple score reading. Effective: Fall 1985
Prerequisite:

MUSIC 173S **First-Year Composition Seminar** (2) Individual composition instruction for freshman composition majors (Fall semester) and group activities.

The Pennsylvania State University
MUSIC 174 Composition II (2) Composition instruction for first-year composition majors.
Effective: Summer 2011 Ending: Summer 2012

MUSIC 174J Composition II (2) Composition instruction for first-year composition majors.
Effective: Fall 2012 Future: Fall 2012

MUSIC 181 Jazz Improvisation I (2) A study of the fundamentals of jazz theory, harmonic functions, and their applications to jazz improvisation.
Effective: Fall 1991
Prerequisite:

MUSIC 182 Jazz Improvisation II (2) A study of advanced harmonic concepts and their application to jazz improvisation.
Effective: Summer 1986
Prerequisite:

MUSIC 190 (GA) Chamber Music for Strings (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily string instruments--string quartets, piano trios, clarinet quintets.
Effective: Spring 2004
Prerequisite:

MUSIC 191 (GA) Chamber Music for Woodwinds (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily woodwind instruments--woodwind quintets and quartets.
Effective: Spring 2004
Prerequisite:

MUSIC 192 (GA) Chamber Music for Brass (1 per semester/maximum of 8) Preparation for performance of advanced chamber music literature involving primarily brass instruments--brass quartets and quintets.
Effective: Spring 2004
Prerequisite:

MUSIC 193 Sonata Duos (1 per semester/maximum of 8) Preparation for performance of advanced sonata literature for various individual instruments with keyboard.
Effective: Fall 1983
Prerequisite:

MUSIC 194 Studio and Recital Accompanying (1 per semester/maximum of 8) Keyboard accompaniment of student soloists in the studio and in public performance under faculty supervision.
Effective: Fall 1983
Prerequisite:

MUSIC 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

MUSIC 210 Keyboard Skills III: Music Major (1) Playing accompaniments from chord symbols and full notation, transposition, improvisation, modulation, score-reading, and standard literature.
Effective: Fall 1985
Prerequisite:

MUSIC 212 Guitar Techniques II (1) Intermediate performance and teaching techniques for guitar.
Effective: Summer 2006
Prerequisite:

MUSIC 216 Care and Nature of Young Singing Voices (0.5) The nature of singing voices in children from birth through adolescence; strategies for helping all children become successful singers.
Effective: Summer 2006

MUSIC 221 Basic Musicianship III (1) Intermediate sight singing and dictation.
Effective: Fall 1991
Prerequisite:

MUSIC 222 Basic Musicianship IV (1) Continuation of Music 221.
Effective: Spring 1997
Prerequisite:

MUSIC 231 Music Theory III (2) Intermediate concepts of tonal theory.
Effective: Fall 1989
Prerequisite:

MUSIC 241 Music for Classroom Teachers (3) Development of competencies for guiding musical experiences of children in the elementary classroom.
Effective: Spring 2001
Prerequisite:

MUSIC 251A Brass Techniques II: Trumpet (0.5) A class setting in which trumpet performance techniques, teaching/diagnostic strategies, instructional materials, and literature are taught, practiced, and developed.
Effective: Summer 2006
Prerequisite:

MUSIC 251B Brass Techniques II: Horn (0.5) A class setting in which horn performance techniques, teaching/diagnostic strategies, instructional materials, and literature are taught, practiced, and developed.
Effective: Summer 2006
Prerequisite:

MUSIC 251C Brass Techniques II: Trombone (0.5) A class setting in which trombone performance techniques, teaching/diagnostic strategies, instructional materials, and literature are taught, practiced, and developed.
Effective: Summer 2006
Prerequisite:

MUSIC 251D Brass Techniques II: Euphonium/Tuba (0.5) A class setting in which euphonium and tuba performance techniques, teaching/diagnostic strategies, instructional materials, and literature are taught, practiced, and developed.
Effective: Summer 2006
Prerequisite:

MUSIC 253 String Techniques II (0.5-1 per semester/maximum of 2) Performance techniques on violin, viola, cello or string bass for music education majors.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

MUSIC 253A String Techniques II: Violin (0.5) Performance techniques on violin for music education majors.
Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

MUSIC 253B String Techniques II: Viola (0.5) Performance techniques on viola for music education majors.
Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

MUSIC 253C String Techniques II: Cello (0.5) Performance techniques on cello for music education majors.
Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

MUSIC 253D String Techniques II: Double Bass (0.5) Performance techniques on double bass for music education majors.
Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

MUSIC 254A Woodwind Techniques II: Flute (0.5) Performance and teaching techniques and materials selection for flute.
Effective: Summer 2006
Prerequisite:

MUSIC 254B Woodwind Techniques II: Oboe (0.5) Performance and teaching techniques and materials selection for oboe.
Effective: Summer 2006
Prerequisite:

MUSIC 254C Woodwind Techniques II: Clarinet (0.5) Performance and teaching techniques and materials selection for clarinet.
Effective: Summer 2006
Prerequisite:

MUSIC 254D Woodwind Techniques II: Saxophone (0.5) Performance and teaching techniques and materials selection for saxophone.
Effective: Summer 2006
Prerequisite:

MUSIC 254E Woodwind Techniques II: Bassoon (0.5) Performance and teaching techniques and materials selection for bassoon.
Effective: Summer 2006
Prerequisite:

MUSIC 261 (GA;IL) Survey of Music History I (3) A survey of music history to 1750, with readings, listening, and lecture.
Effective: Spring 2012
Prerequisite:

MUSIC 262 (GA;IL) Survey of Music History II (3) A survey of music history from 1750 to the present, with readings, listening, and lecture.
Effective: Spring 2012
Prerequisite:

MUSIC 266 Basic Conducting (1) Basic instruction and practicum in conducting, both choral and instrumental.
Effective: Fall 1993
Prerequisite:

MUSIC 267 Techniques of Composition (2) Basic instruction in the techniques of composition in all idioms.
Effective: Fall 1993
Prerequisite:

MUSIC 270 Keyboard Skills IV: Music Major (1) Instruction in secondary chord progressions, transposition, improvisation, accompanying techniques, score reading.
Effective: Summer 1987
Prerequisite:

MUSIC 273 Composition III (2) Composition instruction for second-year composition majors.
Effective: Spring 1998 Ending: Summer 2012
Prerequisite:

MUSIC 273J Composition III (2) Composition instruction for second-year composition majors.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MUSIC 274 Composition IV (2) Composition instruction for second-year composition majors.
Effective: Spring 1998 Ending: Summer 2012
Prerequisite:

MUSIC 274J Composition IV (2) Composition instruction for second-year composition majors.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MUSIC 295A Early Field Experience in Music Education (1) Observation of music learning and teaching processes, development of basic teaching skills and reflective behaviors.
Effective: Spring 2008
Prerequisite:

MUSIC 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

MUSIC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

MUSIC 297A Choral Conducting Practicum (1) For undergraduates who create their own choirs from the membership of Penn State ensembles.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 297A Choral Conducting Practicum (1) For undergraduates who create their own choirs from the membership of Penn State Ensembles.

MUSIC 297B Choral Conducting Project (1) For students who serve as assistants and interns with non-Penn State ensembles.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 297B Choral Conducting Project (1) For students who serve as assistants and interns with non-Penn State Ensembles.

MUSIC 297C Music of the Beatles (2-3) This course will examine the music of the Beatles by tracing the development of John Lennon, Paul McCartney, and George Harrison as Songwriters.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MUSIC 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

MUSIC 312 Performance of Diverse Musical Styles (1) Exploration of world instruments and singing through performance and study.
Effective: Summer 2006

MUSIC 331 Tonal Analysis (2) Introduction to standard procedures of tonal analysis, including concepts of form and structure.
Effective: Spring 1997
Prerequisite:

MUSIC 332 Analysis of Twentieth Century Music (2) Application of analytical techniques and compositional theories to music of the twentieth century.
Effective: Summer 1996
Prerequisite:

MUSIC 336 **Orchestration** (2) Scoring for the orchestra.
Effective: Spring 1988
Prerequisite:

MUSIC 340 **Music Learning and Development** (2) Application of psychological principles to teaching of music, including curriculum design and contemporary practices in music education.
Effective: Fall 2008
Prerequisite: Concurrent: MUSIC 341 MUSIC 395A

MUSIC 341 **Instructional Materials in Music** (2) Exploration of instructional materials and repertoire for use in K-12 music settings. Limited to Music Education majors who have been accepted into the Teacher Education Degree Program in Music.
Effective: Summer 2006
Concurrent: MUSIC 340 MUSIC 395A

MUSIC 345 **Instructional Practices in Music** (2) For music education students to learn about instructional techniques and practices for music performance and general music classes.
Effective: Summer 2006
Prerequisite: Concurrent: MUSIC 395B

MUSIC 366 **Intermediate Conducting** (1) Intermediate instruction in conducting; conducting techniques specific to instrumental or choral music; introduction to rehearsal technique.
Effective: Fall 2008
Prerequisite:

MUSIC 373 **Composition V** (3) Composition instruction for third-year position majors.
Effective: Spring 1998 Ending: Summer 2012
Prerequisite:

MUSIC 373J **Composition V** (3) Composition instruction for third-year position majors.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MUSIC 374 **Composition VI** (3) Composition instruction for third-year composition majors.
Effective: Spring 1998 Ending: Summer 2012
Prerequisite:

MUSIC 374J **Composition VI** (3) Composition instruction for third-year composition majors.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MUSIC 387 **Language Diction for Singers: Italian and English** (1) Intensive drill in the pronunciation, phonetic transcription, and singing of Italian and English.
Effective: Summer 1991
Prerequisite:

MUSIC 388 **Language Diction for Singers: French** (1) Intensive drill in the pronunciation, phonetic transcription, and singing of French.
Effective: Spring 1987
Prerequisite:

MUSIC 389 **Language Diction for Singers: German** (1) Intensive drill in the pronunciation, phonetic transcription, and singing of German.
Effective: Spring 1987
Prerequisite:

MUSIC 395A **Cohort Practicum I** (1) Observation and pre-service experience in the schools. Limited to Music Education Majors.
Effective: Fall 2008
Prerequisite: Concurrent: MUSIC 340 MUSIC 341

MUSIC 395B **Cohort Practicum II** (1) Observation and teaching experiences in a variety of musical instruction settings.
Effective: Spring 2009
Prerequisite: Concurrent: MUSIC 345

MUSIC 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

MUSIC 400 **Solo Recital** (1) Required recital for Performer's Certificate.
Effective: Spring 1994 Ending: Summer 2012
Prerequisite:

MUSIC 400J **Solo Recital** (1) Required recital for Performer's Certificate.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

MUSIC 412 **Jazz Pedagogy** (2) The development of advanced skills in pedagogy for teaching jazz bands.
Effective: Summer 1994
Prerequisite:
MUSIC 414 **String Pedagogy** (1-2) The development of skills in pedagogy for teaching strings.
Effective: Spring 1992
Prerequisite:

MUSIC 415 **Woodwind Pedagogy** (1-2) The development of skills in pedagogy for teaching woodwinds.
Effective: Spring 1992
Prerequisite:

MUSIC 416 **Brass Pedagogy** (1-2) The development of skills in pedagogy for teaching brass.
Effective: Spring 1992
Prerequisite:

MUSIC 417 **Percussion Pedagogy** (1-2) The development of advanced skills in pedagogy for teaching percussion.
Effective: Summer 1992
Prerequisite:

MUSIC 418 **Voice Pedagogy** (2) Analysis of techniques of teaching voice and studies of related music literature and pedagogical writings.
Effective: Spring 2004
Prerequisite:

MUSIC 419 **Piano Pedagogy I** (2) Analysis of beginning teaching methods and teaching strategies for children.
Effective: Spring 1997
Prerequisite:

MUSIC 420 **Song Writing and Recording** (3) Song composition, arranging and recording in a variety of style genres.
Effective: Spring 2011
Prerequisite:

MUSIC 421 **Jazz Combo Class** (1) Study and performance of small group jazz.
Effective: Summer 1994
Prerequisite:

MUSIC 422 **Jazz Harmony and Arranging** (3) Analysis and composition of jazz tunes and chord progressions; instrumental and vocal arranging in the jazz idiom.
Effective: Fall 1983
Prerequisite:

MUSIC 424 **Piano Pedagogy II** (2) Analysis of techniques of teaching intermediate Early advanced level piano and studies of music literature and pedagogical writings.
Effective: Spring 1997
Prerequisite:

MUSIC 425 **Advanced Voice Pedagogy** (2) Analysis of techniques of teaching voice, supervised teaching, studies of studio materials and related topics.
Effective: Spring 2004
Prerequisite:

MUSIC 429 **Aural Review for Graduate Students** (1) An intensive review of the aural skills required for a theoretical understanding of 18th- and 19th-century music.
Effective: Summer 1994
Prerequisite:

MUSIC 431 **ADVANCED TONAL ANALYSIS** (2-3) Advanced techniques of musical analysis.
Effective: Fall 1996
Prerequisite:

MUSIC 432 **Graduate Review of Twentieth-Century Analysis** (2-3) The theory and analysis of style in music of the twentieth century.
Effective: Fall 1997
Prerequisite:

MUSIC 433 **Advanced Analysis of Twentieth Century Music** (2-3) In-depth studies of selected twentieth-century repertoires and/or analytical models.
Effective: Summer 1996
Prerequisite:

MUSIC 435 **Score Reading** (1) Introduction in score reading at the keyboard.
Effective: Spring 1991
Prerequisite:

MUSIC 441W **Emphasis in Elementary General and Choral Music** (3) Selection and application of materials, methods, teaching and assessment strategies for elementary general and choral music settings.
Effective: Spring 2011
Prerequisite:

MUSIC 442W **Capstone Experience in Middle School General and Choral Music** (3) Capstone experience to teaching in general and choral middle school settings.
Effective: Fall 2007
Prerequisite:
MUSIC 444W Emphasis in Elementary and Intermediate Band (3) Examination and application of teaching strategies and materials for students planning to teach band in the elementary and middle schools. Effective: Spring 2011
Prerequisite:

MUSIC 445W Emphasis in High School Band (3) Examination and application of teaching strategies and materials for students planning to teach high school bands. Effective: Spring 2011
Prerequisite:

MUSIC 446W Emphasis in Strings and Orchestra (3) Development of teaching techniques for instructing elementary and secondary string/orchestra student musicians for music education majors. Effective: Spring 2011
Prerequisite:

MUSIC 450 Teaching Marching Band (2) Traditional and contemporary drill design principles, show development strategies, instructional techniques, and organizational procedures involved in teaching marching band. Effective: Fall 2007
Prerequisite:

MUSIC 451 Computer Programming for Musicians (3 per semester/maximum of 12) In-depth study of music programming techniques. Effective: Spring 2011
Prerequisite:

MUSIC 455 Technology in Music (1-3:1.5:1.5) Survey of how musical information is stored and processed in computer systems. Effective: Spring 2008
Prerequisite:

MUSIC 458 Electronic Music Composition (3) An introduction to the art of composition in the electronic audio medium. Effective: Spring 2011
Prerequisite:

MUSIC 460 Teaching Musical Cultures (2) Exploration of the world's musical cultures and the implication of and procedures for teaching multicultural music. Limited to upper division music majors or permission of program. Effective: Summer 2006
Prerequisite:

MUSIC 461W Studies in Music History: Antiquity to 1600 (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from antiquity to 1600, with emphasis on writing and research. Effective: Fall 2010
Prerequisite:

MUSIC 462W Studies in Music History: 1550-1750 (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1550-1750, with emphasis on writing and research. Effective: Fall 2010
Prerequisite:

MUSIC 463W Studies in Music History: 1700-1900 (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1700-1900, with emphasis on writing and research. Effective: Fall 2010
Prerequisite:

MUSIC 464W Studies in Music History: 1850-Present (3 per semester/maximum of 6) In-depth study of selected aspects of music and culture from 1850 to the present, with emphasis on writing and research. Effective: Fall 2010
Prerequisite:

MUSIC 465 Advanced Conducting I (3) Advanced instruction in conducting; conducting techniques specific to instrumental or choral music; emphasis on score study and rehearsal technique. Effective: Summer 1994
Prerequisite:

MUSIC 466 Advanced Conducting II (2 per semester/maximum of 8) Standard scores of symphonies, tone poems, operas, oratorios, and shorter vocal and instrumental works studied from the viewpoint of the conductor. Effective: Spring 1995
Prerequisite:

MUSIC 467 Opera Workshop (1-3 per semester/maximum of 6) History, analysis, and production of operas from sixteenth century to present. Effective: Spring 2001
Prerequisite:

MUSIC 468 Acting for Singers (2 per semester/maximum of 4) To help students develop authentic and specific characters/portrayals on stage through physical and emotional awareness. Effective: Fall 2008
Prerequisite:

MUSIC 471 Structural and Sixteenth-Century Counterpoint (2) Advanced species counterpoint and its application to the sixteenth-century style.
MUSIC 472 Eighteenth-Century Counterpoint (2) Imitative and nonimitative counterpoint in the style of Bach. 
Effective: Fall 1983 
Prerequisite:

MUSIC 473 Composition VII (3) Composition instruction for fourth-year composition majors. 
Effective: Spring 1998 Ending: Summer 2012 
Prerequisite:

MUSIC 473J Composition VII (3) Composition instruction for fourth-year composition majors. 
Effective: Fall 2012 Future: Fall 2012 
Prerequisite:

MUSIC 474 Composition VIII (3) Composition instruction for fourth-year composition majors. 
Effective: Spring 1998 Ending: Summer 2012 
Prerequisite:

MUSIC 474J Composition VIII (3) Composition instruction for fourth-year composition majors. 
Effective: Fall 2012 Future: Fall 2012 
Prerequisite:

MUSIC 476W B.A. Senior Project (3) A semester project appropriate to student's option in B.A. program (e.g., research paper, performance with program notes, or related paper). 
Effective: Spring 1992 
Prerequisite:

MUSIC 478 Vocal Literature (3) Introduction to the literature for solo voice in opera, oratorio, cantata, art song, and chamber music from the baroque to the present. 
Effective: Spring 1997 
Prerequisite:

MUSIC 480 Opera Literature (3) Studies in the development of the opera from 1600 to the present, treating both libretto and music. 
Effective: Spring 1997 
Prerequisite:

MUSIC 481 Keyboard Literature (3) Studies in the development of keyboard music and instruments; a survey of all eras using listening, analysis, and performance. 
Effective: Spring 1997 
Prerequisite:

MUSIC 483 Seminar in Voice Pedagogy (2) Survey of literature relevant to the teaching of voice from historical sources through recent pedagogical scholarship. 
Effective: Spring 2004 
Prerequisite:

MUSIC 485 Chamber Music Literature (3) Survey of chamber music for strings, winds, and brass instruments from the mid-16th century to the present day. 
Effective: Spring 1997 
Prerequisite:

MUSIC 487 Orchestral Literature (3) Survey of orchestral literature. 
Effective: Spring 1997 
Prerequisite:

MUSIC 488 Studies in the Major Performance Area (1-2) Selected studies in music literature specific to the student's major performance area. Will include research, analysis and performance. 
Effective: Spring 2011 

MUSIC 489 Studio and Recital Accompaniment (1 per semester/maximum of 4) Advanced keyboard accompaniment of student soloists in the studio and in public performance under faculty supervision. 
Effective: Fall 1983 
Prerequisite:

MUSIC 493 Sonata Duos (1 per semester/maximum of 4) Preparation for performance of advanced sonata literature for various individual instruments with keyboard. 
Effective: Fall 1983 
Prerequisite:

MUSIC 494 Research Topics (1-3) Supervised research leading to senior thesis or project. 
Effective: Fall 1983 Ending: Summer 2012 

MUSIC 494 Research Topics (1-3 per semester/maximum of 6) Supervised research leading to senior thesis or project. 
Effective: Fall 2012 Future: Fall 2012 

MUSIC 494H Research Topics (1-3) Supervised research leading to senior thesis or project. 
Effective: Fall 2007 Ending: Summer 2012 

The Pennsylvania State University
MUSIC 494H Research Topics (1-3 per semester/maximum of 6) Supervised research leading to senior thesis or project. Effective: Fall 2012 Future: Fall 2012

MUSIC 495A Student Teaching: General Music (5-7) Observation and teaching under supervision. Effective: Fall 2001 Prerequisite: Concurrent: MUSIC 442

MUSIC 495B Student Teaching: Choral Music (5-7) Observation and teaching under supervision. Effective: Fall 2001 Prerequisite: Concurrent: MUSIC 443

MUSIC 495C Student Teaching: Instrumental Music (5-7) Observation and teaching under supervision. Effective: Fall 2001 Prerequisite: Concurrent: MUSIC 444

MUSIC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

MUSIC 496H Independent Studies - Honors (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 2011

MUSIC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

MUSIC 497A Review of Harmony/Analysis (2) Devoted to in-depth study of tonal harmony and analysis, beginning with a review of diatonic progressions and continuing with chromatic harmony. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 497C Clarinet Literature (1) Selected studies in music literature specific to the clarinet. Will include research, analysis, and performance. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

MUSIC 497C iEnsemble (1) Theoretical, compositional, and application of I technology. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 497C Business of Music (1) Survey of topics related to a career in music performance-including auditions, competitions, finances, work abroad, etc. Guest lecturers included. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

MUSIC 497D Double Bass Excerpts (1) This course is designed to study in depth a series of double bass excerpts from the standard orchestral and opera repertoire. We will look at how to prepare a mock audition behind a screen at the end of the semester. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

MUSIC 497E Horn Literature (1-2) Selected studies in music literature specific to the french horn. Will include research, analysis, and performance. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

MUSIC 497F Double Bass Excerpts (1) This course is designed to study in depth a series of double bass excerpts from the standard orchestral and opera repertoire. We will look at how to prepare a mock audition behind a screen at the end of the semester.
MUSIC 497G **Early Childhood Practicum** (1) Students will plan and deliver weekly music classes for preschool children at the benefit family center and complete a case study on one child they observe throughout the semester.

MUSIC 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

MUSIC 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007
Music - Brass (BRASS)

BRASS 100J (GA) **Trumpet: Secondary** (1 per semester, maximum of 8) Individual instruction in trumpet one-half hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 101J (GA) **French Horn: Secondary** (1 per semester, maximum of 8) Individual instruction in French horn one-half hour per week. For students who qualify.
Effective: Fall 2004
Prerequisite:

BRASS 102J (GA) **Trombone: Secondary** (1 per semester, maximum of 8) Individual instruction in trombone one-half hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 103J (GA) **Euphonium: Secondary** (1 per semester, maximum of 8) Individual instruction in euphonium/baritone one-half hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 104J (GA) **Tuba: Secondary** (1 per semester, maximum of 8) Individual instruction in tuba one-half hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 110J (GA) **Trumpet: Secondary** (2 per semester, maximum of 16) Individual instruction in trumpet one hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 111J (GA) **French Horn: Secondary** (2 per semester, maximum of 16) Individual instruction in French horn one hour per week. For students who qualify.
Effective: Fall 2004
Prerequisite:

BRASS 112J (GA) **Trombone: Secondary** (2 per semester, maximum of 16) Individual instruction in trombone one hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 113J (GA) **Euphonium: Secondary** (2 per semester, maximum of 16) Individual instruction in euphonium/baritone one hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 114J (GA) **Tuba: Secondary** (2 per semester, maximum of 16) Individual instruction in tuba one hour per week.
Effective: Fall 2004
Prerequisite:

BRASS 120J **Trumpet: Primary I** (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 121J **French Horn: Primary I** (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 122J **Trombone: Primary I** (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 123J **Euphonium: Primary I** (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 124J **Tuba: Primary I** (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 130J **Trumpet: Performance I** (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 131J French Horn: Performance I (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 132J Trombone: Performance I (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 133J Euphonium: Performance I (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

BRASS 134J Tuba: Performance I (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

BRASS 170J Trumpet: Primary II (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 171J French Horn: Primary II (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 172J Trombone: Primary II (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 173J Euphonium: Primary II (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 174J Tuba: Primary II (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 180J Trumpet: Performance II (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 181J French Horn: Performance II (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 182J Trombone: Performance II (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 183J Euphonium: Performance II (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

BRASS 184J Tuba: Performance II (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

BRASS 220J Trumpet: Primary III (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 221J French Horn: Primary III (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:
BRASS 222J Trombone: Primary III (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 223J Euphonium: Primary III (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 224J Tuba: Primary III (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 230J Trumpet: Performance III (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 231J French Horn: Performance III (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 232J Trombone: Performance III (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 233J Euphonium: Performance III (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

BRASS 234J Tuba: Performance III (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

BRASS 270J Trumpet: Primary IV (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 271J French Horn: Primary IV (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 272J Trombone: Primary IV (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 273J Euphonium: Primary IV (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 274J Tuba: Primary IV (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 280J Trumpet: Performance IV (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 281J French Horn: Performance IV (3) Individual instruction in French Horn one hour per week. For B.Mus. French Horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 282J Trombone: Performance IV (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 283J Euphonium: Performance IV (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus euphonium/baritone majors.

The Pennsylvania State University
Effective: Fall 1983

PREREQUISITE:

BRASS 284J **Tuba: Performance IV** (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.

BRASS 300J **Trumpet: Primary V** (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors.

BRASS 311J **French Horn: Primary V** (2) Individual instruction in French Horn one hour per week. For School of Music B.A. and B.S. majors.

BRASS 312J **Trombone: Primary V** (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors.

BRASS 323J **Euphonium: Primary V** (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors.

BRASS 324J **Tuba: Primary V** (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors; other qualified students.

BRASS 330J **Trumpet: Performance V** (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.

BRASS 331J **French Horn: Performance V** (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.

BRASS 332J **Trombone: Performance V** (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.

BRASS 333J **Euphonium: Performance V** (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.

BRASS 334J **Tuba: Performance V** (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.

BRASS 370J **Trumpet: Primary VI** (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors; other qualified students.

BRASS 371J **French Horn: Primary VI** (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors; other qualified students.

BRASS 372J **Trombone: Primary VI** (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.

BRASS 373J **Euphonium: Primary VI** (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.

BRASS 374J **Tuba: Primary VI** (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors.

The Pennsylvania State University
BRASS 380J Trumpet: Performance VI (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 381J French Horn: Performance VI (3) Individual instruction of French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 382J Trombone: Performance VI (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 383J Euphonium: Performance VI (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

BRASS 384J Tuba: Performance VI (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

BRASS 420J Trumpet: Primary VII (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 421J French Horn: Primary VII (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 422J Trombone: Primary VII (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 423J Euphonium: Primary VII (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 424J Tuba: Primary VII (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors; other qualified students.
Effective: Fall 1983
Prerequisite:

BRASS 430J Trumpet: Performance VII (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 431J French Horn: Performance VII (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

BRASS 432J Trombone: Performance VII (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

BRASS 433J Euphonium: Performance VII (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

BRASS 434J Tuba: Performance VII (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

BRASS 470J Trumpet: Primary VIII (2) Individual instruction in trumpet one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

BRASS 471J French Horn: Primary VIII (2) Individual instruction in French horn one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

**BRASS 472J Trombone: Primary VIII** (2) Individual instruction in trombone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

**BRASS 473J Euphonium: Primary VIII** (2) Individual instruction in euphonium/baritone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

**BRASS 474J Tuba: Primary VIII** (2) Individual instruction in tuba one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

**BRASS 480J Trumpet: Performance VIII** (3) Individual instruction in trumpet one hour per week. For B.Mus. trumpet performance majors.
Effective: Fall 1983
Prerequisite:

**BRASS 481J French Horn: Performance VIII** (3) Individual instruction in French horn one hour per week. For B.Mus. French horn performance majors.
Effective: Fall 1983
Prerequisite:

**BRASS 482J Trombone: Performance VIII** (3) Individual instruction in trombone one hour per week. For B.Mus. trombone majors.
Effective: Fall 1983
Prerequisite:

**BRASS 483J Euphonium: Performance VIII** (3) Individual instruction in euphonium/baritone one hour per week. For B.Mus. euphonium/baritone majors.
Effective: Fall 1983
Prerequisite:

**BRASS 484J Tuba: Performance VIII** (3) Individual instruction in tuba one hour per week. For B.Mus. tuba majors.
Effective: Fall 1983
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Music - Keyboard (KEYBD)

KEYBD 100J (GA) **Piano: Secondary** (1 per semester, maximum of 8) Individual instruction in piano one-half hour per week. Effective: Fall 2004
Prerequisite:

KEYBD 101J (GA) **Organ: Secondary** (1 per semester, maximum of 8) Individual instruction in pipe organ one-half hour per week. Effective: Fall 2004
Prerequisite:

KEYBD 110J (GA) **Piano: Secondary** (2 per semester, maximum of 16) Individual instruction in piano one hour per week. Effective: Fall 2004
Prerequisite:

KEYBD 111J (GA) **Organ: Secondary** (2 per semester, maximum of 16) Individual instruction in pipe organ one hour per week. Effective: Fall 2004
Prerequisite:

KEYBD 120J **Piano: Primary I** (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 121J **Organ: Primary I** (2) Individual instruction in pipe organ one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 130J **Piano: Performance I** (3) Individual instruction in piano one hour per week. For B.Mus. performance majors. Effective: Fall 1983
Prerequisite:

KEYBD 170J **Piano: Primary II** (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 180J **Piano: Performance II** (3) Individual instruction in piano one hour per week. For B.Mus. piano performance majors. Effective: Fall 1983
Prerequisite:

KEYBD 220J **Piano: Primary III** (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 221J **Organ: Primary III** (2) Individual instruction in pipe organ one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 230J **Piano: Performance III** (3) Individual instruction in piano one hour per week. For B.Mus. piano performance majors. Effective: Fall 1983
Prerequisite:

KEYBD 270J **Piano: Primary IV** (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 271J **Organ: Primary IV** (2) Individual instruction in pipe organ one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

KEYBD 280J **Piano: Performance IV** (3) Individual instruction in piano one hour per week. For B.Mus. piano performance majors. Effective: Fall 1983
Prerequisite:

KEYBD 320J **Piano: Primary V** (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

KEYBD 321J Organ: Primary V (2) Individual instruction in pipe organ one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

KEYBD 330J Piano: Performance V (3) Individual instruction in piano one hour per week. For B.Mus. piano performance majors.
Effective: Fall 1983
Prerequisite:

KEYBD 331J Organ: Performance V (3) Individual instruction in pipe organ one hour per week. For B.Mus. organ performance majors.
Effective: Summer 2011
Prerequisite:

KEYBD 370J Piano: Primary VI (2) Individual instruction in piano one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

KEYBD 371J Organ: Primary VI (2) Individual instruction in pipe organ one hour per week. For School of Music B.A. and B.S majors.
Effective: Fall 1983
Prerequisite:

KEYBD 380J Piano: Performance VI (3) Individual instruction in piano one hour per week. For B.Mus. piano performance majors.
Effective: Fall 1983
Prerequisite:

Effective: Fall 1983
Prerequisite:

WWNDS 333J Bassoon: Performance V (3) Individual instruction in bassoon one hour per week. For B.Mus. bassoon performance majors.
Effective: Fall 1983
Prerequisite:

WWNDS 334J Saxophone: Performance V (3) Individual instruction in saxophone one hour per week. For B.Mus. saxophone performance majors.
Effective: Fall 1983
Prerequisite:

WWNDS 370J Flute: Primary VI (2) Individual instruction in flute one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 371J Oboe: Primary VI (2) Individual instruction in oboe one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 372J Clarinet: Primary VI (2) Individual instruction in clarinet one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 373J Bassoon: Primary VI (2) Individual instruction in bassoon one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 374J Saxophone: Primary VI (2) Individual instruction in saxophone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 380J Flute: Performance VI (3) Individual instruction in flute one hour per week. For B.Mus. flute performance majors.
Effective: Fall 1983
Prerequisite:

WWNDS 381J Oboe: Performance VI (3) Individual instruction in oboe one hour per week. For B.Mus. oboe majors. Effective: Fall 1983

Prerequisite:

WWNDS 382J Clarinet: Performance VI (3) Individual instruction in clarinet one hour per week. For B.Mus. clarinet majors. Effective: Fall 1983

Prerequisite:

WWNDS 383J Bassoon: Performance VI (3) Individual instruction in bassoon one hour per week. For B.Mus. bassoon performance majors. Effective: Fall 1983

Prerequisite:

WWNDS 384J Saxophone: Performance VI (3) Individual instruction in saxophone one hour per week. For B.Mus. saxophone performance majors. Effective: Fall 1983

Prerequisite:

WWNDS 420J Flute: Primary VII (2) Individual instruction in flute one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 421J Oboe: Primary VII (2) Individual instruction in oboe one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 422J Clarinet: Primary VII (2) Individual instruction in clarinet one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 423J Bassoon: Primary VII (2) Individual instruction in bassoon one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 424J Saxophone: Primary VII (2) Individual instruction in saxophone one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 430J Flute: Performance VII (3) Individual instruction in flute one hour per week. For B.Mus. flute performance majors. Effective: Fall 1983

Prerequisite:

WWNDS 431J Oboe: Performance VII (3) Individual instruction in oboe one hour per week. For B.Mus. oboe majors. Effective: Fall 1983

Prerequisite:

WWNDS 432J Clarinet: Performance VII (3) Individual instruction in clarinet one hour per week. For B.Mus. clarinet majors. Effective: Fall 1983

Prerequisite:

WWNDS 433J Bassoon: Performance VII (3) Individual instruction in bassoon one hour per week. For B.Mus. bassoon performance majors. Effective: Fall 1983

Prerequisite:

WWNDS 434J Saxophone: Performance VII (3) Individual instruction in saxophone one hour per week. For B.Mus. saxophone performance majors. Effective: Fall 1983

Prerequisite:

WWNDS 470J Flute: Primary VIII (2) Individual instruction in flute one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 471J Oboe: Primary VIII (2) Individual instruction in oboe one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983

Prerequisite:

WWNDS 472J Clarinet: Primary VIII (2) Individual instruction in clarinet one hour per week. For School of Music B.A. and B.S. majors. Effective: Fall 1983
Prerequisite:

WWNDS 473J **Bassoon: Primary VIII** (2) Individual instruction in bassoon one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 474J **Saxophone: Primary VIII** (2) Individual instruction in saxophone one hour per week. For School of Music B.A. and B.S. majors.
Effective: Fall 1983
Prerequisite:

WWNDS 480J **Flute: Performance VIII** (3) Individual instruction in flute one hour per week. For B.Mus. flute performance majors.
Effective: Fall 1983
Prerequisite:

WWNDS 481J **Oboe: Performance VIII** (3) Individual instruction in oboe one hour per week. For B.Mus. oboe majors.
Effective: Fall 1983
Prerequisite:

WWNDS 482J **Clarinet: Performance VIII** (3) Individual instruction in clarinet one hour per week. For B.Mus. clarinet majors.
Effective: Fall 1983
Prerequisite:

WWNDS 483J **Bassoon: Performance VIII** (3) Individual instruction in bassoon one hour per week. For B.Mus. bassoon performance majors.
Effective: Fall 1983
Prerequisite:

WWNDS 484J **Saxophone: Performance VIII** (3) Individual instruction in saxophone one hour per week. For B.Mus. saxophone performance majors.
Effective: Fall 1983
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Music Education (MU ED)

MU ED 440 Music Learning and Development (2) Psychological principles related to music learning processes and applications of those to teaching music.
Effective: Spring 2010
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Nanofabrication Manufacturing Technology (NMT)

NMT 210W Introduction to Nanofabrication Manufacturing Technology (3) This course provides an overview of basic Nanofabrication Manufacturing Technology for Engineering and Technology students. The course will give the student an overview of atomic physics and the use of atoms to build devices and machines.
Effective: Fall 2003
Prerequisite: Concurrent: STAT 200 CHEM 012

NMT 250 Introduction to Nanotechnology Quality Control and Quality Assurance (1) Overview of basic quality control and quality assurance methods used by the Nanotechnology industry.
Effective: Spring 2005
Prerequisite:
Navy (NAVSC)

NAVSC 101 Introduction to Naval Science (2) Introduction to naval organization, customs, military law, ships, aircraft, and Marine Corps and Navy career paths.
Effective: Fall 1983

NAVSC 102 Sea Power and Maritime Affairs (3) Historical evolution of sea power and its effects on world history; current U.S. maritime strategy for employment of naval forces.
Effective: Spring 1994

NAVSC 204 Leadership and Management I (2) Managerial thought and behavioral theories, with emphasis on how they apply to the naval organization.
Effective: Spring 1993

NAVSC 205 Navigation (3) Theory and principles of all types of piloting and navigation, including a practicum emphasizing correct documentation and plotting.
Effective: Spring 2006

NAVSC 311 Evolution of Warfare (2) Survey of development of military strategy, tactics, principles of war, and weaponry through the ages and recent U.S. applications.
Effective: Fall 1992

NAVSC 313 Marine Corps Leadership Theory and Techniques (2) Introduction to Marine Corps leadership theory and techniques and their application to military-related practical skills and subject matter.
Effective: Fall 1992

NAVSC 322 Naval Ships Systems I--Naval Engineering (3.5) Principles and applications of engineering concepts to ship construction, stability, and propulsion and auxiliary systems.
Effective: Fall 1992

NAVSC 323 Naval Ships Systems II--Weapons (3) An analysis of electromagnetic wave theory, principles of underwater sound propagation, electro-optic theory, and weapons control systems.
Effective: Spring 2006
Prerequisite:

NAVSC 401 Naval Operations and Seamanship (3) Introduction to naval operations; the theory and principles of the rules of the road; use of the maneuvering board.
Effective: Fall 2006
Prerequisite:

NAVSC 402 Leadership and Management II (2) The Navy's Resource Management Program (personnel management), counseling techniques, military justice, prevention of substance abuse, and naval correspondence and publications.
Effective: Fall 1983
Prerequisite:

NAVSC 411 Amphibious Warfare (2) A historical survey and evaluation of twentieth-century amphibious warfare operations.
Effective: Fall 1992
Prerequisite:

NOTE: Candidates for regular commission in the Navy will gain practicum work during two afloat summer cruises.
Candidates for Regular commission in the Marine Corps will gain practicum work during one afloat summer cruise and one Marine Corps cruise at a Marine Corps base.
Additionally, the summer between the sophomore and junior years includes career orientation and training on vocational specialties in the Navy and Marine Corps.
Candidates for Reserve commissions in the navy and the Marine Corps will gain practicum work during one afloat summer cruise or one cruise at a Marine Corps base, respectively.

Last Import from UCM: June 2, 2012 12:27 PM
Nuclear Engineering (NUC E)

NUC E 001S Atomic Adventures: First-Year Seminar (1) First-year seminar exploring the interesting and exciting world of nuclear science and its applications.
Effective: Fall 1999

NUC E 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1998

NUC E 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

NUC E 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

NUC E 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

NUC E 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

NUC E 301 Fundamentals of Reactor Physics (4) Nuclear reactions and interactions relevant to nuclear engineering including fission, cross-sections, reaction rate calculations, energy depositions rates, and radioactive decay.
Effective: Spring 2001
Prerequisite:
NUC E 302 Introduction to Reactor Design (4) Static and dynamic reactor theory applied to basic reactor design problems.
Effective: Spring 2001
Prerequisite:
NUC E 309 Analytical Techniques for Nuclear Concept (3) This course is an introduction to many of the analytical techniques used in the nuclear engineering discipline.
Effective: Summer 1993
Prerequisite:
NUC E 310W Issues in Nuclear Engineering (2) Societal and technical issues facing nuclear engineers, including safety, operations, waste, regulation, public acceptance, economics, ethics, and radiation.
Effective: Fall 2001
Prerequisite:
NUC E 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

NUC E 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2008

NUC E 401 Introduction to Nuclear Engineering (3) Fundamental concepts of nuclear engineering, including fission, reactor theory, shielding, and radioisotopes; intended for other than nuclear engineering students.
Effective: Fall 2001
Prerequisite:
NUC E 403 Advanced Reactor Design (3) Physical principles and computational methods for reactor analysis and design. Multigroup diffusion theory; determination of fast and thermal group constants; cell calculations for heterogeneous core lattices.
Effective: Fall 1983
Prerequisite:
NUC E 405 (CHEM 406) Nuclear and Radiochemistry (3) Theory of radioactive decay processes, nuclear properties and structure, nuclear reactions, interactions of radiation with matter, biological effects of radiation.
Effective: Spring 2007
Prerequisite:
NUC E 406 (M E 406) Introduction to Statistical Thermodynamics (3) Statistical description of systems composed of large numbers of particles in the context of classical and quantum mechanics; basic concepts of probability theory and

The Pennsylvania State University
thermodynamics as they relate to statistical mechanics.

**Effective: Fall 2007**

**Prerequisite:**

NUC E 408 **Radiation Shielding** (3) Radiation sources in reactor systems; attenuation of gamma rays and neutrons; point kernel methods; deep penetration theories; Monte Carlo methods.

**Effective: Spring 1985**

**Prerequisite:**

NUC E 409 (MATSE 409) **Nuclear Materials** (3) Nuclear reactor materials: relationship between changes in material properties and microstructural evolution of nuclear cladding and fuel under irradiation.

**Effective: Spring 2003**

**Prerequisite:**

NUC E 420 **Radiological Safety** (3) Ionizing radiation, biological effects, radiation measurement, dose computational techniques, local and federal regulations, exposure control.

**Effective: Spring 1997**

**Prerequisite:**

**Effective: Spring 1997**

**Prerequisite:**

NUC E 430 **Design Principles of Reactor Systems** (3) Nuclear power cycles; heat removal problems; kinetic behavior of nuclear systems; material and structural design problems.

**Effective: Fall 2007**

**Prerequisite:**

NUC E 431W **Nuclear Reactor Core Design Synthesis** (4) Technical and economic optimization of nuclear systems.

**Effective: Spring 1994**

**Prerequisite:**

**Effective: Spring 2011**

**Prerequisite:**

NUC E 450 **Radiation Detection and Measurement** (3) Theory and laboratory applications of radiation detectors, including proton, neutron, charged particle detectors, NIM devices, and pulse-height analysis.

**Effective: Spring 2001**

**Prerequisite:**

NUC E 451 **Experiments in Reactor Physics** (3) Acquisition and processing of nuclear and atomic data; application to nucleonic phenomena of importance in nuclear engineering.

**Effective: Spring 2008**

**Prerequisite:**

NUC E 470 **Power Plant Simulation** (3) Basic knowledge necessary for intelligent simulation and interpretation of simulations of transients in nuclear power plants.

**Effective: Fall 2007**

**Prerequisite:**

NUC E 490 (AERSP 490, E E 471) **Introduction to Plasmas** (3) Plasma oscillations; collisional phenomena; transport properties; orbit theory; typical electric discharge phenomena.

**Effective: Spring 2008**

**Prerequisite:**

NUC E 494H **Senior Thesis** (1-9) Students must have approval of a thesis adviser before scheduling this course.

**Effective: Spring 2007**

**Prerequisite:**

NUC E 496 **Independent studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

**Effective: Fall 1983**

NUC E 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

**Effective: Fall 1983**

NUC E 497A **Fundamentals of Nuclear Engineering** (3) An intensive course providing introduction to Nuclear Engineering to undergraduate co-op students, non-NucE graduate, and returning students.

**Effective: Summer 2012 Ending: Summer 2012**

NUC E 497A **Fundamentals of Nuclear Engineering** (3) An intensive course providing introduction to Nuclear Engineering to undergraduate co-op students, non-NucE graduate, and returning students.

**Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012**
NUC E 497D **Radiation Detection Measurement Lab** (1) Theory and laboratory applications of radiation detectors, including proton, neutron, charged particle detectors, NIM devices, and pulse-height analysis.  
Effective: Summer 2012 Ending: Summer 2012

NUC E 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2008

Last Import from UCM: June 2, 2012 12:27 PM
Nursing (NURS)

NURS 111S (US:IL) Nursing Roles (4) Introduction to nursing roles/process with emphasis on societal norms and multicultural influences on health care needs.
Effective: Spring 2011
Prerequisite:

NURS 112 Health Patterns/Nursing Interventions (4) Emphasis on individual health patterns and selected nursing interventions.
Effective: Spring 2011
Prerequisite:

NURS 113 Nursing Care During Childbearing Years (3) Emphasis on childbearing family through prenatal, intrapartal, postpartal and neonatal periods.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 113 Nursing Care During Childbearing Years (3) Emphasis on childbearing family through prenatal, intrapartal, postpartal and neonatal periods.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 114 Nursing Care During Childrearing Years (3) Emphasis on infancy through young adulthood with common and well-defined health problems, with integrated nursing content.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 114 Nursing Care During Childrearing Years (3) Emphasis on infancy through young adulthood with common and well-defined health problems, with integrated nursing content.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 115 Medications and the Elderly Client (1) Nursing implications of medication therapy with the elderly client.
Effective: Fall 2008

NURS 116 Clinical Immersion I: Introduction to Concepts of Illness (2) Clinical immersion course that utilizes clinical experiences and seminars to develop clinical competency.
Effective: Summer 2010
Prerequisite:

NURS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2008

NURS 200M Understanding and Applying Nursing Research (3) Introduction to methods and philosophy of empirical inquiry as applied to research in nursing and application to practice.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 200W Understanding and Applying Nursing Research (3) Introduction to methods and philosophy of empirical inquiry as applied to research in nursing and application to practice.
Effective: Spring 2011
Prerequisite:

NURS 203 (GHA) First Aid and CPR (3) An introductory first aid course designed to provide the basic knowledge and skills to provide assistance to someone injured/ill.
Effective: Fall 2008

NURS 211 Pathophysiology I - Nursing Interventions (5) Caring for middle-aged adult with acute/chronic alterations in resp/cardio and musculoskeletal dysfunction.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 211 Pathophysiology I - Nursing Interventions (5) Caring for middle-aged adult with acute/chronic alterations in resp/cardio and musculoskeletal dysfunction.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 212 Pathophysiology II - Nursing Interventions (4) Caring for middle-aged adults with acute/chronic alterations in metabolism, reproduction, oncology and immunology.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 212 Pathophysiology II - Nursing Interventions (4) Caring for middle-aged adults with acute/chronic alterations in metabolism, reproduction, oncology and immunology.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:
in metabolism, reproduction, oncology and immunology.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 213 Pathophysiology III - Nursing Interventions (5) Care for adults with complex physical and dysfunctional health patterns.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 213 Pathophysiology III - Nursing Interventions (5) Care for adults with complex physical and dysfunctional health patterns.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 214W Nursing Care of Clients with Psychiatric/Mental Health Disorders (3) Emphasis on care of adults with emotional or dysfunctional mental health patterns.
Effective: Summer 2011 Ending: Fall 2012
Prerequisite:

NURS 214W Nursing Care of Clients with Psychiatric/Mental Health Disorders (3) Emphasis on care of adults with emotional or dysfunctional mental health patterns.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 216 Clinical Immersion II: Introduction to Concepts of Leadership (2) Clinical immersion course focusing on patient care and clinical seminars to develop leadership and clinical competencies.
Effective: Summer 2010 Ending: Fall 2012
Prerequisite:

NURS 216 Clinical Immersion II: Introduction to Concepts of Leadership (2) Clinical immersion course focusing on patient care and clinical seminars to develop leadership and clinical competencies.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 225 Pathophysiology (3) Designed to explore the illness component of health with emphasis on the pathophysiological and psychosocial aspects.
Effective: Spring 2011
Prerequisite:

NURS 230 Introduction to the Fundamentals of Nursing (4) Introduction to the nursing process, clinical competencies and psychosocial skills.
Effective: Spring 2011
Prerequisite:

NURS 245 (GS) Violence and the Impact on Society (3) Interdisciplinary discussion of violence, its perpetrators, victims and its impact on society as well as possible solutions for violence reduction.
Effective: Spring 2010

NURS 250 (US) Professional Role Dev I: Intro to Professional Issues in Nursing Practice and Nursing Informatics (2) Introduction to professional nursing practice and health-related issues emphasizing application of nursing informatics.
Effective: Spring 2011
Prerequisite:

NURS 251 Health Assessment (3) Designed to broaden the student's knowledge and skills in health assessment and physical examination across the lifespan.
Effective: Spring 2011
Prerequisite:

NURS 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2008

NURS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2008

NURS 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2008

NURS 300H Honors Seminar in Nursing (3-12) Seminar activities on selected topics in nursing.
Effective: Spring 2011
Prerequisite:

NURS 301 Nursing Care of the Adult Client Requiring Medical-Surgical Intervention (4) Therapeutic nursing care of the adult client in a variety of primarily medical-surgical settings.
Effective: Spring 2011

The Pennsylvania State University
Prerequisite:

NURS 303 Clinical Application of Laboratory Tests (1) A study of the background, meaning, and nursing implications of laboratory test results.
Effective: Spring 2011
Prerequisite:

NURS 305 Introduction to Pharmacological Concepts (3) Study of basic concepts of pharmacology and relevant nursing implications.
Effective: Spring 2011
Prerequisite: Concurrent: NURS 301 NURS 310

NURS 306 Nursing Care of Children and Adolescents (3) Common health problems and nursing intervention for children and adolescents.
Effective: Spring 2011
Prerequisite:

NURS 310 Therapeutic Nursing Care of the Older Adult Client in a Variety of Settings (3) Nursing concerns and intervention in promoting the health of the older adult.
Effective: Spring 2011
Prerequisite:

NURS 320 Nursing Care of the Childbearing Family and Gynecological Client (3) Therapeutic nursing care of the childbearing family and gynecological client.
Effective: Spring 2011
Prerequisite:

NURS 350 Professional Role Development II: Ethics, Legal and Genetic Issues (2) The study of the interaction of ethical, legal, and genetic concepts as they apply to current health care practice.
Effective: Summer 2010
Prerequisite:

NURS 357 Introduction to Nursing Informatics (3) An introduction to nursing informatics focusing on technology applications to the nursing profession.
Effective: Spring 2011
Prerequisite:

NURS 390 (US) Transition and the Professional Nursing Role (3) Transition to baccalaureate education and professional nursing practice, emphasizing leadership, management, and issues influencing nursing education and practice.
Effective: Fall 2008
Prerequisite:

NURS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2008

NURS 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2008

NURS 401 (IL) Concepts of Health (3) Exploration of current and ancient concepts of health and their respective modes of intervention.
Effective: Fall 2008
Prerequisite:

NURS 402 (US;IL) Holistic Health (3) Examination of emerging conceptualizations of health and therapy based on a holistic view of human beings.
Effective: Fall 2008
Prerequisite:

NURS 403 School Health and Emergency Care of Children and Adolescents (3) Techniques for higher-level care for school health and emergency situations and application-based education.
Effective: Spring 2010
Prerequisite:

NURS 404 Cardiac Dysrhythmias: Interpretation, Treatment, and Nursing Management (1) An introductory course with a focus on dysrhythmia recognition and interpretation of abnormal 12-lead electrocardiograms (EKG, ECG).
Effective: Fall 2008
Prerequisite:

NURS 405A Nursing Care of the Adult Client with Complex Health Problems: Part A (4) In-depth study of care of patients with acute and complex health problems, utilizing evidence based practice.
Effective: Spring 2011 Ending: Summer 2012
Prerequisite:

NURS 405A Nursing Care of the Adult Client with Complex Health Problems: Part A (4) In-depth study of care of patients with acute and complex health problems, utilizing evidence based practice.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:
NURS 405B Nursing Care of the Adult Client with Complex Health Problems: Part B (4) In-depth study of care of patients with acute and complex health problems, utilizing evidence based practice. Effective: Summer 2010 Ending: Summer 2012
Prerequisite:

NURS 405B Nursing Care of the Adult Client with Complex Health Problems: Part B (4) In-depth study of care of patients with acute and complex health problems, utilizing evidence based practice. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 407 Drugs of Abuse and Mental Health Issues (3) Examines the health care needs across the lifespan of clients who have an alcohol or other drug disorder. Effective: Fall 2008
Prerequisite:

NURS 408 Clinical Application of Pharmacological Concepts (1) Study of the application of pharmacological concepts to the clinical setting. Effective: Spring 2011
Prerequisite:

NURS 409 Introduction to Forensic Nursing (3) Provides an introduction to the forensic health sciences, forensic nursing, and the nursing role in the scientific investigation of violence. Effective: Spring 2011
Prerequisite:

NURS 415 (US;IL) Community and Family Health Nursing (4) Therapeutic nursing care and health promotion concepts to families, groups and populations in the community. Effective: Spring 2011 Ending: Summer 2012
Prerequisite:

NURS 415 (US;IL) Community and Family Health Nursing (4) Therapeutic nursing care and health promotion concepts to families, groups and populations in the community. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 417 (US;IL) Family and Community Health Concepts (4) Study of the concepts of family and community based nursing care emphasizing multicultural influences on health practices. Effective: Fall 2008
Prerequisite:

Prerequisite:

NURS 420 Mental Health Nursing (4) Emphasizes clinical application of mental health theory in nursing care of patients with acute and chronic mental health problems. Effective: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 430 Organization and Administration for the Nurse Manager (3) Introduction to organizational theory and principles of practice in the administration of nursing services and patient care. Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 430 Organization and Administration for the Nurse Manager (3) Introduction to organizational theory and principles of practice in the administration of nursing services and patient care. Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 431 Data Management for Nurse Managers (3) Analysis of information systems to manage nursing service organizations; includes financial management, the budgeting processes, and productivity measurement. Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 431 Data Management for Nurse Managers (3) Analysis of information systems to manage nursing service organizations; includes financial management, the budgeting processes, and productivity measurement. Effective: Spring 2013 Future: Spring 2013
Prerequisite:

Prerequisite:

Prerequisite:
NURS 433 Seminar for Nurse Managers (3) Course focuses on the application of management principles in the role of the nurse manager.
Effective: Spring 2011 Ending: Fall 2012
Prerequisite:

NURS 433 Seminar for Nurse Managers (3) Course focuses on the application of management principles in the role of the nurse manager.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 440 Trauma/Critical Care Nursing (3) Focuses on the impact of and the nursing care of persons experiencing acute trauma and/or critical illness.
Effective: Spring 2011
Prerequisite:

NURS 450A Professional Role Development III: Leadership and Management (2) Study of leadership roles and various styles of nursing management and their implications for the professional nurse.
Effective: Spring 2011 Ending: Summer 2012
Prerequisite:

NURS 450A Professional Role Development III: Leadership and Management (2) Study of leadership roles and various styles of nursing management and their implications for the professional nurse.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 450B Professional Role Development III: Clinical Capstone (3) Senior level clinical capstone course that emphasizes the integration and application of theory and evidence based practice.
Effective: Summer 2010 Ending: Summer 2012
Prerequisite:

NURS 450B Professional Role Development III: Clinical Capstone (3) Senior level clinical capstone course that emphasizes the integration and application of theory and evidence based practice.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 452 (US) (BB H 452, WMNST 452) Women's Health Issues (3) Exploration of major health issues concerning women today, with an emphasis on social, cultural, and medical influences.
Effective: Fall 2008
Prerequisite:

NURS 458 Ethical Challenges in Healthcare Informatics (3) A case based collaboratory designed for the exploration and analysis of the ethical dilemmas facing healthcare informatics practitioners.
Effective: Spring 2011

NURS 459 Legal and Professional Issues in School Nursing (3) Legal and professional issues of school nurses and delivery impact of health care in school environment.
Effective: Spring 2010
Prerequisite:

NURS 460 Advanced Concepts in Clinical Nursing Informatics (3) An exploration of clinical informatics tools to support informatics practice.
Effective: Summer 2012
Prerequisite: Concurrent: NURS 458

NURS 461 Perioperative Nursing (4) Comprehensive introduction regarding fundamental principles and practices of the Operating Room Nurse when managing the care of the surgical patient.
Effective: Summer 2011
Prerequisite:

NURS 462 Psychotropic Drugs and Children/Adolescents (1) Study of psychotropic medications used to treat children and adolescents, including indications, actions, adverse reactions and implications for school nurses.
Effective: Summer 2011
Prerequisite:

NURS 463 Compassionate Counseling for Children/Adolescents Dealing with Dying, Death, Other Life Crises (3) Compassionate Counseling for Children and Adolescents Dealing with Dying, Death, and Other Life Crises.
Effective: Spring 2010 Ending: Fall 2012
Prerequisite:

NURS 463 Compassionate Counseling for Children/Adolescents Dealing with Dying, Death, Other Life Crises (3) Explores issues involving dying, death and life crises which occur in today’s world and affect school communities.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

NURS 464 (US;IL) Dying and Death (3) Explores attitudes toward death and dying; concept of grief; responsibilities to the dying person and the family.
Effective: Fall 2008
Prerequisite:

NURS 465 Health Concepts for Adults with Complex Health Care Needs (3) In-depth study and application of the
theoretical principles and roles of adult clients and families with complex healthcare needs.

Effective: Spring 2011
Prerequisite:

NURS 467 Medication Update and Health Teaching Interventions for School Nurses (1) Study of current pharmacologic concepts, including health teaching, prescribed for acute and chronic conditions commonly encountered in school nursing.

Effective: Summer 2011
Prerequisite:

NURS 468 Client Education Strategies for Nurses and Other Health Care Providers (3) Explores current and emerging roles of client education in the knowledge era.

Effective: Summer 2011
Prerequisite:

NURS 471 Issues in Bullying for Health Professionals (1) Explores the impact of bullying on individuals, schools, teachers, families, of the target and the bully.

Effective: Summer 2012
Prerequisite:

NURS 475 Integrated Concepts in Nursing Practice (3) Project-based capstone course for application of nursing concepts to health promotion/disease prevention in populations.

Effective: Spring 2011
Prerequisite:

NURS 492 Emergency Care and Safety (3) A comprehensive first aid course designed to provide knowledge of prehospital emergency care at the First Responder level.

Effective: Fall 2008
Prerequisite:

NURS 494H Honors Thesis (1-6 per semester/maximum of 6) Independent honors research project related to student’s interests directed by faculty supervisor and culminating in production of thesis.

Effective: Summer 2010
Prerequisite:

NURS 495 Nursing study in Specialized Setting (1-12) Designed to provide student with in-depth study and practice in clinical specialty area of choice.

Effective: Fall 2008
Prerequisite:

NURS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 2008

NURS 496A Study of Patients with Cerebrovascular Accident (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

NURS 496A Nurse Residency 1 (1) Introduction to methods and philosophy of empirical inquiry as applied to research in nursing and application to practice.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 496B Graduate Nurse Residency II (2) This course covers concepts to enhance the transition into professional nursing practice in areas of leadership, professionalism and clinical practice.

Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

NURS 496B Nurse Residency 2 (2) This course continues these concepts from NURS 496 Graduate Nurse Residency I and integrates them into a quality or evidence based practice project.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

NURS 496C Neonatal Intensive Care Indepth Study (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Summer 2012 Ending: Summer 2012

NURS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Fall 2008

NURS 497A Relational Aggression in the Healthcare Setting (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Summer 2012 Ending: Summer 2012

NURS 497A Relational Aggression in the Healthcare Setting (3) Explores issue of relational aggression in healthcare
workforce with specific focus on nursing profession. Examine research/impact of this problem. 
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012 
Prerequisite:

NURS 497B Bullying: Identification and Intervention (1) Explores the impact of bullying on individuals, schools, teachers, families of the target and the bully.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

NURS 497B Principles of Precepting Pre-licensure Nursing Students (3) Course outlines the principles of clinical precepting and application to nursing students. Identification of learning styles, effective teaching strategies, and evaluation form the basis of this course.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 497C Autism Spectrum Disorders; Care Overview (1) An overview of autism spectrum disorders.
Effective: Summer 2012 Ending: Summer 2012
Prerequisite:

NURS 497D Mental Health Movies and Madness (3) Clinical application of mental health theory in nursing care of patients with acute/chronic mental health problems and use of film.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

NURS 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2008

NURS 499 (IL) Foreign Study--Nursing (1-9) Study of nursing issues in a foreign country.
Effective: Fall 2008

Last Import from UCM: June 2, 2012 12:27 PM
Nutrition (NUTR)

NUTR 100 (GHA) Contemporary Nutrition Concerns (1.5) Interpretation of nutrition principles in relation to contemporary problems in selecting a diet to promote a healthy lifestyle. Students who have received credit for NUTR 151 or NUTR 251 may not schedule this course.
Effective: Spring 2004

NUTR 115 Theory of Exercise and Nutrition for Weight Control (1) Nutrition application for responsible weight control.
Effective: Spring 2005
Concurrent: ESACT 115

NUTR 119 Elementary Foods (3) Basic principles and fundamental processes underlying food preparation. For non-nutrition majors only.
Effective: Spring 1992

NUTR 120 Food Preparation (3) Scientific principles of basic food preparation, with an emphasis on the physical and chemical aspects.
Effective: Summer 2007
Prerequisite:

NUTR 170 Careers in Nutrition (1) Nutrition professionals describe career paths and opportunities for graduates in applied and science options; strategies for making effective career decisions.
Effective: Summer 1996

NUTR 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

NUTR 230 (HIST 230, S T S 230) American Food System: History, Technology and Culture (3) A cultural analysis of the evolution of U.S. agricultural production and food consumption patterns, the food industry and food marketing.
Effective: Spring 1992

NUTR 251 (GHA) Introductory Principles of Nutrition (3) The nutrients: food sources and physiological functions as related to human growth and well-being throughout life; current nutrition issues. Students who have passed NUTR 151 may not schedule this course.
Effective: Spring 2004

NUTR 252 Diet Therapy and Nutrition Care in Disease (4) Principles of nutrition care to meet therapeutic needs, inpatient care, and rehabilitation.
Effective: Summer 2011
Prerequisite:

NUTR 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1992

NUTR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1992

NUTR 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

NUTR 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

NUTR 358 Assessment of Nutritional Status (2) Introduction to purpose, methods, and scientific basis for assessment of nutritional status in total health care for individuals and groups.
Effective: Fall 2002
Prerequisite:

NUTR 359 Nutrition Assessment Theory and Practice (2) Introduction to purpose, methods, and scientific basis for assessment of nutritional status and use of tools in a practice setting.
Effective: Summer 1993
Prerequisite:

NUTR 360 Disseminating Nutrition Information (3) Theory and practice of providing nutrition information across the

The Pennsylvania State University
lifespan. Open only to Health and Human Development majors.
Effective: Fall 2002
Prerequisite:

NUTR 370 Profession of Dietetics (1) Introduction to the profession of dietetics including laws, regulations and standards affecting practice, and preparation for post-baccalaureate degree training.
Effective: Spring 1992
Prerequisite:

NUTR 371 Dietetic Internship Application Development (1) Provides Dietetic Option majors with techniques and information to specify and implement post-graduation educational and career plans in dietetics.
Effective: Summer 2012
Prerequisite: Concurrent: NUTR 370

NUTR 375 Nutrition Peer Education Training (2) To train students accepted into the HealthWorks Peer Education Program, to provide reliable nutrition information to their peers.
Effective: Spring 2000
Prerequisite:

NUTR 380 Leadership Principles in Nutrition Services (3) Issues impacting delivery of nutrition services in health care environments, including, health care systems, management theories, decisions making, and leadership.
Effective: Summer 2005
Prerequisite:

NUTR 385 Managing Quality in Food and Nutrition Services (3) Application and integration of management theory to quality attainment in food and nutrition services.
Effective: Spring 2010
Prerequisite: Concurrent: HRIM 330

NUTR 391 Introduction to Professional Nutrition Experience (1) Provides dietetics students with an introduction to the skills necessary to obtain and complete an advanced field experience in nutrition.
Effective: Summer 2012
Prerequisite:

NUTR 395 Nutrition Field Experience (1-6) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity is required.
Effective: Spring 1992
Prerequisite:

NUTR 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

NUTR 400 Introduction to Nutrition Counseling (1) No description.
Effective: Fall 1998
Prerequisite:

NUTR 401 Nutrition Clinic Practicum (1-3) To provide qualified nutrition students with the opportunity to practically apply nutrition counseling skills in a supervised environment.
Effective: Spring 2002
Prerequisite:

NUTR 407 Nutrition for Exercise and Sports (3) Interactions between nutrition, food selection, and timing of eating as they apply to exercise training and recreational physical activity.
Effective: Summer 2012
Prerequisite:

NUTR 421 (US:IL) Food Culture and Health Trends (3) Social-political, historic, and geographic roots of food patterns, featuring specific cuisine areas and nutritional disease patterns; includes foods laboratory.
Effective: Summer 2005
Prerequisite:

NUTR 430 (IL) (S T S 430) Global Food Strategies: Problems and Prospects for Reducing World Hunger (3) Technological, social, and political solutions to providing basic food needs; food resources, population, and the environment; current issues.
Effective: Summer 2005

NUTR 445 Nutrient Metabolism I (3) Nutrients, their sources, metabolism, interrelationships and requirements with focus on carbohydrates, lipids, and proteins.
Effective: Spring 2001
Prerequisite:

NUTR 446 Nutrient Metabolism II (3) Continuation of NUTR 445; nutrients, their sources, metabolism, inter-relationships and requirements with focus on vitamins and minerals.
Effective: Summer 1994
Prerequisite:

NUTR 451 Nutrition throughout the Life Cycle (3) Application of basic principles of nutrition to nutritional and physiological needs throughout the life cycle from prenatal to aging.
Effective: Spring 2001

The Pennsylvania State University
NUTR 452 Nutritional Aspects of Disease (3) Disturbances in metabolism related to human disease processes; principles of nutrition in therapy. Effective: Spring 1995

NUTR 453 Diet in Disease (3) Nutrient and energy controlled diet programs. Implications for nutrition counseling and education. Effective: Spring 1995

NUTR 456 Community Nutrition (2) Programs and policies of nutrition-related activities of community agencies; factors pertinent to nutrition education. Effective: Spring 1992 Ending: Summer 2012

NUTR 456 (US) Community Nutrition (3) Programs and policies of nutrition-related activities of community agencies; factors pertinent to nutrition education; relationship of cultural and social identity to foods and nutrition. Effective: Fall 2012 Future: Fall 2012

NUTR 490W Nutrition Seminar (3) Use of selected materials from the scientific literature to prepare a term paper and an oral report. Effective: Spring 1995

NUTR 494H Senior Honors Thesis (1-6) Independent study related to a student's interests directed by a faculty supervisor and culminating in the production of a thesis. Effective: Summer 2006

NUTR 495 Advanced Field Experience in Nutrition (1-6) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity is required. Effective: Spring 2001

NUTR 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1992

NUTR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1992

NUTR 497F Macronutrient Metabolism for Non-Nutrition Majors (3) Nutrients, their sources, metabolism, interrelationships and requirements with focus on carbohydrates, lipids, and proteins for non-nutrition majors. Effective: Summer 2012 Ending: Summer 2012

NUTR 497G Community Food Security (3) Through active learning, students explore how communities can reshape food systems, increasing access to wholesome food while increasing economic opportunities. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

NUTR 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

NUTR 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005
**Occupational Therapy (O T)**

O T 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2000

O T 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2000

O T 100S **Structural Foundations of Occupational Therapy** (1) An overview of the structural foundations of the occupational therapy profession. Effective: Spring 2011

O T 101 **Conceptual Foundations of Occupational Therapy Practice** (3) An overview of the conceptual foundations of occupational therapy practice. Observation of therapists in treatment settings. Effective: Spring 2011

O T 103 **Occupational Performance Across the Life Span** (3) Analysis of occupations from birth to death including descriptions of occupational performance and factors which influence performance. Effective: Spring 2011

O T 105W **Activity Analysis: Group Interaction Skills** (3) Group interaction observed and analyzed. Activities to facilitate and enhance interactions practiced. Effective: Spring 2007

O T 107 **Activity Analysis: Assistive Technologies and Methods of Adaptation** (3) Assistive technologies and methods of adaptation analyzed; selection criteria, methodologies, proper use, and precautions presented. Effective: Spring 2000

O T 107H **Activity Analysis: Assistive Technologies and Methods of Adaptation** (3) Assistive technologies and methods of adaptation analyzed; selection criteria, methodologies, proper use, and precautions presented. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

O T 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2000

O T 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2000

O T 201 **Documentation Skills for OTA Students** (3) Instruction and practice in documentation of occupational therapy intervention utilizing selected formats. Effective: Spring 2011

O T 204 **Occupational Therapy for Psychosocial Dysfunctions** (3) Occupational therapy evaluation, intervention, documentation, methods for psychosocial dysfunctions. Observation of therapists in treatment settings. Effective: Spring 2000

O T 206 **Occupational Therapy for Physical Disabilities** (3) Occupational therapy evaluation, intervention, documentation methods for physical disabilities, observation of therapists in treatment settings. Effective: Spring 2000

O T 295A **Field Experience in Occupational Therapy I** (6) Part I of supervised experience in select occupational therapy settings in the role of an occupational therapy assistant; seminars included. Effective: Fall 2008
O T 295B **Field Experience in Occupational Therapy II** (6) Part II of supervised experience in select occupational therapy settings in the role of an occupational therapy assistant; seminars included.
Effective: Spring 2010
Prerequisite:

O T 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

O T 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

O T 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

O T 401 **Conceptual Foundations of Occupational Therapy and Occupational Adaptations** (2) Analysis of philosophies and frames of reference for occupational therapy practice, emphasizing occupational functioning, the adaptation process, and occupational environments. Occupational Therapy majors only.
Effective: Spring 2000

O T 410 **Environmental and Technological Influences on Occupational Adaptation and Performance** (3) Impact of occupational environments on functioning and technological adaptation for mastery over the environment.
Effective: Summer 2011

O T 411 **Occupational Therapy Management and Professional Ethics** (3) Ethical, managerial, fiscal, and legal responsibilities of program administration, supervision, practice, delivery, and professional development.
Effective: Spring 2000
Prerequisite:

O T 412W **Introduction to Research** (3) Introduction to quantitative and qualitative research process relative to occupational therapy.
Effective: Summer 2011
Prerequisite:

O T 495A **Level I Fieldwork Experience** (1 per semester, maximum of 3) Practicum in 3 of 5 areas: occupational therapy evaluation procedures; environmental and technological adaptation; program design; management issues; selected topics.
Effective: Spring 2000
Prerequisite:

O T 495B **Fieldwork Level II Part 1** (6) Three month practical educational experience facilitating clinical reasoning and application of professional knowledge, behaviors, values, and skills.
Effective: Spring 2000
Prerequisite:

O T 495C **Fieldwork Level II Part 2** (6) Three month practical educational experience facilitating clinical reasoning and application of professional knowledge, behaviors, values, and skills.
Effective: Spring 2000
Prerequisite:

O T 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

O T 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

Last Import from UCM: June 2, 2012 12:27 PM
Organiz Leadership (OLEAD)

OLEAD 100 (GS) Introduction to Leadership (3) This course introduces key leadership concepts and practices based on current theory and research. It is designed to help students to discover the knowledge and skills that are characteristic of effective leaders.
Effective: Summer 2012

OLEAD 409 Leadership Development: A Life-Long Learning Perspective (3) The course examines the continuing influence of social and environmental factors in shaping leadership and leadership development.
Effective: Summer 2012
Prerequisite:
OLEAD 464 (LER 464) Communication Skills for Leaders in Groups and Organizations (3) Theory-and research-based communication skills for leaders dealing with work-related problems in contemporary groups and organizations.
Effective: Spring 2013 Future: Spring 2013

OLEAD 465 (LER 465) Collective Decision Making (3) Application of theories of decision making to work-related issues in groups and organizations requiring collective resolution action.
Effective: Spring 2013 Future: Spring 2013

Last Import from UCM: June 2, 2012 12:27 PM
Penn State First-Year Seminar (PSU)

PSU 001 First-Year Seminar Abington (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 002 First-Year Seminar Agricultural Science (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 003 First-Year Seminar Altoona (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 005 First-Year Seminar Berks (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 005T Writing African American History (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PSU 006 First-Year Seminar Business (1-3) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Fall 2004

PSU 006T First-Year Seminar Business (1-3) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Fall 2007

PSU 007 First-Year Seminar Behrend (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 008 First-Year Seminar University College (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 008S First-Year Seminar University College (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 2000

PSU 008T First-Year Seminar University College (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Fall 1999

PSU 009 First-Year Seminar Communications (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 009T First-Year Seminar Communications (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 2006

PSU 010 First-Year Seminar Earth and Mineral Sciences (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 011 First-Year Seminar Education (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999
PSU 012 **First-Year Seminar Engineering** (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 014 **First-Year Seminar Health and Human Development** (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 015 **First-Year Seminar Liberal Arts** (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 016 **First-Year Seminar Science** (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Spring 1999

PSU 017 **First-Year Seminar College of Information Sciences and Technology** (1) Facilitate student's adjustment to the high expectations, demanding workload, increased academic liberties, and other aspects of the transition to college life. Effective: Fall 2007

Last Import from UCM: June 2, 2012 12:27 PM
Petroleum and Natural Gas Engineering (P N G)

P N G 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999

P N G 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1999

P N G 405 Rock and Fluid Properties (3) Reservoir rock properties, rock and fluid properties (interaction between rock and fluids), flow behavior in reservoir, and fluid properties.
Effective: Spring 2002
Prerequisite:

P N G 406 Rock and Fluid Laboratory (1) Systematic study of oil reservoir rocks and fluids; their interrelation applied to petroleum engineering.
Effective: Spring 2001
Prerequisite: Concurrent: P N G 405

Effective: Spring 2001
Prerequisite:

P N G 411 Introduction to Petroleum and Natural Gas Extraction (1) Introduction to the design and implementation of the systems used in the extraction of oil and gas. Not intended for petroleum and natural gas engineering majors.
Effective: Spring 2001
Prerequisite:

P N G 420 Applied Reservoir Analysis and Secondary Recovery (4) Application of material balance equations/transient flow solutions to water influx problems; displacement theory as it applies to design/behavior of flooding.
Effective: Spring 2008
Prerequisite:

Effective: Spring 1999
Prerequisite:

P N G 430 Reservoir Modeling (3) The numerical simulation of petroleum reservoir processes by the use of models; scaling criteria and network flow.
Effective: Spring 2008
Prerequisite:

P N G 440W Formation Evaluation (3) Study of those methods used to evaluate the engineering properties of oil and gas bearing reservoir formations.
Effective: Spring 1999
Prerequisite:

P N G 450 Drilling Design and Production Engineering (3) Design and analysis of oil-field drilling operations and equipment.
Effective: Spring 2001
Prerequisite:

P N G 451 Oil Well Drilling Laboratory (1) Practice in well-control procedures. Measurement of drilling fluid properties.
Effective: Spring 2001
Prerequisite: Concurrent: P N G 450

P N G 475 Petroleum Engineering Design (3) Design and selection of mechanical components used in the production of fluids from subsurface reservoirs.
Effective: Spring 2001
Prerequisite:

P N G 480 Production Process Engineering (3) Analysis and evaluation of surface production processes, fluid separation, storage, measurement, treating, custody transfer, transmission, disposal, corrosion, and other operations.
Effective: Fall 2007
Prerequisite:

P N G 482 Production Engineering Laboratory (1) Measurement and analyses of the physical and chemical properties of hydrocarbon fluid systems in a production environment.
Effective: Fall 2007
Prerequisite: Concurrent: P N G 480

P N G 489 Engineering Evaluation of Oil and Gas Properties (3) Application of present worth and rate-of-return
analysis; reserve calculations; decline curve analysis; uncertainty and risk analysis to engineering project design and evaluation.

Effective: Spring 2011

Prerequisite:

P N G 490 Introduction to Petroleum Engineering Design (1) Introduction to the concepts of engineering design as applied to petroleum and natural gas projects.

Effective: Spring 2011

Prerequisite:

P N G 491 Reservoir Engineering Design (1) Application of the concepts of reservoir and drilling engineering to petroleum engineering design projects.

Effective: Spring 2011

Prerequisite:

P N G 492 Petroleum Engineering Capstone Design (1) Integration of petroleum and natural gas engineering concepts to project design.

Effective: Fall 2001

Prerequisite:

P N G 494 Thesis (1-6) A problem in petroleum engineering involving review of the literature and experimental data obtained in the field or laboratory.

Effective: Spring 1999

P N G 494H Thesis (1-6) A problem in petroleum engineering involving review of the literature and experimental data obtained in the field or laboratory.

Effective: Fall 2007

P N G 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 2007

P N G 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 1999

P N G 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Spring 1999

NOTE: Courses in the use of X-ray diffraction, electron microscopy, and spectroscopy in petroleum and natural gas studies are listed under MATERIALS SCIENCE and GEOLOGICAL SCIENCES.

Last Import from UCM: June 2, 2012 12:27 PM
Philosophy (PHIL)

PHIL 001 (GH) **Basic Problems of Philosophy** (3) Introduction to central philosophical themes, including the mind/body problem, the existence of God, ethical problems, the nature of reality. Students may take only one course for General Education credit from PHIL 001 GH or 004 GH. Effective: Spring 2000

PHIL 002 (GH) **Philosophy, Politics, and Social Theory** (3) Examines relations between political and social organizations, the justification and limits of the state, and issues concerning individuality and community. Effective: Fall 2003

PHIL 003 (GH) **Persons, Moral Values and the Good Life** (3) Major ethical positions and assumptions regarding questions of freedom, choice, obligation, and conflicts in contemporary moral conduct, values, and reasoning. Effective: Fall 2004

PHIL 005 (GH) **Philosophy, Art, and Film** (3) Explores relations between images and reality, representation and culture, and beauty and politics through film, artworks, and aesthetic theories. Effective: Spring 2002

PHIL 006 (GH;IL) (CMLIT 006) **Philosophy and Literature in Western Culture** (3) Explores fundamental issues of human existence through the traditions of western literature and philosophy. Effective: Spring 2006

PHIL 007 (GH;IL) **Asian Philosophy** (3) Introduction to philosophical, moral, and aesthetic teachings of Asian traditions such as Hinduism, Buddhism (including Zen), Taoism, Confucianism, and Shintoism. Effective: Summer 2005

PHIL 008 (GH) (WMNST 008) **Philosophy and Feminism** (3) Explores diverse feminist philosophies of culture and knowledge, and examines gender's role in accounts of reality, truth, morality, and justice. Effective: Spring 2006

PHIL 009 (GH;US) **Philosophy, Race, and Diversity** (3) Critically examines the significance of race and cultural diversity for, and in, understandings of reality, knowledge, truth, morality, and justice. Effective: Summer 2005

PHIL 009U (GH;US) **Philosophy, Race, and Diversity** (3) Critically examines the significance of race and cultural diversity for, and in, understandings of reality, knowledge, truth, morality, and justice. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

PHIL 010 (GH) **Critical Thinking** (3) Discussion of the validity, soundness, and fallacies of everyday language use and reasoning; informal logic; and manipulative arguments and propaganda. Effective: Fall 2003

PHIL 010S (GH) **Critical Thinking** (3) Discussion of the validity, soundness, and fallacies of everyday language use and reasoning; informal logic; and manipulative arguments and propaganda. Effective: Spring 2005

PHIL 011 (GH) **Philosophy, Science, and Truth** (3) Examines the philosophical foundations of natural scientific inquiry, knowledge, objectivity, and the relation of scientific truth to common sense. Effective: Fall 2003

PHIL 012 (GQ) **Symbolic Logic** (3) Formal logical structures of propositions and arguments; mechanical tests and proof techniques for logically necessary truth and deductive validity. Effective: Fall 1998

PHIL 014 (GH;US) Philosophy of Love and Sex (3) Explores Western theories and attitudes concerning intimacy and examines various ethical issues involving love and sex.
Effective: Summer 2005

PHIL 083S (GH) First-Year Seminar in Philosophy (3) Critical introduction to philosophical issues in ethics, social and political theory, religion, art, metaphysics, and epistemology.
Effective: Summer 1999

PHIL 098 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

PHIL 100 (GH) The Meaning of Human Existence (3) Explores differing views of the significance of human life, the meaning of freedom, and the way to a meaningful life.
Effective: Fall 2003

PHIL 101 (GH) Pragmatism and American Philosophy (3) An introduction to American thought and its relation to American culture, with a focus on the development of pragmatism.
Effective: Fall 2003

PHIL 102 (GH) Existentialism and European Philosophy (3) Introduction to European philosophy and issues of life, death, meaning, and absurdity, with a focus on existentialism and its development.
Effective: Fall 2003

PHIL 103 (GH) Introduction to Ethics (3) Ethical theory about virtue, duty, autonomy, and life quality applied to moral problems, including character, violence, oppression, abortion, and suicide.
Effective: Fall 2003

PHIL 103W (GH) Introduction to Ethics (3) Ethical theory about virtue, duty, autonomy, and life quality applied to moral problems, including character, violence, oppression, abortion, and suicide.
Effective: Fall 1998
Prerequisite:

PHIL 105 (GH) Introduction to Philosophy of Law and Legal Ethics (3) Historical and contemporary philosophies of law; concepts of responsibility, property, rights, and justice; and ethical issues in legal practice.
Effective: Fall 2003

PHIL 106 (GH) Introduction to Business Ethics (3) Studies ethical foundations of business and ethical problems in business practices such as advertising, international trade, labor relations, and marketing.
Effective: Fall 2003

PHIL 107 (GH) (S T S 107) Introduction to Philosophy of Technology (3) The character of technology; its relation to human values; philosophical assumptions in its development; and how it transforms the world.
Effective: Spring 2004

PHIL 108 (GH) Introduction to Social and Political Philosophy (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.
Effective: Fall 2003

PHIL 108H (GH) Introduction to Social and Political Philosophy (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PHIL 108W (GH) Introduction to Social and Political Philosophy (3) Critical introduction to political authority, rights, justice, community, inequality, power, pluralism, and other contemporary, social, and political issues.
Effective: Summer 1998
Prerequisite:

PHIL 109 (GH) Introduction to Aesthetics (3) Examines the nature of art and aesthetic experience, art's relation to beauty and truth, and the nature of creativity.
Effective: Fall 2003

PHIL 110 (GH) Introduction to Philosophy of Science (3) Examines science's assumptions about knowledge and reality, the relation between science and culture, and the nature of scientific progress.
Effective: Fall 2003

PHIL 113 (GH) Introduction to Philosophy of Literature (3) Examines philosophical ideas in literature, literary forms in

The Pennsylvania State University
philosophies, style and genre, and relation of philosophy, literature, writing, and culture.
Effective: Fall 2003

PHIL 115 (GH) Introduction to Philosophy and Education (3) Examines the nature and goals of education, the philosophical foundations of educational theories, and their economic, political, and cultural implications.
Effective: Fall 2003

PHIL 116 (GH) Introduction to Philosophy of Social Science (3) Examines the philosophical foundations of the social sciences, focusing on issues of methodology, quantification, objectivity, and value-neutrality.
Effective: Fall 2003

PHIL 118 (GH) Introduction to Environmental Philosophy (3) Considers the moral status of the environment and applies ethical theory to issues such as preservation, hunger, pollution, and sustainability.
Effective: Fall 2003

PHIL 119 (GH) Ethical Leadership (3) Introduction to philosophical theories of ethics and leadership. Uses literary and biographical texts in developing skills of application.
Effective: Summer 2007

PHIL 122 (GH) Introduction to Philosophy of History (3) Examines methodological foundations and interpretations of history, the objectivity of history, and the issue of history as design or chance.
Effective: Fall 2003

PHIL 123 (GH) Introduction to Ethics in Media and Journalism (3) Studies ethical problems, human values, and politics in differing media forms and the ways media shape such problems and values.
Effective: Fall 2003

PHIL 124 (GH) Introduction to Philosophy of Religion (3) Explores the meaning of religious belief and experience, the existence of God, ideas of spirituality, and the question of immortality.
Effective: Fall 2003

PHIL 125 (GH) Introduction to Theories of Knowledge (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.
Effective: Fall 2003

PHIL 125H (GH) Introduction to Theories of Knowledge (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.

PHIL 125W (GH) Introduction to Theories of Knowledge (3) Historical and contemporary views on the foundations and conditions of knowledge, belief, justification, and truth, conception, perception, and interpretation.
Effective: Summer 1998

PHIL 126 (GH) Introduction to Metaphysics (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.
Effective: Fall 2003

PHIL 126W (GH) Introduction to Metaphysics (3) Explores the nature of being and reality, the problem of free will and the mind/body problem, identity, and causality.
Effective: Summer 1998

PHIL 127 (GH) Introduction to Philosophy of Mind (3) Problems and concepts of mind and consciousness including mind-brain identification, the nature of subjectivity, identity, and artificial intelligence.
Effective: Fall 2003

PHIL 129 (GH) Introduction to Philosophy of Language (3) Studies the nature of meaning in language, how we acquire language, communication, signs, and language as descriptive of reality.
Effective: Fall 2003

PHIL 132 (GH) (RL ST 131) Introduction to Bioethics (3) Studies questions of ethics in relation to biotechnology research and implementation, genetic engineering, medicine, animal and human rights.
Effective: Fall 2003

PHIL 132S (GH) Introduction to Bioethics (3) Studies questions of ethics in relation to biotechnology research and implementation, genetic engineering, medicine, animal and human rights.
PHIL 197 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

PHIL 198 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

PHIL 199 (IL) **Foreign Study--Philosophy** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PHIL 200 (GH) (CAMS 200) **Ancient Philosophy** (3) Examines the thought and influence of major Western thinkers from the pre-Socratics to the neo-Platonists, emphasizing Plato and Aristotle.
Effective: Fall 2003

PHIL 201 (GH) **Medieval Philosophy** (3) Examines the thought and influence of major Western thinkers from the fourth to the fifteenth centuries, emphasizing Augustine and Aquinas.
Effective: Fall 2003

PHIL 202 (GH) **Modern Philosophy** (3) Examines the thought and influence of major Western thinkers from Descartes to Kant, emphasizing rationalism and empiricism, and critical philosophy.
Effective: Fall 2003

PHIL 203 (GH) **Nineteenth Century Philosophy** (3) Examines the thought and influence of major Western thinkers from Hegel to Nietzsche, including Marx, Kierkegaard, and Schopenhauer.
Effective: Fall 2003

PHIL 204 (GH) **Twentieth Century Philosophy** (3) Examines the thought and influence of major Western thinkers of the century, including pragmatists, phenomenologists, existentialists, critical theorists, and feminists.
Effective: Fall 2003

PHIL 204H (GH) **Twentieth Century Philosophy** (3) Examines the thought and influence of major Western thinkers of the century, including pragmatists, phenomenologists, existentialists, critical theorists, and feminists.

PHIL 208 (GH) **Contemporary Philosophy** (3) Recent trends in philosophical thought and culture, hybrid philosophies, and the philosophical landscape of the future.
Effective: Fall 2003

PHIL 221 (GH) **Philosophy of Science** (3) An inquiry into the form and function of concepts, laws, theories, and into the character of scientific explanation and prediction.
Effective: Fall 2003

PHIL 233 (GH) (S T S 233) **Ethics and the Design of Technology** (3) Ethics and individual and group decision-making in the design of technology including design projects and specific attention to institutional ethics.
Effective: Spring 2004

PHIL 280H (GH) (FD SC 280H) **Food, Values, and Health** (3) The perceived relationship between food and health, emphasizing the conceptual nature of both; and how values contribute to the relationship.
Effective: Spring 2007

PHIL 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

PHIL 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PHIL 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983
PHIL 298 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

PHIL 299 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PHIL 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

PHIL 398 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2001

PHIL 399 (IL) **Foreign Study--Philosophy** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PHIL 401 (AM ST 421) **American Philosophy** (3) Survey of key figures and movements in American thought including the Transcendentalists, the Pragmatists, and contemporary developments.
Effective: Fall 2007
Prerequisite:

PHIL 402 **European Philosophy** (3 per semester, maximum of 6) Survey of key figures and movements of Europe, including phenomenology, existentialism, structuralism and post-structuralism, and critical theory.
Effective: Fall 2007
Prerequisite:

PHIL 403 **Environmental Ethics** (3) Examines ethical theories, justice, rights, community, and human values revolving around such issues as preservation, conservation, pollution, sustainability, and population.
Effective: Fall 2007
Prerequisite:

PHIL 405 **Philosophy of Law** (3) Examines philosophical views of the nature of law, legal ethics, law and society through questions regarding definition, interpretation, and institutions.
Effective: Fall 2007
Prerequisite:

PHIL 406 **Business Ethics** (3) Examines the moral justification of business practices and economic systems through critical analyses of case studies and applied ethical theories.
Effective: Summer 1998
Prerequisite:

PHIL 407 (S T S 407) **Technology and Human Values** (3) Interrelationships of twentieth-century technological change and human values. Emphasis on the social and ethical aspects of technological progress.
Effective: Spring 1999
Prerequisite:

PHIL 408W **Social and Political Philosophy** (3) Historical and philosophical foundations of political organization, authority, and justice, and contemporary issues of rights, community, and culture.
Effective: Fall 1998
Prerequisite:

PHIL 409 **Aesthetics** (3) Studies concepts of beauty, truth, value, representation, production and reproduction, and reality through philosophical theory and works of art.
Effective: Fall 2007
Prerequisite:

PHIL 410 **Philosophy of Science** (3) Historical and contemporary foundational and methodological issues such as causality, relativity and epistemological relativism, teleology, and the nature of reality.
Effective: Fall 1998
Prerequisite:

PHIL 413 **Philosophy of Literature** (3) Discusses truth, belief, illusion, imagination and creativity through philosophical literature, as well as problems of philosophical writing.
Effective: Fall 1998
Prerequisite:

PHIL 416 **Philosophy of Social Science** (3) Examines the philosophical nature and foundations of methodology, structures and objects, value-neutrality and objectivity in the social sciences.
Effective: Summer 1998
Prerequisite:

PHIL 418 **Ethics** (3) Examines ethical theories, justice, rights, community, and human values revolving around such issues as preservation, conservation, pollution, sustainability, and population.
PHIL 418W Ethics (3) Examines ethical theories, justice, rights, community, and human values revolving around such issues as preservation, conservation, pollution, sustainability, and population.

Effective: Summer 1998
Prerequisite:

PHIL 424 Philosophy of Religion (3) Examines the relation between faith and reason, the nature of religious experience, the problem of evil, the existence of God.

Effective: Fall 2007
Prerequisite:

PHIL 425W Epistemology (3) The nature of cognition and perception, the conditions of experience, and the justification and truth of belief.

Effective: Summer 1998
Prerequisite:

PHIL 426W Metaphysics (3) Examines the nature of reality, the existence of freedom, and the nature of matter, mind, and values.

Effective: Summer 1998
Prerequisite:

PHIL 427 Philosophy of Mind (3) Investigates problems of mind from the standpoint of traditional metaphysical views, modern scientific psychology, neuroscience, and artificial intelligence.

Effective: Spring 1999
Prerequisite:

PHIL 432 (S T S 432) Medical and Health Care Ethics (3) Examines ethical, political, and social issues in the research, implementation, and practice of medicine, medical technologies, and healthcare.

Effective: Fall 1998
Prerequisite:

PHIL 433 (S T S 433) Ethics in Science and Engineering (3) Ethical issues arising in the practice of science and engineering and their philosophical analysis.

Effective: Fall 1995

PHIL 434H (HIST 424H, J ST 424H, RL ST 424H) Monotheism and the Birth of the West (3) The birth of monotheism and its relation to social organization, the idea of individuality, and science.

Effective: Spring 2002 Ending: Summer 2012
Prerequisite:

PHIL 435 (S T S 435) The Interrelation of Science, Philosophy, and Religion (3) The historical and transformative interactions between science and Western philosophical and religious views of nature, humanity, and God.

Effective: Spring 1996

PHIL 437 (IL) World Philosophies and Cultures (3) Philosophical traditions, problems, and authors in African, Asian, Middle- Eastern, Native American, or other non-Western cultures and intellectual traditions.

Effective: Fall 2007
Prerequisite:

PHIL 438 (WMNST 438) Feminist Philosophy (3) Examines the central currents of feminist philosophy, selected problems and concepts regarding difference, gender and sex, identity, and political culture.

Effective: Fall 2007
Prerequisite:

PHIL 439 (IL) Asian Philosophies and Issues (3) Exploration of the traditions, problems, and authors of one or more of the philosophical systems of Buddhism, Hinduism, Taoism, and Confucianism.

Effective: Fall 2007
Prerequisite:

PHIL 441 Capstone Course in Philosophy (3) This course is intended as the Capstone Course for Philosophy majors and is to be taken during their senior year or during the last semester of their junior year.

Effective: Spring 2011
Prerequisite:

PHIL 453 Topics in Ancient Philosophy (3 per semester, maximum of 6) Examines the philosophy of central figures in ancient philosophy from the pre-Socratics to the post-Aristotelians and Neoplatonists.

Effective: Fall 1998
Prerequisite:

PHIL 455 Topics in Modern Philosophy (3 per semester, maximum of 6) Descartes to Kant, including mind and reality, space and time, God and nature, morality and autonomy.

Effective: Summer 1998
Prerequisite:

PHIL 456 Topics in Nineteenth Century Philosophy (3 per semester, maximum of 6) Hegel to Nietzsche, including nature and spirit, history and human nature, ideology and morality.

Effective: Summer 1998
Prerequisite:

PHIL 457 **Topics in Twentieth Century Philosophy** (3 per semester, maximum of 6) Topics in the philosophy of figures such as Husserl, James, Russell, Wittgenstein, Heidegger, Merleau-Ponty, and Dewey.
Effective: Fall 2007
Prerequisite:

PHIL 458 **Topics in Contemporary Philosophy** (3 per semester, maximum of 6) Topics in the philosophy of contemporary figures such as Foucault, Habermas, Rorty, Derrida, Rawls, Davidson, and MacIntyre.
Effective: Summer 1998
Prerequisite:

PHIL 460 (US;IL) **African American Philosophy** (3) Major works by African American Philosophers, on topics of race, freedom, citizenship, nationhood, law and society.
Effective: Fall 2009 Ending: Summer 2012
Prerequisite:

PHIL 460 (US;IL) **African American Philosophy** (3) Major works by African American Philosophers, on topics of race, freedom, citizenship, nationhood, law and society.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PHIL 461 **Plato** (3 per semester, maximum of 6) Examines the metaphysics, epistemology, politics, aesthetics, and moral theory of this central figure in the history of philosophy.
Effective: Spring 1999
Prerequisite:

PHIL 473 **German Idealism** (3 per semester, maximum of 6) Critically examines the philosophy of central German idealists, including Kant, Fichte, Schelling, and Hegel, and its impact on later philosophy.
Effective: Summer 1998
Prerequisite:

PHIL 474 **Kant** (3 per semester, maximum of 6) Critical examination of the metaphysics, epistemology, aesthetics, legal and moral philosophy, and influence of Immanuel Kant.
Effective: Fall 1998
Prerequisite:

PHIL 476 **Hegel** (3 per semester, maximum of 6) Critical examination of the metaphysics, moral theory, epistemology, and philosophy of history of this central figure of 19th-century philosophy.
Effective: Fall 1998
Prerequisite:

PHIL 479 **Critical Theory** (3 per semester, maximum of 6) Examines the ontology, political and social thought of the Frankfurt School from Horkheimer and Adorno to Marcuse and Habermas.
Effective: Summer 1998
Prerequisite:

PHIL 485 **Heidegger** (3 per semester, maximum of 6) Studies Heidegger's metaphysical thought from his early to later works regarding being, history, subjectivity, aesthetics, language, and his influence.
Effective: Fall 1998
Prerequisite:

PHIL 486 **Wittgenstein** (3 per semester, maximum of 6) Examines Wittgenstein's early and late work, including logical atomism, meaning, language games, forms of life, and the private-language argument.
Effective: Fall 1998
Prerequisite:

PHIL 487 **Analytic Philosophy** (3 per semester, maximum of 6) Analytic philosophy's founding by Frege, Russell, Moore, Wittgenstein; and its contemporary development by Quine, Kripke, Dummett, and Davidson.
Effective: Fall 1998
Prerequisite:

PHIL 490 **Dewey** (3 per semester, maximum of 6) Critically examines the metaphysics, epistemology, ethics, logic, aesthetics, education theory, and social and political philosophy of this major American pragmatist.
Effective: Summer 1998
Prerequisite:

PHIL 491 **Merleau-Ponty** (3 per semester, maximum of 6) Merleau-Ponty's phenomenological anti-dualism through his studies on the body and the flesh, aesthetics, political philosophy, and late ontology.
Effective: Summer 1998
Prerequisite:

PHIL 493 **Phenomenology and Hermeneutics** (3 per semester, maximum of 6) Studies major figures and issues in phenomenology and hermeneutics, focusing on the work of Husserl, Gadamer, Heidegger, Merleau-Ponty, and Levinas.
Effective: Summer 1998
Prerequisite:

PHIL 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994
PHIL 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. 
Effective: Fall 2007

PHIL 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.  
Effective: Fall 1983

PHIL 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.  
Effective: Fall 1983

PHIL 497A Sports Culture: Competitive Sports as a "Root Metaphor" for Politics, Business, and the Conduct of Life (3) Course designed to discuss implications sports play on today's society from aspect of advertising, subliminal messages, finances for politics, business and life.  
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PHIL 498 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Fall 2001

PHIL 499 (IL) Foreign Study--Philosophy (1-12) Courses offered in foreign countries by individual or group instruction. 
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Photography (PHOTO)

PHOTO 099 (IL) Foreign Studies--Photo (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

PHOTO 100 (GA) Introduction to Photography (3) An introduction to the aesthetics, history, and science of photography including practical and critical approaches to the art of photography.
Effective: Spring 2006

PHOTO 100H (GA) Introduction to Photography (3) An introduction to the aesthetics, history, and science of photography including practical and critical approaches to the art of photography.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PHOTO 199 (IL) Foreign Studies--Photo (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

PHOTO 200 Photo Studio I (3) A beginning level course that explores the fundamentals of photography.
Effective: Spring 2006
Prerequisite:

PHOTO 201 (ART H 250) A Chronological Survey of Photography (3) A survey of photography's place and influence in a social, cultural, and historical context.
Effective: Spring 2006

PHOTO 210 Introduction to Architectural Photography (2) Exploration of approaches to photographing architectural interiors, exteriors, and architectural models.
Effective: Summer 2007
Prerequisite:

PHOTO 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2006

PHOTO 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2006

PHOTO 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

PHOTO 299 (IL) Foreign Studies--Photo (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

PHOTO 300 Photo Studio II (4) An intermediate course that explores advanced processes and applications in digital photography, digital image processing, and photographic inkjet printing.
Effective: Spring 2006
Prerequisite:

PHOTO 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

PHOTO 399 (IL) Foreign Studies--Photo (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

PHOTO 400 Digital Photography in the Studio (4) Concepts and technology of the digital photography studio; large format digital cameras, electronic studio lighting and digital printing.
Effective: Fall 2006
Prerequisite:

PHOTO 402 Photographic Narratives (4 per semester/maximum of 8) The development of a photographic project that leads to the creation of a handmade book.
Effective: Fall 2006
Prerequisite:
PHOTO 403 Photo Assemblage (4) Collage making through collecting and assembling found materials, including photography; origins of photographic manipulation and contemporary uses.
Effective: Fall 2006

PHOTO 405 Creative Projects in Photography (4 per semester/maximum of 8) Special individual problems related to photographic vision.
Effective: Fall 2006
Prerequisite:

PHOTO 406 Product Photography (2) This advanced level course will explore the practices of photographing products for print and product advertising.
Effective: Summer 2011
Prerequisite:

PHOTO 407 Portrait Photography (2) This advanced level course investigates contemporary portrait photography and traditional and modern styles of photographic lighting.
Effective: Summer 2011
Prerequisite:

PHOTO 410 Photographing Motion and Athletic Events (2) A practicum course in photographing sports and athletic events.
Effective: Summer 2007
Prerequisite:

PHOTO 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 2006

PHOTO 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2006

PHOTO 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2006

PHOTO 497A Imagery as Advocacy: Alternative Photographic Processes and Possibilities (4) Alternative photographic processes are taught in an exploration of photography's past and potential as a vehicle for social change.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PHOTO 499 (IL) Foreign Studies--Photo (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Physical Science (PH SC)

PH SC 410 Quantum Mechanics of Atoms, Molecules, and Solids (3) The physical concepts underlying the properties of materials are covered. Quantum mechanics is applied to problems in atomic, molecular, and solid-state physics. Effective: Summer 2003
Prerequisite:

PH SC 440 Applied Solid State and Optical Processes (3) This course covers the solid state physics and material science prerequisite to understand today microelectronic and optoelectronic devices. Effective: Summer 2003
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Physical Therapy (P T)

P T 100 Physical Therapist Assistant--Introduction (3) Orientation to the field of physical therapy, historical background of the profession, professional ethics, medical terminology, and patient care techniques.
Effective: Fall 2004
Prerequisite:

P T 100S Physical Therapist Assistant-Introduction (3) Orientation to the field of physical therapy, historical background of the profession, professional ethics, medical terminology, and patient care techniques with First Year Seminar requirements.
Effective: Spring 2012
Prerequisite:

P T 101S Introduction to Computer Skills for the PTA (1) Introduction to basic computer skills for the physical therapist assistant.
Effective: Fall 2011

P T 150 Physical Therapist Assistant Procedures I (2) General considerations for basic physical therapy modalities including their indications, contraindications, skill development and practical application.
Effective: Fall 2004
Prerequisite:

P T 160 Therapeutic Exercise I (3) Introduction to the principles of exercise in the treatment of disease and injury.
Effective: Fall 2004
Prerequisite:

P T 201 Licensure Preparation for the PTA (1) Preparation for the national PTA licensure examination.
Effective: Fall 2004
Prerequisite:

P T 202 Pediatric PT (1) A study of physical therapy as it applies to pediatric patients.
Effective: Summer 2003
Prerequisite:

P T 203 The Rehabilitation of the Lower Extremity Amputee (1) Students will be introduced to the rehabilitation process involved with a patient who has a lower extremity amputation.
Effective: Summer 2003
Prerequisite:

P T 204 Seminar in Physical Therapy (1) Specialized physical therapy topics investigated in the framework of clinic visitations and presentations by clinical experts.
Effective: Fall 2004
Prerequisite:

P T 205 Human Musculature (1-2) Comprehensive review of Human Musculature.
Effective: Fall 2004
Prerequisite:

P T 250 Physical Therapist Assistant--Procedures II (4) General considerations for advanced physical therapy modalities including their indications, contraindications, skill development and practical application.
Effective: Fall 2004
Prerequisite:

Effective: Fall 2004
Prerequisite:

P T 270 Pathophysiology (3) Introduction to medical and post-operative conditions and/or disease states most frequently treated by physical therapy modalities.
Effective: Fall 2004
Prerequisite:

P T 270A (IL) Pathophysiology (3) Introduction to medical and post-operative conditions and/or disease states most frequently treated by physical therapy modalities.
Effective: Fall 2005
Prerequisite:

P T 270W Pathophysiology (3) Introduction to the study of disease and those conditions most often treated by physical therapy methods; basic signs, symptoms, and causes of disease and conditions will be covered.
Effective: Fall 2004
Prerequisite:

P T 280 Rehabilitation (4) Examination of techniques and laboratory experiences in rehabilitation techniques for the physically challenged.
Effective: Fall 2004
Prerequisite:
P T 280W Rehabilitation (4) Examination of techniques and laboratory experiences in rehabilitation techniques for the physically challenged.
Effective: Fall 2004
Prerequisite:

P T 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2000

P T 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2000

P T 384 Applied Kinesiology (4) Study of anatomical structure, body movement. Characteristic muscle action and motion will be analyzed in relation to physical therapy context.
Effective: Fall 2004
Prerequisite:

P T 395E Physical Therapist Assistant--Practicum I (4) The practice of physical therapist assistant skills in a clinical setting under the direct supervision of a physical therapist.
Effective: Fall 2004
Prerequisite:

P T 395F Physical Therapist Assistant--Practicum II (4) The practice of physical therapist assistant skills in a clinical setting under the direct supervision of a registered physical therapist.
Effective: Fall 2004
Prerequisite:

P T 395G Physical Therapist Assistant--Practicum III (4) The practice of physical therapist assistant skills in a clinical setting under the direct supervision of a registered physical therapist.
Effective: Fall 2004
Prerequisite:

P T 395W Physical Therapist Assistant--Practicum I (4) The practice of physical therapist assistant skills in a clinical setting under the direct supervision of a physical therapist.
Effective: Fall 2004
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Physics (PHYS)

PHYS 001 (GN) The Science of Physics (3) Historical development and significance of major concepts, with emphasis on the nature of physics and its role in modern life. (For students in non-mathematical fields.)
Effective: Fall 2004

PHYS 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

PHYS 150 (GN) Technical Physics I (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.
Effective: Spring 2007
Prerequisite:
PHYS 150L (GN) Technical Physics I (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.
Effective: Summer 1994

PHYS 150P (GN) Technical Physics I (3) Elementary treatment of topics in mechanics, heat, wave motion, and sound leading toward an understanding of technical applications.
Effective: Summer 1994

PHYS 151 (GN) Technical Physics II (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2001
Prerequisite:
PHYS 151H (GN) Technical Physics II (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
PHYS 151L (GN) Technical Physics II (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2001
Prerequisite:
PHYS 151P Technical Physics II (3) Elementary treatment of topics in electricity, light, and modern physics leading toward an understanding of technical applications.
Effective: Fall 2001
Prerequisite:
PHYS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

PHYS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PHYS 211 (GN) General Physics: Mechanics (4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton’s laws, energy, collisions, and rotation.
Effective: Fall 1999
  Concurrent: MATH 140
Effective: Spring 2012
  Concurrent: MATH 140
PHYS 211L (GN) General Physics: Mechanics (0-4) Calculus-based study of the basic concepts of mechanics: motion, force, Newton’s laws, energy, collisions, and rotation. NOTE: UP offers for 0 credits; Altoona offers for 4 credits.
Effective: Fall 2000
  Concurrent: MATH 140
PHYS 211P General Physics: Mechanics (0) Calculus-based study of the basic concepts of mechanics: motion, force, Newton’s laws, energy, collisions, and rotation.
Effective: Spring 1999
  Concurrent: MATH 140
PHYS 211R (GN) General Physics: Mechanics (4) Calculus-based study of the basic concepts of mechanics: motion, force,
Newton's laws, energy, collisions, and rotation.

Effective: Spring 1999
Concurrent: MATH 140

**PHYS 212 (GN) General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.

Effective: Fall 1999
Prerequisite: Concurrent: MATH 141

**PHYS 212H (GN) General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.

Effective: Summer 2012
Prerequisite: Concurrent: MATH 141

**PHYS 212L (GN) General Physics: Electricity and Magnetism** (0-4) Calculus-based study of the basic concepts of electricity and magnetism. NOTE: UP offers for 0 credits; Altoona offers for 4 credits.

Effective: Fall 2000
Prerequisite: Concurrent: MATH 141

**PHYS 212P General Physics: Electricity and Magnetism** (0) Calculus-based study of the basic concepts of electricity and magnetism.

Effective: Spring 1999
Prerequisite: Concurrent: MATH 141

**PHYS 212R (GN) General Physics: Electricity and Magnetism** (4) Calculus-based study of the basic concepts of electricity and magnetism.

Effective: Spring 2000
Prerequisite: Concurrent: MATH 141

**PHYS 213 (GN) General Physics: Fluids and Thermal Physics** (2) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.

Effective: Fall 1999
Prerequisite: Concurrent: MATH 141

**PHYS 213L (GN) General Physics: Fluids and Thermal Physics** (0) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.

Effective: Fall 1999
Prerequisite: Concurrent: MATH 141

**PHYS 213R (GN) General Physics: Fluids and Thermal Physics** (2) Calculus-based study of the basic concepts of fluids and sound, heat, kinetic theory, and entropy.

Effective: Fall 1999
Prerequisite: Concurrent: MATH 141

**PHYS 214 (GN) General Physics: Wave Motion and Quantum Physics** (2) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.

Effective: Spring 2004
Prerequisite:

**PHYS 214L (GN) General Physics: Wave Motion and Quantum Physics** (0) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.

Effective: Spring 2004
Prerequisite:

**PHYS 214R (GN) General Physics: Wave Motion and Quantum Physics** (2) Calculus-based study of the basic concepts of wave motion, geometrical optics, interference phenomena, photons, wave mechanics, and the structure of matter.

Effective: Spring 2004
Prerequisite:

**PHYS 230 Introduction to Relativity** (3) Introduction to special and general relativity including space-time diagrams and relativistic kinematics, length contraction, time dilation, equivalence principles, curved space and cosmology.

Effective: Summer 2006
Prerequisite:

**PHYS 237 Introduction to Modern Physics** (3) Relativity and quantum theory applied to selected topics in atomic, molecular, solid state, and nuclear physics.

Effective: Spring 2007
Prerequisite: Concurrent: PHYS 214

**PHYS 237H Introduction to Modern Physics** (3) Relativity and quantum theory applied to selected topics in atomic, molecular, solid state, and nuclear physics.

Effective: Summer 2012
Prerequisite: Concurrent: PHYS 214

**PHYS 237L Introduction to Modern Physics** (3) Relativity and quantum theory applied to selected topics in atomic, molecular, solid state, and nuclear physics.

Effective: Spring 2007
Prerequisite: Concurrent: PHYS 214

**PHYS 237R Introduction to Modern Physics** Relativity and quantum theory applied to selected topics in atomic, molecular, solid state, and nuclear physics.
PHYS 250 (GN) **Introductory Physics I** (4) Selected topics in mechanics, heat, and sound.
Effective: Fall 2002
Prerequisite:

PHYS 250L (GN) **Introductory Physics I** (0-4) Selected topics in mechanics, heat, and sound.
Effective: Spring 2010
Prerequisite:

PHYS 250P (GN) **Introductory Physics I** (0) Selected topics in mechanics, heat, and sound.
Effective: Fall 2002
Prerequisite:

PHYS 251 (GN) **Introductory Physics II** (4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite:

PHYS 251H (GN) **Introductory Physics II** (4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

PHYS 251L (GN) **Introductory Physics II** (0-4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2010
Prerequisite:

PHYS 251P (GN) **Introductory Physics II** (0) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite:

PHYS 251R (GN) **Introductory Physics II** (4) Selected topics in light, electricity, and magnetism.
Effective: Fall 2002
Prerequisite:

PHYS 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PHYS 296A **Peer Tutoring in Physics** (3) Students will assist in physics class with activities, labs, and provide one-to-one peer tutoring by appointment.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PHYS 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PHYS 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

PHYS 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PHYS 400 **Intermediate Electricity and Magnetism I** (3) Electrostatics, steady-state magnetic field; electrical and magnetic properties of matter; Maxwell's equations, boundary-value problems, and wave propagation.
Effective: Spring 2007 Ending: Summer 2012
Prerequisite: Concurrent: MATH 230 OR MATH 231 ; PHYS 204

PHYS 400 **Intermediate Electricity and Magnetism I** (3-4) Electrostatics and magnetostatics in vacuum; electrical and magnetic properties of matter; electrodynamics, Maxwell's equations, conservation laws, electromagnetic waves and radiation.
Effective: Fall 2012 Future: Fall 2012
Prerequisite: Concurrent: MATH 230 OR MATH 231 ; PHYS 204

PHYS 402 **Electronics for Scientists** (4) Circuit and network theory; active devices; amplifiers; introduction to digital electronics; noise theory.
Effective: Spring 2007
Prerequisite:

PHYS 406 **Subatomic Physics** (3) Introductory treatment of elementary particles, fundamental strong and electroweak interactions, nuclear structure, accelerators, particle detection, nuclear astrophysics.
Effective: Spring 1995
Prerequisite:

PHYS 410 Introduction to Quantum Mechanics I (3-4) Basic postulates; Schrödinger wave equation; stationary states; variational method; scattering in one dimension; orbital angular momentum; hydrogen atom; numerical methods.
Effective: Spring 2007
Prerequisite:

PHYS 411 Introduction to Quantum Mechanics II (3) General theory of angular momentum; approximation methods; scattering theory; radiation theory; applications to atomic, molecular, condensed matter, nuclear and particle physics.
Effective: Spring 1994
Prerequisite: Concurrent: PHYS 410

PHYS 412 Solid State Physics I (3) Crystal symmetry, x-ray structure analysis, lattice vibrations, thermal properties, free electron transport theory, elementary one-electron quantum theory of solids.
Effective: Fall 1986
Prerequisite: Concurrent: PHYS 410

PHYS 413 Solid State Physics II (3) Quantum theory of electronic and optical properties of solids, semiconductors, dielectrics, magnetic properties, crystal imperfections, low-temperature effects, and superconductivity.
Effective: Fall 1986
Prerequisite:

PHYS 414 Solid State Physics (3) Crystal structure; reciprocal lattice; X-ray diffraction; lattice vibrations; thermal properties; free electron gas model; energy bands; semiconductors; magnetism.
Effective: Spring 2007
Prerequisite:

PHYS 419 (MATH 419) Theoretical Mechanics (3) Principles of Newtonian, Lagrangian, and Hamiltonian mechanics of particles with applications to vibrations, rotations, orbital motion, and collisions.
Effective: Spring 2007
Prerequisite:

PHYS 420 Thermal Physics (3) Basic postulates of statistical mechanics and thermodynamics, microscopic quantum states and macroscopic parameters; partition functions; Maxwell-Boltzmann and quantum statistics.
Effective: Spring 2007
Prerequisite:

PHYS 421W Research Methods in Physics (3) Methodology focusing on the theory of measurement and experiment design.
Effective: Spring 2007
Prerequisite:

PHYS 433 Intermediate Acoustics (3) Vibration and simple vibrating systems, sound wave propagation, acoustic instruments, recent developments.
Effective: Fall 1999
Prerequisite:

PHYS 444 Topics in Contemporary Physics (2) Modern research topics and career opportunities in physics; employment, graduate education, and tailoring the physics curriculum to meet career goals.
Effective: Spring 2007
Prerequisite:

PHYS 445 Nanoscience Seminar (1) Advanced nanoscience seminar required of Behrend College students for completion of the nanoscience minor.
Effective: Summer 2007
Prerequisite:

PHYS 446 The Year in Physics: A Seminar on the Latest Research (1) Discussion recent research in physics.
Effective: Spring 2007
Prerequisite:

PHYS 457 Experimental Physics (1-3) Selected experiments in various fields of physics.
Effective: Spring 2007
Prerequisite:

PHYS 457W Experimental Physics (3) Selected experiments in various fields in physics.
Effective: Spring 2007
Prerequisite:

PHYS 458 Intermediate Optics (4) Geometrical and physical optics: theory of lens systems, aberrations, apertures, interference, diffraction, polarization.
Effective: Spring 2007
Prerequisite:

Effective: Fall 1986
Prerequisite:

PHYS 462 Applications of Physics in Medicine (3) Applications of physics in human physiology and in instrumentation for medical diagnosis and treatment.

The Pennsylvania State University
PHYS 472 Elements of Nuclear Physics and its Applications to Medical Imaging and Treatments (3) Introduction to the theory of nuclei, interactions with fast particles, and applications to medical imaging and radiation oncology.
Effective: Spring 2012
Prerequisite:

PHYS 479 (MATH 479) Special and General Relativity (3) Mathematical description, physical concepts, and experimental tests of special and general relativity.
Effective: Spring 2007
Prerequisite:

PHYS 494 Physics Research Project (1-12) Investigation of an original research problem, including a literature search. Preparation of a formal thesis is optional.
Effective: Spring 2007

PHYS 494H Physics Research Project (1-12) Investigation of an original research problem, including a literature search. Preparation of a formal thesis is optional.
Effective: Fall 2007

PHYS 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2007
Prerequisite:

PHYS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PHYS 496H Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

PHYS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PHYS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Plant Pathology (PPATH)

PPATH 120 (GN) The Fungal Jungle: A Mycological Safari From Truffles to Slime Molds (3) Students will learn about the world of fungi and the many ways it impacts their lives.
Effective: Spring 2007

PPATH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PPATH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PPATH 300 (GN) Horticultural Crop Diseases (3) Diseases of horticultural crops are examined stressing their cause, diagnosis, control and national and international importance.
Effective: Spring 2008
Prerequisite:

PPATH 318 Diseases of Forest and Shade Trees (2) Introduction to diagnosis and control of forest and shade tree diseases.
Effective: Fall 1999

PPATH 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2005

PPATH 405 Microbe-Plant Interactions: Plant Disease and Biological Control (3) Survey of microbe-plant interactions causing plant disease, mechanisms of pathogenesis, disease control, and microbial and molecular biological control strategies.
Effective: Spring 1999
Prerequisite:

PPATH 412 Turfgrass Disease Management (3) Introduction to biology of turfgrass pathogens and management of cool- and warm-season turfgrass disease.
Effective: Spring 2008
Prerequisite:

PPATH 416 Plant Virology: Molecules to Populations (3) A exploration of the molecular biology and population dynamics of the virus-plant interaction.
Effective: Fall 2005
Prerequisite:

PPATH 417 Phytobacteriology (3) Lecture and lab coverage of how bacteria cause plant diseases.
Effective: Fall 2009
Prerequisite:

PPATH 419 Plant Nematology (2) The biology of plant pathogenic nematodes, the diseases they cause, and their control.
Effective: Fall 2009
Prerequisite:

Effective: Spring 2002
Prerequisite:

Effective: Summer 2007
Prerequisite:

PPATH 430 (ERM 430) Air Pollution Impacts to Terrestrial Ecosystems (3) An overview of direct and indirect effects of air pollution on terrestrial plants and ecosystems.
Effective: Summer 2004
Prerequisite:

PPATH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PPATH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
which may be topical or of special interest.
Effective: Fall 1983

PPATH 497A **Viruses Everywhere; the Good, the Bad, and the Beautiful** (3) Exploration of virus ecology, emphasis on environmental viruses; virus-host relationships; and effects on host ecology, including beneficial viruses.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Plastics Engineering Technology (PL ET)

PL ET 050 **Computer Applications for Plastics Engineering Technology** (2) Programming, spreadsheets for the solution of technical problems, internet access for background and support information, formatting professional reports, creating presentations.
Effective: Spring 2006

PL ET 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

PL ET 098 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

PL ET 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

PL ET 198 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

PL ET 205 **Introduction to Plastics** (3) Introduction to the plastics industry including fundamental aspects of plastic materials and processing; introduces the chemical influence on mechanical and flow properties of plastic materials.
Effective: Summer 2007
Prerequisite:

PL ET 206W **Plastic Materials and Properties** (3) Coverage of the most common commercial plastics including their additives, fillers, and fibers; includes common physical tests used to determine material characteristics; writing intensive.
Effective: Spring 2011
Prerequisite:

PL ET 222 **Introduction to Plastics Processing** (4) Introduction to plastic processing methods, materials, tooling, design, and equipment. Safe operation and practices are emphasized.
Effective: Summer 2005

PL ET 225 **Instrumentation, Control, & Automation for Plastics** (2) Instrumentation, control and automation basics & strategies for plastics processing.
Effective: Summer 2005
Prerequisite:

PL ET 227 **Plastics Processing & Statistical Methods** (4) Study of advanced issues in plastics processing, such as design of experiments and SPC/SQC will be covered.
Effective: Summer 2005
Prerequisite:

PL ET 232 **Introduction to Part and Tool Design** (3) CAD techniques for designing plastic products and related tooling.
Effective: Spring 2007
Prerequisite:

PL ET 235 **Tool Design & Machining** (2) Study of the methods used to create the tooling used in plastics fabrication and the methods of maintaining tooling.
Effective: Summer 2005
Prerequisite:

PL ET 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1992

PL ET 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1992

Effective: Summer 2005
Prerequisite:

The Pennsylvania State University
In-depth studies and laboratory experiments will be conducted on processes such as blow molding, thermoforming, extrusion and other packaging processes. Effective: Summer 2005

Prerequisite:

Tooling design strategies are developed considering a material's physical and rheological influences on processing and part formation. Effective: Summer 2005

Prerequisite:

Overview of mold design and the development of strategies and techniques integrating CAD and CAE technologies for optimizing part quality, moldability, and productivity. Effective: Summer 2011

Prerequisite:

Fundamentals of heat transfer including conduction, convection, and radiation. Effective: Spring 2010

Prerequisite:

Designing plastic parts utilizing CAD, FEA, and CAE technologies for the design and for structural, dimensional, and process evaluation and optimization. Effective: Spring 2007

Prerequisite:

Fundamentals of thermodynamic principles, fluid statics, and fluid dynamics. Effective: Spring 2006

Prerequisite:

Introduction to plastic medical devices and their manufacture. Also covers the regulatory requirements of plastic medical devices. Effective: Summer 2011

Prerequisite:

Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

Study of business management topics as they relate to the plastics industry. Effective: Spring 2012

Prerequisite:

Study of design and materials for plastic packaging including blow molded, thermoformed and extruded products. Effective: Summer 2005

Prerequisite:

This is the second course in mold design; focuses on mechanical aspects of designing and building a mold; includes CAD, CAM, and CAE technologies. Effective: Spring 2007

Prerequisite:

Advanced applications of computer-aided design, computer-aided manufacturing, computer-aided engineering, and finite element analysis to plastic product development. Effective: Summer 1996

Prerequisite:

New and advanced injection molding technologies, implementing statistical methods such as design of experiments. Effective: Summer 2005

Prerequisite:

Prerequisite:

Prerequisite:

Fundamentals of decoration and assembly methods used in the plastics industry. Effective: Summer 2005

Prerequisite:

Techniques to help get plastic products to market quicker and to build solids and surface modeling skills. Effective: Summer 2005

Prerequisite:

This course provides students with an in-depth overview of the integrated new product development process.
PL ET 482 Medical Product Development (1) This course provides students with medical device development requirements and processes. The course is to be taken in conjunction with PL ET 481 as both courses will utilize a semester project to invent and design a new product. Over the course of the semester students will review the FDA classifications, filing requirements, and recommended practices for medical device development. This knowledge will be applied and practiced through the semester projects. Students will learn techniques for Failure Modes and Effects Analysis and how to properly document and manage product change through the development process.

PL ET 483 Plastics in Medical Applications (3) This course focuses on plastics materials and properties and how they meet the unique medical application and device requirements.

PL ET 484 Medical Manufacturing Methods (3) This course provides instruction in the methods and practices used in the manufacturing of plastic devices in the medical industry.

PL ET 494A Plastics Projects (1-12) Supervised student activities on research and/or design projects identified on an individual or small group basis. A specific title may be used in each instance and will be entered on the student’s transcript.

PL ET 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica or internships. Written and oral critique of activity required.

PL ET 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

PL ET 497 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.

PL ET 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Polish (POL)

POL 051 Elementary Intensive Polish for Graduate Students I (3) Intensive introduction to Polish: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite:

POL 052 Elementary Intensive Polish for Graduate Students II (3) Intensive introduction to Polish: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite:

POL 053 Intermediate Intensive Polish for Graduate Students (3) Continued intensive study of Polish at the intermediate level: reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite:

POL 197 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

POL 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

POL 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

POL 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996
Prerequisite:

POL 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

POL 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Political Science (PL SC)

PL SC 001 (GS) Introduction to American National Government (3) Introduction to development and nature of American political culture, constitutional/structural arrangements, electoral/policy processes; sources of conflict and consensus. Effective: Spring 2002

PL SC 002 American Public Policy (3) Examination of selected areas of public policy in America. Analysis of policy content, alternatives, and impact. Effective: Fall 1983
Prerequisite:

PL SC 003 (GS;IL) Introduction to Comparative Politics (3) Introduction to study of comparative government and politics: normative/empirical theories; government functions in modern societies; representative structures and processes. Effective: Fall 2007

PL SC 003U (GS;IL) Introduction to Comparative Politics (3) Introduction to study of comparative government and politics: normative/empirical theories; government functions in modern societies; representative structures and processes. Effective: Summer 2012

PL SC 007 (GS) Contemporary Political Ideologies (3) Critical analysis of contemporary political ideologies such as liberalism, conservatism, socialism, anarchism, fascism, feminism, and environmentalism. Effective: Fall 2004

PL SC 014 (GS;IL) International Relations (3) Characteristics of modern nation-states and forces governing their international relations; nationalism; imperialism; diplomacy; current problems of war and peace. Credit will not be given for both this course and INT U 200. Effective: Fall 2007

PL SC 014U (GS;IL) International Relations (3) Characteristics of modern nation-states and forces governing their international relations; nationalism; imperialism; diplomacy; current problems of war and peace. Credit will not be given for both this course and INT U 200. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 017 (GS) Introduction to Political Theory (3) Introduction to basic issues in political theory through analysis of selected major political thinkers. Effective: Spring 2003

PL SC 017W (GS) Introduction to Political Theory (3) Introduction to basic issues in political theory through analysis of selected major political thinkers. Effective: Spring 2001

PL SC 020 (GS;IL) Comparative Politics--Western Europe (3) Comparative analysis of political cultures, interest groups, parties, and decision-making processes in principal Western European political systems. Effective: Fall 2007

PL SC 022 (GS;IL) Politics of the Developing Areas (3) The impact of colonialism, nationalism, and development policy on the political culture, structure, and transformation of post-colonial regimes. Effective: Spring 2010

PL SC 060 (GS;IL) (ANTH 060, J ST 060, SOC 060) Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present. Effective: Summer 2006
PL SC 083S (GS) First-Year Seminar in Political Science (3) Exploration of current topics of interest in political science, international relations, and/or political theory.
Effective: Summer 1999

PL SC 083T (GS) First-Year Seminar in Political Science (3) Exploration of current topics of interest in political science, international relations, and/or political theory.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 091 Introduction to Peace and Conflict Studies (3) Introduction to theory and practice concerning major contemporary issues of peace and conflict; includes anthropological, technological, psychological, and economic perspectives.
Effective: Spring 2013 Future: Spring 2013

PL SC 110 (GS;US) Rights in America (3) This course explores the historical and contemporary struggles of particular groups within American society to expand their rights.
Effective: Summer 2006

PL SC 111 (GH) Debating the Purpose of Government (3) Students will become acquainted with a variety of political theories and debate their usefulness in considering contemporary political controversies.
Effective: Summer 2012

PL SC 123 (GS;US;IL) Ethnic and Racial Politics (3) Political movements among United States ethnic and racial groups; government policies on race and ethnicity; comparison to other culturally diverse countries.
Effective: Fall 2007
Prerequisite:
PL SC 125 Pennsylvania Government and Politics (3) Pennsylvania political processes; executive, legislative, judicial decision-making, and electoral behavior; selected public policies.
Effective: Fall 1984

Effective: Fall 2007

PL SC 132 (GS;IL) The Politics of International Intolerance (3) Introductory course emphasizing psychological, historical, and political aspects of global intolerance towards minorities.
Effective: Fall 2007

PL SC 135 (GS) (S T S 135) The Politics of the Ecological Crisis (3) The political implications of the increasing scarcity of many of the world's resources.
Effective: Spring 2001

PL SC 137 United States Intelligence and Policy Making (3) The policy making process in the United States foreign intelligence and security policy; emphasis on the period following World War II.
Effective: Spring 2001

PL SC 140 (GS) Contemporary Controversies in International Relations (3) Contemporary issues of international security presented rigorously using analytical tools of international relations and political science.
Effective: Summer 2009

PL SC 155 Understanding Tyranny (3) Exploration of the rationales, methods, and consequences of highly repressive political regimes through novels, films, and memoirs.
Effective: Summer 1996

PL SC 177 (GS) Politics and Government in Washington DC (1-3) The course centers on a Spring Break trip to Washington DC, with students meeting on campus before and after the trip.
Effective: Fall 2007

PL SC 197 Special topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

PL SC 197A Debating Government (3) Students will become acquainted with a variety of political theories and debate their usefulness in considering contemporary political controversies.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

The Pennsylvania State University
PL SC 197H **The 2012 Elections** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 199 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PL SC 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

PL SC 296 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PL SC 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PL SC 299 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PL SC 300H **Introduction to Independent Thesis Research** (3) Introduction to research design, principles of social science research, and development on honors theses research proposal.
Effective: Fall 2008

PL SC 306H **Senior Thesis Writing Workshop** (1 per semester, maximum of 3) This seminar supports the writing and editing of senior honors theses.
Effective: Fall 2005

PL SC 308 **Introduction to Political Research** (3) Introduction to conceptualization, research design, and measurement in political research.
Effective: Fall 2009
Prerequisite:

PL SC 309 **Quantitative Political Analysis** (3) Data analysis and statistical applications in political research, including data processing; inferential statistics; contingency analysis; correlation and regression; multivariate analysis.
Effective: Fall 2009
Prerequisite:

PL SC 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

PL SC 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

PL SC 399 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

PL SC 403 **The Legislative Process** (3) Analysis of the policy process within the legislative system; the effects of environmental factors on policy alternatives and legislative decision making.
Effective: Spring 2001
Prerequisite:

PL SC 405 **The American Presidency** (3) An examination of the selection methods for, and powers of, the American presidency, as well as other chief executives.
Effective: Fall 1983
Prerequisite:

PL SC 410 **Game Theory in International Relations** (3) Game theoretic approaches to the study of international relations.
Effective: Spring 2005 Ending: Fall 2012
Prerequisite:

PL SC 410 **Strategy and Politics** (3) This course examines political behavior using social choice theory and game theory.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

PL SC 411W **Principles of International Cooperation** (3) An exploration of the forces that make conflict, or cooperation,
more likely in international relations.

Effective: Summer 2006

Prerequisite:

Effective: Spring 2011

Prerequisite:

PL SC 413 **The Rise and Fall of the Soviet Union** (3) Background, organization, and operation of the Communist Party and the government of the Soviet Union.

Effective: Spring 2001

Prerequisite:

PL SC 414 **Dictators and Their Demise** (3) Dictators and Their Demise examines the political economy of authoritarian rule.

Effective: Summer 2011

Prerequisite:

Effective: Spring 2003

Prerequisite:

PL SC 416 **International Negotiations** (3) The study of international negotiations from a strategic perspective.

Effective: Summer 2005

Prerequisite:

PL SC 417 **American Local Government and Administration** (3) Organization, powers, functions, and problems of American cities and metropolitan areas; modern trends and developments.

Effective: Winter 1978

Prerequisite:

PL SC 418 **International Relations Theory** (3) A survey of traditional and contemporary conceptual frameworks and theoretical approaches for the analysis of international relations.

Effective: Winter 1978

Prerequisite:

PL SC 418W **International Relations Theory** (3) A survey of traditional and contemporary conceptual frameworks and theoretical approaches for the analysis of international relations.

Effective: Spring 1999

Prerequisite:

PL SC 419 **The Bureaucratic State** (3) Overview of structural, technological, decision-making, behavioral, and political subsystems of bureaucracy; emphasis on bureaucratic dynamics within larger environmental, interorganizational contexts.

Effective: Fall 2007

Prerequisite:

PL SC 422 **Comparative Urban Politics** (3) Relationships between structure and evolution of city systems and patterns of political behavior.

Effective: Spring 2001

Prerequisite:

PL SC 423 **Post-Soviet Politics** (3) Aspects of political transition and institutions of the fifteen Soviet successor republics; emphasis on Russia and republican confederation.

Effective: Fall 2007

Prerequisite:

PL SC 424 **Topics in Comparative Government and Institutions** (3) Topics in the comparative analysis of representative contemporary Western and non-Western governmental institutions.

Effective: Fall 2007

Prerequisite:

PL SC 425 **Government and Politics of the American States** (3) Comparative analysis of political processes; executive, legislative, and judicial decision making and behavior; examination of systems functioning; selected public policies.

Effective: Winter 1978

Prerequisite:

PL SC 426 **Political Parties and Interest Groups** (3) Interest group basis of American politics, analysis of party and group behavior in electoral politics and the policy process.

Effective: Fall 1983

Prerequisite:

PL SC 427 **Political Opinion** (3) Nature and development of mass attitudes and opinions; political socialization; voting behavior; relation between opinions and public policy.

Effective: Spring 2001

Prerequisite:

PL SC 428 (US; IL) **Gender and Politics** (3) Gender in politics in the United States and around the world; major areas of women and politics research.

Effective: Fall 2007
Prerequisite:

PL SC 429 Analysis of Electoral Politics (3) The new politics, its technology, and the strategic perspectives that underlie it.
Effective: Spring 2007
Prerequisite:

PL SC 430 Selected Works in the History of Political Theory (3) Detailed examination and analysis of a selected major work, thinker, or tradition in the history of political theory.
Effective: Spring 1998
Prerequisite:

PL SC 430W Selected Works in the History of Political Theory (3) Detailed examination and analysis of a selected major work, thinker, or tradition in the history of political theory.
Effective: Spring 2008
Prerequisite:

PL SC 431 Ancient, Medieval, and Renaissance Political Theories (3) Political theories of Plato and Aristotle; selected Greek, Roman, medieval, and Renaissance theorists through Machiavelli.
Effective: Spring 2003
Prerequisite:

PL SC 432 Modern and Contemporary Political Theories (3) Political theories of the seventeenth through the twentieth centuries, including Hobbes, Locke, Rousseau, Marx, Mill, Mosca, Weber, and selected theorists.
Effective: Spring 2003
Prerequisite:

PL SC 433 Political Foundations of the Early American Republic (3) The course introduces students to the major political and philosophical movements that influenced the founders of the early American republic.
Effective: Summer 2008
Prerequisite:

PL SC 434 (IL) (AAA S 434) War and Development in Africa (3) This course will examine the relationship between war and development in sub-Saharan Africa in the post colonial era.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

PL SC 434 (IL) (AFR 434) War and Development in Africa (3) This course will examine the relationship between war and development in sub-Saharan Africa in the post colonial era.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PL SC 435 Foundations of American Political Theory (3) Political theories of colonial, revolutionary, and constitutional periods presented through works of selected thinkers and analysis of particular political problems.
Effective: Spring 2001
Prerequisite:

PL SC 435W Foundations of American Political Theory (3) Political theories of the revolutionary and constitutional periods presented through works of selected political thinkers and political issues.
Effective: Spring 2001
Prerequisite:

PL SC 436 Civil Wars (3) This course examines factors influencing the onset, duration, severity, termination, recurrence, and consequences of civil wars around the world.
Effective: Spring 2012
Prerequisite:

PL SC 437 War in World Politics (3) Causes, resolution, and consequences of crises and wars; testing theories of conflict using both case and statistical studies.
Effective: Summer 1997
Prerequisite:

PL SC 438 National Security Policies (3) Impact of national security on U.S. government and foreign policy; roles and interaction of President, Congress, government agencies, interest groups.
Effective: Spring 2001
Prerequisite:

PL SC 439 (CRIMJ 439) The Politics of Terrorism (3) Analysis of political terrorism as a violent alternative for peaceful change and traditional warfare in the nuclear age.
Effective: Spring 2008
Prerequisite:

PL SC 440 (US;IL) (AAA S 440, I B 440) Globalization and Its Implications (3) This course explores the socioeconomic implications of globalization.
Effective: Spring 2008 Ending: Fall 2012
Prerequisite:

PL SC 440 (US;IL) (AFR 440, I B 440) Globalization and Its Implications (3) This course explores the socioeconomic implications of globalization.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:
PL SC 441 Transnational Corporations and Other Organizations in International Relations (3) Analysis of the effects of transnational actor behavior on international relations.
Effective: Fall 2007
Prerequisite:

PL SC 442 American Foreign Policy (3) Principles of American foreign policy; processes of policy formulation; roles of the President, Congress, the State Department, and other government agencies.
Effective: Spring 2001
Prerequisite:

PL SC 443 (IL) (AAA S 443) Ethnic Conflict in Africa (3) This course explores the various causes and impacts of ethnic conflicts in the African context.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

PL SC 443 (IL) (AFR 443) Ethnic Conflict in Africa (3) This course explores the various causes and impacts of ethnic conflicts in the African context.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PL SC 444 Government and the Economy (3) Interactions of governmental and economic activity in American life. Survey of governmental (national, state, local) promotional, regulatory, and ownership policies.
Effective: Winter 1978
Prerequisite:

PL SC 445Y (US) (AAA S 445Y, LER 445Y) Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

PL SC 445Y (US) (AF AM 445Y, LER 445Y) Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PL SC 452 Government and Politics of Central Europe (3) Politics and society in the Communist Era, the revolutions of 1989, and problems of adjustment to democracy and market.
Effective: Fall 2007
Prerequisite:

PL SC 453 (IL) Political Processes in Underdeveloped Systems (3) Comparative analysis of the political, social, and economic problems characteristic of underdeveloped systems.
Effective: Fall 2007
Prerequisite:

Effective: Summer 2005 Ending: Summer 2012
Prerequisite:

Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PL SC 455 Governments and Politics of Western Europe (3) Comparative analysis of political and governmental structures of major West European nations; main functions and processes of such structures.
Effective: Spring 2001
Prerequisite:

PL SC 456 Politics and Institutions of Latin-American Nations (3) Social forces and processes, governmental institutions, foreign policies of major states of Latin America.
Effective: Spring 2001
Prerequisite:

PL SC 457 International Politics of Latin America (3-6) Relationships among the nations of Latin America and the social forces which determine and shape their direction.
Effective: Spring 2001
Prerequisite:

PL SC 458 Government and Politics of East Asia (3-6) Examination of political institutions, democratic and communist revolution, political leadership, political processes of major states of East Asia.
Effective: Summer 1996
Prerequisite:

PL SC 459 (IL) (AAA S 459) Culture and World Politics (3) Role of culture in world politics.
Effective: Summer 2006 Ending: Fall 2012

PL SC 459 (IL) (AFR 459) Culture and World Politics (3) Role of culture in world politics.
PL SC 460 (S T S 460) Science, Technology, and Public Policy (3) The all-pervasive importance of science and technology policy in modern societies and mechanisms and processes by which it is made.
Effective: Spring 1995
Prerequisite:

PL SC 461 (IL) Politics of the European Union (3) This course introduces students to the history, institutions and politics of the European Union.
Effective: Spring 2011
Prerequisite:

PL SC 462 Marxist and Socialist Political Theory (3) Analysis of major problems and key works in the Marxist and Socialist tradition; dialectical materialism, alienation, class warfare, etc.
Effective: Spring 2001
Prerequisite:

Effective: Summer 2008 Ending: Summer 2012
Prerequisite:

PL SC 464 (IL) (AFR 464) Globalization, Extractive Industries, and Conflict in Africa (3) Socioeconomic and environmental impacts of extractive industries in Africa.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PL SC 467 International Relations of the Middle East (3) The international relations of the Middle East, stressing national security policies of regional and outside actors, and major contemporary conflicts.
Effective: Spring 1985
Prerequisite:

PL SC 470W Legal Brief Writing (3) Writing of legal briefs as practiced in American courts.
Effective: Spring 1998
Prerequisite:

PL SC 471 American Constitutional Law (3) The origins of judicial review, landmark decisions of the Supreme Court, and their impact on the American form of government.
Effective: Fall 2007
Prerequisite:

PL SC 472 The American Legal Process (3) Analysis of the roles, procedures, and policies characterizing the American legal system.
Effective: Spring 2001
Prerequisite:

PL SC 473 American Judicial Behavior (3) Analyzes behavior of judges and other participants in the legal process; examines how and why courts function as policymaking bodies.
Effective: Fall 2007
Prerequisite:

PL SC 474 Civil Liberties and Due Process (3) Fundamental problems relating to civil liberties and due process.
Effective: Fall 2007
Prerequisite:

PL SC 480W Congress and the Presidency (3) Basic characteristics and processes of the national legislature and executive; roles and interaction of these institutions in the policy process.
Effective: Fall 2007
Prerequisite:

PL SC 481 Global Political Economy (3) This course examines states, markets, power, production, and the relations between the various transnational agents who act in these areas. Students may not receive credit for PL SC 481 and PL SC 412.
Effective: Spring 2007
Prerequisite:

PL SC 482 American State and Urban Politics (3) Explores basic characteristics and processes of American state and urban politics; nature of intergovernmental relations involving these governmental levels.
Effective: Fall 2007
Prerequisite:

PL SC 484W The Foreign Policy of Soviet Successor States (3) Relations between Russia and The Newly Independent States (NIS); Russia's relations with selected foreign states and political Institutions; regional impact of the NIS in Baltic, Asian, and Central Asian areas.
Effective: Fall 2007
Prerequisite:

PL SC 487 International Law and Organizations (3) Major topics and issues of international law with special attention to institutional arrangements (international organizations) through which that law operates.
Effective: Fall 2007

The Pennsylvania State University
Prerequisite:

PL SC 488 Comparative Public Policy (3) Comparative methodology and public policy implementation in postindustrial societies; selected case studies of policy output.
Effective: Fall 2007
Prerequisite:

PL SC 489 Public Administration (3) A survey of the major approaches to the management of most governmental agencies.
Effective: Fall 2007
Prerequisite:

Effective: Fall 2007
Prerequisite:

PL SC 491 Peace and Conflict Studies Seminar (3) Advanced study of major contemporary issues of peace and conflict; includes anthropological, technological, psychological, and economic perspectives.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

PL SC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

PL SC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

PL SC 495 Political Science Internship (1-6) Combining experience in government offices, related agencies, or law firms, with appropriate readings and a research paper/report.
Effective: Fall 2007
Prerequisite:

PL SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PL SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PL SC 497A (CAS 497A) Political Deliberation (3) This course showcases of contemporary deliberative practices and explores the shortcomings of modern politics by the deliberative democratic standard.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 497B Political Psychology (3) This course will present a genuinely interdisciplinary approach to the study of political psychology.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 497C The Political Economy of China (3) This course examines the key puzzles and issues of China's economic reform and development from the perspective of political economy.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

PL SC 499 (IL) Foreign Study--Government (1-12) Study, in selected foreign countries, of political institutions.
Effective: Summer 2005
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM

The Pennsylvania State University
Portuguese (PORT)

PORT 001 **Elementary Portuguese I** (4) For beginners. Grammar, with reading and writing of simple Portuguese; oral and aural work stressed.
   Effective: Spring 1987

PORT 002 **Elementary Portuguese II** (4) Grammar, reading, and conversation continued; special emphasis on the language, literature, and life of Brazil.
   Effective: Spring 1988
   Prerequisite:

PORT 003 **Intermediate Portuguese** (4) Grammar, reading, composition, and conversation.
   Effective: Winter 1978
   Prerequisite:

PORT 051 **Elementary Intensive Portuguese for Graduate Students I** (3) Intensive introduction to Portuguese: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
   Effective: Summer 2008
   Prerequisite:

PORT 052 **Elementary Intensive Portuguese for Graduate Students II** (3) Intensive introduction to Portuguese: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
   Effective: Summer 2008
   Prerequisite:

PORT 053 **Intermediate Intensive Portuguese for Graduate Students** (3) Continued intensive study of Portuguese at the intermediate level: reading, writing, speaking, listening, cultural contexts.
   Effective: Summer 2008
   Prerequisite:

PORT 197 **Special topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
   Effective: Spring 1995

PORT 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
   Effective: Summer 2005

PORT 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
   Effective: Summer 1994

PORT 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
   Effective: Summer 2005

PORT 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
   Effective: Summer 1996
   Prerequisite:

PORT 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
   Effective: Summer 2005

PORT 405 **Advanced Composition and Conversation** (3) Intended to strengthen the advanced student's ability to speak, read, and write in modern Brazilian Portuguese.
   Effective: Summer 1981
   Prerequisite:

PORT 456 **Brazilian Literature in English Translation** (3) Selected topics in the history of Brazilian literature, supplemented by readings, discussion, and lectures on cultural or literary questions.
   Effective: Winter 1978

PORT 476 **Brazilian Literature, The Modern Era (1880 to the Present)** (3) A survey of the major texts of Brazilian literature from romanticism to the present.
   Effective: Summer 1991
   Prerequisite:

PORT 480 **The Brazilian Novel** (3) A survey of the Brazilian novel from its origins to the present.
   Effective: Spring 1993
   Prerequisite:
PORT 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

PORT 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

PORT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

PORT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

PORT 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

<th>Prerequisite(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 230</td>
<td>Introduction to Psychologies of Religion</td>
<td>3</td>
<td>Introduction to major Western psychologies of religion (James, Freud, Jung) and to subsequent extensions of and departures from them.</td>
<td>Fall 2012</td>
<td></td>
</tr>
<tr>
<td>PSYCH 231</td>
<td>Introduction to the Psychology of Gender</td>
<td>3</td>
<td>Psychological study of gender in historical and contemporary perspective. Role of gender in development, self-concept, social relations, and mental health.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 232</td>
<td>Cross-Cultural Psychology</td>
<td>3</td>
<td>This course examines how ethnic and cultural background influences patterns of human thought and behavior.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 238</td>
<td>Introduction to Personality Psychology</td>
<td>3</td>
<td>Past and recent conceptualizations of key issues and root ideas of personality psychology.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 243</td>
<td>Introduction to Well-being and Positive Psychology</td>
<td>3</td>
<td>Applying psychological knowledge to develop and maintain effective personal adjustment and well-being and positive social relations.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 244</td>
<td>Introduction to the Psychology of Human Factors Engineering</td>
<td>3</td>
<td>Introductory course in engineering/human factors psychology, emphasizing the application of core psychological principles and research to designing products and systems.</td>
<td>Spring 2009</td>
<td></td>
</tr>
<tr>
<td>PSYCH 253</td>
<td>Introduction to Psychology of Perception</td>
<td>3</td>
<td>Survey of human perception and processing of perceptual information, with some reference to animal literature. Emphasizes vision and audition.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 256</td>
<td>Introduction to Cognitive Psychology</td>
<td>3</td>
<td>Introduction to study of such higher mental processes as thinking and reasoning, imagery, concept formation, problem solving, and skilled performance.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 260A</td>
<td>Neurological Bases of Human Behavior</td>
<td>3</td>
<td>An introduction to biopsychology, emphasizing the structure and function of the human brain. Students may take only one course for credit from PSY 203 and PSY 203A.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 261</td>
<td>Introduction to Psychology of Learning</td>
<td>3</td>
<td>A general survey of the learning area, including animal and human experiments, with the applicability of learning principles being discussed.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 268</td>
<td>Animal Minds</td>
<td>3</td>
<td>This course considers the cognitive and communicative abilities of animals, especially primates, as compared with humans.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 269</td>
<td>Evolutionary Psychology</td>
<td>3</td>
<td>Survey of evolutionary perspectives in current psychological research.</td>
<td>Spring 2008</td>
<td></td>
</tr>
<tr>
<td>PSYCH 270</td>
<td>Introduction to Abnormal Psychology</td>
<td>3</td>
<td>Overview of assessment, causes, and treatments of psychological disorders.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 281</td>
<td>Introduction to Industrial-Organizational Psychology</td>
<td>3</td>
<td>Personnel selection, training, accident prevention, morale, and organizational behavior.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 294</td>
<td>Research Project</td>
<td>1-12</td>
<td>Supervised student activities on research projects identified on an individual or small-group basis.</td>
<td>Spring 2007</td>
<td></td>
</tr>
<tr>
<td>PSYCH 295</td>
<td>Internship</td>
<td>1-18</td>
<td>Supervised off-campus nongroup instruction including field experiences, practica, or...</td>
<td>Spring 2007</td>
<td></td>
</tr>
</tbody>
</table>
internships. Written and oral critique of activity required.
Effective: Spring 2007

PSYCH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1985

PSYCH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2007

PSYCH 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

PSYCH 300H Honors Course in Psychology (1-6) Individual study and seminar in selected phases of psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 301W Basic Research Methods in Psychology (4) Introduction to methods of psychological research, with special attention to hypothesis formation and testing, threats to validity, and data presentation.
Effective: Spring 2007
Prerequisite:

PSYCH 302W Critical Thinking and Writing in Psychology (4) This course aims to teach psychology majors to think critically and to write clearly using APA writing style.
Effective: Spring 2007
Prerequisite:

PSYCH 370 (US) Psychology of the Differently-Abled (3) This course familiarizes students with the needs and abilities of people with varying physical challenges through academic and experimental exercises.
Effective: Spring 2007
Prerequisite:

PSYCH 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2007
Prerequisite:

PSYCH 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

PSYCH 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

PSYCH 400 Intermediate Experimental Design (3) Design and analysis of experiments on human and animal behavior, including application of the t, F, chi-square, and binomial distributions.
Effective: Spring 2007
Prerequisite:

PSYCH 404 (EDPSY 450) Principles of Measurement (3) Scale transformation, norms, standardization, validation procedures, estimation of reliability.
Effective: Spring 2007
Prerequisite:

PSYCH 405 Mathematical Psychology (3) Formalized psychological theories including models of social, biological, cognitive, and learning phenomena.
Effective: Spring 2007
Prerequisite:

PSYCH 406W Advanced Research Projects in Psychology (4) Advanced methodology focusing on the logic and practice of research culminating in the completion of a student designed research project.
Effective: Spring 2007
Prerequisite:

PSYCH 407 Advanced Research Methods in Psychology (3) Advanced methodology focusing on the logic and practice of research in a selected content area of psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 408 Program Evaluation (3) Examination of the theories and practice of program evaluation; emphasis on applied work utilizing a wide range of evaluation approaches.
Effective: Spring 2007
Prerequisite:
PSYCH 410 Child Development (3) Study of the psychology of the growing person from conception through adolescence, focusing more on periods up to middle childhood. Effective: Spring 2007

Prerequisite:

PSYCH 412 Adolescence (3) Physical, cognitive, and personality development during adolescence. Effective: Spring 2007

Prerequisite:

PSYCH 413 Cognitive Development (3) Development of reasoning and related cognitive skills, such as perception and language. Effective: Spring 2007

Prerequisite:

Prerequisite:

PSYCH 415 Topics in Developmental Psychology (3) Special topics in developmental psychology. Effective: Spring 2007

Prerequisite:

Prerequisite:

PSYCH 419 Psychology and a Sustainable World (3) Students study relationships between humans and the natural world and psychological factors contributing to environmental problems and sustainable solutions. Effective: Summer 2011

Prerequisite:

PSYCH 420 Advanced Social Psychology (3) In depth study of selected research areas in human social behavior. Effective: Spring 2007

Prerequisite:

PSYCH 421 Self and Social Judgment (3) Individual's perceptions, evaluations, and decision-making strategies about themselves, others, and social situations or issues. Effective: Spring 2007

Prerequisite:

PSYCH 422 Human Sexuality (3) Psychological influences on human sexual behavior such as love, sexual orientation, gender, intercourse, contraception, sexually transmitted diseases, dysfunctions, and paraphilias. Effective: Spring 2007

Prerequisite:

PSYCH 423 Social Psychology of Interpersonal/Intergroup Relationships (3) In-depth study of relationships among individuals (e.g., intimate relationships) or groups (e.g., prejudice, cooperation, competition, aggression, and negotiation). Effective: Spring 2007

Prerequisite:

PSYCH 424 Applied Social Psychology (3) Application of social psychological theories and research methods to field settings and to the study of social issues. Effective: Spring 2007

Prerequisite:

PSYCH 425 Psychology of Human Emotion (3) Reviews, critiques, and applies major historical and contemporary psychological theories of emotion experience, understanding, and expression. Effective: Spring 2007

Prerequisite:

PSYCH 426 (LING 429) Language and Thought (3) Relations between language and cognition; cognitive implications of normal and impaired language development; cognition and bilingualism. Effective: Spring 2007

Prerequisite:

PSYCH 427 (LING 446) L1 Acquisition (3) How children learn their first language; psycholinguistic aspects of lexical, syntactic, semantic, and phonological development. Effective: Spring 2010

Prerequisite:

PSYCH 432 (US) Multicultural Psychology in America (3) This course focuses on the central role of culture, race, and ethnicity in the human condition. Effective: Spring 2007

Prerequisite:

Prerequisite:
PSYCH 436 Humanistic, Existential, and Religious Approaches to Psychology (3) Existential, humanistic, and religious approaches to the psychology of experience, consciousness and will.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

PSYCH 438 Personality Theory (3) Personality theories and their application to social and personality development and personality dynamics.
Effective: Spring 2007
Prerequisite:

PSYCH 439 History and Systems of Psychology (3) Historical antecedents to scientific psychology; development of contemporary psychological theories and research areas from the formal establishment of psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 441 Health Psychology (3) Overview of the field with an emphasis on how psychological research contributes to an understanding of health and behavior.
Effective: Spring 2007
Prerequisite:

PSYCH 443 Treatment and Education in Developmental Disabilities (3) Covers etiology, classification, intervention (treatment and education), ethical and legal issues related to individuals with developmental disabilities.
Effective: Spring 2007
Prerequisite:

PSYCH 444 Engineering Psychology (3) Methods and results of experimental psychology pertinent to problems which involve man-machine relationships.
Effective: Spring 2007
Prerequisite:

PSYCH 445 Forensic Psychology (3) Relations between psychological theory and research and the law, legal processes, and social policy.
Effective: Spring 2007
Prerequisite:

PSYCH 450 Psychology of Consciousness (3) Introduction to psychological and physiological aspects of consciousness as related to brain function and clinical psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 451 Psychology of Action (3) Basic and applied science of action, from psychological, computational, and physiological perspectives.
Effective: Spring 2007
Prerequisite:

PSYCH 452 Learning and Memory (3) General survey of learning and memory processes as revealed in experimental work with animals and humans.
Effective: Spring 2007
Prerequisite:

PSYCH 456 Advanced Cognitive Psychology (3) In depth study of complex mental processes: thinking, problem-solving, imagery, symbolic behavior, information-processing, attention, artificial intelligence, and language.
Effective: Spring 2007
Prerequisite:

PSYCH 457 Psychology of Language (3) Overview of psychological research and theory on language processes, including speech perception, word recognition, meaning representation, comprehension, and language acquisition.
Effective: Spring 2007
Prerequisite:

PSYCH 458 Visual Cognition (3) Overview of concepts and methods in cognitive visual-spatial processing.
Effective: Spring 2007
Prerequisite:

PSYCH 459 Attention and Information Processing (3) An examination of attentional processes. Contemporary informational processing approaches will be emphasized.
Effective: Spring 2007
Prerequisite:

PSYCH 460 Comparative Psychology (3) Behavior from standpoint of phylogenetic growth and development; biological implications; comparison of different types of animals, including man.
Effective: Spring 2007
Prerequisite:

PSYCH 461 Advanced Conditioning and Learning (3) An examination of basic learning processes that have been determined within the context of classical, instrumental, and operant learning situations.
Effective: Spring 2007
Prerequisite:

PSYCH 462 Physiological Psychology (3) Study of the biological bases of behavior and experience, including the anatomy and physiology of the brain and nervous system.

The Pennsylvania State University
Effective: Spring 2007
Prerequisite:

PSYCH 463 Developmental Biopsychology (3) Developmental neuroanatomy and neurophysiology of vertebrates as they relate to behavior; emphasis on early postnatal development of birds and mammals.
Effective: Spring 2007
Prerequisite:

PSYCH 464 Behavior Genetics (3) Survey of gene mechanisms and gene-environment interactions in the determination of behavior; emphasis on deviant human behavior.
Effective: Spring 2008
Prerequisite:

PSYCH 470 Abnormal Psychology (3) Causes, dynamics, symptoms, and treatment of neuroses, psychoses, personality disorders, and other psychological disorders of adulthood.
Effective: Spring 2007
Prerequisite:

PSYCH 471 Psychology of Adjustment and Social Relationships (3) Theory and application of psychological principles to problems in personal and social adjustment.
Effective: Spring 2007
Prerequisite:

PSYCH 473 Behavior Modification (3) Principles of advanced behavior modification techniques.
Effective: Spring 2007
Prerequisite:

PSYCH 474 Psychological Intervention in Childhood (3) Psychology of personal relationships in school situations.
Effective: Spring 2007
Prerequisite:

PSYCH 475 Psychology of Fear and Stress (3) Description and evaluation of major trends in research on stress and fear in humans and other animals.
Effective: Spring 2007
Prerequisite:

PSYCH 476 Child Psychopathology (3) Etiology, diagnosis, and facilitation of adjustment of the mentally retarded, gifted, physically handicapped, and emotionally disturbed child.
Effective: Spring 2007
Prerequisite:

PSYCH 477 Mental Health Practicum with Children (3) Overview of interventions for children at risk for mental health disorders; emphasis on intervention strategies, program evaluation, and applied skills.
Effective: Spring 2007
Prerequisite:

PSYCH 478 Clinical Neuropsychology (3) Overview of functional human neuroanatomy and clinical neuropsychology, with emphasis on origin, assessment, and treatment of human brain damage.
Effective: Spring 2007
Prerequisite:

PSYCH 479 (US) (WMNST 471) The Psychology of Gender (3) Theories and research on gender differences and gender roles. Emphasis on women's and men's current positions in society.
Effective: Spring 2007
Prerequisite:

PSYCH 481 Introduction to Clinical Psychology (3) Diagnostic procedures, treatment approaches, occupational settings, and ethical considerations relevant to the profession of the clinical psychologist.
Effective: Spring 2007
Prerequisite:

PSYCH 482 Selection and Assessment in Organizations (3) Background in personnel testing, performance measurement, selection strategies, with emphasis on validity and measurement reliability.
Effective: Spring 2007
Prerequisite:

PSYCH 484 Work Attitudes and Motivation (3) Survey of theory and research with respect to attitudes, morale, and motivation of employees and management.
Effective: Spring 2007
Prerequisite:

PSYCH 485 Leadership in Work Settings (3) Review of research and application of behavior principles in the areas of management and supervision.
Effective: Spring 2007
Prerequisite:

PSYCH 490 Senior Seminar in Psychology (3) Capstone experience for senior psychology majors; review of current research literature; topics vary.
Effective: Spring 2007
Prerequisite:
PSYCH 491H Honors Thesis (3) An opportunity to pursue an advanced research thesis or project to integrate studies within psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 492 Current Topics in Psychology (3) Current topics addressing significant contemporary developments in psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 493 Senior Thesis (3-6) Supervised senior thesis research in psychology.
Effective: Spring 2007
Prerequisite:

PSYCH 494 Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2007
Prerequisite:

PSYCH 494H Research Projects (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

PSYCH 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1998
Prerequisite:

PSYCH 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1985

PSYCH 496A Teaching Assistantship (1-6) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2012 Ending: Fall 2012

PSYCH 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1991

PSYCH 497A South Africa: Psychology Research and Culture (3) Includes trip to Cape Town South Africa to the International Congress of Psychology. Fulfills diversity requirement.
Effective: Summer 2012 Ending: Summer 2012

PSYCH 497B Social Psychology in Our Lives (3) This course will examine various topics in social psychology and how they apply in a real world setting. The course will be mostly seminar, with regular readings and written assignments.
Effective: Summer 2012 Ending: Summer 2012

PSYCH 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

Last Import from UCM: June 2, 2012 12:27 PM
Public Administration (P ADM)

P ADM 401 Introduction to Homeland Security (3) This course provides foundational knowledge about homeland security, including policy, organization, and legal issues in the American context.
Effective: Summer 2008

P ADM 404 Homeland Security and Defense in Practice (3) This course analyzes, evaluates, and critiques homeland security plans in practice.
Effective: Summer 2008
Prerequisite:

P ADM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1993

Last Import from UCM: June 2, 2012 12:27 PM
Public Health Preparedness (PHP)

PHP 410 (HLS 410) Public Health Preparedness for Disaster and Terrorist Emergencies I (3) Analyzes the history of terrorism and explores the preparation and response to specific terrorist threats, natural disasters, and conventional catastrophes.
Effective: Fall 2010
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Public Policy (PUBPL)

PUBPL 201 Introduction to Homeland Security (3) An introduction to homeland security, and defense, with a focus on policy, legal issues, organization, and administration.
Effective: Summer 2011

PUBPL 241 (CRIMJ 241) Computer Applications in Public Affairs/Criminal Justice (3) Introduction to computer applications for criminal justice and public affairs agencies.
Effective: Spring 2004

PUBPL 304W Public Policy Analysis (3) The use of analytic models for describing and explaining the forces shaping policy and the consequence of policy decisions.
Effective: Spring 2004

PUBPL 305 Leadership Studies (3) Exposure to a wide range of leadership issues that will bring students to a new understanding of leadership as responsibility.
Effective: Spring 1999
Prerequisite:

PUBPL 306 Introduction to Crisis and Emergency Management (3) An introduction to emergency management in mitigating, preparing for, responding to and recovering from hazards.
Effective: Summer 2011

PUBPL 325 (AMSTD 325) American Political Culture (3) Study of political culture in the United States.
Effective: Spring 2003
Prerequisite:

PUBPL 415 (CRIMJ 415) Drug Control Policy in Comparative Perspective (3) Examines the history of drug control policy in the United States; comparisons and contrasts with other countries' experiences.
Effective: Summer 2004
Prerequisite:

PUBPL 419 Western Constitutional Traditions (3) This course reviews the major political, economic and social movements that shaped the development of the US Constitution.
Effective: Summer 2011
Prerequisite:

PUBPL 475 Critical Infrastructure Protection (3) This course provides knowledge about protection of critical infrastructure as an aspect of homeland security.
Effective: Summer 2011
Prerequisite:

PUBPL 480 Seminar in Urban Policy (3) Work in this course will focus upon governmental institutions and public policy problems in metropolitan areas.
Effective: Fall 1998
Prerequisite:

PUBPL 481 Seminar in Environmental Policy (3) Fundamentals of evolution; impacts on natural resources; interaction of environmental issues, current decision-making process policy, enforcement mechanisms; future actions.
Effective: Fall 1983
Prerequisite:

PUBPL 482 Seminar in Health Policy (3) Introduction to policy analysis of issues of current interest and importance to public administrators in the health industry.
Effective: Fall 1983
Prerequisite:

PUBPL 483 Seminar in National Security Policy (3) Course will examine the inter-relationship of foreign, military and economic policy.
Effective: Fall 1983
Prerequisite:

PUBPL 485 Seminar in Welfare Policy (3) Course examines the origins, development, and impact of welfare programs.
Effective: Fall 1998
Prerequisite:

PUBPL 490 Seminar in Public Policy (3) A survey of the major policy issues, actors and institutions involved in the policy-making system of contemporary society. (May be repeated for credit.)
Effective: Fall 1983
Prerequisite:

PUBPL 495 Internship (3-12) Experience in a public service agency related to knowledge gained through academic course work, reading, and discussion.
PUBPL 495 **Internship** (3-12) Experience in a public service agency related to knowledge gained through academic coursework, reading, and discussion.

Effective: Fall 2012

Prerequisite:

PUBPL 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

Effective: Fall 1983

PUBPL 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Summer 2010

Last Import from UCM: June 2, 2012 12:27 PM
Quality Control (Q C)

Q C 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 098 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Q C 450 Quality Control and Quality Improvement (3) Review of quality control and improvement methods including SPC applications, acceptance sampling, regression analysis, and design of experiments.
Effective: Spring 2007
Prerequisite:

Q C 460 Introduction to Six Sigma (3) Introduction to Six Sigma philosophy with case studies of the Define-Measure-Analyze-Improve-Control (DMAIC) Process and an emphasis on selection and application of statistical tools.
Effective: Summer 2012
Prerequisite:

Q C 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Quality and Manufacturing Management (QMM)

QMM 491 Introduction to Business Concepts for Manufacturing (3) Introduction to business, topics in marketing, accounting, and finance for nonbusiness students in manufacturing management. Effective: Fall 2001
Prerequisite:

QMM 492 Introduction to Engineering Design Principles (3) Engineering principles including different engineering fields, graphics, design, solid modeling and failure analysis. Effective: Fall 2001
Prerequisite:

QMM 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 2008

Last Import from UCM: June 2, 2012 12:27 PM
Quantification (QUANT)

QUANT 310 Mathematical Methods in the Social and Managerial Sciences (3) Functions (linear and nonlinear), systems of linear equations, matrix algebra, introductory differential calculus, applications in business and economics.
Effective: Fall 1983
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Radiological Sciences (RADSC)

RADSC 101 Radiographic Introduction and Procedures/Lab I (4) Radiology history, basic radiation protection principles, medical terminology, introduction to radiography and radiographic procedures/lab.
Effective: Fall 2002

RADSC 102 Radiographic Procedures/Lab II (4) Continuation of Radiographic Procedures/Lab I to include appendicular skeleton and introduction to head work.
Effective: Fall 2002
Prerequisite:

RADSC 103 Radiographic Procedures/Lab III (3) Continuation of Radiographic Procedures/Lab II to include digestive, urinary, and biliary systems and facial bone work.
Effective: Fall 2002
Prerequisite:

RADSC 110 Patient Care in Radiologic Sciences (3) Basic concepts of routine and emergency patient care procedures addressed from the radiographer's perspective.
Effective: Spring 2002

RADSC 204 Radiographic Exposure I (3) Fundamental knowledge base of factors that govern and influence the production and recording of radiologic images.
Effective: Fall 2002
Prerequisite:

RADSC 205 Radiographic Exposure II (3) Continuation of exposure factors concerning radiographic imaging; film, electronic imaging, processing, quality assurance and related areas will be emphasized.
Effective: Fall 2002
Prerequisite:

RADSC 206 Advanced Radiographic Procedures (3) Emphasis on specialized positioning and advanced radiographic procedures; includes introduction to cross-sectional anatomy.
Effective: Fall 2002
Prerequisite:

RADSC 207 Registry Review (4) Registry Review includes material from all radiological science courses, with emphasis on National Certification Examination, and career planning.
Effective: Fall 2002
Prerequisite:

RADSC 210W Radiographic Pathology (3) Writing intensive study of theories of disease causation and the pathophysiological disorders compromising health systems with emphasis on radiographic presentation.
Effective: Fall 2002
Prerequisite:

RADSC 220 Radiation Biology and Protection (3) Study the principles of interaction of radiation with living systems, effects on cells and tissues, biological response, and radiation protection.
Effective: Spring 2002

RADSC 230 Radiographic Physics (3) Basic knowledge of atomic structure, characteristics of radiation, x-ray production, photon interactions, circuitry, imaging equipment and quality control.
Effective: Spring 2002

RADSC 240 Pharmacology and Drug Administration (2) Basic concepts of pharmacology, the basic techniques of venipuncture, and the administration of diagnostic contrast agents and/or intravenous medications.
Effective: Spring 2002
Prerequisite:

RADSC 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2002
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Ralrd Transp Enginer (RTE)

RTE 195 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2011

RTE 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

RTE 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

RTE 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2011

RTE 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2011

RTE 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

RTE 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

RTE 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

RTE 301 Railroad Industry Overview and Economic Regulation (3) This course explores the relationship between railroads and customers, competitors, and the political, regulatory, and economic environment.
Effective: Spring 2011
Prerequisite: Concurrent: RTE 303

RTE 302 Railroad Track Location, Construction and Maintenance (3) Principles of railroad track location, alignment, elements and safety regulations.
Effective: Spring 2011
Prerequisite: Concurrent: C E 335 C E 360

RTE 303 Railroad Operation and Safety (3) Basics of rail operations, including the role of terminals and safety principles.
Effective: Spring 2011
Concurrent: RTE 301

RTE 305 Railroad Communications and Signals (3) Principles of the separation of trains, including signals, interlocking, and communications.
Effective: Spring 2011
Prerequisite: Concurrent: RTE 303

RTE 402 Railroad Operations Practicum (3) Practicum (lectures, supervised field work, laboratories) exploring practical problems in rail operations and safety.
Effective: Spring 2011
Prerequisite:

RTE 403 Railroad Track Practicum (3) Practicum (lectures, labs, supervised field experiences) exploring the construction and repair of track.
Effective: Spring 2011
Prerequisite: Concurrent: C E 333W C E 335

RTE 404 Railroad Mechanical Practicum (3) Practicum (lectures, labs, supervised field experiences) examining the repair of locomotives and cars.
Effective: Spring 2011
Prerequisite:

RTE 406 Railroad Capstone Project (4) Capstone project to integrate course knowledge in a team-based project.
Effective: Spring 2011
Prerequisite:
RTE 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2011

RTE 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2011

RTE 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2011

RTE 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2011

RTE 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2011

Last Import from UCM: June 2, 2012 12:27 PM
Recreation, Park and Tourism Management (RPTM)

RPTM 101 Introduction to Recreation Services (2) Introduction to discipline and exploration of professional career models/paths, historical development of profession, expectations and opportunities in recreation services.
Effective: Spring 2005

RPTM 120 (GS;US;IL) Leisure and Human Behavior (3) Leisure from historical and contemporary perspectives, including forces shaping leisure behavior, and relationships among leisure, the environment, and social institutions.
Effective: Spring 2010

RPTM 210 Introduction to Commercial Recreation and Tourism (2) Historical and contemporary perspectives of the field of commercial recreation and tourism.
Effective: Spring 2005

RPTM 230 Teambuilding Facilitation (3) Learn leadership and teambuilding skills to facilitate group dynamics and adventure, team activities.
Effective: Summer 2004

RPTM 236 Leadership and Group Dynamics in Recreation Services (3) Supervision in recreation services, including theories, strategies, group dynamics, applied leadership and decision-making skills.
Effective: Spring 2005

RPTM 277 (US) Recreation for Persons with Disabilities (3) Encouragement of appreciation for cultural experiences, disability-related characteristics, and recreation pursuits among persons with disabilities.
Effective: Summer 2005

RPTM 295A Introduction to Golf Management (1-4) Introduction to various phases of golf operations in public, private, municipal, or military settings.
Effective: Spring 2005
Prerequisite:

RPTM 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2005

RPTM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2005

RPTM 297A Outdoor School Counselor (1-3) Outdoor School is a field experience class and you must be accepted as a counselor before being registered. Application available at http://www.outreach.psu.edu/shaverscreek/files/index-ods-counselor.asp
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

RPTM 297B Interpreting Halloween to Children (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 297C Urban Service Experience (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 297D International Field Studies & Sustainable Tourism (1) Human impact on natural resource and sustainable tourism in the South Pacific field study program.
RPTM 297D Outdoor School Instructor (1-3) Outdoor School is a field experience class and you must be accepted as an instructor before being registered. Application available at:
http://www.outreach.psu.edu/shaverscreek/files/index-ods-counselor-returning.asp
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Prerequisite:

RPTM 297D Sustainable Tourism and the Environment (3) Human impact on natural resources and sustainable tourism in the South Pacific. Prerequisite for summer session RPTM study abroad programs.

RPTM 297E Outdoor School Instructor (1-3) Outdoor School is a field experience class and you must be accepted as an instructor before being registered. Please contact Ellen Will @ eeb11@psu.edu for an application.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Prerequisite:

RPTM 297F Mental Training FO (1) This course is designed to systematically teach golfers mental strategies and focusing techniques associated with performance excellence in golf.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Prerequisite:

RPTM 297G Wilderness First Aid (WFA) (1) Located at Shaver's Creek. Lab Fee $75.00 CPR fee $35.00 Certifications-SOLO WFA & AHA CPR/AED
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 297G Interpreting Maple Sugaring to Families (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Prerequisite:

RPTM 297K Special Topics PGM (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

RPTM 297S First Year Seminar (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 299 (IL) Foreign Studies (1-12 per semester/maximum of 12) Foreign Studies in RPTM.
Effective: Summer 2012

Prerequisite:

RPTM 300Y (IL) Tourism and Leisure Behavior (3) Examination of the impact of recreational sociocultural, governmental, economic, and physical environment on the leisure traveler within the tourism industry.
Effective: Summer 2005

RPTM 320 Recreation Resource Planning and Management (3) Relationship between leisure behavior and natural environment. Exploration of natural resources which enhance leisure.
Effective: Spring 2005

RPTM 325 Principles of Environmental Interpretation (3) Introduction, history, practice, and principles of contemporary interpretive activities common to natural and cultural history program sites.
Effective: Spring 2005

RPTM 326 Natural History Interpretation (3) Methods, techniques, resources to acquire knowledge of natural history. Field identification, projects of an applied nature, and seasonal application.
Effective: Spring 2005

Prerequisite:

RPTM 327 Cultural History Interpretation (3) Methods, skills, and techniques necessary for the programming of historical sites and areas.
Effective: Spring 2005

Prerequisite:

RPTM 330 Adventure-Based Program Leadership (3) Both theoretical and experiential components are included as the role of the leader in outdoor adventure programs is examined.
Effective: Spring 2005

The Pennsylvania State University
RPTM 334 Non-profit Recreation Agency Operations (3) Recreation agencies in voluntary and semiprivate sectors will be investigated through membership strategies, fund raising, volunteer management, etc. case studies. Effective: Spring 2005
Prerequisite:

RPTM 356 Programming in Recreation Services (3) Translating agency philosophy and policy into understanding of organization, management, implementation, and evaluation of programming in recreation services. Effective: Spring 2005
Prerequisite:

RPTM 360 Golf Operations Management (3) The course will focus on business planning, budgeting, inventory management, and financial controls within golf operations. Effective: Spring 2005
Prerequisite:

RPTM 370 Introduction to Arena Management (3) Introduction to arena and facilities management including operations, budgeting, marketing and staffing. Course is taught on site at a sports/entertainment arena (ex: the Bryce Jordan Center). Effective: Summer 2012
Prerequisite:

RPTM 386 Therapeutic Recreation Service Delivery (3) Skills and knowledge to deliver therapeutic recreation services based upon a sound philosophy. Effective: Spring 2005
Prerequisite:

RPTM 394 Orientation to Internship (1) Plan and prepare for internship in Recreation Services. Analyze career opportunities, internship process, and associated requirements. For RPTM majors only. Effective: Spring 2005
Prerequisite:

RPTM 395B Participation in Golf Management (1-4) Practical individual involvement in selected golf operations in public, private, municipal, or military settings. Effective: Spring 2005
Prerequisite:

RPTM 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2005

RPTM 397G Intermediate Golf Instruction and Business (2) This course serves as a laboratory for examining effective teaching and learning strategies and explains how to develop and practice strategies suitable for providing instruction to intermediate players. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 397K Administration Golf Operation II (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 397S First Year Seminar (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 399 (IL) Foreign Studies (1-12 per semester/maximum of 12) Foreign Studies in RPTM. Effective: Summer 2012
Prerequisite:

RPTM 410 Marketing of Recreation Services (3) Theoretical/practical application of marketing/advertising strategies in the development/delivery of recreation services. Effective: Spring 2005
Prerequisite:

RPTM 415 Commercial Recreation Management (3) Planning, developing, and managing profit-oriented recreation opportunities. Effective: Spring 2005
Prerequisite:

RPTM 425 Principles of Interpretive Materials (3) Principles, practices, application of non-personal interpretive activities common to natural/cultural history, including exhibits, audio-visual and illustrative materials. Effective: Spring 2005
Prerequisite:

RPTM 430 Environmental Education Methods and Materials (3) Methods and materials for developing, implementing, and evaluating environmental education programs within formal and non-formal educational settings. Effective: Summer 2011
Prerequisite:
RPTM 433W **Program Evaluation and Research in Recreation Services** (3) Systematic, structured problem-solving process for decision making in recreation and parks. Research techniques/evaluation procedures; quantitative, qualitative methodologies; deductive, inductive reasoning.
Effective: Spring 2005
Prerequisite:

RPTM 435 **Recreation Facilities Planning and Management** (3) Planning and management of selected facilities with emphasis upon maintenance, activity, and support provisions.
Effective: Spring 2005
Prerequisite:

RPTM 440 **Adventure-based Programming and Administration** (3) Utilization of wilderness/backcountry environments and participant challenge; history, models, theories; survey of organizations; program design, administration; and issues.
Effective: Spring 2005
Prerequisite:

RPTM 460 **Political and Legal Aspects of Recreation Services** (3) Role of local, state, federal government in provision of recreation services. Legislative and judicial systems.
Effective: Spring 2005
Prerequisite:

RPTM 470 **Recreation and Park Management** (3) Management of recreation and park services in public/non-profit settings; planning, budgeting fiscal development, resources allocation, decision-, making, computer applications.
Effective: Spring 2005
Prerequisite:

RPTM 476 **Leisure Education in Therapeutic Recreation** (3) Theoretical and practical application of leisure education in the therapeutic recreation process.
Effective: Spring 2005
Prerequisite:

RPTM 480 **Senior Management Seminar** (1) Current management issues will be examined relative to professional management strategies, ethics, and leadership in leisure services.
Effective: Spring 2005
Prerequisite:

RPTM 486 **Facilitation Techniques in Therapeutic Recreation** (3) Intervention strategies, therapeutic approaches, and group facilitation techniques in therapeutic recreation.
Effective: Summer 2011
Prerequisite:

RPTM 490 **Management and Issues in Therapeutic Recreation Services** (3) Topics related to management and professional issues in therapeutic recreation services in both clinical and community settings.
Effective: Summer 2011
Prerequisite:

RPTM 494H **Senior Honors Thesis** (1-6 per semester/maximum of 6) Senior Honors Thesis
Effective: Summer 2011

RPTM 495A **Internship in Recreation Services** (12) Meet educational objectives through participation in organized practical experience; direct observation and professional supervision in full-time work experience.
Effective: Spring 2005
Prerequisite:

RPTM 495B **Internship in Golf Management** (1-4) Observation and participation under supervision in golf operations in public, private, municipal, or military settings.
Effective: Spring 2005
Prerequisite:

RPTM 495C **Internship in Golf Management** (1-4) Observation and participation under supervision in golf operations in public, private, municipal, or military settings.
Effective: Spring 2005
Prerequisite:

RPTM 495D **Internship in Golf Management** (1-4) Observation and participation under supervision in golf operations in public, private, municipal, or military settings.
Effective: Spring 2005
Prerequisite:

RPTM 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2005

RPTM 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2005

The Pennsylvania State University
RPTM 497B Introduction to Arena Management (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 497B Discovery Trip (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497C Outdoor Consortium (2) The purpose of the Outdoor Recreation Consortium is to provide students with hands-on exposure to outdoor recreation resources management in a major National Park that is facing complex challenges. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497D Peer Mentoring (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497E Outdoor and Experiential Education (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

RPTM 497F National Curricula Workshop (1-2 per semester/maximum of 2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 497F National Curricular Workshops (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497G Golf Operations (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497I Canoeing Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 497I Canoeing Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 497J Peer Mentoring (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 497K Discovery Trip (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2006

RPTM 498B Wilderness First Responder (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013

RPTM 498D Backpacking Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 498D Back Packing Leadership (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2013 Ending: Spring 2013 Future: Spring 2013
RPTM 498F Rock Climbing Leadership (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 498F Rock Climbing Leadership (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

RPTM 498G Player Development/Tournament Golf (2 per semester/maximum of 16) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RPTM 498G Player Development/Tournament Golf (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

RPTM 498K Administration of Golf Operations IV (1) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

RPTM 499 (IL) Foreign Studies (1-12 per semester/maximum of 12) Foreign Studies in RPTM.
Effective: Summer 2012
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Rehabilitation (REHAB)

REHAB 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2003

Last Import from UCM: June 2, 2012 12:27 PM
Rehabilitation and Human Services (RHS)

RHS 096 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2011

RHS 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

RHS 100 (GS;US;IL) Introduction to Disability Culture (3) Social and cultural contexts of disability on both a micro and macro levels will be examined.
Effective: Fall 2011

RHS 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2011

RHS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

RHS 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2011

RHS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

RHS 300 Introduction to Rehabilitation and Human Services (3) Disability, public and private rehabilitation agencies, case management; resources for training; observations in rehabilitation settings.
Effective: Summer 2011
Prerequisite:

RHS 301 Introduction to Counseling as a Profession (3) Overview of the counseling theories that are often used in human service and rehabilitation practices.
Effective: Summer 2011

RHS 302 Client Assessment in Rehabilitation and Human Services (3) Provides a practical understanding and skills to utilize assessment in the helping process.
Effective: Summer 2011
Prerequisite: Concurrent: 3 credits in statistics

RHS 303 Group Work in Rehabilitation Practice and Human Services (3) An overview of essential elements and dynamics for conducting groups and various team-related activities will be the major focus.
Effective: Summer 2011
Prerequisite:

RHS 396 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2011

RHS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

RHS 400W Case Management and Communication Skills (3) Principles and practices of obtaining, recording, evaluating, and utilizing case data in rehabilitation planning; implementation of rehabilitation plans.
Effective: Summer 2011
Prerequisite:

RHS 401 Community Mental Health Practice and Services (3) Community mental health roles, historical points, current trends, and ethical standards; funding and impact on service provision.
Effective: Summer 2011
Prerequisite:
RHS 402 Children and Families in Rehabilitation Settings and Human Services (3) Contemporary family issues, child development, legal considerations, cultural and familial factors within rehabilitation and human services practice will be addressed.
Effective: Summer 2011
Prerequisite:

RHS 403 Medical Aspects of Disability (3) Common disabling illnesses, injuries, and congenital defects; their symptomatology, prognosis, and treatment; implications for personal, social, and vocational adjustment.
Effective: Summer 2011
Prerequisite:

RHS 428 Rehabilitation Corrections (3) An overview of rehabilitation in different correctional settings focusing on history, classification, risk assessment, intervention strategies, and community reentry.
Effective: Summer 2012
Prerequisite:

RHS 495A Rehabilitation and Human Services Internship (15) Full-time practicum in rehabilitation and related human services agencies and institutions providing psychosocial, vocational, educational, and/or residential services to people with disabilities.
Effective: Summer 2011
Prerequisite:

RHS 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2011

RHS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2011

RHS 497A Rehabilitation Corrections (3) An overview of rehabilitation in different correctional settings focusing on history, classification, risk assessment, intervention strategies, and community reentry.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RHS 497B Foundations of Addictions Counseling (3) Study of the fundamental principles of counseling individuals with a wide variety of addictions.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Last Import from UCM: June 2, 2012 12:27 PM
Religious Studies (RL ST)

RL ST 001 (GH;US;IL) **Introduction to World Religions** (3) An historical and comparative survey of the principal beliefs and practices of the world’s major religions. Effective: Summer 2005

RL ST 003 (GH;US;IL) **Introduction to the Religions of the East** (3) Religious experience, thought, patterns of worship, morals, and institutions in relation to culture in Eastern religions. Effective: Summer 2005

RL ST 004 (GH;US;IL) (CAMS 004, J ST 004) **Jewish and Christian Foundations** (3) Introduction to the perspectives, patterns of worship, morality, historical roots, and institutions of the Judaeo-Christian traditions; their relationships to culture. Effective: Summer 2005

RL ST 007 **Inner Lives in Religious Biography** (3) Reading and discussion of selected autobiographical and biographical statements to discover and compare different forms of spirituality. Effective: Fall 1983

RL ST 012 (GH;IL) (CAMS 012, J ST 012) **Lands of the Bible** (3) Textual and archaeological evidence for the lands, cities, and peoples associated with the Hebrew Bible and Christian scriptures. Effective: Summer 2005

RL ST 044 (GH;IL) (CAMS 044) **Ancient Near Eastern and Egyptian Mythology** (3) Survey of major ancient Mediterranean myths, gods, and goddesses in their cultural contexts; influence on later cultures. Effective: Summer 2005

RL ST 070 (GH;IL) (CAMS 070, J ST 070) **Prophecy: The Near East Then and Now** (3) Prophecy in the ancient Near East, the ancient Jewish and Christian traditions, and today. Effective: Summer 2007

RL ST 083S (GH) **First-Year Seminar in Religious Studies** (3) Critical approaches to the dimensions and directions in Religious Studies. Effective: Summer 1999

RL ST 090 (GH;IL) (CAMS 090, J ST 090) **Archaeology of Jerusalem: Past and Present** (3) Archaeology and history of Jerusalem from earliest times (c. 3000 BCE) to the present. Effective: Summer 2005

RL ST 101 (GH;IL) **Comparative Religion** (3) Comparative or historical analysis of religious factors—worship, theology, ethics, scriptures, etc., in two or more religious traditions. Effective: Summer 2005

RL ST 102 (GH;IL) (CAMS 102, HIST 102, J ST 102) **Canaan and Israel in Antiquity** (3) Political, social, and intellectual history of the land of Canaan/Israel in the Biblical era: Late Bronze and Iron Ages. Effective: Summer 2005

RL ST 103 (GH;US;IL) **Introduction to Hinduism** (3) Historical development of Hinduism to the present. Effective: Summer 2005

RL ST 104 (GH;US;IL) **Introduction to Buddhism** (3) A general survey of the basic doctrine, practice, and historical development of Hinayana and Mahayana Buddhism. Effective: Summer 2005

RL ST 105 (GH;US;IL) **Buddhism in the Western World** (3) A general survey of the development of Buddhism as a religious tradition in the West, focusing especially on America. Effective: Summer 2005

RL ST 106 (GH;IL) (J ST 106) **Mysticism** (3) A survey of the history, philosophy, and cultural impact of various mystical traditions in relation to world religions. Effective: Spring 2012
RL ST 106U (GH;IL) Mysticism (3) A survey of the history, philosophy, and cultural impact of various mystical traditions in relation to world religions.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RL ST 107 (GH;US;IL) Introduction to Islam (3) Community and message of the early movement; development of authoritative structures and traditions; proliferation of sects; theology and creeds; mysticism.
Effective: Spring 2006

RL ST 108 (GH;IL) Muhammad and the Qur'an (3) History of the Qur'an and its interpretation by the early Muslim community; life of Muhammad and his role within Islam.
Effective: Fall 2010

RL ST 110 (GH;US;IL) (CAMS 110, J ST 110) Hebrew Bible: Old Testament (3) Introduction to the history, literature, and religion of ancient Israel.
Effective: Summer 2005

RL ST 111 (GH;IL) (CAMS 111, J ST 111) Early Judaism (3) Religious thought, practices, and parties in the Second Temple period; the emergence of rabbinic Judaism.
Effective: Summer 2005

RL ST 114 (GH;US;IL) (J ST 114) Modern Judaism (3) Trends in Jewish life and thought since the French revolution; Judaism's responses to the challenge of modernity.
Effective: Summer 2005

RL ST 115 (GH;US) (HIST 115, J ST 115) American Jewish History and Culture (3) Examination of the history, culture, social tensions, and contributions of Jews and Judaism in America.
Effective: Summer 2006

RL ST 116 (GH;IL) Muslims in America (3) This course is a study of Muslims from multiple racial, cultural, and national perspectives; it explores what it means to be a Muslim in America.
Effective: Summer 2010

Effective: Spring 2004

RL ST 121 Jesus of Nazareth (3) An historical critical examination of the life and message of Jesus of Nazareth.
Effective: Spring 1995

RL ST 124 (GH;US;IL) (CAMS 124, J ST 124) Early and Medieval Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the second through the fifteenth century.
Effective: Summer 2005

RL ST 125W (GH) Modern Christianity (3) Analysis in cultural context of selected thinkers, ideas, and movements in Christianity from the sixteenth century to the present.
Effective: Summer 1995

RL ST 130 (GH) The Ethics of Western Religion (3) History of theological-social ethics of the Judaeo-Christian tradition.
Effective: Summer 1995

RL ST 131 (GH) (PHIL 132) Introduction to Bioethics (3) Studies questions of ethics in relation to biotechnology research and implementation, genetic engineering, medicine, animal and human rights.
Effective: Spring 2003

RL ST 132W Sects and Cults (3) The origins, beliefs, and practices of new or dissenting religious groups and their relationship to the dominant religious culture.
Effective: Spring 1994

RL ST 133 (GH) (CAMS 133, J ST 133) Archaeology of the Levant and Ancient Israel (3) Archaeology of the Levant and Ancient Israel to c. 1000 B.C.E.; relationship between archaeological and textual evidence.
Effective: Spring 2004

RL ST 134 (GH;IL) (CAMS 134, J ST 134) Archaeology of Biblical Israel (3) Archaeology of Biblical Israel from 1200 B.C.E. to c. 640 C.E.; relationship between archaeological and textual evidence.
Effective: Summer 2005

The Pennsylvania State University
RL ST 137 (GH;US;IL) (WMNST 137) **Women and Religion** (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these.
Effective: Spring 2006 Ending: Summer 2012
Prerequisite:

RL ST 137 (GH;US;IL) (WMNST 137, J ST 137) **Women and Religion** (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

RL ST 140Y (GH;US) (AM ST 140Y) **Religion in American Life and Thought** (3) The function, contributions, tensions, and perspectives of religion in American culture.
Effective: Summer 2005

RL ST 145 (GH;US;IL) (AAA S 145) **African American Religion** (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.
Effective: Summer 2005 Ending: Fall 2012

RL ST 145 (GH;US;IL) (AF AM 145) **African American Religion** (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.
Effective: Spring 2013 Future: Spring 2013

RL ST 146 (GH;US) (AAA S 146) **The Life and Thought of Martin Luther King, Jr.** (3) A survey of the civil rights leader including his religious beliefs, intellectual development, and philosophy for social change.
Effective: Summer 2005 Ending: Fall 2012

RL ST 146 (GH;US) (AF AM 146) **The Life and Thought of Martin Luther King, Jr.** (3) A survey of the civil rights leader including his religious beliefs, intellectual development, and philosophy for social change.
Effective: Spring 2013 Future: Spring 2013

RL ST 147 (GH;US) (AAA S 147) **The Life and Thought of Malcolm X** (3) The life of Malcolm X/El Hajj Malik El Shabazz (1925-1965) and his social, political, economic, and moral thought.
Effective: Summer 2005

RL ST 165 (IL) (ARAB 165, HIST 165) **Introduction to Islamic Civilization** (3) Islamic history, culture, religious life c.600-1500 C.E.
Effective: Spring 2006

RL ST 181 (IL) **Introduction to the Religions of China and Japan** (3) A survey of the history, philosophy, and cultural impact of the major Far Eastern religions: Confucianism, Taoism, Buddhism, and Shinto.
Effective: Spring 2006

RL ST 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1995

RL ST 235 (US;IL) (HIST 235, J ST 235) **The Church and the Jews** (3) Examination of the relationship between Western church and the Jews from the First Century to Enlightenment.
Effective: Spring 2006

RL ST 236 (GS) (PSYCH 230) **Introduction to Psychologies of Religion** (3) Introduction to major Western psychologies of religion (James, Freud, Jung) and to subsequent extensions of and departures from them.
Effective: Spring 2007 Ending: Summer 2012

RL ST 280 (GH;IL) (WMNST 280, J ST 280) **WOMEN AND JUDAISM** (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture.
Effective: Spring 2006

RL ST 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

RL ST 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983
RL ST 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996
Prerequisite:

RL ST 400 Theories of Religion (3) Comparative and interdisciplinary study of two or more systematic theories of religion: anthropological, psychological, sociological, philosophical/theological. Effective: Fall 1983
Prerequisite:

RL ST 405 (IL) (J ST 405) Ancient Jewish Traditions and Modern Food Movements (3) Jewish laws, customs and attitudes with regard to food production, agricultural policy and eating from biblical to modern times. Effective: Spring 2012

RL ST 407Y (IL) (HIST 409Y, J ST 409Y) European Anti-Semitism from Antiquity to the Present (3) Surveys the history of anti-Semitism in Europe from antiquity through the Middle Ages to the present. Effective: Summer 2005

RL ST 408 (US;IL) Hindu Studies (3) Special topics in Hindu studies. Effective: Summer 2005
Prerequisite:

RL ST 409 (US;IL) Buddhist Studies (3) Special topics in Buddhist studies. Effective: Spring 2006
Prerequisite:

RL ST 411 (US;IL) (J ST 411) Jewish Studies (3) Study of the life and thought of a particular period or movement in the history of Judaism. Effective: Spring 2006
Prerequisite:

RL ST 412 (J ST 412) American Judaism (3) The development of Jewish religion and culture in America from the colonial era to the present. Effective: Summer 1999
Prerequisite:

Prerequisite:

RL ST 420 Major Christian Thinkers (3) Systematic inquiry into the religious thought of one or more Christian thinkers, such as Paul, Augustine, Luther, Calvin, Kierkegaard, or Tillich. Effective: Fall 1983
Prerequisite:

RL ST 422 (AM ST 422) Religion and American Culture (3 per semester/maximum of 6) Selected topics, problems, or historical movements in American religion. Relation between religion and American culture. Effective: Summer 1996

Prerequisite:

RL ST 440Y (US;IL) The Orthodox Christian Tradition (3) History, culture, and beliefs of the Eastern Orthodox religious tradition with special reference to Russia. Effective: Summer 2011
Prerequisite:

Prerequisite:

RL ST 471Y (IL) (HIST 471Y) Classical Islamic Civilization, 600-1258 (3) Pre-Islamic Arabia; Muhammad; Arab conquest; Islamic beliefs and institutions; literary, artistic, and scientific achievements; relations with Europe; breakdown of unity.

The Pennsylvania State University
RL ST 478 (J ST 478) Ethics After the Holocaust (3) Explores the philosophical effects of the Holocaust for thinking about the primary question: Is ethics possible?
Effective: Summer 2012
Prerequisite:

RL ST 483 (IL) Zen Buddhism (3) The development and current state of Zen Buddhist thought and practice.
Effective: Spring 2006
Prerequisite:

RL ST 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

RL ST 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

RL ST 495 Internship (1-18) Supervised off-campus, non-group instruction, including field experience, practica, or internships.
Effective: Summer 2004
Prerequisite:

RL ST 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

RL ST 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

RL ST 499 (IL) Foreign Study--Religious Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Risk Management (R M)

R M 100 Real Estate Practice (3) Study of real estate to enable individuals to make successful transactions and decisions. May not be used to satisfy Smeal College baccalaureate degree requirements.
Effective: Spring 2012
Prerequisite:

R M 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2012

R M 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

R M 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 2012

R M 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2012

R M 301 Risk and Decisions (3) Introduction to decision-making under uncertainty. Mathematical probability and statistics, decision theory and game theory will be studied.
Effective: Summer 2011
Prerequisite:

R M 302 Risk and Insurance (3) Introduction to the principles and methods of handling business and personal risks; emphasis on insurance techniques.
Effective: Spring 2012
Prerequisite:

R M 303 Real Estate Fundamentals (3) Introduction to urban real estate; economic forces affecting property rights; real estate markets and finance; land-use analysis; government policies.
Effective: Spring 2012
Prerequisite:

R M 320W Risk Management and Insurance (3) Goals and methods of risk management. Commercial insurance and alternative risk transfer (ART) methods in addition to the characteristics of insurance markets and intermediaries used by risk managers.
Effective: Summer 2011
Prerequisite:

R M 330W Real Estate Risk Analysis (3) Risk and value associated with real estate decision making, which includes purchasing, leasing renovation, financing, and investing.
Effective: Summer 2011
Prerequisite:

R M 395 Internship (1-3) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2012
Prerequisite:

R M 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2012

R M 401 Fundamentals of Private Pensions (3) Analysis of pension regulation, funding, vesting, retirement annuities under insured and self-insured plans, actuarial cost analysis, plan termination insurance.
Effective: Spring 2012
Prerequisite:

R M 405 Corporate Risk Management (3) Risk management for firms and organizations; loss control, risk transfer, and loss financing alternatives; Corporate employee benefit program design and financing.
Effective: Spring 2012
Prerequisite:

R M 410 Compound Interest and Annuities (3) Compound interest and annuity functions; equations of value; determination of yield rates; construction of tables.
Effective: Spring 2012
Prerequisite:

R M 411 Actuarial Mathematics I (3) A study of the mathematical theory of life contingencies; single-life functions and their applications.
Effective: Spring 2012
Prerequisite:

R M 412 Actuarial Mathematics II (3) Joint-life and survivor-life functions, population life tables, and multiple decrement theory, with applications to disability and retirement problems.
Effective: Spring 2012
Prerequisite:

R M 415 Modeling for Actuarial Science (3) Modeling for Actuarial Science, including models of interest rates, used to price liabilities, and models of stock prices and options used to price Employee Options and Cash Balance Accounts. Effective: Summer 2011
Prerequisite:

R M 420 Property and Casualty Insurance (3) Actuarial methods and concepts used to develop manual rates for property and casualty insurance. Effective: Spring 2012
Prerequisite:

R M 422 (B LAW 424) Real Estate Law (3) Analysis of contemporary law applicable to various types of ownership interests and rights, methods of transferring ownership, and use of real property. Effective: Spring 2012
Prerequisite:

R M 425 (B LAW 425) Business and Environmental Regulation (3) Examines the interplay between environmental regulation and commercial activities, including property interests. Effective: Spring 2012
Prerequisite:

R M 430 Life and Health Insurance (3) Industrial organization of the US life-health insurance industry; economic issues related to organizational structure, operational functions, and the supply and demand for life-health products. Effective: Spring 2012
Prerequisite:

Prerequisite:

Prerequisite:

R M 470 (FIN 470) Real Estate and Capital Markets (3) Analysis of publicly-traded real estate of both the equity, (REITs) and debt (MBSs) sides. The course also provides international perspectives. Effective: Spring 2012
Prerequisite:

R M 480 International Real Estate Markets (3) International perspectives on real estate as property, evaluation of land use regulations, and differences in real estate markets across countries. Effective: Spring 2012
Prerequisite:

R M 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Spring 2012

R M 494H Honors Research Project (1-6) Supervised honor student research projects identified on an individual or small-group basis. Effective: Spring 2012

R M 496 Independent Studies (1-18) Creative Projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 2012

R M 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 2012

R M 497A Real Estate Case Competition (2) A Team completes to analyze, create investment strategy & present power point presentation at competition. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

R M 497B Urban Property Rights (3) A senior-level seminar dealing with international aspects of the economics of urban property rights.

R M 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2012

Last Import from UCM: June 2, 2012 12:27 PM
Romanian (ROM)

ROM 296 Independent Studies (1-18) Creative projects, includes research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1998

ROM 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1998

Last Import from UCM: June 2, 2012 12:27 PM
Rural Sociology (R SOC)

R SOC 011 (GS;US) Introductory Rural Sociology (3) Basic sociological concepts applied to rural societal institutions and rural communities; causes and consequences of rural social change. Students may take only one course for General Education credit from R SOC 011 GS or SOC 001 GS. Effective: Spring 2006

R SOC 296 Independent Studies (1-18) Creative projects, including research and design which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

R SOC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

R SOC 327 (S T S 327) Natural Resources, Science, Ethics, and Society (3) The purpose of this course is to enable students to become competent critical thinkers about the state of natural resources through greater understanding of scientific, discourse formation, and the ethical dimensions of natural resources issues. Effective: Fall 2011

R SOC 417 (CED 417) Power, Conflict, and Community Decision Making (3) Impact of institutions on human interdependence and behavior, the structure of power, and community decision making and public policy. Effective: Spring 2010
Prerequisite:
R SOC 420 (US;IL) (CED 420, WMNST 420) Women in Developing Countries (3) Analysis of women’s work, experiences, and development policies and practices in Africa, Asia, and Latin America. Effective: Fall 2009

R SOC 452 Rural Organization (3) Social organization and change in rural communities; use of sociological principles in analysis of rural problems and rural development. Effective: Spring 2012
Prerequisite:
R SOC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

R SOC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

R SOC 499 (IL) Foreign Study--Rural Sociology (1-12) Study in selected countries of rural social institutions and current rural sociological problems. Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Russian (RUS)

RUS 001 Elementary Russian I (4) Audio-lingual approach to basic Russian; writing. Students who have received high school credit for two or more years of Russian may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985

RUS 002 Elementary Russian II (4) Audio-lingual approach to basic Russian continued; writing. Students who have received high school credit for four years of Russian may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985
Prerequisite:

RUS 003 Intermediate Russian (4) Emphasis on reading unsimplified texts; composition; grammatical analysis.
Effective: Fall 1985
Prerequisite:

RUS 051 Elementary Intensive Russian for Graduate Students I (3) Intensive introduction to Russian: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

RUS 052 Elementary Intensive Russian for Graduate Students II (3) Intensive introduction to Russian: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

RUS 053 Intermediate Intensive Russian for Graduate Students (3) Continued intensive study of Russian at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

RUS 083S (GH;US;IL) First-Year Seminar in Russian (3) Russia’s cultural past and present.
Effective: Summer 2005

RUS 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

RUS 100 (GH;IL) Russian Culture and Civilization (3) The Russian people from the tenth century to present times; their literature, arts, music, science, and philosophy. In English.
Effective: Summer 2005

RUS 110 (GH;IL) Russian Folklore (3) Study of byliny, lyrical and historical songs, folktales, drama, ceremonial poetry, chants, charms, proverbs, and mythology of Russia. In English.
Effective: Summer 2005

RUS 120 (GH;IL) Theatrical Arts of Russia (3) Survey of Russian dramatic literature, including plays, operas, ballets, and cinema. In English.
Effective: Summer 2005

RUS 130 (IL) Women in Russian Literature (3) Survey of Russian and Soviet women characters and writers from the Medieval Period to the present (in English).
Effective: Summer 2011

RUS 141Y (IL) Russian Literature in English Translation: 1800-1870 (3) Pushkin, Lermontov, Gogol, the critics, Turgenev, Dostoevsky, Tolstoy. Writing assignments will serve as a major way of exploring subject matter.
Effective: Spring 2006

RUS 142Y (IL) Russian Literature in English Translation: 1870 to Present (3) Dostoevsky, Tolstoy, Chekhov, Gorky, symbolists, selected Soviet authors. Writing assignments will serve as a major way of exploring subject matter.
Effective: Spring 2006

RUS 143 (GH;IL) (GER 143) The Culture of Stalinism and Nazism (3) The culture of Stalinist Russia and Nazi Germany in comparative perspective.
Effective: Summer 2005

RUS 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an...
individual basis and that fall outside the scope of formal courses.

Effective: Spring 2004

RUS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Spring 1995

RUS 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

RUS 204 (IL) Intermediate Russian II (4) Intensive practice of Russian reading, writing, listening and speaking; review of Russian grammar.

Effective: Summer 2011

Prerequisite:

RUS 214 (IL) Intermediate Russian III (4) Intensive practice of Russian reading, writing, listening and speaking; review of Russian grammar.

Effective: Summer 2011

Prerequisite:

RUS 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

Effective: Summer 1994

RUS 296 Independent Studies (1-18) Creative projects, including research design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Summer 1986

RUS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Effective: Summer 1986

RUS 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

RUS 304 (IL) Readings in Russian III (3) Extensive reading of contemporary Russian texts, including articles from Soviet press and short fiction.

Effective: Spring 2006

Prerequisite:

RUS 305 (IL) Advanced Russian Conversation (3) Discussion and role-playing based on real-life situations and current events; supervised by a native speaker.

Effective: Spring 2006

Prerequisite:

RUS 360 (IL) Advanced Russian Grammar (3) Russian morphology and syntax on an advanced level.

Effective: Spring 2006

Prerequisite:

RUS 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

Effective: Summer 1996

Prerequisite:

RUS 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Effective: Summer 2005

RUS 400 (IL) Senior Seminar in Russian Culture (3) Senior seminar devoted to topics in Russian culture; conducted in Russian.

Effective: Spring 2006

Prerequisite:

RUS 401 Advanced Russian A (3) Advanced Russian grammar, conversation, and composition.

Effective: Summer 2012

Prerequisite:

RUS 402 Advanced Russian B (3) Advanced Russian grammar, conversation, and composition.

Effective: Summer 2012

Prerequisite:

RUS 404 Advanced Reading and Composition (3) Advanced Russian Reading and Composition.

Effective: Summer 2012

Prerequisite:
RUS 405 (IL) Seminar in Russian Literature (3-6 per semester/maximum of 6) Readings in classical Russian literature; Topics vary.
Effective: Summer 2012
Prerequisite:

RUS 406 (IL) Russian Film (3) Conversation and Composition based on classical Russian films.
Effective: Summer 2012
Prerequisite:

RUS 412 (IL) Russian Translation (3 per semester/maximum of 6) Translation from Russian into English of complex texts from the humanities, social sciences, and technical fields.
Effective: Spring 2006
Prerequisite:

RUS 426 (IL) Dostoevsky (3) Study of representative works by Dostoevsky in the original Russian.
Effective: Spring 2006
Prerequisite:

RUS 427 (IL) Tolstoy (3) Study of representative works by Tolstoy in the original Russian.
Effective: Spring 2006
Prerequisite:

RUS 460 (IL) Linguistic Analysis of Contemporary Russian (3) Detailed study of the phonology, morphology, and syntax of Modern Standard Russian and the major dialects.
Effective: Spring 2006
Prerequisite:

RUS 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

RUS 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

RUS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

RUS 496A Soviet History (3) Soviet History in "Advanced Russian through Reading."
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

RUS 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

RUS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
School Psychology (S PSY)

S PSY 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011

S PSY 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

S PSY 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Science (SC)

SC 100 Introduction to Research (1) Introduces essential elements of laboratory safety, laboratory techniques, research ethics, and scientific communication skills. Especially for undergraduate research students.
Effective: Summer 2004

SC 101 (AG 100) Job Placement Skills and Strategies (1) Strategies and skills designed to identify career/life goals and implement career decisions.
Effective: Fall 2010

SC 200 (GN) Science in Our World: Certainty and Controversy (3) A science appreciation course, aimed at making non-scientists more informed consumers of science.
Effective: Summer 2010

SC 201 Medical Professions (1) Learn about the different medical professions and related subjects.
Effective: Summer 2008

SC 210 Sophomore Science Seminar (2) Covers topics related to success in upper level courses including critical thinking, library resources, reading primary literature, and communication skills.
Effective: Summer 2004

SC 285 Science Co-op Preparation (1) Course helps students maximize value from Science Co-Op work experience; includes discussions of corporate culture and issues of business/technology. Offered for SA/UN grade.
Effective: Summer 1999
Prerequisite:

SC 294 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

SC 295 Science Co-op Work Experience I (1-3) A supervised work experience where the student is employed in a scientific position. To be offered for SA/UN grading.
Effective: Spring 2007
Prerequisite:

SC 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2005

SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1991

SC 297A (ENGR 297A) Science/Technology/Engineering Mathematics Topics (1-6) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SC 395 Science Co-op Work Experience II (1-3) A supervised work experience where the student is employed in a scientific position. To be offered for SA/UN grading.
Effective: Spring 2007
Prerequisite:

SC 400 Consequences of Science (1) A series of lecture/discussions in which science faculty members show the social implications of their research specialty.
Effective: Winter 1978

SC 401 Basic Science and Disease (1) Clinical aspects of various disease and how basic scientific information contributes towards understanding and treating disease.
Effective: Summer 2008
Prerequisite:

SC 402 Science-Related Employment: Corporate Organization, Opportunities, and Expectations (1-3 per semester/maximum of 3) Present undergraduate and graduate students with information and skills necessary for success in science-related job positions available in industry.
Effective: Spring 2011
Prerequisite:
SC 476 Human Dimensions of Health Care (3) Field experience in five or more medical settings; complementary exposure to the scientific literature; weekly discussions.
Effective: Spring 2011
Prerequisite:

SC 494 Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 1994

SC 494H Research Project Courses (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

SC 495 Science Co-op Work Experience III (1-3) A supervised work experience where the student is employed in a scientific position. To be offered for SA/UN grading.
Effective: Spring 2007
Prerequisite:

SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

Last Import from UCM: June 2, 2012 12:27 PM
Science Education (SCIED)

SCIED 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1996

SCIED 297A Outdoor School Counselor (1-3) Outdoor School is a field experience class and you must be accepted as a counselor before being registered. Application available at: http://www.outreach.psu.edu/shaverscreek/files/index-ods-counselor.asp
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

SCIED 297A Outdoor School Counselor (2) Outdoor School is a field experience class and you must be accepted as a counselor before being registered. Application available at: http://www.outreach.psu.edu/shaverscreek/files/index-ods-counselor.asp
Prerequisite:

SCIED 297B (EARTH 297B) Fundamentals of Climate Science (3) Address the meaning, variability and change of climate over time as a result of natural & man-made processes. Course is geared toward elementary ed majors, but could also be appropriate for EMS students interested in reform-based science education.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SCIED 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

SCIED 410 Using Technology to Enhance Science Teaching (3) This course explores contemporary practice and research associated with applications of technology to enhance science learning and teaching.
Effective: Summer 2000
Prerequisite:

SCIED 411 Teaching Secondary Science I (3) Introduction to teaching secondary school science, including curriculum, learning theory, media, evaluation as they relate to student progress.
Effective: Spring 1994
Prerequisite:

SCIED 412 Teaching Secondary Science II (3) Implementation of science instruction using a variety of modern approaches.
Effective: Spring 2001
Prerequisite: Concurrent: C I 412W

SCIED 455 Field Natural History for Teachers (3) Ecologically oriented field study course to provide teachers with basic knowledge of natural science resources in school environments.
Effective: Winter 1978
Prerequisite:

SCIED 457 Environmental Science Education (3) Philosophy, techniques, and skills for teaching environmental science, including curriculum development, fieldwork, and the use of appropriate technologies.
Effective: Fall 2003
Prerequisite:

SCIED 458 Teaching Science in the Elementary School (3) Interpreting children's science experiences and guiding development of their scientific concepts; a briefing of science content material and its use.
Effective: Spring 2007
Prerequisite: Concurrent: C I 495A OR C I 495B ; MTHED 420 SS ED 430W

SCIED 470 Selected Studies in Science Education (1-6) Intensive work on particular issues, trends, or developments in science education for elementary and secondary school teachers.
Effective: Winter 1978
Prerequisite:

SCIED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

SCIED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

SCIED 497A Natural Gas - "Gold Rush" of the 21st Century (1) Course outlines effects of natural gas development on
our environment, society and economy and describes environmental preservation/protection techniques.
Effective: Summer 2012 Ending: Summer 2012

SCIED 497B An Introduction to Sustainability for Teachers (1) Participants will learn to teach concepts of sustainable
development including the pursuit of economic prosperity, environmental quality and social equity.
Effective: Summer 2012 Ending: Summer 2012

SCIED 497C Astrobiology for Educators (2) Explore the world of astrobiology to capture the attention of your students
and encourage their interest in the sciences. This interdisciplinary course includes a variety of inquiry-based activities.
Effective: Summer 2012 Ending: Summer 2012

SCIED 497F (ENGR 497F) Fundamentals of Science, Technology and Engineering (3) A course focusing on physics
content, engineering design principles, and elementary science education pedagogy.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SCIED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject
which may be topical or of special interest.
Effective: Fall 1992

Last Import from UCM: June 2, 2012 12:27 PM
Science, Engineering, and Technology (SE&T)

SE&T 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1992

Last Import from UCM: June 2, 2012 12:27 PM
Science, Technology, and Society (S T S)

S T S 055 (GN) (AERSP 055) Space Science and Technology (3) The science and technology of space exploration and exploitation; physical principles; research and development; history, space policy, and social implications. Effective: Spring 1994

S T S 090 Introduction to Peace and Conflict Studies (3) Introduction to theory and practice concerning major contemporary issues of peace and conflict; includes anthropological, technological, psychological, and economic perspectives. Effective: Fall 1994 Ending: Fall 2012

S T S 100 (GH) Science, Technology, and Culture (3) A survey of the development and culture of science, technology, and medicine in world history. Effective: Spring 2011

S T S 101 (GH) Modern Science, Technology, and Human values (3) Relationships of science and technology to human aspirations, values, and arts. Effective: Spring 1996

S T S 102 (GS) Science, Technology and Public Policy (3) This course will survey the main issues that relate science and technology to public policy. Effective: Summer 2010

S T S 105 (GHA) (FD SC 105) Food Facts and Fads (3) Impact on society and the individual of modern food technology, food laws, additives, etc.; historical, current, and futuristic aspects. Effective: Spring 2004

S T S 107 (GH) (PHIL 107) Introduction to Philosophy of Technology (3) The character of technology; its relation to human values; philosophical assumptions in its development; and how it transforms the world. Effective: Spring 2004

S T S 122 (GH) (HIST 122) History of Science I (3) A history of science and culture from Stonehenge to the scientific revolution. Effective: Spring 2005

S T S 123 (GH) (HIST 123) History of Science II (3) A history of science and culture from the scientific revolution to the present. Effective: Spring 2004

S T S 124 (GH;US;IL) (HIST 124) History of Western Medicine (3) This course explores the history of health, illness, and medicine in western society. Effective: Summer 2008

S T S 150 (GN;IL) (EM SC 150) Out of the Fiery Furnace (3) A history of materials, energy, and humans, with emphasis on their interrelationships. For nontechnical students. Effective: Spring 2006
S T S 151 (GS;US) (HIST 151) Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

S T S 151S (GS;US) (HIST 151S) Technology and Society in American History (3) Development of technology in America from colonial times; its reception and its influence on social, economic, and political life.
Effective: Spring 2006

S T S 157 (US) (WMNST 157) Science, Technology, and Gender (3) The role of women and gender in science, technology, and engineering.
Effective: Fall 2011

S T S 197 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

Effective: Spring 1995

Effective: Summer 1999

S T S 201 (GN) Climate Change, Energy, and Biodiversity (3) Studies of global warming, energy options, and biodiversity; their interrelations as sciences and as societal issues.
Effective: Summer 1994

S T S 201H (GN) Climate Change, Energy, and Biodiversity (3) Studies of global warming, energy options, and biodiversity; their interrelations as sciences and as societal issues.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

S T S 202 (GH;IL) Introduction to Disability Studies in the Humanities (3) Provides a humanities-based interdisciplinary introduction to Disability Studies.
Effective: Spring 2012 Ending: Fall 2012

S T S 230 (HIST 230, NUTR 230) American Food System: History, Technology, and Culture (3) A cultural analysis of the evolution of U.S. agricultural production and food consumption patterns, the food industry and food marketing.
Effective: Spring 1991

S T S 233 (GH) (PHIL 233) Ethics and the Design of Technology (3) Ethics and individual and group decision-making in the design of technology including design projects and specific attention to institutional ethics.
Effective: Spring 2004

S T S 235 (GH) Science and Religion (3) This course investigates the relationship between science and religion in multiple cultures.
Effective: Spring 2009
Prerequisite:

S T S 245 (GS;IL) Globalization, Technology, and Ethics (3) An investigation of technology and ethics in the globalized world from contemporary, socio-cultural, and historical perspectives.
Effective: Summer 2008

S T S 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1992

S T S 297 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1991

S T S 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

The Pennsylvania State University
S T S 327 (R SOC 327) **Natural Resources, Science, Ethics, and Society** (3) The purpose of this course is to enable students to become competent critical thinkers about the state of natural resources through greater understanding of scientific, discourse formation, and the ethical dimensions of natural resources issues.
Effective: Fall 2011

S T S 407 (PHIL 407) **Technology and Human Values** (3) Interrelationships of twentieth-century technological change and human values. Emphasis on the social and ethical aspects of technological progress.
Effective: Spring 1999
Prerequisite:

S T S 408 (COMM 408) **Cultural Foundations of Communications** (3) Examination of oral, scribal, print, industrial and electronic cultures; analysis of impact of technology on communications and social structure.
Effective: Spring 2009
Prerequisite:

S T S 416 (US;IL) (WMNST 416, AAA S 416) **Race, Gender and Science** (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.
Effective: Summer 2008 Ending: Fall 2012
Prerequisite:

S T S 416 (US;IL) (AF AM 416, WMNST 416) **Race, Gender and Science** (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

S T S 420 (EM SC 420, SOC 420) **Energy and Modern Society** (3) Technology and economics of energy resources, production, and consumption; environmental factors, exhaustion, new technology.
Effective: Spring 1991

S T S 427W (SOC 427W, CED 427W) **Society and Natural Resources** (3) Analysis of the relationship between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite:

S T S 428 (IL) (HIST 428) **The Darwinian Revolution** (3) The origins and implications of evolutionary theory.
Effective: Spring 2006
Prerequisite:

S T S 430 (IL) (NUTR 430) **Global Food Strategies: Problems and Prospects for Reducing World Hunger** (3) Technological, social, and political solutions to providing basic food needs; food resources, population, and the environment; current issues.
Effective: Summer 2005

S T S 432 (PHIL 432) **Medical and Health Care Ethics** (3) Examines ethical, political, and social issues in the research, implementation, and practice of medicine, medical technologies, and healthcare.
Effective: Fall 1998
Prerequisite:

S T S 433 (PHIL 433) **Ethics in Science and Engineering** (3) Ethical issues arising in the practice of science and engineering and their philosophical analysis.
Effective: Fall 1995

S T S 435 (PHIL 435) **The Interrelation of Science, Philosophy, and Religion** (3) The historical and transformative interactions between science and Western philosophical and religious views of nature, humanity, and God.
Effective: Spring 1996

S T S 457 (US;IL) (HIST 457, WMNST 457) **The History of Women in Science** (3) Critical analysis of the role women, gender, and minorities have played in the natural sciences.
Effective: Fall 2011
Prerequisite:

S T S 460 (PL SC 460) **Science, Technology, and Public Policy** (3) The all-pervasive importance of science and technology policy in modern societies and mechanisms and processes by which it is made.
Effective: Spring 1995
Prerequisite:

S T S 470 **Technology Assessment and Transfer** (3) Nature of technology assessment and technology transfer in product design and development process from federal and university labs, and internationally.
Effective: Summer 1996

S T S 476 **Technology and War** (3) A survey and analysis of the interaction of technology, ethics, and warfare in the past and present society.
Effective: Summer 2007

The Pennsylvania State University
S T S 490 Peace and Conflict Studies Seminar (3) Advanced study of major contemporary issues of peace and conflict; includes anthropological, technological, psychological, and economic perspectives.
Effective: Fall 1994 Ending: Fall 2012
Prerequisite:
S T S 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1992

S T S 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

S T S 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1991

S T S 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1991

S T S 498 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1992

S T S 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Security & Risk Analy (SRA)

SRA 001S First-Year Seminar in Security and Risk Analysis (1) Provides introduction to the field of Security and Risk Analysis and assessments of key skills.
Effective: Summer 2006

SRA 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2011

SRA 111 (GS) Introduction to Security and Risk Analysis (3) This introductory course spans areas of security, risk, and analysis covering contexts in government agencies and business organizations.
Effective: Spring 2008

SRA 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011

SRA 211 Threat of Terrorism and Crime (3) Provides overview of nature, scope, and seriousness of threats to security as a result of terrorism and crime.
Effective: Summer 2006
Prerequisite:

SRA 221 Overview of Information Security (3) Provides an understanding of the overview of information security including security architecture, access control, and internet secure applications.
Effective: Summer 2006
Prerequisite:

SRA 231 Decision Theory and Analysis (3) Provides an overview of decision theoretical and analytical concepts and tools in the security risk analysis field.
Effective: Summer 2006
Prerequisite:

SRA 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011

SRA 311 Risk Management: Assessment and Mitigation (3) Assessment and mitigation of security vulnerabilities for people, organizations, industry sectors, and the nation.
Effective: Summer 2006
Prerequisite:

SRA 321 The Role of Information and Intelligence (3) The Role of information and intelligence introduces students to the architecture and policies of the U.S. Intelligence Community (IC) and examines how U.S. intelligence policies and practices relate to overall U.S. foreign policy objectives and are influenced by today's global environment and emerging technologies. The course examines the users and processes of IC, participants of Competitive Intelligence, and comparative intelligence communities.
Effective: Summer 2011
Prerequisite:

SRA 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2011

SRA 397A Crisis Informatics (3) We will examine how technologies have played a role in saving lives; specifically technologies used toward emergency and disaster response.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SRA 397E Security Economics and Privacy Behaviors (3) Explore the economic incentives for security attacks and appropriate security defenses; apply methods from the economic and behavioral sciences to current privacy and security challenges.

SRA 397H Security Economics and Privacy Behaviors (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

SRA 433 Deception and Counterdeception (3) Deception tactics, technologies and procedures and approaches to
counterdeception analysis.
Effective: Summer 2011
Prerequisite:

SRA 468 Visual Analytics for Security Intelligence (3) Introduce visual analytic techniques for security informatics and intelligence. It covers analytical techniques on visualizing threats, risk, and vulnerability.
Effective: Spring 2008
Prerequisite:

SRA 471 Informatics, Risk, and the Post-Modern World (3) Provides in-depth study of how security informatics is influenced by the risk and post-modern culture.
Effective: Spring 2008
Prerequisite:

SRA 472 Integration of Privacy and Security (3) Exploration of technological, operational, organizational and regulatory issues related to maintenance of individual privacy, confidentiality of organizations, and information protection.
Effective: Spring 2008
Prerequisite:

SRA 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

SRA 497A Statistical Analysis for Information Sciences (3) Intermediate-level statistics course emphasizing understanding hypothesis testing and experimental design, a broad array of statistical techniques applied to data analysis, and computer tools to support testing and analysis; specifically applied to information sciences and technology applications.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SRA 497A Statistical Analysis for Information Sciences (3) Intermediate-level statistics course emphasizing understanding hypothesis testing and experimental design, a broad array of statistical techniques applied to data analysis, and computer tools to support testing and analysis; specifically applied to information sciences and technology applications.

SRA 497I Security and Risk Analysis Capstone (3) This culminating course offers a semester-long security and risk scenario featuring realistic security dilemmas requiring team collaboration and group solutions.
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Serbo-Croatian (S CR)

S CR 199 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

S CR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

S CR 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

S CR 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

S CR 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

S CR 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

S CR 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

S CR 499 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Slavic (SLAV)

SLAV 051 Elementary Intensive Slavic for Graduate Students I (3) Intensive introduction to a Slavic language: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural context. Effective: Summer 2008
Prerequisite:

SLAV 052 Elementary Intensive Slavic for Graduate Students II (3) Intensive introduction to a Slavic language: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite:

SLAV 053 Intermediate Intensive Slavic Language for Graduate Students (3) Continued intensive study of a Slavic language at the intermediate level: reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008
Prerequisite:

SLAV 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

SLAV 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

SLAV 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

SLAV 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

SLAV 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1983

SLAV 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1990

SLAV 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

SLAV 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996
Prerequisite:

SLAV 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

SLAV 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

SLAV 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007

SLAV 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1998

SLAV 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005
Social Science (SO SC)

SO SC 001 (GS) **Urbanization** (3) An overview of the social sciences, including an interdisciplinary analysis of the urban process.
Effective: Summer 1995

SO SC 297 **Special Topics** (1-9) Formal courses given infrequently to explore in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

SO SC 480W **Quantitative Methods in the Social Sciences** (4) Students will learn to conduct, analyze and write up quantitative social scientific research according to appropriate professional standards.
Effective: Spring 2008
Prerequisite:

SO SC 481 **Qualitative Research Methods in the Social Sciences** (4) Students will learn how to conduct, analyze and write up qualitative social research according to appropriate professional standards.
Effective: Spring 2008
Prerequisite:

SO SC 492 **Current Topics in the Social Sciences** (3) This course allows for various current topics to be offered as suitable to the needs of the program.
Effective: Spring 2008
Prerequisite:

SO SC 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2008

SO SC 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2008

Last Import from UCM: June 2, 2012 12:27 PM
Social Studies Education (SS ED)

Prerequisite:

SS ED 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

SS ED 411 **Teaching Secondary Social Studies I** (3) Methods for teaching social studies in secondary grades; nature of social studies, content and learning outcomes, instructional strategies and planning. Effective: Fall 2011
Prerequisite:

SS ED 412W **Teaching Secondary Social Studies II** (3) Writing-intensive course focusing on study of the social studies teacher's role in planning instruction; strategies for teaching. Effective: Summer 2010
Prerequisite: Concurrent: C I 412W

SS ED 430W **Teaching Social Studies in the Elementary Grades** (3) Principles underlying use of social studies in the elementary school; practical demonstration of desirable methods. Effective: Spring 2007
Prerequisite: Concurrent: SCIED 458 C I 495A OR C I 495B; MTHED 420

SS ED 470 **Issues in Social Studies Education** (1-6) Concentration on particular issues, trends, and developments in the social studies. Effective: Winter 1978
Prerequisite:

SS ED 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983

SS ED 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983

SS ED 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1992

SS ED 498A **AP World History** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

SS ED 498B **AP US Government & Politics** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

SS ED 498C **AP US History** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Sociology (SOC)

SOC 001 (GS) **Introductory Sociology** (3) The nature and characteristics of human societies and social life. Students may take only one course for General Education credit from SOC 001 GS or R SOC 011 GS. Effective: Spring 2003

SOC 001H (GS) **Introductory Sociology** (3) The nature and characteristics of human societies and social life. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 001S (GS) **Introductory Sociology** (3) The nature and characteristics of human societies and social life. Effective: Spring 2006

SOC 001W (GS) **Introductory Sociology** (3) The nature and characteristics of human societies and social life. Effective: Fall 1998

SOC 003 (GS) **Introductory Social Psychology** (3) The impact of the social environment on perception, attitudes, and behavior. Effective: Spring 2003

SOC 003H (GS) **Honors Introduction to Social Psychology** (3) This is an honors course that enables students to learn, apply, and evaluate basic social psychology concepts, theories, and research. Effective: Summer 2011

SOC 005 (GS) **Social Problems** (3) Current social problems such as economic, racial, and gender inequalities; social deviance and crime; population, environmental, energy, and health problems. Effective: Spring 2003

SOC 007 **Introduction to Social Research** (3) Fundamental concepts and problems in social science research; design, measurement, sampling, causation, validity, interpretation. Effective: Spring 2001

SOC 012 (GS) (CRIMJ 012, CRIM 012) **Criminology** (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes. Effective: Spring 2008

SOC 012H (GS) (CRIM 012H) **Criminology** (3) Explanations and measurement of crime; criminal law; characteristics of criminals and victims; violent, property, white-collar, organized, and sexual crimes. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 013 (GS) (CRIMJ 013) **Juvenile Delinquency** (3) Juvenile conduct, causes of delinquency, current methods of treatment; organization and function of agencies concerned with delinquency. Effective: Spring 2008

SOC 015 (GS) **Urban Sociology** (3) City growth and decline; impact of city life on individuals, families, neighborhoods, and government; urban life-styles. Effective: Summer 1995

SOC 023 (GS) **Population and Policy Issues** (3) Local, national, and international population trends; basic techniques of demographic analysis; population problems; implications for public planning and policy. Effective: Fall 2004

SOC 030 (GS) **Sociology of the Family** (3) Family structure and interaction; functions of the family as an institution; cross-cultural comparisons. Students may take only one course for General Education credit from SOC 030 or HD FS 129. Effective: Spring 2003

SOC 030H (GS) **Sociology of the Family** (3) Family structure and interaction; functions of the family as an institution; cross-cultural comparisons. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 035 Sociology of Aging (3) Introduction to the sociological study of aging. Effective: Spring 2000

SOC 047 (S T S 047) Wilderness, Technology, and Society (3) Impact of developments in science, literature, and art on changing attitudes toward nature; consequences for conservation, preservation, environmental ethics. Effective: Fall 1983

SOC 060 (GS;IL) (ANTH 060, J ST 060, PL SC 060) Society and Cultures in Modern Israel (3) An introduction to the society and cultures of the State of Israel from 1948 to the present. Effective: Summer 2006

SOC 109 Sociological Perspectives (3) Intensive and critical analysis of the bases of the social order, change, values, knowledge, and conflict. Effective: Spring 2001

SOC 110 (GS;US) (WMNST 110) Sociology of Gender (3) Changing sex role expectations and behavior for men and women in contemporary society. Effective: Summer 2005

SOC 119 (GS;US) Race and Ethnic Relations (4) Historical patterns and current status of racial and ethnic groups; inequality, competition, and conflict; social movements; government policy. Effective: Summer 2005

SOC 174 Psychological and Sociological Aspects of Death (3) An introductory, interdisciplinary approach to the psychology and sociology of death, stressing the significance of, and attitudes toward, mortality. Effective: Spring 2001

SOC 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

SOC 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2010

SOC 207 Research Methods in Sociology (3) Experiential-based course covering the four main social research methods: available data, survey research, experiments, and field research. Effective: Spring 2001

Prerequisite:

SOC 209 (GS;IL) (AAA S 209) Poverty in Africa (3) The course examines the causes, consequences, and dynamics of poverty in African countries. Effective: Summer 2012
SOC 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

SOC 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which will fall outside the scope of formal courses.
Effective: Fall 1983

SOC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

SOC 297A Sociology of Pop Culture (3) This course explores the production and consumption of popular culture, its meanings, and political consequences from different sociological perspectives.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 297B International Dialogues (3) Besides international video dialogues, we will use news sources, films and guest lectures to explore issues from multiple perspectives.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be taught in one year or semester.
Effective: Spring 1995

SOC 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2007

SOC 300 Preceptorship in Sociology (1-8, maximum of 4 per semester) Supervised experience as a teaching assistant under the supervision of an approved faculty member.
Effective: Spring 2003
Prerequisite:

SOC 309 Sociology of Health (3) Sociological concepts and principles operative in public and private areas of health and illness, including cultural, ethnic, and ecological factors.
Effective: Spring 2001
Prerequisite:

SOC 381H Junior Honors Seminar in Sociology (1) Supervised experience in planning the honors thesis and a sociological career.
Effective: Spring 1999
Prerequisite:

SOC 395 Internship (1-6) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required.
Effective: Fall 1981
Prerequisite:

SOC 400W Senior Research Seminar (3) Major concepts and principles of sociology through reading, data analysis, and writing. Capstone course for senior Sociology majors.
Effective: Fall 2001
Prerequisite:

SOC 403 Advanced Social Psychology (3) Analysis of the major theoretical approaches and research findings of contemporary social psychology.
Effective: Fall 1983
Prerequisite:

SOC 404 Social Influence and Small Groups (3) The study of social influence, leadership and status, and social cohesion and commitment processes in small groups.
Effective: Spring 2007
Prerequisite:

SOC 405 Sociological Theory (3) Overview of the development of sociological theory; current issues and controversies.
Effective: Spring 2001
Prerequisite:

SOC 406 (CRIMJ 406, CRIM 406) Sociology of Deviance (3) Theory and research concerning deviant behaviors and lifestyles viewed as significant departures from a group's normative expectations.
Effective: Spring 2008
Prerequisite:

SOC 408 Urban Ecology (3) Spatial and temporal aspects of urban structure; urban growth, neighborhoods, racial and ethnic groups, mental illness; cross-cultural perspectives.
Effective: Fall 1983
Prerequisite:
SOC 409 (US) (AAA S 409) **Racial and Ethnic Inequality in America** (3) The impact of inequality and discrimination on individual and group identity among various racial and ethnic groups.
Effective: Summer 2005 Ending: Summer 2012
Prerequisite:
SOC 409 (US) (AF AM 409) **Racial and Ethnic Inequality in America** (3) The impact of inequality and discrimination on individual and group identity among various racial and ethnic groups.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:
SOC 411 (US) (HD FS 416) **Racial and Ethnic Diversity and the American Family** (3) This course will explore the nature and determinants of racial and ethnic variation in family processes in the United States.
Effective: Spring 2005
Prerequisite:
SOC 412 (CRIMJ 412, CRIM 412) **Crime, Social Control, and the Legal System** (3) Legal and extralegal control; public opinion on crime; criminal justice and correctional processes; legal sanctions; control strategies. Field trip.
Effective: Spring 2008
Prerequisite:
SOC 413 (CRIM 413, CRIMJ 413) **Advanced Criminological Theory** (3) This course provides an in-depth look at theories of crime and examines influential empirical studies designed to these theories.
Effective: Spring 2008
Prerequisite:
SOC 414 (CRIMJ 414, CRIM 414) **Criminal Careers and the Organization of Crime** (3) Research on and theory of criminal careers and crime organizations, emphasizing recruitment and disengagement; offender characteristics and life-styles; policy implications.
Effective: Spring 2008
Prerequisite:
SOC 416 (US) (EDTHP 416) **Sociology of Education** (3) The theoretical, conceptual, and descriptive contributions of sociology to education.
Effective: Spring 2006
Prerequisite:
SOC 419 (US) **Race and Public Policy** (3) Seminar format course in which sociological theory and research are applied to current race policy issues.
Effective: Spring 2006
Prerequisite:
SOC 420 (EM SC 420, S T S 420) **Energy and Modern Society** (3) Technology and economics of energy resources, production, and consumption; environmental factors, exhaustion, new technology.
Effective: Spring 2001
Prerequisite:
SOC 422 **World Population Diversity** (3) Survey of world diversity in national population growth/composition; the impacts of demographic change on the economic/social life of nations/peoples.
Effective: Spring 2001
Prerequisite:
SOC 423 **Social Demography** (3) Social demographic perspectives on fertility, mortality, morbidity, migration, population density, demographic transitions, social mobility, family, the aged, and minorities.
Effective: Spring 2001
Prerequisite:
SOC 424 **Social Change** (3) Critical review of classical and recent theories of social change, emphasizing the transformations occurring in the modern world.
Effective: Fall 1983
Prerequisite:
SOC 425 **Social Conflict** (3) An analysis of the variables affecting intergroup and international conflict and cooperation.
Effective: Fall 2007
Prerequisite:
SOC 427W (CED 427W, S T S 427W) **Society and Natural Resources** (3) Analysis of the relationships between societal development and enhancement and natural resources.
Effective: Summer 2008
Prerequisite:
SOC 428 **Homelessness in America** (3) Survey of social science research on homelessness in the contemporary United States.
Effective: Spring 2001
Prerequisite:
SOC 428H **Homelessness in America** (3) Survey of social science research on homelessness in the contemporary United States.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:
SOC 429 Social Stratification (3) Structure and dynamics of class, caste, and status systems; class differentials and social mobility; current theoretical and methodological issues. Effective: Winter 1978
Prerequisite:

SOC 430 Family in Cross-Cultural Perspective (3) Sociological analysis of family systems in various cultures and subcultures. Effective: Spring 2001
Prerequisite:

SOC 431 (HD FS 431) Family Disorganization: Stress Points in the Contemporary Family (3) Focuses on divorce, remarriage, incest, family violence as well as problems associated with family formation and parent-child relations. Effective: Spring 1994
Prerequisite:

SOC 432 Social Movements (3) Why and how people mobilize to promote or retard social change. Factors predicting success or failure of social movements. Effective: Fall 1983
Prerequisite:

SOC 435 (HD FS 434) Perspectives on Aging (3) An analysis of the demographic, social, and cultural factors affecting the aged population in American society. Effective: Fall 2007
Prerequisite:

Prerequisite:

Prerequisite:

SOC 446 Political Sociology (3) Sociological analysis of types of political organization and their relations with other elements of social life. Effective: Winter 1978
Prerequisite:

SOC 448 Environmental Sociology (3) Examination of the relationship between the physical environment and society. Effective: Fall 2007
Prerequisite:

SOC 449 Environmental Movements (3) Comparative exploration of environmental movements within the context of classical and new social movement theory. Effective: Fall 2007
Prerequisite:

SOC 450 Justice and the Environment (3) Considers notions of justice in relation to environmental philosophy, environmental movements, and general environmental concerns. Effective: Fall 2007
Prerequisite:

SOC 454 (US) The City in Postindustrial Society (3) Postindustrial social organization in the United States and Europe; consequences for metropolitan social stratification, community power, and environmental quality. Effective: Spring 2006
Prerequisite:

SOC 455 Work and Occupations (3) Work and occupational life in modern society; work in the past, present, and future. Effective: Fall 1983
Prerequisite:

Prerequisite:

SOC 457 (US;IL) (ANTH 457, J ST 457) Jewish Communities: Identity, Survival, and Transformation in Unexpected Places (3) Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement. Effective: Summer 2006
Prerequisite:

Prerequisite:

SOC 467 (CRIM 467, CRIMJ 467) Law and Society (3) Law and society studies the social origins of law and legal systems; occupational careers, and decision-making of legal officials.

The Pennsylvania State University
Effective: Spring 2008
Prerequisite:
SOC 468 Mood-Altering Substances in Society (3) Perspectives of cultures throughout the world toward mood-altering substances are reviewed in light of public policy, benefits, and problems.
Effective: Fall 2007

SOC 469 Techniques in Small Group Facilitation (1-4 per semester/maximum of 12) This course is the training course for students working as facilitators with the Race Relations Project.
Effective: Summer 2010
Prerequisite:
SOC 470 Intermediate Social Statistics (4) Descriptive and inferential statistics in social research: central tendency and variation, normal distribution, measures of association, confidence intervals, hypothesis testing.
Effective: Fall 2001
Prerequisite:
SOC 471 Qualitative Research Methods in Sociology (3) Theory, methods, and practice of qualitative data collection, including observation, participant observation, interviewing; supervised projects in natural settings.
Effective: Spring 2001
Prerequisite:
SOC 481H Senior Honors Seminar in Sociology (1) Supervised experience in planning and writing the honors thesis.
Effective: Spring 1999
Prerequisite:
SOC 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994
SOC 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

SOC 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2000
Prerequisite:
SOC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

SOC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

SOC 497A 1% vs 99%: Class Inequality in the USA (3) This course will explore past and present class inequalities; class struggles in U.S. history; the recent demise of the middle class; and other topics.
Effective: Summer 2012 Ending: Summer 2012

SOC 497A The Sociology of Mental Health (3) This class focuses on social origins of mental health and illness, with an emphasis on gender, race/ethnicity and socioeconomic status.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 497B Health, Disease and Society (3) This course will emphasize the critical role social factors play in influencing health and disease in individuals, groups and society.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 497C Formal Organizations in Modern Society (3) A review of the rapid expansion of formal organizations in modern America.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 497D Cultural Awareness in the Classroom (1) Participants will be taught awareness of basic cultural differences and their effect on communities and expectations in the classroom, workplace, and society.
Effective: Summer 2012 Ending: Summer 2012

SOC 497D (EDTHP 497D) Sociology of Family, Community, and Education (3) This course uses sociological research to examine the roles of families, communities and the educational system in American society.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
SOC 497H History of the Family (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SOC 499 (IL) Foreign Study--Sociology (2-6) Study, in selected foreign countries, of groups, institutions, and social problems.
Effective: Summer 2005
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Sociology-CI (SOCIO)

SOCIO 476 Sociology of Science and Technology (3) Examines the constitutive relationship between society, science and technology and ethical concerns arising from these relationships.
Effective: Spring 2003
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Software Engineering (SWENG)

SWENG 295 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

SWENG 311 Object-Oriented Software Design and Construction (3) Design, documentation, testing, and construction of software using software engineering strategies embodied in object-oriented programming languages.
Effective: Spring 2008
Prerequisite:

SWENG 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:

SWENG 396 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2010

SWENG 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2010

SWENG 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2010

SWENG 400 Introduction to Software Engineering Studio (3) Provides an introduction to the principles of software engineering and includes complementary instruction in one programming language.
Effective: Summer 1999
Prerequisite:

SWENG 411 Software Engineering (3) Software engineering principles including life cycle, dependability, process modeling, project management, requires specification, design analysis, implementation, testing, and maintenance.
Effective: Spring 2008
Prerequisite: Concurrent: SWENG 311

SWENG 421 Software Architecture (3) The analysis and design of software systems using canonical design patterns.
Effective: Summer 2008
Prerequisite:

SWENG 431 Software Verification, Validation, and Testing (3) Introduction to methods of software verification, validation, and testing; mathematical foundations of testing, reliability models; statistical testing.
Effective: Spring 2008
Prerequisite:

SWENG 452W Embedded Real Time Systems (3) The design and implementation of real time systems.
Effective: Summer 2008
Prerequisite:

SWENG 465 Web Services (3) This course introduces the students to a contemporary computing paradigm called "service-oriented computing."
Effective: Spring 2011
Prerequisite:

SWENG 480 Software Engineering Design (3) Concepts of engineering ethics, economy, and project management, senior capstone project selection, and technical communication skills.
Effective: Spring 2009
Prerequisite:

SWENG 481 Software Engineering Project (3) Capstone group design projects in software engineering.
Effective: Spring 2008
Prerequisite:

SWENG 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 2010

SWENG 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 2008
Prerequisite:
SWENG 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Summer 2010

SWENG 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1999

SWENG 497A Software Integration (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

SWENG 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2010

Last Import from UCM: June 2, 2012 12:27 PM
**Soil Science (SOILS)**

- **SOILS 071 (GN;IL) Environmental Sustainability (3) An introduction to environmental science, exploring sustainable human-environment interactions with examples from environmental soil science.**
  - Effective: Spring 2007

- **SOILS 101 (GN) Introductory Soil Science (3) A study of soil properties and processes and relationships to land use, plant growth, environmental quality, and society.**
  - Effective: Spring 2011

- **SOILS 102 Introductory Soil Science Laboratory (1) Laboratory exercise and field trips designed to develop student competency in soil description, analysis, and assessment.**
  - Effective: Summer 2010
  - Prerequisite: Concurrent: SOILS 101

- **SOILS 190 Professional Development in Environmental Soil Science (1) Development of learning goals and an introduction to faculty and alumni contacts, student portfolios, the senior thesis, and internship opportunities.**
  - Effective: Summer 1999

- **SOILS 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.**
  - Effective: Spring 2006

- **SOILS 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.**
  - Effective: Spring 2006

- **SOILS 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.**
  - Effective: Spring 2007

- **SOILS 401 Soil Composition and Physical Properties (3) Advanced study of mineralogical and physical properties of soils which affect soil-plant-water relationships.**
  - Effective: Spring 2001

- **SOILS 402 Soil Nutrient Behavior and Management (3) Chemical and biological behavior of soil nutrients; management for plant availability and fate in the environment. Laboratory emphasizes soil testing and soil-plant relationships.**
  - Effective: Spring 2009

- **SOILS 403 Soil Morphology Practicum (2 per semester/maximum of 4) Students develop field skills to describe soil morphology, classify soils, and make land use interpretations.**
  - Effective: Spring 2011

- **SOILS 404 Urban Soils (3) This course introduces the student to natural and human-influenced soils.**
  - Effective: Summer 2010

- **SOILS 405 (GEOSC 405) Hydropedology (3) Soil and water interactions across scales, integrated studies of landscape-soil-water relationships, fundamental processes of water flow and chemical transport.**
  - Effective: Spring 2008

- **SOILS 412W Soil Ecology (3) Introduction to soil organisms; includes interactions between organisms, their processes, and metabolism with a major focus on microorganisms.**
  - Effective: Spring 2008

- **SOILS 416 Soil Genesis, Classification, and Mapping (4) Lecture and laboratory course on the genesis of soils, their classification, mapping, and interpretation for land use.**
  - Effective: Fall 2011

- **SOILS 418 (AGECO 418, AN SC 418) Nutrient Management in Agricultural Systems (3) Comprehensive review of nutrient flow in animal agricultural systems, environmental regulations, and environmental stewardship practices.**
  - Effective: Summer 2003

- **SOILS 419 (GEOSC 418) Soil Environmental Chemistry (3) Introduction to chemical constituents and processes occurring**

The Pennsylvania State University
in soils. Topics include mineral weathering, soil solution chemistry and adsorption of solutes.

Effective: Summer 2007
Prerequisite:

SOILS 420 Remediation of Contaminated Soils (3) Basic principles and technical aspects of remediation of contaminated soils.
Effective: Summer 2007 Ending: Summer 2012
Prerequisite:

SOILS 420 Remediation of Contaminated Soils (3) Basic principles and technical aspects of remediation of contaminated soils.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

SOILS 422 Natural Resources Conservation and Community Sustainability (3) Conservation, land-use, and community (soil, water, air, plants, animals, and humans) impacting quality of life and sense of place.
Effective: Spring 2006
Prerequisite:

SOILS 450 Environmental Geographic Information Systems (3) Use of geographic information systems (GIS) and digital spatial databases to characterize landscapes for environmental assessment and management.
Effective: Summer 1999
Prerequisite:

SOILS 489 Supervised Experience in College Teaching (1-3) Participate with instructors in teaching an undergraduate soil science course; assist with teaching and evaluation and with development of instructional materials.
Effective: Summer 1993
Prerequisite:

SOILS 490 (AGRO 490) Colloquium (1) Continuing written and oral presentations developed by students in consultation with the course instructor.
Effective: Fall 1993
Prerequisite:

SOILS 494 Senior Thesis (1-6) Supervised data collection and analysis on a topic of interest to the student culminating in a formal thesis.
Effective: Spring 2000
Prerequisite:

SOILS 494H Senior Thesis (1-6) Supervised data collection and analysis on a topic of interest to the student culminating in a formal thesis.
Effective: Fall 2007
Prerequisite:

SOILS 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1990
Prerequisite:

SOILS 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1990

SOILS 497 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1990

SOILS 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Spring 2012

Last Import from UCM: June 2, 2012 12:27 PM

The Pennsylvania State University
Spanish (SPAN)

SPAN 001 Elementary Spanish I (4) Audio-lingual approach to basic Spanish; writing. Students who have received high school credit for two or more years of Spanish may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985

SPAN 001H Elementary Spanish I (4) Audio-lingual approach to basic Spanish; writing. Students who have received high school credit for two or more years of Spanish may not schedule this course for credit, without the permission of the department.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SPAN 002 Elementary Spanish II (4) Audio-lingual approach to basic Spanish continued; writing. Students who have received high school credit for four years of Spanish may not schedule this course for credit, without the permission of the department.
Effective: Fall 1985
Prerequisite:

SPAN 002H Elementary Spanish II (4) Audio-lingual approach to basic Spanish continued; writing. Students who have received high school credit for four years of Spanish may not schedule this course for credit, without the permission of the department.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

SPAN 003 Intermediate Spanish (4) Audio-lingual review of structure; writing; reading.
Effective: Fall 1985
Prerequisite:

SPAN 010 Intensive Spanish (6) Basic Spanish grammar, oral, aural, and writing skills (essentially equivalent to SPAN 001 and first half of SPAN 002).
Effective: Fall 1988

SPAN 020 Intensive Spanish (6) Basic and intermediate Spanish grammar, oral, aural, and writing skills (essentially equivalent to second half of SPAN 002 and all of SPAN 003).
Effective: Fall 1988
Prerequisite:

SPAN 051 Elementary Intensive Spanish for Graduate Students I (3) Intensive introduction to Spanish: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SPAN 052 Elementary Intensive Spanish for Graduate Students II (3) Intensive introduction to Spanish: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SPAN 053 Intermediate Intensive Spanish for Graduate Students (3) Continued intensive study of Spanish at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SPAN 083S (GH;IL) First-Year Seminar in Hispanic Literatures and Cultures (3) Introduction to the study of Hispanic literatures and cultures.
Effective: Summer 2005

SPAN 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

SPAN 100 Intermediate Grammar and Composition (3) An intermediate level grammar review that also incorporates directed and original composition exercises.
Effective: Summer 1996
Prerequisite:

SPAN 100A Intermediate Grammar and Composition for Spanish Bilinguals (3) A review of grammar and practice with composition focusing on needs and problems specific to Spanish-speaking bilinguals.
Effective: Spring 1996
Prerequisite:

SPAN 105 Spanish for Students in the field of Agricultural Sciences (4) Develop communication skills and cultural awareness to assist and work with Hispanics whose first and sometimes only language is Spanish.
SPAN 106 Spanish for the Agricultural Industries (4) Further development of the communication skills and the cultural awareness needed to assist and work with Spanish speaking employees in the agricultural industries. Effective: Summer 2008
Prerequisite:

SPAN 110 Intermediate Conversation (3) Practice in oral expression in Spanish, with emphasis on aural comprehension, idiomatic usage, and fluency. Use of journalistic materials. Effective: Winter 1978
Prerequisite:

SPAN 120 Intermediate Reading (3) Emphasis on rapid reading comprehension. Selected readings from contemporary Hispanic literature, social sciences, current events, etc. Effective: Winter 1978
Prerequisite:

SPAN 130 (GH;IL) Iberian Civilization (3) Spanish and Portuguese life from the medieval period to the present; literature, the arts, and contemporary problems in historical perspective. Effective: Spring 2006

SPAN 131 (GH;US;IL) Ibero-American Civilization (3) Spanish American and Brazilian life from the Conquest to the present; literature, art, the indigenous heritage, and contemporary problems. Effective: Summer 2005

SPAN 131 Y (GH;US;IL) Ibero-American Civilization (3) Spanish American and Brazilian life from the Conquest to the present; literature, art, the indigenous heritage, and contemporary problems. Effective: Summer 2005

SPAN 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

SPAN 199 (IL) Foreign Study--Beginning Conversational Spanish (3) Grammar review and practice in oral expression and aural comprehension. Effective: Summer 2005

Prerequisite:

SPAN 210 Readings in Iberian Civilization (3) Intermediate level Spanish readings dealing with Iberian life from pre-historic times to the present. Effective: Spring 1993
Prerequisite:

SPAN 215 Introduction to Spanish Linguistics (3) Introduction to the fundamental components of linguistics using data from the Spanish language. Effective: Summer 2006
Prerequisite:

SPAN 220 Readings in Ibero-American Civilization (3) Intermediate level Spanish readings dealing with Ibero-American life from the pre-conquest to the present. Effective: Spring 1992
Prerequisite:

SPAN 230 (GH) Masterpieces of Spanish Literature in English Translation (3) Study of works and authors of international importance; lectures, readings, and written works in English. Effective: Spring 2003

SPAN 231 (GH;IL) Masterpieces of Spanish American Literature in English Translation (3) Emphasis on works and authors of international importance. Lectures, readings, and written work in English. Effective: Summer 2005
SPAN 253W Introduction to Hispanic Literature (3) Introduction to generic distinctions, critical methods, and approaches to Hispanic literature.
Effective: Spring 2008
Prerequisite:

SPAN 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

SPAN 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

SPAN 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

SPAN 299 (IL) Foreign Study--Intermediate Conversational Spanish (3) Grammar review and practice in oral expression and aural comprehension.
Effective: Summer 2005

SPAN 300 Advanced Grammar and Composition Through Reading (3) Development of advanced grammar and composition skills through reading texts by native speakers and adapting their techniques for original compositions.
Effective: Spring 2008 Ending: Fall 2012
Prerequisite:

SPAN 301 Advanced Writing and Stylistics in Spanish for Spanish Speakers (3) This course will enhance writing proficiency in Spanish of Spanish speaking students by targeting common problems characteristic of Spanish speakers.
Effective: Spring 2008
Prerequisite:

SPAN 305 Spanish for Social Services (3) Practical Spanish for social workers, medical personnel, law enforcement officers, etc.; emphasis on Puerto Rican vocabulary, idiom, and pronunciation.
Effective: Spring 2001
Prerequisite:

SPAN 315 (GH;US) (LTNST 315) Spanish and Spanish-speakers in the U.S. (3) In this course, we investigate various aspects of the language(s) and language behaviors of U.S. Latinos.
Effective: Summer 2006

SPAN 326 (GH;US) Reading the Border/Lands (3) This course examines representations of the U.S.-Mexico border in relation to the actual geographic space.
Effective: Summer 2011

SPAN 353 Survey of Spanish Literature before 1700 (3) Selected major works of prose, poetry, and drama from the Middle Ages to the end of the seventeenth century.
Effective: Spring 2008
Prerequisite:

SPAN 354 Survey of Spanish Literature Since 1700 (3) Selected major works of prose, poetry, and drama from the eighteenth century to the present.
Effective: Spring 2008
Prerequisite:

SPAN 355 Survey of Spanish American Literature through "Modernismo" (3) Selected major works of prose, poetry, and drama from the discovery through "modernismo".
Effective: Spring 2008
Prerequisite:

SPAN 356 Survey of Spanish American Literature after "Modernismo" (3) Historical survey of the major figures and periods in Spanish American literature after "modernismo".
Effective: Spring 2008
Prerequisite:

SPAN 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:
SPAN 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1999

SPAN 399 (IL) **Foreign Study--Spanish** (1-12) Advanced training in Spanish language skills.
Effective: Summer 2005
Prerequisite:

SPAN 410 **Advanced Oral Expression and Communication** (3) Emphasis on achieving practical command of spoken Spanish and the comprehension of native speech. Use of journalistic materials.
Effective: Fall 1995
Prerequisite:

SPAN 412 **Translation** (3) Techniques of oral and written translation from Spanish to English and vice versa, particularly for business, literature, and social work.
Effective: Spring 2008
Prerequisite:

SPAN 413 **Interpretation** (3) Introduction to the art of interpretation, with particular attention to the professions for which it is most commonly required.
Effective: Summer 2012
Prerequisite:

SPAN 414 **Spanish Phonology** (3) Spanish phonetics and phonemics; systematic means of correcting pronunciation defects; other audio-lingual applications.
Effective: Spring 2001 Ending: Fall 2012
Prerequisite:

SPAN 414 **Spanish Phonology** (3) Spanish phonetics and phonemics; systematic means of correcting pronunciation defects; other audio-lingual applications.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

SPAN 415 **Spanish Morphology and Syntax** (3) The Spanish grammatical system; analysis of morphemic units and their organization into syntactic structures.
Effective: Spring 2001 Ending: Fall 2012
Prerequisite:

SPAN 415 **Spanish Morphology and Syntax** (3) The Spanish grammatical system; analysis of morphemic units and their organization into syntactic structures.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

SPAN 418 **The Evolution of Spanish** (3) The emergence and development of the sounds and forms of Spanish.
Effective: Spring 1995 Ending: Fall 2012
Prerequisite:

SPAN 418 **The Evolution of Spanish** (3) The emergence and development of the sounds and forms of Spanish.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

SPAN 420 **Spanish for Business and International Trade** (3) Introduction to the Spanish of international business and to the social and cultural norms of negotiation in Spanish-speaking countries.
Effective: Spring 2008
Prerequisite:

SPAN 439 **Don Quijote** (3) Thorough study of the masterpiece, including its sources, genesis, language, style, success, and influence.
Effective: Spring 2008 Ending: Fall 2012
Prerequisite:

SPAN 439 **Don Quijote** (3) Thorough study of the masterpiece, including its sources, genesis, language, style, success, and influence.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

SPAN 440 **Teaching of Romance Languages** (3) Theories of second language acquisition. Current classroom practices in the teaching of Romance languages.
Effective: Spring 2001
Prerequisite:

SPAN 472 **The Contemporary Spanish American Novel** (3) The regionalist and social novel since 1910, together with the social background.
Effective: Spring 2008 Ending: Fall 2012
Prerequisite:

SPAN 472 **The Contemporary Spanish American Novel** (3) The regionalist and social novel since 1910, together with the social background.
Effective: Spring 2013 Future: Spring 2013

The Pennsylvania State University
Prerequisite:
SPAN 476 Masterpieces of Spanish American Literature (3) Reading, analysis, and discussion of selected major works representative of Spanish American prose and poetry. Effective: Spring 2008 Ending: Fall 2012
Prerequisite:
SPAN 476 Masterpieces of Spanish American Literature (3) Reading, analysis, and discussion of selected major works representative of Spanish American prose and poetry. Effective: Spring 2013 Future: Spring 2013
Prerequisite:
SPAN 490 Masterpieces of Spanish Prose (3) Reading, analysis, and discussion of selected masterpieces of Spanish novels, short stories, etc. Effective: Spring 2008 Ending: Fall 2012
Prerequisite:
SPAN 490 Masterpieces of Spanish Prose (3) Reading, analysis, and discussion of selected masterpieces of Spanish novels, short stories, etc. Effective: Spring 2013 Future: Spring 2013
Prerequisite:
SPAN 491 Masterpieces of Spanish Drama and Poetry (3) Reading, analysis, and discussion of selected masterpieces of Spanish drama and poetry. Effective: Spring 2008 Ending: Fall 2012
Prerequisite:
SPAN 491 Masterpieces of Spanish Drama and Poetry (3) Reading, analysis, and discussion of selected masterpieces of Spanish drama and poetry. Effective: Spring 2013 Future: Spring 2013
Prerequisite:
SPAN 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994
SPAN 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Fall 2007
Prerequisite:
SPAN 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Fall 1983
SPAN 496A Bilingual Research Experience (1-3) Research in Center of Language Science including running participants and setting up experiments. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
SPAN 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Fall 1983
SPAN 497A Spanish for Health Care Providers (1) Beginning level course designed for healthcare providers working with Spanish speaking families who are unable to communicate effective in English. Effective: Summer 2012 Ending: Summer 2012
SPAN 499 (IL) Foreign Study--Spanish (1-12) Contemporary Spanish life and civilization. Emphasis on post-Civil War period: literature, arts, and sociopolitical problems. Effective: Summer 2005 Prerequisite:

The Pennsylvania State University
Special Education (SPLED)

SPLED 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 2011

SPLED 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

SPLED 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2011

SPLED 395W Observing in Exceptional Settings (3) Observations of exceptional persons and techniques used by their teachers in a variety of settings, e.g., school, day care, vocational.
Effective: Summer 2011
Prerequisite: Concurrent: SPLED 425

SPLED 400 Inclusive Special Ed Foundations: Legal, Characteristics, Collaboration, Assessment, and Management (4) Legal issues, learner characteristics, collaboration skills, assessment, and behavior management related to educating students with disability in inclusive settings.
Effective: Summer 2011
Prerequisite:

SPLED 401 Motivating Exceptional Learners (4) Group and individual techniques to promote student task engagement and prosocial behavior.
Effective: Summer 2011
Prerequisite:

SPLED 402 Human Rights: Historical and Current Issues in Special Education (3) Litigation, legislation, regulation, and advocacy issues impacting on educational and related services for individuals with academic and/or physical disabilities.
Effective: Summer 2011
Prerequisite:

SPLED 403A Evidence-Based Instruction for Elementary Students with Disabilities in Reading, Math, and Writing (3) Evidence-based methods for design, delivery, and adoption of instruction for elementary students with disabilities in reading, mathematics, and writing.
Effective: Summer 2011
Prerequisite:

SPLED 403B Evidence-Based Methods for Teaching Secondary Students with Disabilities in Inclusive Settings (3) Evidence-based methods for designing, delivering, and adapting instruction for students with disabilities in inclusive secondary education settings.
Effective: Summer 2011
Prerequisite:

SPLED 404 Working with Families and Professionals in Special Education (3) Strategies for productive interactions between special educators and others such as colleagues, employers, parents, service providers, professionals, and students.
Effective: Summer 2011
Prerequisite:

SPLED 408 (EDPSY 408) Meeting Instructional Needs of English Language Learners with Special Needs (3) The course content and activities focus on instruction and assessment for English Language Learners with special needs.
Effective: Summer 2011
Prerequisite:

SPLED 409A Fundamental Literacy Skills for Students with Special Needs (3) Effective reading curriculum and teaching methods to teach students with special needs.
Effective: Summer 2011
Prerequisite: Concurrent: SPLED 495G

SPLED 409B Writing and Content Literacy for Students with Special Needs (3) Effective curriculum and materials for teaching writing and content literacy to students with special needs.
Effective: Summer 2011
Prerequisite: Concurrent: SPLED 495G

SPLED 409C Mathematics Instruction for Students with Special Needs (3) Research-based practices for teaching mathematics skills to students with special needs.
Effective: Summer 2011
Prerequisite: Concurrent: SPLED 495G
SPLED 411 Intervention for Students with Severe Disabilities (3) Assessment, teaching strategies, curricula, materials, and assistive techniques for use with individuals having severe disabilities (mental and physical). Effective: Summer 2011
Prerequisite: Concurrent: a grade of C or better in SPLED 495E

SPLED 412 Instruction for Students with Mild Disabilities (4) Appropriate teaching strategies, curriculum sequences, and materials selection and evaluation for children with mild special needs. Effective: Summer 2011
Prerequisite: Concurrent: a grade of C or better required in SPLED 454

SPLED 415 Early Special Education (3-4) Includes early identification methods, assessment, curricula, parent involvement, and program evaluation for exceptional preschoolers in mainstreamed or segregated settings. Effective: Summer 2011
Prerequisite: 

SPLED 418 Technologies for Persons with Disabilities (2) Sensory aids, communication systems, computer systems, expert systems, simulations, and other technologies for students who are academically or physically challenged. Effective: Summer 2011
Prerequisite: 

SPLED 419 Assistive Technology for General Education Teachers (2-3) Strategies to support use of assistive technologies by students with disabilities in general education classrooms. Effective: Summer 2012
Prerequisite: 

SPLED 425 Foundations of Special Education, Etiologies, Law, and Implications for Practice (4) An introduction to exceptional individuals being served in special education programs across the life span. Effective: Fall 2011
Prerequisite: 

SPLED 430 Foundational Skills for Working with Students with Special Education Needs in General Education Classrooms (1) Introduction to working with students with special education needs in the general education classroom, including history and legal foundation. Effective: Summer 2011
Prerequisite: 

Prerequisite: 

SPLED 432 Evidence-Based Practices for Inclusive Behavior Management (2) Managing and motivating learners with special needs in general education settings based upon principles of Applied Behavior Analysis. Effective: Summer 2011
Prerequisite: 

SPLED 433 Effective and Explicit Instruction for Students with Learning Difficulties (2) Evidence-based methods for designing, delivering, and adapting academic instruction for students with mild, moderate, and severe learning difficulties. Effective: Summer 2011
Prerequisite: 

SPLED 434A Evidence-Based Practices for Inclusive Elementary Classrooms (2) Evidence-based methods to effectively serve special needs students in elementary general education settings, including reading, writing, and mathematics instruction. Effective: Summer 2011
Prerequisite: 

SPLED 434B Evidenced-Based Practices for Inclusive Secondary Classrooms (2) Evidence-based methods to effectively serve special needs students in secondary general education settings. Effective: Summer 2011
Prerequisite: 

SPLED 444 Inclusive Education and Assessment (6) Knowledge and skills needed to educate students with special needs in urban schools. Effective: Summer 2011
Prerequisite: Concurrent: URBED 395W

SPLED 454 Assessment for Instruction (4) Orientation to evaluation of special students with emphasis on the creation, use, and interpretation of teacher-made assessment procedures. Effective: Summer 2011
Prerequisite: Concurrent: a grade of C or better in SPLED 412

SPLED 460A Fundamentals of Reading Instruction in Special Education (3) Topics include the interactive nature of reading, recent findings of the National Reading Panel, explicit instruction principles and reading assessments. Effective: Summer 2011

SPLED 460B Teaching and Assessing Reading Skills of Students with Special Needs (3) Topics include methods for assessing and teaching reading skills including fluency, word level decoding and comprehension. Effective: Summer 2011

The Pennsylvania State University
Prerequisite:

SPLED 460C Specialized Reading Applications in Special Education (3) Topics include methods for assessing and teaching reading skills in vocational competence, functional reading, reading for students with sensory impairment. Effective: Summer 2011

Prerequisite:

Prerequisite:

SPLED 462 Autism and Applied Behavior Analysis (4) Basic principles of applied behavior analysis (ABA) and empiricism. Emphasis will be given to ABA principles in educational settings. Effective: Summer 2011 Ending: Fall 2012

Prerequisite:

SPLED 462 Autism and Applied Behavior Analysis (3) This course addresses principles of applied behavior analysis and empiricism related to instruction and special issues affecting individuals with autism. Effective: Spring 2013 Future: Spring 2013

Prerequisite:

SPLED 463 Communication and Social Competence (3) Overview of deficits and strategies in speech, language, and communication across the Autism Spectrum Disorder. Effective: Summer 2011

Prerequisite:

SPLED 464 Assessment and Curriculum (3) Overview of screening, diagnosis, and identification of skills in developmental domains and curricula for individuals with autism. Effective: Summer 2011

Prerequisite:

SPLED 465 Asperger Syndrome (1) Characteristics, assessment, intervention, and curricula for individuals with Asperger syndrome. Emphasis will be given to social skill development. Effective: Summer 2011

SPLED 495E Experience with Exceptional Children (3) Supervised activities with exceptional children in a variety of possible settings, e.g., schools, institutions, day care centers, vocational settings. Prerequisite: Concurrent: a grade of C or better in SPLED 411 SPLED 412

SPLED 495F Practicum in Special Education (15) Teaching experience with mildly/moderately disabled children in age appropriate settings, e.g., infant/preschools, schools, vocational/job sites. Effective: Summer 2011

Prerequisite:

SPLED 495G Experience with an Integrated Inclusion Classroom (4) Supervised teaching in integrated general classrooms with activities in assessment, diagnosis, and direct intervention with students in need or with disabilities. Effective: Summer 2011 Prerequisite: Concurrent: a grade of C or better required in SPLED 409

SPLED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 2011

SPLED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011

SPLED 497A Introduction to Autism Spectrum Disorders for General Educators (3) The course will cover characteristics and assessment of students having Autism Spectrum Disorders (ASD). Strategies for instruction in general education settings will be discussed as well as programming for communication, behavioral and social interactions. Effective: Summer 2012 Ending: Summer 2012

SPLED 497B Introduction to Assistive Technology for General Education Teachers (2) This class will focus on the role of the general education teacher in supporting the effective use of assistive technology by students with disabilities. Effective: Summer 2012 Ending: Summer 2012

SPLED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2011
SPLED 498A **Practicum in Applied Behavior Analysis** (2) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 2012 Ending: Summer 2012

SPLED 498A **Practicum in Applied Behavior Analysis** (4) Practicum in developing, implementing, and evaluating behavior analytic techniques. See attached syllabus.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

SPLED 498B **A Focus on Improving Student Achievement Through Effective Practices** (3) Attend professional development seminars and submit intervention summaries and implementation plans.
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Statistics (STAT)

STAT 100 (GQ) Statistical Concepts and Reasoning (3) Introduction to the art and science of decision making in the presence of uncertainty.
Effective: Summer 1988

STAT 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

STAT 200 (GQ) Elementary Statistics (4) Descriptive statistics, frequency distributions, probability, binomial and normal distributions, statistical inference, linear regression, and correlation.
Effective: Summer 1988
Prerequisite: STAT 220

STAT 220 Basic Statistics for Quantitative Students (3) Descriptive statistics, probability, binomial and normal distributions, one and two sample models, introduction to regression, ANOVA and contingency tables. Students may only take one course from STAT 200, 220, and 250 for credit.
Effective: Summer 1994
Prerequisite:

STAT 240 (GQ) Introduction to Biometry (3) Statistical analysis, sampling, and experimentation in the agricultural sciences; data collection, descriptive statistics, statistical inference, regression, one factor AOV, probability. Students may take only one course from STAT 200, 220, 240, 250 for credit.
Effective: Spring 2005
Prerequisite:

STAT 250 (GQ) Introduction to Biostatistics (3) Statistical analysis and interpretation of data in the biological sciences; probability; distributions; statistical inference for one- and two-sample problems.
Effective: Spring 2001
Prerequisite:

STAT 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Fall 2007

STAT 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1994

STAT 301 (GQ) Statistical Analysis I (3) Probability concepts; nature of statistical methods; elementary distribution and sampling theory; fundamental ideas relative to estimation and testing hypotheses.
Effective: Summer 1988
Prerequisite:

STAT 318 (MATH 318) Elementary Probability (3) Combinatorial analysis, axioms of probability, conditional probability and independence, discrete and continuous random variables, expectation, limit theorems, additional topics. Students who have passed either STAT(MATH) 414 or 418 may not schedule this course for credit.
Effective: Spring 1989
Prerequisite:

STAT 319 (MATH 319) Applied Statistics in Science (3) Statistical inference: principles and methods, estimation and testing hypotheses, regression and correlation analysis, analysis of variance, computer analysis. Students who have passed STAT (MATH) 415 may not schedule this course for credit.
Effective: Spring 1989
Prerequisite:

STAT 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

STAT 401 Experimental Methods (3) Random variables; probability density functions; estimation; statistical tests, t-tests; correlation; simple linear regression; one-way analysis of variance; randomized blocks.
Effective: Spring 1988
Prerequisite:

STAT 402 Statistical Analysis II (3) Two-sample problems, single and multifactor ANOVA, simple and multiple regression, categorical data.
Effective: Fall 2007
Prerequisite:

STAT 414 (MATH 414) Introduction to Probability Theory (3) Probability spaces, discrete and continuous random variables, transformations, expectations, generating functions, conditional distributions, law of large numbers, central
limit theorems. Students may take only one course from STAT(MATH) 414 and 418.

Effective: Fall 2001
Prerequisite:

STAT 415 (MATH 415) **Introduction to Mathematical Statistics** (3) A theoretical treatment of statistical inference, including sufficiency, estimation, testing, regression, analysis of variance, and chi-square tests.

Effective: Fall 1989
Prerequisite:

STAT 416 (MATH 416) **Stochastic Modeling** (3) Review of distribution models, probability generating functions, transforms, convolutions, Markov chains, equilibrium distributions, Poisson process, birth and death processes, estimation.

Effective: Spring 1984
Prerequisite:

STAT 418 (MATH 418) **Introduction to Probability and Stochastic Processes for Engineering** (3) Introduction to probability axioms, combinatorics, random variables, limit laws, and stochastic processes. Students may take only one course from MATH(STAT) 414 and 418 for credit.

Effective: Fall 2011
Prerequisite:

STAT 440 **Computational Statistics** (3) Topics related to computing in statistics, including numerical linear algebra, optimization, simulation, numerical integration, and bootstrapping.

Effective: Spring 2006
Prerequisite:

STAT 460 **Intermediate Applied Statistics** (3) Review of hypothesis testing, goodness-of-fit tests, regression, correlation analysis, completely randomized designs, randomized complete block designs, latin squares.

Effective: Fall 2006
Prerequisite:

STAT 461 **Analysis of Variance** (3) Analysis of variance for single and multifactor designs; response surface methodology.

Effective: Fall 2007
Prerequisite:

STAT 462 **Applied Regression Analysis** (3) Introduction to linear and multiple regression; correlation; choice of models, stepwise regression, nonlinear regression.

Effective: Fall 2006
Prerequisite:

STAT 463 **Applied Time Series Analysis** (3) Identification of models for empirical data collected over time; use of models in forecasting.

Effective: Spring 2006
Prerequisite:

STAT 464 **Applied Nonparametric Statistics** (3) Tests based on nominal and ordinal data for both related and independent samples. Chi-square tests, correlation.

Effective: Fall 2006
Prerequisite:

STAT 465 **Survey Sampling** (3) Introduction to design and analysis of sample surveys, including questionnaire design, data collection, sampling methods, and ratio and regression estimation.

Effective: Spring 2006
Prerequisite:

STAT 470W **Problem Solving and Communication in Applied Statistics** (3) Provide problem solving and communication skills through development of writing ability, interaction with peers and the SCC, and oral presentations.

Effective: Spring 2000
Prerequisite:

STAT 480 **Introduction to SAS** (1) Introduction to SAS with emphasis on reading, manipulating and summarizing data.

Effective: Spring 2008
Prerequisite:

STAT 481 **Intermediate SAS for Data Management** (1) Intermediate SAS for data management.

Effective: Summer 2007
Prerequisite:

STAT 482 **Advanced Topics in SAS** (1) Advanced statistical procedures in SAS, including ANOVA, GLM, CORR, REG, MANOVA, FACTOR, DISCRIM, LOGISTIC, MIXED, GRAPH, EXPORT, and SQL. Credit can not be received for both STAT 482 and STAT 480/481/483.

Effective: Summer 2009
Prerequisite:

STAT 483 **Statistical Analysis System Programming** (3) Introduction, intermediate, and advanced topics in SAS. Credit can not be received for both STAT 483 and STAT 480/481/482.

Effective: Summer 2009
Prerequisite:

STAT 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2007
Prerequisite:

STAT 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small group basis.
Effective: Fall 2007
Prerequisite:

STAT 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships.
Effective: Fall 2007
Prerequisite:

STAT 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

STAT 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

STAT 497C Topics in Stat Computing with R (1) Topics: I) Basic background on R II) Manipulating data I III) Finding help IV) Simple univariate data V) Importing data VI) Documenting your work VII) Manipulating data VII) Reptitive tasks - loops and the apply ()family IX) Bisual data X) Basic analyses (as much as possible we'll work with real data.)
Effective: Summer 2012 Ending: Summer 2012

STAT 497C Topics in Stat Computing with R (1) Topics: I) Basic background on R II) Manipulating data I III) Finding help IV) Simple univariate data V) Importing data VI) Documenting your work VII) Manipulating data VII) Reptitive tasks - loops and the apply ()familyIX) Bisual data X) Basic analyses (as much as possible we'll work with real data.)
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

STAT 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Supply Chain Mgmt (SCM)

SCM 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

SCM 200 (GQ) Introduction to Statistics for Business (4) Topics include descriptive statistics, probability distributions, statistical inference, regression and correlation, and forecasting. Effective: Spring 2011
Prerequisite:

SCM 200H (GQ) Honors Introduction to Statistics for Business (4) Topics include descriptive statistics, probability distributions, statistical inference, regression and correlation, and forecasting. Effective: Spring 2011
Prerequisite:

SCM 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

SCM 301 Supply Chain Management (3) Supply chain management concepts, principles, and methodologies. Effective: Spring 2011
Prerequisite:

SCM 301H Supply Chain Management (3) Supply chain management concepts, principles, and methodologies. Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

SCM 310 Introduction to Operations Management (3) An introduction to the strategic importance and the analytic tools of operations management. Not available to baccalaureate business students in Smeal. Effective: Spring 2007
Prerequisite:

Prerequisite:

SCM 397 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2007

SCM 398 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 2007

SCM 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2007

Prerequisite:

SCM 404 Demand Fulfillment (3) Analysis of demand fulfillment and the role of distribution operations management in the supply chain. Effective: Spring 2011
Prerequisite:

SCM 405 Manufacturing and Services Strategies (3) Investigates manufacturing and services strategies in supply chain networks. Effective: Spring 2011
Prerequisite:

SCM 406 Strategic Procurement (3) Analysis of strategic procurement in the supply chain. Effective: Summer 2011
Prerequisite:

SCM 416 Warehousing and Terminal Management (3) Administration of warehouse and terminal functions in logistics systems, with analysis of customer service, forecasting, inventory, investment, design, and operation. Not available to baccalaureate business students in Smeal.

The Pennsylvania State University
SCM 421 Supply Chain Analytics (3) Models and Methodologies for supply chain analysis.
Effective: Spring 2011
Prerequisite:

Effective: Spring 2007
Prerequisite:

SCM 445 Operations Planning and Control (3) Aggregate production planning procedures, disaggregation methods in hierarchical production planning, master production scheduling, material requirements planning, lot-sizing, and capacity planning. Not available to baccalaureate business students in Smeal.
Effective: Spring 2007 Ending: Summer 2012
Prerequisite:

SCM 445 Operations Planning and Control (3) Aggregate production planning procedures, disaggregation methods in hierarchical production planning, master production scheduling, material requirements planning, lot-sizing, and capacity planning. Not available to baccalaureate business students in Smeal.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

SCM 450W Strategic Design and Management of Supply Chains (3) Strategic design and management of supply chains.
Effective: Fall 2011
Prerequisite:

SCM 455 Logistics Systems Analysis and Design (3) Customer service, inventory management, transportation, warehousing, purchasing, international logistics, site location planning and analysis, and total cost analysis.
Effective: Spring 2007
Prerequisite:

SCM 456 Supply Chain Risk Analysis (3) Business processes are modeled as a network of queues using discrete-event simulation and analyzed model outcomes using statistical methods.
Effective: Spring 2007
Prerequisite:

SCM 460 Purchasing and Materials Management (3) Purchasing policies, procedures, order specifications and agreements, supplier selection, and the role of purchasing in production planning and inventory management. Not available to baccalaureate business students in Smeal.
Effective: Spring 2007
Prerequisite:

SCM 465 Electronic Business Management (3) A problem-based exploration of the various electronic business tools and technologies required to efficiently manage a supply chain. Not available to baccalaureate business students in Smeal.
Effective: Spring 2007
Prerequisite:

SCM 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2007

SCM 494H Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2008

SCM 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 2007

SCM 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

SCM 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 2007

SCM 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2007
Surveying (SUR)

SUR 111 Plane Surveying (4) Plane surveying principles; basic measurement statistics; use and care of equipment; traversing, area, and coordinate computations; differential leveling; RTK-GPS measurements. Effective: Spring 2012
Prerequisite: Concurrent: MATH 081

SUR 162 Methods in Large Scale Mapping (3) CAD applications in mapping; data collection using traditional and satellite techniques; map compilation; COGO. Effective: Spring 2012
Prerequisite:

SUR 212 Route and Construction Surveying (4) Circular, compound, spiral horizontal curves; equal, unequal tangent vertical curves; alignments, earthwork; control, building, pipe, street, and as-built construction surveys. Effective: Summer 2011
Prerequisite:

SUR 222 Photogrammetry (3) Basic principles of metric photogrammetry with single and stereopair photos; coordinate transformations; map production with stereo imagery; flight planning. Lab. Effective: Spring 2001
Prerequisite:

SUR 241 Surveying Measurement Analysis (3) Statistical error analysis of surveying measurements; propagation of random errors; confidence intervals and statistical testing. Lab. Effective: Spring 2001
Prerequisite: Concurrent: MATH 083 or MATH 140

SUR 262 Coordinate Systems in Map Projections (2) Introduction to coordinate systems used in the Lambert, Mercator, Transverse Mercator, and UTM map projections; reduction of surveying observations. Effective: Summer 2000
Prerequisite:

SUR 272 Cadastral Surveying (3) Evolution of land records systems; PLS: property ownership and conveyancing; common and statute law; rules of construction; boundary location procedures. Effective: Fall 1993
Prerequisite:

SUR 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 1997

SUR 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 2007

SUR 313 Integrated Surveying (3) Control, boundary, mapping and construction surveys; survey planning, coordinating; report and record map preparation. Effective: Spring 2012
Prerequisite: Concurrent: SUR 272 SUR 212

SUR 341 Adjustment Computations (3) Matrix methods in least squares; random error propagation; observation equation model; conditions between parameters; basic post-adjustment statistical analysis. Effective: Spring 2001
Prerequisite:

SUR 351 Geodetic Models (3) Three dimensional geodesy; computations on the ellipsoid; map projections; reduction of observations and elements of physical geodesy. Effective: Summer 1993
Prerequisite:

SUR 362 Introduction to Geospatial Information Engineering (3) Basic concepts in geographic information engineering; spatial reference frame-works; map and text data; digital environments; software and hardware plat-forms. Effective: Spring 2012
Prerequisite: Concurrent: MATH 110 or SUR 222 MATH 140

SUR 372W Legal Aspects of Land Surveying (3) Legal research; rules of evidence including classification and evaluation; unwritten rights; land description composition; easements. Effective: Spring 1994
Prerequisite:

SUR 381 Stormwater Hydraulics and Hydrology (4) Hydraulics: statics, continuity, energy, friction; hydrology: rainfall, abstractions, travel time, runoff; stormwater design: sewers, culverts, basins, erosion; municipal regulations. Effective: Summer 2011
Prerequisite: Concurrent: PHYS 213
SUR 422 Digital Photogrammetry (3) Mathematical methods for processing digital imagery, creating digital elevation models and ortho-photographs, and applications in spatial data infrastructure. Effective: Summer 2011
Prerequisite:

SUR 441 Data Analysis and Project Design (3) Post least squares adjustment analysis of control networks, statistical testing, blunder detection, network design considerations, and computer optimization techniques. Effective: Summer 1994
Prerequisite:

SUR 455 Precise Positioning Systems (3) Stellar coordinate systems; geodetic reference coordinate systems; satellite orbital theory; global positioning systems; pseudo-ranging; GPS vector adjustments. Effective: Summer 1994
Prerequisite:

SUR 462 Parcel-Based Geospatial Information Systems (3) Acquisition processing of land parcel data; development of land information system and applications in geospatial information technology. Effective: Summer 2011
Prerequisite:

SUR 471 Professional Aspects of Land Surveying (3) Ethical issues and legal limits of practice; surveyor as an expert witness; surveyor-client relationship; responsibilities to the profession. Effective: Summer 2011
Prerequisite:

SUR 490 Seminar in Surveying (1) Individual or group work in surveying. Effective: Summer 1994
Prerequisite:

SUR 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 1993

SUR 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1993

Last Import from UCM: June 2, 2012 12:27 PM
Sustainability (SUST)

SUST 200 (GS) Foundations of Leadership in Sustainability (3) Science, ethics, and leadership in social, environmental, and economic sustainability.
Effective: Spring 2012

Last Import from UCM: June 2, 2012 12:27 PM
Swahili (SWA)

SWA 001 **Elementary Swahili I** (4) Listening, speaking, reading, writing Swahili: an introduction for beginners; basic structures and vocabulary; cultural elements.
Effective: Spring 1995

SWA 002 **Elementary Swahili II** (4) Listening, speaking, reading, and writing Swahili; structures and vocabulary; cultural elements.
Effective: Spring 1995
Prerequisite:

SWA 003 **Intermediate Swahili** (4) Further development of listening, speaking, reading, and writing skills in Swahili: structures and vocabulary; cultural elements.
Effective: Spring 1995
Prerequisite:

SWA 051 **Elementary Intensive Swahili for Graduate Students I** (3) Intensive introduction to Swahili: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SWA 052 **Elementary Intensive Swahili for Graduate Students II** (3) Intensive introduction to Swahili: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SWA 053 **Intermediate Intensive Swahili for Graduate Students** (3) Continued intensive study of Swahili at the intermediate level: reading, writing, speaking, listening, cultural contexts.
Effective: Summer 2008
Prerequisite:

SWA 097 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

SWA 099 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

SWA 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

SWA 199 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

SWA 294 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

SWA 295 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1995
Prerequisite:

SWA 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

SWA 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

SWA 299 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

SWA 395 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996
Prerequisite:

SWA 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

SWA 399 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

SWA 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

SWA 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

SWA 496 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.
Effective: Spring 1995

SWA 498 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 1992

SWA 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Systems Engineering (SYSEN)

SYSEN 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Spring 1999

SYSEN 497A Wireless Positioning (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Summer 2012 Ending: Summer 2012

Last Import from UCM: June 2, 2012 12:27 PM
Telecommunications (TELCM)

TELCM 140 **Introduction to Telecommunications Systems** (2) Elements of telecommunications systems, including telephones, transmission lines, switching, digital data, and transmission by microwave, satellite, and fiber optics.  
Effective: Fall 1992

TELCM 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Fall 1992

TELCM 241 **Voice and Data Communications** (3) Noise in communications systems, types of modulation, transmission codes, interfaces, the telephone set, and the subscriber loop.  
Effective: Fall 2005  
Prerequisite:

TELCM 242 **Introduction to Telecommunications Laboratory** (1) Techniques used for measurements of basic telecommunications circuits and equipment.  
Effective: Fall 1992  
Prerequisite:

TELCM 243 **Protocols and Networks** (3) Transmission codes, network protocols, local area networks, the Internet and emerging technologies, fiber optics, wireless communications, satellite communications.  
Effective: Fall 2005  
Prerequisite:

TELCM 244 **Advanced Telecommunications Laboratory** (1) Testing and measurement of advanced telecommunication transmission and switching equipment, including practical alignment and testing of operational systems.  
Effective: Fall 1992  
Prerequisite:

TELCM 296 **Independent Studies** (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.  
Effective: Summer 1997

TELCM 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Fall 1992

TELCM 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.  
Effective: Fall 1992
Theatre (THEA)

THEA 001S First-Year Seminar: Theatre Production Practices (1) An orientation to the School of Theatre production practices, resources, faculty, and practicum. Effective: Spring 2006
Prerequisite:

THEA 080 (GA) Pit Orchestra (1-3 per semester/maximum of 3) Rehearsal and performance of contemporary and historical musical theatre styles, including operetta and light opera. Effective: Summer 2008
Prerequisite:

THEA 100 (GA;US;IL) The Art of the Theatre (3) An experiential survey of all aspects of the living theatre, as presented by a resident company of theatre artists. Effective: Spring 2006

THEA 102 (GA) Fundamentals of Acting (3) Introduction to the art and craft of acting for non-theatre majors. Effective: Fall 2003

THEA 103 Fundamentals of Directing (3) Training and experience in basic skills of directing. Designed for non-theatre majors. Effective: Fall 1983

THEA 104 Fundamentals of Theatre Production (3) Training and experience in basic skills of technical theatre. Designed for non-theatre majors. Effective: Fall 1983

THEA 105 (GA) Introduction to Theatre (3) An introduction and overview of the history, craft, and art of the theatre to foster an informed appreciation of theatrical events. This course is an alternate to THEA 100. Effective: Spring 2003

THEA 107 (GA) Introduction to Dramatic Structure (3) An introduction to structural analysis in dramatic literature. Effective: Summer 2011

THEA 110 Playscript Analysis (3) Theory and method of playscript analysis for the general theatre student. Effective: Fall 1983

THEA 113 Musical Theatre Theory I (3) Studies in the fundamentals of music notation and sight-singing. Effective: Summer 2000
Prerequisite:

THEA 114 Music Theatre: Form and Analysis (3) A survey of music theatre as an art form. Effective: Summer 1993
Prerequisite:

THEA 115 B.F.A. Acting Foundations (2) Fundamental aspects of training the actor's body, voice, mental focus, and imagination. Effective: Summer 2005
Prerequisite:

THEA 120 Acting I (3) Fundamental skills and training in acting. Emphasis on physical/vocal awareness and the nature of dramatic communication. Theatre majors only. Effective: Spring 2008
Prerequisite:

THEA 121 Fundamentals of Acting II (3) This course is a continuation of THEA 120 and designed to build upon the basic foundation of acting. Effective: Summer 2012
Prerequisite:

THEA 130 Introduction to Theatre Scenic and Costume Technology (3) Introduction to the methods, materials, equipment, concepts and processes involved in the construction of scenery and costumes for the theatre. Effective: Summer 2005

THEA 131 Introduction to Theatre Sound and Lighting Technology (3) Introduction to the methods, materials,
equipment, facilities, concepts and processes used to create theatre lighting and sound.
Effective: Summer 2005

THEA 146 Basic Theatrical Makeup (2) Both straight and corrective makeup, with character and styling techniques for stage, film, and television.
Effective: Summer 1989

THEA 150 Fundamentals of Design for the Theatre (3) Exploration of the philosophy and technique of scenic, costume, and lighting design.
Effective: Spring 2008

THEA 170 Introduction to Stage Lighting Production Techniques (3) Introduction to theatre lighting facilities, equipment, and practice. Practical experience with major productions.
Effective: Fall 1998
Prerequisite:

THEA 180 Introduction to Stagecraft (3) Introduction to methods, materials, equipment, facilities, and concepts used in scenery construction for the Theatre. Practical experience with departmental productions.
Effective: Fall 1998
Prerequisite:

THEA 189 (GA) Theatre Production Practicum (1 per semester/maximum of 6)* Supervised experience in theatre by crew participation in University theatre productions. For non-theatre students only.
Effective: Spring 2004

THEA 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1994

THEA 199 (IL) Foreign Studies--Theatre Arts (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Prerequisite:

THEA 200 Script Analysis (2) An introduction to script analysis for theatre majors, which focus on full text analysis as a foundation for area specific analysis. Two styles of analysis (contextual and structural) are studied.
Effective: Spring 2008
Prerequisite:

THEA 202 Beginning Scene Study (3) Introduction to the fundamentals of scene study through readings, improvisations, exercises and scene work.
Effective: Spring 2012
Prerequisite:

THEA 207 (GA;US) Gender and Theatre (3) A study of theatre and drama literature as formed by issues of gender, race, and ethnic background.
Effective: Summer 2005

THEA 208 (GA;US;IL) (AAA S 208) Workshop: Theatre in Diverse Cultures (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005 Ending: Fall 2012

THEA 208 (GA;US;IL) (AF AM 208) Workshop: Theatre in Diverse Cultures (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Spring 2013 Future: Spring 2013

THEA 208S (GA;US;IL) Workshop: Theatre in Diverse Cultures (3) A performance-oriented class, which explores the historic and contemporary theatrical works of various culturally diverse peoples.
Effective: Summer 2005

THEA 209 Hip Hop Theatre (3) Hip Hop Theatre defines and explores Hip Hop as an art form. The student will explore Hip Hop culture through Hip Hop Theatre aesthetics: Emceeing, Dejaying, Beat boxing, graffiti art, and dance.
Effective: Summer 2012

THEA 210 Hip Hop Theatre Performance Workshop (3 per semester/maximum of 9) Hip Hop Theatre Performance Workshop expands on the Hip Hop Theatre lecture component and experience from Hip Hop Theatre, and delves more into a performance and workshop structure. Students will apply themes studied in Hip Hop THEA 209 or DANCE 271 to this course, which focuses on performance experiences.
Effective: Summer 2012
Prerequisite:
THEA 212 Musical Theatre Theory II (3) Intermediate studies in diatonic harmony, analysis, sight-singing and dictation.
Effective: Summer 2000
Prerequisite:

THEA 214 Musical Theatre Theory III (3) Advanced studies in the technique and practice of chromatic harmonic analysis and sight-singing.
Effective: Summer 2000
Prerequisite:

THEA 220 Acting II (3) Principles of acting through improvisation, exercises, and character analysis, with emphasis on basic skills of voice and movement. For theatre majors only.
Effective: Spring 2001
Prerequisite:

THEA 221 Acting III (3) A continuation of Thea. 220. For Theatre majors only.
Effective: Spring 2008
Prerequisite:

THEA 222 (THEA 530) Acting Laboratory (2) Laboratory experience in student-directed scenes and/or one-act plays.
Effective: Summer 1994
Prerequisite:

THEA 223 Musical Theatre Performance I (2) Studio training in the unique performance skills, repertoire and business of professional music theatre.
Effective: Spring 2006
Prerequisite:

THEA 224 Musical Theatre Performance II (2) Studio training in the unique performance skills, repertoire and business of professional music theatre.
Effective: Spring 2006
Prerequisite:

THEA 225A B.F.A. Acting Studio I (2) Exercises to develop truthful listening and responding as a foundation for acting studio scene study.
Effective: Summer 2005
Prerequisite: Concurrent: THEA 225B and THEA 225C

THEA 225B B.F.A. Movement Studio I (2) Introduction to techniques to condition the actor and improve physical awareness and self-use.
Effective: Summer 2005
Prerequisite: Concurrent: THEA 225A and THEA 225C

THEA 225C B.F.A. Voice/Speech Studio I (2) Introduction to actor voice and speech training.
Effective: Summer 2005
Prerequisite: Concurrent: THEA 225A and THEA 225B

THEA 250 Introduction to Scene Design (3) Introduction to the history, processes, materials, and concepts involved in designing scenery for the theatre.
Effective: Summer 2005
Prerequisite:

THEA 251 Theatre Drafting Techniques (2) Introduction to drafting of floor plans, section drawings, construction graphics, and mechanical perspective for the theatre.
Effective: Spring 2001

THEA 252 Design Presentation Techniques (1) Media and materials exploration; sketching, rendering, and modeling methods.
Effective: Fall 1983

THEA 253 Scene Painting (1) Introduction to painting scenery for the theatre; methods and materials.
Effective: Fall 1983

THEA 260 Introduction to Costume Design (3) Introduction to costume design process through character analysis and the use of color, line, and texture.
Effective: Spring 2006

THEA 261 Introduction to Costume Construction Techniques (3) Intermediate study of the methods, materials, equipment, concepts and processes involved in the construction of costumes for the theatre.
Effective: Summer 2005
Prerequisite:

THEA 270 Introduction to Lighting Design (3 per semester/maximum of 99) This course will focus on helping each student to develop a design process that takes them from script to stage.
Effective: Spring 2006

THEA 280 Introduction to Technical Direction for the Theatre (3) Introduction to the methods, materials, equipment,
facilities, concepts and processes associated with Technical Direction for the Theatre.

Effective: Summer 2005
Prerequisite:

THEA 282 (GA) **Production Practicum** (3--may repeat once for a total of 6) Introduction to all aspects of theatre production--analysis, design, construction, production, performance--for non-theatre majors.

Effective: Spring 2000

THEA 285 **Introduction to Sound Design** (3) An introduction to sound design for the theatre.

Effective: Spring 2011
Prerequisite:

THEA 289 **Theatre Production Practicum** (1 per semester/maximum of 3) Supervised experience in production techniques.

Effective: Summer 2000

THEA 296 **Independent Studies** (1-18) Creative projects, including research and design, supervised on an individual basis and which fall outside the scope of formal courses.

Effective: Fall 1983

THEA 297 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a subject which may be topical or of special interest.

Effective: Fall 1983

THEA 297A **Hip Hop Theatre Style** (3) Exploration of Hip Hop Theatre in society.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

THEA 297B **Stage Management** (3) An introduction to the techniques of efficiently managing the preparation, rehearsal, and performance of theatrical productions.

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

THEA 298 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

Effective: Summer 1994

THEA 320 **Scene Study I** (3 per semester/maximum of 9) Advanced monologue and scene study techniques. Principal focus on realism.

Effective: Spring 2008
Prerequisite:

THEA 321 **Scene Study II** (3) A continuation of THEA 320.

Effective: Fall 1995
Prerequisite:

THEA 322 **Voice and Speech I** (2) Vocal techniques for the actor: articulation, voice control, support, and projection.

Effective: Spring 1990
Prerequisite:

THEA 324 **Movement for Actors I** (2) Techniques and skills in physical expression, awareness, control, and stage movement.

Effective: Spring 1990
Prerequisite:

THEA 325 **Movement for Actors II** (2) Continuation of THEA 324.

Effective: Spring 1990
Prerequisite:

THEA 326 **Music Theatre Performance Workshop** (1 per semester/maximum of 3) Performance studies in cabaret, revue, and club environments.

Effective: Spring 2008
Prerequisite:

THEA 327 **Musical Theatre Auditions** (2) Research and preparation of auditions for work in professional musical theatre venues.

Effective: Summer 2004
Prerequisite:

THEA 381 **Technical Production II** (3) Comprehensive survey of scenic construction and theatrical rigging. Continuation of THEA 380.

Effective: Summer 2011

THEA 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
THEA 400 **Advanced Theatre Projects** (1-6 per semester) Individual and group-directed study of in-depth projects involving reading, discussion, performance, and critical analysis by faculty.

Effective: Spring 1991

**Prerequisite:**

THEA 401Y (IL) **Theatre History I: Ancient to 1700** (3) Survey of drama and theatre from primitive rites through the Renaissance.

Effective: Spring 2008

**Prerequisite:**

THEA 402 **Theatre History II: From 1700 to Present** (3) Survey of European drama and theatre from the eighteenth century through the modern period.

Effective: Spring 2012

**Prerequisite:**

THEA 405 (US) **Theatre History: American Theatre** (3) Survey of American drama and theatre from the colonial period to the present.

Effective: Spring 2008

**Prerequisite:**

THEA 407 (US) (WMNST 407) **Women and Theatre** (3) A study of theatre practice and dramatic literature as informed by issues of gender, race, and ethnic background.

Effective: Spring 2008

**Prerequisite:**

THEA 408 (US) **History of American Musical Theatre** (3) A survey of the history of American musical theatre presented in a social, cultural, and aesthetic perspective.

Effective: Spring 2008

**Prerequisite:**

THEA 410 **Play Analysis** (3) Advanced skills in textual analysis of plays and screenplays.

Effective: Spring 2008

**Prerequisite:**

THEA 412 (US;IL) (AAA S 412) **African American Theatre** (3) Exploration of the development of African American theatre from its roots in Africa through the diaspora, to the present time.

Effective: Spring 2008 Ending: Fall 2012

**Prerequisite:**

THEA 423 **Musical Theatre Performance III** (2) Studio training in the unique performance skills, repertoire and business of professional musical theatre.

Effective: Spring 2006

**Prerequisite:**

THEA 424 **Musical Theatre Performance IV** (2) Studio training in the unique performance skills, repertoire and business of professional musical theatre.

Effective: Spring 2006

**Prerequisite:**

THEA 425A **B.F.A. Acting Studio II** (2) Scene Study

Effective: Summer 2005

**Prerequisite:** Concurrent: THEA 425C

Effective: Summer 2005

**Prerequisite:** Concurrent: THEA 425A

THEA 426 **Children’s Theatre** (3) Theories and practice of theatre for children.

Effective: Spring 2001

**Prerequisite:**

THEA 427A **B.F.A. Acting Studio III** (2) Continuation of THEA 425A

Effective: Summer 2005

**Prerequisite:** Concurrent: THEA 427C

THEA 427C **B.F.A. Voice/Speech Studio III** (2) Stage Dialect Studies

Effective: Summer 2005

**Prerequisite:** Concurrent: THEA 427A

THEA 429 **Theatre Performance Practicum** (1-3 per semester) Supervised experience in rehearsal and performance of significant roles.

Effective: Fall 1983

**Prerequisite:**
THEA 434 Introduction to Directing (3) Introduction to principles and procedures of play direction.
Effective: Spring 2001
Prerequisite:

THEA 436 Directorial Processes (3) Preparing a play for production including the scoring of the script, developing ground plan, casting, and staging projects in American realism.
Effective: Spring 1991
Prerequisite:

THEA 437 Artistic Staff for Production (1-6) To provide students with experience in choreography, dramaturgy, combat, staging, voice/speech, musical direction, assisting in direction, for major productions.
Effective: Summer 1989
Prerequisite:

THEA 440 Principles of Playwriting (3) Structure, dramatic effect, characterization, and dialogue; the writing, reading, and criticism of original one-act plays.
Effective: Spring 2008 Ending: Fall 2012
Prerequisite:

THEA 440 Principles of Playwriting (3 per semester/maximum of 6) Structure, dramatic effect, characterization, and dialogue; the writing, reading, and criticism of original one-act plays.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

THEA 447 Make-Up Design for Production (1-6) Materials, research, preparation, design, execution of make-up for major University Theatre productions.
Effective: Summer 1989
Prerequisite:

THEA 450 Advanced Topics in Scene Design (3 per semester/maximum of 6) Design emphasis on a variety of production techniques, genre, and styles.
Effective: Spring 2006
Prerequisite:

THEA 451 Drafting, Drawing, and Painting for the Theatre (1) Drafting, freehand drawing including perspective methods and property development, rendering techniques, and painters' elevations.
Effective: Summer 1993
Prerequisite:

THEA 453 Advanced Scene Painting (1 per semester, maximum of 12) Practicum study in painting techniques currently in professional use. Exploration of tools, available paints, and texturing materials.
Effective: Spring 1991
Prerequisite:

THEA 454 Period Research for the Theatre (3) History of decor, styles, and movements in art and architecture.
Effective: Summer 1993
Prerequisite:

THEA 456 Scenic Projects for Production (1 per semester, maximum of 6) Special projects for production; painting, properties, design assistance.
Effective: Summer 1993
Prerequisite:

THEA 457 Scene Design for Production (1 per semester/maximum of 6) Design and execution of production projects.
Effective: Fall 1983
Prerequisite:

THEA 458 Digital Imaging for the Theatre (1) Introduction to imaging software and its application in theatrical design and production.
Effective: Summer 2005
Prerequisite:

THEA 459 Theatre Portfolio & Business Practices (2) Life as a professional theatre designer. Contracts, taxes, record-keeping, resumes, portfolios, interviewing, job hunting, and legal considerations.
Effective: Spring 2006
Prerequisite:

THEA 460 Advanced Topics in Costume Design (3 per semester/maximum of 6) Developing and executing a design concept in a variety of the performing arts.
Effective: Spring 2006
Prerequisite:

THEA 461 Advanced Topics in Costume Construction and Technology (3 per semester/maximum of 6) A specialized course in advanced costume construction techniques and theatrical costume technologies.
Effective: Spring 2006
Prerequisite:

THEA 464 History of Fashion (3) Survey of dress from Egyptian period to contemporary fashion.
Effective: Spring 2008
Prerequisite:
THEA 465 History of Fashion II (3) Survey of dress from 1800 to contemporary fashion.
Effective: Summer 2004
Prerequisite:

THEA 466 Costume Construction for Production (1 per semester/maximum of 6) Execution of production projects in construction and shop management.
Effective: Fall 1983
Prerequisite:

THEA 467 Costume Design for Production (1 per semester/maximum of 6) Design and execution of production design projects.
Effective: Fall 1983
Prerequisite:

THEA 470 Advanced Topics in Lighting Design (3 per semester/maximum of 6) Advanced Topics in Lighting Design will rotate through opera, dance, non-traditional spaces, architecture, advanced technology, and color theory.
Effective: Spring 2006
Prerequisite:

THEA 471 Stagelighting Design II (3) Advanced training through lectures and laboratory experience with color, shape, and form as it relates to the specifics of illumination.
Effective: Summer 1993
Prerequisite:

THEA 472 Lighting Technology (3) An introduction to the basics of electricity, dimmer protocols, lightboard programming, lighting paperwork, and master electrician & assistant lighting design practices.
Effective: Summer 2005
Prerequisite:

THEA 477 Lighting Design for Production (1 per semester/maximum of 6) Design and execution of design projects.
Effective: Fall 1983
Prerequisite:

Effective: Summer 2005
Prerequisite:

THEA 480B Technical Production IV (3) Discussion of problems of the technical director: personnel management, time management, scheduling, budgeting, purchasing, and the technical drawing of production.
Effective: Spring 1995
Prerequisite:

THEA 481 Stage and Production Management (3) Production planning, scheduling, assignment of personnel, rehearsal procedures, and budgeting.
Effective: Fall 1983
Prerequisite:

THEA 484 Sound Recording Techniques (3) Multi-track audio recording and post production techniques.
Effective: Spring 2011
Prerequisite:

THEA 485 Sound for Theatre Production (3) Aesthetics of live and recorded sound; recording and editing techniques for the stage.
Effective: Spring 2001 Ending: Summer 2012
Prerequisite:

THEA 485 Sound for Theatre Production (3 per semester/maximum of 6) Aesthetics of live and recorded sound; recording and editing techniques for the stage.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

THEA 486 Stage Management for Production (1-9) Stage manager for University Theatre production.
Effective: Summer 1996
Prerequisite:

THEA 487 Technical Projects for Production (1 per semester/maximum of 6) Execution of practical production projects.
Effective: Fall 1983
Prerequisite:

THEA 489 Theatre Production Practicum (1 per semester) Supervised experience in production techniques. For theatre majors only.
Effective: Spring 2001
Prerequisite:

THEA 494H Research Projects - Honors (1-12 per semester/maximum of 12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Spring 2012

THEA 495 Internship Practicum (1-6 per semester/maximum of 12) Professional field experience in theatre performance,
production, and management assignments.
Effective: Fall 1983
Prerequisite:

THEA 496 Independent Studies (1-18) Creative projects, including research and design, supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

THEA 496H Independent Studies - Honors (1-18) Creative projects, including research and design, supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 2012

THEA 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

THEA 497A Sitcom Production (3) Production for School of Theatre sitcom.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

THEA 497C Acting for the Camera (3) Camera acting workshop for advanced actors.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

THEA 497D Professional Preparation (3) Professional Preparation for Theatre Business.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

THEA 497E Writers Room (3) Writers workshop for School of Theatre Podcast.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

THEA 497F Comedy Writing (3) Writing workshop in the comedy genre.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

THEA 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Summer 1994

THEA 499 (IL) Foreign Studies--Theatre Arts (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Training and Development (TRDEV)

TRDEV 418 Instructional Methods in Training and Development (3) Emphasis on teaching techniques and learning principles used by trainers and supervisors in business, health care, and government.
Effective: Spring 1986

TRDEV 421 Presentation Skills for New Trainers (3) The effective use of platform skills for training, including the use of voice, audio-visual aids, group facilitation, and personal presence.
Effective: Summer 1993
Prerequisite:

TRDEV 431 Basic Technology Skills in Training (3) Introduces basic training technology skills: electronic communications, word processing, spreadsheets, databases; provides skills to create and maintain electronic presentations and programs.
Effective: Spring 1999
Prerequisite:

TRDEV 432 Video Production in Training (3) Introduces learners to the equipment, design, and production of video instruction for the workplace.
Effective: Spring 2002
Prerequisite:

TRDEV 460 Foundations in Training and Development (3) Roles in training and development, relationships between training and development and other organizational structures, and the principles of training design.
Effective: Spring 1986

TRDEV 465 Performance Analysis (3) This course involves the systematic analysis of employee performance in organizations to identify performance problems, diagnose causes, and specify solutions.
Effective: Spring 2005
Prerequisite:

TRDEV 470 Human Resource Development Tools and Techniques (3) Examination of contemporary strategies, tools, and techniques for designing human resource functions to promote employee learning and performance within organizations.
Effective: Spring 2005
Prerequisite:

TRDEV 475 Career and Succession Management (3) This course involves the study of a systematic approach for integrating career planning and succession planning programs in organizations.
Effective: Spring 2005
Prerequisite:

TRDEV 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Spring 1986

Last Import from UCM: June 2, 2012 12:27 PM
Turfgrass (TURF)

TURF 100 Introduction to Turfgrass Management (3) Introduction to turfgrass species, establishment, maintenance, and pest control of turfgrass species used for sports, lawn/utility turf, and golf courses. Effective: Fall 2001

TURF 230 Turfgrass Pesticides (1) Course covers chemical toxicity, formulations, environmental fate, labels, MSDS, calibration, IPM, safety, handling, storage, and Pennsylvania certification and regulations. Effective: Spring 1999

TURF 235 The Turfgrass (3) Characterization of the primary plant species used for sports, lawn and utility turf; includes turfgrass morphology, environmental adaptation, and cultural requirements. Effective: Summer 1992

TURF 238 (HORT 238) Turf and Ornamental Weed Control (3) Students will be introduced to the development of integrated weed management strategies utilizing a variety of cultural and chemical methods. Effective: Summer 2007

TURF 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Summer 1996

TURF 425 Turfgrass Cultural Systems (3) A study of turfgrass maintenance practices and how their interrelationships can be utilized to develop management systems. Effective: Fall 2001

TURF 434 Turfgrass Edaphology (3) Characterization of soil physical properties for the establishment and maintenance of sports turf; includes root-zone construction. Effective: Fall 2007

TURF 435 Turfgrass Nutrition (4) Study of turfgrass nutrition and growth; emphasizing constructed and mineral soil fertility, nutrient uptake and function, and fertilizer use efficiency. Effective: Spring 2004

TURF 436W Case Studies in Turfgrass Management (3) Case study and discussion considering integrated management of selected turfgrass sites; emphasis on problem analysis, principle application, and decision making. Effective: Spring 2012

TURF 489 Supervised Experience in College Teaching (1-3) Participate with instructors in teaching and undergraduate turfgrass course. Assist with teaching an evaluation and with development of instructional materials. Effective: Spring 1998

TURF 490 Colloquium (1) Oral presentations developed by students in consultation with the course instructor. Effective: Summer 1997

TURF 495 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1992

TURF 496 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 2000

Last Import from UCM: June 2, 2012 12:27 PM
Ukrainian (UKR)

UKR 001 Elementary Ukrainian I (4) Reading, writing, and speaking Ukrainian. Effective: Summer 1991

UKR 002 Elementary Ukrainian II (4) Reading, writing, and speaking Ukrainian. Effective: Summer 1991

UKR 003 Intermediate Ukrainian (4) Reading, writing, and speaking Ukrainian. Effective: Summer 1991

UKR 051 Elementary Intensive Ukrainian I for Graduate Students (3) Intensive introduction to Ukrainian: first half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008

UKR 052 Elementary Intensive Ukrainian II for Graduate Students (3) Intensive introduction to Ukrainian: second half of graduate intensive sequence in elementary reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008

UKR 053 Intermediate Intensive Ukrainian for Graduate Students (3) Continued intensive study of Ukrainian at the intermediate level: reading, writing, speaking, listening, cultural contexts. Effective: Summer 2008

UKR 099 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

UKR 100 (GH;IL) Ukrainian Culture and Civilization (3) Survey of Ukrainian culture and civilization from the Middle Ages to the present. Effective: Summer 2005

UKR 196 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Spring 2004

UKR 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest. Effective: Spring 1995

UKR 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

UKR 204 Readings in Ukrainian (3) Readings in Ukrainian literature and journalism. Effective: Summer 1991

UKR 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

UKR 299 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

UKR 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required. Effective: Summer 1996

UKR 399 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

UKR 494 Research Project (1-12) Supervised student activities on research projects identified on an individual or small group basis. Effective: Summer 1994
UKR 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small group basis.  
Effective: Fall 2007

UKR 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.  
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Veterinary Science (V SC)

V SC 489 (BIOTC 489) Animal Cell Culture Methods (3) AN OVERVIEW OF ANIMAL CELL CULTURE METHODOLOGY, AND ITS PRACTICAL APPLICATION IN BIOPROCESS TECHNOLOGY.
Effective: Spring 1996
Prerequisite:

Last Import from UCM: June 2, 2012 12:27 PM
Veterinary and Biomedical Sciences (VB SC)

VB SC 050S Mechanisms of Disease (3) Introduction to the study of disease pathogenesis and careers in Animal Health Research and Service.
Effective: Fall 2007

VB SC 097 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

VB SC 101 Careers in Veterinary Medicine and the Allied Professions (1) Exploring career pathways in veterinary medicine and the allied health industry.
Effective: Summer 2011

VB SC 211 (GN) The Immune System and Disease (3) Introduction to the immune system that emphasizes the immune response to infection and consequences of a defective immune response.
Effective: Fall 2007

VB SC 230 The Science of Posions (3) An introduction to toxicology using real world examples of highlight the impact of toxicants on environmental, biochemical and physiological processes.
Effective: Summer 2012
Prerequisite:

VB SC 231 Introduction to Cancer Research and Medicine (3) An understanding of the terminology, basic concepts, techniques, multidisciplinary approaches and challenges in cancer research and medicine.
Effective: Spring 2011
Prerequisite:

VB SC 280 Current Issues in Veterinary Medicine (2) Discussion of the social, ethical and economic aspects of current and emerging issues related to animal ownership and veterinary medicine.
Effective: Fall 2010

VB SC 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.
Effective: Fall 2007

VB SC 303 Principles of Animal Disease (3) Principles involved in the causes of animal diseases; control measures, including sanitation and hygiene.
Effective: Fall 2007
Prerequisite:

VB SC 303H Principles of Animal Disease (3) Principles involved in the causes of animal diseases; control measures, including sanitation and hygiene.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

VB SC 330 Introduction to Molecular Pharmacology (3) An introduction to the basic principles of pharmacology, drug development and use.
Effective: Summer 2007
Prerequisite:

VB SC 395 Internship (1-10) Independent study and supervised field experience related to the student's professional interest. Limited to students in animal agriculture majors.
Effective: Fall 2007
Prerequisite:

VB SC 402W (ENT 402W) Biology of Animal Parasites (3) An introduction to animal parasitology. Emphasis placed on host/parasite interactions, parasites of zoonotic importance, control programs and taxonomy.
Effective: Spring 2010
Prerequisite:

VB SC 405 Laboratory Animal Science (3) Principles involved in maintaining laboratory animals. Emphasis is on management, preventive medicine, and surgical considerations used in laboratory animal colonies.
Effective: Spring 2009
Prerequisite:

VB SC 407 Dairy Herd Health Programs (2) A discussion of health programs for dairy herds to assist in the control of infectious and metabolic diseases of dairy animals.
Effective: Fall 2007
Prerequisite:
VB SC 418 Bacterial Pathogenesis (2) Study of molecular interactions between bacterial pathogens and their hosts.
Effective: Fall 2007
Prerequisite:

VB SC 420 General Animal Pathology (3) Nature and mechanisms of the disease process including degenerations, growth disturbances, inflammation, host-parasite relationships and neoplasia.
Effective: Fall 2007
Prerequisite:

VB SC 421 (BIOL 421) Comparative Anatomy of Vertebrates (4) The comparative anatomy of representative vertebrate animals, discussed from a descriptive and an evolutionary viewpoint.
Effective: Spring 2008
Prerequisite:

VB SC 423W Pathology of Nutritional and Metabolic Diseases (3) Overview of nutritional and metabolic diseases of animals integrating concepts from biochemical and physiologic aberrations to clinical applications.
Effective: Spring 2008
Prerequisite:

VB SC 425 (AN SC 425) Principles of Avian Diseases (3) Principles of pathogenesis and control of diseases in poultry and other avian populations. Case material used where appropriate.
Effective: Spring 2009
Prerequisite:

VB SC 430 Principles of Toxicology (3) Introduction to the biomedical aspects of toxicology with emphasis on the mechanisms and fate of chemical interaction with biological systems.
Effective: Fall 2007
Prerequisite:

VB SC 431 (E R M 431) Environmental Toxicology (3) Effects of pollutants on animal health at the chemical, physical, and cellular level.
Effective: Spring 2011
Prerequisite:

VB SC 432 (B M B 432, MICRB 432) Advanced Immunology: Signaling in the Immune System (3) The study of signaling pathways that regulate the immune response.
Effective: Fall 2007
Prerequisite:

VB SC 433 (B M B 433) Molecular and Cellular Toxicology (3) In-depth coverage of processes by which drugs/chemicals interact with biological systems and the experimental approaches used to study these interactions.
Effective: Fall 2007
Prerequisite:

VB SC 435 (MICRB 435, B M B 435) Viral Pathogenesis (2) A study of the molecular, immunological, and pathological aspects of viral diseases as well as laboratory methods of diagnosis.
Effective: Fall 2007
Prerequisite:

VB SC 444 Epidemiology of Infectious Diseases (3) An introduction to epidemiology of infectious diseases with emphasis on understanding epidemiologic concepts for identifying, preventing and controlling infectious diseases.
Effective: Fall 2007
Prerequisite:

VB SC 445 Molecular Epidemiology of Infectious Diseases (3) A discussion and practicum of the molecular laboratory techniques used to study molecular epidemiology of infectious diseases.
Effective: Fall 2007
Prerequisite:

VB SC 448W Current Topics in Immunology (3) Study of current approaches and questions driving research in immunology and infectious diseases.
Effective: Fall 2007
Prerequisite:

VB SC 451 Immunotoxicology of Drugs and Chemicals (3) An in depth discussion of the effect of xenobiotics and drugs on host immune mechanisms.
Effective: Spring 2008 Ending: Summer 2012
Prerequisite:

VB SC 451 Immunotoxicology of Drugs and Chemicals (3) An in depth discussion of the effect of xenobiotics and drugs on host immune mechanisms.
Effective: Fall 2012 Future: Fall 2012
Prerequisite:

VB SC 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 2007

VB SC 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject that may be topical or of special interest.

The Pennsylvania State University
VB SC 497A Wildlife Diseases (3) An introduction to wildlife diseases emphasizing their impact on wildlife, domestic animals and humans in today's world. The student will learn disease terminology and mechanisms, wildlife disease information sources and selected diseases of historic and current importance for the major taxa. Detailed knowledge of the ecology of diseases that affect wildlife species will be discussed.

Effective: Fall 2007

Last Import from UCM: June 2, 2012 12:27 PM
Wildlife (WILDL)

(These courses are offered only at the DuBois Campus as part of the two-year Wildlife Technology major.)

WILDL 101 Introduction to Wildlife Management (3) Basic principles of wildlife management. Introduction to general ecology and wildlife population dynamics.
Effective: Fall 1985

WILDL 103 Animal Identification (3) Identification of mammals, birds, reptiles, and amphibians; introduction to their life histories.
Effective: Fall 1985

WILDL 106S Wildlife Management Techniques (4) Overview of laboratory and field techniques for natural resource research and management.
Effective: Spring 2012
Prerequisite:

WILDL 204 Wildlife Mensuration (4) Estimation and analysis of animal populations and their habitats, including sampling considerations and basic biometry.
Effective: Spring 1988
Prerequisite:

WILDL 207 Outdoor Recreation (3) Sociology, history, and economics of recreational demand; recreational areas and management procedures.
Effective: Fall 1985

WILDL 207H Outdoor Recreation (3) Sociology, history, and economics of recreational demand; recreational areas and management procedures.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WILDL 208M Terrestrial Wildlife Management (3) Ecological characteristics and manipulation of terrestrial habitats; control of wildlife populations.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012
Prerequisite:

WILDL 208W Terrestrial Wildlife Management (3) Ecological characteristics and manipulation of terrestrial habitats; control of wildlife populations.
Effective: Spring 2000
Prerequisite:

WILDL 209 Animal Handling and Care (4) Techniques in capturing, marking, and maintaining wild animals in captivity. Wildlife physiology, parasitology, and necropsy procedures are covered.
Effective: Spring 1988
Prerequisite:

WILDL 211 Aerial Photo Interpretation (4) Techniques of photo interpretation; type mapping of wildlife environments; photo censusing of wild animals.
Effective: Fall 1985

WILDL 213 Wetlands and Fisheries Management (3) Introduction to basic limnology. Ecology and management of swamp, marsh, pond, and stream habitats and their animal populations.
Effective: Summer 1990
Prerequisite:

WILDL 295 Internship in Wildlife Technology (1-6) Supervised off-campus field experience related to student’s major.
Effective: Fall 1983
Prerequisite:

WILDL 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1983

WILDL 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1983

Last Import from UCM: June 2, 2012 12:27 PM
Wildlife and Fisheries Science (W F S)

W F S 209 (GN) Wildlife and Fisheries Conservation (3) Survey of current and historical issues in wildlife and fisheries conservation; emphasis on vertebrate biodiversity, habitat management and protection, and populations. Effective: Summer 2002
Prerequisite:
W F S 296 Independent Studies (1-18) Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses. Effective: Summer 1994

W F S 300 The Vertebrates (2) Overview of the evolution, systematics, ecology, and behavior of the subphylum vertebrata. Effective: Fall 2001
Prerequisite:
W F S 301 Vertebrate Laboratory (2) Overview of the anatomy, identification, collection, and preservation of the vertebrates. Effective: Fall 2001
Prerequisite:
W F S 310 Wildlife and Fisheries Measurements (3) Introduction to field and laboratory approaches for collecting, analyzing, and communicating data regarding wildlife and fish populations and their habitats. Effective: Fall 2001
Prerequisite:
W F S 406 Ornithology Laboratory (1) Laboratory and field identification of Pennsylvania birds, avian ecology and behavior, field survey techniques. Effective: Fall 2006
Prerequisite:
W F S 407 Ornithology (3) Introduction to the biology, ecology, adaptations, and conservation of birds. Effective: Fall 1996
Prerequisite:
W F S 408 Mammalogy (3) Identification, systematics, characteristics, adaptations, ecology, behavior, natural history and conservation, and socio-economic aspects of mammals. Effective: Spring 1995
Prerequisite:
W F S 409 Mammalogy Laboratory (1) Laboratory and field identification of mammals, ecology and behavior of mammals, field survey techniques. Effective: Fall 2006
Prerequisite:
W F S 410 General Fishery Science (3) Introduction to the study, management, and uses of fish populations; methods of investigation, culture, and harvest of fishes. Effective: Fall 2001
Prerequisite:
W F S 422 Ecology of Fishes (3) Role of fishes in aquatic communities and general ecosystems. Environmental factors influencing fish as individuals, populations, and communities. Effective: Spring 1995
Prerequisite:
W F S 430 (FOR 430) Conservation Biology (3) The application of biological principles to issues in the conservation of biodiversity. Effective: Spring 1995
Prerequisite:
Prerequisite:
W F S 436 (E R M 436) Limnological Methods (3) Application of current methodologies to evaluate the biological, chemical, and physical characteristics of aquatic ecosystems. Effective: Spring 2010
Prerequisite:
W F S 440 Natural Resources Public Relations (3) The course prepares students to integrate public relations concepts with principles of natural resources management at the community level. Effective: Fall 2003
Prerequisite:
Prerequisite:
W F S 447W Wildlife Management (3) Management of renewable wildlife resources by applying ecological concepts, habitat evaluation, and decision-making; writing and editing reports are emphasized.
Effective: Fall 2001
Prerequisite:
W F S 450 (E R M 450) Wetland Conservation (3) Wetland types, classification, functions and values; hydrology, soils, and plants; introduction to wetland identification and delineation; wetland regulations.
Effective: Fall 2001
Prerequisite:
W F S 452 Ichthyology (2) Study of the structure, taxonomy, systematics, and natural history of freshwater and marine fishes.
Effective: Spring 1995
Prerequisite:
W F S 453 Ichthyology Laboratory (2) Identification of fishes, major fish families, use of keys.
Effective: Spring 2001
Prerequisite:
W F S 454 Field Ichthyology (2) Introduction to collection and field identification of the fishes of Pennsylvania.
Effective: Summer 2012
Prerequisite:
W F S 460 Wildlife Behavior (3) Scholarly discussion and critique of history, concepts, and application of wildlife behavioral concepts to conservation issues.
Effective: Spring 2007
Prerequisite:
W F S 462 Amphibians and Reptiles (3) Critique of global evolution and conservation of amphibians and reptiles, focusing on Northeastern U.S. natural history and ecology.
Effective: Spring 2009
Prerequisite:
W F S 463W Fishery Management (3) Management of sport and commercial fisheries, including biological, political, social, and economic factors; regulations and other management techniques.
Effective: Spring 2001
Prerequisite:
W F S 495 Wildlife/Fisheries Internship (1-6) Supervised field experience related to the student's major.
Effective: Spring 1994
Prerequisite:
W F S 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Fall 1989

W F S 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 1989

W F S 497A Ornithology Lab Practicum (1) This one-credit lab practicum must be scheduled concurrently with W F S 406, Ornithology Lab.

W F S 497B Mammalogy Lab Practicum (1) This one-credit lab practicum must be scheduled concurrently with W F S 409, Mammalogy Lab.

W F S 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005 Ending: Summer 2012

W F S 499 (IL) Foreign Studies (1-12 per semester/maximum of 12) Courses offered in foreign countries by individual or group instruction.
Effective: Fall 2012 Future: Fall 2012

Last Import from UCM: June 2, 2012 12:27 PM
Women's Studies (WMNST)

WMNST 001 (GS;US;IL) Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women’s experiences and women’s status in contemporary American society.
Effective: Summer 2005

WMNST 001S (GS;US;IL) Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women’s experiences and women’s status in contemporary American society.
Effective: Fall 2009

WMNST 001U (GS;US;IL) Introduction to Women's Studies (3) Interdisciplinary consideration of the scholarly theories and research pertaining to women’s experiences and women’s status in contemporary American society.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WMNST 003 (GH;US;IL) Introduction to Women, the Humanities, and the Arts (3) Interdisciplinary consideration of primary works and scholarship pertaining to women in the humanities and the arts.
Effective: Summer 2005

WMNST 005S (US) Introduction to Women in Science, Technology, and Engineering (3) The role of women and gender in science, technology, and engineering.
Effective: Summer 2006

WMNST 008 (GH) (PHIL 008) Philosophy and Feminism (3) Explores diverse feminist philosophies of culture and knowledge, and examines gender’s role in accounts of reality, truth, morality, and justice.
Effective: Spring 2006

WMNST 083S (GH;US;IL) First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women’s Studies.
Effective: Summer 2005

WMNST 083T (GH;US;IL) First-Year Seminar in Women's Studies (3) Critical approaches to the dimensions and directions in Women’s Studies.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WMNST 101 (GH;US) (AAA S 101) The African American Woman (3) The sociological, historical and political experiences of African American women, their roles and contributions to society.
Effective: Summer 2005 Ending: Fall 2012

WMNST 101 (GH;US) (AF AM 101) The African American Woman (3) The sociological, historical and political experiences of African American women, their roles and contributions to society.
Effective: Spring 2013 Future: Spring 2013

WMNST 102 (GH;IL) (AAA S 102) Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.
Effective: Summer 2005 Ending: Fall 2012

WMNST 102 (GH;IL) (AF AM 102) Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.
Effective: Spring 2013 Future: Spring 2013

WMNST 103 (US) (AAA S 103, SOC 103) Racism and Sexism (3) Critical analysis of the structure of race and gender inequality in the contemporary United States.
Effective: Summer 2005 Ending: Fall 2012

WMNST 103 (US) (AF AM 103, SOC 103) Racism and Sexism (3) Critical analysis of the structure of race and gender inequality in the contemporary United States.
Effective: Spring 2013 Future: Spring 2013
WMNST 104 (GH;US) (AM ST 104) **Women and the American Experience** (3) Selected aspects of the role of women in United States history and culture from colonial to modern times. Effective: Summer 2005

WMNST 110 (GS;US) (SOC 110) **Sociology of Gender** (3) Changing sex role expectations and behavior for men and women in contemporary society. Effective: Summer 2005

WMNST 116 (GS;US;IL) (HIST 116) **Family and Sex Roles in Modern History** (3) Historical perspectives on the Western family since 1500: gender roles, marriage, sexuality, child rearing, and old age; emphasis on United States. Effective: Spring 2006

WMNST 117 (GH;US;IL) (HIST 117) **Women in Modern History** (3) Modernization and women: changing images and roles since mid-eighteenth century in the family, workshop, politics, society. Cross-cultural comparisons. Effective: Summer 2005

WMNST 136 (US) (LER 136) **Race, Gender, and Employment** (3) Employment relations and legislative and policy responses to labor force issues of racial and gender inequality. Effective: Spring 2008

WMNST 137 (GH;US;IL) (RL ST 137) **Women and Religion** (3) Jewish and Christian religious views on womanhood; thought and lives of important religious women; and feminist understandings of these. Effective: Spring 2006 Ending: Summer 2012

WMNST 166 (GH;US) (HIST 166) **History of Sexuality** (3) Discusses the ideas, practices, and identities surrounding sexuality over several centuries in a variety of contexts, focusing primarily on the US. Effective: Summer 2012

WMNST 194 (GH;US;IL) (ENGL 194) **Women Writers** (3) Short stories, novels, poetry, drama, and essays by British, American, and other English-speaking women writers. Effective: Summer 2005

WMNST 197 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1995

WMNST 199 (IL) **Foreign Studies** (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

WMNST 200 (GS;IL) **Global Feminisms** (3) This course examines the diverse contents and forms of “feminism” worldwide, emphasizing women’s engagement with unequal, unjust, impacts of globalization. Effective: Summer 2012

WMNST 202 (GS;IL) (AAA S 202) **Gender Dynamics in Africa** (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories. Effective: Summer 2005 Ending: Summer 2012

WMNST 225 (GA;GH) (ENGL 225, ART H 225) **Sexuality and Modern Visual Culture** (3) An examination of the visual expression of gender and sexual identities in English-speaking cultures since the late nineteenth century.
WMNST 227 (GH;US;IL) (ENGL 227) Introduction to Culture and Sexuality (3) A course addressing the relationships between sexuality, literature, and culture. Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 245 (GH;US) (ENGL 245) Introduction to Lesbian and Gay Studies (3) An introduction to the study of sex and (homo) sexual identity across a wide range of disciplines and methodologies. Effective: Spring 2013 Future: Spring 2013

WMNST 250 (US) (HD FS 250) Sexual Identity Over the Lifespan (3) Concepts of affectional and sexual orientation over lifespan, with emphasis on lesbian and gay male personal, family, and community adaptation. Effective: Summer 2005
Prerequisite:

WMNST 270 (FR 270) Race and Gender in Literature Translated from French (3) A critical presentation, taught in English, of changing ideas and values on race and gender in French and Francophone literatures. Effective: Spring 2005
Prerequisite:

WMNST 280 (GH;IL) (J ST 280, RL ST 280) Women and Judaism (3) Explores the Jewish views of women that have influenced the roles of women within both the religion and Western culture. Effective: Fall 2005

WMNST 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis. Effective: Summer 1994

WMNST 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Summer 1986

WMNST 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Summer 1984

WMNST 297A Transgender Studies (3) This course will provide students with a historical, theoretical, and cultural introduction to the field of transgender studies. Effective: Summer 2012 Ending: Summer 2012

WMNST 299 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction. Effective: Summer 2005

WMNST 300 (US) (LTNST 300) Latina Feminisms (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States. Effective: Summer 2006 Ending: Fall 2012
Prerequisite:

WMNST 300 (US) (LTNST 300) Latinas in the US: Gender Culture and Society (3) This course examines the historical development, theoretical premises, and political, social, and artistic contributions of Latina feminisms in the United States. Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 301 Introduction to Feminist Thought (3) An interdisciplinary survey of historical and contemporary feminist theories in both the United States and international contexts. Effective: Summer 1996 Ending: Fall 2012
Prerequisite:

WMNST 301 (GH;US;IL) Sexualities, Gender and Power: Feminist Though and Politics (3) An interdisciplinary survey of historical and contemporary feminist theories in both the United States and international contexts. Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 364 (GS;US) (AAA S 364) Black & White Sexuality (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality. Effective: Spring 2007 Ending: Summer 2012

WMNST 364 (GS;US) (AF AM 364) Black & White Sexuality (3) This course explains how narrow ways of thinking limit our understanding of the diverse expressions of human sexuality. Effective: Fall 2012 Future: Fall 2012
WMNST 395 Internship (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Summer 1996

WMNST 399 (IL) Foreign Studies (12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

WMNST 400 (US;IL) Feminist Theory (3) Consideration of feminist theories of women's experience in transforming understanding, reconceptualizing old problems, raising new ones, and expanding traditional disciplines.
Effective: Summer 2005 Ending: Fall 2012
Prerequisite:

WMNST 400 (US;IL) Debates in Contemporary Feminism (3) Consideration of feminist theories of women's experience in transforming understanding, reconceptualizing old problems, raising new ones, and expanding traditional disciplines.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 401 Feminist Perspectives on Research and Teaching (3) Feminist approaches to methodological issues in research and teaching in the social sciences and the humanities.
Effective: Fall 2009 Ending: Fall 2012
Prerequisite:

WMNST 401 Doing Feminism: Theory and Practice (3) Advanced analysis of feminist theory and the nature of its integration (sometimes uneasily) within feminist movements and practices.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 407 (US) (THEA 407) Women and Theatre (3) A study of theatre practice and dramatic literature as informed by issues of gender, race, and ethnic background.
Effective: Summer 2005
Prerequisite:

Effective: Spring 2005

WMNST 416 (US;IL) (AAA S 416, S T S 416) Race, Gender and Science (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.
Effective: Summer 2008 Ending: Fall 2012
Prerequisite:

WMNST 416 (US;IL) (AF AM 416, S T S 416) Race, Gender and Science (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.
Effective: Spring 2013 Future: Spring 2013
Prerequisite:

WMNST 420 (US;IL) (CED 420, R SOC 420) Women in Developing Countries (3) Analysis of women's work, experiences, and development policies and practices in Africa, Asia, and Latin America.
Effective: Fall 2009

WMNST 421 (IL) (HIST 421) The History of European Women (3) European women's lives from the Middle Ages to the present.
Effective: Spring 2006
Prerequisite:

WMNST 423 (US) (CRIMJ 423, CRIM 423) Sexual and Domestic Violence (3) Legal, sociological, and psychological perspectives of sexual and domestic violence.
Effective: Spring 2008
Prerequisite:

WMNST 424 (US) (KINES 424) Women and Sport (3) An interdisciplinary approach to contemporary issues related to women and sport from historical, physiological, psychological, and sociological perspectives.
Effective: Spring 2007
Prerequisite:

WMNST 426Y (US;IL) (GEOG 426Y) Gender and Geography (3) Description and explanation of the links between gender relations and spatial structures; gender and work, social services, and neighborhood activism.
Effective: Summer 2011
Prerequisite:

WMNST 428 (US;IL) (PL SC 428) Gender and Politics (3) Gender in politics in the United States and around the world; major areas of women and politics research.
Effective: Fall 2007
Prerequisite:

WMNST 430 (US) (AM ST 430) Women in American Society (3) A historical study of women's roles and experiences in the...
United States. 
Effective: Spring 2008 
Prerequisite: 
WMNST 432 (US) **Women in Politics in the U.S.** (3) Course examines the U.S. women's movements, the participation of women in politics, and selected areas of public policy. 
Effective: Spring 2008 
Prerequisite: 
WMNST 438 (PHIL 438) **Feminist Philosophy** (3) Examines the central currents of feminist philosophy, selected problems and concepts regarding difference, gender and sex, identity, and political culture. 
Effective: Fall 2007 
Prerequisite: 
WMNST 452 (US) (BB H 452, NURS 452) **Women's Health Issues** (3) Exploration of major health issues concerning women today, with an emphasis on social, cultural, and medical influences. 
Effective: Spring 2007 
Prerequisite: 
WMNST 453 (US) (CRIMJ 453, CRIM 453) **Women and the Criminal Justice System** (3) This course focuses on the experiences of women as offenders, victims, and professionals in the criminal justice system. 
Effective: Spring 2008 
Prerequisite: 
WMNST 455 (US) (CAS 455) **Gender Roles in Communication** (3) Explores the literature on gender research in the discipline of human communication. 
Effective: Summer 2005 
Prerequisite: 
WMNST 456 (SOC 456) **Gender, Occupations, and Professions** (3) The role of gender in shaping contemporary North American patterns of employment, occupational roles, and statuses. 
Effective: Spring 1991 
Prerequisite: 
WMNST 457 (US;IL) (HIST 457, S T S 457) **The History of Women in Science** (3) Critical analysis of the roles women, gender, and minorities have played in the natural sciences. 
Effective: Fall 2011 
Prerequisite: 
WMNST 458 (BB H 458) **Critical Issues in Reproduction** (3) Examination and analysis of the new reproductive technologies from the standpoint of medical ethics, feminism, and sociocultural influences. 
Effective: Spring 2007 
Prerequisite: 
WMNST 462 (US) (ENGL 462) **Reading Black, Reading Feminist** (3) Female identity and its construction in textual representations of gender, class, color, and cultural difference in English-language literatures. 
Effective: Summer 2005 
Prerequisite: 
WMNST 464 (US) (BE SC 464) **Feminine/Masculine** (3) Study of sex role learning; investigating feminine/masculine labeling; implications for contemporary society. 
Effective: Spring 2008 
Prerequisite: 
WMNST 466 (US;IL) (HIST 466) **Lesbian and Gay History** (3) Critical exploration of the history of sexuality, focusing especially on the emergence of modern lesbian and gay identities. 
Effective: Summer 2005 
Prerequisite: 
WMNST 471 (US) (PSYCH 479) **The Psychology of Gender** (3) Theories and research on gender differences and gender roles. Emphasis on women's and men's current positions in society. 
Effective: Spring 2007 
Prerequisite: 
WMNST 472 (LER 472) **Work-Life Practices and Policies** (3) Explore the causes and consequences of conflicts between work, family, and other life commitments, and how these may be resolved. 
Effective: Spring 2008 
Prerequisite: 
WMNST 489 (ENGL 489) **British Women Writers** (3) A study of selected British women writers. 
Effective: Spring 2008 
Prerequisite: 
WMNST 490 (US;IL) (ENGL 490) **Women Writers and Their Worlds** (3) American and British literature written from the perspective of women. 
Effective: Summer 2005 
Prerequisite: 
WMNST 491 (AM ST 476, ENGL 492) **American Women Writers** (3) A study of selected American women writers. 
Effective: Spring 2008 
Prerequisite:
WMNST 492W **Current Feminist Issues** (3) Critical analysis of major contemporary feminist research and writing in the arts, humanities, social and natural sciences.
Effective: Spring 2002
Prerequisite:

WMNST 494 **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Summer 1994

WMNST 494H **Research Project** (1-12) Supervised student activities on research projects identified on an individual or small-group basis.
Effective: Fall 2007

WMNST 495 **Internship** (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.
Effective: Spring 1998
Prerequisite:

WMNST 496 **Independent Studies** (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside scope of formal courses.
Effective: Fall 1983

WMNST 497 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1984

WMNST 497A **Rhetoric and Controversy** (3) Survey of important events in the history of public address, including speeches, debates, and persuasive campaigns and movements.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WMNST 497B (HIST 497B) **Women and Gender in East Asia** (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WMNST 497C **Black Women’s History from Slavery to the Present** (3) This course explores African American women’s history from slavery to the present.
Effective: Fall 2012 Ending: Fall 2012 Future: Fall 2012

WMNST 499 (IL) **Foreign Studies** (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Wood Products (W P)

W P 200W (FOR 200W) Professional Careers in Forest Resources (3) Introduction to managing forests for products and services to meet human needs; developing career goals and an academic plan. Effective: Spring 1996
Concurrent: W P 203

W P 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. Effective: Spring 1993

W P 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest. Effective: Spring 1993

W P 337 Wood Technology (2) An introduction to forest tree structure, function, and growth and the identification of important commercial hardwoods and softwoods. Effective: Summer 1997
Prerequisite:

Prerequisite:

W P 411 Wood-Environmental Relationships (4) Material composition and structure; basic and derived physical properties; moisture movement in wood; methods and techniques of drying wood. Effective: Spring 2001
Prerequisite:

W P 412 Wood in Structures (3) Behavior and design of solid, laminated, and plywood wood beams, trusses, columns, and foundations. Wood construction details. Effective: Summer 1997
Prerequisite:

W P 413 The Chemistry of Wood (3) Chemical composition, reactions, and properties in relation to products and the uses of wood. Effective: Summer 1997
Prerequisite:

W P 416 Wood Industries Management Development (3) Managerial concepts and issues important to forest products organizations will help prepare students to assume management-level positions. Effective: Spring 2004
Prerequisite:

W P 417 Wood Products Manufacturing Systems and Processes (4) Description of systems and processes used in the manufacture of wood products. Effective: Summer 1997
Prerequisite:

W P 418 Chemical Processing of Wood (4) Principles and practices of basic operations in converting wood and wood waste into useful chemicals and modified cellulose products. Effective: Summer 1997
Prerequisite:

W P 423 Deterioration and Protection of Wood Products (2) Timber and wood deterioration from fungi, insects, fire; treatment of wood products for protection. Effective: Fall 1996
Prerequisite:

W P 435 Wood Products Production and Sales Management (3) Wood products production management with emphasis on investment decision-making, personal selling, and sales management. Effective: Fall 1996
Prerequisite:

W P 437W Wood Industries Marketing Management (4) Examination of major international wood products market segments in terms of products, distribution, industry structure, and strategic management issues. Effective: Summer 1997
Prerequisite:

W P 438 Business Concepts for Wood Manufacturing (4) The course will cover manufacturing strategies and related
financial measures in a wood production environment.
Effective: Summer 2003
Prerequisite:
W P 460 Wood Products Industrial Environmental Control (3) Wood products industrial environmental control technologies and strategies for pollution abatement.
Effective: Summer 1995
Prerequisite:
W P 490 Wood Products Colloquium (1) Presentations and discussions of solutions to problems within the forest products industry.
Effective: Spring 1993
Prerequisite:
W P 495 Wood Products Internship (1-6) Supervised field experience related to the student's major.
Effective: Spring 1993
Prerequisite:
W P 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Spring 1993
W P 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Spring 1993
W P 499 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.
Effective: Summer 2005

Last Import from UCM: June 2, 2012 12:27 PM
Workforce Education and Development (WF ED)

WF ED 001 Education for Work: Trends and Issues (3) Overview of the history and philosophies of education for employment, current issues, and school to work transition system.
Effective: Summer 1996

WF ED 100 Orientation to Teaching Vocational Industrial Education/Health Occupations Education Subjects (2) Basic elements of preparing to teach vocational trade and industrial/health occupations education subjects in the schools of Pennsylvania.
Effective: Summer 1996

WF ED 101 Early Field Experience in Teaching Vocational Industrial Education/Health Occupations Education Subjects (1) Discussion and observation of in-school practices to aid the student in making vocational industrial education/health occupations education career decisions.
Effective: Summer 1996

WF ED 105 Integrated Curriculum Implementation (3) Occupational analysis for instructional planning; emphasis on instructional methods to deliver a competency based program in an integrated learning environment.
Effective: Summer 1996
Prerequisite:

WF ED 106 Program and Facilities Management (3) Organization and management of learning laboratory to facilitate the delivery of a competency based program in a safe environment.
Effective: Fall 2001

WF ED 197 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 198 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 207W Assessment Techniques (3) Assessment, recording, and reporting of learning in an integrated competency based vocational education system.
Effective: Summer 1996
Prerequisite:

WF ED 270 Introduction to Industrial Training (3) Overview of training profession. Introduction to economic and psychological foundations. Examination of relationship of industrial training to education.
Effective: Spring 2003

WF ED 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

WF ED 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 298 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 310 Leadership Competencies for Supervisors (3) Designed to teach contemporary supervisory leadership competencies for mid-career learners with front-line supervisory responsibilities in the workplace.
Effective: Summer 2011
Prerequisite:

WF ED 323 Vocational Student Organizations (3) Methods in originating, managing, and advising vocational student organizations.
Effective: Summer 1996

WF ED 395A Trade and Industrial Occupational Experience (1-8 per semester/maximum of 24) Individual work experience in manufacturing environment or skilled craft area to develop professional competence in specific occupation.
Effective: Summer 1996
Prerequisite:

WF ED 395B **Occupational Home Economics Work Experience** (1-8 per semester, maximum of 24) Individual work experience in service occupations such as food service, textile production, or child care.
Effective: Summer 1996
Prerequisite:

WF ED 395C **Health Occupations Work Experience** (1-8 per semester, maximum of 24) Individual work experience in an allied or professional healthcare setting.
Effective: Summer 1996
Prerequisite:

WF ED 395D **Occupational Work Experience** (1-8 per semester, maximum of 24) Individual work experience in the manufacturing, health, service, or financial arena.
Effective: Summer 1996

WF ED 397 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 398 **Special Topics** (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 402 **Supervision of Vocational Education** (3) For administrators, supervisors, and teachers responsible for improvement of instruction through supervision or for students preparing for supervisory work.
Effective: Fall 2001

WF ED 405 **Project Management for Professionals** (3) Covers the essential concepts and skills needed to make effective contributions on projects, on time and within budget.
Effective: Summer 2011
Prerequisite:

WF ED 410 **Leadership Competencies for Professionals** (3) Designed to teach contemporary professional leadership competencies for workforce professionals who do not currently have supervisory responsibilities.
Effective: Summer 2011
Prerequisite:

WF ED 413 **Vocational Education for Special-Needs Learners** (3) Introduction to program modifications, supplementary services, and resources required for special-needs learners in vocational and practical arts education programs.
Effective: Fall 2001

WF ED 424 (CN ED 424) **Facilitating Career Development** (3) This course provides individuals with relevant skills and knowledge to assist others in planning careers and obtaining meaningful work.
Effective: Summer 2012
Prerequisite:

WF ED 441 **Conceptual and Legal Bases for Cooperative Vocational Education** (2) History, conceptual and legal bases for a cooperative vocational education program.
Effective: Summer 1996
Prerequisite:

WF ED 442 **Operating Cooperative Vocational Education Programs** (2) Student and training station selection, training plan and related subject development, records and reporting systems, school-industry coordination.
Effective: Summer 1996
Prerequisite:

WF ED 445 **Vocational Guidance** (3) Problems and possibilities of vocational guidance; the field of guidance and guidance literature; methods of field work; school guidance techniques.
Effective: Summer 1996
Prerequisite:

WF ED 450 (US;IL) **Cultural Diversity in the Workplace** (3) Provides opportunities for students to explore different cultures and mores that are changing the dynamics of the workplace.
Effective: Fall 2006

WF ED 471 **Training in Industry and Business** (3) Appraisal of training functions and development of competencies in work analysis, design, development, delivery, and evaluation of training.
Effective: Spring 2001
Prerequisite:

WF ED 495 **Internship** (1-6) Supervised off-campus, nongroup instruction including field experiences, practicums, or internships. Written and oral critique of activity required.
Effective: Summer 1996

The Pennsylvania State University
Prerequisite:
WF ED 495A Cooperative Education Practicum (2) Validation of competencies learned in prerequisite courses during interaction with professional staff while functioning under the supervision of a certified cooperative coordinator.
Effective: Summer 1996
Prerequisite:
WF ED 495C Student Teaching (10) Supervised observation and practice teaching in approved vocational industrial schools/health occupations education settings.
Effective: Spring 1997
Prerequisite:
WF ED 495D Instructional Internship in Industrial Training (5) Supervised internship in industrial training. Interns will be expected to perform instructional duties in industrial environments.
Effective: Summer 1996
Prerequisite:
WF ED 496 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
Effective: Summer 1996

WF ED 497 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 498 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
Effective: Summer 1996

WF ED 498A Teaching the Family and Consumer Sciences Academic Standards: Teaching Students in the Digital Age (3) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Long Course Descriptions

Accounting (ACCTG)

ACCTG 151 Introductory Financial Accounting I (3) Basic concepts, principles, and practices for the recording, summarizing, and interpreting of accounting data.

Introductory Financial Accounting I (3)
General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 1995

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 152 Introductory Financial Accounting II (3) Accounting for partnerships, corporations, cash flows, certain liabilities and assets, and the analysis of financial statements.

Introductory Financial Accounting II (3)
General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 1995
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 160 Cost Accounting (3) Use of standard cost accounting procedures to present cost and budget statements as a means of providing managerial control. Students may not receive credit for both ACCTG 160 and ACCTG 404.

Cost Accounting (3)
General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2008
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 197 Special Topics (1-9) Formal courses given infrequently to explore, in-depth, a comparatively narrow subject which may be topical or of special interest.

Special Topics (1-9)
General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2008

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 199 (IL) Foreign Studies (1-12) Courses offered in foreign countries by individual or group instruction.

Foreign Studies (1-12)
General Education: None
Diversity: IL
Bachelor of Arts: None
Effective: Summer 2007

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 201 Introductory Financial Accounting (3)
This course is designed as an introductory course providing the first steps to an understanding of the basic principles of accounting from a financial perspective. Because business administration students need to understand the basic principles of financial accounting as fundamental to their field, they need to be grounded in the knowledge of basic concepts, principles, and practices for the recording, summarizing, and interpreting of accounting data. Specifically, acknowledge of accounting for partnerships, corporations, cash flows, certain liabilities and assets, and the analysis of financial statements are presented. Some financial accounting methods, theory and concepts as well as problem analysis in applying concepts to financial statements is also introduced.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 2004

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 202 Introductory Managerial Accounting (3) Actual and standard cost system, managerial use of cost, data, budgeting and performance evaluation.

ACCTG 202 Introductory Managerial Accounting (3)
This course is designed as an introductory course providing the first steps to an understanding of the basic principles of accounting from a managerial perspective. Because business administration students need to understand the basic principles of managerial accounting as fundamental to their field, they need to be grounded in the knowledge of actual and standard cost systems, the use of cost data, and budgeting and performance evaluation. More specifically, students will be introduced to:
1) principles of manufacturing cost
2) cost determination
3) cost behavior
4) cost-benefit analysis
5) standard cost budgeting and variance analysis in performance evaluation
6) capital investment decisions
7) product pricing decisions

In the course students will also be introduced to the elements of investor decision making.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 2004
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ACCTG 211 Financial and Managerial Accounting for Decision Making (4) Introduction to the role of accounting numbers in the process of managing a business and in investor decision making.

ACCTG 211 Financial and Managerial Accounting for Decision Making (4)
The objective of this course is to introduce students to the discipline of accounting through an introduction to two of accounting’s sub-disciplines, financial and managerial accounting. The more specific purpose is to provide students a basic understanding of the role of financial and managerial accounting information in the decisions of capital market participants external to a business enterprise (e.g., stockholders, banks, financial analysts, prospective stockholders), and in the decisions of those who manage business enterprises. Accounting information has an important role in the resource allocation process in our socio-economic system as a whole, as well as in each individual business enterprise. This course provides students an understanding of (1) the nature of the accounting function, and (2) how the information in accounting reports are used by various decision makers in their resource allocation decisions.

In this course students will develop an understanding of (a) the five activity dimensions of accounting (the collection, recording, analysis, interpretation and reporting of information to decision makers for (mainly) their investment decisions), (b) the issues surrounding the five activity dimensions, (c) the environment in which accounting is practiced, and (d) what information is used in a number of specific decision situations, and how such information is used in such decision situations. The analysis, interpretation and decision-making orientation of this course includes a study of the procedural (mechanical and processing) aspects of the recording activity dimension which is an important means to the end --where the end is the analysis and interpretation of the information, and the reports produced by the recording/processing part of accounting. Through this focus on the recording activity dimension, students will obtain an understanding of (a) the nature and quality (strengths and weaknesses) of accounting information, (b) how to proceed in analyzing and interpreting accounting information, and (c) numerous other aspects of financial and managerial accounting.

This course is an important background course for all business majors, as well as for numerous non-business majors.

The Pennsylvania State University
ACCTG 211H Financial and Managerial Accounting for Decision Making (4)

The objective of this course is to introduce students to the discipline of accounting through an introduction to two of accounting's sub-disciplines, financial and managerial accounting. The more specific purpose is to provide students a basic understanding of the role of financial and managerial accounting information in the decisions of capital market participants external to a business enterprise (e.g., stockholders, banks, financial analysts, prospective stockholders), and in the decisions of those who manage business enterprises. Accounting information has an important role in the resource allocation process in our socio-economic system as a whole, as well as in each individual business enterprise. This course provides students an understanding of (1) the nature of the accounting function, and (2) how the information in accounting reports are used by various decision makers in their resource allocation decisions.

In this course students will develop an understanding of (a) the five activity dimensions of accounting (the collection, recording, analysis, interpretation and reporting of information to decision makers for (mainly) their investment decisions), (b) the issues surrounding the five activity dimensions, (c) the environment in which accounting is practiced, and (d) what information is used in a number of specific decision situations, and how such information is used in such decision situations. The analysis, interpretation and decision-making orientation of this course includes a study of the procedural (mechanical and processing) aspects of the recording activity dimension which is an important means to the end --where the end is the analysis and interpretation of the information, and the reports produced by the recording/processing part of accounting. Through this focus on the recording activity dimension, students will obtain an understanding of (a) the nature and quality (strengths and weaknesses) of accounting information, (b) how to proceed in analyzing and interpreting accounting information, and (c) numerous other aspects of financial and managerial accounting.

This course is an important background course for all business majors, as well as for numerous non-business majors. For accounting majors it is a prerequisite for ACCTG 306, 404, and 471.

The course format consists of lectures, outside reading, class discussion, projects and homework assignments.

The semester grade for this course will be determined by a weighted average of performance on mainly exams, quizzes, projects and participation.

ACCTG 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small group basis.

ACCTG 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.
ACCTG 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

**Special Topics (1-9)**
General Education: None
Diversity: None

ACCTG 305 Financial Statements and Management Decisions (4) Impact of management's financing, investing, and operating decisions on GAAP- based financial statements. Students who have passed ACNTG 310 or 311 may not take this course for credit.

**ACCTG 305 Financial Statements and Managerial Decisions (4)**
This course is a one-semester alternative to the traditional two-semester intermediate accounting sequence (ACCTG 371 and 472) intended for the non-accounting major. Students who have passed ACCTG 371 or 472 may not take this course for credit. It is a required course for the Finance major. It will also substitute for ACCTG 371 in meeting the requirements for an Accounting minor, and serve as a business supporting course for students in other School of Business majors.

Students will gain a fundamental understanding of the information conveyed in the financial statements and, as a result, develop an appreciation for its usefulness and limitations in decision making. They will also develop the prerequisite knowledge base necessary to conduct financial statement analysis as required in Level I of the Chartered Financial Analyst (CFA) exam. A financial statement user decision-making perspective, rather than the accountant/preparer approach found in the traditional intermediate accounting course, is emphasized. Student success in meeting the learning objectives will be assessed through a combination of exams, homework problems, and assignments. The comprehensive final exam will test the student's comprehension of the relevant material.

ACCTG 310 Federal Taxation I (3) Study of income determination concepts for individuals and corporations, impact of taxation on decisions, elementary research techniques, and ethical standards.

ACCTG 310

**ACCTG 310 Principles of Taxation (3)**
This course is directed to the study of concepts relative to: (a) the determination of taxable income and tax liability, (b) the influence of tax considerations on the decisions of taxpayers, and (c) elementary tax research techniques. Primary emphasis is given to concepts that are fundamental to the federal taxation of income with respect to business entities. Also, basic aspects of the taxation of individuals are introduced.

The objectives of this course are to enable students to do the following:
1) apply basic tax rules and regulations to compute the taxable income and federal income tax liability for corporate and individual taxpayers,
2) incorporate tax costs and tax benefits into calculations of the net present value of cash inflows and outflows from taxable activities,
3) recognize tax planning opportunities or problems inherent in common transactions, and
4) appreciate the impact of the basis of accounting on both tax and financial reporting.

Typical topics include sources of authority, structure of an income tax, property transactions, choice of entity, distribution of income, selection of jurisdiction, means of financing, and taxation of individuals. Students should be familiar with basic accounting concepts, should understand the nature of financial instruments, and should be able to apply the concept of present value and future value in estimating cash inflows and outflows.

The Pennsylvania State University
This is a required course for accounting majors and, for many of them, the only tax course that they take. Other students who meet the prerequisite requirements may take this course as an elective. Also, this principles course in taxation is a prerequisite requirement for an advanced course in taxation.

Evaluation is based primarily on periodic examinations. No special facilities are required. However, students have on-line access to tax laws and regulations, tax cases, and administrative guidance. This course is generally offered every semester with enrollments of twenty to thirty students per section.

Faculty Member Proposing Course: Jean Harris

ACCTG 311 Accounting Systems and Control (3) Introduction to accounting procedures to gather, to aggregate, and to report accounting data to managers and to external readers.

ACCTG 311 Accounting Information Systems (3)

This course pertains to the study of accounting information systems as an important part of a firm’s total information systems. The accounting cycle, as the key process providing financial information to management, is thoroughly reviewed and documented. Emphasis is given to the importance of computer-based accounting information systems in supporting internal controls and improving financial reporting, asset security and efficiency and effectiveness of performance. Course objectives: 1.) to understand the accounting model and specifically, the accounting cycle within a business entity; 2.) to process business and accounting transactions and complete the accounting cycle within a computer-based accounting information system; 3.) to analyze accounting information and related internal controls within a computer-based accounting information system; 4.) to examine relevant ethical issues; 5.) to gain an appreciation for evolving technology advancements, such as ERP’s and e-commerce, and their impact on the accounting cycle and internal controls. This is a prescribed course for majors in Accounting and it serves as a foundation and prerequisite for most 300-level and 400-level accounting courses. Students will be evaluated based on performance on exams, computer-based accounting system project, and periodic homework assignments. Typically, 50% or more of student’s grade is based on performance on exams. Course will be taught in either a technology classroom with computers for all students or periodic sessions in the computer lab. [Students will require consistent access to a computer to complete computer-based accounting system project].

ACCTG 312 Accounting Technology Lab (3) Hands-on course to teach accounting software, applications of spreadsheets and databases in accounting, and surveying of underlying database theory.

ACCTG 312 Accounting Technology Lab (3)

This is a hands-on course to teach accounting software, applications of spreadsheets and databases in accounting, and surveying of underlying database theory.

ACCTG 340 Cost Accounting (3) Accounting for manufacturing concerns; actual and standard cost systems, and managerial uses of cost data.

Cost Accounting (3)

ACCTG 404 Managerial Accounting: Economic Perspective (3) Accounting techniques as planning, control, and motivating devices in business and other organizations; accounting data for decision making and performance evaluation.

ACCTG 404 Managerial Accounting (3)
This course emphasizes the use of accounting information for internal purposes as opposed to the external disclosure focus of the financial accounting course. The cost covers the vocabulary and mechanics of cost accounting and the design of management accounting systems for planning and controlling operations, and for motivating personnel. The course integrates accounting with ideas from data analysis, decision analysis, finance, microeconomics, and operations management. The themes stressed throughout the course will be the notion that information is costly; the circumstances that necessitate cost allocation, the idea that different costs and different allocation schemes apply for different purposes; and fundamentals of incentive and compensation plans. Among the topics covered are cost behavior, cost-volume analysis, relevant costs, and the use of cost information for decision making. The course will rely on lectures and discussion of case studies.

ACCTG 405 Principles of Taxation I (3) Elements of tax policy and tax-planning concepts for personal and business decision making; with emphasis on taxation of individuals.

ACCTG 405 Principles of Taxation (3)
Introduction to Taxation, is the first course that undergraduate accounting majors take that is devoted entirely to taxation. Although the course is intended for accounting majors, the content is relevant to finance majors seeking elective courses. The objective of the course is to provide students with a basic understanding of the concepts, terminology, and decision-making skills specific to the discipline of taxation that are germane to the professional development of those preparing for a career in accounting. Although the course surveys the many forms of taxation that are found in industrialized societies, and the comparisons thereof, the main focus is on the federal income taxation of individuals. However, coverage is provided regarding the manner in which the taxation of individuals relates to corporate and partnership entities. ACCTG 405 is related to other accounting courses through its coverage of income concepts, and micro-economic principles. The former compares differences in the measurement of financial accounting income with the manner in which income is determined according to the tax laws. The latter emphasizes business decision-making principles that are important in the managerial portion of the accounting program. The course covers topics that illustrate fundamental tax strategies and how such enable taxpayers to achieve business and personal economic objectives. The assessment process in ACCTG 405 incorporates examinations, homework assignments, and individual and group projects. The exams are combinations of objective questions and open-ended problems. Exams are often given in the evening. Course learning aids include a textbook, on-line tax research services, spreadsheet software, and a packet of handouts prepared by instructors to keep the classes updated on the many changes in the tax laws that occur each year.

**ACCTG 432** Accounting Information Systems (3) Systems analysis tools and techniques; internal control concepts; development of computer control procedures.

**ACCTG 432** Accounting Information Systems (3)

Accounting data are utilized as information in making decisions and as a control mechanism. The focus of this course, however, will be upon the actual production of accounting data.

The purpose of the course is to learn how accountants collect relevant data and transform them into reports appropriate for managers and external readers. Procedural details will focus first on the traditional accounting cycle and the journal entries for business transactions and events. Then we shall examine in detail the principle accounting cycles: sales cycle, cash receipts cycle, purchases cycle, cash disbursements cycle, payroll cycle, facilities cycle, general ledger cycle, production cycle.

For each cycle, you should be able to explain the relation of the accounting process to the business enterprise, the basic journal entries, the basic internal control features, and the document flow.

ACCTG 471 Intermediate Financial Accounting I (3) Theory and practice issues in income concepts and value measurement; GAAP; revenues, costs, assets, liabilities, and equities.

Intermediate Financial Accounting I (3)

This course provides students with an understanding of generally accepted accounting principles and procedures so that they properly account for and present information in financial statements prepared for external users. The student should acquire a complete understanding of the accounting issues relating to cash, receivables, inventory, plant assets, natural resources, and intangibles. The student should be able to evaluate alternative accounting methods and choose the methods which will best convey the financial information related to the above areas. The student should be able to apply appropriate generally accepted accounting principles and procedures to account for transactions related to the above asset areas. The student should be able to demonstrate an understanding of the transaction analysis, recording, classification, summarization, and reporting procedures in the accounting cycle, and an understanding of the information contained in the financial statements. Finally, student should be able to demonstrate written communication skills required of accountants.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2008

ACCTG 472 Intermediate Financial Accounting II (3) Off-balance-sheet financing; special issues in cost capitalization, liabilities, and equities; matching; funds flow statements; statement analysis; inflation accounting.

Intermediate Financial Accounting II (3)

ACCTG 473 Advanced Financial Accounting (3)
This course explores four major topics: accounting for business combinations, introduction to derivatives and special purpose entities, accounting for foreign currency transactions and consolidating foreign subsidiaries, and ethics and policy issues for the profession.

ACCTG 481 Financial Statement Analysis (3)
The proposed course in financial statement analysis is structured to improve the student's ability to extract and interpret information from actual financial statements and to expose the student to how financial statement information is integrated into equity valuation and credit analysis. The course would not only rely upon textbook-based and lecture-based learning, but also emphasize case-based learning.

The course will consist of two main sections. The first will deal with accounting and business analysis. This part will explore the types of financial information data typically available for publicly traded companies and introduce a model of the economic drivers of company performance. It would incorporate some technical accounting as well as some standards business economics/strategy concepts. Students will be forced to recast financial statements that they believe do not reflect the underlying economic state of the company. Financial reporting issues relating to revenue and expense recognition, leases and consolidations will be discussed.

The other section of the course will deal with firm valuation. Students would be exposed to some standard approaches to equity valuation and the analysis activities underlying these approaches. Aspects of valuation that would be covered in this section of the course are financial ratio analysis, forecasting, pro-forma statements, cost of capital and valuation methods.

The course will rely on lectures and extensive use of case studies.

ACCTG 483 Forensic Accounting (3)
ACCTG 483 is the exploration of the broad discipline known as "forensic accounting," which includes a variety of investigative accounting, consulting and litigation support activities undertaken in forensic accounting engagements.

ACCTG 483 Forensic Accounting (3)
ACCTG 483 is the exploration of the broad discipline known as “forensic accounting,” which includes a variety of investigative accounting, valuation, damage assessment and litigation support services. Forensic accounting is an evolving discipline which is distinguished from assurance services in that it does not involve reporting on the fairness of financial statements. It generally involves the investigation and analysis of financial data for some specific purpose – obtaining an in-depth understanding of information that enables the forensic accountant to prove, disprove or at least confidently speculate about allegations related to the information and to report those findings objectively.

Forensic accountants are involved in presenting analyses that might be valuable for such things as settling legal disputes, calculating economic damages, valuing intellectual property, determining the extent of damage or loss due to fraud, or tracing elusive assets or revenue sources. A forensic accountant might also participate in pro-active engagements such as the development of systems and procedures to prevent fraud.

The first part of the course deals with the technical and ethical framework of forensic accounting and focuses on the understanding of forensic and investigative accounting including investigation methodology, the nature of fraud, fraud...
risk factors, financial statement fraud, litigation support and dispute resolution services and development of the skills needed in those professional activities. These skills include the ability to integrate knowledge of accounting, finance, economics, business law and other business disciplines in gathering, analyzing and evaluating evidence and drawing conclusions. The second part of the course focuses on forensic accounting investigation and analysis of financial information in connection with litigation, dispute resolution, estimation of economic damages, or other specific objectives, and the preparation of comprehensive, objective reports of findings and conclusions.

ADTED 100S  Adult Learners in the University (1) Opportunity to develop effective learning strategies while exploring critical issues related to adults entering or returning to higher education.

ADTED 100S First Year Seminar Adult Learners in the University (1) (FYS) (BA) This course meets the Bachelor of Arts degree requirements.

This course is designed for the adult learner who is entering the university for the first time, or who is returning after an absence from studies. In this course we will help you: develop or renew effective study skills, learning strategies, and time management tools that will help you succeed as a Penn State student; identify useful university resources; learn effective writing skills and hone critical reading abilities to meet the requirements of academic coursework. Practice your public speaking skills so you will feel more confident and articulate.
ADTED 297 Special Topics (1-9) Formal courses given on a topical or special interest subject which may be offered infrequently.

ADTED 297A Virtual Classrooms and mLearning Around the World (3) In this class, students will be introduced to some of the latest formal and informal distance education (DE) tendencies around the globe by focusing on Second Life and mLearning as used in several countries. Emphasis will be placed on hands-on exercises and virtual problem solving and international collaboration.

ADTED 456 Introduction to Family Literacy (3) Explores comprehensive family literacy models, focusing upon families, services, outcomes, and roles and responsibilities of individuals, organizations, and communities.

ADTED 456 Introduction to Family Literacy is one of the five 3-credit courses in the 15-credit Certificate in Family Literacy developed by the Goodling Institute for Research in Family Literacy in the College of Education in partnership with the National Center for Family Literacy (Louisville, KY). It is offered both summer and fall semesters to about 20 students per class. The course is 15 weeks in length, entirely online, and cohort-based. Study materials are both web- and print-based. Students work in teams for most of their assignments although they are also expected to produce a portfolio of individual application activities. An Associate's Degree or 60 baccalaureate credits at an accredited institution are required to enter the course. Technological requirements, registration, and other support are provided.

This course provides opportunities for students to discover and analyze comprehensive family literacy within a model centered on how services evolved out of a need to break the cycle of intergenerational poverty and under-education.

Course objectives include: (1) Identify the qualifying and distinguishing characteristics of families for whom comprehensive family literacy services are designed. (2) Describe ways in which comprehensive family literacy programs are designed to meet individual family needs. (3) Analyze the influence unique family and community characteristics have on family literacy programs and student learning. (4) Identify key characteristics and quality standards forAdult Education, Children's Education, Parent-Child Interactive Literacy, and Parenting Education. (5) Communicate an awareness of the characteristics of comprehensive family literacy as described in the federal definition. (6) Communicate an understanding of component integration and its importance. (7) Communicate an understanding of how to network with external agencies for program participant referral and services. (8) Describe key roles and responsibilities of family literacy staff. (9) Communicate an understanding of program tools for assessment, evaluation and reporting. (10) Analyze a family literacy site and develop plans intended to impact quality within that program that help family participants identify and meet their individual goals.

Based on criteria provided in rubrics, students are evaluated on weekly individual activities, collaborative team assignments, and various components of an individual final project. In addition to evaluation of these student assignments, each student is assessed on participation in team and whole-class discussion groups, and contributions to team effectiveness for completing assignments. Feedback is provided for each submitted assignment, using a rubric with instructor comments added.
ADTED 457 Adult Literacy (3)

Adult Literacy is one of the five 3-credit courses in the 15-credit Certificate in Family Literacy developed by the Goodling Institute for Research in Family Literacy in the College of Education in partnership with the National Center for Family Literacy (Louisville, KY). It is offered during the summer and fall semesters to about 20 students per class. The course is 15 weeks in length, entirely online, and cohort-based. Study materials are both web- and print-based. Students work in teams for most of their assignments although they are also expected to produce a portfolio of individual application activities. An Associate’s Degree or 60 baccalaureate credits at an accredited institution are required to enter the course. Technological requirements, registration, and other support are provided.

The overarching course objectives are to equip students with the knowledge and skills to:

a) develop meaningful instruction for adult literacy learners.

b) Deliver basic skills instruction, using methods that enhance the learning of individual adult learners.

c) Encourage and guide adult learners in developing skills that promote lifelong learning.

Students set their own learning goals within the parameters of the course objectives. This allows students to focus their learning in a direction that best addresses their own adult literacy interests. Student goals, in turn provide the basis for the course project, which is a learning portfolio. Students define the purpose of their portfolio and develop the criteria that will be sued to evaluate their learning outcomes. The course portfolio provides students with a means to learn about integrating assessment into teaching/learning. It also puts into practice many aspects of adult learning theory. Portfolios include course assignments that involve student research and require student-developed lesson plans. In addition, students are required to create their own portfolio work to demonstrate their learning as it relates to their portfolio goals.

Students are also required to participate in group discussions and two team tasks. Group discussions are designed to enhance learning through the sharing of information and perspectives on a variety of adult literacy topics. Team tasks serve two purposes: (1) students are given a topic to research and present to the class and (2) students experience a powerful teaching method and are required to evaluate their group process.

ADTED 458 Early Literacy Development and Parental Involvement (3)

Early Literacy Development and Parental Involvement is one of the five 3-credit courses in the 15-credit Certificate in Family Literacy developed by the Goodling Institute for Research in Family Literacy in the College of Education in partnership with the National Center for Family Literacy (Louisville, KY). It is offered during the summer and fall semesters to about 20 students per class. The course is 15 weeks in length, entirely online, and cohort-based. Study materials are both web- and print-based. Students work in teams for most of their assignments although they are also expected to produce a portfolio of individual application activities. An Associate’s Degree or 60 baccalaureate credits at an accredited institution are required to enter the course. Technological requirements, registration, and other support are provided.

This course focuses on young children’s language and literacy development, including ways that parents and staff support this development, research related to children’s learning, and ways in which family literacy supports early literacy development.

Course objectives include to: (1) Identify personal theories regarding children’s reading, writing, and language and literacy development, reading and writing. (2) Know what research indicates regarding children’s reading, writing, and language and literacy development. (3) Apply research to practice. (4) Know areas of language and literacy development and ways that adults support it. (5) Plan ways teachers can support language and literacy development, including within the realms of goal setting, the teaching/learning cycle, the learning environment, routines, and interactions. (6) Plan ways to inform and support parents. (7) Modify and adapt in order to serve students of all abilities. (8) Understand integration and demonstrate the integration of language and literacy learning across components. (9) Demonstrate ways language and literacy development informs interactive learning between parents and children and parenting education.

Based on criteria provided in rubrics, students are evaluated on weekly individual activities, collaborative team assignments, and various components of an individual final project. In addition to evaluation of these student assignments, each student is assessed on participation in team and whole-class discussion groups, and contributions to team effectiveness for completing assignments. Feedback is provided for each submitted assignment, using a rubric with instructor comments added.

ADTED 459 Interactive Literacy: Parents and Children (3)

Interactive Literacy: Parents and Children is one of five 3-credit courses in the 15-credit Certificate in Family Literacy developed by the Goodling Institute for Research in Family Literacy in the College of Education in partnership with the National Center for Family Literacy (Louisville, KY). It is offered during the summer and fall semesters to about 20 students per class. The course is 15 weeks in length, entirely online, and cohort-based. Study materials are both web- and print-based. Students work in teams for most of their assignments although they are also expected to produce a portfolio of individual application activities. An Associate’s Degree or 60 baccalaureate credits at an accredited institution are required to enter the course. Technological requirements, registration, and other support are provided. The courses focuses on the component of family literacy in which the low-literate parents engage in language and literacy development activities with their young children (birth to age 8). During interactive literacy the teachers both model and supervise the literacy interactions. Students learn to use planned and intentional activities that are developmentally appropriate for the children. They also learn how to teach the parent the necessary interaction skills as well as how to debrief the parents afterwards. They also learn how to assess the literacy interactions between parents and their children.

Aerospace Engineering (AERSP)

AERSP 001S Aerospace Explorer--First-Year Seminar (1)

AERSP 001S Aerospace Explorer--First-Year Seminar (1) First-Year Seminar explores aerodynamics, structural mechanics, flight mechanics, rotorcraft systems, high performance computers, air/space propulsion, and space systems.

AERSP 001S Aerospace Explorer--First-Year Seminar (1) (FYS)

Aerospace Engineering deals with vehicles that fly -- airplanes, sailplanes, jets, helicopters, rockets, satellites, the space shuttle, space stations, etc. Students with an interest in these subjects can learn more about the variety of challenges and opportunities in the aerospace field through the small-class environment of the Aerospace Explorer First-Year Seminar.

An introduction to both the academic major and career paths in Aerospace Engineering, this seminar deals with the design, analysis and operation of aircraft and space vehicles. Students will learn about aerodynamics, structural mechanics, flight mechanics, rotorcraft systems, high performance computers, air-breathing propulsion, space propulsion, and space systems. The classes will include presentations by the Aerospace Engineering faculty, tours of the Aerospace Engineering laboratories, and presentations by student officers in the Penn State chapters of the American Institute of Aeronautics and Astronautics (AIAA) and the American Helicopter Society (AHS), as well as introductions to the use of scientific plotting, graphing, and analysis software.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 301** Aerospace Structures (3) Aerospace structural design concepts, flight safety. Stiffness, strength, stability of thin-walled structures under combined loads. Energy methods, finite element analysis.

**AERSP 301 Aerospace Structures (3)**
AERSP 301 covers essential topics in aerospace structures. The objectives of the course are to help students: 1) appreciate the roles that structures and structural materials play in aerospace vehicles; 2) understand general design concepts for aerospace structures: vehicles, components, and materials; 3) develop the analysis tools and skills needed to analyze the
performance of aerospace structures; and 4) gain experience identifying, formulating, and solving aerospace structural engineering problems.

AERSP 301 builds on structural mechanics topics covered in PHYS 211, E MCH 011 & 013 (or 210), and E MCH 215 & 216. It prepares students for study of advanced topics such as plates and shells, composites, structural stability, finite element analysis, structural dynamics, and aeroelasticity. It also provides students with the basic background needed to contribute effectively to multidisciplinary trade studies in vehicle design activities.

AERSP 301 begins with an overview of the general features of flight vehicle structures, with emphasis on thin-walled members and advanced materials. Then, the implications of assured safety of flight for structural design are explored, leading to coverage of: load cases, flight envelopes, load factors, factors of safety, kinds of structural failures, and margins of safety. Topics in structural analysis proceed from an initial review of topics in elasticity, structural materials, and beam bending. Then, the deflection and stress responses of thin-walled beams under transverse shear and torsional loading are addressed. More than a third of the course is devoted to energy principles and the development of the finite element method of structural analysis. The course finishes with a treatment of the structural stability of beams and panels, a key topic with respect to the behavior of thin-walled aerospace structures.

AERSP 305W Aerospace Technology Laboratory (3) Experiments in measurement systems, aerodynamics, aerospace structures, dynamics and control, and propulsion, technical report writing and presentations.

Aerospace Technology Laboratory (3)

AERSP 305W is a junior-level experimental laboratory course in Aerospace Engineering. The purpose of this course is to expose students to the key principles and methods of experimentation as related to the field of aerospace engineering. Students learn the fundamentals of measurement techniques to determine quantities such as temperature, force, pressure, displacement, velocity, acceleration and strain in various laboratory situations. The course employs weekly "set-up" experiments that provide an opportunity for students to familiarize themselves with modern measurement techniques and gain valuable experience regarding the calibration and use of aerospace engineering research equipment. Students are expected to apply their knowledge of mathematics, science, and engineering in order to complete successfully the experiments encountered in the laboratory. The subsequent interpretation and analysis of the laboratory data requires the use of standard engineering tools and practices. Students work in lab groups to process data and then identify, formulate, and solve engineering questions associated with the experimental results.

Throughout the semester, students communicate their knowledge and understanding of the course material through a series of class assignments, written technical reports, and one final exam. Because writing and revising laboratory reports significantly enhances the understanding and interpretation of the research data, this course is "writing-intensive." As such, students are expected to improve their writing skills as they gain experience writing abstracts, informal reports and formal reports. Peer review of reports helps students to recognize good writing, and to learn how to provide constructive criticism. The course instructor provides written feedback for revised formal reports, and the quality of writing is a factor in determining final grades.

AERSP 306 Aeronautics (3) Lift and drag characteristics of aircraft; propulsion systems; airplane performance; introduction to stability and control.

Aeronautics (3)
AERSP 308 Mechanics of Fluids (3) Kinetics and dynamics of fluids; perfect fluid theory using complex variables; introduction to viscous flow theory; fundamentals of compressible flow.

Mechanics of Fluids (3)

AERSP 309 Astronautics (3) Introduction to space and space flight; laws of particle mechanics; orbits and trajectories; space vehicles and propulsion.

AERSP 309 Astronautics (3)

This course, required for aerospace engineering majors, focuses primarily on the dynamics of spaceflight, including both orbital and attitude (orientation) motion of spacecraft. Topics include: three-dimensional rotational kinematics (direction cosine matrices, vector components in different coordinate systems, Euler angles, the angular velocity vector, and velocity and acceleration in different reference frames), three-dimensional particle dynamics (Newton’s laws of particle motion, energy, angular momentum, and systems of particles), two-body orbital mechanics (Newton’s law of universal gravitation, the orbit equation, conic sections and orbit terminology, Kepler’s equation, classical orbital elements, and representations of satellite position and velocity), orbital maneuvers and transfers (impulsive maneuvers, Hohmann transfers, simple inclination changes, and relative motion between spacecraft), rigid-body dynamics (angular momentum and energy, the inertia matrix, principal-axis system, Euler’s equations of rigid-body motion, torque-free motion, and effects of external torques), rocket performance (the rocket equation, specific impulse, estimating propellant requirements for a mission, and a survey of propulsion technology), and the space environment (standard atmosphere, simple radiative heat-transfer analysis, the Van Allen radiation belts, meteors and debris hazards).

The course relies upon a sound understanding of mechanics, matrix algebra and vector calculus. Assignments include analytical and numerical problems, some of which require computer programming.

AERSP 311 Aerodynamics I (3) Fluid statics and kinematics; fluid dynamics of inviscid and viscous flows; Navier-Stokes equations; introduction to boundary layers.

AERSP 311 Aerodynamics I (3)

This is a first course in incompressible inviscid and viscous flows. It includes an introduction to fluids, fluid statics and hydrostatics. Fluid kinematics, including Eulerian versus Lagrangian viewpoint, steady versus unsteady flows, volume and mass flow rates, vorticity and circulation, and streamlines are described. Derivation of the governing equations for the conservation of mass, momentum and energy is presented. Dimensional analysis is covered. Potential flow with and without the effects of viscosity is analyzed. A derivation and exact solutions of the Navier-Stokes equations are given and boundary layers are introduced. This is the first of a two course sequence in aerodynamics, where both courses are required for senior-year propulsion and design courses. Evaluation of student performance will be by two midterm exams worth approximately 25% each, a final exam worth approximately 35% and weekly homework assignments worth approximately 15%.

AERSP 312 Aerodynamics II (3) Fluid mechanics of viscous and compressible flows, laminar boundary layers, turbulent
flows, isentropic flows, shock waves, supersonic life and drag.

AERSP 312 Aerodynamics II (3)

Exact solutions of the Navier-Stokes equations for unsteady flow. Boundary layers solved by the methods of Blasius, Falkner-Skan and Thwaites. Boundary layer stability and transition to turbulence. Turbulent flow and solution methods. Fluid flow measurement techniques and numerical methods. Derivation of the governing equations for the conservation of mass, momentum and energy for compressible flow. Steady one-dimensional isentropic flow. Normal, traveling and oblique shock waves. Compressible flow with area change and converging-diverging nozzle flows. Prandtl-Meyer expansions and supersonic life and drag. One-dimensional flow with friction or heat transfer. Unsteady and linearized compressible flow. Introduction to the method of characteristics. This is the second of a two course sequence in aerodynamics and is a prerequisite for senior level courses in propulsion and design. Evaluation of student performance will be by two midterm exams worth approximately 25% each, a final exam worth approximately 35% and weekly homework assignments worth approximately 15%.

AERSP 313 Aerospace Analysis (3)

Mathematical methods applied to aerospace engineering: Fourier series, ordinary and partial differential equations, complex variables, numerical methods, data analysis.

AERSP 313 Aerospace Analysis (3)

This course is designed to reinforce the mathematical concepts learned in the prerequisite mathematics and computer science courses and to present new mathematical material that is necessary for aeronautics, astronautics, dynamics and control, and fluid dynamics analysis. In practice, analytical and numerical approaches to problems solving are complementary, hence, this course will emphasize a combined analytical and numerical treatment.

AERSP 401A Spacecraft Design--Preliminary (3) Conceptual and preliminary design of a spacecraft, its constituent subsystems, and related systems, to satisfy a given set of specifications.

AERSP 401A Spacecraft Design - Preliminary (3)

AERSP 401A is the first of a two-semester sequence of senior capstone design courses. In this course, students will begin to learn the design process, complete a conceptual design, and to begin a preliminary design of a spacecraft, working in teams. This process is inherently multidisciplinary, requiring the use of engineering practices in such subjects as structures, dynamics, electrical and thermal systems, propulsion, controls, and information systems. In addition to the technical design content, this course seeks to enhance students’ skills in verbal and written communications, ethical thinking, and the team approach to design, which is widely used in industry and government. Classes (115 minutes each, twice weekly) include lecture and time for team meetings. Students are evaluated on the technical merit of the designs (presented in written and oral reports), as well as their ability to function on a team.

AERSP 402A Aircraft Design -- Preliminary (3) Conceptual and preliminary design of an aircraft, its constituent subsystems, and related systems, to satisfy a given set of specifications.

AERSP 402A is the first of a two-semester sequence of senior capstone design courses. In this course, students will complete the preliminary design for an aircraft such that it satisfies the assigned specifications. Students completing this course will have the ability to design a system, component, or process to meet desired needs in aircraft systems; they will have the ability to function on multi-disciplinary teams; and they will have the ability to identify, formulate, and solve engineering problems. In addition, students will have the background to help determine what the ethical responsibilities are to themselves, to employers, and to society. Classes (115 minutes each, twice weekly) include lecture and time for team meetings.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2007
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AERSP 402B Aircraft Design -- Detailed (2) Detailed design of the constituent subsystems and related support systems for an aircraft.

AERSP 402B is the second of a two-semester sequence of senior capstone design courses. In this course, students will complete the detailed design for an aircraft, and all of its constituent and related support systems, such that it satisfies the assigned specifications. Students completing this course will have the ability to design a system, component, or process to meet desired needs in aircraft systems; they will have the ability to function on multi-disciplinary teams; and they will have the ability to identify, formulate, and solve the associated engineering problems. Classes (115 minutes each, twice weekly) include lecture and time for team meetings.

Bachelor of Arts: None
Effective: Spring 2007
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AERSP 404H Flight Vehicle Design and Fabrication II (3 per semester/maximum of 12) Project management, design, fabrication, aerodynamic and structural testing, and flight evaluation of an advanced composite flight vehicle.

Flight Vehicle Design and Fabrication II (3 per semester/maximum of 12)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2000
**Prerequisite:**

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 405** Experimental Methods and Projects (3) Experimental methods involving a variety of aerospace engineering topics; teams of students focus on advanced measurement techniques and project engineering.

**Experimental Methods and Projects (3)**

General Education: None  
Diversity: None  
Bachelor of Arts: None  
Effective: Summer 2012  
Prerequisite:

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 406W** Structures and Dynamics Laboratory (2) Experiments in static deformations and stresses, vibrations, and control of aerospace structures.

**Structures and Dynamics Laboratory (2)**

General Education: None  
Diversity: None  
Bachelor of Arts: None  
Effective: Spring 2007  
Prerequisite:

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 407** Aerodynamics of V/STOL Aircraft (3) Rotary wing aircraft; VTOL and STOL performance; propeller-wing combinations; jet flap; high lift devices.

**Aerodynamics of V/STOL Aircraft (3)**

General Education: None  
Diversity: None  
Bachelor of Arts: None  
Effective: Fall 1984  
Prerequisite:

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 410** Aerospace Propulsion (3) Analysis and performance characteristics of reciprocating engine, turbo-jet, turbo-prop, turbo-fan, ram-jets, and chemical rockets. Aerothermodynamics of inlets, combustors, and turbomachinery.

**Aerospace Propulsion (3)**

General Education: None  
Diversity: None  
Bachelor of Arts: None  
Effective: Fall 1983  
Prerequisite:

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 412** Turbulent Flow (3) Homogeneous turbulence; spectral transfer of energy, viscous dissipation; turbulent shear flow; mixing-length theory, eddy viscosity, scaling laws, energy budget.

**Turbulent Flow (3)**

General Education: None  
Diversity: None  
Bachelor of Arts: None  
Effective: Winter 1978  
Prerequisite:

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AERSP 413** Stability and Control of Aircraft (3) Static and dynamic stability and control of aircraft; open and closed loop systems.

**Stability and Control of Aircraft (3)**

General Education: None  
Diversity: None
AERSP 420 Principles of Flight Testing (3) In-flight and analytical studies of airplane performance, stability, and control; reduction of data; instrumentation; flight test techniques.

AERSP 423 Introduction to Numerical Methods in Fluid Dynamics (3) Finite difference methods applied to solving viscid/inviscid fluid dynamics problems, error control, numerical stability.

AERSP 424 Advanced Computer Programming (3) Engineering and scientific programming topics: object oriented programming, parallel programming, and various modern languages (e.g. C++, Java, and Ada).

AERSP 425 Theory of Flight (3) Advanced wing and airfoil theory, conformal mapping, slender body theory.

AERSP 430 Space Propulsion and Power Systems (3) Analysis and performance of chemical and nuclear rockets, electric propulsion systems. Introduction to solar, chemical, thermoelectric, and nuclear power sources.
AERSP 440 Introduction to Software Engineering for Aerospace Engineers (3)

This course is an introduction to software engineering. Software engineering includes all aspects of professional software production, and is especially important for safety-critical and mission-critical software. It includes documentation, management, processes, requirements, design models, computer programs, validation, verification, and other aspects of the development process.

Aerospace systems, including aircraft, spacecraft, onboard avionics, ground-based systems, flight simulators, and air transportation systems, rely heavily on software. Software is a major cost of all aerospace systems. For example, the Boeing 777 has more than 1000 onboard processors and more than 4 million lines of software which is primarily written in Ada. The F/A-22 fighter has more than 2 million lives of software onboard, and much of this is Ada also.

Aerospace systems also demand a level of reliability far beyond that of most other systems, which means the software must be designed using rigorous mission-critical and safety-critical procedures, which makes the software quite unique compared to most other software. The FAA and DOD are both involved in certifying aircraft software, for example, through the DO-178B and DOD-2168 standards.

This course is required option in Aerospace Engineering (take one of AERSP 440, E E 305, or E E 210). If not taken to satisfy that requirement, it can be used as a technical elective.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2008
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AERSP 450 Orbit and Attitude Control of Spacecraft (3)

Orbit and Attitude Control of Spacecraft (3) Principles of mechanics and vector analysis applied to basic concepts of satellite motion and control, rocket ballistics, and gyroscopic instruments.

AERSP 460 Aerospace Control Systems (3)

This course is an introduction to the design and analysis of feedback control systems as applied to aerospace systems. The course covers control theory that is commonly used in the aerospace industry and presents practical applications of this theory to aerospace systems. The course does not emphasize rigorous mathematical derivation, but instead emphasizes the application of control theory. It provides a comprehensive overview of classical control theory and single-input/single-output (SISO) design methods. The course also presents an introduction to modern control theory and multi-input/multi-output (MIMO) design methods. Aerospace examples and applications are emphasized throughout the course.

This course is required option in Aerospace Engineering (take one of AERSP 440, E E 305, or E E 210). If not taken to satisfy that requirement, it can be used as a technical elective.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 2006
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.
AERSP 470 Advanced Aerospace Structures (3) Design and analysis of aerospace structures. Plates and sandwich panels; composite materials; structural dynamics; aeroelasticity; damage tolerance.

AERSP 470 Advanced Aerospace Structures (3)

AERSP 470 covers important topics in aerospace structures beyond basic stress and deflection analysis of thin-walled beams. The objectives of the course are to help students: 1) appreciate the roles that structures and structural materials play in aerospace vehicles; 2) understand general design concepts for aerospace structures: vehicles, components, and materials; 3) develop the analysis tools and skills needed to analyze the static and dynamic performance of aerospace structures; and 4) gain experience identifying, formulating, and solving aerospace structural engineering problems.

AERSP 470 builds on structural, dynamics, and aerodynamics topics covered in PHYS 211, E MCH 011 & 013 (or 210), E MCH 215 & 216, AERSP 301, AERSP 306, and AERSP 304. It prepares students for entry-level work or graduate study in the analysis and design of aerospace structures. It also provides students with the strong background needed to contribute effectively to multidisciplinary trade studies in vehicle design activities.

AERSP 417 begins with a review of the general features of flight vehicle structures and aerospace structural design concepts. Then, the deflection and stress responses of flat plates and sandwich panels under lateral and in-plane loading are addressed. About a third of the course is devoted to the behavior of advanced composite panels, and another third to structural dynamics and aeroelasticity. The course finishes with treatments of joining and damage tolerance, both key topics with respect to the design of aerospace structures.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2008
Prerequisite:

AERSP 473 (E MCH 473) Composites Processing (3) An introduction to the principles of mechanics governing manufacturing, computer-aided design, and testing of composite materials and structures.

Composites Processing (3)

General Education: None

AAA S 083S First-Year Seminar in African and African American Studies (3)
(GH;FYS;US;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

In addition to the academic topic and issues of this course, students can expect to gain a general introduction to the University as an academic community and have the opportunity to explore their responsibilities as members of that community. Students will develop an understanding of the learning tools and resources available to them including the opportunity to develop relationships with faculty and other students who share their academic interests.

Evaluation will be based on one research paper (10-12 pages in length with a bibliography and footnotes, representing 40% of the final grade); a book review (4-5 pages in length, representing 20% of the final grade); 6 weekly summaries based on the assigned readings, lecture notes, and films, representing 30% of the final grade); and participation in class discussion, representing 10% of the final grade.

This course is designed to support students wishing to study politics and history, as well as those interested in pursuing a major or minor in African and African American Studies. This course fulfills both the first-year seminar and a general education or Bachelor of Arts humanities requirement.

Bachelor of Arts: Humanities
Effective: Summer 2005
AAA S 100 Evolving Status of Blacks in the Twentieth Century: Interdisciplinary Perspectives (3) 
An interdisciplinary, team-taught exploration of the evolving status of Black Americans in the twentieth century. Emphasis on the civil rights movement.

AAA S 100

AAA S 101 (GH;US) (WMNST 101) The African American Woman (3) 
The sociological, historical, and political experiences of African American women, their roles and contributions to society.

AAA S (WMNST) 101 African American Women (3) 
(GH;US)

(BA) This course meets the Bachelor of Arts degree requirements.

This course examines the African American conditions, community institutions and consciousness in the United States during the twentieth century. It is a chronological survey of the shifts in the social, economic, and political realities faced by African Americans. Also examined are changes in, and the creation of, African American cultural, and intellectual traditions. Major social movements will be analyzed as will key debates over gender, class, ethnicity, community, and public policy. Issues of national and international identity will be addressed as will major changes in international relations and the response of African Americans to them. Topics will be explored using original documents, recent interpretations, class discussions, group presentations, film, music, etc. Although the core periods and themes will be covered in each class, depending upon the instructor, different emphases will be placed on the core topics. Students will be introduced to key events, processes, movements, and leaders which have shaped African American life in the twentieth century.

AAA S 101 (GH;US) (WMNST 101) The African American Woman (3) 
The sociological, historical, and political experiences of African American women, their roles and contributions to society.

AAA S (WMNST) 101 African American Women (3) 
(GH;US)

(BA) This course meets the Bachelor of Arts degree requirements.

The African American Woman is a survey course that examines how the historic milieu has shaped the African American woman's experiences. This course is designed to cover the cultural, political, and economical experiences of African American women such as Sojourner Truth, Ida B. Wells to Bell Hooks. It also examines issues and experiences from the plantation to contemporary times. Students will be required to do written assignments, collaborate on group projects and will engage in discussion. The course is designed to encourage students to develop the capacity to pursue research for a paper and for oral reports. The course will require each student to conduct research for a group project and to give written and oral reports on the class reading assignments. These requirements will enhance the students' public speaking skills.

AAA S 102 (GH;IL) (WMNST 102) Women of Color: Cross-Cultural Perspective (3) Global examination of value systems of women of color; attention to minority ethnic groups in the United States and developing countries.

AAA S (WMNST) 102 Women of Color: Cross-Cultural Perspectives (3) (GH;IL)
Women of Color: Cross Cultural Perspectives is a survey course that examines the similarities and differences of various cultures and the influences that mainstream America has on these cultures. Stereotypes, perceptions, the media, and male influences are also examined. Students will be encouraged to identify contributions made to mainstream America by women representing these cultures. Students will also be required to submit written assignments, participate in group discussions and attend on-campus events relevant to the course. The course is designed to enhance students critical thinking, writing, and speaking skills. This course can be used to fulfill supporting courses and related areas in the Women's Studies and African and African American Studies majors and minors. Non majors may use this course to fulfill a general education humanities requirement.

AAA S 103 (US) (SOC 103, WMNST 103) Racism and Sexism (3) Critical analysis of the structure of race and gender in the contemporary United States.

AAA S (SOC/WMNST) 103 Racism and Sexism (3) (US)
(BA) This course meets the Bachelor of Arts degree requirements.

This course focuses on racism and sexism through a critical analysis of race and gender equality/inequality. A primary objective of this course is to provide students with information and conceptual tools necessary for understanding the structure and composition of race and gender inequality in the United States today. The focus on both racism and sexism provides a perspective that is quite different from those of courses that deal with race or sex alone. Racism and sexism have much in common that suggests their combined study. The course examines the way in which these processes are socially constructed and defined and how these constructions and definitions are experienced in daily life at an individual level and societal level. The course also examines how social control dependent on power, privilege, and advantage continues to perpetuate sexism and racism. This understanding is fundamental to considering the ways in which society and its individual members may motivate social change that enhances equality. Other objectives include developing an appreciation of the commonalities and differences among women and among men and women of diverse ethnic groups in terms of their real-life experiences with these processes; expanding the ability to read and/or view critically information/misinformation encountered in everyday life; enhancing the capacity to express knowledge and perspectives both orally and in writing. In addition, each student comes to the class with personal objectives that the instructor attempts to ascertain and incorporate. A common foundation of knowledge is established through consideration of current statistical data and academic research studies, as well as essays and novels based on subjective thought and experience. Also included are historical documents that have influenced the social and legal status of women and of men and women of color throughout our country's history. Videos and the media are supplementary sources. Students are encouraged to be alert to relevant current events and be prepared to discuss them from a critical perspective. The format of the class is informal, emphasizing group participation and responsibility. Grades are based on the evaluation of short papers on the readings, relevant events, and contemporary culture; class participation; a book report; and a final project or take-home exam. AAAA S/WMNST/SOC 103 is a supporting course for both the women's studies and sociology majors and minors and the African American Studies major. It is an additional course for the African and African American Studies minor. The course also meets the requirement for 3 credits on the topic of women of color for the women's studies major and the minor.

General Education: None

AAA S 105 (GN;IL) (EARTH 105) Environments of Africa: Geology and Climate Change (3) Significant natural features of Africa as related to human endeavor; case studies include the Nile, climate change, natural resources.

AAA S 105 Environments of Africa: Geology and Climate History (3) (GN;IL)
(BA) This course meets the Bachelor of Arts degree requirements.

"Environments of Africa: Geology and Climate History" investigates the interrelationships between geology, hydrology, land
use and human development in several areas of Africa. We focus primarily on regions north of the equator, although there is a brief segment on South African mining. Specific topics include the Nile River (sources of the Nile, agricultural practices, effects of damming the Nile, hydropolitics), the Sahara and Sahel (salt mines, climate change, drought, water resources), and natural resources and their role in politics (gold, diamonds, oil and gas). The theme of climate change cuts across the entire semester. The quantitative and analytical components of the course working through a course of map exercises and data manipulations (flood stage, groundwater age, and temperature records). Writing exercises are conducted both individually (essays, analysis of readings) and in collaborative teams (climate change analysis). Readings for the course come from the popular scientific literature; current refereed research journals, and transcribed oral histories of African people.

The goals of the course are to (1) introduce the scientific study of Africa; (2) develop quantitative and scientific reasoning skills; (3) explore the relationship between human society and the natural world. The topics that we explore (e.g., global climate change, allocation of limited water resources) are important political issues that affect peoples in developed and developing countries throughout the world. It is crucial that the next generation of citizens be informed as to how scientific data are obtained, presented, and interpreted by scientists as well as politicians. Students will work individually and (more commonly) in teams to analyze real data from natural African systems, and will then report their findings to the class both orally and in writing. Examples of the data sets include 100-year records of monthly rainfall and temperature from stations throughout the continent, fossil suites from ancient lake cores in the modern Sahara, and historical writings of Nile flood levels from pre-Biblical times. Through these exercises students will gain an appreciation of the scope of geological time and change, and will be able to incorporate this new long-term perspective into identification and resolution of modern questions.

AAA S 110 (GS;IL) Introduction to Contemporary Africa (3) Consideration of influences and forces shaping modern African society; analysis of current local and global problems and issues facing Africa.

AAA S 110 Introduction to Contemporary Africa (3)
(GS;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

This course will introduce students to the realities of contemporary Africa. Students need to study the history in order for them to understand the complexities of modern Africa. The first part of the course will deal with the history of the first encounters between Africa and Europe. The legacies of the Atlantic Slave Trade and colonialism on contemporary Africa will be analyzed.

Colonialism will be examined in its multifaceted experience. The difference between the settler states and the indirect rule states, the uniquely nationalist flavor of the various colonial powers -- England, France, Portugal, Italy, Germany, and Belgium and the resulting preparations for independence will be studied. Mau Mau and Algeria, the indigenous guerrilla wars of Africa, will be presented. The important African independence ideologies will be studied in great detail, with special reference to Pan-Africanism, Mkrumah's neo-colonialism, Nyere's African socialism and Cabral's African Marxism. We will look at the U.N. failures in Africa and the tragedy of Lubumba and the Congo. The creation of the Organization for African Unity and its effectiveness will be discussed.

Questions concerning leadership in Africa will be raised by studying several countries such as Kenya, Nigeria, Ivory Coast, and Zimbabwe. Zambian Civil wars have been a serious problem in post-colonial Africa. We will examine four of the civil wars of the last decade -- Congo, Rwanda, Liberia, and Sudan. Additionally, the politics of the Horn of Africa, particularly the revolutions in Ethiopia, the wars of liberation in Eritrea, and the civil war in Somalia, will be analyzed in some detail.

We will look at the entire history of South Africa, from the arrival of the Dutch to the Boer War, from Apartheid to Nelson Mandela. Development and economic problems plague contemporary Africa. The last part of this course will be devoted to the study of development in Africa. We will look at the different theories from Walter Rodney's How Europe Underdeveloped Africa to World Bank theories. Students will be required to analyze a particular development problem in an African country and find a solution as their final project.

**AAA S (SPAN) 132 Afro-Hispanic Civilization (3) (IL)**  
**BA** This course meets the Bachelor of Arts degree requirements.

The nations and peoples of Latin America have a unique, interesting history and cultural heritage that are rooted in the traditions, beliefs, experiences, values, and struggles of Native American, European, African and other populations. This course focuses on the presence and participation of African peoples and their descendants in the formation and development of societies and cultures in representative areas of the Caribbean, South America, and Central America and on the evolution, diversity, and richness of the African heritage therein. Course content includes the African background, the experience and impact of slavery, the social, cultural, and economic heritage of slavery, the role of race in Latin America, and Afro-Hispanic intellectual, literary, and artistic developments (e.g., aspects of folklore, music). The course aims to provide students with a general introduction to human and cultural elements of African origin within the Spanish- and Portuguese-speaking nations of the Americas so that they may be more knowledgeable of the meaning, significance and widespread influence of the African diaspora. It proposes to provide the student with a better understanding of Africa's contribution to Latin American identity, diversity, culture, and development; to promote appreciation for the values and practices of other cultures, and greater awareness of the relations between the nations of the region and the United States.

AAA S 145 (GH;US;IL) (RL ST 145) African American Religion (3) History and significance of the religious dimension of the Black American struggle for equality from enslavement to the contemporary period.

**AAA S (RL ST) 145 African American Religion (3) (GH;US;IL)**  
**BA** This course meets the Bachelor of Arts degree requirements.

This course is an introduction to African American religion in the U.S. We will investigate the history and significance of the religious dimension of African American life and culture. We will also examine the demographics of race and religious experience. African Americans (the term Black American is also used) have many different religious backgrounds including Protestant, Catholic, Moslem, and others, which are examined in this course. However, since well over 90% of Blacks who have a religious experience and organization are Christian, the history of the Black Christian church and Blacks in the Christian churches in the United States will occupy most of our study. This course will also examine the theological backgrounds of the Black church from the basic Christian documents in the New Testament, to the most widely known Black theologians and the development of "black liberation theology," one of Christian theologies most important contributions. The theology of Martin Luther King, Jr., will be of particular concern. We will also watch videos on the subjects of interest and have a number of guest speakers, including local church pastors and Penn State faculty, talk about the meaning of religion in the Black experience.

AAA S 147 (GH;US) (RL ST 147) The Life and Thought of Malcolm X (3) The life of Malcolm X/El Hajj Malik El Shabazz (1925-1965) and his social, political, economic, and moral thought.

AAA S (RL ST) 147 The Life and Thought of Malcolm X (3) (GH;US)

This course will examine in-depth the life, speeches, and thoughts of Malcolm X/El Hajj Malik El Shabazz. While the "Autobiography" will be a major source, we will also use other sources to develop an understanding of the philosophy and thought of Malcolm X. We will explore the social, economic, political, cultural, religious, moral, and spiritual context of America in general and of African Americans in particular. We will examine Malcolm X's influence on the period in which he lived and since his assassination. We will compare and contrast his view on issues of race, culture, politics, education, crime, human rights, civil rights, morality, and economics with those of other African American leaders and with the prevailing views of most Americans on those subjects. We will devote a large portion of the course to the examination of the social movements that impacted on Malcolm and those that he influenced. The speeches of Malcolm X and the writings about Malcolm X are instructive and will be utilized along with other documents. Videotapes and audiotapes will also be employed as instructional materials. Students are expected to be ACTIVE participants in the learning/teaching experience. Students are required to participate in class discussions centered on the readings and related topics. There will be a written mid-term examination and a written final examination. Students are expected to complete an individual research project related to the course and write a paper on that research as well as to participate in a collaborative group project of their choosing on a subject related to the class. This course will count in the supporting courses category of the major and minors in African/African American studies. It also will fulfill credits in the Religious Studies Program. It may also be used to fill GH and US requirements.

AAA S 150 (GH;IL) Africa in Cinema (3) The study of the image of Africa as seen in fiction and non-fictional feature length films, ethnographic and documentary films.

AAA S (HIST 191) Early African History (3) Explores important economic and cultural transformations in the making of early African empires from 1 MBC to 1750.
AAA S (HIST) 191 Early African History (3)

(GH;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

The course is an introduction to the history of Africa south of the Sahara from the origins of humankind to roughly 1750. Since it is not possible to undertake a systematic survey of the period -- the continent is too vast and our data too sparse -- we will focus on a number of common themes in the cultural and historical development of African societies. We will start with an introduction to African cultures and the problems in studying them, move on to examine the evidence for the early origins of humans on the African continent, the agricultural revolution, and ancient African kingdoms, empires and civilizations (including Egypt). We will then explore three interrelated themes in the history of Africa from the 16th-18th centuries: trade, state formation, and the spread of Islam. Finally, we will turn to an examination of the slave trade and its impact on Africa and the Americas. This is also a course in historical reconstruction and analysis. There are few documentary sources for this period and much of the data we have is fragmentary. The resulting history consists largely of long-term social changes rather than detailed narrative. We must thus learn to reconstruct history from what evidence is available, using general principles of African social, economic, and political organization that we will develop in class.

Typically, students will be evaluated on the basis of a map quiz, short papers, exams that have both an identification and essay component, and participation in class discussions and debates. AAA S/HIST 191 provides an excellent foundation for both AAA S/HIST 192 (Modern African History) and History 479 (imperialism and Nationalism in Africa). In addition to satisfying the GI requirement, AAA S/HIST 192 satisfies general credit requirements for the history major or minor, including the "non-western" component of the major. Non-majors may use this course to satisfy a general education humanities selection. The course also may be used to fulfill requirements for the African and African-American Studies major and the African Studies minor.

General Education: GH

Bachelor of Arts: Humanities
Effective: Summer 2005 Ending: Summer 2012

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AAA S 192 (GH;IL) (HIST 192) Modern African History (3) Impact of the slave trade, expansion of Islam, colonial conquest, social and cultural transformations, resistance, nationalism, and independence.

AAA S (HIST) 192 Modern African History (3)

(GH;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

This course examines the colonial period in Africa from roughly 1750 to the present. Given the vast geographical breadth of the African continent, its diverse peoples and cultures, and the divergent trajectories of colonial rule, this course cannot provide a comprehensive overview of the modern era in Africa. Rather, it considers some of the most significant transformations in modern African history, including the impact of the Atlantic slave trade and the transition to "legitimate commerce"; the causes and consequences of European imperial conquest from the 1870's; the dynamics of the colonial encounter; the struggles of African peoples for independence in the 1950's and 1960's; and the enduring impact of the colonial experience on contemporary African social, political, and economic realities. The course is designed to familiarize students with the major events and chronology of modern sub-Saharan African history, and to provide an overview of the key themes and theoretical debates which animate contemporary African historiography. Emphasis throughout the course will be on the understanding and application of historical arguments and theories to available information. The course is intended to help students develop analytical skills vital to the discipline of history, which include the ability to collect and analyze evidence and to construct arguments in both oral and written presentations. To this end, students will have the opportunity to practice both identifying and building arguments by writing several focused short papers that deal with the material covered in a week of class lectures and readings. In these papers, as well as in the two essay exams, students will be asked to generate thesis-driven responses to particular historical problems encountered in the course material. The short papers are intended to promote active engagement with the course material and will be used as the basis for in-class discussions and debates. Typically, students are evaluated on a map quiz, several short papers, participating in class discussions of assigned readings, and exams which have both an identification and essay component. The course content of AAA S/HIST 192 is designed to chronologically follow that of AAA S/HIST 191 (Early African History), and provides an excellent foundation for History 479 (Imperialism and Nationalism in Africa), for which it is a prerequisite. In addition to satisfying the GI requirement, AAA S/HIST 192 satisfies general credit requirements for the history major or minor, including the "non-western" component of the major. Non-majors may use this course to satisfy a general education humanities selection. The course also may be used to fulfill requirements for the African and African-American Studies major and the African Studies minor.

AAA S 202 (GS;IL) (WMNST 202) Gender Dynamics in Africa (3) Critical analysis of multidisciplinary research on relations between men and women in Africa and critique of Western feminist theories.

AAA S (WMNST) 202 Gender Dynamics in Africa (3)
(GS;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

In terms of gender studies, western academics have dominated the field. The course will offer a very different, more African-centered, analysis of the gender relations of African. Important African women writers will be read and their works analyzed. The role of African gender dynamics on the African Diaspora (North American, South America, the Caribbean, and the Middle East) will also be studied in this course.

Feminism is one of the latest Western theoretical fashions to be applied to African societies. Following the one-size-fits all (or better still the Western-size fits all) approach to intellectual theorizing, it has taken its place in a long series of Western paradigms.

African scholars, in particular African women scholars and others, are challenging the very conceptualizations of gender that are used to define, describe or categorize women and men. This class will examine the historical relationships between men and women in Africa and examine the new approaches to the study of gender dynamics in Africa. The course will challenge your perceptions of gender. The ability to critically think and an open mind are requirements for this class. You will also be expected to participate in all class discussions.

This course represents a logical sequel to an existing course, AAA S/WMNST 102, Women in a Cross Cultural perspective; and three courses, AAA S/HIST 191, Early African History, AAA S/HIST 192, Modern African History, and WMNST 4, Global Perspectives on Feminism, which have already been approved by the Senate. This course can be used in both the African and African American Studies major and minors. Grades: map exam 10%, oral history 15%, mid term 30%, and final 45%.

AAA S 208 (GA;US;IL) (THEA 208) Theatre Workshop in Diverse Cultures (3) A performance-oriented class which explores the historic and contemporary theatrical works of various culturally diverse peoples.

AAA S (THEA) 208 Theatre Workshop in Diverse Cultures (3)
(GA;US;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

Theatre Workshop in Diverse Cultures is a performance-oriented class that aims to introduce students to the broad cultural diversity that exists in artistic expression. The class will focus on several plays throughout the semester that will represent cultural, ethnic, and gender diversity as well as different literary styles. Students will be exposed to various cultures by working on plays created by artists from those cultures. The course will concentrate on a specific playwright, culture, or region, such as plays from the Caribbean. Students will be required to read, study, analyze, and perform plays from the genre. For example, the class may focus on the works, life, and philosophy of August Wilson and read Joe Tumer's Come and Gone, Seven Guitars, Piano Lesson, and Fences. The class may explore Asian styles such as Noh Theatre and Asian American works by D. H. Hwang or work by Nigerian playwright and Nobel Prize winner Wole Soyinka. The presentation of these plays will be a principle part of the class, but the reading and discussion of the material will be

The Pennsylvania State University
as important. Students will participate in some capacity with the production of these plays in areas such as stage management, dramaturgy, sets and props, lights, sound, costumes, house management, publicity, and acting. These pieces will be performed in class, in workshop, and occasionally for the general public. Students will work as an ensemble and become acquainted with basic acting and theatre techniques. The course objectives are: 1) to develop and enhance students’ appreciation for the discipline and commitment required for multicultural theatrical presentations, 2) to help to sensitize all students to the broad cultural diversity in artistic expression, and 3) to provide students with an introductory engagement with drama. AAA S/THEA 208 serves as a primary selection for students pursuing the Theatre minor.

AAA S 209 (GS;IL) (SOC 209) Poverty in Africa (3) The course examines the causes, consequences, and dynamics of poverty in African countries.

AAA S 209 Poverty in Africa (3) (GS;IL)

“African countries are generally considered to be among the poorest countries on the planet. On average, their incomes are low as are their levels of education. Poor African countries also have a range of peculiar characteristics that negatively affect their living standards. As these standards decline, western audiences have increasingly been targeted by aid organizations seeking donations to help the African cause. Despite growing awareness of African poverty, however, few attempts have been made to locate discourses on African poverty within historical, theoretical, and contemporary contexts.

This course provides an overview of the key issues foundational for understanding the dynamics of poverty and human development in African societies. It examines various academic conceptualizations of poverty, the dimensions of poverty in African countries, as well as poverty’s various causes and consequences. The course also intends to highlight the complex nature of the social, political, and economic causes of African poverty and their implications. Furthermore, it will identify the important challenges to poverty alleviation in African societies, the effectiveness of foreign aid, and alternative strategies to poverty alleviation.

The course will also provide unique opportunities for students to develop a focused understanding of specific issues that affect Africa’s socioeconomically vulnerable groups as well as related issues relevant for understanding the dynamics of poverty in specific areas on the continent."

AAA S 210 (GH;US) (HIST 210) Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932 (3) The course will explore the context and events that shaped African American life over the period 1896-1932.

AAA S 210 AAA S (HIST) 210 Between Accommodation and Alienation: African Americans in a Jim Crow Nation, 1896-1932 (3) (GH;US)

(BA) This course meets the Bachelor of Arts degree requirements.

This course is designed for students wishing to develop an understanding of race in American society and politics over the course of the 20th century. It will focus in considerable detail upon the influence of the Plessy vs. Ferguson decision (1896) in the shaping of America over the four decades that followed. Of central concern is an exploration of the ways in which African Americans and their leaders responded to the institutionalization of segregation within American life, and the divergent strategies advocated for dealing with ‘Jim Crow’ as an impediment to the development of African Americans. The course will also explore the impact of the migration of African Americans out of the South into the cities of the North and the impact of that migration upon both the opportunities for African Americans and the American political system.

AAA S (ENGL) 235 African-American Oral Folk Tradition (3)

(AA) This course meets the Bachelor of Arts degree requirements.

By its concentration on ethnic and racial difference, AAA S/ENGL 235 fulfills the requirements of the University for the designation of an Intercultural/International Competence (GI) course. This lower division course provides an opportunity for undergraduate students to examine the origins, forms, and function of the oral folk tradition of Africans of African descent, especially the speech and music, from signifying to rap. Beginning with the issues of African or European origins, students will explore questions concerning the definitions, source, transmission, variation, meaning, and function of African-American folklore as the basis for a better understanding and appreciation of the distinctiveness of African-American culture and character. Assessment of student performance will include two oral reports, a folklore collection project, two (outside of class) essays of 5-10 pages typed, and a final examination consisting of essay questions and short answers. Students will also be evaluated upon their participation in class discussions. AAA S/ENGL 235 will be a basic core course for students emphasizing African-American literature within the English major. It will also be important in the offerings of African American Studies. AAA S/ENGL 235 will satisfy one of the five 200-level courses required for the major in English. It can also satisfy one of the six courses required for a minor in English. It will also be important in the offerings of African American Studies. This course can be used to fulfill a major requirement for African American Studies. It also will fulfill the University's cultural diversity requirement.

AAA S 250 (GH;IL) (HIST 250) Introduction to the Modern Caribbean (3) A survey course which, explores the historical evolution and emergency of the modern Caribbean.

AAA S (HIST) 250 Introduction to the Modern Caribbean (3)

The Pennsylvania State University
This course meets the Bachelor of Arts degree requirements.

This course will explore the evolution of the Caribbean region from the eve of the arrival of Columbus to the 20th century. It will explore the emergence, migration, and evolution of Amerindian societies in the Caribbean islands prior to the arrival of Columbus. It will then explore the European-Amerindian interactions that lead to the disappearance of these indigenous peoples from the region and the consolidation of European colonial empires. The course will then explore the various forms of coercive labor systems that emerged in the region including indentureship, enslavement, transportation of European prisoners and other social outcasts, African slavery, and the establishment of the plantation system that defined the region until the 20th century using both free and unfree labor to maintain its dominance in these island societies until the late 20th century. The course will also cover the issue of slave resistance, the Haitian revolution, the formation of maroon communities, and the role of abolitionist politics as a factor in bringing an end to slavery. It will also look at the re-emergence of indentureship of Asians as a response to the crisis of labor and the growth of peasant agriculture in the 19th century Caribbean. The course will also explore the emergence of nationalist sentiment in the region, especially the way in which the decay of Spanish colonial authority and the rise of American imperial ambitions helped to set the stage for the nationalist awakening that defined the course of the 20th century in the region. This is the course that will complement and expand upon issues raised in AAA S/HIST 211 - The Emergence and Evolution of the Black Diaspora in the Atlantic World.

AAA S 302 (US) (BB H 302) Diversity and Health (3) Exam the relationship of diverse personal and sociocultural factors to health, like socioeconomic class, race-ethnicity, gender, age, and sexual orientation.

AAA S (BB H) 302 Diversity and Health (3) (US)

AAA S 302 is an introduction to an interdisciplinary study of the impact of diversity on health in America and across nations. The course is designed to provide an understanding of the complex interaction between concepts of diversity including but not limited to race, ethnicity, culture, gender, age, socioeconomic status, and sexual orientation. The course will also consider and critique the methods used in the study of these concepts and issues related to the measurement of health among diverse groups. The ultimate goal of this examination is to assist students in developing an appreciation of the current diversity and the impact diversity has on assessments and study of health, health status, and health promotion in America and other nations. The course is also designed to integrate different sources of information about diversity by utilizing critical thinking skills for the consumption of health information.

The educational objectives will be to enable students to: 1) Consider the implications of race, ethnicity, gender, age, socioeconomic status and sexual orientation on health/social policies in light of research findings, 2) Understand the legacies and historical events that have impacted our view, the status, and treatment of diverse populations, 3) Appreciate the importance of understanding the origins of different health behaviors that impact biological processes, as well as the impact of biological processes in the context of social, environmental, and cultural influences when examining health issues.

To achieve these objectives, the course will involve open class discussions, small break-out group discussions, written assignments, and a presentation (e.g., poster or other media presentation) requiring the acquisition and utilization of information/research from library and internet resources.

AAA S 412 (US;IL) (THEA 412) African American Theatre (3) Exploration of the development of African American theatre from its roots in Africa through the Diaspora to the present time.

AAA S (THEA) 412 African American Theatre (3)
(US;IL)

In this course, we will explore the development of African American theatre from its roots in Africa and Europe, through the diaspora, to the present time. We will learn something of the rich diversity of African American people and their contribution to the world's creative mainstream. We will become acquainted with both historical and contemporary artists who created and continue to create this unique American art form. The goals of the course are: 1) to develop familiarity with African American theatre and the socio-historic context in which it was created, 2) to develop an understanding of the relationship of African American theatre to mainstream American theatre, 3) to acquire an appreciation of the schools, styles, and techniques of African American theatre. We will do this by reading and engaging plays in the context of the period in which they were created, viewing films of plays, and attending relevant productions where possible.

AAA S 416 (US;IL) (S T S 416, WMNST 416) Race, Gender and Science (3) The class will focus on race and gender as products of science, and how societal values shape scientific activity.

AAA S (S T S/WMNST) 416 Race, Gender and Science (3)
(US;IL)

The course's objective is to provide a seminar for students to integrate feminist theory, social theory, and science studies through class discussions, essays and research. The role of science in defining, producing, applying and policing of gender and race in society will be explored through the work of feminists and traditional scholars working in a variety of disciplines from cultural studies to science studies. Students will be encouraged to develop a critical analysis of race and gender in science in order to understand the impact of gender and race on the production of scientific knowledge. This course is designed for students in the humanities, social sciences, science and technical fields. Readings will be taken from past and contemporary social theory (i.e. students will be reading original works not textbooks). Students will be expected to read, understand and synthesize 75-100 pages of reading per class and to discuss them in a seminar fashion in order to analyze, critique and evaluate various theories to develop their own understanding of the interrelationship of science, race and gender. In addition they will do two professional-style book reviews during the semester. At the end of the semester students will integrate theory with social, cultural and historical data that they collect through library research. Students will present the paper to the class in a conference style presentation that will conclude with a Q&A session.

**AAA S 422 (US) (CAS 422) Contemporary African American Communication (3)** A focused study on the continuities between African and African American culture and communication.

**AAA S (CAS) 422 Contemporary African American Communication (3)** (US)

**BA** This course meets the Bachelor of Arts degree requirements.

At least once a year, this multidisciplinary course is designed to serve both Speech Communication and African and African American Studies. It is concerned with the relationship between a people's culture and world view and their systems of rhetoric/communication. It also provides a focus on the continuities between African and African American culture and communication. Specifically, it offers an approach to ascertaining the salient features of African and African American communication for community development. Special emphasis is given to the development and rhetoric of the Civil Rights Movement. The course utilizes videos, guest lectures, tapes of speeches, etc. to clarify objectives and stimulate classroom discussion.

**AAA S 431 (US;IL) (HIST 431) Black Liberation and American Foreign Policy (3)** This course deals with American foreign policy and Black liberation in Africa since 1945.

**AAA S 431 AAA S 431 Black Liberation and American Foreign Policy (3)** (US;IL)

Black Liberation and American Foreign Policy in Africa since 1945 presents an interdisciplinary approach to the study of American foreign policy in Africa. Course readings will consist of both secondary and primary sources to explore the evolution of American policy toward the continent over the last half-century, and the meaning of the American engagement with African politics and society.

The course will also examine the reasons that Africa has served as a focus of concern among African Americans both prior to and over the period 1945 to the present. Of particular concern will be the ways in which American policy has reflected pressures from African Americans as a constituency in foreign policy.

The focus of the course will be student-centered written research and discussion. Students will be required to select topics from the course outline for presentation in class with the instructor serving as the moderator of discussion and guide to relevant research materials. Students will be encouraged to use both primary and secondary sources for their research. They will be expected to prepare two individual written presentations which will serve as the basis for class discussion, a book review, and a research paper on a topic drawn from the areas identified in the course outline.

**AAA S 432 (IL) (HIST 432) Between Nation and Empire: The Caribbean in the 20th Century (3)** An exploration of the political evolution of the Caribbean Region over the course of the 20th Century.

**AAA S (HIST) 432 Between Nation and Empire: The Caribbean in the 20th Century (3)** (IL)

**BA** This course meets the Bachelor of Arts degree requirements.

This course will explore the political evolution of the Caribbean Region over the course of the 20th century. Its focus will be the ways in which imperial rule and the search for national identity have been the parameters that have shaped Caribbean political history over that period. Students will explore, in written assignments and class presentations, the ways in which the region which has historically been a theatre of confrontation among the major powers in the international system continued to serve that role over the course of the 20th century. The costs that have been borne by the people of the region from these conflicts have been enormous and crippling for several societies, especially Haiti, Cuba, Jamaica, and the Dominican Republic. Among those costs have also been the continued dependence of these societies upon human migration, limited economic strategies of transformation, increasing levels of poverty, and the emergence of a wide variety of political systems that reflect different historical experiences, demographic diversity, varying levels of political autonomy, and a remarkable level of cultural similarities.

The Pennsylvania State University
AAA S 434 (IL) (PL SC 434) War and Development in Africa (3) This course will examine the relationship between war and development in sub-Saharan Africa in the post colonial era.

AAA S (PL SC) 434 War and Development in Africa (3) (IL)

This course will examine the relationship between development and war in sub-Saharan Africa in the modern era. Specifically, it will analyze the extent to which the processes of state building, nation building, and international intervention have contributed to the incidence of both civil war and international conflict in Africa. We will begin with an examination of several theoretical arguments on the causes of warfare in Africa and then turn to a discussion of these on African political development. This course complements present offerings in international relations and comparative politics in the PL SC department and can serve as an advanced undergraduate offering in the African Studies concentration in AAAS. The course directly complements our present offerings in international conflict given that we don’t have a regularly offered course that focuses on conflict in a specific region. In addition, it will augment our comparative politics offerings with an examination of prominent issues in comparative politics such as political development, democracy, and modernization. The course will fulfill the IL requirement and encourage students understanding of the historical background as well as the political, economic, and cultural factors that influence African politics. African conflicts are often viewed as "ethnic conflicts" and in this class students have an opportunity to assess the extent to which ethnic, linguistic, or religious factors influence the likelihood of conflict and contribute to development in African states. Students will also be required to write essays evaluating the contribution of a range of theoretical arguments on Africa’s conflicts in order to assess the degree to which cultural more than political or economic factors contribute to their onset. Students will then have the opportunity to conduct more extensive research on a specific African case to develop their analyses further. These exercises will often require that students reevaluate their beliefs about social identities such as race (e.g. in Rwanda the difference between Tutsi and Hutu is often viewed as a “racial” difference between black Africans, which is at odds with most Western conceptions of race). They also require students to challenge stereotypes regarding the subordination of African values in conflicts to a simple concern with “tribe”. Students will gain a broader knowledge and appreciation of the different values, traditions, and cultures evident in Africa and understand how these can both exacerbate and mitigate conflict.

AAA S 440 (US;IL) (PL SC 440, I B 440) Globalization and Its Implications (3) This course explores the socioeconomic implications of globalization.

AAA S 440

AAA S (I B/PL SC) 440 Globalization and Its Implications (3) (US;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

This course explores the socioeconomic implications of globalization and some fundamental changes that have taken place in the global socioeconomic system. The bipolar configuration of global power has been radically altered, market-state relations have been reformulated, and global systems of production and finance have been reorganized. Given these recent changes in the world’s structure, globalization as a socioeconomic force is examined with a special emphasis on its implications on social issues, capital-labor relations, the roles of unions and trans-nationals, unemployment issues, poverty and inequality, gender and ethnicity issues, race relations, and democratization around the world. This course also allows students to explore how different countries, communities, social classes, business firms and even institutions are affected differently by globalization. The implications of globalization on Africana communities is given special attention.

The course is organized into three parts: A) The first part of the course attempts to define globalization and identify its essential characteristics in light of social and economic change. This part attempts to answer questions such as what constitutes globalization, how do we know if globalization is taking place, and what aspects of it are new. B) The second part of the course attempts to assess the implications of the different aspects of globalization (identified in the first part) on many critical social issues, including capital-labor relations, the roles of unions and transnational corporations, problems of unemployment, poverty and inequality, gender, ethnic, and race relations, and democratization. C) The third part of the course examines the implications of globalization to African communities.

This course exposes students to the economic, social, political, and cultural implications of the unfolding global order. It allows them to explore how different countries, communities, social classes, business firms and even institutions are
AAA S 443 (IL) (PL SC 443) Ethnic Conflict in Africa (3) This course explores the various causes and impacts of ethnic conflicts in the African context.

AAA S (PL SC) 443 Ethnic Conflict in Africa (3) (IL)

(BA) This course meets the Bachelor of Arts degree requirements.

Ethnic conflict is presently a pervasive worldwide phenomenon. Ethnic groups in various regions of the world contest the terms of their incorporation into the 'nation' state and the world order. Such contests have often erupted into violent conflicts crossing national borders. The objectives of this course are to examine the problems of state building, the evolving nature of the state, and ethnic conflicts in the African context. The course explores the factors that contribute to violent ethnic conflicts and the factors that mitigate such conflicts. The course largely evolves around the following two general questions. What are the most important internal and external factors that cause ethnic conflicts? The second is what political systems and arrangements tend to mitigate or resolve ethnic conflicts? In an effort to deal with these two general questions the course examines a number of case studies from different parts of Africa. The course is organized into three parts. The first part surveys general theories on the causes of ethnic conflicts and how democracy relates to ethnic conflict. The second part examines several case studies from Africa and attempt to construct a general hypothesis on the major causes of ethnic conflicts and how democratization or lack of it impacts the conflicts. The third part examines measures that may contribute in the resolution of ethnic conflicts and enhance the process of state building in Africa. Students in groups of two or three will choose a case and give a class presentation on the most important issues involved in a given conflict.

This course compliments other courses that deal with African politics, politics of developing areas, and social movements. It also supplements courses in African and African American Studies, Sociology, and Political Science that deal with issues of ethnic and race relations, as well as issues of nation building (state building).

This course exposes students to the various internal and external factors that precipitate ethnic conflicts in Africa and the economic, social, and political implications of these conflicts. It allows students to explore how different states attempt to address the problem.

AAA S 445Y (US) (LER 445Y, PL SC 445Y) Politics of Affirmative Action (3) Examines history, politics, and economics of the use of special programs to advance racial interests in the U.S.

AAA S (LER/PL SC) 445Y Politics of Affirmative Action (3) (US)

(BA) This course meets the Bachelor of Arts degree requirements.

The objectives of this course are to introduce students to the relationship between affirmative action and other policies purportedly designed to end racial inequality in the U.S. This course approaches the study of affirmative action in the context of the historic racial discrimination and inequality that Black Americans have faced since the founding of the Nation. The purpose of this course is to help students think about how contemporary and historic affirmative action policies relate to race, concepts racial inequality, the historic and continuing causes for racial inequality, public opinion, American politics and economic thought. The course materials will lead students through scholarly and popular articles, books and video presentations on the topic. It is hoped that students will become familiar with the history of affirmative action from its conception. Students will gain an intimate understanding of affirmative action economic and social outcomes on various racial groups. No prior knowledge is assumed, however a knowledge of civil rights history, quantitative methods, and constitutional law will be useful. The Politics of Affirmative Action satisfies the requirements for major and minor electives for the African American Studies, and major and minor electives for Political Science, and Labor Studies and Industrial Relations. Students are evaluated on the basis of an examination, term paper, class participation and class presentations of papers.

AAA S 459 (IL) (PL SC 459) Culture and World Politics (3) Role of culture in world politics.

AAA S (PL SC) 459 Culture and World Politics (3) (IL)

This course examines the role of culture in world politics through an analysis of the varying dimensions of culture and their respective impact on the likelihood of cooperation and conflict among the state and non-state actors in the global system. Specifically, we examine the impact of culture in terms of social boundaries, political associations and the likelihood of an emergent global culture defined largely in terms of customs and practices related to international trade and economic production. We also examine the role of culture as a mechanism for the dissemination and maintenance of patterns of hierarchy. Integrating these different conceptions of culture, we examine the relationship between culture and foreign policy in the US.

AAA S 460 (US;IL) (PHIL 460) African American Philosophy (3) Major works by African American Philosophers, on topics of race, freedom, citizenship, nationhood, law and society.

AAA S (PHIL) 460 African American Philosophy (3) (US;IL)

African American philosophers and social activists have produced important texts that both take their place in the philosophical canon and revise the canon and indeed how we understand the practice of philosophy. This course surveys twentieth century African American philosophy, from Du Bois's Souls of Black Folk and Dusk of Dawn, to King's Why We Can't Wait, to Davis's Women, Race and Class, to Boxill's Blacks and Social Justice. The books refer back to both liberal democratic and socialist philosophical treatises, as well as theological and jurisprudential writings, in order to construct new conceptions of race, citizenship, freedom, the rule of law. Moreover, they are all grounded in the concrete, problematic situation of African Americans in twentieth century America, so that they raise with special urgency the question of how philosophical reflection can address social change. In classroom debate, students will rediscover and critically examine how the history of racial strife and reconciliation affects local, national and international civic life. One constant feature of this course is that white students and students of color become aware of differing perspectives that are hard to reconcile; this helps them to re-examine their own social identities and those of their classmates. When the course is team-taught (with one white faculty member and one faculty member of color) the same dynamic occurs between the instructor: watching them reconcile their views in discussion and pedagogy helps the students as well. It is hoped that this course will often or always be team-taught.

The Pennsylvania State University

Globalization has brought increased investments in extractive industries in many African countries. Investments in extractive industries are also likely to continue to increase rather rapidly, given the rising intensity in the competition for African resources, brought about by growing involvement of countries, such as China and India. The terms African countries obtain from corporations for mineral rights have been generally unfavorable. The unfolding competition for African resources brought about by investments from China and India may, however, help African governments to renegotiate the terms of mining concessions corporations to obtain better deals for their resources. Despite the rather poor terms African governments currently have, investments in extractive industries have stimulated economic growth in several countries. Some African countries, including Equatorial Guinea, Botswana, Gabon, Angola, Cameroon, and the Sudan, are experiencing what might be regarded as resource-based economic boom.

Such growth has, however, intensified compulsory acquisition of communal lands by African governments for concessions to extractive industries exposing large numbers of rural communities to evictions form the land they traditionally owned. The expropriations, which purportedly take place for public and development purposes, have led to serious socioeconomic problems, including unemployment and poverty of those evicted from their land, disintegration of traditional institutions of governance, civil wars, communal conflicts, human rights violations, high levels of corruption, and alarming rates of environmental degradation. The conflicts have ravaged many African counties and are likely to continue to occur until mechanisms that allow rural communities to become partners of the transformation are developed. This course examines the socioeconomic and environmental problems associated with land expropriations and extractive industries.

AAA S (PL SC) 464 Globalization, Extractive Industries, and Conflicts in Africa (3) (IL)

Students will be encouraged to explore the period over which the civil rights of African Americans and other Americans emerge permanent features of American political and social life. They will be asked to think systematically about the transformation of American society over the course of the 20th century from a society based upon the constitutional sanction of ‘white supremacy’ and ‘racial segregation’ to one in which ethnic pluralism and equality of races have become the principles accorded increasing legitimacy in principle, if not in fact. They will also be encouraged to explore the process of political realignment within the major parties, the Democrats and Republicans, and the ways in which the politics of race have been instrumental in shifting the electoral strategies and ideological debates within and between the parties.

AAA S 469 (US) (ENGL 469) Slavery and the Literary Imagination (3) The impact of slavery on the petitions, poetry, slave narratives, autobiographies, and novels of African Americans.

AAA S (ENGL) 469 Slavery and the Literary Imagination (3) (US)

(BA) This course meets the Bachelor of Arts degree requirements.
ENGL/AAA S 469 provides an opportunity for undergraduate students to examine African American petitions, poetry, slave narratives, autobiographies, and novels as literary reconstructions of the economics, politics, ethics, and poetics of slavery. Authors under consideration will vary from class to class, but may include writers such as Paul Laurence Dunbar, Phillis Wheatley, F. Harper, James Weldon Johnson, Langston Hughes, Claude McKay, Sterling Brown, Booker T. Washington, Harriet Jacobs, W. W. Brown, Harriet Wilson, Margaret Walker, Arna Bontemps, D. Bradley, S. A. Williams, Tony Morrison, Ishmael Reed, and Charles Johnson. The course will focus on the complex relationship of slavery to the literary imagination of Americans of African descent as they increasingly discovered the limitations and possibilities of reading and writing themselves into freedom, literacy, and wholeness as human beings and American citizens. Topics covered will vary, but will include issues of the legacy of slavery in the west; the political aims and rhetorical conventions of African-American autobiography; the myths and realities of slavery; economic, political, ethical, and aesthetic issues of the representation of slavery; understandings of black consciousness and black culture on the road from slavery to freedom; the rise of African American realism as a response to the legacy of slavery; Black Feminism and issues of slavery; the role of history and memory in the construction of slavery; post-modern configurations of slavery; and the like. This class will prepare students for advanced courses in African American literature, as well as other academic courses that engage in the verbal and written analysis of complex written forms. AAA S/ENGL 469 will satisfy one of the six 300H-400 level courses required for the major in English and the required 400 level course for the emphasis in African American literature within the major. It can also satisfy one of the six courses required for a minor in English. The course may be used as English Major elective credit or as credit towards the English minor. It will also be important in the offerings of African American Studies, American Studies, and American History. This course can be used to fulfill major requirements on the African American Studies major.

AG BM 106 Agribusiness Problem Solving (3) Development of quantitative problem solving skills applied to specific examples of agribusiness management problems, using EXCEL spreadsheets.

AG BM 106 Agribusiness Problem Solving (3)

The goal of this course is to develop agribusiness problem solving skills. These skills include optimization, marginal analysis, time discounting, and measuring efficiency. Examples will be implemented using Microsoft EXCEL spreadsheets rather than algebra, calculus and abstract mathematics. This course, then, plays an important role by building skills for use in later agribusiness management courses as well as teaching important problem solving skills to non-majors who want to learn quantitative economics problem-solving skills in the context of agribusiness management.

Material will be organized according to the course topics areas: optimization, marginal analysis, time discounting, and
efficiently measurement. Each topic area presentation will rely on specific examples of agribusiness management problems. The first lecture of each week will be a standard lecture emphasizing concepts, presented in a passive learning format. The second lecture of each week will be presented in a technology classroom with spreadsheet examples being worked out by the professor in front of the class, who will guide the students. The third lecture of each week will be taught in a computer laboratory, with students solving the problems actively, but with supervision. Problem solving skills will be reinforced by assigning problem sets for students to do on their own after the computer laboratory experience. It is permitted for students to submit identical labs but problem sets should not be identical.

AG BM 308W Strategic Decision Making in Agribusiness (3) Utilize case studies to investigate strategic decision making among agribusiness firms, highlighting how information and market power shape strategies.

AG BM 308W Strategic Decision Making in Agribusiness (3)
This course is designed to analyze strategic decision making among agribusiness firms and other economic agents in a market environment characterized by imperfect information and market power. The course draws upon game theory and other strategic decision tools to analyze four broad types of strategic decisions, each of which corresponds with the four main parts of the course: 1) Strategic Decisions Between Rival Firms: Focusing on firm decisions made between rivals with full information, part one includes the following topics and strategies: limit pricing, entry deterrence, predatory pricing, excess capacity, wars of attrition, strategic commitment, tit-for-tat pricing, and retaliation. 2) Strategic Firm Decisions in an Uncertain World: Focusing on firm decisions made with incomplete information, part two, includes topics on probabilities, expected value and expected utility, learning curves, investment decisions, flexibility, and option value. 3) Strategic Decisions Between Unequal Partners: Focusing on firm decisions made between unequal partners with asymmetric information, part three includes topics on vertical coordination, incentive compensation, franchising, and auctions. 4) Cooperation and Strategic Alliances: Part four investigates how firms can overcome informational problems described above through the use of strategic partnerships. This writing, intensive course will rely on both class lectures and a substantial amount of class discussion. The course content will feature eight to ten industry applications and case studies of individual companies to reinforce economic theory.

Learning Objectives - Students will:
• Classify practical agribusiness problems by the type of available information - full, incomplete, or imperfect and by the nature of market power in an industry.
• Construct and analyze game trees and other representative models of strategic decisions facing businesses and employees.
• Solve strategic business problems using economic models based on game theory and other economic principles.
• Write business-style memos and reports that summarize a business decision, plan, or solution that is supported by economic analysis.

AG BM 320 Markets and Prices: Analysis and Forecasting (3) Understand how prices are determined; develop the skill to analyze and forecast how prices change as the underlying conditions change.

AG BM 320 Markets and Prices: Analysis and Forecasting (3)

In AG BM 320, Markets and Prices: Analysis and Forecasting, students learn how prices are determined and learn how to analyze and forecast how prices change as the underlying conditions change. This involves learning those tools that are used to analyze and understand how commodity markets work and how prices are determined. The class mixes theory with practical knowledge and examples, and aims to create a balanced representation of the tools used in market analysis. The students learn how to find data, manipulate it and analyze and apply these skills to test the validity of simple economic models, to forecast commodity prices, to understand market trends and learn the use of derivative instruments to manage price risk.

One objective of this class is to improve the understanding of economic modeling and to increase the familiarity of students when applying statistical functions and regression analysis to solve applied problems. These core competencies rely on previous knowledge of basic statistic tools and data manipulation. In the process, students will learn to analyze market fundamentals and better understand those forces that affect prices. This will also help them better understand supply and demand and the ability of market participants to adjust to changing conditions.

Agricultural Communications (AGCOM)

AGCOM 462W Advanced Agricultural Writing (3) Practice in journalistic writing strategies to report scientific and technical information in the agricultural/environmental sciences to general audiences.

AGCOM 462W Advanced Agricultural Writing (3)
Advanced Agricultural Writing focuses on scientific and technical topics in the agricultural/environmental sciences and public policy issues related to such subjects for the print media. Instructional objectives include:

- To learn and practice diverse forms of writing for general audiences, including brief news articles and feature formats, such as process, human interest, policy, and news reporting in the agricultural/environmental sciences.
- To recognize and use standard journalistic conventions, including grammar, mechanics, usage, and style.
- To develop an understanding of a writer's responsibilities and obligations within the context of journalistic ethical standards.
- To analyze and evaluate situations that require writing in order to respond appropriately to the needs and interests of general as well as specialized audiences.
- To develop feature writing skills through extensive writing and revising exercises.

Student evaluation is based on writing assignments and class participation, particularly contributions to the peer review process. Every writing assignment (with the exception of short in-class exercises) is critiqued in peer response groups in class. Before the first draft of a feature article or query letter is due, the class develops a criteria sheet that is specific to the diverse forms of writing students are doing. The day the first draft is due, the class divides into peer response groups and, using the criteria sheet, provide feedback for each writer. The instructor also offers feedback on drafts of each article. Only final drafts are evaluated and graded by the instructor.

Agricultural Economics (AG EC)

AG EC 430 Principles of Community Economic Development (3) Concepts, strategies and techniques of local economic...
AG EC (CEDEV) 430 Principles of Economic Development Planning (3)

This course is designed to introduce the issues giving rise to concern for rural and regional economies, and the theories, concepts and tools of rural and regional economic development. The goal is to integrate theory and practice and apply them to economic development problems. Tools are presented in a "how to" manner. Topics include current issues in rural economies; the economic view of rural development; business retention, expansion and location; entrepreneurship and its role in the economy; understanding the local economic structure and the forces of change; introduction to economic growth theories; export base theory and economic base analysis; the role of labor and capital in development; techniques of market area, central place, shift-share and input-output analysis; policies of local economic development and growth.

A S M 210 Turfgrass and Outdoor Power Equipment Systems Management (2) Management of turfgrass and outdoor power equipment (OPE) systems. Application of mechanical systems in the turfgrass and OPE industry.

A S M 210 Turfgrass and Outdoor Power Equipment Systems Management (2)

A S M 210, Turfgrass and Outdoor Power Equipment Systems Management, is a 2 credit course that explores the technology aspects of turfgrass and outdoor power equipment systems as they relate to equipment management. Topics to be covered include: gasoline and diesel engine operation and troubleshooting, electrical and hydraulic system principles and components, machinery management concepts and systems, equipment and chemical safety, and reel and rotary blade theory and sharpening. Students will use a hands-on approach to reinforce the concepts of these topics. Activities will focus on the concerns of a turfgrass or outdoor power equipment manager.

A S M 217 Landscape Soil and Water Management (3) Landscape soil and water management and practices including irrigation, hydrology, erosion, open channel, drainage, and impoundments.

A S M 217 Landscape Soil and Water Management (3)

A S M 217 is a service course developed entirely to meet the needs of the Landscape Contractors and Landscape Architecture programs. This course is also elected by a few students in Turf and Soil Science and Horticulture. The first six weeks of this course are devoted to the design, layout and management of landscape irrigation systems. Proper selection of sprinklers, irrigation system management and scheduling, control systems and pressure considerations are covered at a level appropriate for the Landscape Contractors and Landscape Architecture juniors and seniors. The second portion of the course focuses on understanding the rainfall-runoff relationships and their influence on soil erosion and sedimentation on landscape sites, especially during construction activities. Students learn how to develop erosion and sedimentation control plans including channels, sedimentation basins and sediment traps. Students also learn to predict soil erosion and understand the impacts of adding wet (continuously water-filled) basins to landscapes.

A S M 307 Golf Course Irrigation and Drainage (3) Golf course irrigation systems; including sprinkler selection; piping; control systems; scheduling. Surface and subsurface drainage topics. Note: Students may not take both A S M 217 and A S M 307 for credit.

A S M 307 Golf Course Irrigation and Drainage (3)

A S M 307 is a course developed to instruct students, interested in working in the golf course management profession, about water management. The primary clientele is expected to be Turfgrass Science students. The two large topic areas are irrigation and drainage. About 70 percent of the course is devoted to irrigation topics with a strong concentration on golf course irrigation applications. The discussion starts with sprinkler characteristics and selection and continues to where sprinklers should be placed to be most efficient and effective. Once sprinklers have been properly located, a management scheme is developed that leads to an efficient piping and control system. The management scheme must take into account the highly variable turfgrass evapotranspiration and soil characteristics, plus the personal desires of the turf manager. This is followed with how to most effectively layout and size the piping system so all sprinklers will receive water at their recommended pressure. This is followed by a discussion about pumps, their characteristics and limitations. Students are asked to compute the two primary pump selection parameters. The irrigation section is concluded with the introduction of several additional topics such as thrust blocking, venting, draining the irrigation system for winter storage, etc. All students are required to develop or analyze an irrigation system for a 9-hole golf course. This is a semester-long project that constitutes a major portion of their grade. Following the irrigation, we spend two to three weeks discussing golf course drainage. We discuss classical surface and subsurface drainage and then introduce the details of how classical drainage is applied to recreation areas and golf courses. Drainage is about 30% of the course. In addition to the project, students are evaluated using two exams and weekly homework.

A S M 309 (E R M 309) Measurement & Monitoring of Hydrologic Systems (3) Introduction to measurement and monitoring equipment/techniques commonly used in analyses and design of hydrologic systems.

A S M (E R M) 309 Measurement & Monitoring of Hydrologic Systems (3)
This course will provide students the opportunity to learn and apply basic measurement techniques that serve as critical tools in professional practice in water resources. Mapping development and use serves as a critical aspect of water resources engineering and planning, and a major portion of this course will focus on the fundamentals of surveying and translation of surveyed data into useful maps and engineering drawings. Students will learn the theory that underpins basic surveying and then apply this theory in actual survey practice. Autocad serves as a primary software tool used in engineering design and water resources planning, and students will be afforded opportunities to use Autocad to present and process various watershed- and survey-based data. Geographic information system (GIS) techniques will also be investigated as a tool to process, record, analyze, and display various spatial data commonly used in water resources planning and engineering design. Students will learn the basic techniques and processes used to transfer data between GIS and Autocad, both of which are commonly used in practice. The course will also investigate the instrumentation, techniques, and theory involved in common water resources measurements including weather conditions (which serve as the principle driving conditions in water resources), flow monitoring, basic soil properties, water movement in soils, and water quality sampling and analyses. Students will conduct hands-on exercises that will focus on the use of various instruments and techniques commonly employed to conduct such measurements. Data collected will be processed and analyzed within the context of professional practice case studies. The various aspects of the course will coalesce around the concept of the watershed being the basic unit of water resources analyses and design, and students will experience how various measurement techniques and approaches are necessary tools for practicing professionals. This course will be useful to any undergraduates seeking degrees in a major related to water resources planning, engineering, or technology.

A S M 310 Power Transmission in Agriculture (3) Selection and maintenance of mechanical, hydraulic, and pneumatic power transmission components and systems. Electric motor principles and controls.

A S M 310 Power Transmission in Agriculture (3)

After successful completion of A S M 310, students will apply the physical principles, of mechanical power transmission system components such as shafts, belts and sheaves, chains and sprockets, gears, torque limiters, clutches, and universal joints by selecting suitable mechanical drives and specifying proper maintenance procedures. Students will be able to read hydraulic and pneumatic schematics, size fluid power components such as pumps, lines, valves, cylinders, and troubleshoot hydraulic and pneumatic systems. Students will also be able to explain the electrical and physical principles of AC and DC electric motor operation. They will be able to identify torque, speed, voltage, and current operating characteristics and will be able to select controls and circuit protection devices necessary to achieve proper performance. As a required course in the Agricultural Systems Management major, A S M 310 is a prerequisite for other courses.

A S M 320 Combustion Engines for Mobile Equipment (3) Operating principles of internal combustion engines; performance, selection, and maintenance aspects of engine systems in mobile equipment.

A S M 320 Combustion Engines for Mobile Equipment (3)

After successful completion of A S M 320, students will explain and evaluate the theoretical and practical aspects of internal combustion engines. Students will evaluate and compare alternative engine thermodynamic cycles, alternative fuels (gasoline, diesel, biodiesel, compressed natural gas), performance enhancing attachments (turbochargers, intercoolers), and supporting systems (fuel injection, lubrication, starting, cooling, emissions cleansing). Students will be able to properly select engines and related systems for mobile applications. Students will employ important maintenance procedures required for economical useful life and proper operation. Students will be able to troubleshoot engine systems.

A S M 326 Hazard Identification and Control in Production Agriculture and Related Businesses (3) Identification and control of hazards common to farms and agriculturally related rural businesses, including structures, equipment, animals,
A S M 326 Hazard Identification and Control in Production Agriculture and Related Businesses (3)

This course provides an overview of identification and control of hazards common to farms and agriculturally related rural businesses. The focus is on hazards associated with machinery, structures, equipment, animals, chemicals and the outdoor environment. Upon completion of the course you will be able to:

1. Describe the extent and range of occupational injury and disease on farms and in agriculturally related businesses.
2. Describe principles of hazard identification and control.
3. Recognize hazards found on farms and in agriculturally related rural businesses.
4. Develop methods for preventing or controlling hazards found on farms and in related businesses.
5. Evaluate work sites for hazards based on standardized hazard auditing tools.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A S M 327 Soil and Water Resource Management (3)

Soil and water management systems and practices including hydrology, surface drainage, open channels, and erosion, subsurface drainage, impoundments and irrigation.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A S M 391 (GWS) (B E 391) Contextual Integration of Communication Skills for the Technical Workplace (2)

To develop corporate communication skills in technically focused students in a contextual manner.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A S M (A B E) 392 Contextual Integration of Leadership Skills for the Technical Workplace (2)

A B E/A S M 392 is the second half of a two-semester experience in corporate-focused leadership and communication skills training. The sequence is formatted into two 2-credit courses (second semester Junior for A B E/A S M 391 and first semester senior for the companion A B E/A S M 392 course). A key facet of this training is the contextual approach taken. All course modules are focused around the needs of industry and corresponding technical course content — a complete contextual approach. To meet the needs of the student, the course will reflect clear understanding of leadership and communication but also appreciate critical aspects of the technical content of student’s work and of the industries within which the students will ultimately work. The primary focus for 392 is communication skills (oral and written) with a secondary focus on leadership and career skills. The course provides the student with interaction with individuals from industry (company visitors, industry trips, and recruiting opportunities). Students will be evaluated through writing and speaking projects, professional presentations, written worksheets in class and out, creation of portfolios and reports, in class group and individual exercises, computer graphics presentation assignments, library assignments, interaction with industry executives (reports), and leadership journals.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.
leadership, with communication and career issues the secondary focus. The course provides students with interactions
with individuals from industry (company visitors, industry trips, and recruiting opportunities). Topics developed for A B
E/A S M 392 include personal development, ethical decision-making, corporate social responsibility, strategic group
management, facilitation, and diversity. Students will be evaluated through writing and speaking projects, professional
presentations, written worksheets in class and out, creation of portfolios and reports, in-class group and individual
exercises, interaction with industry executives (reports), and leadership journals.

A S M 420 Off-Road Power Units (3) Cabs, traction, power allocation, and electronic systems for tractors and other
off-road vehicles; requirements for production agriculture, logging, and construction.

A S M 420 Off-Road Power Units (3)
A S M 420 covers the technical aspects of off-road power units such as tractors, self-propelled harvesters, and logging
and construction equipment. Upon successful completion, students will understand the many facets of design and
management of such vehicles (such as power generation, power allocation, power transmission, traction, operator
enclosures, and electrical and electronic systems).

Grades will be based on homework, laboratory exercises, a special project report as well as a mid-term and a final
examination. Laboratory exercises will involve full-scale equipment with instrumentation used to measure performance.

While A S M 420 is not a prerequisite for any other course, it complements engineering and technology courses related to
machinery. This course serves as a technical selection in the Agricultural and Biological Engineering major and as an
agricultural selection in the Agricultural Systems Management major. It complements other courses for anyone interested
in the off-road machinery industries. A S M 420 covers several aspects of function and design related to off-road
machinery.

A S M 424 Selection and Management of Agricultural Machinery (3) Function and operation of field and farmstead
machines; energy, quality, and loss considerations; selection and utilization; precision agriculture technology.

A S M 424 Selection and Management of Agricultural Machinery (3)
A S M 424 covers the many aspects of mobile agricultural machinery and fleet management. Integration of economic
analysis and functional performance topics are the focus. Optimization, sizing criteria and cycle diagrams, repair and
maintenance, reliability of machinery, and precision agriculture technology are major topics covered. Students will give
demonstrations of machines as part of the course. Software will be used to select proper sets and sizes of machinery as
well as predict impact of machinery selections that may be non-optimal.

Grading will be based on homework, laboratory exercises, a demonstration project as well as mid-term and final
examinations. Laboratory exercises will involve full-scale equipment with instrumentation used to measure performance.

While A S M 424 is not a prerequisite for any other course, it complements engineering and technology courses related to
machinery. This course serves as a technical selection in the Agricultural and Biological Engineering major or as an
agricultural selection in the Agricultural Systems Management major. It complements other courses for anyone interested
in the off-road machinery industries. A S M 424 covers several aspects of selection and management of agricultural
production and processing machinery.
A S M 425 Physical Principles in Agricultural Processing (3)

Heat transfer, fluid mechanics, and materials transport are engineering technology concepts that are important for students who desire to manage, evaluate, or develop commercial agricultural processes. This course introduces or reinforces these concepts in the context of materials that are of interest to agricultural systems management students. The applications include: grain drying and storage; milk acquisition, transport, and processing; waste and manure management; and biofuel processing and transport.

A S M 426 Management of Safety and Health Issues in Production Agriculture and Related Businesses (3)

A S M 426, Management of Safety and Health Issues in Production Agriculture and Related Businesses, is a 3-credit-hour course that explores the management aspects of farm and agricultural-related business safety and health. Topics to be covered include: orientation to farm and related business safety and health issues, legal and ethical responsibilities, how to approach and organize safety and health management plans, and safety and health education and training. Students will use a case-study approach to devise safety and health management plans for an existing farm or agricultural related business enterprises. Activities focus on the analyses of worksheet hazards, developing a hazard control plan, and employee training. Evaluation will be based on homework and class participation, quizzes, a final exam, and a final paper and class presentation. A S M 426 presents students with a systems approach to developing management strategies to counteract work hazards and methodology for preparing occupational safety and health management plans for production agriculture and related businesses that serve production agriculture. A S M 426 is an upper-level elective for the Industrial Safety and Health program in the Department of Energy & Geo-Environmental Engineering, College of Earth & Mineral Sciences, and would be in the selection list for a supporting/related course in the A S M Off-Road Equipment Minor.

Faculty Members Proposing Course: D. J. Murphy and J. W. Hilton

A S M 428 Electric Power and Instrumentation in Agriculture (3)

A S M 429W Agricultural Systems Analysis and Management (3)

ASM 429W is a capstone course for the Agricultural Systems Management major. The course covers systems analysis and
optimization techniques including an introduction to systems theory, qualitative and quantitative analysis, linear programming, waiting line models, PERT/CPM, minimal spanning tree, calculus methods, simulation modeling for decision making, inventory, and energy audits. All topics are presented in the form of case studies that require the students to solve problems in realistic agricultural production and processing scenarios. All exercises, exams, and projects are team-based. The course also provides a writing-intensive structure. The course targets ASM students in their last semester because it integrates knowledge and experiences acquired in prior ASM, business, and agricultural science courses. Grades are based on reports, a mid-term exam, and a final project.

Agricultural and Extension Education (AEE)

A E E 100 Agricultural Education Orientation (3) Examination of agricultural and extension education; exploration of aptitude and interest in teaching, including early clinical practicum.

A E E 100 Agricultural Education Orientation (3)

The purpose of the course is to allow students to explore the profession of teaching in both formal and non-formal settings. Students are provided opportunities, through class activities, projects, and on-site observation of teaching and learning situations, to explore the various aspects of teaching and learning. Through individual and group-work techniques students are provided the opportunity to investigate their potential interest in becoming a future educator of agriculture. Students study the history and philosophies associated with agricultural education within the state and nation. A cornerstone of the course includes instruction that allows students to understand the requirements to become certified in the state of Pennsylvania to teach Agricultural Education. This certification allows individuals to teach Agriculture in the public school system. Along with certification requirements for teaching, students investigate what it means to join the professional ranks of teachers, and the responsibilities associated with educating today's youth. Students also learn the many techniques for teaching in, and about, agriculture in today's society through actual teaching scenarios with their
Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AEE 201 Interpersonal Skills for Tomorrow's Leaders (3)** Study of concepts of self identity, values and interpersonal relations as related to professional and personal life.

**AEE 201 Interpersonal Skills for Tomorrow's Leaders (3)** (GS)

The purpose of the course is to aid students in becoming competent in conducting interpersonal relationships in their daily life, and to help students acquire skills basic to becoming a leader in their personal life. The following topics will be addressed. A framework for interpersonal skill development sets the stage for improving one's interpersonal skill. Understanding individual differences addresses information that is the foundation of effective interpersonal relations. Interpersonal communications deals with skills in sending and receiving messages. Developing teamwork skills sensitizes the student to a vital set of skills in the workplace as well as organizations. Group problem-solving and decision making provides additional skill in collaborative efforts. Cross-cultural relations and diversity develops cross-cultural skills in the classroom, community organizations and the workplace. Resolving conflicts develops skills in finding constructive solutions to differences of opinion and disputes with others. Becoming an effective leader addresses: 1) exercising effective leadership in clubs, organizations and the workplace, 2) motivating and helping others to develop and grow through coaching, counseling and teaching, 3) using power and influence for constructive purposes, and 4) translating ethical behaviors into usable skills. Each class meeting will focus on one or more concepts related to leadership and interpersonal skill development. Students will be provided a number of experiential activities that help them practice a particular set of skills. In addition, students will be required to complete a service learning project applying their leadership and interpersonal skills with individuals in the community who are in need of their help.

AEE 311 Developing Youth Leadership through Organization and Program Structure (3) An orientation on how adolescents develop and emerge as leaders in their families, schools, organizations, and communities.

AEE 311 Developing Youth Leadership through Organization and Program Structure (3)

An orientation on how adolescents develop and emerge as leaders in their families, schools, organizations, and communities. Content will focus on the FFA organization and supervised agricultural experiences as well as 4-H & other non-formal youth organizations. While the course will be grounded in traditional and contemporary youth leadership philosophies and practices it will emphasize youth leadership development in the food, agriculture, and natural resource sciences.

Bachelor of Arts: None
Effective: Summer 1999
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AEE 350 Teaching Methods for Agricultural and Environmental Laboratories (3) An introductory course that prepares students to instruct and manage students in laboratory settings.

The Pennsylvania State University
Teaching Methods for Agricultural and Environmental Laboratories (3)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Fall 2001

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AEE 360 Leadership Development for Small Groups (3) Students will learn about leadership dynamics in small groups and how to be more influential in work settings.

AEE 360 Leadership Development for Small Groups (3)

This course is designed to teach students the dynamics of leadership in small groups. Specifically, students will learn to identify characteristics of leaders and understand their own personal leadership style. In addition, students will participate in team building activities and understand small group and motivational factors.

Evaluation will be via a series of four examinations and two papers reflecting on impact and shadowing exercises. This course will be part of a series on leadership development offered through the Department of Agricultural and Extension Education.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 2000

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AEE 395 Internship (1-13) Supervised off-campus, non-group instruction including individual field experiences, practicums or internships. Written and oral critique of activity required.

AEE 440 Communication Methods and Media (3) Mass media techniques for reporting and promoting extension and related programs, including message preparation, presentation, and strategy development.

AEE 450 Program Design and Delivery (3) Principles, methods, and practices of extension education in agriculture, community resource development, family living, environmental affairs, 4-H, and youth programs.

AEE 460 Foundations of Leadership Development (3)

This course is designed to provide students with a philosophical and theoretical framework of leadership by examining historical and contemporary theories, models and perspectives within social, cross-cultural, and political contexts.

AEE 465 Leadership Practices: Power, Influences, and Impact (3) Explores the leader role as it relates to issues of purpose, social responsibility, political influences, and legal constraints.

The Pennsylvania State University
In this course, students will explore leadership roles as they relate to issues of purpose, social responsibility, political influences and legal constraints. It is designed to help students develop greater sensitivity to the variety of factors and forces impacting leadership processes and to acquire an increased understanding of key elements of successful leadership practices. The overall objective of this course is to help students learn specific leadership competencies that will make them a more effective leader when addressing problems and seeking solutions in public and/or private domains.

Evaluation will be based upon unannounced quizzes, several short written projects, and a final paper in which students will be expected to demonstrate an integrated application of causes, barriers and key ingredients of a leader they consider to be successful. This course will be part of a series on leadership development offered through the Department of Agricultural and Extension Education.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 1999
Prerequisite:

AG 160 (GH) Introduction into Ethics and Issues in Agriculture (3) The course explores ethical theories, concepts of critical thinking, and major ethical issues related to American agriculture.

AG 160 Introduction into Ethics and Issues in Agriculture (3)

Ethics and the social contract include substantive ethical theories focusing on rights-based ethical theories (libertarianism and egalitarian theories) and consequentialist theories (utilitarianism and axiology). These theories assist in conceptually defining levels of participation and consent in democracy. This course explores the circumstances in which rational persons and political groups historically agree to be bound in collective decision making. The primary focus by examines four separate ethical themes illustrating why and how individuals accept a variety of terms.

The course highlights philosophical/ethical decisions related to agriculture issues during the history of the United States. Issues range from non-interference rights to opportunity rights dealing with food, fiber, natural resource and environmental issues. Procedural theory emphasizes the formation of legitimate and defensible rules rather than ethics. Policy choices are assumed to be legitimate and defensible as long as individuals follow the rules/procedures for decision making. The content of this course meshes the procedural and the substance theories found throughout historical debates in agriculture communities. The course identifies traditional agrarian problem identification, policy formation, policy adoption and funding, program implementation and program evaluation.

How ethics figures historically in agriculture policy processes is applied in a variety of case studies and debates as well as selected readings. The course includes an examination of the ethics of when, how and where the policy process historically influenced agriculture public policies. The course emphasizes the need to critically think about various points of view expressed by various conflicting authors.

AG 160S (GH) Introduction to Ethics and Issues in Agriculture (3) Introduce students to the University and College of Ag Sciences preparing them to succeed. Review ethical theories and issues in American agriculture.

AG 160S Introduction to Ethics and Issues in Agriculture (3)

This course introduces students to contemporary issues, ethical theories and principles, and the application of critical thinking and communication skills related to topics in agriculture, renewable natural resources, and the environment. Additional emphasis will be placed on developing the skills that help achieve academic success at Penn State through these speakers and activities. Course content will include analyzing moral positions based on three ethical theories: normative ethics, descriptive ethics, and metaethics; and four ethical principles: beneficence, nonmaleficence, respect for autonomy, and justice. Guest speakers, field trips and interactive activities, which feature disciplines in the College of Agricultural Sciences, will supplement the course materials and enrich the educational experience. In addition, various career and networking opportunities with internationally acclaimed faculty and staff, current students, and alumni will be featured.

AGECO 122 (GN) (METEO 122) Atmospheric Environment: Growing in the Wind (3) Dynamic effects of weather on ecosystems and habitation of Earth.

AGECO 122 Atmospheric Environment: Growing in the Wind (3)

Atmospheric Environment: Growing in the Wind is for first-year students who are interested in learning about the dynamic effects of weather on ecosystems and habitation of the Earth. It is about how processes at the ground surface and in the air govern weather conditions on Earth. Growing in the Wind focuses on five major weather elements: energy, temperature, moisture, pressure, and wind and how these factors govern ecosystems and habitation of Earth. Emphasis is also given to human impacts on weather and climate. The lectures (2, one-hour lectures each week) are organized around the central theme that the unequal distribution of incoming solar energy (both spatially and temporally) produces temperature and pressure contrast at the Earth's surface and in the atmosphere that in turn cause storms and control the weather and climate. Computer lab exercises (1, two-hour lab each week) will reinforce concepts learned in lecture.

**AGECO 134 (GN) (R SOC 134) Sustainable Agriculture Science and Policy (3)**
The science, socio-economics, and politics of managing food and fiber production systems. Sustainability implications of current practices and future options.

**AGECO (R SOC) 134 Sustainable Agriculture Science and Policy (3)**
This general education course will teach students about the soil, plant, animal, and ecological sciences; technologies, and policies of our agroecosystems in an integrated manner. We will examine agricultural resources and options available for sustainable management of resources for food production. Students will have many opportunities to examine and critically analyze scientific knowledge and policies during discussions, writing exercises, and role playing to develop analytical and communication skills. There are no prerequisites for this course. This course can link with other courses that address how research and efforts in agricultural sciences, ecology, policy, economics, philosophy, education, and communication influence sustainable management of natural resources for the present and the future.

**AGECO 144 (GN) Principles and Practices of Organic Agriculture (3)**
An introduction to the science, principles and practices of organic agricultural systems for food production.

**AGECO 144 Principles and Practices of Organic Agriculture (3)**
This general education course will teach students about the science of agroecology, with a focus on organic agriculture. We will examine the science, history and development of organic agriculture and its principles and practices. Students will learn about the scientific basis and implementation of fundamental organic farming principles and practices including soil health, diversified cropping systems, organic pest management, and a system perspective. We will also discuss certified organic regulations and policies, organic farming business management and marketing. Learning activities will include: i) reading and discussing agricultural scientific articles, ii) listening to guest speakers and videos, iii) hands-on laboratory and greenhouse activities, iv) attending a field trip, and v) two group projects. The only prerequisite for this course is a high school level biology or ecology course. This course can link with other courses that address the agricultural sciences, food systems, environmental resource management and policy, landscape management and design, and natural resources. Student learning will be evaluated from class participation, questions on reading assignments, short papers and presentations, and a group project and presentation conducted by student teams.

**AGECO 418** (AN SC 418, SOILS 418) Nutrient Management in Agricultural Systems (3) Comprehensive review of nutrient flow in animal agricultural systems, environmental regulations, and environmental stewardship practices.

*AGECO (AN SC/SOILS) 418 Nutrient Management in Agricultural Systems (3)*

- Nutrient Management in Agricultural Systems is a senior level course that applies the fundamentals of animal and plant sciences to the concept of a nation-wide food animal system. The regional concentration and consolidation of animal production enterprises has resulted in important economic savings for consumers. But these changes have also had some detrimental impacts on the environment. For example, some nutrients such as calcium and phosphorus and certain trace elements are mined, while others such as nitrogen and potassium are derived from crop production systems. In all cases, the nutrients are transported to areas of livestock concentration. A small portion of the nutrients leave the farm in the form of animal products, while 60 to 70% of the nutrients are excreted and applied to nearby crop land. The environmental implications of the net influx of these nutrients to livestock producing communities have only recently been recognized. These concepts will provide the background around which regulations are written and sound nutrient management strategies are developed and implemented.

**AGECO 438** (AGRO 438) Principles of Weed Management (4) Weedy plant taxonomy, biology and ecology of weedy plant populations, and integration of biological, chemical, cultural and biological controls.

*AGECO (AGRO) 438 Principles of Weed Management (4)*

The study of weeds and their management is a challenging and demanding task that requires diverse abilities. The term
weed is an anthropocentric construct meaning it is a human colored definition. We will study the biology and ecology of weedy plants drawing on examples from a wide range of plant systems; those systems include agricultural fields (agronomic and horticultural crops) and forests. Of course our knowledge of the biology and ecology of weedy plant populations will then be used to underpin and assess control tactics and their integration. The discipline has a history of equating management with herbicidal control and in fact some 80% of the pesticides used in U.S. agriculture are herbicides. However through novel farmer designed management systems, through a research community focused on alternative methods of management and through increased focus on invasive species, exciting breakthroughs are occurring in alternative methods of management and prevention. This course seeks to introduce you to the breadth of management approaches in use and under study. The specific objectives are for students to be familiar with: 1) the local weed flora, 2) fundamental aspects of weed biology and ecology relevant to managed landscapes, 3) the control methods used in managing weed populations, 4) how control measures can be integrated to accomplish acceptable levels of pest suppression, 5) operationalizing a weed management plan, 6) how herbicides enter and move to their site of action in plants, 7) classifying herbicides by their site of action, and 8) the distinction between herbicide concentration in soils and plant available herbicide concentration.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AGECO 457 (CI ED 457) Principles of Integrated Pest Management (3) Integrated study of pest complexes and their management, emphasizing ecological principles drawing on examples from a range of agricultural, forestry and urban systems. This course is designed for sixth, seventh, and eighth semester students and graduate students.

AGECO (AGRO/ENT/PPATH) 457 Principles of Integrated Pest Management (3)

ENT (AGECO/AGRO/PPATH) is designed to provide junior/senior level undergraduates and graduate students with the knowledge and tools needed to design and implement IPM programs. The course integrates pest management principles and concepts developed specifically for or across the disciplines of weed science, entomology, plant pathology, crops and soil science, horticulture and ecology. Students will also be taught the underlying ecological, historical, sociological and economic principles required for successful development of IPM programs.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AGECO 461 Emerging Issues in Agroecosystem Management (3) A discussion-based capstone course that elucidates the interdisciplinary issues facing agriculture today.

AGECO 461 Emerging Issues in Agroecosystem Management (3)

Emerging Issues in Agroecosystem Management (AGECO 461) is a capstone course designed for the Agroecology degree program, but is also available to students from other majors. This highly participatory course emphasizes many of the interdisciplinary topics facing agriculture today, with a focus on balancing agricultural production with environmental conservation. Topics include: implications and management of soil quality; genetically modified crops; climate change and agriculture; pest and nutrient management alternatives; biofuels; and urbanization. Many of the lectures are given by guests that are experts in the specific topics, which are followed by a student-led discussion with the guidance of the primary instructor. Select readings from the peer reviewed literature are also included. Students will prepare a case study of an actual agricultural production system, emphasizing the sustainability issues covered in the class.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AGECO 490 Agroecology Colloquium (3) Students will be discussing topics related to the major and develop presentations in consultation with the course instructor.

AGECO 490 Agroecology Colloquium (1)

Students learn from commercial farmers about current issues, needs, and successes in the application of agroecological principles. Pennsylvania and northeastern farmers are invited to discuss their farming practices and decision making processes involved in managing farm and environmental resources. Through discussions with the guest speakers, written
papers and class discussions students reflect on, analyze, and summarize what they learn direct from practitioners about agroecosystem management.

AGRO 438 (AGECO 438) Principles of Weed Management (4) Weedy plant taxonomy, biology and ecology of weedy plant populations, and integration of biological, chemical, cultural and biological controls.

AGRO (AGECO) 438 Principles of Weed Management (4)

The study of weeds and their management is a challenging and demanding task that requires diverse abilities. The term weed is an anthropocentric construct meaning it is a human colored definition. We will study the biology and ecology of weedy plants drawing on examples from a wide range of plant systems; those systems include agricultural fields (agronomic and horticultural crops) and forests. Of course our knowledge of the biology and ecology of weedy plant populations will then be used to underpin and assess control tactics and their integration. The discipline has a history of equating management with herbicidal control and in fact some 80% of the pesticides used in U.S. agriculture are herbicides. However through novel farmer designed management systems, through a research community focused on alternative methods of management and through increased focus on invasive species, exciting breakthroughs are occurring in alternative methods of management and prevention. This course seeks to introduce you to the breadth of management approaches in use and under study. The specific objectives are for students to be familiar with: 1) the local weed flora, 2) fundamental aspects of weed biology and ecology relevant to managed landscapes, 3) the control methods used in managing weed populations, 4) how control measures can be integrated to accomplish acceptable levels of pest suppression, 5) operationalizing a weed management plan, 6) how herbicides enter and move to their site of action in plants, 7) classifying herbicides by their site of action, and 8) the distinction between herbicide concentration in soils and plant available herbicide concentration.

AGRO 460 (BIOTC 460) Advances and Applications of Plant Biotechnology (3) This course provides a comprehensive overview and current status of plant biotech research. The course provides knowledge of plant systems that fall in the category of GMOs.

AGRO (BIOTC) 460 Advances and Applications of Plant Biotechnology (3)

This course will provide a comprehensive overview and status of current plant biotech research. The focus is on providing knowledge of the biology of plant systems. Consequences of development of a transgenic plant either for food (crops) or as a tool to understand molecular, genetic, and inheritance mechanisms of a trait will be discussed in detail. The course will deliver the current literature and understanding of mechanisms involved in herbicide resistance in transgenic plants. Specific topics that will be of interest to students from various disciplines include disease and insect resistance, quality traits, and secondary metabolites. Molecular biology of different pollination systems will be examined so that students will understand the concept of gene flow from transgenic to non-transgenic crops. Examples from recent developments on the beneficial use of transgenic plants as producers of modified compounds, starches, antibodies and their use in phytoremediation of toxic and organic pollutants will be discussed from the perspective of genetic and molecular plant systems. Gene expression of transgenic plant traits and the stability of an engineered crop will be discussed. Specific emphasis will be on different modes of inheritance that a transgenic plant can follow after its development and release into the environment. The course also prepares students for understanding the regulatory processes that are required for testing, moving, and environment release of transgenic crops. The laboratory component of the course will introduce students to the common technique of molecular biology that are used to detect expression in transgenic plants. Transgenic maize plants will be grown in a greenhouse and analyzed for expression of introduced genes.

American Studies (AM ST)

AM ST 050 (GH) The Literature and Lore of Mining (3) Experience and values of mining tradition: survey of the literature and lore, including field research.

AM ST 050 The Literature and Lore of Mining (3) (GH)

(BA) This course meets the Bachelor of Arts degree requirements.

AM ST 050 is a nontraditional approach to the humanities whose central methodology is a comparative use of literature, lore, and oral history to explore humanistic themes related to the coal mining experience and tradition regionally, nationally, and internationally. Throughout the course, knowledge about the miner and his tradition is derived and synthesized from a variety of sources. During the 15 weeks, students typically read one novel, one play, six short stories, a dozen poems, six essays and articles, and a mining culture and lore anthology. Students also view films and videos, examine historical documents, artifacts, and photos, listen to oral history tapes, and visit a coal heritage site. Central to the course is a three-week segment devoted to preparing students to conduct field research involving an interview of a miner or miner's wife. The other 12 weeks are divided equally to stress poetic, fictional, dramatic, and expository expressions of the mining experience. Students analyze and interpret information collected during the field research and make connections between the contents of the interview and the contents of the national and international literature selections assigned for class. By reading, analyzing, and discussing works of literature, students learn how the mining tradition was an inextricable part of American culture and how it played a vital role in the industrial revolution of America. Issues related to immigration, ethnicity, and the struggle between labor and management are also illuminated. Some universal themes related to the human condition to be explored are: the search for dignity, security, and justice; the struggle against the environment to achieve purpose and meaning in life; the indomitable human spirit versus resignation to fate; and the values of solidarity, brotherhood, and family relationships. Representative authors to be studied who have written about coal mining are D.H. Lawrence (England), George Orwell (England), Franz Kafka (Austria-Czech), Stephen Crane (U.S.) Alexandre Kuprine (Russia), and Emile Zola (France). After reading selections by these authors, students compare and contrast the mining tradition in the U.S. to the mining tradition in other countries, with special emphasis on the coal miner's life style, character, and values. For assessment, students will complete three exams-objective and essay in nature. They will conduct an oral history field research project, prepare three reports, and keep a journal. Class attendance and discussion of the work assigned will also be factors in evaluation. The course will fulfill a general education humanities requirement.

AM ST 083S First-Year Seminar in American Studies (3) (GH;FYS)

(BA) This course meets the Bachelor of Arts degree requirements.

This course will be an open topic course in American Studies, limited to 20 students, and taught by an experienced professor. The course will be designed to provide a small, interactive learning environment for first-year students. Each
section of 083 will address a large theme or number of themes that encourage students to examine a range of assigned
texts in the context of broad questions of ethical and social value. Each section of the course will focus on a well-defined
body of scholarship that is topical in the discipline, such as "Civil Disobedience," "Utopian Communities, and Blacks and
Jews: A Multi-Cultural Perspective." In addition to the academic topic and issues of this course, students can expect to
gain a general introduction to the University as an academic community and have the opportunity to explore their
responsibilities as members of that community. Students will develop an understanding of the learning tools and
resources available to them, including the opportunity to develop relationships with faculty and other students who share
their academic interests. Each section of the course will require active class participation from all students and a minimum
of three substantial written assignments. Each of these written assignments will take one of the following forms: essay,
essay exam, or a semester-long reading journal. The course fulfills a General Education humanities requirement or a
Bachelor of Arts humanities requirement.

AM ST 100 (GH;US) Introduction to American Studies (3) A study of selected attempts to identify and interpret
movements and patterns in American culture.

AM ST 100 Introduction to American Studies (3)
(GH)

(BA) This course meets the Bachelor of Arts degree requirements.

American Studies 100 is a broad-ranging introduction to American culture. While specific topics may vary from class to
class, the course examines what "America" means and what it means to be "American." These issues will be examined
form a variety of perspectives: literature, history, politics, film, race, gender, and geography. The course is often broken
down into discussion sections to facilitate student discussion of the material and the lecture. Requirements generally
include community service projects, and students will be evaluated on essay tests, papers, journal entries and
attendance. American Studies 100 (or American Studies 105) is a requirement for the American Studies major and minor,
and offers students valuable experience in critical thinking, analysis, and writing. Non-American Studies majors and
minors may use this course to fulfill a general education or Bachelor of Arts-Humanities credits. The course offers
students a broad introduction to American culture, also serves as preparation for more advanced courses in American
studies, American literature, and American history, in particular.

AM ST 103 (GH;US) American Masculinities (3) Introduction to aspects of masculinities and manhood in America.

AM ST 103 American Masculinities (3)
(GH;US)

This course examines aspects of masculinities and manhood in America from a variety of perspectives. It views American manhood through the lens of gender, and presents ideas on the ways that issues of masculinity and sexuality enter, or have entered, discourses of politics, literature, and medicine, among others. It takes up discussion of the varieties of masculinities in American experience across regions, ethnicities, and religions. Students will view these forms of masculinities in different media, including folklore, media, advertising, art, and literature.

AM ST 104 (GH;US) (WMNST 104) Women and the American Experience (3) Selected aspects of the role of women in United States history and culture from colonial to modern times.

AM ST (WMNST) 104 Women and the American Experience (3)
(GH;US)

(BA) This course meets the Bachelor of Arts degree requirements.

AM ST/WMNST 104 is a broad-ranging introduction to women in American culture. While specific topics may vary from class to class, the course examines the history and literature of American women, paying particular attention to issues of race and diversity. Students will be evaluated on essay tests, papers, journal entries, and attendance. The course offers students valuable experience in critical thinking, analysis, and writing. The course offers students a broad introduction to American women's issues, and so serves as preparation for more advance courses in American studies, American literature, American women's history, and Women's studies.

AM ST/WMNST 104 counts towards the American Studies major and minor and the Women's Studies major and minor. Non-American Studies majors and minors may use this course to fulfill a general education humanities (GH) or Bachelor of Arts humanities credit requirements.

General Education: GH
Diversity: US
Bachelor of Arts: Humanities
Effective: Summer 2005

AM ST 105 (GH;US) (ENGL 105) American Popular Culture and Folklife (3) Survey of popular culture, folklife, and ethnicity, synthesizing material from such areas as literature, media, entertainment, print, music, and film.

AM ST (ENGL) 105 American Popular Culture and Folklife (3)
(GH;US)

(BA) This course meets the Bachelor of Arts degree requirements.

AM ST/ENGL 105 covers a broad scope of materials, which may range from early to contemporary American folk and popular cultures. While selected topics for reading and discussion often vary from class to class, all courses focus on a critical examination of a variety of popular and folk cultures in order to produce an enriched understanding of America and its inhabitants. To meet this goal, popular and folk cultures will be examined from a variety of perspectives, including literature, history, politics, film, race, gender, class, and geography. Course requirements frequently include: essay exams, papers, journal entries, vigorous class discussion, and course talk participation. Technology is often incorporated into the class well, this course (or AM ST 100) is a requirement for the American Studies major and minor, and offers students valuable experience in critical thinking, analysis, and writing. Non-American Studies majors and minors may use this
course to fulfill a general education or Bachelor of Arts/Humanities credit. AM ST/ENGL 105 serves as a broad introduction to American popular and folk cultures as well as interpretive strategies relevant to the study of cultures and individuals. The course, as a result, provides preparation for more advanced courses in American studies, American literature, and American history.

AM ST 196 (GH;US) (ENGL 196, AMSTD 196) Introduction to American Folklore (3) A basic introduction to verbal and non-verbal folklore stressing the basic procedures of collection, classification, and analysis.

AM ST (AMSTD; ENGL) 196 Introduction to American Folklore (3) (GH;US)
(BA) This course meets the Bachelor of Arts degree requirements.

English 196 is an introduction to the verbal and nonverbal folk traditions characteristic of several American subcultures, including Native Americans, Hispanic Americans, African Americans, and immigrants. It will cover important genres of folklore, including folk speech, folk narrative, beliefs and religious experiences, use of space, and material culture. Topics under consideration will include ethnicity and cultural identity, the ways in which verbal and material cultures have influenced the literary, political, and economic development of the United States. Students will learn strategies for "reading" and valuing the folklore of subcultures other than their own. This class will prepare students to be able to perform well in future courses that deal with analyzing written, oral, and nonverbal texts and being able to analyze their significance within the subculture that produced them. By the end of the course, students will be able to recognize the cultural, political, and historical implications of such traditions. Additionally, they will have received first-hand practice in compiling a fieldwork project from first-hand interviews and site observations, combined with archival research. Students will be evaluated on the basis of class discussion, oral presentation and group exercises, in-class examinations, and a fieldwork portfolio, based on the fieldnotes, research, and analysis done as part of their project. This course may be used by English majors for English Major elective credit or as credit toward the English Minor, and (as AMST 196) also by American Studies majors in the same way. Non majors may use this course to fulfill a general education or Bachelor of Arts Humanities requirement. English 196 will be offered twice a year with 60 seats per offering.

Examination in depth of various and distinctive American time periods. The subtitle expresses specific content. May be repeated for credit. The course satisfies the "area" requirement in history for undergraduate majors in American Studies and is open to all majors. The course covers periods or eras in American history that are not covered or emphasized in other courses. Some eras to be studied are the Great Depression, World War II, and 1960s. In addition to analyzing major events of the period, students will consider social and cultural developments.

**AM ST 431 National Character (3)** An examination of the characteristics of the American people and other national groups.

**AM ST 431 National Character (3)**

An examination of the characteristics of the American people and other national groups. The course reviews techniques that have been used in scholarship to characterize national groups in the United States and cross-culturally, including data gathering in polls, surveys, and censuses; behavioral observations of cultural "personality"; racial and ethnic categorizations; geographical and historical causation. The course analyzes the changes in attitudes toward nationality and "peoplehood" in American history and culture. The course satisfies the "area" requirement in society for undergraduate majors in American Studies, and is open to all majors.

**AM ST 435 Americans at Work (3)** A study of occupational and organizational cultures in America.

**AM ST 435 Americans at Work (3)**

A study of occupational and organizational cultures in America. The course examines historical and social changes in primary occupations of Americans, including agriculture, crafts and trades, mining and trapping, maritime, manufacturing, corporate, and service and information work. The role of unionism, individualism, and mobility in shaping attitudes toward work will be examined. Students will learn techniques of ethnography and historical analysis to interpret images of work in American society. Evaluation includes application of historical analysis and ethnographic observation of Americans at work in written essays, and two examinations.

**AM ST (KINES) 441 History of Sport in American Society (3)**

Study of the background, establishment, and growth of sport in America from colonial times to the present, and the role of American sports in American culture and society. The course will examine the ways that sports have operated in the United States as the country has developed into a modern, mass society. Issues of national identity, commercialism, race, ethnicity, class, and gender will be discussed in relation to the popularity of sports. Another set of issues will center on language and media; students will employ methods of analysis such as ethnography and rhetorical criticism that emphasize the multiple layers of meaning inherent in sports culture.

AN SC 100 (GN) Introduction to Animal Industries (3) Students will study the biology, production systems, terminology, and emerging issues of the N. American animal industries.

AN SC 100 Introduction to Animal Industries (3)
(GN)

This course will introduce students to the breadth and scope of animal agriculture in North America with emphasis on food producing animals. Additionally, fiber producing animals, pets, pleasure animals, and alternative livestock will also be studied. Students will be exposed to biological concepts and their relationship to contemporary production systems, economics, terminology and industry issues to enhance understanding of and appreciation for various uses of animals in North America. The course would be available in a web-based format with extensive use of video tours of animal housing facilities, expert interviews, and explanations of the biology behind common production practices and will be offered annually during spring and summer semesters. Student performance will be assessed via unit quizzes, popular press article critiques, and a final paper.

AN SC 107 Introduction to Equine Science and the Equine Industry (2) Prepare students to proceed into further studies in equine science by providing background to communicate effectively with educators and industry.

AN SC 107 Introduction to Equine Science and the Equine Industry (2)

This course will provide students with basic knowledge about the equine industry to prepare them to be more effective communicators with educators and industry personnel. Topics will include basics of equine evolution, history of use, breeds, colors, disciplines and tack, anatomy and physiology, basics of the equine industry including the organization, components and careers; and will prepare students to proceed into further studies in equine science. The course will feature presentations and interaction with industry professionals and instructors of higher level equine science courses at Penn State. In addition to the academic topics addressed, the course will also introduce students to using the university course management and web conferencing systems, give them experience collaborating in a team and require that they provide a presentation. Academic integrity through use of scientific references and proper citations are also integrated into the course along with the introduction of key faculty in the academic area.

AN SC 110S Contemporary Issues in Animal Biotechnology and Society (1) An introductory survey of animal biotechnology in society, the role for biotechnology and how it will benefit society.

AN SC 110S Contemporary Issues in Animal Biotechnology and Society (1)

This First-Year Seminar is designed to provide an introduction to the field of animal biotechnology. Emphasis will be placed on providing the student a perspective of the history of biotechnological innovation in animal agriculture and an overview of the scientific bases for animal biotechnology. The history, need for and development of food biotechnologies will be discussed. A major component of the course will focus on the regulatory processes in place in the U.S. for approving animal biotechnologies and the benefit/risk evaluation process used to assess safety and efficacy of new animal biotechnologies. Social and economic implications of animal biotechnology will be discussed as well as overview about how to effectively communicate the benefits of the new food biotechnologies to policymakers and the public.

AN SC 117 Equine Marketing (2) Principles of marketing and event planning including marketing systems, advertising, management systems, team building and other aspects of conducting a purebred livestock sale. Students learn through the planning and conducting of the annual Penn State Equine Science Showcase and Registered Quarter Horse Sale.

AN SC 117 Equine Marketing (2)
The Equine Marketing course is designed to allow students the opportunity to learn information related to the marketing of horses. Specific topics will include letters on marketing methods, event planning and management, advertising layout and design, the significance of pre-purchase exams to the marketing process, preparation and presentation of sale animals, and the role of the auctioneer.

In addition to classroom lectures, students will have the opportunity to put the information gathered to use through the planning of Penn State's annual Equine Science Showcase and Registered Quarter Horse Sale. Students will be assigned to committees and will be responsible for all of the planning and implementation of the event. Specific tasks will include development of advertisements, public relations, development of press releases, development of an online and hard copy sale catalog, development of all office paperwork for the sale, interaction with industry leaders to gain industry buy in for the event, working with outside breeders who participate in the event, set up, clean up, and preparation and presentation of the horses being offered for sale.

Through the process students will also learn many skills necessary to be successful in their future careers above and beyond those related to the marketing of horses. Some of these skills include working within a group, team building skills, communication with industry professionals, development of plans of work, and many more.

AN SC 201 Animal Science (4) Scope of animal and poultry science; genetic, physiological, nutritional, and health factors in food production.

AN SC 201 Animal Science (4)
This course examines the scope and diversity of disciplines comprising the animal and poultry sciences. The first portion of AN SC 201 focuses on animal products such as milk, meat, eggs, and wool. Students learn product compositions and their relevance to humans worldwide. Later lectures outline the roles that environmental, housing, nutrition, and health play in current animal production systems. A major focus of the course is digestive physiology. In-depth topics include nutrients, monogastric and ruminant digestion, and feed analysis methods. The final portions of the course focus on reproduction, lactation, behavior, genetics, and biotechnology. These areas are critical to successful animal production systems. Throughout the semester, current issues in animal sciences that are related to the course material are integrated into the lectures. The laboratories support the concepts presented in lecture related to animal products, nutrition, animal
AN SC 207 (FD SC 207) Animal Products Technology (2) Composition, safety, palatability, preservation, and processing of foods from animals, impact of animal production, and handling practices on product properties.

AN SC 208 (FD SC 208) Animal Products Technology Laboratory (1) Harvesting and processing of foods from animals; hands-on and demonstration exercises; industry procedures for processing meat, milk, and egg products.

AN SC (FD SC) 208 Animal Products Technology Laboratory (1)

This laboratory, intended to be taken along with or following Animal Products Technology lecture, provides students an opportunity to experience the procedures involved in harvesting and processing foods from animals. Upon completion of this course, students will be able to describe, demonstrate, and explain procedures commonly used in harvesting and processing of muscle food, milk, and egg products. Students will be able to recognize and predict the impact of incorrect procedures for harvesting and processing muscle food, milk, and egg products. The course includes hands-on exercises and demonstrations that allow students to experience the "look and feel" of industry procedures used in harvesting and processing meat, milk, and egg products for human consumption. Focus on issues related to food safety and food quality.

AN SC 211 Introduction to Avian Biology (3) Introduces the biology of birds; lectures, laboratories on anatomy and function, incubation, breeding, disease control, management techniques, and student projects.

AN SC 213 Introduction to Animal Biotechnology (3) An introduction to the multidisciplinary area of animal biotechnology: from molecular, genetic, genomics and development issues to their technological applications.

AN SC 213 Introduction to Animal Biotechnology (3)

This course provides an early exposure to the emerging and diverse field of animal biotechnology. Basic principles underlying recombinant DNA technology, genetics, gene transfer technology, genomics and their technological applications will be discussed. This is a fairly intensive course taught from the technological perspective that differs from the perspectives of basic science-or technique-oriented courses. This course will be a pre-requisite for the proposed course in ‘Laboratory Methods in Small Animal Research (AN SC 314)’. The course will be offered in the spring semester; classes meet twice a week for 75 minutes each. The information provided in the required text-book, accompanying websites and current literature will be discussed extensively in the form of formal lectures, tutorials and review sessions.
AN SC 215 (GS) Pets in Society (3) Introduction to the varied roles that companion animals play in human society and their impact on human activity and well-being.

AN SC 215 Pets in Society (3)

Companion animals have far-reaching influence on many aspects of human society. How humans relate to pets varies from individual to individual and is influenced by many factors. The field of human-animal interactions is quickly evolving and is supported by a variety of disciplines and empirical research.

This course provides a broad introduction to the varied roles and influences of pets on human life and society. Topics of discussion include the historical, social, economic, scientific, legal and political roles of pets in American society. The influence of companion animals on human development and mental health throughout the lifespan and in the case of disability is examined from a social science perspective. Genetics, breed, physical, and environmental influences play obvious and important roles in the development of canine and feline behavior and are used as examples of the multiple causes of behavioral development and expression. Learning theory and operant conditioning are discussed as they relate to training. Newly discovered risks and benefits of animal ownership on human health are discussed, including the influence of pet ownership on cardiovascular disease and allergy development. Issues of responsible pet selection and ownership are discussed in relation to animal welfare and societal responsibility.

Because of the emerging nature of human-animal interaction research, an important goal of the course is to instruct students on the scientific method and recognition of research methodologies. Critical evaluation of theoretical models and empirical research in class and small group discussions is used to show how these questions can be addressed scientifically. Throughout the course, students have the opportunity to gather information from various sources and make informed decisions on controversial topics and to understand the impact of individual actions and decisions on broader society.

Effective: Spring 2006

AN SC 217 Introduction to Horse Judging (2) Introductory analysis of halter and performance classes of stock-type horses, with emphasis on conformation, gaits, patterns, and oral reasons.

AN SC 217 Introduction to Horse Judging (2)

AN SC 217 encompasses the introductory information necessary for students to begin their competency in horse evaluation. From external parts and critical evaluation of conformation of halter horses, to rail classes with gaits and transitions, to pattern classes with objective evaluation and scoring methods, to more specialized classes (trail, hunter hack, pleasure driving, etc.), students will expand their depth and breadth of knowledge for evaluating suitability to purpose of stock-type horses. Careful observation, critical thinking, decision-making and oral communication skills of students are repeatedly critiqued and enhanced in this course. Following successful completion of AN SC 217, students who elect to take AN SC 417 will be eligible to compete for a position on the Penn State Intercollegiate Horse Judging Team.

Furthermore, this course serves as an elective for students outside of the Animal Sciences major and students throughout the University who simply have an equine interest; as well as a required course for students enrolled in the Equine Sciences minor offered by the Department of Dairy and Animal Science.

AN SC 225 Introduction to Dairy Judging (1) Training in the visual evaluation of dairy cattle and practice in defending decisions through oral reasons.

AN SC 225 Introduction to Dairy Judging (1)

Students will learn the basic concepts used in dairy cattle judging and evaluation. The Purebred Dairy Cattle Association Unified Scorecard will provide the framework for students to make decisions and enhance observation skills based on industry standards. Students will become familiar with terminology used to describe differences between cattle of the seven major dairy breeds as they judge classes of cows and heifers. They will develop communications skills by defending these evaluation decisions through oral reasons.
AN SC 226 Meat Selection and Grading (2)

Students will learn skeletal and musculature anatomy in order to evaluate carcasses and wholesale cuts of beef, lamb, and pork. They will be required to learn quality and yield grading of carcasses of various species and be expected to learn the various parts and evaluative terminology of carcasses and cuts. In addition, students will be trained in the identification and cutting procedures required for the institutional meat specification cuts and retail cuts.

AN SC 290W Careers in Animal Agriculture (1)

Careers in Animal Agriculture (1)

AN SC 291 Externship with Animal Science Business (1-2 per semester/maximum of 4)

This course will provide an opportunity for students to acquire on-site skills and knowledge in a potential interest area of an animal-related agribusiness. Externship opportunities are provided during one week of winter break and one week of spring break and 1 credit is earned for each experience. Student responsibilities are to: prepare a cover letter and résumé; participate in the interview process; maintain and submit a typed summary of a daily log of activities; prepare a final report to the instructors (copy sent to the agribusiness sponsor); present an oral presentation of the externship experience to their peers and a group of faculty; and complete a self evaluation of AN SC 291. Limited to Animal Sciences majors.

**AN SC 305 Companion Animal Nutrition (3)** Principles of care and nutrition and contemporary importance of companion animals with emphasis on canine and feline species.

**AN SC 305 Companion Animal Nutrition and Management (3)**

Students of the animal sciences must be equipped for a variety of career opportunities in the twenty-first century. It is apparent that most students will benefit from a balanced exposure to a variety of animal species. This is especially true for students who pursue a career in the many supportive agricultural industries such as the commercial feed industry, animal health, and research and development.

This course is part of a series of courses related to the nutrition and management of animals. While the other courses will be related to farm animal species, this course will be the only one addressing companion animals. As such it should meet the demand of students without a strong farm background or interest; those planning to attend a veterinary or professional school; as well as a large group of students with a non-professional interest in companion animals. It is felt that the sophomore or junior level of the course is appropriate after students have completed Animal Science 001.

Bachelor of Arts: None  
Effective: Spring 2009  
Prerequisite:  

**AN SC 308 Sheep and Goat Production and Management (4)** Application of principles of nutrition, breeding, physiology, health, facilities, marketing, and product development, to animal production agriculture.

**AN SC 308 Sheep and Goat Production and Management (4)**  

*AN SC 308 - Sheep and Goat Production and Management* offered on alternate (even) years to an anticipated 15-20 students, encompasses the requisite information for students to manage any of the small ruminant livestock species including meat and wool sheep, hair sheep, and meat goats. Students will critically evaluate genetic, reproductive, nutritional, economic, and management criteria that influence profitability and sustainability of small ruminants as viable agricultural animal enterprises in Pennsylvania, the United States and the world.

Student learning objectives are: a. to describe the global importance of sheep and goat products for the welfare of mankind; b. to develop critical skills in formulating integrated breeding, feeding, and marketing plans for sheep and goats that are economically viable and environmentally sustainable; and c. to develop a knowledge of the genetic diversity and versatility of sheep and goats throughout the world.

Critical thinking, decision-making and oral communication skills of students are evaluated and enhanced in this course. This is accomplished by assigning students production scenarios requiring independent evaluations of genetic, nutritional and marketing plans; the results being presented in both written and oral forms. Additionally, hands-on learning is provided via the laboratories held at the Penn State Sheep Barns operated by the Department of Dairy and Animal Science in the College of Agricultural Sciences and in the College's computer laboratories. Student performance will be evaluated via written exams, laboratory reports, and oral presentations to the class.

Effective: Spring 2009  
Prerequisite:  

**AN SC 309 Beef Cattle Production and Management (4)** Application of principles of nutrition, breeding, physiology, health, facilities, and marketing to produce and manage beef efficiently.

**AN SC 309 Beef Production and Management (4)**
Beef Production and Management, offered every spring semester to an anticipated 20-40 students, will provide a comprehensive review of the business-related and production oriented concepts associated with modern beef production. This course will combine traditional disciplines of beef management with business management, operations management, quality control and marketing. Additional topics will include economics and factors affecting cost of production. As the course progresses, and following the exposure of students to the fundamentals of beef production, they will be given the opportunity to evaluate real production scenarios for development of business and management recommendations. In addition to the classroom, the Penn State Beef Center, College computer labs, and selected field trips will comprise the facilities used to teach the course. In addition, students will conduct problem solving exercises on beef enterprises throughout the state. Beef Production and Management will be included in the series of other production courses offered in this department. Having completed the course, students will be able to:

1. Describe the necessary management procedures in a beef enterprise that are vital for efficient and profitable production.
2. Describe and understand the fundamentals of the various segments of the cattle industry.
3. List the important components of a business management plan for a beef operation, including short and long-term capital requirements, and a projected budget.
4. Discuss the trends and important issues facing the beef industry in Pennsylvania, the nation and world.
5. Critically evaluate business and production scenarios to provide an in depth analysis and a recommended course of action for improving a beef enterprise.

AN SC 311 Poultry Production and Management (4) The application of fundamental concepts and preparation for careers in the economically integrated commercial poultry industry.

AN SC 311 Poultry Production and Management (3)

Poultry Production and Management will provide a comprehensive review of the business-related and production oriented concepts associated with modern commercial poultry production. The course will provide the student with an overview of poultry nutrition, physiology, genetics, health, welfare, and products and describe how these disciplines integrate with effective and efficient management, quality control, and marketing of poultry and poultry products. Additional emphasis will be given to the economics of poultry production, as well as current issues and challenges facing the industry. Throughout the course, students will be provided with experiential learning opportunities and will be required to use this knowledge to solve problems and to evaluate “real world” production scenarios in order to develop effective management and production skills.

Having completed this course, students will be able to:

1. Describe and evaluate the key operational and management factors in a commercial broiler, egg-layer, and turkey operation.
2. Describe and understand the important business, environmental, food safety, and welfare issues and challenges facing the poultry meat, and egg industries in Pennsylvania, the nation, and the world.
3. Critically evaluate poultry business and production scenarios to provide a fact based analysis and recommended course of action for solving management or production problems.

AN SC 315 Small Animal Health and Disease (3) Introduction to the principles of small animal health, including the recognition, prevention and control of common small animal diseases.
AN SC 315 Small Animal Health and Disease (3)

Small animals play increasingly important roles in human lives. In addition to their function as pets, they serve the disabled; protect human well-being through the police, military and border inspection services; and act as research subjects for the development of medical and technological advances. Control of disease and promotion of animal health is important in all small animal industries and uses.

This course is designed to provide a basic background in the principles of health in small animal species (primarily dogs and cats). Emphasis will be on the maintenance of a healthy animal system, including the recognition, prevention and control of the most common small animal diseases.

Because of the increasing among of information available to all people through the internet and media, students will be given tools to understand basic medical terminology and will practice reading and interpreting scientific research. In addition, the importance of animal disease on public health will be addressed.

Diagnosis and treatment of disease will only be covered in a general, illustrative fashion. This course is not intended to train students in the diagnosis and treatment of specific diseases, but rather to recognize the conditions and factors which encourage disease, but rather to recognize the conditions and factors which encourage disease spread and to understand how to control and rectify those situations.

Because of the varied situations in which small animals function, a primary objective will be to be able to apply the principles of animal health and disease prevention to varied facets of the small animal industry (e.g. private ownership, veterinary medicine, shelter work and management, service animal breeding/training, biomedical and nutritional research).

This course is designed for students planning to work in or having a special interest in the small animal industry, including veterinary medicine, the pet food and pet products industry, the working dog industry, live animal sales, pharmaceutical sales, and research.

AN SC 350 Dairy Problem Solving (2) Students will use dairy records to analyze herd performance in order to identify bottlenecks for higher productivity.

AN SC 350 Dairy Problem Solving (2)

This course will develop case based approaches to problem solving using dairy records. Students will learn to read and interpret dairy herd improvement herd summaries. Herd performance will be benchmarked against parameters from similar herds across the Northeast in order to identify production bottlenecks. Popular dairy herd management software will be used to analyze bottlenecks more completely. Additionally, the use of herd management software to record cow health events and set up management routines will be demonstrated. Classes will include in depth analysis of nutritional, reproductive, culling, genetic and milking management parameters as they relate to the dairy enterprise. In addition, economic and fiscal management will be presented as it relates to various aspects of the dairy industry.

Special Topics (1-9)
AN SC 400 Application of Management Principles (1) Students will learn to apply business management skills to the animal production environment through interactive discussions and assignments.

Application of Management Principles (1)

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AN SC 405 Advanced Canine Nutrition and Management (3) Application of biological principles to the care and nutrition of dogs; interactive discussions of contemporary nutrition and management issues.

AN SC 405 Advanced Canine Nutrition and Management (3)

Animal Science 405, Advanced Canine Nutrition and Management, is a 3 credit senior-level course emphasizing the application of biological principles to the proper care and nutrition of dogs. Students scheduling this course must first complete a junior level course in companion animal care and nutrition and are expected to schedule AN SC 400, Application of Management Principles, concurrently. Course objectives are to a) develop an appreciation for the role and importance of the dog in contemporary society; b) develop skills in formulating sound management plans for the selection, breeding, feeding, training, and health care of the dog; and c) encourage independent student thought, written communication, and oral communication of topics related to the care and management of canines. AN SC 405 is one of several “capstone” advanced management courses offered by the Department of Dairy and Animal Science for students with intensive interest in various animal species. Special student interests are accommodated via short “lectures” that students will research, prepare, and deliver to the class. In several areas, industry experts will be invited to guest lecture and several field trips to sites of interest are planned.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AN SC 407 Advanced Horse Management (3) Detailed study of anatomy and physiology of the horse as related to nutrition, reproduction, athletic ability, unsoundness and control of diseases and parasites. Detailed discussion of management practices, facility design and contemporary issues.

Advanced Horse Management (3)

AN SC 410 Advanced Dairy Herd Management (4) Application of dairy herd management principles using case studies and actual dairy farm situations.

Advanced Dairy Herd Management (4)

AN SC 413 Transgenic Biology (3) The principles and concepts used to generate genetically engineered animals by pronuclear, knockout, and cloning methods; and applied biotechnology applications.

AN SC 413 Transgenic Biology (3)
The Transgenic Biology course is offered each spring semester for those students interested in learning the concepts, principles, and applications of genetic engineering in animals. The mouse is used as a model system, but the discussion encompasses large animals and commercial applications. Techniques covered are pronuclear, embryonic stem, and somatic-nuclear transfer generated animals. Content also includes the use of morpholinos and RNAI use to "knockdown" gene expression. Other systems discussed are Zebrafish and Xenopus as well as gene analysis by mutagenesis and gene trapping. The course objectives are (1) to provide the student with a working knowledge of the processes involved in functional analysis of gene expression using model animal systems and (2) to give the student understanding for the practical aspects of generating transgenic animals including microinjection, screening, breeding, and phenotypic analysis. Students are evaluated using several parameters including exams, presentations of current journal articles, abstracts of current journal articles, and a paper dealing with an aspect of transgenesis in the student's field of interest.

AN SC 414 Comprehensive Animal Biotechnology (3) A comprehensive review of the multidisciplinary area of animal biotechnology examining historical developments, current progress, and future directions.

AN SC 414 Comprehensive Animal Biotechnology (3)

This course intends to provide an advanced treatment of currently evolving topics of animal biotechnology. Equal emphasis will be placed on basic principles, current progress and potential controversies surrounding biotechnology. The course is designed to provide an insight into how biotechnological enterprises commercially exploit scientific principles. This is designed to be a capstone course in the series of courses to be offered in the Animal Biotechnology curriculum. The course will be offered in the fall semester and limited to 20 students. Students enrolled are expected to have a basic knowledge about molecular biology, genetics and genomics. The course will be based on advanced text books and current literature.

AN SC 417 Horse Judging (2) Evaluation and selection of halter and performance horses, and presentation of oral reasons.

AN SC 417 Horse Judging (2)

Animal Science 417 encompasses all of the information necessary for students to pursue competencies in horse evaluation. From external parts and evaluation of conformation of halter horses, rail and pattern classes, to special classes (trail, pleasure driving, etc.) students will expand the depth and breadth of knowledge for evaluating classes of stock-type horses. Following successful completion of AN SC 417, students will be eligible to compete for a position on the Penn State Intercollegiate Horse Judging Team (AN SC 426 Advanced Judging and Selection). Students who elect to take AN SC 417 and AN SC 426 will fulfill the writing and speaking skills requirement for the Animal Science major. Furthermore, this course serves as an elective for students outside of the major, Animal Science, who are enrolled in the Equine Sciences minor.

AN SC (AGECO/SOILS) 418 Nutrient Management in Agricultural Systems (3)

Nutrient Management in Agricultural Systems is a senior level course that applies the fundamentals of animal and plant, sciences to the concept of a nation-wide food animal system. The regional concentration and consolidation of animal production enterprises has resulted in important economic savings for consumers. But these changes have also had some detrimental impacts on the environment. For example, some nutrients such as calcium and phosphorus and certain trace elements are mined, while others such as nitrogen and potassium are derived from crop production systems. In all cases, the nutrients are transported to areas of livestock concentration. A small portion of the nutrients leave the farm in the form of animal products, while 60 to 70% of the nutrients are excreted and applied to nearby crop land. The

The Pennsylvania State University
environmental implications of the net influx of these nutrients to livestock producing communities have only recently been recognized. These concepts will provide the background around which regulations are written and sound nutrient management strategies are developed and implemented.

**AN SC 429 Advanced Beef Cattle Production (3)**
Application of scientific and business principles to practical production and management issues using case studies or selected live settings.

**AN SC 429 Advanced Beef Cattle Production (3)**
This course was developed to train students to critically evaluate management, facility, and husbandry practices of working beef cattle operations. Students visit owner facilities where they gather necessary information by interacting with the owners and inquiring about the owner’s practices. The students use knowledge gained through previous courses and material covered in class to make recommendations. The students work in teams to present to the owners possible solutions to their problems. Each team will present a 30 minute critical evaluation of each case study with the owners being present. Students interact and answer questions concerning their presentation from the owners, students, and faculty. Students are introduced to the NCBA and Cattle FAX which they can use to stay abreast of beef industry concerns after completion of the class. If available, a field trip to either national or Pennsylvania state agriculture offices will occur.

General Education: None
AN SC 431W Physiology of Mammalian Reproduction (4) Physiological processes of reproduction in animals, including the use of current and emerging technologies.

AN SC 432 Techniques in Livestock Reproduction (2) Demonstration and practice in estrus detection, inseminating techniques, pregnancy detection, embryo recovery and transfer methods.

AN SC 437 (AEE 437) Equine Facilitated Therapy (3) Equine Facilitated Therapy uses equine-related activities to contribute positively to the wellbeing of people with disabilities.

AN SC (AEE) 437 Equine Facilitated Therapy (3)

The primary goal of this course is to acquaint the participant to equine facilitated therapy (therapeutic riding) and to introduce them to individuals who benefit/participate in such programs through lecture, audio-visual media, discussions, program visitation, independent research and via a practicum at a therapeutic riding program. Additionally, this course is designed to introduce the participant to various exceptional characteristics and conditions, which may benefit from exposure/participation in equine facilitated therapy and other animal related therapy programs.

AN SC 442 Quantitative Inheritance and Animal Breeding (3) Genes in populations: additive and nonadditive gene effects; selection and mating systems.

AN SC 447 Applied Equine Behavior (3) Theory and application of behavior principles as they apply to horses in free-running and domestic situations.
AN SC 447 Applied Equine Behavior (3)

Applied Equine Behavior is an advanced course in equine science that examines the behavior of horses in free-running and domesticated situations. Outcome-based course objectives are as follows: 1) develop a working repertoire of behavior terminology and principles particularly as they apply to the horse; 2) apply critical thinking skills toward understanding and predicting behavior in horses under intensive management as it is modified from instinctive behavior seen in free running horses; 3) critically analyze and compare various training theories; 4) develop a new expertise in careful observation and analysis of behavior; 5) practice communication skills and increase information literacy, particularly in the study of behavior.

This course presupposes previous coursework in equine science or biology and complements other courses such as horse production and management, animal behavior/sociobiology, physiology, and genetics. Applied Equine Behavior is [will be] a supporting course for the Animal Science Major. Students will be able to make full use of the University horse herd and available data recording and analysis instruments and software.

AN SC 451 Dairy Systems Analysis (1-2 per semester/maximum of 2) Students will evaluate all systems of a working dairy farm business.

AN SC 451 Dairy Systems Analysis (1-2 per semester/maximum of 2)

This course will provide an overview of all areas of dairy business management. This course is designed to complement the dairy production courses and is meant to train students to organize material in a farm evaluation format. Various instructors (within their areas of expertise) as well as industry experts and dairy producers will be utilized to provide students with current concepts in dairy management. Requirements of the course include working in teams to visit, evaluate and make a presentation about a dairy farm business including an action plan for improving the business.

General Education: None

Bachelor of Arts: None
Effective: Spring 2011
Prerequisite: Concurrent: AN SC 450 prerequisite or concurrent: AN SC 410

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

AN SC 457 Equine Reproduction and Breeding Farm Management (3) Advanced aspects of equine reproduction will be covered, including collection of semen, processing it for shipment, and insemination of mares.

AN SC 457 Equine Reproduction and Breeding Farm Management (3)

Equine Reproduction and Breeding Farm Management is intended to expand on the knowledge of equine reproduction and breeding farm management acquired in other classes. The students will get hands on experience in artificial insemination of mares and semen collection of stallions.

Having completed the course, students will be able to:
A. Collect semen from a stallion.
B. Assess seminal characteristics and process the chilled semen to be sent to another farm.
C. Artificially inseminate a mare.
D. Apply scientific principles to make the decisions necessary to manage an equine breeding facility. The information covered will include but not be limited to reproductive management of the mare and stallion, foaling, and neonatology.

Evaluation will be based on written tests, research and presentation of a selected topic, and laboratory attendance and participation.

General Education: None
AN SC 467W Equine Nutrition and Feeding (3)

AN SC 467W, Equine Nutrition and Feeding, is a 3 credit junior or senior-level course emphasizing the application of biological principles to the proper nutrition of horses. Students scheduling this course must first complete AN SC 301. Course objectives are that upon completion of the course, students should be able to: a) Apply an understanding of form and function of the equine gastrointestinal tract to actual feeding management problems associated with athletic performance or health concerns; b) Describe the nutrient and energy requirements of horses in different physiologic states and apply these in diet evaluation and formulation; c) Communicate to clients, customers and peers important information about equine nutrition, enabling them to improve the health and performance of their horse without having to take a course on equine nutrition. Each student will complete a 3000 to 3500 word paper on how some aspect of nutrition might be applied to improve equine health or performance. The writing project will involve an oral presentation, multiple drafts and require students to review and provide feedback on each others’ work. Students will be evaluated via a series of assigned homework, exams, class participation, and the overall writing project.

AN SC 477 Riding Instructor Training (1)

The Equine Riding Instructor Training course relates to teaching, equestrian skills, developing lesson plans, program planning, time management, and handling of mounted groups. There are many opportunities for riding instructors in the equine industry throughout the United States. Career areas include breed associations, cooperative extension, and equine facilities/stables. This course will help give students the tools to be safer and better-prepared equine riding instructors. Successful completion of the course implies students will be able to: Conduct horse riding lessons at all horsemanship skill levels, understand safe horsemanship; manage large mounted equestrian groups; and develop appropriate lesson plans.

AN SC 479 (BIOL 479) General Endocrinology (3)

AN SC 479 (BIOL 479) General Endocrinology (3) Endocrine mechanisms regulating the morphogenesis, homeostasis, and functional integration of animals.
AN SC 496A Animal Science Teaching Assistant (2) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

**Note**: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**AN SC 496H** AN SC Honors Independent Study (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

**Note**: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 002 (GS) Introduction to Archaeology (3) Survey of basic approaches used by archaeologists to interpret basic prehistoric human cultural patterns.

ANTH 002 Introduction to Archaeology (3)
(GS)

(BA) This course meets the Bachelor of Arts degree requirement.

Introduction to Archaeology is designed to introduce the basic theories, methods, and data archaeologists use to study ancient peoples, past cultures, and their natural environments. A problem-oriented approach to learning about archaeology combines two one-hour lectures with a one-hour, hands-on lab session each week. The theories and methods introduced in lectures are applied to archaeological data in the computer lab in order to answer questions about life in the past. Hands-on involvement is emphasized through the use state-of-the-art computers, archaeological software, and (where possible) the handling of archaeological collections. Grades for this course are based on two to three exams and the lab exercises.

The course may vary from this standard on other campuses depending upon the availability of computer labs and archaeological collections. However, the weekly lab exercises are available to all campuses from the Department of Anthropology. Students on all campuses will be expected to interact with each other and with the instructor in weekly discussions and exercises. They engage in data gathering, synthesis, and analysis, using exercises that make use of information on the internet as well as data provided by PSU archaeologists. The exercises emphasize human cultural diversity over time and space. There is also an emphasis on the ethics of archaeological research and the ways in which scientific choices and ethical choices interact in professional archaeology. The logical and ethical principles learned are applicable to a broad range of problems that students are likely to encounter in anthropology, in other disciplines, and later in their lives.

This course is one of three core courses required of majors in the Anthropology department and it is also required for the
minor. ANTH 002 serves as a stepping stone to more advanced and specialized courses in anthropology. This course can be used to fulfill three credits of General Education in the Social/Behavioral Sciences for the Bachelor of Arts requirement.

General Education: GS  
Diversity: None  
Bachelor of Arts: Social and Behavioral Science  
Effective: Spring 2000

ANTH 008 (GS;IL) Rise of Civilization in the Old World (3) Comparative survey of the development of the pre-Columbian Latin American civilizations.

**ANTH 008 Aztecs, Mayas, and Incas (3) (GS;IL)**

**(BA) This course meets the Bachelor of Arts degree requirements.**

Anthropology 008 is a general survey of three great New World civilizations - the Aztecs and the Maya of Mesoamerica (southern Mexico and northern Central America), and the Inkas of the Central Andes of South America. Both the Aztec and the Inka empires were thriving in the 16th century when Europeans arrived, and are known in almost ethnographic detail from oral and written records. Maya civilization matured much earlier --- between AD 250-900, and is known primarily through archaeological research, but also through the lens of the New World’s only sophisticated writing system. Course information emphasizes the nature of these societies, analysis and interpretation of their basic institutions, their religions and world views, and their culture histories. Central to the presentation is the degree to which modern Latin American cultures and populations have deep cultural and biological roots in the Precolumbian past, and many ethnographic models are discussed. Within the context of each segment sociological concepts such as "institution", "household", "stratification", "political economy", "urbanization", and a host of others are used as organizing features. Issues of gender, ethnicity, and class structure are also discussed.

At the end of each semester, time permitting, issues such as the peopling of the Americas, the origins of agriculture, and some of the spectacular pre-Aztec cultures of Mesoamerica are also reviewed. Specific examples of how archaeologists design and carry out research are included, including several in which members of the Anthropology Department have been involved. In addition to lectures, much visual material will be presented, including telecourse programs recently produced under the direction of Anthropology Department faculty.

Evaluation will consist of 3-6 museum or web-based writing assignments worth 15-30% of the grade. There will be two mid-term examinations and one final examination worth 70-85% of the grade. Although this is a large course, exams are hand-written and graded, and require a mix of objective and subjective responses. Each exam has an essay component. This course serves as a useful precursor to Anth. 422 (Mesoamerican Ethnography and Archaeology), Anth. 424 (Andean Ethnography and Archaeology), Anth. 456 (Cultural Ecology), and has a companion course on the Old World--Anth. 009--and the two are often taken as a linked pair by students. Anth. 008 also prepares students for courses in other departments where broad-based comparisons of ancient civilizations or archaeological methods are of concern. This course can fulfill elective credits for anthropology majors and minors. Anth 008 also may be used to fulfill three credits of General Education in the Social/Behavioral Sciences for the Bachelor of Arts requirement or three credits of Other Cultures in the Social/Behavioral Sciences for the Bachelor of Arts requirement. It can also serve as three credits toward the university requirement for United States and International Cultures Competence.

ANTH 009 (GS;IL) Rise of Civilization in the Old World (3) Evolution of Old World complex societies, especially the first great civilizations of Mesopotamia, Egypt, China, and the Indus Valley.

**ANTH 009 Rise of Civilization in the Old World (3) (GS;IL)**

**(BA) This course meets the Bachelor of Arts degree requirements.**

ANTH 009 is an introductory anthropology course with several major themes and purposes. Most fundamental are the origins and development of the earliest complex human societies - what we conventionally call civilizations – in the Old World, namely those of Mesopotamia, Egypt, the Indus Valley, and China. Course information emphasizes the nature of these societies, analysis and interpretation of their basic institutions, their religions and world views, and their culture histories. Within the context of each segment sociological concepts such as "institution", "household", "stratification", "political economy", "urbanization", and a host of others are used as organizing features. Issues of gender, ethnicity, and class structure are also discussed, and much information is presented in weeks 2 and 3 that is pertinent to an understanding of human biological variation and our cultural attitudes toward it, with obvious implications for issues of race.

The course is much broader, however, in that it attempts to place the emergence of these ancient civilizations into the overall perspective of the larger evolutionary career of the human species in the Old World, including human biological
and cultural evolution during the later stages of the Paleolithic, the origins and spread of early agriculture, etc. During the first part of the course there is also a series of introductory lectures designed to inform students about what archaeology is and how prehistoric archaeologists carry out scientific research to reconstruct and explain what happened in the past. A great deal of emphasis is placed on ideas, concepts, and theories used by anthropological archaeologists to design and interpret their research and to explore not only what happened in the past, but to develop ideas about why things happened as well. Also included are lectures about archaeological finds or issues that have been particularly well publicized and about which students often express considerable curiosity. The main objectives are a) to expose students to a series of historically significant non-modern, non-Western societies and cultures using overly evolutionary, behavioral, and sociological perspectives; b) to enlighten students concerning the kinds of extant information are available for these societies, how research is designed to acquire new data, and how scholar’s interpret these data, and c) to stress the nature of the agrarian human condition out of which modern societies so recently emerged, and under which people in many developing societies still live. Central to the latter are issues of subsistence agriculture and human demography.

Central to ANTH 009 are comparisons among several great Old World civilizations, comparisons with other world civilizations and cultures, and comparisons with modern society. Also inherent in the course are extensive discussions of geographic and ecological variation and human adaptation to both. The very deep time depth exposes students to societies very different from our own, including social and cultural forms that have no direct analogs in the modern world. A final intent is to make students understand basic concepts such as biological and cultural evolution, as well as a host of more restricted ones, such as "institution", "household", "stratification", "political economy", "urbanization", and a host of others that are all used to organize presentations. Issues of gender, ethnicity, and class structure are also discussed. Evaluation will consist of 3-6 museum or web-based writing assignments worth 15-30% of the grade. There will be two mid-term examinations and one final examination worth 70-85% of the grade. Although this is a large course, exams are hand-written and graded, and require a mix of objective and subjective responses. Each exam has an essay component. This course parallels ANTH 008, its New World counterpart. It serves as a useful precursor to ANTH 456 (Cultural Ecology), and also for courses in other departments where broad-based comparisons of ancient civilizations or archaeological methods are of concern, or where (as in CAMS) more specialized courses in Egyptian archaeology, etc., are offered.

ANTH 021 (GN) Introductory Biological Anthropology (3) The role of human biology and evolution in culture, society, and behavior.

ANTH 021 Introductory Biological Anthropology (3) (GN)

(BA) This course meets the Bachelor of Arts degree requirements.

"Introduction to Biological Anthropology" is designed to present to the student the basic principles and findings of human population biology. To that end, the instructors review data on biological variability among contemporary human populations and among the extensive fossils that document human evolution. Comparison between human and nonhuman animals, particularly, the surviving nonhuman primates, provides an essential "Zoological Perspective" by which we can understand the origins and evolution of humankind on this planet. The single unifying concept in biological anthropology is evolution. In this course, the student will be introduced to the mechanisms underlying evolution and their application to past and present human populations. Evolutionary biology emphasizes the similarity between closely related forms, for example, chimpanzees and humans share more traits in common than do dogs and humans, because they have a more recent common ancestor. It also underscores the diversity among individuals in a population, for example, despite being members of the same species, all humans are biologically unique. The process of evolution accounts for both the similarities and the differences within and between populations. It is therefore the theory of evolution that will organize the diverse content of this course. There are two lectures per week. In addition, there is a weekly practicum class where the student explores material presented in lectures as well as learns new information. Exercises and hands-on demonstrations help the student understand the principles and findings of biological anthropology. Brief written practicum exercises often based on team projects foster interactive learning. Grades are based on three examinations and practicum exercises. This course is one of three core-courses required of majors and minors in the Department of Anthropology. The course can be used to fulfill three credits of General Education in the Natural Sciences. Students can expect to acquire a general introduction to the University as an open community of researchers and scholars who attempt

The Pennsylvania State University
to describe accurately, and hence understand, "The Human Condition." Students in this class will therefore have the opportunity to explore their responsibilities as members of an intellectual community of free inquiry. This course offers the student the opportunity to develop intellectual relationships with faculty, graduate students and fellow classmates who share similar academic interests in biological anthropology and related fields of inquiry.

ANTH 022 (GN) Humans as Primates (3) The biological basis of human behavior within the context of primate biology, behavior, and evolution.

ANTH 022 Humans as Primates (3)
(GN)
Humans as Primates is intended to introduce the student to the biological bases of human anatomy and behavior by drawing comparisons to the behavior and biology of our closest living relatives, the non-human primates. The principal goal of the course is to critically evaluate arguments concerning what uniquely makes us human and the role of genetics, environment, and evolutionary history on the development of human behavior and anatomy. The course will draw heavily on studies of living non-human primates as well as evolutionary theory, paleontology, and psychology to addresses issues such as human growth and development, diet, human variation, communication, intelligence, reproduction, aggression, and culture. Humans as Primates is divided into four main thematic units each designed to present a set of related lessons exploring the role of biology in various aspects of human life. The first unit provides the foundation for the course by introducing the place of humans in the natural world. This unit presents a survey of living primates and their relationship to humans as well as an overview of evolutionary processes and human evolution. The other units present topics in human biology, communication, and social behavior focusing specifically on topics of importance to current events and aspects of popular culture and modern life. This course should be of significant interest to students in a diversity of disciplines including the biological and social sciences as well as anyone interested in human behavior. The course will rely on readings from the scientific and popular literature and will present information using a variety of formats including images, movies, and interactive activities. Students will be evaluated with a combination of frequent online quizzes, individual assignments, participation in online discussions. The course can be used to fulfill three credits of General Education in the Natural Sciences. As such this course will help students understand how scientific information from a variety of disciplines can be used to investigate and understand human biology and behavior. The course will introduce the student to methods of data collection and analysis, foster critical thinking skills, and provide a rich background for understanding human diversity, human biology, and behavior. Students will have the opportunity to synthesize information from a broad range of disciplines to develop a fuller understanding of the biological basis of human behavior.

**ANTH 045 (GS;US;IL) Cultural Anthropology (3)**

Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.

**ANTH 045 Cultural Anthropology (3)**

*(GS;US;IL)*

**(BA) This course meets the Bachelor of Arts degree requirements.**

"Cultural Anthropology" is designed to introduce the student to the cultural diversity of our planet. "Culture" can be defined as that set of rules, standards, conventions, and beliefs shared by members of a given human society. These rules are transmitted by social learning. Culture defines what counts as "normal" thought and behavior by the members of a given society. The course will provide the student with an understanding of the basic methods, data and, theories that cultural anthropologists use to study the varieties of human thought, behavior, and social life in their associated physical and social environments. A weekly recitation section allows the students to discuss material presented in lectures as well as to engage in independent research projects. These projects involve individual and group research based upon library and computer-based resources and further foster interactive learning. Teamwork is an essential aspect of both research and presentation of recitation section work. Oral presentations and written papers are stressed. Recitation discussions in cultural anthropology emphasize inter-cultural understanding. Grades are based on three examinations and recitation exercises.

This class is one of three core-courses required of majors and minors in the Department of Anthropology. The course can be used to fulfill three credits of General Education in the Social/Behavioral Sciences for the Bachelor of Arts requirement. Students can expect to acquire a general introduction to the University as an open community of researchers and scholars who attempt to describe accurately, and hence understand, "The Human Condition." Students in this class will therefore have the opportunity to explore their responsibilities as members of such an intellectual community of free inquiry. In addition, students will develop first-hand knowledge of the learning tools and resources available to them at Penn State including the ever-expanding Web-based Internet. This course offers the student the opportunity to develop intellectual relationships with faculty and fellow classmates who share similar academic interests in cultural anthropology and related fields of inquiry. "Cultural Anthropology" is offered every semester, including the summer session.

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**ANTH 045U (GS;US;IL) Cultural Anthropology (3)**

Beginnings of human culture; economic life, society, government, religion, and art among traditional peoples.

**ANTH 060 (GS;IL) (J ST 060, PL SC 060, SOC 060) Society and Cultures in Modern Israel (3)**

Society and cultures of the State of Israel from 1948 to the present.

**Society and Cultures in Modern Israel (3)**

*(GS;US;IL)*

This course will review the social, cultural, and political systems in the State of Israel as they have developed and changed since its inception in 1948. The role of immigration, ethnicity, and religion on Israeli society and cultures will be explored along with the non-Israeli cultures that have helped to shape conditions there. The course will look into the diverse social and political institutions of contemporary Israel, examine the borders and geographic features of the region, and discuss who lives there, where they reside, and for which portions of this period. It will examine the wars and tensions between Israel and neighboring Arab states; the status of the Arab/Palestinian minority in Israel; and the growth of Palestinian nationalism. Social conditions in the State of Israel are the result of a unique history. Israelis have absorbed large numbers of immigrants from many parts of the world while engaged in ongoing political and military conflicts. Jewish settlers in Israel/Palestine revitalized a language (Hebrew) and developed unusual collectivistic institutions (e.g., the kibbutz). Israeli nationalism is founded both on secular and religious ideologies. It includes notions of a return from Diaspora and the desire for personal and collective redemption. The study of social processes such as these will provide an opportunity to consider the foundations and functions of nation-states and social systems generally. Materials will include selections from primary texts, official documents, novels, films, and ethnographic materials along with scholarly reviews and essays. Students will be exposed to materials produced from a variety of disciplinary and political perspectives. Through writing assignments, projects, and essay examinations, students will integrate, compare, and analyze these materials. The course complements offerings in Jewish Studies, Sociology, Anthropology, Political Science, and Middle East Studies and will satisfy the IL requirement. It enables those in Jewish Studies to examine the roughly 30% of Jews who reside in Israel,
builds upon a current course on Zionism, and provides context for the study of modern Hebrew. It offers an additional international alternative for students in Sociology and Political Studies and a topical area in cultural Anthropology. Students in Middle East Studies will find it worthwhile to study a nation with a significant impact on the region.

ANTH 083S (GS) First-Year Seminar in Anthropology (3) This seminar introduces students to anthropology as a scientific discipline with ties to other social and natural sciences.

ANTH 083S First-Year Seminar in Anthropology (3) (GS;FYS)

(BA) This course meets the Bachelor of Arts degree requirements.

This seminar introduces students to anthropology as a scientific discipline with ties to other social and natural sciences. Through active participation in the seminar, students will be exposed to an aspect of anthropology that corresponds to a faculty member’s area of expertise. Because students are introduced to cutting edge research, the course content will vary from one semester to the next. Seminar topics highlight current debates in the discipline and the research process. Research design, analytical methods, and sampling issues are covered by having students read and discuss new and controversial developments in anthropology. Strong emphasis is placed on the broader societal significance of scholarly research related to the seminar’s principal focus. Student comprehension of topics raised in class will be assessed by classroom participation, exams, and papers. In addition to the academic topic and issues of this course, students can expect to gain a general introduction to the University as an academic community and have the opportunity to explore their responsibilities as members of that community. Students will develop an understanding of the learning tools and resources available to them, including the opportunity to develop relationships with faculty and other students who share their academic interests. This seminar fulfills both a first-year seminar requirement and a general education sociobehavioral science requirement or Bachelor of Arts sociobehavioral science requirement.

ANTH 216 (GN;GS) Sex and Evolution (3) Introduction to evolutionary theory and its application to understanding human sexuality and sex differences.

ANTH 216 Sex and Evolution (3)
(GN;GS)
This course introduces students to evolutionary theory and explores its relevance to the anthropological study of human sexuality. After honing their evolutionary skills by investigating non-human reproduction, students will apply evolutionary principles to understanding human sexuality. Why do we prefer certain characteristics in a mate? How do these preferences differ between and within the sexes, and why? How do mating behaviors vary across cultures, and why are some more culturally variable than others? Other topics covered include sexual conflict and rape, and parental care and abuse. In understanding the evolutionary basis for a trait, it is helpful to understand its development. Thus, this course also covers the basics of sexual differentiation and investigates how variation in these processes might lead to variation in sexual orientation and gender identity. Students should take away not only a better understanding of human sexuality but also a way of thinking that helps them understand all living things.

ANTH 220 (GA;GH;IL) Anthropology and Artifacts (3) This course examines anthropological approaches to the study of art works, their production, and function in diverse human societies, both past and present.

ANTH 220 Anthropology and Artifacts (3)
(GA;GH;IL)
(BA) This course meets the Bachelor of Arts degree requirements.

This course examines the ways in which the discipline of anthropology has used art and artistic production as an interpretive lens, as a means to understand past human action, cultural behaviors and ancient societies as a whole. To take up this topic, the course is divided into five distinct units allowing a thematic and comparative analysis of a variety of human societies. We will critique the conceptual divide between “art” and “artifact,” focusing on long-standing assumptions about philosophies of aesthetics, derived primarily from early modern European (Renaissance) notions of “art.” Geographically, the course content has a global reach, but primarily focuses on the artistic production of the Americas, Africa and Oceania, challenging the label of ‘primitive’ that has historically been applied by modern Western approaches. During the course of the term, we will conduct analyses aimed at elucidating how scholars have used the interpretation of art objects to better understand the complexity of human experience, specifically in regards to categories such as gender, kinship, social hierarchy and cosmology. Each class meeting will consist of a lecture and also a discussion component, primarily focusing on the assigned readings to ensure complete comprehension and relevancy. Students will be evaluated on essays and exams. This course will satisfy general education requirements and provide a base for other courses in anthropology, art history, museum studies and history.

General Education: GA;GH

ANTH 221 (GS;IL) The Ancient Maya (3) The Maya and their neighbors: Origin and Evolution of Classic Maya civilization.

ANTH 221 The Ancient Maya (3)
(GS;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

Great civilizations emerged independently in several parts of the world beginning about 5500 years ago. Most students have had some exposure to the great Old World civilizations (Mesopotamia, Egypt, China), but know comparatively little about their counterparts in the New World. Among these the Classic Maya (AD 250-900) are by far the most familiar, and are heavily featured in popular culture. Many students have (or will) visit Maya sites as tourists, and be impressed by the flamboyant archaeological remains of these ancient people. Despite their visibility, the Maya are widely misunderstood and heavily sensationalized. ANTH 221 will trace the development of Maya culture from about 9000 BC to its eventual conquest by the Spaniards in the 1540s. Most important will be the Classic Maya interval, when Maya civilization achieved unparalleled heights in architecture, art, astronomy, mathematics, and writing. The Maya were participants in a much wider tradition of complex civilization in the region archaeologists call Mesoamerica, and several lectures will place them in this more general context. Much content of this course will come from research done by members of the Anthropology Dept. We have had a very long tradition of Mesoamerican/Maya research since the early 1960s and our department has heavily influenced both the study of Mesoamerican studies and complex cultures in general. These have proved to be very durable themes and have been at the heart of our department’s success for almost a half century. This course will fulfill basic BA and GenEd requirements (GS, IL). It may also be used to fulfill an ANTH, ARSCI, and BANTH additional ANTH course requirement.

ANTH 241 (IL) Peoples and Cultures of Highland New Guinea (3) History, ecology, social, economic, religious, and political systems of the aboriginal peoples and cultures of highland New Guinea.

ANTH 241 Peoples and Cultures of Highland New Guinea (3)
(IL)

This course will introduce students to the cultural systems of highland New Guinea, an area that became known to the outside world as recently as the 1930s. When first contacted by Europeans, the million or so people living in the highlands of New Guinea used a stone tool technology, had no knowledge of the wheel, and lived in small, politically and economically autonomous local groups. They provided an example of a major population engaged in a way of life typical of human societies in a technologically simpler past. The study of these cultures affords students an opportunity to explore the processes through which these people have assimilated thousands of years of technological, political and economic innovation in a very brief period, while maintaining and recreating their cultural identity, despite the impact of colonial rule.

The course will complement other courses in Anthropology that deal with non-western cultural systems and with the effects of western colonization and modernization on native peoples and cultures. A prerequisite course in Anthropology 45 or Anthropology 001 will provide students with the general anthropological concepts that will enable them to
understand more fully the particular cases explored in this course.

The course can be used to fulfill an Anthropology requirement in both the major and minor in general Anthropology, and will also provide students in other departments with the opportunity to study aspects of diverse, non-western cultures.

ANTH 285 (GS;IL) Culture Contact (3) Survey of changes in indigenous societies following contact with colonial powers.

ANTH 285 Cultural Contact (3)
(GS;IL)

(BA) This course meets the Bachelor of Arts degree requirements.

This course treats anthropology as a scientific discipline with ties to other social and natural sciences. Emphasis is placed on how the research process is relevant to information acquisition and the evaluation of controversies that have long interested both scholars and the public. Research design, analytical methods, and sampling issues are covered by having students read and discuss hotly debated issues about how contact with Europeans affected small-scale indigenous societies. Student comprehension of topics will be assessed by classroom participation, exams, and papers. This class fulfills an elective requirement for both the major and minor in anthropology, and the General Education GS and IL requirements.

General Education: GS
Diversity: IL
Bachelor of Arts: Social and Behavioral Science
Effective: Summer 2005
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 294 Research Project (1-12) Supervised student activities on research projects identified on an individual or small-group basis.

Research Project (1-12)

Effective: Summer 1994

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 296 Independent Studies (1-18) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses.

Independent Studies (1-18)

Effective: Summer 1987

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 297 Special Topics (1-9) Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.

Special Topics (1-9)

Effective: Fall 1986

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.
ANTH 297A European Prehistory (3) Students will explore the archaeological record of human societies in Europe from the Upper Palaeolithic to the Iron Age.

ANTH 380 Anthropology Museum Studies (3) Introduction to the history, significance, and operation of anthropology museums.

ANTH 380 Museum Studies (3)

This course introduces students to the operation of anthropology museums and to the growing field of museum studies. The course explores the historical setting within which these institutions evolved and the role of museums in the development of anthropology. Students will learn about the primary functions of museums through individual and group projects. Other topics to be covered include museum organization and administration, collection management, curation and conservation, research and education, public relations and financing, and ethical and legal issues. Students will get hands-on experience with the planning and implementation of a display in the Matson Museum of Anthropology. In addition, students will learn about museum careers, museum developments in other countries, and contemporary controversies, such as repatriation and the shifting role of museums in contemporary society. The course will provide the student with an introduction not only to the behind-the-scenes nuts-and-bolts of daily museum operations but also to the institutional role of museums as the preservers, interpreters, and communicators of humanity's cultural heritage. Students are evaluated based on two papers, work on Matson Museum exhibits, and participation in class discussions. This course fulfills a 3-credit requirement for additional courses for the anthropology major. This course expands on the history of anthropology and professional employment in the field that is presented in introductory courses.

Human Evolution: The Material Evidence (3)

General Education: None
Diversity: None
ANTH 405 Primatology (3) Nonhuman primate origins, evolution, comparative physical and behavioral characteristics, ecological context, phylogeny and taxonomy; and their importance in anthropology.

ANTH 408 Anthropological Demography (3) Analysis of demographic studies in traditional and very small populations.

ANTH 410 Osteology (4) Introduction to the systematic study of the human skeleton from an evolutionary developmental biological perspective.

ANTH 411 Skeletal Forensic Anthropology (3) An introduction to anthropological forensic science with an emphasis on what can be learned from human skeletons and archaeological recovery methods.
ANTH 411 Skeletal Forensic Anthropology (3)

This course is a survey of forensic anthropology focusing on human skeletal remains and archaeological recovery methods. Emphasis is placed on field methods used to collect human remains from surface and buried contexts; taphonomic processes; estimating age, sex, stature, and ancestry from human skeletons; recognizing signs of trauma and scavenger damage; and identifying individuals from skeletons. Lectures are accompanied by class discussions and complemented by practical lab sections closely tied to lecture materials. There will be two exams, a midterm and a final, and students are responsible for preparing a poster and presenting a semester-long research project. This course is related to existing ANTH 410, Human Osteology, and proposed course ANTH 413, Molecular Forensic Anthropology. It fulfills a 400-level requirement for the anthropology major or minor, as well as the university's Forensic Science major.

General Education: None

Bachelor of Arts: None
Effective: Spring 2007
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 412 Settlement Demography (3)

Examination of the demography and ecology of human settlement systems in the preindustrial past.

This seminar will examine the population dynamics of human settlement systems in preindustrial societies, living, historic, and prehistoric. The focus will be on subsistence-level agrarian settlements, but some attention will also be paid to settlement patterns in hunter-gatherers, in market economics, and in complex societies. After reviewing basic assumptions and problems of working with spatial data, the course will examine processes determining settlement size, composition, and location on the micro-level (i.e. that of individual households, farmsteads, hamlets, and villages) and then pass on to regional patterns of transport, migration, and defense. The processes of site colonization, settlement expansion and contraction, site abandonment, and re-colonization will all be considered in detail. Since human settlements are always non-randomly distributed across spatially-heterogeneous landscapes, some basic landscape ecology will be presented in the course. Some fundamentals of geostatistical analysis will also be taught, although the course is not intended to be a survey of quantitative geography or spatial analysis. Rather, it is designed to be a more specialized follow-up to ANTH 408 (Anthropological Demography); the new course builds upon the basic explored in ANTH 408 by extending them into the spatial domain. During the last quarter of the semester, students will split into 2-3 teams, each of which will re-analyze settlement data from a region and time period of its choice for presentation to the rest of the class. The proposed course will provide 3 elective credits toward the undergraduate major and minor, and will be open to graduate students as well. The overall aim is to produce scholars who can think in creative ways about the dynamics of settlement systems in their own reading and research. The course should be of interest to archaeologists, anthropological demographers, ethnologists, and other students interested in human population science, especially as it relates to preindustrial society.

ANTH 413 Molecular Forensic Anthropology (3)

An introduction to the field of the application of DNA methods to estimating forensically useful phenotypes.

This course is a survey of forensic anthropology focusing on human genetic methods. Emphasis is placed on laboratory methods for analyzing DNA variation, the genomic and geographical distributions of genetic variation, estimating genetic ancestry, sex, pigmentation, facial features, and other traits. Lectures are accompanied by class discussions and complemented by practical lab sections closely tied to lecture materials. There will be three exams and students are responsible for preparing a poster and presenting a semester-long research project. This course is related to existing ANTH 411, Skeletal Forensic Anthropology. It fulfills a 400-level requirement for the anthropology major or minor, as well as the university's new Forensic Science major.

ANTH 421 Intro to Geospatial Science in Anthropology and Archaeology (3) This course is a practical, data driven, introduction to applications of Geospatial tools in anthropological and archaeological research.

ANTH 421 Intro to Geospatial Science in Anthropology and Archaeology (3)

As anthropologists, we are interested in humans, how humans interact with each other, and how that interaction is modulated by space and place. The purpose of this course is to introduce students to the basic concepts of spatial theory in anthropology, and the use of GIS (Geographic Information Systems) as a tool in anthropological and archaeological research designs. Students will gain familiarity with geospatial technologies, their use as a tool for data creation, storage and manipulation, and a broad array of data analyses. The course is relevant to anyone documenting or investigating spatial dimensions of human social behavior. Students will gain familiarity with GIS software, its use as a tool for data creation, and a broad array of data analyses.

This class will be offered each Fall semester. It will introduce students to sources and uses of data in addressing anthropological or archaeological research questions. It will prepare the student for more advanced spatial analysis courses such as Advanced Geospatial Science for Anthropologists and Archaeologists. Students will be expected to develop a research project which uses GIS as a tool to address broader anthropological research questions. The class will culminate in the development of a research contract for a future fieldwork project. A list of sample topics is provided. Students will be expected to develop an original and functioning GIS which addresses their research question. The purpose of this exercise is to introduce the student to all stages in the development and operationalization of an anthropological research GIS in the development of an archaeological or anthropological project. There are two components to this class: classroom and labs. The classroom component will consist of lectures and discussions. The student will receive hands-on experience with GIS applications during the laboratory component of the class. The laboratory component will enable students to gain experience applying the concepts discussed in class to archaeological data through use of GIS programs in a technology classroom setting. Data used in the laboratory exercises derive from actual anthropological and archaeological fieldwork. Students are expected to complete labs in one of the several computer labs across campus that have GIS software installed. Grades are based upon the completion of 12 lab exercises, a draft of a proposed contract, the final contract and a short presentation of the proposed contract to the class. This course will fulfill three credits of the requirement in both the Minor and Major in Anthropology. This is the first part of a two part course. The second part of this course is called Advanced Geospatial Science for Anthropologists and Archaeologists.

ANTH 424 Andean Ethnology and Archaeology (3) Cultures of the Andes from earliest settlements to Inka Empire; includes discussion of life in modern Andean communities.

ANTH 424 Andean Ethnology and Archaeology (3)

(BA) This course meets the Bachelor of Arts degree requirements.

When the Spanish conquistadors arrived in the Andes in 1532, they were astonished by the complexity and grandeur of the Inca Empire, which stretched along western South America incorporating a multitude of different societies that occupied a seemingly inhospitable landscape with coastal deserts, rugged mountain chains, and dense jungles. This course traces out the history and development of Andean cultures from the earliest peopling of the continent to the rise and fall of the Inca Empire. Using archaeological, historical, and ethnographic sources, students will learn about the relationship between Andean societies and their environments and landscapes, as well as the economic, social, and political changes that transformed small egalitarian communities through time into large, stratified states. Through the course, students will not only gain a strong background in pre-Columbian Andean history but will also hone their skills in the use of different lines of evidence to reconstruct the past while learning to critically evaluate existing interpretations. All students are expected to participate actively in discussions. Lectures will be supplemented by illustrations (slides, handouts, videos), and students will learn how societal dynamics are expressed in material culture and in the organization of architecture and settlements. Grades will be based on the results of three exams, a short paper, and participation in discussions. The course complements existing courses at the same (400) level on the archaeology of Mesoamerica (ANTH 422) and North America (ANTH 423). It continues the discussion (at a higher level) of some of the themes covered in ANTH 008 (Incas, Aztecs, Mayas). It fulfills the archaeology credits requirement for the major and is one of the 400-level courses that can be used for the minor. For students outside the major, it may be used to meet the Other Cultures or the Social Sciences requirement in Bachelor of Arts programs.

ANTH 426W Archaeological Laboratory Analysis (3) Scientific laboratory methods used in the analysis of ceramic and lithic artifacts.

ANTH 426W Archaeological Laboratory Analysis (3)

This course, Archaeological Laboratory Analysis, employs experiential learning to teach students how to ask and answer archaeological questions using real data. While students learn the fundamentals of interpretation in other courses using already processed computer (and internet) assembled data sets, this is not how archaeological data are analyzed. Archaeological data emerge from the ground covered with dirt and the analyst must learn how to identify and measure their important attributes, and interpret what they mean. This class will provide a hands-on learning experience where students learn how to examine and use physical remains to reconstruct and interpret human behavior.

Students in the Anthropology program currently learn this critical step on an ad hoc basis by working with faculty on individual research projects. This approach, while effective, is neither systematic nor comprehensive. This is a course on analytical systematics. It provides students with an introduction to problem formulation, artifact processing, artifact cataloging, attribute identification, artifact classification, analysis, data illustration and photography. At the same time, students will be introduced to two separate and distinct approaches to interpretation: 1) morphological/diagnostic analysis, and 2) direct experimentation and replication.

Students will be graded on the completion of nine laboratory exercises. These exercises will require that students identify the research question being addressed, the theoretical assumptions used in the analysis, the data sample, the analytical method(s) employed, and the conclusions reached. The exercises will also request that students identify personal insights and difficulties encountered during the analysis.

This course fills a vital position in training undergraduate majors by providing them with practical training in research design and data analysis. It also provides the logical link between our general courses in prehistory, our courses on archaeological theory, and our method courses on field methods of data recovery. All of these courses intersect in the archaeological laboratory where data interpretations are made and new information about the past takes shape. In addition to contributing to both the BA and BS undergraduate majors and minors, this course will also provide a framework for training graduate students who enter the program with minimal field and laboratory training in archaeology.

ANTH 429 Paleoethnobotany (3) Introductory course in paleoethnobotany, the study of the interrelationships between people of the past, natural environment, and plant resources.

ANTH 429 Paleoethnobotany (3)

This course is a survey of the fast-developing field of paleoethnobotany-- also known as “archaeobotany” or “phytoarchaeology”-- that involves the extension of ethnobotany into the past, emphasizing archaeological plant remains and study of the historical dimensions, complex dynamics, and myriad interrelations between people and plant resources.

The primary goals of the course are 1) to promote understanding of the vital interplay between the natural environment and human societies, with their diverse systems of belief and resource use, especially those of the past but with relevance to the present; and 2) to foster an appreciation for what modern paleoethnobotany involves as a subdiscipline or specialization in archaeology, related to both anthropology and the plant sciences.

The course begins by considering the history and nature of the field, including parallel developments in plant biology. The first half of the semester entails weekly sessions that focus attention on the plant organism, sources of archaeobotanical data, taphonomic issues, and the major classes of archaeobotanical materials. Fundamental issues involved in fieldwork, and the variety of laboratory concerns and methodologies specific to paleoethnobotany as whole and with regard to individual subareas are addressed. Individual laboratory sessions highlight the different preservation states that affect ancient plant materials, as well as methods of identification and analysis. In the second half of the semester, attention is focused on theory and application, issues central to and/or addressed by paleoethnobotany as a subdiscipline of archaeological anthropology.

The course follows a seminar style, with substantial participation by students, including individual presentations, laboratory study, and analysis. Learning is augmented and enhanced by use of various visual aids, along with modern comparative specimens and actual archaeological plant remains.

ANTH 429 will fulfill 3 credits of the additional courses in the Anthropology minor and majors. Anth 002 is a prerequisite.

ANTH 431 Advanced Geospatial Science for Anthropologists and Archaeologists (3) This course is an intensive, data driven, treatment of the use of geographic information systems in anthropological and archaeological research.

ANTH 431 Advanced Geospatial Science for Anthropologists and Archaeologists (3)

As anthropologists, we investigate how humans evolved, behave, define groups, and interact socially. Examining how these processes are shaped by space and place is central to the anthropological enterprise. The use of geospatial science in anthropological and archaeological research is now commonplace. Geospatial technologies are now intimately involved in anthropological and archaeological research designs. The course objective is to expose students to advanced concepts and techniques of conducting geospatial science research in anthropological and archaeological contexts. The course is a continuation and development of the introductory geospatial science course and it will fulfill three credits of the requirement in both the major and minor in Anthropology. Students will develop an in depth understanding of anthropologically and archaeologically tailored geospatial project design and implementation. Students are expected to
complete the work for the course in one of several computer labs across campus that has the appropriate software installed.

ANTH 432 Environmental Archaeology (3) Introductory course in Environmental Archaeology, with emphasis on method and theory in the subfields archaeobotany, pedoarchaeology, and zooarchaeology.

ANTH 432 Environmental Archaeology (3)
This class is a survey of the fast-developing field of environmental archaeology, or archaeobiology, which encompasses archaeology, the earth sciences, plant biology, and zoology. Environmental archaeologists apply techniques and insights obtained from these fields to questions concerning the relationships among humans, cultural systems, and the natural world, as reflected in the archaeological record. The general goal of the course is to promote understanding of the vital interplay between human societies, with their diverse systems of belief and cultural practices, and the natural environment, with emphasis on human interactions with biotic resources. Instruction is by lecture, supplemented by laboratory sessions emphasizing hands-on experience. Weekly topics are explored through selected readings and class discussions, augmented with laboratory assignments (practical exercises) variously focused on specific types or classes of archaeobiological materials.

ANTH 432 will fulfill 3 credits of the additional courses in the Anthropology minor and major, as well as the Archaeological Science major. Anth 002 is a prerequisite.

ANTH 433 Archaeological Ethics and Law (3) Introductory course that examines prominent ethical and legal issues in archaeology integral to modern applied research and practice.

ANTH 433 Archaeological Ethics and Law (3)
This course explores the ethical, legal, and practical dimensions of modern archaeology through a consideration of the following topics: archaeology as a profession; archaeological ethics; the relationship between archaeology and others (the public, ethnic groups, avocationals, collectors, etc.); international and national approaches to archaeological heritage management; the antiquities market; maritime law, underwater archaeology, and treasure hunting; cultural resource management in the United States; and archaeological outreach and education. Students are introduced to a variety of legal and ethical issues in archaeology that span local to international scales. Through lecture, discussion, and readings, students will consider the archæology and ethics of ownership and stewardship, including issues centered on intellectual property rights, representation, repatriation, and reburial of cultural properties. They will be able to identify the various stakeholders in contemporary archaeology, and assess their values and interests in issues such as the treatment, ownership, and disposition of human remains, heritage sites, submerged cultural resources, and antiquities. They will consider growing problems with illicit collecting and excavation, illegal trade, and global concerns centered on the international trafficking of antiquities, and will be variously exposed to relevant national and international legislation involving cultural patrimony and management of antiquities, including international treaties such as the 1970 UNESCO Convention on Cultural Property, and related pieces of US federal legislation. The 1990 Native American Graves Protection and Repatriation Act (NAGPRA) and the Archaeological and Historic Preservation Act (ARPA) of 1974 figure prominently in the course. In general, upon completion of the course students will come to have a stronger appreciation of archaeological ethics and "archaeopolitics"; they will have a good understanding of the U.S. Secretary of the Interior's standards (36CFR61) for professional archaeologists and will be able to assess and evaluate contemporary issues of archaeological ethics and law in the context of modern practice.

ANTH 440 South American Tribal Societies (3) Ethnographic survey of tribal societies in South America. Special emphasis...

ANTH 441 (IL) From Stone Ax to Uzi: Tradition and Change in the New Guinea Highlands (3) This course explores cultural change and innovation among tribal peoples of Highland New Guinea from stone tool technology to globalization.

ANTH 441 From Stone Ax to Uzi: Tradition and Change in the New Guinea Highlands (3) (IL)

The indigenous peoples of Highland Papua New Guinea were unknown to the outside world until the 1930s and began to be seriously influenced by European contact only after the First World War. At first contact with Europeans, the million or so people living in the Highlands used a stone tool technology, had no knowledge of the wheel, and lived in small, politically and economically independent local groups. They presented a major population engaged in a way of life typical of human society in a technologically simpler past, and have been crucial in anthropology’s discussion of the general characteristics of human culture and institutions. The study of these cultures also provides an opportunity to explore the processes through which these peoples have assimilated thousands of years of technological, political, and economic innovation in a very brief period, while simultaneously maintaining and recreating their cultural identity, despite the impact of colonial rule and global influences. Apart from the specific history of these populations, the course will also give students insight into the processes of globalization and internationalization that necessarily effect changes in traditional cultures, and will require that they consider the advantages and disadvantages that accrue from these processes.

Among the topics this course will cover are traditional and current approaches to dispute settlement, economic changes that entail moving from subsistence agriculture as the basis of the economy to cash cropping for a global market, the ecological effects of extractive industries such as mining and how those effects are translated into social and cultural domains, the reorganization of gender roles, the incorporation of politically independent tribal units into a centralized, powerful state, and the demise of traditional religion with the conversion to Christianity.

Students will be evaluated on contributions to class discussion, essay exams, a term paper and a brief oral presentation based on that paper.

The course will provide support and depth for more general courses dealing with warfare, gender, religion, politics and economics and specific understandings for programs devoted to exploring cultural variation and modernization.

ANTH 444 Primitive Warfare (3) Critical overview of the ethnography and theory of primitive warfare.

ANTH 444 Primitive Warfare (3)

Anthropology 444 is concerned with the phenomenon of lethal group violence in tribal societies so called “primitive war”. Through lectures, readings, and research projects, this course reviews anthropological approaches to the study of primitive war, focusing both on ethnographic examples and on theoretical approaches. The course covers topics such as explanations, traditional and modern, for the existence of warfare: the primate background to human warfare; and the social causes and individual motives leading to warfare in tribal societies; as well as its consequences for those societies. Students become familiar with both general and particular manifestations of primitive warfare, and are exposed to individual ethnographic cases of primitive warfare as they motivate a variety of theoretical paradigms.

All students are expected to attend all lectures and to complete all weekly readings. At the last class meeting of each week, a rotation of students are assigned to organize and direct the class discussion of the week’s readings in the light of the lectures earlier in the week. Performance in this activity constitutes 40% of the student’s grade. Another 40% is earned in the research term paper each student must prepare. The final 20% of the grade is based on overall student contribution to class discussion, particularly during those weeks when the student is not a discussion leader. There is no final examination. This course can be used to fulfill major and minor requirements in Anthropology. Because warfare was and often still is a major activity in most tribal societies, this course provides an important complement to area-focused ethnography and archaeology courses such as ANTH 241(Peoples and Cultures of Highland New Guinea), ANTH 422 (Mesoamerica), ANTH 423 (North America), ANTH 425 (American Southwest), ANTH 440 (Lowland South America), and ANTH 447 (Africa). This course is also relevant to topically focused course such as ANTH 450 (Comparative Social Organization), ANTH 451 (Economic Anthropology), ANTH 454 (Political Anthropology), and ANTH 456 (Cultural Ecology). On the graduate level, this course addresses central topics covered in ANTH 522-523 (Ecological Theory in Anthropology), ANTH 536 (Social Organization of Traditional Societies), and ANTH 559 (Behavioral Anthropology).

The Pennsylvania State University
ANTH 446 W Ethnographic Film (3) Comparisons of written and visual ethnography; critical assessment of ethnographic film; cross-cultural variation.

ANTH 446 W Ethnographic Film (3)

Students will be presented with both written and filmed ethnographic material dealing with a number of cultural subsystems (e.g., kinship and family relations, religion, political systems) and with a number of different world cultures. The aim of the course is three-fold: 1) to convey through visual anthropology the complexity and inter-relations of cultural subsystems, which is often difficult to do in written sources; 2) to develop the skills of critical viewing of ethnographic film; and 3) to provide students with critiques of their written work that will enable them to learn and practice the skills of clear, organized and convincing writing. Towards these ends, students will be expected to read and view weekly assignments for selected topics, to write twelve critical essays that compare the written and filmed sources, and to evaluate the aims, effectiveness, and methods of the films. Essays will be graded for both content and form and will provide a basis for class discussion. Students will also be required to write a term paper focused on a particular ethnographic film of their choice (one not shown in class) supplemented by additional research. As an aid in the writing of the paper, at least one class period will be devoted to learning how to do library research in Anthropology.

This course will complement other courses in Anthropology such as ANTH 045 and ANTH 001. The course can be used to fulfill a requirement in both the major and minor in Anthropology, and will fulfill both a Writing Intensive requirement and a Bachelor of Arts social/behavioral science requirement. It will also provide students in other departments with the opportunity to study aspects of diverse, non-western cultures.

ANTH 446 Mating and Marriage (3) An examination of human mating mainly from the viewpoint of behavioral ecology, centering on the species-typical institution of marriage.

ANTH 446 Mating and Marriage (3)

This course is an examination of human mating and marriage mainly (although not exclusively) from the viewpoint of evolutionary behavioral ecology. Its central concern is the species-typical and uniquely human institution of marriage. Why do all human societies recognize this peculiar institution, whose social and biological functions, apparently obvious, become mysterious on close examination? What, exactly, is marriage? What are its consistent characteristics and attributes--or does it have none? How are spouses chosen, and by whom? What does being married imply for the behavior of the spouses, and that of their children and other relatives? What are the evolutionary scenarios that might have led us to marriage? Although sexual behavior is clearly a key element in answering some of these questions, and receives considerable attention, this is not a course on human sexuality. Nor is it a course on kinship, even though kinship is also crucial to understanding marriage and also receives a good deal of attention. Rather, this course attempts to bring to bear on this central social institution bodies of knowledge from the biological and social sciences that may contribute to understanding how and why marriage arose as a universal feature of human societies, and how and why it is perpetuated in contemporary societies. We begin the semester with the posing of the central problem--what is marriage and why do we have it? For about half the course, we approach this question from an evolutionary, sociobiological point of view: We look into the biological background of human mating--its evolutionary history, its physiology, its behavioral ecology, etc. as we go through a semi-popular book on the subject by a biological anthropologist. Next we turn to more academic readings, old and new, that further elucidate the ecological constraints and fitness consequences of various behaviors relating to mating and mate choice, child rearing, etc., in terms of reproductive success, survivorship, etc. In the second half of the course, we take a more social anthropological point of view. We look at what anthropologists have written about marriage and marriage customs over the years. We try to relate the traditional social anthropology to more modern human behavioral ecology. Finally, in a research project report, each student examines some specifics of marriage as it is manifested in ethnographically known societies. In these reports we are particularly interested in how and by whom mates and spouses are chosen, and who contributes what to the raising of children.

The Pennsylvania State University
ANTH 448 (AM ST 448) Ethnography of the United States (3) Ethnographic descriptions of various dimensions of life in the United States.

ANTH (AM ST) 448 Ethnography of the United States (3)

Ethnographic descriptions of various dimensions of life in the United States. The course covers uses of ethnography in American Studies toward an understanding of social and cultural communication and performance. The application of ethnography and concepts of cultural anthropology to complex societies such as the United States is discussed. The course teaches students to use ethnographic methods for research of American society and culture. Attention is given to the ethics and issues of ethnographic fieldwork. The course satisfies the "area" requirement in "society" for American Studies majors.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Fall 2007
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 450 Comparative Social Organization (3) Social structure and cultural change among nonliterate societies.

Comparative Social Organization (3)

General Education: None
Diversity: None
Bachelor of Arts: Other Cultures and Social and Behavioral Sciences
Effective: Fall 1986
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 451 Economic Anthropology (3) Different approaches to the study of the economics of non-Western societies, emphasizing the interrelationships between noneconomic factors and economic behavior.

Economic Anthropology (3)

General Education: None
Diversity: None
Bachelor of Arts: Social and Behavioral Science
Effective: Fall 1986
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 453 Anthropology of Religion (3) Traditional and modern religions and historical and contemporary religious movements from an anthropological perspective.

ANTH 453 Anthropology of Religion (3)

This course meets the Bachelor of Arts degree requirements.

This course will examine the origin, evolution and social function of religion from a cultural materialist perspective. It will begin with a general discussion of an anthropological approach to the study of religion, using numerous examples from different cultures for purposes of illustration. Following a discussion of several topics relevant to the anthropological study of religion --including magic, rituals, witchcraft and mythology-- the course will focus on the relationship between politics and religion: first discussing the role of religion as a mechanism of social and political control, and then examining the role of religion as a vehicle of sociopolitical change in the form of what anthropologists call revitalization movements. This course links to courses on the sociology, history, and philosophy of religion, to courses on intellectual history, and history of social sciences. Course evaluation will be based on 3 take-home essay examinations. Students will give the instructor 3 questions at indicated times; the instructor will return one question; the student will write an essay on the indicated question. Attendance is mandatory. This course will fulfill a 3 credit 400 level requirement for the Anthropology major and minor.

The Pennsylvania State University
Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**ANTH 455 Global Processes and Local Systems (3)**

(3) Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement.

**ANTH 455 Global Processes and Local Systems (3)**

(3) Ethnographic, comparative, historic, evolutionary treatment of global economic, political, and cultural processes and their consequences for local systems.

**ANTH 456 Cultural Ecology (3)**

Survey of the methods and concepts of cultural ecology, focusing on the interaction between cultural and geographical systems.

**ANTH 456 Cultural Ecology (3)**

Survey of the methods and concepts of cultural ecology, focusing on the interaction between cultural and geographical systems.

**Note:** Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

**ANTH 457 (US;IL) (J ST 457, SOC 457) Jewish Communities: Identity, Survival, and Transformation in Unexpected Places (3)**

Examines the global array of smaller Jewish communities that have flourished outside the main urban centers of Jewish settlement.

**ANTH (J ST/SOC) 457 Jewish Communities: Identity, Survival, and Transformation in Unexpected Places (3) (US;IL)**

This course addresses an understudied aspect of Jewish experience. It aims to expand our understanding of Jewish communities by focusing on those that are, alternatively, small, situated in out-of-the-way places, culturally outside the Jewish urban mainstream, or embedded in a larger society with markedly different values and traditions. These communities often constitute the points-of-contact between Jews and non-Jews, and in so doing sometimes transform Jews, non-Jews, and the relationships among them. Other such communities constitute experiments in Jewish lifeways and provide mainstream Jews with pilot projects for potential social and cultural change. This course will explore the significance of small, little-known, idiosyncratic, and anomalous Jewish communities on Jewish history and culture, and draw on them to instruct students on the social and cultural processes of small or unusual communities generally. The communities studied will be located both in the U.S. and elsewhere in which Jews have lived as a minority community during modern times. The course will look at the founding, growth, and decline of such communities and at their social processes and institutions. It will explore how to understand and analyze such communities, which vary from one part of the world to another. The social world of Jewish communities, large and small, is a core interest of Penn State's Jewish Studies Program. This course will complement the current offerings in Jewish Studies, strengthening the social, cultural, and contemporary perspectives available in the Program. It will provide students with an opportunity to explore individual experience and micro-level processes among Jews, and to study the dynamics of identity and survival. It will complement the current offerings in Sociology and Anthropology by affording an opportunity to focus on community-level social processes and by adding a course on contemporary Jewry. The course will integrate knowledge from a variety of sources and fields, promote intercultural understanding, and meet US and IL requirements. Materials will be interdisciplinary, and will include ethnographies, sociological studies, population studies, histories, and personal narratives. They will include primary texts, creative works, and scholarly analyses. The assignments will be structured to facilitate preliminary study these and other sources.
experience in independent analysis, library research, or field research. The course will be offered approximately once a year.

ANTH 458 Ethnographic Field Methods (3)

This course introduces students to ethnographic field methods, includes student projects and simple analyses that don’t require statistical sophistication.

ANTH 458 Ethnographic Field Methods (3)

This course is designed to introduce you to some (not all) ethnographic field methods. It will include actual projects you will have to carry out and other material that will make you a better ethnographer, such as how to pose questions that can be answered, how to select an appropriate sample for a project, how to take and use field notes. Because the emphasis is on field methods, we will do only simple analyses that don't require any statistical sophistication (e.g., descriptive statistics, chi square tests).

ANTH 459 Applied Anthropology (3)

A survey of the development of applied anthropology and the current issues facing anthropologists working in non-academic settings.

ANTH 459 Applied Anthropology (3)

This course surveys the development of applied anthropology and the current issues that face anthropologists as they work in nonacademic settings.

Topics covered for 3 weeks each:
The roots and place of applied research in contemporary anthropology doing applied research Development--defined and evaluated Applied anthropologizing and contemporary problems in North America career. In this class students will learn what it means to be an applied anthropologist and to do anthropology outside of the academic setting. We will learn the historical development of applied anthropology and some of the special tools (and methods) applied anthropologists use in their work. We will also focus on the area of development and the role anthropologists play in their development as facilitators and critics. We will look at how applied anthropologists approach problems in North America from homelessness to drug addiction to AIDS and other diseases. Finally, we will survey the careers of various applied anthropologists to better understand the opportunities that are outside of the academic world. This course will fulfill the requirements for a 400-level course or elective for majors and minors.

ANTH (BIOL) 460 Human Genetics (3)
The human genome, its variation, origins, and relation to disease and other traits.

ANTH (BIOL) 460 Human Genetics (3)
The course considers many examples derived from the study of the genetics of human disease, and includes most general areas of interest, including simple Mendelian disorders, and complex chronic diseases such as cancer and cardiovascular disease, and variable special topics including immunogenetics and the genetics of imprinting or other processes. the course usually also touches briefly on the nature of forensic genetics and the problem of making inferences from individual genotypes. Finally, the course considers the bioethical and societal issues involving contemporary human genetics. The study of disease genetics is important for students preparing for graduate work in medicine and other health professions as well as for graduate studies in molecular and evolutionary genetics and related areas, including biological anthropology and bioethics. This course is relevant to requirements or appropriate electives for life science majors and
graduate students (check with your academic advisor). Over the years, it has proven to be excellent preparation for subsequent graduate and professional work in these areas. The course is offered most years, in the fall semester. Depending on enrollment and other factors, the course may include graded homework or other components, but evaluation is predominantly based on exams during the semester and a comprehensive final. This course is cross listed as ANTH 460 and BIOL 460, but there is only one course, at the same time and place, for all students no matter how they register. In some years, a 4-credit Honors version is offered (ANTH 460H/BIOL 460H), that is identical to 460 but with an additional class period each week involving additional written and presentational assignments and term projects, along with the regular 460 exams, that combine to determine the final grade. Total enrollment is capped at about 100 students.

Effective: Fall 2011
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 460H (BIOL 460H) Human Genetics (4) Gene mapping in humans; molecular basis of genetic disease; genomic structure; immunogenetics; and genetic evidence for human evolutionary history.

ANTH (BIOL) 460H Human Genetics (4)
Students will explore interesting normal or pathological variation to understand first its biological nature, then its epidemiological distribution, genes and genetic mechanisms associated with the trait, phylogenetic origins or comparison, and the nature of relevant genotype-phenotype relationships. Alternatively, students may explore methods for identifying and characterizing gene action or structure, or historical subjects related to human variation and evolution. Ethical and societal aspects of these issues will be considered as well. Time will be taken for faculty or students to read and present current important papers appearing in the literature, relevant to the current course topics. As an Honors course, we will have the time, and the students the dedication, to pursue the chosen topic(s) in much greater and more rigorous detail than is possible in the usual lecture or even seminar course format of Human Genetics 460 which, while presenting material at a sophisticated level, will not have time to explore the more subtle, problematic, or challenging aspects. The students who enroll for this course will be given a description of the approach and the intended general topic, on a course web page or by email when the instructor learns they have registered. The nature of the course will be described including semester-specific themes or focus that will apply (if any). Requisite background reading will be identified so students will know what will be expected of them. Some prior reading will be assigned, so that we can begin the semester with a common basis in background. Students will be evaluated on the quality of their project work, including writing ability, presentation ability, and depth of thought. Several written assignments will be given and graded for content and expression quality. Although students will take regular Human Genetics 460 lectures, they may be given separate exams (corresponding to those given in the regular course) that will allow more freedom of expression than multiple-choice exams or homework assignments. Depending on the workload in any semester, there may be a separate written take home synthetic essay final exam. The Honors session each week will be highly interactive rather than passive, and students will be graded on attendance, participation and whether they have done assigned work in advance of the class. Students will be expected to have the stipulated background knowledge of biological anthropology, evolutionary biology, statistics and genetics. This course should count as 4 credits toward additional courses in biological anthropology required for the Anthropology major.

ANTH 461 Molecular Anthropology (3) Provides framework to understand current issues in biology, genetics, and anthropology as they relate to the evolution of our species.

ANTH 461 Molecular Anthropology (3)
The aim of this course is to provide students with the framework to understand current issues in biology, genetics, and anthropology as they relate to the evolution of our species. Basic methods in molecular biology, structure of the genome, molecular evolution, and human population genetics will be covered in the first part of the course. Once these tools are in place we will examine both classical and contemporary research reports on a number of topics, including the place of humans among the apes; mitochondrial Eve, DNA in forensics; Neandertal DNA and other applications of ancient DNA; reconstructing recent human evolution’ the biological meaning of race; disease gene mapping; recent technological advances in genomics; skin, hair, and eye color genes; and the genetic future of our species. There will be three exams that will each count for 25% of the grade. Attendance and participation are mandatory and will count for 25% of the final grade. A portion of this participation grade is earned by presenting 10 min. summaries of particular readings. Each student will be expected to summarize a scientific paper four times during the semester. These summaries are not expected to be exhaustive reports on the material, but should reflect an effort on the part of the student to understand and discuss the material and may require some background work.

General Education: None
Diversity: None
ANTH 463 Quantitative Analysis of Morphological Data (3)
The application of morphometric methods to anthropological data: phenotypes of organisms, artifacts, and traits.

ANTH 463 Quantitative Analysis of Morphological Data (3)
This course will focus on morphometric data and methods in place of traditional statistical approaches to anthropological data sets. Morphometrics, the fusion of biology and geometry, includes various methods for the statistical analysis of shape and shape change. A large number of specialized methods have been developed. Students need to be informed about these methods so that they can critically evaluate the literature and conduct morphometric studies themselves. The course will introduce students to the field of morphometrics and provide practical training so that they can conduct independent laboratory research on morphology. The format of the course will be lecture, discussion and laboratory work. Students will be required to attend all class meetings, lead discussions and prepare a final project involving the analysis of a data set that they have collected and analyzed. The course will cover problem formulation, data collection and analysis. Problem formulation (week 1) will focus on the types of questions that can and cannot be answered by the application of morphometric methods. Formulation of a research question and determination of the morphological data that bear on the question will be covered in a lecture and discussion format. Data collection will be presented (weeks 2 and 3) and demonstrated. The primary type of data that will be discussed is landmark data and the students will be directed in how to collect landmark data directly from specimens using digitizers and indirectly using digital images of specimens. Measurement error will be presented. The following weeks will focus on specific analytical methods used in morphometrics. These include: D'Arcy Thompson grids, traditional morphometrics, allometry, Procrustes analysis, Fourier analysis, Eigenshape analysis, finite-element scaling analysis, and thin-plate splines. Approximately one week will be spent on each method. Students will fill the remaining sessions with presentations. These presentations will include a report of the analysis of data sets that the students have collected and analyzed using methods studied during the course. This course may be used to fulfill a 400-level 3 credit elective for the Anthropology major or minor.

ANTH 465H Fifteen Great Biology Papers (3)
Reading and discussion of the most influential papers in the history of biology that illustrate exceptional insight and elegant reasoning.

ANTH 465H Fifteen Great Biology Papers (3)
Thousands of papers are published annually in the life sciences, but only a few have lasting impact on their field. These are usually characterized by elegant and thoughtful insight, and creative scientific thinking. For each of the fourteen weeks of the semester we will read and discuss a landmark paper of this type. The 15th paper? That will be the student's term project. The student will read one classic paper in the history of biological thought each week and discuss the paper in class. During the last half of each class in last third of the semester, the students will present the classics they have chosen for their term paper. The major topics covered in this course are: Weeks 1-4: Basic history of thought about origin and nature of variation in living organisms Weeks 5-8: Landmarks in the philosophy of science Weeks 9-12: History and development of ideas in evolutionary biology. Weeks 13-14: Foundations of 20th Century biology The objective of this course is to give students an experience with and appreciation for (1) the history and origins of science, biology in particular, (2) the nature of cogent critical thinking and expression, (3) the basis for fundamental ideas in biology today, (4) a sense of the nature of papers that had great influence on the future of the field, and (5) experience scouting, choosing, evaluating, and writing about papers of this nature. Evaluation will be based on class attendance and participation, critical thinking ability and effort as manifest in class, and a term paper (graded also to include quality of writing and research.) This course is generally related to all life science courses, and relevant to social and other sciences, philosophy, and history. This course can fulfill elective credits for Anthropology majors and minors.

ANTH 466 The Skull (3)
Survey of the mammalian skull from many perspectives including evolution, anatomy, function, and variability of the skull.

ANTH 466 The Skull (3)
This course will provide a survey of what is known about the Mammalian skull from many perspectives including evolution,
development, anatomy, function, and variability of the skull. The course will consist of lectures and a laboratory component. Students will learn about the basic skull architecture and be introduced to various specializations of extinct and extant species. The section on evolution will cover the evolution of the skull from the earliest jawless vertebrates through human evolution. During the section on development, we will discuss the nature of the formation of bone embryologically. Other topics include the ways in which bone changes shape and size during prenatal and postnatal growth, how changes in growth can result in evolutionary change in morphology. The section on the function of bone will focus on biomechanical interpretations of the morphology of the skull. The lectures will focus on human anatomy but provide contrasts with other mammals (e.g., horse, dog, mouse). The last section on variability will survey the major groups of mammals highlighting similarities and differences in bone architecture and skull morphology. This portion of the course will be more laboratory-based with students examining specimens, taking measurements and leading discussions on hypotheses regarding why skull architecture is so different among mammals. The objective of this course is to provide the student with a broad survey of information relating to the mammalian skull. Through assigned readings and lectures the student will become familiar with salient anatomical and osteological features, obvious differences in skull architecture and the various biological processes responsible for these differences. During the final laboratory part of the course the students will bring their knowledge to an assigned problem and specimen in order to apply what they have learned to a scientific question. Students will be required to attend all lectures and laboratories. Periodic quizzes will be administered as well as an exam at midterm. A paper that focuses on the student’s laboratory experience will be required at the completion of the course.

ANTH 470H Our Place in Nature (3) An evolutionary and genetic consideration of our understanding of human beings as a part of the natural world.

ANTH 470H Our Place in Nature (3)

The title "Our Place in Nature" takes off from T.H. Huxley's famous book in 1863 that put humans in rather than outside of nature, and the idea of the course is to place humans in the context of organic evolution both specifically and as a kind of general "model" organism (for example, genomic, phylogenetic, and comparative perspectives will be included). We will take a theme (one or more related topics, depending on enrollment, timeliness, etc.), which students will be assigned to work on singly or in groups. We'll first read from the historical, comparative, and evolutionary literature to see how "Our Place in Nature", relative to that theme, was first argued. Then we will follow the literature in evolutionary, developmental and genetic biology to the present to see how our current understanding of the trait evolved. Current research, especially on developmental and genetic aspects of the trait, will be examined in depth. We'll pay special attention to research strategies, comparative and genomic approaches, and latent working assumptions that help or hinder our explanations. The sociocultural context will be considered throughout, including the implications for society of our changing scientific assessment of the trait.

As an Honors course, we will have the time, and the students the dedication, to pursue the chosen topic(s) in much greater and more rigorous detail than is possible in the usual lecture or even seminar course formats. The students who enroll for this course will be given a description of the approach and the intended general topic, on a course web page or by email when I learn they have registered. Requisite background reading will be identified so students will know what will be expected of them. Some prior reading will be assigned, so that we can begin the semester with a common basis in background. The course will assume the level of knowledge such as can be obtained in one of several recent "Evolution" texts, an understanding of modern genetics and genetic methodology, basic statistics, and a general work on the history and philosophy of science and evolutionary thinking (initially, probably J.A. Moore's Science as a Way of Knowing). This substantial background requirement is based on this being an upper-level class; for good students to get what good students deserve at a good university, we need to be able to start at a high level.

Evaluation will stress original synthetic thought and investigation rather than memorized factual recapitulation. Work groups will tackle particular problems, present them, and turn in written products. There will be a written take-home synthetic essay exam. There will be other written assignments summarizing assigned reading or topics to keep students on track. The class will generally be based on oral discussion and/or be run in Socratic Q&A format. Evaluation will include a major component related to attendance and to level and quality of in-class participation, acquired knowledge and quality of thought and communication. This course will build on, and incorporate, knowledge acquired in physical anthropology, evolutionary biology, statistics, and genetics courses and will count as 3 credits toward the additional courses in biological anthropology required for the Anthropology major.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

ANTH 471H Biology, Evolution, and Society (3) Exploration of the genetic theory of evolution and development, its history and application within Biology and beyond.

The Pennsylvania State University
This will be a reading, discussion, and exploration course that looks at the way theory about the nature of life and its origins and diversity have developed over time into today’s evolutionary theory. The course will examine the Darwinian theory, and then new elements that recent biological research have revealed about the nature of biological traits themselves and how genes produce them. These points were not part of evolutionary theory itself, but are an important supplement that could not have been made before results from the last 20 years have been available. A theory can be called a cosmology when its assumptions go beyond hypotheses to be tested, to become assumptions that are no longer under test but are used to devise future research and that then set the directions of science. This includes, but isn’t restricted to the kind of cosmology that deals with life space. We have to use theory to order our work and to anticipate what we have not yet found (for example, that newly discovered species will be related to other known species). But in the case of biology, a modern ‘biocosmology’ has developed steadily since Darwin, increasingly centered on molecular genetics and genes as the ultimate units of biological causation. Sometimes that theory has become so unquestioned as to impair research and even to be somewhat misleading. Elements of biological theory, such as natural selection, are powerful, and are being borrowed by physicists and astronomers (a reverse of the borrowing that occurred in the last century), to account for aspects of the physical universe in explicit evolutionary terms (including natural selection). For somewhat similar reasons, also having to do with the role of science in society, modern biocosmology has routinely been extended to apply to sociopolitical issues, such as economic and educational policy, science funding decisions, and views about socially delicate issues such as behavior, sexuality, talents and abilities, and much else. This course will discuss how the modern theory of life has arisen historically and the evidence and research methods that have been used to develop that theory. A view of biological theory as a broader cosmology leads to the additional consideration of the nature of biological causation as a statistical rather than purely deterministic phenomenon, and the kinds of research approaches that are used to understand biological problems. The latter include the engineering of organisms, the health sciences, and the nature, evolution, and biological basis of behavior. The objective of this course is to give students a broad understanding of the evolutionary and genetic theory of life and a broader view of the way that theory extends to areas not yet understood, as well as to its origins in and relevance to human society. Everyone is familiar with Darwin’s basic theory that life is historical and evolves via natural selection, and that genes are the basis of it all. But these ideas are often only superficially understood—sometimes even by biologists—and many clearly central aspects of life have been left out of the Darwinian theory. That theory explains how organisms evolve, but not what evolves or how genes make those traits possible. These are topics in gene function and developmental mechanisms. Along with some modifications to Darwin’s ideas, largely involving elements of chance and population structure and ecology, the genetic theory evolution can be augmented by a few simple organizing principles to explain the nature of traits and flesh out a more comprehensive understanding of life. These principles are in daily use in research but it will be helpful for students to have them organized into a synthetic framework placed explicitly within evolutionary theory itself. This course will be generally related to all life science courses, and relevant to social and other sciences, philosophy, and history. But it is not tied to any particular other course, and as a kind of overview of the governing notions of life at the onset of the 21st century, complements the education of anyone in these related fields. This course will be of interest to students who have or will take courses in astrobiology, developmental biology, evolutionary biology and/or population genetics, or anthropological genetics and human evolution. The grade will be based on attendance and participation. Reading and/or research of some kind will be assigned most weeks, with students responsible for oral reporting or writing brief descriptions of what they have found. There will be a term paper or project, but no formal exams.

ANTH 476W Anthropology of Gender (3) Cross-cultural construction of gender and sex roles; theories of gender construction; case studies and practical effects.

ANTH 476W Anthropology of Gender (3)

Students will learn the current theoretical approaches in anthropology to the cultural construction of gender and sex roles. The first 2-3 weeks of the course will concentrate on exploring and understanding these theoretical approaches. The remaining weeks will focus on case studies of non-western gender systems, and on the practical effects of those systems, but students will also be encouraged to relate these systems to their own experience. Each meeting will be based on discussion of the readings assigned for that meeting and students will be expected to participate. During the period devoted to theoretical approaches, discussion will focus on the assumptions, advantages, and disadvantages of each approach. For the part of the course devoted to readings on individual societies, one reading each week will be the basis for a critical essay of approximately five pages. These essays will be expected to include: 1) an identification of the theoretical approach that informs the work, 2) a statement of the author’s arguments or questions, 3) a discussion of the methods used to provide data in support of the arguments or to answer questions, 4) a critique of the adequacy of data, and 5) a statement suggesting which additional elements might make for a better study. These essays will be graded for both content and style and students will have the option of rewriting essays (and improving their grade) after they receive comments. These essays will provide 60% of the course grade, while participation in discussions will provide another 15%.

A short research paper will also be required. The paper must focus on a question or hypothesis concerning gender, and a preliminary proposal that includes the focus of the paper, its relevance to the course, and a beginning bibliography is required. A first draft of the paper will be required two weeks before the end of the semester. The research paper will provide 25% of the course grade.

The course complements other courses in Anthropology that deal with sex differences, but will provide a perspective on gender that is not available elsewhere in the curriculum. The course can be used to fulfill a Behavioral Anthropology requirement.
requirement in both the major and minor in Anthropology and a writing across the curriculum requirement. It will also provide students in other departments with the opportunity to study aspects of diverse, non-western cultures. The course is currently identified as one that may be taken to fulfill the requirements of the Women's Studies minor.

ANTH 477 Language, Culture, and Society (3) (US;IL)

Anthropologists have long acknowledged the importance of language as a major adaptive tool of the human species and as our principal means of transmitting culture. Indeed, it is often difficult to separate language, culture and society because of their intrinsic interrelatedness: language requires a social environment, while culture requires an efficient and expressive means of communication. This course will explore the relationship of language, culture and society, within an anthropological context that distinguishes it from the standard approach of linguistics courses. Linguistic anthropologists have focused on language as a way to make inferences about larger anthropological issues such as world view, semantic fields, the relationship between speech and socialization and the interaction of linguistic and social communities. The course will include a section on the structure of languages, emphasizing the similarities and differences in human languages and the expression of the general language code in particular languages. It will also deal with the origins of language and briefly explore language change, including contacts between members of different societies and the changes that those contacts entail. The major hypotheses concerning the relationship between language and culture will be assessed. Finally, a major part of the course will be devoted to the study of language and its social context, the ways in which speech is associated with social relations, how speech affects and is affected by social interaction. Students will gain an understanding of the importance of language in human adaptation and the transmission of culture and as a social marker both between and within social groups. Students will be evaluated through written exams, problem sets, contributions to class discussions and presentations. The course will provide 3 credits in the Major and Minor in Anthropology.

ANTH 478 Cannibalism (3) (IL)

Explores the cultural institution of cannibalism, uses of the "cannibal" label, and cannibalism's meaning among those who practiced it.

ANTH 492 Intermediate Field Methods (3-6)

On-site experience in collecting archaeological, behavioral, or biological data.

ANTH 493 Field Techniques (3-6)

Training in techniques involving analyses of archaeological, behavioral, or biological data.

APLNG 410 Teaching American English Pronunciation (3) Study and application of principles of North American English phonetics and theories of teaching pronunciation.

**APLNG 410 Teaching American English Pronunciation (3)**

- **(BA) This course meets the Bachelor of Arts degree requirements**

This course, for teachers who deal with speakers of other languages, integrates research and theory on the acquisition and development of pronunciation, as well as current pedagogy, to enable them to construct their own principled theory of teaching pronunciation. Students are introduced to the characteristics of the consonant and vowels systems of English. In addition, students are introduced to variations in the production of consonants and vowels by speakers of languages other than English. Students are expected to understand and to be able to describe the stress rhythm, and intonation of English as well as the adjustments that are made in connected speech. Students will learn how grammar and orthography influence the pronunciation of phonemes. Students will learn how to diagnose an individual's difficulties in the production of North American English and will learn how to develop appropriate curriculum. By focusing on instructional strategies from fields as diverse as theater arts, psychology, and instructional technology, students will be able to individualize their instruction by providing alternative ways to better respond to second language speakers' learning styles and preferences. Moreover, this course requires students to develop and implement appropriate curriculum for both hypothetical, real tutorial, and whole class instruction.

The objectives of this course are for teachers 1) to develop a satisfactory understanding of the phonetics of North American English, including consonants, vowels, rhythm, stress, intonation and prominence, 2) to develop an understanding of the relationship between listening and pronunciation, as well as orthography and pronunciation, 3) to develop an ability to explain these phonetic concepts appropriate to students with varying learning styles using a variety of techniques such as kinesthetic and tactile reinforcement, 4) to develop an ability to diagnose speakers' particular pronunciation difficulties and to create instructional materials in response, 5) to develop a coherent philosophy of the teaching of pronunciation, and 6) to develop an ability to evaluate pronunciation textbooks and materials and supplement them when necessary.

APLNG 412 Teaching Second Language Writing (3)

This course provides opportunities for exploring various perspectives on theory, research, and pedagogical applications in second language writing. Through readings, writing, class discussion, and development of practical applications, students may develop an understanding of how research and theory can inform their practice, as well as an awareness of how personal and professional factors come together to inform their own theory of second language writing. By engaging in instructional activities, such as evaluating writing, responding to writing, and developing materials, students may begin to develop an understanding of how to implement theory in practice aligned with understanding. The overriding objectives are for students to help develop self-awareness as a writer and a teacher of writing, develop their own philosophy of teaching composition in an additional language context and to develop curriculum that embodies this philosophy. Students will be evaluated on reading journals, tutoring in the Writing Center, literature review, materials development project and developing of materials. APLNG 412 is an elective course in the M.A. TESL program and/or PhD option in Applied Linguistics.

APLNG 482Y Introduction to Applied Linguistics (3)

This is a survey course concerned with the application of theories of language to issues in the areas of psycholinguistics, philosophy of language, anthropological linguistics, sociolinguistics, bi/multilingualism, second language acquisition and teaching. Specifically, the course focuses on: a) how language influences the way people think and bring meaning to what they do, b) how language users match their utterances to specific functional purposes within specific social contexts, c) how the language practices of a particular culture are closely tied to the beliefs and conceptual principles by which people in the culture live, d) how language is used by speakers of different races, genders, and ethnic backgrounds, and e) how language is acquired, used, and perceived within bi/multilingual societies. Through reading, writing, and discussing the major issues in each of these areas students will come to understand how theories of language have influenced the way we think and bring meaning to what we do, the ways we communicate within different cultures and societies, and the way languages are learned and used.

APLNG 484 Discourse-Functional Grammar (3)

Develop a working knowledge of the structure of English and apply such knowledge to research and/or classroom situations.

This course is designed to enable prospective and practicing ESL/EFL teachers to understand the linguistic structures of the English language. Through the use of transformation grammar, students will interpret and analyze the basic grammatical structures of the English language. Students will apply their developing skills of linguistic analysis to recognize, and analyze, and remediate both oral and written grammatical errors in ESL/EFL instructional contexts. Students will understand the current theoretical issues related to pedagogical grammars and develop an appreciation for the practical and theoretical relevance of linguistic analysis for second language educators.

APLNG 491 Theory: Second Language Acquisition (3) An investigation into current issues in the theoretical bases of second language acquisition.

APLNG 491 Theory: Second Language Acquisition (3)
This course considers the relationship between second language acquisition (SLA) theory and language teaching. An examination of various aspects of first language (l1) and second language (L2) learning/acquisition processes provides a framework for consideration of basic questions in SLA research and interpretation of findings to date. Of particular interest is the relationship of this research to teaching materials and methods. The questions addressed include the following: What is SLA? What are the methods and aims of SLA Research? How are theories of SLA related to major theoretical models of human language and human learning? What have been or could be important interdisciplinary perspectives in SLA?

APLNG 493 (IL) Teaching English as a Second Language (3) Theory, research, and pedagogy that focus on the teaching of English to speakers of other languages in varied contexts.

APLNG 493 Teaching English as a Second Language (3) (IL)
This course focuses on the teaching of English to speakers of other languages. Specifically, the course explores the multidimensional nature of the teacher as a learner of teaching, the context of schools and schooling within which teaching occurs, and the activities and content of second language teaching and learning.

Throughout the semester, students will engage in a range of theoretical, pedagogical, and reflective activities that will enable them to: 1) understand their own beliefs and knowledge about language learning and language teaching and become aware of the impact of such knowledge and beliefs on their classroom practices, 2) recognize the highly situated and interpretative processes involved in language teaching and be able to reflect on, critically analyze, and evaluate their own teaching practices, 3) become sensitive to the complex social, cultural, political, and institutional factors that affect language teaching and students’ language learning, 4) come to recognize students’ strengths and development as learners and language learners, 5) understand subject matter content from an instructional perspective and learn to anticipate areas that may require additional instructional support, 6) use their knowledge of theory to inform their instructional practices, 7) participate in professional collaborations with other teachers as they learn about language teachers, language teaching, and language learning.

Effective: Summer 2010

ARAB 002 Elementary Modern Standard Arabic II (4) Continuation of ARAB 001; development of additional skills in conversation, reading, and writing; grammar and vocabulary building; cultural components.

ARAB 002 Elementary Modern Standard Arabic II (4)
(BA) This course meets the Bachelor of Arts degree requirements.

This language and culture course, which counts towards the language requirement for B.A. (and some other) degrees, presents the second semester of the study of the Modern Standard Arabic language and an exploration of several aspects of Arab cultures.

Arabic 002 is the continuation of Arabic 001, an elementary course designed to introduce learners of Arabic as a second/foreign language to the basic structures of Arabic and to its uses in common situations of everyday communication. Arabic 002 begins with a review of the basics learned in Arabic 001, and, as in some sections of Arabic 001, the course may follow the story of an Arab American family. Arabic 002 expands on vocabulary, goes into more complex grammar structures, and further introduces Arab culture. The “multiplicity” of the Arabic language and the coexistence of spoken (colloquial) and written standard forms of Arabic continue to be addressed in order to prepare the student for the complex reality of the language. This course underscores all four communication skills (reading, speaking, listening and writing) and uses audio and video material to take the learner to native speakers in their natural environment; introducing invaluable listening segments and various cultural aspects of the Arab world. The course may also have recourse to popular media such as films, comics, newspaper headlines, websites, music, and songs. Students are reminded through their oral presentations that Arabic is spoken as an official language in 22 countries with diverse and rich historical, political, economical, religious, artistic, and literary venues, and Arabic is also used in many additional parts of the world. Class activities and projects are designed to enable students to become active, creative participants, and transmitters of new knowledge to their peers.

The course is designed for students who have completed Arabic 001 in Penn State’s language sequence or have the equivalent level of language proficiency. In turn, this course serves as a prerequisite for Arabic 003. Placement within the
Arabic language sequence follows the University's foreign language placement policy; for example, students whose native language is Arabic are not eligible to receive credit in this course.

ARAB 003 Intermediate Modern Standard Arabic (4) More complex grammatical forms; vocabulary building principles; continued development of skills in conversation, reading, writing; culturally-oriented readings and films.

ARAB 003 Intermediate Modern Standard Arabic (4)
(BA) This course meets the Bachelor of Arts degree requirements.

This language and culture course, which completes the 12th-credit-level language requirement for B.A. (and some other) degrees, presents the third semester of the study of the Modern Standard Arabic language and an exploration of several aspects of Arab cultures.

ARAB 003 is an intermediate course designed as a continuation of ARAB 002 and a basis for further study of Arabic as a second or foreign language. The course intends to alert students to the wealth and intricacies involved in learning the Arabic language and its many cultures. In addition to being the official language of 22 countries, with great ancient civilizations, complex modern histories, and intense political situations, Arabic is also the language of the Islamic religion; the language of a booming music and film industry, and the language of a significant body of literature. The multiplicity of the Arabic language, as well as the coexistence of colloquial and modern standard Arabic, is addressed in this course. The course emphasizes all four communication skills (reading, speaking, listening and writing). Vocabulary and grammar are expanded. Students become involved in the Arabic language and its cultures through various activities, which may be designed around a serialized and audio-visually enhanced story set in an Arabic environment, as well as through an oral report presented in class. The course may use popular media such as films, comics, newspaper articles, music, websites, and songs. Themes relating to contemporary experience are treated, such as relationships with family members and friends, the decision to immigrate, daily life within a residence, how a child of an Arab immigrant feels, the cultural importance of hospitality, and the month of Ramadan.

The course is designed for students who have completed ARAB 002 in Penn State's language sequence or have the equivalent level of language proficiency. In turn, ARAB 003 course serves as a prerequisite for ARAB 110. Placement within the Arabic language sequence follows the University's foreign language placement policy; for example, students whose native language is Arabic are not eligible to receive credit in this course.

ARAB 110 (GH;IL) Arab Language, Cultures, and Current Topics (3)  
Fourth-semester Modern Standard Arabic: study of cultures through authentic discourse, texts, film; development of reading, writing, listening, speaking skills.

ARAB 110 Arab Language, Cultures, and Current Topics (3)  
(BA) This course meets the Bachelor of Arts degree requirements.

This language and culture course, which fulfills the Humanities or the International Cultures requirement within General Education or the Other Cultures requirement within the Bachelor of Arts degree, will offer a continuation of the study of the Modern Standard Arabic language and an exploration of several aspects of Arabic cultures, such as the religious and cultural traditions of the month of Ramadan, the differences between American and Arab relationships, preparing for a trip to the Middle East, and an introduction and brief exposition of the Palestinian problem. The course is designed for students who have completed ARAB 003 in our language sequence or have the equivalent level of language proficiency. Students will develop listening, reading, writing, and speaking skills, and will be introduced to a range of Arabic cultures and encouraged to see both commonalities and differences among them. The material is always presented through culturally rich texts. The course offers opportunities for students to increase their knowledge and appreciation of not only the language, in its Modern Standard form, but also the varieties of cultural production in the Arabic-speaking world, in their many facets and diverse manifestations. Along with continuation of language learning, students are exposed to Web sites, film, music, comics, literature etc. Students’ assignments use a combination of reading, writing, listening, and researching skills. Students often work in groups, performing oral and written class activities. This course serves as a prerequisite for ARAB 401.

ARAB 401 (IL) Advanced Language & Cultures I (3) Fifth-semester Modern Standard Arabic: reading more complex texts, films, further development of conversation, composition skills, Arab cultures, current issues.

The Pennsylvania State University
ARAB 401 Advanced Language & Cultures I (3)
(IL)

(BA) This course meets the Bachelor of Arts degree requirement.

This language and culture course, which fulfills International Cultures requirement or the Other Cultures requirement within the Bachelor of Arts degree, will offer a continuation of the study of the Modern Standard Arabic language and an exploration of several aspects of Arab cultures. Language skills (reading, writing, speaking, listening) are further developed through the exploration of several culturally important themes that illustrate a range of cultural situations and contexts. Among the themes that may be discussed are the following: new opportunities and also persistent problems facing Arab youth; social and economic conditions in which fundamentalist and other groups present their agendas; the condition of women and the pressures often exerted by society's norms and traditions to keep women out of the public scene; cultural, emotional, and literary reactions to the tragedy of displaced peoples; Islam and other religions among Arab cultures; love and the images and symbolism used to describe it; the writings of one or more well-known authors, including the evolution within the works of the author(s) and the influence of these writings on Arab thought; Arabic cultures in various parts of the world, including the U.S. All themes are presented in the target language and represent a wide range of Arabic culture and current issues. The course may also involve popular media such as comics, newspaper headlines, music and songs, and a visit to the library. Class activities and projects are designed to enable students to become active and creative participants and transmitters of new knowledge to their peers. Students will be asked to conduct research using authentic material, and to write a short paper in Arabic as a wrap up of their final presentation.

ARAB 402 Advanced Language & Cultures II (3)
(IL)

(BA) This course meets the Bachelor of Arts degree requirements.

This language and culture course, which fulfills the Humanities or the International Cultures requirement within General Education or the Other Cultures requirement within the Bachelor of Arts degree, will build upon previous courses in the Arabic curriculum and offer a continuation of the study of the Modern Standard Arabic language, an exploration of several aspects of Arab culture in a range of contexts, and the exploration of current issues and topics of interest in Middle Eastern media. Among the themes that may be discussed are the following: the achievements of Arab Nobel Prize winners, holiday traditions, colloquial Arabic, love, social and economic conditions of the poor and the middle-class, practical and psychological problems arising from belonging to a certain social class, ways in which the state (in different countries) relates to the needs of the people, Arab cultures in various parts of the world including the U.S., and a variety of the most recent social and political newspaper and magazine articles.

All themes are presented in the target language and represent a wide range of Arabic culture and current issues. The course may also involve popular media via the reading of comics, relevant headlines, music and songs, and computer practice for students to learn how to type in Arabic and benefit from available resources to equip students with this useful Arabic tool. Class activities and projects are designed to enable students to become active and creative participants and transmitters of new knowledge to their peers. Themes will often be examined comparatively and will draw on students' personal experience to connect with the material presented.

The course is designed for students who have completed Arabic 401 in our language sequence or have the equivalent level of language proficiency.

At University Park the course will be offered every semester or every other semester, according to enrollment patterns and the availability of staff. At other locations, course-offering patterns will be determined by their needs.

A E 124S Architectural Engineering Orientation (1) Introduction to architectural engineering; lectures and discussions with special reference to the relation of architectural engineering to the building industry.

A E 124S Architectural Engineering Orientation (1) (FYS)

This course is designed to help students decide whether they do or do not want to major in Architectural Engineering. It has four major goals. The first is to introduce the role of the architectural engineer in the building industry. The second is to introduce the concepts of integrated building systems design and construction management. The third is to familiarize students with the Architectural Engineering curriculum, department facilities, and faculty. The fourth and final goal is to develop an awareness and interest in the periodicals and publications related to buildings.

This course will provide students with access to the regular faculty of the program, a feature that continues throughout the students' 5 year career in Architectural Engineering. Students and faculty will be connected through discussion of topics related to the building industry and the areas that future A E students will be studying. Since this program operates under enrollment control, this course will address entrance to the major, the requirements placed on the freshman year, and the selection process. Additionally, special features of the program will be discussed, including option selection, which takes place after 3 years, the study abroad program at the University of Leeds, and the integrated graduate/undergraduate program.

Depending upon the semester in which the course is taken, students will be provided with either an opportunity to participate in the annual A E Career Fair or the 5th year thesis presentations. Students will take field trips to buildings and construction sites on campus to reinforce the material learned in class. As a result of this class, all students should be better prepared to make a decision as to whether or not the wish to apply for this major at the end of their first year.

A E 202 Introduction to Architectural Engineering Concepts (3) Introduction to profession of architectural engineering, building envelope systems, sustainable design, fire protection systems, and engineering economics.

A E 202 Introduction to Architectural Engineering Concepts (3)

As the first course after students are admitted into the major, A E 202 is designed to expose students to two aspects the
The interdisciplinary nature of architectural engineering and the concept of professional practice.

Technical areas of focus chosen for this course are building envelope and fire protection. These disciplines of architectural engineering require students to sufficiently understand the application of a number of disciplines in the creation of successful and integrated solutions. Students will learn to integrate architectural design and detailing, structural analysis and design, the influence of thermal science, construction processes and building codes in the proper execution of the design of specific building systems.

Social and environmental responsibility will be introduced through the discussion of sustainable design. Understanding the Greed design concepts and the LEED certification system provides the practical basis for the students to put idealism to work.

Early exposure to professional practice and engineering economics provides students with a framework of understanding to manage the relationships of the myriad of technical courses. This course is designed to provide students an appreciation that the practice of architectural engineering includes proper executions of business and management practices. Students will also learn to analyze design options based on economic factors.

The course utilizes lectures, practicums, examinations, projects and presentations to deliver and reinforce the technical content. The course offers students opportunity to work in team settings and to present their work orally to their peers. The broad coverage of the technical and social issues and professional skills intentionally involves students early in their education to all the ABET educational outcomes. The projects present opportunities to engage students in discussion and application of social and ethnical responsibilities.

The course is open to architectural engineering students in the second year with an ENGAE standing. Students in other curricula may enroll in this course with prior approval of the program.

A E 211 Introduction to Environmental Control Systems (3) Qualitative study of humans in macro- and micro-architectural environmental systems. This course is intended for Architecture students.

A E 211 introduces Architectural students to building thermal environmental and building mechanical issues. Thermal environmental issues include: thermal comfort, natural environmental impacts, heat transfer through the building envelop, heating and cooling design, noise and vibration of mechanical systems, and building energy consumption. Building mechanical system issues include: heating, ventilating and air-conditioning systems. Emphasis is placed on building design in response to the technical, environmental and societal challenges, with a focus on sustainable design principles and guidelines applied to mechanical systems.

The course utilizes lectures, practicums, examinations, projects and presentations to deliver and reinforce the technical content. The course offers students opportunity to work in team setting and to present their work orally to their peers. The broad coverage of the technical and social issues and professional skills challenges the architecture students to incorporate technical issues as an integral part of the overall building design.

The course is required for students enrolled in the undergraduate architecture program. The course is not available to
architectural engineering students.

A E 221 Architectural Building Materials (3) The structural and architectural use of building materials; commercial standardization, classification, and description as encountered in the building trades.

The course objective is for students to understand building materials and methods. It is taught using a combination of these methods, 1) job site visits to current construction projects on campus, 2) guest speakers from manufacturers, engineering firms, building code organizations, construction managers and contractors, 3) video series of building construction, and other various DVD's, 4) visits to local building suppliers and testing facilities, 5) bus trip to several manufacturing, fabrication, milling plants, 6) hands-on mock-ups of construction assemblies, and 7) actual material samples. This course prepares students for further study in the advanced architectural engineering courses. Student evaluation and individual grades are based on a combination of homework, projects, quizzes, attendance and a final cumulative exam. The major part of the final grade is from six (6) quizzes of which the lowest quiz grade is dropped. Special facilities consist of 1) the drafting room, where various drawings and specifications are utilized to understand materials, 2) the computer lab, where students have access to the internet, which provides them with information from manufacturers, suppliers and construction trade organizations, 3) the material samples room, where actual material samples and fasteners are examined and understood, 4) the hands-on mock-up room, where true size mock-ups are built by student groups and 5) the structures testing lab, where concrete beams, wood trusses, etc. built by the students are load tested to understand construction methods and failures.

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A E 222 Working Drawings (3) Materials and methods of construction used in residences, and preparation of working drawings for a small building.

The course objective is for students to understand construction documents, communicate construction information with sketches and to create drawings and specifications. The course is organized around a series of modules related to working drawings. These modules consist of: 1) reading and interpreting construction documents, 2) hand drawn sketches, from existing mock-ups, from existing drawings, from assigned details of existing campus buildings, from only given material and connection parameters, 3) CAD drawings of plans, elevations, wall sections, building sections, details, schedules. The final partial construction documents will be in accordance to CAD standards and various codes, including zoning, International Building Code, ADA, etc. This course prepares students for further study in the advanced architectural engineering courses. Student evaluation and individual grades are based on a combination of homework, projects, in class assignments, exams, quizzes and attendance. In class assignments are generally short and given to demonstrate a concept or as practice. Special facilities consist of: 1) the drafting room, where various drawings and specifications are utilized and where students prepare sketches, 2) the computer lab, where students have access to computer aided design software, presentation software and communication software, 3) the material samples room, where actual material samples and fasteners are examined and understood and 4) the hands-on mock-up room, where true size mock-ups that represent the students drawings are built by student groups.

A E 308 Introduction to Structural Analysis (4) Algebraic and graphical methods of analysis of determinate members, deflections; introduction to indeterminate analysis methods. Course includes practicums.

A E 308 Introduction to Structural Analysis (4)

In this introductory course, students develop skills to perform analysis of structures, with emphasis on buildings and their structural elements. The objectives of this course are as follows: 1) to determine loads that the buildings/structural elements are likely to be subjected to during the lifetime of the building; 2) to discuss procedures used to determine reactions and internal forces in trusses, beams, and frames; 3) to introduce methods that can be used to calculate deflections. These objectives can be seen as three general steps that define structural analysis. Although the main emphasis in this course is the analysis of planar, statically determinate structures, an introduction to the analysis of indeterminate structures is also given. The course is required to be taken by all architectural engineering undergraduate students in the third year. A knowledge of statics and strength of materials is required and this course serves as prerequisite for steel and concrete design courses in the Architectural Engineering Program.

A E 309 Architectural Acoustics (3) Acoustical design for good hearing conditions and noise control; construction details, materials, acoustical properties of room shapes; sound absorption, transmission. Course includes practicums.

A E 309 Architectural Acoustics (3)

Architectural acoustics encompasses four distinct areas of study: room acoustics, sound isolation, mechanical system noise and vibration and sound reinforcement. The course concentrates on the performance of the building components as they impact on the acoustical environment. The goal of good acoustical design is to provide an environment to afford occupants of a building a high quality listening environment and to minimize intrusion by offending noises. By manipulation of building materials, spatial relationships and geometry, the students learn to improve acoustical performance of a building.

Through lectures, practicums, projects, tours to campus performance venues and examinations, the concepts of acoustical design are delivered and reinforced. The course offers students opportunity to work in team settings and to present their work orally to their peers.

The course is required for all architectural engineering students, typically taken in the 3rd-year. Physics 213 is a prerequisite for this course. This course is a prerequisite for Advance Architectural Acoustics and Noise Control. Students not in the architectural engineering curriculum are encouraged to consult with the instructor prior to enrolling in the course.

A E 310 Fundamentals of Heating, Ventilating, and Air Conditioning (3) Fundamental principles and engineering
procedures for the design of heating, ventilating, and air-conditioning systems, including energy utilization and constraints.

A E 310 Fundamentals of Heating, Ventilating, and Air Conditioning (3)

A E 310 explores the fundamentals of the heating, ventilating and air-conditioning (HVAC) systems that control environmental conditions inside buildings. HVAC systems have common basic components, although they may significantly differ in physical appearance and arrangement. The course considers a variety of HVAC systems and presents methods of analyzing air-conditioning processes.

HVAC systems maintain not only an acceptable level of thermal comfort within conditioned spaces, but also a healthy environment. Hence, the conditions for a comfortable and healthy indoor environment, such as physiological considerations, environmental indices, and control of indoor air quality are defined.

The design of a successful HVAC system requires an accurate estimate of the peak rate at which energy must be added to (heating load) or removed from (cooling load) a space. Therefore, the various types of heat transmission in buildings and methods for estimating them are discussed in order to prepare students to estimate buildings energy consumption and size HVAC systems properly.

The target audience is Architectural Engineering students at a junior level who have taken A E 202 "Introduction to Environmental Systems in Buildings," and M E 023 "Introduction to Thermal Science."

A E 401 Design of Steel and Wood Structures for Buildings (3) Application of principles of engineering mechanics to layout, analysis, design, and detailing of structural elements in steel and wood of simple buildings.

A E 401 is a first course in structural steel and wood design taken by all undergraduate Architectural Engineering students in the 6th or 7th semester. It applies the principles of engineering mechanics to layout, analysis, design, and detailing of structural steel elements. The course covers the principles of structural design, structural safety, structural stability, steel as a material, methods of structural steel design, design of tension members, design of columns, design of beams (flexure, shear, deflection, bearing, web crippling, web yielding), combined stresses (beam columns), fasteners/connections. It also treats wood design, including material characteristics, beam design, column design, and fasteners. After completion of the course students will be able to design simple wood and steel structures.

A E 402 Design of Concrete Structures for Buildings (3) Application of principles of engineering mechanics to layout, analysis, design, and detailing of structural elements in concrete of simple buildings.

This course is designed to provide all Architectural Engineering students with an ability to analyze and design reinforced concrete and an understanding of the theoretical behavior of reinforced concrete members. The primary focus is on the analysis and design of one-way systems comprised of slabs, beams, and columns. Evaluation methods include, but are not limited to, exams and homework assignments. A prerequisite knowledge of structural analysis is necessary. It is a required course in the Architectural Engineering curriculum. Additionally, this course provides the necessary prerequisite knowledge for several upper level concrete courses in both Civil and Architectural Engineering.

A E 403 Advanced Steel Design for Buildings (3) Continuation of A.E. 401. Advanced analysis, design, and detail of the structural elements in wood and steel.

A E 403 is designed for 4th year Architectural Engineering students in the structural option, to build on the design and analysis base developed in the first course in steel design. This course is intended to develop competency in analysis and design of multi-story steel buildings subjected to gravity, wind and earthquake loadings, including study of connections, framing systems, composite design and plastic design of steel members.

The course prerequisites include determinate and indeterminate analysis and structural design of steel members. It will cover such topics as types of construction, the design process, loading and load cases, floor systems, floor vibration, moment rotation characteristics of connections, plastic analysis, multi-story frames, braced and unbraced frames, seismic design, leaning columns, drift, composite design and connections.

A E 404 Building Structural Systems in Steel and Concrete (3) Basic analysis, design, and detailing of steel and concrete structural elements for buildings, emphasizing systems design and comparisons. A E 404 is not permitted for AE Structural Option students or for Architecture students.
A E 404 Building Structural Systems in Steel and Concrete (3)
The course is designed for architectural engineering students in the Construction, Mechanical Systems and Lighting/Electrical options to gain an ability to design simple building members in steel and concrete using current professional standards, specifications and guidelines. Students will learn to combine these members into simple structural systems and compare the performance and load carrying characteristics of these systems. The course will also address general performance parameters of these materials, construction issues and key systems-integration issues for beams, columns, flooring and roofing systems, and lateral bracing systems constructed in steel and concrete. This course is considered to be the terminal course for non-structural option AE students, and is designed to provide a general understanding of design, construction and integration issues that affect these structural systems. This course may be be taken by AE Structural Option students or Architecture students.

Architectural Structural Systems I (3)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 1990
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A E 422 Architectural Structural Systems II (3) Continuation of A E 421, with emphasis on structural configuration and construction assemblies.

Architectural Structural Systems II (3)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Spring 1990
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A E 424 Environmental Control Systems I (3) Fundamental principles and applications of environmental systems in buildings. This course is intended for Architecture students.

A E 424 Environmental Control Systems I (3)

This course is a complement to A E 211. Environmental control systems other than the thermal environmental systems are covered in this course. A E 424 introduces architecture students to building illumination, acoustical, fire protection, electrical and plumbing design issues. Emphasis is placed on building design as a response to the technical, environmental and societal challenges.

The course utilizes lectures, practicums, examinations, projects, presentations and field trips to deliver and reinforce the technical content. The course offers students opportunity to work in team settings and to present their work orally to their peers. The broad coverage of the technical and social issues and professional skills intentionally involves students in discussion and application of social and ethical responsibilities. The course is required for students enrolled in the undergraduate architecture program. A E 211 is a prerequisite for this course. The course is not available to architectural engineering students.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Fall 2005
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A E 430 Indeterminate Structures (3) Classical methods of analysis for beams, frames, arches, and secondary stresses as applied to buildings; introduction to modern methods.
Indeterminate Structures (3)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 1984
Prerequisite:

Note: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

A E 431 Advanced Concrete Design for Buildings (3)

This is the last course in reinforced concrete design in the Architectural Engineering curriculum, and builds on previously learned skills in reinforced concrete design and analysis of statically determinate and statically indeterminate systems. Successful students will come away with sufficient understanding of the theoretical basis of concrete design to be able to learn any further aspect of concrete design on their own, and a set of specific critical skills needed by any structural designer involved with reinforced concrete structures. These skills include:

- Identification of the assumptions and weakness of the theory of reinforced concrete members.
- Detailed design of reinforced concrete beams and girders.
- Design of reinforced concrete slabs by the direct design method.
- Design of reinforced concrete slabs by the equivalent frame method.
- Analysis of reinforced concrete members subjected to torsion, to determine bending and torsional moments.
- Design of reinforced concrete members subjected to torsion.
- Design of reinforced concrete columns, slender and non-slender.
- Design of reinforced concrete columns in biaxial bending.

This course is taught by a combination of lectures, solution of example problems, and design projects.

A E 432 Design of Masonry Structures (3) Analysis and design of unreinforced and reinforced masonry: non-bearing walls, bearing walls, shear walls, masonry building systems.

A E 432 Design of Masonry Structures (3)

This course is intended to prepare students in Architectural Engineering and related disciplines such as Civil Engineering and Agricultural and Biological Engineering to design load-bearing and non load-bearing masonry structures. Although the emphasis will be on reinforced masonry, the design of unreinforced masonry will also be covered. The course will begin with a discussion of the materials used in masonry construction: clay units, concrete units, mortars, grout, and reinforcement. Since masonry is designed by allowable stress methods, a discussion of allowable stress design, as compared to load and resistance factor design, is necessary from the outset. The first design applications to be discussed will be non load-bearing walls, reinforced and unreinforced. This will be followed by a brief coverage of the topic of columns. The next topic will be load-bearing walls, reinforced and unreinforced. The discussions of load-bearing walls will describe two methods for their design: the use of a straight-line interaction formula and the construction of interaction diagrams. The analysis of systems of shear walls will be described in detail, followed by shear wall design. The design of particular building systems, both low-rise and mid-rise will either be covered by lectures, or by other exercises.

A E 439 Modern Structural Systems (3) Analysis and design of building structures of unusual types.

Modern Structural Systems (3)

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Summer 1981
A E 444 Micro CADD Applications for Buildings (3) Application of microcomputer based CADD systems to architectural engineering problems including graphics, system customization, and AI programming techniques.

Micro CADD Applications for Buildings (3)

A E 454 Advanced Heating, Ventilating, and Air Conditioning (3) Engineering design and performance analysis procedures for complex commercial building systems, including energy conservation techniques; design project.

Advanced Heating, Ventilating, and Air Conditioning (3)

A E 455 Advanced Heating, Ventilating, and Air Conditioning System Design (3) Design of several different systems for a course project building; control strategy; economic comparisons using life-cycle cost techniques.

Advanced Heating, Ventilating, and Air Conditioning System Design (3)

A E 456 Solar Energy Building System Design (3) Solar radiation, collectors, and thermal storage; design and analysis of a heating system using system-simulation computer program.

Solar Energy Building System Design (3)

A E 457 HVAC Control Systems (3) Theory of automatic control. HVAC control applications. Control system components, control loops, development and documentation of control logic, control commissioning.

The objective of the course is to develop the knowledge and skills necessary to understand, design, document, and diagnose problems in HVAC control systems. The course builds on knowledge of HVAC system function and design obtained in prior courses in the curriculum and prepares students for advanced design courses and the capstone project. The course begins with an introduction to concepts and terminology of automatic control, followed by detailed study of control system components: sensors, controlled devices, and controllers. Understanding of these fundamentals is then applied to the development and documentation of controls for common HVAC systems and the commissioning of control systems. Relevant standard and guideline documents are referenced as necessary.

Solar Energy Building System Design (3)
**A E 458 Advanced Architectural Acoustics and Noise Control (3)**

Advanced consideration of noise control in buildings; ventilating system noise and vibration; acoustic design variables.

**A E 461 Architectural Illumination Systems & Design (3)**

Lighting units & photometry; lighting equipment; design criteria, calculation methods; the design process; energy codes.

**A E 464 Advanced Architectural Illumination Systems & Design (3)**

Flux transfer theory; advanced lighting and control systems; emergency lighting; daylighting; visual performance issues; psychological aspects of lighting.

**A E 466 Computer Aided Lighting Design (3)**

Design and analysis for outdoor area; floodlighting; and interior applications, including design criteria; economic analysis; modeling algorithms; and visualization.
either PowerPoint or submit in a short report format. Students, faculty and outside professionals critique the project
solutions. The critiques enhance the learning experience for all students through the evaluation of different lighting
solutions applied to the same design problem.

General Education: None
Diversity: None
Bachelor of Arts: None
Effective: Fall 2005
Prerequisite:

**Note**: Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details
check the specific course syllabus.

**A E 467 Advanced Building Electrical System Design (3)** Design of electrical systems for commercial and industrial facilities
emphasizing design practice and integration with codes and standards.

**Advanced Building Electrical System Design (3)**
