

University Bulletin

Undergraduate Degree Programs

Electrical Engineering (E E)

E E 351 Discrete-Time Linear Systems (3) Introduction to discrete-time signal processing: sampling, linear time-invariant systems, discrete-time Fourier transform and discrete Fourier transform, Z transform.

Discrete-Time Linear Systems (3)

General Education: None

Diversity: None

Bachelor of Arts: None

Effective: Summer 1998

Prerequisite: **E E**

[350/bulletins/bluebook/university_course_descriptions.cfm?letter=E&courselong=E E|350|latest](http://bulletins/bluebook/university_course_descriptions.cfm?letter=E&courselong=E E|350|latest)

Note : Class size, frequency of offering, and evaluation methods will vary by location and instructor. For these details check the specific course syllabus.

This is the official bulletin of The Pennsylvania State University. Programmatic expectations for General Education are those in effect at the time of admission to degree candidacy, and college and major requirements are those in effect at the time of entry to college and major. These are accurately indicated in each student's degree audit.

The University reserves the right to change the requirements and regulations listed here and to determine whether a student has satisfactorily met its requirements for admission or graduation, and to reject any applicant for any reason the University determines to be material to the applicant's qualifications to pursue higher education. Nothing in this material should be considered a guarantee that completion of a program and graduation from the University will result in employment.

The University Faculty Senate has responsibility for and authority over all academic information contained in the Undergraduate Bulletin.
