The MPS in Artificial Intelligence (MPS-AI) degree is a 33-credit online, interdisciplinary master's program that aims to prepare students to drive the design, development, and deployment of AI and machine learning (ML) products and services across a broad array of application domains to meet contemporary social and technical challenges. Graduates will work in positions that require them to identify and acquire datasets and design and prototype AI systems utilizing data mining, deep learning, neural networks, and collective intelligence using state-of-the-art toolsets and platforms.
