COMPUTER SCIENCE AND ENGINEERING

Graduate Program Head: Chita Das
Program Code: CSE
Campus(es): University Park (Ph.D., M.S., M.Eng.)
Degrees Conferred
- Doctor of Philosophy (Ph.D.)
- Master of Science (M.S.)
- Master of Engineering (M.Eng.)
- Dual-Title Ph.D., M.S., and M.Eng. in Computer Science and Engineering

The Graduate Faculty

View (https://secure.gradsch.psu.edu/gpms/?searchType=fac&prog=CSE)

The department offers courses and is prepared to direct research in a variety of subfields of computer science and engineering, including VLSI, computer architecture, parallel/distributed processors and processing, multiprocessors, interconnection networks, pattern recognition and image processing, performance evaluation, reliability, fault tolerance, theory of computation, computer systems, numerical analysis and optimization, programming methodology, and analysis of algorithms. Research and instruction are supported by extensive computing facilities within the University's Information Technology Services and by the computer laboratories operated by the department.

Admission Requirements

Applicants apply for admission to the program via the Graduate School application for admission (https://gradschool.psu.edu/graduate-admissions/how-to-apply/). Requirements listed here are in addition to Graduate Council policies listed under GCAC-300 Admissions Policies (https://gradschool.psu.edu/graduate-education-policies/).

All applicants must provide a statement of purpose, resume/CV, 3 letters of recommendation as well as original copies of transcripts, degree/ study certificates and/or diplomas, as appropriate. The Graduate Record Examinations (GRE) Aptitude Test (verbal, quantitative, and analytical) is required for all M.S. and M.Eng. applications. GRE scores are no longer required for doctoral applicants. Please review the CSE Graduate Admissions (https://www.eecs.psu.edu/students/graduate/EECS-How-to-apply-CSE.aspx) website for additional details.

The language of instruction at Penn State is English. English proficiency test scores (TOEFL/IELTS) may be required for international applicants. See GCAC-305 Admission Requirements for International Students (https://gradschool.psu.edu/graduate-education-policies/gcac-gcac-305/gcac-305-admission-requirements-international-students/) for more information.

For score reporting for TOEFL, the institution code is 2660.

International students seeking a Teaching Assistantship in Computer Science and Engineering will be required pass their AECOPT (https://aplng.la.psu.edu/programs/about-the-aecopt/exam) before being appointed as a Teaching Assistant.

Degree Requirements

Master of Engineering (M.Eng.)

Requirements listed here are in addition to Graduate Council policies listed under GCAC-700 Professional Degree Policies (https://gradschool.psu.edu/graduate-education-policies/).

A minimum of 30 credits at the 400, 500, or 800 level is required, with a minimum of 18 credits at the 500 or 800 level, and at least 6 credits at the 500 level.

Code | Title | Credits
--- | --- | ---
Fall Semester
CMSC 465 | Data Structures and Algorithms | 3
6 credits of the following: | 6
CMSC 443 | Introduction to Computer and Network Security | 3
& CMSC 431W and Database Management Systems | 3
CMPE 431 | Introduction to Computer Architecture & CMPE 472 and Microprocessors and Embedded Systems | 3
3 credits of the following: | 3
CSE 500 - CSE 589 | 3
CSE 597 | Special Topics | 3
Spring Semester
12 credits of the following: | 12
CSE 500 - CSE 589 | 3
CSE 597 | Special Topics | 3
Summer Semester
CSE 820 | Software & Hardware Project Management | 3
CSE 594 | Research Topics | 3
Total Credits | 30

The culminating experience for the program is a master's paper completed while the student is enrolled in CSE 594.

Master of Science (M.S.)

Requirements listed here are in addition to Graduate Council policies listed under GCAC-600 Research Degree Policies. (https://gradschool.psu.edu/graduate-education-policies/)

A minimum of 31 credits at the 400, 500, 600, or 800 level is required, with at least 18 credits at the 500 and 600 level, combined. Students may choose to complete a thesis or a scholarly paper. Students choosing to complete a thesis must complete at least 6 credits in thesis research (600 or 610). Students choosing to complete a scholarly paper must complete at least 18 credits in 500-level courses.

Code | Title | Credits
--- | --- | ---
Required Courses
15-18 credits of CSE courses with at least 15 credits of 500-level courses including any taken from the 9 credit breadth areas (thesis option); at least 18 credits of 500-level courses including any taken from the 9 credit breadth areas (non-thesis option); at most 9 credits of 400-level courses including any taken from the list below. | 15-18
9 credits with one course each in the following three breadth areas: algorithms (CMSC 465 or CSE 565), operating systems (CMSC 473 or CSE 511), and computer architecture (CMPE 431 or CSE 530). | 9
CMSC 465 | Data Structures and Algorithms | 3
or CSE 565 | Algorithm Design and Analysis | 3
Science or Computer Engineering must take a minimum of 21 credits, including:

- 9 credits of CSE courses (excluding CSE 596 and CSE 598)
- 6 credits of the following:
  - CSE 565 Algorithm Design and Analysis
  - CSE 511 Operating Systems Design
  - CSE 530 Fundamentals of Computer Architecture
- 15 credits of CSE courses (excluding CSE 596 and CSE 598)

Students who choose to complete a thesis must pass a thesis defense. The thesis must be accepted by the advisers and/or committee members, the head of the graduate program, and the Graduate School. If the student completes a scholarly paper, the paper must be accepted by the supervising faculty member(s) and the head of the graduate program. The scholarly paper is completed while the student is enrolled in CSE 594.

**Doctor of Philosophy (Ph.D.)**

Requirements listed here are in addition to Graduate Council policies listed under GCAC-600 Research Degree Policies. ([https://gradschool.psu.edu/graduate-education-policies/](https://gradschool.psu.edu/graduate-education-policies/))

Students applying for and gaining admittance to the Ph.D. program will not be permitted to switch to the master’s program at a later date, except under extenuating circumstances, at the discretion of the program.

To qualify for a Ph.D. degree, students who do not have an M.S. degree in Computer Science or Computer Engineering must take a minimum of 33 credits, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSE 590</td>
<td>Colloquium</td>
<td>1</td>
</tr>
<tr>
<td>CSE 591</td>
<td>Research Experience in Computer Science and</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Engineering</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits** 31

A student must pass the Ph.D. qualifying examination by the third regular semester after entering the program. After completion of most of the course work and meeting the English competency requirement, students must pass the Ph.D. comprehensive examination.

A dissertation must be completed under the direction of the Ph.D. committee and the results must be successfully defended in the final oral examination. To earn the Ph.D. degree, doctoral candidates must write a dissertation that is accepted by the Ph.D. committee, the head of the graduate program, and the Graduate School.

**Dual-Titles**

**Dual-Title M.Eng., M.S., and Ph.D. in Computer Science and Engineering and Operations Research**

Requirements listed here are in addition to requirements listed in GCAC-208 Dual-Title Graduate Degree Programs ([https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-200/gcac-208-dual-titles/](https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-200/gcac-208-dual-titles/)).

**Admissions Requirements**

Students must apply and be admitted to the graduate program in Computer Science and Engineering and The Graduate School before they can apply for admission to the dual-title degree program. After admission to their primary program, students must apply for admission to and meet the admissions requirements of the Operations Research dual-title program. Refer to the Admission Requirements section of the Operations Research Bulletin page. ([http://bulletins.psu.edu/graduate/programs/majors/operations-research/](http://bulletins.psu.edu/graduate/programs/majors/operations-research/)) Doctoral students must be admitted into the dual-title degree program in Operations Research prior to taking the qualifying examination in their primary graduate program.

**Degree Requirements**

To qualify for the dual-title degree, students must satisfy the degree requirements for the degree they are enrolled in Computer Science and Engineering, listed on the Degree Requirements tab. In addition, students must complete the degree requirements for the dual-title in Operations Research, listed on the Operations Research Bulletin page ([http://bulletins.psu.edu/graduate/programs/majors/operations-research/](http://bulletins.psu.edu/graduate/programs/majors/operations-research/)).

The qualifying examination committee for the dual-title Ph.D. degree will be composed of Graduate Faculty from Computer Science and Engineering and must include at least one Graduate Faculty member from the Operations Research program. Faculty members who hold appointments in both programs’ Graduate Faculty may serve in a combined role. There will be a single qualifying examination, containing elements of both Computer Science and Engineering and Operations Research. Dual-title graduate degree students may require an additional semester to fulfill requirements for both areas of study and, therefore, the qualifying examination may be delayed one semester beyond the normal period allowable.

In addition to the general Graduate Council requirements for Ph.D. committees ([http://gradschool.psu.edu/graduate-education-policies/](http://gradschool.psu.edu/graduate-education-policies/))
Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

## Minor
A graduate minor is available in any approved graduate major or dual-title program. The default requirements for a graduate minor are stated in Graduate Council policies listed under GCAC-600 Research Degree Policies (https://gradschool.psu.edu/graduate-education-policies/) and GCAC-700 Professional Degree Policies (https://gradschool.psu.edu/graduate-education-policies/), depending on the type of degree the student is pursuing:

- GCAC-611 Minor - Research Doctorate (https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-600/gcac-611-minor-research-doctorate/)
- GCAC-641 Minor - Research Master's (https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-600/gcac-641-minor-research-masters/)
- GCAC-709 Minor - Professional Doctorate (https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-700/gcac-709-professional-doctoral-minor/)
- GCAC-741 Minor - Professional Master's (https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-700/gcac-741-masters-minor-professional/)

## Student Aid
Graduate assistantships available to students in this program and other forms of student aid are described in the Tuition & Funding (https://gradschool.psu.edu/graduate-funding/) section of The Graduate School’s website. Students on graduate assistantships must adhere to the course load limits (https://gradschool.psu.edu/graduate-education-policies/gsad/gsad-900/gsad-901-graduate-assistants/) set by The Graduate School.

## Courses
Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.
