HEALTH POLICY AND ADMINISTRATION

Learning Outcomes

Master of Health Administration (m.H.A.)

- 1. Graduates will demonstrate a thorough understanding of the financing, organization, and delivery of health services, along with appropriate research methods.
- 2. Graduates will master the current literature on health policy, health administration, and related topics.
- 3. Graduates will complete an independent research project that significantly furthers knowledge in the field.
- Graduates will be able to effectively communicate arguments and ideas in oral presentations and written works.
- Graduates will demonstrate knowledge of professional standards in health policy and administration.

Master of Science (M.S.)

- KNOW: Define key conceptual, theoretical and empirical frameworks related to the field of health policy and administration.
- THINK: Recognize and interpret seminal and current theoretical and empirical literature in the field of health policy and administration.
- THINK: Describe and evaluate how analytical and empirical methods are used to answer research questions in the field of health policy and administration.
- 4. APPLY/CREATE: Assemble and summarize research related to a topic within the field of health policy and administration; propose a relevant and answerable research question and design a strategy to answer that question.
- APPLY/CREATE: Formulate, plan and execute an independent research project culminating in a thesis that contributes to the body of knowledge in the field of health policy and administration.
- COMMUNICATE: Describe and interpret the context, methods, results and conclusions of an independent research project in the form of a written thesis and oral defense.
- PROFESSIONAL PRACTICE: Demonstrate knowledge of professional standards and research integrity in the field of health policy and administration

Doctor of Philosophy (Ph.D.)

- KNOW: Define and explain key conceptual, theoretical and empirical frameworks related to the field of health policy and administration broadly and in a specialized or interdisciplinary area.
- 2. **THINK:** Interpret, appraise and critique seminal and current theoretical and empirical literature in the field of health policy and administration broadly and in a specialized or interdisciplinary area.
- THINK: Describe, differentiate, evaluate and apply analytical and empirical methods used to answer research questions in the field of health policy and administration broadly and in a specialized or interdisciplinary area.
- 4. APPLY/CREATE: Review and synthesize research related to one or more topics within a specialized field or interdisciplinary area of health policy and administration; identify areas within those topics where expanding the frontier of knowledge is valuable; propose a

- cohesive set of relevant and answerable research questions; design research strategies to answer those questions.
- APPLY/CREATE: Formulate, plan and execute an independent research project culminating in a dissertation that significantly furthers knowledge in a specialized field or interdisciplinary area of health policy and administration.
- 6. COMMUNICATE: Motivate, describe, interpret, and evaluate the context, methods, results, and conclusions of an independent research project in a specialized field or interdisciplinary area of health policy and administration in the form of a written dissertation and oral defense.
- 7. **PROFESSIONAL PRACTICE**: Demonstrate knowledge of professional standards and research integrity in the field of health policy and administration broadly and in a specialized or interdisciplinary area.
