The Graduate Faculty

The graduate programs offered in Hospitality Management (HM) are widely considered to be among the most competitive in the world. The research-focused M.S. and Ph.D. programs are primarily designed for students pursuing advanced research and academia. Students in these programs are expected to work closely together with faculty members who are leading researchers in their respective fields. These mentorships provide first-hand training on how to successfully conceive, design, conduct, and report forward-looking research, while simultaneously providing a comprehensive understanding of the classroom environment through a structured teaching development program.

The M.P.S. in Hospitality Management is a unique program of study designed for professionals aspiring to advance in the hospitality management and related careers. Careers in the global hospitality industry are rapidly changing and industry professionals are looking for ways to acquire new skills quickly and in a flexible format. The curriculum blends residential experiences in the School of Hospitality Management’s first-class facilities with streaming technologies, blended and effective formats, web residential MBA courses offered by the Smeal College of Business. The MPS in HM will also have an industry internship component enabling students to gain first-hand managerial experience in the field, where necessary.

In addition, other funding through the School partially supports graduate student travel and registration to leading conferences, as well as financial support with University-wide research competitions. Other funding opportunities also frequently exist for additional summer research, for varying lengths of time.

Students in the professional master's program may be eligible for financial aid, however, financial support is not guaranteed and is subject to the terms and conditions of the Tuition & Funding (https://gradschool.psu.edu/graduate-funding/) resources outlined on The Graduate School's website.
