INTEGRATED UNDERGRAD-GRAD PROGRAMS
INFORMATICSThe first two to three years of undergraduate course work follow the
same undergraduate curriculum that other students follow in the
Information Sciences and Technology major. Information Sciences and
Technology undergraduates may apply for admission to the IUG program
no earlier than February 15th of their sophomore year and no later than
February 15 of their junior year after completing a minimum of 60 credits,
if they meet the following admission requirements:

1. Must be enrolled in a College of IST undergraduate degree program.
2. Must have completed entrance to their undergraduate major and
   must have completed 60 credits of an IST undergraduate degree
   program. Transfer students must have completed at least 15 credits
   at Penn State to enroll in an IUG.
3. Must apply to the IUG program by February 15 of their junior year.
4. Must apply to and be accepted without reservation into
   the Graduate School and M.S. program in Informatics.
   Students must complete the Graduate School application
   (http://www.gradschool.psu.edu/apply/?
   CFID=4347157&CFTOKEN=809212809140639-22E9BF85-AF21-
   D9DA-933F3E90FB10EA0&jsessionid=84304e7b7ae255ec9a524e5b1e
   872518380)! Admission requirements for the M.S. in Informatics are listed on
   the Admission Requirements tab.
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate
   course work and a minimum GPA of 3.5 in all course work completed
   for the major.
6. Must present an approved plan of study. The plan should cover
   the entire time period of the integrated program, and it should be
   reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members.
8. Must meet with both the Director of Undergraduate Academic Affairs
   and the Graduate Program Coordinator to declare interest and receive
   information about the IUG program.

Students must fulfill all degree requirements for each degree in order
   to be awarded that degree, subject to the double-counting of credits
   as outlined below. Degree requirements for the Bachelor of Science in
   Information Sciences and Technology are listed in the Undergraduate
   Bulletin (http://bulletins.psu.edu/undergraduate/). Degree requirements
   for the Master of Science in Informatics degree are listed on the
   Degree Requirements tab. Students must sequence their courses so all
   undergraduate degree requirements are fulfilled before taking courses
   to count solely towards the graduate degree. Students are expected
   to complete the undergraduate degree requirements within the typical
time to degree for the undergraduate major. In the semester in which the
   undergraduate degree requirements will be completed, IUG students must
   apply to graduate, and the undergraduate degree should be conferred at
   the next appropriate Commencement. If students accepted into the IUG
   program are unable to complete the M.S. degree, they are still eligible
   to receive their undergraduate degree if all the undergraduate degree
   requirements have been satisfied.

Up to 12 credits may be double-counted towards the degree requirements
for both the graduate and undergraduate degrees; a minimum of 50% of
the double-counted courses must be at the 500 or 800 level. Independent
study courses and credits associated with the culminating experience for
the graduate degree cannot be double-counted. The required 3 credits of
IST 504 will apply to both the graduate program and the undergraduate
program. Students may choose an additional 9 credits to double-count
for both the undergraduate and graduate degrees from the following:

INTEGRATED B.S. in Security and Risk Analysis and M.S. in Informatics
Requirements listed here in addition to requirements listed in
GCAC-210 Integrated Undergraduate-Graduate (IUG) Degree Programs
(http://gradschool.psu.edu/graduate-education-policies/gcac/gcac-200/ gcac-210-integrated-undergraduate-graduate-degree-programs/).

The Integrated Undergraduate Graduate (IUG) program is available for
strong undergraduate students who wish to pursue a bachelor’s and
master’s degree in a shorter period of time than would be necessary if the
degrees were pursued separately.

Applicants apply for admission to the program via the Graduate School
application for admission (http://gradschool.psu.edu/prospective-
students/how-to-apply/). Requirements listed here in addition to
Graduate Council policies listed under GCAC-300 Admissions Policies
(http://gradschool.psu.edu/graduate-education-policies/).

The first two to three years of undergraduate course work follow the
same undergraduate curriculum that other students follow in the Security
and Risk Analysis major. Security and Risk Analysis undergraduates may
apply for admission to the IUG program no earlier than February 15th of
their sophomore year and no later than February 15 of their junior year
after completing a minimum of 60 credits, if they meet the following
admission requirements:

1. Must be enrolled in a College of IST undergraduate degree program.
2. Must have completed entrance to their undergraduate major and
   must have completed 60 credits of an IST undergraduate degree
   program. Transfer students must have completed at least 15 credits
   at Penn State to enroll in an IUG.
3. Must apply for admission to the IUG program no earlier than February 15th of their junior year.
4. Must be enrolled in a College of IST undergraduate degree program.
5. Must apply to the IUG program by February 15 of their junior year.
6. Must present two letters of recommendation from faculty members.
7. Must meet with both the Director of Undergraduate Academic Affairs
   and the Graduate Program Coordinator to declare interest and receive
   information about the IUG program.

Students must fulfill all degree requirements for each degree in order
   to be awarded that degree, subject to the double-counting of credits
   as outlined below. Degree requirements for the Bachelor of Science in
   Information Sciences and Technology are listed in the Undergraduate
   Bulletin (http://bulletins.psu.edu/undergraduate/). Degree requirements
   for the Master of Science in Informatics degree are listed on the
   Degree Requirements tab. Students must sequence their courses so all
   undergraduate degree requirements are fulfilled before taking courses
   to count solely towards the graduate degree. Students are expected
   to complete the undergraduate degree requirements within the typical
time to degree for the undergraduate major. In the semester in which the
   undergraduate degree requirements will be completed, IUG students must
   apply to graduate, and the undergraduate degree should be conferred at
   the next appropriate Commencement. If students accepted into the IUG
   program are unable to complete the M.S. degree, they are still eligible
   to receive their undergraduate degree if all the undergraduate degree
   requirements have been satisfied.

Students may choose an additional 9 credits to double-count
for both the undergraduate and graduate degrees from the following:
