

COMPUTATIONAL MATERIALS GRADUATE MINOR

Admission Requirements

Admission to the minor will require completion of a first core course in the minor, approval from the student's major Graduate Program Head/ Graduate Program Chair/Director of Graduate Studies or Professor-in-Charge, and submission of a minor plan of study (listing intended courses by semester and approved by the student's intended minor faculty dissertation committee member) submitted to the MATSE department graduate program coordinator. A form for the minor plan of study and its approval is available from the graduate minor program. Graduate students in good standing (with current graduate GPA at or above 3.0) who have approval and who have completed a minor core course with a grade of B or higher will be admitted to the minor.
