

# GENERAL INFORMATION

---

The seven General Information sections in the College of Medicine Bulletin are designed to give you an overview of the College of Medicine's structure, resources, and opportunities. In addition to the information found on the MD Program (<http://bulletins.psu.edu/medicine/md-program/>) and Physician Assistant Program (<http://bulletins.psu.edu/medicine/physician-assistant-program/>) pages in this Bulletin, the student handbooks include additional details about academic policies, calendars, and contacts.

Click on topics of interest below or the tabs to the right to explore different information areas. In addition, General Information sections can be accessed from any page in the Bulletin from the navigation bar.
