- Students enrolling from 2EET programs will generally follow the requirements for the associate degree during the first-year and second-year and then semesters 5 to 8.

**NOTE:** Following courses are offered only in semesters as listed below.

- Fall: EE 315, EET 311
- Spring: EET 331, EE 485, CMPE 401, CMPE 402, CMPE 403

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

### A.S. to B.S. General Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

GWS, GQ, GH, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GH, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ’C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Math electives include:

- MATH 230 (http://bulletins.psu.edu/undergrad/courses/M/MATH/230), MATH 250 (http://bulletins.psu.edu/undergrad/courses/M/MATH/250), MATH 408 (http://bulletins.psu.edu/undergrad/courses/M/MATH/408), MATH 411 (http://bulletins.psu.edu/undergrad/courses/M/MATH/411), MATH 444 (http://bulletins.psu.edu/undergrad/courses/M/MATH/444), MATH 446 (http://bulletins.psu.edu/undergrad/courses/M/MATH/446), STAT 200 (http://bulletins.psu.edu/undergrad/courses/S/STAT/200).

### GEET electives include:

### Electronics Elective:

Select 4 credits from: EET 402(4), EET 423(4), EET 431(4).

### System Elective:

Select 8 credits of technical electives from: EET 408(4), EET 409(4), EET 433(4).

### Career Paths

According to the U.S. Bureau of Labor Statistics, electrical engineering technologists work closely with electrical and electronics engineers and computer hardware engineers in the computer systems design services industry. Opportunities can be found in a variety of firms engaged in electronic manufacturing, industrial control, applications engineering, and in power utilities. EET graduates are encouraged to continue their professional development by taking the Fundamentals of Engineering Examination at the end of their senior year; the FE exam is a prerequisite for taking the Professional Engineering Examination.

### Accreditation

This program is accredited by the Engineering Technology Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Electrical Engineering, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description

The Bachelor of Science degree in Electrical Engineering provides a solid background in electrical engineering sciences. It also provides an opportunity for students to pursue interests in electrical and electronic circuits, including digital circuits and VLSI and its fabrication, microprocessors and their applications, electromagnetics, communications, control systems, and digital image processing and computer vision. Through participation in a senior capstone design, the curriculum emphasizes written as well as verbal communication and teamwork approach among the students to attain a common goal.

This program helps its graduates develop capabilities to analyze and design a variety of electrical and electronic systems found in many industrial and government settings as well as provide a foundation for further graduate studies. A strong background in the fundamentals is built through a broad base core in basic sciences (physics and chemistry) and mathematics as well as engineering sciences.

What is Electrical Engineering?

Electrical engineering is a broad discipline of study that includes circuit design, electronics, electromagnetism, control systems, communications, and robotics. Electrical engineers study and apply physics and mathematics to design electrical and electronic systems and their components for a wide range of applications such as mobile phones, wireless communications, consumer electronics, control systems, computers, computer networks, power generation, machine learning, robotics, nanoelectronics, nanophotonics, bioelectronics, autonomous transportation, wearable electronics, and metamaterials.

You Might Like This Program If...

- You enjoy problem-solving and math.
- You prefer to use analysis and the scientific method to understand things.
- You enjoy working on multidisciplinary teams on complex problems.
- You want to pursue a career in electrical engineering or its sub-branches.

Entrance to Major

Entry to the Electrical Engineering major requires that the student has completed: MATH 140, MATH 141, PHYS 211, CHEM 110, and CHEM 111.

A 2.00 or higher cumulative grade-point average is required.

Degree Requirements

For the Bachelor of Science degree in Electrical Engineering a minimum of 135 credits is required:

<table>
<thead>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>114</td>
</tr>
</tbody>
</table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

24 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits
Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

This includes 24 credits of General Education courses; 3 credits of GWS courses; 6 credits of GS courses; 9 credits of GN courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44)). For more information, check the Suggested Academic Plan for your intended program.

Code | Title | Credits
--- | --- | ---
CHEM 110 | Chemical Principles I | 3
CHEM 111 | Experimental Chemistry I | 1
CMPEH 472 | Microprocessors | 4
EDSGN 100S | Introduction to Engineering Design | 3
EE 210 | Circuits and Devices | 4

MATH 141 | Calculus with Analytic Geometry II | 4
PHYS 211 | General Physics: Mechanics | 4
PHYS 212 | General Physics: Electricity and Magnetism | 4

Additional Courses

Select one of the following: 3

ECON 14 | Principles of Economics | 3
ECON 102 | Introductory Microeconomic Analysis and Policy | 3
ECON 104 | Introductory Macroeconomic Analysis and Policy | 3

Select one of the following: 3

CMPSC 121 | Introduction to Programming Techniques | 3
CMPSC 201 | Programming for Engineers with C++ | 3
CMPSC 202 |

Select one of the following: 3-4

STAT 200 | Elementary Statistics (requires a grade of C or better) | 3
STAT 401 | Experimental Methods | 4
STAT 414 | Introduction to Probability Theory | 4
STAT 418 | Introduction to Probability and Stochastic Processes for Engineering | 4

Supporting Courses and Related Areas

Select 11-12 credits in consultation with an academic adviser and in line to support of the student’s interest

Integrated B.S./M.S. Program in Electrical Engineering

The Electrical Engineering program offers a limited number of academically superior Bachelor of Science candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science and the Master of Science in Electrical Engineering. The ability to coordinate as well as concurrently pursue the two degree programs enables students to earn the two degrees in five years.

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. However, the total course load is reduced due to the maximum of 12 credits that can count towards both degrees. A minimum of 7 credits proposed to count for both degrees must be at the 500 level. Thesis credits may not be double counted. The fourth year of the IUG program differs from the fourth year of the Bachelor of Science program due to the courses that count toward the Master of Science Degree requirements. Student performance will be monitored on an ongoing basis. In addition, a formal evaluation of student’s academic performance will be conducted at the end of the first semester of the senior year for a typical student in the program. Students who have not maintained a 3.4 GPA in their Math and Electrical Engineering courses will be put on probationary status.
with respect to the IUG program. Their ability to continue in the IUG program will be based on academic performance in the last semester of their senior year. As part of the review in the senior year, students will be advised about the thesis requirement in the graduate program.

Students have the choice of receiving the B.S. degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years. If for any reason a student admitted to the IUG program is unable to complete the requirements for the Master of Science degree, the student will be permitted to receive the Bachelor of Science degree assuming all the undergraduate degree requirements have been satisfactorily completed. If students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

Admission Requirements
To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Electrical Engineering Application Form, an official transcript, three letters of professional recommendation from individuals who can evaluate the applicant’s potential, and a personal statement of technical interest and goals. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. In order to apply for the IUG program, students must have completed a minimum of 81 credits; therefore a typical student would apply after completing the fifth semester and before the end of the sixth semester. For consideration for acceptance into the program, students must have cumulative grade point average (GPA) of 3.4 or better and collective GPA of 3.4 or better in the following courses:

<table>

</tbody>
</table>

All designated MATH, PHYS and CMPSC courses

Applications will be evaluated based on students’ overall academic performance, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee of the Electrical Engineering program.

Degree Requirements
Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. The minimum of 7 credits double-counted must be at the 500 level. Thesis credits may not be double counted.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 132-135

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
Elementary Education, B.El.Ed.

1 CMPSC 121 Introduction to Programming Techniques, recommended.
EE 315 Electrical Signals and Circuits with Lab, course only offered in Fall semester.
EE 314 Signals and Circuits II, take this course instead of EE 315 ONLY IF EE 210 OR EQUIVALENT WAS TAKEN. Course only offered in Fall semester.
EE 341 Semiconductor Device Principles, course only offered in Fall semester.
EE 330 Engineering Electromagnetics, course only offered in Spring semester.
EE 485 Energy Systems and Conversion, course only offered in Spring semester.
EE 311 Electronic Circuit Design II, course only offered in Fall semester.
EE 461 Communications I, course only offered in Fall semester.

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

program Notes:
Fall: EE 314, EE 315, EE341, EE 311, EE 461
Spring: EE 330, EE 485

Students must complete a 3-credit course in "United State Culture (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths
According to the U.S. Bureau of Labor Statistics, employment of electrical engineers is projected to grow 7 percent from 2016 to 2026, about as fast as the average for all occupations. The rapid pace of technological innovation will likely drive demand for electrical and electronics engineers in research and development, an area in which engineering expertise will be needed to design distribution systems related to new technologies. These engineers will play key roles in new developments with solar arrays, semiconductors, and communications technologies.

Careers
Graduates of the program have gained positions in a number of specialty areas including digital circuits and VLSI and its fabrication, microprocessors and their applications, electromagnetics, communications, control systems, digital image processing, and computer engineering. Career opportunities for these specialties are available in a multitude of industries including computers, automobile, power, communications, manufacturing, pure and applied research, and biomedical and environmental fields.

MORE INFORMATION (https://harrisburg.psu.edu/science-engineering-technology/ee-eet/bachelor-science-electrical-engineering/career-opportunities)

Opportunities for Graduate Studies
The Bachelor of Science degree in Electrical Engineering is designed to provide a solid background for students who plan to pursue graduate studies, including Penn State’s Master of Engineering and Master of Science in Electrical Engineering programs.

MORE INFORMATION (http://harrisburg.psu.edu/science-engineering-technology/ee-eet)

Accreditation
This program is accredited by the Engineering Accreditation Commission of ABET.

Elementary Education, B.El.Ed.

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
The Elementary Education program at Penn State Harrisburg embodies the four tenets of our conceptual framework:

1. constructivism,
2. authenticity,
3. reflectivity, and
4. standards-based curriculum.

Constructivism entails a student-centered approach in which teachers help learners build their own understandings. Authenticity refers to developing professional and pedagogical skills in authentic classroom settings; for example, in the junior and senior years prior to student teaching, the program offers extensive field experiences in a variety of settings enrolling students with diverse backgrounds and needs. Reflectivity relates to consciously analyzing course content and one’s own learning for the purpose of deeper understanding and self-improvement. Standards-based curriculum means that our candidates are steeped in Pennsylvania Academic Standards as well as the standards of relevant professional organizations. Taken together, these tenets enable our candidates to become lifelong reflective professionals committed to the learning of all students.
Students will choose one of four options for the degree:

1. PK-4 Early Childhood Education,
2. Grades 4-8 English/Language Arts and Reading,
3. Grades 4-8 Mathematics, and
4. Grades 4-8 Social Studies.

Upon successful completion of this major, students will have met all of the requirements for either the Grades PK-4, Grades 4-8 English/Language Arts and Reading, Grades 4-8 Mathematics, or Grades 4-8 Social Studies Instructional I certification issued by the Pennsylvania Department of Education.

Prior to the full-time student teaching experience in the senior year, candidates are expected to complete all other courses required for certification, including two field placements. On-campus courses are scheduled three or four days a week, while field experiences in nearby schools are scheduled part-time, three or four days per week.

What is Elementary Education?
Elementary Education prepares bright, creative and passionate individuals to teach students in the primary and middle-level grades, which includes pre-kindergarten through grade four or grades four through grade eight. This major includes preparation to teach all elementary subjects, as well as classroom management, working with families and evidence-based best practices of teaching and learning. Individuals in the major spend time in primary or middle school classrooms observing, leading activities, teaching lessons, and being mentored by an experienced teacher.

You Might Like This Program If...
• You enjoy working with children.
• You like critical, creative, and reflective thinking.
• You want to have an important and direct impact on the lives of others.
• You want a career in teaching or school administration.

Entrance to Major
Students must apply for admission to the major.

Admission Requirements
Applicants should have completed most of their first two years of college as well as the Entry to Major Requirements listed below with at least a 3.0 cumulative GPA (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg. Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Entry to Major Requirements
Entry to the Elementary Education major requires the completion of 57 or more credits in required courses and the state’s minimum cumulative GPA criteria of 3.0. Candidates must complete, with a grade of "C" or better, six (6) credits of college-level mathematics (MATH prefix), three (3) credits of college-level English literature and three (3) credits of college-level English composition. Candidates must submit scores on any entrance testing requirements established by the Pennsylvania Department of Education that are applicable at the time of application for entrance to major. Candidates who desire to pursue this major should plan their freshman and sophomore years carefully to ensure their successful progress during very structured junior and senior years. Semesters 5 through 8 are very structured.

Selective Retention
Monitoring candidate progress in the elementary education program will occur each semester while the candidate is participating in the elementary education program. Candidates will be evaluated for retention in the program based on
• maintaining a cumulative GPA of 3.0 or higher;
• performance on any test requirements set out by the Pennsylvania Department of Education in force at the time of application for entrance to major;
• satisfactory completion of required courses, including the field experience component;
• adequate writing and speaking skills as demonstrated in various classroom assignments; and
• a positive rating on the Penn State Harrisburg Professional Dispositions for Teacher Education Programs monitoring form.

Candidates must pass any entrance test requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to the major.

Degree Requirements
For the Bachelor of Elementary Education degree in Elementary Education, PK-4 Early Childhood Option a minimum of 126 credits are required; Grade 4-8 English/Language Arts and Reading Option a minimum of 126 credits are required; Grade 4-8 Mathematics Option a minimum of 126 credits are required; and Grade 4-8 Social Studies Option a minimum of 126 credits are required:

</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

• Inter-Domain or Approved Linked Courses: 6 credits

33 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 33 credits of General Education courses: 9 credits of GN courses; 6 credits of QG courses; 3-6 credits of GH courses; 6 credits of GS courses; 6 credits of GWS, by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Grades 4-8 English/Language Arts and Reading Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1. GN Biological Science Course, one GN course must include a lab
2. ETDHP 115S - Competing Rights: Issues in American Education, if ETDHP 115S is not available, students may substitute ETDHP 115 and any course that meets the first-year seminar requirement.
3. GN Physical Science Course, one GN course must include a lab.
4. Select English Literature, see list of English Literature courses above.
5. GN Earth Science Course, one GN course must include a lab

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Program Notes

Select 3 credits of literature from the following

- CMLIT 1 - Introduction to Western Literatures Through the Renaissance (3)
- CMLIT 1H - (3)
- CMLIT 2 - Introduction to Western Literatures Since the Renaissance (3)
- CMLIT 3 - Introduction to African Literatures (3)
- CMLIT 4 - Introduction to Asian Literatures (3)
- CMLIT 4H - (3)
- CMLIT 5 - Introduction to Literatures of the Americas (3)
- CMLIT 6 - Philosophy and Literature in Western Culture (3)
- CMLIT 10 - The Forms of World Literature: A Global Perspective (3)
- CMLIT 11 - The Hero in World Literature (3)
- CMLIT 100 - Introduction to Comparative Literature (3)
- CMLIT 101 - The Theme of Identity in World Literatures; Race, Gender, and Other Issues of Diversity (3)
- CMLIT 105 - The Development of Literary Humor (3)
- CMLIT 106 - The Arthurian Legend (3)
- CMLIT 107 - The Literature of Exploration: Extraordinary Voyages from Antiquity into the Future (3)
- CMLIT 108 - Myths and Mythologies (3)
- CMLIT 110 - Jewish Literature: An International Perspective (3)
- CMLIT 111 - Introduction to Literatures of India (3)
- CMLIT 141 - Religion and Literature (3)
- CMLIT 184 - The Short Story (3)
- CMLIT 185 - The Modern Novel in World Literature (3)
- CMLIT 189 - The Founders of Modern Drama (3)
- ENGL 1 - Understanding Literature (3)
- ENGL 1W - Understanding Literature (3)
- ENGL 2 - The Great Traditions in English Literature (3)
- ENGL 3 - The Great Traditions in American Literature (3)
- ENGL 104 - The Bible as Literature
- ENGL 129 - Shakespeare (3)
- ENGL 129 H - Shakespeare (3)
- ENGL 133 - Modern American Literature to World War II (3)
- ENGL 134 - American Comedy (3)
- ENGL 135 - Alternative Voices in American Literature (3)
- ENGL 135S - Alternative Voices in American Literature (3)
- ENGL 139 - Black American Literature (30)
- ENGL 140 - Contemporary Literature (3)
- ENGL 184 - The Short Story (3)
- ENGL 184S - The Short Story (3)
- ENGL 185 - The Modern Novel in World Literature (3)
- ENGL 189 - The Founders of Modern Drama (3)
- ENGL 191 - Science Fiction (3)
- ENGL 194 - Women Writers (3)
- ENGL - 194H (3)
- ENGL 262 - Reading Fiction (3)
- ENGL 263 Reading Poetry (3)
- ENGL 265 - Reading Nonfiction (3)
- ENGL 268 - Reading Drama (3)

**Grades 4-8 Social Studies Option**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**Career Paths**

Elementary and middle-level teachers introduce children to learning through the basics of numbers, language, science, and social studies. They facilitate classroom activities to meet the needs and abilities of their students. They also work with children independently and in small groups. They provide instruction, conduct assessments, listen to presentations, and maintain a positive classroom climate. They individually meet with families and faculty and serve on faculty and community committees. Elementary and middle-level teachers also become supervisors, administrators, and mentors to new teachers.

**Careers**

According to the U.S. Bureau of Labor Statistics, overall employment of kindergarten and elementary school teachers is projected to grow 7 percent from 2016 to 2026, about as fast as the average for all occupations. Rising student enrollment should increase demand for kindergarten and elementary teachers, but employment growth will vary by region. The number of students enrolling in public kindergarten and elementary schools is expected to increase over the coming decade, and the number of classes needed to accommodate these students should rise. As a result, more teachers will be needed to teach public kindergarten and elementary school students.

English, B.Hum.

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
This English major, with its three options, offers students the unique opportunity to study literature in an interdisciplinary context where the relationships among literature and art, history, music, philosophy, media, and American Studies can be investigated. The major offers courses in American, British, and world literatures, emphasizing their cultural and historical contexts as well as teaching students to interpret them from a variety of critical perspectives. Small classes in both creative and expository writing encourage students to develop their writing skills by working closely with faculty.

Creative Writing Option
Emphasizing original works of fiction, poetry, creative nonfiction, and hybrid genres, the Creative Writing Option provides aspiring authors with a literary foundation in the craft of writing and revising original work, as well as practical skills in editing and publishing in traditional and new media formats.

General English Option
With its emphasis on interpretive skills, creativity, and writing, the General English Option provides a foundation for careers in such fields as publishing, public relations, communication, government and law, as well as a strong basis for graduate education.

Secondary Education Option
The Secondary Education Option enables the graduate to meet all the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

What is English?
English refers to a broad field of study related to the reading, writing, studying and analyzing of English literature and language. The field includes the many and varied forms and genres of literature, writing, and rhetoric, and often considers how value and meaning are created, and information communicated, through these various texts.

You Might Like This Program If...
• You enjoy analyzing and exploring literature.
• You are interested in creative writing.
• You want to prepare for a professional field where communication is important, such as medicine or law.
• You want a career as an author, editor, journalist, or English teacher.

Entrance to Major
Entry to the English major requires:
1. a 2.00 or higher cumulative grade-point average; and
2. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major.

Entry to English Major, Secondary Education option requires the following additional requirements:
1. A minimum grade point average of 3.0.
2. Completion of ENGL 15 or ENGL 30 and three credits of literature from approved list with a C or higher grade.
3. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade.
4. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major.

Selective Retention (secondary education option)
Following entrance to the major, students will be evaluated for retention in the program based on:
1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.

To be eligible to student teach, students must:
1. maintain a cumulative GPA of 3.0 or higher;
2. complete with a C or higher grade all required Content and Education Courses;
3. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. submit and pass the Writing Proficiency Portfolio that demonstrates their proficiency as writers (see English Program Coordinator for specific instructions and deadlines);
Degree Requirements

For the Bachelor of Humanities degree in English, a minimum of 120 credits is required; for the Bachelor of Humanities degree in English with Secondary Education Option, a minimum of 122 credits is required; for the Bachelor of Humanities degree in English with a Creative Writing Option, a minimum of 120 credits is required:

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

For more detailed information see the Secondary Education Handbook

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.

In order to successfully complete the Secondary Education option, students must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete with a grade of C or higher, all required Content and Education Courses;
4. complete a presentation portfolio; and
5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

0-15 of these credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

This includes 0-15 credits of General Education courses: General English Option, 6 credits of General Education Arts (GA) and/or Social and Behavioral Science (GS) courses; Secondary Education Option, 6 credits of General Education Quantification (GQ) courses, 3 credits of General Education Social Sciences (GS) courses, and 6 credits of General Humanities (GH) courses. (Note: Creative Writing Option - 0 credits of General Education)

At least 15 credits of Prescribed, Additional, and/or Supporting courses must be taken at the 400 level.
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

*Additional Courses*  
Select 6 credits of General Education Quantification courses (GQ) with a MATH or STAT prefix  
Select 3 credits of GH literature from department list  

**Program Learning Objectives**  
1. Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.  
2. Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.  
3. Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.  
4. Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.  
5. Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.  

**Academic Advising**  
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.  
Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Select from Literature, Writing, or Rhetoric from department list
Select any course with an ENGL or CMLIT prefix

B HUM Degree require course, of these selections (12 credits) select 4 upper or lower division courses, each from a different major/program offering from the following list: AAA S, AM ST, ARAB, ART, ART H, BRASS, CAS, CAMS, CHNS, CMLIT, COMM, DANCE, ENGL, FR, GER, GREEK, HEBR, HIST, INART, IT, J ST, JAPNS, KOR, LATIN, LING, MEDVL, MUSIC, PHIL, PORT, RL ST, RUS, SPAN, STS, THEA, WMNST.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

English/Creative Writing Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Career Paths

Penn State Harrisburg graduates in English have found success as writers, librarians, teachers, graduate students in MFA and other writing programs, and more. Many of these students’ testimonials are available on our website.

MORE INFORMATION (https://harrisburg.psu.edu/humanities/english/bachelor-humanities-english/testimonials)

### Opportunities for Graduate Studies

Additional graduate study is available in creative writing and literature as part of the Master of Arts in Humanities.

MORE INFORMATION (https://harrisburg.psu.edu/humanities/arts-humanities/master-arts-humanities)

### Professional Resources

- National Council of Teachers of English (NCTE) (http://www2.ncte.org)

### Accreditation

This program has been recognized by the National Council of Teachers of English (NCTE) and the Secondary Education Option earned National Council for the Accreditation of Teacher Education (NCATE) approval.

MORE INFORMATION (http://www.ncate.org)

Finance, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
The finance major emphasizes analytic, problem solving, and computer skills which are necessary for finance and investment industry. The major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

The requirements in the major complement basic business instruction in accounting, management, marketing, and information systems. With business and non-business electives, the program is designed to develop necessary skills to be an effective financial manager. Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, students are provided with many opportunities to experience the world of business.

What is Finance?
Finance focuses on how individuals and business organizations raise money and capital, and how those resources are allocated among competing investment and consumption opportunities. The field focuses on domestic and international financial economies and the role of financial markets and institutions key in the movement of savings and investment capital from lenders to borrowers. It also deals with how individuals and corporate managers evaluate alternative investment and savings opportunities and how they choose among various financial instruments.

You Might Like This Program If...
• You enjoy numbers and "real world" applications of math.
• You are interested in how businesses and banks manage their assets.
• You want a career in business, finance, or investment management.

Entrance to Major
Entry to the Finance major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, SCM 200, and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

\(^1\) Course requires a grade of C or better.

Degree Requirements
For the Bachelor of Science degree in Finance, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

At least 50 percent of the business credit hours required for the degree must be taken at Capital College. No more than 60 credits should be from business and business-related courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements section of the Bulletin and consult your academic adviser.

The keystone symbol \(\text{ appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.}

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.
Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the major
This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Other finance courses approved by the Program

Supporting Courses and Related Areas
Select 9 credits of 200-400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student’s interests

For students considering CFA exam, FIN 407, FIN 427 and FIN 461 are recommended.

Integrated B.S. in Finance and M.B.A. in Business Administration

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Finance candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Finance and the Master of Business Administration. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master’s degree may be applied to both undergraduate and graduate degree programs. The Integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Finance and Master of Business Administration.
degrees. The total course load is reduced due to courses that can count towards both degrees. The first two years of the IUG program are identical to the first two years of the Bachelor of Science program. Students in the IUG program take four additional credits in their third year, and four fewer credits in their fourth year. The courses that count toward the Master of Business Administration degree requirements are included in the fourth year.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the students have completed 100 to 105 credits, which is at the end of the first semester of the senior year for typical students in the program. Students who have not maintained a 3.0 GPA in their graduate courses will be put on probationary status with respect to the IUG program. They will receive a warning letter regarding probationary status. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year.

Students have the choice of receiving the B.S. in Finance degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years.

If for any reason students admitted to the IUG program are unable to complete the requirements for the Master of Business Administration degree, the students will be permitted to receive the Bachelor of Science in Finance degree assuming all the undergraduate degree requirements have been satisfactorily completed. If the students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

Admission Requirements
To initiate the application process, students must submit a resume, a personal statement including career goals and how MBA will enhance their career goals, transcripts of courses taken outside Penn State, two letters of recommendation, with at least one from the School of Business Administration faculty, and a plan of study that integrates both undergraduate and graduate requirements. A graduate faculty adviser in collaboration with the Director of M.B.A. Program will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.

The number of openings in the IUG program is limited. Applicants to the IUG program must have completed a minimum of 60 credits. Typical students would apply after completing between 60 and 90 credits, that is, after the fifth semester and before the end of the seventh semester. In addition, the applicants must earn a minimum of cumulative grade point average of 3.5 and complete the following Entry to Major courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

Assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Student application will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admission Committee in Business Administration.

Degree Requirements
Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Finance and Master of Business Administration degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

### Career Paths

The Finance major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

### Opportunities for Graduate Studies

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Finance candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Finance and the Master of Business Administration.

### Accreditation

The Bachelor of Science in Finance program is accredited by the AACSB.
Health Policy and Administration, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Learning Objectives

1. **Know Health Orgs:** HPA graduates will possess in depth understanding of health and health care, including the structures, policies, processes and institutions that make up the U.S. health care system.

2. **Organize and Direct Resources:** HPA graduates will possess the knowledge and skills necessary for organizing and directing resources towards the achievement of organizational objectives.

3. **Policy Analysis:** HPA graduates will possess the knowledge and skills necessary to analyze, synthesize, and evaluate public policy.

4. **Emotional Intelligence:** HPA graduates will possess an awareness of and the ability to manage ones own emotions in a way that enables positive interpersonal interactions and the building of productive relationships.

5. **Diversity Adeptness:** HPA graduates will recognize the value of diversity and possess sensitivity to underrepresented and underserved groups in health care.

6. **Critical Thinking:** HPA graduates will be able to interpret, analyze, and evaluate information to identify, examine, and solve problems that occur in the health care system.

7. **Communication:** HPA graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and

2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements

For the Bachelor of Science degree in Health Policy and Administration, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>4-6</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>81-83</td>
</tr>
</tbody>
</table>

The requirements for the major are outlined below. Students may select courses in the Supporting Courses and Related Areas category to fulfill requirements for a minor, to develop a specialization, or to complete courses required for admission to medical, dental, law, or other graduate schools.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. HPA requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits
12 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [link](http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 [link](http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Supporting Courses and Related Areas**

Select 30 credits from University-wide offerings on department list in consultation with adviser

1. Must include at least 9 credits at the 400 level.

**Integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) Admission and Degree Requirements**

The integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) program allows qualified undergraduate students to earn both degrees in five calendar years of full time academic study.

The following credentials will be considered for admission:
• A demonstrated ability to communicate effectively, an advanced level of maturity, and high motivation to pursue a career in the health care field
• Academic references
• Successful completion of 60 credits having maintained a cumulative GPA of 3.4 or better

Students admitted to the B.S. in Health Policy and Administration/M.H.A. integrated program are able to earn both the B.S. and M.H.A. in five calendar years of full time academic study.

Program Learning Objectives

1. **Know Health Orgs:** HPA graduates will possess in depth understanding of health and health care, including the structures, policies, processes and institutions that make up the U.S. health care system.

2. **Organize and Direct Resources:** HPA graduates will possess the knowledge and skills necessary for organizing and directing resources towards the achievement of organizational objectives.

3. **Policy Analysis:** HPA graduates will possess the knowledge and skills necessary to analyze, synthesize, and evaluate public policy.

4. **Emotional Intelligence:** HPA graduates will possess an awareness of and the ability to manage one's own emotions in a way that enables positive interpersonal interactions and the building of productive relationships.

5. **Diversity Adeptness:** HPA graduates will recognize the value of diversity and possess sensitivity to underrepresented and underserved groups in health care.

6. **Critical Thinking:** HPA graduates will be able to interpret, analyze, and evaluate information to identify, examine, and solve problems that occur in the health care system.

7. **Communication:** HPA graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

‡ Course satisfies General Education and degree requirement

1 ENGL 030 (GWS), Effective Fall 2012, all incoming Schreyer Honors College freshmen at University Park will take ENGL/CAS 137H in the fall semester and ENGL/CAS 138T in the spring semester. These courses carry GWS designation and replace both ENGL 030 and CAS 100. Each course is 3 credits. At the discretion of the college, ENGL/CAS 138T satisfies the first-year seminar requirement.
2 CAS 100 (GWS), Effective Fall 2012, all incoming Schreyer Honors College freshmen at University Park will take ENGL/CAS 137H in the fall semester and ENGL/CAS 138T in the spring semester. These courses carry GWS designation and replace both ENGL 030 and CAS 100. Each course is 3 credits. At the discretion of the college, ENGL/CAS 138T satisfies the first-year seminar requirement.
3 ENGL/CAS 138T satisfies the first-year seminar requirement.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Career Paths

The mission of the Bachelor of Science Program (B.S.) in HPA is to develop graduates with the knowledge, skills, and values appropriate to work in entry-level management or policy-related positions or for the pursuit of graduate education in health administration, health policy, health law, health services research, public health, and other health related needs. HPA students develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost.

Careers

The HPA curriculum prepares students to work as health services managers/administrators or health analysts. Health services managers/administrators plan, direct, and coordinate medical, behavioral, and/or long-term care services. These individuals might oversee matters of personnel, budgeting, billing, equipment outlays, information systems, planning and more. Health analysts are responsible for analyzing, compiling, and validating information needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed decisions. Employment in the health care sector is projected to grow 17 percent from 2014 to 2024, much faster than all other occupations.

MORE INFORMATION (http://hhd.psu.edu/hpa/undergraduate/careers)

Opportunities for Graduate Studies

HPA’s blend of courses in liberal arts, business administration, and the health sciences, is designed to prepare students for careers or further study in health care. HPA students have used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

MORE INFORMATION (http://hhd.psu.edu/hpa/integrated-bachelor-science-and-masters-degree-program)

Professional Resources

- Association of University Programs in Health Administration (http://www.aupha.org/resourcecenter/futurestudents)
- American College of Health Care Administrators (https://achca.memberclicks.net/student-societies)
- American College of Health Care Executives (http://www.ache.org)

Accreditation

HPA is a fully certified member of the Association of University Programs in Health Administration (AUPHA). As such it has been recognized for having withstood the rigors of peer review wherein curricula, faculty, and educational outcomes have been critically examined by external peer review. In a process comparable to other specialty program accreditations, programs seeking AUPHA certification must submit an extensive self-study detailing the program’s structure, educational processes, and assessment mechanisms in response to national criteria established by AUPHA.

Homeland Security, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Homeland Security minor provides for development of familiarity with homeland security and defense issues, including emergency management, homeland security policy, and the structure of homeland security operations. Students will come to understand the "all hazards" approach to homeland security and defense. Students will be able to develop familiarity with such aspects of homeland security and defense as emergency management, security administration, border security, and critical infrastructure through taking elective courses. Recipients of the minor would be positioned to enter the work force in entry level positions or to prepare for transition to graduate school.

What is Homeland Security?

Homeland Security is an area of study that focuses on security policy, planning and operations dedicated to the protection of U.S. territory, assets, infrastructure, institutions and citizens from external threats. It is concerned with national security policy, government relations, intelligence, law enforcement, security technology, communications and information technology, disaster planning, and applications to specific threat scenarios.

You Might Like This Program If...

• You enjoy helping others or doing something for the greater good.
• You want to serve society and have good people skills.
• You are interested in working for a local, state, or federal agency that is involved with homeland security.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Human Development and Family Studies, B.S. (Harrisburg)

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major is a multidisciplinary program that examines the development of individuals and families across the life span. It enables students to prepare for professional, managerial, or scientific roles in health and human services professions, in public and nonprofit agencies, and in business and industry, as well as for advanced professional or graduate study. Students obtain a broad background in individual and family development across the life span. Courses emphasize biological, psychological, social/cultural, and economic aspects of development. Through coursework and undergraduate internships or research projects, students develop skills relevant to career objectives, such as counseling, human assessment, program planning and evaluation, and research.

Two options are available within the major:

1. Life Span Human Services option
2. Life Span Developmental Science option.

The introductory paragraph to each of the options includes a brief list of career opportunities. More extensive descriptions of career opportunities in both public and private sectors are available for the program.

Life Span Human Services Option

This option focuses on the acquisition and application of scientific knowledge about development and family functioning across the life span for the purposes of enhancing personal and family development. Courses emphasize:

1. understanding the biological, psychological, and social development across the life span, and the structuring and functioning of families;
2. understanding basic theoretical and methodological issues; and
3. the development of applied skills in intervention and evaluation, prevention, and in the formulation of social policy.

An approved field experience in a setting that serves children, youth, adults, or the aged is required for this option. Typical employment settings include preschools, daycare centers, hospital programs for children, youth, and families, institutional and community mental health programs for individuals and families, programs for abused or neglected children and adolescents, women's resource centers, human resources programs, employee assistance programs, nursing homes, area agencies on aging and other community settings for older adults, and public welfare and family service agencies. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, counseling or social work.

Life Span Developmental Science Option

This option focuses on the understanding of contemporary methodological approaches to the acquisition of scientific knowledge about individual development over the life span and about family development. This option provides preparation for advanced training in careers in developmental or family research, teaching at a college or university, or for professional careers that require graduate training. Courses within this option emphasize a thorough understanding of the theory and methods of developmental and family theory and research. An approved, multi-semester research practicum is an integral component of this option. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, social work, or in other programs related to services for individuals and families.

What is Human Development and Family Studies?

Penn State's Human Development and Family Studies program is designed to help you learn about the intricacies of individual and family development across the lifespan and the foundations of working in a wide range of human services with many different groups of people. We will support you as you learn about promoting healthy development, identifying and managing real-life problems, and intervening when appropriate. Through HDFC's interdisciplinary approach, you will explore the biological, psychological, and the sociological facets of life in order to help others live healthy, successful lives. With coursework on child and adolescent development, adult development and aging, family studies, and approaches to interventions and helping, you will learn how individuals progress and change from birth to old age; how families and communities influence these processes; and how to apply this knowledge in order to develop, implement, and evaluate interventions designed to improve people's lives.
You Might Like This Program If...

- You have always been curious about human behavior and family relationships, and how people relate to one another.
- You are passionate about pursuing a career in which you develop, implement or evaluate interventions designed to improve the lives of individuals and families.
- You plan to pursue one of the many careers in which an understanding of individual and family development across the lifespan would be useful (e.g., counseling, education, health professions, business, policy/advocacy).

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements

For the Bachelor of Science degree in Human Development and Family Studies, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>3-5</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>73-76</td>
</tr>
<tr>
<td></td>
<td>3-4</td>
</tr>
</tbody>
</table>

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. HDFS requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

3-4 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

This includes 3-4 credits of General Education GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-

Select 18 credits (minimum of 9 credits at the 400 level) in consultation with adviser from University-wide offerings that develop competency in option (a grade of C or better is required in any HDFS course taken to satisfy this requirement)

Program Learning Objectives

1. HDFS students will be able to demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
   a. Summarize, critique, and apply theories and concepts related to individual and family development from a multi-disciplinary, life-cycle perspective;
   b. Articulate how biology, psychology, and history influence diversity in individual and family structures and functions in a social/cultural context.

2. HDFS students will be able to demonstrate the ability to evaluate and apply theory and research to practice and policy.
   a. Demonstrate an understanding of the contribution of original research in human development;
   b. Integrate and apply the findings of empirical research within a theoretical framework to human development;
   c. Explain the strengths and weaknesses of various research methods in assessing human behavior;
   d. Apply research skills in order to better understand in the use of research in agency practice;
   e. Explain the process of planning and conducting research, including the role of the IRB;
f. Demonstrate skills to analyze and interpret data;
g. Apply theories to identify and resolve problems.

3. HDFS students will demonstrate the ability to analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
   a. Demonstrate knowledge of history and policies for ethical conduct in the delivery of human services;
   b. Examine environmental factors shaping individual and family interventions (such as political, social, economic, cultural, and technological);
   c. Demonstrate an understanding of community-based programs and services;
   d. Understand and articulate individual and family needs and roles of human service organizations in fulfilling those needs;
   e. Demonstrate knowledge of HIPAA regulations;
   f. Develop a working knowledge of and ability to evaluate community-based programs and services

4. HDFS students will demonstrate professional ethical and culturally sensitive standards of conduct.
   a. Articulate understanding of theories, skills, and competencies of an effective helper;
   b. Demonstrate knowledge of the main ethical, legal, clinical, professional and personal issues and challenges involved in the helping professions;
   c. Demonstrate knowledge of informed consent for working with diverse groups of clients;
   d. Understand and apply ethical decision making models;
   e. Understanding how personal values and experiences influence one's ability to make professional decisions;
   f. Recognize stereotypical and prejudicial language and attitudes and their impact on the helping relationship.

5. HDFS students will demonstrate knowledge and competence in helping, leadership, and administrative human service skills.
   a. Demonstrate knowledge of management in human services and how to apply appropriate practices;
   b. Demonstrate professional written, oral and technology assisted communication skills;
   c. Demonstrate clinical, interactional, and practical skills used in human service professions;
   d. Identify the different organizational needs of public, private-for-profits, and private-not-for-profit agencies.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
Harrisburg Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may change policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 119.5

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
1 HDFS 418 - Honors students take HDFS 300H and 310M (an honors writing intensive course).
2 HDFS 401 - Enroll in HDFS 401 only if HDFS 402 and HDFS 495C will be taken.

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes
• GWS, GQ, GA, GH, GS, GN and GHW are codes used to identify General Education requirements.
Human Development and Family Studies, B.S. (Harrisburg)

- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirements. All students are required to take one IL and one US course before graduation. A course designated as US;IL may be used as a US or an IL, not both.
- W suffix signifies the course satisfies the University Writing Across the Curriculum requirement.

Program Notes
Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths
The demand for HDFS graduates is strong because the HDFS major provides students with a valuable foundation for understanding important social trends: The population of older people is growing, and the number of trained persons who can provide help and assistance to them falls far short of the need; Social problems such as child abuse and drug and alcohol problems affect many individuals and families; Young adults face many social and economic pressures that can lead to problems in work and relationships.

Careers
Many HDFS graduates go directly to the workplace based on their understanding of people, their knowledge of group dynamics, and their skills in training and in program development and evaluation. Many positions are in human services and health care settings while others are in business and industry. Assisted living, adult day services and nursing homes Day-care centers and preschools Drug and alcohol treatment centers and hospitals Child and domestic abuse centers and runaway shelters Human resources or marketing departments of large companies Development/fundraising for educational or nonprofit organizations.

Opportunities for Graduate Studies
The HDFS major is also excellent preparation for graduate school in the social, behavioral, and health sciences. In recent years, our majors have pursued graduate studies in: Counseling (e.g., school counseling, counseling psychology) Social work Health professions (e.g., nursing, occupational therapy, medicine) Psychology and Human Development & Family Studies Elementary and Secondary Education Law and Business.

Human Resource Management, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Human Resource Management minor prepares students for professional certification (Assurance of Learning, Professionals in Human Resources (PHR) or Senior Professionals in Human Resources (SPHR)) and/or a career in human resource management by developing skills and competencies in managing diversity and equal opportunity, ethical and fair treatment of employees, human resource planning and staffing, employee training and development, compensation and benefits, performance management, labor relations, and protecting employee safety and health.

What is Human Resource Management?
Human Resource Management explores how the proper management of employees contributes towards organizational effectiveness. This area of study includes topics such as organizational behavior, employment relations systems and processes, human resource planning, recruitment and selection, performance management, training and development, negotiation and conflict resolution, and occupational health and safety.

You Might Like This Program If...
- You enjoy working with people and are interested in what motivates them.
- You are interested in training and development within a business environment.
- You would like to help a business interact better for and with its employees.
- You would like to work in human resources.

Program Requirements

Requirements for the Minor
No more than 15 credits from the minor may be utilized to fulfill the Management major requirements.

Requirements for the Minor
A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the
habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Humanities, B.A.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description
This major helps students appreciate, understand, and interpret relationships among the arts, ideas, media, and values that have shaped Western and world cultures. Students are taught to become active learners who can synthesize, interpret, and communicate knowledge and experience through writing, speaking, and creative expression in a variety of media. The School helps students meet these goals by offering a range of interdisciplinary and discipline-based courses in the arts, art history, communication studies, English, history, literature, music, philosophy, theatre, and writing. The course of study includes interdisciplinary courses which examine topics and time periods from the perspectives of multiple Humanities disciplines. These courses engage students in cross-disciplinary critical thinking and analysis and prepare them for work in an increasingly interdisciplinary world. Students also choose two Humanities subfields to investigate in greater depth, choosing from history and global cultures; the visual and performing arts; philosophy and religious studies; and literature and writing. Students are also encouraged to combine this major with a minor in such fields as business administration, writing, communications, business, government, or museum work.

What is Humanities?
Humanities is an area of study that focuses on combined studies and research in the humanities subjects as distinguished from the social and physical sciences, emphasizing languages, literatures, art, music, philosophy, religion, creative and professional writing, theater, history, and global cultures.

You Might Like This Program If...
- You are interested in critical thinking and interdisciplinary analysis.
- You are drawn to literature and the arts.
- You want to prepare for a professional field such as medicine or law.
- You want a career in the arts, teaching, communications, business, government, or museum work.

Entrance to Major
Entry to the Humanities major requires the completion of 27.1 or more credits and a 2.00 or higher cumulative grade-point average.

Degree Requirements
For the Bachelor of Arts degree in Humanities, a minimum of 120 credits is required:

<table>

</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The cornerstone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3
credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Requirements for the Major
At least 36 of the last 60 credits must be earned at Penn State, according to University Policy 83-80.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 12 credits from AMST, ART, ARTH, CAS, CHNS, CMLIT, COMM, ENGL, FR, HIST, HUM, INART, MUSIC, PHIL, RLST, SPAN, or THEA and/or 12 credits that can be used toward a minor in an area of the student’s interests.

1 At least 15 credits of supporting courses must be at the 400 level.

Program Learning Objectives

1. Think critically about materials from varied Humanities disciplines and points of view.
   a. Write analytical and interpretive essays that effectively integrate the perspectives of two or more Humanities disciplines.
   b. Comprehend, interpret, and evaluate visual and written texts.

2. Write and speak clearly and persuasively about complex subjects involving multiple Humanities disciplines and perspectives.
   a. Demonstrate the ability to use spoken, written, and visual language to communicate complex ideas.
   b. Employ a wide range of strategies to communicate effectively with a variety of audiences.

3. Understand the methods, approaches, and significant content of several disciplines within the Humanities.
   a. Identify and assess a variety of interpretive methods in the Humanities.
   b. Effectively employ a variety of the interpretive methods in the Humanities in written work and oral presentations.
   c. Explain and analyze the relationship between texts and the historical periods that produced them.

4. Demonstrate the ability to conduct in-depth research in the Humanities.
   a. Locate, evaluate, and interpret major scholarship in the Humanities.
   b. Demonstrate understanding of significant questions and problems in the Humanities.
   c. Integrate source materials effectively into essays on a variety of topics.

5. Apply and extend the understanding of goals 1 through 4 effectively in internships, employment, further academic or professional study, creative work, or voluntary activity after graduation.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy)
Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

Program Notes

Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Career Paths

The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law. Penn State Harrisburg's Career Services office provides numerous resources for students, including: assistance with resumes and interview preparation online resources for finding full or part time, and co-op/intern positions strategies and information on attending and getting the most out of job/intern fairs information and guidance in preparing for graduate study at Penn State or elsewhere.

MORE INFORMATION (https://harrisburg.psu.edu/humanities/arts-humanities/bachelor-arts-humanities)

Opportunities for Graduate Studies

The Humanities major also provides a foundation for graduate study in a liberal arts field, including Penn State's Master of Arts in Humanities program.

Information Sciences and Technology for Accounting, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Accounting remains a vital organizational function which, in today's business environment, impacts the strategic direction of the firm.
Technology has changed the manner in which business organizations are supported by accounting. Thus, accounting professionals with technology skills and technology professionals with accounting skills are extremely valuable in today’s modern organization. This new minor will provide students with this integration of knowledge in these two fields.

**Entrance to the Minor**

Students must apply for entrance to the minor no later than the beginning of their sixth semester.

**Program Requirements**

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Begin Campus:** Any Penn State Campus  
**End Campus:** Harrisburg

**Program Description**

*Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.*

This major is structured to provide students with the theoretical frameworks and skill sets necessary to compete and be productive in the information technology-intensive global context that defines the new "Information Age." Specifically, the degree will be focused on a program that will build an understanding of core information technologies and related areas of study; will prepare students for the practical application of various information sciences and related technologies; and engage students in sharpening their abilities to think critically and to work in teams. All this will be done with considerable interdisciplinary integration in order to expose students to the cognitive, social, institutional, and global environments of IST. Team projects in most courses, a required internship, and a senior capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies of the field.

**Information Context: People, Organizations, and Society Option**

This option focuses on how information technology affects social change and the delivery of information to the consumer. This includes the human-machine interface; organization and retrieval of information; digital libraries; information and telecommunications services; information and media industry structures; software services and intermediaries; telecommunications and information law and policy; sociological aspects of technology change; multimedia; and art, design, and aesthetics.

**Information Systems: Design & Development Option**

This option is focused on expanding the skills needed to develop advanced information technology systems using state-of-the-art tools and techniques. The emphasis is on providing the student with both knowledge in the design, implementation, testing and evolution of complex software systems as well as a set of project-oriented, team-programming experiences.

jlm10@psu.edu
Information Technology: Integration & Application Option

This option is designed to prepare students to use information technology to realize a variety of system-based goals (e.g., reliability, accessibility, efficiency, etc.). It is focused on developing a theoretical foundation and the skill set needed for integrating information technology into different systems for the purpose of enhancing system performance. The emphasis is on providing the student with both the theoretical frameworks needed to use information technology as a system attribute as well as a set of application-oriented experiences and skills.

What is Information Sciences and Technology?

Information Sciences and Technology is a discipline that explores how we can strengthen the power of information and technology, and use it to increase human potential. This includes focusing on creating innovative systems and technological solutions that benefit businesses, organizations, and individuals, and understanding the role of technology in how we live our lives.

MORE INFORMATION (https://ist.psu.edu/students/undergrad/majors/istbs)

You Might Like This Program If...

• You enjoy coming up with creative solutions to difficult challenges.
• You are interested in technology but also want to work with people.
• You want to develop new software and web applications, help businesses operate more effectively by creating and implementing technological solutions, or understand how technology is connected to broader social issues.
• You are interested in technology but also want to work with people.
• You enjoy coming up with creative solutions to difficult challenges.

MORE INFORMATION (https://issuu.com/istpsu/docs/ist-major)

Entrance to Major

To be eligible for entrance to the Information Sciences and Technology (ISTBS) major, students must:

1. have completed the following entrance-to-major requirements with a grade of C or better in each: IST 110; IST 140 (or equivalent CMPSC 101 or CMPSC 121) IST 210; and IST 220.
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor’s and master’s degree in a shorter period of time than would be necessary if the degrees were pursued separately. Information Sciences and Technology undergraduates may apply for admission to the ISTBS/ISTMS IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.

4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST. Students must complete the Graduate School application (http://www.gradschool.psu.edu/apply/?CFID=4347157&CFTOKEN=80921289140639-22E9BF85-AF21-D9DA-933F35E90FB10EAB&jsessionid=84304e7b7ae255ec9a524e5b1e591250183e) for the major.
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. Thesis or scholarly paper credits may not double-count.

Degree Requirements

For the Bachelor of Science degree in Information Sciences and Technology, a minimum of 125 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>84</td>
</tr>
</tbody>
</table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The Keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits
Integrative Studies (may also complete a Knowledge Domain requirement)
  • Inter-Domain or Approved Linked Courses: 6 credits

12 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
  • United States Cultures: 3 credits
  • International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 6 credits of GQ courses; 3 credits of GS courses; and 3 credits of GWS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Integrated B.S. in Information Sciences and Technology / M.S. in Information Sciences and Technology

The College of Information Sciences and Technology offers an integrated B.S./M.S. (IUG) program designed to allow academically superior students in the Information Sciences and Technology major to obtain both the bachelor’s in Information Sciences and Technology and M.S. degree in Information Sciences and Technology in a shorter period of time than would be necessary if the degrees were pursued separately. The first two to three years of undergraduate coursework follow the same undergraduate curriculum that other students follow in the Information Sciences & Technology major. Interested students may apply for admission to the IUG program no earlier than February 15 of their sophomore year and no later than February 15 of their junior year after completing a minimum of 60 credits. If admitted to the IUG, the final years of study include two graduate courses, IST 504 in the fall and IST 505 in the spring, plus six credits of research methods courses, twelve credits of graduate specialty courses, and six credits of graduate thesis (IST 600) or scholarly paper (IST 594).

(Note: For Schreyer Honors College students, those who complete the graduate thesis for the Master’s requirement may use the graduate thesis, itself, to fulfill the undergraduate honors thesis requirement, as well. Honors students who opt for the Master’s scholarly paper must also complete an undergraduate honors thesis.)

The integrated B.S. in Information Sciences and Technology/M.S. in Information Sciences and Technology (IUG) degree meets the needs of the most academically talented students in the Information Sciences and Technology undergraduate major. A proportion of these successful students wish to pursue graduate studies sometime after graduation. Offering the IUG benefits these students by offering an accelerated path to a graduate degree. Additionally, the IUG program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research leading to both the Bachelor’s and Master’s degree.

For the B.S. in Information Sciences & Technology/M.S. in Information Sciences & Technology IUG program, a minimum of 125 credits are required for the bachelor’s degree and 30 credits for the M.S. degree. Students admitted to the IUG program may double-count a maximum of 12 credits to both their undergraduate and graduate degrees. The required 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate program. Students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IST 411</td>
<td>Distributed-Object Computing</td>
<td>3</td>
</tr>
<tr>

<td>IST 420</td>
<td>Fundamentals of Systems and Enterprise Integration</td>
<td>3</td>
</tr>
<tr>
<td>IST 421</td>
<td>Advanced Enterprise Integration: Technologies and Applications</td>
<td>3</td>
</tr>
</tbody>
</table>

Graduate thesis or scholarly paper credits may not double-count.

The objectives of the Integrated Undergraduate Graduate Program include:

1. To offer highly qualified students the opportunity to earn two degrees in less time than it would take to do two sequential degrees. In particular, IUG students may count up to 12 credits towards both their B.S. and M.S. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.

Admission Requirements
To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Information Sciences and Technology Form, a transcript, and two letters of recommendation (both from faculty members) to the IST Graduate Programs Office. The Director of Undergraduate Academic Affairs, in consultation with the Graduate Programs Coordinator, will help undergraduate candidates determine a proposed sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Acceptance into the IST IUG program will be determined by the Graduate Recruitment Committee.

Information Sciences and Technology undergraduate majors may apply for admission as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by February 15 of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST.

Students must complete the Graduate School application (http://www.gradschool.psu.edu/apply/?CFID=4347157&CFTOKEN=80921289140639-22E9BF85-4F21-D9DA-933F35E90FB10E8B&jssessionid=843047b7ae255ec9a524e5bf1e1e6729115868)

5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for the IUG in the Schreyer Honors College: http://www.shc.psu.edu/students/iug/program/

In addition, applicants must apply to and be admitted to the Graduate School of the Pennsylvania State University at the time of their application to the IUG degree program. These admission standards are high, as it is thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting Information Sciences and Technology majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted into the integrated program of study can apply for regular admission to the graduate program when they complete their undergraduate program of study.

Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses
Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. In their senior year, IUG students will take 6 credits of specified graduate work, courses IST 504 and IST 505, and 6 credits of methods courses. These 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate IST/B.S. support of option requirement. In their senior year, students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees. These courses must be at the 400-level or above. Students may choose any 400-level undergraduate option course (see below) that they are using to fulfill an undergraduate option requirement and apply the credits to both the undergraduate option requirement and the graduate specialty course requirement.

Credits associated with the thesis or culminating scholarly paper, i.e., IST 600 and IST 594, may not be double-counted. However, for Schreyer Honors College students, the Master's thesis deliverable, itself, may double-count for the undergraduate thesis deliverable requirement.

Total Credits 30

1 Choose graduate level methods course after consultation in advance with the student's faculty adviser.

Choose any 400 or 500 level course that contributes to the student’s chosen area of specialty with a maximum of six credits at the 400 level.
The total resulting credits will be a minimum of 155 credits, with 125 credits completed for the undergraduate IST degree. Twelve graduate credits will be completed in the senior year, and the remaining 18 graduate credits will be completed in the super senior year.

If for any reason a student admitted to the B.S./M.S. program is unable to complete the requirement for the Master of Science degree program in Information Sciences and Technology, the student will be permitted to receive the Bachelor's degree assuming all degree requirements have been satisfactorily completed.

Student performance will be monitored on an ongoing basis by the student's adviser and Graduate Programs. Students admitted to the integrated program must maintain a minimum cumulative GPA of a 3.3 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See information on Grade-Point Average in the Graduate Bulletin: [http://bulletins.psu.edu/graduate/degree-requirements/masters#](http://bulletins.psu.edu/graduate/degree-requirements/masters#)) For Schreyer Honors College students in the IUG program, students must maintain a minimum cumulative GPA of 3.4 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. Successful completion of a Schreyer Scholar's Master's thesis will be accepted as completion of the honors thesis requirement.

**Program Learning Objectives**

**Knowledge/Application:**

1. Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences.
   a. Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA.
   b. Apply the core concepts of the academic majors of IST and/or SRA to real-world problems.

**Problem-Solving:**

1. Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
   a. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions.
   b. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation.
   c. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
   d. Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information based solution.
   e. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).

**Communication (Individual and Team):**

1. Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
   a. Participate effectively on teams in order to accomplish a common goal.
   b. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word.
   c. Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people.
   d. Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status).

**Professional Responsibilities:**

1. Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.
   a. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem.
   b. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.

**Lifelong Learning:**

1. Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
   a. Employ information-seeking strategies and self-directed learning in pursuit of current knowledge.
   b. Enroll in professional development and tutoring opportunities.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

† Course satisfies General Education and degree requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes:

• 1 Credit of IST 495 - Internship is required.
• 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies Credits.
• 15 Credits of GQ and GWS require a grade of "C" or better.

Program Notes:

• IST 4XX* Select 3 credit from:
  • IST 402 - Emerging Issues and Technologies (3)
  • IST 441 - Information Retrieval and Organization (3)
  • IST 446 - An Introduction to Building Computer/Video Games (3)
  • IST 452 - Legal and Regulatory Environment of Privacy and Security (3)
  • IST 454 - Computer and Cyber Forensics (3)

Please note: IST courses are only offered once per year

IST 495 Internship: (1) Supervised work experience where the student is employed in an Information Science and Technology position in industry, government or academia. IST students are required to complete one internship, but may complete three. For more information, contact IST Internship Coordinator, Jane Kochanov at jxs121@psu.edu.

Students must complete a 3-credit course in "United States Cultures (US)
and a 3-credit course in "International Cultures (IL)."

Career Paths

IST allows you to explore some of the biggest challenges facing society and work to solve them by leveraging information and using technology. It blends skills from a number of fields – computer science, psychology, math, business, sociology, political science – so you can help people and organizations thrive. IST's Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops, interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

Careers

Because our courses blend technical knowledge with skills in communication and business, an IST degree allows for careers in nearly every industry including government, defense, consulting, business, entertainment, and medicine.

Information Sciences and Technology/Finance, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Information Sciences and Technology/Finance Minor is to enhance skills of students in the information sciences and finance. More organizations are integrating technology as part of their business operations, including finance. Finance is a key function of every business organization. Therefore, technology professionals with finance skills, and
finance professionals with technology skills are highly valuable in any organization.

**What is Information Sciences and Technology/Finance?**

Information Sciences and Technology/Finance is the area of study concerned with the design, implementation, testing and evolution of complex software systems, especially those related to a business' financial operations.

**You Might Like This Program If...**

- You enjoy numbers and "real world" applications of math.
- You are interested in technology and how businesses and banks use it to manage their assets.
- You want a career in technology as it relates to business or finance.

**Entrance to the Minor**

Students must apply for entrance to the minor no later than the beginning of their seventh semester.

**Program Requirements**

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Requirements for the Minor</td>
<td>21</td>
</tr>
</tbody>
</table>

**Requirements for the Minor**

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

<td>Investment and Portfolio Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

**Additional Courses**

Select 3 credits of FIN at the 400-level in consultation with an adviser.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Information Systems, B.S.**

**Program Description**

This major prepares students to enter rapidly expanding fields associated with technology. This includes programming, systems analysis and design, database administration, network management, support services and training, and management of information resources. Students obtain competence both in information technology and in business theory. Thus, the curriculum combines technical content with managerial aspects of information systems. Each student's background is complemented with basic business instruction in accounting, marketing, management, and finance. With business and non-business electives, the program is designed to develop necessary skills to be an effective Information Systems employee. Because the Harrisburg area is the center of industry and economic development for South Central Pennsylvania, students are provided with many opportunities to experience the exciting and challenging world of business.

**What is Information Systems?**

Information systems is concerned with managing data systems and related facilities for processing and retrieving internal business information. It can include study in programming, systems analysis and design, database administration, networking, support services, and management of information resources. Additionally, it often includes study of business and management.

**You Might Like This Program If...**

- You are interested in organizations and how they function.
- You have strong oral and written communication skills.
- You enjoy working with computers and information technology.
- You want a career in computer programming, business analysis, or information technology.
Entrance to Major
Entry to the Information Systems major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

Degree Requirements
For the Bachelor of Science degree in Information Systems, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed at the Capital College to earn the degree.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

- Foundations (grade of C or better is required.)
  - Quantification (GQ): 6 credits
  - Writing and Speaking (GWS): 9 credits

- Knowledge Domains
  - Arts (GA): 6 credits
  - Health and Wellness (GHW): 3 credits
  - Humanities (GH): 6 credits
  - Social and Behavioral Sciences (GS): 6 credits
  - Natural Sciences (GN): 9 credits

- Integrative Studies (may also complete a Knowledge Domain requirement)
  - Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44].

Integrated B.S. in Information Systems and M.B.A. in Business Administration

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Information Systems candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Information Systems and the Master of Business Administration. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master’s degree may be applied to both undergraduate and graduate degree programs. The Integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Information Systems and Master of Business Administration degrees. The total course load is reduced due to courses that can count towards both degrees. The first two years of the IUG program are identical to the first two years of the Bachelor of Science program. Students in the IUG program take five additional credits in their third year, and five fewer credits in their fourth year. The courses that count toward the Master of Business Administration degree requirements are included in the fourth year.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the students have completed 100 to 105 credits, which is at the end of the first semester of the senior year for typical students in the program. Students who have not maintained a 3.0 GPA in their graduate courses will be put on probationary status with respect to the IUG program. They will receive a warning letter regarding probationary status. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year.

Students have the choice of receiving the B.S. in Information Systems degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay undergraduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years.

If for any reason students admitted to the IUG program are unable to complete the requirements for the Master of Business Administration degree, the students will be permitted to receive the Bachelor of Science in Information Systems degree assuming all the undergraduate degree requirements have been satisfactorily completed. If the students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

Admission Requirements

To initiate the application process, students must submit a resume, a personal statement including career goals and how MBA will enhance their career goals, transcripts of courses taken outside Penn State, two letters of recommendation, with at least one from the School of Business Administration faculty, and a plan of study that integrates both undergraduate and graduate requirements. A graduate faculty adviser in collaboration with the Director of MBA Program will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.
The number of openings in the IUG program is limited. Applicants to the IUG program must have completed a minimum of 60 credits. Typical students would apply after completing between 60 and 90 credits, that is, after the fifth semester and before the end of the seventh semester. In addition, the applicants must earn a minimum of cumulative grade point average of 3.5 and complete the following Entry to Major courses or equivalent:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTG 211</td>
<td>Financial and Managerial Accounting for Decision Making</td>
<td>4</td>

<tr>
<td>MKTG 301</td>
<td>Principles of Marketing</td>
<td>3</td>
</tr>
<tr>
<td>or STAT 200</td>
<td>Elementary Statistics</td>
<td></td>
</tr>
</tbody>
</table>

To formally apply, students must submit a completed graduate school application. The students should mention in the notes section that the application is for the IUG program in Business Administration. The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) is not required for admission into the program; however, if students are interested in applying for a graduate assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Students applications will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Business Administration.

**Degree Requirements**

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Informatin Systems and Master of Business Administration degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

**Integrated B.S. in Information Systems/MSIS Program**

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Information Systems candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Information Systems and the Master of Science in Information Systems. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master's degree may be applied to both undergraduate and graduate degree programs. The Integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Information Systems and Master of Science in Information Systems degrees. </table>
To formally apply, students must submit a completed graduate school application. The students should mention in the notes section that the application is for the IUG program in Business Administration. The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) is not required for admission into the program; however, if students are interested in applying for a graduate assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Student applications will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Business Administration.

**Degree Requirements**

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Information Systems and Master of Science in Information Systems degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

**Student Outcomes**

Students will obtain:

- Knowledge in technologies that support the information environment.
- Knowledge in business or organizational processes that are supported by technology.
- General skills and abilities that promote good communication, problem-solving and analytical abilities, and the ability to work in a team environment.
- Skills to participate in and lead multidisciplinary teams in the development, implementation, and management of information technology solutions.

The program meets the objectives through varied experiences and an emphasis on good communication skills.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

**Harrisburg Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

# Course is an Entrance to Major requirement

**Career Paths**

Because the Harrisburg area is the center of industry and economic development for southcentral Pennsylvania, students are provided with many opportunities to experience the exciting and challenging world of business through internships and guest speakers in various courses.

**Careers**

Opportunities exist in systems development in positions such as systems analyst, systems designer, programmer, and analyst programmer. Another challenging career path for IS graduates includes positions in information systems management or project management. Graduates will find these opportunities in small businesses, large corporations, government, and education.

MORE INFORMATION (https://harrisburg.psu.edu/business-administration/information-systems/bachelor-science-information-systems)

**Opportunities for Graduate Studies**

The Bachelor of Science in Information Systems provides a sound background for students who plan to pursue graduate studies in fields associated with technology, including Penn State’s Master of Science in Information Systems program.

MORE INFORMATION (https://harrisburg.psu.edu/business-administration/information-systems/master-science-information-systems)

**Accreditation**

This program is AACSB accredited.

MORE INFORMATION (http://www.aacsb.edu)

**International Business Administration, Minor**

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.
Program Description

This minor provides undergraduate students in all business administration majors with further studies in such areas as international accounting, finance, information systems, comparative management, international marketing, or economics. The objective of the minor is to provide students who are interested in careers in international business with an understanding of problems and problem-solving methods that transcend national boundaries. Proficiency in a foreign language and study abroad provide an understanding of the social, political, and cultural context of the global marketplace. Except for Accounting, the minor can be included in the major with no additional courses being required. Professional Accountancy students may have to take 12 additional credits.

What is International Business Administration?

Organizations are increasingly international in the scope of their operations and routinely conduct business around the world. International business administration is a field that facilitates the study of management theory, human resources management, accounting, and logistics, within the greater sphere of multinational corporations. Professionals in international business are expected to analyze business portfolios and create and follow business strategies for global organizations. Trade, markets, and politics all fall within the expertise of a professional working for an international business.

You Might Like This Program If...
- You enjoy problem solving and are a good communicator.
- You are interested in how the economies of various countries are interconnected, and how they are affected by sociopolitical issues.
- You are interested in learning or expanding your knowledge of a world language.
- You enjoy international travel.
- You are interested in a career within the finance, accounting, marketing, or consulting industries.

Kinesiology, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

Kinesiology offers a comprehensive program of study in the science of human movement and is designed for students who want to prepare for professions involving physical activity and for graduate study in related areas. The Kinesiology major options are: Applied Exercise
and Health; Movement Science; and Exercise Science (offered only at Penn State Berks). All options require a culminating practicum or research experience. Relocation away from the University Park campus is generally necessary for the practicum. All options require a minimum of 120 credits for graduation. Additional requirements are mandated by the Pennsylvania Department of Education (PDE) for entrance to the Health and Physical Education (HPE) certification emphasis in the Applied Exercise and Health Option (AEH). Information about the major and its options can be found at http://www.hhdev.psu.edu/kines/index.html.

Students who have completed a minimum of 28 credits and have a 2.00 cumulative grade-point average are eligible for entrance into the major after completing an Entrance to Major form.

**Applied Exercise and Health Option**

This option provides applied interdisciplinary training in the foundations of the scientific understanding of exercise and health through the lifespan. Students identify one of two areas of emphasis that are certification-based and practice-oriented:

- a. courses and practical experiences directed toward certification by organizations such as the American College of Sports Medicine (ACSM) or the National Strength and Conditioning Association (NSCA), or
- b. a series of courses and student teaching leading to teacher certification.

In order to qualify for the teacher certification track, students must meet the requirements mandated by the Pennsylvania Department of Education (PDE). PDE requirements can be found at http://www.hhdev.psu.edu/kines/undergraduate/physical-health-education. The completion of the Applied Exercise and Health Option will prepare students to work in the private or corporate fitness arenas, community-based fitness organizations, and university or hospital settings, or be Pennsylvania certified in health and physical education (K-12) and secure teaching positions in public or private schools.

**Movement Science Option**

This option provides interdisciplinary scientific training in academic areas such as biomechanics, exercise physiology, movement neuroscience, psychology of physical activity, and sport history and philosophy to understand movement for prevention and diagnosis of chronic disease, rehabilitation and treatment, and/or theoretical study. Students are prepared for graduate study in many clinical fields including medicine, physical therapy, occupational therapy, physician assistant, cardiac rehabilitation, as well as a broad range of careers in biomedical and health-related fields.

**Exercise Science Option**

(Offers only at Penn State Altoona, Penn State Berks, and Penn State Harrisburg) This option is a program of study in the science of exercise. This program offers Kinesiology background and applied experience in fitness assessment, exercise physiology, exercise psychology, motor skill development, nutrition and healthy living skills. Graduates will be able to scientifically assess fitness levels of individuals. Analyzing those assessments, graduates will then be capable of designing and implementing appropriate exercise programs. Students in the Business Emphasis can obtain a Business Minor through this program. Students acquire basic business skills in accounting, marketing, management and entrepreneurial skills. Students choosing the Science Emphasis will select courses from a department list that will enhance their opportunity for graduate studies in Kinesiology-related fields, physical therapy and medical schools. The completion of the Exercise Science Option will enable graduates to compete for employment in the corporate fitness arena, private fitness clubs, community-based fitness organizations, hospital and university settings or possibly to operate their own health and fitness company.

**What is Kinesiology?**

Kinesiology refers to the study of human movement. This interdisciplinary field of study focuses on physical activity and includes specialized areas of study that include the arts, humanities, sciences and professional disciplines. These areas include biomechanics, psychology of physical activity, exercise physiology, history and philosophy of physical activity, motor development, as well as sports medicine and physical education pedagogy. This multi-disciplinary approach is useful for addressing health and wellness in a complex society.

MORE INFORMATION (http://www.nationalacademyofkinesiology.org/what-is-kinesiology)

**You Might Like This Program If...**

You enjoy working with people, have a passion for health and wellness, and are open to approaching problems with interdisciplinary strategies. As you learn about the human body as a whole, you will also have the opportunity to understand how you can apply your knowledge and skills to develop solutions that can help others in a number of ways, whether in a rehabilitation facility, with a professional sports team, in a corporate office or in a school setting.

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University, and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

**Degree Requirements**

<table>
<thead>

<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>0-2</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>95-107</td>
</tr>
</tbody>
</table>

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. KINES requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense
of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

18-27 of these credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 18-27 credits of General Education courses: Applied Exercise and Health Option - 9 credits GN, 6 credits GQ, 3 credits of GH, 6 credits of GS and 3 credits of GHW. Movement Science Option—9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GHW courses. Exercise Science Option—9 credits of GN courses; 6 credits of GQ courses; 3 credits of GHW courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44].

#### Additional Courses

Select 15 credits from approved 400-level KINES courses of the following:

| KINES 410 | Physical Growth and Motor Development                                                           |         |
| KINES 411 | Introduction to Musculoskeletal Injury and Rehabilitation                                       |         |
| KINES 420 | Psychosocial Dimensions of Physical Activity                                                     |         |
| KINES 421 | Exercise Psychology                                                                              |         |
| KINES 422 | Physical Activity Interventions                                                                 |         |
| KINES 423 | Psychology of Sports Injuries                                                                   |         |
| KINES 424 | Women and Sport                                                                                 |         |
| KINES 425W | Physical Activity in Diverse Populations                                                         |         |
| KINES 428 | Motivation and Emotion in Movement                                                              |         |
| KINES 429 | Psychology of Sport Performance                                                                  |         |
| KINES 439W | Ethics in Sport and Sport Management                                                            |         |
| KINES 440 | Philosophy and Sport                                                                             |         |
| KINES 441 | History of Sport in American Society                                                             |         |
| KINES 442 | Sport in Ancient Greece and Rome                                                                 |         |
| KINES 443 | The Modern Olympic Games                                                                        |         |
| KINES 444 | History of Athletics in Higher Education                                                          |         |
| KINES 446 | History of Sport in the Modern World                                                              |         |
| KINES 447W | Representing Sport in Popular Film                                                               |         |
| KINES 452 | Applied Cardiovascular Physiology                                                               |         |
| KINES 453 | Environmental Physiology                                                                        |         |
| KINES 454 | Women's Health and Exercise Across the Lifespan                                                   |         |
| KINES 455 | Physiological Basis of Exercise as Medicine                                                      |         |
| KINES 456 | Physical Fitness Appraisal                                                                       |         |
KINES 457  Exercise Prescription and Case Studies  
KINES 460  Movement Disorders  
KINES 463  Acquisition of Motor Skills  
KINES 465  Neurobiology of Sensorimotor Stroke Rehabilitation  
KINES 467  The Science of Performance Enhancement  
KINES 481W  Scientific Basis of Exercise for Older Adults  
KINES 483  Motor Patterns of Children  
KINES 484  Advanced Biomechanics  
KINES 485  Science of Training Athletes  
KINES 488  Mechanics of Locomotion  
KINES 492W  Programming for Business and Agencies  
KINES 493  Principles and Ethics of Coaching  
KINES 495E  Advanced Professional Development in Kinesiology  
KINES 499  Foreign Studies  

Additional Courses: Require a grade of C or better  
CHEM 106  Introductory and General Chemistry  3-5  
or CHEM 110  Chemical Principles I  
MATH 26  Plane Trigonometry (or Satisfactory performance on the MATH placement examination – i.e., placement beyond the level of MATH 26) 3  

Supporting Courses and Related Areas  
Select 9 credits in University-wide offerings from an approved list, in consultation with adviser 9  

Exercise Science Option (54-56 credits)  
Code  Title  Credits  
Prescribed Courses  
KINES 200  Muscle Training: Physiology, Programs, Techniques  3  
KINES 201  Cardiorespiratory Training for Health and Performance  3  
KINES 260  Research Skills in Kinesiology  3  
KINES 356  Activity and Disease  3  
KINES 358  Ergogenic Aids  1  
KINES 420  Psychosocial Dimensions of Physical Activity  3  
KINES 456  Physical Fitness Appraisal  4  
KINES 457  Exercise Prescription and Case Studies  3  
KINES 495C  Exercise Science Practicum  6  

Additional Courses  
Select 3 credits from KINES 1 to KINES 99 3  

Additional Courses: Require a grade of C or better  
MATH 22  College Algebra II and Analytic Geometry (or Satisfactory performance on the MATH placement examination – i.e., placement beyond the level of MATH 22) 3  

Select one of the following: 3-5  
CHEM 101  Introductory Chemistry  
CHEM 106  Introductory and General Chemistry  
CHEM 110  Chemical Principles I  
& CHEM 111  and Experimental Chemistry I  

Supporting Courses and Related Areas  
Select 16 credits from one of the following emphasis area from an approved list, in consultation with adviser 1  

Business Emphasis  
Science Emphasis  

1  At least 3 credits must be at the 400 level.  

Program Learning Objectives  
1. Students will demonstrate personal, professional, and ethical competency within the discipline of kinesiology.  
2. Students will be able to define fundamental processes, theories, and methods in kinesiology including the physiology, psychology, biomechanics, motor control, history, and philosophy of human movement.  
3. Students will be able define and demonstrate competency for planning and implementing kinesiology-related health, fitness, performance, and behavior change interventions and programs.  
4. Students will be able to perform assessments of physical activity and fitness.  
5. Students will demonstrate skills related to thinking critically, evaluating research knowledge and evidence, and analyzing quantitative data.  

Academic Advising  
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.  

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

Exercise Science Option - Business Emphasis

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 123-124

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
1 CHEM 101 for three (3) credits recommended, but not required. If CHEM 101 is taken, then it must be for three (3) credits.
2 PHYS 150L & 150P are prerequisites for KINES 384 Biomechanics
3 The following courses are ‘C’ required for the Business Minor
   • ECON 102
   • MGMT 301
   • MKTG 301
   • ACCTG 211
4 KINES 420 is offered fall semester only
5 KINES 492W is offered spring semester only

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Career Paths

#### Careers

Kinesiology students have many career options after graduation. Discussion with an adviser, Kinesiology faculty, or professionals in the field can provide additional insight. Many students use their Penn State Kinesiology degree in allied health and wellness fields, working with a wide range of populations in many different settings. Our applied options give students hands-on experience to work with children and adults to promote health and wellness. Kinesiology students are valuable employees, with their strong scientific background that they can apply to solving problems related to human movement.

MORE INFORMATION (http://www.americankinesiology.org/SubPages/Pages/Careers%20In%20Kinesiology)

#### Opportunities for Graduate Studies

Many students in Kinesiology are looking to attend graduate or professional school after they complete their undergraduate program. Kinesiology students are often interested in careers in physical therapy, occupational therapy, physician’s assistant, medical school, dentistry, nursing, or chiropractic school. The Kinesiology undergraduate program includes many of the prerequisite courses needed for many of these post-bachelor programs, providing students with a strong scientific foundation for further study.

Harrisburg

SCHOOL OF BEHAVIORAL SCIENCES AND EDUCATION

Educational Activities Building, 0216

**Entrance to Major**

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

**Degree Requirements**

For the Associate in Arts degree in Letters, Arts, and Sciences, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

**Knowledge Domains**

- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

**Foundations or Knowledge Domains**

- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

6 of these 21 credits are included in the Requirements for the Major.

**University Degree Requirements**

**Cultures Requirement**

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 6 credits of General Education GWS courses.

The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Letters, Arts, and Sciences, it is strongly recommended that a foreign language be taken since admission to a bachelor of arts program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a foreign language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Letters, Arts, and Sciences checksheet, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Letters, Arts, and Sciences representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 9 credits in any one of the following areas: arts, humanities, social and behavioral sciences, natural sciences and quantification, and foreign language skills 1

1 If foreign language courses are chosen, it is recommended that these courses be in one foreign language sequence.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Additional Notes

The associate degree in letters, arts, and sciences (2 LAS) is a degree which allows learners to experience a variety of academic disciplines as well as prepare for continued studies in a bachelor degree program. Please consult with your adviser if you have a particular bachelor degree in mind. Your adviser can help build a plan to help you meet any admission or course prerequisite requirements for the bachelor degree.

Students must complete on course with each of the following designations: W: Writing intensive; US and IL for International competency. This require can be met through General Education or Related courses.

Management, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
This major provides students with the knowledge and skills managers need in today's dynamic business environments. Core management courses provide a general overview of key management competencies including effective leadership, team building, managing and motivating human resources, facilitating organizational change and learning, and fostering and applying organizational knowledge for competitive advantage. Students complement this general management foundation with a human resource management, entrepreneurship, or individualized concentration.

Human Resource Management Concentration
This concentration prepares students for a career in human resource management by developing skills and competencies in managing diversity and equal opportunity, ethical and fair treatment of employees, human resource planning and staffing, employee training and development, compensation and benefits, performance management, labor relations, and protecting employee safety and health. Students completing this concentration would be prepared to demonstrate their knowledge of the core principles of human resource practices and the application of those principles for potential certification as a Professional in Human Resources (PHR), Senior Professional in Human Resources (SPHR), or Global Professional in Human Resources (GPHR).

Entrepreneurship Concentration
The Entrepreneurship concentration is designed to introduce undergraduate students to the process of new venture development. Topics covered in the concentration include business plan development, the nature of management in small business, and the role of creativity and innovation in the entrepreneurial process. Opportunities are provided for student participation in the development of an actual new business venture.

Individualized Concentration
The Individualized concentration is designed to provide students with a customized specialization that enables them to develop their own concentration in a management field of their choice. It allows flexibility in developing student knowledge and competencies in accordance with their personal, professional, and career interests.
What is Management?
Organizations need leaders—people who can effectively manage organizations and the people in them, as well as develop and implement strategies that will lead to success. Gain the knowledge and skills managers need to deal with contemporary challenges including leading and motivating people, decision making, developing strategies for competing in the global economy, balancing the interests of multiple stakeholders in complex, legal, political, and ethical environments, and leading change.

You Might Like This Program If...
- You have an aptitude for leadership or team-building.
- You have strong communication and motivation skills.
- You enjoy working with people.
- You want a career in business or human resources.

Entrance to Major
Entry to the Management major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301*, MKTG 301, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

* requires a grade of C or better

Degree Requirements
For the Bachelor of Science degree in Management, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives (non-business courses)</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed at the Capital College to earn the degree.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
Requirements for the Major

This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Prescribed Courses: Require a grade of C or better

MGMT 301 Basic Management Concepts 3

BA 462 Business Strategy 3

MGMT 341 Human Resource Management 3

MGMT 420 Negotiation and Conflict Management 3

MGMT 433 Leadership and Team Building 3

Additional Courses:

MATH 110 Techniques of Calculus I 4

or MATH 140 Calculus With Analytic Geometry I

SCM 200 Introduction to Statistics for Business 4

or STAT 200 Elementary Statistics

BA 241 Legal Environment of Business and Social and Ethical Environment of Business 4

or BA 243 Social, Legal, and Ethical Environment of Business

Additional Courses: Require a grade of C or better

Select 9 credits from one of the following three areas of concentration A, B, C:

A. Human Resource Management Concentration

MGMT 440 Advanced Human Resource Management

MGMT 441 Organizational Staffing and Development

Select 3 credits in MGMT at the 300-400 level from department list in consultation with academic adviser

B. Entrepreneurship Concentration

MGMT 431 Entrepreneurship and Small Business Management

MGMT 453 Creativity and Innovation

Select 3 credits in MGMT at the 300-400 level from department list in consultation with academic adviser

C. Individualized Concentration

Select 9 credits in MGMT at the 300-400 level from department list in consultation with academic adviser

Supporting Courses and Related Areas

Select 12 credits from 200-400 level business courses from: ACCTG, BA, ECON, FIN, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student’s interests

Integrated B.S. in Management and M.B.A. in Business Administration

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Management candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Management and the Master of Business Administration. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master’s degree may be applied to both undergraduate and graduate degree programs. The integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Management and Master of Business Administration degrees. The total course load is reduced due to courses that can count towards both degrees. The first three years of the IUG program are identical to the first three years of the Bachelor of Science program. The fourth year of the IUG program differs from the fourth year of the Bachelor of Science program because of the inclusion of courses that count toward the Master of Business Administration degree requirements.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the students have completed 100 to 105 credits, which is at the end of the first semester of the senior year for typical students in the program. Students who have not maintained a 3.0 GPA in their graduate courses will be put on probationary status with respect to the IUG program. They will receive a warning letter regarding probationary status. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year.

Students have the choice of receiving the B.S. in Management degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years.

If for any reason students admitted to the IUG program are unable to complete the requirements for the Master of Business Administration degree, the students will be permitted to receive the Bachelor of Science in Management degree assuming all the undergraduate degree requirements have been satisfactorily completed. If the students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

ADMISSION REQUIREMENTS

To initiate the application process, students must submit a resume, a personal statement including career goals and how MBA will enhance their career goals, transcripts of courses taken outside Penn State, two letters of recommendation, with at least one from the School of Business Administration faculty, and a plan of study that integrates both...
undergraduate and graduate requirements. A graduate faculty adviser in collaboration with the Director of MBA Program will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.

The number of openings in the IUG program is limited. Applicants to the IUG program must have completed a minimum of 60 credits. Typical students would apply after completing between 60 and 90 credits, that is, after the fifth semester and before the end of the seventh semester. In addition, the applicants must earn a minimum of cumulative grade point average of 3.5 and complete the following Entry to Major courses or equivalent: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301 and STAT 200 or SCM 200.

To formally apply, students must submit a completed graduate school application. The students should mention in the notes section that the application is for the IUG program in Business Administration. The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) is not required for admission into the program unless students have completed fewer than 24 credits at Penn State, in which case they must take GMAT and earn a score of at least 450. If students are interested in applying for a graduate assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Student applications will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Business Administration.

**DEGREE REQUIREMENTS**

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Management and Master of Business Administration degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy)

**Harrisburg Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Advising Notes**

- Courses required for the major must be generally taken within 10 years of entrance to major.
- MGMT 495 - Internship satisfies a business support requirement. For more information, contact the Management Program Coordinator.
- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)" B A 364 (US/IL) may be used to meet either the IL or US requirement, but may be used to fulfill only 3 of the 6 credit requirement.
- 30 credits of GA, GH, GHW, GN, and GS to include 6 Integrative Studies credits.
- 15 credits of GQ and GWS require a grade of "C" or better.

**Career Paths**

The Human Resources Management concentration prepares students for a career in human resource management by developing skills and competencies including managing diversity and equal opportunity, ethical and fair treatment of employees, planning and staffing, training and development, compensation and benefits, performance management, and protecting employee safety and health. The Entrepreneurship concentration introduces undergraduate students to the process of new venture development. Topics include business plan development, the nature of management in small business, and the role of creativity and innovation in the entrepreneurial process. Opportunities are provided for student participation in the development of an actual new business venture.

**Opportunities for Graduate Studies**

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Management candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Management and the Master of Business Administration.

**Accreditation**

This program is AACSB accredited.

**Marketing, B.S. (Harrisburg)**

**Begin Campus:** Any Penn State Campus

**End Campus:** Harrisburg, World Campus

**Program Description**

This major is designed for students interested in careers involving sales, promotion, services, distribution, research, and planning for business and the public sector. The major provides students with key concepts and methods of analysis in marketing. It focuses on understanding customer needs, developing products or services, creating and implementing marketing plans, monitoring customer responses, and projecting marketing activities for the future.

**What is Marketing?**

Marketing is a broad field with a primary purpose of generating demand for an enterprise's products or services. It involves an understanding of consumer behavior and research to determine consumer preferences and to guide firms in dealing with those preferences.

**You Might Like This Program If...**

- You have an aptitude and interest in sales and promotion.
- You have strong communication skills.
- You enjoy working with people and understanding their needs and motivations.
- You want a career in market research, advertising, service industries or product management.

**Entrance to Major**

Entry to the Marketing major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110
or MATH 140, MGMT 301, MKTG 301, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

**Degree Requirements**

For the Bachelor of Science degree in Marketing, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

At least 50 percent of the business credit hours required for the degree must be taken at the Capital College. No more than 60 credits should be from business and business-related courses.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

Integrated B.S. in Marketing and M.B.A. in Business Administration

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Marketing candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Marketing and the Master of Business Administration. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master's degree may be applied to both undergraduate and graduate degree programs. The Integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Marketing and Master of Business Administration degrees. The total course load is reduced due to courses that can count towards both degrees. The first two years of the IUG program are identical to the first two years of the Bachelor of Science program. Students in the IUG program take six additional credits in their third year, and six fewer credits in their fourth year. The courses that count toward the Master of Business Administration degree requirements are included in the fourth year.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the students have completed 100 to 105 credits, which is at the end of the first semester of the senior year for typical students in the program. Students who have not maintained a 3.0 GPA in their graduate courses will be put on probationary status with respect to the IUG program. They will receive a warning letter regarding probationary status. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year.

Students have the choice of receiving the B.S. in Marketing degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years.

If for any reason students admitted to the IUG program are unable to complete the requirements for the Master of Business Administration degree, the students will be permitted to receive the Bachelor of Science in Marketing degree assuming all the undergraduate degree requirements have been satisfactorily completed. If the students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

ADMISSION REQUIREMENTS

To initiate the application process, students must submit a resume, a personal statement including career goals and how MBA will enhance their career goals, transcripts of courses taken outside Penn State, two letters of recommendation, with at least one from the School of Business Administration faculty, and a plan of study that integrates both undergraduate and graduate requirements. A graduate faculty adviser in collaboration with the Director of MBA Program will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.

The number of openings in the IUG program is limited. Applicants to the IUG program must have completed a minimum of 60 credits. Typical students would apply after completing between 60 and 90 credits, that is, after the fifth semester and before the end of the seventh semester. In addition, the applicants must earn a minimum of cumulative grade point average of 3.5 and complete the following Entry to Major courses or equivalent: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301 and STAT 200 or SCM 200.

To formally apply, students must submit a completed graduate school application. The students should mention in the notes section that the application is for the IUG program in Business Administration. The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) is not required for admission into the program; however, if students are interested in applying for a graduate assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Student applications will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Business Administration.

DEGREE REQUIREMENTS

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Marketing and Master of Business Administration degrees. The total course load is reduced due to the

maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate
Materials Science and Engineering, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Minor in Materials Science and Engineering prepares students to understand the materials properties, materials processing techniques, characterization methods, and selection criteria in implementing engineering solutions. The materials selection for cutting edge mechanical design requires precise and definite knowledge of choice of materials, processing route, and mechanical response in service conditions. The materials engineer must have a sound expertise on modeling and experimental tools validating microstructural, mechanical, and electrical properties requirements for a specific design application. Hence, a wide variety of industries such as aerospace, automotive, energy, biomedical, and electronics to name a few, have a demand for engineers with a strong background in materials engineering. The MMSE covers introductory courses and laboratories on materials science in general, properties and processing of materials, materials thermodynamics and kinetics, and characterization of mechanical, microstructural and electrical properties of materials. The introductory courses and labs provide the basic foundation on materials science and engineering; the rest of the courses provide advanced knowledge on properties and selection, processing techniques, and characterization methods. Moreover, thermodynamics and kinetics of materials systems and process are also introduced. The above mentioned topics are covered by offering courses from sophomore through senior level.

What is Materials Science and Engineering?

Materials are ubiquitous. Materials play a role in every industry and facet of life. Materials science and engineering is an interdisciplinary study of the properties of matter and the exploration for new and creative uses of ceramics, metals, polymers and composites. Materials scientists and engineers study the entire life cycle of materials (production, synthesis and processing, manufacturing, use, recycling and reclamation) by employing science to solve engineering problems. This engineering discipline is unique in that our studies begin with understanding materials at the atomic scale, allowing for prediction and measurement of material properties, and creation of materials by design. What do you want to do with your career? Make alternative energy more economical? Improve human health, cure cancer? Provide clean drinking water to the world? Make transportation more efficient and environmentally friendly? Make everyday materials more sustainable? All these outcomes and more are possible by studying materials.
You Might Like This Program If...

- You enjoy problem-solving, math, and the physical sciences.
- You like understanding why materials react the way they do to various stimuli.
- You are interested in creating tools and materials for the aerospace, automotive, energy, biomedical, or electronics industries.

Entrance to the Minor

The Minor is open to any undergraduate who has: A minimum cumulative GPA of 3.0 or better and a minimum grade of "C" or better in the prerequisite courses for the minor.

Program Requirements

<table>
<thead>
<tr>
<th>Requirement for the Minor</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requirements for the Minor</td>
<td>18</td>
</tr>
</tbody>
</table>

The Minor in Materials Science and Engineering requires the completion of a total of 18 credits in materials related and other supporting courses. With the approval of the student’s program chair, some of these courses may also be used to satisfy the requirements for the student’s major bachelor’s degree. At least 9 unique credits counted toward the requirements for a student’s minor must not be used to fulfill the requirements for that student’s major.

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

</tr>
</tbody>
</table>

Additional Courses

Select 10 credits of the following:

- ESC 314 Engineering Applications of Materials
- MATSE 202 Introduction to Polymer Materials
- MATSE 400 Crystal Chemistry
- MATSE 401 Thermodynamics of Materials
- MATSE 402 Materials Process Kinetics
- MATSE 410 Phase Relations in Materials Systems
- MATSE 413 Solid-State Materials
- MATSE/ESC 417 Electrical and Magnetic Properties
- MATSE 419 Computational Materials Science and Engineering
- MATSE 430 Materials Characterization
- MATSE 436 Mechanical Properties of Materials
- MATSE 471 Metallurgy Laboratory I
- MATSE 472 Metallurgy Laboratory II
- MATSE 496 Independent Studies

1 Elective courses may be drawn from a wide variety of courses in Materials Science, Engineering, and Physics.

Completion of the minor may extend graduation date.

Transfer of credits from other institutions may be eligible to satisfy the minor requirements based on adviser review and program approval.

Graduation Requirements

To be given credit for the minor, undergraduate must:

- Maintain a GPA of 3.0 in the minor courses
- Complete 18 credits from the minor

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Mathematical Sciences, B.S.

Begin Campus: Any Penn State Campus
End Campus: Harrisburg
Program Description
The two options and the variety of the course offerings provide concentrations in various areas such as actuarial science, management science/operation research, statistics, education, and preparation for graduate studies.

Small classes, excellent faculty, opportunities to work with faculty on projects, and strong employment prospects are just some of the strengths of the program. Students will be helped to develop:

- a solid foundation in mathematical studies;
- an awareness of the utility of mathematics, statistics, and computers;
- skills in translating practical problems into mathematical terms;
- a competency in the use of modern mathematical tools;
- problem-solving skills; and
- an awareness of the importance of mathematics in society.

The program is designed to prepare students for employment in business, industry, government, and education immediately after graduation, but graduate study in mathematics or related disciplines is also a viable alternative. Mathematical modeling is emphasized, and all students are required to take courses in statistics and computer science.

What is Mathematical Sciences?
Mathematical Sciences is the study of mathematics and its application to problems in the real world. This discipline includes both theoretical topics such as calculus, abstract algebra, real analysis, and number theory and applied topics such as statistics, math modeling, operations research, and quantitative finance.

You Might Like This Program If...
- You like mathematics and learning how to apply it to real-life problems.
- You enjoy logical and analytical reasoning.
- You like solving new problems.
- You like analyzing methods of solution in order to make those methods more effective. (For the secondary education option especially)
- You enjoy helping others to grasp the utility and beauty of mathematics.

Entrance to Major
Entry to the Mathematical Sciences major requires that the student has completed with a grade of C or higher: MATH 140, MATH 141. A 2.00 or higher cumulative grade-point average is required.

The Mathematical Sciences Secondary Education Option prepares students to meet the requirements, as established by the Pennsylvania Department of Education, to be certified for the Instructional I Certificate in Mathematics at the secondary level.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

Mathematical Sciences Secondary Education Option
Additional Requirements
1. a minimum cumulative grade-point average of 3.0
2. completion of ENGL 15 or ENGL 30 and three credits of literature from approved list with a C or higher grade
3. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major

Selective Retention
Following entrance to the major, students will be evaluated for retention in the program based on:
1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.

To be eligible to student teach, students must:
1. maintain a cumulative GPA of 3.0 or higher;
2. complete all required Content and Education Courses with a C or higher grade;
3. satisfy any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.

In order to successfully complete the Secondary Education Mathematics Program, students must:
1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete all required Content and Education Courses with a C or higher grade;
4. pass the Penn State Harrisburg Mathematics Content Exam with an 80% or higher
5. complete a presentation portfolio; and
6. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.

Degree Requirements
For the Bachelor of Science degree in Mathematical Sciences, a minimum of 120 credits is required; for the Bachelor of Science degree in Mathematical Sciences with the Secondary Education option, a minimum of 121 credits is required:

<table>

</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing
intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

9-18 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
This includes 9-18 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses. In addition, the Secondary Education option includes 6 credits of GH courses and 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1. MATH 412 requires a grade of C or better.

### Program Learning Objectives

1. Have the ability to construct a written mathematical proofs supporting the work they do.
   - a. Demonstrate knowledge of axioms, definitions, and major theorems of a given mathematical topic and the ability to reason therefrom.
   - b. Demonstrate the ability to use and understand the results of standard computational algorithms.
   - c. Demonstrate how to model real world phenomena mathematically.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
1 Select any 300-400 level Mathematics
   In consultation with adviser, select 18 credits of 300-400 level Mathematics courses or SSET 295. Up to six credits may be replaced by an 200 or greater level CMPSC courses or CMPSC 122.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Secondary Education Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 121
Insurance, securities, real estate, and business service occupations are secondary math school teachers is projected to increase by 22 percent. The demand for sectors of the American labor market. Computer-related occupations are in mathematics is expected to grow faster than employment in other employment in occupations that require at least a bachelor's degree according to projections by the U.S. Bureau of Labor Statistics. (NCTM) and is approved by the Pennsylvania Department of Education. The secondary education option prepares students to teach middle school and high school mathematics and been recognized by the National Council of Teachers of Mathematics (NCTM) and is approved by the Pennsylvania Department of Education. 

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GH, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better. Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes

Students must complete, with a grade of "C" or higher, six (6) credits of college level mathematics, three (3) credits of college level English literature and three (3) credits of college level English composition. Students must also complete MATH 140 and MATH 141 for entrance to Secondary Education Option of Mathematical Sciences.

Career Paths

The Mathematical Sciences program is designed to prepare students for employment in business, industry, and government. The various options and concentrations within the program provide preparation for careers in actuarial science, management science/operations research, secondary education, or statistics. The secondary education option prepares students to teach middle school and high school mathematics and has been recognized by the National Council of Teachers of Mathematics (NCTM) and is approved by the Pennsylvania Department of Education.

Careers

According to projections by the U.S. Bureau of Labor Statistics, employment in occupations that require at least a bachelor’s degree in mathematics is expected to grow faster than employment in other sectors of the American labor market. Computer-related occupations are predicted to grow at a rate of more than 100 percent. The demand for secondary math school teachers is projected to increase by 22 percent. Insurance, securities, real estate, and business service occupations are projected to add more than 100,000 jobs, yielding an employment growth rate of 17 percent.

Opportunities for Graduate Studies

The mathematical sciences general option provides the broad mathematical background requisite for postgraduate studies in mathematical sciences, statistics, or related disciplines. Advanced study will lead to increased opportunities formed within higher education, business, and industry.

Accreditation

The secondary education option prepares students to teach middle school and high school mathematics and been recognized by the National Council of Teachers of Mathematics (NCTM) and is approved by the Pennsylvania Department of Education.

Mechanical Engineering Technology, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

The goal of the Mechanical Engineering Technology program is to provide our students with the necessary training and education so that they can provide high-level technical support to a variety of industrial, commercial, consulting, and governmental organizations. The emphasis of our program is in the application of scientific and engineering principles. Technical communication in oral and written form is also emphasized. Our graduates are expected to appreciate the ethical and societal responsibilities of a technologist, the concepts of Continuous Quality Improvement and the continuing impact of globalization of design, manufacturing and marketing of technical goods and services. Our graduates are trained to deal with choice of materials and methods that are safe, environmentally and aesthetically acceptable and economically competitive. Typical responsibilities that may be assigned to our graduates are the development and evaluation of machines and mechanisms; development, organization and supervision of manufacturing processes and procedures; the instrumentation, control
and testing of a process; quality control; technical marketing and sales; design of mechanical systems for heating and cooling and energy management.

The strengths of our program include:

- hands-on training;
- extensive laboratory experience;
- state of the art computer methods, excellent job placement and accreditation by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Graduates who wish to continue their professional development can take the Fundamentals of Engineering exam in Pennsylvania, a prerequisite for taking the Professional Engineering exam.

What is Mechanical Engineering Technology?

Mechanical engineering technology is the application of engineering and technology principles for the creation of products and mechanical systems. It emphasizes applied design and analysis of engineering systems and materials. Mechanical engineering technology differs from mechanical engineering in that its focus is the practical application and implementation of engineering principles as opposed to theoretical development and exploration of those principles.

You Might Like This Program If...

- You like hands-on and creative problem-solving.
- You like understanding how mechanical devices work.
- You work well within collaborative, multidisciplinary teams.
- You are interested in a career as an engineering technologist or testing engineer.

Entrance to Major

Entry to the Mechanical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

Re-enrollment

Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate's degree into the bachelor's degree should run a degree audit from LionPATH, using the MET major code, to determine their curriculum requirements.

Degree Requirements

For the Bachelor of Science degree in Mechanical Engineering Technology, a minimum of 128 credits is required:

<table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferrable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

21 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or...
in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

### Requirements for the Major

This includes 21 credits of General Education courses: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses, 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44].

### Additional Courses: Require a grade of C or better

Select 3 credits from the following:

- EMCH 211 Statics
- ET 300 Mechanics I: Statics
- MCHT 111 Mechanics for Technology: Statics

Select 3 credits from the following:

- EMCH 212 Dynamics
- ET 321 Dynamics
- MET 206 Dynamics

Select 3 credits from the following:

- EMCH 213 Strength of Materials
- ET 322 Strength of Materials
- MCHT 213 Strength and Properties of Materials

### Supporting Courses and Related Areas

Select 5-9 credits from the department approved list of courses

Select 12 credits from 300-400 level technology and engineering elective courses in consultation with an academic adviser and in support of the student's interests

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Program Notes
Technology or Engineering Electives include:
• MET 308 - Computer Aided Solid Modeling and Analysis (3)
• MET 417 - Finite Element Analysis (3)
• MET 432 - Fluid Power (3)
• MET 435 - Building Energy Systems (3)
• MET 462 - Internal Combustion Engine Design (3)
• ENVE 430 - Sustainable Engineering (3)
• or others offered by the program.

Career Paths
Mechanical Engineering Technology is a broad engineering discipline that provides a number of career possibilities. The Mechanical Engineering Technology program prepares students to provide high-level technical support to a variety of industrial, commercial, consulting, and governmental organizations.

Careers
Mechanical Engineering Technology graduates should experience good employment potential. Opportunities are expected to grow to keep pace with the demand for technical products. According to the U.S. Bureau of Labor Statistics and O*NET, opportunities for Mechanical Engineering Technologists will grow at a rate of 5-9% through 2026.

Mechanical Engineering, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
Built upon a broad foundation in physics, chemistry, and mathematics, this major has the objective of educating graduates to be problem solvers. Graduates of this program will have had opportunities to learn about applying scientific principles, engineering analysis, and engineering design to solve unstructured problems that are typical of those found in mechanical engineering. The major helps prepare graduates for a lifelong productive career, whether they choose professional practice, graduate school, or some other career path. Graduates will have had opportunities to learn how to work with others toward a common goal, to clearly express their ideas in written and verbal form, and to be capable of adapting to the continuously changing technology of the work environment.

After completing the fundamental science core, students may pursue their interest in mechanical engineering by studying fluid and solid mechanics, engineering materials and their properties, thermodynamics and heat transfer, computer-aided design, kinematics and dynamics of machine elements, machine design, finite elements, control systems, electricity, and electronic instrumentation and machinery. The students will be required to analyze and solve a significant mechanical engineering design problem during their senior year.

What is Mechanical Engineering?
Mechanical engineering is the largest and broadest engineering discipline. It uses a combination of physics, chemistry, mathematics, and materials science to study mechanical, fluid, and thermal systems. Mechanical engineers are problem solvers: They use their foundational knowledge to apply scientific and engineering methods to the design, construction, and testing of products and components to ensure that they are safe, reliable, and cost effective. Mechanical engineering differs from mechanical engineering technology in that it emphasizes the math and science behind the theoretical development of engineering analysis and design process principles rather than the application of these principles. Mechanical engineers design everything from athletic equipment, medical devices, theme park rides, and personal computers to engines and power plants.

You Might Like This Program If...
• You are a curious, creative problem solver.
• You are interested in engineering, math, chemistry, and physics.
• You are looking for a broad discipline with career flexibility.
• You enjoy working on team-based projects.

Entrance to Major
In addition to the Carnegie unit and minimum GPA requirements described by University policies, all students applying for entrance to any of the engineering majors at Behrend, Berks, or Capital college must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110, MATH 140, MATH 141, and PHYS 211. These courses must be completed by the end of the semester during which the admission to major process is carried out.

Degree Requirements
For the Bachelor of Science degree in Mechanical Engineering, a minimum of 131 credits is required:

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of
both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Total Credits 131

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

1. CHEM 111 - Experimental Chemistry I
2. CHEM 112 (3) or BIOL 141 (3) for the combination of CHEM 111 (1) and PHYS 214 (2).
3. PHYS 214 - General Physics: Wave Motion and Quantum Physics
4. 4XX Engineering Elective

See list below for eligible electives

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH,
GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes
4XX Engineering Electives include:
- ME 402 - Power Plants
- ME 408 - Energy Systems
- ME 431 - Internal Combustion Engines
- ME 455 - Automatic Control Systems
- ME 460 - Advance Machine Design Problems
- ME 461 - Finite element in Engineering
- ENVE 430 - Sustainable Engineering
- and others offered by the program

Career Paths
Because every industry values a mechanical engineer's problem-solving capabilities, you'll enjoy tremendous career flexibility in disciplines as varied as research, manufacturing, product and systems design and testing, health care, energy, the military, transportation, and consumer products. A mechanical engineering education also is excellent preparation for technical management, business, law, or technical sales.

Careers
Typical entry-level careers for mechanical engineering graduates are applications engineer, design engineer and mechanical design engineer, test engineer, equipment installation engineering, facilities technician, stress analysis engineer, product development engineer, and project engineer.

Opportunities for Graduate Studies
Graduate programs in mechanical engineering delve more deeply into areas of specialization such as automotive engineering, robotics, advanced manufacturing, thermal science, computational fluid mechanics, combustion modeling, or biomechanical engineering.

Professional Resources
- American Society of Mechanical Engineers (https://www.asme.org)
- Society of Women Engineers (http://societyofwomenengineers.swe.org)
- National Society of Black Engineers (http://www.nsbe.org/home.aspx)

Accreditation
This Bachelor of Science in Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET.

Mechatronics Technology, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
Mechatronics is an interdisciplinary technical discipline that combines mechanical, electrical, electronics, control and computer engineering technology. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The purpose of the mechatronics technology minor is to provide undergraduate students an opportunity to take relevant courses that will sequentially build on their knowledge and understanding of mechatronic systems and to provide recognition to those who do so.

What is Mechatronics Technology?
Mechatronics Technology is a multidisciplinary field of engineering and technology that includes a combination of mechanical, electronics, computer, systems, and controls technology, and focuses on real-world application of these areas. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The applications of mechatronics technology include medical, defense, manufacturing, robotics, automotive, and distributed systems and smart consumer products. Mechatronics engineers and technologists develop new solutions to industrial problems using mechanical and electronic systems and computer technology in addition to designing and building completely new products by integrating various technologies. They may also develop and test factory production lines by integrating automation to improve existing process.
You Might Like This Program If...

- You like hands-on and creative problem-solving.
- You like understanding how robotics or automation work.
- You are interested in working with technology as it relates to manufacturing and systems engineering. You work well within collaborative, multidisciplinary teams.
- You are interested in a career as a hands-on technologist or test engineer.
- You are interested in the synergy of electrical, computer and mechanical systems.

Additional Courses

Additional Courses: Require a grade of C or better

Select one of the following:

- CMPSC 121 Introduction to Programming Techniques
- CMPSC 200 Programming for Engineers with MATLAB
- CMPSC 201 Programming for Engineers with C++

Select 6-8 credits of the following:  

Group A

- CMPEN 270 Digital Design: Theory and Practice
- CMPEN 271 Microprocessors and Embedded Systems
- CMPEN 275 Introduction to Digital Systems
- CMPEN 331 Computer Organization And Design
- EE 310 Electronic Circuit Design I
- EE 387 Energy Conversion

Group B

- ME 345 Instrumentation, Measurements, and Statistics
- ME 345W Instrumentation, Measurements, and Statistics
- ME 357 System Dynamics

Select 6-7 credits of the following (one course each from Category I and II):

Category I

- CMPEH 472 Microprocessors
- CMPEN 472 Microprocessors and Embedded Systems
- EE 485 Energy Systems and Conversion
- EE 487 Electric Machinery and Drives
- ME 445 Microcomputer Interfacing for Mechanical Engineers

Category II

- EE 483 Introduction to Automation and Robotics Systems
- ME 455 Automatic Control Systems
- ME 456 Introduction to Robotics

Students graduating with a ME major should take 7-8 credits from Group A; students graduating with an EE major should take 7 credits from group B; all other students should take 6-8 credits from both A and B.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Harrisburg

SCHOOL OF SCIENCE, ENGINEERING, AND TECHNOLOGY
Political Science, B.A. (Harrisburg)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
The Political Science major offers the student an opportunity to understand not only American federal, state, and local governments, but also the political systems of other nations and the philosophies that underlie them. Courses are offered in American, comparative, and international politics, and in political theory and methodology. Internship opportunities are available.

What is Political Science?
Political science is one of the social sciences. It is the study of systems of governance and governmental institutions, political activity, political thought, and political behavior. Political science draws from many other academic disciplines, including economics, law, sociology, history, philosophy, geography, psychology, and anthropology. There also are subfields of political science, such as comparative politics, political theory, international relations, international law, public administration, and public policy. Political science students study how American government works (and doesn't work) and what can be done to improve government at the federal, state, and local level. In comparative government and international relations coursework, students study the politics and policies of other countries. Political theory courses examine the ideas of famous political philosophers, while courses on law and the legal process provide knowledge about the criminal justice and civil litigation systems.

You Might Like This Program If...
You are interested in how power and resources are allocated in society. Students in this major study governments, public policies, and political behavior in the United States and around the world from both a humanistic and scientific perspective. If you’re interested in how history, culture, and economics shape our lives and impact things like economic development, conflict, foreign policy, terrorism, globalization, and the environment, then this is the major for you.

Degree Requirements
For the Bachelor of Arts degree in Political Science, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>

<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.
Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language).

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Requirements for the Major
In meeting these requirements, students must take at least one course at any level from the four fields offered in the department: Political Theory/Methodology, American Politics/Public Administration, Comparative Politics, and International Relations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44. For more information, check the Suggested Academic Plan for your intended program.

Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in Political Science and Master’s in International Affairs (M.I.A.)
The integrated undergraduate-graduate (IUG) degree program (B.A. in Political Science/M.I.A. in International Affairs) will provide an opportunity for strong students in Political Science to complete a Master’s degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs.

Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Master’s in International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

The IUG degree in International Affairs and Political Science is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs’ existing collaborations and interactions with the College of the Liberal Arts.

Admission Requirements
The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study. Specific requirements:

1. Must be enrolled in the Political Science B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application (http://www.gradsch.psu.edu/portal). All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of Political Science.

1 Substitutions may be made with the written permission of the faculty adviser.
### M.I.A. Requirements for the Integrated B.A./M.I.A.

M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 credits at the 400 level or higher, at least 18 of which are from six core courses consisting of:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTAF 801</td>
<td>Actors, Institutions, and Legal Frameworks in International Affairs</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 802</td>
<td>Foundations of Diplomacy and International Relations Theory</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 803</td>
<td>Multi-sector and Quantitative Analysis</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 804</td>
<td>Global Cultures and Leadership</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 590</td>
<td>Colloquium</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either: 1. a master's paper; or 2. a supervised internship placement. If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master’s paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows:

1. four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale);
2. native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or
3. performance on a proficiency evaluation sufficient to equal four semesters of language learning. For this purpose, either Penn State’s proficiency certification process or another pre-approved proficiency assessment may be used. Language study does not provide credits towards the degree.

- PLSC 415
- PLSC 441
- PLSC 550
- PLSC 554

Tuition Charges, Grant-in-Aid and Assistantships

Students admitted to the School of International Affairs through the IUG with Political Science may be considered to receive financial assistance.

Program Learning Objectives

1. Understand Governmental Processes, Theories, and International Relations.
   b. Be Able to Compare Political Systems.
   c. Understand Political Theory.
   d. Knowledge of International Relations Concepts, Actors, Processes, Political Economy.
   e. Knowledge of Policy Issues.
2. Locate, Assess, Interpret and Communicate Political Information.
   a. Write effectively.
   b. Communicate Verbally and with Use of Technology.
   c. Assess and Interpret Political Data and Events.
   d. Define Research Problems and Develop Hypotheses.
   a. Understand World, National and Regional Politics.
   b. Demonstrate an Understanding of Democratic Values.
   c. Recognize and Understand Opposing Viewpoints.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 123

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

1 World Language: requires World Language at the 12th credit level.
   • PLSC 7 is typically offered spring semester only.
   • PLSC 117W is typically offered fall semester only.

3 Bachelor of Arts Degree Requirement: This requirement cannot be fulfilled by courses offered in a student's primary major, and cannot double count to meet General Education requirements. World Language credits for this requirement must be in a second World Language or beyond the 12th credit level of proficiency in the first World Language.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st], Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

Program Notes

• Students must complete at least 15 credits of 400-level courses
• The 9-credit writing requirement for PLSC may be met by taking either PLSC 17W or PUBPL 304W
• Concurrent majors in Political Science and Public Policy are not permitted
• Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)." (Prefer PLSC 110, PLSC 123, or PLSC 130 for US culture.)

Career Paths

Political Science is one of the most versatile majors in the liberal arts. The program provides students with an in-depth understanding of political issues while honing their ability to think critically and communicate persuasively. As a political science major, you will learn to conduct research and to evaluate information and assemble empirically supported arguments. These skills are necessary for success in a variety of careers, including law, public policy, lobbying, business, political campaigning, and government, as well as with non-profit organizations.

Careers

Penn State Political Science graduates are serving as advisors to the State Department; as attorneys and management specialists in the
Department of Justice; as speech writers, lobbyists and policy analysts on Capitol Hill; and even in the United States Senate. Our alumni have built successful careers in business, and as lawyers, teachers, and journalists. Many are successful entrepreneurs, some work for NGOs, others are leaders of major corporations. You can learn from their experience through our alumni mentoring program.

Project and Supply Chain Management, B.S. (Harrisburg)

End Campus: Harrisburg

Program Description
The Project and Supply Chain Management major concentrates on developing knowledge, skills, and abilities in both project and supply chain management, dynamic and important disciplines in modern corporations. Project management skills include the development of new projects, and coordinating procurement and project delivery systems. Supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution that enable organizations to develop value-creating supply chain networks. The major provides students with an opportunity to develop the quantitative and people skills necessary to design and operate today's complex management systems. Students learn how to manage critical components in organizational supply chains, and apply business analytic methods for organizing and fully integrating supply chain practices throughout the organization.

Graduates are uniquely well-prepared for careers in some of the highest in-demand professions in the modern business and government environments, managing the supply chain and project initiatives in world-class business firms, public sector organizations, construction, IT organizations, third-party logistics providers, and goods and services distribution operations.

What is Project and Supply Chain Management?
It has been estimated that well over half of all activities in modern corporations are project-based. From developing a new product to constructing a new building, the list of efforts that organizations must plan, manage, and deliver (ideally on time and under budget) is nearly endless. At the same time, globalization creates a growing need for professionals who can effectively manage complex supply chains. The study of project and supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution—the functions that enable organizations to cultivate value-creating supply chain networks.

You Might Like This Major If...
• You're not intimidated by large projects, or ones that have many moving parts.
• You are detail oriented.
• You are looking for a versatile, in-demand business degree.
• You are interested in pursuing a concurrent certificate in Enterprise Resource Planning (ERP) with SAP (available at Erie, the Behrend College and University College campuses, Beaver, Fayette, Greater Allegheny, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre and Scranton).

Entrance to Major
Entry to the Management major requires the completion of 5 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, MATH 110 or MATH 140, STAT 200 or SCM 200 and a 2.00 or higher cumulative grade-point average.

Degree Requirements
For the Bachelor of Science degree in Project and Supply Chain Management, a minimum of 120 credits is required:
**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**University Degree Requirements**
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**General Education**
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

15 of these 45 credits are included in the Requirements for the Major.

**Penn State University**

### Supporting Courses and Related Areas

Select 12 credits of approved electives courses from any area (see school list of suggested courses): 12

### Integrated B.S. in Project and Supply Chain Management and M.B.A. in Business Administration, Penn State Harrisburg

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Project and Supply Chain Management candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Project and Supply Chain Management and the Master of Business Administration. The ability to coordinate as well as concurrently pursue the two degree programs enables the students to earn both degrees in five years. Specifically, as many as twelve of the credits required for the master’s degree may be applied to both undergraduate and graduate degree programs. The Integrated Undergraduate-Graduate Program reduces the total number of credits needed to earn both degrees from 150 to 138.

Students in the IUG program must satisfy the requirements for both the Bachelor of Science in Project and Supply Chain Management and Master of Business Administration degrees. The total course load is reduced due to courses that can count towards both degrees. The first two years of the IUG program are identical to the first two years of the Bachelor of Science program. Students in the IUG program take three additional credits in their third year, and three fewer credits in their fourth year. The courses that count toward the Master of Business Administration degree requirements are included in the fourth year.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the students have completed 100 to 105 credits, which is at the end of the first semester of the senior year for typical students in the program. Students who have not maintained a 3.0 GPA in their graduate courses will be put on probationary status with respect to the IUG program. They will receive a warning letter regarding probationary status. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year.

Students have the choice of receiving the B.S. in Project and Supply Chain Management degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years.

If for any reason students admitted to the IUG program are unable to complete the requirements for the Master of Business Administration degree, the students will be permitted to receive the Bachelor of Science in Project and Supply Chain Management degree assuming all the undergraduate degree requirements have been satisfactorily completed. If the students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

### ADMISSION REQUIREMENTS

To initiate the application process, students must submit a resume, a personal statement including career goals and how MBA will enhance their career goals, transcripts of courses taken outside Penn State, two letters of recommendation, with at least one from the School of Business Administration faculty, and a plan of study that integrates both undergraduate and graduate requirements. A graduate faculty adviser in collaboration with the Director of MBA Program will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.

The number of openings in the IUG program is limited. Applicants to the IUG program must have completed a minimum of 60 credits. Typical students would apply after completing between 60 and 90 credits, that is, after the fifth semester and before the end of the seventh semester. In addition, the applicants must earn a minimum of cumulative grade

---

1. See the admission section in the general information section in this bulletin for the placement policy for Penn State foreign language courses.
point average of 3.5 and complete the following Entry to Major courses or equivalent: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301 and STAT 200 or SCM 200.

To formally apply, students must submit a completed graduate school application. The students should mention in the notes section that the application is for the IUG program in Business Administration. The Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) is not required for admission into the program; however, if students are interested in applying for a graduate assistantship, GMAT or GRE scores must be submitted by the end of the eighth semester.

Student applications will be evaluated based on their overall portfolio, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Business Administration.

DEGREE REQUIREMENTS
Students in the IUG program must satisfy the degree requirements for both Bachelor of Science in Project and Supply Chain Management and Master of Business Administration degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. All courses counted for both degrees must be at the 500- or 800-level.

Program Learning Objectives
Student graduates of our baccalaureate degree programs should be:

1. Effective communicators
   a. Present verbally, thoughts and ideas in a way that can be clearly understood by a target audience.
   b. Convey ideas in a clear, coherent manner in written communication.

2. Ethical and socially responsible
   a. Be competent in analyzing social and ethical decision making issues in organizations.

3. Critical thinkers
   a. Be able to think and identify multiple dimensions of company issues and performances and make an assessment of company performances in achieving financial and strategic objectives, tracking their achievements, and giving management of companies a more complete and balanced view of how the organization is performing.

4. Competent in their own discipline
   a. Calculate reorder point and EOQ for continuous review system as well as annual inventory holding costs and holding cost.
   b. Calculate the critical path for a project.
   c. Explain the functions and flows of the SCOR Model and how they interact.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement

Supporting Course: Skills Enhancement, this component of the degree program consists of 12 credits that provide students with an opportunity to pursue course work related to their career interests. Students should select their courses (in consultation with an adviser) from the Supporting Courses list below.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes

• 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits.
• 15 Credits of GQ and GWS require a grade of "C" or better
• Courses required for the major must generally be taken within 10 years of Entrance to Major.

Supporting Courses List

Computer Science Minor: CMPSC 122, CMPSC 221, CMPSC 360, and any 400 level CMPSC course

Information Science and Technology Minor: IST 110, IST 210, IST 220, IST 301, IST 302, IST 402, IST 431, and IST 432

Homeland Security Minor: PUBPL 201, PLSG 475, CRIMJ 304, CRIMJ 435, PUBPL 306, and PUBPL 475

Psychology: PSYCH 100, PSYCH 301, and any 400 level PSYCH course

Security and Risk Analysis: Any SRA courses

Any World Language Courses

Career Paths

The B.S. in Project and Supply Chain Management is one of only a handful of undergraduate degree programs in this field. Graduates
are uniquely prepared to work in project-intensive industries such as construction, insurance, information services and information technology, manufacturing, utilities, pharmaceuticals, third-party logistics, and goods and services distribution operations.

**Careers**

Employers of recent B.S. in Project and Supply Chain Management graduates include Frito Lay, Fairpoint Communications, Pitney Bowes, Spynel, General Electric, Webtec Railway Electronics, Business Resource Group, Modern Industries, Eddie Bauer, Ferguson Enterprises, Unisys, Eastman Kodak, Tyco Electronics, and IBM.

**Opportunities for Graduate Studies**

The B.S. in Project and Supply Chain Management can be a starting point for master's- and doctoral-level study of business administration, law, organizational behavior, corporate strategy, enterprise architecture, information technology, or another specialized discipline.

**Professional Resources**

- Project Management Institute (https://www.pmi.org)

**Accreditation**

The B.S. in Project and Supply Chain Management offered by the Black School of Business at Penn State Erie, The Behrend College, is accredited by AACSB International—The Association to Advance Collegiate Schools of Business. As the world's largest business education alliance, AACSB connects educators, students, and business to achieve a common goal: to create the next generation of great leaders. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,500 member organizations and more than 785 accredited business schools worldwide. AACSB's mission is to foster engagement, accelerate innovation, and amplify impact in business education. For more information, visit: http://aacsb.edu.

**Psychology, B.S. (Harrisburg)**

**Begin Campus:** Any Penn State Campus

**End Campus:** Harrisburg

**Program Description**

The Psychology major emphasizes the scientific study of human behavior in areas such as cognition, development, learning, physiology, personality, and social processes. The curriculum is designed to provide students with a broad background in psychological theory and research and to develop the analytical and critical thinking skills necessary to be good consumers of scientific information.

The Psychology program exposes students to a number of areas of psychology but allows flexibility in the specific courses that are taken in each sub-area. Students are also required to obtain applied experience by completing an internship or by assisting faculty with their research. Elective credits can be used for additional internship or research experience.

The Psychology program prepares students for careers in local, state, and federal government and for entry-level psychological services positions in human service, applied behavior, human resources, and related fields.
The Psychology program also provides a strong background for graduate education at both the master’s and the doctoral level in counseling, social work, and many areas of psychology.

**What is Psychology?**
Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

**You Might Like This Major If...**
- You are people-oriented and naturally curious about human behavior.
- You wonder how the mind works and why people do what they do.
- You are interested in a career as a psychologist or counselor.

**Entrance to Major**
Entry to the Psychology major requires a 2.00 cumulative grade-point average and an average of C (2.00) or better in any courses already taken in the major.

**Degree Requirements**
For the Bachelor of Science degree in Psychology, a minimum of 122 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>9</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>74</td>
</tr>
</tbody>
</table>

Students admitted to the IUG program may apply 11 credits to their graduate and undergraduate degrees in psychology.

**General Education**
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

6 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.
## Requirements for the Major

This includes 6 credits of General Education courses: 3 credits of GWS courses; 3 credits of GN courses.

Students in the IUG program will take 11 credits of graduate work in their senior year, courses PSYC 500, PSYC 520 and PSYC 521. These 11 credits will apply to the graduate program and the undergraduate PSYCH elective undergraduate requirement.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

### Code | Title | Credits
--- | --- | ---
| Prescribed Courses: Require a grade of C or better | ENGL 202A Effective Writing: Writing in the Social Sciences | 3 |
| | PSYCH 100 Introductory Psychology | 3 |
| | PSYCH 301 Basic Research Methods in Psychology | 4 |

### Additional Courses: Require a grade of C or better

- BISC 4 Human Body: Form and Function
- or BIOL 141 Introductory Physiology

(At least 15 credits of the following courses must be at the 400 level.)

Select 4 credits from:

- PSYCH 200 Elementary Statistics in Psychology (Statistics)
- or STAT 200 Elementary Statistics

Select 6 credits from two different developmental categories of the following (3 credits each category):

- Category 1 (Statistics)
  - PSYCH 212 Introduction to Developmental Psychology
- Category 2a (Lifespan)
  - PSYCH 212 Introduction to Developmental Psychology

Select 6 credits from two different individual difference categories of the following (3 credits each category):

- Category 3a (Social Psychology)
  - PSYCH 221 Introduction to Social Psychology
  - or PSYCH 42 Advanced Social Psychology

Select 6 credits from two different clinical categories of the following (3 credits each category):

- Category 3d (Health Psychology)
  - PSYCH 441 Health Psychology

Select 6 credits from two different experimental categories of the following (3 credits each category):

- Category 5a (Physiological Psychology)
  - PSYCH 260 Neurological Bases of Human Behavior
  - or PSYCH 46 Physiological Psychology

Select 3 credits from applications in psychology of the following:

- Category 6 (Applied Experience)
  - PSYCH 395 Internship
  - or PSYCH 49 Research Projects

Select 12 credits of any PSYCH courses not used above, with the exception that only one course selected from any Category 1 through 5 will count for the major.

### Supporting Courses and Related Areas

Select 6 credits of the following:

- AAAS, AMST, ARAB, ART, ARTH, BRASS, CART, CMUS, CAMS, CAS, CHNS, CMLIT, COMM, DANCE, ELISH, ENGL, ENLSH, FR, GER, GREEK, HCOMM, HEBR, HIST, HUM, IHUM, INART, IT, JST, JAPNS, KOR, LATIN, LING, LIT, MEDVL, MUSIC, PHIL, PHILO, PHLOS, PORT, RLST, RUS, SPST, SPAN, STS, THEA, THTRE

- WMNST 106N Representing Women and Gender in Literature, Art and Popular Cultures
- WMNST 101 The African American Woman
- WMNST 102 Women of Color: Cross-Cultural Perspective
- WMNST 104 Women and the American Experience
- WMNST 117 Women in Modern History
- WMNST 137 Women and Religion
- WMNST 194 Women Writers
- WMNST 205 Gender, Diversity and the Media
- WMNST 270 Race and Gender in Literature Translated from French
- WMNST 407W Women and Theatre
- WMNST 430 Women in American Society
- WMNST 438 Feminist Philosophy
- WMNST 455 Gender Roles in Communication
- WMNST 462 Reading Black, Reading Feminist
Admission Requirements

To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Applied Research Psychology Application Form, a transcript, and three letters of recommendation, with at least two from faculty members. A graduate faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program.

Psychology undergraduates may apply for admission by no later than February 15th the spring of their junior year after completing a minimum of 45 credits, if they meet the following admission requirements:

1. Grade point average of 3.50 or above cumulative.
2. Completion of undergraduate statistics and an undergraduate research course with an A- or above in both.
3. Completing 18 credits or more in psychology with a psychology GPA of 3.67 or above.
4. Typical successful candidates will obtain GRE scores of 146 or above on both the verbal and quantitative sections, with an analytical score of 3.5 or above.
5. Complete interviews with graduate faculty member.
6. Provide three professional letters of recommendation with at least two from academic references.

Integrated B.S/M.A. in Applied Psychological Research

The Applied Research Psychology Program offers an integrated B.S./M.A. (IUG) program designed to allow academically superior psychology undergraduates to obtain both the bachelor’s and M.A. degree within five years of study. The first three years of undergraduate coursework are the same as other psychology undergraduates, but the interested students apply for the IUG program in the spring of their junior year of study. If admitted to the IUG, the fourth year of study includes the graduate courses PSYC 500, Research Methods (PSYC 520) in the fall and PSYC 521 in the spring. The IUG students then complete the remaining master’s degree requirements in the fifth year, including the master’s paper (PSYC 530). The integrated B.S./M.A. degree in Psychology meets the needs of the most academically talented students in the Psychology undergraduate major. A large proportion of the most academically talented students apply or wish to apply to graduate schools during their final year of undergraduate studies or soon after graduation. These students can benefit from the integrated degree because it provides a more challenging curriculum that allows them to accelerate their program of study to possibly receive an undergraduate and graduate degree within 5 years of study. Additionally, the integrated program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research and clinical experience leading to both the Bachelor and Master’s degree.

For the IUG in Applied Psychological Research, a minimum of 122 credits are required for the bachelor’s degree and 35 credits for the M.A. degree. The graduate credits for PSYC 500, PSYC 521 and PSYC 520 (11 total credits) can apply to both the M.A. degree and as psychology electives for the bachelor’s degree.

The objectives of the Integrated Undergraduate Graduate Program in Applied Research Psychology include:

1. To offer highly qualified students the opportunity to earn two degrees in five years. In particular, IUG students may count up to 12 credits towards both their B.S. and M.A. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.
6. To allow students to coordinate as well as concurrently pursue the two degree programs, which enables them to achieve greater depth and comprehension than if the degrees are pursued sequentially.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor’s and master’s degree in five years. Psychology undergraduates may apply for admission to the IUG program in Applied Research Psychology by no later than February 15th the spring of their junior year after completing a minimum of 45 credits, if they meet the following admission requirements:

1. Grade point average of 3.50 or above cumulative.
2. Completion of undergraduate statistics and an undergraduate research course with an A- or above in both.
3. Completing 18 credits or more in psychology with a psychology GPA of 3.67 or above.
4. Typical successful candidates will obtain GRE scores of 146 or above on both the verbal and quantitative sections, with an analytical score of 3.5 or above.
5. Complete interviews with graduate faculty member.
6. Provide three professional letters of recommendation with at least two from academic references.
4. GRE scores are required for the IUG program. Typical successful candidates will obtain GRE scores of 146 or above on both the verbal and quantitative sections, with an analytical score of 3.5 or above.

5. Complete interviews with graduate faculty members.

6. Provide three professional letters of recommendation with at least two from academic references.

These admission standards are high, as it thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting psychology majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted in to the integrated program of study can apply for regular admission when they complete their program of study. These materials must be completed by the spring of the junior year to allow admission into the IUG program the following fall.

Total Credits 36-38

1. Demonstrates familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. Understand and apply psychological principles to personal, social, and organizational issues.
   a. Demonstrate knowledge of major psychological concepts, theories, and empirical findings.

b. Demonstrate the ability to apply psychological concepts and theories to research and real life situations.

Research Skills:

1. Understand basic research methods in psychology, including research design, data analysis, and interpretation.
   a. Differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
   b. Demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.

Thinking Skills:

1. Respect and utilize critical and creative thinking skills.
   a. Use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes
   b. Demonstrate critical thinking in the analysis and evaluation of information to distinguish scientific from nonscientific claims related to psychology. OR Demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.

Communication Skills:

1. Demonstrate the ability to communicate effectively in a research project, or capstone clinical or research experience.
   a. Communicate effectively (in writing and/or orally) the results of a project or internship.
   b. Demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.

Diversity and Ethical Considerations:

1. Be able to tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science.
   a. Show evidence of knowledge and appreciation for cultural diversity and relativity in human experience and for the complexity of human behavior and interactions.
   b. Demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
   c. Demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.

Career-related Skills:

1. Knowledge of different career areas that are appropriate for psychology majors.
   a. Demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
   b. Demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

Program Learning Objectives

Content Knowledge:

1. Demonstrates familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. Understand and apply psychological principles to personal, social, and organizational issues.
   a. Demonstrate knowledge of major psychological concepts, theories, and empirical findings.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of
both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

**Harrisburg Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Advising Notes**

- GWS, GQ, GA, GH, GS, and GHW are codes used to identify General Education requirements.
- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirements. All students are required to take one IL and one US course before
Supporting Course List #1 (select 6 credits)

Program Notes

- Students must complete a 3-credit course in “United States Cultures (US)” and a 3-credit course in “International Cultures (IL).”
- At least 15 credits from supporting list courses must be at the 400 level.

Supporting Course List #1 (select 6 credits)

Career Paths

According to projections by the U.S. Bureau of Labor Statistics, most bachelor’s-level Psychology graduates will move toward positions in human services, where an increase of 18 percent in job growth is expected in some areas. Other employment fields for psychology graduates, including entry-level management, human resources, and sales, anticipate growth between 14 and 16 percent.

Careers

The psychology program prepares students for careers in local, state, and federal government and for entry-level psychological services positions in human service, applied behavior, human resources, and related fields.

Opportunities for Graduate Studies
MORE INFORMATION (http://harrisburg.psu.edu/behavioral-sciences-and-education/social-sciences-and-psychology)

The Psychology program also provides a strong background for graduate education, including Penn State’s Master of Arts programs in Applied Behavior Analysis or Applied Clinical Psychology.

Public Policy, B.S.

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
The Public Policy major is designed for students interested in policy issues, politics, public administration, and related areas like policy analysis and policy advocacy. The program explores a myriad of critical issues facing our communities, the nation, and the world. Students receive the educational foundation for careers in the public sector, in government-related businesses, and in non-profit organizations, as well as for graduate work in the fields of law, public administration, criminal justice, public policy, political science, and health care administration. Building on the program core, students may choose electives from a broad array of courses in public policy and other areas. Students may wish but are not required to pursue a concentration within the Public Policy major. The following concentrations are available:

1. U.S. Public Policy
2. Law and Justice
3. International Policy

Students should consult their adviser for a complete listing of courses in each of these concentrations. Overall, the Public Policy program seeks to advance the ideals of an active, informed citizenry and a commitment to public service.

Our proximity to the state capital at Harrisburg provides students with a rich environment for both study and for internships. In addition to our full-time faculty, Public Policy draws on part-time faculty with particular professional strengths. In recent years students have explored politics and political issues in classes taught by a state senator, a former lieutenant governor, a corrections system administrator, and a governor’s press secretary. This integration of academic study with the “real world” of Pennsylvania politics and policy making is further enhanced through quality internships. The Public Policy program prides itself in placing qualified students in internships that facilitate the development of professional skills and promote the prospects for professional employment following graduation. Internship options include the Harrisburg Semester: Public Service Leadership Internships (PSLI). (For more information, see www.hbg.psu.edu/hbg/hburgsem (http://www.hbg.psu.edu/hbg/hburgsem)). Students are encouraged to complete an internship during their senior year. Additional information regarding internships may be obtained by contacting the Public Policy Internship Coordinator.

What is Public Policy?
Public Policy is a discipline that focuses on the systematic analysis of public policy issues and decision processes. It includes study in the role of economic and political factors in public decision-making and policy formulation, microeconomic analysis of policy issues, resource allocation and decision modeling, and policy advocacy.

You Might Like This Program If...
• You have an interest in fostering positive policy change.
• You are concerned about critical issues facing your community or nation.
• You would enjoy working with others to solve these critical issues.
• You are interested in a career in government or with an NGO or non-profit.

Entrance to Major
Entry to the Public Policy major requires a 2.00 or higher cumulative grade-point average and an average of C (2.00) or better in any course already taken in the major.

Admission Requirements for Transfer Students
Transfer students must have a 2.00 or higher cumulative grade-point average. The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg.

Degree Requirements
For the Bachelor of Science degree in Public Policy, a minimum of 120 credits is required:

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>16</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>65</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.
Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

6 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 6 credits of General Education GS courses.

At least 15 credits must be at the 400 level.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Additional Courses
Select 9 credits from the following:
- PLSC 300-499
- PUBPL 241 Computer Applications in Public Affairs/Criminal Justice
- PUBPL 300-499

Select 6 credits of the following:
- PLSC 419 The Bureaucratic State
- PLSC 425 Government and Politics of the American States
- PLSC 444 Government and the Economy
- PLSC 488 Comparative Public Policy
- PLSC 489 Public Administration
- PUBPL 305 Leadership Studies

Select one of the following:
- PUBPL 481 Seminar in Environmental Policy
- PUBPL 482 Seminar in Health Policy
- PUBPL 483 Seminar in National Security Policy
- PUBPL 485 Seminar in Welfare Policy
- PUBPL 490 Seminar in Public Policy

Supporting Courses and Related Areas
Select 12 credits of the following:
- ACCTG 200-499
- AFRAS 300-499
- AMST 300-499
- BESC 300-499
- COMMS 300-499
- CRIMJ 300-499
- ECON 300-499
- ENVE 460 Environmental Law
- SRA 211 Threat of Terrorism and Crime
- FIN 300-499
- HIST 300-499
- MGMT 300-499
- MKTG 300-499
- SCLSC 300-499
Select 20 credits in consultation with an academic adviser and in support of the student's interests.

Program Learning Objectives

1. Understand Political Processes and Government Operations at National, State & Local Levels
   a. Understand Constitutional Foundations, Institutions & Political Processes in the U.S.
   b. Understand Role of States in Federal System and Local Governments within States
   c. Understand Operation of Government Agencies

2. Understand and Analyze Policy Creation Process, Policy Implementation & Policy Impact
   a. Understand Roles of Legislatures, Agencies & Interest Groups in Policy Formation
   b. Attain Familiarity with Selected Public Policies and Their Impact
   c. Acquire Ability to Analyze Critically the Content and Impact of Public Policies

3. Be Prepared to Function in Policy-Related Careers in Government and NGOs
   a. Ability to Write Clearly and Concisely
   b. Ability to Communicate Effectively Using Oral Skills and Technology
   c. Knowledge of Leadership Qualities and Strategies
   d. Ability to Function Successfully in Policy-Related Work Environments
   e. Ability to Understand Research Methods and Use Statistics
   f. Knowledge of Microeconomics and Macroeconomics

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

The Public Policy major is designed for students interested in policy analysis and policy advocacy. Students in the Public Policy major receive the educational foundation for careers in the public sector, in government-related businesses, and in non-profit organizations.

Opportunities for Graduate Studies

The Public Policy program also provides a strong background for graduate education, including Penn State’s Master of Public Administration, Master of Professional Studies in Homeland Security, Master of Health Administration, Master of Arts in Criminal Justice, and the PhD in Public Administration.

Science, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The bachelor of science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice and who require a high degree of flexibility to obtain their educational objectives. After completing foundation courses in calculus, chemistry, physics, and the life sciences, students will select additional science courses from designated areas. A large number of supporting credits permit students to readily include significant breadth or specialization into their undergraduate curriculum. Some examples include minors in business, computer and information science, education, kinesiology, or other fields. The degree allows students throughout the Commonwealth to become familiar with both the theory and the practice of science. It can help prepare students for various careers in pharmaceutical, biotechnical, chemical, medical, and agricultural industries. The degree can also be tailored to meet the specific requirements of professional programs such as medical, dental, or pharmacy schools. The General Science option of the B.S. Science degree allows for the most flexibility. Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered:

- Biological Sciences and Health Professions Option
- Legal Studies, Government Service, Public Policy Option
- Life Sciences Option

Career Paths

Our proximity to the state capital in Harrisburg provides students with a rich environment. In addition to our full-time faculty, public policy draws on part-time faculty with particular professional expertise and strengths. In recent years, students have explored politics and political issues in classes taught by a state senator, a former lieutenant governor, a corrections system administrator, and a governor’s press secretary. This integration of academic study with the practice of Pennsylvania politics and policy making is further enhanced through quality internships that enhance learning outcomes by immersing students in a credit-earning, real-world experience.

Careers

The Public Policy major is designed for students interested in policy issues, politics, public administration, and related areas like policy analysis and policy advocacy. Students in the Public Policy major...

- Mathematical Sciences Option
- Physical Sciences Option

Not all of these options are available at all locations, and there are minor distinctions of the core curriculum at some locations, so see the Science program director at your College for further details.

Two-Year Preprofessional Preparation
The first two years of the Science major (62 credits) can meet the preprofessional needs of those interested in admission to some schools of pharmacy, physical therapy, optometry, nursing, and physician assistant training. Successful students can then transfer after two years of undergraduate study to the professional school to which they are admitted. Note, however, that no Penn State degree can be awarded after only two years (62 credits) of study in the Science major. Also, note that the abbreviated two-year curriculum alone does not prepare students for admission to professional schools of general medicine, veterinary medicine, or dental medicine. Consult with your college's health sciences professional adviser for additional information.

What is Science?
The Science major provides a broad and interdisciplinary foundation in the natural sciences. The Science BS program uses the principles of chemistry, physics, and life sciences to understand how these integrate over general areas including biological sciences and health professions, public policy, and science research and development.

You Might Like This Program If...
- You are intrigued by science and desire a career in current and emerging interdisciplinary science disciplines, health professions, or melding science with law, policy or business.

In order to be eligible for entrance to the Science major, a student at any location must have:
1. attained at least a 2.00 cumulative grade-point average;
2. completed MATH 140 with a grade of C or better;
3. completed at least two of the following courses, BIOL 110; CHEM 110; PHYS 211 or PHYS 250, with a grade of C or better.

Degree Requirements
For the Bachelor of Science degree in Science, a minimum of 124 credits is required, with at least 15 credits at the 400 level:

<table>

</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

15 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or
within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Accelerated Science B.S./M.B.A. Program (SCBUS_BS)**

*Students must begin and complete the Accelerated Science B.S./M.B.A. Program at the University Park campus.*

Students admitted to this special cooperative program between the Eberly College of Science and The Smeal College of Business will be able to combine a Bachelor of Science degree in the Science major, with a Master of Business Administration degree. Highly motivated students, who enter the University with a sufficient number and proper distribution of AP credits, will have the opportunity to complete the requirements for both programs within five years.

**What is the Accelerated Science B.S./M.B.A. Program?**
The Accelerated Science B.S./M.B.A. Program is designed to educate the leaders in scientific industry, by providing students with a rigorous science background and undergraduate degree along with a graduate degree in business administration.

**You Might Like This Program If...**
- You love studying science, but don’t necessarily want a career in a laboratory.
- You enjoy coursework in multiple science disciplines and in business.
- You aspire to leadership roles.
- You enjoy working with others on a daily basis.
- You want the opportunity to move into a leadership role early in your career.

**Program Requirements**
The B.S. degree in the Science major General Science option, will be conferred upon satisfactory completion of:

1. The first semester of course work in The Smeal College of Business M.B.A. program (i.e., a minimum of 12 graduate credits).
2. A minimum of 112 acceptable undergraduate credits, which must include:

1. The University's General Education requirements in the areas of Writing and Speaking (9), Health and Physical Activity (3), Arts (6), Humanities (6). The University's General Education requirements in the areas of Quantification, Natural Sciences, and Social and Behavioral Sciences will be satisfied by course work listed under headings "c" and "i".

2. These requirements may be double counted in order to satisfy other requirements in the program.

3. Students must complete three Eberly College of Science Cooperative Education experiences, including at least one experience which is a full semester in length.

**Career Paths**

Graduates with a B.S. in Science and a Master’s degree in Business Administration have successfully established careers in the science and business industries. Graduates of this unique integrated undergraduate-graduate program (IUG) are equipped to step into leadership roles instead of the more common entry-level positions of their peers. This accelerates the careers of our graduates, which leads to greater impact and higher earning potential over a lifetime.

**Careers**

Graduates of the B.S./M.B.A. program have pursued careers in a number of industries including, but not limited to the following:

- Consulting
- Finance
- Healthcare
- Manufacturing
- Marketing
- Medical Devices
- Pharmaceuticals
- Technology

MORE INFORMATION (http://science.psu.edu/bsmba/program-information/potential-employers)

**Opportunities for Graduate Studies**

For more information on the M.B.A curriculum, please visit the Smeal College of Business website (https://mba.smeal.psu.edu).

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

## Suggested Academic Plan

### Harrisburg Campus

**General Option**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- Life Science: BMB, BIOL, BIOTC, MICRB
- Mathematical Science: CMPSC, MATH, STAT
- Physical Science: ASTRO CHEM, PHYS

### University Requirements and General Education Notes:
- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
- GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Program Notes:
- This outline is only a suggested recommended academic plan. There is considerable room for adjusting the necessary courses to fit your individual needs and goals. For example, a student may take CHEM 110 along with CHEM 111 during semester 1, in which case the student may then take CHEM 112 along with CHEM 113 during semester 2. Another example, a student could choose to take a world language course during other/earlier semesters, such as semester 1 and 2. Remember, most students only have to average about 16 credits per semester to graduate in four academic years (or eight semesters). The Science major requires a total of 124 credits.
- Do not overlook the opportunity for Independent Study/Research credit, Cooperative Education, or Study Abroad Opportunities.
- For the various supporting/elective courses each student is required to complete the major, one should consider completing a sequence of courses from the same department/program as opposed to completing all introductory courses from many different departments/programs. Students can even consider completing a minor in another academic discipline with the various supporting/elective courses and any 400 level course work needed.
- For additional information such as the Teamwork and Interpersonal Communications approved course list (List 1), Global, Social, and Personal Awareness approved course list (List 2), Supporting/elective Program List and other FAQs please visit the following Web site www.science.psu.edu/sciencesbs.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Career Paths
Penn State students with a BS in Science are prepared for a broad range of careers and graduate programs. The solid foundation of science and math prepares students to think critically and scientifically in a range of industries and professions.

Careers
This program often leads to careers in all healthcare professions, including physicians and physician assistants, dentists, optometrists, and podiatrists; laboratory research associates; scientific product representatives and science-based consulting.

Opportunities for Graduate Studies
Many graduates of the Science B.S. program choose to pursue graduate studies (MS and PhD) in the natural sciences. Most often, students gravitate to medically-related fields and life science sub-disciplines for focused graduate training. Students in the legal studies and public policy options may choose law school or master’s in public policy programs.

Secondary Education Social Studies, B.SOSC.

**Begin Campus:** Any Penn State Campus

**End Campus:** Harrisburg

**Program Description**

The Secondary Education Social Studies major prepares students to meet the requirements as established by the Pennsylvania Department of Education, to be certified for the Social Studies Instructional I Certificate. The major prepares students to teach history, government, economics, geography, psychology, sociology, and anthropology.

Students are challenged to prepare for teaching assignments at the middle and high school level, and in diverse settings characterized as rural, urban, and suburban. The art and science of teaching in secondary schools is undergoing significant transformation as new technologies, time allocation for instruction, and new instructional strategies are impacting the delivery of social studies instruction.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

What is Secondary Education Social Studies?

Secondary Education Social Studies prepares individuals to teach students in the secondary grades, which may include grades seven
through twelve, depending on the school system or state regulations, in the areas of history, government, economics, geography, psychology, sociology, and anthropology.

**You Might Like This Program If...**
- You enjoy history, economics, geography, sociology, and government.
- You like critical, creative, and reflective thinking.
- You enjoy helping others learn.
- You want to have an important and direct impact on the lives of others.
- You want a career in teaching or school administration.

**Entrance to Major**

Entry to Secondary Education Social Studies requires the following:

1. A minimum grade point average of 3.0.
2. Completion of ENGL 15 or ENGL 30 and three credits of literature from approved list with a C or higher grade.
3. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade.
4. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major

**Selective Retention**

Following entrance to the major, students will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.¹

To be eligible to student teach, students must:

1. maintain a cumulative GPA of 3.0 or higher;
2. complete all required Content and Education Courses with a C or higher grade;
3. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to the major;
4. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.¹

In order to successfully complete the Secondary Education Social Studies Program, students must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete all required Content and Education Courses with a C or higher grade;
4. complete a presentation portfolio; and
5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.¹

¹ For more detailed information see the Secondary Education Handbook.

---

**Degree Requirements**

For the Bachelor of Social Science degree in Secondary Education Social Studies, a minimum of 122 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>3</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>95</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

21 of these credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits
Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 21 credits of General Education courses: 6 credits of GH courses, 3 credits of GN courses, 6 credits of GS courses, 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisees assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Career Paths

The Secondary Education Social Studies major will prepare students to teach social studies in secondary schools grades 7 to 12. As secondary school teachers, they will delve more deeply into subject matter introduced broadly during the elementary years. Additionally, Secondary Education Social Studies students should graduate with organizational, administrative, and communications abilities and an excellent background in the social studies. Other career areas requiring these skills include: public relations, sales, social work, employee training and development, social service, and employment counseling.

Careers

The Secondary Education Social Studies major prepares students to meet the requirements to be certified for the Social Studies Instructional I Certificate as established by the Pennsylvania Department of Education.

Opportunities for Graduate Studies
Additional graduate study is available, including the Master of Education in Teaching and Curriculum.

Accreditation
This program is recognized by the National Council for the Social Studies (NCSS) and the Pennsylvania Department of Education (PDE).

Security and Risk Analysis, B.S. (Harrisburg)

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Science in Security and Risk Analysis (SRA) in the College of Information Sciences and Technology responds to the expanding need for a highly trained analytic workforce to address a wide range of security and risk domains including national/homeland security, emergency and disaster management, law and crime, as well as enterprise risk management.

SRA program prepares students with core competence in four knowledge areas:

1. Understanding the fundamentals of security, risk, analytic methods and decision support for the purpose of recognizing, articulating, and addressing analytic needs;
2. Understanding the roles of data and analytics in various security domains and organizational contexts;
3. Applying data analytics, methods, and tools (structured analytics, data gathering and manipulation; visual analytics; analytic judgements and presentation) to derive and communicate insights and actionable knowledge;
4. The legal, ethical, and professional issues within which analytics of security and risk are conducted.

Students may specialize in risk domains ranging from national security to community emergency preparedness and response. The SRA program positions our students to be future leaders to address the current and emerging security and risk challenges that face individuals, organizations, and our nation.

SRA majors will choose one of the following options:

Intelligence Analysis and Modeling Option
This option focuses on developing a more thorough knowledge of the strategic and tactical levels of intelligence collection, analysis, and decision-making. This includes examining the foundations of decision analysis, economic theory, statistics, data mining, and knowledge management, as well as the security-specific contexts in which such knowledge is applied.

Information and Cyber Security Option
This option includes a set of courses that provides an understanding of the theories, skills, and technologies associated with network security, cyber threat defense, information warfare, and critical infrastructure protection across multiple venues.

What is Security and Risk Analysis?
Security and risk analysis is a field that explores the integrated processes conducted to provide decision-makers with the information needed to understand factors that can negatively influence operations and outcomes, and make informed judgments concerning the extent of actions needed to reduce vulnerabilities, protect resources, and optimize investments. Security and risk analysis is a field of practice with two blended concentration areas: 1) security, which seeks to identify, understand, and analyze critical local, national and international security issues, and 2) risk, which includes risk assessment, risk characterization, risk communication, risk management, and the formulation of risk policy. In practice, the issues and processes for conducting of security and risk analytics are neither separate nor sequential. To be effective, the issues of security and risk must be addressed concurrently and synergistically.

More Information (https://ist.psu.edu/students/undergrad/majors/sra)

You Might Like This Program If...

- You want to protect people, information, and assets from manmade and natural threats.
- You want to understand the role of data in protecting individuals, organizations and our nation.
- You are mission oriented, a good critical thinker and wish to put your problem-solving skills to work to make the world a safer place.
- You want to make informed strategic decisions that help to defend critical infrastructures that supports our daily lives.

Entrance to Major
To be eligible for entrance to the Security and Risk Analysis (SRA) major, students must:

1. Have completed the following entrance-to-major requirements with grades of C or better in each: IST 140 (or equivalent CMPSC 101 or CMPSC 121), IST 210, SRA 111, and SRA 211.
2. have achieved a minimum cumulative grade point average of 3.00* prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

* Faculty Senate is considering a recommendation to lower the 3.00 GPA requirement to 2.00. Students are encouraged to speak to an adviser if they have questions or concerns.

### Degree Requirements

For the Bachelor of Science degree in Security and Risk Analysis, a minimum of 120 credits is required:

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>5-13</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>77-85</td>
</tr>
</tbody>
</table>

### General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

15 credits are included in the Requirements for the Major.

### University Degree Requirements

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; and 3 credits of GWS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

**Integrated B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology**

The College of Information Sciences and Technology offers an integrated B.S./M.S. (IUG) program designed to allow academically superior students in the Security and Risk Analysis major to obtain both the Bachelor’s in Security and Risk Analysis and the M.S. degree in Information Sciences and Technology in a shorter period of time than would be necessary if the degrees were pursued separately. The first two to three years of undergraduate coursework follow the same undergraduate curriculum that other students follow in the Security and Risk Analysis major. Interested students may apply for admission to the IUG program no earlier than February 15 of their sophomore year and no later than February 15 of their junior year after completing a minimum of 60 credits. If admitted to the IUG, the final years of study include two graduate courses, IST 504 in the fall and IST 505 in the spring, plus six credits of research methods courses, twelve credits of graduate specialty courses, and six credits of graduate thesis (IST 600) or scholarly paper (IST 594).

(Note: For Schreyer Honors College students, those who complete the graduate thesis for the Master’s requirement may use the graduate thesis, itself, to fulfill the undergraduate honors thesis requirement, as well. Honors students who opt for the Master's scholarly paper must also complete an undergraduate honors thesis.)

The integrated B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology (IUG) degree meets the needs of the most academically talented students in the Security and Risk Analysis undergraduate major. A proportion of these successful students wish to pursue graduate studies sometime after graduation. Offering the IUG program allows these students by offering an accelerated path to a graduate degree. Additionally, the IUG program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research leading to both the bachelor’s and master’s degree.

For the B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology IUG program, a minimum of 120 credits is required for the bachelor’s degree and 30 credits for the M.S. degree. Students admitted to the IUG program may double-count a maximum of 12 credits to their graduate and undergraduate degrees. The required 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate program. Students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IST 220</td>
<td>Networking and Telecommunications</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>IST 454</td>
<td>Computer and Cyber Forensics</td>
<td>3</td>
</tr>
<tr>
<td>IST 456</td>
<td>Information Security Management</td>
<td>3</td>
</tr>
</tbody>
</table>
Graduate thesis or scholarly paper credits may not double-count.

The objectives of the Integrated Undergraduate Graduate Program include:

1. To offer highly qualified students the opportunity to earn two degrees in less time than it would take to do two sequential degrees. In particular, IUG students may count up to 12 credits towards both their B.S. and M.S. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.

Admission Requirements
To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Security and Risk Analysis Form, a transcript, and two letters of recommendation (both from faculty members) to the IST Graduate Programs Office. The Director of Undergraduate Academic Affairs, in consultation with the Graduate Programs Coordinator, will help undergraduate candidates determine a proposed sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Acceptance into the IST IUG program will be determined by the Graduate Recruitment Committee.

Security and Risk Analysis undergraduate majors may apply for admission as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the SRA (BS) undergraduate degree program.
2. Must have completed 60 credits of an SRABS undergraduate degree program.
3. Must apply to the IUG program by February 15 of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST.
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for IUG in the Schreyer Honors College (http://www.shc.psu.edu/students/iug/program).

In addition, applicants must apply to and be admitted to the Graduate School of the Pennsylvania State University at the time of their application to the IUG degree program.

These admission standards are high, as it is thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting Security and Risk Analysis majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted into the integrated program of study can apply for regular admission to the graduate program when they complete their undergraduate program of study.

Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses
Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. In their senior year, IUG students will take 6 credits of specified graduate work, courses IST 504 and IST 505, and 6 credits of methods courses. These 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate IST/SRA support option requirement. In their senior year, students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees. These courses must be at the 400-level or above. Students may choose any 400-level undergraduate option course that they are using to fulfill an undergraduate option requirement and apply the credits to both the undergraduate option requirement and the graduate specialty course requirement:

Credits associated with the thesis or culminating scholarly paper, i.e., IST 600 and IST 594, may not be double-counted. However, for Schreyer...
Honors College students, the Master’s thesis deliverable, itself, may double-count for the undergraduate thesis deliverable requirement.

Total Credits 32-60

1. Choose graduate level methods course after consultation in advance with the student’s faculty adviser.
2. Choose any 400 or 500 level course that contributes to the student's chosen area of specialty with a maximum of six credits at the 400 level.

The total resulting credits will be a minimum of 150 credits, with 120 credits completed for the undergraduate SRA degree. Twelve graduate credits will be completed in the senior year, and the remaining 18 graduate credits will be completed in the super senior year.

If for any reason a student admitted to the B.S./M.S. program is unable to complete the requirement for the Master of Science degree program in Information Sciences and Technology, the student will be permitted to receive the SRA bachelor’s degree assuming all degree requirements have been satisfactorily completed.

Student performance will be monitored on an ongoing basis by the student’s adviser and Graduate Programs. Students admitted to the integrated program must maintain a minimum cumulative GPA of a 3.3 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See information on Grade-Point Average in the Graduate Bulletin: http://bulletins.psu.edu/graduate/degreerequirements/ masters#) For SHC students in the IUG program, students must maintain a minimum cumulative GPA of 3.4 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. Successful completion of a Schreyer Scholar’s Master’s thesis will be accepted as completion of the honors thesis requirement.

Program Learning Objectives

Knowledge/Application:

1. Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences.
   a. Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA.
   b. Apply the core concepts of the academic majors of IST and/or SRA to real-world problems.

Problem-Solving:

1. Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
   a. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions.
   b. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation.
   c. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
   d. Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information based solution.
   e. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).

Communication (Individual and Team):

1. Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
   a. Participate effectively on teams in order to accomplish a common goal.
   b. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word.
   c. Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people.
   d. Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identify, or veteran status).

Professional Responsibilities:

1. Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.
   a. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem.
   b. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.

Lifelong Learning:

1. Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
   a. Employ information-seeking strategies and self-directed learning in pursuit of current knowledge.
   b. Enroll in professional development and tutoring opportunities.
Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Harrisburg Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 119

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
IST 495 - Internship, supervised work experience where the student is employed in an Information Science and Technology position in Industry, Government or Academia. SRA Students are required to complete one internship but may complete three. For more information, contact IST Internship Coordinator, Jane Kochanov at jxs121@psu.edu.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes

• 1 Credit of IST 495* - Internship is required.
• 30 Credits of GA, GH, GHW, GN, GS to include 6 Integrative Studies credits.
• 15 Credits of GQ, and GWS require a grade of "C" or better.

Program Notes

• SRA/IST courses are only offered once per year.
• SRA Internship: (1) Supervised work experience where the student is employed in an information science and technology position in industry, government or academia. SRA students are required to complete one internship, but may complete three. For more information, contact IST Internship Coordinator, Jane Kochanov at jxs121@psu.edu.
• Students who plan to apply for the National Security Agency Certifications must complete all required courses. No substitutions or transfer credits are permitted.
• Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

Supporting Course List:

Business: ACCTG 211*, IST 301*, IST 302*, MGMT 100

Communications: COMM 180, COMM 479*, COMM 484*, COMM 489W*, COMM 490*

Ethics: PHIL 103*, PHIL 119, PHIL 407*, PHIL 418*

Geography: GEOG 361*, GOEG 362*, GEOG 363*

Military Studies: AIR 151, AIR 351, AIR 352, AIR 451, ARMY 101, ARMY 102, ARMY 301, ARMY 402, NAVSC 101, NAVSC 204, NAVSC 311, NAVSC 402

Please be mindful of course prerequisites, as indicated with a single asterisk (*).

Courses taken to satisfy the SRA major requirements for GEOG/PL SC (GEOG 40 OR PLSC 001/014) and PSYCH/SOC (PSYCH 100 or soc 5) cannot be used as a Support of Option course as indicated with a double asterisk (**).

World Campus
OFFICE OF THE ASSOCIATE DEAN FOR GRADUATE AND UNDERGRADUATE STUDIES
What is Sociology?

Sociology is the scientific study of social behavior and human social groups from individual families to nations. Sociology focuses on the ways that social environments, such as family, neighborhood, school, and society influence individuals’ life options, advantages and disadvantages. Sociology also helps us understand how societies operate and change, and the impact of large scale events such as hurricanes, economic recessions, and social movements on individuals, groups, and societies. The workings of societies and the social world are often invisible to us as individuals - sociology helps to make these processes visible to us.

You Might Like This Program If...

• You are people-oriented and naturally curious about group behavior.
• You would like to make the world better.
• You like working with people.
• You wonder why people do the things they do, and how they are influenced by those around them.
• You are interested in a career as a sociologist, or in another profession that requires critical and creative thinking and analytic problem-solving.

Entrance to Major

Entry to the Sociology major requires 2.00 or higher cumulative grade-point average.

Degree Requirements

For the Bachelor of Science degree in Sociology, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>9-15</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>67-73</td>
</tr>
</tbody>
</table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits  
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)  
• Inter-Domain or Approved Linked Courses: 6 credits

3 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 7 credits of General Education course requirements: 3 credits of GWS courses; 4 credits in GQ courses.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Supporting Courses and Related Areas: Require a grade of C or better**

Choose 6 credits (at least 3 credits at the 400-level) in consultation with adviser from AMST, ANTH, ART, ARTH, COMM, CRIMJ, ENGL, HDFS, HIST, IHUM, MGMT, MUSIC, PLSC, PSYCH, PUBPL, SOC, THEA, WMNST 6

**Program Learning Objectives**

1. Acquire a sociological imagination by recognizing the connections between individual lives, social structure and historical change.
   a. Students will acquire the knowledge base in sociology in order to recognize and describe human social behavior in specific social-historical context.
   b. Students will apply sociological imagination to their own lives.

2. Differentiate between micro and macro-sociological perspectives and be able to recognize and use both.
   a. Students will be able to describe and distinguish micro and macro perspectives in sociology.
   b. Students will be able to apply theories to interpret social phenomena.

3. Develop empirical investigations of social phenomena.
   a. Recognize the role of theory in sociological research.
   b. Students will be able to identify and describe methods for gathering and analyzing sociological data.
   c. Students will be able to design a basic study to investigate social phenomena.

4. Create written documents with the appropriate to disciplinary standards.
   a. Students will be able to write a paper in an appropriate social sciences format.

5. Students will be able to employ appropriate citation practices.

6. Recognize and adhere to professional and ethical standards of social science.
   a. Students will be able to identify ethical codes of conduct in doing sociological research and practice.
   b. Students will adhere to professional and ethical standards of social science research and practice.

7. Recognize and consider the diversity of human experience.
   a. Students will be able to recognize and describe the diversity of human experience.
   b. Students will be able to compare different ways of organizing social life.

8. Students will be able to recognize and describe how diversity is studied as a social problem.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.
Suggested Academic Plan

Harrisburg Campus

General Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Community Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course satisfies General Education and degree requirement

1. The following course is only offered in fall semesters:
   - SOC 405 - Sociological Theory
2. The following are only offered spring semesters:
   - SOC 1H - Honors Introductory Sociology
   - SOC 207 - Research Methods in Sociology
   - SOW 400W - Senior Research Seminar
   - SOC 495 - Internship

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Advising Notes

- GWS, GQ, GA, GH, GS, and GHW are codes used to identify General Education requirements.
- US, IL, and US;IL are codes used to designate courses that satisfy University United States/International Cultures requirement. All students are required to take one IL and one US course before graduation. A course designated as US;IL may be used as a US or an IL, not both.
- W suffix signifies the course satisfies the University Writing Across the Curriculum requirement.

### Program Notes

Students must complete a 3-credit course in “United States Cultures (US)” and a 3-credit course in “International Cultures (IL).”

### Career Paths

To succeed in the 21st century new graduates need to have following skills: critical and creative thinking analytic problem-solving conducting research and data driven analysis communication and collaboration multicultural and global understandings to be able to work in diverse teams whose members are from various cultural and ethnic backgrounds.
Careers
The Sociology program at Penn State Harrisburg is designed to provide opportunities for students to study social change, diverse communities, and their interactions through scientific methods. The Bureau of Labor Statistics site states that people with sociology degrees specialize in a wide range of social topics, including health, crime, education, racial and ethnic relations, families, population, gender, poverty, and aging. Studying sociology helps students foster the core set of knowledge and skills that are required by 21st century employers.

Structural Design and Construction Engineering Technology, B.S.

Begin Campus: Any Penn State Campus

End Campus: Harrisburg

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The program in Structural Design and Construction Engineering Technology provides the basic education required for the structural engineer and construction profession. Students learn the basic general engineering concepts needed for this major with emphasis on the fundamentals, structural design principles, and construction techniques through required course work. They are given the opportunity to focus in a discipline of construction management or structural design through a selected option or choose a broad general option. Courses in communication skills, arts, humanities, social and behavioral sciences, and other engineering related areas broaden the program. Students gain experience in working as members of a team and in using interdisciplinary approaches to solve problems. These experiences, as well as those related to design and construction principles, are taught through exercises in the classroom, laboratory, and field. The program culminates with a capstone project course in which the students’ knowledge and skills are applied to specific problems.

What is Structural Design and Construction Engineering Technology?
Structural Design and Construction Engineering Technology is a discipline concerned with basic structural engineering principles and construction techniques, building site inspection, site supervision, construction personnel supervision, plan and specification interpretation, supply logistics and procurement, applicable building codes, and report preparation.

You Might Like This Program If...
• You like hands-on and creative problem-solving.
• You work well within collaborative, multidisciplinary teams.
• You are interested in a career in the construction industry.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements
For the Bachelor of Science degree in Structural Design and Construction Engineering Technology, a minimum of 125 credits is required:

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences(GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits
20-24 of these 45 credits are included in the Requirements for the Major.

### University Degree Requirements

#### First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

#### Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

#### Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

#### Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

#### Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

#### Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

#### Requirements for the Major

This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses; 3 credits of GHW courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

**Harrisburg Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

#### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Advising Notes:**

Students must complete an option in one of the following areas: Construction (C), Structural Design (S), or General (G).

**Program Notes:**

- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."
- Entrance into SDCET major require a minimum of 29.1 credits and a 2.0 GPA.
- Graduation in this major: Courses listed with an * requires a grade of C or better and an option area.
- SDCET Approved Selections
- Other engineering or business courses may be accepted with permission of the program chair.
- An option-required courses cannot be used for an Approved Selection

#### List of Approved Courses

- ACCTG 211 FINANCIAL ACCOUNTING
- MET 435 HVAC
- B LAW 243 (4) or B LAW 242 and 241 (2) (2) LEGAL ENVIRONMENT BUSINESS
- CET 361 FLUID FLOW
- C E 321 HIGHWAY ENGINEERING
- C E 424 PROJECT INFORMATION MODELING
- C E 445 ADVANCED STRUCTURAL ANALYSIS
- C E 449 ADVANCED STRUCTURAL DESIGN
- C E 456 PLANNING & SCHEDULING
- C E 458 CONSTRUCTION MANAGEMENT II
- ENVE 415 HYDROLOGY
- ENVE 430 SUSTAINABLE ENGINEERING
- EET 320 INDUSTRIAL ELECTRICITY and ELECTRONICS
- ET 495 INTERNSHIP
- E MCH 212/MET 321 DYNAMICS
- MET 435 BUILDING ENERGY SYSTEMS
- M E 201 INTRODUCTION TO THERMAL SCIENCE
- M E 300 ENGINEERING THERMODYNAMICS
- MGMT 301 BASIC MGMT CONCEPT

#### Career Paths

The SDCET program is designed to prepare students for careers in the highly specialized construction industry. It allows for flexible scheduling, enabling students to focus their specialization in either construction or design. Study through these options could lead to opportunities as
Writing, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Writing is valued as a mode of learning, as a means of expression, and as a skill highly desirable in the workplace. Personal development, interpersonal communication, and professional marketability may all be enhanced by the further study and practice of writing. For these reasons, the Writing minor offers students from virtually every discipline across the University an opportunity to learn more about a wide variety of writing: informative/persuasive, professional, and creative, while improving their own writing skills through hands-on writing experiences. In addition to offering students opportunities to study and practice different types of writing, the minor affords students the opportunity to write for/in different media, producing both print and electronic texts.

Program Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>

Smeal College of Business

About the College

Charles H. Whiteman, John and Becky Surma Dean, Smeal College of Business

The Penn State Smeal College of Business is a vibrant intellectual community offering highly ranked undergraduate, graduate, doctoral, and executive education opportunities to more than 6,000 students from across the country and around the world. Since our introduction in 1953, we have prepared more than 85,000 students for professional success, annually adding to Penn State’s vast alumni network. We are a destination of choice for top global organizations seeking talent that will make a positive difference. Through our leading faculty and network of research centers and institutes, we are a source of knowledge that influences the business practices of tomorrow. We are forging connections, creating opportunities, and producing results.

MORE INFORMATION ABOUT THE COLLEGE (http://www.smeal.psu.edu/about-smeal)

Mission and Goals

As an extension of the core values of the University, Smeal is committed to a set of strategic priorities including delivering extraordinary educational experiences, conducting research with impact, fostering a culture that prioritizes integrity, embracing unique ideas and strengthening connections via diversity enhancement initiatives and programs, and promoting sustainability in education, research, and business practice.

MORE INFORMATION (http://www.smeal.psu.edu/about-smeal)

Accreditation

The Penn State Smeal College of Business is recognized by the AACSB (Association to Advance Collegiate Schools of Business) as an accredited institution after completing a meticulous internal review and meeting all AACSB standards and requirements.

Departments and Schools

Department of Accounting

The mission of the Accounting Department at the Penn State Smeal College of Business is to enhance and disseminate knowledge of accounting and the accounting profession through top-ranked educational opportunities and world-renowned faculty expertise.

MORE INFORMATION (https://www.smeal.psu.edu/accounting)

Department of Finance

The Penn State Smeal College of Business Finance Department provides students at all levels the opportunity to study investment analysis, management of banks and other financial institutions, and the financial management of corporations. Topics in business finance, security markets, commercial bank management, investment valuations, portfolio management, futures and options markets, and capital budgets are available.

MORE INFORMATION (https://www.smeal.psu.edu/finance)

Department of Management and Organization

The Management and Organization Department at the Penn State Smeal College of Business is preparing future leaders to respond to challenges associated with creating a successful business in today’s global economy while shaping management knowledge and practices for the twenty-first century.

MORE INFORMATION (https://www.smeal.psu.edu/management)

Department of Marketing

As a community focused on advancing the art and science of marketing, the Penn State Smeal College of Business Marketing Department
combines rigorous and relevant research with an approach to education that is grounded in the fundamentals while embracing leading-edge concepts and tools.

MORE INFORMATION (https://www.smeal.psu.edu/marketing)

**Department of Risk Management**
The Penn State Smeal College of Business Risk Management Department offers educational opportunities for students interested in exploring risk analysis in a variety of business environments, as well as faculty research and expertise in a wide range of topics.

MORE INFORMATION (https://www.smeal.psu.edu/risk-management)

**Department of Supply Chain and Information Systems**
Ranked No. 1 as a leader in supply chain education, the Penn State Smeal College of Business Supply Chain and Information Systems Department covers this boundary-spanning field of study through top-ranked degree programs, world-renowned faculty expertise and research, and corporate connections with top companies and supply chain practitioners.

**College Procedures**

**Academic Warning**
A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

**Academic Suspension**
A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)

**Administrative Enrollment Controls**
All Smeal majors are under Administrative Enrollment Controls.

Accounting, B.S. (Business)

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This major prepares students for careers in public, corporate, not-for-profit, and governmental accounting and also provides an appropriate background for those planning to enter law school or graduate school. Accountants develop and interpret historical and prospective financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical information and concepts, and they must be able to function effectively as individuals and in teams. Accountants are employed by the organization they audit. Internal auditors are employed by the organization they audit. Internal auditing is a systematic approach to evaluating and improving the effectiveness of risk management, control, and governance processes. Internal auditors also review compliance with standards and assess the organization’s risks.

Public Accounting - Public accounting is carried on by independent practitioners, most of whom are Certified Public Accountants (CPAs). In addition to statutory audits, CPAs render other assurance, tax, and management advisory services. To be licensed as a CPA in nearly every state, including Pennsylvania, individuals must complete 150 credit-hours of education, pass a demanding professional examination, and meet certain experience requirements. One way to accomplish this is to enroll in the Integrated B.S. in Accounting and Master of Accounting Program.

What is Accounting?
Accountants develop and interpret financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical information and concepts, and they must be able to function effectively as individuals and in teams. Accountants work with people in their own specialized departments, and with users of financial information throughout their organization. Because of this close association with other parts of the organization, the accountant is in a unique position to develop a broad business perspective.

MORE INFORMATION (https://undergrad.smeal.psu.edu/majors/accounting)

Entrance to Major
This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019
In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum grade-point average (GPA) of 3.20 in the eight entrance-to-major courses listed above.
- earned a minimum of 3.20 cumulative GPA

Students Who Entered Prior to Summer 2018
Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that
they entered the university (http://advising.psu.edu/entrance-major-requirements) on the Academic Advising Portal.

Degree Requirements
For the Bachelor of Science degree in Accounting, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>11</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>76</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Requirement.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

</table>
Admitted students must have completed ACCTG 211 with superior performance by the end of the spring semester in which they apply for admission to the program. A student who has not satisfied this requirement by the admissions deadline may be provisionally admitted pending completion of ACCTG 211 with a superior performance.

**Degree Requirements**

Students must complete the requirements for a B.S. in accounting with the following alterations:

Some of prescribed courses for the B.S. must be taken in sections that are available only to students enrolled in the program. These prescribed courses, which all count toward the undergraduate degree in accounting, are: ACCTG 403W, ACCTG 404, ACCTG 405, ACCTG 471, and ACCTG 472.

The student need not satisfy the requirement that 6 credit hours be completed from the following list of courses: ACCTG 406, ACCTG 432, ACCTG 473, and ACCTG 481.

The following courses cannot be used to satisfy the degree requirements of the integrated program: ACCTG 406, ACCTG 410, ACCTG 411, ACCTG 422, ACCTG 450, ACCTG 473, and ACCTG 481.

Students must complete the Master of Accounting Requirements, which total 30 credit hours of graduate instruction, in addition to completing 120 credit hours of undergraduate instruction.

The following courses, totaling 9 credit hours, will double-count towards both the B.S. and Master of Accounting degrees: BLAW 444, FIN 531, and ACCTG 881.

Students must complete a minimum of 30 credit hours of graduate instruction over and above the 120 credit hours required of the B.S. degree in accounting. All 30 of these credit hours must be earned in 400-level, 500-level, or 800-level courses. At least 18 of the 30 credit hours must be earned in 500-level and 800-level courses, and at least 6 of the 30 credit hours must be earned in 500-level courses.

Students must complete the following required courses as part of the 30 credit hours of graduate instruction:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTG 432</td>

<td>BLAW 444</td>
<td>Advanced UCC and Commercial Transactions</td>
<td>3</td>
</tr>
<tr>
<td>FIN 531</td>
<td>Financial Management</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be taken in sections that are available only to students enrolled in the integrated program. Note that these required courses satisfy 27 of the 30 credit hour minimum. In addition, after completing these courses, the student will have satisfied the requirement that 18 credit hours must be earned in 500-level or 800-level courses and the requirement that 6 credit hours must be earned in 500-level courses.

Students must have satisfactory academic performance to maintain enrollment in the program. A grade point average of 3.0 in the 30 credit hours of graduate instruction is required to receive the master’s degree.
Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

University Park Campus and Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
† Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

1 Course requires a C or better for major and General Education (2nd course ONLY, the first course of the two options does not require a C)
2 Course requires a C or better for major (2nd course ONLY, the first course of the two options does not require a C)
3 Course requires a C or better for Entrance to Major
4 Course requires a C or better for General Education (2nd course ONLY, the first course of the two options does not require a C)

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Additional Notes:

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ‘entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to
ensure all students are equally prepared for success, the Smeal College of Business requires that the following 'entrance to major' courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Accounting major must complete in residence with Smeal College faculty all 300 level and above Accounting courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

Advising Notes:
• It is highly recommended that students at University Park take SCM 301 in their 4th semester.
• It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
• Students must complete 12th credit level in a foreign language.
Credits vary based on skill level.

Accounting Degree Requirements ACCTG):
Program Year 2019

Course Descriptions

1. Take all of the following Accounting courses (15 credits) - A grade of 'C or better' is required in ACCTG 211, ACCTG 405, ACCTG 471, ACCTG 472 and ENGL 202D.
   a. ACCTG 471
   b. ACCTG 404
   c. ACCTG 472
   d. ACCTG 405
   e. ACCTG 403

2. Select two additional Accounting courses (6 credits)
   a. ACCTG 406
   b. ACCTG 432
   c. ACCTG 440
   d. ACCTG 473
   e. ACCTG 481
   f. ACCTG 483

3. Select one Two Piece Sequence from the following list (6 credits)
   a. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   b. Business Sustainability - BA 441 and BA 442
   c. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   d. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   e. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   f. Information Systems Management - MIS 301 and MIS 446

   g. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   h. Management - MGMT 326 and either MGMT 461 or MGMT 471
   i. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   j. Real Estate - RM 303 and RM 450
   k. Risk Management - RM 302 and RM 440
   l. Supply Chain and Information Systems - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

Smeal College Minors
• Information Systems Management (ISM)

Corporate Control and Analysis, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
Students enrolled in the Smeal College of Business accounting major can augment their studies with the Corporate Control and Analysis certificate program (CCA), provided they meet the program's admission requirements. CCA requires eleven credit-hours in accounting, financial statement analysis, and communications. Students must also complete an approved internship. CCA prepares students for careers as management accountants. Students in the program are encouraged to seek a professional credential in management accounting, such as the Certified Management Accountant (CMA) designation through the Institute of Management Accountants.

What is Corporate Control and Analysis?
The Corporate Control and Analysis (CCA) Program prepares students for careers in corporate accounting, management accounting, and government accounting, as well as consulting / advisory services, corporate finance, financial analysis, and law enforcement. It specifies coursework in advanced managerial accounting, financial statement analysis, and communication. CCA Program graduates will be positioned to enter the financial leadership development programs of leading corporations. The CCA Program is an enhancement to the existing B.S. degree in accounting. It culminates with the award of an undergraduate certificate, which is a formal award showing the satisfactory completion of a postsecondary educational curriculum. Students who complete all CCA Program requirements will have a notation on their transcript that reads: "Undergraduate Certificate Awarded - Corporate Control and Analysis."

Admission Requirements
Application to the program is concurrent with an application to the Smeal College Accounting major. To be considered for the certificate, applicants must submit an online application and have completed the following courses with a combined GPA of 3.40 or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTG 211</td>
<td>Financial and Managerial Accounting for Decision Making</td>
<td>4</td>
</tr>
<tr>
<td>ECON 102</td>
<td>Introductory Microeconomic Analysis and Policy</td>
<td>3</td>
</tr>
<tr>
<td>MATH 110 or MATH 140</td>
<td>Techniques of Calculus I or Calculus With Analytic Geometry I</td>
<td>4</td>
</tr>
<tr>
<td>SCM 200 or STAT 200</td>
<td>Introduction to Statistics for Business or Elementary Statistics</td>
<td>4</td>
</tr>
</tbody>
</table>

For more information and to submit the online application, go to: http://www.smeal.psu.edu/accounting/programs/cca.

Program Requirements
To earn an undergraduate certificate in Corporate Control and Analysis, a minimum of 11 credits is required.

All certificate courses must be earned through faculty in the Smeal College of Business.

A grade of C or better is required in all courses.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>

Corporate Innovation and Entrepreneurship, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park
Program Description
The Corporate Innovation and Entrepreneurship major prepares students for challenges in the development of emerging products and new markets for demanding consumers. The ability to adapt to a rapidly changing social and business environment can yield great rewards and returns, but it requires innovative, multifunctional individuals able to adapt to and develop new technologies, innovations and businesses amid a wider environment of change, uncertainty and ambiguity. The major is conceived for students interested in starting and managing new businesses or innovating within existing businesses with the intent of growing the economy and providing jobs for a diverse workforce. The major focuses on developing problem solving and creative thinking skills, along with the ability to recognize opportunities, spot trends, and develop a plan to capitalize on these ideas. Emerging entrepreneurs and innovative managers of small to large businesses must be competent in various mediums of communication, have good negotiation skills, can lead with ethics and integrity, and are grounded in business aspects of planning, capital investing, goal setting, and decision making.

What is Corporate Innovation and Entrepreneurship?
The Corporate Innovation and Entrepreneurship (CIENT) major is designed to help you develop problem solving and creative thinking skills, along with the ability to spot trends, recognize opportunities, and develop plans to capitalize on high-potential ideas. Emerging entrepreneurs and innovative managers of small to large businesses must be competent in various mediums of communication, have good negotiation skills, lead with ethics and integrity, and be grounded in business aspects of planning, capital investing, goal setting, and decision making.

MORE INFORMATION (https://undergrad.smeal.psu.edu/majors/corporate-innovation-and-entrepreneurship)

Entrance to Major
This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019
In order to be eligible for entrance to this major, students must satisfy the following requirements:
- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MKTG 301, MGMT 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum of 3.20 cumulative GPA

Degree Completion
Students accepted into the Corporate Innovation and Entrepreneurship major are expected to enroll at University Park the fall semester after gaining entrance to the major. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for CIENT majors:
- Fifteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Management and Entrepreneurship faculty at University Park.
- Nine additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Corporate Innovation and Entrepreneurship Recommended Academic Plan for details.

Students Who Entered Prior to Summer 2018
Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university (http://advising.psu.edu/entrance-major-requirements) on the Academic Advising Portal.

Degree Requirements
For the Bachelor of Science degree in Corporate Innovation and Entrepreneurship, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>14</td>
</tr>

</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 6 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.
University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for the major

# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

1 Course requires a C or better for major and General Education (2nd course ONLY; the first course of the two options does not require a C)

2 Course requires a C or better for major (2nd course ONLY; the first course of the two options does not require a C)

3 Course requires a C or better for Entrance to Major

4 Course requires a C or better for General Education (2nd course ONLY; the first course of the two options does not require a C)

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Additional Notes:**

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ‘entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following ‘entrance to major’ courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Corporate Innovation and Entrepreneurship major must complete in residence with Smeal College faculty all 300 level and above Corporate Innovation and Entrepreneurship courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

Penn State University 2165

202 Business Building
University Park, PA 16802
814-863-1947
uge@smail.psu.edu
Advising Notes:

- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

Corporate Innovation and Entrepreneurship Degree Requirements (CIENT):
Program Year 2019

Course Descriptions

1. Take all of the following Management courses (15 credits) - A grade of 'C or better' is required in all MGMT courses
   a. MGMT 425
   b. MGMT 426
   c. MGMT 427W
   d. MGMT 453

2. Select Two Additional Management Courses (6 credits) -- A grade of 'C or better' is required in all Management courses
   a. MGMT 365
   b. MGMT 420
   c. MGMT 480
   d. MGMT 485
   e. MGMT 486

3. Select one Two-Piece Sequence from the following list (6 credits)
   a. Accounting - Select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 472
   b. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   c. Business Sustainability - BA 441 and BA 442
   d. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   e. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   f. Information Systems Management - MIS 301 and MIS 464
   g. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   h. Management - MGMT 326 and either MGMT 461 or MGMT 471
   i. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   j. Real Estate - RM 303 and RM 450
   k. Risk Management - RM 302 and RM 440
   l. Supply Chain and Information Systems - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

Finance, B.S. (Business)

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This major provides students with an opportunity to study investment analysis, management of banks and other financial institutions, and financial management of corporations and other businesses. Course coverage includes business finance, security markets, commercial bank management, investment valuations, portfolio management, futures and options markets, and capital budgeting.

What is Finance?
Finance focuses on how individuals and business organizations raise money and capital, and how those resources are allocated among competing investment and consumption opportunities. The field focuses on domestic and international financial economies and the role of financial markets and institutions key in the movement of savings and investment capital from lenders to borrowers. It also deals with how
individuals and corporate managers evaluate alternative investment and savings opportunities and how they choose among various financial instruments.

MORE INFORMATION (https://undergrad.smeal.psu.edu/majors/finance)

Entrance to Major
This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019
In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum grade-point average (GPA) of 3.50 in the eight entrance-to-major courses listed above.
- earned a minimum of 3.50 cumulative GPA

Students Who Entered Prior to Summer 2018
Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university.

Degree Requirements
For the Bachelor of Science degree in Finance, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<td>14</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>73</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
Requirements for the Major

This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

¹ Course requires a C or better for major and General Education (2nd course only; the first course of the two options does not require a C)
² Course requires a C or better for major (2nd course only; the first course of the two options does not require a C)
³ Course requires a C or better for Entrance to Major
⁴ Course requires a C or better for General Education (2nd course only; the first course of the two options does not require a C)

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Additional Notes:**

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ’entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following ’entrance to major’ courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Finance major must complete in residence with Smeal College faculty all 300 level and above Finance courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

**Advising Notes:**

- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

**Finance Degree Requirements (FIN):**

**Program Year 2019**

**Course Descriptions**

1. Take all of the following Finance courses (9 credits) - A grade of ‘C or better’ is required in FIN courses.
   a. FIN 305W
   b. FIN 406
   c. FIN 408
2. Select two additional Finance courses (6 credits) - A grade of ‘C or better’ is required in FIN courses
   a. FIN 405
   b. FIN 407
   c. FIN 410
   d. FIN 414
   e. FIN 415
   f. FIN (R M) 460
   g. FIN (R M) 470
3. Select three credits of related Area (3 credits)
   a. Select three credits from one of the Two Piece Sequences below. Courses cannot double count in Related Area and the Two Piece Sequence.
4. Select one Two Piece Sequence from the following list (6 credits)
   a. Accounting - Select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 472
b. **Business Law** - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499

c. **Business Sustainability** - BA 441 and BA 442

d. **Economics** - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics

e. **Entrepreneurship** - MGMT 425 and either MGMT 426 or MGMT 427

f. **Information Systems Management** - MIS 301 and MIS 446

g. **International Business** - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business

h. **Management** - MGMT 326 and either MGMT 461 or MGMT 471

i. **Marketing** - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422

j. **Real Estate** - RM 303 and RM 450

k. **Risk Management** - RM 302 and RM 440

l. **Supply Chain and Information Systems** - Select two courses from the following: SCM 404, SCM 405, SCM 406

---

**Please Note:** In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

**Smeal College Minors**
- Information Systems Management (ISM)
- International Business (IB)
- Legal Environment of Business (LEBUS)
- Supply Chain and Information Sciences & Technology (SCIST)

**Liberal Arts Minor or Concurrent Major**
- Economics (ECON)

**College of IST Minor or Concurrent Major**
- Information Sciences and Technology (IST)

**Eberly College of Science Minor or Concurrent Majors**
- Mathematics (MATH)
- Statistics (STAT)

**World Language Minors and Concurrent Majors**
- Arabic Language (ARAB)
- Chinese Language (CHNS)
- French and Francophone Studies (FR)
- German (GER)
- Greek (GREEK)
- Hebrew (HEBR)
- Italian (IT)
- Japanese Language (JAPNS)
- Korean Language (KORLG)
- Latin (LATIN)
- Portuguese (PORT)
- Russian (RUS)
- Spanish (SPAN)

**Information Systems Management, Minor**

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

**Program Description**

The Information Systems Management minor focuses on IT supported techniques for exploring, analyzing, integrating, and reporting business data for fact-based decisions. The coursework enables students to study basic concepts, principles, and methods for information analysis, design and management, and to gain an understanding of the best practices for aligning IT-supported analytics with business strategy.

**What is Information Systems Management?**

This interdisciplinary minor is designed for students of other majors interested in the study of technology-supported techniques for exploring, analyzing, integrating, and reporting business data to facilitate fact-based decisions. The coursework enables you to study basic concepts, principles, and methods for business analytics and to gain an understanding of the best practices for aligning IT-supported analytics with business strategy.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

International Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The International Business minor provides students with knowledge, skills, and experiences that prepare them for a business career that might include international responsibilities. Mastery of fundamental business concepts, coursework in international business or economics, foreign language skills, and an approved study abroad experience each contribute to build perspectives about the challenges and opportunities of commercial activity in a global business environment.

What is International Business?

In an increasingly globalized economy, students are strongly encouraged to internationalize their undergraduate education. International business increases one's awareness in the global marketplace while broadening perspectives of different business cultures, practices, and challenges.

Companies value candidates who have strong business skills and possess intercultural communication skills.

Legal Environment of Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This minor presents students with a structured study of the statutory and common law governing the business environment. Students in this program have the opportunity to learn advanced legal subject matter, including business organization structures, employment law, property law, commercial transactions, intellectual property, environmental law, and government regulation. Content is framed around the organization and support of complex business enterprises from a legal perspective. This includes complex legal transactions, litigation support and avoidance, and the development of enterprises. The emphasis on the complex nature of legal organization formation, transactions, and litigation support is provided through a rigorous selection of business law and core business courses.

What is the Legal Environment of Business?

The Legal Environment of Business minor presents you with a structured study of the statutory and common law governing the business environment. Students in this program have the opportunity to learn advanced legal subject matter, including business organization structures, employment law, property law, commercial transactions, intellectual property, environmental law, and government regulation.

University Park

Advising Center
Smeal College Undergraduate Education
202 Business Building
University Park, PA 16802
814-863-1947
Management Information Systems, B.S. (Business)

Begin Campus: Any Penn State Campus  
End Campus: University Park

Program Description
The Management Information Systems major focuses on IT-supported techniques for exploring, analyzing, integrating, and reporting business data to facilitate fact-based decisions and enterprise-wide management. The framework encompasses the concepts, principles, and methods for:

1. collecting, transforming, and managing data,
2. doing business analytics,
3. communicating and sharing the results,
4. aligning IT-enabled business analytics with business strategy.

Students in this major have the opportunity to take nine credits of supporting work in functional business areas such as accounting, finance, marketing, risk management, and supply chain management. Graduates develop cross-functional literacy in how techniques and technologies help achieve business objectives, along with competency in applying business analytics methods on behalf of the business and in a supporting business area. Thus, graduates are well-prepared for careers in industry, consulting, and government sectors as business analytics professionals.

More information about the broad range of career opportunities is available at http://www.smeal.psu.edu/scis/recruit (http://www.smeal.psu.edu/scis/recruit).

What is Management Information Systems?
Management information systems lie at the intersection of business intelligence and computer programming. MIS managers apply information technology in ways that improve the efficiency and effectiveness of organizational decision-making and enterprise-wide management. This ability to save an organization time, money, and frustration by harnessing the usefulness of big data positions MIS managers to become valued members of a leadership team.

Entrance to Major
This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019
In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum grade-point average (GPA) of 3.10 in the eight entrance-to-major courses listed above.
- earned a minimum of 3.10 cumulative GPA

Students Who Entered Prior to Summer 2018
Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university (http://advising.psu.edu/entrance-major-requirements) on the Academic Advising Portal.

Degree Requirements
For the Bachelor of Science degree in Management Information Systems, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>

</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits
Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

This includes 12 credits of General Education: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

1 Course requires a C or better for major and General Education (2nd course ONLY; the first course of the two options does not require a C)
2 Course requires a C or better for major (2nd course ONLY; the first course of the two options does not require a C)
3 Course requires a C or better for Entrance to Major
4 Course requires a C or better for General Education (2nd course ONLY; the first course of the two options does not require a C)

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better. Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Additional Notes:

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific 'entrance to major' courses prior to the beginning of 'major field' course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following 'entrance to major' courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Management Information Systems major must complete in residence with Smeal College faculty all 300 level and above Management Information System courses.
Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

Advising Notes:
- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

Management Information System Notes:
- MIS 204 requires a "C" or better for the MIS Major

Management Information System Degree Requirements (MIS):
Program Year 2019

Course Descriptions

1. Take all of the following Management Information System courses (15 credits) - A grade of ‘C or better’ is required for all MIS courses along with MIS 204
   a. MIS 301
   b. MIS 431
   c. MIS 432
   d. MIS 446
   e. MIS 479W

2. Additional MIS class (3 credits) - A grade of ‘C or better’ is required for either course
   a. MIS 434
   b. MIS 441

3. Select one Two Piece Sequence from the following list (6 credits)
   a. Accounting - Select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 472
   b. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   c. Business Sustainability - BA 441 and BA 442
   d. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   e. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   f. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   g. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   h. Management - MGMT 326 and either MGMT 461 or MGMT 471
   i. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   j. Real Estate - RM 303 and RM 450
   k. Risk Management - RM 302 and RM 440
   l. Supply Chain and Information Systems - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

Smeal College Minors
- International Business (IB)
- Legal Environment of Business (LEBUS)

Management, B.S. (Business)

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This major provides students with knowledge and skills managers need to deal with contemporary management challenges, such as leading and motivating people of different ages and backgrounds, developing strategies for competing in the global economy, and balancing the interest of multiple stakeholders in a complex legal, political, and ethical environment. The management core provides a general overview of the knowledge and skills required for effectively managing people and organizations. Students then supplement that overview with either the Human Capital Management concentration or the Organizational
Leadership concentration. Career opportunities are in management trainee positions, human capital management, customer service, consulting, and family businesses.

**Human Capital Management Concentration**

The HCM concentration prepares students for a professional career in human resources management, and develops skills and expertise in areas such as planning, staffing, job design, employee development, performance management, compensation, change management, and managing diversity.

**Organizational Leadership Concentration**

The Organizational Leadership concentration provides students with knowledge of the attributes, processes and skills associated with leading organizations in dynamic times. It emphasizes student development of capabilities in leading themselves and others, leading change, and leading strategically in a global economic and social environment.

**What is Management?**

Organizations need leaders—people who can effectively manage organizations and the people in them, as well as develop and implement strategies that will lead to success. Gain the knowledge and skills managers need to deal with contemporary challenges including leading and motivating people, decision making, developing strategies for competing in the global economy, balancing the interests of multiple stakeholders in complex, legal, political, and ethical environments, and leading change.

MORE INFORMATION [link](https://undergrad.smeal.psu.edu/majors/management)

**Entrance to Major**

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

**First-Year Students Entering Summer 2018, Fall 2018, Spring 2019**

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum of 3.20 cumulative GPA

**Students Who Entered Prior to Summer 2018**

Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university ([link](http://advising.psu.edu/entrance-major-requirements)) on the Academic Advising Portal.

**Degree Requirements**

For the Bachelor of Science degree in Management, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>14</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>73</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The [keystone symbol](https://bulletin.psu.edu/college-requirements#keystones) appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.
Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Required Course: Require a grade of C or better

Select one of the following areas of concentration:

Human Capital Management Concentration
- MGMT 341 Human Resource Management
Select 6 credits of the following:
- MGMT 441 Organizational Staffing and Development
- MGMT 443 Performance Management
- MGMT 445 Managing a Diverse Workforce

Organizational Leadership Concentration
- MGMT 355 Leadership and Change in Organizations
Select 6 credits of the following:
- MGMT 420 Negotiation and Conflict Management
- MGMT 445 Managing a Diverse Workforce
- MGMT 461 International Management

Supporting Courses and Related Areas
- Attainment of 12th-credit level proficiency in a single foreign language
Select 6 credits of supporting coursework from an approved department list

1 Proficiency must be demonstrated by either examination or coursework.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

1 Course requires a C or better for major and General Education (2nd course ONLY; the first course of the two options does not require a C)
2 Course requires a C or better for major (2nd course ONLY; the first course of the two options does not require a C)
3 Course requires a C or better for Entrance to Major
4 Course requires a C or better for General Education (2nd course ONLY; the first course of the two options does not require a C)

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
- GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Additional Notes:

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ‘entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following ‘entrance to major’ courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Management major must complete in residence with Smeal College faculty all 300 level and above Management courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

Advising Notes:

- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

Management Notes:

- According to the University Policy, a student must take 3 or more courses in a specific area to complete a concentration in that area. Therefore students interested in a Human Capital Management or Organizational Leadership concentration should take at least 3 courses in those areas as outlined by the MGMT department.

Management Degree Requirements (MGMT):

Program Year 2019
Course Descriptions

1. Take all of the following Management courses (9 credits) - A grade of ‘C or better’ is required in all MGMT courses.
   a. MGMT 326
   b. MGMT 451W
   c. MGMT 471

2. Select a Concentration Area (9 credits) - Students must select Human Capital Management or Organizational Leadership Concentration; a grade of ‘C or better’ is required in all MGMT courses
   a. Human Capital Management
      i. Take MGMT 341
      ii. Select two courses from the following
         1. MGMT 441
         2. MGMT 443
         3. MGMT 445
   b. Organizational Leadership
      i. Take MGMT 355
      ii. Select two courses from the following
         1. MGMT 420
         2. MGMT 445
         3. MGMT 461

3. Select one Two-Piece Sequence from the following list (6 credits)
   a. Accounting - select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 471
   b. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   c. Business Sustainability - BA 441 and BA 442
   d. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   e. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   f. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   g. Information Systems Management - MIS 301 and MIS 446
   h. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   i. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   j. Real Estate - RM 303 and RM 450
   k. Risk Management - RM 302 and RM 440
   l. Supply Chain and Information Systems - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

Smeal College Minors

Marketing, B.S. (Business)

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This major provides professional education leading to positions in business, government, and other organizations, and helps prepare the student for advanced study at the graduate level. Career opportunities are in marketing management, sales management, advertising, marketing research, retailing, public policy, and consumer affairs. In addition to following a planned course sequence in general marketing management, the students may elect course work that focuses on their interests in consumer or business-to-business marketing, physical goods or services marketing, retail marketing and for-profit or not-for-profit marketing.

The Marketing major is designed to be integrated with the college's professional education in business and builds on that program and on education in the social sciences.
What is Marketing?

Marketing is a broad field with a primary purpose of generating demand for an enterprise's products or services. It involves an understanding of consumer behavior and research to determine consumer preferences and to guide firms in dealing with those preferences.

MORE INFORMATION (https://undergrad.smeal.psu.edu/majors/marketing)

Entrance to Major

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019

In order to be eligible for entrance to this major, students must satisfy the following requirements:

• completed 44-59 credits at Penn State (actual credits taken at the University)
• completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
• completed ECON 102
• earned a minimum grade-point average (GPA) of 3.20 in the eight entrance-to-major courses listed above.
• earned a minimum of 3.20 cumulative GPA

Students Who Entered Prior to Summer 2018

Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university (http://advising.psu.edu/entrance-major-requirements) on the Academic Advising Portal.

Degree Requirements

For the Bachelor of Science degree in Marketing, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Supporting Courses and Related Areas**

Attainment of 12th credit level proficiency in a single foreign language

Select 6 credits of supporting coursework (see Department List)

---

**1 Proficiency must be demonstrated by either examination or coursework.**

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement

1. Course requires a C or better for major and General Education (2nd course only; the first course of the two options does not require a C)
2. Course requires a C or better for major (2nd course only; the first course of the two options does not require a C)
3. Course requires a C or better for Entrance to Major
4. Course requires a C or better for General Education (2nd course only; the first course of the two options does not require a C)

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Additional Notes:

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific 'entrance to major' courses prior to the beginning of 'major field' course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following 'entrance to major' courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Marketing major must complete in residence with Smeal College faculty all 300 level and above Marketing courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

### Advising Notes:

- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

### Marketing Degree Requirements (MKTG):

#### Program Year 2019

#### Course Descriptions

1. Take all of the following Marketing courses (9 credits) - A grade of 'C or better' is required in all courses.
   a. MKTG 330
   b. MKTG 342
   c. MKTG 450W

2. Select three additional Marketing courses (9 credits) - A grade of 'C or better' is required in all courses.
   a. MKTG 327
   b. MKTG 410
   c. MKTG 422
   d. MKTG 426
   e. MKTG 428
   f. MKTG 437
   g. MKTG 440
   h. MKTG 443
   i. MKTG 445

Real Estate Analysis and Development, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Real Estate Analysis and Development (READ) certificate is designed to prepare students for a variety of careers in the real estate industry. It specifies coursework in advanced real estate analysis and investments. Students pursuing this certificate will be encouraged and better prepared to seek careers in commercial real estate development, analysis, investment, valuation, banking, and brokerage. They will be positioned to enter the financial management training programs of leading corporations. Strong demand exists from corporate recruiters for well-prepared graduates to enter these post-graduation training programs. READ Learning Goals - The learning objectives for the certificate in Real Estate Analysis and Development (READ) include:

Communication Skills: Argue your point persuasively in written, oral, or presentation form.
Problem Solving: Analyze complicated real estate financial issues using best tools, theories, and evidence, complemented by the ability to recommend solutions and implementation plans.
Critical Thinking: Understand the economic and institutional framework underlying successful real estate projects and developments.
Integrative Understanding: Integrate and coordinate teams across multiple disciplines including finance, marketing, management, accounting, economics, and law. Direct assessment will be embedded in selected instructional modules. Measures will be identified in various
assignments, projects, and exams. Over a five-year period each objective will be measured at least twice. If early indications show a need for more frequent assessments, adjustments will be made. Program faculty serve as the assessment committee and meet at least once a year. Results are analyzed and plans for improvement in content and/or delivery will be implemented.

What is Real Estate Analysis and Development?

The Real Estate Analysis & Development Certificate is designed to prepare students for opportunities to interact with the real estate industry in an intimate way. Students will gain an understanding of the complexities of real estate resources, which will assist them in both personal and professional investment decisions. Skills that will be enhanced include negotiations, investment analysis, enhanced financial techniques and institutional knowledge of the real estate sector. By completing the READ Certificate, students will be given opportunities to participate in the Real Estate Boot Camp, which offers site visits, special guest lecture series, a REIT Case Competition and other special opportunities unique to the commercial real estate sector.

Admission Requirements

The READ certificate is only open to students enrolled in a Smeal College of Business major. The READ certificate is not open to students enrolled in the Risk Management major - Real Estate option.

Program Requirements

To earn an undergraduate certificate in Real Estate Analysis and Development, a minimum of 9 credits is required.

Non-Course Requirements

Extracurricular Activities - While not a READ requirement, students who enroll in the certificate are encouraged to participate in the extra-curricular Real Estate Boot Camp offered by the Institute for Real Estate Studies (RES) which is housed in the Smeal College of Business. Students are also encouraged to join the Real Estate Society club while at Penn State.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. Risk Management, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The Risk Management major prepares students for careers in a wide range of private industries and public service agencies involving such areas as operations, property development, financial strategy, and government. The major is integrative in nature by crossing traditional business boundaries while offering specific areas of study in actuarial science, enterprise risk management, and real estate. High profile risks are faced by leaders and managers up and down the corporate ladder and require specialized skills, knowledge and preparation. The Risk Management major prepares students for this along with a chance to study risk from three different perspectives by offering specialty courses along with a common pool of risk management courses. This structure assures that the students in the risk management major are equipped with the common tools of risk analysis while at the same time permitting the students to tailor the specifics of their training through the selection of a particular option.

Actuarial Science Option

The courses in the Actuarial Science option stress the application of mathematical and statistical concepts to the measurement of life and other contingencies, while at the same time giving the student a broad understanding of the business environment. Students in the Actuarial Science option are encouraged to begin the series of professional examinations leading to Associateship and Fellowship in either the Society of Actuaries (A.S.A./F.S.A.) or the Casualty Actuarial Society (A.C.A.S./F.C.A.S.).

Enterprise Management Option

The Enterprise Risk Management Option prepares students to identify, quantify and qualify the regulatory, legal, financial and contractual
aspects of enterprise risk; the management of such risks; and the application of risk financing techniques to control risk exposures in organizations. Emphasis is also placed on the understanding of the principles and risks underlying complex business contracts.

**Real Estate Option**

This option is designed to prepare the student for a wide range of professional opportunities in corporate real estate management, real estate brokerage, appraisal, property management, mortgage lending and banking, development, and governmental service.

**What is Risk Management?**

Organizations face a wide array of risks in today’s rapidly changing and complex business environment. Operations can be disrupted by a variety of unanticipated factors, ranging from external forces like natural disasters and political risks to internal factors like faulty product design and flawed financial systems. CEOs make risky strategic decisions in an increasingly competitive marketplace where the cost of missteps is high. In recent years, firms have encountered new risks in the form of terrorism, global litigation, and the growing costs of human resources. Corporations and nonprofits have turned to enterprise risk management in an effort to protect themselves from the adverse consequences of all of the above risks.

MORE INFORMATION (https://undergrad.smeal.psu.edu/majors/risk-management)

**Entrance to Major**

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

**First-Year Students Entering Summer 2018, Fall 2018, Spring 2019**

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140 (Enterprise Risk Management and Real Estate options only), MATH 140 and MATH 141 (Actuarial Science option only) MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum grade-point average (GPA) of 3.20 in the eight entrance-to-major courses listed above (nine courses for the Actuarial Science option).
- earned a minimum of 3.20 cumulative GPA

**Students Who Entered Prior to Summer 2018**

Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university (http://advising.psu.edu/entrance-major-requirements) on the Academic Advising Portal.

---

**Degree Requirements**

For the Bachelor of Science degree in Risk Management, a minimum of 120 credits is required with at least 15 credits at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>11-14</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>73-76</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits
Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; and 3 credits of GS.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44. Proficiency must be demonstrated by either examination or coursework.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Enterprise Risk Management Option, University Park Campus and Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

1 Course requires a C or better for major and General Education (2nd course ONLY; the first course of the two options does not require a C)
2 Course requires a C or better for major (2nd course ONLY; the first course of the two options does not require a C)
3 Course requires a C or better for Entrance to Major
4 Course requires a C or better for General Education (2nd course ONLY; the first course of the two options does not require a C)

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

ADDITIONAL NOTES:
In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ‘entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following 'entrance to major' courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301, FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Enterprise Risk Management option of the Risk Management major must complete in residence with Smeal College all 300 level and above Risk Management courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

ADVISING NOTES:
- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

Risk management with the enterprise risk management option

DEGREE REQUIREMENTS (r m - erm):
Program Year 2019

Course Descriptions
The following bullets will assist students in navigating the Risk Management Enterprise Risk Management option:

- R M 320W is offered in the fall semester.
- R M 301 and R M 405 are offered in the spring semester.

1. Take all of the following Accounting courses (6 credits) - A grade of 'C or better' is required in all courses.
   a. RM 320W
   b. RM 301

2. ERM OPTION COURSES - Take the following courses (12 credits) - A grade of 'C or better' is required.
   a. BLAW 441
   b. FIN 406
   c. RM 405
   d. RM 440

3. Select one Two-Piece Sequence from the following list (6 credits)
   a. Accounting - Select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 472
   b. Actuarial Science - R M 410 and R M 411
   c. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   d. Business Sustainability - BA 441 and BA 442
   e. Corporate Benefits - R M 401 and R M 430
   f. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   g. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   h. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   i. Information Systems Management - MIS 301 and MIS 446
   j. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   k. Management - MGMT 326 and either MGMT 461 or MGMT 471
   l. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   m. Mathematics - MATH 141 and MATH/STAT 414
   n. Real Estate - RM 303 and RM 450
   o. Statistics - Select two courses from the following: STAT 461, STAT 432, STAT 463
   p. Supply Chain and Information Systems - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

SMEAL COLLEGE MINORS
- Information Systems Management (ISM)
- International Business (IB)
- Legal Environment of Business (LEBUS)
- Supply Chain and Information Sciences & Technology (SCIST)

LIBERAL ARTS MINOR OR CONCURRENT MAJOR
- Economics (ECON)

COLLEGE OF IST MINOR OR CONCURRENT MAJOR
- Information Sciences and Technology (IST)
EBERLY COLLEGE OF SCIENCE MINOR OR CONCURRENT MAJORS
- Mathematics (MATH)
- Statistics (STAT)

WORLD LANGUAGE MINORS AND CONCURRENT MAJORS
- Arabic Language (ARAB)
- Chinese Language (CHNS)
- French and Francophone Studies (FR)
- German (GER)
- Greek (GREEK)
- Hebrew (HEBR)
- Italian (IT)
- Japanese Language (JAPNS)
- Korean Language (KORLG)
- Latin (LATIN)
- Portuguese (PORT)
- Russian (RUS)
- Spanish (SPAN)

- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language.
- Credits vary based on skill level.

Risk Management - Actuarial Science Notes:
- The following bullets will assist students in navigating the Risk Management Actuarial Science option:
  - RM 320W, RM 412, and RM 430 are offered in the fall semester
  - RM 301, RM 411, RM 401 and RM 420 are offered in the spring semester.
  - In addition to fulfilling all degree requirements, students pursuing professional certification as an actuary should plan their studies according to the following recommendations:
    - Take STAT (MATH) 414 and RM 214 concurrently to help you pass the Society of Actuaries Probability Exam as soon as possible.
    - Complete STAT 462 and STAT 463 with grades of B- or better to meet the SOA Validation by Educational Experience (VEE) requirement.

Risk Management - Actuarial Science Degree Requirements (ACTSC):
Program Year 2019

Course Descriptions

1. **Take all of the following Risk Management - Actuarial Science courses (15 credits)** - A grade of 'C or better' is required in all courses
   a. RM 320W
   b. RM 410
   c. RM 411
   d. RM 412
   e. RM 430

2. **Additional Risk Management - Actuarial Science course (3 credits)** - Select three credits from the following; a grade of 'C or better' is required in both courses
   a. RM 401
   b. RM 420

3. **Additional Risk Management - Actuarial Science (3 credits)** - Select three credits from the following; a grade of 'C or better' is required in both courses
   a. RM 415
   b. STAT 483

4. **Related Area (5 credits)** - Take the following MATH/STAT courses; a grade of 'C or better' is required in both courses
   a. MATH (STAT) 414
   b. MATH 231

**Real Estate Option, University Park Campus and commonwealth campuses**

- The following bullets will assist students in navigating the Risk Management Real Estate option:
  - RM 330 and RM 460 are offered in the fall semester
  - RM 301, RM 450 and RM 470 are offered in the spring semester.

Risk Management - Real Estate Option Degree Requirements (REST):
Program Year 2019

Course Descriptions

1. Take all of the following Risk Management courses (15 credits) - A grade of ‘C or better’ is required in all courses
   a. RM 330W
   b. RM 301
   c. RM 450
   d. RM (FIN) 460
   e. RM (FIN) 470

2. Select one additional Risk Management course (3 credits) - Select three credits from the following; a grade of ‘C or better’ is required
   a. FIN 406
   b. RM 420
   c. RM (BLAW) 424
   d. RM (BLAW) 425
   e. RM 480
   f. ACCTG 483

3. Select one Two-Piece Sequence from the following list (6 credits)
   a. Accounting – Select two courses from the following: ACCTG 404, ACCTG 471, ACCTG 472
   b. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 446, B LAW 497, B LAW 499
   c. Business Sustainability - BA 441 and BA 442
   d. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   e. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   f. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   g. Hospitality Management -- Select two courses from the following: HM 480, HM 482, HM 482
   h. Information Systems Management - MIS 301 and MIS 446
i. **International Business** - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business

j. **Landscape Architecture** – LARCH 414, LARCH 424

k. **Management** - MGMT 326 and either MGMT 461 or MGMT 471

l. **Marketing** - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422

m. **Risk Management** - RM 302 and RM 440

n. **Supply Chain and Information Systems** - Select two courses from the following: SCM 404, SCM 405, SCM 406

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

**Smeal College Minors**
- Information Systems Management (ISM)
- International Business (IB)
- Legal Environment of Business (LEBUS)
- Supply Chain and Information Sciences & Technology (SCIST)

**Liberal Arts Minor or Concurrent Major**
- Economics (ECON)

**College of IST Minor or Concurrent Major**
- Information Sciences and Technology (IST)

**Eberly College of Science Minor or Concurrent Majors**
- Mathematics (MATH)
- Statistics (STAT)

**World Language Minors and Concurrent Majors**
- Arabic Language (ARAB)
- Chinese Language (CHNS)
- French and Francophone Studies (FR)
- German (GER)
- Greek (GREEK)
- Hebrew (HEBR)
- Italian (IT)
- Japanese Language (JAPNS)
- Korean Language (KORLG)
- Latin (LATIN)
- Portuguese (PORT)
- Russian (RUS)
- Spanish (SPAN)

**Smeal College Business Fundamentals, Certificate**

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

**Program Description**

The Smeal College Business Fundamentals Certificate provides non-Smeal students with the background and knowledge for careers in corporate and non-profit settings. Core courses are framed around an integrated approach to management, finance, global operations, product development and promotion, and legal aspects of business. Students gain practical skills needed to compete in today's rapidly changing business environment.

**What is Smeal College Business Fundamentals?**

The Smeal College Business Fundamentals Certificate will add to your knowledge base across a range of critical business areas and add a Smeal-specific designation to your University transcript upon completion. If you are in a major that is not business related or if you are in a non-Smeal major with a business option or concentration, this certificate will allow you to pursue your interests outside of Smeal while broadening your undergraduate experience to develop fundamental business skills. Prerequisite courses in accounting, economics and statistics will lay the foundation for the core courses in management, marketing, finance and supply chain. In addition, a business elective in either business law or international business may be chosen. This certificate will help you develop the skills that will be needed in whatever career you choose to pursue.

**Admission Requirements**

Students must be enrolled in a non-business baccalaureate program to pursue this certificate.

**Program Requirements**

To earn an undergraduate certificate in Smeal College Business Fundamentals, a minimum of 15 credits is required.

A grade of C or better is required in all prescribed courses; these courses must be taken at Penn State. Provided that at least three of the five courses are taken in the Smeal College of Business, certificate courses may be satisfied by substituting Penn State courses with comparable content at the same level with the approval of the Smeal College.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Supply Chain and Information Sciences and Technology, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The minor in SCIST is structured to provide students not majoring in Supply Chain & Information Systems (SC&IS) or Management Information Systems (MIS) with the opportunity to develop working knowledge of information technology, supply chain management, and their interdisciplinary synergies. The joint minor is designed for professional careers in business, information systems, software development, consulting, and government. The successful minor must, at a minimum, possess basic knowledge of quantitative techniques, computer applications, and microeconomics.

What is Supply Chain and Information Sciences and Technology?
Supply Chain and Information Systems encompasses some of the largest employment sectors in the U.S. economy and offers advancement opportunities in countries around the world, along with excellent salaries. U.S. News and World Report Career Guide and Working Woman magazines have cited this area as a hot career track. Companies seeking students in this area represent: the services sector, which includes consulting, third-party logistics, transportation, warehousing, and retailing; the manufacturing sector, especially the computer, aerospace, pharmaceutical, electronics, petrochemical, auto, food, and consumer products industries; and the government sector, primarily at the federal and state levels.

Supply Chain and Information Systems, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

The SC&IS major concentrates on the management of value-creating supply chain networks that modern business enterprises use to acquire, produce, and deliver goods and services all over the world and on information technology as the key enabler of supply chain integration. Students learn how to analyze and design supply chains and manage core business processes including

1. sourcing and procuring raw materials,
2. manufacturing and service operations, and
3. planning and fulfilling customer demand.

Students also develop knowledge, skills, and abilities in the information systems area, including information processing, databases, information systems design and analysis, and supply chain technologies.

Graduates are well-prepared for careers in the supply chain and information systems area in both industry and government, including manufacturing, service, technology, and merchandising companies, third-party logistics providers, transport system enterprises, consulting firms, and government agencies.

More information about the broad range of career opportunities is available at [http://www.smeal.psu.edu/scis/recruit](http://www.smeal.psu.edu/scis/recruit).

What is Supply Chain and Information Systems?

Supply Chain and Information Systems is a boundary-spanning field of supply chain networks, which organizations use to acquire, produce, and deliver goods and services all over the world.

MORE INFORMATION ([https://undergrad.smeal.psu.edu/majors/supply-chain-information-systems](https://undergrad.smeal.psu.edu/majors/supply-chain-information-systems))

Entrance to Major

This program currently has administrative enrollment controls. Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

First-Year Students Entering Summer 2018, Fall 2018, Spring 2019

In order to be eligible for entrance to this major, students must satisfy the following requirements:

- completed 44-59 credits at Penn State (actual credits taken at the University)
- completed with a grade of C or better: ESL 15 or ENGL 15 or ENGL 30, ACCTG 211, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, and SCM 200 or STAT 200
- completed ECON 102
- earned a minimum grade-point average (GPA) of 3.20 in the eight entrance-to-major courses listed above.
- earned a minimum of 3.20 cumulative GPA

Students Who Entered Prior to Summer 2018

Students who entered the University prior to the summer 2018 semester should view the administrative enrollment controls for the semester that they entered the university ([http://advising.psu.edu/entrance-major-requirements](http://advising.psu.edu/entrance-major-requirements)) on the Academic Advising Portal.

Degree Requirements

For the Bachelor of Science degree in Supply Chain and Information Systems, a minimum of 120 credits is required with at least 15 credits at the 400 level:

</tr>
</tbody>
</table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The [keystone symbol](https://undergrad.smeal.psu.edu/majors/supply-chain-information-systems) appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits
Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Additional Notes:

In order to promote student academic success, the Smeal faculty has designated the successful completion of specific ‘entrance to major’ courses prior to the beginning of ‘major field’ course work. In order to ensure all students are equally prepared for success, the Smeal College of Business requires that the following ‘entrance to major’ courses must be completed at a Penn State campus: ACCTG 211, MGMT 301, MKTG 301 and FIN 301.

Therefore, transfer courses or those designated as direct equivalent courses for the four courses listed above will not be credited toward Smeal entrance to major progress.

Please note that pursuant to AACSB accreditation standards, the Smeal College requires that all upper division courses within the departments...
sponsoring the major be completed in residence at University Park under the instruction of Smeal College faculty.

For example, students in the Supply Chain and Information Systems major must complete in residence with Smeal College faculty all 300 level and above Supply Chain courses.

Petitions for hardship exceptions from this policy may be made to the Smeal College of Business Associate Dean for Undergraduate Education.

Advising Notes:
- It is highly recommended that students at University Park take SCM 301 in their 4th semester.
- It is highly recommended that students at campuses that do not offer SCM 301 take ENGL 202D in their 4th semester.
- Students must complete 12th credit level in a foreign language. Credits vary based on skill level.

Supply Chain Notes:
- Students majoring in Supply Chain and Information Systems are required to earn a C or higher in SCM 301.

Supply Chain and Information Systems Degree Requirements (SCIS):
Program Year 2019

Course Descriptions

1. Take all of the following Supply Chain Management (SCM) (15 credits) - A grade of ‘C or better’ is required in all SCM courses along with SCM 301.
   a. SCM 404
   b. SCM 405
   c. SCM 406
   d. SCM 421
   e. SCM 450W

2. Select three credits of Related Area (3 credits) - Select three credits from one of the Two Piece Sequences below.
   a. Courses cannot double count in Related Area and the Two Piece Sequence

3. Select one Two-Piece Sequence from the following list (6 credits)
   a. Accounting - Select two courses from the following: ACCTG 404, ACCTG 471
   b. Business Law - B LAW 424, B LAW 425, B LAW 441, B LAW 444, B LAW 445, B LAW 497, B LAW 499
   c. Business Sustainability - BA 441 and BA 442
   d. Economics - Select 3 credits of 300/400 level Economics and select 3 credits of 400 level Economics
   e. Entrepreneurship - MGMT 425 and either MGMT 426 or MGMT 427
   f. Finance - Select two courses from the following: FIN 305, FIN 406, FIN 408
   g. Information Systems Management - MIS 301 and MIS 446
   h. International Business - Select two courses from the following: IB 303, IB 403, IB 404, IB 450, IB 460, IB 470, IB 497 Sustainability & International Business
   i. Management - MGMT 326 and either MGMT 461 or MGMT 471
   j. Marketing - Select either MKTG 330 or MKTG 327 and select either MKTG 445 or 422
   k. Real Estate - RM 303 and RM 450
   l. Risk Management - RM 302 and RM 440

Please Note: In lieu of completing a Two-Piece Sequence, students may complete one of the designated University minors listed below provided the minor has a minimum of six credits of 400-level course work that can be used in the two-piece category according to the course layout in the degree audit system.

Supply Chain and Information Systems, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change
from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Supply Chain and Information Systems (SC&IS) minor is not open to SC&IS major (Smeal) and PSCM majors (Behrend and Capital).

The Supply Chain and Information Systems (SC&IS) minor is structured to provide the student with a working knowledge of the discipline and to complement a student’s major field of study. The SC&IS minor provides exposure to core supply chain processes, methods, and techniques and to directly related enabling enterprise system technologies. Students completing the SC&IS minor can apply their expanded knowledge in both the manufacturing and service sectors of the economy.

The SC&IS minor is offered on-line through World Campus. SC&IS contains World Campus sections of MIS 404, SCM 445 and SCM 465 that contain SAP-specific topics necessary for the minor. Planning and course selection is important in order to earn proper credit in the SAP-specific courses.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

University College

About the College

Madlyn L. Hanes, Vice President for Commonwealth Campuses, and Executive Chancellor, Dean, University College

University College consists of 14 campuses distributed throughout the Commonwealth. As a land-grant institution, Penn State is committed to providing the citizens of Pennsylvania convenient access to a high-quality education at a campus near them. Many of the more than 10,000 students attending classes at a University College campus will choose to remain at their campus of admission for all four years to complete one of the 18 baccalaureate programs the College offers in a wide variety of academic disciplines, including business, engineering, nursing, the social sciences, the natural sciences, and the humanities. In addition, several campuses offer a variety of professionally-accredited associate programs in the health sciences. Other students starting at a University Campus transition to a second campus after their first two years to complete their selected program of study.

Mission and Goals

University College realizes the University’s commitment to educating a diverse and ever-changing demographic of learners, a responsibility at the forefront of the campus mission. It provides a high-quality and innovative Penn State undergraduate education to prepare students for a life of professional success, personal fulfillment, and social engagement. Campuses have an impact that extends beyond their educational mission. They contribute to the educational attainment and local economies of the communities they serve.

Campuses

Penn State Beaver

Penn State Beaver serves a diverse population of approximately 700 students and offers a relaxed environment with baccalaureate degrees, on-campus housing, and varsity sports — all just 35 miles northwest of Pittsburgh.

MORE INFORMATION ABOUT PENN STATE BEAVER (http://beaver.psu.edu)

Penn State Brandywine

Penn State Brandywine, located near Philadelphia, provides the charm and intimacy of a small campus and the resources of a major research
university. The campus offers baccalaureate degrees, undergraduate research, internships, global programs, intercollegiate athletics and a variety of student clubs. Students live in on-campus housing or commute to campus from nearby communities.

MORE INFORMATION ABOUT PENN STATE BRANDYWINE (http://brandywine.psu.edu)

Penn State DuBois
Penn State DuBois is a small, commuter-based campus that offers cutting-edge technology, faculty expertise, and dedication to excellence. The campus has about 600 students and is located near I-80 in north central Pennsylvania.

MORE INFORMATION ABOUT PENN STATE DUBOIS (http://dubois.psu.edu)

Penn State Fayette
Penn State Fayette, The Eberly Campus, offers bachelor’s and associate degrees to about 700 students. Its beautiful 100-acre campus in Pennsylvania’s Laurel Highlands is the former site of an 1800’s-era farmstead.

MORE INFORMATION ABOUT PENN STATE FAYETTE (http://fayette.psu.edu)

Penn State Greater Allegheny
At Penn State Greater Allegheny, about 600 students enjoy the suburban environment and the neighboring city life in Pittsburgh. The campus offers residence halls, a diverse student body, athletics, and more.

MORE INFORMATION ABOUT PENN STATE GREATER ALLEGHENY (http://greaterallegheny.psu.edu)

Penn State Hazleton
At Penn State Hazleton, about 800 students enjoy a residential campus located in the heart of the Pocono Mountains in northeastern Pennsylvania. Students have the opportunity to work and to learn in state-of-the-art classrooms and labs, all the while being centrally located from New York City, Philadelphia, and University Park.

MORE INFORMATION ABOUT PENN STATE HAZLETON (http://hazleton.psu.edu)

Penn State Lehigh Valley
Penn State Lehigh Valley offers world-class education and opportunities both in and out of the classroom to about 900 students on a small campus near Allentown. Students have access to the area’s thriving athletic and cultural attractions.

MORE INFORMATION ABOUT PENN STATE LEHIGH VALLEY (http://lehighvalley.psu.edu)

Penn State Mont Alto
Penn State Mont Alto offers a world-class education on an intimate campus that includes an arboretum. The campus enrolls about 950 students, offers residence halls, and is located 30 minutes from Gettysburg and 90 minutes from Washington, D.C. and Baltimore, Md.

MORE INFORMATION ABOUT PENN STATE MONT ALTO (http://montalto.psu.edu)

Penn State New Kensington
Penn State New Kensington offers an array of degrees, undergraduate research, clubs, and athletics to about 650 students. The 72-acre wooded campus is located just 17 miles from Pittsburgh.

MORE INFORMATION ABOUT PENN STATE NEW KENSINGTON (http://newkensington.psu.edu)

Penn State Scranton
Penn State Scranton provides a welcoming environment to about 1,100 students on its campus in northeastern Pennsylvania. The campus strives to provide innovative instruction to help students achieve their potential.

MORE INFORMATION ABOUT PENN STATE SCRANTON (http://worthingtonscranton.psu.edu)

Penn State Schuylkill
Located in north central Pennsylvania, Penn State Schuylkill is close to cities such as Harrisburg, Philadelphia and New York. The campus has about 800 students and offers a world-class education in a small-town setting.

MORE INFORMATION ABOUT PENN STATE SCHUYLKILL (http://schuylkill.psu.edu)

Penn State Shenango
Located near the Pennsylvania/Ohio border, Penn State Shenango combines quality academics with the personal attention of a small campus. The campus has about 500 students and is committed to serving the people of northwestern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE SHENANGO (http://shenango.psu.edu)

Penn State Wilkes-Barre
Penn State Wilkes-Barre offers the advantages of an intimate campus atmosphere combined with the resources of a major research university. The campus has about 550 students and is located on a scenic estate in northeastern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE WILKES-BARRE (http://wilkesbarre.psu.edu)

Penn State York
Penn State York has about 1,100 students and offers a wealth of stimulating intellectual, cultural, and historically-significant learning experiences in a welcoming, state-of-the-art campus environment in southern Pennsylvania.

MORE INFORMATION ABOUT PENN STATE YORK (http://york.psu.edu)

Baccalaureate Degrees

- Administration of Justice, B.A.
- Administration of Justice, B.S.
- American Studies, B.A. (University College)
- Arts Administration, B.A. (University College)
- Biobehavioral Health, B.S. (University College)
- Biology, B.S. (University College)
- Business, B.S. (University College)
- Communication Arts and Sciences, B.A. (University College)
College Procedures

Academic Warning
A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. The University College campuses support students through programming and individualized advising services. A student must work with an academic adviser to have the registration hold removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

Academic Suspension
A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.) These students are encouraged to work closely with their advisers or other designated staff to consider the issues that led to their suspension and may apply for re-enrollment as a degree candidate by contacting any campus Registrar’s office.

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)

Change of Campus
Students are expected to remain at their campus of admission for the first two years of study. In exceptional situations, a student may request an early change of campus to maintain progress toward degree. The student must obtain approval from the home campus (first) and at the desired campus (second) in order for the change to be processed.

Concurrent Majors
A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Students should meet with their academic adviser, review academic plans and submit requests through LionPATH. University College requires an application form (http://undergrad.psu.edu/aappm/concurrent.pdf) submitted to our college records office. Majors cannot be in shared disciplines such as Biology/Science or Business/Project and Supply Chain Management.

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00)

Resources

Course Substitution Request System
Students should visit their advisers to review their academic plan and petition course substitutions via the Course Substitution Request System. Course descriptions and syllabi for course work completed at other institutions may be required.

MORE INFORMATION (http://csrs.psu.edu)

---

Penn State University
Digital Learning Cooperative

The Digital Learning Cooperative (DLC) allows students to enroll in online, hybrid, and video courses offered by Penn State campuses across the University. Courses shared on the DLC may count toward students’ general education program and fulfill requirements in a wide variety of majors. DLC courses available to students will be listed in the Schedule of Courses for their campus.

Pathway to Student Success: Summer Start (PaSSS)

Assists first-time students in making the transition from high school to college. Students selected for the program are eligible to receive scholarships in the first two summers after their high school graduation to college. Students selected for the program are eligible to receive a on-campus job to earn money.

MORE INFORMATION (http://summerstart.psu.edu)

Undergraduate Research

Penn State undergraduates who are presenting the results of their research or creative work at national or regional professional conferences may request financial support to defray the costs of attendance at the conference. If the request is approved, the costs will be equally split among the University College Dean’s Office (OVPC), the Office of Undergraduate Education, the campus, and, if applicable, the Schreyer Honors College. The contribution from each partner is capped at $400 per student. The student must be a conference presenter to be eligible for funding and the presentation must be related to the student’s academic program.

VIEW APPLICATION (https://psu.infoready4.com/#competitionDetail/1757569)

Erickson Discovery Grants

The Rodney A. Erickson Discovery Grant Program, named in honor of Penn State’s seventeenth President, supports undergraduate student engagement in original research, scholarship, and creative work under the direct supervision of a faculty member. Approximately 60 Erickson Discovery Grants, each in the amount of $3,500, are available through the Office of Undergraduate Education for summer 2018. Additional grants may be funded through College and/or campus support. The Erickson Discovery Grants are directed to student-initiated projects in the arts, engineering, humanities, sciences, and social sciences that provide experience in all facets of the research, scholarship, or creative processes.

MORE INFORMATION (https://undergradresearch.psu.edu/summer_discovery)

Engineering Summer REU

The Summer Multi-Campus Research Experience for undergraduates (MC REU) occurs during June and July. The MC REU program supports Penn State Undergraduate engineering students to conduct research with Penn State faculty. Selected students will complete their proposal in conjunction with a Penn State faculty member from the student’s home campus and a second faculty member at the University Park campus. The objectives of the MC REU are to promote undergraduate students participating in research early in their academic programs; to broaden their education and increase their chances of entering graduate studies; and to promote awareness and collaboration among faculty across the Commonwealth.

MORE INFORMATION (http://psuengineeringdiversity.com/mcreu)

Global Program Student Faculty Funding for International Activities

The University office of Global Programs provides limited funds to support student international travel related to education and research opportunities in any discipline.

MORE INFORMATION (http://www.global.psu.edu/category/global-programs-travel-grants)

CUR Membership

Penn State has an enhanced institutional membership for the Council on Undergraduate Research (CUR). As a result of this enhanced institutional membership, any faculty member, administrator, student, or staff member from any Penn State campus or college may join the CUR at no additional cost to the individual. Membership benefits include a digital subscription to CUR Quarterly, substantial discounts on CUR materials and conferences, access to CUR’s online archive of Webinar Recordings and materials, and access to the member’s only portion at http://www.cur.org, which includes information on funding opportunities, jobs, and other resources.

Invent Penn State

Innovation Hubs Across the Commonwealth: LaunchBox’s

The Invent Penn State seed grant program provides campuses with grants of $50,000 to launch or enhance innovation hubs. The impact of these grants is far reaching, with 17 Commonwealth communities now having Invent Penn State-affiliated spaces and programs—free to the community—that will drive innovation and economic growth. The 17 are listed at: http://www.invent.psu.edu/program/17-pa-innovation-hubs/

The Intercollege Minor in Entrepreneurship and Innovation (ENTI)

Because entrepreneurs and innovators exist in all industries and in all types of companies, the ENTI minor appeals to students regardless of their academic discipline. ENTI teaches students foundational skills they will need to succeed in the professional world, including innovative thinking, opportunity recognition, developing budget models, leadership, and project management.

Administration of Justice, B.A.
Begin Campus: Any Penn State Campus
End Campus: DuBois, Fayette, Hazleton, Schuylkill, Wilkes-Barre, Greater Allegheny

Program Description
The Bachelor of Arts degree in Administration of Justice provides students with a broadly based liberal education focused on the understanding and analysis of justice systems. Having grappled with the many dilemmas and controversies presented by the problems of administering justice in a complex society, graduates of this program are given the background to be educated, thoughtful, and intelligent citizens.

What is Administration of Justice?
As we continue the journey deeper into the twenty-first century, society is facing the serious social problem of effectively addressing crime in a rapidly changing world. Administration of Justice focuses on the inter-related components of the criminal justice system, public and private sector enforcement, legal systems, correctional treatment and community services. Students achieve a liberal arts education, including competency in foreign language. There is a focus on the development of critical thinking, written and verbal communication skills necessary to be successful leaders in this and related careers. Students engage in classroom instruction, individual study and possible field experience.

You Might Like This Program If...
• You enjoy communicating with others.
• You are an analytical thinker.
• You wish to individualize a concentration of coursework.
• You intend to become a practitioner in one of the traditional areas of criminal justice, such as law enforcement or corrections.
• You are looking for an exciting career where no two days are alike.
• You will seek employment in a human service field such as counseling, therapy or rehabilitation.
• You are considering graduate study in Administration of Justice, Public Administration, Legal Studies or other related fields.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements
For the Bachelor of Arts degree in Administration of Justice, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>11-15</td>
</tr>
<tr>
<td>Bachelor of Arts Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>43-44</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences(GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

4-7 credits of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.
First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**Requirements for the Major**

This includes 4-7 credits of General Education courses; 0-3 credits of GH courses; 4 credits of GQ courses.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Supporting Courses and Related Areas

Select 6 credits, in consultation with adviser, from University-wide offerings according to student’s career plan.

#### Program Learning Objectives

**Greater Allegheny Campus**

1. **Know Structure**: Demonstrate understanding around the history, structure and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
2. **Know Context**: Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.
3. **Know and Use Theory**: Demonstrate understanding of core theories in criminology and the sociology of deviance and their relevance to different types of offenses and offenders.
4. **Think Critically**: Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
5. **Do Research**: Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
6. **Communicate**: Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, posters, and oral presentations.

### Wilkes-Barre Campus

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

### Suggested Academic Plan

#### DuBois Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 125

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Hazleton Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1. Additional CRIMJ courses: Select 18 credits in CRIMJ courses, with at least 9 credits at the 400-level.
2. Major supporting courses: Select 6 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal forensic), HDFS courses (e.g., courses on developmental or family problems), IST or SRA security courses, and/or internship (CRIMJ 495).
3. Students must complete the 12th credit level in a second language. Credits vary based on skill level.
4. Students typically need 12 - 18 elective credits

Total Credits 122-123

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Integrative Studies (either Inter-domain or Linked Courses)
Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Career Paths

This major helps students prepare for a variety of challenging careers through a combination of professional and individualized liberal arts coursework, emphasizing the underlying sociological aspects of criminal justice, in addition to options for graduate study and continued education.

Careers

Graduates in the Administration of Justice program find an array of career opportunities in federal, state, and local law enforcement and correction agencies, probation and parole services, community crime prevention and treatment services, and private sector security. Many opportunities are available in juvenile and drug rehabilitation counseling, recreation programs, forestry settings, and other sites. Career opportunities, which are expanding rapidly, offer a good salary, excellent job security, and extensive possibilities for advancement.

Opportunities for Graduate Studies

The degree also provides you with an excellent opportunity for graduate school, including masters or doctorate programs in law, criminology, human development, psychology, and the social sciences. Students also participate in original research, which provides experience designed to assist you in determining your career goals.

Administration of Justice, B.S.

Begin Campus: Any Penn State Campus

End Campus: Beaver, DuBois, Fayette, Hazleton, Greater Allegheny, New Kensington, Schuylkill, Shenango, Wilkes-Barre

Program Description

The Bachelor of Science degree is intended to prepare students for careers in the administration of justice. Two emphases are provided:

1. for students interested in entry-level employment in justice agencies;
2. for students interested in academic or research positions and who may seek graduate education before beginning employment.

MORE INFORMATION (http://beaver.psu.edu/aoj-career-opportunities)
What is Administration of Justice?
As we continue the journey deeper into the twenty-first century, society is facing the serious social problem of effectively addressing crime in a rapidly changing world. Today’s students are tomorrow’s front line protectors and policy makers who balance the philosophies of crime control and due process. To be successful, practitioners, managers, and administrators in the criminal justice field must demonstrate a mastery of interdisciplinary knowledge and skills. Administration of Justice focuses on the interrelated components of the criminal justice system, public and private sector enforcement and investigation, legal systems, correctional treatment, and community services and on the development of critical thinking, written and verbal communication skills necessary to be successful leaders in this and related careers. Students engage in classroom instruction, research and experiential learning which prepare them for ethical leadership, global citizenship and engaged service.

You Might Like This Program If...

• You enjoy communicating with others.
• You are an analytical thinker.
• You are interested in the law and in social issues.
• You are interested in gaining invaluable professional experience through an internship within a criminal justice agency.
• You intend to become a practitioner in one of the traditional areas of criminal justice, such as law enforcement or corrections.
• You will seek employment in a supportive field such as counseling, forensics, data analysis, therapy and rehabilitation.
• You are considering graduate study in Administration of Justice, Public Administration, Legal Studies or other related fields.
• You are looking for an exciting career where no two days are ever the same.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements
For the Bachelor of Science degree in Administration of Justice, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>14-18</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>64-65</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

4-7 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.
Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 4-7 credits of General Education courses; 0-3 credits of GH courses; 4 credits of GQ courses.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

Program Learning Objectives

Beaver, New Kensington, and Shenango Campuses

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to apply analysis and evaluation strategies specific to criminal justice/criminology to formulate solutions to criminological problems.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.
9. Students will be able to show professionalism, interact appropriately with colleagues, uphold professional ethical principal, and work ethically, as part of their internships, consistent with professional standards and practices.

Fayette Campus

1. Recognize the major components of the Criminal Justice System and describe the purpose of each component (Policing, Courts, Corrections)
2. Demonstrate the ability to apply field research methods to the discipline.
3. Understand crime and criminal justice theories relevant to criminology.
4. Identify current issues relating to crime and criminal justice.
5. Understand how the criminal justice system fits within the larger social science field.

Greater Allegheny Campus

1. Know Structure: Demonstrate understanding around the history, structure and function of the three branches of criminal justice (Courts, Law Enforcement, Corrections).
2. Know Context: Demonstrate understanding around the relationship between culture, social class, race and ethnicity, gender and sexuality and criminal justice involvement.
3. Know and Use Theory: Demonstrate understanding of core theories in criminology and the sociology of deviance and their relevance to different types of offenses and offenders.
4. Think Critically: Demonstrate ability to solve criminal justice problems through an understanding of context, the identification of appropriate evidence, and appreciation of potential barriers and limitations.
5. Do Research: Demonstrate ability to formulate research questions, implement basic quantitative and qualitative research methods, collect and analyze limited data.
6. Communicate: Demonstrate ability to effectively communicate practical and theoretical criminal justice issues through papers, posters, and oral presentations.

Hazleton Campus

Students should demonstrate an understanding of the following:

1. Contemporary criminal justice system, major systems of social control and their policies and practices; victimology; juvenile justice; comparative criminal justice; ethics in criminal justice.
2. Women as victims and offenders; race, ethnicity and minority group status in relation to the criminal justice system.
3. History, theory, practice and legal environment, development of correctional philosophy, incarceration, diversions, community-based corrections, treatment of offenders, alternatives to incarceration.
4. The nature and causes of crime and deviance, typologies, offenders, and victims.
5. Criminal law, criminal procedures, prosecution, defense, and court procedures and decision-making.
7. Qualitative and Quantitative methodologies-including statistics and methods for conducting and analyzing criminal justice research in a manner appropriate for undergraduate degree students.

Schuylkill and Wilkes-Barre Campuses

1. Students will be able to have a basic understanding of the nature of the three branches of the Criminal Justice System (Legal, Law Enforcement, Corrections).
2. Students will be able to have developed critical thinking skills to understand and to formulate solutions to problems relating to criminological issues.
3. The students will have developed a core of criminological knowledge and concepts which will help them understand the functioning of and issues relevant to the criminal justice system.
4. Students will be able to understand and apply theories of criminal and deviant behavior, and the behavior of law.
5. Students will be able to read and correctly interpret Criminal Justice research and data.
6. Students will be able to understand the relationship between culture, social class and criminal justice.
7. Students will be able to communicate criminological issues effectively and deliver written and/or oral presentations.
8. Students will be able to demonstrate knowledge and application skills regarding the fact that the criminal justice professional must operate in a climate of tolerance and respect where opposing viewpoints can be exchanged openly.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Total Credits 120-129**

1. Additional CRIMJ courses: Select 18 credits in CRIMJ courses, with at least 9 credits at the 400-level.
2. Major supporting courses: Select 12 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal forensic), HDFS courses (e.g., courses on developmental or family problems), IST or SRA security courses, and/or internship (CRIMJ 495).
4. Students typically need 12-18 elective credits

### University Requirements and General Education Notes:

- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
- GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.
- N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Program Notes:**

Additional CRIMJ courses: Select 18 credits in CRIMJ courses, with at least 9 credits at the 400-level.

Emphasis courses: Research and Policy Analysis Emphasis B only offered [Select 15 credits, at least 6 at the 400 level from: AMST 491W(3-6), CRIMJ 424W(3), any CMPSC (3), ECON 104 GS(3), LER 100 GS(3), LST 370(3), PLSC 002(3), PLSC 419 US(3), PLSC 490(3), SOC 409 US(3), SOC 419(3), SOC 422(3), or SOC 423(3)]

Major supporting courses: Select 12 credits, in consultation with adviser. Recommended options include psychology courses (e.g., abnormal, forensic), HDFS courses (e.g., courses on developmental or family problems), IST or SRA security courses, and/or internship (CRIMJ 495).

**Hazleton Campus**

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Integrative Studies (either Inter-domain or Linked courses) (6 credits).

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

**Shenango Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

    - As long as two Arts (GA) two Humanities (GH) and two Social Sciences (GS) are taken across the eight semesters, the particular order in which these courses are taken are not relevant. The course series listed above is only one of many possible ways to move through the curriculum.
  - Academic Advising Notes
    - A student’s career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an adviser in this department when scheduling courses. Rev/SP07
  - Wilkes-Barre Campus
    - The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Career Paths

Administration of Justice helps students prepare for a challenging career through this unique combination of theory and application, emphasizing the underlying sociological aspects of criminal justice. Graduates of Administration Justice find an array of career opportunities in addition to options for graduate study and continued education.

### Careers

Administration of Justice graduates provide career opportunities in federal, state, and local law enforcement and correction agencies, probation and parole services, community crime prevention and treatment services, and private sector security. Many opportunities are available in juvenile and drug rehabilitation counseling, recreation programs, forestry settings, and other sites. Career opportunities, which are expanding rapidly, offer a good salary, excellent job security, and extensive possibilities for advancement.

### Opportunities for Graduate Studies

The degree also provides you with an excellent opportunity for graduate school, including masters or doctorate programs in law, criminology, human development, psychology, and the social sciences. Students also participate in original research, which provides experience designed to assist you in determining your career goals.

Africana Studies, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
The 15-credit Africana Studies certificate is intended to provide an interdisciplinary approach to both African and African American studies and to instill students with the type of professional and intellectual flexibility that is of high value in a twenty-first century job market. The certificate could enhance majors such as English, psychology, business, engineering, or communications through adding intercultural and/or global expertise.

What is Africana Studies?
Africana Studies focuses on the histories, politics and cultures of peoples of African origin.

You Might Like This Program If...
- You enjoy the study of history and culture.
- You want deeper understanding of the African culture.
- You want to challenge your perspectives.

Admission Requirements
Students should complete first the GWS requirement of one of the following (ENGL 15 or ENGL 30), and either HIST 20 or HIST 21.

Program Requirements
Students are required to take 9 credits of 200-level (or below) courses and 6 credits of 400-level courses from the approved lists.

To earn an undergraduate certificate in Africana Studies, a minimum of 15 credits is required.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their
intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

American Studies, B.A. (University College)
Begin Campus: Any Penn State Campus

End Campus: Brandywine

Program Description
This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a number of other areas, and for enrollment in law and other professional programs.

What is American Studies?
American Studies examines the country’s history in a way that emphasizes culture – literature, art & architecture, film, folklore, music, and media. While discovering America’s past, students learn to think critically – to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

You Might Like This Program If...

- You enjoy pop culture and wonder what social and historical forces helped shape it.
- You like making connections between history, society, economics, literature, film, and art.
- You want to understand the American experience beyond just what is relayed in a history text.
- You want to explore the experiences of women, minorities, and different ethnic and religious groups.
- You want to pursue a career in education, law, government, museums, cultural agencies, archives, public policy, or communications.

Entrance to Major
For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student’s record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

Degree Requirements
For the Bachelor of Arts degree in American Studies, a minimum of 123 credits is required:

<table>
<thead>
<tr>

<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>33</td>
</tr>
</tbody>
</table>
General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas: Require a grade of C or better
Select 9 credits in each of two of the following areas and 6 credits in one other of the areas (include 12 credits at the 400 level distributed in at least two of the areas):

- American literature
- American history
- American art, philosophy, and religion (humanities)
- American social sciences
Integrated B.A./M.A. in American Studies

The American Studies Program offers an integrated B.A./M.A. program that is designed to allow academically superior baccalaureate students enrolled in the American Studies major to obtain both the B.A. and the M.A. degrees in American Studies within five years of study. The first two years of undergraduate coursework typically include the University General Education requirements and lower-level courses. In the third year, students typically take upper-division coursework in American Studies and define areas of interest. The fourth year involves graduate-level American Studies coursework including required courses in Theory and Methods (AMST 500). The fifth and final year of the program typically consists of graduate coursework in American Studies including Seminar (AMST 591) and identification of a research project that will culminate in the completion of a M.A. project (AMST 580) or thesis (AMST 600).

By encouraging greater depth and focus in the course of study beginning in the third undergraduate year, this program will help the student more clearly define his/her area of interest and expertise in the broad field of American Studies. As a result, long-range academic planning for exceptional students pursuing doctoral degrees or other professional goals after leaving Penn State will be greatly enhanced. For most students, the total time required to reach completion of the higher degree will be shortened by about a year. The student will have earlier contact with the rigors of graduate study and with graduate faculty. The resources of the Graduate School are accessible to students accepted into the IUG program. Students in their third and fourth year of study with IUG status benefit from their association with graduate students whose level of work parallel their own.

For the IUG American Studies B.A./M.A. degree, a minimum of 123 credits are required for the B.A. and a minimum of 30–33 credits for the M.A. (30 for non-thesis; 33 for thesis). Twelve credits at the 400 level or higher, in consultation with the adviser, can apply to both the B.A. and M.A. degrees; at least 6 of these 12 credits must be at the 500 level.

If for any reason a student admitted to the B.A./M.A. program is unable to complete the requirement for the Master of Arts degree program in American Studies, the student will be permitted to receive the B.A. degree assuming all degree requirements have been satisfactorily completed.

Admission Requirements

The number of openings in the integrated B.A./M.A. program is limited. Admission will be selective based on specific criteria and the unqualified recommendation of faculty. Applicants to the integrated program:

1. Must be enrolled in the American Studies B.A. program and meet the admission requirements of the American Studies M.A. program.
2. Must apply and be admitted to the Graduate School.
3. Shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study.
4. Must have completed at least one 400-level American Studies course (AMST prefix) with a grade of A.
5. Must submit transcript(s) of previous undergraduate work, recommendations from two faculty members, writing sample, and statement of goals.
6. Must have an overall GPA at or above 3.3 (on a 4.0 scale) in undergraduate coursework and a GPA at or above 3.5 in all coursework completed for the American Studies major.
7. Must present a plan of study approved by the student’s adviser in the application process.

Course Load

As many as 12 of the credits required for the master’s degree may be applied to both undergraduate and graduate degree programs. The courses to be double counted are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST 491</td>
<td>American Themes, American Eras (two seminars on different topics during the student’s fourth (senior) year)</td>
<td>6</td>
</tr>
<tr>
<td>AMST 500</td>
<td>Theory and Methods (during the student’s fourth (senior) year)</td>
<td>3</td>
</tr>
<tr>
<td>AMST 591</td>
<td>Seminar in American Studies (during the student’s fifth year)</td>
<td>3</td>
</tr>
</tbody>
</table>

With the approval of the student’s adviser, students may take American Studies courses from the 100 to 400 levels at Penn State campuses other than Harrisburg, but 500-level courses must be taken at the Harrisburg campus.

Sample Sequence of Coursework

A typical sequence of coursework for the integrated program would appear as follows (AMST 491W, AMST 500, and AMST 591 are applied to both undergraduate and graduate degree programs):

### Third Year

<table>

Total Credits 78-81
Satisfies requirements for both the undergraduate and graduate program for a total of 12 credits.

As stated in the Graduate Bulletin, a minimum grade-point average of 3.00 for work done at the University is required for graduation and to maintain good academic standing. See http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=masters.

Program Learning Objectives
1. Gain knowledge of American culture and politics, past and present, including multiple representations of national identity.
2. Employ and inter-relate disciplines of history, literature, social sciences, humanities, and the arts, within both individual courses and the major as a whole.
3. Draw upon the social and historical resources of students' immediate worlds, in their homes and in the Delaware Valley.
4. Gain awareness of difference and commonality of race, class, and gender.
5. Position United States experience within the wider hemisphere and world.
6. Develop skills of critical observation, research, analysis, and writing.
7. Bridge the gap between academic and larger worlds by through community engagement, internships, and job-market preparedness.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
Brandywine Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
- GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 AMST 491W, the capstone course of the major, is taken twice with different topics; it also satisfies Penn State's Writing Across the Curriculum (W) requirement. Offered every semester, it may ordinarily be taken from the junior year on depending on student's choice of topics.

### Career Paths

The American Studies program benefits from Penn State Harrisburg's location in a capital region in close proximity to internationally known heritage sites such as the Gettysburg Battlefield, National Civil War Museum, and U.S. Army Heritage and Education Center. Harrisburg is also home to the Pennsylvania Historical and Museum Commission, the State Archives, and the State Museum.

### Careers

American Studies majors at Penn State Harrisburg have opportunities to gain a core set of skills in writing, presentation, exhibition, website development, digital documentation, fieldwork and ethnography, and records and cultural resource management in addition to contextual knowledge of American culture, society, arts, and history that can be applied to a number of occupations, particularly in heritage, communications, education, and government sectors. At Penn State Harrisburg, certificates (heritage and museum practice, folklore and ethnography), internships, assistantships, professional workshops, career services, alumni interaction, social media, and online job postings serve to enhance the marketability of majors at various levels.

### Opportunities for Graduate Studies

The American Studies major at Penn State Harrisburg prepares students for a variety of professions and to participate in the world as critical thinkers, clear communicators, and global citizens, including Penn State’s Master of Arts in American Studies and the Doctor of Philosophy in American Studies programs.

Arts Administration, B.A. (University College)

Begin Campus: Any Penn State Campus
End Campus: Lehigh Valley

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Penn State Behrend Arts Administration program is intended for students with an interest in the arts and a desire to pursue careers in the administration or management of arts organizations such as museums, theatre companies, orchestras and choruses. The program combines a broad exposure to the arts with significant training in management, marketing, event planning, strategic planning, writing, development, and digital communication.

The interdisciplinary Arts Administration program answers the growing need for leaders and administrators of arts organizations that must compete, survive, and thrive in a corporate world. Recognizing that these organizations have missions that are different from business corporations, the Arts Administration program aims to produce capable arts administrators, managers, and entrepreneurs with both aesthetic sensibilities and business acumen. Successful arts administration is crucial to the continued vitality of modern cultural institutions, creative enterprises, and arts organizations. If the public is to benefit, skilled arts administrators must facilitate the work of artists to realize their artistic vision and share it with the public, by executing the necessary financial, legal, and organizational decisions. In short, talented arts administrators are partners in a collaborative artistic process. The major includes the following options:

Digital Media Option - emphasizes design and social media engagement, so that a student may create and manage online content for cultural organizations. Students develop proficiency in web writing, image editing, layout, and communication-based advertising.

Marketing Option - provides a business core for careers that emphasize fiscal planning with arts organizations. The coursework includes statistics, marketing research, and services marketing which is specific to arts and cultural organizations.

What is Arts Administration?

The arts enrich our lives with moments of beauty, humor, surprise, and delight. But the arts are also a business, and like any business, arts organizations need competent, confident professionals who can manage resources and maximize opportunities. Arts administration combines broad exposure to the arts with intensive training in marketing, management, event planning, and development to produce capable arts administrators, managers, and entrepreneurs with both aesthetic sensibility and business acumen.

You Might Like This Program If...

- You envision a career in the arts, but are not interested in the unpredictability of a performing or studio art career.
- You like the idea of combining a liberal arts degree with business education.

Entrance to Major

Students must earn C or better in ARTH 111 or ARTH 112, MUSIC 5, THEA 105 to be eligible for entrance to the major.

Degree Requirements

For the Bachelor of Arts degree in Arts Administration, a minimum of 121 credits is required:

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

15-18 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.
First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**Requirements for the Major**
This includes 15-18 credits of General Education courses: 6 credits of GA courses; 3-6 credits of GQ courses; 3 credits of GS courses, 3 credits of GWS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 6 credits from program approved list in Music, Theatre or Visual Arts in consultation with adviser and according to student interest

Select 3 credits from a program-approved list of 400 level courses in Marketing

1  ARTH 111, ARTH 112, MUSIC 8, and THEA 102 require a grade of C or better per course for teacher certification.

Program Learning Objectives
1. Students will demonstrate skills in effective written and oral communication
2. Students will know institutional structures and explain the operation of an arts organization.
3. Students will explain the role of arts organizations in their communities and society at large.
4. Students will design and execute a successful arts event.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Students must demonstrate or complete the third level of proficiency in one foreign language

**Career Paths**

Based on your career goals, you’ll choose one of three modules within the program—Music, Theatre, or Visual Arts—as an area of concentration for your coursework. From there, you’ll pick one of two options for further skills development, Digital Media or Marketing.

**Careers**

There are more than 100,000 arts organizations in the United States, all of which require executive directors, gallery and company managers, tour directors, marketing and public relations specialists, social media managers, fundraisers, event planners, volunteer supervisors, and archivists, to list only a few of your career possibilities.

**Opportunities for Graduate Studies**

A B.A. in Arts Administration can be the starting point for graduate-level education in more specialized fields, including contemporary art markets, public relations, art conservation, cultural management, cultural tourism, museum services, visual arts management, arts education, arts production and technology, or arts marketing.

**Biobehavioral Health, B.S. (University College)**

**Begin Campus:** Any Penn State Campus

**End Campus:** Greater Allegheny, New Kensington, Lehigh Valley

**Program Description**

This major provides interdisciplinary training designed to integrate biological, behavioral, and social science approaches to the study of human health and illness. Emphasis is placed on the study of physical health. The goal of this major is to help students gain working familiarity with multiple perspectives, approaches, and methods needed to address and solve problems of human health and illness. Students may select courses in the supporting courses category that will fulfill requirements for admission to graduate and professional programs. This major helps prepare graduates for entry-level jobs in a range of biomedical and health-related areas, including roles as research assistants, laboratory managers, biomedical product representatives, technical support positions in biomedical and health-related fields. This major also will provide excellent preparation for advanced study in natural and social science disciplines and related professional areas such as epidemiology, public health, environmental health and safety, and human services.

MORE INFORMATION (http://behrend.psu.edu/school-of-humanities-social-sciences/academic-programs/arts-administration)
What is Biobehavioral Health?
Biobehavioral Health is the integrative scientific study of the many different processes that affect health (biological, psychosocial, environmental, etc.). The discipline focuses on how these different processes affect health and the development of interventions to affect these processes and health outcomes.

You Might Like This Program If...
- You are curious about all aspects of health.
- You want to understand health in a complex manner, by understanding the multiple and layered forces that affect health.
- You like to answer important questions by considering multiple different perspectives, and you like to study information from many disciplines (e.g., biology, psychology, neuroscience, sociology, anthropology, etc.).
- You want to pursue a health-related career, whether it be in a laboratory, clinical practice, or consulting capacity.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements
For the Bachelor of Science degree in Biobehavioral Health, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>0-1</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>97-99</td>
</tr>
</tbody>
</table>

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. BBH requires students to complete 24 credits for the major through courses taken at University Park, Greater Allegheny, New Kensington and through World Campus. For more information, check the Recommended Academic Plan for this major.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

21-22 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
requirements/83-80). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 21-22 credits of General Education courses: 3-4 credits of GQ courses; 9 credits of GN courses; 6 credits of GS courses; 3 credits of GHW courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Program Learning Objectives**

1. **Health Factors**: Describe and understand the fundamental biological, behavioral, social, cultural and environmental processes that influence health and disease.

2. **Disparity Mechanisms**: Explain how the fundamental processes underlying health and disease can interact to produce individual differences in health, and health disparities among groups.

3. **Critical Evaluation of Research**: Critically evaluate current empirical research on health and disease, explaining implications and limitations to the lay public.

4. **Ethics**: Understand and apply ethical principles in the conduct of research and professional practice and in the analyses in implementations of health-related policies and programs.

5. **Promotion/Prevention**: Plan, implement, and evaluate health promotion/disease prevention programs for diverse populations.

**Supporting Courses and Related Areas**

Select 3 credits in health promotion at 400 level from approved list, in consultation with adviser  
Select 12 credits in University-wide offerings from approved list, in consultation with adviser

1. Classes used to fulfill this requirement may not be used to fulfill the 12 credits of basic science.

2. Students may apply 6 credits of ROTC.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary
academic adviser; the information need to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

**Greater Allegheny Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 122-124

* Course requires a grade of C or better for the major

† Course requires a grade of C or better for General Education

¹ Course is an Entrance to Major requirement

Supporting Human Development and Family Studies course: 9 credits are required in Health and Developmental Science courses; some courses in this category also satisfy GS requirements. Choose from Select 9 credits from: CSD 100 GHA;US(3), CSD 101 GHA/US(1.5), CSD 146 US(IL), CSD 218(3), CSD 230(3), CSD 269

Supporting course from University-wide offerings: 12 credits are required from University-Wide Offerings; courses must be selected from the department list of approved offerings, in consultation with adviser.

Ethics Course: Choose from BBH 301, PHIL 100, PHIL 132, RLST 131

Biol 133 may be taken instead but students may not take this course if they have already completed BIOL 220W, BIOL 230W, or BIOL 240W.

15 credits are required from BBH electives; at least 6 credits must come from 400-level courses. Choose from the list in the bulletin and note that some also require a C or higher grade.

Select 3 credits in health promotion at 400 level from approved list, in consultation with adviser.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Lehigh Valley Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Students with a B.S. in Biobehavioral Health have been successful in establishing careers in health-related and other fields. Three major areas of employment include health care, research support, and health advocacy/consulting. Advanced career tracks require a graduate or professional degree. Students are strongly encouraged to engage in practical learning experiences that complement formal classroom learning. This can include training at the University Health Services or a hospital, in a research laboratory, and/or a health-related internship or travel experience. There are several in-house engaged learning experience programs: BBH Internship program, Global Health minor, BBH research laboratory assistant, Clinical Volunteer Training, HealthWorks.

Careers

- Health care: physician assistant, nurse, physician, health care support staff.
- Research Support: laboratory manager, study coordinator, research assistant.
- Health Advocacy: health educator, public health advisor, social worker.

Opportunities for Graduate Studies

Depending on your career goals, you might consider completing a graduate degree (M.S., Ph.D., etc) or a professional degree (M.D., D.O., P.A., M.P.H., J.D.):

- o Graduate Program in Biobehavioral Health Department (http://bbh.hhdev.psu.edu/graduate)
- National Institutes of Health Postbaccalaureate Intramural Research Training Award (https://www.training.nih.gov/programs/postbac_irta)
- Accreditation Council for Genetic Counseling – List of Accredited Programs (http://gceducation.org/Pages/Accredited-Programs.aspx)
• American Physical Therapy Association – List of Accredited Programs (http://aptaapps.apta.org/accreditedschoolsdirectory/default.aspx?UniqueKey=%20o)
• The American Occupational Therapy Association, Inc (https://www.aota.org)
• Association of Schools and Programs of Public Health (https://www.aspph.org/discover)

Biology, B.S. (University College)

Begin Campus: Any Penn State Campus
End Campus: Beaver, Brandywine, Schuylkill, Scranton, York

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The curriculum in Biology is planned for preparation for professions requiring competence in biological science or for gaining an understanding of the world of living things. The professional group includes students who intend to secure advanced degrees through graduate study, students who are interested in work with various governmental agencies or industries having biological responsibilities, and students who want to prepare for careers in medicine or other health-related professions. Students whose interests are not professional select the curriculum because its broad approach can result in an educated view of the structure and function of living things. Achievement of these goals, including a special interest in a particular area of biology, can be met by selecting one of five options offered by the Department of Biology that will lead to the B.S. degree in Biology. The options and their key areas are:

1. Plant Biology—morphology, systematics, and physiology of plants and fungi
2. Ecology—behavior, and population and community biology of plants and animals
3. General Biology—all aspects of modern biology
4. Genetics and Developmental Biology—genetics, genetic engineering, and plant and animal development
5. Neuroscience—development, biochemistry, physiology and aging of the central and peripheral nervous system
6. Vertebrate Physiology—pre-medicine, pre-dentistry, pharmacology, and animal physiology

What is Biology?
Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem. Hands-on experiences, from designing and conducting lab experiments to making field observations using different procedures and instruments play an important role in gaining biological knowledge. Biologists explore ways to cure neurological diseases, conserve coral populations in tropical oceans, discover more efficient ways to use plants for food and bio-energy, develop vaccines for infectious diseases, and investigate many other facets of Biology.

You Might Like This Program If...
• You are interested in learning about aspects of the biology of organisms that live on Earth.
• You enjoy a dynamic field of study, with new discoveries being made every day.
• You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
• You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance Requirements
In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.
Degree Requirements

For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

<table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The Keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

15 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Integrated B.S. in Biology/M.Ed. in Curriculum and Instruction**

This Integrated Undergraduate/Graduate (IUG) degree program combines the Bachelor of Science in Biology with the Master of Education in Curriculum and Instruction, Science Education emphasis. The program is designed to be completed in five years. The program enables highly qualified and motivated students to delve deeply into a scientific content area and to pursue graduate level preparation in the theory and practice of teaching. Most students in this option intend to seek Pennsylvania teacher certification, and a semester of student teaching comprises part of their final year of studies. The IUG may also be suitable for a student who does not need to become certified, because they intend to teach in a private secondary school or a non-formal educational setting; in such cases, the second graduate semester will be a program of studies determined through consultation with the graduate advisor and customized for the student’s specific needs.

For specific instructions on applying to the program, please consult the “Application Process” section of the IUG description for the Biology B.S. degree in the Undergraduate Bulletin. Application materials to be submitted include an undergraduate transcript, statement of purpose, draft plan of study, two letters of recommendation, and concurrent submission of an application for master’s study to the graduate program in Curriculum and Instruction, Science Education emphasis area. Additional details about the graduate application procedure can be found above in the section, “Admissions Requirements.”

IUG students fulfill all degree requirements for a B.S. in the Eberly College of Science. If a student chooses to leave the program without completing M.Ed. requirements, he or she may still receive the relevant B.S. degree, after all B.S. requirements are completed.

For the M.Ed. degree, students must earn at least 30 credits at the 400/500 level, at least 18 of them at the 500 level. One graduate semester is usually devoted to full time student teaching. Additional graduate coursework is completed in a second semester. Courses required for the M.Ed. degree include a course in learning theory (e.g., SCIED 552), a course in research methods (e.g., SCIED 558), a course in curriculum (e.g., SCIED 550), and a course in research ethics (CI 590).

Students pursuing teacher certification (the usual option) additionally complete a 500-level EDTHP course (3), CI 595, and CI 496. SCIED 558, CI 496, and CI 595 comprise the student-teaching semester course load. Students who are not pursuing teacher certification substitute 15 credits of other 400 or 500-level coursework for the student-teaching semester; those courses are selected in consultation with their advisors, in order to address the students’ specific career aspirations.

124 credits are required for the B.S. degree and 30 credits for the M.Ed. degree. The following courses may be double-counted toward both the B.S. and the M.Ed. degrees, up to a limit of 12 credits: EDTHP 500-level courses (3), SCIED 411 & SCIED 412, and SCIED 500-level courses. Note that at least 50% of credits proposed for double-counting must be at the 500 level.

There are a number of other requirements for Pennsylvania teacher certification, including state-required tests and clearances, as well as coursework that can be completed at either the undergraduate or graduate level. Some courses, not enumerated above, that are usually required to satisfy teacher certification requirements include CI 280, SPLED 400, and CI 495C. Please note that changes in Pennsylvania certification requirements are common; students should check the Certification FAQ page at the Penn State Science Education website for updates and clarification about the specific requirements that affect them, based on their admission date to the IUG program option. Note also that students in the IUG program option are not required to complete all Penn State teacher certification requirements in order to receive their B.S. and M.Ed. degrees, as long as they have completed the requirements for those degrees, as described in the undergraduate and graduate Bulletins. For example, a student who has completed all degree requirements but has not yet received a score for the Pennsylvania-required Biology PRAXIS exam may be awarded both of his or her earned degrees.
Program Learning Objectives
Scranton and York Campuses

1. Students will demonstrate the ability to think critically, analyze, and use information to solve problems.
2. Students will be expected to demonstrate a level of proficiency with biological concepts.
3. Students will become familiar with the physical, chemical, and mathematical foundations necessary to understand biological systems.
4. Students will be able to clearly state a scientific hypothesis; design a controlled experiment to test this hypothesis, analyze and clearly present data; and justify the conclusions of an experiment.
5. Students will be expected to become proficient in reading, understanding, and reviewing scientific information and communicating that information, while simultaneously building vocabulary reflecting contemporary terminology.
6. Students will be expected to work successfully as team members, while simultaneously building upon their abilities to become self-directed learners.
7. Students will be expected to show mastery of fundamental laboratory techniques.

Brandywine Campus

1. Students will be able to explain the process of evolution and its underlying principles and mechanism.
2. Students will be able to explain the fundamental biological processes including (but not limited to) cell structure and function, ecological diversity, animal and plant physiology and genetic analysis of prokaryotes and eukaryotes.
3. Students will be able to discuss the relationships between form and function of biological structures at the molecular, cellular, organismal, population, and ecosystem levels of the biological hierarchy.
4. Students will be able to read, understand, and critically interpret the primary biological literature.
5. The student will be able to design, conduct, analyze, and communicate (in writing and orally) biological research.
6. The student will recognize and be able to apply basic ethical principles to basic and applied biological/biomedical practice and will understand the role of biological/biomedical science, scientists, and practitioners in society.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy)
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

*US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

*W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

*GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

*Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

Integrative Studies (either Inter-domain or Linked Courses)
Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Scranton Campus

**Major Requirements Notes:**

- Students may take PHYS 211, PHYS 212, PHYS 213, & PHYS 214 in place of PHYS 250 & PHYS 251. See advisor.
- BIOL 220W is only offered in the fall semesters.
- BIOL 230W is offered only in the spring in odd years.
- BIOL 240W is offered only in the spring in even years.
- Students must take a minimum of 18 credits of 400-level biology courses with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group) (sem: 5-8).

- Group 1 (Plants and Fungi); Group II Evolutionary Biology; Group III (Genetics and Development); Group IV (Ecology); Group V (Animal Physiology); Group VI (Practicum). Courses offered to complete these major requirements may be offered on a rotating basis.

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Genetics and Developmental Biology Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**Career Paths**

A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

Business Administration, A.S. (University College)

Begin Campus: Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Wilkes-Barre, World Campus, Scranton, York

End Campus: Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Wilkes-Barre, World Campus, Scranton, York

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The associate degree program in Business Administration provides an introductory foundation to core aspects of the business environment that prepares graduates for future baccalaureate study in business or for direct entry into the work place. The primary objective of this major is to provide a business-oriented program with sufficient communicative and mathematical skills, socially relevant course work, and specific business specialties to develop a well-rounded and knowledgeable graduate.

Students should work closely with academic advisers to schedule coursework required to transition to baccalaureate business programs.

What is Business Administration?
To be successful in today’s increasingly complex business world, you need to have a broad understanding of how business works. The Penn State Associate degree in Business Administration prepares students for a professional career in today’s business environment. The degree offers students a managerially-oriented program emphasizing communication and mathematical skills, socially relevant course work, and advanced courses in business. While Penn State’s Associate in Science in Business Administration is an excellent stand-alone credential, it can be used to seamlessly transition to a bachelor’s degree such as the Bachelor of Science in Business or other business-related programs at the University.

You Might Like This Program If...
- You want to learn to use the latest technical business tools to perform your job duties effectively.
- You analyze and react to issues facing companies today.
- You collect and analyze data to make inferences and solve business problems.
- You need to execute effective communication strategies.

Entrance to Major
Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements
For the Associate in Science degree in Business Administration, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>48-50</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

Knowledge Domains
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

9 credits of these 21 credits are included in the Requirements for the Major.

University Degree Requirements
Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 3 credits of GQ General Education courses and 6 credits of GWS General Education courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 12-13 credits of the following:

**Program Learning Objectives**

**DuBois and Scranton Campuses**

Upon graduation BSB students will be able to:

1. **Effective Communication**: Demonstrate the necessary skills and abilities to effectively communicate.
2. **Use Technology**: Apply contemporary tools of information technology to include business software applications.
3. **Leadership and Teamwork**: Apply leadership, team building, and project management skills.
4. **Global and Diverse Perspectives**: Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
5. **Ethical Awareness**: Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
6. **Use Management Theory/Practice**: Utilize and apply fundamental business concepts, principles and contemporary business practices.
7. **Data Analysis and Problem Solving**: Recognize, analyze and solve business problems using quantitative and qualitative measures.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

#### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Consultation with adviser is recommended to select the proper course placement
2 If a student’s plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student’s placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

#### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.
an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.
1 Consultation with adviser is recommended to select the proper course placement.
2 If a student's plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student's placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

Hazleton Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

1. Consultation with adviser is recommended to select the proper course placement

2. If a student's plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student’s placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

**Advising Notes:**

- Students must complete a 3-credit course in "United States Cultures (US)" and a 3-credit course in "International Cultures (IL)."

- As long as one Arts (GA), one Humanities (GH), one Natural Sciences (GN) and one Arts (GA) courses are taken across the four semesters, the particular order in which these courses are taken is not relevant. The course series listed above is only one of many possible ways to move through the 2BACC curriculum.

- Supporting courses for the General Business Option: 12-13 credits are required from the following: BA 250 (3); CAS 250 (3) or CAS 252 (3); LER 100 (3) or LER 136 (3); ECON 102 (3) or ECON 104 (3); MATH 022 GQ (3); MATH 110 GQ (3); MKTG 220 (3).

- Successful completion of MATH 022 or higher (e.g. MATH 040, 041, 110, 140) is required for anyone seeking entrance to the Bachelor of Science in Business program (BSBCC).

- Important note: A student’s career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an Academic Adviser in this department when scheduling courses.

- * Course requires a grade of C or better for the major

- † Course requires a grade of C or better for General Education

# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Consultation with adviser is recommended to select the proper course placement
If a student's plan is to move into the Bachelor of Science in Business degree program, a minimum of MATH 22 is required for entrance to major. If a student's placement is MATH 21 or 22, courses can be used for Business Supporting Courses in the Associate of Science degree plan.

**Career Paths**

Business impacts our society in many ways. Every business, from small companies to large corporations provide employment options. The associate in business degree can help prepare you for a wide variety of entry-level careers in this sector or for continued study in business. You will have the opportunity to participate in an elective business internship as part of your curriculum. Internships provide valuable experience before graduation and an important first step toward starting your career.

**Careers**

Because the Associate in Science in Business Administration can give you a foundation of business concepts and best practices relevant to any industry, as a graduate of the program you can prepare for positions in accounting departments, management trainee opportunities, retail, insurance industry, industrial management opportunities, office manager, or business service manager. Some examples of jobs include:

- Accounting Specialist
- Accounts Examiner
- Appraisers and assessors of real estate
- Assistant Marketing Director
- Assistant Store Manager
- Billing Clerk
- Business services manager
- Computing business coordinator
- Compliance officers
- Insurance sales agent
- Industrial Salesperson
- Management Trainee
- Office Manager
- Payroll Assistant
- Sales Coordinator

**Opportunities for Graduate Studies**

Upon completion of the associate degree in business, you may also choose to proceed seamlessly to the bachelor of science in business or selected other business-related majors at Penn State.

Business, B.S. (University College)

Begin Campus: Any Penn State Campus

End Campus: Beaver, Brandywine, DuBois, Fayette, Hazleton, Greater Allegheny, New Kensington, Schuylkill, Shenango, Wilkes-Barre, York, Lehigh Valley, Mont Alto, Scranton

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Science in Business (B.S.B.) is a professionally oriented business degree program that combines the theoretical underpinnings of core business disciplines, notably management, marketing, finance, and supply chain management, with applied study in a practical setting. Through the choice of an 18-credit option, students specialize in a key business sector. Students also develop written and oral communication skills throughout the program, acquire contemporary technology skills, and engage in active and collaborative learning. The degree allows students to become familiar with the unique business environments of their local communities, a design that sets the degree apart from other business degrees offered within the University and throughout the Commonwealth.

Accounting Option
This option prepares students to pursue careers in business with an emphasis on the areas of financial and managerial accounting, systems and controls, auditing, and taxation.

Entrepreneurship Option
This option prepares students to pursue entrepreneurial careers with emphasis on idea generation, opportunity analysis, new product creation, and business plan development.

Financial Services Option
This option prepares students to pursue careers in financial organizations with emphasis on wealth management, tax planning, risk management, and financial analysis.

Health Services Option
This option prepares students to pursue careers in the health services sector with emphasis on the financial and administrative aspects of health care enterprises.

Individualized Business Option
This option provides the opportunity for students to pursue an approved business-focused interdisciplinary program of study.
Management and Marketing Option
This option prepares students to pursue careers in business organizations with an emphasis on the skills and knowledge necessary for the business professional to function in community and regional centers of commerce.

What is Business?
Business is a professionally-oriented program providing a broad education and solid grounding of business knowledge. Focusing on practical skills and real-world experience, the program's interdisciplinary perspective provides a versatile base for mobility into all business areas, preparing students for the business world of today and tomorrow. Options provide additional specialization in accounting, entrepreneurship, financial services, health services, management and marketing or the opportunity to develop an individualized plan that fits your career goals.

You Might Like This Program If...
- You want to develop the skills for working in business.
- You wish to develop a broad knowledge of business operations.
- You want transferable skills or you are not sure which business sector you wish to focus.
- You wish to develop a broad knowledge of business operations.
- You want to develop the skills for working in business.

Entrance To Major
Completion of MATH 22 or MATH 40, MATH 110, MATH 140.

Degree Requirements
For the Bachelor of Science degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>10</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>77</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as
specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

- ENGL 419 Advanced Business Writing
- MKTG 220 Introduction to Selling Techniques

**Option 2:**

Select one of the following:

- CAS 250 Small Group Communication
- CAS 252 Business and Professional Communication
- CAS 352 Organizational Communication
- CAS 404 Conflict Resolution and Negotiation

**Supporting Courses and Related Areas**

**Supporting Courses and Related Areas: Require a grade of C or better**

Select 3 credits from 300 or 400-level MGMT courses

Select 3 credits from 300 or 400-level MKTG courses

Select 6-12 additional credits in 300 or 400-level courses from MGMT, 6-12 or MKTG courses

1 A minimum of 3 credits of supporting courses must be selected at the 400-level.

**Program Learning Objectives**

**Beaver, DuBois, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Scranton, Wilkes-Barre, York Campuses**

Upon graduation BSB students will be able to:

1. **Effective Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
2. **Use Technology:** Apply contemporary tools of information technology to include business software applications.
3. **Leadership and Teamwork:** Apply leadership, team building, and project management skills.
4. **Global and Diverse Perspectives:** Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
5. **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
6. **Use Management Theory/Practice:** Utilize and apply fundamental business concepts, principles and contemporary business practices.
7. **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.

**Brandywine Campus**

1. Graduates will develop written and oral communication.
2. Graduates will be able to use contemporary information technology as tools to accomplish professional tasks effectively.
3. Graduates will be able to effectively develop leadership, team building and project management skills.
4. Graduates will develop Life Long Learning Skills though active and collaborative learning and through an appreciation for continuing their education in formal and informal settings.
5. Graduates will become familiar with unique business environments of their local communities and global business environment.
6. Graduates will develop an understanding of Ethical issues, social responsibilities and resolutions to conflicts.
7. Graduates will develop a basic foundation of business principals and a specialty related to a key business sector.
8. Graduates will develop strong analysis and problem solving capabilities of organizational issues.

**Shenango Campus**

All graduates of the Penn State Shenango BSB degree program should demonstrate:

1. Effective communication skills, both written and oral. Students must:
   a. Present evidence-based arguments to defend their ideas, recommendations, and findings.
   b. Create effective and engaging presentations using appropriate technologies to include the use of spreadsheets, graphics, statistical software, project management software, and other software as needed.
   c. Communicate supportively and professionally to build positive interpersonal relationships and be able to engage with diverse audiences.
   d. Write effective business documents such as emails, reports, memo, letters, plans, and proposals.
   e. Adapt information for presentations across multiple media.
2. Proficiency in common application software relevant to the business world. Students must:
   a. Create professional business documents that are professionally formatted and edited using Microsoft Word or other comparable applications.
   b. Create Excel spreadsheets to include formulas, graphics, and functions.
   c. Create Power Point presentations that are appropriately formatted and use engaging elements.
   d. Create a Project Plan using Microsoft Project to be able to track progress, manage budget, and analyze workloads.
   e. Use Microsoft Access or other database programs to analyze and manage data.
f. Demonstrate information literacy using Current, Relevant, Authoritative, Accurate, and Purposeful data sources and protocols. (Citation needed for CRAAP)

3. Decision-related skills to solve business related problems quantitatively, qualitatively, and creatively. Students must:
   a. Create and interpret financial statements and use finance principles to diagnose the financial health of the enterprise and to make strategic decisions.
   b. Analyze, find, and apply primary and secondary market data to support their development of market analyses, SWOT, goals, strategies, and tactics.
   c. Use statistical tools to facilitate strategic decision making.
   d. Apply microeconomic principles such as supply and demand, market structure, profit maximization, and efficiency to real-world business challenges.
   e. Analyze qualitative data empirically.
   f. Develop novel and innovative solutions to business challenges.

4. Leadership, team building, and project management skills. Students must:
   a. Work collaboratively in teams to accomplish stated goals and objectives.
   b. Demonstrate effective conflict resolution and negotiation skills.
   c. Apply leadership skills, theories, and behaviors to assignments throughout the BSB curriculum.
   d. Complete projects efficiently, effectively, and with given resources.
   e. Identify different corporate cultures and the implications of those differences on the effectiveness of the organization.

5. Ethical behavior and social responsibility. Students must:
   a. Adhere to the academic integrity standards.
   b. Incorporate socially responsible solutions in their coursework and service activities.
   c. Distinguish between ethical and unethical behavior and evaluate the impact of unethical behavior on society.

6. High level application of business principles and strategies to succeed across global and diverse environments. Students must:
   a. Demonstrate an understanding of domestic and international markets.
   b. Create strategies that address the needs of diverse cultures in business settings.
   c. Create and apply an effective situational analysis and SWOT.
   d. Create and monitor the effective use of resources such as Human Resources, budget, supply chain, etc.
   e. Demonstrate financial literacy.
   f. Develop and evaluate a variety of plans including marketing, strategic, business, and financial.

Academic Advising

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course satisfies General Education and degree requirement

#### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

#### Management and Marketing Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Fayette Campus

#### Accounting Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 117-120

Advising Notes:
- For the B.S. degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400-level.
- 18 credits minimum are required for the Marketing and Management Option

Students must take 0-6 credits in Business and Communication classes. Choose from the following list:
- BA 250
- ENGL 419
- MKTG 220
- CAS 250, 252, 352 or 404 (only one course may be taken from this list)

Students will also take 12-18 credits (depending on selections above) in 300/400 level MKTG/MGMT classes. Choose from the following list:
- These selections must include at least three credits of 400-level courses in one of the next three areas. Each area below must be met as part of the 12-18 credit requirement.
  - MKTG 321
  - MKTG 326
  - MKTG 331
  - MKTG 341
  - MKTG 424
  - MKTG 451
  - MKTG 310
  - MKTG 327
  - MKTG 330
  - MKTG 342
  - MKTG 422
  - MKTG 450

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Schuylkill Campus
Accounting Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Program Notes:

Available options of the BSBUC program at Penn State are Accounting, Financial Services, Management & Marketing, and Individualized. A minimum of 120 credits is required for graduation.

### Academic Advising Notes:

- FIN 301: Smeal-bound students must take FIN 301 no later than semester 4 to satisfy entrance-to-major requirements in time for their application to the Smeal College.
- STAT 200: Student must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301.
- A student’s career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit on LionPATH is your official check of graduation requirements.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes:
Available options of the BSBUC program at Penn State Scranton are Accounting, Financial Services, Management & Marketing, and Individualized. A minimum of 120 credits is required for graduation.

**Academic Advising Notes:**
- FIN 301: Smeal-bound students must take FIN 301 no later than semester 4 to satisfy entrance-to-major requirements in time for their application to the Smeal College.
- STAT 200: Student must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301.
- Instead of 300/400-level Management or Marketing, TWO of the option courses (6 credits) may also be specific Business or Business Communication courses listed in the PSU Bulletin (the two most often offered on this campus are BA 250 and MKTG 220).
- A student’s career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit on LionPATH is your official check of graduation requirements.

**Individualized Option**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes:

Available options of the BSBUC program at Penn State Scranton are Accounting, Financial Services, Management & Marketing, and Individualized. A minimum of 120 credits is required for graduation.

Academic Advising Notes:

- FIN 301: Smeal-bound students must take FIN 301 no later than semester 4 to satisfy entrance-to-major requirements in time for their application to the Smeal College.
- STAT 200: Student must not delay taking STAT 200 past semester 4, as it is a prerequisite for FIN 301 and SCM 301.
- A student’s career/graduate school plans should be considered in developing an individualized academic plan. Be sure to consult an adviser in this department and your Degree Audit when scheduling courses. The Degree Audit on LionPATH is your official check of graduation requirements.

Shenango Campus

Management and Marketing Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1. Choose a 400-level course from: ACCTG, B A, B LAW, E B F, ECON, ENTR, FIN, H P A, I B, MGMT, MIS, MKTG, R M, STAT or SCM
an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Marketing/Management Option Course List
Select 15 credits from the following (to include at least 3 credits in MGMT and 3 credits in MKTG and at least 3 credits at the 400 level):

- B A 250 (3): Small Business Management
- MGMT 321 (3): Leadership and Motivation
- MGMT 326 (3): Organizational Behavior and Design
- MGMT 331 (3): Management and Organization
- MGMT 341 (3): Human Resource Management
- MGMT 424 (3): Interpersonal Relationships in Organizations
- MGMT 451W (3): Business, Ethics, and Society
- MKTG 220 (3): Introduction to Selling Techniques
- MKTG 310 (3): Public Relations and Marketing
- MKTG 327 (3): Retailing
- MKTG 330 (3): Consumer Behavior
- MKTG 341 (3): Human Resource Management
- MKTG 424 (3): Interpersonal Relationships in Organizations
- MKTG 451W (3): Business, Ethics, and Society

2 COMMUNICATIONS OPTIONS COURSE
Select 3 credits from

- CAS 250 (http://bulletins.psu.edu/undergrad/courses/CAS/250) (3): Small Group Communication
- CAS 252 (http://bulletins.psu.edu/undergrad/courses/CAS/252) (3): Business and Professional Communication
- CAS 352 (http://bulletins.psu.edu/undergrad/courses/CAS/352) (3): Organizational Communication
- CAS 404 (http://bulletins.psu.edu/undergrad/courses/CAS/404) (3): Conflict Resolution and Negotiation
- ENGL 419 (http://bulletins.psu.edu/undergrad/courses/ENGL/419) (3): Advanced Business Writing

3 Students may opt to take an additional MGMT/MKTG 300-400 level course in lieu of Communications Course for a total of 18 credits MGMT/MKTG.

Career Paths
In today's economic environment, the Bachelor of Science in Business allows companies to hire individuals who have a broad knowledge of all aspects of business. This broad knowledge gives you the opportunity to be effective within many different types of organizations. You will also be well-positioned to pursue admission to graduate programs.
Careers
With a degree in business, you may specialize through options that may vary by campus. With an accounting option, you can work in the areas of financial and managerial accounting, systems and controls, taxation, and auditing. The entrepreneurship option provides the skills for you to start your own business or to work as an entrepreneur within a company. Health services provides the financial and administrative skills and knowledge necessary for you to become a health services managers. With an option in financial services you might pursue positions in wealth and risk management, estate planning or financial and retirement planning. With the management and marketing option you will be prepared for a career in retail management, small business management or in marketing, advertising and promotion. Finally, with an individualized option, you have flexibility to build specialized skills for your personal business career goals.

Opportunities for Graduate Studies
A baccalaureate degree in Business can lead to a Master’s degree in Business (MBA) or other business-related masters degrees. MBA programs are offered at Penn State Great Valley, Penn State Erie, Penn State Harrisburg, Penn State Berks, Smeal College of Business and through the World Campus.

Business, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Business minor is a strong complement to virtually any major. Courses prescribed for the minor are taught by Penn State faculty providing courses to the B.S. in Business and the A.S. in Business Administration. It provides students with the opportunity to develop and apply skills appropriate to the business contexts of their chosen majors. Students pursuing the Business minor must complete 13 credits of prescribed coursework and six credits of additional coursework. A grade of C or better is required for all courses in the minor. The prescribed thirteen credits of coursework presents students with a critical foundation of core business disciplines: accounting, management, marketing, and either macro- or micro-economics. The six credits of additional coursework must be taken at the 400-level.

The additional coursework enables students to expand on the core foundation in one of two ways. They may choose to solidify their business knowledge base by exploring six credits of 400-level business courses in the following disciplines:

- Accounting
- Business Administration
- Business Law
- Energy Business and Finance
- Economics
- Entrepreneurship
- Finance
- Financial Services
- Health Policy and Administration
- International Business
- Labor Studies and Employment Relations
- Management Information Systems
- Management
- Marketing
- Risk Management
- Supply Chain Management
- Statistics

Alternately, students can augment three credits of 400-level coursework in one of the above listed business disciplines with three credits of 400-level work from an approved list of specific business-related course in disciplines such as:

- Communication Arts and Sciences
- Corporate Communication
- Communications
- Criminal Justice
- Engineering
- English
- Human Development and Family Studies
- History
- Hospitality Management
- Information Sciences and Technology
- Kinesiology
- Philosophy
- Political Science
- Psychology
- Recreation, Park and Tourism Management
- Sociology

What is Business?

Business is a professionally-oriented program providing a broad education and solid grounding of business knowledge. The Business minor complements any major and provides a broad education and introduction to business knowledge. With opportunities to learn about
business disciplines, including accounting, management, marketing, and economics, students will gain skills and the tools to apply in any setting.

You Might Like This Program If...
You want to add business skills to strengthen your career options. You are not a business major, but are interested in working in a business setting. You enjoy courses in economics, accounting or other business disciplines. You are a collaborator, analytical thinker and effective communicator.

Program Requirements

Requirements for the Minor
A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
Adding valuable business skill will strengthen your academic program and assist you in meeting admissions requirements for masters in business programs.
Careers
A minor in business will complement your major and provide a well-rounded skill set that can be applied in business, education, industry, health care or non-profit settings.

Opportunities for Graduate Studies
Upon completion of minor in business, you will have completed business disciplinary courses that can assist you in transitioning to master’s of business (MBA) programs.

Chemical Dependency Prevention and Counseling, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
The Certificate in Chemical Dependency Prevention and Counseling introduces students to basic concepts related to chemical dependency, its prevention and treatment, and helping those with problems associated with chemical dependency. The certificate provides students with the academic background to understand content, models, theories, and research relevant to working with chemically dependent persons and their families.

What is Chemical Dependency Prevention and Counseling?
Chemical Dependency Prevention and Counseling provides a support system for people with drug and alcohol problems, eating disorders and other behavioral issues.

You Might Like This Program If...
- You find it meaningful to work in a variety of settings from hospitals to halfway houses.
- You want to have the opportunity to work with certain populations, such as college students or veterans.
- You would enjoy visiting schools at to talk about preventative measures.

Program Requirements
To earn an undergraduate certificate in Chemical Dependency Prevention and Counseling, a minimum of 18 credits is required.

Communication Arts and Sciences, B.A. (University College)

Begin Campus: Any Penn State Campus
Program Description

This major provides increased understanding and practice in the ways humans use symbols to influence people and the world around them. The ability to communicate effectively with others in personal, social, work and multicultural situations is essential in modern society. A student of Communication Arts and Sciences will learn to think critically, analyze and solve problems, understand and manage conflict, argue persuasively, influence people, form and keep relationships, give effective presentations, and participate in the civic and political life of a community. The flexibility of the program offers preparation for a variety of careers such as administration, law, business, health, and human services fields. A CAS degree also lends itself well to a concurrent degree program in which students prepare themselves in several fields of study.

What is Communications Arts and Sciences?

In the Department of Communication Arts and Sciences, you will find faculty committed to the art of communication, who improve society’s understanding of communication through humanistic and social scientific research, and who are inspired by their role in helping students to be more effective in the personal, professional, and public roles their future has in store for them. CAS faculty and students are motivated by a shared interest in how communication facilitates human relations and makes a difference in our shared world. From a department that spans the humanities and social sciences, CAS majors learn to think critically, analyze public discourse, understand empirical studies that test communication theories, argue persuasively, influence people, form and maintain relationships, and participate in civic life.

You Might Like This Program If...

• You want to develop critical thinking skills and the ability to craft effective messages.
• You are curious, analytical, inquisitive, and engaged.
• You want to learn the theories, methods, and practical tools to understand the roots of social conflict and to change them.
• You want to develop critical thinking skills and the ability to craft effective messages.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements

For the Bachelor of Arts degree in Communication Arts and Sciences, a minimum of 124 credits is required:

<table>
<thead>
<tr>

Bachelor of Arts Degree Requirements

Requirements

Requirements for the Major 30

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits
Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

| CAS 399 | Foreign Studies                |         |

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
Select 15 credits of other CAS courses; at least 12 credits must be at the 400 level 1

1 A maximum of 6 credits from CAS 494, CAS 495, CAS 496, and CAS 499 may satisfy this requirement. CAS 126 and CAS 195 may not be counted as part of the major.

Program Learning Objectives

York Campus
1. Appreciation for the significance of communication in everyday experience and as a distinctive intellectual paradigm.
2. Ability to understand, apply, critique, and extend communication concepts, principles, theories, and perspectives.
3. Skill at communication inquiry, including humanistic and social scientific approaches.
4. Logical, critical, creative, and ethical thinking about communication for decision-making and problem-solving.
5. Competency at generating and performing messages appropriate to their audience, purpose and context.
6. Facility with locating, synthesizing, and assimilating new information from a variety of sources and using it to inform communication analysis and practice.
7. Interest, understanding, and capacity to engage diverse communities, both local and global, and to function as a member of a deliberative society.

Brandywine Campus
1. Demonstrate an understanding of how humans strategically use symbols to influence people and the world around them.
   a. Students will be able to apply a communication perspective to critique oral presentations given in a variety of contexts outside the classroom.
   b. Students will be able to apply a communication perspective to perform close textual analyses of persuasive oratory or media-
sourced appeals aimed at persuading an audience, reader, viewer, etc.

c. Through an eclectic, critical approach, students will learn new ways to think about language and communication that will challenge students to revise their own language/communication processes.

2. Demonstrate an understanding of the theoretical underpinnings of their CAS coursework, and be able to critically, analytically and practically apply the major in personal, community, work, and global situations by identifying social inequities and advocating problem-solving actions.

a. Students will be able to demonstrate skills in reading, evaluating and summarizing journal articles and other textual materials from a critical perspective.

b. Students will be able to demonstrate skills in qualitative analyses, including the use of ethnographic observation methods to identify more deeply-rooted social processes.

c. Students will be able to identify and develop significant problem statements about local, national and international social issues, and then conduct causal analyses and advocate practical solutions.

d. Students will learn to invoke their abilities to reason, reflect, emote, perceive, and intuit social messages, and develop skills which, to paraphrase Bertrand Russell, empower us to “guard against the seductions of eloquence.”

3. Demonstrate the ability to develop and perform appropriate and effective presentations and adapt to a variety of speaking contexts

a. Students will be able to perform well-structured, strategically prepared presentations that are both informative and persuasive.

b. Students will be able to work in teams to develop and perform effective group presentations.

c. Students will gain skills to communicate effectively in professional situations involving both a global and a service-learning component.

d. Students will be able to identify perceptions of character and public virtues, and the role they play in how a speaker must present him/herself in ways that are admired and respected.

4. Students will be able to conduct and present substantive research using traditional and electronic resources, as well as qualitative analytical methods.

a. Students will be able to produce a research proposal, conduct a literature search, and design a research project.

b. Students will demonstrate analytical writing proficiency, including the ability to describe, analyze, and interpret the critical ideas, values, and forms that appear in various media formats.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

Brandywine Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

**York Campus**

Program Notes

Electives in CAS or minor area preferred

Career Paths

CAS graduates are change makers: analysts, strategists, persuaders, facilitators, collaborators, connectors, and scholars. The CAS program equips students for success in the work force, graduate school, and civic life. CAS courses provide students the theories, methods, practical tools, and experiences to understand the roots of social conflict and the sources of well-being. CAS majors can make a positive difference in our society.

Careers

An undergraduate degree in CAS prepares students for careers in academics, law, sales, corporate communication, health and human services, community activism, and digital technology. CAS graduates may work as analysts, strategists, facilitators, collaborators, or negotiators.

MORE INFORMATION (http://cas.la.psu.edu/undergraduate/hiring-cas-majors)

Opportunities for Graduate Studies

CAS graduates are prepared for graduate study in communication science or rhetoric, as well as fields such as law, public policy, behavioral science, health and human services, human development, business, social work, and related fields.

Communications, B.A. (University College)

Begin Campus: Any Penn State Campus
End Campus: Beaver, Brandywine, Greater Allegheny, New Kensington

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

With the rapid development of digital technologies over the last decade, the field of communications has seen unprecedented growth and convergence of medium in media both technologically and structurally. The communications degree program addresses strongly articulated employer requirements for the workplace through an integrated program model. The degree provides the basic theoretical foundations of the discipline, allows for appropriate branching outside the traditional
curriculum, and permits a drawing from appropriate courses in the disciplines of information sciences and technology, communications, arts and sciences, English, and business.

The degree in communications provides two options for students who wish to develop their written and verbal skills in an effort to gain professional employment in fields such as public relations, publishing, speech writing, video and multimedia, production, and/or journalism.

**Corporate Communications Option**

In extending traditional organization communication, strategic communication, and public relations to the digital age, this option prepares students to compete in a global society. The program is also effective as preparation for e-commerce.

**Digital Journalism Option**

In today’s workplace, journalism graduates are required to regularly engage rapidly converging media in their work. This option offers graduates a competitive advantage by complementing traditional options (newspaper, magazine, radio, TV) with convergent course work designed to prepare students for professional journalism in the digital age.

**What is Communications?**

Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games and the internet. Mass communications use writing, photographs, video and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in different ways with diverse audiences through marketing, advertising, public relations, journalism, film and other media.

**You Might Like This Program If...**

You are a strong writer, critical thinker, and creative person. This is a dynamic field that has an impact on the world.

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

**Degree Requirements**

For the Bachelor of Arts degree in Communications, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>

</tr>
<tr>
<td>Bachelor of Arts Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>49-56</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

6-13 credits of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.
Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.

**Requirements for the Major**
This includes 0-13 credits of General Education courses: 0-6 credits of GS; 0-3 credits of GH; 0-4 credits GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

1 Some courses in this category have prerequisites that are not required in the program. Credits applied may not double count with any other major or option requirements. Courses from selected tracks (PR/MARKETING TRACK OR STRATEGIC COMMUNICATION TRACK) may not double count in this category. Courses may double count toward IL and US requirements.

2 Only 3 credits maximum of COMM 1, COMM 2, COMM 3 may apply.

3 Only 3 credits maximum of COMM 297 may apply.

4 Only 3 additional credits maximum of COMM 299 may apply.

5 Only 3 additional credits of COMM 495 may apply.

6 STAT 200 may double count as GQ.

### Digital Journalism Option (27-28 credits)

1 Some courses in this category have prerequisites that are not required in the program. Credits applied may not double count with any other major or option requirements. Courses may double count toward IL and US requirements.

2 Only 6 credits combined maximum or COMM 1, COMM 2, COMM 3 may apply.

3 Only 6 credits maximum of COMM 297 may apply.

4 Only 3 additional credits maximum of COMM 299 may apply.

5 Only 3 additional credits of COMM 495 may apply.

6 STAT 200 may double count as GQ.
Program Learning Objectives

1. Effective oral, written, and visual communication skills.
   a. Students will be able to write and deliver an effective speech.
   b. Students will be able to write an effective press release.
   c. Students will be able to create an effective visual communication (website, photography, graphics).

2. Knowledge of and facility with current professional standards and practices.
   a. Students will be able to create effective materials as part of their internships, consistent with professional standards and practices.

3. Facility with communications theory and research methods as a foundation of critical thinking.
   a. Students will demonstrate understanding of communication theory by writing an in depth paper on a selected theory.
   b. Students will be able to design and execute an original research project.

4. Knowledge of the roles communications systems and professionals play in shaping local, national, and global communities.
   a. Students will demonstrate understanding of intercultural communication by writing a paper on an assigned topic.
   b. Students will work effectively with diverse colleagues as part of their internship.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Total Credits 125

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**
Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

**Career Paths**

With the rapid development of digital technologies over the last decade, the field of communications has seen unprecedented growth and convergence of medium in media both technologically and structurally. The degree in communications provides two options for you to develop written, verbal, and visual skills in an effort to gain professional employment in fields such as social media, public relations, publishing, video and multimedia production, and/or digital journalism.

**Careers**

- **Corporate Communications Option**: In extending traditional organizational communication, strategic communication, and public relations to the digital age, this option prepares you to compete in a global society. Graduates work in social media, public relations/marketing, sales, non-profit development, and human resources, among other fields.

- **Digital Journalism Option**: In today's workplace, journalism graduates are required to regularly engage rapidly converging media in their work. This option offers graduates a competitive advantage by complementing traditional options (newspaper, magazine, radio, TV) with convergent course work designed to prepare you for professional journalism in the digital age.

**Opportunities for Graduate Studies**

Communications students may pursue graduate studies in communications, media studies, journalism, public administration, and business. Related fields include law, integrated marketing, and health communications.

**Corporate Communication, B.A. (University College)**

**Begin Campus**: Any Penn State Campus

**End Campus**: Fayette, Hazleton, Lehigh Valley, Schuylkill, Wilkes-Barre, Scranton

**Program Description**

The Penn State Corporate Communication Bachelor of Arts (CCBA) program prepares students for various strategic communication roles inside and outside organizations. Graduates of the program hold titles such as public relations professional, social media strategist, speech and copywriter, political aide, marketing communication manager, organizational learning and development specialist, corporate recruiter, and event planner. Graduates have earned advanced degrees in areas such as Business, Law, and Corporate Communication.

The CCBA program is interdisciplinary. While providing depth of study in Corporate Communication, it also includes mandatory Business courses and courses focusing on web based competencies such as writing for the web and digital design. With its overall emphasis on the human and design aspects of contemporary organizations, the program is particularly well-suited to individuals seeking to develop and apply their analytical, verbal, and creative talents. Such talents foster aptitudes in strategic counseling and integrative praxis that, in part, make a Corporate Communication degree unique and highly sought after in the marketplace.

**What is Corporate Communication?**

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and frontline professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience's needs, tastes, and interests.

**You Might Like This Program If...**

- You know you are creative with strong writing and speaking skills.
- You desire to be an ethical communicator who creates meaningful connections with your audience.
- You possess an international, multicultural mindset.
- You want to pursue a career in social media, public relations, or marketing.

MORE INFORMATION (http://abington.psu.edu/corporate-communication)
Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements

For the Bachelor of Arts degree in Corporate Communication, a minimum of 120 credits is required:

<table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

3-9 of these 45 credits are included in Requirements for the Major.

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Requirements for the Major
This includes 3-9 credits of General Education courses: 3-6 credits of GS courses; 0-3 credits of GH courses.
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Program Learning Objectives

#### Lehigh Valley, Scranton, and Wilkes-Barre Campuses

Students completing the Penn State Corporate Communication Bachelor of Arts program will be able to demonstrate the following learning outcomes:

1. Describe the Corporate Communication field and its central questions
   a. Explain the origins of the Corporate Communication field.
   b. Summarize the broad nature of the Corporate Communication field.
   c. Categorize the various career pathways for students of Communication.
   d. Articulate the importance of Corporate Communication expertise in career development and civic engagement.
   e. Examine contemporary debates within the field.
   f. Distinguish the Corporate Communication field from related areas of study.
   g. Identify with intellectual specialization(s) in the Corporate Communication field.

2. Employ Corporate Communication Theories, Perspectives, Principles, and Concepts
   a. Explain Corporate Communication perspectives, theories, principles, and concepts.
   b. Synthesize Corporate Communication perspectives, theories, principles, and concepts.
   c. Apply Corporate Communication perspectives, theories, principles, and concepts.
   d. Critique Corporate Communication perspectives, theories, principles, and concepts.

3. Engage in Corporate Communication Inquiry
   a. Interpret Corporate Communication scholarship.
   b. Evaluate Corporate Communication scholarship.
   c. Formulate questions appropriate for Corporate Communication scholarship.
   d. Engage in Corporate Communication scholarship using the research traditions of the field.
   e. Differentiate among various approaches to the study of Corporate Communication.
   f. Contribute to the scholarly conversations appropriate to the purpose of inquiry.

4. Create Messages Appropriate to the Audience, Purpose, and Context
   a. Locate and use information relevant to goals, audiences, purposes, and contexts.
   b. Select creative and appropriate modalities and technologies to accomplish Corporate Communication goals.
   c. Adapt messages to the diverse needs of individuals, groups, and contexts.
   d. Present messages in multiple communication modalities and contexts.
   e. Adjust messages while in the process of communicating.
   f. Critically reflect on one’s own messages after the communication event.

5. Critically Analyze Messages
   a. Identify meanings embedded in messages.
   b. Articulate characteristics of mediated and non-mediated messages.
c. Recognize the influence of messages.
d. Engage in active listening.
e. Enact mindful responding to messages.

6. Demonstrate the Ability to Accomplish Communicative Goals (Self-Efficacy)
   a. Identify contexts, situations, and barriers that impede communication self-efficacy.
   b. Perform verbal and nonverbal communication behaviors that illustrate self-efficacy.
   c. Articulate personal beliefs about abilities to accomplish communication goals.
   d. Evaluate personal communication strengths and weaknesses.

7. Apply Ethical Corporate Communication Principles and Practices
   a. Identify ethical perspectives.
   b. Explain the relevance of various ethical perspectives.
   c. Articulate the ethical dimensions of a Corporate Communication situation.
   d. Propose solutions for an (un)ethical Corporate Communication situation.
   e. Evaluate the ethical elements of a Corporate Communication situation.

8. Utilize Corporate Communication to Embrace Difference
   a. Articulate the connection between Corporate Communication and culture.
   b. Recognize individual and cultural similarities and differences.
   c. Appreciate individual and cultural similarities and differences.
   d. Respect diverse perspectives and the ways they influence communication.
   e. Articulate one's own cultural standpoint and how it affects communication and world view.
   f. Demonstrate the ability to be culturally self-aware.
   g. Adapt one's communication in diverse cultural contexts.

9. Influence for Greater Good
   a. Explain the importance of Corporate Communication for civic life from the local to global levels.
   b. Identify the challenges facing communities and the role of Corporate Communication in resolving those challenges.
   c. Frame local, national, and/or global issues from a Corporate Communication point of view.
   d. Evaluate local, national, and/or global issues from a Corporate Communication point of view.
   e. Use Corporate Communication to respond to issues at the local, national, and/or global level.
   f. Advocate a course of action to address local, national, and/or global issues from a Corporate Communication point of view.
   g. Use Corporate Communication to empower individuals in terms of human rights, human dignity, and human freedom.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 122

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

### Hazleton Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures.

See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

1. Other GQ if MATH 21 met through placement testing
2. Students must complete the 12th credit level in a second language. Credits vary based on skill level.

### Lehigh Valley Campus

* Course requires a grade of C or better for the major

‡ Course requires a grade of C or better for General Education

# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Bachelor of Arts Requirements:
Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

**Integrative Studies (either Inter-domain or Linked Courses)**

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

**Scranton Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

Career Paths

Corporate Communication is a challenging and exciting career field. Corporate communicators manage the dissemination of information to key constituencies, the execution of corporate strategy, and the development of messages for a variety of purposes inside and outside the organization. Corporate communicators usually oversee media relations, crisis communications, internal communications, reputation management, corporate responsibility, investor relations, government affairs, and sometimes marketing communication. The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

Careers

A Corporate Communication degree can lead to a career in for-profit businesses or in not-for-profit areas such as charitable, political, health care, and educational organizations. You’ll be prepared to work as a professional in a wide range of fields including event planning, human resources, marketing, public relations/public information, and social media relations.

MORE INFORMATION (http://abington.psu.edu/corporate-communication)

Opportunities for Graduate Studies

A baccalaureate degree in Corporate Communication prepares students to pursue master’s degrees in programs such as strategic communication and obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Corporate Communication, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Corporate Communication (CC-UMNR) introduces students to strategic communication for organizations or brands, including for-profit business, non-profit organizations, and government entities. The minor will prepare students to support organizations or brands with their communication goals and stakeholder relationship management. Students will be introduced to foundational concepts of corporate communication. Additionally, students will engage in studying internal or external communication practices that contribute to organizational...
brand and reputation. Students will also have an opportunity to pursue special interests in corporate communication, such as social and digital media, risk and crisis communications, writing for the web, marketing, and management strategies.

What is Corporate Communication?

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and frontline professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience’s needs, tastes, and interests.

Criminal Justice, A.S. (University College)

Begin Campus: Greater Allegheny
End Campus: Greater Allegheny

Program Description

Students receiving an associate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships. This program includes study in law enforcement, courts, and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Associate in Science degree in Criminal Justice prepares students for entry-level positions in criminal justice or for study at the baccalaureate level.

What is Criminal Justice?

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...

You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter entry level positions in the criminal justice system, or complete the baccalaureate level.

MORE INFORMATION (http://altoona.psu.edu/academics/bachelors-degrees/criminal-justice)

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science in Criminal Justice, a minimum of 64 credits is required:

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

Knowledge Domains
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program. 12 of these credits are included in the Requirements for the Major.

University Degree Requirements
Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 3 credits of GH courses; 3 credits of GQ courses; 6 credits of GS courses.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

¹ Suggested Electives for students moving into a Baccalaureate (Bachelor of Art or Science in Administration of Justice) degree program are ENGL 15 and ENGL 202 or other General Education or major requirements in consultation with an academic adviser.

Diversity Studies, Certificate (University College)

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

This certificate is designed to provide students with an overview of issues concerning diversity. Students will take one foundational class and additional courses examining women, gender, sexuality, race, ethnicity, and religion.

What is Diversity Studies?

Diversity Studies is an interdisciplinary academic field that is interested in examining social differences defined by culturally constructed categories of race, class, gender, religion, ethnicity, age, diversity, and other markers of identity. Diversity Studies however tends to focus on our own lived experiences, and how our perception of these markers influences personal and cultural interactions – especially our own! It investigates systems of power that organize our schools, workplaces, healthcare systems, criminal justice system, and media, many of them invisible to us. Around the globe those systems of power are organized very differently, sometimes in fundamental ways. Diversity Studies approaches differences intersectionally to expose, critique, and confront historical and contemporary sources of social and cultural conflict. This does not mean “looking past” differences; rather, looking straight at them to find the common ground and empathy that can make us better citizens.

You Might Like This Program If...

• You want to better understand people from different backgrounds.
• You are interested in impacting social problems.
• You want to stretch your own perspectives and actions.
Program Requirements

To earn an undergraduate certificate in Diversity Studies, a minimum of 12 credits is required, three of which must be at the 400-level. A course grade of C or higher is required.

English, B.A. (University College)

Begin Campus: Any Penn State Campus
End Campus: Brandywine, Greater Allegheny, Wilkes-Barre, Scranton, York

Program Description

Majors explore the imaginative and practical uses of English through courses in literature, writing, rhetoric, and language. They develop perspectives on human nature and cultural values through American, British, and other English literatures; they learn how to gather, analyze, synthesize, and communicate information; they gain mastery over their language. These skills help English majors find careers in such fields as publishing, business, industry, government, and teaching. English majors often go on to postgraduate study not only in English but in such areas as law, business, education, or other liberal disciplines.

Majors can emphasize writing, literature, or rhetoric, or a mix of literature, writing, and rhetoric. All provide a liberal education and all develop analytic and writing skills. Qualified students may participate in the career internship and in the English honors program.

Students interested in earning certification in secondary education should contact the College of Education, Department of Curriculum and Instruction. (See also Teacher Education Programs.)

What is English?

English refers to a broad field of study related to the reading, writing, studying and analyzing of English literature and language. The field includes the many and varied forms and genres of literature, writing, and rhetoric, and often considers how value and meaning are created, and information communicated, through these various texts.

You Might Like This Program If...

- You enjoy composing texts that are varied in genre, style, and medium, including critical essays, short stories, poems, reviews, digital media, podcasts, and others.
- You find yourself compelled to make connections between literary texts and ideas that are both present across historical eras and pertinent to current realities.
- You are interested in how audiences treat and use texts, whether the texts are print or digital, technical, critical, and/or creative.
- You want to solve problems through deliberate communication, in arenas that overlap with other areas of human life, like science, law, art, business, and the social sciences.
**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

**Degree Requirements**

For the Bachelor of Arts degree in English, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>

<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td>36</td>
</tr>
</tbody>
</table>

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.
Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Integrated B.A./M.A. Program in English

A minimum of 141 credits are required to complete the IUG B.A./M.A. in English.

The BA in English requires a minimum of 123 credits, with 36 of those credits required for the English major.

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

In consultation with adviser, select 18 credits in literature, writing, or rhetoric.1 2

1 At least 3 of the 300/400 level credits must fulfill a departmental diversity requirement for a course related to race, gender, sexuality, disability, ethnicity, and/or postcolonial issues.

2 At least 9 credits must be at the 300/400 level.

Application to the English IUG would typically occur in the junior year after a student has completed 60 credits, enrolled in the English major, and completed two English courses in creative writing.

Admission Requirements

Admission to the integrated B.A./M.A. program will be based on the submission of a portfolio of creative work and a plan of study to the department’s Director of Graduate Studies and the Director of the B.A./M.A. program. Applications typically will be filed during the 5th or 6th semesters of study, and applicants must have achieved a minimum of 60 credits and a 3.3 overall GPA and 3.6 GPA in English to begin the program. The English Director of Graduate Studies will ensure that the applicant meets the minimum credit and GPA requirements for the program. The Director of the B.A./M.A. program will evaluate the quality of the student’s creative work and the applicant’s plan for fulfilling the requirements of the M.A. in English. The Director of the B.A./M.A. program, in consultation with the Creative Writing faculty, will have final approval for what constitutes an acceptable level of creative work and an acceptable plan for the completion of the M.A.

The application procedure requires submission of the following:

1. Support Letters from Faculty and Administrators (addressed to the department’s Director of Graduate Studies and the Director of the B.A./M.A. program)
2. A Personal Statement
3. Portfolio of Creative Work
4. A Plan of Study
5. A transcript and degree audit printed from LionPATH
Plan of Study and Advising
Prior to the application process, students should communicate their intent to enroll in the IUG to the English B.A. advisor and the Director of the B.A./M.A. program. The Director of the B.A./M.A. will help each student identify an appropriate series of English courses to properly prepare each student for the 500-level M.A. workshops and 500-level literature courses.

Students will be expected to maintain a minimum overall GPA of 3.3 for all undergraduate coursework and a GPA of 3.6 in English (ENGL) courses throughout the IUG program of study. Failure to do so will result in the student being advised that he/she must regain a GPA of 3.3 within one semester. If the GPA is not 3.3 or higher in general undergraduate coursework and 3.6 or higher in English coursework after that term, the student will be dropped from the IUG.

Each student enrolled in the B.A./M.A. will meet at the beginning of each term with the Director of the B.A./M.A. to discuss his or her progress through the M.A. degree and to make sure that he or she is following the plan established upon his or her admission to the B.A./M.A. program.

If the student decides not to continue on in the IUG, the student may, contingent on fulfilling all other requirements for the B.A. in English, graduate with a B.A. in English.

Sequence of Courses
The IUG B.A./M.A. consists of a total of 60 English credits. A minimum of 141 credits are required to complete the IUG B.A./M.A. in English.

Program Learning Objectives
1. Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.
2. Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.
3. Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.
4. Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.
5. Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.
# Suggested Academic Plan

## Brandywine Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures.

See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

## Greater Allegheny Campus

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2615) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2668).

### Program Notes

General Education courses are interchangeable; students may choose the General Education courses they wish to take in any given semester based on preference, availability, and academic goals.

Scheduling patterns vary according to course offerings.

Both US (United States Cultures) and IL (International Cultures) courses must be completed within the degree requirements; these courses may not be used to fulfill the Other Cultures requirements.

### Career Paths

#### Careers

Our graduates use their training in careers as attorneys, publishers and writers of all types, public relations directors, foreign service specialists, and entrepreneurs, as well teachers and education professionals.

MORE INFORMATION (http://english.la.psu.edu/undergraduate/the-value-of-the-english-major)

### Opportunities for Graduate Studies

English majors often go on to postgraduate study not only in English but in such areas as law, medicine, business, education, or other liberal disciplines.

Program Description
This six (6) credit certificate program is perfect for those individuals with exposure to and/or experience in bookkeeping, accounts receivable/payable and other accounting practices with no formal academic education. The program enhances the participant’s knowledge in the accounting areas identified in the course descriptions and introduces them to general accounting software.

What is Financial Accounting?
This six-credit certificate program enhances an individual’s knowledge in the following areas: basic accounting concepts, principles, and practices for the recording (journals, ledgers, trial balance, adjusting entries), summarizing, and interpreting of accounting data; accounting for partnerships, corporations, cash flows, certain liabilities and assets, and the analysis of financial statements.

You Might Like This Program If...
You have had exposure and experience in bookkeeping, accounts receivable/payable and other accounting practices with no formal academic education.

Admission Requirements
Nondegree or degree status undergraduate students.

Program Requirements
To earn an undergraduate certificate in Financial Accounting, a minimum of 6 credits is required.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Foundations of Business, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
Introduction to core business concepts. Students develop communication, technical, and analytical skills needed for the contemporary business environment.

What is Foundations of Business?
An introduction to the concepts that comprise the study of business.

You Might Like This Program If...
• You desire to add business skills to your degree program.
• You want to gain exposure to business concepts to enhance your employment opportunities.
• You want to earn a business certificate as a stepping stone to enrolling in an associate or baccalaureate degree program.

Program Requirements
To earn an undergraduate certificate in Foundations of Business, a minimum of 13 credits is required.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Health Policy and Administration, B.S. (University College)

Begin Campus: Any Penn State Campus
End Campus: Lehigh Valley, Mont Alto

Program Description
This major helps prepare students for management and policy positions or graduate study in the field of health care. Students in the major develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost. All Health Policy and Administration students complete an internship in a health-care-related setting, giving them valuable experience and contacts in the industry. HPA students study a multidisciplinary curriculum that prepares them to work as health services managers or health analysts. Health services managers, also called health care executives or health care administrators, plan, direct, and coordinate medical, health, and/or long-term care services. They might manage an entire facility or specialize in managing a specific clinical area or department, administrate a program or manage a practice for a group of providers. Health analysts are employed throughout the health care industry gathering, compiling, modeling, validating, and analyzing data needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed decisions. Both health services managers and analysts must be able to adapt to changes in health care laws, regulations, and technology. HPA students have also used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

What is Health Policy and Administration?
Health Policy and Administration (HPA) is a multidisciplinary course of study with courses in the liberal arts, business administration, and health sciences. In general HPA students are prepared to work in six types of health care organizations including:

1. health care providers (hospitals, physician practices, nursing facilities, home health agencies, etc.)
2. health insurers (nonprofit and commercial insurers, health maintenance organizations, etc.)
3. health care consulting firms
4. health care supply companies (pharmaceutical companies, medical device manufacturers, etc.)
5. health services research and policy organizations (health policy research groups, industry trade groups, etc.);
6. local, state, and federal health agencies (local health departments, state Department of Health, federal Department of Health and Human Services, etc.).

MORE INFORMATION (http://hhd.psu.edu/hpa)

You Might Like This Program If...
- You are interested in business administration or management but want to focus primarily in the healthcare industry.
- You are interested in influencing health policy by working in government at the state or federal level
- You are interested in improving access to health care for underserved populations
- You are interested in reducing health care costs or improving health care quality through policy reform.

MORE INFORMATION (http://hhd.psu.edu/hpa/undergraduate/bs)

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

Degree Requirements
For the Bachelor of Science degree in Health Policy and Administration, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>4-6</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>81-83</td>
</tr>
</tbody>
</table>

The requirements for the major are outlined below. Students may select courses in the Supporting Courses and Related Areas category to fulfill requirements for a minor, to develop a specialization, or to complete courses required for admission to medical, dental, law, or other graduate schools.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. H P A requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)(p. 2642)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

MORE INFORMATION (http://hhd.psu.edu/hpa/undergraduate/bs)
Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

12 of these 45 credits are included in the Requirements for the Major.

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas

Select 30 credits from University-wide offerings on department list in consultation with adviser.

1 Must include at least 9 credits at the 400 level.
Integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) Admission and Degree Requirements

The integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) program allows qualified undergraduate students to earn both degrees in five calendar years of full time academic study.

The following credentials will be considered for admission:

- A demonstrated ability to communicate effectively, an advanced level of maturity, and high motivation to pursue a career in the health care field
- Academic references
- Successful completion of 60 credits having maintained a cumulative GPA of 3.4 or better

Students admitted to the B.S. in Health Policy and Administration/M.H.A. integrated program are able to earn both the B.S. and M.H.A. in five calendar years of full time academic study.

Program Learning Objectives

1. **Know Health Orgs**: HPA graduates will possess in depth understanding of health and health care, including the structures, policies, processes and institutions that make up the U.S. health care system.
2. **Organize and Direct Resources**: HPA graduates will possess the knowledge and skills necessary for organizing and directing resources towards the achievement of organizational objectives.
3. **Policy Analysis**: HPA graduates will possess the knowledge and skills necessary to analyze, synthesize, and evaluate public policy.
4. **Emotional Intelligence**: HPA graduates will possess an awareness of and the ability to manage one’s own emotions in a way that enables positive interpersonal interactions and the building of productive relationships.
5. **Diversity Adeptness**: HPA graduates will recognize the value of diversity and possess sensitivity to underrepresented and underserved groups in health care.
6. **Critical Thinking**: HPA graduates will be able to interpret, analyze, and evaluate information to identify, examine, and solve problems that occur in the health care system.
7. **Communication**: HPA graduates will be able to effectively receive, process, and relay information through speaking, writing, and listening.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Career Paths**

The mission of the Bachelor of Science Program (B.S.) in HPA is to develop graduates with the knowledge, skills, and values appropriate to work in entry-level management or policy-related positions or for the pursuit of graduate education in health administration, health policy, health law, health services research, public health, and other health-related needs. HPA students develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost.

**Careers**

The HPA curriculum prepares students to work as health services managers/administrators or health analysts. Health services managers/administrators plan, direct, and coordinate medical, behavioral, and/or long-term care services. These individuals might oversee matters of personnel, budgeting, billing, equipment outlays, information systems, planning and more. Health analysts are responsible for analyzing, compiling, and validating information needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and make well-informed decisions. Employment in the health care sector is projected to grow 17 percent from 2014 to 2024, much faster than all other occupations.

**Opportunities for Graduate Studies**

HPA’s blend of courses in liberal arts, business administration, and the health sciences, is designed to prepare students for careers or further study in health care. HPA students have used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

**Accreditation**

HPA is a fully certified member of the Association of University Programs in Health Administration (AUPHA). As such it has been recognized for having withstood the rigors of peer review wherein curricula, faculty, and educational outcomes have been critically examined by external peer review. In a process comparable to other specialty program accreditations, programs seeking AUPHA certification must submit an extensive self-study detailing the program’s structure, educational processes, and assessment mechanisms in response to national criteria established by AUPHA.

Healthcare Informatics, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
The healthcare industry is moving towards the widespread use of digital records and electronic information transfer. This is resulting in a need for healthcare professionals to be knowledgeable in information technology and for information technology professionals at healthcare facilities to be more knowledgeable of the healthcare industry. Professionals in these two areas both need to understand the complexities of medical information being digitally stored and transferred. This 18 credit certificate program provides students with insight into both professional areas. Students may receive credit for previous coursework (up to 3 courses) upon academic review.

What is Healthcare Informatics?
Healthcare informatics enables healthcare professionals to be knowledgeable in information technology and for information technology professionals at healthcare facilities to be more knowledgeable of the healthcare industry.

You Might Like This Program If...
You have aspirations to work in a healthcare setting You like to learn new technologies.

Program Requirements
To earn an undergraduate certificate in Healthcare Informatics, a minimum of 18 credits is required.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Human Development and Family Studies, A.S. (University College)

Program Requirements
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major integrates practical and academic experiences to provide the student with entry-level professional competence in the human service field. The objective of the major is to offer a general education background, a knowledge base in life span and family development, and a core of professional skills that may be applied in program planning and service delivery activities. The major is offered part-time, in the evening, and through independent learning.

Adult Development and Aging Services Option
This option is designed to prepare students for a wide variety of service roles in mental health facilities, nursing homes and other institutions for the aged, area agencies on aging, public welfare and family service agencies, women’s resource centers, human relations programs, employee assistance programs and customer services and consumer relations programs in business and industry. An approved field experience in any of a wide variety of settings that serve adults, the aged, and their families, is required for this option.

Children, Youth, and Family Services Option
This option is designed to prepare students for service roles in preschools; day care centers; hospitals; institutional and community programs for emotionally disturbed, abused, or neglected children and adolescents; as well as a variety of public welfare and family service
agencies. An approved field experience in a children, youth, or family services setting is required for this option.

**Early Childhood Care and Education Option**

This option is designed to increase professional capabilities in child care training in regard to issues of quality, affordability, and accessibility of programming. The primary foci are on language, literacy, and science reasoning. In the coursework, there is a blending of theory and practice that requires experience in a group setting with young children. Courses concentrate on infants and toddlers as well as older preschoolers. Each course has a strong parent/family communications component and stresses observation techniques appropriate for assessing and evaluating the development of young children.

**What is Human Development and Family Studies?**

The Associate in Science in Human Development and Family Studies (HDFS) integrates practical and academic experiences to provide you with entry-level, professional competencies in the human service fields. The Adult Development and Aging Services option focuses on the biological, psychological, and social development of adults and elderly persons, with special emphasis on the various contexts of adult development, including work and the family. The Children, Youth, and Family Services option is an ideal choice if you want to work with various age groups in centers, institutions, and agencies. The program’s ultimate goal is to improve the quality of planned services for families from varied backgrounds and community settings. For both options, HDFS students complete an internship at a human service organization in their community. Real world experience will help you build professional networks, establish references, and reflect on what you have learned in the classroom.

**You Might Like This Program If...**

- You already work in a human service–related field.
- You aspire to work in human service–related occupations.

**Entrance to Major**

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

**Degree Requirements**

For the Associate in Science degree in Human Development and Family Studies, a minimum of 60 credits is required:

<table>

</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

**Knowledge Domains**

- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

**Foundations or Knowledge Domains**

- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

15 of these 21 credits are included in the Requirements for the Major.

**University Degree Requirements**

**Cultures Requirement**

3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

This includes 15 credits of General Education courses: 6 credits of GWS courses; 3 credits of GS courses; 3 credits of GN courses; and 3 credits of GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 [http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44].
### Program Learning Objectives

1. Understand the complexity of individual and family development across the lifespan.
2. Evaluate and apply research and theory to practice and policy.
3. Understand the processes, policies and contextual factors that affect the delivery of human services.
4. Understand the professional, ethical, and culturally sensitive standards of conduct.
5. Demonstrate knowledge and competence in helping, leadership and administrative skills.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 60

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Advising Notes:**

- If a student wishes to enter the HDFS Baccalaureate Degree program after completing the Associate Degree, any math deficiency should be eliminated before graduating. See your advisor.
- If a student is planning on enrolling into the Baccalaureate Degree program, supporting courses should be chosen carefully, and in consultation with an advisor to maximize efficiency in completing the four year degree.
- Students are required to take one US or IL course. HDFS 315Y will satisfy this requirement for the Associate Degree program.
- Students must earn a grade of C or better in any HDFS course that is used as a supporting course.

Total Credits 63-64

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Advising Notes:
• Courses required for the 2FSCC degree apply to the HDFS baccalaureate degree program.
• Students selecting a GH course or supporting course are encouraged to schedule a course with the US or IL designation.
• Students selecting a GQ course are encouraged to check with an advisor for appropriate math entrance requirements.
• Students are strongly encouraged to take HDFS 312W, but if not taken it needs to be replaced with another writing across the curriculum course and another supporting course must be taken.
• Students should consult with their advisors concerning appropriate supporting courses.
• This is a recommended plan and is not meant to substitute for students meeting with their academic advisors. Any deviations from this plan should be discussed with students’ academic advisors.

Children, Youth and Family Services Option
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths
Careers
With an associate degree in HDFS, you can work in the human services field, promoting health and preventing social and mental health problems for child, youth and families and adults and the elderly. You may also find employment in the following areas:

- medical case worker
- mental health worker
- case manager
- school support services
- medical and public health services
- substance abuse services
The associate degree in HDFS can also serve as a stepping stone to further education if you wish to work as a counselor or social worker.

**Opportunities for Graduate Studies**
Many graduates go on to earn an HDFS bachelor’s degree; some eventually enroll in graduate school.

**Program Description**

_Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered._

This major is a multidisciplinary program that examines the development of individuals and families across the life span. It enables students to prepare for professional, managerial, or scientific roles in health and human services professions, in public and nonprofit agencies, and in business and industry, as well as for advanced professional or graduate study. Students obtain a broad background in individual and family development across the life span. Courses emphasize biological, psychological, social/cultural, and economic aspects of development. Through coursework and undergraduate internships or research projects, students develop skills relevant to career objectives, such as counseling, human assessment, program planning and evaluation, and research.

Two options are available within the major.
1. Life Span Human Services option
2. Life Span Developmental Science option.

The introductory paragraph to each of the options includes a brief list of career opportunities. More extensive descriptions of career opportunities in both public and private sectors are available for the program.

**Life Span Human Services Option**

This option focuses on the acquisition and application of scientific knowledge about development and family functioning across the life span for the purposes of enhancing personal and family development. Courses emphasize:

1. understanding the biological, psychological, and social development across the life span, and the structuring and functioning of families;
2. understanding basic theoretical and methodological issues; and
3. the development of applied skills in intervention and evaluation, prevention, and in the formulation of social policy.

An approved field experience in a setting that serves children, youth, adults, or the aged is required for this option. Typical employment settings include preschools, daycare centers, hospital programs for children, youth, and families, institutional and community mental health programs for individuals and families, programs for abused or neglected children and adolescents, women's resource centers, human resources programs, employee assistance programs, nursing homes, area agencies on aging and other community settings for older adults, and public welfare and family service agencies. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, sociology, or advanced professional training in psychology, law, behavioral health, counseling or social work.

**Life Span Developmental Science Option**

This option focuses on the understanding of contemporary methodological approaches to the acquisition of scientific knowledge about individual development over the life span and about family development. This option provides preparation for advanced training in careers in developmental or family research, teaching at a college or university, or for professional careers that require graduate training. Courses within this option emphasize a thorough understanding of the theory and methods of developmental and family theory and research. An approved, multi-semester research practicum is an integral component of this option. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, sociology, or advanced professional training in psychology, law, behavioral health, social work, or in other programs related to services for individuals and families.

**What is Human Development and Family Studies?**

Penn State's Human Development and Family Studies program is designed to help you learn about the intricacies of individual and family development across the lifespan and the foundations of working in a wide range of human services with many different groups of people. We will support you as you learn about promoting healthy development, identifying and managing real-life problems, and intervening when appropriate. Through HDFS's interdisciplinary approach, you will explore the biological, psychological, and the sociological facets of life in order to help others live healthy, successful lives. With coursework on child and adolescent development, adult development and aging, family studies, and approaches to interventions and helping, you will learn how individuals progress and change from birth to old age; how families and communities influence these processes; and how to apply this knowledge in order to develop, implement, and evaluate interventions designed to improve people's lives.

**You Might Like This Program If...**

- You have always been curious about human behavior and family relationships, and how people relate to one another.
- You are passionate about pursuing a career in which you develop, implement or evaluate interventions designed to improve the lives of individuals and families.
- You plan to pursue one of the many careers in which an understanding of individual and family development across the lifespan would be useful (e.g., counseling, education, health professions, business, policy/advocacy).

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University;
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major)

**Degree Requirements**

For the Bachelor of Science degree in Human Development and Family Studies, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>3-5</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>73-76</td>
</tr>
</tbody>
</table>

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. HDFS requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

3-4 of these 45 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
This includes 3-4 credits of General Education GQ courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives
Brandywine, DuBois, and Mont Alto Campuses
1. HDFS students will be able to demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
   a. Demonstrate an understanding of the contribution of original research in human development;
   b. Integrate and apply the findings of empirical research within a theoretical framework to human development;
   c. Explain the strengths and weaknesses of various research methods in assessing human behavior;
   d. Apply research skills in order to better understand in the use of research in agency practice;
   e. Explain the process of planning and conducting research, including the role of the IRB;
   f. Demonstrate skills to analyze and interpret data;
   g. Apply theories to identify and resolve problems.
2. HDFS students will be able to demonstrate the ability to evaluate and apply theory and research to practice and policy.

Scranton Campus
1. Demonstrate an understanding of the complexity of individual and family development across the life span in diverse contexts and changing environments.
2. Demonstrate an ability to evaluate and apply research and theory to practice and policy.
3. Analyze processes, policies, and contextual factors that affect the delivery of human services to individuals and families.
4. Demonstrate professional, ethical, and culturally sensitive standards of conduct.
5. Demonstrate knowledge and competence in helping, leadership, and administrative skills for human services.

**Shenango Campus**

1. Graduates can apply theories and principles of human services to clinical and/or practice and research. Students will:
   a. Explain and cite appropriate theories that can be applied to a given scenario.
   b. Compare and contrast, and can explain the pros and cons of major theories in human services.
   c. Construct appropriate treatment plans and/or make appropriate referrals.
   d. Develop a coherent research question and construct an appropriate research design and methodology to investigate the question.
   e. Interpret and critique research findings.
   f. Apply research/research findings to inform practice.
2. Graduates will demonstrate professional and ethical accountability in dealing with clients and coworkers. Students will:
   a. Interact respectfully with people of diverse populations at all times.
   b. Define diversity and the benefits of diversity as it relates to the human services fields.
   c. Conduct themselves successfully in interview settings whether as the interviewer or interviewee.
   d. Demonstrate knowledge of laws concerning confidentiality, professional boundaries, and sexual harassment within the human services field, especially laws related to HIPAA, licensure regulations, and FERPA.
   e. Demonstrate a strong work ethic in their courses and in the field.
3. Communicate, verbally and in writing, in a professional manner at all times.
   a. Take responsibility for and accept the consequences for their actions.
   b. Demonstrate the ability to work collaboratively in teams or groups.
   c. Graduates can identify, access and utilize resources to better serve individuals, families, and communities at the micro and macro level. Students will:
   d. Locate potential opportunities and develop high quality proposals to obtain funding from external sources.
   e. Identify, locate, and access regional, national, and global resources for information, referrals, and assistance in performing their professional duties.
   f. Locate policies, rules, regulations, and laws that impact their professional duties.
   g. Explain the differences among profit, non-profit, and faith-based agencies and evaluate the relative credibility of those agencies.
4. Graduates can use technologies necessary to perform professional duties efficiently and effectively.

a. Students will demonstrate a level of proficiency in e-mail, web searches, presentation software, databases, publication software, library databases, statistical software, and word processing.

b. Students will recognize and effectively use appropriate software programs to more efficiently complete projects and assignments.
5. Graduates will demonstrate strong verbal and written communication skills.
   a. Students will demonstrate active listening skills and can construct effective questions to further explore issues and concerns.
   b. Students will be proficient in APA style writing.
   c. Students will be able to use proper grammar, sentence structure, accurate spelling, formal language, correct punctuation, coherent paragraphs, … to write well organized and effective documents and professional communications.
   d. Students will make effective presentations.
   e. Students will construct effective arguments from multiple perspectives.
6. Graduates will demonstrate personal and professional growth that leads to the ability to build and enhance skill sets.
   a. Students will participate in professional development activities.
   b. Students will demonstrate effective time management by completing all assignments and coursework by the assigned deadlines and attending class regularly.
   c. Students will learn to recognize and deal with their personal issues and persist in their education and professional growth.
   d. Students will identify their scope of practice based on their clinical limitations.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Total Credits 119-120**

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Student who choose to take EDPSY 101 will need to complete at least 1 cr in elective coursework to reach the minimum of 120 crs for graduation.

**Life Span Developmental Science Option**

The course series listed below provides only one of the many possible ways to move through this curriculum. Total Credits 122-125

1. For supporting courses, see department list or consult adviser.
2. Offered every Fall semester
3. Offered every Spring semester
4. Offered every Fall semester.
5. Offered odd years, Fall semester.

* Course requires a grade of C or better for the major.
‡ Course requires a grade of C or better for General Education.
# Course is an Entrance to Major requirement.
† Course satisfies General Education and degree requirement.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Scranton Campus**

**Life Span Developmental Science Option**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes

- Students are encouraged to take HDFS 312W in semester 3, if possible.
- In consultation with an advisor, students will find a faculty member during their 5th or 6th semester to serve as the supervisor for HDFS 494, research project. This is a two-semester senior-year project culminating in semester 8 research paper.

Advising Notes

- Math 21 is considered the standard 1st semester GQ. Students are encouraged to check with their advisor on the appropriate math sequencing if not placed in MATH 21 first semester.
- It is recommended that General Education Arts (GA) and Humanities (GH) be taken in junior and senior year if student plans to study abroad.
- HDFS US cultures requirement suggested in semester 5 is in addition to the University Requirement.
- IL may be combined with GA, GH, or GS.
- Credit adjustments should be made if free elective credits are needed for a total of 120 credits minimum (which includes semester 8).

LIFE SPAN Human Services OPTION

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Total Credits 121-122

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes
Students are encouraged to take HDFS 312W in semester 3, if possible.

HDFS 401 must be the semester before HDFS 495C and HDFS 402.

International cultures (IL) may be combined with GA, GH, or GS.

HDFS US cultures requirement is in addition to the University Requirement.

HDFS 315 satisfies the University Requirement for US cultures.

Advising Notes

MATH 21 is considered the standard 1st semester GQ. Students are encouraged to check with their advisor on the appropriate math sequencing if not placed in MATH 21 first semester.

Students should consult with their advisors concerning appropriate supporting courses.

This is a recommended plan and is not meant to substitute for students meeting with their academic advisors. Any deviations from this plan should be discussed with students’ academic advisors.

Shenango Campus

Lifespan and Human Services Option

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**Opportunities for Graduate Studies**

The HDFS major is also excellent preparation for graduate school in the social, behavioral, and health sciences. In recent years, our majors have pursued graduate studies in: Counseling (e.g., school counseling, counseling psychology) Social work Health professions (e.g., nursing, occupational therapy, medicine) Psychology and Human Development Family Studies Elementary and Secondary Education Law and Business.

---

**Career Paths**

The demand for HDFS graduates is strong because the HDFS major provides students with a valuable foundation for understanding important social trends: The population of older people is growing, and the number of trained persons who can provide help and assistance to them falls far short of the need; Social problems such as child abuse and drug and alcohol problems affect many individuals and families; Young adults face many social and economic pressures that can lead to problems in work and relationships.

**Careers**

Many HDFS graduates go directly to the workplace based on their understanding of people, their knowledge of group dynamics, and their skills in training and in program development and evaluation. Many positions are in human services and health care settings while others are in business and industry. Assisted living, adult day services and nursing homes Day-care centers and preschools Drug and alcohol treatment centers and hospitals Child and domestic abuse centers and runaway shelters Human resources or marketing departments of large companies Development/fundraising for educational or nonprofit organizations.

Information Sciences and Technology, A.S. (University College)

Begin Campus: DuBois, Greater Allegheny, Hazleton, Mont Alto, New Kensington, Wilkes-Barre, Scranton, York

End Campus: DuBois, Greater Allegheny, Hazleton, Mont Alto, New Kensington, Wilkes-Barre, Scranton, York

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This associate degree major is structured to prepare graduates for immediate and continuing employment opportunities in the broad disciplines of information science and technology. This includes positions such as application programmers, associate systems designers, network managers, web designers and administrators, or information systems support specialists. Specifically, the major is designed to ensure a thorough knowledge of information systems and includes extensive practice using contemporary technologies in the creation, organization, storage, analysis, evaluation, communication, and transmission of information. The major fosters communications, interpersonal, and group interaction skills through appropriate collaborative and active learning projects and experiences. Technical material covers the structure of database systems, web and multimedia systems, and considerations in the design of information systems. Team projects in most courses, a required internship, and a second-year capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies in the field.

The Associate of Science in IST degree will be offered at multiple campuses within the Penn State system of colleges and campuses. Note that not all options will be available at all locations.

Baccalaureate Option
This option provides maximum articulation with the baccalaureate degree. Students who complete this option will meet all lower division requirements for the baccalaureate degree. This is not the case with the remaining options, although the degree of articulation is quite high for all associate degree options.

Generalized Business Option
This option enables students to specialize in the general business areas of accounting, marketing, and management.

Individualized Option
This option enables students to work closely with an adviser to develop a plan of study that meets the dual objectives of allowing a flexible academic program and providing breadth of technical specialization. An example would be a program where a student would take some of the courses listed in the Web Administration option and the remainder in the Software option.

Software Option
This option prepares graduates for entry-level programming support positions in industry. Students take courses in Web programming, database programming, and other contemporary programming environments.

Networking Option
This option prepares graduates for positions as entry-level computer network administrators. Students take courses in personal computer hardware, networking essentials, and network administration.

Telecommunications Option
This option prepares graduates for entry-level positions in the telecommunications industry. Students take courses in voice and data communications, protocols, networks, and wireless systems.
Entrance to Major
Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements
For the Associate in Science degree in Information Sciences and Technology, a minimum of 60 credits is required:

<table>

<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>4-7</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>44-46</td>
</tr>
</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
- Quantification (GQ); 3 credits
- Writing and Speaking (GWS); 3 credits

Knowledge Domains
- Arts (GA); 3 credits
- Humanities (GH); 3 credits
- Social and Behavioral Sciences(GS); 3 credits
- Natural Sciences (GN); 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses; 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program. 9-12 of these 21 credits are included in the Requirements for the Major.

University Degree Requirements
Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 9-12 credits of General Education courses, i.e., ALL options: 3 credits of GQ courses; 6 credits of GWS courses. The Baccalaureate Option also includes 3 credits of GS courses to equal a total of 12 credits that double count, the General Business Option also includes 0-3 credits of GS courses to equal 9-12 credits that double count.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

|          | or MATH 26 Plane Trigonometry                     |         |

**Program Learning Objectives**

1. Know the System Development Lifecycle (SDL): Demonstrate knowledge of the SDL by applying its methods to network projects and various networking hand-on lab exercises.

2. Know Networking Systems and Industry Methods: Demonstrate ability to apply various industry standards in networking, server maintenance, and hardware standards.

3. Use Information Sciences Theory/Practice: Use management theory and information technology processes in managing networks. Which includes best practices for network and infrastructure design, development, and implementation.

4. Manage Network Systems: Demonstrate knowledge of designing and management various networking systems.

5. Know Security Risk Factors: Demonstrate knowledge technology risk factors for networks, servers, various hardware components and their impact on technology systems. Having the ability to secure various networks, using the latest industry standards and best practices, design, develop, and implement (i.e. securing hardware, software compliance, etc.).

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the
habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

# Course is an Entrance to Major requirement
Information Sciences and Technology, A.S. (University College)

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Total Credits 60**

* Course requires a grade of C or better for the major

† Course requires a grade of C or better for General Education

# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Business Option Course

Consult IST Program Coordinator for a list of course selections.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 One of the GA, GS or GH courses must satisfy the University US/IL requirement.

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
Program Notes

All students are required to complete a 150-hour internship, which is a mentored work experience where the student is employed in an information sciences and technology position in industry, government or academia. If students are planning to continue with the baccalaureate degree, they should complete a 300-hour internship. Students may complete the internship after their first semester and may complete multiple internships during their academic career.

Advising Notes

- A student’s career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an advisor in this department when scheduling courses.
- This is a recommended academic plan and degree requirements for major (and options) may change periodically. Students should consult with their academic advisor once a semester to keep abreast of new degree requirements and course offerings.

Generalized Business Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

† Course requires a grade of C or better for General Education

‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 One of the GA, GS or GH courses must satisfy the University US/IL requirement.

Program Notes

The student, with the concurrence of an adviser selects 15 credits from the following list of courses:

- Introductory Financial Accounting I (ACCTG 151), ACCTG 152, ACCTG 153, ACCTG 160, ACCTG 170, ACCTG 211
- BA 250
- ECON 102, ECON 104, OR ECON 14
- MATH 17, MATH 21, MATH 22, OR MATH 26
- MGMT 100, MGMT 150, MGMT 321, MGMT 341
- MKTG 220, MKTG 221, MKTG 310, MKTG 327

All students are required to complete a 150-hour internship, which is a mentored work experience where the student is employed in an information sciences and technology position in industry, government or academia. If students are planning to continue with the baccalaureate degree, they should complete a 300-hour internship. Students may complete the internship after their first semester and may complete multiple internships during their academic career.

Advising Notes

- A student’s career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an advisor in this department when scheduling courses.
- This is a recommended academic plan and degree requirements for major (and options) may change periodically. Students should consult with their academic advisor once a semester to keep abreast of new degree requirements and course offerings.

Individualized Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Students may complete the internship after their first semester and may complete multiple internships during their academic career.

### Advising Notes:

- A student's career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an advisor in this department when scheduling courses.
- This is a recommended academic plan and degree requirements for major (and options) may change periodically. Students should consult with their academic advisor once a semester to keep abreast of new degree requirements and course offerings.

### Wilkes-Barre Campus

#### Individualized Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.
* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GO, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Footnotes:

1 Supporting Courses (15 credits): This option requires the student to work closely with an advisor to choose appropriate supporting courses which follow a coherent theme in information sciences and technology and which allow for a flexible academic program and a breadth of technical specialization.

Program Notes:

IST 295A or 295B is a one-credit internship usually completed over the summer, representing 150 hours of a supervised experience in an IT position. The course can be repeated and up to 3 credits can be applied to the degree. It is recommended that students engage in as many internship opportunities as possible. NOTE: If the student intends to later pursue a bachelor's degree in IST, he/she should opt to complete IST 495 instead of IST 295. IST 495 is a one-credit course which represents 300 hours of a supervised experience in an IT position. The ISSUC_BS degree requires IST 495 and IST 295 does not meet the requirements.

Baccalaureate Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Information Technology: Integration & Application Option

This option is designed to prepare students to use information technology to realize a variety of system-based goals (e.g., reliability, accessibility, efficiency, etc.). It is focused on developing a theoretical foundation and the skill set needed for integrating information technology into different systems for the purpose of enhancing system performance. The emphasis is on providing the student with both the theoretical frameworks needed to use information technology as a system attribute as well as a set of application-oriented experiences and skills.

What is Information Sciences and Technology?

Information Sciences and Technology is a discipline that explores how we can strengthen the power of information and technology, and use it to increase human potential. This includes focusing on creating innovative systems and technological solutions that benefit businesses, organizations, and individuals, and understanding the role of technology in how we live our lives.

MORE INFORMATION (https://ist.psu.edu/students/undergrad/majors/istbs)

You Might Like This Program If...

- You want to develop new software and web applications, help businesses operate more effectively by creating and implementing technological solutions, or understand how technology is connected to broader social issues.
- You are interested in technology but also want to work with people.
- You enjoy coming up with creative solutions to difficult challenges.

MORE INFORMATION (https://issuu.com/istpsu/docs/ist-major)

Entrance to Major

To be eligible for entrance to the Information Sciences and Technology (ISTBS) major, students must:

1. have completed the following entrance-to-major requirements with a grade of C or better in each: IST 110; IST 140 (or equivalent CMPSC 101 or CMPSC 121) IST 210; and IST 220.
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor's and master's degree in a shorter period of time than would be necessary if the degrees were pursued separately. Information Sciences and Technology undergraduates may apply for admission to the ISTBS/ISTMS IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.
For Schreyer Honors College students, students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. Thesis or scholarly paper credits may not double-count.

**Degree Requirements**

For the Bachelor of Science degree in Information Sciences and Technology, a minimum of 125 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>84</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

12 credits are included in the Requirements for the Major.

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or part of major requirements.

**Requirements for the Major**

This includes 12 credits of General Education courses: 6 credits of GQ courses; 3 credits of GS courses, and 3 credits of GWS courses.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Integrated B.S. in Information Sciences and Technology / M.S. in Information Sciences and Technology**

The College of Information Sciences and Technology offers an integrated B.S./M.S. (IUG) program designed to allow academically superior students in the Information Sciences and Technology major to obtain...
both the bachelor’s in Information Sciences and Technology and M.S. degree in Information Sciences and Technology in a shorter period of time than would be necessary if the degrees were pursued separately. The first two to three years of undergraduate coursework follow the same undergraduate curriculum that other students follow in the Information Sciences & Technology major. Interested students may apply for admission to the IUG program no earlier than February 15 of their sophomore year and no later than February 15 of their junior year after completing a minimum of 60 credits. If admitted to the IUG, the final years of study include two graduate courses, IST 504 in the fall and IST 505 in the spring, plus six credits of research methods courses, twelve credits of graduate specialty courses, and six credits of graduate thesis (IST 600) or scholarly paper (IST 594).

(Note: For Schreyer Honors College students, those who complete the graduate thesis for the Master’s requirement may use the graduate thesis, itself, to fulfill the undergraduate honors thesis requirement, as well. Honors students who opt for the Master’s scholarly paper must also complete an undergraduate honors thesis.)

The integrated B.S. in Information Sciences and Technology/M.S. in Information Sciences and Technology (IUG) degree meets the needs of the most academically talented students in the Information Sciences and Technology undergraduate major. A proportion of these successful students wish to pursue graduate studies sometime after graduation. Offering the IUG benefits these students by offering an accelerated path to a graduate degree. Additionally, the IUG program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research leading to both the Bachelor’s and Master’s degree.

For the B.S. in Information Sciences & Technology/M.S. in Information Sciences and Technology IUG program, a minimum of 125 credits are required for the bachelor’s degree and 30 credits for the M.S. degree. Students admitted to the IUG program may double-count a maximum of 12 credits to their graduate and undergraduate degrees. The required 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate program. Students may choose an additional 6 credits to double-count for the undergraduate and graduate degrees from the following:

Graduate thesis or scholarly paper credits may not double-count.

The objectives of the Integrated Undergraduate Graduate Program include:

1. To offer highly qualified students the opportunity to earn two degrees in less time than it would take to do two sequential degrees. In particular, IUG students may count up to 12 credits towards both their B.S. and M.S. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.

**Admission Requirements**

To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Information Sciences and Technology Form, a transcript, and two letters of recommendation (both from faculty members) to the IST Graduate Programs Office. The Director of Undergraduate Academic Affairs, in consultation with the Graduate Programs Coordinator, will help undergraduate candidates determine a proposed sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Acceptance into the IST IUG program will be determined by the Graduate Recruitment Committee.

Information Sciences and Technology undergraduate majors may apply for admission as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by February 15 of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST.
5. Students must complete the Graduate School application (http://www.gradschool.psu.edu/apply/; CFDID=4347157&CFTOKEN=809212809140639-22E9BF85-AF21-D9DA-933F35E90FB10EAB&jsessionid=84304e7b7ae255ec9a524e5b1e591250183e) or scholarly paper (IST 594).
6. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
7. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
8. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
9. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for the IUG in the Schreyer Honors College: http://www.shc.psu.edu/students/iug/program/

In addition, applicants must apply to and be admitted to the Graduate School of the Pennsylvania State University at the time of their application to the IUG degree program. These admission standards are high, as it is thought the program will only be appropriate for students with high levels of academic skills. The program area does
have discretion in admitting Information Sciences and Technology majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted into the integrated program of study can apply for regular admission to the graduate program when they complete their undergraduate program of study.

**Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses**

Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. In their senior year, IUG students will take 6 credits of specified graduate work, courses IST 504 and IST 505, and 6 credits of methods courses. These 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate IST/B.S. support of option requirement. In their super senior year, students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees. These courses must be at the 400-level or above. Students may choose any 400-level undergraduate option course (see below) that they are using to fulfill an undergraduate option requirement and apply the credits to both the undergraduate option requirement and the graduate specialty course requirement.

Credits associated with the thesis or culminating scholarly paper, i.e., IST 600 and IST 594, may not be double-counted. However, for Schreyer Honors College students, the Master’s thesis deliverable, itself, may double-count for the undergraduate thesis deliverable requirement.

Total Credits 30

<sup>1</sup> Choose graduate level methods course after consultation in advance with the student’s faculty adviser.

Choose any 400 or 500 level course that contributes to the student’s chosen area of specialty with a maximum of six credits at the 400 level.

The total resulting credits will be a minimum of 155 credits, with 125 credits completed for the undergraduate IST degree. Twelve graduate credits will be completed in the senior year, and the remaining 18 graduate credits will be completed in the super senior year.

If for any reason a student admitted to the B.S./M.S. program is unable to complete the requirement for the Master of Science degree program in Information Sciences and Technology, the student will be permitted to receive the Bachelor’s degree assuming all degree requirements have been satisfactorily completed.

Student performance will be monitored on an ongoing basis by the student’s adviser and Graduate Programs. Students admitted to the integrated program must maintain a minimum cumulative GPA of a 3.3 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See information on Grade-Point Average in the Graduate Bulletin: http://bulletins.psu.edu/graduate/degreerequirements/masters). For Schreyer Honors College students in the IUG program, students must maintain a minimum cumulative GPA of 3.4 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. Successful completion of a Schreyer Scholar’s Master’s thesis will be accepted as completion of the honors thesis requirement.

**Beaver, Brandywine, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, and York Campuses**

**Knowledge/Application:**

1. Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences.
   a. Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA.
   b. Apply the core concepts of the academic majors of IST and/or SRA to real-world problems.

**Problem-Solving:**

1. Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
   a. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions.
   b. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation.
   c. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
   d. Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information based solution.
   e. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).

**Communication (Individual and Team):**
1. Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
   a. Participate effectively on teams in order to accomplish a common goal.
   b. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word.
   c. Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people.
   d. Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status).

Professional Responsibilities:

1. Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.
   a. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem.
   b. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.

Lifelong Learning:

1. Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
   a. Employ information-seeking strategies and self-directed learning in pursuit of current knowledge.
   b. Enroll in professional development and tutoring opportunities.

Wilkes-Barre Campus

1. Define and explain the core concepts, principles, processes, and theories within the academic majors of IST.
2. Apply the core concepts of the academic majors of IST to real-world problems.
3. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions.
4. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation.
5. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
6. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
7. Participate effectively on teams in order to accomplish a common goal.
8. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word.
9. Analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people.
10. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem.
11. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.
13. Enroll in professional development and tutoring opportunities.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Technology and Integration Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.
Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Course is not required for graduation but strongly encouraged as an elective course prior to registering for IST 495

2 One internship for credit is required to complete degree requirements. A maximum of three internships for credit are allowed. Students are encouraged to schedule and complete during summer, though an internship can be scheduled and completed any semester, with Internship Coordinator approval, following the first year.

Integration and Application Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Advising Notes:
- SRA 111 is not required, but highly recommended
- For the B.S. degree in Information Sciences and Technology, a minimum of 125 credits is required.
- In consultation with advisor
- Summers: Supervised work experience where the student is employed in an information science and technology position in industry, government, or academia. All IST students are required to take at least one internship and make take as many as three.
- *Course requires a grade of C or better for the major
- †Course requires a grade of C or better for General Education
- #Course is an Entrance to Major requirement
- ‡Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:
- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

### New Kensington Campus

**Integration and Application Option**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 125

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes

All students are required to complete a 300-hour internship, which is a mentored work experience where the student is employed in an information sciences and technology position in industry, government or academia. Students may complete the internship after their first semester and may complete as many as three internships during their academic career.

Advising Notes

• A student’s career/graduate school plans should be considered in developing an individual academic plan. Be sure to consult an advisor in this department when scheduling courses.
• This is a recommended academic plan and degree requirements for major (and options) may change periodically. Students should consult with their academic advisor once a semester to keep abreast of new degree requirements and course offerings.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes

- Scheduling patterns for courses not taught each semester: Some major/option courses are offered only fall or spring semester, as listed on guide.
- Depending on the placement test, students may be required to start with MATH 4, 21, or 22. Since MATH 110 is a prerequisite for IST 230, students who are required to start with MATH 4, 21, or 22 must plan their math sequence carefully in order to graduate in four years.
- Sample Foreign Cultures: ANTH 45, CMLIT 3, FR 139, GER 100, SPAN 130, 131, all IL designated courses count.
- Sample Support Courses: (12 credits required) ECON 102, 104, MGMT 301, SOC 1. Students may take up to two 100-level courses and are required to take one 400-level course.
- Integration & Application Option: Required courses (9 credits): IST 302, 420, 421.
Design and Development Option
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

# Course satisfies General Education and degree requirement

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.
Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes

- **Scheduling patterns for courses not taught each semester:** Some major/option courses are offered only fall or spring semester, as listed on guide.
- Depending on the placement test, students may be required to start with MATH 4, 21, or 22. Since MATH 110 is a prerequisite for IST 230, students who are required to start with MATH 4, 21, or 22 must plan their math sequence carefully in order to graduate in four years.
- **Sample Foreign Cultures:** ANTH 45, CMLIT 3, FR 139, GER 100, SPAN 130, 131, all IL designated courses count.
- **Sample Support Courses:** (9 credits required) ECON 102, 104, MGMT 301, any SRA course, SOC 1 1. Students may take up to two 100-level courses and are required to take one 400-level course.
- **Design & Development Option:** Required courses (12 credits): IST 311 and 6 credits from IST 411, 412 and/or 413 and 3 credits from IST 261 or IST 361.
- **Note:** There are limited opportunities for students to use one course to satisfy more than one requirement. Contact your academic adviser for details.
- IST 495 (internship) may be spread over several semesters (consult with IST internship adviser)

International Studies, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.
Program Description

Today's students, whatever their career path, will enter a workforce that's increasingly diverse. We need to prepare our students to respect non-American cultures and people so they gain an international outlook. The Certificate in IS is intended to provide students with a broad and deep understanding of this diverse world far beyond the General Education requirements. Students will be better suited to face the challenges and enjoy the opportunities presented by others, both in and outside the United States, who come from a variety of nations and cultures.

What is International Studies?

International Studies is a broad field that engages with various issues related to global history, culture, politics, and arts. It is an interdisciplinary field that allows students to look at specific academic fields from a multinational perspective.

You Might Like This Program If...

You are interested in learning more about a variety of cultures, increasing your cultural literacy, applying your global competencies to your career plans, academic major, or current workplace experiences.

Program Requirements

To earn an undergraduate certificate in International Studies, a minimum of 12 credits is required.

Students must earn a C or higher for all 12 credits. XXX497 Special topics, or Independent Study/Research 494/496 can be used to satisfy 400 level course, subject to approval by coordinator.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Introduction to Business Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The introduction to business management certificate provides a strong foundation in core business areas (management, accounting, communications and technology).

What is Introduction to Business Management?

Business Management includes the performance or management of business operations and decision making, as well as the efficient organization of people and other resources.
You Might Like This Program If...

- You desire to add business skills to your major program of study.
- You are looking for a well-rounded introduction to basic business concepts.

Program Requirements

To earn an undergraduate certificate in Introduction to Business Management, a minimum of 16 credits is required.

Introduction to Corporate Communication, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Introduction to Corporate Communication certificate program is designed for those considering a degree in the field. It is also applicable for those currently employed in the field without a formal credential. The certificate includes courses intended to develop understanding of the oral and written communication strategies that result in effective communication in a professional environment.

What is Introduction to Corporate Communication?

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and front line professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience's needs, tastes, and interests.

You Might Like This Program If...

- You are creative.
- You want to enhance your degree program but building strong skills in writing and speaking.

Program Requirements

To earn an undergraduate certificate in Introduction to Corporate Communication, a minimum of 15 credits is required.

Introduction to Rehabilitation and Human Services, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Introduction to Rehabilitation and Human Services certificate is designed for individuals considering a degree and/or employment in the human services field. Courses provide foundation knowledge in the discipline and prepare students to transition to a baccalaureate degree in Rehabilitation and Human Services and/or seek entry-level employment with a human services organization. Certificate holders may work for agencies providing services to persons with physical, emotional, or mental disabilities. They may pursue employment in a variety of settings including rehabilitation centers, drug and alcohol programs, community mental health programs, intellectual disability programs, corrections systems, and hospitals. Courses include: Disability Culture, Adolescent Development, Intro to Psychology, and Intro to Sociology.

What is Introduction To Rehabilitation and Human Services?

Rehabilitation and Human Services addresses human needs, focusing on prevention as well as remediation of problems, intended to improve the quality of life for various populations.

You Might Like This Program If...

• You enjoy working closely with people.
• You are interested in health, disability and wellness.
• You want a short-term foundation for working in a human service setting.
• You want to add skills to your major program of study.

Program Requirements

To earn an undergraduate certificate in Introduction to Rehabilitation and Human Services, a minimum of 12 credits is required.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the
The objectives of the Letters, Arts, and Sciences major are to broaden the student’s understanding, interests, and skills; to help the student become a more responsible, productive member of the family and community; and to offer a degree program with sufficient electives to permit some specialization according to the student’s interests or career plans. Letters, Arts, and Sciences is a complete two-year degree major. However, graduates who later seek admission to baccalaureate degree majors may apply baccalaureate credits toward the new degree.

In addition to a wide variety of baccalaureate majors offered at University Park campus, graduates of the Letters, Arts, and Sciences major may qualify for admission to the baccalaureate degree majors in Behavioral Sciences, Elementary Education, Humanities, or Public Policy offered at Penn State Harrisburg. Or they may qualify for any of a large number of baccalaureate degree majors offered by Penn State Erie, The Behrend College, in business, the liberal arts, and sciences.

**Entrance to Major**

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

**Degree Requirements**

For the Associate in Arts degree in Letters, Arts, and Sciences, a minimum of 60 credits is required:

<table>
<thead>
<tr>

<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2641) section of the Bulletin and consult your academic adviser.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

**Knowledge Domains**

- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

**Foundations or Knowledge Domains**

- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

6 of these 21 credits are included in the Requirements for the Major.
University Degree Requirements

Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 82-44). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
This includes 6 credits of General Education GWS courses.

The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Letters, Arts, and Sciences, it is strongly recommended that a foreign language be taken since admission to a bachelor of arts program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a foreign language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Letters, Arts, and Sciences checksheet, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Letters, Arts, and Sciences representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

| Select 3 credits in any course designated as arts | 3 |
| Select 3 credits in any course designated as humanities | 3 |
| Select 3 credits in any course designated as social and behavioral sciences | 3 |
| Select 3 credits in any course designated as physical, biological, or earth sciences | 3 |
| Select 9 credits in any one of the following areas: arts, humanities, social and behavioral sciences, natural sciences and quantification, and foreign language skills | 9 |

1 If foreign language courses are chosen, it is recommended that these courses be in one foreign language sequence.

Program Learning Objectives

Brandywine Campus
1. Students will be able to communicate clearly and persuasively the integration of their learning of multiple disciplines in a degree program that reflects their theme.
2. Students will be able to apply empirical or creative process specific to their fields of specialization.
3. Students will be able to synthesize multiple disciplinary perspectives into an intellectual or professional identity.
4. Students will be able to engage meaningfully and respectively with others who have different perspectives or world views.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

**Brandywine Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major  
‡ Course requires a grade of C or better for General Education  
# Course is an Entrance to Major requirement  
† Course satisfies General Education and degree requirement  

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better. Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

Advising Notes:

- The associate degree in Letters, Arts, and Sciences (2LAUC_AA) is a degree which allows learners to experience a variety of academic disciplines as well as prepare for continued studies in a bachelor degree program.
- Please consult your adviser if you have a particular bachelor degree in mind.
- Your adviser can help build a plan to help you meet any admission or course prerequisite requirements for the bachelor degree.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
† Course is an Entrance to Major requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses can be completed for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Advising Notes:**

- As long as one GA, GH, and GS are taken, the order in which they are completed is not important.
- A student’s career and graduate school plans should be considered when developing an individual academic plan.
- Be sure to consult an adviser in this department when scheduling courses.

Letters, Arts, and Sciences, B.A. (University College)

Begin Campus: Any Penn State Campus

End Campus: Brandywine, DuBois, Greater Allegheny, Hazleton, Mont Alto, Shenango, Scranton

Program Description

Letters, Arts, and Sciences is a multi-disciplinary, theme-oriented, and student-designed major leading to a bachelor of arts degree. The major consists of 36 credits, divided into two sections. The core (12 credits) consists of 3 credits each in the following: research methods/projects; communication skills; theory/application; and critical analysis. The additional courses (24 credits) consist of courses directed toward the student's theme, 15 credits of which must be at the 400 level.

Early Admission Program for Professional Schools

If a student is accepted and enrolled as a degree candidate in a professional postgraduate degree program requiring three years or more to complete (such as medical school, dental school, law school, theological seminary, etc.) and if that student completes 94 undergraduate credits at Penn State including General Education, B.A. requirements, and the LAS 12-credit core requirements, that student may use up to 30 credits from the professional school to complete the B.A. in LAS.

It must be emphasized that only top students are accepted into professional school programs on such an early admission basis and that not every professional school has such a policy. Students must have enrolled in LAS prior to attending the professional school to request graduation in LAS.

What is Letters, Arts, and Sciences?

You can customize a Bachelor’s Degree in Letters, Arts, and Sciences to fit your area of interest. The 120-credit online program allows you to focus on developing your skills in communication and analysis along with your leadership abilities. You will work closely with your adviser to design a program that creates intellectual depth in an area of study that is unique to your interests, but also aligns with the theoretical foundation of a liberal arts degree. The goal of the Bachelor’s degree in Letters, Arts and Sciences is to provide a broad education that introduces methods of analysis used in the liberal arts disciplines. In addition, it can also prepare you to address the complex social, cultural, ethical, and organizational issues you may face in leadership positions.

You Might Like This Program If...

You have not earned an undergraduate degree, you wish to complete a degree or you wish to customize a degree to fit your career goals.

Entrance To Major

In order to be eligible for entrance to the major, the student must submit a proposal. In consultation with an LAS adviser, the student formulates a proposal designing a program that investigates a theme from the viewpoint of at least three different subject areas. Students may not duplicate existing majors from any academic area. An important standard for entrance to the Letters, Arts, and Sciences major is the student’s ability to design a program with academic integrity worthy of a bachelor of arts degree.

Degree Requirements

For the Bachelor of Arts degree in Letters, Arts, and Sciences, a minimum of 120 credits is required:

<table>

<td>36</td>
</tr>
</tbody>
</table>

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing
intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2642) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences(GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

---

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2636).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

3 of these 24 credits are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**Requirements for the Major**
Courses must be selected in consultation with an adviser.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

---
Program Learning Objectives
Brandywine, Hazleton, Mont Alto, Scranton, and Shenango Campuses

1. Students will be able to communicate clearly and persuasively the integration of their learning of multiple disciplines in a degree program that reflects their theme.
2. Students will be able to apply empirical or creative process specific to their fields of specialization.
3. Students will be able to synthesize multiple disciplinary perspectives into an intellectual or professional identity.
4. Students will be able to engage meaningfully and respectively with others who have different perspectives or world views.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.
