The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits
Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in International Politics and Master's in International Affairs (M.I.A.)

Available at the following campuses: University Park

The integrated undergraduate-graduate (IUG) degree program (B.A. in International Politics/M.I.A. in International Affairs) will provide an opportunity for strong students in International Politics to complete a Master's degree with 5 total years of study.

The demand for graduate training in international affairs will grow significantly in the near future along with the burgeoning requirements for international knowledge and professional experience in commerce, humanitarian service, and public affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations.

The IUG degree in International Affairs and International Politics is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs' existing collaborations and interactions with the College of the Liberal Arts.

Admission Requirements

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferment of the undergraduate degree, as specified in the proposed IUG plan of study.

Specific requirements:

1. Must be enrolled in the International Politics B.A. program.
2. Must apply to and be accepted without reservation into the Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application (http://gradschool.psu.edu/apply/?CFId=20967058/#38;CFTOKEN=79c106cbee352d5e-5CA02A46-B46D-2304-B27051FD16FEB49). All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of the undergraduate program/department.

M.I.A. Requirements for the Integrated B.A./M.I.A.

The M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 credits at the 400 level or higher, at least 18 of which are from six core courses consisting of:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTAF 801</td>
<td>Actors, Institutions, and Legal Frameworks in International Affairs</td>

<td>Global Cultures and Leadership</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 590</td>
<td>Colloquium</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either:

1. a master's paper; or
2. a supervised internship placement.

If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master's paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows:

1. four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale);
2. native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or
3. performance on a proficiency evaluation sufficient to equal four semesters of language learning: for this purpose, either Penn State's proficiency certification process or another pre-approved proficiency assessment may be used.

Language study does not provide credits towards the degree.

Total Credits 57

1 The following 12 credits may be double counted toward the B.A. and the M.I.A.: PLSC 415, PLSC 441, PLSC 550, PLSC 554.

Tuition Charges, Grant-in-Aid and Assistantships

Students admitted to the School of International Affairs through the IUG with International Politics may be considered to receive financial assistance.

Program Learning Objectives

Knowledge:

1. Students will develop substantive knowledge of the discipline of Political Science.
   a. Students will be able to define and use the concepts political scientists employ to make and substantiate knowledge claims.
b. Students will be able to describe the central debates and theoretical frameworks of political science and international politics.

2. Students will develop knowledge about how political scientists use empirical analysis to gain insight into political and social processes, to advance political and social goals, and to evaluate the effects of programs and policies.
   a. Students will be able to explain multiple approaches to empirical research, such as large-scale observational research, experiments, surveys, case studies, formal modeling, and elite interviewing.
   b. Students will be able to describe both the application, and the advantages and disadvantages of different research methods in relation to particular problems.

Argumentation/Communication:

1. Students will develop the ability to create coherent, persuasive, and empirically grounded oral and written arguments.
   a. Students will be able to construct and defend logical arguments.
   b. Students will be able to present evidence to support empirical claims.
   c. Students will be able to communicate ideas effectively in conformity with academic standards.

2. Students will develop the ability to systematically analyze problems and draw evidenced based inferences. Students in different majors will accomplish this with different emphases depending on the courses they take as part of the BA/BS.
   a. Bachelor of Arts students in PLSC and INTPL will analyze problems and draw evidence based inferences using a broad range of techniques according to programmatic focus and individual preference.
   b. PLSC Bachelor of Science majors will analyze problems and draw inferences using various data sources and statistical tools.
   c. PLSC SO DA majors will analyze problems and draw inferences using computational tools appropriate to large complex data sets.

Critical Synthesis/Application:

1. Students will develop the ability to combine the substantive knowledge, modes of inquiry, and analytic skills learned in the classroom to address contemporary problems in an uncertain world.
   a. Students will be able to draw upon political science research to construct testable explanations of novel situations.
   b. Students will be able to weigh the arguments, evidence and inferences used to address problems under conditions of uncertainty.

2. Students will develop ethical reasoning and citizenship skills to participate in a global, pluralistic society.
   a. Students will be able to trace the possible ethical implications of public policies and political structures and their consequences for democratic political values.
   b. Students will be able to articulate the goals, conditions, and challenges of democracy and describe the roles of citizens and public officials in manifesting and preserving democratic values.
   c. Students will be able to critically evaluate the values inherent in the exercise of power through political systems, social structures, information, and collective action.

---

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### University Park Campus

#### International Political Economy Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- † Course requires a grade of C or better for General Education
- ‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

International Relations Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). ### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### National Security Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Career Paths

Employment opportunities have grown steadily for international politics graduates due to the global integration of political and economic activity and the increasingly global scale of both human problems and efforts to solve them. The ability to navigate across cultures, as well as a knowledge of foreign governments, legislative processes, international organizations, terrorism and conflict, and economic development are vital to the fields of business, finance, journalism, and activism for social change at the global level. The BA in International Politics prepares people for governmental and non-governmental jobs, as well as positions in multinational corporations, banks, consulting firms, and international organizations.

### Careers

Graduates of the program have pursued careers with the federal government in positions with the CIA, the military, U.S. embassies, and the Department of Commerce. Others work for international organizations such as the United Nations, UNICEF, and the Red Cross as well as in international business and legislative affairs.

### Italian, B.A.

**Begin Campus:** Any Penn State Campus  
**End Campus:** University Park

### Program Description

The major offers training in the skills required for fluency in Italian and knowledge in Italian culture, civilization, and literature. Its aim is to open to the student both the traditions of one of the major formative components of the Western world and the continuing vitality of modern Italian and Italian-American life.

As one of the humanistic programs of the College of the Liberal Arts, the Italian major prepares students for rewarding and unique careers in business, media, travel, ministry, banking, and education. In addition, the federal government employs liberal arts graduates with foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. The Italian major is also preparatory for graduate work directed to the Ph.D. degree required for teaching and research in colleges and universities. Students with degrees in the humanities are particularly successful applicants to professional schools, such as law and medicine.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

---

As one of the humanistic programs of the College of the Liberal Arts, the Italian major prepares students for rewarding and unique careers in business, media, travel, ministry, banking, and education. In addition, the federal government employs liberal arts graduates with foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. The Italian major is also preparatory for graduate work directed to the Ph.D. degree required for teaching and research in colleges and universities. Students with degrees in the humanities are particularly successful applicants to professional schools, such as law and medicine.
What is Italian?

Italian is the voice of one of the formative cultural traditions of the Western world. The study of Italy and its language offers a rigorous, interdisciplinary exploration of the continuing vitality of modern Italian and Italian American culture though literature, cinema, translation studies, the arts, Roman thought, fashion, tourism, Mediterranean cuisine, and much more. Italian, in its humanistic breadth and depth, offers students access to a wide variety of professional pathways through an emphasis on global communicative understanding and cultural sensitivity. Italian is increasingly important in business; six of the 100 biggest companies are headquartered in Italy, and Italy is the world’s fifth largest industrial producer of goods. Learning a foreign language also improves oral and written skills in English interactions. Penn State’s Italian program is small, and prides itself on its capacity to provide individual attention and mentoring to each of its majors and minors.

You Might Like This Program If...

• You enjoy learning languages and communicating with people from a particularly rich cultural civilization.
• You dream of studying abroad. More Penn State students currently study in Italy than in any other nation of the world, and you will enjoy more memorable experiences with a deeper preparation through advanced coursework in Italian.
• You wish to learn more about the roots of your family heritage and traditions.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: Entrance to and Changes in Major Programs of Study (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Arts degree in Italian, a minimum of 122 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>17</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-graduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-graduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives
The linguistic objectives for students who have completed an undergraduate major in Italian are as follows:

- Students will, ideally, have spent at least six weeks in Italy immersed in the target language and its culture.
- Students will have developed oral skills in Italian that allow them to communicate effectively and accurately in a range of settings.
- Students will have developed literacy skills that allow them to read and understand texts in a variety of media ranging from newspapers to literary texts and formal academic prose.
- Students will have developed a cultural awareness that allows them to interact well with Italians in informal and formal situations and to use knowledge of target culture to interpret texts read, heard or viewed in Italian or English.
- Students will, ideally, have spent at least six weeks in Italy immersed in the target language and its culture.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:
Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World
Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:
All incoming first-year students must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Career Paths
Because the study of Italian comprises advanced-level language proficiency and the development of cultural understanding, critical thinking, and communicative capacities, successful Penn State students have gone on to pursue many professions. In the Italian program, majors and minors have access to:

- Individualized advising aimed at integrating complementary majors/minors, study abroad, and internship opportunities.
- Italian-specific fellowships, prizes, and capstone project opportunities to ready them for future goals.
- Mentorship that connects Italian students with alumni who have applied successfully to graduate schools, participated in Fulbright/Peace Corps/Teach for America/etc., or are making contributions in the career path of particular interest.

Careers
As a humanistic program in the liberal arts, Italian is not designed to be directly vocational. Italian prepares students to access a wide array of rewarding and unique careers, including those related to international business, travel, journalism, ministry, diplomacy, banking, science fields, the arts, and education. The federal government employs graduates with advanced foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. Students with degrees in the humanities are also particularly successful applicants to graduate and professional schools, such as law, business, and medicine.

Opportunities for Graduate Studies
Any of the three baccalaureate degree options in Italian (the Bachelor of Arts in Italian Language and Literature, the Bachelor of Arts in Italian Studies, or the Bachelor of Science in Applied Italian) can serve as the foundation for graduate studies in Italian, as well as other humanistic, social science, and STEM disciplines. Italian can also lead to advanced professional degrees in business, educational administration, law, and medicine.

Italian, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
Italian is the voice of one of the formative cultural traditions of the Western world. The study of Italy and its language offers a rigorous, interdisciplinary exploration of the continuing vitality of modern Italian and Italian American culture through literature, cinema, translation studies, the arts, Roman thought, fashion, tourism, Mediterranean cuisine, and much more. Italian, in its humanistic breadth and depth, offers students access to a wide variety of professional pathways through an emphasis on global communicative understanding and cultural sensitivity. Learning a foreign language also improves oral and written skills in English interactions. The Italian B.S. encourages students to develop skills in Italian (speaking, reading, writing) in preparation for careers in professional areas where fluency in Italian is particularly relevant and useful.

You Might Like This Program If...

- You enjoy learning languages and communicating with people from a particularly rich cultural civilization.
- You dream of studying abroad. More Penn State students currently study in Italy than in any other nation of the world, and you will enjoy more memorable experiences with a deeper preparation through advanced coursework in Italian.
- You wish to learn more about the roots of your family heritage and traditions.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Science degree in Italian, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>51</td>
</tr>
</tbody>
</table>

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major
to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.

Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives

The linguistic objectives for students who have completed an undergraduate major in Italian are as follows:

- Students will have developed oral skills in Italian that allow them to communicate effectively and accurately in a range of settings.
- Students will have developed written skills in Italian that allow them to communicate effectively and accurately in a range of settings.
- Students will have developed literacy skills that allow them to read and understand texts in a variety of media ranging from newspapers to literary texts and formal academic prose.
- Students will have developed a cultural awareness that allows them to interact well with Italians in informal and formal situations and to use knowledge of target culture to interpret texts read, heard or viewed in Italian or English.
- Students will, ideally, have spent at least six weeks in Italy immersed in the target language and its culture.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Italian, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Italian minor offers training in the skills required for fluency in Italian and knowledge in Italian culture, civilization, and literature. Its aim is to open to the student both the traditions of one of the major formative components of the Western world and the continuing vitality of modern Italian and Italian-American life.

As one of the humanistic programs of the College of the Liberal Arts, the Italian minor is not designed to be directly vocational. Nevertheless, rigorous training in this minor can prepare students for rewarding and unique careers in business, travel, ministry, diplomacy, banking, science fields, the arts, and education. The federal government employs graduates with advanced foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. Students with degrees in the humanities are also particularly successful applicants to graduate and professional schools, such as law, business, and medicine.
major and for study abroad, as well as graduate work directed to the Ph.D. degree required for teaching and research in colleges and universities. Students with backgrounds in the humanities are particularly successful applicants to professional schools, such as law and medicine.

What is Italian?
Italian is the voice of one of the formative cultural traditions of the Western world. The study of Italy and its language offers a rigorous, interdisciplinary exploration of the continuing vitality of modern Italian and American culture though literature, cinema, translation studies, the arts, Roman thought, fashion, tourism, Mediterranean cuisine, and much more. Italian, in its humanistic breadth and depth, offers students access to a wide variety of professional pathways through an emphasis on global communicative understanding and cultural sensitivity. Italian is increasingly important in business; six of the 100 biggest companies are headquartered in Italy, and Italy is the world’s fifth largest industrial producer of goods. Learning a foreign language also improves oral and written skills in English interactions. Penn State’s Italian program is small, and prides itself on its capacity to provide individual attention and mentoring to each of its majors and minors.

You Might Like This Program If...
• You enjoy learning languages and communicating with people from a particularly rich cultural civilization.
• You dream of studying abroad. More Penn State students currently study in Italy than in any other nation of the world, and you will enjoy more memorable experiences with a deeper preparation through advanced coursework in Italian.
• You wish to learn more about the roots of your family heritage and traditions.

Japanese Language, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Japanese is intended to provide students with a good working knowledge of the Japanese language, culture, and society in order to broaden their horizons and sharpen their awareness in internationalism and globalization. Students undertake three years of language and culture/film/literature study (or equivalent); education abroad can be included.

What is Japanese?

The Japanese program provides students with an opportunity to concentrate on acquiring expertise in an important modern language and its culture. Giving students a strong working knowledge of the Japanese language and understanding of Japanese culture, the program can help prepare students for work in contexts where the language and culture are pertinent, to live and work in Japan as informed and capable individuals equipped with appropriate intercultural skills and awareness, or for graduate study in Japan-related fields. Graduates may work in government service, domestic and foreign offices, or international agencies. Many go on to teach English in Japan or to do translation work. Employment may also be available with trade organizations, international banking houses, or U.S. companies abroad. Domestic and multinational companies are increasingly seeking employees with backgrounds in multicultural studies as a way of dealing with the global market.

You Might Like This Program If...

• You want to live or work in Japan.
• You are interested in Japanese language, culture, history, or society.
• You want to live or work in Japan.
• You are aiming for a career involving travel to Japan and interaction with native speakers of Japanese.

Japanese, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
The major in Japanese strengthens students’ overall skills in internationalism and provides a focus on one of the world’s most important nations. The Japanese major is designed for students who want to develop proficiency in speaking, listening, reading, and writing Japanese, and acquire profound knowledge of Japanese culture, history, and civilization in the context of East Asia.

The Japanese major requires students to study abroad in order to deepen their understanding of the language, culture and contemporary society, and to develop intercultural and comparative perspectives.

The major can also help students prepare for graduate study in Japan-related fields and professional careers where proficiency in Japanese is required, such as government services, or multinational companies.

Students planning to teach in public schools should schedule the appropriate courses leading to certification in consultation with an adviser in the College of Education.

What is Japanese?
The Japanese program provides students with an opportunity to concentrate on acquiring expertise in an important modern language and its culture. Giving students a strong working knowledge of the Japanese language and understanding of Japanese culture, the program can help prepare students for work in contexts where the language and culture are pertinent, to live and work in Japan as informed and capable individuals equipped with appropriate intercultural skills and awareness, or for graduate study in Japan-related fields. Graduates may work in government service, domestic and foreign offices, or international agencies. Many go on to teach English in Japan or to do translation work. Employment may also be available with trade organizations, international banking houses, or U.S. companies abroad. Domestic and multinational companies are increasingly seeking employees with backgrounds in multicultural studies as a way of dealing with the global market.

You Might Like This Program If...
- You are interested in Japanese language, culture, history, or society.
- You want to live or work in Japan.
- You are aiming for a career involving travel to Japan and interaction with native speakers of Japanese.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37:30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Arts degree in Japanese, a minimum of 124 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>20-26</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>35</td>
</tr>
</tbody>
</table>

0-6 of the 45 credits for General Education are included in the Requirements for the Major. This includes 0-6 credits of General Education GA, GH, or GS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83:80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.
B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

At least 21 credits must be at the 400 level.

Students are strongly encouraged to take at least 12 of their credits in Japan, either in a Penn State Education Abroad program or another program subject to departmental approval. For curricular sequencing, the program encourages students to pursue this Education Abroad experience in the fall semester of the junior year, unless the host institution runs on the Japanese academic schedule, in which case study abroad should be in the spring semester, or for the entire year.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Additional Courses

Additional Courses: Require a grade of C or better

Select 3 credits from the JAPNS 430-439 level

Select 3 credits from the JAPNS 450-459 level

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 6 credits pertaining to Japan, such as courses in art history, comparative history, geography, history, Japanese, philosophy, political science, religious studies, theatre arts, or other fields, selected from departmental list

Foundation (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
**Integrated Undergraduate-Graduate (IUG) Degree Program B.A. in Japanese and Master of International Affairs (M.I.A.)**

The integrated undergraduate-graduate (IUG) degree program (B.A. in Asian Studies, Chinese, or Japanese/M.I.A. in International Affairs) provides an opportunity for strong students in these majors to complete a master's degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply.

The integrated degree program prepares students for a variety of careers requiring an interdisciplinary background in Asian Studies or Asian languages and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Master of International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

**Admission Requirements**

Admission requirements listed here are in addition to requirements stated in the GENERAL INFORMATION (http://bulletins.psu.edu/graduate/generalinformation/) section of the Graduate Bulletin.

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferment of the undergraduate degree, as specified in the proposed IUG plan of study. Students must be admitted to the program prior to taking the first course they intend to count towards the graduate degree. Specific requirements:

1. Must be enrolled in the Asian Studies, Chinese, or Japanese B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application (http://gradschool.psu.edu/prospective-students/how-to-apply/). All applicants will submit GRE scores, two letters of recommendation, and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
5. Must provide written endorsement from the head of Asian Studies.

**M.I.A. Requirements for the Integrated B.A./M.I.A.**

Requirements listed here are in addition to requirements stated in the DEGREE REQUIREMENTS (http://bulletins.psu.edu/graduate/degerequirements/) section of the Graduate Bulletin.

M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 graduate credits, at least 18 of which are from six core courses consisting of

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTAF 801</td>
<td>Actors, Institutions, and Legal Frameworks in International Affairs</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 802</td>
<td>Foundations of Diplomacy and International Relations Theory</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 803</td>
<td>Multi-sector and Quantitative Analysis</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 804</td>
<td>Global Cultures and Leadership</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 590</td>
<td>Colloquium</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining credits are attained through completion of the approved elective courses. A minimum of 6 credits must be at the 500-level.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either:

1. a master's paper; or
2. a supervised internship placement.

If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master's paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research.

If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows:

1. four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of B or better using a 4.0 scale); or
2. native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or
3. performance on a proficiency evaluation sufficient to equal four semesters of language learning: for this purpose, either Penn State's proficiency certification process or another pre-approved proficiency assessment may be used.

Language study does not provide credits towards the M.I.A. degree.

If students accepted into the IUG program are unable to complete the M.I.A. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

---

### Tuition Charges, Grant-in-Aid, and Assistantships

Students admitted to the School of International Affairs through the IUG with a B.A. in Asian Studies, Chinese, or Japanese may be considered to receive financial assistance. Students on graduate assistantships must adhere to the course load limits set forth in the Graduate Bulletin (http://gradschool.psu.edu/graduate-education-policies/gsad/gsad-500/gsad-501-credit-loads-graduate-assistants/).

---

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st field]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Career Paths

A B.A. in Japanese can be the basis for careers in the public sector (diplomatic corps, armed forces, intelligence, etc.), international law, business, public relations, journalism, travel and hospitality, careers requiring foreign travel or living abroad in Japan language specialist (translating, interpreting, teaching).

Careers

With a Japanese degree, you'll be prepared for a career in a wide range of industries and professions, including the public sector (diplomatic corps, armed forces, intelligence, etc.), international law, business, public relations, journalism, travel and hospitality, careers requiring foreign travel or living abroad in Asia, language specialist (translating, interpreting, teaching).

Opportunities for Graduate Studies

International Affairs programs, law, or the study of Asia in various disciplines, such as art history, literature, history, religion, philosophy, political science, and sociology.

Jewish Studies, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
The Jewish Studies major provides broad inquiry into the history, culture, society, literature, philosophy, politics, language, and religious beliefs of the Jewish people from Biblical times to the present. By nature interdisciplinary, and emphasizing critical thinking and global engagement, the Jewish Studies major is flexible and adaptable to a wide variety of courses of study. Students in the major must complete a total of thirty (30) credits, at least fifteen (15) of which must be at the 400-level. No more than eight (8) credits of Hebrew may count toward the 30-credit total. All students in the major must complete JST 10, an introduction to Jewish Civilization, and select from approved lists or in consultation with the Director three courses that address Jewish studies across its history:

- one course in Jewish Studies of the Ancient through the Medieval periods,
- one course in Jewish Studies of the Early Modern through the Contemporary periods, and
- one course in Jewish Studies of the Diaspora.

All students in the major are particularly encouraged to participate in a relevant internships, education abroad programs, and/or archaeological fieldwork for which course credits and scholarships are available. Penn State students also may enroll to study abroad at a university in Israel, and up to 15 credits of related education abroad courses in any country may be applied to requirements for the major in consultation with the adviser.

What is Jewish Studies?
Jewish Studies is an interdisciplinary program where students can learn about the history, cultures, literatures, and languages of the Jews. Specializations can include, but are not limited to, Modernity and the Jews; Ancient Israel, Bible, and Early Judaism; Holocaust, Anti-Semitism, and Genocide; Jews in America; Jewish Culture and Literature; Israel and Zionism; or Jewish-Christian Relations.

You Might Like This Program If...
- You want to think critically about the world we all live in.
- You have interest in experiences such as lectures, film series, symposia, discussions, and sponsored trips to museums and Jewish cultural sites.
- You hope to enrich your understanding of Jews, Judaism, and the Jewish experience.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Arts degree in Jewish Studies, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The Keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
• Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**
15 of these must be at the 400-level. No more than 15 credits in courses numbered 99, 199, 299, 399, or 499 may count toward the requirements for the major.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Code** | **Title** | **Credits**
--- | --- | ---
**Prescribed Courses** | Prescribed Courses: Require a grade of C or better | 3
JST/HEBR 10 | Jewish Civilization |
**Supporting Courses and Related Areas** | Supporting Courses and Related Areas: Require a grade of C or better | 3
Select 3 credits in Jewish Studies in the Ancient Period through Medieval Period from approved program list or in consultation with the director |
Select 3 credits in Jewish Studies from the Early Modern Period through the Contemporary period from approved program list or in consultation with the director |
Select 3 credits in Jewish Studies concerned with Jewish culture in Diaspora from approved program list or in consultation with the director |
Select 18 credits from Jewish Studies, Hebrew, or appropriate courses in Anthropology, Classics and Ancient Mediterranean Studies, Comparative Literature, English, History, Philosophy, or Religious Studies from approved program list |

No more than 8 credits of Hebrew Language courses may count toward the requirements for the major.

**Academic Advising**
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120
* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Interdisciplinary Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes
in policies, procedures, educational offerings, and requirements at any
time. This plan should be used in conjunction with your degree audit
(accessible in LionPATH as either an Academic Requirements or What If
report). Please consult with a Penn State academic adviser on a regular
basis to develop and refine an academic plan that is appropriate for you.

Jewish Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Jewish Studies is a flexible interdisciplinary minor for students interested in the study of Jewish history, thought, and culture. Historical coverage ranges from ancient Israel and the contemporary world. Specializations can include, but are not limited to

- Modernity and the Jews;
- Ancient Israel, Bible, and Early Judaism;
- Holocaust, Anti-Semitism, and Genocide;
- Jews in America;
- Jewish Culture and Literature;
- Israel and Zionism; or
- Jewish-Christian Relations.

What is Jewish Studies?
Jewish Studies is an interdisciplinary program where students can learn about the history, cultures, literatures, and languages of the Jews. Specializations can include, but are not limited to, Modernity and the Jews; Ancient Israel, Bible, and Early Judaism; Holocaust, Anti-Semitism, and Genocide; Jews in America; Jewish Culture and Literature; Israel and Zionism; or Jewish-Christian Relations.

You Might Like This Program If...
- You want to think critically about the world we all live in.
- You have interest in experiences such as lectures, film series, symposia, discussions, and sponsored trips to museums and Jewish cultural sites.
- You hope to enrich your understanding of Jews, Judaism, and the Jewish experience.

Supporting Courses and Related Areas
Select 15 credits in Jewish Studies, 6 credits of which must be at the 400 level

Up to 9 credits of education abroad courses selected in consultation with the adviser may be applied to the requirements for the minor. No more than 4 credits of Modern Hebrew may count toward the requirements for the minor.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Korean Language, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Korean Language Minor is intended to provide students with a good working knowledge of the Korean language, culture, and society in order to broaden their horizons and sharpen their awareness of Korea in this era of internationalism and globalization. Students undertake two to three years of language study (or equivalent); education abroad can be included.

What is Korean Language?
The Korean program provides students with an opportunity to concentrate on acquiring expertise in an important modern language and its culture. Giving students a strong working knowledge of the Korean language and understanding of Korean culture, the program can help prepare students for work in contexts where the language and culture are pertinent, to live and work in Korea as informed and capable individuals equipped with appropriate intercultural skills and awareness, or for graduate study in Korean-related fields. Graduates may work in government service, domestic and foreign offices, or international agencies. Many go on to teach English in Korea or to do translation work. Employment may also be available with trade organizations, international banking houses, or U.S. companies abroad. Domestic and multinational companies are increasingly seeking employees with backgrounds in multicultural studies as a way of dealing with the global market.

You Might Like This Program If...
- You are interested in Korean language, culture, history, or society.
- You want to live or work in Korea.
- You are aiming for a career involving travel to Korea and interaction with native speakers of Korean.

Labor and Human Resources, A.S.

Begin Campus: University Park, World Campus
End Campus: University Park, World Campus

Program Description
This Associate of Science (A.S.) degree in Labor and Human Resources permits students to undertake a study of work and the employment relationship in the context of a liberal arts education. An introductory foundation of theoretical and professional knowledge is provided through a multidisciplinary approach. The degree draws on the perspectives of disciplines such as industrial relations, economics, history, law, sociology, and psychology.

Graduates of the Labor and Human Resources A.S. degree program are equipped for employment in business, government, and labor organizations as labor relations assistants, personnel and human resource assistants, and payroll assistants. The degree is also appropriate preparation for the B.A. or B.S degree in Labor and Human Resources, or other social science or business Bachelors' degrees.

What is Labor and Human Resources?
Every day, 135 million Americans go to work and surprising stuff happens. Welcome to the world of human resources and labor relations! Labor and Human Resources focuses on subjects ranging from globalization and talent management, to unions and social justice, to gender equity and workers’ rights. It encompasses a variety of growing career areas, all of which address the complex social, cultural, and professional issues one is likely to encounter in modern workplaces. You will learn in a highly student-centered program with great faculty, wonderful resources, and an in-house career counselor for help as you approach completion.

You Might Like This Program If...
You want to earn a first-rate liberal arts education and a ticket to a satisfying, remunerative, and fascinating career, or continued study in one of our baccalaureate programs. Our great student groups are fun, encourage student professional development, and explore issues like voting rights, student debt, and immigration reform.

Entrance to Major
Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements
For the Associate of Science degree in Labor and Human Resources, a minimum of 60 credits is required:

<table>

</tbody>
</table>

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2727) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

Knowledge Domains
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**University Degree Requirements**

**Cultures Requirement**
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44). The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
A Labor and Human Resources education prepares students for many career opportunities and graduate studies. The majority of our grads work as human resource and employment relations (HRER) specialists—a growing field according to the U.S. Bureau of Labor Statistics. Others have gone on to work as labor union organizers, labor arbitrators, and professionals in non-profit careers. Virtually every employer—multinational corporations, small companies, hospitals, non-profit agencies, universities, and federal, state, and local governments—employ HRER professionals.

Careers
Labor and Human Resources grads do exceedingly well in the job market, and have been hired by a long list of companies (link below). For students interested in social and economic justice at work, a career with a union provides an opportunity to put your beliefs into actions. Our alums have gone on to work for national and international labor organizations and unions such as the AFL-CIO, United Steelworkers, and the American Federation of Teachers to name a few. Government agencies such as the National Labor Relations Board and the U.S. and state Departments of Labor regularly hire Penn State LER School grads.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE LABOR AND HUMAN RESOURCES PROGRAM (https://lser.la.psu.edu/careers/where-are-they-now/)

Opportunities for Graduate Studies
Along with three top Masters programs (M.S. and M.P.S. degrees in Human Resources and Employment Relations and an M.P.S. in Labor and Global Workers Rights, we offer a five-year Integrated Undergraduate Graduate (IUG) program through which you can earn your Bachelors and Masters degrees in a total of five years, instead of six years as can otherwise be needed. Students with a Masters degree land much better paying jobs in coveted. Many of our top performing IUG students receive assistantships that helps to pay their tuition.

Labor and Human Resources, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park, World Campus

Program Description
This major permits students to undertake a study of work and the employment relationship in the context of a liberal arts education. A broad foundation of theoretical and professional knowledge is provided through a multidisciplinary approach. The B.A. and B.S. degrees draw on the perspectives of disciplines such as industrial relations, economics, history, law, sociology, and psychology. This focus includes the nature and functions of the institutions involved in the employment relationship. The B.S. degree requires more course work in quantification than the B.A. degree.

Graduates of Labor and Human Resources are equipped for careers in business, government, and labor organizations as labor relations specialists, personnel and human resource specialists, researchers, organizers, consultants, and professionals in mediation and arbitration. The degree is also appropriate preparation for graduate study and law school.

What is Labor and Human Resources?
Every day, 135 million Americans go to work and surprising stuff happens. Welcome to the world of human resources and labor relations! Labor and Human Resources focuses on subjects ranging from globalization and talent management, to unions and social justice, to gender equity and workers’ rights. It encompasses a variety of growing career areas, all of which address the complex social, cultural, and professional issues one is likely to encounter in modern workplaces. You will learn in a highly student-centered program with great faculty,
wonderful resources, and an in-house career counselor for help as you approach completion.

You Might Like This Program If...
You want to earn a first-rate liberal arts education and a ticket to a satisfying, remunerative, and fascinating career. Our students receive tons of support! Recent courses have taken students to globally reputed workplaces in Silicon Valley, Ireland, China, and Sweden. Our students also land summer internships around the country and globe. Our great student groups are fun, encourage student professional development, and explore issues like voting rights, student debt, immigration reform.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

World Campus
Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Arts degree in Labor and Human Resources, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18-21</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>39</td>
</tr>
</tbody>
</table>

3-6 of the 45 credits for General Education are included in the Requirements for the Major. This includes 3-6 credits of GS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

SOC 119 Race and Ethnic Relations
Any 400-level AFAM, CAS, ECON, HIST, LTNST, MGMT, PHIL, PSYCH, SPAN, SOC, WMNST course

Program Learning Objectives
At the conclusion of their studies, LER undergraduates will be able to:

1. Summarize and explain the interrelationships among fundamental theories, concepts, facts, and issues involving labor, ER, and HR topics related to workplaces, workers, and their communities.
2. Analyze alternative approaches, solutions, and conclusions related to practical and legal challenges involving labor, ER, and HR by:
   a. Comparing and contrasting options.
   b. Identifying relative strengths and weaknesses of different approaches.
   c. Recognizing the interests and perspectives of different stakeholders including employees, employers, the public, and the organizations that represent them.
   d. Summarizing different disciplinary perspectives, such as those of sociology, psychology, political science, and economics.
   e. Evaluating and synthesizing relevant research and theories.
3. Demonstrate effective communication skills in two-way interactions with individuals and groups involving labor, ER, and HR facts, concepts, and principles in order to interact effectively with other stakeholders (referred to below as “communications skills”).
4. Solve multi-faceted problems in labor, ER, and HR by selecting, adapting (when necessary), and applying relevant knowledge and
skills to help develop, implement, and enforce organizational policies and strategies in domestic and global workplaces.

5. Respond to practical, legal, and ethical challenges in domestic and global workplaces in accordance with societal norms, values, mores, as well as professional and ethical standards. Be able to address ethical issues with appropriate recognition of human rights, social responsibility and sustainability principles.

6. Summarize the interactive impact of numerous cultural and international factors on work, workers, employers, and industries by synthesizing information about:
   a. National and transnational cultures and institutions.
   b. International businesses, global trade, foreign investments, and global business strategies.
   c. Global workers’ rights.
   d. Workplace diversity.
   e. Work-family and work-life dilemmas.
   f. Immigration.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
¹ Select 9 credits in additional language courses, GA, GH, GS, GN, or GQ to satisfy the BA Fields requirement
² Select 3 credits from approved Other Cultures list; course does not double-count as IL
³ Select 9 credits of LER courses; at least 6 credits must at the 400-level, but ALL may be at the 400-level; LER 460, LER 458Y, LER 488, and LER 489 do not apply here
University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Career Paths

Statistics. Others have gone on to work as labor union organizers, labor arbitrators, and professionals in non-profit careers. Virtually every employer—multinational corporations, small companies, hospitals, non-profit agencies, universities, and federal, state, and local governments—employ HRER professionals. Labor and Human Resources majors have gone on to graduate school earning advanced degrees in Human Resource Management, Law, Business, and Sociology.

Careers

Labor and Human Resources majors do exceedingly well in the job market, and have been hired by a long list of companies (link below). For students interested in social and economic justice at work, a career with a union provides an opportunity to put your beliefs into actions. Our alums have gone on to work for national and international labor organizations and unions such as the AFL-CIO, United Steelworkers, and the American Federation of Teachers to name a few. Government agencies such as the National Labor Relations Board, the U.S. and state Departments of Labor regularly hire Penn State LER School grads.

Opportunities for Graduate Studies

Along with three top Masters programs (M.S. and M.P.S. degrees in Human Resources and Employment Relations and an M.P.S. in Labor and Global Workers Rights, we offer a five-year Integrated Undergraduate Graduate (IUG) program through which you can earn your Bachelors and Masters degrees in a total of five years, instead of six years as can otherwise be needed. Students with a Masters degree land better paying jobs in coveted positions. Many of our top performing IUG students receive assistantships that helps to pay their tuition.

Labor and Human Resources, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park, World Campus

Program Description

This major permits students to undertake a study of work and the employment relationship in the context of a liberal arts education. A broad foundation of theoretical and professional knowledge is provided.
through a multidisciplinary approach. The B.A. and B.S. degrees draw on the perspectives of disciplines such as industrial relations, economics, history, law, sociology, and psychology. This focus includes the nature and functions of the institutions involved in the employment relationship. The B.S. degree requires more course work in quantification than the B.A. degree.

Graduates of Labor and Human Resources are equipped for careers in business, government, and labor organizations as labor relations specialists, personnel and human resource specialists, researchers, organizers, consultants, and professionals in mediation and arbitration. The degree is also appropriate preparation for graduate study and law school.

What is Labor and Human Resources?

Every day, 135 million Americans go to work and surprising stuff happens. Welcome to the world of human resources and labor relations! Labor and Human Resources focuses on subjects ranging from globalization and talent management, to unions and social justice, to gender equity and workers’ rights. It encompasses a variety of growing career areas, all of which address the complex social, cultural, and professional issues one is likely to encounter in modern workplaces. You will learn in a highly student-centered program with great faculty, wonderful resources, and an in-house career counselor for help as you approach completion.

You Might Like This Program If...

You want to earn a first-rate liberal arts education and a ticket to a satisfying, remunerative, and fascinating career. Our students receive tons of support! Recent courses have taken students to globally reputed workplaces in Silicon Valley, Ireland, China, and Sweden. Our students also land summer internships around the country and globe. Our great student groups are fun, encourage student professional development, and explore issues like voting rights, student debt, immigration reform.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

World Campus

Direct Admission to the Major

Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements

For the Bachelor of Science degree in Labor and Human Resources, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>23-27</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>61-62</td>
</tr>
</tbody>
</table>

7-10 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-6 credits of GS courses; 4 credits of GQ courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
Some courses have prerequisites that are not included in the major.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

*Penn State University*
Integrated B.S. in Labor and Human Resources and M.S. in Human Resources and Employment Relations (LHRHRER)

Available at the following campuses: University Park

The integrated LHR B.S. and HRER M.S. is a five-year program designed for academically talented baccalaureate students to obtain both the B.S. and the M.S. degrees in LHR and HRER with five years of study. Students will develop expertise in the human resources and employment relations fields beyond the B.S. degree. The undergraduate curriculum educates students about (1) the roles of employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship (3) and how to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for more individualized, focused learning in a concentrated sub-area of the HRER field. The program culminates with an M.S. capstone or thesis. Upon completion of the integrated degree, students will enter the workforce with advanced knowledge and expertise gained from conducting and analyzing empirical work and participating in seminar-style classes.

Admission Requirements

Admission to the integrated B.S./M.S. program will be limited to undergraduates with strong academic records. Applicants to the integrated program:

1. must be enrolled in the LHR B.S. program;
2. must complete the Penn State graduate degree application form and pay the application fee
3. must have completed 60 credits of the undergraduate degree program when they officially apply for the M.S. (it is strongly suggested that students apply to the program prior to completing 100 credits)
4. should have an overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in the major;
5. must obtain letters of recommendation from the chairs of the Department's undergraduate and graduate committees, and
6. must submit a writing sample, 2 transcripts, 1 letter of recommendation (in addition to those from the chairs of the Department's undergraduate and graduate committees), and a career statement.

No GRE or GMAT scores are required for admission to the program.

Graduate Coursework

12 credits may be applied to both undergraduate and graduate degree program requirements. Students can choose which 12 credits will double-count for both the undergraduate and graduate degrees from the following list:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LER 401</td>
<td>The Law of Labor-Management Relations</td>
<td>3</td>
</tr>
<tr>
<td>LER 400 or HRER 500</td>
<td>Comparative Employment Relations Systems or Topics in Comparative Industrial Relations</td>
<td>3</td>
</tr>
<tr>
<td>LER 403</td>
<td>International Human Resource Studies</td>
<td>3</td>
</tr>
<tr>
<td>or HRER 503</td>
<td>Seminar in International Human Resources Studies</td>
<td></td>
</tr>
</tbody>
</table>
A minimum of 50% of the double-counted credits must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted.

Students must sequence their courses so all undergraduate degree requirements are fulfilled before taking courses to count towards the graduate degree. If students accepted into the IUG program are unable to complete the M.S. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

**Integrated B.S. in Labor and Human Resources and M.P.S. in Human Resources and Employment Relations**

*Available at the following campuses: World Campus*

The integrated LHR B.S. and HRER M.P.S is a five-year program designed for academically talented World Campus baccalaureate students to obtain both the B.S. and the M.P.S. degrees in LHR and HRER in an intense, accelerated program of study. Students will develop expertise in the human resources and employment relations field beyond the B.S. degree. The undergraduate curriculum introduces students to (1) the roles employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, (3) the laws that form the legal framework for the employee-employer relationship, and (4) the tools needed to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for a more intensive, individualized, and focused examination of the human resources and employment relations field. It also provides an opportunity for students to explore a concentrated sub-area of the HRER field in depth. The program culminates with a research project which is completed through the capstone course, HRER 894. Upon completion of the integrated degree, students will have gained advanced knowledge and expertise from conducting and analyzing empirical work and participating in online classes that can be directly applied to the workplace.

A minimum of 33 credits is needed to complete the MPS degree in HRER. Nine credits (400 level and above) can apply to both undergraduate and graduate degrees; six of these must be at a 500 or 800 level.

**Admission Requirements**

Admissions decisions for the B.S./M.P.S. program are based on the quality of the applicant’s credentials. The decisions are made after a review of the complete application portfolio. The integrated B.S./M.P.S. program will be limited to highly talented undergraduates. Applicants to the integrated program:

- must be enrolled in the LHR B.S. program;
- must complete the Penn State graduate degree application and pay the application fee;
- shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;
- must have an overall GPA of 3.4 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.6 in the major;
- must submit 2 letters of recommendation from current or previous Penn State instructors and 1 additional letter of recommendation (should be professional or academic);
- must submit a writing sample, a resume, and a 2-3 page essay articulating career and educational goals that demonstrates the applicant’s written communication skills;
- must possess the equivalent of two years of full-time work experience prior to admission.

No GRE or GMAT scores are required for admission to the program.

**Degree Requirements**

The M.P.S. requires 33 credits at the 400 level or higher; at least 6 credits must be at the 500 level.

Up to nine (9) credits at the 400, 500, or 800 level can be double counted for B.S. and M.P.S. Students can choose which 9 credits will double-count for both the undergraduate and graduate degrees from the following list:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LER 401</td>
<td>The Law of Labor-Management Relations</td>
<td>3</td>
</tr>
<tr>
<td>LER 400</td>
<td>Comparative Employment Relations Systems</td>
<td>3</td>
</tr>
<tr>
<td>LER 403</td>
<td>International Human Resource Studies</td>
<td>3</td>
</tr>
<tr>
<td>or HRER 803</td>
<td>Human Resources in Multinational Enterprises</td>
<td>3</td>
</tr>
<tr>
<td>LER 427</td>
<td>Organizational Context for Human Resource Management and Employment Relations Professionals</td>
<td>3</td>
</tr>
<tr>
<td>or HRER 825</td>
<td>Strategic Business Tools for HRER Professionals</td>
<td>3</td>
</tr>
<tr>

<td>HRER 501</td>
<td>Labor and Employment Law</td>
<td>3</td>
</tr>
<tr>
<td>HRER 504</td>
<td>Seminar in Employment Relations</td>
<td>3</td>
</tr>
</tbody>
</table>

A minimum of 50% of the double-counted credits must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted.

Students must sequence their courses so all undergraduate degree requirements are fulfilled before taking courses to count towards the graduate degree. If students accepted into the IUG program are unable to complete the M.S. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

Elective Courses

Select an additional 3-credit course (400-level or above) in consultation with your graduate adviser).

Student Aid

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the Tuition & Funding (http://gradschool.psu.edu/graduate-funding/) section of The Graduate School’s website.

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

Human Resources and Employment Relations (HRER) course list (http://bulletins.psu.edu/university-course-descriptions/graduate/hrer/)

Labor and Employment Relations (LER) course list (p. 3735)

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Career Paths

The Labor and Human Resources major prepares students for many career opportunities and graduate studies. The majority of our majors work as human resource and employment relations (HRER) specialists—a growing field according to the U.S. Bureau of Labor Statistics. Others have gone on to work as labor union organizers, labor arbitrators, and professionals in non-profit careers. Virtually every employer—multinational corporations, small companies, hospitals, non-profit agencies, universities, and federal, state, and local governments—employ HRER professionals. Labor and Human Resources majors have gone on to graduate school earning advanced degrees in Human Resource Management, Law, Business, and Sociology.

### Careers

Labor and Human Resources majors do exceedingly well in the job market, and have been hired by a long list of companies (link below). For students interested in social and economic justice at work, a career with a union provides an opportunity to put your beliefs into actions. Our alums have gone on to work for national and international labor organizations and unions such as the AFL-CIO, United Steelworkers, and the American Federation of Teachers to name a few. Government agencies such as the National Labor Relations Board and the U.S. and state Departments of Labor regularly hire Penn State LER School grads.

More information about potential career options for graduates of the Labor and Human Resources Program ([https://ler.la.psu.edu/careers/where-are-they-now/](https://ler.la.psu.edu/careers/where-are-they-now/))

### Opportunities for Graduate Studies

Along with three top Masters programs (M.S. and M.P.S. degrees in Human Resources and Employment Relations and an M.P.S. in Labor and Global Workers Rights, we offer a five-year Integrated Undergraduate Graduate (IUG) program through which you can earn your Bachelors and Masters degrees in a total of five years, instead of six years as can otherwise be needed. Students with a Masters degree land much better paying jobs in coveted. Many of our top performing IUG students receive assistantships that helps to pay their tuition.

Labor and Human Resources, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
Penn State's online certificate in Labor and Human Resources is designed to provide students with a foundation in human resources and employment relations. It examines the law and best practices within these disciplines and will help students recognize and resolve issues that emerge in the workplace.

What is Labor and Human Resources?
Every day, 135 million Americans go to work and surprising stuff happens. Welcome to the world of human resources and labor relations! Labor and Human Resources focuses on subjects ranging from globalization and talent management, to unions and social justice, to gender equity and workers' rights. It encompasses a variety of growing career areas, all of which address the complex social, cultural, and professional issues one is likely to encounter in modern workplaces. You will learn in a highly student-centered program with great faculty, wonderful resources, and an in-house career counselor for help as you approach completion.

You Might Like This Program If...
You aspire to work in human resources or a related field, this online certificate in labor studies and employment relations can help you acquire a foundation in a range of subjects, including employment law, collective bargaining, and workplace diversity. It can be used as an important first step in your education or as a recognized stand-alone credential. If you already have a degree, this certificate program is an excellent complement.

Program Requirements
To earn an undergraduate certificate in Labor and Human Resources, a minimum of 12 credits is required.

No Prerequisites Required.

Certificate Learning Objectives
1. Knowledge: Summarize and explain the interrelationships among fundamental theories, concepts, facts, and issues involving labor and employment relations (ER) related to workplaces, workers, and their communities.
2. Critical Thinking: Analyze alternative approaches, solutions, and conclusions related to practical and legal challenges involving labor and ER.
3. Communication Skills: Demonstrate effective communication skills in two-way interactions with individuals and groups involving labor, ER, and HR facts, concepts, and principles in order to interact effectively with other stakeholders (referred to below as ‘communications skills’).
4. Application Skills: Solve multi-faceted problems in labor, ER, and HR by selecting, adapting (when necessary), and applying relevant knowledge and skills to help develop, implement, and enforce organizational policies and strategies in domestic and global workplaces.
5. Ethical Competence: Respond to practical, legal, and ethical challenges in domestic and global workplaces in accordance with societal norms, values, mores, as well as professional and ethical standards.
6. Global Awareness: Summarize the interactive impact of numerous cultural and international factors on work, workers, employers, and industries.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Labor and Human Resources, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
This interdisciplinary minor is designed for students in any major of the University who wish to supplement their knowledge in the areas of labor studies and industrial relations. The minor consists of 18 credits, at least 6 of which must be at the 400 level. A certificate is awarded to students who complete the requirements of the minor.

What is Labor and Human Resources?
Every day, 135 million Americans go to work and surprising stuff happens. Welcome to the world of human resources and labor relations! Labor and Human Resources focuses on subjects ranging from globalization and talent management, to unions and social justice, to gender equity and workers’ rights. It encompasses a variety of growing career areas, all of which address the complex social, cultural, and professional issues one is likely to encounter in modern workplaces. You will learn in a highly student-centered program with great faculty, wonderful resources, and an in-house career counselor for help as you approach completion.

You Might Like This Program If...
You desire a broad background in the issues of work, employment, the employment relationship, and human resource management. By obtaining your Labor and Human Resources minor, you can have a better understanding of your role in the workplace while you gain a more flexible career path. The Labor and Human Resources minor is beneficial to students from a wide range of study areas, and can be most useful if you are majoring in psychology, organizational leadership, or business.

Latin American Studies, B.A.
Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This interdisciplinary major is designed for students who want a basic understanding of Latin America. The program is organized so that it may be combined with a second major or a minor subject.

What is Latin American Studies?
Latin American studies covers numerous disciplines such as history, politics, art, geography, gender studies, and sociology and uses them to critically examine and analyze the experiences of Latin Americans in Latin America and elsewhere.

You Might Like This Program If...
- You're interested in gaining further understanding of Latin America and the many rich histories and cultures that it encompasses.
- You want to take part in exciting study abroad opportunities to places such as Santiago, Dominican Republic and Sao Paulo, Brazil.
- You're looking for an interdisciplinary area of study that can lead you toward multiple paths: Anthropology, art, language, and more.
- You want to be involved with a dynamic and diverse community of faculty and students through enriching courses and opportunities.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Arts degree in Latin American Studies, a minimum of 121 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21-24</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>40</td>
</tr>
</tbody>
</table>

9-12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GH courses; 3-6 credits of GS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense
of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Code | Title | Credits
--- | --- | ---
ANTH 45N | Cultural Diversity: A Global Perspective | 3
HIST 178 | Latin-American History to 1820 | 3
HIST 179 | Latin-American History Since 1820 | 3
PLSC 456 | Politics and Institutions of Latin-American Nations | 3
PORT 1 | Elementary Portuguese I | 4
SPAN 131 | Ibero-American Civilization | 3
SPAN 200 | Intensive Grammar and Composition | 3

Additional Courses
Additional Courses: Require a grade of C or better
Select 18 credits of the following:

AFAM/SPAN 132 | Afro-Hispanic Civilization | 3
ANTH 8 | Aztec, Inca, Maya | 3
ANTH 422 | Meso-American Archaeology and Ethnography | 3
ANTH 440 | | 3
CMLIT 405 | Inter-American Literature | 3
ECON 14 | Principles of Economics 1 or ECON 102 | 3
ECON 104 | Introductory Microeconomic Analysis and Policy or ECON 104 Introductory Macroeconomic Analysis and Policy | 3
ECON 333 | International Economics | 3
ECON 433 | Advanced International Trade Theory and Policy | 3
HIST 467 | Latin America and the United States | 3
HIST 468 | Mexico and the Caribbean Nations in the Twentieth Century | 3
PLSC 422 | Comparative Urban Politics | 3

1 Credit used toward the requirement for an area of the B.A. field. Other credits may be taken outside the major to fulfill the 18 credits of the Additional Courses requirement.
PLSC 442  American Foreign Policy
PORT 2  Elementary Portuguese II
PORT 3  Intermediate Portuguese
PORT 405  Advanced Composition and Conversation
SPAN 300  Advanced Grammar and Composition Through Reading
SPAN 305  Spanish for Social Services
SPAN 410  Advanced Oral Expression and Communication
SPAN 412  Translation
SPAN 472  The Contemporary Spanish American Novel
SPAN 476  Masterpieces of Spanish American Literature

1  Choose only one course from ECON 102, ECON 104, or ECON 14.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
1 See adviser for approved list.
2 SPAN 1, 2, 3, and 100 are not required for the Latin American Studies major. Students who place into SPAN 200 based on other criteria need to replace the skipped credits with additional electives.
3 Electives: 15 credits or more, depending on major. Students are able to focus these courses in a secondary program.
University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Career Paths

The major and minor in LAS are designed to be combined with other majors and minors to create a multidisciplinary degree that will enrich the student’s educational experience at Penn State and be appealing to potential graduate programs and employers. Most LAS majors go on to law school or graduate school; others find jobs with corporations that have Latin American interests or with US government agencies such as the NSA and State Department.

Careers

- Law
- Business
- NSA or State Department
- Historic Preservation
- United Nations Organizations / Non-Governmental Organizations

Latin American Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This interdisciplinary minor is designed for students in any college or program of the University who want to supplement their knowledge and skills with the study of Latin America. A certificate is awarded to students who complete the requirements of the minor.

What is Latin American Studies?

Latin American studies covers numerous disciplines such as history, politics, art, geography, gender studies, and sociology and uses them to critically examine and analyze the experiences of Latin Americans in Latin America and elsewhere.

You Might Like This Program If...

- You want to be involved with a dynamic and diverse community of faculty and students through enriching courses and opportunities.
- You’re looking for an interdisciplinary area of study that can lead you toward multiple paths: Anthropology, art, language, and more.
- You want to be involved with a dynamic and diverse community of faculty and students through enriching courses and opportunities.

Latin, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Latin minor emphasizes the development of skills in the linguistic and literary aspects of the Latin language. Through 18 credits of coursework, including 6 at the 400-level, students develop:

- mastery of the grammatical structures essential to the ability to read Latin;
- a vocabulary adequate to the sight recognition of a large number of Latin vocabulary items; and
- a thorough understanding of the formal system of word inflection and derivation which forms the grammatical core of the language.

Once students have completed the basic 12 credits in \textit{LATIN}\textit{\textsubscript{1}}, \textit{LATIN}\textit{\textsubscript{2}} and \textit{LATIN}\textit{\textsubscript{3}}, they have the opportunity to pursue their studies in a wide variety of 400-level courses, which include prose authors such as historians, poets who wrote in epic and elegiac styles, playwrights, and other literary stylists who round out the vast body of Latin literature. In addition, 400-level courses are available on such topics as Latin prose composition, in which students learn to write Latin, and Latin linguistic history. The minor is appropriate for a wide number of majors, including history, medieval studies, archaeology, medicine, philosophy, and law.

What is Latin?

Latin is the language formerly spoken throughout the Roman empire and is the language of early art, literature, and political thought. Latin is also the mother of the modern romance languages, such as French, Spanish, Portuguese, and Italian. Knowledge of Latin can be a great advantage to students interested in graduate study in Ancient History, Classics, Archaeology, Linguistics, Medieval Studies, Comparative Literature, and other fields.

You Might Like This Program If...

- You’re looking to supplement your major with a language that can greatly improve your vocabulary and grammar.
- You want to develop a mastery of the grammatical structures essential to the ability to read Latin.
- You hope to improve your skill of formulating persuasive and clear messages.

Latina and Latino Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change

from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This minor in Latina and Latino Studies offers students across the University an opportunity to learn about the diverse histories, cultures, politics, migration patterns, and other aspects of Latina/o populations in the United States. Classes will be offered on:

- Latino history;
- the artistic achievements of Latinas/os in popular culture, literature, theatre, film, and television;
- the migratory flows of Latina/o populations;
- education;
- other issues related to language and identity; and
- family issues.

These courses demonstrate that studying Latina/o social formations is a critical component of understanding the social fabric of the U.S. as well as the U.S. presence in Latin America and the complex phenomenon of globalization. Although the emphasis of Latina/o Studies is on the U.S., the role of Latina/o immigration within wider shifts related to globalization requires an understanding of Mexico, Central and South America, and the Spanish-speaking Caribbean.

What is Latina and Latino Studies?

Latina/o Studies is an interdisciplinary field that critically analyzes the local, national, and hemispheric importance of the Latino/s in the U.S. It draws from a variety of established disciplinary methods, including social sciences, history, and literary and cultural studies. It traces the birth and transformation of Latino communities within American society from the colonial period to the present. The field comparatively studies U.S. and Latin American contexts, and engages multilingual aspects of Latino culture. The field also studies the sociocultural experiences and cultural production of Latinas and Latinos. It serves as a bridge between the academic and non-academic worlds in order to understand the complexity of all the Latino national groups: scholars of the field often both document and engage with the struggles and political activism of Latino/as in their search for equality, representation, and social justice. (An area of local interest is the growth of immigrant populations in Pennsylvania.)

You Might Like This Program If...

- You want to study the history and culture of Latino communities in the U.S., which constitute the fastest growing minority in American society.
- You want to put into dialogue different disciplines and approaches to study the phenomenon of “Latinidad.”
- You value bilingualism and multilingualism.
- You appreciate Latino literature, arts, and culture.
- You believe that colleges and universities should engage with Latino communities in order to better understand their different problems and propose innovative projects.

Career Paths
The program develops a critical understanding of the history and contemporary position of Latinas/os in the U.S. It provides valuable cultural fluency for students from a wide variety of career paths. Given the growing importance of the Latino/a population in the U.S., such knowledge is very advantageous in many professional settings.

Careers
A minor in Latino/a Studies, will enrich and enhance your career possibilities in fields including but not limited to, public service, education, marketing, law, politics, business, manufacturing and agriculture.

Opportunities for Graduate Studies
Graduate students from any Ph.D.-granting program may pursue a Latina/o Studies graduate minor, an interdisciplinary doctoral minor. The minor for each student will be planned jointly by the student, the student's doctoral adviser, and an adviser designated by the Latina/o Studies Initiative committee. In addition, there are methodology and pedagogy seminars designed to introduce graduate students to teaching undergraduates in the field, as well as actual opportunities to teach the introductory undergraduate seminar as the instructor of record and thus build a teaching expertise in the field.

Law and Society, B.A.
Begin Campus: World Campus
End Campus: World Campus

Program Description
The College of the Liberal Arts Law and Society program is an undergraduate major that provides a comprehensive liberal arts education across multiple disciplines. The program focuses on understanding how social, cultural, economic, and political forces treat the law within the context of historical and contemporary trends. Sociolegal theory will provide a framework for understanding the increasing importance of programs that accentuate the study of law, and legal institutions.

The Law and Society program has six prescribed classes. In addition, a student will complete five supporting courses that incorporate the student’s degree goals and can be tailored to his or her special interests. Students will consider the relationship between law, legal processes, human behavior, and legal and social institutions. The conventions of reading, argument, logic, and program solving will be used to explore issues.
Law and Society provides excellent preparation for higher schooling, such as law school or graduate study in sociology, criminology, or criminal justice. The major enhances career options in law enforcement, regulatory agencies, social service agencies, non-profit agencies, non-government agencies (NGO), and organizations that determine public policy. Law and Society also provides valuable knowledge for the small business owner.

**What is Law and Society?**
The 123-credit Bachelor of Arts in Law and Society is a multidisciplinary program intended to provide you with a greater understanding of law, legal principles, and the legal systems of the United States. Many occupations today require at least some legal knowledge and notion of the law. With a Bachelor of Arts in Law and Society, you will not only learn about the law, legal principles, legal institutions, and processes in the United States, but you can also become skillful in logic, rhetoric, research and legal writing.

**Entrance to Major**
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**
For the Bachelor of Arts degree in Law and Society, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>30-33</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td>36</td>
</tr>
</tbody>
</table>

12-15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GH courses; 0-3 credits of GQ courses; 6 credits of GS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or
in the college or program where the degree is earned. Credit used toward
degree programs may need to be earned from a particular source or
within time constraints (see Senate Policy 83-80 [http://senate.psu.edu/
policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
requirements/#83-80]). For more information, check the Suggested
Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of
proficiency in one foreign language. See the Placement Policy for Penn
State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts,
Foreign Languages, Natural Sciences, Quantification (may not be taken in
the area of the student’s primary major; foreign language credits in this
category must be in a second foreign language or beyond the 12th credit
level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students
may count courses in this category in order to meet other major, minor,
elective, or General Education requirements, except for the General
Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate,
a student enrolled in the major must earn at least a C grade in each
course designated by the major as a C-required course, as specified
by Senate Policy 82-44 [http://senate.psu.edu/policies-and-rules-for-
undergraduate-students/82-00-and-83-00-degree-requirements/#82-44].

Program Learning Objectives
Content Knowledge:
1. Students will form a foundational base of how law and social
structures intertwine.
2. Students will articulate the distinction between jurisprudence and
real law.
3. Students will demonstrate the application of law through legal
institutions with a focus on the relationship between political and
social change.

Thinking Skills:
1. Students will identify the substance of an argument and evaluate it
for soundness and validity.
2. Students will demonstrate a proficiency in legal analysis and critical
reasoning.
3. Students will demonstrate how critical thinking is used as an
instrument of law in the analysis of social change.

Communication Skills:
1. Students will demonstrate appropriate writing strategies and
conventions for legal writing, focusing on specific purpose, voice, and
tone.
2. Students will develop written and oral communication skills to
express informed opinions regarding sociolegal issues.

Research Skills:
1. Students will articulate the applicability of sociological research to
the construction, implementation, and evaluation of sociolegal policy.
2. Students will demonstrate an understanding of commonly used
methods of inquiry – historical, observation, experience, and survey.
3. Students will demonstrate digital fluency by navigating information
resources in order to support their efforts to communicate their
findings persuasively.

Diversity Skills:
1. Students will articulate the influence of race, gender, and economic
status in law and social change.
2. Students will develop an appreciation for the role law plays in the
emergence of a global society.

Career-related Skills:
1. Students will demonstrate the ability and desire to engage in lifelong
learning.
2. Students will apply critical reasoning and asymmetrical approaches
to complex career environments.
3. Students will develop an understanding in the rules of professional conduct that are inherent in the study and practice of law in related careers.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Letters, Arts, and Sciences, A.A. (Liberal Arts)**

*Begin Campus:* University Park, World Campus
*End Campus:* University Park, World Campus

**Program Description**

The objectives of the Letters, Arts, and Sciences major are to broaden the student’s understanding, interests, and skills; to help the student become a more responsible, productive member of the family and community; and to offer a degree program with sufficient electives to permit some specialization according to the student’s interests or career plans. Letters, Arts, and Sciences is a complete two-year degree major. However, graduates who later seek admission to baccalaureate degree majors may apply baccalaureate credits toward the new degree.

In addition to a wide variety of baccalaureate majors offered at University Park campus, graduates of the Letters, Arts, and Sciences major may qualify for admission to the baccalaureate degree majors in Behavioral Sciences, Elementary Education, Humanities, or Public Policy offered at Penn State Harrisburg. Or they may qualify for any of a large number of baccalaureate degree majors offered by Penn State Erie, The Behrend College, in business, the liberal arts, and sciences.

**Entrance to Major**

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

**Degree Requirements**

For the Associate in Arts degree in Letters, Arts, and Sciences, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

6 of the 21 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GWS courses.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2727) section of the Bulletin and consult your academic adviser.

- Writing and Speaking (GWS): 3 credits

**Knowledge Domains**

- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits
Universities Degree Requirements

Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Letters, Arts, and Sciences, it is strongly recommended that a foreign language be taken since admission to a bachelor of arts program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a foreign language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Letters, Arts, and Sciences checksheet, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Letters, Arts, and Sciences representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44.

Program Learning Objectives

- Research proficiency focused on writer’s purpose and audience’s needs
- Critical thinking, sound reasoning, and astute analysis of written documents, situations, and people, leading to logical conclusions
- Application of theory to create a persuasive point of view
- Communication skills to clearly convey argued points to a target audience
- Technological literacy that enables the effective creation and delivery of documents via various electronic media, with attention to message content, page layout, and graphical elements

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

University Park and World Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

**Letters, Arts, and Sciences, B.A. (Liberal Arts)**

**Begin Campus**: Any Penn State Campus  
**End Campus**: University Park, World Campus

### Program Description

Letters, Arts, and Sciences is a multi-disciplinary, theme-oriented, and student-designed major leading to a bachelor of arts degree. The major consists of 36 credits, divided into two sections. The core (12 credits) consists of 3 credits each in the following: research methods/projects; communication skills; theory/application; and critical analysis. The additional courses (24 credits) consist of courses directed toward the student's theme, 15 credits of which must be at the 400 level.

### Early Admission Program for Professional Schools

If a student is accepted and enrolled as a degree candidate in a professional postgraduate degree program requiring three years or more to complete (such as medical school, dental school, law school, theological seminary, etc.) and if that student completes 94 undergraduate credits at Penn State including General Education, B.A. requirements, and the LAS 12-credit core requirements, that student may use up to 30 credits from the professional school to complete the B.A. in LAS.

It must be emphasized that only top students are accepted into professional school programs on such an early admission basis and that not every professional school has such a policy. Students must have enrolled in LAS prior to attending the professional school to request graduation in LAS.

### What is Letters, Arts, and Sciences?

You can customize a Bachelor's Degree in Letters, Arts, and Sciences to fit your area of interest. The 120-credit online program allows you to focus on developing your skills in communication and analysis along with your leadership abilities. You will work closely with your adviser to design a program that creates intellectual depth in an area of study that is unique to your interests, but also aligns with the theoretical foundation of a liberal arts degree. The goal of the Bachelor's degree in Letters, Arts, and Sciences is to provide a broad education that introduces methods of analysis used in the liberal arts disciplines. In addition, it can also prepare you to address the complex social, cultural, ethical, and organizational issues you may face in leadership positions.

### Degree Requirements

For the Bachelor of Arts degree in Letters, Arts, and Sciences, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

### General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward the major requirements (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Six credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

 Requirements for the Major

Courses must be selected in consultation with an adviser.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Code Title Credits

Additional Courses: Require a grade of C or better

Select 24 credits from University-wide offerings to include: 24

12 credits at the 400 level representing at least three different subject areas

3 credit 400-level capstone course

A minimum 9 credits from the humanities and social sciences

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 3 credits in research methods/projects from courses that involve research methodology or that focus on a research project

Select 3 credits in communication skills from courses that focus on expression including those in verbal, symbolic, and written skills

Select 3 credits in theory/application from courses that focus on theory, principle, central concepts, or fundamental issues

Select 3 credits in critical analysis from courses that focus on evaluation, synthesis, and analysis

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

#### University Park and World Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

</tbody>
</table>

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Advising Note:**

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

**Commonwealth Campuses**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.
Liberal Arts and Earth and Mineral Sciences Concurrent Degree; Liberal Arts and Engineering Concurrent Degree (Liberal Arts)

These programs require ten semesters of study, concurrently in the College of the Liberal Arts (during which the student completes 70 credits in General Education and Bachelor of Arts requirements and 33 to 37 basic engineering or science requirements), and in either the College of Earth and Mineral Sciences or the College of Engineering (during which the student completes the credits required in the selected major in Earth and Mineral Sciences or Engineering).

Upon completion of the program, the B.A. in General Arts and Sciences will be awarded by the College of the Liberal Arts and the B.S. by the College of Earth and Mineral Sciences or the College of Engineering. The majors available in the College of Earth and Mineral Sciences are:

- Environmental Systems Engineering
- Geosciences
- Mining Engineering
- Polymer Science
- Mineral Economics
- Petroleum and Natural Gas Engineering
- Ceramic Science and Engineering
- Metals Science and Engineering
- Meteorology

The majors available in the College of Engineering are:

- Aerospace
- Agricultural
- Chemical
- Civil
- Electrical
- Environmental
- Industrial and Management Systems
- Mechanical
- Nuclear Engineering
- Engineering Science

Students are advised of the absolute necessity for scheduling classes in exact sequence during the first six semesters of Concurrent Degree study. It is imperative that students obtain, from the Liberal Arts Undergraduate Studies Office, a copy of the Concurrent Degree requirements worksheet that enumerates the specific course requirements for the two programs for semesters one through six.

1 Enrollment in the Engineering Science program is limited to those students attaining an average of B or higher during their first six semesters and to those specially chosen by the College of Engineering faculty on the basis of evidence that they will benefit from the advanced courses.

Entrance to Major

To be eligible for this program, a student must file an application for entrance with the associate dean for undergraduate studies, College of the Liberal Arts, not later than the third semester. Entrance to the program requires that the student satisfy all regular requirements of the College of the Liberal Arts and the College of Earth and Mineral Sciences or the College of Engineering. In addition, special requirements may need to be satisfied when enrollment controls are imposed on programs in any of the colleges because of space limitations. Once a student has met all the requirements for entrance to this program, transfer from the College of the Liberal Arts to the College of Earth and Mineral Sciences or the College of Engineering, with enrollment in one of the majors listed, will be approved automatically at the end of the sixth semester if the student...
continues to make normal progress toward the concurrent degree and has maintained a cumulative average of 2.00 or higher. Students entering majors in the College of Engineering must complete the following courses with a grade of C or higher: CHEM 110 and CHEM 111, MATH 140, MATH 141, and PHYS 201, and meet the required cumulative grade-point average for the requested engineering major.

**Degree Requirements**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>12</td>
</tr>
<tr>
<td>Earth and Mineral Sciences or Engineering Component</td>
<td>89-91</td>
</tr>
</tbody>
</table>

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses and 9 credits of GN courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80(http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**

**Earth and Mineral Sciences or Engineering Component**

Concurrent Degree candidates should consult the individual program requirements in the College of Engineering and the College of Earth and Mineral Sciences to ascertain which combinations of CHEM, E G, E MCH, MATH, and PHYS are required.

---

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

---

### Linguistics, B.A.

**Begin Campus:** Any Penn State Campus  
**End Campus:** University Park

### Program Description

This major would allow students to receive a BA degree in Linguistics. Linguistics, which is the study of language as a structural, cognitive, historical, and cultural phenomenon, intersects with many different academic disciplines and career paths. Linguists study how people acquire their knowledge of a language (or multiple languages), how this knowledge interacts with other cognitive processes, and how best to model this knowledge. They study how to represent the structure of the various aspects of language (such as sounds or meaning), how to account for different linguistic patterns theoretically, and how the different components of language interact with each other. Since every language is spoken across multiple communities of practice, linguists also study variation in language based on region, ethnicity, gender, or any number of other social factors. In order to learn about as many of the world's 7000 languages as possible, many linguists do fieldwork. This means that they work with speakers of little-studied languages to discover grammatical patterns and/or to document the language. Other linguists search databases (or corpora) of spoken and written language to find patterns there. Yet others run carefully-designed experiments with children and adults in schools, in the field, and in university labs. Linguistics is the scientific study of language in all its complexity.
What is Linguistics?

Linguistics is the scientific study of language: how it is structured, how it is acquired, how it is used to convey information, and how it changes over time. While many linguists do speak more than one language—or at least know how to approach the study of other languages—linguistics is much more than this. Through courses and a wide variety of research opportunities, our students explore how languages are structured (sentence structure, sound patterns, meaning and more), and how those structures are processed by the human brain. Since language is integral to all societies, linguists are interested in how language affects culture, and how social factors (place of birth, social class, ethnicity, gender, age, etc.) impact language use. We approach language from a global perspective, investigating commonalities and differences across languages in order to increase our understanding of what makes human communication unique.

You Might Like This Program If...

- You enjoy studying languages, particularly finding and applying linguistic patterns.
- You are interested in communication, and learning more about the function of language(s) in society.
- You like to think about how the human brain functions, and want to know more about language and cognition.
- You like logic, computer programming, and/or abstract puzzles.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Arts degree in Linguistics, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21</td>

<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>33-34</td>
</tr>
</tbody>
</table>

3-4 credits of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-4 credits of GQ courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.
Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1 A grade of C or better per course is required for teacher certification.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

University Park Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Career Paths

A linguistics major can help students in a variety of career paths. The critical thinking and language analysis skills gained by our students provide good preparation for careers in information science and technology (especially when combined with computer science courses), education (especially language teaching), speech pathology, or audiology. Linguistics also provides good preparation for legal studies, law enforcement and related careers, as well as fields requiring precise use of language, such as advertising, publishing, or journalism. Students interested in international business or global studies would also benefit from studying linguistics.

Careers

Courses in linguistics provide students the opportunity to practice and hone skills such as analytical reasoning, critical thinking, formulating hypotheses and argumentation, so linguistics students can easily pursue a variety of different career paths. The skills gained by our students provide good preparation for careers in information science and technology, education (especially language teaching), speech pathology, or audiology. Linguistics also provides good preparation for legal studies, law enforcement and related careers, as well as fields requiring precise use of language, such as advertising, publishing, or journalism. Students interested in international business or global studies would also benefit from studying linguistics.

Information Science and Technology

The analytical tools taught in linguistics have many parallels to the tools needed for programming and related IT skills. In addition, there are many job opportunities relating to helping computers understand language or using computers to analyze language.

Language Teaching

Students who study linguistics are uniquely positioned to understand language structures, particularly grammar and pronunciation. These skills transfer very well into the language classroom, whether teaching English as a Foreign Language, or helping English speakers learn another language.

Advertising and Publishing
The ability to understand language at a structural level, particularly regarding meaning, is useful in pursuing careers that require the creative use of language.

Law Enforcement and Intelligence Agencies
Agencies value employees with backgrounds in fields like linguistics that teach crucial analytical skills. Additionally, linguistics students gain skills that can help with learning languages quickly and training others in language learning, which is a crucial skill in a globalized world.

Legal and Forensic Consultation
An understanding of dialects, language variation, and speech analysis are often crucial in making legal arguments, and forensic linguistics is an important aspect of the field.

Speech Pathology/Speech and Hearing Science
Training in linguistics is a key to understanding speech, and thus majoring or minoring in linguistics is a useful complement to study in the Department of Communication Sciences and Disorders.

Government Services and NGO Work
Course work in sociolinguistics and language variation are attractive qualifications for public sector jobs, and crucial for development projects around the world.

Linguistics, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
This minor is designed for students in any major of the University who wish to supplement their knowledge in the area of linguistics. The minor consists of 18 credits. A certificate is awarded to students who complete the requirements of the minor.

For more information on the Linguistics Program, visit our website: http://linguistics.la.psu.edu.

What is Linguistics?
Linguistics is the scientific study of language: how it is structured, how it is acquired, how it is used to convey information, and how it changes over time. While many linguists do speak more than one language—or at least know how to approach the study of other languages—linguistics is much more than this. Through courses and a wide variety of research opportunities, our students explore how languages are structured (sentence structure, sound patterns, meaning and more), and how those structures are processed by the human brain. Since language is integral to all societies, linguists are interested in how language affects culture, and how social factors (place of birth, social class, ethnicity, gender, age, etc.) impact language use. We approach language from a global perspective, investigating commonalities and differences across languages in order to increase our understanding of what makes human communication unique.

You Might Like This Program If...
• You enjoy studying languages, particularly finding and applying grammatical patterns.
• You are interested in communication, and learning more about the function of language(s) in society and how language structure and use varies depending on social context.
• You like to think about how the human brain functions, and want to know more about language and cognition, language learning (by children or adults!), or how the brain handles multiple languages.
• You like logic, computer programming, and/or abstract puzzles.

Liberal Arts Academic Advising
Career Paths
Courses in linguistics provide students the opportunity to practice and hone skills such as analytical reasoning, critical thinking, formulating hypotheses and argumentation, so linguistics students can easily pursue a variety of different career paths. The skills gained by our students provide good preparation for careers in information science and technology, education (especially language teaching), speech pathology, or audiology. Linguistics also provides good preparation for legal studies, law enforcement and related careers, as well as fields requiring precise use of language, such as advertising, publishing, or journalism. Students interested in international business or global studies would also benefit from studying linguistics.

Careers
Information Science and Technology: Linguistics training can provide tools to be applied in areas of speech recognition, text-to-speech synthesis, artificial intelligence, natural language processing, computer-mediated language learning, and other technological domains.

Language Teaching: Students who study linguistics are uniquely positioned to understand language structures, particularly grammar and pronunciation. These skills transfer very well into the language classroom, whether teaching English as a Foreign Language, or helping English speakers learn another language. Other career paths would include those in the fields of advertising and publishing, law enforcement and intelligence, legal and forensic consultation, speech pathology, speech and hearing science, government services and NGO work.

Opportunities for Graduate Studies
A linguistics minor or major is useful to students wanting to pursue the following types of graduate studies: M.A. or Ph.D. in Linguistics M.A. or Ph.D. in a particular language, or language education M.A. (or Ph.D.) in communication sciences and disorders (speech pathology, audiology, etc.) M.A. or Ph.D. in Computer Science Law School (JD) At Penn State, the Linguistics program offers a Dual-Title Doctoral Degree in Language Science to graduate students enrolled in the doctoral programs in Communication Sciences and Disorders, German, Psychology, or Spanish. Dual-title degree students receive interdisciplinary training in the theoretical and methodological approaches of several disciplines (i.e., linguistics, psychology, speech-language pathology, and cognitive neuroscience).

Medieval Studies, B.A.
Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This is an interdisciplinary program of study designed to give students an integrated knowledge of medieval civilization. While the main area of study is the fifth to sixteenth centuries in Europe, a global perspective is offered with particular attention to the Near East and the Pacific Rim.

What is Medieval Studies?
Medieval Studies is an interdisciplinary field that ranges widely across periods and geographies. We usually imagine the Middle Ages as the millennium between the end of classical antiquity and the start of the Renaissance. But concepts and institutions that we take as distinctively modern—the individual, companionate marriage, the state, vernacular languages as expressions of national identity—begin in the Middle Ages. And the Middle Ages return as a powerful source for imaginative expression in the art and literature of the nineteenth and twentieth centuries and in digital culture in the twenty-first century.

You Might Like This Program If...
- You want to grow as an analytical thinker with good writing skills, the ability to synthesize disparate materials, and a deep sense of context.
- You have an interest in studying a rich and dynamic period, and wish to further understand the time through its history, literature, philosophy, and culture.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

More Information about Opportunities for Graduate Studies (http://linguistics.la.psu.edu/undergraduate/)

Degree Requirements
For the Bachelor of Arts degree in Medieval Studies, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>

<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and
0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

#### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures.

See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Career Paths

The Bachelor of Arts degree in Medieval Studies prepares students for those careers which require a broad knowledge of the humanities. Many students combine a Medieval Studies major with a major such as art history, broadcasting, art, language and literature, political science or any of the liberal arts majors, or students may take courses in areas like economics, speech communication, and sociology.

### Careers

- Publishing
- Teaching
- Museum Curatorship
- Archiving
- Business
- Medicine

### Opportunities for Graduate Studies

Graduate work is required for teaching at the college or university level. Former students in the Penn State major have continued their studies at universities such as Oxford, Catholic University, Bryn Mawr, St. Andrews, and Dublin. Many students continue their work in medieval studies or related fields like art, music, theatre, literature, history, or philosophy at the graduate level.

### Medieval Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change
from a campus that offers their major to a campus that does not offer
their major for the purpose of completing a minor.

**Program Description**
The Medieval Studies minor encourages an interdisciplinary approach to
the diverse and interconnected cultures of Europe and the Mediterranean
rim between the fifth and the fifteenth centuries and to contact zones in
the Americas, Near East, and the northwestern Pacific. Students survey
and evaluate key dimensions of the medieval period across disciplinary
boundaries. They develop skills in critical writing and in analyzing
documents, monuments, contexts, and conventions of expression;
consider emerging fields such as digital humanities and new media; and
examine the abiding cross-cultural and trans-historical significance of
historical, social, religious, creative, and linguistic developments from the
medieval period. The minor allows students to combine courses, guided
readings, and research projects in fields such as history, art, archaeology,
literature, languages, philosophy, and religious studies.

**What is Medieval Studies?**
Medieval Studies is an interdisciplinary field that ranges widely across
periods and geographies. We usually imagine the Middle Ages as the
millennium between the end of classical antiquity and the start of the
Renaissance. But concepts and institutions that we take as distinctively
modern—the individual, companionate marriage, the state, vernacular
languages as expressions of national identity—begin in the Middle
Ages. And the Middle Ages return as a powerful source for imaginative
expression in the art and literature of the nineteenth and twentieth
centuries and in digital culture in the twenty-first century.

**You Might Like This Program If...**
- You want to grow as an analytical thinker with good writing skills, the
  ability to synthesize disparate materials, and a deep sense of context.
- You have an interest in studying a rich and dynamic period, and
  wish to further understand the time through its history, literature,
  philosophy, and culture.

Middle East Studies, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
This interdisciplinary program is designed for students having special interest in the Middle East broadly defined. In addition to the requirements for the minor, students may select other courses dealing with the Middle East, including courses studied abroad, subject to the approval of the Middle East Studies director. A certificate is awarded to students who complete the requirements of the minor.

What is Middle East Studies?
Middle Eastern Studies intends to instill an understanding of the history and culture of the multiple countries that make up the Middle East, from ancient through modern times. It is an interdisciplinary area of study that encompasses various aspects of the Middle East such as history, politics, religion, language, literature, art history, and more. Middle Eastern Studies offers a way to investigate a region of the world from multiple perspectives engaging a variety of methods of study.

You Might Like This Program If...
- You want to pursue a career or engage in graduate studies in fields such as archaeology, philosophy, literature, religious studies, political sciences, and more.
- You are interested in gaining further insight into the societies and cultures of ancient civilizations.
- You have a desire to do in depth research on the Middle East, and hope to spend time abroad to immerse yourself in the cultures and languages.

Organizational and Professional Communication, B.A.

Begin Campus: World Campus
End Campus: World Campus

Program Description

A Bachelor of Arts in Organizational and Professional Communication provides increased understanding and practice in how people communicate to influence others and shape the world around them. Modern society requires effective communication in professional, personal, social, and multicultural settings. The flexibility of the program offers preparation for a variety of careers, such as law, business, communication, health, administration, social services, and human relations. The bachelor of arts program will facilitate students’ learning of effective oral and written communication, specifically helping students to understand and generate professional texts in a variety of genres.

What is Organizational and Professional Communication?

This program prepares its students to:

- Apply and critique communication concepts and principles to a variety of organizational contexts
- Apply qualitative research methods to organizational and professional contexts
- Demonstrate logical, critical, creative, and ethical thinking about communication
- Generate communication appropriate to audience, purpose, and context
- Synthesize and assimilate information and for communication analysis and practice
- Engage diverse communities and function as a member of society

You Might Like This Program If...

You are a working professional seeking an applied learning experience that cannot only help you advance your career, but also empower you to make critical contributions toward improved organizational practices at work, in society, and beyond.

Direct Admission to the Major

Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.
For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

**Degree Requirements**

For the Bachelor of Arts degree in Organizational and Professional Communication, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>45</td>
</tr>
</tbody>
</table>

9 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH; 6 credits of GS courses.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Learning Outcomes  
Upon completion of the Organizational and Professional Communication program, students will be able to:  

• Describe the significance of communication in everyday experience and as a distinctive intellectual paradigm;  
• Apply, critique, and extend communication concepts, principles, theories, and perspectives to a variety of organizational contexts;  
• Plan communication inquiry, including humanistic or social scientific approaches;  
• Apply qualitative research methods to organizational and professional contexts;  
• Demonstrate logical, critical, creative, and ethical thinking about communication for decision-making and problem-solving;  
• Generate and perform messages appropriate to their audience, purpose, and context;  
• Locate, synthesize, and assimilate new information from a variety of sources and use it to inform communication analysis and practice within organizations;  
• Engage diverse communities, both local and global, and function as a member of a deliberative society;  
• Write professional texts in a variety of genres using appropriate conventions;  
• Reflect on professional experience and situate that experience within college-level learning.  

Academic Advising  
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of class educational opportunities in order that they become self-directed learners and decision makers.  

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Organizational and Professional Communication, B.S.

Begin Campus: World Campus
End Campus: World Campus

Program Description

A Bachelor of Science in Organizational and Professional Communication provides increased understanding and practice in how people communicate to influence others and shape the world around them. Modern society requires effective communication in professional, personal, social, and multicultural settings. The flexibility of the program offers preparation for a variety of careers, such as law, business, communication, health, administration, social services, and human relations. The Bachelor of Science degree will allow exploration of the group communication context and the principles of leadership.

What is Organizational and Professional Communication?

This B.S. degree allows exploration of the group communication context and the principles of leadership, and prepares its students to apply and critique communication concepts, principles, theories, and perspectives to a variety of organizational contexts; demonstrate logical, critical, creative, and ethical thinking about communication; generate messages appropriate to audience, purpose, and context; synthesize and assimilate information for use in communication analysis and practice within organizations; engage diverse communities and function as a member of a deliberative society; facilitate group communication and functions; apply leadership principles to interpersonal and group situations.

Degree Requirements

For the Bachelor of Science degree in Organizational and Professional Communication, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>27</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>57</td>
</tr>
</tbody>
</table>

9 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH; 6 credits of GS courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits
Integrative Studies (may also complete a Knowledge Domain requirement)
  • Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
  • United States Cultures: 3 credits
  • International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Learning Outcomes
Upon completion of the Organizational and Professional Communication program, students will be able to:

- Describe the significance of communication in everyday experience and as a distinctive intellectual paradigm;
- Apply, critique, and extend communication concepts, principles, theories, and perspectives to a variety of organizational contexts;
- Plan communication inquiry, including humanistic or social scientific approaches;
- Apply quantitative and qualitative research methods to organizational and professional contexts;
- Demonstrate logical, critical, creative, and ethical thinking about communication for decision-making and problem-solving;
- Generate and perform messages appropriate to their audience, purpose, and context;
- Locate, synthesize, and assimilate new information from a variety of sources and use it to inform communication analysis and practice within organizations;
- Engage diverse communities, both local and global, and function as a member of a deliberative society;
- Facilitate groups communication and functions in and out of organizations;
- Apply principles of leadership to interpersonal and group situations;
- Demonstrate critical and ethical understanding of conflict in interpersonal, group, and organizational settings;
- Reflect on professional experience and situate that experience within college-level learning.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Organizational Leadership, B.A.

Begin Campus: Any Penn State Campus

End Campus: World Campus

Program Description
The degree draws on many of the disciplines of the liberal arts, as well as business and science, to illuminate the issues that all leaders face regarding work and employment issues in the 21st Century, as well as in other aspects of organizational life more generally. Students select courses in crime, law, and justice, political science, sociology, labor and employment relations, communication arts and sciences, management, and psychology. The goal is to provide a broad education that introduces methods of analysis used in the disciplines of the liberal arts and prepares students to understand the complex social, cultural, and organizational issues that they will confront in leadership positions in the modern world.

What is Organizational Leadership?
A rapidly growing global environment creates demand for professionals who are schooled in leadership. Employers prefer individuals who exhibit strengths in problem solving, teamwork, critical thinking, decision-making, listening, and conflict management. Courses in psychology, sociology, communication, philosophy, management, and labor and employment relations can prepare you for a change in career or help you to advance into leadership positions. The Bachelor of Arts in Organizational Leadership includes a curriculum immersed in the social sciences, humanities, and language, in addition to prescribed organizational leadership courses. It can help you explore the role of leadership from a relationship-based perspective.

You Might Like This Program If...
You are interested in an online program that offers convenience to study around your schedule with world-class faculty, to expand your employment opportunities or obtain a degree for professional advancement. An education in organizational leadership can provide you with a broad perspective to prepare for today's complex social, cultural, and professional issues that you are likely to encounter in positions of leadership. The unique student OLEAD club offers professional development opportunities and community building.

Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Arts degree in Organizational Leadership, a minimum of 123 credits is required:

<table>

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits
Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1 Courses that are used in the Additional Courses category may not be double-counted to satisfy this requirement.
Student Outcomes

Upon successful completion of the B.A. degree in Organizational Leadership, students should be better able to:

1. Understand the roles and the major functions of leadership in contemporary organizations;
2. Articulate the theoretical and empirical foundations for different approaches to the exercise of leadership;
3. Detect, accurately frame, and select appropriate strategies for overcoming obstacles to effective organizational performance that leaders face;
4. Exhibit intellectual and behavioral competencies useful in the successful execution of critical organizational tasks and the management of relationships;
5. Recognize the internal structures of organizations and their impact on members’ performance;
6. Appreciate the social processes operative in the exercise of influence, as well as how to improve them;
7. Draw on their knowledge of leadership in transitioning from lower-level to higher-level positions of responsibility and authority in organizations;
8. Bring a global perspective to the exercise of leadership; and
9. Grasp the importance of enacting leadership responsibly and in an ethically defensible manner.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

A Bachelor of Arts in Organizational Leadership can prepare you to work in a range of relationship-focused careers in which you can showcase your ability to manage and nurture business and professional relationships through motivational strategies, conflict management, and other forms of interpersonal and social influence. The degree will benefit any career in which leadership skills are necessary for the advancement of the overall business climate through interpersonal interactions.

Careers

The degree is perfect for collaborative work environments in manufacturing, service industries, government, communications, charitable and nonprofit organizations, and multinational organizations. Graduates of Penn State’s School of Labor and Employment Relations, of which the OLEAD program is a part, have found employment in such companies as Google, Ernst and Young, GE, Amazon, Lockheed Martin, Samsung Electronics, PriceWaterHouseCoopers Consulting, government agencies such as the U.S. Department of Labor, and in labor unions such as the AFL-CIO, American Federation of Teachers, and the Service Employees International Union.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ORGANIZATIONAL LEADERSHIP PROGRAM (http://lser.la.psu.edu/careers/where-our-grads-get-jobs/)

Opportunities for Graduate Studies

Penn State World Campus offers a Master of Professional Studies in Human Resources and Employment Relations (HRER) in which the curriculum balances advanced theory with practical knowledge. After receiving strong fundamental knowledge, the program focuses on the complex personal, legal and organizational issues inherent in the relationship between employers, employees, unions, and government. As in the undergraduate OLEAD program, students in the M.P.S. in HRER program have the opportunity to study with highly regarded faculty from Penn State’s College of the Liberal Arts, one of the premier institutions in the world to study and work in the liberal arts disciplines.

University Park
SCHOOL OF LABOR AND EMPLOYMENT RELATIONS
506 Keller Building
Organizational Leadership, B.S.

Program Description
The degree draws on many of the disciplines of the liberal arts, as well as business and science, to illuminate the issues that all leaders face regarding work and employment issues in the 21st Century, as well as in other aspects of organizational life more generally. Students select courses in crime, law, and justice, economics, political science, sociology, labor and employment relations, communication arts and sciences, statistics, management, and psychology. The goal is to provide a broad education that introduces methods of analysis used in the disciplines of the liberal arts and prepares students to understand the complex social, cultural, and organizational issues that they will confront in leadership positions in the modern world.

Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Science degree in Organizational Leadership, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>16-18</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>64-66</td>
</tr>
</tbody>
</table>

4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 4 credits of General Education GQ courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.
Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Organizational Leadership, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This interdisciplinary online minor is designed for World Campus students in any major who wish to supplement their knowledge in the areas related to leadership in organizations. The OLEAD minor focuses on the development of:

1. understanding of the role, functions, and enactment of leadership as an instrument of influence in the modern organization;
2. familiarity with pertinent scholarly inquiry; and
3. competencies essential to success in leadership.

Leadership is of interest in numerous disciplines. The curriculum in Organizational Leadership provides the opportunity to select from them on the basis of specialized interests relating to:

- business administration,
- communication arts and sciences,
- criminal justice,
- economics,
- history,
- labor studies and employment relations,
- philosophy,
- political science,
- psychology,
- sociology, and
- women's studies.

The OLEAD minor is of value to anyone pursuing a baccalaureate degree who envisions being, or is, in a position of authority (manager, supervisor, executive, officer, and the like) in an organization.

What is Organizational Leadership?

Effective managers and supervisors must have an understanding of the role of leadership as a means of influence and motivation in the modern organization. Penn State’s organizational leadership minor provides you with the opportunity to study a wide range of topics to complement your interests, background, and career aspirations. In learning about key leadership concepts and practices, you will be able to select from courses relating to business administration, communication arts and sciences, criminal justice, economics, history, labor studies and employment relations, philosophy, political science, psychology, sociology, and women's studies.

You Might Like This Program If...

You envision being — or are currently — in a position of authority in an organization, and wish to study with highly regarded faculty from Penn State’s College of the Liberal Arts, one of the premier institutions in the world to study and work in the liberal arts disciplines.

Philosophy, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This major provides in-depth study of fundamental issues that inescapably confront all persons. Topics include ethics, social and political philosophy, and esthetics—study of the good life, justice, and beauty; metaphysics, philosophy of mind, and philosophy of religion—study of the nature of reality, mind, body, and the meaning of life and death; epistemology, philosophy of science, and logic—study of the nature of knowledge, truth, objectivity, and principles of sound reasoning; and subjects such as comparative philosophies and world cultures, feminist theory, and philosophical issues in technology, language, education, and the professions of law, business, medicine, communications, engineering, and agriculture. These studies enhance imaginative, interpretive, analytical, critical, and communicative capacities. Majors thus may acquire intellectual abilities crucial for self-fulfillment, responsible participation in public life, and success in a wide range of careers—including law, business, education, journalism, medicine, and public service.

Majors pursued concentration in history of philosophy; humanities and arts; philosophy of science and mathematics; social sciences; the professions; or justice, law, and values. This is combined easily with minors, area studies, and concurrent majors. Qualified students participate in honors study and internships.

General Philosophy Option
This option provides students with a concentration in the history of western philosophy and the historical development and impact of philosophical ideas and issues—from the ancient to the contemporary period. It is designed for all students who seek a broad liberal education, including students interested in graduate study in philosophy.

Humanities and Arts Option
This option provides students with a concentration in philosophical issues in the arts, art history, literature, languages, history and religion. It is designed for all students primarily interested in the philosophical dimensions of the arts, humanities, and cultural studies, including students with career or further educational goals in these fields.

Philosophy of Science and Mathematics Option
This option provides students with a concentration in philosophical issues in the life sciences, the physical sciences, mathematics, engineering, and technology. It is designed for all students primarily interested in the philosophical dimensions of the natural sciences, technology, and mathematics, including students with career or further educational goals in these fields.

Social Sciences Option
This option provides students with a concentration in philosophical issues in the social sciences, social and political theory, and education. It is designed for all students primarily interested in the philosophical dimensions of social thought and methodological and normative issues in the social sciences, educational theory, and public policy, including students with career or further educational goals in these fields.

Professional Studies Option
This option provides students with a concentration in philosophical issues and dimensions in the theory and practice of the professions of agriculture, business, engineering, journalism, law, and medicine and health care. It is designed for all students seeking a foundation in the philosophical dimensions of these professions, including students who wish to combine humanistic study with career or further educational goals in these fields.

Justice, Law, and Values Option
This option provides students with a concentration in philosophical issues in aesthetics, ethics, jurisprudence, and social and political theory, and everyday life. It is designed for students primarily interested in moral, social, political, and legal questions concerning value and is especially appropriate for those anticipating future educational work in law school.

What is Philosophy?
Philosophy is the oldest of the liberal arts, and is often defined simply as the love of wisdom. Philosophy is at the core of the liberal arts tradition and provided the foundation for the modern university, yet it remains highly relevant to life in technologically complex, diverse, global, information driven societies such as our own. The Philosophy major provides in-depth study of fundamental issues that inescapably confront all persons, such as ethics, social and political philosophy, aesthetics, metaphysics, philosophy of mind, philosophy of religion, epistemology, philosophy of science, and logic. These studies enhance imaginative, interpretative, analytical, critical, and communicative capacities. Majors thus may acquire intellectual abilities crucial for self-fulfillment, responsible participation in public life, and success in a wide range of careers—including law, business, education, journalism, medicine, and public service.

You Might Like This Program If...
• You want to develop critical thinking skills, including constructing, interpreting, and critically analyzing philosophical arguments.
You want to learn about major thinkers, schools, and trends of the Western philosophical tradition, and to appreciate the importance and value of other thought.

You want to compose clear, coherent written expressions of complex philosophical ideas, theories, and arguments.

You have enthusiasm for inquiry and want engage in philosophical discussions about ethics, social and political philosophy, metaphysics, and aesthetics.

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**

For the Bachelor of Arts degree in Philosophy, a minimum of 124 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>25</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Common Requirements for the Major (All Options)

- Additional Courses
  - Select 9 credits in philosophy at the 200 level

Requirements for the Option

Requirements for the Option: Require a grade of C or better

Select an option

Requirements for the Option

General Philosophy Option (21 credits)

- Prescribed Courses
  - PHIL 12 Symbolic Logic

- Additional Courses
  - Select 6 credits in philosophy at the 00 or 100 level
  - Select one of the following:
    - PHIL 200 Ancient Philosophy
    - PHIL 201 Medieval Philosophy
    - PHIL 202 Modern Philosophy: 1600-1800
    - PHIL 203 Nineteenth Century Philosophy
    - PHIL 204 Twentieth Century Philosophy

Supporting Courses and Related Areas

- Supporting Courses and Related Areas: Require a grade of C or better
  - Select 9 credits in philosophy at the 400 level, in consultation with adviser

Humanities and Arts Option (21 credits)

- Additional Courses
  - Select 6 credits in philosophy at the 00 or 100 level
  - Select one of the following:
    - PHIL 10 Critical Thinking
    - PHIL 12 Symbolic Logic

Supporting Courses and Related Areas

- Supporting Courses and Related Areas: Require a grade of C or better
  - Select 3 credits at the 400 level in a mathematics or natural science discipline, in consultation with adviser

Philosophy of Science and Mathematics Option (21 credits)

- Prescribed Courses
  - PHIL 12 Symbolic Logic

- Additional Courses
  - Select 6 credits in philosophy at the 00 or 100 level
  - Select one of the following:
    - PHIL 407 Technology and Human Values
    - PHIL 410 Philosophy of Science
    - PHIL 425W Epistemology
    - PHIL 426W Metaphysics
    - PHIL 427 Philosophy of Mind

Supporting Courses and Related Areas

- Supporting Courses and Related Areas: Require a grade of C or better
  - Select 3 credits at the 400 level in a mathematics or natural science discipline, in consultation with adviser

Social Sciences Option (21 credits)

- Prescribed Courses
  - PHIL 12 Symbolic Logic

- Additional Courses
  - Select 6 credits in philosophy at the 00 or 100 level
  - Select one of the following:
    - PHIL 401 American Philosophy
    - PHIL 408W Social and Political Philosophy
    - PHIL 416 Philosophy of Social Science
    - PHIL 425W Epistemology
    - PHIL 438 Feminist Philosophy

Supporting Courses and Related Areas

- Supporting Courses and Related Areas: Require a grade of C or better
  - Select 3 credits at the 400 level in a mathematics or natural science discipline, in consultation with adviser
Select 6 additional credits in philosophy at the 400 level, in consultation with adviser  
Select 3 credits at the 400 level in social science, in consultation with adviser  

**Professional Studies Option (21 credits)**

## Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

**Total Credits 123**

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures (p. 2755).

**Advising Note:**

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

**Humanities and Arts Option**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
* Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Philosophy of Science and Mathematics Option

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Career Paths

Students in the Philosophy major may choose to pursue one of several areas of concentration, including the history of philosophy, humanities and arts, natural sciences and mathematics, social sciences, professional studies, or justice, law and values. Each option is designed to prepare students to reach career or educational goals in its associated field.

Careers

Philosophy students learn the kinds of critical, interpretive, analytical, and argumentative skills highly prized by employers in a wide variety of fields, including publishing, non-profit work, consulting, information technology, law, business, education, journalism, medicine, and public service.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PHILOSOPHY PROGRAM (http://philosophy.la.psu.edu/undergraduate/)

Opportunities for Graduate Studies

Philosophy students score consistently higher than other majors on LSAT, MCAT, and GMAT exams. The study of philosophy provides students with an outstanding preparation for law school, medical school, and other advanced degrees. For those students interested in pursuing graduate work in philosophy, our department has a strong record of placing its graduates into top-notch doctoral programs.

Philosophy, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description

The Philosophy B.S. option is intended for students who wish to study philosophy as part of a multiple major program with other B.S. degree programs, especially those connected to the life sciences, the physical sciences, mathematics, engineering, or technology. It allows such students to study the philosophical, critical, and ethical dimensions of pure and applied sciences, including the areas of philosophy foundational for such study. The focus is, then, on analytic and normative reasoning connected to reasoning and explanation; theory and practice; the nature
and limits of human understanding; and the structure and knowability of the world it seeks to understand.

**What is Philosophy?**

Philosophy is the oldest of the liberal arts, and is often defined simply as the love of wisdom. Philosophy is at the core of the liberal arts tradition and provided the foundation for the modern university, yet it remains highly relevant to life in technologically complex, diverse, global, information driven societies such as our own. The Philosophy major provides in-depth study of fundamental issues that inescapably confront all persons, such as ethics, social and political philosophy, aesthetics, metaphysics, philosophy of mind, philosophy of religion, epistemology, philosophy of science, and logic. These studies enhance imaginative, interpretive, analytical, critical, and communicative capacities. Majors thus may acquire intellectual abilities crucial for self-fulfillment, responsible participation in public life, and success in a wide range of careers—including law, business, education, journalism, medicine, and public service.

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**

For the Bachelor of Science degree in Philosophy, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>36</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>39</td>
</tr>
</tbody>
</table>

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience. First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
## Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Supporting Courses and Related Areas

**Supporting Courses and Related Areas: Require a grade of C or better**

Select 3 credits PHIL elective, unrestricted topic: 3

Select 6 credits Advanced Topics supporting program, choose from: 6

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### University Park Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Philosophy, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Many students find that their studies in their major field can be profitably supplemented by pursuing their studies in philosophy. The Philosophy minor is designed for students who desire a significant background in philosophy while majoring in a different field. Students from many disciplines pursue the Philosophy minor, including English, History, Physics, Mathematics, Management Studies, and so on. Declaring a minor in Philosophy will allow you to continue your philosophy studies throughout your degree, and you will receive a certificate in Philosophy when you graduate.

What is Philosophy?

Philosophy is the oldest of the liberal arts, and is often defined simply as the love of wisdom. Philosophy is at the core of the liberal arts tradition and provided the foundation for the modern university, yet it remains highly relevant to life in technologically complex, diverse, global, information driven societies such as our own. The Philosophy major provides in-depth study of fundamental issues that inescapably confront all persons, such as ethics, social and political philosophy, aesthetics, metaphysics, philosophy of mind, philosophy of religion, epistemology, philosophy of science, and logic. The Philosophy minor is designed for students who desire a significant background in Philosophy while majoring in a different field. Students from many disciplines pursue Philosophy minors, including English, History, Physics, Mathematics, Management Studies, and others.

You Might Like This Program If...

• You want to gain a significant background in Philosophy while majoring in a different field.
• You want to develop critical thinking skills, including constructing, interpreting, and critically analyzing philosophical arguments.
• You want to acquire intellectual abilities crucial for self-fulfillment, responsible participation in public life, and success in a wide range of careers.
• You have enthusiasm for inquiry and want to engage in philosophical discussions about ethics, social and political philosophy, metaphysics, and aesthetics.

Career Paths

Careers

Philosophy students learn the kinds of critical, interpretive, analytical, and argumentative skills highly prized by employers in a wide variety of fields, including publishing, non-profit work, consulting, information technology, law, business, education, journalism, medicine, and public service.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES WITH A MINOR IN PHILOSOPHY (http://philosophy.la.psu.edu/undergraduate/)

Opportunities for Graduate Studies

Philosophy students score consistently higher than other majors on LSAT, MCAT, and GMAT exams. The study of philosophy provides students with an outstanding preparation for law school, medical school, and other advanced degrees.

Political Science, B.A. (Liberal Arts)

Begin Campus: Any Penn State Campus
End Campus: University Park, World Campus

Program Description

The Political Science major offers the student an opportunity to understand not only American federal, state, and local governments, but also the political systems of other nations and the philosophies that underlie them. Courses are offered in American, comparative, and international politics, and in political theory and methodology. Internship opportunities are available.

What is Political Science?

Political science is one of the social sciences. It is the study of systems of governance and governmental institutions, political activity, political thought, and political behavior. Political science draws from many other academic disciplines, including economics, law, sociology, history, philosophy, geography, psychology, and anthropology. There also are subfields of political science, such as comparative politics, political theory, international relations, international law, public administration, and
public policy. Political science students study how American government works (and doesn't work) and what can be done to improve government at the federal, state, and local level. In comparative government and international relations coursework, students study the politics and policies of other countries. Political theory courses examine the ideas of famous political philosophers, while courses on law and the legal process provide knowledge about the criminal justice and civil litigation systems.

You Might Like This Program If...
You are interested in how power and resources are allocated in society. Students in this major study governments, public policies, and political behavior in the United States and around the world from both a humanistic and scientific perspective. If you’re interested in how history, culture, and economics shape our lives and impact things like economic development, conflict, foreign policy, terrorism, globalization, and the environment, then this is the major for you.

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

World Campus
Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Arts degree in Political Science, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
In meeting these requirements, students must take at least one course at any level from the four fields offered in the department: Political Theory/Methodology, American Politics/Public Administration, Comparative Politics, and International Relations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Code Title Credits

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 12 credits from below the 400 level 12
Select 15 credits from the 400 level and above in political science 15
Select 9 credits in political science or in related disciplines from departmental list of approved courses 1 9

1 Substitutions may be made with the written permission of the faculty adviser.

Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in Political Science and Master’s in International Affairs (M.I.A.)
Available at the following campuses: University Park

The integrated undergraduate-graduate (IUG) degree program (B.A. in Political Science/M.I.A. in International Affairs) will provide an opportunity for strong students in Political Science to complete a Master’s degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Master’s in International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

The IUG degree in International Affairs and Political Science is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs’ existing collaborations and interactions with the College of the Liberal Arts.

Admission Requirements
The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study. Specific requirements:

1. Must be enrolled in the Political Science B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application (http://www.gradsch.psu.edu/portal/). All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of Political Science.

M.I.A. Requirements for the Integrated B.A./M.I.A.
M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 credits at the 400 level or higher, at least 18 of which are from six core courses consisting of:

Code Title Credits

INTAF 801 Actors, Institutions, and Legal Frameworks in International Affairs 3
The following 12 credits may be double counted toward the B.A. and the M.I.A.:

- PLSC 415
- PLSC 441
- PLSC 550
- PLSC 554

**Sample Program of Study**

**Total Credits 69**

1 The following 12 credits may be double counted toward the B.A. and the M.I.A.: PLSC 415, PLSC 441, PLSC 550, PLSC 554

**Tuition Charges, Grant-in-Aid and Assistantships**

Students admitted to the School of International Affairs through the IUG with Political Science may be considered to receive financial assistance.

**Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in Political Science and Master’s in Public Policy**

*Available at the following campuses: University Park*

This Integrated Undergraduate/Graduate program (IUG) provides an opportunity for academically strong students to complete a bachelor of arts degree in political science and a master’s degree in public policy in the course of five years of study. The public policy curriculum and political science curriculum cover similar substantive topics and both fields require similar technical and analytic skills, so there is a natural synergy here.

3 credits (one class) at the 400 or 500 level from the undergraduate B.A. requirements will be counted toward the MPP program and 9 credits (two classes) at the 500 or 800 level from the MPP program will be counted toward the political science BA “supporting courses” requirements. Student’s IUG specific program of study will be structured on an individual basis giving IUG students a range of program options from the menu of course selections summarized below.

**Admission**

Students must apply to the program via the Graduate School application for admission (http://gradschool.psu.edu/prospective-students/how-to-apply/), and must meet all the admission requirements of the Graduate School and the Public Policy graduate program for the Master of Public Policy degree. Though exceptions are possible, student applicants will generally have a minimum overall GPA of 3.5 in their major, and a minimum 3.5 GPA overall at the time of application (on a 4.0 scale). Student are admitted to the IUG based on good progress in their major, success in any statistics and data analysis courses taken (evidenced by minimum 3.0 GPA in undergraduate data analysis and statistics courses), faculty recommendations (including one letter from a political science faculty member), GPA and a 2-page statement of purpose explaining why they want to participate in this program and why they are qualified to do so. Concurrent with application to the IUG program, students must also apply to, and be accepted into, the Graduate School at Penn State University. GRE scores are not required for IUG applicants.

Qualified students can apply formally during the semester in which they will complete 60 credits, typically the spring semester of their sophomore year. Consistent with general guidelines, students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment). Students will generally apply to the IUG program in their junior year, and my apply no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree. In order to ensure that students are properly advised during an advisement period students should apply by either November 1st or of the fall of the junior year, or March 1st of the spring of the junior year.

In consultation with an adviser, students must prepare a plan of study appropriate to this integrated program, and must present their plan of study in person to the head of the graduate program or the appropriate committee overseeing the integrated program prior to being admitted to the program. The plan should cover the entire time period of the integrated program and it should be reviewed periodically with an adviser as the student advances through the program.

**Advising Requirements**

Students admitted to the program are advised by co-advisors, one from each participating unit. Each student will have a primary advisor in public policy who will work with the student and the co-advisor in political science to ensure successful completion of the degree. The co-advisors will help the student prepare the initial plan of study, and assist in making changes and approving the student’s plan of study each semester during the advising period.

During the first three years of study students will follow the basic course sequence provided for by the existing BA plan in political science. In the fourth year of study they will take three MPP core courses at the 500 or 800 level that will also count toward the BA in political science (they will count toward the “supporting” courses requirement). Students who wish to graduate in 5 years will also take additional MPP courses in their fourth year, beyond those that will double count toward the BA in political science. In addition, in the fourth year one of the undergraduate 400 level courses taken as part of the BA will count toward MPP program specialization electives.

**Degree Requirements**

Students must fulfill all requirements for each degree in order to be awarded that degree, subject to the double-counting of credits as outlined below. Degree requirements for the B.A. in Political Science are listed in the Undergraduate Bulletin. Degree requirements for the M.P.P. degree are listed on the Degree Requirements tab. Up to 12 credits may be double-counted towards the degree requirements for both the graduate and undergraduate degrees; a minimum of 50% of the double-counted courses must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted. The courses that are eligible to double count for both degrees are:
Program Learning Objectives

Knowledge:

1. Students will develop substantive knowledge of the discipline of Political Science.
   a. Students will be able to define and use the concepts political scientists employ to make and substantiate knowledge claims.
   b. Students will be able to describe the central debates and theoretical frameworks of political science and international politics.

2. Students will develop knowledge about how political scientists use empirical analysis to gain insight into political and social processes, to advance political and social goals, and to evaluate the effects of programs and policies.
   a. Students will be able to explain multiple approaches to empirical research, such as large-scale observational research, experiments, surveys, case studies, formal modeling, and elite interviewing.
   b. Students will be able to describe both the application, and the advantages and disadvantages of different research methods in relation to particular problems.

Argumentation/Communication:

1. Students will develop the ability to create coherent, persuasive, and empirically grounded oral and written arguments.
   a. Students will be able to construct and defend logical arguments.
   b. Students will be able to present evidence to support empirical claims.
   c. Students will be able to communicate ideas effectively in conformity with academic standards.

2. Students will develop the ability to systematically analyze problems and draw evidenced based inferences. Students in different majors will accomplish this with different emphases depending on the courses they take as part of the BA/BS.
   a. Bachelor of Arts students in PL SC and INTPL will analyze problems and draw evidence based inferences using a broad range of techniques according to programmatic focus and individual preference.
   b. PLSC Bachelor of Science majors will analyze problems and draw inferences using various data sources and statistical tools.
   c. PLSC SO DA majors will analyze problems and draw inferences using computational tools appropriate to large complex data sets.

Critical Synthesis/Application:

1. Students will develop the ability to combine the substantive knowledge, modes of inquiry, and analytic skills learned in the classroom to address contemporary problems in an uncertain world.
   a. Students will be able to draw upon political science research to construct testable explanations of novel situations.
   b. Students will be able to weigh the arguments, evidence and inferences used to address problems under conditions of uncertainty.

2. Students will develop ethical reasoning and citizenship skills to participate in a global, pluralistic society.
   a. Students will be able to trace the possible ethical implications of public policies and political structures and their consequences for democratic political values.
   b. Students will be able to articulate the goals, conditions, and challenges of democracy and describe the roles of citizens and public officials in manifesting and preserving democratic values.
   c. Students will be able to critically evaluate the values inherent in the exercise of power through political systems, social structures, information, and collective action.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

University Park Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may
Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Honors / Paterno Fellows Program**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GH, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Advising Note:**

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

**Commonwealth Campuses**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit.
(accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Career Paths

Political Science is one of the most versatile majors in the liberal arts. The program provides students with an in-depth understanding of political issues while honing their ability to think critically and communicate persuasively. As a political science major, you will learn to conduct research and to evaluate information and assemble empirically supported arguments. These skills are necessary for success in a variety of careers, including law, public policy, lobbying, business, political campaigning, and government, as well as with non-profit organizations.

### Careers

Penn State Political Science graduates are serving as advisers to the State Department; as attorneys and management specialists in the Department of Justice; as speech writers, lobbyists and policy analysts on Capitol Hill; and even in the United States Senate. Our alumni have built successful careers in business, and as lawyers, teachers, and journalists. Many are successful entrepreneurs, some work for NGOs, others are leaders of major corporations. You can learn from their experience through our alumni mentoring program.

Program Description

The Bachelor of Science Degree in Political Science emphasizes the technical aspects of political science knowledge development and application. In addition to broad coursework in political science, students will complete courses in statistics and research design, advanced classes in social science methods and upper level political science courses that employ quantitative research skills in exploring substantive themes. Students have the opportunity to complete either a research practicum within the Political Science Department, an internship or a TA-ship. This degree will serve students who are interested in political science from the point of view of the practitioner, as well as those who are interested in acquiring practical skills relevant to a variety of careers in politics, government and business.

What is Political Science?

Political science is one of the social sciences. It is the study of systems of governance and governmental institutions, political activity, political thought, and political behavior. Political science draws from many other academic disciplines, including economics, law, sociology, history, philosophy, geography, psychology, and anthropology. There also are subfields of political science, such as comparative politics, political theory, international relations, international law, public administration, and public policy. Political science students study how American government works (and doesn’t work) and what can be done to improve government at the federal, state, and local level. In comparative government and international relations coursework, students study the politics and policies of other countries. Political theory courses examine the ideas of famous political philosophers, while courses on law and the legal process provide knowledge about the criminal justice and civil litigation systems.

You Might Like This Program If...

You are an active learner interested in politics, government, policy or business and you enjoy solving problems and the elegance of the scientific method. You might also choose the Bachelor of Science if you are interested in working as a lobbyist, campaign strategist, or policy analyst. This program will enable you to develop a portfolio of concrete and immediately marketable set of skills that are increasingly necessary for employments in these fields.

Entrance to the Major

Admission to the major requires a grade of C or better in MATH 110 or MATH 140 and a grade of B or better in PLSC 309. These courses must be completed by the end of the semester during which the admission to major process is carried out.

Degree Requirements

For the Bachelor of Science degree in Political Science, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>19-20</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>67-68</td>
</tr>
</tbody>
</table>

6 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas: Require a grade of C or better
Select 12 credits from department approved list of courses 12
Program Learning Objectives

Knowledge:

1. Students will develop substantive knowledge of the discipline of Political Science.
   a. Students will be able to define and use the concepts political scientists employ to make and substantiate knowledge claims.
   b. Students will be able to describe the central debates and theoretical frameworks of political science and international politics.

2. Students will develop knowledge about how political scientists use empirical analysis to gain insight into political and social processes, to advance political and social goals, and to evaluate the effects of programs and policies.
   a. Students will be able to explain multiple approaches to empirical research, such as large-scale observational research, experiments, surveys, case studies, formal modeling, and elite interviewing.
   b. Students will be able to describe both the application, and the advantages and disadvantages of different research methods in relation to particular problems.

Argumentation/Communication:

1. Students will develop the ability to create coherent, persuasive, and empirically grounded oral and written arguments.
   a. Students will be able to construct and defend logical arguments.
   b. Students will be able to present evidence to support empirical claims.
   c. Students will be able to communicate ideas effectively in conformity with academic standards.

2. Students will develop the ability to systematically analyze problems and draw evidenced based inferences. Students in different majors will accomplish this with different emphases depending on the courses they take as part of the BA/BS.
   a. Bachelor of Arts students in PL SC and INTPL will analyze problems and draw evidence based inferences using a broad range of techniques according to programmatic focus and individual preference.
   b. PL SC Bachelor of Science majors will analyze problems and draw inferences using various data sources and statistical tools.
   c. PL SC SO DA majors will analyze problems and draw inferences using computational tools appropriate to large complex data sets.

Critical Synthesis/Application:

1. Students will develop the ability to combine the substantive knowledge, modes of inquiry, and analytic skills learned in the classroom to address contemporary problems in an uncertain world.
   a. Students will be able to draw upon political science research to construct testable explanations of novel situations.
   b. Students will be able to weigh the arguments, evidence and inferences used to address problems under conditions of uncertainty.

2. Students will develop ethical reasoning and citizenship skills to participate in a global, pluralistic society.

   a. Students will be able to trace the possible ethical implications of public policies and political structures and their consequences for democratic political values.
   b. Students will be able to articulate the goals, conditions, and challenges of democracy and describe the roles of citizens and public officials in manifesting and preserving democratic values.
   c. Students will be able to critically evaluate the values inherent in the exercise of power through political systems, social structures, information, and collective action.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

1 Select 18 credits of PLSC 400-level courses; at least 9 credits must be data intensive from department list

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Honors/Paterno Fellows Program

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

### Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths
Students completing the Bachelor of Science degree develop a portfolio of concrete and immediately marketable set of skills that are in demand among employers. They are prepared to begin careers as campaign strategists, policy analysts and lobbyists, as well as in business and in national defense and other aspects of government. The program is also an excellent foundation for graduate study in law, public policy, business and the social sciences.

Careers
Penn State Political Science graduates are serving as advisers to the State Department; as attorneys and management specialists in the Department of Justice; as speech writers, lobbyists and policy analysts on Capitol Hill; and even in the United States Senate. Our alumni have built successful careers in business, and as lawyers, teachers, and journalists. Many are successful entrepreneurs, some work for NGOs, others are leaders of major corporations. You can learn from their experience through our alumni mentoring program.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE POLITICAL SCIENCE PROGRAM (http://www.apsanet.org/CAREERS/Careers-In-Political-Science/Careers-Sectors-for-Political-Science/)

Political Science, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Political Science minor consists of 18 credits with at least one course in each of the following Political Science areas: American, theory/methodology, comparative, and international relations. Six (6) of these 18 credits must be at the 400 level.

When electing this minor, the student should have junior (fifth-semester) standing. Special attention should be given to the fact that courses used to satisfy general education, degree requirements, electives, and major requirements may also be used to satisfy minor requirements.

What is Political Science?
Political science is one of the social sciences. It is the study of systems of governance and governmental institutions, political activity, political thought, and political behavior. Political science draws from many other academic disciplines, including economics, law, sociology, history, philosophy, geography, psychology, and anthropology. There are also subfields of political science, such as comparative politics, political theory, international relations, international law, public administration, and public policy. Political science students study how American government works (and doesn't work) and what can be done to improve government at the federal, state, and local level. In comparative government and international relations course work, students study the politics and policies of other countries. Political theory courses examine the ideas of famous political philosophers, while courses on law and the legal process provide knowledge about the criminal justice and civil litigation systems.

You Might Like This Program If...
You are in a major where your intended career is increasingly involved with governmental regulation or policy or if you want political or law background. It may lay the ground for better understanding your own field. It will also help you make sense of an increasingly complicated political world that confronts them in their own roles as citizens. A minor in political science is designed for students who want to improve their ability to deal intelligently and critically with issues and ideas about government and politics.

**Career Paths**

A minor in political science can add depth to a variety of majors. For example, if students are interested in a career in medicine, public health or business, it can help them understand how the political system shapes regulations that will impact their professional lives. If students are studying philosophy or history, political science can add social science analytical tools to complement what students are learning in their study of the humanities. If a student is interested in becoming a lawyer, studying political science is invaluable in providing a basic grounding for studies in the law.

**Careers**

The political science minor is excellent supplemental preparation, in addition to a student’s major, for a career in law, public service, Foreign Service, non-profit organizations, business and education.

Portuguese, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Portuguese is designed to cultivate our students’ understanding, respect, and appreciation of the rich literary and cultural traditions of Portuguese-speaking peoples; to provide a sound foundation for further study related to the Portuguese worlds; and to develop our students’ ability to analyze literary and cultural works in Portuguese.

Through their coursework in the Minor, students will be introduced to the disciplines of Portuguese languages, and also explore connections between Portuguese and other disciplines in the humanities or in the social sciences. For the Portuguese Minor, students will need a minimum of 19 credits of Portuguese (at least 6 of which must be at the 400 level), with grades of C or better. Students will be able to select from a comprehensive list of courses that can count toward the Minor. Students are held to the requirements that are in effect when they officially declare the Minor. They can take more than the minimum 19 credits if they so desire; there is no penalty for students who change their minds and ultimately do not complete all the Minor requirements (i.e., they are not disqualified from graduating if they do not complete declared minor requirements; they simply do not receive the minor).

What is Portuguese?

Portuguese and Luso-Afro-Brazilian studies is the academic discipline concerned with studying the languages, cultural expressions, and peoples of the Lusophone, or Portuguese-speaking, world. Scholars in this discipline analyze literary and artistic works from Brazil, Portugal, and/or Lusophonic Africa, often within a comparative context. This field contextualizes artistic and cultural expressions in terms of history, politics, social practices, and economics. Studies in this field may examine the experiences and expressions within the Lusophone context through the lens of Latin American studies, hemispheric American studies, or Transatlantic studies. Questions of race, gender, and class, the legacies of slavery and colonialism, and the repercussions of dictatorships and civil wars often animate research in this field.

You Might Like This Program If...

- You want to learn or improve your Portuguese and discover more about countries where Portuguese is spoken.
- You are interested in how music, film, literature, and culture intersect with politics, social movements, and historical events.
- You want to pursue a career in international business, government, non-profits, translation, education, or the arts.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

A minor in Portuguese is an excellent complement to degrees in journalism, business, global and international studies, international relations, communications, anthropology, film and media studies, or journalism. It prepares you to use spoken and written Portuguese effectively in a professional setting, to analyze complex problems, to write clearly, and to engage in cross-cultural communication. These are key skills for fields like public relations, management, journalism, government, education, translation/interpretation, law, and nonprofits. Students can also pursue graduate study in Luso-Brazilian studies, Latin American studies, comparative literature, history, or education.

Careers

Penn State students with a minor in Portuguese received fellowships as Fulbright teaching assistants in Brazil and have pursued a range of internships and career opportunities in fields such as technology, management, journalism, education, government, and law. Given students’ ability to communicate in Portuguese, they are prepared to work
with Portuguese-speaking populations and clients in important markets like Brazil, Portugal, and Angola.

**Opportunities for Graduate Studies**
Penn State students with a minor in Portuguese are prepared to pursue graduate study of master's or doctorate work in Portuguese/Luso-Brazilian studies, Latin American studies, or comparative literature. They could also further their study of Portuguese language in a linguistics or applied linguistics program, or pursue master's degrees in translation, interpretation, education, journalism, public policy, or international relations. Given their strong communication skills and training to think analytically, students with a Portuguese minor are also excellent candidates for attending law school.

**Psychology, B.A. (Liberal Arts)**

**Begin Campus:** Any Penn State Campus  
**End Campus:** University Park, World Campus

**Program Description**
This major is designed for students who want to learn about behavior, normal and abnormal, how it is studied, and its relation to applied areas. Students are encouraged to conduct research with members of the faculty and/or take a practicum in an applied setting. Graduates are equipped for various positions in human service agencies, industrial settings, or laboratories. Others go on to professional school, e.g., medical school, law school, or to continue their training in psychology working toward a master's or a doctoral degree. Majors may elect either a Bachelor of Arts or a Bachelor of Science program.

**What is Psychology?**
Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

**You Might Like This Program If...**
- You want to better understand people's thoughts, feelings, and behavior.
- You want to learn about how the brain works, how it malfunctions, and how it recovers.
- You are interested in child development, mental health, personality, social interactions, organizations, and neuroscience.
- You want a career as a psychologist, counselor, social worker, or other human services professional.
- You want a broad understanding of human behavior to help you pursue a career in any of many fields.

**Entrance to Major**
In order to be eligible for entrance to the PSYBA major, a student at any location must have:
1. attained at least a 2.00 cumulative grade-point average;  
2. completed PSYCH 100 with a grade of C or better;  
3. completed STAT 200 or PSYCH 200, at least 3 credits of GQ courses (not including STAT 200), and at least 3 credits of GS courses (not including PSYCH 100) with a grade of C or better.

**Degree Requirements**
For the Bachelor of Arts degree in Psychology, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>13</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td>47</td>
</tr>
</tbody>
</table>

6 of these 45 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GQ courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

---

**B.A. Degree Requirements**

**Foreign Language (0-12 credits):** Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Pennsylvania State Foreign Language Courses (p. 2723).

**B.A. Fields (9 credits):** Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures (0-3 credits):** Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives

Content Knowledge:
1. Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
2. Students will demonstrate the ability to apply psychological concepts and theories to research and real life situations.
3. Students will demonstrate knowledge about the history, values, and scientific foundations of the field of psychology.*

Thinking Skills:
1. Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
2. Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.
3. Students will demonstrate the ability to formulate and defend one's own scholarly opinion based on reading, interpreting, and synthesizing psychological literature.*

Communication Skills:
1. Students will communicate effectively (in writing and/or orally) the results of a project or internship.
2. Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
3. Students will demonstrate the ability to translate psychological knowledge into everyday language.*

Research Skills:
1. Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
2. Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.

Diversity and Ethical Considerations:
1. Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human. Students will experience and for the complexity of human behavior and interactions.
2. Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics.
3. Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.

Career-related Skills:
1. Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
2. Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

* Indicates a University Park specific learning objective

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

University Park Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

<table>
<thead>

<td>ENGL 138T, or CAS 138T†</td>
<td>3</td>
</tr>
</tbody>
</table>
### University Requirements and General Education Notes:

- **Course requires a grade of C or better for the major**
- **Course requires a grade of C or better for General Education**
- **Course is an Entrance to Major requirement**
- **Course satisfies General Education and degree requirement**

### Bachelor of Arts Requirements:

- Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

### Advising Note:

- All incoming first-year students must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

### Commonwealth Campuses:

The course series listed below provides **only one** of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an **Academic Requirements** or **What If** report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**University Requirements and General Education Notes:**

- US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
- W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
- GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.
- Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Career Paths**

Psychology students pursue a wide variety of careers. Many earn graduate degrees that qualify them for careers in clinical psychology, counseling psychology, school psychology, social work, or other helping professions. Others work in health, business, research, school, or government settings. Many businesses seek psychology majors for their knowledge of human behavior, research methods, and data analysis.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PSYCHOLOGY PROGRAM (http://psych.la.psu.edu/undergraduate/planning/graduate-school-and-career-planning-1/)

**Opportunities for Graduate Studies**

Some psychology students pursue research-oriented doctoral degrees, entering Ph.D. programs in a variety of areas of psychology. These degrees prepare students for careers in academic, research, business, or government settings. Others pursue the practice-oriented Psy.D. degree. Masters degrees in counseling, school psychology, social work, counselor education, and other fields prepare students for a variety of practice settings. Some psychology students also prepare for health-services degrees. Law school or MBA programs are also possibilities.

Psychology, B.S. (Liberal Arts)

Begin Campus: Any Penn State Campus
End Campus: World Campus, University Park

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major is designed for students who want to learn about behavior, normal and abnormal, how it is studied, and its relation to applied areas. Students are encouraged to conduct research with members of the faculty and/or take a practicum in an applied setting. Graduates are equipped for various positions in human service agencies, industrial settings, or laboratories. Others go on to professional school, e.g., medical school, law school, or to continue their training in psychology working toward a master’s or a doctoral degree. Majors may elect either a Bachelor of Arts or a Bachelor of Science program.

The B.S. degree program requires more coursework in the sciences than the B.A. program, and students may select courses from one of four areas--mathematics/computer science, statistics, business, or biology--which may be taken instead of a foreign language.

What is Psychology?
Psychology is the scientific study of thought, behavior, and experience. Many people associate psychology with psychological therapy and the practice of clinical psychology. There are also many other important areas of scientific psychology, such as cognitive, developmental, industrial/organizational, and social psychology. What these subfields of psychology have in common is the use of the scientific method to understand human behavior and apply that understanding to the development of theory and practice. Psychologists are increasingly making use of neuroscience methods and theories to understand psychological phenomena. As a profession, psychology is related to fields such as health, education, marketing, human resources, social work, and more. The principles of psychology are relevant to almost all areas of human endeavor, and the career paths of psychology students reflect this wealth of possibilities.

You Might Like This Program If...
- You want to better understand people’s thoughts, feelings, and behavior.
- You want to learn about how the brain works, how it malfunctions, and how it recovers.
- You are interested in child development, mental health, personality, social interactions, organizations, and neuroscience.
- You want a career as a psychologist, counselor, social worker, or other human services professional.
- You want a broad understanding of human behavior to help you pursue a career in business, law, or medicine.

Entrance to Major
In order to be eligible for entrance to the PSYBS major, a student at any location must have:

1. attained at least a 2.00 cumulative grade-point average;
2. completed PSYCH 100 with a grade of C or better;
3. completed STAT 200 or PSYCH 200, at least 3 credits of GQ courses (not including STAT 200), and at least 3 credits of GS courses (not including PSYCH 100) with a grade of C or better.

Degree Requirements
For the Bachelor of Science degree in Psychology, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>10-13</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>74-77</td>
</tr>
</tbody>
</table>

9 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses and 6 credits of GQ courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These requirements are for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits
Integrative Studies (may also complete a Knowledge Domain requirement)
  • Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
  • United States Cultures: 3 credits
  • International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

- PHIL/STS 407 Technology and Human Values
- PHIL 418 Ethics
- PHIL/STS 432 Medical and Health Care Ethics
- SCM 301 Supply Chain Management

**Group 2, Section C (Labor Relations)**
- LER 300 Introduction to Labor and Human Resources
- LER 304 Labor and Employment Relations Fundamentals
- LER 460 Communication Skills for Leaders in Groups and Organizations

**Group 2, Section D (Communication)**
- CAS 352 Organizational Communication
- CAS 452 Organizational Communication Theory and Research
- ENGL 419 Advanced Business Writing
- ENGL 460 Business and Literature
- LER 464 Communication Skills for Leaders in Groups and Organizations

**Group 3, Section A (Global View)**
- ENGR 451 Social Entrepreneurship
- GEOG 424 Geography of the Global Economy
- GEOG 439 Property and the Global Environment
- GLIS 102N Global Pathways
- HPA 401 Comparative Health Systems
- IB 303 International Business Operations
- LA 202 Innovation and Entrepreneurship in the Liberal Arts

**Group 3, Section B (Diversity)**
- AFAM/HIST 210 Freedom's First Generation: African American Life and Work, 1865 to World War II
- AFAM/LER/PLSC 445Y Politics of Affirmative Action
- AFAM/SOC 409 Racial and Ethnic Inequality in America
- AFR/IB/PLSC 440 Globalization and Its Implications

**Additional Courses:**
Select 15 credits from at least three different groups of the following (3 credits in any category can be replaced by LA 495, but internship credits alone cannot be used to complete a category):

**Group 1, Section A**
- ECON 14 Principles of Economics
- ECON 102 Introductory Microeconomic Analysis and Policy
- ECON 104 Introductory Macroeconomic Analysis and Policy
- ECON 302 Intermediate Microeconomic Analysis (or higher-numbered ECON course)
- PLSC 412 International Political Economy
- PLSC 444 Government and the Economy
- PLSC 481 Global Political Economy
- PLSC 490 Policy Making and Evaluation

**Group 1, Section B**
- BA 301 Finance
- FIN 301 Corporation Finance (or any higher-numbered FIN course)

**Group 1, Section C**
- BA 303 Marketing
- MKTG 301 Principles of Marketing (or any higher-numbered MKTG course)

**Group 1, Section D**
- ECON 102 Introductory Microeconomic Analysis and Policy
- ECON 104 Introductory Macroeconomic Analysis and Policy
- ECON 302 Intermediate Microeconomic Analysis (or higher-numbered ECON course)
- PLSC 412 International Political Economy
- PLSC 444 Government and the Economy
- PLSC 481 Global Political Economy
- PLSC 490 Policy Making and Evaluation
- LA 202 Innovation and Entrepreneurship in the Liberal Arts
Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
Select 3 credits in arts/humanities from department list
Select 3 credits in natural sciences from department list
Select 3 credits in social and behavioral sciences from department list

Neuroscience Option (24-27 credits)
Available at the following campuses: University Park

Students planning to apply to medical school should select this option and choose courses to meet the following minimal requirements for most medical schools:

- BIOL 110 and BIOL 230W or BIOL 240W
- CHEM 110, CHEM 111, CHEM 112, CHEM 113, CHEM 210, CHEM 212, and CHEM 213
- PHYS 211 and PHYS 212, or PHYS 250 and PHYS 251.

Code | Title | Credits
--- | --- | ---
PSYCH 260 | Neuronal Bases of Human Behavior (also counts in category a of COMMON REQUIREMENTS FOR THE MAJOR) | 3

Select 15 credits from groups A, B, C, D, and E, including at least 3 credits from each of four different groups:

A. Genetics
- BIOL 110 Biology: Basic Concepts and Biodiversity
- BIOL 133 Genetics and Evolution of the Human Species
- BIOL 222 Genetics

B. Physiology
- BIOL 141 Introduction to Human Physiology
- BIOL 161 Human Anatomy and Physiology I - Lecture
- BIOL 472 Mammalian Physiology

C. Organic Chemistry
- CHEM 202 Fundamentals of Organic Chemistry I
- CHEM 210 Organic Chemistry I

Code | Title | Credits
--- | --- | ---
CHEM 212 | Organic Chemistry II | 4
D. Cell Biology
- BIOL 230W Biology: Molecules and Cells
- BIOL 469 Neurobiology
- MICRB 106 Elementary Microbiology
- MICRB 201 Introductory Microbiology
- MICRB 251 Molecular and Cell Biology I

E. Other Topics
- BIOL 177 Biology of Sex
- BIOL 240W Biology: Function and Development of Organisms
- BIOL 409 Biology of Aging

BBH 470 Functional and Integrative Neuroscience

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
Select 6 credits in natural sciences from department list
Select 3 credits in social and behavioral sciences from department list

Quantitative Skills Option (24 credits)
Available at the following campuses: University Park

Students may fulfill the requirements of the Quantitative Skills option by completing a minor in either Statistics or Computer Science and Engineering in lieu of the course requirements listed above. Students choosing this option are encouraged to consult with an adviser designated by the Department of Psychology to determine the suitability of particular courses given their quantitative backgrounds. Other courses with advanced quantitative content may be substituted in Group D with adviser's approval.

Code | Title | Credits
--- | --- | ---
Additional Courses: Require a grade of C or better
Select a total of 15 credits from groups A, B, C, and D: 15

Group A
Select at least 3 credits of the following:

- MATH 18
- MATH 110 Techniques of Calculus I
- MATH 111 Techniques of Calculus II
- MATH 140 Calculus With Analytic Geometry I
- MATH 141 Calculus with Analytic Geometry II

Group B (optional) - Students may take only one of the courses in Group B for credit
Select 3 credits of the following:

- CMPSC 101 Introduction to Programming
- CMPSC 121 Introduction to Programming Techniques
- CMPSC 201 Programming for Engineers with C++
- CMPSC 203 Introduction to Spreadsheets and Databases

Group C, Section 1 - Students may take only one of the courses in Group C, Section 1 for credit
Select 3 credits of the following:

- STAT 318 Elementary Probability
- STAT 414 Introduction to Probability Theory
- STAT 418 Introduction to Probability and Stochastic Processes for Engineering

Group C, Section 2
Select at least 3 credits of the following:

## Integrated B.S. in Psychology and M.S. in Human Resources and Employment Relations

**Available at the following campuses: University Park**

The integrated PSY B.S. and HRER M.S. is a five-year program designed for academically talented undergraduate Psychology baccalaureate students to obtain both the B.S. degree in Psychology and the M.S. degree in HRER in an intense, accelerated program of study. Students will develop expertise in the human resources and employment relations field beyond that provided by their Psychology B.S. degree. The undergraduate psychology curriculum allows students to study

1. personnel selection,  
2. training and development, and  
3. organizational psychology.

The graduate curriculum provides for a more intensive, individualized, and focused examination of the human resources and employment relations field, including:

1. the roles employers, employees, employee organizations and public policy makers play in the employment relationship,  
2. the complex personal and organizational issues inherent in the employment relationship,  
3. the laws that form the legal framework for the employee-employer relationship,  
4. the tools needed to systematically analyze those complex issues and evaluate research relevant to those analyses, and  
5. human resource management policies and practices that contribute to individual and organizational success.

It also provides an opportunity for students to explore a concentrated sub-area of the HRER field in depth. The program culminates with the student either completing a thesis or masters paper. Upon completion of the integrated degree, students will be well-positioned to assume positions of greater responsibility in Industrial/Organizational Psychology, Human Resource Management, Employment Relations, and related careers as a result of the advanced knowledge and expertise gained through the program.

A minimum of 39 credits is needed to complete the M.S. degree in HRER. Twelve credits (400-level and above) can apply to both undergraduate and graduate degrees; six of these must be at the 500 or 800 level.

### Admissions Requirements

Admission decisions for the B.S. Psychology /M.S. Human Resources and Employment Relations program are based on the quality of the applicant's credentials. The decisions are made after a review of the complete application portfolio. The integrated B.S./M.S. program will be limited to highly talented undergraduates. Applicants to the integrated program:

1. Must be enrolled in the PSYCH B.S. program, pursuing the Business Option, with the successful completion of PSYCH 281, AND one of the following: PSYCH 482, PSYCH 484, or PSYCH 485;  
2. Shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer of AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;  
3. Must have an overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in the major;  
4. Must submit three letters of recommendation; and  
5. Must submit a writing sample, a resume, and a 2-3 page essay articulating career and educational goals that demonstrates the applicant’s written communication skills.

In consultation with an adviser, students must prepare a plan of study appropriate to this integrated program. Students must present their plan of study in person to the head of the graduate program or the appropriate committee overseeing the integrated program prior to being admitted to the program. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser as the student advances through the program.

No GRE or GMAT scores are required for admission to the integrated program.

### Degree Requirements

**M.S. HRER Requirements**
39 credits at the 400-level or higher; 18 credits must be at the 500-level, 12 of the 39 credits can be double-counted for B.S. and M.S.; at least 6 of these credits must be at the 500- or 800-level.
## Program Learning Objectives

### Content Knowledge:

1. Students will demonstrate knowledge of major psychological concepts, theories, and empirical findings.
2. Students will demonstrate the ability to apply psychological concepts and theories to research and real life situations.
3. Students will demonstrate knowledge about the history, values, and scientific foundations of the field of psychology.*

### Thinking Skills:

1. Students will use critical and creative thinking, skeptical inquiry, and the scientific approach to solve problems related to behavior and mental processes.
2. Students will demonstrate critical thinking in the analysis, evaluation, and interpretation of information in the scientific literature to distinguish the scientific literature from other sources.
3. Students will demonstrate the ability to formulate and defend one’s own scholarly opinion based on reading, interpreting, and synthesizing psychological literature.*

### Communication Skills:

1. Students will communicate effectively (in writing and/or orally) the results of a project or internship.
2. Students will demonstrate the ability to effectively extract central points and summarize psychological research literature and to write in the format of psychological research.
3. Students will demonstrate the ability to translate psychological knowledge into everyday language.*

### Research Skills:

1. Students will differentiate among the research methods used in psychology and apply the designs in evaluation or development of a research study.
2. Students will demonstrate the ability to analyze and interpret quantitative psychological data using statistics, graphs, and data tables.

### Diversity and Ethical Considerations:

1. Students will show evidence of knowledge and appreciation for cultural diversity and relativity in human.Students will experience and for the complexity of human behavior and interactions.
2. Students will demonstrate knowledge, and the application of, basic principles of scientific and professional ethics
3. Students will demonstrate sensitivity to ethical concerns and professionalism (including cultural considerations) in settings where applications of psychology and/or psychological research occur.

### Career-related Skills:

1. Students will demonstrate knowledge of professional options and required training for careers in the major subfields of psychology.
2. Students will demonstrate the ability to identify personally-relevant career options to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings.

---

## Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

## Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### University Park Campus

**Any Option**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 123

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
§ Course satisfies General Education and degree requirement

** University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Advising Note:

All incoming first-year students must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

** Career Paths:

Psychology students pursue a wide variety of careers. Many earn graduate degrees that qualify them for careers in clinical psychology, counseling psychology, school psychology, social work, or other helping professions. Others work in health, business, research, school, or government settings. Many businesses seek psychology majors for their knowledge of human behavior, research methods, and data analysis.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PSYCHOLOGY PROGRAM (http://psych.la.psu.edu/undergraduate/planning/graduate-school-and-career-planning-1/)

** Opportunities for Graduate Studies:

Some psychology students pursue research-oriented doctoral degrees, entering Ph.D. programs in a variety of areas of psychology. These degrees prepare students for careers in academic, research, business, or government settings. Others pursue the practice-oriented Psy.D. degree. Masters degrees in counseling, school psychology, social work, counselor education, and other fields prepare students for a variety of practice settings. Some psychology students also prepare for medical school or related health-services degrees. Law school or MBA programs are also possibilities.

Religious Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Religious Studies requires 18 hours of course work in RLST. It:

1. acquaints the student with the methods for studying religion (how one studies a religion),
2. provides an elementary introduction to the world's main religious traditions (names, dates, ideas, similarities and differences), and
3. offers the opportunity to investigate a particular topic or religion in greater detail.

Students are required to take one survey course (either RLST 1, RLST 3, or RLST 4), which provides a broad historical overview of several religions, from their foundation to the present day. The interaction between religions and their cultural contexts is emphasized, as is the evolution of an individual religion. After this introduction, the student is free to choose from a broad array of courses on the psychological, sociological, historical, and textual aspects of religions, both living and dead, both familiar and foreign. For example, a student may study Hinduism, Islam, Christianity, Norse religion, Greco-Roman religion, or the sociological aspects of religions. Reading skills and critical thinking skills are important and will be further developed in the courses.

The minor is excellent preparation for a career in the professions (law, medicine), and many students use this classical humanities topic to augment a major in the pure sciences.

What is Religious Studies?

Religious Studies focuses on providing an understanding of the world's diverse religions, their beliefs, and traditions. The relationship between
religion and culture is closely examined to gain a better understanding of how religion affects politics, art, science, and other aspects of society. Research is done through multiple disciplines such as: philosophy, anthropology, sociology, history, and more.

You Might Like This Program If...
- You are interested in exploring the complexities of the diverse religions of the world.
- You hope to examine how religion has influenced local and global communities, from antiquity through present-day.
- You would like to pursue a career in the humanities and hope to use a minor in Religious Studies to broaden your knowledge of diverse cultures.

Program Requirements

Requirements for the Minor
A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Rhetoric, Minor
Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The Rhetoric Minor provides undergraduate students an opportunity to acquire special competence in the history, theory, and criticism of civic discourse and cultural practices. It brings together courses from both the Department of English and the Department of Communication Arts and Sciences, from which students may learn about the nature and function of rhetoric in politics, the professions, the classroom, and the media. The list of course offerings is designed to feature applied as well
as theoretical approaches, and allows students to explore the subject in breadth as well as depth. Students completing the minor will command a greater knowledge of an appreciation for the significance of rhetoric as a central component of civic life.

You Might Like This Program If...
• You want to develop effective writing and speaking skills.
• You are interested in learning about persuasive communication.
• You want to learn effective methods of influence.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
CAS students are change makers: analysts, strategists, persuaders, facilitators, collaborators, connectors, and scholars. The CAS minor serves as a valuable supplement to a wide array of majors, and helps to equip students for success in the work force, graduate school, and civic life. CAS courses provide students with the theories, methods, practical tools, and experiences to understand the roots of social conflict and the sources of well-being.

Careers
A CAS undergraduate minor helps to prepare students for careers in academics, law, sales, corporate communication, health and human services, community activism, and digital technology. Students graduating from CAS studies may work as analysts, strategists, facilitators, collaborators, or negotiators.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES WITH A MINOR IN RHETORIC (http://cas.la.psu.edu/undergraduate/hiring-cas-majors/)

Opportunities for Graduate Studies
The CAS minors supplement a wide variety of major fields in its preparation of students for graduate study in communication science or rhetoric, as well as in law, public policy, behavioral science, health and human services, human development, business, social work, and other related fields.

Russian Translation, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

PROGRAM CURRENTLY ON HOLD; NOT ACCEPTING NEW STUDENTS
Begin Date of Enrollment Hold: April 8, 2011

Program Description

This major is designed to offer, within the context of a liberal education, specialized skills in translation from the Russian language. The curriculum is career-oriented and requires competence in a field or fields in addition to the language skill. Students will select such a field or fields in accordance with their special interests and in consultation both with the adviser and with persons directly involved with the field chosen.

What is Russian Translation?

Russian Studies is an interdisciplinary sub-field of the Humanities and Slavic Studies that pertains to linguistics, literature, arts, history, politics, and more, with a primary focus on the language, literature, and culture of historical and contemporary Russia, including the Soviet period and the Russian-speaking diaspora.

You Might Like This Program If...

• You understand the critical role that Russia plays in the world.
• You are considering an academic or professional career requiring strong training in a foreign language.
• Your first major is History, Comparative Literature, International Relations, Journalism, Linguistics, or other fields in which a knowledge of Russian is advantageous.
• You want to discover the rich world of Russian literature, arts, and cinema.
• Mastering Russian is important in your field, for example, in aerospace engineering, the computer sciences, and other sciences.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Science degree in Russian Translation, a minimum of 124 credits is required:

<table>

</tbody>
</table>

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

• United States Cultures: 3 credits
• International Cultures: 3 credits
Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44). For more information, check the Suggested Academic Plan for your intended program.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic advisor, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

The US Department of State designates Russian as one of the “critical languages” and the Department of Defense lists it as a strategic language. It is one of the five official languages of the UN. It also remains the unofficial lingua franca of the former Soviet republics and an indispensable communications tool across all of the Caucasus and Central Asia.

Careers

Besides graduate studies in the field of Slavic Languages and Literatures and related fields, a B.A. in Russian opens the door to a variety of careers in the US government and military, international business, international relations, international law, human rights, information technology, professional translation, publishing, education, the travel industry, and more.

Russian, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
The B.A. in Russian provides the student with a command of spoken and written Russian and a general knowledge of the literature and culture of the Russian people. No previous study of Russian is required for admission to the major. Study in Russia under the University’s Education Abroad Program is available for qualified students. Students are advised to combine their study of Russian with another foreign language, English, history, political science, the Russian Area Studies minor, the Business/Liberal Arts minor, or the Linguistics minor. Graduates of this program have found employment in international business, the U.S. government, in the educational and publishing fields, and in the travel industry.

What is Russian?
Russian Studies is an interdisciplinary sub-field of the Humanities and Slavic Studies that pertains to linguistics, literature, arts, history, politics, and more, with a primary focus on the language, literature, and culture of historical and contemporary Russia, including the Soviet period and the Russian-speaking diaspora.

You Might Like This Program If...
• You understand the critical role that Russia plays in the world.
• You are considering an academic or professional career requiring strong training in a foreign language.
• Your first major is History, Comparative Literature, International Relations, Journalism, Linguistics, or other fields in which a knowledge of Russian is advantageous.
• You want to discover the rich world of Russian literature, arts, and cinema.
• Mastering Russian is important in your field, for example, in aerospace engineering, the computer sciences, and other sciences.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Arts degree in Russian, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>

<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>28</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol  appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
  • Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
  • United States Cultures: 3 credits
  • International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Integrated Undergraduate-Graduate (IUG) Degree Program B.A. in Russian and Master of International Affairs (M.I.A.)
The integrated undergraduate-graduate (IUG) degree program (B.A. in Russian/M.I.A. in International Affairs) provides an opportunity for strong students in these majors to complete a master’s degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program prepares students for a variety of careers requiring an interdisciplinary background in Russian and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Master of International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

Admission Requirements
Admission requirements listed here are in addition to requirements stated in the GENERAL INFORMATION (http://gradschool.psu.edu/graduate-education-policies/) section of the Graduate Bulletin.
The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study. Students must be admitted to the program prior to taking the first course they intend to count towards the graduate degree. Specific requirements:

1. Must be enrolled in the Russian B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the Graduate School application (http://gradschool.psu.edu/prospective-students/how-to-apply/). All applicants will submit GRE scores, two letters of recommendation, and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
5. Must provide written endorsement from the head of Germanic and Slavic Languages and Literatures.

**M.I.A. Requirements for the Integrated B.A./M.I.A.**

Requirements listed here are in addition to requirements stated in the DEGREE REQUIREMENTS (http://gradschool.psu.edu/graduate-education-policies/) section of the Graduate Bulletin.

M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a minimum of 42 graduate credits, at least 18 of which are from six core courses consisting of

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTAF 801</td>
<td>Actors, Institutions, and Legal Frameworks in International Affairs</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 802</td>
<td>Foundations of Diplomacy and International Relations Theory</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 803</td>
<td>Multi-sector and Quantitative Analysis</td>

</tr>
<tr>
<td>INTAF 804</td>
<td>Global Cultures and Leadership</td>
<td>3</td>
</tr>
<tr>
<td>INTAF 590</td>
<td>Colloquium</td>
<td>3</td>
</tr>
</tbody>
</table>

The remaining credits are attained through completion of the approved elective courses. A minimum of 6 credits must be at the 500-level.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either:

1. a master’s paper; or
2. a supervised internship placement.

If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master’s paper will involve integrating and showing mastery of the subject matter of the student’s curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows:

1. four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of B or better using a 4.0 scale);
2. native acquisition, as shown by the candidate’s personal history and approved by the SIA faculty; or
3. performance on a proficiency evaluation sufficient to equal four semesters of language learning: for this purpose, either Penn State’s proficiency certification process or another pre-approved proficiency assessment may be used.

Language study does not provide credits towards the M.I.A. degree.

If students accepted into the IUG program are unable to complete the M.I.A. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

**M.I.A. Degree Requirements**

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures.

See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

### Career Paths

The US Department of State designates Russian as one of the “critical languages” and the Department of Defense lists it as a strategic language. It is one of the five official languages of the UN. It also remains the unofficial lingua franca of the former Soviet republics and an indispensable communications tool across all of the Caucasus and Central Asia.

### Careers

Besides graduate studies in the field of Slavic Languages and Literatures and related fields, a B.A. in Russian opens the door to a variety of careers in the US government and military, international business, international relations, international law, human rights, information technology, professional translation, publishing, education, the travel industry, and more.

### Professional Resources

### Russian, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

### Program Description

The Russian minor is designed for students who want to study the language, literature, and culture of Russia. Russian is spoken through the former Soviet Union and widely understood in the countries of Eastern Europe. The Department of Germanic and Slavic Languages and Literatures offers an array of courses in Russian language, literature, and culture. Study abroad in Russia at St. Petersburg University under the
University’s study abroad program is available. For the Russian minor, students must accumulate 18 credits (9 of them at the 400 level) in Russian. The Russian minor leads to various employment opportunities. Recipients of the Russian minor have found employment with businesses having contact with the former Soviet Union, with various agencies of the U.S. government, in the educational, journalistic and publishing fields, and in the travel industry.

What is Russian?

Russian Studies is an interdisciplinary sub-field of the Humanities and Slavic Studies that pertains to linguistics, literature, arts, history, politics, and more, with a primary focus on the language, literature, and culture of historical and contemporary Russia, including the Soviet period and the Russian-speaking diaspora.

You Might Like This Program If...

- You understand the critical role that Russia plays in the world.
- You are considering an academic or professional career requiring strong training in a foreign language.
- Your major is History, Comparative Literature, International Relations, Journalism, Linguistics, or other fields in which a knowledge of Russian is advantageous.
- You want to discover the rich world of Russian literature, arts, and cinema.
- Mastering Russian is important in your field, for example, in aerospace engineering, the computer sciences, and other sciences.

Sexuality and Gender Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Sexuality and Gender Studies addresses human sexuality and gender as they have been conceptualized and investigated by diverse disciplines:

- humanities (including history and cultural studies),
- behavioral and social sciences,
- biological sciences, and
- visual and performance arts.

Courses in the minor require students to explore scholarship and research on sexuality, sexual orientation, and gender across the lifespan, across cultures, and throughout history. Developing students’ critical skills in a variety of disciplines, courses in the minor cover theories of

- sexuality and gender;
- sexual orientation;
- lesbian, gay, bisexual, and transgender movements;
- the history of sexual norms;
- queer theory;
- gender identity;
- and impact of gender identities and erotic orientations on the arts; etc.

What is Sexuality and Gender Studies?

Sexuality and Gender Studies investigates human sexuality and gender identity from a broad, interdisciplinary, and cross-cultural perspective. Over the course of history and development of diverse cultures, notions of sexuality and gender have varied. Sexuality and Gender Studies pushes beyond a binary understanding of sex and gender, while interrogating the development and maintenance of norms. For example, a minor in Sexuality and Gender Studies helps students to question how gender identity, sexuality, and ideas of “normal” work in tandem with race, ethnicity, nationality, class, disability, age, religion, and more to create social categories that result in structural, institutional, and ideological inequality and oppression. This program draws from many disciplines, each one contributing a unique perspective on how we “live” our gender and sexuality, to enable students to analyze the myriad dimensions of human identity and experience that are shaped by sexuality and gender.

You Might Like This Program If...

- You want to translate your curiosities, experiences, passions and interests into actionable and meaningful work.
- You seek out inclusive environments, with persons of different backgrounds, cultures, and races to understand their points of view.
- You are passionate about gender equity, human rights, and social justice.
- You want to explore how gender and sexuality play a role in culture, the arts, literature, health, politics, the sciences, law, and education.
- You see yourself as a change agent in this world!

Career Paths
Employers today value effective communication, analytical thinking, and teamwork. With its emphasis on how gender, sexuality, race and other forms of diversity impact the experiences of every individual, this curriculum trains its minors to recognize the impacts of bias and unequal social power in the social, cultural and political arenas. Graduates enter their post-graduate world sensitive to diverse perspectives that can either facilitate or impede team building, problem solving, and negotiation.

Sexuality and Gender Studies graduates—no matter where their career paths lead—are committed to the kind of institutional and social change that values all voices, and supports social justice.

Careers
Sexuality and Gender Studies graduates from Penn State work in a wide variety of professions and industries. You will find us in the legal profession (one alumna runs her own legal firm, serving lower-income clients and gender-based discrimination cases). Others work in communications, marketing and advertising, business, banking and human resources. Activist students find their way into non-profits, advocacy groups, government, human development, journalism and communications. Women’s health is a dynamic field—medical care, nursing and research positions are out there, as well as health administration. Teaching attracts many of our graduates.

Opportunities for Graduate Studies
The scholarly field of Sexuality and Gender Studies prepares students to study some of the most complex challenges in a world where gender, race, class, sexuality and power are always intertwined. As an interdisciplinary field, it spans the arts and sciences, the humanities, and policy fields and provides applicable training for students seeking to continue their studies. Our scholars gain experience as researchers and teachers with the innovative tools to prepare them as leaders across the public, private and educational sectors.

Social Data Analytics, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
Social Data Analytics is an interdisciplinary major that prepares students to participate in both a research environment where “big data” is a major source of insight into social and political processes, and an economy increasingly organized around data analytics. Students completing the major will have the technical skills to handle, analyze, apply and present big data, and the disciplinary knowledge to draw valid inferences from such information to address real world problems. The program integrates coursework in the social sciences with courses in statistics, mathematics, information science and computer science to develop the unique skill set necessary to conceptualize data sources in relation to the social conditions from which they arise; to think critically about big data in relation to specific problems; and to derive and test hypotheses through application of data tools and techniques. Students will gain valuable practical experience working with data through a capstone experience and participation in faculty research.

This major is intended to produce graduates who are big picture thinkers with the knowledge to formulate good questions and leverage vast stores of unstructured data in answering them. Students will be prepared for careers in government, business, healthcare, and industry. The major also provides a strong foundation for advanced study in social science, law, business and public policy.

What is Social Data Analytics?
Social Data Analytics (SoDA) is an interdisciplinary major that teaches students to use the increasingly vast stores of information generated from social media, cell phones, “smart objects” and other technology that captures moment to moment changes in where people are, what they are doing and thinking, and with whom they are associating. This data (often called “social data” or “big data”) can help researchers and policy makers address a wide variety of political, economic and social problems.
It can be used, for example, to improve government services; to identify patterns of armed conflict, human rights abuses, and disease before they escalate; to enhance the efficiency of businesses; and to create more resilient communities in the face of climate change. Students in this major learn data analysis techniques and how to apply them to develop reliable answers to questions about the social and political world.

You Might Like This Program If...
You want to develop data analytics skills to solve real-world problems in the political, social, and economic arenas. The Social Data Analytics major combines social science, computer science, statistics, and visual communication to prepare students to use “big data” – effectively and ethically – to improve how people live and work together.

Entrance to Major
Admission to the major requires a grade of C or better in MATH 110 or MATH 140, MATH 111 or MATH 141, and CMPSC 122, and a grade of B or better in PLSC 309. These courses must be completed by the end of the semester during which the admission to major process is carried out.

Degree Requirements
For the Bachelor of Science degree in Social Data Analytics, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>90-92</td>
</tr>
</tbody>
</table>

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses, 6 credits of GS courses, and 3 credits of GH courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

### Additional Courses

### Additional Courses: Require a grade of C or better

- MATH 110 Techniques of Calculus I 4
- or MATH 140 Calculus With Analytic Geometry I 4
- MATH 111 Techniques of Calculus II 2-4
- or MATH 141 Calculus with Analytic Geometry II 2-4

Select one of the following: 3

- PLSC 3 Comparing Politics around the Globe
- PLSC 7N Contemporary Political Ideologies
- PLSC 14 International Relations
- PLSC 17N Introduction to Political Theory

Select one of the following: 3

- PHIL 106 Business Ethics
- PHIL 107 Philosophy of Technology
- PHIL 233 Ethics and the Design of Technology
- PHIL 406 Seminar in Business Ethics
- PHIL 407 Technology and Human Values
- STS 101 Modern Science, Technology, and Human Values

Select 15 credits (at least 12 credits at the 400 level) of PLSC courses 1

Select three of the following: 9

- CMPSC 431
- CMPSC 448 Machine Learning and Algorithmic AI
- CMPSC 465 Data Structures and Algorithms
- DS 320 Data Integration
- DS 402 Emerging Trends in the Data Sciences
- DS 410 Programming Models for Big Data
- STAT 319 Applied Statistics in Science
- STAT 440 Computational Statistics
- STAT 464 Applied Nonparametric Statistics

Analytics courses from a department list

1 A least 9 credits must be data intensive courses from a department list, including but not limited to PLSC 404, PLSC 429, PLSC 447, PLSC 476.
Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.
University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Career Paths

Businesses and governments increasingly need employees who know how to handle, analyze and communicate with and about large and complex bodies of information. Glass Door described being a data scientist as the “best job in America” in 2016 because these positions are abundant and they command high salaries. Employers need people who can turn data into insights about the kind of problems they are trying to solve. The Social Data Analytics major provides students with a unique interdisciplinary training that develops their ability to think about data in relation to the complex social realities from which it is generated.

Careers

Some Social Data Analytics majors will use their training with companies seeking new markets, improved work flows, more effective marketing, or better investment climates. Others may work for government agencies such as the Department of Defense, the National Institute of Health, the Department of Energy or the Department of State, forecasting political change and coordinating resources to improve human health and security. The degree also prepares students to be strategists for political campaigns or to work in law enforcement. Additionally, this degree is excellent preparation for a variety of graduate programs, including social science, public policy, urban planning, and law.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE SOCIAL DATA ANALYTICS PROGRAM (http://soda.la.psu.edu/job-opportunities/)

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (http://soda.la.psu.edu/major-requirements/)

Contact

University Park

202 Pond Lab

- You enjoy learning about all kinds of social groups and how individuals interact.
- You hope to pursue a career in research, education, social/human services, counseling, business, non-profit work, public policy, or the health professions.

## Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

## Degree Requirements

For the Bachelor of Arts degree in Sociology, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>20</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>38</td>
</tr>
</tbody>
</table>

4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 4 credits of General Education GQ courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0–12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

This degree may be combined with a minor such as Business/Liberal Arts, Human Development and Family Studies, or Information Systems and Statistical Analysis, among others.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

## General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

### Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

### Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

### Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

## University Degree Requirements

### First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

## Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

### Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

## Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

### Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

### Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
B.A. Degree Requirements

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**BA Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Total Credits 123

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

GRADUATES OF THE SOCIOLOGY PROGRAM

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR variety of careers in social science-oriented jobs. The Sociology degree prepares you for graduate school in sociology or a Career Paths. Additionally, you'll be well prepared to further your education in graduate and the impact of large scale events such as hurricanes, economic recessions, and social movements on individuals, groups, and societies. The workings of societies and the social world are often invisible to us as 1338 Sociology, B.S. (Liberal Arts) W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement. GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better. Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course. Bachelor of Arts Requirements: Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin. Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note: All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement. Career Paths Sociology offers you a background in research, data analysis, statistics, and sociological concepts. You can explore positions in social work, corrections, business, health services and government services. Additionally, you'll be well prepared to further your education in graduate school.

Careers The Sociology degree prepares you for graduate school in sociology or a variety of careers in social science-oriented jobs.

Opportunities for Graduate Studies Ranked among the top sociology programs in the nation, the Penn State Graduate Program in Sociology offers students the flexibility to study a wide range of topics, reflecting both the size and intellectual breadth of the faculty. Our department provides strong training in the areas of Demography, Families, Relationships and Interpersonal Networks, Quantitative Research Methods, Social Inequality, Urban and Community Studies, Health, Immigration and Incorporation.

Sociology, B.S. (Liberal Arts)

Sociology, B.S. (Liberal Arts)

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description Students may choose either a Bachelor of Arts or a Bachelor of Science degree program. The B.A. degree program provides a basic orientation to the field as a whole, study of its development and principles, training in methodology and study in depth of a major area of the discipline. It provides knowledge that is useful in a career in varied work settings as well as providing the foundation needed for graduate study in sociology of related fields.

What is Sociology?
Sociology is the scientific study of social behavior and human social groups from individual families to nations. Sociology focuses on the ways that social environments, such as family, neighborhood, school, and society influence individuals’ life options, advantages and disadvantages. Sociology also helps us understand how societies operate and change, and the impact of large scale events such as hurricanes, economic recessions, and social movements on individuals, groups, and societies. The workings of societies and the social world are often invisible to us as individuals - sociology helps to make these processes visible to us.

You Might Like This Program If...
• You are interested in understanding the social and environmental factors that influence our lives.
• You would like to learn the skills needed to conduct social research on important topics.
• You want to understand American society, how and why it changes, and our relation to the global community.
• You enjoy learning about all kinds of social groups and groups and how individuals interact.
- You hope to pursue a career in research, education, social/human services, counseling, business, non-profit work, public policy, or the health professions.

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**

For the Bachelor of Science degree in Sociology, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21-23</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>61-63</td>
</tr>
</tbody>
</table>

6 of the 45 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GQ courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/83-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

<table>

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 1</td>
<td>Introductory Sociology</td>
<td>3</td>
</tr>
</tbody>
</table>

**Prescribed Courses: Require a grade of C or better**

- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits
- Integrative Studies (may also complete a Knowledge Domain requirement)
  - Inter-Domain or Approved Linked Courses: 6 credits
Students must apply to the program via the Graduate School application for admission, and must meet all the admission requirements of the Graduate School and the Public Policy graduate program for the Master of Public Policy degree. GRE scores are not required for IUG applicants.

In consultation with an adviser, students must prepare a plan of study appropriate to this integrated program, and must present their plan of study in person to the head of the graduate program or the appropriate committee overseeing the integrated program prior to being admitted to the program. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser as the student advances through the program.

Advising
Students admitted to the program are advised by co-advisers, one from each participating unit. Each student will have a primary adviser in public policy who will work with the student and the co-adviser in sociology to ensure successful completion of the degree. The co-advisers will help the student prepare the initial plan of study, and assist in making changes and approving the student's plan of study each semester during the advising period.

Sequence of Courses
During the first three years of study students will follow the basic course sequence provided for by the existing BS plan in sociology. In the fourth year of study they will take four courses that will count toward the BS in sociology and the Master of Public Policy degree. At least two of these courses will be at the 500 level. Specifically, 2 of the 400 level sociology courses will count toward the MPP and 2 800 level MPP courses will count toward the sociology BS "other social science” credit requirements. Students who wish to graduate in 5 years will also take additional MPP courses in their fourth year beyond this two, but these credits will count only toward the MPP degree.

Plan of Study
Prior to admission to the program, and in consultation with their sociology and public policy advisers, students must prepare a detailed plan of study for years 4 and 5 of the program. The plan is periodically reviewed by the student and advisers, and revised as necessary. Most students will complete all requirements for the BS in sociology and the Master of Public Policy degree. At least two of these courses will be at the 500 level. Specifically, 2 of the 400 level sociology courses will count toward the MPP and 2 800 level MPP courses will count toward the sociology BS "other social science” credit requirements. Students who wish to graduate in 5 years will also take additional MPP courses in their fourth year beyond this two, but these credits will count only toward the MPP degree.

Degree Requirements
Students must fulfill all requirements for each degree in order to be awarded that degree, subject to the double-counting of credits as outlined below. Degree requirements for the B.S. in Sociology are listed in the Undergraduate Bulletin. Degree requirements for the M.P.P. degree are listed on the Degree Requirements tab. Up to 12 credits may be double-counted towards the degree requirements for both the graduate and undergraduate degrees; a minimum of 50% of the double-counted courses must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted. The courses that are eligible to double count for both degrees are listed on the Degree Requirements tab. Up to 12 credits may be double-counted towards the degree requirements for both the graduate and undergraduate degrees; a minimum of 50% of the double-counted courses must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted. The courses that are eligible to double count for both degrees are listed on the Degree Requirements tab.
Students must sequence their courses so all undergraduate degree requirements are fulfilled before taking courses to count towards the graduate degree. If students accepted into the IUG program are unable to complete the M.P.P. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

Program Learning Objectives

Upon completion of their degree, students majoring in sociology will be able to:

Content Knowledge:
1. Describe the focus of sociology as a discipline.
2. State what is distinctive about the sociological perspective.
3. Apply the sociological perspective to a problem or scenario.

Understanding of Theory:
1. Identify theories and concepts from classical sociological theories.
2. Apply theories and concepts from classical sociological theories.
3. Identify theories and concepts from contemporary sociological theories.
4. Apply theories and concepts from contemporary sociological theories.

Research Skills:
1. Demonstrate the ability to analyze and interpret quantitative sociological data using statistics, graphs, and data tables.
2. Do research that develops and tests hypotheses using data, including use of appropriate previous research, theory, data collection, statistical analysis techniques, interpretation of research results and development of conclusions.
3. Present research results in correct tabular and written form.

Communication Skills:
1. Write a paper following the format of published sociological research, including each of the major sections of a research paper.
2. Communicate the results of sociological research in oral form.

Knowledgeable Consumers of Research:
1. Comprehend and effectively extract central points from sociological research as this research is presented in professional articles, including substantive content, theory, methods and conclusions.

Career-Related Skills:
1. Demonstrate an understanding of the career options available to someone with a background in sociology.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 125

- Course requires a grade of C or better for the major

† Course requires a grade of C or better for General Education

‡ Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

### Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

### Commonwealth Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

http://abington.psu.edu/michael-bernstein-ph-d (http://abington.psu.edu/michael-bernstein-ph-d/)
Program Description
This major is designed to develop basic skills in speaking, understanding, reading, and writing Spanish. In addition, the program aims to acquaint students with the literature and civilization of the Hispanic world and introduce them to the study of Hispanic linguistics. Enough flexibility is provided to permit a degree of concentration in either Hispanic literature or linguistics. Specialized courses are offered in translation techniques and in the use of Spanish for social services. Courses taken in the University’s Education Abroad Program in Spain and Mexico may be applied to the major. In conjunction with the College of Education, students may take work leading to certification as Spanish teachers in the secondary or elementary schools.

Combined with course work in business, social welfare, or bilingual education, the B.A. in Spanish can facilitate entry into a number of professional areas. In addition, it provides the traditional foundation for advanced degree work required for such careers as college teaching and government service. Students are eligible to participate in the University’s Education Abroad Programs.

What is Spanish?
Spanish is the native language of nearly 500 million people, making it the second-most widely spoken language in the world. It is an official language in 21 countries, each with a rich history and culture that are reflected in the grammar, vocabulary and pronunciation of this one language in its many dialectal variations. It is one of the six official languages of the United Nations, and is the second most spoken language in the United States, which currently ranks as the third largest Spanish-speaking country in the world (after Mexico and Colombia).

You Might Like this Program If...
• You are passionate about serving others at home and abroad.
• You are fascinated by language, how it works, and how a language changes from one region to another.
• You understand that proficiency in Spanish opens a lot of doors.
• You want to share your passion for the Spanish language and culture with your students, in a career in education.
• You love to travel.
• You are a foodie, a film-buff, a word-gamer, or an adventurer.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Arts degree in Spanish, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>
</tr>
</tbody>
</table>
Bachelor of Arts Degree Requirements

Requirements for the Major 36

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

</table>

1. Heritage speakers (students with Spanish language in family background but not necessarily a native speaker) should take SPAN 100A and SPAN 301 instead of SPAN 100 and SPAN 110.

**Program Learning Objectives**

1. Students will have developed oral skills in Spanish that allow them to communicate efficiently in a range of settings from informal to professional.
2. Students will have developed literacy skills that allow them to read texts written for native speakers of Spanish. Majors should be able to understand and interpret a variety of media ranging from newspapers to literary texts to formal academic prose.
3. Students will have developed control of Spanish grammar and syntax as demonstrated in written work.
4. Students will have developed a broad cultural awareness of the Spanish-speaking world.
5. Students will be familiar with major authors and literary works from Spain and Latin America.
6. Students will have been strongly encouraged to spend at least one semester abroad immersed in the target language and its culture through a study abroad program.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
‡‡ Course satisfies General Education and degree requirement

1 Most students start at level 2 or 3. Students starting at level 1 may accelerate their progress by taking intensive SPAN 10 and 20 instead of the SPAN 1-3 sequence, or by taking 3-9 cr. of SPAN through the summer program in Seville, Spain or Puebla, Mexico.

2 Unless prior course has fulfilled that requirement, then pick an elective

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or
General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Career Paths
A degree in Spanish will prepare you to make a significant impact in the service of the Spanish-speaking community in the United States, as Spanish is increasingly necessary in the professions, business, and government. It will also open opportunities to live and work abroad, whether in vibrant, modern cities or in the service of developing communities. With your enhanced communication skills and global awareness, you will be a strong candidate for almost any job. If teaching is your passion, your Spanish degree will lead to your success in the Spanish language classroom at home, and the English language classroom abroad.

Careers
Your degree in Spanish will be highly prized by employers in business, who value international competence; in government, who need both your Spanish proficiency and the cultural awareness acquired in learning a language; in medicine, where health care practitioners who speak Spanish are in great demand and short supply; in law and law enforcement, where too few are trained to address the needs and interests of Spanish speakers. Research in Spanish Linguistics promises insights into the nature of language learning and processing; Spanish literature and film scholars are dispelling myths and stereotypes toward a more informed view of Hispanic realities.

Opportunities for Graduate Studies
A Bachelor of Arts degree in Spanish will prepare students for a teaching career and is extremely valuable in many other career paths and choices. It can also lead to advanced degrees in Spanish literature or linguistics, general linguistics, second language acquisition, comparative literature, law, medicine, international business, international relations or politics, education, translation and interpretation, environmental and sustainability studies, and labor and employment relations.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description
This major encourages students to prepare for careers in which fluency in Spanish can be combined with training in other academic disciplines.

Applied Spanish Option
This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to provide Spanish majors with concentration in a professional area where a command of Spanish can be particularly relevant and useful. Students are eligible to participate in the University’s Education Abroad Programs.

Business Option
This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to acquaint students with a number of fields essential to business, especially in the international area. Courses in translation techniques, Spanish civilization, and Ibero-American civilization are an integral part of the option. Students are eligible to participate in the University’s Education Abroad Programs.

What is Spanish?
Spanish is the native language of nearly 500 million people, making it the second-most widely spoken language in the world. It is an official language in 21 countries, each with a rich history and culture that are reflected in the grammar, vocabulary and pronunciation of this one language in its many dialectal variations. It is one of the six official languages of the United Nations, and is the second most spoken language in the United States, which currently ranks as the third largest Spanish-speaking country in the world (after Mexico and Colombia).

You Might Like This Program If...
- You are passionate about Spanish and eager to use it professionally.
- You understand that proficiency in Spanish opens a lot of doors.
- You love to travel.
- You want to make your passion for the Spanish language and culture work for you, and for your future employer.
- You look forward to serving the Spanish-speaking community in the United States as a bilingual professional.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements
For the Bachelor of Science degree in Spanish, a minimum of 122 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>17-19</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>60-71</td>
</tr>
</tbody>
</table>

0-13 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-4 credits of GQ courses; 0-6 credits of GS courses, 0-3 credits of GWS courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree
is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.

Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1. Heritage speakers (students with Spanish language in family background) and native speakers of Spanish should take SPAN 100A and SPAN 301 instead of SPAN 100 and SPAN 200. May not take SPAN 410.

**Requirements for the Option: Applied Spanish Option (39 credits)**

This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to provide Spanish majors with concentration in a professional area where a command of Spanish can be particularly relevant and useful. Students are eligible to participate in the University’s Education Abroad Programs.

**Supporting Courses and Related Areas: Require a grade of C or better**

Select 21 credits (at least 6 credits at the 400 level) in consultation with the adviser in any related area of study such as social services, the teaching of English as a second language, or in any other professional area in which competency in Spanish is desirable.

**Business Option (50 credits)**

This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to acquaint students with a number of fields essential to business, especially in the international area. Courses in translation techniques, Spanish civilization, and Ibero-American civilization are an integral part of the option. Students are eligible to participate in the University's Education Abroad Programs.

Integrated Spanish B.S. and Human Resources and Employment Relations M.S. Degree Programs (SPHRER)

The integrated Spanish B.S. and HRER M.S. is a five-year program designed for highly qualified and motivated students seeking employment within a culturally diverse workplace. Students will develop basic skills in speaking, understanding, reading, and writing Spanish. Students will gain familiarity with Hispanic cultures through literature and the University's Education Abroad Program, if they choose to have that experience. Students also will learn about (1) the roles of employers, employees, employee organizations, and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, and (3) how to systematically analyze those complex issues and evaluate research relevant to those analyses.

For the B.S./M.S. degree in Integrated Spanish B.S. and Human Resources and Employment Relations M.S., a minimum of 154 credits is required. Twelve graduate level credits can apply to both undergraduate and graduate degrees; six of these must be at the 500 level. Students can complete the B.S. in Spanish (Applied Spanish Option) and not advance and graduate degrees; six of these must be at the 500 level. Students can complete the B.S. in Spanish (Applied Spanish Option) and not advance to the M.S. HRER degree if they desire.

Admission Requirements

Students apply to the program via the Graduate School application for admission (http://gradschool.psu.edu/prospective-students/how-to-apply/), and must meet the admission requirements of the Graduate School (http://gradschool.psu.edu/graduate-education-policies/), as well as the admission requirements for the Master of Science degree in HRER, listed above.

The number of openings in the integrated B.S./M.S. program will be limited to undergraduates with strong academic records. Applicants to the integrated program:

- must be enrolled in the Spanish B.S. Applied Spanish Option
- shall be admitted no earlier than the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;
- must have an overall GPA of 3.2 (on a 4.0 scale) in undergraduate course work and a minimum GPA of 3.5 in the major;
- must obtain letters of recommendation from the chairs of the Spanish undergraduate committee and the HRER graduate committee; and
- must submit a writing sample, 2 transcripts, 1 letter of recommendation (in addition to those from the chairs of the Department's undergraduate and graduate committees), and a career statement.

In consultation with an adviser, students must prepare a plan of study appropriate to this integrated program. Students must present their plan of study in person to the head of the graduate program or the appropriate committee overseeing the integrated program prior to being admitted to the program. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser as the student advances through the program.

No GRE or GMAT scores are required for admission to the program.

Requirements for the Major

This includes 0-10 credits of General Education courses: 6 credits of GS courses; 4 credits of GQ courses.

Applied Spanish Requirements (39 Credits)

This major is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to provide Spanish majors with concentration in a professional area where a command of Spanish can be particularly relevant and useful. Students are eligible to participate in the University's Education Abroad Programs.

Thesis Track
Students complete 6 credits of HRER 600 (Thesis Research) or HRER 610 (Thesis Research Off-Campus)

Program Learning Objectives
1. Students will have developed oral skills in Spanish that allow them to communicate efficiently in a range of settings from informal to professional.
2. Students will have developed literacy skills that allow them to read texts written for native speakers of Spanish. Majors should be able to understand and interpret a variety of media ranging from newspapers to literary texts to formal academic prose.
3. Students will have developed control of Spanish grammar and syntax as demonstrated in written work.
4. Students will have developed a broad cultural awareness of the Spanish-speaking world.
5. Students will be familiar with major authors and literary works from Spain and Latin America.
6. Students will have been strongly encouraged to spend at least one semester abroad immersed in the target language and its culture through a study abroad program.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Applied Spanish Option
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
†† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡† Course satisfies General Education and degree requirement

Most students start at level 2 or 3. Students starting at level 1 may accelerate their progress by taking intensive SPAN 10 and 20 instead of the SPAN 1-3 sequence, or by taking 3-9 cr. of SPAN through the summer program in Seville, Spain or Puebla, Mexico.

In consultation with SPAN adviser

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Advising Note:

All incoming freshmen must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Business Option

The course series listed below provides only one of the many possible ways to move through this curriculum. Career Paths

A Bachelor of Science in Spanish will prepare you to shape the career you want, combining strong Spanish skills with a depth of knowledge in another discipline. Whether choosing the Business or Applied Option, majors will find careers in medicine, law, government, education, sociology, psychology, agriculture, international relations, politics, or business, especially those companies with a strong international presence or those whose market includes the US Hispanic Community. As a complement to any major, this major will improve your communication skills as well as your international awareness, making you a stronger candidate in today’s global market.

Careers

Your Bachelor of Science in Spanish will be valued by employers who seek international expertise, including global corporations in finance and accounting, the travel industry, high tech companies, automobile companies, and import/export companies. Increasing numbers of U.S. companies are looking for Spanish speakers to work in telecommunications, health care services, real estate, and advertising and marketing to domestic Spanish-speaking consumers. Human Resource Directors need Spanish-speakers on their teams, and the hospitality industry hires many Spanish-speakers to fill management, sales, and marketing positions. Spanish is in great demand in the burgeoning business of eco-tourism, but students with this degree are also prepared to be teachers of Spanish, social workers whose work requires proficiency in Spanish, counselors whose clients include Spanish speakers, as well as doctors, lawyers, psychologists, foreign service officers, and other government officials.

Opportunities for Graduate Studies

Students wishing to continue on to graduate study will find that this degree may lead to advanced degrees in business administration, labor and employment relations, hotel and restaurant management, environmental and sustainability studies, public relations, second language acquisition, Spanish linguistics, and translation and interpretation. This degree is also excellent preparation for advanced degrees in anthropology, sociology, psychology, education, medicine, law, international relations or politics.

Spanish, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.
What is Spanish?

Spanish is the native language of nearly 500 million people, making it the second-most widely spoken language in the world. It is an official language in 21 countries, each with a rich history and culture that are reflected in the grammar, vocabulary and pronunciation of this one language in its many dialectal variations. It is one of the six official languages of the United Nations, and is the second most spoken language in the United States, which currently ranks as the third largest Spanish-speaking country in the world (after Mexico and Colombia).

You Might Like This Program If...

- You are majoring in a social science and may wish to serve the Spanish-speaking community.
- You like Spanish, but the demands of your major prevent you from majoring in it.
- You understand that familiarity with Spanish opens doors.
- You want to share your interest in the Spanish language and culture with your students, in a career in education.
- You want to travel.
- You are a foodie, a film-buff, a word-gamer, or an adventurer.

Program Requirements

**Requirements for the Minor**

Courses that do not require knowledge of Spanish may not be counted toward the minor.

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Supporting Courses and Related Areas

Select 3 credits of the following: 3

- SPAN 210 | Readings in Iberian Civilization                                    |
- SPAN 220 | Readings in Ibero-American Civilization                           |
- SPAN 297 | Special Topics                                                    |

¹ Heritage speakers (students with Spanish language in family background) and native speakers of Spanish should take SPAN 100A and SPAN 301 instead of SPAN 100 and SPAN 200. May not take SPAN 410.

SPAN 199, SPAN 299, SPAN 399, and SPAN 499 (Study Abroad - Spanish) and SPAN 197, SPAN 297, SPAN 397, SPAN 497 (Special Topics Courses) may also be applied to the Spanish minor and will be substituted for the appropriate course by the Spanish minor adviser. All courses taken abroad must be taught in Spanish.

NOTE: SPAN 130, SPAN 131, SPAN 230 and any course that does not require a knowledge of Spanish do not count toward the Spanish minor.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
A minor in Spanish enhances almost any major, as it indicates a level of proficiency that employers in government, business, law, medicine, and education value. If in addition to completing a minor you have also studied in Spain or Latin America, you will find that your knowledge of Spanish language and culture will place you ahead of other applicants. You will very likely discover that while you may not be hired because of your Spanish skill, it will never be irrelevant. When your employer realizes you can communicate with foreign clients, vendors, officials, patients, students, migrants, your stock may soar.

Careers
Your minor in Spanish will appeal to employers in business, who value international competence; in government, where you may find a career with almost every agency serving an increasing Hispanic population; in medicine, where health care practitioners with knowledge of Spanish are in great demand; in law and law enforcement, where too few are trained to address the needs and interests of Spanish speakers. No matter what your major might be, or where your career may take you, your Spanish minor will be a significant career enhancer.

Opportunities for Graduate Studies
A minor in Spanish will cover your foreign language requirement in graduate school. It will also strengthen your application to graduate school in certain fields, including comparative literature, international relations or politics, medicine, law, cultural anthropology, and sociology.

Teaching English to Speakers of Other Languages, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The minor in Teaching English to Speakers of Other Languages (TESOL) provides students, regardless of academic major, with basic professional knowledge and skills in the teaching of English as a second language (ESL) in adult programs in the United States and English-as-a-foreign-language (EFL) in settings abroad. It is also excellent preparation for graduate work in TESOL and Applied Linguistics.

The program of study includes an introduction to the study of language use, culture, and social interaction from a variety of perspectives, to the role of English in globalization processes and to how globalization
changes the structure, norms, and usage of English. It also provides students with an overview of current theories and practices in the teaching of English language and culture, and practical experiences in and basic tools for planning, delivering, and evaluating instruction.

Individuals who obtain a minor in TESOL may participate in one of the teaching exchanges sponsored by the Department of Applied Linguistics upon graduation. They may also find teaching positions in private language institutes or as private language tutors in the United States and abroad as well as through organizations such as the Peace Corps and the Fulbright Exchange.

This minor does not duplicate other undergraduate degree programs within the department, college or University. It may be pursued concurrently with any undergraduate major.

What is Teaching English To Speakers of Other Languages?
The Teaching English to Speakers of Other Languages (TESOL) Minor prepares you to teach adult English language learners (ELLs) in the U.S. and abroad. Through the coursework and hands-on experiences, you get the practical knowledge and skills you need to work with culturally and linguistically diverse adults in entry-level teaching and tutoring opportunities. As a speaker of English, regardless of where you go or why you go there, you may be asked to teach or tutor ELLs. The TESOL Minor can be a valuable addition to any major as you can from this list of majors our TESOL Minor students represent: Anthropology Arts and Architecture Asian Studies Community, Education and Development Communication Sciences and Disorders Education and Public Policy English Journalism Psychology We would like to add your major to our list!

You Might Like This Program If...
- You enjoy working with people from other cultures and language backgrounds.
- You want to go abroad, join the Peace Corps, apply for a Fulbright Exchange Program or Critical Languages Scholarship.
- You want to work with adult English language learners in the U.S. or overseas.

Women's Studies, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This interdisciplinary major is designed to develop a broad understanding of the study of women and women's perspectives in all areas of academic scholarship. The focus is on feminist analyses of women's lives, of women's social, cultural, and scientific contributions, and of the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curricular structure that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation.

What is Women's Studies?
Women's Studies explores the intersection of identity, social power, and privilege. Concerned with how societies “construct” inequality and social bias, Women's Studies analyzes every aspect of our lives through a critical lens, without filtering out impacts of socio-political inequalities, and lived experiences of women and their families. With cross-listed courses in Anthropology, Communications, Government, History, Psychology, Sociology, Women's Health and more fields, students can approach Women's Studies from almost any direction. Alongside the U.S. history of women and feminist movement, “transnational” feminism offers a wider comparative study of: constructions of gender across cultures; the legal and political standing of women and marginalized populations; the nature and impacts of gender-based violence, mass migration, militarization, climate change, food insecurity and other contemporary challenges on the physical, social and political wellbeing of women around the globe.

You Might Like This Program If...

• You want to translate your curiosities, experiences, passions and interests into actionable and meaningful work.
• You seek out inclusive environments, with persons of different backgrounds, cultures, and races to understand their points of view.
• You are passionate about gender equity, human rights, and social justice.
• You want to explore how gender and sexuality play a role in culture, the arts, literature, health, politics, the sciences, law, and education.
• You see yourself as a change agent in this world!

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

Women's Studies, B.A.

Begin Campus: Any Penn State Campus
End Campus: University Park

Program Description
This interdisciplinary major is designed to develop a broad understanding of the study of women and women's perspectives in all areas of academic scholarship. The focus is on feminist analyses of women's lives, of women's social, cultural, and scientific contributions, and of the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curricular structure that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation.

What is Women's Studies?
Women's Studies explores the intersection of identity, social power, and privilege. Concerned with how societies “construct” inequality and social bias, Women's Studies analyzes every aspect of our lives through a critical lens, without filtering out impacts of socio-political inequalities, and lived experiences of women and their families. With cross-listed courses in Anthropology, Communications, Government, History, Psychology, Sociology, Women's Health and more fields, students can approach Women's Studies from almost any direction. Alongside the U.S. history of women and feminist movement, “transnational” feminism offers a wider comparative study of: constructions of gender across cultures; the legal and political standing of women and marginalized populations; the nature and impacts of gender-based violence, mass migration, militarization, climate change, food insecurity and other contemporary challenges on the physical, social and political wellbeing of women around the globe.

You Might Like This Program If...

• You want to translate your curiosities, experiences, passions and interests into actionable and meaningful work.
• You seek out inclusive environments, with persons of different backgrounds, cultures, and races to understand their points of view.
• You are passionate about gender equity, human rights, and social justice.
• You want to explore how gender and sexuality play a role in culture, the arts, literature, health, politics, the sciences, law, and education.
• You see yourself as a change agent in this world!

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

Degree Requirements

For the Bachelor of Arts degree in Women’s Studies, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Engagement Plan; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).
### Prescribed Courses

**Prescribed Courses: Require a grade of C or better**

- WMNST 301
- WMNST 400N
- WMNST 492W

**Prescribed Courses**

- Debates in Contemporary Feminism
- Contemporary Feminist Analysis: The Capstone Senior Seminar

### Additional Courses

**Additional Courses: Require a grade of C or better**

- Select one of the following:
  - WMNST 83N
  - WMNST 100
  - WMNST 106N

- Select one of the following:
  - WMNST 494
  - WMNST 495
  - WMNST 496

### Supporting Courses and Related Areas

**Supporting Courses and Related Areas: Require a grade of C or better**

- Select 6 credits from the program-approved list at the 100-200 level
- Select 15 credits (at least 3 credits at the 400 level) in Women's Studies from the program-approved list and in consultation with an adviser, including:
  - 3 credits of arts and humanities courses
  - 6 credits of natural or social sciences courses
  - 3 credits that focus on non-Western women
  - 3 credits that focus on women of color in the United States

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### University Park Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

Total Credits 123

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Advising Notes:**

This document is only for planning purposes. Most students are ‘off the plan’ after one semester. At the campuses, students may sub WMNST 301 with any WMNST course if not available.

Students need at least 24 credits in WMNST courses completed at UP due to competency requirements. Campus advisers may make work UP advisers if they have questions about their current students.

Two general education courses (GQ, GN, GA, GH, GS) must be integrative studies courses - Inter-Domain or Linked.

Depending on placement and proficiency, world language courses may need to be replaced with elective credits.

---

**Career Paths**

Employers today value effective communication, analytical thinking, and teamwork. With its emphasis on how gender, sexuality, race and other forms of diversity impact the experiences of every individual, the Women’s Studies curriculum trains its majors to recognize the impacts of bias and unequal social power in the social, cultural and political arenas. Graduates enter their post-graduate world sensitive to diverse perspectives that can either facilitate or impede team building, problem solving, and negotiation. Women’s Studies graduates—no matter where their career paths lead—are committed to the kind of institutional and social change that values all voices, and supports social justice.

**Careers**

Women’s Studies graduates from Penn State work in a wide variety of professions and industries. You will find us in the legal profession (one alumna runs her own legal firm, serving lower-income clients and gender-based discrimination cases). Others work in communications, marketing and advertising, business, banking and human resources. Activist students find their way into non-profits, advocacy groups, government, human development, journalism and communications. Women’s health is a dynamic field—medical care, nursing and research positions are out there, as well as health administration. Teaching attracts many of our graduates.

**Opportunities for Graduate Studies**

The scholarly field of Women’s, Gender, and Sexuality Studies prepares students to study some of the most complex challenges in a world where gender, race, class, sexuality, and power are always intertwined. As an interdisciplinary field, WGSS spans the arts and sciences, the humanities, and policy fields and provides applicable training for students seeking to continue their studies. Our scholars gain experience as researchers and teachers with the innovative tools to prepare them as leaders across the public, private, and educational sectors.

**Women’s Studies, B.S.**

Begin Campus: Any Penn State Campus

End Campus: University Park

**Program Description**

This interdisciplinary major is designed to develop a broad understanding of the study of women and women’s perspectives in all areas of
academic scholarship. The focus is on feminist analyses of women's lives, of women's social, cultural, and scientific contributions, and of the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curricular structure that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation.

Students may choose either a Bachelor of Arts or a Bachelor of Science Program. The B.A. degree in Women's Studies is a traditional Women's Studies degree. The B.S. degree is intended for students with strong interest in quantitative skills, women's health and sexuality, and/or women and science, or who wish to pursue a multiple major program with other B.S. degree programs.

What is Women's Studies?

Women's Studies explores the intersection of identity, social power, and privilege. Concerned with how societies "construct" inequality and social bias, Women's Studies analyzes every aspect of our lives through a critical lens, without filtering out impacts of socio-political inequalities, and lived experiences of women and their families. With cross-listed courses in Anthropology, Communications, Government, History, Psychology, Sociology, Women's Health and more fields, students can approach Women's Studies from almost any direction. Alongside the U.S. history of women and feminist movement, "transnational" feminism offers a wider comparative study of: constructions of gender across cultures; the legal and political standing of women and marginalized populations; the nature and impacts of gender-based violence, mass migration, militarization, climate change, food insecurity and other contemporary challenges on the physical, social and political wellbeing of women around the globe.

You Might Like This Program If...

- You want to translate your curiosities, experiences, passions and interests into actionable and meaningful work.
- You seek out inclusive environments, with persons of different backgrounds, cultures, and races to understand their points of view.
- You are passionate about gender equity, human rights, and social justice.
- You want to explore how gender and sexuality play a role in culture, the arts, literature, health, politics, the sciences, law, and education.
- You see yourself as a change agent in this world!

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Science degree in Women's Studies, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21-30</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>57</td>
</tr>
</tbody>
</table>

3-12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3-6 credits of GQ courses, 0-3 credits of GH courses, and 0-3 credits of GS courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas: Require a grade of C or better
Select 15 credits total from the following groups with at least 3 credits from each group:

- WMNST 83N First-Year Seminar in Women's Studies
- WMNST 101 The African American Woman
- WMNST 102 Women of Color: Cross-Cultural Perspective
- WMNST 104 Women and the American Experience
Quantification (GQ) and Research Methods
Values, Ethics, and Scientific Inquiry
Social and behavioral sciences, health sciences, or natural sciences

1 The same course may be used to fulfill more than one requirement within Additional Courses.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### University Park Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.
Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Advising Notes:

This document is only for planning purposes. Most students are 'off the plan' after one semester. At the campuses, students may sub WMNST 301 with any WMNST course if not available.

Students need at least 24 credits in WMNST courses completed at UP due to competency requirements. Campus advisers may make work UP advisers if they have questions about their current students.

Two general education courses (GQ, GN, GA, GH, GS) must be integrative studies courses - Inte-Domain or Linked.

12 credits of Major Supporting and Related Courses could fulfill general education requirements as well, which would mean a student needs more electives than what are listed here.

Career Paths

Employers today value effective communication, analytical thinking, and teamwork. With its emphasis on how gender, sexuality, race and other forms of diversity impact the experiences of every individual, the Women’s Studies curriculum trains its majors to recognize the impacts of bias and unequal social power in the social, cultural and political arenas. Graduates enter their post-graduate world sensitive to diverse perspectives that can either facilitate or impede team building, problem solving, and negotiation. Women’s Studies graduates—no matter where their career paths lead—are committed to the kind of institutional and social change that values all voices, and supports social justice.

Careers

Women's Studies graduates from Penn State work in a wide variety of professions and industries. You will find us in the legal profession (one alumna runs her own legal firm, serving lower-income clients and gender-based discrimination cases). Others work in communications, marketing and advertising, business, banking and human resources. Activist students find their way into non-profits, advocacy groups, government, human development, journalism and communications. Women’s health is a dynamic field—medical care, nursing and research positions are out there, as well as health administration. Teaching attracts many of our graduates.

Opportunities for Graduate Studies

The scholarly field of Women’s, Gender, and Sexuality Studies prepares students to study some of the most complex challenges in a world where gender, race, class, sexuality, and power are always intertwined. As an interdisciplinary field, WGSS spans the arts and sciences, the humanities, and policy fields and provides applicable training for students seeking to continue their studies. Our scholars gain experience as researchers and teachers with the innovative tools to prepare them as leaders across the public, private, and educational sectors.

Women's Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

This interdisciplinary minor is designed to develop a broad understanding of the study of women and women’s perspectives in all areas of academic scholarship. The primary focus is on feminist analyses of women’s lives, women’s social, cultural, and scientific contributions, and the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curriculum that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women’s lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation. The Women’s Studies minor emphasizes the development of critical and analytical skills, creative approaches to problem solving, and the ability to articulate productive alternatives.

Women’s Studies minors have a definite career advantage, and can be successful in a wide variety of career paths. Some of these include:

• legal advocacy
• counseling
• journalism
• public relations
• management
• nonprofit administration
• teaching
• medicine
• politics
• art

In addition, many alumnae/i are currently studying in professional, law, or graduate schools.

What is Women's Studies?

Women’s Studies explores the intersection of identity, social power, and privilege. Concerned with how societies “construct” inequality and social bias, Women's Studies analyzes every aspect of our lives
through a critical lens, without filtering out impacts of socio-political inequalities, and lived experiences of women and their families. With cross-listed courses in Anthropology, Communications, Government, History, Psychology, Sociology, Women’s Health and more fields, students can approach Women’s Studies from almost any direction. Alongside the U.S. history of women and feminist movement, “transnational” feminism offers a wider comparative study of: constructions of gender across cultures; the legal and political standing of women and marginalized populations; the nature and impacts of gender-based violence, mass migration, militarization, climate change, food insecurity and other contemporary challenges on the physical, social and political wellbeing of women around the globe.

You Might Like This Program If...
- You want to translate your curiosities, experiences, passions and interests into actionable and meaningful work.
- You seek out inclusive environments, with persons of different backgrounds, cultures, and races to understand their points of view.
- You are passionate about gender equity, human rights, and social justice.
- You want to explore how gender and sexuality play a role in culture, the arts, literature, health, politics, the sciences, law, and education.
- You see yourself as a change agent in this world!

Program Requirements

Requirements for the Minor
A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

World Literature, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in World Literature enables students to create a package of literature courses tailored to their interests. It offers an international approach to the study of literatures and cultures around the globe. A Senior Seminar is the culminating course. Education abroad can be included in this minor.

What is World Literature?

World Literature is component of comparative literature, a discipline of literary studies that explores exciting approaches to literature and culture in a global context. It also examines global media (print, visual, electronic), and engages with questions of ethics, human rights, and the real world contexts of literary and cultural production.

MORE INFORMATION ABOUT WORLD LITERATURE (http://complit.la.psu.edu/undergraduate/)

You Might Like This Program If...

• You are curious about other cultures beyond your own and want to learn to think critically and creatively about cultural difference and convergence in our interconnected world.
• You want to acquire important skills such as analytical writing, argumentation, and communication in an international context.

Career Paths

World Literature will give you a deeper understanding of this planet and its people. It will train you in important skills such as analytical writing, argumentation, and communication in an international context. The study of world literature in our program gives students in professional and technical areas the “soft skills” that allow them to stand out from
other applicants when they enter the job market and to build long-lasting careers out of the first job. World Literature will expand your professional and intellectual options, not only immediately after graduation, but for the rest of your life.

Careers
A Minor in World Literature will aid you in finding employment in domestic and international business, public relations, publishing, education, non-profit organizations, and museum acquisitions. Our alumni also pursue graduate degrees in advanced literary studies, law, and library science; and they have become professors, attorneys, librarians, and leaders in business, private institutions, and government service.

Nursing
About the College
Laurie Badzek, Dean and Professor, College of Nursing

Penn State’s Nursing program began in 1964 to provide an academically-grounded, clinical training program for future nurses. Since then, the College of Nursing (CON) has steadily evolved to meet the demands of modern healthcare and provide diverse, hands-on clinical experiences, a well-rounded classroom curriculum and cutting-edge technology to today’s students. Through three unique Nursing degree programs - General Bachelor of Science in Nursing (B.S.N.) (https://www.nursing.psu.edu/general-bsn-degree-program/), Second Degree in Nursing (https://www.nursing.psu.edu/second-degree-program/) and R.N. to B.S.N. (https://www.nursing.psu.edu/rn-to-bsn-degree-program/) - Penn State provides opportunities for students to begin their journey into nursing or expand their nursing education in ways that fit their needs. Students in the CON have the rich benefits of the extensive Penn State system, while also connecting closely with colleagues, faculty and staff within our small college. Through the College’s commitment to improve the lives of others, our students are empowered to provide high-quality and compassionate healthcare to the people they serve.

Mission and Goals
The mission of the College of Nursing is to improve healthcare for all people in the Commonwealth of Pennsylvania, the nation and the world through the development of qualified nurse leaders at all levels of practice, the development of nursing science, and the provision of nursing care to individuals, families and communities. This is accomplished through the integrated programs of nursing, education, research, scholarship and outreach.

Accreditation
The Bachelor of Science in Nursing Programs are approved by the Pennsylvania State Board of Nursing and accredited by the:

Commission on Collegiate Nursing Education (CCNE)
655 K Street, NW
Suite 750
Washington, DC 20001
202-887-6791 - Phone
202-887-8476 – Fax
http://www.aacnnursing.org/CCNE

Baccalaureate Degrees
• Nursing, B.S.N.
• Nursing, R.N. to B.S.N.

Certificates
• Nursing Forensics, Certificate
• Nursing Informatics, Certificate
• Nursing Management, Certificate

College Procedures
Change of Campus
General B.S.N. and Second Degree students must start and remain at the campus to which they are admitted into the Nursing program. University Park students are required to spend one full academic year at the Penn State Milton S. Hershey Medical Center. R.N. to B.S.N. students may request a temporary or permanent change of campus (http://www.registrar.psu.edu/change_campus/change_campus.cfm#temporary) to an alternative campus. Students initiate this request using the Update Campus application (http://lionpathsupport.psu.edu/student-help/) found in the Student Center of LionPATH.

Concurrent Majors
A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Nursing students may be eligible for a concurrent major with careful, proactive consultation with academic advisers in both programs. Nursing is always considered the primary major. Due to the progressive nature of nursing education, students are expected to prioritize their Nursing curriculum over that of their concurrent major. Students should consult with their Nursing academic adviser prior to declaring a concurrent major.

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/#60-00-completing-more-than-one-undergraduate-program/#60-00)

Academic Warning
The College of Nursing’s Academic Progression Policy supersedes University policy on Academic Warning for General B.S.N. and Second Degree Students. A student who fails to earn a 2.00 cumulative grade-
point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the student must reach a cumulative grade-point average of 2.00 or higher.

MORE INFORMATION ABOUT ACADEMIC WARNING (https://www.nursing.psu.edu/academic-warnings-and-suspensions/)

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

**Academic Suspension**

The College of Nursing’s Academic Progression Policy supersedes University policy on Academic Suspension for General B.S.N. and Second Degree Students. A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

MORE INFORMATION ABOUT ACADEMIC SUSPENSION (https://www.nursing.psu.edu/academic-warnings-and-suspensions/)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)

**Resources**

**Academic Advising**

Once admitted to the program, all students will be assigned to an academic or faculty adviser according to their campus location. The University Park/World Campus Academic Advising office is located in 210 Nursing Sciences Building and can be reached by calling 814-863-2229 or emailing nursing@psu.edu.

MORE INFORMATION ABOUT ACADEMIC ADVISING (https://www.nursing.psu.edu/student-handbooks/)

**Academic Support**

The Academic Success Team consists of the student, course coordinators, clinical faculty, Academic Success Coach and professionals from a variety of campus resources. Students may be referred to the Academic Success Coach by faculty or staff, or may independently request support for nursing courses starting in the sophomore year.

MORE INFORMATION ABOUT ACADEMIC SUPPORT (https://www.nursing.psu.edu/student-handbooks/)

**Diversity and Inclusion Initiatives**

The College of Nursing’s Office for Diversity and Inclusion fosters a welcoming and inclusive community while promoting and enhancing the diversity of the College’s students, faculty, and staff. Our goal is to support the College’s efforts related to recruitment, retention, development and graduation of underrepresented students in Nursing. For more information, please contact 814-863-2229.

MORE INFORMATION ABOUT DIVERSITY AND INCLUSION INITIATIVES (https://www.nursing.psu.edu/diversity-inclusion/)

**Men in Nursing**

Men in Nursing facilitates opportunities for networking and mentoring and assists interested males with information about the nursing major. Additionally, Men in Nursing actively promotes men’s health, influencing factors that affect men as nurses, and joins with all nursing students and nurses in providing services and support for the underprivileged.

MORE INFORMATION ABOUT MEN IN NURSING (https://orgcentral.psu.edu/organization-men-in-nursing/)

**Multi-Cultural Students Nurses Association (MSNA)**

The Multi-Cultural Students Nurses Association was recently formed to provide an inclusive environment to multicultural students and allies in the nursing major. MSNA coordinates social events and educational opportunities that create a safe space for students to strengthen community and develop professional skills for career success.

**Student Nurses’ Association of Pennsylvania (SNAPS)**

The Student Nurses’ Association at Penn State (SNAPS) chapter is open to all nursing students. Members take part in professional development, community service and social events such as Homecoming, THON, Relay for Life, career fairs, state and national conventions, workshops and numerous other activities throughout the year.

MORE INFORMATION ABOUT THE STUDENT NURSES’ ASSOCIATION OF PENNSYLVANIA (SNAPS) (http://www.snap.psu.edu/)

**Study Abroad**

B.S.N. students in the General Nursing Option have the opportunity to study abroad. However, due to the sequential nature of the Nursing curriculum, students who wish to stay “on time” with their program may study abroad only during the summer or semester breaks, or with an embedded program of shorter duration. The College of Nursing offers embedded programs during the academic year for upper-level students. Other international experiences can be arranged through Global Penn State.

MORE INFORMATION ABOUT STUDY ABROAD OPPORTUNITIES (https://www.nursing.psu.edu/study-abroad/)

**Honors Programs**

**Schreyer Honors College**

The Schreyer Honors College, regarded as one of the nation’s top programs of its kind, promotes achieving academic excellence with integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including those admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve educational practice, and to continue to be recognized as a leading force in honors education nationwide.

MORE INFORMATION ABOUT THE SCHREYER HONORS COLLEGE (http://www.shc.psu.edu)
Honors in the College of Nursing

Nursing students in the Schreyer Honors Program are expected to demonstrate excellent academic achievement with integrity, build a global perspective, and seek opportunities for leadership and civic engagement. In addition to completing B.S.N. program requirements, honors students engage in academic enrichment including honors courses, research placement and the completion of a thesis. College of Nursing students may pursue Schreyer Honors College (SHC) in one of two ways:

1. First-year applicants may apply to SHC (https://www.shc.psu.edu/admissions/apply/firstyear.cfm) at the time of application to the College of Nursing.
2. Current Nursing undergraduates may have the opportunity to seek entry to the SHC in the spring of sophomore year, through a process known as the Junior Gateway. Please be aware that this opportunity is contingent upon available space in the current Nursing Schreyer cohort.

Nursing Forensics, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

This 12-credit certificate introduces students to forensic health sciences, forensic nursing, and the nursing role in the scientific investigation of violence. Through this course series, nurses gain foundational forensics knowledge and skills, including evidence collection and preservation; forensic documentation; recognition of domestic violence, assault, and stalking; related public policy and regulatory guidelines; and legal and ethical issues. This program prepares nurses to provide care that is more specialized for victims and perpetrators of physical, psychological, and social violence or abuse.

What is Nursing Forensics?

Violence impacts our communities at a local, national and global level. It’s an unfortunate reality that a high number of patients who access healthcare services are the victims of violence, abuse, or neglect. When these victims enter the healthcare system, professionals trained in forensic nursing are often their first line of defense. In addition to providing routine medical care, forensic nurses must understand the legal and ethical implications of treating victims of violence and abuse. Forensic nurses must be skilled at injury identification, evaluation, and documentation. Proper observation, collection and preservation of evidence is often critical in determining the legal outcome of traumatic events. Penn State’s Nursing Forensics certificate provides nurses with the knowledge and skills to effectively help these patients.

You Might Like This Program If...

You are interested in working with victims who have experienced violence or trauma. Nurses working in emergency and community services with individuals who have experienced trauma will gain skills to better identify signs of violence and understand resources and interventions available. Enrollment in this certificate allows students in the R.N. to B.S.N. program to gain an additional area of concentration while pursuing their degree.

Program Requirements

To earn an undergraduate certificate in Nursing Forensics, a minimum of 12 credits is required.

Prerequisites Required.

Certificate Learning Objectives

1. Identify and analyze current forensic science and nursing issues and trends.
2. Verbalize the complicated issues and variables surrounding violence in societies.
3. Identify the role of the forensic nurse in the multidisciplinary team, providing service from initial contact through courtroom adjudication.
4. Critically analyze the role of the forensic nurse in healthcare and private industry, criminal justice, community organizations, and law enforcement entities.

Career Paths

Forensics nurses connect the medical and legal communities by completing medical assessments and providing treatment to the individual, as well as collecting evidence and giving expert testimony to support criminal investigations. A general understanding of nursing forensics can support any nurse working in their traditional role in community and emergency services. However, nurses can also pursue
more specialized forensic nursing roles with this certificate or continue onto advanced graduate degree programs and board certification.

**Careers**

Graduates of the Nursing Forensics Certificate Program obtain positions in hospitals, community anti-violence centers, medical examiners/coroner offices, corrections institutions, public health departments, and psychiatric hospitals. Typical roles could include:

- medical examiner nurse investigator
- forensic clinical nurse specialist
- correctional facility nurse
- emergency room forensic nurse
- nurse coroner
- assault or abuse nurse examiner
- legal nurse consultant

Nurses interested in earning the Sexual Assault Nurse Examiners (SANE), or Advanced Forensics Nursing Board Certification, may use the undergraduate Forensic Nursing Certificate Program as a starting point for meeting eligibility requirements, though the certificate program will not fulfill all criteria. Additional information about these certifications can be found on the International Association of Forensic Nurses website (http://www.forensicnurses.org/).

**Opportunities for Graduate Studies**

Nurses interested in advancing their education in forensics nursing can pursue graduate-level forensic Nursing certificate and degree programs. Additionally, to apply for Advanced Forensics Nursing board certification, a graduate degree in nursing is required. Although Board Certification is not a requirement to practice in most areas, certification demonstrates expertise and a commitment to excellence in the area of forensics nursing. More information can be found on the International Association of Forensic Nurses website (http://www.forensicnurses.org/).

**Nursing Informatics, Certificate**

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

**Program Description**

This 9-credit course series is designed to provide nurses with informatics knowledge and to prepare them to practice in information and technology rich health care environments. Those who complete the certificate will be prepared to assist in the implementation of informatics tools in healthcare environments such as electronic health records, clinical decision support tools, database management and data mining, patient safety technologies such as Bar Code Medication Administration (BCMA), RFID technologies and smart pumps. The ethical management of private health information and legislative aspects such as HIPAA and the HITECH act are also included.

**What is Nursing Informatics?**

Nursing informatics (NI) is the specialty that integrates nursing science with multiple information and analytical sciences to identify, define, manage and communicate data, information, knowledge and wisdom in nursing practice. For many people, NI, and health care informatics in general, are about technology. This is especially true of electronic health records (EHRs) that are required of all care facilities. (Source: American Nurses Association, Nursing Informatics: Scope and Standards of Practice, 2nd Edition, 2015)

**You Might Like This Program If...**

You are interested in increasing your knowledge of health care information technologies to expand and maximize the benefits within your organization, as well as better understand and overcome the barriers that arise with the integration of technology innovations into health care delivery. Enrollment in this certificate also allows students in the R.N. to B.S.N. program gain an additional area of concentration while pursuing the B.S.N. degree.

**Program Requirements**

To earn an undergraduate certificate in Nursing Informatics, a minimum of 9 credits is required.

Prerequisites Required.

**Certificate Learning Objectives**

1. Explore the use of the computer and health care technologies for nursing applications in selected areas of nursing practice.
2. Synthesize an ethical framework for dealing with selected healthcare informatics dilemmas.
3. Discover the competencies, skills, roles, and standards of informatics nursing practice.
Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

With the development of new technologies and the integration and expansion of these tools throughout all levels of health care, professionals with focused training and experience in Informatics are increasingly essential to health care organizations.

Careers

There is steady job growth of informatics positions in health care. Graduates of the Nursing Informatics Certificate Program obtain positions within various organizations including:

• hospitals and health care systems
• public health agencies
• consulting firms
• health care product or technology vendors
• home health agencies
• managed care or insurance companies
• government and military health care settings

A comprehensive understanding of information systems and applications is essential for nurses interested or currently working in management and leadership roles in health care.

Opportunities for Graduate Studies

Baccalaureate-educated Nurses may want to consider pursuing an advanced nursing degree with a specialization in Nursing Informatics. Professionals with graduate degrees that include the essentials of Nursing Informatics can explore job advancement opportunities as information officers, health systems analysts, IT training managers, and project managers. Nurses with this background are highly competitive for roles in nursing leadership within a variety of health care organizations.

Nursing Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Nursing Management Certificate Program includes a series of four three-credit courses designed to enhance the career opportunities for currently licensed R.N.s who are working in nursing. This program is designed for registered nurses who have, or aspire to hold, entry level nurse manager positions. The program will enrich participants’ knowledge of basic health care organizations and administration; collection, analysis and management of nursing data; concepts and techniques for managing nursing personnel; and concepts and techniques for enhancing nursing managerial behaviors. Courses are aligned with the core curriculum and competencies for nurse managers, developed by the American Organization of Nurse Executives.

What is Nursing Management?

In all healthcare facilities, there is demand for dedicated and experienced nurse leaders to competently manage employees, collaborate with other healthcare managers and make higher-level decisions for the betterment of the organization. Nursing managers must build and retain a quality staff, maintain a budget and ensure excellent patient care.
while supervising day-to-day operations. Additionally, effective nurse managers and supervisors must motivate and lead their staff through continual healthcare changes to meet the needs of various stakeholders which include clients, insurance companies and upper-level healthcare administration. Penn State’s Nursing Management Certificate is designed to equip nurses to advance into these roles by expanding their knowledge of management theories and styles, healthcare organizational structure, human resources, information systems and current issues.

You Might Like This Program If...
You are interested in pursuing a supervisory role in the healthcare field or are already working in a supervisory role and want to improve your management skills and better understand the structure of healthcare organizations and administration. Enrollment in this certificate allows students in the R.N. to B.S.N. program to gain an additional area of concentration while pursuing their degree.

Program Requirements
To earn an undergraduate certificate in Nursing Management, a minimum of 12 credits is required.

<table>

</tr>
</tbody>
</table>

Prerequisites Required.

Certificate Learning Objectives
1. Discuss the role and responsibilities of nurse managers.
2. Describe the utilization of efficiency and productivity measures to evaluate the costs of delivering care.
3. Analyze the role of the nurse manager to effectively staff for the delivery of patient care.
4. Analyze issues and trends that will affect the future of nursing management.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
With the demand for nurse leaders in all levels of healthcare, professionals with focused training and experience in Nursing Management are increasingly essential to their organizations. Nurses with an interest in management have many opportunities to advance into leadership positions within an organization, such as department manager, health services manager, nursing manager, or clinical coordinator.

Opportunities for Graduate Studies
Baccalaureate-educated Nurses wanting to further specialize in management may consider pursuing a post-baccalaureate certificate, or a master’s or doctoral degree with a concentration in healthcare leadership. Professionals with graduate-level education in healthcare administration might explore job advancement opportunities as senior administrators within a variety of healthcare organizations. Penn State offers several graduate options for B.S.N.-educated nurses, including the M.S.N. with Nurse Administrator Option, Doctor of Nursing Practice (D.N.P.) and Ph.D. degree programs, and the graduate Nursing Administrator Certificate Program.

Nursing, B.S.N.

Begin Campus: Any Penn State Campus

End Campus: Altoona, Erie, Fayette, Harrisburg, Mont Alto, Schuylkill, University Park, Scranton

Program Description

The Bachelor of Science Degree in Nursing prepares students to become professional practitioners in areas of health promotion and maintenance, illness care, and rehabilitation. After earning this degree in Nursing, students are qualified to take the registered nurse examination for licensure by the State Board of Nursing.

B.S.N. Nursing majors will choose one of the following options:

General Nursing Option (NURS GNURS)

Available at the following campuses: Altoona, Erie, Fayette, Mont Alto, Schuylkill, Scranton, University Park

Students who begin the General Nursing Option at University Park must complete the degree at University Park.

Students may begin the General Nursing Option at any campus if they will complete the degree at Altoona, Erie, Fayette, Mont Alto, Schuylkill or Scranton.

The General Nursing Option admits first year students directly to the major at six Penn State campuses (University Park, Altoona, Erie, Fayette, Mont Alto, Schuylkill or Scranton) for summer or fall entry. Nursing students start and remain at the campus of admission all four years. University Park students spend one full academic year at Penn State Hershey Medical Center campus, which requires students to reside at that location.

Non-nursing students may not transfer or change major into the 4-year nursing program at University Park, but may apply through a competitive Entrance to Major Review process at the five other campuses offering the General Nursing Program.

Clinical experiences occur at clinical facilities within a 50-mile radius of campus.

Second Degree Option (NURS SCND)

Available at the following campuses: Altoona, Harrisburg

Students start and remain at the campus of admission for the entire program (Altoona or Harrisburg)

This option admits students who have successfully completed a bachelor’s degree in another discipline to the Nursing major through a competitive Entrance to Major Review process. Students must have met all prerequisite course requirements.

Students start and remain at the campus of admission for the entire program.

Clinical experiences occur at facilities within a 50-mile radius of the campus.

For Both Options

All transportation and expenses related to clinical are the responsibility of the student. Students must carry professional liability insurance; complete an annual examination including required vaccinations, criminal background and child abuse history clearance and drug testing; maintain CPR certification; and adhere to any additional requirements of the clinical facilities. Graduates of this major may qualify for admission to a graduate nursing program.

Undergraduate Academic Progression Policy

The Academic Progression Policy delineates academic standards for pre-licensure students (students without R.N. license). Two failed attempts in nursing courses or two failed attempts in any given prerequisite course results in dismissal from the Nursing major. Details of the academic progression policy are available in the student handbook (https://www.nursing.psu.edu/student-handbooks/).

What is Nursing?

Nurses serve on the front lines of the health care industry. They work in emergency rooms, outpatient clinics, inpatient facilities, schools and private homes. As the cornerstone of the medical team, nurses assess and monitor patients’ body systems, symptoms and vital signs; administer prescribed medications; and provide routine care, such as bathing, dressing, and wound care. Working closely with clients and their families, nurses are often the first to alert doctors of changes in the patient’s medical condition.

However, nursing is a profession that requires more than book knowledge and medical skills. Nurses must also act as compassionate caregivers, supportive advocates and thorough educators to improve and preserve the health and quality of life of their patients. Nurses must be flexible, attentive and demonstrate strong critical thinking skills. They must be prepared to act quickly and competently in order to save lives.

A career in nursing opens many doors and allows nurses to shape their own unique career path. Some nurses choose to specialize in specific clinical areas such as pediatrics, mental health or critical care, while others move into case management, education, research, insurance or administrative roles. In this exciting field, every day is truly different, but each one is rewarding.

You Might Like This Program If...

You might like this major if you enjoy learning about the human body and how it functions and heals. It is also important to enjoy working with people. Nurses work closely with clients and their families while providing respectful and compassionate healthcare, often during vulnerable stages of life. Nurses must be adaptable, quick on their feet and demonstrate good critical thinking and communication skills. Students pursuing this degree should strive to be leaders in the healthcare field and exhibit professionalism and ethical integrity.
Direct Admission to the Major

Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements

For the Bachelor of Science in Nursing degree in Nursing, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>5-9</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>87-92</td>
</tr>
</tbody>
</table>

21-22 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GHW courses; 9 credits of GN courses; 3-4 credits of GQ courses; 6 credits of GS courses.

The Second or Additional Degree Option requires the completion of 60 credits of general education and prerequisite courses in the first degree program (prior to admission) and 60 credits of nursing courses completed after admission.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

Requirements for the Major must be completed prior to admission for students taking the Second Degree Option.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

General Nursing Option at University Park, Altoona, Erie, Fayette, Mont Alto, Schuylkill, and Scranton Campuses
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**Total Credits 120-123**

* Course requires a grade of C or better for the major
⁺ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

1 BIOL 161, BIOL 162, and BIOL 163 are entrance to major courses for students not directly admitted to the Nursing program, who are applying for admission to the Commonwealth Campus Nursing programs through the Review Process. BIOL 161, BIOL 162, and BIOL 163 must be passed with a quality grade of C or better to progress to 200-level Nursing courses.

2 Within the 30 credits of required General Education Domain courses, students must take 6 credits of Integrative Studies courses (Inter-domain or Linked courses). Students should consult with their academic adviser to select appropriate courses.

3 Alternative First Year Seminar courses can be petitioned to fulfill this requirement.

4 MATH 21 is a prerequisite for CHEM 130 and STAT 200 or STAT 250. MATH 22 is a prerequisite for CHEM 110. If a student places higher than MATH 21 on the ALEKS Assessment Exam, any GQ may be scheduled.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, QG, GH, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and QG) and Knowledge Domains (GH, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and QG) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

**Program Notes:**

- See College of Nursing Grading Scale and Academic Progression Policy in the BSN Handbook at https://www.nursing.psu.edu/student-handbooks/
- Scheduling Patterns: NURS courses are offered only in the semester indicated, except NURS 415 and NURS 420 are offered both Fall and Spring semesters
- Third and fourth years include 6-12 hours of clinical experience per week
- Students studying at University Park will spend third or fourth year at Hershey Medical Center

**Second Degree in Nursing Option at Altoona and Harrisburg Campuses**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 60

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

Additional Notes:

- See College of Nursing Grading Scale and Academic Progression Policy in the Second Degree BSN Handbook at https://www.nursing.psu.edu/student-handbooks/
- All General Education and prerequisite courses are completed with first degree and prior to admission
  - NURS 250, 251, 225, 230, 305 must be successfully completed prior to enrolling in NURS 301 and 310
  - NURS 301 and 310 must be successfully completed prior to enrolling in NURS 306, 320, 405A, 405B, 415, 420
  - Students may not enroll in NURS 450A, 450B and 495 until all other nursing courses are completed or in progress
- NURS 495 Nursing Study in Specialized Setting: 6 credits required in place of 3 credits of supporting courses and 3 credits of general electives; clinical immersion practicum

Career Paths

After earning a B.S.N. and successfully passing the NCLEX-RN licensing exam, Registered Nurses have the opportunity to enter into a stable and growing work force. Additionally, the Penn State B.S.N. degree creates a strong foundation for continuing into advanced nursing roles through a variety of graduate level nursing programs. The versatility of the B.S.N. degree provides graduates with the skills and background to pursue the career path that is right for them. Nurses have countless options to explore different specialties, advance into leadership roles, and continue with lifelong learning while providing high quality nursing care to their clients.

Careers

Demand for nurses continues to rise. The B.S.N. degree in Nursing is rapidly becoming the degree of choice for many healthcare facilities, rendering baccalaureate-educated nurses highly marketable. Graduates of the baccalaureate nursing program have a vast array of rewarding employment opportunities. Employment settings include:

- Trauma centers and community hospitals caring for the critically ill or injured
- Home health agencies providing medical care to homebound clients
- Rehabilitation and long-term care facilities
- Hospice agencies caring for people with terminal illnesses
- Schools or pediatric/neonatal units working with children and newborns
- Military bases
- Insurance agencies evaluating patient claims and teaching classes to insurance agents
- Travel and cruise ship nursing

Opportunities for Graduate Studies

A baccalaureate degree in nursing is typically required to pursue advanced degrees in nursing, which prepares the nurse for roles such as nurse educator, nurse practitioner, clinical nurse specialist, nurse midwife, nurse anesthetist, nurse administrator and nurse researcher. The College of Nursing at Penn State offers several advanced-degree options for B.S.N.-educated nurses. On-campus options are available for nurses interested in advanced clinical practice roles such as a Nurse Practitioner, or in research through the Ph.D. program. Several online options are offered to provide flexibility to working nurses across the country. These programs include M.S.N. degrees in Nurse Administration and Nurse Education and a Doctor of Nursing Practice (DNP) degree for nurses pursuing specialization in healthcare leadership.

Nursing, R.N. to B.S.N.

Begin Campus: Abington, Fayette, Mont Alto, New Kensington, Shenango, Schuylkill, University Park, World Campus

End Campus: Abington, Fayette, Mont Alto, New Kensington, Shenango, Schuylkill, University Park, World Campus

Program Description
This major prepares registered nurse students as professional practitioners in areas of health promotion and maintenance, illness care, and rehabilitation. Part-time or full-time study is available at any of the campus sites. The University Park site is a blended program, which includes resident instruction and online nursing courses. The World Campus site is completely online.

Senate legislation 42-97 Credit by Portfolio Assessment enables students to receive credit for certain prescribed nursing courses based on their R.N. licensure.

Students must meet all requirements of the clinical institutions that provide preceptors and clinical experiences. These requirements may include CPR certification, professional liability insurance, health examination including required vaccinations, drug testing, criminal background check (State and Federal) and child abuse history clearances. Students also are responsible for their own transportation to and from clinical settings and may need the use of a car.

Graduates of this major may qualify for admission to a graduate nursing program.

What is Nursing?
Nurses are a vital part of the medical team. As the medical field continuously changes, there is an increased demand for nursing leaders who can improve patient outcomes and decrease healthcare costs. These leaders must combine their solid clinical skills with cultural competency, appreciation for research and innovation, effective communication and strong critical-thinking skills to meet these needs. Research shows that through the broad liberal arts foundation and expanded nursing curriculum, bachelor’s-prepared nurses demonstrate better professional integration of these aspects into their clinical practice. As a result, medical facilities have noted lower mortality rates, shorter hospital stays and lower healthcare costs. See the American Association of the Colleges of Nursing (AACN) Fact Sheet (http://www.aacnnursing.org/News-Information/Fact-Sheets/Impact-of-Education/) for additional information.

Penn State’s R.N. to B.S.N. program meets current healthcare demands by expanding and enhancing nurses’ existing education and preparing students to advance their practice as clinical leaders, nurse managers and as preparation for entrance to graduate degree programs.

You Might Like This Program If...
You are currently licensed as a Registered Nurse (R.N.) with an associate’s degree or nursing diploma and want to advance your...
Theoretical and clinical skills while making yourself more marketable in the current healthcare industry. Additionally, you may wish to continue onto an advanced nursing graduate degree program and need your B.S.N. in order to be eligible to apply for graduate school. The Penn State R.N. to B.S.N. program is the right choice for nurses wanting a B.S.N. degree from a nationally-recognized institution with a reputation for academic excellence.

Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Science in Nursing degree in Nursing, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>4-5</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>91-93</td>
</tr>
</tbody>
</table>

21-22 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GHW courses; 9 credits of GN courses; 3-4 credits of GQ courses; 6 credits of GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-graduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-graduate-students/82-00-and-83-00-degree-requirements/#82-44).

1. Due to restricted enrollment, the College of Nursing assigns the semester in which students enroll in these courses and all course prerequisites must be successfully completed.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.
Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Nursing RN to BSN Degree Program at Abington, Fayette, Mont Alto, New Kensington, Shenango, Schuylkill, University Park, and World Campus Campuses

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Careers

Demand for nurses continues to rise. The B.S.N. degree in Nursing is rapidly becoming the degree of choice for many healthcare facilities, rendering baccalaureate-educated nurses highly marketable. Graduates of the baccalaureate nursing program have a vast array of rewarding employment opportunities. Employment settings include:

- Trauma centers and community hospitals caring for the critically ill or injured
- Home health agencies providing medical care to homebound clients
- Rehabilitation and long-term care facilities
- Hospice agencies caring for people with terminal illnesses
- Schools or pediatric/neonatal units working with children and newborns
- Military bases
- Insurance agencies evaluating patient claims and teaching classes to insurance agents
- Travel and cruise ship nursing

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE NURSING, R.N. TO B.S.N. PROGRAM (https://www.bls.gov/ooh/healthcare/registered-nurses.htm)

Opportunities for Graduate Studies

A baccalaureate degree in nursing is typically required to pursue advanced degrees in nursing, which prepares the nurse for roles such as nurse educator, nurse practitioner, clinical nurse specialist, nurse midwife, nurse anesthetist, nurse administrator and nurse researcher. The College of Nursing at Penn State offers several advanced-degree options for B.S.N.-educated nurses. On-campus options are available for nurses interested in advanced clinical practice roles such as a Nurse Practitioner, or in research through the Ph.D. program. Several online options are offered to provide flexibility to working nurses across the country. These programs include M.S.N. degrees in Nurse Administration and Nurse Education and a Doctor of Nursing Practice (D.N.P) degree for nurses pursuing specialization in healthcare leadership.

About the College
Damian J. Fernandez, Chancellor, Penn State Abington

Penn State Abington is a 21st century metropolitan college committed to student success. As part of Penn State, a global research university, our diverse students embody the future of public higher education today. Our students find accessible, affordable, and high impact degrees in the liberal arts and sciences, professional fields, and interdisciplinary programs on a campus at the edge of Philadelphia. They may complete 19 undergraduate majors or start 160-plus majors at Abington and complete them at another campus, including University Park. Opportunities for students include NCAA Division III athletics, study abroad, and professional career counseling services. A new residence hall opened in 2017. Faculty and staff are educators—teachers, researchers, advisers, mentors—who facilitate opportunities for growth by being culturally responsive to our students’ needs. Our students discover pathways to graduation and forge their own success as productive citizens of a global society.

MORE INFORMATION ABOUT THE COLLEGE (http://abington.psu.edu/this-is-penn-state/)

Mission and Goals
We are a welcoming community that prioritizes transformative educational experiences, advances knowledge, and contributes to the common good by serving as a place where individuals meet, connect, learn, and address the challenges of our times. We serve the emerging America and the world. We aspire to be a campus where students, regardless of their starting point, discover pathways to graduation and achievement in a life-long quest for learning, service, and fulfillment of personal and collective potential.

College Procedures

Academic Warning
A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

Academic Suspension
A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)
Resources

Academic Advising
The advising center is staffed by professional advisers who work primarily with students enrolled in the Division of Undergraduate Studies and are exploring major options. They counsel provisional, transfer and non-degree students, and students who plan to transition to other University programs and campuses. Our advisers work with many of our incoming first-year students as part of our New Student Orientation program.

MORE INFORMATION ABOUT ACADEMIC ADVISING (http://abington.psu.edu/advising-center/)

Admissions
How will your story begin? The Penn State Abington Admissions staff is here to help you explore the Penn State degree that matches your life, expectations, and aspirations.

MORE INFORMATION ABOUT ADMISSIONS (http://abington.psu.edu/admissions/)

Academics
You have the option of starting and completing nineteen undergraduate majors at Abington or starting 160+ majors here and finishing at University Park campus.

MORE INFORMATION ABOUT ACADEMICS (http://abington.psu.edu/academics/)

Office of Global Education & Engagement
The mission of the Office of Global Education & Engagement is to support the development of cross-cultural awareness, an appreciation of other cultures, the development of intercultural competencies and responsible global citizenry by providing diverse global opportunities for the Penn State Abington community.

MORE INFORMATION ABOUT THE OFFICE OF GLOBAL EDUCATION & ENGAGEMENT (http://abington.psu.edu/global-programs/)

Center for Career & Professional Development
The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

MORE INFORMATION ABOUT THE CENTER FOR CAREER & PROFESSIONAL DEVELOPMENT (http://abington.psu.edu/career-professional-development/)

Tuition and Financial Aid
Nearly 80 percent of our students receive some sort of financial assistance. This assistance, determined primarily by need, is comprised of federal and state grants, student loans, academic scholarships, and work study.

MORE INFORMATION ABOUT TUITION AND FINANCIAL AID (http://abington.psu.edu/tuition-financial-aid/)

Student Engagement & Leadership
You’re energetic and curious. You want to connect with people who share your interests and who will expand your world. Student Leadership and Engagement at Penn State Abington makes it all possible. Every day you can choose from student organizations, community service projects, cultural immersion adventures, performances and festivals, athletics, and more to help you:

- Find your niche
- Become a creative and confident leader
- Form lasting friendships
- Prepare you to become an ethical and active citizen and a savvy professional
- Seek support in a diverse, safe, and inclusive environment.

It’s your choice to be involved. It’s your life at Penn State Abington.

Office of Diversity, Equity, & Inclusion
Our mission is to create an inclusive campus community where everyone feels welcomed. We welcome students to individual and group experiences that help them form bonds of understanding and leadership. We strive to support students in their explorations of self-discovery, personal growth, assertiveness, awareness, advocacy, empowerment, social justice, and inclusivity. We provide a network of services and programs that foster discussions related to the creation of a multi-ethnic, culturally conscious university.

MORE INFORMATION ABOUT THE OFFICE OF DIVERSITY, EQUITY, & INCLUSION (http://abington.psu.edu/diversity-equity-inclusion/)

Counseling & Psychological Services
Penn State Abington offers free, confidential counseling and psychological services to students in distress.

- Crisis Intervention
- Professional Counseling Services
- Group Counseling (requests for specific groups welcomed)
- Referrals to outside agencies for psychological testing and/or psychiatric evaluations
- Non-Professional Support with the Personal Support Team
- Wellness Programs on mental health issues and addictions

MORE INFORMATION ABOUT COUNSELING & PSYCHOLOGICAL SERVICES (http://abington.psu.edu/counseling-psychological-services/)

NCAA Division III Athletics
Penn State Abington fields 13 NCAA Division III athletics teams for men and women including: basketball, baseball, cross country, golf, lacrosse, soccer, softball, tennis, and volleyball.

MORE INFORMATION ABOUT NCAA DIVISION III ATHLETICS (http://abingtonsports.com/)

Honors Programs

Schreyer Honors College
The Schreyer Honors College, regarded as one of the nation’s top programs of its kind, promotes achieving academic excellence with integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including those admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve
educational practice, and to continue to be recognized as a leading force in honors education nationwide.

MORE INFORMATION ABOUT THE SCHREYER HONORS COLLEGE (http://www.shc.psu.edu)

Other Honors Programs
The Penn State Abington Honors Program fosters a community of outstanding students and committed faculty and staff. Entering first-year students are invited to participate in the program based on significant academic achievement and potential. Faculty and staff work to provide a rich and challenging academic experience with perks and privileges that reflect students’ honors status. To remain in good standing in the program students must participate in honors courses, maintain strong grade point averages, and participate in research, international study or leadership activities. The Schreyer Honors College is a university-wide honors program enrolling students of exceptional ability. The core experiences of Schreyer scholars at Abington include honors coursework and an undergraduate thesis, a major piece of original research or creative activity. Schreyer also encourages and supports international study.

.NET Programming, Certificate
Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
This certificate is a 5 credit (3 course) certificate in .NET Programming that meets the needs of programmers who seek to learn to develop .NET applications. This Program also will appeal to those with experience developing .NET applications. The .NET Certificate program covers a variety of areas, from C# application development and aspects of the .NET object hierarchy to database application development with Visual Basic .NET using ADO .NET. Students who take advantage of the program will acquire significant hands-on experience with XML and XSLT. In each course, students will complete between 3-5 individual projects. The last course includes a master group project. Eva B. Klein (ebz1)-215-881-7387.

Program Requirements
To earn an undergraduate certificate in .NET Programming (MS), a minimum of 5 credits is required.

<table>

<td>3</td>
</tr>
</tbody>
</table>

Courses are 3 courses (totally 5 credits) that are all CMPSCI 297 special topics. Suffix alphas will change each semester.

No Prerequisites Required.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Accounting, B.S. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
This major helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. It also provides a sound background for students who plan to pursue graduate studies in accounting or related fields. Students who complete the prescribed courses and earn a Bachelor of Science degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may
also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

What is Accounting?
Accountants develop and interpret financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical information and concepts, and they must be able to function effectively as individuals and in teams. Accountants work with people in their own specialized departments, and with users of financial information throughout their organization. Because of this close association with other parts of the organization, the accountant is in a unique position to develop a broad business perspective.

You Might Like This Program If...
• You are organized and detail-oriented. You want to pursue a career in business or finance.

Entrance to Major
Entry to the Accounting major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, SCM 200 or STAT 200, and a 2.00 or higher cumulative grade-point average.

Degree Requirements
For the Bachelor of Science degree in Accounting, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives (non-business courses)</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed in the respective College to earn the degree. No more than 60 credits should be from business and business-related courses.

Students wishing to fulfill the 150 credit-hour education option to become a CPA in Pennsylvania (which reduces the experience requirement for certification) are encouraged to enter Capital College’s Master of Professional Accounting program, or the Master of Business Administration program, or the Master of Science in Information Systems program subsequent to receiving their undergraduate accounting degree.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or
in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Supporting Courses and Related Areas**

Select 6 credits from 200 - 400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MKTG, or SCM in consultation with an academic adviser and in support of the student’s interests.

**Program Learning Objectives**

Upon graduation Accounting students will be able to:

1. Demonstrate the necessary skills and abilities to effectively communicate.
2. Apply contemporary tools of information technology to include business software applications.
3. Apply leadership, team building, and project management skills.
4. Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
5. Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
6. Utilize and apply fundamental business concepts, principles and contemporary business practices.
7. Recognize, analyze and solve business problems using quantitative and qualitative measures.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Select courses in consultation with an academic adviser and in support of the student’s interests.

2 Select 200-400 level business courses from ACCTG, BA, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student’s interests.
Career Paths
Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, Penn State Harrisburg accounting students are provided with many opportunities to experience the world of business.

Careers
An accounting degree helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. Students who complete the prescribed courses and earn a BS degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

Opportunities for Graduate Studies
The Bachelor of Science in Accounting provides a sound background for students who plan to pursue graduate studies in accounting or related fields, including Penn State’s Master of Professional Accounting.

American Studies, B.A. (Abington)
Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a number of other areas, and for enrollment in law and other professional programs.

What is American Studies?
American Studies examines the country's history in a way that emphasizes culture — literature, art & architecture, film, folklore, music, and media. While discovering America’s past, students learn to think critically — to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

You Might Like This Program If...
- You enjoy pop culture and wonder what social and historical forces helped shape it.
- You like making connections between history, society, economics, literature, film, and art.
- You want to understand the American experience beyond just what is relayed in a history text.
- You want to explore the experiences of women, minorities, and different ethnic and religious groups.
You want to pursue a career in education, law, government, museums, cultural agencies, archives, public policy, or communications.

**Entrance to Major**

For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student’s record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

**Degree Requirements**

For the Bachelor of Arts degree in American Studies, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>21</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>33</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic advisor.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor,
elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

</tr>
</tbody>
</table>

Supporting Courses and Related Areas: Require a grade of C or better
Select 9 credits in each of two of the following areas and 6 credits in one other of the areas (include 12 credits at the 400 level distributed in at least two of the areas):

- American literature
- American history
- American art, philosophy, and religion (humanities)
- American social sciences

Program Learning Objectives
Students should develop the ability to:

1. Identify major themes and issues prompted by the question “What does it mean to be an American?”
2. Recognize the multiple ways Americans have expressed, institutionalized, celebrated, and contested identity in visual and material culture, literature, history, politics, and popular culture.
3. Appreciate the cultural diversity of the American experience, especially in terms of class, ethnicity, gender, sexual orientation, and race.
4. Analyze in depth an aspect of American culture using interdisciplinary source materials, research methodologies, and intellectual approaches.
5. Develop conclusions based on that analysis and communicate them effectively.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

1 AMST supporting courses are distributed among arts, history, humanities, literature, and social sciences courses containing at least 50% American content. Students take three courses each from two areas and two courses from a third.
2 At least 12 of these credits are at the 400 level.
3 ENGL 202B is recommended for American Studies majors.

Career Paths

The American Studies program benefits from Penn State Harrisburg's location in a capital region in close proximity to internationally known heritage sites such as the Gettysburg Battlefield, National Civil War Museum, and U.S. Army Heritage and Education Center. Harrisburg is also home to the Pennsylvania Historical and Museum Commission, the State Archives, and the State Museum.

Careers

American Studies majors at Penn State Harrisburg have opportunities to gain a core set of skills in writing, presentation, exhibition, website development, digital documentation, fieldwork and ethnography, and records and cultural resource management in addition to contextual knowledge of American culture, society, arts, and history that can be applied to a number of occupations, particularly in heritage, communications, education, and government sectors. At Penn State Harrisburg, certificates (heritage and museum practice, folklore and communications, education, and government sectors). At Penn State Harrisburg, certificates (heritage and museum practice, folklore and communications, education, and government sectors). Art, B.A. (Abington)
Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
The B.A. degree in art provides a comprehensive liberal education coupled with professional resident instruction in art. Depending on each student’s objectives and course choices, this degree provides preparation for a professional career, a foundation for graduate studies, or a liberal arts education in art. Each student must elect an area of concentration from one of the following: ceramics, drawing and painting, new media, photography, printmaking, or sculpture.

What is Art?
Art is an individual and social practice that makes an impact. When people create or respond to art, they make connections between themselves and the experiences of others. In some cases, art provides a private encounter whereby individual thoughts and feelings are expressed through art, or recognized in the art of someone else. In other cases, art gives form to ideas and issues that concern entire communities. It is because art extends personal and public awareness that it is highly valued as a cultural activity. Those who make art and write about art offer imaginative insights that challenge us to see things differently.

By creating artworks yourself, and enhancing your capacity to interpret artworks made by other individuals, communities, and cultures, you contribute to one of the most important purposes of art, which is to celebrate this unique human form of social communication that shapes the way we see ourselves.

You Might Like this Program If...
You are excited and challenged by the diverse and profound impact art and culture can have in the everyday life of individuals and communities. Art and culture ‘workers’ take on many creative roles in everyday life and respond imaginatively to the continuous rush of social and cultural change around them by exploring issues, and expressing and communicating ideas using all forms of image, text, and social media.

Degree Requirements
For the Bachelor of Arts degree in Art, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1 These credits may also be counted toward the General Education Arts requirement.
2 Include at least 15 credits at the 300 or 400 level.
Program Learning Objectives

Upon graduation from the Abington College Art Program, a student should be able to demonstrate:

Visual Literacy

• By recalling, understanding and applying basic visual elements and principals of visual design across two-, three- and four-dimensional media expressions.
• By using a variety of media to develop an articulate, unique visual expression of the world as it is actually seen, abandoning iconic visual classifications and symbolic stereotypes.

Craft

• By mastering tools used in traditional and contemporary art and design making contexts, with particular emphasis on a chosen media concentration: Drawing and Painting, Printmaking, Sculpture, Ceramics or New Media.
• By making intelligent media application decisions to achieve appropriate form in support of intended content.

Research

• By recalling, understanding, applying and analyzing art history, aesthetic theory, contemporary topics and a liberal arts framework as components of the creative process, all used as foundation for deep, methodical study of the subject of creative investigation.
• By employing a vocabulary of spoken and written word to clearly express the relevance, motivation and discoveries of the research.

Creative and Critical Thinking

• By synthesizing and evaluating creative output, contributing to critical discourse, responding positively to feedback and understanding how to use critique as part of the creative process.
• By experimenting with and expanding the use of media with an eye toward future possibilities not prescribed by current standards.

Vision

• By creating original, conceptually compelling works of art or design relevant to individual experience and using a personal visual vocabulary.
• By creating work that evokes a personally meaningful intellectual and emotional response to a zone of personal concern.

Communication

• By creating work which evokes a spectator’s response that resonates with, without necessarily duplicating, the artist’s personal response, understanding through discussion and critique how a spectator arrives at a particular inspiration interacting with one’s work.
• By planning and implementing exhibitions of work, understanding the process from curatorial conceptualization through promotion, preparation and physical installation.
• By creating and maintaining ongoing documentation of work through portfolio, resume, website and other visual and verbal means of communicating professional development.

Professionalism

• By understanding how art making relates to aspirations for career, further study at the graduate level, or personal growth.
• By understanding the ethical and professional responsibilities of an artist or designer.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student's primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Advising Notes:

- Change of major requirements: A minimum grade point average of 2.0 and a successful portfolio review are required.
- Note: Many ART Studio courses are repeatable.

### Career Paths

As a B.A. graduate with a broad interest in the individual and collective power of the arts to enrich human understanding, you have artistic skills and critical sensibilities that can become life-long assets. Just as art can awaken us to new experience, exploring new ways to integrate knowledge from diverse sources helps make these experiences concrete and alerts us to noticing things not otherwise obvious. Broadening learning to embrace studio-based practices of making and critical reflection opens up options for linking personal and professional career interests, and these can have an enduring impact on what and how one learns.

### Careers

The B.A. experience collects and collates many different modalities of thinking and knowing, re-positions them around what we know, and helps us see gaps and what we don't know. The B.A. art experience takes these familiar and new understandings and provides an environment for helping you to discover your personal voice in the work you create. Contemporary studio art practice embraces any conceptually appropriate material and method that best articulates your artistic intention. In addition, professional practice opportunities are embedded into the program that can lead to future accomplishments after school.

### Opportunities for Graduate Studies

Due to the emphasis put on developing your personal vision and distinctive artistic voice, a B.A. art graduate will have a heightened sense of individual perspective and an understanding of multiple ways of engaging with ideas, and these dispositions become foundational skills in assessing future educational and professional directions.

MORE INFORMATION ABOUT OPPORTUNITIES FOR GRADUATE STUDIES (https://sova.psu.edu/degree/master-fine-arts-art/)

### Professional Resources

- College Art Association (http://www.collegeart.org)
- National Art Education Association (https://www.arteducators.org)
- National Council of Art Administration (http://www.ncaaarts.org/)
- Pennsylvania Art Education Association (http://paeablog.org)
Biology, B.S. (Abington)

Begin Campus: Any Penn State Campus

End Campus: Abington

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem. Hands-on experiences, from designing and conducting lab experiments to making field observations, using many different procedures and instruments, play an important role in gaining biological knowledge. Basic research in biology provides many benefits. Faculty in the Department of Biology at Penn State are exploring ways to cure neurological diseases, to conserve coral populations in tropical oceans, to discover more efficient ways to use plants for food and bioenergy, to develop vaccines for infectious diseases, and investigating many other facets of biology, all with the goal of positively impacting humans and the environment.

You Might Like This Program If...

• You are interested in learning about aspects of the biology of organisms that live on Earth.
• You enjoy a dynamic field of study, with new discoveries being made every day.
• You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
• You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance Requirements

In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.

Degree Requirements

For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>94</td>
</tr>
</tbody>
</table>

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains

• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.
First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Additional Courses**
Select 2-5 credits from the following:

- MATH 220 Matrices
- MATH 231 Calculus of Several Variables
- MICRB 201 Introductory Microbiology
- MICRB 202 Introductory Microbiology Laboratory

**Groups**
Select a minimum of 12 credits of 400-level courses, with at least 6 credits from the Genetics and Developmental Biology group, 3 credits from Evolution, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 12 credit minimum in the 400-level biology course requirements.

**Genetics and Developmental Biology Group:**

- BIOL 404 Cellular Mechanisms in Vertebrate Physiology
- BIOL 405 Molecular Evolution
- BIOL 407 Plant Developmental Anatomy
- BIOL 411 Medical Embryology
- BIOL 413 Cell Signaling and Regulation
- BIOL 416 Biology of Cancer
- BIOL 422 Advanced Genetics
- BIOL 425 Developmental Neurobiology
- BIOL 428 Population Genetics
- BIOL 431 Reproductive Biology
- BIOL 432 Developmental Genetics
- BIOL 439 Practical Bioinformatics
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms
- BIOL 448 Ecology of Plant Reproduction
- BIOL 451 Biology of RNA
- BIOL 460 Human Genetics
- BIOL 467 Molecular Basis of Neurological Diseases
- BIOL 469 Neurobiology
- BMB 400 Molecular Biology of the Gene
  or BMB 450 Microbial/Molecular Genetics
  or BMB 464 Molecular Medicine
  or BMB 484 Functional Genomics
  or HORT 407 Plant Breeding
  or MICRB 41 Principles of Immunology

**Evolution Group:**

- BIOL 405 Molecular Evolution
- BIOL 406 Symbiosis
- BIOL 411 Medical Embryology
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology
- BIOL 420 Paleobotany
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 427 Evolution
- BIOL 428 Population Genetics
- BIOL 429 Animal Behavior
- BIOL 432 Developmental Genetics
- BIOL 433 Evolution of Vertebrates
- BIOL 434 Pathobiology of Emerging Infectious Disease
- BIOL 436 Population Ecology and Global Climate Change
- BIOL 438 Theoretical Population Ecology
- BIOL 439 Practical Bioinformatics
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms

### Plant Biology Option (46-51 credits)
*Available at the following campuses: University Park*

#### Prescribed Courses

- **BIOL 407** Plant Developmental Anatomy
- **BIOL 441** Plant Physiology
- **BMB 401** General Biochemistry
- **BMB 402** General Biochemistry
- **CHEM 210** Organic Chemistry I
- **CHEM 212** Organic Chemistry II
- **CHEM 213** Laboratory in Organic Chemistry

#### Additional Courses

**Groups**

Select a minimum of 12 credits of 400-level biology courses, with at least 6 credits from the Plant and Fungi group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 12 credit minimum in the 400-level biology course requirements.

**Plant and Fungi Group:**

- **BIOL 406** Symbiosis
- **BIOL 414** Taxonomy of Seed Plants
- **BIOL 420** Paleobotany
- **BIOL 424** Seeds of Change: The Uses of Plants
- **BIOL/PPEM 425** Biology of Fungi
- **BIOL 431** Reproductive Biology
- **BIOL 444** Field Ecology
- **BIOL 446** Physiological Ecology
- **BIOL 448** Ecology of Plant Reproduction
- **BIOL 451** Biology of RNA
- **BIOL 482** Coastal Biology
- **BIOL 499A** Tropical Field Ecology

**Evolution Group:**

- **BIOL 405** Molecular Evolution
- **BIOL 406** Symbiosis
- **BIOL 411** Medical Embryology
- **BIOL 414** Taxonomy of Seed Plants
- **BIOL 417** Invertebrate Zoology

**Pre-Req:**

- **BIOL 420** Paleobotany
- **BIOL 421** Comparative Anatomy of Vertebrates
- **BIOL 422** Advanced Genetics
- **BIOL/PPEM 425** Biology of Fungi
- **BIOL 427** Evolution
- **BIOL 428** Population Genetics
- **BIOL 429** Animal Behavior
- **BIOL 432** Developmental Genetics
- **BIOL 433** Evolution of Vertebrates
- **BIOL 434** Pathobiology of Emerging Infectious Disease
- **BIOL 436** Population Ecology and Global Climate Change
- **BIOL 438** Theoretical Population Ecology

- BIOL 478 COMPARATIVE NEUROANATOMY
Program Learning Outcomes

1. **KEY LITERACIES:** describe how heritable changes can lead to differences in populations over time that might result in speciation; trace energy/matter transformation, storage, and mobilization; explain how information is exchanged and stored; recognize how changes in biological structures can have varying effects on function; and/or describe the interactions and interconnections among systems across biological scales and over evolutionary time scales.

2. **PROCESS OF SCIENCE:** apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.

3. **SCIENTIFIC EVIDENCE EVALUATION:** discriminate among scientific claims presented in a variety of sources based on the strength of evidence; find appropriate published scientific literature; and/or analyze and critically evaluate data/conclusions from the scientific peer-reviewed literature.

4. **QUANTITATIVE REASONING AND DATA SCIENCE:** apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental biological equations; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.

5. **INTERDISCIPLINARY THINKING:** integrate knowledge among biological subfields and between biology and other disciplines.

6. **COLLABORATION AND COMMUNICATION:** engage with diverse communities and leverage the skills in the community to pose and solve biological questions; demonstrate the ability to work in teams to solve biological problems; and/or communicate in a variety of formal and informal ways in the discussion of biological research.

7. **SCIENCE AND SOCIETY:** explore the impacts of scientific research on society and the environment and how society influences/relied on research to inform decision-making; evaluate the ethical implications of biological research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.

8. **PROFESSIONAL EXPERIENCES:** communicate in a professional manner and learn/use professional behaviors in all aspects of college and career building activities, including participation in opportunities such as research, internships, cooperative education, teaching and tutoring, study abroad, and/or volunteer work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### General Biology Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 126-127

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Course Lists
GROUP I - PLANTS AND FUNGI
BIOL 406 Symbiosis (3 cr.)
BIOL 441 Plant Physiology (3 cr.)
BIOL 443 Evo-devo: Evolution of Developmental Mechanisms (3 cr.)
BIOL 482 Coastal Biology (3 cr.)

GROUP II - EVOLUTIONARY BIOLOGY
BIOL 406 Symbiosis (3 cr.)
BIOL 427 Evolution (3 cr.)
BIOL 429 Animal Behavior (3 cr.)
BIOL 433 Evolution of Vertebrates (3 cr.)
BIOL 443 Evo-devo: Evolution of Developmental Mechanisms (3 cr.)
BIOL 460 Human Genetics (3 cr.)

GROUP III - GENETICS
BIOL 416 Biology of Cancer (3 cr.)
BIOL 422 Advanced Genetics (3 cr.)
BIOL 430 Developmental Biology (3 cr.)
BIOL 443 Evo-devo: Evolution of Developmental Mechanisms (3 cr.)
BIOL 460 Human Genetics (3 cr.)

GROUP IV - ECOLOGY
BIOL 406 Symbiosis (3 cr.)
BIOL 429 Animal Behavior (3 cr.)
BIOL 436 Population Ecology and Global Climate Change (3 cr.)
BIOL 482 Coastal Biology (3 cr.)

GROUP V - ANIMAL PHYSIOLOGY
BIOL 406 Symbiosis (3 cr.)
BIOL 409 Biology of Aging (3 cr.)
BIOL 416 Biology of Cancer (3 cr.)
BIOL 430 Developmental Biology (3 cr.)
BIOL 437 Histology (4 cr.)
BIOL 443 Evo-devo: Evolution of Developmental Mechanisms (3 cr.)
BIOL 460 Human Genetics (3 cr.)
BIOL 469 Neurobiology (3 cr.)
BIOL 472 Mammalian Physiology (3 cr.)
BIOL 479 General Endocrinology (3 cr.)

GROUP VI - PRACTICUM
BIOL 402 ( cr.)
BIOL 437 Histology (4 cr.)
BIOL 461 Contemporary Issues in Science and Medicine (3 cr.)
BIOL 473 Laboratory in Mammalian Physiology (2 cr.)

Disallowed Courses
Students may select free elective courses from nearly the entire range of the University’s offerings. However, the following courses may NOT be used to satisfy degree requirements in the Biology major, regardless of option, not even as free electives.
ASTRO 001**, 010**, 011**, 120**, 140**
BIOL 011**, 012**
BISC 001, 002, 003**, 004**
BMB 001**
CHEM 001, 002, 006, 101
CMPSC 001, 100, 110
ENGL 004, 005
LL ED 005, 010
MATH 001, 002, 003, 004, 017, 018, 021, 022, 026, 030, 035, 036, 040, 041, 081, 082, 083, 110, 111, 200
MICRB 106, 107, 120, 121A, 121B, 150 151A, 151C, 151D, 151E, 151F, 151W
PHYS 001, 150, 151
CAS 004, 126
STAT 100

In addition, the following types of courses may NOT be used to satisfy degree requirements in the Biology major:

• Courses which are remedial in nature or which focus on reading improvement or study skills. NOTE: Only 3 credits of CHEM 017 and only 4 credits of MATH 140A may be used to satisfy degree requirements.

• Courses which substantially duplicate the subject matter covered in other completed courses taught at a comparable level.

• No more than 6 credits of ROTC and 12 credits of Independent Study (296, 496) may be used to satisfy degree requirements. Unless special permission is granted, Independent Study credit may only be used in the “Free Electives” category.

• No more than 5 credits of KINES may be used to satisfy degree requirements.

• ** On rare occasions, with adequate justification, a student may be permitted to use one or more of these courses to satisfy degree requirements. A petition must be submitted to request such an exception and will be considered on a case-by-case basis.

Genetics and Developmental Biology Option at Abington Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit ( accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

- No more than 6 credits of ROTC and 12 credits of Independent Study (296, 496) may be used to satisfy degree requirements. Unless special permission is granted, Independent Study credit may only be used in the "Free Electives" category.

- No more than 5 credits of KINES may be used to satisfy degree requirements.

- ** On rare occasions, with adequate justification, a student may be permitted to use one or more of these courses to satisfy degree requirements. A petition must be submitted to request such an exception and will be considered on a case-by-case basis.

Career Paths
A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

Program Description

The associate degree program in Business Administration provides an introductory foundation to core aspects of the business environment that prepares graduates for future baccalaureate study in business or for direct entry into the work place. The primary objective of this major is to provide a business-oriented program with sufficient communicative and mathematical skills, socially relevant course work, and specific business specialties to develop a well-rounded and knowledgeable graduate.

Students should work closely with academic advisers to schedule coursework required to transition to baccalaureate business programs.

What is Business Administration?

To be successful in today’s increasingly complex business world, you need to have a broad understanding of how business works. The Penn State Associate degree in Business Administration prepares students for a professional career in today’s business environment. The degree offers students a managerially-oriented program emphasizing communication and mathematical skills, socially relevant course work, and advanced courses in business. While Penn State’s Associate in Science in Business Administration is an excellent stand-alone credential, it can be used to seamlessly transition to a bachelor’s degree such as the Bachelor of Science in Business or other business-related programs at the University.

You Might Like This Program If...

- You want to learn to use the latest technical business tools to perform your job duties effectively.
- You analyze and react to issues facing companies today.
- You collect and analyze data to make inferences and solve business problems.
- You need to execute effective communication strategies.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Business Administration, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>48-50</td>
</tr>
</tbody>
</table>

9 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GQ General Education courses and 6 credits of GWS General Education courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education
Requirements (p. 2727) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

Knowledge Domains
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

University Degree Requirements

Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged
in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Career Paths

Business impacts our society in many ways. Every business, from small companies to large corporations provide employment opportunities. The associate in business degree can help prepare you for a wide variety of entry-level careers in this sector or for continued study in business. You will have the opportunity to participate in an elective business internship as part of your curriculum. Internships provide valuable experience before graduation and an important first step toward starting your career.

Careers

Because the Associate in Science in Business Administration can give you a foundation of business concepts and best practices relevant to any industry, as a graduate of the program you can prepare for positions in accounting departments, management trainee opportunities, retail, insurance industry, industrial management opportunities, office manager, or business service manager. Some examples of jobs include:

- Accounting Specialist
- Accounts Examiner
- Appraisers and assessors of real estate
- Assistant Marketing Director
- Assistant Store Manager
- Billing Clerk
- Business services manager
- Computing business coordinator
• Compliance officers
• Insurance sales agent
• Industrial Salesperson
• Management Trainee
• Office Manager
• Payroll Assistant
• Sales Coordinator

Opportunities for Graduate Studies
Upon completion of the associate degree in business, you may also choose to proceed seamlessly to the bachelor of science in business or selected other business-related majors at Penn State.

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Science in Business (B.S.B.) is a professionally oriented business degree program that combines the theoretical underpinnings of core business disciplines, notably management, marketing, finance, and supply chain management, with applied study in a practical setting. Through the choice of an 18-credit option, students specialize in a key business sector. Students also develop written and oral communication skills throughout the program, acquire contemporary technology skills, and engage in active and collaborative learning. The degree allows students to become familiar with the unique business environments of their local communities, a design that sets the degree apart from other business degrees offered within the University and throughout the Commonwealth.

Accounting Option

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, New Kensington, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

This option prepares students to pursue careers in business with an emphasis on the areas of financial and managerial accounting, systems and controls, auditing, and taxation.

Entrepreneurship Option

Available at the following campuses: Altoona, World Campus

This option prepares students to pursue entrepreneurial careers with emphasis on idea generation, opportunity analysis, new product creation, and business plan development.

Financial Services Option

Available at the following campuses: Abington, Altoona, Berks, DuBois, Lehigh Valley, Scranton, World Campus

This option prepares students to pursue careers in financial organizations with emphasis on wealth management, tax planning, risk management, and financial analysis.

Health Services Option

Available at the following campuses: Abington, Lehigh Valley, World Campus

This option prepares students to pursue careers in the health services sector with emphasis on the financial and administrative aspects of health care enterprises.

Individualized Business Option

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

This option provides the opportunity for students to pursue an approved business-focused interdisciplinary program of study.
Management and Marketing Option
Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

This option prepares students to pursue careers in business organizations with an emphasis on the skills and knowledge necessary for the business professional to function in community and regional centers of commerce.

What is Business?
Business is a professionally-oriented program providing a broad education and solid grounding of business knowledge. Focusing on practical skills and real-world experience, the program’s interdisciplinary perspective provides a versatile base for mobility into all business areas, preparing students for the business world of today and tomorrow. Options provide additional specialization in accounting, entrepreneurship, financial services, health services, management and marketing or the opportunity to develop an individualized plan that fits your career goals.

You Might Like This Program If...
- You want to become a flexible business professional, equipped to adapt to the ever-changing workplace of the future.
- You are interested in an academic challenge with theoretical and practical focus in a competitive yet collaborative learning environment.
- You want transferable skills or you are not sure which business sector you wish to focus.
- You wish to be develop a broad knowledge of business operations.
- You want to develop the skills for working in business.

Entrance To Major
Completion of MATH 22 or MATH 40, MATH 41, MATH 110, MATH 140.

Degree Requirements
For the Bachelor of Science degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>10</td>
</tr>
<tr>

</tr>
<tr>
<td>Total Minimum Credits</td>
<td></td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferrable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Engagement Plan. Colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 3-9 credits from 300 or 400-level HPA courses 3-9

Select 0-6 credits of 300-400-level courses from ACCTG, BA, ECON, ENTR, FIN, FINSV, HPA, IB, MGMT, MKTG, MIS, RM or SCM 0-6

Individualized Business Option (18 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

Select 18 credits of study (with at least 3 credits at the 400-level) as submitted by the student and approved by the campus BSB Program Coordinator. A grade of C or better is required for all option courses.

Management and Marketing Option (18 credits)

Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 3 credits from 300 or 400-level MGMT courses 3

Select 3 credits from 300 or 400-level MKTG courses 3

Select 6-12 additional credits in 300 or 400-level courses from MGMT or MKTG courses 6-12

A minimum of 3 credits of supporting courses must be selected at the 400-level.

Program Learning Objectives

Upon graduation BSB students will be able to:

1. Demonstrate the necessary skills and abilities to effectively communicate.
2. Apply contemporary tools of information technology to include business software applications.
3. Apply leadership, team building, and project management skills.
4. Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
5. Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
6. Utilize and apply fundamental business concepts, principles and contemporary business practices.
7. Recognize, analyze and solve business problems using quantitative and qualitative measures.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Accounting Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Elective 3

Total Credits 122

- Course requires a grade of C or better for the major
- Course requires a grade of C or better for General Education
- Course is an Entrance to Major requirement
- Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Or appropriate MATH course based on ALEKS math assessment.
2 Business Courses: ACCTG, BA, ECON, ENTR, HPA, IB, MGMT, MIS, MKTG, RM, SCM in consultation with adviser.
3 Internship may be waived and 3 credits of 400 level Business substituted for adult learners employed in the field.

Minimum of 120 credits required for graduation; 15 credits must be at the 400-level.

Students wishing to complete Pennsylvania State Board of Accountancy Requirements for CPA certification are recommended to use elective credits to meet the additional 30 hours of academic credit by taking the following courses: ACCTG 431, ACCTG 432, ACCTG 461, ACCTG 473, ACCTG 483, ACCTG 497.

Financial Services Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
†† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate
an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1. Or appropriate MATH course based on ALEKS math assessment.
2. Business Courses: ACCTG, BA, ECON, ENTR, HPA, IB, MGMT, MIS, MKTG, RM, SCM in consultation with adviser.
3. Internship may be waived and 3 credits of 400 level Business substituted for adult learners employed in the field.
4. Business and Communications Selections: BA 250, CAS 250, CAS 252, CAS 352, CAS 404, ENGL 419, MKTG 220 in consultation with adviser. Only one course from CAS 250, CAS 252, CAS 352, or CAS 404 can be taken for this requirement.

Minimum of 120 credits required for graduation, 15 at the 400-level.

**Individualized Option at Abington Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**Total Credits 122**

- Course requires a grade of C or better for the major
- Course requires a grade of C or better for General Education
- Course is an Entrance to Major requirement
- Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes for courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Minimum of 120 credits required for graduation, 15 at the 400-level.

**Career Paths**

In today’s economic environment, the Bachelor of Science in Business allows companies to hire individuals who have a broad knowledge of all aspects of business. This broad knowledge give you the opportunity to be effective within many different types of organizations. You will also be well-positioned to pursue admission to graduate programs.

**Careers**

With a degree in business, you may specialize through options that may vary by campus. With an accounting option, you can work in the areas of financial and managerial accounting, systems and controls, taxation, and auditing. The entrepreneurship option provides the skills for you to start your own business or to work as an entrepreneur within a company. Health services provides the financial and administrative skills and knowledge necessary for you to become a health services managers.
With an option in financial services you might pursue positions in wealth and risk management, estate planning or financial and retirement planning. With the management and marketing option you will be prepared for a career in retail management, small business management or in marketing, advertising and promotion. Finally, with an individualized option, you have flexibility to build specialized skills for your personal business career goals.

**Opportunities for Graduate Studies**
A baccalaureate degree in Business can lead to a Master’s degree in Business (MBA) or other business-related masters degrees. MBA programs are offered at Penn State Great Valley, Penn State Erie, Penn State Harrisburg, Penn State Berks, Smeal College of Business and through the World Campus.

Program Description

This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. While most students will enter the job market directly upon graduation, graduate school in computer science or related areas is also an option. Selection of electives can be tailored for students pursuing this path.

The Computer Science major provides a solid foundation in the areas of systems programming, algorithm design, artificial intelligence, and engineering large software systems using state-of-the-art methodologies and programming languages.

Students may expect to: develop a solid foundation in mathematical studies relevant to computer science; master skills in computer science; enjoy possibilities for internships and part-time employment with local companies; and become problem solvers. These goals are consistent with the goals outlined by the Association of Computing Machinery.

What is Computer Science?

Computer science is the study of computational methods, including their principles and foundations, their efficient implementation, their analyses, and their practical application in wide-ranging areas. It includes the foundations of software development, computational problem solving, the principles of system software, and the fundamental principles and limits of computing. It is much more than just programming. It includes the mathematical foundations that support analyzing, evaluating, and proving the correctness of computational solutions. It includes specializations such as artificial intelligence, machine learning, cybersecurity, data mining, high-performance computing, computer networks, computer graphics, computer vision, quantum computing, and others. It is continually evolving with the development of new and faster forms of computation and with the identification of new problems that require computational solutions.

You Might Like This Program If...

- You have an interest or aptitude in math.
- You enjoy solving problems and you are good at analytical thinking.
- You are interested in finding more efficient solutions to problems. Remember, computer science is more than just programming.

Entrance to Major

Entry to the Computer Science major requires that the student has earned a C or better in the following courses: MATH 140, MATH 141, CMPSC 121, and CMPSC 122.

A 2.00 or higher cumulative grade-point average is required.
Degree Requirements

For the Bachelor of Science degree in Computer Science, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>88</td>
</tr>
</tbody>
</table>

13 of the 45 credits for General Education are included in Requirements for the Major. This includes: 3 credits of GWS courses, 6 credits of GQ courses, and 4 credits in GN courses.

FIRST-YEAR SEMINAR: Incoming first-year students are required to complete a course with the suffix S, T, or X, or the PSU abbreviation.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

 Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

 Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

 Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Prescribed Courses: Require a grade of C or better

- CMPSC 121 Introduction to Programming Techniques
- CMPSC 122 Intermediate Programming
- CMPSC 360 Discrete Mathematics for Computer Science
MATH 140  Calculus With Analytic Geometry I  4
MATH 141  Calculus with Analytic Geometry II  4

Additional Courses
Select one of the following:  3
  MATH 318  Elementary Probability
  STAT 301  Statistical Analysis I
  STAT 318  Elementary Probability
Select 15 credits of the following (9 of which must have a CMPSC prefix):  15
  CMPSC 313  Assembly Language Programming
  CMPSC 412  Data Structures Lab
  CMPSC 413  Algorithms Lab
  CMPSC 426  Object-oriented Design
  CMPSC 438  Computer Network Architecture and Programming
  CMPSC 441  Artificial Intelligence
  CMPSC 444  Secure Programming
  CMPSC 455  Introduction to Numerical Analysis I
  CMPSC 457  Computer Graphics Algorithms
  CMPSC 475  Applications Programming
  CMPSC 496  Independent Studies
  CMPSC 497  Special Topics
  MATH 401  Introduction to Analysis I
  MATH 411  Ordinary Differential Equations
  MATH 412  Fourier Series and Partial Differential Equations
  MATH 425  Introduction to Operations Research
  MATH 430  Linear Algebra and Discrete Models I
  MATH 431  Linear Algebra and Discrete Models II
  MATH 435  Basic Abstract Algebra
  MATH 449  Applied Ordinary Differential Equations
  MATH 450  Mathematical Modeling
  MATH 455  Introduction to Numerical Analysis I
  MATH 465  Number Theory
  MATH 468  Mathematical Coding Theory
  MATH 496  Independent Studies
  MATH 497  Special Topics

Supporting Courses and Related Areas
Select 6 credits of 300-400 level courses in consultation with an academic adviser and in support of the student's interests  6
Select 5 credits of 100-400 level courses  5

1 Requires a grade point average of 2.5 or higher.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

1 Students must earn a 2.5 or higher-grade point average in the following courses: CMPSC 221, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488.

2 Select Supporting Courses/Technical Electives in consultation with an academic adviser.

3 Technical Elective (Courses in CMPSC/MATH in consultation with an academic adviser): CMPSC 313, CMPSC 412, CMPSC 413, CMPSC 428, CMPSC 438, CMPSC 441, CMPSC 444, CMPSC 455, CMPSC 457, CMPSC 475, CMPSC 496, CMPSC 497, MATH 401, MATH 411, MATH 412, MATH 425, MATH 430, MATH 431, MATH 435, MATH 445, MATH 449, MATH 450, MATH 455, MATH 465, MATH 468, MATH 496, MATH 497.

4 6 credits from courses at 300-400 level and 5 credits from courses at 100-400 level are to be chosen in consultation with the advisor and with program approval.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes:

1. General Education & Entrance to Major Requirements (55 credits)
   a. English (9 credits)
      i. ENGL 15 or ENGL 30 (GWS)
      ii. ENGL 202C (GWS)
      iii. CAS 100 (GWS)
   b. Mathematics (10 credits)
      i. MATH 140 (GS)
      ii. MATH 141 (GS)
      iii. MATH 220 (GS)
   c. Computer Science (6 credits)
      i. CMPSC 121 (GQ)
      ii. CMPSC 122
   d. Natural Sciences
      i. PHYS 211 (GN)
      ii. Additional 5 credits of any courses with a GN suffix (PHYS 212 recommended)
   e. Arts
      i. 6 credits of any courses with a GA suffix
   f. Humanities
      i. 6 credits of any courses with a GH suffix
   g. Social & Behavioral Sciences
      i. 6 credits of any courses with a GS suffix
   h. Health & Physical Activities
      i. 3 credits of any courses with a GHW suffix

2. Core Requirements (65 credits)
   a. Required Computer Science Courses - Students must earn a 2.5 or higher-grade point average in the Required Computer Science Courses (36 credits):
      i. CMPSC 221
      ii. CMPSC 312
      iii. CMPSC 360
      iv. CMPSC 430
      v. CMPSC 460
      vi. CMPSC 462
      vii. CMPSC 463
      viii. CMPSC 469
      ix. CMPSC 470
      x. CMPSC 472
      xi. CMPSC 487W
      xii. CMPSC 488
   b. Required Mathematics Courses - Select one course from the following (3 credits):
      i. STAT 301
      ii. STAT 318
      iii. MATH 318

3. Technical Requirements (15 credits)
   a. Select at least 15 credits from the following. Other courses are to be chosen in consultation with the advisor and with program approval. At least 9 of these technical elective credits must be from courses with a CMPSC prefix.
i. CMPSC 313  
ii. CMPSC 412  
iii. CMPSC 413  
iv. CMPSC 414  
v. CMPSC 421  
vi. CMPSC 426  
vii. CMPSC 428  
viii. CMPSC 438  
ix. CMPSC 441  
x. CMPSC 444  
xi. CMPSC 455  
xii. CMPSC 457  
xiii. CMPSC 475  
xiv. CMPSC 496  
xv. CMPSC 497  
xvi. MATH 401  
xvii. MATH 411  
xviii. MATH 412  
xix. MATH 425  
x. MATH 430  
xx. MATH 431  
xxi. MATH 435  
xxii. MATH 449  
xxiii. MATH 450  
xxiv. MATH 455  
xxv. MATH 465  
xxvi. MATH 468  
xxvii. MATH 485  
xxviii. MATH 496  
xxix. MATH 497  

4. Additional Electives / Supporting Courses (11 credits)  
a. 6 credits from courses at 300-400 level and 5 credits from courses at 100-400 level are to be chosen in consultation with the advisor and with program approval.

Career Paths  
Computer Science jobs are expected to be among the top three fastest growing occupations and one of the top 20 in the number of new jobs created. According to the U.S. Bureau of Labor Statistics, employment opportunities for Computer Science graduates are projected to grow 12 percent from 2014 to 2024, faster than the average for all occupations. Computer Science students are encouraged to incorporate internships into their academic program. Internships can provide valuable hands-on experience that will benefit graduates during their job search. Previous students have completed successful internships with state government, IBM, UNISYS, and other businesses.

Careers  
This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. Over the last few years, Penn State Harrisburg Computer Science graduates have obtained positions with companies such as Blue Cross/Blue Shield, Google, Boeing, Microsoft, Intel, IBM, Oracle, General Dynamics, Northrop and Grumman, GEOS, Hershey Medical Center, Woolworth, Rite Aid, and EDS.

Opportunities for Graduate Studies  
The program provides a sound background for students who plan to pursue graduate studies in computer science, including Penn State's Master of Science in Computer Science program. Selection of electives can be tailored for students pursuing this path.

Corporate Communication, B.A. (Abington)  
Begin Campus: Any Penn State Campus  
End Campus: Abington  

Program Description  
The Penn State Corporate Communication Bachelor of Arts (CCBA) program prepares students for various strategic communication roles inside and outside organizations. Graduates of the program hold titles such as public relations professional, social media strategist, speech and copywriter, political aide, marketing communication manager, organizational learning and development specialist, corporate recruiter, and event planner. Graduates have earned advanced degrees in areas such as Business, Law, and Corporate Communication.

The CCBA program is interdisciplinary. While providing depth of study in Corporate Communication, it also includes mandatory Business courses and courses focusing on web based competencies such as writing for the web and digital design. With its overall emphasis on
the human and design aspects of contemporary organizations, the program is particularly well-suited to individuals seeking to develop and apply their analytical, verbal, and creative talents. Such talents foster aptitudes in strategic counseling and integrative praxis that, in part, make a Corporate Communication degree unique and highly sought after in the marketplace.

**What is Corporate Communication?**

Corporate Communication encompasses all aspects of strategic communication in for-profit and not-for-profit organizations, from internal communication between senior leaders and frontline professionals to communication with external clients. Corporate communicators are highly skilled professionals in the art of planning, problem solving, and persuading with a sharp understanding of their audience's needs, tastes, and interests.

**You Might Like This Program If…**

- You know you are creative with strong writing and speaking skills.
- You desire to be an ethical communicator who creates meaningful connections with your audience.
- You possess an international, multicultural mindset.
- You want to pursue a career in social media, public relations, or marketing.

MORE INFORMATION ABOUT CORPORATE COMMUNICATION (http://abington.psu.edu/corporate-communication/)

**Entrance to Major**

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**

For the Bachelor of Arts degree in Corporate Communication, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>2-9</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>51-52</td>
</tr>
</tbody>
</table>

3-9 of the 45 credits for General Education are included in Requirements for the Major. This includes: 3-6 credits of GS courses; 0-3 credits of GH courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives
Students completing the Penn State Corporate Communication Bachelor of Arts program will be able to demonstrate the following learning outcomes:

1. Describe the Corporate Communication field and its central questions
   a. Explain the origins of the Corporate Communication field.
   b. Summarize the broad nature of the Corporate Communication field.
   c. Categorize the various career pathways for students of Communication.
   d. Articulate the importance of Corporate Communication expertise in career development and civic engagement.
   e. Examine contemporary debates within the field.
   f. Distinguish the Corporate Communication field from related areas of study.
   g. Identify with intellectual specialization(s) in the Corporate Communication field.

2. Employ Corporate Communication Theories, Perspectives, Principles, and Concepts
   a. Explain Corporate Communication perspectives, theories, principles, and concepts.
   b. Synthesize Corporate Communication perspectives, theories, principles, and concepts.
   c. Apply Corporate Communication perspectives, theories, principles, and concepts.
   d. Critique Corporate Communication perspectives, theories, principles, and concepts.
3. Engage in Corporate Communication Inquiry
   a. Interpret Corporate Communication scholarship.
   b. Evaluate Corporate Communication scholarship.
   c. Formulate questions appropriate for Corporate Communication scholarship.
   d. Engage in Corporate Communication scholarship using the research traditions of the field.
   e. Differentiate among various approaches to the study of Corporate Communication.
   f. Contribute to the scholarly conversations appropriate to the purpose of inquiry.
4. Create Messages Appropriate to the Audience, Purpose, and Context
   a. Locate and use information relevant to goals, audiences, purposes, and contexts.
   b. Select creative and appropriate modalities and technologies to accomplish Corporate Communication goals.
   c. Adapt messages to the diverse needs of individuals, groups, and contexts.
   d. Present messages in multiple communication modalities and contexts.
   e. Adjust messages while in the process of communicating.
   f. Critically reflect on one's own messages after the communication event.
5. Critically Analyze Messages
   a. Identify meanings embedded in messages.
   b. Articulate characteristics of mediated and non-mediated messages.
   c. Recognize the influence of messages.
   d. Engage in active listening.
   e. Enact mindful responding to messages.
6. Demonstrate the Ability to Accomplish Communicative Goals (Self-Efficacy)
   a. Identify contexts, situations, and barriers that impede communication self-efficacy.
   b. Perform verbal and nonverbal communication behaviors that illustrate self-efficacy.
   c. Articulate personal beliefs about abilities to accomplish communication goals.
   d. Evaluate personal communication strengths and weaknesses.
7. Apply Ethical Corporate Communication Principles and Practices
   a. Identify ethical perspectives.
   b. Explain the relevance of various ethical perspectives.
   c. Articulate the ethical dimensions of a Corporate Communication situation.
   d. Propose solutions for an (un)ethical Corporate Communication situation.
   e. Evaluate the ethical elements of a Corporate Communication situation.
8. Utilize Corporate Communication to Embrace Difference
   a. Articulate the connection between Corporate Communication and culture.
   b. Recognize individual and cultural similarities and differences.
   c. Appreciate individual and cultural similarities and differences.
   d. Respect diverse perspectives and the ways they influence communication.
   e. Articulate one's own cultural standpoint and how it affects communication and world view.
   f. Demonstrate the ability to be culturally self-aware.
   g. Adapt one's communication in diverse cultural contexts.
9. Influence for Greater Good
   a. Explain the importance of Corporate Communication for civic life from the local to global levels.
   b. Identify the challenges facing communities and the role of Corporate Communication in resolving those challenges.
   c. Frame local, national, and/or global issues from a Corporate Communication point of view.
   d. Evaluate local, national, and/or global issues from a Corporate Communication point of view.
   e. Use Corporate Communication to respond to issues at the local, national, and/or global level.
   f. Advocate a course of action to address local, national, and/or global issues from a Corporate Communication point of view.
   g. Use Corporate Communication to empower individuals in terms of human rights, human dignity, and human freedom.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

## Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 120

- Course requires a grade of C or better for the major
- Course requires a grade of C or better for General Education
- Course is an Entrance to Major requirement
- Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

1. English 202D is recommended for Corporate Communication majors.
2. CC 200 is a prerequisite for all other CC courses. Check the Undergraduate Bulletin for additional pre-requisites for specific courses.

**Program Notes:**

A minimum of 120 credits is required to graduate.

Students must take a minimum of 15 credits at the 400 level or equivalent.

US or IL courses may double count as Gen Ed or other major courses, but not as Other Culture courses.

PHIL 10 is a recommended GH course.

MATH 21 and STAT 200 are recommended GQ courses; MATH 21 is a prerequisite for MKTG 301.

BA 303 or MKTG 301 is a prerequisite for MKTG 310.

**Career Paths**

Corporate Communication is a challenging and exciting career field. Corporate communicators manage the dissemination of information to key constituencies, the execution of corporate strategy, and the development of messages for a variety of purposes inside and outside the organization. Corporate communicators usually oversee media relations, crisis communications, internal communications, reputation management, corporate responsibility, investor relations, government affairs, and sometimes marketing communication. The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

**Careers**

A Corporate Communication degree can lead to a career in for-profit businesses or in not-for-profit areas such as charitable, political, health care, and educational organizations. You’ll be prepared to work as a professional in a wide range of fields including event planning, human resources, marketing, public relations/public information, and social media relations.

**Opportunities for Graduate Studies**

A baccalaureate degree in Corporate Communication prepares students to pursue master’s degrees in programs such as strategic communication and obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Criminal Justice, B.A. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?
Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...
You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

MORE INFORMATION ABOUT CRIMINAL JUSTICE

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification.

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY

Degree Requirements
For the Bachelor of Arts degree in Criminal Justice, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>12-15</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>49</td>
</tr>
</tbody>
</table>

10-13 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 4 credits of GQ courses; 6 credits of GS courses.

3 of the 24 credits for General Education are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Academic Advising**
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary
academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Select 12 credits, in consultation with the adviser, in one or two of the following skill enhancement areas: accounting, computers, composition and rhetoric, counseling, education, law and legal studies, foreign language, management, public speaking, research methods and statistics, science and engineering, biobehavioral health; or in the following topics: adolescence, deviant behavior, drugs, minorities

Program Learning Objectives
1. Knowledge About Crime and Delinquency
   a. Understand and describe different levels of adult crime and juvenile delinquency.
   b. Understand the difference between adult crime and juvenile delinquency.
2. Risk Factors for Crime and Delinquency
   a. Identify well-established biological, psychological, and social risk factors for adult crime.
   b. Identify well-established biological, psychological, and social risk factors for juvenile delinquency.
3. Criminal Justice Policies to Reduce Crime and Delinquency
   a. Identify and summarize the most effective criminal justice policies for reducing adult criminal behavior.
   b. Identify and summarize the most effective criminal justice policies for reducing juvenile delinquent behavior.
4. The Application of Criminological Theory for Criminal Justice Policy
   a. Summarize how criminological theory can inform and improve criminal justice policy.
   b. Demonstrate the ability to critically evaluate criminal justice policies based on knowledge from criminological theories.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

English, B.A. (Abington)

Program Description

Majors explore the imaginative and practical uses of English through courses in literature, writing, rhetoric, and language. They develop perspectives on human nature and cultural values through American, British, and other English literatures; they learn how to gather, analyze, synthesize, and communicate information; they gain mastery over their language. These skills help English majors find careers in such fields as publishing, business, industry, government, and teaching. English majors often go on to postgraduate study not only in English but in such areas as law, business, education, or other liberal disciplines.

Majors can emphasize writing, literature, or rhetoric, or a mix of literature, writing, and rhetoric. All provide a liberal education and all develop analytic and writing skills. Qualified students may participate in the career internship and in the English honors program.

Career Paths

Graduates of the Criminal Justice program are prepared to enter the workforce or can continue their graduate education in Master's and PhD programs, as well as law school. Penn State Altoona Career Services supports and serves students in all areas related to career development and preparation including: Major and Career Exploration Career Decision-Making Preparation of Employment Documents Internship and Job Search Strategies Interview Preparation Preparing for Graduate School Developing your Professional Online Brand Presentations and Workshops.

English, B.A. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington
Students interested in earning certification in secondary education should contact the College of Education, Department of Curriculum and Instruction. (See also Teacher Education Programs.)

**Traditions of Innovation Option**  
**Available at the following campuses: Abington, Altoona, Brandywine, Scranton, University Park**

This option allows students to explore the imaginative and practical uses of English language through a variety of courses in literature, writing, and rhetoric across historical periods. The flexibility of the English curriculum allows students to focus in literary and cultural studies, creative writing, professional and media writing, and/or rhetoric, according to individual interests and goals. In the process, students learn to gather, analyze, synthesize, and communicate information as they improve their language skills across diverse creative and critical scenarios. These skills prepare students for careers in a wide range of professional fields.

**Writing and Literature in Context Option**  
**Available at the following campuses: Abington, Brandywine, Greater Allegheny, Scranton, Wilkes-Barre, York**

This option focuses on English as a foundation for strong critical thinking and distinct communication skills, imaginative approaches to problem solving, and collaboration with aligned fields. The flexibility of the major allows students to study literature, creative writing, theatre, media studies, professional writing, and/or other disciplines, according to their individual interests and goals. These foundations prepare English majors for careers in a wide range of professional fields.

**What is English?**

English refers to a broad field of study related to the reading, writing, studying and analyzing of English literature and language. The field includes the many and varied forms and genres of literature, writing, and rhetoric, and often considers how value and meaning are created, and information communicated, through these various texts.

**You Might Like This Program If...**  
- You enjoy composing texts that are varied in genre, style, and medium, including critical essays, short stories, poems, reviews, digital media, podcasts, and others.  
- You find yourself compelled to make connections between literary texts and ideas that are both present across historical eras and pertinent to current realities.  
- You are interested in how audiences treat and use texts, whether the texts are print or digital, technical, critical, and/or creative.  
- You want to solve problems through deliberate communication, in arenas that overlap with other areas of human life, like science, law, art, business, and the social sciences.

**Degree Requirements**

For the Bachelor of Arts degree in English, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>
</tr>
</tbody>
</table>

Bachelor of Arts Degree  
Requirements  
Requirements for the Major  
36

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**  
- Quantification (GQ): 6 credits  
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**  
- Arts (GA): 6 credits  
- Health and Wellness (GHW): 3 credits  
- Humanities (GH): 6 credits  
- Social and Behavioral Sciences (GS): 6 credits  
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**  
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 3 credits of 400-level post-1800 courses 3

Supporting Courses and Related Areas
Supporting Courses and Related Areas: Require a grade of C or better
Select 6 credits of English courses at any level 6

Program Learning Objectives
1. Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.
2. Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.
3. Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.
4. Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.
5. Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.
Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 121-123  

* Course requires a grade of C or better for the major  
† Course requires a grade of C or better for General Education  
‡ Course is an Entrance to Major requirement  
§ Course satisfies General Education and degree requirement  

**University Requirements and General Education Notes:**  
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).  
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.  
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.  
Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.  

**Bachelor of Arts Requirements:**  
Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.  

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).  

**Additional Notes:**  
This document is only for planning purposes and cannot replace working with an academic adviser. Each student pursues their own path and campuses differ in their ENGL offerings. Most students are ‘off the plan’ after one semester.  

One 400-level course must meet diversity requirement for the major.  
Two general education courses (GQ, GN, GA, GH, GS) must be integrative studies courses - Interdomain or linked.  

Depending on placement and proficiency, world language courses may need to be replaced with elective credits.  

Students are required to take one Writing across the Curriculum course.  

Students need at least 24 credits in ENGL courses completed at UP due to competency requirements. Campus advisors may work with the UP English adviser if they have questions about what their current students might take.  

‘Other Cultures’ courses may overlap with a general education requirement.  

**Program Notes:**  
General Education courses are interchangeable; students may choose the General Education courses they wish to take in any given semester based on preference, availability, and academic goals.  
Scheduling patterns vary according to course offerings.  
Both US (United States Cultures) and IL (International Cultures) courses must be completed within the degree requirements; these courses may not be used to fulfill the Other Cultures requirements.  

**Writing and Literature in Context Option at Abington Campus**  
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

### Additional Notes:

This document is only for planning purposes and cannot replace working with an academic adviser. Each student pursues their own path and campuses differ in their ENGL offerings. Most students are ‘off the plan’ after one semester.

One 400-level course must meet the diversity requirement for the major.

Two general education courses (GQ, GN, GA, GH, GS) must be integrative studies courses - Interdomain or linked.

Depending on placement and proficiency, world language courses may need to be replaced with elective credits.

Students are required to take one Writing across the Curriculum course. ’Other Cultures’ courses may overlap with a general education requirement.

### Program Notes:

General Education courses are interchangeable; students may choose the General Education courses they wish to take in any given semester based on preference, availability, and academic goals.

Scheduling patterns vary according to course offerings.

Both US (United States Cultures) and IL (International Cultures) courses must be completed within the degree requirements; these courses may not be used to fulfill the Other Cultures requirements.

### Career Paths

**Careers**

Our graduates use their training in careers as attorneys, publishers and writers of all types, public relations directors, foreign service specialists, and entrepreneurs, as well teachers and education professionals.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ENGLISH PROGRAM [http://english.la.psu.edu/undergraduate/the-value-of-the-english-major/]

### Opportunities for Graduate Studies

English majors often go on to postgraduate study not only in English but in such areas as law, medicine, business, education, or other liberal disciplines.

Finance, B.S. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
The finance major emphasizes analytic, problem solving, and computer skills which are necessary for finance and investment industry. The major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

The requirements in the major complement basic business instruction in accounting, management, marketing, and information systems. With business and non-business electives, the program is designed to develop necessary skills to be an effective financial manager. Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, students are provided with many opportunities to experience the world of business.

What is Finance?
Finance focuses on how individuals and business organizations raise money and capital, and how those resources are allocated among competing investment and consumption opportunities. The field focuses on domestic and international financial economies and the role of financial markets and institutions key in the movement of savings and investment capital from lenders to borrowers. It also deals with how individuals and corporate managers evaluate alternative investment and savings opportunities and how they choose among various financial instruments.
You Might Like This Program If...

- You enjoy numbers and ‘real world’ applications of math.
- You are interested in how businesses and banks manage their assets.
- You want a career in business, finance, or investment management.

Entrance to Major

Entry to the Finance major requires the completion of 8 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, FIN 301, MATH 110 or MATH 140, MGMT 301, MKTG 301, SCM 200 or STAT 200; and a 2.00 or higher cumulative grade-point average.

Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

1 Course requires a grade of C or better.

Degree Requirements

For the Bachelor of Science degree in Finance, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives (non-business courses)</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

At least 50 percent of the business credit hours required for the degree must be taken at Capital College. No more than 60 credits should be from business and business-related courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

FIN 456  International Capital Markets
FIN 461  Portfolio Management and Analysis  1
FIN 489  
FIN 496  Independent Studies

Other finance courses approved by the Program

Supporting Courses and Related Areas
Select 9 credits of 200-400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests  9

1  For students considering CFA exam, FIN 407, FIN 427 and FIN 461 are recommended.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Select courses in consultation with an academic adviser and in support of the student’s interests.

2 Select 200-400 level business courses from BA, FIN, MIS, MGMT, MKTG, SCM, or ACCTG in consultation with an academic adviser and in support of the student’s interests. FIN 495 (Finance Internship) can satisfy a business support requirement. For more information, contact the Business Program Chair.

**Career Paths**

The Finance major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE FINANCE PROGRAM (https://harrisburg.psu.edu/business-administration/finance/bachelor-science-finance/)

**Opportunities for Graduate Studies**

The School of Business Administration offers a limited number of academically superior Bachelor of Science in Finance candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Finance and the Master of Business Administration.

**Academic Advising**
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

**History, B.A. (Abington)**

**Begin Campus:** Any Penn State Campus  
**End Campus:** Abington

**Program Description**
This major provides a broad introduction to the history of the great civilizations of the world and specific areas of historical inquiry. Centered in one of the basic, traditional disciplines, the History major offers invaluable preparation for students interested in a career in government, international relations, law, or librarianship, as well as essential training for those interested in a professional career as an academic or public historian, archivist, or secondary school teacher. Along with the perspective on the present that a study of the past engenders, the program develops skills in research, analysis, and synthesis that have proved useful in commerce and industry. The History major permits easy combination with minors, area studies, or even a concurrent major, providing flexibility in one's career choice.

**What is History?**
History offers a compelling vision of human activity and capability- from the heights of human creativity and compassion, to the depths of cruelty. It offers a unique analytical perspective on the world, too, because it brings to bear a comprehensive view that social-science disciplines seldom match. To understand history, we need to know about culture, religion, art, as well as politics and war. The study of history permits a breadth of knowledge, an understanding of trends, and many other intellectual perspectives that allow an individual to better comprehend today's complex world.

**You Might Like This Program If...**
- You want to learn to assess the credibility of sources; in today's media-rich environment, you will put this skill to work every day.
- You want to gain a deeper understanding of complex causalities; as a history student you will practice thinking about the significance of multiple, often interlinking factors and the way they contribute to complex events.
- You're interested in pursuing a career in law, business, or education.

**Entrance to Major**
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

**Degree Requirements**
For the Bachelor of Arts degree in History, a minimum of 123 credits is required:
First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

### Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

### Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

### Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

### Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

### Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

### B.A. Degree Requirements

#### Foreign Language
(0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

#### B.A. Fields
(9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

#### Other Cultures
(0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

### Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### University Degree Requirements

#### First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

### Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

### Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

### Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

### General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 12 credits, in consultation with an adviser, at the 100-200-level. 12 one course from each of the following field categories: Europe, United States, Global, Pre-Modern 1

Select 3 credits at the 100-400-level 3

Select 12 credits at the 400-level, at least one course which must be in Global History 1

1 Courses that appear in two History categories (such as HIST 174) cannot be double-counted to be applied to two field categories. However, the student may choose to which category to apply the course.

Program Learning Objectives

Students will:

1. Master chronological thinking and historical comprehension.
2. Master historical and historiographic analysis and written interpretation.
3. Demonstrate historical research capabilities built upon the analysis of primary and secondary sources.
4. Demonstrate skills in effective written communication.
5. Demonstrate skills in effective oral communication.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

†† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

2 All students must complete one course at the 100/200 level in each of the topic areas: European, United States, Global, and PreModern. See adviser for approved list.
3 All students must complete one 400 level HIST course in Global topics. See adviser for approved list.

Additional Notes

Course selections towards the HIST major must include at least 6 credits of Global History courses. Consult department list or adviser.

All students must complete at least one 3 credit Writing Intensive course. HIST 302W required of all History majors satisfied this requirement.

All students must take a United States Cultures (US) and an International Cultures (IL) course. Some of the prescribed courses for History majors may satisfy these requirements (HIST 20 or 21 for US, HIST 1 or 2 or 10 or 11 for IL).

Students who begin the world language sequence at a level higher than 001 need to replace the skipped credits with additional elective credits.

Career Paths

Penn State History majors have enjoyed success in a wide variety of fields. They are found in careers that relate to the major, such as historic preservation, museum work, and education; a healthy representation of our majors go on to law school and graduate school. However, it is not unusual to find former history majors in areas that might not immediately come to mind. Penn State history majors can be found in architecture, software development, web development, banking, federal government work, and the Peace Corps, to name just a few. They tend to do well because their basic skills are sound.

Careers

• Law
• Secondary Teaching
• Historic Preservation
• Governmental Organizations
• United Nations Organizations
• Non-Governmental Organizations
• Industry Leaders

1 All students are required to complete one of three survey sequences: HIST 020 and 021 or HIST 001 and 002 or HIST 010 and 011.
Information Sciences and Technology, B.S. (Abington)

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major is structured to provide students with the theoretical frameworks and skill sets necessary to compete and be productive in the information technology-intensive global context that defines the new 'Information Age.' Specifically, the degree will be focused on a program that will build an understanding of core information technologies and related areas of study; will prepare students for the practical application of various information sciences and related technologies; and engage students in sharpening their abilities to think critically and to work in teams. All this will be done with considerable interdisciplinary integration in order to expose students to the cognitive, social, institutional, and global environments of IST. Team projects in most courses, a required internship, and a senior capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies of the field.

Information Context: People, Organizations, and Society Option

Available at the following campuses: Beaver, Berks, Scranton, University Park

This option focuses on how information technology affects social change and the delivery of information to the consumer. This includes the human-machine interface; organization and retrieval of information; digital libraries; information and telecommunications services; information and media industry structures; software services and intermediaries; telecommunications and information law and policy; sociological aspects of technology change; multimedia; and art, design, and aesthetics.

Information Systems: Design & Development Option

Available at the following campuses: Abington, Beaver, Berks, Brandywine, Harrisburg, Lehigh Valley, Scranton, University Park, World Campus, York

This option is focused on expanding the skills needed to develop advanced information technology systems using state-of-the-art tools and techniques. The emphasis is on providing the student with both knowledge in the design, implementation, testing and evolution of complex software systems as well as a set of project-oriented, team- programming experiences.

Information Technology: Integration & Application Option

Available at the following campuses: Abington, Beaver, Berks, Brandywine, Greater Allegheny, Harrisburg, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Schuylkill, Scranton, University Park, Wilkes-Barre, World Campus, York

This option is designed to prepare students to use information technology to realize a variety of system-based goals (e.g., reliability, accessibility, efficiency, etc.). It is focused on developing a theoretical foundation and the skill set needed for integrating information technology into different systems for the purpose of enhancing system performance. The emphasis is on providing the student with both the theoretical frameworks needed to use information technology as a system attribute as well as a set of application-oriented experiences and skills.

What is Information Sciences and Technology?

Information Sciences and Technology is a discipline that explores how we can strengthen the power of information and technology, and use it to increase human potential. This includes focusing on creating innovative systems and technological solutions that benefit businesses, organizations, and individuals, and understanding the role of technology in how we live our lives.

MORE INFORMATION ABOUT INFORMATION SCIENCES AND TECHNOLOGY (https://ist.psu.edu/students/undergrad/majors/istbs/)

You Might Like This Program If...

- You want to develop new software and web applications, help businesses operate more effectively by creating and implementing technological solutions, or understand how technology is connected to broader social issues.
- You are interested in technology but also want to work with people.
- You enjoy coming up with creative solutions to difficult challenges.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY INFORMATION SCIENCES AND TECHNOLOGY (https://issuu.com/istpsu/docs/information-sciences-and-technology-major/)

Entrance to Major

To be eligible for entrance to the Information Sciences and Technology (ISTBS) major, students must:

1. have completed the following entrance-to-major requirements with a grade of C or better in each: IST 110; IST 140 (or equivalent CMPSC 101 or CMPSC 121) IST 210; and IST 220.
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

**Entrance to the Integrated Undergraduate-Graduate (IUG) Program**

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor’s and master’s degree in a shorter period of time than would be necessary if the degrees were pursued separately. Information Sciences and Technology undergraduates may apply for admission to the ISTBS/ISTMS IUG program as early as February 15 of their sophomore year and no later than February 15 of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in Informatics. Students must complete the Graduate School application (http://gradschool.psu.edu/apply/).
5. Must apply to the IUG program by February 15 of their junior year.

**Degree Requirements**

For the Bachelor of Science degree in Information Sciences and Technology, a minimum of 125 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>84</td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes 12 credits of General Education courses: 6 credits of GQ courses; 3 credits of GS courses; and 3 credits of GWS courses.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**

- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**

3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or within time constraints (see Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-graduate-students/82-44-degree-requirements/#82-44)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-44-degree-requirements/#82-44).

Program Learning Objectives

Knowledge/Application:

1. Understand and apply the interdisciplinary, theoretical knowledge of the information sciences or security sciences.
   a. Define and explain the core concepts, principles, processes, and theories within the academic majors of IST and/or SRA.
   b. Apply the core concepts of the academic majors of IST and/or SRA to real-world problems.

Problem-Solving:

1. Understand, apply and adapt various problem solving strategies, using appropriate technology and methods.
   a. Identify information problems and/or opportunities in terms of the human, informational and technology dimensions.
   b. Analyze issues surrounding the problem and/or opportunity in terms of the human, informational, and technology dimensions; and determine the requirements appropriate to understanding the situation.
   c. Design systems, architectures, processes, components, or programs to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).
   d. Deploy up-to-date and appropriate techniques, methodologies, and/or tools necessary for understanding opportunities and constraints and/or the optimal design, implementation and continuance of an information based solution.
   e. Evaluate the success of systems, architecture, processes, components, or programs intended to meet desired needs of the human context at varying levels of analysis (e.g., individual, group, organization, society, and/or world).

Communication (Individual and Team):

1. Communicate and work effectively (both individually and in teams) with a range of perspectives and audiences through a variety of media.
   a. Participate effectively on teams in order to accomplish a common goal.
   b. Communicate effectively with a range of audiences, formally or informally, through writing and the spoken word.
   c. Seek out, analyze, and incorporate diverse ideas and broader perspectives represented in the diversity of people.
   d. Make respectful and inclusive choices in interacting with customers, peers, supervisors, and/or subordinates with a diversity of identity characteristics (e.g., age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status).

Professional Responsibilities:

1. Understand professional responsibilities in terms of the ethical, legal, security and social aspects of any given problem and its solution.
   a. Demonstrate an understanding of the cognitive, social, legal, ethical, diversity, and security perspectives surrounding a given problem.
   b. Assess the impact of information, computing and technology on individuals, groups, organizations, society, and the world for the purpose of making informed decisions from a sociological, governmental, legal, and/or security perspective.

Lifelong Learning:

1. Commit to the continuous acquisition of relevant knowledge for professional development by self-teaching and/or on-going education and learning.
   a. Employ information-seeking strategies and self-directed learning in pursuit of current knowledge.
   b. Enroll in professional development and tutoring opportunities.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Integration and Application Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 IST 495 - One internship for credit is required to complete degree requirements, a maximum of three internships for credit are allowed. Should be scheduled and completed during summer and can be scheduled as early as the first year.

### Support of Option Notes

Any non-required IST course can be used as a Support of Option. For example: IST 250, IST 261, IST 311.

### Design and Development Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

IST 495 - One internship for credit is required to complete degree requirements, a maximum of three internships for credit are allowed. Should be scheduled and completed during summer and can be scheduled as early as the first year.

**Career Paths**

IST allows you to explore some of the biggest challenges facing society and work to solve them by leveraging information and using technology. It blends skills from a number of fields – computer science, business, psychology, math, sociology, political science – so you can help people and organizations thrive. IST’s Office of Career Solutions helps students navigate their internship and career development in the field through coaching, workshops, interview preparation, resume reviews, career fairs, job postings, and networking opportunities.

**Careers**

Because our courses blend technical knowledge with skills in communication and business, an IST degree allows for careers in nearly every industry including consulting, business, government, defense, entertainment, and medicine.

Integrative Arts, B.A. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
Integrative Arts is an interdisciplinary major available to students who desire a curriculum that crosses over traditional single discipline lines. The Integrative Arts student initially establishes an academic plan with the assistance of an approved adviser. The plan must contain a core component of 42 credits and an elective component of 15 credits. The two components combined must clearly illustrate that the plan has clarity, purpose, and cohesion. All Integrative Arts students must complete 6 credits of history of the arts. These credits may be counted as a part of the major or, if outside the major, may be counted under General Education and/or Bachelor of Arts degree requirements. Consult with adviser for course selection.

What is Integrative Arts?
The Integrative Arts major provides opportunities for students to unite their creative and vocational interests in the arts and design with other areas such as science, technology, business, and more. It’s a hands-on, self-directed approach to creative and career development. Creative interests and professional aspirations come together to explore unique and unexpected creative, intellectual, and professional pathways. Combine painting and sculpture with biology; merge a passion for illustration with writing children’s literature; enhance digital media with UX design—the possibilities are endless!

You Might Like This Program If...
You’re passionate about the arts and design, but can’t find a degree program that addresses all of your interests. Or, you want a unique program that lets you cross disciplinary boundaries. Perhaps you want to merge your creative practice with study outside of the arts and design. If so, Integrative Arts might be the place for you. Successful Integrative Arts students are highly motivated individuals who are excited by opportunities for self-directed research. If this sounds like you, then this might be the program for you!

Entrance to Major
In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

Degree Requirements
For the Bachelor of Arts degree in Integrative Arts, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>15-24</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>42</td>
</tr>
</tbody>
</table>

6-15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GHW, 6 credits of GA, and 0-6 credits of GN.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3
credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
Must include at least 15 credits at the 400 or equivalent level.

Must include 6 credits in History of the Arts.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

</tr>
</tbody>
</table>

Program Learning Objectives
1. Students will prepare, with appropriate faculty input, a proposal that will outline their post-graduation aspirations and how these targets will be achieved through a concomitant course of study in the arts or an arts-related field.
2. Students will present evidence—by means of an original work of art or an analysis of a work of art—that they have an understanding of the art form/forms studied in their academic programs.
3. Students will produce oral and written reports/essays that explore and analyze the arts/arts-related subject matter presented in the academic course of study.
4. Students will create a presentation (oral or written) for faculty/advisers documenting their internship/independent study experience and describe the interdisciplinary nature of these experiences in detail.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Total Credits 120

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

1. ENGL 202A, B, or D is recommended for IARAB majors.
2. Students must take at least 15 credits of major courses at the 400 level or its equivalent.

**Program Notes**

Under their adviser’s supervision, new IARAB students must write a proposal outlining the courses they plan to take in the major, demonstrating how those courses work together to achieve their educational goals and/or prepare them for their intended career. The proposal must be approved by the Head of Division of Arts and Humanities. Failure to have an approved proposal on file with the
Registrar by the deadline set for the student by the Division of Arts and Humanities incurs a registration hold on the student's account.

Students may use arts courses to fulfill 9 credits of General Education and Bachelor of Arts requirements if: a. All 9 credits are OUTSIDE the students’s art area. b. No more than 6 credits are in any one subject area. c. 6 of these credits may double count with College Requirements (History of the Arts).

Career Paths
The Integrative Arts program is unique in the way students can tailor their educational experience to prepare them for multiple career paths and opportunities for graduate study.

Careers
Graduates in Integrative Arts follow diverse career and post-graduate paths, including completion of graduate studies, finding employment in arts and design-related industries, or becoming independent entrepreneurs in the arts and design fields. The Integrative Arts program also encourages students to engage in career-related internships and self-directed research projects, as well as independent study courses, in order to enhance their creative portfolios and to develop meaningful contacts in the professional world.

Opportunities for Graduate Studies
The individualized nature of the Integrative Arts degree allows students interested in pursuing graduate study to prepare for many different kinds of graduate programs. Recent graduates have entered programs in fields as diverse as design for sustainability, visual arts therapies, theatrical screenwriting, and information technology.

End Campus: Abington

Program Description
The objectives of the Letters, Arts, and Sciences major are to broaden the student’s understanding, interests, and skills; to help the student become a more responsible, productive member of the family and community; and to offer a degree program with sufficient electives to permit some specialization according to the student’s interests or career plans. Letters, Arts, and Sciences is a complete two-year degree major. However, graduates who later seek admission to baccalaureate degree majors may apply baccalaureate credits toward the new degree.

In addition to a wide variety of baccalaureate majors offered at University Park campus, graduates of the Letters, Arts, and Sciences major may qualify for admission to the baccalaureate degree majors in Behavioral Sciences, Elementary Education, Humanities, or Public Policy offered at Penn State Harrisburg. Or they may qualify for any of a large number of baccalaureate degree majors offered by Penn State Erie, The Behrend College, in business, the liberal arts, and sciences.

Entrance to Major
Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Arts degree in Letters, Arts, and Sciences, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>15</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>30</td>
</tr>
</tbody>
</table>

6 of the 21 credits for General Education are included in the Requirements for the Major. This includes 6 credits of General Education GWS courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2727) section of the Bulletin and consult your academic adviser.
Foundations (grade of C or better is required.)
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

Knowledge Domains
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
- A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

University Degree Requirements

Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements.

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
The required credits of General Education and Requirements for the Major must be baccalaureate-level courses. For students intending to seek admission to a baccalaureate program upon graduation, it is recommended that most, if not all, of the courses be at the baccalaureate level. For those students who will seek a bachelor of arts degree upon graduation from Letters, Arts, and Sciences, it is strongly recommended that a foreign language be taken since admission to a bachelor of arts program in the College of the Liberal Arts requires one college-level course, or the equivalent, in a foreign language.

Courses that will satisfy the arts, humanities, social and behavioral sciences, natural sciences, and quantification requirements are defined on the Letters, Arts, and Sciences checksheet, which may be obtained from the College of the Liberal Arts associate dean for undergraduate studies at the University Park campus or from any Letters, Arts, and Sciences representative at other locations.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Additional Courses

Additional Courses: Require a grade of C or better
Select one of the following:
- ENGL 202A Effective Writing: Writing in the Social Sciences
- ENGL 202B Effective Writing: Writing in the Humanities
- ENGL 202C Effective Writing: Technical Writing
- ENGL 202D Effective Writing: Business Writing

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
Select 3 credits in any course designated as arts
Select 3 credits in any course designated as humanities
Select 3 credits in any course designated as social and behavioral sciences
Select 3 credits in any course designated as physical, biological, or earth sciences
Select 9 credits in any one of the following areas: arts, humanities, social and behavioral sciences, natural sciences and quantification, and foreign language skills

1 If foreign language courses are chosen, it is recommended that these courses be in one foreign language sequence.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Letters, Arts, and Sciences, B.A. (Abington)

Begin Campus: Any Penn State Campus

End Campus: Abington

Program Description

Letters, Arts, and Sciences is a multi-disciplinary, theme-oriented, and student-designed major leading to a bachelor of arts degree. The major consists of 36 credits, divided into two sections. The core (12 credits) consists of 3 credits each in the following: research methods/projects; communication skills; theory/application; and critical analysis. The additional courses (24 credits) consist of courses directed toward the student's theme, 15 credits of which must be at the 400 level.

Early Admission Program for Professional Schools

If a student is accepted and enrolled as a degree candidate in a professional postgraduate degree program requiring three years or more to complete (such as medical school, dental school, law school, theological seminary, etc.) and if that student completes 94 undergraduate credits at Penn State including General Education, B.A. requirements, and the LAS 12-credit core requirements, that student may use up to 30 credits from the professional school to complete the B.A. in LAS.

It must be emphasized that only top students are accepted into professional school programs on such an early admission basis and that not every professional school has such a policy. Students must have enrolled in LAS prior to attending the professional school to request graduation in LAS.

What is Letters, Arts, and Sciences?

You can customize a Bachelor’s Degree in Letters, Arts, and Sciences to fit your area of interest. The 120-credit online program allows you to focus on developing your skills in communication and analysis along with your leadership abilities. You will work closely with your adviser to design a program that creates intellectual depth in an area of study that is unique to your interests, but also aligns with the theoretical foundation of a liberal arts degree. The goal of the Bachelor’s degree in Letters, Arts and Sciences is to provide a broad education that introduces methods of analysis used in the liberal arts disciplines. In addition, it can also prepare you to address the complex social, cultural, ethical, and organizational issues you may face in leadership positions.

You Might Like This Program If...

You have not earned an undergraduate degree, you wish to complete a degree or you wish to customize a degree to fit your career goals.

Entrance To Major

In order to be eligible for entrance to the major, the student must submit a proposal. In consultation with an LAS adviser, the student formulates a proposal designing a program that investigates a theme from the viewpoint of at least three different subject areas. Students may not duplicate existing majors from any academic area. An important standard for entrance to the Letters, Arts, and Sciences major is the student’s ability to design a program with academic integrity worthy of a bachelor of arts degree.

Degree Requirements

For the Bachelor of Arts degree in Letters, Arts, and Sciences, a minimum of 120 credits is required:
First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
Courses must be selected in consultation with an adviser.

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Additional Courses: Require a grade of C or better</td>
<td></td>
</tr>
</tbody>
</table>

Select 24 credits from University-wide offerings to include:
12 credits at the 400 level representing at least three different subject areas

3 credit 400-level capstone course

A minimum 9 credits from the humanities and social sciences

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better

Select 3 credits in research methods/projects from courses that involve research methodology or that focus on a research project 3

Select 3 credits in communication skills from courses that focus on expression including those in verbal, symbolic, and written skills 3

Select 3 credits in theory/application from courses that focus on theory, principle, central concepts, or fundamental issues 3

Select 3 credits in critical analysis from courses that focus on evaluation, synthesis, and analysis 3

Program Learning Objectives

Students should develop the ability:

1. to analyze data and draw appropriate conclusions.
2. to conduct appropriate academic research.
3. to express ideas effectively and efficiently orally and in writing.
4. to understand theories and to apply them to specific academic and real-world situations.
5. to recognize and understand interdisciplinary influences.
6. to be sensitive to diverse backgrounds, talents, interests, and aspirations of different kinds of people.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Total Credits 120**

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GH, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GH, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

1. The LASAB major comprises 36 credits, at least 9 credits must be in Humanities and Social Sciences disciplines.
2. ENGL 202A, B, or D is recommended for LASAB majors.
3. The LASAB major comprises 36 credits, 12 of these credits are in four ‘core’ areas, 3 credits each in Research Methods/Projects, Communication Skills, Critical Analysis Skills, and Theory/Application skills.
At least 15 credits must be at the 400 level. One of those courses is a capstone course agreed on by the student and his or her adviser. A capstone course is a culminating academic experience bringing together themes outlined in the LAS proposal. It may be an independent study course, an internship, a Study Abroad course, or a regularly scheduled course that offers a culminating academic experience for major the student has designed. Three different academic disciplines must be represented in the 12 credits of 400 level coursework outside of the capstone course.

**Program Notes**
Under their adviser’s supervision, students interested in the LASAB major must write a proposal outlining the courses they plan to take in the major, demonstrating how those courses work together to achieve their educational goals and/or prepare them for their intended career. The proposal must be approved by the Head of Division of Arts and Humanities. Failure to have an approved proposal on file with the Registrar by the deadline set for the student by the Division of Arts and Humanities incurs a registration hold on the student’s account.

Pre-Medical/Healthcare, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

Designed for those who have a Baccalaureate degree in a non-science major and decide, post graduation, to apply to medical school. Applicants must have successfully completed two semesters of college calculus before entering. This program concentrates on science coursework in biology, chemistry, and physics and can be completed in one year. Each course is offered over 8-weeks with lectures being offered in a hybrid format, meeting face-to-face one night per week with labs being conducted on weekends. This program distinguishes itself from others through the use of 8-week sessions, lectures offered in a hybrid format with in class meetings in the evenings, and labs on Saturdays. Also offered are MCAT preparation and mock interviews.

You Might Like This Program If...

You want to apply to medical school.

Program Requirements

To earn an undergraduate certificate in Pre-Medical/Healthcare, a minimum of 39 credits is required.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Project and Supply Chain Management, B.S. (Abington)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description

The Project and Supply Chain Management major concentrates on developing knowledge, skills, and abilities in both project and supply chain management, dynamic and important disciplines in modern corporations. Project management skills include the development of new projects, and coordinating procurement and project delivery systems. Supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and
distribution that enable organizations to develop value-creating supply chain networks. The major provides students with an opportunity to develop the quantitative and people skills necessary to design and operate today’s complex management systems. Students learn how to manage critical components in organizational supply chains, and apply business analytic methods for organizing and fully integrating supply chain practices throughout the organization.

Graduates are uniquely well-prepared for careers in some of the highest in-demand professions in the modern business and government environments, managing the supply chain and project initiatives in world-class business firms, public sector organizations, construction, IT organizations, third-party logistics providers, and goods and services distribution operations.

What is Project and Supply Chain Management?

It has been estimated that well over half of all activities in modern corporations are project-based. From developing a new product to constructing a new building, the list of efforts that organizations must plan, manage, and deliver (ideally on time and under budget) is nearly endless. At the same time, globalization creates a growing need for professionals who can effectively manage complex supply chains. The study of project and supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution—the functions that enable organizations to cultivate value-creating supply chain networks.

You Might Like This Program If...

- You’re not intimidated by large projects, or ones that have many moving parts.
- You are detail oriented.
- You are looking for a versatile, in-demand business degree.
- You are interested in pursuing a concurrent certificate in Enterprise Resource Planning (ERP) with SAP (available at Erie, the Behrend College and University College campuses, Beaver, Fayette, Greater Allegheny, Lehigh Valley, New Kensington, Schuylkill, Shenango, Wilkes-Barre and Scranton).

Entrance to Major

Entry to the Project and Supply Chain Management major requires the successful completion of 5 entry-to-major courses: ACCTG 211, ECON 102, ENGL 15 or ENGL 30, MATH 110 or MATH 140, STAT 200 or SCM 200. Each course requires a C or better grade for successful completion.

Degree Requirements

For the Bachelor of Science degree in Project and Supply Chain Management, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>96</td>
</tr>
</tbody>
</table>

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses; 9 credits of GWS courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Per Senate Policy 83.80.5, other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.
Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44. For more information, check the Suggested Academic Plan for your intended program.

Total Credits 122

* Course requires a grade of C or better for the major
†† Course requires a grade of C or better for General Education
† Course is an Entrance to Major requirement
# Course satisfies General Education and degree requirement
‡ Course satisfies General Education and degree requirement
1 ETMs include ACCTG 211, ECON 102, ENGL 15 or ENGL 30, MATH 110 or MATH 140, STAT 200 or SCM 200, GPA 2.0 or higher
2 Students must complete 3 credits of U.S. cultures (US) and 3 credits of international cultures (IL).
3 BA 321 and BA 322 qualify for 6 credits towards the Business Supporting Area for the degree. They are offered regularly and fulfill the prerequisite requirements for BA 421 and BA 422W.

13 credits of approved supporting courses include courses in these areas: Management, Accounting, Marketing, and Finance. It’s recommended that students include MIS 404 in this category, as this course fulfills the requirements for the ERP certificate with SAP. Any course at the 300-400 level in this category requires a grade of C or higher. Please consult with your adviser to discuss the regularly offered courses which meet this requirement.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes:

Suggested Academic Plans do not replace the official university degree audit in LionPATH. A minimum of 120 credits are required for graduation. Consult with your adviser when scheduling courses.

Career Paths

The B.S. in Project and Supply Chain Management is one of only a handful of undergraduate degree programs in this field. Graduates are uniquely prepared to work in project-intensive industries such as construction, insurance, information services and information technology, manufacturing, utilities, pharmaceuticals, third-party logistics, and goods and services distribution operations.

Careers

Employers of recent B.S. in Project and Supply Chain Management graduates include Frito Lay, Fairpoint Communications, Pitney Bowes, Spyne, General Electric, Webtec Railway Electronics, Business Resource Group, Modern Industries, Eddie Bauer, Ferguson Enterprises, Unisys, Eastman Kodak, Tyco Electronics, and IBM.

Opportunities for Graduate Studies

The B.S. in Project and Supply Chain Management can be a starting point for master’s- and doctoral-level study of business administration, law, organizational behavior, corporate strategy, enterprise architecture, information technology, or another specialized discipline.

Project Management, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description
This 4 credit certificate program covers the essential concepts, skills and techniques necessary in managing projects in the business world. The certificate is set up around a group project that is worked on throughout the program. Students gain real-time experience in the challenges of creating a unified team, solving problems, tracking their projects, and presenting a final paper and presentation on the process.

What is Project Management?
Project management is the discipline of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time.

MORE INFORMATION ABOUT PROJECT MANAGEMENT (http://abington.psu.edu/project-management-penn-state-abington/)

You Might Like This Program If...

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Psychological and Social Sciences, B.A.

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
Building on the interdisciplinary and cross-disciplinary strengths of Penn State Abington, the Psychological and Social Sciences B.A. is designed to respond to the demand for a program emphasizing the social and behavioral sciences leading to an understanding of human behavior and its influence upon society as well as the influence of social forces on individuals. The program is distinguished by its
interdisciplinary and cross-disciplinary coursework and required field experience. The B.A. provides a broad theoretical foundation in social and psychological theory as well as the opportunity to engage in supervised field experience. The major offers students a choice of course clusters focused on specialized areas such as social psychology, developmental studies, organizational behavior and leadership, bio-behavior and diversity, and counseling. The major is designed to prepare students for a variety of career fields including human resources, business administration, mental health, and social work as well as for continued study in graduate or professional school.

What is Psychological and Social Sciences?
Psychological and Social Sciences fosters an understanding of human behavior and its influence on society as well as the impact of social forces on individuals. It includes the disciplines of psychology, sociology, anthropology, and human development and family studies.

You Might Like This Program If...
• You are curious about people’s behavior.
• You are interested in knowing why people behave the way they do.
• You possess a keen interest in how culture and society impact individuals.
• You are a critical thinker and want to develop strong research and communication skills.
• You are interested in a career in mental health or counseling, market research, consulting, occupational therapy, or research oriented careers.
• You want to go to graduate school (Masters or Ph.D. level).

MORE INFORMATION ABOUT PSYCHOLOGICAL AND SOCIAL SCIENCES (http://abington.psu.edu/psychological-and-social-sciences/)

Degree Requirements
For the Bachelor of Arts degree in Psychological and Social Sciences, a minimum of 121 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>5-6</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>46-47</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives

1. Knowledge and Application
   a. Describe key psychological and sociological concepts and theories.
   b. Apply concepts and theories to empirical and real life situations.

2. Effective Communication (Writing and Speaking)
   a. Communicate social scientific knowledge orally in a clear and accurate manner.
   b. Communicate social scientific knowledge in writing in a clear and accurate manner.

3. Critical Thinking and Scientific Reasoning
   a. Understand and utilize the scientific method and basic research methods.
   b. Demonstrate critical thinking in the analysis and evaluation of information to distinguish the scientific from the nonscientific.

4. Ethics and Diversity
   a. Evidence knowledge of and appreciation for cultural diversity and relativity in human experience, and for the complexity of human behavior and interactions.
   b. Acquire an ethical lens that applies to concrete professional situations and broader issues in society and culture.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

**Career Paths**

A bachelor of arts degree in Psychological and Social Sciences is designed to prepare students for a variety of career fields including human resources, business administration, mental health, and social work or continued study in graduate and professional schools. The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

**Careers**

With a bachelor of arts degree in Psychological & Social Sciences, you will be prepared for careers in child and geriatric care; counseling, clinical, and social work; education; human resources; marketing/marketing research; occupational therapy; and research.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE PSYCHOLOGICAL AND SOCIAL SCIENCES PROGRAM (http://abington.psu.edu/psychological-and-social-sciences/)

**Opportunities for Graduate Studies**

A baccalaureate degree in Psychological and Social Sciences prepares students to earn graduate degrees in a variety of fields or obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Program Learning Objectives

1. Knowledge and Application
   a. Describe key psychological and sociological concepts and theories.
   b. Apply concepts and theories to empirical and real life situations.

2. Effective Communication (Writing and Speaking)
   a. Communicate social scientific knowledge orally in a clear and accurate manner.
   b. Communicate social scientific knowledge in writing in a clear and accurate manner.

3. Critical Thinking and Scientific Reasoning
   a. Understand and utilize the scientific method and basic research methods.
   b. Demonstrate critical thinking in the analysis and evaluation of information to distinguish the scientific from the nonscientific.

4. Ethics and Diversity
   a. Evidence knowledge of and appreciation for cultural diversity and relativity in human experience, and for the complexity of human behavior and interactions.
   b. Acquire an ethical lens that applies to concrete professional situations and broader issues in society and culture.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Public History, Minor

Elective (US/IL) 3

Total Credits 121

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 At least 12 of 21 required major selection credits must be at the 400 level.
6-15 credits of major courses are required in courses designated PSYCH and/or HDFS.
6-15 credits of major courses are required in courses designated SOC and/or ANTH.
0-9 credits of major courses are required in courses designated other Social Sciences from the approved PSS program list.

Advising Notes

PSYCH and/or HD FS courses for Major Requirements:

SOC and/or ANTH courses for Major Requirements:

Other Social Sciences courses for Major Requirements:
BBH 302, 315, CAS 352, 415, 455, CN ED 404, 407, ED PSY 014, COMM 100, 120, 411, WMNST 471

Courses cross-listed with the above may be petitioned to meet the 400-level requirement.

Career Paths

A bachelor of science degree in Psychological and Social Sciences is designed to prepare students for a variety of career fields including human resources, business administration, mental health, and social work, or continued study in graduate and professional schools. The Penn State Abington Center for Career & Professional Development supports and serves students in all areas related to career development and preparation including career counseling and coaching, internships, resume creation, interview training, and job search strategies.

Careers

With a bachelor of science degree in Psychological & Social Sciences, you will be prepared for careers in child and geriatric care; counseling, clinical, and social work; education; human resources; marketing/marketing research; occupational therapy; and research.

Opportunities for Graduate Studies

A baccalaureate degree in Psychological & Social Sciences prepares students to earn graduate degrees in a variety of fields or obtain admission to MBA programs and law schools, among other post-graduate opportunities.

Public History, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Public History Minor combines history, management, education, communication, civic engagement, and marketing skills, all needed by staff and leaders at museums, historical sites, and in other cultural work. It will help prepare students to foster cultural revitalization in communities, work in philanthropy, and support corporate and non-profit archival and history programs. It will also prepare students to seek the Master’s Degree in Public History. The minor’s large variety of qualifying courses will invite students in many disciplines to consider doing meaningful civic work with a historical flavor.

### Recreation, Park, and Tourism Management, B.S. (Abington)

**Begin Campus:** Any Penn State Campus  
**End Campus:** Abington

### Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The program prepares students for supervisory and administrative positions with park systems, environmental centers, commercial recreation and tourism agencies, golf courses, hospitals and assisted living facilities, private voluntary agencies, schools and colleges, and other commercial, nonprofit, and public organizations that provide recreation and leisure services. The program combines a broad educational foundation with specific courses designed to accommodate career interests in recreation, park, and tourism management. The program helps students gain the theoretical, managerial, technical, and experiential skills they need to become the next generation of leaders in the field. Students work full-time for twelve weeks with professionals in a setting of their choice.

**Four (4) options are offered:**

1. Commercial Recreation and Tourism Management
2. Community Recreation Management
3. Professional Golf Management
4. Outdoor Recreation Management

---

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Community Recreation Management Option

Available at the following campuses: Abington, Greater Allegheny, University Park

For those interested in the community, public, or non-profit sectors, the Community Recreation Management Option prepares students for positions within municipal, state, and federal government agencies; recreation divisions of the armed services; YMCA agencies; United Way agencies; scouting organizations; university-affiliated units such as student unions, intramural and alumni services; and other non-profit organizations.

Professional Golf Management Option

Available at the following campuses: University Park

Accredited by the Professional Golfers’ Association of America, the Professional Golf Management Option prepares students for careers in the golf industry. Students will be prepared to assess leadership and management principles including customer service, interpersonal skills, business communication, conflict resolution, time management, negotiating, project management, marketing, and community relations. In addition to the core curriculum, the program has a strong business focus and is drawn from several nationally recognized academic disciplines on campus.

Outdoor Recreation Management Option

Available at the following campuses: University Park

This option prepares students for careers in Outdoor Experiential Leadership (OEL) and/or Park Management and Environmental Interpretation (PMEI). The OEL track emphasizes outdoor experiential leadership, including wilderness experiences and personal development. The PMEI track focuses on natural and cultural history, environmental interpretation and education, and the social science of conservation. The third track provides a flexible route for students to combine parts of the OEL and PMEI to create a meaningful personalized set of courses that could include study abroad experiences and prepare students for international contexts of recreation management. The outdoor recreation option is of interest to students seeking employment in a variety of recreation and park venues (local, state, and national from urban to wilderness) offering outdoor activities and personal development to the public.

What is Recreation, Park and Tourism Management?

Faculty in Recreation, Park and Tourism Management (RPTM) teach and conduct research and outreach in the areas of recreation, park management, golf management, and tourism to address how humans derive benefits from leisure activities. RPTM faculty teach and conduct research in variety of disciplinary and interdisciplinary perspectives to better understand the natural, psychological, social, economic, and cultural systems that influence human behavior in the context of recreation, parks, and tourism. Our interdisciplinary, systems approach enables us to address issues of human well-being, and sustainable development through curricula and innovative research programs. Our mission is to transform human health and well-being through engaging people in recreation, park, tourism, and leisure opportunities.

You Might Like This Program If...

Our world-class faculty members help make a difference for you by:

- Engaging students in hands-on learning.
- Providing opportunities for international experiences.
- Encouraging involvement in and out of the classroom and in professional organizations.

Our mission is to transform human health and well-being through engaging people in recreation, park, tourism, and leisure opportunities. We aim to educate and inspire you to make contributions to society, and our conceptual approach serves as the foundation of what and how we teach. In particular, we integrate topics such as diversity, environmental sustainability, human development, health and well-being, social innovation and entrepreneurship, community, and economic development.

Entrance to Major

Students who have completed 29.1 credits with a 2.00 cumulative grade-point average are eligible for entrance into the major. First-year students are admitted directly into the Golf Management option at the University Park campus only. In addition to the University’s academic requirements, each student admitted to the Golf Management option must have a playing proficiency represented by a minimum golf handicap of 12 or lower. This must be certified in writing by a PGA member or golf coach.

Degree Requirements

For the Bachelor of Science degree in Recreation, Park, and Tourism Management, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>2-11</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>67-74</td>
</tr>
</tbody>
</table>

0-4 of the 45 credits for General Education are included in the Requirements for the Major. This includes 0-4 credits of General Education courses: 0-4 credits of GQ courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. RPTM requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
Four options are offered to help prepare students for management positions in public or private agencies at the federal, state, and local levels. The options offered are:

1. Commercial Recreation and Tourism Management
2. Community Recreation Management
3. Professional Golf Management
4. Outdoor Recreation Management

Management positions include, but are not limited to resorts, event management businesses, golf courses, golf industry businesses, park systems, environmental centers, university intramural and sport club programs, recreation services for the armed forces, and health care facilities. Our multidisciplinary graduate program is designed to educate students about research, theory, and practice related to leisure and recreation as experienced at the individual, societal, and cross-cultural levels. Both the M.S. program and Ph.D. program help students develop an understanding of the social, environmental, psychological, and economic aspects of human behavior in recreation and leisure activities and also allow students to concentrate their studies in:

- Recreation/tourism management and marketing
- Commercial recreation and tourism
- Outdoor recreation and protected area management
- Community recreation
- General leisure behavior

**Careers**

A degree from RPTM is suited for you if you have career interests in supervisory and administrative positions in tourism & event management, entertainment, sport & fitness venue management, professional golf management, community recreation, non-profit administration, outdoor experiential leadership, park management, environmental interpretation, natural resource management and youth & senior recreation services.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE RECREATION, PARK, AND TOURISM MANAGEMENT PROGRAM (https://hhd.psu.edu/rptm/undergraduate/career-opportunities/)

**Opportunities for Graduate Studies**

Whether you are looking for a master's degree or your doctorate in RPTM, our multi-disciplinary graduate program is designed to educate students about research, theory and practice related to recreation, parks, tourism and leisure. Both the master of science (M.S.) and the doctor of philosophy (Ph.D.) programs help you develop an understanding of the social, environmental, psychological and economic aspects of human behavior in relation to the experience and delivery of recreation, park, tourism and leisure activities.

**Rehabilitation and Human Services, B.S. (Abington)**

**Begin Campus:** Any Penn State Campus

**End Campus:** Abington

**Program Description**

This major helps prepare students for entry-level positions in a variety of human service settings, particularly settings that provide services to persons with physical, emotional, or mental disabilities. Graduates pursue employment in a variety of settings including rehabilitation centers, drug and alcohol programs, senior citizens centers, community mental health programs, programs for people with intellectual disabilities, corrections systems, and hospitals.

Increasing opportunities are available in private for-profit insurance programs for the industrially injured, and in employee assistance programs within business and industry. Well-planned use of electives and internships allows for specialization. The full-semester (15-credit) internship is provided under the supervision of professionals in human service agencies. These intensive ‘hands-on’ experiences are frequently avenues for employment since the internship is completed during the senior year. Students may not go on internship until they have successfully completed all other course work. Students are encouraged to participate in volunteer experiences that provide opportunities to work with people with disabilities. Students are encouraged to declare a minor in a related area and should be discussed with the student’s advisor. The major also helps prepare students for graduate study in many human
service professional disciplines such as rehabilitation counseling, school counseling, occupational therapy, physical therapy and social work.

You Might Like This Program If...
You enjoy learning about human development, diversity, health and disability, treatment interventions, advocating and working directly with people, and solving individual problems using applied interpersonal skills.

Entrance to Major
Baccalaureate degree candidates must have a minimum 2.0 GPA to be admitted to the Rehabilitation and Human Services (RHS) major; thereafter, students must earn a C or better in all RHS required courses.

Degree Requirements
For the Bachelor of Science degree in Rehabilitation and Human Services, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>17-20</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>70-72</td>
</tr>
</tbody>
</table>

12-14 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GS courses; 3-4 credits of GQ courses; 3-4 credits of GN courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Abington Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
‡‡ Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of "C" or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Career Paths**

The RHS major provides excellent preparation specifically for graduate programs leading to professions such as occupational therapy, counseling, social work, and physical therapy. Advising of courses outside the major for electives are provided in order to enhance competitiveness of graduate school applications.

MORE INFORMATION ABOUT RHS SPECIAL INTEREST AREAS ([https://ed.psu.edu/epcse/rhs/resources/rhsinterestareas/](https://ed.psu.edu/epcse/rhs/resources/rhsinterestareas/))

**Careers**

RHS allows students to pursue a variety of employment options as case workers and direct service providers in alcohol and other drug treatment centers, correctional facilities, mental health agencies, private non-profit rehabilitation centers, private-for-profit rehabilitation agencies, human resources, programs for children and youth, programs for older adults, public welfare agencies, rehabilitation hospitals, schools, social service agencies, and vocational rehabilitation programs.

**Opportunities for Graduate Studies**

To prepare students for graduate studies, students can work with faculty on independent studies and can petition to take graduate courses within the department. For qualified students, we also offer the Schreyer Honors Program ([https://www.shc.psu.edu/](https://www.shc.psu.edu/)).

**Accreditation**

The College of Education educator preparation program is currently NCATE accredited and is seeking accreditation by the Council for the Accreditation of Education Preparation (CAEP) in Spring 2019. CAEP
advances excellence in educator preparation through evidence-based accreditation that assures quality and supports continuous improvement to strengthen P-12 student learning.

**Science, B.S. (Abington)**

**Begin Campus:** Any Penn State Campus

**End Campus:** Abington

**Program Description**

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The bachelor of science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice and who require a high degree of flexibility to obtain their educational objectives. After completing foundation courses in calculus, chemistry, physics, and the life sciences, students will select additional science courses from designated areas. A large number of supporting credits permit students to readily include significant breadth or specialization into their undergraduate curriculum. Some examples include minors in business, computer and information science, education, kinesiology, or other fields. The degree allows students throughout the Commonwealth to become familiar with both the theory and the practice of science. It can help prepare students for various careers in pharmaceutical, biotechnical, chemical, medical, and agricultural industries. The degree can also be tailored to meet the specific requirements of professional programs such as medical, dental, or pharmacy schools.

The Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The bachelor of science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice and who require a high degree of flexibility to obtain their educational objectives. After completing foundation courses in calculus, chemistry, physics, and the life sciences, students will select additional science courses from designated areas. A large number of supporting credits permit students to readily include significant breadth or specialization into their undergraduate curriculum. Some examples include minors in business, computer and information science, education, kinesiology, or other fields. The degree allows students throughout the Commonwealth to become familiar with both the theory and the practice of science. It can help prepare students for various careers in pharmaceutical, biotechnical, chemical, medical, and agricultural industries. The degree can also be tailored to meet the specific requirements of professional programs such as medical, dental, or pharmacy schools.

**General Science Option**

Available at the following campuses: Altoona, Berks, Harrisburg, Scranton, University Park, York

The General Science option of the B.S. Science degree allows for the most flexibility.

Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered:
Biological Sciences and Health Professions Option  
*Available at the following campuses: University Park*

Legal Studies, Government Service, Public Policy Option  
*Available at the following campuses: University Park*

Life Sciences Option  
*Available at the following campuses: Altoona, Berks, Harrisburg, Scranton, University Park, York*

Mathematical Sciences Option  
*Available at the following campuses: Altoona*

Physical Sciences Option  
*Available at the following campuses: Altoona*

Not all of these options are available at all locations, and there are minor distinctions of the core curriculum at some locations, so see the Science program director at your College for further details.

Two-Year Preprofessional Preparation

The first two years of the Science major (62 credits) can meet the preprofessional needs of those interested in admission to some schools of pharmacy, physical therapy, optometry, nursing, and physician assistant training. Successful students can then transfer after two years of undergraduate study to the professional school to which they are admitted. Note, however, that no Penn State degree can be awarded after only two years (62 credits) of study in the Science major. Also, note that the abbreviated two-year curriculum alone does not prepare students for admission to professional schools of general medicine, veterinary medicine, or dental medicine. Consult with your college’s health sciences professional adviser for additional information.

What is Science?

The Science major provides a broad and interdisciplinary foundation in the natural sciences. The Science BS program uses the principles of chemistry, physics, and life sciences to understand how these integrate over general areas including biological sciences and health professions, public policy, and science research and development.

You Might Like This Program If...

- You like learning by doing hands-on experiments.
- You are curious about the natural world and how science disciplines come together to explore and understand it.
- You are intrigued by science and desire a career in current and emerging interdisciplinary science disciplines, health professions, or melding science with law, policy or business.

Entrance to Major

In order to be eligible for entrance to the Science major, a student at any location must have:

1. attained at least a 2.00 cumulative grade-point average;
2. completed MATH 140 with a grade of C or better;
3. completed at least two of the following courses, BIOL 110; CHEM 110; PHYS 211 or PHYS 250, with a grade of C or better.

Degree Requirements

For the Bachelor of Science degree in Science, a minimum of 124 credits is required, with at least 15 credits at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>94</td>
</tr>
</tbody>
</table>

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements.
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

</tr>
</tbody>
</table>

Supporting Courses and Related Areas

A maximum of 12 credits of Independent Study (296, 496) may be applied toward credits for graduation.

Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser. 3

Select 9 credits of 400-level BMB, BIOL, BIOTC, or MICRB courses. 9

1 Six credits must be at the 400-level. Select from department approved course list in consultation with adviser.

2 PHYS 211 and PHYS 250 require a grade of C or better.

Legal Studies, Government Service, Public Policy Option (74 credits)

Available at the following campuses: University Park

Select 3 credits in Global, Social, and Personal Awareness from department approved course list in consultation with adviser. 3

Supporting Courses and Related Areas: Require a grade of C or better

Select 9 credits at the 400 level require a grade of C or better. 9

Life Science Option (74 credits)

Available at the following campuses: Altoona, Berks, Harrisburg, Scranton, University Park, York

</tbody>
</table>

Select 6 credits of 400-level courses  
Supporting Courses and Related Areas: Require a grade of C or better  
Select 9 credits of 400-level ASTRO, CHEM, or PHYS courses  

1. PHYS 211 and PHYS 250 require a grade of C or better.

### Program Learning Objectives

1. Have a basic knowledge of the fundamental concepts in molecular, organismal, and population biology.
2. Demonstrate the ability to use scientific and quantitative reasoning.
3. Demonstrate the ability to retrieve scientific information, analyze scientific data, and use computers and scientific equipment in a laboratory setting.
4. Demonstrate the ability to disseminate scientific findings through oral and written communication.

5. Demonstrate the ability to work cooperative in teams.

### Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

## Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

### General Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 123-125

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Disallowed Courses

Students may select free elective courses from nearly the entire range of the University’s offerings. However, the following courses may NOT be used to satisfy degree requirements in the Biology major, regardless of option, not even as free electives.

In addition, the following types of courses may NOT be used to satisfy degree requirements in the Biology major:

- Courses which are remedial in nature or which focus on reading improvement or study skills. NOTE: Only 3 credits of CHEM 017 and only 4 credits of MATH 140A may be used to satisfy degree requirements.

- Courses which substantially duplicate the subject matter covered in other completed courses taught at a comparable level.

- No more than 6 credits of ROTC and 12 credits of Independent Study (296, 496) may be used to satisfy degree requirements. Unless special permission is granted, Independent Study credit may only be used in the “Free Electives” category.

- No more than 5 credits of KINES may be used to satisfy degree requirements.

- ** On rare occasions, with adequate justification, a student may be permitted to use one or more of these courses to satisfy degree requirements. A petition must be submitted to request such an exception and will be considered on a case-by-case basis.

Life Sciences Option at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
†† Course satisfies General Education and degree requirement

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Additional Notes

Students must take ONE of the following courses: BIOL 220W (GN), BIOL 230W (GN), or BIOL 240W (GN).

### Disallowed Courses

Students may select free elective courses from nearly the entire range of the University’s offerings. However, the following courses may NOT be used to satisfy degree requirements in the Biology major, regardless of option, not even as free electives.

- BIOL 011**, 012**
- BISC 001, 002, 003**, 004**
- BMB 001**
- CHEM 001, 003, 101, 108
- CMPSC 001, 100, 110
- ENGL 004, 005
- LL ED 005, 010
- MATH 001, 002, 003, 004, 017, 018, 021, 022, 026, 030, 035, 036, 040, 041, 081, 082, 083, 110, 111, 200
- MICRB 120, 121A, 121B, 150 151A, 151C, 151D, 151E, 151F, 151W
- PHYS 001, 150, 151
- CAS 004, 126
- STAT 100

In addition, the following types of courses may NOT be used to satisfy degree requirements in the Biology major:

- Courses which are remedial in nature or which focus on reading improvement or study skills. NOTE: Only 3 credits of CHEM 017 and only 4 credits of MATH 140A may be used to satisfy degree requirements.
- Courses which substantially duplicate the subject matter covered in other completed courses taught at a comparable level.
- No more than 6 credits of ROTC and 12 credits of Independent Study (296, 496) may be used to satisfy degree requirements. Unless special permission is granted, Independent Study credit may only be used in the “Free Electives” category.
- No more than 5 credits of KINES may be used to satisfy degree requirements.
- ** On rare occasions, with adequate justification, a student may be permitted to use one or more of these courses to satisfy degree requirements. A petition must be submitted to request such an exception and will be considered on a case-by-case basis.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Career Paths

Penn State students with a BS in Science are prepared for a broad range of careers and graduate programs. The solid foundation of science and math prepares students to think critically and scientifically in a range of industries and professions.

### Careers

This program often leads to careers in all healthcare professions, including physicians and physician assistants, dentists, optometrists, and podiatrists; laboratory research associates; scientific product representatives and science-based consulting.

### Opportunities for Graduate Studies

Many graduates of the Science B.S. program choose to pursue graduate studies (MS and PhD) in the natural sciences. Most often, students gravitate to medically-related fields and life science sub-disciplines for focused graduate training. Students in the legal studies and public policy options may choose law school or master’s in public policy programs.

Technical and Business Writing, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

Designed for adults learners who seek a competitive edge in the workplace and current undergraduate students preparing for careers. Program provides two tracks:

1. technical (proposals, reports, research strategies, web-based) and
2. business (design, composing in multimedia, web-based).

Both include how to create informative, persuasive, web pages and presentations common to business, industry, and government. Students are assigned a faculty mentor, and create and maintain an e-portfolio. The program can be completed for 18 undergraduate credits.

Program Requirements

To earn an undergraduate certificate in Technical and Business Writing, a minimum of 15 credits is required.

Students will complete five courses from either track:

Technical Writing Track

ENGL 202C is a prerequisite.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The
advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Penn State Altoona, The Altoona College

About the College
Lori J. Bechtel-Wherry, Chancellor and Dean, Penn State Altoona

Penn State Altoona is a multi-campus, four-year college of Penn State that offers students accessible education, individualized experiences, and lifelong learning skills that position them to forge their own pathways to personal and professional success. At Penn State Altoona, students may complete 25 baccalaureate and 5 associate degree programs or the first two years of more than 160 Penn State majors. The campus offers students an array of co-curricular experiences and engagement opportunities, including student clubs and organizations, NCAA Division III athletics, education abroad, undergraduate research, and career counseling and exploration. Located 40 miles from University Park, Penn State Altoona combines the advantages of an intimate college teaching environment with the readily available resources of a major research university.

MORE INFORMATION ABOUT THE COLLEGE (http://altoona.psu.edu/penn-state/)

Mission and Goals
Penn State Altoona’s mission is to cultivate a vibrant learning environment through excellence in teaching, research, creative activities, outreach and the advancement of personal, social, and intellectual growth, and to empower a diverse student body with the knowledge and skills to be critical thinkers, lifelong learners, and civically-engaged global citizens.

MORE INFORMATION ABOUT THE MISSION AND GOALS OF PENN STATE ALTOONA (http://altoona.psu.edu/offices-divisions/academic-affairs/planning-institutional-research/strategic-plan/)

Departments and Schools

Division of Arts and Humanities
The Division of Arts and Humanities provides high-quality teaching and programs that allow students to process and document the human experience. Courses equip students with the critical thinking, oral and written communication, ethical decision-making, and creative problem-solving skills necessary for meaningful engagement with the world and professional success.

MORE INFORMATION ABOUT THE DIVISION OF ARTS AND HUMANITIES (http://altoona.psu.edu/academics/divisions/arts-humanities/)

Division of Business, Engineering, and Information Sciences and Technology
The Division of Business, Engineering, and Information Sciences and Technology offers high-quality, accredited, diverse programs; exciting student activities; and modern facilities. Our deep dedication to teaching enables our students to excel in the fields of business, engineering, engineering technology, rail transportation engineering, or information sciences.

MORE INFORMATION ABOUT THE DIVISION OF BUSINESS, ENGINEERING, AND INFORMATION SCIENCES AND TECHNOLOGY (http://altoona.psu.edu/academics/divisions/business-engineering-information-sciences-technology/)

Division of Education, Human Development, and Social Sciences
The Division of Education, Human Development, and Social Sciences provides innovative and transformative educational and research experiences in a student-centered learning environment. We are committed to preparing students to think critically, solve problems, apply knowledge, demonstrate skills, engage in genuine inquiry, and communicate effectively in an ever-changing global context.

MORE INFORMATION ABOUT THE DIVISION OF EDUCATION, HUMAN DEVELOPMENT, AND SOCIAL SCIENCES (http://altoona.psu.edu/academics/education-human-development-social-sciences/)

Division of Mathematics and Natural Sciences
The Division of Mathematics and Natural Sciences promotes academic excellence through distinctive teaching, research, and service. The Division offers bachelor’s degrees in biology, environmental studies, mathematics, and science and minors in biology, chemistry, environmental studies, mathematics, and mathematics applications.

MORE INFORMATION ABOUT THE DIVISION OF MATHEMATICS AND NATURAL SCIENCES (http://altoona.psu.edu/academics/mathematics-natural-sciences/)

Baccalaureate Degrees

• Environmental Studies, Minor
• Global Language and Culture, Minor
• Mathematics Applications, Minor

### Certificates

• AutoCAD, Certificate
• Information Systems Auditing, Certificate
• Information Systems Security, Certificate

### College Procedures

#### Change of Campus

Change of Campus offers the opportunity to begin at one of our campuses and complete your degree at another campus. The process is based on whether or not a student can schedule classes and make academic progress at their current and proposed campuses. Change of Campus requests for non-academic reasons (e.g., participation in a club/sport, employment, housing, or to enroll in classes for a minor) will not be approved.

MORE INFORMATION ABOUT CHANGE OF CAMPUS (http://altoona.psu.edu/offices-divisions/academic-affairs/registrar/change-of-campus/)

#### Concurrent Majors

A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Baccalaureate or associate degree students can earn degrees in more than one Penn State major. When completing concurrent majors, students simultaneously complete all academic requirements for their majors with two (or more) degrees in the same semester. Students apply for concurrent majors in the Update Academics module of LionPATH. Students should meet with their advisers for more information and to discuss any program limitations.

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00)

#### Academic Warning

A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with an academic adviser in order for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

#### Academic Suspension

A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

MORE INFORMATION ABOUT ACADEMIC SUSPENSION (http://altoona.psu.edu/offices-divisions/academic-affairs/registrar/student-forms-procedures/academic-suspension/)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)

### Resources

#### Wilbur K. Kraybill Academic Advising Center

The Wilbur K. Kraybill Academic Advising Center is staffed by professional Division of Undergraduate Studies advisers. The advisers serve to provide information regarding academic policies and procedures, assist in developing short-term/long-term academic planning, and refer students to campus resources. Our mission is to provide students with access to well-informed academic advisers who will assist them as they explore, develop and implement realistic educational goals and plans.

MORE INFORMATION ABOUT THE WILBUR K. KRAYBILL ACADEMIC ADVISING CENTER (http://altoona.psu.edu/offices-divisions/academic-affairs/advising/)

#### Learning Resources Center

The Learning Resources Center (LRC) helps Penn State Altoona students to be successful in learning. All of our services are free to Penn State Altoona students, and the simplest way to get started is to come and visit...
us. The LRC is located on the first floor of the Eiche Library building. Most of our tutoring is handled by professional tutors or by instructors from the discipline. In some subjects, we also offer peer tutoring.

MORE INFORMATION ABOUT THE LEARNING RESOURCES CENTER (http://altoona.psu.edu/offices-divisions/academic-affairs/learning-resources-center/)

Engaged Scholarship
Penn State Altoona students have a multitude and variety of opportunities to participate in activities outside of the classroom. These out-of-class activities are designed to complement in-class learning. The activities and experiences vary widely, but common examples include study abroad/study away (both domestic and international travel), academic internships/clinical work, research/creative activities, and community-based studies.

MORE INFORMATION ABOUT ENGAGED SCHOLARSHIP (http://altoona.psu.edu/out-of-class-learning/)

Health and Wellness Center
Our nationally-accredited Health and Wellness Center is committed to promoting the health, wellness, and safety of our campus community. Our services include health, counseling, disability, and psychiatric and psychological services, as well as health education and other primary prevention programming.

MORE INFORMATION ABOUT THE HEALTH AND WELLNESS CENTER (http://altoona.psu.edu/offices-divisions/student-affairs/health-wellness/)

Center for Student and Civic Engagement
The Center for Student and Civic Engagement at Penn State Altoona is committed to providing opportunities for students to connect to the communities they are a part of while affecting positive growth and change for both the student and the community!

MORE INFORMATION ABOUT THE CENTER FOR STUDENT AND CIVIC ENGAGEMENT (http://altoona.psu.edu/offices-divisions/student-affairs/student-civic-engagement/)

Honors Programs
Schreyer Honors College
The Schreyer Honors College, regarded as one of the nation’s top programs of its kind, promotes achieving academic excellence with integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including those admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve educational practice, and to continue to be recognized as a leading force in honors education nationwide.

MORE INFORMATION ABOUT THE SCHREYER HONORS COLLEGE (http://www.shc.psu.edu)

Honors at Penn State Altoona
The Altoona Honors Program provides an enriched academic experience for high-achieving, motivated students. The program offers students who qualify with opportunities to shape their coursework, research, and creative efforts in ways that help them best meet their academic and professional goals.

MORE INFORMATION ABOUT HONORS AT PENN STATE ALTOONA (http://altoona.psu.edu/offices-divisions/academic-affairs/honors-program/)

Accounting, B.S. (Altoona)

Begin Campus: Any Penn State Campus

End Campus: Altoona

Program Description
This major helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. It also provides a sound background for students who plan to pursue graduate studies in accounting or related fields. Students who complete the prescribed courses and earn a Bachelor of Science degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

What is Accounting?
Accountants develop and interpret financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must work with both numerical information and concepts, and they must be able to function effectively as individuals and in teams. Accountants work with people in their own specialized departments, and with users of financial information throughout their organization. Because of this close association with other parts of the organization, the accountant is in a unique position to develop a broad business perspective.

You Might Like This Program If...

• You are organized and detail-oriented. You want to pursue a career in business or finance.

Entrance to Major
Entry to the Accounting major requires the completion of 8 entry-to-major courses: ACCTG 211\textsuperscript{1}, ECON 102, ENGL 15\textsuperscript{1} or ENGL 30\textsuperscript{1}, FIN 301, MATH 110\textsuperscript{1} or MATH 140\textsuperscript{1}, MGMT 301, MKTG 301, SCM 200\textsuperscript{1} or STAT 200\textsuperscript{1}, and a 2.00 or higher cumulative grade-point average.

\textsuperscript{1} Course requires a grade of C or better.
Degree Requirements

For the Bachelor of Science degree in Accounting, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives (non-business courses)</td>
<td>8</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>79</td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.

Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed in the respective College to earn the degree. No more than 60 credits should be from business and business-related courses.

Students wishing to fulfill the 150 credit-hour education option to become a CPA in Pennsylvania (which reduces the experience requirement for certification) are encouraged to enter Capital College’s Master of Professional Accounting program, or the Master of Business Administration program, or the Master of Science in Information Systems program subsequent to receiving their undergraduate accounting degree.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Prescribed Courses: Require a grade of C or better
ACCTG 211 Financial and Managerial Accounting for Decision Making 4
ACCTG 310 Federal Taxation I 3
ACCTG 340 Cost Accounting 3
ACCTG 403 Auditing 3
ACCTG 471 Intermediate Financial Accounting I 3
ACCTG 472 Intermediate Financial Accounting II 3
ACCTG 473 Advanced Financial Accounting 3
BA 462 Business Strategy 3

Additional Courses
BA 241 Legal Environment of Business 4
& BA 242 and Social and Ethical Environment of Business
or BA 243 Social, Legal, and Ethical Environment of Business

Additional Courses: Require a grade of C or better
MATH 110 Techniques of Calculus I 4
or MATH 140 Calculus With Analytic Geometry I
SCM 200 Introduction to Statistics for Business 4
or STAT 200 Elementary Statistics

Select 6 credits of the following:
ACCTG 410 Federal Taxation II
ACCTG 431 Advanced Auditing
ACCTG 432 Accounting Information Systems
ACCTG 440 Advanced Management Accounting
ACCTG 461 International Accounting
ACCTG 462 Governmental and Not-for-Profit Accounting
ACCTG 489
ACCTG 494 Research Project
ACCTG 496 Independent Studies
ACCTG 497 Special Topics

Supporting Courses and Related Areas
Select 6 credits from 200 - 400 level business courses from: ACCTG, BA, ECON, FIN, MGMT, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Altoona Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Career Paths

Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, Penn State Harrisburg accounting students are provided with many opportunities to experience the world of business.

Careers

An accounting degree helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. Students who complete the prescribed courses and earn a BS degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

Opportunities for Graduate Studies

The Bachelor of Science in Accounting provides a sound background for students who plan to pursue graduate studies in accounting or related fields, including Penn State’s Master of Professional Accounting.

AutoCAD, Certificate

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The AutoCAD: Computer-Aided Drafting Certificate is an introduction to AutoCAD, the industry standard for high-quality engineering graphics. Knowing AutoCAD will open many doors for you in the workplace. In fact, more and more jobs require a working knowledge of AutoCAD, an industry standard for high-quality engineering graphics. Classes will be ‘hands on’ in the computer lab during convenient evening hours. Students who take the classes in this certificate will:

- Learn drawing vocabulary used on blueprints-apply that vocabulary to produce drawings
- Understand sectional views
- Create 2D drawings
- Develop computer skills for drafting-learn commands, views, etc.
- Create 3D models

What is AutoCAD?

Computer software to model, design, and analyze a wide variety of two and three dimensional objects.

You Might Like This Program If...

- You will enter an engineering industry that will require creating, revising, or interpreting 2D or 3D drawings.

Program Requirements

To earn an undergraduate certificate in AutoCAD, a minimum of 8 credits is required.

No Prerequisites Required.

Certificate Learning Objectives

1. Recognize drawing vocabulary used on 2D drawings
2. Apply drawing vocabulary to produce 2D drawings
3. Create 3D models

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

DIVISION OF BUSINESS, ENGINEERING, AND INFORMATION SCIENCES AND TECHNOLOGY
Biology, B.S. (Altoona)

Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem. Hands-on experiences, from designing and conducting lab experiments to making field observations, using many different procedures and instruments, play an important role in gaining biological knowledge. Basic research in biology provides many benefits. Faculty in the Department of Biology at Penn State are exploring ways to cure neurological diseases, to conserve coral populations in tropical oceans, to discover more efficient ways to use plants for food and bioenergy, to develop vaccines for infectious diseases, and investigating many other facets of biology, all with the goal of positively impacting humans and the environment.

You Might Like This Program If...
- You are interested in learning about aspects of the biology of organisms that live on Earth.
- You enjoy a dynamic field of study, with new discoveries being made every day.
- You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
- You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance Requirements
In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.

Degree Requirements
For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

<td></td>
</tr>
</tbody>
</table>

Groups

Select a minimum of 18 credits of 400-level biology courses, with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group). Moreover, a maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 18 credit minimum in the 400-level biology course requirements.

Plant and Fungi Group:

Additional Courses

Groups

Select a minimum of 12 credits of 400-level biology courses, with at least 6 credits from the Plant and Fungi group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496, and SC 295, 395, 495 may be used to fulfill the 12 credit minimum in the 400-level biology course requirements.

Plant and Fungi Group:

- BIOL 406 Symbiosis
- BIOL 414 Taxonomy of Seed Plants
- BIOL 420 Paleobotany
- BIOL 424 Seeds of Change: The Uses of Plants
- BIOL/PPEM 425 Biology of Fungi
- BIOL 431 Reproductive Biology
- BIOL 444 Field Ecology
- BIOL 450W Experimental Field Ecology
- BIOL 473 Laboratory in Mammalian Physiology

Evolution Group:

- BIOL 405 Molecular Evolution
- BIOL 406 Symbiosis
- BIOL 411 Medical Embryology
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology

- BIOL 420 Paleobotany
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 427 Evolution
- BIOL 428 Population Genetics
- BIOL 429 Animal Behavior
- BIOL 432 Developmental Genetics
- BIOL 433 Evolution of Vertebrates
- BIOL 434 Pathobiology of Emerging Infectious Disease
- BIOL 436 Population Ecology and Global Climate Change
- BIOL 438 Theoretical Population Ecology
- BIOL 439 Practical Bioinformatics
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms

## Additional Courses

### Groups

Select a minimum of 12 credits of 400-level courses, with at least 6 credits from the Physiology group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 12 credit minimum in the 400-level biology course requirements.

### Physiology Group:

- BIOL 404 Cellular Mechanisms in Vertebrate Physiology
- BIOL 406 Symbiosis
- BIOL 409 Biology of Aging
- BIOL 411 Medical Embryology
- BIOL 412 Ecology of Infectious Diseases
- BIOL 413 Cell Signaling and Regulation
- BIOL 415 Ecotoxicology
- BIOL 416 Biology of Cancer
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 424 Seeds of Change: The Uses of Plants
- BIOL 426 Developmental Neurobiology
- BIOL 430 Developmental Biology
- BIOL 431 Reproductive Biology
- BIOL 432 Developmental Genetics
- BIOL 437 Histology
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms
- BIOL 446 Physiological Ecology
- BIOL 460 Human Genetics
- BIOL 469 Neurobiology
- BIOL 470 Functional and Integrative Neuroscience
- BIOL 478 COMPARATIVE NEUROANATOMY
- BIOL 479 General Endocrinology
- BIOL 482 Coastal Biology

### Evolution Group:

- BIOL 405 Molecular Evolution
- BIOL 406 Symbiosis
- BIOL 411 Medical Embryology
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology
- BIOL 420 Paleobotany
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 427 Evolution
- BIOL 428 Population Genetics
- BIOL 429 Animal Behavior
- BIOL 432 Developmental Genetics
- BIOL 433 Evolution of Vertebrates
- BIOL 434 Pathobiology of Emerging Infectious Disease
- BIOL 436 Population Ecology and Global Climate Change
- BIOL 438 Theoretical Population Ecology
- BIOL 439 Practical Bioinformatics

- BIOL 446 Physiological Ecology
- BIOL 451 Biology of RNA
- BIOL 460 Human Genetics
- BIOL 463 General Ecology
- BIOL 464 Sociobiology
- BIOL 474 Astrobiology
- BIOL 478 COMPARATIVE NEUROANATOMY

### Practicum Group:

- BIOL 400 Teaching in Biology
- BIOL 402W Biological Experimental Design
- BIOL 407 Plant Developmental Anatomy
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology
- BIOL 419 Ecological and Environmental Problem Solving
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 433 Evolution of Vertebrates
- BIOL 437 Histology
- BIOL 439 Practical Bioinformatics
- BIOL 444 Field Ecology
- BIOL 448 Ecology of Plant Reproduction
- BIOL 450W Experimental Field Biology
- BIOL 461 Contemporary Issues in Science and Medicine
- BIOL 473 Laboratory in Mammalian Physiology
- BIOL 475N
- BIOL 476 Advanced Human Anatomy - cadaver based
- BIOL 478 COMPARATIVE NEUROANATOMY

or MICRB 43 Viral Pathogenesis
or PSYCH 46 Physiological Psychology
Program Learning Outcomes

1. **KEY LITERACIES:** describe how heritable changes can lead to differences in populations over time that might result in speciation; trace energy/matter transformation, storage, and mobilization; explain how information is exchanged and stored; recognize how changes in biological structures can have varying effects on function; and/or describe the interactions and interconnections among systems across biological scales and over evolutionary time scales.

2. **PROCESS OF SCIENCE:** apply the elements of the process of science such as posing questions, generating novel hypotheses based on the scientific literature; developing appropriate technical skills for research; designing/conducting experiments to test hypotheses in laboratory and/or field settings; summarizing/interpreting data; integrating/evaluating findings in the broader scientific field to construct new knowledge; and/or participating in the peer review/revision process.

3. **SCIENTIFIC EVIDENCE EVALUATION:** discriminate among scientific claims presented in a variety of sources based on the strength of evidence; find appropriate published scientific literature; and/or analyze and critically evaluate data/conclusions from the scientific peer-reviewed literature.

4. **QUANTITATIVE REASONING AND DATA SCIENCE:** apply basic quantitative competencies such as algebra, probability, statistics, unit conversions, and fundamental biological equations; organize, summarize, and interpret quantitative data; use modeling/simulation to approach problems from across various scales; and/or find and analyze large databases using statistical methods and/or other approaches.

5. **INTERDISCIPLINARY THINKING:** integrate knowledge among biological subfields and between biology and other disciplines.

6. **COLLABORATION AND COMMUNICATION:** engage with diverse communities and leverage the skills in the community to pose and solve biological questions; demonstrate the ability to work in teams to solve biological problems; and/or communicate in a variety of formal and informal ways in the discussion of biological research.

7. **SCIENCE AND SOCIETY:** explore the impacts of scientific research on society and the environment and how society influences/rely on research to inform decision-making; evaluate the ethical implications of biological research; recognize ethical issues in a variety of settings; and/or describe how different perspectives and the resulting alternative approaches might be evaluated using ethical principles to identify a solution to an issue.

8. **PROFESSIONAL EXPERIENCES:** communicate in a professional manner and learn/use professional behaviors in all aspects of college and career building activities, including participation in opportunities such as research, internships, cooperative education, teaching and tutoring, study abroad, and/or volunteer work.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The adviser's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)
Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

General Biology Option at Altoona Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Total Credits

124-128

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement
**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures). W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Vertebrate Physiology Option at Altoona Campus**

**Career Paths**

A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

More information about potential career options for graduates of the Biology program [here](http://bio.psu.edu/undergraduate-portal/after-graduation/). More information about opportunities for graduate studies [here](http://bio.psu.edu/graduate-portal/).

Business Administration, A.S. (Altoona)

Begin Campus: Altoona
End Campus: Altoona

Program Description

The associate degree program in Business Administration provides an introductory foundation to core aspects of the business environment that prepares graduates for future baccalaureate study in business or for direct entry into the work place. The primary objective of this major is to provide a business-oriented program with sufficient communicative and mathematical skills, socially relevant course work, and specific business specialties to develop a well-rounded and knowledgeable graduate.

Students should work closely with academic advisers to schedule coursework required to transition to baccalaureate business programs.

What is Business Administration?

To be successful in today's increasingly complex business world, you need to have a broad understanding of how business works. The Penn State Associate degree in Business Administration prepares students for a professional career in today's business environment. The degree offers students a managerially-oriented program emphasizing communication and mathematical skills, socially relevant course work, and advanced courses in business. While Penn State's Associate in Science in Business Administration is an excellent stand-alone credential, it can be used to seamlessly transition to a bachelor's degree such as the Bachelor of Science in Business or other business-related programs at the University.

You Might Like This Program If...

• You want to learn to use the latest technical business tools to perform your job duties effectively.
• You analyze and react to issues facing companies today.
• You collect and analyze data to make inferences and solve business problems.
• You need to execute effective communication strategies.

Entrance to Major

Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements

For the Associate in Science degree in Business Administration, a minimum of 60 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>48-50</td>
</tr>
</tbody>
</table>

9 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GQ General Education courses and 6 credits of GWS General Education courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in
interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2727) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
• Quantification (GQ): 3 credits
• Writing and Speaking (GWS): 3 credits

Knowledge Domains
• Arts (GA): 3 credits
• Humanities (GH): 3 credits
• Social and Behavioral Sciences (GS): 3 credits
• Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
• A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

University Degree Requirements
Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

### Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their
intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

Business impacts our society in many ways. Every business, from small companies to large corporations provide employment options. The associate in business degree can help prepare you for a wide variety of entry-level careers in this sector or for continued study in business. You will have the opportunity to participate in an elective business internship as part of your curriculum. Internships provide valuable experience before graduation and an important first step toward starting your career.

Careers

Because the Associate in Science in Business Administration can give you a foundation of business concepts and best practices relevant to any industry, as a graduate of the program you can prepare for positions in accounting departments, management trainee opportunities, retail, insurance industry, industrial management opportunities, office manager, or business service manager. Some examples of jobs include:

- Accounting Specialist
- Accounts Examiner
- Appraisers and assessors of real estate
- Assistant Marketing Director
- Assistant Store Manager
- Billing Clerk
- Business services manager
- Computing business coordinator
- Compliance officers
- Insurance sales agent
- Industrial Salesperson
- Management Trainee
- Office Manager

Opportunities for Graduate Studies

Upon completion of the associate degree in business, you may also choose to proceed seamlessly to the bachelor of science in business or selected other business-related majors at Penn State.

Business, B.S. (Altoona)

Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Science in Business (B.S.B.) is a professionally oriented business degree program that combines the theoretical underpinnings of core business disciplines, notably management, marketing, finance, and supply chain management, with applied study in a practical setting. Through the choice of an 18-credit option, students specialize in a key business sector. Students also develop written and oral communication skills throughout the program, acquire contemporary technology skills, and engage in active and collaborative learning. The degree allows students to become familiar with the unique business environments of their local communities, a design that sets the degree apart from other business degrees offered within the University and throughout the Commonwealth.

Accounting Option
Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, New Kensington, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

This option prepares students to pursue careers in business with an emphasis on the areas of financial and managerial accounting, systems and controls, auditing, and taxation.

Entrepreneurship Option
Available at the following campuses: Altoona, World Campus

This option prepares students to pursue entrepreneurial careers with emphasis on idea generation, opportunity analysis, new product creation, and business plan development.

Financial Services Option
Available at the following campuses: Abington, Altoona, Berks, DuBois, Lehigh Valley, Scranton, World Campus

This option prepares students to pursue careers in financial organizations with emphasis on wealth management, tax planning, risk management, and financial analysis.

Health Services Option
Available at the following campuses: Abington, Lehigh Valley, World Campus

This option prepares students to pursue careers in the health services sector with emphasis on the financial and administrative aspects of health care enterprises.

Individualized Business Option
Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

This option provides the opportunity for students to pursue an approved business-focused interdisciplinary program of study.

Management and Marketing Option
Available at the following campuses: Abington, Altoona, Beaver, Berks, Brandywine, DuBois, Fayette, Greater Allegheny, Hazleton, Lehigh Valley, Mont Alto, New Kensington, Shenango, Schuylkill, Scranton, Wilkes-Barre, World Campus, York

You Might Like This Program If...
• You want to become a flexible business professional, equipped to adapt to the ever-changing workplace of the future.
• You are interested in an academic challenge with theoretical and practical focus in a competitive yet collaborative learning environment.
• You want transferable skills or you are not sure which business sector you wish to focus.
• You wish to develop a broad knowledge of business operations.
• You want to develop the skills for working in business.

Entrance To Major
Completion of MATH 22 or MATH 40, MATH 41, MATH 110, MATH 140.

Degree Requirements
For the Bachelor of Science degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400 level:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>10</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>77</td>
</tr>
</tbody>
</table>

12 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 6 credits of GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.
The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 12 credits in 300 or 400-level (with at least 3 credits at the 400-level) from ACCTG, FIN, FINSV, or RM

---

A minimum of 3 credits of supporting courses must be selected at the 400-level.
Program Learning Objectives
Upon graduation BSB students will be able to:

1. **Effective Communication:** Demonstrate the necessary skills and abilities to effectively communicate.
2. **Use Technology:** Apply contemporary tools of information technology to include business software applications.
3. **Leadership and Teamwork:** Apply leadership, team building, and project management skills.
4. **Global and Diverse Perspectives:** Compare, contrast and differentiate the business environment of both their local community and the globalized world economy.
5. **Ethical Awareness:** Demonstrate an awareness of ethical issues, social responsibilities and conflict resolution.
6. **Use Management Theory/Practice:** Utilize and apply fundamental business concepts, principles and contemporary business practices.
7. **Data Analysis and Problem Solving:** Recognize, analyze and solve business problems using quantitative and qualitative measures.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

### Suggested Academic Plan

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the [archive](p. 16) to view the appropriate Undergraduate Bulletin edition *(Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin)*.

#### Accounting Option at Altoona Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Entrepreneurship Option at Altoona Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GH, GN, GA, GS, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GH, GN, GA, GH, and GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Integrative Studies (either Inter-domain or Linked Courses)

Integrative Studies may be completed within the 30 Knowledge Domain credits and must be completed with either Inter-domain or Linked courses, not a combination of both. For Inter-domain courses, credit may apply to both Knowledge Domain designations but does not reduce the total number of credits within the Knowledge Domains and at least 3 credits of single-domain coursework are required in each of the 5 Knowledge Domains. Linked courses used for the Integrative Studies requirement must represent two different Knowledge Domains.

Career Paths

In today’s economic environment, the Bachelor of Science in Business allows companies to hire individuals who have a broad knowledge of all aspects of business. This broad knowledge give you the opportunity to be effective within many different types of organizations. You will also be well-positioned to pursue admission to graduate programs.

Careers

With a degree in business, you may specialize through options that may vary by campus. With an accounting option, you can work in the areas of financial and managerial accounting, systems and controls, taxation, and auditing. The entrepreneurship option provides the skills for you to start your own business or to work as an entrepreneur within a company. Health services provides the financial and administrative skills and knowledge necessary for you to become a health services manager. With an option in financial services you might pursue positions in wealth and risk management, estate planning or financial and retirement
planning. With the management and marketing option you will be prepared for a career in retail management, small business management or in marketing, advertising and promotion. Finally, with an individualized option, you have flexibility to build specialized skills for your personal business career goals.

**Opportunities for Graduate Studies**

A baccalaureate degree in Business can lead to a Master’s degree in Business (MBA) or other business-related masters degrees. MBA programs are offered at Penn State Great Valley, Penn State Erie, Penn State Harrisburg, Penn State Berks, Smeal College of Business and through the World Campus.

Communications, B.A. (Altoona)

Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
The curriculum of this B.A. in Communications provides a general grounding in traditional media forms along with work in the area of media convergence. Students must do coursework at both the practical and theoretical level. On the theory side, coursework will be offered in the areas of media criticism and theory, visual communications, and media history at the introductory and advanced levels. On the applied side, coursework will be offered in video and audio production, news writing and photojournalism, radio and television studio production, and public relations and advertising at the introductory and advanced levels. In the Convergent Media News Service courses, which form the most distinctive component of the program, students will actually produce and deliver a college news service in print, broadcasting (TV and streaming radio), and a multimedia online format. This hands-on experience will provide students an opportunity to create materials suitable for inclusion in a portfolio. Although not required, students will be strongly encouraged to do an internship sometime during their junior or senior years. Finally, the capstone Convergent Media Seminar will bring seniors together to consider the larger, theoretical issues related to the fast-paced changes in communications today and into the future. With a degree in this program, students will be well-positioned to go right into industry, where they will be able to compete in a number of different job markets, or to graduate school for advanced training.

What is Communications?
Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games, and the Internet. Mass communications use writing, speech, photographs, video, and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in different ways with diverse audiences through marketing, advertising, public relations, corporate communications, digital journalism, film and other media.

You Might Like This Program If...
• You want the experience, knowledge, and skills you need to become a versatile media practitioner.
• You are interested in a career in journalism, media, public relations, advertising, or marketing.
• You would like to gain practical experience and build a portfolio of work in a state-of-art production facility.

Entrance to Major
In order to be eligible for entrance to this major, a student must:
1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)
**Degree Requirements**

For the Bachelor of Arts in Communications, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>12</td>
</tr>
<tr>
<td>Bachelor of Arts Degree</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>42</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**B.A. Degree Requirements**

**Foreign Language** (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

**B.A. Fields** (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

**Other Cultures** (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

**Requirements for the Major**
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

1 A student may apply only 6 credits total of COMM 1 and COMM 2 towards the requirements of the Communications degree.

## Program Learning Objectives

Students should be able to demonstrate:

1. Effective written communication skills.
2. Effective oral communication skills.
3. Effective visual communication skills.
4. Knowledge of professional standards and practices.
5. Ability to perform in professional settings with clarity, effectiveness, and in a manner that is appropriate to industry standards.
6. Ability to understand and connect communications theory and research methods to ensure the development of effective critical thinking skills.
7. Knowledge of the roles communications systems and professionals play in shaping communities at the global, national, and local levels.

## Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Bachelor of Arts Requirements:

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

Career Paths
The Communications major is a good fit for students interested in a career in media, as well as those considering graduate school. The major is designed to give you the experience, knowledge, and skills you need to become a versatile media practitioner. The program emphasizes a balance of theory and practice, as you develop hands-on skills (in a state-of-the-art production facility) while gaining an understanding of the many complexities of today's media landscape. The Communications major is a good fit for students interested in a career in media, as well as those considering graduate school.

Careers
In addition, graduates have achieved distinction in a variety of areas. Recent Communications alumni have won Emmy Awards, the prestigious Murrow Award, and several AP awards in multiple states.

Opportunities for Graduate Studies
Graduates of the Communications program excel in the job market and graduate school. Student acceptance rate among graduate programs exceeds 90 percent.

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Criminal Justice, A.S. (Altoona)**

Begin Campus: Altoona  
End Campus: Altoona

**Program Description**

Students receiving an associate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships. This program includes study in law enforcement, courts, and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Associate in Science degree in Criminal Justice prepares students for entry-level positions in criminal justice or for study at the baccalaureate level.

**What is Criminal Justice?**

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.
You Might Like This Program If...
You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter entry level positions in the criminal justice system, or complete the baccalaureate level.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (http://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/)

Entrance to Major
Students must have a minimum 2.0 GPA to change to this Associate degree after admission to the University.

Degree Requirements
For the Associate in Science in Criminal Justice, a minimum of 64 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>21</td>
</tr>
<tr>
<td>Electives</td>
<td>26</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>29</td>
</tr>
</tbody>
</table>

12 of the 21 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH courses; 3 credits of GQ courses; 6 credits of GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2727) section of the Bulletin and consult your academic adviser.

Foundations (grade of C or better is required.)
• Quantification (GQ): 3 credits
• Writing and Speaking (GWS): 3 credits

Knowledge Domains
• Arts (GA): 3 credits
• Humanities (GH): 3 credits
• Social and Behavioral Sciences (GS): 3 credits
• Natural Sciences (GN): 3 credits

Foundations or Knowledge Domains
• A General Education course selected from GWS, GQ, GN, GA, GH, or GS, and may include Integrative Studies (Inter-domain or Linked) courses: 3 credits

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

University Degree Requirements

Cultures Requirement
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Criminal Justice, B.A. (Altoona)
Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?
Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...
You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students
completed this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

MORE INFORMATION ABOUT CRIMINAL JUSTICE (http://altoona.psu.edu/academics/bachelors-degrees/criminal-justice/)

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Arts degree in Criminal Justice, a minimum of 120 credits is required:

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in
the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language.

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures.

See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Career Paths**

Graduates of the Criminal Justice program are prepared to enter the workforce or can continue their graduate education in Master’s and Ph.D. programs, as well as law school. Penn State Altoona Career Services supports and serves students in all areas related to career development and preparation including: Major and Career Exploration Career Decision-Making Preparation of Employment Documents Internship and Job Search Strategies Interview Preparation Preparing for Graduate School Developing your Professional Online Brand Presentations and Workshops.

**End Campus:** Altoona

**Program Description**

Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually.
and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?
Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...
You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

</table>

10-13 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 0-3 credits of GH courses; 4 credits of GQ courses; 6 credits of GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or
within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Select 12 credits, in consultation with the adviser, in one or two of the following skill enhancement areas: accounting, computers, composition and rhetoric, counseling, education, law and legal studies, foreign language, management, public speaking, research methods and statistics, science and engineering, biobehavioral health; or in the following topics: adolescence, deviant behavior, drugs, minorities

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years' suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Altoona Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Career Paths

Graduates of the Criminal Justice program are prepared to enter the workforce or can continue their graduate education in Master’s and PhD programs, as well as law school. Penn State Altoona Career Services supports and serves students in all areas related to career development and preparation including: Major and Career Exploration Career Decision-Making Preparation of Employment Documents Internship and Job Search Strategies Interview Preparation Preparing for Graduate School Developing your Professional Online Brand Presentations and Workshops.

### Criminal Justice, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

### Program Description

The Criminal Justice minor provides an overview of the criminal justice system and a thorough grounding in criminological theory. Students receive an in-depth look at the three main system components: policing, courts, and corrections, as well as the opportunity to delve into two or more specialized topics relating to criminal justice. The minor is designed not only for students who have a professional interest in criminal justice, but also for those who want to be informed members of the voting citizenry. A functional understanding of crime and the criminal justice
system is useful in many careers, including law, social work, education, and journalism.

**What is Criminal Justice?**

Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

**You Might Like This Program If…**

You want to be informed members of the voting citizenry. A functional understanding of crime and the criminal justice system is useful in many careers, including law, social work, education, and journalism.

Cybersecurity Analytics and Operations, B.S. (Altoona)
Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
The Bachelor of Science in Cybersecurity Analytics and Operations
in the College of Information Sciences and Technology (IST) is an
interdisciplinary program that prepares students for careers as
cybersecurity professionals. It educates students on the essential
concepts of cyber-defense and the analytical fundamentals of
cybersecurity, with a focus on the analytical and risk management
underpinnings and associated cyber-defense techniques and strategies
for ensuring the safety of online information stored in large and
heterogeneous networks that are embedded within and across the
complex socio-technical infrastructures that are pervasive in today’s
business, government and military organizations. Students will acquire
the knowledge and skills needed to critically assess and respond
to modern information security threats, using approaches that are grounded in a holistic understanding of adversarial strategies and effective responses. More specifically, it will offer an in-depth and domain-independent approach to the development of skills in cyber defense technologies, tools and processes; cybersecurity analytics and visualization; and cybersecurity risk analysis and management. The major draws from concepts and skills associated with a number of disciplines, including information science, management science, statistics and data science, human behavior, and law/policy. Graduates will be prepared to join the rapidly growing cybersecurity workforce deployed across organizations of diverse sizes and missions.

What is Cybersecurity Analytics and Operations?

Cybersecurity is a field that deals with the protection of computer systems, networks, programs, and data from attacks and unauthorized access. This includes the development of cyber defense tools to protect critical infrastructure as well as the analysis and mitigation of cyber threats.

Cybersecurity is a very broad field. This program focuses students beyond the information technology field and instead focuses on the analysis of cybersecurity data, identification of cyber incidents, understanding the actions of malware, communication of concerns to business stakeholders and the general public. High performing cybersecurity analysts have a strong mathematical and computational background. They often employ computer programming and scripting to solve problems and integrate existing tools. They analyze the data they are presented with from intrusion detection sensors, firewalls, and anti-malware tools.

Cybersecurity professionals apply their skills for organizations to prevent cyber criminals, hacktivists, and persistent nation-state actors. They protect organizations, companies, healthcare institutions, and government agencies from the loss of confidential data. They keep abreast of new developments technically, as well as those in the work domain of the organization and events that occur in the world at large.

MORE INFORMATION ABOUT CYBERSECURITY ANALYTICS AND OPERATIONS (https://ist.psu.edu/students/undergrad/majors/cyaop/)

You Might Like This Program If...

- You enjoy working with and on computers as well as their operating systems and applications.
- You have an interest in business and organizations and securing
- You want to protect digital information, data stores, and computer networks from threats.
- You want to learn the cyber defense strategies used to anticipate, recognize, and defend against computer attacks.
- You’re passionate about how we can keep sensitive information out of the hands of hackers, cybercriminals, and terrorist organizations.
- You enjoy working on a team to solve technical problems for organizations.
- You are interested in computer programming and mathematics.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY CYBERSECURITY ANALYTICS AND OPERATIONS (https://issuu.com/istpsu/docs/cybersecurity-analytics-and-operations-major/)

Entrance to Major

To be eligible for the Cybersecurity Analytics and Operations major, students must:

1. Have completed the following entrance-to-major requirements with a grade of C or better in each: CYBER 100S, IST 140, IST 210, IST 220, IST 242, STAT 200
2. Have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance to major is requested.

Degree Requirements

For the B.S. degree in Cybersecurity Analytics and Operations, a minimum of 126 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>3</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>99</td>
</tr>
</tbody>
</table>

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses, 6 credits of GS courses, 9 credits of GWS courses.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3
credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward their degree program. The college dean or campus chancellor and program faculty may require.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward their degree program. The college dean or campus chancellor and program faculty may require students to earn at least a 2.00 grade-point average for all courses completed within their degree program.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward their degree program. The college dean or campus chancellor and program faculty may require students to earn at least a 2.00 grade-point average for all courses completed within their degree program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44). For more information, check the Suggested Academic Plan for your intended program.

Academic Advising
The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Altoona Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 126

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

IST/SRA/CYBER course offered both fall and spring semesters at Altoona. Otherwise, IST/SRA/CYBER courses are only offered once per academic year.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Careers**

Because our courses blend technical knowledge with skills in communication and business, a Cybersecurity Analytics and Operations degree allows students to pursue opportunities as cybersecurity analysts, cyberthreat advisers, penetration testers, and a number of other unique careers in fields such as defense, government, and business.

Dance Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Dance Studies Minor is designed for students interested in furthering their study and exploration of the many areas of dance. Students will explore the creative process of dance as it relates directly to technique and performance. Students have the opportunity to perform with the Ivyside Dance Ensemble, perform in faculty choreography, choreograph for productions, and attend national festivals. The Dance Studies Minor allows students to further enhance their dance study and prepares them for graduate study and a variety of career options.

What is Dance Studies?

Dance Studies explores the world of dance as it relates to human movement, expression, communication and performance. You will gain new perspectives, develop the knowledge and skills to express yourself as a dance artist, and apply this through many performance opportunities.

You Might Like This Program If...

You are interested in further developing your dance technique. You are interested in human movement as a form of expression and communication. You are interested in exploring dance artistry, including improvisation and choreography. You just want to keep dancing!

MORE INFORMATION ABOUT DANCE STUDIES (http://altoona.psu.edu/academics/minor-programs/dance-studies/)

Program Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requirements for the Minor</td>
<td>21</td>
</tr>
</tbody>
</table>

Twenty-one credits are required for completion of the minor with a minimum of 9 credits at the 400 level.
Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

<table>

**Additional Courses**

Additional Courses: Require a grade of C or better

Select two of the following:

- DANCE 230 Ballet
- DANCE 240 Jazz Dance
- DANCE 250 Tap Dance
- DANCE 261 Beginning Modern Dance I

(All Dance Studies minor students are required to demonstrate proficiency at beginning level technique courses before placement in the intermediate or advanced courses.)

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Career Paths

The Dance Studies minor helps prepare you for postgraduate study in Dance, Dance Therapy, Performance Theory, and Movement Analysis. You will also be prepared to utilize and teach dance movement in various settings; studios, community and art centers, performance venues.

Careers

Services supports and serves students and alumni, faculty and staff, families, and employers in all areas related to career development and preparation. We can assist in any of the following: Major and Career Exploration Career Decision-Making Preparation of Employment Documents Internship and Job Search Strategies Interview Preparation Preparing for Graduate School Developing your Professional Online Brand Presentations and Workshops.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES WITH A MINOR IN DANCE STUDIES (http://altoona.psu.edu/offices-divisions/continuing-education-training/career-services/)
at another institution or community college accredited by ETAC of ABET may transfer into the program with advanced standing.

What is Electro-Mechanical Engineering?
The Bachelor of Science degree in Electro-Mechanical Engineering Technology responds to a growing demand for engineers with a broad range of technical skills. The program emphasizes knowledge in the field of technology related to the design, maintenance, and operation of electromechanical systems, essentially automation and robotics. These systems incorporate electronic, mechanical, instrumentation and control elements. The program provides students with hands-on experience with these elements, technical knowledge, and the soft skills needed to be successful in the field of engineering. In this curriculum, students receive early exposure to technology by scheduling technical courses in the major. A laboratory component that promotes the understanding of the subject matter through the experiential application of theory accompanies most technical courses. This program culminates with a senior capstone project in which students work together in a team to design and implement an engineering project from initial proposal through product demonstration.

You Might Like This Program If...
You are interested in math and science but prefer spending time applying your skills in a laboratory or field setting as opposed to studying the theory behind these subjects in a classroom setting. If you like to take things apart, to see how they work, this may be for you. There is a greater emphasis on engineering applications while building an understanding of scientific theory.

Direct Admission to the Major
Incoming first-year students who meet the program admission requirements are admitted directly into the major. Admission restrictions may apply for change-of-major and/or change-of-campus students.

For more information about the admission process for this major, please send a request to the college, campus, or program contact (listed in the Contact tab).

Degree Requirements
For the Bachelor of Science degree in Electro-Mechanical Engineering Technology, a minimum of 130 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>109-114</td>
</tr>
</tbody>
</table>

24 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GQ courses; 9 credits of GN courses; 6 credits of GWS courses; 3 credits of GH or GS courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-
requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Requirements for the Major**

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Prescribed Courses: Require a grade of C or better**

- CMPET 117 Digital Electronics
- CMPET 120 Digital Electronics Laboratory
- EET 114 Electrical Circuits II
- EET 118 Electrical Circuits Laboratory
- EET 212W Op Amp and Integrated Circuit Electronics
- EMET 222 Applied Mechanics
- EMET 230 Computerized I/O Systems
- EMET 330 Measurement Theory and Instrumentation
- MCHT 111 Mechanics for Technology: Statics

**Additional Courses**

Select 3 credits of GH or GS of the following:

- ENGR 320Y Design for Global Society
- STS 200 Critical Issues in Science, Technology, and Society
- STS 233 Ethics and the Design of Technology
- STS 245 Globalization, Technology, and Ethics

Select 10-11 credits from:

- CAS 100A Effective Speech
- MATH 83 Technical Calculus
- MATH 210 Calculus with Engineering Technology Applications

**Additional Courses: Require a grade of C or better**

- MATH 250 Ordinary Differential Equations 4
- or MATH 211 Intermediate Calculus and Differential Equations with Applications

Select 5-6 credits of the following:

- MATH 22 College Algebra II and Analytic Geometry
- & MATH 26 Plane Trigonometry
- MATH 81 Technical Mathematics I
- & MATH 82 Technical Mathematics II

**Supporting Courses and Related Areas**

Select 3-4 credits of science courses, in consultation with an adviser, from the approved department list

Select 6 credits of General Technical Elective courses, in consultation with an adviser, from the approved department list

1. Students taking MATH 81 and MATH 82 must take MATH 83.
2. Students taking MATH 83 must take MATH 210 and MATH 211.
3. Both MATH 83 and MATH 140 require a grade of C or better.
4. Note that MATH 250 does not carry a C-requirement.

**Program Educational Objectives**

The Electro-Mechanical Engineering Technology program is designed to provide a curriculum that prepares students to pursue a career in the industry and to develop in their profession. Due to their experience in the Electro-Mechanical Engineering Technology program, within few years of graduation, we expect our graduates to have the ability to:

1. Continue to develop and synthesize analytical skills in the specification, procurement, or integration of electromechanical systems.
2. Apply empirical skills in the operation, testing, or maintenance of electromechanical systems.
3. Collaborate effectively in project team activities through recognizing the global, societal, economical, and ethical contexts of their work.
4. Communicate persuasively through the preparation and delivery of technical and non-technical documentation and communications.

**Student Outcomes**

Graduates of the Electro-Mechanical Engineering Technology program should demonstrate:
1. An ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline.
2. An ability to design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline.
3. An ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.
4. An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes.
5. An ability to function effectively as a member or leader on a technical team.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

College Notes:

Sequential Nature of the Program:

Courses offered during each semester of the EMET program generally build upon material taught in previous semesters. Many courses have prerequisites listed in the Undergraduate Degree Programs Bulletin. Therefore, if a student fails to take a course during the targeted semester, he/she may be unable to schedule courses in subsequent semesters as well. The end result may be a degree program that extends beyond the traditional four years.

Note 1: Math Sequence

High school graduates who test into technical mathematics: Math 81, 82, 83, 210 and 211. Additionally, Math 40 or Math 22 and Math 26 may be used to substitute for Math 81 and 82.

High school graduates who test into calculus: Math 83, 210 and 211 or Math 140, 141, and 250. Students who complete either of these sequences to fulfill the math requirements will need to complete additional technical elective credits. Please see an adviser for more information.

Note 2: Science Courses

Students are required to complete nine credits of science. At least two courses from the following list must be completed:

- PHYS 150 GN(3) or PHYS 211 GN(4) or PHYS 250 GN(4);
- PHYS 151 GN(3) or PHYS 212 GN(4) or PHYS 251 GN(4);
- CHEM 110 GN(3) and CHEM 111 GN(1);

Students may complete no more than one selection from the following. (If the student completes three selections from the first list, no additional courses are required):

- BIOL 011 GN(3) and BIOL 012 GN(1);
- BIOL 110 GN(4);
- BIOL 141 GN(3);
- CHEM 112 GN(3) and CHEM 113 GN(1);
- EGEE 101 GN(3);
- EGEE 102 GN(3);

Due to limited faculty resources, several program courses are only offered during one semester of the year. In addition, EMET courses are not traditionally offered during the summer months.

Approved technical elective courses are:

- CMPSC 201C (3) or CMPSC 121 (3);
- EMET 401 (1), EMET 402 (2), EMET 403 (1), EMET 394 (1-3), EMET 430 (3);
- ENTR 300 (3), ENTR 320 (3);
- MATH 220 (2), MATH 231 (2), STAT 200 (4)
- MGMT 301 (3), MKTG 301 (3)

Other courses may be accepted toward technical elective credits. Please check with your adviser for more information.

Career Paths

The inclusion of both electrical and mechanical coursework in the EMET program makes our students highly marketable to employers.

EMET graduates may pursue engineering work that entails design, prototyping, testing, operation, or maintenance of equipment. Others may work in the areas of research and development, quality control, inspection of procedures and processes, manufacturing, or sales and service. These careers could be in a variety of industries including aerospace, agriculture, automotive, communications, computers, construction, energy, pharmaceuticals, plastics, or robotics to name a few.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE ELECTRO-MECHANICAL ENGINEERING PROGRAM (http://career.engr.psu.edu/)

Opportunities for Graduate Studies

Students may choose to further their engineering education through graduate school. EMET graduates are prepared to continue their education into technical or professional Master's Degree programs. Graduate program admissions requirements vary by program and institution. Students intending to pursue this academic path are
encouraged to investigate intended programs of interest early in their studies to tailor their course choices during their undergraduate studies.

Since the EMET program is ABET ETAC-accredited, EMET graduates are candidates to sit for the Fundamental of Engineering (FE) Exam, the first step in the engineering licensure process. Acceptable accreditation standards vary from state to state for professional licensure, so students must verify their state's requirements.

Elementary and Kindergarten Education, B.S. (Altoona)

Begin Campus: Any Penn State Campus
End Campus: Altoona

PROGRAM CURRENTLY ON HOLD; NOT ACCEPTING NEW STUDENTS
Begin Date of Enrollment Hold: September 10, 2010

Program Description

**Please Note: Individuals interested in earning Pennsylvania teaching credentials for grades PK-8 should refer to the Childhood and Early Adolescent Education major.

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major offers teaching options in Early Childhood Education and in Elementary Education. Students successfully completing this major will have met all of the requirements for the N-3 or K-6 College Instructional I certificate issued by the Pennsylvania Department of Education. Students must indicate their choice of teaching option at the time they make application for admission to a teacher education major. Students who are undecided at this time about which teaching option to select should contact their adviser and enroll in a field experience featuring participation in the classroom.

Early Childhood Teaching Option
Available at the following campuses: University Park

Students successfully completing this option will have met all of the requirements for the N-3 Instructional I certificate issued by the Pennsylvania Department of Education. Special courses in both human development and education are used to integrate understanding of preschool programs with relevant theories of child development.
Elementary Education Teaching Option

Available at the following campuses: Altoona, Berks, University Park

Students successfully completing this option will have met all of the requirements for the K-6 Instructional I certificate issued by the Pennsylvania Department of Education.

Degree Requirements

For the Bachelor of Science degree in Elementary and Kindergarten Education, a minimum of 129.5 credits is required for the Early Childhood Teaching Option and a minimum of 122 credits is required for the Elementary Education Teaching Option:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>0-3</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>101-117</td>
</tr>
</tbody>
</table>

27-30 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 6 credits of GS, 6 credits of GQ, 6 credits of GH, and 9 credits of GN courses for both options. The Early Childhood Teaching option permits 3 credits of GHW.

See also Teacher Education Programs (http://www.ed.psu.edu/educ/current-students/undergraduate/certification/instructional-1/).

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements

- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

A grade of C or better per course is required for teacher certification.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary
academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

English, B.A. (Altoona)

Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
Majors explore the imaginative and practical uses of English through courses in literature, writing, rhetoric, and language. They develop perspectives on human nature and cultural values through American, British, and other English literatures; they learn how to gather, analyze, synthesize, and communicate information; they gain mastery over their language. These skills help English majors find careers in such fields as publishing, business, industry, government, and teaching. English majors often go on to postgraduate study not only in English but in such areas as law, business, education, or other liberal disciplines.

Majors can emphasize writing, literature, or rhetoric, or a mix of literature, writing, and rhetoric. All provide a liberal education and all develop analytic and writing skills. Qualified students may participate in the career internship and in the English honors program.

Students interested in earning certification in secondary education should contact the College of Education, Department of Curriculum and Instruction. (See also Teacher Education Programs.)

Traditions of Innovation Option
Available at the following campuses: Abington, Altoona, Brandywine, Scranton, University Park

This option allows students to explore the imaginative and practical uses of English language through a variety of courses in literature, writing, and rhetoric across historical periods. The flexibility of the English curriculum allows students to focus in literary and cultural studies, creative writing, professional and media writing, and/or rhetoric, according to individual interests and goals. In the process, students learn to gather, analyze, synthesize, and communicate information as they improve their language skills across diverse creative and critical scenarios. These skills prepare students for careers in a wide range of professional fields.

Writing and Literature in Context Option
Available at the following campuses: Abington, Brandywine, Greater Allegheny, Scranton, Wilkes-Barre, York

This option focuses on English as a foundation for strong critical thinking and distinctive communication skills, imaginative approaches to problem solving, and collaboration with aligned fields. The flexibility of the major allows students to study literature, creative writing, theatre, media studies, professional writing, and/or other disciplines, according to their individual interests and goals. These foundations prepare English majors for careers in a wide range of professional fields.

What is English?

English refers to a broad field of study related to the reading, writing, studying and analyzing of English literature and language. The field includes the many and varied forms and genres of literature, writing, and rhetoric, and often considers how value and meaning are created, and information communicated, through these various texts.
You Might Like This Program If...

- You enjoy composing texts that are varied in genre, style, and medium, including critical essays, short stories, poems, reviews, digital media, podcasts, and others.
- You find yourself compelled to make connections between literary texts and ideas that are both present across historical eras and pertinent to current realities.
- You are interested in how audiences treat and use texts, whether the texts are print or digital, technical, critical, and/or creative.
- You want to solve problems through deliberate communication, in areas that overlap with other areas of human life, like science, law, art, business, and the social sciences.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/enrollment/semester-classification.cfm).

READ SENATE POLICY 37-30: ENTRANCE TO AND CHANGES IN MAJOR PROGRAMS OF STUDY (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/37-00-entrance-to-a-college-or-major/)

Degree Requirements

For the Bachelor of Arts degree in English, a minimum of 123 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>18</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>36</td>
</tr>
</tbody>
</table>

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
B.A. Degree Requirements

Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student's primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Program Learning Objectives

1. Apply critical, theoretical, and/or disciplinary approaches to the reading and analysis of texts in multiple genres and/or media.
2. Analyze the aesthetic and/or cultural significance of the ideas, values, conventions, forms, and genres associated with texts.
3. Gather, evaluate, and employ an array of research materials in support of critical studies, and/or creative activity, in ways consistent with standards of academic integrity.
4. Demonstrate writing and rhetorical skills appropriate to critical and/or creative tasks in a variety of media and genres.
5. Analyze representative literary, theoretical, and cultural texts within significant historical, geographical, and cultural contexts.

Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

**Bachelor of Arts Requirements:**

Bachelor of Arts students must take 9 credits in Bachelor of Arts (B.A.) Fields (Humanities; Social and Behavioral Sciences; Arts; World Languages [2nd language or beyond the 12th credit level of proficiency in the 1st]; Natural Sciences; Quantification). The B.A. Fields courses may not be taken in the area of the student’s primary major. See your adviser and the Degree Requirements section (p. 2696) of this Bulletin.

Bachelor of Arts students must take 3 credits in Other Cultures. See your adviser and the full list of courses approved as Other Cultures courses (p. 2755).

**Career Paths**

**Careers**

Our graduates use their training in careers as attorneys, publishers and writers of all types, public relations directors, foreign service specialists, and entrepreneurs, as well teachers and education professionals.

Entrepreneurship, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

Entrepreneurship plays a crucial role in the way new ideas, opportunities, inventions, and technologies are created and introduced into the global marketplace. Students in this minor first develop an understanding of financial forces that affect business ventures. The minor then provides them with a core of courses that enhance their major field of study and that provide a background sufficient for them to take advantage of many entrepreneurial opportunities.

What is an Entrepreneur?

An entrepreneur is commonly thought of as one who starts a business. At Penn State Altoona, we have a more encompassing vision of an entrepreneur, that includes: the person who can work “intrapreneurially” within an existing organization, a person who purchases an existing business, and a person who develops a process and executes solutions for social and environmental issues. Whether a small, midsize, or large organization, greater success can achieved through the creative and innovative thinking of the entrepreneur.

Environmental Studies, B.A.

Begin Campus: Any Penn State Campus
End Campus: Altoona

Program Description
This interdisciplinary major is designed to provide students with an integrated and critical knowledge of the natural environment and human interactions with it. Students will receive a strong foundation in the natural sciences but will extend their studies across several disciplines, emphasizing both public policy issues and the role of the natural environment in history and culture. The goal of the program is 'ecological literacy,' which means that students will develop a broad-based understanding and awareness of environments and environmental issues, and they will develop the problem-solving skills to address those issues. Program requirements include interdisciplinary courses in environmental studies and a broad array of courses in biology, geology, chemistry, geography, economics, political science, English, history, and philosophy. By selecting appropriate electives to supplement the 'additional courses' requirement of the major, students may develop an emphasis in either a specific field (i.e., biology, English) or in a general area of study (natural science, social science, and humanities). Graduates are equipped for employment as environmental consultants in business or with governmental agencies and public interest groups. Many may go on to postgraduate study in environmental science, public policy, or the humanities, or to law school.

What is Environmental Studies?
Environmental Studies provides a broadly-based liberal arts background for the study of environmental issues, blending the principles of the natural sciences with the intellectual traditions of the humanities and the social sciences. Emphasis is placed on experiential learning, ecological literacy, and problem-solving with a goal towards purposeful action.

MORE INFORMATION ABOUT ENVIRONMENTAL STUDIES (http://altoona.psu.edu/academics/bachelors-degrees/environmental-studies/)

You Might Like This Program If...
You wish to work closely with faculty and peers on undergraduate research, community service, and out-of-classroom activities. Students also have the opportunity to discuss career goals and job opportunities with alumni working in a student’s field of interest.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY ENVIRONMENTAL STUDIES (http://altoona.psu.edu/academics/bachelors-degrees/environmental-studies/degree-options/)

Entrance to Major
A student wishing to transfer into the Environmental Studies program must have completed the following course: ENVS 100, and have received a grade of C or better in the course.

Degree Requirements
For the Bachelor of Arts degree in Environmental Studies, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>10-11</td>
</tr>
<tr>
<td>Bachelor of Arts Degree Requirements</td>
<td>24</td>
</tr>
<tr>
<td>Requirements</td>
<td></td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>64-65</td>
</tr>
</tbody>
</table>

21 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GH courses; 9 credits of GN courses; 3 credits of GQ courses; 6 credits of GS courses.

3 of the 24 credits for Bachelor of Arts Degree Requirements are included in the Requirements for the Major, General Education, or Electives and 0-12 credits are included in Electives if foreign language proficiency is demonstrated by examination.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (p. 2728) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.
Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

B.A. Degree Requirements
Foreign Language (0-12 credits): Student must attain 12th credit level of proficiency in one foreign language. See the Placement Policy for Penn State Foreign Language Courses (p. 2723).

B.A. Fields (9 credits): Humanities, Social and Behavioral Sciences, Arts, Foreign Languages, Natural Sciences, Quantification (may not be taken in the area of the student’s primary major; foreign language credits in this category must be in a second foreign language or beyond the 12th credit level of proficiency in the first language)

Other Cultures (0-3 credits): Select 3 credits from approved list. Students may count courses in this category in order to meet other major, minor, elective, or General Education requirements, except for the General Education US/IL requirement.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Supporting Courses and Related Areas
Program Learning Objectives
The overall goal of the Penn State Altoona Environmental Studies Program is ecological literacy. In pursuit of these goals, the program seeks to produce growth in the knowledge and skills of its graduates, their ability to apply these to make connections (i.e., integration and synthesis) between knowledge sets and to analyze and critically evaluate environmental issues of contemporary and historical significance. Further, the program seeks to achieve growth in the attitudes and experiences of its graduates. Our students will be able to:

1. Demonstrate their acquisition of knowledge in a variety of disciplines relevant to studies of natural environments.
2. Make connections between the knowledge and skills they have learned in order to integrate and synthesize information from a variety of contexts or fields of knowledge.
3. Apply the knowledge of physical and socio-economic environments in the analysis of a particular environmental feature, issue, or problem.
4. Demonstrate an active interest in the natural world as evidenced by involvement in environmental issues and/or outdoor activities after receiving their degrees.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of-class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Environmental Studies, B.S.

Begin Campus: Any Penn State Campus

End Campus: Altoona

Program Description

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of the natural environment and human interactions with it. Students will receive a strong foundation in the natural and physical sciences, but will extend their studies across several disciplines, emphasizing both public policy issues and the role of the natural environment in literature, history, and culture. The goal of the program is 'ecological literacy,' which means that students will develop a broad-based understanding and awareness of environments and environmental issues, and they will develop the problem-solving and technical skills to address those issues. Program requirements include interdisciplinary courses in environmental studies and a broad array of courses in biology, geology, chemistry, physics, geography, economics, political science, English, history, and philosophy. By selecting appropriate electives to supplement the 'additional courses' requirement of the major, students may develop an emphasis in either a specific field (i.e., biology) or in a general area of study (natural science, social science, and humanities).

The B.S. in Environmental Studies will better prepare our graduates for graduate studies and/or employment in the sciences (e.g., ecology, geosciences, environmental sciences, and physical geography). Many graduate programs require at least one semester of calculus, chemistry, and physics. Furthermore, the requirements of additional 400-level courses in the sciences will permit students to target their undergraduate studies in a particular area of science so that they are best prepared for graduate work in their area of choice and/or employment.

What is Environmental Studies?

Environmental Studies provides a broadly-based liberal arts background for the study of environmental issues, blending the principles of the natural sciences with the intellectual traditions of the humanities and the social sciences. Emphasis is placed on experiential learning, ecological literacy, and problem-solving with a goal towards purposeful action.

MORE INFORMATION ABOUT ENVIRONMENTAL STUDIES (http://altoona.psu.edu/academics/bachelors-degrees/environmental-studies/)

You Might Like This Program If...

You wish to develop the analytical tools for understanding environmental issues while maintaining an emphasis on the role of socio-cultural influences in shaping human behavior towards the environment. Students benefit from working closely with faculty and peers on undergraduate research, community service, and out-of-classroom activities.

MORE INFORMATION ABOUT WHY STUDENTS CHOOSE TO STUDY ENVIRONMENTAL STUDIES (http://altoona.psu.edu/academics/bachelors-degrees/environmental-studies/degree-options/)
Entrance to Major
For entrance into the Environmental Studies B.S. program, students must have completed the following course: ENVST 100, and have received a grade of C or better in the course.

Degree Requirements
For the Bachelor of Science degree in Environmental Studies, a minimum of 121 credits is required:

<table>

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Additional Courses**

Additional Courses: Require a grade of C or better

ECON 102  Introductory Microeconomic Analysis and Policy  3
or ECON 104  Introductory Macroeconomic Analysis and Policy  3
MATH 110  Techniques of Calculus I  4
or MATH 140  Calculus With Analytic Geometry I  4

Select one of the following:  3-4
- BIOL 222  Genetics
- BIOL 230W  Biology: Molecules and Cells
- BIOL 240W  Biology: Function and Development of Organisms
- PLSC 135  The Politics of the Ecological Crisis  3
or PLSC 425  Government and Politics of the American States  3
- STAT 200  Elementary Statistics  3-4
or STAT 250  Introduction to Biostatistics  4

Select one of the following:  4
- ENVST 296  Independent Studies & ENVST 496  and Independent Studies
- ENVST 395  Internship & INTSP 370  and Internship Preparation
- ENVST 496  Independent Studies

**Supporting Courses and Related Areas**

Select 12 credits (at least 9 credits at the 400-level) from the three departmental lists, in consultation with an academic adviser:

- a. Natural Sciences  6
- b. Social Sciences  3
- c. Arts and Humanities  3

**Program Learning Objectives**

The overall goal of the Penn State Altoona Environmental Studies Program is ecological literacy. In pursuit of these goals, the program seeks to produce growth in the knowledge and skills of its graduates, their ability to apply these to make connections (i.e. integration and synthesis) between knowledge sets and to analyze and critically evaluate environmental issues of contemporary and historical significance.

Further the program seeks to achieve growth in the attitudes and experiences of its graduates. Our students will be able to:

1. Demonstrate their acquisition of knowledge in a variety of disciplines relevant to studies of natural environments.
2. Make connections between the knowledge and skills they have learned in order to integrate and/synthesize information from a variety of contexts or fields of knowledge.
3. Apply the knowledge of physical and socio-economic environments in the analysis of a particular environmental feature, issue or problem.
4. Demonstrate an active interest in the natural world as evidenced by involvement in environmental issues and/or outdoor activities after receiving their degrees.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2020-21 academic year. To access previous years’ suggested academic plans, please visit the archive (p. 16) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

**Altoona Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

## Environmental Studies, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

### Program Description

The interdisciplinary minor in Environmental Studies gives students a broad-based introduction to the natural environment and human interactions with it. Students gain awareness and understanding of environmental issues from the perspectives of several disciplines in:

- relevant natural sciences (ecology, biology, geology, and/or environmental chemistry, for instance),
- the social sciences (environmental economics and/or public policy), and
- the arts and humanities (environmental history, ethics, and/or literature).

Core courses in environmental studies, emphasizing applied and experiential learning, serve to integrate and synthesize knowledge from the natural sciences, social sciences, and arts and humanities. The goal of the program is 'ecological literacy.' Students completing the minor gain sufficient awareness and understanding of environmental issues to put environmental problems in a variety of contexts and to apply pertinent skills and knowledge (from studies in both their major and the minor) in addressing those problems. The minor helps prepare students for employment in the private sector or with government agencies and environmental advocacy groups, or for postgraduate study in environmental science, public policy, the humanities, or law.

### What is Environmental Studies?

Environmental Studies provides a broadly-based liberal arts background for the study of environmental issues, blending the principles of the natural sciences with the intellectual traditions of the humanities and the social sciences. Emphasis is placed on experiential learning, ecological literacy, and problem-solving with a goal towards purposeful action.

Global Language and Culture, Minor

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The minor in Global Language and Culture allows students to create an interdisciplinary program combining language study beyond the 12-credit level, an academic or internship experience abroad, and additional courses chosen to complete a thematic area of concentration. The GLC minor recognizes that students from all degree programs can benefit from developing intercultural competencies. It encourages students to deepen and enhance their understanding of another culture by developing advanced linguistic skills, completing a related experience abroad, and integrating both into an area of concentration of the student’s choice. Students may apply toward the minor no more than nine credits from their major requirements.

You Might Like This Program If...

You are interested in a flexible, interdisciplinary minor that enhances intercultural competence and complements a wide array of Penn State programs. You want to develop the skills and gain the experience necessary to work across cultural and linguistic barriers in your chosen profession. You want to continue the study of language and culture beyond the basic level and participate in an academic or internship experience abroad.

Applications to the minor must present a proposed plan of study that includes a clear geographic or thematic focus; this plan must be approved by the adviser for the minor.

Program Requirements

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Requirements for the Minor</td>
<td>18-20</td>
</tr>
</tbody>
</table>

Requirements for the Minor

At least 6 credits for the minor must be at the 400-level. 400-level courses may be completed either abroad or at Penn State, and may be either in English or in the target language.

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

<tr>
<td>a) At least 6 credits as participants in a single approved Penn State education abroad program, in a country in which the chosen language is one of the major languages spoken</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

Additional Courses

**Additional Courses: Require a grade of C or better**

Select at least 6 credits, or as many as needed to complete the 18 credits for the minor after the above two requirements have been met.

1 Courses taken abroad may be taught either in English (for thematically related courses) or in the target language. When taken abroad, language courses below the 12-credit level may be used to fulfill the study abroad requirement, but will not count towards the 18 credits for the minor.

2 Students must select these courses to complete a geographic or thematic concentration. The rationale for the inclusion of these courses must be described in the student’s proposed plan of study, and approved by the adviser for the minor. Courses may be chosen from, but are not limited to, the fields of anthropology, art, communications, history, international studies, international business, literature, political science, or a variety of other disciplines related to international culture.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
