## Hotel, Restaurant, and Institutional Management

*University Park, College of Health and Human Development (2HRIM)*

JENNIFER P. WAKEMAN, *Coordinator, Penn State Berks*

The Hotel, Restaurant, and Institutional Management major is an intensive four-semester major designed to prepare students for managerial positions in the hospitality industry. The course of study places heavy reliance on experience acquired in an on-the-job setting.

Students who achieve outstanding records may, upon completing this program, apply for admission to the baccalaureate degree major in Hotel, Restaurant, and Institutional Management in the College of Health and Human Development. Six or more additional semesters of satisfactory work are required to earn the baccalaureate degree. Graduates of this major may qualify for admission to other baccalaureate degree majors.

For the Associate in Science degree in Hotel, Restaurant, and Institutional Management, a minimum of 60 credits is required.

*Scheduling Recommendation by semester given like (Sem: 1-2)*

**GENERAL EDUCATION:** 21 credits

(6 of these 21 credits are included in REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 45 credits

(This includes 6 credits of General Education GWS courses.)

**PRESCRIBED COURSES** (35 credits)

ENGL 015 GWS(3) [\[70\]](#), ENGL 202D GWS(3) [\[70\]](#), HRIM 201(3) [\[70\]](#), HRIM 228(1) [\[70\]](#), HRIM 250(3) [\[11\]](#), HRIM 270(4) [\[11\]](#), HRIM 295W(3), HRIM 319(3) [\[70\]](#), HRIM 329(3) [\[70\]](#), HRIM 335(3) [\[70\]](#), HRIM 336(3) [\[70\]](#), HRIM 380(3) [\[70\]](#) (Sem: 1-4)

**ADDITIONAL COURSES** (6 credits)

HRIM 204(3) or MKTG 221(3) [\[70\]](#) (Sem: 1-4)

HRIM 260(3) or MGMT 341(3) (Sem: 1-4)

[\[70\]](#) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (4 credits)

Select 4 credits in consultation with adviser to develop more depth in hospitality management (Sem: 1-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[70]** These courses are required for the baccalaureate degree in Hotel, Restaurant, and Institutional Management.

## Labor and Employment Relations

University Park, College of the Liberal Arts (2LBE)

PROFESSOR PAUL CLARK, Director School of Professional LER/HPA

This Associate of Science (A.S.) degree in Labor and Employment Relations permits students to undertake a study of work and the employment relationship in the context of a liberal arts education. An introductory foundation of theoretical and professional knowledge is provided through a multidisciplinary approach. The degree draws on the perspectives of disciplines such as industrial relations, economics, history, law, sociology, and psychology.

Graduates of the Labor and Employment Relations A.S. degree program are equipped for employment in business, government, and labor organizations as labor relations assistants, personnel and human resource assistants, and payroll assistants. The degree is also appropriate preparation for the B.A. or B.S. degree in Labor and Employment Relations, or other social science or business Bachelors' degrees.

For the A.S. Degree in Labor and Employment Relations, a minimum of 60 credits is required.

Scheduling Recommendation by Semester Standing Given Like (Sem: 1-2)

**GENERAL EDUCATION:** 21 credits

**FIRST YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in GENERAL EDUCATION course selections or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 9 credits

**REQUIREMENTS FOR THE MAJOR:** 30 credits [\[1\]](#)

**PRESCRIBED COURSES:** (15 credits)

ECON 102 GS(3), LER 100 GS(3), PSYCH 281 GS(3), LER 458Y/HIST 458Y US(3), LER 460(3) (Sem: 1-8)

**ADDITIONAL COURSES:** (6 credits)

LER 136/WMNST 136 US(3); LER 400 IL(3); LER 403 IL(3) (Sem: 1-8)

LER 201 GS(3); LER 401(3) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS:** (9 credits)

Select 3 credits of LER courses. (LER courses that are used in the Additional Courses category may not be double-counted to satisfy this requirements. Some courses in this category have prerequisites that are not included in the major.)

Select 6 credits in consultation with adviser from the following list:

ACCTG 211(4), AF AM 100 GS:US(3), AF AM 110 GH:US(3), B A 243(4), CAS 203(3), CAS 352(3), ECON 342 GS(3), HIST 155 GH:US(3), H P A 460(3), HM 365 IL(3), HM 466 US(3), MGMT 100(3), MGMT 301(3), MGMT 321(3), MGMT 341(3), OLEAD 100 GS(3), OLEAD 409(3), SOC 103 US(3), SOC 110 GS:US(3), SOC 119 GS:US(4), or take any 400-level AF AM, CAS, ECON, HIST, LTNST, MGMT, PHIL, PSYCH, SPAN, SOC, WMNST course (Sem: 5-8)

## Mining Technology

*University College (2MNGT): Penn State Fayette*

The Associate of Science degree in Mining Technology blends basic sciences, mathematics, principles and practices of management, and applied courses in Mining Technology to prepare students for supervisory roles in the Mining industry. This major helps prepare students for either a production-oriented or a maintenance-oriented position in the mining industry. Graduates of this major, after serving the required apprenticeship, should be qualified to become certified managers in their field. All students complete a common core of classes, but must also choose to enroll in one of two emphases, Maintenance or Production.

The maintenance emphasis prepares students to become maintenance supervisors. Initially, graduates may work as apprentice electricians or mechanics to gain experience in repairs and planned maintenance. After certification is obtained, they may become involved with maintenance planning, working as or with the chief mine mechanic or chief mine electrician.

The production emphasis helps prepare students to become mine supervisors or engineering aides. Initially, some of the duties are to run transit and act as survey party chief, keep mine maps up to date and make projections, take samples and run analyses, make time studies, and assist with materials handling layouts.

For the Associate of Science degree in Mining Technology, a minimum of 67 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 21 credits

(12 of these 21 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 58- 59 credits

(This includes 12 credits of General Education courses; 6 credits of GWS courses; 3 credits of GN courses; 3 credits of GQ courses)

**PRESCRIBED COURSES:** (50 credits)

CMPSC 100(3), EDSGN 100(3), ENGL 015 GWS(3), GEOSC 020 GN(3), MATH 081 GQ(3), MATH 082 GQ(3), MNG 223(2), MNG T 030(2), MNG T 100(1)[\[1\]](#), MNG T 110(3), PHYS 150 GN(3) (Sem: 1-2)

CAS 100 GWS(3), MNG T 204(3)[\[1\]](#), MNG T 205W(3), MNG T 210(3), MNG T 211(3), MNG T 214(3), MNG T 216(3)[\[1\]](#) (Sem: 3-4)

**ADDITIONAL COURSES:** (8-9 credits)

Select 8-9 credits from one of the following two emphases:

a. Maintenance Emphasis: MNG T 207(3), MNG T 208(3), MNG T 209(2) (Sem: 3-4)

b. Production Emphasis: MNG T 202(3), MNG T 213(3), MNG T 215(3) ( Sem: 3-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Occupational Therapy

*Berks College (2OTBL)*

*University College (2OTCC): Penn State DuBois, Penn State Mont Alto, Penn State Shenango*

This major helps graduates prepare to be occupational therapy assistants who are qualified to be employed by agencies that provide occupational therapy and related services. The goal of occupational therapy is to enable the client to be as independent as possible in the daily performance of self-care, productive, and leisure occupations. General education, basic science, and occupational therapy courses are followed by supervised field experience. Upon successful graduation from the program, students must sit for and successfully pass the National Board for Certification in Occupational Therapy (NBCOT) national certification examination to practice. Most states also require licensure as a condition for employment. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination and obtain licensure. NBCOT may be contacted at NBCOT, 12 South Summit Avenue, Suite 100, Gaithersburg, MD 20877. 301-990-7979 or on the Web at [www.NBCOT.org](http://www.NBCOT.org).

To enter this major, students must have a high school diploma or its equivalent. To be admitted to degree candidacy, the applicant must have completed educational background requirements called Carnegie Units or Secondary School Units. Students are responsible for proof of liability insurance and other requirements specified by the facility providing supervised field experience.

The size of each entering class is limited so that optimal clinical experiences and practical application situations can be maintained. Students are expected to progress through the program in the prescribed manner. Fieldwork affiliations are maintained over a wide geographical area. Students may be required to make special housing and transportation arrangements during the fieldwork phase. Students must complete all Level II fieldwork within eighteen months of successful completion of OTA didactic course work. The 2OTCC and 2OTBL curricula are delivered in five semesters.

The Penn State Occupational Therapy program is fully accredited by ACOTE which can be reached at: Accreditation Council for Occupational Therapy Education, 4720 Montgomery Lane, Bethesda, MD 20814, 301-652-2682 or on the Web at [www.aota.org](http://www.aota.org).

For the Associate in Science degree in Occupational Therapy, a minimum of 69 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Plastics Engineering Technology

*Penn State Erie, The Behrend College (2PLET)*

This major is designed to help graduates prepare for careers as engineering technicians in the plastics industry. Graduates are qualified for positions requiring setting up and operating plastics processing equipment, troubleshooting processing problems, production line management, solids modeling and design, and technical service and support.

To be eligible for entrance to the Plastics Engineering Technology (PLTBD) major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed MATH 081 or MATH 026, AND MATH 082 or MATH 022, AND MATH 083 or MATH 140, and PHYS 250, and earned a grade of C or better in each of these courses.

The curriculum provides training in applied mathematics, physics, chemistry, fundamentals of the chemical and physical properties of plastics materials and their processing characteristics, quality control, solids modeling and engineering design principles, and technical communications. The processing component of the curriculum emphasizes injection molding.

Students will receive extensive hands-on experience in the college's state-of-the-art processing laboratory, learning the fundamental principles of operating equipment currently utilized in the plastics industry, including application of statistical methods and quality control. Students will also be trained in the use of solids modeling and fundamentals of plastic tooling and part design.

Graduates of this program may qualify for admission to the baccalaureate degree program in Plastics Engineering Technology offered at Penn State Erie, The Behrend College.

For the Associate in Engineering Technology degree in Plastics Engineering Technology, a minimum of 70 credits is required.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 21 credits

## Workforce Education and Development

*University Park, College of Education*

MARK THREETON, Assistant Professor  
Address: 301C Keller Building  
Email: MDT177@psu.edu  
Phone: 814 863 5361

WESLEY DONAHUE, Associate Professor  
Address: 411C Keller Building  
Email: WED105@psu.edu  
Phone: 814 865 7074

This is a 60 credit program, with many of the courses offered in multiple delivery formats to address the needs of the adult learner, such as a blend of face-to-face and online, delivery via video conference technologies such as Polycom or Adobe Connect, or totally online. It will provide a solid foundation of curriculum pertinent to gaining knowledge and skills required for success in the field of workforce education and development. It will allow the participant to develop the skills and competencies essential to analyzing community and/or organizational needs, recommend and deliver effective education and training programs for process and employee improvement, supervise and lead others, and manage workforce development projects and initiatives. It will also provide the opportunity to network with individuals who share many of the same interests and will enhance the participant's ability to address community and organization needs.

Optional requirements for the major: of the 16 credits of electives, up to 12 credits of occupational experience can be earned.

For a Associate in Science degree in Workforce Education and Development a minimum of 60 credits are required.

*Scheduling Recommendation by Semester Standing Given Like (Sem: 1-2)*

## Baccalaureate Degree Programs

The following definitions, referring to baccalaureate degrees, majors, options, minors, and concurrent or sequential majors programs, have been adopted by the University Faculty Senate:

**Baccalaureate Degree**--An award signifying a rank or level of educational attainment. Particular types of baccalaureate degrees identify educational programs having common objectives and requirements. Degree programs may provide academic, preprofessional, or professional experiences and preparation. Majors lead to a baccalaureate degree. Each student must select a major within a baccalaureate degree type. If options are offered within a major, a student selects one. The student may also elect to enroll in a minor to supplement the major. Alternatively, the student may seek to enroll in multiple majors within the same type of baccalaureate degree or to enroll in a simultaneous degree program. A baccalaureate program of study shall consist of no less than 120 credits. Students may elect to take courses beyond the minimum requirements of a degree program.

**Major**--A plan of study in a field of concentration within a type of baccalaureate degree. Colleges and other degree-granting units may have common requirements for all of their majors. Each major may have requirements identified in Prescribed, Additional, and Supporting Courses and Related Areas categories. Elective credits are not considered part of the major. (Senate Record: 1/23/90, Appendix IV)

**Option**--A specialization within a major that should involve at least one-third of the course work credits required for the major, but need not be more than 18 credits. All options within a major must have in common at least one-fourth of the required course work credits in the major. A student can only be enrolled in an option within his/her own major.

**Minor**--A minor is defined as an academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines, with at least 6 but ordinarily not more than half of the credits at the 400 course level. Total requirements are to be specified and generally limited to 18 to 21 credits. Entrance to some minors may require the completion of a number of prerequisites, including courses, portfolios, auditions, or other forms of documentation that are not included in the total requirements for the minor. All courses for a minor require a grade of C or above.

**Concurrent and Sequential Majors Programs**--At the baccalaureate or associate degree level, students may be approved for admission to more than one major under the Concurrent Majors program. A Concurrent Majors program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. Concurrent majors must all be at the baccalaureate or associate degree level. Under the Sequential Majors program, upon graduation from an associate or baccalaureate degree program, a student may apply for re-enrollment in another undergraduate degree program.

2/24/12

## Architectural Engineering

University Park, College of Engineering (A E)

PROFESSOR CHIMAY J. ANUMBA, Head, Department of Architectural Engineering

This major emphasizes the application of scientific and engineering principles to the planning, design, and construction of buildings and building systems. The goal of the program is to provide engineering graduates with the best education available for careers in the building professions. Graduates will have the ability to practice as registered professional engineers in a variety of areas, both public and private, related to the planning, design, construction, and operation of buildings and to assume a place of leadership in society.

Four options are available in the ten-semester major: the Construction option, which emphasizes building construction engineering and construction management; the Lighting/Electrical option, which emphasizes the design of lighting and electrical systems for buildings; the Mechanical option, which emphasizes the design of heating, ventilating and air-conditioning systems in buildings; and the Structural option, which emphasizes the analysis and design of building structural systems. Courses in architectural design are included in all options to give the engineering student an understanding of architectural design and its relation to engineering. Courses in engineering design are provided throughout the program. The design experience is culminated in a year-long capstone design course.

A limited number of undergraduate students in the B.A.E. program will be considered for admission to one of two integrated undergraduate-graduate degree programs. The first leads to the student earning both the B.A.E. and M.A.E. degrees and involves a graduate-level component in the capstone senior project. The second provides the student with the opportunity to earn both the B.A.E. and M.S. degrees and involves a research-oriented thesis in addition to the capstone undergraduate senior project. Students who are currently enrolled in the 7th semester of the B.A.E. degree program may apply to one of the two integrated programs and will be admitted following a positive review by the faculty committee on graduate admissions. To be considered for admission to either program, students must have attained a GPA of at least 3.0 and a grade of C or better in all classes listed as AE. A commitment from an AE graduate faculty member to serve as the student's M.S. thesis adviser is necessary for admission to the B.A.E./M.S. program. Students admitted to an integrated program must maintain a GPA in all classes used toward the M.A.E. or M.S. degree of at least 3.0. Students must complete a minimum of 172 credits for both the integrated B.A.E./M.A.E. and B.A.E./M.S. degree programs, 18 of which must be at the graduate level (500, 600 or 800-level). For the B.A.E./M.A.E. degree program, all of graduate credits are course credits. For the B.A.E./M.S. degree program, a thesis is required and six credits of thesis research (600 or 610) must be included in the candidate's academic course plan.

The professional degree, Bachelor of Architectural Engineering, is granted upon the satisfactory completion of the five-year program.

### Program Educational Objectives:

The undergraduate program in Architectural Engineering is designed to produce graduates who will be:

- Engaged in a professional career in the building industry.
- Qualified and competent to sit for the professional engineering exam.
- Capable of meeting the challenges of the engineering work environment and assuming leadership responsibilities.
- Capable of solving design and project related problems based on sound engineering principles as demanded by their work.
- Successful in conducting multi-disciplinary/inter-disciplinary interactions as required by their work.
- Engaged in service activities in the public and professional realms.

### Program Outcomes (Student Outcomes):

The expected educational outcomes:

- (a) an ability to apply knowledge of mathematics, science, and engineering
- (b) an ability to design and conduct experiments, as well as to analyze and interpret data
- (c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- (d) an ability to function on multidisciplinary teams
- (e) an ability to identify, formulate, and solve engineering problems
- (f) an understanding of professional and ethical responsibility
- (g) an ability to communicate effectively
- (h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (i) recognition of the need for, and an ability to engage in life-long learning
- (j) a knowledge of contemporary issues
- (k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
- (l) a proficiency in mathematics through differential equations, probability and statistics, calculus based physics, and general chemistry
- (m) proficiency in statics, strength of materials, thermodynamics, fluid mechanics, electric circuits, and engineering economics
- (n) proficiency in a minimum of three (3) of the four (4) basic curriculum areas of structures, building mechanical and electrical systems, and construction/construction management
- (o) Engineering design capabilities in at least two (2) of the three (3) basic curriculum areas of architectural engineering, and that design has been integrated across the breadth of the program
- (p) An understanding of architectural design and history leading to architectural design that will permit communication, and interaction, with other design professionals in the execution of building projects

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHSY 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.A.E. degree in Architectural Engineering, a minimum of 160 credits is required. This baccalaureate program in Architectural Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

For the integrated B.A.E./M.A.E. degrees, a minimum of 172 credits of course work is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits  
(33 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

## Art Education

University Park, College of Arts and Architecture (A ED)

PROFESSOR GRAEME SULLIVAN, *Director, School of Visual Arts*

The purpose of the Art Education program is to prepare knowledgeable, skilled, and caring professional educators to become critical, reflective practitioners, researchers and artists, and agents of change for social justice in diverse contexts of educational practice; generate and disseminate knowledge that leads to new pedagogical understandings on which more effective policies and practices can be grounded; and collaborate across disciplines, professions, and constituencies to promote social change that leads to educational improvement and transformation. An integral part of the program involves a variety of observational and participatory experiences in art learning environments, and an extensive pre-practice internship. Upon completion of the degree, employment prospects and/or acceptance for advanced graduate studies depends upon individual achievement and qualifications. (See also [Teacher Education Programs](#).)

All candidates seeking entrance to Art Education for Schools option must meet the following entrance to major criteria:

1. Minimum 3.00 cumulative GPA and at least 48 credits completed (at the time of application).
2. Satisfaction of any basic-skills or entrance testing requirements as specified by the Pennsylvania Department of Education in force at the time of application for entrance to the major.
3. Complete 6 credits in Quantification (GQ)
4. Complete ENGL 015 or 030
5. Complete 3 credits in literature (GH) (C or higher required)
6. Complete early field experience: A ED 101S (C or higher required)
7. Complete education foundation courses: EDPSY 014, PSYCH 100 (C or higher required)
8. Complete art education foundation courses: A ED 201W, 211, 212 (C or higher required)
9. Complete art studio & art history foundations: ART 110, 111, 122Y, ART H 111, 112 (C or higher required)
10. Complete and document a minimum of 80 hours of paid or volunteer work with age appropriate population. At least 40 of these age-appropriate 80 hours would be satisfied by working with "under-represented" learners whose cultural, social, or ethnic backgrounds differ from the candidate's own.

For the B.S. degree in Art Education a minimum of 134 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12-15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 104 credits

(This includes 12-15 credits of General Education courses 6 credits of GA courses; 3 credits of GS courses; 3-6 credits of GH courses.)

**PRESCRIBED COURSES** (57 credits) [\[1\]](#)

A ED 101S(3), ART 011S(1), ART 110(3), ART 111(3), ART 122Y(3), ART H 111 GA;IL(3), EDPSY 014(3), PSYCH 100 GS(3) (Sem: 1-2)

## African and African American Studies

University Park, College of the Liberal Arts (AASBA)

PROFESSOR IKUBOLAJEH LOGAN, *Interim Head*

This interdisciplinary major is designed to give students an integrated and critical understanding of the experiences and contributions of peoples of African descent. Students are encouraged to do research and evaluate the relationship between the political, social, and economic developments in Africa and the African Diaspora. Two options are available within the major and are described here.

### AFRICAN AMERICAN STUDIES OPTION:

This option provides students with the opportunity to explore the experiences of African Americans using theories and methods originating in the field along with those adopted from the various disciplines. Students are also made aware of the potential to apply knowledge to discern better approaches for solving social, political, and economic problems. The curriculum also promotes greater understanding of the relationship between African American and other ethnic groups in the shaping of American society and culture.

**Focus Areas:** The African American Studies Option has three focus areas, which are described below.

1. **History Perspective:** While stressing the interdisciplinary nature of the field, this focus allows students to concentrate on the historical experience of the African Americans, including their political, social, and economic relations with other ethnic groups, as well as the shifting historical contexts in which they have contested and shaped the evolution of American society.
2. **Social Sciences and Community Development:** This focus area allows students to concentrate on contemporary political and economic experiences of African Americans as well as on public policy issues that pertain to the economic, political, and social engagement of African Americans in the search for equality in American society.
3. **Cultural and Gender Perspective:** This focus area allows students to concentrate on culture and gender in historical and contemporary terms.

### AFRICAN STUDIES OPTION:

This option provides students with the opportunity to examine the geographical, cultural, historical, political, and economic aspects of Africa. This option has two focus areas as described below.

1. **Humanities Perspective:** This focus area enables students to concentrate on the history and culture of African societies and the evolution of Africa in world history.
2. **Social Science Perspective:** This focus area enables students to concentrate on political and economic developments, including state building and ethnic relations, development strategies, and Africa's position in the global system.

### LAW AND SOCIAL JUSTICE OPTION:

This multi-disciplinary program would provide students with the opportunity to study the politics, culture, economics, and history of African Americans in our society and link this understanding with an in depth study of criminal justice and the legal system. Issues that students will focus on will be areas such as, Are African Americans discriminated against in criminal justice decision-making? What is the historic connection between race and punishment in the US legal system? How do issues of class, race and gender impact policy decisions about crime and punishment? What is the socioeconomic impact of high incarceration rates on the African American community? The program is designed to encourage students to think systematically about the relationship among public policy, the criminal justice system, and shifting notions of social justice that have characterized debates over the workings and goals of the prison system in American life and thought.

For the B.A. degree in African and African American Studies, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(0-9 credits of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### ELECTIVES: 9-18 credits

### BACHELOR OF ARTS DEGREE REQUIREMENTS: 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR: 45 credits<sup>[1]</sup>

(This includes 0-9 credits of General Education courses: African American Studies Option -- 0-3 credits of GA courses; 0-3 credits of GH courses; 0-3 credits of GS courses. African Studies Option -- 0-3 credits of GH courses; 0-3 credits of GS courses. Law and Social Justice Option -- 0-3 credits of GS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 12 credits

#### PRESCRIBED COURSES (12 credits)

AAA S 110 GS;IL(3), AF AM 100 GS;US(3), AF AM/HIST 211 GH;US;IL(3), SOC 207(3) (Sem: 1-4)

### REQUIREMENTS FOR THE OPTION: 33 credits

#### AFRICAN AMERICAN STUDIES OPTION: (33 credits)

#### PRESCRIBED COURSES (9 credits)

AAA S/WMNST 101 GH;US(3), AAA S/SOC/WMNST 103 US(3) (Sem: 1-4)  
AAA S 401(3) (Sem: 5-8)

#### ADDITIONAL COURSES (24 credits)

Select 24 credits from one of the following three areas of concentration.

A minimum of 12 credits should be AAA S courses, and at least 12 of these credits must be at the 400 level or above.

#### 1. History Perspective:

AAA S/RL ST 147 GH;US(3), AF AM/RL ST 146 GH;US(3), AF AM/HIST 210 GH;US(3), SOC 119 GS;US(4) (Sem: 1-4)

- AAA S/SOC 409 US(3), AAA S 431 US;IL(3), AAA S/HIST 465 US(3), ENGL 461 US(3), ENGL 469 US(3), HIST 152 GH;US;IL(3), PL SC 474(3) (Sem: 5-8)
2. **Social Sciences and Community Development:**  
 AF AM/WMNST 102 GH;IL(3), AF AM/RL ST 146 GH;US(3), AAA S/RL ST 147 GH;US(3), AF AM/HIST 210 GH;US(3), SOC 119 GS;US(4) (Sem: 1-4)  
 CRIMJ 451 US(3), AF AM/SOC 409 US(3), AF AM 431 US;IL(3), AF AM/HIST 465 US(3), ECON 304 GS(3), ECON 436W US(3), EDTHP 411(3), PL SC 490(3)  
 (Sem: 5-8)
3. **Cultural and Gender Perspective:**  
 AF AM/WMNST 102 GH;IL(3), AF AM/RL ST 145 GH;US;IL(3), AAA S/THEA 208 GA;US;IL(3), COMM/WMNST 205 US(3), ENGL 139 GH;US(3), ENGL 235 US;IL(3), MUSIC 007 GA;US(3), SOC 119 GS;US(4) (Sem: 1-4)  
 AAA S/THEA 412 US;IL(3), AF AM/WMNST 410(3), AF AM/CAS 422 US(3), COMM 411(3), EDTHP 411(3), ENGL/WMNST 462 US(3), ENGL 463 US(3), ENGL 467 US(3), ENGL 469 US(3) (Sem: 5-8)

**AFRICAN STUDIES OPTION:** (33 credits)**PRESCRIBED COURSES** (12 credits)

AFR/HIST 191 GH;IL(3), AFR/HIST 192 GH;IL(3) (Sem: 1-4)

AAA S 400(3), AFR/PL SC 454 IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (21 credits)

Select 21 credits from one of the following two areas of concentration.

*A minimum of 12 credits should be AAA S courses, and at least 12 of these credits must be at the 400 level or above.*1. **Humanities Perspective:**

AFR 202 GS;IL(3), CMLIT 003 GH;IL(3), SWA 001(4), SWA 002(4) (Sem: 1-4)

AAA S 404(3), AF AM 431US;IL(3), AF AM/HIST 465 US(3), ANTH 447 IL(3), CMLIT 422 IL(3), CMLIT 423 IL(3), FR 458 IL(3), HIST 479 IL(3), R SOC/WMNST 420 US;IL(3) (Sem: 5-8)

2. **Social Science Perspective:**

AAA S 202 GS;IL(3), SWA 001(4), SWA 002(4) (Sem: 1-4)

AAA S 404(3), AF AM 431US;IL(3), AF AM/HIST 465 US(3), AFR 403(3), ECON 304 GS(3), ECON 471(3), GEOG 444(3), PL SC 453 IL(3) (Sem: 5-8)

**LAW AND SOCIAL JUSTICE OPTION:** (33 credits)**PRESCRIBED COURSES** (18 credits)

AF AM/HIST 210 GH;US(3), CRIMJ/CRIM/SOC 012 GS(3), CRIM 100(3), CRIMJ/CRIM 113(3) (Sem: 1-4)

AF AM 401(3), CRIM 451 US(3) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)

AFR 440 US;IL(3), AF AM/LER/PL SC 445Y, AF AM/HIST 431 US;IL(3), AF AM/SOC 409 US(3), AF AM 465 US(3), CRIM 430(3), CRIM 433(3), CRIM 435(3), CRIM 441(3), CRIMJ/WMNST 453 US(3), CRIM/SOC 467(3), CRIM 490(3), ECON 436W US(3) (Sem: 5-8)

## African and African American Studies

*University Park, College of the Liberal Arts (AASBS)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR IKUBOLAJEH LOGAN, *Interim Head*

This interdisciplinary major is designed to give students an integrated and critical understanding of the experiences and contributions of peoples of African descent. Students are encouraged to do research and evaluate the relationship between the political, social, and economic developments in Africa and the African Diaspora. An African American Studies Option, African Studies Option, and a Law and Social Justice Option are available within the major. The methodology requirements of the proposed program would enable our students to engage in social science research. It would also prepare them better for graduate programs in the social sciences.

**AFRICAN AMERICAN STUDIES OPTION:** This emphasis provides students with the opportunity to explore the experiences of African Americans using theories and methods originating in the field along with those adopted from the various disciplines. Students are also made aware of the potential to apply this knowledge to the solution of social, political, and economic problems. The curriculum also promotes greater understanding of the relationship between African American and other ethnic groups in the shaping of American society and culture.

**AFRICAN STUDIES OPTION:** This option provides students with the opportunity to examine the geographical, cultural, historical, political, and economic aspects of Africa.

**LAW AND SOCIAL JUSTICE OPTION:** This multi-disciplinary program would provide students with the opportunity to study the politics, culture, economics, and history of African Americans in our society and link this understanding with an in depth study of criminal justice and the legal system. Issues that students will focus on will be areas such as, Are African Americans discriminated against in criminal justice decision-making? What is the historic connection between race and punishment in the US legal system? How do issues of class, race, and gender impact policy decisions about crime and punishment? What is the socioeconomic impact of high incarceration rates on the African American community? The program is designed to encourage students to think systematically about the relationship among public policy, the criminal justice system, and shifting notions of social justice that have characterized debates over the workings and goals of the prison system in American life and thought. The proposed program would enable us to foster a cadre of students who will be particularly suited to pursue graduate work in the area.

For the B.S. degree in African and African American Studies, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 Credits  
(4-10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in the this bulletin )

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

## Accounting

Penn State Abington (ACCAB)  
 Penn State Berks (ACCBL)  
 Capital College (ACCT)  
 World Campus

JANE KOCHANOV, *Director of Undergraduate Studies, School of Business Administration*

This major helps students prepare for careers in auditing and public accounting, industrial and managerial accounting, and in governmental and not-for-profit accounting. It also provides a sound background for students who plan to pursue graduate studies in accounting or related fields. Students who complete the prescribed courses and earn a Bachelor of Science degree will satisfy the academic requirements to sit for the Certified Public Accountant (CPA) examination. Graduates may also elect to pursue other professional certifications, including Certified Management Accountant (CMA), Certified Internal Auditor (CIA), Certified Fraud Examiner (CFE), and Certified Government Financial Manager (CGFM).

For a B.S. in Accounting a minimum of 120 credits is required. Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed in the respective College to earn the degree. No more than 60 credits should be from business and business-related courses.

Students wishing to fulfill the 150 credit-hour education option to become a CPA in Pennsylvania (which reduces the experience requirement for certification) are encouraged to enter Capital College's Master of Professional Accounting program, or the Master of Business Administration program, or the Master of Science in Information Systems program subsequent to receiving their undergraduate accounting degree.

### Entry to Major Requirements:

Entry to the Accounting major requires the completion of 8 entry-to-major courses: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); ENGL 015 GWS(3)[\[1\]](#) or ENGL 030 GWS(3) [\[1\]](#); FIN 301(3); MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); MGMT 301(3); MKTG 301(3); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#); and a 2.00 or higher cumulative grade-point average.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education Course Requirements in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 8 credits of non-business courses

### REQUIREMENTS FOR THE MAJOR: 79 credits

(This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses)

### PRESCRIBED COURSES (55 credits)

ACCTG 211(4)[\[1\]](#) (Sem: 1-4)  
 ECON 102 GS(3) (Sem: 1-4)  
 ENGL 202D GWS(3) (Sem: 1-4)  
 FIN 301(3), MKTG 301(3), MGMT 301(3) (Sem: 1-4)  
 B A 364Y US:IL(3), B A 462(3)[\[1\]](#), MIS 390(3), SCM 301(3) (Sem: 5-8)  
 ECON 104 GS(3), MIS 204(3) (Sem: 5-8)  
 ACCTG 310(3)[\[1\]](#), ACCTG 340(3)[\[1\]](#), ACCTG 403(3)[\[1\]](#), ACCTG 471(3)[\[1\]](#), ACCTG 472(3)[\[1\]](#), ACCTG 473(3)[\[1\]](#) (Sem: 5-8)

### ADDITIONAL COURSES (18 credits)

Select 4 credits from MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-4)  
 Select 4 credits from SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#) (Sem: 1-4)  
 B A 243(4) or B A 241(2) and B A 242(2) (Sem: 5-6)  
 Select 6 credits[\[1\]](#) from the following: ACCTG 410(3), ACCTG 431(3), ACCTG 432(3), ACCTG 440(3), ACCTG 461 IL(3), ACCTG 462(3), ACCTG 463(3), ACCTG 489(3), ACCTG 494(1-12), ACCTG 496(1-18), ACCTG 497(1-9) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits from 200-400 level business courses from: ACCTG, B A, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests. (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Accounting

University Park, Smeal College of Business (ACCTG)

PROFESSOR STEVEN HUDDART, *Chair of the Department of Accounting*

This major prepares students for careers in public, corporate, not-for-profit, and governmental accounting and also provides an appropriate background for those planning to enter law school or graduate school. Accountants develop and interpret historical and prospective financial data required for decision-making by managers, investors, regulators, and other stakeholders. To perform their functions, accountants must synthesize both numerical and qualitative information, communicate it clearly, and function effectively as individuals and in teams. The field of Accounting is diverse and offers students the opportunity to be generalists or concentrate in one of the following:

**Corporate Control & Financial Management** - Courses in this concentration prepare students for positions in industry, government, and business advisory services doing financial planning, analysis, control, and decision support. Students can obtain such designations as *Certified Management Accountant (CMA)*. Management accountants provide forecasts, compute costs and benefits, perform variance analysis, and review and monitor performance. Managerial accountants also design systems that provide information to decision makers.

**Internal Auditing & Assessment** - Courses in this concentration prepare students for positions in industry and government as internal auditors. Students can obtain such designations as *Certified Internal Auditor (CIA)*. Internal auditors are employed by the organization they audit. Internal auditing is a systematic approach to evaluating and improving the effectiveness of risk management, control, and governance processes. Internal auditors also review compliance with standards and assess the organization's risks.

**Public Accounting** - Public accounting is carried on by independent practitioners, most of whom are Certified Public Accountants (CPAs). In addition to statutory audits, CPAs render other assurance, tax, and management advisory services. To be licensed as a CPA in nearly every state, including Pennsylvania, individuals must complete 150 credit-hours of education, pass a demanding professional examination, and meet certain experience requirements. One way to accomplish this is to enroll in the Integrated B.S. in Accounting and Master of Accounting Program.

**Entrance Requirement:** To be eligible for entrance into the Accounting (ACCTG) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

### Specific entrance requirements include:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4) [\[1\]](#); ECON 102 GS(3); SCM 200 GQ(4) [\[1\]](#) or STAT 200 GQ(4) [\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4) [\[1\]](#) or MATH 140 GQ(4) [\[1\]](#); FIN 301(3) [\[1\]](#); MGMT 301(3) [\[1\]](#); and MKTG 301(3) [\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu/>).

For the B.S. degree in Accounting, a minimum of 120 credits is required with at least 15 credits at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 11 credits

**REQUIREMENTS FOR THE MAJOR:** 76 credits  
(This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses)

**PRESCRIBED COURSES** (52 credits)  
ACCTG 211(4) [\[1\]](#), ECON 102 GS(3), FIN 301(3) [\[1\]](#), MGMT 301(3) [\[1\]](#), MKTG 301(3) [\[1\]](#) (Sem: 1-4)  
B A 342(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3) [\[1\]](#), MIS 204(3), SCM 301(3), (Sem: 5-6)  
ACCTG 403W(3), ACCTG 404(3), ACCTG 405(3) [\[1\]](#), ACCTG 471(3) [\[1\]](#), ACCTG 472(3) [\[1\]](#), B A 411(3) (Sem: 5-8)

**ADDITIONAL COURSES** (14 credits)  
MATH 110 GQ(4) [\[1\]](#) or MATH 140 GQ(4) [\[1\]](#) (Sem: 1-2)  
SCM 200 GQ(4) [\[1\]](#) or STAT 200 GQ(4) [\[1\]](#) (Sem: 1-2)  
Select 6 credits from the following: ACCTG 406(3), ACCTG 440(3), ACCTG 473(3), ACCTG 481(3), ACCTG 483(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)  
Select 4 credits: Attainment of 12th credit level proficiency in a single foreign language. Proficiency must be demonstrated by either examination or course work. (Sem: 1-4)  
Select 6 credits of supporting coursework. See Department List. (Sem: 5-8)

### Integrated B.S. in Accounting and Masters in Accounting Program

The Department of Accounting offers an integrated program allowing students to receive a B.S. in Accounting and Master of Accounting (M.Acc.) degrees within a five-year period. Students typically are admitted into the integrated program in the spring of the second year of the undergraduate program and the program is completed in the subsequent three years. The program is designed to meet the educational requirements for becoming a certified public accountant in Pennsylvania as well as most other states. Certified public accountants conduct independent audits and provide accounting, tax, and management advisory services. The program prepares students to enter into careers in public accounting, corporate accounting, management accounting, governmental accounting, financial analysis, and law enforcement. In addition, the program is appropriate for students having an interest in entering law school and graduate programs in business, such as M.B.A. programs or doctoral programs.

#### Admissions Requirements

Students will generally apply for the program in the spring of their second year of undergraduate study. To apply for the program students must:

(1) be enrolled in the Smeal College of Business or Division of Undergraduate Studies and intend to complete the entrance-to-major requirements by the end of the spring semester in which they apply  
and

(2) complete a Graduate School application for graduate study.

Although the program has no fixed minimum grade-point requirement, an applicant is generally expected to have grade-point average of at least 3.20 on

Penn State's grading scale of A (4.00) to D (1.00).

In addition, the Department may request an interview with an applicant, or require a GMAT exam or other exam. Admissions decisions will be based upon the student's application, undergraduate record, SAT scores and, if applicable, interviews and examination results.

Admitted students must have completed ACCTG 211 with superior performance by the end of the spring semester in which they apply for admission to the program. A student who has not satisfied this requirement by the admissions deadline may be provisionally admitted pending completion of ACCTG 211 with a superior performance.

#### **Degree Requirements**

Students must complete the requirements for a B.S. in accounting with the following alterations:

Some of prescribed courses for the B.S. must be taken in sections that are available only to students enrolled in the program. These prescribed courses, which all count toward the undergraduate degree in accounting, are: ACCTG 403W, ACCTG 404, ACCTG 405, ACCTG 471, and ACCTG 472.

The student need not satisfy the requirement that 6 credit hours be completed from the following list of courses: ACCTG 406, ACCTG 432, ACCTG 473, and ACCTG 481.

The following courses cannot be used to satisfy the degree requirements of the integrated program: ACCTG 406, ACCTG 410, ACCTG 411, ACCTG 422, ACCTG 450, ACCTG 473, and ACCTG 481.

Students must complete the Master of Accounting Requirements, which total 30 credit hours of graduate instruction, in addition to completing 120 credit hours of undergraduate instruction.

The following courses, totaling 9 credit hours, will double-count towards both the B.S. and Master of Accounting degrees: B LAW 444(3), FIN 531(3), and ACCTG 881(3).

Students must complete a minimum of 30 credits hours of graduate instruction over and above the 120 credit hours required of the B.S. degree in accounting. All 30 of these credit hours must be earned in 400-level, 500-level, or 800-level courses. At least 18 of the 30 credit hours must be earned in 500-level and 800-level courses, and at least 6 of the 30 credit hours must be earned in 500-level courses.

Students must complete the following required courses as part of the 30 credit hours of graduate instruction: ACCTG 432(3), ACCTG 440(3), ACCTG 803(3), ACCTG 806(3), ACCTG 873(3), ACCTG 881(3), B A 517(3), B LAW 444(3), FIN 531(3).

These courses must be taken in sections that are available only to students enrolled in the integrated program. Note that these required courses satisfy 27 of the 30 credit hour minimum. In addition, after completing these courses, the student will have satisfied the requirement that 18 credit hours must be earned in 500-level or 800-level courses and the requirement that 6 credit hours must be earned in 500-level courses.

Student must have satisfactory academic performance to maintain enrollment in the program. A grade point average of 3.0 in the 30 credit hours of graduate instruction is required to receive the master's degree.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Accounting

*Penn State Erie, The Behrend College (ACNTG)*

The Accounting major provides an opportunity to pursue a unique program that integrates knowledge and skill in accounting and information management. It helps prepare students for positions in public accounting firms, corporations, and government, where accounting skills are essential. In addition, the accounting major provides the necessary academic training for students interested in administrative responsibilities in the area of accounting.

### Entrance to Major Requirements:

Entry to the Accounting major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Accounting, a minimum of 120 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 1 credit

### REQUIREMENTS FOR THE MAJOR: 89 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (56 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3) (Sem: 3-4)

FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3), SCM 301(3)[1] (Sem: 3-6)

ACCTG 310(3)[1], ACCTG 312(3)[1], ACCTG 371(4)[1], ACCTG 472(3)[1] (Sem: 5-6)

ACCTG 340(3)[1], ACCTG 403(3)[1], ACCTG 422(3)[1], ACCTG 450(3)[1], MGMT 471W(3)[1] (Sem: 7-8)

### ADDITIONAL COURSES (21 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)

Select 3 credits from ECON 470(3), ECON 473 IL(3)[1], FIN 471 (3)[1], MGMT 461 IL(3)[1], MKTG 445(3)[1], or other 400-level international business course (Sem: 5-8)

Select 6 credits from ACCTG 410(3)[1], ACCTG 411(3)[1], ACCTG 440(3)[1], ACCTG 495(1-18)[1], B LAW 444(3)[1], or other 300- to 400-level courses either within the major or from other business areas (see School list of approved courses) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits from the approved electives course list for the major. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Advertising/Public Relations

*University Park, College of Communications (AD PR)  
World Campus, Strategic Communications option only*

PROFESSOR ROBERT A. BAUKUS, *Head, Department of Advertising/Public Relations*

This major is designed to provide a balance of theory, research, and practice. The course sequence provides professional skills courses in conjunction with applied theory and critical evaluative courses. Students develop an understanding of the role and effect of advertising and public relations within the business, social, and political arenas. Students develop abilities and skills that prepare them for a wide range of professional opportunities that include: media planning and relations, research, client services. Analytical abilities are equally stressed throughout the curriculum. Critical thinking skills, creative problem-solving, and the need to justify decisions are developed. Theory and practice from a wide range of disciplines including business, behavioral sciences, and applied statistics are used to equip the students to make informed decisions in a dynamic environment.

**ADVERTISING OPTION:** All courses in the advertising major emphasize the critical importance of integrated communication. The objective of the curriculum is to prepare students for entry-level opportunities in the advertising profession and to prepare for eventual managerial roles where an understanding of integrated communication concepts is essential.

The program reflects an integrated marketing communications approach to the design implementation and evaluation of advertising messages. In addition to mastering the core professional courses, students are expected to have an understanding of the convergence of mass communication theory and practice and are encouraged to select from courses in communication theory, communication law, mass media history, ethics, and the impact of advertising and public relations on society.

**PUBLIC RELATIONS OPTION:** The public relations curriculum prepares students for the challenges of public relations practice in a highly competitive, technological, multicultural, and global environment. In their course of study, students study the role and function of public relations in building cooperative mutually beneficial relations between organizations and their constituent publics through understanding, credibility, and trust.

Students complete a core set of courses that includes news writing, introduction to public relations, public relations methods, mass communication research, and public relations problems (campaigns).

Because of the critical importance of journalistic writing skills and an understanding of news media ethics, public relations majors are encouraged to take additional journalism courses to fulfill their communication electives.

Advertising and public relations students are encouraged to choose a minor from outside the College of Communications. The majority of majors select minors in business, English, sociology, psychology, political science, information systems and statistical analysis, foreign language, and speech communication.

**STRATEGIC COMMUNICATIONS OPTION:** This online program is designed to be only available to World Campus students.

Strategic communications refer to a group of techniques used to design, implement, and evaluate the impact of messages on selected groups of people. The goal is to find solutions to complex advertising and public relations problems in the corporate, non-profit, and government sectors at both the domestic and international level.

The Strategic Communications online option explores the theories, methods, and tools used to structure persuasive messages. The option includes an overview of strategic communications principles and concepts that sets the stage for more advanced studies. Students learn about research and analytic techniques used to design and implement effective communication campaigns that are delivered via traditional and new media options. The use of digital technology and social media is emphasized. The program examines the dynamics of the political, legal, social, cultural environments that interact to define a communication task or problem. Students also learn techniques to benchmark and evaluate the effectiveness of strategic communications programs and understand how they apply to internal and external constituencies. Students studying strategic communications will refine their critical thinking skills and explore the nature and source of the information message content, medium of delivery, and the evaluation of the impact of the message on targeted groups.

An important aspect of the program is the examination of the ethical implications of strategic communication practices used in the marketing, advertising and public relations arena. Students will develop a framework that will help them to understand and evaluate supporters and critics of strategic communications practices.

*Students must select at least 80 credits in courses outside the College of Communications, including at least 65 in the liberal arts and sciences.*

For the B.A. degree in Advertising/Public Relations, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

## Agricultural and Extension Education

University Park, College of Agricultural Sciences (AEE)

PROFESSOR JOHN C. EWING, Program Coordinator

This major helps prepare students for positions in education in agriculture, including schools and colleges, Cooperative Extension, business, trade and professional associations, and government agencies. The Department administers a program approved by the Pennsylvania Department of Education for the preparation of agriculture teachers in public school systems. This includes programs in agricultural production, mechanics, supplies, resources, products, forestry, horticulture, and other agricultural areas.

Students take courses in agricultural and natural resource sciences, leadership and communications, natural science, social science and general education. Students seeking teacher certification schedule professional courses in education and psychology.

Pennsylvania Teacher certification regulations require students to have a GPA of 3.0; satisfactorily complete any basic-skills or entrance testing requirements as specified by the Pennsylvania Department of Education in force at the time of application for entrance to the major; and complete an approved Educator Preparation Program. The Educator Preparation Program at Penn State includes documentation of at least 80 hours of volunteer or paid education work experience with learners of the age group the candidate plans to teach. At least 40 of these age-appropriate 80 hours must be with learners whose cultural, social, or ethnic backgrounds differ from the candidate's own; completion of an early field experience specified by the certification program; completion of at least 48 semester credit hours, including ENGL 015 or ENGL 030, 3 credits of literature, and 6 credits of quantification and secure occupational experience in the requested area of certification. (See also: [Teacher Education Programs](#))

For students seeking teacher certification, the B.S. degree in Agricultural and Extension Education, a minimum of 125-129 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(13-22 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin for additional information)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 2-14 credits

**REQUIREMENTS FOR THE MAJOR:** 76-104 credits

(This includes 13-22 credits of General Education courses: 22 for the teacher certification options--6 credits of GS courses; 9 credits of GN courses; 4 credits of GQ courses; 3 credits of GWS courses; and 13 credits for the non-teacher certification option--6 credits of GS courses; 4 credits of GN courses; 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 19 credits

**PRESCRIBED COURSES** (19 credits)

AG BM 101 GS(3), BIOL 110 GN(4), ENGL 202C GWS(3) (Sem: 3-4)

AEE 311(3), INTAG 100 GS;IL(3) (Sem: 5-6)

AEE 495(3) (Sem: 7-8)

**REQUIREMENTS FOR THE OPTION:** 57-85 credits

**ENVIRONMENTAL SCIENCE OPTION:** (85 credits)

**PRESCRIBED COURSES** (48 credits)

AGRO 028(3), AN SC 201(4), ASTRO 001 GN(3), CHEM 101 GN(3), CHEM 202(3), PHYS 001 GN(3) (Sem: 1-2)

EDPSY 014(3) [\[1\]](#), EDTHP 115 US(3) [\[1\]](#), WF ED 413(3) (Sem: 2-7)

AEE 100(3), AEE 295(1) [\[1\]](#), SOILS 101 GN(3), STAT 200 GQ(4) (Sem: 3-4)

AEE 313(2) [\[1\]](#), AEE 412(4) [\[1\]](#), AEE 413(3) [\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (7 credits)

BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4) (Sem: 2-7)

A S M 101(3) or A S M 217(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (30 credits)

Select 3 credits of W courses offered in the College (Sem:1-7)

Select 6 credits in biological, physical ecosystems (Sem: 1-7)

Select 6 credits in environmental impact management (Sem: 1-7)

Select 6 credits in environmental learning (Sem: 1-7)

Select 6 credits in social, political, and legal aspects of environmental science (Sem: 1-7)

Select 3 credits in agricultural systems management (Sem: 3-4)

**PRODUCTION OPTION:** (80 credits)

**PRESCRIBED COURSES** (41 credits)

ASTRO 001 GN(3), CHEM 101 GN(3), CHEM 202(3), PHYS 001 GN(3) (Sem: 1-2)

AEE 100(3), AEE 295(1) [\[1\]](#), STAT 200 GQ(4) (Sem: 3-4)

EDPSY 014(3) [\[1\]](#), EDTHP 115(3) [\[1\]](#), SOILS 101 GN(3), WF ED 413(3) (Sem: 2-7)

AEE 313(2) [\[1\]](#), AEE 412(4) [\[1\]](#), AEE 413(3) [\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (4 credits)

BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4) (Sem: 2-7)

**SUPPORTING COURSES AND RELATED AREAS** (35 credits)

Select 3 credits of W courses offered in the College (Sem:1-7)

Select 14 credits in agriculture (Sem: 1-7)

Select 6 credits in animal science (Sem: 1-7)

Select 6 credits in plant/soil science (Sem: 1-7)

Select 6 credits in agricultural systems management (Sem: 3-6)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

Review Date: 02/24/2015

R & T: 01/14/2014

## Aerospace Engineering

University Park, College of Engineering (AERSP)

PROFESSOR GEORGE A. LESIEUTRE, Head, Department of Aerospace Engineering

This major emphasizes the analysis, design, and operation of aircraft and spacecraft. Students learn the theories and practices in the fundamental subjects of aeronautics, astronautics, aerodynamics and fluid dynamics, aerospace materials and structures, dynamics and automatic control, aircraft stability and control and/or orbital and attitude dynamics and control, air-breathing and rocket propulsion, aircraft systems design and /or spacecraft systems design. All of these place significant weight on the development and use of teamwork and communications skills for effective problem-solving. Graduates in aerospace engineering find employment in the customary settings such as government laboratories, large and small aerospace firms, and in nontraditional positions that also require the use of systems-engineering approaches to problem-solving; they can also pursue graduate study in aerospace engineering and related fields.

### Program Educational Objectives:

Two to three years after obtaining a B.S. in aerospace engineering, graduates will be

1. employed in the customary settings such as government laboratories, large and small aerospace firms, and nontraditional positions that also require the use of systems engineering approaches to problems-solving, or
2. pursuing graduate study in aerospace engineering and related fields.

### Program Outcomes (Student Outcomes)

The undergraduate program will provide students with the

- a.) ability to apply knowledge of mathematics, science and engineering to foundational subjects of aerospace engineering (aeronautics, astronautics, aerodynamics and fluid dynamics, aerospace materials and structures, dynamics and automatic control, stability and control of aircraft and/or spacecraft, air-breathing and rocket propulsion, and aircraft systems design and/or spacecraft systems design),
- b.) ability to design and conduct experiments, analyze and interpret data in aerodynamics, propulsion, structures, or control systems,
- c.) ability to design a system, component or process, integrating knowledge from relevant topics in astronautics and aeronautics, to meet desired needs in aircraft systems and/or in spacecraft systems,
- d.) ability to function on multi-disciplinary teams,
- e.) ability to identify, formulate, and solve engineering problems,
- f.) understanding of professional and ethical responsibility,
- g.) ability to communicate effectively,
- h.) broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context,
- i.) recognition of the need for, and an ability to engage in life-long learning,
- j.) knowledge of contemporary issues,
- k.) ability to use the techniques, skills, and modern engineering tools necessary for engineering practice, and
- l.) knowledge in all subjects in Category I or in Category II, and in some subjects in the other category:

(Category I: aerodynamics, aerospace materials, structures, propulsion, flight mechanics, and stability and control),

(Category II: orbital mechanics, space environment, attitude determination and control, telecommunications, space structures, and rocket propulsion).

The first two years of study are similar to those in other engineering majors and provide students with a basic education for the engineering profession. Students need to complete E MCH 212, CMPSC 201, MATH 220, MATH 230, and MATH 250 prior to the start of the junior year in order to meet graduation requirements in the following two years. Six of the nine technical-elective credits taken in the senior year must be aerospace engineering courses.

ENTRANCE TO MAJOR -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHSY 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Aerospace Engineering, a minimum of 131 credits is required. This baccalaureate program in Aerospace Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (72 credits)

CHEM 110 GN(3) [\[1\]](#), EDSGN 100(3), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#) (Sem: 1-2)  
E MCH 212(3) [\[1\]](#), M E 201(3), MATH 220 GQ(2-3), MATH 230(4), MATH 250(3) [\[1\]](#), PHYS 212 GN(4) [\[1\]](#), PHYS 214 GN(2) (Sem: 3-4)  
AERSP 301(3) [\[1\]](#), AERSP 304(3), AERSP 305W(3), AERSP 306(3) [\[1\]](#), AERSP 309(3) [\[1\]](#), AERSP 311(3) [\[1\]](#), AERSP 312(3), AERSP 313(3) [\[1\]](#), E MCH 315(2), E MCH 316(1) (Sem: 5-6)  
AERSP 410(3), ENGL 202C GWS(3) (Sem: 7-8)

### ADDITIONAL COURSES (29 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 1-2)  
Select 5 credits from E MCH 210(5), E MCH 211(3), E MCH 213(3) (Sem: 3-4)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 3-4)  
AERSP 401A(3), AERSP 401B(2); or AERSP 402A(3), AERSP 402B(2) (Sem: 7-8)  
AERSP 413(3) or AERSP 450(3) (Sem: 7-8)  
AERSP 440(3), E E 210(3), or E E 212(4) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 9 credits of Aerospace Technical Elective (ATE) courses from department list. (Sem: 7-8)

Select 3 credits of Limited Elective (LE) courses from department list. (Sem: 7-8)

(Students who complete Basic ROTC may substitute 6 of the ROTC credits for 3 credits of LE and 3 credits of GHA.)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## African American Studies

University Park, College of the Liberal Arts (AA ST)

PROFESSOR PAUL C. TAYLOR, Head

This major helps students achieve a critical understanding of the forms of knowledge, culture, and social organization that African-Americans have produced, and of the social conditions that have supported and constrained this work. Using interdisciplinary approaches as well as methods drawn from the traditional disciplines, the major exposes students to the ideas, institutions, movements, and practices that African-American peoples have used to survive and shape the modern world. The African American Studies curriculum promotes the critical faculties, cultural competencies, and historical sensibilities of its students, and thereby equips them for success in graduate school, professional school, and the workplace.

For the B.A. degree in African American Studies, a minimum of 125 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(4-10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in the this bulletin)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 23-29 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

(This includes 3-9 credits of General Education courses: 0-6 credits of GS courses; and 3 credits of GH courses)

**PRESCRIBED COURSES** (9 credits)

AF AM 100 GS;US(3), AF AM 197 GS; IL(3), HIST 152 GH;US;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (27 credits)

Select 3 credits from AF AM 101 GH;US(3), AF AM 102 GH;US(3), AF AM 103 GH;US(3) (Sem: 1-4)

Select 3 credits from AF AM 197 GH;US(3) or SOC 207 (3) (recommended for Political Science, Sociology and HHD-related double majors) (Sem: 1-4)

Select 3 credits from AF AM 401(3), AF AM 494(3), AF AM 495(3) (Sem: 4-8)

Select 12 credits from one of the following four areas of concentration, and 6 more credits from any of the other areas. A minimum of 12 credits should be AF AM courses, and at least 12 of these credits must be at the 400-level or above.

If you wish to receive credit for courses other than the ones noted below, you must seek permission from the AFAM undergraduate director.

### 1. Gender and Sexuality

AF AM 101 GH;US(3), AF AM 102 GH;US(3), AF AM 103 GH;US(3); AFR 202 GS;IL(3) (Sem: 1-4)

AF AM 364 GS;US(3), AF AM 410(3), AF AM 416(3) (Sem: 4-8)

Select 3 credits at the 400-level in consultation with your adviser (Sem: 4-8)

### 2. Humanities

AF AM 147 GH;US(3), AF AM 145 GH;US;IL(3), AF AM 146 GH;US(3), AF AM 208 GA;US;IL(3), AF AM 210 GH;US(3), AF AM 212 US(3), AF AM 235 US(3) (Sem: 1-4)

AF AM 412(3), AF AM 422(3), AF AM 460(3), AF AM 465(3), AF AM 469(3) (Sem: 4-8)

### 3. Social Sciences and Community Development

SOC 119 GS;US(3), PL SC 123 GS;US;IL(3) (Sem: 1-4)

AF AM 302 US(3), AF AM 409(3), AF AM 431(3), AF AM 432(3), AF AM 445Y(3), AFR 459(3), ECON 436W US(3), EDTHP 411(3), PL SC 490(3) ( Sem: 4-8)

### 4. Migration and Diaspora

AF AM 102 GH;US(3), AF AM 132 IL(3), AF AM 211 GH;US;IL(3), AF AM 250 GH;IL(3), AFR 110 GS;IL(3), AFR 192 GH;IL(3) (Sem: 1-4)

AF AM 431(3), AF AM 432(3), AFR 440(3), AFR 497(3), PL SC 453(3) (Sem 4-8)

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## African Studies

*University Park, College of the Liberal Arts (AFRST)*

PROFESSOR WILLIAM J. DEWEY, *Director*

The major in African studies is a multidisciplinary program designed to offer students the opportunity to develop their understanding of various aspects of the African continent, including its socioeconomic conditions and global relations. The program utilizes historical, cultural, geographical, economic, and political approaches to equip students with skills to undertake research on issues pertinent to Africa and to prepare themselves for careers in a range of professions as well for post-graduate studies.

For the B.A. degree in African Studies, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-9 credits of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 9-18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 45 credits<sup>[1]</sup>

(This includes 0-9 credits of General Education courses; 3 credits of GA courses; 3 credits of GS courses; and 3 credits of GH courses)

**PRESCRIBED COURSES** (12 credits)

AFR 105 GN;IL(3), AFR 110 GS;IL(3), AFR 191 GH;IL(3), AFR 192 GH;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (33 credits)

Select 15 credits from the following (100-300 level courses): AFR 150 GH;IL(3), AFR 197(3), AFR 199 IL(3), AFR 202 GS;IL(3); AFR 294(3-6), AFR 297(3-6); AFR 299 IL(3-6), AF AM 302 US(3), AFR 395(3), AFR 399(3), AF AM 100 GS;US(3), AF AM 211 GH;US;IL(3), ART H 335 GA;IL(3), ECON 102 GS(3), ECON 104 GS(3) (Sem: 1-4)

Select 18 credits with at least 12 from AFR or AFR cross-listed courses: AAA S 403 IL(3), AFR 405(3), AFR/PL SC 434(3), AFR/PL SC/IB 440(3), AFR/PL SC 443 IL(3), AFR/PL SC 454 IL(3), AFR/PL SC 459 IL(3), AFR 464 IL(3), AFR 494H(3), AFR 495(3), AFR 496(3), AFR 497(3), AFR 499 IL(3), GEOG 436(3), GEOG 444(3), GEOG/LER 475H(3), PL SC 481(3) (Sem: 5-8)

## Agribusiness Management

University Park, College of Agricultural Sciences (AG BM)  
University Park, The Smeal College of Business  
World Campus

PROFESSOR DAVID ABLER, Program Coordinator

Graduates can be found working in the food production, processing, financial services, wholesaling and retailing industries, both in the United States and abroad. A substantial number are employed by agricultural supply firms. Typically, B.S. degree holders begin their careers in sales or as management trainees, and then progress to management as they develop higher levels of expertise and experience. Penn State Agribusiness Management graduates chose careers in many other places. They also are employed in banking and the investment and mutual funds industries, and others have gone to law school, graduate school, or into rural development. The quality and diversity of the program enables Agribusiness majors to undertake a variety of jobs.

This major, which is offered jointly with The Mary Jean and Frank P. Smeal College of Business, includes a core of courses required of all business students. Combining the required specialization area with a minor or electives also allows a student to focus on a particular area of interest.

For the B.S. degree in Agribusiness Management, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 6-9 credits

### REQUIREMENTS FOR THE MAJOR: 81- 84 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (47 credits)

AG BM 102(3) [\[1\]](#), AG BM 106(3) [\[1\]](#), ECON 104 GS(3) (Sem: 1-4)

ACCTG 211(4), AG BM 302(3) [\[1\]](#), AG BM 308W(3) [\[1\]](#), AG BM 320(3) [\[1\]](#), AG BM 338 IL(3), ENGL 202D GWS(3), MIS 204(3), SCM 200 GQ(4) (Sem: 3-4)

FIN 301(3), SCM 301(3), MKTG 301(3), MGMT 301(3) (Sem: 5-6)

### ADDITIONAL COURSES (22-25 credits)

AG BM 101 GS(3) [\[1\]](#) or ECON 102 GS(3) [\[1\]](#) (Sem: 1-4) [\[77\]](#)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 3-4)

R SOC 011 GS(3) or SOC 001 GS(3) (Sem: 3-6) [\[78\]](#)

AG BM 407(3) or AG BM 408(3) (Sem: 5-8)

Take 3-6 credits in Social, Ethical and Legal Environment of Business from the following: B A 243(4); B LAW 341(3) and B A 342(3); B LAW 243(3) (Sem: 2-6)

Select 6 credits of AG BM 440(3), AG BM 420(3), AG BM 460(3) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits in a specialty area, in consultation with an adviser (at least 6 of these credits must be at the 300 or 400 level) (Sem: 5-8)

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[\[77\]](#) AG BM 101 required unless ECON 102 was taken before entering the AG BM major.

[\[78\]](#) R SOC 011 required unless SOC 001 was taken before entering the AG BM major.

## Agricultural Science

University Park, College of Agricultural Sciences (AG SC)

PROFESSOR JOHN C. EWING, *Program Coordinator*

This major enables students to develop programs of study to serve their individual needs by assembling courses selected from various departments within the College of Agricultural Sciences. The student develops either a broad background in agriculture or a special program of study not currently offered within departments of the college. Students are expected to focus study on one or more disciplines of the agricultural sciences by selecting a minor from the approved list of minors offered by the College of Agricultural Sciences. The student, in consultation with an adviser, is given considerable flexibility for selecting courses to satisfy individual interests and aspirations.

Students can prepare themselves for careers in agricultural and natural resource related sales, and /or public relations; food, agricultural and natural resource commodity groups, agricultural finance; governmental and conservation agencies; the Cooperative Extension Service; land use and appraisal; and international agriculture agencies.

For the B.S. degree in Agricultural Science, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18-30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 6-26 credits

### REQUIREMENTS FOR THE MAJOR: 82-90 credits

(This includes 18-30 credits of General Education courses: 0-3 credits of GA courses; 0-3 credits of GHA courses; 9 credits of GN courses; 0-6 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (12 credits)

CAS 100 GWS(3), ENGL 015 GWS(3) (Sem: 1-2)

AEE 360(3), AEE 460(3) (Sem: 5-8)

### ADDITIONAL COURSES (43-48 credits)

BIOL 011 GN(3) and BIOL 012 GN(1), or BIOL 110 GN(4) or BI SC 003 GN(3) (Sem: 1-2)

CHEM 101 GN(3) or CHEM 110 GN(3) (Sem: 1-4)

Select 3 credits from ENGL 202C GWS(3), ENGL 202D GWS(3) (Sem: 3-4)

Select 3 credits from AEE 330W(3), AEE 440(3) (Sem: 4-7)

Select 3-4 credits in Crop Management: Any AGECO except X95 and X96, Any AGRO except X95, X96, Any ENT except X95, X96 (Sem: 5-6)

Select 3 credits in any HORT except X95, X96 (Sem: 5-6)

Select 3 credits in Agricultural Economics and Rural Sociology: Any AG BM except X95 and X96, Any CED except X95, X96, Any R SOC (Sem: 5-6)

Select 3 credits in International Agriculture: AEE 400(3), CED 450 IL(3), INTAG 100 GS;IL(3), INTAG 481(3), R SOC 420 US;IL(3), Any College of Agricultural Sciences international course (Sem: 5-6)

Take 1-2 credits in Careers in Agriculture: AEE 100(2), AG 100(1), AG 113(1), AN SC 290W(1), E R M 151(1) (Sem: 5-6)

Select 3-4 credits in any AN SC except 291, X95, X96 (Sem: 5-6)

Select 3 credits in Technology in Agriculture: A S M 217(3), AGECO 144 GN(3), AGECO 457(3); AN SC 207(2) and AN SC 208(1); , E R M 210 GN(3), FD SC 200(3) (Sem: 5-6)

Select 6 credits in Natural Resources/Ecology: from AGECO 122 GN(3), AGECO 201(3), EGEE 101 GN(3), FOR 470(3), R SOC 327(3), SOILS 071 GN;IL(3), SOILS 101 GN(3), SOILS 412W(3), W F S 209 GN(3) (Sem: 5-6)

Select 3 credits from AEE 311(3) or AEE 465(3) (Sem: 5-8)

Select 3 credits in Agricultural and Environmental Policy; AG 160 GH(3), AGECO 134 GN(3), CED 201(3), FD SC 105 GHA(3) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (27-30 credits)

Select 9 credits in Agriculture (Sem: 5-8)

Select 18-21 credits for College of Agricultural Sciences Minor [\[11\]](#) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Air Force Aerospace Studies (AIR)

## **Air Force Aerospace Studies (AIR)**

The Air Force ROTC program trains qualified young men and women for service as commissioned officers in the United States Air Force.

The program is offered at the University Park campus and by special arrangement as follows: students attending Penn State Worthington Scranton, Penn State Hazleton, or Penn State Wilkes-Barre may complete freshman and sophomore requirements at Wilkes College, Wilkes-Barre, Pa.; students attending Penn State Abington or Penn State Brandywine may complete freshman and sophomore requirements at St. Joseph's University, Philadelphia, Pa.; students attending Penn State Altoona may complete freshman and sophomore requirements at the University Park campus. The junior and senior requirements may then be completed upon relocation to University Park campus.

Four-, three-, two-, and one-year (limited) scholarships are available to selected applicants. These scholarships provide \$250-\$400 per month along with full tuition and textbook allowance. Also, all cadets in the junior and senior courses are paid at the rate of \$350 to \$400 per month (tax free), respectively, even if not on scholarship. Uniforms and ROTC textbooks are provided for free by the Air Force.

**COURSE --** The instruction consists of a General Military Course (freshmen and sophomores) and a Professional Officer Course (juniors and seniors) of four semesters each. Subjects and credits appear under course descriptions (ROTC) in this bulletin. Students have an opportunity to visit Air Force bases throughout the school year and summer months, where they may receive instruction on parachuting, flying gliders, and other Air Force-related activities.

Completion of eight semesters and one four-week summer training period confers eligibility for a commission in the Air Force Reserve and assignment to active duty in the USAF with the rank of second lieutenant. For students graduating in fewer than four years, there is also a two-year program in which a six-week summer training period replaces both the General Military Course and the normal four-week summer training period. Those students not participating in the four-year program but who will have four or more full academic semesters available, either undergraduate or graduate, after completion of the six-week summer training period are eligible for this two-year program, which leads to an Air Force commission.

Effective Date: Current

Review Date: 4/19/04

## American Studies

Abington College (AMSAB)  
Penn State Harrisburg (AMSCA)  
University College (AMSCC): Penn State Brandywine

PROFESSOR JOHN HADDAD, Program Coordinator

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a number of other areas, and for enrollment in law and other professional programs.

For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student's record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

For the B.A. degree in American Studies, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 33 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (6 credits)  
AM ST 491W(6) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits)  
AM ST 100 GH(3) or AM ST 100Y GH(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)  
(Include 12 credits at the 400 level distributed in at least two of the areas.)  
Select 9 credits in each of two of the following areas; select 6 credits in one other of the areas: (Sem: 3-8)

- a. American literature
- b. American history
- c. American art, philosophy, and religion (humanities)
- d. American social sciences

### Integrated B.A./M.A. in American Studies

The American Studies Program offers an integrated B.A./M.A. program that is designed to allow academically superior baccalaureate students enrolled in the American Studies major to obtain both the B.A. and the M.A. degrees in American Studies within five years of study. The first two years of undergraduate coursework typically include the University General Education requirements and lower-level courses. In the third year, students typically take upper-division coursework in American Studies and define areas of interest. The fourth year involves graduate-level American Studies coursework including required courses in American Studies Theory and Methods (AM ST 500). The fifth and final year of the program typically consists of graduate coursework in American Studies including Seminar (AM ST 591) and identification of a research project that will culminate in the completion of a M.A. project (AM ST 580) or thesis (AM ST 600).

By encouraging greater depth and focus in the course of study beginning in the third undergraduate year, this program will help the student more clearly define his/her area of interest and expertise in the broad field of American Studies. As a result, long-range academic planning for exceptional students pursuing doctoral degrees or other professional goals after leaving Penn State will be greatly enhanced. For most students, the total time required to reach completion of the higher degree will be shortened by about a year. The student will have earlier contact with the rigors of graduate study and with graduate faculty. The resources of the Graduate School are accessible to students accepted into the IUG program. Students in their third and fourth year of study with IUG status benefit from their association with graduate students whose level of work parallel their own.

For the IUG American Studies B.A./M.A. degree, a minimum of 123 credits are required for the B.A. and a minimum of 30–33 credits for the M.A. (30 for non-thesis; 33 for thesis). Twelve credits at the 400 level or higher, in consultation with the adviser, can apply to both the B.A. and M.A. degrees; at least 6 of these 12 credits must be at the 500 level.

If for any reason a student admitted to the B.A./M.A. program is unable to complete the requirement for the Master of Arts degree program in American Studies, the student will be permitted to receive the B.A. degree assuming all degree requirements have been satisfactorily completed.

### Admission Requirements

The number of openings in the integrated B.A./M.A. program is limited. Admission will be selective based on specific criteria and the unqualified recommendation of faculty. Applicants to the integrated program:

1. Must be enrolled in the American Studies B.A. program and meet the admission requirements of the American Studies M.A. program.
2. Must apply and be admitted to the Graduate School.
3. Shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study.
4. Must have completed at least one 400-level American Studies course (AM ST prefix) with a grade of A.
5. Must submit transcript(s) of previous undergraduate work, recommendations from two faculty members, writing sample, and statement of goals.
6. Must have an overall GPA at or above 3.3 (on a 4.0 scale) in undergraduate coursework and a GPA at or above 3.5 in all coursework completed for the American Studies major.
7. Must present a plan of study approved by the student's adviser in the application process.

### Course Load

As many as 12 of the credits required for the master's degree may be applied to both undergraduate and graduate degree programs. The courses to be double counted are:

AM ST 491W (two seminars on different topics)—6 credits during the student's fourth (senior) year

AM ST 500 —3 credits during the student's fourth (senior) year

AM ST 591—3 credits during the student's fifth year

With the approval of the student's adviser, students may take American Studies courses from the 100 to 400 levels at Penn State campuses other than Harrisburg, but 500-level courses must be taken at the Harrisburg campus.

#### Sample Sequence of Coursework

A typical sequence of coursework for the integrated program would appear as follows (AM ST 491W, AM ST 500, and AM ST 591 are applied to both undergraduate and graduate degree programs):

YEAR	FALL		SPRING	
3rd (Junior)	AM ST 100	3	AM ST supporting course	3
	AM ST supporting course	3	400-level AM ST course	3
	BA Requirement: Other Cultures	3	400-level AM ST course	3
	BA Requirement: Knowledge Domain	3	Elective	3
	Elective	3	Elective	3
	Total	15	Total	15
4th (Senior)	<b>AM ST 491W*</b>	3	<b>AM ST 491W*</b>	3
	400-level AM ST course	3	400 level AM ST course	3
	400-level AM ST supporting course	3	<b>AM ST 500*</b>	3
	Elective	3	500 level AM ST course	3
	Elective	3	Elective	3
	Total	15	Total	15
5th (Graduate)	500-level AM ST course	3	500-level AM ST course	3
	500-level AM ST course	3	AM ST 580 or AM ST 600	3 - 6
	500-level AM ST course	3	<b>AM ST 591*</b>	3
	Total	9	Total	9 - 12

\*Satisfies requirements for both the undergraduate and graduate program for a total of 12 credits

As stated in the Graduate Bulletin, a minimum grade-point average of 3.00 for work done at the University is required for graduation and to maintain good academic standing. See [http://bulletins.psu.edu/bulletins/whitebook/degree\\_requirements.cfm?section=masters](http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=masters).

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Animal Science

University Park, College of Agricultural Sciences (AN SC)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

DR. ROBERT MIKESELL, *Program Coordinator*

Animal Science may be defined as the study and integration of all disciplines that relate to the function and care of animals for the benefit of society by providing companionship, food, fiber, performance, and research. The Animal Science major includes references to all types of animals.

The educational experiences included in this major should prepare the student for a wide range of entry-level positions in production agriculture agribusiness, and related industries, and provide preparation for the pursuit of post-baccalaureate studies leading to professional or advanced degrees. The student is expected to develop a comprehensive understanding of the biological and physical sciences underlying the functioning of all types of animals.

Realizing the wide range of career possibilities requiring diverse types of academic preparation, two options of study are available: the Business/Management Option and the Science Option.

For the B. S. degree in Animal Science, a minimum of 124 credits is required.

**BUSINESS/MANAGEMENT OPTION:** The primary objective of this option is to prepare the student for entry-level positions in agribusiness organizations and in the animal and food industries. The student may develop a program with specie specialization or diversity. The student may develop a foundation in accounting, economics, finance, marketing, and other business-related areas. Graduates seek entry-level employment opportunities as loan officers with financial institutions; technical service and sales representatives for pharmaceutical, agri-chemical, feed or food producing companies; field representatives for breed organizations or producer cooperatives; public relations and human resources personnel for agribusiness companies; management trainees for numerous agribusiness firms; management trainees or assistant managers of animal production units, and roles in government agencies.

**SCIENCE OPTION:** The primary objective of this option is to prepare the student for entry into post-baccalaureate study programs in animal and related biological sciences. Graduates who have obtained the proper qualifications may pursue advanced studies in a wide variety of disciplines, including animal science, biotechnology, genetics, microbiology, nutrition, physiology, molecular biology, pharmaceutical research, and veterinary medicine. Graduates not desiring to pursue advanced studies seek entry-level employment opportunities as research technicians, technical service representatives for various industrial companies, food inspectors, laboratory animal caretakers, and public relations personnel.

AG BM 102(3) or MKTG 221(3) (Sem: 3-4)

AG BM 200(3) or MGMT 100(3) (Sem: 3-4)

MICRB 106 GN(3) and MICRB 107 GN(1); or MICRB 201(3) and MICRB 202(2) (Sem: 5-6)

Select 3-4 credits from AN SC 305(3), AN SC 306(3), AN SC 308(4), AN SC 309(4), AN SC 310(3), AN SC 311(4), AN SC 315(3), AN SC 324(3), AN SC 327(3), AN SC 405(3), AN SC 407(3), or AN SC 410(4) (Sem: 5-8)

Select 3-4 credits from AN SC 420(4), AN SC 423(3), AN SC 427(3), or AN SC 431W(4) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (23 credits)

Select 23 credits (at least 9 credits of business and 9 credits of production courses; 12 credits must be 400-level courses) from department list (Sem: 5-8)  
(Students may apply 6 credits of ROTC.)

**SCIENCE OPTION:** (48-53 credits)

**PRESCRIBED COURSES** (27 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) (Sem: 1-2)

B M B 212(1), B M B 221(2) (Sem: 5-6)

MICRB 201(3), MICRB 202(2), PHYS 250 GN(4) (Sem: 5-6)

AN SC 423(3), AN SC 431W(4) (Sem: 7-8)

**ADDITIONAL COURSES** (16-19 credits)

CHEM 203(3) or CHEM 212(3) and CHEM 213(2) (Sem: 3-4)

Select 4 credits from BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4) (Sem: 3-4)

Select 3 credits from AGRO 028(3), AN SC 211(3), AN SC 213(3), or SOILS 101 GN(3) (Sem: 5-6)

Select 3 credits from AN SC 322(3), BIOL 133 GN(3), or BIOL 222(3) (Sem: 5-6)

Select 3-4 credits from AN SC 305(3), AN SC 306(3), AN SC 308(4), AN SC 309(4), AN SC 310(3), AN SC 311(4), AN SC 315(3), AN SC 324(3), AN SC 327(3),

AN SC 405(3), AN SC 407(3), AN SC 410(4), or AN SC 413(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (5-7 credits)

Select 5-7 credits of 400-level courses from department list

(Students may apply 6 credits of ROTC.) (Sem: 7-8)

**Integrated B.S. in Animal Science and Master of Biotechnology in Biotechnology**

Qualified students should formally apply to the Master of Biotechnology degree when they have earned a minimum of 75 credits in their B.S. curriculum. To make sure students finish within the shortest time-to-degree, students intending to apply to the integrated program will be closely mentored by their respective undergraduate program coordinators to guide their progress through their B.S. curriculum. The undergraduate program coordinators will be directly consulted by the Director of the Master of Biotechnology in Biotechnology program regarding admission of a student applicant to the Master of Biotechnology in Biotechnology program.

Students admitted to the integrated program will follow their undergraduate curriculum until the beginning of their fourth year, at which time, they start taking courses required for the Master of Biotechnology degree. In the summer following the Spring semester of their fourth year, students will participate in off-campus internships and have the option of either continuing at their off-campus location for their research project in the following Fall semester, or coming back to campus to do a research project. The final Spring semester will be devoted to completing the course and credit requirements for the Master of Biotechnology degree. As designed, students can opt to graduate with a B.S. degree at the end of the Spring semester of their 4th year, when they should have completed the credit requirements of the B.S. degree program (124 credits). The following table outlines the program of study for students in this program:

Year	Semester	B.S. Animal Science (124 credits required) credits completed
<u>I</u>	<u>Fall</u>	<u>15</u>
	<u>Spring</u>	<u>16</u>
<u>II</u>	<u>Fall</u>	<u>15.5</u>
	<u>Spring</u>	<u>16</u>
<u>III</u>	<u>Fall</u>	<u>15</u>
	<u>Spring</u>	<u>15.5</u>
<u>IV</u>	<u>Fall</u>	<u>15*</u>
	<u>Spring</u>	<u>16*</u>
<b>Total credits for B.S.</b>		<b>124</b>

\* The following courses to be taken in these semesters will be cross-counted towards the B.S. and Master of Biotechnology degrees:

BIOTC 479. Methods in Biofermentation OR CH E 409 (3 credits)

B M B 400. Molecular Biology of the Gene (2-3 credits)

IBIOS 571. Current Issues in Biotechnology (2 credits)

IBIOS 591. Ethics in the Life Sciences (1 credit)

IBIOS 593. Molecular Biology Laboratory (3 credits)

**Total credits cross-counted****in B.S. and Master of Biotechnology degrees 12 credits, 6 of which are 500-level credits****Master of Biotechnology in Biotechnology**

(30 credits required, 18 of which must be 500-level)

IV	Summer	IBIOS 595 or equivalent in AN SC (2 credits) Internship
V	Fall	IBIOS 594. Research Project (3-6 credits)
	Spring	IBIOS 590. Colloquium (1 credit)
		Electives, 500-level (3-6 credits) Other graduate level electives (6 credits)

**Minimum total credits earned for Summer and 5th year**

**18 credits, at least 12 of which are 500-level credits**

**Admission Requirements**

Students must have a GPA of 3.5 at the time of application to the integrated degree program when they have completed at least 75 credits of their B.S. curriculum. The GRE scores normally required in the Master of Biotechnology in Biotechnology program will be waived for applicants to the integrated B.S.-Master of Biotechnology degree.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Anthropology

University Park, College of the Liberal Arts (ANTH)

PROFESSOR GEORGE R. MILNER, *Head, Department of Anthropology*

Anthropology is a holistic scientific discipline having links to the humanities. Anthropologists document, describe, and explain the physical and cultural differences of societies, both past and present. Anthropology sees the individual as part of a larger social order that both impinges upon and is molded by those who belong to it. Anthropology investigates how cultures interact and relate within specific economic, political, and ecological frameworks over time.

The Bachelor of Arts major focuses on the biological and cultural variations of human populations through archaeology, biological anthropology, and cultural anthropology. In addition to class work, students receive practical training in laboratory and field work.

For the B.A. degree in Anthropology, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR.)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selections, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 12 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 43 credits<sup>[1]</sup>

(This includes 4 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (13 credits)

ANTH 002 GS(3), ANTH 021 GN(3), ANTH 045 GS;US;IL(3) , STAT 200 GQ(4) (Sem: 1-6)

**ADDITIONAL COURSES** (30 credits)

Select 15 credits in ANTH courses other than ANTH 001 GS;US;IL(3) (no more than 6 credits from 190-199, 290-299, 390-399, and 490-499, other than 297 and 497) (Sem: 1-8)

Select 15 credits from the following ranges (at least 3 credits must be in each range):

- a. Archaeology: ANTH 420-439 (Sem: 3-6)
- b. Biological anthropology: ANTH 400-419, ANTH 460-473 (Sem: 3-6)
- c. Cultural anthropology: ANTH 440-459, ANTH 474-479 (Sem: 3-6)

### Integrated B.A./M.A in Anthropology Degree Requirements

The Department of Anthropology offers an integrated B.A./B.S./M.A. (IUG) program designed to allow academically superior students to obtain a B.A. or B.S. degree in Anthropology, a B.A. degree in Classics and Ancient Mediterranean Studies (CAMS), and a M.A. degree in Anthropology in five years of study. To complete the program in five years, students interested in the Integrated Undergraduate and Graduate degree in Anthropology must apply for admission to the Graduate School and the Integrated B.S./M.S. Program by the end of their junior year.

During the first three years, the student will follow course scheduling for the B.A. degree in CAMS and either the B.A. degree in Anthropology or the B.S. degree in Archaeological Science (see the Undergraduate *Bulletin*). Students who intend to enter the IUG program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.A. advisors will be appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected options for their B.A. or B.S. majors, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their thesis research to meet the M.A. thesis requirements. During the fifth year, IUG students take courses fulfilling the M.A. degree requirements and complete their M.A. thesis.

### Admission Requirements

Students who wish to complete the Integrated Undergraduate and Graduate Program in Anthropology should apply for admission to both the Graduate School and the IUG Anthropology Program no later than the end of their junior year. Successful students will be admitted formally into the graduate program in Anthropology just prior to their senior year, if their progress has been satisfactory. Admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the joint Anthropology-CAMS admission committee. Criteria for admission include a minimum overall GPA of 3.4 in their majors, strong recommendation letters from faculty, and an excellent proposal for a research project with a specific adviser who has agreed to guide the student through to the completion of the M.A. thesis.

### Graduate Coursework

#### REQUIRED COURSES

##### ANTHROPOLOGY (ANTH)

- 493. Field Techniques (3)
- 521. Current Literature in Archaeology (2)
- 545. Seminar in Anthropology (6)
- 588. Method and Theory in Archaeology (3)
- 600. Thesis Research (6)

#### ADDITIONAL COURSES

Four required credits in ANTH 494(1-12) or CAMS 494(1-12)

Six required credits in CAMS 592(3), 593(3-6), or 596(1-9)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Administration of Justice

*University College (AJACC): Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazleton, Penn State Schuylkill, Penn State Wilkes-Barre*

The Bachelor of Arts degree in Administration of Justice provides students with a broadly based liberal education focused on the understanding and analysis of justice systems. Having grappled with the many dilemmas and controversies presented by the problems of administering justice in a complex society, graduates of this program are given the background to be educated, thoughtful, and intelligent citizens.

For the B.A. degree in Administration of Justice, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **GENERAL EDUCATION:** 45 credits

(4-7 credits of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### **FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### **WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### **ELECTIVES:** 11-15 credits

### **BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### **REQUIREMENTS FOR THE MAJOR:** 43-44 credits<sup>[1]</sup>

(This includes 4-7 credits of General Education courses; 0-3 credits of GH courses; 4 credits of GQ courses.)

### **PRESCRIBED COURSES** (13 credits)

CRIMJ 012 GS(3), CRIMJ 100(3), CRIMJ 221(3), STAT 200 GQ(4) (Sem: 3-4)

### **ADDITIONAL COURSES** (24-25 credits)

Select 3-4 credits in values and ethics from B A 243(4), or B A 241(2) and B A 242(2), CRIMJ 465(3), PHIL 003 GH(3), PHIL 103 GH(3), PHIL 105 GH(3), PHIL 106 GH(3), or PHIL/S T S 107 GH(3), S T S 100 GH(3), S T S 101 GH(3) or S T S/PHIL 107 GH(3) (Sem: 5-6)

Select 3 credits from CRIM J 451 US(3) or CRIM J 453 US(3) (Sem: 5-8)

Select 18 credits in CRIMJ, with at least 9 credits in the 400 level from: CRIMJ 013 GS(3), CRIMJ 083S GS(3), CRIMJ 113 US(3), CRIMJ 200(3), CRIMJ 201(3), CRIMJ 210(3), CRIMJ 220(3), CRIMJ 230(3), CRIMJ 234(3), CRIMJ 241(3), CRIMJ 296(1-18), CRIMJ 297(1-9), CRIMJ 300H(3), CRIMJ 301H(3), CRIMJ 302H(3), CRIMJ 304(3), CRIMJ 310(3), CRIMJ 311(3), CRIMJ 345(3), CRIMJ 389(3), CRIMJ 406(3), CRIMJ 407(3), CRIMJ 408(3), CRIMJ 410(3), CRIMJ 412(3), CRIMJ 413(3), CRIMJ 414(3), CRIMJ 415(3), CRIMJ 420(3), CRIMJ 421(3), CRIMJ 421(3), CRIMJ 422(3), CRIMJ 423(3), CRIMJ 424(3), CRIMJ 424(3), CRIMJ 425(3), CRIMJ 426(3), CRIMJ 430(3), CRIMJ 431(3), CRIMJ 432(3), CRIMJ 435(3), CRIMJ 439(3), CRIMJ 441(3), CRIMJ 450W(3), CRIMJ 460(3), CRIMJ 462(3), CRIMJ 467(3), CRIMJ 469(3), CRIMJ 471(3), CRIMJ 473(3), CRIMJ 482(3), CRIMJ 489W(3), CRIMJ 497(3), CRIMJ 497A(3) (Sem: 5-8)

### **SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits, in consultation with adviser, from University-wide offerings according to student's career plan (Sem: 5-8)

**[1]**A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Administration of Justice

*University College (AJSCC): Penn State Beaver, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazleton, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre*

The Bachelor of Science degree is intended to prepare students for careers in the administration of justice. Two emphases are provided: (1) for students interested in entry-level employment in justice agencies; (2) for students interested in academic or research positions and who may seek graduate education before beginning employment.

For the B.S. degree in Administration of Justice, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **GENERAL EDUCATION:** 45 credits

(4-7 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### **FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### **WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### **ELECTIVES:** 14-18 credits

### **REQUIREMENTS FOR THE MAJOR:** 64-65 credits<sup>[1]</sup>

(This includes 4-7 credits of General Education courses; 0-3 credits of GH courses; 4 credits of GQ courses.)

### **PRESCRIBED COURSES** (13 credits)

CRIMJ 012 GS(3), CRIMJ 100(3), CRIMJ 221(3), STAT 200 GQ(4) (Sem: 3-4)

### **ADDITIONAL COURSES** (39-40 credits)

(Some of the courses in this category may have prerequisites that are not included in the major.)

Select 3-4 credits in values and ethics from B A 243(4) or B A 241(2) and B A 242(2), CRIMJ 465(3), PHIL 003 GH(3), PHIL 103 GH(3), PHIL 105 GH(3), PHIL 106 GH(3), or PHIL/S T S 107 GH(3), S T S 100 GH(3), S T S 101 GH(3) or S T S/PHIL 107 GH(3) (Sem: 5-6)

Select 3 credits from CRIMJ 451 US(3) or CRIMJ 453 US(3) (Sem: 5-8)

Select 18 credits in CRIMJ, with at least 9 credits in the 400 level from: CRIMJ 013 GS(3), CRIMJ 083S GS(3), CRIMJ 113 US(3), CRIMJ 200(3), CRIMJ 201(3), CRIMJ 210(3), CRIMJ 220(3), CRIMJ 230(3), CRIMJ 234(3), CRIMJ 241(3), CRIMJ 296(1-18), CRIMJ 297(1-9), CRIMJ 300H(3), CRIMJ 301H(3), CRIMJ 302H(3), CRIMJ 304(3), CRIMJ 310(3), CRIMJ 311(3), CRIMJ 345(3), CRIMJ 389(3), CRIMJ 406(3), CRIMJ 407(3), CRIMJ 408(3), CRIMJ 410(3), CRIMJ 412(3), CRIMJ 413(3), CRIMJ 414(3), CRIMJ 415(3), CRIMJ 420(3), CRIMJ 421(3), CRIMJ 422(3), CRIMJ 423 US(3), CRIMJ 424(3), CRIMJ 425(3), CRIMJ 426(3), CRIMJ 430(3), CRIMJ 431(3), CRIMJ 432(3), CRIMJ 435(3), CRIMJ 439(3), CRIMJ 441(3), CRIMJ 450W(3), CRIMJ 460(3), CRIMJ 462(3), CRIMJ 467(3), CRIMJ 469(3), CRIMJ 471(3), CRIMJ 473(3), CRIMJ 482(3), CRIMJ 489W(3), CRIMJ 497(3), CRIMJ 497A(3) (Sem: 5-8)

Select 15 credits -- emphasis a or b:

a. Field Research emphasis: CRIMJ 240W(4), CRIMJ 290(1-3), CRIMJ 494(5), CRIMJ 495(5) (Sem: 5-8)

b. Research and Policy Analysis emphasis: Select 15 credits, at least 6 at the 400 level from: AM ST 491W(3-6), CRIMJ 424W(3), any CMPSC (3), ECON 104 GS(3), LER 100 GS(3), L ST 370(3), PL SC 002(3), PL SC 419 US(3), PL SC 490(3), SOC 409 US(3), SOC 419(3), SOC 422(3), or SOC 423(3) (Sem: 5-8)

### **SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits, in consultation with adviser, from University-wide offerings according to student's career plan (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Applied Psychology

*Berks College (APSYC)*

This major is designed for students who are interested in a liberal arts degree with a concentration in applied psychology. The program features both active and collaborative classroom experiences in addition to intensive internship experiences, and is most appropriate for students who wish to develop a set of applied scientific and human relations skills that will prepare them for entry-level employment in a wide range of government and private human service organizations and agencies, and in business and industry. Because of the flexible and broad nature of the degree, students might also use this major as a preparation for graduate or professional school in business, human services, law, or the social sciences.

This program differs most notably from traditional majors in psychology in three ways: 1) it is intended for students who may not be planning to pursue a doctoral degree in psychology that would prepare them for a career as a psychologist; 2) it requires that students learn and apply skills during 12 credits of internship experiences; 3) it requires that students demonstrate skill proficiency in a comprehensive assessment in order to graduate.

For the B.A. degree in Applied Psychology, a minimum of 127 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### **GENERAL EDUCATION:** 45 credits

(0-4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### **FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

### **ELECTIVES:** 8-24 credits

### **BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### **REQUIREMENTS FOR THE MAJOR:** 50 credits<sup>[1]</sup>

(This includes 0-4 credits of General Education GQ courses.)

### **PRESCRIBED COURSES** (28 credits)

PSYCH 100 GS(3) (Sem: 1-2)  
PSYCH 212 GS(3), PSYCH 296(1) (Sem: 1-4)  
PSYCH 301W(4) (Sem: 3-6)  
PSYCH 404/EDPSY 450(3), PSYCH 495(12) (Sem: 5-8)  
PSYCH 496(2) (Sem: 7-8)

### **ADDITIONAL COURSES** (16 credits)

PSYCH 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

Select 12 credits from the following groups, including a minimum of 3 credits from each category (a total of 9 credits must be at the 400 level):

1. Abnormal, Clinical, Personality:  
PSYCH 238 GS(3) (Sem: 3-6)  
PSYCH 470(3), PSYCH 479 US(3), PSYCH 481(3) (Sem: 5-8)
2. Developmental, Cognitive, Learning:  
ED PSY 014(3), PSYCH 256 GS(3), PSYCH 261 GS(3), PSYCH 412(3), PSYCH 415(3), PSYCH 456(3) (Sem: 3-6)  
PSYCH 416/HD FS 445(3) (Sem: 5-8)
3. Industrial/Organizational, Social, Interpersonal:  
PSYCH 221 GS(3), PSYCH 281 GS(3), PSYCH 420(3) (Sem: 3-8)  
PSYCH 423(3), PSYCH 424(3) (Sem: 5-8)
4. Health, Wellness, Adjustment:  
PSYCH 243 GS(3) (Sem: 3-6)  
PSYCH 441(3), PSYCH 471(3) (Sem: 5-8)

### **SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 3 credits of 200-level psychology in consultation with an adviser (Sem: 1-2)

Select 3 credits in consultation with an adviser (Sem: 1-8)

**[1]**A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Art

*University Park, College of Arts and Architecture (ARBFA)*

PROFESSOR GRAEME SULLIVAN, *Director, School of Visual Arts*

The Bachelor of Fine Arts degree requires thorough preparation and is intended to develop a level of competence that will enable persons who wish to pursue professional careers in art to prepare themselves for specialized graduate studies, specialized professional training, and/or immediate participation in creative work.

Students enrolled in the School of Visual Arts may seek entrance into the B.F.A. program no earlier than the second semester and no later than the fourth semester.

There will be a continuous review of portfolio and performance of students enrolled in the B.F.A. program throughout the entire program. Students who do not meet the standards or who do not want to continue in the B.F.A. program may return to the B.A. program in art or choose another program of study.

For the B.F.A. degree in Art, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits  
(6 of these credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 84 credits  
(This includes 6 credits of General Education GA courses.)

**PRESCRIBED COURSES** (16 credits)[\[1\]](#)  
ART 011S(1), ART 110(3), ART 111 (3) (Sem: 1-2)  
ART 122Y US(3), ART H 111 GA;IL(3), ART H 112 GA;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (15 credits)[\[1\]](#)  
Select 15 credits at the beginning level from ART 201(3), ART 203(3), ART 211 US(3), ART 217(3), ART 220(3), ART 223(3), ART 230(3), ART 240(3), ART 250(3), ART 280(3), ART 296(3), ART 297(3), ART 299(3), PHOTO 100 GA(3), or PHOTO 201(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (53 credits)  
Select 47 credits in Art at the 300 or 400 level, 24 of which must be in an area of concentration from the following: ceramics, drawing and painting, new media, photography, printmaking, or sculpture[\[1\]](#) (Sem: 3-8)  
Select 6 credits in art history (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Architecture

*University Park, College of Arts and Architecture (ARCBS and BARCH)*

PROFESSOR MEHRDAD HADIGHI, *Head, Department of Architecture*

The Department of Architecture is a member of the Association of Collegiate Schools of Architecture and the Bachelor of Architecture degree is accredited by the National Architectural Accrediting Board. The major provides for the education of architects at the professional and pre-professional levels.

"In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree."

The Pennsylvania State University, Department of Architecture offers the following NAAB-accredited degree program:

B.Arch. (162 undergraduate credits)

Next accreditation visit for the B.Arch. accredited degree program: 2022 (anticipated)  
(Excerpt from NAAB Conditions for Accreditation, 2009 Edition)

### Bachelor of Architecture

The professional program (BARCH) is a five-year curriculum leading to the Bachelor of Architecture degree requiring 162 credits. It prepares those who seek careers as practicing architects. It also provides professional preparation for those who wish to enter related design fields. Graduates of the Bachelor of Architecture program are eligible, after appropriate internship experience, to sit for the Architect Registration Examination. Successful completion of all parts of the Architect Registration Examination is required for registration as an architect. The Bachelor of Architecture curriculum includes coursework in architectural design, history, theory, structural systems, building materials, environmental control systems, visual communications, professional practice, and systems integration. Supporting courses provide students with the flexibility to explore a range of interests, develop concentrations, or pursue minors. A required semester abroad in Rome, Italy, is also a component of this program. All students admitted to the University in the Department of Architecture are enrolled in the five-year professional program leading to the Bachelor of Architecture degree.

Students may elect to leave Penn State after completing the requirements of the four-year (ARCBS) program and receive the Bachelor of Science degree.

### Bachelor of Science

The pre-professional Bachelor of Science degree program in Architecture (ARCBS) is a four-year curriculum which requires a minimum of 135 credits. The curriculum mirrors the first four years of the professional (BARCH) program. The ARCBS program prepares graduates to pursue careers in fields such as construction, real estate development, public administration, or historic preservation. Students may also continue their education at the graduate level in fields such as architecture, urban planning, or law. Enrollment in the pre-professional (ARCBS) program is limited to those students who transfer from the professional (BARCH) program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### Bachelor of Architecture

Select 3 credits in non-Western traditions in architecture from approved department list (Sem: 1-8)

Select 6 credits in consultation with an academic adviser (Sem: 3-8)

**Integrated B.ARCH./M.S. in Architecture Program**

The Department of Architecture offers a limited number of academically superior students enrolled in the fourth year of the Bachelor of Architecture degree program the opportunity to enroll in an integrated program leading to both the B.Arch. and the M.S. in Architecture degrees. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to achieve greater depth and comprehensiveness than if the degrees are pursued sequentially, and to earn the two degrees in a shorter period of time. In particular, the program encourages the student to integrate the undergraduate thesis design project with the master's thesis, thereby achieving a greater depth of inquiry. The number of openings to this special program is limited; admission is by invitation of the faculty and is extremely selective.

**Admission Requirements**

Applicants to the integrated program must be enrolled in the fourth year of a B.Arch. program or otherwise qualified to apply for admission to the fifth year of the B.Arch. program at Penn State. To be admitted, applicants must have a minimum 3.20 junior/senior overall grade-point average (on a 4.0 scale) as well as: (1) a minimum 3.20 GPA in architectural design courses (studio), and (2) a minimum 3.20 GPA in all course work except architectural design courses (studio).

All applicants for admission to the Integrated B.Arch./M.S. in Architecture degree program must submit the following:

- a completed Graduate School application, found online at <http://www.gradsch.psu.edu/portal/>, and payment of the application fee.
- names of three faculty members or professionals acquainted with the applicant's academic history who can be contacted and invited to provide reference letters.
- a statement of intent/plan of study, which should be primarily a description of the applicant's professional goals. The statement/plan shall clearly describe the student's proposed general thesis topic and a strategy for pursuing it, including a list of proposed courses and a list of faculty whom the student foresees as contributing to the course of study.
- a portfolio of creative and design work executed at the undergraduate level, under professional guidance or independently, provided that such work can be evidenced as executed by the applicant. A minimum portfolio representation of one project for each year of academic undergraduate study, or its equivalent, is required.

The best-qualified students will be accepted up to the number of spaces available for new students. Acceptance to the program prior to the completion of all required course work is provisional, contingent upon meeting the previous requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Army (ARMY)

The Army Reserve Officers' Training Corps (Army ROTC) is an elective program of instruction and training that offers qualified students the opportunity to earn a commission as an officer (Second Lieutenant) and to serve in the United States Army, Army National Guard, or United States Army Reserve while working toward a baccalaureate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory, decision making, management skills, time management, and military knowledge and skills. The four-year program is conducted in two successive phases--the Basic Course and Advanced Course (20 total credits). At least 6 Army ROTC credits may be applied toward baccalaureate degree requirements in all majors, usually as elective credits. Course subjects and credits appear under ROTC course descriptions in this bulletin.

The Basic Course is a four-course series, usually taken in the freshman and sophomore years. Freshman and sophomore courses are 2 credits each. The Basic Course trains the student in a variety of topics, including the national defense structure, leadership theory and principles, land navigation, small-unit operations and tactics, military history, and basic military skills and knowledge. The student incurs no military service obligation while enrolled in the Basic Course, and may dis-enroll at any time (except for sophomores on Army ROTC scholarships). Enrollment in the Basic Course is open to all Penn State full-time students. Also, uniforms, textbooks, and most equipment are furnished at no charge by the government to all enrolled students.

The Army ROTC program is much more than just taking classes. Each semester, the Army ROTC program consists of five activity segments: classroom lectures (one or two fifty-minute classes per week), a 100-minute Leadership Laboratory, Physical Training sessions, day trips and field training exercises, and extracurricular activities that include numerous clubs and social events. While the latter three activities are generally optional for enrolled Basic Course students, most students become progressively involved to enhance their training, develop esprit de corps, and take part for the social and fun aspects of the program.

The Advanced Course consists of a series of four courses, each for 3 credits. The Advanced Course instructs and evaluates in such areas as leadership and management, tactical operations, strategy, personnel administration, logistics, military justice, and ethics. Advanced Course students incur a service obligation when contracted, after which they receive a cash stipend of up to \$400 per month (tax free) up to \$4,000 per academic year. Normally, in the summer between the junior and senior years, students attend a five- to six-week National Advanced Leader's Course, for which salary and travel expenses are paid for the student. National Advanced Leader's Course is a critical hurdle that students must pass to receive a commission. In addition, students must complete at least one University course in each of five areas prior to commissioning: written communications, human behavior, computer literacy, mathematical reasoning, and American military history. These courses may also fulfill the student's General Education or academic major curriculum requirements.

Students may enter Army ROTC during their baccalaureate studies up until the start of their junior year via several lateral entry methods. These methods include compressing the Basic Course into one year (for sophomores), attending a four-week summer training program called Army ROTC Leader's Training Course, or by receiving constructive credit for prior military service. Entry after this time is possible only when an enrolling student will be continuing his/her education after baccalaureate graduation. Contracted students who wish to continue their education at a graduate level may request an education delay before starting their service obligation.

Three-year Army ROTC scholarships are available to students on a competitive basis. These merit scholarships pay full tuition, a book allowance (\$600 per year), and a tax-free subsistence stipend of up to \$400 per month up to \$4,000 per academic year. Four-year scholarships are available only through competition in the high school senior year. Army ROTC scholarships are awarded in five major categories: engineering, analytic/physical sciences, nursing, technical/management, and generalists (all other majors except theology). In particular, Army ROTC has a strong program for Nursing majors with numerous scholarship and enrollment options.

Penn State Army ROTC is one of the largest and most successful ROTC programs in the United States. Army ROTC is offered at the following campuses: Abington, Altoona, Hazleton, and University Park. However, only the University Park campus offers the complete four-year program within the Penn State Army ROTC system. Army ROTC is also available at most other campuses through cross-enrollment agreements with other colleges and universities. For additional information on Army ROTC, see the enrollment officer at 212 Wagner Building on the University Park campus or call 814-863-0368 (toll free: 1-866-558-3513) or visit us at [www.psu.edu/dept/armyrotc](http://www.psu.edu/dept/armyrotc) on the Web.

## Archaeological Science

University Park, College of the Liberal Arts (ARSCI)

PROFESSOR GEORGE R. MILNER, *Head, Department of Anthropology*

(The Bachelor of Science degree in Archaeological Science is offered by the Archaeology Program in the Department of Anthropology.)

This degree provides the opportunity to develop a strong foundation in research methods, quantification, field methods, and laboratory science. It prepares students with the skills and competencies needed to pursue careers in cultural resource management. Students contemplating futures in nonacademic archaeology should consider this degree or some of its recommended courses.

For the B.S. degree in Archaeological Science, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**GENERAL EDUCATION:** 45 credits

(10 of these 45 credits are included in REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 5 credits

**REQUIREMENTS FOR THE MAJOR:** 70 credits<sup>[1]</sup>

(This includes 10 credits of General Education courses: 4 credits of GQ courses; 6 credits of GN courses.)

**PRESCRIBED COURSES** (40 credits)

ANTH 002 GS(3), ANTH 011 GS;IL(3), ANTH 021 GN(3), ANTH 045 GS;US;IL(3), ANTH 421(3), ANTH 423(3), ANTH 428(3), ANTH 433(3), 3 credits from ANTH 492(3-6), 3 credits from ANTH 493(3-6), GEOSC 001(3), SOILS 101 GN(3), STAT 200 GQ(4) (Sem: 1-6)

**ADDITIONAL COURSES** (30 credits)

Select 9 additional Archaeology credits from the following ranges: ANTH 320-339 or ANTH 420-439 (Sem: 3-8)

Select an additional 18 credits in ANTH electives (other than ANTH 001, no more than 9 credits from 190-199, 290-299, 390-399, 490-499, other than 297 and 497) (Sem: 3-8)

Select 3 credits from GEOSC 320(3), or SOILS 416(4) (Sem: 6-8)

### Integrated B.S. in Archaeological Science and B.A. in Classics and Ancient Mediterranean Studies/M.A. in Anthropology Degree Requirements

The Department of Anthropology offers an integrated B.A./B.S./M.A. (IUG) program designed to allow academically superior students to obtain a B.A. or B.S. degree in Anthropology, a B.A. degree in Classics and Ancient Mediterranean Studies (CAMS), a B.S. degree in Archaeological Science and a M.A. degree in Anthropology in five years of study. To complete the program in five years, students interested in the Integrated Undergraduate and Graduate degree in Anthropology must apply for admission to the Graduate School and the Integrated B.S./M.S. Program by the end of their junior year.

During the first three years, the student will follow course scheduling for the B.A. degree in CAMS and either the B.A. degree in Anthropology or the B.S. degree in Archaeological Science (see the Undergraduate *Bulletin*). Students who intend to enter the IUG program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.A. advisors will be appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected options for their B.A. or B.S. majors, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their thesis research to meet the M.A. thesis requirements. During the fifth year, IUG students take courses fulfilling the M.A. degree requirements and complete their M.A. thesis.

### Admission Requirements

Students who wish to complete the Integrated Undergraduate and Graduate Program in Anthropology should apply for admission to both the Graduate School and the IUG Anthropology Program no later than the end of their junior year. Successful students will be admitted formally into the graduate program in Anthropology just prior to their senior year, if their progress has been satisfactory. Admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the joint Anthropology-CAMS admission committee. Criteria for admission include a minimum overall GPA of 3.4 in their majors, strong recommendation letters from faculty, and an excellent proposal for a research project with a specific adviser who has agreed to guide the student through to the completion of the M.A. thesis.

### Graduate Coursework

#### REQUIRED COURSES

##### ANTHROPOLOGY (ANTH)

493. Field Techniques (3)  
521. Current Literature in Archaeology (2)  
545. Seminar in Anthropology (6)  
588. Method and Theory in Archaeology (3)  
600. Thesis Research (6)

##### ADDITIONAL COURSES

Four required credits in ANTH 494(1-12) or CAMS 494(1-12)

Six required credits in CAMS 592(3), 593(3-6), or 596(1-9)

NOTE: Internships will be counted as elective credits.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Art History

*University Park, College of Arts and Architecture (ART H)*

PROFESSOR CRAIG ZABEL, *Head, Department of Art History*

The art history major is designed to provide students with a solid background in the history of art. The histories of painting, sculpture, architecture, design, and the graphic arts are examined in relation to such contextual issues as religion, politics, society, gender, economics, philosophy, and culture. Students who pursue the Bachelor of Arts in art history will acquire a thorough humanistic education that involves writing, speaking, and participating in group discussions, as well as developing a facility in at least one foreign language. Majors are also encouraged to pursue a study abroad experience.

The major provides students with a solid liberal arts background and is an excellent preparation for the further study of art history or other related fields in graduate school. With a B.A. in art history, graduates have found employment in museums, galleries, publishing, arts agencies, visual resources, archives/libraries, archaeology, historic preservation, and historic sites. The two most common careers for art historians are teaching at the college level or working in a museum (as a curator, registrar, director, etc.). These careers typically require graduate degrees.

For the B.A. degree in Art History, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 19 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**PRESCRIBED COURSES** (9 credits)

ART H 111 GA;IL(3), ART H 112 GA;IL(3) (Sem: 1-4)

ART H 350W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)

(At least 12 credits must be taken at the 400 level, ART H 297, ART H 397, and ART H 497 also may be used to fulfill the additional course requirements when the subject matter is appropriate. Any one course may not be double counted for more than one category.)

Select 3 credits (Non-Western Intro) from ART H 120 GA;IL(3), ART H 130 GA;US;IL(3), ART H 140 GA;IL(3) (Sem: 1-4)

Select 3 credits (Architectural History Intro) from ART H 201 GA;IL(3), ART H 202 GA;US;IL(3), or ART H 330 GA;IL(3) (Sem: 1-4)

Select 3 credits (Africa/Asia/Oceania/Pre-Columbian Americas) from ART H 120 GA;IL(3), ART H 130 GA;US;IL(3), ART H 140 GA;IL(3), ART H 315 GA;IL(3), ART H 320 GA;IL(3), ART H 330 GA;IL(3), ART H 335 GA;IL(3), ART H 440 IL(3-9), ART H 445 IL(3), ART H 446 IL(3), ART H 447 IL(3) or ART H 460 IL(3) (Sem: 3-8)

Select 3 credits (Ancient/Byzantine/Medieval) from ART H 301 GA;IL(3), ART H 302 GA;IL(3), ART H 311 GA;IL(3), ART H 312 GA;IL(3), ART H 401 IL(3-9), ART H 402 IL(3), ART H 411 IL(3), ART H 412 IL(3), ART H 420 IL(3), ART H 422 IL(3), ART H 426 US;IL(3), ART H 442 IL(3), or ART H 452 IL(3) (Sem: 3-8)

Select 3 credits (Renaissance/Baroque/Modern/Contemporary) from ART H 225 GA;GH(3), ART H 250(3), ART H 303 GA;IL(3), ART H 304 GA;IL(3), ART H 305 GA;IL(3), ART H 307 GA;US(3), ART H 313 GA;IL(3), ART H 314 GA;IL(3-6), ART H 325 GA;IL(3), ART H 326 GA;IL(3), ART H 405 US;IL(3-6), ART H 410(3), ART H 414 IL(3), ART H 415 US(3), ART H 416 US(3), ART H 420 IL(3), ART H 423 IL(3-9), ART H 424 IL(3), ART H 426 US;IL(3), ART H 429 IL(3), ART H 435 IL(3-6), ART H 450 US;IL(3), ART H 456 IL(3), ART H 458 IL(3), ART H 462 IL(3), ART H 464 IL(3), ART H 470 US;IL(3), ART H 475 US(3) or ART H 476(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits of art history (excluding ART H 100 GA;IL) (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Art

Abington College (ARTAB)  
University Park, College of Arts and Architecture (ARTBA)

PROFESSOR GRAEME SULLIVAN, *Director, School of Visual Arts*

The B.A. degree in art provides a comprehensive liberal education coupled with professional resident instruction in art. Depending on each student's objectives and course choices, this degree provides preparation for a professional career, a foundation for graduate studies, or a liberal arts education in art. Each student must elect an area of concentration from one of the following: ceramics, drawing and painting, new media, photography, printmaking, or sculpture.

For a B.A. degree in Art, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR. See description of General Education in this bulletin.)

## Arts Administration

*Penn State Erie, The Behrend College (ARTSA)*  
*Penn State Lehigh Valley (ARACC)*

*Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.*

The Penn State Erie Arts Administration program is intended for students with an interest in the arts and a desire to pursue careers in the administration or management of arts organizations such as museums, theatre companies, orchestras and choruses. The program combines a broad exposure to the arts with significant training in management, marketing, event planning, strategic planning, writing, development, and digital communication.

The interdisciplinary Arts Administration program answers the growing need for leaders and administrators of arts organizations that must compete, survive, and thrive in a corporate world. Recognizing that these organizations have missions that are different from business corporations, the Arts Administration program aims to produce capable arts administrators, managers, and entrepreneurs with both aesthetic sensibilities and business acumen. Successful arts administration is crucial to the continued vitality of modern cultural institutions, creative enterprises, and arts organizations. If the public is to benefit, skilled arts administrators must facilitate the work of artists to realize their artistic vision and share it with the public, by executing the necessary financial, legal, and organizational decisions. In short, talented arts administrators are partners in a collaborative artistic process. The major includes the following options:

Digital Media Option - emphasizes design and social media engagement, so that student may create and manage online content for cultural organizations. Students develop proficiency in web writing, image editing, layout, and communication-based advertising.

Marketing Option - provides a business core for careers that emphasize fiscal planning with arts organizations. The coursework includes statistics, marketing research, and services marketing which is specific to arts and cultural organizations.

For the B.A. degree in Arts Administration, a minimum of 120 credits is required. Students must earn C or better in ART H 111 GA;IL(3) or ART H 112 GA;IL(3), MUSIC 005 GA(3), THEA 105 GA(3) to be eligible for entrance to the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (15-18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in front of Bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in ELECTIVES or GENERAL EDUCATION course selection)

## Astronomy and Astrophysics

University Park, Eberly College of Science (ASTRO)

PROFESSOR DONALD P. SCHNEIDER, *Head*

Astronomy involves the study of the properties, physical nature and origins of the planets, stars, galaxies and universe as a whole. It involves development of instrumentation, observations of celestial objects with ground- and space-based telescopes, and interpretation of findings using the mathematical laws of physics such as gravity, electromagnetism and quantum mechanics. The undergraduate major provides a strong and broad foundation in mathematics, physical science and computation as well as a detailed understanding of modern astronomy. Many research opportunities are available to complement the formal classwork. Graduates proceed to advanced degrees in astronomy and other sciences, and into a wide variety of technical professions.

In order to be eligible for entrance to the Astronomy and Astrophysics major, a student must have: 1) Attained at least a 2.00 cumulative grade-point average. 2) Completed ASTRO 291 GN(3), CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), and PHYS 212 GN(4); and earned a grade of C or better in each of these courses.

For the B.S. degree in Astronomy and Astrophysics, a minimum of 125 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

## Athletic Training

University Park, College of Health and Human Development (ATHTR)

Not all majors are available at every campus. The Athletic Training major will only be offered at University Park campus.

PROFESSOR NANCY I. WILLIAMS, *Head, Department of Kinesiology*

The Athletic Training major provides a concentrated program of courses designed to prepare students for a career in the profession of athletic training. This major has been designed to meet the standards for national certification by the Board of Certification (BOC) and legal certification by the Commonwealth of Pennsylvania.

Students are admitted into the program on a competitive basis following completion of prerequisite courses (see requirements for admission). Students must also meet the "Technical Standards for the Undergraduate Athletic Training Program at Penn State University" related to the physical and psycho-emotional demands placed upon students in the major. Upon admission, students complete a 5-semester sequence of coursework and supervised clinical rotations. Students typically commit 200 to 300 hours to clinical practical experiences in each of the last 4 semesters of the program. The Technical Standards course sequencing and prerequisite courses can be found at [http://www.hhdev.psu.edu/kines/undergrad/docs/Athletic\\_Training\\_Technical\\_Standards.pdf](http://www.hhdev.psu.edu/kines/undergrad/docs/Athletic_Training_Technical_Standards.pdf) or obtained through the Department of Kinesiology. Full course descriptions are found in the University *Bulletin*.

Students seeking to transfer from other colleges or universities will have their transcripts evaluated after acceptance to Penn State to identify those courses and credits that will be applied to completion of degree requirements. Coursework specific to athletic training will not be considered for transfer unless completed in a Commission on Accreditation of Athletic Training Education (CAATE) accredited athletic training education program.

The Athletic Training major requires a minimum of 120 credits for graduation. Upon graduation and successful completion of the national BOC examination, students may seek employment in various professional settings including: professional sports, colleges and universities, secondary schools, hospitals, sports medicine clinics, industrial settings plus many more.

Minimum Requirements for Admission to the Athletic Training major (admission is competitive--meeting minimum requirements does not assure admission into the major):

1. Submission of printable online Athletic Training (AT) Program Application
2. Cumulative grade-point average of 2.5.
3. 3.0 grade-point average in KINES 135(3), KINES 202(4), KINES 231(3), KINES 233(3).
4. Completion of entrance interview with Athletic Training Program Director or designee.
5. Evidence of ability to meet the physical and psycho-emotional standards as outlined in the "Technical Standards for the Undergraduate Athletic Training Program at Penn State."

Additional information about the major, including Technical Standards, the Athletic Training (AT) Program Application, course sequencing, and prerequisites can be found at: <http://www.hhdev.psu.edu/kines/undergraduate/athletic-training> or obtained through the Department of Kinesiology. Full course descriptions are found in the University *Bulletin*.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. BB H requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 96-100 credits

(This includes 21 credits of General Education courses: 6 credits of GQ courses; 9 credits of GN courses; 3 credits of GS courses; 3 credits of GHA courses).

### ELECTIVES: 0-1 credits

### PRESCRIBED COURSES (81 credits) [1]

MATH 022 GQ(3), CHEM 111 GN(1), KINES 135(3), PSYCH 100 GS(3) (Sem: 1-2)  
BIOL 141 GN(3), KINES 231(3), KINES 233(3) (Sem: 3)  
KINES 202(4), NUTR 251 GHA(3), KINES 321(3), KINES 341 IL(3), KINES 345(3), KINES 350(3), KINES 360(3), KINES 384(3)(Sem: 3-6)  
KINES 232(3), KINES 334(3) (Sem: 4)  
KINES 335(3), KINES 395F(3), KINES 434(3) (Sem: 5)  
KINES 336(3), KINES 395G(3), KINES 435(3), KINES 436(4) (Sem: 6)  
KINES 395I(3), KINES 438W(3) (Sem: 7)  
KINES 495F(3) (Sem: 8)

### ADDITIONAL COURSES (15-19 credits) [1]

Select 3-5 credits: CHEM 106 GN(5); CHEM 110 GN(3) (Sem: 1-2)  
Select 3 credits: KINES 100(3); KINES 141 US:IL(3) (Sem: 1-4)  
Select 3 credits: KINES 101(3); KINES 180(3) (Sem: 1-4)  
Select 3-4 credits: PHYS 150 GN(3); PHYS 250 GN(4) (Sem: 3-4)  
Select 3-4 credits: STAT 200 GQ(4); STAT 250 GQ(3); SCM 200 GQ(4); (Sem: 3-4)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Review Date: 11/17/2015

## Biological Engineering

University Park, College of Agricultural Sciences  
University Park, College of Engineering (B E)

PROFESSOR PAUL H. HEINEMANN, *Head of the Department of Agricultural and Biological Engineering*

This major helps prepare students for careers involving the application of engineering principles to agricultural and biological production systems, processing systems, and conservation of land and water resources. Education in mathematics, physics, and engineering sciences common to all engineering disciplines is provided along with specialized training in biological and agricultural sciences. The curriculum covers all areas of biological engineering, including development of machines for biological processing and agriculture, postharvest handling and processing, natural resource management and utilization, biological processes, food engineering, and structures and their environmental modifications. A student must select the Agricultural Engineering option, Food and Biological Processing Engineering option or the Natural Resources Engineering option.

### Program Educational Objectives:

Early career Biological Engineering graduates will be expected to:

1. Demonstrate proficiency in basic and engineering sciences related to biological processing, natural resource, and agricultural engineering fields;
2. Effectively identify, analyze and design sustainable solutions to address issues and opportunities throughout the world;
3. Have the ability to work in teams and effectively communicate within and outside the profession;
4. Demonstrate strong leadership skills, ethical integrity, and professional engagement

### Program Outcomes (Student Outcomes):

Upon graduation Biological Engineering students will have:

- a. an ability to apply knowledge of mathematics, science, and engineering
- b. an ability to design and conduct experiments, as well as to analyze and interpret data
- c. an ability to design a system, component, or process to meet desired needs
- d. an ability to function on multi-disciplinary teams
- e. an ability to identify, formulate, and solve engineering problems
- f. an understanding of professional and ethical responsibility
- g. an ability to communicate effectively
- h. the broad education necessary to understand the impact of engineering solutions in a global and societal context
- i. a recognition of the need for an ability to engage in life-long learning
- j. a knowledge of contemporary issues
- k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

Principles of engineering design experiences are integrated throughout the junior-year curriculum by having students solve problems typical of those encountered in the agricultural and biological engineering profession. A year-long major design experience in the senior year emphasizes that biological engineers must learn not only how to develop engineering solutions to unique, practical problems using the newest technology, but also to assess and integrate the social and ethical implications of their solutions.

Careers for graduates include design, development, and research engineering positions involving biological processes, machinery development, natural resources management, materials handling, biological product development, and structural systems for animals, plants, and crop storage. Biological engineers are employed in industry, consulting firms, and governmental agencies in the United States and abroad. Graduates deal with the various engineering aspects associated with production and processing of food, fiber, and other biological materials, within the constraints of environmental protection and natural resource conservation.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Biological Engineering, a minimum of 129 credits is required. The baccalaureate program in Biological Engineering at University Park is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(27-28.5 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 111-112.5 credits

(This includes 27-28.5 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses; and 1.5 credits of GHA courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 75 credits

#### PRESCRIBED COURSES (68 credits)

CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1), E MCH 211(3) [\[1\]](#), EDSGN 100(3), ENGL 015 GWS(3), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#) (Sem: 1-2)  
E MCH 212(3) [\[1\]](#), E MCH 213(3) [\[1\]](#), M E 300(3) [\[1\]](#), MATH 231(2), MATH 251(4) [\[1\]](#), PHYS 212 GN(4) [\[1\]](#) (Sem: 3-4)  
B E 301(3) [\[1\]](#), B E 302(4) [\[1\]](#), B E 304(3) [\[1\]](#), B E 305(3) [\[1\]](#), B E 308(3) [\[1\]](#), B E 391 GWS(2) (Sem: 5-6)  
B E 392 GWS(2), B E 460(1), B E 466W(3) (Sem: 7-8)

#### ADDITIONAL COURSES (7 credits)

CAS 100A GWS(3) or CAS 100B GWS(3)

Select 1 credit of First-Year Seminar (Sem: 1-2)

AG BM 101 GS(3) or ECON 102 GS(3), or ECON 104 GS(3) (Sem: 3-4)

### REQUIREMENTS FOR THE OPTIONS: 36-37.5 credits

#### AGRICULTURAL ENGINEERING OPTION: (36 credits)

#### ADDITIONAL COURSES (6 credits)

C E 360(3) [\[1\]](#) or M E 320(3) [\[1\]](#) (Sem: 5-6)

I E 424(3) or STAT 401(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (30 credits)Select 3 credits in math/basic science [\[26\]](#) (Sem: 3-6)Select 6 credits from B E 303(3) [\[11\]](#), B E 306(3) [\[11\]](#), B E 307(3) [\[11\]](#) (Sem: 5-6)Select 6 credits in engineering science/design [\[26\]](#) (Sem: 5-8)Select 3 credits in agricultural/biological science [\[26\]](#) (Sem: 7-8)Select 6 credits in biological engineering [\[26\]](#) (Sem: 7-8)Select 6 credits in technical selection [\[26\]](#) (Sem: 7-8)

(Students may apply 3 credits of ROTC to the technical selection category and 3 credits to the GHA category upon completion of the ROTC program.)

**FOOD AND BIOLOGICAL PROCESSING ENGINEERING OPTION:** (37.5 credits)**PRESCRIBED COURSES** (16.5 credits)

B M B 211(3), CHEM 202(3), NUTR 100 GHA(1.5) (Sem: 5-6)

B E 465(3), B E 468(3), I E 424(3) (Sem: 7-8)

**ADDITIONAL COURSES (3 credits)**C E 360(3) [\[11\]](#) or M E 320(3) [\[11\]](#) (Sem: 5-6)**SUPPORTING COURSES AND RELATED AREAS** (18 credits)Select 6 credits in emphasis technical elective [\[26\]](#) (Sem: 7-8)Select 6 credits in any engineering science/design [\[26\]](#) (Sem: 7-8)Select 6 credits in technical selection [\[26\]](#) (Sem: 7-8)

(Students may apply 3 credits of ROTC to the technical selection category and 3 credits to the GHA category upon completion of the ROTC program.)

**NATURAL RESOURCES ENGINEERING OPTION:** (36 credits)**PRESCRIBED COURSES** (21 credits)

SOILS 101 GN(3) (Sem: 1-4)

A S M 309 (3) [\[11\]](#), B E 307(3) [\[11\]](#), C E 360(3) [\[11\]](#) (Sem: 5-6)

B E 467(3), B E 477(3), B E 487(3) (Sem: 7-8)

**ADDITIONAL COURSES (3 credits)**

I E 424(3) or STAT 401(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)Select 6 credits in engineering science/design [\[26\]](#) (Sem: 5-8)Select 3 credits in biological/environmental sciences [\[26\]](#) (Sem: 7-8)Select 3 credits in technical selection [\[26\]](#) (Sem: 7-8)

(Students may apply 3 credits of ROTC to the technical selection category and 3 credits to the GHA category upon completion of the ROTC program.)

**[11]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.**[26]** Courses to be selected from a list approved by the Agricultural and Biological Engineering faculty. These courses must be chosen so that the engineering design and engineering science requirements for the major are met.

## Biochemistry and Molecular Biology

*Penn State Berks (BMBBL)*  
*University Park, Eberly College of Science (B M B)*

PROFESSOR Wendy Hanna-Rose, *in charge*

Students in this major apply basic principles of chemistry and physics to the study of living cells and their components to explain biology at molecular, genetic, and cellular levels. Students will develop a strong foundation in quantitative and analytical biological sciences, including molecular biology, biochemistry, enzymology, metabolism, cell biology, and molecular genetics. The Biochemistry Option is offered for students who have interests in the structures, properties and functions of macromolecules, and in the quantitative and analytical techniques used to characterize these macromolecules. The Molecular and Cell Biology Option is available to students whose interests relate to the growth, reproduction and differentiation of cells and to signaling processes that occur in multicellular systems that activate and modulate these processes. The curriculum is designed to prepare students for advanced study leading to careers in research, medicine, and education, or to secure employment in biotechnology and health-related industries, including government, academic, and private laboratories.

In order to be eligible for entrance to the Biochemistry and Molecular Biology major, a student must have: 1) attained at least a 2.00 cumulative grade-point average, and 2) completed CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), and MATH 140 GQ(4); and 3) earned a grade of C or better in each of these courses.

For the B.S. degree in Biochemistry and Molecular Biology, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 95 credits<sup>[86]</sup>  
 (This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 55 credits

**PRESCRIBED COURSES** (53 credits)  
 CHEM 110 GN(3)<sup>[11]</sup>, CHEM 111 GN(1)<sup>[11]</sup>, CHEM 112 GN(3)<sup>[11]</sup>, CHEM 113 GN(1), MATH 140 GQ(4)<sup>[11]</sup>, MATH 141 GQ(4), PSU 016(1) (Sem: 1-2)  
 B M B 251(3)<sup>[85]</sup>, B M B 252(3)<sup>[85]</sup>, B M B 442(3), BIOL 322(3), CHEM 210(3), CHEM 212(3), CHEM 213(2), MICRB 201(3)<sup>[85]</sup>, MICRB 202(2) (Sem: 3-4)  
 B M B 400(2), B M B 401(3), B M B 402(3), B M B 443W(3) (Sem: 5-6)

**ADDITIONAL COURSES** (2 credits)  
 B M B 445W(2) or B M B 448(2) (Sem: 7-8)

**REQUIREMENTS FOR THE OPTION:** 40 credits

**BIOCHEMISTRY OPTION:** (40 credits)

**PRESCRIBED COURSES:** (21 credits)  
 PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 2-4)  
 CHEM 450(3), CHEM 452(3) (Sem: 5-8)  
 B M B 474(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS:** (19 credits)  
 Select 7-9 credits from any 400-level B M B/CHEM/MICRB course with a total maximum of 4 credits in B M B 488 and/or B M B 496 (Sem: 5-8)  
 Select 2-3 credits in the mathematical sciences from department list B (Sem 5-8)  
 Select 7-10 credits from department list C (Sem: 5-8)

**MOLECULAR AND CELL BIOLOGY OPTION:** (40 credits)

**PRESCRIBED COURSES:** (9 credits)  
 B M B 430(3), B M B 460(3) (Sem: 5-8)  
 MICRB 410(3) (Sem: 5-8)

**ADDITIONAL COURSES:** (11-18 credits)  
 PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 1-4)  
 CHEM 450(3), CHEM 452(3); or B M B 428(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS:** (13-20 credits)  
 Select 5-6 credits from any 400-level B M B/MICRB course with total maximum of 4 credits in B M B 488 and/or B M B 496 (Sem:5-8)  
 Select 2-3 credits in the mathematical sciences from department list B (Sem: 5-8)  
 Select 4-13 credits from department list C (Sem: 5-8)

<sup>[11]</sup> A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

<sup>[85]</sup> To graduate, a grade of C or better is required in two of the following courses: MICRB 201, B M B/MICRB 251, B M B/MICRB 252.

<sup>[86]</sup> To graduate, a grade of C or better is required in 9 credits of any B M B or MICRB 400-level course except B M B 442, B M B 443W, B M B 445W, B M B 446, B M B 448, B M B 488, B M B 496, MICRB 421W, MICRB 422, MICRB 447.

## Bachelor of Philosophy Degree

*Intercollege Program (B PH)*

*OFFICE OF THE VICE PRESIDENT AND DEAN FOR UNDERGRADUATE EDUCATION*

The Bachelor of Philosophy degree is designed to allow students to plan their own programs in conjunction with a faculty mentor and is intended for those few students for whom the present degree requirements are restrictive and not responsive to their needs. While the educational goals of most students are adequately met by existing degree programs, those who can demonstrate that the usual requirements of conventional programs prevent them from adequately meeting their goals may apply. An important standard for admission to the Bachelor of Philosophy degree program will be the ability of students to demonstrate that their stated goals are viable and worthy of a college degree.

The faculty mentor is responsible for assisting the student in planning the program and in achieving the proposed goals. The mentor must be able to certify to the Bachelor of Philosophy Degree Committee that the student has achieved the stated goals. The basis of this certification might be a comprehensive examination (written or oral), a written report, a public seminar or performance, or the presentation of a paper to a national meeting of a professional society, etc. A faculty member may serve as mentor for only one student at any given time.

The program is administered by an intercollege committee under the Office of the Vice President and Dean for Undergraduate Education. The Bachelor of Philosophy Degree Committee is responsible for selecting the students and their faculty mentors for the program, annually examining the progress of all students in the program, and approving the completion of the degree based on the certification made by the faculty mentor.

### *Requirements for Admission*

1. An entry interview with the candidate, the faculty mentor, and the members of the Bachelor of Philosophy Degree Committee is required prior to admission to the program. This preliminary interview provides an opportunity for the candidate to discuss and justify the intended use of the Bachelor of Philosophy degree program, and the unique circumstances that surround the applicant.
2. Second-, third-, and fourth-semester students may apply; those selected will begin their programs the following semester. Exceptions may be approved by the committee.
3. Evidence of successful completion of course work requiring independent research is required. In addition, the committee will consider the applicant's cumulative grade-point average as an index of academic performance and responsibility. Applicants must possess the capability of performing at a **3.0** minimum level.
4. Approval of the student's program by the committee is required.

### *Requirements for Graduation*

1. Satisfactory completion of a program approved by the committee: (a) a minimum of 120 credits to include at least 18 credits at the 400 or 500 level; (b) certification by the faculty mentor; (c) and approval of a capstone, thesis or equivalent, by the faculty mentor.
2. Approval by the committee for graduation following presentation and defense of the capstone, thesis or equivalent.

## Biological Anthropology

*University Park, College of the Liberal Arts (BANTH)*

PROFESSOR GEORGE R. MILNER, *Head, Department of Anthropology*

(The Bachelor of Science degree in Biological Anthropology is offered by the Biological Anthropology Program in the Department of Anthropology.)

The Bachelor of Science degree provides the opportunity to develop a strong foundation in research methods, quantification, and laboratory science. It prepares students with the skills and competencies needed to pursue graduate study or careers in professions associated with biological anthropology and related fields. Students contemplating futures in biomedical or forensic sciences should consult with Penn State's Premedicine Office or the specific forensic science graduate program to make certain that additional courses in organic chemistry and physics that are required for admission are completed.

For the B.S. degree in Biological Anthropology, a minimum of 122 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**GENERAL EDUCATION:** 45 credits

(13 of these credits are included in REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 23-30 credits

**REQUIREMENTS FOR THE MAJOR:** 67credits [\[1\]](#)

(This includes 13 credits of General Education courses; 9 credits GN courses; 4 credits GQ courses.)

**PRESCRIBED COURSES** (17 credits)

ANTH 002 GS(3), ANTH 021 GN(3), ANTH 045 GS;US;IL(3), BIOL 110 GN(4), STAT 200 GQ(4) (Sem: 1-6)

**ADDITIONAL COURSES** (50 credits)

Select an additional 18 credits in ANTH elective courses other than ANTH 001, (no more than 9 credits from 190-199, 290-299, 390-399, and 490-499 other than 297 and 497) (Sem: 1-8)

Select 15 Biological Anthropology credits from the following ranges: ANTH 401-419(3) or ANTH 460-473(3) (Sem: 3-8)

Select 8 credits from the following: BIOL 129 GN(4), BIOL 230W GN(4), BIOL 240W GN(4), or KINES 202(4) (Sem: 3-8)

Select 9 credits from the following: B M B 251(3), B M B 401(3), B M B 484(3), B M B 485(3), BIOL 141 GN(3), BIOL 411(3), or BIOL 472(3), (Sem: 3-8)

*NOTE: Internships will be counted as elective credits.*

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Biobehavioral Health

University Park, College of Health and Human Development (BB H)  
University College: Penn State Greater Allegheny, Penn State New Kensington  
World Campus

PROFESSOR COLLINS O. AIRHIHNBWUA, *Head of the Department*

This major provides interdisciplinary training designed to integrate biological, behavioral, and social science approaches to the study of human health and illness. Emphasis is placed on the study of physical health. The goal of this major is to help students gain working familiarity with multiple perspectives, approaches, and methods needed to address and solve problems of human health and illness. Students may select courses in the supporting courses category that will fulfill requirements for admission to graduate and professional programs. This major helps prepare graduates for entry-level jobs in a range of biomedical and health-related areas, including roles as research assistants, laboratory managers, biomedical product representatives, technical support positions in biomedical and health-related fields. This major also will provide excellent preparation for advanced study in natural and social science disciplines and related professional areas such as epidemiology, public health, environmental health and safety, and human services.

For the B.S. degree in Biobehavioral Health, a minimum of 120 credits is required.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. BB H requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

### REQUIREMENTS FOR THE MAJOR: 97-99 credits

(This includes 21-22 credits of General Education courses: 3-4 credits of GQ courses; 9 credits of GN courses; 6 credits of GS courses; 3 credits of GHA courses.)

### PRESCRIBED COURSES (31 credits)

BIOL 110 GN(4) (Sem: 1-3)  
BB H 101 GHA(3) [\[1\]](#), BIOL 141 GN(3) [\[1\]](#), NUTR 251 GHA(3), PSYCH 100 GS(3) [\[1\]](#) (Sem: 1-4)  
BB H 310(3) [\[1\]](#), BB H 311(3) [\[1\]](#), BB H 316(3) [\[1\]](#), BB H 411W(3) [\[1\]](#), BB H 440 US;IL(3) [\[1\]](#) (Sem: 5-8)

### ADDITIONAL COURSES (51-53 credits)

**Select 3 credits from:** BIOL 133 GN(3) or BIOL 222(3) (Sem: 1-2)

**Select 3-4 credits from:** BIOL 230W GN(4) [\[1\]](#) or CHEM 101 GN(3) [\[1\]](#) or CHEM 110 GN(3) [\[1\]](#) or MICRB 106 GN(3) [\[1\]](#) (classes used to fulfill this requirement may not be used to fulfill the 12 credits of basic science below) (Sem: 1-4)

**Select 3-4 credits from:** STAT 200 GQ(4) [\[1\]](#) or STAT 250 GQ(3) [\[1\]](#) (Sem: 1-2)

**Select 3 credits from:** BB H 301W(3), PHIL 110 GH(3), PHIL 132 GH(3), RL ST 131 GH(3) (Sem: 5-8)

**Select 12 credits from:** CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) (Sem: 1-2)

CHEM 202(3) or CHEM 210(3), CHEM 203(3) or CHEM 213(2), CHEM 212(3), MICRB 106 GN(3), MICRB 107 GN(1), PSYCH 260(3) (Sem: 3-4)  
AN SC 479(3), ANTH 021 GN(3), ANTH 022 GN(3), ANTH 216 GN;GS(3), B M B 211(3), BIOL 155 GN(3), BIOL 129 GN(4), BIOL 142(1), BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4), BIOL 422(3), BIOL 409(3), BIOL 479(3), EARTH 100 GN(3), EARTH 103 GN(3), EGEE 101 GN(3), EGEE 102 GN(3), EM SC 101 US;IL(3), FD SC 404(3), FD SC 405(3), FD SC 406(3), FD SC 407(2), FD SC 408(3), GEOG 110 GN(3), GEOG 314 GN(3), PHYS 250 GN(4), PHYS 251 GN(4), PSYCH 460(3), PSYCH 461(3), PSYCH 462(3), PSYCH 464(3), PSYCH 470(3), PSYCH 473(3), VB SC 211 GN(3), VB SC 230(3), VB SC 231(3) (Sem: 5-8)

**Select 15 credits from (at least 6 credits must be at the 400 level) [\[1\]](#):** BB H 203(3), BB H 251 US(3), BB H 302 US(3) [\[1\]](#), BB H 305 IL(3), BB H 315 US(3) [\[1\]](#), BB H 324(3), BB H 368(3) [\[1\]](#), BB H 390A(3), BB H 402 IL(3), BB H 407 IL(3), BB H 410(3) [\[1\]](#), BB H 416(3) [\[1\]](#), BB H 417(3), BB H 432(3) [\[1\]](#), BB H 446(3) [\[1\]](#), BB H 451(3) [\[1\]](#), BB H 452 US(3) [\[1\]](#), BB H 458 GS(3) [\[1\]](#), BB H 468(3), BB H 469(3) [\[1\]](#), BB H 470(3) [\[1\]](#), BB H 490(3) (Sem: 5-8)

**Select 9 credits from:** CSD 100 GHA;US(3), CSD 101 GHA;US(1.5), CSD 146 US;IL(3), CSD 218(3), CSD 230(3), CSD 269 GH;US;IL(3), H P A 057 GHA(3), H P A 101(3), H P A 310(3), HD FS 229 GS(3), HD FS 239 GS(3), HD FS 249 GS(3), HD FS 250 US(3), HD FS 302A(3), HD FS 311(3), HD FS 315 US(3), HD FS 405 US(3), HD FS 416 US(3), HD FS 418(3), HD FS 428(3), HD FS 429(3), HD FS 431(3), HD FS 433(3), HD FS 445(3), HD FS 468(3), KINES 100(3), KINES 101(3), KINES 141 US;IL(3), KINES 165(3), KINES 180(3), KINES 203(3), KINES 304(1), KINES 356(3), KINES 358(1), NUTR 111 GH;US(3), NUTR 358(2), NUTR 360(3), PSYCH 212 GS(3), PSYCH 243 GS(3), PSYCH 270(3) (Sem: 5-8)

**Select 3 credits from:** HD FS 129 GS(3), HD FS 229 GS(3), HD FS 239 GS(3), or HD FS 249 GS(3) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (15 credits)

Select 3 credits in health promotion at 400 level from approved list, in consultation with adviser (Sem: 5-8)

Select 12 credits in University-wide offerings from approved list, in consultation with advisor (Students may apply 6 credits of ROTC.) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Business Economics

*Penn State Erie, The Behrend College (BECON)*

Business Economics is a quantitatively-oriented program of study in applied economics. Leading to a B.S. degree, this major combines in-depth study of economics with a general business background, the latter including courses in accounting, finance, management, management information systems, marketing, and quantitative business analysis. Students may choose upper-division economics courses in business and economic forecasting, econometrics, economic theory, industrial organization, international economics, labor economics, managerial economics, and urban and regional economics. Use of computers as analytical and problem-solving tools is emphasized in the program. The major also includes several non-business supporting areas of study from which students may choose courses.

### Entrance to Major Requirements:

Entry to the Business Economics major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. Degree in Business Economics, a minimum of 120 credits is required.

Each student enrolled in this major must earn at least a grade of C in each 300- and 400-level course.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 2 credits

### REQUIREMENTS FOR THE MAJOR: 88 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (43 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3) (Sem: 3-4)  
 FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3)[1], SCM 310(3)[1] (Sem: 3-6)  
 ECON 302 GS(3)[1], ECON 304 GS(3)[1], ECON 485(3)[1] (Sem: 5-6)  
 ECON 470(3)[1] (Sem: 5-8)  
 MGMT 471W(3)[1] (Sem: 7-8)

### ADDITIONAL COURSES (24 credits)

[Some courses in this category have prerequisites that are not required in the program.]

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)

Select 12 credits from ECON 342(3)[1], ECON 410(3)[1], ECON 430(3)[1], ECON 442(3)[1], ECON 481(3)[1], or ECON 482(3)[1] (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (21 credits)

Select 9 credits of 300- or 400-level economics or other business courses [1] (see school list of approved courses) (Sem: 5-8)

Select 12 credits from the approved electives course list for the major. (Sem: 1-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Biomedical Engineering

University Park, College of Engineering (BME)

PROFESSOR CHENG DONG, *Head of the Department of Biomedical Engineering*

The Biomedical Engineering curriculum emphasizes the continuous integration of classical and modern engineering principles with the life sciences and health care. Biomedical Engineers apply these skills to innovation in the health care industry, basic biological sciences, and the underpinning of medical practice.

Consistent with the mission of Penn State University and the College of Engineering, the Penn State Bachelor of Science program in Biomedical Engineering aims to create world-class engineers who will, after graduation, contribute to social and economic development through the application of engineering to the solution of problems in medicine and biology.

### Program Educational Objectives

Three to five years after graduation, we expect our graduates to be:

- employed in industry and government positions which include, but are not limited to, research and development, regulation, manufacturing, quality assurance and sales and marketing, or,
- enrolled in graduate school, continuing education, or other professional development programs related to biomedical sciences and engineering, or,
- enrolled in medical school, dental school, or other health-related professional training programs.

### Program Outcomes (Student Outcomes)

Upon graduation from the Biomedical Engineering program, students will have:

1. An ability to apply knowledge of advanced mathematics, (including differential equations and statistics), science, and engineering to solve problems at the interface of engineering and biology
2. An ability to design and conduct experiments, as well as to analyze and interpret data from living and non-living systems
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. A recognition of the need for, and an ability to engage in, life-long learning
10. A knowledge of contemporary issues
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
12. An understanding of physics, chemistry, and of physiology at molecular, cellular and organ levels
13. An ability to address problems associated with the interaction between living and non-living materials and systems

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Biomedical Engineering, a minimum of 130-131 credits are required. The baccalaureate program in Biomedical Engineering at University Park is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

Students in residence at the Commonwealth campuses may satisfy the course requirements for semesters 1-3. They should then transfer to University Park to begin studies in their major beginning with semester 4.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of the *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 112-113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 89 credits

**PRESCRIBED COURSES** (72 credits)

EDSGN 100(3) (Sem: 1-2)

CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) (Sem: 1-2)

MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#) (Sem: 1-2)

CMPSC 200 GQ(3), E MCH 210(5), MATH 230(4), MATH 251(4) [\[1\]](#), PHYS 212 GN(4) [\[1\]](#) (Sem: 3-4)

BME 201(3) [\[1\]](#) (Sem: 4)

BME 301(4) [\[1\]](#), BME 303(3) [\[1\]](#), BME 313(3) [\[1\]](#), BME 401(3) [\[1\]](#), BME 402(3) [\[1\]](#), BME 403(1) (Sem: 5-6)

ENGL 202C GWS(3) (Sem: 5-6)

BME 429(2), BME 440(1), BME 450W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (14 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

ECON 102 GS(3), or ECON 104 GS(3) (Sem: 1-2)

BIOL 141 GN(3) [\[1\]](#), BIOL 142(1) [\[1\]](#), or BIOL 240W(4) [\[1\]](#) (Sem: 3-4)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits of Science or Engineering Elective courses from departmental list (Sem: 7-8)

**REQUIREMENTS FOR THE OPTION:** 23-24 credits

**BIOCHEMICAL OPTION:** (24 credits)

**PRESCRIBED COURSES** (9 credits)  
BME 409(3), BME 413(3) (Sem: 5-6)  
BME 423(3) (Sem: 7-8)

**ADDITIONAL COURSES** (3 credits)  
CHEM 202(3) or CHEM 210(3) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)  
Select 9 credits from Biochemical Option department list (Sem: 6-8)  
Select 3 credits from Related Electives department list (Sem: 6-8)

**MEDICAL IMAGING AND DEVICES OPTION:** (23 credits)

**PRESCRIBED COURSES** (7 credits)  
E E 210(4) (Sem: 3-4)  
BME 406(3) (Sem: 5-6)

**ADDITIONAL COURSES** (4 credits)  
CMPEN 271(3) and CMPEN 275(1) or CMPEN 270(4) or E E 310(4) or E E 330(4) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)  
Select 6 credits from the Related Electives department list (Sem: 6-8 )  
Select 6 credits from Medical Imaging and Device Option department list (Sem: 7-8)

**BIOMATERIALS OPTION:** (24 credits)

**PRESCRIBED COURSES** (12 credits)  
MATSE 201(3), BME 409(3), BME 443(3) (Sem: 5-6)  
BME 446(3) (Sem: 7-8)

**ADDITIONAL COURSES** (3 credits)  
CHEM 202(3) OR CHEM 210(3) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)  
Select 3 credits from Related Electives department list (Sem: 6-8)  
Select 6 credits from Biomaterials Option department list (Sem: 7-8)

**BIOMECHANICS OPTION:** (24 credits)

**PRESCRIBED COURSES** (9 credits)  
E MCH 212(3), E MCH 315(2), E MCH 316(1) (Sem: 4-6)  
BME 409(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)  
Select 9 credits from Biomechanics Option department list (Sem: 6-8)  
Select 6 credits from Related Electives department list (Sem: 6-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Biology

*Penn State Erie, The Behrend College (BIOBD)*

The curriculum in Biology is designed to provide students with a strong background in the biological sciences. It provides preparation for students who intend to secure advanced degrees through graduate study, students who intend to prepare for careers in medicine or health-related fields, and students preparing for careers with companies or agencies requiring employees with biological backgrounds. The curriculum has six options allowing students to choose an area of specialization that will best meet their career goals. In addition to selecting an option, students are strongly encouraged to participate in faculty-supervised research. The options are *General Biology* - various areas of modern biology; *Ecology, Evolution, and Behavior* - theoretical, practical, and applied ecology and evolution of plants and animals; *Genetics and Developmental Biology* - genetics and developmental biology of plants and animals; *Molecular and Cellular Biology and Biochemistry* - molecular and cellular mechanisms of biology; *Medical Technology* - prepares students for careers in clinical laboratories; and *Health Professions* - prepares students for careers in medicine and veterinary sciences; this option also allows exceptional students, who gain early admission to a professional school, to fulfill option requirements with a set number of academic credits taken during the first professional year.

**Entrance Requirement:** In order for entrance to the Biology major, a student must have: 1) attained at least a 2.00 cumulative grade point average; 2) completed BIOL 110 GN(4) and earned a grade of C or better; and 3) completed at least one of the following courses with a grade of C or better: BIOL 220W GN(4), or BIOL 240W GN(4).

For the B.S. degree in Biology, a minimum of 124 credits is required. Each student must earn at least a grade of C in each 200-, 300-, and 400-level BIOL, B M B, MICRB, PPEN, and W F S course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 97-99 credits  
(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 41 credits

**PRESCRIBED COURSES** (41 credits)  
CHEM 110 GN(3), CHEM 111 GN(I), CHEM 112 GN(3), CHEM 113 GN(I) (Sem: 1-2)  
BIOL 110 GN(4) [\[1\]](#), BIOL 220W GN(4) [\[1\]](#), BIOL 230W GN(4) [\[1\]](#), BIOL 240W GN(4) [\[1\]](#), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-4)  
ENGL 202C GWS(3), STAT 250 GQ(3) (Sem: 3-6)  
BIOL 322(3) [\[1\]](#) (Sem: 5-6)

**REQUIREMENTS FOR THE OPTION:** 56-58 credits

**ECOLOGY, EVOLUTION, AND BEHAVIOR OPTION:** (56 credits)  
Students can select courses in theoretical or applied ecology, evolution, field biology and animal behavior to build strength in ecological science. The option prepares students for graduate study in ecology and evolution, or careers in zoo science, environmental consulting, environmental management, environmental education or positions with regulatory agencies.

**PRESCRIBED COURSES** (3 credits)  
BIOL 427(3) [\[1\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (26-30 credits)  
BIOL 402W(3) or STAT 461(3) or STAT 462(3) or STAT 464(3) or STAT 466(3) (Sem: 5-8)  
Select 6-8 credits from one of the following sequences:  
a. CHEM 202(3), CHEM 203(3) (Sem: 3-4)  
b. CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)  
Select 8-10 credits from one of the following sequences:  
a. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-8)  
b. PHYS 211 GN(4), PHYS 212 GN(4); PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 5-8)  
Select 9 credits from the following:  
BIOL 428(3) [\[1\]](#), BIOL 429(3) [\[1\]](#), BIOL 435(3) [\[1\]](#), BIOL 438(3) [\[1\]](#), BIOL 446(3) [\[1\]](#), BIOL 463(3) [\[1\]](#) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (23-27 credits)  
Select 7 credits in GEOG 160 GS(3), GEOG 161(1), and GEOG 363(3) and 10-14 credits from school approved list (Sem: 1-8)  
OR  
Select 17-21 credits from school approved list (Sem: 1-8)  
Select 6 credits of 400-level BIOL, B M B, MICRB, PPEN, or W F S [\[1\]](#) courses excluding BIOL 400 and any courses numbered 494, 495, 496, 497, 498, or 499 (Sem: 5-8)

**GENERAL BIOLOGY OPTION:** (56 credits)  
Students can select courses from a variety of areas of contemporary biology. The option provides the flexibility to enable students to tailor their program for graduate study in many fields of biology or careers requiring broad backgrounds and diverse skills in the biological sciences.

**PRESCRIBED COURSES** (3 credits)  
BIOL 427(3) [\[1\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (14-18 credits)  
Select 6-8 credits from one the following sequences:  
a. CHEM 202(3), CHEM 203(3) (Sem: 3-4)  
b. CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)  
Select 8-10 credits from one of the following sequences:  
a. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-8)  
b. PHYS 211 GN(4), PHYS 212 GN(4); PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (35-39 credits)  
Select 20-24 credits from school approved list (Sem: 1-8)  
Select 15 credits of 400-level BIOL, B M B, MICRB, PPEN, or W F S [\[1\]](#) courses excluding BIOL 400 and any courses numbered 494, 495, 496, 497, 498, or 499 (Sem: 5-8)

**GENETICS AND DEVELOPMENTAL BIOLOGY OPTION:** (56 credits)  
Students can select courses to develop strengths in various areas of transmission, medical, population or molecular genetics and/or study the developmental process at the organismal, histological or molecular levels. The option prepares students for admission to professional programs in the health sciences, graduate programs in genetic counseling, plant or animal breeding, developmental biology, or careers in research or biotechnology.

**PRESCRIBED COURSES** (16 credits)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

MICRB 201(3)[\[1\]](#), MICRB 202(2)[\[1\]](#) (Sem 3-6)BIOL 427(3)[\[1\]](#) (Sem: 7-8)**ADDITIONAL COURSES** (17-19 credits)

Select 9 credits from the following:

B M B 406(3)[\[1\]](#), BIOL 410(3)[\[1\]](#), BIOL 422(3)[\[1\]](#), BIOL 428(3)[\[1\]](#), BIOL 430(3)[\[1\]](#), BIOL 460(3)[\[1\]](#), (Sem: 5-8)

Select 8-10 credits from one of the following sequences:

a. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-8)

b. PHYS 211 GN(4), PHYS 212 GN(4); PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (21-23 credits)

Select 15-17 credits from school approved list (Sem: 1-8)

Select 6 credits of 400-level BIOL, B M B, MICRB, PPEM, or W F S [\[1\]](#) courses excluding BIOL 400 and any courses numbered 494, 495, 496, 497, 498, or 499 (Sem: 5-8)**MEDICAL TECHNOLOGY OPTION:** (56-58 credits)

Students spend approximately twelve months at an affiliated hospital[\[12\]](#) during their senior year to complete the clinical phase of their baccalaureate studies. A fixed number of spaces are available on a competitive basis of grade-point average and hospital approval. The Bachelor of Science degree in Biology is awarded upon successful completion of the clinical study. The graduate is also eligible to take the national examination for certification and registry as a medical technologist.

**PRESCRIBED COURSES** (44 credits)MICRB 201(3)[\[1\]](#), MICRB 202(2)[\[1\]](#) (Sem: 3-4)

PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-6)

MICRB 405A(8)[\[1\]](#), MICRB 405B(1)[\[1\]](#), MICRB 405C(6)[\[1\]](#), MICRB 405D(5)[\[1\]](#), MICRB 405E(7)[\[1\]](#), MICRB 405F(3)[\[1\]](#), MICRB 408(1)[\[1\]](#) (Sem: 7-8)**ADDITIONAL COURSES** (8-10 credits)

Select 8-10 credits from one the following sequences:

a. CHEM 202(3), CHEM 203(3), CHEM 221(4) (Sem: 3-4)

b. CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (4 credits)

Select 1 credit from approved list (Sem: 1-6)

Select 3 credits of 400-level B M B, BIOL, MICRB from:

B M B 402(3)[\[1\]](#), B M B 406(3)[\[1\]](#), BIOL 460(3)[\[1\]](#), BIOL 472(3)[\[1\]](#), or MICRB 415(3)[\[1\]](#) (Sem: 5-6)**MOLECULAR AND CELLULAR BIOLOGY AND BIOCHEMISTRY OPTION:** (56 credits)

Students can select courses to develop strengths in the study of biology at the cellular and molecular levels, including basic metabolism and its regulations, DNA recombinant technology, bioinformatics and genomics. The option prepares students for admission to professional programs in the health sciences, graduate study, or careers in biotechnology or research.

**PRESCRIBED COURSES** (26 credits)CHEM 210(3), CHEM 212(3), CHEM 213(2), MICRB 201(3)[\[1\]](#), MICRB 202(2)[\[1\]](#) (Sem 3-6)B M B 401(3)[\[1\]](#), B M B 402(3)[\[1\]](#), B M B 403(1)[\[1\]](#), B M B 406(3)[\[1\]](#) (Sem: 5-8)BIOL 427(3)[\[1\]](#) (Sem: 7-8)**ADDITIONAL COURSES** (11-13 credits)

Select 8-10 credits from one of the following sequences:

a. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-8)

b. PHYS 211 GN(4), PHYS 212 GN(4); PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 5-8)

Select 3 credits from B M B 465(3)[\[1\]](#), BIOL 404(3)[\[1\]](#), BIOL 439(3)[\[1\]](#), BIOL 441(3)[\[1\]](#), MICRB 410(3)[\[1\]](#), MICRB 412(3)[\[1\]](#), or MICRB 415(3)[\[1\]](#) (Sem: 5-8)**SUPPORTING COURSES AND RELATED AREAS** (17-19 credits)

Select 14-16 credits from school approved list (Sem: 1-8)

Select 3 credits of 400-level BIOL, B M B, MICRB, PPEM, or W F S [\[1\]](#) courses excluding BIOL 400 and any courses numbered 494, 495, 496, 497, 498, or 499 (Sem: 5-8)**HEALTH PROFESSIONS OPTION:** (56 credits)

Students can prepare for the rigors of advanced health professions education by following the course of study outlined in this option. This option is also provided for exceptional students who are admitted into a "3+4" accelerated or early acceptance program at an approved or affiliated professional school. Students are granted 21 credits toward the Bachelor of Science degree following the successful completion of the first professional academic year. The Health Professions Committee will work with such students to develop an appropriate program of study.

**PRESCRIBED COURSES** (29 credits)MICRB 201(3)[\[1\]](#), MICRB 202(2)[\[1\]](#) (Sem: 1-2)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

B M B 402(3)[\[1\]](#), B M B 403(1)[\[1\]](#), BIOL 421(4)[\[1\]](#), BIOL 472(3)[\[1\]](#), BIOL 473(2)[\[1\]](#) (Sem: 5-8)BIOL 427(3)[\[1\]](#) (Sem: 7-8)**ADDITIONAL COURSES** (11-13 credits)

Select 8-10 credits from one of the following sequences:

a. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 5-8)

b. PHYS 211 GN(4), PHYS 212 GN(4); PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 5-8)

Select 3 credits from: B M B 401(3)[\[1\]](#) or CHEM 472(3)[\[1\]](#) (Sem: 5-8)**SUPPORTING COURSES AND RELATED AREAS** (14-16 credits)

Select 11-13 credits from school approved list (Sem: 1-8)

Select 3 credits of 400-level BIOL, B M B, MICRB, PPEM, or W F S [\[1\]](#) courses excluding BIOL 400 and any courses numbered 494, 495, 496, 497, 498, or 499 (Sem: 5-8)[\[1\]](#)A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.[\[12\]](#)Current affiliation is with St. Vincent Health Center, School of Medical Technology, Erie, PA.

Last Revised by the Department: Spring Semester 2015

## Biology

Abington College (BIOAB)  
 Altoona College (BIOAL)  
 Berks College (BIOBL)  
 Capital College (BIOCA)  
 University Park, Eberly College of Science (BIOL)  
 University College, Penn State Brandywine, Penn State Schuylkill, Penn State York (BIOCC)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

Carla Hass, Person-In-Charge

The curriculum in Biology is planned for preparation for professions requiring competence in biological science or for gaining an understanding of the world of living things. The professional group includes students who intend to secure advanced degrees through graduate study, students who are interested in work with various governmental agencies or industries having biological responsibilities, and students who want to prepare for careers in medicine or other health-related professions. Students whose interests are not professional select the curriculum because its broad approach can result in an educated view of the structure and function of living things. Achievement of these goals, including a special interest in a particular area of biology, can be met by selecting one of five options offered by the Department of Biology that will lead to the B.S. degree in Biology. The options and their key areas are 1) Plant Biology--morphology, systematics, and physiology of plants and fungi; 2) Ecology--behavior, and population and community biology of plants and animals; 3) General Biology--all aspects of modern biology; 4) Genetics and Developmental Biology--genetics, genetic engineering, and plant and animal development; 5) Neuroscience--development, biochemistry, physiology and aging of the central and peripheral nervous system; 6) Vertebrate Physiology--pre-medicine, pre-dentistry, pharmacology, and animal physiology.

In order to be eligible for entrance to the Biology major, a student must have: 1) attained at least a 2.00 cumulative grade point average; 2) completed BIOL 110 GN(4), CHEM 110 GN(3), MATH 140 GQ(4), and earned a grade of C or better in each of these courses; and 3) completed at least one of the following courses with a grade of C or better: BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4).

### TO VIEW THE [Biology Minor \(BIOL\)](#)

For the B.S. degree in Biology, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 94 credits  
 (This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

**COMMON REQUIREMENTS FOR MAJOR (ALL OPTIONS):** 40-44 credits

**PRESCRIBED COURSES** (32 credits)  
 CHEM 110 GN(3)[\[11\]](#), CHEM 111 GN(1), CHEM 112 GN(3)[\[11\]](#), CHEM 113 GN(1), MATH 140 GQ(4)[\[11\]](#), MATH 141 GQ(4) (Sem: 1-2)  
 BIOL 110 GN(4)[\[11\]](#), BIOL 220W GN(4)[\[11\]](#), BIOL 230W GN(4)[\[11\]](#), BIOL 240W GN(4)[\[11\]](#) (Sem: 1-4)

**ADDITIONAL COURSES** (8-12 credits)  
 PHYS 250 GN(4), PHYS 251 GN(4); or PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 5-6)

**REQUIREMENTS FOR THE OPTION:** 50-54 credits

**ECOLOGY OPTION:** (50-54 credits)

**ADDITIONAL COURSES** (30-33 credits)  
 CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)  
 Select 3-4 credits from STAT 200 GQ(4) or STAT 240 GQ(3) or STAT 250 GQ(3) (Sem: 3-4)  
 Select 3 credits from STAT 462(3) or STAT 464(3) (Sem: 7-8)

Select a minimum of 18 credits of 400-level biology courses, with at least 3 credits from each of the following groups (courses in Group IV--except BIOL 496, SC 295, SC 395, SC 495--may be used to satisfy requirements in other groups) (Sem: 5-8)

Group I: BIOL 412(3), BIOL 419(3), BIOL 435(3), BIOL 436(3), BIOL 444(3), BIOL 450W(3-5), BIOL 463(3), BIOL 482(3-4), BIOL 499A IL(3)

Group II: BIOL 414(3), BIOL 427(3), BIOL 428(3), BIOL 429(3), BIOL 448(3), BIOL 464(3), BIOL 474(3)

Group III: BIOL 406(3), BIOL 415(3), BIOL 417(4), BIOL 446(3), PPEN 425(4)

Group IV: BIOL 414(3), BIOL 417(4), BIOL 419(3), BIOL 444(3), BIOL 448(3), BIOL 450W(3-5), BIOL 482(3-4), BIOL 496(3), BIOL 499A IL(3), PPEN 425(4), SC 295(1-3), SC 395(1-3), SC 495(1-3) (A maximum of 3 credits of BIOL 496 or 4 credits of SC 295, SC 395, SC 495 may be used to fulfill the 18-credit minimum in the 400-level biology course requirement.)

**SUPPORTING COURSES AND RELATED AREAS** (17-24 credits)  
 Select 17-24 credits from department list (Sem: 1-8)

**GENERAL BIOLOGY OPTION:** (50-54 credits)

**ADDITIONAL COURSES** (24-27 credits)  
 CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)  
 Select 3-4 credits from STAT 200 GQ(4), STAT 240 GQ(3), or STAT 250 GQ(3) (Sem: 3-4)

Select a minimum of 18 credits of 400-level biology courses, with at least 3 credits from each of the following groups (each course may be used to satisfy a requirement in only one group) (Sem: 5-8)

Group I -- BIOL 407(3), BIOL 410(3), BIOL 414(3), BIOL 441(3), BIOL 443(3), BIOL 444(3), BIOL 446(3), BIOL 448(3), BIOL 499A IL(3), HORT 407(3), HORT 440W(3), PPEN 416(2-4), PPEN 425(4)

Group II -- BIOL 405(3), BIOL 411(3), BIOL 414(3), BIOL 417(4), BIOL 420(3), BIOL 421(4), BIOL 425(4), BIOL 427(3), BIOL 428(3), BIOL 438(3), BIOL 443(3), BIOL 460(3), BIOL 474(3)

Group III -- AN SC 442(3), B M B 400(2-3), B M B 450(2), BIOL 404(3), BIOL 405(3), BIOL 407(3), BIOL 410(3), BIOL 411(3), BIOL 416(3), BIOL 422(3), BIOL 426(3), BIOL 428(3), BIOL 430(3), BIOL 432(3), BIOL 439(3), BIOL 443(3), BIOL 448(3), BIOL 460(3), BIOL 499A IL(3), HORT 407(3)

Group IV -- BIOL 406(3), BIOL 412(3), BIOL 414(3), BIOL 415(3), BIOL 417(4), BIOL 419(3), BIOL 428(3), BIOL 429(3), BIOL 435(3), BIOL 436(3), BIOL 444(3), BIOL 446(3), BIOL 448(3), BIOL 450W(3-5), BIOL 463(3), BIOL 464(3), BIOL 474(3), BIOL 499A IL(3),

Group V -- BIOL 404(3), BIOL 406(3), BIOL 409(3), BIOL 411(3), BIOL 413(3), BIOL 416(3), BIOL 421(4), BIOL 426(3), BIOL 430(3), BIOL 432(3), BIOL 437(4), BIOL 443(3), BIOL 446(3), BIOL 460(3), BIOL 469(3), BIOL 470(3), BIOL 472(3), BIOL 479(3)

Group VI -- BIOL 400(1-3), BIOL 407(3), BIOL 414(3), BIOL 417(4), BIOL 419(3), BIOL 421(4), BIOL 437(4), BIOL 439(3), BIOL 444(3), BIOL 448(3), BIOL 450W(3-5), BIOL 461(3), BIOL 471(3), BIOL 473(2), BIOL 496(1-3), PPEM 425(4), SC 295(1-3), SC 395(1-3), SC 495(1-3)

**SUPPORTING COURSES AND RELATED AREAS** (23-30 credits)

Select 23-30 credits from department list (Sem: 1-8)

**GENETICS AND DEVELOPMENTAL BIOLOGY OPTION:** (50-54 credits)

**PRESCRIBED COURSES** (19 credits)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

BIOL 322(3), BIOL 430(3) (Sem: 5-6)

B M B 401(2), B M B 402(3) (Sem: 5-8)

**ADDITIONAL COURSES** (17-21 credits)

Select 2-5 credits from MATH 220 GQ(2-3), MATH 231(2), MICRB 201(3), MICRB 202(2) (Sem: 3-6)

Select 3-4 credits from STAT 200 GQ(4), STAT 240 GQ(3), STAT 250 GQ(3), or STAT 319(3) (Sem: 5-6)

Select a minimum of 12 credits of 400-level courses, with at least 6 credits from Group I, 3 credits from Group II, and 3 credits from Group III (Sem: 5-8)

Group I -- B M B 400(2-3), B M B 450(2), BIOL 404(3), BIOL 405(3), BIOL 407(3), BIOL 410(3), BIOL 411(3), BIOL 413(3), BIOL 416(3), BIOL 422(3), BIOL 426(3), BIOL 427(3), BIOL 428(3), BIOL 432(3), BIOL 437(4), BIOL 439(3), BIOL 443(3), BIOL 448(3), BIOL 460(3), BIOL 469(3), HORT 407(3), MICRB 410(3)

Group II -- BIOL 405(3), BIOL 411(3), BIOL 414(3), BIOL 417(4), BIOL 420(3), BIOL 421(4), BIOL 425(4), BIOL 427(3), BIOL 428(3), BIOL 438(3), BIOL 443(3), BIOL 460(3), BIOL 474(3)

Group III -- BIOL 400(1-3), BIOL 407(3), BIOL 437(4), BIOL 439(3), BIOL 448(3), BIOL 461(3), BIOL 471(3), BIOL 473(2), BIOL 496(1-3), BIOL 499A IL(3), B M B 442(3), PPEM 425(4), SC 295(1-3), SC 395(1-3), SC 495(1-3)

**SUPPORTING COURSES AND RELATED AREAS** (10-18 credits)

Select 10-18 credits from department list (Sem: 1-8)

**NEUROSCIENCE OPTION:** (50-54 credits)

**PRESCRIBED COURSES** (19 credits)

B M B 401(2), B M B 402(3) (Sem: 5-8)

BIOL 469(3), BIOL 470(3) (Sem: 5-8)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

**ADDITIONAL COURSES** (15-16 credits)

Select 3-4 credits from STAT 200 GQ(4), STAT 240 GQ(3), or STAT 250 GQ(3) (Sem: 3-4)

Select a minimum of 12 credits of 400-level biology courses, with at least 6 credits from Group I, 3 credits from Group II, and 3 credits from Group III (Sem: 5-8)

Group I -- B M B 400(2-3), BIOL 404(3), BIOL 409(3), BIOL 411(3), BIOL 413(3), BIOL 421(4), BIOL 426(3), BIOL 430(3), BIOL 437(4), BIOL 443(3), BIOL 460(3), BIOL 471(3), BIOL 472(3), BIOL 473(2), BIOL 479(3) (may select up to 6 credits from department list)

Group II -- BIOL 405(3), BIOL 411(3), BIOL 414(3), BIOL 417(4), BIOL 420(3), BIOL 421(4), BIOL 425(4), BIOL 427(3), BIOL 428(3), BIOL 438(3), BIOL 443(3), BIOL 460(3), BIOL 474(3)

Group III -- BIOL 400(1-3), BIOL 414(3), BIOL 417(4), BIOL 419(3), BIOL 421(4), BIOL 437(4), BIOL 439(3), BIOL 444(3), BIOL 448(3), BIOL 450W(3-5), BIOL 461(3), BIOL 471(3), BIOL 473(2), BIOL 496(1-3), BIOL 499A IL(3), SC 295(1-3), SC 395(1-3), SC 495(1-3)

**SUPPORTING COURSES AND RELATED AREAS** (15-20 credits)

Select 15-20 credits from department list (Sem: 1-8)

**PLANT BIOLOGY OPTION:** (50-54 credits)

**PRESCRIBED COURSES** (22 credits)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

B M B 401(2), B M B 402(3), BIOL 407(3), BIOL 414(3), BIOL 441(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12-13 credits)

Select 3-4 credits from STAT 200 GQ(4), STAT 240 GQ(3), STAT 250 GQ(3), or an advanced statistics course (Sem: 3-4)

Select a minimum of 9 credits of 400-level biology courses, with at least 6 credits from Group I and 3 credits from Group II (Sem: 5-8)

Group I -- BIOL 410(3), BIOL 413(3), BIOL 427(3), BIOL 430(3), BIOL 443(3), BIOL 444(3), BIOL 446(3), BIOL 448(3), BIOL 499A IL(3), BIOTC 459(3), HORT 407(3), HORT 440W(3), PPEM 416(2-4), PPEM 425(4)

Group II -- BIOL 400(1-3), BIOL 414(3), BIOL 419(3), BIOL 439(3), BIOL 444(3), BIOL 448(3), BIOL 450W(3-5), BIOL 461(3), BIOL 496(1-3), BIOL 499A IL(3), SC 295(1-3), SC 395(1-3), SC 495(1-3)

**SUPPORTING COURSES AND RELATED AREAS** (15-20 credits)

Select 15-20 credits from department list (Sem: 1-8)

**VERTEBRATE PHYSIOLOGY OPTION:** (50-54 credits)

**PRESCRIBED COURSES** (18 credits)

CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

B M B 401(2), B M B 402(3), BIOL 472(3), BIOL 473(2) (Sem: 5-8)

**ADDITIONAL COURSES** (15-16 credits)

Select 3-4 credits from STAT 200 GQ(4), STAT 240 GQ(3), or STAT 250 GQ(3) (Sem: 5-8)

Select a minimum of 12 credits of 400-level courses, with at least 6 credits from Group I, 3 credits from Group II, and 3 credits from Group III (Sem: 5-8)

Group I -- BIOL 404(3), BIOL 406(3), BIOL 409(3), BIOL 411(3), BIOL 412(3), BIOL 413(3), BIOL 416(3), BIOL 421(4), BIOL 426(3), BIOL 430(3), BIOL 432(3), BIOL 437(4), BIOL 443(3), BIOL 446(3), BIOL 460(3), BIOL 469(3), BIOL 470(3), BIOL 471(3), BIOL 479(3) (may select up to 6 credits from department list)

Group II -- BIOL 405(3), BIOL 411(3), BIOL 414(3), BIOL 417(4), BIOL 420(3), BIOL 421(4), BIOL 425(4), BIOL 427(3), BIOL 428(3), BIOL 438(3), BIOL 443(3), BIOL 460(3), BIOL 474(3)

Group III -- BIOL 400(1-3), BIOL 414(3), BIOL 417(4), BIOL 419(3), BIOL 421(4), BIOL 437(4), BIOL 439(3), BIOL 444(3), BIOL 448(3), BIOL 450W(3-5), BIOL 461(3), BIOL 471(3), BIOL 473(2), BIOL 496(2), BIOL 499A IL(3), SC 295(1-3), SC 395(1-3), SC 495(1-3)

**SUPPORTING COURSES AND RELATED AREAS** (16-21 credits)

Select 16-21 credits from department list (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Biotechnology

University Park, Eberly College of Science (BIOTC)

PROFESSOR Wendy Hanna-Rose, *in charge*

Biotechnology may be broadly defined as the application of principles of molecular and cell science in the production of biologically important or industrially useful products. Therefore, students in the Biotechnology major will (1) acquire a strong foundation in the life and chemical sciences, (2) learn how fundamental science is applied to problems through biotechnology, (3) develop basic laboratory skills, perform standard techniques, work with state-of-the-art instrumentation, describe and evaluate analytical methodology used in biotechnology, and (4) become familiar with societal concerns and governmental regulations regarding the biotechnology industry. One very important strength of this major is the extensive laboratory experience each student receives. In the General option, students are very strongly encouraged to consider Cooperative Education with industry as an integral part of their curriculum. In addition to the General option in Biotechnology, the major also offers the Clinical Laboratory Science option.

In order to be eligible for entrance to the Biotechnology major, a student must have: (1) attained at least a 2.00 cumulative grade-point average, and (2) completed CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), and MATH 140 GQ(4) and earned a grade of C or better in each of these courses.

For the B.S. degree in Biotechnology, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 95 credits<sup>[87]</sup>

(This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

**COMMON REQUIREMENTS FOR MAJOR (ALL OPTIONS):** 42 credits

**PRESCRIBED COURSES** (42 credits)

CHEM 110 GN(3)<sup>[11]</sup>, CHEM 111 GN(1)<sup>[11]</sup>, CHEM 112 GN(3)<sup>[11]</sup>, CHEM 113 GN(1), MATH 140 GQ(4)<sup>[11]</sup>, MATH 141 GQ(4), PSU 016(1) (Sem: 1-2)

PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 1-4)

B M B 251(3)<sup>[85]</sup>, B M B 252(3)<sup>[85]</sup>, BIOL 322(3), MICRB 201(3)<sup>[85]</sup>, MICRB 202(2) (Sem: 3-4)

MICRB 421W(3) (Sem: 5-6)

**REQUIREMENTS FOR THE OPTION:** 53 credits

**GENERAL BIOTECHNOLOGY OPTION:** (53 credits)

**PRESCRIBED COURSES** (25 credits)

B M B 211(3), B M B 221(2), B M B 442(3), MICRB 410(3) (Sem: 5-6)

BIOTC 416(2), BIOTC 459(3), BIOTC 479(3), BIOTC 489(3), STAT 250 GQ(3) (Sem: 5-8)

**ADDITIONAL COURSES** (6-8 credits)

CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (20-22 credits)

Select 14-16 credits from department list (Sem: 3-8)

Select 6 credits from any 400-level B M B/BIOTC/MICRB lecture course, FD SC 408(2) (Sem: 5-8)

**CLINICAL LABORATORY SCIENCE OPTION:** (53 credits)

This option provides both the academic and clinical preparation for students interested in a career as a clinical laboratory scientist. Positions are found in hospital, physician-office, reference, industrial, and research laboratories. To complete baccalaureate degree requirements, students enter a ten-month clinical practicum (MICRB 405A-F) at an affiliate hospital for the senior year. (Current affiliations are with Mount Nittany Medical Center, State College and Pennsylvania Hospital, Philadelphia.) Students are recommended for a fixed number of hospital positions on a competitive basis. Cumulative grade-point average and hospital school admission requirements serve as criteria for recommendation. The B.S. degree is awarded at the first commencement following completion of the clinical practicum.

**PRESCRIBED COURSES** (44 credits)

B M B 211(3), B M B 212(1), B M B 221(2), MICRB 410(3), MICRB 412(3), MICRB 422(2) (Sem: 5-6)

MICRB 405A(8), MICRB 405B(1), MICRB 405C(6), MICRB 405D(5), MICRB 405E(7), MICRB 405F(3) (Sem: 7-8)

**ADDITIONAL COURSES** (6-8 credits)

CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (1-3 credits)

Select 1-3 credits from department list (Sem: 3-8)

## Integrated B.S. in Biotechnology - Master of Biotechnology in Biotechnology

PROFESSOR Loida Escote-Carlson, *in charge*

The integrated B.S. in Biotechnology-Master of Biotechnology degree program is designed to enable qualified undergraduate students in the B.S. Biotechnology program to graduate in five years with the Master of Biotechnology degree. The requirements of the Master of Biotechnology degree are designed to prepare students for diverse career opportunities in the burgeoning biotechnology industry. The integrated B.S. Biotechnology-Master of Biotechnology program will enhance the preparation and qualifications of B.S. Biotechnology students seeking entry-level positions in biotechnology and related industries. At the same time, students develop a practical knowledge of the laboratory techniques that underlie current research in the life sciences that will serve as excellent preparation for those students in the Master of Biotechnology program who later decide to pursue further graduate degrees.

A maximum of 12 credits will be cross-counted towards the B.S. and Masters degrees, from the following courses:

B M B 400(2-3), BIOTC 479(3), IBIOS 571(2), IBIOS 591(1), and IBIOS 593(3).

**B.S. Biotechnology Requirements:**

Total credits required: 125

GENERAL EDUCATION: 46 credits (15 of these are included in the REQUIREMENTS FOR THE MAJOR)

REQUIREMENTS FOR THE MAJOR: 94-95 credits

Prescribed courses: 67 credits

Additional courses: 6-9 credits

Supporting courses and related areas: 18-21 credits

**Master of Biotechnology Requirements:**

Total credits required: 30 (18 of which must be from 500-level courses)

Required courses: 16-19 credits

Electives: 11-14 credits

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[85] To graduate with a B.S. degree in Biotechnology, a grade of C or better is required in two of the following courses: MICRB 201, B M B/MICRB 251, B M B/MICRB 252.

[87] To graduate with a B.S. degree in Biotechnology, a grade of C or better is required in 9 credits of any BIOTC, B M B, or MICRB 400-level course except B M B 442, B M B 443W, B M B 445W, B M B 448, B M B 488, B M B 496, MICRB 421W, MICRB 422, MICRB 447.

## BioRenewable Systems

University Park, College of Agricultural Sciences (BRS)

PROFESSOR NICOLE BROWN, Program Coordinator

The BioRenewable Systems Major is an applied major that intertwines the study of engineering technology, natural resources, and agriculture with fundamentals of business, entrepreneurship, and management. Administered through the Department of Agricultural and Biological Engineering, the BioRenewable Systems (BRS) program uniquely prepares students to solve 21st century problems and attain careers in both traditional sectors and those relating to the emerging bioeconomy. Students in this program will secure: (1) knowledge of fundamental sciences related to resources, processes, and products in biorenewable systems; (2) communication and managerial skills relevant to careers in product development, technology, sales, marketing and management; and (3) the ability to apply systems analysis skills, positioning them for effective problem solving and leadership in the agricultural and bioproducts industries.

Graduates are typically employed as sales and field representatives, financial and technical consultants, and technical service or quality assurance personnel in renewable bioproducts or related agricultural sectors such as: power and machinery systems, forest products, food production, bioprocessing, environmental systems, wood structures, bioenergy, co-product development, and agrochemicals. Graduates may continue their education in a graduate program with a science, engineering, or business orientation.

The BRS major has two options: Agricultural Systems Management (ASM) and BioProducts (BP).

### Agricultural Systems Management Option

This option applies a technological approach to understanding and managing agricultural production systems to meet economical and sustainable needs. Basic study is emphasized in the agricultural and business management sciences, along with the application of the technical results of engineering research, design, and manufacturing. Graduates of this option apply their technology and management training to the diverse areas of food and fiber production; bioprocessing; and land, water, and air resources.

### BioProducts Option

The scientific nature of biobased resources—their unique design, sustainability, and renewability—constitutes the core of this option. Building upon that foundation, students will learn techniques for converting and efficiently utilizing these materials to maximize product life cycles, while simultaneously exploring relevant marketing and management strategies. Technical electives for this option emphasize material sciences, engineering, and/or business. Career tracks are broad, ranging from traditional forest products companies to emerging sectors, including bioenergy co-products.

For the B.S. degree in BioRenewable Systems, a minimum of 120 credits is required for the BioProducts Option and minimum of 121 credits is required for the Agricultural Systems Management Option.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 105-109 credits

(This includes 30 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GS courses; 9 credits of GWS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 73-75 credits

#### PRESCRIBED COURSES (45 credits)

ACCTG 211(4), CHEM 110 GN(3), CHEM 111 GN(1), EDSGN 100(3) [\[1\]](#), ENGL 015 GWS(3) (Sem: 1-2)  
AG BM 106(3) [\[1\]](#), BRS 221(3) [\[1\]](#), BRS 300(3) [\[1\]](#), BRS 391 GWS(2), BRS 437(4) [\[1\]](#) (Sem: 5-6)  
BRS 392 GWS(2), BRS 393(1), BRS 422(3), BRS 426(3), BRS 428(3), BRS 429W(3), BRS 490(1) (Sem: 7-8)

#### ADDITIONAL COURSES (28-30 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
E B F 200 GS(3) or ECON 104 GS(3) (Sem: 1-2)  
MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)  
PHYS 211 GN(4) or PHYS 250 GN(4) (Sem: 1-2)  
AG BM 101 GS(3) or ECON 102 GS(3) (Sem: 3-4)  
BIOL 110 GN(4) or BIOL 011 GN(3) and BIOL 012 GN(1) (Sem: 3-4)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
STAT 200 GQ(4) or STAT 240 GQ(3) (Sem: 3-4)  
B A 241(2) and B A 242(2); or B A 243(4) or B LAW 243(3) (Sem: 3-4)

### REQUIREMENTS FOR THE OPTIONS: 32-34 credits

#### AGRICULTURAL SYSTEMS MANAGEMENT OPTION: 33-34 credits

##### PRESCRIBED COURSES (9 credits)

SOILS 101 GN(3) (Sem: 3-4)  
A S M 310(3) [\[1\]](#), A S M 327(3) [\[1\]](#) (Sem: 5-6)

##### ADDITIONAL COURSES (6-7 credits)

AGRO 028(3) or HORT 101 GN(3) (Sem: 3-4)  
AN SC 100 GN(3); AN SC 201(4); AN SC 207/FD SC 207(2), AN SC 208/FD SC 208(1) (Sem: 5-6)

##### SUPPORTING COURSES AND RELATED AREAS (18 credits)

Select 18 credits of specialization courses in consultation with an advisor. At least 12 credits must be at 200-400 level. (Sem: 5-8)

#### BIOPRODUCTS OPTION: 32 credits

##### PRESCRIBED COURSES (14 credits)

BRS 411(4), BRS 417(4) (Sem: 5-6)  
BRS 402(3) [\[1\]](#), BRS 423(3) (Sem: 7-8)

##### SUPPORTING COURSES AND RELATED AREAS (18 credits)

Select 3 credits in leadership/entrepreneurship. (Sem: 5-6)  
Select 15 credits of specialization courses in consultation with an advisor. At least 9 credits must be at 200-400 level. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Blue Sheet Item #: 44-06-001

Review Date: 04/5/2016

## Business

Abington College (BSBAB)

Altoona College (BSBAL)

Berks College (BSBBL)

University College (BSBCC): Penn State Beaver, Penn State Brandywine, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazleton, Penn State Lehigh Valley, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, Penn State York  
University College (BSBIC) via the World Campus

The Bachelor of Science in Business (B.S.B.) is a professionally oriented business degree program that combines the theoretical underpinnings of core business disciplines, notably management, marketing, finance, and supply chain management, with applied study in a practical setting. Through the choice of an 18-credit option, students specialize in a key business sector. Students also develop written and oral communication skills throughout the program, acquire contemporary technology skills, and engage in active and collaborative learning. The degree allows students to become familiar with the unique business environments of their local communities, a design that sets the degree apart from other business degrees offered within the University and throughout the Commonwealth.

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

**ACCOUNTING OPTION:** This option prepares students to pursue careers in business with an emphasis on the areas of financial and managerial accounting, systems and controls, auditing, and taxation.

**ENTREPRENEURSHIP OPTION:** This option prepares students to pursue entrepreneurial careers with emphasis on idea generation, opportunity analysis, new product creation, and business plan development.

**FINANCIAL SERVICES OPTION:** This option prepares students to pursue careers in financial organizations with emphasis on wealth management, tax planning, risk management, and financial analysis.

**HEALTH SERVICES OPTION:** This option prepares students to pursue careers in the health services sector with emphasis on the financial and administrative aspects of health care enterprises.

**INDIVIDUALIZED BUSINESS OPTION:** This option provides the opportunity for students to pursue an approved business-focused interdisciplinary program of study.

**MANAGEMENT AND MARKETING OPTION:** This option prepares students to pursue careers in business organizations with an emphasis on the skills and knowledge necessary for the business professional to function in community and regional centers of commerce.

**Entrance Requirement:** Completion of MATH 022 or MATH 040, 041, 110, 140.

For the B.S. degree in Business, a minimum of 120 credits is required, 15 of which must be at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 10 credits

**REQUIREMENTS FOR THE MAJOR:** 77 credits

(This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 59 credits

**PRESCRIBED COURSES** (41 credits)

ECON 102 GS(3) (Sem: 1-4)

ACCTG 211(4), ECON 104 GS(3), MIS 204(3) (Sem: 3-4)

B A 321(3) [\[11\]](#), B A 322(3) [\[11\]](#), B A 420(1) [\[11\]](#), FIN 301(3) [\[11\]](#), MGMT 301(3) [\[11\]](#), MKTG 301(3) [\[11\]](#), SCM 301(3) [\[11\]](#) (Sem: 5-6)

I B 303 IL(3) [\[11\]](#) (Sem: 5-8)

B A 421(3) [\[11\]](#), B A 422W(3) [\[11\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (15-18 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-4)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 1-4)

B A 243(4) or B A 241(2) and B A 242(2) (Sem: 3-4)

Select 3 or 6 credits from B A 495A(3 or 6) [\[11\]](#), B A 495B(3 or 6) [\[11\]](#) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (0-3 credits)

Select 0-3 credits from 400-level business courses from: ACCTG, B A, ECON, ENTR, FIN, FINSV, H P A, I B, MGMT, MIS, MKTG, R M, or SCM [\[11\]](#) (Sem: 7-8)

**REQUIREMENTS FOR THE OPTION:** 18 credits [\[11\]](#)

**ACCOUNTING OPTION:** (18 credits)

**PRESCRIBED COURSES** (9 credits)

ACCTG 404(3), ACCTG 471(3), ACCTG 472(3) (Sem: 5-6)

**ADDITIONAL COURSES** (6 credits)

ACCTG 403(3) or 403W(3) (Sem: 7-8)

ACCTG 405(3) or FINSV 411(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits of 400-level courses from: ACCTG, B A, ECON, ENTR, FIN, FINSV, H P A, I B, MGMT, MIS, MKTG, R M, or SCM (Sem: 7-8)

**ENTREPRENEURSHIP OPTION:** (18 credits)

**PRESCRIBED COURSES** (9 credits)

ENTR 300(3), ENTR 320(3) (Sem: 5-6)

ENTR 400(3) (Sem: 7-8)

**ADDITIONAL COURSES** (0-3 credits)

Select 0-3 credits in CAS 352(3) or ENGL 419(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (6-9 credits)

Select 6 to 9 credits of 400-level ENTR courses in consultation with your advisor (Sem: 5-8)

**FINANCIAL SERVICES OPTION: (18 credits)**

**PRESCRIBED COURSES (3 credits)**

FIN 420(3) (Sem: 5-8)

**ADDITIONAL COURSES (3 credits)**

Select 3 credits from ACCTG 405 or FINSV 411 (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (12 credits)**

Select 12 credits in 300 or 400-level (with at least 3 credits at the 400-level) from ACCTG, FIN, FINSV or RM (Sem: 5-8)

**HEALTH SERVICES OPTION: (18 credits)**

(Minimum 6 credits at the 400-level)

**PRESCRIBED COURSES (6 credits)**

H P A 101(3) (Sem: 5-6)

H P A 332(3) (Sem: 5-8)

**ADDITIONAL COURSES (0-3 credits)**

Select 0-3 credits from BB H 302(3), CAS 352(3), CAS 404(3), ENGL 416(3), ENGL 419(3), LER 424(3), LER 472(3), PSYCH 281 GS(3), PSYCH 484(3), or PSYCH 485(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (9-12 credits)**

Select 3-9 credits from 300 or 400-level H P A courses (Sem: 5-8)

Select 0-6 credits of 300-400-level courses from ACCTG, B A, ECON, ENTR, FIN, FINSV, H P A, I B, MGMT, MKTG, MIS, R M or SCM (Sem: 6-8)

**INDIVIDUALIZED BUSINESS OPTION: (18 credits)**

Select 18 credits of study (with at least 3 credits at the 400-level) as submitted by the student and approved by the campus BSB Program Coordinator (Sem: 5-8)

**MANAGEMENT AND MARKETING OPTION: (18 credits)**

**ADDITIONAL COURSES (0-6 credits)**

Select 0-6 credits from the following: B A 250(3), ENGL 419(3), MKTG 220(3) or one of the following, CAS 250(3), CAS 252(3), CAS 352(3), CAS 404(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (12-18 credits)**

A minimum of 3 credits of supporting courses must be selected at the 400-level.

Select 3 credits from 300 or 400-level MGMT courses (Sem: 5-8)

Select 3 credits from 300 or 400-level MKTG courses (Sem: 5-8)

Select 6-12 additional credits in 300 or 400-level courses from MGMT or MKTG courses (Sem: 6-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Civil Engineering

University Park, College of Engineering (C E)

PROFESSOR PEGGY JOHNSON, Head, Department of Civil and Environmental Engineering

The program in Civil and Environmental Engineering is designed to provide the basic undergraduate education required for private practice and public service in civil engineering, and/or continue formal education. Emphasis is placed on the fundamentals of civil engineering principles and design techniques. Students utilize basic engineering science concepts in several of the different specialty areas (e.g., construction/management, environmental, materials/pavement design/geotechnical, structures, transportation, and water resources). Finally the students are able to choose an area of specialization for professional practice or graduate studies.

### Program Educational Objectives:

The educational objectives of our undergraduate program will prepare our graduates to:

- begin and sustain a career in consulting, industry, or state and federal government agencies, such as the departments of transportation and departments of environmental protection;
- lead and work in interdisciplinary teams needed to design sustainable and resilient infrastructure through knowledge and application of environmental, geotechnical, materials, structural, transportation, and water resources engineering;
- engage in life-long learning opportunities, including graduate school; and
- obtain and maintain professional licensure

### Program Outcomes (Student Outcomes):

The undergraduate program will provide students with:

- a. an ability to apply knowledge of mathematics, science, and engineering;
- b. an ability to design and conduct experiments, as well as to analyze and interpret data;
- c. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d. an ability to function on multidisciplinary teams;
- e. an ability to identify, formulate, and solve engineering problems;
- f. an understanding of professional and ethical responsibility;
- g. an ability to communicate effectively;
- h. an understanding of the impact of engineering solutions in a global, economic, environmental, and societal context;
- i. a recognition of the need for, and an ability to engage in, life-long learning;
- j. knowledge of contemporary issues in civil engineering;
- k. an ability to use modern engineering techniques, skills, and tools necessary for engineering practice.

The program is broadened by courses in communication, arts, humanities, social and behavioral sciences, as well as other engineering disciplines. Students gain experience in working as members of a team and using interdisciplinary approaches to solve problems. These experiences, as well as those related to engineering principles and design, are provided through exercises in the classroom, laboratory, and field. The program culmination is a capstone design course wherein the students' knowledge and skills are applied to actual engineering problems.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Civil Engineering, a minimum of 127 credits is required. The baccalaureate program in Civil Engineering at University Park is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 112 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (71 credits)

CHEM 110 GN(3)[1], CHEM 111 GN(1), E MCH 211(3)[1], EDGSGN 100(3), MATH 140 GQ(4)[1], MATH 141 GQ(4)[1], PHYS 211 GN(4)[1] (Sem: 1-2)  
E MCH 212(3)[1], E MCH 213(3)[1], STAT 401(3), GEOSC 001(3), MATH 220 GQ(2), MATH 251(4)[1], PHYS 212 GN(4)[1] (Sem: 3-4)  
C E 310(3)[1], C E 321(3)[1], C E 332(3)[1], C E 335(3)[1], C E 336(3)[1], C E 340(3)[1], C E 360(3)[1], C E 370(3)[1], ENGL 202C GWS(3) (Sem: 5-6)

### ADDITIONAL COURSES (29-32 credits)

C E 100S(1) or 1 credit of First-Year Seminar or elective (Sem: 1-2)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

CMPSC 200 GQ(3) or CMPSC 201 GQ(3) (Sem: 3-4)

ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 3-4)

M E 201(3) or CH E 220(3)[30] (Sem: 5-6)

C E 337(1) or C E 475(4) (Sem: 5-6)[+]

Select 9 credits from C E 341(3), C E 342(3), C E 371(3), C E 422(3), C E 423(3), C E 432(3), C E 435(3), C E 436(3), C E 437(3), C E 441(3), C E 447(3), C E 461(3), C E 462(3), C E 475(4), C E 476(3), C E 479(3) (Sem: 5-8)[#]

Select 3 credits of C E 400 level "W" courses (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS: (9 credits)

Select 9 credits of technical elective from C E 300-level courses, C E 400-level courses, or department list. (Sem: 7-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[30] Students may substitute 6 credits of ROTC for 3 credits of GHA courses and 3 credits of M E.

[+] If C E 475 is taken, one credit goes toward lab requirement and remaining three go towards C E or general technical electives.

[#] Two of those courses must be selected from at least 2 of the 3 remaining technical areas in the Civil Engineering program-- structures (x40), hydrosystems (x60), and environmental (x70).

## Classics and Ancient Mediterranean Studies

University Park, College of the Liberal Arts (CAMS)

PROFESSOR Mark Munn, Head, Department of Classics and Ancient Mediterranean Studies

Classics and Ancient Mediterranean Studies is concerned with the civilizations of the ancient Mediterranean world, including the ancient Greeks, Romans, and the peoples of Egypt and the Near East. The study of these civilizations includes their languages and literatures, history and politics, religion and mythologies, philosophies, and material culture. Students electing the CAMS major follow one of three options. The Ancient Languages Option requires study of Greek or Latin, one or more of the languages of the ancient Near East, or a combination of languages, and is recommended especially for students planning to pursue any classical, Near Eastern, or Egyptian subject in graduate school; planning rabbinic or seminary study; or preparing to teach Latin or Greek at the secondary level. Students in the Language Option are urged to schedule at least one course in historical linguistics or comparative grammar. The Ancient Mediterranean Archaeology (AMA) Option is designed for students interested in the physical evidence for ancient Mediterranean cultures, including the rise and development of settlements and cities; ceramics, metals, stone, and organic remains; and population changes over time. The Classics and Ancient Mediterranean Studies (CAMS) Option is suitable for students interested in a broadly interdisciplinary study of the cultures of the ancient Mediterranean and does not require study of language, although students are encouraged to study the appropriate ancient languages. All students in the major are particularly encouraged to participate in one of the Penn State Education Abroad Programs and/or archaeological field schools in the Mediterranean area. Approved archaeological fieldwork is required for the AMA Option. Up to 15 credits of appropriate education abroad courses may be applied to requirements for the major.

For the B.A. degree in Classics and Ancient Mediterranean Studies, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selections, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 20-24 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 30-34 credits<sup>[1]</sup>

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 18 credits

No more than 15 credits in courses numbered 099, 199, 299, 399, or 499 may count toward the requirements for the major.

**PRESCRIBED COURSES** (6 credits)

CAMS 005 GH;IL(3) (Sem: 1-6)

CAMS 400W(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 3 credits in Greek or Roman literature and language, civilization, or archaeology from approved department list (Sem: 1-8)

Select 3 credits in Near Eastern literature and language, civilization, or archaeology from approved department list (Sem: 1-8)

Select 6 credits, at or above the 100 level, from appropriate offerings in ancient Near Eastern languages and literatures, ancient history, anthropology, art history, classics and ancient Mediterranean studies, Greek, Hebrew, Jewish studies, Latin, linguistics, philosophy, or religious studies from approved department list (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 12-16 credits

**ANCIENT MEDITERRANEAN ARCHAEOLOGY OPTION:** (15-16 credits)

Students in this option must complete one season of approved archaeological fieldwork at an ancient Mediterranean or related site. Up to 6 credits of fieldwork may be applied to the COMMON REQUIREMENTS FOR THE MAJOR.

**ADDITIONAL COURSES** (3 credits)

CAMS 440W(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12-13 credits)

Select 6 credits from the following courses: CAMS 492(3), CAMS 493(3), or other 400-level fieldwork course in an approved archaeological project in the Mediterranean region or Near East in consultation with major adviser. (Sem: 5-8)

Select 3 credits from the following course list:

CAMS 090 GH;IL(3) or J ST 090 GH;IL(3) or RL ST 090 GH;IL(3); CAMS 104 GH(3) or HIST 104 GH(3) or RL ST 104 GH;US;IL(3); CAMS 133 GH(3) or J ST 133 GH(3) or RL ST 133 GH(3); CAMS 134 GH;IL(3) or J ST 134 GH;IL(3) or RL ST 134 GH;IL(3); CAMS 140 GH;IL(3), or CAMS 150 GH;IL(3) (Sem: 3-6)

Select 3-4 credits from the following course list:

ANTH 410(4), ANTH 420(3) or J ST 420(3); ANTH 426W(3) or ANTH 428(3) (Sem: 5-8)

**ANCIENT LANGUAGES OPTION:** (12 credits)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

*At least 6 credits must be in one language.*

Select 12 credits at the 400 level in either Greek or Latin or in Akkadian, Aramaic, Biblical Hebrew, Egyptian, Hittite, Sumerian, or other ancient Near Eastern language in consultation with major adviser. (Sem: 1-8)

**CLASSICAL AND ANCIENT MEDITERRANEAN STUDIES OPTION:** (12 credits)

**SUPPORTING COURSES AND RELATED AREAS:** 12 credits

Select 6 credits at the 400 level from Classics and Ancient Mediterranean Studies (CAMS), ancient Near Eastern languages, Greek, or Latin courses (Sem: 5-8)

Select 6 credits at the 400 level from appropriate courses in ancient Near Eastern languages and literature, ancient history, anthropology, Classics and Ancient Mediterranean Studies, Jewish studies, linguistics, philosophy, or religious studies from approved department list (Sem: 5-8)

**Integrated B.S. in Archaeological Science and B.A. in Classics and Ancient Mediterranean Studies/M.A. in Anthropology Degree Requirements**

The Department of Anthropology offers an integrated B.A./B.S./M.A. (IUG) program designed to allow academically superior students to obtain a B.A. or B.S. degree in Anthropology, a B.A. degree in Classics and Ancient Mediterranean Studies (CAMS), and a M.A. degree in Anthropology in five years of study. To complete the program in five years, students interested in the Integrated Undergraduate and Graduate degree in Anthropology must apply for admission to

the Graduate School and the Integrated B.S./M.S. Program by the end of their junior year.

During the first three years, the student will follow course scheduling for the B.A. degree in CAMS and either the B.A. degree in Anthropology or the B.S. degree in Archaeological Science (see the Undergraduate *Bulletin*). Students who intend to enter the IUG program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.A. advisors will be appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected options for their B.A. or B.S. majors, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their thesis research to meet the M.A. thesis requirements. During the fifth year, IUG students take courses fulfilling the M.A. degree requirements and complete their M.A. thesis.

#### **Admission Requirements**

Students who wish to complete the Integrated Undergraduate and Graduate Program in Anthropology should apply for admission to both the Graduate School and the IUG Anthropology Program no later than the end of their junior year. Successful students will be admitted formally into the graduate program in Anthropology just prior to their senior year, if their progress has been satisfactory. Admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the joint Anthropology-CAMS admission committee. Criteria for admission include a minimum overall GPA of 3.4 in their majors, strong recommendation letters from faculty, and an excellent proposal for a research project with a specific adviser who has agreed to guide the student through to the completion of the M.A. thesis.

#### **Graduate Coursework**

##### **REQUIRED COURSES**

##### **ANTHROPOLOGY (ANTH)**

493. Field Techniques (3)  
521. Current Literature in Archaeology (2)  
545. Seminar in Anthropology (6)  
588. Method and Theory in Archaeology (3)  
600. Thesis Research (6)

##### **ADDITIONAL COURSES**

Four required credits in ANTH 494(1-12) or CAMS 494(1-12)  
Six required credits in CAMS 592(3), 593(3-6), or 596(1-9)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2013

## Communication Arts and Sciences

*Berks College (CASBL)*

*University College (CASC): Penn State Brandywine, Penn State York*

*University Park, College of the Liberal Arts (CAS)*

*Contacts: Berks College, Catherine Catanach, [cdc18@psu.edu](mailto:cdc18@psu.edu); Penn State Brandywine, Wayne McMullen, [wjm11@psu.edu](mailto:wjm11@psu.edu); Penn State York, Deborah Eicher-Catt, [dle4@psu.edu](mailto:dle4@psu.edu); College of the Liberal Arts, Dr. Rachel A. Smith, [ras57@psu.edu](mailto:ras57@psu.edu)*

This major provides increased understanding and practice in the ways humans use symbols to influence people and the world around them. The ability to communicate effectively with others in personal, social, work and multicultural situations is essential in modern society. A student of Communication Arts and Sciences will learn to think critically, analyze and solve problems, understand and manage conflict, argue persuasively, influence people, form and keep relationships, give effective presentations, and participate in the civic and political life of a community. The flexibility of the program offers preparation for a variety of careers such as administration, law, business, health, and human services fields. A CAS degree also lends itself well to a concurrent degree program in which students prepare themselves in several fields of study.

For the B.A. degree in Communication Arts and Sciences, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 25 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in front of *Bulletin*.)

**REQUIREMENTS FOR THE MAJOR:** 30 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (9 credits)

CAS 201 GH(3), CAS 202 GS(3), CAS 204(3) (Sem: 3-6)

**ADDITIONAL COURSES** (6 credits)

Select 3 credits of skills courses from CAS 203 GS(3), CAS 205(3), CAS 211(3), CAS 213(3), CAS 214W(3), CAS 215(3), CAS 216(2), CAS 250(3), CAS 252(3), CAS 271 US;IL(3), CAS 280W(3), or CAS 283(3) (Sem: 3-8)

Select 3 credits of 300-level courses from CAS 302(2), CAS 311(3), CAS 321(3), CAS 352(3), CAS 373(3), CAS 375(3), CAS 383(3), CAS 398(1-9), CAS 399 IL(1-12) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits of other CAS courses; at least 12 credits must be at the 400 level. A maximum of 6 credits from CAS 494, 495, 496, and 499(IL) may satisfy this requirement. CAS 126(3) and CAS 195(1) may not be counted as part of the major (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Corporate Communication

Abington College (CCBA)

University College: Penn State Fayette, Penn State Hazleton, Penn State Lehigh Valley, Penn State Schuylkill, Penn State Wilkes-Barre, Penn State Worthington Scranton (CCCC)

PROFESSOR Roy Robson, *Head, Division of Arts and Humanities*

The Penn State Corporate Communication Bachelor of Arts (CCBA) program prepares students for various strategic communication roles inside and outside organizations. Graduates of the program hold titles such as public relations professional, social media strategist, speech and copywriter, political aide, marketing communication manager, organizational learning and development specialist, corporate recruiter, and event planner. Graduates have earned advanced degrees in areas such as Business, Law, and Corporate Communication.

The CCBA program is interdisciplinary. While providing depth of study in Corporate Communication, it also includes mandatory Business courses and courses focusing on web based competencies such as writing for the web and digital design. With its overall emphasis on the human and design aspects of contemporary organizations, the program is particularly well-suited to individuals seeking to develop and apply their analytical, verbal, and creative talents. Such talents foster aptitudes in strategic counseling and integrative praxis that, in part, make a Corporate Communication degree unique and highly sought after in the marketplace.

For the B. A. degree in Corporate Communication, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3-12 of these 45 credits are included in REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION courses)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 3-11 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 51-52 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (27 credits)

CAS 204(3), CC 200(3), COMM 100 GS(3) (Sem: 1-4)

MGMT 301(3) (Sem: 3-4)

MKTG 301(3) (Sem: 3-4)

CC 401(3), CC 402(3), CC 490W(3), CC 495A(3) (Sem: 7-8)

## Civil Engineering

Capital College (CE CA)  
University Park, College of Engineering

PROFESSOR SEROJ MACKERTICH, Program Chair

The program in Civil and Environmental Engineering is designed to provide the basic undergraduate education required for private practice and public service in civil engineering, and/or continue formal education. Emphasis is placed on the fundamentals of civil engineering principles and design techniques. Students utilize basic engineering science concepts in several of the different specialty areas (e.g., construction/management, environmental, materials/pavement design/geotechnical, structures, transportation, and water resources). Finally the students are able to choose an area of specialization for professional practice or graduate studies.

The objective of the Civil Engineering program is to prepare students for a wide range of career paths that use civil engineering principles and methodologies. A curriculum is provided that prepares our recent graduates to:

- work in industries or state and federal government agencies such as departments of transportation and departments of environmental protection that design, implement, and maintain national and/or global infrastructure;
- effectively work in and lead interdisciplinary teams needed to design sustainable transportation, water, energy, environmental, and structural infrastructure;
- stay current through continuing education opportunities, professional conferences, and other self-learning experiences; have the ability to obtain and maintain professional licensing; and have the ability to attend graduate school.

The program is broadened by courses in communication, arts, humanities, social and behavioral sciences, as well as other engineering disciplines. Students gain experience in working as members of a team and using interdisciplinary approaches to solve problems. These experiences, as well as those related to engineering principles and design, are provided through exercises in the classroom, laboratory, and field. The program culmination is a capstone design course wherein the students' knowledge and skills are applied to actual engineering problems.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Civil Engineering, a minimum of 127 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 112 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**PRESCRIBED COURSES** (71 credits)

CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1), E MCH 211(3) [\[1\]](#), EDSCN 100(3), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#) (Sem: 1-2)

E MCH 212(3) [\[1\]](#), E MCH 213(3) [\[1\]](#), STAT 401(3), GEOSC 001(3), MATH 220 GQ(2), MATH 251(4) [\[1\]](#), PHYS 212 GN(4) (Sem: 3-4)

C E 310(3) [\[1\]](#), C E 321(3) [\[1\]](#), C E 332(3) [\[1\]](#), C E 335(3) [\[1\]](#), C E 336(3) [\[1\]](#), C E 340(3) [\[1\]](#), C E 360(3) [\[1\]](#), C E 370(3) [\[1\]](#), ENGL 202C GWS(3) (Sem: 5-6)

**ADDITIONAL COURSES** (32-35 credits)

C E 100S(1) or 1 credit of First-Year Seminar or elective (Sem: 1-2)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

CMPSC 200 GQ(3) or CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 3-4)

ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 3-4)

M E 201(3) or CH E 220(3) [\[30\]](#) (Sem: 5-6)

C E 337(1) or C E 475(4) (Sem: 5-6) [\[1\]](#)

E E 211(3) or E E 212(3) [\[30\]](#) (Sem: 7-8)

Select 9 credits from C E 341(3), C E 342(3), C E 371(3), C E 422(3), C E 423(3), C E 424(3), C E 432(3), C E 435(3), C E 436(3), C E 441(3), C E 447(3), C E

461(3), C E 462(3), C E 475(4), C E 476(3), C E 479(1) (Sem: 5-8) [\[1\]](#)

Select 3 credits of C E 410W(3), C E 421W(3), C E 438W(3), C E 448W(3), C E 465W(3), C E 472W(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS:** (9 credits)

Select 9 credits of technical elective from C E 300-level courses, C E 400-level courses, or department list. (Sem: 7-8)

### Integrated B.S. in Civil Engineering/M.Eng. in Environmental Engineering Program

The Civil Engineering undergraduate and Environmental Engineering graduate program offers a limited number of academically superior Bachelor of Science candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science in Civil Engineering and the Master of Engineering in Environmental Engineering. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to earn the two degrees in five years.

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Engineering degrees. However, the total course load is reduced due to the maximum of 10 credits that can count towards both degrees. A minimum of 7 credits proposed to count for both degrees must be at the 500 level. Master's paper credits may not be double counted. The first three years of the IUG program are identical to the first three years of the Bachelor of Science program. The fourth year of the IUG program differs from that of the Bachelor of Science program due to the courses that count toward the Master of Science degree requirements.

Students will be admitted on a provisional basis laste in their 6th semester so that they may be advised appropriately for the IUG 7th semester courses. Formal acceptance is contingent upon maintaining a 3.0 cumulative GPA through the 6th semester, and a collective GPA of 3.3 or better in courses designated MATH, CHEM, C E, or ENVE.

Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the student has completed 114 to 115 credits, the end of the first semester of the senior year for a typical student in the program. Students who have not maintained a collective 3.3 GPA in courses designated MATH, CHEM, C E, or ENVE will be transferred to a probationary status. Students who have not maintained a collective GPA of 3.3 or better in courses designated MATH, CHEM, C E, or ENVE by end of their eighth semester will be **dropped** from the graduate program but will continue in the Bachelor of Science C E degree program.

If for any reason a student admitted to the IUG program is unable to complete the requirements for the Master of Engineering degree, the student will be

permitted to receive the Bachelor of Science degree, assuming all the undergraduate degree requirements have been completed satisfactorily.

Students have the choice of receiving the B.S. degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years. Note that students who are awarded a graduate assistantship must elect to receive the B.S. degree at the end of the fourth year. If for any reason a student admitted to the IUG program is unable to complete the requirements for the Master of Science degree, the student will be permitted to receive the Bachelor of Science degree assuming all the undergraduate degree requirements have been satisfactorily completed. Students who successfully complete the courses listed in the recommended schedule will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

#### Admission Requirements

To apply, students must be enrolled in the PSH Civil Engineering B.S. program. To initiate the application process, students must submit an *Integrated Undergraduate-Graduate (IUG) Degree in Civil Engineering Application Form*, a transcript, and three faculty recommendations. If the student expresses interest early in their undergraduate career, their faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. In order to apply for the IUG program, students must have completed a minimum of 82 credits. At the time of the application, students must have completed or be enrolled in C E 335, 336, 360, and 370.

A typical student would apply by the sixth semester and before the beginning of the seventh semester. For consideration for acceptance into the program, students must have earned a minimum cumulative grade-point average of 3.0, and a collective GPA of 3.3 or better in courses designated MATH, CHEM, C E, or ENVE.

To apply formally, students must submit a completed Graduate School application. The student should mention in the notes section that the application is for the IUG program in Civil Engineering/Environmental Engineering.

Students will be admitted on a provisional basis late in the spring semester of their application year so that they may be advised appropriately for the IUG 7th semester courses. Formal acceptance is contingent upon maintaining the 3.0 cumulative GPA through the 6th semester, and a collective GPA of 3.3 or better in courses designated MATH, CHEM, C E, or ENVE.

#### Degree Requirements

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Engineering degrees. The total course load is reduced due to a maximum of 10 credits that can count towards both degrees. The minimum of 7 credits double-counted must be at the 500 level. Master's paper credits may not be double counted.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[30]** Students may substitute 6 credits of ROTC for 3 credits of 400-level C E courses and 3 credits of M E or E E .

**[+]** If C E 475 is taken, one credit goes toward lab requirement and remaining three go towards C E or general technical electives.

**[#]** Those courses must be selected from at least 4 of the 5 technical areas in the Civil Engineering program--transportation (x20), construction (x30), structures (x40), hydrosystems (x60), and environmental (x70).

## Childhood and Early Adolescent Education

*Penn State Abington*

*Penn State Altoona*

*Penn State Berks*

*Penn State Erie, The Behrend College*

*University College: Penn State Lehigh Valley* **PROGRAM CURRENTLY ON HOLD at PENN STATE LEHIGH VALLEY; NOT ACCEPTING NEW STUDENTS; Begin Date of Enrollment Hold: March 22, 2016**

*University Park, College of Education (CEAED)*

PROFESSOR STEPHANIE SERRIERE, *Director*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

**CHILDHOOD AND EARLY ADOLESCENT EDUCATION.** Students successfully completing this major will have met all of the requirements for the PK-4, ENGLISH EDUCATION 4-8, MATHEMATICS EDUCATION 4-8, or SOCIAL STUDIES EDUCATION 4-8 College Instructional 1 certificate issued by the Pennsylvania Department of Education. Students must apply for admission to the major. Students interested in the major should contact their advisor and enroll in a C I 295 field experience, which features participation in the classroom.

Baccalaureate degree candidates must meet the following requirements 1-3 by the end of their third semester:

1. A minimum cumulative grade point average of 3.00.
2. Satisfaction of any basic-skills or entrance testing requirements as specified by the Pennsylvania Department of Education in force at the time of application for entrance to the major.

Requirements 3-8 must be met by the end of the fourth semester when students typically participate in the Entrance to Major process.

3. A grade of "C" or better in all specified courses.
4. Completion of an early field experience specified by the certification program.
5. Completion of a core of Education courses specified by the certification program.
6. Completion of additional credits as specified by the certification program.
7. Completion of at least 48 semester credit hours, including ENGL 015 GWS(3) or ENGL 030 GWS(3), six credits of quantification, and three credits of natural science, as well as three credits of literature for Early Education PK-4 Option, three credits of literature for Mathematics Education 4-8 Option, three credits of literature for Social Studies 4-8 Option or six credits of literature for English Education 4-8 Option.
8. Approval from the professional education adviser or the head of the pertinent certification program.

For the B.S. degree in Education with an option in Early Education PK-4, a minimum of 127 credits is required; with an option in English 4-8, a minimum of 128 credits is required; with an option in Mathematics Education 4-8, a minimum of 126 credits is required; or with an option in Social Studies Education 4-8, a minimum of 127 credits is required. (See also Teacher Education Programs.)

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST YEAR SEMINAR:**

(Included in GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 109-115 credits [\[1\]](#)

(This includes 27 credits of General Education courses: Early Education PK-4 Option – 6 credits of GH courses, 9 credits of GN courses, 6 credits of GQ courses, 6 credits of GS courses. English 4-8 Option – 6 credits of GH courses, 9 credits of GN courses, 6 credits of GQ courses, 6 credits of GS courses. Social Studies 4-8 Option – 6 credits of GH courses, 9 credits of GN courses, 6 credits of GQ courses, 6 credits of GS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 64-65 credits

**PRESCRIBED COURSES** (55 credits)

C I 280 GH(3), EDPSY 014(3), EDTHP 115 US(3), MATH 200 GQ(3) (Sem: 1-4)

C I 495D(12), C I 495F(3), KINES 126(1.5), KINES 127(1.5), LL ED 400(3), LL ED 401(3), LL ED 402(3), MTHED 420(3), SCIED 458(3), SPLED 400(4), SPLED 403A(3), SS ED 430W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (6-7 credits)

STAT 100 GQ(3), STAT 200 GQ(4), or EDPSY 101 GQ(3) (Sem: 1-4)

Any MATH GQ course (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits in literature (GH) (Sem: 1-4)

**REQUIREMENTS FOR THE OPTION:** 45-46 credits

**EARLY EDUCATION PK-4 OPTION:** (45 credits)

**PRESCRIBED COURSES** (21 credits)

C I 295A(3), HD FS 229 GS(3) (Sem: 3-4)

A ED 303(3), C I 495A(3), E C E 451(3), E C E 479(3), MUSIC 241(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 3 credits of Economic Geography (GS;US;IL) (Sem: 1-4)

Select 3 credits of US History (GS;US;IL) (Sem: 1-4)

Select 9 credits: 3 credits each (including one course with a lab) from biological science, earth science, and physical science (GN courses) (Sem: 1-6)

Select 3 credits related to families and relationships from:

E C E 453(3), HD FS 315 US(3), HD FS 415(3), HD FS 418(3), HD FS 424 US(3), HD FS 431(3), HD FS 469U IL(3), SOC 030 GS(3), or WL ED 444(3) (Sem: 1-4)

Select 6 credits of educational selections from:

APLNG 493 IL(3), E C E 452(3), E C E 454(3), HD FS 250 US(3), HD FS 330(6), HD FS 415(3), HD FS 427(3), HD FS 428(3), HD FS 429(3), HD FS 430(6), HD FS 432(3), LL ED 450(3), LL ED 467(3), WL ED 400(3), or WL ED 483(3) (Sem: 5-8)

**ENGLISH EDUCATION 4-8 OPTION:** (46 credits)

**PRESCRIBED COURSES** (19 credits)

C I 295B(3), HD FS 239 GS(3), SOC 119 GS;US(4) (Sem: 1-4)

C I 495B(3), LL ED 412W(3), LL ED 450(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)

Select 9 credits: 3 credits each (including one course with a lab) from biological science, earth science, and physical science (GN courses) (Sem: 1-6)

Select 3 credits of British Literature from:

ENGL 221(3), ENGL 222(3), ENGL 440(3), ENGL 441(3), ENGL 442(3), ENGL 443(3), ENGL 444(3), ENGL 445(3), ENGL 446(3), ENGL 447(3), ENGL 448(3), ENGL 449 US;IL(3), ENGL 450(3), ENGL 451(3), ENGL 452(3), ENGL 453(3), ENGL 454(3), ENGL 455(3), ENGL 456(3), ENGL 457(3), or ENGL 458(3) (Sem: 1-6)

Select 3 credits of American Literature from:

ENGL 231 GH(3), ENGL 232 GH(3), ENGL 432(3), ENGL 433(3), ENGL 434(3), ENGL 435(3), ENGL 436(3), ENGL 437(3), ENGL 438(3), or ENGL 439(3) (Sem: 1-6)

Select 3 credits of Comparative Literature from:

ENGL 135 GH;US(3), ENGL 139 GH;US(3), ENGL 194 GH;US;IL(3), ENGL 226 GH;US;IL(3), ENGL 235 US(3), ENGL 245 GH;US(3), ENGL 431 US(3), ENGL 461 US(3), ENGL 462 US(3), ENGL 463 US(3), ENGL 466 US(3), ENGL 467 US(3), ENGL 468 US(3), ENGL 469 US(3), CMLIT 101 GH;US;IL(3), CMLIT 109 GH;US;IL(3), CMLIT 110 GH;US;IL(3), CMLIT 111 GH;IL(3), CMLIT 404 IL(3), CMLIT 422 IL(3), or CMLIT 423 IL(3) (Sem: 1-6)

Select 3 credits of Writing from:

ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 281(3), ENGL 412(3), ENGL 413(3), ENGL 414(3), or ENGL 415(3) (Sem: 1-6)

Select 6 credits of Media Literacy from:

COMM 100 GS(3), COMM 120(3), COMM 150 GA(3), COMM 180 GS(3), COMM 205 GS;US(3), COMM 250 GA(3), COMM 453 IL(3), COMM 454(3), CAS 211(3), CAS 213(3), CAS 215(3), CAS 250(3), CAS 271 US;IL(3), CAS 280W(3), CAS 375(3), CAS 422 US(3), or CAS 480(3) (Sem: 1-6)

#### **MATHEMATICS EDUCATION 4-8 OPTION: (50 credits)**

##### **PRESCRIBED COURSES (35 credits)**

C I 295B(3), HD FS 239 GS(3), MATH 140(4), MATH 141(4), MATH 201 GQ(3) (Sem: 1-4)

MATH 311W(3) (Sem: 4-6)

MTHED 428(3), MTHED 429(3) (Sem: 5-6)

MTHED 431(3), MTHED 433(3) (Sem: 6-7)

C I 495B(3) (Sem: 7)

##### **COURSES AND RELATED AREAS (15 credits)**

Select 9 credits: 3 credits each (including one course with a lab) from biological science, earth science, and physical science (GN courses) (Sem: 1-6)

Select 3 credits from humanities GH (Sem: 1-3)

Select 3 credits from social and behavioral sciences GS (Sem: 1-3)

#### **SOCIAL STUDIES 4-8 OPTION: (45 credits)**

##### **PRESCRIBED COURSES (24 credits)**

C I 295B(3), PL SC 001 GS(3), HIST 020 GH;US(3), GEOG 010 GN(3), GEOG 020 GS;US;IL(3), HD FS 239 GS(3) (Sem: 1-6)

C I 495B(3), LL ED 412W(3) (Sem: 5-8)

##### **SUPPORTING COURSES AND RELATED AREAS (21 credits)**

Select 6 credits: 3 credits each (including one course with a lab) from biological science, and physical science (GN courses) (Sem: 1-6)

Select 15 credits from social sciences with at least 6 credits taken at the 100-level or above

At least 3 credits in Economic Policy Issues (Sem: 3-8)

At least 6 credits in Civics and Society (Sem: 3-8)

At least 6 credits in Historical and Geographical Perspectives (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Community, Environment, and Development

University Park, College of Agricultural Sciences (CED)

PROFESSOR LELAND GLENNA, Program Coordinator

The principal goal of the Community, Environment, and Development (CED) major is to develop the knowledge and skills of undergraduate students to enable them to assist local people, their communities, and institutions effectively understand, respond to and ultimately shape economic and social changes, including those that pose risks to the environment. The CED major focuses on the fields of community and economic development, environment and natural resources, and the critically important interactions between these fields, both locally and globally. Building skills and knowledge to tackle important environment and development issues facing communities today requires a multidisciplinary or transdisciplinary program; the major bridges the disciplines of agricultural, environmental and regional economics on the one hand and rural sociology on the other. Foundation (Level I) courses introduce students to key concepts in economics and sociology, and examine how these disciplines contribute to the basic content knowledge encompassing community and economic development and environmental economics and sociology. Level II courses build on the Foundation courses by extending the content knowledge to address the interrelationship between environment and natural resources and community and economic development. Coursework in Methods, Quantification and Communication is also required, including methods and techniques such as Geographical Information Systems and Geographical Information Analysis, statistics and survey research methods. Finally, students select among three options: (1) Community and Economic Development, (2) Environmental Economics and Policy, and (3) International Development. Students specialize in an option that further allows them to develop skills and competencies matching their specific education and career goals. It is expected that some students completing the program will choose to attend graduate school or law school, while others will choose employment after graduation.

For the B.S. degree in Community, Environment, and Development, a minimum of 120 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selections)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION, or REQUIREMENTS FOR THE MAJOR course selections)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 6-8 credits

### REQUIREMENTS FOR THE MAJOR: 88-90 credits

(This includes 21 credits of General Education courses: 6 credits of GQ courses, 6 credits of GS courses, 9 credits of GWS.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 58-60 credits

#### PRESCRIBED COURSES (40 credits)

CED 152(3) [\[1\]](#), CED 201(3) [\[1\]](#), CED 230(3) [\[1\]](#), ENGL 015 GWS(3) (Sem: 2)

## Computer Engineering

*Penn State Erie, The Behrend College (CENBD)*

This major provides students with a strong foundation in computer engineering through a combination of classroom study, design projects, and laboratory experience. Analysis and design of computer hardware and software systems are stressed. Built upon a core of science and mathematics courses, this major has the objective of educating graduates to be problem solvers. Students acquire the ability to work as members of a team toward successful attainment of a common goal, preparing them for industry or further study in graduate school. In addition, written and oral communication skills are developed from an early stage, culminating in a senior design project that stresses communication as well as engineering content.

In addition to completing a broad-based science core in mathematics, chemistry and physics, students pursue their interest in computer engineering by studying principles in digital hardware design, computer architecture, computer software, microelectronics, and computer data communications. The student will be required to analyze and solve a significant computer engineering design problem during the senior year.

**Entrance Requirement:** In addition to the Carnegie unit and minimum GPA requirements described by University policies, all students applying for entrance to any of the engineering majors at Behrend College must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), and PHYSICS 211 GN(4). These courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in computer engineering, a minimum of 130 credits is required. Each student must earn at least a grade of C in each 300-and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of the 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

## Chemical Engineering

University Park, College of Engineering (CH E)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR PHILLIP E. SAVAGE, *Head, Department of Chemical Engineering*

Chemical Engineering is one of the most versatile professions--you'll find Chemical Engineers employed in a broad array of industries ranging from pharmaceutical and biotechnical companies to semiconductor manufacturing to start-up companies converting the latest laboratory discoveries to large-scale commercial production. Chemical Engineers work with catalysts to develop new ways to manufacture medicines and plastics; they develop control systems that enable the safe production of products from semiconductors to household soap; they design chemical and petroleum plants; they research the effects of artificial organs on blood flow; and they develop the equipment and processes necessary for advances in biotechnology. While chemistry emphasizes the facts and principles of science, chemical engineering emphasizes its practical application for the development of new products and processes.

The undergraduate program in Chemical Engineering provides students with fundamental skills in problem solving, analysis, and design, along with hands-on experience in practical applications. The curriculum builds upon the traditional foundation in the chemical and energy-related industries and introduces new material in the life sciences, polymers, and environmental fields. Students have numerous opportunities to pursue more specialized areas including formal options in Bioprocess and Biomolecular Engineering, Energy and Fuels, and Polymer Engineering.

The program aims to produce graduates who will attain one or more of the following:

1. Careers as practicing chemical engineers in traditional chemical and energy-related industries as well as in expanding areas of materials, environmental, pharmaceutical, and biotechnology industries.
2. Advanced degrees in chemical engineering (or a related technical discipline), medicine, law, or business.
3. Positions that provide the technical, educational, business, and/or political leadership needed in today's rapidly changing, increasingly technological, global society.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHSY 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in Chemical Engineering, a minimum of 133 credits is required. This baccalaureate program in Chemical Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

## Chemistry

University Park, Eberly College of Science (CHEM)

PROFESSOR Mark Maroncelli, Assistant Head for Undergraduate Education

This major provides a strong foundation in the theory and practice of chemistry. Mathematics and physics are emphasized, since these subjects are essential to the understanding of chemistry. Courses in English and electives ensure study in non-technical subjects which broaden the student's general education and enables him or her to relate the major to other fields of knowledge.

In order to be eligible for entrance to the Chemistry major, a student must have: 1) Attained at least a 2.00 cumulative grade-point average. 2) Completed CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3), MATH 140 GQ(4), and MATH 141 GQ(4); earned a grade of C or better in each of these courses; and earned a combined grade point average of at least 2.50 in these courses. (Note: If courses are repeated, only the higher grade will be used in this calculation.)

For the B.S. degree in Chemistry, a minimum of 125 credits is required with a cumulative grade point average of at least a 2.00 in these courses. A grade of C or better is required in all courses within the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:** 1-3 credits

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 94 credits

(This requirement includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

**PRESCRIBED COURSES** (54 credits)

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1)[\[1\]](#), CHEM 112 GN(3)[\[1\]](#), CHEM 113 GN(1)[\[1\]](#), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#) (Sem: 1-2)

PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 1-4)

MATH 231(2) (Sem: 3-4)

CHEM 210(3)[\[1\]](#), CHEM 212(3)[\[1\]](#), CHEM 213(2)[\[1\]](#), CHEM 227(4)[\[1\]](#), CHEM 310(3)[\[1\]](#), CHEM 316(1), CHEM 450(3)[\[1\]](#), CHEM 452(3)[\[1\]](#), CHEM 457(2)[\[1\]](#) (Sem: 5-6)

**ADDITIONAL COURSES** (23 credits)

Select 3 credits from MATH 250(3) or STAT 401(3) (Sem: 5-8)

Select 4 credits from advanced laboratory courses[\[1\]](#): CHEM 423W(4), CHEM 425W (4), CHEM 431W(4), CHEM 459W(4) (Sem: 5-8)

Select 16 credits of chemistry at the 400 level[\[1\]](#). Up to 6 co-op credits (2 each of SC 295, SC 395, SC 495) may be used in this category. Chemical Research, CHEM 494(1-10) may be used, but the total of CHEM 494 credits plus co-op credits may not exceed 8. (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (17 credits)

These 17 credits may include any courses not on the Chemistry Department list of excluded courses except that CHEM 494 may not be used, and only one credit of each SC 295, SC 395, and SC 495 is allowed in this category. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Chemistry

*Penn State Erie, The Behrend College (CHMBD)*

This major provides a strong foundation in chemistry and prepares students for graduate or professional programs and for careers with companies and agencies requiring chemistry or related areas. The major has four options that allow students to choose an area of specialization to meet their career goals. These options are: general chemistry, biochemistry, business, and chemistry education pre-certification. Students have the opportunity to participate in research with faculty members.

**Entrance Requirement:** In order to be eligible for entrance to the CHMBD major (all options), a student must have: (1) attained more than 27 credits and (2) earned at least a 2.00 cumulative grade-point average.

For the B.S. degree in Chemistry, a minimum of 124 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field and must have earned a minimum 2.00 grade-point average.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(18-21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-6 credits

**REQUIREMENTS FOR THE MAJOR:** 92-102 credits

(This includes 18-24 credits of General Education courses. For the General Chemistry Option, and Biochemistry Option, 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses. For the Business Option, 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses. For the Chemistry Education Pre-Certification Option, 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 54 credits

**PRESCRIBED COURSES** (54 credits)

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1)[\[1\]](#), CHEM 112 GN(3)[\[1\]](#), CHEM 113 GN(1)[\[1\]](#), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#), PHYS 211 GN(4)[\[1\]](#), PHYS 212 GN(4)[\[1\]](#) (Sem: 1-4)

CHEM 210(3)[\[1\]](#), CHEM 212(3)[\[1\]](#), CHEM 213(2)[\[1\]](#), CHEM 221(4)[\[1\]](#), CHEM 316(1) (Sem: 3-6)

CHEM 400(1), CHEM 413(4), CHEM 431W(3), CHEM 440(3), CHEM 441(1), CHEM 443(1), CHEM 457(1), and CHEM 472(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 38-48 credits

**GENERAL CHEMISTRY OPTION:** (38 credits)

**PRESCRIBED COURSES** (14 credits)

CHEM 450(3), CHEM 452(3) and CHEM 457(1), ENGL 202C GWS(3)[\[1\]](#), MATH 230(4)[\[1\]](#) (Sem: 3-8)

**ADDITIONAL COURSES** (12 credits)

Select 3 credits from MATH 250(3)[\[1\]](#) or STAT 401(3) (Sem: 3-6)

Select 6 credits of 400-level CHEM courses (excluding CHEM 494, CHEM 495, and CHEM 496) (Sem: 5-8)

Select 3 credits from CHEM 494(1-12) or CHEM 496(1-18) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from school-approved list. (Students may apply up to 6 credits of ROTC.) (Sem: 1-8)

**BIOCHEMISTRY OPTION:** (44 credits)

**PRESCRIBED COURSES** (26 credits)

B M B 402(3), BIOL 110S GN(4)[\[1\]](#), BIOL 230W GN(4)[\[1\]](#) (Sem: 3-8)

ENGL 202C GWS(3)[\[1\]](#), MATH 230(4)[\[1\]](#) (Sem: 3-8)

B M B 403(1), CHEM 450(3), CHEM 452(3) and CHEM 457(1) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 3 credits from B M B 406(3), B M B 465(3), BIOL 322(3), MICRB 201(3) (Sem: 3-8)

Select 3 credits from MATH 250(3)[\[1\]](#) or STAT 401(3) (Sem: 3-6)

Select 3 credits of 400-level CHEM courses (excluding CHEM 494, CHEM 495, and CHEM 496) (Sem: 5-8)

Select 3 credits from CHEM 494(1-12) or CHEM 496(1-18) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from school-approved list. (Students may apply up to 6 credits of ROTC.) (Sem: 1-8)

**BUSINESS OPTION:** (46-47 credits)

**PRESCRIBED COURSES** (22 credits)

ECON 102 GS(3)[\[1\]](#), ENGL 202D GWS(3)[\[1\]](#), MGMT 301(3), MKTG 301(3) (Sem: 3-8)

CHEM 496(3) (Sem: 5-8)

SCM 200 GQ(4)[\[1\]](#), STAT 401(3) (Sem: 3-6)

**ADDITIONAL COURSES** (18-19 credits)

CHEM 450(3) or CHEM 452(3) (Sem: 5-6)

Select 6 credits of 400-level CHEM courses (excluding CHEM 494, CHEM 495, and CHEM 496) (Sem: 5-8)

Select 9-10 credits in one of the following sequences:

a) SCM 310(3), MGMT 331(3), MGMT 410(3), MGMT 420(3) (Sem: 5-8)

b) MKTG 342(3), MKTG 330(3), MKTG 327(3), MKTG 410(3), MKTG 428(3) (Sem: 5-8)

c) CMPSC 203 GQ(4), MIS 204(3), MIS 336(3), MIS 430(3), MIS 445(4) (Sem: 5-8)

d) One selection each from a), b), and c) above (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from school-approved list. (Students may apply up to 6 credits of ROTC.) (Sem: 1-8)

**CHEMISTRY EDUCATION PRE-CERTIFICATION OPTION:** (47-48 credits)

This option helps prepare students for chemistry education teaching positions in secondary schools. It includes the academic requirements for the Chemistry Education Instructional I certificate issued by the Pennsylvania Department of Education.

**PRESCRIBED COURSES** (26-27 credits)

CHEM 450(3), CHEM 452(3) and CHEM 457(1), ENGL 202C GWS(3)[\[1\]](#), MATH 230(4)[\[1\]](#), PSYCH 100 GS(3)[\[1\]](#) (Sem: 3-8)  
EDPSY 014(3) taken concurrently with C I 295(1), EDTHP 115 US(3) taken concurrently with C I 295(1) (Sem:3-8)  
CHEM 395(1-2) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from MATH 250(3)[\[1\]](#) or STAT 401(3) (Sem: 3-6)  
Select 6 credits of 400-level CHEM courses (excluding CHEM 494, CHEM 495, and CHEM 496) (Sem: 5-8)  
Select 3 credits from CHEM 494(1-12) or CHEM 496(1-18) (Sem: 5-8)  
HD FS 129 GS(3)[\[84\]](#) or PSYCH 212 GS(3)[\[84\]](#) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from school-approved list. (Students may apply up to 6 credits of ROTC.) (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

# Chinese

University Park, College of the Liberal Arts (CHNS)

PROFESSOR ON-CHO NG, *Department Head, Asian Studies*

Currently more than a billion people speak Chinese, making it one of the most widely spoken languages in the world. As a rising superpower with an increasingly global impact, China is a major international presence. The major in Chinese is designed to develop skills in speaking, understanding, reading, and writing Chinese, as well as to promote an understanding of the diverse literatures, cultures, and traditions of the Chinese-speaking world, ranging from China itself to Chinese-speaking America. The major can help students prepare for professional careers in which knowledge of Chinese, especially Mandarin, is useful. Students are strongly encouraged to study abroad.

Students planning to teach in public schools should schedule the appropriate courses leading to certification in consultation with an adviser in the College of Education.

For the B.A. degree in Chinese, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(0-9 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 20-28 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in front of *Bulletin*.)

**REQUIREMENTS FOR THE MAJOR:** 35 credits<sup>[1]</sup>

(This includes 0-9 credits of General Education GA, GH, or GS courses.)

(At least 21 credits must be at the 400 level.)

(Students are strongly encouraged to take at least 12 of their credits as part of a study abroad program in a Chinese-speaking location. For curricular sequencing, the program encourages students to pursue this Education Abroad experience in the summer or fall semester of the junior year.)

**PRESCRIBED COURSES** (20 credits)

CHNS 110 IL(4) (Sem: 3-4)

CHNS 401 IL(4), CHNS 402 IL(4) (Sem: 5-6)

CHNS 403W(4), CHNS 404 IL(4) (Sem: 7-8)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from CHNS 120 GH;IL(3) or CHNS 121 GH;IL(3) (Sem: 1-6)

Select 3 credits from the CHNS 420-429 level (3) (Sem: 1-8)

Select 3 credits from the CHNS 450-459 level (3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits pertaining to China, such as courses in art history, Asian studies, comparative literature, economics, geography, history, philosophy, political science, religious studies, theatre arts, or other fields, selected from departmental list. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

LA

## Corporate Innovation and Entrepreneurship

University Park, Smeal College of Business (CIENT)

PROFESSOR DENNY GIOIA, Chair, Department of Management and Organization

The Corporate Innovation and Entrepreneurship major prepares students for challenges in the development of emerging products and new markets for demanding consumers. The ability to adapt to a rapidly changing social and business environment can yield great rewards and returns, but it requires innovative, multifunctional individuals able to adapt to and develop new technologies, innovations and businesses amid a wider environment of change, uncertainty and ambiguity. The major is conceived for students interested in starting and managing new businesses or re-inventing current business with the intent of growing the economy and providing jobs for a diverse workforce. The major will focus on developing problem solving and creative thinking skills, along with the ability to recognize opportunities, spot trends, and develop a plan to capitalize on these ideas. Emerging entrepreneurs and innovative managers of small to large businesses must be competent in various mediums of communication, have good negotiation skills, can lead with ethics and integrity, and are grounded in business aspects of planning, capital investing, goal setting, and decision making.

**Entrance Requirement:** To be eligible for entrance into the Corporate Innovation and Entrepreneurship (CIENT) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

### Specific entrance requirements include:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[1]; ECON 102 GS(3), SCM 200 GQ(4)[1] or STAT 200 GQ(4)[1]; ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4)[1] or MATH 140 GQ(4)[1]; FIN 301(3)[1]; MKTG 301(3)[1]; and MGMT 301(3)[1]. These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

**Degree Completion:** Students accepted into the Corporate Innovation and Entrepreneurship major are expected to enroll at University Park the fall semester after the entrance-to-major process has concluded. In addition, Senate Policy 83-80.5 stipulates that the college dean and program faculty may require up to 24 credits of course work in the major to be taken in the college where the degree is earned. Based on this policy, the Smeal College of Business has set the following credit earning limitations for CI&E majors:

1. Fifteen credits of 300/400 level prescribed and additional courses in the major field must be completed with Management faculty at University Park.

Nine additional credits of 300/400 level related and supporting courses must also be completed at University Park. See the Corporate Innovation and Entrepreneurship Recommended Academic Plan or the M&O Department website for further details.

For the B.S. degree in Corporate Innovation and Entrepreneurship, a minimum of 120 credits is required (at least 15 credits must be taken at the 400 level).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(12 of these 45 credits are included in the **REQUIREMENTS FOR THE MAJOR**)  
(See description of General Education in front of Bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES AND INTERNATIONAL COMPETENCE:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14 credits

**REQUIREMENTS FOR THE MAJOR:** 73 credits  
(This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (52 credits)  
ACCTG 211(4)[1], ECON 102 GS(3), FIN 301(3)[1], MGMT 301(3)[1], MKTG 301(3)[1] (Sem: 1-4)  
B A 342(3), B A 411(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3), MGMT 425(3)[1], MGMT 426(3)[1], MGMT 427(3)[1], MGMT 451W(3)[1], MGMT 453(3)[1], MIS 204(3), SCM 301(3) (Sem: 5-8)

**ADDITIONAL COURSES** (8 credits)  
MATH 110 GQ(4)[1] or MATH 140 GQ(4)[1] (Sem: 1-2)  
SCM 200 GQ(4)[1] or STAT 200 GQ(4)[1] (Sem: 1-2)

**SUPPORTING COURSES AND RELATED AREAS** (13 credits)  
Select 4 credits: Attainment of 12th credit level proficiency in a single foreign language (4 credits). Proficiency must be demonstrated by either examination or course work. (Sem: 1-4)  
Select 3 credits of related coursework. See Department List (Sem: 5-8)  
Select 6 credits of supporting coursework from an approved department list. (Sem: 5-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Criminal Justice

Abington College (CJAAB)  
 Altoona College (CJBA)  
 Penn State Berks (CJABL)

Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

For the B.A. degree in Criminal Justice, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (10-13 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

## Criminology

*University Park, College of the Liberal Arts (CRMBA)*

PROFESSOR JOHN ICELAND, *Head, Department of Sociology, and Crime, Law, and Justice*

(The Bachelor of Arts degree in Criminology is offered by the Criminology Program in the Department of Sociology.)

This major provides students with a broadly based liberal education focused on the understanding and analysis of crime and justice systems. Students obtain a foundation of knowledge of the basic components of the criminal justice and legal systems as well as abilities to solve problems, think and read critically, and write effectively within the context of criminal justice and criminological research and theory.

The B.A. degree is suitable for students seeking entry-level positions in the criminal justice system and for students interested in graduate and law school. Students interested in acquiring strong quantitative skills should consider the B.S. degree.

For the B.A. degree in Criminology, a minimum of 121 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 34 credits<sup>[1]</sup>

(This includes 4 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (13 credits)

CRIM 100 GS(3)/CRIMJ 100 GS(3), CRIM 012 GS(3)/CRIMJ 012 GS(3)/SOC 012 GS(3) (Sem: 1-4)

STAT 200 GQ(4), CRIM 250W(3) (Sem: 1-8)

**ADDITIONAL COURSES** (21 credits)

Select 3 credits from: CAS 283(3), CMPSC 100(3), CMPSC 101 GQ(3) (Sem: 1-8)

Select 3 credits from: SOC 001 GS(3), SOC 003 GS(3), or SOC 005 GS(3) (Sem: 1-8)

Select 6 credits from: CRIM 430(3), CRIM 432(3), CRIM 435(3), CRIM 451 US(3), CRIM 453 US(3), CRIM 467(3), CRIM 490(3) (Sem: 5-8)

Select 6 credits from: CRIM 406(3), CRIM 407(3), CRIM 413(3), CRIM 414(3), CRIM 421(3), CRIM 422(3), CRIM 423(3), CRIM 424(3), CRIM 425(3), CRIM 441(3) (Sem: 5-8)

Select 3 additional credits at the 400 level in Criminology (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Criminology

University Park, College of the Liberal Arts (CRMBS)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR JOHN ICELAND, *Head, Department of Sociology, and Crime, Law, and Justice*

This major provides the opportunity to develop a stronger foundation in research methods, quantification, and the sciences. It prepares students with relevant aptitudes for pursuing further studies or finding employment where such knowledge is advantageous. Students contemplating futures in social science research, business, forensics, public service, and paralegal positions should consider this degree or some of its recommended courses.

Either the B.A. or B.S. degree is suitable for students seeking entry level positions in the criminal justice system and for students interested in graduate and law school. Students interested in acquiring strong quantitative skills should consider the B.S. degree.

For the B.S. degree in Criminology, a minimum of 121 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 17-19 credits

**REQUIREMENTS FOR THE MAJOR:** 61-63 credits<sup>[1]</sup>

(This includes 4 credits of GENERAL EDUCATION GQ courses)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 40 credits

**PRESCRIBED COURSES** (13 credits)

CRIM 012 GS(3)/CRIMJ 012 GS(3)/SOC 012 GS(3), CRIM 100(3)/CRIMJ 100(3) (Sem: 1-2)

STAT 200 GQ(4) (Sem: 1-8)

CRIMJ 250W(3) (Sem: 2-4)

**ADDITIONAL COURSES** (27 credits)

Select 3 credits from: CAS 283(3), CMPSC 100(3), CMPSC 101 GQ(3) (Sem: 1-8)

Select 3 credits from: SOC 001 GS(3), SOC 003 GS(3), or SOC 005 GS(3) (Sem: 1-8)

Select 6 credits in race, ethnicity and gender:

AF AM 100 GS;US(3), AF AM 101 GH;US(3), AF AM/SOC/WMNST 103 US(3), AF AM 103 US(3)/SOC 103 US(3)/WMNST 103 US(3), AM ST/WMNST 104 GH;US(3), AM ST 105 GH;US(3), AM ST 432(3), ANTH 146 GS;US(3), CAS 271 US;IL(3), CAS 422 US(3), CAS 455 US(3), CAS 471 US;IL(3), CMLIT 101 GH;US;IL(3), CRIM 451(3), CRIMJ/WMNST 453 US(3), ENGL 135 GH;US(3), ENGL 139 GH;US(3), ENGL 462 US(3), HIST 154 GH;US(3), LER/WMNST 136 US(3), PHIL 009 GH(3), PSYCH 432 US(3), SOC 119 GS;US(4), SOC 409 US(3), SOC 419(3), SOC 429(3) or WMNST 001 GS;US;IL(3) (Sem: 1-8)

Select 6 credits from the core courses CRIMJ 430(3), CRIM 432(3), CRIM 435(3), CRIM 451(3), CRIM 453(3), CRIM 467(3), CRIM 490(3) (Sem: 5-8)

Select 6 credits from CRIM 406(3), CRIM 407(3), CRIM 413(3), CRIM 414(3), CRIM 421(3), CRIM 422(3), CRIM 423(3), CRIM 424(3), CRIM 425(3), CRIM 441(3) (Sem: 5-8)

Select 3 additional credits at the 400-level in Criminology (CRIM) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 21-23 credits

**BUSINESS/PUBLIC ADMINISTRATION OPTION:** (21 credits)

**PRESCRIBED COURSES** (6 credits)

ECON 102 GS(3), ECON 104 GS(3) (Sem: 1-8)

**ADDITIONAL COURSES** (15 credits)

Select 15 credits with at least 3 credits each from groups a, b, c, d (Sem: 3-8)

a) ECON 302 GS(3), FIN 100(3)

b) MGMT 100(3), MKTG 221(3), PSYCH 281 GS(3), PSYCH 482(3), PSYCH 484(3), PSYCH 485(3)

c) B LAW 243(3), LER 401(3), LER 411(3), LER 434(3), LER 435(3), LER 437(3), SOC 444(3), SOC 455(3)

d) Select 3 credits from CAS 404(3), CAS 450W(3), CAS 452(3), CAS 471 US;IL(3), CAS 483(3), ENGL 418(3), ENGL 419(3), ENGL 421(3), FR 408(3), GER 408 IL(3), HIST 425 IL(3), HIST 458W(3), LER 400-level course(s), PL SC 412(3), PL SC 417(3), PL SC 419(3), PL SC 490(3), PL SC 444(3), PSYCH 482(3), PSYCH 484(3), PSYCH 485(3), SOC 444(3), SOC 455(3), SOC 456(3), SPAN 412(3)

**COMPUTING AND STATISTICS OPTION:** (21 credits)

**PRESCRIBED COURSES** (5 credits)

SOC 470(4), STAT 480(1) (Sem: 5-8)

**ADDITIONAL COURSES** (16 credits)

Select 16 credits from CAS 483(3), CMPSC 203 GQ(4), MATH 110 GQ(4) and MATH 111 GQ(2) or MATH 140 GQ(4) and MATH 141 GQ(4); MIS 204(3); STAT 460(3), STAT 462(3) or STAT 464(3) (Sem: 1-8)

**LEGAL STUDIES OPTION:** (21 credits)

**PRESCRIBED COURSES** (3 credits)

PHIL 012 GQ(3) (Sem: 1-8)

**ADDITIONAL COURSES** (18 credits)

Select 3 credits from CAS 213(3), CAS 215(3), CAS 321(3) or CAS 250(3) (Sem: 3-8)

Select 12 credits from B LAW 243(3), B LAW 410(3), CRIM 432(3) or CRIM 467(3)/SOC 467(3), CRIM 469(3), COMM 403(3), L ST 470(3), PHIL 105 GH(3), PHIL 108 GH(3), PHIL 408(3), PL SC 403(3), PL SC 431(3), PL SC 432(3), PL SC 471(3), PL SC 472(3), SOC 405(3) (Sem: 5-8)

Select 3 credits from HIST 449 US(3), HIST 450 US(3), PL SC 474(3) (Sem: 5-8)

**SOCIAL SCIENCE RESEARCH OPTION:** (22-23 credits)

**PRESCRIBED COURSES** (5 credits)

SOC 470(4), STAT 480(1) (Sem: 5-8)

**ADDITIONAL COURSES** (17-18 credits)

## Undergraduate Bulletin Archive - June, 2016

2015 - 2016

Select 8-9 credits from MATH 110 GQ(4) and MATH 111 GQ(2) or MATH 140 GQ(4) and MATH 141 GQ(4), STAT 460(3), STAT 462(3), STAT 464(3) (Sem: 1-8)  
Select 9 credits from HD FS 401(3), PL SC 490(3), any 400-level STAT course (Sem: 5-8)

NOTE: Internships will be counted as elective credits (CRIM 395).

NOTE: The following themes should be incorporated into all CRIM classes, as appropriate: ethical issues, ethnicity and gender issues, and theory.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Comparative Literature

University Park, College of the Liberal Arts (CMLIT)

PROFESSOR ROBERT R. EDWARDS, *Head*

Approaching literature with an interdisciplinary and global perspective, the major in Comparative Literature crosses the boundaries of geography, time, nationalities, languages, and cultures. The world of literature taught draws upon readings from the Americas, Europe, Africa, Asia, and the Middle East, and from a wide range of historical periods. The range includes recognized great books along with less-known works, including women's literature, colonial and postcolonial literatures, indigenous literatures, testimonies, legends, myths, and folktales, banned books, literatures of the occult, science and detective fictions, virtual worlds, and cultural theory. Students learn to appreciate different languages and cultures, develop the critical skills for literary and cultural analysis, and relate literature to other media, including film and digital media. The major also encourages students to explore the relationship between literature and ethics through course offerings focused on transnational identities, human rights, cultures of globalization, and the problem of violence. A senior seminar clarifies the mysteries of literary theory and provides opportunities for individual projects.

Students majoring in Comparative Literature take courses in the Department of Comparative Literature and in other literature departments. They also develop competence in a foreign language. Study abroad is encouraged: Students may count up to 18 Education Abroad credits toward the major.

Graduates of the Department of Comparative Literature have undertaken careers in teaching, completed advanced degrees in literature, librarianship, law, and similar fields, entered the Peace Corps or other types of government service, and pursued careers in writing and communications.

The department offers a minor in World Literature as well as the major in Comparative Literature.

For the B.A. degree in Comparative Literature, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 24 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits<sup>[1]</sup>

(This includes 6 credits of GH General Education courses.)

**PRESCRIBED COURSES** (9 credits)

CMLIT 010 GH;IL(3), CMLIT 100 GH;IL(3) (Sem: 1-4)

CMLIT 400Y IL(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)

(Must include at least 15 credits at the 400 level)

a. Language: select at least 6 and no more than 18 credits in the study of a single foreign language and/or literature beyond the 12th credit level. See department list. (Sem: 1-8)

b. Literatures: select at least 6 and no more than 18 credits in courses on literature. Up to 12 of these credits can be taken through departments other than Comparative Literature and the department used to fulfill the "Language" requirement in (a) above. Up to 12 credits may be taken as courses offered through an Education Abroad program with departmental approval. (Sem: 1-8)

c. 3 credits in Comparative Literature at the 400 level. (Sem: 4-8)

### Integrated B.A./M.A. Program in Comparative Literature (CMLIT)

The Department of Comparative Literature offers an integrated B.A./M.A. program that is designed to allow academically superior baccalaureate students to obtain both the B.A. and the M.A. degrees in Comparative Literature within five years of study. The first two years of undergraduate coursework include the University General Education and Liberal Arts requirements in addition to language and literature study in the major. In the third year, students are expected to define areas of interest in two primary literatures in different languages. In addition, students in the B.A./M.A. program should begin to undertake work in a second foreign language. The fourth year includes graduate-level work in methodology and the student's selection of primary literatures which replaces comparable 400-level senior year courses. The fifth and final year of the program typically consists of graduate work in Comparative Literature courses as well as the chosen literatures. The program culminates with an M.A. paper.

By encouraging greater depth and focus in the course of study beginning in the third undergraduate year, this program will help students more clearly define their area of interest and expertise in the otherwise vast field of international literatures. As a result, long-range academic planning for exceptional students pursuing doctoral degrees after leaving Penn State, or other professional goals, will be greatly enhanced. The student may also be more competitive in applying for admission to Ph.D. programs as well as for institutional and national grant monies and scholarships.

#### Admission Requirements

The number of openings in the integrated B.A./M.A. program is limited. Admission will be selective based on specific criteria and the unqualified recommendation of faculty. Applicants to the integrated program:

1. Must be enrolled in the Comparative Literature B.A. program<sup>[1]</sup>.
2. Must have completed 60 credits of the undergraduate degree program (it is strongly suggested that students apply to the program prior to completing 100 credits).
3. Must be accepted without reservation into the M.A. program in Comparative Literature.
4. Should have a recommended overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
5. Must present a departmentally approved plan of study in the application process.
6. Must be recommended by the chairs of the Department's undergraduate and graduate committees.

A typical sequence of coursework for the integrated program would appear as follows:

**Year One:** 6 credits: CMLIT 010  
CMLIT 100

**Year Two:** 6 credits: Foreign Language (beyond the 12-credit level)  
6 credits: Courses in Literature

**Year Three:** 9 credits: 400-level courses in Literature, including CMLIT 400Y  
(variable credits) Work in foreign language (credits do not count towards the major, but reading proficiency is required for the M.A. degree)

**Year Four:** 3 credits: CMLIT 501, 502 and/or 503  
6 credits: Comparative Literature courses  
6-9 credits: 500-level courses in Literatures (at least 3 credits in non-Anglophone literature)

<b><u>Year Five</u></b>	3 credits:	CMLIT 501, 502, and/or 503
	9-12 credits	500-level courses in Literatures (at least 3 credits in non-Anglophone literature)
	6 credits	500-level Comparative Literature Courses M.A. paper

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Summer Session 2010 (CMLIT); Spring Semester 2012 (Integrated B.A./M.A.)

Blue Sheet Item #: 38-05-099 (CMLIT); 40-06-143 (Integrated B.A./M.A.)

Review Date: 04/10/2012

LA

## Computer Science

*Penn State Erie, The Behrend College (CMPBD)*

The goal of the Computer Science major at Behrend is to produce graduates with a firm foundation in the fundamentals of computer science along with a significant background in one or more of the natural sciences to provide context. Students are encouraged to pursue a minor in one of the natural sciences (biology, chemistry), math, or statistics. Students prepare for the major by taking lower-division courses in programming, discrete math, computer organization, and data communications. They then complete upper-division courses in data structures and algorithms, data base management systems, net-centric programming, programming language fundamentals, and operating systems, and systems programming.

Graduates of this program will be prepared for a wide variety of computer-oriented careers in business, industry, and government, particularly in areas that require the practical application of computer science concepts and techniques to solving problems in the natural sciences. In addition, graduates will be prepared to pursue graduate study in computer science or in computationally intensive sub-disciplines of the natural sciences, such as bio-informatics, computational biology, computational physics, or computational chemistry.

**Entrance Requirement:** To be eligible for entrance to the Computer Science (CMPBD) major, a student must have completed MATH 140 GQ(4), MATH 141 GQ(4), CMPSC 121 GQ(3), CMPSC 122(3), and one of the following: BIOL 110 GN(4), or CHEM 110 GN(3) and CHEM 111 GN(1) or PHYS 211 GN(4) with a grade of C or better in each of these courses.

For a B.S. degree in Computer Science, a minimum of 122-123 credits is required. A student enrolled in this major must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 1 credit

**REQUIREMENTS FOR THE MAJOR:** 97-98 credits

(This includes 21 credits of General Education courses: 6 credits of GQ courses, 6 credits of GWS courses, 9 credits of GN courses.)

**PRESCRIBED COURSES** (57 credits)

CMPSC 121 GQ(3) [1], CMPSC 122(3) [1], MATH 140 GQ(4) [1], MATH 141 GQ(4) [1], MATH 220 GQ(2) (Sem: 1-2)

CMPSC 221(3), CMPSC 312(3) [1], CMPSC 335(3) [1], CMPSC 360(3) [1], CAS 100A GWS(3), ENGL 202C GWS(3) (Sem: 3-4)

CMPSC 465(3) [1], CMPSC 471(3) [1], MIS 336(3), STAT 301(3) [1] (Sem: 5-6)

CMPSC 461(3) [1], CMPSC 474(3) [1], CMPSC 484(2) [1], CMPSC 485W(3) [1] (Sem: 7-8)

**ADDITIONAL COURSES** (25-26 credits)

Select one of the following sequences (10-11 credits):

a. CHEM 110 GN(3), BIOL 110 GN(4), BIOL 220W GN(4) or BIOL 230 GN(4) or BIOL 240 GN(4) (Sem:1-2)

b. CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3) (Sem: 1-2)

c. PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2) or PHYS 214 GN(2) (Sem: 1-2)

Select at least 15 additional science credits from department approved list (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 6 credits from the school approved list [Students may apply 6 credits of ROTC] [Students may apply 6 credits of internship CMPSC 495] (Sem: 3-8)

Select 9 additional credits from CMPSC 302 or higher, CMPEN, SWENG. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Computer Engineering

University Park, College of Engineering (CMPEN)

PROFESSOR RAJ ACHARYA, *Head of the Department of Computer Science and Engineering*

The mission of the faculty of the undergraduate computer engineering program at Penn State is to provide students with the knowledge and experience needed to pursue a productive lifelong career in industry or to engage in further study at the graduate level. Students participate in a balanced program of instruction covering the basic principles of the design and application of computer systems. The program includes coverage in breadth and depth of basic science, engineering, and abstract concepts of information handling. Students specialize in and are prepared for careers in the design, analysis and use of hardware, software and systems. The program is structured to ensure that graduates have a clear understanding of the design and the applications of computers, as well as the ability to apply this knowledge throughout their professional careers.

### Program Educational Objectives:

In particular, within a few years after graduation, graduates in computer engineering should be able to:

1. Work in industry or government producing or evaluating components of computer hardware and/or software systems.
2. Work in teams to design, implement, and/or maintain components of computer hardware and/or software systems.
3. Stay current through professional conferences, certificate programs, post-baccalaureate degree programs, or other professional educational activities.

### Program Outcomes (Student Outcomes):

- (a) an ability to apply knowledge of mathematics, science, and engineering
- (b) an ability to design and conduct experiments, as well as to analyze and interpret data
- (c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- (d) an ability to function on multidisciplinary teams
- (e) an ability to identify, formulate, and solve engineering problems
- (f) an understanding of professional and ethical responsibility
- (g) an ability to communicate effectively
- (h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (i) a recognition of the need for, and an ability to engage in life-long learning
- (j) a knowledge of contemporary issues
- (k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

**ENTRANCE TO MAJOR --** In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHSY 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Computer Engineering, a minimum of 128 credits is required. This baccalaureate program in Computer Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 110 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (78 credits)

CHEM 110 GN(3) [1], CMPSC 121 GQ(3) [1], MATH 140 GQ(4), MATH 141 GQ(4) [1], PHYS 211 GN(4) [1], PHYS 212 GN(4) [1] (Sem: 1-2)  
CMPSC 122(3) [1], CMPSC 221(3) [1], CMPSC 360(3) [1], CMPEN 362(3), E E 210(4) [1], MATH 220 GQ(2-3), MATH 231(2), MATH 250(3) [1], PHYS 214 GN(2)  
(Sem: 3-4)  
CMPEN 331(3) [1], CMPEN 431(3) [1], CMPSC 311(3) [1], CMPSC 465(3) [1], E E 310(4) [1], E E 353(3) [1], ENGL 202C GWS(3), STAT 418(3) (Sem: 5-6)  
CMPEN 482W(3), CMPSC 473(3) (Sem: 7-8)

### ADDITIONAL COURSES (26 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
CMPEN 270(4) [1] or CMPEN 271(3) [1] and CMPEN 275(1) (Sem: 3-4)  
ECON 014 GS(3), ECON 102 GS(3), ECON 104 GS(3), or E B F 200 GS(3) (Sem: 3-4)  
Select 6 credits from CMPEN 411(3), CMPEN 416(3), CMPEN 417(3), CMPEN 454(3), CMPEN 455(3), CMPEN 471(3), CMPEN 472(3), CMPEN 473(3), CMPEN 475(3), E E 453(3), E E 456(3) (Sem: 5-8)  
Select 6 credits from any 400-level CMPEN or CMPSC course (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits from department list (Students may apply up to 3 credits of Co-op. Students who complete ROTC may apply up to 3 credits of ROTC as department list credits and 3 credits of ROTC as GHA credits.)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Computer Science

University Park, College of Engineering (CMPSC)

PROFESSOR RAJ ACHARYA, Head, Department of Computer Science and Engineering

Computer Science is concerned with the analysis, design, and applications of computing software and systems. It includes a core foundation in computer hardware and software with emphasis on the design of efficient, fault-free software. It includes programming languages, data structures, compilers, operating systems, databases, and artificial intelligence.

The major is designed to provide fundamental training in preparing graduates for positions in schools, commerce, industry, and government. Students should consult their advisers in formulating suitable programs.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CMPSC 122, MATH 140 (GQ), MATH 141 (GQ), MATH 230 (GQ), PHYS 211 (GN), and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Computer Science, a minimum of 126 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 105-106 credits  
(This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 9 credits of GWS courses.)

**PRESCRIBED COURSES** (64 credits)  
CMPSC 121 GQ(3) [1], CMPSC 122(3) [1], CMPSC 360(3) [1], MATH 140 GQ(4) [1], MATH 141 GQ(4) [1], MATH 220 GQ(2), PHYS 211 GN(4) [1], PHYS 212 GN(4) [1]  
(Sem: 1-2)  
CMPEN 271(3) [1], CMPEN 331(3) [1], CMPSC 221(3) [1], CMPSC 311(3) [1], MATH 230(4) [1], STAT 318(3) (Sem: 3-4)  
CMPSC 461(3) [1], CMPSC 464(3), CMPSC 465(3) [1], CMPSC 473(3) [1], ENGL 202C GWS(3), STAT 319(3) (Sem: 5-6)

**ADDITIONAL COURSES** (19 credits)  
Select 1 credit of First-Year Seminar (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
Select 6 credits from CMPEN 362(3), CMPEN 431(3), CMPEN 454(3), CMPSC 442(3), CMPSC 444(3), CMPSC 450(3), CMPSC 451(3), CMPSC 455(3), CMPSC 456(3), CMPSC 458(3), CMPSC 466(3), CMPSC 467(3), CMPSC 468(3), CMPSC 471(3), CMPSC 475(3), E E 456(3) (Sem: 7-8)  
Select 3 credits from any 400-level CMPEN or CMPSC course (Sem: 7-8)  
Select 3 credits from CMPSC 431W(3), or CMPSC 483W(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (22-23 credits)  
Select 2-3 credits from PHYS 213 GN(2), PHYS 214 GN(2), or 3 credits from the approved list of natural sciences courses (Sem: 3-4)  
Select 0-4 credits in a foreign language (second-semester proficiency) (Sem: 5-6)  
Select 10-14 credits from department list (Students may apply up to 3 credits of ROTC as department list credits and 3 credits of ROTC as GHA credits) (Sem: 7-8)  
Select 6 credits in 400-level non-CMPEN or CMPSC courses in consultation with adviser (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Communications

Altoona College (COMAL)

The curriculum of this B.A. in Communications provides a general grounding in traditional media forms along with work in the area of media convergence. Students must do coursework at both the practical and theoretical level. On the theory side, coursework will be offered in the areas of media criticism and theory, visual communications, and media history at the introductory and advanced levels. On the applied side, coursework will be offered in video and audio production, news writing and photojournalism, radio and television studio production, and public relations and advertising at the introductory and advanced levels. In the Convergent Media News Service courses, which form the most distinctive component of the program, students will actually produce and deliver a college news service in print, broadcasting (TV and streaming radio), and a multimedia online format. This hands-on experience will provide students an opportunity to create materials suitable for inclusion in a portfolio. Although not required, students will be strongly encouraged to do an internship sometime during their junior or senior years. Finally, the capstone Convergent Media Seminar will bring seniors together to consider the larger, theoretical issues related to the fast-paced changes in communications today and into the future. With a degree in this program, students will be well-positioned to go right into industry, where they will be able to compete in a number of different job markets, or to graduate school for advanced training.

For the B.A. in Communications, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in front of *Bulletin*)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES OR GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 12 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in front of *Bulletin*.)

**REQUIREMENTS FOR THE MAJOR:** 42 credits [\[1\]](#)

**PRESCRIBED COURSES** (12 credits)

COMM 100 GS(3), COMM 150 GA(3) (Sem: 1-3)

COMM 260W(3) (Sem: 2-3)

COMM 490(3) (Sem: 7-8)

**ADDITIONAL COURSES** (30 credits)

Select 12 credits from the following, including 6 credits at 400-level: COMM 001(1-3) [\[2\]](#), COMM 002(1-3) [\[2\]](#), COMM 215(3), COMM 241(3), COMM 242(3), COMM 251(3), COMM 269(3), COMM 270(3), COMM 282(3), COMM 296(1-6), COMM 337(3), COMM 338(3), COMM 339(3), COMM 346(3), COMM 360(3), COMM 374(3), COMM 415(3), COMM 421W(3), COMM 438(3 max:6), COMM 439(3 max:6), COMM 448(3), COMM 460W(3), COMM 461(3), COMM 462(3), COMM 467(3), COMM 468(3), COMM 469(3), COMM 471(3) (Sem: 5-8)

COMM 436(3), COMM 472(3), COMM 481(3), COMM 495(1-9), COMM 496(1-18) (Sem: 7-8)

Select 12 credits from the following, including 6 credits at 400-level: COMM 110 GH(3), COMM 180 GS(3), COMM 190 GS(3), COMM 205 US(3), COMM 250 GA(3), COMM 251(3), COMM 261 GH(3), COMM 292 GH(3), COMM 294(1-3), COMM 296(1-6), COMM 320(3), COMM 331(3), COMM 370(3) (Sem: 3-6)

COMM 401(3), COMM 403(3), COMM 408(3), COMM 409(3), COMM 411(3), COMM 412(3), COMM 413W(3), COMM 454(3) (Sem: 5-8)

COMM 417(3), COMM 451(3), COMM 452(3), COMM 494(1-3), COMM 496(1-18) (Sem: 7-8)

Select 6 credits from COMM 470A(3), COMM 470B(3), COMM 470C(3)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[2]** A student may apply only 6 credits total of COMM 001 and COMM 002 towards the requirements of the Communications degree.

## Communication

*Penn State Erie, The Behrend College (COMBA)*

The B.A. major in Communication offers a liberal arts background with emphasis in mass media studies and corporate communication. It prepares students for careers in corporate communication, print and broadcast journalism, multi-media and video production, and advertising/public relations by providing an interdisciplinary study of spoken, written, visual, and technically mediated messages.

For the B.A. degree in Communication, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(0-3 of these credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 9-21 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 45 credits  
(This includes 0-3 of these credits of General Education courses: 0-3 credits of GA courses in the Journalism/Media Productions (Multimedia Area).)

**PRESCRIBED COURSES** (13 credits) [\[1\]](#)  
CAS 202 GS(3), COMM 160(1), COMM 251(3) (Sem: 1-4)  
CAS 204(3), COMM 315(3) (Sem: 5-6)

**ADDITIONAL COURSES** (17 credits) [\[1\]](#)  
Select 3 credits from CAS 101 GS(3), CAS 175 GH(3), COMM 100 GS(3), COMM 110 GH(3), COMM 118 GS(3), COMM 150 GA(3), COMM 168 GH(3), or COMM 180 GS(3) (Sem: 1-2)  
COMM 242(3); or COMM 270(3) (Sem: 1-4)  
CAS 212(3); or CAS 252(3) (Sem: 5-6)  
CAS 271 US;IL(3); or COMM 410 IL(3) (Sem: 5-8)  
COMM 494(3); or COMM 495(3-6) (Sem: 7-8)  
Select two credits from the following: COMM 001(1-3), COMM 002(1-3), COMM 003(1-3), or COMM 004(1-3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits) [\[1\]](#)  
COMBA students are required to complete 15 credits of supporting coursework, from department approved list. Nine of these credits must be at the 400-level. In consultation with an academic advisor, students will select 6-9 credits from 2 of 3 Concentrations; 1. Communication Studies, 2. Strategic Communication, and 3. Journalism/Media Production. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Communications

*University College (COMCC): Penn State Beaver, Penn State Brandywine, Penn State Greater Allegheny, Penn State New Kensington*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

With the rapid development of digital technologies over the last decade, the field of communications has seen unprecedented growth and convergence of medium in media both technologically and structurally. The communications degree program addresses strongly articulated employer requirements for the workplace through an integrated program model. The degree provides the basic theoretical foundations of the discipline, allows for appropriate branching outside the traditional curriculum, and permits a drawing from appropriate courses in the disciplines of information sciences and technology, communications, arts and sciences, English, and business.

The degree in communications provides two options for students who wish to develop their written and verbal skills in an effort to gain professional employment in fields such as public relations, publishing, speech writing, video and multimedia, production, and/or journalism.

**CORPORATE COMMUNICATIONS OPTION:** In extending traditional organizational communication and public relations to the digital age, this option prepares public relations specialists to compete in a global society. The program is also effective as preparation for e-commerce.

**JOURNALISM OPTION:** In today's workplace, journalism graduates are required to regularly engage rapidly converging media in their work. This option offers graduates a competitive advantage by complementing traditional options (newspaper, magazine, radio, TV) with convergent course work designed to prepare students for professional journalism in the digital age.

For a B.A. degree in Communications, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(6-10 credits of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 4-9 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 52-53 credits  
(This includes 6-10 credits of General Education courses: 0-6 credits of GS; 0-6 credits of GH; 0-4 credits GQ courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 25 credits

**PRESCRIBED COURSES** (13 credits)[\[1\]](#)

COMM 160(1) (Sem: 1-2)  
COMM 260W(3), COMM 270(3) (Sem: 3-4)  
COMM 494(3), COMM 495(3) (Sem: 7-8)

**ADDITIONAL COURSES** (12 credits)

COMM 100 GS(3) or COMM 110 GH(3) (Sem: 1-2)[\[1\]](#)  
Select 3 credits from the following (may double count with general education courses): AM ST 105 GH;US(3), ECON 102GS(3), ECON 104 GS(3), PHIL 103 GH(3), PSYCH 100 GS(3), SOC 001 GS(3), SOC 005 GS(3) (Sem: 1-2)  
CAS 201 GH(3)[\[1\]](#) or CAS 202 GS(3)[\[1\]](#) (Sem: 3-4)  
Select 3 credits from the following in Communications Research Methods/Theory (may not double count with option additional courses requirement): CAS 204(3), COMM 304(3), CAS 352(3), CAS 471 US;IL(3) (Sem: 5-6)

**REQUIREMENTS FOR THE OPTION:** 27-28 credits

## Communications

*Capital College (COMCL)*

ASSOCIATE PROFESSOR CATHERINE McCORMICK, *Program Coordinator, Communications, School of Humanities*

Communications is an interdisciplinary program that combines practical, professional instruction with critical and cultural examinations of mass media. Our interdisciplinary and theoretical approach enables our students to understand the contextual relationships between contemporary media and ethics, history, drama, and art, as well as the mechanics of emerging information technologies. We feature small classes, a multidisciplinary faculty with real-world professional experience, high-technology laboratories, and an excellent location for media internships. This major prepares students for careers in areas such as public relations, journalism, graphic design, photography, new media, advertising, media production, and telecommunications. Because of our analytical approach, students can use the major to prepare for postgraduate studies.

### Entry to Major Requirements:

Entry to the Communications major requires a 2.00 or higher cumulative grade-point average.

For a B.Hum. degree in Communications, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 13-15 credits

(These elective credits may be applied to a minor in consultation with an academic adviser. The number of elective credits needed varies depending on whether the student participates in an internship.)

### BACHELOR OF HUMANITIES DEGREE REQUIREMENTS: 18 credits

(See description of Bachelor of Humanities Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR: 42-44 credits

*At least 12 credits of Communications courses must be taken at the 400 level.*

### PRESCRIBED COURSES (6 credits)[\[1\]](#)

COMM 251(3), COMM 456(3) (Sem: 5-8)

### ADDITIONAL COURSES (18-20 credits)[\[1\]](#)

COMM 230W(3) or COMM 260W(3) (Sem: 3-8)

Select two courses (6-8 credits) in visual communication from the following: COMM 215(3), COMM 241(3), COMM 363(3), COMM 371(4), COMM 415(3), COMM 441(3), COMM 482(4) (Sem: 3-8)

Select 9 credits in Communications from the following: COMM 215(3), COMM 241(3), COMM 250(3), COMM 320(3), COMM 332(3), COMM 346(3), COMM 350(3), COMM 360(3), COMM 363(3), COMM 370(3), COMM 374(3), COMM 414(3), COMM 415(3), COMM 430(3), COMM 457(3), COMM 458(3), COMM 459(3), COMM 462(3), COMM 474(3), COMM 488(3), COMM 495(1-6) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (18 credits)

Select 6 additional credits in Communications (Sem: 5-8)

Select 12 credits from the School of Humanities approved list in consultation with an academic adviser. These credits may be applied to a minor in support of the student's interests (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Computer Science

*Capital College (COMP)*

PROFESSOR THANG N. BUI, *Program Chair, School of Science, Engineering, and Technology*

This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. While most students will enter the job market directly upon graduation, graduate school in computer science or related areas is also an option. Selection of electives can be tailored for students pursuing this path.

The Computer Science major provides a solid foundation in the areas of systems programming, algorithm design, artificial intelligence, and engineering large software systems using state-of-the-art methodologies and programming languages.

Students may expect to: develop a solid foundation in mathematical studies relevant to computer science; master skills in computer science; enjoy possibilities for internships and part-time employment with local companies; and become problem solvers. These goals are consistent with the goals outlined by the Association of Computing Machinery.

For a B.S. degree in Computer Science, a minimum of 120 credits is required.

### Entry to Major Requirements:

Entry to the Computer Science major requires that the student has earned a C or better in the following courses: MATH 140 GQ(4), MATH 141 GQ(4), CMPSC 121(3), and CMPSC 122(3). A 2.00 or higher cumulative grade-point average is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2).*

### GENERAL EDUCATION: 45 credits

(13 of these 45 credits are included in REQUIREMENTS FOR THE MAJOR.)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

Incoming first-year students are required to complete a course with the suffix S, T, or X, or the PSU abbreviation.

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 88 credits

(This includes 13 credits of General Education courses: 3 credits of GWS courses, 6 credits of GQ courses, and 4 credits in GN courses.)

### PRESCRIBED COURSES (59 credits) [2]

MATH 140 GQ(4) [1], MATH 141 GQ(4) [1] (Sem: 1-2)

CMPSC 121 GQ(3) [1], PHYS 211 GN(4) (Sem: 2)

CMPSC 122(3) [1], CMPSC 360(3) [1] (Sem: 3)

CMPSC 221(3), CMPSC 312(3), MATH 220(2) (Sem: 4)

CMPSC 430(3), CMPSC 460(3), CMPSC 462(3), CMPSC 463(3), CMPSC 469(3), CMPSC 470(3), CMPSC 472(3), CMPSC 487W(3), CMPSC 488(3), ENGL 202C GWS(3) (Sem: 5-8)

### ADDITIONAL COURSES (18 credits)

MATH 318(3), STAT 301 GQ(3), or STAT 318(3) (Sem: 5-8)

Select 15 credits from the following (9 of which must have a CMPSC prefix): CMPSC 313(3), CMPSC 412(1.5), CMPSC 413(1.5), CMPSC 426(3), CMPSC 428(3), CMPSC 438(3), CMPSC 441(3), CMPSC 444(3), CMPSC 455(3), CMPSC 457(3), CMPSC 475(3), CMPSC 496(1-9), CMPSC 497(1-9), MATH 401(3), MATH 411(3), MATH 412(3), MATH 425(3), MATH 430(3), MATH 431(3), MATH 435(3), MATH 449(3), MATH 450(3), MATH 455(3), MATH 465(3), MATH 468(3), MATH 496(1-9), MATH 497(1-9) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (11 credits)

Select 6 credits of 300-400 level courses in consultation with an academic adviser and in support of the student's interests. (Sem: 5-8)

Select 5 credits of 100-400 level courses (Sem: 5-8)

## Integrated B.S./M.S. Program in Computer Science

The Computer Science program offers a limited number of academically superior Bachelor of Science candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science and the Master of Science in Computer Science. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to earn the two degrees in five years.

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. However, the total course load is reduced due to the maximum of 12 credits that can count towards both degrees. A minimum of 6 credits proposed to count for both degrees must be at the 500 level. Thesis credits may not be double counted. The first two years of the IUG program are identical to the first two years of the Bachelor of Science program. The third and fourth years of the IUG program differ from those of the Bachelor of Science program due to the courses that count toward the Master of Science degree requirements. Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student academic performance will be performed when the student has completed 100 to 105 credits, which is at the end of the first semester of the senior year for a typical student in the program.

Students who have not maintained a 3.5 GPA in their Math and Computer Science courses will be put on probationary status with respect to the IUG program. Their ability to continue in the IUG program will be based on their academic performance in the last semester of their senior year. As part of the review in the senior year, students will be advised about the paper option and thesis option in the graduate program. Students intending to pursue the thesis option would be advised to do so only if they have been doing very well in the program and are in no danger of not being able to continue into the fifth year. A minimum grade point average of 3.5 must be earned in all math and computer science course work that is applied toward the graduate degree. This includes any courses that count toward both the undergraduate and graduate degrees, as well as all courses taken during the fifth year.

Students have the choice of receiving the B.S. degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years. Note that students who are awarded a graduate assistantship must elect to receive the B.S. degree at the end of the fourth year. If for any reason a student admitted to the IUG program is unable to complete the requirements for the Master of Science degree, the student will be permitted to receive the Bachelor of Science degree assuming all the undergraduate degree requirements have been satisfactorily completed. Students who successfully complete the courses listed in the recommended schedule will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

## Admission Requirements

To initiate the application process, students must submit an Integrated Undergraduate-Graduate (IUG) Degree in Computer Science Application Form, a transcript, and a faculty recommendation, in addition to applying for admission to the Graduate School. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. In order to apply for the IUG program, students must have completed a minimum of 45 credits. A typical student would apply after completing between 45 to 60 credits, that is, after the fourth semester and before the end of the fifth semester. For consideration for acceptance into the program, students must have completed and earned a minimum grade point average of 3.0 in the following Computer Science and Mathematics courses: MATH 140, MATH 141, MATH 220, CMPSC 121, CMPSC 122, and CMPSC 360. Student applications will be evaluated based on their overall academic performance, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee in Computer Science.

## Degree Requirements

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. The minimum of 6 credits double-counted must be at the 500 level. Thesis credits may not be double counted.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[2] Students must earn a 2.5 or higher grade point average in the following courses: CMPSC 221, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488.

## Criminal Justice

*Capital College (CRIMJ): Penn State Harrisburg  
World Campus*

PROFESSOR SHAUN GABBIDON, *Program Chair, School of Public Affairs*

The Bachelor of Science degree program in Criminal Justice helps provide its graduates with the communications and analytical skills critical to succeed in criminal justice and related careers. Through an interdisciplinary approach to the problems of crime and society, the program also equips students to pursue graduate study in criminal justice or related disciplines, and educates students to become effective problem-solvers as professionals in the field of criminal justice.

The study of criminal justice is approached as an applied interdisciplinary science, teaching students both the theoretical and the practical aspects of crime control and the administration of justice. The Criminal Justice curriculum provides students with the opportunity and assistance to acquire knowledge of the roles of policing, courts, laws, and corrections as they relate to both the adult and juvenile justice system. Students also gain knowledge of the history, concepts, and critical issues related to the role of gender and race/ethnicity in the criminal justice system, victimology, and ethics in criminal justice. The curriculum further provides a theoretical foundation of the discipline, combined with a thorough understanding of the scientific method as it applies to criminal justice. This combination is expected to sharpen the students' talents of reasoning and judgment, qualities imperative to rational functioning in criminal justice and related professions.

For a B.S. degree in Criminal Justice, a minimum of 120 credits is required.

### Admission Requirements for Transfer Students:

Transfer applicants must have at least a 2.0 cumulative grade-point average (4.0 scale). The evaluation of prior college work is conducted on an individual basis by the Office of Enrollment Services at both campuses.

### Entry to Major Requirements:

The student must have a 2.00 cumulative grade-point average and an average of C (2.00) or better in any course already taken in the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(0-4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 13-17 credits

### REQUIREMENTS FOR THE MAJOR: 62 credits

(This includes 0-4 credits of General Education courses: 0-4 credits of GQ courses.)

### PRESCRIBED COURSES (25 credits)<sup>[1]</sup>

CRIMJ 012 GS(3), CRIMJ 100 GS(3), CRIMJ 210(3), CRIMJ 220(3), CRIMJ 230(3), CRIMJ 250W(3), CRIMJ 450W(4), CRIMJ 465(3) (Sem: 5-8)

(At least 9 credits in Additional Courses and/or Supporting Courses must be at the 400 level.)

### ADDITIONAL COURSES (16 credits)

Select 4 credits from CRIMJ 260(3) or STAT 200 GQ(4) (Sem: 5-8)

Select 6 credits from the following: CRIMJ 201(3), CRIMJ 220(3), CRIMJ 221(3), CRIMJ 234(3), CRIMJ 241(3) (Sem: 5-8)

Select 6 credits from the following: CRIMJ 300H(3-6), CRIMJ 301H(3-6), CRIMJ 304(3), CRIMJ 389(3), CRIMJ 406(3), CRIMJ 407 US(3), CRIMJ 408(3), CRIMJ 410(3), CRIMJ 413(3), CRIMJ 414(3), CRIMJ 415(3), CRIMJ 421(3), CRIMJ 423 US(3), CRIMJ 425(3), CRIMJ 426(3-6), CRIMJ 430(3), CRIMJ 431(3), CRIMJ 441 US(3), CRIMJ 453 US(3), CRIMJ 460(3), CRIMJ 462(3), CRIMJ 489W(3), CRIMJ 495(3-12), CRIMJ 496(1-18), CRIMJ 497(1-9) (Sem: 5-8)

Or Select 12 credits from the following: CRIMJ 300H(3-6), CRIMJ 301H(3-6), CRIMJ 304(3), CRIMJ 389(3), CRIMJ 406(3), CRIMJ 407 US(3), CRIMJ 408(3), CRIMJ 410(3), CRIMJ 413(3), CRIMJ 414(3), CRIMJ 415(3), CRIMJ 421(3), CRIMJ 423 US(3), CRIMJ 425(3), CRIMJ 426(3-6), CRIMJ 430(3), CRIMJ 431(3), CRIMJ 441 US(3), CRIMJ 453 US(3), CRIMJ 460(3), CRIMJ 462(3), CRIMJ 489W(3), CRIMJ 495(3-12), CRIMJ 496(1-18), CRIMJ 497(1-9) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (21 credits)

Select 6 credits: 3 credits at the 200 level and 3 credits at the 300 and 400 level or 6 credits at the 300 and 400 level from the following: AFRAS, BE SC, PL SC, PUBPL, PSYCH, SOC (Sem: 5-8)

Select 15 credits in consultation with an academic adviser and in support of the student's interests. For information about specific courses in this area, contact the School of Public Affairs. (Sem: 5-8)

**[1]**A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Fall Semester 2013

UCA Revision #2: 7/27/07

## Communication Sciences and Disorders

University Park, College of Health and Human Development (CSD)

PROFESSOR DIANE L. WILLIAMS, *Head of the Department*

This major offers a comprehensive program of study for preparing students who want to become speech-language pathologists or audiologists. The curriculum is specifically designed for the sole purpose of preparing undergraduate students for graduate study in communication sciences and disorders or related areas. This occurs because state licensure laws and professional certifications require that a speech-language pathologist or audiologist must have a master's degree, pass a national test, and complete a clinical fellowship year.

Overall, the curriculum enables students to develop fundamental knowledge based on scientific principles, skills, and attitudes required for habilitating and rehabilitating persons of all ages with a wide range of speech, language, and hearing problems. Further, the curriculum allows students an opportunity to explore all aspects of communication sciences and disorders as well as elect courses of special interest.

The first two years of study emphasize general education and background study. The last two years of study emphasize normal and disordered aspects of speech, language, and hearing as well as professional management, concerns, and obligations. Clinical observation and diversity focused course work are included in the curriculum.

For the B.S. degree in Communication Sciences and Disorders, a minimum of 120 credits is required. (To satisfy graduation requirements, students must have completed 6 credits from courses offered in the college and outside the department in which the major is offered.)

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. CSD requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6-10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 27-30 credits

**REQUIREMENTS FOR THE MAJOR:** 54-55 credits

(This includes 6 -10 credits of General Education courses: 3-6 credits of GS courses; 3-4 credits of GQ courses.)

**PRESCRIBED COURSES** (42 credits)

CSD 146 US;IL(3) [\[1\]](#), CSD 230(3) [\[1\]](#), CSD 269 US;IL(3) [\[1\]](#), PSYCH 100 GS(3) (Sem: 1-4)

CSD 300 US;IL(3) [\[1\]](#), CSD 301(3) [\[1\]](#), CSD 311(3) [\[1\]](#), CSD 331(3) [\[1\]](#) (Sem: 3-6)

CSD 433(3) [\[1\]](#), CSD 442(3) [\[1\]](#), CSD 444(3) [\[1\]](#), CSD 451(3) [\[1\]](#), CSD 459W(3) [\[1\]](#), CSD 462 US;IL(3) [\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (12-13 credits)

Select 3 credits from EDPSY 014(3) or PSYCH 261 GS(3) (Sem: 1-4)

Select 3 credits from HD FS 129 GS(3) or PSYCH 212 GS(3) (Sem: 1-4)

Select 3-4 credits from EDPSY 101 GQ(3), PSYCH 200 GQ(4), or STAT 200 GQ(4) (Sem: 3-4)

Select 3 credits from HD FS 229 GS(3), HD FS 249 GS(3), HD FS 315 US(3), HD FS 411(3), HD FS 418(3), HD FS 432(3), PSYCH 270(3), or PSYCH 471(3) (Sem: 3-6)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Creative Writing

*Penn State Erie, The Behrend College (CWRIT)*

The major allows students to develop their writing skills through craft classes, literature classes, and writing workshops, in preparation for a variety of post-graduation options, from continuing on to M.F.A. degree programs to working in the professional fields of publishing, editing and education. The program recognizes students must understand the relationship between tradition and individual talent, and provides a required sequence of literature courses designed to give students an overview of the historical literary traditions, especially modern and contemporary prose and poetry. It also provides options for sequences of writing workshops, requires a course in creative writing theory, and requires a course that fosters professional development and features live reading by visiting authors. The program culminates in a capstone experience, the senior thesis, a collection of poetry or prose of publishable quality that includes a critical preface demonstrating the students' ability to analyze and contextualize their own writing.

For the B.F.A. degree in Creative Writing, a minimum of 121 credits is required. A student enrolled in this major must earn at least a grade of C in each 300- and 400-level course.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 76 credits

**PRESCRIBED COURSES** (46 credits)

CMLIT 010 GH;IL(3) [\[1\]](#), ENGL 006(1-8)\*, ENGL 100(3) [\[1\]](#), ENGL 200(3) [\[1\]](#), ENGL 212(3) [\[1\]](#), ENGL 213(3) [\[1\]](#) (Sem: 1-4)

ENGL 312(3) [\[1\]](#), ENGL 433(3) [\[1\]](#) (Sem: 4-6)

ENGL 420(3) [\[1\]](#), ENGL 436(3) [\[1\]](#), ENGL 437(3) [\[1\]](#), ENGL 458(3) [\[1\]](#) (Sem: 5-8)

ENGL 401W(3) [\[1\]](#), ENGL 494(6) [\[1\]](#) (Sem: 7-8)

\*Students planning to major in creative writing should enroll in this course every semester (typically 8 semesters). A student is required to take this course a minimum of four times.

**ADDITIONAL COURSES** (24 credits)

Select 12 credits of a Foreign Language (0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.) (Sem:1-4)

ENGL 443(3) [\[1\]](#) or ENGL 444(3) [\[1\]](#) (Sem: 4-8)

Select 9 credits from of the following: ENGL 412(3) [\[1\]](#), ENGL 413(3) [\[1\]](#), ENGL 422(3) [\[1\]](#), ENGL 423(3) [\[1\]](#) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from courses at the 200-level or above in CMLIT or ENGL [\[1\]](#) (Sem: 1-8)

In addition to the requirements above, for enrichment, students in the B.F.A. degree program have the opportunity of taking ENGL 209, Literary Magazine Practicum, and serving as genre editors or assistant editors on the staff of *Lake Effect*, the national literary journal published by the School of Humanities and Social Sciences at Penn State Erie, The Behrend College. This is a 1-credit course in which students may enroll for up to 8 credits over their time in the degree program.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Data Sciences

University Park, College of Engineering (DATSC)  
University Park, College of Information Sciences and Technology (DATSC)  
University Park, Eberly College of Science (DATSC)

Mary Beth Rosson, Associate Dean, Information Sciences and Technology

Not all options are available at all Colleges. Contact the College you are interested in entering to determine which options are offered.

The inter-college Data Sciences major will educate students on the technical fundamentals of data sciences, with a focus on developing the knowledge and skills needed to manage and analyze large scale unstructured data to address an expanding range of problems in industry, government, and academia. The underlying knowledge for data sciences derives from machine learning, data mining, computer science, statistics, and visualization, and the emerging science of managing and analyzing data at scale. Students will gain breadth of knowledge through common core classes, as well as depth in one of three options. After taking common courses during the pre-major stage, students will choose among options focused on application (College of IST), computation (College of Engineering) and science (College of Science). Students in all three options will come together in their junior and senior years for two shared capstone experiences. In combination the three options position Penn State to offer highly trained professionals who understand data science's multiple dimensions for a growing segment of the U.S. economy.

**Applied Data Sciences** - This option focuses on the principles, methods, and tools for assembly, validation, organization, analysis, visualization, and interpretation of large and heterogeneous data, to support data-driven discovery and decision making, with emphasis on addressing pressing scientific, organizational, and societal challenges. A combination of required and elective courses provides students with the training and skills needed to develop advanced tools and domain-specific analyses that yield actionable knowledge from data. This option also provides critical analytical skills needed to assess the benefits and limitations of data analytics across a broad range of applications.

**Computational Data Sciences** - This option focuses on the computational foundations of the data sciences, including the design, implementation and analysis of software that manages the volume, heterogeneity and dynamic characteristics of large data sets and that leverages the computational power of multicore hardware. Students in this option will take upper-level courses in computer science and related fields to develop the skills necessary to construct efficient solutions to computational problems involving Big Data.

**Statistical Modeling Data Sciences** - This option focuses on statistical models and methods that are needed to discover and validate patterns in Big Data. Students in this option will take upper-level statistics and mathematics courses, learning to apply the theoretical machinery of quantitative models to the solution of real-world problems involving Big Data.

### Entrance Requirements

To be eligible for entrance into the Data Sciences major, a degree candidate must be enrolled in the College of Information Sciences and Technology, the College of Engineering, the Eberly College of Science, or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

Specific entrance requirements include:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin.
2. The degree candidate must complete the following entrance-to-major requirements: MATH 140 GQ (4) [1]; MATH 141 GQ (1) [1]; CMPSC 121 (3) [1]; CMPSC 122 (3); STAT 200 (GQ) (4)[1]; IST 210 (3)[1]. These courses must be completed by the end of the semester during which the entrance to major process is carried out.

For the B.S. degree in Data Sciences, a minimum of 125 credits is required (at least 18 credits must be taken at the 400 level).

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 5-18 credits

### REQUIREMENTS FOR THE MAJOR: 77-90 credits

(This includes 15 credits of General Education courses: 9 credits of GWS and 6 credits of GQ courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 50 credits

#### PRESCRIBED COURSES (41 credits)

CMPSC 121 GQ(3)[1], CMPSC 122(3)[1], DS 220(3)[1], DS 300(3)[1], DS 340W(3)[1], DS 440(3)[1], ENGL 202C GWS(3), IST 210(3)[1], MATH 140 GQ(4)[1], MATH 141 GQ(4)[1], MATH 220 GQ(2)[1], STAT 200 GQ(4)[1], STAT 380(3)[1]

#### ADDITIONAL COURSES (9 credits)

CAS 100 GWS(3), ENGL 015 GWS(3); ENGL 137H/CAS 137H GWS(3), ENGL 138T/CAS 138T GWS(3) (Sem: 1-6)  
STAT 318/MATH 318(3)[1]; STAT 414/MATH 414(3)[1] (Sem: 3-4)

### REQUIREMENTS FOR THE OPTION: 27-40

#### APPLIED DATA SCIENCES: 40 credits

##### PRESCRIBED COURSES (22 credits)

IST 110 GS(3)[1], IST 230(3)[1], DS 200(3)[1], DS 310(3)[1], DS 320(3)[1], DS 330(3)[1], DS 410(3)[1], IST 495(1)[1] (Sem: 5-6)

##### ADDITIONAL COURSES (6 credits)

SRA 231(3); IST 442 IL(3); SODA 308(3); IST 445H(3) (Sem: 5-8)  
IST 337(3); IST 441(3); DS 402(3); IST 462(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 6 credits from Applied Option List A (Sem: 5-8)

Select 6 credits from Applied Option List B (Sem: 5-8)

(Students may apply up to 3 credits of ROTC as option list credits and 3 credits of ROTC as GHA credits)

#### COMPUTATIONAL DATA SCIENCES: 38 credits

##### PRESCRIBED COURSES (25 credits)

MATH 230(4)[1], CMPSC 360(3)[1], CMPSC 448(3), CMPSC 465(3)[1], STAT 415/MATH 415(3)[1], CMPSC 461(3), DS 410(3)[1], CMPSC 442(3)

##### ADDITIONAL COURSES (1 credit)

1 credit of First-Year Seminar (Sem: 1-2)

#### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 6 credits from Option List A courses

Select 6 credits from Option List B courses

(Students may apply up to 3 credits of ROTC as option list credits and 3 credits of ROTC as GHA credits)

**STATISTICAL MODELING DATA SCIENCES: 27 credits**

**PRESCRIBED COURSES** (11 credits)

MATH 230(4), STAT 184(1), STAT 440(3), STAT 462(3)

**ADDITIONAL COURSES** (4 credits)

MATH 311W(3) [\[1\]](#); CMPSC 360(3) [\[1\]](#) (Sem: 5-8)

1 credit of First-Year Seminar (Sem: 1-2)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 6 credits from Quantitative Modeling Option List A courses

Select 6 credits from Quantitative Modeling Option List B courses

(Students may apply up to 3 credits of ROTC as option list credits and 3 credits of ROTC as GHA credits)

## Digital Media, Arts, and Technology

*Penn State Erie, The Behrend College (DIGIT)*

Sharon Dale, *in-charge*

Digital technology has transformed the way we live, interact, learn, and work. The interdisciplinary Digital Media, Arts, and Technology (DIGIT) major is designed for students who are curious about and want to explore the growing significance of technology in the modern world. DIGIT combines historical and theoretical course work with intensive practical training in the creation and use of digital media tools and computational systems. Foundational DIGIT courses familiarize students with the key concepts, methods, history, theories and practices of Digital Liberal Arts while a range of competency courses introduce them to industry-standard software applications alongside cutting edge tools that continue to emerge from the open source community. Combining the broad perspective of liberal arts training with in-demand technical skills, DIGIT incorporates either a capstone project or a digital media internship, in order to provide students with a successful transition from college to an increasingly technological job market.

**Entrance Requirement:** Students must earn C or better in ENGL 015 or ENGL 030 and COMM 270 to be eligible for entrance to the major.

For the B.A. degree in DIGIT a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6-12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of Bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 8-15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.) (See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** (48-49 credits)

(This includes 6-12 credits of General Education courses: 6 credits of GA courses for all categories; 0-4 credits of GQ courses for Data Visualization and Assessment category; 0-3 credits of GN courses for the Sound and Motion category; 0-6 credits of GS courses for the Modeling and Simulation/Human Computer Interaction category.)

**PRESCRIBED COURSES:** (21 credits)

ART 168 GA(3)[1], COMM 270(3), PHOTO 100 GA(3)[1] (Sem: 1-6)

DIGIT 100(3)[1] (Sem: 1-6)

DIGIT 110(3)[1], DIGIT 210(3)[1] (Sem: 2-6)

DIGIT 400(3)[1] (Sem: 3-6)

**ADDITIONAL COURSES:** (21-22 credits)

Select 3-4 credits from: CAS 426W(3)[1] or ENGL 211W(3)[1] or HIST 301W(3)[1] or PSYCH 301W(4)[1] or PL SC 480W(3)[1] (Sem: 5-8)

Select 3 credits from: DIGIT 494(3)[1] or DIGIT 495(3)[1] (Sem: 7-8)

Select 9 credits from one of the following categories: (Sem: 4-8)

(May double count with general education courses)

(Some courses may require prerequisites)

*Digital Humanities:* ART 203(3), ENGL 050 GA(3), ENGL 229(3), ENGL 420(3)[1], GEOG 160 GS(3) and GEOG 161(1), GEOG 363(3)[1], HIST 490/L ST 490(3)[1]

*Sound and Motion:* COMM 242(3), COMM 481(3)[1], GD 100 GA(3), INART 050 GN(3), INART 236 GA(3), INART 258A, GA(3), MUSIC 008 GA(3), MUSIC

458(3) [1]

*Modeling & Simulation/Human Computer Interaction:* CMPSC 102(3), CMPSC 302(3) [1], DIGIT 430(3)[1], MIS 387(3)[1], PSYCH 244 GS(3), PSYCH 253 GS(3), PSYCH 444(3) [1]

*Data Visualization & Assessment:* CMPSC 203 GQ(4), DIGIT 410(3)[1], MIS 204(3), MIS 336(3)[1], MIS 345(3)[1], MIS 430(3)[1]

Select 6 credits from a second category not used above (Sem: 4-8)

**SUPPORTING COURSES** (6 credits)

Select 6 credits (with at least three credits at the 400-level) from the following list or in consultation with advisor. (Sem: 4-8)

Last Revised by the Department: Spring Semester 2015

Blue Sheet Item #: 43-06-024

Review Date: 04/14/2015

## Electrical Engineering

University Park, College of Engineering (E E)

PROFESSOR KULTEGIN AYDIN, Head of the Department of Electrical Engineering

Electrical Engineering (E E) is one of the broadest of all engineering majors and is much more than just building electrical circuits. Electrical engineering is the application of electronics, electrical science and technology, and computer systems to the needs of society. An electrical engineer is responsible for designing and integrating electronic/electrical systems in diverse industries such as defense, communications, transportation, manufacturing, health care, construction, and entertainment.

The mission of our undergraduate program is to provide a high-quality education in electrical engineering for our students and to instill in them the attitudes, values, and vision that will prepare them for lifetimes of success, continued learning, and leadership in their chosen careers. A combination of required and elective courses ensures that students acquire a broad knowledge base in electrical circuits, digital systems, electronic devices, electromagnetics, and linear systems, as well as expertise in one or more areas of specialization. Additional problem-solving skills and practical experience are developed through design projects and laboratory assignments, which also provide opportunities for developing team-building and technical communication skills.

### Program Educational Objectives:

The BSEE Program provides undergraduates with a broad technical education important for employment in the private or public sector, and it teaches them the fundamentals, current issues, and creative problem solving skills essential for future years of learning. At three to five years after graduation, we foresee our graduates able to accomplish the following:

1. Electrical engineering practice in technical assignments such as design, product development, research, manufacturing, consulting, testing, sales, and management;
2. Participation and leadership on teams comprised of individuals with diverse professional and cultural backgrounds;
3. Continued learning and professional development through such activities as graduate school, distance education, professional training, and membership in professional societies.

### Program Outcomes (Student Outcomes):

The BSEE Program Student Outcomes mirror those articulated by ABET:

- a. An ability to apply knowledge of mathematics, science, and engineering.
- b. An ability to design and conduct experiments, as well as to analyze and interpret data.
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- d. An ability to function on multidisciplinary teams.
- e. An ability to identify, formulate, and solve engineering problems.
- f. An understanding of professional and ethical responsibility.
- g. An ability to communicate effectively.
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- i. A recognition of the need for, and an ability to engage in life-long learning.
- j. A knowledge of contemporary issues.
- k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

ENTRANCE TO MAJOR -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHSY 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

Admission to the Electrical Engineering major also requires that the applicant have a cumulative GPA of 2.6 or higher by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Electrical Engineering, a minimum of 130 credits is required. This baccalaureate program in Electrical Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 112-113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**PRESCRIBED COURSES** (68 credits)

CHEM 110 GN(3)[\[11\]](#), CHEM 111 GN(1), EDSGN 100(3), MATH 140 GQ(4)[\[11\]](#), MATH 141 GQ(4)[\[11\]](#), PHYS 211 GN(4)[\[11\]](#), PHYS 212 GN(4)[\[11\]](#) (Sem: 1-2)  
E E 200(3), E E 210(4)[\[11\]](#), E E 310(4)[\[11\]](#), MATH 220 GQ(2), MATH 230(4), MATH 250(3)[\[11\]](#), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 3-4)  
E E 300W(3), E E 330(4)[\[11\]](#), E E 340(4)[\[11\]](#), E E 350(4)[\[11\]](#) (Sem: 5-6)  
E E 403W(3), ENGL 202C GWS(3) (Sem: 7-8)

**ADDITIONAL COURSES** (20-21 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
CMPSC 201 GQ(3) or CMPSC 121 GQ(3) (Sem: 1-2)  
CMPEN 270(4)[\[11\]](#) or CMPEN 271(3)[\[11\]](#) and CMPEN 275(1) (Sem: 3-4)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
ECON 102 GS(3) or ECON 104 GS(3) (Sem: 3-4)  
Select 3-4 credits from I E 424(3), PHYS 410(3-4), STAT 401(3), STAT 414(3), or STAT 418(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 6 credits from program-approved list of 300-level courses (Sem: 5-6)  
Select 3 credits from program-approved lists of 300-level or 400-level courses (Sem: 5-6)  
Select 6 credits from program-approved list of 400-level courses (Sem: 7-8)  
Select 3 credits of engineering/science courses from a program-approved list (Sem: 7-8)  
Select 6 additional credits, which may include up to 6 credits of ROTC, up to 6 co-op credits, and others from a program-approved list (Sem: 7-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Electrical Engineering Technology

Capital College (E E T)  
University College, Penn State Wilkes-Barre

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

AB SHAFAYE, *Program Chair, School of Science, Engineering, and Technology*

The Bachelor of Science graduate with a major in Electrical Engineering Technology (E E T) is an engineering technologist who can bridge the gap between scientific advancement and practical electrical devices and systems. Research in all fields of electrical engineering has produced an abundance of new knowledge in recent years. Many of these advanced scientific achievements have been unused due to the shortage of engineering technologists specifically educated to convert scientific information into practical devices and systems.

The E E T major helps equip students with the various skills necessary to adapt new scientific knowledge to new products. Technical selections are offered in the senior year to provide some degree of specialization, but all graduates receive a well-rounded basic education in electrical and electronic design principles. The strengths of the program include: an applied hands-on program; extensive laboratory experience; promising job placement; and accreditation by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone 410-347-7700, Web at [www.abet.org](http://www.abet.org).

E E T graduates who wish to continue their professional development can take the Fundamentals of Engineering examination in Pennsylvania, a prerequisite for taking the Professional Engineering examination.

For a B.S. degree in Electrical Engineering Technology, a minimum of 128 credits is required.

### Admission Requirements for Transfer Students:

Applicants must have earned a high school diploma or equivalent and have attempted at least 18 semester credits at a regionally accredited college or university with at least a 2.0 cumulative grade-point average (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg.

### Entry to Major Requirements:

Entry to the Electrical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

### Re-enrollment:

Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate's degree into the bachelor's degree should run a degree audit from eLion, using the E E T major code, to determine their curriculum requirements. Similar considerations apply to students changing majors from programs in science or engineering.

Students are directed to <http://www.psu.edu/bulletins/bluebook/gened/> for an explanation of the Penn State General Education requirements.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 5-16 credits

### REQUIREMENTS FOR THE MAJOR: 85-96 credits

(This includes 18 credits of General Education courses: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 59-70 credits

#### PRESCRIBED COURSES (27 credits)

CHEM 110 GN(3), CHEM 111 GN(1), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-6)  
EET 312(4) [11](#), EET 331(4) [11](#), ENGL 202C GWS(3) (Sem: 5-6)  
EET 419(1), EET 420W(3) [11](#) (Sem: 7-8)

#### ADDITIONAL COURSES (32-43 credits)

Select 2\*-3 credits from: EG T 101(1) and EG T 102(1) or EDSGN 100(3) (Sem: 1-2)

Select 3 credits from: CMPSC 101 GQ(3), CMPSC 121 GQ(3) or CMPSC 201 GQ(3) (Sem: 1-5)

Select 6\*-8 credits from sequence a or b:

a.) PHYS 150 GN(3) and PHYS 151 GN(3) (Sem: 3-4)

b.) PHYS 211 GN(4) and PHYS 212 GN(4) (Sem: 1-4)

Select 3-4 credits from MATH 230(4), MATH 250(3), MATH 408(3), MATH 411(3), MATH 444(3), MATH 446(3), or STAT 200 GQ(4) (Sem: 5-6)

Select 5-8\* credits from course sequence a, b, or c:

a.) EET 114(4) and EET 311(4) [11](#) (Sem: 1-6)

b.) E E 210(4) [11](#) and E E 314(3) [11](#) (Sem: 3-6)

c.) E E 315(5) [11](#) (Sem: 5-6)

Select 4\* credits from: CMPEN 271(3) and CMPEN 275(1) or CMPET 117(3) and CMPET 120(1) (Sem: 1-4)

Select 3\*-4 credits from: CMPEH 472(4) or CMPET 211(3) (Sem: 3-6)

Select 3\*-4 credits from: EET 205(1) and EET 210(2) or E E 310(4) (Sem: 3-6)

Select 3-5\* credits from: EET 213W(5) or E E 485(3) (Sem: 3-6)

\*Courses required by PSU 2 EET programs

### REQUIREMENTS FOR THE OPTION: 26 credits

#### COMPUTER ENGINEERING TECHNOLOGY OPTION: (26 credits)

##### PRESCRIBED COURSES (11 credits)

CMPEN 431(3), CMPET 403(4), CMPET 401(3), CMPET 402(1) (Sem: 5-8)

##### ADDITIONAL COURSES (15 credits)

2nd Programming Elective: Select 3 credits from: CMPSC 305(3), CMPSC 402(3), CMPSC 422(3), CMPSC 122(3) (Sem: 7-8)

Applications Elective: Select 4 credits of technical electives from: CMPET 412(4), EET 423(4), EET 456(4) (Sem: 7-8)

CMPET Technical Electives: Select 8 credits from CMPEH 449(3), E E 341(3), E E 418(3), E E 453(3), EET 402(4), EET 408(4), EET 413(4), EET 414(4), EET 431(4), EET 433(4), EET 478(4), ET 496(1) (Sem: 7-8)

#### GENERAL ELECTRICAL ENGINEERING TECHNOLOGY OPTION: (26 credits)

##### ADDITIONAL COURSES (26 credits)

System Elective: Select 8 credits of technical electives from: EET 408(4), EET 409(4), EET 433(4) (Sem: 7-8)

Electronics Elective: Select 4 credits from: EET 402(4), EET 423(4), EET 431(4) (Sem: 7-8)

GEET Technical Electives: Select 8 credits of GEET technical electives from: CMPEH 449(3), CMPET 401(3), CMPET 402(1), CMPEN 431(3), E E 418(3), E E 453(3), E E 458(3), EET 401(4), CMPET 403(3), EET 410(4), CMPET 412(4), EET 413(4), EET 414(4), EET 456(4), EET 478(4), ET 496(1) (Sem: 7-8)

Select 6 credits from any previous elective list plus CMPSC 452(3), E MCH 211(3), E MCH 212(3), M E 201(3) (Sem: 6-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Environmental Resource Management

University Park, College of Agricultural Sciences (E R M)

PROFESSOR ROBERT D. SHANNON, *Program Coordinator*

Environmental Resource Management (E R M) is an interdisciplinary, science-based major designed to prepare students to understand and critically analyze environmental problems ranging from local to global in scale, identify solutions, and communicate ideas related to environmental and natural resource issues. The E R M major also focuses on human interactions with the environment by emphasizing the management of environmental resources. The E R M curriculum begins with foundation course work in the biological, physical and social sciences. Later courses apply these principles to the management and sustainability of the environment, and include environmental problem-solving, ecosystem management and environmental law. The third tier, offered through three options, affords considerable flexibility and the opportunity to specialize.

The major prepares students for employment in a variety of environmental positions, including environmental consulting, public agencies, and nonprofit organizations. Students are also prepared for graduate school or law school upon graduation. Realizing the wide range of career possibilities requiring diverse types of academic preparation, three options of study are available: the Environmental Science Option, the Soil Science Option and the Water Science Option.

In the Environmental Science Option, students select a minor or choose a group of courses (totaling at least 18 credits) that focus on a particular aspect of the environment. Examples include watersheds and water resources, climate change impacts, geographic information systems, energy and air pollution, sustainability leadership, ecology, environmental engineering, wildlife and fisheries science, and others. Courses and minors from across the University can be selected to develop a student's area of specialization in the Environmental Sciences Option.

In the Soil Science Option, students take courses in soil composition and properties, conservation, nutrient management, soil ecology, GIS and mapping. This option also allows the student to choose courses that support their strengths and interests. The option prepares students for positions with private, public, and non-profit firms that evaluate soils for various uses, delineate wetlands, perform environmental assessments, and identify and remediate contaminated soils.

In the Water Science Option, students take courses in hydrologic measurements, wetland conservation, stream restoration, stream and lake ecology, watershed management, and land use practices to control runoff and erosion. The option also prepares students for positions with private, public, and non-profit firms that evaluate water quality and quantity issues, delineate wetlands, perform environmental and hydrological assessments, and identify and remediate contaminated aquatic resources.

For the B.S. degree in Environmental Resource Management, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27-30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:** 1-3 credits

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-7 credits

**REQUIREMENTS FOR THE MAJOR:** 93-108 credits

(This includes 27-30 credits of General Education courses; 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GS courses; 9 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 47-48 credits

**PRESCRIBED COURSES** (33 credits)

CAS 100 GWS(3), ENGL 015 GWS(3), E R M 151(1) [\[11\]](#) (Sem: 1-2)  
CHEM 110 GN(3) [\[11\]](#), CHEM 111 GN(1) [\[11\]](#), CHEM 112 GN(3), CHEM 202(3) (Sem: 1-4)  
SOILS 101 GN(3) [\[11\]](#), SOILS 102(1) (Sem: 3-4)  
A S M 327(3) [\[11\]](#), ENGL 202C GWS(3), E R M 300(3) [\[11\]](#), E R M 411(3) (Sem: 5-8)

**ADDITIONAL COURSES** (14-15 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)  
AG BM 101 GS(3) or ECON 102 GS(3) (Sem: 1-2)  
PHYS 211 GN(4) or PHYS 250 GN(4); STAT 200 GQ(4) or STAT 240 GQ(3) or STAT 250 GQ(3) (Sem: 3-4)

**REQUIREMENTS FOR THE OPTION:** 46-60 credits

**ENVIRONMENTAL SCIENCE OPTION:** (58-60 credits)

**PRESCRIBED COURSES** (20 credits)

BIOL 110 GN(4) [\[11\]](#), BIOL 220W GN(4), GEOG 160 GS(3) (Sem: 3-4)  
CED 201(3) (Sem: 5-6)  
E R M 412(3) [\[11\]](#), E R M 413W(3) [\[11\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (14-16 credits)

MATH 111 GQ(2) or MATH 141 GQ(4) (Sem: 1-2)  
AG BM 200(3) or E R M 402(3) or MGMT 215(3) (Sem: 3-8)  
GEOSC 001(3) or GEOSC 303(3) (Sem: 5-6)  
Select 6 credits from any 400-level E R M courses (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 3 credits in communications/entrepreneurship/leadership (Sem: 3-8)  
Select 3 credits in ecology (Sem: 5-6)  
Select 18 credits of specialization/minor courses in consultation with adviser (Sem: 5-8)

**SOIL SCIENCE OPTION:** (45-46 credits)

**PRESCRIBED COURSES** (12 credits)

SOILS 403(2), SOILS 412W(3), SOILS 416(4) [\[11\]](#) (Sem: 3-6)  
SOILS 450(3) (Sem: 5-8)

**ADDITIONAL COURSES** (18-20 credits)

BIOL 110 GN(4) or BIOL 127 GN(3) (Sem: 1-4)  
GEOSC 001(3) or GEOSC 020 GN(3) (Sem: 1-4)  
Select 3-4 credits from AGRO 028(3), BIOL 220W GN(4), FOR 203(3), HORT 101 GN(3), TURF 235(3) (Sem: 3-6)  
Select 3 credits from E R M 433(3), E R M 440(3), SOILS 402(3), SOILS 419(3), SOILS 420(3) (Sem: 3-8)  
Select 3 credits from SOILS 401(3), SOILS 405(3), GEOSC 452(3) (Sem: 3-8)  
Select 3 credits from E R M 444(3), FOR 475(3), SOILS 404(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 18 credits of supporting courses in consultation with adviser. (Sem: 5-8)

**WATER SCIENCE OPTION:** (58-60 credits)

**PRESCRIBED COURSES** (35 credits)

BIOL 110 GN(4) [\[1\]](#), BIOL 220W GN(4), GEOG 160 GS(3) (Sem: 3-4)

CED 201(3), E R M/A S M 309(3) (Sem: 5-6)

E R M 412(3) [\[1\]](#), E R M 413W(3) [\[1\]](#), E R M/W F S 435(3), E R M 447(3), E R M 450(3), FOR 470(3) (Sem: 5-8)

**ADDITIONAL COURSES** (8-10 credits)

MATH 111 GQ(2) or MATH 141 GQ(4) (Sem: 1-2)

SOILS 401(3), SOILS 405(3) or GEOSC 452(3) (Sem: 5-8)

C E 370(3), E R M 440(3), ENT 425(3), FOR 303(3), FOR 403(3), W F S 410(3), or W F S 422(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 3 credits in communications/entrepreneurship/leadership (Sem: 3-8)

Select 12 credits of supporting courses in consultation with adviser (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Engineering Science

University Park, College of Engineering (E SC)

PROFESSOR JUDITH A. TODD, *Department Head; P. B. Breneman Chair and Professor of Engineering Science and Mechanics*

Engineering Science is a multidisciplinary honors program that emphasizes enhanced understanding and integrated application of engineering, scientific, and mathematical principles. The program is unique because it provides a broad foundation in the sciences and associated mathematics that underlie engineering and provides students the opportunity to obtain a depth of knowledge in an area of their choosing through technical electives and a research and design honors thesis. The curriculum is designed for students who seek to link the engineering disciplines with science. In addition to taking core courses in mathematics, physics and chemistry - (and biology for students in premedicine), students study thermodynamics, heat transfer, electromagnetics, solid and fluid mechanics, electrical devices, materials science, and topics selected as foundational and technical electives. During the junior year, students investigate a variety of research fields and identify a topic for their honor thesis research and design project. During the senior year, all students complete a capstone project on their chosen topic by writing a thesis that applies the scientific principles of research, design and analysis to engineering. Focus areas of study include, but are not limited to: electrical, mechanical, civil, biomedical, and materials engineering and are expected to be interdisciplinary. Hence, Engineering Science students achieve both depth and breadth in engineering and science, are able to function across disciplines, and graduate well prepared for advanced studies as well as professional employment.

The specific program objectives are tied to the mission of the program as described above. They target the major outcomes expected of Engineering Science students and are flexible and readily adaptable to meet changing constituent needs.

### Program Educational Objectives

The expected accomplishments of Engineering Science graduates in the first several years following graduation are:

1. participate in lifelong learning activities including, but not limited to, masters, doctorate, medical, and law degrees, continuing education, leadership development, management training, and global involvement/awareness;
2. engage in practice in a wide variety of fields including, but not limited to, electrical systems, electronics, mechanical systems, materials development, forensics, biomaterials, medicine, law, and business;
3. research, develop, design and/or utilize new products, processes, materials, devices, systems, and/or tools;
4. communicate findings and best practices at conferences and meetings, and to the general public through presentations, technical publications (journals, reports, memoranda), and patents;
5. use state-of-the-art tools for the benefit of society;
6. participate in and promote the values of diversity and sustainability in society; and
7. encourage and foster future generations of engineers through mentoring, service, and outreach.

### Program Outcomes (Student Outcomes)

- (a) an ability to apply knowledge of mathematics, science, and engineering
- (b) an ability to design and conduct experiments, as well as to analyze and interpret data
- (c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- (d) an ability to function on multidisciplinary teams
- (e) an ability to identify, formulate, and solve engineering problems
- (f) an understanding of professional and ethical responsibility
- (g) an ability to communicate effectively (h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- (i) a recognition of the need for, and an ability to engage in life-long learning
- (j) a knowledge of contemporary issues
- (k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Enrollment is limited to students who have demonstrated that they can benefit from the advanced courses of the curriculum; therefore a minimum grade-point average of 3.0 is required. Qualified students can participate in the integrated undergraduate graduate (IUG) program to streamline the process of earning B.S. and M.S. degrees.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade-point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*Since Engineering Science is an honors program, admission is limited to students who attain a cumulative GPA of at least 3.0 by the end of the entrance to major semester. In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the non-Honors B.S. degree in Engineering Science, 131 credits and a 2.50 grade-point average are required. The Honors degree requires the same number of total credits but a minimum of 16 honors Jr./Sr. year credits and a higher grad-point average as determined by the faculty. The baccalaureate program in Engineering Science is accredited by the Engineering Accreditation Commission of ABET, Inc. [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (65 credits)

CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1), EDSCN 100(3), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#) (Sem: 1-2)  
MATH 220 GQ(2-3), MATH 230(4), MATH 251(4) [\[1\]](#), M E 302(4), PHYS 212 GN(4) [\[1\]](#), PHYS 214 GN(2) (Sem: 3-4)  
E E 210H(4), E SC 312(3), E SC 407H(3) [\[1\]](#), E SC 409H(1), E SC 414M(3) [\[1\]](#), E SC 433H(1) (Sem: 5-6)  
E SC 404H(3) [\[1\]](#), E SC 410H(3), E SC 411H(2), ENGL 202C GWS(3) (Sem: 7-8)

### ADDITIONAL COURSES (21 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
E SC 261M(3) or CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 1-2)  
ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 1-2)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
E MCH 210H(5) [\[1\]](#) or E MCH 210(5) [\[1\]](#); E MCH 212H(3) [\[1\]](#) or E MCH 212(3) [\[1\]](#) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)

Select 15 credits from the department Foundational Elective List (Sem:5-6)

Select 12 credits from the department Technical Elective List (Students may apply 3 credits of ROTC or 3 credits of co-op experience.) (Sem: 7-8)

**Integrated Undergraduate/Graduate Study - B.S. Engineering Science - M.S. Engineering Science and Mechanics**

The flexibility and strength in fundamentals of the Engineering Science curriculum provides an opportunity for Engineering Science undergraduate students to participate in the ESM Integrated Undergraduate/Graduate (IUG) program. Application for IUG status may be made in the fifth or subsequent semesters.

The IUG program promotes the interchange of ideas across all branches of the scientific and engineering disciplines from both theoretical and experimental perspectives. Students in the composite degree program are expected to pursue interdisciplinary studies in areas that encompass nano- and bionanotechnology, advanced materials, electromagnetic, mechanics, microelectronics, nanoelectronics and bioelectronics, neural engineering, photonics and photovoltaics (among others) and they are expected to embrace multidisciplinary perspectives across departmental, College, and University boundaries.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Summer Session 2006 (E SC); Spring Semester 2012 (Integrated B.S./E.Sc.-M.S./E.Mch. & Integrated B.S./E.Sc.-M.S./E.Sc. AND Program Description)

Blue Sheet Item #: 42-04-021 (E SC); 33-04-176, 40-05-034 (Add Integrated B.S./E.Sc.-M.S./E.Mch. & Integrated B.S./E.Sc.-M.S./E. Sc.)

## Asian Studies

*University Park, College of the Liberal Arts (ASIA)*

PROFESSOR ON-CHO NG, *Department Head, Asian Studies*

This is an interdisciplinary major, with a strong disciplinary core, for students who want a basic understanding of the background and contemporary aspect of East, Southeast, or South Asia. Students are expected to focus their coursework largely on one major Asian area.

For the B.A. degree in Asian Studies, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 24 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 31 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (6 credits)  
ASIA 100 GH;IL(3) (Sem: 1-4)  
ASIA 405Y IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (7 credits)  
Select 4 credits beyond the 12-credit level of proficiency in an Asian language:  
CHNS 110(4), JAPNS 110 IL(4), or the equivalent (Sem: 3-6)

Select 3 credits from the following: HIST 174 GH;IL(3), HIST 175 GH;IL(3), or HIST 176 GH;IL(3) (Sem 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 18 credits from a department list with at least 12 credits of which are to be at the 400-level; independent study credits selected in consultation with adviser; additional further credits in language studies may be permitted up to 6 credits (credit received for a specific course will not count in more than one category) (Sem: 1-8)

Courses not on the list that deal substantially with some aspect of Asia in any discipline may also count, pending approval of an adviser.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Fall Semester 2009

Blue Sheet Item #: 37-06-054

Review Date: 4/14/09

UCA Revision #2: 7/27/07

## Earth Science and Policy

University Park, College of Earth and Mineral Sciences (EARSP)

PROFESSOR PETER J. HEANEY, Associate Head for Undergraduate Programs

Global climate change and environmental change on a more local scale present major challenges for our future. The solution to these problems requires people with a solid scientific understanding of natural earth/environmental systems, and also an understanding of the social, economic, and political dimensions of these problems. This major is intended to bridge the gap between the physical, natural sciences (the earth sciences) and the social sciences, with the understanding that intelligent, effective solutions to environmental problems will require people who grasp the scientific and social dimensions of environmental problems. This major is intended to produce graduates who not only grasp these problems, but who can also apply a wide array of quantitative tools and fundamental principles to generate practical solutions.

Students develop a sense of community through a set of common upper level courses and they gain practical experience through a mandatory internship course. A variety of options are offered to enable greater depth of study in aspects of science and policy related to water and land use, climate change, and energy; a general option is also available.

This major will provide an excellent preparation for careers in environmental law, environmental consulting, and non-profit organizations engaged in the science and policy of environmental issues. This major will also serve as a strong basis for postgraduate studies in environmental science and policy.

**WATER AND LAND USE OPTION:** This option is intended to develop a focus on the role of water and land in environmental issues, encompassing scientific, economic, and policy dimensions of groundwater and surface water resources and of land use. The Water and Land Use option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to enter the work force.

**CLIMATE CHANGE OPTION:** This option is intended for students who want to focus on the science and policy related to climate change, including the scientific basis for identifying, understanding, and potentially mitigating climate change. The option also develops a basis for understanding the economic costs and risks related to climate change, as well as the political dimensions. This option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to enter the work force.

**ENERGY OPTION:** This option is designed to provide a focus on aspects of Earth science and policy related to energy, including the origins of energy and mineral resources, the future of these resources, and the alternatives for meeting future needs. This option also provides a focus on the economics of energy systems and the political dimensions of the challenges related to our energy future. The Energy option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to enter the work force.

**GENERAL OPTION:** This option is intended for students who desire a broad sampling of Earth science as it relates to policy or those who desire to design their own focus within Earth science in consultation with an academic adviser. The General option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to enter the work force.

For the B.S. degree in Earth Science and Policy, a minimum of 120 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits (33 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR) (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:** (Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:** (Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:** (Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-2 credits

**REQUIREMENTS FOR THE MAJOR:** 106-108 credits (This includes 33 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 9 credits of GWS courses; 3 credits of GH courses; 6 credits of GS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 79-81 credits

### **PRESCRIBED COURSES** (49 credits)

BIOL 110 GN(4), CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), ECON 102 GS(3), EM SC 100S GWS(3)[71], GEOG 126 GS;US;IL(3), PHIL118 GH(3), PL SC 001 GS(3), STAT 200 GQ(4) (Sem: 1-4)  
EARTH 202(3)[11] (Sem: 6)  
E B F 472(3) [11], GEOG 364(3), GEOSC 450(3)[11] (Sem: 6-8)  
EARTH 400(3), EARTH 495(3) (Sem: 7-8)

### **ADDITIONAL COURSES** (30-32 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
MATH 083 GQ(4)[11] or MATH 110 GQ(4)[11] or MATH 140 GQ(4)[11] (Sem: 1-2)  
GEOSC 001(3) or GEOSC 020 GN(3) (Sem: 1-4)  
MATH 111 GQ(2) or MATH 141 GQ(4) (Sem: 2-3)  
PHYS 211(4) or PHYS 250(4) (Sem: 2-3)  
CAS 100 GWS(3) or ENGL 202C GWS(3) (Sem: 2-5)  
CED 201(3) or E B F 200 GS(3) (Sem: 2-5)  
Select 8 credits from: GEOSC 201(4)[11], GEOSC 202(4)[11], GEOSC 203(4)[11] (Sem: 3-6)

**REQUIREMENTS FOR THE OPTION:** 27 credits

**WATER AND LAND USE OPTION:** (27 credits)

### **ADDITIONAL COURSES** (27 credits) Must include one W course

Select 3 credits from: EARTH 111 GN;US(3), GEOG 160 GS(3), SOILS 101 GN(3) (Sem: 2-5)  
Select 12 credits from: E R M 300(3), FOR 455(3), FOR 470(3), GEOG 363(3), GEOSC 340(3), GEOSC 402Y IL(3), GEOSC 409W(3), GEOSC 413W(3), GEOSC 452(3), GEOSC 483(3), SOILS 415(3), SOILS 422(3), SOILS 450(3) (Sem: 3-8)  
Select a total of 12 credits from the following:  
3 to 6 credits from: CED 429(3), CED 431W(3), ECON 302 GS(3) (Sem: 4-8)  
6 to 9 credits from: CED 309(3), CED 409(3), CED 410(3), GEOG 430(3), GEOG 431(3), GEOG 434(3), GEOG 439(3), PL SC/S T S 460(3), PUBPL 481(3) (Sem: 4-8)

**CLIMATE CHANGE OPTION:** (27 credits)

### **ADDITIONAL COURSES:** (27 credits) Must include one W course

Select 3 credits from: EARTH 002 GN(3), GEOG 110 GN(3), METEO 003 GN(3), METEO 004 GN(3) (Sem: 2-5)  
Select 12 credits from: GEOG 310W(3), GEOG 412W(3), GEOSC 320(3), GEOSC/METEO 475W(3), METEO 201(3), METEO 466(3) (Sem: 4-8)  
Select a total of 12 credits from the following:  
3 to 6 credits from: CED 429(3), CED 431W(3), ECON 302(3) (Sem: 4-8)  
6 to 9 credits from: CED 230(3), CED 410(3), EM SC/S T S/SOC 420(3), GEOG 430(3), GEOG 434(3), GEOG 438W(3), PL SC/S T S 460(3), S T S 201(3) (Sem: 4-8)

4-8)

**ENERGY OPTION:** (27 credits)**ADDITIONAL COURSES:** (27 credits) Must include one W course

Select 3 credits from: EARTH 100 GN(3), EGEE 101 GN(3), EGEE 102 GN(3) (Sem: 2-5)

Select 9 credits from: EGEE 302(3), EGEE 401(3), EGEE 412(3), GEOSC 451(3), GEOSC 454(3), GEOSC 483(3) (Sem: 4-8)

Select 3 credits from: E B F 484(3), GEOG 424 US:IL(3) (Sem: 4-8)

Select 12 credits from: CED 230(3), CED 410(3), EM SC/S T S/SOC 420(3), GEOG 430(3), GEOG 434(3), GEOG 438W(3), GEOG 439(3), PL SC/S T S 460(3), S T S 201 GN(3) (Sem: 4-8)

**GENERAL OPTION:** (27 credits)**ADDITIONAL COURSES:** (27 credits) Must include one W course

Select 3 credits from: EARTH 002 GN(3), EARTH 100 GN(3), EARTH 111 GN:US(3), EGEE 101 GN(3), GEOG 010 GN (3), GEOG 030 GS(3), GEOG 160 GS(3), METEO 003 GN(3), METEO 004 GN(3), SOILS 101 GN(3) (Sem: 2-5)

Select 12 credits from: E R M 300(3), EGEE 302(3), EGEE 412(3), FOR 455(3), FOR 470(3), GEOG 310W(3), GEOG 363(3), GEOG 412W(3), GEOSC 320(3), GEOSC 340(3), GEOSC 402Y IL(3), GEOSC 409W(3), GEOSC 413W(3), GEOSC 451(3), GEOSC 452(3), GEOSC 454(3), GEOSC 475W(3), GEOSC 483(3), METEO 466(3), SOILS 415(3), SOILS 422(3), SOILS 450(3) (Sem: 4-8)

Select a total of 12 credits from the following:

3 to 6 credits from: CED 429(3), CED 431W(3), E B F 484(3), ECON 302 GS(3), GEOG 424 US:IL(3), (Sem: 4-8)

6 to 9 credits from: CED 230(3), CED 309(3), CED 409(3), CED 410(3), E R M 411(3), GEOG 130 GS(3), GEOG 430(3), GEOG 431(3), GEOG 434(3), GEOG 438W(3), GEOG 439(3), EM SC/S T S/SOC 420(3), PL SC 403(3), PL SC 412(3), PL SC 426(3), PL SC/S T S 460(3), PL SC 471(3), PL SC 490(3), S T S 201(3) (Sem: 4-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[71] The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## Earth Sciences

University College: Penn State DuBois  
University Park, College of Earth and Mineral Sciences (EARTH)

PROFESSOR PETER J. HEANEY, Associate Head for Undergraduate Programs

This major provides a comprehensive program in environmental sciences based on a strong emphasis in earth sciences. It is especially directed toward study of the problems that arise from the complex interaction of man's technological and social activities with the natural environment. Graduates are in demand for positions in government, industry, and consulting. Professional activities include gathering and evaluating data on environments; management and coordination of specialized programs in environmental control and modification; and industrial and government planning. Suitable choices of courses may qualify students for graduate work in several fields.

For the B.S. degree in Earth Sciences, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 99-101 credits

(This includes 21 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GWS courses.)

**PRESCRIBED COURSES** (31 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), EM SC 100S GWS(3) [\[71\]](#), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-2)

PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 1-4)

BIOL 110(4) (Sem: 3-4)

**ADDITIONAL COURSES** (36 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

Select 15 credits of introductory earth science from the following list (courses may not double count with minor requirements): EARTH 002 GN(3), EARTH 101 GN(3), EARTH 103 GN(3), EARTH 105 GN(3), METEO 003 GN(3), METEO 022(2), GEOG 030 GS;IL(3), GEOG 110 GN(3), GEOG 111 GN(3), GEOG 115 GN(3), GEOG 160(3), GEOSC 001(3), GEOSC 021 GN(3), SOILS 101 GN(3) (Sem: 1-6)

Select 15 credits [\[1\]](#) of advanced earth science from the following list (courses may not double count with minor requirements): GEOG 430(3), GEOG 438W(3), GEOG 412W(3), GEOSC 204(4), GEOSC 320(3), GEOSC 340(3), GEOSC 402W(3), GEOSC 416(3), METEO 300(4), METEO 431(3), METEO 475(3) (Sem: 3-8)

Select 3 credits of writing-intensive courses from within Earth and Mineral Sciences to include, but not limited to: GEOG 412W(3), GEOG 310W(3), GEOSC 402W(3), GEOSC 470W(3), METEO 471W(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (32-34 credits)

Select 3-4 credits of advanced math, statistics, computer science in consultation with an adviser (Sem: 5-8)

Select 3 credits of field, laboratory experience in consultation with an adviser (Sem: 5-8)

Select 8-9 credits in other approved courses (Students may apply 6 credits of ROTC) (Sem: 5-8)

Select 18 credits [\[1\]](#), in consultation from an adviser, from one of the following Earth and Mineral Sciences interdisciplinary minors:

CLIMATOLOGY

MARINE SCIENCE

WATERSHEDS & WATER RESOURCES

EARTH SYSTEMS

GLOBAL BUSINESS STRATEGIES FOR EARTH AND ENVIRONMENTAL INDUSTRIES

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[71]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## Energy Business and Finance

University Park, College of Earth and Mineral Sciences (EBF)  
University Park, Smeal College of Business

Professor Seth Blumsack, Undergraduate Program Chair

The major in Energy Business and Finance, offered jointly by the College of Earth and Mineral Sciences and the Smeal College of Business, combines training in business, economics, finance, and the physical sciences with a core of courses focusing on energy and related industries. The major helps students prepare for careers in the energy industry, as well as financial institutions, nonprofit groups, and international organizations dealing with energy issues. The curriculum also provides a strong base for further study in business, economics, law, and social sciences.

Entrance Requirement: To be eligible for entrance into the Energy Business and Finance major, a degree candidate must satisfy requirements for entrance to major. Specific entrance requirements include:

1. The degree candidate must have completed more than 27.1 credits of course work.
2. The degree candidate must have a cumulative grade point average of at least 2.0.
3. Complete the following entrance to major requirements: ECON 102 GS(3)[1], MATH 140 GQ(4)[1].

### GENERAL OPTION

The General option of the Energy Business and Finance major is appropriate for students who want a broad understanding of the earth and environmental sciences in preparation for careers in industry, commerce, and government.

### ENERGY LAND MANAGEMENT OPTION

The Energy Land Management Option in the major of Energy Business and Finance focuses on issues in the acquisition of sub-surface exploration rights. Thus, it is designed to prepare students for a career as a land professional in an energy exploration company. The curriculum, designed in consultation with the American Association of Professional Landmen, requires courses in real estate fundamentals, energy law, geographic information sciences, petroleum engineering and petroleum geology.

### Integrated B.S. in Energy Business and Finance (EBF) and M.S. in Energy and Mineral Engineering (EME)

The integrated undergraduate-graduate (IUG) program between the Energy Business and Finance undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused EBF undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. Students should refer to the Energy and Mineral Engineering graduate program in the Graduate Program Bulletin for the IUG admission and degree requirements.

([http://bulletins.psu.edu/bulletins/whitebook/graduate\\_degree\\_programs.cfm?letter=E&program=grad\\_eme.htm](http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=E&program=grad_eme.htm))

For the B.S. degree in Energy Business and Finance, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(25-27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 0-12 credits

### REQUIREMENTS FOR THE MAJOR: 90-102 credits

(This includes 25-27 credits of General Education Courses: 4-6 credits of GN courses, 9 credits of GWS courses, 6 credits of GQ courses, and 6 credits of GS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 66 credits

#### PREScribed COURSES (45 credits)

MATH 140 GQ(4)[1] (Sem: 1)  
ECON 102 GS(3)[1] (Sem: 1)  
MATH 141 GQ(4)[1] (Sem: 2)  
E B F 200 GS(3)[1] (Sem: 3)  
ACCTG 211(4), ECON 104 GS(3), ECON 302 GS(3)[1] (Sem: 3-4)  
E B F 301(3)[1], E B F 304W(3)[1] (Sem: 5-6)  
EME 460(3)[1], I B 303 IL(3) (Sem: 5-8)  
R M 302(3)[1] (Sem: 6-8)  
E B F 401(3)[1], E B F 473(3) (Sem: 7-8)

#### ADDITIONAL COURSES (21 credits)

Select 3 credits from: CAS 100 GWS(3) or EM SC 100S GWS(3) (Sem: 1)  
Select 3 credits from: CMPSC 101 GQ(3), CMPSC 200 GQ(3), CMPSC 201 GQ(3), CMPSC 202 GQ(3) (Sem: 1-2)  
Select 3 credits from: ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
Select 3 credits from: B A 243(4), B LAW 243(3), or E R M 411(3) (Sem: 3-4)  
Select 3 credits from: E B F 472(3)[1], STAT 301 GQ(3)[1], or STAT 401(3)[1] (Sem: 3-4)  
Select 3 credits from: E B F 483(3)[1] or E B F 484(3)[1] (Sem: 7-8)  
Select 3 credits from: ENGL 202C GWS(3) or ENGL 202D GWS(3) (Sem: 7-8)

### REQUIREMENTS FOR THE OPTION: 24-36 credits

#### ENERGY LAND MANAGEMENT OPTION (25 credits)

##### PREScribed COURSES (12 credits)

GEOSC 001(3)[1] (Sem: 1-2)  
GEOG 160 GS(3)[1], GEOG 363(3) (Sem: 5-8)  
E B F 402(3) (Sem: 7-8)

##### ADDITIONAL COURSES (13 credits)

Select 4 credits from: PHYS 211 GN(4)[1] or PHYS 250 GN(4)[1] (Sem: 1-2)  
Select 3 credits from: GEOG 361(3)[1], GEOG 362(3)[1], GEOG 364(3)[1], or GEOG 463(3)[1] (Sem: 5-6)  
Select 3 credits from: E B F 411(3) or GEOSC 454(3) (Sem: 7-8)  
Select 3 credits from E B F 410(3) or P N G 405(3) (Sem: 7-8)

### GENERAL OPTION: (24-36 credits)

#### ADDITIONAL COURSES (9-10 credits)

Select 6-7 credits from: CHEM 110 GN(3), EARTH 100 GN(3), EARTH 101 GN;US(3), EARTH 103 GN(3), EARTH 111 GN;US(3), EARTH 150 GN(3), EGEE 101 GN(3), EGEE 102 GN(3), EGEE 120 GS;US;IL(3), GEOG 110 GN(3), GEOG 115 GN(3), GEOSC 002 GN(3), GEOSC 010 GN(3), GEOSC 020 GN(3), GEOSC 021 GN(3), GEOSC 040 GN(3), MATSE 081 GN;IL(3), METEO 003 GN(3), METEO 101 GN(3), PHYS 211 GN(4) or PHYS 250 GN(4) (Sem: 1-4)  
Select 3 credits from: CED 404(3), CED 429(3), CED 431W(3), E B F 411(3), E B F 483(3)[if not selected for requirement above], ECON 490(3), EME 301(3), GEOG 424 US;IL(3), GEOG 430(3), GEOG 431(3), GEOG 444(3), GEOG 493(3), GEOSC 402Y IL(3), GEOSC 454(3), METEO 473(3), PL SC 490(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (15-26 credits)**

Select either:

Select from one of the following minors:

Arabic, Chinese, Civic and Community Engagement, Earth Systems, Energy Engineering, Entrepreneurship and Innovation, Environmental Resource Management, Environmental Systems Engineering, Geographic Information Science, Geosciences, Mathematics, Meteorology, Mining Engineering, Petroleum and Natural Gas Engineering, Russian, Spanish, Statistics, Watersheds and Water Resources or a relevant minor selected in consultation with an adviser;

Or

A concurrent major in any subject;

Or

A 15 credit semester-long education abroad program approved by the professor in charge of the E B F major;

Or

A minor in Asian Studies together with an approved E B F summer term abroad experience.

**Course Substitutions for the Integrated B.S. in Energy Business and Finance (EBF) and M.S. in Energy and Mineral Engineering (EME)**

As many as twelve of the credits required for the master's degree may be applied to both the B.S. and M.S. degrees. A minimum of six credits counted for both the B.S. and M.S. degrees must be at the 500-level. Thesis and culminating/capstone experience credits may not be double counted. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

## Electrical and Computer Engineering Technology

*Penn State Erie, The Behrend College (ECET)*

This major prepares graduates for careers in such varied areas as electronics, microprocessors, computer hardware and software, communications, instrumentation and control, and power. The major consists of two options, one in Electrical Engineering Technology, the other in Computer Engineering Technology. Both options provide education in applied mathematics, physics, electrical and electronic circuit analysis and design, microprocessors, instrumentation and quality control. The Electrical Engineering Technology option provides specialty education in control theory, communication systems, and power systems. The Computer Engineering Technology option provides specialty education in software development, embedded computer systems, and networking. Both options in the major culminate with a capstone design project involving an actual design or manufacturing problem, often sponsored by industry. Graduates may qualify as engineering technologists working side-by-side with engineers, scientists, and other skilled workers in these capacities. Occupations include electrical and electronic systems design, microprocessor applications, instrumentation and control, computer programming, electrical testing, plant engineering, quality control, management, and technical sales and service.

### Entrance to Major Requirements:

To be eligible for entrance to the Electrical and Computer Engineering Technology major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed MATH 081 or MATH 026, and MATH 082 or MATH 022, and MATH 083 or MATH 140, and PHYS 250, and earned a grade of C or better in each of these courses.

For the B.S. degree in Electrical and Computer Engineering Technology, a minimum of 128 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in PRESCRIBED COURSES course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 107 credits

(This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GWS courses; and 3 credits of GS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 89 credits

#### PRESCRIBED COURSES (57 credits)

CMPET 005(1), CMPET 117(3)[\[1\]](#), CMPET 120(1), CMPET 211(3), EET 101(3), EET 109(1), EET 114(4)[\[1\]](#), EET 118(1)[\[1\]](#), EET 212W(4), EET 214(3), EET 215(1)  
(Sem: 1-4)

CAS 100 GWS(3), ENGL 202C GWS(3) (Sem: 3-6)

MATH 210 GQ(3), MATH 211 GQ(3) (Sem: 4-6)

EET 280(1) (Sem: 4-8)

CMPET 301(3)[\[1\]](#), CMPET 355(3)[\[1\]](#), EET 315(3)[\[1\]](#), EET 341(3)[\[1\]](#) (Sem: 5-6)

MGMT 409(3)[\[1\]](#) (Sem: 5-8)

EET 480(1)[\[1\]](#), EET 490W(3)[\[1\]](#) (Sem: 7-8)

#### ADDITIONAL COURSES (32 credits)

EET 002S(1) or ET 002(1) (Sem: 1-4)

EG T 101(1) and EG T 102(1) or EG T 119(2) (Sem: 1-4)

MATH 026 GQ(3)[\[1\]](#) or MATH 081 GQ(3)[\[1\]](#), MATH 022 GQ(3)[\[1\]](#) or MATH 082 GQ(3)[\[1\]](#), MATH 083 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-4)

ECON 102 GS(3) or ECON 104 GS(3) (Sem: 1-8)

CHEM 110 GN(3), CHEM 111 GN(1), PHYS 250 GN(4)[\[1\]](#), and 2 credits of science GN(2) or PHYS 150 GN(3)[\[1\]](#), PHYS 151 GN(3)[\[1\]](#), and 4 credits of science

GN(4), EET 450(3) or Q C 450(3) (Sem: 5-8)

EET 275(3) or EET 220(2) and 1 credit in 200 level or higher of technical electives from school-approved list (Sem: 4-8)

### REQUIREMENTS FOR THE OPTION: 18 credits

#### ELECTRICAL ENGINEERING TECHNOLOGY OPTION: (18 credits)

##### PRESCRIBED COURSES (9 credits)

EET 330(3)[\[1\]](#) (Sem: 5-6)

EET 416(3)[\[1\]](#), EET 440(3)[\[1\]](#) (Sem: 7-8)

##### SUPPORTING COURSES AND RELATED AREAS (9 credits)[\[1\]](#)

Select 9 credits of technical electives at the 300 or 400 level from school-approved list (Students may apply 6 credits of ROTC.) (Sem: 7-8)

#### COMPUTER ENGINEERING TECHNOLOGY OPTION: (18 credits)

##### PRESCRIBED COURSES (9 credits)

CMPET 333(3)[\[1\]](#) (Sem: 5-6)

CMPET 456(3)[\[1\]](#), CMPET 457(3)[\[1\]](#) (Sem: 7-8)

##### SUPPORTING COURSES AND RELATED AREAS (9 credits)[\[1\]](#)

Select 9 credits of technical electives at the 300 or 400 level from school-approved list (Students may apply 6 credits of ROTC.) (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Economics

*University Park, College of the Liberal Arts (ECLBA)  
World Campus*

PROFESSOR Barry Ickes, *Head, Department of Economics*

This major is designed for those who seek a broad understanding of the operation of the economic system and training in the methods and uses of economic analysis. Graduates are equipped for employment in many areas of business operations, labor unions, and agencies of government at all levels; and to undertake the graduate work necessary to become professional economists.

Students may choose either a Bachelor of Arts or a Bachelor of Science program. An honors program is also offered.

For the B.A. degree in Economics, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**Entrance Requirement:** To be eligible for entrance into the Economics (ECLBA) major, a degree candidate must satisfy requirements for entrance to the major.

Specific entrance requirements include:

The degree candidate must have completed the following entrance to major requirements with a grade of C or better: ECON 102 and ECON 104.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**PRESCRIBED COURSES** (18 credits)  
ECON 102 GS(3), ECON 104 GS(3) (Sem: 3-4)  
ECON 106(3), ECON 302 GS(3), ECON 304 GS(3), ECON 306(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)  
Select 18 credits in Economics 300 or 400 level with department approval, including at least 9 credits at the 400 level (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Economics

University Park, College of the Liberal Arts (ECLBS)  
World Campus

PROFESSOR Barry Ickes, *Head, Department of Economics*

This major is designed for those who seek a broad understanding of the operation of the economic system and training in the methods and uses of economic analysis. Graduates are equipped for employment in many areas of business operations, labor unions, and agencies of government at all levels; and to undertake the graduate work necessary to become professional economists.

The B.S. degree program is intended for students with a strong interest in quantitative skills. An honors program is also offered.

For the B.S. degree in Economics, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**Entrance Requirement:** To be eligible for entrance into the Economics (ECLBS) major, a degree candidate must satisfy requirements for entrance to the major.

Specific entrance requirements include:

The degree candidate must have completed the following entrance to major requirements with a grade of C or better: ECON 102 and ECON 104.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 26 credits

**REQUIREMENTS FOR THE MAJOR:** 55 credits<sup>[1]</sup>

(This includes 6 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (18 credits)

ECON 102 GS(3), ECON 104 GS(3) (Sem: 1-2)

ECON 302 GS(3), ECON 304 GS(3) (Sem: 3-4)

ECON 106(3), ECON 306(3) (Sem: 3-6)

**ADDITIONAL COURSES** (7 credits)

MATH 110 GQ(4) or MATH 140 GQ(4); CMPSC 101 GQ(3) or CMPSC 203 GQ(4) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (30 credits)

Select 3 credits in social and behavioral sciences from department list (Sem: 1-8)

Select 6 credits in arts, humanities, social and behavioral sciences from department list (Sem: 1-8)

Select 3 credits in quantification from department list (Sem: 1-8)

Select 18 credits in economics at the 300 or 400 level with department approval, including at least 9 credits at the 400 level (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2010

## Economics

*Penn State Erie, The Behrend College (ECNS)*

The Economics major is a program of study with a liberal arts orientation. The broad liberal arts background serves as a foundation for advanced study in the methods and techniques of economic analysis. Use of mainframe and microcomputers as analytical and problem-solving tools is emphasized in the program's upper-division courses. Students may choose upper-division courses in several areas of specialization, including business cycles and forecasting, economic theory, industrial organization, international economics, labor economics, managerial economics, and regional economics.

For the B.A. degree in Economics, a minimum of 122 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 19 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 37 credits

(This includes 3 credits of General Education GWS courses.)

**PRESCRIBED COURSES** (19 credits)

ECON 102 GS(3), ECON 104 GS(3), ECON 302 GS(3), ECON 304 GS(3) (Sem: 1-6)

ENGL 202A GWS(3) (Sem: 3-6)

SCM 200(4) (Sem: 3-6)

**ADDITIONAL COURSES** (18 credits)

Select 18 credits in BECON, ECNS, or ECON above the 300 level, in consultation with an adviser. [Where appropriate toward a specialized undergraduate field of study, the student may petition the director of the School of Business to take up to a maximum of 6 credits in closely related fields toward a major.] (Sem: 3-8)

## Electrical Engineering

*Penn State Erie, The Behrend College (EE BD)*

This major provides students with a strong foundation in electrical engineering through a combination of classroom study, projects, and laboratory experience. Analysis and design of electrical and computer systems are stressed. Built upon a core of science and mathematics courses, this major has the objective of educating graduates to be problem solvers. Students acquire the ability to work as members of a team toward successful attainment of a common goal, preparing them for work in industry, or further study in graduate school. In addition, written and oral communication skills are developed from an early stage, culminating in a senior design project that stresses communication as well as engineering content.

In addition to completing a broad-based science and mathematics core, students pursue their interest in electrical engineering by studying the principles of electrical circuits and microelectronics, digital and computer systems, control and communications systems, and electromagnetic fields and waves. Students obtain a broad-based electrical engineering education that is specialized through the selection of technical electives courses. The student will be required to analyze and solve a significant electrical engineering design problem during the senior year.

**Entrance Requirement:** In addition to the Carnegie unit and minimum GPA requirements described by University policies, all students applying for entrance to any of the engineering majors at The Behrend College must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), and PHYS 211 GN(4). These courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in Electrical Engineering, a minimum of 130 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

## Electrical Engineering

Capital College (E ENG)

AB SHAFAYE, Program Chair, School of Science, Engineering, and Technology

The Bachelor of Science degree in Electrical Engineering provides a solid background in electrical engineering sciences. It also provides an opportunity for students to pursue interests in electrical and electronic circuits, including digital circuits and VLSI and its fabrication, microprocessors and their applications, electromagnetics, communications, control systems, and digital image processing and computer vision. Through participation in a senior capstone design, the curriculum emphasizes written as well as verbal communication and teamwork approach among the students to attain a common goal.

This program helps its graduates develop capabilities to analyze and design a variety of electrical and electronic systems found in many industrial and government settings as well as provide a foundation for further graduate studies. A strong background in the fundamentals is built through a broad base core in basic sciences (physics and chemistry) and mathematics as well as engineering sciences.

For a B.S. degree in Electrical Engineering a minimum of 134 credits is required.

### Entry to Major Requirements:

Entry to the Electrical Engineering major requires that the student has completed: MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), and CHEM 110 GN(3), CHEM 111 GN(1). A 2.00 or higher cumulative grade-point average is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### ELECTIVES: 0-4 credits

### REQUIREMENTS FOR THE MAJOR: 110-113 credits

(This includes 21 credits of General Education courses: 3 credits of GWS courses; 3 credits of GS courses; 9 credits of GN courses; 6 credits of GQ courses.)

### PRESCRIBED COURSES (87 credits)

CHEM 110 GN(3), CHEM 111 GN(1), EDSGN 100(3) (Sem: 1-2)

SSET 295(1) (Sem: 4)

MATH 140 GQ(4), MATH 141 GQ(4), MATH 220 GQ(2-3), MATH 230(4), MATH 250(3), PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 1-4)

CMPEM 271(3) [\[1\]](#), CMPEM 275(1) [\[1\]](#), E MCH 211(3), ENGL 202C GWS(3) (Sem: 3-4)

CMPEH 472(4), E E 310(4) [\[1\]](#), E E 330(4), E E 341(3), E E 352(4) [\[1\]](#), E E 485(3) (Sem: 5-6)

CMPSG 436(3), E E 311(3), E E 405(1), E E 406W(3) [\[1\]](#), E E 461(4), E E 481(4) (Sem: 7-8)

### ADDITIONAL COURSES (14-17 credits)

Select 3 credits from: ECON 102 GS(3) or ECON 104 GS(3) or ECON 014 GS(3) (Sem: 1-4)

Select 3 credits from: CMPSG 201 GQ(3), or CMPSG 121 GQ(3), or CMPSG 202 GQ(3) (Sem: 3-4)

Select 3-4 credits from MATH 444(3) [\[1\]](#) or MATH 446(3) [\[1\]](#) or STAT 200 GQ(4) [\[1\]](#) (Sem: 4-6)

Select 5-7 credits from E E 315(5) [\[1\]](#), or E E 210(4) [\[1\]](#) and E E 314(3) [\[1\]](#) (Sem: 4-5)

### SUPPORTING COURSES AND RELATED AREAS (9 credits)

Select 9 credits in consultation with an academic adviser and in support of the student's interests. (Sem: 7-8)

## Integrated B.S./M.S. Program in Electrical Engineering

The Electrical Engineering program offers a limited number of academically superior Bachelor of Science candidates the opportunity to enroll in an integrated, continuous program of study leading to both the Bachelor of Science and the Master of Science in Electrical Engineering. The ability to coordinate as well as concurrently pursue the two degree programs enables students to earn the two degrees in five years.

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. However, the total course load is reduced due to the maximum of 12 credits that can count towards both degrees. A minimum of 7 credits proposed to count for both degrees must be at the 500 level. Thesis credits may not be double counted. The fourth year of the IUG program differs from the fourth year of the Bachelor of Science program due to the courses that count toward the Master of Science Degree requirements. Student performance will be monitored on an on-going basis. In addition, a formal evaluation of student's academic performance will be conducted at the end of the first semester of the senior year for a typical student in the program. Students who have not maintained a 3.4 GPA in their Math and Electrical Engineering courses will be put on probationary status with respect to the IUG program. Their ability to continue in the IUG program will be based on academic performance in the last semester of their senior year. As part of the review in the senior year, students will be advised about the thesis requirement in the graduate program.

Students have the choice of receiving the B.S. degree at the end of the fourth year or waiting until the end of the fifth year to receive both degrees. Students who elect to receive the B.S. degree at the end of the fourth year will pay graduate tuition for courses taken in the fifth year; students opting to receive both degrees at the end of the fifth year will pay undergraduate tuition for all five years. If for any reason a student admitted to the IUG program is unable to complete the requirements for the Master of Science degree, the student will be permitted to receive the Bachelor of Science degree assuming all the undergraduate degree requirements have been satisfactorily completed. If students successfully complete courses listed in the recommended schedule, they will satisfy the requirements for the Bachelor of Science degree by the end of their fourth year.

## Admission Requirements

To initiate the application process, students must submit an *Integrated Undergraduate-Graduate (IUG) Degree in Electrical Engineering Application Form*, an official transcript, three letters of professional recommendation from individuals who can evaluate the applicant's potential, and a personal statement of technical interest and goals. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. In order to apply for the IUG program, students must have completed a minimum of 81 credits; therefore a typical student would apply after completing the fifth semester and before the end of the sixth semester. For consideration for acceptance into the program, students must have cumulative grade point average (GPA) of 3.4 or better and collective GPA of 3.4 or better in the following courses: CMPEM 271, CMPEM 275, E E 315 (or equivalent), E E 341, CMPEH 472 and all the designated MATH, PHYS, and CMPSG courses. Applications will be evaluated based on students' overall academic performance, in addition to the above requirements. In all cases, admission to the program will be at the discretion of the Graduate Admissions Committee of the Electrical Engineering program.

## Degree Requirements

Students in the IUG program must satisfy the degree requirements for both Bachelor of Science and Master of Science degrees. The total course load is reduced due to the maximum of 12 credits that can count towards both degrees. The minimum of 7 credits double-counted must be at the 500 level. Thesis credits may not be double counted.

B.S. Degree Portion:

TOTAL B.S. REQUIREMENTS: 134 credits  
(12 double-counted with the M.S. Requirements)

General Education: 45 credits  
(21 of these are included in the REQUIREMENTS FOR MAJOR)

Electives: 0-4 credits

Requirements for the Major: 110-113 credits

Prescribed Courses: 87 credits  
As listed by the B.S. E ENG bulletin with the following change  
CMPSC 436 can be replaced by an EEO 400 or System 400 Elective

Additional Courses: 14-17 credits  
Select 3 credits from ECON 102 GS(3) or ECON 104 GS(3) or ECON 014 GS(3)  
Select 3 credits from CMPSC 201 GQ(3) or CMPSC 121 GQ(3) or CMPSC 202 GQ(3)  
Select 3-4 credits from MATH 444(3) or MATH 446(3) or STAT 200 GQ(4)  
Select 5-7 credits from E E 315(5) or E E 210(4) and E E 314(3)

Supporting Courses and Related Areas: 9 credits  
E MCH 524A (3), and  
Electronics-Electromagnetics- Optics Option: one EEO 400-level (3) and One EEO 500-level (3), or  
Systems Option: one System 400 (3) and One System 500-level (3).

M.S. Degree Portion:  
TOTAL M.S. REQUIREMENTS: 31 credits  
(12 double-counted with B.S. Requirements)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

UCA Revision #2: 7/27/07

CA

**PROGRAM CURRENTLY ON HOLD;  
NOT ACCEPTING NEW STUDENTS  
Begin Date of Enrollment Hold: September 10, 2010**

**\*\*Please Note:** Individuals interested in earning Pennsylvania teaching credentials for grades PK-8 should refer to the **Childhood and Early Adolescent Education** major.

## Elementary and Kindergarten Education

*Altoona College (EEDAL): Elementary Education Teaching Option*

*Berks College (EEDBL)*

*University College: Penn State Lehigh Valley (EEDCC): Elementary Education Teaching Option*

*University Park, College of Education (EK ED)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR STEPHANIE SERRIERE, *in charge*

This major offers teaching options in Early Childhood Education and in Elementary Education. Students successfully completing this major will have met all of the requirements for the N-3 or K-6 College Instructional I certificate issued by the Pennsylvania Department of Education. Students must indicate their choice of teaching option at the time they make application for admission to a teacher education major. Students who are undecided at this time about which teaching option to select should contact their adviser and enroll in a field experience featuring participation in the classroom.

**EARLY CHILDHOOD TEACHING OPTION:** Students successfully completing this option will have met all of the requirements for the N-3 Instructional I certificate issued by the Pennsylvania Department of Education. Special courses in both human development and education are used to integrate understanding of preschool programs with relevant theories of child development.

**ELEMENTARY EDUCATION TEACHING OPTION:** Students successfully completing this option will have met all of the requirements for the K-6 Instructional I certificate issued by the Pennsylvania Department of Education.

For the B.S. degree in Elementary and Kindergarten Education, a minimum of 129.5 credits is required for the Early Childhood Teaching Option and a minimum of 122 credits is required for the Elementary Education Teaching Option. (See also [Teacher Education Programs](#).)

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27-30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-3 credits

**REQUIREMENTS FOR THE MAJOR:** 101-117 credits

(This includes 27-30 credits of General Education courses: 6 credits of GS, 6 credits of GQ, 6 credits of GH, and 9 credits of GN courses for both options. The Early Childhood Teaching option permits 3 credits of GHA.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 84.5-85.5 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (57.5 credits)

C I 295(2), EDPSY 014(3), ENGL 100(3), MATH 200 GQ(3) (Sem: 1-4)

A ED 303(3), C I 495B(3), C I 495D(12), C I 495F(3), KINES 126(1.5), LL ED 400(3), LL ED 401(3), LL ED 402(3), MTHED 420(3), MUSIC 241(3), SCIED 458(3),

SPLED 400(3), SS ED 430W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (15-16 credits)

EDTHP 115 US(3) or EDTHP 115A GS:US(3) (Sem: 1-3)

HIST 020 GH:US(3) or HIST 021 GH:US(3) (Sem: 1-4)

STAT 100 GQ(3), STAT 200 GQ(4) or EDPSY 101 GQ(3) (Sem: 1-4)

ECON 102 GS(3), ECON 104 GS(3) or ECON 014 GS(3) (Sem: 1-8)

GEOG 020 GS:US:IL(3), GEOG 030 GS:IL(3), GEOG 126 GS:US:IL(3), GEOG 122 GH:US(3), GEOG 123 GS:IL(3), GEOG 120 GS:US:IL(3), GEOG 124 GS:IL(3), or GEOG

128 GS:IL(3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 3 credits in literature GH (Sem: 1-4)

Select 9 credits: 3 credits each (including one course with a lab) from the following GN biological science, earth science and physical science (Sem: 1-6)

**REQUIREMENTS FOR THE OPTION:** 16.5-30 credits

**EARLY CHILDHOOD TEACHING OPTION:** (27-30 credits)<sup>[1]</sup>

**PRESCRIBED COURSES** (15 credits)

E C E 451(3), E C E 452(3), E C E 453(2), E C E 454(3), E C E 479(3), C I 495A(1) (Sem: 5-8)

**ADDITIONAL COURSES** (12-15 credits)

H P A 101(3) or NUTR 251 GHA(3) (Sem: 1-2)

HD FS 315 US(3) or SOC 030 GS(3) (Sem: 1-4)

HD FS 229 GS(3) or PSYCH 100 GS(3) and PSYCH 212 GS(3) (Sem: 1-4)

HD FS 428(3) or HD FS 429(3) (Sem: 5-8)

**ELEMENTARY EDUCATION TEACHING OPTION:** (16.5-19.5 credits)<sup>[1]</sup>

**PRESCRIBED COURSES** (1.5 credit)

KINES 127(1.5) (Sem: 5-8)

**ADDITIONAL COURSES** (3-6 credits)

HD FS 229 GS(3) or EDPSY 010 GS(3) or PSYCH 100 GS(3) and PSYCH 212 GS(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 3 credits in MATH or MTHED (Sem: 1-8)

Select 6 credits from EDTHP at the 400 level, ECE at the 400 level, SPLED at the 400 level, EDLDR 405(3), EDLDR 497(1-9), LL ED 497(1-9) (Sem: 5-8)

Select 3 credits in U.S. History (Sem: 1-8)

<sup>[1]</sup> A grade of C or better per course is required for teacher certification.

## Elementary Education

*Capital College (ELEM)*

PROFESSOR JANE KEAT, *Elementary Education Coordinator, School of Behavioral Sciences and Education*

The Elementary Education program at Penn State Harrisburg embodies the four tenets of our conceptual framework: constructivism, authenticity, reflectivity, and standards-based curriculum. Constructivism entails a student-centered approach in which teachers help learners build their own understandings. Authenticity refers to developing professional and pedagogical skills in authentic classroom settings; for example, in the junior and senior years prior to student teaching, the program offers extensive field experiences in a variety of settings enrolling students with diverse backgrounds and needs. Reflectivity relates to consciously analyzing course content and one's own learning for the purpose of deeper understanding and self-improvement. Standards-based curriculum means that our candidates are steeped in Pennsylvania Academic Standards as well as the standards of relevant professional organizations. Taken together, these tenets enable our candidates to become *lifelong reflective professionals committed to the learning of all students*.

Students will choose one of four options for the degree: PK-4 Early Childhood Education, Grades 4-8 English/Language Arts and Reading, Grades 4-8 Mathematics, and Grades 4-8 Social Studies. Upon successful completion of this major, students will have met all of the requirements for either the Grades PK-4, Grades 4-8 English/Language Arts and Reading, Grades 4-8 Mathematics, or Grades 4-8 Social Studies Instructional I certification issued by the Pennsylvania Department of Education. Students must apply for admission to the major.

Prior to the full-time student teaching experience in the senior year, candidates are expected to complete all other courses required for certification, including two field placements. On-campus courses are scheduled three or four days a week, while field experiences in nearby schools are scheduled part-time, three or four days per week.

For a B. ELED. degree in Elementary Education, PK-4 Early Childhood Option a minimum of 129 credits are required; Grade 4-8 English/Language Arts and Reading Option a minimum of 129 credits are required; Grade 4-8 Mathematics Option a minimum of 129 credits are required; and Grade 4-8 Social Studies Option a minimum of 129 credits are required.

### Admission Requirements:

Applicants should have completed most of their first two years of college as well as the Entry to Major Requirements listed below with at least a 3.0 cumulative GPA (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg. Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

### Entry to Major Requirements:

Entry to the Elementary Education major requires the completion of 57 or more credits in required courses and the state's minimum cumulative GPA criteria of 3.0. Candidates must complete, with a grade of "C" or better, six (6) credits of college-level mathematics (MATH prefix), three (3) credits of college-level English literature and three (3) credits of college-level English composition. Candidates must submit scores on any entrance testing requirements established by the Pennsylvania Department of Education that are applicable at the time of application for entrance to major. Candidates who desire to pursue this major should plan their freshman and sophomore years carefully to ensure their successful progress during very structured junior and senior years. Semesters 5 through 8 are very structured.

### Selective Retention:

Monitoring candidate progress in the elementary education program will occur each semester while the candidate is participating in the elementary education program. Candidates will be evaluated for retention in the program based on (1) maintaining a cumulative GPA of 3.0 or higher; (2) performance on any test requirements set out by the Pennsylvania Department of Education in force at the time of application for entrance to major; (3) satisfactory completion of required courses, including the field experience component; (4) adequate writing and speaking skills as demonstrated in various classroom assignments; and (5) a positive rating on the Penn State Harrisburg Professional Dispositions for Teacher Education Programs monitoring form. Candidates must pass any entrance test requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(33 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education Course Requirements in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 117 credits<sup>[1]</sup>

(This includes 33 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3-6 credits of GH courses; 6 credits of GS courses; 6 credits of GWS)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 93 credits

#### PREScribed COURSES (75 credits)

GEOG 040 GS;IL(3), C I 280 GH(3), C I 295(2), EDPSY 014(3), EDTHP 115 US(3), ENGL 202A GWS(3), MATH 200 GQ(3) (Sem: 1-4)  
EDMTH 301(3), EDUC 302(3), EDUC 304(3), EDUC 305(3), EDUC 315 US(3), EDUC 352(3), EDUC 320(3), EDUC 495A(1) (Sem: 5-6)  
EDMTH 302(3), EDUC 303(3), EDUC 321(3), EDUC 353(3), EDUC 490(12), EDUC 495B(1), HLTH 306(2) (Sem: 7-8)

#### ADDITIONAL COURSES (6 credits)

Select 3 credits from: ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
Select 3 credits from: ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 1-4)

#### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 9 credits from GN courses from approved list: 3 credits each (including one with a lab) from biological science, earth science, and physical science. (Sem: 1-4)  
Select 3 credits from any MATH (GQ) (Sem:1-4)

#### REQUIREMENTS FOR THE OPTION: 24 credits

#### PK-4 EARLY CHILDHOOD EDUCATION OPTION: (24 credits)

#### PREScribed COURSES (18 credits)

HD FS 229 GS(3) (Sem:1-4)  
EDUC 402(3), EDUC 403(3), EDUC 404(3), EDUC 410(3), EDUC 421(3) (Sem: 5-7)

#### ADDITIONAL COURSES (6 credits)

Select 3 credits from: HIST 003 GH;US(3), HIST 012 GH;US(3), HIST 020 GH;US(3), or HIST 021 GH;US(3) (Sem: 1-4)  
Select 3 credits of literature from: CMLIT 001 GH;IL(3), CMLIT 002 GH;IL(3), CMLIT 003 GH;IL(3), CMLIT 004 GH;IL(3), CMLIT 005 GH;US;IL(3), CMLIT 006 GH;IL(3), CMLIT 010 GH;IL(3), CMLIT 011 GH;IL(3), CMLIT 100 GH;IL(3), CMLIT 101 GH;US;IL(3), CMLIT 105 GH;IL(3), CMLIT 106 GH;IL(3), CMLIT 107 GH;IL(3), CMLIT 108 GH;IL(3), CMLIT 110 GH;US;IL(3), CMLIT 111 GH;IL(3), CMLIT 141 GH;US;IL(3), CMLIT 184 GH;IL(3), CMLIT 185 GH;IL(3), CMLIT 189 GH;IL(3), ENGL 001 GH(3), ENGL 001W GH(3), ENGL 002 GH(3), ENGL 103 GH(3), ENGL 104 GH(3), ENGL 129 GH(3), ENGL 133 GH(3), ENGL 134 GH(3), ENGL 135 GH;US(3), ENGL 135S GH;US(3), ENGL 139 GH;US(3), ENGL 140 GH(3), ENGL 180 GH(3), ENGL 182A GH;US;IL(3), ENGL 182C GH;IL(3), ENGL 184 GH;IL(3), ENGL 184S GH(3), ENGL 185 GH;IL(3), ENGL 189 GH;IL(3), ENGL 191 GH(3), ENGL 194 GH;US;IL(3), ENGL 262 GH(3), ENGL 263 GH(3), ENGL 265 GH(3), ENGL 268 GH(3)

(Sem: 1-4)

**ENGLISH/LANGUAGE ARTS AND READING (4-8) OPTION:** (24 credits)**PRESCRIBED COURSES** (15 credits)

HD FS 239 GS(3) (Sem:1-4)

EDUC 321(3), EDUC 322(3), EDUC 416(3), ENGL 470(3) (Sem: 5-7)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from: HIST 003 GH;US(3), HIST 012 GH;US(3), HIST 020 GH;US(3), or HIST 021 GH;US(3) (Sem: 1-4)

Select 3 credits of British Literature: ENGL 221 GH(3), ENGL 222 GH(3), ENGL 440(3), ENGL 441(3), ENGL 442(3), ENGL 443(3), ENGL 444(3), ENGL 445(3), ENGL 446(3), ENGL 447(3), ENGL 448(3), ENGL 449 US;IL(3), ENGL 450(3), ENGL 451(3), ENGL 452(3), ENGL 453(3), ENGL 454(3), ENGL 455(3), ENGL 456(3), ENGL 457(3), or ENGL 458(3) (Sem: 1-6)

Select 3 credits of American Literature: ENGL 231 GH(3), ENGL 232 GH(3), ENGL 432(3), ENGL 433(3), ENGL 434(3), ENGL 435(3), ENGL 436(3), ENGL 437(3), ENGL 438(3), or ENGL 439(3) (Sem: 1-6)

**MATHEMATICS (4-8) OPTION:** (24 credits)**PRESCRIBED COURSES** (18 credits)

HD FS 239 GS(3), MATH 022 GQ(3), MATH 026 GQ(3), MATH 140 GQ(4), MATH 220 GQ(2) (Sem: 1-4)

EDUC 417(3) (Sem: 6-7)

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from: HIST 003 GH;US(3), HIST 012 GH;US(3), HIST 020 GH;US(3), or HIST 021 GH;US(3) (Sem: 1-4)

Select 3 credits of literature from: CMLIT 001 GH;IL(3), CMLIT 001H GH;IL(3), CMLIT 002 GH;IL(3), CMLIT 003 GH;IL(3), CMLIT 004 GH;IL(3), CMLIT 004H GH;IL(3), CMLIT 005 GH;US;IL(3), CMLIT 006 GH;IL(3), CMLIT 010 GH;IL(3), CMLIT 011 GH;IL(3), CMLIT 100 GH;IL(3), CMLIT 101 GH;US;IL(3), CMLIT 105 GH;IL(3), CMLIT 106 GH;IL(3), CMLIT 107 GH;IL(3), CMLIT 108 GH;IL(3), CMLIT 110 GH;US;IL(3), CMLIT 111 GH;IL(3), CMLIT 141 GH;US;IL(3), CMLIT 184 GH;IL(3), CMLIT 185 GH;IL(3), CMLIT 189 GH;IL(3), ENGL 001 GH(3), ENGL 001W GH(3), ENGL 002 GH(3), ENGL 103 GH(3), ENGL 104 GH(3), ENGL 129 GH(3), ENGL 129H GH(3), ENGL 133 GH(3), ENGL 134 GH(3), ENGL 135 GH;US(3), ENGL 135S GH;US(3), ENGL 139 GH;US(3), ENGL 140 GH(3), ENGL 180 GH(3), ENGL 182A GH;US;IL(3), ENGL 182C GH;IL(3), ENGL 184 GH;IL(3), ENGL 184S GH;IL(3), ENGL 185 GH;IL(3), ENGL 189 GH;IL(3), ENGL 191 GH(3), ENGL 194 GH;US;IL(3), ENGL 194H GH;US;IL(3), ENGL 262 GH(3), ENGL 263 GH(3), ENGL 265 GH(3), ENGL 268 GH(3) (Sem: 1-4)

**SOCIAL STUDIES (4-8) OPTION:** (24 credits)**PRESCRIBED COURSES** (21credits)

HD FS 239 GS(3), HIST 012 GH;US(3), HIST 020 GH;US(3), HIST 021 GH;US(3); HIST 320(3), PL SC 001 GS(3) (Sem:1-4)

EDUC 415(3) (Sem: 6-7)

**ADDITIONAL COURSES** (3 credits)

Select 3 credits of literature from: CMLIT 001 GH;IL(3), CMLIT 001H GH;IL(3), CMLIT 002 GH;IL(3), CMLIT 003 GH;IL(3), CMLIT 004 GH;IL(3), CMLIT 004H GH;IL(3), CMLIT 005 GH;US;IL(3), CMLIT 006 GH;IL(3), CMLIT 010 GH;IL(3), CMLIT 011 GH;IL(3), CMLIT 100 GH;IL(3), CMLIT 101 GH;US;IL(3), CMLIT 105 GH;IL(3), CMLIT 106 GH;IL(3), CMLIT 107 GH;IL(3), CMLIT 108 GH;IL(3), CMLIT 110 GH;US;IL(3), CMLIT 111 GH;IL(3), CMLIT 141 GH;US;IL(3), CMLIT 184 GH;IL(3), CMLIT 185 GH;IL(3), CMLIT 189 GH;IL(3), ENGL 001 GH(3), ENGL 001W GH(3), ENGL 002 GH(3), ENGL 103 GH(3), ENGL 104 GH(3), ENGL 129 GH(3), ENGL 129H GH(3), ENGL 133 GH(3), ENGL 134 GH(3), ENGL 135 GH;US(3), ENGL 135S GH;US(3), ENGL 139 GH;US(3), ENGL 140 GH(3), ENGL 180 GH(3), ENGL 182A GH;US;IL(3), ENGL 182C GH;IL(3), ENGL 184 GH;IL(3), ENGL 184S GH;IL(3), ENGL 185 GH;IL(3), ENGL 189 GH;IL(3), ENGL 191 GH(3), ENGL 194 GH;US;IL(3), ENGL 194H GH;US;IL(3), ENGL 262 GH(3), ENGL 263 GH(3), ENGL 265 GH(3), ENGL 268 GH(3) (Sem: 1-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

CL

## English

*Penn State Erie, The Behrend College (ELISH)*

This major offers courses in literary and cultural studies, and in various forms of writing. Students majoring in English may select the Literature or the Professional Writing Option. Both options share a common core of 13 credits and provide a sound foundation in the liberal arts and opportunities to develop creative and analytical skills. Students in the Literature Option select courses from three separate areas--The Canon and Its Critics, Cultural Studies, and Globality and Literature--and develop a broad understanding of the ways in which literature works in various critical and cultural contexts. Students in the Professional Writing Option follow a sequence of courses designed to develop and enhance writing skills in areas directly relevant to business and technical applications.

For the B.A. degree in English, a minimum of 120 credits is required. Each student must earn at least a grade of C or above in all courses required under Common Requirements, Prescribed, Additional, and Supporting courses.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 6 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin)

**REQUIREMENTS FOR THE MAJOR:** 45-48 credits

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 15 credits

**PRESCRIBED COURSES** (12 credits)  
ENGL 200(3) (Sem: 3-4)  
ENGL 312(3), ENGL 403(3) (Sem: 3-6)  
ENGL 482W(3) (Sem: 6-8)

**ADDITIONAL COURSES** (3 credits)  
ENGL 443(3) or ENGL 444(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 30-33 credits

**LITERATURE, FILM, AND CULTURE OPTION:** 30-33 credits

**PRESCRIBED COURSES** (12-15 credits)  
CMLIT 453(3), ENGL 420(3), PHIL 409(3) (Sem: 4-8)  
ENGL 494(3-6)\* (Sem: 7-8)

\*If the 6-credit option is selected, 3 credits count toward the 400-level Additional Courses requirement.

**ADDITIONAL COURSES** (15 credits)  
Select 3 credits from COMM 150 GA(3) or INART 005 GA(3) or INART 110 GA(3) (Sem: 1-8)  
Select 6 credits at the 200 level or below from CMLIT or ENGL (except ENGL 050) (Sem: 1-8)  
Select 6 credits at the 400 level CMLIT or ENGL courses (except 400-level creative writing workshops) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)  
Select 3 credits from the following: ENGL 477(3), ENGL/WMNST 489(3), ENGL/WMNST 490 US;IL(3), ENGL 492/WMNST 491(3) (Sem: 5-8)

**REQUIREMENTS FOR THE PROFESSIONAL WRITING OPTION:** 30 credits

**PRESCRIBED COURSES** (12 credits)  
ENGL 100(3), ENGL 215(3), (Sem: 1-4)  
ENGL 417(3) (Sem: 5-8)  
ENGL 495(3) (Sem: 7-8)

**ADDITIONAL COURSES** (15 credits)  
ENGL 418(3) or ENGL 419(3) (Sem: 5-8)  
Select 12 credits from the following list, with at least 9 credits at the 400 level:  
COMM 260W(3); COMM 315(3), ENGL 262 GH(3) or ENGL 263 GH(3) or ENGL 265 GH(3);  
ENGL 415(3), ENGL 420(3), ENGL 425(3), ENGL 439(3), ENGL 479(1-3) (Sem: 3-8)

**SUPPORTING COURSES** (3 credits)  
COMM 001(1-3), COMM 002(1-3), COMM 320(3), COMM 370(3), COMM 406(3), COMM 460W(3), COMM 471(3), MKTG 301(3) (Sem: 5-8)

## Electro-Mechanical Engineering Technology

Altoona College

Berks College

University College: Penn State New Kensington, Penn State York (EMET)

PROFESSOR SVEN BILÉN, Head, School of Engineering Design, Technology, and Professional Programs, College of Engineering, University Park  
 PROFESSOR IVAN E. ESPARRAGOZA, Director of Engineering Technology and Commonwealth Engineering, Penn State Brandywine  
 PROFESSOR IRENE FERRARA, Program Coordinator, Penn State Altoona  
 PROFESSOR TERRY SPEICHER, Program Coordinator, Penn State Berks  
 PROFESSOR RONALD LAND, Program Coordinator, Penn State New Kensington  
 PROFESSOR CHARLES GASTON, Program Coordinator, Penn State York

The Electro-Mechanical Engineering Technology (B.S. EMET) degree program provides the basic undergraduate education required for a career as an electro-mechanical engineering technologist. The program emphasizes a breadth of knowledge in all fields of engineering technology related to typical, highly-automated manufacturing, production, or assembly plant processes. Basic coverage is provided in all major areas to technology involved in the operation and control of manufacturing and production processes, including instrumentation and monitoring methods, principles of machine design, automated control techniques, thermal and fluid sciences, computerized manufacturing systems, principles of electrical and electronic circuit operation, computer-aided drafting and design, economics of production, and statistical analysis and quality control.

The primary aim of the EMET program is to provide graduates with the knowledge and skills necessary to apply current methods and technology to the development, design, operation, and management of electro-mechanical systems, particularly in those industries where automated systems are prevalent.

### Program Educational Objectives:

Specific educational objectives of the program expect that graduates of the program, within five years of graduation will be:

1. Capable of and actively involved in the specification, procurement, or integration of electromechanical systems
2. Capable of and actively involved in the operation, testing, or maintenance of electromechanical systems
3. Capable of and actively participating in project team activities
4. Capable of and actively involved in the preparation and delivery of technical documentation and communication

### Program Outcomes (Student Outcomes):

At graduation, EMET students should have:

- a) An ability to select and apply the knowledge, techniques, skills, and modern tools of their disciplines to broadly-defined engineering technology activities,
- b) An ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies,
- c) An ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes,
- d) An ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives,
- e) An ability to function effectively as a member or leader on a technical team,
- f) An ability to identify, analyze, and solve broadly-defined engineering technology problems,
- g) An ability to communicate effectively regarding broadly-defined engineering technology activities,
- h) An understanding of the need for and an ability to engage in self-directed continuing professional development,
- i) An understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity,
- j) A knowledge of the impact of engineering technology solutions in a societal and global context, and
- k) A commitment to quality, timeliness, and continuous improvement.

In addition, EMET graduates must demonstrate the knowledge and technical competency to:

- a) Use computer-aided drafting or design tools to prepare graphical representations of electromechanical systems.
- b) Use circuit analysis, analog and digital electronics, basic instrumentation, and computers to aid in the characterization, analysis, and troubleshooting of electromechanical systems.
- c) Use statics, dynamics (or applied mechanics), strength of materials, engineering materials, engineering standards and manufacturing processes to aid in the characterization, analysis, and troubleshooting of electromechanical systems.
- d) Use appropriate computer programming languages for operating electromechanical systems.
- e) Use electrical/electronic devices such as amplifiers, motors, relays, power systems, and computer and instrumentation systems for applied design, operation, or troubleshooting electromechanical systems.
- f) Use advanced topics in engineering mechanics, engineering materials, and fluid mechanics for applied design, operation, or troubleshooting of electromechanical systems.
- g) Use basic knowledge of control systems for the applied design, operation, or troubleshooting of electromechanical systems.
- h) Use differential and integral calculus, as a minimum, to characterize the static and dynamic performance of electromechanical systems.
- i) Use appropriate management techniques in the investigation, analysis, and design of electromechanical systems.

The major is organized as a four-year baccalaureate program with the corresponding Penn State admission requirements. Graduates of an associate degree in either electrical or mechanical engineering technology from Penn State may re-enroll in the EMET program. The College of Engineering ENGR students may enroll through "Change of Major" procedures. Students from an engineering technology program at another institution or community college accredited by TAC of ABET may transfer into the program with advanced standing.

For the B.S. degree in Electro-Mechanical Engineering Technology, a minimum of 130 credits is required. This program is accredited at Penn State Altoona, Penn State Berks, Penn State New Kensington, and Penn State York of the University College by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR) (See description of General Education in front of Bulletin.)

### FIRST-YEAR EXPERIENCE:

(Satisfied by the FYE program at the campus at which the student is enrolled in the EMET program)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 109-114 credits

(This includes 24 credits of General Education courses: 6 credits of GQ courses; 9 credits of GN courses; 6 credits of GWS courses; 3 credits of GH or GS courses.)

### PRESCRIBED COURSES (73 credits)

CMPET 117(3)[1], CMPET 120(1)[1], EDSGN 100(3), EET 105(3), IET 101(3), MCH T 111(3)[1] (Sem: 1-2)  
 EET 114(4)[1], EET 118(1)[1], EET 275(3), EG T 114(2), EMET 222(4)[1], ENGL 202C GWS(3), IET 215(2), IET 216(2), MCH T 214(1)[1] (Sem: 3-4)  
 CMPET 211(3), EET 212W(4)[1], EMET 230(3)[1], EMET 325(3), EMET 326(3), EMET 330(3)[1], EMET 350(3) (Sem: 5-6)  
 EMET 403(1), EMET 405(3), EMET 410(4), EMET 440(3), IET 333(2) (Sem: 7-8)

**ADDITIONAL COURSES (27-31 credits)**

Select 5-6 credits from MATH 040 GQ(5)[1]; or [MATH 022 GQ(3)[1] and MATH 026 GQ(3)[1]; or [MATH 081 GQ(3)[1] and MATH 082 GQ(3)[1] \* (Sem: 1-2)

Select 3 credits of GH or GS from: S T S 200 GS(3), S T S 233 GH(3), or S T S 245 GS;IL(3) (Sem: 2-8)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

Select 4 credits from MATH 083 GQ(4)[1]\*\* or MATH 140 GQ(4)[1] (Sem: 3-4)

Select 3-4 credits from MATH 210 GQ(3)[1] or MATH 141 GQ(4)[1] (Sem: 3-4)

Select 3 credits from MATH 211 GQ(3)[1] or MATH 250(3)\*\*\* (Sem: 4-5)

Select 6-8 credits of GN courses from two of the following groups: PHYS 150 GN(3) or PHYS 211 GN(4) or PHYS 250 GN(4); PHYS 151 GN(3) or PHYS 212 GN(4) or PHYS 251 GN(4); CHEM 110 GN(3) and CHEM 111 GN(1) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS (9-10 credits)**

Select 3-4 credits of science courses, in consultation with an adviser, from the approved department list (Sem: 4-6)

Select 6 credits of General Technical Elective courses, in consultation with an adviser, from the approved department list (Sem: 7-8)\_

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

\*students taking MATH 081 GQ(3) and MATH 082 GQ(3) must take MATH 083 GQ(4)

\*\*students taking MATH 083(4) must take MATH 210(3) and MATH 211(3)

\*\*\*Note that MATH 250 does not carry a C-requirement

## Energy Engineering

University Park, College of Earth and Mineral Sciences (ENENG)

PROFESSOR SARMA V. PISUPATI, Undergraduate Program Chair

The undergraduate program in energy engineering is designed to reflect the growing impact and demand for energy in society and to equip students with the knowledge necessary to achieve the following career and professional goals: become valuable contributors in addressing society's energy needs and demands; successful leaders in advancing the technology and management of energy; innovators and entrepreneurs in the energy sector; and educators, practicing engineers, and national leaders on energy and associated environmental, health and safety, and policy and economics issues. The program integrates skill sets in the physical sciences (chemistry, engineering, mathematics, and physics) and social sciences (economics, policy, and management) to ensure successful career opportunities and growth within energy-related industries, government agencies, and academia.

The courses are structured to enable students to understand engineering fundamentals and apply the knowledge to solve problems in the production, processing, storage, distribution, and utilization of energy using multiple techniques as synthesis, analysis, design and case studies. Inquiry-based teaching methods and lab experiences are emphasized. The faculty research and scholarly activities are integrated into the curriculum. The program is designed to train students to be lifelong learners, problem solvers, and energy industry leaders. The educational opportunities are sufficiently flexible, broad, and diverse to enable students to tailor their educational experience to particular interests, background, and expected role in society. Flexibility in the curriculum allows other students in energy related programs such as agricultural and biological, chemical, civil, electrical, environmental, mechanical, mining, nuclear, and petroleum engineering, materials science and engineering, industrial health and safety, and energy business and finance to have dual or concurrent degrees, minors, or options (e.g., energy and fuels engineering option in chemical engineering).

The integration of knowledge and skills acquired during the course of study in the Energy Engineering program provides graduates with the following student outcomes:

1. An ability to apply knowledge of mathematics, science, and engineering
2. An ability to design and conduct experiments, as well as to analyze and interpret data
3. An ability to design a system, component, or process to meet desired needs
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global and societal context
9. A recognition of the need for and an ability to engage in life-long learning
10. A knowledge of contemporary issues
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### Energy Engineering Program Educational Objectives

Our graduates will be:

1. Employed in the public or private sectors in the areas of energy science, energy engineering or energy business management, or pursuing an advanced degree.
2. Contributing to development of solutions to society's current energy needs by integrating key science and engineering principles while being adaptable to changing organizational and societal needs;
3. Engaged in individual projects and multi-disciplinary teams designing, evaluating, and recommending methods and strategies for the efficient production, processing and utilization of renewable or non-renewable energy and addressing the associated environmental challenges;
4. Effectively communicating with management, coworkers, customers, clients and others in diverse environments;
5. Engaged in life-long learning process to maintain professional competency through training, participation in professional activities and leadership.

### Entrance to Major Requirements:

In addition to the minimum grade point average (GPA) requirements described in the University Policies, the Energy Engineering entrance-to-major requirement must also be completed with a minimum grade of C: MATH 140 GQ(4)[1].

### Integrated B.S. in Energy Engineering (ENENG) and M.S. in Energy and Mineral Engineering (EME)

The integrated undergraduate-graduate (IUG) program between the Energy Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused ENENG undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. Students should refer to the Energy and Mineral Engineering graduate program in the Graduate Program Bulletin for the IUG admission and degree requirements. ([http://bulletins.psu.edu/bulletins/whitebook/graduate\\_degree\\_programs.cfm?letter=E&program=grad\\_eme.htm](http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=E&program=grad_eme.htm))

For the B.S. in Energy Engineering, a minimum of 131 credits is required. This baccalaureate program in Energy Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

#### GENERAL EDUCATION: 45 credits

(30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

#### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

#### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

#### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

#### REQUIREMENTS FOR THE MAJOR: 116 credits

(This includes 30 credits of General Education courses: 3 credits of GH courses; 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

#### PRESCRIBED COURSES (84 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), EM SC 100S GWS(3)[88], MATH 140 GQ(4)[11], MATH 141 GQ(4), PHYS 211 GN(4) (Sem: 1-2)  
E E 211(3), MATH 231(2), MATH 251(4), PHIL 103 GH(3), PHYS 212 GN(4) (Sem: 3-4)  
EGEE 012(1), EGEE 302(3)[11], EGEE 304(3)[11], EGEE 411(3)[11], EGEE 430(3)[11], EGEE 438(3)[11], EME 301(3)[11], EME 303(3)[11], F SC 431(3), MATSE 201(3) (Sem: 5-6)  
ENGL 202C GWS(3), EGEE 437(3)[11], EGEE 441(3)[11], EGEE 451(3)[11], EGEE 464W(3)[11], F SC 432(3) (Sem: 7-8)

#### ADDITIONAL COURSES (17 credits)

E B F 200 GS(3) or ECON 102 GS(3) or ECON 014 GS(3) (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
CHEM 202(3) or CHEM 210(3) (Sem: 3-4)  
CMPSC 200 GQ(3) or CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 3-4)  
EME 460(3) or I E 302(3) (Sem: 7-8)  
EGEE 494(2)[11] or EGEE 295/395/495(2)[11] (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (15 credits)**

Select 3 credits of EGEE electives from an approved list in consultation with an adviser.

Select 6 credits of professional courses from an approved list in consultation with an adviser. Other substitutions outside the approved list must be approved by petition.

Select 6 credits of technical electives from a broad list of energy related courses across colleges at Penn State. A list of suggested courses from energy-related departments at Penn State is provided. (Students may apply 6 credits of ROTC to some of the elective choices.) (Sem: 7-8)

**Course Substitutions for the Integrated B.S. in Energy Engineering (ENENG) and M.S. in Energy and Mineral Engineering (EME)**

As many as twelve of the credits required for the master's degree may be applied to both the B.S. and M.S. degrees. A minimum of six credits counted for both the B.S. and M.S. degrees must be at the 500-level. Thesis and culminating/capstone experience credits may not be double counted. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[88]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS can be substituted for EM SC 100S GWS.

## English

*Capital College (ENGCL)*

PROFESSOR MATTHEW WILSON, *Program Coordinator, School of Humanities*

This English major, with its two options, offers students the unique opportunity to study literature in an interdisciplinary context where the relationships among literature and art, history, music, philosophy, media, and American Studies can be investigated. The major offers courses in American, British, and world literatures, emphasizing their cultural and historical contexts as well as teaching students to interpret them from a variety of critical perspectives. Small classes in both creative and expository writing encourage students to develop their writing skills by working closely with faculty.

For a B. HUM. degree in English, a minimum of 120 credits is required. For the B. HUM. degree in English with Secondary Education Option, a minimum of 122 credits is required.

**GENERAL ENGLISH OPTION:** With its emphases on interpretive skills, creativity, and writing, the General English Option provides a foundation for careers in such fields as publishing, public relations, communication, government and law, as well as a strong basis for graduate education.

### Entry to Major Requirements:

Entry to the English major requires: 1) a 2.00 or higher cumulative grade-point average; and 2) satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major.

**SECONDARY EDUCATION OPTION:** The Secondary Education Option enables the graduate to meet all the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

### Entry to English Major, Secondary Education option requires the following additional requirements:

1. A minimum grade point average of 3.0.
2. Completion of ENGL 015 GWS(3) or ENGL 030 GWS(3) and three credits of literature from approved list with a C or higher grade.
3. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade.
4. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major.

### Selective Retention (Secondary Education Option):

Following entrance to the major, STUDENTS will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

To be eligible to student teach, STUDENTS must:

1. maintain a cumulative GPA of 3.0 or higher;
2. complete with a C or higher grade all required Content and Education Courses;
3. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. submit and pass the Writing Proficiency Portfolio that demonstrates their proficiency as writers (see English Program Coordinator for specific instructions and deadlines);
5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

In order to successfully complete the Secondary Education option, STUDENTS must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete with a grade of C or higher, all required Content and Education Courses;
4. complete a presentation portfolio; and
5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

\*FOR MORE DETAILED INFORMATION SEE THE SECONDARY EDUCATION HANDBOOK.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(6-15 of these credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-18 credits

### BACHELOR OF HUMANITIES DEGREE REQUIREMENTS: 18 credits

(See description of Bachelor of Humanities Degree Requirements in *Bulletin*.)

### REQUIREMENTS FOR THE MAJOR: 45-65 credits

(This includes 6-15 of General Education courses: General English Option, 6 credits of General Education Arts (GA) and/or Social and Behavioral Science (GS) courses; Secondary Education Option, 6 credits of General Education Quantification (GQ) courses, 3 credits of General Education Social Sciences (GS) courses, and 6 credits of General Humanities (GH) courses.)

*At least 15 credits of Prescribed, Additional, and/or Supporting courses must be taken at the 400 level.*

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 21 credits

#### PREScribed COURSES (6 credits) [\[11\]](#)

ENGL 200W(3) (Sem: 5-6)  
ENGL 444(3) (Sem: 7-8)

#### ADDITIONAL COURSES (3 credits)

Select 3 credits from the following: ENGL 221 GH(3), ENGL 221W(3), ENGL 222 GH(3), ENGL 222W(3), ENGL 231 GH(3), ENGL 231W(3), ENGL 232 GH(3), ENGL 232W(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits) (At least 9 credits must be at the 300-400 level)

Select 3 credits in American ethnic literature or African-American literature from department list (Sem: 3-8)

Select 3 credits in world literature or comparative literature from department list (Sem: 3-8)

Select 3 credits in American literature at the 300 or 400 level from department list (Sem: 5-8)[\[1\]](#)Select 3 credits in British literature at the 300 or 400 level from department list (Sem: 5-8)[\[1\]](#)**REQUIREMENTS FOR THE OPTION:** 24-53 credits**GENERAL ENGLISH OPTION:** (24 credits)**ADDITIONAL COURSES** (6 credits)Select 3 credits from the following: ENGL 050 GA(3), ENGL 210(3), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 250(3), ENGL 412(3), ENGL 413(3), ENGL 415(3), ENGL 416(3), ENGL 417(3), ENGL 418(3), ENGL 419(3), ENGL 420(3), ENGL 421(3), ENGL 422(3), ENGL 423(3), ENGL 425(3), ENGL 470(3), ENGL 491(3) (Sem: 3-~~8~~[1](#))

Select 3 credits from the following ENGL 100(3), ENGL 191 GH(3), ENGL 196 GH:US:IL(3), ENGL 261(3), ENGL 262 GH(3), ENGL 263 GH(3), ENGL 265 GH(3), ENGL 268 GH(3), ENGL 400(3), ENGL 401(3), ENGL 407(3), ENGL 458(3), ENGL 482(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 12 credits in Literature, Writing, and/or Rhetoric (Sem: 3-8)

Select 6 credits from General Education Arts (GA) and/or Social and Behavioral Sciences (GS) (Sem: 3-8)

**SECONDARY EDUCATION OPTION:** (53 credits)**PRESCRIBED COURSES** (44 credits)

HD FS 239 GS(3) (Sem: 1-2)

EDPSY 014(3) (Sem: 1-3)

C I 280 GH(3) (Sem: 3-4)

EDUC 313(2), EDUC 314(3), EDUC 315W US(3), EDUC 322(3), EDUC 416(3), EDUC 458(3), EDUC 490(12) (Sem: 5-8)

EDUC 459(3), ENGL 470(3) (Sem: 6-7)[\[1\]](#)**ADDITIONAL COURSES** (9 credits)

Select 6 credits of General Education Quantification courses (GQ) with a MATH or STAT prefix (Sem: 1-4)

Select 3 credits of GH literature from department list (Sem: 1-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

# English

Abington College (ENGAB)

Altoona College (ENGAL)

University College (ENGCC): Penn State Brandywine, Penn State Greater Allegheny, Penn State Wilkes-Barre, Penn State Worthington Scranton, Penn State York  
University Park, College of the Liberal Arts (ENGL)

PROFESSOR Mark Morrisson, *Department Head*

Majors explore the imaginative and practical uses of English through courses in literature, writing, rhetoric, and language. They develop perspectives on human nature and cultural values through American, British, and other English literatures; they learn how to gather, analyze, synthesize, and communicate information; they gain mastery over their language. These skills help English majors find careers in such fields as publishing, business, industry, government, and teaching. English majors often go on to postgraduate study not only in English but in such areas as law, business, education, or other liberal disciplines.

Majors can emphasize writing, literature, or rhetoric, or a mix of literature, writing, and rhetoric. All provide a liberal education and all develop analytic and writing skills. Qualified students may participate in the career internship and in the English honors program.

Students interested in earning certification in secondary education should contact the College of Education, Department of Curriculum and Instruction. (See also Teacher Education Programs.)

For the B.A. degree in English, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in front of *Bulletin*.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**ADDITIONAL COURSES** (18 credits)

Select 3 credits from ENGL 200(3) or ENGL 201 GH(3) (Sem: 1-6)

Select 3 credits of a 300/400-level course in each of the following areas:

Medieval through Sixteenth Century (Sem: 1-8)

Sixteenth Century through Eighteenth Century (Sem: 1-8)

The Nineteenth Century (Sem: 1-8)

Twentieth Century to the Present (Sem: 1-8)

Select 3 credits from ENGL 310H(3) or ENGL 487W(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

In consultation with adviser, select 18 credits in literature, writing, or rhetoric (Sem: 1-8)

(At least 9 credits must be at the 300/400 level)

At least 3 of the 300/400 level credits must fulfill a departmental diversity requirement for a course related to race, gender, sexuality, disability, ethnicity, and/or postcolonial issues).

## Integrated B.A./M.A. Program in English

The BA in English requires a minimum of 123 credits, with 36 of those credits required for the English major-3 credits of English 200, 3 credits of English 201, 3 credits of English 221, 18 credits of English 300 level or above, 3 credits of pre-1800 300 level or above, 3 credits of post-1800 race, ethnic, or minority literatures 300 level or above, 3 credits of English 487W, senior seminar.

The B.A./M.A. consists of these 36 English credits of the B.A., plus an additional 24 English credits of M.A. work distributed as follows: 12 credits of English 512, 513, or 515. English 512, 513, and 515 can be repeated for credit. In addition, students will take 6 credits of a graduate-level literature and 6 credits of M.A. Master's paper, 596, to support work on a major project that will be the centerpiece of each student's culminating Master's paper. In the Master's paper, students receiving an M.A. in English with a creative writing concentration will append their Master's paper with a bibliographic essay referencing primary and/or secondary sources generated by their research for the paper. The essay can discuss the range of research modalities, including contextual background in the work itself as well as contemporary and historic literature that has influenced the style and form of the Master's paper. Sources consulted for contextual background can include library and database materials, historical research, oral history, interviews, and other bibliographic tools. 12 credits, 6 at the 400 level (412/413/415) and 6 at the 500 level (512/513/515), will be double counted between the B.A. and the M.A. The IUG B.A./M.A. consists of a total of 60 English credits.

A minimum of 141 credits are required to complete the IUG B.A./M.A. in English.

### Time of Admission to the Program

Students shall be admitted to the English IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study.

Application to the English IUG would typically occur in the junior year after a student has completed 60 credits, enrolled in the English major, and completed two English courses in creative writing.

### Admission Requirements

Admission to the integrated B.A./M.A. program will be based on the submission of a portfolio of creative work and a plan of study to the department's Director of Graduate Studies and the Director of the B.A./M.A. program. Applications typically will be filed during the 5th or 6th semesters of study, and applicants must have achieved a minimum of 60 credits and a 3.3 overall GPA and 3.6 GPA in English to begin the program. The English Director of Graduate Studies will ensure that the applicant meets the minimum credit and GPA requirements for the program. The Director of the B.A./M.A. program will evaluate

the quality of the student's creative work and the applicant's plan for fulfilling the requirements of the M.A. in English. The Director of the B.A./M.A. program, in consultation with the Creative Writing faculty, will have final approval for what constitutes an acceptable level of creative work and an acceptable plan for the completion of the M.A.

The application procedure requires submission of the following:

- A. Support Letters from Faculty and Administrators (addressed to the department's Director of Graduate Studies and the Director of the B.A./M.A. program)
- B. A Personal Statement
- C. Portfolio of Creative Work
- D. A Plan of Study
- E. A transcript and degree audit printed from e-Lion
- F. A current resume or curriculum vita
- G. A copy of the completed on-line Graduate School Application (GRE scores are not required).

#### **Plan of Study and Advising**

Prior to the application process, students should communicate their intent to enroll in the IUG to the English B.A. adviser and the Director of the B.A./M.A. program. The Director of the B.A./M.A. will help each student identify an appropriate series of English courses to properly prepare each student for the 500-level M.A. workshops and 500-level literature courses.

Students will be expected to maintain a minimum overall GPA of 3.3 for all undergraduate coursework and a GPA of 3.6 in English (ENGL) courses throughout the IUG program of study. Failure to do so will result in the student being advised that he/she must regain a GPA of 3.3 within one semester. If the GPA is not 3.3 or higher in general undergraduate coursework and 3.6 or higher in English coursework after that term, the student will be dropped from the IUG.

Each student enrolled in the B.A./M.A. will meet at the beginning of each term with the Director of the B.A./M.A. to discuss his or her progress through the M.A. degree and to make sure that he or she is following the plan established upon his or her admission to the B.A./M.A. program.

If the student decides not to continue on in the IUG, the student may, contingent on fulfilling all other requirements for the BA in English, graduate with a B.A. in English.

#### **Sequence of Courses**

The IUG B.A./M.A. consists of a total of 60 English credits. A minimum of 141 credits are required to complete the IUG B.A./M.A. in English.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Environmental Studies

Altoona College (ENVBS)

Professor Darin Zimmerman, *Head*

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of the natural environment and human interactions with it. Students will receive a strong foundation in the natural and physical sciences, but will extend their studies across several disciplines, emphasizing both public policy issues and the role of the natural environment in literature, history, and culture. The goal of the program is "ecological literacy," which means that students will develop a broad-based understanding and awareness of environments and environmental issues, and they will develop the problem-solving and technical skills to address those issues. Program requirements include interdisciplinary courses in environmental studies and a broad array of courses in biology, geology, chemistry, physics, geography, economics, political science, English, history, and philosophy. By selecting appropriate electives to supplement the "additional courses" requirement of the major, students may develop an emphasis in either a specific field (i.e., biology) or in a general area of study (natural science, social science, and humanities).

The B.S. in Environmental Studies will better prepare our graduates for graduate studies and/or employment in the sciences (e.g., ecology, geosciences, environmental sciences, and physical geography). Many graduate programs require at least one semester of calculus, chemistry, and physics. Furthermore, the requirements of additional 400-level courses in the sciences will permit students to target their undergraduate studies in a particular area of science so that they are best prepared for graduate work in their area of choice and/or employment.

### Entrance to Major Requirements:

For entrance into the Environmental Studies B.S. program, students must have completed the following course ENVST 100(3) and have received a grade of C or better in the course.

For the B.S. degree in Environmental Studies, a minimum of 121 credits is required.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selections or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 12 credits

### REQUIREMENTS FOR THE MAJOR: 88-90 credits

(This includes 24 credits of General Education courses as follows: 3 credits of GH courses; 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GS courses.)

### PRESCRIBED COURSES (56 credits)

BIOL 110 GN(4) [\[1\]](#), BIOL 220W GN(4) [\[1\]](#), CHEM 020(3) [\[1\]](#), CHEM 021(1) [\[1\]](#), ENGL 180 GH(3) [\[1\]](#), ENVST 100 GS(3) [\[1\]](#) (Sem: 1-2)  
CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1) [\[1\]](#), ENVST 200(3) [\[1\]](#), GEOSC 001(3) [\[1\]](#), PHYS 250 GN(4) [\[1\]](#), SOILS 101 GN(3) [\[1\]](#) (Sem: 3-4)  
CHEM 202(3) [\[1\]](#), ECON 428(3) [\[1\]](#), GEOG 115 GN(3) [\[1\]](#), GEOG 160 GS(3) [\[1\]](#), HIST 453(3) [\[1\]](#), PHIL 403(3) [\[1\]](#) (Sem: 5-6)  
ENVST 400W(3) [\[1\]](#) (Sem: 7-8)

### ADDITIONAL COURSES (20-22 credits)

ECON 102 GS(3) [\[1\]](#) or ECON 104 GS(3) [\[1\]](#) (Sem: 1-2)  
MATH 110 GQ(4) [\[1\]](#) or MATH 140 GQ(4) [\[1\]](#) (Sem: 3-4)  
BIOL 222(3) [\[1\]](#) or BIOL 230W GN(4) [\[1\]](#) or BIOL 240W GN(4) [\[1\]](#) (Sem: 3-4)  
PL SC 135 GS(3) [\[1\]](#) or PL SC 425(3) [\[1\]](#) (Sem: 5-6)  
STAT 200 GQ(4) [\[1\]](#) or STAT 250 GQ(3) [\[1\]](#) (Sem: 3-6)  
Select ENVST 395(3) [\[1\]](#) and INTSP 370(1) [\[1\]](#); or ENVST 496(4) [\[1\]](#); or ENVST 296(1) [\[1\]](#) and ENVST 496(3) [\[1\]](#) (Sem: 7-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits from the three departmental lists (6 in natural science department list, 3 in social science department list, and 3 in arts and humanities department list in consultation with an academic adviser.)  
At least nine credits must be at the 400-level.

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Environmental Science

*Penn State Erie, The Behrend College (ENVSC)*

A.M. FOYLE, *in charge*

The B.S. in Environmental Science (ENVSC) employs the principles, processes, and methodologies of the life and physical sciences to develop an integrated understanding of the environment and the effects associated with human use of the Earth's natural resources. Students will work in interdisciplinary teams in a capstone course and in environmental research/internship projects attuned to Great Lakes, water resources, and energy resources issues. Students choosing the Environmental Field Science option will obtain additional strengths in field biology, geographic information systems, and environmental geoscience and field methods. Those choosing the Environmental Lab Science option will obtain additional strengths in analytical chemistry and environmental geochemistry. The curriculum permits additional specialization in allied areas through completion of minors in chemistry, biology, or statistics.

For the B.S. degree in Environmental Science, a minimum of 121 credits is required, with at least 15 credits at the 400 level. Each student must earn at least a grade of C in each 300- and 400-level prescribed, additional, and supporting course.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### **WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

### **ELECTIVES** 0-1 credits

### **REQUIREMENTS FOR THE MAJOR:** 102-103 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GH courses; 3 credits of GWS courses)

### **COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 69-70 credits

#### **PRESCRIBED COURSES** (40 credits)

BIOL 110 GN(4)[1], BIOL 220W GN(4), CHEM 110 GN(3)[1], CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4)[1] (Sem: 1-2)  
CHEM 202(3), ENGL 202C GWS(3), GEOG 160 GS(3), GEOG 161(1), MATH 141 GQ(4) (Sem: 3-4)  
BIOL 402W(3), ENVSC 400W(3) (Sem: 5-8)

#### **ADDITIONAL COURSES** (23-24 credits)

CIVCM 211 GS(3) or SUST 200 GS(3) or PL SC 001 GS(3) (Sem: 1-2)  
SCM 200 GQ(4) or STAT 200 GQ(4) or STAT 250 GQ(3) (Sem: 3-4)  
EARTH 002 GN(3) or GEOG 010 GN(3) or GEOSC 001(3) (Sem: 3-5)  
PHIL 103 GH(3) or PHIL 119 GH(3) or PHIL 132 GH(3) or S T S 245 GS;IL(3) (Sem: 4-5)  
PHYS 211 GN(4)[1] and PHYS 212 GN(4); or PHYS 250 GN(4)[1] and PHYS 251 GN(4) (Sem: 5-6)  
ECON 102 GS(3) or ECON 104 GS(3) or GEOG 030 GS(3) or GEOG 126 GS(3) (Sem: 6-7)

#### **SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 3 credits from BIOL, ENVSC, GEOG, GEOSC 494 (Research), 495 (Internship), or 496 (Independent Studies) (consult with advisor)[81] (Sem: 5-6)  
Select 3 credits from the Natural & Physical Sciences program list[81] (Sem: 7-8)

### **REQUIREMENTS FOR THE OPTION:** 33 credits

#### **ENVIRONMENTAL FIELD SCIENCE OPTION:** (33 credits)

##### **PRESCRIBED COURSES** (12 credits)

BIOL 435(3), GEOG 363(3), GEOSC 303(3), GEOSC 452(3) (Sem: 5-8)

##### **ADDITIONAL COURSES** (9 credits)

CHEM 301(3) or EGEE 101 GN(3) or EGEE 102 GN(3) or S T S 420(3) (Sem: 5-6)  
GEOSC 451(3) or GEOSC 454(3) (Sem: 7-8)  
Select 3 credits from any Biology 400-level field/lab course [1] or GEOSC 412(3) or GEOSC 418(3) (Sem: 7-8)

##### **SUPPORTING COURSES AND RELATED AREAS** (12 credits) [81]

Choose 12 credits from the Natural & Physical Sciences and/or the Social Sciences, Arts & Humanities program lists with not more than 6 credits from the latter list. (Students may apply 6 credits of basic ROTC.) (Sem: 4-8)

#### **ENVIRONMENTAL LAB SCIENCE OPTION:** (33 credits)

##### **PRESCRIBED COURSES** (15 credits)

MICRB 201(3), MICRB 202(2) (Sem: 4-6)  
CHEM 203(3), CHEM 221(4), CHEM 301(3)[1] (Sem: 5-7)

##### **ADDITIONAL COURSES** (6 credits)

GEOSC 412(3) or GEOSC 418(3) or GEOSC 419(3) (Sem: 6-7)  
GEOSC 451(3) or GEOSC 452(3) or S T S 420(3) (Sem: 7-8)

##### **SUPPORTING COURSES AND RELATED AREAS** (12 credits) [81]

Choose 9 credits from the Natural & Physical Sciences and/or the Social Sciences, Arts & Humanities program lists with not more than 6 credits from the latter list. (Students may apply 6 credits of basic ROTC.) (Sem: 4-8)

Choose 3 credits at the 400-level from the Natural & Physical Sciences program list.(Sem 7-8)

[1] A student enrolled in this major must receive a grade of C or better in this course, as specified in Senate Policy 82-44.

[81] A maximum of 9 credits of Research (494), Internship (495), or Independent Study (496) may be applied toward credits for graduation in all options.

## Environmental Systems Engineering

University Park, College of Earth and Mineral Sciences (ENVSE)

PROFESSOR M. THADDEUS ITYOKUMBUL, Undergraduate Program Officer

It is an interdisciplinary program with two options. One option is Environmental Systems Engineering and it is concerned with the impact of industrial activities on the environment and the choice of cost-effective remediation strategies. The other option is Environmental Health and Safety Engineering and it is concerned with safe and healthful design of industrial systems such that workers are protected from potentially high risk exposures associated with today's industries. The program is unique as it is designed to address critical environmental, safety and health problems of the basic industries such as those involved in the extraction, conversion, and utilization of energy and mineral resources. The courses are sequenced so that students acquire an appropriate blend of theory, applications, and design and are equipped with the fundamentals necessary to maintain lifelong professional growth. Graduates are prepared to enter both the private and public sectors as environmental systems engineers or health and safety engineers or to pursue further education at the graduate level.

During the first two years, the program shares many common features (e.g., mathematics, chemistry, physics, and engineering mechanics) with other more traditional engineering disciplines. Students then take a series of special courses that introduce engineering concepts in the extractive and process industries. Process engineering and a variety of solid-solid, solid-fluid, and fluid-fluid separations play a major and often dominant role in the prevention and/or remediation of environmental damage or the prevention of health and safety hazards resulting from industrial activity. Students then specialize in the particular problems associated with air, land, or water, environmental health and safety engineering or select a hybrid program. Specialization is accomplished through a combination of additional designated courses and selection from an extensive list of relevant elective courses, which may include a senior thesis. The curriculum is structured so as to integrate design concepts into the various subject areas covered in the program.

The human, societal, economic, ethical, and regulatory aspects of the industrial impact on the environment and on the workers themselves are addressed through a combination of specific courses and components of other more general courses. This aspect of the program is designed to provide students with a deeper understanding, both of the impact of environmental degradation on society and of the effects on industrial activity of society's demands for protection of workers and the environment. The program culminates with the capstone design course, which is an integrated, problem-based, multi-faceted project in which students, working in a team setting, utilize fundamental concepts to design an environmental remediation system or an environmental health and safety protection system (or incorporate these design requirements into other associated designs).

The integration of knowledge and skills acquired during the course of study in the Environmental Systems Engineering program provides graduates with the following student outcomes:

- An ability to apply knowledge of mathematics, science, and engineering
- An ability to design and conduct experiments, as well as to analyze and interpret data
- An ability to design a system, component, or process to meet desired needs
- An ability to function on multi-disciplinary teams
- An ability to identify, formulate, and solve engineering problems
- An understanding of professional and ethical responsibility
- An ability to communicate effectively
- The broad education necessary to understand the impact of engineering solutions in a global and societal context
- A recognition of the need for and an ability to engage in life-long learning
- A knowledge of contemporary issues
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
- An ability to integrate knowledge and minimize environmental impacts in resource recovery and the process industries

Environmental Systems Engineering Program Educational Objectives:

Our graduates will

- Enter the private or public sectors as environmental systems engineers to solve a broad range of environmental or health and safety problems associated with the resource recovery and general and process industries or pursue an advanced degree.
- Address critical environmental or health and safety problems of the basic industries, especially those involved with the extraction, conversion, and utilization of energy and mineral resources; design effective and economic engineering systems to alleviate such problems, individually and in a team setting; and communicate the results effectively.
- Determine the impact of environmental pollution control on the viability of industrial operations, including health and safety, social, and ethical aspects, and an awareness of environmental regulations; evaluate novel strategies for minimizing pollution control costs in the process industries.
- Recognize the need to maintain professional competency and the value of life-long learning.

### Entrance to Major Requirements:

In addition to the minimum grade point average (GPA) requirements described in the University Policies, the Environmental Systems Engineering entrance-to-major requirement must also be completed with a minimum grade of C: MATH 140 GQ(4).

### Integrated B.S. in Environmental Systems Engineering (ENVSE) and M.S. in Energy and Mineral Engineering (EME)

The integrated undergraduate-graduate (IUG) program between the environmental systems engineering undergraduate program and the energy and mineral engineering graduate program enables academically superior and research-focused ENVSE undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. Students should refer to the Energy and Mineral Engineering graduate program in the Graduate Program Bulletin for the IUG admission and degree requirements.

([http://bulletins.psu.edu/bulletins/whitebook/graduate\\_degree\\_programs.cfm?letter=E&program=grad\\_eme.htm](http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=E&program=grad_eme.htm))

For the B.S. in Environmental Systems Engineering, a minimum of 131 credits is required. This baccalaureate program in Environmental Systems Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

### **Integrated B.S. in Environmental Systems Engineering (ENVSE) and M.S. in Energy and Mineral Engineering (EME) Course Substitutions**

As many as twelve of the credits required for the master's degree may be applied to both the B.S. and M.S. degrees. A minimum of six credits counted for both the B.S. and M.S. degrees must be at the 500-level. Thesis and culminating/capstone experience credits may not be double counted. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[2] Students who complete Basic ROTC may substitute 6 credits of ROTC for 3 credits of GHA courses and 3 credits of Supporting Courses and Related Areas.

[88] The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS can be substituted for EM SC 100S GWS.

## Environmental Studies

Altoona College (ENVBA)

PROFESSOR DARIN ZIMMERMAN, *Head*

This interdisciplinary major is designed to provide students with an integrated and critical knowledge of the natural environment and human interactions with it. Students will receive a strong foundation in the natural sciences but will extend their studies across several disciplines, emphasizing both public policy issues and the role of the natural environment in history and culture. The goal of the program is "ecological literacy," which means that students will develop a broad-based understanding and awareness of environments and environmental issues, and they will develop the problem-solving skills to address those issues. Program requirements include interdisciplinary courses in environmental studies and a broad array of courses in biology, geology, chemistry, geography, economics, political science, English, history, and philosophy. By selecting appropriate electives to supplement the "additional courses" requirement of the major, students may develop an emphasis in either a specific field (i.e., biology, English) or in a general area of study (natural science, social science, and humanities). Graduates are equipped for employment as environmental consultants in business or with governmental agencies and public interest groups. Many may go on to postgraduate study in environmental science, public policy, or the humanities, or to law school.

A student wishing to transfer into the Environmental Studies program must have completed the following course ENVST 100(3) and have received a grade of C or better in the course.

For the B.A. degree in Environmental Studies, a minimum of 120 credits is required.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selections or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

## Education and Public Policy

University Park, College of Education (EPP)

PROFESSOR DANA MITRA, *In charge*

The Education and Public Policy major (EPP) offers an interdisciplinary program for mission-driven students who want to make a difference in society by building democratic participation and improving civic capacity in and through educational institutions and communities.

The EPP major prepares students to work in political and economic global systems for the betterment of a diverse and democratic society. EPP students become discerning research consumers and policy analysts in order to work for educational reform and social justice. The EPP major blends core courses in educational policy with foundations courses in sociology, political science, economics, business, race and class, and research methods. Elective courses within the major include policy problems, public systems, leadership, ethics, diversity, equality, and equity. In addition to academic studies, the EPP major includes a semester field experience culminating in a real-world, meaningful research project. Opportunities for internships include organizations in State College, Harrisburg, Philadelphia, and Washington, D.C. Graduates of the EPP program will enter professional careers in educational organizations, government, community development, public service, non-profits, consulting, philanthropy, and interest groups.

Baccalaureate degree candidates must have a minimum 2.0 GPA by the end of their fourth semester to be admitted to the Education and Public Policy (EPP) major; thereafter, students must earn a C or better in all prescribed and required courses necessary for the major.

For the B.S. degree in Education and Public Policy, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: (45 credits)

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR. See description of General Education in the *Bulletin*.)

### FIRST-YEAR SEMINAR

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### ELECTIVES: 0-1 credits

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 87-88 credits

(This includes 12 credits of General Education courses: 6 credits of GS courses; 3 credits of GQ courses; and 3 credits of GH courses.)

### PRESCRIBED COURSES (36 credits)

PL SC 001 GS(3), PL SC 003 GS:IL(3), ECON 102 GS(3), ECON 104 GS(3), EDTHP 115 US(3), HIST 021 GH:US(3), SOC 005 GS(3) (Sem: 1-4)  
CAS 222/CIVCM 211 GS:US(3), EDTHP 200 GS(3), EDTHP 420(3) (Sem: 3-6)  
EDTHP 394(3) (Sem: 5-6)  
EDTHP 395(3) (Sem: 7-8)

### ADDITIONAL COURSES (9-10 credits)

EDPSY 101 GQ(3), STAT 100 GQ(3) [\[1\]](#) or STAT 200 GQ(4) [\[1\]](#) (Sem: 1-3)  
SOC 001 GS(3) [\[1\]](#) or R SOC 011 GS:US(3) [\[1\]](#) (Sem: 1-3)  
EDPSY 400(3), EDPSY 406(3), SOC 023 GS(3), SOC 207(3) (Sem: 3-8)

### SUPPORTING COURSES AND RELATED AREAS (42 credits)

Select 9 credits of Educational Theory and Policy Studies at the 400 level (Sem: 3-8)  
Select 15 credits of Policy Problems and Public Systems from approved department list (Sem: 3-8) [\[1\]](#)

## Energy and Sustainability Policy

*University Park, College of Earth and Mineral Sciences offered via the World Campus*

VERA COLE, Program Officer

The Bachelor of Arts degree in Energy and Sustainability Policy (ESP) is an interdisciplinary program, preparing students for careers in the evolving policy sector of the energy and sustainability fields. ESP will help students achieve five broad educational objectives: (1) energy industry knowledge; (2) a sustainability ethic; (3) analytical skills; (4) communication skills; and (5) global perspective. Graduates will be prepared to act as agents for stakeholders, facilitating communication, design, and planning between the executive wing and operations wing of organizations, including commercial firms, NGOs, and governmental bodies. The online program serves a national market of adult learners who need to participate part-time and at a distance.

For the B.A. degree in Energy and Sustainability Policy a minimum of 120 credits is required.

*Scheduling recommendation by semester standing given as (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(25 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR). (See description of General Education in this bulletin)

**FIRST-YEAR SEMINAR:** 1 credit

Undergraduate programs delivered through the World Campus are exempt from the FYS requirement. However, the B.A. in ESP program will require a comparable 1-credit Program Orientation course (EM SC 302) that introduces students to program objectives and advising resources.

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:** (Included in GENERAL EDUCATION course selections or REQUIREMENTS FOR THE MAJOR.)

**WRITING ACROSS THE CURRICULUM:** (Included in the REQUIREMENTS FOR THE MAJOR.)

**BACHELOR OF ARTS REQUIREMENTS:** 24 credits

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**ELECTIVES:** 8

**REQUIREMENTS FOR THE MAJOR:** 68 credits

(This includes 25 credits of General Education Courses: 6 credits of GN courses, 9 credits of GWS courses, 4 credits of GQ courses, and 6 credits of GS courses.)

**PRESCRIBED COURSES:** 62 credits

CAS 100 GWS(3), E B F 200 GS(3)[\[1\]](#), ECON 102 GS(3), ECON 104 GS(3), EGEE 102 GN(3)[\[1\]](#), EGEE 120 GS;US;IL(3), EGEE 401(3), EM SC 240(3), EM SC 302(1)[\[1\]](#) (Sem: 1)

## Food Science

*University Park, College of Agricultural Sciences (FD SC)*

PROFESSOR SARA R. MILILLO, *Program Coordinator*

Food science involves the application of science and technology to food product manufacture, storage, and distribution to consumers. Food scientists are especially concerned with food safety, nutritional values, managing food quality, food plant management, and development of new products and processes. They are employed by manufacturers and distributors of food products; by chemical, packaging, and other industries that supply goods and services; by colleges and universities in teaching and research; and by government agencies concerned with food regulations and the health and well-being of the general public.

For the B.S. degree in Food Science, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(19 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 2 credits

**REQUIREMENTS FOR THE MAJOR:** 92 credits

(This includes 19 credits of General Education courses: 9 credits of GN courses; 7 credits of GQ courses; 3 credits of GWS courses.)

**PRESCRIBED COURSES** (65 credits)

BIOL 110 GN(4), B M B 211(3), B M B 212(1), CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3)[11], CHEM 113 GN(1), FD SC 200(3)[11], FD SC 201(1)[11], FD SC 400(4), FD SC 405(3)[11], FD SC 406(3), FD SC 408(3), FD SC 409W(2), FD SC 410(3), FD SC 411(3), FD SC 413(3), FD SC 414(3), FD SC 415(3), FD SC 430(3), MICRB 201(3), MICRB 202(2)[11], PHYS 250 GN(4), STAT 250 GQ(3) (Sem: 5-6)

**ADDITIONAL COURSES** (13-15 credits)

CHEM 202(3)[11], CHEM 203(3); or CHEM 210(3)[18], CHEM 212(3), CHEM 213(2)

ENGL 202C GWS(3) or ENGL 202D GWS(3)

MATH 110 GQ(4) or MATH 140 GQ(4)

**SUPPORTING COURSES AND RELATED AREAS** (12-14 credits)

To reflect the student's career interests, select 12-14 credits (depending on the organic chem series that they took, a total of 6 credits or 8 credits) from department list or in consultation with adviser (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Film-Video

*University Park, College of Communications (FILM)*

PROFESSOR ANTHONY OLORUNNISOLA, *Head, Department of Film-Video and Media Studies*

The Film-Video major is designed to serve students whose primary interest is the art of film and video practice. It offers an integrated curriculum in which historical, critical, and theoretical studies parallel the teaching of production and aesthetics.

The major serves students who wish to pursue careers in film, television, or related industries, as well as students planning to continue work in film and video at the graduate level.

The major includes a broad liberal arts background with introductory courses in the areas of film and video history, theory, and practice. Students have the flexibility to pursue an area of emphasis at the advanced level (narrative, alternative or documentary production).

Students must select at least 80 credits in courses outside the College of Communications, including at least 65 in the liberal arts and sciences.

Min. Cumulative GPA: 3.0

Credit Window: third semester classification

Courses required with a grade of B or better: COMM 150, COMM 242

Additional criteria:

A candidate who does not meet the minimum GPA or grade requirements may submit a portfolio during finals week of Spring semester as outlined at <http://comm.psu.edu/departments/fvms/admission-requirements>. Successful portfolio students will be admitted to the major for the following Fall provided the candidate satisfies the minimum academic requirement of at least a C (2.00) cumulative average for all courses taken at the University subject to the conditions of Section 51-50. Applicants who are not accepted into the major may re-apply the following year but must realize that this course of action could delay their graduation by at least one year.

For the B.A. degree in Film-Video, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

## Finance

University Park, Smeal College of Business (FIN)

PROFESSOR WILLIAM A. KRACAW, *Chair of the Department of Finance*

This major provides students with an opportunity to study investment analysis, management of banks and other financial institutions, and financial management of corporations and other businesses. Course coverage includes business finance, security markets, commercial bank management, investment valuations, portfolio management, futures and options markets, and capital budgeting.

**Entrance Requirement:** To be eligible for entrance into the Finance (FIN) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

**Specific entrance requirements include:**

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4) [\[1\]](#); ECON 102 GS(3); SCM 200 GQ(4) [\[1\]](#) or STAT 200 GQ(4) [\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4) [\[1\]](#) or MATH 140 GQ(4) [\[1\]](#); FIN 301(3) [\[1\]](#); MGMT 301(3) [\[1\]](#); and MKTG 301(3) [\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Finance, a minimum of 120 credits is required with at least 15 credits at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

## Finance

*Capital College (FINCE)*

JANE S. KOCHANOV, *Director of Undergraduate Studies, School of Business Administration*

The finance major emphasizes analytic, problem solving, and computer skills which are necessary for finance and investment industry. The major prepares students for careers in corporate finance, investment and portfolio management, banking, public finance, and international finance. The major also prepares students who want to pursue graduate study in finance. Depending on their interests, graduates may then seek financial services credentials such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

The requirements in the major complement basic business instruction in accounting, management, marketing, and information systems. With business and non-business electives, the program is designed to develop necessary skills to be an effective financial manager. Because the Harrisburg area is the center of industry and economic development for south-central Pennsylvania, students are provided with many opportunities to experience the world of business.

For a B.S. degree in Finance, a minimum of 120 credits is required. At least 50 percent of the business credit hours required for the degree must be taken at Capital College. No more than 60 credits should be from business and business-related courses.

### Entry to Major Requirements:

Entry to the Finance major requires the completion of 8 entry-to-major courses: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3)[\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3) [\[1\]](#); MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); MGMT 301(3); MKTG 301(3); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#); and a 2.00 or higher cumulative grade-point average. Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education Course Requirements in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** Select 8 credits of non-business courses.

### REQUIREMENTS FOR THE MAJOR: 79 credits

(This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses)

### PRESCRIBED COURSES (49 credits)

ACCTG 211(4)[\[1\]](#); ECON 102 GS(3)[\[1\]](#); ENGL 202D GWS(3); FIN 301(3)[\[1\]](#); MGMT 301(3); MKTG 301(3) (Sem: 1-4)

ECON 104 GS(3)[\[1\]](#); ECON 351(3)[\[1\]](#); FIN 302(3)[\[1\]](#); MIS 204(3); MIS 390(3) (Sem: 5-6)

B A 364Y US;IL(3); FIN 420(3)[\[1\]](#); SCM 301(3) (Sem: 6-7)

B A 462(3)[\[1\]](#); FIN 475(3)[\[1\]](#) (Sem: 8)

### ADDITIONAL COURSES (21 credits)

Select 4 credits from MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-4)

Select 4 credits from SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#) (Sem: 1-4)

Select 4 credits from B A 243(4) or B A 241(2) and B A 242(2) (Sem: 5-6)

Select 9 credits [\[1\]](#) from the following: ACCTG 481(3); FIN 305(3); FIN 306W(3); FIN 407(3); FIN 408(3); FIN 409(3); FIN 413(3); FIN 427(3); FIN 456 IL(3); FIN 461(3); FIN 489(3); FIN 496(3); or other finance courses approved by the Program (Sem: 6-8)

(For students considering CFA exam, FIN 407, FIN 427 and FIN 461 are recommended.)

### SUPPORTING COURSES AND RELATED AREAS (9 credits)

Select 9 credits from 200-400 level business courses from: ACCTG, B A, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Finance

*Penn State Erie, The Behrend College (FNC)  
Penn State World Campus*

The Finance major is a unique program that provides the student with a firm foundation in the principles of finance and its major areas: financial management, investments, and financial markets. The coursework is designed to lead to professional certification in financial analysis. Students have job opportunities in a variety of positions with mutual funds, brokerage firms, banks, and insurance companies, as well as positions in corporate finance.

The program provides students with the depth and breadth of knowledge necessary to prepare them for Level I of the Chartered Financial Analysts (CFA) Exam. The rigorous curriculum, including courses in finance, accounting, and economics, is based on the CFA Body of Knowledge developed through surveys of professionals involved in the practice of investment management. Students will be encouraged to take Level I of the CFA exam after graduation.

### Entrance to Major Requirements:

Entry to the Finance major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Finance, 120-122 credits are required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

## Forest Ecosystem Management

University Park, College of Agricultural Sciences (FOREM)

PROFESSOR ELLEN MANNO, Program Coordinator

The mission of the B.S. program in Forest Ecosystem Management is to help students develop the knowledge, skills, and professional ethics for understanding and managing forest ecosystems and living as responsible members of society.

The Forest Ecosystem Management major provides for the education necessary for students to pursue professional careers in one of the following options: (1) Forest Biology, (2) Forest Management, (3) Community and Urban Forest Management, and (4) Watershed Management. These options also will prepare students for graduate studies in continuing professional education.

**FOREST BIOLOGY OPTION:** This option provides a strong background in the biological and ecological aspects of contemporary forestry and establishes a sound foundation for professional employment and graduate-level study in forestry, ecology, and related disciplines.

**FOREST MANAGEMENT OPTION:** This option provides professional training in the management of forest lands consistent with the needs of ownership objectives. Employment opportunities include forest management positions with public agencies, industry, and private consulting.

**COMMUNITY AND URBAN FOREST MANAGEMENT OPTION:** This option helps prepare students to manage community trees and green spaces. It emphasizes technical expertise, communication abilities, and skills for working with diverse people. Employment opportunities include municipalities, arboricultural companies, utilities, and government agencies.

**WATERSHED MANAGEMENT OPTION:** This option focuses on water resources and the integrated management of natural resources with emphasis on water. Graduates qualify for federal employment as hydrologists and for water-related careers in municipal watershed management, state and local government, and environmental/engineering consulting.

For the B.S. degree in Forest Ecosystem Management, a minimum of 120 credits is required for the Forest Biology, Forest Management, and Watershed Management options, and a minimum of 123 credits for the Community and Urban Forest Management option. Students should be aware that, in most cases, completion of the Forest Ecosystem Management degree in four years requires enrollment at the University Park Campus beginning the fall semester of the sophomore year.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21-27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-10 credits

**REQUIREMENTS FOR THE MAJOR:** 90-102 credits

(This includes 21-27 credits of General Education courses; 9 credits of GN courses; 6 credits of GQ courses; 3-6 credits of GS courses; 0-3 credits of GA courses; 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 35-36 credits

**PRESCRIBED COURSES** (29 credits)

CHEM 110 GN(3), CHEM 111 GN(1), ECON 102 GS(3) (Sem: 1-2)

## French and Francophone Studies

University Park, College of the Liberal Arts (FR BA)

PROFESSOR BENEDICTE MONICAT, *Head*

The B.A. major in French and Francophone Studies encourages students to develop fluency in the language as well as an appreciation of francophone literature and culture. The major can also help to prepare students for interdisciplinary professional careers in which a knowledge of a foreign language is useful. At present, the B.A. major in French and Francophone Studies is available either as a Language and Culture option or as a Language and Literature option.

For the B.A. degree in French, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

## French and Francophone Studies

University Park, College of the Liberal Arts (FR BS)

PROFESSOR BENEDICTE MONICAT, *Head*

The B.S. degree is designed to allow students to combine fluency in French with other academic disciplines. The Business option develops basic skills in French (speaking, understanding, reading, writing) and acquaints students with a number of fields essential to business, especially in the international area. The Engineering option has a required overseas study or work component. The Applied French option develops basic skills in French (speaking, understanding, reading, writing) as well as a basic knowledge of French literature and culture. At the same time, it provides a concentration in a professional area in which a command of French can be particularly relevant or useful. Courses in French culture and civilization are essential to all B.S. options, and students are encouraged to participate in the University's International Studies programs in France.

For the B.S. degree in French and Francophone Studies (all options) a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

### GENERAL EDUCATION: 45 credits

(9-16 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 17-21 credits

### REQUIREMENTS FOR THE MAJOR: 54-71 credits<sup>[1]</sup>

(This includes 9-16 credits of General Education courses. For the French-Business Option, 0-4 credits of GQ courses; 6-9 credits of GS courses; 3 credits of GWS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 24 credits

#### PRESCRIBED COURSES (21 credits)

FR 201 IL(3), FR 202 IL(3), FR 331(3), FR 351 IL(3), FR 352 IL(3) (Sem: 1-6)  
FR 401 IL(3), FR 402Y IL(3) (Sem: 5-8)

#### ADDITIONAL COURSES (3 credits)

FR 316(3) or FR 417 IL(3) or FR 418 IL(3) (Sem: 1-6)

### REQUIREMENTS FOR THE OPTION: 30-47 credits

#### FRENCH-BUSINESS OPTION: (47 credits)

#### PRESCRIBED COURSES (31 credits)

FR 407 IL(3) (Sem: 1-2)  
ACCTG 211(4), B A 301(3), B A 303(3) B A 304(3), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3), FR 430 IL(3), I B 303 IL(3) (Sem: 1-4)

#### ADDITIONAL COURSES (10 credits)

Select 4 credits from: SCM 200(4) or STAT 200 GQ(4) (Sem: 3-4)  
Select 3 credits from: ECON 333 GS(3) or MKTG 445 IL(3), or MGMT 461(3) (Sem: 5-8)  
Select 3 credits from: MKTG 220(3) or I B 403(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 3 credits in French literature (Sem: 5-8)  
Select 3 credits in French at the 400 level (Sem: 5-8)

#### FRENCH-ENGINEERING OPTION: (33 credits)

(Open only to students enrolled in an engineering major.)

#### PRESCRIBED COURSES (6 credits)

FR 409 IL(3), FR 430 IL(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (27 credits)

Select 21 credits of engineering courses, including ENGR 295(1-3) and ENGR 395(1-3), in consultation with the engineering adviser (Sem: 3-8)  
Select 6 credits in French at the 400 level (Sem: 5-8)

*Note:*All French-Engineering majors are required to participate in a one-semester engineering internship in France, arranged by the College of Engineering, during which up to 9 credits in French and up to 12 credits in engineering may be earned. The work experience may take the form of a professional internship (ENGR 195I) or be part of a cooperative education sequence (ENGR 295I, ENGR 395I, or ENGR 495I).

#### APPLIED FRENCH OPTION: (30 credits)

#### PRESCRIBED COURSES (3 credits)

FR 430(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (27 credits)

Select 18 credits in related areas such as Hotel, Restaurant, and Institutional Management; Linguistics; Sociology; Economics; Science, Technology and Society, or in another professional areas where competency in French is desirable. The courses are to be selected in consultation with an adviser. At least six credits of such courses must be at the 400 level. (Sem: 1-8)  
Select 9 credits in French at the 400 level. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Forensic Science

University Park, The Eberly College of Science (FRNSC)

Forensic Science is the application of scientific principles and methods to assist criminal and civil investigations and litigation. This major is an inter-college collaboration among academic units and provides students with a strong foundation in the biological, physical, and mathematical sciences. It introduces them to relevant topics in criminalistics forensic chemistry, forensic biology, crime scene investigation, and appropriate social sciences. Students are educated on the role of forensic scientists in the criminal justice system, the collection and analysis of scientific evidence, and the manner in which evidence is presented in court. Graduates of this major could pursue employment as a scientist in a federal, state, or private forensic laboratory or with insurance companies, homeland security agencies, or the judicial community. Graduates could also choose to pursue advanced degrees, for example, in forensic science, medicine, psychology, anthropology, pathology, odontology, entomology, toxicology, law, or in the general sciences.

In order to be eligible for entrance to the Forensic Science major, a student must have: (1) attained at least a 2.00 cumulative grade point average (2) completed CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), FRNSC 210(3), MATH 140 GQ(4), and earned a grade of C or better in each of these courses.

For the B.S in Forensic Science a minimum of 124-126 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin)

### FIRST YEAR SEMINAR:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 97-99 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GH courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 63 credits

#### PRESCRIBED COURSES: (52 credits)<sup>[1]</sup>

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3), CHEM 212(3), CHEM 213(2), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-4)

PHIL 132 GH(3) (Sem: 1-8)

FRNSC 100(3) (Sem: 2)

FRNSC 210(3) (Sem: 3)

FRNSC 410(2) (Sem: 4-6)

FRNSC 415W(2) (Sem: 5-6)

FRNSC 411(3), FRNSC 413(3) (Sem: 5-7)

STAT 250 GQ(3) (Sem: 5-8)

FRNSC 400(1), FRNSC 475(1), FRNSC 485W(4) (Sem: 7-8)

#### ADDITIONAL COURSES: (11 credits)<sup>[1]</sup>

CRIM 100 GS(3) or CRIM 113 US(3) (Sem: 1-6)

PHYS 250 GN(4), PHYS 251 GN(4); or PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 2-6)

### REQUIREMENTS FOR THE OPTION: 34-36 credits

#### FORENSIC BIOLOGY OPTION: (36 credits)

##### PRESCRIBED COURSES: (21 credits)<sup>[1]</sup>

B M B 251(3), MICRB 201(3), MICRB 202(2) (Sem: 1-4)

B M B 400(3), B M B 401(3), B M B 442(3) (Sem: 5-7)

FRNSC 421W(4) (Sem: 7-8)

##### ADDITIONAL COURSES: (9 credits)<sup>[1]</sup>

BIOL 222(3) or BIOL 322(3) (Sem: 3-5)

Select 6 credits from B M B 402(3), B M B 428(3), B M B 433(3), BIOL 405(3), BIOL 422(3), BIOL 460(3) (Sem: 6-8)

#### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits in consultation with adviser (Sem: 3-8)

#### FORENSIC CHEMISTRY OPTION: (34 credits)

##### PRESCRIBED COURSES: (19 credits)<sup>[1]</sup>

BIOL 110 GN(4), BIOL 230W GN(4) (Sem: 1-4)

CHEM 227(4) (Sem: 3-5)

CHEM 425(3) (Sem: 5-7)

FRNSC 427W(4) (Sem: 6-8)

##### ADDITIONAL COURSES: (9 credits)<sup>[1]</sup>

Select 9 credits from B M B 428(3), CHEM 410(3), CHEM 412(3), CHEM 423W(4), CHEM 430(3), CHEM 431W(4), CHEM 450(3), CHEM 452(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits in consultation with adviser (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## General Engineering (G E)

Abington College

University College, Penn State Brandywine, Penn State DuBois, Penn State Hazleton

PROFESSOR SVEN BILÉN, *Head of School of Engineering, Design, Technology and Professional Programs (SEDAPP)*

PROFESSOR IVAN E. ESPARRAGOZA, *Director of Engineering Technology and Commonwealth Engineering*

PROFESSOR ROBERT AVANZATO, *Program Coordinator, Penn State Abington*

PROFESSOR ASAD AZEMI, *Program Coordinator, Penn State Brandywine*

PROFESSOR DAUDI WARYOBA, *Program Coordinator, Penn State DuBois*

PROFESSOR KATHRYN W. JABLOKOW, *Program Coordinator, Penn State Great Valley*

PROFESSOR WIESLAW GREBSKI, *Program Coordinator, Penn State Hazleton*

The General Engineering program provides students with a broad foundation in engineering with specialization in a technically and professionally relevant topic. Students must choose the Multidisciplinary Engineering Design option at Abington, Brandywine and Great Valley campuses, Applied Materials option at the DuBois campus or the Alternative Energy and Power Generation option at the Hazleton campus. From this degree program, students will acquire the ability to work as members of a team toward successful attainment of a common goal, thus preparing them to work in for-profit or nonprofit organizations, or to further their studies in graduate school. Typical employment for General Engineering graduates includes positions such as engineer, product engineer, process engineer, manufacturing engineer, development engineer, and materials engineer. With employment opportunities such as these and others, graduates of the General Engineering program can attain professional and economically sustaining employment in their desired regional area. This degree program develops written and oral communication skills, culminating in a two-semester senior design course sequence consisting of a project based largely on student interest and faculty input.

### Program Educational Objectives:

The educational objectives of the General Engineering program are designed to prepare graduates who, during the first few years of professional practice will

1. Be employed in public or private sectors in fields such as design, research and development, experimentation and testing, manufacturing, and technical sales.
2. Demonstrate a level of competence and expertise that may lead to an increasing level of responsibility and leadership within their respective organizations.
3. Communicate effectively and work collaboratively in multidisciplinary and multicultural work environments
4. Recognize and grow an appreciation of the global, environmental, social, and ethical contexts of their work.
5. Be committed to lifelong learning to enhance their careers and provide flexibility in responding to changing social and technical environments, which will enable graduates to pursue advanced degrees or certificate programs.

### Program Outcomes (Student Outcomes):

Graduates of the General Engineering program shall be able to:

- a) Apply knowledge of mathematics, science, and engineering
- b) Design and conduct experiments, as well as to analyze and interpret data
- c) Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- d) Function on multidisciplinary teams
- e) Identify, formulate, and solve engineering problems
- f) Demonstrate an understanding of professional and ethical responsibility
- g) Communicate effectively
- h) Demonstrate the understanding of the impact of engineering solutions in a global, economic, environmental, and societal context
- i) Recognize the need for, and an ability to engage in life-long learning
- j) Demonstrate knowledge of contemporary issues
- k) Use the techniques, skills, and modern engineering tools necessary for engineering practice.

In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in General Engineering, a minimum of 127 credits are required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR.)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection.)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR.)

**REQUIREMENTS FOR THE MAJOR:** 109 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 71 credits

**PRESCRIBED COURSES:** 45 credits

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), EDSGN 100(3), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#), PHYS 211 GN(4)[\[1\]](#) (Sem: 1-2)

## General Arts and Sciences

*Penn State Erie, The Behrend College (GAS)*

In this interdisciplinary major students may pursue broad interests and develop their own specialized programs when their interests are not congruent with established programs. The B.A. degree in General Arts and Sciences can be a terminal degree, or students can prepare for graduate school, professional school, or employment in business, government, or industry.

The Liberal Studies option provides the most flexible undergraduate degree program in the University except for the Bachelor of Philosophy degree. Students can use the Liberal Studies option to structure a program of study around their individual interests and career plans and can develop background in areas where Penn State Erie, The Behrend College, does not currently offer majors.

For further information and a complete list of courses, contact the head of the Division of Humanities and Social Sciences.

For the B.A. degree in General Arts and Sciences, a minimum of 124 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 19 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 12 credits

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 3 credits in each of the areas of arts, humanities, science/mathematics, and the social and behavioral sciences (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 24 credits

**HUMANITIES OPTION:** (24 credits)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 24 credits in humanities from those listed under humanities in the Bachelor of Arts Degree Requirements list, with at least 3 credits in each of three areas, including 15 credits at the 400 level (Sem: 1-8)

**LIBERAL STUDIES OPTION:** (24 credits)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

(15 of these credits must be at the 400 level)

In this option, the student shall submit a proposal to the adviser listing his/her choice of subjects beyond those required in the Supporting Courses and Related Areas category. In consultation with the adviser and the General Arts and Sciences program head, the student may choose from any B.A. course offering of the University. Option must be approved no later than the end of the sixth semester. (Sem: 1-8)

**SCIENCE/MATHEMATICS OPTION:** (24 credits)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 24 credits in science/mathematics from those listed under science/mathematics in the Bachelor of Arts Degree Requirements list, with at least 3 credits in each of three areas, including 15 credits at the 400 level (Sem: 1-8)

**SOCIAL AND BEHAVIORAL SCIENCES OPTION:** (24 credits)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 24 credits in the social and behavioral sciences from those listed in the Bachelor of Arts Degree Requirements list, with at least 3 credits in each of three areas, including 15 credits at the 400 level (Sem: 1-8)

## Graphic Design

*University Park, College of Arts and Architecture (GD)*

PROFESSOR KEITH CUMMINGS, *Professor in Charge*

This degree is intended to prepare students for careers in graphic design. The program includes the technical skills and the creative and intellectual capacity essential to the practices of graphic design and is intended to prepare students for employment in design studios, advertising agencies, packaging, publications and corporate design, film and television graphics, and Web and interactive design.

Acceptance into the Graphic Design major is determined by a portfolio review by faculty after the completion of GD 001S(1), GD 100 GA(3), GD 101(2), GD 102(3), and IST 110 GS(3) with grades of C or better in all of these courses. Typically, this review will take place in the second semester. Applicants who are not accepted into the major may re-apply the following year but must realize that this course of action could delay their graduation by at least one year.

For the B. Des. degree in Graphic Design, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3-9 of these 45 credits are included in REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 6-12 credits

**REQUIREMENTS FOR THE MAJOR:** 73 credits<sup>[1]</sup>

(This includes 3-9 credits of General Education courses: 3-9 credits of GA courses.)

**PRESCRIBED COURSES** (61 credits)

GD 001S(1), GD 100 GA(3), GD 101(3), GD 102(3), IST 110 GS(3) (Sem: 1-2)

PHOTO 200(3) (Sem: 2-4)

GD 200(3), GD 201(3), GD 202W(3) GD 203(3), IST 250(3), IST 256(3) (Sem: 3-4)

GD 300(4), GD 301(4), GD 302(4), GD 303(4) (Sem: 5-6)

GD 400(4), GD 402(4), GD 495(3) (Sem: 7-8)

**ADDITIONAL COURSES** (12 credits)

Select 6 credits from History of the Arts coursework, which may be counted toward General Education Arts requirement.

Select 6 credits from GD 297(3); GD 304(3); GD 310(3); GD 397(3); GD 401(3); GD 404(3); GD 495(3); GD 497(3) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Geography

University Park, College of Earth and Mineral Sciences (GEOBA)

PROFESSOR CYNTHIA A. BREWER, *Head*

Penn State's College of Earth and Mineral Sciences offers a strong mix of human, physical, and technical components that comprise the core of the geography major. Undergraduate degrees in geography are offered in the Bachelor of Science (BS) and in the Bachelor of Arts (BA). Both programs offer an integrated course of study in which students learn fundamental concepts in physical and human geography while developing technical proficiency.

The Bachelor of Arts (BA) stresses the social and behavioral aspects of geography; the Bachelor of Science (BS) major stresses the discipline's environmental and technical perspectives. Both majors provide training in descriptive and analytical skills such as mapping and spatial analysis. Substantive course work in the Bachelor of Arts major focuses on the ways people have arranged themselves and their economic, social and political activities on the surface of the Earth. Combining geography with other areas of study allows students to choose from a broad range of topics in order to suit their individual interests. The BA Geography major is especially appropriate for students seeking a deeper understanding of the human experience and for students intending to pursue post-graduate work in geography or related disciplines.

Bachelor's degree program graduates may find employment in federal, state, and local administrative and planning agencies or in private firms that specialize in marketing and environmental research. Geographers make careers doing planning, environmental consulting, policy analysis, demographics, cartography, remote sensing, and geovisualization. They work for government agencies, non-profit and educational institutions, and industry.

Those students seeking a Bachelor of Arts degree in Geography may choose one of three areas of concentration:

**GENERAL OPTION:** This option is designed to serve the needs of students who want to learn about the various topics and perspectives that comprise the discipline of geography, with emphasis on social and behavioral components. The General option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to emphasize a topic for which no option exists.

**HUMAN GEOGRAPHY OPTION:** This option offers a program for students interested in a well-rounded education in geography that stresses the social and behavioral aspects of the discipline, including economic geography and political economy; urban/regional development and planning; and cultural/historical geography. The Human Geography option is appropriate both for students who intend to pursue postgraduate degrees and for students who wish to enter careers related to planning, policy, and development.

**NATURE-SOCIETY GEOGRAPHY OPTION:** This option offers a program for students interested in the interactions between people and their environment that emphasized the complex linkages and multi-scalar processes between the biophysical environment and human societies. The Nature-Society Geography option is appropriate both for students who intend to pursue postgraduate degrees and for students who wish to enter careers related to environmental governance, human dimensions of global change, including climate change, livelihood and ecological sustainability, and ecosystem service provision.

For the B.A. degree in Geography, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 9 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

## Geobiology

University Park, College of Earth and Mineral Sciences (GEOBI)

PROFESSOR PETER J. HEANEY, Associate Head for Undergraduate Programs

Geobiology is the interdisciplinary study of the Earth and its biosphere. It embraces the history of life and its interactions with the Earth over geologic time; it also includes study of interactions between living organisms and physical and chemical processes in the modern environment on Earth, and possibly elsewhere in the universe. Thus, geobiology encompasses the fields of paleobiology and paleontology, biogeochemistry, geomicrobiology, and astrobiology. The degree program provides students with a strong background in general science and especially in Geosciences and Biology, with core selections from both disciplines. Students gain practical field experience in the study of the physical environment and ecological properties. The senior thesis provides students with hands-on research experience, as well as an emphasis on data synthesis and the written expression of scientific observations and ideas. Students will be well prepared for advanced studies in this emerging discipline, and for careers in the environmental sciences. Geobiology is critical to the study of environmental quality, global change and environmental-human health interactions, all of which have profound importance in legal, economic, and policy arenas.

For the B.S. degree in Geobiology, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES :

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 97 credits

(This includes 21 credits of General Education courses: 9 credits of GN courses, 6 credits of GQ courses, 6 credits of GWS courses.)

### PRESCRIBED COURSES (54 credits)

BIOL 110 GN(4)[\[1\]](#), BIOL 220W GN(4)[\[1\]](#), EM SC 100S GWS(3)[\[71\]](#), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-2)  
CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), PHYS 211 GN(4), PHYS 213 GN(2) (Sem: 1-4)  
GEOSC 001(3) [if GEOSC 001 is not available, GEOSC 020 GN(3) may be substituted] (Sem: 1-6)  
GEOSC 201(4), GEOSC 204(4)[\[1\]](#) (Sem: 3-6)  
GEOSC 310(4)[\[1\]](#) (Sem: 5-6)  
GEOSC 494W(3), GEOSC 496(3) (Sem: 7-8)

### ADDITIONAL COURSES (13-14 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
Select 4 credits from GEOSC 202(4), GEOSC 203(4) (Sem: 3-6)  
Select 3-4 credits from BIOL 230W GN(4), BIOL 240W GN(4), MICRB 201(3) (Sem: 3-6)  
Select 3 credits of field experience from BIOL 444(3), GEOSC 472A(3) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (29-30 credits)

Select 17-18 credits, in consultation with advisor, supportive of the student's interest. (Students may apply 6 credits of ROTC) (Sem: 3-8)  
Select 12 credits, at least 3 credits from each category, from the approved list of evolution, paleobiology and geology courses and biogeochemistry courses (Sem: 7-8)

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[\[71\]](#) The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## Geography

University Park, College of Earth and Mineral Sciences (GE OBS)

PROFESSOR CYNTHIA A. BREWER, *Head*

Penn State's College of Earth and Mineral Sciences offers a strong mix of human, physical, and technical components that comprise the core of the geography major. Combining geography with other areas of study allows students to choose from a broad range of topics in order to suit their individual interests. Undergraduate degrees in geography are offered in the Bachelor of Science (BS) and in the Bachelor of Arts (BA). Both programs offer an integrated course of study in which students learn fundamental concepts in physical and human geography while developing technical proficiency.

The Bachelor of Science (BS) major stresses the discipline's environmental perspectives, while the Bachelor of Arts (BA) stresses the social and behavioral aspects of geography. Both majors provide training in descriptive and analytical skills such as map reading, cartography, and statistics. Substantive course work in the Bachelor of Science major focuses on the ways people use environmental resources and how they arrange themselves and their economic, social, and political activities on the Earth's surface. The Geography major can provide preparation for a career in business, industry, or government. Geographers with bachelor's degrees are currently being placed in federal, state, and local administrative and planning agencies and in private firms that specialize in planning and development or in environmental and socioeconomic analysis.

Those students seeking a Bachelor of Science degree have a choice of one of three areas of concentration:

**GENERAL OPTION:** This option is designed to serve the needs of students who want to learn about the various topics and perspectives that comprise the discipline of geography. The General option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to emphasize a topic for which no option exists.

**GEOGRAPHIC INFORMATION SCIENCE OPTION:** This option helps prepare students for entry-level positions in public and private mapping/remote sensing agencies and firms. The student may specialize in one or all of the areas covered in the option. This option is appropriate for students intending to pursue advanced degrees with specialization in these fields.

**PHYSICAL/ENVIRONMENTAL GEOGRAPHY OPTION:** This option is appropriate for students who want a broad understanding of the earth and environmental sciences in preparation for careers in industry, commerce, and government. The option is designed to develop competence in description, analysis, explanation, and management of problems arising from human use of natural resources and natural systems.

Geography courses satisfying the United States Cultures and International Cultures requirement: GEOG 020 GS;US;IL(3), GEOG 040 GS;IL(3), GEOG 120 GS;US;IL(3), GEOG 123 GS;IL(3), GEOG 124 GS;IL(3), GEOG 126 GS;US;IL(3), GEOG 128 GS;IL(3), GEOG 420Y US;IL(3), GEOG 424Y US;IL(3), GEOG 426 IL(3), and GEOG 427 US;IL(3).

Geography courses satisfying the Writing requirement: GEOG 310W(3), GEOG 411W(3), GEOG 412W(3), GEOG 420Y US(3), GEOG 423Y US;IL(3), GEOG 424Y US;IL(3), GEOG 438W(3), and GEOG 461W(3). All students must satisfactorily complete at least one writing-intensive course in Geography.

For the B.S. degree in Geography, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 10 credits

**REQUIREMENTS FOR THE MAJOR:** 77 credits

(This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 47 credits

**PRESCRIBED COURSES** (28 credits)

EM SC 100S GWS(3) [\[11\]](#) (Sem: 1-2)

GEOG 010 GN(3) [\[11\]](#), GEOG 020 GS;US;IL(3) [\[11\]](#), GEOG 030 GS;IL(3) [\[11\]](#), GEOG 130 GS(3) [\[11\]](#), GEOG 160 GS(3) [\[11\]](#), STAT 200 GQ(4) (Sem: 1-4)

GEOG 301(3) [\[11\]](#), GEOG 364(3) [\[11\]](#) (Sem: 5-6)

**ADDITIONAL COURSES** (19 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

Select 4 credits from: MATH 083 GQ(4), MATH 110 GQ(4), or MATH 140 GQ(4) (Sem: 1-4)

**PHYSICAL GEOGRAPHY**

Select 3 credits from: GEOG 110 GN(3) [\[11\]](#), GEOG 111 GN(3) [\[11\]](#), or GEOG 115 GN(3) [\[11\]](#) (Sem: 3-6)

**HUMAN GEOGRAPHY**

Select 3 credits from: GEOG 120 GS;US;IL(3) [\[11\]](#), GEOG 122 GH;US(3) [\[11\]](#), GEOG 123 GS;IL(3) [\[11\]](#), GEOG 124 GS;IL(3) [\[11\]](#), GEOG 126 GS;US;IL(3) [\[11\]](#), or GEOG 128 GS;IL(3) [\[11\]](#) (Sem: 3-6)

**GEOGRAPHIC INFORMATION SCIENCE**

Select 3 credits from GEOG 361(3) [\[11\]](#), GEOG 362(3) [\[11\]](#), or GEOG 363(3) [\[11\]](#) (Sem: 3-6)

**PROFESSIONALISM**

Select 3 credits from : GEOG 493(3) [\[11\]](#), GEOG 494(3) [\[11\]](#), GEOG 495(3) [\[11\]](#), GEOG 495B(3) [\[11\]](#), or GEOG 495G(3) [\[11\]](#) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 30 credits [\[11\]](#)

**GENERAL OPTION:** (30 credits) [\[11\]](#)

**ADDITIONAL COURSES** (30 credits)

Select 12 credits of 400-level courses from the following categories in the option

**PHYSICAL GEOGRAPHY**

Select 3 credits from GEOG 310W(3), GEOG 311(3), GEOG 313(3), GEOG 411(3), GEOG 411W(3), GEOG 412W(3), or GEOG 417(3) (Sem: 5-8)

**HUMAN GEOGRAPHY**

Select 3 credits from GEOG 420Y US;IL(3), GEOG 423Y US(3), GEOG 424 US;IL(3), GEOG 425(3), GEOG 426 US;IL(3), GEOG 427 U;IL(3), GEOG 428 US(3), or GEOG 429 US;IL(3) (Sem: 5-8)

**NATURE-SOCIETY GEOGRAPHY**

Select 3 credits from GEOG 333(3), GEOG 430(3), GEOG 434(3), GEOG 436(3), GEOG 438W(3), GEOG 439(3), or GEOG 444(3) (Sem: 5-8)

**GEOGRAPHIC INFORMATION SCIENCE**

Select 3 credits from GEOG 361(3), GEOG 362(3), or GEOG 363(3) (Sem: 3-6)

Select 15 credits from all remaining 300- and 400-level GEOG courses (Sem: 5-8)

**GEOGRAPHIC INFORMATION SCIENCE OPTION:** (30 credits) [\[1\]](#)

**PRESCRIBED COURSES** (12 credits)

GEOG 361(3), GEOG 362(3), GEOG 363(3) (Sem: 3-6)

GEOG 464(3) (Sem: 5-8)

**ADDITIONAL COURSES** (18 credits)

Select 18 credits from GEOG 313(3), GEOG 417(3), GEOG 461W, GEOG 463(3), GEOG 467(3), GEOG 468(3), GEOG 485(3), or GEOG 495G(3) (Sem: 5-8)

**PHYSICAL/ENVIRONMENTAL GEOGRAPHY OPTION:** (30 credits) [\[1\]](#)

**PRESCRIBED COURSES** (3 credits)

GEOG 313(3) (Sem: 5-8)

**ADDITIONAL COURSES** (27 credits)

Select 6 credits from GEOG 110 GN(3), GEOG 111 GN(3), or GEOG 115 GN(3) (Sem: 3-6)

Select 9 credits from GEOG 310W(3), GEOG 311(3), GEOG 333(3), or GEOSC 340(3) (Sem: 5-8)

Select 12 credits from GEOG 411(3), GEOG 412W(3), GEOG 417(3), GEOG 430(3), GEOG 431(3), GEOG 434(3), GEOG 438W(3), or GEOG 493(3) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[71]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## German

*University Park, College of the Liberal Arts (GERBA)*

PROFESSOR B. RICHARD PAGE, *Head*

For the B.A. degree in German, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 37 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (15 credits)

GER 301 IL(3), GER 302W(3), GER 310 IL(3), GER 344 IL(3) (Sem: 3-6)

GER 401Y IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (22 credits)

GER 201 IL(4) or GER 208Y IL(4) (Sem: 1-4)

Select 3 credits from GER 200 GH;IL(3) or German at the 100-level (Sem: 1-4)

Select 6 credits in German literature and culture from GER 420 IL(3), GER 431 IL(3), GER 432 IL(3), GER 440 IL(3), GER 472 IL(3), GER 489(3) (Sem: 5-8)

Select 3 credits in German linguistics and applied linguistics from GER 411 IL(3), GER 412 IL(3), GER 430(3) (Sem: 5-8)

Select 6 additional credits of German at the 300- or 400-level. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

LA

## German

University Park, College of the Liberal Arts (GERBS)

PROFESSOR RICHARD PAGE, *Head*

The B.S. degree in German is designed to allow students to combine fluency in the German language and culture with other academic disciplines. The German-Business option develops basic German business-communication skills as well as fundamental knowledge of German economics. The German-Engineering and Applied German options have a required overseas study and internship component.

Courses in German literature and culture are essential to all German B.S. options, and students in the German-Business option are encouraged to participate in the University's study abroad programs in Germany.

For the B.S. degree in German, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-13 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 23-25 credits

**REQUIREMENTS FOR THE MAJOR:** 55-66 credits<sup>[1]</sup>

(This includes 0-13 credits of General Education courses; 0-6 credits of GS courses; 0-3 credits of GWS courses; 0-4 credits of GQ courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 22 credits

**PRESCRIBED COURSES** (15 credits)

GER 301 IL(3), GER 302W(3), GER 310 IL(3), GER 344 IL(3) (Sem: 3-6)

GER 401Y IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (7 credits)

GER 201 IL(4) or GER 208Y IL(4) (Sem: 1-4)

GER 431 IL(3) or GER 432 IL(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 33-44 credits

**APPLIED GERMAN OPTION:** (33 credits)

This option is designed to provide German majors with a background in an area of study where knowledge of German is useful. In consultation with an advisor, majors in this option are required to either study abroad or do an internship that corresponds with their related area of study.

**PRESCRIBED COURSES** (9 credits)

GER 200 GH:IL(3) (Sem: 1-4)

GER 399 IL(3), GER 499 IL(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

Select 18 credits in related areas such as Hotel, Restaurant, and Institutional Management; Linguistics; Applied Linguistics; Sociology; Economics; Science, Technology and Society, or in another professional area where competency in German is desirable. The courses are to be selected in consultation with an advisor. At least six credits of such courses must be at the 400 level. (Sem: 1-8)

Select 6 credits in German at the 300 or 400 level. (Sem: 5-8)

*Note: A work experience in a German-speaking country may be substituted for GER 399 or GER 499. The work experience may take the form of an internship (LA 495 or GER 495). If the number of work-experience credits for which a student registered is less than 6, the difference in the number of credits must be earned by taking additional courses in consultation with the Department of Germanic and Slavic Languages and Literatures.*

**GERMAN BUSINESS OPTION:** (44 credits)

This option is designed to introduce German majors to the principles of business administration. The curriculum combines an exposure to managerial processes with foreign language competency in German.

**PRESCRIBED COURSES** (37 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), I B 303 IL(3), MGMT 100(3) (Sem: 3-4)

ECON 333 GS(3), ENGL 202D GWS(3), FIN 100(3), GER 308Y IL(3), GER 408 IL(3), I B 403(3), MKTG 221(3) (Sem: 5-8)

**ADDITIONAL COURSES** (7 credits)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 1-8)

Select an additional 3 credits of German courses at the 400 level (Sem: 5-8)

**GERMAN ENGINEERING OPTION:** (33 credits)

(Open only to students enrolled in an engineering major.)

This option is designed to combine the study of German and Engineering in order to internationalize and enhance the study and practice of the engineering profession.

**PRESCRIBED COURSES** (12 credits)

GER 308Y IL(3), GER 408 IL(3) (Sem: 5-8)

GER 399 IL(3), GER 499 IL(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 21 credits of engineering courses in consultation with the engineering adviser (Sem: 3-10)

***Note:** The German Engineering Option is open only to Engineering majors. A work experience in a German-speaking country may be substituted for GER 399 or GER 499. The work experience may take the form of an internship (ENGR 195I) or part of a cooperative education sequence (ENGR 295I, ENGR 395I, or ENGR 495I). If the number of work-experience credits for which a student registered is less than 6, the difference in the number of credits must be earned by taking additional courses in consultation with the Department of Germanic and Slavic Languages and Literatures.*

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2011

## Global Studies

*Berks College (GLBST)*

PROFESSOR KIRWIN SHAFFER, *Program Coordinator*

This major is designed for students who are interested in a liberal arts degree with a concentration in global studies. Featuring both active and collaborative classroom experiences in addition to intensive study abroad/internship experiences, the program is designed for students who wish to develop a set of analytical and interpersonal skills that will prepare them for entry-level employment in a wide range of government and non-profit organizations and agencies and in businesses and industry. Because of the flexible and broad nature of the degree, students might also use this major as preparation for graduate or professional school in business, law, or the social sciences. This program differs most notably from traditional majors in international/global studies by requiring core courses in world literature and intercultural communication, while retaining the traditional foreign language, history, and political science emphasis of most other programs. Study abroad and an internship with an international organization are also important features of this degree.

For the B.A. degree in Global Studies, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in GENERAL EDUCATION)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 39 credits<sup>[1]</sup>

Including 24 credits at the 400 level (9-15 credits of which are included in the prescribed courses, the other 9-15 must be chosen from the option tracks below). A minimum of 3 credits of study abroad (meeting any requirement) and 3 credits of INTST 495 are required for the completion of this degree. Courses meeting major requirements may be taken abroad; however, typically courses taken abroad will qualify to meet a student's optino, internship, and/or language requirements.

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 18-24 credits

**PRESCRIBED COURSES** (18-24 credits)

PL SC 014 GS;IL(3) (Sem: 1-4)

HIST 320W(3) (Sem: 1-6)

CAS 271 US;IL(3) (Sem:3-4)

ENGL 403(3) (Sem: 3-6)

INTST 495 (3-9), PL SC 440(3) (Sem: 7-8)

**REQUIREMENTS FOR THE OPTION:** 15-21 credits

**LATIN AMERICAN CULTURE OPTION:** (15-21 credits)

**ADDITIONAL COURSES** (15-21 credits)

Select 15-21 credits from the following list of courses:

CAS 471 US;IL(3), CEDEV 430(3), CMLIT 153 GH;IL(3), ECON 333 GS(3), HIST 179 GH;IL(3), HIST 432 IL(3), HIST 467 US;IL(3), HIST 468 IL(3), I B 303(3), INTAG 100 GS;IL(3), SPAN 100(3) <sup>[83]</sup>, SPAN 131 GH;IL(3) or SPAN 131Y GH;US;IL(3), SPAN 200(3) <sup>[83]</sup>, SPAN 220(3) <sup>[83]</sup>, SPAN 253W(3) <sup>[83]</sup>, SPAN 300(3) <sup>[83]</sup>, SPAN 420(3) <sup>[83]</sup>, SPAN 476(3) <sup>[83]</sup>, SPAN 497(1-9) <sup>[83]</sup> (Sem: 1-8)

**CONTEMPORARY HISTORY AND POLITICS OPTION:** (15-21 credits)

**ADDITIONAL COURSES** (15-21 credits)

Select 15-21 credits from the following list of courses:

CAS 471 US;IL(3), CEDEV 430(3), CMLIT 153 GH;IL(3), ECON 333 GS(3), ENGL 182A GH;US;IL(3), FR 139 GH;IL(3), GER 100 GH;IL(3), HIST 120 GS;IL(3), HIST 175 GH;IL(3), HIST 179 GH;IL(3), HIST 181 GH;IL(3), HIST 192 GH;IL(3), HIST 435(3), HIST 467 US;IL(3), HIST 468 IL(3), HIST 488(3), I B 303(3), INTAG 100 GS;IL(3), PL SC 412(3), PL SC 413(3), PL SC 424(3), PL SC 443(3), PL SC 454 IL(3), PL SC 487(3), RUS 100 GH;IL(3), SPAN 131 GH;IL(3), UKR 100 GH;IL(3) (Sem: 1-8)

<sup>[1]</sup> A student enrolled in this major must maintain a grade-point average of C or better, as specified in Senate Policy 82-44.

<sup>[83]</sup> These courses also constitute the projected Spanish minor.

## Global and International Studies

*University Park, College of the Liberal Arts (GLOBE)*

PROFESSOR CAROLINE ECKHARDT, *in charge*

The interdisciplinary major in Global and International Studies is intended to prepare students for lives and careers in a world that is increasingly interdependent. It reflects a "One World" concept that emphasizes the importance of global perspectives, foreign language study, and education or working experience abroad. The structure of the major also recognizes the fact that the majority of the world's people live in regions other than the European and North American sphere, and that a knowledge of non-Anglophone cultures is an important form of preparation for global citizenship. Because students need specific fields of knowledge as well as a global framework, this major is available only as a concurrent or sequential major, and students must first have a primary major. Some components of the Global and International Studies requirements may overlap with those of the primary major; for details, consult the adviser for the Global and International Studies major.

The degree (e.g., B.A., B.S., B.F.A., etc.) will normally match that of the student's first major.

Students in baccalaureate degree programs other than those leading to the B.A. who desire a B.A. degree in International Studies will receive concurrent degrees and have to fulfill all requirements for concurrent degrees and for the B.A. degree as indicated under "Concurrent Majors and Sequential Majors" in the GENERAL INFORMATION section of this bulletin and under "Baccalaureate Degree Requirements" at the beginning of this college section.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **REQUIREMENTS FOR THE MAJOR:** 30 credits

This major also requires significant experience abroad, of at least 8 weeks in length. The requirement for experience abroad can be fulfilled by formal study abroad, and/or approved internship or employment or comparable experience (such as Peace Corps service).

### **PRESCRIBED COURSES** (3 credits)

CMLIT 010 GH;IL(3) (Sem: 1-6)

### **ADDITIONAL COURSES** (3 credits)

Select 3 credits in Global Approaches from the following: A&A 100 GA;IL(3), ANTH 045 GS;US;IL(3), CMLIT 013 GH;IL(3), CMLIT 143 GH;US;IL(3), ECON 004 GS(3), FR 139 GH;IL(3), GEOG 040 GS;IL(3), HIST 010 GH;IL(3), HIST 011 GH;IL(3), MUSIC 009 GA;IL(3), PL SC 003 GS;IL(3), PL SC 014 GS;IL(3), RL ST 001 GH;US;IL(3) (Sem: 1-6)

### **SUPPORTING COURSES AND RELATED AREAS** (24 credits)

(Must include at least 12 credits at the 400 level)

#### **A. Foreign Language**

Select 12 credits EITHER in a language beyond the 12th -credit-level proficiency OR in a second foreign language, or equivalent proficiencies.[Note: For foreign language majors, study must be in a foreign language other than primary major.] (Sem: 1-5)

#### **B. Global Perspectives** (6 credits)

Select from departmental list. One course in this area or in Area C must be a 400-level course in CMLIT.

#### **C. World Regions** (6 credits)

Select from departmental list. 6 credits in courses focused on one of the following world regions: Africa, Asia and the Pacific, Eastern European and Slavic Cultures, Latin America and the Caribbean, or the Middle East. Language courses beyond the sixth semester are eligible if they focus on significant content beyond language skills. One course in this area or in Area B must be a 400-level course in CMLIT.

## Global and International Studies

University Park, College of the Liberal Arts (GSBA)

PROFESSOR Henry Morello, in charge  
PROFESSOR Elaine Farndale, in charge

The interdisciplinary B.A. degree in Global and International Studies is intended to prepare students for lives and careers in a world that is increasingly interdependent. It reflects a "One World" concept that emphasizes the importance of global perspectives, international communication, and study or working experience abroad. The major combines the expertise of multiple disciplines, including the Social Sciences and the Humanities, to suggest a variety of methods for understanding the dynamic issues facing human beings across the globe. The structure of the major also recognizes the fact that the vast majority of the world's people live in regions other than the European and North American spheres, and that a knowledge of non-Anglophone cultures is an important form of preparation for global citizenship.

The major develops transnational and trans-regional literacy, drawing on coursework both in the Humanities and the Social Sciences to focus on questions of globalization, ethical imagination, and ways to engage peoples and cultures in local terms. Students learn to situate global trends, both macro and micro in nature, in relation to other historical processes. Most courses for the GLIS major will demonstrate a global or regional (rather than national) perspective and address a central topic in one of five designated Pathways.

### Human Rights

This Pathway examines the history, development, enforcement, and violations of concepts of the basic rights of mankind. Whether through questions of torture, freedom of conscience, trafficking of women and children, agreements about prisoners of war, human rights constantly need redefining and rethinking if they are to be broad enough to cover everyone on our planet and specific enough to have a real effect on human behavior.

### Culture and Identity

Global economic, political, and cultural processes are bound up with complex questions of culture and identity at the individual, familial, and community levels. Examining how differences in language, ideology, religion, race, gender, ethnicity, and sexual orientation among others impact our sense of self and other, this Pathway considers: foundational expressions of social and cultural values; the formation and contestation of identity over time; the impacts of modernization on individual, family, and community identity; genetic manipulation and modification; and questions of colonization and colonialism on political and cultural structures.

### Global Conflict

This Pathway examines war, peace, and security on a global and historical scale to reveal the contingent decisions, random accidents, and devious schemes which continue to be at the root of violence around the world. This Pathway studies conflicts great and small, from tribal warfare to national and international wars, revolutions, acts of terrorism, and so on. It also considers successful and unsuccessful efforts to halt conflict, and how and why approaches to and experiences with peace can affect conflict situations.

### Wealth and Inequality

This Pathway considers global distribution of people, goods, and money, both in the contemporary world and in deep historical time, examining feudalism, trade, imperialism, nationalism, and the socioeconomic impacts of globalization. Some of the themes on which it focuses include: motivations for and experiences of such human movement as migration, exploration, travel, slavery, diaspora, asylum, and exile; demographic change; poverty, wealth, and economic inequality; and political, social, and cultural incentives for and restrictions on circulation (censorship, translation, free trade, prize culture, protectionism, access, privilege, bias).

### Health and Environment

This Pathway considers the direct impact of global issues on the life on our planet. As intercontinental travel makes nearly every epidemic already global today, the more and more the health of individuals is directly connected to the health of the globe. Growing populations, aging demographics, increasing pollution, and decreasing food resources present new challenges for global human health. Similarly the global cycles of climate change and crisis force us to reconsider both natural processes and anthropogenic influences, examining the philosophy and history of human's place in nature. Some of the themes on which this Pathway focuses include: the relationship between local resources and global geopolitics; cultural, economic, and social effects of global climate change; pollution and conservation; environmental movements; and evolution and extinction.

Alternatively, students with a GPA above 3.5 may work with advisors and faculty to create a personalized Pathway that reflects their interests.

The B.A. degree requires six credits of foreign-language study beyond the 12-credit proficiency level, or in a second foreign language. The B.A. degree may include a significant engaged scholarship experience (such as undertaking an internship, job, volunteer position, or period of study) located either abroad or in a majority non-English-speaking part of the United States.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

For the B.A. degree in Global and International Studies, a minimum of 120 credits is required

### GENERAL EDUCATION: 45 credits

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 15 credits

### BACHELOR OF ARTS DEGREE REQUIREMENTS: 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR: 36 credits

#### PRESCRIBED COURSES (9 credits)

GLIS 101 GS; IL(3), GLIS 102 GH; IL(3) (Sem: 1-4)  
INTST 400 IL(3) (Sem: 6-8)

#### ADDITIONAL COURSES (6 credits)

Select EITHER 6 cr. in a language **beyond** 12th-credit level proficiency, OR 6 cr. in a second foreign language, or equivalent proficiencies. Courses must be taught in the language, i.e., not in English (Sem: 1-6)

#### SUPPORTING COURSES AND RELATED AREAS (21 credits)

Select 21 credits in the Pathway courses. Lists of the Pathway courses are kept by departmental advisors, and appear online on the program's website, glis.la.psu.edu

-15 credits of these 21 will be in a single Pathway concentration (no more than 6 credits towards the Pathway completion are to be from courses in a single department).

-6 credits of these 21 are from other Pathway concentrations.

- At least 12 credits must be taken at the 400 level or higher.

With approval of the academic advisor and/or the directors of undergraduate studies for the GLIS major, students are encouraged to substitute up to 15 credits of their Pathway work with equivalent coursework in significant engaged scholarship experience (such as undertaking an internship, job, volunteer position, or period of study) located either abroad or in a majority non-English-speaking part of the United States.

### Wealth and Inequality

This Pathway considers global distribution of people, goods, and money, both in the contemporary world and in deep historical time, examining feudalism, trade, imperialism, nationalism, and the socioeconomic impacts of globalization. Some of the themes on which it focuses include: motivations for and experiences of such human movement as migration, exploration, travel, slavery, diaspora, asylum, and exile; demographic change; poverty, wealth, and economic inequality; and political, social, and cultural incentives for and restrictions on circulation (censorship, translation, free trade, prize culture, protectionism, access, privilege, bias).

### Health and Environment

This Pathway considers the direct impact of global issues on the life on our planet. As intercontinental travel makes nearly every epidemic already global today, the more and more the health of individuals is directly connected to the health of the globe. Growing populations, aging demographics, increasing pollution, and decreasing food resources present new challenges for global human health. Similarly the global cycles of climate change and crisis force us to reconsider both natural processes and anthropogenic influences, examining the philosophy and history of human's place in nature. Some of the themes on which this Pathway focuses include: the relationship between local resources and global geopolitics; cultural, economic, and social effects of global climate change; pollution and conservation; environmental movements; and evolution and extinction.

Alternatively, students with a GPA above 3.5 may work with advisors and faculty to create a personalized Pathway that reflects their interests.

The B.S. degree requires six credits in quantitative competencies appropriate to the social sciences. The B.S. degree may include a significant engaged scholarship experience (such as undertaking an internship, job, volunteer position, or period of study) located either abroad or in a majority non-English-speaking part of the United States.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

For the B.S. degree in Global and International Studies, a minimum of 120 credits is required.

**GENERAL EDUCATION:** 45 credits  
(3-6 GQ credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21-24 credits

**REQUIREMENTS FOR THE MAJOR:** 57-58 credits

**PRESCRIBED COURSES** (12 credits)  
GLIS 101 GS;IL(3), GLIS 102 GH;IL(3) (Sem: 1-4)  
MATH 021 GQ(3) (Sem: 1-8)  
INTST 400 IL(3) (Sem: 6-8)

**ADDITIONAL COURSES** (3-4 credits)  
Choose 3-4 credits from one of the following: STAT 100 GQ(3), STAT 200 GQ(4), STAT 220(3), SOC 207(3), or PSYCH 200 GQ(4) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (42 credits)  
Select 21 credits in the Pathway courses. Lists of the Pathway courses are kept by departmental advisors, and appear online on the program's website, [glis.la.psu.edu](http://glis.la.psu.edu).

-15 credits of these 21 will be in a single Pathway concentration (no more than 6 credits towards the Pathway completion are to be from courses in a single department).

-6 credits of these 21 are from other Pathway concentrations.

- At least 12 credits must be taken at the 400 level or higher. These credits do not have to be within a single Pathway.

Select 21 credits in related areas such as engineering, business, science, the humanities, or the social sciences, or in another area where competency in Global and International Studies is desirable. The courses are to be selected in consultation with an advisor. At least six credits of such courses must be at the 400-level.

With approval of the academic advisor and/or the directors of undergraduate studies for the GLIS major, students with equivalent coursework in significant engaged scholarship experience (such as undertaking an internship, job, volunteer position, or period of study) located either abroad or in a majority non-English-speaking part of the United States, may use up to 15 of those credits to substitute for credits in the Pathways.

Review Date: 04/14/2015

## Geosciences

University Park, College of Earth and Mineral Sciences (GSCBA)

PROFESSOR PETER J. HEANEY, Associate Head for Undergraduate Programs

The geosciences are concerned with understanding earth processes and the evolutionary history of the Earth. Geoscientists work to discover and develop natural resources such as groundwater, metals, and energy sources; to solve technology-generated environmental problems such as acid mine drainage and waste disposal; to predict geological events, such as the occurrence of earthquakes and volcanism; and to solve fundamental questions concerning the origin and evolution of Earth and life. The Bachelor of Arts degree program stresses data collection; investigation, analysis and synthesis of information related to complex natural problems; rigor of thought and clarity of oral and written expression. The B.A. provides a basic education in geosciences, and is designed for students who wish to prepare themselves for careers that interface among science, social science, and business. Examples of these careers include environmental law, national and international planning or resource management, and K-12 teaching.

For the B.A. degree in Geosciences, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### BACHELOR OF ARTS DEGREE REQUIREMENTS: 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR: 72 credits

(This includes 21 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 6 credits of GWS courses.)

### PRESCRIBED COURSES (10 credits)

EM SC 100S GWS(3) [\[71\]](#) (Sem: 1-2)

GEO SC 001(3) [\[11\]](#) (if GEO SC 001 is not available, GEO SC 020 GN(3) may be substituted) (Sem: 1-6)

GEO SC 201(4) [\[11\]](#) (Sem: 3-6)

### ADDITIONAL COURSES (48-51 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

MATH 140 GQ(4) or MATH 110 GQ(4) (Sem: 1-2)

GEO SC 310(4) [\[11\]](#) or GEO SC 320(3) [\[11\]](#) (Sem: 3-6)

GEO SC 202(4), GEO SC 203(4), or GEO SC 204(4) (Sem: 5-8)

Select 20 credits--two of the following sequences for 8 credits each and the third sequence for 4 credits:

-BIOL 110 GN(4), BIOL 220W GN(4) (Sem: 1-4)

-CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) (Sem: 1-4)

-PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 1-4)

*Note: PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) may substitute for up to 8 credits in Physics for students with MATH 140 GQ(4), MATH 141 GQ(4).*

Select 2-4 credits of advanced mathematics in consultation with an adviser; list includes MATH 111 GQ(2), MATH 141 GQ(4), STAT 200 GQ(4), STAT 250 GQ(3) (Sem: 2-6)

Select 6 credits from 300- and 400-level GEO SC courses (Sem: 5-8)

Select 3 credits of appropriate field/laboratory experience in consultation with adviser (Sem: 6-8)

Select 3 credits of writing-intensive courses from within Earth and Mineral Sciences to include, but not limited to: GEOG 412W(3), GEOG 310W(3), GEO SC 402W(3), GEO SC 470W(1-6), METEO 471W(3) (Sem: 6-8)

### SUPPORTING COURSES AND RELATED AREAS (11-14 credits)

Select 11-14 credits in consultation with adviser.

(Students may apply 6 credits of ROTC) (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[71]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## Geosciences

University Park, College of Earth and Mineral Sciences (GSCBS)

PROFESSOR PETER J. HEANEY, Associate Head for Undergraduate Programs

The geosciences are concerned with understanding earth processes and the evolutionary history of the Earth. Geoscientists work to discover and develop natural resources such as groundwater, metals, and energy sources; to solve technology-generated environmental problems such as acid mine drainage and waste disposal; to predict geological events, such as the occurrence of earthquakes and volcanism; and to solve fundamental questions concerning the origin and evolution of Earth and life. Our degree programs stress data collection; investigation, analysis and synthesis of information related to complex natural problems; and rigor of thought and clarity of oral and written expression. The B.S. provides a broad foundation in the physical and natural sciences for students who seek immediate employment or post-graduate education in several areas of the geosciences. Examples of careers include the petroleum and mining industries; local or federal resource management; water resources, treatment and management; energy and environmental industries; and academia. A senior thesis involving independent research is required of all students.

### Entry to Major Requirements:

In addition to the minimum grade point average (GPA) requirements described in the University Policies, the Geosciences entrance-to-major requirement must also be completed with a minimum grade of C: MATH 140 GQ(4).

**GENERAL OPTION:** This option is designed to provide sufficient flexibility so that the student has the opportunity to prepare for graduate school by focusing on specialized areas in the geosciences. The option's flexibility also permits students to develop a broad background in the geosciences in preparation for post-graduate majors that require breadth, such as environmental law.

**HYDROGEOLOGY OPTION:** This option helps prepare the student for entry-level positions in environmental agencies and firms where a specialized knowledge of groundwater and related areas is required. The option is also appropriate for students wishing to pursue an advanced degree in the area of hydrogeology.

For the B.S. degree in Geosciences, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits  
(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 97 credits  
(This includes 21 credits of General Education courses: 9 credits of GN courses, 6 credits of GQ courses, 6 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 69 credits

**PRESCRIBED COURSES** (66 credits)  
BIOL 110 GN(4), EM SC 100S GWS(3) [71], MATH 140 GQ(4) [11], MATH 141 GQ(4) (Sem: 1-2)  
CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), PHYS 211 GN(4), PHYS 213 GN(2) (Sem: 1-4)  
GEOSC 001(3) [if GEOSC 001 is not available, GEOSC 020 GN(3) may be substituted] (Sem: 1-6)  
GEOSC 201(4) [11], GEOSC 202(4) [11], GEOSC 204(4) (Sem: 3-6)  
GEOSC 203(4) [11], GEOSC 310(4) [11], GEOSC 465(4) [11], GEOSC 472A(3), GEOSC 472B(3) (Sem: 5-6)  
GEOSC 494W(3), GEOSC 496(1) (Sem: 7-8)

**ADDITIONAL COURSES** (3 credits)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

**REQUIREMENTS FOR THE OPTION:** 28 credits

**GENERAL OPTION:** (28 credits)

**ADDITIONAL COURSES** (14 credits)  
Select 14 credits from 300- and 400-level GEOSC courses: GEOSC 303(3), GEOSC 340(3), GEOSC 402(3), GEOSC 416(3), GEOSC 421(3), GEOSC 422(3), GEOSC 423(4), GEOSC 424(3), GEOSC 426(3), GEOSC 434(3), GEOSC 439(3), GEOSC 440(3), GEOSC 451(3), GEOSC 452(3), GEOSC 454(3), GEOSC 461(3), GEOSC 470W(3), GEOSC 471(3), GEOSC 489(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (14 credits)  
Select at least 2 credits in physics from approved departmental list (Sem: 1-4)  
Select 3 credits of computer science, mathematics [above the level of MATH 141 GQ(4)], or statistics (Sem: 3-6)  
Select 9 credits, in consultation with adviser, supportive of the student's interest (Students may apply 6 credits of ROTC.) (Sem: 3-8)

**HYDROGEOLOGY OPTION:** (28 credits)

**PRESCRIBED COURSE** (3 credits)  
GEOSC 452(3) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)  
Select 3 credits from CMPSC 201 GQ(3), CMPSC 202 GQ(3), CMPSC 203 GQ(4), STAT 250 GQ(3) [if STAT 250 is not available, STAT 200 GQ(4) may be substituted] (Sem: 3-8)  
Select 3 credits from A S M 327(3), E R M 450(3), SOILS 101 GN(3) (Sem: 5-8)  
Select 9 credits from A and B. Students must select at least 3 credits from A and 3 credits from B.  
A. CHEM 202(3), CHEM 450(3), E R M 433(3), GEOSC 413W(3), GEOSC 419(3) (Sem: 3-8)  
B. ENVSE 408(3), GEOG 362(3), GEOSC 340(3), GEOSC 439(3), GEOSC 454(3), GEOSC 483(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)  
Select at least 2 credits in Physics from approved departmental list (Sem: 1-4)  
Select 8 credits, in consultation with advisor, supportive of the student's interest. (Students may apply 6 credits of ROTC) (Sem: 3-8)

### Integrated B.S./M.S. Program in Geosciences

The Department of Geosciences offers an integrated B.S./MS. Program that is designed to allow academically superior students to obtain both the B.S. and the M.S. degree in Geosciences within 5 years of study. Students who wish to complete the Integrated B.S./M.S. Program in Geosciences must apply for admission to the Graduate School and the Integrated B.S./M.S. program by the end of their junior year.

During the first three years, the student follows the course scheduling of one of the options in Geosciences; however, if a student intends to enter the Integrated B.S./M.S. program, he/she would be encouraged to take, wherever appropriate, upper level classes. By the end of the junior year, the student normally would apply for admission to the program. A decision of acceptance would be made prior to the beginning of the senior year and a M.S. Advising

Committee appointed. During the senior year, the student would follow the scheduling of the B.S. Geosciences option he/she has selected, with an emphasis on completing 500-level coursework wherever appropriate. In place of the Senior Thesis, the student will complete a M.S. Thesis

During the fifth year the student will take courses fulfilling the departmental M.S. degree requirements and complete the M.S. Thesis.

**Admissions Requirements**

Students who wish to complete the Integrated B.S./M.S. Program in Geosciences must apply for admission to the Graduate School and the Integrated B.S./M.S. program by the end of their junior year. Typical tests scores of students admitted to the Geosciences Graduate Program are: GPA 3.5, and GRE's Verbal 570 and Quantitative 700. Three letters of recommendation by faculty members for admission to graduate studies are required. The applications are reviewed by the Admissions Committee of the Geosciences Graduate Program and acted upon by the Associate Head for Graduate Programs.

The details of the program requirements can be found in the *Graduate Degree Programs Bulletin*.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[71]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

## Health Policy and Administration

Capital College (HPACA)  
University Park, College of Health and Human Development (H P A)  
University College: Penn State Lehigh Valley, Penn State Mont Alto (HPACC)  
Penn State World Campus

PROFESSOR MARIANNE HILLEMIE, *Head of the Department*

This major helps prepare students for management and policy positions or graduate study in the field of health care. Students in the major develop the skills and knowledge needed to understand the complex societal problem of providing access to quality health care at reasonable cost. All Health Policy and Administration students complete an internship in a health-care-related setting, giving them valuable experience and contacts in the industry. HPA students study a multidisciplinary curriculum that prepares them to work as health services managers or health analysts. Health services managers, also called health care executives or health care administrators, plan, direct, and coordinate medical, health, and/or long-term care services. They might manage an entire facility or specialize in managing a specific clinical area or department, administrate a program or manage a practice for a group of providers. Health analysts are employed throughout the health care industry gathering, compiling, modeling, validating, and analyzing data needed by different organizations of providers, payers, and policy makers. Analysts help these organizations understand the current trends in the health care system and to make well-informed decisions. Both health services managers and analysts must be able to adapt to changes in health care laws, regulations, and technology. HPA students have also used the degree to prepare for graduate study in business, law, medicine or allied health fields, health administration, health services research or policy, and public health.

The requirements for the major are outlined below. Students may select courses in the Supporting Courses and Related Areas category to fulfill requirements for a minor, to develop a specialization, or to complete courses required for admission to medical, dental, law, or other graduate schools.

For the B.S. degree in Health Policy and Administration, a minimum of 120 credits is required.

The integrated B.S. in Health Policy and Administration/Master of Health Administration (MHA) program allows qualified undergraduate students to earn both degrees in five calendar years of full time academic study.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. H P A requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

### Integrated B.S. in Health Policy and Administration/Master of Health Administration (M.H.A.) Admission and Degree Requirements

The following credentials will be considered for admission:

- A demonstrated ability to communicate effectively, an advanced level of maturity, and high motivation to pursue a career in the health care field
- Academic references
- Successful completion of 60 credits having maintained a cumulative GPA of 3.4 or better

Students admitted to the B.S. in Health Policy and Administration/MHA integrated program are able to earn both the B.S. and MHA in five calendar years of full time academic study.

A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Human Development and Family Studies

Penn State Altoona (HFSAL)

Penn State Harrisburg (HFSHA)

University College (HFSUC): Penn State Brandywine, Penn State DuBois, Penn State Fayette, Penn State Mont Alto, Penn State Shenango, Penn State Worthington-Scranton, Penn State York

College of Health and Human Development (HD FS)

World Campus

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR DOUGLAS M. TETI, *Head of the Department*

This major is a multidisciplinary program that examines the development of individuals and families across the life span. It enables students to prepare for professional, managerial, or scientific roles in health and human services professions, in public and nonprofit agencies, and in business and industry, as well as for advanced professional or graduate study. Students obtain a broad background in individual and family development across the life span. Courses emphasize biological, psychological, social/cultural, and economic aspects of development. Through course work and undergraduate internships or research projects, students develop skills relevant to career objectives, such as counseling, human assessment, program planning and evaluation, and research.

Two options are available within the major: (1) Life Span Human Services option and (2) Life Span Developmental Science option. The introductory paragraph to each of the options includes a brief list of career opportunities. More extensive descriptions of career opportunities in both public and private sectors are available for the program.

**LIFE SPAN HUMAN SERVICES OPTION:** This option focuses on the acquisition and application of scientific knowledge about development and family functioning across the life span for the purposes of enhancing personal and family development. Courses emphasize: (1) understanding the biological, psychological, and social development across the life span, and the structuring and functioning of families; (2) understanding basic theoretical and methodological issues; and (3) the development of applied skills in intervention and evaluation, prevention, and in the formulation of social policy. An approved field experience in a setting that serves children, youth, adults, or the aged is required for this option. Typical employment settings include preschools, daycare centers, hospital programs for children, youth, and families, institutional and community mental health programs for individuals and families, programs for abused or neglected children and adolescents, women's resource centers, human resources programs, employee assistance programs, nursing homes, area agencies on aging and other community settings for older adults, and public welfare and family service agencies. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, counseling or social work.

**LIFE SPAN DEVELOPMENTAL SCIENCE OPTION:** This option focuses on the understanding of contemporary methodological approaches to the acquisition of scientific knowledge about individual development over the life span and about family development. This option provides preparation for advanced training in careers in developmental or family research, teaching at a college or university, or for professional careers that require graduate training. Courses within this option emphasize a thorough understanding of the theory and methods of developmental and family theory and research. An approved, multi-semester research practicum is an integral component of this option. Typical postgraduate pursuits of students completing this option include graduate study in human development, family studies, psychology, or sociology, or advanced professional training in psychology, law, behavioral health, social work, or in other programs related to services for individuals and families.

For the B.S. degree in Human Development and Family Studies, a minimum of 120 credits is required.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. HD FS requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

## History

*Altoona College (HISAL)*

This major provides a broad introduction to the history of the great civilizations of the world and specific areas of historical inquiry. Centered in one of the basic, traditional disciplines, the History major offers invaluable preparation for students interested in a career in government, international relations, law, or librarianship, as well as essential training for those interested in a professional career as an academic or public historian, archivist, or secondary school teacher. Along with the perspective on the present that a study of the past engenders, the program develops skills in research, analysis, and synthesis that have proved useful in commerce and industry. The History major combines easily with minors or even multiple majors, providing flexibility in one's career choice.

For a B.A. degree in History, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

## History

Abington College (HSTAB)  
University Park, College of the Liberal Arts (HIST)

PROFESSOR MICHAEL KULIKOWSKI, Head

This major provides a broad introduction to the history of the great civilizations of the world and specific areas of historical inquiry. Centered in one of the basic, traditional disciplines, the History major offers invaluable preparation for students interested in a career in government, international relations, law, or librarianship, as well as essential training for those interested in a professional career as an academic or public historian, archivist, or secondary school teacher. Along with the perspective on the present that a study of the past engenders, the program develops skills in research, analysis, and synthesis that have proved useful in commerce and industry. The History major permits easy combination with minors, area studies, or even a concurrent major, providing flexibility in one's career choice.

For the B.A. degree in History, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (3 credits)  
HIST 302W(3) (Sem: 5-6)

**ADDITIONAL COURSES** (6 credits)  
Choose one sequence from the following three:  
HIST 001 GH;IL(3), HIST 002 GH;IL(3) (Sem: 1-4)  
HIST 010 GH;IL(3), HIST 011 GH;IL(3) (Sem: 1-4)  
HIST 020 GH;US(3), HIST 021 GH;US(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)  
Select 12 credits, in consultation with an advisor, at the 100-200-level, one course from **each** of the following field categories: Europe, United States, Global, Pre-Modern\* (Sem: 1-4)  
Select 3 credits at the 100-400-level (Sem: 1-8)  
Select 12 credits at the 400-level, at least one course which must be in Global History (Sem: 5-8)

\* Courses that appear in two History categories (such as HIST 174) cannot be double-counted to be applied to two field categories. However, the student may choose to which category to apply the course.

### Integrated B.A./M.A. Program in History

The Department of History offers an integrated B.A./M.A. program that is designed to allow academically superior baccalaureate students to obtain both the B.A. and the M.A. degrees in History within five years of study. The first two years of undergraduate coursework include the University General Education and Liberal Arts requirements in addition to introductory coursework in the major. In the third year, students are expected to take upper-level courses and the department's undergraduate capstone seminar. By the fourth year students should have selected the primary fields of study and be enrolled exclusively in 400 and graduate-level courses in those areas. The fifth and final year of the program typically consists purely of graduate seminars. The program culminates with an M.A. oral defense of seminar papers that best represents their interests and work written in two of the graduate seminars.

By encouraging greater depth and focus by the beginning of the third undergraduate year, this program will help the student more clearly define his/her area of interest among the four main primary areas of focus in the department's graduate program. As a result, long-range academic planning for exceptional students pursuing doctoral degrees after leaving Penn State, or other professional goals, will be greatly enhanced. With the IUG they would be highly qualified to enter directly into careers in secondary education, and other government positions that require graduate degrees. Students who have completed this program but wish to continue on to a Ph.D. will be more competitive in applying for admission to Ph.D. programs in History and Area Studies but also will be well placed to apply to other professional programs including library science, law, and museum studies.

### Admission Requirements

The number of openings in the integrated B.A./M.A. program is limited. Admission will be selective based on specific criteria and the unqualified recommendation of faculty. Applicants to the integrated program:

1. Must be enrolled in the History B.A. program<sup>[1]</sup>.
2. Must have completed 60 credits of the undergraduate degree program (it is strongly suggested that students apply to the program prior to completing 100 credits).
3. Must be accepted without reservation into the M.A. program in History.
4. Should have a recommended overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
5. Must present a departmentally approved plan of study in the application process.
6. Must be recommended by the chairs of the Department's undergraduate and graduate committees.

### Degree Requirements

Students must complete the requirements for a B.A. in history.

Students must complete the Master of History Requirements, which total 30 credit hours of graduate instruction, in addition to completing **123** credit hours of undergraduate instruction.

The 400-level courses, totaling 18 credit hours, can double-count towards both the B.A. and Master of History degrees.

Students must complete a minimum of 30 credit hours of graduate instruction over and above the **123** credit hours required of the B.A. degree in history. All 30 of these credit hours must be earned in 400-level, 500-level, or 600-level courses.

These 500-level courses must be grouped into two primary fields of study **with a minimum of 6 credit hours in each field.**

Student must have satisfactory academic performance to maintain enrollment in the program. A grade point average of 3.0 in the 30 credit hours of graduate instruction is required to receive the master's degree.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Hospitality Management

University Park, College of Health and Human Development (HM)  
Penn State Berks (HMBL) - Effective Fall Semester 2015

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR Donna Quadri-Felitti, *Director and Associate Professor, School of Hospitality Management*

This major helps provide preparation for management positions in hotels, restaurants, institutions, and other hospitality organizations. The program is designed to give the student a broad general education and a strong management and problem-solving orientation balanced with the requisite technical skills, all of them essential for career progression to upper-management positions in the hospitality professions. The program also helps prepare students for graduate study.

**HOSPITALITY MANAGEMENT OPTION:** This option helps prepare students for management positions in any segment of the hospitality industry, including hotels, restaurants, institutional or non-commercial operations, clubs, resorts, and casinos. The management focus helps provide students with the analytical, interpersonal, and organizational skills necessary to effectively function as hospitality professionals.

**MANAGEMENT DIETETICS OPTION:** This option helps prepare graduates for general management positions within the food services operated by or for medical organizations, health and life care facilities, college feeding, governmental agencies, and community feeding programs. The management dietitian is qualified to solve both nutrition and food service problems. Graduates may also choose to work in the management of commercial food service operations. Together with the necessary clinical experience, the option satisfies the eligibility requirements for membership in the American Dietetic Association.

**HOSPITALITY ENTREPRENEURSHIP OPTION:** (offered only at Penn State Berks ) This option helps prepare students for careers as owners or managers of small independently-owned hospitality operations or as entrepreneurs within large hospitality corporations or management companies in hospitality segments such as a restaurants, hotels, and non-commercial operations. The entrepreneurship focus helps provide students with creative problem solving, opportunity recognition, and leadership skills necessary to effectively manage small or individual unit's hospitality operations.

For the B.S. degree in Hospitality Management, a minimum of 120 credits is required. The B.S. degree program consists of three options: (1) Hospitality Management, (2) Management Dietetics, and (3) Hospitality Entrepreneurship.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. SHM requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(10.5-24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

**PRESCRIBED COURSES** (38 credits)  
B M B 211(3), BIOL 141 GN(3), CHEM 110 GN(3), CHEM 202(3), MICRB 106 GN(3), MICRB 107 GN(1) (Sem: 3-4)  
NUTR 251 GHA(3), NUTR 320(3), NUTR 370(1), NUTR 400(1), NUTR 445(3), NUTR 446(3), NUTR 452(3), NUTR 453(3), NUTR 456(2) (Sem: 5-8)

**ADDITIONAL COURSE** (3 credits)  
PSYCH 100 GS(3) or SOC 001 GS(3) (Sem: 1-4)

**HOSPITALITY ENTREPRENEURSHIP OPTION:** (24-25 credits)

**PRESCRIBED COURSES** (15 credits)  
HM 305(3), HM 319(3), HM 484(3), MGMT 215(3), NUTR 119(3) (Sem: 5-6)

**ADDITIONAL COURSES** (9-10 credits)  
Select 9-10 credits from the following: B A 243(4), B A 250(3), ENGR 310(3), MGMT 425(3), MGMT 427(3) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Fall Semester 2014

Review Date: 4/14/2015

## History

*Penn State Erie, The Behrend College (HSTBA)*

The B.A. degree program in History focuses on the study of the evolution of American and European institutions. This program enables students to pursue history in the traditional mode as a study of written records.

For the B.A. degree in History, a minimum of 124 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in the MAJOR Requirements)

**ELECTIVES:** 19 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 39 credits

(This includes 3 credits of General Education GWS courses.)

**ADDITIONAL COURSES** (30 credits)

HIST 001 GH;IL(3) or HIST 010 GH;IL(3) (Sem: 1-2)

Select 9 credits from ANTH 002 GS(3), ANTH 009 GS;IL(3), HIST 001 GH;IL(3), HIST 002 GH;IL(3), HIST 010 GH;IL(3), HIST 011 GH;IL(3), HIST 020 GH;US(3),

HIST 021 GH;US(3) (Sem: 1-8)

ENGL 202A GWS(3) or ENGL 202B GWS(3) (Sem: 3-6)

HIST 301W(3) or HIST 302W(3) (Sem: 5-6)

Select 12 credits of HIST at the 400-level or AM ST 491W(3), ANTH 420(3), ANTH 492(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits in each of the area categories - United States, Europe, and World from school-approved list (Sem: 1-8)

Last Revised by the Department: Spring Semester 2014

Blue Sheet Item #: 42-05-017

## Industrial Engineering

University Park, College of Engineering (I E)

PROFESSOR PAUL M. GRIFFIN, Head, Harold and Inge Marcus Department of Industrial and Manufacturing Engineering

The undergraduate program in industrial engineering, being the first established in the world, has a long tradition of providing a strong, technical, hands-on education in design, control, and operation of manufacturing processes and systems. The curriculum provides a broad-based education in manufacturing, operations research and ergonomics through a base of mathematics, physical and engineering sciences, and laboratory and industrial experiences. It builds a strong foundation for the development of a professionally competent and versatile industrial engineer, able to function in a traditional manufacturing environment as well as in a much broader economy, including careers in financial services, communication, information technology, transportation, health care, consulting, or academia.

### Program Educational Objectives:

We expect our graduates to:

- Participate in and lead cross-functionally defined project teams, designing, implementing and improving processes and systems in the manufacturing, service, or government sectors, using state-of-the-art tools and methodologies;
- Work effectively in managerial and leadership positions, to establish and execute engineering and business strategies;
- Work and communicate effectively with internal and external stakeholders in the global environment, while satisfying engineering, business and financial goals and the end customers; and
- Engage in continuous learning through varied work assignments, graduate school, professional training programs and independent study.

### Program Outcomes (Student Outcomes):

These are the specific competencies that our students are taught through the curriculum offered by the department. Our students are expected to know and be able to demonstrate these outcomes by the time they graduate. These relate to the skills, knowledge and behaviors that students acquire as they progress through the program. These are related to the ABET Outcomes (a) through (k). They are listed below.

- 1.1 Analyze and design both the job and the worksite in a cost-effective manner, as well as measure the resulting output.
- 1.2 Understand and apply cognitive systems engineering: identify visual, auditory, cognitive, perceptual and environmental aspects of human performance; Perform task analysis and evaluate human-computer interfaces.
- 1.3 Understand information contained in typical specifications and methods of product verification and conformance to specifications.
- 1.4 Program flexible manufacturing equipment and system controllers; design logical manufacturing layouts and implement contemporary systems issues.
- 1.5 Perform work measurement: develop an MTM analysis and carry out a work sampling study.
- 1.6 Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- 1.7 Understand and apply principles of effective human/interface design to address improved human performance, visual displays and software design.
- 2.1 Ability to apply time value of money and select cost-effective engineering solutions; understand cost-accounting principles.
- 2.2 Ability to apply probability concepts to solve engineering problems, including reliability issues.
- 2.3 Ability to apply statistical concepts to solve real life problems, such as hypotheses testing, design of experiments and statistical quality control methods such as process capability and control charts.
- 2.4 Formulate, solve and analyze the results of linear programming models of real-world applications.
- 2.5 Formulate, solve and analyze real problems using Markov chains, network models, dynamic programming, queuing theory and inventory models.
- 2.6 Gain in-depth knowledge of data storage, analysis and visualization related to manufacturing and service domains.
- 2.7 Ability to create simulation models of manufacturing and service systems and analyze simulation output.
- 2.8 Ability to apply mathematical models to optimally design and control service systems.
- 3.1 Present engineering study results in technical reports and orally.
- 3.2 Demonstrate life-long learning by synthesizing information from several sources.
- 4.1 Work effectively in groups on case studies and projects.
- 4.2 Demonstrate knowledge of contemporary issues.
- 4.3 Understand professional and ethical responsibility.
- 4.4 Understand the impact of engineering decisions in a global and societal context.

After completing courses required for the core and fundamental competencies in the major, students can choose two technical elective courses from the department list, out of which must be an I E course. In addition, the students must also complete the three-credit capstone design course.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Industrial Engineering, a minimum of 129 credits is required. This baccalaureate program in Industrial Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 111 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (77 credits)

CHEM 110 GN(3)[1], CHEM 111 GN(1), EDSE 100(3), MATH 140 GQ(4)[1], MATH 141 GQ(4)[1], PHYS 211 GN(4)[1] (Sem: 1-2)  
E MCH 210(5)[1], ENGL 202C GWS(3), MATH 220 GQ(2), MATH 231(2), MATH 250(3)[1], PHYS 212 GN(4)[1] (Sem: 3-4)  
I E 302(3)[1], I E 305(3)[1], I E 322(3)[1], I E 323(3)[1], I E 327(3)[1], I E 330(3)[1], I E 405(3)[1], MATSE 259(3) (Sem: 5-6)  
I E 425(3), I E 453(3), I E 460(3), I E 470(3), I E 480W(3) (Sem: 7-8)

### ADDITIONAL COURSES (16 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 1-2)

ECON 102 GS(3) or ECON 104 GS(3) (Sem: 1-2)

I E 408(3), I E 418(3), or I E 419(3) (Sem: 7-8) (*The courses not taken to satisfy this requirement can be taken as a track elective. Please see the department list*)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 3 credits as a science selection from department list (Sem: 3-4)

Select 6 credits as non-major electives from department list (Sem: 3-8)

Select 3 credits in manufacturing processes from department list. (Sem: 5-6) (*The course not taken to satisfy this requirement can be taken as a technical elective. Please see the department list*)

Select 6 credits of technical electives from the department list, out of which at least 3 credits must be I E credits.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Humanities

*Capital College (HUMN)*

PROFESSOR ROBIN VEDER, *Program Coordinator, School of Humanities*

This major helps students appreciate, understand, and interpret relationships among the arts, ideas, media, and values that have shaped Western and world cultures. Students are taught to become active learners who can synthesize, interpret, and communicate knowledge and experience through writing, speaking, and creative expression in a variety of media. The School helps students meet these goals by offering a range of interdisciplinary and discipline-based courses in the arts, art history, communication studies, English, history, literature, music, philosophy, theatre, and writing. The course of study includes interdisciplinary courses which examine topics and time periods from the perspectives of multiple Humanities disciplines. These courses engage students in cross-disciplinary critical thinking and analysis and prepare them for work in an increasingly interdisciplinary world. Students also choose two Humanities subfields to investigate in greater depth, choosing from history and global cultures; the visual and performing arts; philosophy and religious studies; and literature and writing. Students are also encouraged to combine this major with a minor in such fields as business administration, writing, and communications. The Humanities major prepares students for careers in the arts, arts administration, business, corporate communications, government, teaching, museum work, and law, as well as providing a foundation for graduate study in a liberal arts field.

### Entry to Major Requirements:

Entry to the Humanities major requires the completion of 27.1 or more credits and a 2.00 or higher cumulative grade-point average.

For a B.A. degree in Humanities, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-15 credits

### BACHELOR OF ARTS DEGREE REQUIREMENTS:

24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See Description of Bachelor of Arts Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR:

51 credits  
(At least 36 of the last 60 credits must be earned at Penn State, according to University Policy 83-80.)

### PRESCRIBED COURSES (12 credits)

[\[1\]](#)  
HUM 100 GH(3), HUM 200 GH(3), HUM 300W(3), HUM 400(3) (Sem: 1-8)

### ADDITIONAL COURSES (6 credits)

[\[1\]](#)  
Select 6 credits from Humanities (HUM) courses: HUM 150(3), HUM 311(3), HUM 410(3), HUM 430(3), HUM 453(3), HUM 460(3), HUM 461(3), HUM 491(3), HUM 494(3), HUM 495(3), HUM 496(3), HUM 497(3), HUM 499(3) (Sem: 3-8)

### SUPPORTING COURSES AND RELATED AREAS (33 credits)

(At least 15 credits of supporting courses must be at the 400 level.)

Select 12 credits in one of the four following areas; select 9 credits in a second area: (Sem: 1-8)

a. History and global cultures: select from HIST, CMLIT, SPAN (all courses with those prefixes), CAS 271 US;IL(3), COMM 350 IL(3), ENGL 486 IL(3), ENGL 488 IL(3), INTST 100 GS;IL(3)

b. Performing and visual arts and art history: select from ART, ART H, INART, MUSIC, THEA (all courses with those prefixes), COMM 215(3), COMM 241(3), COMM 242(3), COMM 250 GA(3)

c. Philosophy and religious studies: select from PHIL, RL ST (all courses with those prefixes)

d. Literature and writing: select from ENGL, CMLIT (all courses with those prefixes), COMM 230W(3), COMM 260W(3), COMM 332(3), COMM 346(3), COMM 474(3)

Select 12 credits from AM ST, ART, ART H, CAS, CHNS, CMLIT, COMM, ENGL, FR, HIST, HUM, INART, MUSIC, PHIL, RL ST, SPAN, or THEA and/or 12 credits that can be used toward a minor in an area of the student's interests. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Interdisciplinary Business with Engineering Studies

*Penn State Erie, The Behrend College (IBE)*

This major provides students with an interdisciplinary program containing both business and engineering course content. The major includes a set of core courses in both business and engineering/engineering technology that should enable a graduate to function effectively in a technical business environment. In addition, a student will be able to choose, from a selection of modules, a set of courses or electives designed to enable a student to function in a specific business or technical area. The modules provide an entry-level set of skills that will help graduates provide immediate value as an employee. The modules or set of electives will be approved by both the Schools of Business and Engineering.

In addition to completing the broad-based core in business, science, and engineering, students acquire the ability to work as members of a team toward successful attainment of a common goal, preparing them to work in businesses or to further their study in graduate school. The program develops written and oral communication skills from an early stage and culminates in a capstone course sequence consisting of a project that stresses communication, strategic product development, and product realization.

### Entrance to Major Requirements:

Entry to the Interdisciplinary Business with Engineering Studies (IBE) major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Interdisciplinary Business with Engineering Studies, a minimum of 127 credits are required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 106-107 credits

(This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses, 6 credits of GS courses, 3 credits of GWS courses.)

### PRESCRIBED COURSES: (65 credits)

CHEM 110 GN(3), CMPSC 201 GQ(3)[\[1\]](#), EG T 120(3)[\[1\]](#), ECON 102 GS(3)[\[1\]](#), EDSGN 100S(3), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#), (Sem: 1-2)

ACCTG 211(4)[\[1\]](#), ENGL 202C GWS(3), PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 3-4)

ECON 104 GS(3)[\[1\]](#), FIN 301(3)[\[1\]](#), MGMT 301(3)[\[1\]](#), MIS 204(3)[\[1\]](#), MKTG 301(3)[\[1\]](#), SCM 301(3)[\[1\]](#) (Sem: 5-6)

MGMT 410(3)[\[1\]](#), MGMT 475W(3)[\[1\]](#), MGMT 476(3)[\[1\]](#) (Sem: 7-8)

### ADDITIONAL COURSES: (26 credits)[\[1\]](#)

E MCH 211(3) or MCH T 111(3), SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)

E E 211(3) or EET 101(3) (Sem: 5-6)

CMPET 117(3) or CMPEN 271(3) (Sem: 5-6)

E MCH 213(3) or MCH T 213(3) (Sem: 5-6)

M E 300(3) or MET 330(3) (Sem: 5-6)

Select 3 credits from ECON 470 IL(3), ECON 473 IL(3), FIN 471(3), MKTG 445 IL(3), MGMT 461 IL(3) or other 400-level international business course. (Sem: 7-8)

### SUPPORTING COURSES AND RELATED AREAS: (15-16 credits)

Select one module from School Approved List of Modules 1-5 (15-16 credits) (Sem: 5-8)

Except where noted, courses taken to satisfy General Education requirements may not be used to satisfy module requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Interdisciplinary Digital Studio

University Park, College of Arts and Architecture (IDS)

PROFESSOR GRAEME SULLIVAN, in charge

This degree represents an interdisciplinary approach to emerging technologies and the arts and design disciplines of the College of Arts and Architecture incorporating architecture, landscape architecture, graphic design, music, photography, theatre design, and visual arts. The IDS degree begins with a foundation in arts and design [ART 110(3), ART 111(3)] a two semester sequence of linked studio practice and theory courses that cover fundamental ideas and skills in the arts and design disciplines such as drawing, color theory, and 2-d, 3-d, and 4-d design within the context of art and design history and theory. The IDS program builds on this foundational core utilizing selected courses from across the College of Arts and Architecture. These courses range from digital fabrication to sound design and composition in music, theatre, and art, to digitally-based art explorations, to digital photography, to the exploration of virtual architectural and built environment spaces, to digital art and design theory and criticism, to internet exhibitions and publishing. Concurrent with these courses, students progress through the series of IDS studio courses (A&A 110, 210, 310, 410 and 411) in which they will develop ways of learning that will enable them to understand how to work within collaborative professional environments. This will prepare students to meet the varying challenges they will face within client-based arts and design professions.

For the B.Des. Degree in Interdisciplinary Digital Studio, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits

(Up to 9 of these credits are included in the REQUIREMENTS FOR THE MAJOR. See description of General Education in the *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-3 credits

**REQUIREMENTS FOR THE MAJOR:** 82 credits

(This includes up to 6 credits of GA courses and 3 credits of GN courses)

**PRESCRIBED COURSES** (36 credits) [\[1\]](#)

A&A 105(3), A&A 106(3), A&A 110(3), ART 011S(1), ART 110(3), ART 111(3) (Sem: 1-2)

A&A 210(3), ART 211Y US(3) (Sem: 3-4)

A&A 310(3) (Sem: 5-6)

A&A 410(4), A&A 411(4), ART 476(3) (Sem: 7-8)

**ADDITIONAL COURSES** (40 credits) [\[1\]](#)

(Must include at least 6 credits at the 400 level)

Select 40 credits from ARCH 481(3), ART 101 GA(3), ART 201(3), ART 202(3), ART 203(3), ART 217(3), ART 314(4), ART 315(4), ART 316(4), ART 317(4), ART 318(4), ART 319(4), ART 343(4), ART 415(4), ART 416(4), ART 417(4), ART 419(4), GD 100 GA(3), GD 200(3), INART 050 GN(3), INART 258A GA(3), LARCH 450(3), MUSIC 455(1-3), MUSIC 458(3), PHOTO 100 GA(3), PHOTO 200(3), PHOTO 300(4), PHOTO 400(4), PHOTO 402(4), PHOTO 403(4), THEA 285(3), THEA 484(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits) [\[1\]](#)

Select 6 credits from ART 220(3), ART 411 US(3), ART H 450 US;IL(3), ART H 470 US;IL(3), ART H 250(3) or PHOTO 201(3), INART 055 GA(3) (Sem: 3-8)

A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy

## Industrial Engineering

*Penn State Erie, The Behrend College (IESBD)*

The undergraduate program in industrial engineering, being the first established in the world, has a long tradition of providing a strong, technical, hands-on education in design, control, and operation of manufacturing processes and systems. The curriculum provides a broad-based education in manufacturing, operations research and ergonomics through a base of mathematics, physical and engineering sciences, and laboratory and industrial experiences. It builds a strong foundation for the development of a professionally competent and versatile industrial engineer, able to function in a traditional manufacturing environment as well as in a much broader economy, including careers in financial services, communication, information technology, transportation, health care, consulting, or academia.

We expect our graduates to:

1. Participate in and lead cross-functional teams, designing, implementing and improving processes and systems in the manufacturing, service, or government sectors;
2. Work effectively in managerial and leadership positions;
3. Work and communicate effectively with internal and external team members in the global environment; and
4. Engage in continuous learning through varied work assignments, graduate school, professional training programs, and independent study.

The following outcomes are included in the courses taught in the program:

1. Management and Information Systems for Industrial Engineering: apply time value of money to make financial decisions and understand cost-accounting principles; understand probability concepts applicable to solve engineering problems; including reliability issues; conduct tests of hypotheses, create regression models and understand and apply statistical quality control methods such as process capability and control charts; formulate, solve and analyze real problems using Markov chains, network models, dynamic programming, queuing theory and inventory models; create simulation models of manufacturing and service systems and analyze simulation output; and gain an in-depth knowledge of implementation-related issues and theoretical aspects of database and Web-based operations related to industrial engineering.
2. Manufacturing Engineering: understand information contained in typical specifications and methods of product verification and conformance to specifications; and program flexible manufacturing equipment and system controllers; design logical manufacturing layouts and implement contemporary systems issues.
3. Human Factors: analyze and design both the job and the work site in a cost-effective manner, as well as measure the resulting output; understand and apply cognitive systems engineering: identify visual, auditory, cognitive, perceptual and environmental aspects of human performance, perform task analysis and evaluate human-computer interfaces; and perform work measurement, develop an MTM analysis and carry out a work sampling study
4. General: present engineering study results in technical reports and in oral presentations, demonstrate life-long learning by synthesizing information from several sources, work effectively in groups on case studies and projects, demonstrate knowledge of contemporary issues, understand professional and ethical responsibility and the impact of engineering decisions in a global and societal context; and design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.

After completing courses required for the core and fundamental competencies in the major, students can choose two technical elective courses from the department list, out of which must be an I E course. In addition, the students must also complete the 3-credit capstone design course.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ) and PHYS 211 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Industrial Engineering, a minimum of 129 credits is required.

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 111 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**PRESCRIBED COURSES** (77 credits)

CHEM 110 GN(3) [1], CHEM 111 GN(1), EDSE 100(3), MATH 140 GQ(4) [1], MATH 141 GQ(4) [1], PHYS 211 GN(4) [1] (Sem: 1-2)

E MCH 210(5) [1], ENGL 202C GWS(3), MATH 220 GQ(2-3), MATH 231(2), MATH 250(3), PHYS 212 GN(4) (Sem: 3-4)

I E 302(3) [1], I E 305(3) [1], I E 322(3) [1], I E 323(3) [1], I E 327(3) [1], I E 330(3) [1], I E 405(3) [1], MATSE 259(3) (Sem: 5-6)

I E 425(3), I E 453(3), I E 460(3), I E 470(3), I E 480W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (16 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 1-2)

ECON 102 GS(3) or ECON 104 GS(3) (Sem: 1-2)

I E 408(3), I E 418(3), or I E 419(3) (Sem: 7-8) *(The course not taken to satisfy this requirement can be taken as a track elective. Please see the list in (iv) of section C.)*

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 3 credits as a science selection from department list (Sem: 3-4)

Select 6 credits as non-major electives from department list (Sem: 3-8)

Select 3 credits in manufacturing processes from department list. (Sem: 5-6) *(The courses not taken to satisfy this requirement can be taken as a technical elective. Please see the department list)*

Select 6 credits of technical electives from the department list, out of which at least 3 credits must be I E credits.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Immunology and Infectious Disease

University Park, College of Agricultural Sciences (IID)

PROFESSOR PAMELA HANKEY, Program Coordinator

Immunology is the study of how animals and humans protect themselves from pathogens. Understanding basic mechanisms of immunity provides insights into how blood cells develop and how pathogens are recognized and attacked. Furthermore, understanding the concepts behind immunology is necessary for drug and vaccine design. Dysregulation of the processes that regulate immunity can contribute to uncontrolled inflammation, tissue destruction, autoimmunity, immunodeficiencies, leukemia and related cancers. Immunology includes a broad range of disciplines including but not limited to microbiology, virology, animal health, genetics, biochemistry, molecular and cell biology. Students enrolled in the Immunology and Infectious Disease Major will develop and understanding of normal immune responses to bacterial, fungal, and viral agents and appreciate the potential pathological outcomes of these responses. Students will learn about events that shape the immune response; the general biology of pathogens and the mechanisms by which they cause disease. In addition, basic skills in microbiology, molecular biology and biochemistry will be acquired. Students completing a B.S. degree in Immunology and Infectious Disease will be well prepared for veterinary, medical or other professional schools, Ph.D. graduate training in a wide variety of areas including immunology, microbiology, virology, molecular medicine, animal science, molecular biology and biochemistry or highly competitive jobs as research technicians, laboratory assistants or sales representatives with a pharmaceutical company.

In order to be eligible for entrance to the Immunology and Infectious Disease major, a student must have: (1) attained at least a 2.00 cumulative grade point average and (2) completed BIOL 110 GN(4) [\[1\]](#), BIOL 230W GN(4) [\[1\]](#), BIOL 220W GN(4) [\[1\]](#) or BIOL 240W GN(4) [\[1\]](#), CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1) [\[1\]](#), CHEM 112 GN(3) [\[1\]](#), CHEM 113 GN(1) [\[1\]](#), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#) and earned a grade of C or better in each of these courses

For the B.S. degree in Immunology and Infectious Disease, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

## Integrative Arts

Abington College (IARAB)  
 Altoona College (IARAL)  
 University Park, College of Arts and Architecture (INART)

PROFESSOR JANET HARTRANFT, Ph.D., Program Coordinator, University Park

Integrative Arts is an interdisciplinary major available to students who desire a curriculum that crosses over traditional single discipline lines. The Integrative Arts student initially establishes an academic plan with the assistance of an approved adviser. The plan must contain a core component of 42 credits and an elective component of 15 credits. The two components combined must clearly illustrate that the plan has clarity, purpose, and cohesion. All Integrative Arts students must complete 6 credits of history of the arts. These credits may be counted as a part of the major or, if outside the major, may be counted under General Education and/or Bachelor of Arts degree requirements. Consult with advisor for course selection.

For the B.A. degree in Integrative Arts, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
 (3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
 (See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 42 credits  
 (This includes 6 credits of General Education courses: 6 credits of GA)

**SUPPORTING COURSES AND RELATED AREAS:** 42 credits<sup>[1]</sup>  
 (Must include at least 15 credits at the 400 or equivalent level)  
 (Must include 6 credits in History of the Arts)

Select 24 credits from an arts area (Sem: 1-8)  
 Select 12 credits from other arts areas (Sem: 1-8)  
 Select 6 credits of GA (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Information Systems

Capital College (INFSY)

JANE S. KOCHANOV, *Director of Undergraduate Studies, School of Business Administration*

This major prepares students to enter rapidly expanding fields associated with technology. This includes programming, systems analysis and design, database administration, network management, support services and training, and management of information resources. Students obtain competence both in information technology and in business theory. Thus, the curriculum combines technical content with managerial aspects of information systems. Each student's background is complemented with basic business instruction in accounting, marketing, management, and finance. With business and non-business electives, the program is designed to develop necessary skills to be an effective Information Systems employee. Because the Harrisburg area is the center of industry and economic development for South Central Pennsylvania, students are provided with many opportunities to experience the exciting and challenging world of business.

Students will obtain:

- Knowledge in technologies that support the information environment.
- Knowledge in business or organizational processes that are supported by technology.
- General skills and abilities that promote good communication, problem-solving and analytical abilities, and the ability to work in a team environment.
- Skills to participate in and lead multidisciplinary teams in the development, implementation, and management of information technology solutions.

The program meets the objectives through varied experiences and an emphasis on good communication skills.

### Entry to Major Requirements:

Entry to the Information Systems major requires the completion of 8 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3); MATH 110 GQ(4) or MATH 140 GQ(4); MGMT 301(3); MKTG 301(3); SCM 200 GQ(4) or STAT 200 GQ(4); and a 2.00 or higher cumulative grade-point average. Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

For a B.S. in Information Systems, a minimum of 120 credits is required. Consistent with Senate policy, at least 24 credits of course work in the major and the capstone course must be completed at the Capital College to earn the degree.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education Course Requirements in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 8 credits

### REQUIREMENTS FOR THE MAJOR: 79 credits

(This includes 12 credits of General Education courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses)

### PRESCRIBED COURSES (49 credits)

ACCTG 211(4) (Sem: 1-4)

ECON 102 GS(3), FIN 301(3), MGMT 301(3), MKTG 301(3) (Sem: 1-4)

ENGL 202D GWS(3) (Sem: 3-4)

B A 364Y US;IL(3), B A 462(3), ECON 104 (3), MIS 204(3), MIS 307(3)[\[1\]](#), MIS 390(3)[\[1\]](#), MIS 448(3)[\[1\]](#), MIS 450(3)[\[1\]](#), MIS 465(3)[\[1\]](#), SCM 301(3) (Sem: 5-8)

### ADDITIONAL COURSES (24 credits)

Select 3 credits from CMPSC 101 GQ(3) or CMPSC 121 GQ(3) or IST 140(3) (Sem: 1-4)

Select 4 credits from MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-4)

Select 4 credits from SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 1-4)

Select 4 credits from B A 243(4) or B A 241(2) and B A 242(2) (Sem: 5-6)

Select 9 credits from one of the following three areas of concentration A, B, or C:

A. Application Development Concentration

IST 302(3)[\[1\]](#); MIS 413(3)[\[1\]](#); MIS 466(3)[\[1\]](#); MIS 489(3)[\[1\]](#) (Sem: 5-8).

B. Network Security Concentration

IST 302(3)[\[1\]](#); IST 451(3)[\[1\]](#); IST 456(3)[\[1\]](#); MIS 489(3)[\[1\]](#) (Sem: 5-8)

C. Individualized Concentration

IST 302(3)[\[1\]](#); IST 451(3)[\[1\]](#); IST 456(3)[\[1\]](#); MIS 413(3)[\[1\]](#); MIS 446 (3)[\[1\]](#); MIS 461(3)[\[1\]](#); MIS 466(3)[\[1\]](#); MIS 489(3)[\[1\]](#) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits from 200-400 level business courses from: ACCTG, B A, ECON, FIN, MGMT, MIS, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests. (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## International Business

*Penn State Erie, The Behrend College (INT B)*

The International Business major is designed to prepare students for the increasingly international nature of business. Compared to other business majors, this one provides greater emphasis on knowledge and skills that are needed to conduct business in an international setting. This includes issues concerned with accomplishing organizational objectives through the coordination of human, material, information, and financial resources across national boundaries. In addition to studying the core business courses, students in this major will receive a broad exposure to the complexity of international business through required course work in international business, international culture, a foreign language, and a study abroad experience. In addition to preparing students for an international business environment, the major aims to provide them with knowledge of a specific business discipline by requiring the completion of all the requirements for a second business major. As a result, students meet the University requirements for a concurrent major. Graduates of the INT B major should be better prepared to function effectively as employees of small businesses with developing international operations or as members of larger business organizations with extensive global operations.

### Entrance to Major Requirements:

Entry to the International Business major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in International Business (in conjunction with a second business major), a minimum of 122 credits is required.

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION and REQUIREMENTS FOR THE MAJOR course selections)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR course selections)

### ELECTIVES: 1 credit

### REQUIREMENTS FOR THE MAJOR: 91 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses, 6 credits of GS courses, 3 credits of GWS courses.)

### PRESCRIBED COURSES (31 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3) (Sem: 3-4)

FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3)[1], SCM 301(3)[1] (Sem: 3-6)

MGMT 471W(3)[1] (Sem: 7-8)

### ADDITIONAL COURSES (24 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)

Select 12 credits from ECON 470 IL(3)[1], ECON 473 IL(3)[1], FIN 471(3)[1], MGMT 461 IL(3)[1], MKTG 445 IL(3)[1], or other 300- or 400-level international business course [1] in consultation with adviser (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (36 credits)

Select 15 credits in a foreign language and culture (Sem: 1-6)

Select a minimum of 18 credits from one business supporting course group in consultation with adviser. Students must complete the requirements for a second School of Business major (Sem: 5-8)

Select 3 credits from school-approved, non-business Education Abroad courses (Sem: 5-8)

[Note: Students must attain third-level proficiency in a single foreign language (0-12 credits) and select 3-15 credits from the school-approved list of non-business international courses. See general information section of the *Bulletin* for the Penn State placement policy on foreign languages. Students receiving advanced placement in foreign language may substitute courses from school-approved foreign language and culture course list to complete the credits for this requirement.]

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## International Politics

University Park , College of the Liberal Arts (INTPL)  
World Campus

PROFESSOR LEE ANN BANASZAK, Head

This major, administered within the Department of Political Science, is designed to provide students with a broad, comprehensive education in international politics by offering students options in International Relations, International Political Economy, and Security Studies. While most of the required courses are in the areas of international and comparative politics, the curriculum includes courses in economics, geography, risk analysis, and history. The major provides an opportunity to study in detail a variety of crucial contemporary issues--conflict among and within nations, democratization, economic and political globalization, regional conflicts and the emerging importance of non-state actors--as well as analysis of foreign and economic policy making and security issues in the United States and other nations.

The major prepares students for career opportunities with U.S. government executive agencies dealing with foreign affairs, international and homeland security, and the international economy; with relevant committees of the U.S. Congress; with multinational corporations, banks, and consulting firms; and with international organizations. The major also provides preparation for law and business schools and for graduate study in political science and international relations.

For the B. A. degree in International Politics, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

**INTERNATIONAL POLITICAL ECONOMY OPTION:** (30 credits)

**ADDITIONAL COURSES** (18 credits)

**Select 6 credits** : 3 credits from PL SC 412(3) or PL SC 481(3) and 3 credits from PL SC 418(3) or PL SC 442(3) (Sem: 4-8)

**Select 9 credits** (no more than 3 credits may be below the 300 level) from ECON 102 GS(3), ECON 104 GS(3), ECON 333 GS(3), ECON 433(3), ECON 434(3), ECON 443(3), ECON 444(3), ECON 451(3), ECON 471(3), ECON 472(3), ECON 474(3), or I B 303 IL(3) (Sem: 1-8)

**Select 3 credits** from GEOG 123 GS;IL(3), GEOG 124 GS;IL(3), GEOG 128 GS;IL(3), GEOG 364(3), GEOG 424 US;IL(3), GEOG 428 US(3), GEOG 430(3), GEOG 431(3), GEOG 438W(3), GEOG 444(3), GEOG 463(3), GEOG 464(3), GEOG 468(3), GEOG 475H(3) (Sem: 1-8)

AF AM/ HIST 431 US; IL (3), HIST 120 GS;IL(3), HIST 142 GS;IL(3), HIST 143 GH;IL(3), HIST 144 GH;US;IL(3), HIST 173 GH;IL(3), HIST 175 GH;IL(3), HIST 179 GH;IL(3), HIST 181 GH;IL(3), HIST 192 GH;IL(3), HIST 320(3), HIST 420 IL(3), HIST 423 IL(3), HIST 427 IL(3), HIST 430 IL(3), HIST/AF AM 432 IL(3), HIST 434 IL(3), HIST 435 IL(3), HIST 446 US(3), HIST 447 US(3), HIST 452 US;IL(3), HIST 454 US(3), HIST 460 US;IL(3), HIST 467 US;IL(3), HIST 468 IL(3), HIST 473 IL(3), HIST 479 IL(3), HIST 481 IL(3), HIST 486 IL(3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

**Select 12 credits** from 400-level political science courses in International Relations, Comparative Politics, or Theory/Methodology (excluding courses taken to fulfill other requirements in the major) from an approved department list in consultation with an adviser. (Sem: 3-8)

## Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in International Politics and Master's in International Affairs (M.I.A.)

The integrated undergraduate-graduate (IUG) degree program (B.A. in International Politics/M.I.A. in International Affairs) will provide an opportunity for strong students in International Politics to complete a Master's degree with 5 total years of study.

The demand for graduate training in international affairs will grow significantly in the near future along with the burgeoning requirements for international knowledge and professional experience in commerce, humanitarian service, and public affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations.

The IUG degree in International Affairs and International Politics is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs' existing collaborations and interactions with the College of the Liberal Arts.

### Admission Requirements

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study.

Specific requirements:

1. Must be enrolled in the International Politics B.A. program.
2. Must apply to and be accepted without reservation into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the [Graduate School application](#). All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of the undergraduate program/department.

### M.I.A. Requirements for the Integrated B.A./M.I.A.

The M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a **minimum of 42 credits at the 400 level or higher**, at least 18 of which are from six core courses consisting of INTAF 801(3), 802(3), 803(3), 804(3), 805(3) and INTAF 590(3). The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either: (i) a master's paper; or (ii) a supervised internship placement. If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master's paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows: (i) four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale); (ii) native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or (iii) performance on a proficiency evaluation sufficient to equal four semesters of language learning: for this purpose, either Penn State's proficiency certification process or another pre-approved proficiency assessment may be used. Language study does not provide credits towards the degree.

M.I.A Degree	Integrated B.A./M.I.A. Degree
Core Courses (18)	Core Courses (18)
INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3)	INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3)
Electives (21)	Electives (21)
Course choices are from a pre-approved list in the SIA, or by SIA faculty approved substitution	The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3).
Capstone (3)	Capstone (3)
Master's Paper (INTAF 594) or Internship (INTAF 595)	Master's Paper (INTAF 594) or Internship (INTAF 595)
Total Degree Credits (42)	Total Degree Credits (42)

## Total Degree Credits (42)

**Sample Program of Study**

A typical sequence of coursework for a student in the IUG program would appear as follows:

<b>Year One:</b>	International Politics	PL SC 003; PL SC 014 or PL SC 020
<b>Year Two:</b>	International Politics	PL SC 001 or PL SC 007; ECON 102 or ECON 104; lower-level history course
<b>Year Three:</b>	International Politics	Lower-level GEOG; GEOG/HIST or ECON requirement; PL SC 439 or PL SC 442 or other supporting course in PL SC
<b>Year Four:</b>	Fall Semester	INTAF 801, INTAF 802 and INTAF 803 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may be taken.
	Spring Semester	INTAF 804, INTAF 805 and INTAF 590 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may also be taken.
<b>Year Five:</b>	24 credits	The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3).

**Tuition Charges, Grant-in-Aid and Assistantships**

Students admitted to the School of International Affairs through the IUG with International Politics may be considered to receive financial assistance.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Integrated Social Sciences

*University Park, College of the Liberal Arts (ISOSC): offered via World Campus*

*Paul C. Taylor, Professor in Charge*

The social sciences are concerned with the study of society and the relations among individuals and institutions within society. The multi-disciplinary Bachelor of Science in Integrated Social Sciences synthesizes the broad sweep of the content, theories, and methodologies of the social sciences. The program draws on core social science disciplines: Anthropology, Communication Arts and Sciences, Economics, Political Science, Psychology, and Sociology. A final capstone portfolio will document integration and synthesis of major themes explored in the program.

Upon completing the program of study, students should be able to articulate the varied theoretical and applied methodologies and interrelationships across the social sciences; communicate effectively using the language and constructs of the social sciences; apply critical thinking in analyzing and applying social science perspectives to society's problems; demonstrate the ability to understand, evaluate, and critique the results of social science quantitative and qualitative research; formulate, debate, and articulate arguments about social phenomena; and recognize and solve ethical dilemmas in social contexts.

For the B.S. degree in Integrated Social Sciences, a minimum of 120 credits is required.

Per Senate Policy 83-80.1, "Per University Faculty Senate Policy 83-80.1, every candidate for a degree shall earn as a degree candidate at least 36 of the last 60 credits required for a baccalaureate degree in courses offered by the University or in cooperative degree programs that have been established by formal agreement and approved by the University Faculty Senate."

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in the ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 20-42 credits

**REQUIREMENTS FOR THE MAJOR:** 51-55 credits [1]

(This includes 0-18 credits of General Education courses: 0-6 credits of GQ courses; 0-6 credits of GS courses, and 0-6 credits of GH courses)

**PRESCRIBED COURSES** (6 credits)

L A 201W(3) (Sem: 5-6)

L A 496(3) (Sem: 8)

**ADDITIONAL COURSES** (15-19 credits)

In consultation with your adviser, select 6-8 credits in quantification from MATH, CMPSC, IST, PHIL, ACCT, or STAT (Sem: 1-2)

Select 3-4 credits in statistics from the following courses: STAT 200 GQ(4); PSYCH 200 GQ(4); or PL SC 309(3) (Sem: 2-3)

Select 3 credits in ethics from the following courses: PHIL 103 GH(3); PHIL 103W GH(3); PHIL 119 GH(3); or LER 460(3) (Sem: 1-2)

Select 3-4 credits in research methods from the following courses: SOC 207(3); PSYCH 301W(4); CAS 390 GS(3); or LER 312(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (30 credits)

In consultation with your adviser, select 30 credits from social science courses in the following areas: ANTH, CAS, ECON, PL SC, PSYCH, or SOC; or L A 295, L A 395, or L A 495. Students must select at least 15 credits at the 400 level; 9 credits of the 400-level courses must be in one discipline and 6 credits must be in a second discipline. (Sem:5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Information Sciences and Technology

Abington College (ISSAB)

Berks College (ISSBL)

Capital College (ISSCA)

University College: Penn State Beaver, Penn State Brandywine, Penn State Greater Allegheny, Penn State Hazleton, Penn State New Kensington, Penn State Lehigh Valley, Penn State Mont Alto, Penn State Schuylkill, Penn State Wilkes-Barre, Penn State Worthington Scranton, Penn State York (ISSCC)

World Campus

University Park, College of Information Sciences and Technology (ISTBS)

Mary Beth Rosson, Associate Dean for Graduate and Undergraduate Studies, College of IST

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major is structured to provide students with the theoretical frameworks and skill sets necessary to compete and be productive in the information technology-intensive global context that defines the new "Information Age." Specifically, the degree will be focused on a program that will build an understanding of core information technologies and related areas of study; will prepare students for the practical application of various information sciences and related technologies; and engage students in sharpening their abilities to think critically and to work in teams. All this will be done with considerable interdisciplinary integration in order to expose students to the cognitive, social, institutional, and global environments of IST. Team projects in most courses, a required internship, and a senior capstone experience provide additional, focused venues for involving students in the cutting-edge issues and technologies of the field.

**INFORMATION CONTEXT: PEOPLE, ORGANIZATIONS, AND SOCIETY OPTION:** This option focuses on how information technology affects social change and the delivery of information to the consumer. This includes the human-machine interface; organization and retrieval of information; digital libraries; information and telecommunications services; information and media industry structures; software services and intermediaries; telecommunications and information law and policy; sociological aspects of technology change; multimedia; and art, design, and aesthetics.

**INFORMATION SYSTEMS: DESIGN & DEVELOPMENT OPTION:** This option is focused on expanding the skills needed to develop advanced information technology systems using state-of-the-art tools and techniques. The emphasis is on providing the student with both knowledge in the design, implementation, testing and evolution of complex software systems as well as a set of project-oriented, team-programming experiences.

**INFORMATION TECHNOLOGY: INTEGRATION & APPLICATION OPTION:** This option is designed to prepare students to use information technology to realize a variety of system-based goals (e.g., reliability, accessibility, efficiency, etc.). It is focused on developing a theoretical foundation and the skill set needed for integrating information technology into different systems for the purpose of enhancing system performance. The emphasis is on providing the student with both the theoretical frameworks needed to use information technology as a system attribute as well as a set of application-oriented experiences and skills.

**Entrance Requirements:** To be eligible for entrance to the Information Sciences and Technology (ISTBS) major, students must:

1. have completed the following entrance-to-major requirements with a grade of C or better in each: IST 110(3); IST 210(3); and IST 220(3).
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor's and master's degree in a shorter period of time than would be necessary if the degrees were pursued separately. Information Sciences and Technology undergraduates may apply for admission to the ISTBS/ISTMS IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST. Students must complete the [Graduate School application](#).
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for IUG in the Schreyer Honors College:

<http://www.shc.psu.edu/students/iug/program/>

Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. Thesis or scholarly paper credits may not double-count.

For the B.S. degree in Information Sciences and Technology, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of the *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 8 credits

**REQUIREMENTS FOR THE MAJOR:** 84 credits

(This includes 12 credits of General Education courses: 6 credits of GQ courses; 3 credits of GS courses; and 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 60 credits

**PRESCRIBED COURSES** (26 credits)

IST 110 GS(3) [\[11\]](#), IST 210(3) [\[11\]](#), IST 220(3) [\[11\]](#), IST 230(3) [\[11\]](#) (Sem: 1-4)

STAT 200 GQ(4) (Sem: 3-6)

IST 495(1) [\[11\]](#) (Sem: 3-8)

IST 301(3) [\[11\]](#), IST 331(3) [\[11\]](#) (Sem: 5-8)

IST 440W(3) [\[11\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (13 credits)

CMPSC 101 GQ(3) [\[11\]](#), CMPSC 121 GQ(3) [\[11\]](#), or IST 140(3) [\[11\]](#) (Sem: 1-4)

ECON 014 GS(3), ECON 102 GS(3), or ECON 104 GS(3) (Sem: 1-4)  
 ENGL 202C GWS(3) or ENGL 202D GWS(3) (Sem: 1-4)  
 MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Attainment of third-level proficiency in a single foreign language (12 credits). Proficiency must be demonstrated by either examination or course work. See the admission section of the general information in this *Bulletin* for the placement policy for Penn State foreign language courses. (Sem: 1-4)

Select 6 credits of international courses in foreign culture from College-approved list (Sem: 5-8)

Select 3 credits [11](#) at the 400 level in emerging issues and technologies from College-approved list (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 24 credits

**INFORMATION CONTEXT: PEOPLE, ORGANIZATIONS, AND SOCIETY OPTION:** 24 credits

**PRESCRIBED COURSES** (6 credits) [11](#)

IST 431(3) and IST 432(3) (Sem: 5-8)

**ADDITIONAL COURSES** (6 credits) [11](#)

IST 240(3) or IST 242(3) (Sem: 1-4)

IST 302(3) or IST 413(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from College-approved list (Sem: 5-8)

**INFORMATION SYSTEMS: DESIGN & DEVELOPMENT OPTION:** 24 credits

**PRESCRIBED COURSES** (6 credits) [11](#)

IST 242(3) (Sem: 1-4)

IST 311(3) (Sem: 5-8)

**ADDITIONAL COURSES** (9 credits) [11](#)

Select 3 credits from IST 261(3) or IST 361(3) (Sem: 5-8)

Select 6 credits from IST 411(3), IST 412(3), or IST 413(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits from College-approved list (Sem: 5-8)

**INFORMATION TECHNOLOGY: INTEGRATION & APPLICATION OPTION:** 24 credits

**PRESCRIBED COURSES** (9 credits) [11](#)

IST 302(3), IST 420(3), IST 421(3) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits) [11](#)

IST 240(3) or IST 242(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from College-approved list (Sem: 5-8)

**Integrated B.S. in Information Sciences and Technology / M.S. in Information Sciences and Technology**

The College of Information Sciences and Technology offers an integrated B.S./M.S. (IUG) program designed to allow academically superior students in the Information Sciences and Technology major to obtain both the bachelor's in Information Sciences and Technology and M.S. degree in Information Sciences and Technology in a shorter period of time than would be necessary if the degrees were pursued separately. The first two to three years of undergraduate coursework follow the same undergraduate curriculum that other students follow in the Information Sciences & Technology major. Interested students may apply for admission to the IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits. If admitted to the IUG, the final years of study include two graduate courses, Foundations of Theories and Methods of Information Sciences and Technology Research (IST 504) in the fall and Foundations of Research Design in Information Sciences and Technology (IST 505) in the spring, plus six credits of research methods courses, twelve credits of graduate specialty courses, and six credits of graduate thesis (IST 600) or scholarly paper (IST 594).

(Note: For Schreyer Honors College students, those who complete the graduate thesis for the Master's requirement may use the graduate thesis, itself, to fulfill the undergraduate honors thesis requirement, as well. Honors students who opt for the Master's scholarly paper must also complete an undergraduate honors thesis.)

The integrated B.S. in Information Sciences and Technology /M.S. in Information Sciences and Technology (IUG) degree meets the needs of the most academically talented students in the Information Sciences and Technology undergraduate major. A proportion of these successful students wish to pursue graduate studies sometime after graduation. Offering the IUG benefits these students by offering an accelerated path to a graduate degree. Additionally, the IUG program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research leading to both the Bachelor's and Master's degree.

For the B.S. in Information Sciences & Technology/M.S. in Information Sciences & Technology IUG program, a minimum of 125 credits are required for the bachelor's degree and 30 credits for the M.S. degree. Students admitted to the IUG program may double-count a maximum of 12 credits to their graduate and undergraduate degrees. The required 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate program. Students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees from the following: IST 411, IST 412, IST 413, IST 420, IST 421, IST 431, IST 432. Graduate thesis or scholarly paper credits may not double-count.

The objectives of the Integrated Undergraduate Graduate Program include:

1. To offer highly qualified students the opportunity to earn two degrees in less time than it would take to do two sequential degrees. In particular, IUG students may count up to 12 credits towards both their B.S. and M.S. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.

**Admission Requirements**

To initiate the application process, students must submit an *Integrated Undergraduate-Graduate (IUG) Degree in Information Sciences and Technology Form*, a transcript, and two letters of recommendation (both from faculty members) to the IST Graduate Programs Office. The Director of Undergraduate Academic Affairs, in consultation with the Graduate Programs Coordinator, will help undergraduate candidates determine a proposed sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Acceptance into the IST IUG program will be determined by the Graduate Recruitment Committee.

Information Sciences and Technology undergraduate majors may apply for admission as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the ISTBS undergraduate degree program.
2. Must have completed 60 credits of an ISTBS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST. Students must complete the [Graduate School application](#).
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed

- periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
  8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for IUG in the Schreyer Honors College:

<http://www.shc.psu.edu/students/iug/program/>

In addition, applicants must apply to and be admitted to the Graduate School of the Pennsylvania State University at the time of their application to the IUG degree program. These admission standards are high, as it is thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting Information Sciences and Technology majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted into the integrated program of study can apply for regular admission to the graduate program when they complete their undergraduate program of study.

#### Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses

Year	Fall	Spring	MS Credits
Year 1 (Senior Undergraduate Year)	IST 504: Foundations 3 Methods course (3)**	IST 505: Research Design (3) Methods course (3)**	30*
Year 2 (Super Senior Undergraduate Year)	IST 600 or IST 594 Thesis Research (3) Grad Speciality Course (3)** Grad Speciality Course (3)**	Methods course (3)** IST 600 or IST 594 Thesis Research (3) Grad Speciality Course (3)** Grad Speciality Course (3)**	

\* Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. In their senior year, IUG students will take 6 credits of specified graduate work, courses IST 504 and IST 505, and 6 credits of methods courses. These 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate IST/B.S. support of option requirement. In their super senior year, students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees. These courses must be at the 400-level or above. Students may choose any 400-level undergraduate option course (IST 411, IST 412, IST 413, IST 420, IST 421, IST 431, IST 432) that they are using to fulfill an undergraduate option requirement and apply the credits to both the undergraduate option requirement and the graduate specialty course requirement. Credits associated with the thesis or culminating scholarly paper, i.e., IST 600 and IST 594, may not be double-counted. However, for Schreyer Honors College students, the Master's thesis deliverable, itself, may double-count for the undergraduate thesis deliverable requirement.

\*\* Choose graduate level methods course after consultation in advance with the student's faculty adviser.

\*\*\* Choose any 400 or 500 level course that contributes to the student's chosen area of specialty with a maximum of six credits at the 400 level.

The total resulting credits will be a minimum of 155 credits, with 125 credits completed for the undergraduate IST degree. Twelve graduate credits will be completed in the senior year, and the remaining 18 graduate credits will be completed in the super senior year.

If for any reason a student admitted to the B.S./M.S. program is unable to complete the requirement for the Master of Science degree program in Information Sciences and Technology, the student will be permitted to receive the Bachelor's degree assuming all degree requirements have been satisfactorily completed.

Student performance will be monitored on an on-going basis by the student's adviser and Graduate Programs. Students admitted to the integrated program must maintain a minimum cumulative GPA of a 3.3 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See information on Grade-Point Average in the Graduate Bulletin:

[http://bulletins.psu.edu/bulletins/whitebook/degree\\_requirements.cfm?section=masters.](http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=masters.)) For Schreyer Honors College students in the IUG program, students must maintain a minimum cumulative GPA of 3.4 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See Grade Point Average Requirement in the Schreyer Honors College Student Handbook: [https://www.shc.psu.edu/documents/academic/handbook/handbook\\_1415.pdf](https://www.shc.psu.edu/documents/academic/handbook/handbook_1415.pdf)) Successful completion of a Schreyer Scholar's Master's thesis will be accepted as completion of the honors thesis requirement.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[2] Students in the Information Systems: Design and Development Option are expected to take IST 242 prior to taking the prescribed and additional courses for that option.

## Information Sciences and Technology

University Park, College of Information Sciences and Technology (ISTBA)

Mary Beth Rosson, Associate Dean for Graduate and Undergraduate Studies, College of IST

The Bachelor of Arts in Information Sciences and Technology will provide students who are inherently independent and creative with new avenues of study. This degree will be one which will provide them with a thorough grounding in information sciences and technology but also the flexibility to design a curriculum of study to fit their interests and aspirations. Whether these students wish to blend information science and technology with the arts, the humanities, or with the sciences, this degree will provide them with the breadth of experience that they need to accomplish their goals. The core of the B.A. program in IST will parallel that of the B.S. degree, thus the B.A. student will be equipped with the same core expertise and tools sets that they need to be able to navigate through the increasingly complex technology landscape. However, the flexibility of the curriculum will give them the opportunity to learn how to apply IT creatively. The B.A. in IST will be highly interdisciplinary, as is fitting for an expressly interdisciplinary college. The degree will be suitable for students who wish to be entrepreneurs, who seek to go on to law or medical school, or who want to acquire an advanced degree in graduate studies.

**Entrance Requirements:** To be eligible for entrance to the Information Sciences and Technology (ISTBA) major, students must:

1. have achieved at least third semester classification while pursuing a program of study that includes at least two of the following four courses with a grade of C or better in each: IST 110, IST 130, IST 210, IST 220.
2. have met with a member of the IST Advising staff, with the outcome being a workable academic plan selected either from a set of example templates (e.g., pre-law) or developed in consultation with the adviser. This meeting must take place prior to the completion of 60 credits. At campuses other than University Park, students will meet with a local IST adviser to develop their academic plans.

For the B.A. degree in Information Sciences and Technology, a minimum of 125 credits is required.

## Italian

University Park, College of the Liberal Arts (IT BA)

PROFESSOR PAOLA (GIULI) DUSSIAS, Head

The major offers training in the skills required for fluency in Italian and knowledge in Italian culture, civilization, and literature. Its aim is to open to the student both the traditions of one of the major formative components of the Western world and the continuing vitality of modern Italian and Italian-American life.

As one of the humanistic programs of the College of the Liberal Arts, the Italian major is not designed to be directly vocational. Nevertheless, rigorous training in either of the two Italian major options can prepare students for rewarding and unique careers in business, travel, ministry, banking, and education. In addition, the federal government employs liberal arts graduates with foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. The Italian major is also preparatory for graduate work directed to the Ph.D. degree required for teaching and research in colleges and universities. Students with degrees in the humanities are particularly successful applicants to professional schools, such as law and medicine.

TO VIEW THE [Italian Minor \(IT\)](#).

For the B.A. degree in Italian, a minimum of 122 credits is required for the Italian Language and Literature option, or 123 credits minimum is required for the Italian Studies option.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 35 credits [\[1\]](#)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 9 credits

**PRESCRIBED COURSES** (3 credits)

IT 301(3) (Sem: 1-4)

**ADDITIONAL COURSES** (6 credits)

IT 130 GH;IL(3) or IT 131 GH;US(3) (Sem: 1-4)

IT 415(3) or IT 490(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 26-27 credits

**LANGUAGE AND LITERATURE OPTION:** (26 credits)

**ADDITIONAL COURSES** (26 credits)

Select 18 credits of which at least 9 credits are courses taught in Italian, and at least 9 credits are at the 400-level (some courses will satisfy both conditions).

**For courses taught in Italian, select from:**

IT 320(3), IT 325(3), IT 330W(3), IT 412(3), IT 422(3) (Sem: 5-8)

or other courses taught in Italian in consultation with major advisor

**For courses at the 400-level, select from:**

IT 412(3), IT 422(3), IT 475(3), IT 480(3), IT 485(3), IT 497(1-9) (Sem: 5-8)

or other 400-level courses taught in Italian in consultation with major advisor

**Select 8 credits from one of the following a, b, c, d, or e:**

a) LATIN 001(4) and LATIN 002(4) (Sem: 1-4)

b) FR 001(4) and FR 002(4) (Sem: 1-4)

c) SPAN 001(4) and SPAN 002(4) (Sem: 1-4)

d) PORT 001(4) and PORT 002(4) (Sem: 1-4)

e) Foreign Study: IT 001(4), IT 002(4), IT 099(1-12), IT 399(1-12) (Sem: 1-8)

or other courses abroad in consultation with major advisor

**ITALIAN STUDIES OPTION:** (27 credits)

**ADDITIONAL COURSES** (27 credits)

Select 27 credits from categories a, b, and c:

**NOTE:** Courses in different categories in the Italian Studies option cannot double-count. Example: if a student uses IT 422 to satisfy category A requirements, IT 422 cannot count in category B. Also, in addition to the prescribed IT 415/490 course, Italian Studies majors must take a minimum of 12 credits at the 400-level in categories A, B, and C.

**a) Select 6 credits from:**

IT 320(3), IT 325(3), IT 330W(3), IT 412(3), IT 422(3) (Sem: 5-8)

or other 300 or 400-level courses taught in Italian in consultation with major advisor

**b) Select 12 credits from:**

IT 110(3), IT 230(3) (Sem: 1-4)

IT 320(3), IT 325(3), IT 330W(3), IT 399(1-12), IT 422(3), IT 475(3), IT 480(3), IT 485(3), IT 497(1-9) (Sem: 5-8)

or other courses in consultation with major advisor

**c) Select 9 credits of 400-level courses in related disciplines from:**

ART H 411(3-9), ART H 414(3), ART H 423(3-9), ART H 456 IL(3), ART H 458 IL(3), CAMS 410(3), CAS 471 US;IL(3), CMLIT 400W(3), CMLIT 401W(3), CMLIT 402W(3), LATIN 400(3), LATIN 402(3-12), LATIN 403(3-12), LATIN 404(3-12), LATIN 420(3-6), LATIN 450W(3), LING 447(3), LING 448(3), PHIL 437 IL(3), PHIL 454(3), PHIL 455(3-6), PHIL 464(3-6), PHIL 465(3-6), PL SC 431(3), PL SC 432(3) (Sem: 5-8)

or other courses in consultation with major advisor

**NOTE:** While some of the courses in related disciplines focus specifically on Italian or Roman topics, other courses on this list endeavor to provide a broader cultural or disciplinary context for students with an Italian Studies orientation. Students will be encouraged to suggest to their major advisor other relevant 400-level special topics courses in other disciplines to satisfy this requirement.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Jewish Studies

*University Park, College of the Liberal Arts (J ST)*

The Jewish Studies major provides broad inquiry into

the history, culture, society, literature, philosophy, politics, language, and religious beliefs of the Jewish people from Biblical times to the present. By nature interdisciplinary, and emphasizing critical thinking and global engagement, the Jewish Studies major is flexible and adaptable to a wide variety of courses of study. Students in the major must complete a total of thirty (30) credits, at least fifteen (15) of which must be at the 400-level. No more than eight (8) credits of Hebrew may count toward the 30-credit total. All students in the major must complete Jewish Studies 010, an introduction to Jewish Civilization, and select from approved lists or in consultation with the Director three courses that address Jewish studies across its history: one course in Jewish Studies of the Ancient through the Medieval periods, one course in Jewish Studies of the Early Modern through the Contemporary periods, and one course in Jewish Studies of the Diaspora. All students in the major are particularly encouraged to participate in a relevant internship/education abroad programs, and/or archaeological fieldwork for which course credits and scholarships are available. Penn State students also may enroll to study abroad at a university in Israel, and up to 15 credits of related education abroad courses in any country may be applied to requirements for the major in consultation with the adviser.

For the B.A. degree in Jewish Studies, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 21 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 30 credits [\[1\]](#)

(15 of these must be at the 400-level. No more than 15 credits in courses numbered 099, 199, 299, 399, or 499 may count toward the requirements for the major.)

**PRESCRIBED COURSES** (3 credits)

J ST/HEBR 010 GH;IL(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)

Select 3 credits in Jewish Studies in the Ancient Period through Medieval Period from approved program list or in consultation with the director (Sem: 1-8)

Select 3 credits in Jewish Studies from the Early Modern Period through the Contemporary period from approved program list or in consultation with the director (Sem: 1-8)

Select 3 credits in Jewish Studies concerned with Jewish culture in Diaspora from approved program list or in consultation with the director (Sem: 1-8)

(No more than 8 credits of Hebrew Language courses may count toward the requirements for the major)

Select 18 credits from Jewish Studies, Hebrew, or appropriate courses in Anthropology, Classics and Ancient Mediterranean Studies, Comparative Literature, English, History, Philosophy, or Religious Studies from approved program list (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Japanese

*University Park, College of the Liberal Arts (JAPNS)*

PROFESSOR ON-CHO NG, *Department Head, Asian Studies*

The major in Japanese strengthens students' overall skills in internationalism and provides a focus on one of the world's most important nations. The Japanese major is designed for students who want to develop proficiency in speaking, listening, reading, and writing Japanese, and acquire profound knowledge of Japanese culture, history, and civilization in the context of East Asia.

The Japanese major requires students to study abroad in order to deepen their understanding of the language, culture and contemporary society, and to develop intercultural and comparative perspectives.

The major can also help students prepare for graduate study in Japan-related fields and professional careers where proficiency in Japanese is required, such as government services, or multinational companies.

Students planning to teach in public schools should schedule the appropriate courses leading to certification in consultation with an adviser in the College of Education.

For the B.A. degree in Japanese, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-9 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVE or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**ELECTIVES:** 21-27 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 35 credits<sup>[1]</sup>

(This includes 0-9 credits of General Education GA, GH, or GS courses.)

(At least 22 credits must be at the 400 level.)

(Students are strongly encouraged to take at least 12 of their credits in Japan, either in a Penn State Education Abroad program or another program subject to departmental approval. For curricular sequencing, the program encourages students to pursue this Education Abroad experience in the fall semester of the junior year, unless the host institution runs on the Japanese academic schedule, in which case study abroad should be in the spring semester, or for the entire year.

**PRESCRIBED COURSES** (20 credits)

JAPNS 110 IL(4) (Sem: 3-4)

JAPNS 401 IL(4), JAPNS 402 IL(4) (Sem: 5-6)

JAPNS 403Y(4), JAPNS 404 IL(4) (Sem: 7-8)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from JAPNS 120 GH;IL(3) or JAPNS 121 GH;IL(3) (Sem:1-6)

Select 3 credits from the JAPNS 420-429 level (Sem: 1-8)

Select 3 credits from the JAPNS 450-459 level (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits pertaining to Japan, such as courses in art history, comparative history, geography, history, Japanese, philosophy, political science, religious studies, theatre arts, or other fields, selected from departmental list (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Journalism

University Park, College of Communications (JOURN)

PROFESSOR FORD RISLEY, Head, Department of Journalism

The goal of the major is to provide students with the critical thinking, ethical, legal and professional skills that will enable them to enter positions in all areas of journalism.

Students must select at least 80 credits in non-COMM courses, including at least 65 credits in the liberal arts and sciences.

### The following three options are offered:

**BROADCAST JOURNALISM OPTION:** This option is designed for students interested in radio, television, and/or multimedia journalism as a reporter, editor, or producer. Students are trained in the techniques of audio/video and online reporting and editing. They take two required courses that provide instruction in the basic skills of reporting and editing and choose two other courses that provide advanced instruction in these areas.

**DIGITAL AND PRINT JOURNALISM OPTION:** This option is designed for students interested in newspaper, magazine and/or multimedia journalism as a reporter, editor, or producer. Students are trained in the techniques of print and online reporting and editing. They take two required courses that provide instruction in the basic skills of reporting and editing and choose two other courses that provide advanced instruction in these areas.

**PHOTOJOURNALISM OPTION:** This option is designed for students interested in photo and/or multimedia journalism as a photographer, editor or producer. Students are trained in the techniques of still/video photography and editing. They take two required courses that provide instruction in the basic skills of photography and editing and choose two other courses that provide advanced instruction in these areas.

For the B.A. degree in Journalism, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 2 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 49 credits<sup>[1]</sup>

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 31 credits

**PRESCRIBED COURSES** (13 credits)

COMM 160(1) (Sem: 1-2)

COMM 260W(3) (Sem: 3-4)

COMM 271(3) (Sem: 3-6)

COMM 403(3), COMM 409(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 18 credits for completion of a University-approved minor (Sem: 1-8)

[Students majoring in journalism must take a University-approved minor outside the College of Communications. The minimum requirement for a minor is 18 credits. By careful planning, a student may use General Education and Bachelor of Arts courses to help fulfill this requirement. In lieu of a minor, students may take a concurrent major or concurrent degree, as long as it is outside the College of Communications. Students should consult with their adviser as soon as possible about this requirement.] (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 18 credits

Options can be combined but only with the consent of a student's adviser.

**BROADCAST JOURNALISM OPTION** (18 credits)

**PRESCRIBED COURSES** (6 credits)

COMM 360(3), COMM 465(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 6 credits from COMM 400(3), COMM 402(3), COMM 466(3), COMM 475(3), COMM 480(6), COMM 481(3), COMM 495(1-3)[17] (Sem: 5-8)

Select 6 credits from COMM 180 GS(3), COMM 205 US(3), COMM 404(3), COMM 401(3), COMM 405(3), COMM 407A(3), COMM 407B(3), COMM 407C(3), COMM 410 IL(3), COMM 411(3), COMM 412(3), COMM 419 US;IL(3), COMM 494H(1-6), COMM 496(1-18), COMM 499 IL(1-12) (Sem: 5-8)

**DIGITAL AND PRINT JOURNALISM OPTION** (18 credits)

**PRESCRIBED COURSES** (6 credits)

COMM 460W(3), COMM 467(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 6 credits from COMM 402(3), COMM 403(3), COMM 404(3), COMM 401(3), COMM 405(3), COMM 407A(3), COMM 407B(3), COMM 407C(3), COMM 410 IL(3), COMM 411(3), COMM 412(3), COMM 419 US;IL(3), COMM 494H(1-6), COMM 496(1-18), COMM 499 IL(1-12) (Sem: 5-8)

Select 6 credits from COMM 180 GS(3), COMM 205 US(3), COMM 404(3), COMM 401(3), COMM 405(3), COMM 407A(3), COMM 407B(3), COMM 407C(3), COMM 410 IL(3), COMM 411(3), COMM 412(3), COMM 419 US;IL(3), COMM 494H(1-6), COMM 496(1-18), COMM 499 IL(1-12) (Sem: 5-8)

**PHOTOJOURNALISM OPTION** (18 credits)

**PRESCRIBED COURSES** (6 credits)

COMM 269(3), COMM 469(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 6 credits from COMM 402(3), COMM 463(3), COMM 467(3), COMM 468(3), COMM 475(3), COMM 481(3), COMM 495(1-3)[17] (Sem: 5-8)

Select 6 credits from COMM 180 GS(3), COMM 205 US(3), COMM 404(3), COMM 401(3), COMM 405(3), COMM 407A(3), COMM 407B(3), COMM 407C(3), COMM 410 IL(3), COMM 411(3), COMM 412(3), COMM 419 US;IL(3), COMM 494H(1-6), COMM 496(1-18), COMM 499 IL(1-12) (Sem: 5-8)

<sup>[1]</sup> A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

<sup>[17]</sup> Internship in news with newspaper, radio, or TV. See the director of the internship program for specifics.

## Kinesiology

**44-03-043****Kinesiology**

Berks College (KINBL)  
 Capital College  
 University Park, College of Health and Human Development (KINES)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR NANCY I. WILLIAMS, Head, Department of Kinesiology

Kinesiology offers a comprehensive program of study in the science of human movement and is designed for students who want to prepare for professions involving physical activity and for graduate study in related areas. The Kinesiology major options are: Applied Exercise and Health; Movement Science; and Exercise Science (offered only at Penn State Berks). All options require a culminating practicum or research experience. Relocation away from the University Park campus is generally necessary for the practicum. All options require a minimum of 121 credits for graduation. Additional requirements are mandated by the Pennsylvania Department of Education (PDE) for entrance to the Health and Physical Education (HPE) certification emphasis in the Applied Exercise and Health Option (AEH). Additional requirements are mandated by the Pennsylvania Department of Education (PDE) for entrance to the Health and Physical Education (HPE) certification emphasis in the Applied Exercise and Health Option (AEH). Information about the major and its options can be found at <http://www.hhdev.psu.edu/kines/index.html>.

Students who have completed a minimum of 28 credits and have a 2.00 cumulative grade-point average are eligible for entrance into the major after completing an Entrance to Major form.

**APPLIED EXERCISE AND HEALTH OPTION:** This option provides applied interdisciplinary training in the foundations of the scientific understanding of exercise and health through the lifespan. Students identify one of two areas of emphasis that are certification-based and practice-oriented: (a) courses and practical experiences directed toward certification by organizations such as the American College of Sports Medicine (ACSM) or the National Strength and Conditioning Association (NSCA), or (b) a series of courses and student teaching leading to teacher certification. In order to qualify for the teacher certification track, students must meet the requirements mandated by the Pennsylvania Department of Education (PDE). PDE requirements can be found at <http://www.hhdev.psu.edu/kines/undergraduate/physical-health-education>. The completion of the Applied Exercise and Health Option will prepare students to work in the private or corporate fitness arenas, community-based fitness organizations, and university or hospital settings, or be Pennsylvania certified in health and physical education (K-12) and secure teaching positions in public or private schools.

**MOVEMENT SCIENCE OPTION:** This option provides interdisciplinary scientific training in academic areas such as biomechanics, exercise physiology, movement neuroscience, psychology of physical activity, and sport history and philosophy to understand movement for prevention and diagnosis of chronic disease, rehabilitation and treatment, and/or theoretical study. Students are prepared for graduate study in many clinical fields including medicine, physical therapy, occupational therapy, physical assistant, cardiac rehabilitation, as well as a broad range of careers in biomedical and health-related fields.

**EXERCISE SCIENCE OPTION:** (offered only at the Penn State Berks) This option is a program of study in the science of exercise. This program offers Kinesiology background and applied experience in fitness assessment, exercise physiology, exercise psychology, motor skill development, nutrition and healthy living skills. Graduates will be able to scientifically assess fitness levels of individuals. Analyzing those assessments, graduates will then be capable of designing and implementing appropriate exercise programs. Students in the Business Emphasis can obtain a Business Minor through this program. Students acquire basic business skills in accounting, marketing, management and entrepreneurial skills. Students choosing the Science Emphasis will select courses from a department list that will enhance their opportunity for graduate studies in Kinesiology-related fields, physical therapy and medical schools. The completion of the Exercise Science Option will enable graduates to compete for employment in the corporate fitness arena, private fitness clubs, community-based fitness organizations, hospital and university settings or possibly to operate their own health and fitness company.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. KINES requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits  
 (18-27 of these credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES :**  
 (Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-2 credits

**REQUIREMENTS FOR THE MAJOR:** 95-109 credits  
 (This includes 18-27 credits of General Education courses: Applied Exercise and Health Option - 9 credits GN, 6 credits GQ, 3 credits of GH, 6 credits of GS and 3 credits of GHA. Movement Science Option--9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GHA courses. Exercise Science Option--9 credits of GN courses; 6 credits of GQ courses; 3 credits of GHA courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 41-43 credits

**PRESCRIBED COURSES** (28 credits)<sup>[1]</sup>  
 BIOL 141 GN(3) (Sem: 1-4)  
 KINES 202(4), NUTR 251 GHA(3) (Sem: 3-4)  
 KINES 321(3), KINES 341 US;IL(3), KINES 345(3), KINES 350(3), KINES 360(3), KINES 384(3) (Sem: 3-6)

**ADDITIONAL COURSES** (13-15 credits)<sup>[1]</sup>  
 Select 3 credits: KINES 100(3); KINES 141 US;IL(3) (Sem 1-4)  
 Select 3 credits: KINES 180(3); KINES 101(3) (Sem 1-4)  
 Select 1 credit: KINES 295B(1); KINES 295(1) (Sem 1-4)  
 Select 3-4 credits: PHYS 150 GN(3); PHYS 250 GN(4) (Sem: 1-4)  
 Select 3-4 credits: STAT 200 GQ(4); or STAT 250 GQ(3); or SCM 200 GQ(4) (Sem: 2-6)

**REQUIREMENTS FOR THE OPTION:** 54-66 credits

**APPLIED EXERCISE AND HEALTH OPTION:** (62-66 credits)

**PRESCRIBED COURSES** (34 credits)  
 CHEM 101 GN(3)<sup>[1]</sup>, C I 280 GH(3), EDPSY 010 GS(3)<sup>[1]</sup>, KINES 200(3)<sup>[1]</sup>, KINES 201(3)<sup>[1]</sup>, KINES 267(3)<sup>[1]</sup>, KINES 367(1)<sup>[1]</sup>, KINE3S 368 (2)<sup>[1]</sup>, KINES 401(3)<sup>[1]</sup>, KINES 455(3)<sup>[1]</sup>, KINES 456(4)<sup>[1]</sup>, PSYCH 100 GS(3)<sup>[1]</sup> (Sem: 2-6)

**ADDITIONAL COURSES** (3 credits)

MATH 026 GQ(3) or Satisfactory performance on the MATH placement examination--i.e., placement beyond the level of MATH 026 (Sem: 1-2\_

**SUPPORTING COURSES AND RELATED AREAS** (25-29 credits)

Take the following required courses with selected emphasis area:

a. HPE Certification Emphasis (Sem: 7-8)

KINES 366(3), KINES 395A(1), KINES 400(3), KINES 464(3), KINES 468W(3), SPLED 400(4) (Sem: 7)

KINES 495A(12) (Sem: 8)

b. ACSM/NSCA Certification Emphasis (Sem: 7-8)

KINES 395(1), KINES 421(3), KINES 457(3), KINES 485(3), KINES 492W(3)

Select 3 credits from approved 400-level KINES courses: KINES 410(3), KINES 411(3), KINES 422(3), KINES 424 US(3), KINES 425W(3), KINES 460(3), KINES 465(3), KINES 467(3), KINES 481W(3), KINES 483(3), KINES 493(3) (Sem: 7)

KINES 495B(6), KINES 495E(3) (Sem: 8)

**MOVEMENT SCIENCE OPTION:** (54-56 credits)**PRESCRIBED COURSES** (24 credits)[\[1\]](#)

BIOL 110 GN(4), BIOL 142(1), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1) (Sem: 1-4)

PHYS 251 GN(4), PSYCH 100 GS(3) (Sem: 3-6)

KINES 395B(1) (Sem: 5-8)

KINES 495B(6) (Sem: 7-8)

**ADDITIONAL COURSES** (21-23 credits)

CHEM 106 GN(5)[\[1\]](#); or CHEM 110 GN(3)[\[1\]](#) (Sem: 1-4)

MATH 026 GQ(3)[\[1\]](#); or Satisfactory performance on the MATH placement examination--i.e., placement beyond the level of MATH 026 (Sem: 1-4)

Select an additional 15 credits from approved 400-level KINES courses:

KINES 410(3), KINES 411(3), KINES 420(3), KINES 421(3), KINES 422(3), KINES 423(3), KINES 424 US(3), KINES 425W(3), KINES 426(3), KINES 427(3), KINES 428(3), KINES 429(3), KINES 439W(3), KINES 440(3), KINES 441 US(3), KINES 442 IL(3), KINES 443 IL(3), KINES 444 US(3), KINES 446 IL(3), KINES 447W(3), KINES 450(3), KINES 452(3), KINES 453(3), KINES 454(3), KINES 455(3), KINES 456(4), KINES 457(3), KINES 460(3), KINES 463(3), KINES 465(3), KINES 467(3), KINES 481W(3), KINES 483(3), KINES 484(3), KINES 485(3), KINES 488(3), KINES 492W(3), KINES 493(3), KINES 495E(3), KINES 499 IL(1-12) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits in University-wide offerings from an approved list, in consultation with advisor. (Sem: 1-8)

**EXERCISE SCIENCE OPTION:** (54-56 credits)**PRESCRIBED COURSES** (29 credits)[\[1\]](#)

KINES 200(3), KINES 201(3), KINES 260(3), (Sem: 3-4)

KINES 356(3), KINES 358(I) (Sem: 5-6)

KINES 420(3), KINES 456(4), KINES 457(3), KINES 495C(6) (Sem: 7-8)

**ADDITIONAL COURSES** (9-11 credits)

CHEM 101 GN(3)[\[1\]](#); or CHEM 106 GN(5)[\[1\]](#); or CHEM 110 GN(3)[\[1\]](#) and CHEM 111 GN(1)[\[1\]](#) (Sem: 1-2)

MATH 022 GQ(3)[\[1\]](#); or Satisfactory performance on the MATH placement examination--i.e., placement beyond the level of MATH 022 (Sem: 1-2)

Select 3 credits from KINES 001 GHA(1.5) to KINES 099(3) (Sem: 1-2)

**SUPPORTING COURSES AND RELATED AREAS** (16 credits)

Select 16 credits from one of the following emphasis area from an approved list, in consultation with advisor. At least 3 credits must be at the 400 level.

a. Business Emphasis (Sem: 1-8)

b. Science Emphasis (Sem: 1-8)

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Liberal Arts and Earth and Mineral Sciences Concurrent Degree Program

## Liberal Arts and Engineering Concurrent Degree Program

These programs require ten semesters of study, concurrently in the College of the Liberal Arts (during which the student completes 70 credits in General Education and Bachelor of Arts requirements and 33 to 37 basic engineering or science requirements), and in either the College of Earth and Mineral Sciences or the College of Engineering (during which the student completes the credits required in the selected major in Earth and Mineral Sciences or Engineering).

Upon completion of the program, the B.A. in General Arts and Sciences will be awarded by the College of the Liberal Arts and the B.S. by the College of Earth and Mineral Sciences or the College of Engineering. The majors available in the College of Earth and Mineral Sciences are Environmental Systems Engineering, Geosciences, Mining Engineering, Polymer Science, Mineral Economics, Petroleum and Natural Gas Engineering, Ceramic Science and Engineering, Metals Science and Engineering, or Meteorology. The majors available in the College of Engineering are Aerospace, Agricultural, Chemical, Civil, Electrical, Environmental, Industrial and Management Systems, Mechanical, or Nuclear Engineering, or Engineering Science<sup>[44]</sup>.

To be eligible for this program, a student must file an application for entrance with the associate dean for undergraduate studies, College of the Liberal Arts, not later than the third semester. Entrance to the program requires that the student satisfy all regular requirements of the College of the Liberal Arts and the College of Earth and Mineral Sciences or the College of Engineering. In addition, special requirements may need to be satisfied when enrollment controls are imposed on programs in any of the colleges because of space limitations. Once a student has met all the requirements for entrance to this program, transfer from the College of the Liberal Arts to the College of Earth and Mineral Sciences or the College of Engineering, with enrollment in one of the majors listed, will be approved automatically at the end of the sixth semester if the student continues to make normal progress toward the concurrent degree and has maintained a cumulative average of 2.00 or higher. Students entering majors in the College of Engineering must complete the following courses with a grade of C or higher: CHEM 110 GN(3) and CHEM 111 GN(1), MATH 140 GQ(4), MATH 141 GQ(4), and PHYS 201 GN(4), and meet the required cumulative grade-point average for the requested engineering major.

Students are advised of the absolute necessity for scheduling classes in exact sequence during the first six semesters of Concurrent Degree study. It is imperative that students obtain, from the Liberal Arts Undergraduate Studies Office, 101 Sparks Building, a copy of the Concurrent Degree requirements worksheet that enumerates the specific course requirements for the two programs for semesters one through six.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description for General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### BACHELOR OF ARTS DEGREE REQUIREMENTS: 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

### REQUIREMENTS FOR THE MAJOR: 12 credits

### EARTH AND MINERAL SCIENCES OR ENGINEERING COMPONENT: 89-91 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses and 9 credits of GN courses.)

### SEMESTERS ONE THROUGH SIX (33-34 credits)<sup>[45]</sup>

#### PRESCRIBED COURSES (27 credits)

CHEM 111 GN(1), CHEM 113 GN(1), MATH 220 GQ(2-3), MATH 230(4), MATH 250(3) (Sem: 1-4)

E G 010(1), E G 011(1) (Sem: 3-4)

PHYS 201 GN(4), PHYS 202 GN(4) (Sem: 3-6)

E MCH 211(3), E MCH 212(3) (Sem: 5-8)

#### ADDITIONAL COURSES (6-7 credits)

PHYS 203 GN(3) or PHYS 204 GN(4) (Sem: 3-6)

B.S. requirements<sup>[46]</sup>(3) (Sem: 5-6)

### SEMESTERS SEVEN THROUGH TEN (56-57 credits)

Credits required in the selected major in Earth and Mineral Sciences or Engineering (56-57) (Sem: 7-10)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 3 credits from each of the following areas: arts, humanities, science/mathematics, social and behavioral sciences. (Sem: 9-10)

<sup>[44]</sup> Enrollment in the Engineering Science program is limited to those students attaining an average of B or higher during their first six semesters and to those specially chosen by the College of Engineering faculty on the basis of evidence that they will benefit from the advanced courses.

<sup>[45]</sup> Concurrent Degree candidates should consult the individual program requirements in the College of Engineering and the College of Earth and Mineral Sciences to ascertain which combinations of CHEM, E G, E MCH, MATH, and PHYS are required.

<sup>[46]</sup> Concurrent Degree candidates should select a course in this category appropriate for the requirements for their program in either Earth and Mineral Sciences or Engineering.

## Landscape Architecture

University Park, College of Arts and Architecture (LARCH)

PROFESSOR ELIZA PENNYPACKER, Head, Department of Landscape Architecture

Landscape architecture is the art of design, planning, or management of the land and of the natural and built elements upon it. As an academic discipline, it embodies creative, cultural, philosophical, and scientific knowledge bases. As a professional discipline, the practice of landscape architecture includes site design, urban design, master planning, community planning, regional planning, resource conservation, and stewardship.

For those selected to major in this field, the program is a five-year curriculum leading to a professionally accredited Bachelor of Landscape Architecture degree. A minor is strongly encouraged. One semester of the curriculum is spent in a required semester abroad. The program helps prepare graduates for either advanced study or professional careers. The curriculum develops both the creative disciplines and the technical skills essential to practice, as well as to the pursuit of interests in related fields. With appropriate work experience with a registered practitioner, graduates are eligible to take the state licensing examinations.

For the Bachelor of Landscape Architecture degree, a minimum of 151 credits is required.

**PROGRAM CURRENTLY ON HOLD at PENN STATE Harrisburg;  
NOT ACCEPTING NEW STUDENTS  
Begin Date of Enrollment Hold: Fall Semester 2015**

---

## Letters, Arts, and Sciences

*Abington College (LASAB)*

*Altoona College (LASAL)*

*Penn State Harrisburg (LASCA)*

*University College (LASCC): Penn State Brandywine, Penn State DuBois, Penn State Greater Allegheny, Penn State Hazleton, Penn State Mont Alto, Penn State*

*Shenango, Penn State Worthington Scranton*

*University Park, College of the Liberal Arts (LAS)*

*World Campus*

Letters, Arts, and Sciences is a multi-disciplinary, theme-oriented, and student-designed major leading to a bachelor of arts degree. The major consists of 36 credits, divided into two sections. The core (12 credits) consists of 3 credits each in the following: research methods/projects; communication skills; theory/application; and critical analysis. The additional courses (24 credits) consist of courses directed toward the student's theme, 15 credits of which must be at the 400 level.

In order to be eligible for entrance to the major, the student must submit a proposal. In consultation with an LAS adviser, the student formulates a proposal designing a program that investigates a theme from the viewpoint of at least three different subject areas. Students may not duplicate existing majors from any academic area. An important standard for entrance to the Letters, Arts, and Sciences major is the student's ability to design a program with academic integrity worthy of a bachelor of arts degree.

For the B.A. degree in Letters, Arts, and Sciences, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**Early Admission Program for Professional Schools:** If a student is accepted and enrolled as a degree candidate in a professional postgraduate degree program requiring three years or more to complete (such as medical school, dental school, law school, theological seminary, etc.) and if that student completes 94 undergraduate credits at Penn State including General Education, B.A. requirements, and the LAS 12-credit core requirements, that student may use up to 30 credits from the professional school to complete the B.A. in LAS.

It must be emphasized that only top students are accepted into professional school programs on such an early admission basis and that not every professional school has such a policy. Students must have enrolled in LAS prior to attending the professional school to request graduation in LAS.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits<sup>[1]</sup>

**ADDITIONAL COURSES** (24 credits)

In consultation with adviser, select 24 credits from University-wide offerings to include:

- a) 12 credits at the 400 level representing at least three different subject areas;
- b) a 3 credit 400-level capstone course (to be selected in consultation with adviser);
- c) at least 9 credits (of the 24 total) from the humanities and social sciences. (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

In consultation with adviser, select 3 credits in research methods/projects from courses that involve research methodology or that focus on a research project; select 3 credits in communication skills from courses that focus on expression including those in verbal, symbolic, and written skills; select 3 credits in theory/application from courses that focus on theory, principle, central concepts, or fundamental issues; select 3 credits in critical analysis from courses that focus on evaluation, synthesis, and analysis. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Latin American Studies

*University Park, College of the Liberal Arts (LATAM)*

PROFESSOR MATTHEW RESTALL, *in charge*

This interdisciplinary major is designed for students who want a basic understanding of Latin America. The program is organized so that it may be combined with a second major or a minor subject.

For the B. A. degree in Latin American Studies, a minimum of 121 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

## Law and Society

*University Park, College of the Liberal Arts (LAWSC): offered via World Campus*

DIANA R. GRUENDLER, *Faculty-in-Charge*

The College of the Liberal Arts Law and Society program is an undergraduate major that provides a comprehensive liberal arts education across multiple disciplines. The program focuses on understanding how social, cultural, economic, and political forces treat the law within the context of historical and contemporary trends. Socio-legal theory will provide a framework for understanding the increasing importance of programs that accentuate the study of law, and legal institutions.

The Law and Society program has six prescribed classes. In addition, a student will complete five supporting courses that incorporate the student's degree goals and can be tailored to his or her special interests. Students will consider the relationship between law, legal processes, human behavior, and legal and social institutions. The conventions of reading, argument, logic, and program solving will be used to explore issues.

Law and Society provides excellent preparation for higher schooling, such as law school or graduate study in sociology, criminology, or criminal justice. The major enhances career options in law enforcement, regulatory agencies, social service agencies, non-profit agencies, non-government agencies (NGO), and organizations that determine public policy. Law and Society also provides valuable knowledge for the small business owner.

For the B.A. degree in Law and Society, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

## Labor and Employment Relations

University Park, College of the Liberal Arts  
World Campus

PROFESSOR PAUL CLARK, *Head*

This major permits students to undertake a study of work and the employment relationship in the context of a liberal arts education. A broad foundation of theoretical and professional knowledge is provided through a multidisciplinary approach. The B.A. and B.S. degrees draw on the perspectives of disciplines such as industrial relations, economics, history, law, sociology, and psychology. This focus includes the nature and functions of the institutions involved in the employment relationship. The B.S. degree requires more course work in quantification than the B.A. degree.

Graduates of Labor and Employment Relations are equipped for employment in business, government, and labor organizations as labor relations specialists, personnel and human resource specialists, researchers, organizers, consultants, and professionals in mediation and arbitration. The degree is also appropriate preparation for graduate study and law school.

For the B.A. degree in Labor and Employment Relations, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Integrated B.S. in Labor and Employment Relations and M.S. in Human Resources and Employment Relations (LRHRER)

PROFESSOR PAUL F. CLARK, *Head*

The integrated LER B.S. and HRER M.S. is a five-year program designed for academically talented baccalaureate students to obtain both the B.S. and the M.S. degrees in LER and HRER with five years of study. Students will develop expertise in the human resources and labor relations fields beyond the B.S. degree. The undergraduate curriculum educates students about (1) the roles of employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship (3) and how to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for more individualized, focused learning in a concentrated sub-area of the HRER field. The program culminates with an M.S. research paper. Upon completion of the integrated degree, students will enter the workforce with advanced knowledge and expertise gained from conducting and analyzing empirical work and participating in seminar-style classes.

## Admission Requirements

Admission to the integrated B.S./M.S. program will be limited to undergraduates with strong academic records. Applicants to the integrated program:

1. must be enrolled in the LER B.S. program;
2. must complete the Penn State graduate degree application form and pay the application fee
3. must have completed 60 credits of the undergraduate degree program when they officially apply for the M.S. (it is strongly suggested that students apply to the program prior to completing 100 credits)
4. should have an overall GPA of 3.2 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in the major;
5. must obtain letters of recommendation from the chairs of the Department's undergraduate and graduate committees, and
6. must submit a writing sample, 2 transcripts, 1 letter of recommendation (in addition to those from the chairs of the Department's undergraduate and graduate committees), and a career statement.

No GRE or GMAT scores are required for admission to the program.

## Degree Requirements

### Bachelor of Science

GS;US(4), or take any 400-level AF AM, CAS, ECON, HIST, LTNST, MGMT, PHIL, PSYCH, SPAN, SOC, WMNST course (Sem: 5-8)

Select 15 credits from appropriate LER courses, at least 9 credits the the 400-level (only 3 credits of LER 495 or LER 496 may be sued to satisfy this requirement) (Sem: 5-8)

**M.S. REQUIREMENTS:** 36 credits

[12 credits may be double counted, 6 must be at the 500 level]

**PRESCRIBED COURSES:** (21 credits)

HRER 501(3), HRER 502(3), HRER 504(3), HRER 505(3), HRER 512(3)\*, HRER 513(3)\*\*, HRER 516(3)

\*or other statistics course approved in advance by graduate director

\*\*or other methods course approved in advance by graduate director

**ADDITIONAL COURSES:** (15 credits)

Select 15 credits from the following list in consultation with adviser (only 6 credits may be at the 400 level).

LER 400 IL(3), LER 401(3), LER 414W(3), LER 424(3), LER 434(3), LER 435(3), LER 437(3), LER 444(3), LER 458Y US(3), LER 460(3), LER 465(3), LER 470(3), HRER  
500(3), HRER 535(3), HRER 536(3), HRER 594(1-6), HRER 595(1-6), HRER 596(1-6), HRER 597(1-3), HRER 600(3-6)**Emphasis Courses (6 credits)**

An emphasis is an area of study related to a particular aspect or domain of industrial relations and human resources. Select 6 credits from the M.S. prescribed or additional courses in consultation with the adviser.

**Masters Research Paper or a Masters Thesis (6 credits)**

Students must complete either a Masters Research Paper or a Masters Thesis. Students choosing the Thesis option must complete 6 thesis credits (HRER 600). These credits can be counted towards the 15 credits required from the M.S. Additional Courses section above.

**Integrated B.S. in Labor and Employment Relations and M.P.S. in Human Resources and Employment Relations**

The integrated LER B.S. and HRER M.P.S. is a five-year program designed for academically talented World Campus baccalaureate students to obtain both the B.S. and the M.P.S. degrees in LER and HRER in an intense, accelerated program of study. Students will develop expertise in the human resources and employment relations field beyond the B.S. degree. The undergraduate curriculum introduces students to (1) the roles employers, employees, employee organizations and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, (3) the laws that form the legal framework for the employee-employer relationship, and (4) the tools needed to systematically analyze those complex issues and evaluate research relevant to those analyses. The graduate curriculum provides for a more intensive, individualized, and focused examination of the human resources and employment relations field. It also provides an opportunity for students to explore a concentrated sub-area of the HRER field in depth. The program culminates with a research project which is completed through the capstone course, HRER 894. Upon completion of the integrated degree, students will have gained advanced knowledge and expertise from conducting and analyzing empirical work and participating in online classes that can be directly applied to the workplace.

A minimum of 33 credits is needed to complete the MPS degree in HRER. Nine credits (400 level and above) can apply to both undergraduate and graduate degrees; six of these must be at a 500 or 800 level.

**Admission Requirements**

Admissions decisions for the B.S./M.P.S. program are based on the quality of the applicant's credentials. The decisions are made after a review of the complete application portfolio. The integrated B.S./M.P.S. program will be limited to highly talented undergraduates. Applicants to the integrated program:

- must be enrolled in the LER B.S. program;
- must complete the Penn State graduate degree application and pay the application fee;
- shall be admitted no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study;
- must have an overall GPA of 3.4 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.6 in the major;
- must submit 2 letters of recommendation from current or previous Penn State instructors and 1 additional letter of recommendation (should be professional or academic);
- must submit a writing sample, a resume, and a 2-3 page essay articulating career and educational goals that demonstrates the applicant's written communication skills;
- must present an approved plan of study (to be determined in consultation with the student's undergraduate adviser and the Graduate Director, and to be signed by both); and
- must possess the equivalent of two years of full-time work experience prior to admission.

No GRE or GMAT scores are required for admission to the program.

**Degree Requirements**

The M.P.S. requires 33 credits at the 400 level or higher; at least 6 credits must be at the 500 level.

Nine (9) of 33 credits can be double counted for B.S. and M.P.S. At least 6 of these must be at the 500 or 800 level.

**Prescribed Courses (24 credits)****Human Resources and Employment Relations (HRER)**

- 501. Labor and Employment Law (3 credits)
- 504. Seminar in Industrial Relations (3 credits)
- 505. Seminar in Human Resources (3 credits)
- 800. International Context of HRER (3 credits)
- 802. Organizations in the Workplace (3 credits)
- 816. Labor Market Analysis (3 credits)
- 836. Diversity in the Workplace (3 credits)
- 894. Research Project (3 credits)

**Areas of Concentration (6 credits)**

Select 6 credits in area of concentration.

**Benefits and Compensation**

- LER 424. Employment Compensation (3 credits)
- LER 425. Employment Benefits (3 credits)

**Employment and Labor Law**

- LER 401. Law of Labor-Management Relations (3 credits)
- HRER 811. Labor and Employment Law II (3 credits)

**Labor and Collective Bargaining**

- LER 401. Law of Labor-Management Relations (3 credits)
- LER 435. Labor Relations in the Public Sector (3 credits)

**Staffing, Training, and Development**

- LER 426 Staffing and Training (3 credits) *or* WF ED 471 Training in Industry and Business (3 credits)
- WF ED 573 Needs Assessment for Industrial Trainers (3 credits)

**Elective Courses (3 credits)**

Select an additional 3-credit course from the following list of LER, HRER, and WF ED courses.

**Labor and Employee Relations (LER)**

- 401. Law of Labor-Management Relations (3 credits)
- 424. Employment Compensation (3 credits)
- 425. Employment Benefits (3 credits)
- 426. Staffing and Training (3 credits)
- 435. Labor Relations in the Public Sector (3 credits)
- 444. Occupational Health: Policy and Practice (3 credits)
- 445Y. Politics of Affirmative Action (3 credits)
- 460. Human Resource Ethics (3 credits)
- 464. Communication Skills for Leaders in Groups and Organizations (3 credits)
- 465. Collective Decision Making (3 credits)
- 472. Work-Life Practices and Policies (3 credits)

**Human Resources and Employee Relations (HRER)**

- 811. Labor and Employment Law II (3 credits)

**Workforce Education and Development (WF ED)**

- 471. Training in Industry and Business (3 credits)
- 573. Needs Assessment for Industrial Trainers (3 credits)

**Student Aid**

Fellowships, traineeships, graduate assistantships, and other forms of financial aid are described in the [STUDENT AID](#) section of the *Graduate Bulletin*.

Graduate courses carry numbers from 500 to 699 and 800 to 899. Advanced undergraduate courses numbered between 400 and 499 may be used to meet some graduate degree requirements when taken by graduate students. Courses below the 400 level may not. A graduate student may register for or audit these courses in order to make up deficiencies or to fill in gaps in previous education but not to meet requirements for an advanced degree.

## Landscape Contracting

University Park, College of Agricultural Sciences (LSCPE)

PROFESSOR DAN T. STEARNS, Program Coordinator

Landscape contracting involves constructing, establishing, and maintaining landscapes from small residential projects to large commercial and industrial projects, as well as producing plans for small-scale residential and commercial sites. Students develop skills in construction, site design, plant material usage, plant establishment, and landscape maintenance. Students are also educated in areas such as graphics, surveying, soils, turfgrass management, weed and pest management, and in business operations.

Students are encouraged to obtain on-the-job experience in landscape contracting by working with a landscape maintenance or construction firm, or other related business. Credits for this experience are available for those who choose to enroll in an internship.

A wide variety of opportunities exist for landscape contracting graduates. They may be employed by design/build firms, landscape management firms, nurseries, or garden centers. Others may choose to work for municipalities, golf courses, parks, or botanical gardens.

**DESIGN/BUILD OPTION:** This option focuses on the development of skills in the planning and implementation of landscape projects. Employment opportunities exist with landscape contracting companies, irrigation companies, and retail centers.

**MANAGEMENT OPTION:** This option provides professional education in the management of landscapes. Employment opportunities include positions with landscape management companies and golf courses.

For the B.S. degree in Landscape Contracting, a minimum of 120 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 3-15 credits

**REQUIREMENTS FOR THE MAJOR:** 81-93 credits

(This includes 21-24 credits of General Education courses; 3 credits of GWS courses; 3-6 credits of GA courses; 3 credits of GQ courses; 9 credits of GN courses; 3 credits of GS courses)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 67-68 credits

**PRESCRIBED COURSES** (51 credits)

HORT 410W(3), HORT 468(2) [\[1\]](#), LARCH 060 GA:US:IL(3), MATH 026 GQ(3) (Sem: 1-2)

A S M 217(3), ACCTG 211(4), B A 250(3), B LAW 243(3), CHEM 101 GN(3) [\[1\]](#), ENGL 202D GWS(3), HORT 101 GN(3) [\[1\]](#), HORT 120(2) [\[1\]](#), HORT 131(3) [\[1\]](#), HORT

137(3) [\[1\]](#), HORT 138(3) [\[1\]](#), HORT 408(4) [\[1\]](#) (Sem: 5-6)

SOILS 101 GN(3) (Sem: 7-8)

**ADDITIONAL COURSES** (16-17 credits)

AG BM 101 GS(3), ECON 014 GS(3), ECON 102 GS(3), or ECON 104 GS(3) (Sem: 3-4)

BIOL 110 GN(4) or BIOL 127 GN(3) (Sem: 3-4)

SPAN 001(4) or SPAN 002(4) or SPAN 105(4) (Sem: 3-4)

AG BM 220(3) or MKTG 220(3) (Sem: 5-6)

TURF 100(3) or TURF 235(3) (Sem: 5-6)

**REQUIREMENTS FOR THE OPTION:** 14-26 credits

**DESIGN/BUILD OPTION:** (25-26 credits)

**PRESCRIBED COURSES** (23 credits)

ART 020 GA(3), EDSGN 010(1), HORT 220(3) [\[1\]](#) (Sem: 3-4)

HORT 269(3) [\[1\]](#), HORT 464(4) [\[1\]](#) (Sem: 5-6)

HORT 368(4) [\[1\]](#), HORT 466(5) [\[1\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (2-3 credits)

Select 2-3 credits from ENT 313(2), ENT 314(1), HORT 238(3), PPEM 300(3) or PPEM 318(2) (Sem: 5-6)

**MANAGEMENT OPTION:** (14-15 credits)

**PRESCRIBED COURSES** (9 credits)

ENT 313(2), ENT 314(1), HORT 238(3) [\[1\]](#), HORT 250(3) [\[1\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (5-6 credits)

PPEM 300(3) or PPEM 318(2) (Sem: 7-8)

SOILS 402(3) or SOILS 404(3) (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mechanical Engineering

University Park, College of Engineering (M E)

PROFESSOR KAREN A. THOLE, *Head, Department of Mechanical and Nuclear Engineering*

Mechanical Engineering is one of the broadest engineering disciplines and is central in many new technological developments. Mechanical engineers create things that help improve the health, happiness and safety of our everyday lives such as biomedical devices, aircraft propulsion, and ways to store renewable energies. Mechanical engineering is divided into two broad areas: mechanical systems and thermal systems. Mechanical systems include the design of mechanisms and the analysis of the strength and wear of materials. Thermal systems include methods of energy conversions, heat transfer and fluid flow.

### Program Educational Objectives:

Three to five years after graduation, Mechanical Engineering graduates will be:

1. Working in industry and government including computer-aided design, simulation and analysis of products or systems, experimentation and testing, manufacturing, and technical sales.
2. Assuming increasing levels of responsibility in project, personnel, and budget management.
3. Working and leading effectively in multi-disciplinary and multi-cultural teams.
4. Communicating effectively and recognizing the global, social and ethical contexts of their work.
5. Entering into graduate and professional studies.

### Program Outcomes (Student Outcomes):

The Program outcomes are knowledge, skills, and/or behavior that are derived from the program educational objectives.

- a. An ability to apply knowledge of mathematics, science, and engineering.
- b. An ability to design and conduct experiments, as well as to analyze and interpret data.
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- d. An ability to function on multidisciplinary teams.
- e. An ability to identify, formulate, and solve engineering problems.
- f. An understanding of professional and ethical responsibility.
- g. An ability to communicate effectively.
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- i. A recognition of the need for, and an ability to engage in life-long learning.
- j. A knowledge of contemporary issues.
- k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The program offers a balance of engineering applications and theory with an emphasis on design from the first year through the industry-based capstone design experience in the senior year. In addition, mechanical engineering students find it easy to incorporate co-operative educational experiences as well as many minors into their program.

ENTRANCE TO MAJOR -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Mechanical Engineering, a minimum of 131 credits is required. This baccalaureate program in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (83 credits)

CHEM 110 GN(3) [\[11\]](#), EDSGN 100(3), MATH 140 GQ(4) [\[11\]](#), MATH 141 GQ(4) [\[11\]](#), PHYS 211 GN(4) [\[11\]](#) (Sem: 1-2)  
CMPSC 200 GQ(3), E MCH 211(3) [\[11\]](#), E MCH 212(3) [\[11\]](#), E MCH 213(3) [\[11\]](#), M E 300(3) [\[11\]](#), MATH 220 GQ(2-3), MATH 231(2), MATH 251(4) [\[11\]](#), PHYS 212 GN(4) [\[11\]](#), PHYS 214 GN(2) (Sem: 3-4)  
E E 212(3), E MCH 315(2), ENGL 202C GWS(3), M E 320(3) [\[11\]](#), M E 340(3) [\[11\]](#), M E 345(4) [\[11\]](#), M E 360(3) [\[11\]](#), M E 370(3) [\[11\]](#), M E 410(3) [\[11\]](#), MATSE 259(3) (Sem: 5-6)  
I E 312(3), M E 450(3) [\[11\]](#) (Sem: 7-8)

### ADDITIONAL COURSES (18 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)  
CHEM 112 GN(3), or BIOL 141 GN(3) (Sem: 1-2)  
ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
ECON 102 GS(3), ECON 104 GS(3), ECON 014 GS(3), or ENNEC 100 GS(3) (Sem: 1-2)  
CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)  
M E 440W(3) or M E 441W(3) (Sem: 7-8)  
Select 2 credits from M E 325(1), M E 315(1), M E 375(1), M E 355(1), or E MCH 316(1) (Sem: 7-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 3 credits in a 400-level M E Technical Elective course excluding M E 410(3), M E 440W(3), M E 441W(3), M E 450(3), M E 494(1-9), and M E 496(1-18) (Sem: 5-8)

Select 6 credits in Engineering Technical Elective courses, any 400-level courses in the College of Engineering not required for a B.S. in M.E. (Sem: 5-8)

Select 3 credits in General Technical Elective courses from department list (Sem: 7-8)

(Students who complete Basic ROTC may substitute 6 of the ROTC credits for 3 credits of GTE and 3 credits of GHA.)

Three rotations of Engr Co-op (ENGR 295, ENGR 395, and ENGR 495) can be used as 3 credits of GTE.

## Integrated B.S. and M.S. in Mechanical Engineering

A limited number of undergraduate students in the B.S.M.E. program will be considered for admission to the integrated undergraduate/graduate program

leading to the B.S.M.E. and the M.S.M.E. degrees. Students with a junior standing in the B.S.M.E. degree program may be admitted to the integrated B.S.M.E./M.S.M.E. program, following a positive review of an application specific to this program by the faculty committee on graduate admissions. Students must have attained a GPA of at least 3.0. Students admitted to the integrated program must maintain a GPA in all classes used toward the M.S.M.E. degree of at least 3.0.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mechanical Engineering Technology

*Capital College (M E T)*

PROFESSOR MICHAEL DIDEBAN, *Program Coordinator, School of Science, Engineering, and Technology*

The goal of the Mechanical Engineering Technology program is to provide our students with the necessary training and education so that they can provide high-level technical support to a variety of industrial, commercial, consulting, and governmental organizations. The emphasis of our program is in the application of scientific and engineering principles. Technical communication in oral and written form is also emphasized. Our graduates are expected to appreciate the ethical and societal responsibilities of a technologist, the concepts of Continuous Quality Improvement and the continuing impact of globalization of design, manufacturing and marketing of technical goods and services. Our graduates are trained to deal with choice of materials and methods that are safe, environmentally and aesthetically acceptable and economically competitive. Typical responsibilities that may be assigned to our graduates are the development and evaluation of machines and mechanisms; development, organization and supervision of manufacturing processes and procedures; the instrumentation, control and testing of a process; quality control; technical marketing and sales; design of mechanical systems for heating and cooling and energy management.

The strengths of our program include: hands-on training; extensive laboratory experience; state of the art computer methods, excellent job placement and accreditation by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Graduates who wish to continue their professional development can take the Fundamentals of Engineering exam in Pennsylvania, a prerequisite for taking the Professional Engineering exam.

### Entry to Major Requirements:

Entry to the Mechanical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

### Re-enrollment:

Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate's degree into the bachelor's degree should run a degree audit from eLion, using the M E T major code, to determine their curriculum requirements.

For a B.S. degree in Mechanical Engineering Technology, a minimum of 128 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in GENERAL EDUCATION or REQUIREMENTS FOR THE MAJOR course selection including Supporting Courses and Related Areas)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 101 credits

(This includes 18 credits of General Education courses: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses.)

### PRESCRIBED COURSES (48 credits)

CHEM 110 GN(3), CHEM 111 GN(1) (Sem: 1-4)

MATH 140 GQ(4) (Sem: 1-5)

ENGL 202C GWS(3) (Sem: 3-4)

ENGR 420Y US:IL(3) [\[1\]](#), I E 303(2), IET 308(3), MET 321(2), MET 332(3) [\[1\]](#), MET 336(3) [\[1\]](#), MET 341(3) [\[1\]](#), MET 358(3), MET 431(3) [\[1\]](#), MET 438(3), MET 448(2), MET 454(3), MET 481(1), MET 486(3) (Sem: 5-8)

### ADDITIONAL COURSES (35-39 credits)

Select 3 credits from: EDSGN 100(3) or EG T 120(3) (Sem: 1-2)

Select 3-4 credits from: PHYS 150 GN(3) or PHYS 211 GN(4) (Sem: 1-2)

Select 3 credits from: E MCH 211(3) or ET 300(3) or MCH T 111(3) [\[1\]](#) (Sem: 2-3)

Select 3-4 credits from: PHYS 151GN(3) or PHYS 212 GN(4) (Sem: 2-4)

Select 3 credits from: IET 101(3) or IET 311(3) (Sem: 2-5)

Select 3-4 credits from: IET 215(2) and IET 216(2) or IET 321(3) (Sem: 2-5)

Select 4 credits from: STAT 200 GQ(4) or MATH 141 GQ(4) (Sem: 2-6)

Select 3 credits from: E MCH 212(3), ET 321(3), or MET 206(3) [\[1\]](#) (Sem: 3-4)

Select 3 credits from: ET 322(3), E MCH 213(3), or MCH T 213(3) [\[1\]](#) (Sem: 3-4)

Select 1 credit from: ET 323(1) or MCH T 214 (1) (Sem: 3-6)

Select 3 credits from: MET 210W(3) or MET 365(3) (Sem: 3-6)

Select 3-4 credits from: EET 101(3) and EET 109(1); or EET 320(3) (Sem: 3-7)

### SUPPORTING COURSES AND RELATED AREAS (14-18 credits)

Select 5-9 credits from the department approved list of courses. (Sem: 5-8)

Select 9 credits from 300-400 level technology and engineering elective courses in consultation with an academic adviser and in support of the student's interests. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Management Information Systems

University Park, Smeal College of Business (M I S)

PROFESSOR JOHN E. TYWORTH, *Chair of the Department of Supply Chain and Information Systems*

The Management Information Systems major focuses on IT-supported techniques for exploring, analyzing, integrating, and reporting business data to facilitate fact-based decisions and enterprise-wide management. The framework encompasses the concepts, principles, and methods for (1) collecting, transforming, and managing data, (2) doing business analytics, (3) communicating and sharing the results, (4) aligning IT-enabled business analytics with business strategy. Students in this major have the opportunity to take nine credits of supporting work in functional business areas such as accounting, finance, marketing, risk management, and supply chain management. Graduates develop cross-functional literacy in how techniques and technologies help achieve business objectives, along with competency in applying business analytics methods on behalf of the business and in a supporting business area. Thus, graduates are well-prepared for careers in industry, consulting, and government sectors as business analytics professionals.

More information about the broad range of career opportunities is available at <http://www.smeal.psu.edu/scis/recruit>.

**Entrance Requirement:** To be eligible for entrance into the Management Information Systems (M I S) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

**Specific entrance requirements include:**

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); FIN 301(3)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Management Information Systems, a minimum of 120 credits is required (at least 15 credits must be taken at the 400 level).

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES :**

(Included in ELECTIVES or GENERAL EDUCATION selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14 credits

**REQUIREMENTS FOR THE MAJOR:** 73 credits

(This includes 12 credits of General Education: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (52 credits)

ACCTG 211(4)[\[1\]](#), ECON 102 GS(3), FIN 301(3)[\[1\]](#), MGMT 301(3)[\[1\]](#), MKTG 301(3)[\[1\]](#) (Sem: 1-4)

MIS 204(3)[\[1\]](#), MIS 301(3)[\[1\]](#), SCM 301(3) (Sem: 3-5)

B A 342(3), B A 411(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3), MIS 431(3)[\[1\]](#), MIS 432(3)[\[1\]](#), MIS 446(3)[\[1\]](#), MIS 479W(3)[\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (11 credits)

MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-2)

SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#) (Sem: 1-2)

MIS 434(3)[\[1\]](#) or MIS 441(3)[\[1\]](#) (Sem: 6-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)

Select 4 credits: Attainment of 12th-credit-level proficiency in a single foreign language(4 credits) Proficiency must be demonstrated by either examination or course work (Sem: 1-4)

Select 6 credits of supporting coursework. See department list (Sem: 5-8)

**[1]**A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Project and Supply Chain Management

*Penn State Erie, The Behrend College (PSCM)*

*Penn State Harrisburg, Capital College (PSMCA)*

*University College: Penn State Beaver, Penn State Fayette, Penn State Greater Allegheny, Penn State New Kensington, and Penn State Shenango*

The Project and Supply Chain Management major concentrates on developing knowledge, skills, and abilities in both project and supply chain management, dynamic and important disciplines in modern corporations. Project management skills include the development of new projects, and coordinating procurement and project delivery systems. Supply chain management emphasizes the integration of manufacturing and service operations, logistics, purchasing, and distribution that enable organizations to develop value-creating supply chain networks. The major provides students with an opportunity to develop the quantitative and people skills necessary to design and operate today's complex management systems. Students learn how to manage critical components in organizational supply chains, and apply business analytic methods for organizing and fully integrating supply chain practices throughout the organization.

Graduates are uniquely well-prepared for careers in some of the highest in-demand professions in the modern business and government environments, managing the supply chain and project initiatives in world-class business firms, public sector organizations, construction, IT organizations, third-party logistics providers, and goods and services distribution operations.

### Entry to Major Requirements:

Entry to the Management major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Project and Supply Chain Management, a minimum of 120 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 2 credits

### REQUIREMENTS FOR THE MAJOR: 88 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (43 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3) (Sem: 3-4)  
FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3)[1], SCM 301(3)[1] (Sem: 3-6)  
MGMT 341(3)[1], MGMT 410(3)[1] (Sem: 5-6)  
MGMT 418(3)[1], SCM 445(3)[1], SCM 460(3)[1] (Sem: 6-8)

### ADDITIONAL COURSES (33 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)  
SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)  
B A 241(2) and B A 242(2); or B A 243(4) (Sem: 3-6)  
Select 3 credits from B A 364Y(3)[1], ECON 470(3)[1], FIN 471(3)[1], MGMT 461 IL(3)[1], MKTG 445 IL(3)[1], or other 400-level international business courses[1] (Sem: 5-8)  
Select 6 credits of 300- or 400-level courses in one business supporting area or PSCM electives from MGMT 420(3)[1], MGMT 431(3)[1], MGMT 432(3)[1], MGMT 433(3)[1], MGMT 440(3)[1], MGMT 453(3)[1], MGMT 466(3)[1], or MGMT 483(3)[1] (Sem: 5-8)  
Select 3 credits from ECON 481(3)[1] or MIS 336(3)[1] or MIS 390(3)[1] (Sem: 6-8)  
MGMT 415(3)[1] or SCM 416(3)[1] (Sem: 6-8)  
SCM 320(3)[1] or SCM 455(3)[1] (Sem: 6-8)  
B A 462(3)[1] or MGMT 471W(3)[1] (Sem: 7-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits of approved electives courses from any area (see school list of suggested courses) (See the admission section in the general information section in this bulletin for the placement policy for Penn State foreign language courses.) (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mathematical Sciences

*Capital College (MA SC)*

PROFESSOR THANG N. BUI, *Program Chair, School of Science, Engineering, and Technology*

The two options and the variety of the course offerings provide concentrations in various areas such as actuarial science, management science/operation research, statistics, education, and preparation for graduate studies.

Small classes, excellent faculty, opportunities to work with faculty on projects, and strong employment prospects are just some of the strengths of the program. Students will be helped to develop: a solid foundation in mathematical studies; an awareness of the utility of mathematics, statistics, and computers; skills in translating practical problems into mathematical terms; a competency in the use of modern mathematical tools; problem-solving skills; and an awareness of the importance of mathematics in society.

The program is designed to prepare students for employment in business, industry, government, and education immediately after graduation, but graduate study in mathematics or related disciplines is also a viable alternative. Mathematical modeling is emphasized, and all students are required to take courses in statistics and computer science.

### Entry to Major Requirements:

Entry to the Mathematical Sciences major requires that the student has completed with a grade of C or higher: MATH 140 GQ(4), MATH 141 GQ(4). A 2.00 or higher cumulative grade-point average is required.

The Mathematical Sciences Secondary Education Option prepares students to meet the requirements, as established by the Pennsylvania Department of Education, to be certified for the Instructional I Certificate in Mathematics at the secondary level.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

### Entry to the Mathematical Sciences Secondary Education option requires the following additional requirements:

1. a minimum cumulative grade-point average of 3.0
2. completion of ENGL 015 GWS(3) or ENGL 030 GWS(3) and three credits of literature from approved list with a C or higher grade
3. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major

### Selective Retention:

Following entrance to the major, students will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

To be eligible to student teach, students must:

1. maintain a cumulative GPA of 3.0 or higher;
2. complete all required Content and Education Courses with a C or higher grade;
3. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

In order to successfully complete the Secondary Education Mathematics Program, students must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete all required Content and Education Courses with a C or higher grade;
4. pass the Penn State Harrisburg Mathematics Content Exam with an 80% or higher
5. complete a presentation portfolio; and
6. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

For a B. S. degree in Mathematical Sciences, a minimum of 120 credits is required.

For a B. S. degree in Mathematical Sciences with the Secondary Education option, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(9 to 18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 84-94 credits

(This includes 9-18 credits of General Education courses; 3 credits of GWS courses; 6 credits of GQ courses. In addition, the Secondary Education option includes 6 credits of GH courses and 3 credits of GS courses)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 20 credits

#### PRESCRIBED COURSES (20 credits)

MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#) (Sem: 1-2)  
ENGL 202C GWS(3) (Sem: 4)  
MATH 315(3) [\[1\]](#), MATH 430(3) [\[1\]](#), (Sem: 5)  
MATH 401(3) [\[1\]](#), (Sem: 6)

### REQUIREMENTS FOR THE OPTION: 64-74 credits

#### GENERAL MATHEMATICAL SCIENCES OPTION: (64 credits)

#### PRESCRIBED COURSES (31 credits)

CMPSC121 GQ(3), MATH 230(4) (Sem: 3)  
MATH 220 GQ(2), MATH 251(4) (Sem: 4)  
MATH 318(3) (Sem: 5)  
MATH 455(3) [\[1\]](#), STAT 301GQ(3) (Sem: 6)  
MATH 435(3), MATH 475W US;IL(3) (Sem: 7)  
MATH 449(3) (Sem: 8)

### SUPPORTING COURSES AND RELATED AREAS (33 credits)

Select 6 credits of 200 level or above courses. (Sem: 5-6)

Select 18 credits of 300-400 level Mathematics courses or SSET 295 in consultation with an academic adviser. Up to 6 of these credits may be replaced by any 200 or greater level CMPSC courses or CMPSC 122. (Sem: 5-8)

Select 9 credits of 300-400 level courses in consultation with an academic adviser and in support of the student's interests. (Sem: 5-8)

**SECONDARY EDUCATION IN MATHEMATICAL SCIENCES OPTION:** (74 credits)

**PRESCRIBED COURSES** (62 credits)

HD FS 239 GS(3) (Sem: 1-4)

CMPSC121 GQ(3) [\[1\]](#), EDPSY 014(3) [\[1\]](#), MATH 230(4) [\[1\]](#) (Sem: 3)

C I 280 GH(3) [\[1\]](#), MATH 220 GQ(2) [\[1\]](#), MATH 250(3) [\[1\]](#) (Sem: 4)

EDUC 313(2) [\[1\]](#), EDUC 314(3) [\[1\]](#) (Sem: 5)

EDUC 315W US(3) [\[1\]](#), EDUC 458(3) [\[1\]](#), MATH 427(3) [\[1\]](#), STAT 301GQ(3) [\[1\]](#) (Sem: 6)

EDUC 417(3) [\[1\]](#), EDUC 459(3) [\[1\]](#), MATH 435(3) [\[1\]](#), MATH 475W US;IL(3) [\[1\]](#) (Sem: 7)

EDUC 490(12) [\[1\]](#) (Sem: 8)

**ADDITIONAL COURSES** (3 credits)

Select 3 credits from MATH 425(3) or MATH 449(3) [\[1\]](#) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits of literature (GH) from department list [\[1\]](#) (Sem: 1-3)

Select 3 credits of 100-400 level courses (Sem: 4)

Select 3 credits of 300-400 level courses in Mathematics, Computer Science, Statistics, or Education [\[1\]](#) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Materials Science and Engineering

University Park, College of Earth and Mineral Sciences (MATSE)

PROFESSOR GARY L. MESSING, *Head, Department of Materials Science and Engineering*

PROFESSOR R. ALLEN KIMEL, *Associate Head of Undergraduate Studies, Materials Science and Engineering*

Materials, like ceramics, metals, polymers, and composites, are critical to the growth and success of many industries and key to most engineering disciplines. Graduates of Materials Science and Engineering are employed, or proceed to graduate studies, in many fields such as energy, medicine, sustainability, electronics, communications, transportation, aerospace, defense, and infrastructure industries.

The mission of the department is to provide students with a well-rounded engineering education, with specific emphasis on materials science and engineering in order to meet the needs of industry, academia, and government; to conduct research at the frontiers of the field; and to provide an integrating and leadership role to the broad multidisciplinary materials community.

The integration of knowledge and skills acquired during the course of study in the Materials Science and Engineering program provides graduates with the following student outcomes:

- a) Graduates will be able to apply knowledge of mathematics and advanced science and engineering principles to materials systems.
- b) Graduates will be able to design and conduct experiments and to analyze and interpret data.
- c) Graduates will be able to design a process, a microstructure, or a component to satisfy system needs.
- d) Graduates will be able to function on multi-disciplinary teams.
- e) Graduates will be able to identify, formulate, and solve engineering problems.
- f) Graduates will understand professional and ethical responsibility.
- g) Graduates will be able to communicate effectively, both in writing and in speech.
- h) Graduates will possess the broad education necessary to understand the impact of engineering solutions in a global and societal context.
- i) Graduates will recognize the need for, and be able to engage in, lifelong learning.
- j) Graduates will have a knowledge of contemporary issues.
- k) Graduates will be able to use the experimental, analytical, statistical, and computational tools for engineering practice in the materials discipline.
- l) Graduates will be able to apply the fundamental principles underlying and connecting the structure, processing, properties, and performance of materials systems.

The educational objectives of the undergraduate program are embedded into our mission statement. We will provide and maintain a curriculum that will prepare our recent graduates to accomplish the following Program Educational Objectives:

1. Our graduates provide science and engineering leadership in international industrial, governmental, and academic settings, while serving both their profession and the public.
2. Our graduates are innovators in a wide variety of technical fields including, but not limited to, materials, energy, electronics, medicine, communications, transportation, and recreation.
3. Our graduates excel in careers relating to the entire life cycle of materials, from synthesis and processing, through design and development, to manufacturing, performance, reclamation, and recycling.
4. Our graduates engage in lifelong learning activities which enhance their careers and provide flexibility to respond to changing professional and societal needs.

We achieve these objectives by providing a rigorous but flexible curriculum that allows the student to design their degree in materials science and engineering to achieve their specific academic and professional career interests.

In addition to the cutting edge curriculum, we provide many opportunities to strengthen the student's undergraduate studies through research experiences. For example, over 60% of the undergraduates are members of a research group and participate in the extensive materials research programs at Penn State. Further, we provide opportunities for International Internships in Materials, where our students go abroad to perform research at one of the many internationally recognized partner universities in Europe and Asia.

The B.S. degree in Materials Science and Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410.347.7700 or [www.abet.org](http://www.abet.org).

For the B.S. in Materials Science and Engineering, a minimum of 131 credits is required. This baccalaureate program in Materials Science and Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION 45 credits

(24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*. Note: The Accreditation Board for Engineering and Technology (ABET) does not permit the use of skills courses to satisfy the Arts category of General Education.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 110 credits

(This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (79 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 113 GN(1), CHEM 202 GN(3), CMPSC 200 GQ(3), EM SC 100S GWS(3) [71], MATH 140G GQ(4), MATH 141G GQ(4), MATH 220 GQ(2), MATH 231(2), MATH 251(4), MATSE 112 GN(3), PHYS 211 GN(4), PHYS 212 GN(4), I E 424(3) (Sem: 1-4)  
 MATSE 201(3) [11], MATSE 202(3) [11], MATSE 413 GN(3) (Sem: 3-4)  
 ENGL 202C GWS(3), MATSE 400(3) [11], MATSE 401(3) [11], MATSE 402(3) [11], MATSE 419(3), MATSE 430(3) [11], MATSE 436(3), MATSE 460(1), MATSE 462(1), MATSE 492W(3) [11] (Sem: 5-6)

### ADDITIONAL COURSES (19 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-4)

Select 3 or 6 credits from Synthesis and Processing: MATSE 411(3), MATSE 422(3), MATSE 425(3), MATSE 441(3), MATSE 448(3), MATSE 450(3) (Sem: 6-8)  
 Select 3 or 6 credits from Structure and Characterization: MATSE 410(3), MATSE 415(3), MATSE 421(3), MATSE 444(3), MATSE 445(3), MATSE 455(3) (Sem: 6-8)

Select 3 or 6 credits from Properties: MATSE 412(3), MATSE 417(3), MATSE 435(3), MATSE 446(3), MATSE 447(3) (Sem: 6-8)

Select 1 credit from Processing Laboratory: MATSE 463(1), MATSE 468(1), MATSE 472(1), MATSE 474(1) (Sem: 7)

Select 3 credits from Senior Capstone Experience: MATSE 493W(3) or MATSE 494W(3) (Sem: 7-8)

**SUPPORTING COURSE AND RELATED AREAS (12 credits)**

Select 12 credits of approved Science or Engineering Elective courses in consultation with advisor (Sem: 6-8)\_

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[71]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

EM

## Mechanical Engineering

*Penn State Berks (ME BL)*

*Penn State Erie, The Behrend College (ME BD)*

*Penn State Harrisburg (ME CA)*

Built upon a broad foundation in physics, chemistry, and mathematics, this major has the objective of educating graduates to be problem solvers. Graduates of this program will have had opportunities to learn about applying scientific principles, engineering analysis, and engineering design to solve unstructured problems that are typical of those found in mechanical engineering. The major helps prepare graduates for a lifelong productive career, whether they choose professional practice, graduate school, or some other career path. Graduates will have had opportunities to learn how to work with others toward a common goal, to clearly express their ideas in written and verbal form, and to be independent and capable of adapting to the continuously changing technology of the work environment.

After completing the fundamental science core, students may pursue their interest in mechanical engineering by studying fluid and solid mechanics, engineering materials and their properties, thermodynamics and heat transfer, computer-aided design, kinematics and dynamics of machine elements, machine design, finite elements, control systems, electricity, and electronic instrumentation and machinery. The students will be required to analyze and solve a significant mechanical engineering design problem during their senior year.

**Entrance Requirement:** In addition to the Carnegie unit and minimum GPA requirements described by University policies, all students applying for entrance to any of the engineering majors at either Behrend or Capital college must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), and PHYS 211 GN(4). These courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in Mechanical Engineering, a minimum of 131 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 107-108 credits

(This includes 21 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses.)

**PRESCRIBED COURSES** (88-89 credits)

CHEM 110 GN(3) [\[1\]](#), EDSGN 100S(3) (Sem: 1-2)

E E 211(3), E MCH 211(3) [\[1\]](#), E MCH 212(3) [\[1\]](#), E MCH 213(3) [\[1\]](#), M E 300(3) [\[1\]](#), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), MATH 220(2-3) [\[1\]](#), MATH 230(4),

MATH 251(4) [\[1\]](#), PHYS 211 GN(4) [\[1\]](#), PHYS 212 GN(4) (Sem: 1-4)

CMPS 200 GQ(3), ENGL 202C GWS(3) (Sem: 3-6)

M E 320(3) [\[1\]](#), M E 345W(4) [\[1\]](#), M E 349(3) [\[1\]](#), M E 357(3) [\[1\]](#), M E 365(1) [\[1\]](#), M E 367(3) [\[1\]](#), M E 380(3) [\[1\]](#), M E 410(3) [\[1\]](#) (Sem: 5-6)

M E 448(3) [\[1\]](#), M E 449(3) [\[1\]](#), M E 468(3) [\[1\]](#), MATSE 259(3) [\[1\]](#) (Sem: 7-8)

**ADDITIONAL COURSES** (6 credits)

ECON 102 GS(3) or ECON 104 GS(3) (Sem: 1-6)

CHEM 111 GN(1) and PHYS 214(2); or CHEM 112 GN(3), or BIOL 141 GN(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (13 credits)

Select 13 credits of program elective courses [\[1\]](#) from school-approved list. (These credits must be selected to fulfill the thematic requirements of the major.) (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Media Studies

University Park, College of Communications (MEDIA)

PROFESSOR ANTHONY OLORUNNISOLA, Head, Department of Film-Video and Media Studies

This major is designed for students who want to pursue an academic rather than professional program of media studies. Students are exposed first to the breadth of approaches to understanding the mass media (e.g., aesthetic, cultural, humanistic, social-behavioral) and then, by selecting one of four options, go into depth in a specialized area of media studies. All options within the major are closely intertwined with the liberal arts and sciences. Therefore, students who successfully complete this major must have a strong foundation in the liberal arts and well-developed language and analytical skills. That foundation should include courses such as ART H 100 GA(3), ECON 102 GS(3), HIST 002 GH(3), PSYCH 100 GS(3), and SOC 001 GS(3).

The following four options are offered:

**FILM AND TELEVISION STUDIES OPTION:** This option is designed for students interested in studying the art, history, and criticism of film and television. Electives offer students the opportunity to pursue a related field, such as art, art history, creative writing, speech communication, or theatre arts. This option merges aesthetics and social sciences and is appropriate for those seeking a more theoretical/critical approach to the study of film and video.

**INTERNATIONAL COMMUNICATIONS OPTION:** This option is designed for students who want to study the mass media systems of the world and their role in international affairs. The option offers students an opportunity to enhance their occupational opportunities in international business, organizations, or government and to be better prepared to participate in the world community. Students must select either a University-approved minor in a foreign language, area studies, or international studies; a University-approved education abroad program; or other international-related courses or programs with prior departmental approval.

### MEDIA EFFECTS OPTION:

This option focuses on the social and psychological effects of media messages and technologies. Students progress through a general introduction to problems and issues, such as the effects of televised sex and violence, to courses that emphasize more theoretical approaches and advanced applications. A minor in a complementary area of study, such as Psychology or Sociology, is encouraged.

**SOCIETY AND CULTURE OPTION:** In this option, a student and faculty adviser work together to tailor a program of courses to meet the student's individual interest in a coherent theme in media studies. These courses are usually selected in tandem with a minor or other supporting cluster of non-major courses in the area of specialization. Examples of themes include, but are not limited to, communication and the environment, communication and health campaigns, sports and the media, minorities and the media, and gender and the media. A minor in an area of specialization is encouraged.

Students must select at least 80 credits in courses outside the College of Communications, including at least 65 in the liberal arts and sciences.

For the B.A. degree in Media Studies, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 6-15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36-45 credits [\[1\]](#)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 15 credits

**PRESCRIBED COURSES** (15 credits)  
COMM 100 GS(3), COMM 304(3), COMM 405(3), COMM 411(3), COMM 413W(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 21-30 credits

**FILM AND TELEVISION STUDIES OPTION:** (21 credits)

**PRESCRIBED COURSES** (9 credits)  
COMM 150 GA(3), COMM 242(3), COMM 250 GA(3) (Sem: 3-4)

**ADDITIONAL COURSES** (12 credits)  
Select 9 credits from COMM 451(3), COMM 452(3), COMM 453 IL(3), COMM 454(3), COMM 455(3), COMM 495(1-3), or COMM 496(1-3) (Sem: 5-8)  
Select 3 credits from CAS 415(3), CHNS 121 GH;IL(3), CMLIT 153 GH;IL(3), ENGL 403(3), FR 138 GH(3), FR 487 IL(3), FR 488 IL(3), IT 475(3), JAPNS 453 IL(3), MUSIC 004 GA(3), PHIL 005 GH(3) (Sem: 5-8)

**INTERNATIONAL COMMUNICATIONS OPTION:** (21-30 credits)

**PRESCRIBED COURSES** (9 credits)  
COMM 110 GH(3), COMM 410 IL(3), COMM 419 US;IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits)  
Select 3 credits from COMM 118 GS(3), COMM 150 GA(3), COMM 205 US(3), COMM 320(3), COMM 404(3), or COMM 452(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (9-18 credits)  
Select at least one of the following for a minimum of 9 credits and a maximum of 18 credits, no more than 9 credits in COMM. (Sem: 1-8)

University approved minor in foreign language, area studies or international studies

University approved education abroad program

Other international related courses or programs with prior departmental approval

*More than one of the above is strongly recommended.*

**MEDIA EFFECTS OPTION:**(21 credits)

**PRESCRIBED COURSES** (9 credits)  
COMM 118 GS(3), COMM 418(3), PSYCH 100 GS(3)

**ADDITIONAL COURSES** (9 credits)

Select 6 credits from COMM 110 GH(3), COMM 150 GA(3), COMM 180(3), COMM 205 US(3), COMM 320(3), COMM 403(3) or COMM 412(3) (Sem: 3-4)  
 Select 3 credits from PSYCH 221 GS(3) or PSYCH 256 GS(3)

#### **SUPPORTING COURSES AND RELATED AREAS (3 credits)**

Select 3 credits in research methods from an approved department list (Sem: 1-8)

*A minor in a complementary area of study is encouraged (e.g. Psychology or Sociology) (Sem: 1-8)*

#### **SOCIETY AND CULTURE OPTION: (21 credits)**

##### **ADDITIONAL COURSES (21 credits)**

Select 6 credits from COMM 110 GH(3), COMM 118 GS(3), COMM 150 GA(3), or COMM 205 US(3) (Sem: 3-4)

Select 15 credits in communication theory from COMM 110 GH(3), COMM 118 GS(3), COMM 150 GA(3), COMM 170(3), COMM 180(3), COMM 408(3), COMM 409(3), COMM 410 IL(3), COMM 412(3), COMM 417(3), COMM 418(3), COMM 419 US;IL(3), COMM 451(3), COMM 452(3), COMM 453 IL(3), COMM 454(3), COMM 455(3) [At least 9 credits must be at the 400-level] (Sem: 5-8)

A minor in an area of specialization is encouraged.

### **Integrated B.A./M.A. in Media Studies**

The College of Communications offers academically qualified students enrolled in a Bachelor of Arts program in the College of Communications the opportunity to earn both the B.A. and the M.A. upon completion of five years of study. The Integrated Undergraduate-Graduate Program in Media Studies would facilitate the advanced study of communications research and thesis development through a carefully organized selection of undergraduate courses, graduate seminars and directed research projects. The program would accelerate and enhance undergraduate students' appreciation for graduate level scholarship by involving them in the seminars, research activities and the scholarly discourse of the College's community of Masters and Doctoral-level scholars.

For the IUG Media Studies B.A./M.A. degree, a minimum of 120 credits are required for the B.A. and 36 credits for the M.A. Twelve graduate level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these must be at the 500 level.

If for any reason a student admitted to the B.A./M.A. program is unable to complete the requirements for the Master of Arts degree program in Media Studies, the student will be permitted to receive the BA degree assuming all degree requirements have been satisfactorily completed.

#### **Application Process and Admissions Requirements**

Applicants must complete 6 credits from the following lists of courses with a minimum GPA of 3.5 in order to be admitted: 3 credits from COMM 100, COMM 150, COMM 180, COMM 320, or COMM 370 and 3 credits from COMM 205, COMM 250, COMM 381, COMM 401, COMM 403, COMM 404, COMM 405, COMM 407, COMM 408, COMM 409, COMM 410, COMM 411, COMM 413, COMM 417, COMM 418, COMM 419, COMM 451, COMM 452, COMM 453, COMM 454, COMM 455, COMM 484, or COMM 485. The minimum overall GPA required of applicants is 3.2. Admission to the program is based on the evaluation of the student's transcript, examples of completed writing and research projects, a narrative statement of objectives, and two letters of support from faculty with whom they have worked. One faculty member must be from the College of Communications. Students are expected to apply after completing 60 credits but before the completion of 100 credits. Candidates are expected to present records of outstanding scholarly achievement to qualify. Applications will be reviewed by the appropriate subset of members of the Graduate Committee of the College.

#### **Applicants to the integrated program:**

1. Must be enrolled in a B.A. program in the College of Communications.
2. Must have completed 60 credits of the undergraduate degree program. (It is recommended that students apply prior to completing 100 credits.)
3. Must provide a narrative statement of objectives and two letters of endorsement from faculty with whom they have worked. One faculty member must be from the College of Communications.
4. Must present an approved plan of study in the application process.

#### **Program of Study**

The Integrated B.A./M.A. degree in Media Studies is an academic program that involves students in the systematic study of media. The objective of the course of study is to enable students to achieve a comprehensive understanding of the systems, networks, cultures, and information associated with media. The program prepares students for doctoral study in communications and for professional positions in business and government requiring a comprehensive understanding of the historical, social, and political implications of the media. This program helps prepare students to organize research projects, critically evaluate research reports, and directly influence media practices by the application of research findings. The program is specifically not intended for advanced professional education.

Undergraduate tuition rates will apply as long as the student is in undergraduate status, unless the student receives financial support, such as an assistantship requiring the payment of graduate tuition.

#### **Degree Requirements**

For the IUG Media Studies M.A. degree, a minimum of 120 credits are required for the B.A. and 36 credits for the M.A. At least 18 of the required 36 credits must be at the 500 level. Twelve graduate level credits, in consultation with the adviser, can apply to both the B.A. and M.A. degrees. Six of these double-counted credits must be at the 500 level. A minimum of 12 credits of coursework, as opposed to research credits, must be completed in Communications. COMM 515 and COMM 506 or COMM 511 are required. IUG students will prepare a thesis proposal in consultation with their advisers and are required to present the final thesis in a formal oral defense meeting to a committee of at least 3 members of graduate faculty, two of whom must be members of the College faculty. It is encouraged that one member of the committee be from outside the College.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Medieval Studies

University Park, College of the Liberal Arts (MEDVL)

PROFESSOR NORRIS LACY, *in charge*

This is an interdisciplinary program of study designed to give students an integrated knowledge of medieval civilization. While the main area of study is the fifth to sixteenth centuries in Europe, a global perspective is offered with particular attention to the Near East and the Pacific Rim.

For the B.A. degree in Medieval Studies, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 24 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 30 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (6 credits)

MEDVL 107 GH(3) or HIST 107 GH(3), MEDVL 108 GH(3) (Sem: 3-4)

**ADDITIONAL COURSES** (24 credits)

(A minimum of 12 credits must be in 400-level courses.)

Select 24 credits from the program list of courses dealing with the Middle Ages from no less than three of the following areas:

### Art

ART H 201 GA(3) (Sem: 1-8)

ART H 312 GA(3) (Sem: 3-8)

ART H 402(3), ART H 412(3), ART H 422(3-9), ART H 442(3), ART H 452(3) (Sem: 5-8)

### History

HIST 105 GH;IL(3), HIST 108 GH;IL(3), HIST 141 GH;IL(3), HIST 165(3) (Sem: 1-8)

HIST 407 IL(3), HIST 408 IL(3), HIST 411(3), HIST 412 IL(3), HIST 413(3), HIST 471W(3), HIST 480 IL(3) (Sem: 5-8)

### Literature and Language

CMLIT 001 GH(3), CMLIT 106 GH;IL(3), ENGL 221W(3), GER 175 GH;IL(3), HEBR 010 GH;IL(3), SPAN 130 GH;IL(3) (Sem: 1-8)

FR 351(3), IT 350(3), SPAN 353(3) (Sem: 3-8)

CMLIT 401Y IL(3), CMLIT 408 IL(3), ENGL 441(3), ENGL 442(3), FR 422(3), GER 430 IL(3), GER 431 IL(3), IT 415(3), IT 490(3), LATIN 420(3-6), SPAN 418(3) (Sem: 5-8)

### Medieval Studies

MEDVL 187(3) (Sem: 1-2)

MEDVL 197(1-9), MEDVL 199 IL(1-12), MEDVL 294(1-12), MEDVL 299 IL(1-12) (Sem: 1-8)

MEDVL 395(1-18), MEDVL 399 IL(1-12) (Sem: 3-8)

MEDVL 411(3), MEDVL 413(3), MEDVL 494(1-12), MEDVL 496(1-18), MEDVL 497(1-9), MEDVL 499 IL(1-12) (Sem: 5-8)

### Philosophy and Religious Studies

RL ST 120 GH(3), PHIL 207 GH(3) (Sem: 1-8)

PHIL 454(3-6), RL ST 420(3) (upon advising) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Review Date: 4/8/03

LA

## Mechanical Engineering Technology

*Penn State Erie, The Behrend College (METBD)*

This major may be taken either as a four-year baccalaureate program or in a "2+2" degree format. The latter allows graduates of associate degree programs in mechanical engineering technology or related areas to gain greater breadth and depth of knowledge in mechanical engineering technology. The baccalaureate program emphasizes applied design and analysis, complementing a hands-on manufacturing and materials focus. The graduate gains valuable knowledge of total manufacturing processes ranging from applied design to manufacture.

This major includes instruction in materials engineering, thermodynamics, heat transfer, hydraulics, finite-element analysis, and use of parametric solids modeling design packages, as well as supporting course work in mathematics and science. Oral and written communications are stressed, as is the ability to work within a team-oriented environment. The major culminates with a capstone design project involving an actual design or manufacturing problem sponsored by regional industry. This program is accredited by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

Graduates have qualified for careers in a wide variety of industries that manufacture or use mechanical systems. Careers include positions in applied product design, manufacturing process development, field service support, supervision of manufacturing facilities, tool and die design, quality control, plant supervision and management, and technical sales.

### Entrance to Major Requirements:

To be eligible for entrance to the Mechanical Engineering Technology major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed MATH 081 or MATH 026, and MATH 082 or MATH 022, and MATH 083 or MATH 140, and PHYS 250, and earned a grade of C or better in each of these courses.

For the B.S. degree in Mechanical Engineering Technology, a minimum of 131 credits is required. A student enrolled in this major must earn at least a grade of C in each 300- and 400-level course.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in GENERAL EDUCATION course selection)

### ELECTIVES: 0-1 credit

### REQUIREMENTS FOR THE MAJOR: 103-106 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (73 credits)

ENGL 202C GWS(3), MCH T 111(3)[\[1\]](#), MET 107(3), PHYS 250 GN(4)[\[1\]](#), PHYS 251 GN(4) (Sem: 1-4)  
MCH T 213(3)[\[1\]](#), MCH T 214(1), IET 215(2), IET 216(2), MET 206(3)[\[1\]](#), MATH 210 GQ(3)[\[1\]](#), MET 210W(3)[\[1\]](#) (Sem: 3-4)  
CHEM 110 GN(3), CHEM 111 GN(1), MATH 211 GQ(3), MET 306(3)[\[1\]](#), MET 320(3)[\[1\]](#), MET 330(3)[\[1\]](#), MET 331W(4)[\[1\]](#), MET 341(3)[\[1\]](#), MET 415(3)[\[1\]](#) (Sem: 5-6)  
MET 425(3)[\[1\]](#), MET 432(3)[\[1\]](#), MET 470(3)[\[1\]](#), MET 480(1)[\[1\]](#), MET 485(3)[\[1\]](#) (Sem: 7-8)

### ADDITIONAL COURSES (22-24 credits)

EET 100(3); or EET 101(3); or EET 105(3) and EET 109(1); IET 101(3)[\[1\]](#) or MET 105(3)[\[1\]](#) (Sem: 1-4)  
MATH 026 GQ(3)[\[1\]](#) or MATH 081 GQ(3)[\[1\]](#), MATH 022 GQ(3)[\[1\]](#) or MATH 082 GQ(3)[\[1\]](#), MATH 083 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-4)  
EG T 120(3) and EG T 121(3); or EG T 101(1), EG T 102(1), EG T 114(2), EG T 201(2), and EG T 205(1) (Sem: 1-5)

### SUPPORTING COURSES AND RELATED AREAS (8-9 credits)

Select 6 credits of technical electives from school-approved list (Sem: 7-8)

Select 2-3 credits of business electives from school-approved list (Sem: 6-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

BD

## Meteorology

University Park, College of Earth and Mineral Sciences (METEO)

PROFESSOR David Stensrud, *Head of the Department*

Meteorology is a rigorous scientific discipline devoted to the attainment of an increased understanding of the atmosphere and the development of methods for applying that knowledge to practical problems. Although this field is usually associated with weather prediction, it also has significance in environmental, energy, agricultural, oceanic, and hydrological sciences. For students wishing to pursue many of these areas, the department offers several options within the major.

The major requires a solid foundation in mathematics and the physical sciences, and it provides a comprehensive survey of the fundamentals of atmospheric science. It has sufficient flexibility to permit intensive advanced study in such related areas as mathematics, earth sciences, or engineering. The department has particular strengths in weather analysis and prediction, including forecast uncertainty and severe weather; physical meteorology, including radar meteorology, instrumentation and atmospheric measurements; and applied areas, including atmospheric diffusion, air pollution chemistry, dynamic meteorology, tropical meteorology, climate, weather risk, and remote sensing.

Graduating meteorologists are prepared for professional employment with industry, private consulting firms, government, and the armed forces or for further study toward graduate degrees normally required for research, university, or management positions.

The freshman and sophomore years are largely devoted to preparatory work in science, mathematics, and the liberal arts. The junior and senior years involve a core of basic courses in applied and theoretical topics and a choice of courses offering specialized training. The courses unique to each option are normally taken in the junior and senior years.

### Entry to Major Requirements:

In addition to the minimum grade point average (GPA) requirements described in the University Policies, the Meteorology entrance-to-major requirement must also be completed with a minimum grade of C: MATH 140 GQ(4).

**ATMOSPHERIC SCIENCES OPTION:** This option challenges students to strengthen and broaden their understanding of the physics and chemistry of both the atmosphere and oceans. It helps prepare them for employment in the diverse field of the atmospheric sciences and for graduate study in the atmospheric or related disciplines. Students are encouraged to participate in undergraduate research projects under the supervision of atmospheric and oceanic scientists in the department college.

**ENVIRONMENTAL METEOROLOGY OPTION:** Environmental Meteorology prepares the student for understanding the impact of the weather and climate on the environment, which is to say the impacts of air and water on natural and human-altered ecosystems. In order to do this, the option establishes links between atmospheric physics and a variety of environmental disciplines pertaining to land, water, soils, and plants. Depending on his/her interests, the student will select courses in the Air Quality and Dispersion, Ecology, Environmental Chemistry, Geographic Information Systems or Hydrology.

**GENERAL OPTION:** This option has sufficient flexibility to serve the needs of students who wish to pursue topics chosen broadly from subdisciplines of meteorology or from related areas in consultation with the academic adviser. The General option is appropriate both for students who intend to pursue postgraduate degrees and for students who want to emphasize a topic for which no option exists.

**WEATHER FORECASTING AND COMMUNICATIONS OPTION:** This option prepares students for careers in which their skills as weather forecasters are effectively used in a variety of ways, from science reporting and television broadcasting to web design and computer-based weather graphics production, and developing innovative applications of weather and climate data to industry.

**WEATHER RISK MANAGEMENT OPTION:** The option combines study of meteorology and atmospheric sciences with training in risk, finance, and quantitative decision-making. Weather affects a wide range of industries, including energy, agriculture, insurance, construction, retail, and transport, among others. Weather and climate variation play central roles in the availability of water resources, the spread of disease, and an array of other processes vital for human welfare. There are, consequently, many organizations that confront risks related to weather, and that have a demand for experts who can help them manage these risks. The option in Weather Risk Management is designed for students who wish to work professionally at this intersection of meteorology and risk management.

For a Meteorology course to serve as a prerequisite for any subsequent prescribed or supporting Meteorology course in the major, a grade of C or better must be earned in the prerequisite course.

For the B.S. degree in Meteorology, a minimum of 121 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(23-26 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 6-7 credits

**REQUIREMENTS FOR THE MAJOR:** 93-95 credits

(This includes 23-26 credits of General Education courses: 8 credits of GN courses; 6 credits of GQ courses; 0-3 credits of GS courses; 9 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 66 credits

**PRESCRIBED COURSES** (47 credits)

CHEM 110 GN(3), EM SC 100S GWS(3) [\[71\]](#), MATH 140 GQ(4) [\[11\]](#), MATH 141 GQ(4) [\[11\]](#), PHYS 211 GN(4) (Sem: 1-2)

MATH 251(4), PHYS 212 GN(4) (Sem: 3-4)

METEO 300(4) [\[11\]](#), METEO 411(4) [\[11\]](#), METEO 421(4) [\[11\]](#), METEO 431(3) [\[11\]](#), METEO 440W(3) [\[11\]](#) (Sem: 5-6)

METEO 470(3) [\[11\]](#) (Sem: 6-8)

**ADDITIONAL COURSES** (19 credits)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

METEO 101 GN(3) [\[11\]](#) or METEO 200A(1.5) [\[11\]](#) and METEO 200B(1.5) [\[11\]](#) or METEO 201(3) [\[11\]](#) (Sem: 1-5)

METEO 273(3) or CMPSC 101 GQ(3) or CMPSC 200 GQ(3) or CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 2-4)

MATH 230(4) [\[11\]](#) or MATH 231(2) [\[11\]](#) and MATH 232(2) [\[11\]](#) (Sem: 3-4)

E B F 472(3) or STAT 301 GQ(3) or STAT 401(3) (Sem: 3-6)

CAS 100 GWS(3) or ENGL 202C GWS(3) (Sem: 3-8)

**REQUIREMENTS FOR THE OPTION:** 27-29 credits

**ATMOSPHERIC SCIENCES OPTION:** (27-28 credits)

**PRESCRIBED COURSES** (3 credits)

METEO 422(3) (Sem: 6-8)

**ADDITIONAL COURSES** (21-22 credits)

Select 3-6 credits from METEO 473(3)[1] and METEO 474(3)[1] (Sem: 5-8)

Select 6-9 credits from METEO 436(3)[1], METEO 437(3)[1], and METEO 454(3)[1] (Sem: 5-8)

Select 6-13 credits from METEO 414(4), METEO 434(3), METEO 451(3), METEO 452(3), METEO 455(3), METEO 465(3), METEO 466(3), METEO 471W(3), METEO 477(3), METEO 480W(3) (Up to 9 of these credits in relevant courses in Acoustics, Chemistry, Engineering, Mathematics, and Physics may be substituted with the approval of the student's adviser.) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits of W courses or their equivalent in addition to METEO 440W. (Sem: 7-8)

**ENVIRONMENTAL METEOROLOGY OPTION:** (27-29 credits)

**PRESCRIBED COURSES** (9 credits)

C E 370(3), METEO 454(3)[1], METEO 455(3) (Sem: 2-8)

**ADDITIONAL COURSES** (18-20 credits) (May apply to General Education)

Select 15-17 credits from BIOL 110 GN(4), C E 360(3), C E 461(3), C E 475(4), C E 479(3), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 450(3), CHEM 457(2), CHEM 464(3), E R M 430(3), E R M 435(3), E R M 447(3), E R M 450(3), GEOG 111 GN(3), GEOG 311(3), GEOG 313(3), GEOG 361(3), GEOG 362(3), GEOG 363(3), GEOG 417(3), GEOG 463(3), M E 405(3), M E 433(3), METEO 419(3), METEO 437(3) (Sem: 2-8)

Select 3 credits from METEO 473(3)[1] or METEO 474(3)[1] (Sem: 5-8)

**GENERAL OPTION:** (27 credits)

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from METEO 436(3)[1] or METEO 437(3)[1] or METEO 454(3)[1] (Sem: 5-8)

Select 3 credits from METEO 473(3)[1] or METEO 474(3)[1] (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 21 credits in consultation with advisor from 400-level METEO courses and/or 300-, or 400-level courses from the Colleges of Agricultural Sciences, Earth and Mineral Sciences, Engineering, and/or Science. With the approval of a meteorology adviser, some 200-level courses from those Colleges may also be used. (Sem: 7-8)

**WEATHER FORECASTING AND COMMUNICATIONS OPTION:** (28 credits)

**PRESCRIBED COURSES** (13 credits)

METEO 481(3), METEO 482(3) (Sem: 5-6)

METEO 414(4), METEO 415(3) (Sem: 6-8)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from METEO 436(3)[1] or METEO 437(3)[1] (Sem: 5-8)

Select 3-6 credits from METEO 473(3)[1] and METEO 474(3)[1] (Sem: 5-8)

Select 6-9 credits from CAS 211(3), E E 477(3) or METEO 477(3), ENGL 416(3), GEOG 333(3), GEOG 361(3), GEOG 362(3), GEOG 363(3), GEOG 417(3), GEOG 467(3), GEOSC 402Y IL(3), METEO 413(3), METEO 416(3), METEO 418W(3), METEO 419(3), METEO 422(3), METEO 434(3), METEO 451(3), METEO 452(3), METEO 454(3), METEO 471W(3), METEO 483(3), METEO 486(1-2, max 3), any two from METEO 495A(3), METEO 495B(3), METEO 495C(3), METEO 495D(3) or METEO 495E(3) (Sem: 5-8)

**WEATHER RISK MANAGEMENT OPTION:** (27 credits)

**PRESCRIBED COURSES** (9 credits)

ECON 102 GS(3) (Sem: 1-2)

E B F 473(3) (Sem: 3-6)

METEO 460(3) (Sem: 7-8)

**ADDITIONAL COURSES** (18 credits)

Select 6 credits from METEO 415(3), METEO 473(3)[1] or METEO 474(3)[1] (Sem: 5-8)

Select 3 credits from METEO 436(3)[1], METEO 437(3)[1] or METEO 454(3)[1]\*\* (Sem: 5-8)

Select 6 credits from E B F 301(3), E B F 483(3), E B F 484(3), EGEE 437(3), EGEE 438(3), or EME 460(3) (Sem: 6-8)

Select 3 credits from ECON 490(3), STAT 318(3), STAT 319(3), STAT 414(3), STAT 415(3), STAT 460(3) or STAT 462(3) (Sem: 6-8)

\*\*Preferred choice

## Integrated B.S./M.S. Program in Meteorology

The Department of Meteorology offers an integrated B.S./M.S. (IUG) Program that is designed to allow academically superior students to obtain both the B.S. and the M.S. degree in Meteorology in five years of study. In order to complete the program in five years, students interested in the Integrated B.S./M.S. Program in Meteorology must apply for admission to the Graduate School and the Integrated B.S./M.S. Program by the end of their junior year.

During the first three years, the student will follow the course scheduling of one of the options in the B.S. degree, normally the Atmospheric Sciences or the General option (see the Undergraduate *Bulletin*). Students who intend to enter the Integrated B.S./M.S. program are encouraged to take upper level classes during their first three years whenever appropriate. By the end of the junior year, students normally apply for admission to both the IUG program and to the Graduate School. Acceptance decisions will be made prior to the beginning of the senior year and M.S. advising committees appointed for successful applicants. During the senior year, IUG students follow the scheduling of the selected B.S. Meteorology option, with an emphasis on completing 500-level course work as appropriate. During the senior year, IUG students will start work on their theses or papers that are designed to meet the requirements of the M.S. degree in Meteorology. During the fifth year, IUG students take courses fulfilling the departmental M.S. degree requirements and complete their M.S. theses or papers. Typical scheduling plans for students pursuing the General or Atmospheric Sciences options are given on the departmental Web site <http://www.met.psu.edu>. Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student receives financial support, for example, via an assistantship requiring the payment of graduate tuition.

### Admission Requirements

Students who wish to complete the Integrated B.S./M.S. Program in Meteorology should apply for admission to both the Graduate School and the Integrated B.S./M.S. Program by no later than the end of their junior year. In this case, successful students will be admitted formally into the graduate program in Meteorology just prior to their senior year, if their progress has been satisfactory. Admission prior to the senior year is also possible in some unusual circumstances. In all cases, admission to the program will be at the discretion of the Graduate Admissions Officer for the Department of Meteorology, who will determine the necessary criteria for all applicants. These criteria include the setting of the minimum required scores on the GRE and the minimum cumulative GPA for consideration, the receipt of sufficiently strong recommendation letters from three faculty and a strong letter of support from the department head, and the writing of an excellent proposal for a workable research project with a specific adviser; normally, evidence of significant research progress must be provided in the application as well.

The details of the program requirements can be found in the Graduate Degree Programs *Bulletin*.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[71] The following substitutions are allowed for students attending campuses where the indicated courses is not offered: CAS 100 GWS or ENGL 202C GWS can be substituted for EM SC 100S GWS.

UCA Revision #1: 8/9/06

## Management

University Park, Smeal College of Business (MGMT)

PROFESSOR DENNIS GIOIA, *Chair, Department of Management and Organization*

This major provides students with knowledge and skills managers need to deal with contemporary management challenges, such as leading and motivating people of different ages and backgrounds, developing strategies for competing in the global economy, and balancing the interest of multiple stakeholders in a complex legal, political, and ethical environment. The management core provides a general overview of the knowledge and skills required for effectively managing people and organizations. Students then supplement that overview with either the Human Capital Management concentration or the Organizational Leadership concentration. Career opportunities are in management trainee positions, human capital management, customer service, consulting, and family businesses.

**Human Capital Management Concentration** - The HCM concentration prepares students for a professional career in human resources management, and develops skills and expertise in areas such as planning, staffing, job design, employee development, performance management, compensation, change management, and managing diversity.

**Organizational Leadership Concentration** - The Organizational Leadership concentration provides students with knowledge of the attributes, processes and skills associated with leading organizations in dynamic times. It emphasizes student development of capabilities in leading themselves and others, leading change, and leading strategically in a global economic and social environment.

**Entrance Requirement:** To be eligible for entrance into the Management (MGMT) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

**Specific entrance requirements include:**

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); FIN 301(3)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Management, a minimum of 120 credits is required (at least 15 credits must be taken at the 400 level).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14 credits

**REQUIREMENTS FOR THE MAJOR:** 73 credits

(This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (46 credits)

ACCTG 211(4)[\[1\]](#), ECON 102 GS(3), FIN 301(3)[\[1\]](#), MGMT 301(3)[\[1\]](#), and MKTG 301(3)[\[1\]](#) (Sem: 1-4)  
B A 342(3), B A 411(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3), MIS 204(3), SCM 301(3), MGMT 326(3)[\[1\]](#), MGMT 451W(3)[\[1\]](#), MGMT 471(3)[\[1\]](#)  
(Sem: 5-8)

**ADDITIONAL COURSES** (17 credits)

MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-2)  
SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#) (Sem: 1-2)

Select 9 credits from one of the following two areas of concentration:

**A. Human Capital Management Concentration** (9 credits)

MGMT 341(3)[\[1\]](#) (Sem: 5-6)

Select six credits [\[1\]](#) from the following: MGMT 441(3), MGMT 443(3), MGMT 445 US(3) (Sem: 6-8)

**B. Organizational Leadership Concentration** (9 credits)

MGMT 355(3) [\[1\]](#) (Sem: 5-6)

Select six credits [\[1\]](#) from the following: MGMT 420(3), MGMT 445 US(3), MGMT 461 IL(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)

Select 4 credits: Attainment of 12th-credit-level proficiency in a single foreign language. (4 credits) Proficiency must be demonstrated by either examination or course work (Sem: 1-4)

Select 6 credits of supporting coursework from an approved department list. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Microbiology

University Park, Eberly College of Science (MICRB)

PROFESSOR Wendy Hanna-Rose, *in charge*

Microbiology is the science of the "simple" forms of life and of the response of more complex life forms to their presence and activities. Students in the Microbiology major will (1) complete a comprehensive study of life processes at the molecular and cellular level, with particular emphasis on prokaryotes, and (2) perform basic and advanced techniques in laboratory methodology. Through advanced course study, the many subdisciplines of microbiology such as molecular genetics, immunology, and virology may be explored more fully. Ample opportunities exist for participation in faculty-initiated research projects. Extensive laboratory experience is a particular strength of the major. Courses in such applied areas as industrial, medical, and food microbiology help prepare students for careers in the pharmaceutical, biotechnical, and agricultural industries.

In order to be eligible for entrance to the Microbiology major, a student must have: (1) attained at least a 2.00 cumulative grade-point average and (2) completed CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), and MATH 140 GQ(4) and earned a grade of C or better in each of these courses.

For the B.S. degree in Microbiology, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 95 credits<sup>[86]</sup>

(This includes 15 credits of General Education courses; 9 credits of GN courses; 6 credits of GQ courses.)

**PRESCRIBED COURSES** (64 credits)

CHEM 110 GN(3)<sup>[1]</sup>, CHEM 111 GN(1)<sup>[1]</sup>, CHEM 112 GN(3)<sup>[1]</sup>, CHEM 113 GN(1), MATH 140 GQ(4)<sup>[1]</sup>, MATH 141 GQ(4), PSU 016(1) (Sem: 1-2)

PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 1-4)

B M B 442(3), BIOL 322(3), CHEM 210(3), CHEM 212(3), CHEM 213(2), MICRB 201(3)<sup>[85]</sup>, MICRB 202(2), MICRB 251(3)<sup>[85]</sup>, MICRB 252(3)<sup>[85]</sup> (Sem: 3-4)

B M B 400(2), B M B 401(3), B M B 402(3), MICRB 421W(3) (Sem: 5-6)

B M B 428(3) (Sem: 5-8)

**ADDITIONAL COURSES** (21-23 credits)

Select any four of the following: MICRB 401(3), MICRB 410(3), MICRB 412(3), MICRB 415(3), or MICRB 450(2) (Sem: 5-6)

Select 3 credits from B M B 445W(2), B M B 448(2), MICRB 422(2), MICRB 447(1) (Sem: 5-8)

Select 6-7 credits from FD SC 408(2), B M B 488(2), B M B 496(1-18) or any other MICRB 400-level course, with a total maximum of 4 credits in B M B 488 and/or B M B 496 (1-18) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9-11 credits)

Select 9-11 credits from department list (Sem: 5-8)

*Note:* A student enrolled in an ROTC program may, after consultation with the head of the microbiology program, substitute up to 6 credits of ROTC in the categories of Additional Courses and Supporting Courses and Related Areas.

<sup>[1]</sup> A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

<sup>[85]</sup> To graduate, a grade of C or better is required in two of the following courses: MICRB 201, B M B/MICRB 251, B M B/MICRB 252.

<sup>[86]</sup> To graduate, a grade of C or better is required in 9 credits of any B M B, or MICRB 400-level course except B M B 443W, B M B 445W, B M B 448, B M B 488, B M B 496, MICRB 421W, MICRB 422, MICRB 442, MICRB 447.

## Management Information Systems

*Penn State Erie, The Behrend College (MISBD)*

The MIS Major prepares students for typical IT-related jobs such as programmer/analyst, systems analyst, data analyst, database administrator, team leader, project manager, consultant, and MIS manager. Since the focus of such jobs is on the application of information technology to business problems and opportunities, the MIS curriculum integrates three main areas of study.

In the first area, students take core business courses in order to understand organizational processes and user requirements. In the second area, students take computer science courses in order to understand information technologies and to develop technical competencies. In the third area, students take core MIS courses in the areas of database management systems, systems analysis, and systems design and development where the focus is on learning tools, processes, and techniques required for successful application of information technology to business problems. These core courses are supplemented with a variety of electives and a required, and very useful, internship experience.

### Entrance to Major Requirements:

Entry to the Management Information Systems major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Management Information Systems, a minimum of 120 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 0-1 credits

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 88-91 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (40 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3) (Sem: 3-6)  
FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3)[1], SCM 301(3)[1] (Sem: 3-6)  
MIS 336(3)[1], MIS 430(3)[1] (Sem: 5-6)  
MGMT 410(3)[1], MGMT 471W(3)[1], MIS 495(3)[1] (Sem: 7-8)

### ADDITIONAL COURSES (18 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)  
SCM 200 GQ(4) or STAT 200 GQ(4); ENGL 202C GWS(3) or ENGL 202D GWS(3) (Sem: 3-4)  
B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)  
Select 3 credits from ECON 470 IL(3)[1], ECON 473 IL(3)[1], FIN 471(3)[1], MGMT 461 IL(3)[1], MKTG 445 IL(3)[1], or other 400-level international business courses [1] (Sem: 7-8)

### REQUIREMENTS FOR THE OPTION (31-34 credits)

#### BUSINESS ANALYST OPTION: 31 credits

#### PRESCRIBED COURSES (7 credits)

MIS 404 (3)[1], MIS 445 (4)[1]

#### SUPPORTING COURSES AND RELATED AREAS (24 credits)

Select 3 credits from MIS 387 (3)[1] or MIS 470 (4)[1]  
Select any combination of 6 credits from the approved electives course list for the major. (Sem: 1-8)  
Select 3 credits in programming courses (Sem: 3-8)  
Select 12 credits[1] from 300- or 400-level MIS, or other business supporting course areas (see school list of approved courses) (Sem: 5-8)

#### SYSTEMS ANALYST OPTION: 31-34 credits

#### PRESCRIBED COURSES (4 credits)

MIS 435 (4)[1]

#### SUPPORTING COURSES AND RELATED AREAS (27-30 credits)

Select any combination of 6-7 credits from the approved electives course list for the major. (Sem: 1-8)  
Select 9 credits in programming courses taken from two different languages (Sem: 3-8)  
Select 6-7 credits[1] of 300- or 400-level courses in Computer Science, or MIS in consultation with adviser (see school list of approved courses) (Sem: 5-8)  
Select 6-7 credits[1] from 300- or 400-level MIS, or other business supporting course areas (see school list of approved courses) (Sem: 5-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Marketing

University Park, Smeal College of Business (MKTG)

PROFESSOR DUNCAN FONG, *Chair of the Department of Marketing*

This major provides professional education leading to positions in business, government, and other organizations, and helps prepare the student for advanced study at the graduate level. Career opportunities are in marketing management, sales management, advertising, marketing research, retailing, public policy, and consumer affairs. In addition to following a planned course sequence in general marketing management, the students may elect course work that focuses on their interests in consumer or business-to-business marketing, physical goods or services marketing, retail marketing and for-profit or not-for-profit marketing.

The Marketing major is designed to be integrated with the college's professional education in business and builds on that program and on education in the social sciences.

**Entrance Requirement:** To be eligible for entrance into the Marketing (MKTG) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

**Specific entrance requirements include:**

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[11]; ECON 102 GS(3); SCM 200 GQ(4)[11] or STAT 200 GQ(4)[11]; ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4)[11] or MATH 140 GQ(4)[11]; FIN 301(3)[11]; MGMT 301(3)[11]; and MKTG 301(3)[11]. These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Marketing, a minimum of 120 credits is required with at least 15 credits at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14 credits

**REQUIREMENTS FOR THE MAJOR:** 73 credits

(This includes 12 credits of General Education courses; 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (46 credits)

ACCTG 211(4)[11], ECON 102 GS(3), FIN 301(3)[11], MGMT 301(3)[11], MKTG 301(3)[11] (Sem: 1-4)  
B A 342(3), B A 411(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3), MIS 204(3), SCM 301(3), MKTG 330(3)[11], MKTG 342(3)[11], MKTG 450W(3)[11]  
(Sem: 5-8)

**ADDITIONAL COURSES** (17 credits)

MATH 110 GQ(4)[11] or MATH 140 GQ(4)[11] (Sem: 1-2)  
SCM 200 GQ(4)[11] or STAT 200 GQ(4)[11] (Sem: 1-2)  
Select 9 credits [11] from MKTG 327(3), MKTG 410(3), MKTG 422(3), MKTG 426(3), MKTG 428(3), MKTG 435(3), MKTG 437(3), MKTG 440(3), MKTG 443(3), MKTG 445 IL(3) (Sem: 6-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)

Select 4 credits: Attainment of 12th credit level proficiency in a single foreign language. (4 credits) Proficiency must be demonstrated by either examination or course work (Sem: 1-4)

Select 6 credits of supporting course work. See Department List. (Sem: 5-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mining Engineering

University Park, College of Earth and Mineral Sciences (MNG E)

PROFESSOR JEFFERY L. KOHLER, Undergraduate Program Chair

Mining contributes to nearly 15 % of the U.S. and 25% of the global economy. Mined products are significant and critical inputs to food production, manufacturing, construction, and electricity supply, and each year every person in the U.S. requires an average of 38,500 pounds of new minerals to equip and power their day-to-day activities. Over 14,000 mines distributed throughout the U.S. supply the majority of these mined products.

The Penn State Mining Engineering Program prepares students for a career in the industrial minerals, metals, and energy industries that sustain the domestic and global economies. Importantly, the Program provides an emphasis on sustainable mining through integration of environmental, safety and health, and societal responsibility principles in the design and operation of mineral enterprises.

Graduates of the program will be prepared to work domestically or internationally to develop and operate mines; or to work in supporting activities including engineering consulting, banking, equipment development and supply, regulatory enforcement, and research. This is accomplished primarily through the curriculum, but is enhanced by an internship program, which allows qualified students to obtain practical experience through structured employment opportunities in the private and public sectors.

The curriculum is built on the foundation of mathematics, science, and general education common to engineering majors at Penn State. The courses specific to this major are designed and sequenced to provide an appropriate blend of theory, application, and design. The required courses help to provide the enabling skills for graduates to work in any facet of the vast minerals industry, and technical electives allow for in-depth study of more specialized topics. The general education opportunities are sufficiently broad and diverse in nature and scope to enable the student to tailor the educational experience to particular interests, backgrounds, and expected roles in society.

The integration of knowledge and skills acquired during the course of study in the Mining Engineering program provides graduates with the following student outcomes:

1. An ability to apply knowledge of mathematics, science, and engineering
2. An ability to design and conduct experiments, as well as to analyze and interpret data
3. An ability to design a system, component, or process to meet desired needs
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global and societal context
9. A recognition of the need for and an ability to engage in life-long learning
10. A knowledge of contemporary issues
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### PROGRAM EDUCATIONAL OBJECTIVES

1. Within three-to-five years after graduation, students are expected to be advancing in their career in the minerals industry and adapting to new situations and emerging problems, through the application of general engineering-science skills and the core technical problem-solving and design practices of the mining engineering profession, with an understanding of the need for lifelong learning.
2. Within three-to-five years after graduation, students are expected to be communicating effectively.
3. Within three-to-five years after graduation, students are expected to be functioning effectively as individuals or as members of teams.
4. Within the first year after graduation, students are expected to demonstrate an understanding of the importance of mining to society, and for working in a contemporary society in which safety and health, responsibility to the environment, and ethical behavior are required, without exception.
5. Within the first five years after graduation, students are expected to be preparing to attain licensure as a Professional Engineer.

**STUDENT-TRAINEE PROGRAM:** An internship program and a five-year work-study plan are available to incoming students in Mining Engineering.

Numerous mining and manufacturing companies, as well as government agencies, cooperate with the University to offer structured employment opportunities during the student's academic career. In addition to earning significant funds to help finance their education, these opportunities provide valuable practical and professional experience prior to graduation. The internships normally take place in the summer, and the B.S. degree can be earned in four years. The work-study plan consists of alternating six-month periods of employment and schooling, and requires five years to earn the B.S. degree. Additional information can be obtained from the department.

### Integrated B.S. in Mining Engineering (MNG E) and M.S. in Energy and Mineral Engineering (EME)

The integrated undergraduate-graduate (IUG) program between the Mining Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused MNG E undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. Students should refer to the Energy and Mineral Engineering graduate program in the Graduate Program Bulletin for the IUG admission and degree requirements. ([http://bulletins.psu.edu/bulletins/whitebook/graduate\\_degree\\_programs.cfm?letter=E&program=grad\\_eme.htm](http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=E&program=grad_eme.htm))

For the B.S. in Mining Engineering, a minimum of 131 credits is required. This baccalaureate program in Mining Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 113 credits

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 6 credits of GWS courses; 3 credits of GH courses.)

**PRESCRIBED COURSES** (84 credits)

CHEM 110 GN(3), CHEM 111 GN(1), EM SC 100S GWS(3) [\[88\]](#) (Sem: 1-2)

ECON 102 GS(3), EDG 100(3) (Sem: 1-4)

MATH 140 GQ(4), MATH 141 GQ(4), MATH 250(3), STAT 301 GQ(3) (Sem: 1-6)

E MCH 210(5), GEOSC 001(3) [\[11\]](#), PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2) (Sem: 3-4)

E E 211(3), MNG 230(3) [\[11\]](#), MNG 331(3), MNG 422(3), (Sem: 3-8)

EME 460(3), MN PR 301(3) [\[11\]](#), MN PR 413(1) [\[11\]](#), MNG 404(2), (Sem: 5-6)

GEOSC 201(4), MNG 223(2), MNG 410(3), MNG 411(2), MNG 441(3) [\[11\]](#), MNG 451W(4) [\[11\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (23 credits)

Select 23 credits, one course from each category a, b, c, d, e, f, g, or h:

- a. ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

- b. PHIL 103 GH(3) or PHIL 106 GH(3) or PHIL 107 GH(3)  
or PHIL 233 GH(3)/S T S 233 GH(3) (Sem: 1-4)
- c. CMPSC 201 GQ(3) or CMPSC 202 GQ(3)
- d. MATH 220 GQ(2) or MATH 231(2) (Sem: 3-4)
- e. E MCH 212(3) or E MCH 212H(3) (Sem: 3-4)
- f. EME 301(3) or M E 300(3) (Sem: 4-6)
- g. EME 303(3) or C E 360(3) (Sem: 5-6)
- h. MNG 470(3) or GEOSC 470W(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with adviser (Students may apply 6 credits of ROTC.) (Sem: 5-8)

**Course Substitutions for the Integrated B.S. in Mining Engineering (MNG E) and M.S. in Energy and Mineral Engineering (EME)**

As many as twelve of the credits required for the master's degree may be applied to both the B.S. and M.S. degrees. A minimum of six credits counted for both the B.S. and M.S. degrees must be at the 500-level. Thesis and culminating/capstone experience credits may not be double counted. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[88]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS can be substituted for EM SC 100S GWS.

## Management

Capital College (MNGMT)

JANE S. KOCHANOV, *Director of Undergraduate Studies, School of Business Administration*

This major provides students with the knowledge and skills managers need in today's dynamic business environments. Core management courses provide a general overview of key management competencies including effective leadership, team building, managing and motivating human resources, facilitating organizational change and learning, and fostering and applying organizational knowledge for competitive advantage. Students complement this general management foundation with a human resource management, entrepreneurship, supply chain management, or individualized concentration.

**HUMAN RESOURCE MANAGEMENT CONCENTRATION:** This concentration prepares students for a career in human resource management by developing skills and competencies in managing diversity and equal opportunity, ethical and fair treatment of employees, human resource planning and staffing, employee training and development, compensation and benefits, performance management, labor relations, and protecting employee safety and health. Students completing this concentration would be prepared to demonstrate their knowledge of the core principles of human resource practices and the application of those principles for potential certification as a Professional in Human Resources (PHR), Senior Professional in Human Resources (SPHR), or Global Professional in Human Resources (GPHR).

**ENTREPRENEURSHIP CONCENTRATION:** The Entrepreneurship concentration is designed to introduce undergraduate students to the process of new venture development. Topics covered in the concentration include business plan development, the nature of management in small business, and the role of creativity and innovation in the entrepreneurial process. Opportunities are provided for student participation in the development of an actual new business venture.

**SUPPLY CHAIN MANAGEMENT CONCENTRATION:** The Supply Chain Management concentration prepares students for a professional career in managing supply chain activities by developing knowledge, skills, and competencies in the areas of logistics, procurement, inventory, transportation, and warehouse management. Students learn analytical techniques including trade-off analysis, construction and evaluation of networks, and optimization methods. Emphasis is placed on attaining an in-depth understanding of both inter-functional and inter-firm collaboration, whereby supply chains become the basis of competitive advantage.

**INDIVIDUALIZED CONCENTRATION:** The Individualized concentration is designed to provide students with a customized specialization that enables them to develop their own concentration in a management field of their choice. It allows flexibility in developing student knowledge and competencies in accordance with their personal, professional, and career interests.

### Entry to Major Requirements:

Entry to the Management major requires the completion of 8 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3); MATH 110 GQ(4) or MATH 140 GQ(4); MGMT 301(3) [\[1\]](#); MKTG 301(3); SCM 200 GQ(4) or STAT 200 GQ(4); and a 2.00 or higher cumulative grade-point average. Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business Administration at Penn State Harrisburg.

For a B.S. degree in Management, a minimum of 120 credits is required. At least 50 percent of the business credit hours required for the degree must be taken at the Capital College. No more than 60 credits should be from business and business-related courses.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** Select 8 credits of non-business courses.

### REQUIREMENTS FOR THE MAJOR: 79 credits

(This includes 12 credits of General Education Courses: 3 credits of GWS courses; 3 credits of GS courses; 6 credits of GQ courses.)

### PRESCRIBED COURSES (46 credits)

ACCTG 211(4) (Sem: 1-4)

ECON 102 GS(3), FIN 301(3), MGMT 301(3) [\[1\]](#), MKTG 301(3) (Sem: 1-4)

ENGL 202D GWS(3) (Sem: 3-4)

B A 364Y US:IL(3), B A 462(3) [\[1\]](#), ECON 104 GS(3), MGMT 341(3) [\[1\]](#), MGMT 433(3) [\[1\]](#), MGMT 466(3) [\[1\]](#), MIS 204(3), MIS 390(3), SCM 301(3) (Sem: 5-8)

### ADDITIONAL COURSES (21 credits)

Select 4 credits from MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-4)

Select 4 credits from SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 1-4)

B A 243(4) or B A 241(2) and B A 242(2) (Sem: 5-6)

**Select 9 credits from one of the following four areas of concentration A, B, C, D:**

#### A. HUMAN RESOURCE MANAGEMENT CONCENTRATION

MGMT 440(3) [\[1\]](#), MGMT 450(3) [\[1\]](#) (Sem: 5-8)

Select 3 credits in MGMT [\[1\]](#) at the 300-400 level from department list in consultation with academic adviser (Sem: 5-8)

#### B. ENTREPRENEURSHIP CONCENTRATION

MGMT 431(3) [\[1\]](#), MGMT 453(3) [\[1\]](#) (Sem: 5-8)

Select 3 credits in MGMT [\[1\]](#) at the 300-400 level from department list in consultation with academic adviser (Sem: 5-8)

#### C. SUPPLY CHAIN MANAGEMENT CONCENTRATION

Select 6 credits from SCM 320(3) [\[1\]](#), SCM 416(3) [\[1\]](#), SCM 445(3) [\[1\]](#) (Sem: 5-8)

Select 3 credits in SCM [\[1\]](#) or MGMT [\[1\]](#) at the 300-400 level from department list in consultation with academic adviser (Sem: 5-8)

#### D. INDIVIDUALIZED CONCENTRATION

Select 9 credits in MGMT [\[1\]](#) at the 300-400 level from department list in consultation with academic adviser (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits from 200-400 level business courses from: ACCTG, B A, ECON, FIN, MIS, MGMT, MKTG, or SCM in consultation with an academic adviser and in support of the student's interests. (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Marketing

*Capital College (MRKT)*  
*Capital College via the World Campus*

JANE S. KOCHANOV, *Director of Undergraduate Studies, School of Business Administration*

This major is designed for students interested in careers involving sales, promotion, services, distribution, research, and planning for business and the public sector. The major provides students with key concepts and methods of analysis in marketing. It focuses on understanding customer needs, developing products or services, creating and implementing marketing plans, monitoring customer responses, and projecting marketing activities for the future.

### Entry to Major Requirements:

Entry to the Marketing major requires the completion of 8 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3); MATH 110 GQ(4) or MATH 140 GQ(4); MGMT 301(3); MKTG 301(3) [\[1\]](#); SCM 200 GQ(4) or STAT 200 GQ(4); and a 2.00 or higher cumulative grade-point average. Additional information about this major is available in the office of the Director of Undergraduate Studies, School of Business at Penn State Harrisburg.

For the B.S. degree in Marketing, a minimum of 120 credits is required. At least 50 percent of the business credit hours required for the degree must be taken at the Capital College. No more than 60 credits should be from business and business-related courses.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Marketing

*Penn State Erie, The Behrend College (MRKTG)*

The objective of the Marketing major is to provide professional education to students leading to careers in business, government, and non-profit organizations. Typically, graduates are employed in marketing management, sales management, retailing, marketing research, and brand management. The major provides a solid foundation in marketing practice, such as analyzing and understanding the needs and wants of present and potential customers, designing appropriate product offerings, establishing pricing policies, developing communication strategies, devising efficient distribution strategies, researching marketing data for the above functions, and coordinating marketing programs with other functional areas of business. Because of the tremendous growth in the service sector, the major emphasizes the marketing of services. Marketing majors may also choose from additional business courses that allow greater specialization on quantitative (marketing research) or management perspectives while the non-business supporting courses allow for additional study in written and oral communication, psychology, foreign language, quantitative methods, or international studies.

### Entrance to Major Requirements:

Entry to the Marketing major requires the completion of 5 entry-to-major courses: ACCTG 211(4); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); MATH 110 GQ(4) or MATH 140 GQ(4); STAT 200 GQ(4) or SCM 200(4), and a 2.00 or higher cumulative grade-point average.

For the B.S. degree in Marketing, a minimum of 120 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 2 credits

### REQUIREMENTS FOR THE MAJOR: 88 credits

(This includes 15 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (40 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ENGL 202D GWS(3) (Sem: 3-4)

FIN 301(3)[1], MGMT 301(3)[1], MIS 204(3), MKTG 301(3)[1], SCM 301(3)[1] (Sem:3-6)

MKTG 330(3), MKTG 342(3), MKTG 440(3) (Sem: 5-6)

MGMT 471W(3) (Sem: 7-8)

### ADDITIONAL COURSES (27 credits)

MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

B A 241(2) and B A 242(2) or B A 243(4) (Sem: 3-6)

Select 3 credits from: ECON 470 IL(3)[1], ECON 473 IL(3)[1], FIN 471(3)[1], MGMT 461 IL(3)[1],

MKTG 445 IL(3)[1], or other 400-level international business courses (Sem: 5-8)

Select 12 credits from: ECON 481(3)[1], ECON 482(3)[1], ECON 485(3)[1], MIS 336(3)[1],

MKTG 327(3)[1], MKTG 410(3)[1], MKTG 422(3)[1], MKTG 475(3)[1], MKTG 485(3)[1], MKTG 494(1-12)[1], MKTG 495(1-18)[1], or MKTG 497(1-9)[1], SCM

455(3)[1] (with at least 6 credits from 400-level MKTG courses)[1] (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (21 credits)

Select 18 credits from the following approved electives course areas (with at least 12 credits from the same area): education abroad, foreign language, international studies, psychology, quantitative methods, or written and oral communication (Sem: 1-8)

Select 3 credits of 300- or 400-level courses from one business supporting course area[1] (Sem: 5-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mathematics

Altoona College (MTAAL)  
University Park, Eberly College of Science (MTHBA)

PROFESSOR YUXI ZHENG, *Chair, Department of Mathematics*

Two degrees are offered in mathematics: the Bachelor of Arts and the Bachelor of Science. Both programs have a common core of mathematics courses; both programs prepare students for graduate work in mathematics. In addition, the Bachelor of Arts degree is oriented toward applications of mathematics in the arts and the humanities. The Bachelor of Science degree has a number of options. These options are oriented toward actuarial science, applied and industrial mathematics, computational mathematics, graduate study and systems analysis.

Many of the options are designed for students who want to use mathematics in industry, commerce, or government. In short, the degree requirements have the flexibility to fit many individual interests. The student, with the assistance of a faculty adviser, should select an option by the end of the sophomore year.

In order to be eligible for entrance to the Mathematics major, a student must have: 1) attained at least a 2.00 cumulative grade point average; and 2) completed MATH 140 GQ(4) and MATH 141 GQ(4) and earned a grade of C or better in each of these courses.

For the B.A. degree in Mathematics, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION or BACHELOR OF ARTS DEGREE REQUIREMENTS course selections)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-1 credit

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 56 credits  
(This includes 6 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (27-29 credits)  
MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), MATH 220 GQ(2-3) [\[1\]](#), MATH 230(4) [\[1\]](#), MATH 311W(3-4) [\[1\]](#), MATH 312(3) [\[1\]](#), STAT 200 GQ(4) (Sem: 1-4)  
MATH 403(3) [\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (18-19 credits)  
CMPSC 101 GQ(3) or CMPSC 121 GQ(3) or CMPSC 201 GQ(3) (Sem: 1-2)  
MATH 250(3) [\[1\]](#) or MATH 251(4) [\[1\]](#) (Sem: 3-4)  
MATH 435(3) [\[1\]](#) or MATH 436(3) [\[1\]](#) (Sem: 5-8)  
Select 3 credits [\[1\]](#) from MATH 411(3), MATH 412(3), MATH 417(3), MATH 419(3), or MATH 421(3) (Sem: 5-8)  
Select 6 credits [\[1\]](#) of 400-level MATH courses except MATH 401(3), MATH 405(3), MATH 406(3), MATH 441(3), MATH 470(3), MATH 471(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (8-11 credits)  
Select 8-11 credits from department list (Sem: 3-8)

### Integrated B.A. in Mathematics and Master of Applied Statistics (M.A.S.)

The Integrated Undergraduate-Graduate (IUG) degree with B.A. in Mathematics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career oriented students to obtain training in statistics focused on developing data analysis skills, and exploration of core areas of applied statistics at the graduate levels in addition to an undergraduate degree in Mathematics. The M.A.S. degree is a professional masters degree that emphasizes applications. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analysts. Research divisions in the pharmaceutical industry, quality control, and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

### Application Process

The number of openings in the integrated B.A. in Mathematics and M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

- Must be enrolled in the Mathematics B.A. program.
- Must have completed at least 60 credits of the undergraduate degree program including the two courses: STAT 414 and STAT 415 and the students must apply to the integrated program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of Mathematics Department's undergraduate program committee. Two additional recommendation letters must be sent to the M.A.S. admissions committee.
- Must submit the GRE to the M.A.S. admissions committee.
- Must apply to the M.A.S. program in Statistics.

For the IUG B.A. in Mathematics and M.A.S. degree, 120 credits are required for the B.A. and 30 credits for the M.A.S. The following twelve graduate level credits (number of credits in parentheses) can apply to both B.A. and M.A.S. degrees, six of these are at the 500 level: STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3).

Assuming all requirements for the B.A. in Mathematics are completed, students in the program can complete the B.A. degree and not advance to the M.A.S. degree if they desire.

### Degree Requirements

IUG Math B.A. students must fulfill the Math B.A. requirement while counting these prescribed Statistics courses (15 credits)  
STAT 220(3)\*, STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3)

**IUG M.A.S. Requirements** (30 credits)  
STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3), STAT 580(2) and STAT 581(1)\*\*

**Electives:** (15 credits)  
Select from STAT 464(3), STAT 503(3), STAT 504(3), STAT 505(3), STAT 506(3), STAT 507(3), STAT 508(3), STAT 509(3), STAT 510(3) and the departmental

list of additional courses for the M.A.S. program with the approval of the adviser.

For the IUG B.A. in Mathematics and M.A.S. degree, the four courses: STAT 414(3), STAT 415(3), STAT 501(3) and STAT 502(3) can apply to both the B.A. and M.A.S. degrees.

\*Can be waived for students with an equivalent course, e.g. STAT 250 GQ(3) or STAT 301 GQ(3).

\*\* For all students in the M.A.S. program, the STAT 581(1) course will have a comprehensive written project report required as part of the course, which serves as the culminating experience.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Mathematics

*Penn State Erie, The Behrend College (MTHBD)*

This major builds a foundation in mathematics with emphasis on the applications of mathematics and to the development of problem-solving skills. The major has four options that share a common core of mathematics courses for the first two years. The options are Applied Mathematics, Business, Computer Science, and Pure Mathematics. They allow students to concentrate on developing mathematical skills suitable either for entry level positions in areas including applied mathematics, actuarial sciences, statistics and computer programming, or for graduate studies in mathematics and related fields. Students, with the assistance of a faculty adviser, should select an option in their sophomore year. In addition, students are strongly encouraged to participate in faculty supervised research.

### Entrance to Major Requirements

In order to be eligible for entrance to the Mathematics major, a student must have: 1) attained at least a 2.00 cumulative grade point average; and 2) completed MATH 140 GQ(4) and MATH 141 GQ(4) and earned a grade of C or better in each of these courses.

For the B.S. degree in Mathematics, a minimum of 120 credits is required. A student enrolled in this major must earn at least a grade of C in each 300- and 400-level course in the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18-24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this *bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR or in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selections)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 7-11 credits

### REQUIREMENTS FOR THE MAJOR: 85-92 credits

(This includes 18-24 credits of General Education courses; 9 credits of GN courses; 6 credits of GQ courses; 0-6 credits of GS courses; 3 credits of GWS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 49 credits

#### PRESCRIBED COURSES (40 credits)

CMPSC 121 GQ(3) [\[1\]](#), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#) (Sem: 1-2)

CMPSC 122 GQ(3) [\[1\]](#), MATH 311W(4) [\[1\]](#) (Sem: 3-4)

STAT 301(3) [\[1\]](#) (Sem: 3-6)

MATH 220 GQ(2) [\[1\]](#), MATH 230(4) [\[1\]](#), MATH 251(4) [\[1\]](#) (Sem: 3-8)

ENGL 202C GWS(3) (Sem: 5-6)

MATH 312(3) [\[1\]](#), STAT 401(3) [\[1\]](#) (Sem: 5-8)

#### ADDITIONAL COURSES (9 credits)

Select 1 credit of GN designated course and 8 additional credits in one of the following sequences:

a. BIOL 110 GN(4), BIOL 220W GN(4) (Sem: 1-4)

b. CHEM 110 GN(3), CHEM 111 GN(I), CHEM 112 GN(3), CHEM 113 GN(I) (Sem: 1-4)

c. PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 1-4)

d. PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 1-4)

### REQUIREMENTS FOR THE OPTION: 36-43 credits [\[1\]](#)

### APPLIED MATHEMATICS OPTION: (36 credits) [\[1\]](#)

#### ADDITIONAL COURSES (27 credits)

Select 6 credits from: CMPSC 221(3) or higher, except CMPSC 360 (Sem: 3-8)

Select 15 credits from MATH 310(3), MATH 412(3), MATH 449(3), MATH 455(3), MATH 456(3), MATH 482(3), STAT 414(3), STAT 461(3), STAT 462(3), STAT 464(3), STAT 466(3) (Sem: 5-8)

Select 6 credits from MATH 421(3), MATH 426(3), MATH 427(3), MATH 429(3), MATH 435(3), MATH 436(3), MATH 465(3) (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (9 credits)

Select 9 credits from a school-approved list (Sem: 3-8)

### BUSINESS OPTION: (43 credits) [\[1\]](#)

(A maximum of 30 credits through the School of Business may be used to fulfill General Education, Major Requirements and Option Requirements.)

#### PRESCRIBED COURSES (13 credits)

ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3) (Sem: 1-6)

MIS 204(3) (Sem: 3-6)

#### ADDITIONAL COURSES (24 credits)

Select 6 credits from ECON 481(3), ECON 485(3), FIN 301(3), FIN 405(3), FIN 420(3), FIN 427(3), MGMT 301(3), MGMT 331(3), MGMT 341(3), MKTG 301(3), SCM 310(3) (Sem: 3-8)

Select 6 credits from CMPSC 221(3) or higher, except CMPSC 360, and MIS 336(3) (Sem: 3-8)

Select 6 credits from MATH 482(3), MIS 336(3), MIS 430(3), MIS 435(4), MIS 445(3), STAT 414(3), STAT 461(3), STAT 462(3), STAT 464(3), STAT 466(3) (Sem: 3-8)

Select 6 credits from MATH 421(3), MATH 426(3), MATH 427(3), MATH 429(3), MATH 435(3), MATH 436(3), MATH 465(3) (Sem: 3-8)

#### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits from a school-approved list (Sem: 3-8)

### COMPUTER SCIENCE OPTION: (36 credits) [\[1\]](#)

#### PRESCRIBED COURSES (6 credits)

CMPSC 455(3), CMPSC 465(3) (Sem: 5-8)

#### ADDITIONAL COURSES (18 credits)

CMPSC 221(3) or SWENG 311(3) (Sem: 3-6)

CMPSC 312(3) or CMPEN 351(3) (Sem: 3-6)

Select 12 credits from CMPSC courses at the 300- and 400-level (Sem: 3-8)

#### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 12 credits from a school-approved list (Sem: 3-8)

### PURE MATHEMATICS OPTION: (36 credits) [\[1\]](#)

**ADDITIONAL COURSES** (27 credits)

Select 18 credits from MATH 310(3), MATH 412(3), MATH 421(3), MATH 426(3), MATH 427(3), MATH 429(3), MATH 435(3), MATH 436(3), MATH 455(3), MATH 456(3), MATH 465(3), MATH 482(3), STAT 414(3), STAT 461(3), STAT 462(3), STAT 464(3), and STAT 466(3) (Sem: 3-8)  
Select 9 credits from MATH 403(3), MATH 421(3), MATH 429(3), MATH 435(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits from a school-approved list (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2013

## Mathematics

Altoona College (MTSAL)  
University Park, Eberly College of Science (MTHBS)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR YUXI ZHENG, *Chair, Department of Mathematics*

Two degrees are offered in mathematics: the Bachelor of Arts and the Bachelor of Science. Both programs have a common core of mathematics courses; both programs prepare students for graduate work in mathematics. In addition, the Bachelor of Arts degree is oriented toward applications of mathematics in the arts and the humanities. The Bachelor of Science degree has a number of options. These options are oriented toward actuarial science, applied and industrial, computational mathematics, graduate study and systems analysis.

Many of the options are designed for students who want to use mathematics in industry, commerce, or government. In short, the degree requirements have the flexibility to fit many individual interests. The student, with the assistance of a faculty adviser, should select an option by the end of the sophomore year.

In order to be eligible for entrance to the Mathematics major, a student must have: 1) attained at least a 2.00 cumulative grade point average; and 2) completed MATH 140 GQ(4) and MATH 141 GQ(4) and earned a grade of C or better in each of these courses.

For the B.S. degree in Mathematics, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-1 credit

**REQUIREMENTS FOR THE MAJOR:** 80-83 credits

(This includes 6 General Education GQ courses)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 30-32 credits

**PRESCRIBED COURSES** (24-25 credits)

MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#), STAT 200 GQ(4) (Sem: 1-4)  
MATH 220 GQ(2)[\[1\]](#), MATH 230(4)[\[1\]](#), MATH 311W(3-4)[\[1\]](#), MATH 312(3)[\[1\]](#) (Sem: 3-4)

**ADDITIONAL COURSES** (6-7 credits)

CMPSC 101 GQ(3) or CMPSC 121 GQ(3) or CMPSC 201 GQ(3)(Sem: 1-2)  
MATH 250(3)[\[1\]](#) or MATH 251(4)[\[1\]](#) (Sem: 3-4)

**REQUIREMENTS FOR THE OPTION:** 50-51 credits

**ACTUARIAL MATHEMATICS OPTION:** (50-51 credits)

**PRESCRIBED COURSES** (30 credits)[\[1\]](#)

I E 425(3), MATH 414(3), MATH 415(3), MATH 416(3), MATH 484(3), R M 302(3), R M 410(3), R M 411(3), R M 412(3), STAT 462(3) (Sem: 5-8)

**ADDITIONAL COURSES** (6 credits)[\[1\]](#)

MATH 451(3) or MATH 486(3) (Sem: 5-8)

Select 3 credits from STAT 463 or 400-level MATH courses except MATH 401(3), MATH 405(3), MATH 406(3), MATH 441(3), MATH 470(3), MATH 471(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (14-15 credits)

Select 14-15 credits from department list (Sem: 1-8)

**APPLIED AND INDUSTRIAL MATHEMATICS OPTION:** (50-51 credits)

**PRESCRIBED COURSES** (21 credits)[\[1\]](#)

MATH 403(3), MATH 412(3), MATH 414(3), MATH 415(3), MATH 436(3), MATH 450(3), MATH 455(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)[\[1\]](#)

Select 12 credits from MATH 411(3), MATH 416(3), MATH 417(3), MATH 419(3), MATH 421(3), MATH 456(3), MATH 461(3), MATH 467(3), MATH 468(3), MATH 479(3), MATH 484(3), MATH 485(3), MATH 486(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (17-18 credits)

Select 17-18 credits from department list (Sem: 1-8)

**COMPUTATIONAL MATHEMATICS OPTION:** (50-51 credits)

**PRESCRIBED COURSES** (24 credits)

CMPSC 122(3) (Sem: 3-4)

CMPSC 465(3), MATH 414(3)[\[1\]](#), MATH 415(3)[\[1\]](#), MATH 455(3)[\[1\]](#), MATH 456(3)[\[1\]](#), MATH 467(3)[\[1\]](#), MATH 484(3)[\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (9 credits)[\[1\]](#)

Select 3 credits from MATH 411(3), MATH 412(3), or MATH 417(3) (Sem: 5-8)

Select 6 credits from CMPSC 468(3), MATH 310(3), MATH 468(3), or MATH 485(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (17-18 credits)

Select 17-18 credits from department list (Sem: 1-8)

**GENERAL MATHEMATICS OPTION:** (50-51 credits)

**PRESCRIBED COURSE** (9 credits)[\[1\]](#)

MATH 403(3), MATH 414(3), MATH 415(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)[\[1\]](#)

MATH 435(3) or MATH 436(3) (Sem: 5-8)

Select 3 credits from MATH 411(3), MATH 412(3), MATH 417(3), MATH 419(3), or MATH 421(3) (Sem: 5-8)

Select 6 credits of 400-level MATH courses except MATH 401(3), MATH 405(3), MATH 406(3), MATH 441(3), MATH 470(3), MATH 471(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (29-30 credits)

Select an approved sequence of 12 credits in MATH or a related area or an area of application (Sem: 1-8)

Select 17-18 credits from department list (Sem: 1-8)

**GRADUATE STUDY OPTION: (50-51 credits)**

**PRESCRIBED COURSES (24 credits)**<sup>[1]</sup>

MATH 403(3), MATH 404(3), MATH 414(3), MATH 415(3), MATH 421(3), MATH 429(3), MATH 435(3), MATH 436(3) (Sem: 5-8)

**ADDITIONAL COURSES (9 credits)**<sup>[1]</sup>

Select 9 credits of 400-level MATH courses except MATH 401(3), MATH 405(3), MATH 406(3), MATH 441(3), MATH 470(3), MATH 471(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (17-18 credits)**

Select 17-18 credits from department list (Sem: 1-8)

**SYSTEMS ANALYSIS OPTION: (50-51 credits)**

**PRESCRIBED COURSES (12 credits)**<sup>[1]</sup>

MATH 414(3), MATH 415(3), MATH 436(3), MATH 484(3) (Sem: 5-8)

**ADDITIONAL COURSES (9 credits)**<sup>[1]</sup>

Select 6 credits from MATH 310(3), MATH 451(3), MATH 485(3), or MATH 486(3) (Sem: 5-8)

Select 3 credits from 400-level MATH courses except MATH 401(3), MATH 405(3), MATH 406(3), MATH 441(3), MATH 470(3), MATH 471(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS (29-30 credits)**

Select an approved sequence of 12 credits in an area of application; possible areas include business, economics, industrial engineering, social sciences (Sem: 1-8)

Select 17-18 credits from department list (Sem: 1-8)

**Integrated B.S. in Mathematics and Master of Applied Statistics (M.A.S.)**

The Integrated Undergraduate-Graduate (IUG) degree with B.S. in Mathematics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career oriented students to obtain training in statistics focused on developing data analysis skills, and exploration of core areas of applied statistics at the graduate levels in addition to an undergraduate degree in Mathematics. The M.A.S. degree is a professional masters degree that emphasizes applications. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analysts. Research divisions in the pharmaceutical industry, quality control, and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

**Application Process**

The number of openings in the integrated B.S. in Mathematics and M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

- Must be enrolled in the Mathematics B.S. program.
- Must have completed at least 60 credits of the undergraduate degree program including the two courses: STAT 414 and STAT 415 and the students must apply to the integrated program prior to completing 110 credits.
- Must submit a transcript and a statement of purpose.
- Must present a departmental approved plan of study in the application process in consultation with the M.A.S. program director.
- Must be recommended by the chair of Mathematics Department's undergraduate program committee. Two additional recommendation letters must be sent to the M.A.S. admissions committee.
- Must submit the GRE to the M.A.S. admissions committee.
- Must apply to the M.A.S. program in Statistics.

For the IUG B.S. in Mathematics and M.A.S. degree, 120 credits are required for the B.S. and 30 credits for the M.A.S. The following twelve graduate level credits (number of credits in parentheses) can apply to both B.S. and M.A.S. degrees, six of these are at the 500 level: STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3).

Assuming all requirements for the B.S. in Mathematics are completed, students in the program can complete the B.S. degree and not advance to the M.A.S. degree if they desire.

**Degree Requirements**

IUG Math B.S. students must fulfill the Math B.S. requirement while counting these prescribed Statistics courses (15 credits)

STAT 220(3)\*, STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3)

**IUG M.A.S. Requirements (30 credits)**

STAT 414(3), STAT 415(3), STAT 501(3), STAT 502(3), STAT 580(2) and STAT 581(1)\*\*

**Electives: (15 credits)**

Select from STAT 464(3), STAT 503(3), STAT 504(3), STAT 505(3), STAT 506(3), STAT 507(3), STAT 508(3), STAT 509(3), STAT 510(3) and the departmental list of additional courses for the M.A.S. program with the approval of the adviser.

For the IUG B.S. in Mathematics and M.A.S. degree, the four courses: STAT 414(3), STAT 415(3), STAT 501(3) and STAT 502(3) can apply to both the B.S. and M.A.S. degrees.

\*Can be waived for students with an equivalent course, e.g. STAT 250 GQ(3) or STAT 301 GQ(3).

\*\* For all students in the M.A.S. program, the STAT 581(1) course will have a comprehensive written project report required as part of the course, which serves as the culminating experience.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Music Education

University Park, College of Arts and Architecture (MU ED)

PROFESSOR SUE HAUG, Director, School of Music

The Bachelor of Music Education (B.M.E.) degree is a professional program that helps prepare students for teaching in elementary and secondary schools. Students are expected to meet all requirements for Entrance to Teacher Certification Program in Music, must pass the piano proficiency, complete all music courses, SPLED 400 and SPLED 403A or 403B, prior to student teaching. Graduates of this program are prepared to receive the Pennsylvania Instructional I certificate for teaching music K-12. (See also Teacher Education Programs.)

The goal of the Penn State Music Teacher Education Program is to prepare exemplary music teachers for K-12 music programs. Such individuals can provide outstanding personal and musical models for children and youth and have a firm foundation in pedagogy on which to build music teaching skills. Penn State B.M.E. graduates exhibit excellence in music teaching as personal and musical models as well as emerging pedagogues.

All candidates seeking entrance to the Bachelor of Music Education (B.M.E.) must meet the following entrance to major criteria:

1. Minimum 3.00 cumulative GPA by the end of the semester prior to ETM semester and at least 48 credits completed by the end of the semester prior to ETM semester.
2. Either qualifying scores from the PECT PAPA for Reading, Writing and Mathematics; qualifying Scholastic Achievement Test scores for the combined and individual Critical Reading, Writing, and Mathematics sections; or qualifying American College Test Plus Writing composite and individual English/Writing score and Math score as specified by the Pennsylvania Department of Education.
3. Complete 6 credits in quantification (GQ) ("C" or higher required).
4. Complete 3 credits in literature (GH) ("C" or higher required).  
See <http://www.ed.psu.edu/currentstudents/undergraduate/certification/literature>
5. Complete ENGL 015 or ENGL 030 ("C" or higher required).
6. Complete early field experience ("C" or higher required).  
Course List: MUSIC 295A
7. Complete EDPSY 010 and 3 additional credits of the education core ("C" or higher required).  
Course List: EDPSY 010, PSYCH 100, HD FS 229, HD FS 239
8. Complete 15 credits of required courses in teaching area ("C" or higher required).  
Course List: MUSIC 112, 151, 153, 154, 162, 216, 222, 261, 262, 331.
9. Complete primary level IV on applied instrument ("C" or higher required)
10. Complete and document a minimum of 80 hours of paid or volunteer work with age-appropriate population. At least 40 hours of these age-appropriate 80 hours would be satisfied by working with "under-represented learners."
11. Complete additional requirements: Voice Requirement (MUSIC 116 or VOICE 270J), Piano Requirement (MUSIC 270 or KEYBD 270J), and Percussion Requirement (MUSIC 152 or PERCN 270J) ("C" or higher required).
12. Approval from the professional education adviser or the head of the pertinent certification program.

For the B.M.E., a minimum of 139 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

(10-12 of these credits are included in the REQUIREMENTS FOR THE MAJOR. 18 of these credits are required for Entrance to Teacher Certification. See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 104-106 credits<sup>[1]</sup>

(This includes 10-12 credits of General Education - 6 credits of GS, 1-3 credits of GA, and 3 credits of GH)

### PRESCRIBED COURSES (49 credits)

MUSIC 040S(1), MUSIC 121(1), MUSIC 122(1), MUSIC 131(2), MUSIC 132(2), MUSIC 162 IL(2) (Sem: 1-6)  
MUSIC 112(.5), MUSIC 151(1), MUSIC 153(1), MUSIC 154(1), MUSIC 216(.5), MUSIC 221(1), MUSIC 222(1), MUSIC 231(2), MUSIC 261 IL(3), MUSIC 262 IL(3), MUSIC 266(1), MUSIC 295A(1), MUSIC 331(2), MUSIC 366(1) (Sem: 3-4)  
C I 280 GH(3), EDPSY 010 GS(3), MUSIC 332(2), MUSIC 340(2), MUSIC 341(2), MUSIC 345(2), MUSIC 395A(1), MUSIC 395B(1), SPLED 400(4) (Sem: 5-6)  
MUSIC 101(1) (Sem: 7)

### ADDITIONAL COURSES (45-47 credits)

Select 1-3 credits from INART 258A GA(3) or INART 258B GA(1) (Sem: 1-2)  
Select 7 credits of ensembles as follows: MUSIC 076(1), MUSIC 077 GA(1), MUSIC 078 GA(1), MUSIC 080 GA(1), MUSIC 081 GA(1), MUSIC 082 GA(1), MUSIC 084 GA(1), MUSIC 086 GA(1), MUSIC 087 GA(1), MUSIC 089 GA(1), MUSIC 090 GA(1), MUSIC 091 GA(1), MUSIC 092 GA(1), MUSIC 093 GA;US;IL(1), MUSIC 094 GA(1), MUSIC 103 GA(1), MUSIC 104 GA(1), MUSIC 190 GA(1), MUSIC 191 GA (1), MUSIC 192 GA(1), MUSIC 193(1), MUSIC 194(1) (Sem: 1-7)  
Select 14 credits in applied music through Primary Level VII (Sem: 1-7)  
Select 3 credits from HD FS 229 GS(3), HD FS 239 GS(3) or PSYCH 100 GS(3) (Sem: 1-4)  
Select 3 credits from SPLED 403A(3) or SPLED 403B(3) (Sem: 6-7)  
Select 2 credits from MUSIC 181(2), MUSIC 267(2) (Sem: 5-6)  
Select 3 credits from MUSIC 441W(3), MUSIC 444W(3), MUSIC 445W(3), MUSIC 446W(3) (Sem: 7)  
Select 12 credits from MUSIC 495A, MUSIC 495B, MUSIC 495C, as follows:  
- 5 or 7 credits of MUSIC 495A (Sem: 8)  
- 5 or 7 credits of MUSIC 495B or MUSIC 495C (Sem: 8)

### SUPPORTING COURSES AND RELATED AREAS (10 credits)

Select 10 credits for the Individualized Emphasis, an individualized cluster of courses approved in advance by the Music Education Faculty, from an approved department list.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2014

Blue Sheet Item #: 42-05-012

Review Date: 02/25/2014

## Musical Arts

*University Park, College of Arts and Architecture (MUBMA)*

PROFESSOR SUE HAUG, *Director, School of Music*

The Bachelor of Musical Arts degree is a multidisciplinary or interdisciplinary program that is intended to prepare students for careers in performance, while developing a secondary area of emphasis outside of music, as determined for each student on the basis of an advising process. Completion of this program requires that the student achieve a high level of competence in order to begin professional work or pursue further studies at the graduate level.

Entrance into this program will be determined by departmental evaluation. All students are required to pass a piano proficiency examination.

For the Bachelor of Musical Arts, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

GENERAL EDUCATION: 45 credits

(1-15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

UNITED STATES CULTURES AND INTERNATIONAL CULTURES :

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

ELECTIVES: 0-1 credits

REQUIREMENTS FOR THE MAJOR: 88-90 credits<sup>[1]</sup>

(This includes 1-15 credits of General Education courses: 1-3 credits of GA; 0-12 credits in the area of SUPPORTING COURSES AND RELATED AREAS)

PRESCRIBED COURSES (27 credits)

MUSIC 121(1), MUSIC 122(1), MUSIC 129S(3), MUSIC 131(2), MUSIC 132(2), MUSIC 162 IL(2) (Sem: 1-2)  
MUSIC 221(1), MUSIC 222(1), MUSIC 231(2), MUSIC 261 IL(3), MUSIC 262 IL(3), MUSIC 266(1) (Sem: 3-4)  
MUSIC 331(2), MUSIC 332(2) (Sem: 5-6)  
MUSIC 101(1) (Sem: 7-8)

ADDITIONAL COURSES (4-6 credits)

INART 258A GA(3) or INART 258B GA(1) (Sem: 3-6)

Select 3 credits from MUSIC 461W(3), MUSIC 462W(3), MUSIC 463W(3), or MUSIC 464W(3) (Sem: 5-6)

SUPPORTING COURSES AND RELATED AREAS (57 credits)

Select 21 credits in applied music through Level VIII of performance (Sem: 1-8)

Select 8 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 1-8)

Select 4 credits in music in consultation with an adviser (Sem: 1-8)

Select 24 credits in consultation with adviser in an area of study other than music, at least 12 credits must be at the 400 level.

*This list of courses must be approved by the College of Arts and Architecture's Dean of Undergraduate Studies.*

*(0-12 of these 24 credits may be included in GENERAL EDUCATION) (Sem: 1-8)*

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Music

*University Park, College of Arts and Architecture (MUSBA)*

PROFESSOR SUE HAUG, *Director, School of Music*

The Bachelor of Arts degree in Music combines a broad liberal education with a selection of courses in Music. The degree is designed to develop basic musicianship, the ability to perform, and a set of principles that leads to a fuller intellectual grasp of the art.

The B.A. in Music degree program includes a General Music Studies Option and an additional option in Music Technology.

Students are required to pass a piano proficiency examination, enroll in a core ensemble for two semesters, and satisfactorily complete a senior project. Application for admittance into the program requires completion of a two-year core of music and General Education courses.

For the B.A. degree in Music, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits

(1-21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES :**

(Included in the REQUIREMENTS FOR THE MAJOR, ELECTIVE, or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-1 credit

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 51-74 credits [\[1\]](#)

(This includes 1-21 credits of General Education courses - General Music Studies Option: 1-3 credits of GA courses; Music Technology Option: 6 credits of GA courses, 6 credits of GQ courses, 9 credits of GN courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 38 credits

**PRESCRIBED COURSES** (28 credits)

MUSIC 119S(2), MUSIC 121(1), MUSIC 122(1), MUSIC 131(2), MUSIC 132(2), MUSIC 162 IL(2) (Sem: 1-2)  
MUSIC 221(1), MUSIC 222(1), MUSIC 231(2), MUSIC 261 GA;IL(3), MUSIC 262 GA;IL(3), MUSIC 331(2) (Sem: 3-4)  
MUSIC 332(2) (Sem: 5-6)  
MUSIC 101(1), MUSIC 476W(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (10 credits)

Select 6 credits in applied music through Level IV of Primary (Sem: 1-8)

Select 4 credits of ensembles (see School of Music Handbook for list of ensembles) (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 13-36 credits

**GENERAL MUSIC STUDIES OPTION:** (13-15 credits)

**ADDITIONAL COURSES** (1-3 credits)

INART 258A GA(3) or INART 258B GA(1) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits of 400-level music courses (see School of Music Handbook for specific requirements) (Sem: 5-8)

**MUSIC TECHNOLOGY OPTION (34-36 credits)**

**PRESCRIBED COURSES** (28 credits)

INART 258A GA(3), INART 050 GN(3), MATH 140 GQ(4), MATH 220 GQ(2), MUSIC 434 GA(3) (Sem: 1-6)  
MUSIC 453(1) (Sem: 3-4)  
MUSIC 452(3), MUSIC 458(3), THEA 484(3) (Sem: 5-6)  
MUSIC 451(3) (Sem: 7-8)

**ADDITIONAL COURSES** (6-8 credits)

PHYS 250 GN(4) or PHYS 211 GN(3), PHYS 251 GN(4) or PHYS 212 GN(3) (Sem: 1-2)

### Integrated B.A. in Music - M.A. in Music Theory

The School of Music offers a limited number of academically superior students enrolled in the Bachelor of Arts in Music the opportunity to enroll in an integrated program leading to both the B.A. in Music and the Master of Arts in Music Theory in a continuous program of study culminating in both degrees. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to achieve greater depth and comprehensiveness than if the degrees are pursued sequentially and to earn the two degrees in five years. In particular, the program encourages the student to integrate the undergraduate thesis with the master's thesis thereby achieving a greater depth of inquiry.

#### Application Process

To initiate the application process, students must submit a transcript, faculty recommendation, writing sample, and statement of goals. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the IUG program. Normally a student would apply after the fourth semester and before the end of the sixth semester. For acceptance into the program students must successfully complete the following courses or their equivalent with a minimum average of 3.5 in their music courses, and a minimum GPA of 3.0.

4 semesters of music theory (MUSIC 131, MUSIC 132, MUSIC 231, MUSIC 331)  
4 semesters of musicianship (MUSIC 121, MUSIC 122, MUSIC 221, MUSIC 222)  
3 semesters of music history (MUSIC 162, MUSIC 261, MUSIC 262)

#### Reduced Course Load

As many as twelve of the credits required for the master's degree may be applied to both undergraduate and graduate degree programs. A minimum of 50% of the courses proposed to count for both degrees must be at the 500 level. Thesis credits may not be double counted.

B.A. Senior Project (Music 476W) / M.A. Thesis (Music 600)

Students will be encouraged to select a B.A. Senior Project topic (Music 476W) that will later develop into the M.A. Thesis. It is expected that the Master's Thesis consist of greater depth and specialization than the Senior Project.

**Eligibility for a Graduate Assistantship**

Students in the IUG program will be eligible for a graduate assistantship starting in the beginning of the fifth year.

**Tuition Charges**

Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student received financial support, for example, an assistantship requiring the payment of graduate tuition (from "Information and Guidelines for Establishing Integrated Undergraduate-Graduate Degree Programs" - approved by the Graduate Council, May 8, 1996).

**Integrated B.A. in Music - M.A. in Music Theory and History**

The School of Music offers a limited number of academically superior students enrolled in the Bachelor of Arts in Music the opportunity to enroll in an integrated program leading to both the B. A. in Music and the Master of Arts in Music Theory and History in a continuous program of study culminating in both degrees. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to achieve greater depth and comprehensiveness than if the degrees are pursued sequentially and to earn the two degrees in five years. In particular, the program encourages the student to integrate the undergraduate thesis with the master's thesis thereby achieving a greater depth of inquiry.

**Application Process**

To initiate the application process, students must submit a transcript, faculty recommendation, writing sample, and statement of goals. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the IUG program. Normally a student would apply after the fourth semester and before the end of the sixth semester. For acceptance into the program students must successfully complete the following courses or their equivalent with a minimum average of 3.5 in their music courses, and a minimum GPA of 3.0.

4 semesters of music theory (MUSIC 131, MUSIC 132, MUSIC 231, MUSIC 331)

4 semesters of musicianship (MUSIC 121, MUSIC 122, MUSIC 221, MUSIC 222)

3 semesters of music history (MUSIC 162, MUSIC 261, MUSIC 262)

## Music

*University Park, College of Arts and Architecture (MUSBM)*

PROFESSOR SUE HAUG, *Director, School of Music*

The Bachelor of Music degree program is intended to prepare students for careers in composition or performance. Completion of this program requires that the student achieve a high level of competence in order to begin professional work or pursue further studies at the graduate level.

Entrance into this program will be determined by departmental evaluation.

For the B.M. degree in Music with an option in Composition, a minimum of 123 credits is required; with an option in Keyboard Instruments, a minimum of 126 credits is required; with an option in Strings, Winds, Brass and Percussion Instruments, a minimum of 125 credits is required; and with an option in Voice, a minimum of 129 credits is required. All students are required to pass a piano proficiency examination.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(1-3 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 79-88 credits

(This includes 3 credits of General Education GA courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 34 credits<sup>[1]</sup>

**PRESCRIBED COURSES** (24 credits)

MUSIC 121(1), MUSIC 122(1), MUSIC 131(2), MUSIC 132(2), MUSIC 162 IL(2) (Sem: 1-2)  
MUSIC 221(1), MUSIC 222(1), MUSIC 231(2), MUSIC 261 IL(3), MUSIC 262 IL(3), MUSIC 266(1) (Sem: 3-4)  
MUSIC 331(2), MUSIC 332(2) (Sem: 5-6)  
MUSIC 101(1) (Sem: 7-8)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from MUSIC 461W(3), MUSIC 462W(3), MUSIC 463W(3), MUSIC 464W(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (4 credits)

Select 4 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 47-56 credits

**COMPOSITION OPTION:** (47-49 credits)

**PRESCRIBED COURSES** (34-36 credits)<sup>[1]</sup>

INART 258A GA(3), MUSIC 173S(2), MUSIC 174J(2) (Sem: 1-2)  
MUSIC 273J(2), MUSIC 274J(2) (Sem: 3-4)  
MUSIC 336(2), MUSIC 373J(3), MUSIC 374J(3), MUSIC 458(3), MUSIC 472(2) (Sem: 5-6)  
MUSIC 431(2-3), MUSIC 433(2-3), MUSIC 473J(3), MUSIC 474J(3) (Sem: 7-8)

**ADDITIONAL COURSES** (13 credits)<sup>[1]</sup>

Select 11 credits of Applied MUSIC courses (Sem: 1-7)

Select 2 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 1-8)

**KEYBOARD INSTRUMENTS OPTION:** (48-53 credits)

**PRESCRIBED COURSES** (6 credits)

MUSIC 129S(3) (Sem: 1)  
MUSIC 481(3) (Sem: 5-7)

**ADDITIONAL COURSES** (3-6 credits)

INART 258A GA(3) or 258B GA(1) (Sem: 3-6)  
Select 2-3 credits from MUSIC 181(2), MUSIC 182(2), MUSIC 267(2), MUSIC 336(2), MUSIC 422(3), MUSIC 431(2-3), MUSIC 432(2-3), MUSIC 433(2-3), MUSIC 438(2), MUSIC 471(2), MUSIC 472(2) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (39-41 credits)

Select 4 credits in a secondary instrument<sup>[1]</sup> (Sem: 1-8)

Select 4 credits in music in consultation with adviser<sup>[1]</sup> (Students may apply 2 credits of ROTC.) (Sem: 1-8)

Select 4-6 credits in consultation with adviser<sup>[1]</sup> (Students may apply 4 credits of ROTC.) (Sem: 1-8)

Select 21 credits in applied music through Level VIII of performance<sup>[1]</sup> (Sem: 2-8)

Select 4 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 5-8)

Select 2 credits from MUSIC 419(2) or MUSIC 424(2) (Sem: 5-8)

**STRINGS, WINDS, BRASS AND PERCUSSION INSTRUMENTS OPTION:** (47-52 credits)

**PRESCRIBED COURSES** (3 credits)

MUSIC 129S(3) (Sem: 1)

**ADDITIONAL COURSES** (9-12 credits)

(MUSIC 336 and MUSIC 422 may fulfill the requirement of Additional Courses or Supporting Courses and Related Areas in the option, but not both.)

Select 2 credits from MUSIC 086(1), MUSIC 087(1), MUSIC 181(2), MUSIC 190(1), MUSIC 191(1), MUSIC 192(1), MUSIC 336(2), MUSIC 366(2), MUSIC 421(1), MUSIC 422(3), MUSIC 466(2), MUSIC 485(3), MUSIC 487(3) (Sem: 1-8)

INART 258A GA(3) or INART 258B GA(1) (Sem: 1-8)

Select 2-3 credits from MUSIC 181(2), MUSIC 182(2), MUSIC 267(2), MUSIC 336(2), MUSIC 422(3), MUSIC 431(2-3), MUSIC 432(2-3), MUSIC 433(2-3), MUSIC 438(2), MUSIC 472(2) (Sem: 5-8)

Select 1 credit from MUSIC 414(1-2), MUSIC 415(1-2), MUSIC 416(1-2), or MUSIC 417(1-2) (Sem: 5-8)

Select 3 credits from MUSIC 485(3) or MUSIC 487(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (35-37 credits)

Select 4 credits in a secondary instrument<sup>[1]</sup> (Sem: 1-8)

Select 4 credits in music in consultation with adviser<sup>[1]</sup> (Students may apply 4 credits of ROTC.) (Sem: 1-8)

Select 2-4 credits in consultation with adviser<sup>[1]</sup> (Students may apply 2 credits of ROTC.) (Sem: 1-8)

Select 21 credits in applied music through Level VIII of performance<sup>[1]</sup> (Sem: 2-8)

Select 4 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 5-8)

**VOICE OPTION:** (51-56 credits)

**PRESCRIBED COURSES** (8 credits)

MUSIC 129S(3) (Sem: 1)  
MUSIC 387(1), MUSIC 388(1), MUSIC 389(1) (Sem: 1-8)  
MUSIC 418(2) (Sem: 7)

**ADDITIONAL COURSES** (3-6 credits)

INART 258A GA(3) or 258B GA(1) (Sem: 3-6)  
Select 2-3 credits from MUSIC 181(2), MUSIC 182(2), MUSIC 267(2), MUSIC 336(2), MUSIC 422(3), MUSIC 431(2-3), MUSIC 432(2-3), MUSIC 433(2-3), MUSIC 438(2), or MUSIC 472(2) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (40-42 credits)

Select 3-5 credits in consultation with adviser [11](#) (Students may apply 2 credits of ROTC.) (Sem: 1-8)  
Select 8 credits in one foreign language: French, German or Italian (Sem: 1-8)  
Select 4 credits in a secondary instrument [11](#) (Sem: 1-8)  
Select 21 credits in applied music through Level VIII of performance [11](#) (Sem: 2-8)  
Select 4 credits of approved ensembles (see School of Music Handbook for list of ensembles) (Sem: 5-8)

### **Integrated B.M. in Performance - M.A. in Music Theory**

The School of Music offers a limited number of academically superior students enrolled in the Bachelor of Music the opportunity to enroll in an integrated program leading to both the B.M. in Performance and the Master of Arts in Theory in a continuous program of study culminating in both degrees. The ability to coordinate as well as concurrently pursue the two degree programs enables the student to achieve greater depth and comprehensiveness than if the degrees are pursued sequentially and to earn the two degrees in five years.

**Application Process**

To initiate the application process, students must submit a transcript, faculty recommendation, writing sample, and statement of goals. A faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the IUG program. Normally a student would apply after the fourth semester and before the end of the sixth semester. For acceptance into the program students must successfully complete the following courses or their equivalent with a minimum average of 3.5 in their music courses, and a minimum GPA of 3.0.

4 semesters of music theory (MUSIC 131, MUSIC 132, MUSIC 231, MUSIC 331)  
4 semesters of musicianship (MUSIC 121, MUSIC 122, MUSIC 221, MUSIC 222)  
3 semesters of music history (MUSIC 162, MUSIC 261, MUSIC 262)

**Reduced Course Load**

As many as twelve of the credits required for the master's degree may be applied to both undergraduate and graduate degree programs. A minimum of 50% of the courses proposed to count for both degrees must be at the 500 level. Thesis credits may not be double counted.

**Eligibility for a Graduate Assistantship**

Students in the IUG program will be eligible for a graduate assistantship starting in the beginning of the fifth year.

**Tuition Charges**

Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student received financial support, for example, an assistantship requiring the payment of graduate tuition (from "Information and Guidelines for Establishing Integrated Undergraduate - Graduate Degree Programs" - approved by the Graduate Council, May 8, 1996).

### **Integrated B.M. in Performance - M.A. in Music Theory and History**

The School of Music offers a limited number of academically superior students enrolled in the Bachelor of Music the opportunity to enroll in an integrated program leading to both the B.M. in Performance and the Master of Arts in Music Theory and History in a continuous program of study culminating in both degrees. ## Naval Science (NAVSC)

The Naval ROTC trains qualified young men and women at the University Park campus for service as commissioned officers in the Navy, the Navy Nurse Corps, or the Marine Corps.

Entering freshmen may be accepted into the Naval ROTC through the Four-Year College Program or in the Four-Year Scholarship Program. Freshmen who are not on scholarship may join NROTC and be eligible to compete for the Scholarship Program. Qualified sophomores either in attendance or planning to commence studies at University Park Campus with their junior year, or who have applied for transfer to Penn State from another institution, may compete for the special Two-Year College Program and the Two-Year Scholarship Program. Navy, Nurse, and Marine Corps scholarships provide full tuition, book allotment, laboratory and instructional fees, and a \$250-350 per month subsistence allowance. In addition, Nurse scholarship students are issued special equipment required by the BSN curriculum.

Students who receive the baccalaureate degree and complete the NROTC program receive commissions as ensigns or second lieutenants. College Program commissionees are required to serve at least three years of active duty. Scholarship Program commissionees are committed to four years of active duty.

COURSES--All students must complete at least 18 credits of Naval Science (NAVSC) courses; subjects and credits appear under course descriptions (ROTC/NAVSC) later in this bulletin. College Program students must participate in one active duty training period (cruise) during the summer between junior and senior years. Scholarship students are required to participate in either two (Nurse) or three (Navy and Marine Corps) summer cruises prior to commissioning.

In addition, all Navy scholarship students must complete University courses in calculus, physics, national security policy, and American military affairs. Requirements for Nurse and Marine Corps scholarship students are somewhat less. College Program students must complete University courses in national security policy and American military affairs.

Effective Date: Current

## Nuclear Engineering

University Park, College of Engineering (NUC E)

PROFESSOR KAREN A. THOLE, *Head, Department of Mechanical and Nuclear Engineering*  
 PROFESSOR ARTHUR T. MOTTA, *Program Chair, Nuclear Engineering Program*

The overall educational objective of the Nuclear Engineering program is to help prepare our graduates to function effectively in the marketplace in a wide range of career paths in Nuclear Engineering. The technical part of the curriculum, emphasizes nuclear power engineering, which refers to complex systems used to generate electricity. Because of our strong educational and research emphasis in nuclear power engineering is strong, and because a shortage for this expertise exists in the industry, generally the industry values our graduates highly. We recognize that nuclear science, including nuclear security and non-proliferation, is an important growth area. We constantly assess and review the needs of our undergraduate students and their most frequent employers and use this feedback to consider revisions to our curriculum so that it is responsive to the needs of our constituents.

### Program Educational Objectives:

Accordingly, we will endeavor to maintain and provide a curriculum that prepares our graduates such that:

- Within two to three years of graduation, we expect the majority of our B.S. graduates to:
  - be working in industry, especially related to nuclear power engineering,
  - be working in government agencies or national laboratories,
  - be pursuing advanced degrees.
- We expect that our students will continue to develop professionally and establish themselves in their careers and in this way may take the opportunity to further their education and training by attending graduate school or by pursuing other professional development.

### Program Outcomes (Student Outcomes):

The Program outcomes are knowledge, skills, and/or behavior that are derived from the program educational objectives.

- a. An ability to apply knowledge of mathematics, science, and engineering.
- b. An ability to design and conduct experiments, as well as to analyze and interpret data.
- c. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- d. An ability to function on multidisciplinary teams.
- e. An ability to identify, formulate, and solve engineering problems.
- f. An understanding of professional and ethical responsibility.
- g. An ability to communicate effectively.
- h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- i. A recognition of the need for, and an ability to engage in life-long learning.
- j. A knowledge of contemporary issues.
- k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The first two years of the program stress fundamentals in mathematics, chemistry, physics, computer programming, and engineering sciences such as mechanics, materials, and thermodynamics. The last two years provide the breadth and depth in nuclear science, behavior of heat and fluids, reactor theory and engineering, and radiation measurement. The laboratory work includes experiments using the University's 1,000-kilowatt research reactor. Engineering design is incorporated in many courses from the freshman year to the senior year, but is particularly emphasized in the senior capstone design course, which integrates the critical elements of reactor theory, reactor engineering, safety considerations and economic optimization into a reactor design.

Many graduates are employed by electric power companies that use nuclear power plants, or by companies that help service and maintain those plants. They use their knowledge of engineering principles, radioactive decay, interactions of radiation with matter, and nuclear reactor behavior to help assure that the power plants meet the demand for reliable, economic electricity while ensuring a safe environment. To do this, graduates must be problem solvers who can develop and use complex computer models and sophisticated monitoring systems, design systems to handle radioactive waste, determine if the materials in the plant are becoming brittle or corroded, or manage the fuel in the reactor to get the maximum energy from it. Other graduates work in industries that use radioactivity or radiation to detect problems or monitor processes. Jobs are also found in branches of the government as designers of the next generation of reactors for submarines, aircraft carriers, or space probes, or to manage and clean up contaminates wastes. They could also be involved with regulation of nuclear power or radiation uses, or in research to develop advanced technologies that will be used in next-generation power plants. Graduates who want to further their education in the fields of health physics, radiation biology, or nuclear medical applications find this degree to be a useful preparation.

**ENTRANCE TO MAJOR** -- In addition to the minimum grade point average (GPA) requirements\* described in the University Policies, all College of Engineering entrance to major course requirements must also be completed with a minimum grade of C: CHEM 110 (GN), MATH 140 (GQ), MATH 141 (GQ), MATH 250 or MATH 251, PHYS 211 (GN) and PHYS 212 (GN). All of these courses must be completed by the end of the semester during which the admission to major process is carried out.

\*In the event that the major is under enrollment control, a higher minimum cumulative grade-point average is likely to be needed and students must be enrolled in the College of Engineering or Division of Undergraduate Studies at the time of confirming their major choice.

For the B.S. degree in Nuclear Engineering, a minimum of 129 credits is required. This baccalaureate program in Nuclear Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

Scheduling Recommendation by Semester Standing given like (Sem:1-2)

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

(This includes 27 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

### PRESCRIBED COURSES (89 credits)

CHEM 110 GN(3) [11], CHEM 111 GN(1), EDSGN 100(3), MATH 140 GQ(4) [11], MATH 141 GQ(4) [11], PHYS 211 GN(4) [11], PHYS 212 GN(4) [11] (Sem: 1-2)  
 E MCH 211(3), E MCH 212(3), E MCH 213(3), M E 300(3), MATH 230(4), MATH 251(4) [11], PHYS 214 GN(2) (Sem: 3-4)  
 E E 212(3), E MCH 315(2), E MCH 316(1), M E 320(3), M E 410(3), NUC E 301(4) [11], NUC E 302(4) [11], NUC E 309(3) [11], NUC E 450(3) [11] (Sem: 5-6)  
 ENGL 202C GWS(3), NUC E 310W(2), NUC E 403(3), NUC E 430(3) [11], NUC E 431W(4), NUC E 451(3) (Sem: 7-8)

### ADDITIONAL COURSES (19 credits)

Select 1 credit of First-Year Seminar (Sem: 1-2)

ECON 102 GS(3), ECON 104 GS(3), ECON 014 GS(3) or E B F 200 GS(3) (Sem: 1-2)

ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 3-4)

CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 3-4)

Select 6 credits, of which 3 credits must be designated as design, from BME 406(3), NUC E 405, NUC E 407(3), NUC E 408, NUC E 409, NUC E 420, NUC E

428, NUC E 444, NUC E 445, NUC E 460(3), NUC E 470(3), NUC E 490, NUC E 496(1-18), NUC E 497(1-9) or 500-level NUC E courses with approval of adviser (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

(These courses may have to be chosen so that the engineering design or engineering science requirements for the major are met.)

Select 3 credits in General Technical Elective (GTE) courses from department list. (Sem: 7-8)

(Students who complete Basic ROTC may substitute 6 of the ROTC credits for 3 credits of GTE and 3 credits of GHA.)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Nursing

Altoona College

Penn State Abington

Penn State Erie, The Behrend College

Penn State Harrisburg

University College: Penn State Fayette, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Worthington Scranton

University Park, School of Nursing (NURN)

World Campus

PROFESSOR PAULA MILONE-NUZZO, *Dean, College of Nursing*

This major prepares registered nurse students as professional practitioners in areas of health promotion and maintenance, illness care, and rehabilitation. The major in Nursing is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 8500, Atlanta, GA 30326 (404-975-5000), [www.acenursing.org](http://www.acenursing.org); and the Commission on Collegiate Nursing Education (CCNE), One DuPont Circle, NW Suite 530, Washington, DC 20036 (202-463-6930). Part-time or full-time study is available at any of the campus sites. The University Park site is a blended program, which includes resident instruction and online nursing courses. The World Campus site is completely online.

Senate legislation 42-97 *Credit by Portfolio Assessment* enables students to receive credit for certain prescribed nursing courses based on their RN licensure.

Students must meet all requirements of the clinical institutions that provide preceptors and clinical experiences. These requirements may include CPR certification, professional liability insurance, health examination, drug testing, criminal background check (State and Federal) and child abuse history clearances. Students also are responsible for their own transportation to and from clinical settings and may need the use of a car.

Graduates of this major may qualify for admission to a graduate nursing program.

For the B.S. degree in Nursing, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

## Nursing

*Penn State Altoona (General Nursing and Second Degree)*

*Penn State Erie, Behrend Campus (General Nursing)*

*Penn State Harrisburg (Second Degree)*

*University Park (General Nursing)*

*University College: Penn State Fayette, Penn State Mont Alto, Penn State Worthington Scranton (General Nursing)*

PROFESSOR PAULA MILONE-NUZZO, *Dean, College of Nursing*

The Bachelor of Science Degree in Nursing prepares students to become professional practitioners in areas of health promotion and maintenance, illness care, and rehabilitation. After earning this degree in Nursing, students are qualified to take the registered nurse examination for licensure by the State Board of Nursing. The Nursing major is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326 (404-975-5000); [www.acenursing.org](http://www.acenursing.org); the Commission on Collegiate Nursing Education (CCNE), One DuPont Circle, NW Suite 530, Washington, DC 20036 (202-463-6930); and approved by the Pennsylvania State Board of Nursing.

### B.S. Nursing majors will choose one of the following options:

**General Nursing Option (NURS GNURS):** This option admits students directly to the major as first year students and at the time of admission only. Nursing students will start and remain at the campus of admission all 4 years. Non-nursing students may not transfer or change major into the 4-year nursing program at University Park, but will be considered through a competitive review process for admission (beginning fall 2015) at the 5 other campuses offering the General Nursing program. Clinical experiences occur at clinical facilities within a 50-mile radius of campus; University Park students will spend 1-2 years at Penn State Hershey Medical Center, which requires students to reside at that location.

**Second or Additional Degree Option (NURS SCND):** This option admits students, who have successfully completed a bachelor's degree in another discipline, to the major through a review process. All students must have met all general education and prerequisite course requirements. This option is available at Penn State Altoona and Penn State Harrisburg. Clinical experiences occur at facilities surrounding Altoona and Harrisburg.

**For Both Options:** All transportation and expenses related to clinical are the responsibility of the student. All students must carry professional liability insurance; complete an annual health examination, criminal background and child abuse history clearance; maintain CPR certification and adhere to any additional requirements of the clinical facilities.

### Undergraduate Academic Progression Policy

The Academic Progression policy delineates the academic standards for pre-licensure students (students without an RN license). Failure of two nursing courses results in dismissal from the Nursing major. Details of the academic progression policy are available in the student handbook. ([www.hhdev.psu.edu/nurs/Handbooks/index/html](http://www.hhdev.psu.edu/nurs/Handbooks/index/html)).

For the B.S. degree in Nursing, a minimum of 120 credits is required. The Second or Additional Degree Option requires the completion of 60 credits of general education and prerequisite courses in the first degree program (prior to admission) and 60 credits of nursing courses completed after admission.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

#### GENERAL EDUCATION: 45 credits

(21 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

#### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

(Second or Additional Degree Option: First-Year Seminar not required since students accepted into this program are required to have earned a bachelor's degree in another discipline)

#### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

#### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

#### ELECTIVES: 4-9 credits

#### REQUIREMENTS FOR THE MAJOR: 87-92 credits<sup>[1][2]</sup>

(This includes 21 credits of General Education courses; 3 credits of GHA courses; 9 credits of GN courses; 3 credits of GQ courses; 6 credits of GS courses.)

#### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 30-32 credits

##### PRESCRIBED COURSES (21 credits)

BIOL 129 GN(4), BIOL 141 GN(3), BIOL 142(1), HD FS 129 GS(3), MICRB 106 GN(3), MICRB 107 GN(1), NUTR 251 GHA(3), PSYCH 100 GS(3) (Sem: 1-4)

##### ADDITIONAL COURSES (9-11 credits)

CHEM 101(3); or CHEM 110 GN(3) and CHEM 111 GN(1) (Sem: 1-4)

SOC 001 GS(3) or SOC 005 GS(3) (Sem: 1-4)

STAT 200 GQ(4) or STAT 250 GQ(3) (Sem: 1-4)

#### REQUIREMENTS FOR THE OPTION: 57-60 credits

##### GENERAL NURSING OPTION: (57 credits)

##### PRESCRIBED COURSES (54 credits)

NURS 225(3)<sup>[38]</sup>, NURS 230(4)<sup>[38]</sup>, NURS 250 US(2)<sup>[38]</sup>, NURS 251(3)<sup>[38]</sup> (Sem: 3-4)

NURS 200W(3)<sup>[38]</sup>, NURS 301(4)<sup>[38]</sup>, NURS 305(3)<sup>[38]</sup>, NURS 306(3)<sup>[38]</sup>, NURS 310(3)<sup>[38]</sup>, NURS 320(3)<sup>[38]</sup>, NURS 350(2)<sup>[38]</sup> (Sem: 5-6)

NURS 405A(4)<sup>[38]</sup>, NURS 405B(4)<sup>[38]</sup>, NURS 415 US;IL(4)<sup>[38]</sup>, NURS 420(4)<sup>[38]</sup>, NURS 450A(2)<sup>[38]</sup>, NURS 450B(3)<sup>[38]</sup> (Sem: 7-8)

##### SUPPORTING COURSES AND RELATED AREAS (3 credits)

Select 3 credits at the 400 level from School-approved list in consultation with adviser (Sem: 7-8)

#### SECOND OR ADDITIONAL DEGREE OPTION: (60 credits)

##### PRESCRIBED COURSES (60 credits)

NURS 225(3)<sup>[38]</sup>, NURS 230(4)<sup>[38]</sup>, NURS 250 US(2)<sup>[38]</sup>, NURS 251(3)<sup>[38]</sup> (Sem: 1)

## Nutritional Sciences

University Park, College of Health and Human Development (NUTR)

PROFESSOR GORDON JENSEN, *Head of the Department*

The study of nutrition is a dynamic science that incorporates knowledge of human biology and biochemistry to understand how the body utilizes nutrients and related substances for optimal health throughout the lifecycle. Students gain an understanding of how the interplay of nutrition and lifestyle relate to current public health issues as well as the development and nutrition management of chronic and acute diseases. Students learn the scientific rationale and practice methodology to assess nutritional status for individuals in the clinical setting and for population analysis. They will use these skills to implement medical nutrition therapy or understand nutrition guidelines, standards, and policies.

Students may select one or more options: Applied Sciences, Basic Sciences, and Dietetics. Students in any option can choose from one or more of four emphases: Public Health Nutrition and Policy; Nutrition and Foods in Business; Community Nutrition and Food Security; or Nutrition Education and Communications.

**APPLIED SCIENCES OPTION:** This option integrates knowledge of social and behavioral sciences with human physiology and nutrition. Students learn to apply knowledge of nutrition to improve health and well-being of individuals and populations by applying nutrition principles in different practice settings. Graduates of this option can seek employment in public health and policy, business including the food industry, community and international agencies, schools, or continue to graduate study in nutrition or related fields.

**BASIC SCIENCES OPTION:** This option incorporates knowledge from biology, chemistry, physiology, and physics with nutrition. This option is recommended for students preparing for careers in medicine and other health related fields such as dentistry, optometry, physician assistant, physical therapy, and chiropractic, including graduate school. Also, this option prepares students for careers in laboratory research in the pharmaceutical or food industries, government, or academia.

**DIETETICS OPTION:** This option links nutrition and human behavior to improve the nutritional status of individuals and communities or apply nutrition principles and counseling skills to medical problems in clinical dietetics. It also prepares students for management positions in nutrition and food systems. Graduates satisfy the current requirements for application to an accredited post-baccalaureate dietetic internship. Upon satisfactory completion of a Dietetic Internship, graduates are eligible to take the registration examination to become a Registered Dietitian.

**Admission to the Dietetics Option:** C or better in NUTR 251, BIOL 141, and CHEM 110

For the B.S. degree in Nutritional Sciences, a minimum of 120 credits is required.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. NUTR requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(17-22 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 5-8 credits

**REQUIREMENTS FOR THE MAJOR:** 86-87 credits

(This includes 16-20 credits of General Education courses: Applied Sciences Option: 7-9 credits of GN courses; 3-4 credits of GQ courses; 6 credits of GS courses; 3 credits of GHA courses; or Basic Sciences Option: 7-9 credits of GN courses; 6 credits of GQ courses; 3 credits of GHA courses; or Dietetics Option: 7-9 credits of GN courses; 3-4 credits of GQ courses; 3 credits of GS courses; 3 credits of GHA courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 29-30 credits

**PRESCRIBED COURSES** (23 credits)

NUTR 251 GHA(3) [11], NUTR 358(2) (Sem: 1-3)

B M B 211(3) [11], NUTR 445(3) [11], NUTR 446(3) [11], NUTR 451(3) [11] (Sem: 5-7)

NUTR 452(3), NUTR 490W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (6-7 credits)

STAT 200 GQ(4) or STAT 250(3) (Sem: 1-3)

CHEM 202(3) or CHEM 210(3) (Sem: 2-4)

**REQUIREMENTS FOR THE OPTION:** 57 credits

**APPLIED SCIENCES OPTION:** (57 credits)

**PRESCRIBED COURSES** (30 credits)

BIOL 141 GN(3), CHEM 110 GN(3) (Sem: 1-3)

MICRB 106 GN(3), MICRB 107 GN(1), NUTR 320(3), NUTR 360(3) (Sem: 4-6)

HM 228(1), HM 329(3), HM 330(2), NUTR 456 US(3) (Sem: 5-6)

NUTR 370(1), NUTR 400(1), NUTR 453(3) (Sem: 7-8)

**ADDITIONAL COURSES** (6 credits)

AG BM 101 GS(3), ECON 102 GS(3), or ECON 104 GS(3) (Sem: 1-4)

HD FS 129 GS(3) or PSYCH 100 GS(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 21 credits, in consultation with an adviser, from University-wide offerings that provide relevance to this option. See program list of recommended courses. (At least 6 credits must be at the 400 level and, of those, no more than 3 credits may be NUTR 496.) (Sem: 3-8). Students are encouraged to select one (or more) of four Emphases: Public Health Nutrition and Policy; Nutrition and Foods in Business; Community Nutrition and Food Security; and Nutrition Education and Communications. A minimum of 15 credits is recommended for an Emphasis.

**BASIC SCIENCES OPTION:** (57 credits)

**PRESCRIBED COURSES** (38 credits)

BIOL 110 GN(4), BIOL 141 GN(3), BIOL 142(1), BIOL 230W GN(4), CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4) (Sem: 1-3)

B M B 212(1), MICRB 201(3), MICRB 202(2), PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 3-4)

**ADDITIONAL COURSES** (3 credits)

CHEM 203(3) or CHEM 212(3) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS** (16 credits)

Select 16 credits, in consultation with an adviser, from University-wide offerings that provide relevance to this option. See program list of recommended courses. (At least 9 credits must be at the 400 level and, of those, no more than 6 credits may be NUTR 496.) (Sem: 3-8)

**DIETETICS OPTION:** (57 credits)**PRESCRIBED COURSES** (38 credits)

## Organizational Leadership

*University Park, College of the Liberal Arts (OL BA): offered via World Campus*

PROFESSOR Brian Redmond, Professor-in-charge

The degree draws on many of the disciplines of the liberal arts, as well as business and science, to illuminate the issues that all leaders face regarding work and employment issues in the 21st Century, as well as in other aspects of organizational life more generally. Students select courses in crime, law, and justice, political science, sociology, labor and employment relations, communication arts and sciences, management, and psychology. The goal is to provide a broad education that introduces methods of analysis used in the disciplines of the liberal arts and prepares students to understand the complex social, cultural, and organizational issues that they will confront in leadership positions in the modern world. Upon successful completion of the B.A. degree in Organizational Leadership, students should be better able to:

1. Understand the roles and the major functions of leadership in contemporary organizations;
2. Articulate the theoretical and empirical foundations for different approaches to the exercise of leadership;
3. Detect, accurately frame, and select appropriate strategies for overcoming obstacles to effective organizational performance that leaders face;
4. Exhibit intellectual and behavioral competencies useful in the successful execution of critical organizational tasks and the management of relationships;
5. Recognize the internal structures of organizations and their impact on members' performance;
6. Appreciate the social processes operative in the exercise of influence, as well as how to improve them;
7. Draw on their knowledge of leadership in transitioning from lower-level to higher-level positions of responsibility and authority in organizations;
8. Bring a global perspective to the exercise of leadership; and
9. Grasp the importance of enacting leadership responsibly and in an ethically defensible manner.

For the B.A. degree in Organizational Leadership, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21-24 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36-37 credits [1]

(This includes 0-6 credits of General Education courses: 0-6 credits of GS; 0-3 credits of GH.)

**PRESCRIBED COURSES** (12 credits)

OLEAD 100 GS(3), OLEAD 409(3), OLEAD 464(3), OLEAD 465(3) (Sem: 1-5)

**ADDITIONAL COURSES** (12-13 credits)

Select one course from each area

a) Conflict Management

CAS 404(3) or LER 437(3) (Sem: 5-8)

b) Research Methods

LER 312(4) or SOC 207(3) (Sem: 5-8)

c) Motivation

MGMT 321(3) or PSYCH 484(3) (Sem: 5-8)

d) Ethics

LER 460(3) or PHIL 119(3) (Sem: 5-8)

**SUPPORTING COURSES** (12 credits)

(Courses that are used in the Additional Courses category may not be double-counted to satisfy this requirement)

Select 12 credits from the following with at least 6 credits at the 400-level:

CAS 404(3), CAS 452(3), CAS 475(3), CRIM 100 GS(3), CRIM 113 US(3), CRIM 482(3), LER 100 GS(3), LER 136 US(3), LER 201 GS(3), LER 312(4), LER 400 IL(3), LER 434(3), LER 435(3), LER 437(3), LER 458Y US(3), LER 460(3), MGMT 321(3), PHIL 103 GH(3), PHIL 119(3), PL SC 001 GS(3), PL SC 490(3), PSYCH 484(3), PSYCH 485(3), SOC 207(3), SOC 404(3), SOC 455(3), SOC 456(3) (Sem: 3-8)

*Berks College*

*University Park, College of the Liberal Arts (OL BS): offered via World Campus*

PROFESSOR Brian Redmond, *Professor-in-charge*

The degree draws on many of the disciplines of the liberal arts, as well as business and science, to illuminate the issues that all leaders face regarding work and employment issues in the 21st Century, as well as in other aspects of organizational life more generally. Students select courses in crime, law, and justice, economics, political science, sociology, labor and employment relations, communication arts and sciences, statistics, management, and psychology. The goal is to provide a broad education that introduces methods of analysis used in the disciplines of the liberal arts and prepares students to understand the complex social, cultural, and organizational issues that they will confront in leadership positions in the modern world. Upon successful completion of the B.S. degree in Organizational Leadership, students should be better able to:

1. Understand the roles and the major functions of leadership in contemporary organizations;
2. Articulate the theoretical and empirical foundations for different approaches to the exercise of leadership;
3. Detect, accurately frame, and select appropriate strategies for overcoming obstacles to effective organizational performance that leaders face;
4. Exhibit intellectual and behavioral competencies useful in the successful execution of critical organizational tasks and the management of relationships;
5. Recognize the internal structures of organizations and their impact on members' performance;
6. Appreciate the social processes operative in the exercise of influence, as well as how to improve them;
7. Draw on their knowledge of leadership in transitioning from lower-level to higher-level positions of responsibility and authority in organizations;
8. Bring a global perspective to the exercise of leadership; and
9. Grasp the importance of enacting leadership responsibly and in an ethically defensible manner.

For the B.S. degree in Organizational Leadership, a minimum of 123 credits is required.

**GENERAL EDUCATION:** 45 credits

(4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selections, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**REQUIREMENTS FOR THE MAJOR:** 64-66 credits<sup>[1]</sup>

(This includes 4 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (34 credits)

CAS 352(3), ECON 102 GS(3), ECON 104 GS(3), OLEAD 100 GS(3), OLEAD 409(3), OLEAD 464(3), OLEAD 465(3), PHIL 010 GH(3), PSYCH 100 GH(3), PSYCH 281 GS(3), STAT 200 GQ(4) (Sem: 1-5)

**ADDITIONAL COURSES** (12-13 credits)

Choose one course from each area.

1. Conflict Management  
CAS 404(3) or LER 437(3) (Sem: 5-8)
2. Research Methods  
LER 312(4) or SOC 207(3) (Sem: 5-8)
3. Motivation  
MGMT 321(3) or PSYCH 484(3) (Sem: 5-8)
4. Ethics  
LER 460(3) or PHIL 119 GH(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (18-19 credits)

At least 15 credits must be at the 400-level.

(Courses that are used in the Additional Courses category may not be double-counted to satisfy this requirement.)

CAS 404(3), CAS 452(3), CAS 475(3), CRIM 100 GS(3), CRIM 113 US(3), CRIM 482(3), LER 100 GS(3), LER 136 US(3), LER 201 GS(3), LER 312(4), LER 400 IL(3), LER 434(3), LER 435(3), LER 437(3), LER 458Y US(3), LER 460(3), MGMT 321(3), PHIL 103 GH(3), PHIL 119(3), PL SC 001 GS(3), PL SC 490(3), PSYCH 484(3), PSYCH 485(3), SOC 207(3), SOC 404(3), SOC 455(3), SOC 456(3) (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Premedicine

University Park, Eberly College of Science (P M)

PROFESSOR RONALD A. MARKLE, *in charge*

This major provides a broad foundation necessary to the understanding of the basic subjects of modern medical studies. The curriculum, which offers a good balance between science and nonscience courses, constitutes an excellent preparation for admission to medical school. It also gives students the freedom to tailor the program to meet their individual needs by permitting a generous number of supporting courses. Specific admission requirements or recommendations of a particular medical school, not already in the required courses of the major, may be included among the supporting courses. Many students also use their supporting courses to pursue a minor.

In order to be eligible for entrance to the Premedicine major, a student must have: 1) attained at least a 3.20 cumulative grade-point average; and 2) completed BIOL 110 GN(4), BIOL 230W GN(4), CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3), MATH 140 GQ(4), MATH 141 GQ(4) and earned a grade of C or better in each of these courses.

**THREE-YEAR ALTERNATIVE:** A student may also become eligible for the Bachelor of Science degree in this major upon satisfactory completion of:  
 a. A total of 96 credits, including General Education credits in Writing/Speaking, Health Sciences and Physical Education, and Arts, Humanities, and Social and Behavioral Sciences; 8 credits in a single foreign language; BIOL 110 GN(4), BIOL 230W GN(4); CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3) [\[1\]](#), CHEM 212(3) [\[1\]](#), CHEM 213(2) [\[1\]](#); MATH 140 GQ(4), MATH 141 GQ(4); PHYS 211 GN(4) [\[1\]](#), PHYS 212 GN(4) [\[1\]](#), PHYS 213 GN(2) [\[1\]](#) and PHYS 214 GN(2) [\[1\]](#).  
 b. The first year of an accredited medical or dental postgraduate program.

For the B.S. degree in Premedicine, a minimum of 126 credits is required, with at least 18 credits at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 99 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GHA courses.)

**PRESCRIBED COURSES** (59 credits)

BIOL 110 GN(4) [\[1\]](#), BIOL 230W GN(4) [\[1\]](#), CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1) [\[1\]](#), CHEM 112 GN(3) [\[1\]](#), CHEM 113 GN(1) [\[1\]](#), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), NUTR 251 GHA(3) [\[1\]](#) (Sem: 1-2)  
 H P A 101(3), PHIL 432(3), PSYCH 100 GS(3), SOC 001 GS(3) (Sem: 1-6)  
 CHEM 210(3) [\[1\]](#), CHEM 212(3) [\[1\]](#), CHEM 213(2) [\[1\]](#) (Sem: 3-4)  
 PHYS 211 GN(4) [\[1\]](#), PHYS 212 GN(4) [\[1\]](#), PHYS 213 GN(2) [\[1\]](#), and PHYS 214 GN(2) [\[1\]](#) (Sem: 3-6)

**ADDITIONAL COURSES** (16-20 credits)

Select 4-5 credits from BIOL 220W GN(4), BIOL 240W GN(4), MICRB 201(3)/MICRB 202(2) (Sem: 3-8)

Select 3-4 credits from STAT 200 GQ(4) or STAT 250 GQ(3) (Sem: 3-8)

Select 4-5 credits [\[1\]](#) from BIOL 421(4); BIOL 437(4); BIOL 472(3) and BIOL 473(2); MICRB 412(3) and MICRB 422(2) (Sem: 5-8)

Select 5-6 credits [\[1\]](#) from B M B 400(2-3), B M B 401(3), B M B 402(3); or CHEM 450(3), CHEM 452(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (26-30 credits)

Select 0-8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-8)

Select 18-30 credits from program list (A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation. Students may apply 6 credits of ROTC.) (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Premedical-Medical

University Park, Eberly College of Science (P M M)

PROFESSOR RONALD A. MARKLE, *in charge*

This is a special accelerated program in cooperation with the Sydney Kimmel Medical College (SKMC) at Thomas Jefferson University in Philadelphia whereby exceptional students have the opportunity to earn both the B.S. and M.D. degrees in seven years. Students are selected for this program while they are seniors in high school and must begin their undergraduate studies the fall immediately following their graduation. The first three years of the program are completed at University Park and the next four at SKMC Jefferson. The Penn State B.S. degree in Premedical-Medical is awarded after completion of 96 Penn State credits and successful completion of the first year of the standard curriculum at SKMC Jefferson Medical College.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in GENERAL EDUCATION course selection)

### ELECTIVES: 0-1 credit

### REQUIREMENTS FOR THE MAJOR: 64-66 credits

(This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

### PRESCRIBED COURSES (46 credits)

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1)[\[1\]](#), CHEM 112 GN(3)[\[1\]](#), CHEM 113 GN(1)[\[1\]](#), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#) (Sem: 1-2)

CHEM 210(3), CHEM 212(3), CHEM 213(2), PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214GN(2) (Sem: 3-4)

B M B 401(3)[\[1\]](#), B M B 402(3)[\[1\]](#), BIOL 110 GN(4)[\[1\]](#) (Sem: 5-6)

### SUPPORTING COURSES AND RELATED AREAS (10-20 credits)

Select 4-5 credits of life science with lab (Sem: 1-6)

Select 3 credits from program list (Sem: 1-6)

0-8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-6)

Select 3-4 credits of life science (Sem: 3-6)

*Note:* Depending on advanced placement credit and schedule load, it might also be necessary to enroll during one of the other summer sessions before entering SKMC Jefferson Medical College at semester seven.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Planetary Science and Astronomy

University Park, Eberly College of Science (PASTR)

Professor Donald Schneider, Chair

Planetary Science and Astronomy majors will study the Earth system in the context of the Solar System and the universe as a whole. Students will apply methods and knowledge from mathematics, geosciences, chemistry, biology, astronomy and physics, and through laboratory experiences and coursework they will both learn to explore the Earth and to use telescopes to obtain astronomical data. They will study planetary systems around other stars and explore the possibility of their harboring life. Communication of these topics, both oral and written, to the public and to their peers will be emphasized, as will logic and general problem-solving skills. Upon graduation students will be prepared to enter a graduate program in education to obtain teaching certification, to work in an informal science venue or planetarium, or to enter a variety of industry, environmental, or defense professions.

In order to be eligible for entrance to the Planetary Science and Astronomy major, a student must have: 1) Attained at least a 2.00 cumulative grade-point average; 2) Completed Math 140 with a grade of C or better; 3) Completed at least four of the following courses with a grade of C or better: ASTRO 120, ASTRO130, ASTRO 140, BIOL 110, CHEM 110, EARTH 002, GEOSC 001, GEOSC 020, or STAT 200.

A minimum of 122 credits is required to earn the degree.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of the Bulletin)

**FIRST-YEAR SEMINAR:**

(Included in General Education course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in General Education course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in General Education course selection or REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 95-99 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses)

**PRESCRIBED COURSES:** 37 credits

BIOL 110 GN(4)[1], CHEM 110 GN(3)[1], CHEM 111 GN(1), CHEM 112 GN(3)[1], CHEM 113 GN(1), ENGL 202C GWS(3), MATH 140 GQ(4)[1], MATH 141 GQ(4) (Sem: 1-4)

ASTRO 401(4)[1], ASTRO 402(3)[1], BIOL/GEOSCL 474(3)[1], STAT 200 GQ(4)[1] (Sem: 5-8)

**ADDITIONAL COURSES:** 38-39 credits

Select 3 credits from ASTRO 001 GN(3), ASTRO 005 GN(3), ASTRO 006 GN(3), ASTRO 291 GN(3) (Sem: 1-4)

Select 3-4 credits from CMPSC 101 GQ(3), CMPSC 121 GQ(3), CMPSC 201 GQ(3), CMPSC 202 GQ(3), CMPSC 203 GQ(4) (Sem: 1-6)

Select 9 credits from ASTRO 120 GN(3), ASTRO 130 GN(3), ASTRO 140 GN(3), ASTRO 292 GN(3) (Sem: 1-6)

Select 3 credits from EARTH 002 GN(3), GEOSC 001(3), GEOSC 020 GN(3) (Sem: 1-4)

PHYS 211 GN(4) or PHYS 250 GN(4) (Sem: 3-6)

PHYS 212 GN(4) or PHYS 251 GN(4) (Sem: 3-6)

Select 12 credits from EARTH 100 GN(3), EARTH 103 GN(3), EARTH 106 GN(3), EARTH 150 GN(3), EARTH 202(3), GEOG 160 GS(3), GEOSC 201(4), GEOSC 202(4), GEOSC 203(4), GEOSC 204(4), METEO 101 GN(3), METEO 201(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS:** 20-23 credits

At least 6 credits from the below categories must be at the 400 level

Select 11 credits in consultation with adviser from department list (Sem: 1-8)

Select 9-12 credits from program list of advanced electives (Sem: 3-8)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44

## Philosophy

University Park, College of the Liberal Arts (PHIL)

PROFESSOR AMY ALLEN, *Head of the Department*

This major provides in-depth study of fundamental issues that inescapably confront all persons. Topics include ethics, social and political philosophy, and esthetics--study of the good life, justice, and beauty; metaphysics, philosophy of mind, and philosophy of religion--study of the nature of reality, mind, body, and the meaning of life and death; epistemology, philosophy of science, and logic--study of the nature of knowledge, truth, objectivity, and principles of sound reasoning; and subjects such as comparative philosophies and world cultures, feminist theory, and philosophical issues in technology, language, education, and the professions of law, business, medicine, communications, engineering, and agriculture. These studies enhance imaginative, interpretive, analytical, critical, and communicative capacities. Majors thus may acquire intellectual abilities crucial for self-fulfillment, responsible participation in public life, and success in a wide range of careers--including law, business, education, journalism, medicine, and public service.

Majors pursued concentration in history of philosophy; humanities and arts; philosophy of science and mathematics; social sciences; the professions; or justice, law, and values. This is combined easily with minors, area studies, and concurrent majors. Qualified students participate in honors study and internships.

For the B.A. degree in Philosophy, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

**GENERAL PHILOSOPHY OPTION:** This option provides students with a concentration in the history of western philosophy and the historical development and impact of philosophical ideas and issues--from the ancient to the contemporary period. It is designed for all students who seek a broad liberal education, including students interested in graduate study in philosophy.

**HUMANITIES AND ARTS OPTION:** This option provides students with a concentration in philosophical issues in the arts, art history, literature, languages, history and religion. It is designed for all students primarily interested in the philosophical dimensions of the arts, humanities, and cultural studies, including students with career or further educational goals in these fields.

**PHILOSOPHY OF SCIENCE AND MATHEMATICS OPTION:** This option provides students with a concentration in philosophical issues in the life sciences, the physical sciences, mathematics, engineering, and technology. It is designed for all students primarily interested in the philosophical dimensions of the natural sciences, technology, and mathematics, including students with career or further educational goals in these fields.

**SOCIAL SCIENCES OPTION:** This option provides students with a concentration in philosophical issues in the social sciences, social and political theory, and education. It is designed for all students primarily interested in the philosophical dimensions of social thought and methodological and normative issues in the social sciences, educational theory, and public policy, including students with career or further educational goals in these fields.

**PROFESSIONAL STUDIES OPTION:** This option provides students with a concentration in philosophical issues and dimensions in the theory and practice of the professions of agriculture, business, engineering, journalism, law, and medicine and health care. It is designed for all students seeking a foundation in the philosophical dimensions of these professions, including students who wish to combine humanistic study with career or further educational goals in these fields.

**JUSTICE, LAW, AND VALUES OPTION:** This option provides students with a concentration in philosophical issues in aesthetics, ethics, jurisprudence, and social and political theory, and everyday life. It is designed for students primarily interested in moral, social, political, and legal questions concerning value and is especially appropriate for those anticipating future educational work in law school.

## Physics

University Park, Eberly College of Science (PHYS)

PROFESSOR NITIN SAMARTH, George A. and Margaret M. Downsbrough Department Head

This major provides a sound program of technical and general education for students planning a career in physics and related fields. The General option provides broad coverage with the most physics and mathematics course requirements and is useful for students intending to pursue graduate study in Physics or similar disciplines. The Medical and Electronics options incorporate coursework in support of the application of physics and mathematics in various life-science or engineering related fields. A Computation option provides background in the application of physical principles and mathematical methods in the solution of scientific problems, simulations, or visualizations using computer and numerical techniques. The Nanotechnology/Material Science option provides students with background in the understanding of condensed matter physics at either the nano- or micro/macro- levels.

In order to be eligible for entrance to the Physics major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), and PHYS 212 GN(4), and earned a grade of C or better in each of these courses.

### TO VIEW THE [Physics Minor \(PHYS\)](#)

For the B.S. degree in Physics, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 93-96 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 69 credits

#### PRESCRIBED COURSES (59 credits)

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#) (Sem: 1-2)  
PHYS 211 GN(4)[\[1\]](#), PHYS 212 GN(4)[\[1\]](#), PHYS 213 GN(2)[\[1\]](#), PHYS 214 GN(2)[\[1\]](#), PHYS 237(3)[\[1\]](#) (Sem: 1-4)  
ENGL 202C GWS(3), MATH 220 GQ(2), MATH 251(4)[\[1\]](#) (Sem: 3-4)  
PHYS 400(4)[\[1\]](#), PHYS 410(4)[\[1\]](#), PHYS 419(3)[\[1\]](#), PHYS 420(3)[\[1\]](#), PHYS 444(2)[\[1\]](#), PHYS 457W(3)[\[1\]](#) (Sem: 5-8)

#### ADDITIONAL COURSES (7 credits)

MATH 230(4)[\[1\]](#), or MATH 231(2)[\[1\]](#) and MATH 232(2)[\[1\]](#) (Sem: 3-4)  
CMPSC 101 GQ(3) or CMPSC 121 GQ(3) or CMPSC 200 GQ(3) or CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 3-4)

#### SUPPORTING COURSES AND RELATED AREAS (3 credits)

Take 3 credits of 400-level MATH from departmental list (Sem: 7-8)

### REQUIREMENTS FOR THE OPTION: 24-27 credits

#### COMPUTATION OPTION: (24 credits)

#### PRESCRIBED COURSES (9 credits)

CMPSC 122(3) (Sem: 3-4) (Note: CMPSC 122 has CMPSC 121 as a pre-requisite, so care should be taken when choosing the 'programming requirement' under the Common Requirements for the major.)  
MATH 455(3), MATH 456(3) (Sem: 5-6)

#### SUPPORTING COURSES AND RELATED AREAS (15 credits)

Select 6 credits from program list (Sem: 3-6)  
Select 3 credits of natural science (GN) courses that are not listed in the major (Sem: 5-6)  
Take a total of 6 credits from AERSP 424(3), 300-400-level CMPSC, 400-level MATH from departmental list or 400-level STAT (Sem: 5-8)

#### ELECTRONICS OPTION: (27 credits)

#### PRESCRIBED COURSES (4 credits)

E E 210(4) (Sem: 3-6)

#### ADDITIONAL COURSES (8 credits)

Select 2 of the following 3: E E 310(4), E E 350(4), CMPEN 270(4) (Sem: 4-6)

#### SUPPORTING COURSES AND RELATED AREAS (15 credits)

Select 6 credits from program list (Sem: 3-6)  
Select 3 credits of natural science (GN) courses that are not listed in the major (Sem: 5-6)  
Take 6 credits of E E 3XX or 4XX level courses (Sem: 5-8)

#### GENERAL PHYSICS OPTION: (25-26 credits)

#### ADDITIONAL COURSES (10-11 credits)

Select 6-7 credits from items a, b, and/or c (Sem: 7-8)  
a. PHYS 406(3), PHYS 411(3), PHYS 412(3), PHYS 413(3), PHYS 443(3), PHYS 461(3), PHYS 479(3), PHYS 496(3) or PHYS 497(3)  
b. PHYS 402(4) or PHYS 458(4) (the course not selected below may be used)  
c. ASTRO 410(3), ASTRO 440(3), or ASTRO 485(3) (only 3 credits of ASTRO courses may be used)  
Select 4 credits from PHYS 402(4) or PHYS 458(4) (Sem: 7-8)

#### SUPPORTING COURSES AND RELATED AREAS (15 credits)

Select 3 credits of natural science (GN) courses that are not listed in the major (Sem: 3-8)  
Select 9 credits from program list; a maximum of 6 of the 12 credits may be from PHYS 496(1-18), SC 295(1-9), SC 395(1-9), or SC 495(1-9) (Sem: 3-8)  
Select 3 credits of 4XX-level MATH from program list (Sem: 7-8)

#### MEDICAL PHYSICS OPTION: (24-25 credits)

This option prepares students for graduate study in medical physics, medical school, or bioengineering. The courses in option (b) below help satisfy the requirements for a minor in Bioengineering. Application for the BIOE minor must be made to the Department of Bioengineering.

#### ADDITIONAL COURSES (15-16 credits)

Select from the following two sets of courses:

- (a) BIOL 110 GN(4), and BIOL 240W GN(4), CHEM 210(2), CHEM 212(3), CHEM 213(3) (Sem: 3-8)  
(b) B M B 251(3) or BIOL 230W GN(4) or BME 201(3); BIOL 141 GN(3) or BIOL 472(3); 9 credits of BIOE at the 300 or 400 level (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits from program list; a maximum of 6 of the 9 credits may be from PHYS 496(1-18), SC 295(1-9), SC 395(1-9) or SC 495(1-9) (Sem: 5-8)

**NANOTECHNOLOGY/MATERIAL SCIENCE OPTION:** (24-25 credits)

**PRESCRIBED COURSES** (3 credits)

PHYS 412(3) (Sem: 7)

**ADDITIONAL COURSES** (12-13 credits)

The courses in option (a) help satisfy the requirements for the Nanotechnology minor.

Select from the following two sets of courses:

- (a) E SC 312(3), E SC 313(3) and select 6 credits from E SC 400-level courses  
(b) MATSE 201(3), MATSE 430(3), MATSE 460(1); MATSE 402(3) or MATSE 436(3); select 3 credits from MATSE 400-level courses (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 6 credits from program list (Sem: 3-6)

Select 3 credits of natural science (GN) courses that are not listed in the major (Sem: 5-6)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2013

SC

## Physics

*Penn State Erie, The Behrend College (PHYBD)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The major provides education in the fundamentals of physics and selected advanced topics to prepare graduates for graduate education or for careers in industry. Students have opportunities to participate in research with faculty. In addition to the traditional physics education offered in the General physics option, the option in applied physics, Computational Physics, provides preparation for careers in technological fields.

To be eligible for entrance to the Physics major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), and PHYS 212 GN(4), and earned a grade of C or better in each of these courses.

For the B.S. degree in Physics, a minimum of 122 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selections)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 1 credit

**REQUIREMENTS FOR THE MAJOR:** 94 credits  
(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 66 credits

**PRESCRIBED COURSES** (66 credits)

CHEM 110 GN(3)[1], CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4)[1], MATH 141 GQ(4)[1] (Sem: 1-2)

PHYS 211 GN(4)[1], PHYS 212 GN(4)[1], PHYS 213 GN(2)[1], PHYS 214 GN(2)[1], PHYS 237(3)[1] (Sem: 1-4)

CMPSC 121 GQ(3), ENGL 202C GWS(3) (Sem: 3-4)

MATH 220 GQ(2-3), MATH 230(4), MATH 251(4), PHYS 400(3), PHYS 419(3), PHYS 420(3), PHYS 421W(3), PHYS 458(4), PHYS 494(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 28 credits

**COMPUTATIONAL PHYSICS OPTION:** (28 credits)

**PRESCRIBED COURSES** (10 credits)

CMPSC 122(3) (Sem: 1-8)

MATH 455(3), PHYS 402(4) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from CMPSC 459(3), CMPSC 465(3), or CMPSC 474(3) (Sem: 5-8)

Select 12 credits from E E 352(4), E E 450(3), E E 453(3), MATH 456(3), M E 410(3), M E 428(3), PHYS 410(3), PHYS 414(3), PHYS 446(I), PHYS 494(1-3), and/or PHYS 495(1-3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits from a school-approved list (Sem: 1-8)

**GENERAL PHYSICS OPTION:** (28 credits)

**PRESCRIBED COURSES** (3 credits)

PHYS 410(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 12 credits from MATH 421(3), MATH 455(3), MATH 456(3), PHYS 402(4), PHYS 414(3), PHYS 446(I), PHYS 494(1-3), and/or PHYS 495(1-3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (13 credits)

Select one of the following two sequences:

a. Select 8 credits of a foreign language (Proficiency demo by examination or course work to the level of the second semester in a foreign language is required. If fewer than 8 credits are needed to reach the required proficiency, students choose selections from a school-approved list to make a total of 8 credits.) (Sem: 1-8)

Select 5 credits from a school-approved list (Sem: 1-8)

b. CMPSC 122(3) (Sem: 1-8)

Select 3 credits from CMPSC 459(3), CMPSC 465(3), or CMPSC 474(3) (Sem: 1-8)

Select 7 credits from a school-approved list (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Political Science

Altoona College (PLSAL)  
 Capital College (PLSCA)  
 University Park, College of the Liberal Arts (PL SC)  
 World Campus

PROFESSOR LEE ANN BANASZAK, *Head*

The Political Science major offers the student an opportunity to understand not only American federal, state, and local governments, but also the political systems of other nations and the philosophies that underlie them. Courses are offered in American, comparative, and international politics, and in political theory and methodology. Internship opportunities are available.

For the B.A. degree in Political Science, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in ELECTIVES, GENERAL EDUCATION course selections, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in ELECTIVES, GENERAL EDUCATION course selections, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
 (3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
 (See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**SUPPORTING COURSES AND RELATED AREAS** (36 credits)  
 (In meeting these requirements, students must take at least one course at any level from the four fields offered in the department: Political Theory/Methodology, American Politics/Public Administration, Comparative Politics, and International Relations)

Select 12 credits from below the 400 level (Sem: 1-6)

Select 15 credits from the 400 level and above in political science (Sem: 3-8)

Select 9 credits in political science or in related disciplines from departmental list of approved courses. Substitutions may be made with the written permission of the faculty adviser. (Sem: 3-8)

## Integrated Undergraduate/Graduate (IUG) Degree Program B.A. in Political Science and Master's in International Affairs (M.I.A.)

The integrated undergraduate-graduate (IUG) degree program (B.A. in Political Science/M.I.A. in International Affairs) will provide an opportunity for strong students in Political Science to complete a Master's degree with 5 total years of study.

An increasingly globalized economy is likely to escalate the demand for graduate training in international affairs. The career choices for graduates with this training will also expand sharply. The integrated degree program would prepare students for a variety of careers requiring an interdisciplinary background in politics and international affairs. Examples of types of entities hiring in these areas are federal, state, and local governments, international organizations, multinational corporations, international banking and financial institutions, media organizations and journalism, consulting firms, policy research centers, and development assistance programs and foundations. The School of International Affairs (SIA) Master's in International Affairs (M.I.A.) represents a professional degree designed to prepare students to thrive in these increasingly global career paths.

The IUG degree in International Affairs and Political Science is both timely and consistent with the tradition of interdisciplinary studies at other schools of international affairs. It will also strengthen the School of International Affairs' existing collaborations and interactions with the College of the Liberal Arts.

### Admission Requirements

The number of openings in the integrated B.A./M.I.A. program is limited. Admission will be selective based on specific criteria set by the School of International Affairs. Students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment) and no later than the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree, as specified in the proposed IUG plan of study. Specific requirements:

1. Must be enrolled in the Political Science B.A. program.
2. Must apply to and be accepted into The Graduate School and the M.I.A. program in the School of International Affairs. Students must complete the [Graduate School application](#). All applicants will submit GRE scores, two letters of recommendation and a personal statement addressing their reasons for pursuing a graduate degree in international affairs and discussing their plans and goals.
3. Although the program has no fixed minimum grade-point average, an applicant is generally expected to have a minimum overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
4. Must include a plan of study identifying undergraduate credits to be applied to the M.I.A. degree elective requirements.
5. Must provide written endorsement from the head of Political Science.

### M.I.A. Requirements for the Integrated B.A./M.I.A.

M.I.A. portion of the integrated B.A./M.I.A. will require the completion of a **minimum of 42 credits at the 400 level or higher**, at least 18 of which are from six core courses consisting of INTAF 801(3), 802(3), 803(3), 804(3), 805(3) and INTAF 590(3). The remaining credits are attained through completion of the approved elective courses.

In addition to the core curriculum and elective courses, M.I.A. degree candidates must complete either: (i) a master's paper; or (ii) a supervised internship placement. If the first option is chosen and the candidate opts to complete a paper, he/she must complete 3 credits of INTAF 594. The master's paper will involve integrating and showing mastery of the subject matter of the student's curricular emphasis, and may also involve original research. If the second option is chosen, the candidate will complete 3 credits of INTAF 595. The student will participate in a supervised internship of sufficient depth and professionalism that will allow the student to experience the integration of his/her curricular studies in an actual professional environment. A reflective paper will be submitted as a part of this credit requirement.

In order to graduate, M.I.A. degree students also will need to demonstrate proficiency in a language other than English. Proficiency will be defined as follows: (i) four semesters of a Penn State language sequence or its equivalent (15 credits with a quality grade of C or better using a 4.0 scale); (ii) native acquisition, as shown by the candidate's personal history and approved by the SIA faculty; or (iii) performance on a proficiency evaluation sufficient to equal four semesters of language learning; for this purpose, either Penn State's proficiency certification process or another pre-approved proficiency assessment may be used. Language study does not provide credits towards the degree.

<b>M.I.A Degree</b> <b>Core Courses (18)</b> INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3) <b>Electives (21)</b> Course choices are from a pre-approved list in the SIA, or by SIA faculty approved substitution  <b>Capstone (3)</b> Master's Paper (INTAF 594) or Internship (INTAF 595) <b>Total Degree Credits (42)</b>	<b>Integrated B.A./M.I.A. Degree</b> <b>Core Courses (18)</b> INTAF 801(3), INTAF 802(3), INTAF 803(3), INTAF 804(3), INTAF 805(3), INTAF 590(3) <b>Electives (21)</b> The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3). <b>Capstone (3)</b> Master's Paper (INTAF 594) or Internship (INTAF 595) <b>Total Degree Credits (42)</b>
--	--

**Sample Program of Study**

A typical sequence of coursework for a student in the IUG program would appear as follows:

<b>Year One:</b>	Political Science	PL SC 001; PL SC 014 or PL SC 003
<b>Year Two:</b>	Political Science	PL SC 003 or PL SC 020; 400-level course
<b>Year Three:</b>	Political Science	400 level PL SC class; PL SC 007 or PL SC 017; related course
<b>Year Four:</b>	Fall Semester	INTAF 801, INTAF 802 and INTAF 803 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may be taken.
	Spring Semester	INTAF 804, INTAF 805 and INTAF 590 are required. Additional 400-level PL SC, related course(s), or HIST/GEOG/Economics course(s) may also be taken.
<b>Year Five:</b>	24 credits	The following 12 credits may be double counted toward the B.A. and the M.I.A.: PL SC 415(3), PL SC 441(3), PL SC 550(3), PL SC 554(3).

**Tuition Charges, Grant-in-Aid and Assistantships**

Students admitted to the School of International Affairs through the IUG with Political Science may be considered to receive financial assistance.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Plant Sciences

University Park, College of Agricultural Sciences (PLANT)

PROFESSOR RICH MARINI, Head, *Department of Horticulture*

The Plant Sciences Major is an applied biological science program designed for students seeking careers in agronomic and horticultural crop production systems and enterprise management, agroecology, sustainable and organic managed and natural ecosystems, crop protection, applied plant physiology, plant science research, and plant biotechnology. Students will secure: (1) a working knowledge of basic plant biology, soils, pests, and pathogens with emphasis on growth, development, and physiology in an ecological and agricultural context, (2) the scientific, technical, and computational approaches to problem solving in an ecological and agricultural context, individually and in teams, (3) the ability to analyze ethical issues regarding ecosystem sustainability, business practices and plant science, and critically evaluate and respect different viewpoints in making management decisions, and (4) a high level of proficiency in written and oral communication, particularly with regard to critical evaluation of scientific issues.

There are five options in the major, providing flexibility for concentrations in areas including production and management systems related to agronomic and horticultural crops, plant biotechnology and breeding, crop physiology, ecology, agroecology, and other aspects of general plant science. Students can choose from diverse course offerings in designing a program of study suited to their needs and professional goals.

### AGROECOLOGY OPTION:

This option applies an ecological approach to understanding and managing cropping systems to meet societies' needs while enhancing environmental protection and resource conservation. Students will develop skills to manage agroecosystems for sustainable productivity, profitability and environmental protection by studying plant and soil sciences, ecology, and pest management from a systems perspective. The curriculum prepares students for a wide range of careers in agricultural and ecological fields, sustainable food production, and for graduate studies.

### CROP PRODUCTION OPTION:

This option provides students with practical and field-related skills in Agronomy (field crop production and soil management). Students will focus on techniques and knowledge necessary to efficiently and economically manage soils, crops and other farm resources with additional emphasis on pest management and commodity marketing. Courses stress the skills and information needed to work with current production technologies such as seed traits, crop protection chemicals, and fertilizers to improve yield and productivity.

### HORTICULTURE OPTION:

This option prepares students to enter the horticultural industry by providing a broad background in courses related to production and physiology of horticultural crops. Additional courses in pest management and business are required. Graduates may work as orchard, greenhouse, garden center, nursery or farm managers, with horticultural and landscape service providers, suppliers, and brokers, with cooperative extension and other government and non-governmental agencies and public and private gardens, or continue with graduate studies.

### PLANT GENETICS AND BIOTECHNOLOGY OPTION:

This option is a combination of basic science and technology-based classes designed for students who are seeking careers in agricultural sciences, plant breeding, plant molecular genetics and plant biotechnology based industries. It provides students with maximum flexibility in selecting a program of study suited to their needs and to achieve professional goals related to advanced degrees or immediate job placement in the industry. The option provides theoretical and practical skills of plant genetic manipulation relevant to plant biotechnology, plant breeding and genome research.

### PLANT SCIENCE OPTION:

This option emphasizes the application of the biological sciences to problem-solving in agronomic and horticultural ecosystems. Topic areas include plant biology, plant pathology, plant microbiology, plant biotechnology, plant-insect interactions, horticulture, crop science, plant ecology, and bioenergy. Graduates may find employment in industry, government and academic research programs as technicians and research assistants, or pursue graduate degrees.

For the B.S. Degree in Plant Sciences, a minimum of 120 credits are required.

### GENERAL EDUCATION: 45 credits

(21-24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE OPTIONS)

### ELECTIVES: 0-13 credits

### REQUIREMENTS FOR THE MAJOR: 83-99 credits

(This includes 21-24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses and 3 credits of GWS courses; plus 3 GH in Crop Production.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 33-36 credits

#### PRESCRIBED COURSES (19 credits)

BIOL 110 GN(4), CHEM 110 GN(3), CHEM 111 GN(1) (Sem: 1-4)

SOILS 101 GN(3) [11](#), ENT 313(2) (Sem: 5-6)

AGECO 457(3) [11](#), AGECO 461(3) [11](#) (Sem: 5-8)

#### ADDITIONAL COURSES (14-17 credits)

Select 3-5 credits from MATH 022 GQ(3), MATH 026 GQ(3), MATH 040 GQ(5), MATH 041 GQ(3-4), MATH 110 GQ(4), MATH 111 GQ(2), MATH 140 GQ(4), MATH 141 GQ(4), or MATH 141B GQ(4) (Sem: 1-2)

Select 3-4 Credits from STAT 200 GQ(4), STAT 240 GQ(3) or STAT 250 GQ(3) (Sem: 1-2)

Select 3 credits from ENGL 202C GWS(3) or ENGL 202D GWS(3) (Sem: 1-4)

Select 3 credits from AG BM 101 GS(3), ECON 014 GS(3), ECON 102 GS(3), or ECON 104 GS(3) (Sem: 3-4)

Select 1 credit from ENT 314(1) or ENT 316(1) (Sem: 5-7)

Select 1 credit from AGECO 495(1-18), AGRO 495(1-5), HORT 495(1-13), or HORT 496(1-18) (Sem: 5-8)

### REQUIREMENTS FOR THE OPTION: 50-63 credits

#### AGROECOLOGY OPTION: (60-61 credits)

##### PRESCRIBED COURSES: (18 credits)

SOILS 102(1) (Sem: 1-5)

AGECO 201(3) [11](#) (Sem: 2-6)

AGECO 295(1) (Sem: 2-8)

AGECO/AGRO 438(4) (Sem: 5-7)

PPATH 405(3) (Sem: 5-8)

SOILS 401(3), SOILS 402(3) (Sem: 6-8)

##### ADDITIONAL COURSES (24-25 credits)

Select 3 credits from AGECO/METEO 122 GN(3), AGECO/R SOC 134 GN(3), AGECO 144 GN(3), AGECO 154(2) or AGECO 496(1) (Sem: 1-4)

Select 3 credits from AG 160 GH(3), GEOG 030 GS;IL(3), PHIL 013 GH(3), PHIL 103 GH(3), or PHIL 132 GH(3) (Sem: 1-4)

Select 3 credits from AGRO 028(3) [11](#) or HORT 101 GN(3) [11](#) (Sem: 1-5)

Select 3 credits from AGECO 121 GN(3) or BIOL 127 GN(3) (Sem: 3-5)

Select 6 credits from AGRO 423(3), AGRO 425(3), HORT 202(3), HORT 315(3), HORT 431(3), HORT 432(3), HORT 433(3), HORT 450(3), or SOILS 418(3) (Sem: 5-6)

Select 3 credits from BIOL 222(3) or HORT 407(3) (Sem: 5-6)

Select 3-4 credits from AGRO 410W(4), HORT 412W(3), or SOILS 412W(3) (Sem: 6)

#### **SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 18 credits of supporting courses in consultation with adviser. (Sem: 5-8)

#### **CROP PRODUCTION OPTION:** (61-63 credits)

##### **PRESCRIBED COURSES** (29 credits)

SOILS 102(1) (Sem: 2-5)

AGECO 201(3)[\[1\]](#), AGECO 295(1) (Sem: 2-6)

PPEM 405(3) (Sem: 3-7)

AGECO 429(2), AGRO 423(3), AGRO 425(3) (Sem: 3-8)

AGECO/AGRO 438(4) (Sem: 5)

HORT 407(3) (Sem: 5-7)

SOILS 401(3), SOILS 402(3) (Sem: 6-8)

##### **ADDITIONAL COURSES** (23-25 credits)

Select 3 credits from AGRO 028(3)[\[1\]](#) or HORT 101 GN(3)[\[1\]](#) (Sem: 1-3)

Select 3 credits from AG 160 GH(3), PHIL 013 GH(3), PHIL 103 GH(3), or PHIL 132 GH(3) (Sem: 2-7)

Select 3 credits from AGECO 121 GN(3) or BIOL 127 GN(3) (Sem: 3-5)

Select 3 credits from AG BM 102(3), AG BM 106(3), AG BM 200(3) or AG BM 407(3) (Sem: 3-7)

Select 3 credits from AEE 201 GS(3), AEE 360(3), AEE 460(3), or AEE 465(3) (Sem: 3-7)

Select 2 credits from AGECO 154(2) or SOILS 403(2) (Sem: 3-8)

Select 3-4 credits from AGECO/AN SC/SOILS 418(3), AN SC 201(4), GEOG 160 GS(3), or SOILS 450(3) (Sem: 3-8)

Select 3-4 credits from AGRO 410W(4), HORT 412W(3), or SOILS 412W(3) (Sem: 6)

#### **SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits of supporting courses in consultation with adviser (Sem: 4-8)

#### **HORTICULTURE OPTION:** (54-57 credits)

##### **PRESCRIBED COURSES** (30 credits)

HORT 101 GN(3)[\[1\]](#), HORT 202(3)[\[1\]](#), HORT 232(3), HORT 315(3)[\[1\]](#), HORT 402W(3), HORT 407(3), HORT 412W(3)[\[1\]](#), HORT 420(3), HORT 445(3), HORT 455(3) (Sem: 1-8)

##### **ADDITIONAL COURSES** (24-27 credits)

Select 3 credits from HORT 131(3), HORT 137(3), HORT 138(3), HORT 431(3)\*, HORT 432(3)\*, or HORT 433(3)\* (Sem: 3-8)

Select 3 credits from PPEM 300(3) or PPEM 405(3) (Sem: 4-8)

Select 6-7 credits from HORT 408(4), HORT 431(3), HORT 432(3), HORT 433(3), HORT 450(3), or HORT 453(3) (Sem: 5-8)

Select 3-4 credits from AGRO 438(4) or HORT 238(3) (Sem: 5-8)

Select 9-10 credits from AG 301W(3), AG BM 200(3), AG BM 407(3), B LAW 243(3), FIN 100(3), MKTG 221(3), SPAN 001(4), SPAN 002(4), SPAN 003(4) or SPAN 105(4) (Sem: 5-8)

#### **PLANT GENETICS AND BIOTECHNOLOGY OPTION:** (55-61 credits)

##### **PRESCRIBED COURSES** (34 credits)

PHYS 250(4) (Sem: 3-4)

BIOL 127(3)[\[1\]](#), BIOL 222(3) (Sem: 3-5)

CHEM 210(3) (Sem: 4-5)

PPEM 405(3)[\[1\]](#) (Sem: 5)

CHEM 212(3) (Sem: 5-6)

HORT 407(3) (Sem: 5-7)

AGRO 410W(4), HORT/BIOTC 459(3) (Sem: 6)

B M B 400(2) (Sem: 7)

AGRO/BIOTC 460(3) (Sem: 8)

##### **ADDITIONAL COURSES** (21-27 Credits)

Select 3 credits from AGRO 028(3) or HORT 101 GN(3) (Sem: 1-4)

Select 4-6 credits from BIOL 230W GN(4); BIOL 240W GN(4); B M B 211(3) and B M B 212(1); MICRB 201(3) and MICRB 202(2); MICRB/B M B 251(3) and MICRB 252(3) (Sem: 4)

Select 3-4 credits from BIOL 412(3), BIOL 414(3), BIOL 427(3), BIOL 428(3), BIOL 436(3), BIOL 448(3), ENT 420(3), HORT 445(3), or PPEM 425(4) (Sem: 7)

Select 2-3 credits from BIOL 439(3), BIOTC479 (3), HORT 497B(3), IBIOS 571(2), or IBIOS 593(3) (Sem: 7)

Select 3-4 credits from ENT/VB SC 402W(3), ENT 410(3), PPEM 416(3), or PPEM 425(4) (Sem: 8)

Select 3-4 credits from BIOL 407(3), BIOL 424(3), BIOL 441(3), HORT 402W(3), HORT 412W(3), HORT 420(3), IBIOS 591(1), PPEM 417(3), or PPEM/E R M 430(3) (Sem: 8)

Select 3 credits from AGRO 423(3), AGRO 425(3), HORT 202(3), HORT 315(3), HORT 431(3), HORT 432(3), HORT 433(3), HORT 450(3), or SOILS/AGECO/AN SC 418(3) (Sem: 8)

#### **PLANT SCIENCE OPTION:** (50-56 credits)

##### **PRESCRIBED COURSES** (24 credits)

CHEM 112(3) (Sem: 2-3)

BIOL 127 GN(3)[\[1\]](#), PHYS 250(4) (Sem: 3-6)

CHEM 210(3), CHEM 212(3), CHEM 213B(2) (Sem: 4-5)

BIOL 222(3) (Sem: 5-6)

PPEM 405(3)[\[1\]](#) (Sem: 5-8)

##### **ADDITIONAL COURSES** (26-32 credits)

Select 3 credits from AGRO 028(3) or HORT 101 GN(3) (Sem: 1-4)

Select 1 credit from CHEM 113(1) or CHEM 113B(1) (Sem: 2-3)

Select 4-6 credits from B M B 211(3) and B M B 212(1), or BIOL 230W GN(4), or BIOL 240W GN(4), or MICRB 201(3) and MICRB 202(2), or MICRB 251(3), or MICRB 252(3) (Sem: 3-6)

Select 3-4 credits from BIOL 439\*(3), ENT 402W(3), ENT 410(3), PPEM 416(3), PPEM 417\*(3), or PPEM 425\*(4) (Sem: 5-8)

Select 3-4 credits from BIOL 412(3), BIOL 414(3), BIOL 427(3), BIOL 428(3), BIOL 436(3), BIOL 448(3), ENT/VB SC 402W(3), ENT 420(3), HORT 445(3), or PPEM 425\*(4) (Sem: 5-8)

Select 3 credits from AGRO 460(3), BIOL 439(3), HORT 407\*(3), or HORT 459(3) (Sem: 5-8)

Select 6-7 credits from AGRO 410W(4), AGRO 460(3), BIOL 407(3), BIOL 441(3), BIOL 424(3), HORT 402W(3), HORT 407\*(3), HORT 412W(3), HORT 420(3), PPEM 417\*(3), or PPEM/E R M 430(3) (Sem: 5-8)

Select 3-4 credits from AGRO 410W(4), HORT 412W(3), or SOILS 412W(3) (Sem: 6)

\*Students cannot use the same course more than once as an additional course

[\[1\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

Blue Sheet Item #: 43-05-003

Review Date: 02/24/2015

## Political Science

University Park, College of the Liberal Arts (PLSBS)  
World Campus

Professor Lee Ann Banaszak, *Head, Department of Political Science*

The Bachelor of Science Degree in Political Science emphasizes the technical aspects of political science knowledge development and application. In addition to broad coursework in political science, students will complete courses in statistics and research design, advanced classes in social science methods and upper level political science courses that employ quantitative research skills in exploring substantive themes. Students have the opportunity to complete either a research practicum within the Political Science Department, an internship or a TA-ship. This degree will serve students who are interested in political science from the point of view of the practitioner, as well as those who are interested in acquiring practical skills relevant to a variety of careers in politics, government and business.

For the B.S. degree in Political Science, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR) (See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES** (19-20 credits)

**REQUIREMENTS FOR THE MAJOR:** 67-68 credits [1]

(This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.)

**PRESCRIBED COURSES** (6 credits)

PL SC 197 GS(3), PL SC 309(3) (Sem: 1-4)

**ADDITIONAL COURSES** (49-50 credits)

Select 4 credits from MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-4)

Select 9 credits from PL SC 001 GS(3), PL SC 003 GS;IL(3), PL SC 007 GS(3), PL SC 014 GS;IL(3), PL SC 017 GS(3) (Sem: 1-4)

Select 3-4 credits from CMPSC 101 GQ(3), CMPSC 203 GQ(4), CMPSC 121 GQ(3) (Sem: 1-4)

Select 3 credits from PL SC 308(3) or PL SC 300H(3) (Sem: 3-7)

Select 9 credits of data intensive PL SC courses from a department list. (Sem: 3-8)

Select 9 credits of any 400-level PL SC course (Sem: 3-8)

Select 9 credits of methodology from PL SC 410(3), GEOG 363(3), GEOG 364(3), STAT 461(3), STAT 462(3), STAT 463(3), STAT 380(3), STAT 466(3) and courses from a department approved list. (Sem: 4-8)

Select 3 credits of 494, 496 or data intensive course from a department list (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from department approved list of courses. Students can take a range of courses across disciplines or concentrate their selection to complete a minor in a supporting field. (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Blue Sheet Item #: 43-06-100

Review Date: 04/14/2015

## Plastics Engineering Technology

*Penn State Erie, The Behrend College (PLTBD)*

This major prepares graduates with the knowledge and skills needed to provide high level engineering technology support to a wide variety of industrial, developmental, commercial, consulting, and sales organizations dealing with the development, manufacture and/or distribution of plastics related products, materials and technologies. The program emphasizes the integration of engineering and scientific principles, practical hands-on experience, application of state-of-the-art computer technologies, and management methods.

### Entrance to Major Requirements:

To be eligible for entrance to the Plastics Engineering Technology major, a student must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed MATH 081 or MATH 026, and MATH 082 or MATH 022, and MATH 083 or MATH 140, and PHYS 250, and earned a grade of C or better in each of these courses.

Graduates are qualified for positions in product development, part design, tooling design, R&D, processing, plant engineering, production control, technical sales and marketing in the plastics industry, and are provided a path to a wide variety of graduate degrees in engineering, science or business.

The four-year baccalaureate program is accredited by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org). Graduates of the Penn State University associate degree program in Mechanical Engineering Technology may complete this degree in five semesters of full-time study.

For the B.S. degree in Plastics Engineering Technology, a minimum of 134 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 1 credit

### REQUIREMENTS FOR THE MAJOR: 106 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

### PRESCRIBED COURSES (82 credits)

CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1) [\[1\]](#), EG T 120(3), EG T 121(3), PHYS 250 GN(4) [\[1\]](#), PL ET 050(2) [\[1\]](#) (Sem: 1-2)  
MCH T 111(3) [\[1\]](#), MCH T 213(3) [\[1\]](#), PL ET 205(3) [\[1\]](#), PL ET 206W(3) [\[1\]](#), PL ET 222(4) [\[1\]](#), PL ET 227(4) [\[1\]](#), PL ET 232(3) [\[1\]](#), PL ET 235(2) [\[1\]](#) (Sem: 3-4)  
ENGL 202C GWS(3) [\[1\]](#), MATH 211 GQ(3), MET 418(3) [\[1\]](#), MGMT 409(3) [\[1\]](#), PL ET 304(3) [\[1\]](#), PL ET 323(3) [\[1\]](#), PL ET 330(4) [\[1\]](#), PL ET 345(2) [\[1\]](#), PL ET 350(4) [\[1\]](#),  
PL ET 366(3) [\[1\]](#), PL ET 494A(3) [\[1\]](#) (Sem: 5-6)  
PL ET 425(2) [\[1\]](#), PL ET 477(2) [\[1\]](#), PL ET 481(3) [\[1\]](#) (Sem: 7-8)

### ADDITIONAL COURSES (15 credits)

MATH 026 GQ(3) [\[1\]](#) or MATH 081 GQ(3) [\[1\]](#), MATH 022 GQ(3) [\[1\]](#) or MATH 082 GQ(3) [\[1\]](#), MATH 083 GQ(4) [\[1\]](#) or MATH 140 GQ(4) [\[1\]](#), MATH 210 GQ(3) [\[1\]](#) and two credits of GN electives; or MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) [\[1\]](#), 2 credits of GN electives, and 5 credits of general electives (Sem: 1-4)

### SUPPORTING COURSES AND RELATED AREAS (9 credits)

Select a total of 9 credits of technical electives from School-approved list. (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44

## Petroleum and Natural Gas Engineering

University Park, College of Earth and Mineral Sciences (PNG E)

PROFESSOR Russell Johns, Undergraduate Program Chair

The B.S. program in Petroleum and Natural Gas Engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: 410-347-7700.

The undergraduate curriculum in petroleum and natural gas engineering has been designed to equip the student with the fundamentals necessary to achieve lifelong professional growth. Graduates are prepared to enter both the private and public sectors as petroleum and natural gas engineers or to pursue further education at the graduate level.

The courses are structured to serve as a melting pot for theory, application to case studies and engineering project design. This enables the student to appreciate and understand that a successful engineering design project requires a sound theoretical foundation, experimentation and engineering judgment. The thrust of the program structure emphasizes the fundamentals of mathematics and earth and engineering sciences and integrates them in application to traditional petroleum and natural gas engineering topics. Design projects are required throughout the curriculum. Execution of these projects requires an amalgamation of problem formulation strategies, testing of alternative design methodologies, feasibility studies, and economic and environmental considerations. Graduates of the program are expected to perform in various facets of the petroleum industry including drilling, production, evaluation, transportation and storage. The petroleum and natural gas engineering faculty and staff are committed to an interactive teaching and learning environment to ensure that the student is an active participant in the learning process. General education opportunities are sufficiently broad and diverse in scope to enable the student to tailor the educational experience to particular interests, background and expected role in society.

### Petroleum and Natural Gas Engineering Student Outcomes:

1. Our students, at the time of their graduation, will have a working knowledge of basic math, science skills and engineering skills.
2. Our students, at the time of their graduation, will be equipped with ability to design and conduct experiments as well as to analyze and interpret data.
3. Our students, at the time of their graduation, will be ready to design a system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.
4. Our students, at the time of their graduation, will be able to function in multi-disciplinary teams.
5. Our students, at the time of their graduation, will be equipped with the necessary skills to identify, formulate and solve engineering problems.
6. Our students, at the time of their graduation, will have a thorough understanding of professional and ethical responsibilities.
7. Our students, at the time of their graduation, will be equipped with the necessary communication skills to communicate effectively.
8. Our students, at the time of their graduation, will have a broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.
9. Our students, at the time of their graduation, will be instilled with the recognition of the need for, and an ability to engage in life-long learning.
10. Our students, at the time of their graduation, will attain knowledge on contemporary issues.
11. Our students, at the time of their graduation, will have an ability to use the techniques, skills and modern engineering tools that are necessary for engineering practice.

### Petroleum and Natural Gas Engineering Program Educational Objectives:

1. Our graduates will integrate key science and engineering principles to address the technological challenges of the petroleum and natural gas industry.
2. Our graduates will practice in a broad range of petroleum engineering fields working on teams that create innovative solutions to the most pressing problems of the petroleum and natural gas industry by implementing the ideals of ethical behavior, professionalism, and environmental sensitivity and social awareness.
3. Our graduates will be recognized as critical and independent thinkers and will assume positions of leadership in defining the social, intellectual, business and technical dimensions of the professional organizations they belong to.
4. Our graduates will continue their life-long learning process and participate in graduate education to remain as effective professionals in the workplace of the future.

**ENTRANCE TO MAJOR--** (Effective for students admitted beginning Summer 2013) -- In the event that the major is under enrollment control, a higher minimum cumulative grade-point average (GPA) than the minimum described by University Policies is likely to be needed. In addition to this minimum grade point average requirement, the following entrance to major requirements must also be completed with a minimum grade of C: CHEM 110 (GN)(3) [1], CHEM 112 (GN)(3)[1], MATH 140 (GQ)(4)[1], MATH 141 (GQ)(4)[1], and PHYS 211 (GN)(4)[1]. These courses must be completed by the end of the semester during which the entrance to major process is carried out. To be eligible for consideration for entrance to this major, students must be enrolled in the College of Earth and Mineral Sciences or Division of Undergraduate Studies at the time that they confirm their major choice.

### Integrated B.S. in Petroleum and Natural Gas Engineering (PNG E) and M.S. in Energy and Mineral Engineering (EME)

The integrated undergraduate-graduate (IUG) program between the Petroleum and Natural Gas Engineering undergraduate program and the Energy and Mineral Engineering graduate program enables academically superior and research-focused PNG E undergraduate students to also obtain an M.S. degree in Energy and Mineral Engineering in five years of study. Students should refer to the Energy and Mineral Engineering graduate program in the Graduate Program Bulletin for the IUG admission and degree requirements.

([http://bulletins.psu.edu/bulletins/whitebook/graduate\\_degree\\_programs.cfm?letter=E&program=grad\\_eme.htm](http://bulletins.psu.edu/bulletins/whitebook/graduate_degree_programs.cfm?letter=E&program=grad_eme.htm))

For the B.S. degree in Petroleum and Natural Gas Engineering, a minimum of 129 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(30 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 114 credits

(This includes 30 credits of General Education courses: 3 credits of GH courses; 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 9 credits of GWS courses.)

**PRESCRIBED COURSES** (99 credits)

CHEM 110 GN(3) [1], CHEM 111 GN(1), CHEM 112 GN(3) [1], ECON 102 GS(3), EM SC 100S GWS(3) [88] (Sem: 1-2)  
MATH 140 GQ(4) [1], MATH 141 GQ(4) [1], MATH 230(4), MATH 251(4), PHYS 211 GN(4) [1], PHYS 212 GN(4) [1], PHYS 213 GN(2) (Sem: 1-4)  
E MCH 210(5) [77], E MCH 212(3), GEOSC 001(3) (Sem: 3-4)  
EME 301(3) [1], EME 303(3) [1], EME 460(3), GEOSC 454(3), P N G 405(3) [1], P N G 406(1) [1], P N G 410(3) [1], P N G 450(3) [1], P N G 451(1) [1], P N G 475(3) [1], P N G 490(1) (Sem: 5-6)  
ENGL 202C GWS(3), P N G 420(4), P N G 425(3), P N G 430(3), P N G 440W(3), P N G 480(3), P N G 482(1), P N G 491(1), P N G 492(1) (Sem: 7-8)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits: one course from categories a, b, and c.

a. ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)

b. PHIL 103 GH(3), PHIL 106 GH(3), PHIL 107 GH(3), or PHIL 233 GH(3) (Sem: 3-4)

c. CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with adviser (Students may apply 6 credits of ROTC.) (Sem: 7-8)

**Course Substitutions for the Integrated B.S. in Petroleum and Natural Gas Engineering (PNG E) and M.S. in Energy and Mineral Engineering (EME)**

As many as twelve of the credits required for the master's degree may be applied to both the B.S. and M.S. degrees. A minimum of six credits counted for both the B.S. and M.S. degrees must be at the 500-level. Thesis and culminating/capstone experience credits may not be double counted. The undergraduate degree program officer will determine the specific undergraduate required courses for which the 500-level courses may be used to substitute to meet institutional and accreditation requirements.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[77]** Students at commonwealth campuses and/or transfer students can substitute the combination of E MCH 211 and E MCH 213.

**[88]** The following substitutions are allowed for students attending campuses where the indicated course is not offered: CAS 100 GWS can be substituted for EM SC 100S GWS.

R & T: Approved 5/24/2013

## Political Science

*Penn State Erie, The Behrend College (POLSC)*

The discipline of political science consists of different related subfields such as American government, international relations, public policy and administration, the study of how governments accomplish objectives, and comparative politics, the study of foreign government. The major offers students the opportunity to take course work in most subfields as well as seek practical experience through an internship. All students are encouraged to develop research and writing and statistical skills. Many students have continued their education in law or graduate school.

For the B.A. degree in Political Science, a minimum of 120 credits is required. Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 15 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits

**PRESCRIBED COURSES** (6 credits)

PL SC 001 GS(3), PL SC 003 GS;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (6 credits)

INTST 100 GS;IL(3) or PL SC 014 GS;IL(3) (Sem: 1-4)

PL SC 017 GS(3) or PL SC 017W GS(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (24 credits)

( In meeting this requirement, select at least one course beyond the prescribed and additional courses listed above from each of the four fields offered in the program: American Government, Comparative Politics, International Politics, and Government in Theory and Practice.)

Select 12 credits at any level from a program-approved list (Sem: 1-8)

Select 12 credits at the 400 level from a program-approved list (Sem: 3-8)

## Psychology

Altoona College (PSCBA)

University College (PYACC) - Penn State Beaver, Penn State Brandywine, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazleton, Penn State Lehigh Valley, Penn State New Kensington, Penn State Worthington Scranton; Penn State York

The Psychology major will combine the knowledge, skills, and values of psychology with a liberal arts foundation. Students should develop a knowledge base consisting of concepts, theory, empirical findings, and trends within psychology; understand and apply basic research methods in psychology; use critical thinking and the scientific approach to solve problems related to behavior and mental processes; apply psychological principles to personal and social issues; and be able to understand the gender, sexual orientation, race, ethnicity, culture, and class issues in psychological theory, research, and practice. Students should also develop information and computer competence, communication skills, and develop realistic ideas about how to implement their psychology education in occupational pursuits in a variety of settings. The major may lead to either a Bachelor of Arts or a Bachelor of Science degree. The B.A. degree incorporates a broad exposure to the many facets of the field of psychology, in addition to the B.A. requirements. The B.S. degree provides the same exposure to the field of psychology and adds options in Science and Business to prepare students for more specific career directions. Students in both degree programs may also prepare for graduate school; research experience with faculty members is encouraged for such students.

For the B.A. degree in Psychology, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 14-18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 41 credits<sup>[1]</sup>

(This includes 0-4 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (7 credits)

PSYCH 100 GS(3) (Sem: 1-4)

PSYCH 301W(4) (Sem: 3-6)

**ADDITIONAL COURSES** (34 credits)

(Must include 15 credits at 400-level.)

Select 4 credits from PSYCH 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

Select 18 credits--a minimum of 3 credits from each of the following six categories

1. Learning and Cognition: PSYCH 256 GS(3), PSYCH 261 GS(3), PSYCH 268(3), PSYCH 426(3), PSYCH 427(3), PSYCH 452(3), PSYCH 456(3), PSYCH 457(3), PSYCH 458(3), PSYCH 459(3), PSYCH 461(3) (Sem: 2-8)
2. Social and Personality Psychology: PSYCH 221 GS(3), PSYCH 231 GS;US(3), PSYCH 232 GS;US;IL(3), PSYCH 238 GS(3), PSYCH 419(3), PSYCH 420(3), PSYCH 421(3), PSYCH 423(3), PSYCH 424(3), PSYCH 432 US(3), PSYCH 438(3), PSYCH 479 US(3) (Sem: 2-8)
3. Biological Bases of Behavior: PSYCH 253 GS(3), PSYCH 260(3), PSYCH 269(3), PSYCH 441(3), PSYCH 460(3), PSYCH 462(3), PSYCH 463(3), PSYCH 464(3), PSYCH 475(3), PSYCH 478(3) (Sem: 2-8)

## Psychology

*Penn State Erie, The Behrend College (PSHBA)*

The Psychology program at Penn State Behrend provides students a strong foundation in the application of psychological knowledge, skills and techniques for the solution and prevention of individual and social problems. A spectrum of courses (bio-behavioral, clinical, cognitive-experimental, developmental, educational, human factors, industrial/organizational, personality, and social) is united by a strong focus on the scientific method. All students are afforded the opportunity to participate in internships and research assistantships throughout their training. Bachelor-level graduates in psychology are equipped for various positions in human service agencies, businesses, industries, and laboratories. Those not joining the workforce following graduation most often continue their training, working towards a master's or doctoral degree in psychology; others go on to other disciplines, e.g., medical or law school. Courses within this degree can also be used to develop a specialty areas such as criminal justice, sociology or international studies.

The Bachelor of Arts degree requires nine additional credits and proficiency in a second language. The Bachelor of Arts degree helps to prepare students for careers in education-related settings, human services, clinical settings, and other related fields.

For the B.A. degree in Psychology, a minimum of 120 credits is required. Each student must earn a grade of C or better for prescribed and additional courses in the major and for each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(0-4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

## Psychology

*Penn State Erie, The Behrend College (PSHBS)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Psychology program at Penn State Behrend provides students a strong foundation in the application of psychological knowledge, skills and techniques for the solution and prevention of individual and social problems. A spectrum of courses (bio-behavioral, clinical, cognitive-experimental, developmental, educational, human factors, industrial/organizational, personality, and social) is united by a strong focus on the scientific method. All students are afforded the opportunity to participate in internships and research assistantships throughout their training. Bachelor-level graduates in psychology are equipped for various positions in human service agencies, businesses, industries, and laboratories. Those not joining the workforce following graduation most often continue their training, working towards a master's or doctoral degree in psychology; others go on to other disciplines, e.g., medical or law school. Courses within this degree can also be used to develop a specialty in areas such as criminal justice, sociology or international studies.

The Bachelor of Science degree offers three multidisciplinary options. The Science option is intended for students with a strong interest in science and requires more course work in the biological, physical, social, and mathematical sciences than does the Bachelor of Arts program. The Psychology in the Workplace option is designed for students who wish to combine their interests in business and psychology. The Human Factors and Design option combines perspectives within the fields of psychology and engineering in order to design products that maximize human functioning.

The Bachelor of Science degree helps to prepare students for future careers in clinical developmental, educational, human factors, industrial organization, and other related health fields.

For the B.S. degree in Psychology, a minimum of 120 credits is required. Each student must earn a grade of C or better for prescribed and additional courses in the major and for each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Psychological and Social Sciences

Abington College (PSSBA)

PROFESSOR DAVID RUTH, *Head, Division of Social Sciences*

Building on the interdisciplinary and cross-disciplinary strengths of Penn State Abington, the Psychological and Social Sciences B.A. is designed to respond to the demand for a program emphasizing the social and behavioral sciences leading to an understanding of human behavior and its influence upon society as well as the influence of social forces on individuals. The program is distinguished by its interdisciplinary and cross-disciplinary course work and required field experience. The B.A. provides a broad theoretical foundation in social and psychological theory as well as the opportunity to engage in supervised field experience. The major offers students a choice of course clusters focused on specialized areas such as social psychology, developmental studies, organizational behavior and leadership, bio-behavior and diversity, and counseling. The major is designed to prepare students for a variety of career fields including human resources, business administration, mental health, and social work as well as for continued study in graduate or professional school.

For the B. A. degree in Psychological and Social Sciences, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**ELECTIVES:** 5-6 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 46-47 credits [\[1\]](#)

**PRESCRIBED COURSES** (10 credits)

PSYCH 100 GS(3) (Sem: 1-2)

ANTH 045 GS:US:IL(3) (Sem: 1-4)

PSYCH 200 GQ(4) (Sem: 3-4)

**ADDITIONAL COURSES** (15-16 credits)

SOC 001 GS(3) or SOC 005 GS(3) (Sem: 1-4)

HD FS 129 GS(3) or PSYCH 212 GS(3) (Sem: 1-4)

HD FS 312W(3) or PSYCH 301W(4) (Sem: 3-4)

BB H 301(3) or HD FS 301(3) (Sem: 3-6)

Select 3 credits of ANTH 495(1-18), HD FS 495C(3-8), PSYCH 495(1-15), or SOC 495(1-18) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

(At least 15 credits must be at the 400-level)

Select 6-15 credits from the following HD FS and PSYCH courses:

HD FS 229 GS(3), HD FS 239 GS(3), HD FS 249 GS(3), HD FS 250 US(3), HD FS 315 US(3), HD FS 432(3), HD FS 433(3), HD FS 445(3), HD FS 468(3), PSYCH 221 GS(3), PSYCH 281 GS(3), PSYCH 407(3), PSYCH 412(3), PSYCH 415(3), PSYCH 416(3), PSYCH 420(3), PSYCH 422(3), PSYCH 423(3), PSYCH 424(3), PSYCH 426(3), PSYCH 438(3), PSYCH 441(3), PSYCH 470(3), PSYCH 478(3), PSYCH 479 US(3), PSYCH 481(3), PSYCH 484(3), PSYCH 485(3), PSYCH 496B(3), PSYCH 497(1-9) (Sem: 5-8)

Select 6-15 credits from the following SOC and ANTH courses:

ANTH 002 GS(3), ANTH 011 GS:IL(3), ANTH 022 GN(3), ANTH 040(3), ANTH 146 GS:US(3), ANTH 197(1-9), ANTH 199 IL(1-12), ANTH 216 GN:GS(3), ANTH 321W(3), ANTH 380(3), ANTH 395(1-18), ANTH 448(3), ANTH 464(3), SOC 003 GS(3), SOC 030 GS(3), SOC 035(3), SOC 103 US(3), SOC 109(3), SOC 110 GS:US(3), SOC 309(3), SOC 403(3), SOC 405(3), SOC 406(3), SOC 409 US(3), SOC 416 US(3), SOC 429(3), SOC 430(3), SOC 455(3), SOC 456(3), SOC 462(3), SOC 471(3), SOC 497(1-9) (Sem: 5-8)

Select 0-9 credits from the following other social sciences courses:

BB H 302 US(3), BB H 315 US(3), CAS 352(3), CAS 415(3), CAS 455 US(3), CN ED 404(3), CN ED 407(3), COMM 100 GS(3), COMM 120(3), COMM 411(3), EDPSY 014(3), WMNST 471 US(3) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Psychological and Social Sciences

Abington College (PSSBS)

PROFESSOR DAVID RUTH, *Head, Division of Social Sciences*

Building on the interdisciplinary and cross-disciplinary strengths of Penn State Abington, the Psychological and Social Sciences B.S. is designed to respond to the demand for a program emphasizing the social and behavioral sciences leading to an understanding of human behavior and its influence upon society as well as the influence of social forces on individuals. The program is distinguished by its interdisciplinary and cross-disciplinary course work and required field experience. The degree program offers students a choice of course clusters focused on specialized areas such as social psychology, developmental studies, organizational behavior and leadership, bio-behavior and diversity, and counseling. The B.S. provides a broad theoretical foundation in social and psychological theory as well as the opportunity to engage in supervised field experience. In addition, the B.S. degree emphasizes quantitative research skills and requires the completion of a senior thesis. The major is designed to prepare students for a variety of career fields including human resources, business administration, mental health, and social work as well as for continued study in graduate or professional school.

For the B.S. degree in Psychological and Social Sciences, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(7-8 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 12-17 credits

**REQUIREMENTS FOR THE MAJOR:** 66-70 credits<sup>[1]</sup>

(This includes 7-8 credits of General Education courses: 3-4 credits of GN courses; 4 credits of GQ courses.)

**PRESCRIBED COURSES** (17 credits)

MATH 110 GQ(4), PSYCH 100 GS(3) (Sem: 1-2)

ANTH 045 GS:US:IL(3) (Sem: 1-4)

PSYCH 200 GQ(4) (Sem: 3-4)

SOC 471(3) (Sem: 7-8)

**ADDITIONAL COURSES** (29 credits)

BIOL 110 GN(4) or BIOL 141 GN(3) and BIOL 142(1) (Sem: 1-4)

SOC 001 GS(3) or SOC 005 GS(3) (Sem: 1-4)

HD FS 129 GS(3) or PSYCH 212 GS(3) (Sem: 1-4)

PSYCH 301W(4) or HD FS 312W(3) (Sem: 3-4)

BB H 301(3) or HD FS 301(3) (Sem: 3-6)

CAS 352(3) or CAS 455 US(3) (Sem: 5-8)

Select 3 credits of ANTH 495(1-18), HD FS 495C(3-8), PSYCH 495(1-15), or SOC 495(1-18) (Sem: 7-8)

Select 3 credits of ANTH 494(1-12), HD FS 494(1-12), PSYCH 494(3-6), or SOC 494(1-12) (Sem: 7)

Select 4 credits of ANTH 494(1-12), HD FS 494(1-12), PSYCH 494(3-6), or SOC 494(1-12) (Sem: 8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

(at least 12 credits must be at the 400 level)

Select 6-15 credits from the following HD FS and PSYCH courses:

HD FS 229 GS(3), HD FS 239 GS(3), HD FS 249 GS(3), HD FS 250 US(3), HD FS 315 US(3), HD FS 432(3), HD FS 433(3), HD FS 445(3), HD FS 468(3), PSYCH 221 GS(3), PSYCH 281 GS(3), PSYCH 407(3), PSYCH 412(3), PSYCH 415(3), PSYCH 416(3), PSYCH 420(3), PSYCH 422(3), PSYCH 423(3), PSYCH 424(3), PSYCH 426(3), PSYCH 438(3), PSYCH 441(3), PSYCH 470(3), PSYCH 478(3), PSYCH 479 US(3), PSYCH 481(3), PSYCH 484(3), PSYCH 485(3), PSYCH 496B(3), PSYCH 497(1-9) (Sem: 5-8)

Select 6-15 credits from the following SOC and ANTH courses:

ANTH 002 GS(3), ANTH 011 GS:IL(3), ANTH 022 GN(3), ANTH 040(3), ANTH 146 GS:US(3), ANTH 197(1-9), ANTH 199 IL(1-12), ANTH 216 GN:GS(3), ANTH 321W(3), ANTH 380(3), ANTH 395(1-18), ANTH 448(3), ANTH 464(3), SOC 003 GS(3), SOC 030 GS(3), SOC 035(3), SOC 103 US(3), SOC 109(3), SOC 110 GS:US(3), SOC 309(3), SOC 403(3), SOC 405(3), SOC 406(3), SOC 409 US(3), SOC 416 US(3), SOC 429(3), SOC 430(3), SOC 455(3), SOC 456(3), SOC 462(3), SOC 471(3), SOC 497(1-9) (Sem: 5-8)

Select 0-9 credits from the following other social sciences courses:

BB H 302 US(3), BB H 315 US(3), CAS 352(3), CAS 415(3), CAS 455 US(3), CN ED 404(3), CN ED 407(3), COMM 100 GS(3), COMM 120(3), COMM 411(3), EDPSY 014(3), WMNST 471 US(3) (Sem: 5-8)

## Psychology

University Park, College of the Liberal Arts (PSYBA)  
World Campus

PROFESSOR MELVIN MARK, *Head*

This major is designed for students who want to learn about behavior, normal and abnormal, how it is studied, and its relation to applied areas. Students are encouraged to conduct research with members of the faculty and/or take a practicum in an applied setting. Graduates are equipped for various positions in human service agencies, industrial settings, or laboratories. Others go on to professional school, e.g., medical school, law school, or to continue their training in psychology working toward a master's or a doctoral degree. Majors may elect either a Bachelor of Arts or a Bachelor of Science program.

In order to be eligible for entrance to the PSYBA major, a student at any location must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed PSYCH 100 GS(3) with a grade of C or better; 3) completed STAT 200 GQ(4) or PSYCH 200 GQ(4), at least 3 credits of GQ courses (not including STAT 200), and at least 3 credits of GS courses (not including PSYCH 100) with a grade of C or better.

For the B.A. degree in Psychology, a minimum of 123 credits is required

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 13 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 47 credits<sup>[1]</sup>

(This includes 6 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (13 credits)

PSYCH 100 GS(3) (Sem: 1-4)

PSYCH 105(3) (Sem: 2-5)

PSYCH 301W(4) (Sem: 3-6)

PSYCH 490(3) (Sem: 7-8)

**ADDITIONAL COURSES** (34 credits)

Select 6 credits of GQ courses (Sem: 1-4)

PSYCH 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)

Select 12 credits of 200-level PSY courses (not to include PSYCH 294, PSYCH 296, or PSYCH 297). At least 3 credits must be from each group a, b, and c:

a. PSYCH 253 GS(3), PSYCH 256 GS(3), PSYCH 260(3), PSYCH 261 GS(3) (Sem: 3-8)

b. PSYCH 212 GS(3), PSYCH 221 GS(3), PSYCH 231 GS;US(3), PSYCH 238 GS(3) (Sem: 3-8)

c. PSYCH 243 GS(3), PSYCH 269(3), PSYCH 270(3), PSYCH 281 GS(3) (Sem: 3-8)

Select 12 credits of PSY courses at the 400 level (not to include PSYCH 490, and including no more than 3 credits of PSYCH 493, PSYCH 494, PSYCH 495, or PSYCH 496) (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Psychology

University Park, College of the Liberal Arts (PSYBS)  
World Campus

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR MELVIN MARK, *Head*

This major is designed for students who want to learn about behavior, normal and abnormal, how it is studied, and its relation to applied areas. Students are encouraged to conduct research with members of the faculty and/or take a practicum in an applied setting. Graduates are equipped for various positions in human service agencies, industrial settings, or laboratories. Others go on to professional school, e.g., medical school, law school, or to continue their training in psychology working toward a master's or a doctoral degree. Majors may elect either a Bachelor of Arts or a Bachelor of Science program.

The B.S. degree program requires more course work in the sciences than the B.A. program, and students may select courses from one of four areas--mathematics/computer science, statistics, business, or biology--which may be taken instead of a foreign language.

In order to be eligible for entrance to the PSYBS major, a student at any location must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed PSYCH 100 GS(3) with a grade of C or better; 3) completed STAT 200 GQ(4) or PSYCH 200 GQ(4), at least 3 credits of GQ courses (not including STAT 200), and at least 3 credits of GS courses (not including PSYCH 100) with a grade of C or better.

For the B.S. degree in Psychology, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(9 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 10-13 credits

**REQUIREMENTS FOR THE MAJOR:** 74-77 credits<sup>[1]</sup>  
(This includes 9 credits of General Education courses: 3 credits of GWS courses and 6 credits of GQ courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 50 credits

**PRESCRIBED COURSES** (16 credits)  
PSYCH 100 GS(3) (Sem: 1-4)  
PSYCH 105(3) (Sem: 2-5)  
ENGL 202A GWS(3) (Sem: 3-4)  
PSYCH 301W(4) (Sem: 3-6)  
PSYCH 490(3) (Sem: 7-8)

**ADDITIONAL COURSES** (34 credits)  
Select 6 credits of GQ courses (Sem: 1-4)  
PSYCH 200 GQ(4) or STAT 200 GQ(4) (Sem: 3-4)  
Select 12 credits of 200-level PSY courses (not to include PSYCH 294, PSYCH 296, or PSYCH 297). At least 3 credits must be from each group a, b, and c:  
a. PSYCH 253 GS(3), PSYCH 256 GS(3), PSYCH 260(3), PSYCH 261 GS(3) (Sem: 3-8)  
b. PSYCH 212 GS(3), PSYCH 221 GS(3), PSYCH 231 GS:US(3), PSYCH 238 GS(3) (Sem: 3-8)  
c. PSYCH 243 GS(3), PSYCH 269(3), PSYCH 270(3), PSYCH 281 GS(3) (Sem: 3-8)  
Select 12 credits of PSYCH courses at the 400 level (not including PSYCH 490, and including no more than 3 credits of PSYCH 493, PSYCH 494, PSYCH 495, or PSYCH 496) (Sem: 3-8)

**REQUIREMENTS FOR THE OPTION:** 24-27 credits

**LIFE SCIENCES OPTION:** (24 credits)

**ADDITIONAL COURSES** (15 credits)  
Select 15 credits from groups a, b, c, and d, including at least 3 credits from each of three different groups:  
--a. Genetics: ANTH 218 GN(4), ANTH 460(3), ANTH 473(3), ANTH 473W(3); BIOL 133 GN(3) or BIOL 222(3) (Sem: 3-6)  
--b. Biological Anthropology: ANTH 021 GN(3), ANTH 022 GN(3), ANTH 040(3), ANTH 401(3), BB H 410(3), H P A 310(3), NUTR 251(3) (Sem: 3-6)  
--c. Biobehavioral Implications: Any BB H course, except BB H 310(3); HD FS 417(3), HD FS 468(3), RHS 100(3), RHS 300(3), RHS 403(3) (Sem: 3-6)  
--d. Biology and Chemistry: BIOL 110 GN(4), BIOL 141 GN(3), BIOL 155 GN(3), BIOL 177 GN(3), CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)  
Select 3 credits in natural sciences from department list (Sem: 1-8)  
Select 6 credits in social and behavioral sciences from department list (Sem: 1-8)

**BUSINESS OPTION:** (24 credits)

**ADDITIONAL COURSES** (15 credits)  
Select 15 credits from at least three different groups. Three (3) credits in any category can be replaced by internship (L A 495), but internship credits alone cannot be used to complete a category.

1.
  - a. ECON 102 GS(3), ECON 104 GS(3), ECON 014 GS(3), ECON 302 GS(3) or higher-numbered ECON course; PHIL 420(3), PL SC 412(3), PL SC 444(3), PL SC 481(3), PL SC 490(3) (Sem: 3-6)
  - b. B A 301(3), FIN 301(3) or any higher-numbered FIN course (Sem: 3-6)
  - c. B A 303(3), MKTG 301(3) or any higher-numbered MKTG course (Sem: 3-6)
  - d. ACCTG 211(4) (Sem: 3-6)
2.
  - a. Management: H P A 057(3), H P A 101(3), H P A 301(3) or any higher-numbered H P A course, B A 304(3), MGMT 301(3) or any higher-numbered MGMT course (Sem: 3-6)
  - b. Law and ethics: B A 302(3), B LAW 243(3), LER 460(3), PHIL 119 GH(3), PHIL 406(3), PHIL /S T S 407(3), PHIL 418(3), PHIL /S T S 432(3), SCM 301(3) (Sem: 3-6)
  - c. Labor relations: LER 100 GS(3), any LER 400 or higher (Sem: 3-6)
  - d. Communication: CAS 352(3), CAS 450W(3), CAS 452(3), ENGL 419(3), ENGL 460(3), ENGL 479(3), LER 464(3) (Sem: 3-6)

3.  
 a. Global view: ANTH 451(3), ANTH 455(3), GEOG 424(3), GEOG 439(3), H P A 401(3), I B 303(3), PL SC 487(3), PL SC 441(3) (Sem: 3-6)  
 b. Gender and race: AF AM/LER/PL SC 445Y(3), SOC 455(3), SOC /WMNST 456(3), CED/WMNST 420(3), SOC/WMNST 456(3), LER/WMNST 472(3) (Sem: 3-6)  
 c. History: HIST 423 IL(3), HIST 425 IL(3), HIST/LER 458Y US(3) (Sem: 3-6)  
 d. Technology: IST 110(3)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits in arts/humanities from department list (Sem: 1-8)

Select 3 credits in natural sciences from department list (Sem: 1-8)

Select 3 credits in social and behavioral sciences from department list (Sem: 1-8)

**NEUROSCIENCE OPTION:** (24-27 credits)**ADDITIONAL COURSES** (15-18 credits)

PSYCH 260(3) (also counts in category a of COMMON REQUIREMENTS FOR THE MAJOR) (Sem: 3-6)

Select 15 credits from groups a, b, c, d, and e, including at least 3 credits from each of four different groups:

--a. Genetics: BIOL 133 GN(3), BIOL 110 GN(4), or BIOL 222(3) (Sem: 3-6)

--b. Physiology: BIOL 141 GN(3) or BIOL 472(3) (Sem: 3-6)

--c. Organic Chemistry: CHEM 202(3), CHEM 210(3), or CHEM 212(3) (Sem: 3-6)

--d. Cell Biology: BIOL 230W GN(4), BIOL 469(3), MICRB 106 GN(3), MICRB 201(3), MICRB 251(3) (Sem: 3-6)

--e. Other Topics: BIOL 240W GN(4), BIOL 177 GN(3), BIOL 409(3), BB H 470(3) (Sem: 3-6)

**NOTE:** Students planning to apply to medical school should select this option and choose courses to meet the following minimal requirements for most medical schools: BIOL 110 GN(4) and BIOL 230W GN(4) or BIOL 240W GN(4); CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(4), CHEM 113 GN(1), CHEM 210(3), CHEM 212(3), and CHEM 213(2); PHYS 211 GN(4) and PHYS 212 GN(4), or PHYS 250 GN(4) and PHYS 251 GN(4).

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 6 credits in natural sciences from department list (Sem: 1-8)

Select 3 credits in social and behavioral sciences from department list (Sem: 1-8)

**QUANTITATIVE SKILLS OPTION:** (24 credits)**ADDITIONAL COURSES** (15 credits)

Select a total of 15 credits from groups a, b, c, and d:

--a. Select at least 3 credits from MATH 018 GQ(3), MATH 110 GQ(4), MATH 111 GQ(2), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 3-6)

--b. (Optional) Select 3 credits from CMPSC 101 GQ(3), CMPSC 121 GQ(3), CMPSC 201 GQ(3), CMPSC 202 GQ(3), CMPSC 203 GQ(4) (*NOTE: Students may take only one of the courses in category b for credit.*) (Sem: 3-6)--c.1. Select 3 credits from STAT 318(3), STAT 414(3), STAT 418(3) (*NOTE: Students may take only one of the courses in category c.1. for credit.*) (Sem: 5-6)

--c.2. Select at least 3 credits from STAT 319(3), STAT 415(3), STAT 416(3), STAT 460(3), STAT 462(3), STAT 464(3) (Sem: 5-6)

--d. CAS 483(3), CMPSC 122(3), PSYCH 404(3), PSYCH 405(3) (Sem: 3-6)

**NOTE:** Students may fulfill the requirements of the Quantitative Skills option by completing a minor in either Statistics or Computer Science and Engineering in lieu of the course requirements listed above. Students choosing this option are encouraged to consult with an adviser designated by the Department of Psychology to determine the suitability of particular courses given their quantitative backgrounds. Other courses with advanced quantitative content may be substituted in category d with adviser's approval.

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits in arts/humanities from department list (Sem: 1-8)

Select 6 credits in natural sciences from department list (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Psychology

Capital College (PSYC)  
University College: Penn State Schuylkill

COBI MICHAEL, Program Coordinator, School of Behavioral Science and Education

The Psychology major emphasizes the scientific study of human behavior in areas such as cognition, development, learning, physiology, personality, and social processes. The curriculum is designed to provide students with a broad background in psychological theory and research and to develop the analytical and critical thinking skills necessary to be good consumers of scientific information.

The Psychology program exposes students to a number of areas of psychology but allows flexibility in the specific courses that are taken in each sub-area. Students are also required to obtain applied experience by completing an internship or by assisting faculty with their research. Elective credits can be used for additional internship or research experience.

The Psychology program prepares students for careers in local, state, and federal government and for entry-level psychological services positions in human service, applied behavior, human resources, and related fields. The Psychology program also provides a strong background for graduate education at both the master's and the doctoral level in counseling, social work, and many areas of psychology.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor's and master's degree in five years. Psychology undergraduates may apply for admission to the IUG program in Applied Research Psychology by no later than February 15th the spring of their junior year after completing a minimum of 45 credits, if they meet the following admission requirements:

1. Grade point average of 3.50 or above cumulative.
2. Completion of undergraduate statistics and an undergraduate research course with an A- or above in both.
3. Completing 18 credits or more in psychology with a psychology GPA of 3.67 or above.
4. Typical successful candidates will obtain GRE scores of 146 or above on both the verbal and quantitative sections, with an analytical score of 3.5 or above.
5. Complete interviews with graduate faculty member.
6. Provide three professional letters of recommendation with at least two from academic references.

For a B.S. degree in Psychology, a minimum of 122 credits is required. Students admitted to the IUG program may apply 11 credits to their graduate and undergraduate degrees in psychology.

### Entry to Major Requirements:

Entry to the Psychology major requires a 2.00 cumulative grade-point average and an average of C (2.00) or better in any courses already taken in the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education Course Requirements in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES :

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 9 credits

### REQUIREMENTS FOR THE MAJOR: 74 credits

(This includes 6 credits of General Education courses: 3 credits of GWS courses; 3 credits of GN courses.)

### PRESCRIBED COURSES (10 credits)[\[1\]](#)

ENGL 202A GWS(3), PSYCH 100 GS(3) (Sem: 1-4)

PSYCH 301W(4) (Sem: 4-5)

### ADDITIONAL COURSES (46 credits)[\[1\]](#)

Select BI SC 004 GN(3) or BIOL 141 GN(3) (Sem: 1-4)

(At least 15 credits of the following courses must be at the 400 level.)

#### Select 4 credits from: (Sem: 3-4)

Category 1 (Statistics) PSYCH 200 GQ(4) or STAT 200 GQ(4)

#### Select 6 credits from two different developmental categories (3 credits each category): (Sem: 2-8)

Category 2a (Lifespan) PSYCH 212 GS(3)

Category 2b (Adult) PSYCH 416(3)

Category 2c (Child) PSYCH 410(3)

Category 2d (Adolescence) PSYCH 412(3)

#### Select 6 credits from two different individual difference categories (3 credits each category) (Sem: 2-8)

Category 3a (Social Psychology) PSYCH 221 GS(3) or PSYCH 420(3)

Category 3b (Personality Psychology) PSYCH 238 GS(3) or PSYCH 438(3)

Category 3c (Personal Adjustment) PSYCH 243 GS(3) or PSYCH 471(3)

Category 3d (Health Psychology) PSYCH 441(3)

#### Select 6 credits from two different clinical categories (3 credits each category) (Sem: 5-8)

Category 4a (Physical Disabilities) PSYCH 370 US(3)

Category 4b (Childhood Disorders) PSYCH 476(3)

Category 4c (Abnormal Psychology) PSYCH 270(3) or PSYCH 470(3)

Category 4d (Behavior Modification) PSYCH 473(3)

Category 4e (Developmental Disabilities) PSYCH 443

#### Select 6 credits from two different experimental categories (3 credits each category) (Sem: 5-8)

Category 5a (Physiological Psychology) PSYCH 260(3) or PSYCH 462(3)

Category 5b (Cognitive Psychology) PSYCH 256 GS(3) or PSYCH 452 or PSYCH 456(3)

Category 5c (Learning Theory) PSYCH 261 GS(3) or PSYCH 461(3)

#### Select 3 credits from applications in psychology (Sem: 5-8)

Category 6 (Applied Experience) PSYCH 395(1-18) or PSYC 494(1-12)

Select 12 credits of any PSYCH courses not used above, with the exception that only one course selected from any Category 1 through 5 will count for the major (Sem: 2-8)

Students in the IUG program will take 11 credits of graduate work in their senior year, courses PSYC 500(3), PSYC 520(4) and PSYC 521(4). These 11 credits will apply to the graduate program and the undergraduate PSYCH elective undergraduate requirement.

### SUPPORTING COURSES AND RELATED AREAS (18 credits)

Select 6 credits from AAA S, AM ST, ARAB, ART, ART H, BRASS, C ART, C MUS, CAMS, CAS, CHNS, CMLIT, COMM, DANCE, ELISH, ENGL, ENLSH, FR, GER, GREEK, HCOMM, HEBR, HIST, HUM, I HUM, INART, IT, J ST, JAPNS, KOR, LATIN, LING, LIT, MEDVL, MUSIC, PHIL, PHILO, PHLOS, PORT, RL ST, RUS, SP ST, SPAN, S T S, THEA, THTRE, WMNST 106 GH:US:IL(3), WMNST 101 GH:US(3), WMNST 102 GH:IL(3), WMNST 104 GH:US(3), WMNST 117 GH:US:IL(3), WMNST 130 IL(3), WMNST 137 GH:US:IL(3), WMNST 194 GH:US:IL(3), WMNST 205 US(3), WMNST 270(3), WMNST 407 US(3), WMNST 410(3), WMNST 419 US:IL(3), WMNST 421 IL(3), WMNST 430 US(3), WMNST 438(3), WMNST 455 US(3), WMNST 457 US:IL(3), WMNST 462 US(3), WMNST 466 US:IL(3), WMNST 489(3), WMNST 490 US:IL(3), WMNST 491(3) (Sem: 1-8)

**Select 12 credits** from AAA S, AFRAS, ANTH, BE SC (except BE SC 302), CRIMJ, ECON, HCM, HD FS, PL SC, PUBPL, R SOC, SCLSC, SO SC, SOC, WMNST 100 GS;US;IL(3), WMNST 103 US(3), WMNST 110 GS;US(3), WMNST 116 GS;US;IL(3), WMNST 136 US(3), WMNST 202 GS;IL(3), WMNST 250 US(3), WMNST 423 US(3), WMNST 424 US(3), WMNST 426Y US;IL(3), WMNST 428 US;IL(3), WMNST 432 US(3), WMNST 452(3), WMNST 453 US(3), WMNST 456(3), WMNST 464 US(3), WMNST 471 US(3), WMNST 476W(3) (Sem: 1-8)

#### **Integrated B.S./M.A. in Applied Psychological Research**

The Applied Research Psychology Program offers an integrated B.S./M.A. (IUG) program designed to allow academically superior psychology undergraduates to obtain both the bachelor's and M.A. degree within five years of study. The first three years of undergraduate coursework are the same as other psychology undergraduates, but the interested students apply for the IUG program in the spring of their junior year of study. If admitted to the IUG, the fourth year of study includes the graduate courses Ethics and Professional Practice in Psychology and Counseling (PSYC 500), Research Methods (PSYC 521) in the fall and Statistics (PSYC 521) in the spring. The IUG students then complete the remaining master's degree requirements in the fifth year, including the master's paper (PSYC 530). The integrated B.S./M.A. degree in Psychology meets the needs of the most academically talented students in the Psychology undergraduate major. A large proportion of the most academically talented students apply or wish to apply to graduate schools during their final year of undergraduate studies or soon after graduation. These students can benefit from the integrated degree because it provides a more challenging curriculum that allows them to accelerate their program of study to possibly receive an undergraduate and graduate degree within 5 years of study. Additionally, the integrated program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research and clinical experience leading to both the Bachelor and Master's degree.

For the IUG in Applied Psychological Research, a minimum of 122 credits are required for the bachelor's degree and 35 credits for the M.A. degree. The graduate credits for PSYC 500, 521 and 520 (11 total credits) can apply to both the M.A. degree and as psychology electives for the bachelor's degree.

The objectives of the Integrated Undergraduate Graduate Program in Applied Research Psychology include:

1. To offer highly qualified students the opportunity to earn two degrees in five years. In particular, IUG students may count up to 12 credits towards both their B.S. and M.A. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.
6. To allow students to coordinate as well as concurrently pursue the two degree programs, which enables them to achieve greater depth and comprehension than if the degrees are pursued sequentially.

#### **Admission Requirements**

To initiate the application process, students must submit an *Integrated Undergraduate-Graduate (IUG) Degree in Applied Research Psychology Application Form*, a transcript, and three letters of recommendation, with at least two from faculty members. A graduate faculty adviser will help undergraduate candidates determine a sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Psychology undergraduates may apply for admission by no later than February 15th the spring of their junior year after completing a minimum of 45 credits, if they meet the following admission requirements:

1. Grade point average of 3.50 or above cumulative.
2. Completion of undergraduate statistics and an undergraduate research course with an A- (3.67) or above in both.
3. Completing 18 credits or more in psychology with a psychology GPA of 3.67 or above.
4. GRE scores are required for the IUG program. Typical successful candidates will obtain GRE scores of 146 or above on both the verbal and quantitative sections, with an analytical score of 3.5 or above.
5. Complete interviews with graduate faculty members.
6. Provide three professional letters of recommendation with at least two from academic references.

These admission standards are high, as it thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting psychology majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted to the integrated program of study can apply for regular admission when they complete their program of study. These materials must be completed by the spring of the junior year to allow admission into the IUG program the following fall.

#### **Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses**

Year	Fall (Senior UG)	Spring (Senior UG)	Summer
<b>Year 1 (Senior Undergraduate Year) (11-14 graduate credits)</b>	PSYC 520 Research Methods (4)*	PSYC 521 Statistics (4)*	PSYC 594 (3) if elected
<b>Year 2 (21-24 graduate credits)</b>	PSYC 500 Ethics and Professional Practice in Psychology and Counseling (3)*	PSYC 524 Biological Bases (3)	Research or Elective (3)
	PSYC 501 Cultural Competency in Psychology (3)	PSYC 502 Applied Social Psychology (3)	PSYC 530 Master's Paper (1-3)
	PSYC 594 Research (3) Elective (3)	PSYC 530 Master's Paper (3)	

\* Applied to both undergraduate and graduate degree for a total of 11 credits.

If for any reason a student admitted to the B.S./M.A. program is unable to complete the requirement for the Master of Arts degree program in American Studies, the student will be permitted to receive the Bachelor's degree assuming all degree requirements have been satisfactorily completed.

As stated in the Graduate Bulletin, a minimum grade-point average of 3.00 for work done at the University is required for graduation and to maintain good academic standing. See [http://bulletins.psu.edu/bulletins/whitebook/degree\\_requirements.cfm?section=masters](http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=masters)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Public Policy

*Capital College (PUBPL): Penn State Harrisburg*

PROFESSOR STEVEN A. PETERSON, *Interim Program Coordinator, School of Public Affairs*

The Public Policy major is designed for students interested in policy issues, politics, public administration, and related areas like policy analysis and policy advocacy. The program explores a myriad of critical issues facing our communities, the nation, and the world. Students receive the educational foundation for careers in the public sector, in government-related businesses, and in non-profit organizations, as well as for graduate work in the fields of law, public administration, criminal justice, public policy, political science, and health care administration. Building on the program core, students may choose electives from a broad array of courses in public policy and other areas. Students may wish but are not required to pursue a concentration within the Public Policy major. The following concentrations are available: U.S. Public Policy; Law and Justice; and International Policy. Students should consult their adviser for a complete listing of courses in each of these concentrations. Overall, the Public Policy program seeks to advance the ideals of an active, informed citizenry and a commitment to public service.

Our proximity to the state capital at Harrisburg provides students with a rich environment for both study and for internships. In addition to our full-time faculty, Public Policy draws on part-time faculty with particular professional strengths. In recent years students have explored politics and political issues in classes taught by a state senator, a former lieutenant governor, a corrections system administrator, and a governor's press secretary. This integration of academic study with the "real world" of Pennsylvania politics and policy making is further enhanced through quality internships. The Public Policy program prides itself in placing qualified students in internships that facilitate the development of professional skills and promote the prospects for professional employment following graduation. Internship options include the Harrisburg Semester: Public Service Leadership Internships (PSLI). (For more information, see [www.hbg.psu.edu/hbg/hburgsem](http://www.hbg.psu.edu/hbg/hburgsem).) Students are encouraged to complete an internship during their senior year. Additional information regarding internships may be obtained by contacting the Public Policy Internship Coordinator.

### Admission Requirements for Transfer Students:

Transfer students must have a 2.00 or higher cumulative grade-point average. The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg.

### Entry to Major Requirements:

Entry to the Public Policy major requires a 2.00 or higher cumulative grade-point average and an average of C (2.00) or better in any course already taken in the major.

For a B.S. degree in Public Policy, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 16 credits

### REQUIREMENTS FOR THE MAJOR: 65 credits

(This includes 6 credits of General Education GS courses.)  
(At least 15 credits must be at the 400 level.)

### PRESCRIBED COURSES (15 credits) [\[1\]](#)

ECON 102 GS(3), ECON 104 GS(3), PL SC 001 GS(3), PL SC 309(3), PUBPL 304W(3) (Sem: 1-6)

### ADDITIONAL COURSES (18 credits)

Select 9 credits from the following: PL SC 300-499(3), PUBPL 241(3), PUBPL 300-499(3) (Sem: 1-8)

Select 6 credits from the following: PL SC 419(3), PL SC 425(3), PL SC 444(3), PL SC 488(3), PL SC 489(3), PUBPL 305(3) (Sem: 5-8)

Select 3 credits from the following: PUBPL 480(3), PUBPL 481(3), PUBPL 482(3), PUBPL 483(3), PUBPL 484(3), PUBPL 485(3), PUBPL 490(3) (Sem: 5-8)

### SUPPORTING COURSES AND RELATED AREAS (32 credits)

Select 12 credits from the following: ACCTG 200-499(3), AFRAS 300-499(3), AM ST 300-499(3), BE SC 300-499(3), COMMS 300-499(3), CRIMJ 300-499(3), ECON 300-499(3), ENVE 460(3), FIN 300-499(3), HIST 300-499(3), MGMT 300-499(3), MKTG 300-499(3), SCLSC 300-499(3), SO SC 300-499(3), SOC 300-499(3), SRA 211(3), WMNST 300-499(3) (Sem: 5-8)

Select 20 credits in consultation with an academic adviser and in support of the student's interests (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Professional Writing

*Berks College (PWRIT)*

The major is intended to prepare students to write effectively in a variety of workplace and academic settings. Methods of instruction draw upon the strategies and techniques of practicing writers outside of the University, including workshops, peer conferencing, collaborative writing, portfolio preparation, and internships. At the same time, theory courses provide the necessary background to help students understand and appreciate the larger issues surrounding the writing and reading of texts.

As a liberal arts degree, the Professional Writing major is appropriate for students who wish to develop a set of applied communication skills to prepare for a wide range of professional positions or for graduate or professional schools. The degree differs from most current English majors in at least three ways: 1) a practical orientation prepares graduates for employment, in addition to post-graduate English studies; 2) a multidisciplinary focus integrates courses from the liberal arts, business, and information technology; and 3) a required internship ensures that students actively apply their skills.

For the B.A. degree in Professional Writing, a minimum of 123 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

### FIRST-YEAR SEMINAR

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### BACHELOR OF ARTS DEGREE REQUIREMENTS: 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**ELECTIVES:** 15 credits

**REQUIREMENTS FOR THE MAJOR:** 39 credits [\[1\]](#)

### PRESCRIBED COURSES (15 credits)

ENGL 211W(3) (Sem: 3-4)

ENGL 417(3), ENGL 471(3), ENGL 491(3), ENGL 495(3) (Sem: 5-8)

### ADDITIONAL COURSES (24 credits)

#### Rhetorical Theory

Select 3 credits from the following:

ENGL 472(3), ENGL 473(3), ENGL 474(3) (Sem: 5-8)

#### Writing for Publication

Select 3 credits from the following:

COMM 260W(3), ENGL 215(3) (Sem: 5-8)

#### Workplace Writing

Select 3 credits from the following:

ENGL 418(3), ENGL 419(3)

#### Visual Design

Select 3 credits from the following:

ENGL 420(3), ENGL 480(3)

#### Advertising and Public Relations

Select 3 credits from the following:

COMM 320(3), COMM 370(3)

#### Creative Writing

Select 3 credits from the following:

ENGL 212(3), ENGL 213(3), ENGL 415(3)

#### Additional Writing Courses

Select 6 credits from the following

CAS 214W(3), COMM 260W(3), COMM 320(3), COMM 370(3), ENGL 110(3), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 250(3), ENGL 415(3), ENGL 416(3), ENGL 418(3), ENGL 419(3), ENGL 420(3), ENGL 421(3), ENGL 472(3), ENGL 473(3), ENGL 474(3), ENGL 480(3) (Sem: 3-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Rehabilitation and Human Services

*Penn State Abington (RHSAB)*

*Penn State Berks (RHSBL)*

*University College: Penn State Hazleton, Penn State Lehigh Valley, Penn State Wilkes-Barre (RHSCC)*

*University Park, College of Education (RHS)*

PROFESSOR JAMES HERBERT, *Undergraduate Program Coordinator*

This major helps prepare students for entry-level positions in a variety of human service settings, particularly settings that provide services to persons with physical, emotional, or mental disabilities. Graduates pursue employment in a variety of settings including rehabilitation centers, drug and alcohol programs, senior citizens centers, community mental health programs, mental retardation programs, corrections systems, and hospitals. Increasing opportunities are available in private for-profit insurance programs for the industrially injured, and in employee assistance programs within business and industry. Well-planned use of electives and internships allows for specialization. The full-semester (15-credit) internship is provided under the supervision of professionals in human service agencies. These intensive "hands-on" experiences are frequently avenues for employment since the internship is completed during the senior year. Students may not go on internship until they have successfully completed all other course work. Students are encouraged to participate in volunteer experiences that provide opportunities to work with people with disabilities. Students are encouraged to declare a minor in a related area and should be discussed with the student's adviser. The major also helps prepare students for graduate study in many human service professional disciplines such as rehabilitation counseling, school counseling, occupational therapy, physical therapy and social work.

Baccalaureate degree candidates must have a minimum 2.0 GPA to be admitted to the Rehabilitation and Human Services (RHS) major; thereafter, students must earn a C or better in all RHS required courses.

For the B.S. degree in Rehabilitation and Human Services, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12-14 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 17-20 credits

**REQUIREMENTS FOR THE MAJOR:** 70-72 credits

(This includes 12-14 credits of General Education courses: 6 credits of GS courses; 3-4 credits of GQ courses; 3-4 credits of GN courses.)

**PRESCRIBED COURSES** (55 credits)

PSYCH 100 GS(3), RHS 100 GS/US(3) (Sem: 1-4)

PSYCH 270(3), SOC 001 GS(3), SOC 119(4) (Sem: 1-6)

RHS 300(3)[1], RHS 301(3)[1], RHS 302(3)[1], RHS 303(3)[1], RHS 400W(3)[1], RHS 401(3)[1], RHS 402(3)[1], RHS 403(3)[1], RHS 495A(15) (Sem: 5-8)

**ADDITIONAL COURSES** (9-11 credits)

EDPSY 010 GS(3), HD FS 239 GS(3), or PSYCH 212 GS(3) (Sem: 1-2)

Select 3-4 credits from ANTH 021 GN(3), BI SC 001 GN(3), BI SC 002 GN(3), BI SC 004 GN(3), BIOL 133 GN(3), BIOL 110 GN(4), or BIOL 141 GN(3) (Sem: 1-6)

STAT 100 GQ(3) or STAT 200 GQ(4) or EDPSY 101 GQ(3) (Sem: 1-6)

**SUPPORTING AND RELATED COURSES** (6 credits)

Select 6 credits from CRIM, BB H, HD FS, KINES, PSYCH, or SOC (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better in this course, as specified in Senate Policy 82-44.

## Risk Management

University Park, Smeal College of Business (R M)

PROFESSOR Austin J. Jaffe, Chair, Department of Risk Management

The Risk Management major prepares students for careers in a wide range of private industries and public service agencies involving such areas as operations, property development, financial strategy, and government. The major is integrative in nature by crossing traditional business boundaries while offering specific areas of study in actuarial science, enterprise risk management, and real estate. High profile risks are faced by leaders and managers up and down the corporate ladder and require specialized skills, knowledge and preparation. The Risk Management major prepares students for this along with a chance to study risk from three different perspectives by offering specialty courses along with a common pool of risk management courses. This structure assures that the students in the risk management major are equipped with the common tools of risk analysis while at the same time permitting the students to tailor the specifics of their training through the selection of a particular option.

**ACTUARIAL SCIENCE OPTION:** The courses in the Actuarial Science option stress the application of mathematical and statistical concepts to the measurement of life and other contingencies, while at the same time giving the student a broad understanding of the business environment. Students in the Actuarial Science option are encouraged to begin the series of professional examinations leading to Associateship and Fellowship in either the Society of Actuaries (A.S.A./F.S.A.) or the Casualty Actuarial Society (A.C.A.S./F.C.A.S.).

**Entrance requirements to the Actuarial Science Option --** To be eligible for entrance into the Actuarial Science option, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy the following requirements for entrance:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3)[\[1\]](#); MATH 140 GQ(4)[\[1\]](#); MATH 141(4)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. A minimum cumulative grade point average of 3.20 prior to and through to the end of the semester during which the entrance to major process is carried out.

**ENTERPRISE RISK MANAGEMENT OPTION:** The Enterprise Risk Management Option prepares students to identify, quantify and qualify the regulatory, legal, financial and contractual aspects of enterprise risk; the management of such risks; and the application of risk financing techniques to control risk exposures in organizations. Emphasis is also placed on the understanding of the principles and risks underlying complex business contracts.

**Entrance requirements to the Enterprise Risk Management Option --**To be eligible for entrance into the Risk Management major and the Enterprise Risk Management Option, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy the following requirements for entrance:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3)[\[1\]](#); MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

**REAL ESTATE OPTION:** This option is designed to prepare the student for a wide range of professional opportunities in corporate real estate management, real estate brokerage, appraisal, property management, mortgage lending and banking, development, and governmental service.

**Entrance requirements to the Real Estate Option --**To be eligible for entrance into the Risk Management major and the General or Real Estate Options, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy the following requirements for entrance:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); ENGL 015 GWS(3) or ENGL 030 GWS(3); FIN 301(3)[\[1\]](#); MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Risk Management, a minimum of 120 credits is required (at least 15 credits must be taken at the 400 level).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of Bulletin.)

Blue Sheet Item #: 43-06-000

Review Date: 04/14/2015

## Recreation, Park, and Tourism Management

*University Park, College of Health and Human Development (RPTM)*

PROFESSOR PETER NEWMAN, *Head of the Department*

Through this program, students can prepare for supervisory and administrative positions in public or private agencies at the federal, state, and local levels. These include, but are not limited to, park systems, environmental centers, resorts, university intramural and sport club programs, event management businesses, recreation services for the armed forces, and therapeutic recreation programs in hospitals and health care facilities. Three options are offered: (1) Commercial and Community Recreation Management, (2) Golf Management, (3) Outdoor Recreation.

Students who have completed 28 credits with a 2.00 cumulative grade-point average are eligible for entrance into the major after filing a written application. First-year students are admitted directly into the Golf Management option at the University Park campus only. In addition to the University's academic requirements, each student admitted to the Golf Management option must have a playing proficiency represented by a minimum golf handicap of 12 or lower. This must be certified in writing by a PGA member or golf coach.

**COMMERCIAL AND COMMUNITY RECREATION MANAGEMENT OPTION:** This option focuses on management in the private/commercial, non-profit, and public sectors of recreation/leisure services. The private/commercial focus will be of interest to students seeking careers in a variety of commercial settings such as resorts; theme parks, convention centers; sports and fitness facilities, including arenas and stadiums; tourism promotion/planning agencies; and employee recreation departments within corporations. This focus will also appeal to students wishing to become entrepreneurs. For those interested in the community, public, or non-profit sectors, this option prepares students for positions within municipal, state, and federal government agencies; recreation divisions of the armed services; YMCA agencies; United Way agencies; scouting organizations; university-affiliated units such as student unions, intramural and alumni services; and other non-profit organizations.

**GOLF MANAGEMENT OPTION:** This option helps prepare students to manage golf facilities within the municipal, military, public, and private sectors. In addition to the core curriculum in Recreation, Park, and Tourism Management, this option includes a strong basic education in business coupled with course work in turf management and hospitality. Each student completes sixteen months of Co-op education under the supervision of a Class A member of the Professional Golfers' Association of America.

**OUTDOOR RECREATION OPTION:** This option helps prepare students for careers in environmental interpretation, adventure-based programming, or facilities and resource management. One track focuses upon natural and cultural history interpretation, including environmental education. Another track emphasizes adventure-based program leadership, including team-building facilitation. The third track focuses on the management of park and recreation facilities and resources. The outdoor recreation option would be of interest to students seeking employment in a variety of recreation and park venues (local, state, and national) offering outdoor activities to the public.

For the B.S. degree in Recreation, Park, and Tourism Management, a minimum of 120 credits is required.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. RPTM requires students to complete 24 credits for the major through courses taken at University Park. Courses taken at other Penn State campuses may not be counted toward this 24 credit minimum. For more information, check the Recommended Academic Plan for this major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(3-7 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

## Rail Transportation Engineering

Altoona College (RTEAL)

The Bachelor of Science in Rail Transportation Engineering (RTEAL) will provide students with the necessary skills for careers in the rail freight and passenger transportation industries. The RTEAL degree provides a solid background in engineering design, but also focuses on the maintenance and management skills required by the rail industry. The program provides a breadth of knowledge in the major areas associated with the design, operation, and maintenance of rail systems, including the engineering of rail and track structures, basic rail operating practices and safety, wheel/track dynamics, construction and maintenance of railroad infrastructure, and basic railroad communications and signals. Laboratories are used throughout the RTEAL curriculum to provide students with experiences in the field with actual rail equipment, and extensive team-based laboratory activities are used to develop the leadership qualities that are essential of rail professionals. In order to prepare students for the occupational challenges associated with careers in the rail industry, careful and candid discussions of career possibilities and working environments typical of railway professionals are provided throughout the RTEAL program.

### Entrance to Major Requirements:

All students applying for entrance to the RTEAL major must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), and PHYS 211 GN(4). These courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in Rail Transportation Engineering, a minimum of 130 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### GENERAL EDUCATION: 45 credits

## Russian

*University Park, College of the Liberal Arts (RUS)*

SENIOR LECTURER IRINA MIKAELIAN, *Director*

The B.A. in Russian provides the student with a command of spoken and written Russian and a general knowledge of the literature and culture of the Russian people. No previous study of Russian is required for admission to the major. Study in Russia under the University's Education Abroad Program is available for qualified students. Students are advised to combine their study of Russian with another foreign language, English, history, political science, the Russian Area Studies minor, the Business/Liberal Arts minor, or the Linguistics minor. Graduates of this program have found employment in international business, the U.S. government, in the educational and publishing fields, and in the travel industry.

For the B.A. degree in Russian, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

## Russian Translation

*University Park, College of the Liberal Arts (RUS T)*

SENIOR LECTURER IRINA MIKAELIAN, *Director*

This major is designed to offer, within the context of a liberal education, specialized skills in translation from the Russian language. The curriculum is career-oriented and requires competence in a field or fields in addition to the language skill. Students will select such a field or fields in accordance with their special interests and in consultation both with the adviser and with persons directly involved with the field chosen.

For the B.S. degree in Russian Translation, a minimum of 124 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

## Science

Abington College (SCIAB)  
 Altoona College (SCIAL)  
 Berks College (SCIBL)  
 Capital College (SCICA)  
 University College (SCICC): Penn State Worthington-Scranton, Penn State York  
 University Park, Eberly College of Science (SC BS)  
 Integrated Five-Year Science/Business M.B.A. Program (SCBUS)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR RONALD MARKLE, *in charge*

The Science major is an interdisciplinary degree that aims to provide a broad, general education in science. The bachelor of science (B.S.) curriculum is designed specifically for students who have education goals relating to scientific theory and practice and who require a high degree of flexibility to obtain their educational objectives. After completing foundation courses in calculus, chemistry, physics, and the life sciences, students will select additional science courses from designated areas. A large number of supporting credits permit students to readily include significant breadth or specialization into their undergraduate curriculum. Some examples include minors in business, computer and information science, education, kinesiology, or other fields. The degree allows students throughout the Commonwealth to become familiar with both the theory and the practice of science. It can help prepare students for various careers in pharmaceutical, biotechnical, chemical, medical, and agricultural industries. The degree can also be tailored to meet the specific requirements of professional programs such as medical, dental, or pharmacy schools. The General Science option of the B.S. Science degree allows for the most flexibility. Achievement in a more specialized set of goals can be met by selecting one of the other B.S. options offered: the Biological Sciences and Health Professions option, the Legal Studies, Government Service, Public Policy option, the Life Sciences option, the Mathematical Sciences option, or the Physical Sciences option. Not all of these options are available at all locations, and there are minor distinctions of the core curriculum at some locations, so see the Science program director at your College for further details.

In order to be eligible for entrance to the Science major, a student at any location must have: 1) attained at least a 2.00 cumulative grade-point average; 2) completed MATH 140 GQ(4) with a grade of C or better; 3) completed at least two of the following courses, BIOL 110 GN(4); CHEM 110 GN(3); PHYS 211 GN(4) or PHYS 250 GN(4), with a grade of C or better.

For the B.S. degree in Science, a minimum of 124 credits is required, with at least 15 credits at the 400 level.

**TWO-YEAR PREPROFESSIONAL PREPARATION:** The first two years of the Science major (62 credits) can meet the pre professional needs of those interested in admission to some schools of pharmacy, physical therapy, optometry, nursing, and physician assistant training. Successful students can then transfer after two years of undergraduate study to the professional school to which they are admitted. Note, however, that no Penn State degree can be awarded after only two years (62 credits) of study in the Science major. Also, note that the abbreviated two-year curriculum alone does not prepare students for admission to professional schools of general medicine, veterinary medicine, or dental medicine. Consult with your college's health sciences professional adviser for additional information.

**ACCELERATED SCIENCE B.S./M.B.A. PROGRAM:** Students admitted to this special cooperative program between the Eberly College of Science and The Smeal College of Business will be able to combine a Bachelor of Science degree in the Science major, with a Master of Business Administration degree. Highly motivated students, who enter the University with a sufficient number and proper distribution of AP credits, will have the opportunity to complete the requirements for both programs within five years. The B.S. degree in the Science major General Science option, will be conferred upon satisfactory completion of:

1. A minimum of 112 acceptable undergraduate credits, which must include:

- (30 credits) The University's General Education requirements in the areas of Writing and Speaking (9), Health and Physical Activity (3), Arts (6), Humanities (6), and Social and Behavioral Sciences (6). (Note: Students will be required to take ECON 102 GS(3) and ECON 104 GS(3) in order to satisfy the Social and Behavioral Sciences requirement. The University's General Education requirements in the areas of Quantification and Natural Sciences will be satisfied by course work listed under heading "c".)
- The University's First-Year Seminar, United States Cultures, International Cultures, and Writing Across the Curriculum requirements. (Note: These requirements may be double counted in order to satisfy other requirements in the program.)
- (53-57 credits) BIOL 110 GN(4), CHEM 110 GN(3), CHEM 111(1), CHEM 112 GN(3), CHEM 113 GN(1), CMPSC 203 GQ(4), MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2), or PHYS 250 GN(4), PHYS 251 GN(4), STAT 200 GQ(4); an additional life science course selected from B M B 211(3), B M B 251(3), or MICRB 201(3); and 14 additional credits of course work from the Eberly College of Science, with at least nine credits at the 400 level.
- (0-8 credits) Demonstration of second semester proficiency in a single foreign language.
- (3-9 credits) SC 295(1-3), SC 395(1-3), SC 495(1-3) (Note: Students must complete three Eberly College of Science Cooperative Education experiences, including at least one experience which is a full semester in length.)
- (4 credits) ACCTG 211(4)
- (4-22 credits) Supporting courses and related areas selected from the program list.

2. The first semester of course work in The Smeal College of Business M.B.A. program (i.e., a minimum of 12 graduate credits).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in GENERAL EDUCATION course selection or SUPPORTING COURSES AND RELATED AREAS)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in GENERAL EDUCATION course selection or SUPPORTING COURSES AND RELATED AREAS)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR or SUPPORTING COURSES AND RELATED AREAS)

**REQUIREMENTS FOR THE MAJOR:** 94 credits  
 (This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

**COMMON REQUIREMENTS FOR MAJOR (All options)**

**PRESCRIBED COURSES** (20 credits)  
 CHEM 110 GN(3) [\[1\]](#), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4) [\[1\]](#), MATH 141 GQ(4) (Sem: 1-2)  
 BIOL 110 GN(4) [\[1\]](#) (Sem: 1-4)

**REQUIREMENTS FOR THE OPTIONS:** 60-88 credits

**GENERAL SCIENCE OPTION:** (68-79 credits)

**ADDITIONAL COURSES** (15-20 credits)  
 Select 4 credits from BIOL 129 GN(4), BIOL 220W(4), BIOL 230W(4), BIOL 240W(4) or BIOL 141 GN(3) and BIOL 142(1) (Sem: 3-4)  
 Select 3-4 credits from STAT 200 GQ(4), or STAT 250 GQ(3) or STAT 301(3) or STAT 401(3) (Sem: 3-4)  
 Select 8-12 credits from PHYS 211 GN(4) [\[1\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4) [\[1\]](#), PHYS 251 GN(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (53-59 credits)  
 (A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.)

Select 20-26 credits from program list (Students may apply 6 credits of ROTC.) (Sem: 1-8)  
 Select 3 credits from earth and mineral sciences (Sem: 3-8)  
 Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits [\[11\]](#) at the 400 level [\[60\]](#) (Sem: 3-8)  
 Select 3 credits in Global, Social and Personal Awareness from department approved course list in consultation with adviser (Sem: 3-8)  
 Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser (Sem: 3-8)  
 Select 6 credits of 400-level courses (Sem: 5-8)

**BIOLOGICAL SCIENCES AND HEALTH PROFESSIONS OPTION: (66-80 credits)****PRESCRIBED COURSES (3 credits)**

H P A 101(3) (Sem: 3-6)

**ADDITIONAL COURSES (24-31 credits)**

Select 4 credits from BIOL 129 GN(4), BIOL 220W(4), BIOL 230W(4), BIOL 240W(4) or BIOL 141 GN(3) and BIOL 142(1) (Sem: 3-4)  
 Select 3-4 credits from STAT 200 GQ(4), or STAT 250 GQ(3) or STAT 301(3) or STAT 401(3) (Sem: 3-4)  
 Select 6-8 credits from CHEM 210(3), CHEM 212(3), CHEM 213(2) or CHEM 202(3), CHEM 203(3) (Sem: 3-6)  
 Select 3 credits from B M B 211(3), B M B 251(3), MICRB 201(3), BIOL 222(3), or BIOL 322(3) (Sem: 3-6)  
 Select 8-12 credits from PHYS 211 GN(4) [\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4) [\[11\]](#), PHYS 251 GN(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS (39-46 credits)**

(A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.)  
 Select 15 credits from program list for Healthcare/ Medicine/Ethical Competencies; 6 credits must be at the 400-level (Sem: 3-8) Select from department approved course list in consultation with adviser.  
 Select 9-16 credits from program list (Students may apply 6 credits of ROTC. (Sem: 1-8)  
 Select 3 credits in Global, Social and Personal Awareness from department approved course list in consultation with adviser (Sem: 3-8)  
 Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser (Sem: 3-8)  
 Select 9 credits [\[11\]](#) of 400-level B M B, BIOL, BIOTC, or MICRB courses (Sem: 5-8)

**LEGAL STUDIES, GOVERNMENT SERVICE, PUBLIC POLICY OPTION (68-78 credits)****ADDITIONAL COURSES (15-20 credits)**

Select 4 credits from BIOL 129 GN(4), BIOL 220W(4), BIOL 230W(4), BIOL 240W(4) or BIOL 141 GN(3) and BIOL 142(1) (Sem: 3-4)  
 Select 3-4 credits from STAT 200 GQ(4), or STAT 250 GQ(3) or STAT 301(3) or STAT 401(3) (Sem: 3-4)  
 Select 8-12 credits from PHYS 211 GN(4) [\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4) [\[11\]](#), PHYS 251 GN(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS (53-58)**

Select 11-16 credits from program list (Students may apply 6 credits of ROTC. (Sem: 1-8)  
 Select 18 credits in life, mathematical, or physical sciences, with at least 9 credits [\[11\]](#) at the 400 level [\[60\]](#) (Sem: 3-8)  
 Select 18 credits from program list for Legal Studies, Government Service, Public Policy; 6 credits must be at the 400-level (Sem: 3-8) Select from department approved course list in consultation with adviser.  
 Select 3 credits in Global, Social and Personal Awareness from department approved course list in consultation with adviser (Sem: 3-8)  
 Select 3 credits in Teamwork and Interpersonal Communication from department approved course list in consultation with adviser (Sem: 3-8)

**LIFE SCIENCE OPTION: (60-88 credits)****ADDITIONAL COURSES (24-30 credits)**

Select 4 credits from BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4) (Sem: 3-4)  
 Select 3 credits from CMPSC 101 GQ(3), MATH 250(3), or STAT 250 GQ(3) (Sem: 3-4)  
 Select 3 credits from B M B 211(3), B M B 251(3), or MICRB 201(3) (Sem: 3-4)  
 CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-6)  
 PHYS 211 GN(4) [\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4) [\[11\]](#), PHYS 251 GN(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS (36-58 credits)**

(A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.)  
 Select 21-35 credits from program list (Students may apply 6 credits of ROTC.) (Sem: 1-8)  
 Select 0-8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-8)  
 Select 6 credits of 400-level courses (Sem: 5-8)  
 Select 9 credits [\[11\]](#) of 400-level B M B, BIOL, BIOTC, or MICRB courses (Sem: 5-8)

**MATHEMATICAL SCIENCE OPTION: (61-88 credits)****PRESCRIBED COURSES (5-6 credits)**

CMPSC 122(3), MATH 220 GQ(2-3) (Sem: 3-6)

**ADDITIONAL COURSES (24-29 credits)**

Select 3 credits from B M B 211(3), B M B 251(3), or MICRB 201(3) (Sem: 3-4)  
 CMPSC 121 GQ(3), CMPSC 201 GQ(3), or CMPSC 202 GQ(3) (Sem: 3-6)  
 MATH 230(4) or MATH 251(4) (Sem: 3-6)  
 CMPSC 360(3) or MATH 311W(3-4); STAT 301 GQ(3) or STAT 318(3) (Sem: 3-8)  
 PHYS 211 GN(4) [\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2); or PHYS 250 GN(4) [\[11\]](#), PHYS 251 GN(4) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS (32-53 credits)**

(A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.)  
 Select 17-30 credits from program list (Students may apply 6 credits of ROTC.) (Sem: 1-8)  
 Select 0-8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-8)  
 Select 9 credits [\[11\]](#) of 400-level CMPSC, CSE, MATH, or STAT courses (Sem: 5-8)  
 Select 6 credits of 400-level courses (Sem: 5-8)

**PHYSICAL SCIENCE OPTION: (63-85 credits)****PRESCRIBED COURSES (15 credits)**

ASTRO 291 GN(3), PHYS 211 GN(4) [\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 3-6)

**ADDITIONAL COURSES (16-19 credits)**

Select 3 credits from B M B 211(3), B M B 251(3), or MICRB 201(3) (Sem: 3-4)  
 CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-6)  
 MATH 230(4) or MATH 251(4) (Sem: 3-6)  
 Select 3-4 credits from ASTRO 292 GN(3); E MCH 211(3); M E 300(3); or PHYS 237(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS (32-51 credits)**

(A maximum of 12 credits of Independent Study [296, 496] may be applied toward credits for graduation.)  
 Select 17-28 credits from program list (Students may apply 6 credits of ROTC.) (Sem: 1-8)  
 Select 0-8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-8)  
 Select 6 credits of 400-level courses (Sem: 5-8)  
 Select 9 credits [\[11\]](#) of 400-level ASTRO, CHEM, or PHYS courses (Sem: 5-8)

[\[11\]](#) A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[\[60\]](#) Physical sciences include ASTRO, CHEM, PHYS; mathematical sciences include CMPSC, MATH, STAT; life sciences include BIOL, BIOTC, B M B, MICRB.

SC

## Supply Chain and Information Systems

University Park, Smeal College of Business (SC&IS)

PROFESSOR JOHN E. TYWORTH, *Chair of the Department of Supply Chain and Information Systems*

The SC&IS major concentrates on the management of value-creating supply chain networks that modern business enterprises use to acquire, produce, and deliver goods and services all over the world and on information technology as the key enabler of supply chain integration. Students learn how to analyze and design supply chains and manage core business processes including (1) sourcing and procuring raw materials, (2) manufacturing and service operations, and (3) planning and fulfilling customer demand. Students also develop knowledge, skills, and abilities in the information systems area, including information processing, databases, information systems design and analysis, and supply chain technologies.

Graduates are well-prepared for careers in the supply chain and information systems area in both industry and government, including manufacturing, service, technology, and merchandising companies, third-party logistics providers, transport system enterprises, consulting firms, and government agencies.

More information about the broad range of career opportunities is available at

<http://www.smeal.psu.edu/scis/recruit>

**Entrance Requirement:** To be eligible for entrance into the Supply Chain and Information Systems (SC&IS) major, a degree candidate must be enrolled in the Smeal College of Business or the Division of Undergraduate Studies and satisfy requirements for entrance to the major.

### Specific entrance requirements include:

1. The degree candidate must be taking, or have taken, a program appropriate for entry to the major as shown in the bulletin, including approximately 60 credits of course work.
2. Complete the following entrance to major requirements: ACCTG 211(4)[\[1\]](#); ECON 102 GS(3); SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#); ENGL 015 GWS(3) or ENGL 030 GWS(3); and MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#); FIN 301(3)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#). These courses must be completed by the end of the semester during which the entrance to major process is carried out.
3. In addition to the above requirements, the Executive Vice President and Provost of the University may approve administrative enrollment controls that limit the number of students who are admitted to majors in the Smeal College of Business. In each case, however, academic requirements are established for admission. For information on enrollment controls, consult the Smeal College of Business Web site (<http://www.smeal.psu.edu>).

For the B.S. degree in Supply Chain and Information Systems, a minimum of 120 credits is required (at least 15 credits must be taken at the 400 level).

### GENERAL EDUCATION: 45 credits

(12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 14 credits

### REQUIREMENTS FOR THE MAJOR: 73 credits

(This includes 12 credits of General Education courses: 3 credits of GWS courses; 6 credits of GQ courses; 3 credits of GS courses.)

### PRESCRIBED COURSES (52 credits)

ACCTG 211(4)[\[1\]](#), ECON 102 GS(3), FIN 301(3)[\[1\]](#); MGMT 301(3)[\[1\]](#); and MKTG 301(3)[\[1\]](#) (Sem: 1-4)

MIS 204(3), SCM 301(3)[\[1\]](#) (Sem: 3-5)

B A 342(3), B A 411(3), B LAW 341(3), ECON 104 GS(3), ENGL 202D GWS(3), SCM 404(3)[\[1\]](#), SCM 405(3)[\[1\]](#), SCM 406(3)[\[1\]](#), SCM 421(3)[\[1\]](#), SCM 450W(3)[\[1\]](#) (Sem: 5-8)

### ADDITIONAL COURSES (8 credits)

MATH 110 GQ(4)[\[1\]](#) or MATH 140 GQ(4)[\[1\]](#) (Sem: 1-2)

SCM 200 GQ(4)[\[1\]](#) or STAT 200 GQ(4)[\[1\]](#) (Sem: 1-2)

### SUPPORTING COURSES AND RELATED AREAS (13 credits)

Select 4 credits: Attainment of 12th-credit-level proficiency in a single foreign language. (4 credits) Proficiency must be demonstrated by either examination or coursework (Sem: 1-4)

Select 3 credits of related coursework. See department list. (Sem: 5-8)

Select 6 credits of supporting coursework. See department list. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Science

*Penn State Erie, The Behrend College (SCNBD)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This interdisciplinary major provides a broad, general education in science. The B.S. degree major includes options in General Science and Environmental Studies, and in Earth and Space Science Pre-certification and General Science Pre-certification for teaching. The curriculum is designed for students who have educational goals not readily met by one of the science majors or for those who require a high degree of flexibility to attain their educational objectives. After completing foundation courses in calculus, chemistry, computer science, the life sciences, and physics, students select additional science courses from designated areas. A large number of supporting credits will permit students to include a minor or course sequences in business, education, technical writing, or other fields.

For the B.S. degree in Science, a minimum of 120 credits is required, with at least 15 credits at the 400 level. Each student must earn at least a grade of C in each 300- and 400-level prescribed, additional, and supporting course.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **GENERAL EDUCATION:** 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### **FIRST YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### **UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

### **WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

### **ELECTIVES** (0-1 credit)

### **REQUIREMENTS FOR THE MAJOR:** 89-90 credits[\[80\]](#)

(This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

### **COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 44-46 credits

#### **PRESCRIBED COURSES** (24 credits)

BIOL 110 GN(4)[\[11\]](#) (Sem: 1-4)

CHEM 110 GN(3)[\[11\]](#), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4)[\[11\]](#), MATH 141 GQ(4) (Sem: 1-2)

CMPSC 121(3) (Sem: 1-4)

#### **ADDITIONAL COURSES** (12-14 credits)

PHYS 211 GN(4)[\[11\]](#), PHYS 212 GN(4), PHYS 213 GN(2) or PHYS 214(2); or PHYS 250 GN(4)[\[11\]](#), PHYS 251 GN(4) (Sem: 3-6)

Select 4 credits from BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4) (Sem: 3-6)

#### **SUPPORTING COURSES AND RELATED AREAS** (8 credits)

Select 8 credits in a foreign language (proficiency demonstrated by examination or course work to the level of the second semester; if fewer than 8 credits are needed to reach the required proficiency, students choose selections from program list to total 8 credits) (Sem: 1-8)

### **REQUIREMENTS FOR THE OPTION:** 43-46 credits[\[81\]](#)

#### **GENERAL SCIENCE OPTION:** (43-46 credits)

#### **ADDITIONAL COURSES** (3-4 credits)

Select 3-4 credits from CMPSC 122 GQ(3), MATH 230(4), MATH 250(3), or STAT 200 GQ(4) (Sem: 3-6)

#### **SUPPORTING COURSES AND RELATED AREAS** (39-43 credits)

Select 3 credits from geosciences[\[79\]](#) (Sem: 1-8)

Select 18 credits, with at least 9 credits at the 400 level, in one of the areas: computer sciences, life sciences, mathematical sciences, or physical sciences[\[79\]](#) (Sem: 3-8)

Select 18-22 credits, with at least 6 credits at the 400 level, from program list (Students may apply 6 credits of basic ROTC.) (Sem: 1-8)

#### **ENVIRONMENTAL STUDIES OPTION:** (43-46 credits)

#### **PRESCRIBED COURSES** (7 credits)

BIOL 402W(3), GEOG 160 GS(3), GEOG 161(1) (Sem: 3-8)

#### **ADDITIONAL COURSES** (9-11 credits)

Select 3-4 credits from BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4), or MICRB 201 GN(3) (Sem: 3-6)

CHEM 202(3) or CHEM 221(4) (Sem: 3-6)

STAT 200 GQ(3) or STAT 250 GQ(3) (Sem: 3-8)

#### **SUPPORTING COURSES AND RELATED AREAS** (25-30 credits)

Select 6 credits from geosciences[\[79\]](#)[\[82\]](#) (Sem: 3-8)

Select 6 credits of 400-level courses in computer sciences, life sciences, mathematical sciences, or physical sciences[\[79\]](#) (Sem: 5-8)

Select 9-16 credits from Environmental Studies option program list with at least 6 credits with ECON, ECNS, PL SC, or POLSC designations and at least 5-7 credits at the 400 level (Students may apply 6 credits of basic ROTC.) (Sem: 1-8)

Select 2-4 credits of 400-level research, internship, field school, or studies abroad[\[80\]](#) (Sem: 5-8)

#### **EARTH AND SPACE SCIENCE PRE-CERTIFICATION OPTION:** (43-46 credits)

(This option is designed to prepare students in pre-certification for teaching earth and space science.)

#### **PRESCRIBED COURSES** (15 credits)

ASTRO 010 GN(2), ASTRO 011 GN(1), GEOSC 002 GN(3), GEOSC 020 GN(3), GEOSC 040 GN(3), METEO 003 GN(3) (Sem: 1-4)

#### **ADDITIONAL COURSES** (6 credits)

Select 6 credits from ASTRO 291 GN(3), ASTRO 292 GN(3), GEOG 010 GN(3), or GEOSC 010 GN(3) (Sem: 3-8)

#### **SUPPORTING COURSES AND RELATED AREAS** (22-25 credits)

Select 6 credits from the geosciences[\[79\]](#)[\[82\]](#) (Sem: 5-8)

Select at least 6 credits at the 400 level in one of the following areas: computer sciences, life sciences, mathematical sciences, or physical sciences[\[79\]](#) (Sem: 5-8)

Select 10-13 credits, with at least 6-9 credits at the 400 level, from the program list (Students may apply 6 credits of basic ROTC.)[\[80\]](#) (Sem: 1-8)

#### **GENERAL SCIENCE PRE-CERTIFICATION OPTION:** (43-46 credits)

(This option is designed to prepare students in pre-certification for teaching general science.)

#### **PRESCRIBED COURSES** (19 credits)

ASTRO 010 GN(2), ASTRO 011 GN(1), BIOL 230W GN(4), GEOSC 002 GN(3), GEOSC 020 GN(3), GEOSC 040 GN(3), METEO 003 GN(3) (Sem: 1-4)

**ADDITIONAL COURSES** (7-8 credits)

Select 3-4 credits from CMPSC 122 GQ(3), MATH 230(4), MATH 250(3), or STAT 200 GQ(4) (Sem: 3-6)

Select 4 credits from BIOL 220W GN(4) or BIOL 240W GN(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (16-20 credits)

Select at least 6 credits at the 400 level in one of the following areas: computer sciences, life sciences, mathematical sciences, or physical sciences<sup>[79]</sup> (Sem: 5-8)

Select 10-14 credits, with 6-9 credits at the 400 level, from the program list (Students may apply 6 credits of basic ROTC.)<sup>[80]</sup> (Sem: 1-8)

<sup>[1]</sup> A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

<sup>[79]</sup> Computer sciences include CENBD and CMPSC; geosciences include GEOG, GEOSC, MATSC, MATSE; life sciences include BIOL, B M B, MICRB; mathematical sciences include MATH and STAT; physical sciences include ASTRO, CHEM, PHYS.

<sup>[80]</sup> A student in this major must complete at least 15 credits of 400-level courses and 3 credits of W courses in prescribed, additional, or supporting courses from one of the areas: computer science, life sciences, mathematical sciences, or physical sciences.

<sup>[81]</sup> A maximum of 8 credits of Research (494), Internship (495), or Independent Study (296, 496) may be applied toward credits for graduation in all options.

<sup>[82]</sup> In addition to courses used to satisfy the prescribed courses requirement.

PROGRAM CURRENTLY ON HOLD;  
NOT ACCEPTING NEW STUDENTS  
Begin Date of Enrollment Hold: July 20, 2012

---

## Science

*Penn State Erie, The Behrend College (SCNCE)*

This major provides broad, general training with a background in science. It allows students to prepare for graduate studies in their field of interest. Most graduates of the Science major go on to graduate school in order to obtain employment in research. Other students choose this major because of an educational objective more readily obtained by it than by some specific subject matter.

For the B.A. degree in Science, a minimum of 120 credits is required.

Each student must earn at least a grade of C in each 300- and 400-level course in the major field.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selections or BACHELOR OF ARTS DEGREE REQUIREMENTS)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 7-11 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in front of *Bulletin*.)

**REQUIREMENTS FOR THE MAJOR:** 58-82 credits  
(At least 6 credits must be at the 400 level.)  
(This includes 18 credits of General Education courses; 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.)

**PRESCRIBED COURSES** (23 credits)  
CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-2)  
ENGL 202C GWS(3) (Sem: 1-4)  
MATH 230(4) (Sem: 3-4)

**ADDITIONAL COURSES** (8-12 credits)  
PHYS 250 GN(4), PHYS 251 GN(4) or PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (27 credits)  
Select 9 credits of biological sciences from General Education courses (Sem: 1-2)  
Select 3 credits of arts or humanities (Sem: 1-8)  
Select 15 credits: 12 credits in category a, b, c, or d and 3 additional credits in any one of the categories: (Sem: 5-8)  
a. biological sciences  
b. earth and material sciences  
c. mathematical sciences  
d. physical sciences

## Structural Design and Construction Engineering Technology

*Capital College (SDCET)*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR SEROJ MACKERTICH, *Program Chair, School of Science, Engineering, and Technology*

The program in Structural Design and Construction Engineering Technology provides the basic education required for the structural engineer and construction profession. Students learn the basic general engineering concepts needed for this major with emphasis on the fundamentals, structural design principles, and construction techniques through required course work. They are given the opportunity to focus in a discipline of construction management or structural design through a selected option or choose a broad general option. Courses in communication skills, arts, humanities, social and behavioral sciences, and other engineering related areas broaden the program. Students gain experience in working as members of a team and in using interdisciplinary approaches to solve problems. These experiences, as well as those related to design and construction principles, are taught through exercises in the classroom, laboratory, and field. The program culminates with a capstone project course in which the students' knowledge and skills are applied to specific problems.

For the B.S. degree in Structural Design and Construction Engineering Technology, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(20-24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES, REQUIREMENTS FOR THE MAJOR or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 2-10 credits

### REQUIREMENTS FOR THE MAJOR: 95-102 credits

(This includes 24 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses; 3 credits of GHA courses.)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 76-80 credits

#### PRESCRIBED COURSES (45 credits)

CHEM 110 GN(3), CHEM 111 GN(1), ENGL 202C GWS(3), MATH 140 GQ(4) (Sem: 1-4)

ET 200(3) (Sem: 2-5)

C E 254 GHA;US(3)[\[1\]](#), SSET 295(1) (Sem: 3)

CET 342(3), CET 343(3) (Sem: 5-6)

C E 333W(3)[\[1\]](#), CET 308(3), CET 430(3)[\[1\]](#), CET 431(3)[\[1\]](#), CET 432(3)[\[1\]](#), CET 434(3), CET 435(3)[\[1\]](#) (Sem: 5-8)

#### ADDITIONAL COURSES (31-35 credits)

Select 2-3 credits from: EG T 101(1) and EG T 102(1) or EDSGN 100(3) (Sem: 1-2)

Select 3-4 credits from: PHYS 150 GN(3), PHYS 211 GN(4), PHYS 250 GN(4) (Sem: 1-3)

Select 3-4 credits from: PHYS 151 GN(3), PHYS 212 GN(4), PHYS 251 GN(4) (Sem: 2-4)

Select 3 credits from: ECON 014 GS(3), ECON 102 GS(3), ECON 104 GS(3) (Sem: 2-4)

Select 4 credits from: MATH 141 GQ(4), STAT 200 GQ(4) (Sem: 2-6)

Select 3 credits from: E MCH 211(3)[\[1\]](#), ET 300(3), MCH T 111(3)[\[1\]](#) (Sem: 2-6)

Select 3 credits from: E MCH 213(3)[\[1\]](#), ET 322(3)[\[1\]](#), MCH T 213(3)[\[1\]](#) (Sem: 2-6)

Select 1 credit from: ET 323(1), MCH T 214(1) (Sem: 2-6)

Select 3 credits from: C E 310(3), SUR 111(3) (Sem: 2-7)

Select 3 credits from: CMPSC 101 GQ(3), CMPSC 121 GQ(3), CMPSC 201 GQ(3), CMPSC 202 GQ(3) (Sem: 3-4)

Select 3-4 credits from: ACCTG 211(4), MGMT 100(3) or MGMT 301(3) (Sem: 3-8)

### REQUIREMENTS FOR THE OPTION: 19-22 credits

#### CONSTRUCTION MANAGEMENT OPTION: (19-21 credits)

##### PRESCRIBED COURSES (10 credits)[\[1\]](#)

C E 456(3), C E 458(3), C E 488C(4) (Sem: 7-8)

##### ADDITIONAL COURSES (6-7 credits)

Select 3-4 credits from ACCTG 211(4) or MGMT 100(3), MGMT 301(3) (Sem: 2-8)

Select 3 credits from A E 310(3) or C E 321(3) or ENVE 430(3) or MET 435(3) (Sem: 7-8)

#### SUPPORTING COURSES AND RELATED AREAS (3-4 credits)

Select 3-4 credits from approved program list (Sem: 7-8)

#### STRUCTURAL DESIGN OPTION: (19-20 credits)

##### PRESCRIBED COURSES (13 credits)

C E 445(3)[\[1\]](#), C E 449(3)[\[1\]](#), C E 488D(4)[\[1\]](#), E MCH 212(3) (Sem: 7-8)

##### ADDITIONAL COURSES (3 credits)

Select 3 credits from CET 361(3) or C E 360(3) (Sem: 7-8)

#### SUPPORTING COURSES AND RELATED AREAS (3-4 credits)

Select 3-4 credits from approved program list (Sem: 7-8)

### GENERAL OPTION: (22 credits)

##### PRESCRIBED COURSES (12 credits)[\[1\]](#)

C E 445(3), C E 449(3), C E 456(3), C E 458(3) (Sem: 7-8)

##### ADDITIONAL COURSES (10 credits)

Select 3 credits from A E 310(3) or MET 435(3) (Sem: 7-8)

Select 3 credits from C E 360(3) or CET 361(3) (Sem: 7-8)

Select 4 credits from C E 488C(4)[\[1\]](#) or C E 488D(4)[\[1\]](#) (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Software Engineering

*Penn State Erie, The Behrend College (SE BD)*

This major provides students with a strong foundation in software engineering through combination of classroom study, software development experience, and design projects. Design, analysis, verification, and maintenance of software systems are stressed. Built upon a core of science and mathematics courses, this major has the objective of educating graduates to be problem solvers. Students acquire the ability to work as members of a team toward successful attainment of a common goal, preparing them for work in industry or further study in graduate school. In addition, written and oral communication skills are developed from an early stage, culminating in a senior design project that stresses communication as well as engineering content.

In addition to completing a broad-based science core in mathematics, chemistry, and physics, students pursue their interest in software engineering by studying principles in computer programming, object-oriented design, software design, software verification, information systems, operating systems, and data communications. The program has a capstone software design project that requires students to work together on teams to design, plan, manage, and implement a software design project.

**Entrance Requirement:** In addition to the Carnegie unit and minimum GPA requirements described by University policies, all students applying for entrance to any of the engineering majors at The Behrend College must have at least a 2.0 cumulative GPA by the end of the semester prior to applying for entrance to the major and have completed, with a minimum grade of C: CHEM 110 GN(3), MATH 140 GQ(4), MATH 141 GQ(4), and PHYS 211 GN(4). These courses must be completed by the end of the semester during which the admission to major process is carried out.

For the B.S. degree in Software Engineering, a minimum of 127 credits is required. A student enrolled in this major must earn a grade of C or better in each 300- and 400-level course in the major.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(21 of the 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 1 credit

**REQUIREMENTS FOR THE MAJOR:** 102-103 credits

(This includes 21 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (87 credits)

CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1), CMPSC 121 GQ(4), CMPSC 122(3)[\[1\]](#) (Sem: 1-2)

MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#), MATH 220 GQ(2-3), MATH 250(3), PHYS 211 GN(4)[\[1\]](#), PHYS 212 GN(4) (Sem: 1-4)

CMPEN 271(3)[\[1\]](#), CMPEN 275(1), CMPSC 360(3)[\[1\]](#), ENGL 202C GWS(3), MIS 336(3)[\[1\]](#), SWENG 311(3)[\[1\]](#) (Sem: (3-4)

CMPEN 441(3)[\[1\]](#), CMPSC 461(3)[\[1\]](#), CMPSC 465(3)[\[1\]](#), STAT 301 GQ(3)[\[1\]](#), SWENG 452W(3)[\[1\]](#), SWENG 411(3)[\[1\]](#), SWENG 421(3)[\[1\]](#), SWENG 431(3)[\[1\]](#) Sem: (5-6)

CMPEN 351(3)[\[1\]](#), CMPEN 461(3)[\[1\]](#), SWENG 480(3)[\[1\]](#), SWENG 481(3)[\[1\]](#), MGMT 301(3)[\[1\]](#) (Sem: (7-8)

**ADDITIONAL COURSES** (6-7 credits)

ECON 102 GS(3) or ECON 104 GS(3) (Sem: 3-4)

E E 210(4) or E E 211(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits of technical elective courses from school-approved list. (Sem: 6-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Secondary Education

Abington College (SECAB)  
Penn State Erie, The Behrend College (SECBC)  
University Park, College of Education (SECED)

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

PROFESSOR SCOTT METZGER, *Director*

The following teaching options are available for majors in Secondary Education: Biological Science, Chemistry, Earth and Space Science, English/Communication, Environmental Education, General Science, Mathematics, Physics, and Social Studies/Citizenship Education.

The Secondary Education major helps prepare students for middle school and/or high school teaching positions and for other employment in fields related to their content specialties.

**BIOLOGICAL SCIENCE TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

**CHEMISTRY TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

**EARTH AND SPACE SCIENCE TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

**ENGLISH/COMMUNICATION TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education. This program has a Language and Literature Core and a Media Literacies Core. This program is open to students outside the College of Education who desire certification.

**ENVIRONMENTAL EDUCATION TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for a Pennsylvania teacher certification in Environmental Education when completed in conjunction with another secondary education teaching option (i.e., Biological Science Teaching option). The total number of credits required will depend primarily on that other option.

**GENERAL SCIENCE TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching General Science at the secondary-school level, which is issued by the Pennsylvania Department of Education. This option may only be completed in conjunction with another secondary education option (e.g., Biology); the total number of credits required will depend primarily on that other option.

**MATHEMATICS TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

**PHYSICS TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching at the secondary-school level, which is issued by the Pennsylvania Department of Education.

**SOCIAL STUDIES TEACHING OPTION:** This option enables the graduate to meet all of the academic requirements for the Instructional I certificate for teaching social studies courses in the secondary-school level, which is issued by the Pennsylvania Department of Education. This option has a prescribed component required for all candidates as well as a choice of concentrations that focus on a specific area. All graduates who successfully complete this program are highly qualified to teach history in secondary grades (7-12) and are eligible for PA certification in Social Studies (7-12) and/or Citizenship Education (7-12). Candidates who successfully complete the Civics & Government concentration are highly qualified to be teachers of U.S. government and civics (7-12). Candidates who successfully complete the Economics concentration are highly qualified to be teachers of economics and economic issues (7-12). Candidates who successfully complete the Geography concentration are highly qualified to be teachers of geography and global studies (7-12). Candidates who successfully complete the Social Sciences concentration receive additional content preparation to be highly qualified teachers of anthropology, psychology, or sociology (7-12). Candidates who successfully complete the Citizenship Education concentration receive additional in-depth content preparation in selected social-studies subjects (7-12).

Baccalaureate degree candidates must meet the following requirements 1-3 by the end of their third semester:

1. A minimum cumulative grade point average of 3.00
2. Qualifying scores from the PECT PAPA for Reading, Writing and Mathematics
3. Documentation of at least 40 hours of volunteer or paid education work experience with learners of the age group the candidate plans to teach, with younger learners in the candidate's intended content area, or with adults with special needs. Part of this experience should include working with some learners who come from backgrounds that are different from the candidate's.

Requirements 4-9 must be met by the end of the fourth semester when students typically participate in the Entrance to Major process.

4. A grade of "C" or better in all specified courses.
5. Completion of an early field experience specified by the certification program.
6. Completion of a core of Education courses specified by the certification program.
7. Completion of additional credits as specified by the certification program.
8. Completion of at least 48 semester credit hours, including ENGL 015 GWS(3) or ENGL 030 GWS(3), three credits of literature, and six credits of quantification
9. Approval from the professional education adviser or the head of the pertinent certification program.

For the B.S. degree in Secondary Education with an option in *Biological Science Teaching*, a minimum of 129 credits is required; with an option in *Chemistry Teaching*, a minimum of 126 credits is required; with an option in *Earth and Space Science Teaching*, a minimum of 123 credits is required; with an option in *English/Communication Teaching*, a minimum of 126 credits is required; with an option in *Environmental Education Teaching* and a cohort option, a minimum of 123 credits is required; with an option in *General Science Teaching* and a cohort option, a minimum of 121 credits is required; with an option in *Mathematics Teaching*, a minimum of 132 credits is required; with an option in *Physics Teaching*, a minimum of 121 credits is required; with an option in *Social Studies Teaching*, a minimum of 129 credits is required. (See also [Teacher Education Programs](#).)

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
(12-24 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 0-4 credits

**REQUIREMENTS FOR THE MAJOR:** 83-105 credits  
(This includes 12-27 credits of General Education courses: Biological Science Teaching option, Chemistry Teaching option, Earth and Space Science Teaching option, Environmental Education Teaching option, General Science Teaching option, and Physics Teaching option--6 credits of GH courses; 9 credits of GN courses; 3-6 credits of GS courses; 6 credits of GQ courses. English/Communication Teaching option--3-6 credits of GA courses; 6 credits of GH courses; 3-6 credits of GS courses. Mathematics Teaching option--6 credits of GH courses; 3-6 credits of GS courses; 6 credits of GQ courses. Social Studies Teaching option--6 credits of GH courses; 3 credits of GN courses; 6 credits of GS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 45 credits**[\[18\]](#)**PRESCRIBED COURSES** (36 credits)

C I 295(2), EDPSY 014(3), PSYCH 100 GS(3) (Sem: 1-2)  
 C I 280 GH(3) (Sem: 1-6)  
 C I 495C(3), SPLED 400(4), SPLED 403B(3) (Sem: 5-8)  
 C I 495E(15) (Sem: 7-8)

**ADDITIONAL COURSES** (3 credits)

PSYCH 412(3) or HD FS 239 GS(3) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 3 credits of GH courses from Literature Selection (Sem: 1-4)  
 Select 3 credits EDTHP 115 US(3) or EDTHP 115A GS;US(3) (Sem: 1-2) or 3 credits at the 400 level of any EDTHP course (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:**38-66 credits**BIOLOGICAL SCIENCE TEACHING OPTION** (63-66 credits)[\[18\]](#)**OPTION CURRENTLY ON HOLD at Penn State Abington;****NOT ACCEPTING NEW STUDENTS**

**Begin Date of Enrollment Hold: May 30, 2012**

**The program will continue to be delivered at University Park and Penn State Erie.**

**PRESCRIBED COURSES** (30 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4) (Sem: 1-2)  
 BIOL 110 GN(4), BIOL 220W GN(4), BIOL 240W GN(4) (Sem: 1-4)  
 SCIED 411W(3), SCIED 412(3) (Sem: 5-7)

**ADDITIONAL COURSES** (25-28 credits)

MATH 141 GQ(4) or 4 credits of 200-level STAT GQ courses; BIOL 230W GN(4) or B M B 251(3) and B M B 252(3); BIOL 427(3), GEOSC 204(4), GEOSC 424(3), ANTH 021 GN(3) or ANTH 460(3); PHYS 250 GN(4) and PHYS 251 GN(4) or PHYS 211 GN(4) and PHYS 212 GN(4) (Sem: 4-7)  
 Select 6 credits from B M B 211(3), B M B 212(1), B M B 401(3), B M B 402(3), CHEM 202(3), CHEM 203(3), CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 5-7)

**SUPPORTING COURSES AND RELATED AREAS** (8 credits)

Select 8 credits of 300-level or 400-level BIOL or biological fields (Sem: 5-7)

*Note 1:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 2:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**CHEMISTRY TEACHING OPTION:** (60-62 credits)[\[18\]](#)**PRESCRIBED COURSES** (42 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4) (Sem: 1-2)  
 BIOL 110 GN(4), MATH 141 GQ(4), PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 1-4)  
 CHEM 451(3), CHEM 452(3), CHEM 457(1-2), SCIED 411W(3), SCIED 412(3) (Sem: 5-7)

**ADDITIONAL COURSES** (12-14 credits)

CHEM 202(3) and CHEM 203(3) or CHEM 210(3), CHEM 212(3), and CHEM 213(2) (Sem: 3-4)  
 Select 6 credits from CHEM 402(3), CHEM 406(3), CHEM 408(3), CHEM 410(3), CHEM 412(3), CHEM 423W(4), CHEM 425W(4) (Sem: 5-7)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in CHEM or chemistry-related fields at the 200 level or higher (e.g., B M B 211 and B M B 212, B M B 251, B M B 252, MICRB 251, FD SC 400, AN SC 301, NUTR 251, CHEM, CH E) (Sem: 5-7)

*Note 1:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 2:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**EARTH AND SPACE SCIENCE TEACHING OPTION:** (57-62 credits)[\[18\]](#)**PRESCRIBED COURSES** (22 credits)

MATH 140 GQ(4), BIOL 110 GN(4), CHEM 110 GN(3), CHEM 112 GN(3), CHEM 111 GN(1), CHEM 113 GN(1) (Sem: 1-2)  
 SCIED 411W(3), SCIED 412(3) (Sem: 5-7)

**ADDITIONAL COURSES** (27-33 credits)

GEOSC 001(3), GEOSC 020 GN(3) or GEOSC 071(3) (Sem: 1-3)  
 MATH 141 GQ(4) or 4 credits of 200-level STAT GQ courses (Sem: 1-4)  
 PHYS 250 GN(4) and PHYS 251 GN(4), or PHYS 211 GN(4) and PHYS 212 GN(4), or PHYS 211 GN(4) and PHYS 213 GN(2) (Sem: 1-4)  
 GEOSC 021 GN(3) or GEOSC 204(4); EARTH 100 GN(3), EARTH 101 GN;US(3), EARTH 103 GN(3) or EARTH 105 GN;IL(3); METEO 003 GN(3), METEO 201(3), or METEO 300(4); ASTRO 010 GN(2) and ASTRO 011 GN(1), or ASTRO 291 GN(3) (Sem: 1-5)  
 GEOSC 040 GN(3), GEOSC 440(3) or GEOSC 445(4); or METEO 022(2); or BIOL 435(3) or BIOL 482(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (8 credits)

Select 8 credits from EARTH, GEOSC, METEO, ASTRO, other earth science field, or BIOL 427(3) (Sem: 5-7)

*Note 1:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 2:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**ENGLISH/COMMUNICATION TEACHING OPTION:** (54 credits)[\[18\]](#) Note: Must complete at least 3 credits of IL and 3 credits of US Cultures selections.**LANGUAGE AND LITERATURE CORE:** (36 credits)**PRESCRIBED COURSES** (12 credits)

ENGL 444(3) (Sem: 5-6)  
 LL ED 411(3), LL ED 412W(3), LL ED 420(3) (Sem: 5-8)

**ADDITIONAL COURSES** (24 credits)

Select 3 credits from each cluster (a-h) below:

(a) 200-level British or U.S. Literature Survey (Sem: 3-6)

ENGL 221 GH(3), ENGL 221W(3), ENGL 222 GH(3), ENGL 222W(3), ENGL 231 GH(3), ENGL 231W, ENGL 232 GH(3), ENGL 232W(3)

(b) Elements of Literature (Sem: 3-6)

ENGL 201(3), ENGL 261(3), ENGL 262 GH(3), ENGL 263 GH(3), ENGL 265 GH(3), ENGL 268 GH(3), ENGL 401(3), ENGL 401W(3), COMM 261(3)

(c) 400-level Comparative Literature/Literature of Diverse Cultures (Sem: 5-8)

AM ST 493(3), CMLIT 400Y US;IL(3), CMLIT 401Y IL(3), CMLIT 402Y US;IL(3), CMLIT 403 US(3), CMLIT 404 IL(3), CMLIT 405 US;IL(3), CMLIT 406 IL(3), CMLIT 408 IL(3), CMLIT 422 IL(3), CMLIT 423 IL(3), CMLIT 453 IL(3), CMLIT 470 IL(3), CMLIT 480 IL(3), CMLIT 486 IL(3), CMLIT 487 IL(3), CMLIT 488 IL(3), ENGL 404(3), ENGL 426 US(3), ENGL 431 US(3), ENGL 461 US(3), ENGL 462 US(3), ENGL 463 US(3), ENGL 466 US(3), ENGL 467 US(3), ENGL 468 US(3), ENGL 469 US(3), ENGL 490 US;IL(3); ENGL 401(3), ENGL 402(3), ENGL 404(3) when topic appropriate (with adviser's approval)

(d) 400-level Topics in American Literature (sem: 5-8)

ENGL 430(3), ENGL 432(3), ENGL 433(3), ENGL 434(3), ENGL 435(3), ENGL 436(3), ENGL 437(3), ENGL 438(3), or ENGL 439(3), ENGL 492(3); ENGL 401(3), ENGL 402(3), ENGL 404(3) when topic appropriate (with adviser's approval)

(e) Topics in British Literature (Sem: 5-8)

ENGL 440(3), ENGL 441(3), ENGL 442(3), ENGL 443(3), ENGL 445(3), ENGL 446(3), ENGL 447(3), ENGL 448(3), ENGL 450(3), ENGL 452(3), ENGL 453(3), ENGL 454(3), ENGL 455(3), ENGL 456(3), ENGL 457(3), ENGL 458(3), ENGL 489(3); ENGL 401(3), ENGL 402(3), ENGL 404(3) when topic appropriate (with adviser's approval)

(f) Grammar, Language, and Linguistics (Sem: 5-6)

ENGL 100(3), ENGL 407(3), ENGL 417(3), or LING 100 GS(3)

(g) Creative Writing and/or Advanced Composition (Sem: 5-6)

CAS 214W(3), COMM 260W(3), COMM 460W(3), COMM 461(3), COMM 462(3), COMM 467(3), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 281(3), ENGL 412(3), ENGL 413(3), ENGL 414(3), ENGL 416(3), ENGL 418(3), ENGL 419(3), ENGL 420(3), ENGL 421(3), THEA 440(3)

(h) Rhetoric (Sem: 7-8)

CAS 215(3), CAS 415(3), CAS 475(3), COMM 467(3), ENGL 409(3), ENGL 411(3), ENGL 470(3), ENGL 471(3), ENGL 472(3), ENGL 473(3), ENGL 474(3), ENGL 487W(3)

**MEDIA LITERACIES CORE:** (18 credits)

**PRESCRIBED COURSES** (3 credits)

LL ED 480(3) (Sem: 5-6)

**ADDITIONAL COURSES** (15 credits)

(a) Mass Media. Select 3 credits from:

COMM 100 GS(3), COMM 118 GS(3), COMM 150 GA(3), COMM 205 GS;US(3), COMM 411(3), COMM 413W(3) (Sem: 1-4)

(b) Speech and Oral Performance. Select 3 credits from:

CAS 211(3), CAS 213(3), CAS 215(3), CAS 250(3), CAS 271 US;IL(3), CAS 280W(3) or CAS 480(3), CAS 375(3), CAS 422 US(3), THEA 102 GA(3) (Sem: 4-8)

(c) Media Literacy. Select 9 credits within one, or across several, of the following media literacy areas:

**Multimedia**

ART 100 GA(3), ART H 111 GA;IL(3), ART H 112 GA;IL(3), ART H 120 GA;IL(3), ART H 130 GA;US;IL(3), CAS 175 GH(3), CAS 283(3), CAS 415(3), CAS 483(3), COMM 100 GS(3), COMM 118(3), COMM 120(3), COMM 150 GA(3), COMM 180 GS(3), COMM 205 US(3), COMM 242(3), COMM 250 GA(3), COMM 283W(3), COMM 453 IL(3), COMM 454(3), CMLIT 453(3), PHOTO 100 GA(3), WMNST 205 GS;US(3) (Sem: 1-8)

**Theatre**

THEA 102 GA(3), THEA 103(3), THEA 104(3), THEA 110(3), THEA 112(3), THEA 120(3), THEA 130(3), THEA 131(3), THEA 189(3), THEA 210(3), THEA 428(2) (Sem: 1-8)

**Journalism**

COMM 260W(3), COMM 261 GH(3), COMM 269(3), COMM 409(3), COMM 460W(3), COMM 461(3), COMM 462(3), COMM 467(3), COMM 497 when topic appropriate (with adviser's approval) (Sem: 3-8)

**Communication Arts and Sciences**

CAS 201 GH(3), CAS 202 GS(3), CAS 203 GS(3), CAS 211(3), CAS 213(3), CAS 215(3), CAS 250(3), CAS 280W(3), CAS 311(3), CAS 375(3), CAS 383(3), CAS 411(3), CAS 422 US(3), CAS 455 US(3), CAS 470(3), CAS 471 US;IL(3), CAS 475(3) (Sem: 3-8)

**Creative Writing**

ENGL 210(3), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 281(3), ENGL 412(3), ENGL 413(3), ENGL 422(3), ENGL 423(3), ENGL 425(3) Sem: (3-8)

**Instructional Systems:**

EDTEC 400(3), EDTEC 448(3), EDTEC 566(3), LDT 441(3) (Sem: 3-8)

**Bilingual Education and World Languages:**

APLNG 482Y IL(3), APLNG 491(3), APLNG 493 IL(3), CAS 271 US;IL(3), CAS 471 US;IL(3), LL ED 445(3), WL ED 411(3), WL ED 412W(3), WL ED 414(3), WL ED 422(3), or a foreign language credits at the 12th credit level or above (Sem: 3-8)

**ENVIRONMENTAL EDUCATION TEACHING OPTION:** (55-58 credits) [118](#)

**PRESCRIBED COURSES** (24 credits)

CHEM 101 GN(3), MATH 140 GQ(4) (Sem: 1-3)

BIOL 110 GN(4), BIOL 220W GN(4) (Sem: 1-4)

SCIED 411W(3), SCIED 412(3), SCIED 457(3) (Sem: 5-7)

**ADDITIONAL COURSES** (7-8 credits)

CHEM 020(3) and CHEM 021(1); or CHEM 110 GN(3) and CHEM 111 GN(1) (Sem: 1-3)

BIOL 240W GN(4), W F S 407(3) or W F S 408(3) (Sem: 3-5)

**SUPPORTING COURSES AND RELATED AREAS** (24-26 credits)

Select two courses (6-8 credits) in environmental law, economics, management and policy (e.g., ECON 428; E R M 411, E R M 412, E R M 413W; W F S 410, W F S 447W, W F S 463W) (Sem: 4-7)

Select 4 credits of an environmentally related course in Science Technology and Society (e.g., S T S 047, S T S 135 GS, S T S 420, S T S 460) (Sem: 5-7)

Select at least 14 credits from the cohort Teaching option (see Note 1)

*Note 1:* This option may only be completed in conjunction with another secondary teaching option, such as the Biological Science Teaching option.

*Note 2:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 3:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**GENERAL SCIENCE TEACHING OPTION:** (38 credits) [118](#)

**PRESCRIBED COURSES** (22 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4) (Sem: 1-3)

BIOL 110 GN(4) (Sem: 1-4)

SCIED 411W(3), SCIED 412(3) (Sem: 5-7)

**ADDITIONAL COURSES** (16 credits)

BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4) (Sem: 3-5)

MATH 141 GQ(4) or 4 credits of 200-level STAT GQ courses (Sem: 3-5)

PHYS 250 GN(4) and PHYS 251 GN(4) or PHYS 211 GN(4) and PHYS 212 GN(4) (Sem: 3-5)

*Note 1:* This option may only be completed in conjunction with another secondary teaching option, such as Biology.

*Note 2:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching

options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 3:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**MATHEMATICS TEACHING OPTION:** (57-59 credits) [\[18\]](#)

**PRESCRIBED COURSES** (35-37 credits)

MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-2)

MATH 220 GQ(2-3), MATH 311W(3-4) (Sem: 3-6)

MATH 310(3), MATH 312(3), MATH 414(3), MATH 471(4), MTHED 411(3), MTHED 412W(3), MTHED 427(3) (Sem: 5-8)

**ADDITIONAL COURSES** (16 credits)

CMPSC 101 GQ(3) or CMPSC 121 GQ(3); MATH 230(4) or MATH 231(2) and MATH 232(2); STAT 401(3) or MATH 415(3) or 3 credits of MTHED from program list; MATH 435(3) or MATH 470(3); MATH 436(3) or MATH 441(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from 400-level MATH or MTHED courses (Sem: 5-8)

**PHYSICS TEACHING OPTION:** (55-62 credits) [\[18\]](#)

**PRESCRIBED COURSES** (45-46 credits)

CHEM 110 GN(3), CHEM 111 GN(1), CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-3)

PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 3-4)

MATH 220 GQ(2-3), PHYS 213 GN(2), PHYS 214 GN(2) (Sem: 3-6)

PHYS 237(3), PHYS 400(3), PHYS 419(3), SCIED 411W(3), SCIED 412(3) (Sem: 5-7)

**ADDITIONAL COURSES** (6-12 credits)

PHYS 457(1-3), or PHYS 402(4) or PHYS 458(4); MATH 230(4) or MATH 231(2); MATH 250(3) or MATH 251(4) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (4 credits)

Introductory biological sciences survey courses [e.g., BIOL 110 GN(4)] (Sem: 3-6)

*Note 1:* Students may complete multiple science teaching options concurrently by completing all of each option's requirements. The six science teaching options are: Biology, Chemistry, Earth and Space Science, Environmental Education, General Science, and Physics.

*Note 2:* Red Cross certification in First Aid and CPR (or their equivalent) must be earned for science certification.

**SOCIAL STUDIES TEACHING OPTION:** (57 credits) [\[18\]](#)

**PRESCRIBED COURSES** (24 credits)

ECON 104 GS(3), GEOG 010 GN(3), GEOG 020 GS(3), HIST 020 GH;US(3), HIST 021 GH;US(3), PL SC 001 GS(3) (Sem: 1-6)

SS ED 411(3), SS ED 412W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 3 credits from HIST 001 GH;IL(3) or HIST 010 GH;IL(3) (Sem: 1-6)

Select 3 credits from HIST 002 GH;IL(3) or HIST 011GH;IL(3) (Sem: 1-6)

Select 6 credits from ANTH 045 GS;US;IL(3); ECON 102 GS(3); GEOG 030 GS;IL(3), GEOG 040 GS;IL(3), GEOG 160 GS(3) LDT 433(3), PL SC 003 GS;IL(3), PL SC 014 GS;IL(3), SOC 001 GS(3), SS ED 200 US(3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 6 credits of 400-level History (Sem: 5-8)

Select one concentration (15 credits) below:

**Citizenship Education**

Select 6 credits from: ANTH 045 GS;US;IL(3), ECON 102 GS(3), ECON 302 GS(3), ECON 304 GS(3), ECON 315 GS(3), ECON 323 GS(3), ECON 333 GS(3), ECON 344 GS(3), PL SC 003 GS;IL(3), PL SC 007 GS(3), PL SC 014 GS;IL(3), PL SC 110 GS;US(3), PL SC 123 GS;US;IL(3), PL SC 125(3), or PL SC 130 GS;US(3), SOC 001 GS(3) (Sem: 1-8)

Select 3 credits from: GEOG 030 GS;IL(3), GEOG 040 GS;IL(3), GEOG 120 GS;US;IL(3), GEOG 122 GH;US(3), GEOG 123 GS;IL(3), GEOG 124 GS;IL(3), GEOG 126 GS;US;IL(3), GEOG 128 GS;IL(3), GEOG 130 GS(3), or GEOG 160 GS(3) (Sem: 1-8)

Select 3 credits of History at the 100-level or above (Sem: 1-8)

SS ED 200 US(3) (Sem: 1-8)

**Civics and Government**

PL SC 003 GS;IL(3) (Sem: 1-8)

PL SC 014 GS;IL(3) (Sem: 1-8)

Select 3 credits from: PL SC 007 GS(3), PL SC 110 GS;US(3), PL SC 123 GS;US;IL(3), PL SC 125(3), or PL SC 130 GS;US(3) (Sem: 1-8)

Select 6 credits of 400-level Political Science (Sem: 5-8)

**Economics**

ECON 102 GS(3) (Sem: 1-8)

ECON 302 GS(3) (Sem: 1-8)

ECON 304 GS(3) (Sem: 1-8)

Select 6 credits of 400-level Economics (Sem: 5-8)

**Geography**

Select 9 credits of Geography below the 100 level (Sem: 1-8)

Select 6 credits of 400-level Geography (Sem: 5-8)

**Social Sciences**

Select 9 credits of Anthropology, Psychology, and/or Sociology below the 400 level (Sem: 1-8)

Select 6 credits of 400-level Anthropology, Psychology, and/or Sociology (Sem: 5-8)

*Note 1:* Courses taken to meet Additional Courses and other Supporting Courses and Related Areas requirements cannot also be applied to the concentration. Different courses need to be selected for the concentration and Additional Courses and other Supporting Courses and Related Areas requirements.

**[18]** A grade of C or better per course is required for teacher certification.

## Secondary Education Social Studies

*Capital College (SESST)*

PROFESSOR KAMINI GRAHAME, *Program Coordinator, School of Behavioral Sciences and Education*

The Secondary Education Social Studies major prepares students to meet the requirements as established by the Pennsylvania Department of Education, to be certified for the Social Studies Instructional I Certificate. The major prepares students to teach history, government, economics, geography, psychology, sociology, and anthropology.

Students are challenged to prepare for teaching assignments at the middle and high school level, and in diverse settings characterized as rural, urban, and suburban. The art and science of teaching in secondary schools is undergoing significant transformation as new technologies, time allocation for instruction, and new instructional strategies are impacting the delivery of social studies instruction.

Students admitted to the program must have the appropriate clearances. These include FBI fingerprint check, Act 151 child abuse history clearance, and Act 34 criminal record check.

Students thinking seriously about entering the education program should plan their freshman and sophomore years carefully. Semesters 5 through 8 are very structured.

### Entry to Secondary Education Social Studies requires the following:

1. A minimum grade point average of 3.0.
2. Completion of ENGL 015 GWS(3) or ENGL 030 GWS(3) and three credits of literature from approved list with a C or higher grade.
3. Completion of six credits of college-level mathematics (MATH or STAT prefixes) with a C or higher grade.
4. Satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for the major

### Selective Retention:

Following entrance to the major, students will be evaluated for retention in the program based on:

1. maintaining a cumulative GPA of 3.0 or higher;
2. completion of required courses with a C or higher grade;
3. an acceptable or above rating on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

To be eligible to student teach, students must:

1. maintain a cumulative GPA of 3.0 or higher;
2. complete all required Content and Education Courses with a C or higher grade;
3. satisfaction of any entrance testing requirements set out by the Pennsylvania Department of Education in effect at the time of application for entrance to major;
4. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

In order to successfully complete the Secondary Education Social Studies Program, students must:

1. complete EDUC 490 with a grade of C or higher;
2. maintain a cumulative GPA of 3.0 or higher;
3. complete all required Content and Education Courses with a C or higher grade;
4. complete a presentation portfolio; and
5. be rated acceptable or above on the Penn State Harrisburg Professional Dispositions for Teacher Education.\*

\*FOR MORE DETAILED INFORMATION SEE THE SECONDARY EDUCATION HANDBOOK.

For a B.SOSC. degree in Secondary Education Social Studies, a minimum of 122 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(21 of these credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES, GENERAL EDUCATION, or REQUIREMENTS FOR THE MAJOR)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 3 credits

### REQUIREMENTS FOR THE MAJOR: 95 credits

(This includes 21 credits of General Education courses: 6 credits of GH courses, 3 credits of GN courses, 6 credits of GS courses, 6 credits of GQ courses.)

(At least 15 credits must be at the 400 level.)

### PRESCRIBED COURSES (65 credits)<sup>[1]</sup>

BI SC 003 GN(3), C I 280 GH(3), EDPSY 014(3), HIST 020 GH;US(3), HIST 021 GH;US(3), PSYCH 100 GS(3), SOC 001 GS(3) (Sem: 1-4)

EDUC 313(2), EDUC 314(3), EDUC 315W US(3), EDUC 415(3), EDUC 458(3), EDUC 459(3), EDUC 490(12) (Sem: 5-8)

GEOG 040 GS;IL(3), GEOG 128 GS;IL(3), HD FS 239 GS(3), HIST 320(3), PL SC 001 GS(3) (Sem: 5-8)

### ADDITIONAL COURSES (12 credits)

Select 6 credits from the following:

MATH 017 GQ(3), MATH 018 GQ(3), MATH 021 GQ(3), MATH 022 GQ(3), MATH 026 GQ(3), MATH 030 GQ(3), MATH 035 GQ(3), MATH 036 GQ(3), MATH 040

GQ(5), MATH 200 GQ(3) or MATH 220 GQ(2-3), STAT 100 GQ(3), STAT 200 GQ(4) (Sem: 1-4)

Select 3 credits from: ECON 104 GS(3) or ECON 014 GS(3) (Sem: 1-4)

Select 3 credits from: HIST 001 GH;IL(3) or HIST 010 GH;IL(3) (Sem: 1-4)

### SUPPORTING COURSES AND RELATED AREAS (18 credits)

(6 of these 18 credits must be at the 400-level. In addition, 3 of these must be US cultures)

Select 3 credits of literature courses from approved department list (Sem: 1-4)

Select 3 credits of African American studies, American studies, history or minority studies from approved department list (Sem: 5-8)

Select 3 credits of anthropology from approved department list (Sem: 5-8)

Select 3 credits of psychology from approved department list (Sem: 5-8)

Select 3 credits of political science (Sem: 5-8)

Select 3 credits of sociology (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

CL

## Sociology

University Park, College of the Liberal Arts (SOCBA)

PROFESSOR JOHN ICELAND, *Head*

The major provides graduates with a sociological perspective on human behavior informed by exposure to different substantive areas of the field; an understanding of the structure of American society, its internal diversity, and its international context; an understanding of basic principles of the scientific method, statistics, research design, computer use, logic and critical thinking, and how these apply to the study of human behavior; and experience in posing sociological questions and collecting and analyzing data to bear on those questions. Graduates have the background to seek employment in a variety of public and private sector jobs, to pursue graduate study in sociology or related areas, or to enter professional schools in social work, law, business, or health fields.

Students may choose either a Bachelor of Arts or a Bachelor of Science degree program. The B.A. degree in Sociology is a classic liberal arts degree. The B.S. degree is intended for students with a strong interest in quantitative skills. Students completing the B.S. degree have additional training in mathematics and other social science disciplines.

Opportunities to work as departmental teaching and research assistants are available. Students are encouraged to participate in study abroad and/or internship experiences while enrolled in either the B.A. or B.S. sociology majors.

Graduates of this program have found positions in social research, social service agencies, government and business research and planning offices, other business positions (especially sales and marketing), or have entered graduate school in sociology, social work, policy analysis or law school.

For the B.A. and B.S. degrees in Sociology, a minimum of 123 credits is required. Either degree may be combined with a minor such as Business/Liberal Arts, Human Development and Family Studies, or Information Systems and Statistical Analysis, among others.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

## Sociology

*University Park, College of the Liberal Arts (SOCBS)*

PROFESSOR JOHN ICELAND, *Head*

Students may choose either a Bachelor of Arts or a Bachelor of Science degree program. The B.A. degree program provides a basic orientation to the field as a whole, study of its development and principles, training in methodology and study in depth of a major area of the discipline. It provides knowledge that is useful in a career in varied work settings as well as providing the foundation needed for graduate study in sociology of related fields.

For the B.S. degree in Sociology, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**INTERCULTURAL AND INTERNATIONAL COMPETENCE:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21-23 credits

**REQUIREMENTS FOR THE MAJOR:** 61-63 credits<sup>[1]</sup>

(This includes 6 credits of General Education GQ courses.)

**PRESCRIBED COURSES** (13 credits)

SOC 001 GS(3), SOC 207(3) (Sem: 1-8)

SOC 405(3), STAT 480(1) (Sem: 5-8)

SOC 400W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (9-11 credits)

MATH 110 GQ(4), MATH 111 GQ(2); or MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-4)

CAS 283(3) or MATH 441(3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (39 credits)

Select 18 credits in sociology, 15 credits of which must be in an area of specialization chosen in consultation with a faculty adviser (9 credits must be at the 400 level) (Sem: 1-8)

Select 18 credits in social sciences, 9 credits in each of two fields of the social sciences other than sociology (at least 9 credits must be at the 400 level) (Sem: 3-8)

Select 3 credits in statistics at the 300 level or above (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Sociology

*Capital College (SOCIO)*

PROFESSOR KENNETH B. CUNNINGHAM, *Program Coordinator*

Sociology is the scientific study of society in all of its complexity. It includes the study of social structure, social interaction and social change from the micro level of small groups and families; to the meso level of communities, organizations, and institutions; to the macro level of globalization, war, technology and culture. The world today is undergoing tremendous changes and facing great challenges, problems, and possibilities. Sociology attempts to understand our world and to improve it.

The sociology major at Penn State Harrisburg provides a unique orientation to social change at multiple levels, including families, communities, organizations, social movements, institutions, society, and the world system. The major addresses topics such as culture, race/ethnicity, gender, sexual orientation, social class, inequality, urban life, globalization, environmental change, and political conflict.

The sociology program at Penn State Harrisburg prepares students to succeed in an increasingly complex, diverse, and globalized world. A major in sociology provides opportunities for a wide range of career options. Students with degrees in sociology work in social services, community, advocacy and non-profit organizations, education, business, law, criminal justice, policy-making, social science research, and public administration. An undergraduate degree in sociology also provides a strong foundation for graduate study in sociology and fields such as law, social work, human resources, criminal justice, community psychology, urban planning, political science, and related areas.

Two options are available within the major: (1) the General Sociology Option and (2) the Community Organization and Social Services Option.

**GENERAL SOCIOLOGY OPTION:** This option provides students with strong education in general sociology in a diverse range of sociological topics. The General Sociology Option is designed for students who seek a solid sociological education with preparation for the widest range of careers and employment opportunities, as well as for graduate education.

**COMMUNITY ORGANIZATION AND SOCIAL SERVICES OPTION:** This option provides students with strong preparation for careers working in community settings or in social services. The Community Organization and Social Services Option is designed for students who wish to work directly with people in a broad range of possible settings, in both public and private sectors.

### Entry to Major Requirements:

Entry to the Sociology major requires 2.00 or higher cumulative grade-point average.

For a B.S. degree in Sociology, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(3 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES, GENERAL EDUCATION, or MAJOR REQUIREMENTS)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in REQUIREMENTS FOR THE MAJOR)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 9-15 credits

### REQUIREMENTS FOR THE MAJOR: 67-73 credits<sup>[1]</sup>

(This includes 7 credits of General Education course requirements: 3 credits of GWS courses; 4 credits in GQ courses)

### COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS): 46-52 credits

#### PRESCRIBED COURSES (18-24 credits)

ENGL 202A GWS(3), SOC 001 GS(3) (Sem: 1-4)

SOC 207(3), SOC 400W(3), SOC 405(3), SOC 495(3-9) (Sem: 5-8)

#### ADDITIONAL COURSES (28 credits)

At least 9 of these credits must be at the 400-level

A. Statistics. Select 4 credits from PSYCH 200 GQ(4), STAT 200 GQ(4) (Sem: 1-4)

B. Social Institutions. Select 9 credits from SOC 030(3), SOC 055(3), SOC 403(3), SOC 411 US(3) or HD FS 416 US(3), SOC 416(3), SOC 429(3), SOC 430(3), SOC 446(3), SOC 456/WMNST 456(3) (Sem: 5-8)

C. Social Change and Global Perspectives. Select 9 credits from SOC 015(3), SOC 109(3), SOC 297(3), SOC 424(3), SOC 425(3), SOC 432(3), SOC 445(3), SOC 448(3), SOC 454 US(3) (Sem: 5-8)

D. Diversity. Select 6 credits from AF AM 212 US(3), BE SC/WMNST 464 US(3), SOC/AF AM/WMNST 103 US(3), SOC/WMNST 110 GS/US(3), SOC/AF AM 409 US(3), SOC 428(3), SOC 435 or HD FS 434 (3), SOC/RL ST 461 US;IL(3), WMNST/CED 420 US;IL(3) (Sem: 5-8)

### REQUIREMENTS FOR THE OPTION: 21 credits

#### GENERAL SOCIOLOGY OPTION: (21 credits)

#### ADDITIONAL COURSES (9 credits)

Select 3 credits from each of sections B, C and D above (Sem: 5-8)

#### SUPPORTING COURSES AND RELATED AREAS (12 credits)

Select 6 credits (minimum of 3 credits at the 400-level) in consultation with adviser from AAA S, AF AM, BE SC, GEOG, SOC (Sem: 5-8)

Select 6 credits (minimum of 3 credits at the 400-level) in consultation with adviser from AM ST, ANTH, ART, ART H, COMM, CRIMJ, ENGL, HD FS, HIST, I HUM, MGMT, MUSIC, PL SC, PSYCH, PUBPL, THEA, WMNST (Sem: 5-8)

#### COMMUNITY ORGANIZATION AND SOCIAL SERVICES OPTION: (21 credits)

#### PRESCRIBED COURSES (6 credits)

BE SC 370(3) (Sem: 5-8)

SOC 005 GS(3) (Sem 1-4)

#### ADDITIONAL COURSES (9 credits)

Select 3 credits from each of A, B, and C below (Sem: 5-8)

A. Organization and Leadership: BE SC 376(3), BE SC 408(3), MGMT 321(3), MGMT 331(3)

B. Community Contexts: SOC 015(3), SOC 103 US(3), SOC 406(3), SOC 412(3)

C. Group Processes and Dynamics: BE SC 407(3), BE SC 459(3), SOC 003 GS(3), SOC 403(3), SOC 404(3)

#### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Choose 6 credits (minimum of 3 credits at the 400-level) in consultation with adviser from AF AM, AM ST, ANTH, ART, ART H, BE SC, COMM, CRIMJ, ENGL,

GEOG, HD FS, HIST, I HUM, MGMT, MUSIC, PL SC, PSYCH, PUBPL, SOC, THEA, WMNST (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

CL

## Social Data Analytics

University Park, College of the Liberal Arts (SODA)

Professor Lee Ann Banaszak, *Head, Department of Political Science*

Social Data Analytics is an interdisciplinary major that prepares students to participate in both a research environment where "big data" is a major source of insight into social and political processes, and an economy increasingly organized around data analytics. Students completing the major will have the technical skills to handle, analyze, apply and present big data, and the disciplinary knowledge to draw valid inferences from such information to address real world problems. The program integrates coursework in the social sciences with courses in statistics, mathematics, information science and computer science to develop the unique skill set necessary to conceptualize data sources in relation to the social conditions from which they arise; to think critically about big data in relation to specific problems; and to derive and test hypotheses through application of data tools and techniques. Students will gain valuable practical experience working with data through a capstone experience and participation in faculty research.

This major is intended to produce graduates who are big picture thinkers with the knowledge to formulate good questions and leverage vast stores of unstructured data in answering them. Students will be prepared for careers in government, business, healthcare, and industry. The major also provides a strong foundation for advanced study in social science, law, business and public policy.

For the B.S. degree in Social Data Analytics, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 90-92 credits [1]

(This includes 15 credits of General Education courses: 6 credits of GQ courses, 6 credits of GS courses, and 3 credits of GH courses.)

**PRESCRIBED COURSES** (54 credits)

PL SC 001 GS(3), PL SC 197(3), CMPSC 121 GQ(3), CMPSC 122(3), IST 210(3) (Sem: 1-2)

PL SC 309(3), SODA 308(3), MATH 220 GQ(3), CMPSC 221(3), CMPSC 360(3), STAT 318(3), DS 220(3) (Sem: 3-4)

DS 310(3), DS 330(3), STAT 380(3) (Sem: 4-6)

DS 300(3), PL SC 496(6) (Sem: 7-8)

**ADDITIONAL COURSES** (36-38 credits)

Select 4 credits from MATH 110 GQ(4) or MATH 140 GQ(4) (Sem: 1-2)

Select 2-4 credits from MATH 111 GQ(2) or MATH 141 GQ(4) (Sem: 1-2)

Select 3 credits from PL SC 003 GS;IL(3), PL SC 007 GS(3), PL SC 014 GS;IL(3), PL SC 017 GS(3) (Sem: 1-4)

Select 3 credits from PHIL 107 GH(3), S T S 101 GH(3), PHIL 106 GH(3), PHIL 233 GH(3), PHIL 406(3), PHIL 407(3) (Sem: 1-4)

Select 15 credits of PL SC courses; at least 12 credits must be at the 400 level and at least 9 credits must be data intensive courses from a department list, including but not limited to PL SC 404(3), PL SC 429(3), PL SC 447(3), PL SC 476(3) (Sem: 3-8)

Select 9 credits from CMPSC 431(3), CMPSC 448(3), CMPSC 465(3), DS 320(3), DS 402(3), DS 410(3), STAT 319(3), STAT 440(3), STAT 464(3) and Analytics courses from a department list.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Review Date: 04/14/2015

## Special Education

University Park, College of Education (SPLED)

PROFESSOR KATHLEEN MCKINNON, *Coordinator of Teacher Education in Special Education*

The emphasis throughout the Special Education program is upon a broad clinical teaching model. Course work and practicum experiences focus upon the diagnosis and management of a wide range and degree of educational and behavioral problems of students with disabilities between the ages of 3 and 21. A core of Special Education courses aimed at general skill development in the areas of diagnosis, prescription, development of materials and teaching strategies, implementation, and evaluation is required of all students.

This major focuses on teaching principles and methodologies, classroom and behavioral management, and the development of teaching materials for children and youths with mild, moderate, and severe disabilities. This program helps prepare special education teachers to meet the needs of students enrolled in elementary and secondary public school special education programs.

Baccalaureate degree candidates must meet the following requirements 1-3 by the end of their third semester:

1. A minimum cumulative grade point average of 3.00
2. Satisfaction of any basic-skills or entrance testing requirements as specified by the Pennsylvania Department of Education in force at the time of application for entrance to the major.
3. Documentation of at least 80 hours of volunteer or paid education work experience with learners of the age group the candidate plans to teach. Candidates for Special Education must document two separate 40-hour experiences in two different settings, with learners who have special needs. One experience should include learners with a different level of severity or functioning (e.g., mild/severe, young/adult) from those learners in the other experience. One experience should also include learners with cultural, social, or ethnic backgrounds different from the candidates own.

Requirements 4-9 must be met by the end of the fourth semester when students typically participate in the Entrance to Major process.

4. A grade of "C" or better in all specified courses.
5. Completion of an early field experience specified by the certification program.
6. Completion of a core of Education courses specified by the certification program.
7. Completion of additional credits as specified by the certification program.
8. Completion of at least 48 semester credit hours, including ENGL 015 GWS(3) or ENGL 030 GWS(3), three credits of literature, and six credits of quantification.
9. Approval from the professional education adviser or the head of the pertinent certification program.

For the B.S. degree in Special Education, 122 credits are required. (See also [Teacher Education Programs](#).)

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(12-15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 3 credits [\[19\]](#)

**REQUIREMENTS FOR THE MAJOR:** 86 credits [\[21\]](#)

(This includes 12 credits of General Education courses: 6 credits of GQ courses; 6 credits of GS courses.)

**PRESCRIBED COURSES** (86 credits)

EDPSY 010 GS(3), EDPSY 014(3), EDPSY 101 GQ(3), EDTHP 115 US(3), MATH 200 GQ(3), PSYCH 100 GS(3), PSYCH 212 GS(3) (Sem: 1-4)

Red Cross Certification in First Aid and CPR(0) (Sem: 1-8)

EDPSY 421(3), SPLED 395W(3), SPLED 401(4), SPLED 404(3), SPLED 408(3), SPLED 411(3), SPLED 412(4), SPLED 454(4), SPLED 425(4), SPLED 495E(3) (Sem: 5-6)

SPLED 409A(3), SPLED 409B(3), SPLED 409C(3), SPLED 418(3), SPLED 495F(15), SPLED 495G(4) (Sem: 7-8)

### Integrated B.S. in Special Education - M.Ed. in Curriculum and Instruction

The Special Education and Curriculum and Instruction with Emphasis in Language and Literacy Education Integrated Undergraduate-Graduate (SE/CI-LL ED IUG) Degree Program consists of integration of required courses for a B.S. in Special Education with courses required for certification as a Reading Specialist and a M.Ed. in Curriculum and Instruction with emphasis in Language and Literacy Education. The five-year, SE/CI-LLED IUG is an option for highly qualified students seeking certification to teach Special Education in Pennsylvania in grades K-12. Completion of the IUG (along with earning a passing score on PDE required PRAXIS tests) leads to a B.S. in Special Education, certification in Special Education and as a Reading Specialist in the state of Pennsylvania, and a M.Ed. in Curriculum and Instruction. Students are expected to complete courses required for the graduate level K-12 reading specialist concurrent with their undergraduate experiences and coursework in Special Education and will complete a capstone Special Education teaching experience in their final semester.

#### Time of Admission to SE/CI-LLED IUG

Students wishing to apply for admission to the SE/CI-LLED IUG initiate application during the semester in which they complete SPLED 495E. They finalize the application process at the end of the semester with a grade of B or better in SPLED 412. While this is typically the end of the junior year of study, it may fall sooner or later.

#### Joint Admission Process

Special Education and Curriculum and Instruction are located in the College of Education, with Reading Specialist certification offered through the Department of Curriculum and Instruction's emphasis area in Language and Literacy Education. Admission to the SE/CI-LLED IUG will be based upon having attained a minimum GPA of 3.5 or higher, with a grade of B or better in SPLED 412.

Admission will be based on a recommendation by the Reading Specialist Program Coordinator in consultation with the Coordinator of Teacher Education in Special Education.

Students will be expected to maintain a minimum GPA of 3.0 throughout the IUG program of study. Failure to do so will result in the student being placed on academic probation for one semester; after which time, if the GPA is not 3.0 or higher, the student will be dropped from the IUG.

If the student decides not to continue enrollment in the joint SE/CI-LLED IUG, the student may, contingent upon fulfilling all other requirements for the B.S. in SPLED, complete SPLED 495 (the traditional capstone field experience) in their final semester and graduate with a B.S. in Special Education.

#### Advising

Beginning during the application process, as well as subsequent to admission, students should communicate with both their SPLED program adviser and the program adviser for the C I Reading Specialist program to ensure requirements of both programs are met.

#### Reduced Course Load

EDPSY 421 and LL ED 595A may be double counted for the M.Ed. as well as the B.S. degree.

**Tuition Charges**

Undergraduate tuition rates will apply as long as the student is an undergraduate, unless the student receives financial support, for example, an assistantship requiring payment of graduate tuition (from "Information and Guidelines for Establishing Integrated Undergraduate-Graduate Degree Programs" - approved by the Graduate Council, May 8, 1996).

**[19]** Students may apply 3 credits of ROTC.

**[21]** A grade of C or better per course is required for all Special Education prerequisites and teacher certification.

## Spanish

University Park, College of the Liberal Arts (SPNBA)

PROFESSOR PAOLA (GIULI) DUSSIAS, *Head*

This major is designed to develop basic skills in speaking, understanding, reading, and writing Spanish. In addition, the program aims to acquaint students with the literature and civilization of the Hispanic world and introduce them to the study of Hispanic linguistics. Enough flexibility is provided to permit a degree of concentration in either Hispanic literature or linguistics. Specialized courses are offered in translation techniques and in the use of Spanish for social services. Courses taken in the University's Education Abroad Program in Spain and Mexico may be applied to the major. In conjunction with the College of Education, students may take work leading to certification as Spanish teachers in the secondary or elementary schools.

Combined with course work in business, social welfare, or bilingual education, the B.A. in Spanish can facilitate entry into a number of professional areas. In addition, it provides the traditional foundation for advanced degree work required for such careers as college teaching and government service. Students are eligible to participate in the University's Education Abroad Programs.

For the B.A. degree in Spanish, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or BACHELOR OF ARTS DEGREE REQUIREMENTS course selections)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**PRESCRIBED COURSES** (9 credits)

SPAN 200(3) (Sem: 2-6)

SPAN 215(3) (Sem: 3-6)

SPAN 253W(3) (Sem: 3-8)

**ADDITIONAL COURSES** (18 credits)

SPAN 100(3) or SPAN 100A(3)\* (Sem: 2-6)

Select 9 credits from the following course list: SPAN 210(3), SPAN 220(3), SPAN 297(3), SPAN 300(3), SPAN 305(3), SPAN 353(3), SPAN 354(3), SPAN 355(3),

SPAN 356(3), SPAN 397(3), SPAN 399 IL(3) (Sem: 3-8)

Select 3 credits from the following: SPAN 439(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9) (Sem: 5-8)

## Spanish

University Park, College of the Liberal Arts (SPNBS)

PROFESSOR PAOLA (GIULI) DUSSIAS, *Head*

This major encourages students to prepare for careers in which fluency in Spanish can be combined with training in other academic disciplines.

For the B.S. degree in Spanish, a minimum of 122 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits  
(0-9 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 17-19 credits

**REQUIREMENTS FOR THE MAJOR:** 60-71 credits<sup>[1]</sup>  
(This includes 0-13 credits of General Education courses: 0-4 credits of GQ courses; 0-6 credits of GS courses, 0-3 credits of GWS courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 21 credits

**PRESCRIBED COURSES** (6 credits)  
SPAN 215(3), SPAN 253W(3) (Sem: 2-8)

**ADDITIONAL COURSES** (15 credits)  
SPAN 100(3) or SPAN 100A(3)\* (Sem: 2-6)  
SPAN 200(3) or SPAN 301(3)\* (Sem: 2-6)  
Select 9 credits from SPAN 210(3), SPAN 220(3); SPAN 300(3), SPAN 305(3), SPAN 353(3), SPAN 354(3), SPAN 355(3), SPAN 356(3), SPAN 399 IL(1-12) (Sem: 1-8)

**REQUIREMENTS FOR THE OPTION:** 39-50 credits

**APPLIED SPANISH OPTION:** (39 credits)  
This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to provide Spanish majors with concentration in a professional area where a command of Spanish can be particularly relevant and useful. Students are eligible to participate in the University's Education Abroad Programs.

**ADDITIONAL COURSES** (18 credits)  
Select 3 credits from the following: SPAN 439(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9) (Sem: 5-8)  
Select 3 credits from the following: SPAN 414(3), SPAN 415(3), SPAN 418(3), SPAN 497(1-9) (Sem: 5-8)  
Select 12 credits from SPAN 410(3), SPAN 412(3), SPAN 413(3), SPAN 414(3), SPAN 415(3), SPAN 418(3), SPAN 420(3), SPAN 439(3), SPAN 440(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9), SPAN 499 IL(1-12) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)  
Select 21 credits in consultation with the adviser in any related area of study such as social services, the teaching of English as a second language, or in any other professional area in which competency in Spanish is desirable. At least 6 credits of such courses must be at the 400 level. (Sem: 1-8)

**BUSINESS OPTION:** (50 credits)  
This option is designed to develop basic skills in Spanish (speaking, understanding, reading, writing) and to acquaint students with a number of fields essential to business, especially in the international area. Courses in translation techniques, Spanish civilization, and Ibero-American civilization are an integral part of the option. Students are eligible to participate in the University's Education Abroad Programs.

**PRESCRIBED COURSES** (34 credits)  
ACCTG 211(4), ECON 102 GS(3), ECON 104 GS(3), ECON 333 GS(3), ENGL 202D GWS(3), FIN 100(3), I B 303 IL(3), I B 403(3), MGMT 100W(3); MKTG 221(3), SPAN 420(3) (Sem: 1-8)

**ADDITIONAL COURSES** (16 credits)  
Select 4 credits from SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 1-8)  
Select 12 credits from SPAN 410(3), SPAN 412(3), SPAN 413(3), SPAN 414(3), SPAN 415(3), SPAN 418(3), SPAN 439(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9), SPAN 499 IL(1-12) (Sem: 5-8)

\* Heritage speakers (students with Spanish language in family background) and native speakers of Spanish should take SPAN 100A and SPAN 301 instead of SPAN 100 and SPAN 200. May not take SPAN 410.

### Integrated Spanish B.S. and Human Resources and Employment Relations M.S. Degree Programs (SPHRER)

PROFESSOR MARK WARDELL, *in charge*

The integrated Spanish B.S. and HRER M.S. is a five-year program designed for highly qualified and motivated students seeking employment within a culturally diverse workplace. Students will develop basic skills in speaking, understanding, reading, and writing Spanish. Students will gain familiarity with Hispanic cultures through literature and the University's Education Abroad Program, if they choose to have that experience. Students also will learn about (1) the roles of employers, employees, employee organizations, and public policy makers play in the employment relationship, (2) the complex personal and organizational issues inherent in the employment relationship, and (3) how to systematically analyze those complex issues and evaluate research relevant to those analyses.

For the B. S./M. S. degree in Integrated Spanish B.S. and Human Resources and Employment Relations M.S., a minimum of 154 credits is required. Twelve graduate level credits can apply to both undergraduate and graduate degrees; six of these must be at the 500 level. Students can complete the B.S. in Spanish and not advance to the M.S. HRER degree if they desire.

Scheduling Recommendation by Semester Standing given like (Sem:1-2)

### BACHELOR OF SCIENCE

**GENERAL EDUCATION:** 45 credits  
(10 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**REQUIREMENTS FOR THE MAJOR:** 101 credits

(This includes 10 credits of General Education courses; 6 credits of GS courses; 4 credits of GQ courses.)

**PRESCRIBED COURSES** (27 credits)

[Some courses in this category have prerequisites that are not included in the major]

SPAN 100(3), SPAN 120(3), SPAN 200(3), SPAN 253W(3), SPAN 305(3) (Sem: 1-6)

SPAN 400(3), SPAN 410(3), SPAN 412(3), SPAN 414(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

SPAN 210(3) or SPAN 220(3), SPAN 353(3) or SPAN 354(3) (Sem: 3-6)

SPAN 472(3) or SPAN 476(3) (Sem: 5-8)

Select 3 credits of SPAN 413(3), SPAN 415(3), SPAN 418(3), SPAN 420(3), SPAN 439(3), SPAN 490(3), SPAN 491(3), or SPAN 497(1-9) (Sem: 5-8)

**LABOR AND EMPLOYMENT RELATIONS:** (32 credits)

[Prescribed undergraduate credits in Labor and Employment Relations option]

ECON 102 GS(3), LER 100 GS(3), LER 201(3), LER 312(4), LER 400 IL(3), LER 414W(3), LER 458Y US(3), STAT 200 GQ(4) (Sem: 1-6)

HRER 501(3), HRER 512(3) (Sem: 7-8)

**Master of Science**

EMPLOYMENT RELATIONS/HUMAN RESOURCES M.S.: (30 credits)

[HRER credits to be selected from the following in consultation with an HRER adviser]

HRER 500, HRER 502, HRER 504, HRER 505, HRER 513, HRER 516, HRER 535, HRER 536, HRER 595\*, HRER 596\*, HRER 597, HRER 599

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

\* Heritage speakers (students with Spanish language in family background but not necessarily a native speaker) should take SPAN 100A and SPAN 301W instead of SPAN 100 and SPAN 300W.

Last Revised by the Department: Spring Semester 2012

LA

## Security and Risk Analysis

*Penn State Altoona (SRAAL)*

*Penn State Berks (SRABL)*

*Penn State Harrisburg (SRACA)*

*University Park, College of Information Sciences and Technology (SRA)*  
*World Campus*

*Mary Beth Rosson, Associate Dean for Graduate and Undergraduate Studies, College of IST*

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Science in Security and Risk Analysis (SRA) in the College of Information Sciences and Technology is intended to familiarize students with the general frameworks and multidisciplinary theories that define the area of security and related risk analyses. Courses in the major will engage students in the challenges and problems associated with assuring information confidentiality and integrity (e.g., social, economic, technology-related, and policy issues), as well as the strengths and weaknesses of various methods for assessing and mitigating associated risk.

The major provides a grounding in the analysis and modeling efforts used in information search, visualization, and creative problem solving. This knowledge is supplemented through an examination of the legal, ethical, and regulatory issues related to security that includes analyzing privacy laws, internal control and regulatory policies, as well as basic investigative processes and principles. Such understanding is applied to venues that include transnational terrorism, cyber crimes, financial fraud, risk mitigation, and security and crisis management. It also includes overviews of the information technology that plays a critical role in identifying, preventing and responding to security-related events.

Advisory groups from within and outside the University involved in the design of the major have agreed that graduates who can understand the cognitive, social, economic, and policy issues involved in security and risk management as well as the basics of the information technology and analytics that are included in the security/risk arena will be very successful. These observations drove the design and objectives of the SRA major.

SRA majors will choose one of the following options:

**INTELLIGENCE ANALYSIS AND MODELING OPTION.** This option focuses on developing a more thorough knowledge of the strategic and tactical levels of intelligence collection, analysis, and decision-making. This includes examining the foundations of decision analysis, economic theory, statistics, data mining, and knowledge management, as well as the security-specific contexts in which such knowledge is applied.

**INFORMATION AND CYBER SECURITY OPTION.** This option includes a set of courses that provides an understanding of the theories, skills, and technologies associated with network security, cyber threat defense, information warfare, and critical infrastructure protection across multiple venues.

**SOCIAL FACTORS AND RISK.** This option includes the legal, regulatory, ethical, and other theories associated with security and risk. Such an examination is focused on understanding the social factors and causes that are linked to transnational terrorism, investigations and litigation involved in business, and other security-related environments.

**Entrance Requirements:** To be eligible for entrance to the Security and Risk Analysis (SRA) major, students must:

1. have completed the following entrance-to-major requirements with grades of C or better in each: IST 110(3); SRA 111(3); and SRA 211(3).
2. have achieved a minimum cumulative grade point average of 2.00 prior to and through the end of the semester during which the entrance-to-major procedure is carried out.

The Integrated Undergraduate Graduate (IUG) program is available for strong undergraduate students who wish to pursue a bachelor's and master's degree in a shorter period of time than would be necessary if the degrees were pursued separately. Security and Risk Analysis undergraduates may apply for admission to the SRABS/ISTMS IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the SRABS undergraduate degree program.
2. Must have completed 60 credits of an SRABS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST. Students must complete the [Graduate School application](#).
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.
6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for IUG in the Schreyer Honors College:

<http://www.shc.psu.edu/students/iug/program/>

Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. Thesis or scholarly paper credits may not double-count.

For the B.S. degree in Security and Risk Analysis, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

IST 451(3), IST 454(3), IST 456(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits from College-approved list (at least 3 credits must be at the 400-level) (Sem: 5-8)

**SOCIAL FACTORS AND RISK OPTION:** (21 credits)**PRESCRIBED COURSES** (9 credits) [\[1\]](#)

IST 452(3), SRA 471(3), SRA 472(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from College-approved list (at least 3 credits at the 400-level and no more than 6 credits below the 200-level) (Sem: 5-8)

**Integrated B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology**

The College of Information Sciences and Technology offers an integrated B.S./M.S. (IUG) program designed to allow academically superior students in the Security and Risk Analysis major to obtain both the Bachelor's in Security and Risk Analysis and the M.S. degree in Information Sciences and Technology in a shorter period of time than would be necessary if the degrees were pursued separately. The first two to three years of undergraduate coursework follow the same undergraduate curriculum that other students follow in the Security and Risk Analysis major. Interested students may apply for admission to the IUG program as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits. If admitted to the IUG, the final years of study include two graduate courses, Foundations of Theories and Methods of Information Sciences and Technology Research (IST 504) in the fall and Foundations of Research Design in Information Sciences and Technology (IST 505) in the spring, plus six credits of research methods courses, twelve credits of graduate specialty courses, and six credits of graduate thesis (IST 600) or scholarly paper (IST 594).

(Note: For Schreyer Honors College students, those who complete the graduate thesis for the Master's requirement may use the graduate thesis, itself, to fulfill the undergraduate honors thesis requirement, as well. Honors students who opt for the Master's scholarly paper must also complete an undergraduate honors thesis.)

The integrated B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology (IUG) degree meets the needs of the most academically talented students in the Security and Risk Analysis undergraduate major. A proportion of these successful students wish to pursue graduate studies sometime after graduation. Offering the IUG benefits these students by offering an accelerated path to a graduate degree. Additionally, the IUG program can provide these students with a more cohesive program of study with opportunities to engage in more comprehensive research leading to both the bachelor's and master's degree.

For the B.S. in Security and Risk Analysis / M.S. in Information Sciences and Technology IUG program, a minimum of 120 credits is required for the bachelor's degree and 30 credits for the M.S. degree. Students admitted to the IUG program may double-count a maximum of 12 credits to their graduate and undergraduate degrees. The required 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate program. Students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees from the following: SRA 433, SRA 468, SRA 471, IST 451, IST 452, IST 454, IST 456. Graduate thesis or scholarly paper credits may not double-count.

The objectives of the Integrated Undergraduate Graduate Program include:

1. To offer highly qualified students the opportunity to earn two degrees in less time than it would take to do two sequential degrees. In particular, IUG students may count up to 12 credits towards both their B.S. and M.S. degree requirements.
2. To permit coherent planning of studies through the graduate degree, with advising informed by not only the requirements of the baccalaureate program, but also the longer-range goals of the graduate degree.
3. To introduce undergraduate students to the rigors of both graduate study and graduate faculty.
4. To make the resources of the Graduate School available to IUG students.
5. To allow students with IUG status to benefit from their association with graduate students whose level of work and whose intensity of interest and commitment parallel their own.

**Admission Requirements**

To initiate the application process, students must submit an *Integrated Undergraduate-Graduate (IUG) Degree in Security and Risk Analysis Form*, a transcript, and two letters of recommendation (both from faculty members) to the IST Graduate Programs Office. The Director of Undergraduate Academic Affairs, in consultation with the Graduate Programs Coordinator, will help undergraduate candidates determine a proposed sequence of courses that will prepare them for acceptance into the Integrated Undergraduate-Graduate (IUG) degree program. Acceptance into the IST IUG program will be determined by the Graduate Recruitment Committee.

Security and Risk Analysis undergraduate majors may apply for admission as early as the end of their sophomore year but no later than the end of their junior year after completing a minimum of 60 credits, if they meet the following admission requirements:

1. Must be enrolled in the SRA (BS) undergraduate degree program.
2. Must have completed 60 credits of an SRABS undergraduate degree program.
3. Must apply to the IUG program by the end of their junior year.
4. Must apply to and be accepted without reservation into the Graduate School and M.S. program in IST. Students must complete the [Graduate School application](#).
5. Must have an overall GPA of 3.5 (on a 4.0 scale) in undergraduate coursework and a minimum GPA of 3.5 in all coursework completed for the major.

6. Must present an approved plan of study. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser.
7. Must present two letters of recommendation from faculty members. (Note: For Schreyer Honors College students, these can be the same two letters required by the Schreyer Honors College.)
8. Must meet with both the Director of Undergraduate Academic Affairs and the Graduate Program Coordinator to declare interest and receive information about the IUG program.

For Schreyer Honors College students, students must also follow guidelines and procedures for applying for IUG in the Schreyer Honors College:

<http://www.shc.psu.edu/students/iug/program/>

In addition, applicants must apply to and be admitted to the Graduate School of the Pennsylvania State University at the time of their application to the IUG degree program.

These admission standards are high, as it is thought the program will only be appropriate for students with high levels of academic skills. The program area does have discretion in admitting Security and Risk Analysis majors into the integrated program, and extenuating circumstances can always be considered in terms of possible admission. Individuals who are unable to be admitted into the integrated program of study can apply for regular admission to the graduate program when they complete their undergraduate program of study.

Sample Sequence of Graduate Coursework in Addition to Undergraduate Courses

Year	Fall	Spring	MS Credits
Year 1 (Senior Undergraduate Year)	IST 504: Foundations (3) Methods course (3)** IST 600 or IST 594	IST 505: Research Design (3) Methods course (3)** IST 600 or IST 594	
Year 2 (Super Senior Undergraduate Year)	Thesis Research (3) Grad Specialty Course (3)*** Grad Specialty Course (3)***	Thesis Research (3) Grad Specialty Course (3)*** Grad Specialty Course (3)***	30*

\* Students admitted to the IUG program may double-count a maximum of 12 credits toward their graduate and undergraduate degrees in Information Sciences and Technology. In their senior year, IUG students will take 6 credits of specified graduate work, courses IST 504 and IST 505, and 6 credits of methods courses. These 6 credits of IST 504 and IST 505 will apply to both the graduate program and the undergraduate IST/SRA support option requirement. In their super senior year, students may choose an additional 6 credits to double-count for both the undergraduate and graduate degrees. These courses must be at the 400-level or above. Students may choose any 400-level undergraduate Option course (SRA 433, SRA 468, SRA 471, IST 451, IST 452, IST 454, IST 456) that they are using to fulfill an undergraduate option requirement and apply the credits to both the undergraduate option requirement and the graduate specialty course requirement. Credits associated with the thesis or culminating scholarly paper, i.e., IST 600 and IST 594, may not be double-counted. However, for Schreyer Honors College students, the Master's thesis deliverable, itself, may double-count for the undergraduate thesis deliverable requirement.

\*\* Choose graduate level methods course after consultation in advance with the student's faculty adviser.

\*\*\* Choose any 400 or 500 level course that contributes to the student's chosen area of specialty with a maximum of six credits at the 400 level.

The total resulting credits will be a minimum of 150 credits, with 120 credits completed for the undergraduate SRA degree. Twelve graduate credits will be completed in the senior year, and the remaining 18 graduate credits will be completed in the super senior year.

If for any reason a student admitted to the B.S./M.S. program is unable to complete the requirement for the Master of Science degree program in Information Sciences and Technology, the student will be permitted to receive the SRA bachelor's degree assuming all degree requirements have been satisfactorily completed.

Student performance will be monitored on an on-going basis by the student's adviser and Graduate Programs. Students admitted to the integrated program must maintain a minimum cumulative GPA of a 3.3 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See information on Grade-Point Average in the Graduate Bulletin: [http://bulletins.psu.edu/bulletins/whitebook/degree\\_requirements.cfm?section=masters](http://bulletins.psu.edu/bulletins/whitebook/degree_requirements.cfm?section=masters).) For SHC students in the IUG program, students must maintain a minimum cumulative GPA of 3.4 overall and a minimum 3.0 GPA in all courses used toward the M.S. degree in order to maintain good academic standing and meet graduation requirements. (See Grade Point Average Requirement in the SHC Student Handbook: [https://www.shc.psu.edu/documents/academic/handbook/handbook\\_1415.pdf](https://www.shc.psu.edu/documents/academic/handbook/handbook_1415.pdf)) Successful completion of a Schreyer Scholar's Master's thesis will be accepted as completion of the honors thesis requirement.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Statistics

University Park, Eberly College of Science (STAT)

PROFESSOR DAVID HUNTER, *Head, Department of Statistics*

This major helps prepare students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analysts, or for further graduate training in statistics. The major includes five options: An Actuarial Statistics Option for students interested in working as actuaries in the insurance or business fields; an Applied Statistics Option for students interested in a cross-disciplinary program, such as econometrics, or psychometrics; a Biostatistics Option for students interested in pursuing careers with pharmaceutical companies, research hospitals or other fields in which biological data is analyzed; a Graduate Study Option for students planning to go to graduate school in a statistics-related field; and a Statistics and Computing Option for students wishing to combine statistical expertise with programming skills.

In order to be eligible for entrance into the Statistics major, a student must have: 1) Attained at least a 2.00 cumulative grade point average. 2) Completed MATH 140 GQ(4) and MATH 141 GQ(4); and earned a grade of C or better in each of these courses.

For the B.S. degree in Statistics a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6-15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in front of *Bulletin*.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in GENERAL EDUCATION course selection or REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 80-95 credits

(This includes 6-15 credits of General Education: 0-9 credits of GN courses; 6 credits of GQ courses, 0-6 credits of GS courses.)

**APPLIED STATISTICS OPTION:** (47 credits)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from: CMPSC 101 GQ(3)[\[1\]](#), CMPSC 121 GQ(3)[\[1\]](#), CMPSC 201 GQ(3)[\[1\]](#), or CMPSC 202 GQ(3)[\[1\]](#) (Sem: 1-4)

Select 12 credits from I E 434(3)[\[1\]](#); I E 436(3)[\[1\]](#); MATH 436(3)[\[1\]](#) or MATH 441(3)[\[1\]](#); MATH 451(3)[\[1\]](#) or MATH 455(3)[\[1\]](#); STAT 416(3)[\[1\]](#), STAT 440(3)[\[1\]](#), STAT 463(3)[\[1\]](#), STAT 464(3)[\[1\]](#), STAT 466(3)[\[1\]](#) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (32 credits)

Select 32 credits from department list, including a minor in a supporting field other than Mathematics. (Sem: 1-8)

(Neither the mathematics major nor the six sigma minor, nor the risk management major with the actuarial science option may be used to satisfy the minor/concurrent major requirement. If a student wants to work in a supporting field that does not have a minor, he or she can propose a list of six appropriate courses and petition the Statistics Department for approval. It is the student's responsibility to justify the appropriateness of the proposed list. Students must receive a grade of C or better in each of these six courses.)

**BIOSTATISTICS OPTION:** (56-57 credits)

**PRESCRIBED COURSES** (8 credits)

BIOL 110 GN(4)[\[1\]](#), CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1)[\[1\]](#) (Sem: 1-3)

**ADDITIONAL COURSES** (28-29 credits)

Select 3 credits from: CMPSC 101 GQ(3)[\[1\]](#), CMPSC 121 GQ(3)[\[1\]](#), CMPSC 201 GQ(3)[\[1\]](#), or CMPSC 202 GQ(3)[\[1\]](#) (Sem: 1-4)

Select 7-8 credits from BIOL 220W GN(4)[\[1\]](#), BIOL 222(3)[\[1\]](#), BIOL 230W GN(4)[\[1\]](#), BIOL 240W GN(4)[\[1\]](#) (Sem: 5-8)

Select 6 credits from 400-level BIOL courses[\[1\]](#) (Sem: 5-8)

Select 12 credits from I E 434(3)[\[1\]](#); I E 436(3)[\[1\]](#); MATH 436(3)[\[1\]](#) or MATH 441(3)[\[1\]](#); MATH 451(3)[\[1\]](#) or MATH 455(3)[\[1\]](#); STAT 416(3)[\[1\]](#), STAT 440(3)[\[1\]](#), STAT 463(3)[\[1\]](#), STAT 464(3)[\[1\]](#), STAT 466(3)[\[1\]](#) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (19-20 credits)

Select 19-20 credits from department list (Sem: 1-8)

**GRADUATE STUDY OPTION:** (47 credits)

*A student completing the Graduate Study option will have earned a minor in mathematics in addition to a B.S. in Statistics. However, a student must fill out and submit the appropriate paperwork to the Mathematics Department in order for this minor to be officially recognized.*

**PRESCRIBED COURSES** (9 credits)

MATH 312(3)[\[1\]](#), MATH 403(3)[\[1\]](#), MATH 404(3)[\[1\]](#) (Sem: 5-8)

**ADDITIONAL COURSES** (24 credits)

Select 3 credits from: CMPSC 101 GQ(3)[11], CMPSC 121 GQ(3)[11], CMPSC 201 GQ(3)[11], or CMPSC 202 GQ(3)[11] (Sem: 1-4)

Select 9 credits from MATH 310(3)[11], MATH 311W(3-4)[11], MATH 421(3), MATH 422(3)[11], MATH 426(3), MATH 429(3), MATH 456(3)[11], MATH 468(3)[11], MATH 469(3)[11] (Sem: 7-8)

Select 12 credits from I E 434(3)[11], I E 436(3)[11], MATH 436(3)[11] or MATH 441(3)[11], MATH 451(3)[11] or MATH 455(3)[11], STAT 416(3)[11], STAT 440(3)[11], STAT 463(3)[11], STAT 464(3)[11], STAT 466(3)[11] (Sem: 5-8)

#### **SUPPORTING COURSES AND RELATED AREAS (14 credits)**

Select 14 credits from department list (Sem: 1-8)

#### **STATISTICS AND COMPUTING OPTION: (47 credits)**

##### **PRESCRIBED COURSES (9 credits)**

CMPSC 121 GQ(3)[11], CMPSC 122(3)[11], CMPSC 465(3)[11] (Sem: 1-6)

##### **ADDITIONAL COURSES (24 credits)**

Select 3 credits from: CMPSC 360(3)[11] or MATH 311W(3-4)[11] (Sem: 3-6)

Select 9 credits from CMPSC 221(3)[11], 400-level CMPSC [11] other than CMPSC/MATH 451 or CMPSC/MATH 455 (Sem: 5-8)

Select 12 credits from I E 434(3)[11], I E 436(3)[11], MATH 436(3)[11] or MATH 441(3)[11], MATH 451(3)[11] or MATH 455(3)[11], STAT 416(3)[11], STAT 440(3)[11], STAT 463(3)[11], STAT 464(3)[11], STAT 466(3)[11] (Sem: 5-8)

#### **SUPPORTING COURSES AND RELATED AREAS (14 credits)**

Select 14 credits from department list (Sem: 1-8)

### **Integrated B.S. in Statistics and Master of Applied Statistics (M.A.S.)**

The Integrated Undergraduate-Graduate (IUG) degree with B.S. in Statistics and Master of Applied Statistics (M.A.S.) is designed to be completed in five years. This integrated degree will enable a select number of highly qualified and career-oriented students to obtain training in statistics focused on developing data analysis skills and exploration of core areas of applied statistics at the undergraduate and graduate levels. The M.A.S. degree is a professional master's degree that emphasizes applications and does not provide as much training in the mathematical and statistical theory. The degree prepares students with interests in mathematics, computation, and the quantitative aspects of science for careers in industry and government as statistical analyst. Research divisions in the pharmaceutical industry, quality control and quality engineering divisions in manufacturing companies, clinical research units, corporate planning and research units, and other data-intensive positions require persons with training in mathematics, computation, database management, and statistical analysis, which this program will provide.

### **Application Process**

The number of openings in the integrated B.S./M.A.S. program is limited. Admission will be based on specific criteria and the recommendation of faculty. Applicants to the integrated program:

1. Must be enrolled in the Statistics B.S. program.
1. Must have completed at least 60 credits of the undergraduate degree program including the two courses: STAT 414 and STAT 415, and the students must apply to the program prior to completing 110 credits.
1. Must submit a transcript and a statement of purpose.
1. Must present a departmental-approved plan of study in the application process in consultation with the M.A.S. program director.
1. Must be recommended by the chair of the department's undergraduate program committee.
1. Must be accepted into the M.A.S. program in Statistics.

For the IUG B.S./M.A.S. degree, 120 credits are required for the B.S. and 30 credits for the M.A.S. The following twelve graduate-level credits (number of credits in parentheses) can apply to both B.S. and M.A.S. degrees; six of these are at the 500 level:

STAT 414 (3) Introduction to Probability Theory  
 STAT 415 (3) Introduction to Mathematical Statistics  
 STAT 501 (3) Regression Methods  
 STAT 502 (3) Analysis of Variance and Design of Experiments

Assuming all requirements for the B.S. are completed, students in the program can complete the B.S. degree and not advance to the M.A.S. Degree if they desire.

### **Degree Requirements**

IUG Statistics B.S. prescribed Statistics courses: See above, but note that students in IUG Statistics B.S. take STAT 501 and 502 instead of STAT 460 and 462.

IUG Statistics M.A.S. requirement (30 credits)

STAT 414 (3) Introduction to Probability Theory  
 STAT 415 (3) Introduction to Mathematical Statistics  
 STAT 501 (3) Regression Methods  
 STAT 502 (3) Analysis of Variance and Design of Experiments  
 STAT 580 (2) Statistical Consulting Practicum I  
 STAT 581\*\* (1) Statistical Consulting Practicum II  
 Electives (15) Choose from STAT 503-510 and the departmental list of additional courses for the M.A.S. program with the approval of the adviser.

\*\*For all students in the M.A.S. program, the STAT 581 course will have a comprehensive written project report required as part of the course, which serves as the culminating experience.

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2012(STAT); Summer Session 2003 (Integrated B.S./M.A.S.)

## Surveying Engineering

University College, Penn State Wilkes-Barre (SUR E)

PROFESSOR FRANK DERBY, *Program Coordinator, Penn State Wilkes-Barre*

PROFESSOR IVAN E. ESPARRAGOZA, *Director of Engineering Technology and Commonwealth Engineering, Penn State Brandywine*

PROFESSOR SVEN BILÉN, *Head, School of Engineering Design, Technology, and Professional Programs, Penn State University Park*

The Surveying Engineering major provides a basic undergraduate education required for private and public service in the profession of surveying. Particular emphasis is placed on fundamental surveying principles required in all areas of surveying. Instruction is provided in the main divisions of surveying, including land surveying, mapping, photogrammetry, data analysis and adjustment, geodesy and map projection coordinate systems, remote sensing, geographic information systems, and land development. Students study various data collection techniques using surveying tools including total stations, levels, softcopy photogrammetry, satellite imagery, and the global navigation satellite system (GNSS). They also study legal principles related to land surveying, professional ethics, applications for Geographic Information Systems (GIS) in surveying, and data management techniques. Through the use of projects and capstone courses students will design measurement systems, alignments, land information systems, and land development.

### Program Educational Objectives:

1. Proficiently use mathematics, science, measurement methods, and modern surveying tools to collect, analyze, and reduce spatial data in professional applications or advanced study in surveying engineering or a related field.
2. Proficiently apply basic principles of land surveying, professional practice, and professional ethics to design and conduct surveys, and to analyze and interpret data in surveying engineering applications.
3. Effectively convey technical and professional information in written, verbal, and graphic forms, as an individual and as a member of a professional team.
4. Demonstrate their recognition of the importance of professional organizations for advancement toward professional licensure, development of leadership skills, and maintaining a broad understanding of contemporary societal issues by participating in activities of professional organizations in capacities ultimately leading to leadership positions.
5. Demonstrate their recognition of the need for continuous, life-long learning by participating in continuing education as students or as instructors.

### Program Outcomes (Student Outcomes):

The SUR E program has adopted for its program student outcomes the following outcomes as listed in the general criteria of the EAC of ABET "Criteria for Accrediting Engineering Programs, 2012-2013." Engineering programs must demonstrate that their students attain:

- a) an ability to apply knowledge of mathematics, science, and engineering,
- b) an ability to design and conduct experiments, as well as to analyze and interpret data,
- c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability,
- d) an ability to function on multidisciplinary teams,
- e) an ability to identify, formulate, and solve engineering problems,
- f) an understanding of professional and ethical responsibility,
- g) an ability to communicate effectively,
- h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context,
- i) a recognition of the need for, and an ability to engage in life-long learning,
- j) a knowledge of contemporary issues
- k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

For the B. S. degree a minimum of 132 credits is required. The baccalaureate program in Surveying Engineering is accredited by the Engineering Accreditation Commission of ABET, Inc., [www.abet.org](http://www.abet.org).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(27 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included as part of the First-Year Experience as specified by individual campus or college)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in REQUIREMENTS FOR THE MAJOR)

### REQUIREMENTS FOR THE MAJOR: 114 credits

(This includes 27 credits of General Education courses: 9 credits of GWS courses; 6 credits of GQ courses; 9 credits of GN courses; 3 credits of GS courses.)

### PRESCRIBED COURSES (93 credits)

EDSGN 100(3), MATH 140 GQ(4)[1], MATH 141 GQ(4)[1], MATH 220 GQ(2-3), PHYS 211 GN(4), SUR 111(4)[1], SUR 162(3)[1] (Sem: 1-2)  
 CMPSC 201 GQ(3), MATH 230(4), MATH 251(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2), STAT 401(3), SUR 212(4), SUR 222(3), SUR 241(3)[1], SUR 262(2) (Sem: 3-4)  
 IE 302(3), SUR 272(3)[1], SUR 341(3), SUR 351(3), SUR 362(3), SUR 372W(3)[1], SUR 381(4) (Sem: 5-6)  
 SUR 441(3), SUR 455(3), SUR 462(3), SUR 471(3), SUR 490(1) (Sem: 7-8)

### ADDITIONAL COURSES (15 credits)

CAS 100A GWS(3) or CAS 100B GWS(3) (Sem: 1-2)  
 ENGL 015 GWS(3) or ENGL 030 GWS(3) (Sem: 1-2)  
 ECON 102 GS(3), ECON 104 GS(3), or ECON 014 GS(3) (Sem: 3-6)  
 ENGL 202C GWS(3) or ENGL 202D GWS(3) (Sem: 5-6)  
 CE 410W(3) or SUR 482(3) (Sem: 7-10)

### SUPPORTING COURSES AND RELATED AREAS (6 credits)

Select 6 credits from CE 300-level courses [2], CE 400-level courses [2], SUR 313(3), SUR 422(3), SUR 496(1-6) or SUR 497(1-6) (Sem: 7-10)

[1] A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

[2] These courses are not offered at Wilkes-Barre campus. They are provided to accommodate concurrent degree students in CE and SUR E.

## Telecommunications

University Park, College of Communications (TELCM)

PROFESSOR MATTHEW JACKSON, Head, Department of Telecommunications

The Telecommunications program seeks to prepare informed, responsible professionals for leadership roles in the electronic communication and information industries. The program stresses the social, cultural and economic impact of electronic media, including radio, television, videogames, telephones and the Internet.

Students can choose an emphasis in programming and production, management and entrepreneurship, law and policy.

Graduates go on to careers at local radio and television stations; broadcast, cable and satellite networks; Internet content and service providers; wired and wireless telephone companies; and other related media and entertainment industries. The major emphasizes the business and legal parameters of telecommunications, making it an excellent preparation for law school or graduate school and careers in government policy and the entertainment field.

Students must select at least 80 credits in courses outside the College of Communications, including at least 65 in the liberal arts and sciences.

For the B.A. degree in Telecommunications, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3-4 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
(Included in ELECTIVES)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 19 -20 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 34-35 credits<sup>[1]</sup>

(This includes 3-4 credits of General Education GS courses.)

**PRESCRIBED COURSES** (10 credits)

COMM 160(1) (Sem: 1-4)  
COMM 180 GS(3) (Sem: 3-4)  
COMM 280(3), COMM 380(3) (Sem: 5-6)

**ADDITIONAL COURSES** (21-22 credits)

Select 3-4 credits from: ECON 102 GS(3), ECON 014 GS(3), SCM 200 GQ(4), STAT 200 GQ(4) (Sem: 3-4)  
*Students must meet with a faculty advisor to approve their course selections from the following areas:*

Select 12 credits from: COMM 190/GAME 140 GS(3), COMM 282(3) or COMM 242(3); COMM 283W(3), COMM 310(3), COMM 374(3), COMM 383(1-3), COMM 383A(3), COMM 384(3), COMM 385(3), COMM 386(3), COMM 403H(3), COMM 410 IL(3), COMM 419 US;IL(3), COMM 419H US;IL(3), COMM 479(3), COMM 483(3), COMM 484(3), COMM 484A(3), COMM 485(3), COMM 490(3), COMM 491(3), COMM 493(3), COMM 495(3) (Sem: 5-8)

Take 3 credits in law: COMM 403(3), COMM 404(3), or COMM 492(3)

Take 3 credits in capstone courses: COMM 486W(3), COMM 487W(3), or COMM 489W(3)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits in social aspects of communication from COMM 110 GH(3), COMM 118 GS(3), COMM 205 US(3), COMM 304(3), COMM 403(3), COMM 405(3), COMM 409(3), COMM 410 IL(3), COMM 411(3), COMM 412(3), COMM 413W(3), COMM 417(3), COMM 418(3), COMM 419 US;IL(3), COMM 496(1-3) (Sem: 5-8)

**\*\*Students must take at least 9 credits of 400-level courses from the additional or supporting course lists.**

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Theatre

*Berks College (THABL)*  
*University Park, College of Arts and Architecture (THRBA)*

PROFESSOR RADHICA GANAPATHY, *Penn State Berks*  
 PROFESSOR ANNETTE MCGREGOR, *Penn State University Park*

This program offers the theatre student a general background in the various facets of theatre. A broad liberal education is provided and complemented with advanced courses to best serve student interests, talents, and career objectives. Though a strong emphasis is given to the areas of production and performance, majors may also wish to emphasize an area of special interest such as literature, design, dance, playwriting, directing or acting. All B.A. students spend a semester in study abroad studying at the Theatre Academy of London (TAL), a program that balances academic courses with advance studio work.

Students who pursue the B.A. in Theatre learn to research, analyze and synthesize information. Majors develop strong oral and written skills and many go on to postgraduate study not only in theatre but also in areas such as law, business and education.

The B.A. in Theatre degree program includes a Theatre Studies Option and three additional options, Theatre Performance, Dance Performance and Multicultural Performance. Entrance criteria to this major will include an interview with members of the Theatre faculty. Entrance to the three performance options will also include an audition or portfolio review. All four options are available at University Park; the Theatre Studies and Theatre Performance options only are available at Penn State Berks.

For the B.A. degree in Theatre, a minimum of 120 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits  
 (1.5-7.5 credits are included in the REQUIREMENTS FOR THE MAJOR)  
 (See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**  
 (Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 10-11 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits  
 (3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)  
 (See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 44.5-51.5 credits [\[1\]](#)  
 (This includes 1.5-7.5 credits in General Education courses: 1.5 credits GHA courses; 0-6 credits of GH courses.)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 29.5-30.5 credits

**PRESCRIBED COURSES** (6.5 credits)  
 DANCE 170 GHA(1.5), THEA 289(1) (Sem: 1-2)  
 THEA 001S(1) (Sem: 1-4)  
 THEA 401Y IL(3) (Sem: 3-6)

**ADDITIONAL COURSES** (11-12 credits)  
 Select 3 credits from THEA 102 GA(3) or THEA 120(3) (Sem: 1)  
 Select 2-3 credits from THEA 107 GA(3) or THEA 200(2) (Sem: 1-2)  
 Select 3 credits from THEA 100 GA;US;IL(3) or THEA 105 GA(3) (Sem: 1-2)  
 Select 3 credits from THEA 130(3) or THEA 131(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)  
 Select 12 credits THEA 499 or DANCE 499 (Sem: 6-8)

**REQUIREMENTS FOR THE OPTION:** 15-21 credits

**THEATRE STUDIES OPTION:** (15 credits) [\[1\]](#)

**PRESCRIBED COURSES** (9 credits) [\[1\]](#)  
 THEA 150(3) (Sem: 1-4)  
 THEA 402(3), THEA 434(3) (Sem: 5-8)

**ADDITIONAL COURSES** (6 credits) [\[1\]](#)  
 Select 6 credits from THEA 405 US(3), THEA 407 US(3), THEA 408 US(3), THEA 412 US;IL(3), or THEA 464(3) (Sem: 5-8)

**THEATRE PERFORMANCE OPTION** (21 credits) [\[1\]](#)

**PRESCRIBED COURSES** (9 credits)  
 THEA 150(3) (Sem: 1-2)  
 THEA 402(3), THEA 434(3) (Sem: 3-6)

**ADDITIONAL COURSES** (12 credits):  
 Select 3 credits from THEA 121(3) or THEA 289(3) (Sem: 1-4)  
 Select 3 credits from THEA 405 US(3), THEA 407 US(3), THEA 408 US(3), THEA 412 US;IL(3), THEA 464(3) (Sem: 5-8)  
 Select 6 credits (with permission of adviser/instructor) from:  
 THEA 220(3), THEA 221(3), THEA 322(2), THEA 324(2) (Sem: 3-8)  
 OR  
 THEA 410(3), THEA 436(3), THEA 437(1-6) (Sem: 5-8)  
 OR  
 THEA 440(3-6) (Sem: 5-8)  
 OR  
 THEA 250(3), THEA 251(2), THEA 252(1), THEA 260(3), THEA 270(3), THEA 350(3) (Sem: 3-8)

**DANCE PERFORMANCE OPTION:** (18 credits)

**PRESCRIBED COURSES** (3 credits) [\[1\]](#)  
 DANCE 410 US;IL(3) (Sem: 5-6)

**ADDITIONAL COURSES** (15 credits) [\[1\]](#)  
 Select 9 credits from DANCE 361(1.5), DANCE 362(1.5), DANCE 461(1.5), DANCE 462(1.5) (Sem: 1-7)  
 Select 6 credits from THEA 146(2), THEA 402(3), THEA 405(3), THEA 407(3), THEA 408(3), THEA 412(3), THEA 440(3), DANCE 411(3) (Sem: 2-8)

**MULTICULTURAL PERFORMANCE OPTION** (21 credits)

**PRESCRIBED COURSES** (9 credits) [\[1\]](#)

DANCE 411 GH(3), THEA 412 US;IL(3), THEA 495(3) (Sem: 4-8)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from CMLIT 010 GH;IL(3), CMLIT 012 GH;IL(3), CMLIT 101 GH;US;IL(3) (Sem: 3-6)

Select 6 credits from CAS 271 US;IL(3), CMLIT 013 GH;IL(3), CMLIT 140 GH;IL(3), CMLIT 189 GH;IL(3), CMLIT 422 IL(3), CMLIT 435 IL(3), CMLIT 438 IL(3), CMLIT 453 IL(3), CMLIT 455 IL(3), CMLIT 486 IL(3), CMLIT 487 IL(3), CMLIT 488 IL(3), CMLIT 491 IL(3), DANCE 221(1.5), DANCE 320(1.5), ENGL 135 GH;US(3), ENGL 226 GH;US;IL(3), ENGL 235 US(3), ENGL 245 GH;US(3), ENGL 426 US(3), ENGL 431 US(3), INART 005 GA(3), INART 062 GA;US;IL(3), MUSIC 007 GA;US(3), MUSIC 009(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits in consultation with adviser (Sem 5-8)

[\[1\]](#)A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Theatre

University Park, College of Arts and Architecture (THRFA)

PROFESSOR WILLIAM KENYON, B.F.A. Program Coordinator, Design and Technology Option  
PROFESSOR TRAVIS DeCASTRO, B.F.A. Program Coordinator, Stage Management Option

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

The Bachelor of Fine Arts in Theatre offers two options: Design and Technology, and Stage Management.

The B.F.A. degree in Theatre with the Design and Technology option is intended to develop a level of competence that will enable students who wish to pursue professional careers in theatre design, theatre technology and related entertainment fields to prepare themselves for specialized graduate studies, specialized professional training and/or immediate participation in creative work. The prescribed core curriculum introduces students to each of the theatre design areas and provides them with a basic skill level in technology. The curriculum also features acting, directing, script analysis, theatre history and criticism. Students choose an emphasis area after their third semester to focus their awareness, their capabilities and their critical faculties or abilities in their area of interest.

For the B.F.A. degree in Theatre with the Stage Management option is intended to provide students with specialized training leading to a high level of competence in the stage management field. Graduates should be able to begin professional work or pursue further training at the graduate level. The Stage Management option is intended to educate students for a career in stage management for theatre.

Acceptance into the Design and Technology option is based on a faculty interview and portfolio review. Acceptance into the Stage Management option is based on a faculty interview and production book review. Both options require a minimum of 120 credits.

**GENERAL EDUCATION:** 45 credits  
(0-6 credits included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin)

**FIRST-YEAR SEMINAR:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**  
(Included in GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**  
(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 3-11 credits

**REQUIREMENTS FOR THE MAJOR:** 70-78 credits  
(This includes 0-6 credits of General Education courses: Sound Design emphasis--3 credits of GN courses and 3 credits of GA courses. Scene Design emphasis--3 credits of GA courses)

**COMMON REQUIREMENTS FOR THE MAJOR (ALL OPTIONS):** 42 credits

**PRESCRIBED COURSES** (42 credits)<sup>[1]</sup>  
THEA 100 GA;US;IL(3), THEA 001S(1), THEA 120(3), THEA 130(3), THEA 131(3), THEA 150(3), THEA 200(2) (Sem: 1-2)  
THEA 250(3), THEA 251(2), THEA 260(3), THEA 270(3), THEA 280(3), THEA 285(3), THEA 289(1) (Sem: 3-6)  
THEA 401Y(3), THEA 481(3) (Sem: 5-8)

**REQUIREMENTS FOR THE OPTION:** 28-36 credits

**DESIGN AND TECHNOLOGY OPTION:** (33-36 credits)

**PRESCRIBED COURSES** (9 credits)<sup>[1]</sup>  
THEA 252(1) (Sem: 3-6)  
THEA 434(3), THEA 454(3), THEA 459(2) (Sem: 5-8)

**ADDITIONAL COURSES** (9 credits)<sup>[1]</sup>  
Select 6 credits from THEA 456(1), THEA 457(1), THEA 466(1), THEA 467(1), THEA 477(1), THEA 487(1), THEA 489(1) (Sem: 3-8)  
Select 3 credits from THEA 464(3) or THEA 465(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (15-18 credits)<sup>[1]</sup>  
Select 15-18 credits from one of the following emphases a, b, c, d, or e  
**a. Costume Design/Technology:** THEA 146(2), THEA 253(1), THEA 261(3), THEA 460(3-6), THEA 461(3-6), THEA 464(3), or THEA 465(3) (Sem: 3-8)  
**b. Scene Design:** THEA 253(1), THEA 450(6), THEA 453(2) (Sem: 3-8)  
Select 3 credits from: THEA 460(3), THEA 470(3), THEA 480(3) (Sem: 6-8)  
Select 3 credits from: ART H 111 GA(3), ART H 112 GA(3), THEA 451(1), THEA 458(1), THEA 460(3), THEA 470(3), THEA 480(3), THEA 485(3-6) (Sem: 3-8)  
**c. Lighting Design:** THEA 253(1), THEA 482(3), THEA 485(3-6), THEA 470(6), THEA 472(2) (Sem: 3-8)  
**d. Sound Design:** INART 050 GN(3), INART 258A GA(3), THEA 482(3), THEA 484(3), THEA 485(3-6) (Sem: 3-8)  
**e. Scenic Technology:** THEA 253(1), THEA 482(3), THEA 470(3), THEA 480(6), THEA 485(3-6) (Sem: 3-8)

**STAGE MANAGEMENT OPTION:** (28 credits)

**PRESCRIBED COURSES** (25 credits)<sup>[1]</sup>  
THEA 146(2) (Sem: 1-2)  
THEA 220(3), THEA 289(1), THEA 322(2), THEA 324(2) (Sem: 3-4)  
THEA 486(9) (Sem: 5-8)  
THEA 496(6) (Sem: 6-8)

**ADDITIONAL COURSES** (3 credits)<sup>[1]</sup>  
Select 3 credits from: THEA 405(3), THEA 406(3), THEA 407 US(3), THEA 408(3), THEA 412 US(3), THEA 455(3), THEA 464(3), THEA 465(3) (Sem: 4-8)

<sup>[1]</sup> A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

<sup>[5]</sup> Students may apply 6 credits of ROTC.

## Musical Theatre

University Park, College of Arts and Architecture (THRMT)

PROFESSOR JOHN SIMPKINS, *in charge, Musical Theatre*

The major is intended to provide students with specialized training leading to a high level of competence in musical theatre. Graduates should be able to begin professional work or pursue further training at the graduate level. This major is intended for those students who wish to pursue a career as a musical theatre professional. Acceptance into the major is based on an evaluative audition.

For the B.F.A. degree in Musical theatre, a minimum of 125 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(6 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in REQUIREMENTS FOR THE MAJOR)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**REQUIREMENTS FOR THE MAJOR:** 86 credits

(This includes 6 credits of General Education GA courses)

**PRESCRIBED COURSES** (81 credits)

**Theatre courses** (30 credits)

## Toxicology

University Park, College of Agricultural Sciences (TOX)

PROFESSOR JOHN VANDEN HEUVEL, Program Coordinator

Toxicology addresses adverse effects of chemicals on animals and humans and includes exposure assessment, hazard identification, dose-response analysis, and risk characterization. This discipline relies on cutting-edge biotechnological approaches to gain insight into drug and toxicant action at the molecular level. Students enrolled in the Toxicology program will develop an understanding of the principles by which chemicals affect the health of humans and animals either adversely, as toxic agents, or beneficially, as therapeutic agents. Students will learn about: 1) mechanisms of action of drugs and toxicants on organ systems of the body; 2) general principles for assessing the safety of chemicals and therapeutic efficacy of drugs; and 3) state-of-the-art molecular, biological, and genetic approaches to understanding drugs, toxicants, and disease through a combination of laboratory and lecture experiences. The B.S. degree in Toxicology provides a strong foundation for graduate work leading to a Ph.D. in most biomedical fields. Students may choose to pursue a Ph.D. degree in Pharmacology, Toxicology, Biochemistry, Physiology, Pathobiology, Oncology, or Molecular Biology. Alternatively, students prepare for employment as research technicians, drug/toxicant specialists, or pharmaceutical sales representatives.

### Entrance to Major Requirements:

In order to be eligible for entrance to the Toxicology major, a student must have (1) attained at least a 2.00 cumulative grade point average and (2) earned a C grade or better in: BIOL 110, BIOL 230W, CHEM 110, CHEM 111, CHEM 112, CHEM 113, MATH 140 and MATH 141.

For the B.S. degree in Toxicology, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

(15 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

### FIRST-YEAR SEMINAR:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### UNITED STATES CULTURES AND INTERNATIONAL CULTURES:

(Included in ELECTIVES or GENERAL EDUCATION course selection)

### WRITING ACROSS THE CURRICULUM:

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

### ELECTIVES: 0-2 credits

### REQUIREMENTS FOR THE MAJOR: 92-94 credits

(This includes 15 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses.)

### PRESCRIBED COURSES (78 credits)

BIOL 110 GN(4)[\[1\]](#), CHEM 110 GN(3)[\[1\]](#), CHEM 111 GN(1)[\[1\]](#), CHEM 112 GN(3)[\[1\]](#), CHEM 113 GN(1)[\[1\]](#), MATH 140 GQ(4)[\[1\]](#), MATH 141 GQ(4)[\[1\]](#) (Sem: 1-2)

BB H/H P A 440 US:IL(3), CHEM 210(3), CHEM 212(3), CHEM 213(2), VB SC 230(3) (Sem: 3-4)

PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 3-6)

BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4) (Sem: 3-6)

B M B 211(3), B M B 212(1), B M B 221(2), BIOL 472(3)[\[1\]](#), VB SC 330(3)[\[1\]](#) (Sem: 5-6)

## Turfgrass Science

University Park, College of Agricultural Sciences (TURF)  
World Campus

PROFESSOR ANDREW McNITT, Program Coordinator

This major provides an integrated program of study that includes basic and applied sciences, business management courses and an internship to prepare students for careers in turfgrass management and related areas. By carefully selecting supporting courses and electives, students can adapt the program to meet a variety of professional interests and educational needs.

Employment opportunities include golf course maintenance, professional lawn care, grounds maintenance, sod production, sales and service, athletic field maintenance, and research technician.

With appropriate selection of science courses, students can prepare for graduate study leading to careers in teaching, research, and extension.

**Entrance Requirement:** A student wishing to transfer into the Turfgrass Science program must have completed CHEM 101 GN(3) or CHEM 110 GN(3) and received a grade of C or better in each course prior to declaring the major.

For the B.S. degree in Turfgrass Science, a minimum of 120 credits is required.

Scheduling Recommendation by Semester Standing given like (Sem: 1-2)

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in SUPPORTING COURSES AND RELATED AREAS course selections)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selections)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 4 credits

**REQUIREMENTS FOR THE MAJOR:** 89 credits

(This includes 18 credits of General Education courses; 3 credits of GWS courses; 6 credits of GQ courses; 9 credits of GN courses.)

**PRESCRIBED COURSES** (49 credits)

BIOL 127 GN(3), CHEM 202(3) [\[1\]](#), CMPSC 203 GQ(4), MATH 021 GQ(3) (Sem: 1-4)

SOILS 101 GN(3) [\[1\]](#), TURF 230(1) [\[1\]](#), TURF 235(3) [\[1\]](#), TURF 495(3) [\[1\]](#) (Sem: 3-4)

ENT 317(3) [\[1\]](#), PPEN 412(3) [\[1\]](#), TURF 238(3) [\[1\]](#), TURF 434(3) [\[1\]](#) (Sem: 5-6)

## Visual Art Studies

*Altoona College (VAST)*

The Bachelor of Arts degree in Visual Art Studies offers students the opportunity to explore studio work in Art within the context of a broader liberal arts education. Students can learn fundamental techniques and concepts common to the Visual Arts. Emphasis is also put on creative problem solving through advanced investigations of artistic themes and issues. Course work includes requirements (classes) related to the portfolio preparation necessary for employment in creative fields or for education at the graduate level.

Entry into the Visual Art Studies major requires a third semester standing (27.1 credits), the completion of 6 credits in ART with a C or better, an entrance interview, and a 2.00 or higher cumulative grade-point average. The entrance interview will be based on a review of the student's work in the 6 credits of ART, and any other work the student wishes to include.

For the B.A. degree in Visual Art Studies, a minimum of 121 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**GENERAL EDUCATION:** 45 credits

## Veterinary and Biomedical Sciences

University Park, College of Agricultural Sciences (VBSC)

PROFESSOR LESTER C. GRIEL Jr., Program Coordinator

This major provides a strong background in those biological and physical sciences underlying contemporary veterinary science and establishes a sound foundation for graduate-level study in veterinary and related biomedical disciplines. The student has the option to focus their area of study by selecting supporting courses in a variety of areas.

The mission of the Veterinary and Biomedical Sciences major is to prepare students for admission to veterinary school and/or entry into graduate programs or employment in veterinary and biomedical research and development. Students may prepare for graduate programs in disciplines such as genetics, nutrition, microbiology, animal sciences, physiology, biochemistry, or others.

In order to be eligible for entrance to the Veterinary and Biomedical Sciences major a student must have: (1) attained a cumulative grade point average of at least a 2.0 and (2) completed BIOL 110 GN(4), CHEM 110 GN(3), CHEM 111 GN(1) and earned a grade of C or better in each of these courses.

For the B.S. degree in Veterinary and Biomedical Sciences, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(18 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**WRITING ACROSS THE CURRICULUM:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 7-10 credits

**REQUIREMENTS FOR THE MAJOR:** 87-90 credits

(This includes 18 credits of General Education courses: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses.)

**PRESCRIBED COURSES** (53 credits)

BIOL 110 GN(4) [1], CHEM 110 GN(3) [1], CHEM 111 GN(1) [1], CHEM 112 GN(3), CHEM 113 GN(1), MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-4)

AN SC 201(4) [1], PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 3-4)

AN SC 301(3) [1], BIOL 222(3) [1], MICRB 201(3), MICRB 202(2) (Sem: 5-6)

VB SC 211 GN(3), VB SC 403(3) [1], VB SC 421(4) (Sem: 4-8)

**ADDITIONAL COURSES** (25-28 credits)

Select 3 credits from AG BM 101 GS(3), ECON 102 GS(3), or ECON 104 GS(3) (Sem: 1-3)

Select 4 credits from B M B 251(3), BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4) (Sem: 3-4)

Select 6-8 credits from CHEM 202(3), CHEM 203(3); or CHEM 210(3), CHEM 212(3), CHEM 213(2) (Sem: 3-4)

Select 3 credits from AN SC 423(3) or BIOL 472(3) (Sem: 5-6)

Select 3-4 credits from STAT 200 GQ(4) or STAT 250 GQ(3) (Sem: 5-6)

Select 6 credits from B M B 211(3), B M B 212(1), B M B 221(2); or B M B 401(3), B M B 402(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits) [1]

Select 9 credits of 400-level courses from department list (Sem: 7-8)

## Wildlife and Fisheries Science

University Park, College of Agricultural Sciences (W F S)

PROFESSOR ELLEN MANNO, Program Coordinator

The purpose of the Wildlife and Fisheries Science major is to develop the knowledge, skills, and professional ethics of undergraduates interested in the conservation and management of fish and wildlife and their environments. The curriculum is designed to provide a broad-based science background that incorporates natural resource management principles that prepare our students for a diverse array of opportunities such as graduate school, natural resource management agencies, consulting firms, non-profits, etc. Students can choose from two options: Wildlife option and Fisheries option. Each option enables students to gain greater depth of knowledge in one area of the discipline. Coursework required for the Wildlife option meets The Wildlife Society's requirements for professional certification, and coursework required for the Fisheries option meets the American Fisheries Society's requirements for professional certification.

For the B.S. in Wildlife and Fisheries Science, a minimum of 120 credits is required for the Wildlife option and a minimum of 122 credits is required for the Fisheries option.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### GENERAL EDUCATION: 45 credits

## Workforce Education and Development

University Park, College of Education (WF ED)

PROFESSOR MARK THREETON, *Undergraduate Coordinator*

This major leads to the B.S. degree and may also lead to certification as a career and technical education teacher, and/or a coordinator of cooperative education, provided other requirements of the Pennsylvania Department of Education are met. The Industrial Training option does not lead to teacher certification.

To be certified by the Pennsylvania Department of Education as a career and technical education teacher, a person must have sufficient employment experience beyond the learning period to establish competency in the occupation to be taught. Further interpretation of this requirement may be secured by contacting the Department of Learning and Performance Systems. (See also [Teacher Education Programs](#).)

Baccalaureate degree candidates must meet the following requirements by the end of their fourth semester to be admitted to the Workforce Education (WF ED) major:

1. Complete ECON 102 GS(3) or ECON 104 GS(3); EDPSY 014(3), EDTHP 115(3), ENGL 015 GWS(3) or ENGL 030 GWS(3), WF ED 101(1)
2. Complete 3 credits in literature (GH)
3. Complete 6 credits in Quantification (GQ)
4. Minimum 3.00 cumulative GPA
5. Meet PRAXIS PPST-READING current qualifying scores
6. Meet PRAXIS PPST-WRITING current qualifying scores
7. Meet PRAXIS PPST-MATHEMATICS current qualifying scores
8. Complete and document a minimum of 80 hours of experience

For the B.S. degree in Workforce Education and Development, a minimum of 124 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## World Languages (K-12) Education

University Park, College of Education (WL ED)

PROFESSOR MATTHEW POEHNER, Undergraduate Coordinator

The World Languages Education major helps prepare students for kindergarten through high school teaching positions and for other employment in fields related to their content language areas.

The following teaching options are available for majors in World Languages Education: Bilingual Education, English as a Second Language, French, German, Latin, Russian, and Spanish. Pennsylvania does not issue a teacher certificate in Bilingual Education; many other states do. Completers of the English as a Second Language (ESL) option may qualify for the Pennsylvania Program Specialist: ESL credential if they hold a Pennsylvania teacher certificate.

**BILINGUAL EDUCATION TEACHING OPTION:** Although Pennsylvania does not issue a teacher certificate in Bilingual Education, other states do. Thus, completion of this option as well as any tests or requirements stipulated by the pertinent state department of education (other than Pennsylvania) should lead to a teacher certificate in Bilingual Education. In addition to the Common Requirements of the World Languages Education major, candidates select one of the language emphases, i.e., French, German, Latin, Russian, or Spanish, complete the courses associated with that emphasis and also the Common Requirements for all Emphases. Consequently, candidates also become eligible for teacher certification in the language selected as their language emphasis. Further, completers of this B.S. degree and option may also become eligible for the English as a Second Language (ESL) credential by completing six additional credits, i.e., APLNG 410 or APLNG 484, and APLNG 493.

Candidates are expected to have taken their choice of language coursework beyond the intermediate level to be eligible for enrollment in FR 201, or GER 201, or LATIN 400, or RUS 204, or SPAN 200. In general, students are encouraged to take at least one course in the chosen language each semester without interruption. Participation in an approved Education Abroad Study Program is required, typically during semester six.

**ENGLISH AS A SECOND LANGUAGE (ESL) TEACHING OPTION:** This option will lead to a baccalaureate degree only in conjunction with one of the other companion World Language Education Teaching options.

The ESL Teaching option is a joint offering of the Department of Curriculum and Instruction in the College of Education and the Department of Linguistics and Applied Language Studies in the College of the Liberal Arts. Dr. Youb Kim, Assistant Professor of Education and Applied Linguistics, and Joan Kelly Hall, Professor of Linguistics and Applied Linguistics, are co-directors of the program.

This option prepares candidates for advanced work in ESL and for the Pennsylvania teacher credential Program Specialist: English as a Second Language (ESL). However, the Pennsylvania Department of Education only issues the Program Specialist: ESL credential to holders of Pennsylvania Instructional I or II certificates. Thus, completers of another World Languages Education Teaching option may first seek the Pennsylvania Instructional certificate in that language and may then add the Program Specialist: ESL credential, subsequently.

**FRENCH TEACHING OPTION:** Completion of this option and pertinent tests required by the Pennsylvania Department of Education lead to the Pennsylvania Instructional I teacher certificate in French. Candidates are expected to have taken French coursework beyond the intermediate level to be eligible for enrollment in FR 201. In general, students are encouraged to take at least one course in French each semester without interruption. Participation in an approved Education Abroad Study Program is required, typically during semester six.

**GERMAN TEACHING OPTION:** Completion of this option and pertinent tests required by the Pennsylvania Department of Education lead to the Pennsylvania Instructional I teacher certificate in German. Candidates are expected to have taken German coursework beyond the intermediate level to be eligible for enrollment in GER 201. In general, students are encouraged to take at least one course in German each semester without interruption. Participation in an approved Education Abroad Study Program is required, typically during semester six.

**LATIN TEACHING OPTION:** Completion of this option and pertinent tests required by the Pennsylvania Department of Education lead to the Pennsylvania Instructional I teacher certificate in Latin. Candidates are expected to have taken Latin coursework beyond the intermediate level to be eligible for enrollment in LATIN 400. In general, students are encouraged to take at least one course in Latin each semester without interruption. Participation in an approved Education Abroad Study Program is highly recommended, typically during semester six.

**RUSSIAN TEACHING OPTION:** Completion of this option and pertinent tests required by the Pennsylvania Department of Education lead to the Pennsylvania Instructional I teacher certificate in Russian. Candidates are expected to have taken Russian coursework beyond the intermediate level to be eligible for enrollment in RUS 204. In general, students are encouraged to take at least one course in Russian each semester without interruption. Participation in an approved Education Abroad Study Program is required, typically during semester six.

**SPANISH TEACHING OPTION:** Completion of this option and pertinent tests required by the Pennsylvania Department of Education lead to the Pennsylvania Instructional I teacher certificate in Spanish. Candidates are expected to have taken Spanish coursework beyond the intermediate level to be eligible for enrollment in SPAN 110. In general, students are encouraged to take at least one course in Spanish each semester without interruption. Participation in an approved Education Abroad Study Program is required, typically during semester six.

Baccalaureate degree candidates must meet the following requirements 1-3 by the end of their third semester:

1. A minimum cumulative grade point average of 3.00
2. Either qualifying scores from the PECT PAPA for Reading, Writing and Mathematics; or qualifying SAT scores for the combined and individual Critical Reading, Writing, and Mathematics sections; or qualifying American College Test Plus Writing composite and individual English/Writing score and Math score as specified by the Pennsylvania Department of Education.
3. Documentation of at least 80 hours of volunteer or paid education work experience with learners of the age group the candidate plans to teach. Candidates for World Languages Education must document 40 of these hours with learners who come from backgrounds that are different from the candidate's.

Requirements 4-9 must be met by the end of the fourth semester when students typically participate in the Entrance to Major process.

4. A grade of "C" or better in all specified courses.
5. Completion of an early field experience specified by the certification program.
6. Completion of a core of Education courses specified by the certification program.
7. Completion of additional credits as specified by the certification program.
8. Completion of at least 48 semester credit hours, including ENGL 015 GWS(3) or ENGL 030 GWS(3), three credits of literature, and six credits of quantification
9. Language proficiency as described below.
10. Approval from the professional education adviser or the head of the pertinent certification program.

French Option:

Proficiency equivalent through FR 003

Literature selection options in language: FR 351 or 352

FR 201 and 202

Spanish Option:

Proficiency equivalent through SPAN 003

Literature selection options in language: SPAN 210, 220, or 253

SPAN 215

German Option:

Proficiency equivalent through GER 003

Literature selection options in language: GER 310

GER 201

Russian Option:

Proficiency equivalent through: RUS 003

Literature selection options in language: RUS 304

RUS 204

Latin Option:

Proficiency equivalent through: LATIN 003

Literature selection options in language: CAMS 045, LATIN 404

For the B.S. degree in World Languages Education with a dual certification option in *Bilingual Education Teaching*, a minimum of 140 credits is required; with an option in *English as a Second Language (ESL) Teaching*, a minimum of 136 credits is required, i.e., a minimum of 123 credits for the companion World Languages Education Teaching option selected, plus 12 credits to meet eligibility for the Program Specialist: ESL credential; with an option in *French Teaching*, a minimum of 128 credits is required; with an option in *German Teaching*, a minimum of 126 credits is required; with an option in *Latin Teaching*, a minimum of 125 credits is required; with an option in *Russian Teaching*, a minimum of 124 credits is required; with an option in *Spanish Teaching*, a minimum of 128 credits is required. (See also [Teacher Education Programs](#).)

Select 3 credits from GER 399 IL(3), GER 440 IL(3), GER 482 IL(3), GER 497(1-9), GER 499 IL(3) (Sem: 5-8)

c. Latin Emphasis (33 credits)

Prescribed Courses (24 credits)

CAMS 005 GH;IL(3), CAMS 050 GH(3), CAMS 400W(3), LATIN 404(3), LING 102 GH(3) (Sem: 3-5)

LATIN 402(3), LATIN 403(3), LATIN 450W(3) (Sem: 5-8)

Additional Courses (9 credits)

Select 3 credits from ANTH 045 GS;US;IL(3), CAMS 033 GH;IL(3), CAMS 045 GH;IL(3) (Sem: 1-4)

Select 3 credits from CAMS 101 GH;IL(3), CAMS 150 GH;IL(3) (Sem 3-5)

Select 3 credits from CAMS 440W(3), CAMS 497(1-9), LATIN 400(3), LATIN 420(3), LATIN 497(1-9) (Sem: 5-8)

d. Russian Emphasis (35 credits)

Prescribed Courses (23 credits)

RUS 204 IL(4), RUS 214 IL(4) (Sem: 3-5)

RUS 304 IL(3), RUS 305 IL(3), RUS 400 IL(3), RUS 412 IL(3), RUS 450 IL(3) (Sem: 5-8)

Additional Courses (12 credits)

Select 3 credits from RUS 100 GH;IL(3), RUS 110 GH;IL(3), RUS 120 GH;IL(3) (Sem: 1-4)

Select 3 credits from RUS 130 IL(3), RUS 141Y(3), RUS 142Y(3), RUS 143 GH;IL(3) (Sem: 1-4)

Select 3 credits from RUS 450 IL(3), RUS 497(1-9) (Sem: 1-4)

Select 3 credits from RUS 426 IL(3), RUS 427 IL(3), RUS 494(3), RUS 497(1-9), RUS 499 IL(3) (Sem: 5-8)

e. Spanish Emphasis (33 credits)

Prescribed Courses (21 credits)

SPAN 110(3), SPAN 215(3), SPAN 253W(3), (Sem: 3-5)

SPAN 410(3), SPAN 412(3), SPAN 414(3), SPAN 440(3) (Sem: 5-8)

Additional Courses (12 credits)

Select 3 credits from SPAN 210(3), SPAN 220(3) (Sem: 1-4)

Select 3 credits from SPAN 415(3), SPAN 418(3) (Sem: 5-8)

Select 3 credits from SPAN 305(3), SPAN 353(3), SPAN 354(3), SPAN 355(3), SPAN 356(3), SPAN 399 IL(3) (Sem: 4-6)

Select 3 credits from SPAN 399 IL(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9) (Sem: 5-8)

**ENGLISH AS A SECOND LANGUAGE (ESL) TEACHING OPTION:** (45-49 credits)

Select 33-37 credits: This option must be taken in conjunction with one of the other World Languages Education Teaching Options.

**PRESCRIBED COURSES** (9 credits)

APLNG 493(3), WL ED 444(3), WL ED 483(3) (Sem: 4-7)

**ADDITIONAL COURSES** (3 credits)

APLNG 410(3) or APLNG 484(3) (Sem: 5-7)

Holders of a baccalaureate degree and a valid Pennsylvania Instructional certificate, who seek only the Program Specialist: English as a Second Language credential, must complete the 15 credits of Prescribed and Additional Courses listed below. Typically, they do so in connection with other post-baccalaureate studies.

**PRESCRIBED COURSES** (12 credits)

APLNG 493 IL(3), WL ED 300(3), WL ED 444(3), WL ED 483(3) (Sem: 4-7)

**ADDITIONAL COURSES** (3 credits)

APLNG 410(3) or APLNG 484(3) (Sem: 5-7)

**FRENCH TEACHING OPTION:** (36 credits)**PRESCRIBED COURSES** (24 credits)

(Proficiency in French must be demonstrated by either examination or coursework equivalent to the completion of 12 credits in order to enroll in FR 201.)

FR 201 IL(3), FR 202 IL(3), FR 331 IL(3), FR 332 IL(3) (Sem: 3-5)

FR 316(3), FR 401 IL(3), FR 402Y IL(3), FR 440 IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

FR 137 GH;IL(3) or FR 138 GH(3) or FR 139 GH;IL(3) (Sem: 1-4)

FR 351 IL(3) or FR 352 IL(3) or FR 460 IL(3); FR 417 IL(3) or FR 418 IL(3) (Sem: 4-6)

Select 3 credits from FR 430 IL(3), FR 458 IL(3), FR 470 IL(3), FR 471 IL(3), FR 489 IL(3) (Sem: 6-7)

**GERMAN TEACHING OPTION:** (34 credits)**PRESCRIBED COURSES** (19 credits)

(Proficiency in German must be demonstrated by either examination or coursework equivalent to the completion of 12 credits in order to enroll in GER 201.)

GER 201 IL(4), GER 301 IL(3), GER 310 IL(3), GER 344 IL(3) (Sem: 3-5)

GER 401Y IL(3), GER 411(3) (Sem: 4-7)

**ADDITIONAL COURSES** (15 credits)

GER 157 GH;US(3) or GER 200 GH;IL(3) (Sem: 1-4)

GER 412 IL(3) or GER 430 IL(3); GER 431 IL(3) or GER 432 IL(3); GER 480 IL(3) or GER 481 IL(3) or GER 482 IL(3) (Sem: 4-6)

Select 3 credits from GER 399 IL(3), GER 440 IL(3), GER 482 IL(3), GER 497(1-9), GER 499 IL(3) (Sem: 5-8)

**LATIN TEACHING OPTION:** (33 credits)**PRESCRIBED COURSES** (24 credits)

(Proficiency in Latin must be demonstrated by either examination or coursework equivalent to the completion of 12 credits in order to enroll in LATIN 400 or other 400-level Latin courses.)

CAMS 050 GH(3), CAMS 400W(3), LATIN 404(3), LING 102 GH(3) (Sem: 3-5)

CAMS 005 GH;IL(3), LATIN 402(3), LATIN 403(3), LATIN 450W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (9 credits)

CAMS 033 GH;IL(3) or CAMS 045 GH;IL(3) (Sem: 1-4)

CAMS 101 GH(3) or CAMS 150 GH;IL(3) (Sem 3-5)

Select 3 credits from CAMS 440W(3), CAMS 497(1-9), LATIN 400(3), LATIN 420(3), LATIN 497(1-9) (Sem: 5-8)

**RUSSIAN TEACHING OPTION:** (35 credits)**PRESCRIBED COURSES** (23 credits)

(Proficiency in Russian must be demonstrated by either examination or coursework equivalent to the completion of 12 credits in order to enroll in RUS 204.)

RUS 204 IL(4), RUS 214 IL(4), RUS 304 IL(3), RUS 305 IL(3) (Sem: 3-5)

RUS 400 IL(3), RUS 412 IL(3), RUS 450 IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

RUS 100 GH;IL(3) or RUS 110 GH;IL(3) or RUS 120 GH;IL(3); RUS 130 IL(3) or RUS 141Y(3) or RUS 142Y(3) or RUS 143 GH;IL(3) (Sem: 1-4)

Select 3 credits from RUS 450 IL(3) or RUS 497(1-9) (Sem: 4-6)

Select 3 credits from RUS 426 IL(3), RUS 427 IL(3), RUS 494(3), RUS 497(1-9), RUS 499 IL(3) (Sem: 6-8)

**SPANISH TEACHING OPTION:** (33 credits)**PRESCRIBED COURSES** (21 credits)

(Proficiency in Spanish must be demonstrated by either examination or coursework equivalent to enroll in SPAN 110.)

SPAN 110(3), SPAN 215(3), SPAN 253W(3) (Sem: 3-5)

SPAN 410(3), SPAN 412(3), SPAN 414(3), SPAN 440(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

SPAN 210(3) or SPAN 220(3) (Sem: 1-4)

SPAN 415(3) or SPAN 418(3) (Sem: 5-8)

Select 3 credits from SPAN 305(3), SPAN 353(3), SPAN 354(3), SPAN 355(3), SPAN 356(3), SPAN 399 IL(3) (Sem: 4-6)

Select 3 credits from SPAN 399 IL(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(1-9) (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[18]** A grade of C or better per course is required for teacher certification.

## Women's Studies

University Park, College of the Liberal Arts (WS BA)

PROFESSOR MELISSA WRIGHT, *Department Head*

This interdisciplinary major is designed to develop a broad understanding of the study of women and women's perspectives in all areas of academic scholarship. The focus is on feminist analyses of women's lives, of women's social, cultural, and scientific contributions, and of the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curricular structure that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation.

For the B.A. degree in Women's Studies, a minimum of 123 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 18 credits

**BACHELOR OF ARTS DEGREE REQUIREMENTS:** 24 credits

(3 of these 24 credits are included in the REQUIREMENTS FOR THE MAJOR, GENERAL EDUCATION, or ELECTIVES and 0-12 credits are included in ELECTIVES if foreign language proficiency is demonstrated by examination.)

(See description of Bachelor of Arts Degree Requirements in this bulletin.)

**REQUIREMENTS FOR THE MAJOR:** 36 credits [\[1\]](#)

**PRESCRIBED COURSES** (9 credits)

WMNST 301 GH(3) (Sem: 1-4)

WMNST 400 US;IL(3) (Sem: 6-7)

WMNST 492W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from WMNST 083S GH(3), WMNST 100 GS;US;IL(3) or WMNST 106 GS;US;IL(3) (Sem: 1-4)

Select 3 credits from WMNST 494(3), WMNST 495(3), WMNST 496(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 6 credits from the program-approved list at the 100-200 level (Sem: 1-4)

Select 15 credits in Women's Studies from the program-approved list and in consultation with an adviser; at least 3 credits must be at the 400 level (Sem: 1-8):

- a. 3 credits of arts and humanities courses
- b. 6 credits of natural or social sciences courses
- c. 3 credits that focus on non-Western women
- d. 3 credits that focus on women of color in the United States

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Women's Studies

University Park, College of the Liberal Arts (WS BS)

PROFESSOR MELISSA WRIGHT, Department Head

This interdisciplinary major is designed to develop a broad understanding of the study of women and women's perspectives in all areas of academic scholarship. The focus is on feminist analyses of women's lives, of women's social, cultural, and scientific contributions, and of the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curricular structure that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation.

Students may choose either a Bachelor of Arts or a Bachelor of Science Program. The B.A. degree in Women's Studies is a traditional Women's Studies degree. The B.S. degree is intended for students with strong interest in quantitative skills, women's health and sexuality, and/or women and science, or who wish to pursue a multiple major program with other B.S. degree programs.

For the B.S. degree in Women's Studies, a minimum of 120 credits is required.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**GENERAL EDUCATION:** 45 credits

(3-12 of these 45 credits are included in the REQUIREMENTS FOR THE MAJOR)  
(See description of General Education in this bulletin.)

**FIRST-YEAR SEMINAR:**

(Included in ELECTIVES or GENERAL EDUCATION course selection)

**UNITED STATES CULTURES AND INTERNATIONAL CULTURES:**

(Included in ELECTIVES, GENERAL EDUCATION course selection, or REQUIREMENTS FOR THE MAJOR)

**WRITING ACROSS THE CURRICULUM:**

(Included in REQUIREMENTS FOR THE MAJOR)

**ELECTIVES:** 21-30 credits

**REQUIREMENTS FOR THE MAJOR:** 57 credits<sup>[1]</sup>

(This includes 3-12 credits of General Education courses: 3-6 credits of GQ courses, 0-3 credits of GH courses, and 0-3 credits of GS courses.)

**PRESCRIBED COURSES** (6 credits)

WMNST 301 GH(3) (Sem: 1-4)

WMNST 492W(3) (Sem: 7-8)

**ADDITIONAL COURSES** (36 credits)

Select 3 credits from WMNST 100 GS;US;IL(3) or WMNST 106 GS;US;IL(3) (Sem: 1-4)

Select 3 credits from WMNST 400 US;IL(3) or WMNST 401(3) (Sem: 5-8)

Select 3 credits from WMNST 494(3), WMNST 495(3), or WMNST 496(3) (Sem: 5-8)

Select 27 credits in Women's Studies from the program-approved lists. At least 9 credits must be at the 400 level. The same course may be used to fulfill more than one requirement within Additional Courses. (Sem: 1-8).

a. 6 credits of arts and humanities courses: WMNST 083S GH(3), WMNST 101 GH(3), WMNST 102 GH(3), WMNST 104(3), WMNST 106 GH(3), WMNST 117 GH(3), WMNST 137 GH;US;IL(3), WMNST 194 GH(3), WMNST 407(3), WMNST 419 US;IL(3), WMNST 421 IL(3), WMNST 438(3), WMNST 457(3), WMNST 462(3), WMNST 466(3), WMNST 490(3) (Sem: 1-8)

b. 9 credits of natural or social sciences courses: WMNST 100 GS(3), WMNST 103(3), WMNST 110 GS(3), WMNST 116 GS(3), WMNST 136 GS(3), WMNST 157(3), WMNST 202 GS(3), WMNST 205(3), WMNST 410(3), WMNST 412(3), WMNST 415W(3), WMNST 420(3), WMNST 423(3), WMNST 424 US(3), WMNST 428(3), WMNST 452(3), WMNST 453(3), WMNST 455(3), WMNST 456(3), WMNST 458 GS(3), WMNST 471(3), WMNST 476W(3) (Sem: 1-8)

c. at least 6 credits that focus on women's health and sexuality or women in science and technology: WMNST 005(3), WMNST 205(3), WMNST 452(3), WMNST 457(3), WMNST 458(3) (Sem: 1-8)

d. at least 3 credits that focus on non-Western women: WMNST 102 GH(3), WMNST 202 GS(3), WMNST 420(3), WMNST 476W(3) (Sem: 1-8)

e. at least 3 credits that focus on women of color in the United States: WMNST 101 GH(3), WMNST 103(3), WMNST 136 GS(3), WMNST 205(3), WMNST 410(3) (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits total from groups a, b, and c, with at least 3 credits from each group.

a. Quantification (GQ) and Research Methods (Sem: 1-8)

b. Values, Ethics, and Scientific Inquiry (Sem: 1-8)

c. Social and behavioral sciences, health sciences, or natural sciences (Sem: 1-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

LA

Dept head updated: 10/01/15

## **MINORS FOR BACCALAUREATE CANDIDATES**

A minor is defined as an academic program of at least 18 credits that supplements a major. A minor program may consist of course work in a single area or from several disciplines, with at least 6 but ordinarily not more than half of the credits at the 400-course level. Total requirements are to be specified and generally limited to 18 to 21 credits. Entrance to some minors may require the completion of a number of prerequisites, including courses, portfolios, auditions, or other forms of documentation that are not included in the total requirements for the minor. All courses for the minor require a grade of C or higher.

### **IMPACT ON A STUDENT'S RECORD**

When a student graduates, completion of a minor is recorded on his/her transcript by the Registrar, and the student receives an official certificate certifying completion of the minor. (The certificate is given with the diploma.)

## Agricultural Systems Management Minor

*University Park, College of Agricultural Sciences (A S M)*

The Agricultural System Management minor covers the mechanical, structural, natural resource, processing, and electronic technologies applied in agriculture systems. Students who graduate with this minor will have a solid understanding of how physical sciences and biological principles apply to real world problems in food and fiber industries. With industry teams often formed purposefully with many disciplines represented, this background of applied engineering basics and the focus on quantitative analysis has proven helpful to past graduates.

Integration of the applied technologies is addressed using a systems approach in each required course. Technologies addressed by courses in this minor include combustion engines, electric motors, mechanical and hydraulic power transmission systems, mobile equipment functions and operations, sensor and control systems, building structures, ventilation, drying, irrigation, drainage, food processing. The minor is targeted to students who will use these technologies or manage others who are responsible for systems utilizing these technologies. Most courses required for the minor are taught by engineering faculty, and nearly every course has a laboratory period.

Admission to the minor requires introductory calculus (MATH 110 or MATH 140) and introductory physics (PHYS 211 or PHYS 250).

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits)

Students must select from the following to account for 18 or more credits: A S M 307(3), A S M 310(3), A S M 320(3), A S M 327(3), A S M 420(3), A S M 424(3), A S M 425(3), BRS 221(3), BRS 422(3), BRS 426(3), BRS 428(3), BRS 429W(3). A total of 3 credits in BRS 495(1-3), BRS 496(1-3) and/or BRS 497(1-3) may also be used.

Last Revised by the Department: Fall Semester 2005

Review Date: 1/18/05

AG

## Biological Engineering Minor

University Park, College of Agricultural Sciences  
University Park, College of Engineering (B E)

This minor provides students with an opportunity to apply engineering principles to agricultural and biological production and processing systems and to the management of our natural resources. Courses may be selected by students to gain a better understanding of soil conservation and water quality, food and biological process engineering, structures and their environments, power and machinery, or microbiological engineering.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-19 credits

**PRESCRIBED COURSES** (3 credits)

B E 300(3) (Sem: 5-6)

**ADDITIONAL COURSES** (15-16 credits)

Select 6 credits from B E 301(3), B E 302(4), B E 303(3), B E 304(3), B E 305(3), B E 306(3), B E 307(3), B E 308(3) (Sem: 5-8)

Select 9-10 credits from one of the following areas; one course marked with \* must be selected (Sem: 5-8)

(a) Power and Machinery Systems: A S M 420(3), A S M 424(3), B E 461(3)\*, M E 431(3), M E 480(3)

(b) Biological Systems: B E 468(3)\*, CH E 340(3), CH E 438(3), CH E 449(3), E SC 484(3)

(c) Natural Resource Systems: A S M 309(3), B E 467(3)\*, B E 477(3), B E 487(3), C E 370(3), C E 371(3), C E 461(3)

(d) Food Process Systems: B E 465(3)\*, B E 468(3), CH E 410(3), FD SC 430(3), I E 312(3)

(e) Structural Systems: A E 308(4), B E 462(3)\*, C E 340(3), C E 341(3), C E 342(3)

## Astrobiology Minor

*Intercollege Program (ABIOL)*

Astrobiology is the study of life in the universe. Astrobiology has become a major focus of scientific research in the United States and a topic often discussed in popular science literature and the general media. The Astrobiology Minor is designed to educate students in this interdisciplinary field covering the varied scientific disciplines that contribute to our general understanding of life, the origin of life, the past history of life on Earth, possible futures for life on Earth, and the possible existence of life on other planetary environments. The principle goal of the minor is to develop student's literacy in astrobiology so that they can critically evaluate claims related to this field that they encounter well after their college education has ended.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENT FOR THE MINOR:** 18 credits with at least 6 credits at the 400 level

**PRESCRIBED COURSES** (3 credits)

BIOL/GEOSC 474(3) (Sem: 5-8)

**ADDITIONAL COURSES** (9-10 credits)

EARTH 002 GN(3) or GEOSC 021 GN(3) (Sem: 1-6)

ASTRO 140 GN(3) or ASTRO 291 GN(3)(Sem: 5-8)

GEOSC 204(4) or BIOL 427(3)(Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (5-6 credits)

Select 5-6 credits from ASTRO 475W(3), BIOL 405(3), B M B 401(3), B M B 402(3), GEOSC 416(3), GEOSC 419(3), METEO 466(3), or MICRB 201(3) (Sem: 5-8)

Last Revised by the Department: Fall Semester 2000

Blue Sheet Item #: 28-07-084A

Review Date: 7/27/05

## Accounting Minor

*Penn State Erie, The Behrend College (ACNTG)*

*Contact(s): Ash Deshmukh (avd1@psu.edu)*

The accounting minor requires students to complete 16 additional credits in accounting beyond the 4 credits required in ACCTG 211. It is designed to introduce students to advanced topics in financial and cost accounting, as well to the basics of income tax accounting for individuals. This minor can provide an enhanced understanding of accounting information flows, costing systems, and the general tax environment to students majoring in other business areas, and it is a particularly good complement to the finance and management information systems majors. On its own, it will not generally enable students to meet the requirements for professional licensing in accounting.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 20 credits

**PRESCRIBED COURSES** (14 credits)

ACCTG 211(4) (Sem: 3-4)

ACCTG 310(3), ACCTG 371(4), ACCTG 472(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of additional ACCTG courses, at least 3 credits at the 400-level (Sem: 3-8)

Last Revised by the Department: Fall Semester 2010

Blue Sheet Item #: 39-01-053

Review Date: 08/24/2010

## African American Studies Minor (AFAMR)

Contacts: Abington College, Tom Smith, [trs8@psu.edu](mailto:trs8@psu.edu); College of the Liberal Arts, Darryl Thomas, [dct10@psu.edu](mailto:dct10@psu.edu)

The Department of African and African American Studies awards a certificate to students who, in addition to meeting the requirements for a major, complete 18 credits in the African American Studies minor. This minor is designed for students interested in African American culture and the educational, social, political, and economic development of people of African descent in the United States. In particular, it provides students with the opportunity to explore the experiences of African Americans using theories and methods originating in the field. Students are made aware of the potential to apply such knowledge to the solution of social, political, and economic problems. The minor also promotes greater understanding of the relationship between African Americans and other ethnic groups.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

AF AM 100 GS;US(3), AF AM/WMNST 101 GH;US(3), AFR 110 GS;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits; at least 6 credits of AAA S courses must be at the 400 level

AF AM/WMNST 102 GH;IL(3), AF AM/SOC/WMNST 103 US(3), AF AM/RL ST 145 GH;US;IL(3), AF AM 146 GH;US(3), AAA S/RL ST 147 GH;US(3), AAA S/HIST 191 GH;IL(3), AAA S/THEA 208 GA;US;IL(3), AF AM/HIST 210 GH;US(3), AAA S/HIST 240 GH;US(3) COMM/WMNST 205 US(3), ENGL 235 US;IL(3), SOC 119 GS;US(4) (Sem: 1-4)

## Agricultural Communications Minor

*University Park, College of Agricultural Sciences (AGCOM)*

Through the Department of Agricultural Economics, Sociology, and Education, this interdisciplinary program of study is designed to introduce majors in the College of Agricultural Sciences to the skills and professional practices in communications and to the interdependence between communications and society. A grade of C or better is required in every course used to satisfy the requirements for the minor.

Students are required to complete a total of 19 credits, including 6 credits at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES** (7 credits)

COMM 160(1) (Sem: 1-2)

COMM 260W(3) (Sem: 3-4)

AGCOM 462W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 3-6 credits from AEE 330W(3), AEE 440(3), or AGCOM 495(1-3) (Sem: 3-8)

Select 3-6 credits from COMM 180 GS(3), COMM 283W(3), COMM 401(3), COMM 403(3), COMM 405(3), COMM 409(3), COMM 411(3), COMM 413W(3), or COMM 460W(3) (Sem: 3-8)

Select 3 credits from COMM 401(3), COMM 403(3), COMM 405(3), COMM 409(3), or COMM 413W(3) (Sem: 5-8)

## Agronomy Minor

*University Park, College of Agricultural Sciences (AGRO)*

Agronomy is concerned with the principles and practices of field crop production and the conservation of soils and land resources. Areas of emphasis include crop production and protection, plant breeding, forage management, nutrient management, and soil conservation and fertility. Education in this minor emphasizes the principles of plant and soil management and the basic sciences upon which these principles are grounded. A minor in agronomy can complement several majors, and will enhance career opportunities in farm management and the agricultural industry. Employment possibilities include farm chemical and fertilizer store managers, sales representatives, field and laboratory technicians, crop management consultants, extension agents, soil and water conservationists, and inspectors for various state and federal regulatory agencies.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (6 credits)

AGRO 028(3), SOILS 101 GN(3) (Sem: 3-4)

**ADDITIONAL COURSES:** (6-7 credits)

Select 6 credits from AGRO 410W(4), AGRO 423(3), AGRO 425(3), AGRO 438(4), or SOILS 402(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS:** (5-6 credits)

Select 5-6 credits in consultation with an adviser (Sem: 5-8)

## American Studies Minor

*Capital College (AMSTD)*

Capital College - Simon Bronner, [sib2@psu.edu](mailto:sib2@psu.edu)  
Abington College - Thomas Smith, [trs8@psu.edu](mailto:trs8@psu.edu)  
Penn State Brandywine - Julie Gallagher, [jag63@psu.edu](mailto:jag63@psu.edu)  
Penn State Fayette - Jay Precht, [jhp21@psu.edu](mailto:jhp21@psu.edu)  
Penn State York - Robert Farrell, [rff10@psu.edu](mailto:rff10@psu.edu)

This interdisciplinary minor is designed for students who want to complement their major program. American Studies is an interdisciplinary field that explores the patterns of life and thought of the American peoples, past and present. American Studies helps students prepare for further study or careers in education, government, business, science, communication, law, museums, historical and cultural agencies, and archives. Internships are available for qualified students in American Studies. The internship is an extension of the student's academic studies and is an opportunity to gain practical experience.

A student seeking admission to the American Studies Minor must first be admitted to a major at Penn State. Upon admission, a Minor Adviser will be appointed from within the American Studies faculty to guide the student. For the American Studies Minor, a total of 18 credits is required. At least 6 credits must be at the 400 level.

A grade of C or better is required for all courses in the minor.

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

AM ST 491W(3) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)

AM ST 100 GH;US(3) or AM ST 100W GH(3) (Sem: 1-4)

Select 12 credits from any American Studies offerings (AM ST) or from courses related to American Studies chosen from a list provided by the college. At least six of those credits must be at the 400 level. Substitutions must be approved by the American Studies Program head at the appropriate college. (Sem: 5-8)

## Animal Science Minor

*University Park, College of Agricultural Sciences (AN SC)*

The Animal Science minor is designed for students who wish to supplement their academic major with studies in animal science. Students are required to complete a minimum of 23 credits, at least 6 of which must be at the 400 level. A grade of C or better must be obtained in each course in order to complete the minor.

The core of prescribed courses develops a foundation in the various basic disciplines of animal science. Additional courses may be selected by the student to emphasize the production/management of beef cattle, companion animals, dairy cattle, horses, poultry, sheep, or swine or to emphasize genetics, nutrition, or physiology.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 23-24 credits

**PRESCRIBED COURSES** (11 credits) [\[1\]](#)

AN SC 201(4), AN SC 290W(1), AN SC 301(3) (Sem: 3-4)  
CHEM 202(3) (Sem: 3-6)

**ADDITIONAL COURSES** (6-7 credits) [\[1\]](#)

Select 3 credits from AN SC 207(2) and AN SC 208(1); or AN SC 300 GN(3) (Sem: 3-4)

Select 3-4 credits from AN SC 305(3), AN SC 306(3), AN SC 308(4), AN SC 309(4), AN SC 310(3), AN SC 311(4), AN SC 327(3), CHEM 210(3) (Sem:3-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of 400-level AN SC courses (Sem: 7-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

Blue Sheet Item #: 43-06-000

**Anthropology Minor (ANTH)**

*Contacts: Abington College, Manohar Singh, [m.singh@psu.edu](mailto:m.singh@psu.edu); College of the Liberal Arts, Pat Johnson, [plj2@psu.edu](mailto:plj2@psu.edu)*

The Anthropology minor is designed to provide undergraduate students with exposure to the range of human variation across time and space. Our minors enroll in courses that explore that variation through the subdisciplines of archaeological, biological, and cultural anthropology. We maintain laboratory facilities in all three subdisciplines and the Matson Museum of Anthropology, all excellent learning facilities for our students. In addition, the department offers summer field school opportunities in cultural anthropology and archaeology. A Minor in Anthropology is excellent preparation for further study in any discipline that requires ability to understand and deal with other cultures, for example, teaching, counseling, business, medicine, law, or communications.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR: 18 credits****PRESCRIBED COURSES** (9 credits)

ANTH 002 GS(3), ANTH 021 GN(3), ANTH 045 GS;US;IL(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits from any ANTH course except ANTH 001 GS;US;IL(3) (Sem: 1-8)

Select 6 credits from the ANTH 400-489 range (Sem: 3-6)

Last Revised by the Department: Fall Semester 2001

Review Date: 4/9/02

LA

## Arabic Language Minor

*University Park, College of the Liberal Arts (ARAB)*

Modern Arabic is a crucially important world language. The minor in Arabic is intended to provide students with a good working knowledge of modern Arabic language, cultures, and societies, in order to broaden students' horizons and sharpen their awareness and abilities in internationalism and globalization. Students undertake three years of language study (or equivalent); education abroad can be included.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (12 credits)

ARAB 001(4), ARAB 002(4), ARAB 003(4) (Sem: 1-4)

**ADDITIONAL COURSES\*** (9 credits)

Select 3 credits from ARAB 110 IL(3), ARAB 197(1-9), ARAB 199 IL(1 -12), ARAB 296(1-18), ARAB 297(1 -9), ARAB 299 IL(1-12), ARAB 397(1-9), or ARAB 399 IL(1-12) (Sem: 1-8)

Select 6 credits from ARAB 401 IL(3), ARAB 402 IL(3), ARAB 494(1-12), ARAB 496(1-18), ARAB 497(1-9), or ARAB 499 IL(1-12) (Sem: 5-8)

\* Because this minor focuses on developing language proficiency in modern Arabic, special topics courses in English or other courses taught in English do not satisfy this requirement.

Review Date: 02/22/2011

## Arboriculture Minor

*College of Agricultural Sciences (ARBOR)*

The Arboriculture minor has been designed to provide students with a comprehensive introduction to the principles and practices of the arboriculture profession. Combined with a major in Horticulture or Forestry, this minor will help prepare students for a career in arboriculture. The courses in the minor include arboriculture, disease and insect control, the planting and maintenance of plants in the landscape, and management of trees in urban environments. HORT 201, and many of the introductory positions available to graduates with an arboriculture minor, require physical strength and conditioning. The profession of arboriculture has many opportunities available in the application of arboricultural practices, sales, consulting, management of companies, and management of urban trees.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 26-28 credits

**PRESCRIBED COURSES:** (18 credits )

HORT 201(2), HORT/FOR 301(3), SOILS 101 GN(3) (Sem: 3-4)

ENT 313(2), ENT 314(1) (Sem: 5-6)

FOR 401(3), HORT 408(4) (Sem 7-8)

**ADDITIONAL COURSES** (8-10 credits)

Select 3 credits from FOR 203(3), HORT 137(3) (Sem: 3-4)

Select 2-3 credits from PPEM 300 GN(3) or PPEM 318(2) (Sem:5-6)

Select 3-4 credits from BIOL 110 GN(4) or BIOL 127 GN(3) (Sem: 5-6)

## Architectural History Minor

*University Park, College of Arts and Architecture (ARC H)*

This interdisciplinary minor administered by the Department of Art History is designed for students interested in exploring architectural history from a variety of disciplines.

This minor is open to students in all majors. Majors in Art History, Anthropology, Architecture, Landscape Architecture, Classics and Ancient Mediterranean Studies, and Geography may only double count 6 credits taken in their major field towards this minor. A grade of C or better is required in all course requirements for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (6 credits) (Sem: 1-4)  
ART H 201(3), ART H 202(3)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from the following: ARCH 210 GA(3) or LARCH 060 GA;US;IL(3)

Select 12 credits from the following list, including at least 6 at the 400 level. No more than 9 credits may be taken from any one department. (Sem: 1-8)

AM ST/ART H 307 GA;US(3), AM ST/INART 410(3), AM ST 460(3), AM ST 461(3), AM ST 462(3), AM ST 481(3)

ANTH 008 GS;IL(3), ANTH 009 GS;IL(3), ANTH 420(3), ANTH 422(3), ANTH 423(3)

ARCH 312(3), ARCH 316(3), ARCH 317(3), ARCH 417(3), ARCH 499C(3), ART H 120 GA;IL(3), ART H/AM ST 307 GA;US(3), ART H 315 GA;IL(3), ART H 330 GA;

IL(3), ART H 401(3), ART H 404(3), ART H 405(3-6), ART H 411(3-9), ART H 412(3), ART H 415(3), ART H 420(3), ART H 440 IL(3), ART H 456 IL(3), ART H 458

IL(3), ART H 497(1-9) (if topic is architecture)

## Architecture Studies Minor

*University Park, College of Arts and Architecture (ARCST)*

The Architecture Studies Minor will permit students in other majors the opportunity to gain insight into the discipline of Architecture. Students enrolled in the Bachelor of Architecture or Bachelor of Science in Architecture degree programs are not eligible to enter the Minor in Architecture Studies. However, students transferring out of Architecture may opt to receive recognition for their efforts and time spent in the major by completing requirements for the minor. The minor is intended to augment study in allied design majors, but graduates may not pursue licensure to practice Architecture.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits  
6 credits must be at the 400-level

**ADDITIONAL COURSES:** (15 credits)

**Architectural History and Theory:** (6 credits)

Select 3 credits from ARCH 100 GA(3) or ARCH 210 GA(3) (Sem: 1-2)

Select 3 credits from ARCH 316 GA(3), ART H 201 GA;IL(3), or ART H 202 GA;US;IL(3) (Sem: 1-2)

**Cultural Perspectives in Architecture:** (3 credits)

Select 3 credits from ARCH 312(3), ARCH 316 GA(3), ARCH 317(3), ARCH 499B IL(3), ART H 120 GA;IL(3), ART H 140 GA;IL(3), ART H 308 GA(3), ART H 315 GA;IL(3), ART H 330 GA;IL(3), ART H 401 IL(3), ART H 405 US;IL(3), ART H 412 IL(3), ART H 413(3), ART H 415 US(3), ART H 420 IL(3), ART H 440 IL(3), ART H 456 IL(3), ART H 458 IL(3), ART H 460 IL(3), ASIA 315 GA;IL(3), ASIA 440 GA;IL(3), LARCH 065 GA;US;IL(3) (Sem: 3-8)

**Architectural Design Applications:** (6 credits)

Select 6 credits from ARCH 121(2)[3], ARCH 122(2)[3], ARCH 130A(3 max.)(2), ARCH 131S(4)[3], ARCH 132 (4)[3], ARCH 412(3), ARCH 442(3)[2], ARCH 443(2), ARCH 481(3), ARCH 497(1-9), ARCH 499C IL(2-3), ARCH 499D (4)[2] (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS:** (6 credits)

**Architectural Capstone or Supporting Course:** (3 credits)

Select 3 credits within ARCH (ARCH prefix courses excluding ARCH 130A and ARCH 441) (Sem: 5-8)

**Architectural Supporting Course:** (3 credits)

Select 3 credits in ARCH (ARCH prefix courses excluding ARCH 130A and ARCH 441) or in specific AE or LARCH courses from an approved department list (Sem: 5-8)

[2]Courses available to Architectural Engineering majors only

[3]Courses available to Architecture majors only.

## Art History Minor

*University Park, College of Arts and Architecture (ART H)*

The minor in Art History provides students with a broad introduction to the history of art, as well as the opportunity for more specialized study in one or two fields. Specialized study may concentrate upon one region of the world (e.g. India) or one period (e.g. Renaissance). A student should seek the advice of her/his minor adviser on course selections. The study of art history develops a student's visual acuity by providing a critical understanding of visual culture in a diversity of societies around the world. Students learn to understand art within the contexts of religion, politics, philosophy, culture, technology, society, and gender. A minor in Art History can be of particular interest for students pursuing careers in art, art education, history, anthropology, archaeology, classics, English, foreign language/literature, cultural studies, international business, and arts administration. Students majoring in Art History cannot take this minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES:** (6 credits)

ART H 111 GA;IL(3), ART H 112 GA;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES:** (3 credits)

Select 3 credits from: ART H 120 GA;IL(3), ART H 130 GA;US;IL(3), ART H 301 GA;IL(3), ART H 315 GA;IL(3), ART H 320 GA;IL(3), ART H 330 GA;IL(3), or ART H 335 GA;IL(3) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS:** (12 credits)

Select 6 credits of 001 to 400-level ART H courses, except ART H 100 GA(3) (Sem: 3-8)

Select 6 credits of 400-level ART H courses (Sem: 3-8)

(Note: Students are encouraged to use these supporting courses to focus their studies in one or two areas of art history and should discuss these course selections with an Art History faculty member.)

## Asian Studies Minor

*Abington  
University Park, College of the Liberal Arts (ASIA)*

This is an interdisciplinary minor designed for students with special interests in the Asian area. In addition to the requirements of the student's major department, the minor consists of 21 credits selected from such disciplines as anthropology, art history, economics, geography, history, linguistics, literature, philosophy, political science, religious studies, speech, theatre arts, and appropriate Asian languages.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (3 credits)

ASIA 100 GH;IL(3) (Sem: 1-4)

**ADDITIONAL COURSES** (3 credits)

HIST 174 GH;IL(3), HIST 175 GH;IL(3), HIST 176 GH;IL(3), or RL ST 003 GH;US;IL(3) (Sem:3-6)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits from a departmental list, at least 6 at the 400 level; independent study credits selected in consultation with adviser; additional further credits in language studies beyond the first semester may be permitted up to 15 credits. (Sem: 1-8)

Courses not on the list that deal substantially with some aspect of Asia in any discipline may also count, pending approval of an adviser. Students seeking to combine an Asian Studies minor with a major in an Asian language (such as CHNS or JAPNS) may include up to 15 credits of language study in a SECOND Asian language, but must have at least 3 courses that do not overlap with their other major(s) or minor(s) in Asian Studies or other Asian languages.

## Astronomy and Astrophysics Minor

*University Park, Eberly College of Science (ASTRO)*

The minor in Astronomy and Astrophysics, available at the University Park campus, provides educational options to students with interest in astronomy but with principal commitments to an allied field. It is designed principally for majors in Aerospace Engineering, Electrical Engineering, Engineering Sciences, Geosciences, Meteorology, and Physics. The educational objectives are to provide students with a profound understanding of the large-scale properties and processes in our Universe including planets and solar systems, our Sun and other stars, our Galaxy and other galaxies; and cosmology. Students in the minor survey the field in the 200-level sequence and then select from a choice of advanced astronomy and allied courses. Minors will be encouraged to take advantage of the many undergraduate research opportunities in the department, often using space-based observatories.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 22-23 credits

**PRESCRIBED COURSES** (10 credits)

PHYS 211 GN(4) (Sem: 1-2)

ASTRO 291 GN(3), ASTRO 292 GN(3) (Sem: 3-4)

**ADDITIONAL COURSES** (6-7 credits)

Select 6-7 credits from additional ASTRO 400-level courses, AERSP 308(3), AERSP 312(3), E E 472(3), GEOSC 474(3), METEO 466(3), or PHYS 458(4) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from 400-level ASTRO courses, except ASTRO 496 (Sem: 5-8)

## Supply Chain and Information Systems Minor

*World Campus, Smeal College of Business (SC&IS)*

The Supply Chain and Information Systems (SC&IS) minor is structured to provide the student with a working knowledge of the discipline and to complement a student's major field of study. The SC&IS minor provides exposure to core supply chain processes, methods, and techniques and to directly related enabling enterprise system technologies. Students completing the SC&IS minor can apply their expanded knowledge in both manufacturing and service sectors of the economy.

The SC&IS minor is offered on-line through World Campus. SC&IS contains World Campus sections of MIS 404, SCM 445 and SCM 465 that contain SAP-specific topics necessary for the minor. Planning and course selection is important in order to earn proper credit in the SAP-specific courses. The SC&IS minor is not open to SC&IS major (Smeal) and PSCM majors (Behrend and Capital).

A grade of C or better is required in all courses used to meet the requirements of the SC&IS minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (12 credits)

SCM 301(3), SCM 404(3), SCM 406(3), SCM 445(3) (Sem: 4-7)

**ADDITIONAL COURSES:** (6 credits)

Select 6 credits from the following: MIS 404(3), SCM 460(3), SCM 465(3) (Sem: 5-8)

## Biochemistry and Molecular Biology Minor

*University Park, Eberly College of Science (B M B)*

The Biochemistry and Molecular Biology minor provides a foundation in traditional biochemistry and an exploration of the current understanding of molecular biology. The fields of biochemistry and molecular biology are extensively interconnected and are taught in the context of the biology of the cell. Stated another way, the B M B minor is a substantial treatment of life processes at the molecular and cellular levels. The minor requires coursework in general biochemistry, cell biology, and molecular biology. A required laboratory course exposes students to the basic techniques and instrumentation used in modern biochemistry and molecular biology laboratories. Students considering this minor should be comfortable with the study of chemistry.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 33-35 credits

**PRESCRIBED COURSES:** (29-30 credits)[\[1\]](#)

CHEM 110 GN(3), CHEM 112 GN(3) (Sem: 1-2)

B M B 251(3), B M B 252(3), CHEM 210(3), CHEM 212(3) (Sem: 3-4)

B M B 400(2-3), B M B 401(3), B M B 402(3), B M B 442(3) (Sem: 5-6)

**ADDITIONAL COURSES:** (3 credits)

BIOL 222(3) or BIOL 322(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS:** (0-3 credits)[\[1\]](#)

Select 0-3 credits of B M B courses at the 400-level (Sem: 7-8)

*Note:* B M B 408(1-2) and B M B 496(1-18) may not be used to fulfill requirements for the minor.

**Business Administration Minor***Capital College (BADMN)*

This interdisciplinary minor provides students in all majors with a business-oriented supplement to their major fields of study. It is intended to provide a set of basic skills that complement the unique competencies gained in their non-business disciplines. It is strongly recommended that students taking this minor elect at least one course in mathematics through college calculus, and a second course in descriptive and inferential statistics, as part of their General Education requirements or electives for the major. Students taking this minor may not have more than 25 percent of their total credits for graduation in business courses, and must receive a grade of C or better in all courses required for the minor. Students pursuing the Business Administration minor should apply to the School of Business Administration and select business courses in consultation with a business adviser.

## Biology Minor

*Penn State Erie, The Behrend College (BIOBD)*

Contact: Paul Barney, [peb3@psu.edu](mailto:peb3@psu.edu)

The minor in Biology gives students opportunities to combine a background in the biological sciences with other majors. The minor can provide valuable expertise in cross-disciplinary areas, such as mathematical biology, biochemistry, and biophysics; or a biological grounding in fields like psychology or ecology.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (4 credits)

BIOL 110 GN(4) (Sem: 1-4)

**ADDITIONAL COURSES** (8 credits)

Select 8 credits from BIOL 220W GN(4), BIOL 230W GN(4), or BIOL 240W GN(4) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of additional 400-level BIOBD courses, excluding BIOL 492(1), BIOL 496(1-12), BIOL 495(1-12) and BIOL 496(1-18) (Sem: 5-8)

## Biomedical Engineering Minor

*University Park, College of Engineering (BME)*

This interdisciplinary minor is designed for students interested in the application of engineering principles to medical and biological problems. The minor is particularly suitable for students pursuing an undergraduate degree in a different engineering major, physics, or other applied science who are seeking careers in health-related professions. PHYS 211 GN(4), PHYS 212 GN(4), and calculus through differential equations (MATH 250 or 251) are required for entrance to the minor. Additional prerequisites for prescribed and supporting courses may be required and should be researched prior to applying for the minor (e.g. CHEM 112 GN(3) and CMPSC 200 GQ(3)). Students interested in pursuing this minor should contact the Department of Biomedical Engineering with any questions or for more information.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-20 credits

**ADDITIONAL COURSES** (6-8 credits)

Select 3-4 credits of physiology from BIOL 141 GN(3), BIOL 240W GN(4) or BIOL 472(3) (Sem: 3-6)

Select 3-4 credits of molecular/cell biology from B M B 251(3), BME 201(3), or BIOL 230W GN(4) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 9-12 credits of Biomedical Engineering (BME) coursework from 3-credit courses at the 400, or 500 level 300-level courses will be considered by petition and only 3 credits of research or independent study credit (BME 494H or 496) may be used. (Sem: 5-8)

Select 0-3 credits of electives from Biomedical Engineering-related courses (department list) (Sem: 5-8)

## Biology Minor (BIOL)

*Contacts:* Altoona College, Edward Levri, [ep11@psu.edu](mailto:ep11@psu.edu); Eberly College of Science, Barbara DeHart, [bzd2@psu.edu](mailto:bzd2@psu.edu); Penn State Berks, Maureen Dunbar, [med18@psu.edu](mailto:med18@psu.edu); Penn State York, Dr. Anne Vardo-Zalik, [amv12@psu.edu](mailto:amv12@psu.edu)

This minor is designed for students in non-Life Science majors, who desire to obtain an in-depth and well-rounded knowledge of Biology -- the science of life and living organisms. This minor is not intended for "Life Science" oriented majors, including Biological Anthropology, Premedicine, and Science, Life Science option. After taking an introductory survey course which exposes students to the basics of Biology, including the chemistry of life, cell structure, genetics, mechanisms of evolution and evolutionary history of biological diversity, plant and animal form and function, and ecology, students select additional courses based on their biological emphasis to account for a total of 18-20 credits. In conjunction with the student's major, the minor prepares students for entry to graduate school or professional school programs, as well as for technical or research careers with governmental agencies or industry. Majors complemented by this minor would include but not be limited to other life and physical sciences, engineering, and business.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-20 credits

**PRESCRIBED COURSES** (4 credits)  
BIOL 110 GN(4) (Sem. 5-6)

**ADDITIONAL COURSES** (7-8 credits)  
Select 7-8 credits from BIOL 129 GN(4), BIOL 141 GN(3), BIOL 142(1), BIOL 222(3), BIOL 220W GN(4), BIOL 230W GN(4), BIOL 240W GN(4), BIOL 322(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6-9 credits)  
Select 6-9 credits from 400-level Biology courses (BIOL 400, BIOL 496, and SC 495 credits may not be used to fulfill this requirement.) (Sem: 5-8)

Last Revised by the Department: Fall Semester 2007

Blue Sheet Item #: 35-06-521

Review Date: 4/10/07

## Black Diaspora Studies Minor

*University Park, College of the Liberal Arts (BLDSP)*

The minor in Black Diaspora Studies is designed to broaden the perspectives of students through an examination of the international/transnational dimensions of the experiences of African and African-descent populations, particularly those in the Western Hemisphere. Since the early sixteenth century, when Europe, the Americas, and Africa were brought into a pattern of sustained interaction following the onset of the Age of European Discovery, the African slave trade and other forms of migration and exchange have been critical to the formative experience of Africans and African-descent populations linked by the Atlantic. The intensity and impact of those exchanges have varied over time, but the presence of Africans and African-descent populations in the evolution of Atlantic civilization constitutes the core of the study of the African Diaspora.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**A. PRESCRIBED COURSES** (9 credits)

AAA S 110 GS;IL(3), AAA S/HIST 211 GH;US;IL(3), AF AM 100 GS;US(3) (Sem: 1-4)

**B. ADDITIONAL REQUIREMENTS** (9 credits, 6 of which must be at the 400 level)

AAA S/SPAN 132 IL(3), AAA S/HIST 191 GH;IL(3), AAA S/HIST 250 GH;IL(3) (Sem: 1-4)

AAA S/HIST 431 US;IL(3), AAA S/HIST 432 IL(3), AFR 440 US;IL(3), PL SC 453 IL(3) (Sem: 5-8)

## Bioethics and Medical Humanities Minor

### *Intercollege Program (BMH)*

The tremendous current activity in the biomedical sciences affects both the public and private sectors, including medical care, the pharmaceutical industry, genetics, environmental epidemiology, agricultural science, the insurance industry, occupational health, forensic sciences, and behavioral variation. All these areas go beyond the science itself, with varied impact on people in different age, sex, ethnic, geographic, or economic segments of society. For that reason, life and health sciences research has major social implications that bear on humanities disciplines ranging from ethics and history to religious studies and literature, affecting clinical practice, agricultural practice and research, public policy and private investment. Understanding these issues is important for an informed citizenry. Students electing the BMH minor will start with a basic background of biology coursework, and will take a curriculum that includes 18 credit hours, beginning with an introductory course on basic ideas of bioethics, followed by a choice of other relevant humanities courses, and capped with an integrative course involving original research by the student. The minor will be suitable for students in almost any major, especially students going on to further academic work or careers in health, the life sciences, informatics, forensic or legal professions.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

BMH 490(3), PHIL 132 GH(3)/RL ST 131 GH(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 12 credits, at least 3 credits must be at the 400 level, and one course must be selected from the list of Ethics courses:

**Ethics** (select at least one course from this group) BB H 301(3), BIOL 461(3), NURS 464 US;IL(3), PHIL 432(3) or S T S 432(3), PHIL 498(1-9), WMNST 458 GS(3) (Sem: 5-8)

**Humanities** CAS 253(3), CAS 453(3), HIST 103 GH;IL(3) (Sem: 5-8)

**Other** ANTH 470H(3), ANTH 471H(3), CSD 269 US;IL(3), FD SC 280H GH(3), H P A 301W(3), KINES 345(3), NUTR 430 IL(3), WMNST 250 US(3) (Sem: 5-8)

## Business Minor

University College via World Campus, Lehigh Valley

*Contacts: Business Minor Contact at campuses offering the BSB major or University College at: [sah43@psu.edu](mailto:sah43@psu.edu); Lehigh Valley - Maung Min*

The Business minor is a strong complement to virtually any major. Courses prescribed for the minor are taught by Penn State faculty providing courses to the B.S. in Business and the A.S. in Business Administration. It provides students with the opportunity to develop and apply skills appropriate to the business contexts of their chosen majors. Students pursuing the Business minor must complete thirteen credits of prescribed course work and six credits of additional course work. A grade of C or better is required for all courses in the minor. The prescribed thirteen credits of coursework presents students with a critical foundation of core business disciplines: accounting, management, marketing, and either macro- or micro-economics. The six credits of additional coursework must be taken at the 400-level.

The additional coursework enables students to expand on the core foundation in one of two ways. They may choose to solidify their business knowledge base by exploring six credits of 400-level business courses in the following disciplines: Accounting; Business Administration; Business Law; Energy Business and Finance; Economics; Entrepreneurship; Finance; Financial Services; Health Policy and Administration; International Business; Labor Studies and Employment Relations; Management Information Systems; Management; Marketing; Risk Management; Supply Chain Management; or Statistics. Alternately, students can augment three credits of 400-level coursework in one of the above listed business disciplines with three credits of 400-level work from an approved list of specific business-related course in disciplines such as Communication Arts and Sciences; Corporate Communication; Communications; Criminal Justice; Engineering; English; Human Development and Family Studies; History; Hospitality Management; Information Sciences and Technology; Kinesiology; Philosophy; Political Science; Psychology; Recreation, Park and Tourism Management; or Sociology.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES:** (10 credits)

ACCTG 211(4) (Sem: 1-5)

MGMT 301(3), MKTG 301(3) (Sem: 5-8)

**ADDITIONAL COURSES:** (3 credits)

Select 3 credits from ECON 102 GS(3) or ECON 104 GS(3) (Sem: 1-5)

**SUPPORTING COURSES AND RELATED AREAS:** (6 credits)

Select 3-6 credits at the 400 level from:

ACCTG, B A, B LAW, E B F, ECON, ENTR, FIN, FINSV, H P A, I B, LER, MIS, MGMT, MKTG, R M, SCM, or STAT (Sem: 5-8)

Select 0-3 credits at the 400-level from:

CAS 404(3), CAS 452(3), CAS 483(3), CC 401(3), CC 403W(3), COMM 421W(3), COMM 427(3), COMM 471(3), CRIMJ 408(3), CRIMJ/SOC 467(3), ENGL 419(3), ENGL 420(3), ENGR 425(3), HD FS 401(3), HD FS 424(3), HD FS 425(3), HD FS 455(3), HIST 458Y(3), HM 435(3), HM 471(3), HM 484(3), IST 402(3), IST 420(3), IST 425(3), IST 431(3), IST 432(3), IST 461(3), KINES 438W(3), KINES 492W(3), PHIL 406(3), PL SC 440 US:IL(3), PSYCH 404(3), PSYCH 408(3), PSYCH 423(3), PSYCH 482(3), PSYCH 484(3), PSYCH 485(3), RPTM 410(3), RPTM 415(3), RPTM 470(3), SOC 455(3), SOC 456(3) (Sem: 5-8)

## Business and the Liberal Arts Minor (BUSLA)

Contact: College of the Liberal Arts, Michael Berkman, [mbb1@psu.edu](mailto:mbb1@psu.edu)

This minor offers fundamental courses in business, the opportunity for more advanced business courses, and Liberal Arts coursework emphasizing various perspectives on business.

Only courses in which the student earns a grade of C or better may be counted toward fulfillment of the requirements for the minor.

Students pursuing the Minor in Business and the Liberal Arts are encouraged to use ENGL 202D to satisfy their English 202 requirement.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 24-25 credits

**PRESCRIBED COURSES** (4 credits)

ACCTG 211(4) (Sem: 3-8)

**ADDITIONAL COURSES** (20-21 credits)

*At least 6 credits in additional courses must be at the 400 level.*

ECON 102 GS(3) or ECON 014 GS(3) (Sem: 3-8)

FIN 100(3) or FIN 301(3) (Sem: 3-8)

Select 2-3 credits from PHIL 119 GH(3) or B E 392 GWS(2); COMM 427(3), COMM 475(3), COMM 487(3), ENGR 407(3), RPTM 230(3) (Sem: 3-8)

Select 6 credits from the following course list:

B A 250(3), B A 321(1-3), COMM 385(3), COMM 424(3), COMM 473(3), COMM 493(3), ECON 390(3), ECON 490(3), LER 100 GS(3); MGMT 100(3) or MGMT 301(3); MGMT 425(3), MGMT 426(3); MKTG 221(3) or MKTG 301(3); MKTG 302(3), MKTG 310(3), MKTG 327(3), MKTG 330(3), MKTG 342(3), SCM 301(3), STAT 220(3), or 3 credits of appropriate internship selected in consultation with adviser.

Select 6 credits from the following course list:

AF AM 445Y US(3), AG EC 430(3), CED 450 IL(3), ANTH 451(3), ANTH 455(3), CAS 352(3), CAS 426W(3), CAS 450W(3), CAS 452(3), CAS 452W(3), CAS 471 US;IL(3), COMM 405(3), COMM 410 IL(3), COMM 419 US;IL(3), COMM 489W(3), COMM 490(3), COMM 491(3), COMM 492(3), CRIM 467(3), CRIMJ 460(3), CRIMJ 467(3), ECON 315 GS(3), ECON 333 GS(3), ECON 342 GS(3), ECON 402(3), ECON 412(3), ECON 428(3), ECON 432(3), ECON 433(3), ECON 434(3), ECON 436W US(3), ECON 443(3), ECON 444(3), ECON 445(3), ECON 447W(3), ECON 463 IL(3), ECON 471(3), ECON 472(3), ENGL 419(3), E B F 473(3), ENNEC 482(3), ENNEC 483(3), FR 407 IL(3), FR 408 IL(3), GEOG 424 US;IL(3), GEOG 439(3), GEOG 475H(3), GER 308Y IL(3), GER 408 IL(3), H P A 420(3), H P A 445(3), HD FS 424 US(3), HD FS 425 US(3), HIST 423 IL(3), HIST 425 IL(3), HIST 430 IL(3), HIST 445 US(3), HIST 446 US(3), HIST 447 US(3), HIST 451 US(3), HIST 458Y US(3), HIST 468 IL(3), HIST 475Y IL(3), HIST 481 IL(3), IST 431(3), IST 432(3), IST 445H(3), IST 452(3), JAPNS 403Y IL(4), JAPNS 404 IL(4), LER 400 IL(3), LER 401(3), LER 411(3), LER 414W(3), LER 425(3), LER 434(3), LER 437(3), LER 444(3), LER 445Y US(3), LER 458Y US(3), LER 460(3), LER 464(3), LER 465(3), LER 470(3), PHIL 406(3), PHIL 407(3), PHIL 418(3), PHIL 418W(3), PHIL 420(3), PHIL 431(3), PHIL 432(3), PL SC 412(3), PL SC 419(3), PL SC 490(3), PL SC 426(3), PL SC 440 US;IL(3), PL SC 441(3), PL SC 444(3), PL SC 445Y US(3), PL SC 474(3), PL SC 481(3), PL SC 487(3), PL SC 490(3), PSYCH 482(3), PSYCH 484(3), PSYCH 485(3), SOC 420(3), SOC 422(3), SOC 444(3), SOC 447(3), SOC 455(3), SOC 456(3), SPAN 420(3), STAT 470W(3), WMNST 426Y US;IL(3), WMNST 420 US;IL(3), WMNST 456(3), WMNST 472(3) (Sem: 3-8)

## **Classics and Ancient Mediterranean Studies Minor**

*University Park, College of the Liberal Arts (CAMS)*

The CAMS minor recognizes the completion of a broadly interdisciplinary study of the cultures of the ancient Mediterranean world through 18 credits of course work, including 6 credits at the 400-level. The courses offered are concerned with the cultures of the ancient Near East, Egypt, and Mesopotamia, Greece, and Rome in such fields as civilization, archaeology, history, philosophy, religion, and mythologies. Students who complete the Penn State Athens Education Abroad Program and its prerequisite course may apply to receive the minor. Students in the minor may also receive credit for participating in approved archaeological fieldwork in the Mediterranean region. While the study of language is not required, students are encouraged to study the appropriate ancient languages. The minor is especially suitable for students in such fields as history, medieval studies, anthropology, literature, philosophy, and education.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS:** (18 credits)

Select 12 credits from CAMS courses (Sem: 1-8)

Select 6 credits of 400-level CAMS courses (Sem: 5-8)

## Communication Arts and Sciences Minor (CAS)

Contact: College of the Liberal Arts, Peter Miraldi, [pnm10@psu.edu](mailto:pnm10@psu.edu) Penn State York, Dr. Deborah Eicher-Catt, [dle4@psu.edu](mailto:dle4@psu.edu)

This minor provides understanding and practice in the ways humans achieve their personal and career goals by means of communication. Students may choose any of the department's pathways of specialization, such as Interpersonal, Family, Intercultural, Organizational, Legal, Political Communication and Presentation Skills, Communication and Technology, or Rhetoric. For example, Legal Communication focuses on communication within the legal system, and provides students with the theory and skills to understand the uses, evaluation, and structure of public policy and legal disputes. Students learn how perception, meaning, and conflict function in human communication if they choose to specialize in Interpersonal Communication, while Organizational Communication critically examines leadership, decision-making, interviewing, and teamwork in formal organizations. In coordination with an adviser, a student of any major may tailor this minor to complement his or her educational and career goals by pursuing a particular pathway.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from CAS 203(3), CAS 205(3), CAS 211(3), CAS 213(3), CAS 214W(3), CAS 215(3), CAS 250(3), CAS 252(3), CAS 271 US;IL(3), CAS 280W(3), or CAS 283(3) (Sem: 3-6)

Select 3 credits from CAS 200(3), CAS 201 GH(3), or CAS 202(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 6 credits of Communication Arts and Sciences courses (Sem: 1-8)

Select 6 credits of Communication Arts and Sciences courses at the 400 level (Sem: 1-8)

*Note:* CAS 100 GWS(3), CAS 126(3), or CAS 195(1) may not be counted as part of the minor.

## Computer Engineering Minor

*Penn State Erie, The Behrend College (CENBD)*

*Contact(s): Tom Hemminger, tlh5@psu.edu*

This program of study provides graduates with a strong background in computer engineering. Upon completion of the minor, graduates will have developed an understanding of the operation and design of computers. This objective is accomplished through a combination of classroom study, computer-related projects, and laboratory experience. Analysis and design of computer hardware and software systems are stressed. The program requires completion of mandatory courses in analog and digital circuits, microprocessors, transistor logic, and computer programming. Students complete the minor by selecting technical electives in computer hardware and software engineering.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 24 credits

**PRESCRIBED COURSES:** (11 credits)

E E 210(4) (Sem: 1-4)

E E 310(4), E E 316(3) (Sem: 5-6)

**ADDITIONAL COURSES:** (13 credits)

Select 3 credits from CMPSC 201 GQ(3) or CMPSC 202 GQ(3) (Sem: 1-4)

Select 4 credits from CMPEN 271(3) and CMPEN 275(1) (Sem: 5-6)

Select 6 credits from CMPEN 352W(3), CMPEN 411(3), CMPEN 431(3), CMPEN 441(3), CMPEN 461(3), CMPSC 450(3), CMPSC 479(3), or SWENG 411(3)

## Child Maltreatment and Advocacy Studies Minor

### *Intercollege Program (CMAS)*

The Inter-college minor in Child Maltreatment and Advocacy Studies is designed for students who wish to supplement their academic majors with studies in child protection and well-being. The minor provides students with a broad and interdisciplinary introduction to child maltreatment and serves to establish foundational knowledge of the history and etiology of child maltreatment, the structure and administration of child protective service systems, and the identification, investigation, treatment, and prevention of child maltreatment. Students completing this minor will have an understanding of the issues surrounding child maltreatment and advocacy and will be better prepared for professions across a variety of settings that serve children. To meet a diverse range of student interests, four core courses (12 credits) establish foundational knowledge in child maltreatment and advocacy and two elective courses (6 credits) offer opportunities for students to select course options aligned with their professional goals. A capstone course involving field work, research, or other relevant work is required.

For a minor in Child Maltreatment and Advocacy Studies a minimum of 18 credits are required.

Penn State Mont Alto - Jacqueline Schwab, [sen@psu.edu](mailto:sen@psu.edu)

Penn State Berks - Laurie Grobman, [leg8@psu.edu](mailto:leg8@psu.edu)

Administered by a program faculty drawn from across the University, the Intercollege Minor in Civic and Community Engagement is appropriate to undergraduate students seeking to apply domains of knowledge from their majors or General Education programs to issues of consequence beyond the classroom. In the minor students integrate democratic, professional, and creative development. In particular, the minor serves to encourage, recognize, and systematize student participation in public service or problem-based fieldwork and research that:

- is substantial, sustained, and includes structured opportunities for student reflection and critical assessment; and
- is integrated with and supported by traditional, classroom-based course work.

Specifically, the minor consists of a balanced program of fieldwork experience and supporting course work that is selected with the advice and consent of a minor adviser and approved on behalf of the minor by a program faculty. Fieldwork experiences are selected from a list of eligible courses (or approved comparable alternatives), and supporting course work includes a conceptual foundations course that provides students with a critical orientation to contemporary issues and themes in public scholarship. The minor culminates with an approved capstone project, which may be a significant paper, or annotated portfolio, or other demonstration of substantial assessment and integration of the minor experience and the broader issue of application of academic theory and practice in the civic community.

The Civic and Community Engagement Minor Committee is authorized to award a minor certificate to any undergraduate who, in addition to satisfying the degree requirements of his or her baccalaureate major, satisfies the requirements for the Civic and Community Engagement Minor. The completion of the minor is reflected by a formal notation of the student's official record at the time of graduation. To enter the program, a student must submit an application to the committee. Applicants to the minor in Civic and Community Engagement:

- Must have a minimum overall GPA of 2.0.
- Must present a proposed plan of study in the application process. The plan of study should include student's contact information and GPA, a brief statement of student's learning objectives in connection with the major or other proposed curricular concentration, such as minor or general education, proposed supporting courses (include description of course and syllabus if available), proposed fieldwork courses (include information about fieldwork, supervision, and reflection and assessment), and minor adviser endorsement of the plan. Minor proposals must be approved by the student's minor adviser and the committee.
- May apply no more than 9 credits toward the minor that also count toward the major. Students with multiple majors may have some additional flexibility. Past fieldwork experiences and completed courses may be retroactively included in the plan of study, but must be approved by the minor adviser and the committee.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

CIVCM 211 GS(3) (Sem: 5)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

*at least 6 credits must be taken at the 400 level*

Select 6-9 credits from Program List of public scholarship courses, of which at least 3 credits involve supervised field experience and of which 3-6 credits are public issues and democracy courses, or equivalents chosen in consultation with minor adviser (Sem: 5-8)

Select 3-6 credits in related areas in consultation with minor adviser (Sem: 5-8)

Select 3 credits of public scholarship capstone work at the 400 level in consultation with minor adviser (Sem: 7-8)

## Criminal Justice Minor

Abington College (CJ)  
Altoona College (CJ)  
Penn State Berks - Jennifer Murphy  
Penn State Fayette (CJCC)  
Penn State Harrisburg contact: Shaun Gabbidon, [slg13@psu.edu](mailto:slg13@psu.edu)  
Penn State World Campus

The Criminal Justice minor provides an overview of the criminal justice system and a thorough grounding in criminological theory. Students receive an in-depth look at the three main system components: policing, courts, and corrections, as well as the opportunity to delve into two or more specialized topics relating to criminal justice. The minor is designed not only for students who have a professional interest in criminal justice, but also for those who want to be informed members of the voting citizenry. A functional understanding of crime and the criminal justice system is useful in many careers, including law, social work, education, and journalism.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (12 credits)

CRIMJ 100(3) (Sem:1-4)

CRIMJ 210(3), CRIMJ 220(3), CRIMJ 230(3) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS:** (6 credits)

Select 6 credits of 400-level CRIMJ courses, excluding CRIMJ 495(1-18) (Sem: 7-8)

Last Revised by the Department: Fall Semester 2001

UCA Revision #2: 7/27/07

AL

## Climatology Minor

*University Park, College of Earth and Mineral Sciences (CLIMA)*

Climate is a central component of the physical environment, playing an important role in a wide range of human activities. The ability to force changes in the global climate system may be one of the more significant ways in which human society will impact Earth's physical environment in the near future. The climatology minor in the College of Earth and Mineral Sciences is an interdisciplinary program drawing from the fields of meteorology, geography, and geosciences. The minor provides an overview of the physical processes that control present-day climate. It also provides an introduction to the history of climate change through geologic time, and presents some of the causes and consequences of potential future climate change and variability.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits)

Select 18 credits from:

EARTH 103 GN(3) (Sem: 1-8)

GEOG 438W(3), GEOG 412W(3), GEOG 310W(3), GEOG 417(3), GEOSC 320(3), METEO 300(3) (Sem: 5-8)

## Communications Minor

*Altoona College (COMAL)*

The Communications minor provides students an academic program of media studies that introduces them to approaches used to understand the mass media. These include aesthetic, cultural, humanistic, social-behavioral, and legal approaches. Students in the minor will have an opportunity to examine the theory and principles of communications systems and processes as well as learn in the advanced courses the research methods used for their systematic analysis. The minor emphasizes the liberal arts core of the Communications program and will equip students with well-developed language and analytical skills.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

COMM 100 GS(3), COMM 150 GA(3) (Sem: 1-2)

**ADDITIONAL COURSES** (12 credits)

(At least 6 credits must be at the 400 level.)

## Communications Minor

*Capital College (COMCL)*

The Communications minor provides students with an introduction to the tool skills needed to function as a professional communicator, as well as a basic understanding of communication processes and theory. Students seeking careers in fields such as public administration, business, criminal justice, law, information technology, and the medical, social and behavioral professions will find this minor provides instruction in a valuable additional knowledge and skill area important in today's information society.

Students must apply for entrance to the minor after achieving fifth semester classification.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

## Communication Arts and Mass Media Minor

*Penn State Erie, The Behrend College (CASCM)*

*Contact(s): Rod Troester, rlt5@psu.edu*

The CASCM minor offers students the opportunity to balance a liberal arts foundation and orientation to communication with the media and production theory and skills necessary for supplementing career fields requiring effective oral, written and media production skills. This minor would complement majors in management, marketing, education, sales, training and development, government, human resources, and development.

Students must apply for entrance to the minor after achieving fifth semester classification. This minor is not available to students enrolled in any of the majors in the College of Communications or any other communication major including: CAS, CASBL, CASCC, CCBA, CCCC, COMAL, COMBA, COMCC, or COMCL.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from COMM 100 GS(3), COMM 110 GH(3), COMM 118 GS(3), COMM 150 GA(3), or COMM 251(3) (Sem: 1-2)

Select 3 credits from CAS 101 GS(3), CAS 201GH(3), CAS 202 GS(3), or CAS 252(3) (Sem: 1-2)

**SUPPORTING COURSES AND RELATED AREAS:** (12 credits)

Select 6 select credits from any CAS or COMM 200-300 level courses. (Sem: 3-6)

Select 6 credits from any CAS or COMM 400 level courses (Sem: 5-8)

## Computer Science Minor

Computing has become an essential component of many disciplines, and it is driving innovation in fields far beyond computer science. The minor in Computer Science at Penn State Harrisburg provides basic proficiency in computer science, with an emphasis on building both a theoretical framework for computer science and providing practical skills needed to apply computer science to other fields of study. The knowledge and skills gained in the minor expands opportunities for students seeking careers in the growing number of fields that require a strong foundation in computer science. In addition, for students seeking to pursue graduate study, the minor provides background knowledge for the computing intensive aspects of their chosen discipline.

The minor begins with the second-level course in computer programming (CMPSC 122), a course in object-oriented programming with web applications (CMPSC 221), a course in discrete math for computer science (CMPSC 360), and a course in data structures (CMPSC 463). These twelve credits are followed with an additional six credits of 400-level work in computer science (CMPSC). Note that CMPSC 121 and MATH 140 are prerequisites for CMPSC 122.

*Capital College (COMP)*

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

CMPSC 122(3) (Sem: 1-3)

CMPSC 221(3) (Sem: 4-5)

CMPSC 360(3), CMPSC 462(3) (Sem:4-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of 400-level CMPSC courses from the department list of approved Additional Courses (Sem: 5-8)

## Computer Science Minor

*Penn State Erie, The Behrend College (CSCBD)*

*Contact(s): Meng Su, [mus11@psu.edu](mailto:mus11@psu.edu)*

The computer science minor at Behrend establishes a strong conceptual framework in computer science for students in other majors, so they can apply computer science methods and techniques to their primary field of study. The minor begins with the second level course in computer programming (CMPSC 122), the choice of a course in Object-Oriented Web based programming or design (CMPSC 221 or SWENG 311), a course in discrete math for computer science (CMPSC 360), and a course in Data Structures and Algorithms (CMPSC 465). These twelve credits are followed with an additional six credits of 400-level work in computer science (CMPSC). (Please note that CMPSC 121 and MATH 140 are prerequisites for CMPSC 122.)

Computing has become a critical aspect of most disciplines. This minor provides students with the opportunity to develop computing expertise which can then be applied to their field of study, thus enhancing job placement opportunities after graduation or better preparing the student to pursue graduate work in computing intensive sub-disciplines of their major. The emphasis is on building a conceptual framework which will allow the student to continue to learn new computing techniques beyond graduation in this rapidly evolving discipline.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

CMPSC 122(3) (Sem: 2-4)

CMPSC 360(3), CMPSC 465(3) (Sem: 3-6)

**ADDITIONAL COURSES** (3 credits)

Select 3 credits from CMPSC 221(3), CMPSC 312 (3), or SWENG 311(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of 400-level (below 490) CMPSC courses (Sem: 7-8)

## Dispute Management and Resolution Minor

*University Park, College of the Liberal Arts (D M R)*

This interdisciplinary minor, administered by the Departments of Communication Arts and Sciences, and Labor Studies and Employment Relations, provides students with the opportunity to learn about and develop skills appropriate to the management and resolution of problems created by difference in attitudes, beliefs, values, and behavioral preferences of individuals primarily in interpersonal, group, and organizational contexts, and, to a lesser extent, international contexts. The minor is supportive of, and complementary to, work emphasizing conflict and means for dealing with it in such majors as Administration of Justice, Communication Arts and Sciences, Human Development and Family Studies, Labor and Employment Relations, Political Science, Psychology, and Sociology. Students pursuing the minor must complete 9 credits of prescribed course work and 9 credits of additional course work distributed across at least two of the eight areas identified below. Of the 18 credits selected, at least 9 must be at the 400 level, 6 must be from Communication Arts and Sciences, and 6 must be from Labor and Employment Relations. A maximum of 6 credits earned in the minor, if appropriate, can be used to satisfy requirements in the Communication Arts and Sciences or Labor and Employment Relations majors. Only courses in which the student earns a grade of C or better may be counted toward fulfillment of requirements for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Dance Minor

*University Park, College of Arts and Architecture (DANCE)*

This minor is a rigorous program designed to help students who wish to further their skills in this art form. This modern-based program focuses on technique, choreography, and performance. Students choose from a variety of options to create their own dance minor that will give them the tools and the knowledge to further their individual interest in the field. Students have the opportunity to perform in pieces created by faculty, be a member of the University Dance Company, create their own pieces for performance, and attend national conferences. Upon completion of this minor, the student will be able to pick from a variety of career opportunities such as performance, teaching, choreography, production, and studio or have it apply to their major. Twenty-one credits are required for completion of the dance minor with a minimum of 6 credits at the 400 level.

Entrance into the Dance minor will be based on an audition. The audition will consist of a Ballet Barre, Jazz combo, and Modern combo. Ability to pick up and execute technique and combinations is essential. A grade of C or better is required in all courses required in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **REQUIREMENTS FOR THE MINOR: 21 credits**

#### **PRESCRIBED COURSES (5 credits)**

DANCE 301(2) (Sem: 2-8)

DANCE 484 US;IL(3) (Sem: 3-8)

#### **ADDITIONAL COURSES (13 credits)**

Select 3 credits from DANCE 261(1.5), DANCE 262(1.5), DANCE 361 GA(1.5), DANCE 362(1.5), DANCE 461(1.5), DANCE 462(1.5) (Sem: 1-8)

(These courses may not double count for other dance minor requirements.)

Select 6 credits from the following courses (3 credits at the 400-level):

DANCE 231(1.5), DANCE 232(1.5), DANCE 241(1.5), DANCE 242(1.5) (Sem: 1-4)

DANCE 251(1.5), DANCE 252(1.5), DANCE 261(1.5), DANCE 262(1.5), DANCE 361 GA(1.5), DANCE 362(1.5) (Sem: 1-4)

DANCE 431(1.5), DANCE 432(1.5), DANCE 441(1.5), DANCE 442(1.5), DANCE 451(1.5), DANCE 452(1.5), DANCE 461(1.5), DANCE 462(1.5) (Sem: 5-8)

(All dance minors are required to demonstrate proficiency at beginning level technique courses before selecting the advanced level courses.)

Select 4 credits from:

DANCE 381(2) (Sem: 3-8)

DANCE 480(2) (Sem: 5-8)

DANCE 485(1-2) (Sem: 1-8)

#### **SUPPORTING COURSES AND RELATED AREAS (3 credits)**

Select 3 credits from:

DANCE 280(1), DANCE 281(1), DANCE 296(1-18), DANCE 297(1-9), DANCE 385(2) (Sem: 3-8)

THEA 100 GA;US;IL(3), THEA 102 GA(3), THEA 146(2), THEA 150(3), THEA 189 GA(1-6) (Sem: 1-6)

THEA 208 GA;US;IL(3) (Sem: 1-8)

DANCE 482(3), DANCE 496(1-18), DANCE 497(1-9), THEA 408 US(3) (Sem: 5-8)

## Disability Studies Minor

### *Intercollege Program (DBLTY)*

This is an intercollege minor, offered jointly by the College of Engineering and the College of the Liberal Arts, and overseen by the Science, Technology, and Society (STS) Program. It is designed for students with special interests in the social systems, environmental factors, and cultural history of disability. In addition to the requirements of the student's major department, the minor consists of 18 credits selected from several colleges and departments. For those majoring in disability-driven disciplines (e.g. nursing, speech and communication disorders, psychology, special education, rehabilitation and human services, health administration), a Disability Studies minor provides relevant interdisciplinary links that broaden the understanding of disability beyond the clinical realm. For students in the humanities (e.g. history, philosophy, political science, and literature), Disability Studies offers important new dimensions and challenges to traditional accounts of human value and political agency. For students with personal experience of disability, the minor provides an academic grounding and community for disability advocacy on personal, community, and national levels.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

RHS 100(3), ENGL 228 GH;IL(3) (Sem: 1-6)

**ADDITIONAL COURSES** (3 credits)

Select 3 credits from LA 495(1-12), or an equivalent independent research course or internship approved by the faculty member in charge.

**SUPPORTING COURSES AND RELATED AREAS:** (9 credits)

Select at least three courses for at least 9 credits from an approved department list in consultation with adviser.

## Deafness and Hearing Studies Minor

University Park, College of Health and Human Development (DHS)

Contact: Diane L. Williams, [dlw81@psu.edu](mailto:dlw81@psu.edu); Joel Waters, [jrw5090@psu.edu](mailto:jrw5090@psu.edu)

This interdisciplinary minor is designed for students who want to learn about individuals with hearing disabilities, audition, and deafness within an individual and societal context. Core courses include knowledge and skills in preventing hearing loss, basic communication skills and disabilities, history, thought and culture of individuals who are deaf, and principles of human behavior and their applications. The minor will assist students in recognizing relationships among hearing disability, deafness, cultural differences and their impact on the individual in educational, social and vocational settings. Specializations include, but are not limited to, health-related fields, communications, societal and social life, cultural impact, educational experiences, prejudice and discrimination, and rehabilitation. Students will be able to place deaf culture and hearing disabilities in the proper perspective necessary for life-long learners engaged in fostering climates which embrace individuals from diverse backgrounds, especially disabilities.

The minor is most appropriate for students interested in clinical and health-related fields (e.g., nursing, biobehavioral health, or medicine), professional fields (e.g., business, pre-law, or communications), social sciences (e.g., human development and family studies, sociology, or psychology), and education (e.g., early childhood education, special education, rehabilitation counseling), as it will provide students with exposure to the range of variation in persons with hearing disabilities and deafness across the lifespan.

Students from any major (except Communication Sciences and Disorders) can declare a minor in Deafness and Hearing Studies. A grade of C or better is required for all courses in the minor. Students seeking advising for this minor should contact the Department of Communication Sciences and Disorders.

## Digital Media Trends and Analytics Minor

University Park, College Of COMMUNICATIONS (DMTA)  
University Park, College Of INFORMATION SCIENCES AND TECHNOLOGY

LEE AHERN, ASSOC PROF COMMUNICATIONS  
CARLEEN MAITLAND, INTERIM ASSOC DEAN

The DMTA minor will provide students with contextualized understanding of practices and trends in digital media, advertising, marketing and public relations. The minor is needed to provide a viable academic option for students who want to specialize in this fast-growing sector of the communications industry. In addition, completion of the minor will prepare students to pass a number of leading industry certification tests related to analytics, SEM, social media and digital media sales and marketing. The course sequence will begin with required basic courses in both IST (IST 110; 3 credits) and COMM (COMM 320 or 370; 3 credits) to ensure students have the foundational information they for the material that follows, and the ability to relate practices and trend in digital media to the larger communication and information technology landscapes. Students will then explore more focused courses in digital media, advertising, marketing and public relations. These areas reflect the major areas of digital communications activity. The digital media analytics course (3 credits) will lay the groundwork in audience the traffic measurement as well as detail the specifics of digital media system types and technologies. The search engine marketing class (3 credits) provides in-depth experience with the largest online advertising platform—Google Adwords. This course also makes connections to media analytics (also a central part of the Google marketer platform) and social media (also part of the Google Online Marketing Challenge). The digital public relations class (3 credits) will focus on non-paid digital activities, most importantly social media applications such as Twitter, Facebook, Instagram and Google+, and how these activities can be successfully integrated into a communications campaign. The digital advertising class (3 credits) will review new trends in the buying and selling of advertising outside of search engine marketing. Of specific interest are new developments in content marketing, programmatic buying and hybrid real-time-bidding programs that bring together content providers and advertisers in an increasingly automated marketplace. This course sequence is designed to easily accommodate new and related digital courses and to complement existing courses in advertising/public relations, telecommunications, information technology, marketing and media.

For the minor in Digital Media Trends and Analytics (DMTA) a minimum of 18 credits are required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (15 credits) [\[1\]](#)  
COMM 310(3), COMM 372(3), COMM 450B(3), IST 110 GS(3), IST 450A(3) (Sem: 4-8)

**ADDITIONAL COURSES** (3 credits)  
Select 3 credits from: COMM 320(3); COMM 370(3)(Sem: 3-4)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Dance Studies Minor

*Altoona College (DNCAI)*

The Dance Studies Minor is designed for students interested in furthering their study and exploration of the many areas of dance. Students will explore the creative process of dance as it relates directly to technique and performance. Students have the opportunity to perform with the Ivyside Dance Ensemble, perform in faculty choreography, choreograph for productions, and attend national festivals. The Dance Studies Minor allows students to further enhance their dance study and prepares them for graduate study and a variety of career options. Twenty-one credits are required for completion of the minor with a minimum of 9 credits at the 400 level.

A grade of C or better is required in all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (18 credits)

DANCE 270 GHA(3)

DANCE 365(3), DANCE 366(3) (Sem: 3-6)

DANCE 466(3), DANCE 482(3), DANCE 484 US;IL(3) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits)

DANCE 230 GA(1.5), DANCE 240 GA(1.5), DANCE 250 GA(1.5), DANCE 261 GA(1.5) (Sem: 1-4)

(All Dance Studies minor students are required to demonstrate proficiency at beginning level technique courses before placement in the intermediate or advanced courses.)

## Engineering Mechanics Minor

*University Park, College of Engineering (E MCH)*

The Engineering Mechanics minor helps students prepare to analyze and/or design simple structures that are efficient and safe under foreseen loading conditions.

Contemporary engineering design of mechanical components requires precise information and modern analysis techniques to determine material response to anticipated loading. Designers must have the analytical and experimental tools to accurately define deformation under load to characterize dynamic response and to prevent mechanical failure. In the event of failure the cause(s) must be ascertained to prevent future failure through redesign and/or material substitution. Thus, industry has a real need for those with a sound foundation in Engineering Mechanics, the engineering science that deals with the effects of forces and torques on rigid and deformable bodies. Engineering Mechanics consists of Statics (bodies in equilibrium), Dynamics (bodies in unsteady motion such as vibration, moving on curvilinear paths) and the Mechanics of Deformable Media. The latter topic covers the change in dimensions of bodies of various shapes under the influence of forces, torques, temperature, and dynamic motion. Further failure criteria under such loadings are introduced and utilized in examples of engineering design. Some twenty undergraduate courses covering the above topics are available at two levels, i.e. sophomore introductory and senior (400) courses.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS:** (18 credits)

Select 12 credits of E MCH courses, which may include: E MCH 211(3), E MCH 212(3), E MCH 213(3), E MCH 315(2), E MCH 316(1) (Sem: 1-4)

Select 6 credits from 400-level E MCH courses (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

Review Date: 8/29/02

EN

## Electronic and Photonic Materials Minor

*University Park, College of Earth and Mineral Sciences (EPM)*

Electronic and photonic materials have greatly changed modern life. Without them, computers, telecommunication systems, compact disc players, video cameras, and all the electronics with which we have become accustomed would not be possible. The study of electronic and photonic materials is a natural bridge between the fields of electrical engineering and material science. Students in electrical engineering will benefit from this minor because they will better understand the materials with which they will design electronic and photonic devices, such as transistors on a computer chip or semiconductor lasers in a compact disc player. Training in the field of electronic and photonic materials requires study of the processing and characterization of these materials to help engineers develop ways to lower cost and improve performance. This knowledge will help prepare students to enter the semiconductor industry or pursue graduate studies.

A grade of C or better is required for all courses in the minor.

For a MINOR in Electronic and Photonic Materials a minimum of 35 credits are required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 35 credits

**PRESCRIBED COURSES** (23 credits)

E E 310(4), MATH 140(4), MATH 141(4), MATH 231(2), MATSE 201(3) (Sem: 1-4)

CHEM 112 GN(3), E E 441(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 3 credits from E SC 314(3) or an approved E E course (Sem: 1-4)

Select 3 credits from MATSE 450(3) or MATSE 455(3) (Sem: 5-8)

Select 6 credits from E E 442(3), E SC 445(3), MATSE 400(3), MATSE 401(3), MATSE 402(3), MATSE 413(3), MATSE 417(3), MATSE 430(3), MATSE 435(3), MATSE 450(3), MATSE 455(3) (Sem: 5-8)

## Environmental Resource Management Minor

*University Park, College of Agricultural Sciences (E R M)*

The Environmental Resource Management (E R M) minor is designed to provide science-based non-majors with a cohesive selection of courses related to the sustainable management of environmental resources.

The minor was developed to permit students from other majors to have their environmental interests and training formally documented on their academic records. Because so many of society's activities have an impact on environmental quality, the minor should appeal to students with majors from a wide variety of science-based disciplines.

The E R M minor includes an introduction to calculations and problem-solving skills common to managing environmental resources, and allows students to select a wide variety of other E R M courses that cater to their strengths and interests. Students may also elect to take courses in environmental law, resource allocation and economics, and soil sustainability and management. Individual programs are determined jointly by the student and the E R M Program Coordinator.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits) [\[1\]](#)

Select 18 credits from A S M 327(3), SOILS 101 GN(3), or any E R M course. At least 6 credits must be at the 400-level (Sem: 3-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

Last Revised by the Department: Spring Semester 2015

Blue Sheet Item #: 43-06-000

Review Date: 04/14/2015

AG

## Environmental and Renewable Resource Economics Minor

*University Park, College of Agricultural Sciences (E RRE)*

This minor introduces students to how fundamental economic principles can be used to explain and seek solutions for problems related to the degradation of the environment and unsustainable use of natural resources. This program complements majors that provide a natural science-based approach to environmental issues and provides social-science majors interested in the environment with additional tools for the analysis of social decision-making, and policy objectives. A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

CED 201(3), CED 429(3), ECON 302 GS(3) (Sem: 5-6)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits from CED 431W(3), ECON 428(3), CED 450 IL(3), E R M 411 (3), R SOC 327(3), 300- or 400-level internship or independent study (3 credit max.) (Sem:5-8)

Last Revised by the Department: Summer Session 2004

## Earth Systems Minor

*University Park, College of Earth and Mineral Sciences (EASYS)*

The recognition that environmental problems are global in extent, and impact on many different components of the Earth System simultaneously, requires that we adopt a large-scale and interdisciplinary approach to questions of global change and the interactions of the physical and human environments. The Earth Systems minor follows such an approach and offers undergraduates the opportunity to study the Earth as an integrated system. The Earth Systems minor is a science minor offered through the College of Earth and Mineral Sciences. It provides a wider interdisciplinary perspective for majors in the traditional Earth Science disciplines (geography, geoscience, and meteorology), and provides an introduction to Earth Sciences and a broad exposure to Earth Systems/Environmental Studies for other science and engineering majors. Students may apply up to 6 credits from courses in the major department to satisfy the minor requirements.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENT FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

EARTH 002 GN(3) (Sem: 3-6)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from EARTH 103 GN(3), EM SC 470W(1-6), GEOG 430(3), GEOSC 310(4), or METEO 300(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits from the Earth Systems Committee's approved list of courses (Sem: 5-8)

Last Revised by the Department: Spring Semester 2000

## Energy Business and Finance Minor

*University Park: College of Earth and Mineral Sciences (EBF) Contact: Professor Seth Blumsack, Program Officer  
World Campus*

The minor in Energy, Business and Finance is an offering of the College of Earth and Mineral Sciences. The minor introduces students to financial, investment, and management concepts applied to private sector organizations whose operation emphasizes the Earth and its environment, the energy and mineral industries, or the development of new and enhanced materials. The minor focuses on the leadership and information strategies characteristic of enterprises that are succeeding in a rapidly integrating global economy.

The minor provides science and engineering students an introduction to basic entrepreneurial and business concepts to help prepare them for success in a changing professional environment. It also provides other Penn State students an opportunity to focus on business strategies in the Earth resources, environmental, and materials industries. A minimum of 24 credits is required for the minor. A student enrolled in this minor must receive a grade C or better in all courses in the minor. Advising is available through the EMS Student Center (014 Deike Building) or the professor in charge.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 24 credits

**PRESCRIBED COURSES** (15 credits)

ECON 102 GS(3), MATH 022 GQ(3) (Sem: 1-2)

E B F 200 GS(3) (Sem: 3-4)

E B F 301(3), EME 460(3) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits)

EGEE 101 GN(3) or EGEE 102 GN(3) or EGEE 120 GS;US;IL(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from the approved list of EMS courses. Approved courses are: E B F 401 (3), E B F 473(3), E B F 484(3), EGEE 401(3), EME 444(3), GEOG 424 US;IL(3), GEOG 430(3), GEOG 431(3), GEOG/EME 432(3), GEOG 444(3), GEOG 469(3), GEOSC 402Y IL(3), GEOSC 454(3), and METEO 473(3) (Sem: 7-8).

## Applied Economics Minor

*Penn State Erie, The Behrend College (APECN)*

*Contact(s): Greg Filbeck (mgf11@psu.edu)*

The minor in economics requires completion of 18 credit hours of coursework in economics. In addition to the introductory courses (ECON 102 and ECON 104), economics minors must complete 12 semester hours in economics elective courses at the 300/400 level. Note that at least 6 of those credit hours must be at the 400 level. The economics minor is a strong complement to virtually any major, including those within, and outside of, the School of Business. Since most School of Business majors will, as part of their major, already have earned 6 to 9 credits toward the economics minor, earning a minor in economics is particularly attractive for these students. The economics minor provides a general introduction to economic thought helping students better understand a variety of contemporary economic issues. The minor can enhance the market value of a major and can provide students with options and opportunities beyond those offered by the major program of study.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

ECON 102 GS(3), ECON 104 GS(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 6 credits from ECON courses (Sem: 3-6)

Select 6 credits of 400-level ECON courses (Sem: 3-8)

Last Revised by the Department: Spring Semester 2013

## **Economics Minor**

*University Park, College of the Liberal Arts (ECON)  
World Campus*

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

ECON 102 GS(3), ECON 104 GS(3) (Sem: 3-4)

ECON 302 GS(3), ECON 304 GS(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of additional ECON courses at the 400-level (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

Review Date: 9/2/03

LA

## Environmental Engineering Minor

*University Park, College of Engineering (ENV E)*

This minor is designed to provide students in engineering, science, and other majors with a comprehensive study of environmental issues and the skills necessary to solve problems associated with environmental pollution.

For entrance into the minor, students must be at least fifth-semester standing and have completed CHEM 110 GN(3), MATH 141 GQ(4), and PHYS 211 GN(4).

The minor consists of 18 credits, at least 6 of which must be at the 400 level. A grade of C or better is required for all courses in the minor.

An online application is available at: [http://www.engr.psu.edu/CE/env\\_minor.html](http://www.engr.psu.edu/CE/env_minor.html).

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits (2 credits of engineering design are included)

**PRESCRIBED COURSE** (3 credits)

C E 370(3) (Sem: 3-6)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from Chemistry and Biological Sciences: B E 308, C E 479(3), CHEM 202(3), CHEM 210(3) (Sem: 3-8)

Select 0-3 credits from Process Engineering: B E 302(4), CH E 210(3), EGEE 302(3), MN PR 301(3), NUC E 430(3) (Sem: 5-8)

Select 3 credits from Applied Fluid Mechanics: AERSP 308(3), B E 467(4), C E 371(3), C E 462(3), CH E 330(3), EME 303(3), M E 320(3), METEO 454(3), or NUC E 431W(4) (Sem: 5-8)

Select 6-9 credits from Environmental Sciences and Design: B E 468(3), B E 477(3), C E 472W(3), C E 475(4), C E 476(3), CHEM 402(3), E R M 411(3), E R M 412(3), E R M 413W(3), E R M 447(3), E R M 450(3), EGEE/M E 430(3), EGEE 470(3), ENVSE 408(3), ENVSE 427(3), F SC 431(3), GEOSC 452(3), M E 405(3), M E 433(3), NUC E 405(3), NUC E 420(3), NUC E 428(3), SOILS 420(3) (Sem: 5-8)

## Engineering Leadership Development Minor

*University Park, College of Engineering (E L D)*

This interdisciplinary minor is designed to provide engineering students with critical principles and skills. Engineering graduates must demonstrate the ability to assume leadership roles in a competitive technologically complex global society. There are increasing demands for engineers to be able to deal effectively with other people, including the ability to work in teams and to interact with customers and other organizations on both national and international levels. Students will employ engineering case studies in active and collaborative classroom settings to develop these skills. The minor consists of 18 semester hours. A grade of C or better is required in all minor courses. Students in all engineering majors are eligible. For admission to the minor, students must have completed ENGR 408(2). Students should apply during their sophomore year.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

ENGR 409(3) (Sem: 5-6)

ENGR 408(2) (Sem: 5-8)

ENGR 493(1), S T S 460(3) (Sem: 7-8)

**ADDITIONAL COURSE** (3 credits)

B A 250(3) or ENGR 407(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with the coordinator of the Engineering Leadership Development Minor (Sem: 5-8)

Last Revised by the Department: Spring Semester 2002

Blue Sheet Item #: 30-03-100C

Review Date: 11/20/01

EN

## Electrochemical Engineering Minor

*University Park, College of Earth and Mineral Sciences (ELCHE)*

The electrochemical engineering minor is designed to equip students with the knowledge necessary to achieve the following educational objectives: become valuable contributors in addressing society's clean energy needs and demands especially in the electrochemical power generation sector; and educators, practicing engineers, and national leaders in electrochemical energy conversion and storage. The minor integrates skill sets in fundamentals of electrochemistry (e.g. chemistry, physics, mathematics, thermodynamics, and chemical kinetics) and electrochemical engineering applications (batteries, solar, flow and fuel cells, electrochemical synthesis and corrosion) to ensure successful career opportunities and growth within electrochemical power generation industries, government agencies, and academia. The curriculum should allow students in energy related programs such as chemical, civil, electrical, environmental, mechanical, and materials science and engineering to readily take advantage of the minor and be better prepared for careers in clean power generation and future green technologies.

The integration of knowledge and skills acquired through the inquiry-based teaching methods should enable students of the program to achieve the following student educational outcomes:

- solve problems relating to the production, storage, distribution and utilization of electrochemical energy and the associated environmental issues
- design and conduct experiments, acquire data, define, analyze, and interpret data, and solve practical, complex problems on a variety of electrochemical technologies such as batteries, solar cells, flow and fuel cells, electrolyzers, and supercapacitors
- integrate professional, ethical, social and environmental factors in electrochemical engineering design and problem solving and understand the impact of these factors on global energy issues
- develop the ability to communicate effectively in writing and orally and build teamwork
- acquire the desire for lifelong learning to maintain technical competence and keep abreast of new developments in the field.

A grade of C or better is required for all courses in the minor.

For the minor in Electrochemical Engineering, a minimum of 35 credits is required.

**REQUIREMENTS FOR THE MINOR:** 35 credits

**PRESCRIBED COURSES** (20 credits)

CHEM 112 GN(3), E SC 455 (3), EGEE 441(3), MATH 251(4), MATSE 421 (3), PHYS 212 GN(4) (Sem: 7-8)

**ADDITIONAL COURSES** (15 Credits)

Select 6 credits from: EME 301(3), EME 303(3) or CH E 220(3), CH E 330(3) or M E 300(3), M E 320(3) or MATSE 401(3), MATSE 402(3)

Select 9 credits from EGEE 420(3), EGEE 437(3), EGEE 436(3), EME 407(3), M E 403(3) (Sem: 7-8)

Last Revised by the Department: Fall Semester 2015

Blue Sheet Item #: 44-02-017

Review Date: 09/27/2011

## English Minor

*Penn State Berks - Christian Weisser, [crw17@psu.edu](mailto:crw17@psu.edu)  
Penn State Erie, The Behrend College (ELISH)*

*Contact: Craig Warren, [caw43@psu.edu](mailto:caw43@psu.edu)*

For the English minor at Penn State Erie, the student must take (beyond the basic General Education) 18 credits of courses in ENGL or ELISH; 6 of these credits must be at the 400 level. The student is encouraged to take courses from each of the areas within the major (The Canon and Its Critics, Globality and Literature, Cultural Studies), as well courses in creative writing. By doing so, students will develop skills in writing and critical thinking that will prove valuable in their later work experiences.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select at least 12 credits from ENGL or ELISH 200-289 [Students may not count courses used to satisfy General Education Writing/Speaking Skills] (Sem: 1-6)

Select at least 6 credits from ENGL or ELISH 400-493

Last Revised by the Department: Fall Semester 2001

## Energy Engineering Minor

*University Park, College of Earth and Mineral Sciences (ENENG)*

*Professor Sarma Pisupati, Program Officer*

The minor in Energy Engineering is designed to provide students in engineering, science, and energy business and finance (EBF) with additional courses, exposure, and experiences to the principles and applications of energy engineering. Courses available to students include thermal sciences; petroleum and natural gas processing; renewable/sustainable energy; chemistry of fuels; electrochemical, chemical and nuclear energy conversion processes; physical processes in energy engineering; air pollution; and green engineering and environmental compliance. As a result, the selection of this minor can provide additional career options for students in a wide range of offerings at Penn State.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits)

Select 9 credits from the following courses: EGEE 302(3), EGEE 304(3), EGEE 411(3), EGEE 420(3), EGEE 430(3), EME 301(3) (Sem: 5-6)

Select 9 credits from the following courses: EGEE 433(3), EGEE 437(3), EGEE 438(3), EGEE 441(3), EGEE 451(3), EGEE 464W(3), EGEE 470(3), F SC 431(3), F SC 432(3) (Sem: 7-8)

Last Revised by the Department: Fall Semester 2007

## Entrepreneurship and Innovation Minor

*Intercollege Program (ENTI)*

*Penn State Berks - Dr. Sadan Kulturel-Konak (sxk70@psu.edu)*

*University Park - Dr. Anne Hoag (amh13@psu.edu)*

*University College - Lehigh Valley - Denis Ogden (dto2@psu.edu)*

Skills attributed to entrepreneurial behavior and innovative thinking are beneficial for students in most if not all majors, and are critical to career success in established companies and new organizations to address pressing needs around the globe. This interdisciplinary minor uses problem-based learning pedagogy to prepare students to create value and be agents of positive change in their discipline and their careers. The courses develop skills in problem solving, opportunity recognition, self-efficacy, leadership, communications and learning from failure. To meet the students' broad range of entrepreneurship and innovation interests, core courses (9 credits) establish foundational knowledge, and then students select a concentration cluster aligned to specific contexts such as entrepreneurship in food, technology, art, journalism, or internet. Students who complete the ENTI minor will be better prepared to be innovation leaders in their chosen career path, such as being entrepreneurial in an existing company (intrapreneurship), engaging in a start-up venture full or part-time, finding avenues to leverage their art or craft, or creating alliances to meet social or business needs.

Advising for students in this minor and approval of curriculum exceptions will be available through the Entrepreneurship and Innovation (ENTI) Adviser for each cluster.

### **Arts Cluster** *[College of Arts and Architecture]*

This specialization prepares students for entrepreneurial action in an arts context. To "entrepreneur" in the arts, one must understand aesthetic value and what drives people to consume aesthetic products. By learning how various arts markets view and consume art, emerging arts entrepreneurs envision "products" with specific markets in mind and craft marketing strategies to communicate aesthetic value to audiences. Upon learning how the non-profit and for-profit arts ecologies operate, students envision and develop their arts career and venture within the context, tying together the aesthetic and cultural value of their art form with the business acumen necessary to launch and sustain an entrepreneurial arts enterprise.

### **Digital Entrepreneurship and Innovation Cluster** *[College of Information Sciences and Technology]*

This specialization prepares a student to harness digital technologies and digital business models to develop their own concepts into commercial concerns or to contribute to the innovation activities of existing organizations (i.e., intrapreneurship). The IST Digital Entrepreneurship & Innovation cluster focuses on the impact of Information Technology (IT)-driven innovation across multiple industry sectors including for-profit, non-profit and governmental organizations. IT-driven innovation has created new business opportunities for both entrepreneurs and intrapreneurs and is key to increasing efficiencies and expanding the linkage between user-centric products and services. Students who complete this cluster will gain a foundational understanding of emerging information technologies, the components of digital business models, and implementation and design techniques that meet or exceed user-centric requirements.

### **Food and Bio-innovation Cluster** *[College of Agricultural Sciences]*

This specialization will develop future entrepreneurs and innovators to address opportunities and challenges in the agriculture and life sciences space. The cluster focuses on the cornerstone challenge for agriculture: producing food for the world with entrepreneurial activity and innovation to develop, convert and use biological materials and natural resources (plants, animals, ecosystems and organisms, etc.) to meet the material and energy needs of society. Students are encouraged to take a series of courses in the cluster that complement their personal venture interests and engage in a series of immersive venturing experiences that can range from creating new ventures to mentoring with seasoned entrepreneurs or working within entrepreneurial organizations.

### **Hospitality Management Cluster** *[College of Health and Human Development]*

This specialization prepares a student to create and develop novel but sound entrepreneurial concepts related to the hospitality industry in such businesses as lodging and food service. For example, through this cluster, students could develop and refine entrepreneurial concepts related to hotels, motels, bed & breakfasts, quick-service restaurants, upscale restaurants, mobile dining such as food trucks, on-line travel agencies, and other on-line ventures. The minor is also designed to prepare students to be innovators within existing organizations. Students who complete this cluster develop skills in creating business plans, feasibility studies, competitive analysis, supply and demand analysis, market analysis and financial forecasting. Students in this concentration are expected to include a mix of majors, not only students majoring in hospitality management.

### **New Media Cluster** *[College of Communications]*

This specialization examines opportunities and challenges in the creation and distribution of news, entertainment and information. The same technological innovations that make it easy to start a media enterprise have introduced a host of editorial and business complexities. Media production and distribution skills and knowledge of media business, technologies, law and ethics are critical.

### **New Ventures Cluster** *[Smeal College of Business]*

This specialization helps students develop the skills and ways of thinking required to create, develop, innovate and manage entrepreneurial companies. Students learn about acquiring and balancing limited resources, changing business direction quickly, building a coherent team, managing intellectual property, and creating new markets. This cluster develops a wide range of managerial skills not usually demanded in one person within a larger organization.

### **Social Entrepreneurship Cluster** *[College of Engineering]*

This specialization focuses on creating sustainable social impact within marginalized communities. The cluster grounds students in social business, user-centered design for extreme affordability, systems thinking and scholarly research to develop innovative and appropriate technology-based solutions to address compelling global challenges. Travel and fieldwork in which students work in multidisciplinary teams to research, design, test, and commercialize ventures are required.

### **Technology Based Entrepreneurship Cluster** *[College of Engineering]*

This specialization develops skills and knowledge through a practical entrepreneurial experience in a technology based environment. Technology and engineering design topics form the practical content of the cluster. General entrepreneurial business topics and tracking current and emerging technologies provide additional foundation structure for this cluster. Students understand and apply fundamental engineering design skills, product feasibility analysis and marketing techniques to move innovative products toward commercialization.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing is given as (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-19 credits, depending on cluster

#### **REQUIRED COURSES** (9 credits)

MGMT 215(3) (Sem: 1-5)

ENGR 310(3) (Sem: 2-6)

ENGR/IST/MGMT 425(3) (Sem: 4-8)

#### **ADDITIONAL COURSES**

**Select 9 or more credits from one of the following clusters.**

Students may not use a required course from their major in their chosen cluster. Other courses, such as technical electives, out-of-college electives, and general education courses may be able to be used to meet requirements in major as well as the ENTI Minor. In all clusters, students may substitute up to 3 credits of research topics, internship or independent studies courses focused on relevant entrepreneurship or innovation topics in consultation with an adviser. Each cluster is structured to provide a clear course "path" so any student from any major can complete the cluster and therefore the ENTI minor.

#### **Arts Cluster**

**Required courses:** A&A 322(3), A&A 323(3), A&A 324(1) in sequence or concurrent, and A&A 424(3) (Sem: 1-8)

#### **Digital Entrepreneurship and Innovation Cluster**

**Required courses:** IST 237(3), IST 337(3), and IST 437(3). (IST 237 is prerequisite for IST 437) (Sem:1-8)

#### **Food and Bio-innovation Cluster**

**Select up to 6 credits of the following 200-300 courses in the College of Agricultural Sciences:** A S M 391(2), A S M 392(2), AEE 201(3), AG BM 200(3),

AG BM 220(3), AG BM 302(3), AG BM 308W(3), AG BM 338(3), AN SC 207(2), AN SC 306(3), AN SC 308(4), AN SC 309(4), AN SC 310(3), AN SC 311(3), AN SC 324(3), AN SC 327(3), AN SC 350(2), CED 375H(3), E R M 300(3), FD SC 200(3), FD SC 206(3), FOR 201(3), HORT 250(3) (Sem:1-8)

**Select at least 3 credits of the following 400 level courses in the College of Agricultural Sciences:** AG BM 407(3), AG BM 408(3), AG BM 440(3), AG BM 460(3), AN SC 410(4), AN SC 429(3), AN SC 450(3), CED 417(3), E R M 411(3), E R M 412(3), E R M 413W(3), FD SC 411(2), FD SC 417(2), FD SC 430(3), FOR 440(3), HORT 410W(3), HORT 450(3), HORT 453(3), HORT 455(3), R SOC 452(3), TURF 436W(3), W P 416(3) (Sem:1-8)

**Hospitality Management Cluster**

Select 3 credits from HM 482(3) or HM 484(3) (Sem: 1-8)

Select 6 credits from the following: HM 413(3), HM 432(3), HM 483(3), HM 496(3) (Sem:1-8)

**New Media Cluster**

**Select 9 credits from the following area. The course marked with \* must be selected.** COMM 271(3)\*, COMM 461(3), COMM 481(3), COMM 483(3), COMM 484(3), COMM 490(3), COMM 491(3), COMM 492(3), COMM 493(3) (Sem:1-8)

**New Ventures Cluster**

**Select 9-10 credits from the following area.** (students may only count one of the following course options B A 241 and B A 242; B A 243, B LAW 243, or B LAW 341 towards the minor): B A 250(3), B A 241(2) and B A 242(2), B A 243(4), B LAW 243(3), B LAW 341(3), MGMT 420(3), MGMT 426(3), MGMT 427(3) (Sem:1-8)

**Social Entrepreneurship Cluster**

**Required courses to be taken in the following order:** ENGR 451(3), EDSGN 452(2) and EDSGN 453(1) concurrent, EDSGN 454(0.5), and ENGR 455(3) (Sem:1-8)

**Technology Based Entrepreneurship Cluster**

**Required courses:** ENGR 411(3), ENGR 407(3) in sequence or concurrent, and ENGR 415(3) (Sem:1-8)

Last Revised by the Department: Spring Semester 2014

Review Date: 09/15/2015

## Entomology Minor

*College of Agriculture Sciences (ENT)*

Through the Department of Entomology, the minor in Entomology is primarily designed for (but not restricted to) students in the Agroecology major seeking additional studies in the entomological sciences. Successful completion of this minor area of study will help prepare students for graduate studies in entomology and related fields.

A minor in Entomology requires 22 credits in approved courses in addition to the major requirements of the student's choice. Appropriate course substitutions may be considered with minor adviser approval.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 22 credits

**PRESCRIBED COURSES** (9 credits) [\[1\]](#)

BIOL 110 GN(4)[18], ENT 313(2), ENT 457(3) (Sem: 2-4)

**ADDITIONAL COURSES** (13 credits) [\[1\]](#)

Select 1 credit from ENT 314(1) or ENT 316(1) (Sem: 2-4)

Select 3 credits from AGECO 201(3), BIOL 222(3), BIOL 427(3), PPEM 405(3) (Sem: 3-8)

Select 6 credits from ENT/VB SC 402W(3), ENT 410(3), ENT 420(3), ENT 424(3), ENT 425(3), ENT 432(4), ENT 445(3) (Sem: 4-8)

Select 3 credits of ENT 496(1-18) (Sem: 4-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

**[18]** A grade of C or better per course is required for teacher certification.

AG

## Entrepreneurship Minor

*Altoona College (ENTRP)*

Entrepreneurship plays a crucial role in the way new ideas, opportunities, inventions, and technologies are created and introduced into the global marketplace. Students in this minor first develop an understanding of financial forces that affect business ventures. The minor then provides them with a core of courses that enhance their major field of study and that provide a background sufficient for them to take advantage of many entrepreneurial opportunities.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

A grade of C or better is required for all courses in the minor.

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES** (13 credits)

ACCTG 211(4), ECON 102 GS(3) (Sem: 1-4)

ENTR 300(3), ENTR 320(3) (Sem: 5-7)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 3 credits at the 400-level from entrepreneurship (Sem: 7-8)

Select 3 credits of ENGL 419(3) or any 400-level Business or Economics course (Sem: 7-8)

Last Revised by the Department: Fall Semester 2000

Blue Sheet Item #: 28-06-008A

Review Date: 5/9/02

AL

## Environmental Inquiry Minor

### *Intercollege Program (ENV I)*

This intercollege minor is designed for students across the disciplines who wish to prepare for addressing environmental issues or problems as professionals or citizens. The minor is available to all undergraduates regularly enrolled in a degree program at the University. The objectives are to allow students to gain the multiple perspectives necessary for understanding environmental issues as well as to increase skills in collaborating with those from very different disciplinary backgrounds to find acceptable solutions. Students will be challenged to move beyond the channels of thinking characteristic of their own discipline to new ways of knowing, new sensitivities, and new analytical approaches. The program will engage students actively in learning experiences outside their major course of study. This minor is intended not to replace existing minors but to be a true intercollege, interdisciplinary minor. A grade of C or better is required for all courses in the minor.

Advising for students in this minor and approval of curriculum exceptions will be available through the Environmental Inquiry Adviser designated within each participating college.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-19 credits

**ADDITIONAL COURSES** (15-16 credits)

**Introductory course:** The introductory course offers a broad overview of a topic that relates to an environmental theme. It is designed as a preface to learn about the many disciplines and approaches used to study the environment.

**Select one course (3-4 credits) from the following list:**

AGECO 121 GN(3), ANTH 045 GS;US;IL(3), BI SC 003 GN(3), BIOL 120A GN;US;IL(3), BIOL 120B GN;US(3), BIOL 120C GN;IL(3), BIOL 110 GN(4), CED 152(3), E R M 210 GN(3), EARTH 002 GN(3), EARTH 100 GN(3), EARTH 101 GN;US(3), EARTH 111 GN;US(3), EGEE/MATSE 101 GN(3), EGEE 102 GN(3), EM SC/S T S150 GN;IL(3), ENGL 180 GH(3), ENT 202 GN(3), ENVST 100 GS(3), FD SC/S T S 105 GHA(3), GEOG 030 GS;IL(3), GEOG 110 GN(3), GEOG 123 GS;IL(3), GEOSC 021 GN(3), GEOSC 040 GN(3), HIST/S T S 151 GS;US(3), HORT 101 GN(3), HORT 150 GN(3), INTAG 100 GS;IL(3), MATSE 081 GN;IL(3), PHIL 118 GH(3), PL SC/S T S 135 GS(3), R SOC/AGECO 134 GN(3), SOC 023 GS(3), SOILS 071 GN;IL(3), SOILS 101 GN(3), W F S 209 GN(3) (Sem: 1-4)

**Cluster course selections:** Select 9 credits from one of the following clusters. (Students may not use a course from their major in their chosen cluster). In all cases/clusters, students may substitute up to 3 credits of research topics, internship, or independent studies courses focused on a relevant environmental topic in consultation with an adviser. (Sem: 1-8)

#### **A. Biodiversity and Ecosystems**

This specialization prepares a student to learn about the importance of biodiversity in ecosystems. Over the last 100 years, humans have dramatically reduced the biodiversity on the earth primarily through loss of habitat. To reduce the pressure on the world's biological resources will take political will, scientific research and creativity in planning. A central focus is on developing effective understanding of land management practices that can enhance the prospects for biological diversity.

BIOL 127(3), BIOL 220W GN(4), BIOL 417(4), BIOL 435(3), BIOL 448(3), BIOL 482(3-4), BIOL 499A(3), C E 370(3), CHEM 020(3), CHEM 301(3), CHEM 402(3), ENT 202 GN(3), FOR 308(3), FOR 401(3), FORT 100S(1), GEOG 110 GN(3), GEOG 111 GN(3), GEOG 123 GS;IL(3), GEOG 310W(3), GEOSC 021 GN(3), HORT 101 GN(3), INTAG 100 GS;IL(3), LARCH 341(3), METEO 451(3), PPEN 120 GN(3), S T S 201 GN(3), S T S/BIOL 424(3), SOILS 101 GN(3), SOILS 412W(3), W F S 430(3)/FOR 430(3)

#### **B. Environment and Society**

This specialization provides insights into the debates and challenges about the distribution and utilization of the world's environmental resources. All people deserve to live in a safe environment regardless of their income, skin color, religion or gender. Yet, many of the poorest people in the world live in unsafe environmental contexts. Research in many different fields of social science, as well as ethical research, is required to understand how to promote and achieve environmental justice.

AG EC/CEDEV 430(3), ANTH 456(3), CED 152(3), CED 230(3), CED 309(3), CED 410(3), E R M 411(3), CED 201(3), CED 429(3), E RRE/AG EC 431W(3), EARTH 101 GN;US(3), EM SC 101 US;IL(3), ECON 428(3), GEOG 124 GS;IL(3), GEOG 438W(3), GEOSC 109H GN(3), GEOSC 310(4), GEOSC 402Y IL(3), HIST 453(3), INTAG 100 GS;IL(3), MNG 400 IL(3), NUTR/S T S 497G(3), PHIL 132 GH(3), R SOC 011 GS;US(3), R SOC/AGECO 134 GN(3), S T S 201 GN(3), S T S 420(3), SOC 423(3), SOC 450(3), SOILS 071 GN;IL(3)

#### **C. Environmental Explorations**

This specialization scrutinizes the range of debates, practices and possibilities guiding discussions of how to achieve equitable and sustain able development. Global and national discussions are beginning to probe how we can move toward a future where resources are more effectively utilized and the environment is maintained while achieving well being for the whole world. A cross-disciplinary approach is necessary to promote an understanding of these broad discussions.

**Students must take 3 credits each of social science, natural science, and arts and humanities courses:**

**D. Ideas About the Environment**

This specialization engages the philosophical and political challenges underpinning concerns of modern environmentalism. People have always contemplated the meaning of the world around them and the ways in which their reality is shaped by the environment. The meaning and value of the "environment" therefore depends on a person's range of understandings, ideas, and representations about the physical world. To operate effectively, civil society must be based on open discussions including environmental concerns, and this requires basic levels of ecological literacy.

AG 160 GH(3), CED 450 IL(3), BIOL 419 (3), BIOL 438(3), BIOL 461(3), ECON 428(3), EM SC/S T S 150 GN;IL(3), ENGL 088 GH(3), ENGL 430(3), ENVE 460(3), FD SC/PHIL 280H GH(3), GEOG 123 GS;IL(3), GEOG 434(3), HIST 110 GH;IL(3), HIST/S T S 428 IL(3), HIST 453(3), LARCH 060 GA;US;IL(3), NUTR/S T S 497G(3), PHIL 403(3), S T S 100 GH(3), S T S 101 GH(3), SOC 449(3), SOC 450(3), SOILS 071 GN;IL(3)

**E. Water Resources**

This specialization emphasizes basic literacy required to understand the debates surrounding water as a resource and offers insights into what people can do to protect and maintain its integrity on a worldwide basis. Water and water resources are central to human life, and yet modern industrialization and human settlement patterns are creating untenable competition for water between humans, and other flora and fauna. Basic science is required to ascertain problems of supply. Social science understanding is required to understand challenges facing water supply and utilization and the search for wise utilization of the world's water resources.

**F. Human Settlements**

This specialization examines human settlement patterns and their interaction with the environment. Particular emphasis is placed on patterns of development, human movement and migration patterns, as well as environmental impacts. As population increases worldwide, land is increasingly taxed beyond proper capacity. Zoning regulations, suburban sprawl, and uneven settlement that replaces fertile agricultural land have all become major issues within the policy spectrum that must be dealt with to ensure a positive future for the entire world population.

CED 431W(3), AM ST 050 GH(3), ANTH 045 GS;US;IL(3), ANTH 285 GS;IL(3), ANTH 451(3), ARCH 316 GA(3), BIOL 120A GN;US;IL(3), BIOL 120B GN;US(3), BIOL 120C GN;IL(3), COMM/S T S 408(3), COMM/S T S 408(3), CED 230(3), CED 309(3), CED 409(3), EARTH 101 GN;US(3), EARTH 106 GN(3), ENGL 088(3), ENGL 402 GH(3), FD SC/PHIL 280H GH(3), GEOG 020 GS;US;IL(3), GEOG 333(3), GEOG 436(3), GEOSC 109H GN(3), LARCH 060 GA;US;IL(3), LARCH 065 GA;US;IL(3), METEO 004 GN(3), MNG 400 IL(3), NUTR/S T S 497G(3), SOC 449(3), SOILS 071 GN;IL(3), W F S/E R M 450(3), TURF 425(3)

**G. Energy Resources**

This specialization offers a glimpse into the emerging technology that exists in the energy sector. As the worldwide supply of fossil fuels diminishes, and the demand for those fuels increases, new energy technology must be developed to power our planet. In recent years, energy sustainability and the use of infinite resources have been considered serious options for the first time. Thus, this cluster option employs an interdisciplinary strategy with the goal of educating individuals on a broad-range of emerging technologies in relation to energy resources.

## Environmental Systems Engineering Minor

*University Park, College of Earth and Mineral Sciences (ENVSE)*

PROFESSOR M. THADDEUS ITYOKUMBUL, *Program Officer*

The minor in environmental systems engineering is for students interested in environmental issues associated with the extraction, processing and utilization of mineral and energy resources and their solutions. It provides an opportunity for students to understand and appreciate the interrelationship between energy and the environment, be exposed to the basic courses in environmental systems engineering, and to appreciate and evaluate the impact of environmental pollution control on viability of the profitability and feasibility of operations associated with the safe extraction, processing and utilization of mineral and energy resources. A minimum of 18 credits is required for the minor. A student enrolled in this minor must receive a grade C or better in all courses in the minor. Advising is available through the professor in charge.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (15 credits)

EME 460(3), ENVSE 406(3), ENVSE 427(3), ENVSE 450(3), MN PR 301(3) (Sem: 5-7)

**ADDITIONAL COURSES** (3 credits)

EGEE 470(3), ENVSE 400(3), or MN PR 426(3) (Sem: 5-8)

Last Revised by the Department: Fall Semester 2010

Blue Sheet Item #: 39-02-012

Review Date: 09/28/2010

## Environmental Studies Minor

*Altoona College (ENVST)*

The interdisciplinary minor in Environmental Studies gives students a broad-based introduction to the natural environment and human interactions with it. Students gain awareness and understanding of environmental issues from the perspectives of several disciplines in relevant natural sciences (ecology, biology, geology, and/or environmental chemistry, for instance), the social sciences (environmental economics and/or public policy), and the arts and humanities (environmental history, ethics, and/or literature). Core courses in environmental studies, emphasizing applied and experiential learning, serve to integrate and synthesize knowledge from the natural sciences, social sciences, and arts and humanities. The goal of the program is "ecological literacy." Students completing the minor gain sufficient awareness and understanding of environmental issues to put environmental problems in a variety of contexts and to apply pertinent skills and knowledge (from studies in both their major and the minor) in addressing those problems. The minor helps prepare students for employment in the private sector or with government agencies and environmental advocacy groups, or for postgraduate study in environmental science, public policy, the humanities, or law.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (3 credits)

ENVST 100(3) (Sem: 1-2)

**ADDITIONAL COURSES:** (6 credits)

Select 3 credits from ENVST 200(3) or ENVST 400W(3) (Sem: 3-8)

Select 3 credits from BIOL 110 GN(4), BIOL 220W GN(4), ENGL 180 GH(3), GEOSC 020 GN(3), CHEM 020(3), CHEM 021(1), GEOG 115 GN(3), STAT 250 GQ(3), ECON 429(3), HIST 453(3), GEOG 407(3), PHIL 403(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS:** (9 credits)

Select 9 credits (3 in each area listed below) in consultation with an academic adviser. At least six credits must be at the 400-level.

a. Natural Sciences: BIOL 240W(4), BIOL 417(3), BIOL 427(3), BIOL 435(3), BIOL 446(3), BIOL 450W(3-5), ENVST 497(3), FOR 308(3), FOR 430/WFS 430(3), GEOSC 303(3), GEOSC 340(3), GEOSC 462(3), MICRB 400(3), WFS 408(3) (Sem: 3-8).

b. Social Sciences: ANTH 040(3), ANTH 146 GS:US(3), ANTH 152(3), ANTH 456(3), ANTH/BIO 464(3), ENVST 497(3), GEOG 401(3), GEOG 430(3), PL SC 444(3), PL SC 490(3), S T S 047(3) (Sem: 3-8)

c. Arts and Humanities: ENGL 404(3), ENGL 412(3), ENGL 415(3), ENGL 416(3), ENGL 421(3), ENGL 430(3), ENVST 497(3), HIST/S T S 151(3), HIST 428/S T S(3); When topic appropriate and with program approval: ENGL 400(3), ENGL 401(3), ENGL 483(3), HIST 200 US(3), HIST 497(3) (Sem: 3-8)

Other courses may be substituted with program approval.

## Education Policy Studies Minor

*University Park, College of Education (E P S)*

This minor is designed to introduce students to the fundamental tenets of education policy development and analysis in both the U.S. and other countries. Students pursuing the minor may choose from courses on educational policy in the areas of higher education, educational administration, educational theory and policy, Native American education leadership and comparative/international education. The minor consists of a multidisciplinary program of study in areas of education related to numerous policy issues including social sciences, history, management sciences, and/or humanities. It is anticipated that students completing the minor will find these studies can enrich any major degree program and potentially provide opportunities for employment and/or graduate studies in state departments of education, ministries of education, federal and international education agencies, academic institutions, and various professional associations.

This 18-credit minor may be combined with any undergraduate major at Penn State.

A grade of C or better is required for all courses taken in fulfillment of the minor. No prerequisites are required for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

EDTHP 115 US(3), EDPSY 014(3) (Sem: 1-4)

**ADDITIONAL COURSES** (12 credits)

Select 12 credits from: CI ED 470(3), EDLDR 405(3), EDLDR 409(3), EDLDR 476(3), EDLDR 480(3), EDLDR 481(3), EDLDR 485(3), EDLDR 496(1-18), EDTHP 401 IL(3), EDTHP 411 US(3), EDTHP 416 US(3), EDTHP 420(3), EDTHP 427(3), EDTHP 430(3), EDTHP 440(3), EDTHP 441(3), EDTHP 496(1-18) (Sem: 5-8)

## Equine Science Minor

*University Park, College of Agricultural Sciences (EQ SC)*

The Equine Science minor is designed for students who wish to supplement their academic major with studies in equine science. Students are required to complete a minimum of 20 credits. The core prescribed courses develop a foundation in the basic disciplines of animal science and equine science. Additional courses may be selected by the student to allow further specialization and expertise in exercise physiology and training principles, selection and judging, business/farm management, animal genetics and breeding, nutrition, and physiology. With completion of this minor, students will have a foundation of theoretical and practical knowledge along with learning skills for adapting to changes in equine industry. Courses that make up the minor are appropriate for students with and without prior academic or practical experience with horses. The University Horse Farms and the Agricultural Arena are used extensively for supplementing classroom work with hands-on laboratories. Completion of this minor will enhance a student's ability to work directly in horse production and management and allied industries, or continue academic studies in graduate or professional school.

A grade of C or better must be obtained in each course in order to complete the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 20-22 credits  
(At least 6 credits must be at the 400 level.)

**PRESCRIBED COURSES** (12 credits)

AN SC 201(4), AN SC 217(2) (Sem: 1-4)  
AN SC 327(3) (Sem: 5-8)  
AN SC 407(3) (Sem: 7-8)

**ADDITIONAL COURSES** (8-10 credits)

Select 2 credits from: AN SC 037(2) or AN SC 107(2) (Sem: 1-4)  
Select 3-4 credits from: AN SC 300 GN(3), AN SC 301(3), AN SC 317(3), AN SC 322(3), B A 250(3), KINES 180(3), KINES 202(4), or VB SC 403(3) (Sem: 5-8)  
Select 3-4 credits from: AGRO 423(3), AN SC 419W(3), AN SC 420(4), AN SC 423(3), AN SC 431W(4), AN SC 437(3), AN SC 457(3) or AN SC 467W(3) (Sem: 5-8)

## Environmental Soil Science Minor

*University Park, College of Agricultural Sciences (ESOL)*

The Environmental Soil Science minor enables students to acquire scientific and field-related skills in preparation for environmental careers. Students learn to understand and apply soils and land use information in a wide variety of professional settings. The Environmental Soil Science minor will prepare students for jobs as professional soil scientists or for graduate studies in Soil Science and other interdisciplinary environmental sciences.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-19 credits

**PRESCRIBED COURSES** (6 credits)

SOILS 101 GN(3), SOILS 102(1), SOILS 403(2) (Sem: 1-5)

**ADDITIONAL COURSES** (12-13 credits)

Select 12-13 credits from SOILS courses, or A S M 327(3), C E 335(3), E R M 433(3), E R M 440(3), FOR 475(3), TURF 434(3), TURF 435(4) in consultation with an Environmental Soil Science adviser, including at least 6 credits at the 400 level. (Sem: 2-8)

## Ethics Minor

*University Park, College of the Liberal Arts (ETHCS)*

This interdisciplinary minor, housed in the Department of Philosophy, is designed to provide students with training in ethical frameworks and methods, as well as offer the opportunity to work in various fields of applied ethics. In addition to the requirements for the student's major department the minor consists of 18 credits selected from a wide range of disciplines (including philosophy, communication, engineering, law, psychology, sociology, anthropology, public policy, international studies, and environmental studies). Courses deal with ethics from various perspectives including research ethics, media ethics, environmental ethics, bioethics, and business ethics.

Students in the minor will begin with two core courses. The first will cover basic ethical approaches and the application of ethical analysis. The second will provide a grounding in ethical leadership. The core courses will be followed by a choice of other relevant ethics courses. The minor will be suitable for students in almost any major, especially students going on to further academic work or careers in medicine, communication, business, law, the health or life sciences, health administration, informatics or engineering.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

PHIL 103 GH(3), PHIL 119 GH(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 12 credits from an approved list in consultation with the undergraduate adviser for the ethics minor. At least 6 credits must be at the 400 level. Courses must be selected from at least two different departments. (Sem: 5-8)

Last Revised by the Department: Summer Session 2009

Review Date: 1/13/09

LA

## Film Studies Minor

*University Park: College of Communications and College of the Liberal Arts (FLMST)*

The joint minor in Film Studies sponsored by the College of Communications and the College of the Liberal Arts offers students in a variety of disciplines outside of the College of Communications an opportunity to learn more about a visual medium that relates in many ways to other fields such as theatre, literature, history, and art. The focus of this minor is on critical, aesthetic, and historical studies of film, not on the art of filmmaking. The minor enables students to see how the medium influences--and is influenced by--disciplines outside their specialization. Courses listed for the minor give students a deeper appreciation of the historical development of film during the 20th century. Offerings on cinema from a variety of countries allow students to frame the medium in a global context.

The minor is housed in and administered by the College of Communications but is jointly managed by the Film/Video and Media Studies Department and the French Department. The heads of these units or their designated representatives will chair on a rotating basis the Interdepartmental Film Studies Committee that will make decisions concerning requirements for the minor, including prescribed and supporting courses. The minor is not available to students enrolled in any of the majors in the College of Communications.

Students will choose an adviser from a list of committee members drawn from all participating areas--French, English, German, Italian, Comparative Literature, and Film/Video and Media Studies. In addition to two basic required courses (6 credits), students enrolled in the minor will take an additional 12 credits from a list approved by the Interdepartmental Film Studies Committee. Six of those credits must be at the 400 level. All required and most supporting courses are taught in English. Courses taught in a foreign language are indicated with a footnote.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

COMM 150 GA(3), COMM 250 GA(3) (Sem: 1-6)

**SUPPORTING COURSES** (12 credits)

Select 12 credits from an approved department list in consultation with an adviser (6 credits must be at the 400 level) (Sem: 5-8)

Last Revised by the Department: Summer Session 2004

## Forest Ecosystems Minor

*University Park, College of Agricultural Sciences (FECO)*

The Forest Ecosystems minor introduces students to the functions and values of forested ecosystems. After a prescribed foundation in tree and shrub identification and forest ecology, students may choose from a variety of related subjects including climate change, invasive species, tree physiology, agroforestry, fire ecology, forest soils, forest ecosystem management, forest measurements, community forestry, and global forest conservation.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-20 credits

**PRESCRIBED COURSES:** (6 credits)  
FOR 203(3), FOR 308(3) (Sem: 3-6)

**ADDITIONAL COURSES:** (12-14 credits)

Select a minimum of 12 credits from the following FOR courses. Six credits must be at the 400-level.

FOR 200(1), FOR 201 GN(3), FOR 204(2), FOR 255(3), FOR 266(4), FOR 303(3), FOR 320(2), FOR 350(3), FOR 401(3), FOR 403(3), FOR 409(2), FOR 410(3), FOR 418(3), FOR 421(3), FOR/W F S 430(3), FOR 439(3), FOR 440(3), FOR 450W(3), FOR 455(3), FOR 466W(3), FOR 470(3), FOR 471(3), FOR 475(3), FOR 480(3), FOR 488Y(3) (Sem: 3-8)

## Game Development Minor

*Penn State Erie, The Behrend College (GAMBD)*

*Contact: Richard Zhao, richardzhao@psu.edu*

Game Development is the craft of transforming a concept into an engaging interactive form. This craft is highly interdisciplinary, requiring students to answer questions about the human condition (what makes a game fun), about psychology (what makes an interface engaging), about aesthetics (what makes something pleasing), and about technical considerations (how to implement a game). Students pursuing the Game Development minor are required to explore a variety of disciplines in the breadth component. Often these classes will also be qualified as general education. Disciplinary depth in selected areas is achieved in the depth component. Finally, student teams complete a capstone design class, working in teams to complete a project from concept to implementation.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (3 credits)

GAME 480(3) (Sem: 7-8)

**ADDITIONAL COURSES:** (15 credits)

Select 9 credits of 100 or 200-level GAME courses; OR PSYCH 244(3) and 6 credits of 100 or 200-level GAME courses (Sem: 1-4)

Select 6 credits of 400-level (excluding GAME 480) GAME courses (Sem: 5-6)

Last Revised by the Department: Spring Semester 2014

Blue Sheet Item #: 42-05-016

Review Date: 02/25/2014

## Graphic Design

University Park, College of Arts and Architecture (GD)

The Graphic Design Minor is intended for students interested in augmenting their academic major with the physical, technological, aesthetic, and conceptual skills associated with a design discipline. Courses will include foundational emphasis on visual communications, design methodologies, image making, typography, and the production of work in both physical and digital form. Coursework may also include an introduction to communication theory, contemporary issues in communication, audience, and context, and formal research methodology. Advanced courses in the Minor Degree will apply the students' design acumen towards practical coursework within the context of their declared major. A Minor Capstone Studio will situate students within an appropriately rigorous environment for the application of design methods.

Entrance into the graphic design minor is based on a portfolio review. The portfolio will consist of examples of visual work, an original poster design, and a statement of intent.

A grade of C or better is required of all courses required in the minor.

For a minor in Graphic Design a minimum of 21 credits is required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES:** (21 credits)  
GD 100 GA(3), GD 101(3), GD 102(3) (Sem: 1-2)  
GD 200(3), GD 201(3) (Sem: 3-4)  
GD 405(3), GD 406(3) (Sem: 5-8)

Blue Sheet Item #: 44-04-007

Review Date: 1/12/2016

## Geography Minor

*University Park, College of Earth and Mineral Sciences (GEOG)*

The Geography minor can complement most majors in the social sciences, physical sciences, biological sciences, and technical disciplines. The geography minor is flexible so that students can tailor their course choices to accommodate individual interests. A broadly based approach to selecting minor courses can be appropriate for students whose majors are highly specialized or narrowly focused. Alternatively, students may choose to fulfill geography minor requirements with a particular content emphasis, such as an interest in environmental issues or urban and regional planning. Looking through course choices and talking with geography staff can make earning the geography minor an important enhancement to one's academic program.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

In consultation with a geography adviser:

- Select 3 credits in physical geography (Sem: 3-6)
- Select 3 credits in human geography (Sem: 3-6)
- Select 6 credits of additional geography courses (Sem: 3-6)
- Select 6 credits of 400-level geography courses (Sem: 5-8)

EM

## Geophysics Minor

*University Park, College of Earth and Mineral Sciences (GPHYS)*

The Geophysics minor provides the opportunity for students from outside the Geosciences to apply the physics, quantitative, and technical skills they are developing in their major program to the geophysical aspects of Earth Science, including seismology, volcanology, natural hazards, environmental geophysics, and petroleum and mineral exploration. For students majoring in Geosciences, the completion of the minor will strengthen their physics/quantitative background and develop links between theory and application for these technical and quantitative skills. The minor will prepare students for graduate programs in geophysics, and/or employment opportunities in the environmental and exploration industries. The minor consists of 18-20 credits satisfying the requirements below.

A grade of C or better is required for each course in the minor.

*Recommended Scheduling by Semester Standing (e.g., Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 29-32 credits

**PRESCRIBED COURSES** (11 credits)

GEOSC 001(3), MATH 140 GQ(4), PHYS 212 GN(4) (Sem: 3-7)

**ADDITIONAL COURSES** (18-21 credits)

Select 4 credits from:

Non-Geoscience Majors (i.e., Math, Physics, Engineering):

GEOSC 203(4) (Sem: 3-7)

Geoscience Majors:

PHYS 212 GN(4) (Sem: 3-6)

Non-Geoscience Majors (i.e., Math, Physics, Engineering):

Select 3 credits from: GEOSC 001(3); GEOSC 010 GN(3); GEOSC 040 GN(3); GEOSC 109H GN(3); EARTH 002 GN(3); EARTH 101 GN;US(3); EARTH 105 GN;IL(3); EARTH 106 GN(3) (Sem: 1-4)

Select 11-13 credits from: GEOSC 402Y IL(3); GEOSC 434(3); GEOSC 452(3); GEOSC 483(3); GEOSC 487(3); GEOSC 488(4); GEOSC 489(4) (Sem: 5-8)

Geoscience Majors: (Geoscience majors may not double count these courses in their major)

Select 3-4 credits from: MATH 220 GQ(2-3); MATH 230(4); MATH 231(2); MATH 232(2); MATH 250(3); MATH 251(4) (Sem: 3-6)

Select 11-13 credits from: GEOSC 402Y IL(3); GEOSC 434 (3); GEOSC 452(3); GEOSC 483(3); GEOSC 487(3); GEOSC 488(4); GEOSC 489(4) (Sem: 5-8)

## Geosciences Minor

*University Park, College of Earth and Mineral Sciences (GEOSC)*

The Geosciences minor provides a foundation in the physical and material aspects of the solid Earth, as well as an introduction to field techniques and technical writing. Advanced course work should reflect the students' individual interests. Areas of focus include, but are not limited to: earth materials, evolution of the Earth and life, hydrogeology, environmental geology, natural hazards, plate tectonics, geophysics, climate change. The minor consists of 18 credits of course work, some of which are filled through specific courses as indicated below.

A grade of C or better is required in each course in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (7 credits)

GEOSC 021 GN(3) (Sem: 1-6)

GEOSC 201(4) (Sem: 3-8)

**ADDITIONAL COURSES** (6 credits)

Select 3 credits from GEOSC 001(3), GEOSC 020 GN(3), or GEOSC 071(3) (Sem: 1-6)

Select 3 credits from GEOSC 470W(3), EM SC 470W(3-6) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (5 credits)

Select 5 credits from a number of courses covering a variety of disciplines and fields of interest. Consult with your adviser. At least 3 credits in this category must be taken at the 400 level; the remaining 2 credits may be at the 200 level or above. (Sem: 5-8)

## German Minor

*University Park, College of the Liberal Arts (GER)*

The German minor is designed for students who want to study the language, literature, and culture of German-speaking countries in order to broaden their horizons and meet an increasing demand for people with foreign language skills and international expertise. German is one of the most important languages in Western Europe, being the mother tongue of approximately 100 million Europeans, and in the countries of Eastern Europe it is the most important foreign language of business and commerce.

The Department of Germanic and Slavic Languages and Literatures offers a wide array of courses in German language, literature and culture as well as in professional and business German, allowing students great independence in shaping their own academic program. Students are encouraged to take advantage of Penn State's study abroad opportunities, which include semester and year programs in Freiburg, Berlin, and Vienna plus summer and year programs in Marburg.

The German minor opens employment opportunities for its graduates in fields and professions where proficiency in one or more foreign languages is desirable or required, i.e., secondary and higher education, government, business, the media, and public relations.

All courses in the minor must be taught in German and the students must receive a grade of C or better.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES:** (6 credits)

GER 301 IL(3), GER 302W IL(3) (Sem: 3-5)

**ADDITIONAL COURSES:** (7 credits)

GER 201 IL(4) or GER 208Y IL(4) (Sem: 3-5)

Select 3 credits from GER 308Y IL(3), GER 310 IL(3) and GER 344 IL(3) (Sem: 4-6)

**SUPPORTING COURSES AND RELATED AREAS:** (6 credits)

Select 6 credits of 400-level GER courses (Sem: 5-8)

## Gerontology Minor

*Intercollege Program (GERON)*

*University College: Penn State Brandywine, Penn State DuBois, Penn State Shenango*

*Contact: College of Health and Human Development, Devon M. Thomas, [dmc233@psu.edu](mailto:dmc233@psu.edu)*

The intercollege minor in Gerontology is designed for students to gain an in-depth understanding of the aging process and old age. With the growth of the number of older people in the population, increased need has arisen for people with knowledge of the aging process in a variety of professional and occupational roles. In conjunction with the student's major, the minor prepares students for entry-level human service positions working with the elderly, or for graduate or professional school programs including communication disorders, counseling, health planning and administration, medicine, psychology, recreation and park management, and social work where knowledge of the aging process and problems of older people is relevant. Eighteen credits are required for the minor, including at least 6 credits at the 400 level. Advising is available through Mrs. Devon M. Thomas, 315 Health and Human Development Building, University Park, PA 16802 (814-863-8000, [dmc233@psu.edu](mailto:dmc233@psu.edu)).

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

HD FS 249 GS(3) (Sem: 3-8)

**ADDITIONAL COURSES** (15 credits)

BIOL 155 GN(3) or BIOL 409(3) (Sem: 1-7)

SOC 435 (HD FS 434)(3) or HD FS 445 (PSYCH 416)(3) (Sem: 5-8)

Select 9 credits, at least 6 at the 400 level, from ADTED 460(3), ANTH 473(3), BB H 302 US(3), BB H 316(3), BB H 410(3), BB H 440 US;IL(3), CN ED 415(3), H P A 101(3), H P A 440 US;IL(3), H P A 442(3), HD FS 413(3), HD FS 445 (PSYCH 416)(3), HD FS 446(3), HD FS 447(3), KINES 481W(3), NURS 464(3), NUTR 451(3), NUTR 456(3), R P M 462(3), R SOC 497(3), SOC 023 GS(3), SOC 174(3), SOC 423(3), SOC 435(3) (Sem: 3-8)

*Note:* Students may enroll in special topics courses (297, 497) that focus on aging or old age, with faculty permission. With faculty approval, students may also enroll for independent studies in their major department to write a senior thesis focused on an issue of aging.

## Global Health Minor (GLBHL)

University Park, College of Health and Human Development (GLBHL)

Contact: Dr. Dana Naughton, Director, [dmn161@psu.edu](mailto:dmn161@psu.edu)

The Global Health Minor (GLBHL) is designed to provide undergraduate students with a multidisciplinary exposure to the theoretical and practical issues affecting the health of populations in various countries and regions of the world. This minor is appropriate for students whose career goals incorporate public health interventions, education, policy or research related to global health. Course work and supervised field work will draw on the diversity and abundance of the Penn State faculty's international resources and networks.

Students desiring to enter the minor must submit an application to the Director. Applications to the Global Health Minor:

- must have declared a major field of study
- must include with the application a proposed plan of study. This plan should include the student's contact information and GPA, a brief statement about the relationship of this minor to the student's major plan of study and career goals, a list of proposed supporting courses, and a proposed supervised fieldwork experience. The student's application to the minor must be signed by the student's academic/faculty adviser.
- previously completed course work and/or supervised fieldwork experience may be retroactively included in the plan of study if approved by the Director of the minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1 - 2)*

### REQUIREMENTS FOR THE MINOR: 27-28 credits

#### **PRESCRIBED COURSES** (18 credits)

BB H 101 GHA(3), BB H 305 IL(3), BB H 390A(3), BB H 390B(6), and BB H/H P A 440 US;IL(3) (Sem: 4-6)

#### **ADDITIONAL COURSES** (3-4 credits)

STAT 200 GQ(4) or STAT 250 GQ(3)

#### **SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits from the list of approved supporting courses in consultation with the Global Health Director, with at least 3 credits at the 400 level. Other courses (e.g. special topics courses, independent study) that are not on the list of approved supporting courses may also be used to meet the credit requirements for the GLBHL minor. However, all course substitutions require approval of the Director. (Sem 5-8)

#### **SUPERVISED FIELDWORK EXPERIENCE**

An approved, supervised fieldwork experience dealing with a global health issue is a requirement of this minor (BB H 390B). BB H 390A must be taken prior to this field experience. Global health field sites may be international or domestic, but must be approved by the Director. (Sem: 6)

## Global Security Minor

*University Park, College of Information Sciences and Technology  
University Park, College of the Liberal Arts (GLBSC)*

The Global Security Minor will be jointly offered by the College of Information Sciences and Technology and the College of the Liberal Arts and overseen by the Department of Political Science. This joint minor is intended to provide students with a background of the theoretical frameworks and skill sets needed to understand the concepts essential to security and related analyses; the challenges and problems faced when dealing with threats to security (e.g., technology, policies, and regulations); and the strengths and weaknesses of various methods of analyzing and responding to challenges to security. The minor includes a grounding in social, historical, and cultural factors that underlie both conflict between states and conflicts between state and nonstate actors, as well as the legal, ethical, and regulatory issues related to security.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-33 credits [11](#)

**PRESCRIBED COURSES:** (9 credits)

SRA 111 GS(3), SRA 211(3), PL SC 007 GS(3) (Sem: 1-8)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from PL SC 410(3), PL SC 415(3), PL SC 416(3), PL SC 418(3), PL SC 437(3), PL SC 438(3), PL SC 439(3), PL SC 442(3) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS** (3-18 credits)

Select 0-13 credits: 12th-credit-level proficiency in one foreign language demonstrated by course work or examination.

Select 3 credits from COMM 490(3), COMM 491(3), COMM 492(3), GEOG 424 US;IL(3), GEOG 428 US(3), GEOG 463(3), GEOG 464(3), HIST 420 IL(3), HIST 434 IL(3), HIST 452 US;IL(3), HIST 467 US;IL(3), HIST 473 IL(3), HIST 475Y IL(3), HIST 479 IL(3), HIST 486 IL(3), or 3 credits of appropriate internship work in consultation with adviser (Sem: 4-8)

## Global Studies Minor

*Berks College (GLBST)*

The minor in Global Studies is intended to prepare students from all degree programs within the Berks College (with the exception of the major in Global Studies) to gain a global perspective, which would be useful in a variety of workplace and academic settings. HIST 320W, PL SC 014, and CAS 271 provide the necessary background to help students understand and appreciate broad issues of international concern. A combination of more specific option courses will deepen students' experience of the world and enhance analytical and interpersonal skills. Eighteen credits are required for the minor in Global Studies. All students taking this minor will be required to show a 12-credit-level proficiency in a foreign language.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-30 credits

**ADDITIONAL COURSES** (18-30 credits)

**Select 6 credits** from CAS 271 US;IL(3), HIST 320W(3), PL SC 014 GS(3) (Sem: 1-6)

**Select 12 credits** from the following list; at least 6 credits must be at the 400 level:

FR 139 GH;IL(3), GER 100 GH;IL(3), RUS 100 GH;IL(3), SPAN 100(3), SPAN 130 GH;IL(3), SPAN 131 GH;IL(3) or SPAN 131W GH;US;IL(3), SPAN 132 IL(3), UKR 100 GH;IL(3) (Sem: 1-4)

HIST 179 GH;IL(3), HIST 181 GH;IL(3), HIST 192 GH;IL(3), HIST 467(3), HIST 468(3) (Sem: 1-6)

ENGL 403(3), HIST 488(3), PL SC 412(3) (Sem: 3-6)

HIST 120 GS(3), HIST 175 GH;IL(3), PL SC 413(3), PL SC 454 IL(3) (Sem: 3-8)

HIST 435(3), PL SC 424(3), PL SC 487(3), SPAN 200(3), SPAN 220(3), SPAN 253(3), SPAN 300(3), SPAN 420(3), SPAN 476(3) (Sem: 5-8)

**Foreign Language Requirement:** Proficiency in a single foreign language must be demonstrated by either examination or coursework equivalent to completion of 12 credits of coursework. See the ADMISSION section of the General Information in this Bulletin for the Placement Policy for Penn State Foreign Language Courses (under Opportunities for Credit by Acquisition) (0-12) (Sem: 1-8)

## Global Language and Culture Minor

*Penn State Altoona (GLC)*

The minor in Global Language and Culture allows students to create an interdisciplinary program combining language study beyond the 12-credit level, an academic or internship experience abroad, and additional courses chosen to complete a thematic area of concentration. The GLC minor recognizes that students from all degree programs can benefit from developing intercultural competencies. It encourages students to deepen and enhance their understanding of another culture by developing advanced linguistic skills, completing a related experience abroad, and integrating both into an area of concentration of the student's choice. Applications to the minor must present a proposed plan of study that includes a clear geographic or thematic focus; this plan must be approved by the adviser for the minor. Students may apply toward the minor no more than nine credits from their major requirements.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-20 credits

**Language Requirement:** Students must complete at least 6 credits beyond the 12-credit proficiency level in a single foreign language.

**Study Abroad Requirement:** Students must complete one of the following two options.

- a) At least 6 credits as participants in a single approved Penn State education abroad program, in a country in which the chosen language is one of the major languages spoken.
- b) At least 6 credits of a single accredited internship abroad, in a country in which the chosen language is one of the major languages spoken.

Courses taken abroad may be taught either in English (for thematically related courses) or in the target language.

When taken abroad, language courses below the 12-credit level may be used to fulfill the study abroad requirement, but will not count towards the 18 credits for the minor.

**ADDITIONAL COURSES** (12 credits)

At least 6 credits, or as many as needed to complete the 18 credits for the minor after the above two requirements have been met.

Students must select these courses to complete a geographic or thematic concentration. The rationale for the inclusion of these courses must be described in the student's proposed plan of study, and approved by the advisor for the minor. Courses may be chosen from, but are not limited to, the fields of anthropology, art, communications, history, international studies, international business, literature, political science, or a variety of other disciplines related to international culture.

At least 6 credits for the minor must be at the 400-level. 400-level courses may be completed either abroad or at Penn State, and may be either in English or in the target language.

Blue Sheet Item #: 44-04-005

Review Date: 1/12/16

## Greek Minor

*University Park, College of the Liberal Arts (GREEK)*

The Greek minor focuses on establishing proficiency in reading and interpreting classical Greek literature. After completing an introductory course sequence (elementary classical Greek) that teaches students the vocabulary, morphology and syntax of classical Greek, students complete at least six credits in Greek language and literature at the 400-level for a total of 18 credits for the minor. In advanced courses in Greek language and literature, students gain analytical and interpretive skills by reading a wide range of classical Greek literature, including Greek drama, history, and philosophy, as well as the Greek New Testament. Students minoring in Greek will find their studies mesh well with a number of majors and graduate fields, including anthropology, archaeology, history, English, comparative literature, philosophy, and law.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS:** (18 credits)

Select 12 credits of GREEK courses (Sem: 1-8)

Select 6 credits of 400-level GREEK courses (Sem: 5-8)

## Health Policy and Administration Minor

*University Park, College of Health and Human Development (H P A)  
University College, Lehigh Valley*

*Contact: University Park - Caroline Condon-Lewis, cxc29@psu.edu; Lehigh Valley - Anita Yuskas, auy10@psu.edu*

The minor in Health Policy and Administration (H P A) is designed to allow students to learn more about the health care system, health policy, and health administration. The minor is most appropriate for students interested in clinical and health-related fields (e.g., nursing, nutrition, biobehavioral health, or medicine), professional fields (e.g. business administration or law), or the social sciences (e.g., economics, sociology, political science, psychology), giving these students an understanding of the health care industry and the impact of business and government on that industry. Students must take 6 credits of prescribed courses including H P A 101(3), which introduces the organization of the health care system, and H P A 057 GHA(3), which considers the role of the health care consumer in the health care system. Students then focus their study on either health policy or health administration, choosing among courses at the 300 and 400 level. Students select 3-6 credits from H P A 301(3), H P A 310(3), and H P A 332(3) and 6-9 credits from 400-level H P A courses.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

H P A 057 GHA(3) and H P A 101(3) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 3-6 credits from H P A 301W(3), H P A 310(3), H P A 332(3) (Sem: 3-6)

Select 6-9 credits from 400-level H P A courses (Sem: 5-8)

*Note: Some courses have additional prerequisites that must be met.*

## History Minor (*HIST*)

Contact: Abington College, Tom Smith, [trs8@psu.edu](mailto:trs8@psu.edu); Altoona College, Marc Harris, [mlh6@psu.edu](mailto:mlh6@psu.edu); College of the Liberal Arts, Mike Milligan, [mjm61@psu.edu](mailto:mjm61@psu.edu); Penn State Berks, Randall Fegley, [raf8@psu.edu](mailto:raf8@psu.edu)

The minor in history is designed to complement a wide range of social studies and humanities majors by affording students the opportunity to examine change and development in human societies over time. Students are free to select courses in the topics (military history, social history, cultural history, etc.), geographical areas (the United States, Latin America, Europe, Asia, and Africa), and time periods that most suit their needs and interests. The requirements for entering the minor are fifth semester standing (eligible courses taken previously will count toward the minor) and having already declared a major.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS:** (18 credits)

Select 12 credits of HIST courses (Sem: 1-8)

Select 6 credits of 400-level HIST courses (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

## Homeland Security Minor (HLS)

*Penn State Harrisburg - Program Coordinator, Thomas Arminio  
Penn State World Campus*

The Homeland Security minor provides for development of familiarity with homeland security and defense issues, including emergency management, homeland security policy, and the structure of homeland security operations. Students will come to understand the "all hazards" approach to homeland security and defense. Students will be able to develop familiarity with such aspects of homeland security and defense as emergency management, security administration, border security, and critical infrastructure through taking elective courses. Recipients of the minor would be positioned to enter the work force in entry level positions or to prepare for transition to graduate school.

A grade of C or better is required in all courses for the minor. At least six credits must be at the 400 level.

*Scheduling recommendation by semester standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (9 credits)

PUBPL 201(3) (Sem 2-5)

PL SC/CRIMJ 439(3), PUBPL 483(3) (Sem 5-8)

**SUPPORTING COURSES AND RELATED AREAS:** (9 credits)

Select 9 credits from among the following: CRIMJ 304(3), CRIMJ 435(3), PUBPL 306(3), PUBPL 475(3) (Course substitution possible with permission of advisor) (Sem: 5-8)

## International Business Minor

University Park, Austin Jaffe, [ajj@psu.edu](mailto:ajj@psu.edu), Smeal College of Business (I B)

The International Business minor provides students with knowledge, skills, and experiences that prepare them for a business career that might include international responsibilities. Mastery of fundamental business concepts, coursework in international business or economics, foreign language skills, and an approved study abroad experience each contribute to build perspectives about the challenges and opportunities of commercial activity in a global business environment.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 33-37 credits

**PRESCRIBED COURSES** (7 credits)

ACCTG 211(4) (Sem: 1-4)

## International Arts Minor

*University Park, College of Arts and Architecture (IARTS)*

This interdisciplinary minor is designed for students in any major of the University who wish to supplement their knowledge of the arts of a country or countries other than the United States.

Students enrolled in the minor shall begin by taking the International Arts course and complete the minor with a project pertaining to topics studied for the minor.

Credits applied toward the minor shall represent at least two disciplines and should consist of a coherent selection of courses relating to a geographic, chronological, or thematic concentration.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19-33 credits

**PRESCRIBED COURSES** (4-6 credits)

A&A 100 GA;IL(3) (Sem: 3-6)

A&A 401(1-3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (15-27 credits)

Select 0-12 credits: 12th-credit-level proficiency in one foreign language demonstrated by course work or examination (Sem: 1-4)

Select 15 credits of international arts courses (Only 9 credits in a single discipline may apply toward the minor. A minimum of 9 credits must be taken in the College of Arts and Architecture. At least 6 credits must be at the 400 level. At least 3 of these 15 credits must be in a study abroad experience of at least 4 weeks in duration approved by the person in charge of the minor; any arts courses taken while abroad may count toward the minor.) (Sem: 5-8)

## International Engineering Minor

*College of Engineering (IENGR)*

The International Engineering Minor is paired with any engineering baccalaureate major at any campus in order to provide students with an opportunity to learn about, and understand their profession in a global context. It is designed to provide students with knowledge, language skills, and experiences to help prepare them for a professional career that is likely to include collaborations with professionals from various parts of the world. The minor will help students understand the cross-cultural communications challenges and the global arena in which their profession is practiced. Students completing this minor will gain a competitive advantage because they will be able to demonstrate a broader understanding of the role of their profession and will have demonstrated their ability to communicate across cultural lines.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

REQUIREMENTS FOR THE MINOR: 18 credits

**PRESCRIBED COURSES** (3 credits)

ECON 333 GS(3) (Sem: 2-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Demonstrate language skills in a currently spoken world language other than English. Students must take a minimum of 6 credits in the same language, at a level determined by the Language Placement Policy, and achieve a minimum of 12th-credit proficiency in that language. Transfer credits for language courses taken prior to enrollment at Penn State may not be used. (Sem: 1-6)

Select 3 credits of Engineering/computer science courses with significant international content from a program list or as approved by the director of the program. (Sem: 2-8)

Select 6 credits of 400-level engineering or computer science courses, in consultation with departmental undergraduate coordinator, to be taken abroad at an international institution and taught by faculty at that institution. (Sem: 5-8)

Last Revised by the Department: Spring Semester 2014

## International Studies Minor (INSTD)

Contact: Abington College, Manohar Singh, [m.singh@psu.edu](mailto:m.singh@psu.edu); Penn State Brandywine, Paul Greene, [pdq4@psu.edu](mailto:pdq4@psu.edu); Worthington Scranton, John Dolis, [jid3@psu.edu](mailto:jid3@psu.edu); College of the Liberal Arts, Henry Morello, [hum1@psu.edu](mailto:hum1@psu.edu)

The International Studies minor is intended to recognize, for undergraduate students in any major, the completion of an education abroad program, foreign language competency, and related advanced course work. Ideally, the language, international, and advanced study should be integrated around some thematic or geographical focus.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-30 credits

**SUPPORTING COURSES AND RELATED AREAS** (18-30 credits)

12th-credit-level proficiency in one foreign language demonstrated by course work or examination (Sem: 1-4)

Students must complete 12 credits as participants in an approved Penn State Education Abroad Program, no more than 6 credits of which may be foreign language study beyond the 12-credit level (Sem: 5-6)

Select 6 credits (400 level) related to the education abroad experience, or the student's major, or to complete a thematic concentration. Courses must be selected from the approved list of courses with international focus or in consultation with the International Studies Minor adviser (Sem: 5-8)

Last Revised by the Department: Fall Semester 1994

Blue Sheet Item #: 22-06-021

Review Date: 1/30/00

## International Agriculture Minor

University Park, College of Agricultural Sciences (INTAG)

This minor is an interdisciplinary program of study designed to enable students to (1) gain an awareness and appreciation for the interrelationship and interdependency of the nations of the world for their food and fiber systems worldwide; (2) gain awareness of problems in international agriculture and sustainability of alternative solutions; (3) understand global impacts of technology, and (4) understand systems of learning across cultures.

This minor requires 18 credits and may be combined with any undergraduate major in the University. Some courses require prerequisites not included in the minor. Foreign language competence is highly recommended.

Students may apply for admission to the minor by completing and submitting an application for admission to Dr. Tom Gill, Office of International Programs, College of Agricultural Sciences, 106 Administration Building, University Park campus. A signature from the student's major program adviser is required. For more information, contact Dr. Tom Gill, Assistant Director of International Programs, at 814-865-8309 or [tbg12@psu.edu](mailto:tbg12@psu.edu); or Dr. Leif Jensen, Distinguished Professor of Rural Sociology and Sociology, at [lj11@psu.edu](mailto:lj11@psu.edu).

A grade of C or better is required for all courses in the minor. Students must have six credits of 400-level course work for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

INTAG 100 GS;IL(3), INTAG 490(3) (Sem: 6-8)

**ADDITIONAL COURSES** (12 credits)

Select courses from three of the first four categories (9 credits) and one internationally-oriented experience from Category 5 (3 credits):

**Category 1: Socioeconomic and Communication Systems** (3 credits)

AEE 400(3), AEE 440(3), AG BM 102(3), AG BM 338 IL(3), AYFCE 438 US(1-3), CED 230(3), CED 410(3), CED 417(3), CED 425(3), GEOG 020 GS;US;IL(3), GEOG 040 GS;IL(3), GEOG 123 GS;IL(3), GEOG 126 GS;US;IL(3), GEOG 428 US(3), R SOC/WMNST/CED 420 US;IL(3), any university language skill development course (Sem: 1-8)

**Category 2: Food, Health, and Nutrition** (3 credits)

BB H 305 IL(3), BB H 402 IL(3), BB H 407 IL(3), FD SC 105(3), FD SC 200(3), NUTR 421 US;IL(3), NUTR 430 IL(3) (Sem: 1-8)

**Category 3: Plant and Animal Sciences** (3 credits)

AGECO 134 GN(3), AGECO/ENT 457(3), AGRO 028(3), AN SC 201(4), INTAG 300 IL(3), SOILS 071 GN;IL(3), SOILS 101 GN(3) (Sem: 1-8)

**Category 4: Natural Resources and the Environment** (3 credits)

A S M 327(3), BIOL 436(3), CED 427W(3), CED 450 IL(3), E R M 210 GN(3), EARTH 002 GN(3), FOR 418 US;IL(3), FOR 488W(3), GEOG 030 GS;IL(3), GEOG 110 GN(3), GEOG 310W(3), GEOG 430(3), GEOG 444(3) (Sem: 1-8)

**Category 5: Select one internationally-oriented experience** (3 credits)

INTAG 296(3), INTAG 297(3), INTAG 298(3), INTAG 397(3), INTAG 398(3), INTAG 399(3), INTAG 495(3), INTAG 496(3), INTAG 497(3), INTAG 498(3), INTAG 499 IL(3), or other international embedded course with agricultural content with approval of INTAG minor coordinator, including but not limited to: AGECO 499(3), CED 499(3), E R M 499(3) and EDSGN 497C(1) (Sem: 1-8)

Students are given the option of participating in a semester study abroad program that would be discussed and approved by the INTAG coordinator and the student's academic advisor. Twelve credits maximum can count toward the minor, and should normally only fulfill elective and internationally-oriented experience credits, and not replace prescribed credits for the minor. The semester study abroad program needs to focus on courses within the food, agriculture or natural resources areas.

## International Business Administration Minor

*Capital College (IBADM)*

*Contact: Jane Kochanov, [jxs121@psu.edu](mailto:jxs121@psu.edu)*

This minor provides undergraduate students in all business administration majors with further studies in such areas as international accounting, finance, information systems, comparative management, international marketing, or economics. The objective of the minor is to provide students who are interested in careers in international business with an understanding of problems and problem-solving methods that transcend national boundaries. Proficiency in a foreign language and study abroad provide an understanding of the social, political, and cultural context of the global marketplace. Except for Accounting, the minor can be included in the major with no additional courses being required. Professional Accountancy students may have to take 12 additional credits.

Students must receive a grade of C or better in all courses required for the minor.

*Scheduling Recommendation by Semester Standing given like (1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-24 credits

(A minimum of 3 credits in the minor must be taken in an approved study abroad program.)

**PRESCRIBED COURSES** (3 credits)

B A 364Y US;IL(3) (Sem. 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (15-21 credits)

Select 3-12 credits in a single foreign language equivalent to the 12th credit level (Sem: 1-6)

Select 9-12 credits from ACCTG 461 IL(3), ECON 333 GS(3), FIN 407(3), FIN 456 IL(3) or I B 299 IL(3), MGMT 461 IL(3), MIS 446(3), MKTG 445 IL(3) (Sem: 5-8)

Last Revised by the Department: Spring Semester 2013

## Transnational Perspectives Minor

*Penn State Erie, The Behrend College (TNTLP)*

Contact: *Javier Vazques D'Elia, juv13@psu.edu*

This interdisciplinary minor is designed for students who wish to supplement their major field of study with international understanding and study. It introduces students to global concerns and multicultural issues and broadens students' understanding of the critical forces molding their nation and their lives in the twenty-first century. The Transnational Perspectives Minor is proposed for students planning international careers in their professional fields, careers in organizations engaged in international activity, and those with a general interest in global studies. The minor consists of 18 to 30 credits, at least 6 of which must be at the 400 level. Twelve credits or evidence of third-semester proficiency of a foreign language is required. The program of study is to be developed by the student in conjunction with an International Studies adviser. A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

### **PRESCRIBED COURSES** (18 credits)

INTST 100 GS;IL(3) (Sem: 1-4)

Select 12 credits of a foreign language or evidence of third-semester proficiency (Sem: 1-4)

INTST 400 IL(3) (Sem: 5-8)

### **SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Students may select 12 credits of internationally oriented courses in consultation with adviser. A list of recommended courses is maintained by Penn State-Behrend's Transnational Perspectives Committee. At least 3 credits must be at the 400 level (outside the student's major). Credits earned through approved academic study abroad may be counted in this category. (Sem: 1-8)

## Information Sciences and Technology for Accounting Minor

*Capital College (ISACC): Penn State Harrisburg*

Accounting remains a vital organizational function which, in today's business environment, impacts the strategic direction of the firm. Technology has changed the manner in which business organizations are supported by accounting. Thus, accounting professionals with technology skills and technology professionals with accounting skills are extremely valuable in today's modern organization. This new minor will provide students with this integration of knowledge in these two fields.

Students must apply for entrance to the minor no later than the beginning of their sixth semester.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (18 credits)

IST 110 GS(3), IST 210(3), IST 220(3) (Sem: 1-8)

ACCTG 403(3), ACCTG 432(3), ACCTG 471(3) (Sem: 5-8)

**ADDITIONAL COURSES** (3 credits)

Select 3 credits from ACCTG 310(3), ACCTG 340(3), ACCTG 472(3) (Sem: 6-8)

Last Revised by the Department: Fall Semester 2015

## Information Sciences and Technology for Aerospace Engineering Minor

*University Park, College of Engineering (ISASP)*

The role of Information Sciences and Technology in the practice of Aerospace Engineering is very important. Aerospace systems rely heavily on computers, software, and digital information; for control, sensors, and other onboard systems. The Boeing 777 has more than 1000 processors and roughly 20 million lines of software onboard, and F-16 and F-117As cannot fly without their onboard computers. In addition, many future aerospace vehicles will be unmanned, and the software challenges will be even greater. The onboard memory has also increased exponentially, the F-106 had 20 KBytes of memory and the new Joint Strike Fighter might have 2 GBytes of memory. The hardware and software must be carefully designed and thoroughly tested, since most aerospace systems are mission- or safety-critical systems. Computers and software are heavily used in the design, development, and manufacturing of aerospace systems. Large supercomputers are often used in the design process. The IST minor will enrich their educational achievements and increase their chances in obtaining employment or entering graduate school. The NSF and the DOD are encouraging universities to enhance their educational programs so that we have well-qualified engineers for future systems, and our IPAC members have stressed the importance of IT for our students.

Student must apply for entrance to the minor no later than their 7th semester.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (13 credits)

CMPSC 201C(3), IST 110 GS(3) (Sem: 1-4)

IST 210(3), IST 220(3) (Sem: 5-6)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from: AERSP 423(3), AERSP 424(3), AERSP 440(3), or AERSP 460(3) (Sem: 5-8)

**Information Sciences and Technology for Communication Arts and Sciences Minor**

*University Park: College of the Liberal Arts (ISCAS)*

The Internet and other technologies are emerging as important communication channels. People establish personal relationships, develop language skills, conduct business, and make arguments online. Web sites have become important sites of public discourse and are playing an encompassing role in political campaigns. Students who pursue careers as communication consultants, in management or human resources, as political speech writers, and as independent business operators need information management skills. As a result, it is essential for Communication Arts and Sciences students to be fully versed in information sciences and technology for both personal and professional advancement.

A grade of C or better is required for all courses in this minor.

**Information Sciences and Technology for Earth and Mineral Sciences Minor**

*University Park, College of Earth and Mineral Sciences (ISEMS)*

Information Systems are a core component of any research, educational or industrial enterprise in the Earth and Materials Sciences. In addition, the science and engineering disciplines represented in the College have a particular focus on numerical modeling and simulation systems, and on the analysis and management of very large data sets. The EMS - IST minor provides students a basic introduction to information sciences and information technology through courses in the core curriculum of the School of Information Sciences and Technology. Students then select from a group of interdisciplinary EMS courses that focus on the particular interests of the College.

A grade of C or better is required for all courses in the minor.

## Information Sciences and Technology in Health Policy and Administration Minor

University Park, College of Health and Human Development (ISHPA)

Contacts: Health and Human Development -Caroline Condon-Lewis, [cxc29@psu.edu](mailto:cxc29@psu.edu); Information Sciences and Technology - Jean Peritz, [jperits@ist.psu.edu](mailto:jperits@ist.psu.edu)

The learning objectives of the minor in Information Sciences and Technology in Health Policy and Administration (ISHPA) are to equip students with the skills and knowledge to meet the critical need for persons with expertise in health care information technology. Specialists in this field assist health care organizations develop and apply the information technologies needed to develop Web-based systems for patient education, physician-patient interaction and physician-physician consultation, securely transmit sensitive medical information electronically, and even pioneer efforts for advanced technologies like remote robotic surgery. The ISHPA minor provides students with a solid base in the information sciences and technology through courses in IST's core curriculum. This core is then supported by selections from a group of HPA courses studying the application of information technology in health planning, financing, or marketing. Students must apply for entrance to the minor no later than the beginning of their seventh semesters.

A grade of C or better is required for all courses in this minor.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

## Information Sciences and Technology for Mathematics Minor

*University Park, Eberly College of Science (ISMTH)*

The interaction between Information Sciences and Mathematics will continue developing in remarkable new directions. Mathematical scientists enormously benefit from information technology in the performance of research, in communicating and disseminating scientific information and results, as well as in career environments involving data analysis and management. Mathematicians also contribute to making inroads toward the development of new information technologies. Information sciences and technology are already playing a very important role in mathematical education, at all levels, and will experience an overwhelming increase in the near future. Giving undergraduate mathematics students the opportunity to minor in IST will not only enrich their educational achievements but it will also help them succeed in the employment searches.

Students must apply for entrance to the minor no later than the beginning of their senior year.

A grade of C or better is required in all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**Information Sciences and Technology for Industrial Engineering Minor**

*University Park, College of Engineering (ISTIE)*

Collection and processing of information have increased in all sectors for solving engineering problems, including manufacturing and service related problems. Efficient and timely analysis of data is critical for the survival of companies. There is a need for industrial engineers with a strong background in information technology and systems. The minor in Information Sciences and Technology for Industrial Engineering will augment the skills of students in the Department of Industrial and Manufacturing Engineering in the information systems area. All students pursuing a baccalaureate degree in Industrial Engineering are eligible for this minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Information Sciences and Technology for Telecommunications Minor

*University Park, College of Communications (ISTLC)*

This minor offers students an opportunity to examine the opportunities and challenges presented by convergence of telecommunications and information processing. Internet-mediated services have the potential of fundamentally changing how we communicate and engage in commerce. This convergence offers faster, better, cheaper, smarter, and more convenient services, but also raises a variety of legal, regulatory, political, social, economic, and technology management issues. The IST/Telecommunications minor offers students enrolled in majors outside the College of Communications and the College of Information Sciences and Technology an opportunity to examine how telecommunications and information processing technologies and services will impact society as well as their individual circumstances.

The Telecommunications requirements of this minor constitute three courses (nine credit hours). Students can fulfill this requirement by completing COMM 180 offered by the Telecommunications Department in the College of Communications and by completing two additional courses from the following list: COMM 479(3), COMM 484(3), COMM 490(3), COMM 491(3) and COMM 492(3). Three IST courses (nine credit hours) constitute the other part of this minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

IST 110 GS(3) (Sem: 1-2)

IST 210(3) (Sem: 3-4)

IST 220(3), COMM 180 GS(3) (Sem: 5-6)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from the following: COMM 479(3), COMM 484(3), COMM 490(3), COMM 491(3), COMM 492(3) (Sem: 7-8)

## Information Sciences and Technology Minor

Abington College

Berks College

Capital College

University College: Penn State Beaver, Penn State Brandywine, Penn State Greater Allegheny, Penn State Hazleton, Penn State Lehigh Valley, Penn State New Kensington, Penn State Schuylkill, Penn State Wilkes-Barre, Penn State Worthington Scranton, Penn State York, World Campus

University Park, College of Information Sciences and Technology (IST)

This minor is structured to provide students with the theoretical frameworks and skill sets necessary to compete and be productive in the information technology-intensive global context that defines the new "Information Age." Specifically, the minor will be focused on a program that will build an understanding of core information technologies and related areas of study; will prepare students for the practical application of various information sciences and related technologies; and engage students in sharpening their abilities to think critically and to work in teams. All this will be done with the intent to expose students to the cognitive, social, institutional, and global environments of Information Sciences and Technology and to then apply that knowledge as a supplement to their major.

A grade of C or better is required for all courses in this minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

IST 110 GS(3), IST 210(3), IST 220(3) (Sem 1-6)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from IST 250(3), IST 301(3), or IST 302(3) (Sem 5-8)

Select 6 credits from IST 402(3), IST 431(3), or IST 432(3) (Sem 5-8)

## Italian Minor

*University Park, College of the Liberal Arts (IT)*

The Italian minor offers training in the skills required for fluency in Italian and knowledge in Italian culture, civilization, and literature. Its aim is to open to the student both the traditions of one of the major formative components of the Western world and the continuing vitality of modern Italian and Italian-American life.

As one of the humanistic programs of the College of the Liberal Arts, the Italian minor is not designed to be directly vocational. Nevertheless, rigorous training in this minor can prepare students for rewarding and unique careers in business, travel, ministry, banking, and education. In addition, the federal government employs liberal arts graduates with foreign-language skills in organizations including the National Security Agency, the Central Intelligence Agency, the U.S. Information Agency, and the Department of Labor. The Italian minor can be preparatory for the major and for study abroad, as well as graduate work directed to the Ph.D. degree required for teaching and research in colleges and universities. Students with backgrounds in the humanities are particularly successful applicants to professional schools, such as law and medicine.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 12 credits of Italian courses (Sem: 3-6)

Select 6 credits of 400-level Italian courses (Sem: 5-8)

*Note:* Elementary Italian Language courses (IT 001, 002, and 010) and lower-division Culture and Civilization (IT 130 and 131) or lower division Literature in Translation (IT 230) courses may not be credited toward the minor.

## Jewish Studies Minor

*University Park, College of the Liberal Arts (J ST)*

The Jewish Studies is a flexible interdisciplinary minor for students interested in the study of Jewish history, thought, and culture. Historical coverage ranges from ancient Israel and the contemporary world. Specializations can include, but are not limited to, Modernity and the Jews; Ancient Israel, Bible, and Early Judaism; Holocaust, Anti-Semitism, and Genocide; Jews in America; Jewish Culture and Literature; Israel and Zionism; or Jewish-Christian Relations.

For the Jewish Studies minor, a minimum of 18 credits is required, with at least 6 credits at the 400 level. Up to 9 credits of study abroad may be substituted for supporting course requirements. No more than 4 credits of Modern Hebrew may count toward the requirements for the minor.

All required course work must be completed with a grade of C or higher.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

J ST 010 GH;IL(3)/HEBR 010 GH;IL(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits in Jewish Studies, 6 credits of which must be at the 400 level (Sem: 5-8)

(Up to 9 credits of education abroad courses selected in consultation with the adviser may be applied to the requirements for the minor. No more than 4 credits of Modern Hebrew may count toward the requirements for the minor.)

## Japanese Language Minor

*University Park, College of the Liberal Arts (JAPNS)*

The minor in Japanese is intended to provide students with a good working knowledge of the Japanese language, culture, and society in order to broaden their horizons and sharpen their awareness in internationalism and globalization. Students undertake three years of language and culture/film/literature study (or equivalent); education abroad can be included.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (8 credits)

JAPNS 002(4), JAPNS 003(4) (Sem: 1-4)

**ADDITIONAL COURSES\*** (10 credits)

Select 4 credits from JAPNS 110 IL(4), JAPNS 296(1-9), JAPNS 297(1-9), or JAPNS 299 IL(1-12) (Sem: 1-8)

Select 6-8 credits from JAPNS 401 IL(4), JAPNS 402 IL(4), JAPNS 403Y(4), JAPNS 404 IL(4), JAPNS 410 IL(3), JAPNS 421 IL(3), JAPNS 422 IL(3), JAPNS 423 IL(3), JAPNS 424 IL(3), JAPNS 425(3), JAPNS 426(3), JAPNS 450 IL(3), JAPNS 452 IL(3), JAPNS 453 IL(3-6), JAPNS 454 IL(3-6), JAPNS 496(1-18), JAPNS 497(1-9), or JAPNS 499 IL(1-15) (Sem: 5-8)

\* Special topics courses in English or other courses in English do not satisfy this requirement.

## **Leadership Development Minor**

*University Park, College of Agricultural Sciences (L DEV)*

This minor is designed for students in any major of the University wanting to supplement their program with studies in leadership development. The minor consists of 18 credits, at least 3 of which are an internship experience. This minor provides students with a fundamental concept of leadership development and expands in three related dimensions. A grade of C or better is required in all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

AEE 311(3), AEE 360(3) (Sem: 5-6)

AEE 460(3), AEE 495(3) (Sem: 7-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with an adviser from courses on the Department approved list that focus in one of three support areas: leadership styles, ethical and moral dimensions of leadership, or global leadership (Sem: 1-8)

Last Revised by the Department: Fall Semester 2000

Blue Sheet Item #: 28-03-005

Review Date: 1/11/00

## **Latin American Studies Minor**

*University Park, College of the Liberal Arts (LATAM)*

This interdisciplinary minor is designed for students in any college or program of the University who want to supplement their knowledge and skills with the study of Latin America. A certificate is awarded to students who complete the requirements of the minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-19 credits

**PRESCRIBED COURSES** (3 credits)

PL SC 456(3) (Sem: 1-4)

**ADDITIONAL COURSES** (6-7 credits)

HIST 178 GH;IL(3) or HIST 179 GH;IL(3) (Sem: 1-4)

PORT 001(4) or SPAN 100(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits (at least 3 credits at the 400 level) from an approved list in consultation with the adviser. (Sem: 1-4)

Last Revised by the Department: Summer Session 2009

Blue Sheet Item #: 37-06-057

Review Date: 4/14/09

LA

## Latin Minor

*University Park, College of the Liberal Arts (LATIN)*

The Latin minor emphasizes the development of skills in the linguistic and literary aspects of the Latin language. Through 18 credits of course work, including 6 at the 400-level, students develop mastery of the grammatical structures essential to the ability to read Latin; a vocabulary adequate to the sight recognition of a large number of Latin vocabulary items; and a thorough understanding of the formal system of word inflection and derivation which forms the grammatical core of the language. Once students have completed the basic 12 credits in LATIN 001, LATIN 002 and LATIN 003, they have the opportunity to pursue their studies in a wide variety of 400-level courses, which include prose authors such as historians, poets who wrote in epic and elegiac styles, playwrights, and other literary stylists who round out the vast body of Latin literature. In addition, 400-level courses are available on such topics as Latin prose composition, in which students learn to write Latin, and Latin linguistic history. The minor is appropriate for a wide number of majors, including history, medieval studies, archaeology, medicine, philosophy, and law.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

Select 12 credits of LATIN courses (Sem: 1-8)

Select 6 credits of 400-level LATIN courses (Sem: 5-8)

## Legal Environment of Business Minor

*University Park, Jeff Sharp, jms16@psu.edu, Smeal College of Business (LEBUS)*

This minor presents students with a structured study of the statutory and common law governing the business environment. Students in this program have the opportunity to learn advanced legal subject matter, including business organization structures, employment law, property law, commercial transactions, intellectual property, environmental law, and government regulation. Content is framed around the organization and support of complex business enterprises from a legal perspective. This includes complex legal transactions, litigation support and avoidance, and the development of enterprises. The emphasis on the complex nature of legal organization formation, transactions, and litigation support is provided through a rigorous selection of business law and core business courses.

A grade of C or better is required in all courses used to meet the requirements of the LEBUS minor. For admission to the minor, students must have completed ACCTG 211(4) and ECON 102(3) with grades of C or better.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits  
(At least 6 credits must be at the 400 level)

**PRESCRIBED COURSES** (12 credits)

ECON 104 GS(3) (Sem: 1-4)

FIN 301(3), B LAW 341(3), B LAW 441(3) (Sem: 6-8)

**ADDITIONAL COURSES** (6 credits)

Select 6 credits from the following:

B LAW/R M 424(3), B LAW/R M 425(3), B LAW 444(3), B LAW 445(3), B LAW 446(3) (Sem: 6-8)

LA

## Latina and Latino Studies Minor

*University Park, College of the Liberal Arts (LTNST)*

This minor in Latina and Latino Studies offers students across the University an opportunity to learn about the diverse histories, cultures, politics, migration patterns, and other aspects of Latina/o populations in the United States. Classes will be offered on Latino history; the artistic achievements of Latinas/os in popular culture, literature, theatre, film, and television; the migratory flows of Latina/o populations; education; other issues related to language and identity; and family issues. These courses demonstrate that studying Latina/o social formations is a critical component of understanding the social fabric of the U.S. as well as the U.S. presence in Latin America and the complex phenomenon of globalization. Although the emphasis of Latina/o Studies is on the U.S., the role of Latina/o immigration within wider shifts related to globalization requires an understanding of Mexico, Central and South America, and the Spanish-speaking Caribbean.

The minor consists of 18 credits, at least 6 of which must be at the 400 level.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

LTNST 100 GH;US(3) (Sem: 1-6)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits from LTNST 226(3) or ENGL 226 GH;US;IL(3), LTNST 300 US(3) or WMNST 300 US(3), LTNST 315 GH;US(3) or SPAN 315 GH;US(3), LTNST 326 GH;US(3) or SPAN 326 GH;US(3), LTNST 403(3) or CMLIT 403(3), LTNST 426(3) or ENGL 426 US(3), and 3 credits of SPAN 003(4) or above. (Sem: 1-8)

**SUPPORTING COURSES AND RELATED AREAS:** (6 credits)

Select 6 credits from approved list in consultation with an academic adviser.

Last Revised by the Department: Fall Semester 2006

## Management Minor

*Penn State Erie, The Behrend College (MANGT)*

*Contact(s): Balaji Rajagopalan, bur14@psu.edu*

The management minor requires students to complete 6 additional credits in management beyond the 12 credits required in MGMT 301, MGMT 331, MGMT 341 and SCM 301. It is designed to introduce students to advanced topics in management, such as Human Resources management, as well to basics of organizations and interpersonal skills. This minor can provide an enhanced understanding of management challenges found in all organizations, regardless of the function or activities being undertaken. As a result, the management minor is uniquely qualified to work well as a supporting area with most other business majors.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

MGMT 301(3), SCM 301(3) (Sem: 4-5)

MGMT 331(3), MGMT 341(3) (Sem: 6-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of 400-level MGMT courses from the following list:

MGMT 409(3), MGMT 410(3), MGMT 420(3), MGMT 432(3), MGMT 440(3), or MGMT 461 IL(3) (Sem: 6-8)

## Mathematics Applications Minor

*Altoona College (MAPAL)*

The minor in mathematics and its applications is designed to provide students with an interest in applied mathematics, and an opportunity to use mathematical tools and ways of thinking in their own major or area of concentration. The minor requires students to complete 26-28 credits in Mathematics with 6 credits from the 400-level MATH courses and 6 credits from the 400-level Mathematics Applications courses. The latter are selected in consultation with the coordinator of the minor and are from areas that directly incorporate or support the use of mathematics. Typical selections include computer science, engineering, physics, and statistics.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 26-28 credits

**PRESCRIBED COURSES** (8 credits)

MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-4)

**ADDITIONAL COURSES** (6-8 credits)

Select 6-8 credits from MATH 220 GQ(2-3), MATH 230(4), MATH 231(2), MATH 232(2), MATH 250(3), MATH 251(4), MATH 310(3), MATH 311W(3-4), or MATH 312(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 6 credits of 400-level MATH courses (Sem: 5-8)

Select 6 credits from 400-level Mathematics Applications\* courses (Sem: 5-8)

\*Mathematics Applications Courses: Through consultation with the coordinator of the minor, courses from areas that directly incorporate or support the use of mathematics will be selected. Typical areas include computer science, engineering, physics, and statistics. See divisional list of acceptable courses.

## Marine Sciences Minor

Contact: Dr. Iliana Baums, [ibb3@psu.edu](mailto:ibb3@psu.edu)

This program provides an excellent opportunity for undergraduates to pursue their interests in the study of the oceans and make more informed decisions about future graduate studies in marine sciences. Although Penn State does not award degrees in this field, a number of faculty pursue research interests in the marine sciences, and a varied selection of undergraduate courses in the marine sciences is available. The student can either complete the requirements for the minor at University Park (UP) or participate in an intensive semester-long oceanography experience at the Southampton, UK, Oceanography Centre (SOC) through education abroad:

The latter option may be of particular interest to students from non-UP locations. SOC has designed a program for PSU students that provides abundant opportunity to participate in shipboard oceanographic research, including a week of day-cruises in the spring and a 2-week series of cruises in June. Students who elect to pursue that minor at UP have the opportunity to receive training as scientific scuba divers through Penn State's Science Diving Program and participate in a number of other field experiences in the marine sciences.

**MARINE SCIENCES MINOR:** The Marine Sciences Committee is authorized to award a minor certificate to any undergraduate student regularly enrolled in a degree program at the University who, in addition to satisfying the degree requirements of his or her baccalaureate major, satisfies the requirements for the Marine Sciences minor. The completion of the minor is reflected by a formal notation on the student's official record at the time of graduation.

To enter the program, a student must have attained at least fourth-semester standing, completed CHEM 112, MATH 111 or MATH 141, and BIOL 110 or their equivalents, and have earned a cumulative grade-point average of at least 2.50. To ensure adequate advising and record keeping, the student must apply for the minor in the Marine Sciences program office and must then complete the requirements shown below.

Courses offered by other institutions may be substituted for any of the required courses listed below, if accepted for transfer by the student's major department and approved by the Marine Sciences Committee. This includes up to 16 transfer credits from SOC. Upon completion of the requirements and no later than the tenth week of the semester in which the student is to graduate, he or she must verify in the Marine Sciences program office that the requirements have been met.

In addition to the entrance requirements shown above, there are prerequisite credits required for courses listed under Supporting Courses and Related Areas.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES** (3 credits)

GEOSC 040 GN(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (16 credits)

At least 6 credits of field studies from the following list: EARTH 240(3), EM SC 440(3), BIOL 499A IL(3), BIOL 450W(3-5) or BIOL 496(1-6), ERM 496(1-6), GEOSC 496(1-6), METEO 496(1-6) with consent of instructor and Marine Science Minor (Sem: 5-8)

Students may also wish to transfer 6 credits of field-oriented course work from another institution with prior approval of the chair of the Marine Sciences minor.

Select 10 credits from the following list: BIOL 417(4), GEOSC 410(3), GEOSC 419(3), GEOSC 440(3), METEO 022(2), METEO 451(3), W F S 435/E R M 435(3) (Sem: 5-8)

## Mechatronics Technology Minor

*Capital College, School of Science, Engineering and Technology (MCHTC)*

Mechatronics is an interdisciplinary technical discipline that combines mechanical, electrical, electronics, control and computer engineering technology. The field deals with the design, development, control, and application of advanced electro-mechanical systems. Such systems will include sensors, actuators, microprocessors, controllers, software, computer, and mechanical hardware components. The purpose of the mechatronics technology minor is to provide undergraduate students an opportunity to take relevant courses that will sequentially build on their knowledge and understanding of mechatronic systems and to provide recognition to those who do so.

A grade of C or better is required for all courses in the minor.

**REQUIREMENTS FOR THE MINOR:** 18-23 credits

**ADDITIONAL COURSES** (6-7 credits)

E MCH 211(3) or ET 300(3) or MCH T 111(3) (Sem: 3-4)

EET 311(4) or EET 315(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (12-16 credits)

Select 6-8 credits from the following:

(Students graduating with an MET major should take 8 credits from Group A; students graduating with an EET major should take 6-7 credits from Group B; all other students should take one course from each group, totaling 7-8 credits.)

Group A:

E E 310(4) or EET 212W (4) (Sem: 5-6)

CMPEN 271(3) and CMPEN 275(1) or CMPET 117(3) and CMPET 120(1) (Sem: 5-6)

Group B:

EET 341(3) or EMET 330(3) or M E 345(4) or M E 345W(4) or MET 341(3)(Sem: 5-6)

E MCH 212(3) or ET 321(3) or MET 206(3) (Sem: 5-6)

Select 6-8 credits from the following (one course from category I and II):

Category I:

CMPEH 472(4) or E E 485(3) (Sem: 6-8)

Category II:

EET 433(4) or EET 440(3) or EMET 410(3) or MET 454(3) or MET 455(3) (Sem: 7-8)

Last Revised by the Department: Fall Semester 2014

**PRESCRIBED COURSES** (4 credits)

E E 210(4) (Sem: 4-5)

**ADDITIONAL COURSES** (15-18 credits)

Select 3 credits from: CMPSC 121(3), CMPSC 200(3), or CMPSC 201(3) (Sem 2-4)

Select 6-8 credits from the following:

(Students graduating with a M E major should take 7-8 credits from Group A; students graduating with an EE major should take 7 credits from group B; all other students should take 6-8 credits from both A and B.)

Group A:

CMPEN 270 (4) or CMPEN 271(3) and CMPEN 275(1) (Sem 3-4)

CMPEN 331(3) or E E 310(4) or E E 387(3) (Sem 5-6)

Group B:

M E 345(4) or M E 345W(4) (Sem 5-6)

M E 357(3) (Sem 5-6)

Select 6-7 credits from the following (one course each from Category I and II):

Category I:

CMPEH 472(4), CMPEN 472(3), E E 485(3), E E 487(3), M E 445(4) (Sem 5-8)

Category II:

E E 483(3), M E 455(3), M E 456(3) (Sem 5-8)

## Media Studies Minor

*University Park, College of Communications (MEDIA)*

The Media Studies minor is designed for students who want to develop their knowledge of the mass media from a variety of approaches, including aesthetic, humanistic, social-behavioral, and legal-policy. This minor is a theory-based rather than a professional program. In fact, students in the minor may not take professional skills communications courses as part of this program. The minor consists of 18 credits, at least 6 of which must be at the 400 level. The minor is not available to students enrolled in any of the majors in the College of Communications.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

COMM 100 GS(3) (Sem: 1-2)

**ADDITIONAL COURSES** (15 credits)

Select 3 credits from COMM 110 GH(3), COMM 150 GA(3), COMM 118 GS(3) or COMM 180 GS(3) (Sem: 3-6)

Select 12 credits from COMM 205 US(3), COMM 250 GA(3), COMM 261 GH(3), COMM 304(3), COMM 404(3), COMM 401(3), COMM 403(3), COMM 405(3), COMM 408(3), COMM 409(3), COMM 410 IL(3), COMM 411(3), COMM 413W(3), COMM 418(3), COMM 419 US:IL(3), COMM 450(3), COMM 451(3), COMM 452(3), COMM 453 IL(3), COMM 454(3), COMM 455(3), COMM 484(3), COMM 485(3), COMM 496(3), or COMM 499(3) (Sem: 5-8)

## Medieval Studies Minor

*University Park, College of the Liberal Arts (MEDVL)*

The Medieval Studies minor encourages an interdisciplinary approach to the diverse and interconnected cultures of Europe and the Mediterranean rim between the fifth and the fifteenth centuries and to contact zones in the Americas, Near East, and the northwestern Pacific. Students survey and evaluate key dimensions of the medieval period across disciplinary boundaries. They develop skills in critical writing and in analyzing documents, monuments, contexts, and conventions of expression; consider emerging fields such as digital humanities and new media; and examine the abiding cross-cultural and trans-historical significance of historical, social, religious, creative, and linguistic developments from the medieval period. The minor allows students to combine courses, guided readings, and research projects in fields such as history, art, archaeology, literature, languages, philosophy, and religious studies.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18credits

**REQUIRED COURSES** (6 credits)

MEDVL/HIST 107 GH;IL(3), MEDVL 108 GH;IL(3) (Sem: 3-4)

**ADDITIONAL COURSES** (12 credits)

6 credits must be at the 400-level.

### **Art History**

ART H 111 GA;IL(3), ART H 111U GA;IL(3), ART H 140 GA;IL(3), ART H 201 GA;IL(3) (Sem: 1-8)

## Middle East Studies Minor

*University Park, College of the Liberal Arts (MESTU)*

This interdisciplinary program is designed for students having special interest in the geographical area that includes Afghanistan, Iran, Turkey, and the Arabic-speaking countries of southwestern Asia and northern Africa. In addition to the requirements for the minor, students may select other courses dealing with the Middle East, subject to the approval of the Middle East Studies Committee. A certificate is awarded to students who complete the requirements of the minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits  
(Some courses in this minor have prerequisites that are not required by the minor.)

**ADDITIONAL COURSES** (3 credits)  
Select 3 credits from HIST 165(3) HIST 181 GH;IL(3), HIST 471W(3), HIST 472 IL(3), HIST 473 IL(3), RL ST 107 GH;US;IL(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)  
Select 15 credits, at least 6 at the 400-level, from approved program list in consultation with the professor in charge of the minor. (Sem: 5-8)

Last Revised by the Department: Summer Session 2004

Blue Sheet Item #: 32-01-080

Review Date: 9/2/03

LA

## Meteorology Minor

*University Park, College of Earth and Mineral Sciences (METEO)*

Students pursuing the 39-credit Meteorology minor seek to broaden their education by specializing in an applied science. As for Meteorology majors, students minoring in Meteorology must have a strong background in Mathematics and Physics. Eleven of the 20 Meteorology credits come from the three required courses of METEO 300, METEO 421, and METEO 431. The remaining nine credits come from 100-, 200-, 300-, or 400-level METEO courses, at least one of which must be at the 400 level. Completion of the three required courses ensures that students will have the foundational atmospheric science material that they need to register for the remaining nine Meteorology credits. In consultation with a Meteorology adviser, students may choose these elective courses from a variety of sub-specialties, including Air Quality Studies, Atmospheric Dynamics, Atmospheric Physics, Climatology, Computer Applications, and Weather Analysis and Forecasting.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 39 credits

**PRESCRIBED COURSES** (30 credits)

METEO 300(4), METEO 421(4), METEO 431(3) (Sem. 5-6)

CHEM 110 GN(3), MATH 231(2), MATH 232(2), MATH 251(4), PHYS 211 GN(4), PHYS 212 GN(4) (Sem: 5-6)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits of 100-, 200-, 300-, or 400-level Meteorology; at least 3 credits must be at the 400 level. (Sem. 5-8)

Last Revised by the Department: Fall Semester 2015

Blue Sheet Item #: 44-01-060

Review Date: 8/25/15

EM

## Microbiology Minor

*University Park, Eberly College of Science (MICRB)*

The minor in Microbiology is a collection of required and elective courses that (1) provides a limited but sound foundation in the discipline, (2) requires students to develop reasonable expertise in handling and characterizing microorganisms, and (3) permits students to emphasize some subdiscipline of microbiology in which they may have a particular interest. The minor specifies the introductory lecture and laboratory courses in microbiology and one course each in immunology and cell biology. A minimum of two laboratory courses exposes students to basic and experimental/applied techniques. Sufficient room exists within the minor for selection of two or three elective courses at the advanced level that may emphasize a specialty area of the discipline such as virology or microbial genetics. Students who complete the minor have a sufficient background to pursue positions in industry that require an appreciable expertise in microbiology.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 24 credits

**PRESCRIBED COURSES** (17 credits)

CHEM 110 GN(3), CHEM 112 GN(3), MICRB 201(3), MICRB 202(2), MICRB 251(3) (Sem: 3-4)  
MICRB 410(3) (Sem: 5-6)

**ADDITIONAL COURSES** (2-3 credits)

Select 2-3 credits from MICRB 421W(3) or MICRB 422(2) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (4-5 credits)

Select 4-5 credits of 400-level MICRB courses (Sem: 5-8)

*Note:* B M B 442(3), MICRB 408(1-2), MICRB 496(1-18) and MICRB 497(1-9) may not be used to fulfill the requirements for the minor.

## Military Studies Minor (MLTRY)

CHAIR, MILITARY STUDIES INTERDISCIPLINARY COMMITTEE, *in charge*

This interdisciplinary minor is designed for all students with special interests in military and national security affairs. Military emphasis is provided in one of three areas--Aerospace Studies, Military Science, or Naval Science. American military forces have played an important role in our domestic and international history and will continue to have significant involvement in policy arenas relating to national security and international relations. Students elect one military service branch for their prescribed courses and select two additional courses from appropriate history and political science courses emphasizing national security policy. At least 6 credits must be taken at the 400 level.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

### REQUIREMENTS FOR THE MINOR: 24-27 credits

#### PREScribed COURSES (Choose one service branch--18-20 credits)

##### AIR FORCE (20 credits)

AIR 151(2), AIR 152(2), AIR 251(2), AIR 252(2), AIR 351(3), AIR 352(3), AIR 451(3), AIR 452(3) (Sem: 1-4)

##### ARMY (20 credits)

ARMY 101(2), ARMY 102(2), ARMY 203(2), ARMY 204(2), ARMY 301(3), ARMY 302(3), ARMY 401(3), ARMY 402(3) (Sem: 1-7)

##### MARINES (18 credits)

NAVSC 101(3), NAVSC 204(3), NAVSC 311(3), NAVSC 313(3), NAVSC 402(3), NAVSC 411(3) (Sem: 1-7)

##### NAVY (21 credits)

NAVSC 101(3), NAVSC 204(3), NAVSC 205(3), NAVSC 322(3), NAVSC 323(3), NAVSC 401(3), NAVSC 402(3) (Sem: 1-7)

#### ADDITIONAL COURSES (6 credits)

Select 6 credits from the following courses:

HIST 108 GH;IL(3), HIST 120 GS;IL(3), HIST 130 GH;US(3), HIST 142 GS;IL(3), HIST 143 GH;IL(3), HIST 144 US;IL(3), HIST 151 GS;US(3), HIST 160 US(3), HIST 161 US(3), HIST 165 IL(3), HIST 173 GH;IL(3), HIST 175 GH;IL(3), HIST 178 GH;IL(3), HIST 181 GH;IL(3), HIST 192 GH;IL(3), HIST 420 IL(3), HIST 430 IL(3), HIST 434 IL(3), HIST 441 US(3), HIST 444 US(3), HIST 452 US;IL(3), HIST 454 US(3), HIST 473 IL(3) (Sem: 1-2, 7-8)  
PL SC 003 GS;IL(3), PL SC 014 GS;IL(3), PL SC 020 GS;IL(3), PL SC 022 GH;IL(3), PL SC 137(3), PL SC 150(3), PL SC 413(3), PL SC 415(3), PL SC 416(3), PL SC 437(3), PL SC 438(3), PL SC 439(3), PL SC 442(3), PL SC 452(3), PL SC 453 IL(3), PL SC 454 IL(3), PL SC 455(3), PL SC 456(3), PL SC 457(3-6), PL SC 458(3-6), PL SC 467(3) (Sem: 1-2, 7-8)

UCA Revision #2: 7/30/07

## Mining Engineering Minor

*University Park, College of Earth and Mineral Sciences (MNG E)*

*Professor Jeffery Kohler, Program Officer*

The minor in Mining Engineering offers a specialized program for students in many other broad-based, technical majors, such as those in engineering or science. The demand for professionals with the training and skills for a career in the minerals- and energy-recovery profession far exceeds the supply. Mineral exploration and evaluation, mine development, marketing, health and safety, environmental protection, and mine management are all areas of industry employment. It is recommended that students wishing to pursue this minor come from an engineering or science major. As a result, the selection of this minor can provide additional career options for students in a wide range of offerings at Penn State.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (18 credits)

MNG 230(3), MNG 331(3), MNG 404(2), MNG 410(2), MNG 412(3), MNG 422(3), and MNG 441(3) (Sem: 3-8)

Review Date: Fall Semester 1997

EM

## Marketing Minor

*Penn State Erie, The Behrend College (MRKTG)*

*Contact(s): Ray Venkataraman, rrv2@psu.edu*

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

MKTG 301(3), MKTG 330(3), and MKTG 342(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 9 credits of MKTG courses (at least 6 credits at the 400 level) (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

UCA Revision #2: 7/30/07

BD

## Mathematics Minor

*Penn State Erie, The Behrend College (MTHBD)*

*Contact(s): Michael Rutter, mar39@psu.edu*

The minor in mathematics (MTHBD) shows students how to use mathematical tools and ways of thinking in many fields. The choice of several upper-level courses allows students to focus on specific areas of interest. Business majors might choose linear programming and operations research. Engineering students could enroll in numerical methods. Chemistry students might choose numerical methods and linear programming, while biology majors could enroll in mathematical modeling and differential equations. A solid mathematical background can be a strong asset in fields of education, neurobiology and behavior, plant biology and agriculture, immune system studies and pathology, medical sciences, marketing and management science, engineering, national security, ecology, and ecosystems.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (4 credits)

MATH 311W(4) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (14 credits)

Select 8 credits of MATH courses at the level of MATH 140 GQ(4) or above (Sem: 1-6)

Select 6 credits of 400-level MATH courses (Sem: 7-8)

(No more than three credits from MATH 495 courses can be used to satisfy this requirement.)

Last Revised by the Department: Fall Semester 2008

Blue Sheet Item #: 36-07-003

Review Date: 6/17/08

UCA Revision #1: 8/9/06

BD

## Music Performance Minor

*University Park, College of Arts and Architecture (MUSIC)*

PROFESSOR SUE HAUG, *Director, School of Music*

The minor in music performance serves a wide variety of needs among the students who elect it. Those who have studied voice or an instrument through their high school years may pursue that study at a more advanced level. Participants in bands, orchestras, and choirs want to continue that activity at a higher level. Some find the minor an important adjunct to other studies such as speech pathology and audiology, speech communication, or broadcasting. This minor provides students in very demanding majors to build music performance into their lives as a balancing influence. Admission to the minor depends upon a successful performance audition.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**SUPPORTING COURSES AND RELATED AREAS** (21 credits)

Select 8 credits in applied music through Level IV: Primary (Sem: 1-8)

Select 4 credits in ensembles (Sem: 1-8)

Select 3 credits of electives in MUSIC (Sem: 1-8)

Select 6 credits at the 400 level in MUSIC (Sem: 5-8)

Last Revised by the Department: Spring Semester 2010

Blue Sheet Item #: 38-06-009

Review Date: 04/13/2010

AA

## Music Studies Minor

*University Park, College of Arts and Architecture (MUSST)*

PROFESSOR SUE HAUG, *Director, School of Music*

The minor in music studies provides students the opportunity to conduct focused study on music theory, history and literature. The minor may also serve as an important adjunct to other studies such as speech pathology and audiology, speech communication, or broadcasting. Some students choose to add the music studies minor as a balancing influence to coursework in their majors; others relate music studies directly to their major. For example, a recent Schreyer Honors College history major did her thesis on song during the Civil War. Admission to the minor depends upon the ability to read musical notation, which is assessed by a music theory assessment test offered during the annual audition days. Each student registers for core courses in music theory, history and literature. Students usually opt to focus on one of the three areas in their upper-level courses.

A grade of C or better is required for all courses in the minor.

*Scheduling recommendations by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (8 credits)

MUSIC 131(2), MUSIC 132(2), MUSIC 231(2), MUSIC 331(2) (Sem: 1-4)

**ADDITIONAL COURSES:** (3 credits)

MUSIC 261(3) or MUSIC 262(3) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS:** (10 credits)

Select 4 credits in ensembles (Sem: 1-8)

Select 6 credits at the 400-level in MUSIC (Sem: 5-8)

Last Revised by the Department: Spring Semester 2010

Blue Sheet Item #: 38-06-011

Review Date: 04/13/2010

## Music Technology Minor

*University Park, College of Arts and Architecture (MUTEC)*

Administered by faculty from the College of Arts & Architecture's School of Music, School of Theatre, and Department of Integrative Arts, the minor in Music Technology is appropriate for undergraduate students seeking to apply domains of knowledge from their majors or General Education programs to issues of audio production and digital technology in music.

The program consists of prescribed foundation courses in musical acoustics, digital audio, sound design and audio recording. Supporting course work allows students to focus in advanced topics such as music software programming, multi-media, or entertainment systems.

The Music Technology Minor Committee is authorized to award a minor certificate to any undergraduate who, in addition to satisfying the degree requirements of his or her baccalaureate major, satisfies the requirements for the Music Technology minor. The completion of the minor is reflected by a formal notation in the student's official record at the time of graduation.

Students must declare a major before they may request admission to a minor. However, those interested in the music technology minor are encouraged to begin taking applicable courses as early as possible. Students must apply to the minor no later than the beginning of their 6th semester. Students who have earned at least a grade of C in INART 050, INART 258A and THEA 285 may apply for admission to the program by submitting an application to the Committee.

For more information about the music technology minor, check the School of Music website at <http://music.psu.edu/prospective/mustechminor.html>.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (15 credits)

INART 050 GN(3), INART 258A GA(3), MUSIC 008 GA(3) (Sem: 1-4)

THEA 285(3), THEA 484(3) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with the minor advisor with at least 3 credits at the 400 level. (Sem: 5-8)

Last Revised by the Department: Summer Session 2006

## Nanotechnology Minor

*University Park, College of Engineering (NANO)*

The Nanotechnology minor is designed to help prepare students from diverse disciplines for careers in a broad range of industries innovating with nanotechnology. The minor builds on the singular strengths of Penn State's nanofabrication facilities including its class 1 and class 10 clean rooms, its faculty, and existing academic programs. The minor provides students with fundamental knowledge and skills in simulation, design, modeling, syntheses, characterization, properties, processing, manufacturing, and applications at the nano scale.

As nanotechnology increasingly bridges across disciplines, a basic understanding of mathematics, physics, biology, and chemistry is recommended. To complete the 18 credit nanotechnology minor, students will take two prescribed courses (6 credits) in nanoscience fundamentals, and then select four additional courses (12 credits) from a growing list of courses that address the areas described in the previous paragraph. A grade of C or better is required for all courses in the minor.

In addition to nanotechnology career opportunities in microelectronics, information storage, optoelectronics, bioelectronics, pharmaceuticals, agriculture, medicine, life sciences and the sciences, the minor prepares undergraduate students to support major new nanotechnology research programs as graduate students. Interested 3rd and 4th year students from related fields in engineering, the chemical, physical, and the biological sciences, medicine, life, and agricultural sciences are encouraged to enroll.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** (6 credits)

E SC 312(3), E SC 313(3) (Sem: 5-6)

**SUPPORTING COURSES AND RELATED AREAS:** (12 credits)

Select 12 credits from an approved list, at least 6 credits must be at the 400 level. (Sem: 5-8)

Last Revised by the Department: Summer Session 2006

## Natural Resources Minor

*University College, Penn State DuBois (NAT R)*

The natural resources minor can complement majors in the earth sciences and life sciences, and provides an introduction to field techniques and technical writing. Areas of specialized study can include, but are not limited to, environmental assessment, forest and wetland evaluation and management, and wildlife management. Professional opportunities include work in environmental monitoring, such as endangered species and wetland delineation, restoration of disturbed land, and management of forested lands and wildlife areas.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

In consultation with a natural resources adviser:

Select 3 credits in 100-level forest technology (Sem: 1-2)

Select 3 credits in 100-level wildlife technology (Sem: 1-2)

Select 6 credits of 200-level forest technology or wildlife technology (Sem: 3-4)

Select 6 credits of 400-level geography or geosciences courses (Sem: 5-8)

Last Revised by the Department: Summer Session 2006

Blue Sheet Item #: 34-04-068

Review Date: 1/17/06

## Natural Science Minor (NATSC)

Contacts: Altoona College, David Hurtubise, [dxh40@psu.edu](mailto:dxh40@psu.edu); Berks College, Ike Shibley, [jas1@psu.edu](mailto:jas1@psu.edu); Eberly College of Science, Ron Markle, [ram29@psu.edu](mailto:ram29@psu.edu).

This interdepartmental minor in Natural Science is designed for nonscience students who wish to gain a better appreciation for science and the scientific method. The courses required in the minor include 3 to 4 credits of general education science designed for nonscience students, 3 to 4 credits of mathematical science, 8 to 9 credits of life or physical science, including some laboratory work, and 6 credits of 400-level science courses. Certain combinations of courses are disallowed (as listed in the curriculum description), and higher-level courses are generally accepted as substitutes for lower-level courses if both are offered by the same department. Any substitutes for laboratory courses must also be laboratory courses. Advising for students in this minor will be available through the Eberly College of Science Academic Advising Center and approval of curriculum exceptions will be through the faculty committee and professor in charge of the program.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 20-23 credits

**PRESCRIBED COURSE** (1 credit)  
SC 400(1) (Sem: 5-8)

**ADDITIONAL COURSES** (14-17 credits) [\[62\]](#)

Select 3-4 credits from ASTRO 001 GN(3), ASTRO 010 GN(2) and ASTRO 011 GN(1), B M B 001 GN(3), BI SC 001 GN(3), BI SC 002 GN(3), BI SC 003 GN(3), BI SC 004 GN(4), CHEM 001 GN(3), CHEM 003 GN(3), MICRB 106 GN(3) and MICRB 107 GN(1), PHYS 001 GN(3) (Sem: 1-4)

Select 3-4 credits from CMPSC 101 GQ(3), CMPSC 121 GQ(3), CMPSC 201 GQ(3) or CMPSC 202 GQ(3), CMPSC 203 GQ(4), MATH 110 GQ(4), MATH 140 GQ(4), STAT 200 GQ(4), STAT 250 GQ(3) (Sem: 3-6)

Select 8-9 credits from BIOL 011 GN(3) and BIOL 012 GN(1), BIOL 110 GN(4), CHEM 110 GN(3) and CHEM 111 GN(1), CHEM 112 GN(3) and CHEM 113 GN(1), MICRB 201(3) and MICRB 202(2), PHYS 250 GN(4), PHYS 251 GN(4) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (5 credits)

Select 0-2 credits of 496 (independent studies) courses from the Eberly College of Science course offerings (Sem: 5-8)

Select 3-5 credits of 400-level courses (other than independent studies) from the Eberly College of Science course offerings (Sem: 5-8)

**[62]** A student may not use credit for BI SC 001 GN(3) or BI SC 002 GN(3) along with credit for BIOL 011 GN(3) and BIOL 012 GN(1), or BIOL 110 GN(4); CHEM 001 GN(3) or CHEM 003 GN(3) along with credit for CHEM 110 GN(3) and CHEM 111 GN(1) or CHEM 112 GN(3) and CHEM 113 GN(1); PHYS 001 GN(3) along with credit for PHYS 250 GN(4) or PHYS 251 GN(4); MICRB 106 GN(3) and MICRB 107 GN(1) along with credit for MICRB 201(3) and MICRB 202(2).

## Neuroscience Minor

*Intercollege Program (NEURO)*

Contact: Sonia A. Cavigelli, [sac34@psu.edu](mailto:sac34@psu.edu)

The intercollege minor in neuroscience is designed for the student desiring an in-depth knowledge about the basic and functional aspects of the nervous system. Students in several disciplines ranging from nutrition to psychology to molecular biology could benefit from comprehensive study of the neurosciences in preparation for technical, professional, or research careers. The neurosciences as envisioned here are broadly based, and instruction available spans the levels of investigation from molecular to behavioral and cognitive. Majors complemented by this minor would include, but not be limited to, psychology, biology, biochemistry, nutrition, human development and family studies, genetics, biobehavioral health, kinesiology, animal and poultry science, and veterinary science.

Only courses in which the student earns a grade of C or better may be counted toward fulfillment of the requirements for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

PSYCH 260(3) (Sem: 3-4)

BIOL 469(3), BIOL 470(3) (Sem: 5-6)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits from BB H 410(3), BB H 432(3), BB H 451(3), BB H 497(1-9) (lab), BIOL 471(3), BIOL 472(3), BIOL 473(2), BIOL 479(3), KINES 451(3), KINES 483(3), KINES 484(3), PSYCH 453(3), PSYCH 462(3), PSYCH 475(3), PSYCH 478(3), PTYSC 455(2) (Sem: 5-8)

## Off-Road Equipment Minor

*University Park, College of Agricultural Sciences (OFFRD)*

This interdisciplinary minor complements several engineering, agricultural, and mining degrees, helping students understand some specific technological aspects of mobile equipment (from lawn tractors to large excavators). The minor would strengthen the program for students with machinery interests by exposing them to several of the technical aspects of off-road equipment such as electronics, power generation, power transmission, traction, ergonomics, and safety.

The minor in Off-Road Equipment requires 18-21 credits from the approved courses. Courses in the minor have prerequisites including calculus, physics, and, depending on the student's major, at least one engineering or engineering technology type course (e.g., BRS 221). These courses should be completed prior to entering the minor.

A grade of C or better is required for all courses taken to satisfy the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18-21 credits

**PRESCRIBED COURSES** (3 credits)

A S M 420(3) (Sem: 6-8)

**ADDITIONAL COURSES** (15-18 credits)

Select 3 credits from A S M 320(3) or M E 431(3) (Sem: 5-8)

Select 3-4 credits from B E 303(3) and B E 306(3), or A S M 310(3) or M E 360(3) (Sem: 5-8)

Select 3-4 credits from B E 305(3), BRS 428(3), or M E 345(4) (Sem: 5-8)

Select 3-4 credits from A S M 424(3), AGRO 425(3), HORT 408(4), or TURF 425(3) (Sem: 5-8)

Select 3 credits from B E 461(3) or BRS 426(3) (Sem: 5-8)

## Organizational Leadership Minor

*University Park, College of the Liberal Arts (OLEAD): offered via World Campus*

*PROFESSOR DENNIS GOURAN, Professor-in-charge*

This interdisciplinary online minor is designed for World Campus students in any major who wish to supplement their knowledge in the areas related to leadership in organizations. The OLEAD minor focuses on the development of: (1) understanding of the role, functions, and enactment of leadership as an instrument of influence in the modern organization; (2) familiarity with pertinent scholarly inquiry; and (3) competencies essential to success in leadership. Leadership is of interest in numerous disciplines. The curriculum in Organizational Leadership provides the opportunity to select from them on the basis of specialized interests relating to: business administration, communication arts and sciences, criminal justice, economics, history, labor studies and employment relations, philosophy, political science, psychology, sociology, and women's studies. The OLEAD minor is of value to anyone pursuing a baccalaureate degree who envisions being, or is, in a position of authority (manager, supervisor, executive, officer, and the like) in an organization.

The minor consists of 18 credits, at least 9 of which must be at the 400 level.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits  
(at least 9 credits at the 400 level)

**PRESCRIBED COURSES (12 credits)**

OLEAD 100 GS(3) (Sem: 1-6)

OLEAD 409(3), OLEAD/LER 464(3), OLEAD/LER 465(3) (Sem: 4-8)

**SUPPORTING COURSES AND RELATED AREAS (6 credits)**

Select 6 credits in the approved list of courses in the OLEAD Curriculum (Sem: 4-8)

## Operations & Supply Chain Management Minor

*Penn State Erie, The Behrend College (OPSCM)*

*Contact(s): Ray Venkataraman, rrv2@psu.edu*

This minor is designed primarily for students enrolled in non-business majors, especially those in engineering and engineering technology, who wish to augment their majors with further studies in operations and supply chain management. The objective of the minor is to acquaint these students with the issues and methods associated with managing operations within manufacturing or service industries. Relevant studies include principles of management, operations management, logistics systems, procurement, planning and control, enterprise resource planning (ERP), and project management.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES:** (6 credits)

MGMT 301(3), SCM 301(3) (Sem: 5)

**ADDITIONAL COURSES:** (13 credits)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 5)

Select 9 credits from the following list:

- SCM 465(3) (Sem: 6)

- SCM 455(3) or SCM 460(3) (Sem: 7)

- SCM 445(3), MGMT 409(3) (Sem: 8)

## Poultry and Avian Science Minor

*University Park: College of Agricultural Sciences (P A S)*

The Poultry and Avian Science minor is designed for students who wish to supplement their academic major with studies focused on the biology, and management, of avian species, with an emphasis on domestic fowl. In recognition of the diverse career opportunities in the modern poultry and game bird industries, the minor is designed to also accommodate students with primary interests in agribusiness management, food science, and wildlife science. Students are required to complete a minimum of 29 credits (9 credits at the 400 level). AN SC 211, AN SC 311, and AN SC 425(VB SC 425) provide a foundation of knowledge pertaining to both avian sciences and the commercial poultry industry, while additional courses selected by the student will allow for further specialization in the foundation animal science disciplines, agribusiness management, food science, and wildlife and fisheries science. In addition, credits from poultry or avian internship experiences and/or independent study projects may also be applied towards meeting the requirements of the minor.

The University's Poultry Education and Research Center is used extensively for supplementing classroom work with hands-on laboratories. The flexibility of the minor permits program planning commensurate with an individual's interests and professional goals, and should enhance the student's ability to compete for related positions in industry, government, or academia (graduate or professional school).

The prerequisites for the minor's prescribed courses are BIOL 110 (for AN SC 211), AN SC 100 (for AN SC 311), and AN SC 211, AN SC 311, and MICRB 106 & 107 or MICRB 201 & 202 (for AN SC 425/VB SC 425).

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (9 credits)

AN SC 211(3) (Sem: 1-4)

AN SC 311(3) (Sem: 5-7)

AN SC/VB SC 425(3) (Sem: 6-8)

**ADDITIONAL COURSES** (9 credits)

Select 3 credits from: AG BM 302(3), AG BM 338(3), AN SC 207(2), AN SC 208(1) (Sem: 3-6)

AN SC 300 GN(3), AN SC 301(3), AN SC 322(3), AN SC 395(1-3) [\[1\]](#), W F S 300(2), W F S 301(2) (Sem: 5-8)

Select 6 credits from: AG BM 407(3), AG BM 408(3), AG BM 420(3), AG BM 460(3), AN SC 418(3), AN SC 420(4), AN SC 421(2), AN SC 423(3), AN SC 496(3) [\[1\]](#), AN SC 499 IL(2), FD SC 408(3), FD SC 409(2), FD SC 411(3), FD SC 415(3), VB SC 420(3), W F S 406(2), W F S 407(3), W F S 447W(3) (Sem: 7-8)

**[\*]** AN SC 395 and AN SC 496 must have a poultry or avian biology emphasis.

## Planetary Science and Astronomy Minor

*University Park, Eberly College of Science (PASTR)*

Planetary Science and Astronomy minors will study the Solar System, stars, galaxies and the universe as a whole. Students will survey a wide variety of topics in astronomy and will learn to solve problems to see how this general knowledge has been obtained. Students will use telescopes to obtain astronomical data, and will learn to analyze these data to constrain astronomical theories. Communication of these topics, both oral and written, to the public and to their peers will be emphasized, as will logic and general problem-solving skills. It will serve students who want to acquire a significant knowledge of the universe as they pursue majors in unrelated fields of study. For example, this minor will serve students who are seeking careers in science education at the 6-12 level, in elementary education, in science journalism, and in geoscience.

A grade of C or better is required for all courses in the minor.

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES** (7 credits)

ASTRO 401(4), ASTRO 402(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 3 credits from ASTRO 001 GN(3), ASTRO 005 GN(3), ASTRO 006 GN(3), ASTRO 010 GN(2) and ASTRO 011GN(1), ASTRO 291 GN(3) (Sem: 1-4)

Select 9 credits from ASTRO 120 GN(3), ASTRO 130 GN(3), ASTRO 140 GN(3), ASTRO 292 GN(3) (Sem: 2-6)

## **Pennsylvania Studies Minor**

*University Park, College of the Liberal Arts (PASTU)*

This minor is for students who want to emphasize the history, culture, politics, and other important features of Pennsylvania in their academic programs. The minor consists of 18 credits, at least 6 of which must be at the 400 level. A certificate is awarded to students who complete the requirements of the minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

HIST 012 GH;US(3) (Sem: 1-4)

**ADDITIONAL COURSES** (6-9 credits)

Select 6-9 credits from GER 157 GH;US(3), HIST 150 US(3), HIST 200 US(3), AM ST 050 GH(3), or PL SC 125(3) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (6-9 credits)

Students may select, in consultation with their Pennsylvania Studies adviser, 6-9 credits from among courses that focus substantially on Pennsylvania. At least 6 credits must be at the 400 level. A partial list of such courses includes LER 100 GS(3), LER 433(3), L A 496(1-18), PL SC 130 GS;US(3), PL SC 426(3), SOC 454(3). With the approval of the Pennsylvania Studies adviser, students may count up to 3 credits for internships in Pennsylvania. Students may enroll in the College of the Liberal Arts internship program or a departmental internship program. (Sem: 3-8)

## Peace and Conflict Studies Minor

*University College: Penn State Brandywine (PEACE)*

This minor may be pursued by students in any major. It is designed to help students take a coherent set of courses organized around the study of the sources of international conflict, peace movements, and peace building. The minor requires 18 credits, of which at least nine must be upper division, including six credits at the 400 level. Students will be required to take two prescribed courses, one introductory and one capstone. They also will take three credits of additional courses with an international focus and nine credits from a list of supporting courses, which includes the study of conflict in race relations, family, community, and the development of personal peace as a precursor to peace building. The full requirements with the lists of additional and supporting courses are available in the Peace and Conflict Studies program office. Substitutions for requirements require the permission of the Peace and Conflict Studies minor adviser at Penn State Brandywine.

See this minor list for Brandywine at [www.brandywine.psu.edu/Academics](http://www.brandywine.psu.edu/Academics) for additional information.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

## Philosophy Minor (PHIL)

Contact: Penn State Fayette, Evelyn Pluhar-Adams, [exp5@psu.edu](mailto:exp5@psu.edu); College of the Liberal Arts, Emily Grosholz, [erg2@psu.edu](mailto:erg2@psu.edu)

Many students find that their studies in their major field can be profitably supplemented by pursuing their studies in philosophy. The Philosophy minor is designed for students who desire a significant background in philosophy while majoring in a different field. Students from many disciplines pursue the Philosophy minor, including English, History, Physics, Mathematics, Management Studies, and so on. Declaring a minor in Philosophy will allow you to continue your philosophy studies throughout your degree, and you will receive a certificate in Philosophy when you graduate.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**SUPPORTING COURSES AND RELATED AREAS** (18 credits)

In consultation with a faculty adviser:

Select 6 credits of Philosophy courses (Sem: 1-6)

Select 6 credits of Philosophy courses at the 200 level (Sem: 3-6)

Select 6 credits of Philosophy courses at the 400 level (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

44-04-081 **Change. Increase** the number of credits required for the Major from 21-23 to 29-31 credits.

The Department of Physics offers a minor for students who wish to expand upon their study in this fundamental discipline, beyond the introductory courses (PHYS 211, PHYS 212, PHYS 213, PHYS 214). In addition to an additional course in modern physics (PHYS 237, which includes introductions to relativity and quantum theory, as well as applications), students take two 400-level PHYS courses for a total of 6-8 credits. The Physics minor is useful for students in many STEM disciplines who wish to extend their studies in this fundamental field, as a background for graduate study or work in a variety of technical fields.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 29-31 credits

**PRESCRIBED COURSES** (23 credits)

MATH 140 GQ(4), MATH 141 GQ(4), PHYS 211 GN(4), PHYS 212 GN(4), PHYS 213 GN(2), PHYS 214 GN(2), PHYS 237(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (6-8 credits)

Select two 400-level PHYS courses, except PHYS 444(2), 445(1), 446(1), 457(1-3), 457W(3), 494(1), 494H(1), 495(1), 496(1), 496H(1) or 499(1) (Sem: 5-8)

## Political Science Minor (PL SC)

Contact: Altoona College, Dan DiLeo, [dxd22@psu.edu](mailto:dxd22@psu.edu); Capital College, Steve Peterson, [sap12@psu.edu](mailto:sap12@psu.edu); Penn State Berks, Randy Newnham, [ren2@psu.edu](mailto:ren2@psu.edu); Penn State Fayette, Brad Whitsel, [bcw4@psu.edu](mailto:bcw4@psu.edu); College of the Liberal Arts, James Piazza, [jap45@psu.edu](mailto:jap45@psu.edu)

The Political Science minor consists of 18 credits with at least one course in each of the following Political Science areas: American, theory/methodology, comparative, and international relations. Six (6) of these 18 credits must be at the 400 level.

When electing this minor, the student should have junior (fifth-semester) standing. Special attention should be given to the fact that courses used to satisfy general education, degree requirements, electives, and major requirements may also be used to satisfy minor requirements.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits)

Select 18 credits in Political Science (at least 6 credits at the 400 level) (Sem: 3-8)

Include at least one course in each of the following areas: American, Comparative, International Relations, and Theory

## Politics and Government Minor

*Penn State Erie, The Behrend College (POGO)*

*Contact(s): Rob Speel, rws15@psu.edu*

The study of politics consists of several related subfields, such as American Government, public policy and administration, comparative politics or the study of foreign governments, international relations, and political theory. Students who pursue this minor are expected to develop research and writing skills, in addition to critical analytical skills. Because the policy making process and the processes of globalization affect us in virtually all areas of our lives, the minor is appropriate for supporting the study of any of the majors offered at the College. Similarly, the minor provides an invaluable understanding of the political world that is useful in any career that has an impact on or is affected by public life. Students who study politics at Behrend also often pursue graduate professional studies in law or in other fields in graduate schools.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

## Polymer Science Minor

*University Park, College of Earth and Mineral Sciences (PLMSC)*

Robert Kimel, Associate Head Materials Science and Engineering

The goal of the polymer science minor is to produce graduates who have a first-hand knowledge of the relationships between the synthesis, structure, properties and processing of polymer materials. Students are required to take MATSE 443 (3 credits), MATSE 441; MATSE 445; MATSE 446; MATSE 447 which provides a broad overview of the subject, then select 3 credits chosen from a suite of courses that deal with polymer synthesis, microstructure and morphology, properties and processing.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 23 credits

**PRESCRIBED COURSES** (8 credits)

## **Petroleum and Natural Gas Engineering Minor**

*University Park, College of Earth and Mineral Sciences (PNG E)*

PROFESSOR Russell Johns, *Program Officer*

The minor in petroleum and natural gas engineering is for students interested in the drilling and production of oil and gas. It provides an opportunity for students to understand and appreciate the relationship between petroleum and natural gas demand, production and their environment impact. Students are exposed to the basic courses in petroleum and natural gas extraction, particularly as they relate to drilling, production and characterization. A minimum of 18 credits is required for the minor. A student enrolled in this minor must receive a grade C or better in all courses in the minor. Advising is available through the professor in charge.

*Scheduling Recommendations by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 23 credits

**PRESCRIBED COURSES** (14 credits)

P N G 405(3), P N G 406(1), P N G 410(3), P N G 440W(3), PHYS 211 GN(4) (Sem: 5-7)

**ADDITIONAL COURSES** (9 credits)

**Select 9** credits from the following list:

P N G 411(1), P N G 420(4), P N G 425(3), P N G 430(3), P N G 450(3), P N G 451(1), P N G 475(3), P N G 480(3), P N G 482(1), P N G 489(3), P N G 496(1) (Sem: 5-8)

## Plant Pathology Minor

*University Park, College of Agricultural Sciences (PPATH)*

The Plant Pathology minor is designed for students who wish to learn more about the causes and control of plant diseases. These students may pursue careers in commercial crop production, industrial sales, private consulting, extension, or research. Increasing emphasis on biological control, integrated pest management, and sustainable agricultural practices requires knowledge of plant pathogen biology, host-parasite interactions, and environmental parameters influencing disease development. The Plant Pathology Minor focuses on these areas and gives students the background necessary to develop or utilize environmentally sound disease management strategies. This program is designed to supplement majors in any field of the biological sciences and also can be used to prepare students for graduate studies in Plant Pathology.

The minor in Plant Pathology requires 22 credits in approved courses in addition to the major requirements of the student's choice.

Students must receive a grade of C or better in all courses required for the minor.

*Scheduling Recommendation by Semester Standing given like (Sem:1-2)*

**REQUIREMENTS FOR THE MINOR:** 22 credits

**PRESCRIBED COURSES** (7 credits)[\[1\]](#)

BIOL 110 GN(4) (Sem: 1-4)

\*3 credits of PPEM 496 (1-18) (Sem: 5-8)

**ADDITIONAL COURSES** (15 credits)[\[1\]](#)

\*\*Select 3 credits from: PPEM 300 GN(3), PPEM 405(3) (Sem: 5-6)

Select a minimum of 12 credits from: AGEKO 121 GN(3), AGEKO/ENT 457(3), PPEM 120 GN(3), PPEM 300 GN(3), PPEM 318(2), PPEM 405(3), PPEM 412(3), PPEM 416(3), PPEM 417(3), PPEM 425(4), PPEM 430(3), PPEM 454(3), \*PPEM 496(1-3), PPEM 497(1-3), and the departmental list of additional courses for the Plant Pathology Minor with the approval of the minor adviser. (Sem: 3-8)

\*Students must select, in consultation with the Plant Pathology Minor adviser, at least 3 credits of PPEM 496 (Independent Study) working with one or more faculty in the department of Plant Pathology and Environmental Microbiology. An additional three Independent Study credits may be applied to the Minor requirements as Additional Courses.

\*\* Students may select one of these two courses for the second list of Additional Courses, but the same course cannot be counted toward both lists.

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Product Realization Minor

*University Park, College of Engineering (PRODR)*

This 21-credit interdisciplinary minor is designed for any engineering student who is interested in state-of-the-art practice in integrated product/process design and manufacturing. The program culminates with a one-semester project involving the design and manufacture of a new product.

The purpose of the minor is to offer students state-of-the-art practice in integrated product/process design and manufacturing. Students completing the minor should:

- understand the interaction of design and manufacturing through practical examples;
- be familiar with the entrepreneurial skills needed to transfer a new product from initial idea to market;
- understand the technical and management aspects of concurrent engineering and total quality management; and
- have hands-on experience in designing and manufacturing a product, organizing and managing the effort, and interacting with the customer.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSES** (9 credits)

M E 240(3) (Sem: 1-4)

ENGR 407(3) (Sem: 5-6)

I E 466(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

Select 9 credits in Product Design, Quality Engineering, and Manufacturing Processes courses approved by the professor in charge of the minor (Dr. Simpson).

Example courses include: E E 310, E E 441, I E 305, I E 306, I E 310, I E 311, I E 312, I E 424, I E 428, I E 464, M E 340, M E 445 (Sem: 5-8)

Select a 3-credit senior project: team-based design or industrial projects course, as approved by the coordinator (Sem: 7-8)

The Psychology minor is designed to provide undergraduate students with a broad overview of topics and domains within psychology, knowledge and skills related to research methods in psychology, and deeper knowledge of research, theory, and application in one or two specific content domains. Students completing this minor will find a flexible selection of coursework in psychology. The content domains from which students may select courses include biological, clinical, cognitive, developmental, industrial-organizational, and social psychology. Students may choose courses that emphasize theory or application of psychological principles. A number of these courses examine the application of psychological research to societal issues.

The required research methods course, PSYCH 301W, carries a statistics prerequisite that can be met by either PSYCH 200 or STAT 200. STAT 200 does not count toward the minimum 18 credits required for the minor. Students minoring in Psychology at University Park are encouraged to consult the Psychology Advising Center early in the process of planning their minor.

The Psychology minor may be appropriate for students pursuing graduate training or professional careers in fields such as health, business, education, and human services, as well as in psychology.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (7 credits)

PSYCH 100 GS(3), PSYCH 301W(4) (Sem: 1-4)

**ADDITIONAL COURSES** (11 credits)

Select 11 credits (at least 6 credits at the 400 level) in PSYCH (Sem: 5-8)

Last Revised by the Department: Fall Semester 2001

## Professional Writing Minor

*Berks College (PWRIT)  
University College, Penn State Hazleton*

The minor in Professional Writing is intended to prepare students from all degree programs within the Berks College (with the exception of the major in Professional Writing) to write effectively in a variety of workplace and academic settings. Theory courses provide the necessary background to help students understand and appreciate the larger issues surrounding the writing and reading of texts. At the same time, practice-oriented courses draw upon the strategies and techniques of practicing writers outside and inside of the University, including workshops, peer conferencing, collaborative writing, portfolio preparation, and internships.

Students may not count courses used to satisfy General Education Writing/Speaking Skills.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

ENGL 211W(3) (Sem: 3-6)

**ADDITIONAL COURSES** (15 credits)

Select 15 credits from the following:

CAS 214W(3), COMM 260W(3), COMM 320(3), COMM 370(3), ENGL 110(2-6), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 250(3), ENGL 415(3), ENGL 416(3), ENGL 417(3), ENGL 418(3), ENGL 419(3), ENGL 420(3), ENGL 421(3), ENGL 471(3), ENGL 472(3), ENGL 473(3), ENGL 474(3), ENGL 480(3), ENGL 491(3), ENGL 495(3), ENGL 497(3) (Sem: 3-8)

## Residential Construction Minor

*University Park, College of Engineering (RCNEN)*

The objective of the Residential Construction Minor is to provide an opportunity for students to gain an understanding of the residential building construction topics and issues with emphasis on sustainable land development, design and construction of residential buildings, as well as construction management of residential projects. Residential building construction is a unique interdisciplinary field that draws upon civil and architectural engineering, architecture, real estate, management, finance, and marketing disciplines, and design principles including economical, safe, and serviceable structural design, green building systems design, sustainable land development, and construction management. This minor is expected to be primarily of interest to student from Civil and Environmental Engineering, Architectural Engineering, and Architecture majors, but students from other majors can also enroll in this minor. This minor will help students to increase their competitiveness for employment in residential market and construction industry.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 22 credits

**PRESCRIBED COURSES** (10 credits)

A E 470(3), A E 471(3), ARCH 412(3), C E 411(1) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

- Architecture Track - Take 12 credits from the following: A E 211(3), A E 421 (3), A E 422(3), FIN 100(3), or R M 303(3) (Sem: 3-8)
- Architectural Engineering Track - Take 12 credits from the following: A E 202(3), A E 372(3), A E 402(3), A E 404(3), A E 454(3), A E 456(3), A E 542(3) or B E 462(3) (Sem: 3-8)
- Civil Engineering Track - Take 12 credits from the following: A E 432(3), A E 542(3), B E 462(3), C E 332(3), C E 341(3), or C E 410W(3) (Sem: 5-8)

## Rhetoric Minor

*University Park, College of the Liberal Arts (RHET)*

The Rhetoric Minor provides undergraduate students an opportunity to acquire special competence in the history, theory, and criticism of civic discourse and cultural practices. It brings together courses from both the Department of English and the Department of Communication Arts and Sciences, from which students may learn about the nature and function of rhetoric in politics, the professions, the classroom, and the media. The list of course offerings is designed to feature applied as well as theoretical approaches, and allows students to explore the subject in breadth as well as depth. Students completing the minor will command a greater knowledge of an appreciation for the significance of rhetoric as a central component of civic life.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

A minimum of 6 credits at the 400 level; maximum of 6 credits may be double-counted.

**PRESCRIBED COURSES** (6 credits)

CAS 201(3), ENGL 471(3) (Sem: 3-8)

**ADDITIONAL COURSES** (9 credits)

Select 9 credits from the following course list:

CAS 175 GH(3), CAS 311(3), CAS 321(3), CAS 375(3), CAS 411(3), CAS 415(3), CAS 420(3), CAS 426W(3), CAS 475(3), CAS 478(3), ENGL 415(3), ENGL 416(3), ENGL 417(3), ENGL 420(3), ENGL 472(3), ENGL 473(3), ENGL 474(3) (Sem: 3-8)

**SUPPORTING COURSES AND RELATED AREAS** (3 credits)

Select 3 credits from the following course list in consultation with adviser.

CAS 499 IL(3) or ENGL 499 IL(3), L A 495(3), CAS 494H(3) or ENGL 310H(3), ENGL 487W(3) (Sem: 5-8)

## Rehabilitation and Human Services Minor

University Park, College of Education (RHS)  
University College, Lehigh Valley, Leigh Cundari, [jac42@psu.edu](mailto:jac42@psu.edu)

PROFESSOR JAMES HERBERT, *Program Coordinator*  
PROFESSOR JAMES HERBERT, *in charge of major*  
PROFESSOR DEIRDRE O'SULLIVAN, *in charge of minor*

The minor in Rehabilitation and Human Services supplements the educational needs of students across disciplines who wish to gain advanced knowledge and skills related to health, disability, and interpersonal interactions. In today's society, due to medical advances and an aging population, more people are living longer with chronic illnesses and disabilities and many jobs require advanced interpersonal skills and knowledge of health, disability, and human service skills. The minor in RHS is responding to this growing need by providing students with specific applied knowledge about living and working with a disability or chronic illness, as well as adjusting to a variety of social needs and problems, such as poverty, addiction, family violence, and homelessness. The minor is appropriate for any student interested in learning how to effectively work with people, particularly as they adapt and adjust to life with a disability. The minor enhances the education of students majoring in social and behavioral sciences, as well as business majors who work in settings that hire and maintain work environments for persons with chronic illnesses and disabilities. The minor will also enhance graduate study preparation for many students interested in working with people in applied settings. For the minor in Rehabilitation and Human Services, a minimum of 21 credits is required, 15 in RHS, including 6 of which must be at the 400 level.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits  
(15 credits in RHS, including 6 which must be at the 400 level)

**PRESCRIBED COURSES:** (12 credits)  
RHS 100 GS;US;IL(3), RHS 301(3), RHS 403(3) (Sem: 4-8)  
RHS 410(3)

**ADDITIONAL COURSES:** (9 credits)  
Select 6 credits from RHS 302(3), RHS 303(3), RHS 401(3), RHS 402(3) (Sem: 4-8)  
Select 3 credits from department approved list in consultation with adviser (Sem: 4-8)

## Religious Studies Minor

Abington  
University Park, College of the Liberal Arts (RL ST)

The minor in Religious Studies requires 18 hours of course work in RL ST. It (1) acquaints the student with the methods for studying religion (how one studies a religion), (2) provides an elementary introduction to the world's main religious traditions (names, dates, ideas, similarities and differences), and (3) offers the opportunity to investigate a particular topic or religion in greater detail. Students are required to take one survey course (either RL ST 001, RL ST 003, or RL ST 004), which provides a broad historical overview of several religions, from their foundation to the present day.

The interaction between religions and their cultural contexts is emphasized, as is the evolution of an individual religion. After this introduction, the student is free to choose from a broad array of courses on the psychological, sociological, historical, and textual aspects of religions, both living and dead, both familiar and foreign. For example, a student may study Hinduism, Islam, Christianity, Norse religion, Greco-Roman religion, or the sociological aspects of religions. Reading skills and critical thinking skills are important and will be further developed in the courses.

The minor is excellent preparation for a career in the professions (law, medicine), and many students use this classical humanities topic to augment a major in the pure sciences.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (3 credits)

Select 3 credits from RL ST 001 GH;US;IL(3), RL ST 003 GH;US;IL(3), or RL ST 004 GH;US;IL(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits (at least 6 credits at the 400-level) in Religious Studies (Sem: 3-8)

## **Recreation, Park, and Tourism Management Minor**

*University Park, College of Health and Human Development (RPTM)*

Contact: Meredith Chaney, [mac178@psu.edu](mailto:mac178@psu.edu) 814-863-9776

The minor in Recreation, Park, and Tourism Management provides an introduction to recreation/leisure services, and emphasizes professional skills essential for successful delivery of these services. Examples of settings offering recreation/leisure services include resorts, theme parks, convention centers, sports and fitness facilities, private corporations, nonprofit agencies, governmental agencies (municipal, state, and federal levels), armed services, colleges and universities, correctional facilities, camps, public parks, nature centers, hospitals and other health care agencies.

Students who minor in Recreation, Park, and Tourism Management gain knowledge and competencies in recreation leadership, program development and implementation, and administration of recreation services. In addition, students explore the relevance of recreation and leisure in their own lives. Support courses enable the student to focus on specialized services, such as commercial recreation and tourism, community recreation, park management, environmental interpretation, or therapeutic recreation.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 20 credits

**PRESCRIBED COURSES** (14 credits)

RPTM 101(2), RPTM 120 GS(3) (Sem: 1-4)

RPTM 236(3), RPTM 356(3), RPTM 410(3) (Sem: 3-6)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits three of which must be from 400-level RPTM courses (Sem: 5-8)

## **Russian Translation Minor**

*University Park, College of the Liberal Arts (RUS T)*

The Russian Translation minor is designed to offer, within the context of a liberal education, specialized skills in technical translation from the Russian language. The curriculum is career-oriented and requires competence in a technical field or fields in addition to the language skill. The student will select such a field or fields in accordance with his or her special interests and in consultation both with an adviser and with persons directly involved with the field chosen.

The Department of Germanic and Slavic Languages and Literatures offers an array of courses in Russian language, literature, and culture. Study abroad in Russia at St. Petersburg University under the University's study abroad program is available. For the Russian Translation minor, students must take RUS 400, RUS 412, and an additional 12 credits of Russian, 3 at the 400 level and 9 at the 200 level or higher, for a total of 18 credits.

The Russian Translation minor opens employment opportunities for its graduates in fields and professions where proficiency in one or more foreign languages is desirable or required.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

RUS 400 IL(3), RUS 412 IL(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 9 credits of Russian courses at the 200 level or higher (Sem: 5-8)

Select 3 credits of 400-level Russian courses (Sem: 5-8)

## Russian Minor

*University Park, College of the Liberal Arts (RUS)*

The Russian minor is designed for students who want to study the language, literature, and culture of Russia. Russian is spoken through the former Soviet Union and widely understood in the countries of Eastern Europe. The Department of Germanic and Slavic Languages and Literatures offers an array of courses in Russian language, literature, and culture. Study abroad in Russia at St. Petersburg University under the University's study abroad program is available. For the Russian minor, students must accumulate 18 credits (9 of them at the 400 level) in Russian. The Russian minor leads to various employment opportunities. Recipients of the Russian minor have found employment with businesses having contact with the former Soviet Union, with various agencies of the U.S. government, in the educational, journalistic and publishing fields, and in the travel industry.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

**PRESCRIBED COURSES** (7 credits)

RUS 100 GH;IL(3), RUS 200 IL(4)

## Russian Area Studies Minor

*University Park, College of the Liberal Arts (RUSSA)*

The Russian Area Studies minor is an interdisciplinary program supervised by the Center for Russian and East European Studies and the Department of Slavic and East European Languages designed to combine a regional specialization with an academic disciplinary major. The minor may be combined with any undergraduate major in the University. It requires 15 credits in approved Area Studies courses (6 must be at the 400 level or above), 12 credits in beginning Russian language or the equivalent, and 6 credits of Russian language at the 200 level or above, as well as the baccalaureate degree and departmental major requirements of the student's choice.

The minor helps prepare students for further academic work in the Russian area at the graduate level or to pursue careers as area specialists in commerce, industry, journalism, education, and various governmental and international agencies.

Only courses in which the student earns a grade of C or better may be counted toward fulfillment of the requirements of the minor. The Center for Russian and East European Studies awards a certificate in Russian Area Studies to students successfully completing all the requirements of the program.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21-33 credits

**ADDITIONAL COURSES** (15-27 credits)

RUS 001(4), RUS 002(4), RUS 003(4) or RUS 011(6), RUS 012(6) (Sem: 1-6)

Select 6-9 credits in humanities from HIST 142 GS:IL(3), HIST 434 IL(3), RUS 141W IL(3), or RUS 142Y IL(3) (Sem: 1-8)

Select 6-9 credits in the social sciences from ECON 472 GS(3), PL SC 413(3), or PL SC 452(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of RUS 200-level courses or above (Sem: 3-8)

## **Science, Technology, and Society Minor**

*Intercollege Program (S T S)*

This interdisciplinary minor, administered jointly by the College of Engineering and the College of the Liberal Arts, is designed for students in every curriculum at the University. The S T S courses help students integrate their other courses within the framework of the relationships of science, technology, and society. This minor enables students to examine critically the impact of scientific investigation and technological development on society's values, priorities, and institutions, and alternatively the influence human needs have upon scientific and technological activities.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits

**PRESCRIBED COURSE** (3-6 credits)

S T S 496(3-6) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (15-18 credits)

Select 9-12 credits from S T S courses (at least 6 credits must be at the 400 level) (Sem: 1-8)

Select 6 credits in consultation with an adviser. These courses may be courses that are also used to fulfill either major or college requirements. (Sem: 1-8)

## Supply Chain and Information Sciences and Technology Minor

*University Park: Smeal College of Business and College of Information Sciences and Technology (SCIST)*

The minor in SCIST is structured to provide students not majoring in Supply Chain & Information Systems (SC&IS) or Management Information Systems (M I S) with the opportunity to develop working knowledge of information technology, supply chain management, and their interdisciplinary synergies. The joint minor is designed for professional careers in business, information systems, software development, consulting, and government. The successful minor must, at a minimum, possess basic knowledge of quantitative techniques, computer applications, and microeconomics.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (12 credits)

IST 110 GS(3), IST 210(3), IST 220(3) (Sem 1-7)

SCM 301(3) (Sem: 5-6)

**ADDITIONAL COURSES (6 credits)**

## Sexuality and Gender Studies Minor

*University Park, College of the Liberal Arts (SGS)*

The minor in Sexuality and Gender Studies addresses human sexuality and gender as they have been conceptualized and investigated by diverse disciplines: humanities (including history and cultural studies), behavioral and social sciences, biological sciences, and visual and performance arts. Courses in the minor require students to explore scholarship and research on sexuality, sexual orientation, and gender across the lifespan, across cultures, and throughout history. Developing students' critical skills in a variety of disciplines, courses in the minor cover theories of sexuality and gender; sexual orientation; lesbian, gay, bisexual, and transgender movements; the history of sexual norms; queer theory; gender identity; and impact of gender identities and erotic orientations on the arts; etc.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

ENGL 245 GH;US(3) and HD FS/WMNST 250 US(3) (Sem: 1-4)

**ADDITIONAL COURSES** (12 credits)

In order to fulfill the interdisciplinary nature of the minor, students must study both in arts and humanities and in sciences. Students are required to complete a total of at least 12 credits from the two categories below: a minimum of 3 credits from humanities and the arts and a minimum of 3 credits from the sciences. Completion of the minor also requires at least 6 credits at the 400 level in either humanities and the arts or in the sciences (Sem: 1-8). With the permission of the person in charge of the minor, "Special Topics" courses may be substituted for courses listed below.

### **A. Sexuality studies in humanities and the arts:**

ENGL 225 GA;GH(3), ENGL 227 GH;US;IL(3), HIST/WMNST 116 GS;US;IL(3), HIST/WMNST 166 GH;US(3), HIST/WMNST 466 US;IL(3), PHIL 014 GH;US(3), WMNST 301 GH;US;IL(3), WMNST 400 US;IL(3) (Sem: 1-8)

### **B. Sexuality studies in the sciences:**

AF AM/SOC/WMNST 103 US(3), AF AM/WMNST 364 GS;US(3), ANTH 216 GN;GS(3), ANTH 416(3), ANTH 474(3), ANTH/WMNST 476W(3), BB H 146 GHA(3), BB H 251 US(3), BB H 315 US(3), BB H 446(3), BIOL 177 GN(3), GEOG/WMNST 426Y US;IL(3), HD FS 405 US(3), PSYCH 231 GS;US(3), PSYCH 422(3), PSYCH 479/WMNST 471 US(3), OR SOC/WMNST 110 GS;US(3) (Sem: 1-8)

## Six Sigma Minor

*University Park, College of Engineering (SIGMA)*

Six Sigma has been increasingly internalized by companies involved in manufacturing, health care, and service industries. The Six Sigma process has also been used to address environmental concerns such as water quality and energy conservation. Thus, this minor is designed for students who are interested in the Six Sigma statistical methodology for increasing productivity and enhancing quality. The minor will provide students with an understanding of how business models are changing in response to globalization and how the Six Sigma process and product improvement methodology is thus a vehicle for industry prosperity in this climate. Students completing the minor will develop their analytical and statistical skills, and gain a competitive advantage in the work place.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (18 credits)

I E 305 (3), I E 322 (3), I E 323 (3) (Sem: 5-6)

I E 433 (3), I E 434 (3), I E 436 (3) (Sem: 7-8)

## Sociology Minor (SOC)

Contact: Abington College, Manohar Singh, [m.singh@psu.edu](mailto:m.singh@psu.edu); Altoona College, Karyn McKinney, [kdm12@psu.edu](mailto:kdm12@psu.edu); Behrend College, Nicole Shoenberger, [nas25@psu.edu](mailto:nas25@psu.edu); Capital College, Kenneth Cunningham, [kuc1@psu.edu](mailto:kuc1@psu.edu); Penn State Fayette, Russ Filburn, [rrf1@psu.edu](mailto:rrf1@psu.edu); Penn State Schuylkill, Salih Hakan Can, [shc11@psu.edu](mailto:shc11@psu.edu); College of the Liberal Arts, Sal Oropesa, [rso1@psu.edu](mailto:rso1@psu.edu)

The sociology minor allows students to explore the wide range of topics, social groups, and social interactions studied by sociologists. From social inequalities and social problems to the familiar institutions of family, school, religion, and government, the diversity of courses available allows sociology minors to explore courses relevant to their interests. The courses also provide multiple viewpoints, studying the intimate interactions of families and small groups and the complex interactions of global economies and political alliances. Requiring a minimum of 18 credits in sociology, including Introductory Sociology (SOC 001) and two courses at the 400 level, students have flexibility in choosing a set of courses for their sociology minor.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

SOC 001 GS(3) (Sem: 1-6)

**SUPPORTING COURSES AND RELATED AREAS** (15 credits)

Select 15 credits in sociology; at least 6 of those credits must be at the 400 level (Sem: 1-8)

Last Revised by the Department: Fall Semester 2001

Editorial: 3/23/07

## Spanish Minor (SPAN)

Contact: Altoona College, Roselyn Costantino, [rx19@psu.edu](mailto:rx19@psu.edu); Behrend College, Soledad Traverso, [sxt19@psu.edu](mailto:sxt19@psu.edu); Berks College, Rosario Torres, [rzt1@psu.edu](mailto:rzt1@psu.edu); College of the Liberal Arts, Margaret (Peggy) Blue, [mmb21@psu.edu](mailto:mmb21@psu.edu)

A grade of C or better is required for all courses in the minor. Courses that do not require knowledge of Spanish may not be counted toward the minor.

*Scheduling recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

SPAN 100(3)\*, SPAN 200(3)\* (Sem: 2-8)

**ADDITIONAL COURSES** (3 credits)

SPAN 215(3) or SPAN 253W(3) (Sem: 2-8)

**SUPPORTING COURSES AND RELATED AREAS** (9 credits)

Select 3 credits from the following: SPAN 210(3), SPAN 220(3), SPAN 300(3), SPAN 305(3), SPAN 353(3), SPAN 354(3), SPAN 355(3), SPAN 356(3) (Sem: 2-8)

Select 6 credits from the following: SPAN 410(3), SPAN 412(3), SPAN 413(3), SPAN 414(3), SPAN 415(3), SPAN 418(3), SPAN 420(3), SPAN 439(3), SPAN 440(3), SPAN 472(3), SPAN 476(3), SPAN 490(3), SPAN 491(3), SPAN 497(3) (Sem: 5-8)

SPAN 199, 299, 399, and 499 (Study Abroad - Spanish) and SPAN 197, 297, 397, 497 (Special Topics Courses) may also be applied to the Spanish minor and will be substituted for the appropriate course by the Spanish minor advisor. All courses taken abroad must be taught in Spanish.

NOTE: SPAN 130, 131, 230, 231 and any course that does not require a knowledge of Spanish. DO NOT count toward the Spanish minor.

\* Heritage speakers (students with Spanish language in family background) and native speakers of Spanish should take SPAN 100A and SPAN 301 instead of SPAN 100 and SPAN 200. May not take SPAN 410.

## Special Education Minor

*Penn State Berks - Carole Roberts, ckr10@psu.edu  
University Park, College of Education (SPLED)*

PROFESSOR Pual Riccomini, *Program Coordinator*  
PROFESSOR Paul Riccomini, *in charge of major*  
PROFESSOR David McNaughton, *in charge of minor*

This minor provides undergraduate students with the opportunity for concentrated work in instructional practices to support the achievement of students with special education needs in general education classrooms. Students will learn strategies for creating a positive classroom environment that will promote student growth and achievement, effective instructional practices for students with special education needs, and techniques for assessing the academic progress of students. The targeted instructional practices have been demonstrated to be effective both with students with and those without special education needs.

The minor in Special Education responds to the growing need to provide appropriate instructional services to students with special education needs in general education classrooms.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 24 credits

**PRESCRIBED COURSES** (12 credits)

EDPSY 014(3) (Sem: 1-4)

SPLED 400(4), SPLED 419(2), SPLED 461(3) (Sem: 5-8)

**ADDITIONAL COURSES** (12 credits)

EDPSY 010 GS(3), HD FS 229 GS(3) or HD FS 239 GS(3) (Sem: 1-4)

SPLED 403A(3) or SPLED 403B(3) (Sem: 5-8)

Select 6 credits from CSD 146 US;IL(3), CSD 218(3), CSD 269 GS;US;IL(3), CSD 300 US;IL(3), RHS 100 GS;US;IL(3), RHS 402(3), or RPTM 277 US(3) (Sem: 5-8)

## Security and Risk Analysis Minor

*Penn State Berks*

*University College: Penn State Beaver, Penn State Mont Alto, Penn State New Kensington, Penn State Worthington Scranton, World Campus  
University Park, College of Information Sciences and Technology (SRA)*

The minor in Security and Risk Analysis (SRA) is intended to familiarize students with the general frameworks and multidisciplinary theories that define security and related risk analysis. Course work will engage students in the challenges and problems of assuring information confidentiality and integrity (e.g., social, economic, technology, and policy issues) as well as the strengths and weaknesses of various methods for assessing and mitigating associated risk in the students' major field.

The minor provides a grounding in analysis and modeling used in information search, visualization and creative problem solving. This knowledge is set in the context of legal, ethical and regulatory issues of security including analysis of privacy and security law, internal control standards, regulatory policies and basic investigative processes and principles. Such understanding overviews the information technology that plays a critical role in identifying, preventing and responding to security-related events in the student's major field.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 21 credits [\[1\]](#)

(At least 6 credits must be at the 400 level.)

**PRESCRIBED COURSES** (15 credits)

IST 110 GS(3), SRA 111 GS(3), SRA 211(3), SRA 221(3) (Sem: 1-6)

IST 452(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits in consultation with the SRA Minor adviser from the following areas: Risk Management, Network Security, or Cyber Forensics. At least 3 credits must be at the 400 level. (Sem: 5-8)

**[1]** A student enrolled in this major must receive a grade of C or better, as specified in Senate Policy 82-44.

## Statistics Minor

*Penn State Erie, The Behrend College (STABD)*

*Contact(s): Michael Rutter, mar39@psu.edu*

The minor in Statistics (STABD) provides students with a strong statistical background for careers in biology, actuarial science, engineering, mathematics; or for graduate studies in many fields. The minor is designed to make students proficient in the collection, interpretation and analysis of data.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 28-30 credits

**PRESCRIBED COURSES** (20 credits)

MATH 140 GQ(4), MATH 141 GQ(4) (Sem: 1-2)

STAT 301 GQ(3), STAT 401(3), STAT 461(3), STAT 462(3) (Sem: 3-8)

**ADDITIONAL COURSES** (2-4 credits)

Select 2-4 credits from MATH 230(4) or MATH 231(2) (Sem: 3-4)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of 400-level STAT or related MATH courses (Sem: 5-8)

(No more than three credits from 495 courses can be used to satisfy this requirement.)

## Sustainability Leadership

Intercollege Program (SUSLD)

University College, Karen Kackley-Dutt, [kek18@psu.edu](mailto:kek18@psu.edu)

The Intercollege Minor in Sustainability Leadership has been designed for students who wish to promote environmental, social, and economic sustainability in their personal and professional lives. Administered by a University-wide faculty committee, the program provides an opportunity for students in any academic major to develop key competencies that will be the foundation for their growth as sustainability leaders in their civic and professional endeavors. Students cultivate these sustainability leadership competencies in the context of thematic tracks that allow them to focus on particular topics within sustainability studies. The competencies cut across all thematic tracks so that all students in the minor will develop capabilities in: systems thinking; application of sustainability concepts, metrics and analysis; ethics; self-knowledge and leadership; change agency; and collaboration. While these competencies are developed in the context of a specific thematic track, they are transferrable to numerous settings and problems, and graduates of the Sustainability Leadership program will be able to apply them to ethical, social, business and civic issues that they encounter after leaving the University.

All students in the minor are required to take the introductory course, Foundations of Leadership in Sustainability (SUST 200). Within each thematic track, students select twelve credits related to the chosen theme in sustainability leadership. These must include three credits of approved leadership coursework (scholarly explorations of leadership concepts related to the chosen theme) and three credits that offer an immersive experience in sustainability (that is, an opportunity to engage, observe and learn in depth about sustainability challenges and solutions related to the student's chosen theme). The final three credits for each student in the minor is the 400-level Sustainability Leadership Capstone experience. Capstone selection is in consultation with the student's major advisor, the minor advisor or coordinator, and the course instructor. The capstone coursework must be relevant to the chosen theme, must have an approved capstone project that includes scholarly applied or theoretical research on a current issue in sustainability leadership, and must include a critical synthesis of the student's minor curriculum and an articulation of its crosscutting themes.

### Design for Sustainable Communities Track

This track allows students to investigate sustainability and leadership in community and urban planning; courses focus on both technical design and community development.

### Educating for Sustainability Track

This track provides students with the opportunity to explore a variety of approaches to sustainability education and leadership in sustainability.

### Humanistic Understanding of Sustainability Track

Through reading and analysis of significant sustainability-focused texts in philosophy, history, literature, and the social sciences students delve into the evolution and history of thinking on sustainability and leadership in sustainability.

### Sustainability and Food Systems Track

Students in this track learn about the nature of food and sustainable food systems, and about sustainability policy and leadership issues related to food, including food security, sustainable production practices, distribution, and safety.

Applicants to the minor present a proposed plan of study for the chosen minor track. The proposed plan of study must be approved by the student's major faculty advisor and by the minor advisor. Entrants to the minor are required to have declared a major field of study.

New Sustainability Leadership minor tracks will be developed over time, and students are encouraged to consult with the minor coordinator early in their program planning, in order to be aware of upcoming additions to the curriculum. In exceptional cases, and by written approval of the program coordinator and major advisor, students may propose a specialized track of their own design.

Students may apply toward the minor no more than six credits from their major requirements and no more than six credits from their other minor requirements. The Sustainability Leadership Capstone credits may not be used simultaneously to fulfill capstone or thesis requirements for any other degree program. All minor programs must include at least six credits at the 400 level. A grade of C or higher is required for all courses in the minor.

### REQUIREMENTS FOR THE MINOR: 18 credits [1]

#### PRESCRIBED COURSES (3 credits)

SUST 200(3) (Sem: 2-6)

#### ADDITIONAL COURSES (6 credits)

Take the following 6 credits, or approved substitutions, in consultation with the minor advisor:

SUST 295 or 495, or approved substitution that provides an immersive sustainability experience (3) (Sem: 5-7)

SUST 496 or approved substitution that offers a capstone project in sustainability leadership (3) (Sem: 7-8)

#### SUPPORTING AND RELATED COURSE AREA (9 credits)

Allowable courses in this area vary by Sustainability Leadership Thematic Track. See Specifics below.

*At least three credits from the Additional Courses or the Supporting Courses must be from outside the student's major department.*

Requirements for Sustainability Leadership Minor Thematic Tracks

### Design for Sustainable Communities Track

(Allowable courses in this area vary by Sustainability Leadership Thematic Track. See specifics below.)

Select 6 credits from the following course list, or approved substitutions (6 credits)

C E 410W Sustainable Residential Subdivision (3)

CED 152 Community Development Concepts and Practice (3)

CED 309 Land Use Dynamics (3)

CED 409 Land Use Planning and Procedure (3)

CED 427W Society and Natural Resource (3)

ENVE 460 Environmental Law (3)

GEOG 120 (GS;US;IL) Urban Geography: A Global Perspective (3)

GEOG 429 (US;IL) Geographic Perspectives on Global Urbanization (3)

GEOG 436 Ecology, Economy, and Society (3)

GEOG 439 Property and the Global Environment (3)

LARCH 065 (GA;US;IL) Built Environment and Culture (3)

LARCH 241 Ecological Principles for Landscape (3)

LARCH 311 Design and Theory III: Regional Planning and Landscape Systems (4)

SOILS 422 Natural Resources Conservation and Community Sustainability (3)

Select one of the following leadership courses or approved substitutions, in consultation with the SUSLD advisor (3 credits)

AEE 465 Leadership Practices: Power, Influences, and Impact (3)

ARCH 412 Integrative Energy and Environmental Design (3)

CED 375H Community, Local Knowledge, and Democracy (3)

CEDEV 452 Community Structure, Processes and Capacity (3)

### Educating for Sustainability Track

Select 6 credits from the following course list, or approved substitutions (6 credits):

AEE 350 Teaching Methods for Agricultural and Environmental Laboratories (3)

AEE 400 Global Agriculture Education (3)  
 AEE 412 Methods of Teaching Agriculture and Environmental Science (4)  
 AEE 450 Program Design and Delivery (3)  
 EDTHP 435 Child Labor and Education in the Global Economy (3)  
 EDTHP 440 (CI ED 440) Introduction to Philosophy of Education (3)  
 RPTM 325 Principles of Environmental Interpretation (3)  
 RPTM 430 Environmental Education Methods and Materials (3)

Select 3 credits from the following leadership courses, or approved substitution, in consultation with the SUSLD advisor (3 credits)

AEE 201 (GS) Interpersonal Skills for Tomorrow's Leaders (3)  
 AEE 311 Developing Youth Leadership through Organization and Program Structure (3)  
 AEE 360 Leadership Development for Small Groups (3)  
 AEE 460 Foundations in Leadership Development (3)  
 AEE 465 Leadership Practices: Power, Influences, and Impact (3)  
 EDLDR 409 Leadership Studies in Popular Film (3)  
 EDLDR 480 Introduction to Educational Leadership (3)  
 PHIL 119 (GH) Ethical Leadership (3)  
 RPTM 236 Leadership and Group Dynamics in Recreation Services (3)  
 SOC 469 Techniques in Small Group Facilitation (1-4)

### Humanistic Understanding of Sustainability Track

Select 6 credits from the following courses, or approved substitutions (6 credits):

CMLIT 435 (IL) Cultures of Globalization (3)  
 CMLIT 455 (IL) Ethics, Justice, and Rights in World Literature (3)  
 ENGL 180 (GH) Literature and the Natural World (3)  
 ENGL 181A (GH;US) Adventure Literature: Exploring the Chesapeake Bay (4.5)  
 ENGL 181B (GH;US) Adventure Literature: Exploring Cape Cod (4.5)  
 ENGL 181C (GH;US) The Beach: Exploring the Literature of the Atlantic Shore (4.5)  
 ENGL 181D (GH;US) Adventure Literature: Exploring the Literature of American Wilderness (3)  
 ENGL 424 Creative Writing and the Natural World (3)  
 ENGL 430 American Renaissance (3)  
 HIST 109 (GH;US) Introduction to U.S. Environmental History (3)  
 HIST 110 (GH;IL) Nature and History (3)  
 HIST 111 (GH;US) American Food System: History, Technology, and Culture (3)  
 HIST 151 (GS;US) (S T S 151) Technology and Society in American History (3)  
 HIST 453 American Environmental History (3)  
 PHIL 013 (GH) Philosophy, Nature, and the Environment (3)  
 PHIL 118 (GH) Introduction to Environmental Philosophy (3)  
 PHIL 403 Environmental Ethics (3)

Select 3 credits from the following leadership courses, or approved substitution, in consultation with the SUSLD advisor (3 credits)

CAS 404 Conflict Resolution and Negotiation (3)  
 CAS 409 (PL SC 409) Democratic Deliberation (3)  
 PHIL 119 (GH) Ethical Leadership (3)  
 PL SC 112 (GS) Ethics in Citizenship, Politics, and Government (3)  
 PUBPL 305 Leadership Studies (3)

### Sustainability and Food Systems Track

Select one of the following food/nutrition courses, or approved substitutions (3 credits):

NUTR 251 (GHA) Introductory Principles of Nutrition (3)  
 FD SC 406 Physiology of Nutrition (3)

Select one of the following food system courses, or approved substitutions (3 credits):

AG BM 102 Economics of Food Systems (3)  
 AGECE 134 (GN) (R SOC 134) Sustainable Agriculture Science and Policy (3)  
 AGECE 144 (GN) Principles and Practices of Organic Agriculture (3)  
 E R M 210 (GN) Environmental Factors and Their Effect on Your Food Supply (3)  
 HIST 111 (GH; US) (NUTR 111 ) American Food System: History, Technology, and Culture (3)  
 NUTR 430 Global Food Strategies: Problems and Prospects for Reducing World Hunger (3)

Select 3 credits from the following leadership courses, or approved substitution, in consultation with the SUSLD advisor (3 credits)

AEE 201 (GS) Interpersonal Skills for Tomorrow's Leaders (3)  
 AEE 465 Leadership Practices: Power, Influences, and Impact (3)  
 PHIL 119 (GH) Ethical Leadership (3)  
 PL SC 112 (GS) Ethics in Citizenship, Politics, and Government (3)  
 RPTM 236 Leadership and Group Dynamics in Recreation Services (3)

## Technical Sales Minor

*Penn State Erie, The Behrend College (TCHSL)*

*Contact(s): Diane Parente, dhp3@psu.edu*

This minor is designed to accommodate undergraduates enrolled in engineering and engineering technology who wish to augment their majors with further studies in industrial or technical sales. This minor is designed for non-business majors. The objective of the minor is to acquaint the technical students of these majors with the issues and methods associated with industrial or technical sales. Relevant studies include principles of management, operations management, supply chain management, marketing, logistics systems, procurement, personal selling or business-to-business marketing, and project management. Students who complete the minor will be positioned for career opportunities as direct sales engineers who play a key role in selection, purchase, installation and maintenance of technical products by selling technology and engineering solutions, or as manufacturing representatives who independently form contracts in exclusive marketing territories for multiple small manufacturers of compatible but not competing technical products.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 19 credits

Students are required to have a technically-oriented major (i.e. engineering, engineering technology, physical sciences, or other major as approved).

**PRESCRIBED COURSES:** (9 credits)

MGMT 301(3) (Sem: 5)

MKTG 301(3), SCM 301(3) (Sem: 6)

**ADDITIONAL COURSES:** (10 credits)

SCM 200 GQ(4) or STAT 200 GQ(4) (Sem: 5)

MKTG 410(3) or marketing elective as approved (Sem: 7-8)

Select 3 credits from the following list: MGMT 409(3), MGMT 410(3), SCM 455(3), SCM 460(3) (Sem: 7-8)

## Teaching English to Speakers of Other Languages Minor

*University Park, College of the Liberal Arts (TESOL)*

The minor in Teaching English to Speakers of Other Languages (TESOL) provides students, regardless of academic major, with basic professional knowledge and skills in the teaching of English as a second language (ESL) in adult programs in the United States and English-as-a-foreign-language (EFL) in settings abroad. It is also excellent preparation for graduate work in TESOL and Applied Linguistics.

The program of study includes an introduction to the study of language use, culture, and social interaction from a variety of perspectives, to the role of English in globalization processes and to how globalization changes the structure, norms, and usage of English. It also provides students with an overview of current theories and practices in the teaching of English language and culture, and practical experiences in and basic tools for planning, delivering, and evaluating instruction.

Individuals who obtain a minor in TESOL may participate in one of the teaching exchanges sponsored by the Department of Applied Linguistics upon graduation. They may also find teaching positions in private language institutes or as private language tutors in the United States and abroad and well as through organizations such as the Peace Corps and the Fulbright Exchange.

This minor does not duplicate other undergraduate degree programs within the department, college or university. It may be pursued concurrently with any undergraduate major.

The minor consists of 18 credit hours. All students are required to take four three-credit courses, for a total of 12 credits in the study of language use, culture and interaction, English as a global language, functional grammar and teaching methods.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** ( 12 credits)

## Theatre Minor

*Penn State Berks - James Brown, jnb20@psu.edu  
University College, Penn State Schuylkill, Penn State York  
University Park, College of Arts and Architecture (THEA)*

The Theatre minor is designed to be an enhancement to a major area of study and/or personal enrichment. The minor should be particularly attractive to students in the humanities (English), communication (Film, Journalism), and the arts (Music, Architecture). The minor may also be attractive to students who need to demonstrate a wide range of interests.

The Theatre minor requirements total 18 credits. Theatre 100 GA;US;IL, a required course in the minor, is an experiential survey of all aspects of the living theatre, as presented by a resident company of theatre artists. Theatre 410, an advanced script analysis course, is also required. Students choose one course from the approved list of theatre history courses and one course from the approved list of design/technical courses. These supporting courses place the literature and aesthetic in historical, social, and political perspective. Students elect 6 theatre credits as additional courses. Typical supporting courses include: Theatre 102 GA, fundamentals of acting; THEA 208 GA;US;IL, Workshop: Theatre in Diverse Cultures; and advanced design or theatre history classes.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

THEA 410(3) (Sem: 5-8)

**ADDITIONAL COURSES** (9 credits)

THEA 100 GA;US;IL(3) or THEA 105 GA(3) (Sem: 1-2)

Select 3 credits from THEA 130(3), THEA 131(3), or THEA 150(3) (Sem: 1-4)

Select 3 credits from THEA 401Y IL(3), THEA 405 US(3), THEA 408 US(3), THEA 412 US(3), THEA 454(3), THEA 464(3), or THEA 465(3) (Sem: 1-4)

**SUPPORTING COURSES AND RELATED AREAS** (6 credits)

Select 6 credits of THEA courses (Sem: 3-8)

## Teaching and Learning Online Minor

*University Park, College of Education (TLO)*

This minor is designed for students who are interested in a thorough understanding of online teaching and learning—that is teaching and learning experiences with primary delivery of content through the Internet with use of a variety of advanced technological tools to include but not limited to course management systems, social networking, podcasts, discussion forums, blogs, tablets, mlearning, and other advanced instructional tools. This minor is intended for all education majors and is particularly focused on those interested in opportunities in the future to teach online courses, blended courses, or within an entirely online cybercharter or similar institution. The minor includes two introductory survey courses, one on the impact of online learning globally and one on educational communications. The four remaining courses are focused on distance education broadly construed, design skills, working with course management systems, and special attention to K-12 cybercharter and online delivery. In conjunction with the student's major in Education, the minor prepares the student for entry to a professional position as a teacher in online and blended educational settings at all levels. Majors complemented by this minor would include but not be limited to Agricultural Education, Art Education, Childhood and Early Adolescent Education, Education and Public Policy, Kinesiology (Teacher Education Option), Music Education, Rehabilitation and Human Services, Secondary Education, Special Education, Workforce Education, and World Languages Education.

A grade of C or better is required for all courses in the minor.

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (15 credits)

ADTED 470(3), LDT 100 GS/IL(3), LDT 101(3), INSYS 415B(3), INSYS 432(3), INSYS 433(3) (Sem: 3-6)

**Watersheds & Water Resources Minor***University Park, College of Earth and Mineral Sciences (W W R)*

Watersheds are important landscape features that control the biogeochemistry of natural waters. This interdisciplinary minor enables students to learn the fundamental processes governing the transport and chemical evolution of surface and subsurface waters. It provides a complement to elective and required coursework in earth sciences, resource management, wastewater treatment, and/or environmental planning. Students in this program will learn to apply fundamental concepts of chemistry, biology, geoscience, and landscape evolution to processes operating at the watershed scale. Learning objectives for the minor include excellence in written and oral expression, the ability to collect and interpret data from dynamic natural systems, and rigor in scientific thought.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**ADDITIONAL COURSES** (18 credits)

Select 18 credits from the WWR committee's approved list of courses, which includes but is not limited to courses listed below (at least 6 credits must be taken at the 400 level):

B E 307(3), B E 467(4), A S M 217(3), A S M 327(3), C E 370(3), C E 371(3), C E 461(3), C E 473(3), C E 475(4), CHEM 202(3), CHEM 402(3), E R M 411(3), E R M 435(3), E R M 450(3), ENVE 411(3), ENVE 415(3), ENVSE 408(3), FOR 470(3), FOR 471(1), GEOG 431(3), GEOSC 201(4), GEOSC 340(3), GEOSC 412(3), GEOSC 413W(3), GEOSC 419(3), GEOSC 445(4), GEOSC 452(3), METEO 417(3), METEO 448(3), SOILS 405(3), SOILS 418(3), W F S 410(3), W F S 422(3) (Sem: 5-8)

## Women's Studies Minor (WMNST)

*Contacts:* Abington College, Tom Smith, [trs8@psu.edu](mailto:trs8@psu.edu); Altoona College, Le Ann De Reus, [lad12@psu.edu](mailto:lad12@psu.edu); Penn State Behrend College, Dr. Sarah Whitney, [sew17@psu.edu](mailto:sew17@psu.edu); Berks College, Laurie Grobman, [leg8@psu.edu](mailto:leg8@psu.edu); Penn State Brandywine, Phyllis Cole, [phc2@psu.edu](mailto:phc2@psu.edu); Penn State DuBois, Jacquelyn Atkins, [jka1@psu.edu](mailto:jka1@psu.edu); Penn State Mont Alto, Alice Royer, [axr24@psu.edu](mailto:axr24@psu.edu); College of the Liberal Arts, Mindy Boffemmyer, [mub21@psu.edu](mailto:mub21@psu.edu); Penn State York, Dr. Deborah Eicher-Catt, [dle4@psu.edu](mailto:dle4@psu.edu)

This interdisciplinary minor is designed to develop a broad understanding of the study of women and women's perspectives in all areas of academic scholarship. The primary focus is on feminist analyses of women's lives, women's social, cultural, and scientific contributions, and the structure of sex/gender systems. The interdisciplinary and inclusive nature of the field is reflected in a curriculum that includes courses cross-listed with a wide variety of departments, courses that deal with aspects of women's lives throughout history, and courses that recognize the diversities of culture, race, religion, ethnicity, age, disability, and sexual orientation. The Women's Studies minor emphasizes the development of critical and analytical skills, creative approaches to problem solving, and the ability to articulate productive alternatives.

Women's Studies minors have a definite career advantage, and can be successful in a wide variety of career paths. Some of these include legal advocacy, counseling, journalism, public relations, management, nonprofit administration, teaching, medicine, politics, or art. In addition, many alumnae/i are currently studying in professional, law, or graduate schools.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (3 credits)

WMNST 301 GH(3) (Sem: 1-4)

## Women's Studies Minor

*Capital College (WOMST)*

Contact: Katie Robinson, [kdr12@psu.edu](mailto:kdr12@psu.edu)

This interdisciplinary minor provides students with an opportunity to develop a broad understanding of women's perspectives and gender issues and to integrate that understanding into major areas of academic study. A total of 18 credits must be taken as part of the student's program; at least 9 of these credits must be taken at Penn State Harrisburg and 6 must be at the 400 level. Students must receive a grade of C or better in all courses in the minor.

A student seeking admission to the Women's Studies minor must first be admitted to a Division/School major at Penn State Harrisburg. A Program of Study must be completed in consultation with the student's major adviser and submitted to the Women's Studies Coordinating Committee, which will select a Women's Studies adviser for the student. Decisions regarding the appropriateness of courses for the minor will be made by the Women's Studies program. (The major adviser may also serve as adviser to the minor.)

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (6 credits)

WOMST 315(3) [\[76\]](#) (Sem: 1-4)

WOMST 415(3) (Sem: 5-8)

**SUPPORTING COURSES AND RELATED AREAS** (12 credits)

Select 9 credits of Behavioral Sciences and Education, Humanities or Public Affairs. (Sem: 1-8)

Select 3 credits from approved department list of 400-level courses. (Sem: 5-8)

**[76]** Students who have passed WMNST 100 or equivalent with a grade of C or better may, with the permission of the Women's Studies program, take another Women's Studies course on a more specialized topic instead of WOMST 315.

## Writing Minor

*Capital College (WRTNG): Penn State Harrisburg*

Writing is valued as a mode of learning, as a means of expression, and as a skill highly desirable in the workplace. Personal development, interpersonal communication, and professional marketability may all be enhanced by the further study and practice of writing. For these reasons, the Writing minor offers students from virtually every discipline across the University an opportunity to learn more about a wide variety of writing: informative/persuasive, professional, and creative, while improving their own writing skills through hands-on writing experiences. In addition to offering students opportunities to study and practice different types of writing, the minor affords students the opportunity to write for/in different media, producing both print and electronic texts.

For the Writing minor, a total of 18 credits is required. Students may not count courses used to satisfy General Education Writing/Speaking Skills.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES:** 6 credits

ENGL 211(3) (Sem: 3-8)

ENGL 420(3) (Sem: 5-8)

**ADDITIONAL COURSES:** 6-12 credits

*At least 3 credits of Additional/Supporting courses must be taken at the 400 level.*

Select 6-12 credits from ENGL 050 GA(3), ENGL 209(1-6), ENGL 212(3), ENGL 213(3), ENGL 215(3), ENGL 412(3), ENGL 413(3), ENGL 414(3), ENGL 415(3), ENGL 416(3), ENGL 417(3), ENGL 418(3), ENGL 419(3), ENGL 421(3), ENGL 422(3), ENGL 423(3), ENGL 424(3), ENGL 425(3), ENGL 470(3), ENGL 471(3), ENGL 474(3) (Sem: 3-8)

**SUPPORTING COURSES:** 0-6 credits

Select 0-6 credits from a department-approved list (Sem: 5-8)

## Youth and Family Education Minor

*University Park, College of Agricultural Sciences (YFE)*

The Youth and Family Education minor is an interdisciplinary program of study designed to prepare students for work in the Penn State Cooperative Extension or other nonformal education programs.

The minor offers course work from several disciplines and addresses student needs in areas such as nonformal education methods, adult education, leadership, youth programs, and communication methods and media. A period of internship or field experience is required. To complete a bachelor's degree with a minor in Youth and Family Education, a student is required to complete 18 credits from a list of recommended courses. The core program consists of 15 credits. Students are expected to strengthen their expertise by taking at least 3 additional credits from the courses recommended.

A grade of C or better is required for all courses in the minor.

*Scheduling Recommendation by Semester Standing given like (Sem: 1-2)*

**REQUIREMENTS FOR THE MINOR:** 18 credits

**PRESCRIBED COURSES** (15 credits)

AEE 450(3), AYFCE 455(3), AYFCE 495(6), R SOC 305W(3) (Sem: 5-8)

## Certificate Programs

An undergraduate certificate, a formal award showing the satisfactory completion of a postsecondary educational curriculum, is designed primarily for students who are typically beyond the compulsory age for high school.

Certificates are awarded in academic, vocational, and continuing professional education. Penn State does not offer certificates for avocational and adult basic education. Certificates are not certifications. Certifications are awarded by governmental and professional agencies.

Certificates reflect emerging academic areas, necessary professional development requirements, or requirements that do not constitute a degree program. They may be supplements or enhancements to existing degree programs or may be stand-alone. For credit, certificates often provide "step-up" opportunities to degree programs allowing for milestones of progress.

Credit or noncredit certificates are offered. A credit certificate typically consists of between a minimum of 6 and a maximum of 30 credits. Credit courses offered for a certificate require a grade of C or higher. Noncredit courses require satisfactory completion, as defined by the unit offering the certificate.

Requirements for a certificate may be completed at any campus location offering the specified courses for the certificate. All students who enroll in certificates must be defined as Penn State students.

For more information, see policy M-12 at: <http://www.psu.edu/oue/aappm>

Abington College

### **PRE-MEDICAL/HEALTHCARE CERTIFICATE (ABMED)**

Designed for those who have a Baccalaureate degree in a non-science major and decide, post graduation, to apply to medical school. Applicants must have successfully completed two semesters of college calculus before entering. This program concentrates on science course work in biology, chemistry, and physics and can be completed in one year. Each course is offered over 8-weeks with lectures being offered in a hybrid format, meeting face-to-face one night per week with labs being conducted on weekends. This program distinguishes itself from others through the use of 8-week sessions, lectures offered in a hybrid format with in class meetings in the evenings, and labs on Saturdays. Also offered are MCAT preparation and mock interviews.

To earn an undergraduate certificate in PRE-MEDICAL/HEALTHCARE , a minimum of 39 credits is required.

## Africana Studies

Penn State Greater Allegheny

Mildred R. Mickle  
Penn State Greater Allegheny  
412-675-9135  
mrm33@psu.edu

The 15-credit Africana Studies certificate is intended to provide an interdisciplinary approach to both African and African American studies and to instill students with the type of professional and intellectual flexibility that is of high value in a twenty-first century job market. The certificate could enhance majors such as English, psychology, business, engineering, or communications through adding intercultural and/or global expertise. Students are required to take 9 credits of 200-level (or below) courses and 6 credits of 400-level courses from the approved lists.

### Admission Requirements:

Students should complete first the GWS requirement of one of the following (ENGL 15 or ENGL 30), and either HIST 20 or HIST 21.

### List of Courses Included in the Certificate:

9 credits from the following list:

AF AM 101  
AF AM 103/SOC 103/WMNST 103  
AF AM/HIST 210  
AF AM/HIST 211  
AF AM/HIST 250  
AF AM/RL ST 146  
AF AM/RL ST 147

## **ADVANCED INSTRUCTOR DEVELOPMENT FOR PROFESSIONALS**

### **Undergraduate Certificate Program**

Mark Threeton  
301C Keller Building  
University Park, PA 16802  
Phone: 814-863-5361  
Email: mdt177@psu.edu

University Park

### **ADVANCED INSTRUCTOR DEVELOPMENT FOR PROFESSIONALS**

This certificate is designed for the adult learner who would like to gain knowledge of essential advanced instructor development concepts. These adult learners may already possess a degree in an occupational discipline, but need to augment their knowledge and resumes to advance their careers with their current employer or transition into a new job. Adult learners taking this certificate may also be taking post-secondary credit courses for the first time.

To earn an undergraduate certificate in ADVANCED INSTRUCTOR DEVELOPMENT FOR PROFESSIONALS, a minimum of 9 credits is required.

#### **Admission Requirements:**

High school diploma and two years of work experience.

#### **REQUIRED COURSES**

WF ED 270  
WF ED 413  
WF ED 471

**Effective Semester:** Fall 2013

## **ADVANCED CRIMINAL JUSTICE**

### **Undergraduate Certificate Program**

Mary Ann Probst

Altoona College, University Park

### **ADVANCED BUSINESS (ALADBU)**

Penn State's advanced business certificate can help develop a student's skills in spoken communication and quantification. In a very flexible way, students explore functional fields of business. Students who complete the advanced business certificate will have completed almost half of the credits required for Penn State Altoona's associate degree in Business. (2BAAL) Only students who have completed all courses required for the basic business certificate are eligible to earn an Advanced Business Certificate. No course may count toward both the basic certificate and the advanced certificate in business.

To earn an undergraduate certificate in ADVANCED BUSINESS, a minimum of 15 credits is required.

### **PRESCRIBED COURSES**

CAS 100  
MATH 021  
ECON 102 OR ECON 104

### **BASIC CRIMINAL JUSTICE (ALBCJ)**

The Criminal Justice certificate will help students prepare for immediate career opportunities. This 18 credit certificate focuses on the understanding of both our justice system and national government. After concentrating on the dilemmas and controversies presented by the problems of administering justice in a complex society, graduates of this certificate program will have the background to be educated, thoughtful, and intelligent citizens.

To earn an undergraduate certificate in BASIC CRIMINAL JUSTICE, a minimum of 18 credits is required.

### **BASIC BUSINESS (ALBUS)**

Penn State's Basic Business Certificate Program provides you with a solid foundation in essential business concepts and offers a convenient way to "step up" to a degree. The basic certificate program gives you an understanding of management and marketing, and helps you improve your written English. The certificate allows you to customize your learning through a series of business-related electives to meet your specific needs and interests. (Required courses: ENGL 015, MGMT 100 and MKTG 220) Electives nine additional credits select from the following groupings: BA 241 and BA 242 (BA 241 and 242 must be taken together as an elective) or BA 243, LER 100, MIS 103 or MIS 204, IST 110 or SRA 111.

To earn an undergraduate certificate in BASIC BUSINESS, a minimum of 18 credits is required.

### **PRESCRIBED COURSES**

ENGL 015  
MGMT 100  
MKTG 220  
OR MIS 204 OR MIS 103  
OR B A 243 OR B A 241 OR B A 242  
OR IST 110 OR SRA 111  
OR LER 100

B A 241 with B A 242 are equivalent to B A 243. Choose 9 credits from the courses listed after "AND OR"

No Prerequisites Required.

Effective Date: Summer 2009

Expiration Date:

Last Revised by the Department: 11/07/2011

### **CHEMICAL DEPENDENCY PREVENTION AND COUNSELING (ALCDPC)**

The Certificate in Chemical Dependency Prevention and Counseling consists of 18 credits and is offered through Penn State Altoona Education, Human Development and Social Sciences and Penn State Altoona Continuing Education. The certificate introduces students to basic concepts related to chemical dependency, its prevention and treatment, and helping those with problems associated with chemical dependency. This certificate will provide students with the academic background to understand content, models, theories and research relevant to working with chemically dependent persons and their families. Upon completion of a total of 18 credits in the program, students are awarded an academic certificate of achievement from Penn State Altoona.

To earn an undergraduate certificate in CHEMICAL DEPENDENCY PREVENTION AND COUNSELING, a minimum of 18 credits is required.

## Visual and Performing Arts Leadership

### Undergraduate Certificate Program

Dr. Debra Miller  
2809 Saucon Valley Road  
Center Valley, PA 18034  
610-285-5108  
dzm14@psu.edu

Lehigh Valley

### Visual and Performing Arts Leadership (ARTLDR)

The primary goal of the program is to provide students interested in the arts with a basic foundation in the administration of visual or performing arts that will allow them to apply principles of leadership in events and activities (such as summer camps). Students will learn to recognize major styles and periods of the arts in a variety of media, including theater and film. They will write a short screenplay, apply technical aspects of single and multi-camera television production and be able to demonstrate leadership. There is either a Film Track: COMM 150, COMM 250, EDTHP 234H, L A 295 or a Broadcasting Track: COMM 282, COMM 283W, EDTHP 234H, L A 295, and all students will practice team leadership through a summer experience

#### List of Courses\* Included in the Certificate:

COMM 150 or COMM 282  
and COMM 250 or COMM 283W or COMM 242  
and EDTHP 234H  
and L A 295

**Effective Semester:** Summer 2014

## **ASIAN STUDIES**

Abington College, Altoona College, Behrend College, Berks College, Capital College, King of Prussia, Penn State Beaver, Penn State Brandywine, Penn State Carlisle, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazelton, Penn State Lehigh Valley, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, University Park

### **ASIAN STUDIES (ASIAST)**

The objective of the Asian Studies certificate is to help students acquire specialized knowledge of the art, literature, history, politics, and/or religions of Asia. The interdisciplinary certificate would require 12 credits for completion and be available to all majors. This certificate would help energize the general education curriculum at Penn State Behrend, as all requirements could be met by courses that satisfy general education requirements.

To earn an undergraduate certificate in ASIAN STUDIES, a minimum of 12 credits is required.

### **PRESCRIBED COURSES**

12 Credits are required for this certificate. One of the two core 3-credit survey courses, either HIST 174 or HIST 175, must be taken along with 9 credits from an approved list of courses.

Prerequisites Required.

Effective Date: Spring Semester 2010

Expiration Date:

Last Revised by the Department: 11/10/2011

### **COMMUNICATION SKILLS FOR BUSINESS PROFESSIONALS (B COMM)**

The ability to write and speak effectively can set you apart. Presenting your thoughts in a systematic and compelling manner makes others want to listen to you and act on your recommendations. This skill can be crucial to your success. If your communications skills are underdeveloped or need to be polished, this program can help you sharpen your speaking and writing skills. Courses can be applied toward a baccalaureate degree in business or communications or related fields. Students can be enrolled as a non-degree, provisional or a degree seeking student. Students are responsible for meeting all required course prerequisites.

To earn an undergraduate certificate in COMMUNICATION SKILLS FOR BUSINESS PROFESSIONALS, a minimum of 12 credits is required.

### **PRESCRIBED COURSES**

## **BEHAVIORAL HEALTH AND COUNSELING PSYCHOLOGY**

### **Undergraduate Certificate Program**

Dr. Melanie Hetzel\_Riggin  
Penn State Behrend School of Humanities and Social Sciences  
Phone: 814-898-6949  
E-mail: mdh33@psu.edu

Abington College, Altoona College, Behrend College, Capital College, Penn State Beaver, Penn State Brandywine, Penn State DuBois, Penn State Fayette, Penn State Great Valley, Penn State Greater Allegheny, Penn State Hazelton, Penn State Lehigh Valley, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, Penn State York, University Park

### **BEHAVIORAL HEALTH AND COUNSELING PSYCHOLOGY (BH&PSY)**

This 15 credit certificate provides the core information and competencies for students interested in pursuing a position in behavioral health and clinical or counseling psychology. It will be attractive to both psychology majors interested in pursuing clinical psychology and adult students taking courses part time for career advancement. This may also serve as the gateway to a minor or major in psychology. It is consistent with psychology program goals to develop clear career tracks for current students in clinical and counseling psychology.

To earn an undergraduate certificate in BEHAVIORAL HEALTH AND COUNSELING PSYCHOLOGY, a minimum of 15 credits is required.

### **PRESCRIBED COURSES**

PSYCH270  
PSYCH481  
PSYCH495

IN ADDITION TO THE 9 CREDITS OF COURSE WORK LISTED, STUDENTS MAY CHOOSE ANY TWO (6 CREDITS) OF THE FOLLOWING COURSES FOR A TOTAL OF 15 CREDITS FOR THE CERTIFICATE: PSYCH 283, PSYCH 243, PSYCH 404/EDPSY 450, PSYCH 423, PSYCH 473, PSYCH 476, PSYCH 478, PSYCH 470, PSYCH 471, PSYCH 477, PSYCH 474

Prerequisites Required.

Effective Date: Spring Semester 2011

Expiration Date:

Last Revised by the Department: 03/05/2012

BC

## **BEHAVIORAL HEALTH SERVICE COORDINATION**

### **Undergraduate Certificate Program**

Margaret L. Signorella  
Penn State Greater Allegheny  
Phone: 412-675-9451  
E-mail: msignorella@psu.edu

Penn State Greater Allegheny

### **BEHAVIORAL HEALTH SERVICE COORDINATION (BHSC)**

This certificate comes in response to demand from the social services agencies for qualified service coordinators with the appropriate social science background and applied experience. The specific courses in the certificate are aimed at providing the students with basic knowledge of psychology and social systems, abnormal psychology, and the specifics of managing and assessing cases. The final course is an internship placement at a social service agency in which service coordination is required, which allows students to apply their classroom knowledge. The certificate is also appropriate for any student who wishes to work in the behavioral health field.

#### **Admission Requirements:**

Students should be aware of possible course prerequisites for some of the listed courses.

Students must be majoring in psychology, sociology, or administration of justice.

#### **Prescribed Courses**

PSYCH 100(GS) 3 credits  
SOC 001(GS) or PSYCH 221(GS) 3 credits  
PSYCH 270 or PSYCH 470 3 credits  
HD FS 401 3 credits  
PSYCH 495 3 credits

Effective Date: Spring 2015

Expiration Date:

Penn State Altoona  
Phone: 814-949-5265  
Email: dxh41@psu.edu

Altoona College, Penn State Lehigh Valley, Penn State Worthington Scranton, University Park

### **BUSINESS ESSENTIALS (BUSESS)**

Business Essentials is a two-part program that gives you a foundation in marketing, management and organizational behavior, accounting, financial analysis, and organizational performance, and an integrated understanding of how these disciplines interact in a multifunctional organization. You will learn to observe an organization from the inside as you analyze its culture, strategy, and performance--and from the outside as you learn how strategy plays out with customers, investors, and other stakeholders. Certificate recipients must be approved for the Business Essentials Program. (MGMT 301 and MKTG 301 must be taken together, and ACCTG 211 and FIN 301 must be taken together)

To earn an undergraduate certificate in BUSINESS ESSENTIALS, a minimum of 13 credits is required.

### **PRESCRIBED COURSES**

## **Corporate Control and Analysis**

### **Undergraduate Credit Certificate Program**

Dr. Sajay Samuel  
354 Business Building  
University Park, PA 16802  
Phone: 814-865-0041  
E-mail: cca@smeal.psu.edu

## **CORPORATE CONTROL AND ANALYSIS (CCA)**

Students enrolled in the Smeal College of Business accounting major can augment their studies with the Corporate Control and Analysis certificate program (CCA), provided they meet the program's admission requirements. CCA requires eleven credit-hours in accounting, financial statement analysis, and communications. Students must also complete an approved internship. CCA prepares students for careers as management accountants. Students in the program are encouraged to seek a professional credential in management accounting, such as the Certified Management Accountant (CMA) designation through the Institute of Management Accountants.

All certificate courses must be earned through faculty in the Smeal College of Business.

### **ADMISSION REQUIREMENTS:**

Application to the program is concurrent with an application to the Smeal College Accounting major. To be considered for the certificate, applicants must submit an on-line application and have completed the following courses with a combined GPA of 3.40 or higher: ACCTG 211, ECON 102, MATH 110 (or MATH 140), and SCM 200 (or STAT 200).

For more information and to submit the on-line application, go to:

<http://www.smeal.psu.edu/accounting/programs/cca>

### **PRESCRIBED COURSES**

ACCTG 404 - Managerial Accounting Economic Perspective (3)  
ACCTG 417 - Corporate and Managerial Communication (2)  
ACCTG 440 - Advanced Management Accounting (3)  
ACCTG 481 - Financial State Analysis: Accounting Based Evaluation and Decision Making (3)

A grade of C or better is required in all courses.

Students must complete an approved internship program.

Prerequisites required.

Effective Semester: Fall Semester 2015

## **Child Development**

### **Undergraduate Certificate Program**

Behrend College is the home college.

### **CHILD DEVELOPMENT (CHD DV)**

This 15 credit certificate will provide the core information and competencies for students interested in pursuing the field of child development. Students will be provided with a broad overview of the developmental processes underlying child and adolescent development. This certificate will be attractive to both psychology majors as well as adult students taking courses part time for career advancement. The certificate may also serve as the gateway to a minor or major in psychology. It is consistent with psychology program goals to develop clear career tracks for current students interested in the applied fields of psychology.

### **PRESCRIBED COURSES**

PSYCH 212 or HD FS 129

Select six credits from the following: PSYCH 410, PSYCH 412, PSYCH 476

Select six credits from the following: EDPSY 014, HD FS 229, PSYCH 221, PSYCH 238, PSYCH 256, PSYCH 413, PSYCH 414, PSYCH 473.

## Comparative and International Education Certificate (CI ED)

### Undergraduate Certificate Program

Walter Fullam  
Penn State Berks  
wff1@psu.edu  
Phone: 610-396-6223

Penn State Berks

### Comparative and International Education Certificate (CI ED)

The undergraduate CI ED Certificate is designed to enhance the degree completion requirements through international field experiences and provide opportunities to investigate multiple education theories, policies and practices. The balance of course and fieldwork is intended to increase students' inquiry, awareness and understanding of the dynamics of working with multi-cultural and diverse students through in-class and field opportunities. The program will facilitate and guide the candidate's inquiry into understanding diverse education systems and encourage sensitivity toward multicultural students to address the increasingly diverse U.S. classroom population.

#### Admission Requirements:

Any full time student currently enrolled at Penn State Berks is eligible to earn the certificate of Comparative and International Education.

#### Requirements for Completion:

##### 9 Credits:

1) International Travel course (3 Cr) such as the following:

- a. CI 495 (Internship) (1-18) Supervised off-campus, nongroup instruction including field experiences, practica, or internships. Written and oral critique of activity required.

2) Comparative Education course (3 Cr.) such as one of the following:

- b. EDTHP 401 (3 Cr) or 3 credits of another international culture or global experience course as approved by the department.

3) International culture course (3 Cr.) such as the following\*:

APLNG 493 (Teaching English as a Second Language)  
CMLIT 010 (Introduction to World Literature)  
ENGL 182C (Literature and Empire)  
FR 139 (France and the French Speaking World)  
GEOG 126 (Economic Geography)  
HIST 175 (Modern Asian History)  
INTST 100 (Introduction to International Studies)  
MUSIC 009 (Introduction to World Musics)  
WL ED 400 (Foundations of Language and Second Language Teaching)  
Third level of a world language

\*or international culture course as approved by the faculty.

Effective Semester: Fall 2013

## **Corporate Communication**

### **Undergraduate Certificate Program**

### Crime, Psychology, and Public Policy (CRMPPP)

The 15 credit undergraduate certificate program in Crime, Psychology, and Public Policy (CRMPPP) provides students an overview of the causes of crime and criminal behavior, the legal and criminal justice processes, and public policy toward crime-related issues. Students receive an in-depth understanding of the social and psychological causes of crime, policies to fight and prevent crime, the use of psychology to analyze and investigate criminal behavior, and the legal processes that involve accused and convicted criminals. The certificate program is intended for those who are interested in learning more about the criminal justice system and the causes of crime. Knowledge of the causes of criminal behavior and the criminal justice system are important to careers in the police, security, the correctional system, social work, law, psychology, journalism, and government or politics.

#### List of Courses\* Included in the Certificate:

Take 3 credits in each of the following subject areas from a program list of approved courses

#### Criminology

Approved list of courses:  
SOC 012(GS). Criminology

#### Crime and the Individual

Approved list of courses:  
PSYCH 243(GS). Introduction to Well-being and Positive Psychology  
PSYCH 256(GS). Introduction to Cognitive Psychology  
PSYCH 261(GS). Introduction to Psychology of Learning  
PSYCH 270. Introduction to Abnormal Psychology  
PSYCH 412. Adolescence  
PSYCH 473. Behavior Modification  
PSYCH 476. Child Psychopathology

#### Crime and Society

Approved list of courses:  
CRIMJ 423. Sexual and Domestic Violence  
PSYCH 221(GS). Introduction to Social Psychology  
PSYCH 232(GS;US;IL). Cross-Cultural Psychology

Penn State Greater Allegheny  
Phone: 412-675-9135  
Email: mrm33@psu.edu

Penn State Greater Allegheny

### **Creative Writing (CRWRIT)**

One of the areas of job growth and sustainability continues to be publishing creative works of fiction and non-fiction. With the advent of e-reading technology individuals have greater opportunities to publish and market their work. Another area of job growth requiring creative writing is in the field of narrative design for gaming applications. The 12-credit creative writing certificate will give students an exposure to both fiction and nonfiction writing plus the opportunity to take the upper-level course in their top area of interest. Students are required to take 9 credits of 200-level courses and 3 credits of 400-level courses from the approved lists.

#### **REQUIRED COURSES:**

9 credits from the following list:

ENGL 209 (1-6)  
ENGL 212 (3)  
ENGL 213 (3)  
ENGL 215 (3)

3 credits from the following list:

ENGL 412 (3)  
ENGL 413 (3)  
ENGL 415 (3)  
ENGL 417 (3)  
ENGL 420 (3)  
ENGL 422 (3)  
ENGL 423 (3)

Effective Semester: Fall 2013

## **Consumer Psychology**

### **Undergraduate Certificate Program**

Mary Beth Pinto and Eric Corty  
Penn State Behrend

**Telephone:** 814-898-6348 or 814-898-6238

**E-Mail:** mxp49@psu.edu or ewc2@psu.edu

The Behrend College is the home College.

### **CONSUMER PSYCHOLOGY (CSMPSY)**

This 15 credit certificate is designed to prepare students for positions in the private sector, government agencies, and colleges and universities that call for an understanding of consumer psychology. This certificate is based on psychological approaches to understanding consumers. Students completing this certificate will be able to describe factors influencing buyer behavior. They will be comfortable working in the domains of marketing and psychology and be able to help predict or explain consumer behavior.

### **PRESCRIBED COURSES**

MKTG 344 and PSYCH 100

Select nine credits from among the following: PSYCH 212, PSYCH 221, PSYCH 231, PSYCH 232, PSYCH 238, PSYCH 244, PSYCH 253, PSYCH 256

**Effective Semester:** Spring 2012

## **INFORMATION AND CYBER SECURITY CREDIT**

### **CHILDREN, YOUTH AND FAMILY SERVICES (CYF)**

This certificate program is designed to improve the quality of planned programs in a wide variety of community settings. The primary goal of the program is to provide a flexible and convenient opportunity for self-enhancement, further education and professional development for those currently working or considering a career in human service settings. Courses are required in three areas: Foundation Courses (9 credits), Professional Core (15 credits) and Professional Electives (6 credits).

To earn an undergraduate certificate in CHILDREN, YOUTH AND FAMILY SERVICES, a minimum of 30 credits is required.

### **Analog and Digital Electronics (ELCTNC)**

This 12 credit certificate is designed to provide students with an understanding of the analysis and basic design techniques for digital, logic, and integrated circuits (op amps, amplifiers, filters, rectifiers). Students will also have an understanding of basic programming techniques.

#### **REQUIRED COURSES:**

ENGL 015  
CMPET 005  
CMPET 117  
CMPET 120  
EET 212W

Effective Semester: Fall 2012

## **Enterprise Architecture (ENARCH)**

Mary Beth Rosson, Associate Dean for Graduate and Undergraduate Studies, College of IST  
332G Information Sciences and Technology Building  
University Park  
Phone: 814-863-3450  
E-mail: mur13@psu.edu

University Park

This 12 credit certificate applies architecture principles related to the orderly arrangement of parts to analyze the components, structure and connectivity of business, data, application, technology and security architecture and identify their relationships to each other and to the strategy of the organization. The primary purpose of describing the architecture of an enterprise is to improve the effectiveness, efficiency, and agility of the organization. This includes innovating the structure of an organization, centralizing business processes, assuring quality and timeliness of information and ensuring that money spent on information technology can be justified.

*A grade of C or higher is required in all courses for the certificate; no course substitutions are permitted. Courses taken more than 10 years ago will not apply automatically towards completion of the certificate but instead will require review by the academic unit.*

### **Required Courses**

IST 422 (3)

IST 423 (3)

IST 424 (3)

### **Additional Courses**

3 credits from: SRA 221, IST 412, IST 432, IST 443, IST 452, IST 456 or SRA 468

Effective: Summer Session 2013

## **ENGINEERING DESIGN**

### **Undergraduate Certificate Program**

Richard Devon  
213J Hammond Bldg  
University Park  
Phone: 814-865-3163  
E-mail: duf@psu.edu

University Park

### **ENGINEERING DESIGN (ENDSN)**

The certificate will provide an opportunity to pursue a specialization in engineering design; provide an incentive to take more courses in design, participating in more design projects; and improve their employment prospects. For entrance, students must be at least 4th semester standing. The GPA considered for admission will be consistent with, or equivalent to, the GPA required for entrance to any major in the student's department. Students must earn a B grade or better in each qualifying course or independent study or pursue a replacement option. A minimum of 13 credits is required for completion of the certificate with no fewer than 6 credits at the 400- or 500- level.

To earn an undergraduate certificate in ENGINEERING DESIGN, a minimum of 13 credits is required.

### **PRESCRIBED COURSES**

EDSGN100 OR MATSE492W  
AERSP403 OR A B E467 OR A E 470 OR BME 419  
OR C E 410W OR E SC 481 OR I E 466  
OR S T S233 OR PHIL 233  
EDSGN496

Students must complete an application and be at least 4th semester standing. No fewer than 6 credits of certificate courses at the 400- or 500-level. Students must earn a "B" or better in each qualifying course.

Prerequisites Required.

Effective Date: Spring Semester 2007

Expiration Date:

Last Revised by the Department: 11/11/2011

ENSETCE

## **ENERGY SYSTEM CERTIFICATE**

### **Undergraduate Certificate Program**

Jerry Bachert  
111 Luerksen Bldg  
Penn State Berks  
Phone: 610-396-6221  
E-mail: jrb57@psu.edu

### **ENGINEERING AND COMMUNITY ENGAGEMENT (ENGCO)**

A certificate in Engineering and Community Engagement is proposed for students in the College of Engineering. This certificate is intended to acknowledge students who have gained proficiency in design, research and application of appropriate technologies for use in serving communities in the U.S. and abroad while stressing an awareness of the cultural context of such engineering activities. Collaborations with communities are strongly encouraged along with emphasis on the importance of ethical considerations in collaborating/working in community settings. All students in good academic standing are eligible for admission to the program.

To earn an undergraduate certificate in ENGINEERING AND COMMUNITY ENGAGEMENT, a minimum of 12 credits is required.

### **PRESCRIBED COURSES**

YFE 211  
EDSGN352  
EDSGN452  
ENGR 496  
ENGR 411 OR ENGR 425 OR ENGR 408 OR ENGR 493  
OR EDSGN395

Core requirements for the certificate program include courses in both: a) Community Engagement, and b) U.S. and International Cultures. These courses may be scheduled to satisfy general education requirements (GS/GH/US/IL) depending on the courses selected. Beyond that, students have various course options available to them to complete the 12 credits requirement for the certificate including project-based courses in: a) design, b) entrepreneurship, and c) leadership. Students will be strongly encouraged to meet with the program director to discuss and formulate their program of study in the certificate program.

Prerequisites Required.

Effective Date: Spring Semester 2007

Expiration Date:

Last Revised by the Department: 11/11/2011

EN SEDTP

## **ENGINEERING LEADERSHIP**

### **Undergraduate Certificate Program**

### **Entrepreneur Certificate (ENTREP)**

The primary goal of the certificate program is to prepare individuals to develop the entrepreneurial skills necessary in today's marketplace. The curriculum integrates a core of twelve credits along with an elective for three credits in the areas of new product development, new ventures or franchising. The course is highly practical with current and live examples. Who should attend: Individuals who wish to own or operate a startup business or franchise. Individuals who wish to run and grow business. Individuals who wish to learn growth strategies. Individuals who wish to learn financing, taxes, money management. Individuals who wish to learn marketing basics, sales, online marketing, finding customers, social media, use of social media and branding. This certificate requires successful completion of fifteen (15) credits.

#### **Admission Requirements:**

- Participants will provide appropriate prior learning experiences for entrance.
- Participants will adhere to prerequisites of courses.
- Participants will satisfy all course completion requirements.
- It is recommended that the certificate be completed within two years.

## **Enterprise Resource Planning with Oracle**

The Certificate in ERP with Oracle will instruct you in Oracle Enterprise Resource Planning software. Oracle ERP is an integrated multi-module application software that supports business processes. Oracle is one of the top ERP vendors and the skills gained by learning this software will allow you to become more valuable in the current marketplace. Oracle certification is valuable to hiring managers who want to distinguish among candidates for critical IT positions. This program enables students to become proficient in Oracle applications and system software and prepares them for the Oracle Certified Professional Consultant exams. Students who complete this certificate will have the ability to implement, integrate, and support eBusiness applications.

Oracle eBusiness is one of the most widely implemented ERP packages worldwide and is used by customers in more than 150 countries. ERP skills are in demand and salaries are on the rise. The certificate in Oracle eBusiness Suite will allow you to become more valuable in the current marketplace and will distinguish you among candidates for critical positions within all functional areas in an organization.

There are 9 credits required for this certificate and an additional 12-13 credits in prerequisites depending on courses chosen.

#### **PRESCRIBED COURSES**

Select 9 credits from the following:

## **Earth Sustainability**

### **Undergraduate Certificate Program**

Timothy Bralower  
535 Deike Building  
University Park  
Phone: 814-863-1240  
Email: [tjb26@psu.edu](mailto:tjb26@psu.edu)

### **EARTH SUSTAINABILITY (ETHSUS)**

By the time current undergraduates send their children to college, Earth's population will have increased to more than eight billion people. Our climate will be warmer and characterized by more frequent extreme weather events including droughts. One or more major metropolitan areas in our increasingly crowded world will have experienced a devastating hurricane or typhoon, sea level rise will be inundating low-lying coastal cities along with whole island nations, energy resources will be less available and more expensive, clean drinking water will be more scarce, and it will be increasingly difficult to feed the global population. How we choose to plan for and attempt to mitigate these "grand challenges" will have consequences for individuals, nations, and our global socioeconomic and political systems.

The goal of the 12-credit Certificate Program in Earth Sustainability is to dramatically increase geoscience literacy of all undergraduate students, including the large majority that do not major in the geosciences, future K-12 teachers, and also those who are historically under-represented in the geosciences, such that they are better positioned to make sustainable decisions in their lives and as part of the broader society.

#### **REQUIRED COURSES:**

EARTH 103 (GN)  
EARTH 104 (GN)  
EARTH 107 (GN)  
EARTH 111 (GN;US)

No Prerequisites Required.

Effective Date: Fall Semester 2015

## **FINANACIAL ACCOUNTING**

### **Undergraduate Certificate**

Shirl Henry

### **FINANCIAL RISK MANAGEMENT (FINRSK)**

This certificate program is designed to prepare students for a career in risk management; and, for those interested, to gain exposure to topic that constitute the first part of the Financial Risk Manager (FRM) exam, sponsored by the Global Association of Risk Professionals (GARP). The FRM exam is the primary industry designation with over 20,000 candidates taking the exam twice a year. Students completing the certificate are prepared to pass the first part of this two-part exam. The certificate requires a total of 21 credit hours and can be completed concurrently with a Penn State Behrend degree or via continuing education. For more information please see <http://psbehrend.psu.edu/Academics/academic-programs/certificate-programs-1>

To earn an undergraduate certificate in FINANCIAL RISK MANAGEMENT, a minimum of 22 credits is required.

### German Studies (GERSC)

The 15 Credit German Studies Certificate offered at Penn State Behrend is designed for students who wish to specialize in interdisciplinary German Studies by acquiring advanced German language skills and taking courses in culture, film, history, literature, music, or politics of the German-speaking countries. In-depth knowledge of the German-speaking countries prepares students for a global workforce and careers in international business, engineering, finance, politics, or the sciences. Students must have a C or better in each certificate course.

### Admission Requirements:

Students who have not reached the third level of German Language proficiency may need to take German 001 and 002 first.

#### List of Courses\* Included in the Certificate:

##### Required language courses: 7-8 credit hours

GER 003 Intermediate German<sup>[1]</sup>  
GER 201 Conversation and Composition  
OR GER 301 Intermediate Speaking and Listening

##### Choose 9 credit hours from a program approved list:

GER 100 German Culture and Civilization  
GER 190 Twentieth-Century German Literature in English Translation  
GER 189 German Film  
GER 200 Contemporary German Culture  
HIST 121 History of the Holocaust  
HIST 143 History of Fascism and Nazism  
HIST 144 The World at War: 1939-1945  
HIST 427 Germany since 1860  
MUSIC 005 An Introduction to Western Music  
PL SC 020 Comparative Politics of Western Europe

Effective Date: Fall Semester 2015

## **Honors Globalization: India**

### **Undergraduate Certificate Program**

University Park

Richard Stoller  
10 Schreyer Honors College  
Phone: 814-865-2060  
Email: rjs27@psu.edu

### **Honors Globalization: India**

The certificate represents completion of a six-credit sequence of honors coursework including spring and fall courses and a five-week summer program in India, plus an additional six credits of India-related coursework as verified by the Schreyer Honors College. Students who complete certificate requirements will achieve an integration of classroom and experiential learning about India and will acquire a framework for understanding that can be applied to other countries or regions.

Students must complete a Schreyer Honors College integrated program plus additional relevant coursework, for a minimum of 12 credits. Six credits of core courses include a three-credit interdisciplinary introduction to India, followed by one credit for the in-country experience, and a two-credit follow-up course. Six credits of additional courses may be India-specific courses, Hindi (or other Indian) language courses, or thematic or comparative courses with relevance to the region.

**Effective Semester:** Fall Semester 2013

## **GLOBAL AWARENESS**

### **Undergraduate Certificate Program**

John Gamble

Abington College, Altoona College, Behrend College, Berks College, Capital College, King of Prussia, Penn State Beaver, Penn State Brandywine, Penn State Carlisle, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazelton, Penn State Lehigh Valley, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, University Park

### **GLOBAL AWARENESS (GLBLBC)**

The certificate gives students an appreciation of the world in which they will live and work. By introducing students first to the broad contours of the globalizing world and then adding more narrowly focused courses, the certificate will give students a sense of the diversity and complexity of the modern world. All 12 credits must be taken at Penn State; a C or higher is required in each course. Students taking a language can only apply the third level of proficiency when fulfilling the requirement. The third level of proficiency must be demonstrated through class work rather than by testing out of the class. In addition to the six required credits, students must complete six credits that focus on matters outside the United States.

To earn an undergraduate certificate in GLOBAL AWARENESS, a minimum of 12 credits is required.

### HEALTHCARE INFORMATICS CERTIFICATE (HLTHIF)

The healthcare industry is moving towards the widespread use of digital records and electronic information transfer. This is resulting in a need for healthcare professionals to be knowledgeable in information technology and for information technology professionals at healthcare facilities to be more knowledgeable of the healthcare industry. Professionals in these two areas both need to understand the complexities of medical information being digitally stored and transferred. This 18 credit certificate program provides students with insight into both professional areas. Students may receive credit for previous coursework (up to 3 courses) upon academic review.

To earn an undergraduate certificate in HEALTHCARE INFORMATICS , a minimum of 18 credits is required.

### HOUSING (HOUSG)

This certificate program is designed to prepare students for a career in the housing industry. Students are required to take a set of complementary courses in the technology of housing, the development process, and the design and the delivery processes for housing. The minimum number of credits required is 12, with no less than six credits at the 400-level. For entrance into the certificate program, students must be at least 5th semester. The cumulative GPA considered for admission will be consistent with, or equivalent to, the GPA minimum of 2.0 for maintaining good academic standing. Students must earn a C grade or better in each of the four courses to continue with the certificate.

To earn an undergraduate certificate in HOUSING, a minimum of 12 credits is required.

### PRESCRIBED COURSES

A E 470  
C E 410W OR C E 542 OR A E 542 OR A E 432  
OR A B E462 OR R EST301 OR R EST409

Students must complete an application and choose an additional three courses from the following list: CE 410W, CE/AE 542, AE 432, ABE 462, R EST 301, R EST 409. With the approval of the Hankin Chair, one housing-related course of at least 3 credits not included in the list of recommended additional courses (e.g., demographics, urban geography, social housing, etc.) can be substituted for one of the three additional courses. Student must be at least fifth semester standing. The cumulative GPA considered for admission will be consistent with, or equivalent to, the GPA minimum of 2.0 for maintaining good academic standing. Students must earn a C grade or better in each of the four courses to continue with the certificate.

University Park, PA 16802  
Phone: 814-863-5361  
Email: mdt177@psu.edu

University Park

### **ADVANCED INSTRUCTOR DEVELOPMENT FOR PROFESSIONALS**

This certificate is designed for the adult learner who would like to gain knowledge of essential instructor development concepts. These adult learners may already possess a degree in an occupational discipline, but need to augment their knowledge and resumes to advance their careers with their current employer or transition into a new job. Adult learners taking this certificate may also be taking post-secondary credit courses for the first time.

To earn an undergraduate certificate in INSTRUCTOR DEVELOPMENT FOR PROFESSIONALS, a minimum of 9 credits is required.

#### **Admission Requirements:**

High school diploma and two years of work experience.

#### **REQUIRED COURSES:**

WF ED 105  
WF ED 106  
WF ED 207W

**Effective Semester:** Fall 2013

## **INTRODUCTION TO ADMINISTRATION OF JUSTICE**

### **Undergraduate Certificate Program**

University Park

### **INTERNATIONAL ENGINEERING (INTEN)**

This certificate program is designed to provide recognition for students who have gained a proficiency in the skills needed by engineers in a global economy. The requirements of the certificate fall into three categories: knowledge of global engineering and its professional and societal context, knowledge of language and culture, and participation in international experiences. All engineering students in good academic standing are eligible for admission to the program.

To earn an undergraduate certificate in INTERNATIONAL ENGINEERING, a minimum of 10 credits is required.

### **PRESCRIBED COURSES**

Students must complete an application and successfully complete 3 credits of study in a second language, while a PSU student, at the 003 (third-semester) level or higher; 6 credits (typically two courses) of study in courses approved to meet the International Cultures requirement (IL) of General Education; and 1-3 credits and/or at least six weeks of approved study or workabroad, consisting of course work, internship, research, etc.

Prerequisites Required.

Effective Date: Fall Semester 2004

Expiration Date:

Last Revised by the Department: 11/11/2011

**E-Mail:** pxs913@psu.edu

University Park

### International Science (INTSCI)

This certificate is intended to recognize students who spend significant time abroad during their undergraduate careers and who complete courses that allow them to acquire a more global perspective on the study of science. The certificate is intended to provide recognition for students who have developed a familiarity with science outside of the United States and who have experience with the regional cultural context of the host nation(s). Consultation with an academic adviser prior to studying abroad is strongly recommended to ensure course choices fulfill the requirements of the certificate. To earn an undergraduate certificate in INTERNATIONAL SCIENCE, a minimum of 12 credits is required. Students **MUST** earn a C or higher for all 12 credits. Students must fulfill the following requirements:

- a total of at least 6 weeks abroad on one or more Penn State-approved courses/programs
- 6 credits (typically two courses) abroad that are either Penn State Science courses taught abroad or courses that are granted equivalency in the College of Science at Penn State
- 6 credits (typically two courses) that directly relate to the host regions' cultures, histories, or languages. These supporting courses can be taken while abroad or in residence on a Penn State campus.

Students who have completed these requirements must submit an application to have the certificate added to their transcript here:

<http://science.psu.edu/cie/education-abroad/international-science-certificate>

**Effective Semester:** Fall 2014

### **INTERNATIONAL STUDIES (INTST)**

Today's students, whatever their career path, will enter a workforce that's increasingly diverse. We need to prepare our students to respect non-American cultures and people so they gain an international outlook. The Certificate in IS is intended to provide students with a broad and deep understanding of this diverse world far beyond the General Ed requirements. Students will be better suited to face the challenges and enjoy the opportunities presented by others, both in and outside the United States, who come from a variety of nations and cultures. Students MUST earn a C or higher for all 12 credits. XXX497 Special topics, or Independent Study/Research 494/496 can be used to satisfy 400 level course, subject to approval by coordinator.

To earn an undergraduate certificate in INTERNATIONAL STUDIES, a minimum of 12 credits is required.

### **Leadership for Engineers (LDENGR)**

This certificate is designed for engineers interested in learning leadership skills. It is a series of 8 undergraduate credits that emphasize leadership in organizations, leadership principles, and project management including the human resource component.

Entrance Requirements: Prerequisite: degree in engineering

### **Prescribed Courses**

ENGR 405 Project Management for Professionals (3)  
ENGR 408 Leadership Principles (2)  
ENGR 409 Leadership in Organizations (3)

Effective Semester: Fall Semester 2015

## LEGAL STUDIES

### Undergraduate Certificate Program

Robert Speel  
170 Irvin Kochel Center  
Penn State Erie  
Phone: 814-898-206  
E-mail: rws15@psu.edu

Abington College, Altoona College, Behrend College, Berks College, Capital College, King of Prussia, Penn State Beaver, Penn State Brandywine, Penn State Carlisle, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazelton, Penn State Lehigh Valley, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, University Park

### LEGAL STUDIES (LEGST)

The Legal Studies certificate is intended for students who want to learn about some of the cases and legal processes they will study in law school. It is also intended for students who might wish to work as legal assistants or paralegals and wish to get some background in law and legal processes without attending law school. The certificate requires that students take three political science courses (nine credits) about law or the legal process and two more political science courses (six credits) in which court cases or legal processes are a significant component of course materials. Students can also take 12 credits from the law or legal process courses and 3 credits from the court cases or legal processes courses.

To earn an undergraduate certificate in LEGAL STUDIES, a minimum of 15 credits is required.

### Legal Studies Core Courses

Take 9 credits in core courses from a program-approved list:

PL SC 471 American Constitutional Law 3 credits  
PL SC 472 The American Legal Process 3 credits  
PL SC 473 American Judicial Behavior 3 credits  
PL SC 487 International Law and Organizations 3 credits

### Legal Studies Supplementary Courses

Take 6 credits in supplementary courses from a program approved list\*:

PL SC 110 Rights in America 3 credits  
PL SC 123 Ethnic and Racial Politics 3 credits  
PL SC 178 Organized Crime, Law, and Politics 3 credits  
PL SC 419 The Bureaucratic State 3 credits  
PL SC 480W Congress and the Presidency 3 credits  
PL SC 482 American State and Urban Politics 3 credits

\* Students can also take 12 credits from the core courses and 3 credits from the list of supplementary courses.

Effective Date: Spring Semester 2011

Expiration Date:

Last Revised by the Department: 12/02/2011

BC H&SS

## **LABOR STUDIES AND EMPLOYMENT RELATIONS**

## **MEDICAL PLASTICS**

### **Undergraduate Certificate Program**

Jason Williams  
School of Engineering  
Penn State Erie  
Phone: 814-898-6142  
E-mail: jlw109@psu.edu

Abington College, Altoona College, Behrend College, Berks College, Capital College, King of Prussia, Penn State Beaver, Penn State Brandywine, Penn State Carlisle, Penn State DuBois, Penn State Fayette, Penn State Greater Allegheny, Penn State Hazleton, Penn State Lehigh Valley, Penn State Mont Alto, Penn State New Kensington, Penn State Schuylkill, Penn State Shenango, Penn State Wilkes-Barre, Penn State Worthington Scranton, University Park

### **MEDICAL PLASTICS (MEDPLS)**

Plastics play a critical role in a growing medical industry. A significant portion of medical devices, prosthetics, implants, tools and packaging of devices and products are dependent on plastics. Many of products could not exist, or cost would be excessive, without plastics. Medical plastics is a subset of the larger plastics industry and represents a strong growth area. Medical plastics usage is expected to increase approximately 7% per year over at least the next five years. Medical plastics also represents a large opportunity for domestic plastics manufacturers as there is a general resistance to outsourcing this production due to concerns over the quality and safety of third-world suppliers.

To earn an undergraduate certificate in MEDICAL PLASTICS, a minimum of 14 credits is required.

### **PRESCRIBED COURSES**

BECAUSE ECERT WILL NOT TAKE \*97 COURSES UNDER COURSE REQUIREMENTS, THE FOLLOWING ARE THE COURSE REQUIREMENTS FOR THE MEDICAL PLASTICS CERTIFICATE: BI SC 004--HUMAN BODY OR MICRB 106/107/ELEMENTARY MICROBIOLOGY AND PL ET 397 MEDICAL PLASTICS INDUSTRY OVERVIEW (1 CR) PL ET 497 PLASTICS PRODUCT DEVELOPMENT (3 CR) PL ET 497 MEDICAL PRODUCT DEVELOPMENT (1 CR) PL ET 497 ADVANCED MATERIALS IN MEDICAL APPLICATIONS (3 CR) PL ET 497 MEDICAL MANUFACTURING METHODS (3 CR)

### **MEDICAL SCIENCES (MEDSCI)**

The medical sciences certificate program is a one-year program designed for a select group of academically talented, highly motivated college graduates who do not have a science background. Courses are offered in a fixed-sequence, and students progress through as a part of a cohort. Students will work in a blended learning environment the majority of coursework will be completed through the Internet and self-study and come to the Penn State Delaware County campus approximately twice a month for laboratory work and exams. Upon completion, students will have the required science coursework to apply for admission to medical, dental, optometry, veterinary science, podiatry, physical therapy, physician

To earn an undergraduate certificate in MEDICAL SCIENCES, a minimum of 39 credits is required.

### **MECHANICAL ENGINEERING TECHNOLOGY BASIC (METBBC)**

This certificate program is designed for those working in mechanical engineering technology or related fields. It is a sequential three-phase series that will provide a solid foundation in engineering technology and can lead to an Associate or Baccalaureate degree in Mechanical Engineering Technology. Each segment must be completed in its entirety and in order. Once complete, students will have earned three certificates in Mechanical Engineering Technology applications. The basic certificate requires 18 credits.

To earn an undergraduate certificate in MECHANICAL ENGINEERING TECHNOLOGY BASIC, a minimum of 18 credits is required.

### **MANUFACTURING ENGINEERING TECHNOLOGY I (METCI)**

This series of engineering courses is designed for the working adult who would like to augment their knowledge in the workplace with practical engineering courses. This certificate is designed to teach critical skills and knowledge needed to function effectively in today's manufacturing workplace. It is recommended that participants take the following classes in order.

To earn an undergraduate certificate in MANUFACTURING ENGINEERING TECHNOLOGY I, a minimum of 15 credits is required.

### **PRESCRIBED COURSES**

### **.NET PROGRAMMING (MS) (NET)**

This certificate is a 5 credit (3 course) certificate in .NET Programming that meets the needs of programmers who seek to learn to develop .NET applications. This Program also will appeal to those with experience developing .NET applications. The .NET Certificate program covers a variety of areas, from C# application development and aspects of the .NET object hierarchy to database application development with Visual Basic .NET using ADO .NET. Students who take advantage of the program will acquire significant hands-on experience with XML and XSLT. In each course, students will complete between 3-5 individual projects. The last course includes a master group project. Eva B. Klein (ebz1)-215-881-7387

To earn an undergraduate certificate in .NET PROGRAMMING (MS), a minimum of 5 credits is required.

### **PRESCRIBED COURSES**

CMPS297  
CMPS297  
CMPS297

Courses are 3 courses (totally 5 credits) that are all CMPS297 special topics. Suffix alphas will change each semester. Course titles are: Developing.NET Solutions with Visual Basic .NET (1 credit), Developing .NET Solutions with C# (1 credit), ASP.NET MVC & ADO.NET Including LINQ (3 credits)

No Prerequisites Required.

Effective Date: Spring Semester 2011

Expiration Date:

Last Revised by the Department: 12/20/2011

111 Old Main  
University Park  
Phone: 814-863-0327  
E-mail: sah43@psu.edu

Penn State Mont Alto

### **Network Technologies (NETWK)**

This certificate is designed for graduates of the basic certificate in Information Sciences and Technology (IST UC) or Fundamentals of IST (CLIST), and has a focus on network administration and network security. It is composed of 6 courses that are 3 credits each. It includes Networking Essentials (IST 226), Network Administration (IST 227), Advanced Network Administration (IST 228), Network Security (IST 451), Introduction to Security and Risk Analysis (SRA 111), and Overview of Information Security (SRA 221). Prerequisites are IST 110, IST 220, and CMPSC 101; or IST UC credit certificate + CMPSC 101; or CL IST credit certificate.

To earn an undergraduate certificate in NETWORK TECHNOLOGIES, a minimum of 18 credits is required.

### **Prescribed Courses**

IST 226  
IST 227  
IST 228  
IST 451  
SRA 111  
SRA 221

Prerequisites Required.

Effective Date: Fall Semester 2015

## **NATIONAL SECURITY AGENCY**

### **Undergraduate Certificate Program**

332G Information Sciences and Technology Building  
University Park  
Phone: 814-863-3450  
E-mail: mur13@psu.edu  
University Park

### **National Security Agency (NSA)**

The NSA certificate indicates students have completed the courses representing the required knowledge units as specified by the National Security Agency and the Department of Homeland Security for Professionals in Information Assurance and Cyber-Defense as part of Penn State's designation as a Center of Academic Excellence.

To earn an undergraduate certificate in NSA, a minimum of 28 credits is required.

A grade of "C" or higher is required in all courses for the certificate; no course substitutions are permitted. Courses taken more than 10 years ago will not apply automatically towards completion of the certificate but instead will require review by the academic unit.

#### **Admission Requirements:**

Must be enrolled in ISTBS, SRA, SRAAL, SRABL or SRACA major.

#### **List of Courses\* Included in the Certificate:**

IST 140 (3) or CMPSC 101 (3)

IST 210 (3)

IST 220 (3)

IST 451 (3)

IST 454 (3)

IST 456 (3)

SRA 111 (3)

SRA 221 (3)

### **NURSING INFORMATICS (NURINF)**

This 9-credit course series is designed to provide nurses with informatics knowledge and to prepare them to practice in information and technology rich health care environments. Those who complete the certificate will be prepared to assist in the implementation of informatics tools in healthcare environments such as electronic health records, clinical decision support tools, database management and data mining, patient safety technologies such as Bar Code Medication Administration (BCMA), RFID technologies and smart pumps. The ethical management of private health information and legislative aspects such as HIPAA and the HITECH act are also included.

To earn an undergraduate certificate in NURSING INFORMATICS, a minimum of 9 credits is required.

### **NURSING MANAGEMENT (NURMGT)**

The Nursing Management Certificate Program includes a series of four three-credit courses designed to enhance the career opportunities for currently licensed RNs who are working in nursing. This program is designed for registered nurses who have, or aspire to hold, entry level nurse manager positions. The program will enrich participants' knowledge of basic health care organizations and administration; collection, analysis and management of nursing data; concepts and techniques for managing nursing personnel; and concepts and techniques for enhancing nursing managerial behaviors. Courses are aligned with the core curriculum and competencies for nurse managers, developed by the American Organization of Nurse Executives.

To earn an undergraduate certificate in NURSING MANAGEMENT, a minimum of 12 credits is required.

### **OPERATIONAL EXCELLENCE FOR PROFESSIONALS (OEPF)**

This certificate is designed for the adult learner who would like to gain knowledge of essential supervisory leadership concepts. These adult learners may already possess a degree in an occupational discipline, but need to augment their knowledge and resumes to advance their careers with their current employer or transition into a new job. Adult learners taking this certificate may also be taking post-secondary credit courses for the first time.

To earn an undergraduate certificate in OPERATIONAL EXCELLENCE FOR PROFESSIONALS, a minimum of 9 credits is required.

#### **Admission Requirements:**

High school diploma and two years of work experience.

#### **REQUIRED COURSES:**

WF ED 451  
WF ED 410  
WF ED 405

**Effective Semester:** Fall 2013

University Park  
Phone: 814-865-7620  
E-mail: mxr22@psu.edu

University Park

### PREMEDICAL BASIC SCIENCES (PHYAST)

The premedical certificate program is a non-degree program for academically talented, highly motivated college graduates who do not have a science background. In 15-24 months, students can complete the undergraduate science course work required to apply for admission to medical, dental, optometry, veterinary science, podiatry, physical therapy, physician assistant, nursing, and other allied health schools. Scheduling courses in the program is flexible and students who need to work may enroll part-time (students may be exempt from completing some credits based on prior undergraduate course work). All courses must be completed with a C grade or better, 24 credits need to be completed to receive the certificate.

To earn an undergraduate certificate in PREMEDICAL BASIC SCIENCES, a minimum of 32 credits is required.

### PRESCRIBED COURSES

BIOL 110  
BIOL 230W OR BIOL 240W

### **PRESIDENTIAL LEADERSHIP ACADEMY CERTIFICATE PROGRAM (PLA)**

The goal of the program is to prepare students to develop leadership fundamentals to thrive in an environment in which multiple dimensions of an issue are explored, diverse viewpoints are heard, and a fully informed and respectful discourse that leads to sound action. The opportunities available will lead to further development of critical thinking abilities necessary for leaders to implement decisions with sensitivity to the circumstances that led them there. Students will develop the ability to rethink decisions and even change course along the way. All students are required to take 10 credits, seven through the Presidential Leadership Academy and three credits outside the academy. Courses must be at the 300 level or above.

To earn an undergraduate certificate in PRESIDENTIAL LEADERSHIP ACADEMY PROGRAM, a minimum of 7 credits is required.

### **PRESCRIBED COURSES**

HONOR201  
HONOR301H  
HONOR401H

Bloggging, Students must blog once a week throughout their time in the Presidential Leadership Academy analyzing an issue using the critical thinking skills developed in the courses. Field Trip Experiences, Students must participate in at least three field experiences. Trips planned annually by the Academy which will give students a broader perspective on social and political issues.

Prerequisites Required.

Effective Date: Fall Semester 2009

Expiration Date:

Last Revised by the Department: 03/30/2012

### **PUBLIC RELATIONS (PR BC)**

The Certificate in Public Relations offered at Penn State Behrend is designed for communication and business majors who wish to focus their supporting or non-business supporting coursework in a specific professional communication area. The certificate is also designed for working professionals interested in developing their skill-set in public relations. The foundation of the certificate is developed in the Media Writing, Introduction to Public Relations, and Public Relations Media and Methods courses. Students are then allowed to choose one additional advanced course to complete the 12 required hours.

To earn an undergraduate certificate in PUBLIC RELATIONS, a minimum of 12 credits is required.

## **Smeal College Business Fundamentals**

### **Undergraduate Certificate Program**

Lisa L. Posey  
202 Business Building  
University Park, PA 16802  
814-863-1947  
[SCBC@meal.psu.edu](mailto:SCBC@meal.psu.edu)

### **Smeal College Business Fundamentals**

The Smeal College Business Fundamentals Certificate provides non-Smeal students with the background and knowledge for careers in corporate and non-profit settings. Core courses are framed around an integrated approach to management, finance, global operations, product development and promotion, and legal aspects of business. Students gain practical skills needed to compete in today's rapidly changing business environment.

A grade of C or better is required in all prescribed courses; these courses must be taken at Penn State. Provided that at least three of the five courses are taken in the Smeal College of Business, certificate courses may be satisfied by substituting Penn State courses with comparable content at the same level with the approval of the Smeal College. Students must be enrolled in a non-business baccalaureate program to pursue this certificate.

#### **Prerequisite Courses:**

ACCTG 211, ECON 102, and three credits of 200-level statistics.

#### **Prescribed Courses**

B A 301  
B A 302  
B A 303  
B A 304  
B LAW 243 or I B 303

**Effective Semester:** Summer Semester 2015

## Science Research Distinction (SCIRES)

### Undergraduate Certificate Program

Mary Beth Williams  
Associate Dean for Undergraduate Education  
Eberly College of Science  
0428 Thomas Building  
Phone: 814-863-0284  
Email: mew17@psu.edu

#### University Park

The certificate will provide an incentive for students to write a thesis based on an independent research project. Students may be entered into the certificate program upon identification of a research mentor. Members of the graduate faculty are eligible to be mentors. Emeritus faculty or non-tenure track faculty members may serve as mentors, subject to approval by the Associate Dean for Undergraduate Education. Students must engage in research activities over the course of at least 3 semesters or 2 semesters and a summer. Theses must be approved by the research mentor, a reader who is a faculty member eligible to serve as a research mentor, and the Department Head or Director of Undergraduate Studies of a unit within ECoS unless the department has a specific alternative policy in place for thesis approval. The schedule for submission of theses will be the same as Schreyer Honors Theses. Honors students cannot use a single thesis to earn both the distinction of honors and a Research Distinction Certificate but may earn both distinctions by production of independent theses.

### PRESCRIBED COURSES

6 credits in independent research in Eberly College of Science  
ASTRO 296 or ASTRO 496 or B M B 496 or BMB 488 or BIOL 296 or BIOL 496 or CHEM 294 or CHEM 494 or FRNSC 496 or MATH 296 or MATH 496 or PHYS 296 or PHYS 496 or STAT 496

SC 494 section 002 (1 credit) in semester that thesis is approved

Effective Date: Fall Semester 2013

## **SUPPLY CHAIN MANAGEMENT**

### **Undergraduate Certificate Program**

### **SOCIAL MEDIA (SOCMED)**

This certificate prepares students for a career in any field practicing 21st century skills necessary to be successful in an organization today. Students are familiar with the use of social media for social and personal purposes however; they must develop the skills and attitude toward using technology systems, online content development, design, and marketing as well as online strategic planning relative to social media. They will understand how to use social media to promote, sell, and interact with customers to provide efficiency and profitability. Students completing this certificate will be prepared for the ever-growing careers in Social Media as well as the application of social media concepts in the marketplace.

To earn an undergraduate certificate in SOCIAL MEDIA, a minimum of 15 credits is required.

### SPACE SYSTEMS ENGINEERING (SPSYS)

This certificate program is designed to prepare students for careers in the space industry and for work on space systems. To achieve this, a minimum program of three space systems engineering related courses, a space systems engineering seminar, and project work is to be completed. For entrance into the Certificate program, students must be at least 5th semester standing. The cumulative GPA considered for admission will be consistent with, or equivalent to, the GPA minimum of 2.0 for maintaining good academic standing. Students must earn a C grade or better in each of the courses to continue with the Certificate.

To earn an undergraduate certificate in SPACE SYSTEMS ENGINEERING, a minimum of 12 credits is required.

### **Security and Risk Analysis (SRA)**

Our society operates through information and communication technology-based infrastructures from the Internet to cell phones to organization-specific information systems across all sectors of our economy. We use these infrastructures to communicate; to conduct business; to facilitate relationships between governments; to analyze data for trends in business, social, and international settings; and to use the outputs to make decisions in countless venues. These infrastructures hold data which holds clues to how we interact with society, government, and the economy. The SRA certificate provides introductory curriculum that covers information systems, information assurance (both digital and physical security) and intelligence analysis.

#### **PRESCRIBED COURSES**

IST 110  
SRA 111  
SRA 211  
SRA 221  
CMPSC 101 or CMPSC 121 or IST 140

A grade of "C" or higher is required in all courses for the certificate; no course substitutions are permitted. Courses taken more than 10 years ago will not apply automatically towards completion of the certificate but instead will require review by the academic unit.

**Effective Semester:** Spring 2008

### TECHNICAL AND BUSINESS WRITING (TECHWR)

Designed for adults learners who seek a competitive edge in the workplace and current undergraduate students preparing for careers. Program provides two tracks: technical (proposals, reports, research strategies, web-based) and business (design, composing in multimedia, web-based). Both include how to create informative, persuasive, web pages and presentations common to business, industry, and government. Students are assigned a faculty mentor, and create and maintain an e-portfolio. The program can be completed for 18 undergraduate credits.

To earn an undergraduate certificate in TECHNICAL AND BUSINESS WRITING, a minimum of 15 credits is required.

Students will complete five courses from either track:

Technical Writing Track:  
ENGL 215  
ART 201 or COMM 241  
ENGL 416  
ENGL 418  
ENGL 420  
Prerequisite: ENGL 202C

Business Writing/Web Track:  
ENGL 215  
ART 201 or COMM 241  
ENGL 419  
ENGL 420  
ENGL 480  
Prerequisite: ENGL 202D

Effective Date: Fall Semester 2011

Expiration Date:

Last Revised by the Department: 8/11/2015

## **Trauma Studies (TR ST)**

This 18 credit certificate will provide the core information and competencies for students interested in pursuing research and applied experiences in trauma studies. The certificate is open to all majors; students will be provided with an interdisciplinary understanding of the psychological, historical, sociocultural, political, and physiological aspects of the effects of trauma. It will also provide students a greater understanding of the unique economic, occupational, physical, medical, and interpersonal needs of those recovering from trauma. The certificate is consistent with psychology program goals to develop clear career tracks for current students interested in the applied fields of psychology.

### **PRESCRIBED COURSES**
