COMPUTER SCIENCE, B.S. (ABINGTON)

Begin Campus: Any Penn State Campus
End Campus: Abington

Program Description
This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. While most students will enter the job market directly upon graduation, graduate school in computer science or related areas is also an option. Selection of electives can be tailored for students pursuing this path.

The Computer Science major provides a solid foundation in the areas of systems programming, algorithm design, artificial intelligence, and engineering large software systems using state-of-the-art methodologies and programming languages.

Students may expect to: develop a solid foundation in mathematical studies relevant to computer science; master skills in computer science; enjoy possibilities for internships and part-time employment with local companies; and become problem solvers. These goals are consistent with the goals outlined by the Association of Computing Machinery.

What is Computer Science?
Computer science is the study of computational methods, including their principles and foundations, their efficient implementation, their analyses, and their practical application in wide-ranging areas. It includes the foundations of software development, computational problem solving, the principles of system software, and the fundamental principles and limits of computing. It is much more than just programming. It includes the mathematical foundations that support analyzing, evaluating, and proving the correctness of computational solutions. It includes specializations such as artificial intelligence, machine learning, cybersecurity, data mining, high-performance computing, computer networks, computer graphics, computer vision, quantum computing, and others. It is continually evolving with the development of new and faster forms of computation and with the identification of new problems that require computational solutions.

You Might Like This Program If...
• You have an interest or aptitude in math.
• You enjoy solving problems and you are good at analytical thinking.
• You are interested in finding more efficient solutions to problems. Remember, computer science is more than just programming.

Entrance to Major
Entry to the Computer Science General Option requires that the student has earned a C or better in the following courses:
• MATH 140
• MATH 141
• CMPSC 121 or CMPSC 131
• CMPSC 122 or CMPSC 132.

A 2.00 or higher cumulative grade-point average is required.

Entry to the Computer Science Data Science Option requires that the student has earned a C or better in the following courses:
• MATH 140
• MATH 141
• CMPSC 131
• CMPSC 132

A 2.00 or higher cumulative grade-point average is required.

Degree Requirements
For the Bachelor of Science degree in Computer Science, a minimum of 120 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>

Supporting Courses and Related Areas

Select 3 credits of unrestricted electives at 300-400 level 3
Select 5 credits of unrestricted electives at 100-400 level 5

1. Students must earn a 2.5 or higher grade point average in the following courses:
   - For the General Option: CMPSC 221, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488
   - For the Data Science Option: DS 220, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 445, CMPSC 446, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 472, CMPSC 487W, and CMPSC 488

### General Education

General Education courses do not meet this requirement.
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

### Breadth in the Knowledge Domains

- Arts (GA): 3 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

### Integrative Studies

- Inter-Domain Courses (Inter-Domain): 6 credits

### Exploration

- GN, may be completed with Inter-Domain courses: 3 credits
- GA, GH, GN, GS, Inter-Domain courses. This may include 3 credits of World Language course work beyond the 12th credit level or the requirements for the student's degree program, whichever is higher: 6 credits

### University Degree Requirements

#### First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.
Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Integrated B.S. in Computer Science and M.S.E. in Software Engineering**
Available at the following campuses: Abington

Requirements for the Integrated B.S. in Computer Science and M.S.E. in Software Engineering can be found in the Graduate Bulletin (https://bulletins.psu.edu/graduate/programs/majors/software-engineering/#integratedundergradgradprogramtext).

**Program Learning Objectives**
- **Computational Problems and Critical Thinking**: Analyze a complex problem and understand the processes of solving computational problems through a systematic approach.
- **Fundamentals of Computer Science**: Develop a strong foundation in the fundamental areas of Computer Science, including programming, data structures, algorithms, computer architecture and operating systems.
- **Math Foundation**: Develop a solid foundation in mathematical studies relevant to computer science.
- **Professional Communication and Team Work**: Develop strong communication skills and work ethics, and perform effectively in teams activities.

- **Software Engineering Principles**: Ability to apply software engineering principles to the design and implementation of software systems.

**Academic Advising**
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and-out of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. Encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY (https://senate.psu.edu/students/policies-and-rules-for-undergraduate-students/32-00-advising-policy/)

**Suggested Academic Plan**
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2024-25 academic year. To access previous years’ suggested academic plans, please visit the archive (https://bulletins.psu.edu/undergraduate/archive/) to view the appropriate Undergraduate Bulletin edition.

**General Option: Computer Science, B.S. at Abington Campus**
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

### Total Credits 121-122

* Course requires a grade of C or better for the major
\(^\dagger\) Course requires a grade of C or better for General Education
\# Course is an Entrance to Major requirement
\(\dagger\) Course satisfies General Education and degree requirement

1 Natural Sciences (GN), recommended courses
   - PHYS 212 General Physics: Electricity and Magnetism

2 Students must earn a 2.5 or higher grade point average in the following courses: CMPSC 221, CMPSC 312, CMPSC 330, CMPSC 360, CMPSC 430, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488.

3 3 credits from courses at 300-400 level and 5 credits from courses at 100-400 level are to be chosen in consultation with the adviser and with program approval.

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GHW, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

### Program Notes:

1. General Education & Entrance to Major Requirements (55 credits)
   a. English (9 credits)
      i. ENGL 151 or ENGL 301 (GWS)
      ii. ENGL 152 (GWS)
   b. Mathematics (10 credits)
      i. MATH 140 (GA)
      ii. MATH 141 (GA)
   c. Computer Science (6 credits)
      i. CMPSC 121 or CMPSC 131 (GQ)
      ii. CMPSC 122 or CMPSC 132
   d. Natural Sciences (6 credits)
      i. PHYS 211 (GN)
      ii. Additional 2 credits of any courses with a GN suffix
   e. Arts\(\dagger\) (3 credits)
      i. 3 credits of any courses with a GA suffix
   f. Humanities\(\dagger\) (3 credits)
      i. 3 credits of any courses with a GH suffix
   g. Social & Behavioral Sciences\(\dagger\) (3 credits)
      i. 3 credits of any courses with a GS suffix
   h. Health & Physical Activities (3 credits)
      i. 3 credits of any courses with a GH suffix
   i. Integrated/inter-domain courses (6 credits)
   j. 6 additional credits of exploration (GA, GH, GN, GS or inter-domain)

2. Core Requirements (65 credits)
   a. Required Computer Science Courses - Students must earn a 2.5 or higher grade point average in the Required Computer Science Courses (39 credits):
      i. CMPSC 221
      ii. CMPSC 312
iii. CMPSC 330
iv. CMPSC 360
v. CMPSC 430
vi. CMPSC 460
vii. CMPSC 462
viii. CMPSC 463
ix. CMPSC 469
x. CMPSC 470
xi. CMPSC 472
xii. CMPSC 487W
xiii. CMPSC 488

b. Required Mathematics Courses - Select one course from the following (3 credits):
i. STAT 318/MATH 318
ii. STAT 414/MATH 414

3. Additional Courses: Technical Electives (15 credits)
a. Select at least 15 credits from the following. At least 9 of these additional course credits must be from courses with a CMPSC prefix. Other courses are to be chosen in consultation with the adviser and with program approval.
i. CMPSC 313
ii. CMPSC 412
iii. CMPSC 413
iv. CMPSC 414

4. Supporting Courses (8 credits)
a. 3 credits from courses at 300-400 level and 5 credits of unrestricted electives at 100-400 level are to be chosen in consultation with the adviser and with program approval.
Data Science Option: Computer Science, B.S. at Abington Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
§ Course satisfies General Education and degree requirement

1 Natural Sciences (GN)
2 Students must earn a 2.5 or higher grade point average in the following courses: DS 220, CMPSC 312, CMPSC 360, CMPSC 430, CMPSC 445, CMPSC 446, CMPSC 460, CMPSC 462, CMPSC 463, CMPSC 469, CMPSC 470, CMPSC 472, CMPSC 487W, and CMPSC 488.
3 5 credits of unrestricted electives at 100-400 level are to be chosen in consultation with the adviser and with program approval.

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy Cultural Diversity Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

General Education includes Foundations (GWS and GQ), Knowledge Domains (GH, GN, GA, GH, GS) and Integrative Studies (Inter-domain) requirements. N or Q (Honors) is the suffix at the end of a course number used to help identify an Inter-domain course, but the inter-domain attribute is used to fill audit requirements. Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Program Notes:

1. General Education & Entrance to Major Requirements (55 credits)
   a. English (9 credits)
      i. ENGL 15S (GWS) or ENGL 30T (GWS)
      ii. ENGL 202C (GWS)
      iii. CAS 100 (GWS)
   b. Mathematics (10 credits)
      i. MATH 140 (GQ)
      ii. MATH 141 (GQ)
      iii. MATH 220 (GQ)
   c. Computer Science (6 credits)
      i. CMPSC 121/CMPSC 131 (GQ)
      ii. CMPSC 122/CMPSC 132
   d. Natural Sciences (6 credits)
      i. PHYS 211 (GN)
      ii. Additional 2 credits of any courses with a GN suffix
   e. Arts †: (3 credits)
      i. 3 credits of any courses with a GA suffix
   f. Humanities †: (3 credits)
      i. 3 credits of any courses with a GH suffix
   g. Social & Behavioral Sciences †: (3 credits)
      i. 3 credits of any courses with a GS suffix
h. Health & Physical Activities (3 credits)
   i. 3 credits of any courses with a GHW suffix
   j. 6 additional credits of exploration (GA, GH, GN, GS or inter-domain)

2. Core Requirements (65 credits)
   a. Computer Science/Data Science/Statistics Courses - Students must earn a 2.5 or higher grade-point average in the Required Computer Science Courses (45 credits):
      i. DS 220
      ii. CMPSC 312
      iii. CMPSC 330
      iv. CMPSC 360
      v. CMPSC 430
      vi. CMPSC 441
      vii. CMPSC 445
      viii. CMPSC 446
      ix. CMPSC 460
      x. CMPSC 462
      xi. CMPSC 463
      xii. CMPSC 469
      xiii. CMPSC 472
      xiv. CMPSC 487W
      xv. CMPSC 488
   b. Required Mathematics/Statistics Courses (9 credits):
      i. STAT 401
      ii. STAT 462
      iii. Select one course from the following:
          1. STAT 318/MATH 318
          2. STAT 414/ MATH 414
   c. Additional Courses: Technical Electives (6 credits)
      a. Select at least 6 credits from the following. Other courses are to be chosen in consultation with the adviser and with program approval.
         i. CMPSC 313
         ii. CMPSC 412
         iii. CMPSC 413
         iv. CMPSC 414
         v. CMPSC 421
         vi. CMPSC 426
         vii. CMPSC 438
         viii. CMPSC 444
         ix. CMPSC 455/ MATH 455
         x. CMPSC 457
         xi. CMPSC 470
         xii. CMPSC 475
         xiii. CMPSC 496
         xiv. CMPSC 497
         xv. MATH 401
         xvi. MATH 410
         xvii. MATH 411
         xviii. MATH 412
         xix. MATH 425
         xx. MATH 430
         xxi. MATH 435
         x xii. MATH 448
         x xiii. MATH 465
         x xiv. MATH 468
         x xv. MATH 485
         x xvi. MATH 496
         x xvii. MATH 497
         xviii. STAT 415/MATH 415
         x xix. STAT 463
   4. Supporting Courses (5 credits)
      a. 5 credits of unrestricted electives at 100-400 level are to be chosen in consultation with the adviser and with program approval.

Career Paths

Computer Science jobs are expected to be among the top three fastest growing occupations and one of the top 20 in the number of new jobs created. According to the U.S. Bureau of Labor Statistics, employment opportunities for Computer Science graduates are projected to grow 11 percent from 2019 to 2029, faster than the average for all occupations. Computer Science students are encouraged to incorporate internships into their academic program. Internships can provide valuable hands-on experience that will benefit graduates during their job search. Previous students have completed successful internships with state government, Google, Amazon, Facebook, Microsoft, IBM, UNISYS, and other businesses.

Careers

This program is designed to prepare students for employment as computer scientists in engineering, scientific, industrial, and business environments as software developers, programmers, and systems analysts. Over the last few years, Penn State Harrisburg Computer Science graduates have obtained positions with companies such as Blue Cross/Blue Shield, Google, Boeing, Microsoft, Intel, IBM, Oracle, General Dynamics, Northrop and Grumman, GEOS, Hershey Medical Center, Woolworth, Rite Aid, and EDS.

Opportunities for Graduate Studies

The program provides a sound background for students who plan to pursue graduate studies in computer science, including Penn State’s Master of Science in Computer Science program. Selection of electives can be tailored for students pursuing this path.
