

HEALTH HUMANITIES, B.A.

Begin Campus: Any Penn State Campus

End Campus: Abington

Career Paths

The B.A. in Health Humanities offers excellent preparation for careers in health-related professions, including in patient care, administration, and human services. In addition, the program's interdisciplinary and holistic approach to the study of health, medicine, healthcare and the body provides students with a strong foundation necessary for a range of roles in fields that are concerned with the cultural, political and societal dimensions of health and healthcare for individuals as well as communities.

Careers

- Healthcare
- Arts
- Business
- Education
- Law
- Journalism
