

# INTERNATIONAL AGRICULTURE, MINOR

---

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

## Program Description

This minor is an interdisciplinary program of study designed to enable students to:

1. gain an awareness and appreciation for the interrelationship and interdependency of the nations of the world for their food and fiber systems worldwide;
2. gain awareness of problems in international agriculture and sustainability of alternative solutions;
3. understand global impacts of technology;
4. understand systems of learning across cultures.

1.

## What is International Agriculture?

The field of international agriculture explores the work and lives of agriculture producers around the world. Agriculture is central to the lives of all people. This field of study provides insights into the social, economic, political, and natural resource systems impacting food producers and consumers globally.

## You Might Like This Program If...

- You want to gain an interdisciplinary understanding of international development and agricultural systems around the globe.
- You are interested in gaining awareness of and appreciation for the interdependent nature of food and fiber systems worldwide.
- You want to understand the global implications of local agricultural production and consumption.
- You want to gain an understanding of the global impacts of technology.
- You want to understand systems of learning across cultures.
