VETERINARY AND BIOMEDICAL SCIENCES, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Learning Objectives

- **Critical Review of Literature**: Students will be able to search, critically evaluate, and discuss the scientific literature and popular press articles in the field of Veterinary and Biomedical Sciences.

- **Life & Physical Science Competency**: Students will exhibit competency in the physical and life sciences, including anatomy, physiology, chemistry, cell biology, microbiology, and immunology.

- **Application of Data and Knowledge**: Students will be able to apply research data and their knowledge from the physical and life sciences toward the management of health and diseases of animals.

- **Effective Communication**: Students will demonstrate effective oral and written communication to both professional and lay audiences.

- **Career Development**: Students will know career options within the Veterinary and Biomedical Sciences and be prepared to succeed in post-graduate jobs and in professional or graduate schools.
