

ARCHITECTURAL HISTORY, MINOR

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Career Paths

The architectural history minor is a great fit for students interested in careers that relate to built environments and the history and preservation of them.

Careers

Students who are pursuing careers in architecture, landscape architecture, art history, historic preservation, historic site management, urban planning, interior design, engineering, anthropology, archaeology, classics, American studies, history, and historical geography will all find that the architectural history minor will supplement their major area of study, and open up more possibilities for them when they enter the work force!
