## Learning Outcomes

The Educational Objectives of the Integrative Arts program identify what Integrative Arts students are expected to know and be able to do by the time of graduation. Graduates of the Integrative Arts program will be able to:

1. Understand, apply, and analyze art historical and aesthetic concepts related to the creation and design of creative works that combine multiple forms of art, design, or performance.
2. Identify and assess philosophies and theories relevant to careers that require knowledge and understanding of multiple forms of arts and design.
3. Demonstrate mastery of tools and practices used in the creation of art, design, and performance works in contexts related to the student's particular area of concentration.
4. Create original, compelling works of art, design, or performance in contexts related to the student's particular area of concentration and that reflect the integration of multiple forms of art, performance, or design.
5. Synthesize and evaluate creative output, contribute to critical discourse, and learn how to incorporate feedback and critique as part of the creative process.
6. Demonstrate the ability to create complex works of art, design, or performance that combine multiple art forms in a manner relevant to individual experiences and that convey a personal visual vocabulary.
7. Demonstrate the ability to plan and implement exhibitions or presentations of creative work from conceptualization through promotion, preparation, and physical installation and performance and to present that work to diverse audiences.
