CHEMISTRY, B.S. (BEHREND)

Begin Campus: Any Penn State Campus
End Campus: Erie

Program Description
This major provides a strong foundation in chemistry and prepares students for graduate or professional programs and for careers with companies and agencies requiring chemistry or related areas. The major has four options that allow students to choose an area of specialization to meet their career goals. These options are:

1. general chemistry,
2. biochemistry,
3. business, and
4. chemistry education pre-certification.

Students have the opportunity to participate in research with faculty members.

What is Chemistry?
Chemistry is the study of matter and its transformations. Chemists seek a molecular-level understanding of the ways in which atoms combine to form molecules and bulk materials, how molecular structure and interactions lead to macroscopic material properties, and how chemical transformations can be used to create useful materials and store energy.

You Might Like This Program If...
• You are curious about the world around you. How and why does it look, sound, smell, taste, and feel the way it does? What are objects composed of? Why do substances react the way they do?
• You find both theoretical and hands-on laboratory learning appealing.
• You enjoy the challenge of problem-solving.
• You are interested in working with instrumentation and making precise measurements.
• You want to study in an American Chemical Society-approved degree program.

Entrance to Major
In order to be eligible for entrance to the CHMBC major (all options), a student must have:

1. attained at least 29.1 credits and
2. earned at least a 2.00 cumulative grade-point average.

Degree Requirements
For the Bachelor of Science degree in Chemistry, a minimum of 124 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Electives</td>
<td>0-5</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>92-102</td>
</tr>
</tbody>
</table>

18-24 of the 45 credits for General Education are included in the Requirements for the Major. For the General Chemistry Option and Biochemistry Option, this includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GS courses; 3 credits of GWS courses.

Per Senate Policy 83.80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education helps students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program) section of the Bulletin and consult your academic adviser.

The keystones symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
• Quantification (GQ): 6 credits
• Writing and Speaking (GWS): 9 credits

Knowledge Domains
• Arts (GA): 6 credits
• Health and Wellness (GHW): 3 credits
• Humanities (GH): 6 credits
• Social and Behavioral Sciences (GS): 6 credits
• Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
• Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
• United States Cultures: 3 credits
• International Cultures: 3 credits
Writing Across the Curriculum

3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits

A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work

Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition

The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major

Each student must earn at least a grade of C in each 300- and 400-level course in the major field and must have earned a minimum 2.00 grade-point average.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Option

Each student must earn at least a grade of C in each 300- and 400-level course in the major field and must have earned a minimum 2.00 grade-point average.

To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44)). For more information, check the Suggested Academic Plan for your intended program.

2 Students may apply up to 6 credits of ROTC.

Chemistry Education Pre-Certification Option (47-48 credits)

This option helps prepare students for chemistry education teaching positions in secondary schools. It includes the academic requirements for the Chemistry Education Instructional I certificate issued by the Pennsylvania Department of Education.

Code Title Credits
Prescribed Courses
EDPSY 14 Learning and Instruction 4
& CI 295 and Introductory Field Experience for Teacher Preparation (must be taken concurrently)
EDTHP 115 Education in American Society 4
& CI 295 and Introductory Field Experience for Teacher Preparation (must be taken concurrently)
Additional Courses
HDFS 129 Introduction to Human Development and Family Studies 3
or PSYCH 212 Introduction to Developmental Psychology
Additional Courses: Require a grade of C or better
Select 6 credits of 400-level CHEM courses 1 6
CHEM 494 Chemical Research 3
or CHEM 496 Independent Studies
MATH 230 Calculus and Vector Analysis 4
PSYCH 100 Introductory Psychology 3
Supporting Courses and Related Areas
Select 6 credits from school-approved list 2 6

1 Excluding CHEM 494, CHEM 495, and CHEM 496.
2 Students may apply up to 6 credits of ROTC.

Program Learning Objectives

1. Periodic Table: The student will understand the importance of the Periodic Table of the Elements, how it came to be, and its role in organizing chemical information.
2. Integrate Knowledge: The student will understand the interdisciplinary nature of chemistry and to integrate knowledge of mathematics, physics and other disciplines to a wide variety of chemical problems.
3. Experiment Design: The student will learn the laboratory skills needed to design, safely conduct and interpret chemical research.
4. Chemical Literature: The student will acquire a foundation of chemistry of sufficient breadth and depth to enable them to critically interpret the primary chemical literature.
5. Communication: The student will develop the ability to effectively communicate scientific information and research results in written and oral formats.
6. Professionalism: The student will learn professionalism, including the ability to work in teams and apply basic ethical principles.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of
both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

Suggested Academic Plan
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2019-20 academic year. To access previous years’ suggested academic plans, please visit the archive (http://bulletins.psu.edu/undergraduate/archive) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

Biochemistry Option at Erie Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).
W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.
GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.
Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes
1.) Students who have not met the admission requirement of two units of a foreign language must complete a college level-one foreign language within their first 60 credits.
2.) Scheduling patterns for courses not taught each semester: Some major requirement will be offered only once a year or every other year depending on demand.
Fall only courses include: CHEM 210, CHEM 227, CHEM 316, CHEM 400, CHEM 413, CHEM 450, CHEM 472
### Supporting Courses List

EDSGN 100S  
BIOL 110 or higher  
CHNS 1, CHNS 2, CHNS 3  
CMPSC any course  
CMPEN any course  
FR 1, FR 2, FR 3  
GER 1, GER 2, GER 3  
MATH 200-level or higher  
MICRB 201 or MICRB 202  
PHYS 213, PHYS 214, PHYS 237, or any 400-level course  
PLET 206 or higher  
SPAN 1, SPAN 2, SPAN 3  
STAT 250 or higher  

The following select courses can also be used as a supporting course under the designated CHMBC option.

### Non-approved Courses List

- Some courses are not appropriate for a chemistry major and will not count toward degree requirements. These courses include, but are not limited to, those listed below:
  
  - Non-approved Courses List
  - BISC 1, BISC 2, BISC 3
  - BMB 1
  - CAS 126
  - CHEM 1, CHEM 3, CHEM 20, CHEM 21, CHEM 101, CHEM 202, CHEM 203
  - CMPSC 100
  - ENGL 4, ENGL 5
  - MATH 1, MATH 2, MATH 4, MATH 17, MATH 18
  - PHYS 1, PHYS 150, PHYS 151, PHYS 250, PHYS 251
  - STAT 100

**Business Option at Erie Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 128-131

* Course requires a grade of C or better for the major  
† Course requires a grade of C or better for General Education  
‡ Course is an Entrance to Major requirement  
‡† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate
an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Program Notes
1.) Students who have not met the admission requirement of two units of a foreign language must complete a college level-one foreign language within their first 60 credits.
2.) Scheduling patterns for courses not taught each semester: Some major requirement will be offered only once a year or every other year depending on demand:
Fall only courses
include: CHEM 210, CHEM 227, CHEM 316, CHEM 400, CHEM 413, CHEM 450, CHEM 472
Spring only courses
include: CHEM 212, CHEM 213, CHEM 431W, CHEM 440, CHEM 452
3.) All first-year baccalaureate degree candidates are required to complete, during the first academic year, a seminar course.
4.) 6 credits of supporting courses are required for the business option. There are a variety of courses you may choose from. The list given below is not completely inclusive. If there is a new course or a technical course under the designated CHMBC option.

Supporting Courses List
EDSN 100S
BIOL 110 or higher
CHNS 1, CHNS 2, CHNS 3
CMPSC any course
CMEN any course
FR 1, FR 2, FR 3
GER 1, GER 2, GER 3
MATH 200-level or higher
MICRB 201 or MICRB 202
PHYS 213, PHYS 214, PHYS 237, or any 400-level course
PLET 206 or higher
SPAN 1, SPAN 2, SPAN 3
STAT 250 or higher
The following select courses can also be used as a supporting course under the designated CHMBC option.

Business Course List
ACCTG 211, 300-499
BA 243
BA 301
BA 303
ECON 104, 300-499
FIN 100, 300-499
Any MIS Course
MGMT 300-499
MKTG 221, 300-499

5.) Non-approved courses - Some courses are not appropriate for a chemistry major and will not count toward degree requirements. These courses include, but are not limited to, those listed below:
Non-approved Courses List
BISC 1, BISC 2, BISC 3
BMB 1
CAS 126
CHEM 1, CHEM 3, CHEM 20, CHEM 21, CHEM 101, CHEM 202, CHEM 203
CMPSC 100
ENGL 4, ENGL 5
MATH 1, MATH 2, MATH 4, MATH 17, MATH 18
PHYS 1, PHYS 150, PHYS 151, PHYS 250, PHYS 251
STAT 100

General Chemistry Option at Erie Campus
The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

First Year

### University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Program Notes

1.) Students who have not met the admission requirement of two units of a foreign language must complete a college level-one foreign language within their first 60 credits.

2.) Scheduling patterns for courses not taught each semester: Some major requirements will be offered only once a year or every other year depending on demand:

   **Fall only courses**
   - include: CHEM 210, CHEM 227, CHEM 316, CHEM 400, CHEM 413, CHEM 450 and CHEM 452

   **Spring only courses**
   - include: CHEM 212, CHEM 213, CHEM 431W, CHEM 440, CHEM 452

3.) All first-year baccalaureate degree candidates are required to complete, during the first academic year, a seminar course.

4.) 6 credits of supporting courses are required for the chemistry pre-education option. There are a variety of courses you may choose from. The list given below is not completely inclusive. If there is a new course or a technical course you feel you would like to include under this selection, please speak with your Academic Adviser or the Academic Coordinator.

### Supporting Courses List

- **EDSGN 100S**
- **BIOL 110** or higher
- **CHNS 1**, **CHNS 2**, **CHNS 3**
- **CMPS** any course
- **CMPS** any course
- **FR 1**, **FR 2**, **FR 3**
- **GER 1**, **GER 2**, **GER 3**
- **MATH 200**-level or higher
- **MICR 201** or **MICR 202**
- **PHYS 213**, **PHYS 214**, **PHYS 237**, or any 400-level course
- **PLET 206** or higher
- **SPAN 1**, **SPAN 2**, **SPAN 3**
- **STAT 250** or higher

The following select courses can also be used as a supporting course under the designated CHMBC option.

### Pre-Education Supporting Course List

- **PSYCH 301W**
- **PSYCH 253**
- **PSYCH 256**
- **PSYCH 445**
- **PSYCH 412**
- **PSYCH 416**
- **PHIL 10**

5.) **Non-approved courses** - Some courses are not appropriate for a chemistry major and will not count toward degree requirements. These courses include, but are not limited to, those listed below:

- **Non-approved Courses List**
  - **BISC 1**, **BISC 2**, **BISC 3**
  - **BMB 1**
  - **CAS 126**
  - **CHEM 1**, **CHEM 3**, **CHEM 20**, **CHEM 21**, **CHEM 101**, **CHEM 202**, **CHEM 203**
  - **CMPS 100**
  - **ENGL 4**, **ENGL 5**
  - **MATH 1**, **MATH 2**, **MATH 4**, **MATH 17**, **MATH 18**
  - **PHYS 1**, **PHYS 150**, **PHYS 151**, **PHYS 250**, **PHYS 251**
  - **STAT 100**

### Career Paths

Chemistry is called "the central science" for good reason—it is an incredibly versatile field of study that directly impacts other scientific fields. To help you tailor your degree to your career interests, Penn State Behrend offers four options for study with the degree program: General Chemistry, Biochemistry, Business, and Education. Penn State Behrend has a comprehensive support system to help you identify and achieve your goals for college and beyond. Meet with your academic adviser often and take advantage of the services offered by the Academic and Career Planning Center beginning in your first semester.

### Careers

Chemistry offers a wealth of career options in medicine, energy, industry, consumer goods, materials, academia, and government service. Penn State Behrend's B.S. in Chemistry graduates currently work as research scientists, product development scientists, field scientists, physicians, pharmacists, consultants, university professors, technical managers, and quality engineers. They are employed at organizations that include NASA,
LORD Corporation, PPG, Hero BX, Associated Clinical Laboratories, and Pyramid Laboratories.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE CHEMISTRY PROGRAM (http://behrend.psu.edu/school-of-science/academic-programs/chemistry)

Opportunities for Graduate Studies
Chemistry is a foundational major for graduate study in specialized sub-disciplines such as biochemistry, toxicology, forensic chemistry, environmental chemistry, materials science, nanotechnology, pharmaceutical synthesis, polymer science, and chemical engineering. Chemistry also is a useful undergraduate major for future doctors, veterinarians, physician assistants, and other health care professionals. Penn State Behrend’s B.S. in Chemistry graduates have pursued advanced degrees at universities and colleges across the nation, including University of Michigan, Princeton University, Case Western Reserve University, University of California Irvine, North Carolina State University, University of Maryland, University of Kansas, and Lake Erie College of Osteopathic Medicine, among others.
