What is Communication?
Communications is an academic discipline that deals with the creation and distribution of mass communication messages through media such as books, newspapers, television, radio, film, video games, and the Internet. Mass communications use writing, speech, photographs, video, and interactive content to give information or influence the audience. Communications also concerns the study of how we communicate in different ways with diverse audiences through marketing, advertising, public relations, corporate communications, digital journalism, film and other media.
