

# FINANCIAL CONTROLLERSHIP, CERTIFICATE

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

## Program Description

This certificate is designed to provide you with the skill sets to succeed in becoming a corporate accounting and financial management professional. Required coursework is aligned with topics covered by the Certified Management Accountant (CMA) examination. CMA certification demonstrates expertise in financial planning, analysis, control, decision support, and professional ethics.

## What is Financial Controllorship?

The financial controller holds a leadership position within an organization. The controller's responsibilities include protecting and preserving the organization's assets; making financial reports to executive leadership, the board of directors, stockholders, and taxing bodies; and involvement in financial decision-making.

## You Might Like This Program If...

You are an Accounting or Finance major who aspires to a financial leadership position.

1. Think critically, solve problems, and make decisions. Graduates are able to objectively identify and prioritize accounting problems. Graduates are able to develop alternative solutions to an accounting problem. Graduates demonstrate sufficient skills to read, reason logically, and draw relevant conclusions.

2. Recognize ethical issues in business and know how to deal with them. Graduates will recognize ethical issues in business situations. Graduates will apply ethical frameworks to business problems. Graduates will describe the ethical consequences of decision alternatives.
3. Maintain technical competency in accounting. Graduates will demonstrate technical competency in accounting skills in Cost Accounting. Graduates will demonstrate technical competency in accounting skills in Accounting Systems. Graduates will demonstrate technical competency in accounting skills in Financial Statement Analysis. Graduates will demonstrate technical competency in Investment and Portfolio Analysis. Graduates will demonstrate technical competency in Portfolio Management and Analysis.

## Academic Advising

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
