HISTORY, B.A. (BEHREND)

Begin Campus: Any Penn State Campus
End Campus: Erie

Program Description

The B.A. degree program in History focuses on the study of the evolution of American and European institutions. This program enables students to pursue history in the traditional mode as a study of written records.

What is History?

History offers a compelling vision of human activity and capability—from the heights of human creativity and compassion, to the depths of cruelty. It offers a unique analytical perspective on the world, too, because it brings to bear a comprehensive view that social-science disciplines seldom match. To understand history, we need to know about culture, religion, art, as well as politics and war. The study of history permits a breadth of knowledge, an understanding of trends, and many other intellectual perspectives that allow an individual to better comprehend today’s complex world.

You Might Like This Program If...

• You want your college experience to satisfy your love of history and the humanities while preparing you for future endeavors.
• You are eager to improve your knowledge of the historical background that will help you to better understand current events.
• You are looking for a foundational degree program that is useful in many different career paths.
• You are fascinated by North American, South American, Central American, European, African, or Asian history.
• You dig archaeology and anthropology.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

4. Demonstrate historical research capabilities built upon the analysis of primary and secondary sources.
5. Demonstrate skills in effective written communication.

**Academic Advising**
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each adviser with a primary academic adviser; the information needed to plan the chosen program of study, and referrals to other specialized resources.
