

PROJECT AND SUPPLY CHAIN ANALYTICS, CERTIFICATE

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

PROGRAM DESCRIPTION

The project and supply chain management job market remains strong, and the demand for analytics skills within the domain has been growing significantly. With the newly added electives, including SCM 340: Introduction to Supply Chain Analytics and MGMT 430: Project Risk Management, the analytics components within the PSCM program have been strengthened and emphasized. A Project and Supply Chain Analytics certificate will maximize the value of the course offerings and enhance student employability.

PROGRAM REQUIREMENTS

To earn an undergraduate certificate in Project and Supply Chain Analytics, a minimum of 12 credits is required.

Code	Title	Credits
Required Courses		
MGMT 410	Project Management	3
MGMT 430	Project Risk Management	3
SCM 340	Introduction to Supply Chain Analytics	3
SCM 301	Supply Chain Management	3
