

# SCIENCE, B.S. (BEHREND)

---

**Begin Campus:** Any Penn State Campus

**End Campus:** Erie

## Career Paths

To help you achieve your career goals, you can specialize your Science studies by pursuing one of four options within the degree program: Environmental Studies, General Science, General Science Education Precertification, and Earth and Space Science Education Precertification. Penn State Behrend has a comprehensive support system to help you identify and achieve your goals for college and beyond. Meet with your academic adviser often and take advantage of the services offered by the Academic and Career Planning Center beginning in your first semester.

## Careers

Your career options are limited only by your imagination, talent, and perseverance. A STEM undergraduate degree such as the B.S. in Science is a very useful foundation for a wide array of possible careers and for many interdisciplinary graduate school programs. Penn State Behrend Science graduates include pharmacists, educational consultants, optometrists, environmental specialists, field engineers, science teachers, analytical research chemists, field biologists, lab managers, and physicians.

## Opportunities for Graduate Studies

Science can be a foundational major for graduate study in any branch of the physical, chemical, or biological sciences, or for graduate education in preparation for a career as a physician, veterinarian, physician assistant, or other health care professional.
