

COMMUNICATION ARTS AND SCIENCES, B.A. (BERKS)

Begin Campus: Any Penn State Campus

End Campus: Berks

Program Description

This major helps students better understand and analyze how people communicate in order to influence others and impact the world around them. The ability to communicate effectively in personal, social, professional, and multicultural situations is an essential skill in modern society. Discovering how to improve practices of communication in any of those situations—whether from a humanistic or scientific perspective—is equally vital. Students of Communication Arts and Sciences will therefore learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. Such flexibility is illustrated in the fact that this degree offers two different options for completion based on varying instructional and student needs (the Communication Studies option and the Foundations, Scholarship, and Practice option). For these reasons, majoring in Communication Arts and Sciences also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

Two degree options are available for the Communication Arts and Sciences B.A. in order to provide flexibility based on student and faculty needs at different campuses where the degree is offered:

Communication Studies Option

Available at the following campuses: Berks, Brandywine

The B.A. in Communication Arts and Sciences (Communication Studies) provides increased knowledge and skill concerning the practice of human communication across an array of interpersonal, organizational, social, and cultural contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Communication Studies) also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, and professional life—can significantly enhance students' preparation in many fields of study.

Foundations, Scholarship, and Practice Option

Available at the following campuses: University Park

The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) promotes an understanding of fundamental facets of human communication, knowledge of theories and research that

illuminate communication processes, and expertise in practical applications of communication research to civic, cultural, family, health, interpersonal, organizational, and social contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) also offers an excellent concurrent degree program: A substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

What is Communications Arts and Sciences?

Communication Arts and Sciences (CAS) is committed to the study, teaching, and practice of human communication for the betterment of Pennsylvania, the nation, and the world. Using methods and theories that span the humanities and social sciences, we create knowledge about the role of communication in diverse interpersonal, communal, national, international, and cultural settings. Our research is integral to our educational mission: to promote greater understanding of and facility with oral, written, and nonverbal communication.

You Might Like This Program If...

- You want to learn about the importance of human communication from a combination of social scientific and humanistic perspectives.
- You want to learn how to craft effective messages for different audiences.
- You want to develop analytic and critical thinking skills in order to understand how messages influence audiences.
- You want to acquire theories, methods, and practical tools to understand the roots of social conflict and help change them through improved practices of communication.
