Criminal Justice, B.A. (Berks)

Begin Campus: Any Penn State Campus
End Campus: Berks

Program Description
Students receiving a baccalaureate degree in criminal justice should understand each of the three main components of the criminal justice system and their interrelationships, be able to evaluate critically both current and future crime control policy proposals and criminal justice research, and understand the complexity of the crime phenomenon and its relationship to individual, social, and cultural factors. This major includes study in law enforcement, courts and corrections individually and as components of a system, plus work in theories of crime causation, and crime control policy. Students should expect reading, writing, and critical thinking skills to be rigorously applied and developed throughout the degree program. The Bachelor of Arts degree in Criminal Justice provides a broadly based liberal arts background for the study of crime, justice and the criminal justice system. The Bachelor of Science degree offers an opportunity for educational enrichment in fields not traditionally considered part of the liberal arts. Either degree is excellent preparation for a career in criminal justice, graduate, or professional study, or informed citizenship.

What is Criminal Justice?
Criminal justice is the study of the adult and juvenile justice systems, including law enforcement, the courts, and corrections. It is interdisciplinary and includes understanding the intersections of law, public policy, and behavioral science, in an effort to understand crime as a social problem and improve these systems for the good of society.

You Might Like This Program If...
You have an interest in working in corrections, courts, court administration, law enforcement, and probation and parole. Students completing this course of study are prepared to enter law school and graduate degree programs in more specialized areas. Every student in this degree will participate in an internship at a host agency located in a local, state or federal agency of their choice.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program/) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Program Learning Objectives
1. Students will demonstrate knowledge about the major concepts associated with the various components of both the adult and juvenile justice systems through a variety of assessment methods, including examinations, research projects, and case study applications.
2. Students will exhibit the importance of the scientific inquiry and the role it plays in the criminal justice policy arena.
3. Students will be prepared for the complex nature of society through the exposure to an interdisciplinary curriculum and appreciate the intersections between such disciplines as public policy, behavioral science, sociology, and criminal justice.
4. Students will demonstrate the importance of ethics in the field of criminal justice through course materials and internship experiences.
5. Students will appreciate the role that gender, race/ethnicity, and social class play in the criminal justice field and the need to be prepared to interact with individuals from diverse backgrounds.
6. Students will learn to effective communicate both in writing and orally.
7. Graduates of the Program will be prepared for either work in the field of criminal justice or placement in criminal justice or related graduate programs.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged
in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee's unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
