GLOBAL STUDIES, B.A.

Begin Campus: Any Penn State Campus
End Campus: Berks

Program Description
This major is designed for students who are interested in a liberal arts degree with a concentration in global studies. Featuring both active and collaborative classroom experiences in addition to intensive study abroad/internship experiences, the program is designed for students who wish to develop a set of analytical and interpersonal skills that will prepare them for entry-level employment in a wide range of government and non-profit organizations and agencies and in businesses and industry. Because of the flexible and broad nature of the degree, students might also use this major as preparation for graduate or professional school in business, law, or the social sciences. This program differs most notably from traditional majors in international/global studies by requiring core courses in world literature and intercultural communication, while retaining the traditional foreign language, history, and political science emphasis of most other programs. Study abroad and an internship with an international organization are also important features of this degree.

What is Global Studies?
If you are interested in helping to make the world a better place, the Bachelor of Arts in Global Studies degree may be the perfect fit for you. Global Studies is the study of globalization as it relates to the economy, market relations, the movement of people and resources, communications, politics, the effect of human activity on the environment, and cultural interconnectedness. Global Studies promotes intercultural understanding and sensitivity to diversity, critical components to navigating the twenty-first century global environment.

You Might Like This Program If...
- You enjoy working with individuals and groups from diverse populations and reaching common understanding.
- You are concerned with global issues such as the environment, human rights, immigration, diplomacy, and international business.
- You like to look at the big picture and to help others see issues from a broader perspective.
- You would like the flexibility of a broad, liberal arts major that prepares you to enter a variety of fields or to enter graduate or professional school.

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in- and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
