OCCUPATIONAL THERAPY, A.S. (BERKS)

Begin Campus: Berks
End Campus: Berks

Program Description

The Associate in Science in Occupational Therapy Assistant Program prepares students to work in numerous practice settings, guided by the supervision of occupational therapists. Across the lifespan, individuals engage in meaningful occupations. Learning, playing, working, resting, and caring for self and others are among the occupations of life. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. Occupational therapy makes it possible for people to maintain or reclaim independence; thereby positively engaging in Living Life to its Fullest™. Upon successful graduation from the program, students must sit for and successfully pass the National Board for Certification in Occupational Therapy (NBCOT) national certification examination to practice. Most states also require licensure as a condition for employment. A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination and obtain licensure. NBCOT may be contacted at:

NBCOT
One Bank Street
Suite 300
Gaithersburg, MD 20878
301-990-7979
www.NBCOT.org (http://www.NBCOT.org)

To enter this major, students must have a high school diploma or its equivalent. To be admitted to degree candidacy, the applicant must have completed educational background requirements called Carnegie Units or Secondary School Units. Students are responsible for proof of liability insurance and other requirements specified by the facility providing supervised field experience.

The size of each entering class is limited so that optimal clinical experiences and practical application situations can be maintained. Students are expected to progress through the program in the prescribed manner. Fieldwork affiliations are maintained within a specified geographical area. Students may be required to make special housing and transportation arrangements during the fieldwork phase. Students must complete all Level II fieldwork within eighteen months of successful completion of OTA didactic course work. The 2OTCC and 2OTBL curricula are delivered in five semesters.

What is Occupational Therapy?

Occupational therapy is a practice informed by physical, psychological, and occupational science. It is with these skills and knowledge; occupational therapy assistants employ intervention plans that engage people in maintaining or reclaiming independence. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. When this occurs an occupational therapy assistant works with the client(s) to design a plan to Live Life to its Fullest™. As a certified occupational therapy assistant, you will work in numerous practice settings, guided by the supervision of occupational therapists. Most importantly, by choosing a career in occupational therapy, you will be at the forefront in making a difference in people’s lives by way of therapeutic use of self and an intentional relationship.

You Might Like This Program If...

You want to work in a variety of practice settings with individuals and groups across the lifespan. Physical, mental health, emotional, and other challenges prevent people from participating fully in the job of living. Occupational therapy makes it possible for people to regain independence and to enjoy life. By choosing a career in occupational therapy, you will make a difference in lives of people and groups in your community.

Entrance to Major

The Occupational Therapy Assistant program admits students to begin in the fall semester.

Incoming first-year and transfer students who meet the program and campus admission requirements are admitted directly into the major. For more information about the admission process for this major, please send a request to the campus undergraduate admission office or to the program contact (listed in the Contact tab of the Bulletin).

First year students include those who have graduated from high school and have attempted fewer than 18 semester hours of college coursework at another college or university after high school graduation.

The minimum high school units required for admission to the Occupational Therapy Assistant program include four secondary units of English, two units of mathematics (including one unit of algebra), two units of science (one unit must be biology), and five units of arts, humanities, social studies, and/or foreign languages.

Although the minimum high school GPA required for admission is a 2.0 (on a 4.0 scale), this does not guarantee admissions into the program. The program is competitive; therefore, applicants who submit their application to Penn State by December 31 will be reviewed on a space available basis.

Transfer Applicants

In addition to a cumulative grade-point average, it is recommended that a transfer applicant should have demonstrated successful completion of at least three (3) credits of natural science with a lab and one (1) social science related course from another institution. These types of courses may include (but are not limited to) mammalian anatomy, physiology, chemistry, psychology, sociology, and other core biological, chemical, and social sciences. The admissions selection committee strives to select students who have demonstrated the potential to succeed in a rigorous, science-oriented program of study.

* OT does not offer an advanced placement option for coursework for credit for experiential learning in the OTA program.
* OT does not require prerequisite education or work-related experience for admission to the OTA program.

Change of Major

Requests will be considered for entrance into the OTP Program based on academic performance and space available in the OTA Program.

Students who wish to change their major must have a cumulative collegiate grade-point average of 2.0 on a 4.0 scale as the minimum University requirement for change of major consideration. In general,
change of major to the Occupational Therapy Assistant program requires a substantially higher cumulative grade-point average. The number of qualified applicants typically exceeds the number of available program spaces; therefore, satisfaction of the minimum requirements does not guarantee approval for entrance to major.

In addition to a cumulative grade-point average, it is recommended that all change of major applicants should have demonstrated successful completion of at least one (1) laboratory based biological and one (1) social science related course prior to the January review.

**Biological and Life Sciences (one lecture and one lab)**
- BIOL 161/BIOL 162: Anatomy & Physiology I
- BIOL 163/BIOL 164: Anatomy & Physiology II

**Social and Behavioral Sciences (choose at least one)**
- PSYCH 100: General Psychology
- HDFS 129: Introduction to Human Development and Family Studies
- PSYCH 212

**Additional Information**

Students are responsible for proof of liability insurance and other requirements, including criminal background checks and health information specified by the facility providing supervised field experience.

A felony conviction on record may impact a student’s ability to sit for the certification examination administered by NBCOT after graduation; this can subsequently impact a graduate’s ability to attain state licensure. Before applying to the OTA program, students can contact NBCOT for information on their early determination program to assess examination eligibility. Contact NBCOT at https://www.nbcor.org/ for more information.

**Retention Requirements**

**OTA Student Academic Success**

Students in the Associate in Science in Occupational Therapy Program must earn a grade of C or better in: BIOL 161, BIOL 162, BIOL 163, BIOL 164, PSYCH 100, HDFS 129 or PSYCH 212, OT 100, OT 101, OT 103, OT 205, OT 207, OT 209, OT 210W, OT 212, OT 214, and OT 216.

As outlined in the course syllabi and the Associate Degree Programs Bulletin, students must earn passing grades in prerequisite occupational therapy courses to enroll in subsequent occupational therapy courses. Students will take the OT didactic courses offered in each semester, concurrently and in the prescribed sequence, since the curriculum is a progressive learning model. Level II fieldwork is completed only after the OT didactic courses and all general education requirements are successfully completed. Level II fieldwork must be completed within 18 months after completion of didactic coursework.

**Ongoing Progression in the OTA Program**

As per ACOTE Standard 3.4 Criteria for Successful Completion and A.3.5 Evaluation with Student on a Regular Basis, the faculty and administration will provide students regular feedback about their academic standing. Regarding successful completion of the OTA program there are instances where progression in the program is non-negotiable as follows:

1. A student who earns a D or F in any two OT didactic and/or fieldwork courses will not be allowed to continue in the program. Examples include but are not limited to: Failure of (OT 103 and OT 295E) or (OT 195E and OT 395A) or (OT 101 and OT 210W).
2. A student may be disenrolled from the program for a violation of the Occupational Therapy Code of Ethics and/or Penn State Academic Integrity Policy G-9.
3. A student may not progress to the 3rd semester of the curriculum until BIOL 161, BIOL 162, BIOL 163, and BIOL 164 have been successfully completed with a C or better. If BIOL courses are not successfully passed by 3rd semester, the student may withdraw from the University or remain active and return to 3rd semester of prescribed OT courses the following year with the approval of Program Director.
4. Students must maintain a minimum grade point of 2.0 to be eligible to engage in Fieldwork Level I & II (OT 195E, OT 295E, OT 395A and OT 395B).

**Degree Requirements**

For the Associate in Science degree in Occupational Therapy, a minimum of 71 credits is required:

<table>

</tr>
</tbody>
</table>

**Requirements for the Major**

A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**General Education**

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all associate degree students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (https://bulletins.psu.edu/undergraduate/general-education/associate-degree-general-education-program/) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 3 credits
- Writing and Speaking (GWS): 3 credits

**Knowledge Domains**
- Arts (GA): 3 credits
- Humanities (GH): 3 credits
- Social and Behavioral Sciences (GS): 3 credits
- Natural Sciences (GN): 3 credits

**Note:** Up to six credits of Inter-domain courses may be used for any Knowledge Domain requirement, but when a course is used to satisfy more than one requirement, the credits from the course can be counted only once.

**Foundations or Knowledge Domains**
- Any General Education course: 3 credits

**University Degree Requirements**

**Cultures Requirement**
3 credits of United States (US) or International (IL) cultures coursework are required and may satisfy other requirements

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 60 degree credits must be earned for a associates degree. The requirements for some programs may exceed 60 credits. Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

**Academic Advising**
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2022-23 academic year. To access previous years’ suggested academic plans, please visit the archive (https://bulletins.psu.edu/undergraduate/archive/) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contains suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).

**Occupational Therapy, A.S. at Berks Campus**

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major

† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
* Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GN, GA, GH, and GS). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

**Advising Notes:**

As per ACOTE Standard A.4.6 (2018) Notice to Applicants related to Criteria for Successful progression, retention, graduation, certification, and credentialing requirements of the Associate in Science in Occupational Therapy Degree.

Successful completion of each segment of the OTA Program requires the following:

- Student must earn a C or better in the OTA major coursework:
  - Each OT Course, BIOL 161, BIOL 162, BIOL 163, BIOL 164, HDFS 129 or PSYCH 212, PSYCH 100
  - As per Penn State policy, student must earn C or better in Foundation Courses: ENGL 15(GWS) & MATH (GQ).
  - OT course must be taken in the semester designated on this Suggested Academic Plan for OTA.
  - Student must pass BIOL 161, BIOL 162, BIOL 163 & BIOL 164 prior to entering 3rd semester.
  - Student must pass ENGL 15, PSYCH 100, and HDFS 129 or PSYCH 212 prior to entering the 3rd semester.
  - When a student fails an OT course, they may not progress to next semester. Student will need to meet with adviser to discuss options of progression in the program.
  - Student must maintain 2.0 GPA, to engage in OT 195E or OT 295E: Level I Fieldwork Experience.
  - GQ, GH & GA can be moved around with the curriculum; however, must be completed by end of 3rd semester.
  - All didactic degree requirements must be completed with a 2.0 GPA or better prior to enrolling in OT 395A/OT 395B.
  - OT 195E, OT 295E, OT 395A, and OT 395B date & site of experience will be scheduled by the Academic Fieldwork Coordinator.

To graduate with an Associate in Science in Occupational Therapy degree:

- Student must maintain a 2.0 GPA per Academic Progress Policy 54-00, "To graduate, a degree candidate must complete the requirements for the candidate's major and earn at least a C (2.00) average for all courses taken at this University as stated in 82-40, subject to the conditions of 51-00."
- Student must complete OT 395A & OT 295B within 18 months of completing the didactic requirements.
• A felony conviction on your record, may affect your ability to sit for the certification examination administered by NBCOT® after you graduate; this can subsequently affect your ability to attain state licensure. Before applying for the OTA program, you can contact NBCOT® for information on their early determination program to assess examination eligibility. Go to NBCOT and read the "Early Review" section for details (https://www.nbcot.org/en/Students/Services/#EarlyDetermination).

**Career Paths**

Certified Occupational Therapy Assistants (COTA’s) work in numerous practice settings. Across the lifespan, individuals engage in meaningful occupations. Learning, playing, working, resting, and caring for self and others are among the occupations of life. A physical or psychological challenge may hinder an individual, group, and/or community from participating fully in meaningful occupations. Occupational therapy makes it possible for people to maintain or reclaim independence. Following graduation from the nationally accredited program, students are eligible to take the National Board for Certification in Occupational Therapy (NBCOT) exam.

**Careers**

A Certified Occupational Therapy Assistant (COTA) supports individuals of all ages develop, recover, improve, or maintain the skills necessary for daily living, leisure, play, and work. COTA’s work in public and private schools, early intervention programs, general, psychiatric, and pediatric hospitals, day treatment centers, hospices and home health agencies, rehabilitation hospitals and centers, skilled and intermediate care facilities, community living programs, community wellness centers, and/or hand therapy clinics.

**Opportunities for Graduate Studies**

Once a Certified Occupational Therapy Assistant (COTA) has completed the associate in science in occupational therapy degree, they may decide to further studies by obtaining a baccalaureate degree. Common degrees include biology, psychology, occupational science, biobehavioral health, integrated social sciences, and other health related degrees.

Many COTA’s decide to complete a baccalaureate degree secondary to the benefits of advancing their education as applied to occupational therapy and/or as part of positive progression of employment. Additionally, some COTA’s complete a baccalaureate degree to prepare for graduate studies at the master’s or doctoral degree entry-level to become occupational therapists.
