AMERICAN STUDIES, B.A. (CAPITAL)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
This interdisciplinary major is designed to provide students with an integrated and critical knowledge of American culture, drawing on courses in American Studies and in the traditional disciplines and culminating in two senior seminars. A number of interests may be pursued within the major, including popular culture, art, technology, business, law, archives, museology, and conservation. The major helps prepare students for careers in business, teaching, government, and a number of other areas, and for enrollment in law and other professional programs.

What is American Studies?
American Studies examines the country’s history in a way that emphasizes culture – literature, art & architecture, film, folklore, music, and media. While discovering America’s past, students learn to think critically – to analyze and evaluate information; to write and speak clearly and expressively; and to conduct research.

You Might Like This Program If...

• You enjoy pop culture and wonder what social and historical forces helped shape it.
• You like making connections between history, society, economics, literature, film, and art.
• You want to understand the American experience beyond just what is relayed in a history text.
• You want to explore the experiences of women, minorities, and different ethnic and religious groups.
• You want to pursue a career in education, law, government, museums, cultural agencies, archives, public policy, or communications.

Entrance to Major
For entrance into the major, the following must be met:

1. At the end of the sophomore year, any student in good standing may gain entrance into the major without having completed specific courses.
2. Any student seeking entrance during the fifth semester will be granted entrance at the discretion of the American Studies Committee and/or Director following evaluation of the student’s record.
3. Any student seeking entrance during or after the sixth semester will be expected to have completed at least 12 credits, which may be counted toward the major in American Studies.

Degree Requirements
For the Bachelor of Arts degree in American Studies, a minimum of 123 credits is required:

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program/) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Program Learning Objectives

American Studies Bodies of Knowledge

1. 2. American Intellectual and Cultural History: Students will be able to demonstrate knowledge of America's intellectual and cultural history, from 1600 to 2000.

American Studies Theories and Methods

1. Symbol and Myth Analysis: Students will be able to interpret texts from America's past by isolating symbols and myths that were culturally meaningful to the people at the time.

2. Oral Presentation: Students will be able to present American Studies research orally in a clear and organized fashion.

3. Writing: Students will be able to compose thesis-driven essays that require research into primary and secondary sources, that involve textual analysis and close readings of images and passages, that cite sources correctly, and that use supporting evidence in an organized fashion to analyze texts and topics.
Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
