Biology, B.S. (Capital)

Begin Campus: Any Penn State Campus
End Campus: Harrisburg

Program Description
Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

Biology is the scientific study of life: the diversity and organization of organisms, from single-celled bacteria to multi-cellular plants and animals, including humans. These different levels of biological organization range from the molecules and cells that compose an organism, to the interacting organisms that make up an ecosystem.

Hands-on experiences, from designing and conducting lab experiments to making field observations, using many different procedures and instruments, play an important role in gaining biological knowledge.

Basic research in Biology provides many benefits. Faculty in the Biology Department at Penn State are exploring ways to cure neurological diseases, to conserve coral populations in tropical oceans, to discover more efficient ways to use plants for food and bioenergy, to develop vaccines for infectious diseases, and investigating many other facets of Biology, all with the goal of positively impacting humans and the environment.

You Might Like This Program If...
- You are interested in learning about aspects of the biology of organisms that live on Earth.
- You enjoy a dynamic field of study, with new discoveries being made every day.
- You are interested in hands-on experiences, including courses with integrated laboratories and conducting research with faculty.
- You plan to pursue a career in biology research, education or outreach, or attend professional school in areas including medicine and dentistry.

Entrance Requirements
In order to be eligible for entrance to the Biology major, a student must have:

1. attained at least a 2.00 cumulative grade point average;
2. completed BIOL 110, CHEM 110, MATH 140, and earned a grade of C or better in each of these courses; and
3. completed at least one of the following courses with a grade of C or better: BIOL 220W, BIOL 230W, or BIOL 240W.

Degree Requirements
For the Bachelor of Science degree in Biology, a minimum of 124 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>94</td>
</tr>
</tbody>
</table>

15 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses.

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements [section of the Bulletin and consult your academic adviser.](http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program)

The Keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.
Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Additional Courses
Select one of the following: 8-12

- PHYS 211 | General Physics: Mechanics
- PHYS 212 | General Physics: Electricity and Magnetism
- PHYS 213 | General Physics: Fluids and Thermal Physics
- PHYS 214 | General Physics: Wave Motion and Quantum Physics
- PHYS 250 | Introductory Physics I
- PHYS 251 | Introductory Physics II

Select one of the following: 3-4

- STAT 200 | Elementary Statistics
- STAT 240 | Introduction to Biometry
- STAT 250 | Introduction to Biostatistics

Requirements for the Option
Select an option 46-51

Requirements for the Option

- BIOL 426 Developmental Neurobiology
- BIOL 470 Functional and Integrative Neuroscience
- BIOL 478 COMPARATIVE NEUROANATOMY

**Groups**

Select a minimum of 12 credits of 400-level biology courses, with at least 6 credits from the Neuroscience group, 3 credits from the Evolution group, and 3 credits from the Practicum group. A maximum of 3 credits of BIOL 400, 494, 495, 496 and SC 295, 395, 495 may be used to fulfill the 12 credit minimum in the 400-level biology course requirements.

- **Neuroscience Group:**
  - BIOL 404 Cellular Mechanisms in Vertebrate Physiology
  - BIOL 413 Cell Signaling and Regulation
  - BIOL 424 Seeds of Change: The Uses of Plants
  - BIOL 426 Developmental Neurobiology
  - BIOL 430 Developmental Biology
  - BIOL 437 Histology
  - BIOL 467 Molecular Basis of Neurological Diseases
  - BIOL 470 Functional and Integrative Neuroscience
  - BIOL 472 Mammalian Physiology
  - BIOL 473 Laboratory in Mammalian Physiology
  - BIOL 478 COMPARATIVE NEUROANATOMY
  - BIOL 479 General Endocrinology
  - BBH 432 Biobehavioral Aspects of Stress
    or BBH 451 Pharmacological Influences on Health
    or BBH 468 Neuroanatomical Bases for Disorders of Behavior and Health
    or HDFS 468
    or NUTR 445 Energy and Macronutrient Metabolism
    or PSYCH 45 Learning and Memory
    or PSYCH 46 Physiological Psychology
    or PSYCH 47 Clinical Neuropsychology

- **Evolution Group:**
  - BIOL 405 Molecular Evolution
  - BIOL 406 Symbiosis
  - BIOL 411 Medical Embryology
  - BIOL 414 Taxonomy of Seed Plants
  - BIOL 417 Invertebrate Zoology
  - BIOL 420 Paleobotany
  - BIOL 421 Comparative Anatomy of Vertebrates
  - BIOL 422 Advanced Genetics

- **Practicum Group:**
  - BIOL 400 Teaching in Biology
  - BIOL 402W Biological Experimental Design
  - BIOL 407 Plant Developmental Anatomy
  - BIOL 414 Taxonomy of Seed Plants
  - BIOL 417 Invertebrate Zoology
  - BIOL 419 Ecological and Environmental Problem Solving
  - BIOL 421 Comparative Anatomy of Vertebrates
  - BIOL 422 Advanced Genetics
  - BIOL/PPEM 425 Biology of Fungi
  - BIOL 433 Evolution of Vertebrates
  - BIOL 437 Histology
  - BIOL 439 Practical Bioinformatics
  - BIOL 444 Field Ecology
  - BIOL 450W Experimental Field Biology
  - BIOL 461 Contemporary Issues in Science and Medicine
  - BIOL 473 Laboratory in Mammalian Physiology
  - BIOL 475N Anatomy in Italy: Cadavers, Culture, and Science
  - BIOL 478 COMPARATIVE NEUROANATOMY
  - BIOL 482 Coastal Biology
  - BIOL 494 Research Project
  - BIOL 495 Internship in Biology
  - BIOL 496 Independent Studies
  - BIOL 499A Tropical Field Ecology
  - BIOTC 459 Plant Tissue Culture and Biotechnology
  - SC 295 Science Co-op Work Experience I
  - SC 395 Science Co-op Work Experience II
  - SC 495 Science Co-op Work Experience III

**Supporting Courses and Related Areas**

Select 14-19 credits from department list

**Plant Biology Option (46-51 credits)**

*Available at the following campuses: University Park*
**Prescribed Courses**

### Physiology Group:

- BIOL 404 Cellular Mechanisms in Vertebrate Physiology
- BIOL 406 Symbiosis
- BIOL 409 Biology of Aging
- BIOL 411 Medical Embryology
- BIOL 412 Ecology of Infectious Diseases
- BIOL 413 Cell Signaling and Regulation
- BIOL 415 Ecotoxicology
- BIOL 416 Biology of Cancer
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 424 Seeds of Change: The Uses of Plants
- BIOL 426 Developmental Neurobiology
- BIOL 430 Developmental Biology
- BIOL 431 Reproductive Biology
- BIOL 432 Developmental Genetics
- BIOL 437 Histology
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms
- BIOL 446 Physiological Ecology
- BIOL 460 Human Genetics
- BIOL 469 Neurobiology
- BIOL 470 Functional and Integrative Neuroscience
- BIOL 478 COMPARATIVE NEUROANATOMY
- BIOL 479 General Endocrinology
- BIOL 482 Coastal Biology
- ANSC 431 Physiology of Animal Reproduction
  - or ANTH 466 The Skull
  - or BMB 484 Functional Genomics
  - or ENT 402 Biology of Animal Parasites
  - or MICRB 40 Microbial Physiology and Structure
  - or MICRB 41 Principles of Immunology
  - or MICRB 41 Medical Microbiology
  - or MICRB 43 Viral Pathogenesis
  - or PSYCH 46 Physiological Psychology

### Evolution Group:

- BIOL 405 Molecular Evolution
- BIOL 406 Symbiosis
- BIOL 411 Medical Embryology
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology
- BIOL 420 Paleobotany
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 427 Evolution
- BIOL 428 Population Genetics
- BIOL 429 Animal Behavior
- BIOL 432 Developmental Genetics
- BIOL 433 Evolution of Vertebrates
- BIOL 434 Pathobiology of Emerging Infectious Disease
- BIOL 436 Population Ecology and Global Climate Change
- BIOL 438 Theoretical Population Ecology
- BIOL 439 Practical Bioinformatics
- BIOL 443 Evo-devo: Evolution of Developmental Mechanisms
- BIOL 446 Physiological Ecology
- BIOL 451 Biology of RNA
- BIOL 460 Human Genetics
- BIOL 463 General Ecology
- BIOL 464 Sociobiology
- BIOL 474 Astrobiology
- BIOL 478 COMPARATIVE NEUROANATOMY

### Practicum Group:

- BIOL 400 Teaching in Biology
- BIOL 402W Biological Experimental Design
- BIOL 407 Plant Developmental Anatomy
- BIOL 414 Taxonomy of Seed Plants
- BIOL 417 Invertebrate Zoology
- BIOL 419 Ecological and Environmental Problem Solving
- BIOL 421 Comparative Anatomy of Vertebrates
- BIOL 422 Advanced Genetics
- BIOL/PPEM 425 Biology of Fungi
- BIOL 433 Evolution of Vertebrates
- BIOL 437 Histology
- BIOL 439 Practical Bioinformatics
- BIOL 444 Field Ecology
- BIOL 448 Ecology of Plant Reproduction
- BIOL 450W Experimental Field Biology
- BIOL 461 Contemporary Issues in Science and Medicine
- BIOL 473 Laboratory in Mammalian Physiology
- BIOL 475N Anatomy in Italy: Cadavers, Culture, and Science
- BIOL 476 Advanced Human Anatomy - cadaver based
- BIOL 478 COMPARATIVE NEUROANATOMY
- BIOL 482 Coastal Biology
- BIOL 494 Research Project
- BIOL 495 Internship in Biology
- BIOL 496 Independent Studies
- BIOL 499A Tropical Field Ecology
- BIOTC 459 Plant Tissue Culture and Biotechnology
- SC 295 Science Co-op Work Experience I
- SC 395 Science Co-op Work Experience II
- SC 495 Science Co-op Work Experience III

### Supporting Courses and Related Areas

Select 15-20 credits from department list

### Program Learning Objectives

1. Students will be able to apply the physical, chemical and biological concepts in a biological system.
2. Students will be able to integrate scientific concepts across the curriculum.
3. Demonstrate proficiency in laboratory techniques.
4. Evaluate data sets, apply statistical analyses, and infer conclusions.
5. Communicate the understanding of biological and chemical processes.
6. Apply the knowledge they have gained to recognize and solve real world problems.
7. Students will be expected to work successfully as team members, while simultaneously building upon their abilities to become self-directed learners.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

**Suggested Academic Plan**

The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2019-20 academic year. To access previous years’ suggested academic plans, please visit the archive (http://bulletins.psu.edu/undergraduate/archive) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contain suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).
Harrisburg Campus

Biology

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

Total Credits 122-125

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
‡ Course is an Entrance to Major requirement
† Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of 'C' or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

Additional Notes:
- Fall and Summer only: BIOL 110 (in the fall, for first-year and second-years only; spring for third-year and fourth-years only)
- Fall only: BIOL 230W
- Spring only: BIOL 220W, BIOL 240W

Program Notes:
Be aware that most 400 level biology courses are taught only in one semester and over time, the semester offering can change.

Total Credits 126-131

* Course requires a grade of C or better for the major
† Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement
‡ Course satisfies General Education and degree requirement

University Requirements and General Education Notes:

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of “C” or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

### Additional Notes
Scheduling patterns for courses not taught each semester:

Fall and Summer only:

- BIOL 110 (in the fall for first-year and second-years only; spring for third-year and fourth years only)

Fall only:

- BIOL 230W
- BIOL 430

Spring only:

- BIOL 220W
- BIOL 240W
- BIOL 322

### Program Notes:

Be aware that most 400 level Biology courses are taught only in one semester and over time, the semester offering can change.

### Career Paths

A Biology BS degree provides an excellent foundation and the skills required for a wide range of technical careers. While many majors use a Biology degree to prepare for entrance into health professional schools, others follow career paths in research, education, and business. Students also pursue graduate study at universities both across the U.S. and internationally.

MORE INFORMATION ABOUT POTENTIAL CAREER OPTIONS FOR GRADUATES OF THE BIOLOGY PROGRAM (http://bio.psu.edu/undergraduate-portal/after-graduation)
