EARTH AND MINERAL SCIENCES

About the College
Lee Kump, Dean, College of Earth and Mineral Sciences

For more than a century, Penn State's College of Earth and Mineral Sciences has been a beacon of intellectual leadership on issues of utmost importance to the welfare of the Commonwealth, the nation, and beyond. The college is creating tomorrow’s leaders in Earth, energy, and materials sciences and engineering and plays an important role in preparing a diverse and talented workforce, as well as providing new knowledge that will drive the economic vitality of the state and the nation. With its top ranked programs and five academic departments, the college provides a comprehensive, high-quality education and is at the forefront of both innovative teaching and path-breaking research focused on meeting the needs of our global society.

Distinguished researchers and educators at the cutting edge of their disciplines are dedicated to supporting hands-on learning and research that provides each student with invaluable, experiential knowledge.

MORE INFORMATION ABOUT THE COLLEGE (https://www.ems.psu.edu/about)

Mission and Goals
By building on its reputation for scientific leadership in the earth, energy, and materials sciences and engineering, the College of Earth and Mineral Sciences' mission is to develop new discoveries about how the Earth’s systems interact with one another and with people and their institutions and to use the knowledge gained from those discoveries to inspire students to become new generations of leaders.

Departments and Schools
John and Willie Leone Family Department of Energy and Mineral Engineering
The John and Willie Leone Family Department of Energy and Mineral Engineering offers programs addressing topics such as the effective production, conversion, use, and management of energy. Instruction in theory, applications, and project design is augmented by hands-on training, problem-based learning, and interactive classes with individual attention.

MORE INFORMATION ABOUT THE JOHN AND WILLIE LEONE FAMILY DEPARTMENT OF ENERGY AND MINERAL ENGINEERING (http://www.eme.psu.edu)

Department of Geography
The Department of Geography offers a comprehensive academic program that includes bachelor’s degrees, minors, and certificates. Programs are designed to educate and inspire students to become critical and committed citizens who contribute to solutions for our planet.

MORE INFORMATION ABOUT THE DEPARTMENT OF GEOGRAPHY (http://www.geog.psu.edu)

Department of Materials Science and Engineering
The Department of Materials Science and Engineering offers an academic program that provides students with a broad understanding of materials as well as the fundamental techniques of science and engineering used in the discipline, and a flexible curriculum that allows students to tailor their degree to their particular interests.

MORE INFORMATION ABOUT THE DEPARTMENT OF MATERIALS SCIENCE AND ENGINEERING (http://www.matse.psu.edu)

Department of Meteorology and Atmospheric Science
The Department of Meteorology and Atmospheric Science offers a program that explores the significance of weather and climate as it relates to the environmental, energy, agricultural, oceanic, and hydrological sciences. Students study topics ranging from severe weather to numerical weather prediction to climate change to weather risk to air pollution.

Baccalaureate Degrees
• Earth Science and Policy, B.S.
• Earth Sciences, B.S.
• Energy and Sustainability Policy, B.A.
• Energy and Sustainability Policy, B.S.
• Energy Business and Finance, B.S.
• Energy Engineering, B.S.
• Environmental Systems Engineering, B.S.
• Geobiology, B.S.
• Geography, B.A.
• Geography, B.S.
• Geosciences, B.A.
• Geosciences, B.S.
• Liberal Arts and Earth and Mineral Sciences Concurrent Degree; Liberal Arts and Engineering Concurrent Degree (Earth and Mineral Sciences)
• Materials Science and Engineering, B.S.
• Meteorology and Atmospheric Science, B.S.
• Mining Engineering, B.S.
• Petroleum and Natural Gas Engineering, B.S.

Minors
• Climatology, Minor
• Earth and Sustainability, Minor
• Earth Systems, Minor
• Electrochemical Engineering, Minor
Academic Warning

A student who fails to earn a 2.00 cumulative grade-point average will be placed on academic warning. A student placed on academic warning will have a hold placed on registration and will be required to meet with faculty in charge of their program or an adviser in the Ryan Family Student Center for this registration hold to be removed. To remove academic warning, the cumulative grade-point average must be 2.00 or higher.

MORE INFORMATION ABOUT ACADEMIC WARNING (https://www.ems.psu.edu/undergraduate/academic-advising/policies-procedures-and-forms/academic-progress)

READ SENATE POLICY 54-20: ACADEMIC WARNING (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-20)

Academic Suspension

A student in academic warning who fails to maintain a semester grade-point average of 2.00 or higher will be academically suspended. A student who has been academically suspended may not schedule courses at the University for two consecutive semesters. (Note: Summer session is equal to one semester.)

A student seeking to return to the College of Earth and Mineral Sciences after suspension must have an advising appointment with an adviser in the Ryan Family Student Center prior to the deadline posted on the college website (https://www.ems.psu.edu/undergraduate/academic-advising/policies-procedures-and-forms/academic-progress).

MORE INFORMATION ABOUT ACADEMIC SUSPENSION (https://www.ems.psu.edu/undergraduate/academic-advising/policies-procedures-and-forms/academic-progress)

READ SENATE POLICY 54-40: ACADEMIC SUSPENSION (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/54-00-academic-progress/#54-40)

Administrative Enrollment Controls

Some majors in the College of Earth and Mineral Sciences are administratively enrollment controlled due to limited space, faculty, and other resources. Students should work closely with an academic adviser to ensure they are meeting all entrance to major requirements.

MORE INFORMATION ABOUT ADMINISTRATIVE ENROLLMENT CONTROLS FOR PROGRAMS IN THE COLLEGE OF EARTH AND MINERAL SCIENCES (https://advising.psu.edu/entrance-major-requirements-college-earth-and-mineral-sciences)

Concurrent Majors

A Concurrent Majors Program is one in which students take courses to concurrently meet the requirements of at least two majors, with graduation for all majors in the program occurring during the same semester. This requires careful planning; students must meet with the faculty adviser in charge of their program for approval.

READ SENATE POLICY 60-00: COMPLETING MORE THAN ONE UNDERGRADUATE MAJOR PROGRAM (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/60-00-completing-more-than-one-undergraduate-program/#60-00)

Resources

Ryan Family Student Center

The Ryan Family Student Center integrates tutoring, advising, student work space, and areas for casual interaction into a one-stop shop for student success. Services available to undergraduate students in the College of Earth and Mineral Sciences include academic advising, writing tutoring, math and physics tutoring, and a computer lab.

MORE INFORMATION ABOUT THE RYAN FAMILY STUDENT CENTER (https://www.ems.psu.edu/undergraduate/resources-undergrads/ryan-family-student-center)

Office of Educational Equity

Diversity among students and faculty is a top priority for the College of Earth and Mineral Sciences and the Office of Educational Equity takes an active role in promoting respect and embracing diversity and inclusion in the college.

(https://www.ems.psu.edu/undergraduate/beyond-classroom/diversity-programs)

**Beyond the Classroom**
All students in the College of Earth and Mineral Sciences are encouraged to participate in out-of-class experiences such as undergraduate research, study abroad, and internships. Opportunities exist within the college, across the University, and beyond.

MORE INFORMATION ABOUT OPPORTUNITIES BEYOND THE CLASSROOM (https://www.ems.psu.edu/undergraduate/beyond-classroom)

**Honors Programs**

**Schreyer Honors College**
The Schreyer Honors College, regarded as one of the nation's top programs of its kind, promotes achieving academic excellence with integrity, building a global perspective, and creating opportunities for leadership and civic engagement. Schreyer Scholars, including Gateway Scholars admitted after their first or second year of enrollment, are a diverse and motivated group of approximately 2,000 students at University Park and 20 Commonwealth campuses. The College strives to educate students who will have an important and ethical influence in the world, to improve educational practice, and to continue to be recognized as a leading force in honors education nationwide.
