EARTH SCIENCE AND POLICY, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park

Career Paths
An Earth Science and Policy degree can prepare you to work within a diverse set of industries or for further graduate study in many Earth science or policy-related fields.

Careers
Earth Science and Policy graduates may find careers in local, state, or federal government; investigating the impact of new scientific findings on industry practices; conducting science advocacy for a variety of institutions; consulting on land and water use policies; investigating the application of environmental law; or educating the public on the science behind issues involving the Earth, the environment, and sustainability.
