LIBERAL ARTS AND EARTH
AND MINERAL SCIENCES
CONCURRENT DEGREE;
LIBERAL ARTS AND
ENGINEERING CONCURRENT
DEGREE (EARTH AND
MINERAL SCIENCES)

Entrance to Major
To be eligible for this program, a student must file an application for
entrance with the associate dean for undergraduate studies, College
of the Liberal Arts, not later than the third semester. Entrance to the
program requires that the student satisfy all regular requirements of the
College of the Liberal Arts and the College of Earth and Mineral Sciences
or the College of Engineering. In addition, special requirements may need
to be satisfied when enrollment controls are imposed on programs in any
of the colleges because of space limitations. Once a student has met all
the requirements for entrance to this program, transfer from the College
of the Liberal Arts to the College of Earth and Mineral Sciences or the
College of Engineering, with enrollment in one of the majors listed, will
be approved automatically at the end of the sixth semester if the student
continues to make normal progress toward the concurrent degree and
has maintained a cumulative average of 2.00 or higher. Students entering
majors in the College of Engineering must complete the following courses
with a grade of C or higher: CHEM 110 and CHEM 111, MATH 140,
MATH 141, and PHYS 201, and meet the required cumulative grade-point
average for the requested engineering major.
