ASTRONOMY AND ASTROPHYSICS, B.S.

Begin Campus: Any Penn State Campus
End Campus: University Park

Degree Requirements
For the Bachelor of Science degree in Astronomy and Astrophysics, a minimum of 125 credits is required:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>

</thead>
<tbody>
<tr>
<td>General Education</td>
<td>45</td>
</tr>
<tr>
<td>Requirements for the Major</td>
<td>98</td>
</tr>
</tbody>
</table>

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 9 credits of GN courses; 6 credits of GQ courses; 3 credits of GWS courses.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Common Requirements for the Major (All Options)

</table>

Additional Courses
Select one of the following:

- CMPSC 121  Introduction to Programming Techniques
- CMPSC 201  Programming for Engineers with C++
- CMPSC 202

Supporting Courses and Related Areas

Supporting Courses and Related Areas: Require a grade of C or better
Select 12 credits from 400-level ASTRO courses

Requirements for the Option
Select an option

1 Except ASTRO 401, ASTRO 402W, ASTRO 494H, and ASTRO 496.

Requirements for the Option
Graduate Study Option (33 credits)

<tr>
<td>PHYS 419</td>
<td>Theoretical Mechanics</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional Courses
Select one of the following:

- MATH 405 Advanced Calculus for Engineers and Scientists I
- MATH 411 Ordinary Differential Equations
- MATH 417 Qualitative Theory of Differential Equations

Select 6-7 credits of the following:

- EE 471/ AERSP 490/NUCE 490 Introduction to Plasmas
- PHYS 402 Electronics for Scientists
- PHYS 406 Subatomic Physics
- PHYS 411 Introduction to Quantum Mechanics II
- PHYS 420 Thermal Physics
- PHYS 457 Experimental Physics
- PHYS 457W Experimental Physics
- PHYS 458 Intermediate Optics
- PHYS 479 Special and General Relativity

Supporting Courses and Related Areas
Select 3 additional credits from advanced courses in computer science and engineering, mathematics, or statistics
Select 10-11 credits in consultation with adviser from department list

Computer Science Option (33 credits)

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMPSC 122</td>
<td>Intermediate Programming</td>
<td>3</td>

<td>Object Oriented Programming with Web-Based Applications</td>
<td>3</td>
</tr>
<tr>
<td>CMPSC 451</td>
<td>Numerical Computations</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional Courses
Select one of the following:

- STAT 318 Elementary Probability
- STAT 319 Elementary Mathematical Statistics
- STAT 401 Experimental Methods
- STAT 414 Introduction to Probability Theory

Select two of the following:

- CMPEN 271 Introduction to Digital Systems
- CMPEN 331 Computer Organization And Design
- CMPSC 360 Discrete Mathematics for Computer Science
- CMPSC 465 Data Structures and Algorithms

Supporting Courses and Related Areas
Select 3 additional credits from advanced courses in computer science and engineering, mathematics, or statistics
Select 12 credits in consultation with adviser from department list

General Education
Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (https://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program/) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)
- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements
First Year Engagement
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.

Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80)). For more information, check the Suggested Academic Plan for your intended program.
