**NATURAL SCIENCE, MINOR**

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

**Program Description**

This interdepartmental minor in Natural Science is designed for nonscience students who wish to gain a better appreciation for science and the scientific method. The courses required in the minor include 3 to 4 credits of general education science designed for nonscience students, 3 to 4 credits of mathematical science, 8 to 9 credits of life or physical science, including some laboratory work, and 6 credits of 400-level science courses. Certain combinations of courses are disallowed (as listed in the curriculum description), and higher-level courses are generally accepted as substitutes for lower-level courses if both are offered by the same department. Any substitutes for laboratory courses must also be laboratory courses. Advising for students in this minor will be available through the Eberly College of Science Academic Advising Center and approval of curriculum exceptions will be through the faculty committee and professor in charge of the program.

**What is Natural Science?**

Science is a way of knowing. The Natural Science minor is designed for students in non-science majors to explore their curiosity and passion about the natural world. From introductory level to upper division immersion, you can delve into science topics and the scientific method. Students in majors of the Eberly College of Science are ineligible for this minor.

**You Might Like This Program If...**

You might like this minor if you are inherently curious about the natural sciences, mathematics and/ or statistics and their applications in everyday life.

**Program Requirements**

**Requirements for the Minor**

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Select 3-4 credits of the following: 3-4

- CMPSC 101: Introduction to Programming
- CMPSC 121: Introduction to Programming Techniques
- CMPSC 201: Programming for Engineers with C++
or CMPSC 202
- CMPSC 203: Introduction to Spreadsheets and Databases
- MATH 110: Techniques of Calculus I
- MATH 140: Calculus With Analytic Geometry I
- STAT 200: Elementary Statistics
- STAT 250: Introduction to Biostatistics

Select 8-9 credits of the following: 8-9

- BIOL 11 & BIOL 12: Introductory Biology I and Introductory Biology II
- BIOL 110: Biology: Basic Concepts and Biodiversity
- CHEM 110 & CHEM 111: Chemical Principles I and Experimental Chemistry I
- CHEM 112 & CHEM 113: Chemical Principles II and Experimental Chemistry II
- MICRB 201 & MICRB 202: Introductory Microbiology and Introductory Microbiology Laboratory
- PHYS 250: Introductory Physics I
- PHYS 251: Introductory Physics II

**Supporting Courses and Related Areas**

**Supporting Courses and Related Areas: Require a grade of C or better**

Select 0-2 credits of 496 (independent studies) courses from the Eberly College of Science course offerings

Select 3-5 credits of 400-level courses (other than independent studies) from the Eberly College of Science course offerings

**Academic Advising**

The objectives of the university's academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the
habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.
