ELECTRICAL ENGINEERING TECHNOLOGY, B.S. (ENGINEERING)

Begin Campus: Any Penn State Campus
End Campus: Wilkes-Barre

Program Description
The Bachelor of Science graduate with a major in Electrical Engineering Technology (EET) is an engineering technologist who can bridge the gap between scientific advancement and practical electrical devices and systems. Research in all fields of electrical engineering has produced an abundance of new knowledge in recent years. Many of these advanced scientific achievements have been unused due to the shortage of engineering technologists specifically educated to convert scientific information into practical devices and systems.

The EET major helps equip students with the various skills necessary to adapt new scientific knowledge to new products. Technical selections are offered in the senior year to provide some degree of specialization, but all graduates receive a well-rounded basic education in electrical and electronic design principles. The strengths of the program include: an applied hands-on program; extensive laboratory experience; promising job placement; and accreditation by the Engineering Technology Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

EET graduates who wish to continue their professional development can take the Fundamentals of Engineering examination in Pennsylvania, a prerequisite for taking the Professional Engineering examination.

Students are directed to https://bulletins.psu.edu/undergraduate/general-education/ for an explanation of the Penn State General Education requirements.

What is Electrical Engineering Technology?
Electrical engineering technology (EET) is an engineering technology field that implements and applies the principles of electrical engineering. Like electrical engineering, EET deals with the design, application, installation, manufacturing, operation or maintenance of electrical/electronic systems. However, EET is a specialized discipline that has more focus on application, theory, and applied design, and implementation, while electrical engineering may have more of a generalized emphasis on theory and conceptual design.

You Might Like This Program If...
- You enjoy problem-solving and math.
- You prefer practical rather than theoretical solutions, and application and implementation over conceptual modeling.
- You enjoy working on multidisciplinary teams on complex problems.
- You want to acquire knowledge to get a good job in industry.
- You want to pursue a career as a technologist in sectors such as manufacturing, product design, testing, or technical services and sales.

Entrance to Major
Entry to the Electrical Engineering Technology major requires a 2.00 or higher cumulative grade-point average.

Re-enrollment
Associate degree students should file a re-enrollment form during the final semester of their associate degree. Students re-enrolling from an associate’s degree into the bachelor’s degree should run a degree audit from LionPATH, using the EET major code, to determine their curriculum requirements. Similar considerations apply to students changing majors from programs in science or engineering.

Admission Requirements for Transfer Students
Applicants must have earned a high school diploma or equivalent and have attempted at least 18 semester credits at a regionally accredited college or university with at least a 2.0 cumulative grade-point average (4.0 scale). The evaluation of prior college work is done on an individual basis by the Office of Enrollment Services at Penn State Harrisburg.

Degree Requirements
For the Bachelor of Science degree in Electrical Engineering Technology, a minimum of 128 credits is required:

<table>
<thead>
<tr>

</tbody>
</table>

18 of the 45 credits for General Education are included in the Requirements for the Major. This includes: 3 credits of GWS courses; 9 credits of GN courses; 6 credits of GQ courses.

Requirements for the Major
To graduate, a student enrolled in the major must earn a grade of C or better in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

Common Requirements for the Major (All Options)

<tr>
<td>EGT 102</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Select 3 credits of the following:

- CMPSC 101 Introduction to Programming
- CMPSC 121 Introduction to Programming Techniques
- CMPSC 201 Programming for Engineers with C++

Select 6-8 credits of the following:

- PHYS 150 Technical Physics I
- PHYS 151 and Technical Physics II
- PHYS 211 General Physics: Mechanics
- PHYS 212 and General Physics: Electricity and Magnetism

Select 3-4 credits of the following:

- MATH 230 Calculus and Vector Analysis
- MATH 250 Ordinary Differential Equations
- STAT 200 Elementary Statistics

Select 4 credits of the following:

- CMPEN 271 & CMPEN 275 Introduction to Digital Systems and Design Laboratory
- CMPET 117 & CMPET 120 Digital Electronics and Design Laboratory

Select 3-4 credits of the following:

- CMPEH 472 Microprocessors
- CMPET 211 Embedded Processors and DSP

Select 3-4 credits of the following:

- EE 310 Electronic Circuit Design I
- EET 205 and EET 210

Select 3-5 credits of the following:

- EE 485 Energy Systems and Conversion
- EET 213W Fundamentals of Electrical Machines Using Writing Skills

Additional Courses: Require a grade of C or better

Select 5-8 credits of the following:

- EE 210 & EE 314 Circuits and Devices and Signals and Circuits II
- EE 315 Electrical Signals and Circuits with Lab
- EET 311 & EET 114 Alternating Current Circuits and Electrical Circuits II

Requirements for the Option

Select an option

1 Courses required by PSU 2 EET programs.
2 EET 114 does not require a grade of C or better.

Requirements for the Option

Computer Engineering Technology Option (26 credits)

Available at the following campuses: Harrisburg, Wilkes-Barre

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMPEN 431</td>
<td>Introduction to Computer Architecture</td>
<td>3</td>

<tr>
<td>CMPET 403</td>
<td>Switching Circuit Design</td>
<td>4</td>
</tr>
</tbody>
</table>

Additional Courses

- CMPSC 122 Intermediate Programming
- CMPSC 402

Applications Elective

Select 4 credits of technical electives of the following:

- CMPET 412 Microprocessors
- EET 456 Automation and Robotics

CMPET Technical Electives

Select 8 credits of the following:

- EE 341 Semiconductor Device Principles
- EE 441 Semiconductor Integrated Circuit Technology
- EE 453 Fundamentals of Digital Signal Processing
- EET 402 High-Frequency Circuit Design
- EET 408 Communication System Design
- EET 413 Optoelectronics
- EET 414 Biomedical Instrumentation
- EET 431 Advanced Electronic Design
- EET 433 Control System Analysis and Design
- EET 478 Digital Communication Systems
- ET 496 Independent Studies

General Electrical Engineering Technology Option (26 credits)

Available at the following campuses: Harrisburg, Wilkes-Barre

<table>
<thead>
<tr>

</tbody>
</table>

Additional Courses

- CMPSC 452
The requirements for some programs may exceed 120 credits. A minimum of 120 degree credits must be earned for a baccalaureate degree. The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

**Foundations (grade of C or better is required.)**
- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

**Knowledge Domains**
- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

**Integrative Studies (may also complete a Knowledge Domain requirement)**
- Inter-Domain or Approved Linked Courses: 6 credits

**University Degree Requirements**

**First Year Engagement**
All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

**Cultures Requirement**
6 credits are required and may satisfy other requirements
- United States Cultures: 3 credits
- International Cultures: 3 credits

**Writing Across the Curriculum**
3 credits required from the college of graduation and likely prescribed as part of major requirements.

**Total Minimum Credits**
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits.

Students should consult with their college or department adviser for information on specific credit requirements.

**Quality of Work**
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

**Limitations on Source and Time for Credit Acquisition**
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80 [https://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#83-80]). For more information, check the Suggested Academic Plan for your intended program.

**Academic Advising**
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

READ SENATE POLICY 32-00: ADVISING POLICY ([https://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/](https://senate.psu.edu/policies-and-rules-for-undergraduate-students/32-00-advising-policy/))

**Wilkes-Barre**
Timothy Sichler
Assistant Teaching Professor
44 University Drive
Dallas, PA 18612
570-675-9135
tjs37@psu.edu

**Harrisburg**

Program Chair
Olmsted Building, W256a
Middletown, PA 17057
717-948-6349
mes121@psu.edu

**Suggested Academic Plan**
The suggested academic plan(s) listed on this page are the plan(s) that are in effect during the 2022-23 academic year. To access previous years’ suggested academic plans, please visit the archive ([https://bulletins.psu.edu/undergraduate/archive/](https://bulletins.psu.edu/undergraduate/archive/)) to view the appropriate Undergraduate Bulletin edition (Note: the archive only contains suggested academic plans beginning with the 2018-19 edition of the Undergraduate Bulletin).
General Option: Electrical Engineering Technology, B.S. at Wilkes-Barre Campus

The course series listed below provides only one of the many possible ways to move through this curriculum. The University may make changes in policies, procedures, educational offerings, and requirements at any time. This plan should be used in conjunction with your degree audit (accessible in LionPATH as either an Academic Requirements or What If report). Please consult with a Penn State academic adviser on a regular basis to develop and refine an academic plan that is appropriate for you.

* Course requires a grade of C or better for the major
‡ Course requires a grade of C or better for General Education
# Course is an Entrance to Major requirement

† Course satisfies General Education and degree requirement

**University Requirements and General Education Notes:**

US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

1 Math electives include: MATH 230, MATH 250, MATH 408, MATH 411, MATH 444, MATH 446, STAT 200.
2 GEET electives include: CMPETH 449, CMPET 401, CMPET 402, CMPET 403, CMPET 412, CMPEN 431, EET 441, EE 453, EET 453, EET 410, EET 413, EET 414, EET 456, EET 478, ET 496
3 Electronics Elective: Select 4 credits from: EET 402, EET 423, EET 431.
4 System Elective: Select 8 credits of technical electives from: EET 408, EET 409, EET 433.

**Career Paths**

According to the U.S. Bureau of Labor Statistics, electrical engineering technologists work closely with electrical and electronics engineers and computer hardware engineers in the computer systems design services industry. Opportunities can be found in a variety of firms engaged in electronic manufacturing, industrial control, applications engineering, and in power utilities. EET graduates are encouraged to continue their professional development by taking the Fundamentals of Engineering Examination at the end of their senior year; the FE exam is a prerequisite for taking the Professional Engineering Examination.

**Careers**

- Design, maintain, troubleshoot electronic circuits and systems. These range from power electronics, fiber optics, control systems, networking technologies, electronic systems, etc.
- Strong focus on power generation and distribution.
- Strong introduction to embedded systems.
- Automation of facilities: From distribution centers to manufacturing plants.
- Experience in the use of hardware used in instrumentation laboratories.
- This program trains students in the same software as currently used by industry.
Opportunities for Graduate Studies
Graduates of the EET program are eligible to pursue graduate studies in a variety of programs such as Electrical Engineering, Systems Engineering, Engineering Management, etc. In some cases prior to being accepted to these programs, graduates of the EET program may be required to take additional math courses.

Accreditation
This program is accredited by the Engineering Technology Accreditation Commission of ABET, www.abet.org (http://www.abet.org).
MORE INFORMATION ABOUT ABET ACCREDITATION (http://www.abet.org)

Professional Licensure/Certification
Many U.S. states and territories require professional licensure/certification to be employed. If you plan to pursue employment in a licensed profession after completing this program, please visit the Professional Licensure/Certification Disclosures by State (https://psu.edu/state-licensure-disclosures/) interactive map.
