GERONTOLOGY, MINOR

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description
The intercollege minor in Gerontology is designed for students to gain an in-depth understanding of the aging process and old age. With the growth of the number of older people in the population, increased need has arisen for people with knowledge of the aging process in a variety of professional and occupational roles. In conjunction with the student’s major, the minor prepares students for entry-level human service positions working with the elderly, or for graduate or professional school programs including communication disorders, counseling, health planning and administration, medicine, psychology, recreation and park management, and social work where knowledge of the aging process and problems of older people is relevant. Eighteen credits are required for the minor, including at least 6 credits at the 400 level.

What is Gerontology?
Gerontology is the comprehensive study of aging as a developmental process using the many disciplinary frameworks of the biological, life, and health sciences, social and behavioral sciences, and arts and humanities. The intercollege minor in Gerontology at Penn State offers students in all colleges and campuses an opportunity to learn about this complex and important field through multidisciplinary study. As scientific and societal successes extended the human lifespan, population aging has now become a common phenomenon across many nations. There is enormous need for individuals with an understanding of aging processes who can work as clinicians, health professionals, managers, researchers and more.

Requirements for the Minor
A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Code    Title                                                                 Credits
Prescribed Courses: Require a grade of C or better
HDFS 249 Introduction to the Biology of Aging                          3
or
SOC 35 Sociology of Aging                                           3
SOC 425/435 Perspectives on Aging                                     3
or
HDFS 434 Development Throughout Adulthood                              3
HDFS 445/447 Principles of Epidemiology                                3
Select 9 credits of the following:                                     9
ADTED 460 Introduction to Lifelong Learning and Adult Education       3
AYFCE/CIED 845 Intergenerational Programs and Practices (must be approved by the Graduate School) 3
BBH 316 Foundations and Principles of Health Promotion                3
BBH 410 Developmental and Health Genetics                             3
BBH/HPA 440 Principles of Epidemiology                                3
BIOL 155 Introduction to the Biology of Aging                         3
CAS 421 Communication and Aging                                      3
HPA 101 Introduction to Health Services Organization                 3
HPA 332 Health Systems Management                                     3
HPA 442 Long-Term Care Management                                     3
HDFS 413 Developmental Problems in Adulthood                         3
HDFS 445/447 Development Throughout Adulthood                         3
HDFS 446 Programs and Services in Gerontology                        3
HDFS 447 Issues in Gerontology                                       3
HM 306 Hospitality in Senior Living                                  3
KINES 465 Neurobiology of Sensorimotor Stroke Rehabilitation          3
KINES 481W Scientific Basis of Exercise for Older Adults              3
NURS 115 Medications and the Elderly Client                           3
NURS 310 Therapeutic Nursing Care of the Older Adult Client in a Variety of Settings 3
NURS 464 Dying and Death                                             3
RM 401 Fundamentals of Private Pensions                              3
SOC 35 Sociology of Aging                                            3
SOC 423 Social Demography                                            3
SOC 435 Perspectives on Aging                                        3

Note: Students may enroll in special topics courses (297, 497) that focus on aging or old age, with faculty permission. With faculty approval, students may also enroll for independent studies in their major department to write a senior thesis focused on an issue of aging.

Academic Advising
The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of
both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information need to plan the chosen program of study, and referrals to other specialized resources.

Career Paths
With the growth in the number of older persons in the U.S. and globally, nearly every health profession, from geriatricians (physicians who specialize in care for older persons) to hospice nurses, is impacted by the need for health care among an aging population. In addition, older people are living more active lives, so fitness and recreational professionals and hospitality and tourism managers see increased demand from older persons. And, the increase in the aging population is placing new challenges on organizations, families, and communities, so anyone interested in these societal organizations will be affected by gerontological issues.
