CRIMINOLOGY, B.S.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Description

Not all options are available at every campus. Contact the campus you are interested in attending to determine which options are offered.

This major provides the opportunity to develop a stronger foundation in research methods, quantification, and the sciences. It prepares students with relevant aptitudes for pursuing further studies or finding employment where such knowledge is advantageous. Students contemplating futures in social science research, business, forensics, public service, and paralegal positions should consider this degree or some of its recommended courses.

Either the B.A. or B.S. degree is suitable for students seeking entry level positions in the criminal justice system and for students interested in graduate and law school. Students interested in acquiring strong quantitative skills should consider the B.S. degree.

What is Criminology?

Criminology is a broad and interdisciplinary field of study that promotes an understanding of crime and the criminal justice system and how they relate to human behavior, social environments, and government policy. Examples of topics studied in Criminology are: the causes and consequences of deviant and/or criminal behavior; the structure and functions of the criminal justice system; societal and individual reactions to crimes and criminal justice processing; the spatial and geographical elements associated with crime and poverty; and the dynamics of criminal justice policy making.

You Might Like This Program If...

- You are interested in studying human behavior through an interdisciplinary lens.
- You are fascinated with deviance and/or criminal behavior.
- You would like to study the functioning of the criminal justice system.
- You’re passionate about issues of social justice.
- You would like to go to law school or graduate school.
- You want to pursue a career in policing, corrections or governmental.

Entrance to Major

In order to be eligible for entrance to this major, a student must:

1. attain at least a C (2.00) cumulative grade-point average for all courses taken at the University; and
2. have third-semester classification (http://www.registrar.psu.edu/registration/semester_classification.cfm).

</table>

4 of these 45 credits are included in the Requirements for the Major. This includes 4 credits of General Education GQ courses.

Per Senate Policy 83-80.5, the college dean or campus chancellor and program faculty may require up to 24 credits of coursework in the major to be taken at the location or in the college or program where the degree is earned. For more information, check the Recommended Academic Plan for your intended program.

General Education

Connecting career and curiosity, the General Education curriculum provides the opportunity for students to acquire transferable skills necessary to be successful in the future and to thrive while living in interconnected contexts. General Education aids students in developing intellectual curiosity, a strengthened ability to think, and a deeper sense of aesthetic appreciation. These are requirements for all baccalaureate students and are often partially incorporated into the requirements of a program. For additional information, see the General Education Requirements (http://bulletins.psu.edu/undergraduate/general-education/baccalaureate-degree-general-education-program) section of the Bulletin and consult your academic adviser.

The keystone symbol appears next to the title of any course that is designated as a General Education course. Program requirements may also satisfy General Education requirements and vary for each program.

Foundations (grade of C or better is required.)

- Quantification (GQ): 6 credits
- Writing and Speaking (GWS): 9 credits

Knowledge Domains

- Arts (GA): 6 credits
- Health and Wellness (GHW): 3 credits
- Humanities (GH): 6 credits
- Social and Behavioral Sciences (GS): 6 credits
- Natural Sciences (GN): 9 credits

Integrative Studies (may also complete a Knowledge Domain requirement)

- Inter-Domain or Approved Linked Courses: 6 credits

University Degree Requirements

First Year Engagement

All students enrolled in a college or the Division of Undergraduate Studies at University Park, and the World Campus are required to take 1 to 3 credits of the First-Year Seminar, as specified by their college First-Year Engagement Plan.

Other Penn State colleges and campuses may require the First-Year Seminar; colleges and campuses that do not require a First-Year Seminar provide students with a first-year engagement experience.

First-year baccalaureate students entering Penn State should consult their academic adviser for these requirements.

Cultures Requirement

6 credits are required and may satisfy other requirements.
• United States Cultures: 3 credits
• International Cultures: 3 credits

Writing Across the Curriculum
3 credits required from the college of graduation and likely prescribed as part of major requirements.

Total Minimum Credits
A minimum of 120 degree credits must be earned for a baccalaureate degree. The requirements for some programs may exceed 120 credits. Students should consult with their college or department adviser for information on specific credit requirements.

Quality of Work
Candidates must complete the degree requirements for their major and earn at least a 2.00 grade-point average for all courses completed within their degree program.

Limitations on Source and Time for Credit Acquisition
The college dean or campus chancellor and program faculty may require up to 24 credits of course work in the major to be taken at the location or in the college or program where the degree is earned. Credit used toward degree programs may need to be earned from a particular source or within time constraints (see Senate Policy 83-80). For more information, check the Suggested Academic Plan for your intended program.

Requirements for the Major
A grade of C or better is required for all courses in the major. To graduate, a student enrolled in the major must earn at least a C grade in each course designated by the major as a C-required course, as specified by Senate Policy 82-44 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/82-00-and-83-00-degree-requirements/#82-44).

**Integrated Undergraduate/Graduate Degree Program B.S. in Criminology and Masters of Public Policy**

This Integrated Undergraduate/Graduate program (IUG) provides an opportunity for academically strong students to complete a bachelor of science degree in criminology and a master's degree in public policy in the course of approximately five years of study. The public policy curriculum and criminology curriculum cover require similar technical and analytic skills and provide complementary substantive knowledge – criminal justice is an important area of policy making from a public policy standpoint and it is critical to understand the policy process to understand the structure and impacts of criminal justice policies.

Students in the MPP are required to complete an elective specialization of four courses. Students in the Criminology-MPP IUG will take two 400 and two 500 level courses in their fourth year of study that will double count for both the Criminology BS and MPP. The students’ IUG specific program of study will be structured on an individual basis giving IUG students a range of program options from the menu of course selections summarized below.

**Admission**

Qualified students can apply formally during the semester in which they will complete 60 credits, typically the spring semester of their sophomore year. Consistent with general guidelines, students shall be admitted to an IUG program no earlier than the beginning of the third semester of undergraduate study at Penn State (regardless of transfer or AP credits accumulated prior to enrollment). It is recommended that students apply for admission to the IUG program before completing 90 credits, or in the last semester of their junior year, but consistent with general IUG guidelines, students can apply as late as the end of the second week of the semester preceding the semester of expected conferral of the undergraduate degree.

Admission is selective based on criteria established by the leadership of the public policy program and political science program. Though exceptions are possible, student applicants will generally have a minimum overall GPA of 3.4 in their major, and a minimum 3.4 GPA overall at the time of application (on a 4.0 scale). Students are admitted to the IUG based on good progress in their major, success in statistics and data analysis courses (evidenced by minimum 3.0 GPA in undergraduate data analysis and statistics courses), faculty recommendations (two letters), GPA and a 2-page statement of purpose explaining why they want to participate in this program and why they are qualified to do so. Students must apply to the program via the Graduate School application for admission, and must meet all the admission requirements of the Graduate School and the Public Policy graduate program for the Master of Public Policy degree.

GRE scores are not required for IUG applicants.

In consultation with an adviser, students must prepare a plan of study appropriate to this integrated program, and must present their plan of study in person to the head of the graduate program or the appropriate committee overseeing the integrated program prior to being admitted to the program. The plan should cover the entire time period of the integrated program, and it should be reviewed periodically with an adviser as the student advances through the program.

**Advising**

Students admitted to the program are advised by co-advisors, one from each participating unit. Each student will have a primary advisor in public policy who will work with the student and the co-advisor in criminology to ensure successful completion of the degree. The co-advisors will help the student prepare the initial plan of study, and assist in making changes and approving the student’s plan of study each semester during the advising period.

**Sequence of Courses**

During the first three years of study students will follow the basic course sequence provided for by the existing BS plan in criminology. In the fourth year of study they will take four courses that will double count toward the BS in criminology and the masters in public policy four course specialization in criminal justice policy. At least two of these courses will be at the 500 level. Students who wish to graduate in 5 years will also take additional MPP courses in their fourth year beyond this two, but these credits will count only toward the MPP degree.

**Plan of Study**

Prior to admission to the program, and in consultation with their criminology and public policy advisors, students must prepare a detailed plan of study for years 4 and 5 of the program. The plan is periodically reviewed by the student and advisors, and revised as necessary. Most students will complete all requirements for the BS in criminology and complete some graduate level MPP requirements in the first four years, and take only MPP courses in year 5.

**Degree Requirements**

Students must fulfill all requirements for each degree in order to be awarded that degree, subject to the double-counting of credits as outlined below. Degree requirements for the B.S. in Criminology are listed in the Undergraduate Bulletin. Degree requirements for the M.P.P. degree
are listed on the Degree Requirements tab. Up to 12 credits may be double-counted towards the degree requirements for both the graduate and undergraduate degrees; a minimum of 50% of the double-counted courses must be at the 500 or 800 level. Credits associated with the culminating experience for the graduate degree cannot be double-counted. The courses that are eligible to double count for both degrees are: CRIM 424, CRIM 430, CRIM 433, CRIM 435, CRIM 490, CRIM 501, CRIM 512, CRIM 597.

Students must sequence their courses so all undergraduate degree requirements are fulfilled before taking courses to count towards the graduate degree. If students accepted into the IUG program are unable to complete the M.P.P. degree, they are still eligible to receive their undergraduate degree if all the undergraduate degree requirements have been satisfied.

**Program Learning Objectives**

1. Recognize the causes and consequences of crime at the micro and macro levels and match these with prominent criminological perspectives.
2. Describe the interrelated institutions and processes of the criminal justice system.
3. Apply theories of crime and criminal justice to explain actual and hypothetical scenarios, behaviors, and trends.
4. Explain the various social science methods of inquiry and use these to test specific criminological research questions.
5. Recognize and explain macro-social inequities in crime and criminal justice processes by race, social class, gender, region and age.
6. Locate and consult works in the area to produce a research paper that is coherent, cogent, and attentive to conventions of the field.

**Academic Advising**

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.

University Requirements and General Education Notes:
US and IL are abbreviations used to designate courses that satisfy University Requirements (United States and International Cultures).

W, M, X, and Y are the suffixes at the end of a course number used to designate courses that satisfy University Writing Across the Curriculum requirement.

GWS, GQ, GHW, GN, GA, GH, and GS are abbreviations used to identify General Education program courses. General Education includes Foundations (GWS and GQ) and Knowledge Domains (GHW, GN, GA, GH, GS, and Integrative Studies). Foundations courses (GWS and GQ) require a grade of ‘C’ or better.

Integrative Studies courses are required for the General Education program. N is the suffix at the end of a course number used to designate an Inter-Domain course and Z is the suffix at the end of a course number used to designate a Linked course.

All incoming Schreyer Honors College first-year students at University Park will take ENGL/CAS 137 in the fall semester and ENGL/CAS 138 in the spring semester. These courses carry the GWS designation and replace both ENGL 30 and CAS 100. Each course is 3 credits.

Advising Note
All incoming first-year students must take a First-Year Seminar (FYS) during Fall or Spring of their first year. Academic advisers can provide a list of FYS being offered and help the student enroll. Most FYS in the College of the Liberal Arts are worth 3 cr. and count as a General Humanities (GH) or General Social Sciences (GS) course. For this reason, the FYS is not listed separately on this eight-semester plan; most students will be able to fulfill the FYS requirement while also fulfilling a GH or GS requirement.

Commonwealth Campuses
