DIGITAL HUMANITIES, MINOR

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Program Description

The Digital Humanities minor combines historical and theoretical course work with intensive practical training in the creation and use of digital media tools and computational systems. Combining the broad perspective of liberal arts training with in-demand technical skills, the minor seeks to incorporate a public facing projects and digital research opportunities in order to provide students with a successful transition from college to an increasingly technological job market. With a large number of courses from a variety of programs, collaboration between colleges, departments, and faculty, and students will be a hallmark of the minor.

Program Requirements

Requirements for the Minor

A grade of C or better is required for all courses in the minor, as specified by Senate Policy 59-10 (http://senate.psu.edu/policies-and-rules-for-undergraduate-students/59-00-minors-and-certificates/#59-10).

Academic Advising

The objectives of the university’s academic advising program are to help advisees identify and achieve their academic goals, to promote their intellectual discovery, and to encourage students to take advantage of both in-and out-of class educational opportunities in order that they become self-directed learners and decision makers.

Both advisers and advisees share responsibility for making the advising relationship succeed. By encouraging their advisees to become engaged in their education, to meet their educational goals, and to develop the habit of learning, advisers assume a significant educational role. The advisee’s unit of enrollment will provide each advisee with a primary academic adviser, the information needed to plan the chosen program of study, and referrals to other specialized resources.
