SPANISH, MINOR

Requirements for a minor may be completed at any campus location offering the specified courses for the minor. Students may not change from a campus that offers their major to a campus that does not offer their major for the purpose of completing a minor.

Career Paths

A minor in Spanish enhances almost any major, as it indicates a level of proficiency that employers in government, business, law, medicine, and education value. If in addition to completing a minor you have also studied in Spain or Latin America, you will find that your knowledge of Spanish language and culture will place you ahead of other applicants. You will very likely discover that while you may not be hired because of your Spanish skill, it will never be irrelevant. When your employer realizes you can communicate with foreign clients, vendors, officials, patients, students, migrants, your stock may soar.

Careers

Your minor in Spanish will appeal to employers in business, who value international competence; in government, where you may find a career with almost every agency serving an increasing Hispanic population; in medicine, where health care practitioners with knowledge of Spanish are in great demand; in law and law enforcement, where too few are trained to address the needs and interests of Spanish speakers. No matter what your major might be, or where your career may take you, your Spanish minor will be a significant career enhancer.

Opportunities for Graduate Studies

A minor in Spanish will cover your world language requirement in graduate school. It will also strengthen your application to graduate school in certain fields, including comparative literature, international relations or politics, medicine, law, cultural anthropology, and sociology.
