ADMINISTRATIVE ENROLLMENT CONTROLS

Administrative Enrollment Controls are initiated when limitations of space, faculty, or other resources in a major prevent accommodating all students who request them. Students must follow the administrative enrollment controls that are in effect for the semester that they enter the university.

Below are the Administrative Enrollment Controls for first-year students entering Summer 2025, Fall 2025, and Spring 2026. Students who entered the University from Summer 2018 through Spring 2025 should view the administrative enrollment controls in the appropriate Undergraduate Bulletin archive (https://bulletins.psu.edu/undergraduate/archive/). Students who entered the University prior to the summer 2018 semester should consult with their academic adviser about the administrative enrollment controls in effect for the semester they entered the university.

In addition to satisfying the requirements listed below, a degree candidate must be enrolled in either the college housing the major or the Division of Undergraduate Studies for entrance to a major with administrative enrollment controls.
