USING THIS BULLETIN

Understanding Course Description Information
The course description data that appears in the University Bulletins is directly imported from LionPATH, the student information system. At several times within an academic year, new or updated course description information is approved by the Faculty Senate and entered into LionPATH. This updated information subsequently appears in the University Bulletins on the date(s) it takes effect.

What course description data is currently showing in the University Bulletins?
There are three course effective dates within an academic year. These effective dates correspond to the semesterly releases of the Schedule of Courses. The University Bulletins shows course description data that is active as of the most recently released Schedule of Courses. When an upcoming semester’s Schedule of Courses is released, the course description information is updated on the same day to match that course data.

Course Description Update Calendar
- **September 8, 2020:** University Bulletins begins showing course description information that is active for the Spring 2021 semester
- **November 16, 2020:** University Bulletins begins showing course description information that is active for the Summer 2021 semester
- **February 1, 2021:** University Bulletins begins showing course description information that is active for the Fall 2021 semester

Previous Versions of Course Description Information
If a course description is updated after the beginning of an academic year, the previous course description information for that course can be found on the Changes to the UG Bulletin page (p. ). Course description information from past years can be found in the appropriate archived Bulletin edition (http://bulletins.psu.edu/undergraduate/archive/).
