### Opportunities for Graduate Studies

All students graduating on or before September 30, 2023 and interested in participating in the program are welcome to apply. In order to join, you must have six semesters\* as a full-time student remaining before you graduate (bachelors or graduate work), a 2.0 cumulative GPA, passing fitness and medical standards, and good character. Graduating before that date or already have your bachelor's degree? You can begin your masters while you train with Air Force ROTC. After entering active duty, you can earn Tuition Assistance to aid in the completion of your master's degree.

\* *Summer semesters do not count.*
