ARCHITECTURAL ENGINEERING TECHNOLOGY (AET)

AET 101: Building Materials
3 Credits
Structural and architectural use of building materials and construction assemblies.

AET 102: Methods of Construction
3 Credits
Materials and methods of construction used in buildings, as expressed in drawings.
Prerequisite: AET 101, EG 101, EG 102

AET 113: Site Planning
2 Credits
Energy conservation through optimum site utilization, contours, cut and fill calculations, storm drainage, spot grading, and finish grading.

AET 121: Introduction to Building Environmental Systems
2 Credits
Introduction to building environmental systems technology terminology, concepts, and the design process.

AET 206: Architectural Presentation
2 Credits
Visual communication through architectural presentation drawings. Line, value, color, and composition.
Prerequisite: EG 001 or EG 003

AET 296: Independent Studies
1-18 Credits/Maximum of 18
Creative projects, including research and design, that are supervised on an individual basis and that fall outside the scope of formal courses.

AET 297: Special Topics
1-9 Credits/Maximum of 9
Formal courses given infrequently to explore, in depth, a comparatively narrow subject which may be topical or of special interest.
