

# ENTOMOLOGY

---

<b>Graduate Program Head</b>	Gary W. Felton
<b>Program Code</b>	ENT
<b>Campus(es)</b>	University Park (Ph.D., M.S.)
<b>Degrees Conferred</b>	Doctor of Philosophy (Ph.D.) Master of Science (M.S.) Dual-Title Ph.D. and M.S. in Entomology and Comparative and International Education Dual-Title Ph.D. and M.S. in Entomology and International Agriculture and Development Dual-Title Ph.D. and M.S. in Entomology and Operations Research
<b>The Graduate Faculty</b>	View ( <a href="https://secure.gradsch.psu.edu/gpms/?searchType=fac&amp;prog=ENT">https:// secure.gradsch.psu.edu/gpms/? searchType=fac&amp;prog=ENT</a> )

Students in Entomology represent a range of experiences and interests, with varied backgrounds from biology, chemistry, zoology, entomology, meteorology, ecology, and botany programs to name a few. You will find an exceptional faculty that offer an unequalled range of research expertise and breadth within our focus areas. The strength of our research resides in four main program themes:

- Chemical Ecology
- Ecological Applications
- Disease Biology and Ecology
- Pollinator Biology and Ecology

Many opportunities are available for study abroad experiences from which students return with a new perspective that enhances their studies and research. Additional specialization is available to students conducting research with insects in intercollege degree programs in ecology, genetics and plant biology.
