The Neuroscience (NERV) Graduate Program at University Park is an Intercollege Graduate Degree Program affiliated with the Huck Institutes of the Life Sciences, the Eberly College of Science, and the College of Engineering. The program provides pedagogical and research training in the field of neuroscience which is inherently interdisciplinary and spans from molecules to organisms and utilizes both animal and human models. Students receive training in research and communications skills to enable them to succeed in careers in biomedical research and other professional fields related to the discipline. The Neuroscience Graduate Program engages faculty from the Colleges of Agriculture, Engineering, Health and Human Development, Information Sciences and Technology, Liberal Arts, and Science. Students gain a broad understanding of Neuroscience as well as specific expertise in their focused area of research..
